We monitor economic conditions closely, and in response to observed or anticipated reductions in revenue, we may institute precautionary measures to address the potential impact to our consolidated financial position, consolidated results of operations, and liquidity, including wage reduction efforts and controlling non-essential capital expenditures.The extent of the impact of current economic conditions will depend on future actions and outcomes, all of which remain fluid and cannot be predicted with confidence (including effects on advertising activity, consumer discretionary spending and our employees in the markets in which we operate).Basis of PresentationThe accompanying Unaudited Consolidated Financial Statements should be read in conjunction with the Companyâ€™s audited Consolidated Financial Statements and related notes thereto included in the Company's Annual Report on Form 10-K (the "2023 Annual Report on Form 10-K"). All adjustments (consisting only of normal, recurring adjustments) necessary for a fair presentation of results of operations and financial condition as of the end of the interim periods have been included. The results of operations for the three and nine months ended September 30, 2024, cash flows for the nine months ended September 30, 2024, and the Companyâ€™s financial condition as of such date are not necessarily indicative of the results of operations or cash flows that can be expected for, or the Companyâ€™s financial condition as of, any other interim period or for the fiscal year ending DecemberÂ 31, 2024. The Consolidated Balance Sheet as of DecemberÂ 31, 2023 is derived from the audited Consolidated Financial Statements at that date.8Use of EstimatesThe preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, the Company evaluates its significant estimates, including those related to assumptions used in determining the fair value of assets and liabilities acquired in a business combination, impairment testing of intangible assets, valuation and impairment testing of long-lived tangible assets and investments, the present value of leasing arrangements, share-based payment expense and the calculation of allowance for credit losses and income taxes. The Company bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the result of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources.Actual amounts and results may differ materially from these estimates under different assumptions or conditions.Note 2. Summary of Significant Accounting PoliciesThere have been no significant changes in the Companyâ€™s accounting policies since DecemberÂ 31, 2023. For the Company's detailed accounting policies please refer to the Consolidated Financial Statements and related notes thereto included in the Company's 2023 Annual Report on Form 10-K.Recently Issued Standards That Have Not Yet Been AdoptedIn November 2023, the FASB issued ASU 2023-07, Segment Reporting â€” Improvements to Reportable Segments Disclosures, which enhances disclosures of significant segment expenses by requiring the disclosure of significant segment expenses regularly provided to the chief operating decision maker, extending certain annual disclosures to interim periods, and permitting more than one measure of segment profit or loss to be reported under certain conditions. The amendments are effective for the Company in fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption of the amendment is permitted, including adoption in any interim periods for which financial statements have not been issued. As this update only requires additional disclosures, the adoption of this standard is not expected to have a significant impact on the Consolidated Financial Statements.In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which requires additional categories of information about federal and state income taxes in the rate reconciliation table and to provide more details about reconciling items in some categories if items meet a quantitative threshold. The guidance also requires the disclosure of income taxes paid, net of refunds, disaggregated by federal and state taxes for annual periods and to disaggregate the information by jurisdiction based on a quantitative threshold. The guidance is effective for fiscal years beginning after December 15, 2024, with early adoption permitted. As this update only requires additional disclosures, the adoption of this standard is not expected to have a significant impact on the Consolidated Financial Statements.In November 2024, the FASB issued ASU 2024-03, Income Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures, which requires the disclosure in the notes to financial statements, information about certain costs and expenses including, purchases of inventory, employee compensation, depreciation and intangible asset amortization. The guidance also requires a qualitative description of amounts remaining in certain expense captions that are not separately disaggregated on a quantitative basis, as well as the disclosure of the total amount of selling expenses. The guidance is effective for fiscal years beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, with early adoption permitted. Note 3. the terms of a customer contract are satisfied; this occurs with the transfer of control as we satisfy contractual performance obligations. Our contractual performance obligations include the performance of digital marketing solutions, placement of internet-based advertising campaigns, broadcast of commercials on our owned and operated radio stations, and the operation of live events. Revenue is measured at contract inception as the amount of consideration we expect to receive in exchange for transferring goods or providing services. Our contracts are at a fixed price at inception and do not include any variable consideration or financing components by normal course of business practice. Sales, value add, and other taxes that are collected concurrently with revenue producing activities are excluded from revenue.The primary sources of net revenue are the sale of digital and broadcast advertising solutions on our owned and operated websites, radio stationsâ€™ online streams, and mobile applications, radio stations, and on third-party websites through our in-house digital programmatic advertising platform. Through our digital programmatic advertising platform, we are able to hyper-target audiences for our local, regional and national advertisers by combining first and third-party audience and geographic location data, providing them the ability to reach a high percentage of their online audience. We deliver these solutions across desktop, mobile, connected TV, email, paid search and social media platforms utilizing display, video and native executions. We also offer subscription digital marketing solutions under the brand name Townsquare Interactive to small and mid-sized local and regional businesses in markets outside the top 50 across the United States, including the markets in which we operate radio stations. Townsquare Interactive offers traditional and mobile-enabled website development and hosting services, e-commerce platforms, search engine and online directory optimization services, online reputation monitoring, social media management, and website retargeting.Political net revenue includes the sale of advertising for political advertisers. Contracted performance obligations under political contracts consist of the broadcast and placement of digital advertisements. Management views political revenue separately based on the episodic nature of election cycles and local issues calendars.Net revenue from digital subscription-based contractual performance obligations is recognized ratably over time as our performance obligations are satisfied. Subscription-based service fees are typically billed in advance of the month of service at a fixed monthly fee that is contractually agreed upon at contract inception. The measure of progress in such arrangements is the number of days of successful delivery of the contracted service.Our advertising contracts are short-term (less than one year) and payment terms are generally net 30-60 days for traditional customer contracts and net 60-90 days for national agency customer contracts. Our billing practice is to invoice customers on a monthly basis for services delivered to date (representing the right to invoice). Our contractual arrangements do not include rights of return and do not include any significant judgments by nature of the products and services.For all customer contracts, we evaluate whether we are the principal (i.e., report revenue on a gross basis) or the agent (i.e., report revenue on a net basis). Generally, we report revenue for advertising placed on Townsquare properties on a gross basis (the amount billed to our customers is recorded as revenue, and the amount paid to our publishers is recorded as a cost of revenue). We are the principal because we control the advertising inventory before it is transferred to our customers. 10Our control is evidenced by our sole ability to monetize the advertising inventory, being primarily responsible to our customers, having discretion in establishing pricing, or a combination of these factors. We also generate revenue through agency relationships in which revenue is reported net of agency commissions. Agency commissions are calculated based on a stated percentage applied to gross billing revenue for advertisers that use agencies.The following tables provides information about receivables, contract assets and contract liabilities from contracts with customers (in thousands):September 30, 2024December 31,Â 2023Accounts Receivable$57,654Â $60,780Â Short-term contract liabilities (deferred revenue)$9,092Â $9,059Â Contract Acquisition Costs$6,600Â $5,175Â We receive payments from customers based upon contractual billing schedules; contract receivables are recognized in the period the Company provides services when the Companyâ€™s right to consideration is unconditional. Payment terms vary by the type and location of our customer and the products or services offered. Payment terms for amounts invoiced are typically net 30-60 days.Our contract liabilities include cash payments received or due in advance of satisfying our performance obligations and digital subscriptions in which payment is received in advance of the service and month. These contract liabilities are recognized as revenue as the related performance obligations are satisfied. As of SeptemberÂ 30, 2024, and DecemberÂ 31, 2023, the balance in the contract liabilities was $9.1Â million and $9.1Â million, respectively. The increase in the contract liabilities balance at SeptemberÂ 30, 2024 is primarily driven by cash payments received or due in advance of satisfying our performance obligations, offset by $0.7Â million and $7.8Â million of recognized revenue for the three and nine months ended September 30, 2024. For the three and nine months ended September 30, 2023, we recognized $0.6Â million and $9.1Â million of revenue that was previously included in our deferred revenue balance. No significant changes in the time frame of the satisfaction of contract liabilities have occurred during the three and nine months ended September 30, 2024.Our capitalized contract acquisition costs include amounts related to sales commissions paid for signed contracts with perceived durations exceeding one year. We defer the related sales commission costs and amortize such costs to expense in a manner that is consistent with how the related revenue is recognized over the duration of the related contracts. We have evaluated the average customer contract duration (initial term and any renewals) to determine the appropriate amortization period for these contractual arrangements. Capitalized contract acquisition costs are recognized in prepaid expenses and other current assets in the accompanying consolidated balance sheets. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, we had a balance of $6.6Â million and $5.2Â million, respectively, in capitalized contract acquisition costs and recognized $1.0Â million and $3.2Â million of amortization for the three and nine months ended September 30, 2024, respectively. For the three and nine months ended September 30, 2023, we recognized $1.8Â million and $5.1Â million of amortization, respectively. No impairment losses have been recognized or changes made to the time frame for performance of the obligations related to deferred contract assets during the three and nine months ended September 30, 2024 and 2023.Arrangements with Multiple Performance ObligationsIn contracts with multiple performance obligations, we identify each performance obligation and evaluate whether the performance obligations are distinct within the context of the contract at contract inception. When multiple performance obligations are identified, we identify how control transfers to the customer for each distinct contract obligation and determine the period when the obligations are satisfied. If obligations are satisfied in the same period, no allocation of revenue is deemed to be necessary. In the event performance obligations within a bundled contract do not run concurrently, we allocate revenue to each performance obligation based on its relative standalone selling price. We generally determine standalone selling prices based on the prices charged to customers. Performance obligations that are not distinct at contract inception are combined.11Performance ObligationsWe do not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts for which we recognize revenue at the amount to which we have the right to invoice for services performed. Amounts related to performance obligations with expected durations of greater than one year are at a fixed price per unit and do not include any upfront or minimum payments requiring any estimation or allocation of revenue.