Supplemental Information for Statement of Cash FlowsA Cash, cash equivalents, and restricted cash and cash equivalents per the Statement of Cash Flows consists of the following: A to Nine Months Ended September 30, A Cash and Cash Equivalents, and Restricted CashA 2024A to 2023A to A to A to A Cash and cash equivalentsA 118,460A to 54,627A Restricted cash and cash equivalentsA 10,897A to 8,434A to A 129,357A to A 63,061A to A 20Table of ContentsA Ur-Energy Inc.Notes to Condensed Consolidated Financial Statements (Unaudited)September 30, 2024(expressed in thousands of U.S. dollars, except share data)AInterest expense paid was nil and \$0.1 million for the three and nine months ended September 30, 2024, respectively, and \$0.1 million and \$0.4 million for the three and nine months ended September 30, 2023, respectively.A Accounts payable included \$1.4 million of insurance and surety bond expenses and \$0.6 million in equipment purchases at September 30, 2024. Accounts payable included \$0.2 million in equipment purchases at December 31, 2023. As these did not affect cash balances at the respective dates, they have been adjusted on the Statement of Cash Flow.A 17. Financial InstrumentsA The CompanyA financial instruments consist of cash and cash equivalents, trade receivables, lease receivable, restricted cash and cash equivalents, accounts payable and accrued liabilities, notes payable, and warrant liabilities. The Company is exposed to risks related to changes in interest rates and management of cash and cash equivalents.A A Credit riskA Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash and cash equivalents, and restricted cash and cash equivalents. These assets include Canadian dollar and U.S. dollar denominated certificates of deposit, money market accounts, and demand deposits. These instruments are maintained at financial institutions in Canada and the U.S. Of the amount held on deposit, approximately \$0.6 million is covered by the Canada Deposit Insurance Corporation, the Securities Investor Protection Corporation, or the U.S. Federal Deposit Insurance Corporation, leaving approximately \$128.7 million at risk on September 30, 2024, should the financial institutions with which these amounts are invested be rendered insolvent. The Company considers any expected credit losses on its financial instruments to be nominal as of September 30, 2024.A A Currency riskA As of September 30, 2024, we maintained a balance of approximately \$2.5 million Canadian dollars.A The funds will be used to pay Canadian dollar expenses and are considered to be a low currency risk to the Company.A A Liquidity riskA A Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. As of September 30, 2024, the CompanyA financial liabilities consisted of accounts payable and accrued liabilities of \$7.1 million, and the current portion of lease liability of \$0.3 million. As of September 30, 2024, the Company had \$118.5 million of cash and cash equivalents.A A Interest rate riskA The Company has completed a sensitivity analysis to estimate the impact that a change in interest rates would have on the net loss and considers the change to be a low interest rate risk to the Company.A 21Table of ContentsA Item 2. MANAGEMENTA S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONA Business OverviewA The following discussion and analysis by management is designed to provide information that we believe is necessary for an understanding of our financial condition, changes in financial condition, and results of our operations and should be read in conjunction with the audited financial statements and MD&A contained in our Annual Report on Form 10-K for the year ended December 31, 2023.A A Incorporated on March 22, 2004, Ur-Energy is an exploration stage issuer, as that term is defined by the SEC. We are engaged in uranium recovery and processing activities, including the acquisition, exploration, development, and operation of uranium mineral properties in the U.S. We are operating our first in situ recovery uranium facility at our Lost Creek Project in Wyoming. Ur-Energy is a corporation continued under the Canada Business Corporations Act on August 8, 2006. Our common shares are listed on the TSX under the symbol æœURÊæ and on the NYSE American under the symbol æœURG.æ&A Ur-Energy has one wholly owned subsidiary, Ur-Energy USA Inc., incorporated under the laws of the State of Colorado. Ur-Energy USA Inc. has three wholly-owned subsidiaries: NFU Wyoming, LLC, a limited liability company formed under the laws of the State of Wyoming which acts as our land holding and exploration entity; Lost Creek ISR, LLC, a limited liability company formed under the laws of the State of Wyoming to operate our Lost Creek Project and hold our Lost Creek properties and assets; and Pathfinder Mines Corporation, incorporated under the laws of the State of Delaware, which holds, among other assets, the Shirley Basin Project in Wyoming. Our material U.S. subsidiaries remain unchanged since the filing of our Annual Report on Form 10-K, dated March 6, 2024.A A We utilize in situ recovery (æœISRæ) of the uranium at our flagship project, Lost Creek, and will do so at other projects where possible. The ISR technique is employed in uranium extraction because it allows for an effective recovery of roll front uranium mineralization at a lower cost. At Lost Creek, we extract and process uranium oxide (æœU3O8æ) for shipping to a third-party conversion facility to be weighed, assayed