These financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and, therefore, omit or condense certain footnotes and other information normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States. In the opinion of the Company's management, all adjustments (consisting of normal recurring accruals and deferrals) considered necessary for fair financial statement presentation have been made. The results of operations for an interim period may not give a true indication of the results for the year. Certain reclassifications have been made to prior year amounts or balances to conform to the presentation adopted in the current year. Use of Estimates The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The significant estimates made by management relate to the allowance for doubtful accounts, the costs and revenue relating to the Company's construction contracts, stock-based compensation assumptions, valuation allowance related to deferred tax assets, fair value of long-lived assets, the useful lives of towers and intangible assets, anticipated property tax assessments, incremental borrowing rate for lease accounting, fair value of investments, and asset retirement obligations. Management develops estimates based on historical experience and on various assumptions about the future that are believed to be reasonable based on the information available. These estimates ultimately may differ from actual results and such differences could be material. During the first quarter of 2024, the Company completed its assessment on the remaining estimated useful lives of its towers and intangible assets. The Company concluded through its assessment that, for U.S. GAAP purposes, it should modify its current estimates for asset lives based on its historical operating experience and the findings obtained by its independent consultant. The Company previously depreciated its towers on a straight-line basis over the shorter of the (i) term of the underlying ground lease (including renewal options) taking into account residual value or (ii) estimated useful life of a tower, which the Company had historically estimated to be 15 years. Based on its assessment, the Company revised the estimated useful lives of its towers and certain related intangible assets (which are amortized on a similar basis to its tower assets, as their useful lives correlate to the useful life of the towers) from 15 years to 30 years, effective January 1, 2024. The Company accounted for the change in estimated useful lives as a change in estimate under ASC 250 "Accounting Changes and Error Corrections." The impact of the change in estimate was accounted for prospectively effective January 1, 2024, resulting in a reduction in depreciation and amortization expense of approximately \$102.7 million (\$93.0 million after tax, or an increase of \$0.86 per diluted share) and \$205.4 million (\$186.0 million after tax, or an increase of \$1.72 per diluted share) for the three and six months ended June 30, 2024, respectively. This change in useful lives is expected to reduce depreciation and amortization expense by approximately \$411.5 million (\$372.5 million after tax, or an increase of \$3.44 per diluted share) for the year ended December 31, 2024. Foreign Currency Translation All assets and liabilities of foreign subsidiaries that do not utilize the U.S. dollar as its functional currency are translated at period-end exchange rates, while revenues and expenses are translated at monthly average exchange rates during the period. Unrealized translation gains and losses are reported as foreign currency translation adjustments through Accumulated other comprehensive loss, net in the Consolidated Statements of Shareholders' Deficit. For foreign subsidiaries where the U.S. dollar is the functional currency, monetary assets and liabilities of such subsidiaries, which are not denominated in U.S. dollars, are remeasured at exchange rates in effect at the balance sheet date, and revenues and expenses are remeasured at monthly average rates prevailing during the year. Remeasurement gains and losses are reported as Other (expense) income, net in the Consolidated Statements of Operations. Intercompany Loans Subject to Remeasurement In accordance with ASC 830, the Company remeasures foreign denominated intercompany loans with the corresponding change in the balance being recorded in Other (expense) income, net in the Consolidated Statements of Operations as settlement is anticipated or planned in the foreseeable future. The Company recorded a \$66.2 million loss and a \$27.8 million gain, net of taxes, on the remeasurement of intercompany loans for the three months ended June 30, 2024 and 2023, respectively, and a \$94.7 million loss Table of Contents and a \$55.2 million gain, net of taxes, on the remeasurement of intercompany loans for the six months ended June 30, 2024 and 2023, respectively. During the six months ended June 30, 2024, the Company funded \$9.3 million and \$79.7 million was repaid under its intercompany loan agreements. As of June 30, 2024 and December 31, 2023, the aggregate amount outstanding under the intercompany loan agreements subject to remeasurement with the Company's foreign subsidiaries was \$1.2 billion and \$1.3 billion, respectively. 2. FAIR VALUE MEASUREMENTS Items Measured at Fair Value on a Recurring Basis "The Company's asset retirement obligations are measured at fair value on a recurring basis using Level 3 inputs and are recorded in Other long-term liabilities in the Consolidated Balance Sheets. The fair value of the asset retirement obligations is calculated using a discounted cash flow model. Refer to Note 16 for discussion of the Company's redeemable noncontrolling interests. Items Measured at Fair Value on a Nonrecurring Basis "The Company estimates the fair value of assets subject to impairment using a discounted cash flow (the "DCF") (Level 3 input) analysis. Determining fair value requires the exercise of significant judgments, including the amount and timing of expected future cash flows, long-term growth rates, discount rates and relevant comparable earnings and trading multiples. The cash flows employed in the DCF analysis are based on estimates of future revenues, earnings, and cash flows after considering factors such as tower location demographics, timing of additions of new tenants, lease rates, rate and term of renewal, attrition, ongoing cash requirements, and market multiples. Each of the assumptions are applied based on the specific facts and circumstances of the identified assets at the lowest level of identifiable cash flows. The DCF analysis used an average discount rate ranging from 7.8% - 8.8%. Asset impairment and decommission costs for all periods presented and the related impaired assets primarily relate to the Company's site leasing operating segment. The following summarizes the activity of asset impairment and decommission costs: For the three months For the six months ended June 30, ended June 30, 2024 2023 2024 2023 (in thousands) Asset impairment (1) \$ 18,491 \$ 24,363 \$ 53,043 \$ 46,696 Write-off of carrying value of decommissioned towers 7,440 849 11,545 2,802 Other (including tower and equipment decommission costs) 5,679 7,655 10,670 9,759 Total asset impairment and decommission costs \$ 31,610 \$ 32,867 \$ 75,258 \$ 59,257 (1) Represents impairment charges resulting from the Company's regular analysis of whether the anticipated future cash flows from certain towers are sufficient to recover the carrying value of the investment in those towers. The Company's long-term investments were \$19.2 million and \$24.5 million as of June 30, 2024 and December 31, 2023, respectively, and are recorded in Other assets on the Consolidated Balance Sheets. The estimation of the fair value of the investment involves the use of Level 3 inputs. The Company evaluates these investments for indicators of impairment. The Company considers impairment indicators such as negative changes in industry and market conditions, financial performance, business prospects, and other relevant events and factors. If indicators exist and the fair value of the investment is less than the carrying amount, an impairment charge will be recorded. The Company did not recognize any impairment loss associated with its investments during the three and six months ended June 30, 2024 and 2023. Fair Value of Financial Instruments "The carrying values of cash and cash equivalents, accounts receivable, restricted cash, accounts payable, and short-term investments approximate their estimated fair values due to the short maturity of these instruments. The Company's estimate of its short-term investments is based primarily upon Level 1 reported market values. As of June 30, 2024 and December 31, 2023, the Company had \$30.4 million and \$1.0 million of short-term investments, respectively. For the six months ended June 30, 2024, the Company purchased and sold \$0.7 billion of short-term investments. For the six months ended June 30, 2023, the Company purchased and sold \$0.6 billion of short-term investments. The Company determines fair value of its debt instruments utilizing various Level 2 sources including quoted prices and indicative quotes (non-binding quotes) from brokers that require judgment to interpret market information including implied credit spreads for similar borrowings on recent trades or bid/ask prices. The fair value of the Revolving Credit Facility is considered to approximate the carrying value because the Company does not believe its credit risk has changed materially from the date the Table of Contents applicable spread to the Eurodollar Rate and Term SOFR Rate was set for the Revolving Credit Facility (112.5 to 150.0 basis points). Refer to Note 10 for the fair values, principal balances, and carrying values of the Company's debt instruments. For discussion of the Company's derivatives and hedging activities, refer to Note 17. 