NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business

EZCORP, Inc. (collectively with its subsidiaries, the "Company," "we," "us," or "our") is a provider of pawn loans in the United States ("U.S.") and Latin America. Pawn loans are non-recourse loans collateralized by tangible property. We also sell merchandise, primarily collateral forfeited from pawn lending operations and pre-owned merchandise purchased from customers.

Basis of Presentation

The accompanying interim unaudited condensed consolidated financial statements ("Condensed Consolidated Financial Statements") have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements.

These Condensed Consolidated Financial Statements should be read in conjunction with the audited consolidated financial statements and related notes contained in our Annual Report on Form 10-K for the year ended September 30, **2022, 2023**, filed with the Securities and Exchange Commission ("SEC") on **November 16, 2022** **November 15, 2023** ("**2022 2023** Annual Report").

In the opinion of management, the accompanying Condensed Consolidated Financial Statements include all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation. Financial results for the **three and nine-month periods** **three-month period** ended **June 30, 2023** **December 31, 2023**, are not necessarily indicative of results that may be expected for the fiscal year ending **September 30, 2023** **September 30, 2024** or any other period due, in part, to seasonal variations. There have been no changes that have had a material impact in significant accounting policies as described in our **2022 2023** Annual Report.

Principles of Consolidation

The accompanying Condensed Consolidated Financial Statements include the accounts of EZCORP, Inc. and its wholly-owned subsidiaries. We use the equity method of accounting for entities in which we have a 50% or less investment and exercise significant influence. We account for equity investments for which we do not have significant influence and without readily determinable fair values at cost with adjustments for observable changes in price in orderly transactions for identical or similar investments of the same issuer or impairments. All inter-company accounts and transactions have been eliminated in consolidation.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates and assumptions include the determination of inventory reserves, expected credit losses, useful lives of long-lived and intangible assets, valuation of share-based compensation, valuation of equity investments, valuation of deferred tax assets and liabilities, loss contingencies related to litigation and discount rates used for operating leases. We base our estimates on historical experience, observable trends and various other assumptions we believe are reasonable. Actual results may differ materially from these estimates under different assumptions or conditions.

Merchandise Sales Revenue Recognition

Customer layaway deposits are recorded as liabilities when a customer provides a deposit for merchandise. Customer layaway deposits are generally refundable upon cancellation. Our customer layaway deposits balance as of December 31, 2023, 2022 and September 30, 2023 was \$18.3 million, \$16.3 million and \$18.9 million, respectively, and are generally recognized as revenue within a one-year period.

Investments

We account for our investment in Rich Data Corporation ("RDC") in accordance with Accounting Standards Codification ("ASC") 321, Investments — Equity Securities, and we have elected to use the measurement alternative to measure this investment at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for identical or similar investments of the same issuer, if any. As of December 31, 2023 and September 30, 2023, the carrying value of our investment in RDC was \$6.2 million.

Refer to Note 5: Strategic Investments for details on our investment in Founders One, LLC ("Founders").

Recently Issued Accounting Pronouncements

In October 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-06, *Disclosure Improvements - Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative* ("ASU 2023-06"). ASU 2023-06 will impact various disclosure areas, including the statement of cash flows, accounting changes and error corrections, earnings per share, debt, equity, derivatives, and transfers of financial assets. The amendments in this ASU 2023-06 will be effective on the date the related disclosures are removed from Regulation S-X or Regulation S-K by the SEC, and will no longer be effective if the SEC has not removed the applicable disclosure requirement by June 30, 2027. Early adoption is prohibited. We reviewed all recently issued accounting pronouncements and concluded that they were either not applicable or not expected to have a material impact on our Condensed Consolidated Financial Statements, consolidated financial statements and related disclosures.

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* ("ASU 2023-07"). ASU 2023-07 requires disclosure of significant segment expenses regularly provided to the chief operating decision maker ("CODM") included within segment operating profit or loss. Additionally, the ASU requires a description of how the CODM utilizes segment operating profit or loss to assess segment performance. The requirements of this ASU 2023-07 are effective for the Company for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted, and retrospective application is required for all periods presented. We are currently evaluating the impact of this standard on our consolidated financial statements and related disclosures.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* ("ASU 2023-09"). ASU 2023-09 requires disclosure of specific categories and disaggregation of information in the rate reconciliation table. The ASU also requires disclosure of disaggregated information related to income taxes paid, income or loss from continuing operations before income tax expense or benefit, and income tax expense or benefit from continuing operations. The requirements of this ASU 2023-09 are effective for the Company for fiscal years beginning after December 15, 2024. Early adoption is permitted, and the amendments should be applied on a prospective basis. Retrospective application is permitted. We are currently evaluating the impact of this standard on our consolidated financial statements and related disclosures.