and stored until sold. After sale, when further processed, the uranium we have produced fuels carbon-free, emissions-free nuclear power which is a cost-effective, safe, and reliable form of electrical power. Nuclear power provides an estimated 50% of the carbon-free electricity in the U.S.A A Our Lost CreekA Project is permitted and licensed for annual recovery of up to 1.2 million pounds U3O8. The processing facility at Lost Creek, which includes all circuits for the production, drying and packaging of U3O8 for delivery into sales transactions, is designed and approved under current licensing to process up to 2.2 million pounds of U3O8 annually, which provides additional capacity of up to one million pounds U3O8 to process material from other sources. The Lost Creek processing facility will be utilized to process captured U3O8 from our Shirley Basin Project for which a satellite plant will be built in 2025. However, the Shirley Basin permit and license allow for the construction of a full processing facility, providing greater construction and operating flexibility as may be dictated by future market conditions.A A Our sales deliveries in 2024 are projected to be 570,000 pounds U3O8 into two of our sales agreements secured in 2022. We now have six multi-year sales agreements which together anticipate sales of approximately 5.7 million pounds U3O8 between 2024 and 2030.A A 22Table of ContentsA Industry and Market Update A In the past several years, the nuclear markets have been favorably affected in many ways through greater acceptance of nuclear energy. Recently, technology and other industries operating data centers (in what is now simply being referred to as æœbig dataæ) have realized the opportunities which exist to maintain carbon free baseload electricity while supporting the immense electric demand generated by these centers. The Electric Power Research InstituteA s May 28, 2024, White Paper titled Powering Intelligence, suggests that data centers are expected to consume as much as 9.1% of U.S. electricity generation by 2030 versus an estimated 4% today.A The International Energy Agency stated in its Electricity 2024, Analysis and Forecast to 2026 report thatA Data centres are significant drivers of growth in electricity demand in many regions. After globally consuming an estimated 460 terawatt-hours (TWh) in 2022, data centresA total electricity consumption could reach more than 1 000 TWh in 2026. This demand is roughly equivalent to the electricity consumption of Japan.A The use of nuclear power by big data isnA t just a projection; it is already happening in a material way. Talen has already been selling significant power to big data. During the quarter, Constellation Energy announced a power purchase agreement with Microsoft for 835 megawatts of electricity. This is the largest ever power purchase agreement for Constellation and will result in the restart of the Three Mile Island Unit 1 nuclear reactor in Pennsylvania. While contributing 835 megawatts of carbon-free electricity to the grid, this historic project will create 3,400 jobs and offset approximately 61 million metric tons of CO2 emissions over 20 years. Still others in big data, including Google and Amazon, have announced plans to utilize nuclear energy to satisfy these rapidly growing electrical needs. A Throughout 2024, utilities and other buyers continue to identify energy security as a nearly universal priority. Ongoing war and geopolitics have only strengthened the resolve of fuel purchasers to reduce dependence on Russian nuclear products. U.S. and global utilities have increasingly been seeking non-Russian supplies when negotiating uranium term sales agreements. A In the U.S., the ban on Russian imports of nuclear fuels, signed into law earlier in the year, became effective in August 2024. While allowing certain waivers until January 1, 2028, the prohibitions on imports continue through 2040. The ban will help to secure the U.S. nuclear fuel supply chain and advance domestic uranium recovery operations. A The U.S. Department of Energy (DOE) has been progressing its requests for proposals under both its high-assay, low-enriched uranium (HALEU) and low-enriched uranium (LEU) programs for which domestic uranium supply is preferred. In October 2024, the DOE announced it awarded contracts to Centrus Energy Corp., Orano SA, General Matter Inc. and Louisiana Energy Services (a URENCO company) to provide enrichment services to develop HALEU to fuel small modular nuclear reactors. The contracts for enrichment are worth up to \$2.7 billion over the next ten years. These programs also reflect efforts by the U.S. to advance energy security; Russia has been the only potential source of HALEU.A Mineral Rights and Properties A We have 12 U.S. uranium properties. Ten of our uranium properties are in the Great Divide Basin, Wyoming, including Lost Creek. Currently, we control nearly 1,800 unpatented mining claims and three State of Wyoming mineral leases for a total of more than 35,000 acres in the area of the Lost Creek Property, including the Lost Creek permit area (the æœLost Creek Projectæ), and certain adjoining properties referred to as LC East, LC West, LC North, LC South and EN Project areas (collectively, with the Lost Creek Project, the æœLost Creek Propertyæ). Our Shirley Basin Project permit area, also in Wyoming, comprises nearly 1,800 acres of Company-controlled mineral acres.A Lost Creek PropertyA During 2024 Q3 we captured 75,075 