(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2024

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number 001-41490

**F&G Annuities & Life, Inc.**

(Exact name of registrant as specified in its charter)

**Delaware**

**85-2487422**

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

801 Grand Avenue, Suite 2600

Des Moines, Iowa 50309

(Address of principal executive offices, including zip code)

**(866) 846-4660**

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock, par value \$0.001 per share	FG	New York Stock Exchange
7.950% Senior Notes due 2053	FGN	New York Stock Exchange

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports); and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (\$232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

---

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes  No

The registrant had outstanding 126,098,548 shares of common stock as of July 31, 2024.

**F&G ANNUITIES & LIFE, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**Note A — Basis of Financial Statements**

The financial information in this report presented for interim periods is unaudited and includes the accounts of F&G Annuities & Life, Inc. ("FGAL") and its subsidiaries (collectively, "we", "us", "our", the "Company" or "F&G") prepared in accordance with U.S. generally accepted accounting principles ("GAAP") and the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All adjustments made were of a normal, recurring nature. This report should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2023, filed on February 29, 2024.

***Description of the Business***

F&G is a majority-owned subsidiary of Fidelity National Financial, Inc. (NYSE: FNF) ("FNF"). We provide insurance solutions and market a broad portfolio of annuity and life insurance products through retail channels and institutional markets. F&G has one reporting segment, which is consistent with and reflects the manner by which our chief operating decision maker ("CODM") views and manages the business. For certain disclosures within this Quarterly Report on Form 10-Q, we have elected to aggregate business based on the applicable product type, the manner in which information is regularly reviewed by management and the nature of disclosures that exist outside the Company's GAAP financial statements.

*Retail distribution channels products include:*

- Deferred annuities including fixed indexed annuities ("FIA"), registered index-linked annuities ("RILA"), (together referred to as "indexed annuities") and fixed rate annuities including multi-year guarantee annuities ("MYGA"),
- Immediate annuities, and
- Indexed universal life ("IUL") insurance.

*Institutional markets products include:*

- Pension risk transfer ("PRT") solutions, and
- Funding agreements, including funding agreement backed notes ("FABN") and Federal Home Loan Bank funding agreements ("FHLB").

***Recent Developments***

***Owned Distribution Investments***

On January 2, 2024, F&G acquired a 70% majority ownership stake in the equity of Roar Joint Venture, LLC ("Roar") resulting in the consolidation of Roar in F&G's financial statements. Roar wholesales life insurance and annuity products to banks and broker dealers through a network of agents. Total initial consideration is comprised of cash of approximately \$269 million and \$48 million of contingent consideration. Under the terms of the purchase agreement, the Company has agreed to make cash payments of up to approximately \$90 million over a three-year period upon the achievement by Roar of certain earnings before interest, taxes, depreciation and amortization ("EBITDA") milestones.

Owned distribution revenues generated from commissions earned on contracts with insurance carriers are considered variable consideration. Revenue is recognized at the effective date of each policy sold under a contract and reported net of related expenses within Owned Distribution Revenues on the accompanying unaudited Condensed Statements of Operations and consists of revenue primarily from annuity products.

Intercompany transactions are eliminated in consolidation. For more information regarding the Roar acquisition, refer to Note P - *Acquisition*.

The contingent consideration is recorded at fair value in Accounts payable and accrued liabilities in the unaudited Condensed Consolidated Balance Sheets. Changes in the fair value of the contingent consideration are recorded in Other operating expenses in the unaudited Condensed Consolidated Statements of Operations.

Subsequent to June 30, 2024, on July 18, 2024 F&G acquired a 100% majority ownership stake in the equity of PALH, LLC ("PALH"). PALH markets and sells life insurance and annuity products of various insurance carriers to individuals through a network of agents. Prior to the acquisition date, PALH owned a 70% ownership stake in an operating company of which F&G owned 30% equity. Total consideration to acquire the remaining 70% equity is comprised of cash of approximately \$216 million.

#### *FNF \$250 million Preferred Stock Investment*

On January 12, 2024, we completed a \$250 million preferred stock investment from FNF. F&G will use net proceeds from the investment to support the growth of its assets under management. Under the terms of the agreement, FNF agreed to invest \$250 million in exchange for 5,000,000 shares of F&G's 6.875% Series A Mandatory Convertible Preferred Stock, par value \$. 0001 per share, liquidation preference of \$50.00 per share (the "FNF Preferred Stock"). Each outstanding share of the FNF Preferred Stock will automatically convert into shares of F&G common stock on or before January 15, 2027.

#### *Revolving Credit Facility*

On February 16, 2024, F&G entered into an amendment and extension of its existing senior unsecured revolving credit agreement (the "Credit Agreement"). The maturity date of the Credit Agreement was extended by approximately two years from November 22, 2025 to November 22, 2027. Total borrowing availability increased from \$665 million to \$750 million. Pricing and advance rates remain unchanged. Financial covenants also remain essentially the same.

#### *6.50% F&G Senior Notes*

On June 4, 2024, F&G completed its public offering of \$ 550 million aggregate principal amount of its 6.50% Senior Notes due 2029 (the "6.50% F&G Notes"). The 6.50% F&G Notes are guaranteed on an unsecured, unsubordinated basis by each of F&G's subsidiaries that are guarantors of F&G's obligations under its existing credit agreement. A portion of the net proceeds were used to finance a cash tender offer by its wholly owned subsidiary Fidelity & Guaranty Life Holdings, Inc. ("FGLH") for an aggregate principal amount of \$250 million of FGLH's 5.50% Senior Notes due 2025 (the "5.50% F&G Notes"). F&G intends to use the remaining net proceeds of this offering for general corporate purposes, which may include the repurchase, redemption or repayment at maturity of outstanding indebtedness. The 6.50% F&G Notes were registered under the Securities Act of 1934 (as amended) (the "Securities Act").

Refer to Note L - *Notes Payable* for further information related to these financing facilities.

#### *Dividends*

On July 31, 2024, our Board of Directors declared a quarterly cash dividend of \$ 0.8594 per share on the FNF Preferred Stock for the period from July 15, 2024 to and excluding October 15, 2024, to be payable on October 15, 2024, to FNF Preferred Stock record holders on October 1, 2024. On July 31, 2024, our Board of Directors also declared a quarterly cash dividend of \$0.21 per common share, payable on September 30, 2024, to F&G common shareholders of record as of September 16, 2024. Generally, no dividends will be declared or paid on F&G common stock and no common stock can be acquired by F&G unless all preferred dividends are declared and paid on the FNF Preferred Stock.

#### ***Unconsolidated Owned Distribution Investments***

We paid commissions on sales through our unconsolidated owned distribution investments and their affiliates of approximately \$ 44 million and \$40 million for the three months ended June 30, 2024 and June 30, 2023 respectively, and \$94 million and \$77 million for the six months ended June 30, 2024 and June 30, 2023, respectively. The acquisition expense is deferred and amortized in Depreciation and amortization on the accompanying unaudited Condensed Consolidated Statements of Operations.

#### ***Earnings Per Share***

Basic earnings per share ("EPS"), as presented on the unaudited Condensed Consolidated Statements of Operations, is computed by dividing net earnings available to common shareholders in a given period by the weighted average number of common shares outstanding during such period. Net earnings available to common shareholders is net earnings adjusted for net earnings attributable to noncontrolling interests, preferred stock dividends, including preferred stock dividends declared. In periods when earnings are positive, diluted EPS is calculated by dividing net earnings available to common shareholders by the weighted average number of common shares outstanding plus assumed conversions of potentially dilutive securities. For periods when we recognize a net loss, diluted loss per share is equal to basic loss per share as the impact of assumed conversions of potentially dilutive securities is considered to be antidilutive. Certain shares of restricted stock, using the treasury stock method and, as of January 12, 2024, the FNF Preferred Stock, using the if-converted method, are treated as common share equivalents for purposes of calculating diluted earnings per share for periods in which the effect is dilutive. The if-converted method assumes that the convertible preferred stock converts into common stock at the beginning of the period or date of issuance, if later.

#### ***Comprehensive Income (Loss)***

We report Comprehensive Income (Loss) in accordance with GAAP on the unaudited Condensed Consolidated Statements of Comprehensive Income. Total comprehensive income is defined as all changes in shareholders' equity during a period, other than those resulting from investments by and distributions to shareholders. While total Comprehensive Income (Loss) is the activity in a period and is largely driven by net earnings in that period, Accumulated other comprehensive income or loss ("AOCI") represents the cumulative balance of other comprehensive income, net of tax, as of the balance sheet date. Amounts reclassified to net earnings relate to the realized gains (losses) on our investments and other financial instruments, excluding investments in unconsolidated affiliates, and are included in Recognized gains and (losses), net on the unaudited Condensed Consolidated Statements of Operations.

Changes in the balance of Other comprehensive income (loss) for the three and six months ended June 30, 2024 and 2023 by component are as follows (in millions).

Three months ended June 30, 2024						
	Unrealized gain (loss) on investments and other financial instruments, net (excluding investments in unconsolidated affiliates)	Change in current discount rate - future policy benefits	Change in instrument- specific credit risk - market risk benefits	Foreign Currency Translation	Total Accumulated Other Comprehensive Income (Loss)	
<b>Balance at March 31, 2024</b>	\$ (2,462)	\$ 664	\$ (82)	\$ (3)	\$ (1,883)	
Reclassification adjustments included in net earnings (a)	(18)	—	—	—	(18)	
Other comprehensive income (loss) before tax, net of reclassifications	(204)	117	24	(1)	(64)	
Income tax (expense) benefit	41	(25)	(5)	1	12	
<b>Balance at June 30, 2024</b>	<b>\$ (2,643)</b>	<b>\$ 756</b>	<b>\$ (63)</b>	<b>\$ (3)</b>	<b>\$ (1,953)</b>	

  

Three months ended June 30, 2023						
	Unrealized gain (loss) on investments and other financial instruments, net (excluding investments in unconsolidated affiliates)	Change in current discount rate - future policy benefits	Change in instrument- specific credit risk - market risk benefits	Foreign Currency Translation	Total Accumulated Other Comprehensive Income (Loss)	
<b>Balance at March 31, 2023</b>	<b>\$ (3,165)</b>	<b>\$ 663</b>	<b>\$ (43)</b>	<b>\$ (3)</b>	<b>\$ (2,548)</b>

<b>Balance at June 30, 2023</b>	<b>\$ (3,282)</b>	<b>\$ 720</b>	<b>\$ (46)</b>	<b>\$ (2)</b>	<b>\$ (2,610)</b>

(a) Net of income tax expense of \$1 million and \$23 million for the six months ended June 30, 2024 and June 30, 2023, respectively.

### Recent Accounting Pronouncements

#### Adopted Pronouncements

In March 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2023-02, Accounting for Investments in Tax Credit Structure Using the Proportional Amortization Method (a consensus of the Emerging Issues Task Force). The amendments in this update permit reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. We adopted this standard on January 1, 2024, as required, and there was no material impact to our unaudited Condensed Consolidated Financial Statements. Refer to Note H - *Income Taxes* for further information.

#### Pronouncements Not Yet Adopted

In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. The amendments in this update improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expense categories that are regularly provided to the CODM and included in each reported measure of a segment's profit or loss. In addition, the amendments enhance interim disclosure requirements that are currently required annually, clarify circumstances in which an entity can disclose multiple segment measures of profit or loss, and contain other disclosure requirements. Additionally, the amendments require that entities with a single reportable segment must now provide all the disclosures previously required under Topic 280. The amendments in this update are incremental to the current requirements of Topic 280 and do not change how a public entity identifies its operating segments,

aggregates those operating segments, or applies the quantitative thresholds to determine its reportable segments. The enhanced segment disclosure requirements apply retrospectively to all prior periods presented in the financial statements. The significant segment expense and other segment item amounts disclosed in prior periods shall be based on the significant segment expense categories identified and disclosed in the period of adoption. The amendments in this update are effective for all public entities for fiscal years beginning after December 15, 2023, and interim periods beginning after December 15, 2024. Early adoption is permitted, and the updates must be applied retrospectively to all periods presented in the financial statements. We do not expect to early adopt this standard and are in the process of assessing its impact on our disclosures upon adoption.

In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. The amendments in this update enhance the transparency of the income tax disclosures by expanding on the disclosures required annually. The amendments require entities to disclose in their rate reconciliation table additional categories of information about federal, state, and foreign income taxes, in addition to providing details about the reconciling items in some categories if above a quantitative threshold. Additionally, the amendments require annual disclosure of income taxes paid (net of refunds received) disaggregated by jurisdiction based on a quantitative threshold. The amendments in this update are effective for public business entities for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. The amendments should be applied on a prospective basis, and retrospective application is permitted. We do not expect to early adopt this standard and are in the process of assessing its impact on our disclosures upon adoption.

## Note B — Fair Value of Financial Instruments

Our measurement of fair value is based on assumptions used by market participants in pricing the asset or liability, which may include inherent risk, restrictions on the sale or use of an asset, or non-performance risk, which may include our own credit risk. We estimate an exchange price is the price in an orderly transaction between market participants to sell the asset or transfer the liability ("exit price") in the principal market, or the most advantageous market for that asset or liability in the absence of a principal market as opposed to the price that would be paid to acquire the asset or assume a liability ("entry price"). We categorize financial instruments carried at fair value into a three-level fair value hierarchy, based on the priority of inputs to the respective valuation technique, along with net asset value. The three-level hierarchy for fair value measurement is defined as follows:

*Level 1* – Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

*Level 2* – Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads, and yield curves.

*Level 3* – Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date based on the best information available in the circumstances.

*Net Asset Value ("NAV")* – Certain equity investments are measured using NAV as a practical expedient in determining fair value. In addition, our unconsolidated affiliates (primarily limited partnerships) are primarily accounted for using the equity method of accounting with fair value determined using NAV as a practical expedient. Our carrying value reflects our pro rata ownership percentage as indicated by NAV in the unconsolidated affiliate's financial statements, which we may adjust if we determine NAV is not calculated consistent with investment company fair value principles. The underlying investments of the unconsolidated affiliates may have significant unobservable inputs, which may include, but are not limited to, comparable multiples and weighted average cost of capital rates applied in valuation models or a discounted cash flow model. Additionally, management inquires quarterly with the general partner to determine whether any credit or other market events have occurred since prior period financial statements to ensure any material events are properly included in current period valuation and investment income.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

When a determination is made to classify an asset or liability within Level 3 of the fair value hierarchy, the determination is based upon the significance of the unobservable inputs to the overall fair value measurement. Because certain securities trade in less liquid or illiquid markets with limited or no pricing information, the determination of fair value for these securities is inherently more difficult. In addition to the unobservable inputs, Level 3 fair value investments may include observable components, which are components that are actively quoted or can be validated to market-based sources.

Our assets and liabilities measured at fair value on a recurring basis, summarized according to the hierarchy previously described, are as follows (in millions):

	June 30, 2024				
	Level 1	Level 2	Level 3	NAV	Fair Value
<b>Assets</b>					
Cash and cash equivalents	\$ 3,526	\$ —	\$ —	\$ —	\$ 3,526

### Valuation Methodologies

#### Cash and Cash Equivalents

The carrying amounts reported in the unaudited Condensed Consolidated Balance Sheets for these instruments approximate fair value.

#### Fixed Maturity, Preferred and Equity Securities

We measure the fair value of our securities based on assumptions used by market participants in pricing the security. The most appropriate valuation methodology is selected based on the specific characteristics of the fixed maturity, preferred or equity security, and we will then consistently apply the valuation methodology to measure the security's fair value. Our fair value measurement is based on a market approach, which utilizes prices and other relevant information generated by market transactions involving identical or comparable securities. Sources of inputs to the market approach include third-party pricing services, independent broker quotations, or pricing matrices. We use observable and unobservable inputs in our valuation methodologies. Observable inputs include benchmark yields, reported trades, broker-dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data including market research publications. In addition, market indicators and industry and economic events are monitored and further market data will be acquired when certain thresholds are met.

For certain security types, additional inputs may be used, or some of the inputs described above may not be applicable. The significant input used in the fair value measurement of equity securities for which the market approach valuation technique is employed is yield for comparable securities. Increases or decreases in the yields would result in lower or higher, respectively, fair value measurements. For broker-quoted only securities, quotes from market makers or broker-dealers are obtained from sources recognized to be market participants. We believe

the broker quotes are prices at which trades could be executed based on historical trades executed at broker-quoted or slightly higher prices.

We analyze the third-party valuation methodologies and related inputs to perform assessments to determine the appropriate level within the fair value hierarchy. However, we did not adjust prices received from third parties as of June 30, 2024 or December 31, 2023.

Certain equity investments are measured using NAV as a practical expedient in determining fair value.

#### *Derivative Financial Instruments*

Our call options and put options (together referred to as "equity options"), futures contracts, and interest rate swaps can either be exchange traded or over the counter. Exchange traded derivatives typically fall within Level 1 of the fair value hierarchy if there is active trading activity. Two methods are used to value over-the-counter derivatives. When required inputs are available, certain derivatives are valued using valuation pricing models, which represent what we would expect to receive or pay at the balance sheet date if we cancelled or exercised the derivative, or entered into offsetting positions. Valuation models require a variety of inputs, which include the use of market-observable inputs, including interest rate, yield curve volatilities, and other factors. These over-the-counter derivatives are typically classified within Level 2 of the fair value hierarchy as the majority trade in liquid markets, we can verify model inputs and model selection does not involve significant management judgment. When inputs aren't available for valuation models, certain over-the-counter derivatives are valued using independent broker quotes, which are based on unobservable market data and classified within Level 3.

The fair value of the reinsurance-related embedded derivatives in our funds withheld reinsurance agreements are estimated based upon the fair value of the assets supporting the funds withheld from reinsurance liabilities. The fair value of the assets is based on a quoted market price of similar assets (Level 2), and therefore the fair value of the embedded derivative is based on market-observable inputs and classified as Level 2.

The fair value measurement of the indexed annuities/IUL embedded derivatives included in contractholder funds is determined through a combination of market observable information and significant unobservable inputs using the option budget method. The market observable inputs are the market value of option and treasury rates. The significant unobservable inputs are the budgeted option cost (i.e., the expected cost to purchase equity options in future periods to fund the equity indexed linked feature), surrender rates, mortality multiplier and non-performance spread. The mortality multiplier at June 30, 2024 and December 31, 2023 was applied to the 2012 Individual Annuity mortality tables. Increases or decreases in the market value of an option in isolation would result in a higher or lower, respectively, fair value measurement. Increases or decreases in treasury rates, mortality multiplier, surrender rates, or non-performance spread in isolation would result in a lower or higher fair value measurement, respectively. Generally, a change in any one unobservable input would not directly result in a change in any other unobservable input.

#### *Investments in Unconsolidated affiliates*

We have elected the fair value option ("FVO") for certain investments in unconsolidated affiliates as we believe this better aligns them with other investments in unconsolidated affiliates that are measured using NAV as a practical expedient in determining fair value. Investments measured using the FVO are included in Level 3 and the fair value of these investments are determined using either a multiple of the affiliates' EBITDA, which is derived from market analysis of transactions involving comparable companies, or an adjusted transaction value, which contemplates measures such as EBITDA margins, revenue growth over certain time periods, growth opportunities and marketability. The fair values are based on the affiliates' financial information. The inputs are usually considered unobservable, as not all market participants have access to this data.

#### *Short-term Investments*

The carrying amounts reported in the unaudited Condensed Consolidated Balance Sheets for these instruments approximate fair value.

#### *Other Long-term Investments*

We hold a fund-linked note, which provides for an additional payment at maturity based on the value of an embedded derivative based on the actual return of a dedicated return fund. Fair value of the embedded derivative is based on an unobservable input, the NAV of the fund at the balance sheet date. The embedded derivative is similar to a equity option on the net asset value of the fund with a strike price of zero since we will not be required to make any additional payments at maturity of the fund-linked note in order to receive the NAV of the fund on the maturity date. A Black-Scholes model determines the NAV of the fund as the fair value of the equity option regardless of the values used for the other inputs to the option pricing model. The NAV of the fund is provided by the fund manager at the end of each calendar month and represents the value an investor would receive if it withdrew its investment on the balance sheet date. Therefore, the key unobservable input used in the Black-Scholes model is the value of the fund. As the value of the fund increases or decreases, the fair value of the embedded derivative will increase or decrease. See further discussion on the available-for-sale embedded derivative in Note D - *Derivative Financial Instruments*.

The fair value of the credit-linked note is based on a weighted average of a broker quote and a discounted cash flow analysis. The discounted cash flow approach is based on the expected portfolio cash flows and amortization schedule reflecting investment expectations, adjusted for assumptions on the portfolio's default and recovery rates, and the note's discount rate. The fair value of the note is provided by the fund manager at the end of each quarter.

#### *Contingent Consideration*

The contingent consideration liability is measured at fair value using a discounted cash flow model applied using a Monte Carlo simulation of estimated EBITDA at each measurement period and for each simulated path relative to contractual EBITDA milestones. The Monte Carlo simulation utilizes a risk-adjusted discount rate, volatility assumption, and risk-free rates to assess the probability Roar's EBITDA trajectory reaches required milestones for the earn out payments to be made. The discounted cash flow approach applies a company-specific discount rate based on F&G credit profile to future expected earn out payments to calculate the estimated fair value based on the average outcome from the simulation. See further discussion on the contingent consideration in Note N - *Commitments and Contingencies*.

#### *Market Risk Benefits ("MRB")*

MRBs are measured at fair value using an attributed fee measurement approach where attributed fees are explicit rider charges collectible from the policyholder used to cover the excess benefits. The fair value is calculated using a risk neutral valuation method and is based on current net amounts at risk, market data, internal and industry experience, and other factors. The balances are computed using assumptions including mortality, full and partial surrender, rider benefit utilization, risk-free rates including non-performance spread and risk margin, market value of options and economic scenarios. Policyholder behavior assumptions are reviewed at least annually, typically in the third quarter, for any revisions. See further discussion on MRBs in Note G - *Market Risk Benefits*.

Quantitative information regarding significant unobservable inputs used for recurring Level 3 fair value measurements of financial instruments carried at fair value as of June 30, 2024 and December 31, 2023, excluding assets and liabilities for which significant quantitative unobservable inputs are not developed internally and not readily available to the Company (primarily those valued using broker quotes and certain third-party pricing services), are as follows (in millions):

	Fair Value at			Range (Weighted average)
	June 30, 2024	Valuation Technique	Unobservable Input(s)	
<b>Assets</b>				
Asset-backed securities	\$ 86	Third-Party Valuation	Discount Rate	5.44% - 7.16% (6.32%)
Corporates	739	Third-Party Valuation	Discount Rate	4.13% - 18.41% (7.27%)

#### **Valuation Methodologies and Associated Inputs for Financial Instruments Not Carried at Fair Value**

The following discussion outlines the methodologies and assumptions used to determine the fair value of our financial instruments not carried at fair value. Considerable judgment is required to develop these assumptions used to measure fair value. Accordingly, the estimates shown are not necessarily indicative of the amounts that would be realized in a one-time, current market exchange of all of our financial instruments.

#### *Mortgage Loans*

The fair value of mortgage loans is established using a discounted cash flow method based on internal credit rating, maturity and future income. This yield-based approach is sourced from our third-party vendor. The internal ratings for mortgages in good standing are based on property type, location, market conditions, occupancy, debt service coverage, loan-to-value, quality of tenancy, borrower, and payment record. The inputs used to measure the fair value of our mortgage loans are classified as Level 3 within the fair value hierarchy.

#### *Investments in Unconsolidated affiliates*

The fair value of investments in unconsolidated affiliates is primarily determined using NAV as a practical expedient. Recognition of income and adjustments to the carrying amount are delayed due to the availability of the related financial statements, which are obtained from the general partner typically on a one to three-month delay.

#### *Policy Loans (included within Other long-term investments)*

Policy loans are reported at the unpaid principal balance and are fully collateralized by the cash surrender value of underlying insurance policies. The carrying value of the policy loans approximates the fair value and are classified as Level 3 in the fair value hierarchy.

#### *Company Owned Life Insurance*

Company owned life insurance ("COLI") is a life insurance program used to finance certain employee benefit expenses. The fair value of COLI is based on net realizable value, which is generally cash surrender value. COLI is classified as Level 3 within the fair value hierarchy.

