Note 1

Organization and Liquidity

Organization and Line of Business

Shuttle Pharmaceuticals Holdings, Inc. (“we,” “us,” “our,” or the “Company”) was originally formed as Shuttle Pharmaceuticals, LLC in the State of Maryland on December 18, 2012. On August 12, 2016, the Company filed articles of conversion with the State of Maryland to convert from an LLC to a C corporation, at which time the Company changed its name to Shuttle Pharmaceuticals, Inc. (“Shuttle”). In connection with the conversion the Company issued 5,625,000 shares of common stock in exchange for 100% of the outstanding membership interests in Shuttle prior to conversion. On June 4, 2018, Shuttle completed a reverse merger with Shuttle Pharmaceuticals Holdings, Inc. (then known as Shuttle Pharma Acquisition Corp, Inc.), a Delaware corporation, pursuant to which Shuttle, our operating entity, became a wholly-owned subsidiary of the Company. All share numbers referenced herein reflect a 1-for-8 reverse split of our common stock on a post-split basis, which was effective as of August 13, 2024 (see Note 2).

The Company’s primary purpose is to develop and commercialize unique drugs for the sensitization of cancers and protection of normal tissues, with the goal of improving outcomes for cancer patients receiving radiation therapy. Shuttle has deployed its proprietary technology to develop novel cancer immunotherapies, producing a pipeline of selective HDAC inhibitors for cancer and immunotherapy applications. The Company’s HDAC platform is designed to target candidate molecules with potential roles in therapeutics beyond cancer, including autoimmune, inflammatory, metabolic, neurological and infectious diseases. The Company’s Ropidoxuridine product, which is used with radiation therapy to sensitize cancer cells, was initially funded by a Small Business Innovation Research (“SBIR”) contract provided by the National Cancer Institute (“NCI”), a unit of the National Institutes of Health (“NIH”). Ropidoxuridine has been further developed through the Company’s collaborations with scientists at the University of Virginia for use in combination with proton therapy to improve patient survival. Historically, and prior to the Company’s initial public offering in September 2022, the Company has obtained funding to develop products through NIH grants, including a product to predict late effects of radiation with metabolite biomarkers and develop prostate cancer cell lines in health disparities research.

The production and marketing of the Company’s products and its ongoing research and development

activities will be and are subject to extensive regulation by numerous governmental authorities in the United States. Prior to marketing in the United States, any products or combination of products developed by the Company must undergo rigorous preclinical (animal) and clinical (human) testing and an extensive regulatory approval process implemented by the Food and Drug Administration ("FDA") under the Food, Drug and Cosmetic Act. There can be no assurance that the Company will not encounter problems in its clinical trials that will cause the Company or the FDA to delay or suspend the clinical trials.

The Company's success will depend in part on its ability to obtain patents and product license rights, maintain trade secrets, and operate without infringing on the proprietary rights of others, both in the United States and in other countries. There can be no assurance that patents issued to or licensed by the Company will not be challenged, invalidated or circumvented, or that the rights granted thereunder will provide proprietary protection or competitive advantages to the Company now or in the future.

Liquidity and Going Concern

Our unaudited condensed consolidated financial statements are prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. The Company has incurred losses since inception and has a net loss of approximately \$7.5 million and Revenues of no revenues for the nine months ended September 30, 2024 and has a working capital deficit of approximately \$1.3 million as of September 30, 2024. The Company does not expect to generate positive cash flows from operating activities in the near future.

In September 2024, the Company's CEO provided \$250 thousand to the Company in exchange for a promissory note repayable in equal monthly installments of principal and interest over a term of one year. In October 2024, the Company completed an offering of senior secured convertible bridge notes, receiving \$

ProceedsFromIssuanceOfDebt_pn3n3_c20241001_20241031_us-gaap--SubsequentEventTypeAxis_us-gaap--SubsequentEventMember_us-gaap--DebtInstrumentAxis_custom--SeniorSecuredConvertibleBridgeNotesMember_zToV3dxbgpfj" title="Proceeds from issuance of debt">790 thousand in cash. The notes have a term of one-year and were accompanied by 329,461 warrants with a weighted-average exercise price of \$1.42. Also in October 2024, the Company completed an equity raise that provided \$3.9 million net cash for the issuance of 2.9 million shares / pre-funded warrants, and by 2.9 million warrants with an exercise price of \$1.40. However, the Company's existing cash resources and the cash received from the equity offering and senior convertible note are not expected to provide sufficient funds to carry out the Company's operations and clinical trials through the next twelve months.</p><p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify">The Company's capital raises have to date supported operations, the manufacture of drug product and FDA approval of the IND for the Phase II clinical trial of Ropidoxuridine and radiation therapy in glioblastoma and other radiation sensitizer discovery and therapy. The FDA recommended and the Company agreed to an expansion of the Phase II clinical trial, necessitating additional capital to complete the trial as well as fund ongoing operations. Additionally, the Phase II clinical trial of Ropidoxuridine has evolved with finalized agreements with all six of the planned site enrollment locations to administer the Phase II clinical trial of Ropidoxuridine and the enrollment of the first three patients.</p><p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify">The ability of the Company to continue as a going concern is dependent upon its ability to continue to successfully raise additional equity or debt financing to allow it to fund ongoing operations, conduct clinical trials and bring a

drug candidate to commercialization to generate revenues. These conditions raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the unaudited condensed consolidated financial statements are issued.

The accompanying unaudited condensed consolidated financial statements do not include any adjustments to reflect the future effects on the recoverability and classification of assets or the amounts and classification of liabilities if the Company is unable to continue as a going concern.

Note 2

Summary of Significant Accounting Policies

BasisOfAccountingPolicy

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial statements and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X of the United States Securities and Exchange Commission ("SEC"). Accordingly, they do not contain all information and notes required by GAAP for annual financial statements. A complete discussion of the Company's significant accounting policies is included in the Company's Annual Report on Form 10-K/A for the year ended December 31, 2023.

In the opinion of the Company's management, the accompanying unaudited condensed consolidated financial statements contain all of the adjustments necessary to present the financial position of the Company as of September 30, 2024 and the results of operations and cash flows for the periods presented. The accompanying condensed consolidated financial statements of the Company have not been audited by the Company's independent registered public accounting firm, except that the year-end consolidated balance sheet was derived from audited financial statements. The results of operations for the nine months ended September 30, 2024 are not necessarily indicative of the operating results for the full fiscal year or any future period. These unaudited condensed consolidated financial statements should be read in conjunction with the restated financial statements and related notes thereto for the year ended December 31, 2023 included in the Company's Annual Report on Form 10-K/A filed with the SEC on September 4, 2024.

Reverse Stock Split

On August 13, 2024, in order to meet Nasdaq's minimum bid price requirement of \$1.00 per share (the "Minimum Bid Price Requirement"), the Company effectuated a **1-for-8** reverse stock split of its issued and outstanding common stock, rounding up to account for any fractional shares (the "Reverse Stock Split"). The Reverse Stock Split had no effect on the Company's authorized shares of common stock or preferred stock and the par value will remain unchanged at \$0.00001, respectively. All common stock share, option, warrant and per share amounts (except our authorized but unissued shares and previously reserved shares) have been retroactively adjusted in these financial statements and related disclosures.

Basis of Consolidation

The unaudited condensed consolidated financial statements have been prepared on a consolidated basis with those of the Company's wholly-owned subsidiaries, Shuttle Pharmaceuticals, Inc. and Shuttle Diagnostics Inc. All intercompany transactions and balances have been eliminated.

Correction of an Immaterial Error in the Prior Period Financial Statements

During the fourth quarter of 2023, the Company determined that the prior year consolidated financial statements had a misstatement caused by an immaterial classification error of certain research and development expenses in accordance with Accounting Standards Codification ("ASC") 730. As a result, certain prior year amounts have been corrected for consistency with the current year presentation. The Company assessed the materiality of this change in presentation on prior period consolidated financial statements in accordance with SEC Staff Accounting Bulletin No. 99, "Materiality," (ASC Topic 250,

Accounting Changes and Error Corrections). Based on this assessment, the Company concluded that these error corrections in its unaudited condensed consolidated statements of operations are not material to any previously presented financial statements based upon overall considerations of both quantitative and qualitative factors. The corrections had no impact on the unaudited condensed consolidated balance sheet, unaudited condensed consolidated statements of cash flows, or unaudited condensed consolidated statement of changes in stockholders' equity, to these financial statements, or for any previously presented interim or annual financial statements. Further, the corrections did not result in a change in quarterly or year-to-date operating losses, basic or diluted earnings per share, or working capital. The quarterly correction required for the three and nine months ended September 30, 2023 was \$

	September 30, 2023	September 30, 2022
General and administrative expense	95,129	277,844
Research and development expense	3,084,488	(277,844)
	\$	\$
	2,806,644	452,342

The following table summarizes the corrections made to the unaudited condensed consolidated statements of operations for the three and nine months ended September 30, 2023:

	September 30, 2023	September 30, 2022
General and administrative expense	95,129	277,844
Research and development expense	3,084,488	(277,844)

3,536,830			

Use of Estimates

Use of Estimates

The preparation of unaudited condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions. The Company bases its estimates and assumptions on current facts, historical experience, and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected. Significant estimates are contained in the accompanying unaudited condensed consolidated financial statements for the recognition of research and development expenses, valuation of warrants and valuation of bifurcated derivative liabilities and other financial instruments.

Cash and Cash Equivalents

Cash and cash equivalents include cash in bank accounts and money market funds with maturities of less than three months from inception, which are readily convertible to known amounts of cash and which, in the opinion of management, are subject to an insignificant risk of loss in value. As of September 30,

2024 and December 31, 2023, cash and cash equivalents consisted of the following:

Schedule of Cash and Cash Equivalents				
	September 30,	December 31,		
	2024	2023		
Cash	\$155,652	\$1,550,098		
Money market funds	1,004	1,026,318		
Cash and cash equivalents	\$156,656	\$2,576,416		

Periodically, the Company may carry cash balances at financial institutions in excess of the federally insured limit of \$250,000 per institution. The amount in excess of the FDIC insurance as of September 30, 2024 was \$0. The Company has not experienced losses on these accounts and management believes, based upon the quality of the financial institutions, that the credit risk with regard to these deposits is not significant.

Marketable Securities

Our investments in debt securities are carried at fair value. Investments in debt securities that are not classified as held-to-maturity are carried at fair value and classified as either trading or available-for-sale. Realized and unrealized gains and losses on trading of debt securities are charged to income.

The marketable securities held by the Company, which are classified as trading marketable securities, consisted of an outstanding balance of \$**0** and \$**2.9** million as of September 30, 2024 and December 31, 2023, respectively. During the three months ended September 30, 2024 and 2023, the Company recognized interest income of \$**2,524** and \$**20,765**, realized gains of \$**56,398** and \$**0**, and unrealized losses of \$**42,898** and unrealized gains of \$**9,606**, respectively. During the nine months ended September 30, 2024 and 2023, the Company recognized interest income of \$**38,135** and \$**56,720**, realized gains of \$**100,118** and \$**1,744**, and unrealized loss of \$**71,568** and unrealized gain of \$**21,134**, respectively.

Fair Value of Financial Instruments Policy

The Company follows accounting guidelines on fair value measurements for financial instruments measured on a recurring basis, as well as for certain assets and liabilities that are initially recorded at their estimated fair values. Fair Value is defined as the exit price, or the amount that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The Company uses the following three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs to value its financial instruments:

●	Level 1: Observable inputs such as unadjusted quoted prices in active markets for identical instruments.
●	Level 2: Quoted prices for similar instruments that are directly or indirectly observable in the marketplace.
●	Level 3: Significant unobservable inputs which are supported by little or no

market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires a significant judgment or estimation.

Financial instruments measured at fair value are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires the Company to make judgments and consider factors specific to the asset or liability. The use of different assumptions and/or estimation methodologies may have a material effect on estimated fair values. Accordingly, the fair value estimates disclosed, or initial amounts recorded, may not be indicative of the amount that the Company or holders of the instruments could realize in a current market exchange.

The carrying amounts of the Company's financial instruments including cash and cash equivalents, prepaid expenses, accounts payable and accrued liabilities approximate fair value due to the short-term maturities of these instruments.

Set out below are the Company's financial instruments that are required to be remeasured at fair value on a recurring basis and their fair value hierarchy as of September 30, 2024 and December 31, 2023:

September 30, 2024		
Level 1		
Level 2		
Level 3		

[illegible]

[illegible]

[illegible]

[illegible]

3,852	
Total Liabilities	\$414,512

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to cash flow, market or foreign currency risks. We evaluate all of our financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the unaudited condensed consolidated statements of operations. For our liability classified derivative financial instruments, the Company used a Monte Carlo valuation model to value the derivative instruments at inception and on subsequent valuation dates. For our equity classified derivative financial instruments, we used a Black-Scholes option-pricing model at the grant date to value the derivative instrument. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the unaudited condensed consolidated balance sheets as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within twelve (12) months of the balance sheet date.