Founders One, LLC

In October 2021, we invested \$15.0 million in exchange for a non-redeemable voting participating preferred equity interest in Founders One, LLC ("Founders"), a then newly-formed entity with one other member. Founders used that \$15.0 million to acquire an equity interest in Simple Management Group, Inc. ("SMG").

On December 2, 2022, we contributed an additional \$15.0 million to Founders associated with our preferred interest, which proceeds were used by Founders to acquire additional common stock in SMG. interest. In addition, we loaned \$15.0 million to Founders in exchange for a Demand Promissory Note secured by the common interest in Founders held by the other member.

In October 2023, we contributed an additional \$15.0 million to Founders associated with our preferred interest, bringing our total equity investment in Founders to \$45.0 million.

We have an interest in Founders, a variable interest entity, but because the Company is not the primary beneficiary, we do not consolidate Founders. Further, as we are not the appointed manager, we do not have the ability to direct the activities of the investment entity that most significantly impact its economic performance. Consequently, our equity investment in Founders is accounted for utilizing the measurement alternative within Accounting Standards Codification ("ASC") ASC 321, Investments — Equity Securities. Our \$30.0 As of December 31, 2023, our \$45.0 million carrying value of the investment and \$15.0 million Demand Promissory Note are included in "Other investments" and "Prepaid expenses and other current assets" in our condensed consolidated balance sheets, respectively. Our As of December 31, 2023, our maximum exposure for losses related to our investment in Founders is was our \$30.0 \$45.0 million equity investment and \$15.0 million Demand Promissory Note plus accrued and unpaid interest.

See Note 6: Fair Value Measurements for the fair values value and carrying values value of our investment in and loan to Founders, respectively, Founders.

NOTE 6: FAIR VALUE MEASUREMENTS

The fair value of a financial instrument is the amount that could be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy prioritizes the quality and reliability of the information used to determine fair values. Categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The fair value hierarchy is defined into the following three categories:

- Level 1 — Quoted market prices in active markets for identical assets or liabilities.
- Level 2 — Other observable market-based inputs or unobservable inputs that are corroborated by market data.
- Level 3 — Unobservable inputs that are not corroborated by market data.

We have elected not to measure at fair value any eligible items for which fair value measurement is optional.

There were no transfers in or out of Level 1, Level 2 or Level 3 for financial assets or liabilities measured at fair value on a recurring basis during the periods presented.

Based primarily on the short-term nature of cash and cash equivalents, pawn loans, and pawn service charges receivable and other liabilities, we estimate that the their carrying value approximates fair value. We consider our cash and cash equivalents, including money market accounts, to be measured using Level 1 inputs and our pawn loans, pawn service charges receivable and other debt liabilities to be measured using Level 3 inputs. Significant increases or decreases in the underlying assumptions used to value pawn loans, pawn service charges receivable, fees and interest receivable and other debt could significantly increase or decrease these fair value estimates.

The Company remeasures its acquisition-related contingent obligation associated with the acquisition in June 2021 of PLO del Bajío S. de R.S. de C.V., which owned stores operating under the name "Cash Apoyo Efectivo," at the end of each reporting period. This remeasurement resulted in a \$2.6 million and \$5.1 million reduction of the obligation with an offset recorded to "Other" as an operating item in our condensed consolidated statements of operations during the three and nine months ended June 30, 2023, respectively. There is no remaining obligation in our Consolidated Balance Sheet as of June 30, 2023. The key assumptions used to determine the fair value of acquisition-related contingent consideration are estimated by management, not observable in the market and, therefore, considered Level 3 inputs within the fair value hierarchy.

In March 2019, we received \$1.1 million in previously escrowed seller funds as a result of settling certain indemnification claims with the seller of GPMX. In April 2019, we loaned the \$1.1 million back to the seller of GPMX in exchange for a promissory note. The note bears interest at the rate of 2.89% per annum and is secured by certain marketable securities owned by the seller and held in a U.S. brokerage account. All principal and accrued interest is due and payable in April 2024. Based primarily on the short-term nature of the note, we estimate that its carrying value approximates fair value as of December 31, 2023. As of December 31, 2023, our \$1.3 million carrying value of the promissory note approximated its carrying value as of June 30, 2023, is recorded within "Prepaid expenses and other current assets" in our condensed consolidated balance sheets.