Â Â Â Â Allowance for Credit LossesThe Company maintains an allowance for credit losses, which represents the portion of accounts receivable that is not expected to be collected over the duration of its contractual life. Credit losses are recorded when the Company believes a customer, or group of customers, may not be able to meet their financial obligations. Account balances are charged off against the allowance when it is probable the receivable will not be recovered.The change in the allowance for credit losses for the nine months ended September 30, 2024 was as follows (in thousands):Balance at December 31, 2023$4,041Â Provision for credit losses4,036Â Amounts written off against allowance, net of recoveries(3,946)Balance at September 30, 2024$4,131Â Note 4. Goodwill and Other Intangible AssetsIndefinite-lived intangible assetsIndefinite-lived assets consist of FCC broadcast licenses, goodwill and investment in digital assets. FCC Broadcast LicensesFCC licenses represent a substantial portion of the Companyâ€™s total assets. The FCC licenses are renewable in the ordinary course of business, generally for a maximum of eight years. The fair value of FCC licenses is primarily dependent on the future cash flows of the radio markets and other assumptions, including, but not limited to, forecasted revenue growth rates, profit margins and a risk-adjusted discount rate. The Company has selected December 31st as the annual testing date.The Company evaluates its FCC licenses for impairment annually or more frequently if events or changes in circumstances indicate that the assets might be impaired. Due to changes in the weighted average cost of capital and changes in forecasted traditional broadcast revenues in the markets in which we operate, the Company quantitatively evaluated the fair value of its FCC licenses at September 30, June 30, and March 31, 2024.The key assumptions used in applying the direct valuation method are summarized as follows: September 30, 2024Discount Rate15.4%Long-term Revenue Growth Rate(0.5)%LowHighMature Market Share*20.7%75.0%Operating Profit Margin23.1%46.7%June 30, 2024Discount Rate16.5%Long-term Revenue Growth Rate0.0%LowHighMature Market Share*20.7%75.0%Operating Profit Margin23.1%46.7%March 31, 2024Discount Rate13.7%Long-term Revenue Growth Rate0.0%LowHighMature Market Share*22.0%73.0%Operating Profit Margin23.1%46.7%* Market share assumption used when reliable third-party data is available. Otherwise, Company results and forecasts are utilized.13Based on the results of the interim impairment assessments of our FCC licenses, the Company incurred no impairment charges during the third quarter of 2024, and $29.7Â million of impairment charges for the nine months ended September 30, 2024, for FCC licenses in 26 of our 74 local markets. The impairment charges were primarily driven by increases in the discount rate applied in the valuation of our FCC licenses due to an increase in the weighted average cost of capital for the respective periods and decreases in third-party forecasts of broadcast revenues. The increases in the weighted average cost of capital were driven by changes in the market data, specifically industry bond yields, utilized in determining the discount rate applied in the valuation of our FCC licenses. The Company recorded an impairment charge of $23.6Â million and $48.4Â million for FCC licenses in 24 and 32 of our 74 local markets for the three and nine months ended September 30, 2023.Unfavorable changes in key assumptions utilized in the impairment assessment of our FCC licenses may affect future testing results. For example, keeping all other assumptions constant, a 100-basis point increase in the weighted average cost of capital as of the date of our last quantitative assessment would cause the estimated fair values of our FCC licenses to decrease by $21.1Â million which would have resulted in an impairment charge of $3.3Â million as of SeptemberÂ 30, 2024. Further, a 100-basis point decline in the long-term revenue growth rate would cause the estimated fair values of our FCC licenses to further decrease by $10.5Â million which would have resulted in an impairment charge of $9.0Â million as of SeptemberÂ 30, 2024. Finally, a 100-basis point decline in operating profit margins would result in a decrease in the estimated fair values of our FCC licenses of $10.3Â million which would result in an impairment charge of $9.0Â million.Assumptions used to estimate the fair value of our FCC licenses are also dependent upon the expected performance and growth of our traditional broadcast radio operations. In the event broadcast radio revenue experiences actual or anticipated declines, such declines will have a negative impact on the estimated fair value of our FCC licenses, and the Company could recognize additional impairment charges, which could be material.GoodwillFor goodwill impairment testing, the Company has selected December 31st as the annual testing date. In addition to the annual impairment test, the Company regularly assesses whether a triggering event has occurred, which would require interim impairment testing. As of December 31, 2023, the fair values of our National Digital, Townsquare Ignite, Analytical Services, and Townsquare Interactive reporting units were in excess of their respective carrying values by approximately 117%, 41%, 157%, and 147%, respectively. The Local Advertising and Amped reporting units had no goodwill as of December 31, 2023.The Company considered whether any events have occurred or circumstances have changed from the last quantitative analysis performed as of December 31, 2023 that would indicate that the fair value of the Company's reporting units may be below their carrying amounts. During the third quarter of 2024, the Company concluded that the carrying amount of the Live Events reporting unit exceeded its fair value, resulting in the recognition of a non-cash goodwill impairment charge of $1.7Â million. During the second quarter of 2024, the Company concluded that the carrying amount of the National Digital and Live Events reporting units exceeded their fair values, resulting in the recognition of a non-cash goodwill impairment charges of $1.8Â million and $0.9Â million, respectively. In total, the company recorded $4.4Â million of non-cash goodwill impairment charges during the nine months ended September 30, 2024.Interim impairment assessments were considered necessary as a result of declines in revenues and profit and increases in the weighted average cost of capital. The Company did not identify indicators of impairment related to any other reporting units that would have required an interim impairment assessment during the three months ended September 30, 2024. The Local Advertising, Amped, and Live Events reporting units had no goodwill as of September 30, 2024.The fair value of the Live Events reporting unit was determined using an income approach whereby the fair value was calculated utilizing discounted estimated future cash flows. The income approach requires several assumptions including future sales growth, EBITDA (earnings before interest, taxes, depreciation and amortization) margins, and capital expenditures and discount rates which are the basis for the information used in the discounted cash flow model. The weighted-average cost of capital used in testing the Live Events reporting unit for impairment was 13.4%, with a perpetual growth rate of 3.2%. In accordance with ASC 321, Investments - Equity Securities, the Company measures its equity securities at cost minus impairment, as their fair values are not readily determinable and the investments do not qualify for the net asset value per share practical expedient. The Company monitors its investments for any subsequent observable price changes in orderly transactions for the identical or a similar investment of the same investee, at which time the Company would adjust the then current carrying values of the related investment. Additionally, the Company evaluates its investments for any indicators of impairment.Equity securities measured at cost minus impairmentDuring the three and nine months ended September 30, 2024, the Company recorded $0.2Â million and $1.8Â million of impairment charges for existing investments, respectively. Stockholders' EquityStock OptionsDuring the nine months ended September 30, 2024, eligible option holders tendered 907,793 options to purchase 907,793 shares of Townsquare common stock.During the nine months ended September 30, 2024, the Company granted 124,093 options with grant date fair values ranging from $2.30 to $2.95 and vesting periods from three to five-years, each with ten-year terms. The Company also granted 73,738 options with grant date fair values of $2.68 to $2.86, respectively. These options contain market conditions whereby the options will vest and become exercisable subject to the achievement of a specified volume weighted average trading price ("VWAP") over a specified period and continued employment through the performance period each as observed and summarized below, respectively:VWAP over 20 consecutive trading days of the three-year performance periodVWAPNumber of Options that Vest$12.4024,577$14.4024,577$16.4024,58473,738No portion of the grants will vest unless the VWAP targets are achieved during the respective performance periods.The grant date fair value of stock options with market conditions is estimated using the Monte Carlo option pricing model, while stock options containing only service conditions is estimated using the Black-Scholes option pricing model. Each model requires an estimate of the expected term of the option, the expected volatility of the Companyâ€™s common stock price, dividend yield and the risk-free interest rate. The below table summarizes the assumptions used to estimate the fair value of the equity options granted:Monte Carlo ModelBlack-Scholes ModelExpected volatility53.0Â %51% - 52%Expected term5.33 years6.01 - 7.00 yearsRisk free interest rate4.03%3.63% - 4.23%Expected dividend yield7.14Â %7.14% - 8.32%For options only containing service conditions, the expected term was calculated using the simplified method, defined as the midpoint between the vesting period and the contractual term of each award, due to the lack of sufficient and meaningful historical exercise data. For options with market-based conditions, the expected term was estimated based on when the options are expected to be exercised. The expected volatility was based on market conditions of the Company. The risk-free interest rate was based on the U.S. Treasury yield curve in effect on the date of grant which most closely corresponds to the expected term of the option.18The following table summarizes all option activity for the nine months ended September 30, 2024:OptionsWeighted Average Exercise PriceWeighted Average Remaining Contractual Life (years)Aggregate Intrinsic Value (in thousands)Outstanding at December 31, 202311,056,324Â $7.74Â 4.82$31,221Â Â Â Granted - service conditions124,093Â 10.58Â Â Â Granted - market conditions73,738Â 10.50Â Â Â Exercised(907,793)8.23Â 2,624Â Â Â Settled(3,186,653)8.75Â 11,468Â Â Â Forfeited and expired(72,457)7.30Â Outstanding at September 30, 20247,087,252Â $7.30Â 6.32$20,327Â Exercisable at September 30, 20243,554,516Â $7.05Â 5.05$11,051Â The maximum contractual term of stock options is 10 years.Restricted Stock AwardsDuring the nine months ended September 30, 2024, the Company granted 85,787 shares, including 61,905 shares to non-employee directors, with vesting periods of one to three years. During the three and nine months ended September 30, 2024, a total of $0.9Â million and $2.6Â million of expense was recognized as a component of stock-based compensation in connection with the stock bonus program.21Note 10. Net Loss Per ShareBasic earnings per common share (â€œEPSâ€) is generally calculated as income available to common shareholders divided by the weighted average number of common shares outstanding. Diluted EPS is generally calculated as income available to common shareholders divided by the weighted average number of common shares outstanding plus the dilutive effect of common share equivalents. Stock-based compensation awards that are out-of-the-money and stock options and restricted stock units in which the market-based performance criteria have not been met as of the end of the respective reporting period are omitted from the calculation of Diluted EPS.The following table sets forth the computations of basic and diluted net loss per share for the three and nine months ended September 30, 2024 and 2023 (in thousands, except per share data):Three Months EndedÂ September 30,Nine Months Ended September 30,20242023Numerator:Net income (loss)$11,336Â $(36,503)$(35,969)$(41,144)Net income from non-controlling interest489Â 496Â 1,292Â 1,476Â Net income (loss) attributable to controlling interest$10,847Â $(36,999)$(37,261)$(42,620)Denominator:Weighted average shares of common stock outstanding15,296Â 16,277Â 15,650Â 16,897Â Effect of dilutive common stock equivalents1,931Â â€”Â â€”Â â€”Â Weighted average diluted common shares outstanding17,227Â 16,277Â 15,650Â 16,897Â Basic income (loss) per share$0.71Â (2.27)(2.38)$(2.52)Diluted income (loss) per share$0.63Â (2.27)(2.38)$(2.52)The Company had the following dilutive securities that were not included in the computation of diluted net (loss) income per share as they were considered anti-dilutive (in thousands):Three Months Ended September 30,Nine Months Ended September 30,20242023Stock options173Â 10,135Â 7,522Â 10,226Â Stock options with unsatisfied market conditions1,175Â 1,126Â 1,173Â 981Â Restricted stock unitsâ€”Â 219Â 369Â 205Â Restricted stock units with unsatisfied market conditions364Â 219Â 396Â 205Â Restricted stock awards17Â 122Â 120Â 118Â Shares expected to be issued under stock bonus programâ€”Â â€”Â 297Â â€”Â Shares expected to be issued under the 2021 Employee Stock Purchase Planâ€”Â 51Â 39Â 61Â 22Note 11. Our integrated and diversified products and solutions enable local, regional and national advertisers to target audiences across multiple platforms, including digital, mobile, social, video, streaming, e-commerce, radio and events. Our assets include a subscription digital marketing solutions business (â€œTownsquare Interactiveâ€), providing a business management platform, website design, creation and hosting, search engine optimization, social platforms and online reputation management as well as other monthly digital services for small to medium sized businesses; a robust digital advertising division (â€œTownsquare Ignite,â€ or â€œIgniteâ€), a powerful combination of a) an owned and operated portfolio of more than 400 local news and entertainment websites and mobile apps along with a network of leading national music and entertainment brands, collecting valuable first party data and b) a proprietary digital programmatic advertising technology stack with an in-house demand and data management platform; and a portfolio of 349 local terrestrial radio stations in 74 U.S. markets strategically situated outside the Top 50 markets in the United States. Our portfolio includes local media brands such as WYRK.com, WJON.com and NJ101.5.com, and premier national music brands such as XXLmag.com, TasteofCountry.com, UltimateClassicRock.com, and Loudwire.com.26We believe that our diversified product offering substantially differentiates us from our competition. This diversification allows us to provide superior solutions to our advertisers and engaging experiences for our audience, underpins our growth strategy and, we believe, helps to mitigate the risks associated with advertising revenue dependency.The Company has identified three operating segments, which are Subscription Digital Marketing Solutions, Digital Advertising and Broadcast Advertising. The remainder of our business is reported in the Other category.Subscription Digital Marketing SolutionsOur Subscription Digital Marketing Solutions segment encompasses Townsquare Interactive, our subscription digital marketing solutions business. Townsquare Interactive offers digital marketing solutions, on a subscription basis, to small and medium-sized business (â€œSMBsâ€) in markets outside the top 50 across the United States, including but importantly not limited to the markets in