(the "Corporation" or "Fortis") is a Canadian issuer eligible to file its annual report pursuant to SectionÂ 13 of the Securities Exchange Act of 1934, as amended (theÂ "Exchange Act"), on FormÂ 40-F pursuant to the multi-jurisdictional disclosure system of the Exchange Act. The Corporation is a "foreign private issuer" as defined in RuleÂ 405 under the Securities Act of 1933, as amended. Equity securities of the Corporation are accordingly exempt from SectionsÂ 14(a), 14(b), 14(c), 14(f) andÂ 16 of the Exchange Act pursuant to RuleÂ 3a12-3.FORWARD LOOKING INFORMATIONThe Corporation includes forward-looking information in this Annual Report on Form 40-F and the exhibits attached hereto (the "Form 40-F") within the meaning of applicable Canadian securities laws and forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 (collectively referred to as "forward-looking information"). Forward-looking information reflects expectations of the Corporation's management regarding future growth, results of operations, performance, business prospects and opportunities. Wherever possible, words such as anticipates, believes, budgets, could, estimates, expects, forecasts, intends, may, might, plans, projects, schedule, should, target, will, would, and the negative of these terms, and other similar expressions have been used to identify the forward-looking information, which includes, without limitation: forecast capital expenditures for 2025 through 2029; Tucson Electric Power's ("TEP") planned exit from coal generation; the expected funding sources for the

capital plan, including the sources of common equity proceeds; the 2030 and 2035 direct greenhouse gas ("GHG") emissions reduction targets; the 2050 net-zero direct GHG emissions target; the potential impact of federal, state and provincial energy policies and other factors, including significant customer and load growth and the development of clean energy technology, on the Corporation's ability to achieve its GHG emissions reduction targets; forecast rate base for 2029 and rate base growth from 2024 through to 2029; the expected nature, timing and benefits of additional opportunities beyond the capital plan, including further expansion of the electric transmission grid in the U.S. to support load growth and facilitate the interconnection of cleaner energy, transmission investments associated with the Midcontinent 2Independent System Operator ("MISO") long range transmission plan ("LRTP") tranches 1, 2.1 and 2.2 as well as regional transmission in New York, grid resiliency and climate adaptation investments, renewable gas solutions and liquefied natural gas infrastructure in British Columbia, and the acceleration of load growth and cleaner energy infrastructure investments; the expectation that long-term growth in rate base will drive earnings that support dividend growth guidance of 4-6% annually through 2029; the expectation that Fortis is positioned well for future investment opportunities; the potential impact on growth caused by competition to the Corporation's transmission business and by challenges to existing right of first refusal statutes applicable to the transmission business; the potential impact of government policies to address climate change on the competitiveness of natural gas relative to other energy sources; the expected output of FortisBC Inc.'s Kootenay River system plants in the event of the termination of the canal plant agreement; the expected benefits of the Wataynikaneyap Transmission Power project; the expected timing, outcome and impact of regulatory proceedings and decisions; the expectation that the Corporation and its utilities will be targeted by cybersecurity threats, cyber attacks, data breaches, cyber extortion and similar compromises in the future; the expected in-service dates for certain projects; the expectation that no risks have arisen from any past or present cybersecurity threats that are reasonably likely to materially affect the Corporation's business strategy, results of operations or financial condition; TEP's estimated mine reclamation costs; Central Hudson's estimated remediation costs, including the potential for insurance reimbursement and partial cost recovery from rates, related to former manufactured gas plant facilities; expected implications of utility industry trends on the utility sector and on the Corporation's capital investments; the expected or potential funding sources for operating expenses, interest costs and capital expenditures; the expectation that maintaining the targeted capital structure of the regulated operating subsidiaries will not have an impact on the Corporation's ability to pay dividends in the foreseeable future; the expected consolidated fixed-term debt maturities and repayments over the next five years; the expectation that the Corporation and its subsidiaries will continue to have reasonable access to long-term capital and will remain compliant with debt covenants in 2025; the expected uses of proceeds from debt financings; the performance of contractual obligations to provide equity capital to Wataynikaneyap Power; the potential impact of new or revised tariffs on forecast and actual capital expenditures; forecast rate base for 2025 and 2029 by segment; the nature, timing, benefits and expected costs of certain capital projects, including ITC's transmission projects associated with the MISO LRTP, Integrated Resource Plan Related Generation, the Roadrunner Reserve Battery Storage Projects 1 and 2, the Vail-to-Tortolita Transmission Project, the Eagle Mountain Pipeline