Notes to Consolidated Financial Statements (unaudited)

1. Basis of Presentation and Summary of Significant Accounting Policies

The accompanying interim consolidated financial statements of Netflix, Inc. and its wholly owned subsidiaries (the "Company") have been prepared in conformity with accounting principles generally accepted in the United States ("U.S.") and are consistent in all material respects with those applied in the Company's Annual Report on Form 10-K for the year ended December 31, 2022 December 31, 2023 filed with the Securities and Exchange Commission (the "SEC") on January 26, 2023 January 26, 2024. The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and judgments that affect the amounts reported in the consolidated financial statements and accompanying notes. Significant items subject to such estimates and assumptions include the amortization of content assets and the recognition and measurement of income tax assets and liabilities. The Company bases its estimates on historical experience and on various other assumptions that the Company believes to be reasonable under the circumstances. On a regular basis, the Company evaluates the assumptions, judgments and estimates. Actual results may differ from these estimates.

The interim financial information is unaudited, but reflects all normal recurring adjustments that are, in the opinion of management, necessary to fairly present the information set forth herein. The interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2022 December 31, 2023. Interim results are not necessarily indicative of the results for a full year.

The following is provided to update the Company's significant accounting policies previously described in the Company's Annual Report on Form 10-K for the year ended December 31, 2022 December 31, 2023.

Derivative Financial Instruments

The Company uses derivative instruments to manage foreign exchange risk related to its ongoing business operations with the primary objective of reducing operating income earnings and cash flow volatility associated with fluctuations in foreign exchange rates.

The Company recognizes derivative instruments at fair value as either assets (presented in "Other current assets" and "Other non-current assets") or liabilities (presented in "Accrued expenses and other liabilities" and "Other non-current liabilities") on the Company's Consolidated Balance Sheets. The Company classifies derivative instruments in the Level 2 category within the fair value hierarchy.

Cash flow hedges

The Company enters into forward contracts to manage the foreign exchange risk on forecasted revenue transactions denominated in currencies other than the U.S. dollar, as well as the foreign exchange risk on forecasted transactions and firm commitments related to the licensing and production of foreign currency-denominated content assets. These forward contracts are designated as cash flow hedges of foreign currency firm commitments and forecasted transactions and generally have maturities of 24 months or less. The hedging contracts may reduce, but do not entirely eliminate, the effect of foreign currency exchange movements, and the Company may choose not to hedge certain exposures.

The Company recognizes derivative instruments at fair value as either assets (presented in "Other current assets" and "Other non-current assets") or liabilities (presented in "Accrued expenses and other liabilities" and "Other non-current liabilities") on the Company's Consolidated Balance Sheets. The Company classifies derivative instruments in the Level 2 category within the fair value hierarchy.

The gain or loss on derivative instruments designated as cash flow hedges of forecasted foreign currency revenue is initially reported as a component of accumulated other comprehensive income ("AOCI") and reclassified into "Revenues" on the Consolidated Statements of Operations in the same period the forecasted transaction affects earnings. The gain or loss on derivative instruments designated as cash flow hedges of firmly committed or forecasted transactions related to the licensing and production of content assets is initially reported as a component of AOCI and reclassified into "Cost of Revenues" on the Consolidated Statements of Operations in the same period the hedged transaction affects earnings, which occurs as the underlying hedged content assets are amortized. Cash flows from hedging activities are classified in the same category as the cash flows for the underlying item being hedged within "Net cash provided by (used in) operating activities" on the Consolidated Statements of Cash Flows.

In the event that the likelihood of occurrence of the underlying forecasted transactions is determined to be probable not to occur, the gains or losses on the related cash flow hedges are reclassified from AOCI to "Interest and other income (expense)" in the Consolidated Statements of Operations in the period of redesignation.

Derivative instruments not designated as hedging instruments

The Company enters into forward contracts to manage the foreign exchange risk on intercompany transactions and monetary assets and liabilities that are not denominated in the functional currencies of the Company and its subsidiaries. These derivative instruments are not designated as hedging instruments and may reduce, but do not entirely eliminate, the effect of foreign currency exchange movements. The gain or loss on derivative instruments not designated as hedging instruments are recorded in "Interest and other income (expense)" in the Consolidated Statements of Operations. Cash flows related to these derivative instruments are classified within "Net cash provided by operating activities" on the Consolidated Statements of Cash Flows.

See Note 7 *Derivative Financial Instruments* to the consolidated financial statements for further information regarding the Company's derivative financial instruments.

Stock-based Compensation

The Company grants non-qualified stock options to its employees on a monthly basis. For certain executive officers, the Company grants restricted stock units ("RSUs") and performance-based restricted stock units ("PSUs"). Stock-based compensation expense is based on the fair value of the stock awards at the grant date and is recognized, net of forfeitures, over the requisite service period. See Note 9 *Stockholders' Equity* to the consolidated financial statements for further information regarding stock-based compensation.

Recently issued accounting pronouncements not yet adopted

In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, which requires public entities to disclose information about their reportable segments' significant expenses and other segment items on an interim and annual basis. Public entities with a single reportable segment are required to apply the disclosure requirements in ASU 2023-07, as well as all existing segment disclosures and reconciliation requirements in ASC 280 on an interim and annual basis. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and for interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact of adopting ASU 2023-07.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, which requires public entities, on an annual basis, to provide disclosure of specific categories in the rate reconciliation, as well as disclosure of income taxes paid disaggregated by jurisdiction. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact of adopting ASU 2023-09.

2. Revenue Recognition

The Company's primary source of revenues is from monthly membership fees. Members are billed in advance of the start of their monthly membership and revenues are recognized ratably over each monthly membership period. Revenues are presented net of the taxes that are collected from members and remitted to governmental authorities. The Company is the principal in all its relationships where partners, including consumer electronics ("CE") manufacturers, multichannel video programming distributors ("MVPDs"), mobile operators and internet service providers ("ISPs"), provide access to the service as the Company retains control over service delivery to its members. Typically, payments made to the partners, such as for marketing, are expensed. However, if there is no distinct service provided in exchange for the payments made to the partners or if the price that the member pays is established by the partners and there is no standalone price for the Netflix service (for instance, in a bundle), these payments are recognized as a reduction of revenues.

