

Keep Looking Ahead

Q2 Fiscal 2026 Earnings

Quarter Ended December 31, 2025 • Reported January 29, 2026

Forward Looking Statements

Statements in this presentation other than historical facts, such as statements pertaining to: (i) future industry demand for semiconductors, WFE, and advanced packaging; (ii) our market position for the future and future growth in demand for our products; (iii) our forecast of financial measures for the March quarter and calendar 2026; (iv) our future revenues by customer segment for our Semi Process Control systems; (v) our long-term financial targets and underlying assumptions; (vi) our future investment plan on R&D, technology, manufacturing capacity and infrastructure; (vii) the impact of DRAM pricing escalation due to capacity constraints on our gross margin for the March quarter and calendar 2026; and (viii) future shareholder returns, are forward-looking statements and subject to the Safe Harbor provisions created by the Private Securities Litigation Reform Act of 1995.

These forward-looking statements are based on current information and expectations and involve a number of risks and uncertainties. Actual results may differ materially from those projected in such statements due to various factors, including, but not limited to: our vulnerability to a weakening in the condition of the financial markets and the global economy; risks related to our international operations; evolving Bureau of Industry and Security of the U.S. Department of Commerce rules and regulations and their impact on our ability to sell products to and provide services to certain customers in China; tariffs and other trade restrictions; costly intellectual property disputes that could result in our inability to sell or use the challenged technology; risks related to the legal, regulatory and tax environments in which we conduct our business; differing stakeholder expectations, requirements and attention to environment, social and governance (“ESG”) matters and the resulting costs, risks and impact on our business; unexpected delays, difficulties and expenses in executing against our environmental, climate, or other ESG targets, goals and commitments; our ability to attract, retain and motivate key personnel; our vulnerability to disruptions and delays at our third-party service providers; cybersecurity threats, cyber incidents affecting our and our business partners' systems and networks; our inability to access critical information in a timely manner due to system failures; risks related to acquisitions, integrations, strategic alliances or collaborative arrangements; climate change, earthquake, flood or other natural catastrophic events, public health crises or terrorism and the adverse impact on our business operations; the war between Ukraine and Russia, escalation of hostilities in the Middle East, and the significant military activity in those regions; lack of insurance for losses and interruptions caused by terrorists and acts of war, and our self-insurance of certain risks including earthquake risk; risks related to fluctuations in foreign currency exchange rates; risks related to fluctuations in interest rates and the market values of our portfolio investments; risks related to tax and regulatory compliance audits; any change in taxation rules or practices and our effective tax rate; compliance costs with federal securities laws, rules, regulations, NASDAQ requirements, and evolving accounting standards and practices; ongoing changes in the technology industry, and the semiconductor industry in particular, including future growth rates, pricing trends in end-markets, or changes in customer capital spending patterns; our vulnerability to a highly concentrated customer base; the cyclicity of the industries in which we operate; our ability to timely develop new technologies and products that successfully address changes in the industry; risks related to artificial intelligence; our ability to maintain our technology advantage and protect proprietary rights; our ability to compete in the industry; availability and cost of the materials and parts used in the production of our products; our ability to operate our business in accordance with our business plan; risks related to our debt and leveraged capital structure; we may not be able to declare cash dividends at all or in any particular amount; liability to our customers under indemnification provisions if our products fail to operate properly or contain defects or our customers are sued by third parties due to our products; our government funding for research and development is subject to audit, and potential termination or penalties; we may incur significant restructuring charges or other asset impairment charges or inventory write offs; we are subject to risks related to receivables factoring arrangements and compliance risk of certain settlement agreements with the government; and risks related to the Court of Chancery of the State of Delaware being the sole and exclusive forum for certain actions and proceedings. For other factors that may cause actual results to differ materially from those projected and anticipated in forward-looking statements in this press release, please refer to KLA's Annual Report on Form 10-K for the year ended June 30, 2025, and other subsequent filings with the Securities and Exchange Commission (including, but not limited to, the risk factors described therein). KLA assumes no obligation to, and does not currently intend to, update these forward-looking statements.