which we operate radio stations. We offer a variety of digital marketing solutions, which enables SMBs to choose the optimal features for their specific business. Digital AdvertisingOur Digital Advertising segment, marketed externally as Townsquare Ignite, is a combination of our owned and operated digital properties, our proprietary digital programmatic advertising platform, and an in-house demand and data management platform collecting valuable first party data. Broadcast AdvertisingOur Broadcast Advertising segment includes our portfolio of 349 local terrestrial radio stations. Our primary source of Broadcast Advertising net revenue is the sale of advertising on our local radio stations primarily to local and regional spot advertisers and, to a lesser extent, national spot and national network advertisers. We believe we are the largest and best-capitalized owner and operator of radio stations focused solely on markets outside the top 50 markets in the United States. Given the stability of radioâ€™s audience, its broad reach and its relatively low cost as compared to competing advertising media such as television, we believe radio continues to offer an attractive value proposition to advertisers. The price point for radio advertising on a cost per thousand basis is lower than most other local media that deliver similar scale. This makes radio more affordable and accessible for the type of small and mid-sized businesses typically found in our local markets outside the top 50 markets in the U.S.OtherWe report the remainder of our revenue in the Other category, and it includes revenue from our live events. Our primary source of live events net revenue is ticket sales. Our live events also generate substantial revenue through the sale of sponsorships, food and other concessions, merchandise and other ancillary products and services. OverallWe generate a majority of our advertising revenue by selling directly to local advertisers, as well as to local and regional advertising agencies which affords us the opportunity to better present our products, cross-sell products and more directly influence their advertising and marketing expenditure decisions. A significant percentage of our advertising revenue is generated from the sale of advertising to the automotive, financial services, health services, entertainment, and retail industries.Our most significant expenses are sales personnel, programming, digital, marketing and promotional, engineering, and general and administrative expenses. We strive to control these expenses by closely monitoring and managing each of our local markets and through efficiencies gained from the centralization of finance, accounting, legal and human resources functions and management information systems. We also use our scale and diversified geographic portfolio to negotiate favorable rates with vendors where feasible.A portion of our expenses are variable. These variable expenses primarily relate to sales costs, such as commissions and inventory costs, as well as certain programming costs, such as music license fees, and certain costs related to production. Other programming, digital, engineering and general and administrative expenses are primarily fixed costs.27SeasonalityOur revenue varies throughout the year. Typically, we expect that our first calendar quarter will produce the lowest net revenue for the year, as advertising expenditures generally decline following the winter holidays. During even-numbered years, net revenue generally includes increased advertising expenditures by political candidates, political parties and special interest groups. Political spending is typically highest during the fourth quarter. Our operating results in any period may be affected by the incurrence of advertising and promotion expenses that typically do not have an effect on net revenue generation until future periods, if at all.Macroeconomic IndicatorsCurrent economic challenges, including high and sustained inflation and interest rates have caused and could continue to cause economic uncertainty and volatility. These factors could result in advertising and subscription digital marketing solutions cancellations, declines in the purchase of new advertising by our clients, declines in the addition of new digital marketing solutions subscribers, and increases to our operating expenses. We monitor economic conditions closely, and in response to observed or anticipated reductions in revenue, we may institute precautionary measures to address the potential impact to our consolidated financial position, consolidated results of operations, and liquidity, including wage reduction efforts and controlling non-essential capital expenditures.The extent of the impact of current economic conditions will depend on future actions and outcomes, all of which remain fluid and cannot be predicted with confidence (including effects on advertising activity, consumer discretionary spending and our employees in the markets in which we operate).OVERVIEW OF OUR PERFORMANCEHighlights of Our Financial PerformanceCertain key financial developments in our business for the three months ended September 30, 2024 as compared to the same period in 2023 are summarized below:â€¢Net revenue increased $0.2 million, or 0.2%, primarily driven by a $1.9 million increase in our Digital Advertising net revenue, partially offset by a $1.2 million decrease in our Subscription Digital Marketing Solutions net revenue and a $0.6 million decrease in our Other net revenue.â€¢Operating income increased $25.8 million for the three months ended September 30, 2024. Subscription Digital Marketing Solutions reported operating income of $4.4 million, a decrease of $0.9 million from the three months ended September 30, 2023 due to a $1.2 million decrease in net revenue, partially offset by a $0.5Â million decrease in direct operating expenses. Certain key financial developments in our business for the nine months ended September 30, 2024, as compared to the same period in 2023 are summarized below:â€¢Net revenue for the nine months ended September 30, 2024 as compared to the same period in 2023, decreased $6.3 million, or 1.8%, primarily driven by a $7.2Â million decrease in our Subscription Digital Marketing Solutions net revenue and a $1.3 million decrease in Other net revenue. These decreases were partially offset by a $2.7 million increase in our Digital Advertising net revenue.28â€¢Operating income increased $11.6Â million for the nine months ended September 30, 2024, primarily due to a $29.4Â million decrease in non-cash impairment charges, partially offset by a $7.8Â million increase in stock-based compensation, $6.3Â million decrease in net revenue, and a $2.9Â million increase in transaction and business realignment costs.29Consolidated Results of OperationsThree months ended September 30, 2024 compared to three months ended September 30, 2023The following table summarizes our historical consolidated results of operations:($ in thousands)Three Months Ended September 30,Statement of Operations Data:20242023$ Change% ChangeNet revenue$115,311Â $115,104Â $207Â 0.2Â %Operating costs and expenses:Direct operating expenses, excluding depreciation, amortization, and stock-based compensation83,794Â 81,323Â 2,471Â 3.0Â %Depreciation and amortization4,947Â 4,717Â 230Â 4.9Â %Corporate expenses6,063Â 6,604Â (541)(8.2)%Stock-based compensation2,867Â 2,350Â 517Â 22.0Â %Transaction and business realignment costs645Â 161Â 484Â 300.6Â %Impairment of intangible assets, investments, goodwill and long-lived assets2,008Â 30,970Â (28,962)(93.5)%Net gain on sale and retirement of assets(110)(362)252Â (69.6)%Â Â Â Â Total operating costs and expenses100,214Â 125,763Â (25,549)(20.3)%Â Â Â Â Operating income (loss)15,097Â (10,659)25,756Â **Other expense (income):Interest expense, net9,175Â 9,343Â (168)(1.8)%Gain on repurchases of debt(8)(430)422Â (98.1)%Other income, net(277)(547)270Â (49.4)%Income (loss) from operations before tax6,207Â (19,025)25,232Â **Income tax (benefit) provision(5,129)17,478Â (22,607)129.3Â %Â Â Â Â Â Â Net income (loss)$11,336Â $(36,503)$47,839Â ** ** not meaningfulSegment ResultsThe following table presents the Company's reportable segment net revenue and direct operating expenses for the three months ended September 30, 2024 and 2023 (in thousands):Net RevenueDirect Operating ExpensesThree Months EndedÂ September 30,Three Months EndedÂ September 30,20242023$ Change% Change20242023$ Change% ChangeSubscription Digital Marketing Solutions$19,080Â $20,257Â $(1,177)(5.8)%$13,956Â $14,498Â $(542)(3.7)%Digital Advertising40,861Â 39,009Â 1,852Â 4.7Â %30,050Â 27,271Â 2,779Â 10.2Â %Broadcast Advertising54,330Â 54,179Â 151Â 0.3Â %38,560Â 37,510Â 1,050Â 2.8Â %Other1,040Â 1,659Â (619)(37.3)%1,228Â 2,044Â (816)(39.9)%Total$115,311Â $115,104Â $207Â 0.2Â %$83,794Â $81,323Â $2,471Â 3.0Â %30Net RevenueNet revenue for the three months ended September 30, 2024 increased $0.2 million, or 0.2%, as compared to the same period in 2023. Our Digital Advertising net revenue increased $1.9 million, or 4.7%, as compared to the same period in 2023 due to purchases of new advertising. Our Broadcast Advertising net revenue increased $0.2 million, or 0.3%, essentially flat. These increases were partially offset by a decrease in our Subscription Digital Marketing Solutions net revenue of $1.2 million, or 5.8%, due to a reduction in net subscribers as compared to the same period in 2023. Our Other net revenue decreased $0.6 million due to the elimination of low profit events in 2024.Direct Operating ExpensesDirect operating expenses for the three months ended September 30, 2024 increased by $2.5 million, or 3.0%, as compared to the same period in 2023. Our Digital Advertising direct operating expenses increased $2.8 million, or 10.2%, due to higher inventory costs and bad debt. Our Broadcast Advertising direct operating expenses increased $1.1 million, or 2.8%, primarily driven by higher bad debt and employee benefits expenses. These increases were partially offset by a $0.8 million, or 39.9%, decrease in Other direct operating expenses due to a decrease in live events during the period and a $0.5 million, or 3.7%, decrease in Our Subscription Digital Marketing Solutions direct operating expenses due to lower compensation, partially offset by higher software costs, each as compared to the same period a year ago.Stock-based CompensationStock-based compensation expense for three months ended September 30, 2024 increased $0.5Â million, or 22.0%, as compared to the same period in 2023, primarily due to $0.9Â million expense recognized for the stock bonus program, partially offset by stock option grants that vested prior to the third quarter of 2024. For further discussion, see Note 9, Stockholders' Equity, in the Notes to Unaudited Consolidated Financial Statements.Impairment of Intangible Assets, Investments, Goodwill and Long-Lived AssetsThe Company incurred no impairment charges related to its FCC licenses during the three months ended September 30, 2024, as compared to impairment charges of $23.6Â million in 24 of our 74 local markets in the same period a year ago.Unfavorable changes in key assumptions utilized in the impairment assessment of our FCC licenses may affect future testing results. For example, keeping all other assumptions constant, a 100-basis point increase in the weighted average cost of capital as of the date of our last quantitative assessment would cause the estimated fair values of our FCC licenses to decrease by $21.1Â million which would have resulted in an additional impairment charge of $3.3Â million as of SeptemberÂ 30, 2024. Further, a 100-basis point decline in the long-term revenue growth rate would cause the estimated fair values of our FCC licenses to further decrease by $10.5Â million which would have resulted in a further impairment charge of $9.0Â million as of SeptemberÂ 30, 2024. Finally, a 100-basis point decline in operating profit margins would result in a decrease in the estimated fair values of our FCC licenses of $10.3Â million which would result in an impairment charge of $9.0Â million.Assumptions used to estimate the fair value of our FCC licenses are also dependent upon the expected performance and growth of our traditional broadcast radio operations. In the event broadcast radio revenue experiences actual or anticipated declines, such declines will have a negative impact on the estimated fair value of our FCC licenses, and the Company could recognize additional impairment charges, which could be material.During the third quarter of 2024, in connection with an interim goodwill impairment assessment, the Company concluded that the carrying amount of the Live Events reporting unit exceeded its fair value, resulting in the recognition of a non-cash goodwill impairment charges of $1.7Â million for the three months ended September 30, 2024. An interim impairment assessment was considered necessary as a result of continuing declines in revenue and profit. Following the non-cash goodwill impairment charge recognized during the three months ended September 30, 2024, the Live Events reporting unit had no goodwill as of September 30, 2024. During the three months ended September 30, 2023, the Company concluded that the carrying amount of the Local Advertising reporting unit exceeded its fair value, resulting in the recognition of a non-cash goodwill impairment charge of