The Company also earns revenue from advertisements presented on its streaming service, consumer products and various other sources. Revenues earned from sources other than monthly membership fees were not material for the three and nine months ended September 30, 2023 and September 30, 2022.

The following tables summarize streaming revenues, paid net membership additions (losses), and ending paid memberships by region for the three and nine months ended September 30, 2023 March 31, 2024 and September 30, 2022 March 31, 2023, respectively. Hedging gains and losses are included in "Streaming revenues" for the three months ended March 31, 2024. No hedge gains and losses were recognized as "Streaming revenues" in the comparative prior year period. See Note 7 *Derivative Financial Instruments* for further information.

(1) A paid membership (also referred to as a paid subscription) is defined as a membership that has the right to receive Netflix service following sign-up and a method of payment being provided, and that is not part of a free trial or certain other promotions that may be offered by the Company to new or rejoining members. Certain members have the option to add extra member sub accounts. These extra member sub accounts are not included in paid memberships. A membership is canceled and ceases to be reflected in the above metrics as of the effective cancellation date. Voluntary cancellations generally become effective at the end of the prepaid membership period. Involuntary cancellations, as a result of a failed method of payment, become effective immediately. Memberships are assigned to territories based on the geographic location used at time of sign-up as determined by the Company's internal systems, which utilize industry standard geo-location technology.

Total U.S. revenues, inclusive of DVD revenues not reported in the tables above, were \$3.5 billion and \$10.1 billion, respectively, for the three and nine months ended September 30, 2023 and \$3.3 billion and \$9.7 billion, respectively, for the three and nine months ended September 30, 2022. DVD revenues were \$22 million and \$83 million, respectively, for the three and nine months ended September 30, 2023 and \$35 million and \$112 million, respectively, for the three and nine months ended September 30, 2022.

Deferred revenue consists of membership fees billed that have not been recognized, as well as gift cards and other prepaid memberships that have not been fully redeemed. As of September 30, 2023 March 31, 2024, total deferred revenue was \$1,306 million \$1,469 million, the vast majority of which was related to membership fees billed that are expected to be recognized as revenue within the next month. The remaining deferred revenue balance, which is related to gift cards and other prepaid memberships, will be recognized as revenue over the period of service after redemption, which is expected to occur over the next 12 months. The \$42 million \$27 million increase in deferred revenue as compared to the balance of \$1,265 million \$1,443 million as of December 31, 2022 December 31, 2023 is a result of the increase in membership fees billed due to increased memberships. memberships and price increases.

3. Earnings Per Share

Basic earnings per share is computed using the weighted-average number of outstanding shares of common stock during the period. Diluted earnings per share is computed using the weighted-average number of outstanding shares of common stock and, when dilutive, potential outstanding shares of common stock during the period. Potential shares of common stock are calculated using the treasury-stock method and consist of incremental shares issuable upon the assumed exercise of stock options, options and vesting of time-based and performance-based restricted stock units. The computation of earnings per share is as follows:

4. Cash, Cash Equivalents, Restricted Cash, and Short-term Investments

The Company's investment policy is consistent. Company classifies short-term investments, which consist of marketable securities with the definition original maturities in excess of available-for-sale securities. 90 days as available-for-sale. The Company does not buy and hold securities principally for the purpose of selling them in the near future. The Company's policy is focused on the preservation of capital, liquidity and return. From time to time, the Company may sell certain securities but the objectives are generally not to generate profits on short-term differences in price.

The following tables summarize the Company's cash, cash equivalents, restricted cash and short-term investments as of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023**:

Leases

The Company has entered into operating leases primarily for real estate. Operating leases are included in "Other non-current assets" on the Company's Consolidated Balance Sheets, and represent the Company's right to use the underlying asset for the lease term. The Company's obligations to make lease payments are included in "Accrued expenses and other liabilities" and "Other non-current liabilities" on the Company's Consolidated Balance Sheets.

(1) The following Senior Notes have a principal amount denominated in euro: 3.000% Senior Notes for €470 million, 3.625% Senior Notes for €1,300 million, 4.625% Senior Notes for €1,100 million, 3.875% Senior Notes for €1,200 million, and 3.625% Senior Notes for €1,100 million.

In the three months ended March 31, 2024, the Company repaid upon maturity the \$400 million aggregate principal amount of its 5.750% Senior Notes.

Each of the Notes are repayable in whole or in part upon the occurrence of a change of control, at the option of the holders, at a purchase price in cash equal to 101% of the principal plus accrued interest. The Company may redeem the Notes prior to maturity in whole or in part at an amount equal to the principal amount thereof plus accrued and unpaid interest and an applicable premium. The Notes include, among other terms and conditions, limitations on the Company's ability to create, incur or allow certain liens; enter into sale and lease-back transactions; create, assume, incur or guarantee additional indebtedness of certain of the Company's subsidiaries; and consolidate or merge with, or convey, transfer or lease all or substantially all of the Company's and its subsidiaries assets, to another person. As of September 30, 2023 March 31, 2024 and December 31, 2022, December 31, 2023, the Company was in compliance with all related covenants.

Revolving Credit Facility

On March 6, 2023, the Company amended its \$1 billion unsecured revolving credit facility ("Revolving Credit Agreement") to replace the London interbank offered rate to a variable secured overnight financing rate (the "Term SOFR Rate") as the rate to which interest payments are indexed, among other things. The Revolving Credit Agreement matures on June 17, 2026. Revolving loans may be borrowed, repaid and reborrowed until June 17, 2026, at which time all amounts borrowed must be repaid. The Company may use the proceeds of future borrowings under the Revolving Credit Agreement for working capital and general corporate purposes. As of September 30, 2023 March 31, 2024, no amounts have been borrowed under the Revolving Credit Agreement.

The borrowings under the Revolving Credit Agreement bear interest, at the Company's option, of either (i) a floating rate equal to a base rate (the "Alternate Base Rate") or (ii) a rate equal to the Term SOFR Rate (or the applicable benchmark replacement), plus a margin of 0.75%. The Alternate Base Rate is defined as the greatest of (A) the rate of interest published by the Wall Street Journal, from time to time, as the prime rate, (B) the federal funds rate, plus 0.500% and (C) the Term SOFR Rate for a one-month tenor, plus 1.00%. The Term SOFR Rate is the forward-looking secured overnight financing rate administered by the Federal Reserve Bank of New York or a successor administrator, for the relevant interest period, but in no event shall the Term SOFR Rate be less than 0.00% per annum.