3. CASH, CASH EQUIVALENTS, AND RESTRICTED CASH The cash, cash equivalents, and restricted cash balances on the Consolidated Statements of Cash Flows consist of the following: As of As of June 30, 2024 December 31, 2023 Included on Balance Sheet (in thousands) Cash and cash equivalents \$ 220,508 \$ 208,547 Cash and cash equivalents Securitization escrow accounts 51,790 \$ 31,852 Restricted cash - current asset Payment, performance bonds, and other 6,684 \$ 6,277 Restricted cash - current asset Surety bonds and workers compensation 4,162 \$ 4,270 Other assets - noncurrent Total cash, cash equivalents, and restricted cash \$ 283,144 \$ 250,946 Pursuant to the terms of the Tower Securities (see Note 10), the Company is required to establish a securitization escrow account, held by the indenture trustee, into which all rents and other sums due on the towers that secure the Tower Securities are directly deposited by the lessees. These restricted cash amounts are used to fund reserve accounts for the payment of (1) a debt service costs, (2) a ground rents, real estate and personal property taxes and insurance premiums related to towers, (3) a trustee and servicing expenses, and (4) a management fees. The restricted cash in the securitization escrow account in excess of required reserve balances is subsequently released to the Borrowers (as defined in Note 10) monthly, provided that the Borrowers are in compliance with their debt service coverage ratio and that no event of default has occurred. All monies held by the indenture trustee are classified as restricted cash on the Company's Consolidated Balance Sheets. Payment and performance bonds relate primarily to collateral requirements for tower construction currently in process by the Company. Other restricted cash includes \$6.5 million and \$6.1 million held in escrow as of June 30, 2024 and December 31, 2023 related to the Company's acquisition activities. Cash is pledged as collateral for surety bonds issued for the benefit of the Company or its affiliates in the ordinary course of business and primarily related to the Company's tower removal obligations. As of June 30, 2024 and December 31, 2023, the Company had \$41.7 million and \$42.0 million in surety and payment and performance bonds, respectively, for which no collateral was required to be posted. The Company periodically evaluates the collateral posted for its bonds to ensure that it meets the minimum requirements. As of June 30, 2024 and December 31, 2023, the Company had pledged \$2.5 million and \$2.4 million, respectively, as collateral related to its workers' compensation policy. 4. COSTS AND ESTIMATED EARNINGS ON UNCOMPLETED CONTRACTS The Company's costs and estimated earnings on uncompleted contracts are comprised of the following: As of As of June 30, 2024 December 31, 2023 (in thousands) Costs incurred on uncompleted contracts \$ 62,098 \$ 98,674 Estimated earnings 26,850 64,589 Billings to date (72,247) (152,608) \$ 16,701 \$ 10,655 Table of Contents These amounts are included in the Consolidated Balance Sheets under the following captions: As of As of June 30, 2024 December 31, 2023 (in thousands) Costs and estimated earnings in excess of billings on uncompleted contracts \$ 19,810 \$ 16,252 Billings in excess of costs and estimated earnings on uncompleted contracts (included in Other current liabilities) (3,109) (5,597) \$ 16,701 \$ 10,655 At June 30, 2024 and December 31, 2023, the two largest contracts comprised 90.5% and 84.6%, respectively, of the costs and estimated earnings in excess of billings on uncompleted contracts, net of billings in excess of costs and estimated earnings. 5. Diluted earnings per share was calculated by dividing net income attributable to SBA Communications Corporation by the weighted-average number of shares of 20Table of Contents Class A common stock outstanding adjusted for any dilutive Class A common stock equivalents, including unvested RSUs, PSUs, and shares issuable upon exercise of stock options as determined under the æ”Treasury Stockæ” method. The following table sets forth basic and diluted net income per common share attributable to common shareholders for the three and six months ended June 30, 2024 and 2023 (in thousands, except per share data): For the three months For the six months ended June 30, ended June 30, 2024 2023 2024 2023Numerator: Net income attributable to SBA Communications Corporation \$ 162,830 \$ 203,648 \$ 317,372 \$ 304,865Denominator: Basic weighted-average shares outstanding 107,462 108,355 107,782 108,244Dilutive impact of stock options, RSUs, and PSUs 217 529 366 834Diluted weighted-average shares outstanding 107,679 108,884 108,148 109,078Net income per common share attributable to SBA Communications Corporation: Basic \$ 1.52 \$ 1.88 \$ 2.94 \$ 2.82Diluted \$ 1.51 \$ 1.87 \$ 2.93 \$ 2.79 For the three and six months ended June 30, 2024 and 2023, the diluted weighted-average number of common shares outstanding excluded an immaterial number of shares issuable upon exercise of the Companyæ”’s stock options because the impact would be anti-dilutive. 16. REDEEMABLE NONCONTROLLING INTERESTSThe Company allocates income and losses to its redeemable noncontrolling interest holders based on the applicable membership interest percentage. At each reporting period, the redeemable noncontrolling interest is recognized at the greater of (1) the initial carrying amount of the noncontrolling interest as adjusted for accumulated income or loss attributable to the noncontrolling interest holder or (2) the redemption value as of the balance sheet date. Adjustments to the carrying amount of redeemable noncontrolling interest are charged against retained earnings (or additional paid-in capital if there are no retained earnings). As of June 30, 2024, the Company has an interest rate swap agreement on its 2024 Term Loan which swaps \$1.95 billion of notional value accruing interest at one month Term SOFR plus 200 basis points for an all-in fixed rate of 2.050% per annum through March 31, 2025. Additionally, the Company has a forward-starting interest rate swap agreement which will swap \$1.0 billion of notional value accruing interest at one month Term SOFR plus 200 basis points for an all-in fixed rate of 5.830% per annum. The forward-starting swap has an effective start date of March 31, 2025 and a maturity date of April 11, 2028. 21Table of Contents As of June 30, 2024, the hedges remain highly effective; therefore, changes in fair value are recorded in Accumulated other comprehensive loss, net. MANAGEMENTæ”’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS We are a leading independent owner and operator of wireless communications infrastructure, including tower structures, rooftops, and other structures that support antennas used for wireless communications, which we collectively refer to as æ”etowersæ” or æ”esites.æ” Our principal operations are in the United States and its territories. In addition, we own and operate towers in South America, Central America, Canada, South Africa, the Philippines, and Tanzania. Our primary business line is our site leasing business, which contributed 98.7% of our total segment operating profit for the six months ended June 30, 2024. In our site leasing business, we (1) lease space to wireless service providers and other customers on assets that we own or operate and (2) manage rooftop and tower sites for property owners under various contractual arrangements. As of June 30, 2024, we owned 39,744 towers, a substantial portion of which have been built by us or built by other tower owners or operators who, like us, have built such towers to lease space to multiple wireless service providers. Our other business line is our site development business, through which we assist wireless service providers in developing and maintaining their own wireless service networks.Site Leasing Our primary focus is the leasing of antenna space on our multi-tenant towers to a variety of wireless service providers under long-term lease contracts in the United States, South America, Central America, Canada, South Africa, the Philippines, and Tanzania. As of June 30, 2024, no U.S. state or territory accounted for more than 10% of our total tower portfolio by tower count, and no U.S. state or territory accounted for more than 10% of our total revenues for the six months ended June 30, 2024. In addition, as of June 30, 2024, approximately 30% of our total towers are located in Brazil and no other international market (each country is considered a market) represented more than 5% of our total towers. 