AND SUBSIDIARIESNOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITEDJuneÂ 30, 2024NoteÂ 1Â Â Â Â Basis of Presentation and Summary of Significant Accounting PoliciesBankUnited, Inc. is a national bank holding company with one wholly-owned subsidiary, BankUnited, collectively, the Company. BankUnited, a national banking association headquartered in Miami Lakes, Florida, provides a full range of banking services to individual and corporate customers through banking centers in Florida, the New York metropolitan area and Dallas, Texas. The Bank also offers certain commercial lending and deposit products through national platforms and regional wholesale banking offices.The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X of the SEC. Accordingly, these financial statements do not include all of the information and footnotes required for a fair presentation of financial position, results of operations and cash flows in conformity with GAAP and should be read in conjunction with the Companyâ€™s consolidated financial statements and the notes thereto appearing in BKUâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023, filed with the SEC. In the opinion of management, all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2024, are not necessarily indicative of the results that may be expected in future periods.The Company has a single operating segment and thus a single reportable segment. While management monitors the revenue streams of its various business units, the business units serve a similar base of primarily commercial clients, providing a similar range of products and services, managed through similar processes and platforms. The Companyâ€™s chief operating decision maker makes company-wide resource allocation decisions and assessments of performance based on a collective assessment of the Companyâ€™s operations.Accounting EstimatesIn preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses and disclosures of contingent assets and liabilities. Actual results could differ significantly from these estimates.The most significant estimate impacting the Company's consolidated financial statements is the ACL. New Accounting Pronouncements Adopted During the Six Months Ended June 30, 2024ASU No. 2023-02â€”Investments - Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures using the Proportional Amortization Method (A Consensus of the Emerging Issues Task Force). This ASU was issued to expand the use of the proportional amortization method of accounting for equity investments in tax credit programs beyond those in LIHTC programs. The ASU allows entities to elect the proportional amortization method, on a tax credit program by tax credit program basis, for all equity investments in tax credit programs meeting the eligibility criteria. The Company adopted this ASU in the first quarter of 2024. There was no impact upon adoption. Currently, all of the Company's equity investments in tax credit programs are in LIHTC programs already accounted for using the proportional amortization method.Accounting Pronouncements Not Yet AdoptedASU No. 2023-07â€”Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. This ASU augments reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. In addition, the amendments enhance interim disclosure requirements, clarify circumstances in which an entity can disclose multiple segment measures of profit or loss, provide new segment disclosure requirements for entities with a single reportable segment and contain other disclosure requirements. This ASU is effective for the Company for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. This ASU is not expected to have an impact on the Company's consolidated financial position, results of operations and cash flows. Adoption may lead to additional and revised disclosures in the Company's financial statements starting with the 2024 Annual Report on Form 10-K.7Table of

ContentsBANKUNITED,Â INC. AND SUBSIDIARIESNOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITEDJuneÂ 30, 2024ASU No. 2023-09â€”Income Taxes (Topic 740): Improvements to Income Tax Disclosures. This ASU requires entities to provide additional disclosures, primarily related to the income tax rate reconciliation and income taxes paid. The guidance also eliminates certain existing disclosure requirements related to uncertain tax positions among others. This ASU is effective for the Company for fiscal years beginning after December 15, 2024, and interim periods within fiscal years beginning after December 15, 2025. The adoption of this ASU is not expected to have an impact on the Company's consolidated financial position, results of operations and cash flows. Adoption will lead to revised disclosures about income taxes in the Company's financial statements.Note 2Â Â Â Â Earnings Per Common ShareThe computation of basic and diluted earnings per common share is presented below for the periods indicated (in thousands, except share and per share data):Three Months Ended June 30,Six Months Ended June 30,c2024202320242023Basic earnings per common share:Â Numerator:Â Net income$53,733Â $57,996Â $101,713Â $110,878Â Distributed and undistributed earnings allocated to participating securities(748)(881)(1,429)(1,679)Income allocated to common stockholders for basic earnings per common share$52,985Â $57,115Â $100,284Â $109,199Â Denominator:Weighted average common shares outstanding74,762,498Â 74,424,631Â 74,635,803Â 74,588,904Â Less average unvested stock awards(1,110,233)(1,183,039)(1,119,035)(1,188,430)Weighted average shares for basic earnings per common share73,652,265Â 73,241,592Â 73,516,768Â 73,400,474Â Basic earnings per common share$0.72Â $0.78Â $1.36Â $1.49Â Diluted earnings per common share:Numerator:Income allocated to common stockholders for basic earnings per common share$52,985Â $57,115Â $100,284Â $109,199Â Adjustment for earnings reallocated from participating securities2Â 1Â 4Â 5Â Income used in calculating diluted earnings per common share$52,987Â $57,116Â $100,288Â $109,204Â Denominator:Weighted average shares for basic earnings per common share73,652,265Â 73,241,592Â 73,516,768Â 73,400,474Â Dilutive effect of certain share-based awards365,988Â 179,318Â 310,906Â 312,708Â Weighted average shares for diluted earnings per common share74,018,253Â 73,420,910Â 73,827,674Â 73,713,182Â Diluted earnings per common share$0.72Â $0.78Â $1.36Â $1.48Â Potentially dilutive unvested shares totaling 1,084,899 and 1,179,216 were outstanding at JuneÂ 30, 2024 and 2023, respectively, but excluded from the calculation of diluted earnings per common share because their inclusion would have been anti-dilutive.8Table of ContentsBANKUNITED,Â INC. No securities were determined to be credit loss impaired during the three and six months ended June 30, 2024 and 2023. At JuneÂ 30, 2024, the Company did not have an intent to sell securities that were in significant unrealized loss positions, and it was not more likely than not that the Company would be required to sell these securities before recovery of the amortized cost basis, which may be at maturity. In making this determination, the Company considered its current and projected liquidity position including its ability to pledge securities to generate liquidity, its investment policy as to permissible holdings and concentration limits, regulatory requirements and other relevant factors. We have not sold, and do not anticipate the need to sell, securities in unrealized loss positions to generate liquidity.At JuneÂ 30, 2024, 485 securities available for sale were in unrealized loss positions. The amount of impairment related to 135 of these securities was considered insignificant both individually and in the aggregate, totaling approximately $1.2 million and no further analysis with respect to these securities was considered necessary.The basis for concluding that AFS securities were not credit loss impaired and no ACL was considered necessary at JuneÂ 30, 2024, is further discussed below.Unrealized losses were primarily attributable to a sustained higher interest rate environment and in some cases, wider spreads compared to levels at which securities were purchased. The investment securities AFS portfolio was in a net unrealized loss position of $462.5 million at JuneÂ 30, 2024, compared to $534.8 million at DecemberÂ 31, 2023, improving by $72.3 million during the six months ended June 30, 2024. While the majority of securities in the portfolio were floating rate at JuneÂ 30, 2024, fixed rate securities accounted for the majority of unrealized losses.U.S. Government, U.S. Government Agency and Government Sponsored Enterprise SecuritiesAt JuneÂ 30, 2024, six U.S. treasury, 73 U.S. Government agency and sponsored enterprise residential MBS, 26 U.S. Government agency and sponsored enterprise commercial MBS, and 20 SBA securities were in unrealized loss positions. The timely payment of principal and interest on these securities is explicitly or implicitly guaranteed by the U.S. Government. As such, there is an assumption of zero credit loss and the Company expects to recover the amortized cost basis of these securities.12Table of ContentsBANKUNITED,Â INC. AND SUBSIDIARIESNOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITEDJuneÂ 30, 2024Private Label Securities:None of the impaired private label securities had missed principal or interest payments or had been downgraded by a NRSRO at JuneÂ 30, 2024. The Company performed an analysis comparing the present value of cash flows expected to be collected to the amortized cost basis of impaired securities. This analysis was based on a scenario that we believe to be generally more conservative than our reasonable and supportable economic forecast at JuneÂ 30, 2024, and incorporated assumptions about voluntary prepayment rates, collateral defaults, delinquencies, severity and other relevant factors as described further below. Our analysis also considered the structural characteristics of each security and the level of credit enhancement provided by that structure.Private label residential MBS and CMOsAt JuneÂ 30, 2024, 114 private label residential MBS and CMOs were in unrealized loss positions. Our analysis of cash flows expected to be collected on these securities incorporated assumptions about collateral default rates, voluntary prepayment rates, loss severity, delinquencies and recovery lag. In developing those assumptions, we took into account collateral quality measures such as FICO, LTV, documentation, loan type, property type, agency availability criteria and performing status. We also regularly monitor sector data including home price appreciation, forbearance, delinquency, special servicing and prepay trends as well as other economic data that could be indicative of stress in the sector.Â Underlying delinquencies in this sector remain low. Our JuneÂ 30, 2024 analysis projected weighted average collateral losses for impaired securities in this category of 2% compared to weighted average credit support of 18%. As of JuneÂ 30, 2024, 95% of impaired securities in this category, based on carrying value, were externally rated AAA and 5% were rated AA.Private label commercial MBSAt JuneÂ 30, 2024, 81 private label commercial MBS were in unrealized loss positions.Â Our analysis of cash flows expected to be collected on these securities incorporated assumptions about collateral default rates, voluntary prepayment rates, loss severity, delinquencies and recovery lag. In developing those assumptions, we took into account collateral quality and type, loan size, loan purpose and other qualitative factors. We also regularly monitor collateral concentrations, collateral watch lists, bankruptcy data, defeasance data, special servicing trends, delinquency and other economic data that could be indicative of stress in the sector. We consider collateral, deal, sector and tranche level performance as well as maturity and refinance risk. While we have observed some deterioration in collateral performance in this segment, particularly in the office sector, the high credit quality of these securities and adequacy of subordination to cover projected collateral losses supports the conclusion that there is no credit loss impairment. Our JuneÂ 30, 2024 analysis projected weighted average collateral losses for impaired securities in this category of 7% compared to weighted average credit support of 45%. As of JuneÂ 30, 2024, 84% of impaired securities in this category, based on carrying value, were externally rated AAA, 12% were rated AA and 4% were rated A. There is no single-asset, single-borrower exposure.Single family real estate-backed securitiesAt JuneÂ 30, 2024, 11 single family rental real estate-backed securities were in unrealized loss positions. Our analysis of cash flows expected to be collected on these securities incorporated assumptions about collateral default rates, loss severity, delinquencies and recovery lag. We regularly monitor sector data including home price appreciation, forbearance, delinquency and prepay trends as well as other economic data that could be indicative of stress in the sector. We consider collateral, deal, sector and tranche level performance as well as maturity and refinance risk. Our JuneÂ 30, 2024 analysis projected weighted average collateral losses for this category of 7% compared to weighted average credit support of 53%. As of JuneÂ 30, 2024, 54% of impaired securities in this category, based on carrying value, were externally rated AAA, 19% were rated AA and one security was not externally rated. 13Table of ContentsBANKUNITED,Â INC. AND SUBSIDIARIESNOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITEDJuneÂ 30, 2024Collateralized loan obligationsAt JuneÂ 30, 2024, three collateralized loan obligations were in unrealized loss positions. Unrealized losses totaled less than 1% of total amortized cost of this segment at JuneÂ 30, 2024. Our analysis of cash flows expected to be collected on these securities incorporated assumptions about collateral default rates, loss severity, and delinquencies, calibrated to take into account idiosyncratic risks associated with the underlying collateral. In developing those assumptions, we took into account each sectorâ€™s performance pre-, during and post the 2008 financial crisis. We regularly engage with bond managers to monitor trends in underlying collateral including potential downgrades and subsequent cash flow diversions, liquidity, ratings migration, and any other relevant developments. While we have observed some deterioration in underlying collateral performance due in large part to rising costs, the high credit quality of these securities and adequacy of subordination to cover projected collateral losses supports the conclusion that there is no credit loss impairment. Our JuneÂ 30, 2024 analysis projected weighted average collateral losses for impaired securities in this category of 12% compared to weighted average credit support of 41%. As of JuneÂ 30, 2024, 28% of the impaired securities in this category, based on carrying value, were externally rated AAA and 72% were rated AA.Non-mortgage asset-backed securitiesAt JuneÂ 30, 2024, six non-mortgage asset-backed securities were in unrealized loss positions. These securities are backed by student loan collateral. Our analysis of cash flows expected to be collected on these securities incorporated assumptions about collateral default rates, loss severity, delinquencies, voluntary prepayment rates and recovery lag. In developing assumptions, we took into account collateral type, delineated by whether collateral consisted of loans to borrowers in school, refinancing, or a mixture. Our JuneÂ 30, 2024 analysis projected weighted average collateral losses for impaired securities in this category of 4% compared to weighted average credit support of 27%. As of JuneÂ 30, 2024, 34% of the impaired securities in this category, based on carrying value, were externally rated AAA, and 66% were rated AA.State and Municipal ObligationsAt JuneÂ 30, 2024, ten state and municipal obligations were in unrealized loss positions. Our analysis of potential credit loss impairment for these securities incorporates a quantitative measure of the underlying obligor's credit worthiness provided by a third-party vendor as well as other relevant qualitative considerations. As of JuneÂ 30, 2024, 54% of the impaired securities in this category, based on carrying value, were externally rated AAA, 13% were rated AA and 33% were rated A.14Table of ContentsBANKUNITED,Â INC. The quantitative portion of the ACL was determined using three weighted third-party provided economic scenarios.The ACL increased by $23.0 million, to 0.92% of total loans at JuneÂ 30, 2024 from 0.82% of total loans at DecemberÂ 31, 2023. The more significant factors impacting the provision for credit losses and increase in the ACL for the six months ended June 30, 2024 were new loan production and changes in portfolio characteristics; risk rating migration and an increase in specific reserves; an increase in qualitative reserves, particularly related to office CRE; partially offset by an improved economic forecast and net charge-offs.The following table presents gross charge-offs during the six months ended June 30, 2024, by year of origination (in thousands):Â 20242023202220212020Prior to 2020Revolving LoansTotalCRE$â€”Â $â€”Â $4,369Â $â€”Â $â€”Â $486Â $â€”Â $4,855Â C&Iâ€”Â 202Â 12,000Â 29Â â€”Â 1,091Â 114Â 13,436Â Franchise and equipment financeâ€”Â â€”Â â€”Â 765Â â€”Â 2,396Â â€”Â 3,161Â Residentialâ€”Â â€”Â â€”Â â€”Â â€”Â 34Â â€”Â 34Â $â€”Â $202Â $16,369Â $794Â $â€”Â $4,007Â $114Â $21,486Â The following table presents the components of the provision for credit losses for the periods indicated (in thousands):Three Months Ended June 30,Six Months Ended June 30,2024202320242023Amount related to funded portion of loans$21,823Â $14,195Â $37,628Â $31,790Â Amount related to off-balance sheet credit exposures(2,285)1,322Â (2,805)3,515Â Total provision for credit losses$19,538Â $15,517Â $34,823Â $35,305Â 16Table of ContentsBANKUNITED,Â INC. AND SUBSIDIARIESNOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITEDJuneÂ 30, 2024Credit quality informationCredit quality of loans held for investment is continuously monitored by dedicated residential credit risk management and commercial portfolio management functions. The Company also has a workout and recovery department that monitors the credit quality of criticized and classified loans and an independent internal credit review function.Credit quality indicators for commercial loansFactors that impact risk inherent in commercial portfolio segments include but are not limited to levels of economic activity or potential disruptions in economic activity, health of the national, regional and to a lesser extent global economy, interest rates, industry trends, demographic trends, inflationary trends, including particularly for commercial real estate loans the cost of insurance, patterns of and trends in customer behavior that influence demand for our borrowers' products and services, and commercial real estate values and related market dynamics. Particularly for the office sector, the evolving impact of hybrid and remote work on vacancies and valuations is a factor. Internal risk ratings are considered the most meaningful indicator of credit quality for commercial loans. Internal risk ratings are one indicator of the likelihood that a borrower will default, are a key factor influencing the level and nature of ongoing monitoring of loans and may impact the estimation of the ACL. Internal risk ratings are updated on a continuous basis. Generally, relationships with balances in excess of defined thresholds, ranging from $1 million to $3 million, are re-evaluated at least annually and more frequently if circumstances indicate that a change in risk rating may be warranted. The special mention rating is considered a transitional rating for loans exhibiting potential credit weaknesses that could result in deterioration of repayment prospects at some future date if not checked or corrected and that deserve managementâ€™s close attention. These borrowers may exhibit declining cash flows or revenues or increasing leverage. Loans with well-defined credit weaknesses that may result in a loss if the deficiencies are not corrected are assigned a risk rating of substandard. These borrowers may exhibit payment defaults, inadequate cash flows from current operations, operating losses, increasing balance sheet leverage, project cost overruns, unreasonable construction delays, exhausted interest reserves, declining collateral values, frequent overdrafts or past due real estate taxes. Loans with weaknesses so severe that collection in full is highly questionable or improbable, but because of certain reasonably specific pending factors have not been charged off, are assigned an internal risk rating of doubtful.Â 17Table of ContentsBANKUNITED,Â INC. Delinquency status is updated at least monthly. LTV and FICO scores are also important indicators of credit quality for 1-4 single family residential loans other than government insured loans. FICO scores are generally updated semi-annually, and were most recently updated in the first quarter of 2024. LTVs are typically at origination since we do not routinely update residential appraisals. Substantially all of the government insured residential loans are government insured buyout loans, which the Company buys out of GNMA securitizations upon default. For these loans, traditional measures of credit quality are not particularly relevant considering the guaranteed nature of the loans and the underlying business model. Factors that impact risk inherent in the residential portfolio segment include national and regional economic conditions such as levels of unemployment, wages and interest rates, as well as residential property values.19Table of ContentsBANKUNITED,Â INC. The effective income tax rates differed from the statutory federal income tax rate of 21% for the three and six months ended June 30, 2024 and 2023 primarily due to the impact of state income taxes, partially offset by the benefit of income not subject to federal tax.NoteÂ 6Â Â Â Â Derivative Financial InstrumentsDerivatives designated as hedging instrumentsThe Company has entered into interest rate derivatives designated as (i) cash flow hedges with the objective of limiting the variability of interest payment cash flows and (ii) fair value hedges designed to hedge changes in the fair value of outstanding fixed rate instruments caused by fluctuations in the benchmark interest rate. Changes in fair value of derivative instruments designated as cash flow hedges are reported in accumulated other comprehensive income. Changes in the fair value of derivative instruments designated as fair value hedges are recognized in earnings, as is the offsetting gain or loss on the hedged item.The following table summarizes the Company's derivatives designated as hedging instruments as of the dates indicated (in thousands): Â June 30, 2024December 31, 2023Â Notional AmountFairÂ Value(1)Notional AmountFairÂ Value(1)Â AssetLiabilityAssetLiabilityDerivatives designated as cash flow hedges:Â Â Â Interest rate swaps$2,635,000Â $â€"Â $(3,120)$3,215,000Â $â€"Â $(1,048)Interest rate caps purchased200,000Â 7,962Â â€"Â 200,000Â 10,157Â â€"Â Interest rate collar125,000Â â€"Â (140)125,000Â 84Â â€"Â Derivatives designated as fair value hedges:Interest rate swaps50,000Â â€"Â â€"Â 100,000Â â€"Â â€"Â Â $3,010,000Â $7,962Â $(3,260)$3,640,000Â $10,241Â $(1,048)(1)The fair values of derivatives are included in other assets or other liabilities in the consolidated balance sheets.25Table of ContentsBANKUNITED,Â INC. To mitigate interest rate risk associated with these derivative contracts, the Company enters into offsetting derivative contract positions with primary dealers. The Company purchases and sells credit protection under RPAs with the objective of sharing with financial institution counterparties some of the credit exposure related to interest rate derivative contracts entered into with commercial borrowers related to participations purchased or sold. The Company will make or receive payments under these agreements if a customer defaults on an obligation to perform under certain interest rate derivative contracts. The Company also enters into foreign currency forward derivative contracts with commercial borrowers to enable borrowers to manage their exposure to foreign currency fluctuations. The Company enters into offsetting forward contracts with primary dealers to mitigate the foreign currency risk associated with these contracts. These derivative contracts are not designated as hedging instruments; therefore, changes in the fair value of these derivatives are recognized immediately in earnings. The impact on earnings related to changes in fair value of these derivatives was not material for the three and six months ended June 30, 2024 and 2023.The Company may be exposed to credit risk in the event of non-performance by the counterparties to its commercial customer derivative agreements. The Company assesses the credit risk of its financial institution counterparties by monitoring publicly available credit rating and financial information. The Company manages dealer credit risk by entering into interest rate derivatives only with primary and highly rated counterparties, the use of ISDA master agreements, central clearing mechanisms and counterparty limits. The agreements contain bilateral collateral arrangements with the amount of collateral to be posted generally governed by the settlement value of outstanding swaps. The Company manages the risk of default by its commercial 26Table of ContentsBANKUNITED,Â INC. These securities typically include U.S. Treasury securities and certain preferred stocks. If quoted prices in active markets are not available, fair values are estimated using quoted prices of securities with similar characteristics, quoted prices of identical securities in less active markets, discounted cash flow