The Company is also obligated to pay a commitment fee on the undrawn amounts of the Revolving Credit Agreement at an annual rate of 0.10%. The Revolving Credit Agreement requires the Company to comply with certain covenants, including covenants that limit or restrict the ability of the Company's subsidiaries to incur debt and limit or restrict the ability of the Company and its subsidiaries to grant liens and enter into sale and leaseback transactions; and, in the case of the Company or a guarantor, merge,

consolidate, liquidate, dissolve or sell, transfer, lease or otherwise dispose of all or substantially all of the assets of the Company and its subsidiaries, taken as a whole. As of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023**, the Company was in compliance with all related covenants.

Subsequent to March 31, 2024, the Company entered into a five-year, \$3 billion unsecured revolving credit facility (the "New Revolving Credit Agreement"), which terminated and replaced the Revolving Credit Agreement. Refer to Note 12, *Subsequent Event*, for additional details.

The Company classifies derivative instruments in the Level 2 category within the fair value hierarchy. These instruments are valued using industry standard valuation models that use observable inputs such as interest rate yield curves, and forward and spot prices for currencies.

As of **September 30, 2023** **March 31, 2024**, the pre-tax net accumulated gain on our foreign currency cash flow hedges included in AOCI on the Consolidated Balance Sheets expected to be recognized in earnings within the next 12 months is **\$74 \$60** million.

Master Netting Agreements

In order to mitigate counterparty credit risk, the Company enters into master netting agreements with its counterparties for its foreign currency exchange contracts which permit the parties to settle amounts on a net basis under certain conditions. The Company has elected to present its derivative assets and liabilities on a gross basis on its Consolidated Balance Sheets.

The Company also enters into collateral security arrangements with its counterparties that require the parties to post cash collateral when certain contractual thresholds are met. No cash collateral was received or posted by the Company as of **September 30, 2023** **March 31, 2024** and **December 31, 2023**.

8. Commitments and Contingencies

Content

As of September 30, 2023 March 31, 2024, the Company had \$19.7 billion \$24.2 billion of obligations comprised of \$4.3 billion \$4.4 billion included in "Current content liabilities" and \$2.7 billion \$2.4 billion of "Non-current content liabilities" on the Consolidated Balance Sheets and \$12.7 billion \$17.4 billion of obligations that are not reflected on the Consolidated Balance Sheets as they did not yet meet the criteria for recognition.

As of December 31, 2022 December 31, 2023, the Company had \$21.8 billion \$21.7 billion of obligations comprised of \$4.5 billion included in "Current content liabilities" and \$3.1 billion \$2.6 billion of "Non-current content liabilities" on the Consolidated Balance Sheets and \$14.2 billion \$14.6 billion of obligations that are not reflected on the Consolidated Balance Sheets as they did not yet meet the criteria for recognition.

The expected timing of payments for these content obligations is as follows:

	As of		(in thousands)
	September 30, 2023	December 31, 2022	
	As of		
	March 31, 2024	March 31, 2024	As of

Due after five years	Due after five years	217,823	243,606
Total content obligations	Total content obligations	\$19,650,049	\$21,831,947

Content obligations include amounts related to the acquisition, licensing and production of content. Obligations that are in non-U.S. dollar currencies are translated to the U.S. dollar at period end rates. An obligation for the production of content includes non-cancelable commitments under creative talent and employment agreements as well as other production related commitments. An obligation for the acquisition and licensing of content is incurred at the time the Company enters into an agreement to obtain future titles. Once a title becomes available, a content liability is recorded on the Consolidated Balance Sheets. Certain agreements include the obligation to license rights for unknown future titles, the ultimate quantity and/or fees for which are not yet determinable as of the reporting date. Traditional film output deals, or certain TV series license agreements where the number of seasons to be aired is unknown, are examples of such license agreements. The Company does not include any estimated obligation for these future titles beyond the known minimum amount. However, the unknown obligations are expected to be significant.

Legal Proceedings

From time to time, in the normal course of its operations, the Company is subject to litigation matters and claims, including claims relating to employee relations, business practices and patent infringement. Litigation can be expensive and disruptive to normal business operations. Moreover, the results of complex legal proceedings are difficult to predict and the Company's view of these matters may change in the future as the litigation and events related thereto unfold. The Company expenses legal fees as incurred. The Company records a provision for contingent losses when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. An unfavorable outcome to any legal matter, if material, could have an adverse effect on the Company's operations or its financial position, liquidity or results of operations.

The Company is involved in litigation matters not listed herein but does not consider the matters to be material either individually or in the aggregate at this time. The Company's view of the matters not listed may change in the future as the litigation and events related thereto unfold.

Non-Income Taxes

The Company is routinely under audit by various tax authorities with regard to non-income tax matters. The subject matter of non-income tax audits primarily arises from disputes on the tax treatment and tax rate applied to our revenue in certain jurisdictions. We accrue non-income taxes that may result from examinations by, or any negotiated agreements with, these tax authorities when a loss is probable and reasonably estimable.

Similar to other U.S. companies doing business in Brazil, the Company is involved in a number of matters with Brazilian tax authorities regarding non-income tax assessments. Although the Company believes it has meritorious defenses to these matters, there is inherent complexity and uncertainty with respect to these matters, and the final outcome may be materially different from our expectations. The current potential exposure with respect to the various issues with Brazilian tax authorities regarding non-income tax assessments is estimated to be approximately \$300 million, which is expected to increase over time.

Guarantees—Indemnification Obligations

In the ordinary course of business, the Company has entered into contractual arrangements under which it has agreed to provide indemnification of varying scope and terms to business partners and other parties with respect to certain matters, including, but not limited to, losses arising out of the Company's breach of such agreements and out of intellectual property infringement claims made by third parties. In these circumstances, payment may be conditional on the other party making a claim pursuant to the procedures specified in the particular contract.

The Company's obligations under these agreements may be limited in terms of time or amount, and in some instances, the Company may have recourse against third parties for certain payments. In addition, the Company has entered into indemnification agreements with its directors and certain of its officers that will require it, among other things, to indemnify them against certain liabilities that may arise by reason of their status or service as directors or officers. The terms of such obligations vary.