Therefore, the sum of quarterly diluted net income per share information may not equal annual (or other multiple-quarter calculations of) diluted net income per share.

The KLA Operating Model

Consistent Strategy and Execution

- Application of common processes and discipline
- Cascades throughout the organization
- Strong focus on talent development

Management By Metrics

- Culture of performance and accountability
- Expectation of continuous improvement
- Superior margins driven by market leadership and differentiation

Financial Discipline and Rigor

- Exert efficiency and operating discipline in our investments
- Strong track record of high returns
- Focused on enhancing shareholder value

Focused on driving sustainable profitability and growth

* Refer to "Reconciliation of Non-GAAP Measures - Explanation of Non-GAAP Financial Measures" for detailed descriptions and information for each reconciling item.

- (1) Non-GAAP operating income and operating expenses include the effects of the changes in the Company's Executive Deferred Savings Plan Program ("EDSP"), because the changes in the EDSP liability and asset are recorded in selling, general and administrative expense in operating expenses. The expense associated with changes in the EDSP liability included in selling, general and administrative expense for the quarter and the twelve months ended December 31, 2025 was \$6.4 million and \$44.8 million, respectively. The gain associated with changes in the EDSP assets included in selling, general and administrative expense for the quarter and the twelve months ended December 31, 2025 was \$6.2 million and \$43.6 million, respectively.

Amounts may not sum due to rounding

The Company presents free cash flow and certain related metrics as supplemental non-GAAP measures of its performance. Free cash flow is determined by adjusting GAAP net cash provided by operating activities for capital expenditures. Free cash flow conversion is defined as free cash flow divided by non-GAAP net income, and free cash flow margin is defined as free cash flow divided by revenue.

Reconciliation of Non-GAAP Financial Measures

Explanation of Non-GAAP Financial Measures:

To supplement our Condensed Consolidated Financial Statements presented in accordance with GAAP, we provide certain non-GAAP financial information, which is adjusted from results based on GAAP to exclude certain gains, costs and expenses, as well as other supplemental information. The non-GAAP and supplemental information is provided to enhance the user's overall understanding of our operating performance and our prospects in the future. Specifically, we believe that the non-GAAP information, including non-GAAP net income, non-GAAP net income per diluted share, non-GAAP gross margin and free cash flow, provides useful measures to both management and investors regarding financial and business trends relating to our financial performance by excluding certain costs and expenses that we believe are not indicative of our core operating results to help investors compare our operating performances with our results in prior periods as well as with the performance of other companies. The non-GAAP information is among the budgeting and planning tools that management uses for future forecasting. However, because there are no standardized or generally accepted definitions for most non-GAAP financial metrics, definitions of non-GAAP financial metrics are inherently subject to significant discretion (for example, determining which costs and expenses to exclude when calculating such a metric). As a result, non-GAAP financial metrics may be defined very differently from company to company, or even from period to period within the same company, which can potentially limit the usefulness of such information to an investor. The presentation of non-GAAP and supplemental information is not meant to be considered in isolation or as a substitute for results prepared and presented in accordance with United States GAAP.

The following are descriptions of the adjustments made to reconcile GAAP net income to non-GAAP net income:

- a) Acquisition-related charges primarily include amortization of intangible assets. Although we exclude the effect of amortization of all acquired intangible assets from these non-GAAP financial measures, management believes that it is important for investors to understand that such intangible assets were recorded as part of purchase price accounting arising from acquisitions, and such amortization of intangible assets related to past acquisitions will recur in future periods until such intangible assets have been fully amortized. Investors should note that the use of these intangible assets contributed to our revenues earned during the periods presented and are expected to contribute to our future period revenues as well.
- b) Restructuring, severance and other charges primarily include costs associated with employee severance and other exit costs.
- c) Income tax effect of non-GAAP adjustments includes the income tax effects of the excluded items noted above.
- d) Discrete tax items consist of certain income tax expenses/benefits that, by excluding, help investors compare our operating performance with our results in prior periods as well as with the performance of other companies.
