

[illegible]

not include all of the information and footnotes required by US GAAP for complete consolidated financial statements. The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses, the valuation of available-for-sale investment securities, the valuation of other real estate owned (â€œOREOâ€œ), and the assessment of realizability of deferred income tax assets. The Company has evaluated events and transactions occurring subsequent to the balance sheet date of June 30, 2024 for items that should potentially be recognized or disclosed in these consolidated financial statements. The evaluation was conducted through the date these consolidated financial statements were issued. A NOTE B - RECENT ACCOUNTING PRONOUNCEMENTS A In connection with the preparation of quarterly and annual reports in accordance with the Securities Exchange Act of 1934, Securities and Exchange Commission (â€œSECâ€œ) Staff Accounting Bulletin Topic 11.M requires the disclosure of the impact that recently issued accounting standards will have on consolidated financial statements when they are adopted in the future. A In June 2016, the Financial Accounting Standards Board (â€œFASBâ€œ) issued Accounting Standards Update (â€œASUâ€œ) 2016-13, Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments (Topic 326), which changed the impairment model for most financial assets. This update was intended to improve financial reporting by requiring timelier recording of credit losses on loans and other financial instruments held by financial institutions and other organizations. The underlying premise of the update is that financial assets measured at amortized cost should be presented at the net amount expected to be collected, through an allowance for credit losses that is deducted from the amortized cost basis. The allowance for credit losses (â€œACLâ€œ) should reflect management's current estimate of credit losses that are expected to occur over the remaining life of a financial asset. The income statement will be affected for the measurement of credit losses for newly recognized financial assets, as well as the expected increases or decreases of expected credit losses that have taken place during the period. With certain exceptions, transition to the new requirements will be through a cumulative-effect adjustment to opening retained earnings as of the beginning of the first reporting period in which the guidance is adopted. This update is effective for SEC filers that are eligible to be smaller reporting companies, non-SEC filers, and all other companies, to fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. A 7A The Company adopted ASU 2016-13 on October 1, 2023 using the modified retrospective approach for all financial assets measured at amortized cost, including loans, held-to-maturity debt securities and unfunded commitments. The Company recorded a cumulative effect increase to retained earnings of \$492 thousand (\$354 thousand net of taxes), which was comprised of a \$1.0 million (\$725 thousand net of tax) increase related to loans and \$540 thousand (\$379 thousand net of tax) decrease related to unfunded commitments. The Company determined that there was no impact to retained earnings related to held-to-maturity securities as a result of adopting this guidance. The results reported for periods beginning on or after October 1, 2023 are presented under Accounting Standards Codification (â€œASCâ€œ) 326, while prior period amounts continue to be reported in accordance with previously applicable accounting standards. A The impact of the change from the incurred loss model to the current expected credit loss model is included in the following table: A A October 1, 2023A A A A AdoptionA A A A Pre-adoptionA A ImpactA A As ReportedA A (In thousands)A AssetsA A A A A A A A ACL on debt securities held-to-maturityA \$â€œA A \$â€œA A \$â€œA A ACL on loansA A A A A A A A A A One-to-four family residentialA 1,259A A 7A A 1,266A Commercial real estateA 5,277A A 4 (589)A 4,688A Construction and landA 472A A 4 (55)A 417A Home equity lines of creditA 207A A 4 (87)A 120A Commercial businessA 939A A 4 (133)A 806A OtherA 176A A 4 (175)A 1A A A A A A A A LiabilitiesA A A A A A A A A A A A ACL on unfunded commitmentsA â€œA A 4 540A A 4 540A TotalA \$8,330A A \$(492)A \$7,838A A Allowance for Credit Losses on LoansA The Company maintains its ACL at a level that management believes to be appropriate to absorb expected credit losses as of the date of the Consolidated Statement of Financial Condition. The Company established its allowance in accordance with the guidance included in Accounting Standards Codification 326, Financial Instruments â€œ Credit Losses (â€œASC 326â€œ). The ACL is a valuation reserve established and maintained by charges against income. Loans, or portions thereof, are charged off against the ACL when they are deemed uncollectible. The ACL is an estimate of expected credit losses that considers our historical loss experience, the weighted average expected lives of loans, current economic conditions and forecasts of future economic conditions. The determination of an appropriate ACL is inherently subjective and may have significant changes from period to period. The methodology for determining the ACL has two main components: evaluation of expected credit losses for certain groups of homogeneous loans that share similar risk characteristics and evaluation of loans that do not share risk characteristics with other loans. The ACL is measured on a collective (pool) basis when similar characteristics exist. The Companyâ€™s loan portfolio is segmented by loan types that have similar risk characteristics and behave similarly during economic cycles. A Historical credit loss experience is the basis for the estimate of expected credit losses. We apply our historical loss rates to pools of loans with similar risk characteristics using the Weighted-Average Remaining Maturity (â€œWARMâ€œ) method. The remaining contractual life of the pools of loans with similar risk characteristics is adjusted by expected scheduled payments and prepayments. After consideration of the historical loss calculation, management applies qualitative adjustments to reflect the current conditions and reasonable and supportable forecasts not already reflected in the historical loss information. Our reasonable and supportable forecast adjustment is based on a regional economic indicator obtained from the United States Government Publishing Office. The Company selected eight qualitative metrics which were correlated with the Bank and its peer groupâ€™s historical loss patterns. The eight qualitative metrics include: changes in lending policies and procedures, changes in national and local economic conditions as well as business conditions, changes in the nature, complexity, and volume of the portfolio, changes in the experience, ability, and depth of lenders and lending management, changes in the volume and severity of past due and classified loans, changes in the value of collateral securing loans, changes in or the existence of credit concentrations, and changes in the legal and/or regulatory landscape. The adjustments are weighted for relevance before applying to each pool of loans. Each quarter, management reviews the recommended adjustment factors and applies any additional adjustments based on current conditions. A 8A The Company has elected to exclude \$4.5 million of accrued interest receivable on loans as of June 30, 2024 from the measurement of its ACL. When a loan is placed on non-accrual status, any outstanding accrued interest is reversed against interest income. Accrued interest on loans is reported in the accrued interest receivable line on the consolidated statements of financial condition. A The ACL for individual loans begins with the use of normal credit review procedures to identify whether a loan no longer shares similar risk characteristics with other pooled loans and, therefore, should be individually assessed. We individually evaluate loans that meet the following criteria: (1) when it is determined that foreclosure is probable, (2) substandard, doubtful and nonperforming loans when repayment is expected to be provided substantially through the operation or sale of the collateral, or (3) when it is determined by management that a loan does not share similar risk characteristics with other loans. Credit loss estimates are calculated based on the following three acceptable methods for measuring the ACL: (1) the present value of expected future cash flows discounted at the loanâ€™s original effective interest rate; (2) the loanâ€™s observable market price; or (3) the fair value of the collateral when the loan is collateral dependent. Our individual loan evaluations consist primarily of the fair value of collateral method because most of our loans are collateral dependent. Collateral values are reduced to consider expected disposition costs when appropriate. A charge-off is recorded when the estimated fair value of the loan is less than the loan balance. A Allowance for Credit Losses on Unfunded Loan Commitments A The Company estimates expected credit losses over the contractual period in which the Bank is exposed to credit risk via a contractual obligation to extend credit unless that obligation is unconditionally cancellable by the Bank. The allowance for credit losses on unfunded loan commitments is included in accounts payable and other liabilities in the Companyâ€™s Consolidated Balance Sheets and is adjusted through credit loss expense. The estimate includes consideration of the likelihood that funding will occur, the amount of funding that will occur and an estimate of expected credit losses on commitments expected to be funded over its estimated life. A Allowance for Credit Losses on Held-to-Maturity Securities A The Company accounts for its held-to-maturity securities in accordance with ASC 326-20, Financial Instruments â€œ Credit Loss â€œ Measured at Amortized Cost, which requires that the Company measure expected credit losses on held-to-maturity debt securities on a collective basis by major security type. The estimate of expected credit losses considers historical credit loss information that is adjusted for current economic conditions and reasonable and supportable forecasts. A The Company classifies its held-to-maturity debt securities into the following major security types: obligations of U.S. government agencies, obligations of U.S. government-sponsored enterprises, private label mortgage-backed securities, obligations of state and political subdivisions and corporate securities. Credit ratings of held-to-maturity debt securities, which are a significant input in calculating the expected credit loss, are reviewed on a quarterly basis. Based on the credit ratings of our held-to-maturity securities and our historical experience of no losses, the Company determined that the expected credit losses on itsâ€™ held-to-maturity portfolio is not significant. A Accrued interest receivable on held-to-maturity debt securities totaled \$235 thousand as of June 30, 2024 and is included within accrued interest receivable on the Companyâ€™s Consolidated Balance Sheets. This amount is excluded from the estimate of expected credit losses. Generally, held-to-maturity debt securities are classified as nonaccrual when the contractual payment of principal or interest has become 90 days past due or management has serious doubts about the further collectability of principal or interest. When held-to-maturity debt securities are placed on nonaccrual status, unpaid interest credited to income is reversed against interest income. A Allowance for Credit Losses on Available-for-Sale Securities A The Company measures expected credit losses on available-for-sale debt securities when the Bank intends to sell, or when it is not more likely than not that it will be required to sell, the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the amortized cost basis of the security is written down to fair value through income. For available-for-sale debt securities that do not meet the previously mentioned criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security, among other factors. If this evaluation indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, equal to the amount that the fair value is less than the amortized cost basis. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income. A 9A The ACL on available-for-sale debt securities is included within the recorded balance of securities available-for-sale on the Consolidated Balance Sheets. Changes in the allowance for credit losses are recorded within provision for credit losses on the Consolidated Statements of Income. Losses are charged against the allowance when the Company believes the collectability of an available-for-sale security is in jeopardy or when either of the criteria regarding intent or requirement to sell is met. A Accrued interest receivable on available-for-sale debt securities totaled \$72 thousand as of June 30, 2024 and is included within accrued interest receivable on the Companyâ€™s Consolidated Balance Sheets. This amount is excluded from the estimate of expected credit losses. Generally, available-for-sale debt securities are classified as nonaccrual when the contractual payment of principal or interest has become 90 days past due or management has serious doubts about the further collectability of principal or interest. When available-for-sale debt securities are placed on nonaccrual status, unpaid interest credited to income is reversed against interest income. A NOTE C - CONTINGENCIES A The Company, from time to time, is a party to routine litigation that arises in the normal course of business. In the opinion of management, the resolution of this litigation, if any, would not have a material adverse effect on the Companyâ€™s consolidated financial position or results of operations as presented in this report. A NOTE D - EARNINGS PER SHARE A The following table presents a calculation of basic and diluted earnings per share for the three and nine months ended June 30, 2024 and 2023. Basic and diluted earnings per share were calculated by dividing net income by the weighted-average number of shares outstanding for the periods. A A Three MonthsA A Nine MonthsA A Ended June 30,A A Ended June 30,A A 2024A A 2023A A 2024A A 2023A A (Dollars in thousands, except share and per share data)A A A A A A A A Income applicable to common sharesA \$1,691A A \$1,918A A \$5,240A A \$5,244A A Weighted average common shares outstanding- basicA 6,336,702A A A 6,412,536A A A 6,358,581A A A 6,426,978A A Weighted average common shares outstanding- dilutedA 6,336,702A A A 6,412,536A A A 6,358,581A A A 6,426,978A A Earnings per share - basicA \$0.27A A \$0.30A A \$0.82A A \$0.86A A Earnings per share - dilutedA \$0.27A A \$0.30A A \$0.82A A \$0.86A A Options to purchase 293,200 shares of common stock at