techniques, or matrix pricing models. These securities are generally classified within level 2 of the fair value hierarchy and include U.S. Government agency securities, U.S. Government agency and sponsored enterprise MBS, preferred stock investments for which levelÂ 1 valuations are not available, non-mortgage asset-backed securities, single family real estate-backed securities, private label residential MBS and CMOs, private label commercial MBS, collateralized loan obligations and state and municipal obligations. Pricing of these securities is generally primarily spread driven. Observable inputs that may impact the valuation of these securities include benchmark yield curves, credit spreads, reported trades, dealer quotes, bids, issuer spreads, current rating, historical constant prepayment rates, historical voluntary prepayment rates, structural and waterfall features of individual securities, published collateral data, and for certain securities, historical constant default rates and default severities.The Company uses third-party pricing services in determining fair value measurements for investment securities. To obtain an understanding of the methodologies and assumptions used, management reviews written documentation provided by the pricing services, conducts interviews with valuation desk personnel and reviews model results and detailed assumptions used to value selected securities as considered necessary. Management has established a robust price challenge process that includes a review by the treasury front office of all prices provided on a quarterly basis. Any price evidencing unexpected quarter over quarter fluctuations or deviations from expectations is challenged. If considered necessary to resolve any discrepancies, a price will be obtained from an additional independent valuation source. The Company does not typically adjust the prices provided, other than through this established challenge process. The results of price challenges are subject to review by executive 29Table of ContentsBANKUNITED,Â INC. AND SUBSIDIARIESNOTES TO CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITEDJuneÂ 30, 2024management. Any price discrepancies are resolved based on careful consideration of the assumptions and inputs employed by each of the pricing sources.Derivative financial instrumentsâ€”Fair values of interest rate derivatives are determined using widely accepted discounted cash flow modeling techniques. These discounted cash flow models use projections of future cash payments and receipts that are discounted at mid-market rates. Observable inputs that may impact the valuation of these instruments include benchmark swap rates and benchmark forward yield curves. These fair value measurements are generally classified within levelÂ 2 of the fair value hierarchy.The following tables present assets and liabilities measured at fair value on a recurring basis at the dates indicated (in thousands):Â June 30, 2024Â LevelÂ 1LevelÂ 2TotalInvestment securities available for sale:Â Â Â U.S. Treasury securities$105,300Â $â€”Â $105,300Â U.S. Government agency and sponsored enterprise residential MBSâ€”Â 2,313,383Â 2,313,383Â U.S. Government agency and sponsored enterprise commercial MBSâ€”Â 495,338Â 495,338Â Private label residential MBS and CMOsâ€”Â 2,223,093Â 2,223,093Â Private label commercial MBSâ€”Â 1,991,478Â 1,991,478Â Single family real estate-backed securitiesâ€”Â 333,241Â 333,241Â Collateralized loan obligationsâ€”Â 1,158,891Â 1,158,891Â Non-mortgage asset-backed securitiesâ€”Â 97,509Â 97,509Â State and municipal obligationsâ€”Â 105,008Â 105,008Â SBA securitiesâ€”Â 84,556Â 84,556Â Marketable equity securities28,652Â â€”Â 28,652Â Derivative assetsâ€”Â 108,106Â 108,106Â Total assets at fair value$133,952Â $8,910,603Â $9,044,555Â Derivative liabilities$â€”Â $(103,547)$(103,547)Total liabilities at fair value$â€”Â $(103,547)$(103,547)30Table of ContentsBANKUNITED,Â INC. The carrying value of OREO is initially measured based on the fair value of the real estate acquired in foreclosure and subsequently adjusted to the lower of cost or estimated fair value, less estimated cost to sell. Fair values of real estate collateral and OREO are typically based on third-party real estate appraisals which utilize market and income approaches to valuation incorporating both observable and unobservable inputs.Fair value measurements related to collateral dependent loans and OREO are generally classified within level 3 of the fair value hierarchy.The following table presents the net carrying value of assets classified within level 3 of the fair value hierarchy at the dates indicated, for which non-recurring changes in fair value were recorded during the period then ended (in thousands):June 30, 2024December 31, 2023Collateral dependent loans$36,016Â $50,885Â OREO2,370Â 29Â $38,386Â $50,914Â 31Table of ContentsBANKUNITED,Â INC. These financial instruments include commitments to fund loans, unfunded commitments under existing lines of credit, and commercial and standby letters of credit. These commitments expose the Company to varying degrees of credit and market risk which are essentially the same as those involved in extending loans to customers, and are subject to the same credit policies used in underwriting loans. Collateral may be obtained based on the Companyâ€™s credit evaluation of the counterparty. The Companyâ€™s maximum exposure to credit loss is represented by the contractual amount of these commitments.Commitments to fund loansThese are agreements to lend funds to customers as long as there is no violation of any condition established in the contract. Commitments to fund loans generally have fixed expiration dates or other termination clauses and may require payment of a fee. Many of these commitments are expected to expire without being funded and, therefore, the total commitment amounts do not necessarily represent future liquidity requirements.Â Unfunded commitments under lines of creditUnfunded commitments under lines of credit include commercial and commercial real estate lines of credit to existing customers, for many of which additional extensions of credit are subject to borrowing base requirements. Some of these commitments may mature without being fully funded, so may not necessarily represent future liquidity requirements.Â Commercial and standby letters of creditLetters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. These letters of credit are primarily issued to support trade transactions or guarantee arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers.Â 32Table of ContentsBANKUNITED,Â INC. Words such as â€œanticipates,â€ â€œexpects,â€ â€œintends,â€ â€œplans,â€ â€œbelieves,â€ â€œseeks,â€ â€œestimates,â€ "future" and similar expressions identify forward-looking statements. These forward-looking statements are based on the historical performance of the Company or on the Companyâ€™s current plans, estimates and expectations. The inclusion of this forward-looking information should not be regarded as a representation by the Company that the future plans, estimates or expectations so contemplated will be achieved. Such forward-looking statements are subject to various risks and uncertainties and assumptions relating to the Companyâ€™s operations, financial results, financial condition, business prospects, growth strategy and liquidity, including as impacted by external circumstances outside the Company's direct control, such as adverse events impacting the financial services industry. If one or more of these or other risks or uncertainties materialize, or if the Companyâ€™s underlying assumptions prove to be incorrect, the Companyâ€™s actual results may vary materially from those indicated in these statements. A number of important factors could cause actual results to differ materially from those indicated by the forward-looking statements, including, but not limited to, the risk factors described in Part I, Item 1A of the 2023 Annual Report on Form 10-K and any subsequent Quarterly Report on Form 10-Q or Current Report on Form 8-K. The Company does not undertake any obligation to publicly update or review any forward looking statement, whether as a result of new information, future developments or otherwise.OverviewNet income for the three months ended June 30, 2024, was $53.7 million, or $0.72 per diluted share, compared to $58.0 million, or $0.78 per diluted share, for the three months ended June 30, 2023. Net income for the six months ended June 30, 2024, was $101.7 million, or $1.36 per diluted share, compared to $110.9 million, or $1.48 per diluted share for the six months ended June 30, 2023. For the six months ended June 30, 2024, the annualized return on average stockholders' equity was 7.68% and the annualized return on average assets was 0.58%.In evaluating our financial performance, we consider the level of and trends in net interest income, the net interest margin, the cost of deposits, trends in non-interest income and non-interest expense, performance ratios such as the return on average equity and return on average assets and asset quality ratios, including the ratio of non-performing loans to total loans, non-performing assets to total assets, trends in criticized and classified assets and portfolio delinquency and charge-off trends. We consider the composition of earning assets and the funding mix, the composition and level of available liquidity and our interest rate risk profile. We analyze these ratios and trends against our own historical performance, our expected performance, our risk appetite and the financial condition and performance of comparable financial institutions.In response to evolving macro-environmental factors, we have established the following near-term strategic priorities for our Company:â€¢Improve the Bank's funding profile by growing core deposits and paying down higher cost wholesale funding;â€¢Improve the asset mix by re-positioning the balance sheet away from typically lower yielding transactional business such as residential mortgages and organically growing core commercial loans;â€¢Improve the net interest margin, largely a function of more profitable balance sheet composition;â€¢Maintain robust liquidity and capital;â€¢Continue to manage credit;â€¢Manage the rate of growth in operating expenses.The three months ended June 30, 2024 embodied strong execution on these key strategic priorities:â—¦The net interest margin, calculated on a tax-equivalent basis, expanded by 0.15%, to 2.72% for the quarter ended June 30, 2024 from 2.57% for the immediately preceding quarter.35â—¦The average cost of total deposits declined by 0.09% to 3.09% for the three months ended June 30, 2024, from 3.18% for the immediately preceding three months ended March 31, 2024. The spot APY of total deposits declined to 3.09% at JuneÂ 30, 2024 from 3.17% at MarchÂ 31, 2024. The spot APY of interest bearing deposits was stable at 4.29% at both June 30, 2024 and March 31, 2024.â—¦The funding mix continued to improve as non-interest bearing demand deposits grew by $826 million for the three months ended JuneÂ 30, 2024 to 29% of total deposits, up from 27% at MarchÂ 31, 2024. Non-brokered deposits grew by $1.3 billion and total deposits grew by $736 million. Average non-interest bearing demand deposits grew by $888 million for the quarter ended June 30, 2024.â—¦Wholesale funding, including FHLB advances and brokered deposits, declined by $1.2 billion for the three months ended June 30, 2024.â—¦Total loans grew by $402 million for the three months ended JuneÂ 30, 2024. The C&I and CRE portfolios grew by $589 million and mortgage warehouse grew by $83 million. Strategically, the residential loan portfolio declined by $212 million; franchise, equipment and municipal finance declined by a total of $57 million. â—¦The loan to deposit ratio declined to 88.7% at June 30, 2024, from 89.6% at March 31, 2024.â—¦Credit trends remain largely favorable although we are seeing some expected normalization. The annualized net charge-off ratio for the six months ended June 30, 2024, was 0.12%. The NPA ratio at JuneÂ 30, 2024 was 0.50%, including 0.11% related to the guaranteed portion of non-performing SBA loans, compared to 0.34%, including 0.11% related to the guaranteed portion of non-performing SBA loans at MarchÂ 31, 2024. The NPA ratio remains below pre-pandemic levels.â—¦The ratio of the ACL to total loans increased to 0.92% at June 30, 2024; the ratio of the ACL to non-performing loans was 130.12%. The ACL to loans ratio for commercial portfolio sub-segments including C&I, CRE, franchise finance and equipment finance was 1.42% at JuneÂ 30, 2024 and the ACL to loans ratio for CRE office loans was 2.47%. â—¦Commercial real estate exposure is modest totaling 24% of loans and 165% of the Bank's total risk-based capital at JuneÂ 30, 2024. By comparison, based on call report data as of MarchÂ 31, 2024 for banks with between $10 billion and $100 billion in assets, the median level of CRE to total loans was 35% and the median level of CRE to total risk based capital was 222%.â—¦Total same day available liquidity was $14.9 billion, the available liquidity to uninsured, uncollateralized deposits ratio was 139% and an estimated 61% of our deposits were insured or collateralized at JuneÂ 30, 2024.â—¦At JuneÂ 30, 2024, CET1 was 11.6% and pro-forma CET1, including accumulated other comprehensive income, was 10.4%. The ratio of tangible common equity/tangible assets increased to 7.4%. â—¦The net unrealized pre-tax loss on the AFS securities portfolio continued to improve, declining by $36 million for the three months ended June 30, 2024, representing 5% of amortized cost. The duration of our AFS securities portfolio remained short at 1.82 at JuneÂ 30, 2024. HTM securities were not significant. â—¦Book value and tangible book value per common share grew to $36.11 and $35.07, respectively, at JuneÂ 30, 2024, from $35.31 and $34.27, respectively, at MarchÂ 31, 2024.Results of OperationsNet Interest IncomeNet interest income is the difference between interest earned on interest earning assets and interest incurred on interest bearing liabilities and is the primary driver of core earnings. Net interest income is impacted by the mix of interest earning assets and interest bearing liabilities, the ratio of interest earning assets to total assets and of interest bearing liabilities to total funding sources, movements in market interest rates and monetary policy, the shape of the yield curve, levels of non-performing assets and pricing pressure from competitors.36The mix of interest earning assets is influenced by loan demand, market and competitive conditions in our primary lending markets, by management's continual assessment of the