$2.8Â million. For further discussion, see Note 5, Goodwill and Other Intangible Assets, in the Notes to Unaudited Consolidated Financial Statements. 31During the three months ended September 30, 2024, the Company recorded an impairment charge of $0.2Â million related to one of its equity securities, which is measured at cost minus impairment. The Company recorded impairment charges of $4.4Â million related to one of its investment securities during the same period in 2023. For further discussion, see Note 6, Investments, in the Notes to Unaudited Consolidated Financial Statements.Interest Expense, netThe following table illustrates the components of our interest expense, net for the periods indicated (in thousands):Three Months Ended September 30,202420232026 Notes$8,327Â $8,849Â Capital leases and other283Â 311Â Deferred financing costs586Â 619Â Interest income(21)(436)Â Â Â Â Â Â Interest expense, net$9,175Â $9,343Â Provision (benefit) provision for income taxesWe recognized a benefit for income taxes of $5.1 million for the three months ended September 30, 2024, as compared to an income tax provision of $17.5 million for the same period in 2023. Our effective tax rate for the three months ended September 30, 2024 and 2023 was approximately 82.6% and 91.9%, respectively. The effective tax rate and income tax provision for the three months ended September 30, 2024 is driven by the valuation allowance for interest expense carryforwards resulting from non-cash impairment charges and an increase in certain non-deductible compensation costs recorded during the three months ended September 30, 2024. Our effective tax rate may vary significantly from period to period and can be influenced by many factors. These factors include, but are not limited to, changes to statutory rates in the jurisdictions where we have operations and changes in the valuation of deferred tax assets and liabilities. The difference between the effective tax rate and the federal statutory rate of 21%, primarily relates to certain non-deductible items, state and local income taxes and the valuation allowance for deferred tax assets.32Consolidated Results of OperationsNine months ended September 30, 2024 compared to nine months ended September 30, 2023The following table summarizes our historical consolidated results of operations:($ in thousands)Nine Months EndedÂ September 30,Statement of Operations Data:20242023$ Change% ChangeNet revenue$333,169Â $339,445Â $(6,276)(1.8)%Direct operating expenses, excluding depreciation, amortization, and stock-based compensation246,201Â 245,301Â 900Â 0.4Â %Depreciation and amortization14,896Â 14,496Â 400Â 2.8Â %Corporate expenses17,762Â 18,911Â (1,149)(6.1)%Stock-based compensation14,062Â 6,228Â 7,834Â 125.8Â %Transaction and business realignment costs3,683Â 764Â 2,919Â 382.1Â %Impairment of intangible assets, investments, goodwill and long-lived assets36,264Â 65,697Â (29,433)(44.8)%Net gain on sale and retirement of assets(66)(703)637Â (90.6)%Â Â Â Â Total operating costs and expenses332,802Â 350,694Â (17,892)(5.1)%Â Â Â Â Operating income (loss)367Â (11,249)11,616Â **Other expense (income):Interest expense, net27,418Â 28,215Â (797)(2.8)%Gain on repurchases of debt(11)(1,249)1,238Â (99.1)%Other income, net(4,974)(6,451)1,477Â (22.9)%Â Â Loss from operations before income taxes(22,066)(31,764)9,698Â (30.5)%Income tax provision13,903Â 9,380Â 4,523Â (48.2)%Net loss$(35,969)$(41,144)$5,175Â (12.6)%** not meaningfulSegment ResultsThe following table presents the Company's reportable segment net revenue and direct operating expenses for the nine months ended September 30, 2024 and 2023 (in thousands):Net RevenueDirect Operating ExpensesNine Months EndedÂ September 30,Nine Months EndedÂ September 30,20242023$ Change% Change20242023$ Change% ChangeSubscription Digital Marketing Solutions$55,848Â $63,086Â $(7,238)(11.5)%$40,251Â $45,703Â $(5,452)(11.9)%Digital Advertising116,541Â 113,842Â 2,699Â 2.4Â %87,665Â 77,666Â 9,999Â 12.9Â %Broadcast Advertising153,418Â 153,822Â (404)(0.3)%111,442Â 113,858Â (2,416)(2.1)%Other7,362Â 8,695Â (1,333)(15.3)%6,843Â 8,074Â (1,231)(15.2)%Total$333,169Â $339,445Â $(6,276)(1.8)%$246,201Â $245,301Â $900Â 0.4Â %33Net RevenueNet revenue for the nine months ended September 30, 2024, decreased $6.3 million, or 1.8%, as compared to the same period in 2023. Corporate expenses for the nine months ended September 30, 2024, decreased $1.1 million, or 6.1%, as compared to the same period in 2023, primarily due to lower compensation.Stock-based CompensationStock-based compensation expense for the nine months ended September 30, 2024, increased $7.8Â million, or 125.8%, as compared to the same period in 2023 due to $4.6 million in expense recognized related to the cash settlement of options, $2.6Â million of expense recognized for the stock bonus program and due to grants during the fourth quarter of 2023 and the first quarter of 2024. For further discussion, see Note 9, Stockholders' Equity, in the Notes to Unaudited Consolidated Financial Statements.Transaction and Business Realignment CostsTransaction and business realignment costs for the nine months ended September 30, 2024 increased $2.9 million as compared to the same period in 2023, primarily due to local market operational cost reduction efforts.Impairment of Intangible Assets, Investments, Goodwill and Long-Lived AssetsThe Company recorded total impairment charges of $29.7Â million related to FCC licenses in 26 of our 74 local markets during the nine months ended September 30, 2024, as compared to impairment charges of $48.4Â million to FCC licenses in 32 of our 74 local markets in the same period a year ago. The impairment charges were primarily driven by increases in the discount rate applied in the valuation of our FCC licenses due to an increase in the weighted average cost of capital, decreases in third-party forecasts of broadcast revenues and an increase in the estimate of initial capital costs due to rising prices. For further discussion, see Note 5, Goodwill and Other Intangible Assets, in the Notes to Unaudited Consolidated Financial Statements.34During the third quarter of 2024, in connection with an interim goodwill impairment assessment, the Company concluded that the carrying amount of the Live Events reporting unit exceeded its fair value, resulting in the recognition of a non-cash goodwill impairment charges of $1.7Â million for the three months ended September 30, 2024. During the nine months ended September 30, 2024, the Company recorded total impairment charges of $1.8Â million related to certain of its equity securities, which are measured at cost minus impairment. Our effective tax rate for the period was approximately 63.0% for the nine months ended September 30, 2024 as compared to 29.5% for the nine months ended September 30, 2023. The effective tax rate and income tax provision for the nine months ended September 30, 2024 is driven by the valuation allowance for interest expense carryforwards resulting from the non-cash impairment charges and an increase in certain non-deductible compensation costs recorded during the nine months ended September 30, 2024. Our effective tax rate may vary significantly from period to period and can be influenced by many factors.Â These factors include, but are not limited to, changes to statutory rates in the jurisdictions where we have operations and changes in the valuation of deferred tax assets and liabilities.Â The difference between the effective tax rate and the federal statutory rate of 21.0%, primarily relates to certain non-deductible items, state and local income taxes and the valuation allowance for deferred tax assets.36Liquidity and Capital ResourcesThe following table summarizes our change in cash and cash equivalents (in thousands):Nine Months Ended September 30,20242023Cash and cash equivalents$21,786Â $37,955Â Restricted cash509Â 501Â Cash provided by operating activities20,557Â 38,964Â Cash used in investing activities(7,606)(400)Cash used in financing activities(52,205)(44,021)Net decrease in cash and cash equivalents and restricted cash$(39,254)$(5,457)Operating ActivitiesNet cash provided by operating activities was $20.6Â million for the nine months ended September 30, 2024, as compared to $39.0Â million for the same period in 2023. The increase in net cash used in investing activities was primarily due to cash proceeds of $3.0Â million related to the sales of digital assets in 2023 that did not reoccur in 2024, a $2.4Â million increase in purchases of property and equipment and a $1.4Â million decrease in proceeds from the sale of assets and investment related transactions.Financing ActivitiesNet cash used in financing activities was $52.2Â million for the nine months ended September 30, 2024, as compared to $44.0Â million for the same period in 2023. These increases were partially offset by a $1.8Â million increase in proceeds from the exercise of stock options for the nine months ended September 30, 2024, as compared to the same period in 2023.Sources of Liquidity and Anticipated Cash RequirementsWe fund our working capital requirements through a combination of cash flows from our operating, investing, and financing activities. Based on current and anticipated levels of operations and conditions in our markets and industry, we believe that our cash on hand and cash flows from our operating, investing, and financing activities will enable us to meet our working capital, capital expenditures, debt service, and other funding requirements for at least one year from the date of this report. Future capital requirements may be materially different than those currently planned in our budgeting and forecasting activities and depend on many factors, some of which are beyond our control. We have focused on and will continue to monitor our liquidity in response to current and future economic challenges and uncertainty.As of SeptemberÂ 30, 2024, we had $476.7 million of outstanding indebtedness, net of deferred financing costs of $2.2 million.Based on the terms of our 2026 Notes, as of SeptemberÂ 30, 2024, we expect our debt service requirements to be approximately $32.9Â million over the next twelve months. See Note 7, Long-Term Debt, in our Notes to Consolidated Financial Statements for additional information related to our 2026 Notes.37As of SeptemberÂ 30, 2024 we had $21.8 million of cash and cash equivalents, and $57.7 million of receivables from customers, which historically have had an average collection cycle of approximately 55 days. We had restricted cash ofÂ $0.5 millionÂ atÂ SeptemberÂ 30, 2024 and December 31, 2023, that was held as collateral in connection with certain agreements. From time to time, such restricted funds could be returned to us or we could be required to pledge additional cash.On July 22, 2024 the board of directors approved a dividend of $0.1975 per share. The $3.0 million dividend was paid on November 1, 2024. On October 28, 2024 the board of directors approved a dividend of $0.1975 per share. The dividend will be paid to holders of record as of January 21, 2025, on February 1, 2025.On April 1, 2024, the Company repurchased 1.5Â million shares of the Companyâ€™s Class A common stock in the aggregate amount of $14.6Â million from MSG National Properties, LLC (â€œMSGâ€). The shares were retired upon repurchase. Additionally, the company repurchased 0.8 million shares of Class A common stock for approximately $8.9 million during the nine months ended September 30, 2024.In late March of 2024, the Company launched a program that offered certain holders a cash settlement of options that were granted in July 2014 following the completion of the Company's initial public offering. These options were approaching their expiration date in July 2024. The cash settlement amount paid to each holder was indexed to the closing price of the Company's Class A common stock, as reported on the New York Stock Exchange consolidated tape, as of the date prior to each respective cash settlement election date less the respective option exercise price. A total of $11.5Â million was paid in connection with the cash settlement of 3.2Â million options during the nine months ended September 30, 2024.During the nine months ended September 30, 2024, the Company voluntarily repurchased an aggregate $24.7Â million in principal amount of its 2026 Notes, below par.Our anticipated uses of cash in the near term include working capital needs, interest payments, dividend payments, share repurchases, other obligations, and capital expenditures. The Company believes that the cash generated by its operations should be sufficient to meet its liquidity needs for at least the next 12 months. However, our ability to fund our working capital needs, debt payments, dividend payments, other obligations, capital expenditures, and to comply with financial covenants under our debt agreements, depends on our future operating performance and cash flow, which are in turn subject to prevailing economic conditions, increases or decreases in advertising spending, changes in the highly competitive industry in which we operate, which may be rapid, and other factors, many of which are beyond our control. To the extent that current and anticipated future sources of liquidity are insufficient to fund our future business activities and requirements, we may be required to seek additional equity or debt financing. The sale of additional equity would result in additional dilution to our stockholders, while the incurrence of debt financing would result in debt service obligations. Such debt instruments also could introduce covenants that might restrict our operations. We cannot assure you that we could obtain additional financing on favorable terms or at all.Additionally, on a continuing basis, we evaluate and consider strategic acquisitions and divestitures to enhance our strategic and competitive position as well as our financial performance. Any future acquisitions, joint ventures or other similar transactions may require additional capital, which may not be available to us on acceptable terms, if at all.We closely monitor the impact of capital and credit market conditions on our liquidity as it relates to our debt. We also routinely monitor the changes in the financial condition of our customers and the potential impact on our results of operations.Off-Balance Sheet ArrangementsWe have no material off-balance sheet arrangements or transactions.Critical Accounting Policies and EstimatesThe preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our significant estimates, including those related to determining the fair value of assets and liabilities acquired in a business combination, impairment testing of intangible assets, valuation and impairment testing of long-lived tangible assets, the present value of leasing arrangements, share-based payment expense and the calculation of allowance for doubtful accounts and income taxes. We base our estimates on historical experience and on 38various assumptions that are believed to be reasonable under the circumstances, the result of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Our estimates may change, however, as new events occur and additional information is obtained, and any such changes will be recognized in the Consolidated Financial Statements. Actual results could differ from such estimates, and any such differences may be material to our financial statements.We believe the accounting policies and estimates discussed within â€œManagementâ€™s Discussion and Analysis of Financial Condition and Results of Operationsâ€ in our 2023 Annual Report on Form 10-K reflects our more significant judgments and estimates used in the preparation of the Consolidated Financial Statements. There have been no material changes to the critical accounting policies and estimates as