Warrants

The Company accounts for warrants as either equity-classified or liability-classified

instruments based on an assessment of the warrant's specific terms and applicable authoritative guidance in FASB ASC 480, *<i>Distinguishing Liabilities from Equity</i>* ("ASC 480") and ASC 815, *<i>Derivatives and Hedging</i>* ("ASC 815"). The assessment considers whether the warrants are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company's own ordinary shares and whether the warrant holders could potentially require "net cash settlement" in a circumstance outside of the Company's control, among other conditions for equity classification. This assessment, which requires the use of professional judgment, is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

For issued or modified warrants that meet all of the criteria for equity classification, the warrants are required to be recorded as a component of additional paid-in capital at the time of issuance. For issued or modified warrants that do not meet all the criteria for equity classification, the warrants are required to be recorded at their initial fair value on the date of issuance, and each balance sheet date thereafter. Changes in the estimated fair value of the warrants are recognized as a non-cash gain or loss on the unaudited condensed consolidated statements of operations. The fair value of the warrants is estimated using a Black-Scholes pricing model or a Monte Carlo simulation.

Research and Development Expenses

Research and development expenses are charged to expense as incurred. Research and development expenses include, but are not limited to, product development, clinical and regulatory expenses, payroll and other personnel expenses, which include a certain portion of our chief executive officer, chief operating officer, chief financial officer and directors' compensation. For the three and nine months ended September 30, 2024 and 2023, a portion of personnel-related expenses and stock-based compensation expense for these individuals totaling \$0.1 million and \$0.4 million, respectively, and \$0.1 million, respectively, are included in research and development expenses.

ResearchAndDevelopmentExpenseMember_z6WBhgF5e0Y3" title="Share based compensation">0.7 million, respectively, was included within research and development due to their active involvement in the research and development activities, materials, supplies, related subcontract expenses, and consulting costs. In June 2024, the Company recruited a new chief financial officer who is substantially devoted to administrative functions and our then existing chief financial officer, who also handled research and development compliance functions, transitioned to substantially research and development functions.

Regarding the accounting treatment for reimbursements, GAAP provides limited guidance on the accounting for government grants received by for-profit companies. In accordance with ASC Topic 832, *Government Assistance*, as adopted January 1, 2022, we disclose certain types of government assistance received in the notes to the consolidated financial statements that includes: a) the nature of the transaction including the nature of the assistance being given, b) the accounting policies being used to account for the transaction and c) other provisions of relevance, where required. Depending on the type of grant or contract, we understand there is more than one acceptable alternative for the accounting treatment – a reduction of costs, a deferred credit to be amortized, revenue or other income. The Company has concluded that reimbursements received for R&D expenses incurred, are more akin to a reduction of costs and applies reimbursements against incurred research costs. There were no reimbursements received for the three and nine months ended September 30, 2024 and 2023.

Net Loss Per Common Stock

Net loss per share of common stock requires presentation of basic earnings per share on the face of the unaudited condensed consolidated statements of operations for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the basic earnings per share computation. In the accompanying unaudited condensed consolidated financial statements, basic loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per share is computed by dividing net income by the weighted average number of shares of common stock and potentially dilutive outstanding shares of common stock during the period to reflect the potential dilution that could occur from common shares issuable through contingent share arrangements, stock options and warrants unless the result would be antidilutive.

The dilutive effect of restricted stock units subject to vesting and other stock-based payment awards is calculated using the “treasury stock method,” which assumes that the “proceeds” from the exercise of these instruments are used to purchase common shares at the average market price for the period. The dilutive effect of convertible securities is calculated using the “if-converted method.” Under the if-converted method, securities are assumed to be converted at the beginning of the period, and the resulting shares of common stock are included in the

denominator of the diluted calculation for the entire period being presented.

For the nine months ended September 30, 2024 and 2023, the following common stock equivalents were excluded from the computation of diluted net loss per share as the result of the computation was anti-dilutive.

allows disclosure of one or more measures of segment profit or loss used by the chief operating decision maker to allocate resources and assess performance. Additionally, the standard requires enhanced disclosures of significant segment expenses and other segment items, as well as incremental qualitative disclosures on both an annual and interim basis. This guidance is effective for annual reporting periods beginning after December 15, 2023, and interim reporting periods after December 15, 2024. Early adoption is permitted and retrospective application is required for all periods presented. The adoption of this new guidance is not expected to have a significant impact on our consolidated financial statements.

In December 2023, the FASB issued ASU No. 2023-09, Income Taxes Topic 740, "Income Tax-Improvements to Income Tax Disclosures," which requires enhanced disclosures, including specific categories and disaggregation of information in the effective tax rate reconciliation, disaggregated information related to income taxes paid, income or loss from continuing operations before income tax expense or benefit, and income tax expense or benefit from continuing operations. This guidance is effective for annual reporting periods beginning after December 15, 2024. Early adoption is permitted and should be applied on a prospective basis, however retrospective application is permitted. The Company is currently evaluating the impact of adopting this guidance on its consolidated and condensed financial statements and disclosures included within notes to consolidated and condensed financial statements.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial statements and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X of the United States Securities and Exchange Commission ("SEC"). Accordingly, they do not contain all information and notes required by GAAP for annual financial statements. A complete discussion of the Company's significant accounting policies is included in the Company's Annual Report on Form 10-K/A for the year ended December 31, 2023.

In the opinion of the Company's management, the accompanying unaudited condensed consolidated financial statements contain all of the adjustments necessary to present the financial position of the Company as of September 30, 2024 and the results of operations and cash flows for the periods presented. The accompanying condensed consolidated financial statements of the Company have not been audited by the Company's independent registered public accounting firm, except that the year-end consolidated balance sheet was derived from audited financial statements. The results of operations for the nine months ended September 30, 2024 are not necessarily indicative of the operating results for the full fiscal year or any future period. These unaudited condensed consolidated financial statements should be read in conjunction with the restated financial statements and related notes thereto

for the year ended December 31, 2023 included in the Company's Annual Report on Form 10-K/A filed with the SEC on September 4, 2024.

Reverse Stock Split

On August 13, 2024, in order to meet Nasdaq's minimum bid price requirement of \$1.00 per share (the "Minimum Bid Price Requirement"), the Company effectuated a 1-for-8 reverse stock split of its issued and outstanding common stock, rounding up to account for any fractional shares (the "Reverse Stock Split"). The Reverse Stock Split had no effect on the Company's authorized shares of common stock or preferred stock and the par value will remain unchanged at \$0.00001 per share, respectively. All common stock share, option, warrant and per share amounts (except our authorized but unissued shares and previously reserved shares) have been retroactively adjusted in these financial statements and related disclosures.

Basis of Consolidation

The unaudited condensed consolidated financial statements have been prepared on a consolidated basis with those of the Company's wholly-owned subsidiaries, Shuttle Pharmaceuticals, Inc. and Shuttle Diagnostics Inc. All intercompany transactions and balances have been eliminated.

Correction of an Immaterial Error in the Prior Period Financial Statements

During the fourth quarter of 2023, the Company determined that the prior year consolidated financial statements had a misstatement caused by an immaterial classification error of certain research

and development expenses in accordance with Accounting Standards Codification ("ASC") 730. As a result, certain prior year amounts have been corrected for consistency with the current year presentation. The Company assessed the materiality of this change in presentation on prior period consolidated financial statements in accordance with SEC Staff Accounting Bulletin No. 99, "Materiality," (ASC Topic 250: Accounting Changes and Error Corrections). Based on this assessment, the Company concluded that these error corrections in its unaudited condensed consolidated statements of operations are not material to any previously presented financial statements based upon overall considerations of both quantitative and qualitative factors. The corrections had no impact on the unaudited condensed consolidated balance sheet, unaudited condensed consolidated statements of cash flows, or unaudited condensed consolidated statement of changes in stockholders' equity, to these financial statements, or for any previously presented interim or annual financial statements. Further, the corrections did not result in a change in quarterly or year-to-date operating losses, basic or diluted earnings per share, or working capital. The quarterly correction required for the three and nine months ended September 30, 2023 was \$95,129 and \$277,844, respectively. Accordingly, the Company corrected the previously reported immaterial error for the three and nine months ended September 30, 2023 in this Quarterly Report on Form 10-Q.

Use of Estimates

Use of Estimates

The preparation of unaudited condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions. The Company bases its estimates and assumptions on current facts, historical experience, and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected. Significant estimates are contained in the accompanying unaudited condensed consolidated financial statements for the recognition of research and development expenses, valuation of warrants and valuation of bifurcated derivative liabilities and other financial instruments.

Cash and Cash Equivalents

Cash and Cash Equivalents

Cash and cash equivalents include cash in bank accounts and money market funds with maturities of less than three months from inception, which are readily convertible to known amounts of cash and which, in the opinion of management, are subject to an insignificant risk of loss in value. As of September 30, 2024 and December 31, 2023, cash and cash equivalents consisted of the following:

ScheduleOfCashAndCashEquivalentsTableTextBlock_zRN5THoJKjwg" style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0"> Schedule of Cash and Cash Equivalents</p> <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; border-collapse: collapse; width: 100%"> <tr style="vertical-align: bottom"> <td> </td><td style="font-weight: bold"> </td> <td colspan="2" id="xdx_490_20240930_zo959hPyLuUd" style="font-weight: bold; text-align: center">September 30,</td><td style="font-weight: bold"> </td><td style="font-weight: bold"> </td><td colspan="2" id="xdx_490_20231231_zVLdf7E3gLE9" style="font-weight: bold; text-align: center">December 31,</td><td style="font-weight: bold"> </td></tr> <tr style="vertical-align: bottom"> <td> </td><td style="font-weight: bold"> </td> <td colspan="2" style="border-bottom: Black 1pt solid; font-weight: bold; text-align: center">2024</td><td style="font-weight: bold"> </td><td style="font-weight: bold"> </td> <td colspan="2" style="border-bottom: Black 1pt solid; font-weight: bold; text-align: center">2023</td><td style="font-weight: bold"> </td></tr> <tr id="xdx_402_eus-gaap--Cash_il_maCACEAzWH_znfP3H1Bl2B7" style="vertical-align: bottom; background-color: rgb(204,238,255)"> <td style="width: 60%">Cash</td><td style="width: 2%"> </td> <td style="width: 1%; text-align: left">\$</td><td style="width: 16%; text-align: right">155,652</td><td style="width: 1%; text-align: left"> </td><td style="width: 2%"> </td> <td style="width: 1%; text-align: left">\$</td><td style="width: 16%; text-align: right">1,550,098</td><td style="width: 1%; text-align: left"> </td></tr> <tr id="xdx_40F_eus-gaap--MoneyMarketFundsAtCarryingValue_il_maCACEAzWH_z1GqixYUGys3" style="vertical-align: bottom; background-color: White"> <td style="text-align: left">Money market funds</td><td> </td> <td style="border-bottom: Black 1pt solid; text-align: left"> </td><td style="border-bottom: Black 1pt solid; text-align: right">1,004</td><td style="text-align: left"> </td><td> </td> <td style="border-bottom: Black 1pt solid; text-align: left"> </td><td style="border-bottom: Black 1pt solid; text-align: right">1,026,318</td><td style="text-align: left"> </td></tr> <tr id="xdx_40B_eus-gaap--CashAndCashEquivalentsAtCarryingValue_iTI_mtCACEAzWH_z6D96pCrQ2n7" style="vertical-align: bottom; background-color: rgb(204,238,255)"> <td>Total cash and cash equivalents</td><td> </td> <td style="border-bottom: Black 2.5pt double; text-align: left">\$</td><td style="border-bottom: Black 2.5pt double; text-align: right">156,656</td><td style="text-align: left"> </td><td> </td> <td style="border-bottom: Black 2.5pt double; text-align: left">\$</td><td style="border-bottom: Black 2.5pt double; text-align: right">2,576,416</td><td style="text-align: left"> </td></tr> </table> <p id="xdx_8AB_zNi2bAkWVJsd" style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify">Periodically, the Company may carry cash balances at financial institutions in excess of the federally insured limit of \$250,000 per institution. During the three months ended September 30, 2024 and 2023, the Company recognized interest income of \$2,524 and \$20,765, realized gains of \$56,398 and \$56,720, realized gains of \$100,118 and \$1,744, and unrealized losses of \$42,898 and \$9,606, respectively. During the nine months ended September 30, 2024 and 2023, the Company recognized interest income of \$38,135 and \$56,720, realized gains of \$100,118 and \$1,744, and unrealized loss of \$71,568 and \$21,134, respectively.

Fair Value of Financial Instruments

The Company follows accounting guidelines on fair value measurements for financial instruments measured on a recurring basis, as well as for certain assets and liabilities that are initially recorded at their estimated fair values. Fair Value is defined as the exit price, or the amount that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The Company uses the following three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs to value its financial instruments:

10pt Times New Roman, Times, Serif; margin: 0pt 0"> </p> <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; width: 100%; border-collapse: collapse"> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; width: 0.25in; text-align: justify"> </td> <td style="font: 10pt Times New Roman, Times, Serif; width: 0.25in; text-align: justify">●</td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">Level 1: Observable inputs such as unadjusted quoted prices in active markets for identical instruments.</td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">●</td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">Level 2: Quoted prices for similar instruments that are directly or indirectly observable in the marketplace.</td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">●</td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">Level 3: Significant unobservable inputs which are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires a significant judgment or estimation.</td></tr> </table> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify">Financial instruments measured at fair value are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires the Company to make judgments and consider factors specific to the asset or liability. The use of different assumptions and/or estimation methodologies may have a material effect on estimated fair values. Accordingly, the fair value estimates disclosed, or initial amounts recorded, may not be indicative of the amount that the Company or holders of the instruments could realize in a current market exchange.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify">

The carrying amounts of the Company's financial instruments including cash and cash equivalents, prepaid expenses, accounts payable and accrued liabilities approximate fair value due to the short-term maturities of these instruments.