It is not possible to make a reasonable estimate of the maximum potential amount of future payments under these or similar agreements due to the conditional nature of the Company's obligations and the unique facts and circumstances involved in each particular agreement. No amount has been accrued in the accompanying consolidated financial statements with respect to these indemnification obligations.

9. Stockholders' Equity

Stock Option Plan Equity Incentive Plans

In June 2020, the Company's stockholders approved the The Netflix, Inc. 2020 Stock Plan which was adopted by the Company's Board of Directors in March 2020 subject to stockholder approval. The 2020 Stock Plan is a stockholder-approved plan that provides for the grant of incentive stock options to employees and for the grant of non-statutory stock options, stock appreciation rights, restricted stock and restricted stock units to employees, directors and consultants.

A summary of the activities related to the Company's stock option plans is as follows:

Stock Repurchases

In March 2021, the Company's Board of Directors authorized the repurchase of up to \$5 billion of its common stock, with no expiration date, and in September 2023, the Board of Directors increased the share repurchase authorization by an additional \$10 billion, also with no expiration date. Stock repurchases may be effected through open market repurchases in compliance with Rule 10b-18 under the Exchange Act, including through the use of trading plans intended to qualify under Rule 10b5-1 under the Exchange Act, privately-negotiated transactions, accelerated stock repurchase plans, block purchases, or other similar purchase techniques and in such amounts as management deems appropriate. The Company is not obligated to repurchase any specific number of shares, and the timing and actual number of shares repurchased will depend on a variety of factors, including the Company's stock price, general economic, business and market conditions, and alternative investment opportunities. The Company may discontinue any repurchases of its common stock at any time without prior notice. During the three **and nine** months ended **September 30, 2023** **March 31, 2024**, the Company repurchased **5,964,802** and **9,036,182** **3,566,965** shares respectively, for an aggregate amount of **\$2,500 million** and **\$3,545 million**, respectively. **\$2.0 billion** As of **September 30, 2023** **March 31, 2024**, **\$10.9** **\$6.4 billion** remain **remains** available for repurchases. Shares repurchased by the Company are accounted for when the transaction is settled. As of **September 30, 2023** **March 31, 2024**, there were no unsettled share repurchases. Direct costs incurred to acquire the shares are included in the total cost of the shares.

Effective tax rate	12 %	14 %	12 %	15 %	
Effective tax rate					
Effective tax rate					

The effective tax rates rate for the three and nine months ended September 30, 2023 and 2022, March 31, 2024 differed from the Federal statutory rate primarily due to the impact of international provisions of the Tax Cuts foreign-derived intangible income deduction and Jobs Act, research and development credits, and the recognition of excess tax benefits of on stock-based compensation.

The decrease in the effective tax rates for the three and nine months ended September 30, 2023, as compared to the same period in 2022 was primarily due to the impact of foreign taxes and the recognition of excess tax benefits of stock-based compensation. For the three and nine months ended September 30, 2023, the Company recognized a discrete tax benefit related to the excess tax benefits from stock-based compensation of \$28 million and \$80 million, compared to the three and nine months ended September 30, 2022 of \$14 million and \$57 million.

Gross unrecognized tax benefits were \$213 million and \$227 million as of September 30, 2023 and December 31, 2022, respectively. The gross unrecognized tax benefits as of September 30, 2023, if recognized by the Company, will result in a reduction of approximately \$134 million to the provision for income taxes thereby favorably impacting the Company's effective tax rate.

The Company files U.S. Federal, state and foreign tax returns. The Company is currently under examination by the IRS for the years 2016 through 2018 and is subject to examination for 2019 through 2022. The foreign and state tax returns for the years 2016 through 2022 are subject to examination by various states and foreign jurisdictions. While the Company is in various stages of inquiries and examinations by federal, state and foreign taxing authorities, we believe that our tax positions will more likely than not be sustained. Nonetheless, it is possible that future obligations related to these matters could arise.

Given the potential outcome of the current examinations as well as the impact of the current examinations on the potential expiration of the statute of limitations, it is reasonably possible that the balance of unrecognized tax benefits could significantly change within the next twelve months. However, an estimate of the range of reasonably possible adjustments cannot be made at this time.

11. Segment and Geographic Information

The Company operates as one operating segment. The Company's chief operating decision maker ("CODM") is its co-chief executive officers, who review financial information presented on a consolidated basis for the purposes of making operating decisions, assessing financial performance and allocating resources.

Total U.S. revenues were \$3.5 billion \$3.9 billion and \$10.1 \$3.3 billion respectively, for the three and nine months ended September 30, 2023, March 31, 2024 and \$3.3 billion and \$9.7 billion, respectively, for the three and nine months ended September 30, 2022, December 31, 2023, respectively. See Note 2 Revenue Recognition for additional information about streaming revenue by region.

The Company's long-lived tangible assets, as well as the Company's operating lease right-of-use assets recognized on the Consolidated Balance Sheets as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, were located as follows:

12. Subsequent Event

On April 12, 2024, the Company entered into a new five-year revolving credit agreement that provides for a \$3 billion unsecured revolving credit facility, subject to certain terms and conditions as set forth therein. Revolving loans will bear interest, at the Company's option, at either (i) a floating rate per annum equal to a base rate (the "Alternate Base Rate") plus an applicable margin or (ii) a per annum rate equal to an adjusted term SOFR rate (the "Adjusted Term SOFR Rate") plus an applicable margin. The applicable margin for Alternate Base Rate loans will range from 0% to 0.25%, and the applicable margin for Adjusted Term SOFR Rate loans will range from 0.75% to 1.25%, each based on the Company's credit ratings. As of April 22, 2024, there were no borrowings outstanding under the credit agreement.

Overview

We are one of the world's leading entertainment services with over 247 million 269 million paid memberships in over 190 countries enjoying TV series, films and games across a wide variety of genres and languages. Members can play, pause and resume watching as much as they want, anytime, anywhere, and can change their plans at any time.

Our core strategy is to grow our business globally within the parameters of our operating margin target. We strive to continuously improve our members' experience by offering compelling content that delights them and attracts new members. We seek to drive conversation around our content to further enhance member joy, and we are continuously enhancing our user interface to help our members more easily choose content that they will find enjoyable.