pounds, dried and packaged 71,804 pounds and shipped 67,488 pounds U3O8.A Although not at previously anticipated rates, theseA figures represent increases in production numbers compared with the captured and dried figures of earlier quarters. A At quarter end, our in-process inventory was approximately 90,140 pounds, our drummed inventory at Lost Creek was 26,580 pounds, and our finished inventory at the conversion facility was 40,713 pounds U3O8. In addition to the two shipments made to the conversion facility during 2024 Q3, we made two shipments following the end of the quarter, which totaled 46,592 pounds U3O8.A A As we continue to work through the challenges of ramp-up at Lost Creek, we now anticipate 2024 production will be in a range between 240,000 and 280,000 pounds U3O8 captured on IX resin. A We expect to satisfy our remaining 2024 contractual commitments to our customers with Lost Creek production and other available sources.A During the quarter, we brought Header Houses (HHs) 2-9 and 2-10 online, bringing the number of new header houses in the first three quarters of 2024 to five. HH 2-11 came online in early October. HH 2-12 is on the ground at Lost Creek, and HHs 2-13 through 2-15 are being constructed in our Casper facilities. A Throughout 2024 Q3 we increased our drill rig count at Lost Creek to 15. Two of the rigs which had been deployed to Shirley Basin returned to Lost Creek in October, such that our current rig count at Lost Creek is 17. We anticipate at least three additional drill rigs will mobilize to Lost Creek prior to the end of the year.A A Our most recently completed deep disposal well, LCDW9, has been placed into operation, and with Lost CreekA s other two deep wells, is satisfying wastewater needs.A Because our incoming employees have little or no experience with uranium ISR operations, training remains a priority. As we are gaining a larger core group of staff, we continue to focus on retention as well as recruitment in efforts to stabilize our workforce. A A 23Table of ContentsA Shirley BasinA Following our announcement in early 2024 of the æœgoæ decision to begin buildout of our Shirley Basin in situ recovery facility in Carbon County, Wyoming we initiated several work programs for the year. These programs have complemented our initial purchasing plan for long lead-time equipment which began in 2023. A Installation of the monitor wells for the first mine unit at Shirley Basin is complete. The two drill rigs which were primarily responsible for the monitor well program have been redeployed to Lost Creek in October. We have begun to collect hydrologic data and have initiated aquifer pump testing for the first mine unit. This test program is anticipated to be completed in 2024 Q4. The hydrologic confinement at Shirley Basin is well established. A The existing south access road to the site has been upgraded to an all-season road. Power supply to the satellite plant construction area has been completed and the line is energized. We are advancing the refurbishment of the pre-existing substation that serviced historic Shirley Basin operations. The septic system is installed.A We have selected a contractor who has commenced renovation of existing site buildings which will be used for construction, maintenance and drill casing facilities. The office building layout has been approved and we are nearing completion of a construction agreement. A A Engineering related to the satellite plant, including the wastewater treatment system, is at various stages of design and layout. Steel has been rolled and welded for 15 IX columns at a fabrication facility in Casper. Construction of these columns is progressing toward expected delivery in 2025 Q3. Long-lead items remain on schedule, and we are vigilant in our review of timing for additional long- and mid-lead time purchases. A We continue to expect construction at Shirley Basin to be complete in late 2025 with a pre-operation inspection by the State of Wyoming following soon after.A Sales of U3O8 and Sales AgreementsA We sold 100,000 pounds U3O8 in 2024 Q3 at an average price of \$61.65 per pound for proceeds of \$6.2 million. A A We continue to anticipate that we will deliver and sell 570,000 pounds U3O8 in 2024. Including the revenue received during the quarter, we expect to realize revenues of \$33.1 million from our 2024 U3O8 sales.A Deliveries for 2025 are committed to three of our customers for a base amount of 700,000 pounds U3O8. Under these agreements, two of the three buyers may elect to flex up or down by as much as 10% of the annual base delivery quantity. Both purchasers have elected to flex up their 2025 purchases by 10%, such that we now anticipate we will deliver 740,000 pounds U3O8 into our term sales agreements in 2025. A Equity FinancingA On July 29, 2024, the Company closed an underwritten public offering of 57,150,000 common shares at a price of \$1.05 per common share. The Company also granted the underwriters a 30-day option to purchase up to 8,572,500 additional common shares on the same terms.A The option was exercised in full. Including the exercised option, Ur-Energy issued a total of 65,722,500 common shares. The gross proceeds to Ur-Energy from this offering were approximately \$69.0A million. After fees and expenses of \$3.8A million, net proceeds to the Company were approximately \$65.2A million.A A 24Table of ContentsA Results of OperationsA Reconciliation of Non-GAAP measures with US GAAP financial statement presentationA The following tables include measures specific to U3O8 sales, product cost, product profit, pounds sold, price per pound sold, cost per pound sold, and product profit per pound sold. These measures do not have standardized meanings within US GAAP or a defined basis of calculation. These measures are used by management to assess business performance and determine production and pricing strategies. They may also be used by certain investors to evaluate performance. The following two tables provide a reconciliation of U3O8 price per pound sold and U3O8 cost per pound sold to the consolidated financial statements.A