Set out below are the Company's financial instruments that are required to be remeasured at fair value on a recurring basis and their fair value hierarchy as of September 30, 2024 and December 31, 2023:

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to cash flow, market or foreign currency risks. We evaluate all of our financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the unaudited condensed consolidated statements of operations. For our liability classified derivative financial instruments, the Company used a Monte Carlo valuation model to value the derivative instruments at inception and on subsequent valuation dates. For our equity classified derivative financial instruments, we used a Black-Scholes option-pricing model at the grant date to value the derivative instrument. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the unaudited condensed consolidated balance sheets as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within twelve (12) months of the balance sheet date.

Warrants

The Company accounts for warrants as either equity-classified or liability-classified instruments based on an assessment of the warrant's specific terms and applicable authoritative guidance in FASB ASC 480, *Distinguishing Liabilities from Equity* ("ASC 480") and ASC 815, *Derivatives and Hedging* ("ASC 815"). The assessment considers whether the warrants are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company's own ordinary shares and whether the warrant holders could potentially require "net cash settlement" in a circumstance outside of the Company's control, among other conditions for equity classification. This assessment, which requires the use of professional judgment, is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

For issued or modified warrants that meet all of the criteria for equity classification, the warrants are required to be recorded as a component of additional paid-in capital at the time of issuance. For issued or modified warrants that do not meet all the criteria for equity classification, the warrants are required to be recorded at their initial fair value on the date of issuance, and each balance sheet date thereafter. Changes in the estimated fair value

of the warrants are recognized as a non-cash gain or loss on the unaudited condensed consolidated statements of operations. The fair value of the warrants is estimated using a Black-Scholes pricing model or a Monte Carlo simulation.

Research and Development Expenses

Research and development expenses are charged to expense as incurred. Research and development expenses include, but are not limited to, product development, clinical and regulatory expenses, payroll and other personnel expenses, which include a certain portion of our chief executive officer, chief operating officer, chief financial officer and directors' compensation. For the three and nine months ended September 30, 2024 and 2023, a portion of personnel-related expenses and stock-based compensation expense for these individuals totaling \$0.1 million and \$0.4 million, respectively, and \$0.1 million and \$0.7 million, respectively, was included within research and development due to their active involvement in the research and development activities, materials, supplies, related subcontract expenses, and consulting costs. In June 2024, the Company recruited a new chief financial officer who is substantially devoted to administrative functions and our then existing chief financial officer, who also handled research and development compliance functions, transitioned to substantially research and development functions.

Regarding the accounting treatment for reimbursements, GAAP provides limited guidance on the accounting for government grants received by for-profit companies. In accordance with ASC Topic 832, *Government Assistance*, as adopted January 1, 2022, we disclose certain types of government assistance received in the notes to the consolidated financial statements that includes: a) the nature of the transaction including the nature of the assistance being given, b) the accounting policies being used to account for the transaction and c) other provisions of relevance, where required. Depending on the type of grant or contract, we understand there is more than one acceptable alternative for the accounting treatment – a reduction of costs, a deferred credit to be amortized, revenue or other income. The Company has concluded that reimbursements received for R&D expenses incurred, are more akin to a

reduction of costs and applies reimbursements against incurred research costs. There were no reimbursements received for the three and nine months ended September 30, 2024 and 2023.

Net Loss Per Common Stock

Net loss per share of common stock requires presentation of basic earnings per share on the face of the unaudited condensed consolidated statements of operations for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the basic earnings per share computation. In the accompanying unaudited condensed consolidated financial statements, basic loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per share is computed by dividing net income by the weighted average number of shares of common stock and potentially dilutive outstanding shares of common stock during the period to reflect the potential dilution that could occur from common shares issuable through contingent share arrangements, stock options and warrants unless the result would be antidilutive.

The dilutive effect of restricted stock units subject to vesting and other stock-based payment awards is calculated using the “treasury stock method,” which assumes that the “proceeds” from the exercise of these instruments are used to purchase common shares at the average market price for the period. The dilutive effect of convertible securities is calculated using the “if-converted method.” Under the if-converted method, securities are assumed to be converted at the beginning of the period, and the resulting shares of common stock are included in the denominator of the diluted calculation for the entire period being presented.

Schedule of Anti-dilutive Securities Excluded from Computation of Earnings Per Share

For the nine months ended September 30, 2024 and 2023, the following common stock equivalents were excluded from the computation of diluted net loss per share as the result of the computation was anti-dilutive.

operating decision maker to allocate resources and assess performance. Additionally, the standard requires enhanced disclosures of significant segment expenses and other segment items, as well as incremental qualitative disclosures on both an annual and interim basis. This guidance is effective for annual reporting periods beginning after December 15, 2023, and interim reporting periods after December 15, 2024. Early adoption is permitted and retrospective application is required for all periods presented. The adoption of this new guidance is not expected to have a significant impact on our consolidated financial statements.

In December 2023, the FASB issued ASU No. 2023-09, Income Taxes Topic 740, "Income Tax-Improvements to Income Tax Disclosures," which requires enhanced disclosures, including specific categories and disaggregation of information in the effective tax rate reconciliation, disaggregated information related to income taxes paid, income or loss from continuing operations before income tax expense or benefit, and income tax expense or benefit from continuing operations. This guidance is effective for annual reporting periods beginning after December 15, 2024. Early adoption is permitted and should be applied on a prospective basis, however retrospective application is permitted. The Company is currently evaluating the impact of adopting this guidance on its consolidated and condensed financial statements and disclosures included within notes to consolidated and condensed financial statements.

Note 3 – Leases

Operating lease right-of-use ("ROU") assets and liabilities are recognized at the present value of the future lease payments as of the lease commencement date. Operating lease expense is recognized on a straight-line basis over the lease term.

During the nine months ended September 30, 2023, the Company had a lease agreement which allowed for the use of a laboratory facility for a monthly payment of \$6,480. The laboratory lease commenced on October 1, 2018 and expired on October 31, 2023.

The Company currently has a lease agreement which allows for the use of a laboratory facility, entered into on February 16, 2023, with base rent of \$7,206 per month for a period of 64 months, which increases at the rate of

id="xdx_901_ecustom--RentVariableRate1_il_dp_uPure_c20230216__us-gaap--LeaseContractualTermAxis__custom--LeaseAgreementMember_zkQAY8KzwCUI" title="Rent variable rate">3% per year, that commenced June 1, 2023. The lease included a six-month 50% rent abatement upon commencement. Additional common area maintenance ("CAM") fees are charged monthly and revised annually. The estimated monthly CAM fees are \$3,300 per month for the first year of the lease, which are being expensed as incurred. An irrevocable letter of credit ("LOC") for the security deposit of \$43,234 and base rent of \$3,891, including 50% abatement, and \$3,315 of CAM cost, was due and paid on execution of the lease agreement. Alexandria Real Estate (ARE-QRS-CORP) is the beneficiary of the LOC, and the expiry date of the LOC is March 1, 2025.

Note 4 - Notes Payable-Related Party

On September 4, 2024, the Company issued a \$250,000 promissory note (the "Promissory Note") to an officer of the Company for \$250,000. The Promissory Note accrues interest at 12% per annum and is repayable in 12 substantially equal installments over a period of one year. During the three and nine months ended September 30, 2024 the Company incurred \$2,137 and \$2,137, respectively, in interest expense relating to this Promissory Note. During the three and nine months ended September 30, 2024 the Company did not pay any principal or accrued interest.

Convertible Notes and Notes Payable

<i>Alto Opportunity Master Fund, SPC</i>

On January 11, 2023, the Company entered into a securities purchase agreement (the “SPA”) with Alto Opportunity Master Fund, SPC – Segregated Master Portfolio B, a Cayman entity (the “Investor”), pursuant to which the Company sold to the Investor a \$

ConvertibleDebt_iI_pp0p0_c20230111_us-gaap--TypeOfArrangementAxis_custom--SecuritiesPurchaseAgreementMember_zoHfUdAVVHic" title="Convertible debt">4,300,000 convertible note (the “Alto Convertible Note”) and warrant (the “Warrant”) to purchase **127,260** shares of common stock, exercisable at \$**1.93** per share, as adjusted, in exchange for gross proceeds of \$**<span**

>3,935,000 (the “Investment Amount”) (See Note 7). The Company determined that the Warrant contains a net cash settlement feature at inception and categorized the Warrant as a liability in the accompanying unaudited condensed consolidated financial statements. The Alto Convertible Note matures on March 11, 2025, but may be extended at the option of the noteholder. The Alto Convertible Note amortizes on a monthly basis and the Company can make such monthly amortization payments in cash or, subject to certain equity conditions, in registered shares of common stock or a combination thereof. Installments may be deferred by the noteholder, resulting in a variable interest rate. However, the effective interest rate is approximately 214% based on the internal rate of return calculated on a series of cash flows that occur at regular intervals. For equity repayment, >the Alto Convertible Note is convertible into shares of common stock at a price per share equal to the lower of (i) \$18.80, (ii) 90% of the three lowest daily VWAPs of the 15 trading days prior to the payment date, or (iii) 90% of the VWAP of the trading day prior to payment date. The noteholder may convert at any time at a fixed price of \$18.80 per share. The noteholder has an acceleration of installment amount conversion option (the “Acceleration Option”), whereby the noteholder, with certain share percentage limitations, can convert to common stock any outstanding installment amount at an amount equal to the installment amount plus five times (5x) the installment amount at any time. The Company has determined the Acceleration Option is an embedded derivative within the host instrument and has bifurcated it from the host instrument and recorded it as a derivative liability valued at \$>1,442,000 at inception, using a Monte Carlo simulation model (Note 7). The Convertible Note is repayable over 26 months and bears interest at the rate of >5% per annum. Additionally, the note contains certain redemption options and “Make Whole” provisions.</p>
<p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify"></p>
<p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify">In conjunction with entry into the SPA, the Company entered into a series of related agreements, including a security agreement (the “Security Agreement”), an intellectual property security agreement (the “IP Security Agreement”) and a subsidiary guaranty (the “Subsidiary Guaranty”). The security agreements and guaranty allow, among other things, for the Investor to have a security interest in and place a lien on all of the Company’s assets and intellectual property until such time as the Alto Convertible Note is paid off. In addition, the SPA called for the Company to enter into a springing deposit account control agreement (the “Springing DACA”), which, in the event the Company defaults on its repayment of the Alto Convertible Note, would allow the Investor to assume control of the Company’s bank account only with regard to any funds remaining outstanding under the Alto Convertible Note. As such, in conjunction with entry into the SPA, the Company established a separate bank account in which it deposited the Investment Amount and pursuant to which the Company, the Investor and the bank holding the Investment Amount, First Republic Bank, entered into the Springing DACA agreement. As the Investment Amount had been held at First Republic Bank, in light of

certain banking crises then affecting smaller banks, on March 12, 2023, the Company and the Investor moved the Investment Amount from First Republic Bank, after which time the Springing DACA was no longer in effect. Further, pursuant to amendments to the SPA entered into in May and June of 2023, the Company and the Investor agreed that all of the Investment Amount would be released to the Company and the relevant provision of the SPA which required the Springing DACA would no longer be deemed applicable. In addition, the Company granted the Investor the option to purchase up to an additional \$10.0 million in convertible notes and warrants on substantially the same terms as the Alto Convertible Note and Warrant, excluding the Springing DACA requirement, with such option to be effective through December 31, 2025. The agreement offers the investor an opportunity to participate in future capital raises at substantially similar terms as the January 11, 2023 agreement. The Company expects that such subsequent convertible notes and warrants would be issued on substantially similar terms as the January 11, 2023 initial agreement, as amended, thus providing the Company the opportunity to negotiate certain aspects of the agreement.

Boustead Securities, LLC ("Boustead") served as a placement agent for the Alto Convertible Note and Warrant offering and received \$345,000 cash compensation and a warrant to purchase 8,909 shares of common stock, exercisable at \$18.80 per share. The Boustead warrant was determined to be an equity instrument valued on a non-recurring basis. The Company used the Black Scholes valuation model using a term of five years, volatility of 110%, a risk-free rate of 3.53% for a value of \$99,543.

The Company allocated the

finance costs related to the Boustead placement agent fee of \$

</p><p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify">The Company allocated to the debt component of the note an original discount of \$300,000, legal fees of \$65,000, \$215,000 for additional interest fees on day one added to note principal, \$1,442,000 for the accelerated conversion feature, and \$1,288,543 for the fair value of warrants, resulting in an additional \$3,310,543 debt discount that is being amortized to interest expense over the term of the Alto Convertible Note.

</p><p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify">On August 6, 2024, the Company entered into an amendment to the SPA with Alto. Under the Amendment Agreement, the Company and Alto agreed as follows: (i) that the Company would pay \$600,000 (the “Cash Collateral”) in cash by wire

transfer of immediately available funds to Alto, which would be held as collateral on the remaining \$>1.2 million outstanding under the Alto Note; (ii) Alto will defer the monthly installment payment due on September 3, 2024 under the Alto Note until the Alto Note's March 11, 2025 maturity date; and (iii) Alto would grant a waiver of any default Section 4(a)(xvi) of the Note related to the restatement and reaudit of the Company's financial statements for the years ended December 31, 2022 and 2023. The amendment was accounted for as a troubled debt restructuring as the Company determined it was experiencing financial difficulties and was provided a concession through the deferral of one monthly principal and interest payment. As the future undiscounted cash flows exceeded the carrying value of the Alto Convertible Note, the Company did not recognize any gain or loss associated with the troubled debt restructuring.