rate of return and relative risk associated with various classes of earning assets and liquidity considerations. The mix of funding sources is influenced by the Company's liquidity profile, management's assessment of the desire for lower cost funding sources weighed against relationships with customers, our ability to attract and retain core deposit relationships, competition for deposits in the Company's markets and the availability and pricing of other sources of funds.The following table presents, for the periods indicated, information about (i)Â average balances, the total dollar amount of taxable equivalent interest income from earning assets and the resultant average yields; (ii)Â average balances, the total dollar amount of interest expense on interest bearing liabilities and the resultant average rates; (iii)Â net interest income; (iv)Â the interest rate spread; and (v)Â the net interest margin. Non-accrual loans are included in the average balances presented in this table; however, interest income foregone on non-accrual loans is not included. The increase in net interest income was comprised of an increase in tax-equivalent interest income of $1.8Â million and a decrease in interest expense of $9.3Â million for the three months ended June 30, 2024, compared to the three months ended March 31, 2024. The net interest margin, calculated on a tax-equivalent basis, was 2.72% for the three months ended June 30, 2024, compared to 2.57% for the three months ended March 31, 2024.Factors impacting the net interest margin for the three months ended June 30, 2024, compared to the three months ended March 31, 2024, included:â€¢Average non-interest bearing demand deposits increased by $888Â million, to 27.5% of average total deposits for the three months ended June 30, 2024 from 24.7% for the three months ended March 31, 2024, positively impacting the margin.â€¢The tax-equivalent yield on loans increased to 5.85% for the three months ended June 30, 2024, from 5.78% for the three months ended March 31, 2024. This increase reflects the origination of new loans at higher rates, paydowns of lower rate loans and balance sheet repositioning.38â€¢The average rate paid on interest bearing deposits increased this quarter, but at a declining rate, to 4.26% for the three months ended June 30, 2024, from 4.21% for the three months ended March 31, 2024.â€¢The average rate paid on FHLB advances increased to 4.28% for the three months ended JuneÂ 30, 2024 from 4.18% for the three months ended MarchÂ 31, 2024, reflecting maturities of cash flow hedges.Three and six months ended June 30, 2024, compared to the three and six months ended June 30, 2023Net interest income, calculated on a tax-equivalent basis, was $230.0 million for the three months ended June 30, 2024, compared to $218.1 million for the three months ended June 30, 2023, an increase of $11.9Â million. The increase was comprised of increases in tax-equivalent interest income and interest expense of $19.6Â million and $7.7Â million, respectively.Net interest income, calculated on a tax-equivalent basis, was $448.9 million for the six months ended June 30, 2024, compared to $450.2 million for the six months ended June 30, 2023, a decrease of $1.4Â million. The decrease was comprised of increases in tax-equivalent interest income and interest expense of $60.4Â million and $61.8Â million, respectively. Increases in interest income for the three and six months ended June 30, 2024 compared to the three and six months ended June 30, 2023, reflected rising yields on interest earning assets that more than offset the decline in average interest earning assets. Similarly, increases in interest expense for the three and six months ended June 30, 2024 compared to the three and six months ended June 30, 2023, resulted from increases in the cost of interest bearing liabilities that more than offset the decline in average interest bearing liabilities.The net interest margin, calculated on a tax-equivalent basis, increased to 2.72% and 2.64% for the three and six months ended June 30, 2024, respectively, from 2.47% and 2.55% for the three and six months ended June 30, 2023, respectively. The increase in the net interest margin for the three and six months ended June 30, 2024 compared to the three and six months ended June 30, 2023 was primarily a result of balance sheet repositioning and an improved funding mix. Increased yields on average interest earning assets as well as increases in the cost of deposits reflected the ongoing impact of higher prevailing market interest rates.Further discussion of factors impacting the net interest margin for the three and six months ended June 30, 2024 compared to the three and six months ended June 30, 2023 follows:â€¢The tax-equivalent yield on loans increased to 5.85% and 5.82% for the three and six months ended June 30, 2024, from 5.35% and 5.22% for the three and six months ended June 30, 2023. These increases reflected the origination of new loans at higher rates, coupon resets, paydowns of lower-rate loans and balance sheet repositioning.â€¢The tax-equivalent yield on investment securities increased to 5.60% and 5.59% for the three and six months ended June 30, 2024, from 5.19% and 5.07% for the three and six months ended June 30, 2023. These increases resulted primarily from the reset of coupon rates on variable rate securities, purchases of higher-yielding securities and paydowns and sales of lower-yielding securities.â€¢Non-interest bearing demand deposits increased as a percentage of total funding, to 23.6% for the three months ended June 30, 2024 from 21.0% for the three months ended June 30, 2023 and to 22.1% for the six months ended June 30, 2024 from 21.6% for the six months ended June 30, 2023. Higher-cost wholesale funding was paid down over this period; average FHLB advances declined by $3.5 billion for the quarter ended June 30, 2024 compared to the quarter ended June 30, 2023 and by $2.7 billion for the six months ended June 30, 2024 compared to the six months ended June 30, 2023.â€¢The average cost of interest bearing deposits increased to 4.26% and 4.23% for the three and six months ended June 30, 2024, from 3.39% and 3.12% for the three and six months ended June 30, 2023. These increases primarily reflected the ongoing impact of higher prevailing market interest rates.â€¢The average rate paid on FHLB advances decreased to 4.28% and 4.22% for the three and six months ended June 30, 2024, from 4.59% and 4.44% for the three and six months ended June 30, 2023, primarily due to repayment of higher rate advances, partially offset by maturities of cash flow hedges in the second quarter of 2024.39Provision for Credit LossesThe provision for credit losses is a charge or credit to earnings required to maintain the ACL at a level consistent with managementâ€™s estimate of expected credit losses on financial assets carried at amortized cost at the balance sheet date. The amount of the provision is impacted by changes in current economic conditions as well as in management's reasonable and supportable economic forecast, loan originations and runoff, changes in portfolio mix, risk rating migration and portfolio seasoning, changes in specific reserves, changes in expected prepayment speeds and other assumptions. The provision for credit losses also includes amounts related to off-balance sheet credit exposures and may include amounts related to accrued interest receivable and AFS debt securities.The following table presents the components of the provision for (recovery of) credit losses for the periods indicated (in thousands):Three Months Ended June 30,Six Months Ended June 30,2024202320242023Amount related to funded portion of loans$21,823Â $14,195Â $37,628Â $31,790Â Amount related to off-balance sheet credit exposures(2,285)1,322Â (2,805)3,515Â Total provision for credit losses$19,538Â $15,517Â $34,823Â $35,305Â The most significant factors impacting the provision for credit losses for the three and six months ended June 30, 2024, were new loan production and changes in portfolio characteristics; risk rating migration and an increase in specific reserves; for the six month period, an increase in qualitative reserves, particularly related to office CRE; all partially offset by an improved economic forecast.The provision for credit losses may be volatile and the level of the ACL may change materially from current levels. Future levels of the ACL could be significantly impacted, in either direction, by changes in factors such as, but not limited to, economic conditions or the economic outlook, the composition of the loan portfolio, the financial condition of our borrowers and collateral values.The determination of the amount of the ACL is complex and involves a high degree of judgment and subjectivity. See â€œAnalysis of the Allowance for Credit Lossesâ€ below for more information about how we determine the appropriate level of the ACL and about factors that impacted the ACL and provision for credit losses.Non-Interest IncomeThe following table presents a comparison of the categories of non-interest income for the periods indicated (in thousands):Three Months Ended June 30,Six Months Ended June 30,Â 2024202320242023Deposit service charges and fees$4,909Â $5,182Â $10,222Â $10,515Â Gain (loss) on investment securities:Net realized gain on sale of securities AFS350Â 847Â 322Â 1,599Â Net gain (loss) on marketable equity securities recognized in earnings71Â 146Â 874Â (13,155)Gain (loss) on investment securities, net421Â 993Â 1,196Â (11,556)Lease financing5,640Â 12,519Â 17,080Â 25,628Â Other non-interest income13,215Â 6,793Â 22,564Â 17,435Â $24,185Â $25,487Â $51,062Â $42,022Â The losses on marketable equity securities during the six months ended June 30, 2023, were attributable to losses related to certain preferred equity investments.The decrease in lease financing revenue for the three and six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, was primarily attributable to a lower level of rental income as we have opportunistically sold some operating lease equipment in a strategic effort to reduce the size of the operating lease equipment portfolio. Expense related to the depreciation of operating lease equipment reflected a corresponding decrease over these comparative periods.40The increase in other non-interest income for the three and six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, reflected increases in revenue from our customer derivative business and higher loan related and syndication fees.Non-Interest ExpenseThe following table presents the components of non-interest expense for the periods indicated (in thousands):Three Months Ended June 30,Six Months Ended June 30,Â 2024202320242023Employee compensation and benefits$75,588Â $67,414Â $151,508Â $138,465Â Occupancy and equipment 10,973Â 11,043Â 21,542Â 21,845Â Deposit insurance expense8,530Â 7,597Â 22,060Â 15,504Â Professional fees 4,497Â 3,518Â 7,007Â 6,436Â Technology20,567Â 20,437Â 40,882Â 42,163Â Depreciation of operating lease equipment7,896Â 11,232Â 17,109Â 22,753Â Other non-interest expense29,655Â 23,977Â 56,838Â 50,832Â Total non-interest expense$157,706Â $145,218Â $316,946Â $297,998Â The most significant factor impacting the increases in employee compensation and benefits was the fluctuation in variable compensation expense. An increase in expense related to liability-classified share-based awards was driven by volatility in the Company's stock price and reversal of expenses in the prior year for awards that did not vest. Accruals for estimated bonus and incentive awards also increased in 2024.The year-over-year increase in deposit insurance expense was primarily attributable to an additional $5.2 million related to an FDIC special assessment during the six months ended June 30, 2024.The decline in depreciation of operating lease equipment for the three and six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, is primarily attributed to a smaller operating lease equipment portfolio, corresponding to the decline in lease financing revenue.Included in other non-interest expense are costs related to certain deposit customer rebate and commissions programs, which increased by $6.4 million and $11.9 million for the three and six months ended June 30, 2024, respectively, compared to the three and six months ended June 30, 2023. Other non-interest expense for the six months ended June 30, 2023 included $4.4 million related to certain operational losses.Income TaxesSee Note 5 to the consolidated financial statements for information about income taxes.Analysis of Financial ConditionOver the course of the six months ended June 30, 2024, we continued to execute on our balance sheet transformation strategy. At June 30, 2024 compared to December 31, 2023, both non-interest bearing demand deposits and total deposits grew by $1.2 billion while FHLB advances declined by $1.8 billion. Within the loan portfolio, C&I and CRE loans grew by $363 million while residential loans declined by $364 million.During the quarter ended June 30, 2024, non-brokered deposits grew by $1.3 billion, including $826 million of growth in non-interest bearing demand deposits. Total deposits grew by $736 million and average non-interest bearing demand deposits grew by $888 million. Higher cost wholesale funding was paid down by $1.2 billion for the quarter ended June 30, 2024, with FHLB advances declining by $620 million and brokered deposits declining by $544 million. Total loans grew by $402 million during the quarter ended June 30, 2024; the C&I and CRE portfolios grew by a combined $589 million, while the residential portfolio declined by $212 million. We expect seasonally slower growth in non-interest bearing deposits over the second half of 2024.41Investment SecuritiesThe following table shows the amortized cost and carrying value, which, with the exception of investment securities held to maturity, is fair value, of investment securities at the dates indicated (in thousands):June 30, 2024December 31, 2023Â AmortizedCostCarrying ValueAmortizedCostCarrying ValueU.S. Treasury securities$114,652Â $105,300Â $139,858Â $130,592Â U.S. Government agency and sponsored enterprise residential MBS2,333,364Â 2,313,383Â 1,962,658Â 1,924,207Â U.S. Government agency and sponsored enterprise commercial MBS560,083Â 495,338Â 561,557Â 497,859Â Private label residential MBS and CMOs2,507,956Â 2,223,093Â 2,596,231Â 2,295,730Â Private label commercial MBS2,051,193Â 1,991,478Â 2,282,833Â 2,198,743Â Single family real estate-backed securities347,613Â 333,241Â 383,984Â 366,255Â Collateralized loan obligations1,155,523Â 1,158,891Â 1,122,799Â 1,112,824Â Non-mortgage asset-backed securities101,123Â 97,509Â 106,095Â 102,780Â State and municipal obligations111,636Â 105,008Â 107,176Â 102,618Â SBA securities87,182Â 84,556Â 106,237Â 103,024Â Investment securities held to maturity10,000Â 10,000Â 10,000Â 10,000Â $9,380,325Â 8,917,797Â $9,379,428Â 8,844,632Â Marketable equity securities28,652Â 32,722Â $8,946,449Â $8,877,354Â Our investment strategy is focused on ensuring adequate liquidity, maintaining a suitable balance of high credit quality, diverse assets, managing interest rate risk, and generating acceptable returns given our established risk parameters. We have sought to maintain liquidity by investing a significant portion of the portfolio in high quality liquid securities including U.S. Treasury and U.S. Government Agency and sponsored enterprise securities. We have also invested in highly-rated structured products, including private-label commercial and residential MBS, collateralized loan obligations, single family real estate-backed securities and non-mortgage asset-backed securities that, while somewhat less liquid, are generally pledgeable at either the FHLB or the FRB and provide us with attractive yields. Investment grade municipal securities provide liquidity and attractive tax-equivalent yields. We remain committed to keeping the duration of our securities portfolio short; relatively short effective portfolio duration helps mitigate interest rate risk. Based on the Companyâ€™s assumptions, the effective duration of the investment portfolio was 1.83 years and the estimated weighted average life of the portfolio was 5.4 years as of JuneÂ 30, 2024.The investment securities AFS portfolio was in a net unrealized loss position of $462.5 million at JuneÂ 30, 2024, compared to a net unrealized loss position of $534.8 million at DecemberÂ 31, 2023, improving by $72.3 million during the six months ended June 30, 2024. Net unrealized losses at JuneÂ 30, 2024 included $10.3 million of gross unrealized gains and $472.8 million of gross unrealized losses. Investment securities available for sale in