These unaudited interim condensed consolidated financial statements do not include all notes of the type normally included in an annual financial statement. Accordingly, these unaudited interim condensed consolidated financial statements are to be read in conjunction with the consolidated financial statements for the fiscal year ended June 30, 2024.

Authorization for the issue of the consolidated financial statements

These unaudited interim condensed consolidated financial statements of the Group as of March 31, 2025, and June 30, 2024 and for the three- and nine-month periods ended March 31, 2025 and 2024 were authorized by the Board of Directors of Bioceres Crop Solutions Corp. on June 20, 2025.

Basis of measurement

The consolidated financial statements of the Group have been prepared using:

- Going concern basis of accounting, considering the conclusion of the assessment made by the Group's Management about the ability of the Group and its subsidiaries to continue as a going concern, in accordance with the requirements of paragraph 25 of IAS 1, "Presentation of Financial Statements".
- Accrual basis of accounting (except for cash flows information). Under this basis of accounting, the effects of transactions and other events are recognized as they occur, even when there are no cash flows.

4. ACQUISITIONS AND OTHER SIGNIFICANT TRANSACTIONS

Natal Agro S.R.L.

On June 10, 2024, we acquired a controlling interest in Natal Agro S.R.L. ("Natal"), an Argentine company that breeds and develops corn varieties. The interest acquired is represented by a total of 116,225 shares of AR\$ 10 nominal value each, representing 51 % of equity and voting interest.

The consideration for the acquisition was \$ 0.22 million in cash and the commitment to carrying out, at our own expense, the regulatory activities for HB4 corn to obtain authorization for its commercialization in Argentina, and the regulatory activities for HB4 corn in Brazil, once the commercialization strategy of HB4 corn in Brazil has been defined by the Company.

Fair value of the consideration of payment

Cash payment	215,415
Regulatory activities	727,985
Total consideration	943,400

The consideration of payment was measured at fair value, which was calculated as the sum of cash paid and the acquisition-date fair values of the regulatory services to be provided. The fair values measured were based on discounting future cash flow using market discount rates. The difference between fair value and nominal value of consideration will be recognized as finance cost over the period the consideration will be paid.

The business combination was executed in a context of financial setbacks faced by the acquired company. To address these, in addition to the initial cash payment, Bioceres has committed to providing a working capital loan of up to \$ 3 million to help alleviate the financial strain.

Bioceres will also provide regulatory services related to its proprietary technologies, which will enable strategic business development for Natal and create a new product pipeline leveraging Bioceres' technology. Specifically, Bioceres has agreed to grant Natal an exclusive license for certain technologies to be applied to corn, with Natal committing to pay 15 % of the revenues generated from this technology.

Since the issuance of the annual financial statements for the period ending June 30, 2024, we have revisited the fair value of the services we committed to providing in exchange for payment and have made progress in identifying and valuing specific intangible assets.

As required by the standards, measurement period adjustments are incorporated into the business combination accounting. The effect of the adjustment corresponds to the identification of an intangible asset for an amount of \$ 0.8 million (net of deferred income tax liability and non-controlling interest of \$ 0.5 million and \$ 0.8 million, respectively) and a change in the fair value of the consideration by \$ 0.4 million, generating a bargain purchase gain of \$ 1.0 million as opposed to the \$ 0.2 million goodwill recognized as of June 30, 2024. Comparative prior period information in the financial statements has been updated to reflect these adjustments, as if the business combination had been fully accounted for on the acquisition date.

Non-controlling interest was measured at the present ownership instruments' proportionate share in the recognized amounts of the acquiree's identifiable net assets.

In June 2024, under the terms of the HB4 Soy Supply Agreement, we supplied to Moolec an amount of HB4 soy equivalent to \$ 6.6 million. The Moolec Convertible Notes will mature 36 months after and include a "payment-in-kind" feature. If the trading price of Moolec's ordinary shares exceeds the strike price of \$ 6.00 per ordinary share for 10 trading days, we have the option to exercise the early conversion option pursuant to which the principal amount outstanding under the Moolec Convertible Notes may be converted into ordinary shares of Moolec at the strike price. At maturity, Moolec has the option to convert the principal amount outstanding under the Moolec Convertible Notes into ordinary shares. In November 2024, we completed a \$ 25.9 million public offering of Series X corporate bonds in the Argentine market. The bonds were issued in two tranches: Class A: Approximately \$ 2.4 million 7.0 % p.a. bonds due November 2026; and Class B: Approximately \$ 23.5 million 8.0 % p.a. bonds due November 2027.