a weighted average strike price of \$12.58 and 124,320 shares of restricted shares at a weighted average price of \$12.63 were outstanding at June 30, 2024 but were not included in the calculation of diluted EPS because they were anti-dilutive. Options to purchase 293,200 shares of common stock at a weighted average strike price of \$12.58 and 156,400 shares of restricted shares at a weighted average price of \$12.63 were outstanding at June 30, 2023 but were not included in the calculation of diluted EPS because they were anti-dilutive. A NOTE E â€œ STOCK-BASED COMPENSATION AND STOCK REPURCHASE PROGRAM A On August 25, 2022, the Company adopted the 2022 Equity Compensation Plan which provided for grants of up to 391,000 shares to be allocated between incentive and non-qualified stock options and up to 156,400 shares of restricted stock awards to officers, employees and directors of the Company and Magyar Bank. At June 30, 2024, 293,200 options and 156,400 shares of restricted stock had been awarded from the plan. A NOTE G FAIR VALUE DISCLOSURES The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. The securities available-for-sale and the Company's derivative assets and liabilities are recorded at fair value on a recurring basis. Additionally, from time to time, the Company may be required to record at fair value other assets or liabilities on a non-recurring basis, such as held-to-maturity securities, mortgage servicing rights, loans receivable and OREO. These non-recurring fair value adjustments involve the application of lower-of-cost-or-market accounting or write-downs of individual assets. A In accordance with ASC 820, the Company groups its assets and liabilities at fair value in three levels, based on the markets in which the assets are traded and the reliability of the assumptions used to determine fair value. These levels are: A Level 1 - Valuation is based upon quoted prices for identical instruments traded in active markets. A Level 2 - Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market. A Level 3 - Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include the use of option pricing models, discounted cash flow models and similar techniques. The results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. A 12A The Company based its fair values on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 requires the Company to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A The following is a description of valuation methodologies used for assets measured at fair value on a recurring basis. A Securities available-for-sale The securities available-for-sale portfolio is carried at estimated fair value on a recurring basis, with any unrealized gains and losses, net of taxes, reported as accumulated other comprehensive income/loss in stockholders' equity. The securities available-for-sale portfolio consists of U.S government-sponsored mortgage-backed securities. The fair values of these securities are obtained from an independent nationally recognized pricing service. An independent pricing service provides the Company with prices which are categorized as Level 2, as quoted prices in active markets for identical assets are generally not available for the securities in the Company's portfolio. Various modeling techniques are used to determine pricing for Company's mortgage-backed securities, including option pricing and discounted cash flow models. The inputs to these models include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. A Derivatives The Bank executes interest rate swaps with commercial lending customers to facilitate their respective risk management strategies. The fair values of such derivatives are based on valuation models from a third party using current market terms (including interest rates and fees), the remaining terms of the agreements and the credit worthiness of the counterparty as of the measurement date (Level 2). A The following tables provide the level of valuation assumptions used to determine the carrying value of the Company's assets measured at fair value on a recurring basis. A June 30, 2024 Total Assets Level 1A Level 2A Level 3A A (In thousands) Assets: A Mortgage-backed securities - residential \$87A \$A \$87A \$Ac A Obligations of U.S. government-sponsored enterprises: A Mortgage-backed securities-residential \$1,473A \$A \$1,473A \$Ac A Corporate securities \$4,024A \$A \$4,024A \$Ac A Total securities available for sale \$15,584A \$A \$15,584A \$Ac A Derivative assets \$1,841A \$A \$1,841A \$Ac A Total assets \$17,425A \$A \$17,425A \$Ac A Liabilities: A Derivative liabilities \$1,841A \$A \$1,841A \$Ac A Total liabilities \$1,841A \$A \$1,841A \$Ac A September 30, 2023A Total Assets Level 1A Level 2A Level 3A A (In thousands) Assets: A Mortgage-backed securities - residential \$92A \$A \$92A \$Ac A Obligations of U.S. government-sponsored enterprises: A Mortgage-backed securities-residential \$10,033A \$A \$10,033A \$Ac A Total securities available for sale \$10,125A \$A \$10,125A \$Ac A Derivative assets \$2,579A \$A \$2,579A \$Ac A Total assets \$12,704A \$A \$12,704A \$Ac A Liabilities: A Derivative liabilities \$2,579A \$A \$2,579A \$Ac A Total liabilities \$2,579A \$A \$2,579A \$Ac A 13A The following is a description of valuation methodologies used for assets measured at fair value on a non-recurring basis. A Collateral Dependent Loans Collateral dependent loans are measured and reported at fair value through specific allocations of the allowance for credit losses based on the fair value of the underlying collateral. A There were no assets measured at fair value on a non-recurring basis at June 30, 2024. The following table provides the level of valuation assumptions used to determine the carrying value of the Company's assets measured at fair value on a non-recurring basis at September 30, 2023. A Total Assets Level 1A Level 2A Level 3A September 30, 2023A (In thousands) A Impaired loans \$777A \$A \$777A \$Ac A Total \$777A \$A \$777A \$Ac A The following tables present additional quantitative information about assets measured at fair value on a nonrecurring basis and for which Company has utilized Level 3 inputs to determine fair value: A Quantitative Information about Level 3 Fair Value Measurements (Dollars in thousands) A Fair Value Valuation A September 30, 2023 Estimate Techniques Unobservable Input Range (Weighted Average) A Impaired loans \$77 Appraisal of collateral (1) Appraisal adjustments (2) -50% to -8.0% (-19.4%) A (1)Fair value is generally determined through independent appraisals for the underlying collateral, which generally include various level 3 inputs which are not identifiable. (2)Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses. The range and weighted average of liquidation expenses and other appraisal adjustments are presented as a percent of the appraisal. A The following presents the carrying amount, fair value, and placement in the fair value hierarchy of the Company's financial instruments carried at cost or amortized cost as of June 30, 2024 and September 30, 2023. A For short-term financial assets such as cash and cash equivalents and accrued interest receivable, the carrying amount is a reasonable estimate of fair value due to the relatively short time between the origination of the instrument and its expected realization. A For financial liabilities such as interest-bearing demand, NOW, and money market savings deposits, the carrying amount is a reasonable estimate of fair value due to these products being payable on demand and having no stated maturity. The Company's bank-owned life insurance is not a marketable asset and may generally only be redeemed with the insurance company, and is therefore not included in the table below. A Carrying Amount Fair Value Fair Value Measurement Placement A Value A Value A (Level 1)A (Level 2)A (Level 3)A A June 30, 2024A Financial Instruments - assets \$751,665A \$735,915A Investment securities held to maturity \$78,917A \$69,500A Loan receivable net allowance for credit losses \$751,665A \$735,915A Financial Instruments - liabilities \$78,917A \$69,500A Certificates of deposit including retirement certificates \$143,633A \$141,357A Borrowings \$28,568A \$27,342A Asset \$27,342A September 30, 2023A Financial Instruments - assets \$664,331A \$646,884A Investment securities held to maturity \$85,835A \$73,728A Loan receivable net allowance for credit losses \$689,070A \$664,331A Asset \$664,331A Financial Instruments - liabilities \$85,835A \$73,728A Certificates of deposit including retirement certificates \$104,668A \$101,216A Borrowings \$29,515A \$28,177A Asset \$28,177A NOTE H LEASES Accounting Standard Update ASU 842, Leases requires lessees to recognize a lease liability and a right-of-use (ROU) asset, measured at the present value of the future minimum lease payments, at the lease commencement date. A On April 1, 2024, the Bank entered into a lease agreement to rent a retail office space in Martinsville, New Jersey to increase its presence in Somerset County. The initial term of the lease is for five years, ending on March 31, 2029, but does include the option for two additional terms of five years each. In accordance with ASC 842, a lease liability and ROU asset in the amount of \$180 thousand was recognized on April 1, 2024 within accounts payable and other liabilities and other assets, respectively, on our Consolidated Balance Sheets. The discount rate used to determine the lease liability was 4.22% and derived from the Federal Home Loan Bank of New York advance rate for the same term. A Operating lease ROU assets represent our right to use an underlying asset during the lease term and operating lease liabilities represent our obligation to make lease payments arising from the lease. ROU assets and lease liabilities are recognized at lease commencement base on the present value of the remaining lease payments using a discount rate that represents our incremental borrowing rate. The incremental borrowing rate used by the Company to value its operating leases is based on the interpolated term advance rate available from the FHLBNY, based on the remaining lease term. The following table presents the balance sheet information related to our leases: A June 30, 2024A September 30, 2023A (Dollars in thousands) Operating lease right-of-use asset \$2,382A \$2,687A Operating lease liabilities \$2,589A \$2,944 Weighted average remaining lease term in years 6.5A 6.4A Weighted average discount rate 2.4%A 2.2%A Total rental expense, included in occupancy expense, was approximately \$602 thousand and \$604 thousand for the nine months ended June 30, 2024 and 2023, respectively. A NOTE I - INVESTMENT SECURITIES The following table summarizes the amortized cost and fair values of securities classified as available-for-sale and held-to-maturity at June 30, 2024: Gross Amortized Unrealized Unrealized Fair Cost Gains Losses Value A (In thousands) Securities available-for-sale: A Obligations of U.S. government agencies: A Mortgage-backed securities - residential \$98A \$Ac A (\$11) \$87A Obligations of U.S. government-sponsored enterprises: A Mortgage-backed securities - residential \$12,964A \$15A A (\$1,506) A \$11,473A Corporate securities \$4,000A \$24A \$Ac A \$4,024A Total securities available-for-sale \$17,062A \$39A \$1,517A \$15,584A Securities held-to-maturity: A Obligations of U.S. government agencies: A Mortgage-backed securities - residential \$4,801A \$Ac A (\$758)A \$4,043A Mortgage-backed securities - commercial \$4,353A \$Ac A (31)A \$4,322A Obligations of U.S. government-sponsored enterprises: A Mortgage-backed securities - residential \$44,116A \$3A A (6,682)A \$37,437A Debt securities \$18,999A \$Ac A A (1,234)A \$17,765A Private label mortgage-backed securities - residential \$195A \$Ac A (11)A \$184A Obligations of state and political subdivisions \$4,353A \$Ac A A (470)A \$2,983A Corporate securities \$3,000A \$Ac A (234)A \$2,766A Total securities held-to-maturity \$78,917A \$3A A (\$9,420) \$69,500A Total investment securities \$95,979A \$42A A (\$10,937)A \$85,084A The Company monitors the credit quality of held-to-maturity debt securities, primarily through their credit ratings by nationally recognized statistical ratings organizations, on a quarterly basis. At June 30, 2024, there were no non-performing held-to-maturity debt securities and no allowance for credit losses were required. The majority of the investment securities are explicitly or implicitly guaranteed by the United States government, and any estimate of expected credit losses would be insignificant to the Company. The following table summarizes the amortized cost of held-to-maturity debt securities at June 30, 2024, aggregated by credit quality indicator: Credit Rating at Amortized Cost AAA/A AA/B BB+/BB- BA/NON-RATED June 30, 2024 (In thousands) Securities held-to-maturity: A Obligations of U.S. government agencies: A Mortgage-backed securities - residential \$4,801A \$Ac A Mortgage-backed securities - commercial \$4,353A \$Ac A Obligations of U.S. government-sponsored enterprises: A Mortgage-backed securities - residential \$44,116A \$Ac A Debt securities \$18,999A \$Ac A Private label mortgage-backed securities - residential \$195A \$Ac A Obligations of state and political subdivisions \$4,353A \$Ac A Corporate securities \$3,000A \$Ac A Totals \$75,722A \$3,000A \$195A \$16A The contractual maturities of debt securities, municipal bonds and certain information regarding mortgage-backed securities at June 30, 2024 are summarized in the following table: A June 30, 2024A Amortized Fair Cost Value A (In thousands) Due within 1 year \$6,500A \$6,318A Due after 1 but within 5 years \$14,541A \$13,501A Due after 5 but within 10 years \$8,411A \$7,719A Due after 10 years \$Ac A Total debt securities \$29,452A \$27,538A Mortgage backed securities: A Residential \$62,174A \$53,224 Commercial \$4,353A \$4,322A Totals \$95,979A \$85,084A The following table summarizes the amortized cost and fair values of securities classified as available-for-sale and held-to-maturity at September 30, 2023: A Gross Amortized Unrealized Unrealized Fair September 30, 2023A (In thousands) Gross Amortized Unrealized Unrealized Fair September 30, 2023A Costs Gains Losses Values A Mortgage-backed securities - residential \$106A \$Ac A (\$14) \$92A Obligations of U.S. government-sponsored enterprises: A Mortgage-backed securities-residential \$11,984A \$Ac A (1,951)A \$10,033A Total securities available for sale \$12,090A \$Ac A (\$1,965)A \$10,125A Securities held-to-maturity: A Obligations of U.S. government agencies: A Mortgage-backed securities - residential \$5,070A \$Ac A (\$850)A \$4,220A Mortgage-backed securities - commercial \$4,509A \$Ac A (16)A \$2,493A Obligations of U.S. government-sponsored enterprises: A Mortgage-backed securities - residential \$48,086A \$Ac A (8,480)A \$39,606A Debt securities \$23

