8. Derivative Instruments and Hedging Activities

SLB's functional currency is primarily the US dollar. However, outside the United States, a significant portion of SLB's expenses is incurred in foreign currencies. Therefore, when the US dollar weakens (strengthens) in relation to the foreign currencies of the countries in which SLB conducts business, the US dollar-reported expenses will increase (decrease).

Changes in foreign currency exchange rates expose SLB to risks on future cash flows relating to its fixed rate debt denominated in currencies other than the functional currency. SLB uses cross-currency interest rate swaps to provide a hedge against these risks. These contracts are accounted for as cash flow hedges, with the fair value of the derivative recorded on the Consolidated Balance Sheet and in Accumulated other comprehensive loss. Amounts recorded in Accumulated other comprehensive loss are reclassified into earnings in the same period or periods that the hedged item is recognized in earnings.

Details regarding SLB's outstanding cross-currency interest rate swaps as of June 30, 2024 September 30, 2024, were as follows:

- During 2019, a US-dollar functional currency subsidiary of SLB issued €1.5 billion of Euro-denominated debt. SLB entered into cross-currency interest rate swaps in order to hedge changes in the US dollar value of its €0.5 billion 0.00% Notes due 2024, €0.5 billion 0.25% Notes due 2027 and €0.5 billion 0.50% Notes due 2031. These cross-currency interest rate swaps effectively convert the Euro-denominated notes to US-dollar denominated debt with fixed annual interest rates of 2.29%, 2.51% and 2.76%, respectively.
- During 2020, a US-dollar functional currency subsidiary of SLB issued €0.8 billion of Euro-denominated debt. SLB entered into cross-currency interest rate swaps to hedge changes in the US dollar value of its €0.4 billion of 0.25% Notes due 2027 and €0.4 billion of 0.50% Notes due 2031. These cross-currency interest rate swaps effectively convert the Euro-denominated notes to US-dollar denominated debt with fixed annual interest rates of 1.87% and 2.20%, respectively.
- During 2020, a US-dollar functional currency subsidiary of SLB issued €2.0 billion of Euro-denominated debt. SLB entered into cross-currency interest rate swaps to hedge changes in the US dollar value of its €1.0 billion of 1.375% Guaranteed Notes due 2026 and €1.0 billion of 2.00% Guaranteed Notes due 2032. These cross-currency interest rate swaps effectively convert the Euro-denominated notes to US-dollar denominated debt with fixed annual interest rates of 2.77% and 3.49%, respectively.
- During 2020, a Canadian dollar functional currency subsidiary of SLB issued \$0.5 billion of US dollar denominated debt. SLB entered into cross-currency interest rate swaps to hedge changes in the US dollar value of its \$0.5 billion 1.40% Senior Notes due 2025. These cross-currency interest rate swaps effectively convert the US dollar notes to Canadian dollar denominated debt with a fixed annual interest rate of 1.73%.

A summary of the amounts included in the Consolidated Balance Sheet relating to cross currency interest rate swaps was as follows:

	(Stated in millions)		(Stated in millions)

The fair values were determined using a model with inputs that are observable in the market or can be derived or corroborated by observable data.

SLB has entered into derivative contracts that hedge the price of oil related to approximately 75% of the projected oil production for the third and fourth quarters of 2024, approximately 50% for the first quarter of 2025, and approximately 25% for the second quarter of 2025 for one of its Asset Performance Solutions ("APS") projects. These contracts are accounted for as cash flow hedges, with changes in the fair value of the hedge recorded in *Accumulated other comprehensive loss*. Amounts recorded in *Accumulated other comprehensive loss* are reclassified to earnings in the same period or periods that the hedged item is recognized in earnings.

12

SLB is exposed to risks on future cash flows to the extent that the local currency is not the functional currency and expenses denominated in local currency are not equal to revenues denominated in local currency. SLB uses foreign currency forward contracts to provide a hedge against a portion of these cash flow risks. These contracts are accounted for as cash flow hedges.