[illegible]

to the mine unit (â€œMUâ€) two development programs at Lost Creek. In addition, development costs in 2023 and 2024 also included \$7.7 million in direct costs primarily related to the construction of a new disposal well at Lost Creek. At Shirley Basin, we incurred approximately \$1.3 million and \$2.5 million development costs in the three and nine months ended September 30, 2024, respectively. Development activities at Shirley Basin included drilling costs related to the installation of the first monitor well ring. A General and administration expenses relate to the administration, finance, investor relations, land, and legal functions, and consist principally of personnel, facility, and support costs. For the three and nine months ended September 30, 2024, the expenses increased \$0.1 million and increased \$0.7 million, respectively. The increases for the nine months were driven by higher labor costs, insurance costs, and stock compensation expense. A Other Income and Expenses A Higher interest rates and cash balances have generated significant interest income in 2024. At the same time, interest expense decreased after the Company paid off the Wyoming state bond loan in March 2024. A A 33Table of Contents A For the three months and nine months ended September 30, 2024, the warrant liability revaluation resulted in \$3.0A and \$4.4 million gains, compared to \$7.2 and \$4.2 million losses in 2023, respectively. As a part of the February 2021 and February 2023 underwritten public offerings, we issued warrants that were priced in U.S. dollars. The changes in liability are primarily related to the share price of the companyâ€™s stock which is a significant factor in the Black-Scholes computations. A Earnings (loss) per Common Share A The basic and diluted losses per common share for the three and nine months ended September 30, 2024, were \$0.02 and \$0.11, respectively. For the three and nine months ended September 30, 2023 the losses were \$0.07 and \$0.10 per share. The diluted loss per common share is equal to the basic loss per common share due to the anti-dilutive effect of all convertible securities in periods of loss. A Liquidity and Capital Resources A As shown in the Interim Consolidated Statements of Cash Flow, our cash, cash equivalents, and restricted cash and cash equivalents increased from the December 31, 2023 balance of \$68.2A million to \$129.4 million as of September 30, 2024. Cash resources consist of Canadian and U.S. dollar denominated deposit and money market accounts, and U.S. treasury fund investments. During the nine months ended September 30, 2024, we spent \$32.5A million on operating activities, used \$5.7 million on investing activities, and generated \$99.3 million from financing activities. A Accounts payable included \$1.4 million of insurance and surety bond expenses and \$0.6 million in equipment purchases at September 30, 2024. Accounts payable included \$0.2 million in equipment purchases at December 31, 2023. A As these did not affect cash balances at the respective dates, they have been adjusted on the Statement of Cash Flow. A During the nine-month period, we sold 175,000 pounds of U3O8 for \$10.8 million, received \$0.3 million in disposal fees, and generated \$2.4 million from interest income, net of loan interest expense of \$0.1 million. We spent \$9.8A million on production-related cash costs, \$37.0 million on operating costs, and had a \$0.8 million favorable working capital movement primarily related to increases in accounts payable and accrued liabilities. A Investing activities used \$5.7 million during the nine months ended September 30, 2024. We spent \$2.8 million on construction and equipment at Shirley Basin and \$2.9 million for vehicles and equipment. The vehicles and equipment will be used primarily at Lost Creek. A Financing activities provided \$99.3 million in the nine months ended September 30, 2024. In July, we closed an equity financing by issuing 65,722,500 shares including an 8,572,000 overallotment at \$1.05 per share for net proceeds after commissions and fees of \$65.2 million. A We received net proceeds of \$27.7 million from the sale of common shares through our At Market Facility, and \$12.3 million from the exercise of warrants and stock options. We spent \$5.7 million on the Wyoming bond loan, ultimately paying off the loan in March 2024, and \$0.2 million on lease payments. A Wyoming State Bond Loan A On October 23, 2013, we closed a \$34.0 million Sweetwater County, State of Wyoming, Taxable Industrial Development Revenue Bond financing program loan (â€œState Bond Loanâ€). The State Bond Loan called for payments of interest at a fixed rate of 5.75% per annum on a quarterly basis, which commenced January 1, 2014. The principal was to be payable in 28 quarterly installments, which commenced January 1, 2015. A A 34Table of