22Table of Contents We derive site leasing revenues primarily from wireless service provider tenants. Wireless service providers enter into (1) individual tenant site leases with us, each of which relates to the lease or use of space at an individual site or (2) master lease agreements (æ”MLAæ”) with us, which provide for the material terms and conditions that will apply to multiple sites; although, in most cases, each individual site under a MLA is also governed by its own site leasing agreement which sets forth pricing and other site specific terms. Our tenant leases are generally for an initial term of five years to fifteen years with multiple renewal periods at the option of the tenant. Our tenant leases typically either (1) contain specific annual rent escalators, (2) escalate annually in accordance with an inflationary index, or (3) escalate using a combination of fixed and inflation adjusted escalators. In addition, our international site leases may include pass-through charges, such as rent related to ground leases and other property interests, utilities, property taxes, and fuel. Cost of site leasing revenue primarily consists of: i. Cash and non-cash rental expense on ground leases, right-of-use, and other underlying property interests; i. Property taxes; ii. Site maintenance and monitoring costs (exclusive of employee related costs); i. Utilities; i. Property insurance; i. Fuel (in those international markets that do not have an available electric grid at our tower sites); and i. Lease initial direct cost amortization.Ground leases and other property interests are generally for an initial term of five years or more with multiple renewal periods, which are at our option. Our ground leases either (1) contain specific annual rent escalators or (2) escalate annually in accordance with an inflationary index. As of June 30, 2024, approximately 71% of our tower structures were located on parcels of land that we own, land subject to perpetual easements, or parcels of land in which we have a leasehold interest that extends beyond 20 years. For any given tower, costs are relatively fixed over a monthly or an annual time period. As such, operating costs for owned towers do not generally increase as a result of adding additional customers to the tower. The amount of property taxes varies from site to site depending on the taxing jurisdiction and the height and age of the tower. The ongoing maintenance requirements are typically minimal and include replacing lighting systems, painting a tower, or upgrading or repairing an access road or fencing.In Ecuador, El Salvador, Guatemala, Nicaragua, and Panama, significantly all of our revenue, expenses, and capital expenditures arising from our activities are denominated in U.S. dollars. Specifically, most of our ground leases and other property interests, tenant leases, and tower-related expenses are paid in U.S. dollars. In our Central American markets, our local currency obligations are principally limited to (1) permitting and other local fees, (2) utilities, and (3) taxes. In Brazil, Canada, Chile, South Africa, and the Philippines, significantly all of our revenue, expenses, and capital expenditures, including tenant leases, ground leases and other property interests, and other tower-related expenses are denominated in local currency. In Colombia, Costa Rica, Peru, and Tanzania, our revenue, expenses, and capital expenditures, including tenant leases, ground leases and other property interests, and other tower-related expenses are denominated in a mix of local currency and U.S. dollars.As indicated in the table below, our site leasing business generates substantially all of our total segment operating profit. For information regarding our operating segments, see Note 14 to our Consolidated Financial Statements included in this quarterly report. For the three months ended For the six months endedSegment operating profit as a percentage of June 30, June 30, 2024 2023 2024 2023 Domestic site leasing 76.6% 74.8% 76.3% 75.0%International site leasing 22.1% 22.7% 22.4% 22.4%Total site leasing 98.7% 97.5% 98.7% 97.4%We believe that the site leasing business continues to be attractive due to its long-term contracts, built-in rent escalators, high operating margins, and low customer churn (which refers to a lease that is non-renewed, cancelled, or discounted prior to the end of its term) other than in connection with customer consolidation or cessations of specific technology. We believe that over the long-term, site leasing revenues will continue to grow as wireless service providers lease additional antenna space on our towers due to increasing minutes of network use and data transfer, network expansion, and network coverage requirements.During the remainder of 2024, we expect organic site leasing revenue in both our domestic and international segments to increase over 2023 levels, on a currency neutral basis, due in part to wireless carriers deploying unused spectrum. We believe our site leasing business is characterized by stable and long-term recurring revenues, predictable operating costs, and minimal non-discretionary capital expenditures. Due to the relatively young age and mix of our tower portfolio, we expect future expenditures required to maintain these towers to be minimal. Consequently, we expect to grow our cash flows by (1)Å adding tenants to our towers at minimal incremental costs by using existing tower capacity or requiring wireless service providers to bear all or a portion of the cost 23Table of Contents of tower modifications and (2)Å executing monetary amendments as wireless service providers add or upgrade their equipment. Furthermore, because our towers are strategically positioned, we have historically experienced low tenant lease terminations as a percentage of revenue other than in connection with customer consolidation or cessations of a specific technology.Site Development Our site development business, which is conducted in the United States only, is complementary to our site leasing business and provides us the ability to keep in close contact with the wireless service providers who generate substantially all of our site leasing revenue and to capture ancillary revenues that are generated by our site leasing activities, such as antenna and equipment installation at our tower locations. Site development revenues are earned primarily from providing a full range of end-to-end services to wireless service providers or companies providing development or project management services to wireless service providers. Our services include: (1) network pre-design; (2) site audits; (3) identification of potential locations for towers and antennas on existing infrastructure; (4) support in leasing of the location; (5) assistance in obtaining zoning approvals and permits; (6) tower and related site construction; (7) antenna installation; and (8) radio equipment installation, commissioning, and maintenance. We provide site development services at our towers and at towers owned by others on a local basis, through regional, market, and project offices. The market offices are responsible for all site development operations.For information regarding our operating segments, see Note 14 to our Consolidated Financial Statements in this quarterly report.Capital Allocation StrategyOur capital allocation strategy is aimed at increasing shareholder value through investment in quality assets that meet our return criteria, stock repurchases when we believe our stock price is below its intrinsic value, and by returning cash generated by our operations in the form of cash dividends. In addition, in a high interest rate environment and when we believe interest rates may stay higher for longer, we believe that debt repayments, especially of our variable rate debt, may be an accretive use of our excess capital. While the addition of cash dividends and debt repayments have provided us with additional tools to return value to our shareholders, we continue to believe that our priority is to make investments focused on increasing Adjusted Funds From Operations per share. Key elements of our capital allocation strategy include:Portfolio Growth. We intend to continue to grow our asset portfolio, domestically and internationally, primarily