In this regard, the Group has a pre-approved financing program authorized by the Argentine National Securities Commission (Comisión Nacional de Valores – CNV), which allows for the issuance of public corporate bonds for up to \$ 200 million. As of March 31, 2025, the Group had utilized \$ 51 million under this program, with \$ 149 million remaining available for future use. The facility remains fully discretionary and may be utilized as needed by the Group.

In January 2025, we completed a \$ 20 million financing agreement with Coöperatieve Rabobank U.A. The capital will be repaid in seven semi-annual installments between June 15, 2026, and June 15, 2029. The annual interest rate is Term SOFR plus a margin ranging from 5.15 % to 6.15 %, with interest payable semi-annually at the end of each interest period. Our subsidiary, Rizobacter Argentina S.A., must annually comply with specific financial covenants outlined in the agreement.

5.10. Secured Notes

Secured Guaranteed Notes

The Secured Guaranteed Notes due 2026 matured 48 months after the issue date and bore interest at 9.0 % from the issue date through 24 months after the issue date, 13.0 % from 25 through 36 months after the issue date and 14.0 % from 37 through 48 months after the issue date. Interest was payable semi-annually. The Secured Guaranteed Notes due 2026 did not have any conversion rights into our ordinary shares.

Secured Convertible Guaranteed Notes

The Secured Guaranteed Convertible Notes were issued for a total principal amount of \$ 55 million. The notes had a 4 - year maturity and accrued interest at an annual interest rate of 9 %, of which 5 % was payable in cash and 4 % in-kind. At any time up to maturity the note holders could opt to convert the outstanding principal amount into common share of Bioceres at a strike price of \$ 18 per share. The Company had the option to repurchase the notes voluntarily 30 months after the issue date.

Both Secure Notes are subject to identical financial covenants. As of March 31, 2025, we were required to maintain a maximum Consolidated Total Net Leverage Ratio of 3.75 x and a minimum Interest Coverage Ratio of 2.00 x, tested on a quarterly basis.

During the current period, we experienced a temporary setback due to challenges in the Argentine market—most notably, the deterioration in farmer economics driven by declining commodity prices and weak yield forecasts. These external pressures significantly impacted per-hectare income for Argentine farmers, leading to reduced investment in key inputs such as fertilizers and crop protection products.

This reduction in demand, combined with a well-supplied ag-input market resulting from aggressive purchasing in prior years, has led to increased price pressure and lower adoption of high-value technologies like ours. However, we are encouraged that we maintained our market share in key product families, despite the overall Argentine market contraction.

As a result of these temporary conditions, our performance metrics were constrained, leading us to exceed the leverage ratio threshold outlined in the Secured Notes. Since, as of March 31, 2025, we were unable to demonstrate an unconditional right to defer settlement of the liability for at least twelve months, we reclassified it as a current liability for this reporting period. However, on June 18, 2025, we reached an agreement with the noteholders to amend both secured notes, introducing revised financial covenants. Under the amended terms, we are now required to maintain a maximum Consolidated Total Net Leverage Ratio of 5.00 x and a minimum Interest Coverage Ratio of 1.50 x as of March 31 and June 30, 2025—placing us in full compliance with the updated financial requirements. See Note 18.

8. EARNING PER SHARE

The numerators and denominators used in the calculation of basic EPS and diluted EPS are presented below:

	Three-month period ended		Nine-month period ended	
	03/31/2025	03/31/2024	03/31/2025	03/31/2024
Numerator				
Profit/ (Loss) for the period (basic EPS)	(1,303,923)	9,257,226	(7,529,650)	4,774,041
Profit/ (Loss) for the period (diluted EPS)	(1,303,923)	9,257,226	(7,529,650)	4,774,041
Denominator				
Weighted average number of shares (basic EPS)	62,785,880	62,837,668	62,785,880	62,837,668
Weighted average number of shares (diluted EPS)	62,785,880	66,761,225	62,785,880	66,761,225
Basic profit/ (loss) attributable to ordinary equity holders of the parent	(0.0208)	0.1473	(0.1199)	0.0760
Diluted profit/ (loss) attributable to ordinary equity holders of the parent	(0.0208)	0.1387	(0.1199)	0.0715

For the three- and nine-month period ended March 31, 2025, diluted EPS was the same as basic EPS, as the effect of potential ordinary shares would be antidilutive.

For the three- and nine-month period ended March 31, 2024, diluted earnings per share was calculated by adjusting the weighted average number of shares outstanding to assume conversion of all dilutive potential shares. The Group had two categories of dilutive potential shares, share-based incentives and the convertible notes.

The stock options were included in the diluted EPS calculation for the three- and nine-month period ended March 31, 2024, only for the tranches in which the average market price of ordinary shares during the periods was higher than the assumed proceeds per option.

NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in US\$, except otherwise indicated)

Convertible notes outstanding were not included in the diluted EPS calculations for the three- and nine-month period ended March 31, 2024, because the interest (net of tax and other changes in income or expense) per ordinary share obtainable on conversion exceeds basic earnings per share.

Estimation of fair value

The fair value of marketable securities, mutual funds and US Treasury Bills is calculated using the market approach using quoted prices in active markets for identical assets. The quoted marked price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.

The Group's financial liabilities, which were not traded in an active market, were determined using valuation techniques that maximize the use of available market information, and thus rely as little as possible on specific estimates of the entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instruments are included in level 2.

If one or more of the significant inputs is not based on observable market data, the instruments are included in level 3.

The Group's policy is to recognize transfers between different categories of the fair value hierarchy at the time they occur or when there are changes in the circumstances that cause the transfer. There were no transfers between levels of the fair value hierarchy. There were no changes in economic or business circumstances affecting fair value.

(Amounts in US\$, except otherwise indicated)

Financial instruments not measured at fair value

The financial instruments not measured at fair value include cash and cash equivalents, trade accounts receivable, other accounts receivable, trade payables and other debts, borrowings, financed payments and convertible notes.

The carrying value of financial instruments not measured at fair value does not differ significantly from their fair value, except for borrowings (Note 5.9).

Management estimates that the carrying value of the financial instruments measured at amortized cost approximates their fair value.

Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rate. Currency on foreign exchange risk arises when the Group enters into transactions denominated in a currency other than its functional currency.

The table below sets forth our net exposure to currency risk as of March 31, 2025:

Net foreign currency position	03/31/2025
Amount expressed in US\$	18,745,129

Considering only this net currency exposure as of March 31, 2025 if an US Dollar revaluation or depreciation in relation to other foreign currencies with the remaining variables remaining constant, would have a positive or a negative impact on comprehensive income as a result of foreign exchange gains or losses. We estimate that a devaluation or an appreciation of the US Dollar other currencies of 10 % during the period ended March 31, 2025 would have resulted in a net pre-tax loss or gain of approximately \$ 1.9 million.

18. EVENTS OCCURRING AFTER THE REPORTING PERIOD.

On June 18, 2025, we enter into an amendment to the Secured Notes. The material changes to the economic terms of the Notes are as follows:

Secured Guaranteed Notes

The aggregate principal amount increases from \$ 26,437,485 to \$ 29,081,233 , with an annual interest rate of 19 %, of which 14 % is payable in cash and 5 % in kind. The Company is required to make scheduled amortization payments of \$ 1,000,000 on the last business day of each calendar month and may only be repurchased in full. If the Company repurchases them on or before August 5, 2025, a 5 % prepayment penalty applies; if repurchased after that date, the penalty increases to 10 %.

Secured Convertible Guaranteed Notes

The aggregate principal amount increases from \$ 61,652,927 to \$ 67,868,227 , and the maturity date is extended to August 31, 2027. The notes carry an annual interest rate of 15 %, of which 5 % is payable in cash and 10 % in kind. Noteholders have the option to convert the outstanding principal amount of their Convertible Notes into common shares of the Company at a reduced strike price of \$ 6 per share. However, except in the event of a Change of Control (as defined in the Convertible Note Purchase Agreement), conversion rights cannot

NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in US\$, except otherwise indicated)

be exercised before September 30, 2025. If the Company raises more than \$ 10,000,000 in common equity, the strike price resets to the lesser of (1) the then-applicable strike price or (2) the price per share at which the new shares are issued (or the weighted average price per share, if issued at varying prices). The Company may repurchase the Convertible Notes voluntarily. If repurchased on or before August 31, 2025, a 5 % prepayment penalty applies; if repurchased during September 2025, the penalty increases to 7 %. For repurchases after October 1, 2025, the Company is required to pay the Equity Option Fee, as defined in the Convertible Note Purchase Agreement.

The Company's financial covenants in both Secured Notes are being amended to reset the Consolidated Total Net Leverage Ratio and Interest Coverage Ratio to the following:

Consolidated Total Net Leverage Ratio

Fiscal Quarters ended March 31, 2025 and June 30, 2025: 5.00 x

Fiscal Quarters ended September 30, 2025 and December 31, 2025: 4.33 x

Fiscal Quarters ended March 31, 2026 through the Maturity Date: 3.75 x

Interest Coverage Ratio

Fiscal Quarters ended September 30, 2025 and December 31, 2025: 1.75 x

Fiscal Quarters ended March 31, 2026 through the Maturity Date: 2.00 x