ended June 30, 2023. The increase was primarily attributable to higher compensation and benefit expense, which increased \$549 thousand, or 6.7%, to \$8.7 million, due to fewer open positions between periods and the additions of a commercial lender and a commercial credit analyst, as well as annual merit increases. A Also contributing to the increase were higher occupancy expenses, professional expenses, FDIC deposit insurance premiums and other expenses. Occupancy expenses increased \$63 thousand, or 2.7%, from higher rental expense, furniture and equipment related to a new lease executed April 1, 2024 for a new branch office in Martinsville, NJ. Professional fees increased \$33,000, or 5.8%, from higher legal and foreclosure expenses incurred by the Company compared with the prior year period. Deposit insurance premiums increased \$71,000, or 29.2%, from deposit growth and higher insurance assessment rates implemented by the FDIC for all insured institutions effective January 1, 2023. Other expenses increased \$237,000, or 15.4%, from higher loan origination and servicing costs, higher losses on fraudulent checks, higher recruitment costs and higher data communication costs. A Income Tax Expense. The Company recorded tax expense of \$1.7 million on pre-tax income of \$7.0 million for the nine months ended June 30, 2024, compared with \$2.4 million on pre-tax income of \$7.9 million for the nine months ended June 30, 2023. The decrease in income tax expense was driven by changes in deferred tax items between the periods as well as changes in the State of New Jersey's entity consolidation rule. A LIQUIDITY AND CAPITAL RESOURCES A Liquidity A The Company's liquidity is a measure of its ability to fund loans, pay withdrawals of deposits, and other cash outflows in an efficient, cost-effective manner. A The Company's short-term sources of liquidity include maturity, repayment and sales of assets, excess cash and cash equivalents, new deposits, other borrowings, and new advances from the FHLBNY. Based on eligible loan collateral pledged to the FHLBNY at June 30, 2024, we had an aggregate borrowing capacity of \$114.9 million. There has been no material adverse change during the nine months ended June 30, 2024 in the ability of the Company and its subsidiaries to fund their operations. A At June 30, 2024, the Company had commitments outstanding under letters of credit totaling \$690 thousand, commitments to originate loans totaling \$38.5 million, and commitments to fund undisbursed balances of closed loans and unused lines of credit totaling \$93.1 million. A There has been no material change during the current quarter ended June 30, 2024 in any of the Company's other contractual obligations or commitments to make future payments. A Capital Requirements A At June 30, 2024, the Bank's Tier 1 capital as a percentage of the Bank's total assets was 10.92%, and total qualifying capital as a percentage of risk-weighted assets was 15.93%. A 35A Item 3-Quantitative and Qualitative Disclosures about Market Risk A Not applicable to smaller reporting companies. A Item 4 a Controls and Procedures A Under the supervision and with the participation of our management, including our Principal Executive Officer and Principal Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based upon that evaluation, the Principal Executive Officer and Principal Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective. A There has been no change in the Company's internal control over financial reporting during the quarter ended June 30, 2024 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. A 36A A PART II - OTHER INFORMATION A Item 1.Legal proceedings A None. A Item 1A.Risk Factors A There were no material changes to the risk factors relevant to the Company's operations as described in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2023 filed on December 15, 2023. A Item 2.Unregistered Sales of Equity Securities and Use of Proceeds a.)Not applicable. b.)Not applicable. c.)The Company repurchased 85,628 shares of its common stock during the nine months ended June 30, 2024. Through June 30, 2024, the Company held 509,269 shares in treasury that were repurchased at a weighted average price of \$12.40 pursuant to stock repurchase plans. On December 8, 2022, the Company announced a stock repurchase program of up to 5% of its outstanding shares of common stock, or 337,146 shares, 150,688 shares of which remained subject to repurchase under the plan at the nine months ended June 30, 2024. The deposits include certificates of deposits and open accounts. Certificates of deposit including retirement certificates. Amount of charge-off means a lender or creditor has written the account off as a loss, and the account is closed to future charges. It may be sold to a debt buyer or transferred to a collection agency. You are still legally obligated to pay the debt. Amount of commercial business. Description of commercial relationships. Weighted Average Variable Rate. Effect of adopting. Represent the amount of effect of adopting ASU 2016-13. Equity compensation shares. The current FDIC insurance limit on bank deposit accounts. Fair value inputs, valuation technique. The fair value of assets measured on a nonrecurring basis. Unobservable Input of fair value. Dividend income from federal home loan bank investment. Tabular disclosure of financing receivable on collateral loans. The contractual amount of off-balance

