Important Information

Safe Harbor for Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements do not relate strictly to historical or current facts and may be identified by the use of words such as “may,” “will,” “should,” “could,” “would,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “projects,” “predicts,” “forecasts,” “foresees,” “potential” and other words of similar meaning in conjunction with statements regarding, among other things, (i) plans and objectives of management for operations of Haemonetics Corporation (“Haemonetics” or the “Company”), including plans or objectives related to the Company’s strategy for growth; product development, commercialization and anticipated benefits; regulatory approvals; the impact of acquisitions and divestitures; market position and expenditures; and the Company’s market and regional alignment initiative; (ii) estimates or projections of future financial results, financial condition, capital expenditures, capital structure or other financial items, including with respect to the Company’s share repurchase program; and (iii) the assumptions underlying or relating to any statement described in points (i) and (ii) above. Such forward-looking statements are not meant to predict or guarantee actual results, performance, events or circumstances and may not be realized because they are based upon the Company’s current projections, plans, objectives, beliefs, expectations, estimates and assumptions and are subject to a number of risks and uncertainties and other influences. Actual results and the timing of certain events and circumstances may differ materially from those described by the forward-looking statements as a result of these risks and uncertainties.

Factors that may influence or contribute to the inaccuracy of the forward-looking statements or cause actual results to differ materially from expected or desired results can be found in the Company’s most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q filed or to be filed with the U.S. Securities Exchange Commission (the “SEC”) under the headings “Risk Factors” and “Cautionary Statement Regarding Forward-Looking Information” and in the Company’s other periodic filings with the SEC. The Company does not undertake to update these forward-looking statements.

Non-GAAP Financial Measures

This presentation contains non-GAAP financial measures as defined under applicable SEC rules and regulations. These non-GAAP financial measures should be considered supplemental to, and not a substitute for, the Company’s reported financial results prepared in accordance with U.S. GAAP. We strongly encourage investors to review the Company’s financial statements and publicly-filed reports in their entirety and not rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures to similarly titled measures used by other companies. To the extent available without unreasonable effort, we have provided reconciliations of these non-GAAP measures to their most comparable GAAP measure in the appendix to this presentation, which is available on our website at www.haemonetics.com. With the exception of fiscal 2026 revenue guidance, the Company does not provide a reconciliation of forward-looking non-GAAP measures because certain significant information necessary for such reconciliations are unavailable, dependent on future events outside of our control and cannot be predicted without unreasonable efforts.

When used in this presentation, organic revenue growth excludes the impact of currency fluctuation, acquisitions and divestitures. Organic ex-CSL revenue growth further excludes the impact of fiscal 2025 disposable sales to CSL Plasma under its transitional U.S. supply agreement with the Company. Adjusted gross profit, adjusted operating income, adjusted provision for income taxes, adjusted net income and adjusted earnings per diluted share exclude restructuring costs, restructuring related costs, digital transformation costs, amortization of acquired intangible assets, asset impairments and write downs, amortization of fair value inventory step-up, costs related to compliance with the European Union Medical Device Regulation and In Vitro Diagnostic Regulation, acquisition, integration and divestiture related costs, net gains on the repurchase of convertible notes, gains on sales of property, plant and equipment, certain tax settlements, unusual or infrequent and material litigation-related charges, and remeasurement of contingent consideration liability. Adjusted net income and adjusted earnings per diluted share also exclude the tax impact of these items. The adjustments to provision for income taxes are calculated based on the jurisdictions in which pre-tax adjustments occurred. Free cash flow is defined as cash provided by operating activities less capital expenditures and additions to Haemonetics equipment, net of the proceeds from the sale of property, plant and equipment.

Use of Document

This presentation contains certain highlights with respect to our second quarter of fiscal 2026 performance and developments and does not purport to be a complete summary thereof. Accordingly, we encourage you to read our earnings release for the second quarter ended September 27, 2025 located in the investor relations section of our website at www.Haemonetics.com and our Quarterly Report on Form 10-Q for the quarter ended September 27, 2025 filed with the SEC.