#### *Investment Contracts*

Investment contracts include deferred annuities (indexed annuities and fixed rate annuities), IUL policies, funding agreements and PRT and immediate annuity contracts without life contingencies. The indexed annuities/IUL embedded derivatives, included in contractholder funds, are excluded as they are carried at fair value. The fair value of the deferred annuities (indexed annuities and fixed rate annuities) and IUL contracts is based on their cash surrender value (i.e., the cost the Company would incur to extinguish the liability) as these contracts are generally issued without an annuitization date. The fair value of funding agreements and PRT and immediate annuity contracts without life contingencies is derived by calculating a new fair value interest rate using the updated yield curve and treasury spreads as of the respective reporting date. The Company is not required to, and has not, estimated the fair value of the liabilities under contracts that involve significant mortality or morbidity risks, as these liabilities fall within the definition of insurance contracts that are exceptions from financial instruments that require disclosures of fair value.

#### *Other*

Federal Home Loan Bank of Atlanta ("FHLB") common stock is carried at cost, which approximates fair value. The carrying amount of FHLB common stock represents the value it can be sold back to the FHLB and is classified as Level 2 within the hierarchy.

#### *Debt*

The fair value of debt, with the exception of the Revolving Credit Facility, is based on quoted market prices of debt with similar credit risk and tenor. The inputs used to measure the fair value of these debts results in a Level 2 classification within the fair value hierarchy.

The carrying value of the revolving credit facility approximates fair value as the rates are comparable to those at which we could currently borrow under similar terms. As such, the fair value of the revolving credit facility was classified as a Level 2 measurement.

The following tables provide the carrying value and estimated fair value of our financial instruments that are carried on the unaudited Condensed Consolidated Balance Sheets at amounts other than fair value, summarized according to the fair value hierarchy previously described (in millions).

	June 30, 2024						Total Estimated

For investments for which NAV is used, we do not have any significant restrictions in our ability to liquidate our positions in these investments, other than obtaining general partner approval, nor do we believe it is probable a price less than NAV would be received in the event of a liquidation.

We review the fair value hierarchy classifications each reporting period. Changes in the observability of the valuation attributes may result in a reclassification of certain financial assets or liabilities. Such reclassifications are reported as transfers in and out of Level 3, or between other levels, at the beginning fair value for the reporting period in which the changes occur. The transfers into and out of Level 3 were related to changes in the primary pricing source and changes in the observability of external information used in determining the fair value.

## Note C — Investments

Our investments in fixed maturity securities have been designated as available-for-sale ("AFS") and are carried at fair value, net of allowance for expected credit losses, with unrealized gains and losses included within AOCI, net of deferred income taxes. Our preferred and equity securities investments are carried at fair value with unrealized gains and losses included in net earnings. The Company's consolidated investments are summarized as follows (in millions):

	June 30, 2024

As of June 30, 2024 and December 31, 2023, the Company held \$ 53 million and \$47 million, respectively, of investments that were non-income producing for a period greater than twelve months.

As of June 30, 2024 and December 31, 2023, the Company's accrued interest receivable balance was \$ 523 million and \$469 million, respectively. Accrued interest receivable is classified within Prepaid expenses and other assets within the unaudited Condensed Consolidated Balance Sheets.

In accordance with our FHLB agreements, the investments supporting the funding agreement liabilities are pledged as collateral to secure the FHLB funding agreement liabilities and are not available to us for general purposes. The collateral investments had a fair value of \$4,886 million and \$4,345 million as of June 30, 2024 and December 31, 2023, respectively.

The amortized cost and fair value of fixed maturity securities by contractual maturities, as applicable, are shown below (in millions). Actual maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations.

#### **Allowance for Current Expected Credit Loss**

We regularly review AFS securities for declines in fair value that we determine to be credit related. For our fixed maturity securities, we generally consider the following in determining whether our unrealized losses are credit related, and if so, the magnitude of the credit loss:

- The extent to which the fair value is less than the amortized cost basis;
- The reasons for the decline in value (credit event, currency or interest-rate related, including general credit spread widening);
- The financial condition of and near-term prospects of the issuer (including issuer's current credit rating and the probability of full recovery of principal based upon the issuer's financial strength);
- Current delinquencies and nonperforming assets of underlying collateral;
- Expected future default rates;
- Collateral value by vintage, geographic region, industry concentration or property type;
- Subordination levels or other credit enhancements as of the balance sheet date as compared to origination; and
- Contractual and regulatory cash obligations and the issuer's plans to meet such obligations.

We recognize an allowance for current expected credit losses on fixed maturity securities in an unrealized loss position when it is determined, using the factors discussed above, a component of the unrealized loss is related to credit. We measure the credit loss using a discounted cash flow model that utilizes the single best estimate cash flow and the recognized credit loss is limited to the total unrealized loss on the security (i.e., the fair value floor). Cash flows are discounted using the implicit yield of bonds at their time of purchase and the current book yield for asset and mortgage-backed securities as well as variable rate securities. We recognize the expected credit losses in Recognized gains and (losses), net in the unaudited Condensed Consolidated Statements of Operations, with an offset for the amount of non-credit impairments recognized in AOCI. We do not measure a credit loss allowance on accrued investment income because we write-off accrued interest through Interest and investment income when collectability concerns arise.

We consider the following in determining whether write-offs of a security's amortized cost are necessary:

- We believe amounts related to securities have become uncollectible;
- We intend to sell a security; or
- It is more likely than not that we will be required to sell a security prior to recovery.

If we intend to sell a fixed maturity security or it is more likely than not that we will be required to sell the security before recovery of its amortized cost basis and the fair value of the security is below amortized cost, we will write down the security to current fair value, with a corresponding charge, net of any amount previously recognized as an allowance for expected credit loss, to Recognized gains and (losses), net in the accompanying unaudited Condensed Consolidated Statements of Operations. If we do not intend to sell a fixed maturity security or it is more likely than not that we will not be required to sell a fixed maturity security before recovery of its amortized cost basis but believe amounts related to a security are uncollectible, an impairment is deemed to have occurred and the amortized cost is written down to the estimated recovery value with a corresponding charge, net of any amount previously recognized as an allowance for expected credit loss, to Recognized gains and (losses), net in the accompanying unaudited Condensed Consolidated Statements of Operations. The remainder of unrealized loss is held in other comprehensive income in the accompanying unaudited Condensed Consolidated Statements of Equity.

The activity in the allowance for expected credit losses of AFS securities aggregated by investment category was as follows (in millions):

(a) Purchased credit deteriorated financial assets ("PCD")

PCDs are AFS securities purchased at a discount, where part of that discount is attributable to credit. Credit loss allowances are calculated for these securities as of the date of their acquisition, with the initial allowance serving to increase amortized cost. There were no purchases of PCD AFS securities during the six months ended June 30, 2024 or for the year ended December 31, 2023.

The fair value and gross unrealized losses of AFS securities, excluding securities in an unrealized loss position with an allowance for expected credit loss, aggregated by investment category and duration of fair value below amortized cost as of June 30, 2024 and December 31, 2023 were as follows (dollars in millions):

	June 30, 2024

<b>Total AFS securities</b>	<b>\$ 5,594</b>	<b>\$ (293)</b>	<b>\$ 19,711</b>	<b>\$ (3,242)</b>	<b>\$ 25,305</b>	<b>\$ (3,535)</b>
Total number of AFS securities in an unrealized loss position less than twelve months						927
Total number of AFS securities in an unrealized loss position twelve months or longer						2,602
Total number of AFS securities in an unrealized loss position						3,529

We determined the unrealized losses were caused by higher treasury rates compared to those at the time of the FNF acquisition or the purchase of the security if later. For securities in an unrealized loss position as of June 30, 2024, our allowance for expected credit loss was \$58 million. We believe the unrealized loss position for which we have not recorded an allowance for expected credit loss as of June 30, 2024 was primarily attributable to interest rate increases, near-term illiquidity, and other macroeconomic uncertainties as opposed to issuer specific credit concerns.

#### Mortgage Loans

Our mortgage loans are collateralized by commercial and residential properties.

### Commercial Mortgage Loans

Commercial mortgage loans ("CMLs") represented approximately 5% of our total investments as of June 30, 2024 and December 31, 2023. The mortgage loans in our investment portfolio, are generally comprised of high quality commercial first lien and mezzanine real estate loans. Mortgage loans are primarily on income producing properties including industrial properties, retail buildings, multifamily properties and office buildings. We diversify our CML portfolio by geographic region and property type to attempt to reduce concentration risk. We continuously evaluate CMLs based on relevant current information to ensure properties are performing at a consistent and acceptable level to secure the related debt. The distribution of CMLs, gross of valuation allowances, by property type and geographic region is reflected in the following tables (dollars in millions):

	June 30, 2024		December 31, 2023

(a) Excludes loans under development with an amortized cost and estimated fair value of \$22 million.

Loan-to-value ("LTV") and debt service coverage ("DSC") ratios are measures commonly used to assess the risk and quality of mortgage loans. The LTV ratio is expressed as a percentage of the amount of the loan relative to the value of the underlying property. A LTV ratio in excess of 100% indicates the unpaid loan amount exceeds the underlying collateral. The DSC ratio, based upon the most recently received financial statements, is expressed as a percentage of the amount of a property's net income to its debt service payments. A DSC ratio of less than 1.00 indicates that a property's operations do not generate sufficient income to cover debt payments. We normalize our DSC ratios to a 25-year amortization period for purposes of our general loan allowance evaluation.

The following tables present the recorded investment in CMLs by LTV and DSC ratio categories and estimated fair value by the indicated loan-to-value ratios, gross of valuation allowances at June 30, 2024 and December 31, 2023 (dollars in millions):

(a) Excludes loans under development with an amortized cost and estimated fair value of \$22 million.

We recognize a mortgage loan as delinquent when payments on the loan are greater than 30 days past due. At June 30, 2024 and December 31, 2023 we had no CMLs that were delinquent in principal or interest payments as shown in the risk rating exposure table above.

### Residential Mortgage Loans

Residential mortgage loans ("RMLs") represented approximately 5% of our total investments as of June 30, 2024 and December 31, 2023. Our RMLs are primarily closed end, amortizing loans and 100% of the properties are located in the United States. We diversify our RML portfolio by state to attempt to reduce concentration risk. The distribution of RMLs by state with highest-to-lowest concentration are reflected in the following tables, gross of valuation allowances (dollars in millions):

	June 30, 2024	
	Amortized Cost	% of Total
<b>U.S. State:</b>		
Florida	\$ 157	5 %
California	137	5 %
All other states (a)	2,635	90 %
<b>Total RMLs, gross of valuation allowance</b>	<b>2,929</b>	<b>100 %</b>
Allowance for expected credit loss	(50)	
<b>Total RMLs, net of valuation allowance</b>	<b>\$ 2,879</b>	

(a) The individual concentration of each state is equal to or less than 5% as of June 30, 2024.

	December 31, 2023	
	Amortized Cost	% of Total
<b>U.S. State:</b>		
Florida	\$ 163	6 %
New York	129	5 %
Texas	129	5 %
All other states (a)	2,431	84 %
<b>Total RMLs, gross of valuation allowance</b>	<b>2,852</b>	<b>100 %</b>
Allowance for expected credit loss	(54)	
<b>Total RMLs, net of valuation allowance</b>	<b>\$ 2,798</b>	

(a) The individual concentration of each state is equal to or less than 5% as of December 31, 2023.

RMLs have a primary credit quality indicator of either a performing or nonperforming loan. We define non-performing residential mortgage loans as those that are 90 or more days past due or in non-accrual status, which is assessed monthly. The credit quality of RMLs as of June 30, 2024 and December 31, 2023, was as follows (dollars in millions):

Performance indicators:	June 30, 2024		December 31, 2023	
	Amortized Cost	% of Total	Amortized Cost	% of Total
Performing	\$ 2,867	98 %	\$ 2,795	98 %
Non-performing	62	2 %	57	2 %
<b>Total RMLs, gross of valuation allowance</b>	<b>2,929</b>	<b>100 %</b>	<b>2,852</b>	<b>100 %</b>
Allowance for expected loan loss	(50)		(54)	
<b>Total RMLs, net of valuation allowance</b>	<b>\$ 2,879</b>		<b>\$ 2,798</b>	

There were no charge offs recorded by RMLs during the six months ended June 30, 2024 or during the year ended December 31, 2023. RMLs segregated by aging of the loans (by year of origination) as of June 30, 2024 and December 31, 2023, were as follows, gross of valuation allowances (in millions):

	June 30, 2024						
	Amortized Cost by Origination Year						
	2024	2023	2022	2021	2020	Prior	Total
Current (less than 30 days past due)	\$ 142	\$ 374	\$ 964	\$ 836	\$ 181	\$ 330	\$ 2,827
30-89 days past due	—	4	7	17	2	10	40
90 days or more past due	—	—	10	18	11	23	62
<b>Total RML mortgages</b>	<b>\$ 142</b>	<b>\$ 378</b>	<b>\$ 981</b>	<b>\$ 871</b>	<b>\$ 194</b>	<b>\$ 363</b>	<b>\$ 2,929</b>

	December 31, 2023							
	Amortized Cost by Origination Year							
	2023	2022	2021	2020	2019	Prior	Total	
Current (less than 30 days past due)	\$ 373	\$ 985	\$ 854	\$ 192	\$ 183	\$ 192	\$ 2,779	
30-89 days past due	—	4	7	3	—	2	16	
90 days or more past due	—	6	16	13	21	1	57	
<b>Total RML mortgages</b>	<b>\$ 373</b>	<b>\$ 995</b>	<b>\$ 877</b>	<b>\$ 208</b>	<b>\$ 204</b>	<b>\$ 195</b>	<b>\$ 2,852</b>	

Non-accrual loans by amortized cost as of June 30, 2024 and December 31, 2023, were as follows (in millions):

Amortized cost of loans on non-accrual	June 30, 2024	December 31, 2023
	\$ 62	\$ 57
Residential mortgage:	—	—
Commercial mortgage:	—	—
<b>Total non-accrual mortgages</b>	<b>\$ 62</b>	<b>\$ 57</b>

Immaterial interest income was recognized on non-accrual financing receivables for the three and six months ended June 30, 2024 and June 30, 2023.

It is our policy to cease to accrue interest on loans that are delinquent for 90 days or more. For loans less than 90 days delinquent, interest is accrued unless it is determined that the accrued interest is not collectible. If a loan becomes 90 days or more delinquent, it is our general policy to initiate foreclosure proceedings unless a workout arrangement to bring the loan current is in place. As of June 30, 2024 and December 31, 2023, we had \$62 million and \$57 million respectively, of mortgage loans that were over 90 days past due.

As of June 30, 2024 and December 31, 2023, we had \$ 63 million and \$41 million, respectively, of residential mortgage loans that were in the process of foreclosure.

#### Allowance for Expected Credit Loss

We estimate expected credit losses for our commercial and residential mortgage loan portfolios using a probability of default/loss given default model. Significant inputs to this model include, where applicable, the loans' current performance, underlying collateral type, location, contractual life, LTV, DSC and Debt to Income or FICO. The model projects losses using a two-year reasonable and supportable forecast and then reverts over a three-year period to market-wide historical loss experience. Changes in our allowance for expected credit losses on mortgage loans are recognized in Recognized gains and (losses), net in the accompanying unaudited Condensed Consolidated Statements of Operations.

The allowances for our mortgage loan portfolio are summarized as follows (in millions):

	Three months ended June 30, 2024			Six months ended June 30, 2024		
	Residential Mortgage	Commercial Mortgage	Total	Residential Mortgage	Commercial Mortgage	Total
	\$ (54)	\$ (13)	\$ (67)	\$ (54)	\$ (12)	\$ (66)
<b>Beginning Balance</b>						
Provision (expense) benefit for loan losses	4	(1)	3	4	(2)	2
<b>Ending Balance</b>	<b>\$ (50)</b>	<b>\$ (14)</b>	<b>\$ (64)</b>	<b>\$ (50)</b>	<b>\$ (14)</b>	<b>\$ (64)</b>

	Three months ended June 30, 2023			Six months ended June 30, 2023		
	Residential Mortgage	Commercial Mortgage	Total	Residential Mortgage	Commercial Mortgage	Total
	\$ (48)	\$ (12)	\$ (60)	\$ (32)	\$ (10)	\$ (42)
<b>Beginning Balance</b>						
Provision (expense) benefit for loan losses	(3)	(1)	(4)	(19)	(3)	(22)
<b>Ending Balance</b>	<b>\$ (51)</b>	<b>\$ (13)</b>	<b>\$ (64)</b>	<b>\$ (51)</b>	<b>\$ (13)</b>	<b>\$ (64)</b>

An allowance for expected credit loss is not measured on accrued interest income for commercial mortgage loans as we have a process to write-off interest on loans that enter into non-accrual status (90 days or more past due). Allowances for expected credit losses are measured on accrued interest income for residential mortgage loans and were immaterial for the three and six months ended June 30, 2024 and June 30, 2023.

#### Interest and Investment Income

The major sources of Interest and investment income reported on the accompanying unaudited Condensed Consolidated Statements of Operations were as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Fixed maturity securities, available-for-sale	\$ 542	\$ 448	\$ 1,058	\$ 880
Equity securities	5	4	11	9
Preferred securities	7	12	13	22
Mortgage loans	65	57	131	108
Invested cash and short-term investments	34	17	62	33
Limited partnerships	97	44	151	101
Other investments	6	5	16	14
Gross investment income	756	587	1,442	1,167
Investment expense	(72)	(62)	(142)	(123)
<b>Interest and investment income</b>	<b>\$ 684</b>	<b>\$ 525</b>	<b>\$ 1,300</b>	<b>\$ 1,044</b>

Interest and investment income is shown net of amounts attributable to certain funds withheld reinsurance agreements which is passed along to the reinsurer in accordance with the terms of these agreements. Interest and investment income attributable to these agreements, and thus excluded from the totals in the table above, was \$155 million and \$282 million for the three and six months ended June 30, 2024, respectively, and \$ 76 million and \$134 million for the three and six months ended June 30, 2023, respectively.

#### Recognized Gains and (Losses), Net

Details underlying Recognized gains and (losses), net reported on the accompanying unaudited Condensed Consolidated Statements of Operations were as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Net realized gains (losses) on fixed maturity available-for-sale securities	\$ 23	\$ (52)	\$ 4	\$ (96)
Net realized/unrealized gains on equity securities (a)	9	3	8	8
Net realized/unrealized gains (losses) on preferred securities (b)	(2)	5	8	(4)
Net realized/unrealized gains on other invested assets	7	15	65	15
Change in allowance for expected credit losses	(23)	(21)	(23)	(29)
Derivatives and embedded derivatives:				
Realized gains (losses) on certain derivative instruments	14	(65)	35	(154)
Unrealized gains (losses) on certain derivative instruments	(55)	164	103	311
Change in fair value of reinsurance related embedded derivatives (c)	10	17	(8)	(2)
Change in fair value of other derivatives and embedded derivatives	—	1	3	3
Realized gains (losses) on derivatives and embedded derivatives	(31)	117	133	158
<b>Recognized gains and (losses), net</b>	<b>\$ (17)</b>	<b>\$ 67</b>	<b>\$ 195</b>	<b>\$ 52</b>

(a) Includes net valuation gains of \$9 million and \$3 million for the three months ended June 30, 2024 and June 30, 2023, respectively, and net valuation gains of \$8 million and \$8 million for the six months ended June 30, 2024 and June 30, 2023, respectively.

(b) Includes net valuation (losses) gains of \$(1) million and \$19 million for the three months ended June 30, 2024 and June 30, 2023, respectively, and net valuation gains of \$8 million and \$44 million for the six months ended June 30, 2024 and June 30, 2023, respectively.

(c) Change in fair value of reinsurance related embedded derivatives is due to activity related to reinsurance treaties.

Recognized gains and (losses), net is shown net of amounts attributable to certain funds withheld reinsurance agreements which are passed along to the reinsurer in accordance with the terms of these agreements. Recognized gains and (losses) attributable to these agreements, and thus excluded from the totals in the table above, were \$10 million and \$(9) million for the three and six months ended June 30, 2024, respectively, and \$ 21 million and \$(1) million for the three and six months ended June 30, 2023.

The proceeds from the sale of fixed-maturity securities and the gross gains and losses associated with those transactions were as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Proceeds	\$ 577	\$ 608	\$ 1,155	\$ 1,053
Gross gains	10	2	18	5
Gross losses	(8)	(30)	(32)	(79)

#### Unconsolidated Variable Interest Entities

We own investments in variable interest entities ("VIEs") that are not consolidated within our financial statements. A VIE is an entity that does not have sufficient equity to finance its own activities without additional financial support, where investors lack certain characteristics of a controlling financial interest, or where the entity is structured with non-substantive voting rights. VIEs are consolidated by their 'primary beneficiary', a designation given to an entity that receives both the benefits from the VIE as well as the substantive power to make its key economic decisions. While we participate in the benefits from VIEs in which we invest, but do not consolidate, the substantive power to make the key economic decisions for each respective VIE resides with entities not under our common control. It is for this reason that we are not considered the primary beneficiary for the VIE investments that are not consolidated.

We invest in various limited partnerships and limited liability companies primarily as a passive investor. These investments are primarily in credit funds with a bias towards current income, real assets, or private equity. Limited partnership and limited liability company interests are accounted for under the equity method and are included in Investments in unconsolidated affiliates on our unaudited Condensed Consolidated Balance Sheets. In addition, we invest in structured investments, which may be VIEs, but for which we are not the primary beneficiary. These structured investments typically invest in fixed income investments and are managed by third parties and include asset-backed securities, commercial mortgage-backed securities and residential mortgage-backed securities included in fixed maturity securities available for sale on our unaudited Condensed Consolidated Balance Sheets.

Our maximum loss exposure with respect to these VIEs is limited to the investment carrying amounts reported in our unaudited Condensed Consolidated Balance Sheets for limited partnerships and the amortized costs of our fixed maturity securities, in addition to any required unfunded commitments (also refer to Note N - *Commitments and Contingencies*).

The following table summarizes the carrying value and the maximum loss exposure of our unconsolidated VIEs as of June 30, 2024 and December 31, 2023 (in millions):

	June 30, 2024		December 31, 2023	
	Carrying Value	Maximum Loss	Carrying Value	Maximum Loss
		Exposure		Exposure
Investment in unconsolidated affiliates	\$ 3,705	\$ 5,381	\$ 3,071	\$ 4,806
Fixed maturity securities	22,599	24,323	20,837	22,346
<b>Total unconsolidated VIE investments</b>	<b>\$ 26,304</b>	<b>\$ 29,704</b>	<b>\$ 23,908</b>	<b>\$ 27,152</b>

## Concentrations

Our underlying investment concentrations that exceed 10% of shareholders equity are as follows (in millions):

	June 30, 2024	December 31, 2023
Blackstone Wave Asset Holdco (a)	\$ 736	\$ 725
ELBA (b)	459	463
COLI (c)	—	324

- (a) Represents a special purpose vehicle that holds investments in numerous limited partnership investments whose underlying investments are further diversified by holding interest in multiple individual investments and industries.
- (b) Represents special purpose vehicles that hold an underlying minority ownership interest in a single operating liquified natural gas export facility.
- (c) Investment did not exceed 10% of shareholder's equity as of June 30, 2024.

## Note D — Derivative Financial Instruments

The carrying amounts of derivative instruments, including derivative instruments embedded in indexed annuities and IUL contracts, and reinsurance is as follows (in millions):

	June 30, 2024	December 31, 2023
<b>Assets:</b>		
Derivative investments:		
Equity options	\$ 1,024	\$ 739
Interest rate swaps	7	57
Other derivative investments	1	1
Other long-term investments:		
Other embedded derivatives	31	28
Prepaid expenses and other assets:		
Reinsurance related embedded derivatives	144	152
<b>Total</b>	<b>\$ 1,207</b>	<b>\$ 977</b>
<b>Liabilities:</b>		
Contractholder funds:		
Indexed annuities/ IUL embedded derivatives	\$ 4,848	\$ 4,258
Accounts payable and accrued liabilities:		
Interest rate swaps	28	—
<b>Total</b>	<b>\$ 4,876</b>	<b>\$ 4,258</b>

The change in fair value of derivative instruments included within Recognized gains and (losses), net in the accompanying unaudited Condensed Consolidated Statements of Operations is as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
<b>Net investment gains (losses):</b>				
Equity options	\$ (23)	\$ 98	\$ 227	\$ 153

Futures contracts	5	—	11	5
Other derivative investments	2	—	5	(1)
Other embedded derivatives	—	2	3	3
Reinsurance related embedded derivatives	10	17	(8)	(2)
<b>Total net investment gains</b>	<b>\$ (31)</b>	<b>\$ 117</b>	<b>\$ 133</b>	<b>\$ 158</b>
<b>Benefits and other changes in policy reserves:</b>				
Indexed annuities/ IUL embedded derivatives increase	\$ 169	\$ 252	\$ 590	\$ 706

#### **Additional Disclosures**

See descriptions of the fair value methodologies used for derivative financial instruments in Note B - *Fair Value of Financial Instruments*.