During the three and nine months ended September 30, 2024, the Company recorded interest expense of \$>270,538 and \$>1,198,738, respectively, which included amortization of debt discount as interest expense of \$>247,430 and \$>1,079,444, respectively. During the three and nine months ended September 30, 2024, the Company settled \$>1,172,850 and \$>1,408,050 of principal, and \$>35,888 and \$>54,670 of accrued interest, which settlements were made in the form of >719,148 and >797,345 shares of common stock. During the three months ended September 30, 2024, the Company also paid \$>345,139 of principal and \$

gaap--DebtInstrumentPeriodicPaymentInterest_c20240701_20240930_zstoosg5Zebh" title="Interest paid">22,724 of accrued interest for a total of \$367,863. During the nine months ended September 30, 2024, the Company paid \$846,806 of principal and \$79,682 of accrued interest for a total of \$926,488. In relation to the settlements described above, the Company recognized a loss on settlement of convertible debt of \$762,186 and \$833,501 for the three and nine months ended September 30, 2024.</p><p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify"> </p><p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify">During the three and nine months ended September 30, 2023, the Company recorded interest expense of \$623,465 and \$1,952,147 respectively, which included amortization of debt discount as interest expense of \$538,302 and \$1,550,479 respectively. Rights Offering and Financing Commitment

On February 7, 2024, the Company and its wholly-owned subsidiary, Shuttle Diagnostics, Inc., entered into a securities purchase agreement (the "Purchase Agreement") with SRO, LLC, a Nevada limited liability company, pursuant to which SRO LLC agreed to commit to purchasing from the Company \$

Sale of stock consideration received per transaction

2,250,000 of units from the Company, with each Unit consisting of

Share based compensation arrangement by share based payment award description

(i) one share of the Company's common stock, (ii) a warrant to purchase one share of the Company's common stock exercisable at a purchase price of \$18.80 per share, and (iii) a percentage of equity interest in Diagnostics such that, assuming the sale of all \$2,250,000 of Units, SRO LLC will own a 22% interest in Diagnostics.

Pursuant to the terms of the Purchase Agreement, the Units will be sold at a

per Unit price equal to 90% of the VWAP of the Company's common stock for the five trading days immediately preceding closing. The parties entered into the Purchase Agreement in anticipation of the Company commencing a rights offering (the "Rights Offering") pursuant to which the Company intends to offer a total of \$

The Company filed an initial registration statement on Form S-1 (the "Form S-1") with the SEC in April 2024 related to the registration of subscription rights to purchase the Units to be sold in the Rights Offering. The Form S-1 has not been declared effective as of the date these unaudited condensed consolidated financial statements were issued. Upon the Form S-1 being declared effective, the Purchase Agreement allows SRO LLC up to 60 days to raise the initial \$

In conjunction with its entry into the Purchase Agreement, on February 7, 2024, the Company entered into a placement agent and advisory services agreement (the "Placement Agent Agreement") with BSL, pursuant to which BSL and BSL's affiliates agreed to provide the Company with regular and customary financial consulting advice and act as placement agent, on a best efforts basis, for the Rights Offering. In exchange for its services, BSL will receive a commitment fee equal to \$

registration statement on Form S-1 registering the Rights Offering or upon such date as the Company terminates the Rights Offering, a commission equal 8% of the gross proceeds disbursed to the Company upon closing the Rights Offering, and \$

The Company determined our derivative liabilities from the warrants issued in relation to the Alto Convertible Note do not satisfy the classification as equity instruments due to the existence of a certain net cash settlement provision that is not within the sole control of the Company. In addition, there are certain down round provisions that could reduce the exercise price if the Company issues securities at lower prices in the future.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify">The Company has determined the Acceleration Option is an embedded derivative within the host instrument and has bifurcated it from the host instrument and recorded it as a derivative liability valued at \$1,442,000, using a Monte Carlo simulation model. The Company determined our derivative liability from the noteholder's Acceleration Option for the Alto Convertible Note is not clearly and closely related to the host and should be thus accounted for as a bifurcated derivative liability.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin: 0pt 0; text-align: justify">The Company classified these derivative liabilities as a Level 3 fair value measurement and used the Monte Carlo pricing model to calculate the fair value as of January 11, 2023 (\$2,631,000 included in debt discount) and September 30, 2024 (\$74,107). Key inputs for the simulation are summarized below. The Monte Carlo simulation uses an implied VWAP for the January 11, 2023 valuation date. The implied VWAP was backsolved by setting the summation of the parts (e.g., derivatives and debt without derivatives) equal to the cash proceeds. The simulation was then iterated and manipulated to solve for the implied share price, which was approximately \$<span id="xdx_904_eus-gaap--DebtInstrumentMeasurementInput_iI_pid_uUSDPSHares_c20230111_us-gaap--MeasurementInputTypeAxis_custom--

Roman, Times, Serif; font-size: 10pt">The Company's primary purpose is to develop
and commercialize unique drugs for the sensitization of cancers and protection of
normal tissues, with the goal of improving outcomes for cancer patients receiving
radiation therapy. Shuttle has deployed its proprietary technology to develop novel
cancer immunotherapies, producing a pipeline of selective HDAC inhibitors for cancer
and immunotherapy applications. The Company's HDAC platform is designed to target
candidate molecules with potential roles in therapeutics beyond cancer, including
autoimmune, inflammatory, metabolic, neurological and infectious diseases. The
Company's Ropidoxuridine product, which is used with radiation therapy to sensitize
cancer cells, was funded by a Small Business Innovation Research ("SBIR") contract
provided by the National Cancer Institute ("NCI"), a unit of the National Institutes of
Health ("NIH"). Ropidoxuridine has been further developed through the Company's
collaborations with scientists at the University of Virginia for use in combination with
proton therapy to improve patient survival. Historically, and prior to the Company's
initial public offering, the Company has obtained funding to develop products through
NIH grants, including a product to predict late effects of radiation with metabolite
biomarkers and develop prostate cancer cell lines in health disparities research.

Prior to marketing in the United States, any products or combination of products developed by the Company must undergo rigorous preclinical (animal) and clinical (human) testing and an extensive regulatory approval process implemented by the Food and Drug Administration ("FDA") under the Food, Drug and Cosmetic Act. There can be no assurance that the Company will not encounter problems in clinical trials that will cause the Company or the FDA to delay or suspend clinical trials.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">The Company's success will depend in part on its ability to obtain patents and product license rights, maintain trade secrets, and operate without infringing on the proprietary rights of others, both in the United States and in other countries. There can be no assurance that patents issued to or licensed by the Company will not be challenged, invalidated or circumvented, or that the rights granted thereunder will provide proprietary protection or competitive advantages to the Company now or in the future.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"><i>Liquidity and Going Concern</i></p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">Our consolidated financial statements are prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. The Company has incurred losses since inception and has a net loss of approximately \$6.6 million and no revenues for the year ended December 31, 2023 and working capital of approximately \$4.6 million as of December 31, 2023. In addition, the convertible note payable outstanding at December 31, 2023 includes covenants and certain cash payment requirements. On July 12, 2024, the Company informed the investor of its convertible note that the Company's expected restatement of its financial statements for the years ended December 31, 2022 and 2023 constituted an event of default under the terms of the convertible note. On August 6, 2024, the Company paid \$0.6 million to the investor of the convertible note and received a waiver from the investor related to the default. The funds paid are restricted and will be held as collateral to the balance owed under the convertible note (see Note 12). These conditions, and the Company's ability to comply with such conditions, raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the consolidated financial statements are issued.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">

0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">In January 2023, the Company entered into a securities purchase agreement with an institutional investor through which the Company sold a convertible note with a principal value of \$4.3 million, along with a four-year warrant to purchase 127,260 shares of common stock, exercisable at \$18.80 per share, providing the Company with approximately \$3.6 million in net proceeds. To date, the warrant has not yet been exercised. However, the Company's existing cash resources, marketable securities and the cash received from the equity offering and convertible note are not expected to provide sufficient funds to carry out the Company's operations and clinical trials through the next twelve months.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">The IPO and subsequent capital raise have supported operations, the manufacture of drug product and FDA approval of the IND for the Phase II clinical trial of Ropidoxuridine and radiation therapy in glioblastoma. The FDA recommended and the company agreed to an expansion of the clinical trial, necessitating additional capital to complete the trial, as well as fund ongoing operations. As a result, management had initiated a \$4.5 million rights offering and submitted an application for a SBIR grant for non-dilutive funding for pre-clinical project through the NIH. The Company is also currently pursuing other financing. The ability of the Company to continue as a going concern is dependent upon its ability to successfully raise additional equity or debt financing to allow it to fund ongoing operations, conduct clinical trials and bring a drug candidate to commercialization to generate revenues.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif;

The accompanying consolidated financial statements do not include any adjustments to reflect the future effects on the recoverability and classification of assets or the amounts and classification of liabilities if the Company is unable to continue as a going concern.

Reverse Stock Split

On August 13, 2024, in order to meet Nasdaq's minimum bid price requirement of \$1.00 per share (the "Minimum Bid Price Requirement"), the Company effectuated a 1-for-8 reverse stock split of its issued and outstanding common stock, rounding up to account for any fractional shares (the "Reverse Stock Split"). The Reverse Stock Split had no effect on the Company's authorized shares of common stock or preferred stock. Following the reverse stock split on August 13, 2024, the Company had a total of 2,111,235 shares issued and outstanding (or 2,008,689 on a post-split basis as of December 31, 2023). The Reverse Stock Split also resulted in an adjustment to the consolidated balance sheets for the years ended December 31, 2023, December 31, 2022 and December 31, 2021 with an increase to additional paid in capital of \$141, \$119 and \$81, respectively, and an offsetting adjustment to the carrying value of common stock. All share, option, warrant and per share amounts (except our authorized outstanding) have been retroactively restated in these financial statements and related disclosures. The effect of the Reverse Stock Split has been included in Note 2 in the "As Reported" and in Note 11 in the "As Reported" amounts for additional paid in capital.

Note 2 – Restatement of Previously Issued Financial Statements

As previously disclosed in the Company’s Quarterly Report on Form 10-Q for the period ended March 31, 2024, filed with the Securities and Exchange Commission (“SEC”) on May 13, 2024, following the entry of a cease-and-desist order by the SEC against our former auditor, B.F. Borgers CPA PC (“BF Borgers”), we commenced the re-audit (the “Re-audit”) of our consolidated financial statements for the year ended December 31, 2022, which had been audited by BF Borgers. Since that time and as a result of the Re-audit, and as initially disclosed on Form 8-K dated July 10, 2024, the Company and the Audit Committee have concluded and informed our current auditor, Forvis Mazars, LLP, that our audited consolidated financial statements for the year ended December 31, 2022 (the “2022 Financial Statements”), our audited consolidated financial statements for the year ended December 31, 2023 (the “2023 Financial Statements”), and the quarterly periods included in the Company’s Annual Report for the year ended December 31, 2023, and the quarterly report for the period ended March 31, 2024 require restatement and are not reliable.

The accounting errors impacting our 2022 Financial Statements include:

●	Application of the incorrect grant date fair values in determining the value of certain equity awards granted during the years ended December 31, 2019 and 2020;
●	Miscalculation of the pattern of recognition of stock-based compensation over the requisite service periods for certain equity awards granted during the years ended December 31, 2019 and 2020;
●	Utilization of incorrect inputs to the fair value estimates for the warrant obligation related to the Series A Convertible Preferred Stock; incorrectly recording the reclassification of the warrant obligation upon issuance as a gain and not as a reclassification to stockholders’ equity;

Series A Convertible Preferred Stock

●

Utilization of incorrect inputs to the fair value estimates for the warrant obligation related to the Series A Convertible Preferred Stock; incorrectly recording the reclassification of the warrant obligation upon issuance as a gain and not as a reclassification to stockholders’ equity;

Initial Public Offering

	Incorrect identification of deferred issuance costs incurred in relation to the initial public offering; Incorrect identification and classification of issuance costs incurred in relation to the initial public offering.

In addition to the restatement of the consolidated financial statements, the Company has also restated the following notes to reflect the errors described above:

Note 2 - Summary of Significant Accounting Policies (now Note 3)	Note 5 - Notes Payable-Related Party
Note 6 - Convertible Notes (now labeled Notes Payable)	Note 7 - Stockholders' Equity
Note 8 - Derivative Liabilities	Note 10 - Income Taxes

The impact of the errors described above also impact the Company's Annual Report on Form 10-K for the years ended December 31, 2023 and December 31, 2022 within additional paid in capital and accumulated deficit, resulting in the preparation and filing of this Annual Report on Form 10-K/A.

The

consolidated financial statements and disclosures have been prepared using the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP").

Basis of Consolidation

The consolidated financial statements have been prepared on a consolidated basis with those of the Company's wholly-owned subsidiaries, Shuttle Pharmaceuticals, Inc. and Shuttle Diagnostics, Inc. All intercompany transactions and balances have been eliminated.

Reclassifications

Certain prior year amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions. The Company bases its estimates and assumptions on current facts, historical experience, and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected. Significant estimates are contained in the accompanying consolidated financial statements for the recognition of research and development expenses, valuation of warrants and valuation of bifurcated derivative liabilities and other financial instruments.