In December 2022, we loaned \$15.0 million to Founders in exchange for a Demand Promissory Note secured by the common interest in Founders held by the other member. The As of December 31, 2023, the interest rate on the note bears interest at the rate of 12.00% was 15.00% per annum, and all principal and accrued interest is due on demand. The fair value Based primarily on the short-term nature of the note, approximated we estimate that its carrying value approximates fair value as of June 30, 2023 December 31, 2023.

We use the equity method of accounting to account for our ownership interest in Cash Converters. The inputs used to generate the fair value of the investment in Cash Converters were considered Level 1 inputs. These inputs consist of (a) the quoted stock price on the Australian Stock Exchange multiplied by (b) the number of shares we owned multiplied by (c) the applicable foreign currency exchange rate as of the end of our reporting period. We included no control premium for owning a large percentage of outstanding shares.

The \$39.2 million in "Other investments" as of June 30, 2023, includes \$30.0 million related to our investment in Founders and \$6.2 million related to our investment in Rich Data Corporation ("RDC"). We believe the investment's fair value approximated its carrying value although such fair value is highly variable and includes significant unobservable inputs. The \$18.0 million "Other investments" as of June 30, 2022, includes \$15.0 million related to our investment in Founders.

We determined measured the fair value of the 2024, 2025 and 2029 Convertible Notes using quoted price inputs. The notes are not actively traded, and thus the price inputs represent a Level 2 measurement. As the quoted price inputs are highly variable from day to day, the fair value estimates disclosed above could significantly increase or decrease.

Execution of the program will be responsive to fluctuating market conditions and valuations, liquidity needs and the expected return on investment compared to other opportunities.

The amount and timing of purchases will be dependent on a variety of factors, including stock price, trading volume, general market conditions, legal and regulatory requirements, general business conditions, the level of cash flows, and corporate considerations determined by management and the Board, such as liquidity and capital needs and the availability of attractive alternative investment opportunities. Stock Compensation

We maintain a Board-approved incentive plan to retain the services of our valued officers, directors and employees and to incentivize such persons to make contributions to our company and motivate excellent performance (the "Incentive Plan"). Under the Incentive Plan, we grant awards of restricted stock or restricted stock units to employees and non-employee directors. Awards granted to employees are typically subject to performance and service conditions. Awards granted to non-employee directors are time-based awards subject only to service conditions. Awards granted under the Incentive Plan are measured at the grant date fair value with compensation costs associated with the awards recognized over the requisite service period, usually the vesting period, on a straight-line basis.

NOTE 9: CONTINGENCIES

Currently, and from time to time, we are involved in various claims, disputes, lawsuits, investigations, and legal and regulatory proceedings, including the matter described below. We accrue for contingencies if it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Because these matters are inherently unpredictable and unfavorable developments or resolutions can occur, assessing contingencies requires judgments and is highly subjective about future events, and the amount of resulting loss may differ from these estimates. We do not believe the resolution of any particular matter will have a material adverse effect on our financial condition, results of operations or liquidity.

On October 14, 2021, Andrew Kowlessar filed an action in the Circuit Court of the 17th Judicial Circuit in and for Broward County, Florida styled *Andrew Kowlessar, individually and on behalf of all others similarly situated vs. EZCORP, Inc. d/b/a Value Pawn & Jewelry*. The matter subsequently was amended and removed to the United States District Court of the Southern District of Florida as *Andrew Kowlessar, individually and on behalf of all others similarly situated vs. EZPAWN Florida, Inc. d/b/a Value Pawn & Jewelry*. In May 2022, the federal court action was dismissed and the case was refiled in the Circuit Court of the Eleventh Judicial Circuit in and for Miami-Dade County, Florida. The complaint, brought under Section 501.059, Florida Statutes, the Florida Telephone Solicitation Act ("Act"), alleges certain text messages were sent in violation of the Act. On June 16, 2022, the parties agreed to a settlement of all asserted claims and entered into a Settlement Agreement and Release, which was approved by the court on October 24, 2022. The Company recorded a \$2.0 million charge during the quarter ended June 30, 2022, the final payment of which was made on April 21, 2023 to the third party claims administrator for disbursement in final satisfaction of claims and related costs.

