dated December 12, 2024 EX-99.1 2 exh_991.htm PRESS RELEASE Edgar Filing EXHIBIT 99.1 Stantec selected to
support Toronto's Gardiner Expressway Rehabilitation Section 4C \$24 million contract builds on Stantec and
recently acquired Morrison Hershfield's long-standing relationships with the City of Toronto EDMONTON, Alberta
and NEW YORK and TORONTO, Dec. 12, 2024 (GLOBE NEWSWIRE) -- TSX, NYSE:STN Stantec, a global leader in
sustainable design and engineering, has been selected by the City of Toronto for Owner's Engineer/Technical
Advisory Services (OETA) for the delivery of the F.G. Gardiner Expressway Rehabilitation Project Section 4. Stantec will
provide multidisciplinary engineering consulting services through planning and preliminary design, procurement,
design-build, and post construction. Early in 2024, Stantec announced its acquisition of Morrison Hershfield, which
doubled its transportation staff in Ontario and strengthened its presence in the Greater Toronto Area. Complex
infrastructure rehabilitation in the heart of Toronto The Gardiner Expressway is one of Canada's busiest corridors,
with 140,000 vehicles traveling it daily. Age, heavy use, weather, and salt have necessitated a multiyear rehabilitation
to extend its life. The expressway runs along established neighborhoods and the city's downtown core, making it an
extremely complex project. "The Gardiner Expressway is a critical corridor for the city," said Susan Walter,
executive vice president of Infrastructure at Stantec. "We have been working with the City of Toronto on its
multiyear Strategic Rehabilitation Plan to support the safe operation and increase the life of this 60-year-old
expressway since 2019. Section 4 of the rehabilitation will replace 2.2 kilometers of elevated roadway from Grand
Magazine Street to York Street. It is in the heart of the City of Toronto and includes 91 bridge spans and 5 on- and off-
ramps. The rehabilitation strategy will include structural modifications, deck replacement, structural steel girder
repairs or replacement, and substructure rehabilitation and associated works. Stantec's contract on Section 4 is
valued at C\$24 million. Longstanding relationship with the City of Toronto Stantec has previously completed significant
work for the City of Toronto on the Gardiner Expressway Rehabilitation Plan, including of the ongoing Section 2 deck
replacement from Dufferin Street to Strachan Avenue, contract administration for Section 1 from Jarvis Street to
Cherry Street, and preliminary design for Section 5 from Cherry Street to the Don Valley Parkway. "Since 1979, we
have completed extensive work for the City of Toronto on the Gardiner Expressway," said Jim Weir, transportation
regional growth leader for Canada at Stantec. "We will be working closely with the City to safely upgrade Section 4
from the earliest stages until construction completion." Stantec has helped deliver several major transportation
projects around the Greater Toronto Area. The projects include the Toronto Subway Program, Ontario Line, Hazel
McCallion Line, Waterfront East Light Rail Transit Extension, Highway 401/409 Rail Tunnel, and the rehabilitation and
reconstruction of 63 bridges across the city. Learn more about Transportation at Stantec. About Stantec Stantec
empowers people, and communities to rise to the world's greatest challenges at a time when the world faces
more unprecedented concerns than ever before. We are a global leader in sustainable architecture, engineering, and
environmental consulting. "Our professionals deliver the expertise, technology, and innovation communities need to
manage aging infrastructure, demographic and population changes, the energy transition, and more. Today's
communities transcend geographic borders. At Stantec, community means everyone with an interest in the work that
we do" from our project teams and industry colleagues to our clients and the people our work impacts. The diverse
perspectives of our partners and interested parties drive us to think beyond what's previously been done on critical
issues like climate change, digital transformation, and future-proofing our cities and infrastructure. "We are
designers, engineers, scientists, project managers, and strategic advisors. We innovate at the intersection of
community, creativity, and client relationships to advance communities everywhere, so that together we can redefine
what's possible." Stantec trades on the TSX and the NYSE under the symbol STN. Visit us at stantec.com or find
us on social media. Cautionary Note Regarding Forward-Looking Statements This news release contains forward-looking