Contents A During the term of the State Bond Loan, the Sweetwater County Commissioners and the State of Wyoming approved two separate deferrals of principal payments during the downturn in the uranium market and our period of reduced production operations. Following those deferrals, quarterly principal payments resumed on October 1, 2022, and were scheduled to continue until October 1, 2024. A On March 27, 2024, the remaining \$4.4 million balance due on the State Bond Loan was prepaid in full. The State Bond Loan was secured by all the assets of the Lost Creek Project. All releases of collateral have been obtained following the final repayment of the facility. A Universal Shelf Registration and At Market Facility A On May 29, 2020, we entered into an At Market Issuance Sales Agreement (the â€œSales Agreementâ€) with B. Riley Securities, Inc. (â€œB. Riley Securitiesâ€), relating to our common shares. On June 7, 2021, we amended and restated the Sales Agreement to include Cantor Fitzgerald & Co. (â€œCantorâ€) and together with B. Riley Securities, the â€œAgentsâ€) as a co-agent. Under the Sales Agreement, as amended, we may, from time to time, issue and sell Common Shares at market prices on the NYSE American or other U.S. market through the agents for aggregate sales proceeds of up to \$50 million. The Sales Agreement was filed in conjunction with a universal shelf registration statement on Form S-3, effective May 27, 2020, which has now expired. A On November 23, 2021, we filed a new universal shelf registration statement on Form S-3 with the SEC through which we may offer and sell, from time to time, in one or more offerings, at prices and terms to be determined, up to \$100 million of our common shares, warrants to purchase our common shares, our senior and subordinated debt securities, and rights to purchase our common shares and/or senior and subordinated debt securities. The registration statement became effective December 17, 2021, for a three-year period. A On December 17, 2021, we entered into an amendment to the Sales Agreement (â€œAmendment No. 1â€) and together with the Sales Agreement, the â€œAmended Sales Agreementâ€) with the Agents to, among other things, reflect the new registration statement under which we may sell up to \$50 million from time to time through or to the Agents under the Amended Sales Agreement, in addition to amounts previously sold under the Sales Agreement. In February 2023, in conjunction with our underwritten public offering, we filed a prospectus supplement by which we decreased the amount of common stock offered pursuant to the Amended Sales Agreement. A On June 28, 2023, we filed a new universal shelf registration statement on Form S-3 with the SEC through which we may offer and sell, from time to time, in one or more offerings, at prices and terms to be determined, up to \$175 million of our common shares, warrants to purchase our common shares, our senior and subordinated debt securities, and rights to purchase our common shares and/or senior and subordinated debt securities. The registration statement became effective July 19, 2023, for a three-year period. A On July 19, 2023, we entered into a further amendment to the Amended Sales Agreement (â€œAmendment No. 2â€) and hereafter the â€œAmended Sales Agreementâ€) with the Agents to, among other things, reflect the new registration statement under which we may sell up to \$50 million from time to time through or to the Agents under the Amended Sales Agreement, in addition to amounts previously sold under the Sales Agreement. Subsequently, we filed a new prospectus supplement in June 2024 under which we may sell up to \$100 million from time to time through or to the Agents under the Amended Sales Agreement, including the common shares previously sold under the Sales Agreement. A A 35Table of Contents A For the nine months ended September 30, 2024, we utilized the Amended Sales Agreement for gross proceeds of \$28.6A million from sales of 16,939,825 common shares. A 2023 Underwritten Public Offering A On February 21, 2023, the Company closed a \$46.1 million underwritten public offering of 39,100,000 common shares and accompanying warrants to purchase up to 19,550,000 common shares, at a combined public offering price of \$1.18 per common share and accompanying warrant. The gross proceeds to UraC Energy from this offering were approximately \$46.1A million. After fees and expenses of \$3.0A million, net proceeds to the Company were approximately \$43.1A million. A 2024 Underwritten Public Offering A On July 29, 2024, the Company closed an underwritten public offering of 57,150,000 common shares at a price of \$1.05 per common share. The Company also granted the underwriters a 30-day option to purchase up to 8,572,500 additional common shares on the same terms. A The option was exercised in full. Including the exercised option, the Company issued a total of 65,722,500 common shares. The gross proceeds to the Company from this offering were approximately \$69.0A million. After fees and expenses of \$3.8A million, net proceeds to the Company were approximately \$65.2A million. A Liquidity Outlook A As of October 30, 2024, our unrestricted cash position was \$110.3 million. A A We expect to realize revenues of \$33.1 million from the sale of 570,000 pounds of U3O8 to be delivered in 2024. We had 40,713 pounds of conversion facility inventory on September 30, 2024. We delivered 100,000 pounds into sales contracts in August 2024. As