sheet lending-related financial instruments (e.g., commitments and guarantees), which represents the maximum possible credit risk should the counterparty draw upon the commitment or the entity be required to fulfill its obligation under the guarantee, and the counterparty subsequently fail to perform according to the terms of the contract. Amount of home equity lines of credit. Represent the amount of amount represents impaired loans and interest income. The increase (decrease) during the reporting period in surrender value of bank owned life insurance. The amount of construction and land. Interest income recognized on an accrual basis on impaired loans. Interest rate swap fees. Amount of Investment After TDR Modification. The amount of Investment Before TDR Modification. Total investment in other real estate. Amount before allowance of loans and leases held in portfolio, including but not limited to, commercial and consumer loans. Includes deferred interest and fees, undisbursed portion of loan balance, unamortized costs and premiums and discounts from face amounts. Excludes loans and leases covered under loss sharing agreements. Amount of deferred costs incurred to originate loans and leases from face amounts of acquired loans. Loans receivable, current. Amount before allowance of loans and leases held in portfolio, including but not limited to, commercial and consumer loans. Includes deferred interest and fees, undisbursed portion of loan balance, unamortized costs and premiums and discounts from face amounts. Excludes loans and leases covered under loss sharing agreements. Loans receivable, past due. Represent the amount of loans receivable past due. The increase (decrease) in loan receivable reported during the period. Number of financing receivables that have been modified by troubled debt restructurings. Amount of family residential. The percentage of repurchase additional. Principal and interest payable term. Proceeds from the sales of loans receivable. Represent the amount of provision for credit losses commitments. Purchase of treasury stock, shares. Amount of cash inflow (outflow) from purchase of treasury stock. Range (Weighted Average). Represent the amount of real estate acquired in full satisfaction of loans in foreclosure. Amount of deposits that cannot be withdrawn before a set date without penalty or for which notice of withdrawal is required. The deposits include individual retirement accounts. Purchases of premises and equipment. Tabular disclosure of composition of entities interest bearing deposits. Represent the amount of credit rating. Income on service charges for the period. Aggregate intrinsic value, forfeited. Aggregate intrinsic value, gfranted. Weighted average remaining contractual life, exercised Weighted average remaining contractual life, expired. Weighted average remaining contractual life, forfeited. Weighted Average Remaining Contractual Life, Granted. Cost of unearned shares that qualify as permanent equity that are held by an employee stock ownership plan (ESOP). Unrealized gain (loss) on available for sale securities. The amount represents unvested stock options and stock awards. Measurement Basis [Axis] Represents details pertaining to other financing receivable. Impaired loans Commitments to borrowers or third party investors for the origination of a variable loan. Obligations of state and political subdivisions [Member] Details pertaining to residential real estate 1-4 family loan extended by the entity. (the áâCompanyáâ), its wholly owned subsidiary, Magyar Bank (the áâBankáâ), and the Bankáâs wholly owned subsidiaries Magyar Service Corporation, Hungaria Urban Renewal, LLC, and Magyar Investment Company. All material intercompany transactions and balances have been eliminated. The Company prepares its consolidated financial statements on the accrual basis and in conformity with accounting principles generally accepted in the United States of America ("US GAAP"). The unaudited information furnished herein reflects all adjustments (consisting of normal recurring accruals) that are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. Á Operating results for the nine months ended June 30, 2024 are not necessarily indicative of the results that may be expected for the year ending September 30, 2024. The September 30, 2023 information has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by US GAAP for complete consolidated financial statements. Á The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses, the valuation of available-for-sale investment securities, the valuation of other real estate owned (áâOREOáâ), and the assessment of realizability of deferred income tax assets. Á The Company has evaluated events and transactions occurring subsequent to the balance sheet date of June 30, 2024 for items that should potentially be recognized or disclosed in these consolidated financial statements. The evaluation was conducted through the date these consolidated financial statements were issued. Á In June 2016, the Financial Accounting Standards Board (áâFASBáâ) issued Accounting Standards Update (áâASUáâ) 2016-13, Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments (Topic 326), which changed the impairment model for most financial assets. This update was intended to improve financial reporting by requiring timelier recording of credit losses on loans and other financial instruments held by financial institutions and other organizations. The underlying premise of the update is that financial assets measured at amortized cost should be presented at the net amount expected to be collected, through an allowance for credit losses that is deducted from the amortized cost basis. The allowance for credit losses (áâACLáâ) should reflect management's current estimate of credit losses that are expected to occur over the remaining life of a financial asset. The income statement will be affected for the

management of credit losses for newly recognized financial assets, as well as the expected increases or decreases of expected credit losses that have taken place during the period. In certain exceptions, transition to the new requirements will be through a cumulative-effect adjustment to opening retained earnings as of the beginning of the first reporting period in which the guidance is adopted. This update is effective for SEC filers that are eligible to be smaller reporting companies, non-SEC filers, and all other companies, to fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. The Company adopted ASU 2016-13 on October 1, 2023 using the modified retrospective approach for all financial assets measured at amortized cost, including loans, held-to-maturity debt securities and unfunded commitments. The Company recorded a cumulative effect increase to retained earnings of \$492 thousand (\$354 thousand net of taxes), which was comprised of a \$1.0 million (\$725 thousand net of tax) increase related to loans and \$540 thousand (\$379 thousand net of tax) decrease related to unfunded commitments. The Company determined that there was no impact to retained earnings related to held-to-maturity securities as a result of adopting this guidance. The results reported for periods beginning on or after October 1, 2023 are presented under Accounting Standards Codification (ASC) 326, while prior period amounts continue to be reported in accordance with previously applicable accounting standards. The impact of the change from the incurred loss model to the current expected credit loss model is included in the following table:

	October 1, 2023	Adoption	Pre-adoption	Impact	As Reported	(In thousands)	Assets	ACL on debt securities held-to-																													
Construction and land	\$472A	(A)	(55)A	417A	Home equity lines of credit	A 207A	(A)	87A	Commercial business	A 939A	(A)	133A	Other	A 176A	(A)	175A	1A	AAA	AAA	Liabilities	AAA	AAA	AAA	ACL on unfunded commitments	A 4c	A	540A	A	540A	Total	\$8,330A	(A)	492A	\$7,838A	Allowance for Credit Losses on Loans	The Company maintains its ACL at a level that management believes to be appropriate to absorb expected credit losses as of the date of the Consolidated Statement of Financial Condition. The Company established its allowance in accordance with the guidance included in Accounting Standards Codification 326, Financial Instruments	Credit Losses (ASC 326A). The ACL is a valuation reserve established and maintained by charges against income. Loans, or portions thereof, are charged off against the ACL when they are deemed uncollectible. The ACL is an estimate of expected credit losses that considers our historical loss experience, the weighted average expected lives of loans, current economic conditions and forecasts of future economic conditions. The determination of an appropriate ACL is inherently subjective and may have significant changes from period to period. The methodology for determining the ACL has two main components: evaluation of expected credit losses for certain groups of homogeneous loans that share similar risk characteristics and evaluation of loans that do not share risk characteristics with other loans. The ACL is measured on a collective (pool) basis when similar characteristics exist. The Company's loan portfolio is segmented by loan types that have similar risk characteristics and behave similarly during economic cycles. A Historical credit loss experience is the basis for the estimate of expected credit losses. We apply our historical loss rates to pools of loans with similar risk characteristics using the Weighted-Average Remaining Maturity (WARM) method. The remaining contractual life of the pools of loans with similar risk characteristics is adjusted by expected scheduled payments and prepayments. After consideration of the historical loss calculation, management applies qualitative adjustments to reflect the current conditions and reasonable and supportable forecasts not already reflected in the historical loss information. Our reasonable and supportable forecast adjustment is based on a regional economic indicator obtained from the United States Government Publishing Office. The Company selected eight qualitative metrics which were correlated with the Bank and its peer group's historical loss patterns. The eight qualitative metrics include: changes in lending policies and procedures, changes in national and local economic conditions as well as business conditions, changes in the nature, complexity, and volume of the portfolio, changes in the experience, ability, and depth of lenders and lending management, changes in the volume and severity of past due and classified loans, changes in the value of collateral securing loans, changes in or the existence of credit concentrations, and changes in the legal and/or regulatory landscape. The adjustments are weighted for relevance before applying to each pool of loans. Each quarter, management reviews the recommended adjustment factors and applies any additional adjustments based on current conditions. The Company has elected to exclude \$4.5 million of accrued interest receivable on loans as of June 30, 2024 from the measurement of its ACL. When a loan is placed on non-accrual status, any outstanding accrued interest is reversed against interest income. Accrued interest on loans is reported in the accrued interest receivable line on the consolidated statements of financial condition. The ACL for individual loans begins with the use of normal credit review procedures to identify whether a loan no longer shares similar risk characteristics with other pooled loans and, therefore, should be individually assessed. We individually evaluate loans that meet the following criteria: (1) when it is determined that foreclosure is probable, (2) standard, doubtful and nonperforming loans when repayment is expected to be provided substantially through the operation or sale of the collateral, or (3) when it is determined by management that a loan does not share similar risk characteristics with other loans. Credit loss estimates are calculated based on the following three acceptable methods for measuring the ACL: (1) the present value of expected future cash flows discounted at the loan's original effective interest rate; (2) the loan's observable market price; or (3) the fair value of the collateral when the loan is collateral dependent. Our individual loan evaluations consider primarily of the fair value of collateral method because most of our loans are collateral dependent. Collateral values are reduced consider expected disposition costs when appropriate. A charge-off is recorded when the estimated fair value of the loan is less than the loan balance. Allowance for Credit Losses on Unfunded Loan Commitments The Company estimates expected credit losses over the contractual period in which the Bank is exposed to credit risk via a contractual obligation to extend credit unless that obligation is unconditionally cancellable by the Bank. The allowance for credit losses on unfunded loan commitments is included in accounts payable and other liabilities in the Company's Consolidated Balance Sheets and is adjusted through credit loss expense. The estimate includes consideration of the likelihood that funding will occur, the amount of funding that will occur and an estimate of expected credit losses on commitments expected to be funded over its estimated life. Allowance for Credit Losses on Held-to-Maturity Securities The Company accounts for its held-to-maturity securities in accordance with ASC 326-20, Financial Instruments' Credit Loss' Measured at Amortized Cost, which requires that the Company measure expected credit losses on held-to-maturity debt securities on a collective basis by major security type. The estimate of expected credit losses considers historical credit loss information that is adjusted for current economic conditions and reasonable and supportable forecasts. The Company classifies its held-to-maturity debt securities into the following major security types: obligations of U.S. government agencies, obligations of U.S. government-sponsored enterprises, private label mortgage-backed securities, obligations of state and political subdivisions and corporate securities. Credit ratings of held-to-maturity debt securities, which are a significant input in calculating the expected credit loss, are reviewed on a quarterly basis. Based on the credit ratings of our held-to-maturity securities and our historical experience of no losses, the Company determined that the expected for credit losses on its held-to-maturity portfolio is not significant. Accrued interest receivable on held-to-maturity debt securities totaled \$235 thousand as of June 30, 2024 and is included within accrued interest receivable on the Company's Consolidated Balance Sheets. This amount is excluded from the estimate of expected credit losses. Generally, held-to-maturity debt securities are classified as nonaccrual when the contractual payment of principal or interest has become 90 days past due or management has serious doubts about the further collectability of principal or interest. When held-to-maturity debt securities are placed on nonaccrual status, unpaid interest credited to income is reversed against interest income. Allowance for Credit Losses on Available-for-Sale Securities The Company measures expected credit losses on available-for-sale debt securities when the Bank intends to sell, or when it is not more likely than not that it will be required to sell, the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the amortized cost basis of the security is written down to fair value through income. For available-for-sale debt securities that do not meet the previously mentioned criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security, among other factors. If this evaluation indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, equal to the amount that the fair value is less than the amortized cost basis. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income. The ACL on available-for-sale debt securities is included within the recorded balance of securities available-for-sale on the Consolidated Balance Sheets. Changes in the allowance for credit losses are recorded within provision for credit losses on the Consolidated Statements of Income. Losses are charged against the allowance when the Company believes the collectability of an available-for-sale security is in jeopardy or when either of the criteria regarding intent or requirement to sell is met. Accrued interest receivable on available-for-sale debt securities totaled \$72 thousand as of June 30, 2024 and is included within accrued interest receivable on the Company's Consolidated Balance Sheets. This amount is excluded from the estimate of expected credit losses. Generally, available-for-sale debt securities are classified as nonaccrual when the contractual payment of principal or interest has become 90 days past due or management has serious doubts about the further collectability of principal or interest. When available-for-sale debt securities are placed on nonaccrual status, unpaid interest credited to income is reversed against interest income. Details Name: us-gaap FairValueDisclosuresTextBlock Namespace Prefix: us-gaap Data Type: dtr-types:textBlockItem Type Balance Type: na Period Type: duration XML 27 R16.htm IDEA: XBRL DOCUMENT v3.24.2.1 LEASES 9 Months Ended Jun. 30, 2024 Leases [Abstract] LEASES NOTE H

Leases Accounting Standard Update ASC 842, requires lessees to recognize a lease liability and a right-of-use asset, measured at the present value of the future minimum lease payments, at the lease commencement date. On April 1, 2024, the Bank entered into a lease agreement to rent a retail office space in Martinsville, New Jersey to increase its presence in Somerset County. The initial term of the lease is for five years, ending on March 31, 2029, but does include the option for two additional terms of five years each. In accordance with ASC 842, a lease liability and ROU asset in the amount of \$180 thousand was recognized on April 1, 2024 within accounts payable and other liabilities and other assets, respectively, on our Consolidated Balance Sheets. The discount rate used to determine the lease liability was 4.22% and derived from the Federal Home Loan Bank of New York advance rate for the same term. Operating lease ROU assets represent our right to use an underlying asset during the lease term and operating lease liabilities represent our obligation to make lease payments arising from the lease. ROU assets and lease liabilities are recognized at lease commencement base on the present value of the remaining lease payments using a discount rate that represents our incremental borrowing rate. The incremental borrowing rate used by the Company to value its operating leases is based on the interpolated term advance rate available from the FHLBNY, based on the remaining lease term. The following table presents the balance sheet information related to our leases:

June 30, 2024

September 30, 2024

Operating lease right-of-use asset

\$2,382

Operating lease liabilities

\$2,589

\$2,944

Weighted average remaining lease term in years

6.5

6.4

Weighted average discount rate

2.4%

2.2%

Total rental expense, included in occupancy expense, was approximately \$602 thousand and \$604 thousand for the nine months ended June 30, 2024 and 2023, respectively.

The Company monitors the credit quality of held-to-maturity debt securities, primarily through their credit ratings by nationally recognized statistical ratings organizations, on a quarterly basis. At June 30, 2024, there were no non-performing held-to-maturity debt securities and no allowance for credit losses were required. The majority of the investment securities are explicitly or implicitly guaranteed by the United States government, and any estimate of expected credit losses would be insignificant to the Company. The following table summarizes the amortized cost of held-to-maturity debt securities at June 30, 2024, aggregated by credit quality indicator:

UNREALIZED LOSSES ON INVESTMENT SECURITIES AVAILABLE-FOR-SALE

The Company recognizes an allowance for credit losses on debt securities in earnings through a provision for credit losses while noncredit-related impairment on debt securities not expected to be sold are recognized in other comprehensive income. The Company reviews its investment portfolio on a quarterly basis for indications of credit losses. This review includes analyzing the extent to which the fair value has been lower than the cost, the financial condition and near-term prospects of the issuer, including any specific events which may influence the operations of the issuer and the intent and ability to hold the investment for a period of time sufficient to allow for any anticipated recovery in the market. The Company evaluates its intent and ability to hold debt securities based upon its investment strategy for the particular type of security and its cash flow needs, liquidity position, capital adequacy and interest rate risk position. In addition, the risk of future credit losses may be influenced by prolonged recession in the U.S. economy, changes in real estate values and interest deferrals. Investment securities with fair values greater than their amortized cost contain unrealized gains. Investment securities with fair values less than their amortized cost contain unrealized losses. Details of available-for-sale securities with unrealized losses at June 30, 2024 are as follows:

0pt 0 0pt 13.5pt; text-align: justify; text-indent: 31.5pt">The consolidated financial statements
include the accounts of Magyar Bancorp, Inc. (the "Company"), its wholly owned subsidiary,~~

Magyar Bank (the "Bank"), and the Bank's wholly owned subsidiaries Magyar Service Corporation, Hungaria Urban Renewal, LLC, and Magyar Investment Company. All material intercompany transactions and balances have been eliminated. The Company prepares its consolidated financial statements on the accrual basis and in conformity with accounting principles generally accepted in the United States of America ("US GAAP"). The unaudited information furnished herein reflects all adjustments (consisting of normal recurring accruals) that are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented.

Operating results for the nine months ended June 30, 2024 are not necessarily indicative of the results that may be expected for the year ending September 30, 2024. The September 30, 2023 information has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by US GAAP for complete consolidated financial statements.

The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses, the valuation of available-for-sale investment securities, the valuation of other real estate owned ("OREO"), and the assessment of realizability of deferred income tax assets.

The Company has evaluated events and transactions occurring subsequent to the balance sheet date of June 30, 2024 for items that should potentially be recognized or disclosed in these consolidated financial statements. The evaluation was conducted through the date these consolidated financial statements were issued.

NOTE B - RECENT ACCOUNTING PRONOUNCEMENTS

In connection with the preparation of quarterly and annual reports in accordance with the Securities Exchange Act of 1934, Securities and Exchange Commission ("SEC") Staff Accounting Bulletin Topic 11.M requires the disclosure of the impact that recently issued accounting standards will have on consolidated financial statements when they are adopted in the future.

In June 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-13*, Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments* (Topic 326), which changed the impairment model for most financial assets. This update was intended to improve financial reporting by requiring timelier recording of credit losses on loans and other financial instruments held by financial institutions and other organizations. The underlying premise of the update is that financial assets measured at amortized cost should be presented at the net amount expected to be collected, through an allowance for credit losses that is deducted from the amortized cost basis. The allowance for credit losses ("ACL") should reflect management's current estimate of credit losses that are expected to occur over the remaining life of a financial asset. The income statement will be affected for the measurement of credit losses for newly recognized financial assets, as well as the expected increases or decreases of expected credit losses that have taken place during the period. With certain exceptions, transition to the new requirements will be through a cumulative-effect adjustment to opening retained earnings as of the beginning of the first reporting period in which the guidance is adopted. This update is effective for SEC filers that are eligible to be smaller reporting companies, non-SEC filers, and all other companies, to fiscal years beginning after December 15, 2022, including interim periods within those fiscal years.