Our membership growth exhibits a seasonal pattern that reflects variations when consumers buy internet-connected screens and when they tend to increase their viewing. Historically, the fourth quarter represents our greatest streaming membership growth. In addition, our membership growth can be impacted by our content release schedule and changes to pricing, pricing and plans.

(1) In April 2023, we announced our plans to discontinue We discontinued our DVD-by-mail service and we ceased providing our mailing services to customers on September 29, 2023. in September 2023. The discontinuance of our DVD business had an immaterial impact on our operations and financial results.

Consolidated (2) We believe the non-GAAP financial measure of constant currency revenue is useful in analyzing the underlying trends in average monthly revenue per paying membership (ARM) absent foreign currency fluctuations. However, this non-GAAP financial measure should be considered in addition to, not as a substitute for, or superior to other financial measures prepared in accordance with GAAP.

In order to exclude the effect of foreign currency rate fluctuations on ARM, we calculate current period revenue assuming foreign exchange rates had remained constant with foreign exchange rates from each of the corresponding months of the prior-year period and exclude the impact of hedging gains or losses realized as revenues. Constant currency percentage change in ARM is calculated as the percentage change between current period constant currency ARM and the prior comparative period ARM. The impact of hedging gains or losses is excluded from both the current and prior periods. For the three months ended March 31, 2024, our revenues would have been approximately \$271 million higher excluding the impact of hedging and had foreign currency exchange rates remained constant with those for the three months ended September 30, 2023 increased 8% as compared to the three months ended September 30, 2022 March 31, 2023.

Operating margin for the three months ended September 30, 2023 March 31, 2024 increased three seven percentage points as compared to the prior comparative period, primarily due to revenues growing at a faster rate as compared to the growth in cost of revenues, general and decreased marketing administrative expenses, and technology and development expenses, partially offset by higher growth in general and administrative marketing expenses as compared to the growth in revenues.

Streaming Revenues

We primarily derive revenues from monthly membership fees for services related to streaming content to our members. We offer a variety of streaming membership plans, the price of which varies by country and the features of the plan. As of September 30, 2023 March 31, 2024, pricing on our paid plans ranged from the U.S. dollar equivalent of \$1 to \$28 per month, and pricing on our extra member sub accounts ranged from the U.S. dollar equivalent of \$2 to \$8 per month. We expect that from time to time the prices of our membership plans in each country may change and we may test other plan and price variations.

Streaming revenues for the three months ended September 30, 2023 increased 8% as compared to the three months ended September 30, 2022, primarily due to the 9% growth in average paying memberships, partially offset by a 1% decrease in average monthly revenue per paying membership. The decrease in average monthly revenue per paying membership was primarily due to higher membership growth in regions with lower average monthly revenue per paying membership, changes in plan mix, and limited price increases. Streaming revenues for the nine months ended September 30, 2023 increased 5% as compared to the nine months ended September 30, 2022, primarily due to the 7% growth in average paying memberships, partially offset by a 2% decrease in average monthly revenue per paying membership. The decrease in average monthly revenue per paying membership was primarily due to higher membership growth in regions with lower average monthly revenue per paying membership and changes in plan mix. Additionally, streaming revenues for the nine months ended September 30, 2023 were further impacted by unfavorable fluctuations in foreign exchange rates. We also earn revenue from advertisements presented on our streaming service, consumer products and various other sources. Revenues earned from sources other than monthly membership fees were not material for the three and nine months ended September 30, 2023 March 31, 2024 and September 30, 2022 March 31, 2023.

(1) We believe constant currency information is useful in analyzing the underlying trends in average monthly revenue per paying membership. In order to exclude the effect of foreign currency rate fluctuations on average monthly revenue per paying membership, we estimate current period revenue assuming foreign exchange rates had remained constant with foreign exchange rates from each of the corresponding months of the prior-year period. For the three and nine months ended September 30, 2023, our revenues would have been approximately \$9 million lower and \$568 million higher, respectively, had foreign currency exchange rates remained constant with those for the three and nine months ended September 30, 2022.

Cost of Revenues

Amortization of content assets makes up the majority of cost of revenues. Expenses associated with the acquisition, licensing and production of content (such as payroll, stock-based compensation, facilities, and other related personnel expenses, costs associated with obtaining rights to music included in our content, overall deals with talent, miscellaneous production related costs and participations and residuals), streaming delivery costs and other operations costs make up the remainder of cost of revenues. We have built our own global content delivery network ("Open Connect") to help us efficiently stream a high volume of content to our members over the internet. Delivery expenses, therefore, include equipment costs related to Open Connect, payroll and related personnel expenses and all third-party costs, such as cloud computing costs, associated with delivering content over the internet. Other operations costs include customer service and payment processing fees, including those we pay to our integrated payment partners, as well as other costs incurred in making our content available to members.

The increase in cost of revenues for the three months ended September 30, 2023 March 31, 2024 as compared to the three months ended September 30, 2022 March 31, 2023 is primarily due to a \$222 million increase in other content expenses, partially offset by an \$80 million decrease in content amortization due to the timing of content releases.

The increase in cost of revenues for the nine months ended September 30, 2023 as compared to the nine months ended September 30, 2022 was primarily due to a \$362 million increase in content amortization relating to our existing and new content, including more exclusive and original programming. Other costs of revenues increased \$282 partially offset by a \$38 million primarily due to an increase decrease in other content expenses cost of revenues.

Marketing

Marketing expenses consist primarily of advertising expenses and certain payments made to our marketing and advertising sales partners, including consumer electronics ("CE") manufacturers, multichannel video programming distributors ("MVPDs"), mobile operators, and internet service providers ("ISPs"). Advertising expenses include promotional activities such as digital and television advertising. Marketing expenses also include payroll, stock-based compensation, facilities, and other related expenses for personnel that support sales and marketing activities.

Interest expense primarily consists of interest on our Notes of \$175 million and \$524 million \$173 million for the three and nine months ended September 30, 2023 March 31, 2024. Interest expense for the three months ended September 30, 2023 March 31, 2024 as compared to the three months ended September 30, 2022 March 31, 2023 remained relatively flat. The decrease in interest expense for the nine months ended September 30, 2023 as compared to the nine months ended September 30, 2022 was due to the lower average aggregate principal of interest bearing notes outstanding.