##### *Indexed Annuities/IUL Embedded Derivative, Equity Options and Futures*

We have indexed annuities and IUL contracts that permit the holder to elect an interest rate return or an equity index linked component, where interest credited to the contracts is linked to the performance of various equity indices, for example the S&P 500 Index. This feature represents an embedded derivative under GAAP. The indexed annuities/IUL embedded derivatives are valued at fair value and included in the liability for contractholder funds in the accompanying unaudited Condensed Consolidated Balance Sheets with changes in fair value included as a component of Benefits and other changes in policy reserves in the unaudited Condensed Consolidated Statements of Operations.

We purchase derivatives consisting of a combination of equity options and futures contracts (specifically for indexed annuity contracts) on the applicable market indices to fund the index credits due to indexed annuity/IUL contractholders. The equity options are one, two, three, five, and six year options purchased to match the funding requirements of the underlying policies. On the respective anniversary dates of the indexed policies, the index used to compute the interest credit is reset and we purchase new equity options to fund the next index credit. We manage the cost of these purchases through the terms of our indexed annuities/IUL contracts, which permit us to change caps, spreads or participation rates, subject to guaranteed minimums, on each contract's anniversary date. The change in the fair value of the equity options and futures contracts is generally designed to offset the portion of the change in the fair value of the indexed annuities/IUL embedded derivatives related to index performance through the current credit period. The equity options and futures contracts are marked to fair value with the change in fair value included as a component of Recognized gains and (losses), net, in the accompanying unaudited Condensed Consolidated Statements of Operations. The change in fair value of the equity options and futures contracts includes the gains and losses recognized at the expiration of the instrument term or upon early termination and the changes in fair value of open positions.

Other market exposures are hedged periodically depending on market conditions and our risk tolerance. Our indexed annuities/IUL hedging strategy economically hedges the equity returns and exposes us to the risk that unhedged market exposures result in divergence between changes in the fair value of the liabilities and the hedging assets. We use a variety of techniques, including direct estimation of market sensitivities, to monitor this risk daily. We intend to continue to adjust the hedging strategy as market conditions and our risk tolerance changes.

##### *Interest Rate Swaps*

We utilize interest rate swaps to reduce market risks from interest rate changes on our earnings associated with our floating rate investments. With an interest rate swap, we agree with another party to exchange the difference between fixed-rate and floating-rate interest amounts tied to an agreed upon notional principal at specified intervals. The interest rate swaps are marked to fair value with the change in fair value, including accrued interest and related periodic cash flows received or paid, included as a component of Recognized gains and (losses), net, in the accompanying unaudited Condensed Consolidated Statements of Operations.

##### *Reinsurance Related Embedded Derivatives*

F&G cedes certain business on a coinsurance funds withheld basis. Investment results for the assets that support the coinsurance that are segregated within the funds withheld account are passed directly to the reinsurer pursuant to the contractual terms of the reinsurance agreement, which creates embedded derivatives considered to be total return swaps. These total return swaps are not clearly and closely related to the underlying reinsurance contract and thus require bifurcation. The fair value of the total return swaps is based on the change in fair value of the underlying assets held in the funds withheld account. These embedded derivatives are reported in Prepaid expenses and other assets if in a net gain position, or Accounts payable and accrued liabilities, if in a net loss position on the unaudited

Condensed Consolidated Balance Sheets and the related gains or losses are reported in Recognized gains and (losses), net, on the unaudited Condensed Consolidated Statements of Operations.

#### *Credit Risk*

We are exposed to credit loss in the event of non-performance by our counterparties and reflect assumptions regarding this non-performance risk in the fair value of our derivatives. The non-performance risk is the net counterparty exposure based on the fair value of the open contracts less collateral held. We maintain a policy of requiring all derivative contracts to be governed by an International Swaps and Derivatives Association ("ISDA") Master Agreement.

We manage credit risk related to non-performance by our counterparties by (i) entering into derivative transactions with creditworthy counterparties; (ii) obtaining collateral, such as cash and securities when appropriate; (iii) establishing counterparty exposure limits, which are subject to periodic management review.

Information regarding our exposure to credit loss on the derivative instruments we hold, excluding futures contracts, is presented below (in millions):

	<b>Notional Amount</b>	<b>Fair Value</b>	<b>Collateral</b>	<b>Net Credit Risk</b>
June 30, 2024	\$ 34,353	\$ 1,004	\$ 1,011	\$ 36
December 31, 2023	29,968	796	775	39

#### *Collateral Agreements*

We are required to maintain minimum ratings as a matter of routine practice as part of our over-the-counter derivative agreements on ISDA forms. Under some ISDA agreements, we have agreed to maintain certain financial strength ratings. A downgrade below these levels provides the counterparty under the agreement the right to terminate the open derivative contracts between the parties, at which time any amounts payable by us or the counterparty would be dependent on the market value of the underlying contracts. Our current rating does not allow any counterparty the right to terminate ISDA agreements. In certain transactions, both us and the counterparty have entered into a collateral support agreement requiring either party to post collateral when the net exposures exceed pre-determined thresholds. For all counterparties, except one, this threshold is set to zero. As of June 30, 2024 and December 31, 2023 counterparties posted collateral of \$1,011 million and \$775 million, respectively, of which \$809 million and \$588 million, respectively, is included in Cash and cash equivalents with an associated payable for this collateral included in Accounts payable and accrued liabilities on the unaudited Condensed Consolidated Balance Sheets. Accordingly, the maximum amount of loss due to credit risk that we would incur if parties to the derivatives failed completely to perform according to the terms of the contracts was \$36 million at June 30, 2024 and \$ 39 million at December 31, 2023.

We are required to pay our counterparties the effective federal funds interest rate each day for cash collateral posted to us. Cash collateral is reinvested in overnight investment sweep products, which are included in Cash and cash equivalents in the accompanying unaudited Condensed Consolidated Balance Sheets, to reduce the interest cost.

We held 322 and 439 futures contracts at June 30, 2024 and December 31, 2023, respectively. The fair value of the futures contracts represents the cumulative unsettled variation margin (open trade equity, net of cash settlements). We provide cash collateral to the counterparties for the initial and variation margin on the futures contracts, which is included in Cash and cash equivalents in the accompanying unaudited Condensed Consolidated Balance Sheets. The amount of cash collateral held by the counterparties for such contracts was \$4 million at both June 30, 2024 and December 31, 2023.

#### Note E — Reinsurance

F&G reinsures portions of its policy risks with other insurance companies. The use of indemnity reinsurance does not discharge an insurer from liability on the insurance ceded. The insurer is required to pay in full the amount of its insurance liability regardless of whether it is entitled to or able to receive payment from the reinsurer. The portion of risks exceeding F&G's retention limit is reinsured. F&G primarily seeks reinsurance coverage in order to manage loss exposures, to enhance our capital position, to diversify risks and earnings, and to manage new business volume. F&G follows reinsurance accounting when the treaty adequately transfers insurance risk. Otherwise, F&G follows deposit accounting if there is inadequate transfer of insurance risk or if the underlying policy for which risk is being transferred is an investment contract that does not contain insurance risk.

The effects of reinsurance on net premiums earned and net benefits incurred (benefits paid and reserve changes) for the three and six months ended June 30, 2024 and June 30, 2023 were as follows (in millions):

	Three months ended June 30,				Six months ended June 30,			
	2024		2023		2024		2023	
	Net Premiums Earned	Net Benefits Incurred	Net Premiums Earned	Net Benefits Incurred	Net Premiums Earned	Net Benefits Incurred	Net Premiums Earned	Net Benefits Incurred
Direct	\$ 357	\$ 659	\$ 510	\$ 862	\$ 977	\$ 1,872	\$ 811	\$ 1,734
Ceded	(24)	(51)	(27)	(45)	(48)	(103)	(53)	(105)
Net	\$ 333	\$ 608	\$ 483	\$ 817	\$ 929	\$ 1,769	\$ 758	\$ 1,629

Amounts payable or recoverable for reinsurance on paid and unpaid claims are not subject to periodic or maximum limits. No policies issued by F&G have been reinsured with any foreign company, which is controlled, either directly or indirectly, by a party not primarily engaged in the business of insurance. F&G has not entered into any reinsurance agreements in which the reinsurer may unilaterally cancel any reinsurance for reasons other than non-payment of premiums or other similar credit issues. There have been no significant changes to reinsurance contracts for the three and six months ended June 30, 2024.

The following summarizes our reinsurance recoverable (in millions) as of June 30, 2024 and December 31, 2023:

Parent Company/ Principal Reinsurers	Reinsurance Recoverable (a)		Agreement Type	Products Covered	Accounting
	June 30, 2024	December 31, 2023			
Aspida Life Re Ltd	\$ 6,845	\$ 6,128	Coincurrence Funds Withheld	Certain MYGA (b)	Deposit
Somerset Reinsurance Ltd	1,522	716	Coincurrence Funds Withheld	Certain MYGA (b) and DA	Deposit
Everlake Life Insurance Company	1,107	509	Coincurrence (c)	Certain MYGA (b) (c)	Deposit
Wilton Reassurance Company	1,069	1,092	Coincurrence	Block of traditional, IUL and UL (d)	Reinsurance
Other (e)	509	536			
Reinsurance recoverable, gross of allowance for credit losses	11,052	8,981			
Allowance for expected credit loss	(21)	(21)			
<b>Reinsurance recoverable, net of allowance for credit losses</b>	<b>\$ 11,031</b>	<b>\$ 8,960</b>			

(a) Reinsurance recoverables do not include unearned ceded premiums that would be recovered in the event of early termination of certain traditional life policies.  
 (b) The combined quota share flow reinsurance amongst all reinsurers for 2024 was 90% through May 31, 2024 and decreased to 30% in June, 2024. As of December 31, 2023, the combined quota share flow reinsurance amongst all reinsurers was 90%.  
 (c) Reinsurance recoverable is collateralized by assets placed in a statutory comfort trust by the reinsurer and maintained for our sole benefit.  
 (d) Also includes certain FGL Insurance life insurance policies that are subject to redundant reserves, reported on a statutory basis, under Regulation XXX and Guideline AXXX.  
 (e) Represents all other reinsurers, with no single reinsurer having a carrying value in excess of 5% of total reinsurance recoverable.

F&G incurred risk charge fees of \$ 12 million and \$ 10 million during the three months ended June 30, 2024 and 2023, respectively, and \$ 22 million and \$20 million during the six months ended June 30, 2024, and 2023, respectively, in relation to reinsurance agreements.

#### Credit Losses

F&G estimates expected credit losses on reinsurance recoverables using a probability of default/loss given default model. Significant inputs to the model include the reinsurer's credit risk, expected timing of recovery, industry-wide historical default experience, senior unsecured bond recovery rates, and credit enhancement features.

The expected credit loss reserves were as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Balance at beginning of period	\$ (21)	\$ (9)	\$ (21)	\$ (10)
Changes in the expected credit loss reserve	—	—	—	1
Balance at end of period	<b>\$ (21)</b>	<b>\$ (9)</b>	<b>\$ (21)</b>	<b>\$ (9)</b>

#### Concentration of Reinsurance Risk

As indicated above, F&G has a significant concentration of reinsurance risk with third party reinsurers, ASPIDA Life Re Ltd. ("Aspida Re"), Somerset Reinsurance Ltd. ("Somerset"), Everlake Life Insurance Company ("Everlake"), and Wilton Reinsurance ("Wilton Re") that could have a material impact on our financial position in the event that any of these reinsurers fails to perform its obligations under the various reinsurance treaties. We monitor the financial condition and financial strength of individual reinsurers using public ratings (refer to table below) and ratings reports of individual reinsurers to attempt to reduce the risk of default by such reinsurers. In addition, the risk of non-performance is further mitigated with various forms of collateral or collateral arrangements, including secured trusts, funds withheld accounts and irrevocable letters of credit. We believe that all amounts due

from Aspida Re, Somerset, Everlake, and Wilton Re for periodic treaty settlements, net of any applicable credit loss reserves, are collectible as of June 30, 2024. The following table presents financial strength ratings as of June 30, 2024:

Parent Company/Principal Reinsurers	Financial Strength Rating			
	AM Best	S&P	Fitch	Moody's
Aspida Re	A-	—	—	—
Somerset	A-	BBB+	—	—
Everlake	A	—	—	—
Wilton Re	A+	—	A	—

“—” indicates not rated

#### Note F — Intangibles

The following table reconciles to Other intangible assets, net, on the unaudited Condensed Consolidated Balance Sheets as of June 30, 2024 and December 31, 2023 (in millions):

	June 30, 2024	December 31, 2023
Value of business acquired (“VOBA”)	\$ 1,429	\$ 1,446
Deferred acquisition costs (“DAC”)	2,653	2,215
Deferred sales inducements (“DSI”)	450	346
Value of distribution asset	80	86
Computer software	70	65
Definite lived trademarks, tradenames, and other	100	41
Indefinite lived tradenames and other	8	8
Customer relationships	162	—
<b>Total Other intangible assets, net</b>	<b>\$ 4,952</b>	<b>\$ 4,207</b>

The following tables roll forward VOBA by product for the six months ended June 30, 2024 and June 30, 2023 (in millions):

	Indexed Annuities	Fixed Rate Annuities	Immediate Annuities	Universal Life	Traditional Life	Total
<b>Balance at January 1, 2024</b>	\$ 1,025	\$ 27	\$ 191	\$ 134	\$ 69	\$ 1,446
Amortization	(66)	(3)	(4)	(4)	(3)	(80)
Actuarial model updates and refinements (a)	—	—	—	—	63	63
<b>Balance at June 30, 2024</b>	<b>\$ 959</b>	<b>\$ 24</b>	<b>\$ 187</b>	<b>\$ 130</b>	<b>\$ 129</b>	<b>\$ 1,429</b>

(a) net of amortization of (\$15 million).

	Indexed Annuities	Fixed Rate Annuities	Immediate Annuities	Universal Life	Traditional Life	Total
<b>Balance at January 1, 2023</b>	\$ 1,166	\$ 32	\$ 201	\$ 143	\$ 73	\$ 1,615
Amortization	(71)	(3)	(6)	(4)	(2)	(86)
<b>Balance at June 30, 2023</b>	<b>\$ 1,095</b>	<b>\$ 29</b>	<b>\$ 195</b>	<b>\$ 139</b>	<b>\$ 71</b>	<b>\$ 1,529</b>

VOBA amortization expense of \$95 million and \$86 million was recorded in Depreciation and amortization on the unaudited Condensed Consolidated Statements of Operations for the six months ended June 30, 2024 and June 30, 2023, respectively.

The following tables roll forward DAC by product for the six months ended June 30, 2024 and June 30, 2023 (in millions):

	Indexed Annuities	Fixed Rate Annuities	Universal Life	Total (a)
<b>Balance at January 1, 2024</b>	\$ 1,378	\$ 288	\$ 545	\$ 2,211

Amortization	(47)	(20)	(16)	(83)
Reinsurance related adjustments	—	79	—	79
<b>Balance at June 30, 2023</b>	<b>\$ 1,173</b>	<b>\$ 233</b>	<b>\$ 441</b>	<b>\$ 1,847</b>

(a) Excludes insignificant amounts of DAC related to Funding Agreement Backed Note ("FABN")

DAC amortization expense of \$125 million and \$83 million was recorded in Depreciation and amortization on the unaudited Condensed Consolidated Statements of Operations for the six months ended June 30, 2024 and June 30, 2023, respectively, excluding insignificant amounts related to FABN.

The following table presents a reconciliation of DAC to the table above which is reconciled to the unaudited Condensed Consolidated Balance Sheets as of June 30, 2024 and December 31, 2023 (in millions):

	June 30, 2024	December 31, 2023
Indexed Annuities	\$ 1,645	\$ 1,378
Fixed Rate Annuities	341	288
Universal Life	662	545
Funding Agreements	5	4
<b>Total</b>	<b>\$ 2,653</b>	<b>\$ 2,215</b>

The following table rolls forward DSI for our indexed annuity products for the six months ended June 30, 2024 and June 30, 2023 (in millions):

	Six Months Ended June 30,	
	2024	2023
<b>Balance at January 1,</b>	\$ 346	\$ 200
Capitalization	120	68
Amortization	(16)	(10)
<b>Balance at June 30,</b>	<b>\$ 450</b>	<b>\$ 258</b>

DSI amortization expense of \$16 million and \$10 million was recorded in Depreciation and amortization on the unaudited Condensed Consolidated Statements of Operations for the six months ended June 30, 2024 and June 30, 2023, respectively.

The cash flow assumptions used to amortize VOBA and DAC were consistent with the assumptions used to estimate the future policy benefits ("FPB") for life contingent immediate annuities, and will be reviewed and unlocked, if applicable, in the same period as those balances. For nonparticipating traditional life contracts, the VOBA amortization is straight-line, without the use of cash flow assumptions. For indexed annuity contracts, the cash flow assumptions used to amortize VOBA, DAC, and DSI were consistent with the assumptions used to estimate the value of the embedded derivative and MRBs, and will be reviewed and unlocked, if applicable, in the same period as those balances. For fixed rate annuities and IUL the cash flow assumptions used to amortize VOBA,

DAC and DSI reflect the Company's best estimates for policyholder behavior, consistent with the development of assumptions for indexed annuities and immediate annuities.

We review cash flow assumptions annually, generally in the third quarter. In 2023, F&G undertook a review of all significant assumptions and revised several assumptions relating to our deferred annuity (indexed annuity and fixed rate annuity) and IUL products, including surrender rates, partial withdrawal rates, mortality improvement, premium persistency, and option budgets. All updates to these assumptions brought us more in line with our company and overall industry experience since the prior assumption update.

The following table rolls forward the customer relationship intangible acquired in the Roar acquisition on January 2, 2024, (in millions). For more information, refer to Note P - *Acquisition*.

	Six Months Ended June 30, 2024
<b>Balance at January 1,</b>	\$ —
Acquired	179
Amortization	(17)
<b>Balance at June 30,</b>	<b>\$ 162</b>

The customer relationship intangible is being amortized over an estimated useful life of 12 years using an accelerated method, which takes into consideration expected customer attrition rates.

The following table shows the estimated amortization expense in future fiscal periods for customer relationship intangibles and VOBA for the in-force liabilities as of June 30, 2024 (in millions):

Fiscal Year	Customer Relationship Intangibles		VOBA
2024	\$ 16	\$ 75	
2025	28		142
2026	23		130
2027	19		119
2028	16		109
Thereafter	60		854
<b>Total</b>	<b>\$ 162</b>	<b>\$ 1,429</b>	

## Note G — Market Risk Benefits

The following table presents the balances of and changes in MRBs associated with indexed annuities and fixed rate annuities for the six months ended June 30, 2024 and the year ended December 31, 2023 (in millions):

	June 30, 2024		December 31, 2023	
	Indexed annuities	Fixed rate annuities	Indexed annuities	Fixed rate annuities
<b>Balance, beginning of period, net liability</b>	\$ 314	\$ 1	\$ 164	\$ 1
<b>Balance, beginning of period, before effect of changes in the instrument-specific credit risk</b>	209	\$ 1	\$ 102	\$ 1
Issuances and benefit payments	29	—	(10)	—
Attributed fees collected and interest accrual	71	—	131	—
Actual policyholder behavior different from expected	19	—	27	—
Changes in assumptions and other	8	—	29	—
Effects of market related movements	(61)	—	(70)	—
<b>Balance, end of period, before effect of changes in the instrument-specific credit risk</b>	275	\$ 1	209	\$ 1
Effect of changes in the instrument-specific credit risk	80	—	105	—
<b>Balance, end of period, net liability</b>	\$ 355	\$ 1	\$ 314	\$ 1
Weighted-average attained age of policyholders weighted by total AV (years)	68.12	72.54	68.28	72.59
Net amount at risk	\$ 1,185	\$ 2	\$ 1,059	\$ 2

The following table reconciles MRBs by amounts in an asset position and amounts in a liability position to the MRBs amounts in the unaudited Condensed Consolidated Balance Sheets (in millions):

	June 30, 2024			December 31, 2023		
	Asset	Liability	Net	Asset	Liability	Net
Indexed annuities	\$ 103	\$ 458	\$ 355	\$ 88	\$ 402	\$ 314
Fixed rate annuities	—	1	1	—	1	1
<b>Total</b>	<b>\$ 103</b>	<b>\$ 459</b>	<b>\$ 356</b>	<b>\$ 88</b>	<b>\$ 403</b>	<b>\$ 315</b>

The net MRB liability increased for the six months ended June 30, 2024, primarily as a result of collection of attributed fees and interest accrual as well as new MRB reserves for contracts issued within the period. These increases were partially offset by the effects of market related movements, including the impacts of higher risk-free rates and increases in the equity market related projections.

For the six months ended June 30, 2024, notable changes made to the inputs to the fair value estimates of MRBs calculations included an increase in risk-free rates leading to a favorable change in the MRBs associated with indexed annuities and fixed rate annuities; increases in the equity market related projections resulted in a decrease in the net amount at risk associated with indexed annuities, leading to a favorable change in the value of the associated MRBs.

For the year ended December 31, 2023, notable changes made to the inputs to the fair value estimates of MRBs calculations included a significant increase in risk-free rates leading to a favorable change in the MRBs associated with indexed annuities and fixed rate annuities; increases in the equity market related projections resulted in a decrease in the net amount at risk associated with indexed annuities, leading to a favorable change in the value of the associated MRBs; and F&G's credit spread decreased, lead to a corresponding unfavorable change in the MRBs associated with both indexed annuities and fixed rate annuities.

In 2023, F&G undertook a review of all significant assumptions and revised several assumptions relating to our deferred annuities (indexed annuities and fixed rate annuities) with MRBs including surrender rates, partial withdrawal rates, mortality improvement, and option budgets. All updates to these assumptions brought us more in line with our Company and overall industry experience since the prior assumption update. These updates, in total, led to an increase in the net MRB liability during the year ended December 31, 2023.

#### Note H — Income Taxes

The effective tax rate for the three and six months ended June 30, 2024 was 20% and 19%. The effective tax rate for the three and six months ended June 30, 2023 was 20% and (63)%. The effective tax rate on pre-tax income for the six months ended June 30, 2024 differs from the U.S. Federal statutory rate of 21% primarily due to favorable permanent adjustments, including low income housing tax credits ("LIHTC"), the dividends received deduction ("DRD"), and company owned life insurance ("COLI"). The effective tax rate on pre-tax income for the three months ended June 30, 2024 differs from the U.S. Federal statutory rate of 21% primarily due to favorable permanent adjustments, including LIHTC, DRD, and COLI. The effective tax rate on pre-tax income for the six months ended June 30, 2023 differs from the U.S. Federal statutory rate of 21% primarily due to the valuation allowance recorded on capital deferred tax assets for U.S. Life companies, partially offset by favorable permanent adjustments, including LIHTC, DRD, and COLI. The effective tax rate on pre-tax income for the three months ended June 30, 2023 differs from the U.S. Federal Statutory rate of 21% primarily due to favorable permanent adjustments, including LIHTC, DRD, and COLI, partially offset by the valuation allowance recorded on capital deferred tax assets for U.S. Life companies.

As of June 30, 2024, the Company had a partial valuation allowance of \$ 88 million against its net deferred tax assets of \$ 415 million. As of December 31, 2023, the Company had a partial valuation allowance of \$85 million against its net deferred tax assets of \$ 473 million. There was a \$3 million increase in the valuation allowance for the six months ended June 30, 2024. The valuation allowance consisted of a full valuation allowance on the unrealized capital loss deferred tax assets for F&G Life Re, F&G Cayman Re, and the U.S. Non-life companies, a full valuation allowance on the foreign deferred tax assets on F&G Life Re, and a partial valuation allowance on the capital loss deferred tax assets on the U.S. life insurance companies.