unrealized loss positions at JuneÂ 30, 2024 had an aggregate fair value of $6.6 billion. The unrealized losses resulted primarily from a sustained period of higher interest rates, and in some cases, wider spreads compared to the levels at which securities were purchased. None of the unrealized losses were attributable to credit loss impairments.42The ratings distribution of our AFS securities portfolio at the dates indicated is depicted in the charts below: June 30, 2024December 31, 2023 We evaluate the credit quality of individual securities in the portfolio quarterly to determine whether we expect to recover the amortized cost basis of the investments in unrealized loss positions. This evaluation considers, but is not necessarily limited to, the following factors, the relative significance of which varies depending on the circumstances pertinent to each individual security:â€¢Whether we intend to sell the security prior to recovery of its amortized cost basis;â€¢Whether it is more likely than not that we will be required to sell the security prior to recovery of its amortized cost basis;â€¢The extent to which fair value is less than amortized cost;â€¢Adverse conditions specifically related to the security, a sector, an industry or geographic area; â€¢Changes in the financial condition of the issuer or underlying loan obligors;â€¢The payment structure and remaining payment terms of the security, including levels of subordination or over-collateralization;â€¢Failure of the issuer to make scheduled payments;â€¢Changes in external credit ratings;â€¢Relevant market data; andâ€¢Estimated prepayments, defaults, and the value and performance of underlying collateral at the individual security level.We regularly engage with bond managers to monitor trends in underlying collateral, including potential downgrades and subsequent cash flow diversions, liquidity, ratings migration, and any other relevant developments.We do not intend to sell securities in significant unrealized loss positions at JuneÂ 30, 2024. Based on an assessment of our liquidity position and internal and regulatory guidelines for permissible investments and concentrations, it is not more likely than not that we will be required to sell securities in significant unrealized loss positions prior to recovery of amortized cost basis, which may be at maturity. The substantial majority of our investment securities are able to be pledged at either the FHLB or FRB. We have not sold, and do not anticipate the need to sell, securities in unrealized loss positions to generate liquidity. 43We have implemented a robust credit stress testing framework with respect to our non-agency securities. The scenario used to project stress scenario losses is generally calibrated to the level of stress experienced in the Great Financial Crisis. For further discussion of our analysis of impaired investment securities AFS for credit loss impairment, see NoteÂ 3 to the consolidated financial statements.We use third-party pricing services to assist us in estimating the fair value of investment securities. We perform a variety of procedures to ensure that we have a thorough understanding of the methodologies and assumptions used by the pricing services including obtaining and reviewing written documentation of the methods and assumptions employed, conducting interviews with valuation desk personnel, and reviewing model results and detailed assumptions used to value selected securities as considered necessary. Our classification of prices within the fair value hierarchy is based on an evaluation of the nature of the significant assumptions impacting the valuation of each type of security in the portfolio. We have established a robust price challenge process that includes a review by our treasury front office of all prices provided on a quarterly basis. Any price evidencing unexpected quarter over quarter fluctuations or deviations from our expectations based on recent observed trading activity and other information available in the marketplace that would impact the value of the security is challenged. Responses to the price challenges, which generally include specific information about inputs and assumptions incorporated in the valuation and their sources, are reviewed in detail. If considered necessary to resolve any discrepancies, a price will be obtained from additional independent valuation sources. We do not typically adjust the prices provided, other than through this established challenge process. Our primary pricing services utilize observable inputs when available, and employ unobservable inputs and proprietary models only when observable inputs are not available. As a matter of course, the services validate prices by comparison to recent trading activity whenever such activity exists. Quotes obtained from the pricing services are typically non-binding.The majority of our investment securities are classified within level 2 of the fair value hierarchy. U.S. Treasury securities and marketable equity securities are classified within level 1 of the hierarchy.For additional disclosure related to the fair values of investment securities, see NoteÂ 8 to the consolidated financial statements.44The following table shows the weighted average prospective yields, categorized by scheduled maturity, for AFS investment securities as of JuneÂ 30, 2024. distribution in the tables above is based on location of the underlying collateral property. LTVs and DSCRs are based on the most recent available information; if current appraisals are not available, LTVs are adjusted by our models based on current and forecasted sub-market dynamics. As of JuneÂ 30, 2024, the Manhattan office portfolio was approximately 96% occupied with 6% rent rollover expected in the next twelve months. The Florida office portfolio is predominantly suburban.47Office loans not secured by properties in Florida or the New York tri-state area comprised 18%, or $319Â million of the segment, and exhibited no particular geographic concentration. Estimated rent rollover of the total office portfolio in the next 12 months is approximately 9%. The construction portfolio includes an additional $87Â million in office related exposure, $84Â million of which is in Manhattan.Non-performing loans included $51Â million of office exposure, $34 million including office exposure in the construction portfolio, at JuneÂ 30, 2024. Also see the section entitled "Asset Quality" below.Commercial and IndustrialCommercial and industrial loans are typically made to small, middle market and larger corporate businesses and not-for-profit entities and include equipment loans, secured and unsecured working capital facilities, formula-based loans, subscription finance lines of credit, trade finance, SBA product offerings, business acquisition finance credit facilities, credit facilities to institutional real estate entities such as REITs and commercial real estate investment funds, and a small amount of commercial credit cards. These loans may be structured as term loans, typically with maturities of five to seven years, or revolving lines of credit which may have multi-year maturities. In addition to financing provided by Pinnacle, the Bank provides financing to state and local governmental entities generally within our primary geographic markets. The Bank makes loans secured by owner-occupied commercial real estate that typically have risk profiles more closely aligned with that of commercial and industrial loans than with other types of commercial real estate loans.The following table presents the exposure in the C&I portfolio by industry, at JuneÂ 30, 2024 (dollars in thousands):Amortized Cost(1)Percent of TotalFinance and Insurance$1,678,194Â 18.4Â %Manufacturing764,925Â 8.4Â %Educational Services735,702Â 8.1Â %Health Care and Social Assistance716,374Â 7.8Â %Utilities688,191Â 7.5Â %Information664,999Â 7.3Â %Wholesale Trade648,273Â 7.1Â %Transportation and Warehousing508,562Â 5.6Â %Real Estate and Rental and Leasing501,425Â 5.5Â %Construction468,448Â 5.1Â %Retail Trade325,139Â 3.6Â %Public Administration301,346Â 3.3Â %Professional, Scientific, and Technical Services293,414Â 3.2Â %Other Services (except Public Administration)266,400Â 2.9Â %Arts, Entertainment, and Recreation199,375Â 2.2Â %Administrative and Support and Waste Management182,957Â 2.0Â %Accommodation and Food Services157,997Â 1.7Â %Other35,710Â 0.3Â %$9,137,431Â 100.0Â %(1)Â Â Â Â Includes $2.0 billion of owner occupied real estate.48Through its commercial lending subsidiaries, Pinnacle and Bridge, the Bank provides franchise and equipment financing on a national basis using both loan and lease structures. Pinnacle provides essential-use equipment financing to state and local governmental entities directly and through vendor programs and alliances.Â Pinnacle offers a full array of financing structures including equipment lease purchase agreements and direct (private placement) bond re-fundings and loan agreements. Bridge has two divisions. The franchise finance division portfolio includes franchise acquisition, expansion and equipment financing facilities, typically extended to experienced operators in well-established concepts. The franchise finance portfolio is made up primarily of quick service restaurant and fitness concepts comprising 44% and 50% of the portfolio, respectively, at JuneÂ 30, 2024. The equipment finance division portfolio includes primarily transportation equipment finance facilities utilizing a variety of loan and lease structures. Franchise and equipment finance have been strategically de-emphasized due to their current risk/return profile, including the lack of significant deposit business with these customers. We do not currently expect significant new loan originations in these segments.Residential mortgagesThe following table shows the composition of residential loans at the dates indicated (in thousands):June 30, 2024December 31, 20231-4 single family residential $6,672,529Â $6,903,013Â Government insured residential1,172,193Â 1,306,014Â $7,844,722Â $8,209,027Â The 1-4 single family residential loan portfolio, excluding government insured residential loans, is primarily comprised of prime jumbo loans purchased through established correspondent channels. 1-4 single family residential mortgage loans are primarily closed-end, first lien jumbo mortgages for the purchase or re-finance of owner occupied property. The loans have terms ranging from 10 to 30 years, with either fixed or adjustable interest rates. At JuneÂ 30, 2024, $1.0Â billion or 15% were secured by investor-owned properties.The Company acquires non-performing FHA and VA insured mortgages from third party servicers who have exercised their right to purchase these loans out of GNMA securitizations upon default (collectively, "government insured pool buyout loans" or "buyout loans"). Buyout loans that re-perform, either through modification or self-cure, may be eligible for re-securitization. The Company and the servicer share in the economics of the sale of these loans into new securitizations. The balance of buyout loans totaled $1.1Â billion at JuneÂ 30, 2024. Risk ratings are updated continuously; generally, commercial relationships with balances in excess of defined thresholds are re-evaluated at least annually and more frequently if circumstances indicate that a change in risk rating may be warranted. The defined thresholds range from $1 million to $3 million. Homogenous groups of smaller balance commercial loans may be monitored collectively. 50The credit quality and risk rating of commercial loans as well as our underwriting and portfolio management practices are regularly reviewed by our internal independent credit review department. We believe internal risk rating is the best indicator of the credit quality of commercial loans. The Company utilizes a 16-grade internal asset risk classification system as part of its efforts to monitor and maintain commercial asset quality. The special mention rating is considered a transitional rating for loans exhibiting potential credit weaknesses that could result in deterioration of repayment prospects at some future date if not checked or corrected and that deserve managementâ€™s close attention. These borrowers may exhibit declining cash flows or revenues or increasing leverage. Loans with well-defined credit weaknesses that may result in a loss if the deficiencies are not corrected are assigned a risk rating of substandard. These borrowers may exhibit payment defaults, inadequate cash flows from current operations, operating losses, increasing balance sheet leverage, project cost overruns, unreasonable construction delays, exhausted interest reserves, declining collateral values, frequent overdrafts or past due real estate taxes. Loans with weaknesses so severe that collection in full is highly questionable or improbable, but because of certain reasonably specific pending factors have not been charged off, are assigned an internal risk rating of doubtful.The following table summarizes the Company's commercial credit exposure, based on internal risk rating, at the dates indicated (dollars in thousands):June 30, 2024March 31, 2024December 31, 2023CRETotal CommercialPercent of Commercial LoansCRETotal CommercialPercent of Commercial LoansCRETotal CommercialPercent of Commercial LoansPass$5,153,816Â $15,414,539Â 91.8Â %$5,109,115Â $14,748,066Â 91.2Â %$5,317,230Â $15,287,548Â 93.2Â %Special mention138,403Â 265,940Â 1.6Â %139,980Â 357,800Â 2.2Â %97,552Â 319,905Â 1.9Â %Substandard accruing597,888Â 946,832Â 5.6Â %577,418Â 966,129Â 6.0Â %390,724Â 711,266Â 4.3Â %Substandard non-accruing54,088Â 131,193Â 0.8Â %12,258Â 83,511Â 0.5Â %13,727Â 86,903Â 0.5Â %Doubtful8,301Â 25,258Â 0.2Â %â€”Â 13,822Â 0.1Â %â€”Â 19,035Â 0.1Â %$5,952,496Â $16,783,762Â 100.0Â criticized and classified commercial loans increased by $232 million for the six months ended June 30, 2024, but declined by $52 million for the quarter ended June 30, 2024. Criticized and classified CRE loans increased by $297 million for the six months ended June 30, 2024, $278 million of which was office exposure (including office related construction loans), offset by declines of $65 million in other commercial categories. As expected in the current environment, there has been some further risk rating migration within the criticized and classified population, primarily within the CRE office category. Rent abatement periods, delays in completing build-out of leased space and in some cases lower occupancy levels contributed to risk rating migration in the office portfolio. When office space is leased to new tenants, landlords frequently provide initial rent abatement periods. During these rent abatement periods, we do not include pro-forma rental payments to be made in the future under the terms of new leases in operating cash flows for the purposes of determining risk ratings.51The following table provides additional information about special mention and substandard accruing loans at the dates indicated (dollars in thousands). On a quarterly basis, management performs an impairment analysis on assets with indicators of potential impairment. Potential impairment indicators include evidence of changes in residual value, macro-economic conditions, an extended period of time off-lease, criticized or classified status, or management's intention to sell the asset at an amount potentially below its carrying value. There were no impairment charges recognized during the three and six months ended June 30, 2024 and 2023.Non-Performing AssetsNon-performing assets generally consist of (i)Â non-accrual loans, (ii)Â accruing loans that are more than 90Â days contractually past due as to interest or principal, excluding PCD loans for which management has a reasonable basis for an expectation about future cash flows and government insured residential loans, and (iii)Â OREO and other non-performing assets.The following table presents information about the Company's non-performing loans and non-performing assets at the dates indicated (dollars in thousands):June 30, 2024March 31, 2024December 31, 2023Non-accrual loans:Commercial:Non-owner occupied commercial real estate$28,548Â $12,258Â $13,727Â Construction and land33,841Â â€”Â â€”Â Owner occupied commercial real estate10,797Â 12,519Â 13,626Â Commercial and industrial64,282Â 49,926Â 54,907Â Franchise and equipment finance18,983Â 22,630Â 23,678Â Total commercial loans156,451Â 97,333Â 105,938Â Residential16,411Â 17,847Â 20,513Â Total non-accrual loans172,862Â 115,180Â 126,451Â Loans past due 90Â days and still accruing593Â 593Â 593Â Total non-performing loans173,455Â 115,773Â 127,044Â OREO and other non-performing assets2,513Â 3,168Â 3,536Â Total non-performing assets$175,968Â $118,941Â $130,580Â Non-performing loans to total loans (1)0.70Â %0.48Â %0.52Â %Non-performing assets to total assets (1)0.50Â %0.34Â %0.37Â %ACL to total loans0.92Â %0.90Â %0.82Â %Commercial ACL to commercial loans (2)1.42Â %1.42Â %1.29Â %ACL to non-performing loans130.12Â %187.92Â %159.54Â %Net charge-offs to average loans (3)0.12Â %0.02Â %0.09Â %(1)Â Â Â Â Non-performing loans and assets include the guaranteed portion of non-accrual SBA loans totaling $39.0 million or 0.16% of total loans and 0.11% of total assets, at JuneÂ 30, 2024, $40.0 million or 0.16% of total loans and 0.11% of total assets at MarchÂ 31, 2024, and $41.8 million or 0.17% of total loans and 0.12% of total assets, at DecemberÂ 31, 2023.(2)Â Â Â Â For purposes of this ratio, commercial loans includes the C&I and CRE sub-segments, as well as franchise and equipment finance. Due to their unique risk profiles, MWL and municipal finance are excluded from this ratio.(3)Â Â Â Â Annualized for the six months ended June 30, 2024 and the three months ended March 31, 2024.Contractually delinquent government insured residential loans are typically GNMA early buyout loans and are excluded from non-performing loans as defined in the table above due to their government guarantee. The carrying value of such loans contractually delinquent by 90 days or more was $225 million, $255 million, and $277 million at JuneÂ 30, 2024, MarchÂ 31, 2024, and DecemberÂ 31, 2023, respectively.The following graphs present trends in non-performing loans to total loans and non-performing assets to total assets over the periods indicated, as well as trends in net charge-offs. Levels of non-performing loans to total loans and non-performing assets to total assets remain below pre-pandemic levels.Non-Performing Loans to Total LoansNon-Performing Assets to Total Assets Net Charges-Offs to Average Loans (1)(1)Â Â Â Â Annualized for the six months ended June 30, 2024 and the three months ended March 31, 2024.The following graph presents the trend in non-performing loans by portfolio segment over the periods indicated (in millions):Commercial loans are placed on non-accrual status when (i) management has determined that full repayment of all contractual principal and interest is in doubt, or (ii) the loan is past due 90 days or more as to principal or interest unless the loan is well secured and in the process of collection. Residential loans, other than government insured pool buyout loans, are generally placed on non-accrual status when they are 60 days past due. Additionally, certain residential loans not contractually delinquent but in forbearance may be placed on non-accrual status at management's discretion. When a loan is placed on non-accrual status, uncollected interest accrued is reversed and charged to interest income. Commercial loans are returned to accrual status only after all past due principal and interest has been collected and full repayment of remaining contractual principal and interest is reasonably assured. Residential loans are generally returned to accrual status when less than 60 days past due. Past due status of loans is determined based on the contractual next payment due date. Loans less than 30 days past due are reported as current.Loss Mitigation StrategiesCriticized or classified commercial loans in excess of certain thresholds are reviewed quarterly by the Criticized Asset Committee, which evaluates the appropriate strategy for collection to mitigate the amount of credit losses and considers the appropriate risk rating for these loans.Â Criticized asset reports for each relationship are presented by the assigned relationship manager and credit officer to the Criticized Asset Committee until such time as the relationships are returned to a satisfactory credit risk rating or otherwise resolved. The Criticized Asset Committee may require the transfer of a loan to our workout and recovery department, which is tasked to effectively manage the loan with the goal of minimizing losses and expenses associated with restructure, collection and/or liquidation of collateral. Commercial loans with a risk rating of substandard, loans on non-accrual status, and assets classified as OREO or repossessed assets are usually transferred to workout and recovery. Oversight of the workout and recovery department is provided by the Criticized Asset Committee. Our servicers evaluate each residential loan in default to determine the most effective loss mitigation strategy, which may be modification, short sale, or foreclosure, and pursue the alternative most suitable to the consumer and to mitigate losses to the Bank.55Analysis of the Allowance for Credit LossesThe ACL is management's estimate of the amount of expected credit losses over the life of the loan portfolio, or the amount of amortized cost basis not expected to be collected, at the balance sheet date. This estimate encompasses information about historical events, current conditions and reasonable and supportable economic forecasts. Determining the amount of the ACL is complex and requires extensive judgment by management about matters that are inherently uncertain. Given a level of continued uncertainty about the general economy, evolving dynamics in some segments of the commercial real estate market, particularly the office sector, the complexity of the ACL estimate and level of management judgment required, we believe it is possible that the ACL estimate could change, potentially materially, in future periods. If commercial real estate market dynamics in our primary markets worsen beyond our current expectations, the ACL and the provision for credit losses will increase in the future. Changes in the ACL may result from changes in current economic conditions including but not limited to unanticipated changes in interest rates or inflationary pressures, changes in our economic forecast, loan portfolio composition, commercial and residential real estate market dynamics and other circumstances not currently known to us that may impact the financial condition and operations of our borrowers, among other factors.Expected credit losses are estimated on a collective basis for groups of loans that share similar risk characteristics. For loans that do not share similar risk characteristics with other loans such as collateral dependent loans, expected credit losses are estimated on an individual basis. Expected credit losses are estimated over the contractual terms of the loans, adjusted for expected prepayments, generally excluding expected extensions, renewals, and modifications.For the substantial majority of portfolio segments and subsegments, including residential loans other than government insured loans, and most commercial and commercial real estate loans, expected losses are estimated using econometric models. The models employ a factor based methodology, leveraging data sets containing extensive historical loss and recovery information by industry, geography, product type, collateral type and obligor characteristics, to estimate PD and LGD. Measures of PD for commercial loans incorporate current conditions through market cycle or credit cycle adjustments. For residential loans, the models consider FICO and adjusted LTVs. PDs and LGDs are then conditioned on the reasonable and supportable economic forecast. Projected PDs and LGDs, determined based on pool level characteristics, are applied to estimated exposure at default, considering the contractual term and payment structure of loans, adjusted for expected prepayments, to generate estimates of expected loss. For criticized or classified loans, PDs are adjusted to benchmark PDs established for each risk rating. The ACL estimate incorporates a reasonable and supportable economic forecast through the use of externally developed macroeconomic scenarios applied in the models.A single economic scenario or a probability weighted blend of economic scenarios may be used. The models ingest numerous national, regional and MSA level variables and data points. At JuneÂ 30, 2024 and DecemberÂ 31, 2023, we used a combination of weighted third-party provided economic scenarios in calculating the quantitative portion of the ACL. Each of these externally provided scenarios in fact represents the result of a probability weighting of thousands of individual scenario paths.See Note 1 to the consolidated financial statements of the Company's 2023 Annual Report on Form 10-K for more detailed information about our ACL methodology and related accounting policies.56The following table provides an analysis of the ACL, provision for (recovery of) credit losses related to the funded portion of loans and net charge-offs by loan segment for the periods indicated (dollars in thousands):Â CREC&I(2)Pinnacle - Municipal FinanceFranchise and Equipment FinanceResidentialTotalBalance at DecemberÂ 31, 2022$24,751Â $97,190Â $173Â $14,091Â $11,741Â $147,946Â Impact of adoption of ASU 2022-02â€”Â (1,671)â€”Â (6)(117)(1,794)Balance at January 1, 202324,751Â 95,519Â 173Â 14,085Â 11,624Â 146,152Â Provision for (recovery of) credit losses5,706Â 28,611Â 24Â 191Â (2,742)31,790Â Charge-offs(813) (8,975)â€”Â (7,247)â€”Â (17,035)Recoveries53Â 5,835Â â€”Â 33Â 5Â 5,926Â Balance at June 30, 2023$29,697Â $120,990Â $197Â $7,062Â $8,887Â $166,833Â Balance at DecemberÂ 31, 2023$41,338Â $142,622Â $243Â $10,855Â $7,631Â $202,689Â Provision for (recovery of) credit losses33,368Â 7,418Â (20)(1,763)(1,375)37,628Â Charge-offs(4,855)(13,436)â€”Â (3,161)(34) (21,486)Recoveries50Â 6,813Â â€”Â â€”Â 4Â 6,867Â Balance at June 30, 2024$69,901Â $143,417Â $223Â $5,931Â $6,226Â $225,698Â Net Charge-offs to Average Loans (1)Six Months EndedJune 30, 20230.03Â %0.07Â %â€”Â %3.22Â %â€”Â %0.09Â %Six Months EndedJune 30, 20240.17Â %0.14Â %â€”Â %1.86Â %â€”Â %0.12Â %(1)Annualized.(2)Includes mortgage warehouse lending.The following table shows the distribution of the ACL at the dates indicated (dollars in thousands):June 30, 2024March 31, 2024December 31, 2023Â Total%(1)Total% (1)Total%(1)Non-owner occupied commercial real estate$45,561Â 21.8Â %$48,551Â 21.9Â %$32,810Â 21.6Â %Construction and land24,340Â 2.4Â %12,527Â 2.2Â %8,528Â 2.0Â %CRE 69,901Â 61,078Â 41,338Â Owner occupied commercial real estate16,416Â 8.0Â %17,369Â 7.9Â %17,642Â 7.9Â %Commercial and industrial(2)127,001Â 31.3Â %122,846Â 29.8Â %124,980Â 30.1Â %Pinnacle - municipal finance223Â 3.4Â %220Â 3.6Â %243Â 3.6Â %Franchise and equipment finance5,931Â 1.2Â %9,416Â 1.4Â %10,855Â 1.5Â %149,571Â 149,851Â 153,720Â Residential6,226Â 31.9Â %6,627Â 33.2Â %7,631Â 33.3Â %$225,698Â 100.0Â %$217,556Â 100.0Â %$202,689Â (1)Represents percentage of loans receivable in each category to total loans receivable.(2)Includes mortgage warehouse lending.57The following table presents the ACL as a percentage of loans at the dates indicated, by portfolio sub-segment:June 30, 2024March 31, 2024December 31, 2023Commercial:CRE1.17Â %1.05Â %0.71Â %C&I1.57Â %1.62Â %1.60Â %Franchise and equipment finance1.93Â %2.71Â %2.85Â %Total commercial (1)1.42Â %1.42Â %1.29Â %Pinnacle - municipal finance0.03Â %0.03Â %0.03Â %Residential and MWL0.08Â %0.08Â %0.09Â %0.92Â %0.90Â %0.82Â %ACL to non-performing loans130.12Â %187.92Â %159.54Â %(1)For purposes of this ratio, commercial loans includes the C&I and CRE sub-segments, as well as franchise and equipment finance. ACL during the three months ended June 30, 2024, are depicted in the chart below (dollars in millions):Changes in the ACL during the three months ended June 30, 2024As depicted in the chart above, the most significant drivers of the increase in the ACL from MarchÂ 31, 2024, to JuneÂ 30, 2024, were (i) risk rating migration and increases in specific reserves; (ii) new loan production and changes in portfolio characteristics, partially offset by (iii) net charge-offs and (iv) improvement in the economic forecast. There was a shift during the quarter from the qualitative portion to the quantitative portion of the reserve, most of which related to the CRE office portfolio. At JuneÂ 30, 2024, the ratio of the ACL to loans was 0.92% compared to 0.90% at MarchÂ 31, 2024 and 0.82% at December 31, 2023. The ACL to loans ratio for commercial portfolio sub-segments including C&I, CRE, and franchise and equipment finance was 1.42% at both JuneÂ 30, 2024 and MarchÂ 31, 2024, up from 1.29% at December 31, 2023. The ACL to loans ratio for CRE office loans was 2.47% at June 30, 2024 compared to 2.26% and 1.18% at March 31, 2024 and December 5831, 2023, respectively, reflecting evolving office market dynamics. Further discussion of changes in the ACL for select portfolio sub-segments follows:â€¢The ACL for the CRE portfolio sub-segment increased by $8.8 million during the three months ended June 30, 2024, from 1.05% to 1.17% of loans. The most significant reasons for the increase in the ACL for this segment was risk rating migration and an increase in specific reserves.â€¢The ACL for the commercial and industrial sub-segment, including owner-occupied commercial real estate, increased by $3.2 million during three months ended June 30, 2024, while the ACL coverage ratio decreased from 1.62% to 1.57% of loans. The increase in the ACL reflected portfolio growth, while the decrease in the ACL coverage ratio was primarily driven by risk rating upgrades, an improved economic forecast, new loans brought on at lower reserve levels, and net charge-offs.â€¢The ACL for the franchise and equipment finance sub-segment decreased by $3.5 million during the three months ended June 30, 2024, from 2.71% to 1.93% of loans primarily due to net charge offs and a decline in portfolio balances.â€¢The decrease in the ACL for the residential segment corresponds to lower balances; the coverage ratio was consistent quarter-over-quarter.The estimate of the ACL at JuneÂ 30, 2024, was informed by forecasted economic scenarios published in June 2024, a wide variety of additional economic data, information about borrower financial condition and collateral values, and other relevant information. The quantitative portion of the ACL at JuneÂ 30, 2024, was modeled using a weighting of baseline, downside and upside third-party economic scenarios, with the highest weighting ascribed to the baseline scenario and lower weightings ascribed equally to the downside and upside scenarios. The economic variables that impacted the ACL for the three months ended June 30, 2024 included assumptions about interest rates and spreads, commercial property forecasts, the forecasted trajectory of regional unemployment and performance of the stock market.Some of the high level data points informing the baseline scenario, which was the scenario most heavily weighted, used in estimating the quantitative portion of the ACL at JuneÂ 30, 2024, included:â€¢Labor market assumptions, which reflected national unemployment peaking at 4.1% andâ€¢Annualized growth in national GDP troughing at 1.6% in the baseline.The above unemployment and GDP growth assumptions are provided to give a high level overview of the nature and severity of the baseline economic forecast scenario used in estimating the ACL. Numerous additional variables and assumptions not explicitly stated, including but not limited to detailed commercial property forecasts, projected stock market volatility indices and a variety of assumptions about market interest rates and spreads also contributed to the overall impact economic conditions and the economic forecast had on the ACL estimate. Furthermore, while the variables presented above are at the national level, most of the economic variables are regionalized at the market and submarket level in the models.For additional information about the ACL, see Note 4 to the consolidated financial statements.59DepositsThe Company has a diverse deposit book by industry sector. FRB discount window capacity, repurchase agreement capacity and a letter of credit with the FHLB provide additional sources of contingent liquidity. For the six months ended June 30, 2024 and 2023, net cash provided by operating activities was $202 million and $424 million, respectively. Same day available liquidity includes cash, secured funding such as borrowing capacity at the Federal Home Loan Bank of Atlanta and the Federal Reserve, and unencumbered securities. Additional sources of liquidity include cash flows from operations, wholesale deposits, cash flow from the Bank's amortizing securities and loan portfolios, and the sale of investment securities. Management also has the ability to exert substantial control over the rate and timing of loan production, and resultant requirements for liquidity to fund new loans.61The following chart presents the components of same day available liquidity at JuneÂ 30, 2024 and DecemberÂ 31, 2023 (in millions):Same Day Available LiquidityAt JuneÂ 30, 2024, the Bank had total same day available liquidity of approximately $14.9 billion, consisting of cash of $421 million, borrowing capacity at the FHLB of $6.3 billion, borrowing capacity at the FRB of $7.0 billion and unencumbered securities of $1.1 billion. The increase in same day available liquidity as compared to DecemberÂ 31, 2023 reflected the decline in outstanding FHLB advances, increasing FHLB capacity. At JuneÂ 30, 2024, the ratio of estimated insured and collateralized deposits to total deposits was 61%, compared to 66% at DecemberÂ 31, 2023, and the ratio of available liquidity to estimated uninsured, uncollateralized deposits was 139% compared to 152% at DecemberÂ 31, 2023. The decline in brokered deposits, which are generally insured, as a portion of total deposits contributed to the decline in these ratios. As a commercially focused bank, due to the inherent nature of commercial deposits, a significant portion of our deposits are uninsured. We continue to market and educate our customers about products that enable them to obtain FDIC insurance on certain deposits exceeding the standard single depositor insurance limit, have implemented single depositor concentration limits and reduced or eliminated exposure to sectors or depositors that evidenced higher volatility following the events of early 2023.Our ALM policy establishes limits or operating risk thresholds for a number of measures of liquidity which are monitored at least monthly by the ALCO and quarterly by the Board of Directors. Some of the measures currently used to dimension liquidity risk and manage liquidity are the ratio of available liquidity to uninsured/non-collateralized deposits, the ratio of wholesale funding to total assets, the ratio of available operational liquidity (which excludes availability at the FRB) to volatile liabilities, a liquidity stress test coverage ratio, the loan to deposit ratio, a one-year liquidity ratio, a measure of available on-balance sheet liquidity, the ratio of FHLB advances to total assets, large depositor concentrations and the ratio of non-interest bearing deposits to total deposits, which is reflective of the quality and cost, rather than the quantity, of available liquidity. We also have single depositor relationship limits.The following tables present some of the Company's liquidity measures, where applicable, their related policy limits and operating risk thresholds at the dates indicated:June 30, 2024Policy LimitAvailable liquidity to uninsured/non-collateralized deposits139%<100%Wholesale funding/total assets24.8%<37.5%62June 30, 2024Operating Threshold Available operational liquidity/volatile liabilities2.43xâ‰¥1.30xLiquidity stress test coverage ratio1.92xâ‰¥1.50xFHLB advances/total assets11.8%â‰¤20%One year liquidity ratio2.43xâ‰¥1.00xLoan to deposit ratio88.7%â‰¤100%Top 20 uninsured depositors to total deposits (excluding brokered & municipal deposits)14.5%â‰¤15%Non interest-bearing demand deposits/total deposits29.1%â‰¥20%Available on-balance sheet liquidity7.3%â‰¥5%As a holding company, BankUnited,Â Inc. is a corporation separate and apart from its banking subsidiary, and therefore, provides for its own liquidity. BankUnited,Â Inc.â€™s main sources of funds include management fees and dividends from the Bank, access to capital markets and, to a lesser extent, its own securities portfolio. There are regulatory limitations that may affect the ability of the Bank to pay dividends to BankUnited,Â Inc. Management believes that such limitations will not impact our ability to meet our ongoing near-term cash obligations.CapitalPursuant to the FDIA, the federal banking agencies have adopted regulations setting forth a five-tier system for measuring the capital adequacy of the financial institutions they supervise. At JuneÂ 30, 2024 and DecemberÂ 31, 2023, the Company and the Bank had capital levels that exceeded both the regulatory well-capitalized guidelines and all internal capital ratio targets. Upon adoption of ASU 2016-13 on January 1, 2020, the Company elected the option to temporarily delay the effects of CECL on regulatory capital for two years, followed by a three-year transition period. We have an active shelf registration statement on file with the SEC that allows the Company to periodically offer and sell in one or more offerings, individually or in any combination, our common stock, preferred stock and other non-equity securities. The shelf registration provides us with flexibility in issuing capital instruments and enables us to more readily access the capital markets as needed to pursue future growth opportunities and to ensure continued compliance with regulatory capital requirements. Our ability to issue securities pursuant to the shelf registration is subject to market conditions.The following table provides information regarding regulatory capital for the Company and the Bank as of JuneÂ 30, 2024 (dollars in thousands):Â June 30, 2024Â ActualRequired to beConsidered WellCapitalizedRequired to beConsideredAdequatelyCapitalizedRequired to be ConsideredAdequatelyCapitalized Including Capital Conservation BufferÂ AmountRatioAmountRatioAmountRatioAmountRatioBankUnited,Â Inc.:Â Â Â Â Â Â TierÂ 1 leverage$2,926,450Â 8.20Â %N/A (1)N/A (1)$1,427,590Â 4.00Â %N/A (1)N/A (1)CET1 risk-based capital$2,926,450Â 11.55Â %$1,646,273Â 6.50Â %$1,139,727Â 4.50Â %$1,772,909Â 7.00Â %TierÂ 1 risk-based capital$2,926,450Â 11.55Â %$2,026,182Â 8.00Â %$1,519,636Â 6.00Â %$2,152,818Â 8.50Â %Total risk-based capital$3,454,605Â 13.64Â %$2,532,727Â 10.00Â %$2,026,182Â 8.00Â %$2,659,363Â 10.50Â %BankUnited:TierÂ 1 leverage$3,404,990Â 9.55Â %$1,781,979Â 5.00Â %$1,425,583Â 4.00Â %N/AN/ACET1 risk-based capital$3,404,990Â 13.46Â %$1,644,307Â 6.50Â %$1,138,366Â 4.50Â %$1,770,792Â 7.00Â %TierÂ 1 risk-based capital$3,404,990Â 13.46Â %$2,023,762Â 8.00Â %$1,517,822Â 6.00Â %$2,150,247Â 8.50Â %Total risk-based capital$3,633,145Â 14.36Â %$2,529,703Â 10.00Â %$2,023,762Â 8.00Â %$2,656,188Â 10.50Â %(1)There is no Tier 1 leverage ratio component in the definition of a well-capitalized bank holding company.63Interest Rate RiskA principal component of the Companyâ€™s risk of loss arising from adverse changes in the fair value of financial instruments, or market risk, is interest rate risk, including the risk that assets and liabilities with similar re-pricing characteristics may not reprice at the same time or to the same degree. A primary objective of the Companyâ€™s asset/liability management activities is to maximize net interest income, while maintaining acceptable levels of interest rate risk. The ALCO is responsible for establishing policies to manage exposure to interest rate risk, and to ensure procedures are established to monitor compliance with these policies. The policies established by the ALCO are approved at least annually by the Board of Directors or its Risk Committee.Management believes that the simulation of net interest income in different interest rate environments provides the most meaningful measure of interest rate risk. Income simulation analysis is designed to capture not only the potential of all assets and liabilities to mature or reprice, but also the probability that they will do so. Income simulation also attends to the relative interest rate sensitivities of these items, and projects their behavior over an extended period of time. Finally, income simulation permits management to assess the probable effects on the balance sheet not only of changes in interest rates, but also of proposed strategies for responding to them. Simulation of changes in EVE in various interest rate environments is also a meaningful measure of interest rate risk.The income simulation model analyzes interest rate sensitivity by projecting net interest income over twelve and twenty-four month periods in a most likely rate scenario based on a consensus forward curve versus net interest income in alternative rate scenarios. Management continually reviews and refines its interest rate risk management process in response to changes in the interest rate environment, the economic climate and observed customer behavior. Currently, our interest rate risk management policy framework is based on modeling instantaneous rate shocks to a static balance sheet, assuming that maturing instruments are replaced with like instruments at forward rates, of plus and minus 100, 200, 300 and 400 basis point parallel shifts. In lower interest rate environments, we may not model more extreme declining rate scenarios and in certain macro-environments, we may model shocks of more than 400 basis points. Our ALM policy has established limits for the plus and minus 100 and 200 basis points shock scenarios. We also model a variety of dynamic balance sheet scenarios, various yield curve slopes, non-parallel shifts and alternative depositor behavior, beta and decay assumptions. We continually evaluate the scenarios being modeled with a view toward adapting them to changing economic conditions, expectations and trends. The following table presents the impact on forecasted net interest income compared to a "most likely" scenario, based on the consensus forward curve, in static balance sheet, parallel rate shock scenarios of plus and minus 100 and 200 basis points at JuneÂ 30, 2024 and DecemberÂ 31, 2023:Down 200Down 100Plus 100Plus 200Policy Limits:In year 1(12)%(8)%(8)%(12)%In year 2(15)%(11)%(11)%(15)%Model Results at JuneÂ 30, 2024 - increase (decrease)In year 1(6.9)%(2.7)%2.5Â %4.8Â %In year 2(7.1)%(3.1)%1.8Â %3.6Â %Model Results at DecemberÂ 31, 2023 - increase (decrease)In year 1(4.7)%(1.6)%1.0Â %2.1Â %In year 2(6.0)%(2.3)%1.5Â %2.0Â %The following table illustrates the modeled change in EVE in the indicated scenarios at JuneÂ 30, 2024 and DecemberÂ 31, 2023:Down 200Down 100Plus 100Plus 200Policy Limits(20.0)%(10.0)%(10.0)%(20.0)%Model Results at JuneÂ 30, 2024 - increase (decrease):16.6Â %10.1Â %(7.2)%(14.7)%Model Results at DecemberÂ 31, 2023 - increase (decrease):15.2Â %9.5Â %(8.8)%(17.4)%64All of the modeled results at JuneÂ 30, 2024, are within ALM policy limits. Many assumptions were used by the Company to calculate the impact of changes in interest rates on forecasted net interest income and EVE, including the change in rates. Actual results may not be similar to the Companyâ€™s projections due to several factors including the timing and frequency of rate changes, market conditions, unanticipated changes in depositor behavior and loan prepayment speeds and the shape of the yield curve. Actual results may also differ due to the Companyâ€™s actions, if any, in response to changing rates and conditions or changes in balance sheet composition.Derivative Financial Instruments and Hedging ActivitiesManagement continually evaluates a variety of hedging strategies that are available to manage interest rate risk. In the current environment, we continue to evaluate potential hedging strategies to mitigate risk from a period of rapid or extreme declines in rates. Interest rate derivatives designated as cash flow or fair value hedging instruments are tools we use to manage interest rate risk. These derivative instruments are used to mitigate exposure to changes in interest cash flows on variable rate liabilities and to changes in the fair value of fixed rate financial instruments, in each case caused by fluctuations in benchmark interest rates, as well as to manage duration of liabilities. The following table provides information about the Company's derivatives designated as hedging instruments as of JuneÂ 30, 2024 (dollars in thousands):WeightedAverage PayÂ Rate / Strike PriceWeightedAverage ReceiveÂ Rate / Strike PriceWeightedAverageRemainingLife inÂ YearsÂ Â Notional AmountÂ HedgedÂ ItemDerivatives designated as cash flow hedges:Pay-fixed interest rate swapsVariability of interest cash flows on variable rate borrowings$2,185,000Â 3.23%Daily SOFR1.7Pay-fixed interest rate swapsVariability of interest cash flows on variable rate liabilities250,000Â 1.38%Fed Funds Effective Rate0.6Pay-variable interest rate swapsVariability of interest cash flows on variable rate loans 200,000Â Term SOFR3.72%1.8Interest rate caps purchased, indexed to Fed Funds effective rateVariability of interest cash flows on variable rate liabilities200,000Â 0.88%1.0Interest rate collar, indexed to 1-month SOFR(1)Variability of interest cash flows on variable rate loans125,000Â 5.58%1.50%2.2Derivatives designated as fair value hedges:Pay-fixed interest rate swapsVariability of fair value of fixed rate loans50,000Â 1.98%Daily SOFR0.4Â Â $3,010,000Â (1) The interest rate collar consists of a combination of zero-premium interest rate options. The Company sold a pay-variable cap with a strike price of 5.58%; sold a 0% floor; and purchased a receive-variable floor with a strike price of 1.50%.In addition to derivative instruments, the Company has issued callable CDs to hedge interest rate risk in a falling rate environment; the amount of such instruments outstanding at JuneÂ 30, 2024, was $495 million. The short duration of our AFS investment portfolio (1.82 at JuneÂ 30, 2024) also provides a natural offset from an interest rate risk perspective to the longer duration of the residential mortgage portfolio.See NoteÂ 6 to the consolidated financial statements for additional information about derivative financial instruments.65Non-GAAP Financial MeasuresTangible book value per common share is a non-GAAP financial measure. Management believes this measure is relevant to understanding the capital position and performance of the Company. Disclosure of this non-GAAP financial measure also provides a meaningful basis for comparison to other financial institutions as it is a metric commonly used in the banking industry. The following table reconciles the non-GAAP financial measurement of tangible book value per common share to the comparable GAAP financial measurement of book value per common share at the dates indicated (in thousands, except share and per share data):Â June 30, 2024March 31, 2024Total stockholdersâ€™ equity$2,699,348Â $2,640,392Â Less: goodwill and other intangible assets77,637Â 77,637Â Tangible stockholdersâ€™ equity$2,621,711Â $2,562,755Â Â Common shares issued and outstanding74,758,609Â 74,772,706Â Â Book value per common share$36.11Â $35.31Â Â Tangible book value per common share$35.07Â $34.27Â 66ItemÂ 3.Â Quantitative and Qualitative Disclosures About Market RiskSee the section entitled â€œInterest Rate Riskâ€ included in ItemÂ 2. â€œManagementâ€™s Discussion and Analysis of Financial Condition and Results of Operations.â€ItemÂ 4. Controls and ProceduresEvaluation of Disclosure Controls and ProceduresAs of the end of the period covered by this FormÂ 10-Q, we carried out an evaluation under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Exchange Act RulesÂ 13a-15(e) and 15d-15(e). Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures were effective.During the quarter ended JuneÂ 30, 2024, there were no changes in the Company's internal control over financial reporting that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.PARTÂ II.Â OTHER INFORMATIONItem 1.Â Â Legal ProceedingsÂ The Company is involved as plaintiff or defendant in various legal actions arising in the normal course of business. In the opinion of management, based upon currently available information and the advice of legal counsel, the likelihood is remote that any adverse impact of these proceedings, either individually or in the aggregate, would be material to the Companyâ€™s consolidated financial position, results of operations or cash flows.Item 1A.Â Â Risk FactorsThere have been no material changes in the risk factors disclosed by the Company in its 2023 Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 20, 2024.Item 2.Â Â Unregistered Sales of Equity Securities and Use of ProceedsNone.Item 5.Â Â Other InformationDuring the three months ended JuneÂ 30, 2024, no director or officer (as defined in Exchange Act Rule 16a-1(f)) of the Company adopted or terminated a â€œRule 10b5-1 trading arrangementâ€ or â€œnon-Rule 10b5-1 trading arrangement,â€ as each term is defined in Item 408 of Regulation S-K.67Item 6.Â ExhibitsExhibitNumberÂ DescriptionÂ LocationÂ Â Â Â Â 31.1Certification of Chief Executive Officer Pursuant to SectionÂ 302 of the Sarbanes-Oxley Act of 2002Filed herewith31.2Certification of Chief Financial Officer Pursuant to SectionÂ 302 of the Sarbanes-Oxley Act of 2002Filed herewith32.1Certification of Chief Executive Officer Pursuant to 18 U.S.C. Organization, Consolidation and Presentation of Financial Statements [Abstract]	
Basis of Presentation and Summary of Significant Accounting Policies	