of October 30, 2024, we had 87,314 pounds of U3O8 in our conversion facility inventory. A We expect to deliver 395,000 pounds U3O8 in 2024 Q4 from production at Lost Creek and other available sources. A Our unrestricted cash position and expected proceeds from uranium sales are expected to cover production and development costs of the continuing ramp up of production at Lost Creek, ongoing corporate overhead, and development and construction expenditures at Shirley Basin. A We expect the planned development and construction of the Shirley Basin Project in 2025 and 2026 will be funded by operating cash flow, cash on hand, or additional financing as required. We have no immediate plans to issue additional securities or obtain funding, however, we may issue additional debt or equity securities at any time. A Looking Ahead A With eight operational Header Houses (HHs) in MU2, we continue our ramp up toward target production levels and steady state operations at Lost Creek. To facilitate ongoing increases in production levels, we anticipate increasing our drill rig count through the end of the year to approximately 20 rigs. A Fabrication of HHs 2-13 through 2-15 is in progress in our Casper construction shop and onsite construction related to these next header houses continues to advance. HH 2-15 is a newly planned production area for which we are advancing development and construction. We are also drilling in MU1 for the next phase of its production. A Because of continuing challenges of ramp-up at Lost Creek, we now anticipate 2024 production will be in a range between 240,000 and 280,000 pounds U3O8 captured on IX resin. A A 36Table of Contents A We have commitments under contracts negotiated in 2022, when the long-term price was between \$43 and \$52 per pound, for deliveries of 570,000 pounds U3O8 in 2024 and expect to realize revenues of \$33.1 million. A We anticipate making our remaining deliveries of 395,000 pounds U3O8 during Q4 with Lost Creek production and other available alternatives. A During the quarter, uranium spot prices softened to an average of approximately \$82 per pound U3O8. However, average term pricing, which has increased steadily for several years now, reached approximately \$81 per pound U3O8 during the quarter. A Term pricing has been supported by continued requests for proposals (â€œRFPsâ€) in the market from utilities and other global fuel buyers. We have responded to the RFPs with prices commensurate with rising market conditions including increased demand for domestically produced uranium. Our contract book now includes agreements with six leading nuclear fuel purchasers, with commitments of approximately 5.7 million pounds U3O8 with deliveries occurring in 2024 through 2030. Sales prices are anticipated to be profitable on an all-in production cost basis and escalate annually from initial pricing, including some market-based pricing features. A A We are progressing the buildout of a satellite facility at our wholly owned, fully permitted and licensed Shirley Basin Project in Carbon County, Wyoming. The buildout will nearly double our annual permitted mine production to 2.2 million pounds U3O8. A At October 30, 2024, our unrestricted cash position was \$110.3 million. With this strong treasury, we are well funded for continuing construction at Shirley Basin. A Installation of the monitor wells for the first mine unit at Shirley Basin is complete. We have commenced the pump test program, which remains on schedule to be completed this year. Road construction is complete and the refurbishment of existing and installation of new electric infrastructure are all advancing. Renovation of existing buildings has begun. Major construction activities at Shirley Basin are expected to begin in 2025 and initial production is expected to commence in early 2026. A A We are pleased to be one of the few publicly traded companies that is commercially recovering uranium and working to expand our production capacity to sell into a sustained stronger uranium market. A We will continue to closely monitor the uranium markets, and other developments, which may affect the uranium production industry and provide the opportunity to put in place additional off-take sales contracts. A A As always, we will focus on maintaining safe and compliant operations. A Transactions with Related Parties A There were no reportable transactions with related parties during the quarter. A A 37Table of Contents A Proposed Transactions A As is typical of the mineral exploration, development, and mining industry, we will consider and review potential merger, acquisition, investment and venture transactions and opportunities that could enhance shareholder value. Timely disclosure of such transactions is made as soon as reportable events arise. A A Critical Accounting Policies and Estimates A We have established the existence of uranium resources at the Lost Creek Property, but because of the unique nature of in situ recovery mines, we have not established, and have no plans to establish, the existence of proven and probable reserves at this project. Accordingly, we have adopted an accounting policy with respect to the nature of items that qualify for capitalization for in situ U3O8 mining operations to align our policy to the accounting treatment that has been established as best practice for these types of mining operations. A A The development of the wellfield includes injection, production and monitor well drilling and completion, piping