NOTE 10: SEGMENT INFORMATION

Our operations are primarily managed on a geographical basis and are comprised of three reportable segments. The factors for determining our reportable segments include the manner in which our chief operating decision maker evaluates performance for purposes of allocating resources and assessing performance.

We currently report our segments as follows:

- U.S. Pawn — all pawn activities in the United States;
- Latin America Pawn — all pawn activities in Mexico and other parts of Latin America; and
- Other Investments — primarily our equity interest in the net income (loss) of Cash Converters along with our investment in Founders RDC and RDC, our investment in and notes receivable from Founders.

There are no inter-segment revenues presented below, and the amounts below were determined in accordance with the same accounting principles used in our condensed consolidated financial statements.

The following income (loss) before income taxes tables present revenue for each reportable segment, disaggregated revenue within our three reportable segments and Corporate, segment profits and segment contribution.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations is intended to inform the reader about matters affecting the financial condition and results of operations of EZCORP, Inc. and its subsidiaries (collectively, "we," "us", "our", "EZCORP" "EZCORP" or the "Company"). The following discussion should be read together with our condensed consolidated financial statements and related notes included elsewhere within this report. This discussion contains forward-looking statements. Our actual results could differ materially from those anticipated in these forward-looking statements. See "Part I, Item 1A — Risk Factors" of our Annual Report on Form 10-K for the year ended September 30, 2022, 2023, as supplemented by the information set forth in "Part I, Item 3 — Quantitative and Qualitative Disclosures about Market Risk" and "Part II, Item 1A — Risk Factors" of this Report, for a discussion of certain risks, uncertainties and assumptions associated with these statements.

Business Overview

EZCORP is a Delaware corporation headquartered in Austin, Texas. We are a leading provider of pawn services in the United States and Latin America. Pawn loans are nonrecourse loans collateralized by personal property. We also sell merchandise, primarily collateral forfeited from unpaid loans or goods purchased directly from customers.

We exist to serve our customers' short-term cash needs, helping them to live and enjoy their lives. We are focused on three strategic pillars:

Strengthen the Core	Relentless focus on superior execution and operational excellence in our core pawn business
Cost Efficiency and Simplification	Shape a culture of cost efficiency through ongoing focus on simplification and optimization
Innovate and Grow	Broaden customer engagement to service more customers more frequently in more locations

Pawn Activities

At our pawn stores, we advance cash against the value of collateralized tangible personal property. We earn pawn service charges ("PSC") for those cash advances, and the PSC rate varies by state and transaction size. At the time of the transaction, we take possession of the pawned collateral, which consists of tangible personal property, generally jewelry, consumer electronics, tools, sporting goods or musical instruments. If the customer chooses to redeem their pawn, they will repay the amount advanced plus any accrued PSC. If the customer chooses not to redeem their pawn, the pawned collateral becomes our inventory, which we sell in our retail merchandise sales activities or, in some cases, scrap for its inherent gold or precious stone content. Consequently, the success of our pawn business is largely dependent on our ability to accurately assess the probability of pawn redemption and the estimated resale or scrap value of the collateralized personal property.

Our ability to offer quality second-hand goods at prices significantly lower than original retail prices attracts value-conscious customers. The gross profit on sales of inventory depends primarily on our assessment of the estimated resale or scrap value at the time the property is either accepted as pawn collateral or purchased and our ability to sell that merchandise in a timely manner. As a significant portion of our inventory and sales involve gold and jewelry, our results can be influenced by the market price of gold and diamonds.

Growth and Expansion

Our strategy is to expand the number of locations we operate through opening new (“de novo”) locations and through acquisitions and investments in both Latin America, the United States and potential new markets. Our ability to open de novo stores, acquire new stores and make other related investments is dependent on several variables, such as projected achievement of internal investment hurdles, the availability of acceptable sites or acquisition candidates, the alignment of acquirer/seller price expectations, the regulatory environment, local zoning ordinances, access to capital and the availability of qualified personnel.