SLB is also exposed to changes in the fair value of assets and liabilities denominated in currencies other than the functional currency. While SLB uses foreign currency forward contracts to economically hedge this exposure as it relates to certain currencies, these contracts are not designated as hedges for accounting purposes. Instead, the fair value of the derivative is recorded on the *Consolidated Balance Sheet* and changes in the fair value are recognized in the *Consolidated Statement of Income*, as are changes in the fair value of the hedged item.

12

Foreign currency forward contracts were outstanding for the US dollar equivalent of \$6.3 7.1 billion and \$5.4 billion in various foreign currencies as of June 30, 2024 September 30, 2024 and December 31, 2023, respectively.

Other than the previously mentioned cross-currency interest rate swaps, the fair value of the other outstanding derivatives was not material as of June 30, 2024 September 30, 2024 and December 31, 2023.

The notional amount Approximately \$0.4 billion of the CDS outstanding CDSs reduces on a monthly basis over its remaining 20 17-month term while the remaining \$0.6 billion reduces on a monthly basis over its remaining 21-month term. The fair value of this these derivative liability liabilities was not material at June 30, 2024 September 30, 2024.

In July 2024, SLB issued a CDS to a different third-party financial institution for a notional amount of \$550 million relating to a borrowing provided by the financial institution to SLB's primary customer in Mexico. This borrowing was utilized by the customer to pay certain of SLB's outstanding receivables. The notional amount of this CDS reduces on a monthly basis over its 24-month term.

9. Contingencies

SLB is party to various legal proceedings from time to time. A liability is accrued when a loss is both probable and can be reasonably estimated. Management believes that the probability of a material loss with respect to any currently pending legal proceeding is remote. However, litigation is inherently uncertain, and it is not possible to predict the ultimate disposition of any of these proceedings.

Second-quarter SLB delivered strong third-quarter 2024 results, reflected broad-based sequential international revenue achieving earnings growth and margin expansion across all Divisions. SLB's Core Divisions—Reservoir Performance, Well Construction, due to its ongoing focus on cost optimization, greater adoption of SLB's digital products and Production Systems—continued to build on their positive momentum solutions, and its digital business accelerated, resulting the contribution of long-cycle projects in deepwater and gas.

This performance was achieved despite an environment where short-cycle activity growth softened, and some international producers exercised cautious spending triggered by lower oil prices and ample global supply, while land activity in the highest quarterly international US remained subdued. Third-quarter 2024 global revenue since 2014. These results demonstrate SLB's strong position in key, resilient markets, as it continues to benefit from elevated activity of \$9.2 billion was essentially flat with the second quarter of 2024. Revenue grew sequentially in the Middle East & Asia particularly and offshore North America but was offset by a decline in gas, and SLB's clients' increased investments in deepwater basins, exploration, and digital.

Second-quarter 2024 global revenue of \$9.1 billion grew 5% sequentially, led by the Middle East & Asia which increased 6%. The increase in this area was driven by capacity expansions, gas development projects, and production and recovery. SLB also continued to benefit from its enhanced offshore exposure, particularly in deepwater basins across Latin America, while Europe & Africa and in the US Gulf of Mexico. Consequently, pretax operating margin improved sequentially in each of the four Divisions. revenue was flat sequentially.

Looking ahead Although some customers have adopted a more cautious approach to their near-term capital expenditures and discretionary spending amid lower commodity prices, most projects are progressing as planned. Recent geopolitical events have further highlighted the second half importance of long-term energy security and reducing potential supply disruptions. SLB is well-positioned to navigate the year, SLB expects ongoing momentum evolving market conditions by leveraging its unique exposure to long-cycle projects in the international, markets, strong digital sales, deepwater, and its cost efficiency programs will unlock further margin expansion. Beyond 2024, the fundamentals of this cycle remain in place, and there is a long tailwind of growth opportunities, including long-cycle gas and deepwater projects, production and recovery activity, and the secular trends of digital and decarbonization. This represents a strong backdrop for SLB to continue its margin expansion journey. markets.