filed in such report.Recent Accounting StandardsFor a discussion of accounting standards updates that have been adopted or will be adopted in the future, please refer to Note 2, Summary of Significant Accounting Policies of the Notes to Unaudited Consolidated Financial Statements included under Item 1.39Item 4. Controls and Procedures Evaluation of Disclosure Controls and ProceduresOur Chief Executive Officer (â€œCEOâ€) and Chief Financial Officer (â€œCFOâ€), with the assistance of other members of management, have reviewed the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Our disclosure controls and procedures are intended to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is (1) recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commissionâ€™s rules and forms and (2) accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure. Based on this review, our CEO and CFO have concluded that the disclosure controls and procedures were effective as of September 30, 2024. Because of its inherent limitations, internal control over financial reporting may not prevent or detect every misstatement. An evaluation of effectiveness is subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may decrease over time.Changes in Internal Control Over Financial ReportingThere were no changes in our internal controls over financial reporting that occurred during the three months ended September 30, 2024 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.Inherent Limitations on Effectiveness of ControlsThere are inherent limitations in the effectiveness of any control system, including the potential for human error and the possible circumvention or overriding of controls and procedures. Additionally, judgments in decision-making can be faulty and breakdowns can occur because of a simple error or mistake. An effective control system can provide only reasonable, not absolute, assurance that the control objectives of the system are adequately met. Accordingly, the management of the Company, including its Chief Executive Officer and Chief Financial Officer, does not expect that the control system can prevent or detect all error or fraud. Finally, projections of any evaluation or assessment of effectiveness of a control system to future periods are subject to the risks that, over time, controls may become inadequate because of changes in an entityâ€™s operating environment or deterioration in the degree of compliance with policies or procedures.40PART II. OTHER INFORMATIONItem 1. Legal ProceedingsThere is no current material pending litigation to which we are a party and no material legal proceedings were terminated, settled or otherwise resolved during the three and nine months ended September 30, 2024. In the normal course of business, the Company is subject to various regulatory proceedings, lawsuits, claims and other matters related to intellectual property, personal injury, employee, or other matters. These matters are subject to many uncertainties and outcomes are not predictable with assurance. However, we do not believe that the ultimate resolution of these matters will have a material adverse effect on our financial position or results of operations.Item 1A. Our assets include a subscription digital marketing solutions business (â€œTownsquare Interactiveâ€), providing a business management platform, website design, creation and hosting, search engine optimization, social platforms and online reputation management for small to medium sized businesses; a robust digital advertising division (â€œTownsquare Ignite,â€ or â€œIgniteâ€), a powerful combination of a) an owned and operated portfolio of more than 400 local news and entertainment websites and mobile apps along with a network of leading national music and entertainment brands, collecting valuable first party data and b) a proprietary digital programmatic advertising technology stack with an in-house demand and data management platform; and a portfolio of 349 local terrestrial radio stations in 74 U.S. markets strategically situated outside the Top 50 markets in the United States. Our portfolio includes local media brands such as WYRK.com, WJON.com and NJ101.5.com, and premier national music brands such as XXLmag.com, TasteofCountry.com, UltimateClassicRock.com, and Loudwire.com.Current economic challenges, including high and sustained inflation and interest rates have caused and could continue to cause economic uncertainty and volatility. These factors could result in advertising and subscription digital marketing solutions cancellations, declines in the purchase of new advertising by our clients, declines in the addition of new digital marketing solutions subscribers, and increases to our operating expenses. We monitor economic conditions closely, and in response to observed or anticipated reductions in revenue, we may institute precautionary measures to address the potential impact to our consolidated financial position, consolidated results of operations, and liquidity, including wage reduction efforts and controlling non-essential capital expenditures.The extent of the impact of current economic conditions will depend on future actions and outcomes, all of which remain fluid and cannot be predicted with confidence (including effects on advertising activity, consumer discretionary spending and our employees in the markets in which we operate).Basis of PresentationThe accompanying Unaudited Consolidated Financial Statements should be read in conjunction with the Companyâ€™s audited Consolidated Financial Statements and related

notes thereto included in the Company's Annual Report on Form 10-K (the "2023 Annual Report on Form 10-K"). The accompanying unaudited interim Consolidated Financial Statements include the consolidated accounts of the Company and its wholly-owned subsidiaries, with all significant intercompany balances and transactions eliminated in consolidation. These financial statements have been prepared in accordance with Generally Accepted Accounting Principles in the United States ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. All adjustments (consisting only of normal, recurring adjustments) necessary for a fair presentation of results of operations and financial condition as of the end of the interim periods have been included. The results of operations for the three and nine months ended September 30, 2024, cash flows for the nine months ended September 30, 2024, and the Companyâ€™s financial condition as of such date are not necessarily indicative of the results of operations or cash flows that can be expected for, or the Companyâ€™s financial condition as of, any other interim period or for the fiscal year ending DecemberÂ 31, 2024. The Consolidated Balance Sheet as of DecemberÂ 31, 2023 is derived from the audited Consolidated Financial Statements at that date.Use of EstimatesThe preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, the Company evaluates its significant estimates, including those related to assumptions used in determining the fair value of assets and liabilities acquired in a business combination, impairment testing of intangible assets, valuation and impairment testing of long-lived tangible assets and investments, the present value of leasing arrangements, share-based payment expense and the calculation of allowance for credit losses and income taxes. The Company bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the result of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources.Actual amounts and results may differ materially from these estimates under different assumptions or conditions. For the Company's detailed accounting policies please refer to the Consolidated Financial Statements and related notes thereto included in the Company's 2023 Annual Report on Form 10-K.Recently Issued Standards That Have Not Yet Been AdoptedIn November 2023, the FASB issued ASU 2023-07, Segment Reporting â€” Improvements to Reportable Segments Disclosures, which enhances disclosures of significant segment expenses by requiring the disclosure of significant segment expenses regularly provided to the chief operating decision maker, extending certain annual disclosures to interim periods, and permitting more than one measure of segment profit or loss to be reported under certain conditions. The amendments are effective for the Company in fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption of the amendment is permitted, including adoption in any interim periods for which financial statements have not been issued. As this update only requires additional disclosures, the adoption of this standard is not expected to have a significant impact on the Consolidated Financial Statements.In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which requires additional categories of information about federal and state income taxes in the rate reconciliation table and to provide more details about reconciling items in some categories if items meet a quantitative threshold. The guidance also requires the disclosure of income taxes paid, net of refunds, disaggregated by federal and state taxes for annual periods and to disaggregate the information by jurisdiction based on a quantitative threshold. The guidance is effective for fiscal years beginning after December 15, 2024, with early adoption permitted. As this update only requires additional disclosures, the adoption of this standard is not expected to have a significant impact on the Consolidated Financial Statements.In November 2024, the FASB issued ASU 2024-03, Income Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures, which requires the disclosure in the notes to financial statements, information about certain costs and expenses including, purchases of inventory, employee compensation, depreciation and intangible asset amortization. The guidance also requires a qualitative description of amounts remaining in certain expense captions that are not separately disaggregated on a quantitative basis, as well as the disclosure of the total amount of selling expenses. The guidance is effective for fiscal years beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, with early adoption permitted. Our contractual performance obligations include the performance of digital marketing solutions, placement of internet-based advertising campaigns, broadcast of commercials on our owned and operated radio stations, and the operation of live events. Revenue is measured at contract inception as the amount of consideration we expect to receive in exchange for transferring goods or providing services. Our contracts are at a fixed price at inception and do not include any variable consideration or financing components by normal course of business practice. Sales, value add, and other taxes that are collected concurrently with revenue producing activities are excluded from revenue.The primary sources of net revenue are the sale of digital and broadcast advertising solutions on our owned and operated websites, radio stationsâ€™ online streams, and mobile applications, radio stations, and on third-party websites through our in-house digital programmatic advertising platform. Through our digital programmatic advertising platform, we are able to hyper-target audiences for our local, regional and national advertisers by combining first and third-party audience and geographic location data, providing them the ability to reach a high percentage of their online audience. We deliver these solutions across desktop, mobile, connected TV, email, paid search and social media platforms utilizing display, video and native executions. We also offer subscription digital marketing solutions under the brand name Townsquare Interactive to small and mid-sized local and regional businesses in markets outside the top 50 across the United States, including the markets in which we operate radio stations. Townsquare Interactive offers traditional and mobile-enabled website development and hosting services, e-commerce platforms, search engine and online directory optimization services, online reputation monitoring, social media management, and website retargeting.Political net revenue includes the sale of advertising for political advertisers. Contracted performance obligations under political contracts consist of the broadcast and placement of digital advertisements. Management views political revenue separately based on the episodic nature of election cycles and local issues calendars.Net revenue from digital subscription-based contractual performance obligations is recognized ratably over time as our performance obligations are satisfied. Subscription-based service fees are typically billed in advance of the month of service at a fixed monthly fee that is contractually agreed upon at contract inception. The measure of progress in such arrangements is the number of days of successful delivery of the contracted service.Our advertising contracts are short-term (less than one year) and payment terms are generally net 30-60 days for traditional customer contracts and net 60-90 days for national agency customer contracts. Our billing practice is to invoice customers on a monthly basis for services delivered to date (representing the right to invoice). Our contractual arrangements do not include rights of return and do not include any significant judgments by nature of the products and services.For all customer contracts, we evaluate whether we are the principal (i.e., report revenue on a gross basis) or the agent (i.e., report revenue on a net basis). Generally, we report revenue for advertising placed on Townsquare properties on a gross basis (the amount billed to our customers is recorded as revenue, and the amount paid to our publishers is recorded as a cost of revenue). We are the principal because we control the advertising inventory before it is transferred to our customers. Our control is evidenced by our sole ability to monetize the advertising inventory, being primarily responsible to our customers, having discretion in establishing pricing, or a combination of these factors. We also generate revenue through agency relationships in which revenue is reported net of agency commissions. Agency commissions are calculated based on a stated percentage applied to gross billing revenue for advertisers that use agencies.The following tables provides information about receivables, contract assets and contract liabilities from contracts with customers (in thousands):September 30, 2024December 31,Â 2023Accounts Receivable$57,654Â $60,780Â Short-term contract liabilities (deferred revenue)$9,092Â $9,059Â Contract Acquisition Costs$6,600Â $5,175Â We receive payments from customers based upon contractual billing schedules; contract receivables are recognized in the period the Company provides services when the Companyâ€™s right to consideration is unconditional. Payment terms vary by the type and location of our customer and the products or services offered. Payment terms for amounts invoiced are typically net 30-60 days.Our contract liabilities include cash payments received or due in advance of satisfying our performance obligations and digital subscriptions in which payment is received in advance of the service and month. These contract liabilities are recognized as revenue as the related performance obligations are satisfied. As of SeptemberÂ 30, 2024, and DecemberÂ 31, 2023, the balance in the contract liabilities was $9.1Â million and $9.1Â million, respectively. The increase in the contract liabilities balance at SeptemberÂ 30, 2024 is primarily driven by cash payments received or due in advance of satisfying our performance obligations, offset by $0.7Â million and $7.8Â million of recognized revenue for the three and nine months ended September 30, 2024. For the three and nine months ended September 30, 2023, we recognized $0.6Â million and $9.1Â million of revenue that was previously included in our deferred revenue balance. No significant changes in the time frame of the satisfaction of contract liabilities have occurred during the three and nine months ended September 30, 2024.Our capitalized contract acquisition costs include amounts related to sales commissions paid for signed contracts with perceived durations exceeding one year. We defer the related sales commission costs and amortize such costs to expense in a manner that is consistent with how the related revenue is recognized over the duration of the related contracts. We have evaluated the average customer contract duration (initial term and any renewals) to determine the appropriate amortization period for these contractual arrangements. Capitalized contract acquisition costs are recognized in prepaid expenses and other current assets in the accompanying consolidated balance sheets. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, we had a balance of $6.6Â million and $5.2Â million, respectively, in capitalized contract acquisition costs and recognized $1.0Â million and $3.2Â million of amortization for the three and nine months ended September 30, 2024, respectively. For the three and nine months ended September 30, 2023, we recognized $1.8Â million and $5.1Â million of amortization, respectively. No impairment losses have been recognized or changes made to the time frame for performance of the obligations related to deferred contract assets during the three and nine months ended September 30, 2024 and 2023.Arrangements with Multiple Performance ObligationsIn contracts with multiple performance obligations, we identify each performance obligation and evaluate whether the performance obligations are distinct within the context of the contract at contract inception. When multiple performance obligations are identified, we identify how control transfers to the customer for each distinct contract obligation and determine the period when the obligations are satisfied. If obligations are satisfied in the same period, no allocation of revenue is deemed to be necessary. In the event performance obligations within a bundled contract do not run concurrently, we allocate revenue to each performance obligation based on its relative standalone selling price. We generally determine standalone selling prices based on the prices charged to customers. Performance obligations that are not distinct at contract inception are combined.Performance ObligationsWe do not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts for which we recognize revenue at the amount to which we have the right to invoice for services performed. Amounts related to performance obligations with expected durations of greater than one year are at a fixed price per unit and do not include any upfront or minimum payments requiring any estimation or allocation of revenue.Â Â Â Â Allowance for Credit LossesThe Company maintains an allowance for credit losses, which represents the portion of accounts receivable that is not expected to be collected over the duration of its contractual life. Credit losses are recorded when the Company believes a customer, or group of customers, may not be able to meet their financial obligations. Account balances are charged off against the allowance when it is probable the receivable will not be recovered.The change in the allowance for credit losses for the nine months ended September 30, 2024 was as follows (in thousands):Balance at December 31, 2023$4,041Â Provision for credit losses4,036Â Amounts written off against allowance, net of recoveries(3,946)Balance at September 30, 2024$4,131Â X - ReferencesNo definition available. + Details Name: us-gaap_RevenueFromContractWithCustomerAbstract Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration X - DefinitionThe entire disclosure of revenue from contract with customer to transfer good or service and to transfer nonfinancial asset. FCC Broadcast LicensesFCC licenses represent a substantial portion of the Companyâ€™s total assets. The FCC licenses are renewable in the ordinary course of business, generally for a maximum of eight years. The fair value of FCC licenses is primarily dependent on the future cash flows of the radio markets and other assumptions, including, but not limited to, forecasted revenue growth rates, profit margins and a risk-adjusted discount rate. The Company has selected December 31st as the annual testing date.The Company evaluates its FCC licenses for impairment annually or more frequently if events or changes in circumstances indicate that the assets might be impaired. Due to changes in the weighted average cost of capital and changes in forecasted traditional broadcast revenues in the markets in which we operate, the Company quantitatively evaluated the fair value of its FCC licenses at September 30, June 30, and March 31, 2024.The key assumptions used in applying the direct valuation method are summarized as follows: September 30, 2024Discount Rate15.4%Long-term Revenue Growth Rate(0.5)%LowHighMature Market Share*20.7%75.0%Operating Profit Margin23.1%46.7%June 30, 2024Discount Rate16.5%Long-term Revenue Growth Rate0.0%LowHighMature Market Share*20.7%75.0%Operating Profit Margin23.1%46.7%March 31, 2024Discount Rate13.7%Long-term Revenue Growth Rate0.0%LowHighMature Market Share*22.0%73.0%Operating Profit Margin23.1%46.7%* Market share assumption used when reliable third-party data is available. Otherwise, Company results and forecasts are utilized.Based on the results of the interim impairment assessments of our FCC licenses, the Company incurred no impairment charges during the third quarter of 2024, and $29.7Â million of impairment charges for the nine months ended September 30, 2024, for FCC licenses in 26 of our 74 local markets. The impairment charges were primarily driven by increases in the discount rate applied in the valuation of our FCC licenses due to an increase in the weighted average cost of capital for the respective periods and decreases in third-party forecasts of broadcast revenues. The increases in the weighted average cost of capital were driven by changes in the market data, specifically industry bond yields, utilized in determining the discount rate applied in the valuation of our FCC licenses. The Company recorded an impairment charge of $23.6Â million and $48.4Â million for FCC licenses in 24 and 32 of our 74 local markets for the three and nine months ended September 30, 2023.Unfavorable changes in key assumptions utilized in the impairment assessment of our FCC licenses may affect future testing results. For example, keeping all other assumptions constant, a 100-basis point increase in the weighted average cost of capital as of the date of our last quantitative assessment would cause the estimated fair values of our FCC licenses to decrease by $21.1Â million which would have resulted in an impairment charge of $3.3Â million as of SeptemberÂ 30, 2024. Further, a 100-basis point decline in the long-term revenue growth rate would cause the estimated fair values of our FCC licenses to further decrease by $10.5Â million which would have resulted in an impairment charge of $9.0Â million as of SeptemberÂ 30, 2024. Finally, a 100-basis point decline in operating profit margins would result in a decrease in the estimated fair values of our FCC licenses of $10.3Â million which would result in an impairment charge of $9.0Â million.Assumptions used to estimate the fair value of our FCC licenses are also dependent upon the expected performance and growth of our traditional broadcast radio operations. In the event broadcast radio revenue experiences actual or anticipated declines, such declines will have a negative impact on the estimated fair value of our FCC licenses, and the Company could recognize additional impairment charges, which could be material.GoodwillFor goodwill impairment testing, the Company has selected December 31st as the annual testing date. In addition to the annual impairment test, the Company regularly assesses whether a triggering event has occurred, which would require interim impairment testing. As of December 31, 2023, the fair values of our National Digital, Townsquare Ignite, Analytical Services, and Townsquare Interactive reporting units were in excess of their respective carrying values by approximately 117%, 41%, 157%, and 147%, respectively. The Local Advertising and Amped reporting units had no goodwill as of December 31, 2023.The Company considered whether any events have occurred or circumstances have changed from the last quantitative analysis performed as of December 31, 2023 that would indicate that the fair value of the Company's reporting units may be below their carrying amounts. During the third quarter of 2024, the Company concluded that the carrying amount of the Live Events reporting unit exceeded its fair value, resulting in the recognition of a non-cash goodwill impairment charge of $1.7Â million. During the second quarter of 2024, the Company concluded that the carrying amount of the National Digital and Live Events reporting units exceeded their fair values, resulting in the recognition of a non-cash goodwill impairment charges of $1.8Â million and $0.9Â million, respectively. In total, the company recorded $4.4Â million of non-cash goodwill impairment charges during the nine months ended September 30, 2024.Interim impairment assessments were considered necessary as a result of declines in revenues and profit and increases in the weighted average cost of capital. The Company did not identify indicators of impairment related to any other reporting units that would have required an interim impairment assessment during the three months ended September 30, 2024. The Local Advertising, Amped, and Live Events reporting units had no goodwill as of September 30, 2024.The fair value of the Live Events reporting unit was determined using an income approach whereby the fair value was calculated utilizing discounted estimated future cash flows. The income approach requires several assumptions including future sales growth, EBITDA (earnings before interest, taxes, depreciation and amortization) margins, and capital expenditures and discount rates which are the basis for the information used in the discounted cash flow model. The weighted-average cost of capital used in testing the Live Events reporting unit for impairment was 13.4%, with a perpetual growth rate of 3.2%. The initial valuation of equity securities is based upon an estimate of market value at the time of investment, or upon a combination of valuation analyses using both observable and unobservable inputs categorized as Level 2 and Level 3 within the ASC 820 framework. In accordance with ASC 321, Investments - Equity Securities, the Company measures its equity securities at cost minus impairment, as their fair values are not readily determinable and the investments do not qualify for the net asset value per share practical expedient. The Company monitors its investments for any subsequent observable price changes in orderly transactions for the identical or a similar investment of the same investee, at which time the Company would adjust the then current carrying values of the related investment. The Company also granted 73,738 options with grant date fair values of $2.68 to $2.86, respectively. These options contain market conditions whereby the options will vest and become exercisable subject to the achievement of a specified volume weighted average trading price ("VWAP") over a specified period and continued employment through the performance period each as observed and summarized below, respectively:VWAP over 20 consecutive trading days of the three-year performance periodVWAPNumber of Options that Vest$12.4024,577$14.4024,577$16.4024,58473,738No portion of the grants will vest unless the VWAP targets are achieved during the respective performance periods.The grant date fair value of stock options with market conditions is estimated using the Monte Carlo option pricing model, while stock options containing only service conditions is estimated using the Black-Scholes option pricing model. Each model requires an estimate of the expected term of the option, the expected volatility of the Companyâ€™s common stock price, dividend yield and the risk-free interest rate. The below table summarizes the assumptions used to estimate the fair value of the equity options granted:Monte Carlo ModelBlack-Scholes ModelExpected volatility53.0Â %51% - 52%Expected term5.33 years6.01 - 7.00 yearsRisk free interest rate4.03%3.63% - 4.23%Expected dividend yield7.14Â %7.14% - 8.32%For options only containing service conditions, the expected term was calculated using the simplified method, defined as the midpoint between the vesting period and the contractual term of each award, due to the lack of sufficient and meaningful historical exercise data. For options with market-based conditions, the expected term was estimated based on when the options are expected to be exercised. The expected volatility was based on market conditions of the Company. The risk-free interest rate was based on the U.S. Treasury yield curve in effect on the date of grant which most closely corresponds to the expected term of the option.The following table summarizes all option activity for the nine months ended September 30, 2024:OptionsWeighted Average Exercise PriceWeighted Average Remaining Contractual Life (years)Aggregate Intrinsic Value (in thousands)Outstanding at December 31, 202311,056,324Â $7.74Â 4.82$31,221Â Â Â Granted - service conditions124,093Â 10.58Â Â Â Granted - market conditions73,738Â 10.50Â Â Â Exercised(907,793)8.23Â 2,624Â Â Â Settled(3,186,653)8.75Â 11,468Â Â Â Forfeited and expired(72,457)7.30Â Outstanding at September 30, 20247,087,252Â $7.30Â 6.32$20,327Â Exercisable at September 30, 20243,554,516Â $7.05Â 5.05$11,051Â The maximum contractual term of stock options is 10 years.Restricted Stock AwardsDuring the nine months ended September 30, 2024, the Company granted 85,787 shares, including 61,905 shares to non-employee directors, with vesting periods of one to three years. 