The valuation allowance is reviewed quarterly and will be maintained until there is sufficient positive evidence, if any, to support a release. At each reporting date, management considers new evidence, both positive and negative, that could impact the future realization of deferred tax assets. Management will consider a release of the valuation allowance once there is sufficient positive evidence that it is more likely than not that the deferred tax assets will be realized.

All other deferred tax assets are more likely than not to be realized based on expectations as to our future taxable income and considering all other available evidence, both positive and negative.

The Company makes certain investments in limited partnerships, which invest in affordable housing projects that qualify for the Low-Income Housing Tax Credit ("LIHTC"). The Company's investment in the funds is amortized through income tax expense on the unaudited Condensed Consolidated Statements of Operations using the proportional amortization method.

The tax credits and other benefits recognized are included in the net change in income taxes on the unaudited Condensed Consolidated Statement of Cash Flows. The following table presents the impacts of the LIHTC investments included in income tax expense on the unaudited Condensed Consolidated Statements of Operations for the three and six months ended June 30, 2024 and 2023 (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Tax credits and other benefits recognized	\$ (12)	\$ (8)	\$ (20)	\$ (14)
Tax credit amortization expense	10	6	16	11
<b>Total</b>	<b>\$ (2)</b>	<b>\$ (2)</b>	<b>\$ (4)</b>	<b>\$ (3)</b>

At June 30, 2024 and December 31, 2023, LIHTC investments included in Prepaid expenses and other assets on the unaudited Condensed Consolidated Balance Sheets totaled \$116 million and \$108 million, respectively.

The Inflation Reduction Act of 2022 (the "IRA") was signed into law on August 16, 2022. Among other changes, the IRA introduced a 15% corporate alternative minimum tax ("CAMT") on adjusted financial statement income and a 1% excise tax on treasury stock repurchases. These provisions were effective January 1, 2023. For purposes of calculating adjusted financial statement income, the Company is included in the controlled group of FNF, its parent company. Though the Company is subject to the minimum tax, the Company does not expect to be in a perpetual CAMT position. The life companies will join the consolidated tax return group with FNF and file a life/non-life consolidated return once the five-year waiting period has completed in 2026, which should strengthen that position as FNF is not anticipating owing CAMT on its future returns. As a result, the Company has assessed that there is no material impact of CAMT to tax for the six months ended June 30, 2024.

The Corporate Income Tax Act of 2023 ("CIT") was passed in Bermuda on December 27, 2023. The CIT will commence on January 1, 2025 and will apply a statutory rate of 15% to the taxable income or loss of Bermuda tax resident entities and permanent establishments. F&G Life Re, a 953(d) company with no or minimal U.S. permanent tax differences, is not expected to owe any Bermuda CIT due to the foreign tax credit. As a result, the Company has assessed that there is no material impact of the CIT to tax for the six months ended June 30, 2024.

#### Note I — Contractholder Funds

The following tables summarize balances of and changes in contractholder funds' account balances (in millions):

	June 30, 2024				
	Indexed annuities	Fixed rate annuities	Universal Life	FABN (b)	FHLB (b)
<b>Balance, beginning of year</b>	\$ 27,164	\$ 13,443	\$ 2,391	\$ 2,613	\$ 2,539
Issuances	3,060	2,804	104	600	1,352
Premiums received	58	—	233	—	—
Policy charges (a)	(95)	—	(151)	—	—
Surrenders and withdrawals	(1,656)	(841)	(48)	—	—
Benefit payments	(252)	(159)	(9)	(26)	(1,092)
Interest credited	289	297	67	29	57
Other	2	(2)	—	(1)	—
<b>Balance, end of year</b>	<b>28,570</b>	<b>15,542</b>	<b>2,587</b>	<b>3,215</b>	<b>2,856</b>
Embedded derivative adjustment (c)	424	—	100	—	—
<b>Gross Liability, end of period</b>	<b>28,994</b>	<b>15,542</b>	<b>2,687</b>	<b>3,215</b>	<b>2,856</b>
Less: Reinsurance	(13)	(9,499)	(887)	—	—
<b>Net Liability, after Reinsurance</b>	<b>\$ 28,981</b>	<b>\$ 6,043</b>	<b>\$ 1,800</b>	<b>\$ 3,215</b>	<b>\$ 2,856</b>
Weighted-average crediting rate	4.24 %	8.55 %	11.30 %	N/A	N/A
Net amount at risk (d)	N/A	N/A	\$ 67,811	N/A	N/A
Cash surrender value (e)	\$ 26,377	\$ 14,479	\$ 2,008	N/A	N/A

(a) Contracts included in the contractholder funds are generally charged a premium and/or monthly assessments on the basis of the account balance.

(b) FABN and FHLB are considered funding agreements that are investment contracts which follow the interest method of accounting, and therefore are not subject to ASU 2018-12 disclosure requirements. However, the Company has elected to present the liability for these agreements within the disaggregated roll forward as we believe it will provide meaningful information for users of the financials.

(c) The embedded derivative adjustment reconciles the account balance to the gross GAAP liability and represents the combination of the host contract and the fair value of the embedded derivatives.

(d) For those guarantees of benefits that are payable in the event of death, the net amount at risk is generally defined as the current guaranteed minimum death benefit in excess of the current account balance at the balance sheet date.

(e) These amounts are gross of reinsurance.

	December 31, 2023				
	Indexed annuities	Fixed rate annuities	Universal Life	FABN (b)	FHLB (b)
<b>Balance, beginning of year</b>	\$ 24,766	\$ 9,358	\$ 2,112	\$ 2,613	\$ 1,982

Less: Reinsurance	(17)	(7,520)	(894)	—	—
<b>Net Liability, after Reinsurance</b>	<b>\$ 27,390</b>	<b>\$ 5,923</b>	<b>\$ 1,581</b>	<b>\$ 2,613</b>	<b>\$ 2,539</b>
Weighted-average crediting rate	1.40 %	4.85 %	3.44 %	N/A	N/A
Net amount at risk (d)	N/A	N/A	\$ 60,389	N/A	N/A
Cash surrender value (e)	\$ 25,099	\$ 12,505	\$ 1,872	N/A	N/A

(a) Contracts included in the contractholder funds are generally charged a premium and/or monthly assessments on the basis of the account balance.

(b) FABN and FHLB are considered funding agreements that are investment contracts which follow the interest method of accounting, and therefore are not subject to ASU 2018-12 disclosure requirements. However, the Company has elected to present the liability for these agreements within the disaggregated roll forward as we believe it will provide meaningful information for users of the financials.

(c) The embedded derivative adjustment reconciles the account balance to the gross GAAP liability and represents the combination of the host contract and the fair value of the embedded derivatives.

(d) For those guarantees of benefits that are payable in the event of death, the net amount at risk is generally defined as the current guaranteed minimum death benefit in excess of the current account balance at the balance sheet date.

(e) These amounts are gross of reinsurance.

The following table reconciles contractholder funds' account balances to the contractholder funds liability in the unaudited Condensed Consolidated Balance Sheets (in millions):

	June 30, 2024	December 31, 2023
Indexed annuities	\$ 28,994	\$ 27,407
Fixed rate annuities	15,542	13,443
Immediate annuities	298	311
Universal life	2,687	2,475
Traditional life	5	5
Funding Agreement-FABN	3,215	2,613
FHLB	2,856	2,539
PRT	5	5
<b>Total</b>	<b>\$ 53,602</b>	<b>\$ 48,798</b>

Annually, typically in the third quarter, we review assumptions associated with reserves for policy benefits and product guarantees. For the six months ended June 30, 2024, based on increases in interest rates and pricing changes, we updated certain indexed annuity assumptions related to the option budget used to calculate the fair value of the embedded derivative component within contractholder funds. These changes resulted in an increase in total benefits and other changes in policy reserves of approximately \$57 million for the six months ended June 30, 2024.

The following tables present the account values by range of guaranteed minimum crediting rates and the related range of difference, in basis points, between rates being credited to policyholders and the respective guaranteed minimums (in millions):

Range of guaranteed minimum crediting rate	June 30, 2024

The following table reconciles the net FPB to the FPB in the unaudited Condensed Consolidated Balance Sheets (in millions). The DPL for Immediate Annuities and PRT is presented together with the FPB in the unaudited Condensed Consolidated Balance Sheets and has been included as a reconciling item in the table below:

	June 30, 2024		December 31, 2023	
Traditional Life	\$ 1,343		\$ 1,349	
Immediate annuities	1,325		1,415	
PRT	4,869		4,189	
Immediate annuities DPL	93		87	
PRT DPL	6		10	
<b>Total</b>	<b>\$ 7,636</b>		<b>\$ 7,050</b>	

The following table provides the amount of undiscounted and discounted expected gross premiums and expected future benefits and expenses for nonparticipating traditional and limited-payment contracts (in millions):

	Undiscounted		Discounted	
	June 30, 2024	June 30, 2023	June 30, 2024	June 30, 2023
<b>Traditional Life</b>				
Expected future benefit payments	\$ 2,907	\$ 3,027	\$ 2,021	\$ 2,089
Expected future gross premiums	1,012	1,114	723	803
<b>Immediate annuities</b>				
Expected future benefit payments	\$ 3,233	\$ 3,361	\$ 1,321	\$ 1,411
Expected future gross premiums	—	—	—	—
<b>PRT</b>				
Expected future benefit payments	\$ 9,100	\$ 4,724	\$ 5,181	\$ 3,161
Expected future gross premiums	—	—	—	—

The following table summarizes the amount of revenue and interest related to nonparticipating traditional and limited-payment contracts recognized in the unaudited Condensed Consolidated Statements of Operations (in millions):

	Gross Premiums (a)		Interest Expense (b)	
	June 30, 2024	June 30, 2023	June 30, 2024	June 30, 2023
<b>Traditional Life</b>	\$ 57	\$ 63	\$ 18	\$ 19
Immediate annuities	12	11	30	33
PRT	908	737	109	50
<b>Total</b>	<b>\$ 977</b>	<b>\$ 811</b>	<b>\$ 157</b>	<b>\$ 102</b>

(a) Included in Life insurance premiums and other fees on the unaudited Condensed Consolidated Statements of Operations.

(b) Included in Benefits and other changes in policy reserves (remeasurement gains (losses) (a) on the unaudited Condensed Consolidated Statements of Operations.

The following table presents the weighted-average interest rate:

	June 30, 2024	December 31, 2023
<b>Traditional Life</b>		
Interest accretion rate	2.04 %	2.33 %
Current discount rate	5.41 %	5.03 %
<b>Immediate annuities</b>		
Interest accretion rate	3.16 %	3.14 %
Current discount rate	5.39 %	4.98 %
<b>PRT</b>		
Interest accretion rate	4.70 %	4.61 %
Current discount rate	5.45 %	5.03 %

The following tables summarize the actual experience and expected experience for mortality and lapses of the FPB:

	June 30, 2024		
	Traditional Life	Immediate annuities	PRT
<b>Mortality</b>			
Actual experience	1.4 %	3.5 %	2.9 %
Expected experience	1.4 %	2.1 %	2.5 %
<b>Lapses</b>			
Actual experience	0.1 %	— %	— %
Expected experience	0.4 %	— %	— %

	December 31, 2023		
	Traditional Life	Immediate annuities	PRT
<b>Mortality</b>			
Actual experience	1.7 %	3.2 %	3.2 %
Expected experience	1.4 %	1.8 %	2.3 %
<b>Lapses</b>			
Actual experience	— %	— %	— %
Expected experience	0.3 %	— %	— %

The following table provides additional information for periods in which a cohort has an  $NPR > 100\%$  (and therefore capped at 100%) (dollars in millions):

	June 30, 2024		
	Cohort X	Description	
Net Premium Ratio before capping		110 %	Term with ROP Non-NY Cohort
Reserves before NP Ratio capping	\$ 1,170	1,170	Term with ROP Non-NY Cohort
Reserves after NP Ratio capping	\$ 1,204	1,204	Term with ROP Non-NY Cohort
Loss Expense	\$ 34	34	Term with ROP Non-NY Cohort

#### *Premium deficiency testing*

F&G conducts annual premium deficiency testing for its long-duration contracts except for the FPB for nonparticipating traditional and limited-payment contracts. F&G also conducts annual premium deficiency testing for the VOBA of all long-duration contracts. Premium deficiency testing is performed by reviewing assumptions used to calculate the insurance liabilities and determining whether the sum of the existing contract liabilities and the present value of future gross premiums is sufficient to cover the present value of future benefits to be paid to or on behalf of policyholders and settlement costs and recover unamortized present value of future profits. Anticipated

investment income, based on F&G's experience, is considered when performing premium deficiency testing for long-duration contracts. During 2024, F&G was not required to establish any additional liabilities as a result of premium deficiency testing.

F&G made changes to assumptions during the six months ended June 30, 2024 and the year ended December 31, 2023. Significant assumption inputs used in the calculation of our FPB are described below. Refer to the tables above for further details on changes to our FPB.

*Traditional life*

Significant assumption inputs to the calculation of the FPB for traditional life include mortality, lapses (including lapses due to nonpayment of premium and surrenders for cash surrender value), and discount rates (both accretion and current). We review the cash flow assumptions annually, typically in the third quarter. In 2023, F&G undertook a review of all significant assumptions and revised the lapse assumption, resulting in a slight decrease to the FPB. In 2024, F&G made an adjustment to the calculation to reflect additional actuarial precision, unrelated to the assumptions, driving an increase to the FPB liability. There have been no other significant changes.

Market data that underlies current discount rates was updated in 2024 from that utilized in 2023 resulting in increased discount rates that drove a moderate decrease to the FPB.

*Immediate annuities (life contingent)*

Significant assumption inputs to the calculation of the FPB for immediate annuities (life contingent) include mortality and discount rates (both accretion and current). We review the cash flow assumptions annually, typically in the third quarter. In 2023, F&G undertook a review of the significant cash flow assumptions and did not make any changes to mortality. Market data that underlies current discount rates was updated in 2024 from that utilized in 2023, resulting in increased discount rates that drove a material decrease to the FPB.

*PRT (life contingent)*

Significant assumption inputs to the calculation of the FPB for PRT (life contingent) include mortality and discount rates (both accretion and current). We review the cash flow assumptions annually, typically in the third quarter. In 2023, F&G undertook a review of the significant cash flow assumptions and did not make any changes to mortality. Market data that underlies current discount rates was updated in 2024 from 2023 resulting in increased discount rates that drove a material decrease to the FPB.

#### Note K - Accounts Payable and Accrued Liabilities

As of June 30, 2024 and December 31, 2023, the total unearned revenue liabilities ("URL") balance of \$ 333 million and \$270 million, respectively, is included in Accounts payable and accrued liabilities on the unaudited Condensed Consolidated Balance Sheets. The following table presents a reconciliation of Accounts payable and accrued liabilities to the unaudited Condensed Consolidated Balance Sheets as of June 30, 2024 and December 31, 2023 (in millions):

	June 30, 2024	December 31, 2023
Salaries and incentives	\$ 73	\$ 99
Accrued benefits	64	60
URL	333	270
Trade accounts payable	178	297
Liability for policy and contract claims	97	92
Retained asset account	68	81
Remittances and items not allocated	256	284
Option collateral liabilities	809	588
Lease liability	11	11
Investment purchases payable	127	21
Contingent consideration	63	—
Interest rate swaps	28	—
Other accrued liabilities	221	208
<b>Accounts payable and accrued liabilities</b>	<b>\$ 2,328</b>	<b>\$ 2,011</b>

The following tables roll forward URL for our universal life product for the six months ended June 30, 2024 and June 30, 2023 (in millions):

	Six Months Ended June 30,	
	2024	2023
<b>Balance at January 1,</b>	\$ 270	\$ 166
Capitalization	72	56
Amortization	(9)	(7)
<b>Balance at June 30,</b>	<b>\$ 333</b>	<b>\$ 215</b>

For IUL the cash flow assumptions used to amortize URL reflect the Company's best estimates for policyholder behavior. We review cash flow assumptions annually, generally in the third quarter. In 2023, F&G undertook a review of all significant assumptions, and there were changes to IUL assumptions involving surrender rates, partial withdrawal rates, mortality improvement, premium persistency, and option budgets.

#### Note L — Notes Payable

The carrying amounts of notes payable are summarized as follows (in millions):

	June 30, 2024	December 31, 2023
6.50% F&G Notes, net of \$6 and \$0 of deferred issuance costs at June 30, 2024 and December 31, 2023, respectively	\$ 544	\$ —
7.95% F&G Notes, net of \$9 and \$9 of deferred issuance costs at June 30, 2024 and December 31, 2023, respectively	336	336
7.40% F&G Notes, net of \$4 and \$5 of deferred issuance costs at June 30, 2024 and December 31, 2023, respectively	496	495
5.50% F&G Notes, including \$5 and \$11 of purchase premium at June 30, 2024 and December 31, 2023, respectively	305	561
Revolving Credit Facility - Short-term, net of deferred issuance costs of \$8 and \$3 at June 30, 2024 and December 31, 2023	357	362
<b>Total</b>	<b>\$ 2,038</b>	<b>\$ 1,754</b>

**6.50% F&G Senior Notes** - On June 4, 2024, F&G completed its public offering of \$ 550 million aggregate principal amount of its 6.50% Senior Notes due 2029 (the "6.50% F&G Notes"). The 6.50% F&G notes were issued at 99.74% of face value net of deferred issuance costs of approximately \$ 6 million. The 6.50% F&G Notes are guaranteed on an unsecured, unsubordinated basis by each of F&G's subsidiaries that are guarantors of F&G's obligations under its existing credit agreement. The 6.50% F&G Notes mature on June 4, 2029, and become callable on May 4, 2029. Interest is payable semi-annually at a fixed rate of 6.50%, and, if the 6.50% F&G Notes are downgraded, the interest rate payable is subject to adjustment from time to time per the terms of the indenture.

F&G used a portion of the net proceeds from the offering to repay an aggregate principal amount of \$ 250 million of the 5.50% F&G Notes. The balance of the 5.50% F&G Notes was \$305 million at June 30, 2024 compared to \$ 561 million at December 31, 2023. F&G intends to use the remaining net proceeds for general corporate purposes, which may include the repurchase, redemption or repayment at maturity of outstanding indebtedness.

**Revolving Credit Facility** - On February 16, 2024, F&G entered into an amendment and extension of its existing senior unsecured revolving credit agreement (the "Credit Agreement"). The maturity date of the Credit Agreement was extended from November 22, 2025 to November 22, 2027. Total borrowing availability increased from \$665 million to \$750 million. Pricing and advance rates remain unchanged. Financial covenants also remain essentially the same.

At June 30, 2024, the remaining borrowing availability was \$385 million. The average variable interest rate on the revolver was 7.08% and 7.11% for the six months ended June 30, 2024 and for the year ended December 31, 2023, respectively.

**Covenants** - The Credit Agreement and the indentures governing the 6.50% F&G Notes, 7.95% F&G Notes, 7.40% F&G Notes and 5.50% F&G Notes impose certain operating and financial restrictions, including financial covenants, on F&G. As of June 30, 2024, we were in compliance with all covenants.

**Interest Expense** - Amortization of deferred issuance costs and purchase premiums are recognized as components of interest expense. Interest expense on F&G's outstanding notes payable for the three and six months ended June 30, 2024 and 2023 was as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
6.50% F&G Notes	\$ 3	—	\$ 3	—
7.95% F&G Notes	7	—	15	—
7.40% F&G Notes	9	10	19	18
5.50% F&G Notes	1	5	7	11
Revolving Credit Facility	8	10	14	18
<b>Total</b>	<b>\$ 28</b>	<b>\$ 25</b>	<b>\$ 58</b>	<b>\$ 47</b>

## Note M — Supplemental Cash Flow Information

The following supplemental cash flow information is provided with respect to certain cash payment and non-cash investing and financing activities (in millions):

	Six months ended June 30,	
	2024	2023
<b>Cash paid for:</b>		
Interest	\$ 60	\$ 32
Income taxes	2	—
Deferred sales inducements	120	68
<b>Non-cash investing and financing activities:</b>		
Investments received from pension risk transfer premiums	—	351
Change in proceeds of sales of investments available for sale receivable in period	—	(151)
Change in purchases of investments available for sale payable in period	109	237

## Note N — Commitments and Contingencies

### *Contingent Consideration*

Under the terms of the purchase agreement for Roar, we have agreed to make cash payments of up to approximately \$ 90 million over a three-year period upon the achievement by Roar of certain EBITDA milestones. The contingent consideration is recorded at fair value in Accounts payable and accrued liabilities on the unaudited Condensed Consolidated Balance Sheets. Refer to Note P - *Acquisition* for more information on the Roar purchase and refer to Note B - *Fair Value of Financial Instruments* for more information regarding the fair value of the contingent consideration.

### *Legal and Regulatory Contingencies*

In the ordinary course of business, we are involved in various pending and threatened litigation matters related to our operations, some of which include claims for punitive or exemplary damages. Like other companies, our ordinary course litigation includes a number of class action and purported class action lawsuits, which make allegations related to aspects of our operations. We believe that no actions, other than the matters discussed below, if any, depart from customary litigation incidental to our business.

We review lawsuits and other legal and regulatory matters (collectively "legal proceedings") on an ongoing basis when making accrual and disclosure decisions. When assessing reasonably possible and probable outcomes, management bases its decision on its assessment of the ultimate outcome assuming all appeals have been exhausted. For legal proceedings in which it has been determined that a loss is both probable and reasonably estimable, a liability based on known facts and that represents our best estimate has been recorded. Our accrual for legal and regulatory matters was insignificant as of June 30, 2024 and December 31, 2023. We do not consider (i) the amounts we have currently recorded for all legal proceedings in which it has been determined that a loss is both probable and reasonably estimable and (ii) reasonably possible losses for all pending legal proceedings to be material to our financial statements either individually or in the aggregate. Actual losses may materially differ from the amounts recorded and the ultimate outcome of our pending legal proceedings is generally not yet determinable. While some of these matters could be material to our operating results or cash flows for any particular period if an unfavorable outcome results, at present we do not believe that the ultimate resolution of currently pending legal proceedings, either individually or in the aggregate, will have a material adverse effect on our financial condition.

F&G is a defendant in two putative class action lawsuits that allege some customers' personally identifiable information was disclosed due to a vulnerability in the MOVEit file transfer software. F&G's vendor, Pension Benefit Information, LLC ("PBI"), used the MOVEit software in the course of providing audit and address research services to F&G and many other corporate customers. *Miller v. F&G*, No. 4:23-cv-00326 ("Miller"), was filed against F&G in the Southern District of Iowa on August 31, 2023. Miller alleges that he is a F&G customer whose

personally identifiable information was disclosed in the MOVEit incident and brings common law tort and implied contract claims. Plaintiff seeks injunctive relief and damages. *Cooper v. Progress Software Corp.*, No. 1:23-cv-12067 ("Cooper"), was filed against F&G and five other defendants in the District of Massachusetts on September 7, 2023. Cooper also alleges that he is a F&G customer whose personally identifiable information was disclosed and brings similar common law tort claims and alleges claims as a purported third-party beneficiary of an alleged contract. Plaintiff seeks declaratory and injunctive relief and damages. Well over 150 similar lawsuits have been filed against other entities impacted by the MOVEit incident including a number of such lawsuits related to PBI's use of MOVEit. On October 4, 2023, the U.S. Judicial Panel on Multidistrict Litigation created a multidistrict litigation ("MDL") pursuant to 28 U.S.C. § 1407 to handle all litigation brought by individuals whose information was potentially compromised in connection with the alleged MOVEit vulnerability. Both *Miller* and *Cooper* have been transferred to the MDL and are proceeding under MDL Case No. 1:23-md-03083-ADB-PGL. Plaintiffs filed amendments to their complaints, and the Defendants filed their omnibus motion to dismiss for lack of Article III standing on July 23, 2024. At this time, F&G does not believe the incident will have a material impact on its business, operations, or financial results.

On May 28, 2024, a lawsuit styled *Roofers Local 149 Pension Fund v. Fidelity National Financial Inc., William P. Foley, F&G Annuities & Life Inc., C.A. No. 2024-0562-LWW*, was filed in the Chancery Court of the State of Delaware, wherein Plaintiff Roofers Local 149 Pension Fund ("Plaintiff"), derivatively on behalf of Nominal F&G Annuities & Life, Inc. ("F&G"), brings its stockholder derivative action for breach of fiduciary duty against Defendants Fidelity National Financial, Inc. ("FNF"), in its capacity as F&G's controlling stockholder, and William P. Foley, Executive Chairman of F&G and Chairman of FNF, related to F&G's January 11, 2024 sale of \$250 million of 6.875% Series A Mandatory Convertible Preferred Stock to FNF. Plaintiff alleges that, based upon the unfair process and unfair price, the preferred stock investment was advantageous to FNF and unfair to F&G. Plaintiff seeks to recover damages on behalf of F&G for the alleged unfair preferred stock investment. F&G filed its answer to Plaintiff's complaint on July 24, 2024. The defendants will vigorously contest the Plaintiff's claims in the action.