Project, the Tilbury LNG Storage Expansion, the Advanced Metering Infrastructure Project, and the Tilbury 1B Project, and additional investment opportunities; the expected impacts of future accounting pronouncements on the Corporation's disclosures; the potential impact of the recognition of goodwill impairment losses; and the potential and expected impacts of income tax compliance examinations and legislation with respect to interest deductibility limitations and global minimum tax.Certain material factors or assumptions have been applied in drawing the conclusions contained in the forward-looking information, including, without limitation: reasonable legal and regulatory decisions and the expectation of regulatory stability; the successful execution of the capital plan; no material capital project or financing cost overrun; sufficient human resources to deliver service and execute the capital plan; the realization of additional opportunities beyond the capital plan; no significant variability in interest rates; no material changes in the assumed U.S. dollar-to- Canadian dollar exchange rate; the continuation of current participation levels in the Corporation's dividend reinvestment plan; the Corporation's board of directors (the "Board") exercising its discretion to declare dividends, taking into account the financial performance and condition of the Corporation; no significant operational disruptions or environmental liability or upset; the continued ability to maintain the performance of the electricity and gas systems; no severe and prolonged economic downturn; sufficient liquidity and capital resources; the ability to hedge exposures to fluctuations in foreign exchange rates, natural gas prices and electricity prices; the continued availability of natural gas, fuel, coal and electricity supply; continuation of power supply and capacity purchase contracts; no significant changes in government energy plans, environmental laws and regulations that could have a material negative impact; maintenance of adequate insurance coverage; the ability to obtain and maintain licences and permits; retention of existing service areas; no significant changes in tax laws and the continued tax deferred treatment of earnings from the Corporation's foreign operations; continued maintenance of information technology infrastructure and no material breach of cybersecurity; continued favourable relations with Indigenous Peoples; and favourable labour relations.Forward-looking information involves significant risks, uncertainties and assumptions. The Corporation cautions readers that a number of factors could cause actual results, performance or achievements to differ materially from the results discussed or implied in the forward-looking information. These factors should be considered carefully and undue reliance should not be placed on the forward-looking information. For additional information with respect to certain of these risks or factors, reference should be made to the information detailed under the heading "Business Risks" on page 22 of the Annual MD&A (as defined below), and to continuous disclosure materials filed from time to time by the Corporation with Canadian securities regulatory authorities and the U.S. Securities and Exchange Commission (the "SEC"). 3Key risk factors for 2025 include, but are not limited to:â€¢risks associated with changes in utility regulation, including the outcome of regulatory proceedings at the Corporation's utilities;â€¢physical risks related to the provision of electric and gas service, which can be exacerbated by the impacts of climate change;â€¢risks related to environmental laws and regulations;â€¢risks associated with capital projects and the impact on the Corporation's continued growth;â€¢risks associated with cybersecurity and information and operations technology, including disruption to electric and gas service, consumption and load settlement systems, and financial or general operations, as well as the risk of misappropriation and/or disclosure of confidential or proprietary information;â€¢the impact of weather variability and seasonality on heating and cooling loads, gas distribution volumes and hydroelectric generation;â€¢risks associated with commodity price volatility and supply of purchased power; and,â€¢risks related to general economic conditions, including inflation, interest rate and foreign exchange risks.All forward-looking information in this Form 40-F is given as of the date of this Form 40-F and the Corporation disclaims any intention or obligation to revise or update any forward-looking information as a result of new information, future events or otherwise.CURRENCYThe Corporation presents its consolidated financial statements in Canadian dollars unless otherwise specified. All dollar amounts in this Form 40-F are stated in Canadian dollars ("$" or "C$"), except where otherwise indicated. On FebruaryÂ 13, 2025, the daily average exchange rate (as reported by the Bank of Canada) of United States dollars ("US$") into Canadian dollars was US$1.00 equals C$1.42.CANADIAN ANNUAL DISCLOSURE DOCUMENTSThe following documents are filed as exhibits to this Form 40-F:1.The Annual Information Form for the fiscal year ended DecemberÂ 31, 2024, which is filed as Exhibit 99.1 to this Form 40-F and incorporated by reference herein (the "AIF");2.Audited Consolidated Financial Statements for the fiscal year ended DecemberÂ 31, 2024, which are filed as Exhibit 99.2 to this Form 40-F and incorporated by reference herein (the "Annual Financial Statements"); and3.Management's