through tower acquisitions and the construction of new towers that meet our internal return on invested capital criteria.Stock Repurchase Program. We currently utilize stock repurchases as part of our capital allocation policy when we believe our share price is below its intrinsic value. We believe that share repurchases, when purchased at the right price, will facilitate our goal of increasing our Adjusted Funds From Operations per share.Dividend. Cash dividends are an additional component of our strategy of returning value to shareholders. We do not expect our dividend to require any changes in our leverage and believe that, due to our low dividend payout ratio, we can continue to focus on building and buying quality assets and opportunistically buying back our stock. While the timing and amount of future dividends will be subject to approval by our Board of Directors, we believe that our future cash flow generation will permit us to grow our cash dividend in the future.Critical Accounting Policies and EstimatesWe have identified the policies and significant estimation processes listed below and in our Annual Report on Form 10-K as critical to our business operations and the understanding of our results of operations. The listing is not intended to be a comprehensive list. In many cases, the accounting treatment of a particular transaction is specifically dictated by accounting principles generally accepted in the United States, with no need for managementæ”’s judgment in their application. In other cases, management is required to exercise judgment in the application of accounting principles with respect to particular transactions. The impact and any associated risks related to these policies on our business operations is discussed throughout æ”Managementæ”’s Discussion and Analysis of Financial Condition and Results of Operationsæ” where such policies affect reported and expected financial results. For a detailed discussion on the application of these and other accounting policies, see Note 2 to our Consolidated Financial Statements contained in our Annual Report on Form 10-K for the year ended December 31, 2023. Our preparation of our financial statements requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of revenue and expenses during the reporting periods. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. There can be no assurance that actual results will not differ from those estimates and such differences could be significant. 24Table of Contents During the first quarter of 2024, we completed our assessment on the remaining estimated useful lives of our towers and intangible assets. We concluded through our assessment that, for U.S. GAAP purposes, we should modify our current estimates for asset lives based on our historical operating experience and the findings obtained by our independent consultant. We previously depreciated our towers on a straight-line basis over the shorter of the (i) term of the underlying ground lease (including renewal options) taking into account residual value or (ii) estimated useful life of a tower, which we had historically estimated to be 15 years. Based on our assessment, we revised the estimated useful lives of our towers and certain related intangible assets (which are amortized on a similar basis to our tower assets, as their useful lives correlate to the useful life of the towers) from 15 years to 30 years, effective January 1, 2024. We accounted for the change in estimated useful lives as a change in estimate under ASC 250 æ”Accounting Changes and Error Corrections.æ” The impact of the change in estimate was accounted for prospectively effective January 1, 2024, resulting in a reduction in depreciation and amortization expense of approximately \$102.7 million (\$93.0 million after tax, or an increase of \$0.86 per diluted share) and \$205.4 million (\$186.0 million after tax, or an increase of \$1.72 per diluted share) for the three and six months ended June 30,

2024, respectively. This change in useful lives is expected to reduce depreciation and amortization expense by approximately \$411.5 million (\$372.5 million after tax, or an increase of \$3.44 per diluted share) for the year ended December 31, 2024.RESULTS OF OPERATIONSThis report presents our financial results and other financial metrics on a GAAP basis and, with respect to our international and consolidated results, after eliminating the impact of changes in foreign currency exchange rates. We believe that providing these financial results and metrics on a constant currency basis, which are non-GAAP measures, gives management and investors the ability to evaluate the performance of our business without the impact of foreign currency exchange rate fluctuations. We eliminate the impact of changes in foreign currency exchange rates by dividing the current period's financial results by the average monthly exchange rates of the prior year period, as well as by eliminating the impact of realized and unrealized gains and losses on our intercompany loans. This change was primarily due to interest received on a loan to an unconsolidated joint venture and a higher amount of interest-bearing deposits held, as well as higher effective interest rates on those deposits as compared to the prior year. Interest expense decreased \$8.6 million for the six months ended June 30, 2024, as compared to the prior year. On a constant currency basis, interest expense decreased \$8.4 million. This change was primarily due to a lower average principal amount of cash-interest bearing debt outstanding accruing interest, partially offset by a higher interest rate on said debt as compared to the prior year. Non-cash interest expense decreased \$6.2 million for the six months ended June 30, 2024, as compared to the prior year. This change was primarily due to lower amortization of accumulated losses related to our interest rate swaps de-designated as cash flow hedges which reached their term end date in 2023. Loss from extinguishment of debt, net was \$4.4 million for the six months ended June 30, 2024 due to the write-off of the original issuance discount and unamortized financing fees associated with the repayment of the 2018 Term Loan in January 2024. NON-GAAP FINANCIAL MEASURE

This report contains information regarding Adjusted EBITDA, a non-GAAP measure. We have provided below a description of Adjusted EBITDA, a reconciliation of Adjusted EBITDA to its most directly comparable GAAP measure and an explanation as to why management utilizes this measure. This report also presents our financial results and other financial metrics after eliminating the impact of changes in foreign currency exchange rates. We believe that providing these financial results and metrics on a constant currency basis, which are non-GAAP measures, gives management and investors the ability to evaluate the performance of our business without the impact of foreign currency exchange rate fluctuations. We eliminate the impact of changes in foreign currency exchange rates by dividing the current period's financial results by the average monthly exchange rates of the prior year period, as well as by eliminating the impact of the remeasurement of our intercompany loans. Adjusted EBITDA We define Adjusted EBITDA as net income excluding the impact of non-cash straight-line leasing revenue, non-cash straight-line ground lease expense, non-cash compensation, net loss from extinguishment of debt, other income and expenses, acquisition and new business initiatives related adjustments and expenses, asset impairment and decommission costs, interest income, interest expenses, depreciation, accretion, and amortization, and income taxes. We believe that Adjusted EBITDA is useful to investors or other interested parties in evaluating our financial performance. Adjusted EBITDA is the primary measure used by management (1) to evaluate the economic productivity of our operations and (2) for purposes of making decisions about allocating resources to, and assessing the performance of, our operations. Management believes that Adjusted EBITDA helps investors or other interested parties to meaningfully evaluate and compare the results of our operations (1) from period to period and (2) to our competitors, by excluding the impact of our capital structure (primarily interest charges from our outstanding debt) and asset base (primarily depreciation, amortization, and accretion) from our financial results. Management also believes Adjusted EBITDA is frequently used by investors or other interested parties in the evaluation of REITs. In addition, Adjusted EBITDA is similar to the measure of current financial performance generally used by our lenders to determine compliance with certain covenants under our Senior Credit Agreement and the indentures relating to the 2020 Senior Notes and 2021 Senior Notes. Adjusted EBITDA should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance.