Cash and Cash Equivalents

Cash and cash equivalents include cash in bank accounts and money market funds with maturities of less than three months from inception, which are readily convertible to known amounts of cash and which, in the opinion of management, are subject to an insignificant risk of loss in value. As of December 31, 2023 and 2022, cash and cash equivalents consisted of the following:

	December 31,	December 31,
	2023	2022
Cash	1,550,098	5,411,378
Money market funds		

As of December 31, 2023, the marketable securities held by the Company, which are classified as trading marketable securities, consisted of an outstanding balance of \$2,887,215. During the year ended December 31, 2023, the Company recognized interest income of \$52,855, realized gains of \$4,970, and unrealized gains of \$71,568. The were

marketable securities as of December 31, 2022.

Fair Value of Financial Instruments Policy

Fair Value of Financial Instruments

The Company follows accounting guidelines on fair value measurements for financial instruments measured on a recurring basis, as well as for certain assets and liabilities that are initially recorded at their estimated fair values. Fair value is defined as the exit price, or the amount that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The Company uses the following three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs to value its financial instruments:

<i>Level 1: Observable inputs such as unadjusted quoted prices in active markets for identical instruments.</i>	

justify"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">●</td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">Level 2: Quoted prices for similar instruments that are directly or indirectly observable in the marketplace.</td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td></tr> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"> </td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">●</td> <td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">Level 3: Significant unobservable inputs which are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires a significant judgment or estimation.</td></tr> </table> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">Financial instruments measured at fair value are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires the Company to make judgments and consider factors specific to the asset or liability. The use of different assumptions and/or estimation methodologies may have a material effect on estimated fair values. Accordingly, the fair value estimates disclosed, or initial amounts recorded, may not be indicative of the amount that the Company or holders of the instruments could realize in a current market exchange.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">The carrying amounts of the Company's financial instruments including cash and cash equivalents, prepaid expenses, accounts payable and accrued liabilities approximate fair value due to the short-term maturities of these instruments.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p id="xdx_897_eus-gaap--ScheduleOfFairValueAssetsAndLiabilitiesMeasuredOnRecurringBasisTableTextBlock_zS" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">Set out below are the Company's financial instruments that are required to be remeasured at fair value on a recurring basis and their fair value hierarchy as of December 31, 2023:</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> Schedule of Fair Value, Assets and Liabilities Measured on Recurring Basis</p> <table cellpadding="0"

During the year ended December 31, 2022, the Company had non-derivative warrant liabilities that were measured at fair value on a recurring basis. Each of these fair value measurements was considered to be a Level 3 measurement by the Company as they used significant unobservable inputs, such as the Company's pre-IPO stock price, probability of event occurrence and other management estimates. The key inputs for each of these warrant liabilities were as follows:

Schedule of Key Inputs of Warrant Liabilities
Warrant Liability - Series A Preferred Stock Obligation
December 31, 2021

Reclassification Date		
Estimated fair value of Company's stock 40.00 \$		
Estimated fair value of company's stock 32.50 \$		
Exercise price (based on estimated IPO or Listing terms at issuance) \$ 40.00 \$		
Exercise price 166.56		
Exercise price 32.00		
Number of warrants (based on estimated Series A Preferred Stock conversion shares upon IPO or Listing at issuance)

	Reclassification to stockholders' equity	(28,196)
	Balance, December 31, 2022	64,140

Warrant liabilities

Refer to Note 7 for additional background on the reclassification of warrant liabilities to equity. See Note 8 for additional disclosures related to the fair value of the Company's derivative liabilities.

We determine if an arrangement is a lease at inception. Operating leases are included in operating

lease right-of-use asset ("ROU"), operating lease liability - current, and operating lease liability - noncurrent on the consolidated balance sheets. Finance leases are included in property and equipment, other current liabilities, and other long-term liabilities in our consolidated balance sheets. The Company did not utilize any financing that required recognition of finance leases during the years ended December 31, 2023 and 2022.

ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As our leases do not provide an implicit rate, we use our incremental borrowing rate based on the estimated rate of interest for collateralized borrowing, over a similar term of the lease payments at commencement date. The operating lease ROU asset also includes any lease payments made and excludes lease incentives. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

Leases with a lease term of 12 months or less at inception are not recorded on our consolidated balance sheets and are expensed on a straight-line basis over the lease term in our statement of operations. We have lease agreements with lease and non-lease components, which are generally accounted for separately.

The Company determines the present value of minimum future lease payments for operating leases by estimating a rate of interest that it would have to pay to borrow on a collateralized basis over a similar term, an amount equal to the lease payments and a similar economic environment (the "incremental borrowing rate" or "IBR"). The Company determines the appropriate IBR by identifying a reference rate and making adjustments that take into consideration financing options and certain lease-specific circumstances. For the reference rate, the Company used an equity built up, risk adjusted rate, as the implicit interest rate.

PropertyPlantAndEquipmentPolicyTextBlock_z8MmAaVMdZR3

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Expenditures for maintenance and repairs are charged to expense as incurred; additions, renewals and betterments are capitalized. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the

respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the straight-line method for substantially all assets with estimated lives as follows:

Schedule of Useful Lives for Property Plant Equipment			
Furniture			
Computers and equipment			
Research Equipment			
Derivative Financial Instruments			

The Company does not use derivative instruments to hedge exposures to cash flow, market or foreign currency risks. We evaluate all of our financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative

instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the consolidated statements of operations.

For our derivative financial instruments, the Company utilizes the most appropriate valuation model (such as Monte Carlo simulations or probability-weighted expected return models, based on the nature of the terms of the instrument) to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the consolidated balance sheet sheets as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within twelve (12) months of the balance sheet date.

Convertible Notes

The Company evaluates its convertible notes for embedded features and bifurcates these features (such as conversion options and redemption options) from their host instruments and accounts for them as free standing derivative financial instruments if certain criteria are met. The criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under otherwise applicable generally accepted accounting principles with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument.

Warrants

The Company accounts for warrants as either equity-classified or liability-classified instruments based on an assessment of the warrant's specific terms and applicable authoritative guidance in FASB ASC 480, Distinguishing Liabilities from Equity ("ASC 480") and ASC 815, Derivatives and Hedging ("ASC 815"). The assessment considers whether the warrants are freestanding financial instruments

pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company's own ordinary shares and whether the warrant holders could potentially require "net cash settlement" in a circumstance outside of the Company's control, among other conditions for equity classification. Finally, the Company determines if the warrants meet the definition of a derivative based on their contractual terms. This assessment, which requires the use of professional judgment, is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

For issued or modified warrants that meet all of the criteria for equity classification, the warrants are required to be recorded as a component of additional paid-in capital at the time of issuance. For issued or modified warrants that do not meet all the criteria for equity classification, the warrants are required to be recorded at their initial fair value on the date of issuance, and at each balance sheet date thereafter. Changes in the estimated fair value of the warrants are recognized as a non-cash gain or loss on the

consolidated statements of operations. The Company also evaluates if changes in contractual terms or other considerations would result in the reclassification of outstanding warrants from liabilities to stockholders' equity (or vice versa).

The fair value of the warrants is estimated using a Black-Scholes pricing model or a Monte Carlo simulation.

Impairment of Long-Lived Assets

The Company reviews its long-lived assets for impairment whenever events or changes in business circumstances indicate that the carrying amount of the asset may not be fully recoverable. Recoverability of assets is measured by a comparison of the carrying amount of an asset to the estimated undiscounted cash flows expected to be generated by the asset. If the carrying amount of the asset exceeds its estimated future cash flows, an impairment charge will be recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. There were no impairments of long-lived assets during the periods presented.

Stock-Based Compensation

The fair value of stock awards is based on the quoted price of our common stock on the grant date. Compensation expense related to the RSUs is reduced by the fair value of the units that are forfeited by employees that leave the Company prior to vesting as they occur. Compensation cost for RSUs are recognized using the straight-line method over the requisite service period.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p id="xdx_84E_eus-gaap--ResearchAndDevelopmentExpensePolicy_zvRlhX5DOMC2" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"><i>Research and Development Expenses</i></p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">Research and development expenses are charged to expense as incurred. Research and development expenses include, but are not limited to, product development, clinical and regulatory expenses, payroll and other personnel expenses, which include a certain portion of our chief executive officer, chief operating officer, chief financial officer and directors' compensation. For the year ended December 31, 2023 and 2022, a portion of personnel-related expenses and stock-based compensation expense for these individuals totaling \$0.8 million and \$0.5 million, respectively, was included within research and development due to their active involvement in the research and development activities, materials, supplies, related subcontract expenses, and consulting costs.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">Regarding the accounting treatment for reimbursements, GAAP provides limited guidance on the accounting for government grants received by for-profit companies. In accordance with ASC Topic 832, <i>Government Assistance</i>, as adopted January 1, 2022, we disclose certain types of government assistance received in the notes to the consolidated financial statements that includes: a) the nature of the transaction including the nature of the assistance being given, b) the accounting policies being used to account for the transaction and c) other provisions of relevance, where required. Depending on the type of grant or contract, we understand there is more than one acceptable alternative for the accounting treatment – a reduction of costs, a deferred credit to be amortized, revenue or other income. The Company has concluded that reimbursements received for R&D expenses incurred, are more akin to a reduction of costs and applies reimbursements against incurred research costs. For the years ended December 31, 2023 and 2022, we recorded \$<span id="xdx_900_eus-gaap--OtherResearchAndDevelopmentExpense_pn5n6_c20230101_20231231_zY9s230h9slk"

Research and development, net of contract expense reimbursements > 3.5 million and \$ **OtherResearchAndDevelopmentExpense** pn5n6_c20220101_20221231_zuzMe32hXUdd' **Research and development, net of contract expense reimbursements** > 1.0 million in Research and development, net of contract expense reimbursements, respectively.

Income Taxes

The Company accounts for income taxes in accordance with ASC Topic 740, **Income Taxes**. ASC 740 requires a company to use the asset and liability method of accounting for income taxes, whereby deferred tax assets are recognized for deductible temporary differences, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, the Company does not foresee generating taxable income in the near future and utilizing its deferred tax asset, therefore, it is more likely than not that some portion, or all of, the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Under ASC 740, a tax position is recognized as a benefit only if it is “more likely than not” that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the “more likely than not” test, no tax benefit is recorded. The Company has no material uncertain tax positions for any of the reporting periods presented.

Segment Information

Operating segments are defined as components of an enterprise about which separate and discrete information is available for evaluation by the chief operating decision-maker (“CODM”) in deciding how to allocate resources and assess performance. The Company and the Company’s CODM, the Company’s chief executive

officer, evaluates the Company's operations and manages its business as a

Recent Accounting Pronouncements

In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," which requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as information on income taxes paid. The guidance is effective for the Company's fiscal years beginning after February 1, 2025, with early adoption permitted. The Company does not expect the adoption of this standard to have any material impact on its financial statements.

There have been no other recent accounting pronouncements, changes in accounting pronouncements or recently adopted accounting guidance during the year ended December 31, 2023 that are of significance or potential significance to the Company.

Basis of Presentation

These consolidated financial statements and related disclosures have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). The consolidated financial statements and disclosures have been prepared using the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP").

Basis of Consolidation

The consolidated financial statements have been prepared on a consolidated basis with those of the Company's wholly-owned subsidiaries, Shuttle Pharmaceuticals, Inc. and Shuttle Diagnostics, Inc. All intercompany transactions and balances have been eliminated.

Reclassifications

Certain prior year

amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The Company regularly evaluates estimates and assumptions. The Company bases its estimates and assumptions on current facts, historical experience, and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected. Significant estimates are contained in the accompanying consolidated financial statements for the recognition of research and development expenses, valuation of warrants and valuation of bifurcated derivative liabilities and other financial instruments.

Cash and Cash Equivalents

Cash and cash equivalents include cash in bank accounts and money market funds with maturities of less than three months from inception, which are readily convertible to known amounts of cash and which, in the opinion of management, are subject to an insignificant risk of loss in value. As of December 31, 2023 and 2022, cash and cash equivalents consisted of the following:

<i>Schedule of Cash and Cash Equivalents</i>
Cash and cash equivalents

[illegible]

Periodically, the Company may carry cash balances at financial institutions in excess of the federally insured limit of \$250,000 per institution. The amount in excess of the FDIC insurance as of December 31, 2023 was approximately \$1,849,000. The Company has not experienced losses on these accounts and management believes, based upon the quality of the financial institutions, that the credit risk with regard to these deposits is not significant.

Cash and cash equivalents include cash in bank accounts and money market funds with maturities of less than three months from inception, which are readily convertible to known amounts of cash and which, in the opinion of management, are subject to an insignificant risk of loss in value. As of December 31, 2023 and 2022, cash and cash equivalents consisted of the following:

<i>Schedule of Cash and Cash Equivalents</i>				
		<i>December 31,</i>

Fair value is defined as the exit price, or the amount that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. The Company uses the following three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs to value its financial instruments:</p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt"></p><table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; width: 100%; border-collapse: collapse"><tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"><td style="font: 10pt Times New Roman, Times, Serif; width: 0.25in; text-align: justify"></td><td style="font: 10pt Times New Roman, Times, Serif; width: 0.25in; text-align: justify">●</td><td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">Level 1: Observable inputs such as unadjusted quoted prices in active markets for identical instruments.</td></tr><tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"><td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"></td><td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"></td><td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"></td><td style="font: 10pt Times New Roman, Times, Serif; text-align: justify"></td></tr><tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: top"><td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">●</td><td style="font: 10pt Times New Roman, Times, Serif; text-align: justify">Level 2: Quoted prices for similar instruments that are directly or indirectly observable in the marketplace.</td></tr><tr style="font: 10pt

Level 3: Significant unobservable inputs which are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires a significant judgment or estimation.