The Company adopted ASU 2016-13 on October 1, 2023 using the modified retrospective approach for all financial assets measured at amortized cost, including loans, held-to-maturity debt securities and unfunded commitments. The Company recorded a cumulative effect increase to retained earnings of \$492 thousand (\$354 thousand net of taxes), which was comprised of a \$1.0 million (\$725 thousand net of tax) increase related to loans and \$540 thousand (\$379 thousand net of tax) decrease related to unfunded commitments. The Company determined that there was no impact to retained earnings related to held-to-

Allowance for Credit Losses on Loans

The Company maintains its ACL at a level that management believes to be appropriate to absorb expected credit losses as of the date of the Consolidated Statement of Financial Condition. The Company established its allowance in accordance with the guidance included in Accounting Standards Codification 326, *Financial Instruments – Credit Losses* (“ASC 326”). The ACL is a valuation reserve established and maintained by charges against income. Loans, or portions thereof, are charged-off against the ACL when they are deemed uncollectible. The ACL is an estimate of expected credit losses that

considers our historical loss experience, the weighted average expected lives of loans, current economic conditions and forecasts of future economic conditions. The determination of an appropriate ACL is inherently subjective and may have significant changes from period to period. The methodology for determining the ACL has two main components: evaluation of expected credit losses for certain groups of homogeneous loans that share similar risk characteristics and evaluation of loans that do not share risk characteristics with other loans. The ACL is measured on a collective (pool) basis when similar characteristics exist. The Company's loan portfolio is segmented by loan types that have similar risk characteristics and behave similarly during economic cycles.

Historical credit loss experience is the basis for the estimate of expected credit losses. We apply our historical loss rates to pools of loans with similar risk characteristics using the Weighted-Average Remaining Maturity ("WARM") method. The remaining contractual life of the pools of loans with similar risk characteristics is adjusted by expected scheduled payments and prepayments. After consideration of the historical loss calculation, management applies qualitative adjustments to reflect the current conditions and reasonable and supportable forecasts not already reflected in the historical loss information. Our reasonable and supportable forecast adjustment is based on a regional economic indicator obtained from the United States Government Publishing Office. The Company selected eight qualitative metrics which were correlated with the Bank and its peer group's historical loss patterns. The eight qualitative metrics include: changes in lending policies and procedures, changes in national and local economic conditions as well as business conditions, changes in the nature, complexity, and volume of the portfolio, changes in the experience, ability, and depth of lenders and lending management, changes in the volume and severity of past due and classified loans, changes in the value of collateral securing loans, changes in or the existence of credit concentrations, and changes in the legal and/or regulatory landscape. The adjustments are weighted for relevance before applying to each pool of loans. Each quarter, management reviews the recommended adjustment factors and applies any additional adjustments based on current conditions.

The Company has elected to exclude \$4.5 million of accrued interest receivable on loans as of June 30, 2024 from the measurement of its ACL. When a loan is placed on non-accrual status, any outstanding accrued interest is reversed against interest income. Accrued interest on loans is reported in the accrued interest receivable line on the consolidated statements of financial condition.

The ACL for individual loans begins with the use of normal credit review procedures to identify whether a loan no longer shares similar risk characteristics with other pooled loans and, therefore, should be individually assessed. We individually evaluate loans that meet the following criteria: (1) when it is determined that foreclosure is probable, (2) substandard, doubtful and nonperforming loans when repayment is expected to be provided substantially through the operation or sale of the collateral, or (3) when it is determined by management that a loan does not share similar risk characteristics with other loans. Credit loss estimates are calculated based on the following three acceptable methods for measuring the ACL: (1) the present value of expected future cash flows discounted at the loan's original effective interest rate; (2) the loan's observable market price; or (3) the fair value of the collateral when the loan is collateral dependent. Our individual loan evaluations consist primarily of the fair value of collateral method because most of our loans are collateral dependent. Collateral values are reduced to consider expected disposition costs when appropriate. A charge-off is recorded when the estimated fair value of the loan is less than the loan balance.

Allowance for Credit Losses on Unfunded Loan Commitments

The Company estimates expected credit losses over the contractual period in which the Bank is exposed to credit risk via a contractual obligation to extend credit unless that obligation is unconditionally cancellable by the Bank. The allowance for credit losses on unfunded loan commitments is included in accounts payable and other liabilities in the Company's Consolidated Balance Sheets and is adjusted through credit loss expense. The estimate includes consideration of the likelihood that funding will occur, the amount of funding that will occur and an estimate of expected credit losses on commitments expected to be funded over its estimated life.

Allowance for Credit Losses on Held-to-Maturity Securities

The Company accounts for its held-to-maturity securities in accordance with ASC 326-20, *Financial Instruments – Credit Loss – Measured at Amortized Cost*, which requires that the Company measure expected credit losses on held-to-maturity debt securities on a collective basis by major security type. The estimate of expected credit losses considers historical credit loss information that is adjusted for current economic conditions and reasonable and supportable forecasts.

The Company classifies its held-to-maturity debt securities into the following major security types: obligations of U.S. government agencies; obligations of U.S. government-sponsored enterprises; private label mortgage-backed securities; obligations of state and political subdivisions and corporate securities. Credit ratings of held-to-maturity debt securities, which are a significant input in calculating the expected credit loss, are reviewed on a quarterly basis. Based on the credit ratings of our held-to-maturity securities and our historical experience of no losses, the Company determined that the expected for credit losses on its' held-to-maturity portfolio is not significant.

Accrued interest receivable on held-to-maturity debt securities totaled \$235 thousand as of June 30, 2024 and is included within accrued interest receivable on the Company's Consolidated Balance Sheets. This amount is excluded from the estimate of expected credit losses. Generally, held-to-maturity debt securities are classified as nonaccrual when the contractual payment of principal or interest has become 90 days past due or management has serious doubts about the further collectability of principal or interest. When held-to-maturity debt securities are placed on nonaccrual status, unpaid interest credited to income is reversed against interest income.

Allowance for Credit Losses on Available-for-Sale Securities

The Company measures expected credit losses on available-for-sale debt securities when the Bank intends to sell, or when it is not more likely than not that it will be required to sell, the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the amortized cost basis of the security is written down to fair value through income. For available-for-sale debt securities that do not meet the previously mentioned criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Company considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security, among other factors. If this evaluation indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, equal to the amount that the fair value is less than the amortized cost basis. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income.

The ACL on available-for-sale debt securities is included within the recorded balance of securities available-for-sale on the Consolidated Balance Sheets. Changes in the allowance for credit losses are recorded within provision for credit losses on the Consolidated Statements of Income. Losses are charged against the allowance when the Company believes the collectability of an available-for-sale security is in jeopardy or when either of the criteria regarding intent or requirement to sell is met.

Accrued interest receivable on available-for-sale debt securities totaled \$72 thousand as of June 30, 2024 and is included within accrued interest receivable on the Company's Consolidated Balance Sheets. This amount is excluded from the estimate of expected credit losses. Generally, available-for-sale debt securities are classified as nonaccrual when the contractual payment of principal or interest has become 90 days past due or management has serious doubts about the further collectability of principal or interest. NOTE E - STOCK-BASED COMPENSATION AND STOCK REPURCHASE PROGRAM

On August 25, 2022, the Company adopted the 2022 Equity Compensation Plan which provided for grants of up to 391,000 shares to be allocated between incentive and non-qualified stock options and up to 156,400 shares of restricted stock awards to officers, employees and directors of the Company and Magyar Bank. At June 30, 2024, 293,200 options and 156,400 shares of restricted stock had been awarded from the plan.

The following is a summary of the status of the Company's stock option activity and related information for the nine months ended June 30, 2024:

124,320	12.63	

Stock option and stock award expenses included with compensation expense were \$63 thousand and \$98 thousand for the three months ended June 30, 2024 and \$63 thousand and \$98 thousand for the three months ended June 30, 2023, respectively. Stock option and stock award expenses included with compensation expense were \$190 thousand and \$294 thousand for the nine months ended June 30, 2024 and \$196 thousand and \$307 thousand for the nine months ended June 30, 2023, respectively.

At June 30, 2024, total compensation cost not yet recognized for the Company's unvested stock options and stock awards was \$2.1 million and will be recognized through September 2027. The Company had no other stock-based compensation plans as of June 30, 2024 except as disclosed below.

On December 8, 2022, the Company announced the authorization of a second stock repurchase plan pursuant to which the Company intends to repurchase up to an additional 5% of its outstanding shares, or up to 337,146 shares, under which 186,458 shares had been repurchased at an average price of \$11.49 through June 30, 2024. Under this stock repurchase program, 150,688 shares of the 337,146 shares authorized remained available for repurchase as of June 30, 2024. The Company's intended use of the repurchased shares is for general corporate purposes. The Company held treasury stock shares totaling 509,269 at June 30, 2024. The timing of the repurchases will depend on certain factors, including but not limited to, market conditions and prices, the Company's liquidity requirements and alternative uses of capital.

The Company has an Employee Stock Ownership Plan ("ESOP") for the benefit of employees who meet certain eligibility requirements. The ESOP trust purchases shares of common stock in the open market using proceeds of a loan from the Company. The loan is secured by shares of the Company's stock. The Bank makes cash contributions to the ESOP on an annual basis sufficient to enable the ESOP to make the required loan payments to the Company. As the debt is repaid, shares are released as collateral and allocated to qualified employees. Accordingly, the shares pledged as collateral are reported as unearned ESOP shares in the Consolidated Balance Sheets. The Company accounts for its ESOP in accordance with FASB ASC Topic 718, "Employer's Accounting for Employee Stock Ownership Plans." As shares are released from collateral, the Company reports compensation expense equal to the current market price of the shares, and the shares become outstanding for earnings per share computations.