Discussion and Analysis for the fiscal year ended DecemberÂ 31, 2024, which is filed as Exhibit 99.3 to this Form 40-F and incorporated by reference herein (the "Annual MD&A").CERTIFICATIONSSee Exhibits 99.4, 99.5, 99.6 and 99.7 to this Form 40-F.DISCLOSURE CONTROLS AND PROCEDURESDisclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in reports filed with, or submitted to, securities regulatory authorities is recorded, processed, summarized and reported within the time periods specified under Canadian and United States securities laws. As of DecemberÂ 31, 2024, an evaluation was carried out under the supervision of, and with the participation of, the Corporation's management, including the President and Chief Executive Officer and the Executive Vice President, Chief Financial Officer, of the effectiveness of the Corporation's disclosure controls and procedures, as defined in the applicable Canadian and United States securities laws. Based on that evaluation, the President and Chief Executive Officer and the Executive Vice President, Chief Financial Officer concluded that such disclosure controls and procedures are effective as of DecemberÂ 31,Â 2024. 4MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTINGManagement of the Corporation is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is designed by, or under the supervision of, the Corporation's President and Chief Executive Officer and the Executive Vice President, Chief Financial Officer and effected by the Corporation's Board, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. GAAP. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.The Corporation's management, including the Corporation's President and Chief Executive Officer and the Executive Vice President, Chief Financial Officer, assessed the effectiveness of the Corporation's internal control over financial reporting as of DecemberÂ 31, 2024, based on the criteria set forth in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management concluded that, as of DecemberÂ 31, 2024, the Corporation's internal control over financial reporting was effective. Deloitte LLP, an independent registered public accounting firm, has audited the Annual Financial Statements, and has included its attestation report on management's assessment of the Corporation's internal control over financial reporting, which is found on page 2 of the Annual Financial Statements. ATTESTATION REPORT OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRMDeloitte LLP's attestation report on management's assessment of the Corporation's internal control over financial reporting is found on page 5 of the Annual Financial Statements.CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTINGManagement regularly reviews its system of internal control over financial reporting and makes changes to the Corporation's processes and systems to improve controls and increase efficiency, while ensuring that the Corporation maintains an effective internal control environment. Changes may include such activities as implementing new, more efficient systems, consolidating activities, and migrating processes.During the year ended DecemberÂ 31, 2024, there have been no changes in the Corporation's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting. NOTICES PURSUANT TO REGULATION BTRThe Corporation did not send any notices required by Rule 104 of Regulation BTR during the year ended DecemberÂ 31, 2024 concerning any equity security subject to a blackout period under Rule 101 of Regulation BTR. IDENTIFICATION OF THE AUDIT COMMITTEEThe Corporation has a separately designated standing Audit Committee established in accordance with section 3(a)(58)(A) of the Exchange Act. As of December 31, 2024, the Audit Committee is composed of Maura J. Clark (Chair), Tracey C. Ball, Lawrence T. Borgard, Margarita K. Dilley, Donald R. Marchand and Jo Mark Zurel as described under "Audit Committee - Members" on page 27 of the AIF. Effective December 31, 2024, Lisa Crutchfield resigned from the Board and is no longer a member of the Audit Committee. On January 1, 2025, Gregory E. Knight became a director of the Corporation and he was appointed by the Board as a member of the Audit Committee on February 13, 2025.AUDIT COMMITTEE FINANCIAL EXPERTThe Board has determined that the Corporation has at least one "audit committee financial expert" (as defined in paragraph (8) of General Instruction B to Form 40-F) and that Tracey C. Ball, Maura J. Clark, Margarita K. Dilley, Donald R. Marchand and Jo Mark Zurel are the Corporation's "audit committee financial experts" serving on the Audit Committee of the Board. Each of the audit committee financial experts is "independent" under applicable listing standards. 5CODE OF ETHICSThe Corporation has a "code of ethics" (as defined in paragraph (9)(b) of General Instruction B to Form 40-F) that applies to all the Corporationâ€™s employees, officers and directors, including the Chief Executive Officer, Chief Financial Officer, principal accounting officer or controller, and persons performing similar functions. The Corporation's code of ethics (referred to as the "Code of Conduct") is available on the Corporation's website at https://www.fortisinc.com/ or, without charge, upon request from the Corporate Secretary, Fortis Inc., Fortis Place, Suite 1100, 5Â Springdale Street, St. John's, Newfoundland and Labrador, Canada A1E 0E4 (telephone (709) 737-2800).During the fiscal year ended December 31, 2024 there have not been any amendments to, or waivers of, including implicit waivers of, any provision