Seasonality and Quarterly Results

In the United States, PSC is historically highest in our fourth fiscal quarter (July through September) due to a higher average loan balance during the summer lending season. PSC is historically lowest in our third fiscal quarter (April through June) following the tax refund season and merchandise sales are highest in our first and second fiscal quarters (October through March) due to the holiday season, jewelry sales surrounding Valentine’s Day and the availability of tax refunds. In Latin America, most of our customers receive additional compensation from their employers in December, and many receive additional compensation in June or July, applying downward pressure on loan balances and fueling some merchandise sales in those periods. In Mexico, we saw similar downward pressure in loan balances during the **third quarter of prior year** due to a recent change in law related to company profit sharing payments to employees. We believe this change will impact pawn loan balances in May and June going forward. As a net effect of these and other factors and excluding discrete charges, our consolidated **income/loss income** before tax is generally highest in our first fiscal quarter (October through December) and lowest in our third fiscal quarter (April through June).

Financial Highlights

We remain focused on optimizing our balance of pawn loans outstanding (“PLO”) and the resulting higher PSC. The following chart presents sources of gross profit, including PSC, merchandise sales gross profit (“Merchandise sales GP”) and jewelry scrapping gross profit (“Jewelry Scrapping GP”) for the three **and nine** months ended **June 30, 2023** **December 31, 2023** and 2022:

Results of Operations

Non-GAAP Constant Currency and Same Store Financial Information

To supplement our condensed consolidated financial statements, which are prepared and presented in accordance with GAAP, we provide certain other non-GAAP financial information on a constant currency basis (“constant currency”) and “same store” basis. We use constant currency results to evaluate our Latin America Pawn operations, which are denominated primarily in Mexican pesos, Guatemalan quetzales and other Latin American currencies. We analyze results on a same store basis (which is defined as stores open during the entirety of the comparable periods) to better understand existing store performance without the influence of increases or decreases resulting solely from changes in store count. We believe presentation of constant currency and same store results is meaningful and useful in understanding the activities and business metrics of our Latin America Pawn operations and reflect an additional way of viewing aspects of our business that, when viewed with GAAP results, provide a better understanding and evaluation of factors and trends affecting our business. We provide non-GAAP financial information for informational purposes and to enhance understanding of our GAAP consolidated financial statements. We use this non-GAAP financial information to evaluate and compare operating results across accounting periods. Readers should consider the information in addition to, but not rather than or superior to, our financial statements prepared in accordance with GAAP. This non-GAAP financial information may be determined or calculated differently by other companies, limiting the usefulness of those measures for comparative purposes.

Constant currency results reported herein are calculated by translating consolidated balance sheet and consolidated statement of operations items denominated in local currency to U.S. dollars using the exchange rate from the prior-year comparable period, as opposed to the current period, in order to exclude the effects of foreign currency rate fluctuations. In addition, we have an equity method investment that is denominated in Australian dollars and is translated into U.S. dollars. We used the end-of-period rate for balance sheet items and the average closing daily exchange rate on a monthly basis during the appropriate period for statement of operations items. Our statement of operations constant currency results reflect the monthly exchange rate fluctuations and are not directly calculable from the rates below. Constant currency results, where presented, also exclude the foreign currency gain or loss. The end-of-period and approximate average exchange rates for each applicable currency as compared to U.S. dollars as of and for the three **and nine** months ended **June 30, 2023** **December 31, 2023** and **June 30, 2022** were as follows:

(a) Balance includes pawn loans and inventory.

(b) Balance is calculated based upon the average of the monthly ending balances during the applicable period.

PLO ended the quarter at \$178.9 million \$190.8 million, up 12% (9% 14% (13% on a same store basis).

Total revenue was up 16% 12% and gross profit increased 12% 10%, reflecting increased PSC and higher merchandise sales.

PSC increased 16% 14% as a result of higher average PLO.

Merchandise sales increased 9% 6% and gross margin decreased to 39% 37% from 41%, within our target range, 38%. Aged general merchandise was 1.0% 1.1% of total general merchandise inventory.

Net inventory increased 13% 8%, as expected with the growth in PLO. Inventory turnover increased to 2.6x 2.7x from 2.5x 2.6x.

Store expenses increased 14% 5%, primarily due to increased labor in-line with store activity, wage inflationary pressures, higher store count and, to a lesser extent, expenses related to our loyalty program, rent.

Segment contribution increased 9% 21% to \$32.3 million \$47.5 million, due to the changes noted above.

Segment store count increased by one de novo 1 store during this quarter, the quarter due to an acquisition.