LIQUIDITY AND CAPITAL RESOURCES

SBA Telecommunications Corporation (the "SBA") is a holding company with no business operations of its own. SBA's only significant asset is 100% of the outstanding capital stock of SBA Telecommunications, LLC (the "SBA Telecommunications"), which is also a holding company that owns equity interests in entities that directly or indirectly own all of our domestic and international towers and assets. We conduct all of our business operations through SBA Telecommunications' subsidiaries. Accordingly, our only source of cash to pay our obligations, other than financings, is distributions with respect to our ownership interest in our subsidiaries from the net earnings and cash flow generated by these subsidiaries. A summary of our cash flows is as follows: For the six months ended June 30, 2024 2023 (in thousands) Cash provided by operating activities \$ 720,046 \$ 798,101 Cash used in investing activities (206,518) (258,346) Cash used in financing activities (467,935) (474,888) Change in cash, cash equivalents, and restricted cash 45,593 64,867 Effect of exchange rate changes on cash, cash equivalents, and restricted cash (13,395) 1,359 Cash, cash equivalents, and restricted cash, beginning of period 250,946 189,283 Cash, cash equivalents, and restricted cash, end of period \$ 283,144 \$ 255,509 Operating Activities Cash provided by operating activities was \$720.0 million for the six months ended June 30, 2024 as compared to \$798.1 million for the six months ended June 30, 2023. The decrease was primarily due to increases in cash outflows associated with working capital changes related to the timing of customer payments and cash asset impairment and decommission costs as well as a decrease in site development segment operating profit, partially offset by an increase in site leasing segment operating profit and interest income and a decrease in interest expense. Investing Activities A detail of our cash capital expenditures is as follows: For the six months ended June 30, 2024 2023 (in thousands) Acquisitions of towers and related assets \$ (38,194) \$ (22,351) Land buyouts and other assets (1) (22,828) (17,386) Construction and related costs (57,884) (46,579) Augmentation and tower upgrades (26,841) (39,492) Tower maintenance (20,800) (24,139) General corporate (2,319) (2,373) Other investing activities (2) (3) (37,652) (106,026) Net cash used in investing activities \$ (206,518) \$ (258,346) (1) Excludes \$9.3 million and \$7.9 million spent to extend ground lease terms for the six months ended June 30, 2024 and 2023, respectively. (3) The six months ended June 30, 2024 and 2023 includes \$5.5 million and \$83.0 million of loans to an unconsolidated joint venture, respectively. Additionally, subsequent to June 30, 2024, we purchased or are under contract to purchase 106 communication sites which are expected to close prior to year-end at the time of this report for an aggregate consideration of \$49.3 million in cash.

Table of Contents

For 2024, we expect to incur non-discretionary cash capital expenditures associated with tower maintenance and general corporate expenditures of \$51.0 million to \$61.0 million and discretionary cash capital expenditures, based on current or potential acquisition obligations, planned new tower construction, forecasted tower augmentations, and forecasted ground lease purchases, of \$335.0 million to \$355.0 million. We expect to fund these cash capital expenditures from cash on hand, cash flow from operations, and borrowings under the Revolving Credit Facility or new financings. The exact amount of our future cash capital expenditures will depend on a number of factors, including amounts necessary to support our tower portfolio, our new tower build and acquisition programs, and our ground lease purchase program. Financing Activities A detail of our financing activities is as follows: For the six months ended June 30, 2024 2023 (in thousands) Net repayments under Revolving Credit Facility (1) \$ (60,000) \$ (270,000) Proceeds from issuance of Term Loans, net of fees (1) 2,274,815 66 Repayment of Term Loans (1) (2,273,750) (12,000) Repurchase and retirement of common stock (2) (200,019) 66 Payment of dividends on common stock (213,464) (186,070) Proceeds from employee stock purchase/stock option plans 21,302 19,308 Payments related to taxes on stock options and restricted stock units (18,061) (27,377) Other financing activities 1,242 1,251 Net cash used in financing activities \$ (467,935) \$ (474,888) (1) For additional information regarding our debt instruments and financings, refer to the Debt Instruments and Debt Service Requirements section below. During the six months ended June 30, 2024, we did not issue any shares of Class A Common stock under this registration statement. As of June 30, 2024, we had approximately 1.2A million shares of Class A Common stock remaining under this registration statement. On February 29, 2024, we filed with the Securities and Exchange Commission an automatic shelf registration statement for well-known seasoned issuers on Form S-3ASR, which enables us to issue shares of our Class A Common stock, preferred stock, debt securities, warrants, or depositary shares as well as units that include any of these securities. We will file a prospectus supplement containing the amount and type of securities each time we issue securities under our automatic shelf registration statement on Form S-3ASR. During the six months ended June 30, 2024, we did not issue any securities under this automatic shelf registration statement. Debt Instruments and Debt Service Requirements Terms of the Senior Credit Agreement On January 25, 2024, we, through our wholly owned subsidiary SBA Senior Finance II LLC (the "SBA Senior Finance II"), amended and restated our Senior Credit Agreement to (1) issue a new \$2.3 billion Term Loan and retire the 2018 Term Loan, (2) increase the total commitments under the Revolving Credit Facility from \$1.5 billion to \$1.75 billion, (3) extend the maturity date of the Revolving Credit Facility to January 25, 2029, and (4) amend certain other terms and conditions under the Senior Credit Agreement. The proceeds from the 2024 Term Loan were used to retire our 2018 Term Loan and to pay related fees and expenses. On February 23, 2024, we, through our wholly owned subsidiary, SBA Senior Finance II, further increased the total commitments under the Revolving Credit Facility from \$1.75 billion to \$2.0 billion. As of June 30, 2024, SBA Senior Finance II was in compliance with the financial covenants contained in the Senior Credit Agreement. Revolving Credit Facility under the Senior Credit Agreement The Revolving Credit Facility consists of a revolving loan under which up to \$2.0 billion aggregate principal amount may be borrowed, repaid and redrawn, based upon specific financial ratios and subject to the satisfaction of other customary conditions to borrowing through the maturity date of January 25, 2029. Amounts borrowed under the Revolving Credit Facility accrue interest, at SBA Senior Finance II's election, at either (1) the Eurodollar Rate or Term SOFR Rate plus a margin that ranges from 112.5 basis points to 150.0 basis points or (2) the Base Rate plus a margin that ranges from 12.5 basis points to 50.0 basis points, in each case based on the ratio of Consolidated Net Debt to Annualized Borrower EBITDA, calculated in accordance with the Senior Credit Agreement. In addition, SBA Senior Finance II, is required to pay a commitment fee of between 0.15% and 0.25% per annum on the amount of unused commitment. Furthermore, the Revolving Credit Facility incorporates sustainability-linked targets which will adjust the Revolving Credit Facility's applicable interest and commitment fee rates upward or downward based on how we perform against those targets. Borrowings under the Revolving Credit Facility may be used for general corporate purposes. SBA Senior Finance II may, from time to time, borrow from and repay the Revolving Credit Facility. Consequently, the amount outstanding under the Revolving Credit Facility at the end of the period may not be reflective of the total amounts outstanding