Interest and Other Income (Expense)

Interest and other income (expense) consists primarily of foreign exchange gains and losses on foreign currency denominated balances and interest earned on cash, cash equivalents and short-term investments.

Cash, cash equivalents, restricted cash and short-term investments increased \$1,789 million decreased \$92 million in the nine three months ended September 30, 2023 March 31, 2024 primarily due to the repurchase of stock and repayment of debt, partially offset by cash provided by operations, partially offset by the repurchase of stock operations.

Debt, net of debt issuance costs, decreased \$53 million \$527 million primarily due to the repayment upon maturity of the \$400 million aggregate principal amount of our 5.750% Senior Notes in the three months ended March 31, 2024, coupled with the remeasurement of our euro-denominated notes. The amount of principal and interest on our outstanding notes due in the next twelve months is \$1,068 million \$1,476 million. As of September 30, 2023 March 31, 2024, no amounts had been borrowed under the \$1 billion \$1 billion Revolving Credit Agreement. See Note 6 *Debt* in the accompanying notes to our consolidated financial statements.

We anticipate that our future capital needs from the we may periodically raise additional debt market will be more limited compared to prior years capital. Our ability to obtain this or any additional financing that we may choose or need, including for the refinancing of upcoming maturities or potential strategic acquisitions and investments, will depend on, among other things, our development efforts, business plans, operating performance and the condition of the capital markets at the time we seek financing. We may not be able to obtain such financing on terms acceptable to us or at all. If we raise additional funds through the issuance of equity or debt securities, those securities may have rights, preferences or privileges senior to the rights of our common stock, and our stockholders may experience dilution.

In March 2021, our Board of Directors authorized the repurchase of up to \$5 billion of our common stock, with no expiration date, and in September 2023, the Board of Directors increased the share repurchase authorization by an additional \$10 billion, also with no expiration date. Stock repurchases may be effected through open market repurchases in compliance with Rule 10b-18 under the Exchange Act, including through the use of trading plans intended to qualify under Rule 10b5-1 under the Exchange Act, privately-negotiated transactions, accelerated stock repurchase plans, block purchases, or other similar purchase techniques and in such amounts as management deems appropriate. We are not obligated to repurchase any specific number of shares, and the timing and actual number of shares repurchased will depend on a variety of factors, including our stock price, general economic, business and market conditions, and alternative investment opportunities. We may discontinue any repurchases of our common stock at any time without prior notice. During the ~~nine~~ three months ended ~~September 30, 2023~~ March 31, 2024, the Company repurchased ~~9,036,182~~ 3,566,965 shares of common stock for an aggregate amount of ~~\$3,545 million~~ \$2.0 billion. As of ~~September 30, 2023~~ March 31, 2024, ~~\$10.9~~ \$6.4 billion remains available for repurchases.

Our primary uses of cash include the acquisition, licensing and production of content, marketing programs, streaming delivery and personnel-related costs, as well as strategic acquisitions and investments. Cash payment terms for non-original content have historically been in line with the amortization period. Investments in original content, and in particular content that we produce and own, require more cash upfront relative to licensed content. For example, production costs are paid as the content is created, well in advance of when the content is available on the service and amortized. We expect to continue to significantly invest in global content, particularly in original content, which will impact our liquidity. We currently anticipate that cash flows from operations, available funds and access to financing sources, including our revolving credit facility, will continue to be sufficient to meet our cash needs for the next twelve months and beyond.

Our material cash requirements from known contractual and other obligations primarily relate to our content, debt and lease obligations. As of ~~September 30, 2023~~ March 31, 2024, the expected timing of those payments are as follows:

Payments due by Period				Payments due by Period			
Contractual obligations (in thousands):	Contractual obligations (in thousands):	Total	Next 12 Months	Contractual obligations (in thousands):	Total	Next 12 Months	Beyond 12 Months
Content obligations (1)	Content obligations (1)	\$19,650,049		\$10,137,968

Total	Total	\$40,543,108	\$11,072,047	\$29,471,061			
Total							
Total							

(1) As of ~~September 30, 2023~~ March 31, 2024, content obligations were comprised of ~~\$4.3 billion~~ \$4.4 billion included in "Current content liabilities" and ~~\$2.7 billion~~ \$2.4 billion of "Non-current content liabilities" on the Consolidated Balance Sheets and ~~\$12.7 billion~~ \$17.4 billion of obligations that are not reflected on the Consolidated Balance Sheets as they did not then meet the criteria for recognition.

The material cash requirements above do not include any estimated obligation for the unknown future titles, payment for which could range from less than one year to more than five years. However, these unknown obligations are expected to be significant and we believe could include approximately \$1 billion to \$4 billion over the next three years, with the payments for the vast majority of such amounts expected to occur after the next twelve months. The foregoing range is based on considerable management judgments and the actual amounts may differ. Once we know the title that we will receive and the license fees, we include the amount in the contractual obligations table above.

(2) Debt obligations include our Notes consisting of principal and interest payments. See Note 6 *Debt* to the consolidated financial statements for further details.

(3) Operating lease obligations are comprised of operating lease liabilities included in "Accrued expenses and other liabilities" and "Other non-current liabilities" on the Consolidated Balance Sheets, inclusive of imputed interest. Operating lease obligations also include additional obligations that are not reflected on the Consolidated Balance Sheets as they did not meet the criteria for recognition. See

Note 5 *Balance Sheet Components* in the accompanying notes to our consolidated financial statements for further details regarding leases.

As of September 30, 2023, we had gross unrecognized tax benefits of \$213 million. At this time, an estimate of the range of reasonably possible adjustments to the balance of unrecognized tax benefits cannot be made. Cash Flows

Free Cash Flow The following table summarizes our cash flows:

We define free cash flow as cash provided by (used in) operating activities less purchases of property and equipment and change in other assets. We believe free cash flow is an important liquidity metric because it measures, during a given period, the amount of cash generated that is available to repay debt obligations, make strategic acquisitions and investments and for certain other activities like stock repurchases. Free cash flow is considered a non-GAAP financial measure and should not be considered in isolation of, or as a substitute for, net income, operating income, net cash provided by operating activities, or any other measure of financial performance or liquidity presented in accordance with GAAP.