30, 2024 Accounting Policies [Abstract] Â Basis of Presentation Basis of PresentationThe accompanying Unaudited Consolidated Financial Statements should be read in conjunction with the Companyâ€™s audited Consolidated Financial Statements and related notes thereto included in the Company's Annual Report on Form 10-K (the "2023 Annual Report on Form 10-K"). The accompanying unaudited interim Consolidated Financial Statements include the consolidated accounts of the Company and its wholly-owned subsidiaries, with all significant intercompany balances and transactions eliminated in consolidation. These financial statements have been prepared in accordance with Generally Accepted Accounting Principles in the United States ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. All adjustments (consisting only of normal, recurring adjustments) necessary for a fair presentation of results of operations and financial condition as of the end of the interim periods have been included. The results of operations for the three and nine months ended September 30, 2024, cash flows for the nine months ended September 30, 2024, and the Companyâ€™s financial condition as of such date are not necessarily indicative of the results of operations or cash flows that can be expected for, or the Companyâ€™s financial condition as of, any other interim period or for the fiscal year ending DecemberÂ 31, 2024. The Consolidated Balance Sheet as of DecemberÂ 31, 2023 is derived from the audited Consolidated Financial Statements at that date. Use of Estimates Use of EstimatesThe preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, the Company evaluates its significant estimates, including those related to assumptions used in determining the fair value of assets and liabilities acquired in a business combination, impairment testing of intangible assets, valuation and impairment testing of long-lived tangible assets and investments, the present value of leasing arrangements, share-based payment expense and the calculation of allowance for credit losses and income taxes. The Company bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the result of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Recently Issued Standards That Have Not Yet Been Adopted Recently Issued Standards That Have Not Yet Been AdoptedIn November 2023, the FASB issued ASU 2023-07, Segment Reporting â€“ Improvements to Reportable Segments Disclosures, which enhances disclosures of significant segment expenses by requiring the disclosure of significant segment expenses regularly provided to the chief operating decision maker, extending certain annual disclosures to interim periods, and permitting more than one measure of segment profit or loss to be reported under certain conditions. The amendments are effective for the Company in fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption of the amendment is permitted, including adoption in any interim periods for which financial statements have not been issued. As this update only requires additional disclosures, the adoption of this standard is not expected to have a significant impact on the Consolidated Financial Statements.In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which requires additional categories of information about federal and state income taxes in the rate reconciliation table and to provide more details about reconciling items in some categories if items meet a quantitative threshold. The guidance also requires the disclosure of income taxes paid, net of refunds, disaggregated by federal and state taxes for annual periods and to disaggregate the information by jurisdiction based on a quantitative threshold. The guidance is effective for fiscal years beginning after December 15, 2024, with early adoption permitted. As this update only requires additional disclosures, the adoption of this standard is not expected to have a significant impact on the Consolidated Financial Statements.In November 2024, the FASB issued ASU 2024-03, Income Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures, which requires the disclosure in the notes to financial statements, information about certain costs and expenses including, purchases of inventory, employee compensation, depreciation and intangible asset amortization. The guidance also requires a qualitative description of amounts remaining in certain expense captions that are not separately disaggregated on a quantitative basis, as well as the disclosure of the total amount of selling expenses. The guidance is effective for fiscal years beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, with early adoption permitted. Revenue Recognition Political net revenue includes the sale of advertising for political advertisers. Contracted performance obligations under political contracts consist of the broadcast and placement of digital advertisements. Management views political revenue separately based on the episodic nature of election cycles and local issues calendars.Net revenue from digital subscription-based contractual performance obligations is recognized ratably over time as our performance obligations are satisfied. Subscription-based service fees are typically billed in advance of the month of service at a fixed monthly fee that is contractually agreed upon at contract inception. The measure of progress in such arrangements is the number of days of successful delivery of the contracted service.Our advertising contracts are short-term (less than one year) and payment terms are generally net 30-60 days for traditional customer contracts and net 60-90 days for national agency customer contracts. Our billing practice is to invoice customers on a monthly basis for services delivered to date (representing the right to invoice). Our contractual arrangements do not include rights of return and do not include any significant judgments by nature of the products and services.For all customer contracts, we evaluate whether we are the principal (i.e., report revenue on a gross basis) or the agent (i.e., report revenue on a net basis). Generally, we report revenue for advertising placed on Townsquare properties on a gross basis (the amount billed to our customers is recorded as revenue, and the amount paid to our publishers is recorded as a cost of revenue). We are the principal because we control the advertising inventory before it is transferred to our customers. Our control is evidenced by our sole ability to monetize the advertising inventory, being primarily responsible to our customers, having discretion in establishing pricing, or a combination of these factors. We also generate revenue through agency relationships in which revenue is reported net of agency commissions. Agency commissions are calculated based on a stated percentage applied to gross billing revenue for advertisers that use agencies.Arrangements with Multiple Performance ObligationsIn contracts with multiple performance obligations, we identify each performance obligation and evaluate whether the performance obligations are distinct within the context of the contract at contract inception. When multiple performance obligations are identified, we identify how control transfers to the customer for each distinct contract obligation and determine the period when the obligations are satisfied. If obligations are satisfied in the same period, no allocation of revenue is deemed to be necessary. In the event performance obligations within a bundled contract do not run concurrently, we allocate revenue to each performance obligation based on its relative standalone selling price. We generally determine standalone selling prices based on the prices charged to customers. Performance obligations that are not distinct at contract inception are combined.Performance ObligationsWe do not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts for which we recognize revenue at the amount to which we have the right to invoice for services performed. Amounts related to performance obligations with expected durations of greater than one year are at a fixed price per unit and do not include any upfront or minimum payments requiring any estimation or allocation of revenue.  Townsquare is a community-focused digital media and subscription digital marketing solutions company with market leading local radio stations, principally focused outside the top 50 markets in the U.S. Our integrated and diversified products and solutions enable local, regional and national advertisers to target audiences across multiple platforms, including digital, mobile, social, video, streaming, e-commerce, radio and events. Our assets include a subscription digital marketing solutions business (“Townsquare Interactive”), providing a business management platform, website design, creation and hosting, search engine optimization, social platforms and online reputation management for small to medium sized businesses; a robust digital advertising division (“Townsquare Ignite,” or “Ignite”), a powerful combination of a) an owned and operated portfolio of more than 400 local news and entertainment websites and mobile apps along with a network of leading national music and entertainment brands, collecting valuable first party data and b) a proprietary digital programmatic advertising technology stack with an in-house demand and data management platform; and a portfolio of 349 local terrestrial radio stations in 74 U.S. markets strategically situated outside the Top 50 markets in the United States. Our portfolio includes local media brands such as WYRK.com, WJON.com and NJ101.5.com, and premier national music brands such as XXLmag.com, TasteofCountry.com, UltimateClassicRock.com, and Loudwire.com.
 Current economic challenges, including high and sustained inflation and interest rates have caused and could continue to cause economic uncertainty and volatility. These factors could result in advertising and subscription digital marketing solutions cancellations, declines in the purchase of new advertising by our clients, declines in the addition of new digital marketing solutions subscribers, and increases to our operating expenses. We monitor economic conditions closely, and in response to observed or anticipated reductions in revenue, we may institute precautionary measures to address the potential impact to our consolidated financial position, consolidated results of operations, and liquidity, including wage reduction efforts and controlling non-essential capital expenditures.
 The extent of the impact of current economic conditions will depend on future actions and outcomes, all of which remain fluid and cannot be predicted with confidence (including effects on advertising activity, consumer discretionary spending and our employees in the markets in which we operate).
 Basis of Presentation
 The accompanying Unaudited Consolidated Financial Statements should be read in conjunction with the Company’s audited Consolidated Financial Statements and related notes thereto included in the Company's Annual Report on Form 10-K (the "2023 Annual Report on Form 10-K"). The accompanying unaudited interim Consolidated Financial Statements include the consolidated accounts of the Company and its wholly-owned subsidiaries, with all significant intercompany balances and transactions eliminated in consolidation. These financial statements have been prepared in accordance with Generally Accepted Accounting Principles in the United States ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. All adjustments (consisting only of normal, recurring adjustments) necessary for a fair presentation of results of operations and financial condition as of the end of the interim periods have been included. The results of operations for the three and nine months ended September 30, 2024, cash flows for the nine months ended September 30, 2024, and the Company’s financial condition as of such date are not necessarily indicative of the results of operations or cash flows that can be expected for, or the Company’s financial condition as of, any other interim period or for the fiscal year ending December 31, 2024. The Consolidated Balance Sheet as of December 31, 2023 is derived from the audited Consolidated Financial Statements at that date. Use of Estimates
 The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, the Company evaluates its significant estimates, including those related to assumptions used in determining the fair value of assets and liabilities acquired in a business combination, impairment testing of intangible assets, valuation and impairment testing of long-lived tangible assets and investments, the present value of leasing arrangements, share-based payment expense and the calculation of allowance for credit losses and income taxes. The Company bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the result of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources.
 Actual amounts and results may differ materially from these estimates under different assumptions or conditions. 40034974 Basis of Presentation
 The accompanying Unaudited Consolidated Financial Statements should be read in conjunction with the Company’s audited Consolidated Financial Statements and related notes thereto included in the Company's Annual Report on Form 10-K (the "2023 Annual Report on Form 10-K"). The accompanying unaudited interim Consolidated Financial Statements include the consolidated accounts of the Company and its wholly-owned subsidiaries, with all significant intercompany balances and transactions eliminated in consolidation. These financial statements have been prepared in accordance with Generally Accepted Accounting Principles in the United States ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. All adjustments (consisting only of normal, recurring adjustments) necessary for a fair presentation of results of operations and financial condition as of the end of the interim periods have been included. The results of operations for the three and nine months ended September 30, 2024, cash flows for the nine months ended September 30, 2024, and the Company’s financial condition as of such date are not necessarily indicative of the results of operations or cash flows that can be expected for, or the Company’s financial condition as of, any other interim period or for the fiscal year ending December 31, 2024. The Consolidated Balance Sheet as of December 31, 2023 is derived from the audited Consolidated Financial Statements at that date. Use of Estimates
 The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, the Company evaluates its significant estimates, including those related to assumptions used in determining the fair value of assets and liabilities acquired in a business combination, impairment testing of intangible assets, valuation and impairment testing of long-lived tangible assets and investments, the present value of leasing arrangements, share-based payment expense and the calculation of allowance for credit losses and income taxes. The Company bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the result of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Summary of Significant Accounting Policies There have been no significant changes in the Company’s accounting policies since December 31, 2023. For the Company's detailed accounting policies please refer to the Consolidated Financial Statements and related notes thereto included in the Company's 2023 Annual Report on Form 10-K.

*Issued Standards That Have Not Yet Been Adopted
 In November 2023, the FASB issued ASU 2023-07, Segment Reporting – Improvements to Reportable Segments Disclosures, which enhances disclosures of significant segment expenses by requiring the disclosure of significant segment expenses regularly provided to the chief operating decision maker, extending certain annual disclosures to interim periods, and permitting more than one measure of segment profit or loss to be reported under certain conditions. The amendments are effective for the Company in fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption of the amendment is permitted, including adoption in any interim periods for which financial statements have not been issued. As this update only requires additional disclosures, the adoption of this standard is not expected to have a significant impact on the Consolidated Financial Statements.