during such period. The key terms of the Revolving Credit Facility are as follows: Unused Interest Rate Commitment as of Fee as of June 30, 2024 (1) June 30, 2024 (2) Revolving Credit Facility 6.415% 0.140% (1) The rate reflected includes a 0.050% reduction in the applicable spread as a result of meeting certain sustainability-linked targets as of December 31, 2023. (2) The rate reflected includes a 0.010% reduction in the applicable commitment fee as a result of meeting certain sustainability-linked targets as of December 31, 2023. Table of Contents The table below summarizes our Revolving Credit Facility activity during the three and six months ended June 30, 2024 and 2023 (in thousands): For the three months For the six months ended June 30, ended June 30, 2024 2023 2024 2023 Beginning outstanding balance \$ 195,000 \$ 675,000 \$ 180,000 \$ 720,000 Borrowings 70,000 195,000 140,000 Repayments (145,000) (225,000) (255,000) (410,000) Ending outstanding balance \$ 120,000 \$ 450,000 \$ 120,000 \$ 450,000 Subsequent to June 30, 2024, we repaid \$90.0 million and borrowed \$20.0 million under the Revolving Credit Facility, and as of the date of this filing, \$50.0 million was outstanding. Term Loan under the Senior Credit Agreement 2024 Term Loan On January 25, 2024, we, through our wholly owned subsidiary, SBA Senior Finance II, issued a term loan (the "2024 Term Loan") under the amended and restated Senior Credit Agreement. The 2024 Term Loan consists of a senior secured term loan with an initial aggregate principal amount of \$2.3 billion that matures on January 25, 2031. The 2024 Term Loan accrues interest, at SBA Senior Finance II's election, at either the Base Rate plus 100 basis points (with a zero Base Rate floor) or at Term SOFR plus 200 basis points (with a floor of 0%). The 2024 Term Loan was issued at 99.75% of par value. The proceeds from the 2024 Term Loan were used to retire the 2018 Term Loan and to pay related fees and expenses. In connection with the repayment, we expensed \$3.3 million of net deferred financing

fees and \$1.2 million of discount related to the debt. As of June 30, 2024, the 2024 Term Loan was accruing interest at 7.350% per annum.Principal payments on the 2024 Term Loan will be made in quarterly installments on the last day of each March, June, September, and December in an amount equal to \$5.75 million beginning on June 30, 2024. We incurred financing fees of approximately \$19.4 million in relation to this transaction, which are being amortized through the maturity date.During the three and six months ended June 30, 2024, we repaid an aggregate of \$5.75 million of principal on the 2024 Term Loan. As of June 30, 2024, the 2024 Term Loan had a principal balance of \$2.3 billion.Secured Tower Revenue SecuritiesTower Revenue Securities TermsAs of June 30, 2024, we, through a New York common law trust (the “Trust”), had issued and outstanding an aggregate of \$6.9 billion of Secured Tower Revenue Securities (the “Tower Securities”). The sole asset of the Trust consists of a non-recourse mortgage loan made in favor of certain of our subsidiaries that are borrowers on the mortgage loan (the “Borrowers”) under which there is a loan tranche for each Tower Security outstanding with the same interest rate and maturity date as the corresponding Tower Security. The mortgage loan will be paid from the operating cash flows from the aggregate 9,877 tower sites owned by the Borrowers as of June 30, 2024. The mortgage loan is secured by (1) mortgages, deeds of trust, and deeds to secure debt on a substantial portion of the tower sites, (2) a security interest in the tower sites and substantially all of the Borrowers’ personal property and fixtures, (3) the Borrowers’ rights under certain tenant leases, and (4) all of the proceeds of the foregoing. For each calendar month, SBA Network Management, Inc., an indirect subsidiary (the “Network Management”), is entitled to receive a management fee equal to 4.5% of the Borrowers’ operating revenues for the immediately preceding calendar month. 38Table of Contents The table below sets forth the material terms of our outstanding Tower Securities as of June 30, 2024: Security Issue Date Amount Outstanding(in millions) Interest Rate (1) Anticipated Repayment Date Final Maturity Date2014-2C Tower Securities Oct. 15, 2014 \$620.0 3.869% Oct. 8, 2024 Oct. 8, 20492019-1C Tower Securities Sep. 13, 2019 \$1,165.0 2.836% Jan. 12, 2025 Jan. 12, 20502020-1C Tower Securities Jul. 14, 2020 \$750.0 1.884% Jan. 9, 2026 Jul. 11, 20502020-2C Tower Securities Jul. 14, 2020 \$600.0 2.328% Jan. 11, 2028 Jul. 9, 20522021-1C Tower Securities May 14, 2021 \$1,165.0 1.631% Nov. 9, 2026 May 9, 20512021-2C Tower Securities Oct. 27, 2021 \$895.0 1.840% Apr. 9, 2027 Oct. 10, 20512021-3C Tower Securities Oct. 27, 2021 \$895.0 2.593% Oct. 9, 2031 Oct. 10, 20562022-1C Tower Securities Nov. 23, 2022 \$850.0 6.599% Jan. 11, 2028 Nov. 9, 2052 (1)Interest paid monthly. Debt Service As of June 30, 2024, we believe that our cash on hand, capacity available under our Revolving Credit Facility, and cash flows from operations for the next twelve months will be sufficient to service our outstanding debt during the next twelve months. 39Table of Contents The following table illustrates our estimate of our debt service requirement over the next twelve months ended June 30, 2025 based on the amounts outstanding as of June 30, 2024 and the interest rates accruing on those amounts on such date (in thousands): Revolving Credit Facility (1) \$ 10,3302024 Term Loan (2) 110,3152014-2C Tower Securities 632,9822019-1C Tower Securities 1,198,4092020-1C Tower Securities 14,3682020-2C Tower Securities 14,1592021-1C Tower Securities 19,3712021-2C Tower Securities 16,7522021-3C Tower Securities 23,4912022-1C Tower Securities 56,3622020 Senior Notes 58,1252021 Senior Notes 46,875Total debt service for the next 12 months \$ 2,201,539 (1)As of June 30, 2024, \$120.0 million was outstanding under the Revolving Credit Facility. A InflationThe impact of inflation on our operations has not been material to date. However, the impact of rising interest rates, due to actions by the Federal Reserve to combat inflation, has impacted, and is expected to continue to impact, our growth rate and future operating results. Increasing interest rates has impacted, and is expected to continue to impact, the ability and willingness of wireless service providers to incur capital expenditures at prior levels to expand their networks, which could adversely affect our future revenue growth rates. In addition, increased interest rates may adversely affect our costs to refinance our indebtedness at maturity. In addition, persistent high rates of inflation could adversely affect our future operating results particularly in light of the fact that our site leasing revenues are governed by long-term contracts with pre-determined pricing that we will not be able to increase in response to increases in inflation other than our contracts in South America, South Africa, the Philippines, and Tanzania which have inflationary index based rent escalators. 