## 10-Q

MVBF - MVB FINANCIAL CORP  
10-Q - SEPTEMBER 30, 2024 COMPARED TO 10-Q - JUNE 30, 2024

The following comparison report has been automatically generated

TOTAL DELTAS	1097
CHANGES	511
DELETIONS	241
ADDITIONS	345

**UNITED STATES**  
**SECURITIES AND EXCHANGE COMMISSION**  
Washington, D.C. 20549  
**FORM 10-Q**

(Mark One)

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 or 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended **June 30, 2024** **September 30, 2024**

or

☐ **TRANSITION REPORT UNDER SECTION 13 or 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from \_\_\_\_\_ to \_\_\_\_\_.

Commission File Number: 001-38314

 MVB Financial Corp.

**MVB Financial Corp.**

(Exact name of registrant as specified in its charter)

**West Virginia**

(State or other jurisdiction of incorporation or organization)

**20-0034461**

(I.R.S. Employer Identification No.)

**301 Virginia Avenue, Fairmont, WV**

(Address of principal executive offices)

**26554**

(Zip Code)

**(304) 363-4800**

(Registrant's telephone number, including area code)

**Not Applicable**

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock, \$1.00 par value	MVBF	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☒ Non-accelerated filer ☐ Smaller reporting company ☐ Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark if the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date:

As of **August 6, 2024** **November 4, 2024**, there were **12,927,962** **12,940,462** shares of our common stock outstanding with a par value of \$1.00 per share.

### Forward-Looking Statements:

Statements in this Quarterly Report on Form 10-Q, other than statements that are based on historical data, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations or forecasts of future events and include, among others, statements with respect to the beliefs, plans, objectives, goals, guidelines, expectations, anticipations and future financial condition, results of operations and performance of the Company and its subsidiaries, (collectively, "we," "our," or "us"), including MVB Bank, Inc. (the "Bank"), and statements preceded by, followed by or that include the words "may," "could," "should," "would," "will," "believe," "anticipate," "estimate," "target," "expect," "intend," "plan," "projects," "outlook" or the negative of those terms or similar expressions.

These forward-looking statements are not guarantees of future performance, nor should they be relied upon as representing our view as of any subsequent date. Forward-looking statements involve significant risks and uncertainties (both known and unknown) and actual results may differ materially from those presented, either expressed or implied, including, but not limited to, those presented in *Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations*. Factors that might cause such differences include, but are not limited to:

- | interest rate fluctuations in response to economic conditions and the policies of various governmental and regulatory agencies;
- | changes in the economy, which could materially impact credit quality trends and the ability to generate loans and gather deposits;
- | industry factors and general economic and political conditions and events, such as economic slowdowns or recessions, nationally and in the markets in which we operate;
- | changes in financial market conditions in areas in which we conduct operations, including, without limitation, changes in deposit flows, the cost of funds, reduced rates of business formation and growth, commercial and residential real estate development and real estate prices;
- | evolving legislation and heightened regulatory scrutiny in emerging financial technology ("Fintech" ("Fintech")) and banking-as-a-service sectors;
- | changes in the existing regulatory framework for brokered deposits and potential reclassification of certain banking-as-a-service deposits as brokered deposits in light of proposed rulemaking or application of the current deposit framework by the Federal Deposit Insurance Corporation ("FDIC") to the Bank's Bank's banking-as-a-service deposits;
- | our ability to recruit, retain and train talented employees and executives with such knowledge, experience and industry expertise to understand and comply with evolving legislation and regulations and to successfully implement succession plans for such employees and executives;
- | our ability to adapt to technological change, to maintain secure and reliable information and technology systems, and to successfully execute business plans, manage risks and achieve objectives, including strategies related to investments in Fintech;
- | market, economic, operational, liquidity, credit and interest rate risks associated with our business;
- | changes, volatility and disruption in local, national and international political and economic conditions, including, without limitation, major significant developments such as wars, climate change and natural disasters, epidemics and pandemics and any governmental or societal responses thereto, military actions, terrorist attacks and geopolitical conflict;
- | unanticipated changes in our liquidity position, including, but not limited to, changes in access to sources of liquidity and capital to address our liquidity needs;
- | changes in volume or composition of our deposit base, including certain concentrations with large clients and within certain industries, such as gaming, payments and banking-as-a-service;
- | the quality and composition of our loan and securities portfolios;
- | the lack of liquidity and readily determinable fair market values of our equity investments, which are primarily concentrated in private entities, means that there can be no assurance that we will realize the value of these investments or be able to divest them readily;
- | ability to successfully conduct acquisitions and integrate acquired businesses and potential difficulties in expanding businesses in existing and new markets;
- | ability to successfully manage credit risk and the sufficiency of allowance for credit losses;
- | increases in the levels of losses, customer bankruptcies, bank failures, claims and assessments;
- | changes in government legislation and accounting policies, including, but not limited to, Financial Accounting Standards Board ("FASB") policies and procedures, Federal Reserve policies in connection with continued inflationary pressures, the Dodd-Frank Wall Street Reform and Consumer Protection Act and Economic Growth, Regulatory Relief and Consumer Protection Act ("EGRRCPA"), as well as the impact of the 2024 U.S. Presidential election;
- | competition and consolidation in the financial services industry;
- | new legal claims against us, including litigation, arbitration and proceedings brought by governmental or self-regulatory agencies or changes in existing legal matters;
- | success in gaining regulatory approvals, when required, including for proposed mergers or acquisitions;
- | changes in consumer spending and savings habits, including demand for loan products and deposit flow;
- | increased competitive challenges and expanding product and pricing pressures among financial institutions and non-bank financial companies;
- | operational risks or risk management failures by us, our customers or critical third parties, including without limitation, with respect to data processing, information systems, compliance with bank secrecy and anti-money laundering laws, technological changes, vendor problems, business interruptions and fraud risk;
- | increasing risk of continually evolving, sophisticated cybersecurity activities faced by financial institutions and others, including new developments in artificial intelligence, machine learning, and robotics, that may create new vulnerabilities and cybersecurity risks and could result in, among other things, theft, loss, misuse or disclosure of confidential client, customer or corporate information or assets and a disruption of computer, software or network systems and the potential impact from such risks, including reputational damage, regulatory penalties, loss of revenues, additional costs (including repair, remediation and other costs), exposure to litigation and other financial losses;
- | risks, uncertainties and losses involved with the developing digital assets industry, including the evolving regulatory framework;
- | failure or circumvention of internal controls;
- | legislative or regulatory changes which that adversely affect our operations or business, including the possibility of increased regulatory oversight due to changes in the nature and complexity of our business model;
- | increased emphasis by regulators on federal and state consumer protection laws that extensively govern customer relationships;
- | risks and potential losses involved with uninsured deposits beyond FDIC limitations;
- | costs of deposit insurance and changes with respect to FDIC insurance coverage levels; and
- | our ability to navigate any environmental, social, governmental or sustainability concerns that may arise arising from our business activities.

Further, we urge you to carefully review and consider the cautionary statements and disclosures, specifically those made in Part I, *Item 1A, Risk Factors*, of our Annual Report on Form 10-K for the year ended December 31, 2023 (the "2023 Form 10-K"), filed with the Securities and Exchange Commission ("SEC") on March 13, 2024, and from time to time, in our other filings with the SEC. Actual results may differ materially from those expressed in or implied by any forward-looking statement. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. Except to the extent required by law, we undertake no obligation to update any forward-

looking statements in order to reflect any event or circumstance occurring after the date of this report or currently unknown facts or conditions or the occurrence of unanticipated events. All forward-looking statements are qualified in their entirety by this cautionary statement.

REFERENCES

Unless the context otherwise requires, references in this report to “MVB,” the “Company,” “we,” “us,” “our” and “ours” refer to the registrant, MVB Financial Corp., and its subsidiaries consolidated for the purposes of its financial statements.

## **Notes to the Consolidated Financial Statements**

### **Note 1 – Nature of Operations and Basis of Presentation**

#### ***Business and Organization***

MVB Financial Corp. is a financial holding company organized in 2003 as a West Virginia corporation that operates principally through its wholly-owned subsidiary, MVB Bank, Inc. (the "Bank"). The Bank's consolidated subsidiaries include MVB Edge Ventures, Inc. ("Edge Ventures"), Paladin Fraud, LLC ("Paladin Fraud") and MVB Insurance, LLC ("MVB Insurance"). The Bank owns a controlling interest in Trabian Technology, Inc. ("Trabian"). Edge Ventures wholly-owns Victor Technologies, Inc. ("Victor") and MVB Technology, LLC ("MVB Technology"). The Bank also owns an equity method investment in Intercoastal Mortgage Company, LLC ("ICM") and MVB Financial Corp. owns equity method investments in Warp Speed Holdings, LLC ("Warp Speed") and Ayers Socure II, LLC ("Ayers Socure II"). MVB Financial Corp.'s consolidated subsidiaries also includes SPE PR, LLC.

Through our professional services entities, which include Paladin Fraud and Trabian, we provide consulting solutions to assist **Fintech and corporate** clients in building digital products and meeting their fraud defense needs.

In February 2023, we completed the sale of the Bank's wholly-owned subsidiary, ProCo Global, Inc. ("Chartwell," which does business under the registered trade name Chartwell Compliance). In May 2023, we entered into an agreement with Flexia Payments, LLC ("Flexia"), to facilitate the divestiture of our interests in the ongoing business of Flexia. Refer to *Note 15 – Acquisition & Divestiture Activity*.

We conduct a wide range of business activities through the Bank, primarily commercial and retail ("CoRe") banking services, as well as Fintech banking.

#### ***CoRe Banking***

We offer our customers a full range of products and services including:

- Various demand deposit accounts, savings accounts, money market accounts and certificates of deposit;
- Commercial, consumer and real estate mortgage loans and lines of credit;
- Debit cards;
- Cashier's checks; and
- Safe deposit rental facilities.

### Fintech Banking

We provide innovative strategies to independent banking and corporate clients throughout the United States. Our dedicated Fintech team specializes in providing banking services to corporate Fintech clients, primarily focusing on operational risk management and compliance. Managing banking relationships with clients in the gaming, payments and banking-as-a-service industries is complex, from both an operational and regulatory perspective. Due to this complexity, there are a limited number of banking institutions serving these industries, which can result in a lack of quality focus on these entities, providing us with an expanded pool of potential customers. When serviced in a safe, safe and efficient manner, efficiently, we believe these industries provide a source of stable, lower-cost deposits and noninterest, fee-based income. We thoroughly analyze each industry in which our customers operate, as well as any new products or services provided, from both an operational and regulatory perspective.

### Principles of Consolidation and Basis of Presentation

The financial statements are consolidated to include the accounts of MVB and its subsidiaries, including the Bank and the Bank's subsidiaries. In our opinion, the accompanying consolidated financial statements contain all normal recurring adjustments necessary for a fair presentation of our financial statements for interim periods in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and with instructions for Form 10-Q and Article 10 of Regulation S-X of the SEC. All significant intercompany accounts and transactions have been eliminated in consolidated financial statements. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been omitted. The consolidated balance sheet as of December 31, 2023 has been derived from audited financial statements included in our Annual Report on 2023 Form 10-K for the year ended December 31, 2023 (the "2023 Form 10-K"). 10-K. The

information presented in this Quarterly Report on Form 10-Q should be read in conjunction with our audited consolidated financial statements and notes thereto included in the 2023 Form 10-K. Operating results for the three and six nine months ended June 30, 2024 September 30, 2024 are not necessarily indicative of the results that may be expected for the year ending December 31, 2024.

Wholly-owned investments or investments in which we have a controlling financial interest, whether majority owned or in certain circumstances a minority interest, are required to be consolidated into our financial statements. We evaluate investments in entities on an ongoing basis to determine the need to consolidate.

The Bank owns an 80.8% interest in Trabian, which ownership interest represents a controlling interest. Accordingly, we are required to consolidate 100% of Trabian within our consolidated financial statements. The remaining interests of in Trabian are accounted for separately as noncontrolling interests within our consolidated financial statements. Noncontrolling interest represents the portion of ownership and profit or loss that is attributable to the minority owners of these entities. this entity.

Unconsolidated investments where we have the ability to exercise significant influence over the operating and financial policies of the respective investee are accounted for using the equity method of accounting. Those investments that are not consolidated or accounted for using the equity method of accounting are accounted for under cost or fair value accounting. For investments accounted for under the equity method, we record our investment in non-consolidated affiliates and the portion of income or loss in equity in earnings of non-consolidated affiliates. We periodically evaluate these investments for impairment. As of June 30, 2024 September 30, 2024, we held three equity method investments. See Note 5 – Equity Method Investments for further information.

Preparation of our consolidated financial statements in accordance with U.S. GAAP requires us to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. These estimates are based upon the best available information and actual results could differ from those estimates. An estimate that is particularly significant to the consolidated financial statements relates to the determination of the allowance for credit losses ("ACL").

In certain instances, amounts reported in prior period consolidated financial statements and accompanying notes may be reclassified to conform to the current presentation. Specifically, in Note 3 – Loans and Allowance for Credit Losses, certain amounts within the table presenting the amortized cost of loans summarized by vintage year as of December 31, 2023 were reclassified. At June 30, 2024 September 30, 2024, we elected to disaggregate the revolving loans amortized costs basis balances and present the balances by year of origination, rather than disclosing in a single column as they were presented as of December 31, 2023. The impact of this reclassification was only to Note 3 – Loans and Allowance for Credit Losses and did not affect the financial statements. In addition, within the consolidated statement of cash flows, certain amounts were reclassified from operating activities to investing activities related to our equity method investments for the nine months ended September 30, 2023.

We have evaluated subsequent events for potential recognition and/or disclosure through the date these consolidated financial statements were issued.