Segment contribution increased \$5.9 million \$11.0 million or 16% 23% over the prior year quarter primarily due to improved operating results of the U.S. Pawn and Latin America Pawn segments above.

General and administrative expense increased \$1.1 million or 7%, primarily due to annual salary increases and an increase in costs related to the implementation of Workday.

Interest expense decreased \$0.8 million or 4% \$2.8 million, primarily due to the litigation accrual charge loss on extinguishment of \$2.0 million debt in the prior year quarter. In December 2022, the Company repurchased approximately \$109.4 million aggregate principal amount of 2.875% Convertible Senior Notes Due 2024 for approximately \$117.5 million plus accrued interest and approximately \$69.1 million aggregate principal amount of 2.375% Convertible Senior Notes Due 2025 for approximately \$62.9 million plus accrued interest and recorded in prior period, offset by an increase in costs primarily related to our Workday implementation, a \$3.5 million loss on extinguishment of debt.

Interest income increased \$2.3 million \$1.2 million, due primarily to our treasury management with increased market interest rates, and, to a lesser extent, loans to certain strategic investees. rates.

Income tax expense increased \$2.2 \$1.5 million primarily due to an increase in income before income taxes of \$8.2 \$13.2 million this quarter compared to the prior year quarter as a result of improved operating results within the U.S. Pawn segment and the Latin American Pawn segment.

Income tax expense includes other items that do not necessarily correspond to pre-tax earnings and create volatility in our effective tax rate. These items include the net effect of state taxes, non-deductible items and changes in valuation allowances for certain foreign operations. See Annual Report on Form 10-K for the year ended September 30, 2022 Note 11: Income Taxes of Notes to Consolidated Financial Statements included in "Part II, Item 8 — Financial Statements and Supplemental Data" for quantification of these items.

Merchandise sales increase was driven primarily by our continued focus on customer engagement and pricing merchandise to maintain strong inventory turnover. Offsetting the sales increase, merchandise sales gross margin decreased 400 bps, within our target range.

Store expenses increased 13%, primarily due to increased labor in-line with store activity, higher store count and, to a lesser extent, expenses related to our loyalty program.

Segment contribution increased \$11.3 million, primarily due to the changes described above.

During the nine months ended June 30, 2023, our Latin America pawn segment opened twenty-five de novo stores.

PSC increased 22% to \$71.4 million (15% to \$67.1 million on a constant currency basis) as a result of higher average PLO for the year.

Merchandise sales increased 31% (22% on a constant currency basis) and 25% on a same store basis (17% on a constant currency basis). Merchandise sales increase was driven primarily by our continued focus on customer engagement, pricing merchandise to maintain strong inventory turnover and increase in stores. Merchandise sales gross margin increased 200 bps from 29% to 31% and on a constant currency basis, within our target range.

Store expenses increased by 29% (21% on a constant currency basis) primarily due to higher store count and increased labor in-line with store activity. On a same-store basis, store expenses increased 25% (16% on a constant currency basis) due to rising labor costs resulting from growing transaction volume.

Segment contribution increased \$7.9 million, or 46%, to \$25.2 million. Segment contribution decreased \$11.7 million or 10% over the prior year nine months ended June 30, 2022, primarily due to the net loss on our share of losses in Cash Converters' net results related to their non-cash goodwill impairment charge, partially offset by the improved operating results of the segments above.

General and administrative expenses increased \$2.5 million or 5%, primarily due to the impact related to the reversal of incentive compensation for the departed CEO in the prior period and to a lesser extent, an overall increase in incentive-based compensation and costs primarily related to our Workday implementation, partially offset by the litigation accrual charge of \$2.0 million recorded in prior period.

Interest expense increased \$5.3 million, primarily driven by the net loss recorded on the partial extinguishments of the 2024 convertible notes and 2025 convertible notes, and higher average total debt outstanding at overall higher average effective interest rates due to the issuance of the 2029 convertible notes during December 2022. See Note 7: Debt to the consolidated financials for further discussion.

Income tax expense decreased \$1.4 million, primarily due to a decrease in income before income taxes of \$16.0 million for the nine months ended June 30, 2023 compared to the same prior year nine month period offset by an increase in tax expense for the non-deductible loss realized on the refinancing of the convertible notes in the current year.