 In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which requires additional categories of information about federal and state income taxes in the rate reconciliation table and to provide more details about reconciling items in some categories if items meet a quantitative threshold. The guidance also requires the disclosure of income taxes paid, net of refunds, disaggregated by federal and state taxes for annual periods and to disaggregate the information by jurisdiction based on a quantitative threshold. The guidance is effective for fiscal years beginning after December 15, 2024, with early adoption permitted. As this update only requires additional disclosures, the adoption of this standard is not expected to have a significant impact on the Consolidated Financial Statements. In November 2024, the FASB issued ASU 2024-03, Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures, which requires the disclosure in the notes to financial statements, information about certain costs and expenses including, purchases of inventory, employee compensation, depreciation and intangible asset amortization. The guidance also requires a qualitative description of amounts remaining in certain expense captions that are not separately disaggregated on a quantitative basis, as well as the disclosure of the total amount of selling expenses. The guidance is effective for fiscal years beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, with early adoption permitted. We deliver these solutions across desktop, mobile, connected TV, email, paid search and social media platforms utilizing display, video and native executions. We also offer subscription digital marketing solutions under the brand name Townsquare Interactive to small and mid-sized local and regional businesses in markets outside the top 50 across the United States, including the markets in which we operate radio stations.  We receive payments from customers based upon contractual billing schedules; contract receivables are recognized in the period the Company provides services when the Company's right to consideration is unconditional. Payment terms vary by the type and location of our customer and the products or services offered. Payment terms for amounts invoiced are typically net 30-60 days.
 Our contract liabilities include cash payments received or due in advance of satisfying our

performance obligations and digital subscriptions in which payment is received in advance of the service and month. These contract liabilities are recognized as revenue as the related performance obligations are satisfied. As of September 30, 2024, and December 31, 2023, the balance in the contract liabilities was $9.1 million and $9.1 million, respectively. The increase in the contract liabilities balance at September 30, 2024 is primarily driven by cash payments received or due in advance of satisfying our performance obligations, offset by $0.7 million and $7.8 million of recognized revenue for the three and nine months ended September 30, 2024. For the three and nine months ended September 30, 2023, we recognized $0.6 million and $9.1 million of revenue that was previously included in our deferred revenue balance. No significant changes in the time frame of the satisfaction of contract liabilities have occurred during the three and nine months ended September 30, 2024.
 Our capitalized contract acquisition costs include amounts related to sales commissions paid for signed contracts with perceived durations exceeding one year. We defer the related sales commission costs and amortize such costs to expense in a manner that is consistent with how the related revenue is recognized over the duration of the related contracts. We have evaluated the average customer contract duration (initial term and any renewals) to determine the appropriate amortization period for these contractual arrangements. Capitalized contract acquisition costs are recognized in prepaid expenses and other current assets in the accompanying consolidated balance sheets. As of September 30, 2024 and December 31, 2023, we had a balance of $6.6 million and $5.2 million, respectively, in capitalized contract acquisition costs and recognized $1.0 million and $3.2 million of amortization for the three and nine months ended September 30, 2024, respectively. For the three and nine months ended September 30, 2023, we recognized $1.8 million and $5.1 million of amortization, respectively. No impairment losses have been recognized or changes made to the time frame for performance of the obligations related to deferred contract assets during the three and nine months ended September 30, 2024 and 2023.</div><div style="text-align:justify">

style="text-align:justify;text-indent:36pt">Political net revenue includes the sale of advertising for political advertisers. Contracted performance obligations under political contracts consist of the broadcast and placement of digital advertisements. Management views political revenue separately based on the episodic nature of election cycles and local issues calendars.
 Net revenue from digital subscription-based contractual performance obligations is recognized ratably over time as our performance obligations are satisfied. Subscription-based service fees are typically billed in advance of the month of service at a fixed monthly fee that is contractually agreed upon at contract inception. The measure of progress in such arrangements is the number of days of successful delivery of the contracted service.
 Our advertising contracts are short-term (less than one year) and payment terms are generally net 30-60 days for traditional customer contracts and net 60-90 days for national agency customer contracts. Our billing practice is to invoice customers on a monthly basis for services delivered to date (representing the right to invoice). Our contractual arrangements do not include rights of return and do not include any significant judgments by nature of the products and services.
 For all customer contracts, we evaluate whether we are the principal (i.e., report revenue on a gross basis) or the agent (i.e., report revenue on a net basis). Generally, we report revenue for advertising placed on Townsquare properties on a gross basis (the amount billed to our customers is recorded as revenue, and the amount paid to our publishers is recorded as a cost of revenue). We are the principal because we control the advertising inventory before it is transferred to our customers. Our control is evidenced by our sole ability to monetize the advertising inventory, being primarily responsible to our customers, having discretion in establishing pricing, or a combination of these factors. We also generate revenue through agency relationships in which revenue is reported net of agency commissions. Agency commissions are calculated based on a stated percentage applied to gross billing revenue for advertisers that use agencies. Arrangements with Multiple Performance Obligations
 In contracts with multiple performance obligations, we identify each performance obligation and evaluate whether the performance obligations are distinct within the context of the contract at contract inception. When multiple performance obligations are identified, we identify how control transfers to the customer for each distinct contract obligation and determine the period when the obligations are satisfied. If obligations are satisfied in the same period, no allocation of revenue is deemed to be necessary. In the event performance obligations within a bundled contract do not run concurrently, we allocate revenue to each performance obligation based on its relative standalone selling price. We generally determine standalone selling prices based on the prices charged to customers. Performance obligations that are not distinct at contract inception are combined. Performance Obligations We do not disclose the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts for which we recognize revenue at the amount to which we have the right to invoice for services performed. Amounts related to performance obligations with expected durations of greater than one year are at a fixed price per unit and do not include any upfront or minimum payments requiring any estimation or allocation of revenue.P30DP60DP60DP90D The following tables provides information about receivables, contract assets and contract liabilities from contracts with customers (in thousands):

point decline in the long-term revenue growth rate would cause the estimated fair values of our FCC licenses to further decrease by $10.5 million which would have resulted in an impairment charge of $9.0 million as of September 30, 2024. Finally, a 100-basis point decline in operating profit margins would result in a decrease in the estimated fair values of our FCC licenses of $10.3 million which would result in an impairment charge of $9.0 million.
 Assumptions used to estimate the fair value of our FCC licenses are also dependent upon the expected performance and growth of our traditional broadcast radio operations. In the event broadcast radio revenue experiences actual or anticipated declines, such declines will have a negative impact on the estimated fair value of our FCC licenses, and the Company could recognize additional impairment charges, which could be material.
 Goodwill
 For goodwill impairment testing, the Company has selected December 31st as the annual testing date. In addition to the annual impairment test, the Company regularly assesses whether a triggering event has occurred, which would require interim impairment testing. As of December 31, 2023, the fair values of our National Digital, Townsquare Ignite, Analytical Services, and Townsquare Interactive reporting units were in excess of their respective carrying values by approximately 117%, 41%, 157%, and 147%, respectively. The Local Advertising and Amped reporting units had no goodwill as of December 31, 2023.
 The Company considered whether any events have occurred or circumstances have changed from the last quantitative analysis performed as of December 31, 2023 that would indicate that the fair value of the Company's reporting units may be below their carrying amounts. During the third quarter of 2024, the Company concluded that the carrying amount of the Live Events reporting unit exceeded its fair value, resulting in the recognition of a non-cash goodwill impairment charge of $1.7 million. During the second quarter of 2024, the Company concluded that the carrying amount of the National Digital and Live Events reporting units exceeded their fair values, resulting in the recognition of a non-cash goodwill impairment charges of $1.8 million and $0.9 million, respectively. In total, the company recorded $4.4 million of non-cash goodwill impairment charges during the nine months ended September 30, 2024.</div><div style="text-align:justify">

The Company's effective tax rate for the nine months ended September 30, 2024 and 2023 was approximately 63.0% and 29.5%, respectively.
 The change in the effective tax rate for the three and nine months ended September 30, 2024, is driven by the valuation allowance for interest expense carryforwards resulting from non-cash impairment charges and an increase in certain non-deductible compensation costs recorded during the three and nine months ended September 30, 2024.
 The effective tax rate may vary significantly from period to period, and can be influenced by many factors. These factors include, but are not limited to, changes to the statutory rates in the jurisdictions where the Company has operations and changes in the valuation of deferred tax assets and liabilities. The difference between the effective tax rate and the federal statutory rate of 21% primarily relates to certain non-deductible items, state and local income taxes and the valuation allowance for deferred tax assets. -0.826-0.919-0.630-0.295Stockholders' Equity Stock Options

 During the nine months ended September 30, 2024, the Company granted 124,093 options with grant date fair values ranging from $2.30 to $2.95 and vesting periods from three to five-years, each with ten-year terms. The Company also granted 73,738 options with grant date fair values of $2.68 to $2.86, respectively. These options contain market conditions whereby the options will vest and become exercisable subject to the achievement of a specified volume weighted average trading price ("VWAP") over a specified period and continued employment through the performance period each as observed and summarized below, respectively:

 The grant date fair value of stock options with market conditions is estimated using the Monte Carlo option pricing model, while stock options containing only service conditions is estimated using the Black-Scholes option pricing model. Each model requires an estimate of the expected term of the option, the expected volatility of the Company's common stock price, dividend yield and the risk-free interest rate. The below table summarizes the assumptions used to estimate the fair value of the equity options granted:

 For options only containing service conditions, the expected term was calculated using the simplified method, defined as the midpoint between the vesting period and the contractual term of each award, due to the lack of sufficient and meaningful historical exercise data. For options with market-based conditions, the expected term was estimated based on when the options are expected to be exercised. The expected volatility was based on market conditions of the Company. The risk-free interest rate was based on the U.S. Treasury yield curve in effect on the date of grant which most closely corresponds to the expected term of the option. The following table summarizes all option activity for the nine months ended September 30, 2024:

and ContingenciesThe Company is involved in legal proceedings in which damages and claims have been asserted against us. The Company believes that we have valid defenses to such proceedings and claims and intends to vigorously defend the Company. Management does not believe that any such matters will have a material adverse effect on our financial position, results of operations, or liquidity. The Company records a loss contingency if the potential loss from a proceeding or claim is considered probable and the amount can be reasonably estimated or a range of loss can be determined. The Company provides disclosure when it is reasonably possible that a loss will be incurred in excess of any recorded provision. Significant judgment is required in these determinations. As additional information becomes available, the Company reassesses prior determinations and may change its estimates. Litigation is subject to many uncertainties, and the outcome of litigation is not predictable with assurance.Segment Reporting Operating segments are organized internally by type of products and services provided. Based on the information reviewed by the Company's CEO in his capacity as Chief Operating Decision Maker ("CODM"), the Company has identified three segments: Subscription Digital Marketing Solutions, Digital Advertising and Broadcast Advertising. The remainder of our business is reported in the Other category.
 The Company operates in one geographic area. The Company's assets and liabilities are managed within markets outside the top 50 across the United States where the Company conducts its business and are reported internally in the same manner as the Consolidated Financial Statements; thus, no additional information regarding assets and liabilities of the Company's reportable segments is produced for the Company's CEO or included in these Consolidated Financial Statements. Intangible assets consist principally of FCC broadcast licenses and other definite-lived intangible assets and primarily support the Company's Broadcast Advertising segment. For further information see Note 5, Goodwill and Other Intangible Assets. The Company does not have any material inter-segment sales.
 The Company's management evaluates segment operating income (loss), which excludes unallocated corporate expenses and the impact of certain items that are not directly attributable to the reportable segments' underlying

operating performance, and primarily includes expenses related to corporate stewardship and administration activities, transaction related costs and non-cash impairment charges.
 The following tables present the Company's reportable segment results for the three months ended September 30, 2024 (in thousands):