In connection with the Company's second-step stock offering during its fiscal year ending September 30, 2021, the ESOP trustees purchased 312,800 shares of the Company's common stock for \$3.4 million, reflecting an average cost per share of \$10.77. The ESOP loan bears a fixed interest rate of 3.25% with principal and interest payable annually in equal installments over 30 years.

At June 30, 2024, ESOP shares allocated to participants totaled 186,940. Unallocated ESOP shares held in suspense totaled 278,163 with an aggregate fair value of \$3.1 million. The Company's contribution expense for the ESOP was \$34 thousand and \$24 thousand for the three months ended June 30, 2024 and 2023, and \$118 thousand and \$98 thousand for the nine months ended June 30, 2024 and 2023, respectively.

The following is a summary of the status of the Company's stock option activity and related information for the nine months ended June 30, 2024:

NOTE G – FAIR VALUE

DISCLOSURES

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. The securities available for sale and the Company's derivative assets and liabilities are recorded at fair value on a recurring basis. Additionally, from time to time, the Company may be required to record at fair value other assets or liabilities on a non-recurring basis, such as held-to-maturity securities, mortgage servicing rights, loans receivable and OREO. These non-recurring fair value adjustments involve the application of lower-of-cost-or-market accounting or write-downs of individual assets.

ASC 820 requires the Company to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.</p><p*~~

The following is a description of valuation methodologies used for assets measured at fair value on a recurring basis.

Securities available for sale

The securities available-for-sale portfolio is carried at estimated fair value on a recurring basis, with any unrealized gains and losses, net of taxes, reported as accumulated other comprehensive income/loss in stockholders' equity. The securities available-for-sale portfolio consists of U.S government-sponsored mortgage-backed securities. The fair values of these securities are obtained from an independent nationally recognized pricing service. An independent pricing service provides the Company with prices which are categorized as Level 2, as quoted prices in active markets for identical assets are generally not available for the securities in the Company's portfolio. Various modeling techniques are used to determine pricing for Company's mortgage-backed securities, including option pricing and discounted cash flow models. The inputs to these models include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data.

font: 10pt Times New Roman, Times, Serif; margin: 0pt 0 0pt 13.5pt; text-align: justify; text-indent: 31.5pt">The following presents the carrying amount, fair value, and placement in the fair value hierarchy of the Company's financial instruments carried at cost or amortized cost as of June 30, 2024 and September 30, 2023. For short-term financial assets such as cash and cash equivalents and accrued interest receivable, the carrying amount is a reasonable estimate of fair value due to the relatively short time between the origination of the instrument and its expected realization. For financial liabilities such as interest-bearing demand, NOW, and money market savings deposits, the carrying amount is a reasonable estimate of fair value due to these products being payable on demand and having no stated maturity. The Company's bank-owned life insurance is not a marketable asset and may generally only be redeemed with the insurance company, and is therefore not included in the table below.

Operating lease ROU assets

Leases

On April 1, 2024, the Bank entered into a lease agreement to rent a retail office space in Martinsville, New Jersey to increase its presence in Somerset County. The initial term of the lease is for five years, ending on March 31, 2029, but does include the option for two additional terms of five years each. In accordance with ASC 842, a lease liability and ROU asset in the amount of \$180 thousand was recognized on April 1, 2024 within accounts payable and other liabilities and other assets, respectively, on our Consolidated Balance Sheets. The discount rate used to determine the lease liability was 4.22% and derived from the Federal Home Loan Bank of New York advance rate for the same term.

Operating lease ROU assets represent our right to use an underlying asset during the lease term and operating lease liabilities represent our obligation to make lease payments arising from the lease. ROU assets and lease liabilities are recognized at lease commencement base on the present value of the remaining lease payments using a discount rate that represents our incremental borrowing rate. The incremental borrowing rate used by the Company to value its operating leases is based on the interpolated term advance rate available from the FHLBNY, based on the remaining lease term.

The following table presents the balance sheet information related to our leases:

	June 30,	September 30,

2024

(Dollars in thousands)					
Operating lease right-of-use asset	\$	2,382	\$	2,687	\$
Operating lease liabilities		2,589		2,944	
Weighted average remaining lease term in years		6.5		6.4	
Weighted average discount rate		2.4%		2.2%	

Total rental expense, included in occupancy expense, was approximately \$602 thousand and \$604 thousand for the nine months ended June 30, 2024 and 2023, respectively.

The following table presents the balance sheet information related to our leases:

(Dollars in thousands)					
Operating lease right-of-use asset	\$	2,382	\$	2,687	\$
Operating lease liabilities		2,589		2,944	
Weighted average remaining lease term in years		6.5		6.4	
Weighted average discount rate		2.4%		2.2%

																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																									</

The Company monitors the credit quality of held-to-maturity debt securities, primarily through their credit ratings by nationally recognized statistical ratings organizations, on a quarterly basis. At June 30, 2024, there were no non-performing held-to-maturity debt securities and no allowance for credit losses were required. The majority of the investment securities are explicitly or implicitly guaranteed by the United States government, and any estimate of expected credit losses would be insignificant to the Company. The following table summarizes the amortized cost of held-to-maturity debt securities at June 30, 2024, aggregated by credit quality indicator:

Credit Rating at Amortized Cost	
AAA/AA/A	
BBB/BB/B	
Non-rated	
June 30, 2024	
(In thousands)	
Securities held-to-maturity:

Net deferred loan costs	698,206
Total loans receivable, net	759,409
Total loans receivable, net	697,400

The segments of the Company's loan portfolio are disaggregated to a level that allows management to monitor risk and performance. The residential mortgage loan segment is further disaggregated into two classes: first lien, amortizing term loans, and the combination of second lien amortizing term loans and home equity lines of credit. The commercial loan segment is further disaggregated into three classes: loans secured by multifamily structures, loans secured by owner-occupied commercial structures, and loans secured by non-owner occupied nonresidential properties. The construction loan segment consists primarily of developers or investors for the purpose of acquiring, developing and constructing residential or commercial structures and to a lesser extent one-to-four family residential construction loans made to individuals for the acquisition of and/or construction on a lot or lots on which a residential dwelling is to be built. Construction loans to developers and investors have a higher risk profile because the ultimate buyer, once development is completed, is generally not known at the time of the loan. The commercial business loan segment consists of loans made for the purpose of financing the activities of commercial customers and consists of revolving lines of credit and loans partially guaranteed by the U.S. Small Business Administration. The consumer loan segment consists primarily of stock-secured installment loans, but also includes unsecured personal loans and overdraft lines of credit connected with customer deposit accounts.

Management uses a ten point internal risk rating system to monitor the credit quality of the overall loan portfolio. The first six categories are considered not criticized, and are aggregated as "Pass" rated. The criticized rating categories utilized by management generally follow bank regulatory definitions. The Special Mention category includes assets that are currently protected but are potentially weak, resulting in an undue and unwarranted credit risk, but not to the point of justifying a Substandard classification. Loans in the Substandard category have well-defined weaknesses that jeopardize the liquidation of the debt, and have a distinct possibility that some loss will be sustained if the weaknesses are not corrected. Loans classified Doubtful have all the weaknesses inherent in loans classified Substandard with the added characteristic that collection or liquidation in full, on the basis of current conditions and facts, is highly improbable. All loans greater than three months past due are considered Substandard. Any portion of a loan that has been charged off is placed in the Loss category.

To help ensure that risk ratings are accurate and reflect the present and future capacity of borrowers to repay a loan as agreed, the Company has a structured loan rating process with several layers of internal and

external oversight. Generally, consumer and residential mortgage loans are included in the Pass categories unless a specific action, such as severe delinquency, bankruptcy, repossession, or death occurs to raise awareness of a possible credit event. The Company's Commercial Loan Officers are responsible for the timely and accurate risk rating of the loans in their portfolios at origination and on an ongoing basis. The Company's Asset Review Committee performs monthly reviews of all commercial relationships internally rated 6 ("Watch") or worse. Confirmation of the appropriate risk grade is performed by an external loan review company that semi-annually reviews and assesses loans within the portfolio. Generally, the external consultant reviews commercial relationships greater than \$500 thousand and/or criticized relationships greater than \$250 thousand. Detailed reviews, including plans for resolution, are performed on loans classified as Substandard on a monthly basis.

The following table presents the classes of the loan portfolio by origination year summarized by the aggregate Pass and the criticized categories of Special Mention, Substandard and Doubtful for loans subject to the Company's internal risk rating system and by performing status for all other loans as of June 30, 2024.