Financial instruments measured at fair value are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires the Company to make judgments and consider factors specific to the asset or liability. The use of different assumptions and/or estimation methodologies may have a material effect on estimated fair values. Accordingly, the fair value estimates disclosed, or initial amounts recorded, may not be indicative of the amount that the Company or holders of the instruments could realize in a current market exchange.

The carrying amounts of the Company's financial instruments including cash and cash equivalents, prepaid expenses, accounts payable and accrued liabilities approximate fair value due to the short-term maturities of these instruments.

Set out below are the Company's financial instruments that are required to be remeasured at fair value on a recurring basis and their fair value hierarchy as of December 31, 2023:

December 31, 2023	

Level 1			
Level 2			
Level 3			
Carrying Value			
Assets			
Marketable Securities:			
Derivative Assets			

[illegible]

[illegible]

Total Liabilities	\$	414,512
\$	\$	414,512

During the year ended December 31, 2022, the Company had non-derivative warrant liabilities that were measured at fair value on a recurring basis. Each of these fair value measurements was considered to be a Level 3 measurement by the Company as they used significant unobservable inputs, such as the Company's pre-IPO stock price, probability of event occurrence and other management estimates. The key inputs for each of these warrant liabilities were as follows:

Warrant Liability - Series A Preferred Stock Obligation	December 31, 2021	Reclassification Date
Warrant Liability - Series A Preferred Stock Obligation	December 31, 2021	Reclassification Date

Estimated fair value of Company's stock		\$	
40.00		\$	
32.50			
Exercise price (based on estimated IPO or Listing terms at issuance)		\$	
40.00			
166.56		\$	
32.00			
Number of warrants (based on estimated Series A Preferred Stock conversion shares upon IPO or Listing at issuance)

Lessee Leases Policy Text Block

We determine if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use asset ("ROU"), operating lease liability - current, and operating lease liability - noncurrent on the consolidated balance sheets. Finance leases are included in property and equipment, other current liabilities, and other long-term liabilities in our consolidated balance sheets. The Company did not utilize any financing that required recognition of finance leases during the years ended December 31, 2023 and 2022.

ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As our leases do not provide an implicit rate, we use our incremental borrowing rate based on the estimated rate of interest for collateralized borrowing, over a similar term of the lease payments at commencement date. The operating lease ROU asset also includes any lease payments made and excludes lease incentives. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

Leases with a lease term of 12 months or less at inception are not recorded on our consolidated balance sheets and are expensed on a straight-line basis over the lease term in our statement of operations. We have lease agreements with lease and non-lease components, which are generally accounted for separately.

The Company determines the present value of minimum future lease payments for operating leases by estimating a rate of

interest that it would have to pay to borrow on a collateralized basis over a similar term, an amount equal to the lease payments and a similar economic environment (the “incremental borrowing rate” or “IBR”). The Company determines the appropriate IBR by identifying a reference rate and making adjustments that take into consideration financing options and certain lease-specific circumstances. For the reference rate, the Company used an equity built up, risk adjusted rate, as the implicit interest rate.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Expenditures for maintenance and repairs are charged to expense as incurred; additions, renewals and betterments are capitalized. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the straight-line method for substantially all assets with estimated lives as follows:

Schedule of Useful Lives for Property Plant Equipment			
Furniture			5 years
Computers and equipment			5 years
Research Equipment			5 years

Property plant and equipment useful life 10 years

Schedule of Useful Lives for Property Plant Equipment

Furniture					
Computers and equipment					
Research Equipment					
Derivative Financial Instruments					

Derivatives Policy

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to cash flow, market or foreign currency risks. We evaluate all of our financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the consolidated statements of operations.

For our derivative financial instruments, the Company utilizes the most appropriate valuation model (such as Monte Carlo simulations or probability-weighted expected return models, based on the nature of the terms of the instrument) to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the consolidated balance sheet sheets as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within twelve (12) months of the balance sheet date.

Convertible Note Policy

Convertible Notes

The Company evaluates its convertible notes for embedded features and bifurcates these features (such as conversion options and redemption options) from their host instruments and accounts for them as free standing derivative financial instruments if certain criteria are met. The criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not re-measured at fair value under otherwise applicable generally accepted accounting principles with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument.

Warrants

Warrants

white">The Company accounts for warrants as either equity-classified or liability-classified instruments based on an assessment of the warrant's specific terms and applicable authoritative guidance in FASB ASC 480, Distinguishing Liabilities from Equity ("ASC 480") and ASC 815, Derivatives and Hedging ("ASC 815"). The assessment considers whether the warrants are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company's own ordinary shares and whether the warrant holders could potentially require "net cash settlement" in a circumstance outside of the Company's control, among other conditions for equity classification. Finally, the Company determines if the warrants meet the definition of a derivative based on their contractual terms. This assessment, which requires the use of professional judgment, is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

For issued or modified warrants that meet all of the criteria for equity classification, the warrants are required to be recorded as a component of additional paid-in capital at the time of issuance. For issued or modified warrants that do not meet all the criteria for equity classification, the warrants are required to be recorded at their initial fair value on the date of issuance, and at each balance sheet date thereafter. Changes in the estimated fair value of the warrants are recognized as a non-cash gain or loss on the

consolidated statements of operations. The Company also evaluates if changes in contractual terms or other considerations would result in the reclassification of outstanding warrants from liabilities to stockholders' equity (or vice versa).

The fair value of the warrants is estimated using a Black-Scholes pricing model or a Monte Carlo simulation.

Impairment of Long-Lived Assets

The Company reviews its long-lived assets for impairment whenever events or changes in business circumstances indicate that the carrying amount of the asset may not be fully recoverable. Recoverability of assets is measured by a comparison of the carrying amount of an asset to the estimated undiscounted cash flows expected to be generated by the asset. If the carrying amount of the asset exceeds its estimated future cash flows, an impairment charge will be recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. There were no impairments of long-lived assets during the periods presented.

ShareBasedCompensationOptionAndIncentivePlansPolicy_zH6lgVCffzOf"

Stock-Based Compensation

Compensation cost for stock awards, which include restricted stock units ("RSUs"), is measured at the fair value on the grant date and recognized as expense, over the related service or performance period. The fair value of stock awards is based on the quoted price of our common stock on the grant date. Compensation expense related to the RSUs is reduced by the fair value of the units that are forfeited by employees that leave the Company prior to vesting as they occur. Compensation cost for RSUs are recognized using the straight-line method over the requisite service period.

Research and Development Expenses

Research and development expenses are charged to expense as incurred. Research and development expenses include, but are not limited to, product development, clinical and regulatory expenses, payroll and other personnel expenses, which include a certain portion of our chief executive officer, chief operating officer, chief financial officer and directors' compensation. For the year ended December 31, 2023 and 2022, a portion of personnel-related expenses and stock-based compensation expense for these individuals totaling \$0.8 million and \$0.5 million, respectively, was included within research and development due to their active involvement in the research and development activities, materials, supplies, related subcontract expenses, and consulting costs.

Regarding the accounting treatment for reimbursements, GAAP provides limited guidance on the accounting for government grants received by for-profit companies. In accordance with ASC Topic 832, *Government Assistance*, as adopted January 1, 2022, we disclose certain types of government assistance received in the notes to the consolidated financial statements that includes: a) the nature of the transaction including the nature of the assistance being given, b) the accounting policies being used to account for the transaction and c) other provisions of relevance, where required. Depending on the type of grant or contract, we understand there is more than one acceptable alternative for the accounting treatment – a reduction of costs, a

deferred credit to be amortized, revenue or other income. The Company has concluded that reimbursements received for R&D expenses incurred, are more akin to a reduction of costs and applies reimbursements against incurred research costs. For the years ended December 31, 2023 and 2022, we recorded \$3.5 million and \$1.0 million in Research and development, net of contract expense reimbursements, respectively.

Income Taxes

The Company accounts for income taxes in accordance with ASC Topic 740, *Income Taxes*. ASC 740 requires a company to use the asset and liability method of accounting for income taxes, whereby deferred tax assets are recognized for deductible temporary differences, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, the Company does not foresee generating taxable income in the near future and utilizing its deferred tax asset, therefore, it is more likely than not that some portion, or all of, the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Under ASC 740, a tax position is recognized as a benefit only if it is “more likely than not” that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the “more likely than not” test, no tax benefit is recorded. The Company has no material uncertain tax positions for any of the reporting periods presented.

Segment Information

Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">Operating segments are defined as components of an enterprise about which separate and discrete information is available for evaluation by the chief operating decision-maker ("CODM") in deciding how to allocate resources and assess performance. The Company and the Company's CODM, the Company's chief executive officer, evaluates the Company's operations and manages its business as a single operating segment. All of the Company's long-lived assets are held in the United States.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"><i></i></p> <p id="xdx_841_eus-gaap--EarningsPerSharePolicyTextBlock_zsQXKiX1zFa6" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"><i>Net Loss Per Common Stock</i></p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">Net loss per share of common stock requires presentation of basic earnings per common share on the face of the statements of operations for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the basic earnings per share computation. In the accompanying consolidated financial statements, basic loss per common share is computed by dividing net loss attributable to common stockholders by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per share is computed by dividing net income attributable to common stockholders by the weighted average number of shares of common stock outstanding and potentially dilutive shares of common stock during the period to reflect the potential dilution that could occur from common shares issuable through convertible securities, contingent share arrangements, stock options and warrants unless the result would be antidilutive.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">The dilutive effect of restricted stock units and other stock-based payment awards subject to vesting and common stock warrants is calculated using the "treasury stock method," which assumes that the "proceeds" from the exercise of these instruments are used to purchase common shares at the average market price for the period. The dilutive effect of convertible securities is calculated using the "if-converted method." Under the if-converted method, securities are assumed to be converted at the beginning of the period, and the resulting shares of common stock are included in the denominator of the diluted calculation for the entire period being presented.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p> <p id="xdx_89A_eus-gaap--ScheduleOfAntidilutiveSecuritiesExcludedFromComputationOfEarningsPerShareTextBk" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">For the years ended December 31, 2023 and 2022, the following common stock equivalents were excluded from the computation of diluted net loss per share as the result of the computation was anti-dilutive.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">

Recent Accounting Pronouncements

In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," which requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as information on income taxes paid. The guidance is effective for the Company's fiscal years beginning after February 1, 2025, with early adoption permitted. The Company does not expect the adoption of this standard to have any material impact on its financial statements.

There have been no other recent accounting pronouncements, changes in accounting pronouncements or recently adopted accounting guidance during the year ended December 31, 2023 that are of significance or potential significance to the Company.

Note 4 - Leases

The Company had two lease agreements during the year which allowed for the use of laboratory facilities.

The first was for a monthly payment of \$6,480, with a security deposit of \$6,480 held for the duration of the lease, that commenced on October 1, 2018, with the first payment made on January 1, 2019 and ended on October 31, 2023.

On February 16, 2023, the Company entered into a new lease

Note 5

Notes Payable-Related Party

On December 1, 2020, the Company consolidated all of the outstanding loans owed to an officer of the Company and to his spouse, resulting in the following two loans: (i) a single loan from the spouse of an officer of the Company, dated December 1, 2020, with a principal balance of \$426,243, bearing interest at the rate of 7.5% per annum, with a maturity date of December 31, 2021; and (ii) a single loan owed to an officer of the Company in the principal amount of \$139,229, bearing interest at the rate of 7.5% per annum, with a maturity

date of December 31, 2021. DebtInstrumentMaturityDateDescription_c20211201_20211231_zT9SOILu3LFk" title="Debt instrument maturity date description">In December of 2021, the maturity dates of these loans were further extended to June 30, 2022. In July of 2022, the notes were extended to June 30, 2023.

On June 21, 2021, the Company entered into a loan from the spouse of an officer of the Company in the amount of \$120,000 (principal) with an interest rate of 7.5 % per annum due June 21, 2022. In July of 2022, the loan was extended to June 30, 2023.

The Company accounted for these loan extensions during the year ended December 31, 2022, as a troubled debt restructuring as the Company was experiencing financial difficulties and the extensions represented a concession by the lenders. As the future undiscounted cash flows of these related party notes exceeded their carrying value, no gain or loss was recognized upon the extensions.

As of June 30, 2023 principal payments of \$685,473 and interest of \$104,968 were paid. As of December 31, 2023, there were no outstanding principal or interest balances for these related party notes.