40Table of Contents ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK We are exposed to certain market risks that are inherent in our financial instruments. These instruments arise from transactions entered into in the normal course of business. The following table presents the future principal payment obligations and fair values associated with our long-term debt instruments assuming our actual level of long-term indebtedness as of June 30, 2024: 2024 2025 2026 2027 2028 Thereafter Total Fair Value (in thousands)Revolving Credit Facility \$ \$ \$ \$ \$ \$ \$ 120,000 \$ 120,000 \$ 120,0002024 Term Loan 11,500 23,000 23,000 23,000 23,000 23,000 2,190,750 2,294,250 2,297,1182014-2C Tower Securities (1) 620,000 620,000 620,000 615,3502019-1C Tower Securities (1) 1,165,000 1,165,000 1,165,000 1,138,0072020-1C Tower Securities (1) 620,000 620,000 620,000 620,000 620,000 620,000 1,165,000 1,165,000 1,165,000 1,016,5562021-2C Tower Securities (1) 895,000 895,000 895,000 895,000 895,000 895,000 1,429,1552021 Senior Notes 684,6842022-1C Tower Securities (1) 850,000 850,000 850,000 870,2812020 Senior Notes 1,500,000 1,500,000 1,500,000 1,235,250 1,149,276(1)For information on the anticipated repayment date and final maturity date for each Tower Security, refer to Debt Instruments and Debt Service Requirements above.Our current primary market risk exposure is (1) interest rate risk relating to our ability to refinance our debt at commercially reasonable rates, if at all, and (2) interest rate risk relating to the impact of interest rate movements on the variable portion of our 2024 Term Loan and any borrowings that we may incur under our Revolving Credit Facility, which are at floating rates. We manage the interest rate risk on our outstanding debt through our large percentage of fixed rate debt, including interest rate swaps. While we cannot predict our ability to refinance existing debt or the impact interest rate movements will have on our existing debt, we continue to evaluate our financial position on an ongoing basis. We have performed a sensitivity analysis assuming a hypothetical 1% increase in our variable interest rates as of June 30, 2024. As of June 30, 2024, the analysis indicated that such an adverse movement would have caused our interest expense to increase by approximately 1.3% for the six months ended June 30, 2024. We are exposed to market risk from changes in foreign currency exchange rates in connection with our operations in Brazil, Canada, Chile, Peru, Colombia, South Africa, the Philippines, Tanzania, and to a lesser extent, our markets in Central America. In each of these countries, we pay most of our selling, general, and administrative expenses and a portion of our operating expenses, such as taxes and utilities incurred in the country in local currency. In addition, in Brazil, Canada, Chile, South Africa, and the Philippines, we receive significantly all of our revenue and pay significantly all of our operating expenses in local currency. In Colombia, Costa Rica, Peru, and Tanzania, we receive our revenue and pay our operating expenses in a mix of local currency and U.S. dollars. All transactions denominated in currencies other than the U.S. Dollar are reported in U.S. Dollars at the applicable exchange rate. All assets and liabilities are translated into U.S. Dollars at exchange rates in effect at the end of the applicable fiscal reporting period, and all revenues and expenses are translated at average rates for the period. The cumulative translation effect is included in equity as a component of Accumulated other comprehensive income (loss), net. For the six months ended June 30, 2024, approximately 22.0% of our revenues and approximately 31.2% of our total operating expenses were denominated in foreign currencies. We have performed a sensitivity analysis assuming a hypothetical 10% adverse movement in the Brazilian Real from the quoted foreign currency exchange rates at June 30, 2024. As of June 30, 2024, the analysis indicated that such an adverse movement would have caused our revenues and operating income to decline by approximately 1.3% and 1.0%, respectively, for the six months ended June 30, 2024. As of June 30, 2024, we had intercompany debt, which is denominated in a currency other than the functional currency of the subsidiary in which it is recorded. As settlement of this debt is anticipated or planned in the foreseeable future, any changes in the foreign currency exchange rates will result in unrealized gains or losses, which will be included in our determination of net income. A change of 10% in the underlying exchange rates of our unsettled intercompany debt at June 30, 2024 would have resulted in 41Table of Contents approximately \$125.7 million of unrealized gains or losses that would have been included in Other (expense) income, net in our Consolidated Statements of Operations for the six months ended June 30, 2024.Special Note Regarding Forward-Looking StatementsThis quarterly report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. Communications Corporation by the weighted-average number of shares of Class A common stock outstanding for each respective period. Diluted earnings per share was calculated by dividing net income attributable to SBA Communications Corporation by the weighted-average number of shares of Class A common stock outstanding adjusted for any dilutive Class A common stock equivalents, including unvested RSUs, PSUs, and shares issuable upon exercise of stock options as determined under the a–Treasury Stock–method. As of June 30, 2024, the Company has an interest rate swap agreement on its 2024 Term Loan which swaps \$1.95 billion of notional value accruing interest at one month Term SOFR plus 200 basis points for an all-in fixed rate of 2.050% per annum through March 31, 2025. Additionally, the Company has a forward-starting interest rate swap agreement which will swap \$1.0 billion of notional value accruing interest at one month Term SOFR plus 200 basis points for an all-in fixed rate of 5.830% per annum. The forward-starting swap has an effective start date of March 31, 2025 and a maturity date of April 11, 2028. As of June 30, 2024, the hedges remain highly effective; therefore, changes in fair value are recorded in Accumulated other comprehensive loss, net. These financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and, therefore, omit or condense certain footnotes and other information normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States. In the opinion of the Company’s management, all adjustments (consisting of normal recurring accruals and deferrals) considered necessary for fair financial statement presentation have been made. The results of operations for an interim period may not give a true indication of the results for the year. Certain reclassifications have been made to prior year amounts or balances to conform to the presentation adopted in the current year. Use of Estimates Use of Estimates The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The significant estimates made by management relate to the allowance for doubtful accounts, the costs and revenue relating to the Company’s construction contracts, stock-based compensation assumptions, valuation allowance related to deferred tax assets, fair value of long-lived assets, the useful lives of towers and intangible assets, anticipated property tax assessments, incremental borrowing rate for lease accounting, fair value of investments, and asset retirement obligations. Management develops estimates based on historical experience and on various assumptions about the future that are believed to be reasonable based on the information available. These estimates ultimately may differ from actual results and such differences could be material.During the first quarter of 2024, the Company completed its assessment on the remaining estimated useful lives of its towers and intangible assets. The Company concluded through its assessment that, for U.S. GAAP purposes, it should modify its current estimates for asset lives based on its historical operating experience and the findings obtained by its independent consultant. The Company previously depreciated its towers on a straight-line basis over the shorter of the (i) term of the underlying ground lease (including renewal options) taking into account residual value or (ii) estimated useful life of a tower, which the Company had historically estimated to be 15 years. Based on its assessment, the Company revised the estimated useful lives of its towers and certain related intangible assets (which are amortized on a similar basis to its tower assets, as their useful lives correlate to the useful life of the towers) from 15 years to 30 years, effective January 1, 2024. The Company accounted for the change in estimated useful lives as a change in estimate under ASC 250 “Accounting Changes and Error Corrections.” The impact of the change in estimate was accounted for prospectively effective January 1, 2024, resulting in a reduction in depreciation and amortization expense of approximately \$102.7 million (\$93.0 million after tax, or an increase of \$0.86 per diluted share) and \$205.4 million (\$186.0 million after tax, or an increase of \$1.72 