### Recently Issued Accounting Pronouncements

In March 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. The amendments provide optional expedients and exceptions for certain contracts, hedging relationships and other transactions that reference LIBOR or another reference rate expected to be discontinued because of rate reform. In December 2022, the FASB issued ASC 2022-06, *Deferral of the Sunset Date of Topic 848*, which extends the sunset date of Topic 848 from December 31, 2022, to December 31, 2024. The guidance permits entities to not apply modification accounting or remeasure lease payments in lease contracts if the changes to the contract are related to the discontinuation of the reference rate. If certain criteria are met, the amendments also allow exceptions to the de-designation criteria of the hedging relationship and the assessment of hedge effectiveness during the transition period. In January

2021, ASU 2021-01 was issued by the FASB and clarifies clarified that certain exceptions in reference rate reform apply to derivatives that are affected by the discounting transition. As of June 30, 2024 September 30, 2024, all loans and other relevant financial instruments that referenced LIBOR have been transitioned to the secured overnight financing rate ("SOFR").

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segments Disclosures*. The amendments are intended to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. In addition, the amendments clarify circumstances in which an entity can disclose multiple segment measures of profit or loss and provide new segment disclosure requirements for entities with a single reportable segment. The amendments are effective for fiscal years beginning after December 15, 2023 and interim periods within fiscal years

beginning after December 15, 2024. We are currently evaluating the impact these changes may have on our consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*. The amendments require disaggregated information about a reporting entity's effect tax rate reconciliation, as well as information on income taxes paid. Public business entities will be required to disclose additional information in specified categories with respect to the reconciliation of the effective tax rate to the statutory rate for federal, state and foreign income taxes. The amendments also require greater detail about individual reconciling items in the rate reconciliation to the extent that the impact of those items exceeds a specified threshold. The amendments are effective for fiscal years beginning after December 15, 2024. We are currently evaluating the impact these changes may have on our consolidated financial statements.

In March 2024, the FASB issued ASU 2024-01, *Compensation - Stock Compensation (Topic 718): Scope Application of Profits Interest and Similar Awards*. The amendments clarify how an entity determines whether a profits interest or similar award is (i) within the scope of *Compensation - Stock Compensation (Topic 718)* or (ii) not a share-based payment arrangements and therefore within the scope of other guidance. The amendments are effective for fiscal years beginning after December 15, 2024. We do not currently expect these amendments to have a material impact on our consolidated financial statements.

In November 2024, the FASB issued 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40)*. The amendments improve the disclosures about a public business entity's expenses and address requests from investors for more detailed information about the types of expenses (including purchases of inventory, employee compensation, depreciation, amortization, and depletion) in commonly presented expense captions (such as cost of sales and research and development). The amendments are effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. We are currently evaluating the impact these changes may have on our consolidated financial statements.

Recently Adopted Accounting Pronouncements

In January 2023, we adopted ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, and subsequent amendments to the initial guidance, which collectively comprise *Accounting Standards Codification Topic 326 Financial Instruments - Credit Losses* ("ASC 326"). ASC 326 replaced the incurred loss impairment methodology in current U.S. GAAP with an expected credit loss methodology and required consideration of a broader range of information to determine credit loss estimates. Financial assets measured at amortized cost are presented at the net amount expected to be collected by using an ACL. Purchased credit deteriorated ("PCD") loans received an allowance account at the acquisition date that represents a component of the purchase price allocation. Credit losses relating to available-for-sale debt securities are recorded through an ACL, with such allowance limited to the amount by which fair value is below amortized cost. We adopted ASC 326 using the modified retrospective method for loans, leases and off-balance sheet credit exposures. Adoption of this guidance resulted in a \$10.0 million increase in the ACL, comprised of increases in the ACL for loans of \$8.9 million and the ACL for unfunded commitments of \$1.1 million, with \$1.2 million of the increase reclassified from the amortized cost basis of PCD financial assets. This increase was offset by \$2.1 million related to tax effect, resulting in a cumulative adjustment to retained earnings of \$6.6 million. For additional information on the new standard, see *Note 1 - Summary of Significant Accounting Policies* to the consolidated financial statements included in *Item 8, Financial Statements and Supplementary Data*, of the 2023 Form 10-K.

Note 2 – Investment Securities

The following tables present amortized cost and fair values of investment securities available-for-sale as of the periods shown:

(Dollars in thousands)	June 30, 2024					September 30, 2024				
	(Dollars in thousands)	Amortized Cost	Unrealized Gain	Unrealized Loss	Fair Value	(Dollars in thousands)	Amortized Cost	Unrealized Gain	Unrealized Loss	Fair Value

Corporate debt securities	9,076	—	(134)	8,942
Other debt securities	7,500	—	—	7,500
Total available-for-sale debt securities	376,984	1,000	(33,489)	344,495
Other securities	780	—	—	780
Investment securities available-for-sale	\$ 377,764	\$ 1,000	\$ (33,489)	\$ 345,275

The following table presents amortized cost and fair values of available-for-sale debt securities by contractual maturity as of the period shown:

(Dollars in thousands)	(Dollars in thousands)	June 30, 2024		(Dollars in thousands)	September 30, 2024	
		Amortized Cost	Fair Value		Amortized Cost	Fair Value
Within one year						
After one year, but within five years						
After five years, but within ten years						
After ten years						
Total available-for-sale debt securities						

The table above reflects contractual maturities. Actual results will differ as the loans underlying the mortgage-backed securities may be repaid sooner than scheduled.

Investment securities with a carrying value of \$224.2 million \$306.1 million and \$223.4 million at June 30, 2024 September 30, 2024 and December 31, 2023, respectively, were pledged to secure public funds, repurchase agreements and potential borrowings at the Federal Reserve discount window.

Our investment portfolio includes securities that are in an unrealized loss position as of June 30, 2024 September 30, 2024. We evaluate available-for-sale debt securities to determine whether the unrealized loss is due to credit-related factors or non-credit-related factors. When determining the ACL on securities, we consider such factors as adverse conditions specifically related to a certain security or to specific conditions in an industry or geographic area, our ability to hold the security for a period of time sufficient to allow for anticipated recovery in value, whether or not the security has been downgraded by a rating agency and whether or not the financial condition of the security issuer has severely deteriorated.

The following table summarizes the activity in the ACL related to available-for-sale debt securities during the three and nine months ended September 30, 2024. There was no activity in the ACL related to available-for-sale debt securities during the three and nine months ended September 30, 2023.

(Dollars in thousands)	Three Months Ended September 30, 2024		Nine Months Ended September 30, 2024	
ACL, beginning of period	\$	—	\$	—
Provision for credit losses		500		500
Charge-offs		(500)		(500)
ACL, end of period	\$	—	\$	—

Although these the available-for-sale debt securities in an unrealized loss position would result in a pre-tax loss of \$34.6 million \$26.1 million if sold at June 30, 2024 September 30, 2024, we have no intent to sell the applicable securities at such fair values, and maintain that we have the ability to hold these securities until all principal has been recovered. It is more likely than not that we will not, for liquidity purposes, sell any securities at a loss. Declines in the fair values of these securities can be traced to general market conditions, which reflect the prospect for the economy as a whole, rather than credit-related conditions. Therefore, we have no ACL losses related to these securities as of June 30, 2024 September 30, 2024.

The following tables show available-for-sale debt securities in an unrealized loss position for which an ACL has not been recorded as of June 30, 2024 September 30, 2024 and December 31, 2023, aggregated by investment category and length of time that the individual securities have been in a continuous loss position:

		June 30, 2024				September 30, 2024

We currently manage our loan portfolios and the respective exposure to credit losses (credit risk) by the specific portfolio segments shown below. Our loan portfolio segmentation is based primarily on call report codes, which are levels at which we develop and document our systematic methodology to determine the ACL attributable to each respective portfolio segment. The ACL portfolio segments are aggregated into broader segments in order to present informative yet concise disclosures within this document, as follows:

**Commercial business loans** – Commercial business loans are made to provide funds for equipment and general corporate needs, as well as to finance owner-occupied real estate, and to finance future cash flows of Federal government lease contracts. Repayment of these loans primarily uses the funds obtained from the operation of the borrower’s business. Commercial business loans also include lines of credit that are utilized to finance a borrower’s short-term credit needs and/or to finance a percentage of eligible receivables and inventory. This segment includes both internally originated and purchased participation loans. Credit risk arises from the successful operation of the business, which may be affected by competition, rising interest rates, regulatory changes and adverse conditions in the local and regional economy. **Commercial business loans include the following ACL segments: commercial and industrial (including both healthcare and SBA subsegments), commercial real estate owner-occupied (including both healthcare and SBA subsegments), government leases, and other loans.**

**Commercial real estate loans** – Commercial real estate loans consist of non-owner occupied properties, such as investment properties for retail, office and multifamily with a history of occupancy and cash flow. This segment includes both internally originated and purchased participation loans. These loans carry the risk of adverse changes in the local economy and a tenant’s deteriorating credit strength, lease expirations in soft markets and sustained vacancies, which can adversely impact cash flow. **Commercial real estate loans include the following ACL segments: commercial real estate non-owner occupied (including both healthcare and SBA subsegments).**

**Commercial acquisition, development and construction loans** – Commercial acquisition, development and construction loans are intended to finance the construction of commercial and residential properties, and also includes loans for the acquisition and development of land. Construction loans represent a higher degree of risk than permanent real estate loans and may be affected by a variety of factors such as the borrower’s ability to control costs and adhere to time schedules and the risk that **constructed units the market** may not **be absorbed by the market** absorb **constructed units** within the anticipated time frame or at the anticipated price. The loan commitment on these loans often includes an interest reserve that allows the lender to periodically advance loan funds to pay interest charges on the outstanding balance of the loan. **Commercial acquisition, development and construction loans include the following ACL segments: other construction (including an SBA subsegment).**

**Residential real estate** – This residential real estate segment contains permanent and construction mortgage loans principally to consumers, but also includes loans to residential real estate developers, secured by residential real estate, which we previously presented under commercial acquisitions, development and construction loans under the incurred loss model. Residential real estate loans to consumers are evaluated for the adequacy of repayment sources at the time of approval, based upon measures including credit scores, debt-to-income ratios and collateral values. Credit risk arises from the continuing financial stability of the borrower and, where applicable, the builder, which can be adversely impacted by job loss, divorce, illness or personal bankruptcy, among other factors. Residential real estate secured loans to developers represent a higher degree of risk than permanent real estate loans and may be affected by a variety of factors such as the borrower’s ability to control costs and adhere to time schedules and the risk that **constructed units the market** may not **be absorbed by the market** absorb **constructed units** within the anticipated time frame or at the anticipated price. Also

impacting credit risk would be a shortfall in the value of the residential real estate in relation to the outstanding loan balance in the event of a default or subsequent liquidation of the real estate collateral.

**Residential real estate loans include the following ACL segments: residential and residential construction (including SBA subsegment).**

**Home equity lines of credit** – This segment includes subsegments for senior lien and subordinate lien lines of credit. Credit risk is similar to residential real estate loans described above as it is subject to the borrower’s continuing financial stability and the value of the collateral securing the loan.

**Consumer loans** – This segment of loans includes primarily installment loans and personal lines of credit. Consumer loans include installment loans used by clients to purchase automobiles, boats and recreational vehicles. Credit risk is similar to residential real estate loans described above as it is subject to the borrower’s continuing financial stability and the value of the collateral securing the loan. This segment primarily includes loans purchased from a third-party originator that originates loans in order to finance the purchase of personal automotive **vehicles for sub-prime borrowers. vehicles**. Credit risk is unique as this segment includes only those loans provided to consumers **that who** cannot typically obtain financing through traditional lenders. As such, these loans are subject to a higher risk of default than the typical consumer loan. **Consumer loans include the following ACL segments: subprime consumer automotive and consumer.**

As of **June 30, 2024** **September 30, 2024**, the Bank’s other real estate owned balance totaled \$0.8 million, all of which was related to a 2020 acquisition of another bank. The other real estate owned balance consisted of two unrelated commercial properties. As of **June 30, 2024** **September 30, 2024**, there **was one** **were eight** residential **mortgage** **mortgages** in the process of foreclosure with a loan balance totaling **\$0.2** **\$3.4** million.

Bank management uses a nine-point internal risk rating system to monitor the credit quality of the overall loan portfolio. The first **six** **five** categories are considered not criticized and are aggregated as “Pass” rated. The criticized rating categories utilized by management generally follow bank regulatory definitions.

Loans categorized as “Pass” rated have adequate sources of repayment, with little identifiable risk of collection and general conformity to the Bank’s policy requirements, product guidelines and underwriting standards. Any exceptions that are identified during the underwriting and approval process have been adequately mitigated by other factors.

Loans categorized as “Special Mention” rated have potential weaknesses that deserve management’s close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or in the institution’s credit position at some future date. Special mention assets are not adversely classified and do not expose the institution to sufficient risk to warrant adverse classification.

Loans categorized as “Substandard” rated are inadequately protected by the current sound worth and paying capacity of the borrower or of the collateral pledged, if any. Loans so classified must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt and are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Loans categorized as “Doubtful” rated have all the weakness weaknesses inherent in those classified as Substandard with the added characteristic that the weakness makes collections or liquidation in full, on the basis of currently known facts, conditions and values, highly questionable and improbable. However, these loans are not yet rated as loss because certain events may occur which would salvage the debt.

Any portion of a loan that has been or is expected to be charged off is placed in the “Loss” category.

To help ensure that risk ratings are accurate and reflect the present and future capacity of borrowers to repay a loan as agreed, the Bank has a structured loan rating process with several layers of internal and external oversight. Generally, consumer and residential mortgage loans are included in the Pass categories, unless a specific action, such as past due status, bankruptcy, repossession or death, occurs to raise awareness of a possible credit event. The Bank’s Chief Credit Officer is responsible for the timely and accurate risk rating of the loans in the portfolio at origination and on an ongoing basis. The Bank’s Credit Department ensures that a review of all commercial relationships of \$1.0 million or more is performed annually.

Review of the appropriate risk grade is included in both the internal and external loan review process and on an ongoing basis. The Bank has an experienced credit department that continually reviews and assesses loans within the portfolio. The Bank engages an external consultant to conduct independent loan reviews on at least an annual basis. Generally, the external consultant reviews commercial relationships with the intent of reviewing 40% 35% to 45% 40% of the Bank’s commercial outstanding loan balances on an annual basis. The Bank’s credit department compiles detailed reviews, including plans for resolution, on loans classified as Substandard on a quarterly basis.

The following table presents the amortized cost of loans summarized by the aggregate Pass and the criticized categories of Special Mention, Substandard and Doubtful within the internal risk rating system by vintage year as of the period shown:

Management further monitors the performance and credit quality of the loan portfolio by analyzing the age of the portfolio as determined by the length of time a recorded payment is past due.

The following table presents the amortized cost basis in loans by aging category and accrual status as of the periods shown:

Total loans

The increase in acquisition, development and construction loans in non-accrual status from the December 31, 2023 was primarily the result of the addition of a \$14.6 million single commercial construction multifamily loan in that was put into non-accrual status during the multifamily space, three months ended June 30, 2024. The loan had a balance of \$13.5 million as of September 30, 2024.

The ACL is a valuation account that is deducted from the loans' amortized cost basis to present the net amount expected to be collected on the loans. Loans are charged off against the ACL when management believes the loan balance is uncollectible. Accrued interest receivable is excluded from the estimate of credit losses. Management determines the ACL balance using relevant available information, from internal and external sources, relating to past events, current conditions and reasonable and supportable forecasts. Historical credit behaviors along with model judgments provide the basis for the estimation of expected credit losses. Adjustments to modeled loss estimates may be made for differences in current loan-specific risk characteristics such as differences in underwriting standards, portfolio mix, delinquency level or term, as well as for changes in environmental conditions, such as changes in economic conditions, property values or other relevant factors.

The Bank's methodology for determining the ACL is based on the requirements of ASC 326. The ACL is calculated on a collective basis when similar risk characteristics exist. The ACL for the majority of loans and leases was calculated using a discounted cash flow methodology applied at a loan level with a one-year reasonable and supportable forecast period and a one-year straight-line reversion period with loss rates, prepayment assumptions and curtailment assumptions driven by each loan's collateral type. Expected credit loss rates were estimated using a regression model based on historical data from peer banks which incorporates a third-party vendor's economic forecast to predict the change in credit losses. As of June 30, 2024 September 30, 2024, the Bank

expects the markets in which it operates will experience economic improvements over the next one to two years. The ACL for only one portfolio segment consisting entirely of automotive loans to consumers was calculated under the remaining life methodology using straight-line amortization over the remaining life of the portfolio.

Loans that do not share risk characteristics are evaluated on an individual basis. Loans evaluated individually are not also included in the collective evaluation. When Bank management determines that foreclosure is probable or when the borrower is experiencing financial difficulty at the reporting date and repayment is expected to be substantially through the operation or sale of the collateral, expected credit losses are based on the fair value of the collateral at the reporting date, adjusted for selling costs as appropriate.

The following table presents the amortized cost basis of collateral-dependent loans by class of loans as of the periods shown:

<sup>1</sup> Excludes the provision for unfunded commitments and the provision for credit losses related to available-for-sale debt securities.

During the three and **six** **nine** months ended **June 30, 2024** **September 30, 2024**, there were charge offs totaling **\$1.5 million** **\$1.4 million** and **\$3.7 million** **\$5.1 million**, respectively. For the three months ended **June 30, 2024** **September 30, 2024**, **\$0.6 million** **\$1.0 million**, or **40%** **71%**, of charge offs were related to the subprime consumer automotive segment and **\$0.9 million** **\$0.4 million**, or **60%** **29%**, was related to five commercial notes secured by business assets. During the three and **six** **nine** months ended **June 30, 2024** **September 30, 2024**, the provision related to unfunded commitments was **\$0.1 million**, **\$0.3 million** and **\$0.5 million**, respectively. During the three and **six** **nine** months ended **June 30, 2023** **September 30, 2023**, there was an **inconsequential** and a **\$0.2 million** and **\$0.1 million** release of allowance related to unfunded commitments, respectively.

The ACL is based on estimates and actual losses will vary from current estimates. Management believes that the granularity of the portfolio segments, the related loss estimation methodologies and other qualitative factors, as well as the consistency in the application of assumptions, result in an ACL that is representative of the risk found in the components of the portfolio at any given date.

### Loan Modifications for Borrowers Experiencing Financial Difficulty

Occasionally, the Bank modifies loans to borrowers in financial distress by providing concessions that allow for the borrower to lower their payment obligations for a defined period, these may include, but are not limited to: principal forgiveness, payment delays, term extensions, interest rate reductions and any combinations of the preceding.

The following table summarize the amortized cost basis of loans that were modified as of the period shown:

As of **June 30, 2024** **September 30, 2024**, there **is one** **are three** modified **loan** **loans** that **has** **have** defaulted, with an amortized cost basis of **\$0.4 million** **\$2.3 million**. **This note** **All three loans are commercial notes that have government guarantees and are considered non-accrual as of September 30, 2024. As of September 30, 2023, there is a one commercial note with a government guarantee and is that was considered non-accrual as of June 30, 2024. As of June 30, 2023, there is one modified loan that has defaulted, with an amortized cost basis of \$2.1 million. This is a commercial note with a government guarantee and is considered non-accrual as of June 30, 2023 September 30, 2023. Upon the Bank’s determination that a modified loan (or portion of a loan) has subsequently been deemed uncollectible, the loan (or a portion of the loan) is written-off, written off. Therefore, the amortized cost basis of the loan is reduced by the uncollectible amount and the ACL is adjusted by the same amount.**

**Note 4 – Premises and Equipment**

The following table presents the components of premises and equipment as of the periods shown:

(Dollars in thousands)	(Dollars in thousands)	June 30, 2024	December 31, 2023	(Dollars in thousands)	September 30, 2024	December 31, 2023

Premises and equipment, net						

We lease certain premises and equipment under operating and finance leases. At **June 30, 2024** **September 30, 2024**, we had lease liabilities totaling **\$13.2****\$12.9** millionand right-of-use assets totaling **\$12.0** **\$11.7** million, substantially all of which was related to operating leases. At **June 30, 2024** **September 30, 2024**, the weighted-average remaining lease term for operating leases was **10.2****10.1** yearsand the weighted-average discount rate used in the measurement of operating lease liabilities was 3.1%.

At December 31, 2023, we had lease liabilities totaling \$14.0 million and right-of-use assets totaling \$12.9 million, substantially all of which was related to operating leases. At December 31, 2023, the weighted-average remaining lease term for operating leases was 10.5 years and the weighted-average discount rate used in the measurement of operating lease liabilities was 3.1%.

Lease liabilities and right-of-use assets are reflected in accrued interest payable and other liabilities and accrued interest receivable and other assets, respectively.

The following table presents lease costs for the periods shown:

**Note 5 – Equity Method Investments**

In accordance with Rules 3-09 and 4-08(g) of Regulation S-X, we must assess whether our equity method investments are significant. In evaluating the significance of these investments, we performed the income, investment and asset tests described in S-X 1-02(w) for each equity method investment. Rule 4-08(g) of Regulation S-X requires summarized financial information for all equity method investees in a quarterly report if any of the equity method investees, individually or in the aggregate, result in any of the tests exceeding 10%.

Under the income test, our proportionate share of the revenue from equity method investments in the aggregate exceeded the applicable threshold under Rule 4-08(g) of 10%, accordingly, we are required to provide summarized income statement information for all investees for all periods presented. There were no equity method investments which met any of the applicable thresholds for reporting separate financial statements in accordance with Rule 3-09.

Our equity method investments are initially recorded at cost, including transaction costs to obtain the equity method investment, and are subsequently adjusted for changes due to our share of the entities' earnings.

**ICM**

The following table presents summarized income statement information for ICM for the periods shown:

		Three Months Ended June 30,		Six Months Ended June 30,						
		Three Months Ended September 30,		Nine Months Ended September 30,						
(Dollars in thousands)	(Dollars in thousands)	2024	2023	2024	2023	(Dollars in thousands)	2024	2023	2024	2023
Total revenues										
Net income (loss)										
Gain on loans sold										
Gain on loans sold										
Gain on loans sold										

Gain (loss) on loans held-for-sale

Volume of loans sold

Our ownership percentage of 40% of ICM allows us to have significant influence over the operations and decision making at ICM. Accordingly, the investment, which had a carrying value of \$23.423.8 millionat June 30, 2024September 30, 2024, is accounted for as an equity method investment. Our share of ICM's net income totaled \$0.40.2 million and \$0.2\$0.4 million for the three and sixnine months ended June 30, 2024September 30, 2024, respectively, while our share of ICM's net loss totaled \$0.40.6 million and \$1.72.3 million for the three and sixnine months endedJune 30, 2023, September 30, 2023, respectively. As of JuneSeptember 30, 2024 and December 31, 2023, the mortgage pipeline was \$537.8\$518.1 millionand \$439.0 million, respectively.

Warp Speed

The following table presents summarized income statement information for our equity method investment in Warp Speed for the periods shown:

		Three Months Ended June 30,		Six Months Ended June 30,						
		Three Months Ended September 30,		Nine Months Ended September 30,						
(Dollars in thousands)	(Dollars in thousands)	2024	2023	2024	2023	(Dollars in thousands)	2024	2023	2024	2023
Total revenues										
Net income (loss)										
Gain on loans sold										
Gain on loans sold										
Gain on loans sold										
Gain (loss) on loans held-for-sale										
Volume of loans sold										

In October 2022, we acquired a 37.5% interest in Warp Speed and accounted for our ownership as an equity method investment, initially recorded at cost including costs incurred to obtain the equity method investment. It was determined that ourOur ownership percentage of 37.5% of Warp Speed provides that weallows us to have significant influence over its operations and decision making. Accordingly, the investment, which had a carrying value of \$50.951.9 million at June 30, 2024September 30, 2024, is accounted for as an equity method investment. At the time of acquisition, we made a policy election to record our proportionate share of net income of the investee on a three month lag. Our share of Warp Speed's net income and loss totaled \$0.10.5 million and \$0.80.3 million for the three and sixnine months ended June 30, 2024September 30, 2024, respectively, while our share of net loss and income totaled \$2.30.1 million and \$3.3 million for the three and sixnine months ended JuneSeptember 30, 2023, respectively. As of JuneSeptember 30, 2024 and December 31, 2023, the mortgage pipeline was \$390.1\$530.8 million and \$267.8 million, respectively.

Ayers Socure II

Our ownership percentage of Ayers Socure II is 10% and it was determined that we have significant influence over the company. Accordingly, the investment is accounted for as an equity method investment. Our share of net income from Ayers Socure II for the three and sixnine months ended June 30, 2024September 30, 2024 was not significant. The equity method investment in Ayers Socure II is not considered a significant investment based on the criteria of Rules 3-09 and 4-08(g) of Regulation S-X.

Ayers Socure II's sole business is ownership of equity securities in Socure Inc. ("Socure"). In addition to our equity method investment in Ayers Socure II, we also have a direct equity security ownership interest in Socure. With the combination of our investments in both Ayers Socure II and Socure directly, we own less than 1% of Socure in the aggregate.

As of June 30, 2024 September 30, 2024 and December 31, 2023, overdrawn deposit accounts totaling \$3.2 million \$2.2 million and \$3.8 million were reclassified as loan balances.

Note 7 – Borrowed Funds

The Bank is a member of the Federal Home Loan Bank (“FHLB”) of Pittsburgh, Pennsylvania. As of June 30, 2024 September 30, 2024, the Bank’s maximum borrowing capacity with the FHLB was \$692.9 million \$689.0 million and the remaining borrowing capacity was \$665.8 million \$675.9 million, with the difference being deposit letters of credit of \$25.9 million \$11.9 million and credit enhancement recourse obligations related to the master commitments through the FHLB’s Mortgage Partnership Finance program of \$1.2 million.

Short-term borrowings

As of June 30, 2024 September 30, 2024 and December 31, 2023, the Bank had no short-term borrowings with the FHLB or Federal Reserve Bank and no federal funds purchased outstanding.

The following table presents information related to short-term borrowings as of and for the periods indicated:

(Dollars in thousands)	(Dollars in thousands)	Six Months Ended June 30, 2024	Year Ended December 31, 2023	(Dollars in thousands)	Nine Months Ended September 30, 2024	Year Ended December 31, 2023
Balance at end of period						
Average balance during the period						
Maximum month-end balance						
Weighted-average rate during the period	Weighted-average rate during the period	5.98 %	5.07 %	Weighted-average rate during the period	5.99 %	5.07 %
Weighted-average rate at end of period	Weighted-average rate at end of period	— %	— %	Weighted-average rate at end of period	— %	— %

Long-term borrowings

As of June September 30, 2024 and December 31, 2023, the Bank had no long-term borrowings with the FHLB or the Federal Reserve Bank.

Repurchase agreements

Along with traditional deposits, the Bank has access to securities sold under agreements to repurchase (“repurchase agreements”) with clients representing funds deposited by clients, on an overnight basis, that are collateralized by investment securities owned by us. All repurchase agreements are subject to terms and conditions of repurchase/security

agreements between us and the client and are accounted for as secured borrowings. Our repurchase agreements reflected in liabilities consist of client accounts and securities which are pledged on an individual security basis.

We monitor the fair value of the underlying securities on a monthly basis. Repurchase agreements are reflected in the amount of cash received in connection with the transaction. The primary risk with our repurchase agreements is the market risk associated with the investments securing the transactions, as we may be required to provide additional collateral based on fair value changes of the underlying investments. Securities pledged as collateral under repurchase agreements are maintained with our safekeeping agents.

As of **June 30, 2024**, **September 30, 2024** and December 31, 2023, all of our repurchase agreements were overnight agreements. These borrowings were collateralized with investment securities with a carrying value of **\$2.4 million**, **\$4.9 million** at both **September 30, 2024** and **\$4.9 million** at **June 30, 2024** and December 31, 2023, respectively, and were comprised of United States government agency securities and United States sponsored mortgage-backed securities. Declines in the value of the collateral would require us to increase the amounts of securities pledged.

The following table presents information related to repurchase agreements as of and for the periods shown:

(Dollars in thousands)	(Dollars in thousands)	Six Months Ended June 30, 2024	Year Ended December 31, 2023	(Dollars in thousands)	Nine Months Ended September 30, 2024	Year Ended December 31, 2023

In September 2021, we completed the private placement of \$30.0 million fixed-to-floating rate subordinated notes to certain qualified institutional investors. These notes are unsecured and have a 10-year term, maturing October 1, 2031, and will bear interest at a fixed rate of 3.25%, payable semi-annually in arrears, for the first five years of the term. Thereafter, the interest rate will reset quarterly to an interest rate per annum equal to a benchmark rate, which is Three-Month Term SOFR, plus 254 basis points, payable quarterly in arrears. These notes have been structured to qualify as Tier 2 capital for regulatory capital purposes.

In November 2020, we completed the private placement of \$40.0 million fixed-to-floating rate subordinated notes to certain qualified institutional investors. These notes are unsecured and have a ten-year term, maturing December 1, 2030, and will bear interest at a fixed rate of 4.25%, payable semi-annually in arrears, for the first five years of the term. Thereafter, the interest rate will reset quarterly to an interest rate per annum equal to a benchmark rate, which is Three-Month Term SOFR, plus 401 basis points, payable quarterly in arrears. These notes have been structured to qualify as Tier 2 capital for regulatory capital purposes.

In March 2007, we completed the private placement of \$4.0 million Floating Rate, Trust Preferred Securities through our MVB Financial Statutory Trust I subsidiary (the "Trust"). We established the Trust for the sole purpose of issuing the Trust Preferred Securities pursuant to an Amended and Restated Declaration of Trust. The Trust Preferred Securities and the Debentures mature in 2037 and have been redeemable by us since 2012. Interest payments are due in March, June, September and December and are adjusted at the interest due dates at a rate of 0.26% plus Three-Month Term SOFR. The obligations we provide with respect to the issuance of the trust preferred securities constitute a full and unconditional guarantee by us of the Trust's obligations with respect to the trust preferred securities to the extent set forth in the related guarantees. The securities issued by the Trust are includable for regulatory purposes as a component of our Tier 1 capital.

### Senior term loan

The following table presents information related to senior term loan as of and for the periods shown:

(Dollars in thousands)	(Dollars in thousands)	Six Months Ended June 30, 2024	Year Ended December 31, 2023	(Dollars in thousands)	Nine Months Ended September 30, 2024	Year Ended December 31, 2023

In October 2022, we entered into a credit agreement with Raymond James Bank ("Raymond James"). Pursuant to the credit agreement, Raymond James has extended to us a senior term loan in the aggregate principal amount of up to \$10.0 million. In connection with the closing of the Warp Speed transaction, we borrowed \$10.0 million and paid Raymond James an upfront fee of 1% of the loan amount. The loan bore interest per annum at a rate equal to 2.75%, plus term SOFR, which reset monthly. Accrued interest was payable on the last business day of each month, beginning with October 31, 2022, with the then outstanding principal balance of the loan payable on the last business day of each quarter in the amount of \$125,000 during the first year and \$250,000 thereafter. In May 2024, the senior term loan was repaid.

We participate in a trusteed pension plan known as the Allegheny Group Retirement Plan. Benefits are based on years of service and the employee's compensation. Accruals under the plan were frozen as of May 31, 2014. Freezing the plan resulted in a remeasurement of the pension obligations and plan assets as of the freeze date. The pension obligation was remeasured using the discount rate based on the Citigroup Above Median Pension Discount Curve in effect on May 31, 2014 of 4.5%.

[illegible]

In June 2017, we approved a Supplemental Executive Retirement Plan (the “SERP”), pursuant to which the Chief Executive Officer of Potomac Mortgage Group (“PMG”) is entitled to receive certain supplemental nonqualified retirement benefits. The SERP took effect on December 31, 2017. As the executive completed three years of continuous employment with PMG prior to retirement date (which shall be no earlier than the date he attains age 55) he will, upon retirement, be entitled to receive \$1.8 million payable in 180 equal consecutive monthly installments. The liability is calculated by discounting the anticipated future cash flows at 4.0%. The liability accrued for this obligation was \$1.5 million \$1.6 million as of June 30, 2024 September 30, 2024 and \$1.4 million December 31, 2023, respectively. Service cost was not material for any periods covered by this report. In February 2024, the SERP was terminated. Within the agreement, there is a one year provision for payment delay. As such, the \$1.8 million obligation is scheduled to be paid in February 2025.

Note 10 – Fair Value Measurements

Fair value estimates are made at a specific point in time, based on relevant market information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time of our entire holdings of a particular financial instrument. Because no market exists for a significant portion of our financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment, and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates. Fair value estimates are based on existing on-and-off balance sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments.

The methods of determining the fair value of assets and liabilities presented in this footnote are consistent with our methodologies disclosed in *Note 1 - Summary of Significant Accounting Policies* to the consolidated financial statements included in *Item 8, Financial Statements and Supplementary Data*, of the 2023 Form 10-K. **Valuation techniques for the assets and liabilities described below are consistent with techniques used in prior periods.**

Assets Measured on a Recurring Basis

As required by accounting standards, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following measurements are made on a recurring basis.

**Available-for-sale investment securities** – Available-for-sale investment securities are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions and other factors such as credit loss assumptions. Level I securities include those traded on an active exchange, such as the New York Stock Exchange and money market funds. Level II securities include mortgage-backed securities issued by government sponsored entities and private label entities, municipal bonds, United States Treasury securities that are traded by dealers or brokers in inactive over-the-counter markets and corporate debt securities. **There have been no changes in valuation techniques for the three and six months ended June 30, 2024. Valuation techniques are consistent with techniques used in prior periods.** Certain local municipal securities related to tax increment financing ("TIF") are independently valued and classified as Level III instruments. **We classified investments in government securities as Level II instruments and valued them using the market approach.**

**Equity securities** – Certain equity securities are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions and other factors such as credit loss assumptions. The valuation methodologies utilized may include significant unobservable inputs. **There have been no changes in valuation techniques for the three and six months ended June 30, 2024. Valuation techniques are consistent with techniques used in prior periods.**

**Loans held-for-sale**  The fair value of loans held-for-sale is determined, when possible, using quoted secondary market prices or investor commitments. If no such quoted price exists, the fair value of a loan is determined using quoted prices for a similar asset or assets, adjusted for the specific attributes of that loan, which would be used by other market participants. If the fair value at the reporting date exceeds the amortized cost of a loan, the loan is reported at amortized cost.

**Interest rate swaps** – Interest rate swaps are recorded at fair value based on third-party vendors who compile prices from various sources and may determine the fair value of identical or similar instruments by using pricing models that consider observable market data.

**Fair value hedges** – Treated like an interest rate swap, fair value hedges are recorded at fair value based on third-party vendors who compile prices from various sources and may determine fair value of identical or similar instruments by using pricing models that consider observable market data.

**Embedded derivatives**  Accounted for and recorded separately from the underlying contract as a derivative at fair value on a recurring basis. Fair values are determined using the Monte Carlo model valuation technique. The valuation methodology utilized includes significant unobservable inputs.

The following tables present assets and liabilities reported on the consolidated statements of financial condition at their fair value on a recurring basis as of the periods shown by level within the fair value hierarchy:

## Assets Measured on a Nonrecurring Basis

We From time to time, we may be required from time to time, to measure certain financial assets, financial liabilities, non-financial assets and non-financial liabilities at fair value on a nonrecurring basis in accordance with U.S. GAAP. These include assets that are measured at the lower of cost or market value that were recognized at fair value below cost at the end of the period. Certain non-financial assets measured at fair value on a non-recurring basis include foreclosed assets (upon initial recognition or subsequent impairment), non-financial assets and non-financial liabilities measured at fair value in the second step of a goodwill impairment test and intangible assets and other non-financial long-lived assets measured at fair value for impairment assessment. Non-financial assets measured at fair value on a nonrecurring basis during 2024 and 2023 include certain acquired foreclosed assets which, upon initial recognition, acquisition, were remeasured and reported measured at fair value through a charge-off to the allowance for possible credit losses and certain foreclosed assets which, subsequent market value. Subsequent to their initial recognition, the foreclosed assets were remeasured at fair value through a write-down included in other noninterest expense.

**Collateral-dependent loans** — Certain loans receivable are evaluated individually for credit loss when the borrower is experiencing financial difficulties and repayment is expected to be provided substantially through the operation or sale of collateral. Estimated credit losses are based on the fair value of the collateral, adjusted for costs to sell. Collateral values are estimated using Level II inputs based on observable market data or Level III inputs based on customized discounting criteria. For a majority of collateral-dependent real estate related loans, we obtain a current an external appraisal. Other valuation techniques are used as well, including internal valuations, comparable property analysis and contractual sales information.

**Loans held-for-sale** — The fair value of loans held-for-sale is determined, when possible, using quoted secondary-market prices or investor commitments. If no such quoted price exists, the fair value of a loan is determined using quoted prices for a similar asset or assets, adjusted for the specific attributes of that loan, which would be used by other market participants. If the fair value at the reporting date exceeds the amortized cost of a loan, the loan is reported at amortized cost.

**Other real estate owned** — Other real estate owned, which is obtained through the Bank's foreclosure process, is valued utilizing the appraised collateral value. Collateral values are estimated using Level II inputs based on observable market data or Level III inputs based on customized discounting criteria. At the time the foreclosure is completed, we obtain a current an external appraisal.

**Other debt securities** — Certain debt securities are recorded at fair value on a nonrecurring basis. These other debt securities are securities without a readily determinable fair value and are measured at cost minus impairment, if any, plus or minus any changes resulting from observable price changes in orderly transactions, as defined, for identical or similar investments of the same issuer.

**Equity securities** — Certain equity securities are recorded at fair value on a nonrecurring basis. Equity securities without a readily determinable fair value are measured at cost minus impairment, if any, plus or minus any changes resulting from observable price changes in orderly transactions, as defined, for identical or similar investments of the same issuer.

The following table presents the fair value of these assets as of the periods shown:

		June 30, 2024					September 30, 2024

<sup>1</sup> Fair value is generally determined through independent appraisals of the underlying collateral, which generally include various Level III inputs that are not identifiable.

<sup>2</sup> Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses. The range and weighted average weighted-average of liquidation expenses and other appraisal adjustments are presented as a percent of the appraisal.

<sup>3</sup> Fair value is determined through independent analysis of liquidity, rating, yield and duration.

<sup>4</sup> Appraisals may be adjusted for qualitative factors, such as local economic conditions, liquidity, marketability and legal structure.

<sup>5</sup> Municipal securities classified as Level III instruments are comprised of TIF bonds related to certain local municipal securities.

<sup>4</sup> Fair value is determined through independent analysis of liquidity, rating, yield and duration.

<sup>5</sup> Appraisals may be adjusted for qualitative factors, such as local economic conditions, liquidity, marketability and legal structure.

## Note 11 – Derivatives

We use certain derivative instruments to meet the needs of customers, as well as to manage the interest rate risk associated with certain transactions. All derivative financial instruments are recognized as either assets or liabilities and measured at fair value.

### Fair Value Hedges of Interest Rate Risk

We are exposed to changes in the fair value of fixed rate mortgages included in a closed portfolio due to changes in benchmark interest rates.

In 2023, we entered into five fixed portfolio layer method fair value swaps, designated as hedging instruments, to manage exposure to changes in fair value on fixed rate mortgages and certain fixed rate available for sale securities attributable to the designated interest rate. Four of the interest rate swaps are designated to hedge a closed portfolio of fixed rate mortgages and one of the interest rate swaps is designated to hedge a closed portfolio of fixed rate municipal bonds. The interest rate swaps involve the payment of fixed-rate amounts to a counterparty in exchange for us receiving variable-rate payments over the life of the agreements, without the exchange of the underlying notional amount.

We designated the fair value swaps under the portfolio layer method ("PLM") method. The total notional amount of the five swaps was \$432.8 \$429.3 million as of June 30, 2024 September 30, 2024, one of which is amortizing and included a \$17.2 \$20.7 million amortization adjustment to the notional amount at June 30, 2024 September 30, 2024. Under this method, the hedged items are designated as a hedged layer of closed portfolios of financial loans and municipal bonds that are anticipated to remain outstanding for the designated hedged periods. Adjustments are made to record the swaps at fair value, on the consolidated balance sheets, with changes in fair value recognized in interest income. The carrying values of the fair value swaps on the consolidated balance sheets are also adjusted through interest income, based on changes in fair value attributable to changes in the hedged risk.

The following table represents the carrying value of the portfolio layer method hedged assets and the cumulative fair value hedging adjustments included in the carrying value of the hedged assets as of June 30, 2024 September 30, 2024 and December 31, 2023:

Fixed rate mortgages																	
Fixed rate bonds																	
Total hedged assets																	

In October 2024, we discontinued a portfolio layer method fair value swap designated as a hedging instrument to hedge a closed portfolio of fixed rate mortgages. The hedge had a notional amount of \$250.0 million and was in a liability position with a fair value of \$2.8 million as of September 30, 2024. As part of the discontinuance, we incurred a \$1.7 million fee that will be amortized over the life of the related loans.

#### Derivatives Not Designated as Hedging Instruments

**Matched Interest Rate Swaps.** We enter into interest rate swap contracts to help commercial loan borrowers manage their interest rate risk. The interest rate swap contracts with commercial loan borrowers allow them to convert floating-rate loan payments to fixed rate loan payments. When we enter into an interest rate swap contract with a commercial loan borrower, we simultaneously enter into a "mirror" swap contract with a third-party. The third-party exchanges the borrower's fixed-rate loan payments for floating-rate loan payments. These derivatives are not designated as hedges and changes in fair value are recognized in earnings. Because these derivatives have mirror-image contractual terms, the changes in fair value substantially offset each other through earnings. Fees earned in connection with the execution of derivatives related to this program are recognized in earnings through loan-related derivative income.

The following tables summarize outstanding financial derivative instruments as of June 30, 2024 September 30, 2024 and December 31, 2023:

#### Embedded Derivative

In December 2022, we entered into an agreement to sell a portion of our shares of Interchecks Technologies, Inc., a former equity method investment that was subsequently reclassified to equity securities due to the decrease in the remaining ownership percentage. Based on the terms of the sale, we recognized the cash received at closing, as well as a receivable for the remaining installment payment, which is based on a future economic event and is accounted for and separately recorded as a derivative. The derivative instrument is included in accrued interest receivable and other assets on the consolidated balance sheet, while the gains and losses are included in noninterest income on the consolidated statement of income. The fair value of the embedded derivative was \$0.6 million at **June 30, 2024**, **September 30, 2024** and December 31, 2023, with no gain or loss for the **six nine** months ended **June 30, 2024**, **September 30, 2024** and a loss of \$0.1 million for the **six nine** months ended **June 30, 2023**, **September 30, 2023**.

#### Note 12 – Earnings per Share

We determine basic earnings per share (“EPS”) by dividing net income available to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted EPS is determined by dividing net income available to common shareholders by the weighted-average number of shares outstanding, increased by both the number of shares that would be issued assuming the exercise of instruments under our incentive stock plan.

The following table presents our calculation of EPS for the periods shown:

		Three Months		Six Months		Three Months		Nine Months

Note 14 – Segment Reporting

We have identified three reportable segments: CoRe Banking; Mortgage Banking; and Financial Holding Company. All other operating segments are summarized in an Other category.

Our CoRe Banking segment, which includes our Fintech division, represents banking products and services offered to customers by the Bank, primarily loans and deposits accounts. Revenue from banking activities consists primarily of interest earned on loans and investment securities and service charges on deposit accounts.

Revenue from our Mortgage Banking segment is primarily comprised of our share of net income or loss from mortgage banking activities of our equity method investments in ICM and Warp Speed.

Revenue from Financial Holding Company activities is mainly comprised of intercompany service income and dividends.

The following tables present information about the reportable segments and reconciliation to the consolidated financial statements for the periods shown:

Three Months Ended June 30, 2024	CoRe		Mortgage		Financial Holding		Intercompany			
Three Months Ended September 30, 2024	Banking	CoRe	Banking	Company	Mortgage	Other	Eliminations	Intercompany	Consolidated

Note 15 – Acquisition & Divestiture Activity

Flexia Payments, LLC

In May 2023, MVB Technology entered into an Assignment and Assumption Agreement with Flexia, wherein Flexia assigned loans outstanding between Flexia and MVB to MVB Technology. In consideration for the assignment, Flexia granted a license to MVB Technology for the Flexia software. Additionally, through a Mutual Release Agreement between Edge Ventures and Flexia, Edge Ventures transferred its 800 Class A Common Units and 1,500 Preferred Units of Flexia back to Flexia for cancellation. As a result of the transactions, we incurred a loss of \$1.1 million and no longer consolidate Flexia in our financial statements.

Chartwell Compliance

In February 2023, we completed the sale of the Bank’s wholly-owned subsidiary, Chartwell, for total consideration of \$14.4 million in the form of a note issued to the buyer, resulting in a gain on sale of \$11.8 million. The note matures June 20, 2027 in June 2027 and bears interest at a fixed rate of 7%, payable in four equal annual installments, commencing which commenced June 20, 2024. To facilitate a transition of the Chartwell services and support the onboarding and conversion of systems, we entered into a 60 day Employee Lease and Service Agreement, whereby we provided the purchaser with finance and accounting, human capital, information technology, marketing and record/data retention services. In addition, we entered into a contract with the purchaser to continue to provide services and support from Chartwell for three years following the sale. During the three and six nine months ended June 30, 2024 September 30, 2024, we have paid \$1.2 million \$1.0 million and \$2.4 million \$3.3 million in fees related to this contract, respectively.

Chartwell's net income is presented in income from discontinued operations for all periods shown. Prior period balances have been reclassified to conform with this presentation.

The following table presents the major classes of net income from discontinued operations for the periods shown:

### Flexia Payments, LLC

In May 2023, MVB Technology entered into an Assignment and Assumption Agreement with Flexia, wherein Flexia assigned loans outstanding between Flexia and MVB to MVB Technology. In consideration for the assignment, Flexia granted a license to MVB Technology for the Flexia software. Additionally, through a Mutual Release Agreement between Edge Ventures and Flexia, Edge Ventures transferred its 800 Class A Common Units and 1,500 Preferred Units of Flexia back to Flexia for cancellation. As a result of the transactions, we incurred a loss of \$1.1 million and no longer consolidate Flexia in our financial statements.

## Item 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the accompanying notes included elsewhere in this Quarterly Report on Form 10-Q and with the consolidated financial statements and accompanying notes and other detailed information appearing in the 2023 Form 10-K. To the extent that this discussion describes prior performance, the descriptions relate only to the periods listed, which may not be indicative of our future financial outcomes. In addition to historical information, this discussion contains forward-looking statements that involve risks, uncertainties and assumptions that could cause results to differ materially from management's expectations. See the "Forward-Looking Statements" section of this report for further information on forward-looking statements.

### Executive Summary

We continue to adapt our business model due to challenging market conditions, primarily due to the current high interest rate environment, a slowing economy and multiple high-profile bank failures that occurred during the first half of 2023. Interest rates have remained at an elevated level through June 30, 2024 September 30, 2024, as although the Federal Reserve raised did reduce its key interest rate to a range of 5.25% 4.75% to 5.50% 5.00% in July 2023; September 2024. Lower loan balances are the result of slower market demand, the impact of loan amortization and payoffs and slower loan growth based on overall market conditions and portfolio management. We initiated the process of winding down our digital asset program account relationships, while maintaining operating accounts, during the second quarter of 2024, a 2024. This decision that was prompted by changing market conditions and profitability challenges that contributed to an unfavorable risk/reward dynamic. We remain committed to the gaming, payments and banking-as-a-service industries. We continue to expand the Bank's treasury services function to support the banking needs of financial and emerging technology companies, which we believe will further enhance core deposits, notably through the expansion of deposit acquisition and fee income strategies through the Fintech division. Additionally, we have expanded our compliance and risk management team to support the growth in these lines of business.

### Current Market Conditions

There continues to be a focus on liquidity after the bank failures that occurred during the first half of 2023, when certain specialized banking institutions with elevated concentrations of uninsured deposits experienced large deposit outflows, resulting in the institutions being placed into FDIC receiverships. In the aftermath, there has been substantial market disruption and indications that deposit concerns could spread within the banking industry, leading to deposit outflows and other destabilizing results. These market events could have a material adverse effect on our business. A deterioration in economic conditions or the loss of confidence in financial institutions may result in deposit base outflows and limit our access to some of our customary sources of liquidity, including, but not limited to, inter-bank borrowings and borrowings from the Federal Reserve and FHLB. In addition, account and deposit balances may decrease when clients perceive alternative investments, such as the stock market or real estate, as providing a better risk/return trade-off. Furthermore, the portion of our deposit portfolio that is comprised of large uninsured deposits may be more likely to be withdrawn rapidly under adverse economic conditions. If our clients move money out of bank deposits into investments or to other financial institutions, we could lose a relatively low-cost source of funds. As of June 30, 2024 September 30, 2024 and December 31, 2023, our liquid assets totaled \$592.5 million \$645.0 million and \$504.3 million, respectively, which we believe would enable us to meet our cash obligations as they come due.

### Financial Results

#### Three Months Ended June 30, 2024 September 30, 2024 vs. Three Months Ended June 30, 2023 September 30, 2023

During the three months ended June 30, 2024 September 30, 2024, net interest income decreased \$2.0 million \$3.3 million, noninterest income increased \$0.7 million \$0.9 million and noninterest expenses decreased by \$1.4 million \$1.2 million compared to the three months ended June 30, 2023 September 30, 2023. Our tax-equivalent tax-equivalent yield on earning assets in the three months ended June 30, 2024 September 30, 2024 was 6.26% 6.32% compared to 6.02% 6.29% in the three months ended June 30, 2023 September 30, 2023. Loans receivable decreased by \$60.5 million \$35.5 million to \$2.21 billion \$2.17 billion during the three months ended June 30, 2024 September 30, 2024. Our overall cost

of interest-bearing liabilities was 4.15% 4.04% in the three months ended June 30, 2024 September 30, 2024 compared to 3.29% 3.58% in the three months ended June 30, 2023 September 30, 2023. This cost of interest-bearing liabilities, combined with the earning asset yield, resulted in a tax-equivalent net interest margin of 3.75% 3.61% in the three months ended June 30, 2024 September 30, 2024, compared to 3.80% 3.90% in the three months ended June 30, 2023 September 30, 2023.

Our net income for the three months ended June 30, 2024 September 30, 2024 was \$4.1 million \$2.1 million compared to \$8.1 million \$3.9 million in the three months ended June 30, 2023 September 30, 2023. Earnings for the three months ended June 30, 2024 September 30, 2024 equated to a return on average assets of 0.5% 0.3% and a return on average equity of 5.7% 2.8%, compared to the three months ended June 30, 2023 September 30, 2023 results of 1.0% 0.5% and 12.0% 5.8%, respectively. Basic and diluted earnings per share were \$0.32 \$0.16 for the three months ended September 30, 2024, compared to \$0.30

and \$0.31, \$0.29, respectively, for the three months ended June 30, 2024, compared to \$0.64 and

\$0.63, respectively, for the three months ended June 30, 2023 September 30, 2023.

Six Nine Months Ended June 30, 2024 September 30, 2024 vs. Six Nine Months Ended June 30, 2023 September 30, 2023

During the six nine months ended June 30, 2024 September 30, 2024, net interest income decreased \$4.6 million \$7.9 million, noninterest income increased \$5.5 million \$6.4 million and noninterest expenses increased decreased by \$0.5 million \$0.7 million compared to the six nine months ended June 30, 2023 September 30, 2023. Our yield on tax-equivalent earning assets in the six nine months ended June 30, 2024 September 30, 2024 was 6.30% 6.31% compared to 6.01% 6.10% in the six nine months ended June 30, 2023 September 30, 2023. Loans receivable decreased by \$110.8 million \$146.3 million to \$2.21 billion \$2.17 billion during the six nine months ended June 30, 2024 September 30, 2024. Our overall cost of interest-bearing liabilities was 4.19% 4.14% in the six nine months ended June 30, 2024 September 30, 2024 compared to 3.14% 3.30% in the six nine months ended June 30, 2023 September 30, 2023. This cost of interest-bearing liabilities, combined with the earning asset yield, resulted in a tax-equivalent net interest margin of 3.79% 3.73% in the six nine months ended June 30, 2024 September 30, 2024, compared to 4.09% 4.03% in the six nine months ended June 30, 2023 September 30, 2023.

Our net income for the six nine months ended June 30, 2024 September 30, 2024 was \$8.6 million \$10.7 million compared to \$19.5 million \$23.3 million in the six nine months ended June 30, 2023 September 30, 2023, largely the result of an \$11.8 million pre-tax gain related to the sale of the Bank's wholly-owned subsidiary, Chartwell. Earnings for the six nine months ended June 30, 2024 September 30, 2024 equated to a return on average assets of 0.5% 0.4% and a return on average equity of 5.93% 4.9%, compared to the six nine months ended June 30, 2023 September 30, 2023 results of 1.2% 0.9% and 14.1% 11.4%, respectively. Basic and diluted earnings per share were \$0.67 \$0.83 and \$0.66, \$0.81, respectively, for the six nine months ended June 30, 2024 September 30, 2024, compared to \$1.54 \$1.84 and \$1.50, \$1.79, respectively, for the six nine months ended June 30, 2023 September 30, 2023.

Corporate Updates

Flexia Payments, LLC

In May 2023, MVB Technology entered into an Assignment and Assumption Agreement with Flexia, wherein Flexia assigned loans outstanding between Flexia and MVB to MVB Technology. In consideration for the assignment, Flexia granted MVB Technology a license for the Flexia software. Additionally, through a Mutual Release Agreement between Edge Ventures and Flexia, Edge Ventures transferred its 800 Class A Common Units and 1,500 Preferred Units of Flexia back to Flexia for cancellation. As a result of the transactions, we no longer consolidate Flexia in our financial statements.

Net Interest Income and Net Interest Margin (Average Balance Schedules)

The following tables present information regarding (i) average balances, the total dollar amount of interest income from interest earning assets and the resultant average yields; (ii) average balances, the total dollar amount of interest expense on interest-bearing liabilities and the resultant average rates; (iii) the interest rate spread; (iv) net interest income and margin; and (v) net interest income and margin (on a tax-equivalent basis) as of and for the periods shown. The average balances presented are derived from daily average balances.

## Net Interest Income

Net interest income is the amount by which interest income on earning assets exceeds interest expense incurred on interest-bearing liabilities. Interest-earning assets include loans, investment securities and certificates of deposit in banks. Interest-bearing liabilities include interest-bearing deposits and borrowed funds such as sweep accounts, repurchase agreements, subordinated debt and the senior term loan. Net interest income, which is the primary source of revenue for the Bank, is also impacted by changes in market interest rates and the mix of interest-earning assets and interest-bearing liabilities.

Net interest margin is calculated by dividing net interest income by average interest-earning assets and measures the net revenue stream generated by the Bank's balance sheet. Net interest spread is calculated by taking the difference between interest earned on earning assets and interest paid on interest-bearing liabilities in an effort to maximize net interest income, while maintaining an appropriate level of interest rate risk.

In 2023, September 2024, the Federal Reserve raised lowered its key interest rate to from a range of 5.25% to 5.5% as of December 31, 2023 and remained at this rate to a range of 4.75% to 5.00% as of June 30, 2024 September 30, 2024. We continually analyze methods to deploy assets into an earning asset mix to generate a stronger net interest margin.

### Three Months Ended June 30, 2024 September 30, 2024 vs. Three Months Ended June 30, 2023 September 30, 2023

Net interest margin on a tax-equivalent basis was 3.75% 3.61% for the three months ended June 30, 2024 September 30, 2024 compared to 3.80% 3.90% for the three months ended June 30, 2023 September 30, 2023. The decrease in net interest margin on a tax-equivalent basis primarily reflects higher funding costs and a shift in the mix of earnings assets, partially offset by investment yields. Tax-equivalent net interest spread was 2.11% 2.28% for the three months ended June 30, 2024 September 30, 2024 compared to 2.73% 2.71% for the three months ended June 30, 2023 September 30, 2023. The difference between the tax-equivalent net interest margin and tax-equivalent net interest spread was 164 133 basis points in the three months ended June 30, 2024 September 30, 2024 compared to 107 119 basis points in the three months ended June 30, 2023 September 30, 2023 driven by the increase in interest expense and the decline in average assets.

During the three months ended June 30, 2024 September 30, 2024, net interest income decreased by \$2.0 million \$3.3 million, or 6.8% 11.0%, to \$27.6 million \$26.6 million from \$29.6 million \$29.9 million during the three months ended June 30, 2023 September 30, 2023. Average total earning assets were \$2.97 billion \$2.95 billion in the three months ended June 30, 2024 September 30, 2024 compared to \$3.15 billion \$3.06 billion in the three months ended June 30, 2023 September 30, 2023. Total interest income decreased by \$0.9 million \$1.7 million, or 1.9% 3.5%, to \$46.1 million \$46.6 million in the three months ended June 30, 2024 September 30, 2024 from \$47.0 million \$48.3 million in the three months ended June 30, 2023 September 30, 2023 driven by a decrease in total earning assets, including interest bearing deposits with other banks. Average total loans decreased to \$2.24 billion \$2.18 billion in the three months ended June 30, 2024 September 30, 2024 from \$2.36 billion \$2.27 billion in the three months ended June 30, 2023 September 30, 2023, primarily as the result of a \$30.8 million \$40.2 million decrease in average real estate commercial loans and an \$54.6 million \$26.7 million decrease in average consumer loans. The yield on total loans increased 25 six basis points.

Average investment securities increased \$11.6 million \$49.1 million as the result of a \$32.3 million \$51.8 million increase in taxable investments, partially offset by a \$20.7 million \$2.7 million decrease in tax-exempt investments during the three months ended June 30, 2024 September 30, 2024, compared to the three months ended June 30, 2023 September 30, 2023. The yield on tax-exempt securities decreased 105 46 basis points, and the taxable securities yield increased 80 81 basis points.

Average interest-bearing liabilities decreased by \$330.9 million \$71.0 million for the three months ended June 30, 2024 September 30, 2024 from the three months ended June 30, 2023 September 30, 2023. The decrease was primarily the result of average balance decreases of \$216.7 million \$140.3 million in NOW accounts and \$215.8 million \$103.4 million in money market checking deposits, partially offset by an increase of \$68.6 million \$136.7 million in certificates of deposit.

Average interest-bearing deposits were \$1.72 billion \$1.89 billion for the three months ended June 30, 2024 September 30, 2024 and \$2.04 billion \$1.96 billion for the three months ended June 30, 2023 September 30, 2023. Total September 30, 2023. Total interest expense increased by \$1.1 million \$1.6 million, caused primarily by a \$1.2 million increase in deposit interest. The result was a 86 basis point increase in the cost of interest-bearing liabilities, primarily driven by increases in interest rates. The cost of interest-bearing liabilities increased to 4.04% in the three months ended September 30, 2024 from 3.58% in the three months ended September 30, 2023.

### Six Nine Months Ended June 30, 2024 September 30, 2024 vs. Six Nine Months Ended June 30, 2023 September 30, 2023

Net interest margin on a tax-equivalent basis was 3.79% 3.73% for the six nine months ended June 30, 2024 September 30, 2024 compared to 4.09% 4.03% for the six nine months ended June 30, 2023 September 30, 2023. The decrease in net interest margin on a tax-equivalent basis primarily reflects higher funding costs and a shift in the mix of earnings assets, partially offset by investment loan yields. Tax-equivalent net interest spread was 2.11% 2.17% for the six nine months ended June 30, 2024 September 30, 2024 compared to 2.87% 2.80% for the six nine months ended June 30, 2023 September 30, 2023. The difference between the tax-equivalent net interest margin and tax-equivalent net interest spread was 168 156 basis points in the six nine months ended June 30, 2024 September 30, 2024 compared to 122 123 basis points in the six nine months ended June 30, 2023 September 30, 2023. This difference was driven by the increase in interest expense and the decline in average assets.

During the six nine months ended June 30, 2024 September 30, 2024, net interest income decreased by \$4.6 million \$7.9 million, or 7.4% 8.6%, to \$57.7 million \$84.3 million from \$62.3 million \$92.2 million during the six nine months ended June 30, 2023 September 30, 2023. This decrease is largely due to an increase in cost of funds, partially offset by higher yields on earning assets. Average total earning assets were \$3.08 billion \$3.04 billion in the six nine months ended June 30, 2024 September 30, 2024 compared to \$3.10 billion \$3.09 billion in the six nine months ended June 30, 2023 September 30, 2023. Total interest income increased by \$4.4 million \$2.7 million, or 4.8% 1.9%, to \$96.2 million \$142.8 million in the six nine months ended June 30, 2024 September 30, 2024 from \$91.8 million \$140.1 million in the six nine months ended June 30, 2023 September 30, 2023 driven by higher yields from new loan production at favorable interest rates. Average total loans decreased to \$2.26 billion \$2.23 billion in the six nine months ended June 30, 2024 September 30, 2024 from \$2.37 billion \$2.34 billion in the six nine months ended June 30, 2023 September 30, 2023, primarily as the result of a \$57.4 million \$47.0 million decrease in average consumer loans, a \$37.9 million \$30.1 million decrease in average real estate loans and a \$16.2 million \$24.2 million decrease in average commercial loans. The yield on total loans increased 38 28 basis points.

Average investment securities decreased \$5.1 million increased \$13.1 million as the result of a \$26.1 million \$31.3 million increase in taxable investments, partially offset by an \$18.2 million decrease in tax-exempt investments partially offset by a \$20.9 million increase in taxable investments during the six nine months ended June 30, 2024 September 30, 2024, compared to the six nine months ended June 30, 2023 September 30, 2023. The yield on tax-exempt securities decreased 77 67 basis points, and the taxable securities yield increased 23 41 basis points.

Average interest-bearing liabilities decreased by \$46.6 million \$54.9 million for the six nine months ended June 30, 2024 September 30, 2024 from the six nine months ended June 30, 2023 September 30, 2023. The decrease was primarily the result of average balance decreases of \$228.7 million \$198.9 million in negotiable order of withdrawal accounts, \$35.3 million \$41.0 million in money market checking accounts and \$23.4 million in FHLB and other borrowings, and \$9.2 million in money market checking accounts, partially offset by \$177.8 million \$163.8 million in certificates of deposit and \$55.2 million \$51.7 million in saving accounts.

The cost of interest-bearing liabilities increased to 4.19% in the six months ended June 30, 2024 from 3.14% in the six months ended June 30, 2023. This increase is primarily the result of an increase of 113 basis points in the cost of deposits. Average interest-bearing deposits were \$1.76 billion \$1.81 billion for the six nine months ended June 30, 2024 September 30, 2024 and \$1.77 billion \$1.83 billion for the six nine months ended June 30, 2023 September 30, 2023. Total interest expense increased by \$9.0 million \$10.5 million, primarily driven by increases in interest rates. The cost of interest-bearing liabilities increased to 4.14% in the nine months ended September 30, 2024 from 3.30% in the nine months ended September 30, 2023.

Further discussion on borrowings is included in Note 7 – Borrowed Funds accompanying the consolidated financial statements included elsewhere in this report.

## Provision for Credit Losses

The provision for credit losses, which is a product of management's analysis, is recorded in response to inherent losses in the loan portfolio. Credit loss provisions were \$0.3 million \$1.0 million for the three months ended June 30, 2024 September 30, 2024, while there was a release of allowance for credit losses of \$4.2 million \$0.2 million for the three months ended June 30, 2023 September 30, 2023, respectively. The increase in credit loss provisions is the result of an increase in the required reserve calculated by the individually analyzed pooled loan analysis, which was partially offset by lower calculated loss rates and lower portfolio balances across most reserves of the pooled loan segments. individually analyzed loans.

### Three Months Ended June 30, 2024 September 30, 2024 vs. Three Months Ended June 30, 2023 September 30, 2023

Total loans decreased \$60.5 million \$35.5 million during the three months ended June 30, 2024 September 30, 2024, compared to a decrease of \$48.8 million \$42.0 million in the three months ended June 30, 2023 September 30, 2023. The decline in loan balances compared to the prior quarters primarily reflects the amortization of the loan portfolio and the Bank's purposeful effort to improve the overall strength of the loan portfolio through selective originations. The commercial loan portfolio decreased by \$53.1 million \$34.0 million during the three months ended June 30, 2024 September 30, 2024, as compared to an increase of \$12.2 million \$5.1 million in the three months ended June 30, 2023 September 30, 2023, while the residential mortgage loan portfolio increased by \$0.6 million during the three months ended September 30, 2024, as compared to a \$23.8 million decrease during the three months ended September 30, 2023. Additionally, our consumer loan portfolio decreased by \$2.3 million during the three months ended September 30, 2024, while it decreased by \$21.4 million in the three months ended September 30, 2023. Net charge-offs totaled \$0.7 million and \$5.9 million during the three months ended September 30, 2024 and 2023, respectively.

### Nine Months Ended September 30, 2024 vs. Nine Months Ended September 30, 2023

Total loans decreased \$146.3 million during the nine months ended September 30, 2024 versus a decrease of \$102.2 million in the nine months ended September 30, 2023. The commercial loan portfolio decreased by \$121.2 million during the nine months ended September 30, 2024, as compared to a decrease of \$37.8 million in the nine months ended September 30, 2023, while the residential mortgage loan portfolio decreased by \$4.4 million \$15.9 million during the three nine months ended June 30, 2024 September 30, 2024, as compared to a \$33.4 million decrease during while increasing by \$40.8 million in the three nine months ended June 30, 2023 September 30, 2023. Additionally, our consumer loan portfolio decreased by \$1.9 million \$7.0 million during the three nine months ended June 30, 2024 September 30, 2024, while it decreased by \$26.9 million \$101.2 million in the three nine months ended June 30, 2023. Net charge-offs totaled \$0.9 million and \$1.2 million during the three months ended June 30, 2024 and 2023, respectively.

### Six Months Ended June 30, 2024 vs. Six Months Ended June 30, 2023

Total loans decreased \$110.8 million during the six months ended June 30, 2024 versus a decrease of \$60.3 million in the six months ended June 30, 2023. The commercial loan portfolio decreased by \$87.1 million during the six months ended June 30, 2024, as compared to a decrease of \$42.9 million in the six months ended June 30, 2023, while the residential mortgage loan portfolio decreased by \$16.6 million during the six months ended June 30, 2024, while increasing by \$64.6 million in the six months ended June 30, 2023. Additionally, our consumer loan portfolio decreased by \$4.7 million during the six months ended June 30, 2024, while it decreased by \$79.8 million in the six months ended June 30, 2023 September 30, 2023. In addition, net charge-offs during the six nine months ended June 30, 2024 September 30, 2024 totaled \$2.2 million \$2.9 million compared to net charge-offs of \$2.9 million \$8.8 million in the six nine months ended June 30, 2023 September 30, 2023.

## Noninterest Income

Payment card and service charge income, consulting compliance income, equity method investment income or loss and gains on sale of loans generally account for the majority of our noninterest income. From time to time, we also recognize gains or losses on acquisition and divestiture activity, sales of assets or our investment portfolio.

### Three Months Ended June 30, 2024 September 30, 2024 vs. Three Months Ended June 30, 2023 September 30, 2023

Noninterest income for the three months ended June 30, 2024 September 30, 2024 and 2023 totaled \$7.1 million \$6.7 million and \$6.4 million \$5.8 million, respectively. The increase in noninterest income for the three months ended June 30, 2024 September 30, 2024 compared to the three months ended June 30, 2023 September 30, 2023 was primarily the

result of equity method investment income from our mortgage segment of \$0.7 million, as compared to a loss of \$0.8 million in the prior year period, and an increase of \$1.0 million in payment card and service charge income. These increases were partially offset by a decline in other operating income of \$1.6 million.

#### Nine Months Ended September 30, 2024 vs. Nine Months Ended September 30, 2023

Noninterest income for the nine months ended September 30, 2024 and 2023 totaled \$21.6 million and \$15.3 million, respectively. The increase in noninterest income for the nine months ended September 30, 2024 compared to the nine months ended September 30, 2023 was primarily the result of a \$2.5 million increase in payment card and service charge income and a \$0.7 million gain on sale of available-for-sale securities, compared to a \$1.5 million loss during the prior year period. There were also losses of \$1.0 million on divestiture activity and \$1.0 million on the sale of subprime automobile loans during for the three nine months ended June 30, 2023 September 30, 2023, with no comparable without corresponding losses in the current quarter, period. These increases were partially offset by a \$1.4 million decrease decline in equity method investment income, other operating income of \$1.5 million.

#### Six Months Ended June 30, 2024 vs. Six Months Ended June 30, 2023

Noninterest income for the six months ended June 30, 2024 and 2023 totaled \$15.0 million and \$9.5 million, respectively. The increase in noninterest income for the six months ended June 30, 2024 compared to the six months ended June 30, 2023 was primarily the result of a \$1.5 million increase in payment card and service charge income, a \$2.2 million increase in gains on sale of available-for-sale investment securities and a \$1.3 million increase in gain on sale of loans, offset by a \$1.3 million decrease in equity method investment income.

### Noninterest Expense

#### Three Months Ended June 30, 2024 September 30, 2024 vs. Three Months Ended June 30, 2023 September 30, 2023

Noninterest expense was \$28.9 million \$29.5 million and \$30.3 million \$30.7 million in the three months ended June 30, 2024 September 30, 2024 and 2023, respectively. The decline from the prior period primarily reflects declines of \$1.0 million in professional fees and \$0.9 million in other operating expenses, partially offset by an increase in salaries and employee benefits of \$0.7 million. Approximately 56.7% and 52.1% of noninterest expense for the three months ended September 30, 2024 and 2023, respectively, was related to personnel costs. Personnel costs are a significant part of our noninterest expense as such costs are critical to financial services organizations.

#### Nine Months Ended September 30, 2024 vs. Nine Months Ended September 30, 2023

Noninterest expense was \$88.6 million and \$89.3 million in the nine months ended September 30, 2024 and 2023, respectively. The decline from the prior year period primarily reflects a decline declines of \$3.2 million in other operating expenses, \$0.8 million in equipment depreciation and maintenance and \$0.7 million in travel, entertainment, dues and subscriptions. These declines were partially offset by higher an increase in professional fees of \$3.0 million, incurred to enhance our risk management and compliance-related infrastructure, infrastructure, and an increase in salaries and employee benefits of \$0.7 million. Approximately 55.1% 55.5% and 52.0% 54.3% of noninterest expense for the three nine months ended June 30, 2024 September 30, 2024 and 2023, respectively, was related to personnel costs. Personnel costs are a significant part of our noninterest expense, as such costs are critical to financial services organizations. The decrease as compared to the prior year period primarily reflects the implementation of expense reduction initiatives.

#### Six Months Ended June 30, 2024 vs. Six Months Ended June 30, 2023

Noninterest expense was \$59.1 million and \$58.6 million in the six months ended June 30, 2024 and 2023, respectively. The increase from the prior year period primarily reflects increased operating expenses, specifically higher professional fees incurred to enhance our risk management and compliance-related infrastructure. This increase was partially offset by a decrease in occupancy travel, entertainment, dues and subscriptions expenses. Approximately 54.9% and 55.4% of noninterest expense for the six months ended June 30, 2024 and 2023, respectively, was related to personnel costs. Personnel costs are a significant part of our noninterest expense, as such costs are critical to financial services organizations.

### Return on Assets and Equity

#### Assets

#### Three Months Ended June 30, 2024 September 30, 2024 vs. Three Months Ended June 30, 2023 September 30, 2023

Our return on average assets was 0.3% for the three months ended September 30, 2024, compared to 0.5% for the three months ended June 30, 2024, compared to 1.0% for the three months ended June 30, 2023 September 30, 2023. The decreased return in the three months ended June 30, 2024 September 30, 2024 is the result of a \$4.0 million \$1.8 million decrease in earnings, while average total assets decreased by \$148.9 million \$107.3 million, mainly as the result of a \$64.3 million \$82.8 million decrease in average interest-bearing balances with banks, a \$40.2 million decrease in average commercial loans and a \$54.6 million \$26.7 million decrease in average consumer loans.

#### Six Nine Months Ended June 30, 2024 September 30, 2024 vs. Six Nine Months Ended June 30, 2023 September 30, 2023

Our return on average assets was 0.5% 0.4% for the six nine months ended June 30, 2024 September 30, 2024, compared to 1.2% 0.9% for the six nine months ended June 30, 2023 September 30, 2023. The decreased return for the six nine months ended June 30, 2024 September 30, 2024 is the result of a \$10.9 million \$12.7 million decrease in earnings,

while average total assets **increased** decreased by **\$0.8 million** \$35.3 million, mainly the result of a **\$99.8 million** \$47.0 million decrease in average consumer loans, a \$30.1 million decrease in average real estate loans and a \$24.2 million decrease in average commercial loans, offset by a \$38.5 million increase in average interest-bearing deposits with **banks**, offset by a \$57.4 million decrease in average consumer loans and a \$37.9 million decrease in average real estate loans. **banks**.

Equity

Three Months Ended **June 30, 2024** **September 30, 2024** vs. Three Months Ended **June 30, 2023** **September 30, 2023**

Our return on average stockholders' equity was **5.7%** 2.8% for the three months ended **June 30, 2024** **September 30, 2024**, compared to **12.0%** 5.8% for the three months ended **June 30, 2023** **September 30, 2023**. The decreased return in the three months ended **June 30, 2024** **September 30, 2024** is a result of a **\$4.0 million** **\$1.8 million** decrease in earnings, while average equity increased by **\$17.1 million** \$28.4 million.

Six Nine Months Ended **June 30, 2024** **September 30, 2024** vs. Six Nine Months Ended **June 30, 2023** **September 30, 2023**

Our return on average stockholders' equity was **5.9%** 4.9% for the **six nine** months ended **June 30, 2024** **September 30, 2024**, compared to **14.1%** 11.4% for the **six nine** months ended **June 30, 2023** **September 30, 2023**. The decreased return for the **six nine** months ended **June 30, 2024** **September 30, 2024** is a result of a **\$10.9 million** **\$12.7 million** decrease in earnings, while average equity increased by **\$12.2 million** \$17.7 million.

Statement of Financial Condition

Cash and Cash Equivalents

Cash and cash equivalents totaled **\$455.5 million** **\$610.9 million** at **June 30, 2024** **September 30, 2024**, compared to \$398.2 million at December 31, 2023. We believe the current balance of cash and cash equivalents adequately serves our liquidity and performance needs. Total cash and cash equivalents fluctuate daily due to transactions in process and other liquidity demands.

Investment Securities

Investment securities, including equity securities, totaled **\$402.5 million** **\$416.6 million** at **June 30, 2024** **September 30, 2024**, compared to \$386.4 million at December 31, 2023. The following table presents a summary of the investment securities portfolio as of the periods shown. The available-for-sale securities are reported at estimated fair value.

(Dollars in thousands)	(Dollars in thousands)	June 30, 2024	December 31, 2023	(Dollars in thousands)	September 30, 2024	December 31, 2023

Management monitors the earnings performance and liquidity of the investment portfolio on a regular basis through the Asset and Liability Committee ("ALCO") meetings. The ALCO also monitors net interest income and assists in the management of interest rate risk. Through active balance sheet management and analysis of the investment securities portfolio, sufficient liquidity is maintained to satisfy depositor requirements and the various credit needs of our customers. Management believes the risk characteristics inherent in the investment portfolio are acceptable based on these parameters.

Our equity securities primarily consist of investments in private entities within the Fintech industry and these investments may not be as liquid as our investments in other types of securities.

Loans

Our loan portfolio totaled **\$2.21 billion** **\$2.17 billion** as of **June 30, 2024** **September 30, 2024** and \$2.32 billion as of December 31, 2023. The Bank's lending is primarily focused in North Central West Virginia, Northern Virginia, North Carolina and South Carolina. The portfolio consists principally of commercial lending, retail lending, which includes single-family residential mortgages, and consumer lending.

For more information regarding our loans, see *Note 3 – Loans and Allowance for Credit Losses* accompanying the consolidated financial statements included elsewhere in this report.

Loan Concentration

At June 30, 2024 September 30, 2024 and December 31, 2023, commercial and non-residential real estate loans comprised the largest component of the loan portfolio. A large portion of commercial loans are secured by real estate and are diverse in terms of geographical location and industry. Loans that are not secured by real estate are typically secured by accounts receivable, mortgages or equipment. While the loan concentration is in commercial loans, the commercial portfolio is comprised of loans to many different borrowers in numerous different industries, generally located in our primary market areas. Additionally, within the commercial portfolio, loans within the healthcare industry, which include loans to physicians, nursing homes and pharmacies, represent 22% of our total loan portfolio as of June 30, 2024 September 30, 2024.

Allowance for Credit Losses

The ACL was \$22.1 million \$21.5 million, or 1.00% 0.99% of loans receivable, at June 30, 2024 and September 30, 2024, compared to \$22.1 million, or 0.95% of loans receivable, at December 31, 2023. Over the six nine months ended June 30, 2024 September 30, 2024, the ACL was impacted by an increase in provision needed for individually analyzed loans of \$2.2 million \$1.8 million. Additionally, over the six nine months ended June 30, 2024 September 30, 2024, changes to the loan portfolio balances, qualitative factor adjustments and expected loss forecasts within the expected credit loss calculation resulted in allowance decreases of \$0.8 million \$1.6 million to both the consumer segment, which includes the subprime auto segment, \$0.6 million to automotive portfolio, and the commercial and industrial segments and \$0.3 million to segment. This decrease was offset by an increase of \$0.7 million in allowance required by the residential segment. All other The commercial real estate, commercial acquisition, development and construction and home equity line of credit segments combined experienced an required a total of \$0.1 million of additional allowance decrease of \$0.6 million, over the same period. Bank management expects that the markets in which it lends will experience economic improvements over the next one to two years, and most decreases in estimated loss rates have been further supported by decreases in loan balances in the six nine months ended June 30, 2024 September 30, 2024. This results in marginally lower allocation rates against slightly lower loan balances, resulting in an overall lower allowance needed for the pooled loan portfolio. However, this has been partially offset by the increase in allowance needed by the individually analyzed loans, loans and net-charge-offs. Net charge-offs for the three months ended June 30, 2024 September 30, 2024 included \$0.9 \$0.4 million related to five SBA U.S. Small Business Administration loans secured by business assets and \$0.6 \$1.0 million related to the subprime consumer automotive segment.

Management continually monitors the risk in the loan portfolio through the review by reviewing of the monthly delinquency reports and the Loan Review Committee. The Loan Review Committee is responsible for determining the adequacy of the ACL. This analysis involves both the portfolio's experience of the portfolio to date and the makeup of the overall portfolio. Specific loss estimates are derived for individual loans based on specific criteria such as current delinquent status, related deposit account activity, where applicable, and changes in the local and national economy. When appropriate, we also consider public knowledge and verifiable information from the local market to assess risks to specific loans and the loan portfolios as a whole.

Funding Sources

The Bank considers a number of alternatives including, but not limited to, deposits, short-term borrowings and long-term borrowings, when evaluating funding sources. Deposits remain the most significant source of funds, totaling \$2.88 billion \$3.00 billion, or 97.4% of funding sources at June 30, 2024 September 30, 2024. This same information at December 31, 2023 reflected \$2.90 billion in deposits representing 97.1% of funding sources. Borrowings, consisting of subordinated debt, senior term loan and FHLB and other borrowings represented 2.5% 2.4% of funding sources at June 30, 2024 September 30, 2024, versus 2.7% at December 31, 2023. Repurchase agreements, which are available to large corporate customers, represented 0.1% 0.2% of funding sources at June 30, 2024 September 30, 2024 and 0.2% at December 31, 2023.

At June 30, 2024 September 30, 2024, noninterest-bearing balances totaled \$983.8 million \$989.1 million, compared to \$1.20 billion at December 31, 2023, or 34.1% 33.0% and 41.3%, respectively, of total deposits. Interest-bearing deposits totaled \$1.90 billion \$2.01 billion at June 30, 2024 September 30, 2024, compared to \$1.70 billion at December 31, 2023.

The following table presents the balance of each of the deposit categories as of the periods shown:

(Dollars in thousands)	(Dollars in thousands)	June 30, 2024	December 31, 2023	(Dollars in thousands)	September 30, 2024	December 31, 2023
Deposits:						
Noninterest-bearing demand						
Noninterest-bearing demand						
Noninterest-bearing demand						
NOW						
Savings and money markets						
Time deposits, including CDs and IRAs						
Total deposits						
Time deposits that meet or exceed the FDIC insurance limit						
Time deposits that meet or exceed the FDIC insurance limit						
Time deposits that meet or exceed the FDIC insurance limit						

Average interest-bearing deposits were \$1.72 billion \$1.89 billion during the three months ended June 30, 2024, September 30, 2024, compared to \$2.04 billion \$1.96 billion during the same time period in 2023 and average noninterest-bearing deposits were \$1.14 billion \$910.79 million during the three months ended June 30, 2024 September 30, 2024

compared to \$971.4 million \$975.2 million during the same time period in 2023.

Average interest-bearing deposits were \$1.76 billion \$1.81 billion during the six nine months ended June 30, 2024 September 30, 2024 compared to \$1.77 billion \$1.83 billion during the same time period in 2023 and average noninterest-bearing deposits were \$1.21 billion \$1.11 billion during the six nine months ended June 30, 2024 September 30, 2024 compared to \$1.17 billion \$1.11 billion during the same time period in 2023.

The decrease in noninterest bearing deposits is primarily related to our decision to exit the digital asset program. Digital asset program account balances declined \$156.5 million \$163.2 million as compared to December 31, 2023.

We utilize a custodial deposit transference structure for certain deposit programs whereby we, acting as custodian of account holder funds, place a portion of such account holder funds that are not needed to support near term settlement at one or more third-party banks insured by the FDIC (each, a program bank). Accounts opened at program banks are established in our name as custodian, for the benefit of our account holders. We remain the issuer of all accounts under the applicable account holder agreements and have sole custodial control and transaction authority over the accounts opened at program banks. We maintain the records of each account holders' holder's deposits maintained at program banks. Program banks undergo robust due diligence prior to becoming a program bank and are also subject to continuous monitoring. These off-balance sheet deposits totaled \$1.4 billion at June 30, 2024 September 30, 2024 and \$1.1 billion at December 31, 2023 and represent the gaming and banking-as-a-service. banking-as-a-service industries.

Along with traditional deposits, the Bank has access to both short-term borrowings from FHLB, Federal Reserve Bank and overnight repurchase agreements to fund its operations and investments. For details on our borrowings, refer to Note 7 – Borrowed Funds accompanying the consolidated financial statements included elsewhere in this report.

### Deposit Concentration

Our three Three of our primary Fintech deposit verticals are payments, gaming payments and banking-as-a-service, with such deposits totaling \$295.8 million \$504.9 million, \$314.1 million \$391.4 million and \$342.1 million \$219.1 million as of June 30, 2024 September 30, 2024, respectively, compared to \$354.1 million \$449.8 million, \$449.8 million \$354.1 million and \$251.6 million as of December 31, 2023, respectively. Of the gaming deposits, \$270.3 million \$370.1 million is with our three largest gaming clients at June 30, 2024 September 30, 2024.

### Capital Resources

During the six nine months ended June 30, 2024 September 30, 2024, stockholders' equity increased \$7.2 million \$13.7 million to \$296.7 million \$303.2 million. This increase primarily consists of net income of \$8.6 million \$10.7 million, other comprehensive income of \$6.4 million, common stock options exercised of \$1.2 million and stock based compensation of \$1.8 million \$2.5 million, offset by cash dividends paid of \$4.4 million \$6.5 million.

The growth in assets of \$25.9 million \$104.9 million in the six nine months ended June 30, 2024 September 30, 2024 outpaced the growth in stockholders' equity, and the equity to assets ratio increased from 8.7% at December 31, 2023 to 9.0% 8.9% at June 30, 2024 September 30, 2024. We paid dividends to common shareholders of \$4.4 million \$6.5 million and \$4.3 million \$6.5 million in the six nine months ended June 30, 2024 September 30, 2024 and 2023, respectively, compared to earnings of \$8.6 million \$10.7 million and \$19.5 million \$23.3 million in the six nine months ended June 30, 2024 September 30, 2024 and 2023, respectively, resulting in the dividend payout ratio increasing to 51.0% 61.7% in the six nine months ended June 30, 2024 September 30, 2024 from 22.1% 27.7% in the six nine months ended June 30, 2023 September 30, 2023.

We and the Bank are also subject to various regulatory capital requirements administered by federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a material effect on our consolidated financial statements. The Bank is required to comply with applicable capital adequacy standards established by the federal banking agencies. West Virginia state chartered banks, such as the Bank, are subject to similar capital requirements adopted by the West Virginia Division of Financial Institutions. Bank regulators have established "risk-based" capital requirements designed to measure capital adequacy. Risk-based capital ratios reflect the relative risks of various assets companies hold in their portfolios. A weight category of 0% (lowest risk assets), 20%, 50%, 100% or 150% (highest risk assets) is assigned to each asset on the balance sheet. Detailed information concerning our risk-based capital ratios can be found in Supervision and Regulation in Item 1, Business and Note 16 – Regulatory Capital Requirements to the consolidated financial statements included in Item 8, Financial Statements and Supplementary Data, of the 2023 Form 10-K.

The optional community bank leverage ratio ("CBLR") framework, which is issued through interagency guidance, intends to provide a simple alternative measure of capital adequacy for electing qualifying depository institutions as directed under the EGRCPA. Under the CBLR, if a qualifying depository institution elects to use such measure, such institutions will be considered well capitalized if its ratio of Tier 1 capital to average total consolidated assets (i.e., leverage ratio) exceeds a 9% threshold, subject to a limited two quarter grace period, during which the leverage ratio cannot go 100 basis points below the then applicable threshold, and will not be required to calculate and report risk-based capital ratios.

The Bank elected to begin using the CBLR for the first quarter of 2021 and intends to utilize this measure for the foreseeable future. Eligibility criteria to utilize the CBLR includes include the following:

- Total assets of less than \$10 billion;
- Total trading assets plus liabilities of 5% or less of consolidated assets;
- Total off-balance sheet exposures of 25% or less of consolidated assets;
- Cannot be an advanced approaches banking organization; and
- Leverage ratio greater than 9%.

The Bank's CBLR at June 30, 2024 September 30, 2024 was 10.7% 10.9%, which is above the minimum requirement of 9%. Management believes that capital continues to provide a strong base for profitable growth.

## Liquidity

Maintenance of a sufficient level of liquidity is a primary objective of the ALCO. Liquidity, as defined by the ALCO, is the ability to meet anticipated operating cash needs, loan demand and deposit withdrawals without incurring a sustained negative impact on net interest income. It is our policy to optimize the funding of the balance sheet, continually balancing the stability and cost factors of various funding sources. We believe liquidity needs are satisfied by the current balance of cash and cash equivalents, readily available access to traditional and non-traditional funding sources and the portions of the investment and loan portfolios that mature within one year. Our liquid assets totaled **\$592.5 million** **\$645.0 million** as of **June 30, 2024** **September 30, 2024**. These sources of funds should enable us to meet cash obligations as they come due.

The main source of liquidity for the Bank comes through deposit growth. Liquidity is also provided from cash generated from investment maturities, principal payments from loans and income from loans and investment securities. For the **six** **nine** months ended **June 30, 2024** **September 30, 2024**, cash from operating, **and investing activities totaled \$1.6 million** **and \$87.2 million, respectively, while cash used in** financing activities totaled **\$31.5 million, \$10.3 million, \$114.9 million and \$87.5 million, respectively**. Significant changes in cash flows during the quarter **include included** inflows from the net change in loans of **\$108.5 million** **\$141.0 million**, the net change in deposits of **\$100.2 million** and sales of available-for-sale investment securities of \$24.3 million, partially offset by an outflow of **\$48.2 million** **\$58.0 million** to purchase available-for-sale investment **securities and a decline in deposits of \$18.6 million, securities**.

When appropriate, the Bank has the ability to take advantage of external sources of funds such as advances from the FHLB, national market certificate of deposit issuance programs, the Federal Reserve discount window, brokered deposits and Certificate of Deposit Account Registry Services. These external sources often provide attractive interest rates and flexible maturity dates that enable the Bank to match funding with the contractual maturity dates of assets. Securities in the investment portfolio are classified as available-for-sale and can be utilized as an additional source of liquidity.

We have an effective shelf registration covering \$75 million of debt and equity securities, all of which is available, subject to authorization from the Board of Directors and market conditions, to issue debt or equity securities at our discretion. While we seek to preserve flexibility with respect to cash requirements, there can be no assurance that market conditions would permit us to sell securities on acceptable terms or at all.

## Current Economic Conditions

We consider North Central West Virginia and Northern Virginia to be our primary market **area areas** for CoRe banking services. We consider our Fintech banking market to be customers located throughout the entire United States.

We believe that the current economic climate in our primary market areas reflects economic climates that are consistent with the general national economic climate. Unemployment in the United States was **4.3%** **3.9%** for **June** **September** 2024 and **3.6%** **3.8%** for **June** **September** 2023.

## Supervision and Regulation

**On July 30, 2024, In July 2024**, the Board of Directors of the FDIC approved a notice of proposed rulemaking (the "NPR"), requesting public comment on proposed revisions to its regulations relating to brokered deposits. The proposed rules set forth in the NPR would, in part, revise the "deposit broker" definition and amend the analysis of the "primary purpose" exception. The NPR also proposes to eliminate the "exclusive deposit placement arrangement exception," as well as make changes to the notice and application process for the primary purpose exception. The proposed rules would also clarify when an insured depository institution can regain status as an "agent institution" under the limited exception for a capped amount of reciprocal deposits.

Elimination of the "exclusive deposit placement arrangement exception" as proposed in the NPR would require the Bank to reevaluate its current classification of certain BaaS deposit and could require the Bank to reclassify those as brokered deposits. We may also be required to reclassify certain BaaS deposits as brokered deposits **in the event if** the FDIC were to conclude under the existing framework that such deposits should be classified as brokered deposits. The Bank will continue to monitor regulatory guidance on the treatment of deposits in light of the proposed NPR and application of the existing brokered deposit framework by regulators.

We provide additional information on our Supervision and Regulation in our 2023 Form 10-K under "Part I, Item 1. Business—Supervision and Regulation."

## Commitments and Contingent Liabilities

In the ordinary course of business, we offer financial instruments with off-balance sheet risk to meet our customers' financing needs. These financial instruments include commitments to extend credit and standby letters of credit. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the statements of financial condition.

Our exposure to credit loss in the event of nonperformance by the other party to the financial instruments for commitments to extend credit and standby letters of credit is represented by the contractual amount of those instruments. We use the same credit policies when making commitments and conditional obligations as we do for on-balance-sheet instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. We evaluate each customer's creditworthiness on a case-by-case basis. The amount and type of collateral obtained, if deemed necessary by us upon extension of credit, varies and is based on management's credit evaluation of the customer.

Standby letters of credit are conditional commitments issued by us to guarantee a customer's performance to a third-party. Standby letters of credit generally have fixed expiration dates or other termination clauses and may require payment of a fee. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers. Our policy for obtaining collateral and the nature of such collateral is substantially the same as that involved in making commitments to extend credit.

## Concentration of Credit Risk

We grant a majority of our commercial, financial, agricultural, real estate and installment loans to customers throughout the North Central West Virginia and Northern Virginia markets. Collateral for loans is primarily residential and commercial real estate, personal property and business equipment. We evaluate the creditworthiness of each of our customers on a case-by-case basis and the amount of collateral **it obtains they obtain** is based **upon on** management's credit evaluation.

## Contingent Liability

The Bank is involved in various legal actions arising in the ordinary course of business. In the opinion of management and counsel, the outcome of these matters will not have a significant adverse effect on the consolidated financial statements.

## Off-Balance Sheet Commitments

The Bank has entered into certain agreements that represent off-balance sheet arrangements that could significantly impact the consolidated financial statements and could have a significant impact in future periods. Specifically, the Bank has entered into agreements to extend credit or provide conditional payments pursuant to standby and commercial letters of credit. In addition, the Bank utilizes letters of credit issued by the FHLB to collateralize certain public funds deposits.

Commitments to extend credit, including loan commitments, standby letters of credit and commercial letters of credit do not necessarily represent future cash requirements, **in that as** these commitments often expire without being drawn upon.

## Critical Accounting Policies and Estimates

The preparation of the accompanying condensed consolidated financial statements in conformity with U.S. GAAP requires us to use judgment in making estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities and the reported amounts of revenue and expenses.

There have been no significant changes to our critical accounting policies and estimates or in the underlying accounting assumptions and estimates used in these critical accounting policies from those disclosed in the consolidated financial statements and accompanying notes contained in the 2023 Form 10-K.

## Recent Accounting Pronouncements and Developments

Recent accounting pronouncements and developments applicable us are described further in *Note 1 – Nature of Operations and Basis of Presentation* accompanying the consolidated financial statements included elsewhere in this report.

## Item 3 – Quantitative and Qualitative Disclosures About Market Risk

### Interest Rate Risk

Our market risk is composed primarily of interest rate risk. The ALCO is responsible for reviewing the interest rate sensitivity position and establishing policies to monitor and coordinate our sources, uses and pricing of funds.

The objective of the asset/liability management function is to structure the balance sheet in ways that maintain consistent growth in net interest income and minimize exposure to market risks within our policy guidelines. This objective is accomplished **through the management of by managing** balance sheet liquidity and interest rate risk exposure based on changes in economic conditions, interest rate levels and customer preferences. We manage balance sheet liquidity through the investment portfolio, sales of commercial and residential real estate loans and through the utilization of diversified funding sources, including retail deposits, a variety of wholesale funding sources and borrowings through the FHLB. Interest rate risk is managed through the use of interest rate caps, commercial loan swap transactions, **and** interest rate lock commitments on mortgage loans held-for-sale **as well as and** the structuring of loan terms that provide cash flows to be consistently re-invested along the rate cycle.

We believe that accepting some level of interest rate risk is necessary **in order** to achieve realistic profit goals. Management and our Board of Directors have chosen an interest rate risk profile that is consistent with our strategic business plan. While management carefully monitors the exposure to changes in interest rates and takes actions as warranted to decrease any adverse impact, there can be no assurance about the actual effect of interest rate changes on net interest income.

### Credit Risk

We have counter-party risk which may arise from the possible inability of third-party investors to meet the terms of their forward sales contracts, including derivative contracts such as interest rate swaps and fair value hedges. We work with third-party investors that are generally well-capitalized, are investment grade and exhibit strong financial performance to mitigate this risk. We monitor the financial condition of these third parties on an annual basis and we do not currently expect these third parties to fail to meet their obligations.

## Item 4 – Controls and Procedures

As of **June 30, 2024 September 30, 2024**, we carried out an evaluation under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on the results of this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of **June 30, 2024 September 30, 2024**.

During the three months ended **June 30, 2024** **September 30, 2024**, there were no changes in our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II – OTHER INFORMATION

### **Item 1 – Legal Proceedings**

From time to time in the ordinary course of business, we and our subsidiaries may be subject to claims, asserted or unasserted, or named as a party to lawsuits or investigations. Litigation, in general, and intellectual property and securities litigation, in particular, can be expensive and disruptive to normal business operations. Moreover, the results of legal proceedings cannot be predicted with any certainty, and in the case of more complex legal proceedings, the results can be difficult to predict. We are not aware of any material pending legal proceedings to which we or any of our subsidiaries is a party or of which any of their property is the subject.

### **Item 1A – Risk Factors**

Our operations are subject to many risks that could adversely affect our future financial condition and performance, including the risk factors that are described in the 2023 Form 10-K. There have been no material changes in our risk factors from those disclosed.

### **Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds**

None.

### **Item 3 – Defaults Upon Senior Securities**

None.

### **Item 4 – Mine Safety Disclosures**

Not applicable.

### **Item 5 – Other Information**

During the three months ended **June 30, 2024** **September 30, 2024**, none of our directors or officers adopted or terminated a Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement, as each term is defined in Item 408(a) of Regulation S-K.

## **CERTIFICATION**

I, Larry F. Mazza, certify that:

1. I have reviewed this report on Form 10-Q of MVB Financial Corp.;
1. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
1. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
1. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - a. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted account principles;
  - a. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - a. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
1. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

- a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- a. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
