On February 2, 2024, pursuant to the terms of the indenture governing the 8.75% 2025 Notes, the Company elected to exercise its option to extend the maturity date of the 8.75% 2025 Notes from March 31, 2024 to March 31, 2025. Net proceeds from this offering were used to make investments in middle-market companies (including investments made through the SBIC Subsidiaries) in accordance with the Companyâ€™s investment objective and strategies and general corporate purposes. Financing costs and discounts of $0.7 million related to the 8.75% 2025 Notes have been capitalized and are being amortized over the term of the 8.75% 2025 Notes. [2] Total amount of senior securities outstanding at the end of the period presented. [3] We have excluded ourÂ SBA-guaranteedÂ debentures from this table because the SEC has granted us exemptive relief that permits us to exclude such debentures from the definition of senior securities in the 150% asset coverage ratio we are required to maintain under the 1940 Act. [4] Asset coverage per unit is the ratio of our total assets, less all liabilities and indebtedness not represented by senior securities, to the aggregate amount of senior securities representing indebtedness. Asset coverage per unit is expressed in terms of dollar amounts per $1,000 of indebtedness, calculated on a total basis. [5] The amount to which such class of senior security would be entitled upon the involuntary liquidation of the issuer in preference to any security junior to it. The â€œâ€ indicates information which the Securities and Exchange Commission expressly does not require to be disclosed for certain types of senior securities. [6] Not applicable for credit facility because not registered for public trading. [7] On October 4, 2021, the Company repaid all remaining amounts outstanding under the Madison Credit Facility and the credit agreement relating to the Madison Credit Facility was terminated. [8] On JanuaryÂ 13, 2017, the Company redeemed in full its 2020 Notes. The Company used a portion of the net proceeds from the 2023 Notes offering, which was completed in December 2016, to redeem the 2020 Notes in full. [9] Based on the average daily trading price of the 2020 Notes on the NYSE. [10] On December 21, 2019 and February 7, 2020, the Company redeemed $50.0 million and $24.45 million, respectively, in aggregate principal amount of the $74.45 million in aggregate principal amount of issued and outstanding 2023 Notes. [11] Based on the average daily trading price of the 2023 Notes on the NYSE. [12] The carrying value of this unlisted security approximates its fair value, based on a waterfall analysis showing adequate collateral coverage. [13] On August 31, 2021, the Company redeemed $60.0 million in aggregate principal amount of the issued and outstanding 6.25% 2025 Notes. The Company used a portion of the net proceeds from the 4.375% 2026 Notes offering, which was completed in July 2021, to redeem the 6.25% 2025 Notes in full. [14] Based on the average daily trading price of the 2025 Notes on the NYSE. [15] On July 14, 2022, the Company redeemed $43.1 million in aggregate principal amount of the issued and outstanding 7.25% 2025 Notes. [16] Based on the average daily trading price of the 2027 Notes on the NYSE. [17] Based on the average daily trading price of the 2028 Notes on the NYSE. USD ($) $ in Millions Nov. 30, 2024 Feb. 29, 2024 Commitments and Contingencies [Line Items] Â Â Off-balance sheet arrangements $ 128.1 $ 132.4 Cash and cash equivalents 147.6 Â Available borrowings credit facility 86.4 Â Encina Credit Facility [Member] Â Â Commitments and Contingencies [Line Items] Â Â Available borrowings credit facility 32.5 Â Credit facility $ 55.0 Â X - DefinitionCash includes currency on hand as well as demand deposits with banks or financial institutions. It also includes other kinds of accounts that have the general characteristics of demand deposits in that the customer may deposit additional funds at any time and effectively may withdraw funds at any time without prior notice or penalty. Cash equivalents, excluding items classified as marketable securities, include short-term, highly liquid Investments that are both readily convertible to known amounts of cash, and so near their maturity that they present minimal risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less qualify under that definition. Original maturity means original maturity to the entity holding the investment. For example, both a three-month US Treasury bill and a three-year Treasury note purchased three months from maturity qualify as cash equivalents. However, a Treasury note purchased three years ago does not become a cash equivalent when its remaining maturity is three months. Short-term investments, exclusive of cash equivalents, generally consist of marketable securities intended to be sold within one year (or the normal operating cycle if