within the wellfield and to the processing facility and header houses used to monitor production and disposal wells associated with the operation of the mine. These costs are expensed when incurred. A A Mineral Properties A Acquisition costs of mineral properties are capitalized. When production is attained at a property, these costs will be amortized over an estimated benefit period. A A Development costs including, but not limited to, production wells, header houses, piping and power will be expensed as incurred as we have no proven and probable reserves. A A Inventory and Cost of Sales A Our inventories are valued at the lower of cost or net realizable value based on projected revenues from the sale of that product. We are allocating all costs of operations of the Lost Creek facility to the inventory valuation at various stages of production except for wellfield and disposal well costs which are treated as development expenses when incurred. Depreciation of facility enclosures, equipment, and asset retirement obligations as well as amortization of the acquisition cost of the related property is also included in the inventory valuation. A Share-Based Expense and Warrant Liability A We are required to initially record all equity instruments including warrants, restricted share units and stock options at fair value in the financial statements. A A Management utilizes the Black-Scholes model to calculate the fair value of the warrants and stock options at the time they are issued. In addition, the fair value of derivative warrant liability is recalculated monthly using the Black-Scholes model with any gain or loss being reflected in the net income for the period. Use of the Black-Scholes model requires

Financial Officer, the Company evaluated the effectiveness of its disclosure controls and procedures, as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"). Based on this evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to ensure that information the Company is required to disclose in reports that are filed or submitted under the Exchange Act: (1) is recorded, processed and summarized effectively and reported within the time periods specified in SEC rules and forms, and (2) is accumulated and communicated to Company management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Company's disclosure controls and procedures include components of internal control over financial reporting. No matter how well designed and operated, internal controls over financial reporting can provide only reasonable, but not absolute, assurance that the control system's objectives will be met. (b) Changes in Internal Controls over Financial Reporting No changes in our internal control over financial reporting occurred during the three months ended September 30, 2024, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. 40Table of Contents PART IIA Item 1. LEGAL PROCEEDINGS No new legal proceedings or material developments in pending proceedings. Item 1A. RISK FACTORS As of September 30, 2024, there have been no material changes from those risk factors set forth in our Annual Report on Form 10-K. Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS None. Item 3. DEFAULTS UPON SENIOR SECURITIES None. Item 4. MINE SAFETY DISCLOSURE Our operations and exploration activities at Lost Creek are not subject to regulation by the federal Mine Safety and Health Administration under the Federal Mine Safety and Health Act of 1977. Item 5. OTHER INFORMATION None. 41Table of Contents Item 6. Nature of OperationsA Ur-Energy Inc. (the "Company") was incorporated on March 22, 2004, under the laws of the Province of Ontario. The Company continued under the Canada Business Corporations Act on August 8, 2006. The Company is an exploration stage issuer, as defined by United States Securities and Exchange Commission ("SEC"). The Company is engaged in uranium mining and recovery operations, with activities including the acquisition, exploration, development, and production of uranium mineral resources located primarily in Wyoming. The Company commenced uranium production at its Lost Creek Project in Wyoming in 2013. Due to the nature of the uranium recovery methods used by the Company on the Lost Creek Property, and the definition of "mineral reserves" under Subpart 1300 to Regulation S-K ("S-K 1300a"), the Company has not determined whether the property contains mineral reserves. The recoverability of amounts recorded for mineral properties is dependent upon the discovery of economic resources, the ability of the Company to obtain the necessary financing to develop the properties and upon attaining future profitable production from the properties or sufficient proceeds from the disposition of the properties. X - DefinitionThe entire disclosure for the nature of an entity's business, major products or services, principal markets including location, and the relative importance of its operations in each business and the basis for the determination, including but not limited to, assets, revenues, or earnings. For an entity that has not commenced principal operations, disclosures about the risks and uncertainties related to the activities in which the entity is currently engaged and an understanding of what those activities are being directed toward. + ReferencesReference 1: http://www.xbrl.org/2003/role/disclosureRef -Name Accounting Standards Codification -Topic 275 -Publisher FASB -URI https://asc.fasb.org/275/tableOfContentReference 2: http://www.xbrl.org/2003/role/disclosureRef -Name Accounting Standards Codification -Section 50 -Paragraph 1 -Subparagraph (a) -SubTopic 10 -Topic 275 -Publisher FASB -URI https://asc.fasb.org/1943274/2147482861/275-10-50-1 + Details Name: us-gaap_NatureOfOperations Namespace Prefix: us-gaap_ Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration X - ReferencesNo definition available. + Details Name: us-gaap_OrganizationConsolidationAndPresentationOfFinancialStatementsAbstract Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration XML 18 R7.htm IDEA: XBRL DOCUMENT v3.24.3 Summary of Significant Accounting Policies 9 Months Ended Sep. 30, 2024 Summary of Significant Accounting Policies A Summary Of Significant Accounting Policies 2. Summary of Significant Accounting PoliciesA Basis of presentationA These unaudited interim condensed consolidated financial statements do not conform in all respects to the requirements of U.S. generally accepted accounting principles ("US GAAP") for annual financial statements. These unaudited interim condensed consolidated financial statements reflect all the normal adjustments which in the opinion of management are necessary for a fair presentation of the results for the periods presented. These unaudited interim condensed consolidated financial statements should be read in conjunction with the audited annual consolidated financial statements for the year ended December 31, 2023. We applied the same accounting policies as in the prior year. Certain information and footnote disclosures required by US GAAP have been condensed or omitted in these interim consolidated financial statements. A Functional and reporting currencyA Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The functional currency of the Company is the Canadian dollar and the functional currency for Ur-Energy USA Inc. and its subsidiaries, all of which are wholly owned subsidiaries, is the U.S. dollar. A The reporting currency for these consolidated financial statements is U.S. dollars. A Accounting pronouncements not yet adoptedA In November 2023, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. A This ASU requires annual and interim disclosures about significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss as well as the amount and composition of other segment items. A All disclosure requirements under this ASU are also required for public entities with a single reportable segment. This ASU is effective for the Company's Annual Report on Form 10-K for the year ended December 31, 2024, and subsequent interim periods, with early adoption permitted. A The Company is currently evaluating the impact of adopting this ASU on its consolidated financial statements and disclosures. ```

[{"id": 1, "text": "1. The first line of the document is a long string of characters, including letters, numbers, and symbols, representing a complex data structure or a specific encoding. This line is followed by several lines of similar text, each containing a mix of alphanumeric characters and special characters. The text appears to be a mix of uppercase and lowercase letters, numbers, and various symbols like underscores, hyphens, and parentheses. Some characters are repeated, and there are some patterns that suggest a structured format, but the overall meaning is not clear from the visual representation alone. The text is presented in a single column, with line breaks indicating the end of each line of the document. The font is a standard monospace font, and the background is white. The text is black, and there are no other visual elements present in the image."}]

money-market instruments (such as commercial paper, banker's acceptances, repurchase agreements, government securities, certificates of deposit, and so forth) which are highly liquid (that is, readily convertible to known amounts of cash) and so near their maturity that they present an insignificant risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less qualify as cash equivalents by definition. Original maturity means an original maturity to the entity holding the investment. For example, both a three-month US Treasury bill and a three-year Treasury note purchased three months from maturity qualify as cash equivalents. However, a Treasury note purchased three-years ago does not become a cash equivalent when its remaining maturity is three months." } } } , "auth_ref": [] } , "srt_NameOfMajorCustomerDomain": { "xbrltype": "domainItemType", "nsuri": "http://fasb.org/srt/2024", "localname": "NameOfMajorCustomerDomain", "presentation": ["http://urg.com/role/SalesDetails"], "auth_ref": ["r165", "r540", "r558", "r560", "r621", "r677", "r678", "r679", "r680", "r681", "r682", "r683", "r684", "r685", "r686", "r687", "r688", "r689", "r690", "r691", "r692", "r693", "r694", "r695", "r696", "r697", "r698", "r699", "r700", "r701", "r702", "r703", "r704"] } , "us-gaap_NatureOfOperations": { "xbrltype": "textBlockItemType", "nsuri": "http://fasb.org/us-gaap/2024", "localname": "NatureOfOperations", "presentation": ["http://urg.com/role/NatureOfOperations"], "lang": { "en-us": { "role": { "verboseLabel": "Nature of Operations", "label": "Nature of Operations [Text Block]", "documentation": "The entire disclosure for the nature of an entity's business, major products or services, principal markets including location, and the relative importance of its operations in each business and the basis for the determination, including but not limited to, assets, revenues, or earnings.