In assessing liquidity in relation to our results of operations, we compare free cash flow to net income, noting that the major recurring differences are the timing impact between content payments and amortization, non-cash stock-based compensation expense, non-cash remeasurement gain/loss on our euro-denominated debt, and other working capital differences. Working capital differences include deferred revenue, excess property and equipment purchases over depreciation, taxes and semi-annual interest payments on our outstanding debt. Our receivables from members generally settle quickly.

Net cash provided by operating activities increased \$1,436 million \$34 million from the three months ended March 31, 2023 to \$1,992 million \$2,213 million for the three months ended **September 30, 2023** March 31, 2024. The increase in net cash provided by operating activities was primarily driven by a decrease \$1,027 million or 79% increase in net income and favorable changes in working capital, partially offset by an increase in payments for content assets, coupled with a \$616 million or 8% increase in revenues. assets. The payments for content assets decreased \$1,312 million increased \$1,105 million, from \$4,522 million \$2,813 million to \$3,210 million \$3,918 million, or 29% 39%. On May 1, 2023, the collective bargaining agreement between the Writers Guild of America ("WGA") and the Alliance of Motion Picture and Television Producers ("AMPTP") expired, and on May 2, 2023, the WGA commenced an industry-wide strike, which ended on September 27, 2023. On July 12, 2023, the collective bargaining agreement between the Screen Actors Guild - American Federation of Television and Radio Artists ("SAG-AFTRA") and the AMPTP expired, and on July 14, 2023, the SAG-AFTRA commenced an industry-wide strike. While the WGA strike has ended, the SAG-AFTRA strike continues, and we have paused and expect to pause additional productions in response to the strike. As a result, the timing of certain production payments will be delayed until productions can resume and may increase the variability in payments for content assets in future periods.

Net cash provided by (used in) used in investing activities increased \$381 million decreased \$188 million from the three months ended March 31, 2023 to \$76 million for the three months ended **September 30, 2023**, March 31, 2024. The decrease in net cash used in investing activities is primarily due to proceeds from maturities there being no purchases of short-term investments in the three months ended March 31, 2024, as compared to purchases of short-term investments for an aggregate amount of \$202 million in the three months ended March 31, 2023, partially offset by an increase in purchases of property and equipment.

Net cash provided by (used in) used in financing activities decreased \$2,479 million increased \$1,759 million from the three months ended March 31, 2023 to \$2,133 million for the three months ended **September 30, 2023**, primarily due to the repurchases of common stock for an aggregate amount of \$2,500 million in the three months ended September 30, 2023, as compared to no repurchases of common stock in the three months ended September 30, 2022.

Free cash flow was \$211 million higher than net income for the three months ended September 30, 2023, primarily due to \$364 million of amortization expense exceeding cash payments for content assets and \$80 million of non-cash stock-based compensation expense, partially offset by \$173 million of non-cash remeasurement gain on our euro-denominated debt and \$60 million in other non-favorable working capital differences.

Free cash flow was \$926 million lower than net income for the three months ended September 30, 2022, primarily due to \$868 million of cash payments for content assets exceeding amortization expense and \$348 million of non-cash remeasurement gain on our euro-denominated debt, partially offset by \$152 million of non-cash stock-based compensation expense and \$138 million in other favorable working capital differences.

Free cash flow	\$ 5,344,367	\$ 1,286,263	\$ 4,058,104	315 %

Net cash provided by operating activities increased \$4,029 million to \$5,611 million for the nine months ended September 30, 2023 March 31, 2024. The increase in net cash provided by operating activities was primarily driven by a decrease in payments for content assets, coupled with a \$1,127 million or 5% increase in revenues. The payments for content assets decreased \$3,289 million, from \$12,949 million to \$9,660 million, or 25%.

Net cash provided by (used in) investing activities increased \$620 million for the nine months ended September 30, 2023, primarily due to proceeds from the maturities of short-term investments and there being no acquisitions in the nine months ended September 30, 2023, as compared to acquisitions for an aggregate amount of \$193 million in the nine months ended September 30, 2022, partially offset by purchases of short-term investments.

Net cash used in financing activities increased \$2,828 million for the nine months ended September 30, 2023, is primarily due to repurchases of common stock for an aggregate amount of \$3,545 million \$2.0 billion in the nine three months ended September 30, 2023, March 31, 2024 as compared to no repurchases of common stock for an aggregate amount of \$400 million in the nine three months ended September 30, 2022 March 31, 2023, partially offset by there being no repayment of debt in the nine months ended September 30, 2023 as compared to coupled with the repayment upon maturity of the \$700 \$400 million aggregate principal amount of our 5.500% 5.750% Senior Notes in February 2022.

Free cash flow was \$874 million higher than net income for the nine three months ended September 30, 2023, primarily due March 31, 2024 as compared to \$783 million no repayments of amortization expense exceeding debt in the corresponding period in 2023. The increase in net cash payments for content assets and \$257 million of non-cash stock-based compensation expense, used in financing activities was partially offset by \$103 million the \$243 million increase in other non-favorable working capital differences and \$63 million proceeds from the issuance of non-cash remeasurement gain on our euro-denominated debt.

Free cash flow was \$3,150 million lower than net income for common stock in the nine three months ended September 30, 2022, primarily March 31, 2024 as compared to the corresponding period in 2023, due to \$2,868 million of cash payments for content assets exceeding amortization expense and \$815 million of non-cash remeasurement gain on our euro-denominated debt, partially offset by \$422 million of non-cash stock-based compensation expense and \$111 million an increase in other favorable working capital differences. employee stock options exercised.

Critical Accounting Estimates

The preparation of financial statements and related disclosures in conformity with U.S. generally accepted accounting principles and the Company's discussion and analysis of its financial condition and operating results require the Company's management to make judgments, assumptions and estimates that affect the amounts reported. Note 1, "Basis of Presentation and Summary of Significant Accounting Policies" of the Notes to consolidated Financial Statements in Part I, Item 1 of this Form 10-Q and in the Notes to Consolidated Financial Statements in Part II, Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2022 December 31, 2023, describe the significant accounting policies and methods used in the preparation of the Company's consolidated financial statements. There have been no material changes to the Company's critical accounting estimates included in our Annual Report on Form 10-K for the year ended December 31, 2022 December 31, 2023.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For financial market risks related to changes in interest rates, reference is made to Item 7A "Quantitative and Qualitative Disclosures About Market Risk" contained in Part II of our Annual Report on Form 10-K for the year ended **December 31, 2022** **December 31, 2023**. Our exposure to market risk has not changed significantly since **December 31, 2022** **December 31, 2023**.

Interest Rate Risk

At **September 30, 2023** **March 31, 2024**, our cash equivalents and short-term investments were generally invested in money market funds and time deposits. Interest paid on such funds fluctuates with the prevailing interest rate.

As of **September 30, 2023** **March 31, 2024**, we had **\$14.4 billion** **\$14.1 billion** of debt, consisting of fixed rate unsecured debt in **fourteen** **thirteen** tranches due between **2024** **2025** and 2030. Refer to Note 6 *Debt* to the consolidated financial statements for details about all issuances. The fair value of our debt will fluctuate with movements of interest rates, increasing in periods of declining rates of interest and declining in periods of increasing rates of interest. The fair value of our debt will also fluctuate based on changes in foreign currency rates, as discussed below.

Foreign Currency Risk

We operate our business globally and transact in multiple currencies. Currencies denominated in other than the U.S. dollar accounted for **57%** **56%** of revenue and **28%** **31%** of operating expenses for the **nine** **three** months ended **September 30, 2023** **March 31, 2024**. We therefore have foreign currency risk related to these currencies, which are primarily the euro, the British pound, the Brazilian real, the **Canadian dollar**, **Argentine peso**, and the Mexican **peso**, the Japanese yen, and the **Australian dollar**, **peso**.

Accordingly, volatility in exchange rates, and in particular a weakening of foreign currencies relative to the U.S. dollar may negatively affect our revenue and operating income as expressed in U.S. dollars. **In Excluding** the **nine** **impact of hedging gains or losses realized as revenues, our revenues for the three** months ended **September 30, 2023**, **our revenues** **March 31, 2024** would have been approximately **\$568 million** **\$271 million** higher had foreign currency exchange rates remained **consistent** **constant** with those **in** **for** the **same period** **three months ended March 31, 2023**. See Part II, Item 7, "Management's Discussion and Analysis of **2022**, **Financial Condition and Results of Operations**" for further information regarding our non-GAAP financial measure of constant currency.

In the third quarter of 2023, we began using **We enter into** foreign exchange forward contracts to mitigate fluctuations in forecasted U.S. dollar-equivalent revenues **occurring in January 2024 and beyond** from changes in foreign currency exchange rates. These contracts may reduce, but do not entirely eliminate, the effect of foreign currency exchange fluctuations, and we may choose not to hedge certain exposures. We designate these contracts as cash flow hedges of forecasted foreign currency revenue and initially record the gains or losses on these derivative instruments as a component of **AOCI** **accumulated other comprehensive income ("AOCI")** and reclassify the amounts into "Revenues" on the Consolidated Statements of Operations in the same period the forecasted transaction affects earnings. If the U.S. dollar weakened by 10% as of **September 30, 2023** **March 31, 2024** and **December 31, 2023**, the **amount** **amounts** recorded in AOCI related to our foreign exchange contracts, before taxes, would have been approximately **\$378** **\$1 billion** and **\$958 million** **lower**, **lower, respectively**. This adverse change in AOCI would be expected to offset a corresponding favorable foreign currency change in the underlying forecasted revenues when recognized in earnings.

In the third quarter of 2023, we also began using **We enter into** foreign exchange forward contracts to mitigate fluctuations in forecasted and firmly committed U.S. dollar-equivalent transactions related to the licensing and production of content assets **occurring in January 2024 and beyond** from changes in foreign currency exchange rates. These contracts may reduce, but do not entirely eliminate, the effect of foreign currency exchange fluctuations, and we may choose not to hedge certain exposures. We designate these contracts as cash flow hedges and initially record the gains or losses on these derivative instruments as a component of AOCI and reclassify the amounts into "Cost of Revenues" to offset the hedged exposures as they affect earnings, which occurs as the underlying hedged content assets are amortized. If the U.S. dollar strengthened by 10% as of **September 30, 2023** **March 31, 2024** and **December 31, 2023**, the **amount** **amounts** recorded in AOCI related to our foreign exchange contracts, before taxes, would have been approximately **\$40** **\$82 million** **lower**, and **\$71 million** **lower, respectively**. This adverse change in AOCI would be expected to offset a corresponding favorable foreign currency change in the underlying exposures when recognized in earnings.

We have also experienced and will continue to experience fluctuations in our net income as a result of gains (losses) on the settlement and the remeasurement of monetary assets and liabilities denominated in currencies that are not the functional currency. In the **nine** **three** months ended **September 30, 2023** **March 31, 2024**, we **recognized a \$41 million** **began entering into** foreign exchange forward contracts to mitigate the foreign exchange risk on intercompany transactions and monetary assets and liabilities that are not denominated in the functional currencies of the Company and its subsidiaries. These derivative instruments are not designated as hedging instruments and may reduce, but do not entirely eliminate, the effect of foreign currency exchange movements. The gain or loss primarily due on derivative instruments not designated as hedging instruments are recorded in "Interest and other income (expense)" in the Consolidated Statements of Operations. If an adverse change in exchange rates of 10% was applied to the remeasurement of cash our monetary assets and content liabilities denominated in currencies other than the functional currencies partially offset as of **March 31, 2024** and **December 31, 2023**, income before income taxes would have been approximately **\$437 million** and **\$516 million** lower, respectively, after considering the offsetting impact of the foreign currency exchange contracts. The hypothetical adverse change in income before taxes is primarily driven by the non-cash remeasurement of foreign exchange losses on our Senior Notes denominated in euros.

In addition, the effect of exchange rate changes on cash, cash equivalents and restricted cash as disclosed on the Consolidated Statements of Cash Flow for the nine months ended September 30, 2023 was a decrease of \$57 million.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our co-Chief Executive Officers and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, our co-Chief Executive Officers and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q were effective in providing reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our co-Chief Executive Officers and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

Our management, including our co-Chief Executive Officers and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their

costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended **September 30, 2023** **March 31, 2024**, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

CERTIFICATION OF CO-CHIEF EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Ted Sarandos, certify that:

- I have reviewed this Quarterly Report on Form 10-Q of Netflix, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