Digital & Integration

Digital & Integration revenue of \$1.1 billion increased 10% 4% sequentially due to higher digital revenue while Asset Performance Solutions ("APS") revenue was flat. Growth in digital Digital revenue was grew 7% sequentially driven by the increased adoption internationally of SLB's digital solutions our cloud, AI, and higher exploration data license sales. edge technology platforms.

Digital & Integration pretax operating margin of 31% 36% expanded 435 456 basis points ("bps") sequentially, primarily mostly due to improved profitability in digital, following strong exploration data license sales and higher uptake of digital solutions. products and solutions and cost efficiencies.

Reservoir Performance

Reservoir Performance revenue of \$1.8 billion was flat sequentially as revenue grew 5% sequentially due to increased intervention in offshore North America and stimulation activity across all geographic areas, with approximately 70% of the growth coming from the Latin America, offset by declines in Europe & Africa and Middle East & Asia.

Reservoir Performance pretax operating margin of 21% increased 98 20% contracted 53 bps sequentially with largely due to lower profitability improving across the international markets in evaluation.

⁽¹⁾ "Net debt" represents gross debt less cash and short-term investments. Management believes that Net debt provides useful information to investors and management regarding the level of indebtedness by reflecting cash and investments that could be used to repay debt. Net debt is a non-GAAP financial measure that should be considered in addition to, not as a substitute for, superior to, total debt.

⁽²⁾ Includes depreciation of fixed assets and amortization of intangible assets, exploration data costs, and APS investments.

⁽³⁾ "Free cash flow" represents cash flow from operations less capital expenditures, APS investments and exploration data costs capitalized. Management believes that free cash flow is an important liquidity measure for the company and that it is useful to investors and management as a measure of our ability to generate cash. Once business needs and obligations are met, this cash can be used to reinvest in the company for future growth or to return to shareholders through dividend payments or share repurchases. Free cash flow does not represent the residual cash flow available for discretionary expenditures. Free cash flow is a non-GAAP financial measure that should be considered in addition to, not as a substitute for or superior to, cash flow from operations.

Key liquidity events during the first **six nine** months of 2024 and 2023 included:

- Working capital consumed \$2.0 billion of liquidity during the six months ended June 30, 2024 compared to \$1.3 billion during six months ended June 30, 2023 primarily driven by receivables and accounts payable offset in part by improved inventory efficiency.

- Capital investments (consisting of capital expenditures, APS investments and exploration data capitalized) were **\$1.2 billion** **\$1.9 billion** during **both** the first **six nine** months of 2024 compared to **\$1.2 billion** during **and** the first **six nine** months of 2023. Capital investments for the full year 2024 are expected to be approximately \$2.6 billion, which is the same level as the full year 2023.
- In January 2024, SLB announced a 10% increase to its quarterly cash dividend from \$0.25 per share of outstanding common stock to \$0.275 per share, beginning with dividend payable in April 2024. Dividends paid during the first **six nine** months of 2024 and 2023 were **\$751 million** **\$1.1 billion** and **\$605 million** **\$961 million**, respectively.

- As of **June 30, 2024** **September 30, 2024**, SLB had cumulatively repurchased approximately **\$2.5 billion** **\$3.0 billion** of SLB common stock under its \$10 billion share repurchase program.

The following table summarizes the activity under the share repurchase program:

(Stated in millions, except per share amounts)

	Total cost of shares purchased	Total number of shares purchased	Average price paid per share

- During the second quarter of 2024, SLB issued \$500 million of 5.00% Senior Notes due 2027, \$500 million of 5.00% Senior Notes due 2029, and \$500 million of 5.00% Senior Notes due 2034.
- During the second quarter of 2024, SLB and Aker Carbon Capture ASA ("ACC") announced the closing of their previously announced joint venture. The new company, **Capturi™**, combines technology portfolios, expertise, and operation platforms to support accelerated carbon capture adoption for industrial decarbonization at scale. Closing, SLB paid NOK 4.1 billion (\$0.4 billion) in cash to ACC for the purchase of 80% of the shares in Aker Carbon Capture Holdings AS ("ACCH"), which held the business of ACC. ACC is also entitled to performance-based payments of up to NOK 1.4 billion if certain targets are met over the period from 2025 to 2027.