Income tax expense includes other items that do not necessarily correspond to pre-tax earnings and create volatility in our effective tax rate. These items include the net effect of state taxes, non-deductible items and changes in valuation allowances for certain foreign operations. See Annual Report on Form 10-K for the year ended September 30, 2022 September 30, 2023 Note 11: Income Taxes of Notes to Consolidated Financial Statements included in "Part II, Item 8 — Financial Statements and Supplemental Data" for quantification of these items.

At June 30, 2023 December 31, 2023, our cash and equivalents were held in cash depository accounts with major banks or invested in high quality, short-term liquid investments.

The increase in cash flows provided by operating activities year-over-year quarter-over-quarter was primarily due to an increase in net income (when considering adjustments for non-cash items affecting net income) as well as changes in working capital primarily related to the timing of payments of prepaid expenses and accounts payable and prepaid expenses, payable.

The \$11.0 \$27.8 million decrease in cash flows used in investing activities year-over-year was primarily due to a \$60.5 \$29.8 million decrease in cash flows used to fund acquisitions and strategic investments, offset by a \$10.2 million increase in cash inflows from the sale of forfeited collateral offset by \$20.2 million increase in cash flows used to fund acquisitions and strategic investments and an increase of \$19.7 \$14.0 million in net pawn lending outflows. Of the \$20.2 million increase year-over-year used in funding acquisitions and other investments, the largest amount is \$15.0 million related to a note receivable from Founders, as discussed in Note 5: Strategic Investments in Part I, Item 1 - Notes to Interim Condensed Consolidated Financial Statements.

The \$27.8 \$40.4 million increase decrease in cash flows provided by financing activities was primarily related to the December 2022 financing of the 2029 Convertible Notes, in which we issued \$230.0 million (less issuance costs) principal amount of 3.750% Convertible Senior Notes Due 2029 offset by the extinguishment of approximately \$109.4 million aggregate principal amount of our 2024 Convertible Notes for approximately \$117.5 million plus accrued interest and approximately \$69.1 million aggregate principal amount of our 2025 Convertible Notes for approximately \$62.9 million plus accrued interest. In addition, we used approximately \$5.0 million of the net proceeds from the 2029 Convertible Notes offering to repurchase 578,703 shares of our Class A common stock from purchasers of the notes in privately negotiated transactions. Further, the Company repurchased and retired 1,037,703 shares of our Class A Common Stock for \$9.0 million under the Common Stock Repurchase Program for the nine month period ended June 30, 2023.

The net effect of these changes was a \$32.2 \$2.0 million increase decrease in cash on hand during the current year to date period, resulting in a \$246.5 \$227.0 million ending cash and restricted cash balance.

Sources and Uses of Cash

In December 2022, we issued \$230.0 million aggregate principal amount of 2029 Convertible Notes. In conjunction with the issuance of the 2029 Convertible Notes, we extinguished approximately \$109.4 million aggregate principal amount of our 2024 Convertible Notes for approximately \$117.5 million plus accrued interest and approximately \$69.1 million aggregate principal amount of our 2025 Convertible Notes for approximately \$62.9 million plus accrued interest. In addition, we used approximately \$5.0 million of the net proceeds from the 2029 Convertible Notes offering to repurchase 578,703 shares of our Class A common stock from purchasers of the notes in privately negotiated transactions. See Note 7 of Notes to Interim Condensed Consolidated Financial Statements included in "Part I, Item 1 — Financial Statements." The shares repurchased in conjunction with the transactions discussed above were authorized separately from, and not considered part of, the publicly announced share repurchase program referred to below.

On May 3, 2022, our Board authorized the repurchase of up to \$50 million of our Class A Common Stock over three years. As of June 30, 2023 December 31, 2023, we have repurchased 1,275,646 1,981,927 shares of our Class A Common Stock under the program for \$11.0 \$17.0 million. Execution of the program will be responsive to fluctuating market conditions and valuations, liquidity needs and the expected return on investment compared to other opportunities.

Under the stock repurchase program, we may purchase Class A Non-Voting common stock from time to time at management's discretion in accordance with applicable securities laws, including through open market transactions, block or privately negotiated transactions, or any combination thereof. In addition, we may purchase shares pursuant to a trading plan meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934.

The amount and timing of purchases will be dependent on a variety of factors, including stock price, trading volume, general market conditions, legal and regulatory requirements, general business conditions, the level of cash flows and corporate considerations determined by management and the Board, such as liquidity and capital needs and the availability of attractive alternative investment opportunities. The Board of Directors has reserved the right to modify, suspend or terminate the program at any time. See Note 8 of Notes to Interim Condensed Consolidated Financial Statements included in "Part I, Item 1 — Financial Statements."