per diluted share) for the three and six months ended June 30, 2024, respectively. This change in useful lives is expected to reduce depreciation and amortization expense by approximately \$411.5 million (\$372.5 million after tax, or an increase of \$3.44 per diluted share) for the year ended December 31, 2024. Foreign Currency Translation Foreign Currency TranslationAll assets and liabilities of foreign subsidiaries that do not utilize the U.S. dollar as its functional currency are translated at period-end exchange rates, while revenues and expenses are translated at monthly average exchange rates during the period. Unrealized translation gains and losses are reported as foreign currency translation adjustments through Accumulated other comprehensive loss, net in the Consolidated Statements of Shareholders’ Deficit.For foreign subsidiaries where the U.S. dollar is the functional currency, monetary assets and liabilities of such subsidiaries, which are not denominated in U.S. dollars, are remeasured at exchange rates in effect at the balance sheet date, and revenues and expenses are remeasured at monthly average rates prevailing during the year. Remeasurement gains and losses are reported as Other (expense) income, net in the Consolidated Statements of Operations. Intercompany Loans Subject to Remeasurement Intercompany Loans Subject to RemeasurementIn accordance with ASC 830, the Company remeasures foreign denominated intercompany loans with the corresponding change in the balance being recorded in Other (expense) income, net in the Consolidated Statements of Operations as settlement is anticipated or planned in the foreseeable future. The Company recorded a \$66.2 million loss and a \$27.8 million gain, net of taxes, on the remeasurement of intercompany loans for the three months ended June 30, 2024 and 2023, respectively, and a \$94.7 million loss and a \$55.2 million gain, net of taxes, on the remeasurement of intercompany loans for the six months ended June 30, 2024 and 2023, respectively. During the six months ended June 30, 2024, the Company funded \$9.3 million and \$79.7 million was repaid under its intercompany loan agreements. As of June 30, 2024 and December 31, 2023, the aggregate amount outstanding under the intercompany loan agreements subject to remeasurement with the Company’s foreign subsidiaries was \$1.2 billion and \$1.3 billion, respectively. Examples of items that might be included in the application of this element may consist of letters of credit, standby letters of credit, and revolving credit arrangements, under which borrowings can be made up to a maximum amount as of any point in time conditional on satisfaction of specified terms before, as of and after the date of drawdowns on the line. Includes short-term obligations that would normally be classified as current liabilities but for which (a) postbalance sheet date issuance of a long term obligation to refinance the short term obligation on a long term basis, or (b) the enterprise has entered into a financing agreement that clearly permits the enterprise to refinance the short-term obligation on a long term basis and the following conditions are met (1) the agreement does not expire within 1 year and is not cancelable by the lender except for violation of an objectively determinable provision, (2) no violation exists at the BS date, and (3) the lender has entered into the financing agreement is expected to be financially capable of honoring the agreement. + ReferencesReference 1: <http://fasb.org/us-gaap/role/ref/legacyRef> -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(22)) -SubTopic 10 -Topic 210 -Publisher FASB -URI <https://asc.fasb.org/1943274/2147480566/210-10-S99-1>Reference 2: <http://fasb.org/us-gaap/role/ref/legacyRef> -Topic 942 -SubTopic 210 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.9-03(16)) -Publisher FASB -URI <https://asc.fasb.org/1943274/2147478546/942-210-S99-1>Reference 3: <http://www.xbrl.org/2009/role/commonPracticeRef> -Topic 944 -SubTopic 210 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.7-03(a)(16)(a)(2)) -Publisher FASB -URI <https://asc.fasb.org/1943274/2147478777/944-210-S99-1> + Details Name: us-gaap LineOfCredit Namespace Prefix: us-gaap Data Type: xbrli:monetaryItemType Balance Type: credit Period Type: instant X - DefinitionLine items represent financial concepts included in a table. The Company concluded through its assessment that, for U.S. GAAP purposes, it should modify its current estimates for asset lives based on its historical operating experience and the findings obtained by its independent consultant. The Company previously depreciated its towers on a straight-line basis over the shorter of the (i) term of the underlying ground lease (including renewal options) taking into account residual value or (ii) estimated useful life of a tower, which the Company had historically estimated to be 15 years. Based on its assessment, the Company revised the estimated useful lives of its towers and certain related intangible assets (which are amortized on a similar basis to its tower assets, as their useful lives correlate to the useful life of the towers) from 15 years to 30 years, effective January 1, 2024. The Company accounted for the change in estimated useful lives as a change in estimate under ASC 250 "Accounting Changes and Error Corrections." The impact of the change in estimate was accounted for prospectively effective January 1, 2024, resulting in a reduction in depreciation and amortization expense of approximately 102.7 million (93.0 million after tax, or an increase of 0.86 per diluted share) and 205.4 million (186.0 million after tax, or an increase of 1.72 per diluted share) for the three and six months ended June 30, 2024, respectively. This change in useful lives is expected to reduce depreciation and amortization expense by approximately 411.5 million (372.5 million after tax, or an increase of 3.44 per diluted share) for the year ended December 31, 2024.</p><p>P15YP15YP30Y10270000093000000.00.86205400000186000000.01.724115000003725000003.44Foreign Currency Translation<p dir="ltr" style="font-family: 'Times New Roman','serif;font-size: 10pt;line-height: 108%;margin-bottom: 0;margin-left: 0;margin-right: 0;margin-top: 5pt;text-indent: 0.50in;">All assets and liabilities of foreign subsidiaries that do not utilize the U.S. dollar as its functional currency are translated at period-end exchange rates, while revenues and expenses are translated at monthly average exchange rates during the period. FAIR VALUE MEASUREMENTS

Items Measured at Fair Value on a Recurring Basis

The Company's asset retirement obligations are measured at fair value on a recurring basis using Level 3 inputs and are recorded in Other long-term liabilities in the Consolidated Balance Sheets. The fair value of the asset retirement obligations is calculated using a discounted cash flow model.

Refer to Note 16 for discussion of the Company's redeemable noncontrolling interests.

Assets Measured at Fair Value on a Nonrecurring Basis

The Company estimates the fair value of assets subject to impairment using a discounted cash flow ("DCF") (Level 3 input) analysis. Determining fair value requires the exercise of significant judgments, including the amount and timing of expected future cash flows, long-term growth rates, discount rates and relevant comparable earnings and trading multiples. The cash flows employed in the DCF analysis are based on estimates of future revenues, earnings, and cash flows after considering factors such as lower location demographics, timing of additions of new tenants, lease rates, rate and term of renewal, attrition, ongoing cash requirements, and market multiples. Each of the assumptions are applied based on the specific facts and circumstances of the identified assets at the lowest level of identifiable cash flows. The DCF analysis used an average discount rate ranging from 7.8% to 8.8%.

Asset impairment and decommission costs for all periods presented and the related impaired assets primarily relate to the Company's site leasing operating segment. The following summarizes the activity of asset impairment and decommission costs:
