### MANAGEMENT COMMENTARY

**Mr. Raju Vigesna, Chairman**, said, "India's growing prominence in the global marketplace is driven by its liberal policies, a supportive business environment, and a wealth of skilled resources. These factors combine to create a compelling growth opportunity for international companies, making India a critical destination in their global strategic expansion plans."

India has long established a reputation of being an IT service provider for the world. That narrative is now maturing to recognize that India can be an important AI test-bed for the emerging digital economy. Multiple global leaders have also gone on record regarding the importance of the Indian market in their investment roadmap".

**Mr. M P Vijay Kumar, ED & Group CFO**, said, "We stay focussed on cost efficiency and fiscal discipline, ensuring our financial strategies align with long-term value creation. Our current results are weighed down by depreciation, interest payments and escalating manpower costs."

Our strategic investments are guided by a forward-looking approach, designed to anticipate evolving market dynamics and drive sustainable growth. Our pursuit of responsible and innovative growth will be strengthened through such sustainable practices.

We draw your attention to Sify adopting the new standard of International Accounting Standards Board's recent issuance of IFRS 18 (Presentation and Disclosure in Financial Statements), starting with the last quarter ending June 30, 2024. By adopting the new standard, we seek to maintain clarity and consistency in our financial communications. Importantly, while our presentation may change, there is no alteration in total income or net profit. December 2023 numbers are restated consequent to filing of Amended Form 20-F/A with SEC on January 13, 2025.

The cash balance at the end of the quarter was INR 5,327 Million".

### Management-defined Performance Measures (MPMs)

Sify uses Earnings before Interest, Tax, Depreciation and Amortisation (EBITDA) as the management-defined performance measure in its public

communications. This measure is not specified by IFRS Accounting Standards and therefore might not be comparable to apparently similar measures used by other entities.

Management believes adjusting operating profit for these items provides comprehensive information of the company's operating performance.