We anticipate that cash flows from operations and cash on hand will be adequate to fund ongoing operations, current debt service requirements, tax payments, any future stock repurchases, strategic investments, our contractual obligations, planned de novo store growth, capital expenditures and working capital requirements through the next twelve months. We continue to explore acquisition opportunities, both large and small, and may choose to pursue additional debt, equity or equity-linked financings in the future should the need arise. Depending on the level of acquisition activity and other factors, our ability to repay our longer-term debt obligations, including the convertible debt maturing in 2024, 2025 and 2029, may require us to refinance these obligations through the issuance of new debt securities, equity securities, convertible securities or through new credit facilities.

Contractual Obligations

In "Part II, Item 7 — Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Annual Report on Form 10-K for the year ended **September 30, 2022** **September 30, 2023**, we reported that we had **\$608.0** **\$736.6** million in total contractual obligations as of **September 30, 2022** **September 30, 2023**. There have been no material changes to this total obligation since **September 30, 2022**, other than the convertible debt refinancing and lease liabilities changes as further discussed in Note 7: Debt and Note 4: Leases, respectively, of Notes to Interim Condensed Consolidated Financial Statements included in "Part I, Item 1 — Financial Statements." **September 30, 2023**.

We are responsible for the maintenance, property taxes and insurance at most of our locations. In the fiscal year ended **September 30, 2022** **September 30, 2023**, these collectively amounted to **\$15.2** **\$16.3** million.

Recently Adopted Accounting Policies and Recently Issued Accounting Pronouncements

We reviewed all See Note 1 of the Notes to Condensed Consolidated Financial Statements included in "Part I, Item 1 — Financial Statements" of this Quarterly Report for recently issued accounting pronouncements including the expected dates of adoption and concluded that they were either not applicable or not expected to have a material impact estimated effects, if any, on our Condensed Consolidated Financial Statements. consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risks relating to our operations result primarily from changes in interest rates, gold values and foreign currency exchange rates, and are described in detail in "Part II, Item 7A — Quantitative and Qualitative Disclosures about Market Risk" of our Annual Report on Form 10-K for the year ended **September 30, 2022** **September 30, 2023**. There have been no material changes in our reported market risks or risk management policies since the filing of our Annual Report on Form 10-K for the year ended **September 30, 2022** **September 30, 2023**.

ITEM 4. CONTROLS AND PROCEDURES

This report includes the certifications of our Chief Executive Officer and Chief Financial Officer required by Rule 13a-14 of the Securities Exchange Act of 1934 (the "Exchange Act"). See Exhibits 31.1 and 31.2. This Item 4 includes information concerning the controls and control evaluations referred to in those certifications.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are designed to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.

Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, our management evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of **June 30, 2023** **December 31, 2023**. Our principal executive officer and principal financial officer have concluded that as of **June 30, 2023** **December 31, 2023**, our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms and that such information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended **June 30, 2023** **December 31, 2023** that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Internal Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls or our internal controls will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no

assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with associated policies or procedures. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note 9: Contingencies of Notes to [Interim](#) Condensed Consolidated Financial Statements included in "Part I, Item 1 — Financial Statements."

ITEM 1A. RISK FACTORS

Important risk factors that could affect our operations and financial performance, or that could cause results or events to differ from current expectations, are described in [Part "Part I, Item 1A — Risk Factors"Factors](#) of our Annual Report on Form 10-K for the year ended [September 30, 2022](#), as supplemented by the information set forth below.

A recent law change in Australia could adversely impact Cash Converters' business

In December 2022, the Australian Parliament passed the Financial Sector Reform Bill 2022, which establishes lending limits on small amount credit contracts. The bill became effective in June 2023, and could adversely impact the financial position or results of operations of Cash Converters, in which the Company has an equity investment. Cash Converters recognized a one-time, non-cash impairment expense of AUD\$110.5 million against goodwill in their financial statements for the period ended December 31, 2022 and based upon our 43.7% ownership of Cash Converters, after translation to USD, we recorded a \$32.5 million equity method loss during the quarter ended March 31, 2023 [September 30, 2023](#). A decline in the operating results of Cash Converters, if any, resulting from the change of law could adversely affect our investment.