From time to time, we receive inquiries and requests for information from state insurance departments, attorneys general and other regulatory agencies about various matters relating to our business. Sometimes these take the form of civil investigative demands or subpoenas. We cooperate with all such inquiries and we have responded to or are currently responding to inquiries from multiple governmental agencies. From time to time, we are assessed fines for violations of regulations or other matters or enter into settlements with such authorities, which may require us to pay fines or claims or take other actions. We do not anticipate such fines and settlements, either individually or in the aggregate, will have a material adverse effect on the Company's business, operations, or financial results.

#### **Commitments**

We have unfunded commitments as of June 30, 2024 based upon the timing of when investments and agreements are executed or signed compared to when the actual investments and agreements are funded or closed. Some investments require that funding occur over a period of months or years. A summary of unfunded commitments by commitment type as of June 30, 2024 is included below (in millions):

	<u>June 30, 2024</u>
Unconsolidated VIEs:	
Limited partnerships	\$ 1,675
Whole loans	918
Fixed maturity securities, ABS	379
Direct Lending	365
Other fixed maturity securities, AFS	21
Commercial mortgage loans	60
Other assets	380
Other invested assets	94
<b>Total</b>	<b>\$ 3,892</b>

Concurrent with the Roar purchase agreement, we executed a separate loan agreement with the sellers of Roar for us to lend up to \$ 40 million. The loan matures on August 5, 2027. The principal balance outstanding as of June 30, 2024 was \$6 million and is included in "Prepaid expenses and other assets" on the unaudited Condensed Consolidated Balance Sheet. The remainder of the unfunded loan commitment is included in the unfunded commitments table above in the "Other assets" line item. Refer to Note P - *Acquisition* for more information on the Roar acquisition.

#### **Note O — Insurance Subsidiary Financial Information and Regulatory Matters**

Our U.S. insurance subsidiaries, FGL Insurance, FGL NY Insurance, Raven Re and Corbeau Re file financial statements with state insurance regulatory authorities and, with the exception of Raven Re, with the National Association of Insurance Commissioners ("NAIC") that are prepared in accordance with Statutory Accounting Principles ("SAP") prescribed or permitted by such authorities, which may vary materially from GAAP. Prescribed SAP includes the Accounting Practices and Procedures Manual of the NAIC as well as state laws, regulations and administrative rules. Permitted SAP encompasses all accounting practices not so prescribed. The principal differences between SAP financial statements and financial statements prepared in accordance with GAAP are that SAP financial statements do not reflect VOBA, DAC, and DSi, some bond portfolios may be carried at amortized cost, assets and liabilities are presented net of reinsurance, contractholder liabilities are generally valued using more conservative assumptions and certain assets are non-admitted. Accordingly, SAP operating results and SAP capital and surplus may differ substantially from amounts reported in the GAAP basis financial statements for comparable items.

Our non-U.S. insurance subsidiaries, F&G Cayman Re Ltd ("F&G Cayman Re") and F&G Life Re Ltd (Bermuda), file financial statements with their respective regulators.

#### **U.S. Companies**

Our principal insurance subsidiaries' statutory financial statements are based on a December 31 year end. Statutory net income and statutory capital and surplus of our wholly owned insurance subsidiaries as of June 30, 2024 and December 31, 2023, were as follows (in millions):

	Subsidiary (state of domicile) <sup>(a)</sup>			
	FGL Insurance (IA)	FGL NY Insurance (NY)	Raven Re (VT)	Corbeau Re (VT)
<b>Statutory net income (loss):</b>				
For the three months ended June 30, 2024	\$ 77	\$ 4	\$ 13	\$ (265)
For the three months ended June 30, 2023	(37)	4	14	—
For the six months ended June 30, 2024	\$ 77	\$ 6	\$ 28	\$ (399)
For the six months ended June 30, 2023	(40)	5	28	—
<b>Statutory capital and surplus:</b>				
June 30, 2024	\$ 1,777	\$ 93	\$ 143	\$ 88
December 31, 2023	2,009	86	140	171

(a) FGL NY Insurance, Raven Re and Corbeau Re are subsidiaries of FGL Insurance, and the columns should not be added together. Corbeau Re was incorporated on September 1, 2023.

#### **Non-U.S. Companies**

Our non-U.S. insurance subsidiaries, F&G Cayman Re and F&G Life Re, file financial statements with their respective regulators. As of and for the annual period ended December 31, 2023, F&G Cayman Re began to file financial statements that are prepared in accordance with SAP prescribed or permitted by such authorities, which may vary materially from GAAP. Accordingly, SAP operating results and SAP capital and surplus may differ substantially from amounts reported in the GAAP basis financial statements for comparable items.

F&G Cayman Re has two permitted practices which have been approved by the Cayman Islands Monetary Authority ("CIMA"). F&G Cayman Re has a permitted practice approved by CIMA to include, as an admitted asset, the value of the letters of credit ("LOCs") acquired to support reinsurance transactions. Also, F&G Cayman Re has a permitted practice, approved by CIMA, for PRT reinsurance transactions to use U.S. statutory book value adjusted for best estimate reserve calculations (consistent with GAAP prior to ASU 2018-12, Financial Services-Insurance (Topic 944), Targeted Improvements to the Accounting for Long-Duration Contracts). These reserve calculations will be subject to annual assumption reviews consistent with other GAAP liability balances. If F&G Cayman Re had not been permitted to calculate PRT assumed reserves using best estimate reserve calculations or include the value of the LOCs as an admitted asset, statutory surplus would be \$63 million and \$102 million as of June 30, 2024 and December 31, 2023, respectively. Without such permitted statutory accounting practices, F&G Cayman Re's risk-based capital would fall below the minimum regulatory requirements as of June 30, 2024 and December 31, 2023.

F&G Life Re files financial statements based on GAAP.

Net income and capital and surplus of our wholly owned Cayman Islands and Bermuda regulated insurance subsidiaries under SAP and GAAP, respectively, were as follows (in millions):

	Subsidiary (country of domicile)	
	F&G Cayman Re (Cayman Islands)	F&G Life Re (Bermuda)
<b>Statutory net income (loss):</b>		
· the three months ended June 30, 2024	\$ 1	30
· the three months ended June 30, 2023	3	5
· the six months ended June 30, 2024	\$ (16)	79
· the six months ended June 30, 2023	7	74
<b>Statutory capital and surplus:</b>		
June 30, 2024	\$ 631	92
December 31, 2023	543	11

There have been no material changes to the prescribed and permitted practices for our U.S. insurance subsidiaries, which were detailed in our Annual Report on Form 10-K, and no other significant changes in the regulatory status of our insurance subsidiaries as of June 30, 2024.

The prescribed and permitted statutory accounting practices have no impact on our unaudited Condensed Consolidated Financial Statements, which are prepared in accordance with GAAP.

#### Note P — Acquisition

##### *Owned Distribution - Acquisition of Roar Joint Venture, LLC*

On January 2, 2024, F&G acquired a 70% majority ownership stake in the equity of Roar Joint Venture, LLC ("Roar"). Roar wholesales life insurance and annuity products to banks and broker dealers through a network of agents. Total initial consideration is comprised of approximately \$269 million of cash and \$48 million of contingent consideration. Under the terms of the purchase agreement, the Company has agreed to make cash payments of up to approximately \$90 million over a three-year period upon the achievement of certain EBITDA milestones of Roar.

The initial purchase price is as follows (in millions):

Cash paid for 70% majority interest of Roar shares	\$ 269
Less: Cash acquired net of noncontrolling interests	1
Net cash paid for 70% majority interest of Roar	268
Initial fair value of contingent consideration	48
<b>Total net initial consideration</b>	<b>\$ 316</b>

The following table summarizes the fair value amounts recognized for the assets acquired and liabilities assumed as of the acquisition date (dollars in millions):

	Fair Value as of January 2, 2024
Goodwill	\$ 268
Prepaid expenses and other assets	3
Other intangible assets	183
Total assets acquired	454
Accounts payable and accrued liabilities	2
Total liabilities assumed	2
Noncontrolling interests (fair value determined using income approach)	136
Total liabilities assumed and non-controlling interests	138
<b>Net assets acquired</b>	<b>\$ 316</b>

The gross carrying value and weighted average estimated useful lives of Other intangible assets acquired in the Roar acquisition consist of the following (dollars in millions):

	Gross Carrying Value	Estimated Useful Life (in years)	
Other intangible assets:			
Customer relationships	\$ 179	12	
Definite lived trademarks, tradenames, and other	4	10	
<b>Total Other intangible assets</b>	<b>\$ 183</b>		

Goodwill consists primarily of intangible assets that do not qualify for separate recognition, such as the assembled workforce and synergies between the entities. The goodwill recorded is not expected to be deductible for tax purposes.

Roars's revenues of \$18 million and \$41 million and net earnings attributable to F&G of \$ 1 million and \$4 million are included in the unaudited Condensed Consolidated Statement of Operations for the three and six months ended June 30, 2024, respectively.

#### ***Unaudited Supplemental Pro-Forma Financial Results***

For comparative purposes, selected unaudited pro-forma consolidated results of operations of F&G for the three and six months ended June 30, 2023 are presented below (in millions). Unaudited pro-forma results presented assume the acquisition of Roar occurred as of January 1, 2023 and are not intended to represent or be indicative of actual or future results of operations.

	Three months ended June		Six months ended June 30, 2023
	30,	2023	
	2023	2023	
Total revenues	\$ 1,184	\$ 2,065	
Net earnings (loss) attributable to F&G shareholders	117	(85)	

Amounts reflect certain pro forma adjustments to revenue and net earnings attributable to F&G shareholders that were directly attributable to the acquisition, primarily reflecting the elimination of intercompany activity between the entities.

#### Note Q - Earnings Per Share

The following table sets forth the computation of basic and diluted EPS (dollars and shares in millions except per share data):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Net earnings (loss)	\$ 204	\$ 130	\$ 320	\$ (65)
Less: Noncontrolling interests	1	—	2	—
Net earnings (loss) attributable to F&G	203	130	318	(65)
Less: Preferred stock dividend	5	—	9	—
Net earnings (loss) attributable to F&G common shareholders	\$ 198	\$ 130	\$ 309	\$ (65)
Weighted-average common shares outstanding - basic	124	125	124	125
Dilutive effect of unvested restricted stock	1	—	1	—
Dilutive effect of mandatory convertible preferred stock	6	—	5	—
Weighted-average shares outstanding - diluted	131	125	130	125
Net earnings (loss) per share attributable to F&G common shareholders				
Basic - net	\$ 1.60	\$ 1.04	\$ 2.49	\$ (0.52)
Diluted - net	\$ 1.55	\$ 1.04	\$ 2.45	\$ (0.52)

Under applicable accounting guidance, companies in a loss position are required to use basic weighted average common shares outstanding in the calculation of diluted loss per share. Therefore, as a result of our net loss for the six months ended June 30, 2023, we were required to use basic weighted-average common shares outstanding in the calculation of diluted loss per share, as the inclusion of 137 thousand restricted shares would have been antidilutive to the calculation. If we had not incurred a net loss for the six months ended June 30, 2023, dilutive potential common shares would have been 125 million.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The statements contained in this Quarterly Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding our expectations, hopes, intentions or strategies regarding the future. All forward-looking statements included in this Quarterly Report on Form 10-Q are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. It is important to note that our actual results could vary materially from those forward-looking statements contained herein due to many factors, including, but not limited to: the potential impact of our business relationships, including with our employees, customers and competitors; changes in general economic, business and political conditions, including changes in the financial markets; weakness or adverse changes in the level of activity in our sector or the sectors of our affiliated companies, which may be caused by, among other things, high or increasing interest rates, or a weak U.S. economy; significant competition that our operating subsidiaries face; compliance with extensive government regulation; and other risks detailed in the "Statement Regarding Forward-Looking Information," "Risk Factors" and other sections of our Annual Report on Form 10-K for the year ended December 31, 2023, and other filings with the Securities and Exchange Commission ("SEC").

Unless the context indicates otherwise, as used herein, the terms "we," "us," "our," the "Company" or "F&G" refer collectively to F&G Annuities & Life, Inc., and its subsidiaries.

The following discussion should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2023.

### **Overview**

For a description of our business, including descriptions of recent business developments, see the discussion in Note A - *Basis of Financial Statements* in the accompanying unaudited Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report on Form 10-Q, which is incorporated by reference into this Part I, Item 2.

### **Business Trends and Conditions**

The following factors represent some of the key trends and uncertainties that have influenced the development of the Company and its historical financial performance, and we believe these key trends and uncertainties will continue to influence the business and financial performance of the Company in the future. See "Risk Factors" in this Quarterly Report on Form 10-Q and Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2023 for further discussion of risk factors that could affect our business, including risk factors that could affect market conditions and discussion of current and emerging developments relating to market conduct standards for the financial industry emerging from the Department of Labor's ("DOL") implementation of the "fiduciary rule", as well as recent legislative challenges to the fiduciary rule.

#### **Market Conditions**

Market volatility has affected, and may continue to affect, our business and financial performance in varying ways. Volatility can pressure sales and reduce demand as consumers hesitate to make financial decisions. To enhance the attractiveness and profitability of our products and services, we continually monitor the behavior of our customers, as evidenced by annuitization rates and lapse rates, which vary in response to changes in market conditions.

#### **Interest Rate Environment**

Some of our products include guaranteed minimum crediting rates, most notably our fixed rate annuities. As of June 30, 2024 and December 31, 2023, our reserves, net of reinsurance, and average crediting rate on our fixed rate

annuities were \$6 billion and 4%, respectively. We are required to pay the guaranteed minimum crediting rates even if earnings on our investment portfolio decline, which would negatively impact earnings. In addition, we expect more policyholders to hold policies with comparatively high guaranteed rates for a longer period in a low interest rate environment. Conversely, a rise in average yield on our investment portfolio would increase earnings if the average interest rate we pay on our products does not rise correspondingly. Similarly, we expect that policyholders would be less likely to hold policies with existing guarantees as interest rates rise and the relative value of other new business offerings are increased, which would negatively impact our earnings and cash flows.

See "Quantitative and Qualitative Disclosure about Market Risk" and "Risk Factors" in this Quarterly Report on Form 10-Q for a more detailed discussion of interest rate risk.

#### ***Aging of the U.S. Population***

We believe that the aging of the U.S. population will increase the demand for our indexed annuity and indexed universal life ("IUL") products. As the "baby boomer" generation prepares for retirement, we believe that demand for retirement savings, growth, and income products will grow. Over 10,000 people will turn 65 each day in the United States over the next 15 years, and according to the U.S. Census Bureau, the proportion of the U.S. population over the age of 65 is expected to grow from 19% in 2024 to 21% in 2035. The impact of this growth may be offset to some extent by asset outflows as an increasing percentage of the population begins withdrawing assets to convert their savings into income.

#### ***Industry Factors and Trends Affecting Our Results of Operations***

We operate in the sector of the insurance industry that focuses on the needs of middle-income Americans. The underserved middle-income market represents a major growth opportunity for us. As a tool for addressing the unmet need for retirement planning, we believe that many middle-income Americans have grown to appreciate the financial certainty that we believe annuities such as our indexed annuity products afford. For example, the fixed index annuity market grew from nearly \$12 billion of sales in 2002 to \$97 billion of sales in 2023 and the registered index-linked annuities ("RILA") market grew from \$11 billion of sales in 2018 to \$44 billion of sales in 2023. Additionally, this market demand has positively impacted the IUL market as it has expanded from \$100 million of annual sales in 2002 to \$3 billion of annual sales in 2023.

See Item 7 of Part II of our Annual Report on Form 10-K for the year ended December 31, 2023 for a more detailed discussion of industry factors and trends affecting our Results of Operations.

#### **Critical Accounting Policies and Estimates**

The accounting estimates described in Item 7 of Part II of our Annual Report on Form 10-K for the year ended December 31, 2023 are those we consider critical in preparing our unaudited Condensed Consolidated Financial Statements. Management is required to make estimates and assumptions that can affect the reported amounts of assets and liabilities and disclosures with respect to contingent assets and liabilities at the date of the unaudited Condensed Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates. See Note A - *Basis of Financial Statements* included in Part I, Item 1 of this Quarterly Report on Form 10-Q for additional description of certain significant accounting policies that have been followed in preparing our unaudited Condensed Consolidated Financial Statements.

#### **Business Overview**

We are in three distinct retail channels and two institutional markets. Our three retail channels include agent-based Independent Marketing Organizations ("IMOs"), banks and broker dealers. We have deep, long-tenured relationships with our network of leading IMOs and their agents to serve the needs of the middle-income market and develop competitive annuity and life products to align with their evolving needs. Upon FNF's acquisition of F&G on June 1, 2020 (the "FNF Acquisition"), and F&G's subsequent rating upgrades in mid-2020, we launched into banks

and broker dealers. Further, in 2021, we launched into two institutional markets to originate Funding Agreement Backed Notes ("FABN") and pension risk transfer ("PRT") transactions. The FABN Program offers funding agreements to institutional clients by means of capital markets transactions through investment banks. The funding agreements issued under the FABN Program are in addition to those issued to the Federal Home Loan Bank of Atlanta ("FHLB"). The PRT solutions business was launched by building an experienced team and then working with brokers and institutional consultants for distribution. These markets leverage our existing team's spread-based capabilities as well as our strategic partnership with Blackstone.

In setting the features and pricing of our flagship indexed annuity products relative to our targeted net margin, we take into account our expectations regarding (1) the difference between the net investment income we earn and the sum of the interest credited to policyholders and the cost of hedging our risk on the policies; (2) fees, including surrender charges and rider fees, partly offset by vesting bonuses that we pay our policyholders; and (3) a number of related expenses, including benefits and changes in reserves, acquisition costs, and general and administrative expenses.

We also own stakes in IMOs and Network Marketing Groups ("NMG") through our owned distribution strategy. For our minority owned interests, our unaudited Condensed Consolidated Statements of Operations reflects dividend income in Interest and investment income. For our majority owned interests, unaffiliated commission revenue is recorded in Owned distribution revenue and unaffiliated expenses are recorded in Personnel costs and Other operating expenses in our unaudited Condensed Consolidated Statements of Operations

On March 16, 2022, FNF announced its intention to partially spin off F&G through a dividend to FNF shareholders. On December 1, 2022, FNF distributed, on a pro rata basis, approximately 15% of the common stock of F&G. FNF retained control of F&G through ownership of approximately 85% of F&G common stock. Effective December 1, 2022, F&G commenced "regular-way" trading of its common stock on the New York Stock Exchange ("NYSE") under the symbol "FG".

#### **Key Components of Our Historical Results of Operations**

Through our insurance subsidiaries, we issue a broad portfolio of deferred annuities (indexed annuities and fixed rate annuities), IUL insurance, immediate annuities, funding agreements and PRT solutions. A deferred annuity is a type of contract that accumulates value on a tax deferred basis and typically begins making specified periodic or lump sum payments a certain number of years after the contract has been issued. IUL insurance is a complementary type of contract that accumulates value in a cash value account and provides a payment to designated beneficiaries upon the policyholder's death. An immediate annuity is a type of contract that begins making specified payments within one annuity period (e.g., one month or one year) and typically makes payments of principal and interest earnings over a period of time. As defined by the Iowa Insurance Division, a funding agreement is an agreement for an insurer to accept and accumulate funds and to make one or more payments at future dates in amounts that are not based on mortality or morbidity contingencies of the person to whom the funding agreement is issued. In essence, funding agreement providers issue fixed maturity contracts with fixed or floating interest rates in exchange for a single upfront premium. Our PRT products are comparable to income annuities, as we generally receive a single, upfront premium in exchange for paying a guaranteed stream of future income payments which are typically fixed in nature but may vary in duration based on participant mortality experience.

Under GAAP, premium collections for deferred annuities (indexed annuities and fixed rate annuities), immediate annuities and PRT without life contingency, and deposits received for funding agreements are reported in the financial statements as deposit liabilities (i.e., contractholder funds) instead of as sales or revenues. Similarly, cash payments to customers are reported as decreases in the liability for contractholder funds and not as expenses. Sources of revenues for products accounted for as deposit liabilities are net investment income, surrender charges, cost of insurance and other charges deducted from contractholder funds (i.e., amortization of URL), and net realized gains (losses) on investments. Components of expenses for products accounted for as deposit liabilities are interest-sensitive and index product benefits (primarily interest credited to account balances or the hedging cost of providing index credits to the policyholder), amortization of VOBA, DAC and DSI, and other operating costs and expenses.

F&G hedges certain portions of its exposure to product related equity market risk by entering into derivative transactions. We purchase derivatives consisting predominantly of equity options and, to a lesser degree, futures contracts (specifically for indexed annuity contracts) on the equity indices underlying the applicable policy. These derivatives are used to offset the reserve impact of the index credits due to policyholders under the indexed annuity and IUL contracts. The majority of all such equity options are one-year options purchased to match the funding requirements underlying the indexed annuity/IUL contracts. We attempt to manage the cost of these purchases through the terms of our indexed annuity/IUL contracts, which permit us to change caps, spread, or participation rates on each policy's annual anniversary, subject to certain guaranteed minimums that must be maintained. The equity options and futures contracts are marked to fair value with the change in fair value included as a component of net investment gains (losses). The change in fair value of the equity options and futures contracts includes the gains and losses recognized at the expiration of the instruments' terms or upon early termination and the changes in fair value of open positions. In addition, to reduce market risks from interest rate changes on our earnings associated with our floating rate investments, during 2023 we began to execute pay-float and receive-fixed interest rate swaps.

MRBs are contracts or contract features that both provide protection to the contract holder from other-than-nominal capital market risk (equity, interest and foreign exchange risk) and expose the Company to other-than-nominal capital market risk. MRBs are measured at fair value using a risk neutral valuation method, which is based on current net amounts at risk, market data, internal and industry experience, and other factors. The change in fair value of MRBs generally reflects impacts from actual policyholder behavior (including surrenders of the benefit), changes in interest rates, and changes in equity market returns. Generally higher interest rates and equity returns result in gains whereas lower interest rates and equity returns result in losses.

Earnings from products accounted for as deposit liabilities are primarily generated from the excess of net investment income earned over the sum of interest credited to policyholders and the cost of hedging our risk on indexed annuity/IUL policies. With respect to indexed annuities/IULs, which includes the expenses incurred to fund the index credits. Proceeds received upon expiration or early termination of equity options purchased to fund annual index credits are recorded as part of the change in fair value of derivatives and are largely offset by an expense for index credits earned on annuity contractholder fund balances.

Our profitability depends in large part upon the amount of:

- i. AUM (see "—Non-GAAP Financial Measures"),
- ii. the excess of net investment income over the sum of interest credited to policyholders and the cost of hedging our risk on indexed product policies, earned on our average assets under management ("AAUM" — see "—Non-GAAP Financial Measures"),
- iii. flow reinsurance fee income from allocating capital to the highest returning retained business while enhancing cash flow and generating fee-based earnings,
- iv. owned distribution margin generated from a meaningfully higher risk adjusted return on capital than retained business and providing a diversifying source of earnings while further strengthening our relationships with key partners, and
- v. through our disciplined expense management and the costs of acquiring new business (principally commissions to agents and bonuses credited to policyholders).

As we grow AUM, earnings generally increase. AUM increases when cash inflows, which include sales, exceed cash outflows. Managing the excess of net investment income earned over the sum of interest credited to policyholders and the cost of hedging our risk on indexed product policies, involves the ability to maximize returns on our AUM and minimize risks such as interest rate changes and defaults or impairment of investments. It also includes our ability to manage interest rates credited to policyholders and costs of the options and futures purchased to fund the annual index credits on the indexed annuities/IULs. We analyze returns on AAUM to measure our profitability.