Note 1   Basis of Presentation and Summary of Significant Accounting Policies

BankUnited, Inc. is a national bank holding company with one wholly-owned subsidiary, BankUnited, collectively, the Company. BankUnited, a national banking association headquartered in Miami Lakes, Florida, provides a full range of banking services to individual and corporate customers through banking centers in Florida, the New York metropolitan area and Dallas, Texas. The Bank also offers certain commercial lending and deposit products through national platforms and regional wholesale banking offices.

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X of the SEC. Accordingly, these financial statements do not include all of the information and footnotes required for a fair presentation of financial position, results of operations and cash flows in conformity with GAAP and should be read in conjunction with the Company’s consolidated financial statements and the notes thereto appearing in BKU’s Annual Report on Form 10-K for the year ended December 31, 2023, filed with the SEC. In the opinion of management, all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2024, are not necessarily indicative of the results that may be expected in future periods.

The Company has a single operating segment and thus a single reportable segment. While management monitors the revenue streams of its various business units, the business units serve a similar base of primarily commercial clients, providing a similar range of products and services, managed through similar processes and platforms. The Company’s chief operating decision maker makes company-wide resource allocation decisions and assessments of performance based on a collective assessment of the Company’s operations.

Accounting Estimates

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses and disclosures of contingent assets and liabilities. Actual results could differ significantly from these estimates.

The most significant estimate impacting the Company's consolidated financial statements is the ACL.

New Accounting Pronouncements Adopted During the Six Months Ended June 30, 2024

ASU No. 2023-02—*Investments - Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures using the Proportional Amortization Method (A Consensus of the Emerging Issues Task Force).* This ASU was issued to expand the use of the proportional amortization method of accounting for equity investments in tax credit programs beyond those in LIHTC programs. The ASU allows entities to elect the proportional amortization method, on a tax credit program by tax credit program basis, for all equity investments in tax credit programs meeting the eligibility criteria. The Company adopted this ASU in the first quarter of 2024. There was no impact upon adoption. Currently, all of the Company's equity investments in tax credit programs are in LIHTC programs already accounted for using the proportional amortization method.

Accounting Pronouncements Not Yet Adopted

ASU No. 2023-07—*Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures.* This ASU augments reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. In addition, the amendments enhance interim disclosure requirements, clarify circumstances in which an entity can disclose multiple segment measures of profit or loss, provide new segment disclosure requirements for entities with a single reportable segment and contain other disclosure requirements. This ASU is effective for the Company for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. This ASU is not expected to have an impact on the Company's consolidated financial position, results of operations and cash flows. Adoption may lead to additional and revised disclosures in the Company's financial statements starting with the 2024 Annual Report on Form 10-K.

The Company monitors its investment securities available for sale for credit loss impairment on an individual security basis. No securities were determined to be credit loss impaired during the three and six months ended June 30, 2024 and 2023. At June 30, 2024, the Company did not have an intent to sell securities that were in significant unrealized loss positions, and it was not more likely than not that the Company would be required to sell these securities before recovery of the amortized cost basis, which may be at maturity. In making this determination, the Company considered its current and projected liquidity position including its ability to pledge securities to generate liquidity, its investment policy as to permissible holdings and concentration limits, regulatory requirements and other relevant factors. We have not sold, and do not anticipate the need to sell, securities in unrealized loss positions to generate liquidity.

At June 30, 2024, 485 securities available for sale were in unrealized loss positions. The amount of impairment related to 135 of these securities was considered insignificant both individually and in the aggregate, totaling approximately $1.2 million and no further analysis with respect to these securities was considered necessary.

The basis for concluding that AFS securities were not credit loss impaired and no ACL was considered necessary at June 30, 2024, is further discussed below.

Unrealized losses were primarily attributable to a sustained higher interest rate environment and in some cases, wider spreads compared to levels at which securities were purchased. The investment securities AFS portfolio was in a net unrealized loss position of $462.5 million at June 30, 2024, compared to $534.8 million at December 31, 2023, improving by $72.3 million during the six months ended June 30, 2024. While the majority of securities in the portfolio were floating rate at June 30, 2024, fixed rate securities accounted for the majority of unrealized losses.

U.S. Government, U.S. Government Agency and Government Sponsored Enterprise Securities

At June 30, 2024, six U.S. treasury, 73 U.S. Government agency and sponsored enterprise residential MBS, 26 U.S. Government agency and sponsored enterprise commercial MBS, and 20 SBA securities were in unrealized loss positions. The timely payment of principal and interest on these securities is explicitly or implicitly guaranteed by the U.S. Government. As such, there is an assumption of zero credit loss and the Company expects to recover the amortized cost basis of these securities.

Private Label Securities:

None of the impaired private label securities had missed principal or interest payments or had been downgraded by a NRSRO at June 30, 2024. The Company performed an analysis comparing the present value of cash flows expected to be collected to the amortized cost basis of impaired securities. This analysis was based on a scenario that we believe to be generally more conservative than our reasonable and supportable economic forecast at June 30, 2024, and incorporated assumptions about voluntary prepayment rates, collateral defaults, delinquencies, severity and other relevant factors as described further below. Our analysis also considered the structural characteristics of each security and the level of credit enhancement provided by that structure.

Private label residential MBS and CMOs

At June 30, 2024, 114 private label residential MBS and CMOs were in unrealized loss positions. Our analysis of cash flows expected to be collected on these securities incorporated assumptions about collateral default rates, voluntary prepayment rates, loss severity, delinquencies and recovery lag. In developing those assumptions, we took into account collateral quality measures such as FICO, LTV, documentation, loan type, property type, agency availability criteria and performing status. We also regularly monitor sector data including home price appreciation, forbearance, delinquency, special servicing and prepay trends as well as other economic data that could be indicative of stress in the sector. Underlying delinquencies in this sector remain low. Our June 30, 2024 analysis projected weighted average collateral losses for impaired securities in this category of 2% compared to weighted average credit support of 18%. As of June 30, 2024, 95% of impaired securities in this category, based on carrying value, were externally rated AAA and 5% were rated AA.

Private label commercial MBS

At June 30, 2024, 81 private label commercial MBS were in unrealized loss positions. Our analysis of cash flows expected to be collected on these securities incorporated assumptions about collateral default rates, voluntary prepayment rates, loss severity, delinquencies and recovery lag. In developing those assumptions, we took into account collateral quality and type, loan size, loan purpose and other qualitative factors. We also regularly monitor collateral concentrations, collateral watch lists, bankruptcy data, defeasance data, special servicing trends, delinquency and other economic data that could be indicative of stress in the sector. We consider collateral, deal, sector and tranche level performance as well as maturity and refinance risk. While we have observed some deterioration in collateral performance in this segment, particularly in the office sector, the high credit quality of these securities and adequacy of subordination to cover projected collateral losses supports the conclusion that there is no credit loss impairment. Our June 30, 2024 analysis projected weighted average collateral losses for impaired securities in this category of 7% compared to weighted average credit support of 45%. As of June 30, 2024, 84% of impaired securities in this category, based on carrying value, were externally rated AAA, 12% were rated AA and 4% were rated A. There is no single-asset, single-borrower exposure.

Single family real estate-backed securities

At June 30, 2024, 11 single family rental real estate-backed securities were in unrealized loss positions. Our analysis of cash flows expected to be collected on these securities incorporated assumptions about collateral default rates, loss severity, delinquencies and recovery lag. We regularly monitor sector data including home price appreciation, forbearance, delinquency and prepay trends as well as other economic data that could be indicative of stress in the sector. We consider collateral, deal, sector and tranche level performance as well as maturity and refinance risk. Our June 30, 2024 analysis projected weighted average collateral losses for this category of 7% compared to weighted average credit support of 53%. As of June 30, 2024, 54% of impaired securities in this category, based on carrying value, were externally rated AAA, 19% were rated AA and one security was not externally rated.

Collateralized loan obligations

At June 30, 2024, three collateralized loan obligations were in unrealized loss positions. Unrealized losses totaled less than 1% of total amortized cost of this segment at June 30, 2024. Our analysis of cash flows expected to be collected on these securities incorporated assumptions about collateral default rates, loss severity, and delinquencies, calibrated to take into account idiosyncratic risks associated with the underlying collateral. In developing those assumptions, we took into account each sector's performance pre-, during and post the 2008 financial crisis. We regularly engage with bond managers to monitor trends in underlying collateral including potential downgrades and subsequent cash flow diversions, liquidity, ratings migration, and any other relevant developments. While we have observed some deterioration in underlying collateral performance due in large part to rising costs, the high credit quality of these securities and adequacy of subordination to cover projected collateral losses supports the conclusion that there is no credit loss impairment. Our June 30, 2024 analysis projected weighted average collateral losses for impaired securities in this category of 12% compared to weighted average credit support of 41%. As of June 30, 2024, 28% of the impaired securities in this category, based on carrying value, were externally rated AAA and 72% were rated AA.

Non-mortgage asset-backed securities

At June 30, 2024, six non-mortgage asset-backed securities were in unrealized loss positions. These securities are backed by student loan collateral. Our analysis of cash flows expected to be collected on these securities incorporated assumptions about collateral default rates, loss severity, delinquencies, voluntary prepayment rates and recovery lag. In developing assumptions, we took into account collateral type, delineated by whether collateral consisted of loans to borrowers in school, refinancing, or a mixture. Our June 30, 2024 analysis projected weighted average collateral losses for impaired securities in this category of 4% compared to weighted average credit support of 27%. As of June 30, 2024, 34% of the impaired securities in this category, based on carrying value, were externally rated AAA, and 66% were rated AA.

State and Municipal Obligations

At June 30, 2024, ten state and municipal obligations were in unrealized loss positions. Our analysis of potential credit loss impairment for these securities incorporates a quantitative measure of the underlying obligor's credit worthiness provided by a third-party vendor as well as other relevant qualitative considerations. As of June 30, 2024, 54% of the impaired securities in this category, based on carrying value, were externally rated AAA, 13% were rated AA and 33% were rated A.

Included in loans, net are direct or sales type finance leases totaling $582 million and $602 million at June 30, 2024 and December 31, 2023, respectively. The amount of income recognized from direct or sales type finance leases for the three and six months ended June 30, 2024 and 2023, totaled $3.8 million, $7.9 million, $4.4 million and $8.7 million, respectively, and is included in interest income on loans in the consolidated statements of income.

During the three and six months ended June 30, 2024 and 2023, the Company purchased residential loans totaling $60 million, $127 million, $154 million, and $341 million, respectively.

At June 30, 2024 and December 31, 2023, the Company had pledged loans with a carrying value of approximately $15.6 billion and $16.5 billion, respectively, as security for FHLB advances and Federal Reserve discount window capacity.

Accrued interest receivable on loans totaled $135 million and $138 million at June 30, 2024 and December 31, 2023, respectively, and is included in other assets in the accompanying consolidated balance sheets. The amount of interest income reversed on non-accrual loans was not material for the three and six months ended June 30, 2024 and 2023.

The ACL was determined utilizing a 2-year reasonable and supportable forecast period. The quantitative portion of the ACL was determined using three weighted third-party provided economic scenarios.

The ACL increased by $23.0 million, to 0.92% of total loans at June 30, 2024 from 0.82% of total loans at December 31, 2023. The more significant factors impacting the provision for credit losses and increase in the ACL for the six months ended June 30, 2024 were new loan production and changes in portfolio characteristics; risk rating migration and an increase in specific reserves; an increase in qualitative reserves, particularly related to office CRE; partially offset by an improved economic forecast and net charge-offs.

The following table presents gross charge-offs during the six months ended June 30, 2024, by year of origination (in thousands):

	2024	2023	2022	2021	2020	Prior to 2020	Revolving Loans	Total

Credit quality indicators for residential loans

Management considers delinquency status to be the most meaningful indicator of the credit quality of residential loans, other than government insured residential loans. Delinquency status is updated at least monthly. LTV and FICO scores are also important indicators of credit quality for 1-4 single family residential loans other than government insured loans. FICO scores are generally updated semi-annually, and were most recently updated in the first quarter of 2024. LTVs are typically at origination since we do not routinely update residential appraisals. Substantially all of the government insured residential loans are government insured buyout loans, which the Company buys out of GNMA securitizations upon default. For these loans, traditional measures of credit quality are not particularly relevant considering the guaranteed nature of the loans and the underlying business model. Factors that impact risk inherent in the residential portfolio segment include national and regional economic conditions such as levels of unemployment, wages and interest rates, as well as residential property values.

Included in the table above is the guaranteed portion of non-accrual SBA loans totaling $39.0 million and $41.8 million at June 30, 2024 and December 31, 2023, respectively. The amount of interest income recognized on non-accrual loans was insignificant for the three and six months ended June 30, 2024 and 2023. The amount of additional interest income that would have been recognized on non-accrual loans had they performed in accordance with their contractual terms was approximately $3.4 million and $4.9 million for the three and six months ended June 30, 2024, respectively and $1.7 million and $3.4 million for the three and six months ended June 30, 2023, respectively.

Collateral dependent loans:

The following table presents the amortized cost basis of collateral dependent loans at the dates indicated (in thousands):

	June 30, 2024		December 31, 2023	
	Amortized Cost	Extent to Which Secured by Collateral	Amortized Cost	Extent to Which Secured by Collateral

	$ 138,244	$ 113,196	$ 71,463	$ 56,073

Collateral for the CRE loan class generally consists of commercial real estate, or for certain construction loans, residential real estate. Collateral for C&I loans generally consists of equipment, accounts receivable, inventory and other business assets and for owner-occupied commercial real estate loans, may also include commercial real estate. Franchise and equipment finance loans may be collateralized by franchise value or by equipment. Residential loans are collateralized by residential real estate. There were no significant changes to the extent to which collateral secured collateral dependent loans during the six months ended June 30, 2024.

Foreclosure of residential real estate

The recorded investment in residential loans in the process of foreclosure was $201 million, of which $189 million was government insured at June 30, 2024, and $262 million, of which $250 million was government insured at December 31, 2023. The carrying amount of foreclosed residential real estate included in other assets in the accompanying consolidated balance sheet was insignificant at June 30, 2024 and December 31, 2023.

Income Taxes	6 Months Ended Jun. 30, 2024
Income Tax Disclosure [Abstract]	
Income Taxes	**Note 5 Income Taxes** The Company’s effective income tax rate was 26.4% and 27.4% for the three and six months ended June 30, 2024 and 26.2% and 26.3% for the three and six months ended June 30, 2023, respectively. The effective income tax rates differed from the statutory federal income tax rate of 21% for the three and six months ended June 30, 2024 and 2023 primarily due to the impact of state income taxes, partially offset by the benefit of income not subject to federal tax.

Derivatives and Hedging Activities	6 Months Ended Jun. 30, 2024

Derivative Instruments and Hedging Activities Disclosure [Abstract]

Derivatives and Hedging Activities

`Derivative Financial Instruments`

Derivatives designated as hedging instruments

The Company has entered into interest rate derivatives designated as (i) cash flow hedges with the objective of limiting the variability of interest payment cash flows and (ii) fair value hedges designed to hedge changes in the fair value of outstanding fixed rate instruments caused by fluctuations in the benchmark interest rate. Changes in fair value of derivative instruments designated as cash flow hedges are reported in accumulated other comprehensive income. Changes in the fair value of derivative instruments designated as fair value hedges are recognized in earnings, as is the offsetting gain or loss on the hedged item.

The following table summarizes the Company's derivatives designated as hedging instruments as of the dates indicated (in thousands):

	June 30, 2024			December 31, 2023

---

(1) The fair values of derivatives are included in other assets or other liabilities in the consolidated balance sheets.

Derivatives designated as cash flow hedges

The following table provides information about the amount of gain (loss) related to derivatives designated as cash flow hedges reclassified from AOCI into interest income or expense for the periods indicated (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
Location of gain (loss) reclassified from AOCI into income:				
Interest expense on borrowings	$ 12,018	$ 9,996	$ 27,730	$ 17,493
Interest expense on deposits	4,683	5,813	9,609	10,862
Interest income on loans	(810)	(622)	(1,626)	(1,014)
	$ 15,891	$ 15,187	$ 35,713	$ 27,341

During the three and six months ended June 30, 2024 and 2023, no derivative positions designated as cash flow hedges were discontinued and none of the gains and losses reported in AOCI were reclassified into earnings as a result of the discontinuance of cash flow hedges or because of the early extinguishment of debt.

As of June 30, 2024, the amount of net gain expected to be reclassified from AOCI into earnings during the next twelve months was $34.8 million, based on the forward curve. See Note 7 to the consolidated financial statements for additional information about the reclassification adjustments from AOCI into earnings.