On August 1, 2022, in conjunction with a private placement of notes and warrants (as detailed in Note 6 below), in exchange for a \$50,000 payment upon subscription, the Company issued a convertible note to the spouse of an officer of the Company in the amount of \$50,000 (principal) with an interest rate of 50,000 (principal) with an interest rate of

OfficersSpouseMember_z6n2o8Hg614f" title="Interest rate">6% per annum, and warrants to purchase 2,500 shares of common stock. The loan was fully repaid, including \$822 of accrued interest, in September of 2022.</p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt"></p>4262430.0752021-12-311392290.075In December of 2021, the maturity dates of these loans were further extended to June 30, 2022. In July of 2022, the notes were extended to June 30, 2023.1200000.075685473104968050000500000.062500822<p id="xdx_803_eus-gaap--DebtDisclosureTextBlock_zFKpdNkIRYg4" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt">Note 6- Notes Payable</p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">Convertible Notes and Notes Payable</p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"><i>Alto Opportunity Master Fund, SPC</i></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">On January 11, 2023, the Company entered into a securities purchase agreement (the "SPA") with Alto Opportunity Master Fund, SPC--Segregated Master Portfolio B, a Cayman entity (the "Investor"), pursuant to which the Company sold to the Investor a \$4,300,000 convertible note (the "Alto Convertible Note") and warrant (the "Alto Warrant") to purchase 127,260 shares of common stock, exercisable at \$18.80 per share, in exchange for gross proceeds of \$3,935,000 (the "Investment Amount") (See Note 7). The Company determined that the Alto Warrant contains a net cash settlement feature at inception and categorized the Alto Warrant as a liability in the accompanying consolidated financial statements. The Alto Convertible Note matures on March 11, 2025, but may be extended at the option of the noteholder. The Alto Convertible Note amortizes on a monthly basis and the Company can make such monthly amortization payments in cash or, subject to certain equity conditions, in registered shares of

common stock or a combination thereof. Installments may be deferred by the noteholder, resulting in a variable interest rate. However, the effective interest rate is approximately 346 % based on the internal rate of return calculated on a series of cash flows that occur at regular intervals. For equity repayment, the Alto Convertible Note is convertible into shares of common stock at a price per share equal to the lower of (i) \$18.80, (ii) 90% of the three lowest daily VWAPs of the 15 trading days prior to the payment date, or (iii) 90% of the VWAP of the trading day prior to payment date. The noteholder may convert at any time at a fixed price of 18.80 per share. 1,442,000 , using a Monte Carlo simulation model (Note 8). The Convertible Note is repayable over 26 months and bears interest at the rate of 5 % per annum. Additionally, the note contains certain redemption options and “Make Whole” provisions.

</p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">In conjunction with entry into the SPA, the Company entered into a series of related agreements, including a security agreement (the “Security Agreement”), an intellectual property security agreement (the “IP Security Agreement”) and a subsidiary guaranty (the “Subsidiary Guaranty”). The security agreements and guaranty allow, among other things, for the Investor to have a security interest in and place a lien on all of the Company’s assets and intellectual property until such time as the Alto Convertible Note is paid off. In addition, the SPA called for the Company to enter into a springing deposit account control agreement (the “Springing DACA”), which, in the event the Company defaults on its repayment of the Alto Convertible Note, would allow the Investor to assume control of the Company’s bank account only with regard to any funds remaining outstanding under the Alto Convertible Note. As such, in conjunction with entry into the SPA, the Company established a separate bank account in which it deposited the Investment Amount and pursuant to which the Company, the Investor and the bank holding the Investment Amount, First Republic Bank, entered into the Springing DACA agreement. As the Investment Amount had been held at First Republic Bank, in light of certain banking crises then affecting smaller banks, on March 12, 2023, the Company

and the Investor moved the Investment Amount from First Republic Bank, after which time the Springing DACA was no longer in effect. Further, pursuant to amendments to the SPA entered into in May and June of 2023, the Company and the Investor agreed that all of the Investment Amount would be released to the Company and the relevant provision of the SPA which required the Springing DACA would no longer be deemed applicable. In addition, the Company granted the Investor the option to purchase up to an additional \$10 million in convertible notes and warrants on substantially the same terms as the Alto Convertible Note and Alto Warrant, excluding the Springing DACA requirement, with such option to be effective through December 31, 2025. The agreement offers the investor an opportunity to participate in future capital raises at substantially similar terms as the January 11, 2023 agreement. The Company expects that such subsequent convertible notes and warrants would be issued on substantially similar terms as the January 11, 2023 initial agreement, as amended, thus providing the Company the opportunity to negotiate certain aspects of the agreement.

Boustead Securities, LLC (“Boustead”) served as a placement agent for the Alto Convertible Note and Warrant offering and received \$345,000 cash compensation and a warrant to purchase 8,909 shares of common stock, exercisable at \$18.80 per share. The Boustead warrant was determined to be an equity instrument valued on a non-recurring basis. The Company used the Black Scholes valuation model using a term of five years, volatility of 110%, a risk-free rate of 3.53% for a value of \$99,543.

The Company allocated the finance costs related to the Boustead placement agent fee of \$

PaymentForPlacementAgent_c20230101_20231231_dei--LegalEntityAxis__custom--BousteadSecuritiesLLCMember_z1qEjzidygn" title="Payment for placement agent">345,000, based on the relative fair market values of the Convertible Note and warrants issued. The allocation of the financing costs applied \$232,027 to the debt component as a debt discount that is being amortized to interest expense over the term of the Convertible Note, \$104,245 to the warrant derivative liability component, expensed as a finance fee, and \$8,727 to the equity warrant as a reduction in additional paid in capital.</p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">The Company allocated to the debt component of the note an original discount of \$300,000, legal fees of \$65,000, \$215,000 for additional interest fees on day one added to note principal, \$1,442,000 for the accelerated conversion feature, and \$1,288,543 for the fair value of warrants, resulting in an additional \$3,310,543 debt discount that is being amortized to interest expense over the term of the Alto Convertible Note.</p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">During the year ended December 31, 2023, the Company recorded interest expense of \$2,484,193, which included amortization of debt discount as interest expense of \$2,123,049.

During the year ended December 31, 2023, the Company settled \$ of principal and settled \$ of accrued interest, which settlements were made in the form of shares of common stock during the year ended December 31, 2023.

As of December 31, 2023, the outstanding principal for the convertible note was \$ and the debt discount remaining was \$ with a net convertible note carrying value of \$, which represents the current and non-current portions of the convertible note as of December 31, 2023.

Subsequent to December 31, 2023, the Company and the Investor agreed to certain changes in terms of the Alto Convertible Note as well as the waiver of certain covenant violations. See Subsequent Events for further details.

Paycheck Protection Program Term Notes

On March 9, 2021, the Company obtained a \$

issued">73,007 term note issued under the Coronavirus Aid, Relief, and Economic Security Act's Paycheck Protection Program (the "PPP"). The note bore an interest rate of 1% per annum, had a six-month deferral period with payments due on the seventh month, with all outstanding principal and interest due and payable within two years from the note's inception date. Under its terms, all or a portion of the note may be forgiven in accordance with PPP requirements, with no more than 25% of the amount forgiven to be attributable to non-payroll costs. As of December 31, 2021, a "Loan Forgiveness Application" was submitted to PNC Bank along with the requested documentation. Thereafter, during the quarter ended March 31, 2022, the note liability was reduced in its entirety and the Company recognized a gain on forgiveness of \$73,007 in its statement of operations for the year ended December 31, 2022. (as restated)</p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"><i>December 2021 Promissory Notes</i></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"><i>December 2021 Promissory Notes</i></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">On December 28, 2021, the Company issued promissory note units, consisting of an aggregate \$500,000 in 10% unsecured promissory notes with a maturity date of December 28, 2022 (the "December 2021 Promissory Notes") and warrants to purchase 62,500 shares of common stock exercisable at \$8.00 per share with an expiration date of December 28, 2026. The Company received net proceeds of \$494,925 upon the issuance of these promissory note units and incurred \$21,890 in additional issuance costs which were allocated between the December 2021 Promissory Notes and the warrants. The Company assessed the embedded features of the December 2021 Promissory Notes and determined that the accelerated repayment upon an initial public offering represented a derivative feature requiring bifurcation. The Company estimated the fair value of the derivative to be \$367,000 at issuance (see Note 8 for fair value considerations).</p><p style="font: 10pt

Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">The Company determined that the warrants issued with the December 2021 Promissory Notes should be classified as equity. The Company measured the fair value of these warrants using a Black-Scholes model and allocated fair value to these warrants on a relative fair value basis. The proceeds from the December 2021 Promissory Notes allocated to the warrants at issuance was \$418,449. The inputs to the Black-Scholes model included an estimated fair value of the Company's common stock of \$40.00, the exercise price of \$8.00 per share, a five year term, 86.3% volatility and a risk free rate of 1.27%.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">The discount on the December 2021 Promissory Notes was being amortized using the straight-line method as the initial proceeds received were fully allocated to the warrants and bifurcated derivative, through the maturity date of the notes. The Company recognized amortization expense of \$331,978 related to the discount on the December 2021 Promissory Notes as interest expense in its statement of operations for the year ended December 31, 2022.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">In April 2022, the warrants were modified by the Company to nullify the effect of the April 2022 reverse stock split, allowing the warrant to remain outstanding and exercisable for 62,500 shares of common stock at an exercise price of \$8.00 per share. The Company calculated the incremental fair value provided to the holders of the warrants due to the modification as \$941,000, which was recorded as a deemed dividend during the year ended December 31, 2022. The incremental fair value was estimated using a Black-Scholes model, with inputs including the estimated fair value of the Company's common stock of \$<span id="xdx_907_eus-gaap--

During the year ended December 31, 2023, the Company issued:

Common stock issued for conversion of convertible debt, shares 297,625 shares of common stock to settle \$ Debt, principal 1,925,700 of principal and \$	Accrued interest settled with common stock 294,927 of interest on a Convertible Note and incurred \$ Loss on settlement of convertible debt 477,221 of loss on settlement.
Common stock issued for conversion of convertible debt, shares 10,650 shares of common stock issued for vesting of restricted stock units.	

During the year ended December 31, 2022, the Company issued:

	●	
of accrued interest	16.	
of accrued interest		
Common stock vesting of restricted stock unit	3,500	shares of common stock upon vesting of restricted stock units.
Common stock issued for cash, shares	352,443	shares of common stock upon completion of the Company's initial public offering (including the exercise of the underwriter's overallotment option), and the immediate exercise of warrants issued as part of the IPO Units, for net proceeds of \$
Stock issued upon completion	9,951,356	.
Number shares issued for conversion of note, shares	42,113	shares of common stock upon the automatic conversion of preferred shares and
Number shares issued for conversion dividends payable, shares	12,553	shares of common stock to settle cumulative dividends on the preferred shares totaling \$
Common stock issued for dividends payable	402,064	.
	●	

A total of 36,876 shares of common stock issued to the lenders upon conversion of the 2022 Convertible Notes, including 18,438 shares of common stock issued upon the conversion of the 2022 Convertible Notes into units with an estimated fair value of \$ 18,438 at settlement, and 18,438 shares of common stock upon the exercise of the common stock warrants, for total proceeds of \$ 1,475.	
A total of 66,250 shares of common stock upon the exercise of warrants and settlement of the December 2021 Notes and certain August 2022 Notes . Includes 62,500 shares of common stock issued upon the exercise and settlement of the December 2021 Notes with an estimated fair value of \$ 2,031,249 and 3,750 shares of common stock issued upon the exercise and settlement of certain August 2022 Notes with an estimated fair value of \$ 121,875.	

439,427, which increases net loss attributable to common stockholders during the year ended December 31, 2022.

During the year ended December 31, 2022 and upon completion of its initial public offering, the Company converted 1,213 shares of Series A Preferred Stock into 42,113 shares of common stock, based on a conversion price of 90% of the per share IPO price of \$32.00 per share, resulting in a discounted conversion price of \$28.80 per share. Based on the nature of the settlement (as the exercise of a share-settled redemption feature) the Company recognized a deemed contribution of \$31,423 during the year ended December 31, 2022.

During the year ended December 31, 2022, the Company accrued \$71,009 for the

Cumulative dividends percentage 8.5% cumulative dividends on the Series A Preferred stock, and as of the date of conversion of the Series A Preferred Stock, the total cumulative dividends accrued were equal to \$8.5

SubsidiarySaleOfStockAxis__us-gaap--IPOMember_zuSkbBGJR2bd" title="Stock issued for conversion, value">402,064

Upon the conversion of the Series A Preferred Stock, the cumulative dividends were also converted into **12,553** shares of the Company's common stock.

As of December 31, 2023 and 2022, the Company had no shares of Series A Preferred Stock outstanding.

Warrants

The Series A Preferred Stock sold in the Company's 2018 and 2019 private placement offerings included warrants to be issued upon the earlier of a closing of the sale of shares of common stock to the public or upon a listing of the Company's common stock. The warrants will be exercisable for a period of three years after the date of issuance at an exercise price contingent on the terms of the public offering. The initial form of the warrants were expected to include contingent call features based on the terms of the public offering. As originally drafted, if an initial public offering occurs at a price at or above \$**111.04**, then the warrants are callable if the 20-day VWAP of the common stock is at or above 150% of the variable exercise price. In the scenario where the common stock is listed with a common stock issuance price below \$**111.04**, then the warrants are callable if the 20-day VWAP of the common stock is at or above the \$**166.56** exercise price. Upon the issuance of the warrants in September 2022, the contingent call features were not included in the agreements. Given the variability in the number of warrants and exercise price, the detachable warrants contained terms and features that gave rise to liability classification.