After a lock-up period of three years, ACC is entitled to sell its 20% interest in ACCH to SLB during a period of six months for a price based on the fair market value of the combined business subject to a floor of NOK 1.0 billion and a ceiling of NOK 2.1 billion (the "put option"). Additionally, after the expiration of the put option, SLB has the right to purchase ACC's 20% interest in the combined business during the following six months for a price based on the fair market value of the combined business subject to a floor of NOK 1.5 billion and a ceiling of NOK 2.6 billion.

- During the first quarter of 2023, SLB sold all of its remaining approximately 9 million shares in Liberty and received proceeds of \$137 million.

In April 2024, SLB announced that it is raising its 2024 target for total returns of capital to shareholders (consisting of dividends and share repurchases) from \$2.5 billion to \$3 billion. The targeted \$0.5 billion increase will be in the form of additional share repurchases. SLB also set its target for total returns of capital to shareholders in 2025 at \$4 billion.

As of **June 30, 2024** **September 30, 2024**, SLB had **\$4.0 billion** **\$4.5 billion** of cash and short-term investments on hand and committed debt facility agreements with commercial banks aggregating \$5.0 billion, **\$4.6 billion** all of which was **available and unused**. SLB believes these amounts are sufficient to meet future business requirements for at least the next 12 months and beyond.

SLB has a global footprint in more than 100 countries. As of **June 30, 2024** **September 30, 2024**, only three of those countries individually accounted for greater than 5% of SLB's net receivable balance. **One** **Only one** of these countries, **Mexico**, **the United States**, represented greater than 10% of such receivables. As of **June 30, 2024** **September**

30, 2024, Mexico represented 15% 9% of SLB's net accounts receivable balance. In July 2024, SLB issued a credit default swap ("CDS") (See Note 8 to a third-party financial institution for a notional amount of \$550 million relating to a borrowing provided by the financial institution to SLB's primary customer in Mexico. This borrowing was utilized by the customer to pay approximately \$645 million of SLB's outstanding receivables in July 2024. Consolidated Financial Statements). SLB's receivables from its primary customer in Mexico are not in dispute and SLB has not historically had any material write-offs due to uncollectible accounts receivable relating to this customer. On October 17, 2024, SLB entered into a definitive agreement to sell its interest in the Palliser APS project in Canada. Under the terms of the agreement, SLB will receive cash proceeds of approximately \$430 million, subject to closing adjustments that are typical for such a transaction. The transaction, which is subject to regulatory approval and other customary closing conditions, is expected to close late in the fourth quarter of 2024. SLB recorded revenue of approximately \$0.4 billion during the nine months ended September 30, 2024 relating to this project.

Item 5. Other Information.

In 2013, SLB completed the wind down of its service operations in Iran. Prior to this, certain non-US subsidiaries provided oilfield services to the National Iranian Oil Company and certain of its affiliates ("NIOC").

SLB's residual transactions or dealings with the government of Iran during the **second third** quarter of 2024 consisted of payments of taxes and other typical governmental charges. Certain non-US subsidiaries of SLB maintain depository accounts at the Dubai branch of Bank Saderat Iran ("Saderat"), and at Bank Tejarat ("Tejarat") in Tehran and in Kish for the deposit by NIOC of amounts owed to non-US subsidiaries of SLB for prior services rendered in Iran and for the maintenance of such amounts previously received. One non-US subsidiary also maintained an account at Tejarat for payment of local expenses such as taxes. SLB anticipates that it will discontinue dealings with Saderat and Tejarat following the receipt of all amounts owed to SLB for prior services rendered in Iran.