## **Non-GAAP Financial Measures**

In addition to reporting financial results in accordance with GAAP, this Quarterly Report on Form 10-Q includes non-GAAP financial measures, which the Company believes are useful to help investors better understand its financial performance, competitive position and prospects for the future. Management believes these non-GAAP financial measures may be useful in certain instances to provide additional meaningful comparisons between current results and results in prior operating periods. Our non-GAAP measures may not be comparable to similarly titled measures of other organizations because other organizations may not calculate such non-GAAP measures in the same manner as we do. The presentation of this financial information is not intended to be considered in isolation of or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. By disclosing these non-GAAP financial measures, the Company believes it offers investors a greater understanding of, and an enhanced level of transparency into, the means by which the Company's management operates the Company. Any non-GAAP measures should be considered in context with the GAAP financial presentation and should not be considered in isolation or as a substitute for GAAP net earnings, net earnings attributable to common shareholders, or any other measures derived in accordance with GAAP as measures of operating performance or liquidity. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measures are provided within this Quarterly Report on Form 10-Q.

### ***Adjusted Net Earnings Attributable to Common Shareholders***

Adjusted net earnings attributable to common shareholders is a non-GAAP economic measure we use to evaluate financial performance each period. Adjusted net earnings attributable to common shareholders is calculated by adjusting net earnings (loss) attributable to common shareholders to eliminate:

- (i) Recognized (gains) and losses, net: the impact of net investment gains/losses, including changes in allowance for expected credit losses and other than temporary impairment ("OTTI") losses, recognized in operations; and the effects of changes in fair value of the reinsurance related embedded derivative and other derivatives, including interest rate swaps and forwards;
- (ii) Market related liability adjustments: the impacts related to changes in the fair value, including both realized and unrealized gains and losses, of index product related derivatives and embedded derivatives, net of hedging cost; the impact of initial pension risk transfer deferred profit liability losses, including amortization from previously deferred pension risk transfer deferred profit liability losses; and the changes in the fair value of market risk benefits by deferring current period changes and amortizing that amount over the life of the market risk benefit;
- (iii) Purchase price amortization: the impacts related to the amortization of certain intangibles (internally developed software, trademarks and value of distribution asset and the change in fair value of liabilities recognized as a result of acquisition activities);
- (iv) Transaction costs: the impacts related to acquisition, integration and merger related items;
- (v) Other "non-recurring," "infrequent" or "unusual items": Management excludes certain items determined to be "non-recurring," "infrequent" or "unusual" from adjusted net earnings when incurred if it is determined these expenses are not a reflection of the core business and when the nature of the item is such that it is not reasonably likely to recur within two years and/or there was not a similar item in the preceding two years;
- (vi) Non-controlling interest on non-GAAP adjustments: the portion of the non-GAAP adjustments attributable to the equity interest of entities that F&G does not wholly own; and
- (vii) Income taxes: the income tax impact related to the above-mentioned adjustments is measured using an effective tax rate, as appropriate by tax jurisdiction.

While these adjustments are an integral part of the overall performance of F&G, market conditions and/or the non-operating nature of these items can overshadow the underlying performance of the core business. Accordingly, management considers this to be a useful measure internally and to investors and analysts in analyzing the trends of our operations. Adjusted net earnings should not be used as a substitute for net earnings (loss). However, we believe

the adjustments made to net earnings (loss) in order to derive adjusted net earnings provide an understanding of our overall results of operations.

For example, we could have strong operating results in a given period, yet report net income that is materially less, if during such period the fair value of our derivative assets hedging the indexed annuity and IUL index credit obligations decreased due to general equity market conditions but the embedded derivative liability related to the index credit obligation did not decrease in the same proportion as the derivative assets because of non-equity market factors such as interest rate and non-performance credit spread movements. Similarly, we could also have poor operating results in a given period yet show net earnings (loss) that is materially greater, if during such period the fair value of the derivative assets increased but the embedded derivative liability did not increase in the same proportion as the derivative assets. We hedge our index credits with a combination of static and dynamic strategies, which can result in earnings volatility, the effects of which are generally likely to reverse over time. Our management and board of directors review adjusted net earnings and net earnings (loss) as part of their examination of our overall financial results. However, these examples illustrate the significant impact derivative and embedded derivative movements can have on our net earnings (loss). Accordingly, our management performs a review and analysis of these items, as part of their review of our hedging results each period.

Amounts attributable to the fair value accounting for derivatives hedging the indexed annuities and IUL index credits and the related embedded derivative liability fluctuate from period to period based upon changes in the derivative's underlying index, changes in the interest rates and non-performance credit spreads used to discount the embedded derivative liability, and the fair value assumptions reflected in the embedded derivative liability. The accounting standards for fair value measurement require the discount rates used in the calculation of the embedded derivative liability to be based on risk-free interest rates adjusted for our non-performance as of the reporting date. The impact of the change in fair values of these derivatives and hedging costs has been removed from net earnings (loss) in calculating adjusted net earnings.

#### **Assets Under Management ("AUM")**

AUM is comprised of the following components and is reported net of reinsurance assets ceded in accordance with GAAP:

- (i) total invested assets at amortized cost, excluding investments in unconsolidated affiliates, owned distribution and derivatives;
- (ii) investments in unconsolidated affiliates at carrying value;
- (iii) related party loans and investments;
- (iv) accrued investment income;
- (v) the net payable/receivable for the purchase/sale of investments; and
- (vi) cash and cash equivalents excluding derivative collateral at the end of the period.

Management considers this non-GAAP financial measure to be useful internally and to investors and analysts when assessing the size of our investment portfolio that is retained.

#### **Average Assets Under Management (AAUM)**

AAUM is calculated as AUM at the beginning of the period and the end of each month in the period, divided by the total number of months in the period plus one.

Management considers this non-GAAP financial measure to be useful internally and to investors and analysts when assessing the rate of return on retained assets.

#### **Sales**

Annuity, IUL, funding agreement and non-life contingent PRT sales are not derived from any specific GAAP income statement accounts or line items and should not be viewed as a substitute for any financial measure

determined in accordance with GAAP. Sales from these products are recorded as deposit liabilities (i.e., contractholder funds) within the Company's consolidated financial statements in accordance with GAAP. Life contingent PRT sales are recorded as premiums in revenues within the consolidated financial statements. Management believes that presentation of sales, as measured for management purposes, enhances the understanding of our business and helps depict longer term trends that may not be apparent in the results of operations due to the timing of sales and revenue recognition.

#### ***Yield on AAUM***

Yield on AAUM is calculated by dividing annualized net investment income on an adjusted net earnings basis by AAUM. Management considers this non-GAAP financial measure to be useful internally and to investors and analysts when assessing the level of return earned on AAUM.

#### **Results of Operations**

The results of operations for the three and six months ended June 30, 2024 and June 30, 2023 were as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
<b>Revenues</b>				
Life insurance premiums and other fees	\$ 487	\$ 576	\$ 1,205	\$ 941
Interest and investment income	684	525	1,300	1,044
Owned distribution revenues	18	—	41	—
Recognized gains and (losses), net	(17)	67	195	52
Total revenues	1,172	1,168	2,741	2,037
<b>Benefits and expenses</b>				
Benefits and other changes in policy reserves	608	817	1,769	1,629
Market risk benefit (gains) losses	20	(30)	9	29
Depreciation and amortization	147	104	270	194
Personnel costs	69	56	135	109
Other operating expenses	46	33	104	69
Interest expense	28	25	58	47
Total benefits and expenses	918	1,005	2,345	2,077
Earnings (loss) before income taxes	254	163	396	(40)
Income tax expense	50	33	76	25
Net earnings (loss)	204	130	320	(65)
Less: Noncontrolling interests	1	—	2	—
Net earnings (loss) attributable to F&G	203	130	318	(65)
Less: Preferred stock dividend	5	—	9	—
<b>Net earnings (loss) attributable to F&amp;G common shareholders</b>	<b>\$ 198</b>	<b>\$ 130</b>	<b>\$ 309</b>	<b>\$ (65)</b>

The following table summarizes sales by product type (in millions) (see "Non-GAAP Financial Measures"):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Indexed annuities ("FIA/RILA")	\$ 1,648	\$ 1,224	\$ 3,085	\$ 2,435
Fixed rate annuities ("MYGA")	1,475	1,064	2,802	2,577
Total annuity	3,123	2,288	5,887	5,012
IUL	44	42	86	79
Funding agreements ("FABN/FHLB")	915	200	1,020	456
PRT	338	478	922	742
<b>Gross sales</b>	<b>4,420</b>	<b>3,008</b>	<b>7,915</b>	<b>6,289</b>
Sales attributable to flow reinsurance to third parties	(975)	(796)	(2,168)	(1,868)
<b>Net sales</b>	<b>\$ 3,445</b>	<b>\$ 2,212</b>	<b>\$ 5,747</b>	<b>\$ 4,421</b>

- Total annuity sales were higher for the three and six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, reflecting F&G's productive and expanding retail distribution through independent agents, banks and broker dealers, enhanced product features and pricing actions taken to align to the macro environment.
- Funding agreements, reflecting new FABN and FHLB agreements, were higher for the three and six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, and are subject to fluctuation period to period based on economic conditions and the timing of entering the new agreements.
- PRT sales decreased for the three months ended June 30, 2024 and increased for the six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, respectively, reflecting the timing of PRT transactions that are also subject to fluctuation period to period. During the three and six months ended June 30, 2024, we closed two and four pension risk transfer transactions, respectively.
- Sales attributable to flow reinsurance to third parties were higher during the three and six months ended June 30, 2024 compared to the three and six months ended June 30, 2023, primarily reflecting the higher level of multi-year guarantee annuities ("MYGA") sales during the periods.

## Revenues

### ***Life Insurance Premiums and Other Fees***

Life insurance premiums and other fees primarily reflect premiums on life-contingent PRTs and traditional life insurance products, which are recognized as revenue when due from the policyholder, as well as policy rider fees primarily on indexed annuity policies, the cost of insurance on IUL policies and surrender charges assessed against policy withdrawals in excess of the policyholder's allowable penalty-free amounts (up to 10% of the prior year's value, subject to certain limitations). The following table summarizes the Life insurance premiums and other fees, on the unaudited Condensed Consolidated Statements of Operations (in millions), for the three and six months ended June 30, 2024 and June 30, 2023:

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Life-contingent pension risk transfer premiums	\$ 324	\$ 474	\$ 908	\$ 737
Traditional life insurance and life-contingent immediate annuity premiums	9	10	21	22
Surrender charges	70	16	113	39
Policyholder fees and other income	84	76	163	143
<b>Life insurance premiums and other fees</b>	<b>\$ 487</b>	<b>\$ 576</b>	<b>\$ 1,205</b>	<b>\$ 941</b>

- Life-contingent pension risk transfer premiums decreased for the three months ended June 30, 2024 and increased for the six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, respectively, reflecting the timing of PRT transactions. As noted above, PRT premiums are subject to fluctuation period to period.

- Surrender charges increased for the three and six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, primarily reflecting increases in withdrawals from policyholders with surrender charges and market value adjustments ("MVAs"), primarily on our indexed annuities policies.
- Policyholder fees and other income increased for the three and six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, primarily due to increased guaranteed minimum withdrawal benefit ("GMWB") rider fees and cost of insurance charges, net of changes in unearned revenue liabilities ("URL") on IUL policies from growth in business. GMWB rider fees are based on the policyholder's benefit base and are collected at the end of the policy year.

#### Interest and Investment Income

Below is a summary of interest and investment income (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Fixed maturity securities, available-for-sale	\$ 542	\$ 448	\$ 1,058	\$ 880
Equity securities	5	4	11	9
Preferred securities	7	12	13	22
Mortgage loans	65	57	131	108
Invested cash and short-term investments	34	17	62	33
Limited partnerships	97	44	151	101
Other investments	6	5	16	14
Gross investment income	756	587	1,442	1,167
Investment expense	(72)	(62)	(142)	(123)
<b>Interest and investment income</b>	<b>\$ 684</b>	<b>\$ 525</b>	<b>\$ 1,300</b>	<b>\$ 1,044</b>

Interest and investment income is shown net of amounts attributable to certain funds withheld reinsurance agreements which is passed along to the reinsurer in accordance with the terms of these agreements. Interest and investment income attributable to these agreements, and thus excluded from the totals in the table above, was \$155 million and \$282 million for the three and six months ended June 30, 2024, respectively, and \$76 million and \$134 million for the three and six months ended June 30, 2023, respectively.

Our AAUM and yield on AAUM are summarized as follows (annualized) (dollars in millions) (see " *Non-GAAP Financial Measures* "):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
AAUM	\$ 50,864	\$ 45,449	\$ 50,181	\$ 44,817
Yield on AAUM (at amortized cost)	5.38 %	4.62 %	5.18 %	4.66 %

- AAUM was higher for the three and six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, reflecting net new business asset flows, stable inforce retention and net debt proceeds.
- Interest and investment income was higher for the three months ended June 30, 2024 compared to the three months ended June 30, 2023, primarily due to \$60 million from invested asset growth, \$41 million of all other rate impacts and \$58 million from returns on alternative investments.
- Interest and investment income was higher for the six months ended June 30, 2024 compared to the six months ended June 30, 2023, primarily due to \$120 million from invested asset growth, \$96 million of all other rate impacts and \$40 million from returns on alternative investments.

## Owned Distribution Revenues

Below is a summary of owned distribution revenues (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024		2023	
	\$ 18	\$ —	\$ 41	\$ —
Owned distribution revenues				
<b>Total owned distribution revenues</b>	<b>\$ 18</b>	<b>\$ —</b>	<b>\$ 41</b>	<b>\$ —</b>

- Owned distribution revenue represents commissions received from our majority owned distribution partner(s) generated by third-party annuity and life insurance sales. Override and bonus commissions are recognized as revenue upon policy issuance. Owned distribution revenues for the three and six months ended June 30, 2024 represent revenues associated with Roar, and primarily reflect commission revenues.

## Recognized Gains and (Losses), Net

Below is a summary of the major components included in recognized gains and (losses), net (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Net realized and unrealized gains (losses) on fixed maturity available-for-sale securities, equity securities and other invested assets	\$ 37	\$ (29)	\$ 85	\$ (77)
Change in allowance for expected credit losses	(23)	(21)	(23)	(29)
Net realized and unrealized gains (losses) on certain derivatives instruments	(41)	99	138	157
Change in fair value of reinsurance related embedded derivatives	10	17	(8)	(2)
Change in fair value of other derivatives and embedded derivatives	—	1	3	3
<b>Recognized gains and (losses), net</b>	<b>\$ (17)</b>	<b>\$ 67</b>	<b>\$ 195</b>	<b>\$ 52</b>

Recognized gains and (losses), net is shown net of amounts attributable to certain funds withheld reinsurance agreements which is passed along to the reinsurer in accordance with the terms of these agreements. Recognized gains and (losses) attributable to these agreements, and thus excluded from the totals in the table above, was \$10 million and \$(9) million for the three and six months ended June 30, 2024, respectively, and \$21 million and \$(1) million for the three and six month periods ended June 30, 2023, respectively.

- For the three months ended June 30, 2024, net realized and unrealized gains (losses) on fixed maturity available-for-sale securities, equity securities and other invested assets is primarily the result of realized gains on fixed maturity available-for-sale securities, mark-to-market gains on our equity securities and unrealized fair value option ("FVO") gains on owned distribution investments.
- For the six months ended June 30, 2024, net realized and unrealized gains (losses) on fixed maturity available-for-sale securities, equity securities and other invested assets is primarily the result of unrealized FVO gains on owned distribution investments and preferred securities and mark-to-market gains on our equity securities.
- For the three and six months ended June 30, 2023, net realized and unrealized gains (losses) on fixed maturity available-for-sale securities, equity securities and other invested assets is primarily the result of mark-to-market losses on our equity securities and realized losses on fixed maturity available-for-sale securities.
- For all periods, net realized and unrealized gains (losses) on certain derivative instruments primarily relate to the net realized and unrealized gains (losses) on equity options and futures used to hedge indexed annuity and IUL products, including gains on option and futures expiration and changes in the fair value of interest rate swaps. See the table below for primary drivers of gains (losses) on certain derivatives.

- The fair value of reinsurance related embedded derivative is based on the change in fair value of the underlying assets held in the funds withheld ("FWH") portfolio.

We utilize a combination of static (equity options) and dynamic (long futures contracts) instruments in our product hedging strategy. A substantial portion of the equity options and futures contracts are based upon the S&P 500 Index with the remainder based upon other equity, bond and gold market indices.

We utilize interest rate swaps to reduce market risks from interest rate changes on our earnings associated with our floating rate investments.

The components of the realized and unrealized gains (losses) on certain derivative instruments hedging our indexed annuities, universal life products and floating rate investments are summarized in the table below (dollars in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
<b>Equity options:</b>				
Realized gains (losses)	\$ 5	\$ (68)	\$ 16	\$ (159)
Change in unrealized gains (losses)	(28)	166	211	312
<b>Futures contracts:</b>				
Gains (losses) on futures contracts expiration	7	3	14	6
Change in unrealized (losses) gains	(2)	(2)	(3)	(1)
Interest rate swap (losses) gains	(25)	—	(105)	—
<b>Other derivative investments</b>				
Gains (losses) on other derivative investments	2	—	5	(1)
<b>Total net change in fair value</b>	<b>\$ (41)</b>	<b>\$ 99</b>	<b>\$ 138</b>	<b>\$ 157</b>
<b>Annual Point-to-Point Change in S&amp;P 500 Index during the periods</b>				
Secured Overnight Financing Rates	4 %	8 %	23 %	16 %
	5.33 %	5.09 %	5.33 %	5.09 %

- Realized gains and losses on certain derivative instruments are directly correlated to the performance of the indices upon which the equity options and futures contracts are based and the value of the derivatives at the time of expiration compared to the value at the time of purchase.
- The changes in unrealized gains (losses) due to the net changes in fair value of equity options and futures contracts are driven by the underlying performance of the indices (for example, the S&P 500 Index) upon which the equity options and futures contracts are based during each respective period relative to the respective indices on the policyholder buy dates.
- The net change in fair value of the interest rate swaps was primarily driven by fluctuations in the interest rate index underlying the swap contracts.

The average index credits to policyholders are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
<b>Average Crediting Rate</b>				
S&P 500 Index:	4 %	1 %	4 %	1 %
Point-to-point strategy	4 %	1 %	3 %	1 %
Monthly average strategy	3 %	1 %	3 %	— %
Monthly point-to-point strategy	4 %	— %	4 %	— %
3 year high water mark	4 %	7 %	4 %	10 %

- Actual amounts credited to contractholder fund balances may differ from the index appreciation due to contractual features in the indexed annuity contracts and certain IUL contracts (caps, spreads and participation rates), which allow us to manage the cost of the options purchased to fund the annual index credits.
- The credits for the periods presented were based on comparing the S&P 500 Index on each issue date in the period to the same issue date in the respective prior year periods.

## Benefits and Expenses

### Benefits and Other Changes in Policy Reserves

Below is a summary of the major components included in Benefits and other changes in policy reserves (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
PRT agreements	\$ 343	\$ 488	\$ 941	\$ 754
Indexed annuities/IUL market related liability movements	(86)	119	139	488
Index credits, interest credited and bonuses	354	170	681	304
Other changes in policy reserves	(3)	40	8	83
<b>Total benefits and other changes in policy reserves</b>	<b>\$ 608</b>	<b>\$ 817</b>	<b>\$ 1,769</b>	<b>\$ 1,629</b>

- PRT agreements decreased for the three months ended June 30, 2024 and increased for the six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, respectively, reflecting the timing of PRT transactions. PRT transactions are subject to fluctuation period to period.
- The indexed annuities/IUL market related liability movements during the three and six months ended June 30, 2024 and June 30, 2023, respectively, are mainly driven by changes in the equity markets, non-performance spreads, and risk free rates during the periods. The change in risk free rates and non-performance spreads (decreased) increased the indexed annuities market related liability by \$(85) million and \$(59) million during the three months ended June 30, 2024 and June 30, 2023. The change in risk free rates and non-performance spreads (decreased) increased the FIA market related liability by \$(168) million and \$6 million during the six months ended June 30, 2024 and June 30, 2023, respectively. The remaining changes in market value of the market related liability movements for all periods was driven by equity market impacts. See *"Revenues — Recognized gains and (losses), net"* above for summary and discussion of net unrealized gains (losses) on certain derivative instruments.
- Annually, typically in the third quarter, we review assumptions associated with reserves for policy benefits and product guarantees. During the first quarters of 2024 and 2023, based on increases in interest rates and pricing changes, we updated certain indexed annuity assumptions related to the option budget used to calculate the fair value of the embedded derivative component within contractholder funds. During the first quarter of 2023 we also aligned reserves to actual policyholder behavior. These changes resulted in increases in total benefits and other changes in policy reserves of approximately \$57 million and \$102 million for the six months ended June 30, 2024 and June 30, 2023, respectively.
- Index credits, interest credited and bonuses for the three and six months ended June 30, 2024, were higher compared to the three and six months ended June 30, 2023, primarily reflecting higher index credits and interest credited on indexed annuities and other policies as a result of market movement during the respective periods and higher interest credited associated with the growth in PRT agreements.

### Market Risk Benefit (Gains) Losses

Below is a summary of market risk benefit (gains) losses (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Market risk benefit (gains) losses	\$ 20	\$ (30)	\$ 9	\$ 29

- Market risk benefit (gains) losses is primarily driven by attributed fees collected, effects of market related movements (including changes in equity markets and risk-free rates), actual policyholder behavior as compared with expected and changes in assumptions during the periods.
- Changes in market risk benefit (gains) losses for the three and six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, primarily reflect changes in market related movements for the respective periods.

### Depreciation and Amortization

Below is a summary of the major components included in depreciation and amortization (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Amortization of DAC, VOBA and DSI	\$ 130	\$ 97	\$ 237	\$ 179
Amortization of other intangible assets and fixed asset depreciation	17	7	33	15
<b>Total depreciation and amortization</b>	<b>\$ 147</b>	<b>\$ 104</b>	<b>\$ 270</b>	<b>\$ 194</b>

- DAC, VOBA and DSI are amortized on a constant level basis for the grouped contracts over the expected term of the related contracts to approximate straight-line amortization. Amortization of DAC, VOBA and DSI increased for the three and six months ended June 30, 2024, compared to the three and six months ended June 30, 2023, primarily reflecting increased DAC and DSI associated with the growth of the business, as well as a slightly increased amortization rate on some DAC and DSI balances due to updates to the surrender and mortality assumptions for the indexed annuity and fixed-rate annuity blocks that occurred in the third quarter of 2023. In addition, VOBA amortization increased approximately \$15 million for the three and six months ended June 30, 2024 reflecting actuarial model updates and refinements.
- Amortization of other intangible assets and fixed asset depreciation for the three and six months ended June 30, 2024 included amortization of other intangible assets from our majority owned interest in Roar.

### Personnel Costs and Other Operating Expenses

Below is a summary of personnel costs and other operating expenses (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Personnel costs	\$ 69	\$ 56	\$ 135	\$ 109
Other operating expenses	46	33	104	69
<b>Total personnel costs and other operating expenses</b>	<b>\$ 115</b>	<b>\$ 89</b>	<b>\$ 239</b>	<b>\$ 178</b>

- Personnel costs and other operating expenses for the three and six months ended June 30, 2024 were higher compared to the three and six months ended June 30, 2023, reflecting costs in line with the growth in sales and assets along with continued investments in our operating platform. In addition, the three and six months ended June 30, 2024 includes \$7 million and \$18 million, respectively, from our majority owned interest in Roar.

### **Interest expense**

Below is a summary of interest expense (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024		2023	
	\$ 28	\$ 25	\$ 58	\$ 47
Interest expense				
<b>Total interest expense</b>	<b>\$ 28</b>	<b>\$ 25</b>	<b>\$ 58</b>	<b>\$ 47</b>

- Interest expense increased for the three and six months ended June 30, 2024, as compared to the three and six months ended June 30, 2023, primarily reflecting interest on the debt issuances in December 2023 and June 2024, partially offset by lower interest resulting from a partial repayment of the 5.5% F&G Notes in June 2024 and lower balances on the revolving credit facility.