longer) and may include trading securities, available-for-sale securities, or held-to-maturity securities (if maturing within one year), as applicable. + ReferencesReference 1: http://www.xbrl.org/2009/role/commonPracticeRef -Topic 210 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(9)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1 + Details Name: us-gaap_CashCashEquivalentsAndShortTermInvestments Namespace Prefix: us-gaap_ Data Type: xbrli:monetaryItemType Balance Type: debit Period Type: instant X - DefinitionAmount of borrowing capacity currently available under the credit facility (current borrowing capacity less the amount of borrowings outstanding). + ReferencesReference 1: http://www.xbrl.org/2003/role/disclosureRef -Topic 470 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 6 -Subparagraph (b) -Publisher FASB -URI https://asc.fasb.org/1943274/2147481544/470-10-50-6Reference 2: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 210 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(22)(b)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1Reference 3: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 210 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(19)(b)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1 + Details Name: us-gaap_LineOfCreditFacilityRemainingBorrowingCapacity Namespace Prefix: us-gaap_ Data Type: xbrli:monetaryItemType Balance Type: credit Period Type: instant X - DefinitionThe carrying value as of the balance sheet date of the current portion of long-term obligations drawn from a line of credit, which is a bank's commitment to make loans up to a specific amount. Examples of items that might be included in the application of this element may consist of letters of credit, standby letters of credit, and revolving credit arrangements, under which borrowings can be made up to a maximum amount as of any point in time conditional on satisfaction of specified terms before, as of and after the date of drawdowns on the line. Includes short-term obligations that would normally be classified as current liabilities but for which (a) postbalance sheet date issuance of a long term obligation to refinance the short term obligation on a long term basis, or (b) the enterprise has entered into a financing agreement that clearly permits the enterprise to refinance the short-term obligation on a long term basis and the following conditions are met (1) the agreement does not expire within 1 year and is not cancelable by the lender except for violation of an objectively determinable provision, (2) no violation exists at the BS date, and (3) the lender has entered into the financing agreement is expected to be financially capable of honoring the agreement. + ReferencesReference 1: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 210 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(19)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1Reference 2: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 942 -SubTopic 210 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.9-03(13)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147478546/942-210-S99-1 + Details Name: us-gaap_LinesOfCreditCurrent Namespace Prefix: us-gaap_ Data Type: xbrli:monetaryItemType Balance Type: credit Period Type: instant X - DefinitionAmount of expected credit loss for credit exposure on off-balance-sheet commitment, including but not limited to, loan commitment, standby letter of credit, financial guarantee not accounted for as insurance. [2] The continuous issuance of common stock may cause an incremental decrease in NAV per share due to the sale of shares at the then prevailing public offering price and the receipt of net proceeds per share by the Company less than NAV per share on each subscription closing date. The per share data was derived by computing (i) the sum of (A) the number of shares issued in connection with subscriptions and/or distribution reinvestment on each share transaction date multiplied by (B) the differences between the net proceeds per share and the NAV per share on each share transaction date, divided by (ii) the total shares outstanding during the period. [3] The Manager agreed to reimburse the Company to the extent the per share price of the shares to the public, less underwriting fees, was less than net asset value per share. [4] Represents the anti-dilutive impact on the NAV of the Company due to the repurchase of common shares. [5] Represents the dilutive effect of issuing common stock below NAV per share during the period in connection with the satisfaction of the Companyâ€™s annual RIC distribution requirement and may include the impact of the different share amounts used for different items (weighted average basic common shares outstanding for the corresponding year and actual common shares outstanding at the end of the year) in the per common share data calculation and rounding impacts. See Note 13. Dividend. [6] Ratios are not annualized. [7] Total investment return is calculated assuming a purchase of common shares at the current market value on the first day and a sale at the current market value on the last day of the periods reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the DRIP. Total investment return does not reflect brokerage commissions. [8] Total investment return is calculated assuming a purchase of common shares at the current NAV on the first day and a sale at the current net asset value on the last day of the periods reported. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the DRIP. Total investment return does not reflect brokerage commissions. [9] Ratios are annualized.Â Â Incentive management fees included within the ratio are not annualized. [10] Certain prior period amounts have been reclassified to conform to current period presentation. [11] Ratios are annualized. [12] Portfolio turnover rate is calculated using the lesser of year-to-date sales or year-to-date purchases over the average of the invested assets at fair value. [13] Asset coverage ratio per unit is the ratio of the carrying value of our total consolidated assets, less all liabilities and indebtedness not represented by senior securities, to the aggregate amount of senior securities representing indebtedness. Asset coverage ratio per unit is expressed in terms of dollar amounts per $1,000 of indebtedness. Asset coverage ratio per unit does not include unfunded commitments. The inclusion of unfunded commitments in the calculation of the asset coverage ratio per unit would not cause us to be below the required amount of regulatory coverage. [14] The Revolving Credit Facilities, SBA Debentures, 8.75% Notes Payable 2025, 7.00% Notes Payable 2025, 7.75% Notes Payable 2025, 4.375% Notes Payable 2026, 4.35% Notes Payable 2027 and 6.25% Notes Payable 2027 are not registered for public trading. [15] On July 14, 2022, the Company redeemed $43.1 million in aggregate principal amount of the $43.1 million in aggregate principal amount of issued and outstanding 7.25% 2025 Notes and are no longer listed on the NYSE. "Cash, Cash Equivalents, and Short-Term Investments", "documentation": "Cash includes currency on hand as well as demand deposits with banks or financial
institutions. It also includes other kinds of accounts that have the general characteristics of demand deposits in that the customer may deposit additional funds at any
time and effectively may withdraw funds at any time without prior notice or penalty. Cash equivalents, excluding items classified as marketable securities, include short-
term, highly liquid investments that are both readily convertible to known amounts of cash, and so near their maturity that they present minimal risk of changes in value
because of changes in interest rates. Generally, only investments with original maturities of three months or less qualify under that definition. Original maturity means
original maturity to the entity holding the investment. For example, both a three-month US Treasury bill and a three-year Treasury note purchased three months from
maturity qualify as cash equivalents. However, a Treasury note purchased three years ago does not become a cash equivalent when its remaining maturity is three
months. Short-term investments, exclusive of cash equivalents, generally consist of marketable securities intended to be sold within one year (or the normal operating
```

cycle if longer) and may include trading securities, available-for-sale securities, or held-to-maturity securities (if maturing within one year), as applicable." } } }, "auth_ref": [ "r1081" ] }, "us-gaap_CashCashEquivalentsRestrictedCashAndRestrictedCashEquivalents": { "xbrltype": "monetaryItemType", "nsuri": "http://fasb.org/us-gaap/2024", "localname": "CashCashEquivalentsRestrictedCashAndRestrictedCashEquivalents", "crdr": "debit", "calculation": { "http://www.saratogainvestmentcorp.com/role/ScheduleofReconciliationofCashandCashEquivalentsandCashandCashEquivalentsTable": { "parentTag": null, "weight": null, "order": null, "root": true } }, "presentation": [ "http://www.saratogainvestmentcorp.com/role/ConsolidatedCashFlow", "http://www.saratogainvestmentcorp.com/role/ScheduleofReconciliationofCashandCashEquivalentsandCashandCashEquivalentsTable" ], "lang": { "en-us": { "role": { "periodStartLabel": "CASH AND CASH EQUIVALENTS AND CASH AND CASH EQUIVALENTS, RESERVE ACCOUNTS, BEGINNING OF PERIOD", "periodEndLabel": "CASH AND CASH EQUIVALENTS AND CASH AND CASH EQUIVALENTS, RESERVE ACCOUNTS, END OF PERIOD (See note 2)", "totalLabel": "Total cash and cash equivalents and cash and cash equivalents, reserve accounts", "label": "Cash, Cash Equivalents, Restricted Cash, and Restricted Cash Equivalents", "documentation": "Amount of cash and cash equivalents, and cash and cash equivalents restricted to withdrawal or usage.