In April 2022, the Company modified the terms of the Series A Preferred Stock as discussed above. These modifications impacted the potential terms of these contingently issuable warrants (potential warrant shares and exercise price). The impact of this modification was reflected in the fair value of the warrant obligation recorded during the interim periods within the year ended December 31, 2022. Upon completion of our initial public offering, the Series A Preferred Stock was converted, and warrants were issued in relation to the conversion, with each warrant then exercisable at the equivalent of the per share initial public offering price. In total, the Company issued warrants to purchase

	42,113 shares of common stock, at an exercise price		32.00 per share in settlement of this warrant obligation.			
In addition, upon the issuance of these warrants, the Company reassessed the classification accounting and concluded that the issued warrants met the requirements for classification in stockholders' equity. The Company reclassified the then fair value of these warrants, totaling \$	756,723, to additional paid in capital in stockholders' equity.</p> <p style="font-family: Times New Roman, Times, Serif; font-size: 10pt"></p> <p style="font-family: Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p> The warrant liability related to the Series A Preferred Stock was \$	0 as of December 31, 2022. For the period ended December 31, 2022 (prior to reclassification), the change in fair value of warrant obligation liability was a loss of 	421,768.</p> <p style="font-family: Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p> <p style="font-family: Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p> <p style="font-family: Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p> <p style="font-family: Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p> <p style="font-family: Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"><i>Warrants Issued to Boustead as Placement Agent or Underwriter</i></p> <p style="font-family: Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p> <p style="font-family: Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">For services provided in relation to the 2022 Convertible Notes and August 2022 Notes offerings, Boustead received warrants to purchase 	10% of the shares of common stock issuable upon

conversion of the 2022 Convertible Notes, at the conversion price of the notes. Upon conversion, the warrant became exercisable for a total of shares of common stock at an exercise price of \$ per share. These warrants were accounted for under ASC 718 and classified as liabilities due to the fact that the conversion of the 2022 Convertible Notes would impact their fair value. These warrants were exercised on a cashless basis in September 2022. The Company reclassified the then fair value of the warrants of \$ at the initial public offering to equity, with the estimated fair value based on a Black-Scholes model, with inputs that included an estimated fair value of the Company's common stock of \$, an exercise price of \$ per share, a remaining term of years, shares of common stock at an exercise price of \$ per share. These warrants were classified in equity and exercised on a cashless basis in September 2022. </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">Boustead additionally received a warrant to purchase shares of common stock at an exercise price of \$ per share upon the closing of the IPO. These warrants were classified in equity and exercised on a cashless

basis in September 2022. Upon the closing of the overallotment option to the IPO, Boustead received an additional warrant to purchase

five-year term, ShareBasedCompensationArrangementByShareBasedPaymentAwardFairValueAssumptio

The warrants will be exercisable for a period of three years after the date of issuance at an exercise price contingent on the terms of the public offering. The initial form of the warrants were expected to include contingent call features based on the terms of the public offering. As originally drafted, if an initial public offering occurs at a price at or above \$111.04, then the warrants are callable if the 20-day VWAP of the common stock is at or above 150% of the variable exercise price. In the scenario where the common stock is listed with a common stock issuance price below \$111.04, then the warrants are callable if the 20-day VWAP of the common stock is at or above the \$166.56 exercise price. Upon the issuance of the warrants in September 2022, the contingent call features were not included in the agreements. Given the variability in the number of warrants and exercise price, the detachable warrants contained terms and features that gave rise to liability classification.111.04111.04166.564211332.0075672304217680.10258216.006414032.5<td id="xdx_896_eus-gaap--ScheduleOfStockholdersEquityNoteWarrantsOrRightsTextBlock_zYUyrflizBO8" style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">A summary of activity regarding all warrants issued for the year ended December 31, 2023 and 2022 were as follows:</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> Schedule of Warrants Activity</p> <table cellpadding="0" cellspacing="0" style="font: 10pt Times New Roman, Times, Serif; border-collapse: collapse; width: 100%"> <tr style="font: 10pt Times New Roman, Times, Serif; vertical-align: bottom"> <td style="font: 10pt Times New Roman, Times, Serif; text-align: left"> </td><td style="font: 10pt Times New Roman, Times, Serif; text-align: center"> </td> <td colspan="2" style="font: 10pt

Note 8 - Derivative Liabilities

Fair Value Assumptions Used in Accounting for Derivative Liabilities

ASC 815 requires us to assess the fair market value of derivative liabilities at the end of each reporting period and recognize any change in the fair market value as other income or expense.

Alto Opportunity Master Fund, SPC

Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">In January 2023, in connection with the Alto Convertible Note, the Company issued warrants to purchase 127,260 shares of common stock, with an exercise price of \$18.80 per share, valued at inception at \$1,189,000 and as of December 31, 2023, at \$410,660. The Company determined our derivative liabilities from the warrants issued in relation to the Alto Convertible Note do not satisfy the classification as equity instruments due to the existence of a certain net cash settlement provision that is not within the sole control of the Company. In addition, there are certain down round provisions that could reduce the exercise price if the Company issues securities at lower prices in the future.</p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">The Company determined our derivative liability from the noteholder's Acceleration Option for the Alto Convertible Note is not clearly and closely related to the host and should be thus accounted for as a bifurcated derivative liability.</p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"></p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">We classified these derivative liabilities as a Level 3 fair value measurement and used the Monte Carlo pricing model to calculate the fair value as of January 11, 2023, and for each reporting period. Key inputs for the simulation are summarized below. The Monte Carlo simulation uses an implied VWAP for each valuation date. The implied VWAP was backsolved by setting the summation of the parts (e.g., derivatives and debt without derivatives) equal to the cash proceeds. The simulation was then iterated and manipulated to solve for the implied share price, which was approximately \$12.64per share (or an approximate 14% discount to the quoted market VWAP on January 11, 2023). Additionally, the Company estimates probability for various specific scenarios impacting the warrant valuation.</p><p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: center"></p><p id="xdx_896_eus-gaap--

AugustTwoThousandTwentyTwoNotesMember_ziGGYyZ5pmTh" style="font: 10pt Times

In connection with the issuance of the August 2022 Convertible Notes, the Company identified certain embedded features that required bifurcation as a combined derivative liability, including the share-settled redemption of the 2022 Convertible Notes at a 50% discount and the automatic increase in principal of 10% if conversion does not occur within 12 months. Key inputs for this valuation model are summarized below:

2022 Convertible Notes derivative key valuation inputs*	Issuance Dates	Settlement Date	Estimated IPO date	Probability of default
			8/31/2022	50%
			9/2/2022

In assessing the realization of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the assessment, management has established a full valuation allowance against all of the deferred tax asset relating to NOLs for every period because it is more likely than not that all of the deferred tax asset will not be realized.</p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify"> </p> <p style="font: 10pt Times New Roman, Times, Serif; margin-top: 0pt; margin-bottom: 0pt; text-align: justify">NOLs created prior to 2018 could be carried back two years and carried forward 20 years. As amended by the Tax Cuts and Jobs Act of 2017 (TCJA), NOLs created after 2017 can no longer be carried back and are instead carried forward indefinitely. The Company has \$139,813 and \$238,380 of federal NOL carryforwards from 2016 and 2017, respectively, which begin to expire in 2036. The Company has an additional \$<span id="xdx_907_eus-gaap--

9,945,692	
29,402,533	
Accumulated deficit	
(13,847,112)	
(9,945,692)	
(23,792,804)	

The Reverse Stock Split (Note 1) also resulted in an adjustment to the condensed consolidated balance sheet for the period ended September 30, 2023 with an increase to additional paid-in capital of \$140 and an offsetting adjustment to the carrying value of common stock.

The adjustments did not have an effect on the consolidated statement of operations or cash flows for the three fiscal quarters of 2023.

The Company has included its restated quarterly unaudited consolidated financial information for the interim periods ended March 31, 2023 and June 30, 2023 within Form 10-Q/A for the period ended March 31, 2024 and Form 10-Q for the period ended June 30, 2024, respectively, filed concurrent with this Form 10-K/A.

Schedule of Quarterly Financial Data

The restated consolidated balance sheet line items for the third fiscal quarter of 2023 are as follows:

stock split, should such action be required. On August 6, 2024, the Company filed a certificate of amendment to its certificate of incorporation, effective August 13, 2024, to effectuate a one-for-eight reverse stock split of its issued and outstanding common stock, rounding up to account for any fractional shares (the "Reverse Stock Split"). The Reverse Stock Split had no effect on the Company's authorized shares of common stock or preferred stock. Following the reverse stock split on August 13, 2024, the Company had a total of shares issued and outstanding (or on a post-split basis as of December 31, 2024) and trades under the new CUSIP number 925693302. All common stock share, option, warrant and per share amounts (except our authorized but unissued shares) have been retroactively restated in these consolidated financial statements and related disclosures. Following the Reverse Stock Split, on August 27, 2024, the Company received a written notice from Nasdaq informing the Company that it has regained compliance with the Bid Price Requirement for continued listing on the Nasdaq Capital Market.

FDA Approval to Proceed with Phase II study of Ropidoxuridine (IPdR)

The Phase II clinical trial was also approved by the Institutional Review Board "IRB" on June 21, 2024. On August 8, 2024, the Company entered into a work order (the "Work Order") with Theradex Systems, Inc., a New Jersey contract research organization ("CRO") for purposes of supporting the Company's Phase II Study of Ropidoxuridine as a Radiation Sensitizing Agent During Radiotherapy in Patients with Newly Diagnosed IDH-Wildtype Glioblastoma with Unmethylated MGMT Promotor." As such, Shuttle Pharma is now in the process of signing up six clinical sites where the clinical studies will be performed – two of which have completed initial site initiation visits and one of which is ready to enroll patients – and where the CRO will oversee such studies. Under the terms of the Work Order, the CRO will oversee the studies for a period of 53 months (the "Term"), including overseeing

and monitoring the regulatory aspects of the Phase II clinical trial, and managing the documentation surrounding the clinical trial in exchange for a fee of approximately \$2.3 million, payable in stages and based upon services performed during the Term of the study.

Effective February 7, 2024, the Company and its wholly-owned subsidiary, Shuttle Diagnostics, Inc., entered into a securities purchase agreement (the "Purchase Agreement") with SRO, LLC, a Nevada limited liability company, pursuant to which SRO LLC agreed to commit to purchasing from the Company \$

SaleOfStockConsiderationReceivedPerTransaction_c20240207_20240207_us-gaap--SubsequentEventTypeAxis_us-gaap--SubsequentEventMember_zJDnbJVCiHRk"	2,250,000	of units from the Company, with each Unit consisting of
ShareBasedCompensationArrangementByShareBasedPaymentAwardDescription_c20240207_20240207_us-gaap--SubsequentEventTypeAxis_us-gaap--SubsequentEventMember_zUwwlJvcREg6"	(i) one share of SHPH common stock,	
	(ii) a warrant to purchase one share of SHPH common stock exercisable at a purchase price of \$18.80 per share, and	
	(iii) a percentage of equity interest in Diagnostics such that, assuming the sale of all \$2,250,000 of Units, SRO LLC will own a 22% interest in Diagnostics.	

Pursuant to the terms of the Purchase Agreement, the Units will be sold at a per Unit price equal to 90% of the VWAP of SHPH common stock for the five trading days immediately preceding closing. The parties entered into the Purchase Agreement in anticipation of the Company commencing a rights offering (the "Rights Offering") pursuant to which the Company intends to offer a total of \$

ProceedsFromIssuanceOfCommonStock_c20240207_20240207_us-gaap--SubsequentEventTypeAxis_us-gaap--SubsequentEventMember_zlQLd9zaTDXg"	4,500,000	Units to existing stockholders, which includes the \$
SaleOfStockConsiderationReceivedPerTransaction_c20240207_20240207_us-gaap--SubsequentEventTypeAxis_us-gaap--SubsequentEventMember_zEVUQW1Y2LFg"	2,250,000	Units being sold to SRO LLC, an entity which is owned by Keith Moore, CEO of Boustead Securities, LLC ("BSL").

The Purchase Agreement allows SRO LLC up to 60 days to raise the initial \$

EscrowDeposit_il_c20240207_us-gaap--SubsequentEventTypeAxis_us-gaap--SubsequentEventMember_us-gaap--TypeOfArrangementAxis_custom--PurchaseAgreementMember_zeJXcEGJ6F95"	2,250,000	, which funds will be placed in escrow with Sutter Securities, Inc. ("SSI"), an affiliate of BSL, pursuant to the terms of an escrow agreement entered into between the Company, Shuttle Diagnostics, Inc., BSL and SSI on February 7, 2024 (the "Escrow Agreement"). The funds will remain in escrow up until closing on the Rights Offering. In addition, in the event the Company fails to raise

a full \$ in the Rights Offering, SRO LLC agreed to a backstop commitment pursuant to which it would have the right to purchase any remaining Units not purchased by existing SHPH stockholders in the Rights Offering, up to an additional \$ (the "Back-up Contingency").

Restricted Stock Awarded to Chief Financial Officer

On March 8, 2024, the Company's then CFO was awarded restricted stock units ("RSUs"), with a value of \$, with such RSUs vesting in full as of the date of issuance. Each RSU represents the right to receive one share of SHPH common stock.

Restricted Stock Awarded to Chief Financial Officer

On June 13, 2024, the Company's newly appointed CFO was awarded restricted stock units ("RSUs"), with a value of \$, with such RSUs vesting annually in three equal installments following the date of issuance. Each RSU represents the right to receive one share of SHPH common stock.

Alto Opportunity Master Fund, SPC

On July 12, 2024, the Company informed the Investor in the Alto Convertible Note that the Company's expected restatement of its consolidated financial statements for the years ended December 31, 2022 and 2023 constituted an event of default under the terms of the Alto Convertible Note. On August 6, 2024, the Company paid \$600,000 to the Investor, which funds will be held as collateral to the balance owed under the Alto Convertible Note, and received a waiver from the Investor related to the default.