### **Other Items Affecting Net Earnings**

#### **Income Tax Expense (Benefit)**

Below is a summary of the major components included in income tax expense (benefit) (dollars in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Earnings (loss) before taxes	\$ 254	\$ 163	\$ 396	\$ (40)
Income tax expense (benefit) before valuation allowance	49	31	74	(14)
Change in valuation allowance	1	2	2	39
<b>Income tax expense</b>	<b>\$ 50</b>	<b>\$ 33</b>	<b>\$ 76</b>	<b>\$ 25</b>
Effective rate	20 %	20 %	19 %	(63)%

- Income tax expense for the three months ended June 30, 2024 was \$50 million, compared to income tax expense of \$33 million for the three months ended June 30, 2023. The effective tax rate was 20% for both the three months ended June 30, 2024 and June 30, 2023, respectively. The increase in income tax expense period over period is primarily related to the increase in pre-tax income.
- Income tax expense for the six months ended June 30, 2024 was \$76 million, compared to income tax expense of \$25 million for the six months ended June 30, 2023. The effective tax rate was 19% and (63)% for the six months ended June 30, 2024 and June 30, 2023, respectively. The increase in income tax expense period over period is related to the increase in pre-tax income. Income tax expense for the six months ended June 30, 2023 contains an increase in the valuation allowance of \$39 million and the period over period increase would have been larger absent this amount.

#### Adjusted Net Earnings (See “—Non-GAAP Financial Measures”)

The table below shows the adjustments made to reconcile Net earnings (loss) attributable to common shareholders to Adjusted net earnings attributable to common shareholders (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Net earnings (loss) attributable to common shareholders	\$ 198	\$ 130	\$ 309	\$ (65)
<b>Non-GAAP adjustments:</b>				
Recognized (gains) and losses, net				
Net realized and unrealized (gains) losses on fixed maturity available-for-sale securities, equity securities and other invested assets	(37)	27	(85)	75
Change in allowance for expected credit losses	21	20	22	28
Change in fair value of reinsurance related embedded derivatives	(10)	(17)	8	2
Change in fair value of other derivatives and embedded derivatives	8	—	69	(1)
Recognized (gains) losses, net	(18)	30	14	104
Market related liability adjustments	(71)	(102)	(126)	142
Purchase price amortization	19	6	41	11
Transaction costs and other non-recurring items	(3)	—	(3)	2
Noncontrolling interest	(2)	—	(5)	—
Income taxes adjustment	16	15	17	(54)
<b>Adjusted net earnings attributable to common shareholders</b>	<b>\$ 139</b>	<b>\$ 79</b>	<b>\$ 247</b>	<b>\$ 140</b>

The commentary below is intended to provide additional information on the significant income and expense items that help explain the trends in our adjusted net earnings for each time period, as we believe these items provide further clarity to the financial performance of the business.

- Adjusted net earnings of \$139 million for the three months ended June 30, 2024 included \$145 million of investment income from alternative investments and \$4 million of collateral loan obligations (“CLO”) redemptions and bond prepay income, partially offset by \$16 million of actuarial model updates and refinements. Alternative investments investment income based on management’s long-term expected return of approximately 10% was \$165 million.
- Adjusted net earnings of \$79 million for the three months ended June 30, 2023 included \$82 million of investment income from alternative investments and \$5 million of bond prepay income. Alternative investments investment income based on management’s long-term expected return of approximately 10% was \$137 million.
- Adjusted net earnings of \$247 million for the six months ended June 30, 2024 included \$245 million of investment income from alternative investments and \$10 million of CLO redemptions and bond prepay income, partially offset by \$16 million of actuarial model updates and refinements. Alternative investments investment income based on management’s long-term expected return of approximately 10% was \$317 million.
- Adjusted net earnings of \$140 million for the six months ended June 30, 2023 included \$181 million of investment income from alternative investments and \$5 million of bond prepay income, offset by \$37 million tax valuation allowance expense. Alternative investments investment income based on management’s long-term expected return of approximately 10% was \$269 million.

#### Investment Portfolio

The types of assets in which we may invest are influenced by various state laws, which prescribe qualified investment assets applicable to insurance companies. Within the parameters of these laws, we invest in assets giving consideration to four primary investment objectives: (i) maintain robust absolute returns; (ii) provide reliable yield

and investment income; (iii) preserve capital; and (iv) provide liquidity to meet policyholder and other corporate obligations.

Our investment portfolio is designed to contribute stable earnings, excluding short term mark to market effects, and balance risk across diverse asset classes and is primarily invested in high quality fixed income securities.

As of June 30, 2024 and December 31, 2023, the fair value of our investment portfolio was approximately \$55 billion and \$52 billion, respectively, and was divided among the following asset classes and sectors (dollars in millions):

	June 30, 2024		December 31, 2023	
	Fair Value	Percent	Fair Value	Percent
<b>Fixed maturity securities, available for sale:</b>				
United States Government full faith and credit	\$ 237	— %	\$ 261	1 %
United States Government sponsored entities	32	— %	31	— %
United States municipalities, states and territories	1,422	3 %	1,567	3 %
Foreign Governments	223	— %	226	— %
<b>Corporate securities:</b>				
Finance, insurance and real estate	7,905	14 %	6,895	13 %
Manufacturing, construction and mining	1,135	2 %	947	2 %
Utilities, energy and related sectors	2,507	5 %	2,374	5 %
Wholesale/retail trade	2,713	5 %	2,433	5 %
Services, media and other	4,118	8 %	3,930	8 %
Hybrid securities	639	1 %	618	1 %
Non-agency residential mortgage-backed securities	2,413	4 %	2,393	5 %
Commercial mortgage-backed securities	4,930	9 %	4,410	9 %
Asset-backed securities	9,880	18 %	8,929	17 %
Collateral loan obligations	5,672	10 %	5,405	10 %
<b>Total fixed maturity available for sale securities</b>	<b>\$ 43,826</b>	<b>79 %</b>	<b>\$ 40,419</b>	<b>79 %</b>
Equity securities (a)	479	1 %	606	1 %
<b>Limited partnerships:</b>				
Private equity	1,605	3 %	1,277	2 %
Real assets	527	1 %	463	1 %
Credit	1,210	2 %	1,039	2 %
<b>Limited Partnerships</b>	<b>3,342</b>	<b>6 %</b>	<b>2,779</b>	<b>5 %</b>
Commercial mortgage loans	2,254	4 %	2,253	4 %
Residential mortgage loans	2,568	5 %	2,545	5 %
Other (primarily derivatives, company owned life insurance and unconsolidated owned distribution investments)	2,055	4 %	1,697	3 %
Short term investments	421	1 %	1,452	3 %
<b>Total investments</b>	<b>\$ 54,945</b>	<b>100 %</b>	<b>\$ 51,751</b>	<b>100 %</b>

(a) Includes investment grade non-redeemable preferred stocks (\$283 million and \$428 million at June 30, 2024 and December 31, 2023, respectively).

Insurance statutes regulate the type of investments that our life insurance subsidiaries are permitted to make and limit the amount of funds that may be used for any one type of investment. In light of these statutes and regulations, and our business and investment strategy, we generally seek to invest in primarily high-grade fixed-income assets across a wide range of sectors, including Corporate securities, U.S. Government and government-sponsored agency securities, and Structured securities, among others.

The NAIC's Securities Valuation Office ("SVO") is responsible for the day-to-day credit quality assessment and valuation of securities owned by state regulated insurance companies. Insurance companies report ownership of securities to the SVO when such securities are eligible for regulatory filings. The SVO conducts credit analysis on these securities for the purpose of assigning an NAIC designation or unit price. Typically, if a security has been

rated by a nationally recognized statistical rating organization ("NRSRO"), the SVO utilizes that rating and assigns an NAIC designation based upon the NAIC published comparison of NRSRO ratings to NAIC designations.

The NAIC determines ratings for non-agency Residential Mortgage-backed Securities ("RMBS") and commercial mortgage-backed securities ("CMBS") using modeling that estimates security level expected losses under a variety of economic scenarios. For such assets issued prior to January 1, 2013, an insurer's amortized cost basis in applicable assets can impact the assigned rating. In the tables below, we present the rating of structured securities based on ratings from the NAIC rating methodologies described above (which in some cases do not correspond to rating agency designations). All NAIC designations (e.g., NAIC 1-6) are based on the NAIC methodologies.

The following table summarizes the credit quality by NRSRO rating, or NAIC designation equivalent, of our fixed income portfolio (dollars in millions) at June 30, 2024 and December 31, 2023:

NRSRO Rating	NAIC Designation	June 30, 2024			December 31, 2023		
		Amortized Cost	Fair Value	Fair Value Percent	Amortized Cost	Fair Value	Fair Value Percent
AAA/AA/A	1	\$ 30,189	\$ 28,053	64 %	\$ 28,052	\$ 26,170	65 %
BBB	2	14,853	13,719	31 %	13,421	12,302	30 %

<b>Total fixed maturity available-for-sale securities</b>	<b>\$ 47,236</b>	<b>\$ 43,826</b>	<b>\$ 43,601</b>	<b>\$ 40,419</b>

#### Non-Agency RMBS Exposure

Our investment in non-agency RMBS securities is predicated on the conservative and adequate cushion between purchase price and NAIC 1 rating, general lack of sensitivity to interest rates, positive convexity to prepayment rates and correlation between the price of the securities and the unfolding recovery of the housing market.

The fair value of our investments in subprime securities and Alt-A RMBS securities were \$30 million and \$46 million as of June 30, 2024, respectively, and \$33 million and \$49 million as of December 31, 2023, respectively. As of both June 30, 2024 and December 31, 2023, approximately 95% of the subprime and Alt-A RMBS exposures were rated NAIC 2 or higher.

#### ABS and CLO Exposures

Our ABS exposures are largely diversified by underlying collateral and issuer type. Our CLO exposures are generally senior tranches of CLOs which have leveraged loans as their underlying collateral.

As of June 30, 2024, the CLO and ABS positions were trading at a net unrealized gain position of \$120 million and a net unrealized loss of \$239 million, respectively. As of December 31, 2023, the CLO and ABS positions were trading at a net unrealized gain position of \$65 million and a net unrealized loss of \$344 million, respectively.

The following table summarizes the credit quality by NRSRO rating, or NAIC designation equivalent, of our AFS ABS portfolio (dollars in millions) at June 30, 2024 and December 31, 2023.

NRSRO Rating	NAIC Designation	June 30, 2024		December 31, 2023	
		Fair Value	Percent	Fair Value	Percent

CC and lower	6	41	1%	38	1%
<b>Total</b>		<b>\$ 5,672</b>	<b>100%</b>	<b>\$ 5,405</b>	<b>100%</b>

#### Municipal Bond Exposure

Our municipal bond exposure is a combination of general obligation bonds (fair value of \$200 million and \$231 million and an amortized cost of \$241 million and \$268 million as of June 30, 2024 and December 31, 2023, respectively) and special revenue bonds (fair value of \$1,222 million and \$1,334 million and an amortized cost of \$1,417 million and \$1,506 million as of June 30, 2024 and December 31, 2023, respectively).

Across all municipal bonds, the largest issuer represented 5% of the category for both June 30, 2024 and December 31, 2023, and is rated NAIC 1. Our focus within municipal bonds is on NAIC 1 rated instruments, and 97% and 98% of our municipal bond exposure is rated NAIC 1 for June 30, 2024 and December 31, 2023, respectively.

#### Mortgage Loans

##### Commercial Mortgage Loans

We diversify our commercial mortgage loans ("CMLs") portfolio by geographic region and property type to attempt to reduce concentration risk. We continuously evaluate CMLs based on relevant current information to ensure properties are performing at a level to secure the related debt. Loan-to-value ("LTV") and debt-service coverage ("DSC") ratios are utilized to assess the risk and quality of CMLs. As of June 30, 2024 and December 31, 2023, our mortgage loans on real estate portfolio both had a weighted average DSC ratio of 2.3 times, and a weighted average LTV ratio of 56% and 55%, respectively.

We consider a CML delinquent when a loan payment is greater than 30 days past due. For mortgage loans that are determined to require foreclosure, the carrying value is reduced to the fair value of the underlying collateral, net of estimated costs to obtain and sell at the point of foreclosure. As of June 30, 2024 and December 31, 2023, we had no CMLs that were delinquent in principal or interest payments and none in the process of foreclosure. See Note C - *Investments* to the unaudited Condensed Financial Statements included in this report for additional information on our CMLs, including our distribution by property type, geographic region, LTV and DSC ratios.

#### *Residential Mortgage Loans*

Our residential mortgage loans ("RML") are closed end, amortizing loans, and 100% of the properties are in the United States. We diversify our RML portfolio by state to attempt to reduce concentration risk. RMLs have a primary credit quality indicator of either a performing or nonperforming loan. We define nonperforming RMLs as those that are 90 or more days past due and/or in nonaccrual status.

Loans are placed on nonaccrual status when they are over 90 days delinquent. If a loan becomes over 90 days delinquent, it is our general policy to initiate foreclosure proceedings unless a workout arrangement to bring the loan current can be put in place. See Note C — *Investments* to the unaudited Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q for additional information on our RMLs.

#### **Unrealized Losses**

The amortized cost and fair value of the fixed maturity securities and the equity securities that were in an unrealized loss position as of June 30, 2024 and December 31, 2023, were as follows (dollars in millions):

	June 30, 2024				
	Number of Securities	Amortized Cost	Allowance for Expected Credit Losses	Unrealized Losses	Fair Value

Wholesale/retail trade	332	2,165	—	(397)	1,768
Services, media and other	401	3,370	—	(686)	2,684
Hybrid securities	36	597	—	(53)	544
Non-agency residential mortgage-backed securities	244	1,118	(2)	(101)	1,015
Commercial mortgage-backed securities	435	3,198	(22)	(323)	2,853
Asset-backed securities	800	8,078	(9)	(470)	7,599
<b>Total fixed maturity available for sale securities</b>	<b>3,612</b>	<b>29,174</b>	<b>(33)</b>	<b>(3,591)</b>	<b>25,550</b>
Equity securities	41	567	—	(100)	467
<b>Total investments</b>	<b>3,653</b>	<b>\$ 29,741</b>	<b>\$ (33)</b>	<b>\$ (3,691)</b>	<b>\$ 26,017</b>

The gross unrealized loss position on the fixed maturity available-for-sale fixed and equity portfolio was \$3,847 million and \$3,691 million as of June 30, 2024 and December 31, 2023, respectively. Most components of the portfolio exhibited price depreciation caused primarily by higher treasury rates. The total amortized cost of all securities in an unrealized loss position was \$30,219 million and \$29,741 million as of June 30, 2024 and December 31, 2023, respectively. The average market value/book value of the investment category with the largest unrealized loss position was 80% for services, media and other as of June 30, 2024. In the aggregate, services, media and other represented 22% of the total unrealized loss position as of June 30, 2024. The average market value/book value of the investment category with the largest unrealized loss position was 88% for finance, insurance and real estate as of December 31, 2023. In aggregate, finance, insurance and real estate represented 19% of the total unrealized loss position as of December 31, 2023.

The amortized cost and fair value of fixed maturity available for sale securities under watch list analysis and the number of months in a loss position with investment grade securities (NRSRO rating of BBB/Baa or higher) as of June 30, 2024 and December 31, 2023, were as follows (dollars in millions):

	June 30, 2024				
	Number of Securities	Amortized Cost	Fair Value	Allowance for Credit Loss	Gross Unrealized Losses
<b>Investment grade:</b>					
Less than six months	1	\$ 1	\$ 1	\$ —	\$ —

#### **Expected Credit Losses and Watch List**

We prepare a watch list to identify securities to evaluate for expected credit losses. Factors used in preparing the watch list include fair values relative to amortized cost, ratings and negative ratings actions and other factors. Detailed analysis is performed for each security on the watch list to further assess the presence of credit impairment loss indicators and, where present, calculate an allowance for expected credit loss or direct write-down of a security's amortized cost.

At June 30, 2024, our watch list included 115 securities in an unrealized loss position with an amortized cost of \$1,449 million, no allowance for expected credit losses, unrealized losses of \$450 million and a fair value of \$999 million.

At December 31, 2023, our watch list included 52 securities in an unrealized loss position with an amortized cost of \$722 million, no allowance for expected credit losses, unrealized losses of \$205 million and a fair value of \$517 million.

The watch list excludes structured securities as we have separate processes to evaluate the credit quality on the structured securities.

There were 50 and 101 structured securities with a fair value of \$163 million and \$316 million to which we had potential credit exposure as of June 30, 2024 and December 31, 2023, respectively. Our analysis of these structured securities, which included cash flow testing, resulted in allowances for expected credit losses of \$58 million and \$35 million as of June 30, 2024 and December 31, 2023, respectively.

#### **Exposure to Sovereign Debt and Certain Other Exposures**

Our investment portfolio had an immaterial amount of direct exposure to European sovereign debt as of June 30, 2024 and December 31, 2023, respectively. We have no exposure to investments in Russia or Ukraine and de minimis investments in peripheral countries in the region.

#### **Interest and Investment Income**

For discussion regarding our interest and investment income and recognized gains and (losses), net, refer to Note C - *Investments* to the unaudited Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report on Form 10-Q.

#### **AFS Securities**

For additional information regarding our AFS securities, including the amortized cost, gross unrealized gains (losses), and fair value as well as the amortized cost and fair value of fixed maturity AFS securities by contractual maturities, as of June 30, 2024 and December 31, 2023, refer to Note C - *Investments* to the unaudited Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report on Form 10-Q.

#### **Concentrations of Financial Instruments**

For certain information regarding our concentrations of financial instruments, refer to Note C - *Investments* to the unaudited Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report on Form 10-Q.

#### **Derivatives**

We are exposed to credit loss in the event of nonperformance by our counterparties on derivative instruments. We attempt to reduce this credit risk by purchasing such derivative instruments from large, well-established financial institutions.

We also hold Cash and cash equivalents received from counterparties for derivative instrument collateral, as well as U.S. Government securities pledged as derivative instrument collateral, if our counterparty's net exposures exceed pre-determined thresholds.

We are required to pay counterparties the effective federal funds rate each day for cash collateral posted to F&G for daily mark-to-market margin changes. We reduce the negative interest cost associated with cash collateral posted from counterparties under various ISDA agreements by reinvesting derivative cash collateral. This program permits collateral cash received to be invested in short term Treasury securities, bank deposits and commercial paper rated A1/P1, which are included in Cash and cash equivalents in the accompanying unaudited Condensed Consolidated Balance Sheets.

See Note D - *Derivative Financial Instruments* to the unaudited Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report on Form 10-Q for additional information regarding our derivatives and our exposure to credit loss on derivatives.

#### **Liquidity and Capital Resources**

Liquidity refers to the ability of an enterprise to generate adequate amounts of cash from its normal operations to meet cash requirements with a prudent margin of safety. Our principal sources of cash flow from operating activities are annuity considerations, insurance premiums, and fees and investment income. We also generate cash inflows from investing activities resulting from maturities and sales of invested assets and from financing activities including inflows on our investment-type products, proceeds from borrowing activities and issuances of preferred stock. Our operating activities provided cash of \$2,589 million and \$2,817 million for the six months ended June 30, 2024 and June 30, 2023, respectively. When considering our liquidity and cash flow, it is important to distinguish between the needs of our insurance subsidiaries and the needs of the holding company, F&G Annuities & Life, Inc. As a holding company with no operations of its own, F&G Annuities & Life, Inc. derives its cash primarily from its insurance subsidiaries and CF Bermuda Holdings Ltd. ("CF Bermuda"), a Bermuda exempted limited liability company and a wholly owned direct subsidiary of the Company, a downstream holding company that provides additional sources of liquidity. Dividends from our insurance subsidiaries flow through CF Bermuda to F&G Annuities & Life, Inc. F&G Cayman Re, a licensed class D insurer in the Cayman Islands and a wholly owned direct subsidiary of the Company, could also provide dividends directly to F&G Annuities & Life, Inc.

The sources of liquidity of the holding company are principally comprised of dividends from subsidiaries, lines of credit (at the F&G Annuities & Life, Inc. level), existing surplus notes, investment income on holding company assets and the ability to raise long-term public financing under an SEC-filed registration statement or private

placement offering. These sources of liquidity and cash flow support the general corporate needs of the holding company, interest and debt service, funding acquisitions and investment in core businesses.

On January 2, 2024, F&G acquired a 70% majority ownership stake in the equity of Roar. Total initial consideration is comprised of cash of approximately \$269 million, and under the terms of the purchase agreement, the Company has agreed to make cash payments of up to approximately \$90 million over a three-year period upon the achievement of certain earnings before interest, taxes, depreciation and amortization ("EBITDA") milestones of Roar.

On January 12, 2024, we completed a \$250 million preferred stock investment from FNF. F&G will use net proceeds from the investment to support the growth of its assets under management. Under the terms of the agreement, FNF agreed to invest \$250 million in exchange for 5,000,000 shares of F&G's 6.875% Series A Mandatory Convertible Preferred Stock, par value \$0.001 per share, liquidation preference of \$50.00 per share (the "FNF Preferred Stock"). Unless earlier converted at the option of the holder, each outstanding share of the FNF Preferred Stock will automatically convert into shares of F&G common stock on January 15, 2027. Generally, no dividends will be declared or paid on F&G common stock and no common stock can be acquired by F&G unless all preferred dividends are declared and paid on the outstanding FNF Preferred Stock.

The offer and the sale of the FNF Preferred Stock were made in a private placement pursuant to an exemption from registration under Section 4(a)(2) of the Securities Act. The agreement was negotiated pursuant to market terms and pricing by a Special Committee of F&G's Board of Directors comprised of independent members of the Board, in consultation with an independent financial advisor and independent legal counsel.

On February 16, 2024, F&G entered into an amendment and extension of its existing senior unsecured revolving credit agreement (the "Credit Agreement"). The maturity date of the Credit Agreement has been extended by approximately two years from November 22, 2025 to November 22, 2027. Total borrowing availability increased from \$665 million to \$750 million. Pricing and advance rates remain unchanged. Financial covenants also remain essentially the same.

On June 4, 2024, F&G completed its public offering of \$550 million aggregate principal amount of its 6.50% Senior Notes due 2029 (the "6.50% F&G Notes"). The 6.50% F&G Notes are guaranteed on an unsecured, unsubordinated basis by each of F&G's subsidiaries that are guarantors of F&G's obligations under its existing credit agreement. A portion of the net proceeds were used to finance a cash tender offer by its wholly owned subsidiary Fidelity & Guaranty Life Holdings, Inc. ("FGLH") for an aggregate principal amount of \$250 million of FGLH's 5.50% Senior Notes due 2025 (the "5.50% F&G Notes"). F&G intends to use the remaining net proceeds of this offering for general corporate purposes, which may include the repurchase, redemption or repayment at maturity of outstanding indebtedness. The 6.50% F&G Notes were registered under the Securities Act of 1934 (as amended) (the "Securities Act").

*Cash Requirements.* Our current cash requirements include personnel costs, operating expenses, benefit payments, funding agreement payments, taxes, payments of interest and principal on our debt, capital expenditures, business acquisitions, stock repurchases and dividends on our common stock. During the first six months of 2024, we paid common and preferred dividends of approximately \$57 million. In addition, preferred dividends of \$5 million declared in the second quarter of 2024 were paid on July 15, 2024.

On July 31, 2024, our Board of Directors declared (a) a quarterly cash dividend of \$0.8594 per share on the FNF Preferred Stock for the period from July 15, 2024 to and excluding October 15, 2024, to be paid on October 15, 2024, to FNF Preferred Stock record holders on October 1, 2024 and, (b) a quarterly cash dividend of \$0.21 per common share, payable on September 30, 2024, to F&G common shareholders of record as of September 16, 2024.

There are no restrictions on our retained earnings regarding our ability to pay dividends to our shareholders, although there are limits on the ability of certain subsidiaries to pay dividends to us, as described below. As discussed above, there are certain conditions on the declaration and payment of dividends pursuant to our recent preferred stock issuance. The declaration of any future dividends is at the discretion of our Board of Directors.

There were no purchases of stock pursuant to our stock repurchase program during the six months ended June 30, 2024. At June 30, 2024, the total remaining authorization of F&G common stock that may be repurchased was approximately \$32 million.

As of June 30, 2024 and December 31, 2023, we had Cash and cash equivalents of \$3,526 million and \$1,563 million, respectively, short term investments of \$421 million and \$1,452 million, respectively. As of June 30, 2024 we had \$385 million of remaining capacity under our revolving credit facility and \$200 million of capacity under our revolving credit facility with FNF (the "FNF Credit Facility"). No amount was outstanding under the FNF Credit Facility as of June 30, 2024. Refer to *Financing Arrangements* below and Note L - *Notes Payable* of the unaudited Condensed Consolidated Financial Statements in Part I - Item 1 of this Quarterly Report on Form 10-Q for further information regarding our borrowings.