Derivatives designated as fair value hedges

No gain (loss) related to derivatives designated as fair value hedges were recognized in earnings for any of the applicable periods. The following table provides information about the hedged items related to derivatives designated as fair value hedges at the date indicated (in thousands):

	June 30, 2024	December 31, 2023	Location in Consolidated Balance Sheets
Contractual balance outstanding of hedged item [1]	$ 50,000	$ 100,000	Loans
Cumulative fair value hedging adjustments	$ (674)	$ (1,656)	Loans

---

(1) This amount is included in the amortized cost basis of a closed portfolio of loans used to designate hedging relationships in a portfolio layer method hedge in which the hedged item is anticipated to be outstanding for the designated hedge period. The amortized cost basis of the closed portfolio used in this hedging relationship was $962 million and $992 million, respectively, at June 30, 2024 and December 31, 2023.

Derivatives not designated as hedging instruments

The Company enters into interest rate derivative contracts with certain of its commercial borrowers to enable those borrowers to manage their exposure to interest rate fluctuations. To mitigate interest rate risk associated with these derivative contracts, the Company enters into offsetting derivative contract positions with primary dealers. The Company purchases and sells credit protection under RPAs with the objective of sharing with financial institution counterparties some of the credit exposure related to interest rate derivative contracts entered into with commercial borrowers related to participations purchased or sold. The Company will make or receive payments under these agreements if a customer defaults on an obligation to perform under certain interest rate derivative contracts. The Company also enters into foreign currency forward derivative contracts with commercial borrowers to enable borrowers to manage their exposure to foreign currency fluctuations. The Company enters into offsetting forward contracts with primary dealers to mitigate the foreign currency risk associated with these contracts. These derivative contracts are not designated as hedging instruments; therefore, changes in the fair value of these derivatives are recognized immediately in earnings. The impact on earnings related to changes in fair value of these derivatives was not material for the three and six months ended June 30, 2024 and 2023.

The Company may be exposed to credit risk in the event of non-performance by the counterparties to its commercial customer derivative agreements. The Company assesses the credit risk of its financial institution counterparties by monitoring publicly available credit rating and financial information. The Company manages dealer credit risk by entering into interest rate derivatives only with primary and highly rated counterparties, the use of ISDA master agreements, central clearing mechanisms and counterparty limits. The agreements contain bilateral collateral arrangements with the amount of collateral to be posted generally governed by the settlement value of outstanding swaps. The Company manages the risk of default by its commercial borrower counterparties through its normal loan underwriting and credit monitoring policies and procedures. The Company does not currently anticipate any significant losses from failure of interest rate derivative counterparties to honor their obligations.

The following table summarizes the Company's derivatives not designated as hedging instruments as of the dates indicated (in thousands):

	June 30, 2024			December 31, 2023		
		Fair Value[1]			Fair Value[1]	
	Notional Amount	Asset	Liability	Notional Amount	Asset	Liability
Pay-fixed interest rate swaps	$ 2,361,676	$ 89,223	$ (8,671)	$ 2,166,813	$ 76,793	$ (16,702)

---

(1) Fair values of these derivatives are included in other assets and other liabilities in the consolidated balance sheets.

Some of the Company’s ISDA master agreements with financial institution counterparties contain provisions that permit either counterparty to terminate the agreements and require settlement in the event that regulatory capital ratios fall below certain designated thresholds, upon the initiation of other defined regulatory actions or upon suspension or withdrawal of the Bank’s credit rating. Currently, there are no circumstances that would trigger these provisions of the agreements.

Master netting agreements

The Company does not offset assets and liabilities under master netting agreements for financial reporting purposes. Information on interest rate swaps and caps subject to these agreements is as follows at the dates indicated (in thousands):

	June 30, 2024					
				Gross Amounts Not Offset in Balance Sheet		
	Gross Amounts Recognized	Gross Amounts Offset in Balance Sheet	Net Amounts Presented in Balance Sheet	Derivative Instruments	Collateral Pledged	Net Amount
Derivative assets	$ 99,276	$ —	$ 99,276	$ (8,123)	$ (90,949)	$ 204
Derivative liabilities	(11,931)	—	(11,931)	8,123	3,808	—
	$ 87,345	$ —	$ 87,345	$ —	$ (87,141)	$ 204

	December 31, 2023					
				Gross Amounts Not Offset in Balance Sheet		
	Gross Amounts Recognized	Gross Amounts Offset in Balance Sheet	Net Amounts Presented in Balance Sheet	Derivative Instruments	Collateral Pledged	Net Amount
Derivative assets	$ 88,956	$ —	$ 88,956	$ (15,154)	$ (73,730)	$ 72
Derivative liabilities	(17,750)	—	(17,750)	15,154	2,596	—
	$ 71,206	$ —	$ 71,206	$ —	$ (71,134)	$ 72

The difference between the amounts reported for interest rate swaps subject to master netting agreements and the total fair value of interest rate contract derivative financial instruments reported in the consolidated balance sheets is related to interest rate derivative contracts not subject to master netting agreements.

Fair Value Measurements	6 Months Ended Jun. 30, 2024
Fair Value Disclosures [Abstract]	
Fair Value Measurements	

Note 8 Fair Value Measurements

Assets and liabilities measured at fair value on a recurring basis

The following is a description of the methodologies used to estimate the fair values of assets and liabilities measured at fair value on a recurring basis and the level within the fair value hierarchy in which those measurements are typically classified.

Investment securities available for sale and marketable equity securities—Fair value measurements are based on quoted prices in active markets when available; these measurements are classified within level 1 of the fair value hierarchy. These securities typically include U.S. Treasury securities and certain preferred stocks. If quoted prices in active markets are not available, fair values are estimated using quoted prices of securities with similar characteristics, quoted prices of identical securities in less active markets, discounted cash flow techniques, or matrix pricing models. These securities are generally classified within level 2 of the fair value hierarchy and include U.S. Government agency securities, U.S. Government agency and sponsored enterprise MBS, preferred stock investments for which level 1 valuations are not available, non-mortgage asset-backed securities, single family real estate-backed securities, private label residential MBS and CMOs, private label commercial MBS, collateralized loan obligations and state and municipal obligations. Pricing of these securities is generally primarily spread driven. Observable inputs that may impact the valuation of these securities include benchmark yield curves, credit spreads, reported trades, dealer quotes, bids, issuer spreads, current rating, historical constant prepayment rates, historical voluntary prepayment rates, structural and waterfall features of individual securities, published collateral data, and for certain securities, historical constant default rates and default severities.

The Company uses third-party pricing services in determining fair value measurements for investment securities. To obtain an understanding of the methodologies and assumptions used, management reviews written documentation provided by the pricing services, conducts interviews with valuation desk personnel and reviews model results and detailed assumptions used to value selected securities as considered necessary. Management has established a robust price challenge process that includes a review by the treasury front office of all prices provided on a quarterly basis. Any price evidencing unexpected quarter over quarter fluctuations or deviations from expectations is challenged. If considered necessary to resolve any discrepancies, a price will be obtained from an additional independent valuation source. The Company does not typically adjust the prices provided, other than through this established challenge process. The results of price challenges are subject to review by executive management. Any price discrepancies are resolved based on careful consideration of the assumptions and inputs employed by each of the pricing sources.

Derivative financial instruments—Fair values of interest rate derivatives are determined using widely accepted discounted cash flow modeling techniques. These discounted cash flow models use projections of future cash payments and receipts that are discounted at mid-market rates. Observable inputs that may impact the valuation of these instruments include benchmark swap rates and benchmark forward yield curves. These fair value measurements are generally classified within level 2 of the fair value hierarchy.

The following tables present assets and liabilities measured at fair value on a recurring basis at the dates indicated (in thousands):

Assets and liabilities measured at fair value on a non-recurring basis

Following is a description of the methodologies used to estimate the fair values of assets and liabilities that may be measured at fair value on a non-recurring basis, and the level within the fair value hierarchy in which those measurements are typically classified:

Collateral dependent loans and OREO—The carrying amount of collateral dependent loans is typically based on the fair value of the underlying collateral, which may be real estate, enterprise value or other business assets, less estimated costs to sell when repayment is expected to come from the sale of the collateral. The carrying value of OREO is initially measured based on the fair value of the real estate acquired in foreclosure and subsequently adjusted to the lower of cost or estimated fair value, less estimated cost to sell. Fair values of real estate collateral and OREO are typically based on third-party real estate appraisals which utilize market and income approaches to valuation incorporating both observable and unobservable inputs.

Fair value measurements related to collateral dependent loans and OREO are generally classified within level 3 of the fair value hierarchy.

The following table presents the net carrying value of assets classified within level 3 of the fair value hierarchy at the dates indicated, for which non-recurring changes in fair value were recorded during the period then ended (in thousands):

	June 30, 2024	December 31, 2023

Commitments and Contingencies	6 Months Ended Jun. 30, 2024
Commitments and Contingencies Disclosure [Abstract]	
Commitments and Contingencies	

Note 9 Commitments and Contingencies

The Company issues off-balance sheet financial instruments to meet the financing needs of its customers. These financial instruments include commitments to fund loans, unfunded commitments under existing lines of credit, and commercial and standby letters of credit. These commitments expose the Company to varying degrees of credit and market risk which are essentially the same as those involved in extending loans to customers, and are subject to the same credit policies used in underwriting loans. Collateral may be obtained based on the Company's credit evaluation of the counterparty. The Company's maximum exposure to credit loss is represented by the contractual amount of these commitments.

Commitments to fund loans

These are agreements to lend funds to customers as long as there is no violation of any condition established in the contract. Commitments to fund loans generally have fixed expiration dates or other termination clauses and may require payment of a fee. Many of these commitments are expected to expire without being funded and, therefore, the total commitment amounts do not necessarily represent future liquidity requirements.

Unfunded commitments under lines of credit

Unfunded commitments under lines of credit include commercial and commercial real estate lines of credit to existing customers, for many of which additional extensions of credit are subject to borrowing base requirements. Some of these commitments may mature without being fully funded, so may not necessarily represent future liquidity requirements.

Commercial and standby letters of credit

Letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. These letters of credit are primarily issued to support trade transactions or guarantee arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers.

Total lending related commitments outstanding at June 30, 2024 were as follows (in thousands):

Commitments to fund loans	$ 324,729
Unfunded commitments under lines of credit	4,598,578
Commercial and standby letters of credit	156,900
	$ 5,080,207

Legal Proceedings

The Company is involved in various legal actions arising in the normal course of business. In the opinion of management, based upon advice of legal counsel, the likelihood is remote that the adverse impact of these proceedings, either individually or in the aggregate, would be material to the Company's consolidated financial position, results of operations or cash flows.

Basis of Presentation and Summary of Significant Accounting Policies (Policies)	6 Months Ended Jun. 30, 2024

Organization, Consolidation and Presentation of Financial Statements [Abstract]

Accounting Estimates

Accounting Estimates

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses and disclosures of contingent assets and liabilities. Actual results could differ significantly from these estimates.

The most significant estimate impacting the Company's consolidated financial statements is the ACL.

New Accounting Pronouncements, Policy [Policy Text Block]

New Accounting Pronouncements Adopted During the Six Months Ended June 30, 2024

ASU No. 2023-02—*Investments - Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures using the Proportional Amortization Method (A Consensus of the Emerging Issues Task Force).* This ASU was issued to expand the use of the proportional amortization method of accounting for equity investments in tax credit programs beyond those in LIHTC programs. The ASU allows entities to elect the proportional amortization method, on a tax credit program by tax credit program basis, for all equity investments in tax credit programs meeting the eligibility criteria. The Company adopted this ASU in the first quarter of 2024. There was no impact upon adoption. Currently, all of the Company's equity investments in tax credit programs are in LIHTC programs already accounted for using the proportional amortization method.

Accounting Pronouncements Not Yet Adopted

ASU No. 2023-07—*Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures.* This ASU augments reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. In addition, the amendments enhance interim disclosure requirements, clarify circumstances in which an entity can disclose multiple segment measures of profit or loss, provide new segment disclosure requirements for entities with a single reportable segment and contain other disclosure requirements. This ASU is effective for the Company for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. This ASU is not expected to have an impact on the Company's consolidated financial position, results of operations and cash flows. Adoption may lead to additional and revised disclosures in the Company's financial statements starting with the 2024 Annual Report on Form 10-K.

ASU No. 2023-09—*Income Taxes (Topic 740): Improvements to Income Tax Disclosures.* This ASU requires entities to provide additional disclosures, primarily related to the income tax rate reconciliation and income taxes paid. The guidance also eliminates certain existing disclosure requirements related to uncertain tax positions among others. This ASU is effective for the Company for fiscal years beginning after December 15, 2024, and interim periods within fiscal years beginning after December 15, 2025. The adoption of this ASU is not expected to have an impact on the Company's consolidated financial position, results of operations and cash flows. Adoption will lead to revised disclosures about income taxes in the Company's financial statements.

Financing Receivable Credit Quality Indicators

Credit quality information

Credit quality of loans held for investment is continuously monitored by dedicated residential credit risk management and commercial portfolio management functions. The Company also has a workout and recovery department that monitors the credit quality of criticized and classified loans and an independent internal credit review function.

Credit quality indicators for commercial loans

Factors that impact risk inherent in commercial portfolio segments include but are not limited to levels of economic activity or potential disruptions in economic activity, health of the national, regional and to a lesser extent global economy, interest rates, industry trends, demographic trends, inflationary trends, including particularly for commercial real estate loans the cost of insurance, patterns of and trends in customer behavior that influence demand for our borrowers' products and services, and commercial real estate values and related market dynamics. Particularly for the office sector, the evolving impact of hybrid and remote work on vacancies and valuations is a factor. Internal risk ratings are considered the most meaningful indicator of credit quality for commercial loans. Internal risk ratings are one indicator of the likelihood that a borrower will default, are a key factor influencing the level and nature of ongoing monitoring of loans and may impact the estimation of the ACL. Internal risk ratings are updated on a continuous basis. Generally, relationships with balances in excess of defined thresholds, ranging from $1 million to $3 million, are re-evaluated at least annually and more frequently if circumstances indicate that a change in risk rating may be warranted. The special mention rating is considered a transitional rating for loans exhibiting potential credit weaknesses that could result in deterioration of repayment prospects at some future date if not checked or corrected and that deserve management’s close attention. These borrowers may exhibit declining cash flows or revenues or increasing leverage. Loans with well-defined credit weaknesses that may result in a loss if the deficiencies are not corrected are assigned a risk rating of substandard. These borrowers may exhibit payment defaults, inadequate cash flows from current operations, operating losses, increasing balance sheet leverage, project cost overruns, unreasonable construction delays, exhausted interest reserves, declining collateral values, frequent overdrafts or past due real estate taxes. Loans with weaknesses so severe that collection in full is highly questionable or improbable, but because of certain reasonably specific pending factors have not been charged off, are assigned an internal risk rating of doubtful.

Credit quality indicators for residential loans

Management considers delinquency status to be the most meaningful indicator of the credit quality of residential loans, other than government insured residential loans. Delinquency status is updated at least monthly. LTV and FICO scores are also important indicators of credit quality for 1-4 single family residential loans other than government insured residential loans. FICO scores are generally updated semi-annually, and were most recently updated in the first quarter of 2024. LTVs are typically at origination since we do not routinely update residential appraisals. Substantially all of the government insured residential loans are government insured buyout loans, which the Company buys out of GNMA securitizations upon default. For these loans, traditional measures of credit quality are not particularly relevant considering the guaranteed nature of the loans and the underlying business model. Factors that impact risk inherent in the residential portfolio segment include national and regional economic conditions such as levels of unemployment, wages and interest rates, as well as residential property values.