	2024	2023	2022	2021	2020	2019	2018	2017	2016	2015	2014	2013	2012	2011	2010	2009	2008	2007	2006	2005	2004	2003	2002	2001	2000	1999	1998	1997	1996	1995	1994	1993	1992	1991	1990	1989	1988	1987	1986	1985	1984	1983	1982	1981	1980	1979	1978	1977	1976	1975	1974	1973	1972	1971	1970	1969	1968	1967	1966	1965	1964	1963	1962	1961	1960	1959	1958	1957	1956	1955	1954	1953	1952	1951	1950	1949	1948	1947	1946	1945	1944	1943	1942	1941	1940	1939	1938	1937	1936	1935	1934	1933	1932	1931	1930	1929	1928	1927	1926	1925	1924	1923	1922	1921	1920	1919	1918	1917	1916	1915	1914	1913	1912	1911	1910	1909	1908	1907	1906	1905	1904	1903	1902	1901	1900	1899	1898	1897	1896	1895	1894	1893	1892	1891	1890	1889	1888	1887	1886	1885	1884	1883	1882	1881	1880	1879	1878	1877	1876	1875	1874	1873	1872	1871	1870	1869	1868	1867	1866	1865	1864	1863	1862	1861	1860	1859	1858	1857	1856	1855	1854	1853	1852	1851	1850	1849	1848	1847	1846	1845	1844	1843	1842	1841	1840	1839	1838	1837	1836	1835	1834	1833	1832	1831	1830	1829	1828	1827	1826	1825	1824	1823	1822	1821	1820	1819	1818	1817	1816	1815	1814	1813	1812	1811	1810	1809	1808	1807	1806	1805	1804	1803	1802	1801	1800	1799	1798	1797	1796	1795	1794	1793	1792	1791	1790	1789	1788	1787	1786	1785	1784	1783	1782	1781	1780	1779	1778	1777	1776	1775	1774	1773	1772	1771	1770	1769	1768	1767	1766	1765	1764	1763	1762	1761	1760	1759	1758	1757	1756	1755	1754	1753	1752	1751	1750	1749	1748	1747	1746	1745	1744	1743	1742	1741	1740	1739	1738	1737	1736	1735	1734	1733	1732	1731	1730	1729	1728	1727	1726	1725	1724	1723	1722	1721	1720	1719	1718	1717	1716	1715	1714	1713	1712	1711	1710	1709	1708	1707	1706	1705	1704	1703	1702	1701	1700	1699	1698	1697	1696	1695	1694	1693	1692	1691	1690	1689	1688	1687	1686	1685	1684	1683	1682	1681	1680	1679	1678	1677	1676	1675	1674	1673	1672	1671	1670	1669	1668	1667	1666	1665	1664	1663	1662	1661	1660	1659	1658	1657	1656	1655	1654	1653	1652	1651	1650	1649	1648	1647	1646	1645	1644	1643	1642	1641	1640	1639	1638	1637	1636	1635	1634	1633	1632	1631	1630	1629	1628	1627	1626	1625	1624	1623	1622	1621	1620	1619	1618	1617	1616	1615	1614	1613	1612	1611	1610	1609	1608	1607	1606	1605	1604	1603	1602	1601	1600	1599	1598	1597	1596	1595	1594	1593	1592	1591	1590	1589	1588	1587	1586	1585	1584	1583	1582	1581	1580	1579	1578	1577	1576	1575	1574	1573	1572	1571	1570	1569	1568	1567	1566	1565	1564	1563	1562	1561	1560	1559	1558	1557	1556	1555	1554	1553	1552	1551	1550	1549	1548	1547	1546	1545	1544	1543	1542	1541	1540	1539	1538	1537	1536	1535	1534	1533	1532	1531	1530	1529	1528	1527	1526	1525	1524	1523	1522	1521	1520	1519	1518	1517	1516	1515	1514	1513	1512	1511	1510	1509	1508	1507	1506	1505	1504	1503	1502	1501	1500	1499	1498	1497	1496	1495	1494	1493	1492	1491	1490	1489	1488	1487	1486	1485	1484	1483	1482	1481	1480	1479	1478	1477	1476	1475	1474	1473	1472	1471	1470	1469	1468	1467	1466	1465	1464	1463	1462	1461	1460	1459	1458	1457	1456	1455	1454	1453	1452	1451	1450	1449	1448	1447	1446	1445	1444	1443	1442	1441	1440	1439	1438	1437	1436	1435	1434	1433	1432	1431	1430	1429	1428	1427	1426	1425	1424	1423	1422	1421	1420	1419	1418	1417	1416	1415	1414	1413	1412	1411	1410	1409	1408	1407	1406	1405	1404	1403	1402	1401	1400	1399	1398	1397	1396	1395	1394	1393	1392	1391	1390	1389	1388	1387	1386	1385	1384	1383	1382	1381	1380	1379	1378	1377	1376	1375	1374	1373	1372	1371	1370	1369	1368	1367	1366	1365	1364	1363	1362	1361	1360	1359	1358	1357	1356	1355	1354	1353	1352	1351	1350	1349	1348	1347	1346	1345	1344	1343	1342	1341	1340	1339	1338	1337	1336	1335	1334	1333	1332	1331	1330	1329	1328	1327	1326	1325	1324	1323	1322	1321	1320	1319	1318	1317	1316	1315	1314	1313	1312	1311	1310	1309	1308	1307	1306	1305	1304	1303	1302	1301	1300	1299	1298	1297	1296	1295	1294	1293	1292	1291	1290	1289	1288	1287	1286	1285	1284	1283	1282	1281	1280	1279	1278	1277	1276	1275	1274	1273	1272	1271	1270	1269	1268	1267	1266	1265	1264	1263	1262	1261	1260	1259	1258	1257	1256	1255	1254	1253	1252	1251	1250	1249	1248	1247	1246	1245	1244	1243	1242	1241	1240	1239	1238	1237	1236	1235	1234	1233	1232	1231	1230	1229	1228	1227	1226	1225	1224	1223	1222	1221	1220	1219	1218	1217	1216	1215	1214	1213	1212	1211	1210	1209	1208	1207	1206	1205	1204	1203	1202	1201	1200	1199	1198	1197	1196	1195	1194	1193	1192	1191	1190	1189	1188	1187	1186	1185	1184	1183	1182	1181	1180	1179	1178	1177	1176	1175	1174	1173	1172	1171	1170	1169	1168	1167	1166	1165	1164	1163	1162	1161	1160	1159	1158	1157	1156	1155	1154	1153	1152	1151	1150	1149	1148	1147	1146	1145	1144	1143	1142	1141	1140	1139	1138	1137	1136	1135	1134	1133	1132	1131	1130	1129	1128	1127	1126	1125	1124	1123	1122	1121	1120	1119	1118	1117	1116	1115	1114	1113	1112	1111	1110	1109	1108	1107	1106	1105	1104	1103	1102	1101	1100	1099	1098	1097	1096	1095	1094	1093	1092	1091	1090	1089	1088	1087	1086	1085	1084	1083	1082	1081	1080	1079	1078	1077	1076	1075	1074	1073	1072	1071	1070	1069	1068	1067	1066	1065	1064	1063	1062	1061	1060	1059	1058	1057	1056	1055	1054	1053	1052	1051	1050	1049	1048	1047	1046	1045	1044	1043	1042	1041	1040	1039	1038	1037	1036	1035	1034	1033	1032	1031	1030	1029	1028	1027	1026	1025 During the nine months ended June 30, 2024 and exclusive of the impact of the adoption of ASU 2016-13, the changes in the provision for credit losses for each portfolio of loans were primarily due to fluctuations in the outstanding balance of each segment of loans collectively evaluated for impairment. Specifically, we experienced significant growth in our commercial real estate portfolio as well as our construction and land loan commitments during the nine months ended June 30, 2024 and a corresponding increase in the provision for credit losses for these portfolios. An adjustment to the expected loss rate for one-to-four family residential loans for improving economic conditions, as measured by the U.S. unemployment rate, resulted in a reduction in the provision for credit losses for that loan category during the nine months ended June 30, 2024.

The allowance for credit losses increased \$16 thousand to \$8.3 million during the nine months ended June 30, 2024. Upon adoption of ASU 2016-13 on October 1, 2023, the Company's allowance for credit losses decreased \$492 thousand. Growth in loans receivable and loan commitments during the nine months ended June 30, 2024 resulted in additional provisions for credit losses totaling \$441 thousand and there were \$67 thousand in loan recoveries. The Company's allowance for on-balance sheet credit losses decreased to \$7.7 million at June 30, 2024 from \$8.3 million at September 30, 2023 while its reserve for off-balance sheet commitments increased to \$602 thousand at June 30, 2024 from \$0 at September 30, 2023.

The following table presents, by loan category, segregated into the amount required for loans individually evaluated for impairment and the amount required for loans collectively evaluated for impairment as of and September 30, 2023.

	One-to-Four	Home Equity	Commercial Real Estate	Construction and Land
Amount individually evaluated for impairment	\$1,378	\$16	\$1,378	\$16
Amount collectively evaluated for impairment	\$1,378	\$16	\$1,378	\$16

*Times New Roman, Times, Serif; margin: 0pt 0 0pt 13.7pt; text-align: justify; text-indent: 45pt">*The Company is a party to interest rate derivatives that are not designated as hedging instruments. Under a program, the Company executes interest rate swaps with commercial lending customers to facilitate their respective risk management strategies. These interest rate swaps with customers are simultaneously offset by interest rate swaps that the Company executes with a third-party financial institution, such that the Company minimizes its net risk exposure resulting from such transactions. Because the interest rate swaps associated with this program do not meet the strict hedge accounting requirements, changes in the fair value of both the customer swaps and the offsetting swaps are recognized directly in earnings. The changes in the fair value of the swaps offset each other, except for the credit risk of the counterparties, which is determined by taking into consideration the risk rating, probability of default and loss given default for all counterparties, and was not significant to the total fair value. The Company was not required to pledge any collateral for its interest rate swaps with financial institutions at June 30, 2024 and September 30, 2023.</p><p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0 0pt 13.7pt; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0 0pt 13.7pt; text-align: justify; text-indent: 45pt">

income tax rate approximating 25% for available-for-sale investments. Fair value is generally determined through independent appraisals for the underlying collateral, which generally include various level 3 inputs which are not identifiable. Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses. The range and weighted average of liquidation expenses and other appraisal adjustments are presented as a percent of the appraisal.