Our two significant sources of internally generated funds are dividends and other payments from our subsidiaries. As a holding company, we receive cash from our subsidiaries in the form of dividends and as reimbursement for operating and other administrative expenses we incur. The reimbursements are paid within the guidelines of management agreements among us and our subsidiaries. As discussed below, our insurance subsidiaries are restricted by state regulation and other laws in their ability to pay dividends and make distributions. As of December 31, 2023, approximately \$4.2 billion of our net assets were restricted from dividend payments without prior approval from the relevant departments of insurance.

The maximum dividend permitted by law is not necessarily indicative of an insurer's actual ability to pay dividends, which may be constrained by business and regulatory considerations, such as the impact of dividends on surplus, which could affect an insurer's ratings or competitive position, the amount of premiums that can be written and the ability to pay future dividends.

#### ***Dividend and Other Distribution Payment Limitations***

The insurance laws of Iowa and New York regulate the amount of dividends that may be paid in any year by FGL Insurance and FGL NY Insurance, respectively. Likewise, the insurance laws of Bermuda limit the maximum amount of annual dividends and distributions that may be paid or distributed by F&G Life Re without prior regulatory approval and those of the Cayman Islands require that, among other things, F&G Cayman Re maintain minimum levels of statutory capital, surplus and liquidity, meet solvency standards, submit to periodic examinations of its financial condition and restrict payments of dividends and reductions of capital. Please refer to Note O - *Insurance Subsidiary Financial Information and Regulatory Matters* included in Part I - Item I of this Quarterly Report on Form 10-Q and our Annual Report on Form 10-K for the year ended December 31, 2023 for additional details on dividends from insurance subsidiaries, statutory capital and risk-based capital.

#### ***Cash Flow From our Operations***

Cash flow from our operations will be used for general corporate purposes including to reinvest in operations, repay debt, pay dividends, repurchase stock, pursue other strategic initiatives and/or conserve cash.

*Operating Cash Flow.* Our cash flows provided by operations for the six months ended June 30, 2024 and June 30, 2023, were \$2,589 million and \$2,817 million, respectively. Cash provided by operations for the six months ended June 30, 2024 and June 30, 2023 included approximately \$700 million and \$500 million of net cash received for PRT transactions, respectively, included in the change in future policy benefits.

*Investing Cash Flows.* Our cash used in investing activities for the six months ended June 30, 2024 and June 30, 2023, were \$(3,229) million and, \$(4,246) million, respectively, primarily reflecting net purchases of investments. Cash used in investing activities for the six months ended June 30, 2024 also included a net cash outflow of \$268 million for the Roar acquisition.

***Financing Cash Flows.*** Our cash flows provided by financing activities for the six months ended June 30, 2024 and June 30, 2023, were \$2,603 million and \$2,157 million, respectively and reflected higher net contractholder deposits in 2024, as compared to 2023. Net contractholder deposits in 2024 included FABN issuances of \$600 million as compared to no FABN issuances for 2023. In addition, cash provided by financing activities for the six months ended June 30, 2024 included borrowing proceeds of \$550 million, a portion of which were used to used to finance a \$250 million cash tender offer, and proceeds of \$250 million from the issuance of the FNF Preferred Stock, all discussed above. Cash provided by financing activities for the six months ended June 30, 2023 included borrowing proceeds of \$500 million partially offset by a net partial revolver paydown of \$35 million.

***Financing Arrangements.*** For a description of our financing arrangements see Note L - *Notes Payable* to the unaudited Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report on Form 10-Q for additional details on unfunded commitments.

***Preferred and Equity Security Investments.*** Our preferred and equity security investments may be subject to significant volatility. Currently prevailing accounting standards require us to record the change in fair value of preferred and equity security investments held as of any given period end within earnings. Our results of operations in future periods are anticipated to be subject to such volatility.

***Off-Balance Sheet Arrangements.*** Throughout our history, we have entered in indemnifications in the ordinary course of business with our customers, suppliers, service providers, business partners and in certain instances, when we sold businesses. Additionally, we have indemnified our directors and officers who are, or were, serving at our request in such capacities. Although the specific terms or number of such arrangements is not precisely known due to the extensive history of our past operations, costs incurred to settle claims related to these indemnifications have not been material to our financial statements. We have no reason to believe that future costs to settle claims related to our former operations will have a material impact on our financial position, results of operations or cash flows.

We have unfunded commitments as of June 30, 2024 based upon the timing of when investments and agreements are executed or signed compared to when the actual commitments are funded or closed. Some investments require that funding occur over a period of months or years. Please refer to Note C - *Investments* and Note N - *Commitments and Contingencies* to the unaudited Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report on Form 10-Q for additional details on unfunded commitments.

***FHLB Collateral.*** We are currently a member of the FHLB and are required to maintain a collateral deposit that backs any funding agreements issued. We use these funding agreements as part of a spread enhancement strategy. We have the ability to obtain funding from the FHLB based on a percentage of the value of our assets, subject to the availability of eligible collateral. Collateral is pledged based on the outstanding balances of FHLB funding agreements. The amount of funding varies based on the type, rating and maturity of the collateral posted to the FHLB. Generally, U.S. government agency notes, mortgage-backed securities, municipal bonds, and commercial and residential whole loans are pledged to the FHLB as collateral. Market value fluctuations resulting from changes in interest rates, spreads and other risk factors for each type of asset are monitored and additional collateral is either pledged or released as needed.

Our borrowing capacity under these credit facilities does not have an expiration date as long as we maintain a satisfactory level of creditworthiness based on the FHLB's credit assessment. As of June 30, 2024 and December 31, 2023, we had \$2,856 million and \$2,514 million, respectively, in FHLB non-putable funding agreements included under contractholder funds on our unaudited Condensed Consolidated Balance Sheet. As of June 30, 2024 and December 31, 2023, we had assets with a fair value of approximately \$4,886 million and \$4,345 million, respectively, which collateralized the FHLB funding agreements. Assets pledged to the FHLB are primarily included in fixed maturities, AFS, on our unaudited Condensed Consolidated Balance Sheets.

***Collateral-Derivative Contracts.*** Under the terms of our ISDA agreements, we may receive from, or deliver to, counterparties collateral to assure that all terms of the ISDA agreements will be met with regard to the Credit Support Annex ("CSA"). The terms of the CSA call for us to pay interest on any cash received equal to the federal funds rate. As of June 30, 2024 and December 31, 2023, \$1,011 million, and \$775 million, respectively, of collateral

was posted by our counterparties as they did not meet the net exposure thresholds. Collateral requirements are monitored on a daily basis and incorporate changes in market values of both the derivatives contract as well as the collateral pledged. Market value fluctuations are due to changes in interest rates, spreads and other risk factors.

Our cash flows associated with collateral received from and posted with counterparties change as the market value of the underlying derivative contract changes. As the value of a derivative asset declines (or increases), the collateral required to be posted by our counterparties would also decline (or increase). Likewise, when the value of a derivative liability declines (or increases), the collateral we are required to post to our counterparties would also decline (or increase).

**Subsequent Event.** On July 18, 2024 F&G acquired a 100% majority ownership stake in the equity of PALH, LLC ("PALH"). PALH markets and sells life insurance and annuity products of various insurance carriers to individuals through a network of agents. Prior to the acquisition date, PALH owned a 70% ownership stake in an operating company of which F&G owned 30% equity. Total consideration to acquire the remaining 70% equity is comprised of cash of approximately \$216 million.

#### **Guarantor Financial Information**

Our 2024 issuance of the 6.50% F&G Notes and the 2023 issuances of the 7.40% F&G Notes and the 7.95% F&G Notes are fully and unconditionally guaranteed on a senior, unsecured, unsubordinated basis, jointly and severally, by each of our existing and future direct and indirect subsidiaries that are guarantors of our obligations under the credit agreement (collectively, the "obligor group"). Refer to Note L - *Notes Payable* of the unaudited Condensed Consolidated Financial Statements in Part I - Item 1 of this Quarterly Report on Form 10-Q for further information regarding these borrowings.

Set forth below is summarized unaudited financial information of the obligor group, as presented on a combined basis (dollars in millions). Intercompany transactions and balances within the obligor group have been eliminated. In addition, financial information of any non-guarantor subsidiaries, which would normally be consolidated by either F&G or the guarantors under GAAP, has been excluded from such presentation.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

In the normal course of business, we are routinely subject to a variety of risks, as described in "Part I - Item 1A. *Risk Factors*" included in our Annual Report on Form 10-K for the year ended December 31, 2023 and, as applicable, Part II - Item 1A. *Risk Factors* included in this Quarterly Report on Form 10-Q. The risks related to our business also include certain market risks that may affect our financial instruments and certain liabilities.

At present, we face the market risks associated with our marketable equity securities, liability for Contractholder Funds, and balances for MRBs which are subject to equity price volatility and with interest rate movements on our fixed income investments and liabilities for debt, FPBs, MRBs, and Contractholder Funds.

We regularly assess these market risks and have established policies and business practices designed to protect against the adverse effects of these exposures.

Additionally, financial instruments, which potentially subject us to concentrations of credit risk, consist primarily of cash equivalents, derivatives and short-term investments. We require placement of cash in financial institutions evaluated as highly creditworthy.

For information about our enterprise risk management and a description of our market risk exposures, including strategies used to manage our exposure to market risk, see "Part II - Item 7A. *Quantitative and Qualitative Disclosures about Market Risk*" included in our Annual Report on Form 10-K for the year ended December 31, 2023.

During the six months ended June 30, 2024, there were no material changes to our market risk exposures from those previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2023, except as described below.

#### ***Interest Rate Risk***

An increase in the levels of interest rates of 100 basis points, with all other variables held constant, would result in a decrease in the fair value of our fixed maturity securities and certain investments in preferred securities of approximately \$2.6 billion, a net decrease in the fair value of interest rate swaps of approximately \$0.1 billion and a net decrease in the combined fair value of embedded derivatives and MRBs of approximately \$0.5 billion at June 30, 2024. In addition, a 100bps shift in interest rates for our floating rate debt and funding agreements will increase or decrease floating expense by approximately \$20 million per year. As noted in our Annual Report on Form 10-K for the year ended December 31, 2023, the impact to net earnings related to the interest rate swaps and floating rate notes payable and funding agreements will be significantly offset by corresponding changes in investment income associated with our floating rate investments.

#### ***Equity Price Risk***

At June 30, 2024, a 10% decrease in market prices, with all other variables held constant, would result in a net decrease in the fair value of our equity securities portfolio of approximately \$48 million.

#### ***Credit Risk and Counterparty Risk***

See Note D - *Derivative Financial Instruments* in the unaudited Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report on Form 10-Q for additional information regarding our exposure to credit loss for derivatives.

In the normal course of business, certain reinsurance recoverables are subject to reviews by the reinsurers. We are not aware of any material disputes arising from these reviews or other communications with the counterparties as of June 30, 2024 that would require an increase to the allowance for credit losses. For information on concentrations

of reinsurance risk, refer to Note E - *Reinsurance* in the unaudited Condensed Consolidated Financial Statements included in Part I - Item 1 of this Quarterly Report on Form 10-Q.

For further information on certain risk associated with our business, refer to Note N - *Commitments and Contingencies* in the unaudited Condensed Consolidated Financial Statements included in Part I - Item 1 of this Quarterly Report on Form 10-Q.

#### ***Use of Estimates and Assumptions***

The preparation of our unaudited Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions used.

#### ***Concentrations of Financial Instruments***

Refer to *Management's Discussion and Analysis of Financial Condition and Results of Operations - Investment Portfolio - Investment Concentrations* included in Item 2 of Part I of this Quarterly Report on Form 10-Q regarding the top ten investment concentrations of our fixed maturity and equity securities including the fair value and percent of total fixed maturity and equity securities fair value as of June 30, 2024 and December 31, 2023.

Refer to Note C - *Investments* in the unaudited Condensed Consolidated Financial Statements included in Part I - Item 1 of this Quarterly Report on Form 10-Q for our underlying investment concentrations that exceed 10% of shareholders equity as of June 30, 2024.

### **Item 4. Controls and Procedures**

#### ***Evaluation of Disclosure Controls and Procedures***

As of the end of the period covered by this report, we carried out an evaluation was performed under the supervision and with participation of the Company's management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this report. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that, as of June 30, 2024, the Company's disclosure controls and procedures were effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and is accumulated and communicated to the Company's management, including the Company's CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

We completed the Roar acquisition on January 2, 2024 (see Note P - *Acquisition* of the Notes to the unaudited Condensed Consolidated Financial Statements included in Part I. Item 1 of this Quarterly Report on Form 10-Q). The scope of management's assessment of the effectiveness of the Company's disclosure controls and procedures did not include the internal controls over financial reporting of Roar. This exclusion is in accordance with the SEC Staff's general guidance that an assessment of a recently acquired business may be omitted from the scope of management's assessment for one year following the acquisition. Roar represented approximately 1.5% of our total revenues for the three and six months ended June 30, 2024. Total assets of the acquired business as of June 30, 2024 represented approximately 0.6% of total consolidated assets, consisting principally of goodwill and intangible assets.

As a result of the closing of the Roar acquisition, we have incorporated internal controls over significant processes specific to the acquisition that we believe are appropriate and necessary in consideration of the level of

related integration. As the post-closing integration continues, we will continue to review the internal controls and processes of Roar and may take further steps to integrate such controls and processes with those of the Company.

Notwithstanding the foregoing, there can be no assurance that the Company's disclosure controls and procedures will detect or uncover all failures of persons within the Company to disclose material information otherwise required to be set forth in the Company's periodic reports. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable, not absolute, assurance of achieving their control objectives.

#### **Changes in Internal Control Over Financial Reporting**

There were no changes in the Company's internal control over financial reporting that occurred during the quarter ended June 30, 2024 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

#### **Limitations on the Effectiveness of Controls**

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

## **Part II - Other Information**

### **Item 1. Legal Proceedings**

See discussion of legal proceedings in Note N - *Commitments and Contingencies* to the unaudited Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report on Form 10-Q, which is incorporated by reference into this Item 1 of Part II.

### **Item 1A. Risk Factors**

In addition to the information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the "Risk Factors" disclosed under "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2023. You should be aware that these risk factors and other information may not describe every risk facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. Except as discussed below, there have been no material changes as of the date of this report to the risk factors disclosed in "Item 1A. Risk Factors" included in our Annual Report on Form 10-K for the year ended December 31, 2023.

***Current and emerging developments relating to market conduct standards for the financial industry emerging from the Department of Labor's ("DOL") implementation of the "fiduciary rule" may over time materially affect our business.***

In December 2020, the DOL issued its final version of an investment advice rule replacing the previous "Fiduciary Rule" that had been challenged by industry participants and vacated in March 2018 by the United States Fifth Circuit Court of Appeals. The new investment advice rule reinstates the five-part test for determining whether a person is considered a fiduciary for purposes of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986, as amended (the "Code"), and sets forth a new exemption, referred to as prohibited transaction class exemption ("PTE") 2020-02. The rule's preamble also contains the DOL's reinterpretation of elements of the five-part test that appears to encompass more insurance agents selling IRA products and withdraws the DOL's longstanding position that rollover recommendations out of employer plans are not subject to ERISA. The new rule took effect on February 16, 2021. The DOL left in place PTE 84-24, which is a longstanding class exemption providing prohibited transaction relief for insurance agents selling annuity products, provided that certain disclosures are made to the plan fiduciary, which is the policyholder in the case of an IRA, and certain other conditions are met. Among other things, these disclosures include the agent's relationship to the insurer and commissions received in connection with the annuity sale. We, along with FGL Insurance and FGL NY Insurance, designed and launched a compliance program in January 2022 requiring all agents selling IRA products to submit an acknowledgment with each IRA application indicating the agent has satisfied PTE 84-24 requirements on a precautionary basis in case the agent acted or is found to have acted as a fiduciary. Meanwhile, the DOL has publicly announced its intention to consider future rulemaking that may revoke or modify PTE 84-24.

On April 23, 2024, following previous attempts to expand fiduciary regulation for advisers, the DOL released a new rule, the New Fiduciary Rule, which significantly broadens the definition of "fiduciary" under ERISA and Section 4975 when advisers provide investment recommendations to plans subject to ERISA and Section 4975 of the Code. Among other requirements, the New Fiduciary Rule provides that any person will be an investment advice fiduciary such person provides investment advice or makes an investment recommendation to a retirement investor (i.e., a plan, a discretionary plan fiduciary, a plan participant or beneficiary, an IRA, an IRA owner or beneficiary, or an IRA fiduciary) for a fee or other compensation, the person makes professional investment recommendations to investors on a regular basis as part of their business, and the recommendation is provided under circumstances that would indicate to a reasonable investor in like circumstances that the recommendation is based on a review of the particular needs or individual investor circumstances of the retirement investor, reflects the application of professional or expert judgment to the retirement investor's particular needs or individual circumstances, and may be relied upon by the retirement investor as intended to advance the retirement investor's best interest. Unlike the current ERISA standard, the New Fiduciary Rule subjects non-discretionary investment advice to retirement plans and accounts care and loyalty standards that also apply to investment advisors with

discretionary authority or control over such plans and accounts. In addition, on the same date, the DOL issued amended versions of PTE 2020-02 and PTE 84-24, either or both of which provide prohibited transaction exemptive relief to insurance companies and insurance producers who make insurance product recommendations to retirement investors, subject to certain conditions. The New Fiduciary Rule likely means that certain of the Company's agents will be considered fiduciaries for purposes of ERISA and the Code, subjecting the Company, and the insurance industry on the whole, to greater regulatory risk.

The DOL's new Fiduciary Rule, which was scheduled to become effective on September 23, 2024, has been challenged. On July 25, 2024, in the case of *Federation of Americans for Consumer Choice, Inc., et al. v. United States Department of Labor, et al.* , ("Federation of Americans") the United States District Court for the Eastern District of Texas issued an order staying the effective date of the DOL's final fiduciary rule (and related amendments to PTE 84-24) that was issued in March 2024. The District Court, in part relying on the Supreme Court's recent ruling in *Loper Bright Enterprises v. Raimondo* , found that the plaintiffs (primarily insurance agents) were likely to succeed on their arguments that the Final Rule improperly expanded the definition of an "investment advice fiduciary" under ERISA. As a result, the Final Rule's original effective date of September 23, 2024 has been delayed until further notice.

In addition, on July 26, 2024, a companion case to *Federation of Americans* filed in the United States District Court for the Northern District of Texas, *American Council of Life Insurers, et al. v. United States Dep't of Labor, et al.* , held the remaining PTE amendments included in the Final Rule (PTEs 2020-02, 75-1, 77-4, 80-83, 83-1 and 86-128) that were not challenged in *Federation of Americans* were also stayed, noting that the Northern District fully agreed with the Eastern District's analysis and decision to stay the effective date of the Final Rule.

The DOL is expected to appeal both rulings to the Fifth Circuit Court of Appeals.

Management believes these current and emerging developments relating to market conduct standards for the financial services industry may, over time, materially affect the way in which our agents do business, the role of IMOs, sale of IRA products including IRA-to-IRA and employer plan rollovers, how we supervise our distribution force, compensation practices and liability exposure and costs. In addition to implementing the compliance procedures described above, management is monitoring further developments closely and will be working with IMOs and distributors to adapt to these evolving regulatory requirements and risks.

#### **Item 2. Unregistered Sales of Equity Securities, Use of Proceeds, and Issuer Purchases of Equity Securities**

In 2023, F&G's Board of Directors approved a new three-year stock repurchase program under which the Company may repurchase up to \$50 million of F&G common stock. The Company believes the share repurchase program is an efficient means of returning cash to shareholders when we consider the shares to be undervalued. Purchases may be made from time to time by the Company in the open market at prevailing market prices or through privately negotiated transactions or accelerated share repurchase transactions through November 6, 2026. All purchases are currently planned to be held as Treasury Stock. The extent to which the Company repurchases its shares, and the timing of such purchases, will depend upon a variety of factors, including market conditions, regulatory requirements and other considerations, as determined by the Company. There were no repurchases of shares pursuant to the stock repurchase program for the three months ended June 30, 2024. At June 30, 2024, the total remaining authorization of F&G common stock that may be repurchased was approximately \$32 million.

There were no unregistered sales of equity securities sold during the period covered by this Quarterly Report on Form 10-Q that were not previously included in a Current Report on Form 8-K.

#### **Item 3. Defaults Upon Senior Securities**

None.

**Item 4. Mine Safety Disclosures**

Not applicable.

**Item 5. Other Information**

During the three months ended June 30, 2024, no director or officer of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

## Item 6. Exhibits

The following is a list of exhibits filed or incorporated by reference as a part of this Quarterly Report on Form 10-Q.

Exhibit No.	Description of Exhibits
1.1	<a href="#">Underwriting Agreement, dated as of May 20, 2024, among the Company, the guarantors party thereto and BofA Securities, Inc., J.P. Morgan Securities LLC, RBC Capital Markets, LLC and Wells Fargo Securities, LLC, as representatives of the several underwriters named therein (incorporated by reference to Exhibit No. 1.1 to the Company's Current Report on Form 8-K, filed with the Commission on May 21, 2024).</a>
3.1	<a href="#">Amended and Restated Certificate of Incorporation of F&amp;G Annuities &amp; Life, Inc. (incorporated by reference to Exhibit No. 3.1 to the Company's Current Report on Form 8-K, filed with the Commission on December 1, 2022).</a>
3.2	<a href="#">Amended and Restated Bylaws of F&amp;G Annuities &amp; Life, Inc. (incorporated by reference to Exhibit No. 3.2 to the Company's Current Report on Form 8-K, filed with the Commission on December 1, 2022).</a>
3.3	<a href="#">Certificate of Designations of the Company designating the 6.875% Series A Mandatory Convertible Preferred Stock, dated as of January 12, 2024 (incorporated by reference to Exhibit No. 5.1 to the Company's Current Report on Form 8-K, filed with the Commission on January 16, 2024).</a>
4.1	<a href="#">Fourth Supplemental Indenture relating to F&amp;G Annuities &amp; Life, Inc's 6.500% senior notes due 2029 (incorporated by reference to Exhibit No 4.1 to the Company's Current Report on Form 8-K, filed with the Commission on June 4, 2024).</a>
4.2	<a href="#">Form of F&amp;G Annuities &amp; Life, Inc.'s 6.500% senior notes due 2029 (incorporated by reference to Exhibit 4.2 to the Company's Current Report on Form 8-K, filed with the Commission on June 4, 2024).</a>
10.1	<a href="#">Amended and Restated Credit Agreement, dated as of February 16, 2024, by and among F&amp;G Annuities &amp; Life, Inc., a Delaware corporation, as the borrower, the guarantors party thereto, Bank of America, N.A., as administrative agent, and the financial institutions party thereto as lenders (incorporated by reference to Exhibit No. 10.1 to the Company's Current Report on Form 8-K, filed with the Commission on February 16, 2024).</a>
10.2	<a href="#">Amended and Restated Retention Agreement between F&amp;G Annuities &amp; Life, Inc. and John D. Currier, Jr., dated as of May 8, 2024 (incorporated by reference to Exhibit No. 10.1 to the Company's Current Report on Form 8-K, filed with the Commission on May 13, 2024).</a>
31.1 *	<a href="#">Certification of Chief Executive Officer, pursuant to Exchange Act Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.</a>
31.2 *	<a href="#">Certification of Chief Financial Officer, pursuant to Exchange Act Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.</a>
32.1 *	<a href="#">Certification of Chief Executive Officer, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.</a>
32.2 *	<a href="#">Certification of Chief Financial Officer, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.</a>
101 *	The following financial information from the Company's Quarterly Report on Form 10-Q for the three-month period ended June 30, 2024 is formatted in Inline XBRL (Extensible Business Reporting Language): (i) the unaudited Condensed Consolidated Balance Sheets, (ii) the unaudited Condensed Consolidated Statements of Operations, (iii) the unaudited Condensed Consolidated Statements of Comprehensive Income (Loss), (iv) the unaudited Condensed Consolidated Statements of Equity, (v) the unaudited Condensed Consolidated Statements of Cash Flows, and (vi) notes to these unaudited Condensed Consolidated financial statements, and (vii) the Cover Page to the Company's Quarterly Report on Form 10-Q.
104 *	The cover page from the Company's Quarterly Report on Form 10-Q for the period ended June 30, 2024 is formatted in Inline XBRL (Extensible Business Reporting Language) and contained in Exhibit 101.

**CERTIFICATIONS**

I, Christopher O. Blunt, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of F&G Annuities & Life, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