of the Code of Conduct which is applicable to the Corporation's Chief Executive Officer, Chief Financial Officer, principal accounting officer or controller, or persons performing similar functions and that relates to any element of the code of ethics definition enumerated in paragraph (9)(b) of General Instruction B to Form 40-F.PRINCIPAL ACCOUNTANT FEES AND SERVICESDeloitte LLP served as the Corporation's independent public accountant for the fiscal years ended DecemberÂ 31, 2024 and 2023. For a description of the total amount billed to the Corporation by Deloitte LLP for services performed in the last two fiscal years by category of service (audit fees, audit-related fees, tax fees and all other fees), see "Audit Committee - External Auditor Service Fees" on page 28 of the AIF. AUDIT COMMITTEE PREâ€‘APPROVAL POLICIES AND PROCEDURESFor a description of the pre-approval policies and procedures of the Corporation's Audit Committee, see "Audit Committee - Pre-Approval Policies and Procedures" on page 28 of the AIF.No audit-related fees, tax fees or other non-audit fees were approved by the Audit Committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation Sâ€‘X.OFFâ€‘BALANCE SHEET ARRANGEMENTSExcept for letters of credit outstanding of $102 million as at DecemberÂ 31, 2024 and certain unrecorded commitments disclosed under the heading "Liquidity and Capital Resources - Contractual Obligations" on page 17 of the Annual MD&A, the Corporation has not entered into any "off-balance sheet arrangements", as defined in General Instruction B(11) to Form 40-F, that have or are reasonably likely to have a current or future effect on the Corporation's financial condition, changes in financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.RECOVERY OF ERRONEOUSLY AWARDED COMPENSATIONThe Corporation has adopted a compensation recovery policy effective October 2, 2023 (referred to as the â€œExecutive Compensation Clawback Policyâ€) as required by NYSE listing standards and pursuant to Rule 10D-1 of the Exchange Act. The Executive Compensation Clawback Policy is filed as Exhibit 97 to this Form 40-F. At no time during or after the fiscal year ended December 31, 2024 (as of the date of this Annual Report), was the Corporation required to prepare an accounting restatement that required recovery of erroneously awarded compensation pursuant to the Executive Compensation Clawback Policy and, as of December 31, 2024, there was no outstanding balance of erroneously awarded compensation to be recovered from the application of the Executive Compensation Clawback Policy to a prior restatement. TABULAR DISCLOSURE OF CONTRACTUAL OBLIGATIONSFor tabular disclosure of the Corporation's contractual obligations, see page 17 of the Annual MD&A, under the heading "Liquidity and Capital Resources - Contractual Obligations". 6COMPARISON OF NYSE CORPORATE GOVERNANCE RULESThe Corporation is subject to a variety of corporate governance guidelines and requirements enacted by the Toronto Stock Exchange (the "TSX"), the Canadian securities regulatory authorities, the New York Stock Exchange (the "NYSE") and the SEC. The Corporation is listed on the NYSE and, although the Corporation is not required to comply with most of the NYSE corporate governance requirements to which the Corporation would be subject if it were a U.S. corporation, the Corporation's governance practices differ from those required of U.S. domestic issuers only as described herein. The NYSE rules for U.S. domestic issuers require shareholder approval of all equity compensation plans (as defined in the NYSE rules) regardless of whether new issuances, treasury shares or shares that the Corporation has purchased in the open market are used. The TSX rules require shareholder approval of share compensation arrangements involving new issuances of shares, and of certain amendments to such arrangements, but do not require such approval if the compensation arrangements involve only shares purchased in the open market. The NYSE rules for U.S. domestic issuers also require shareholder approval of certain transactions or series of related transactions that result in the issuance of common shares, or securities convertible into or exercisable for common shares, that have, or will have upon issuance, voting power equal to or in excess of 20% of the voting power outstanding prior to the transaction or if the issuance of common shares, or securities convertible into or exercisable for common shares, are, or will be upon issuance, equal to or in excess of 20% of the number of common shares outstanding prior to the transaction. The TSX rules require shareholder approval of acquisition transactions resulting in dilution in excess of 25%. The TSX also has broad general discretion to require shareholder approval in connection with any issuances of listed securities. The Corporation complies with the TSX rules described in this paragraph. UNDERTAKINGThe Corporation undertakes to make available, in person or by telephone, representatives to respond to inquiries made by the SEC staff, and to furnish promptly, when requested to do so by the SEC staff, information relating to: the securities in relation to which the obligation to file an annual report on FormÂ 40-F arises; or transactions in said securities.DISCLOSURE PURSUANT TO SECTION 13(r) OF THE EXCHANGE ACTIn accordance with Section 13(r) of the Exchange Act, the Corporation is required to include certain disclosures in its periodic reports if it or any of its affiliates knowingly engaged in certain specified activities during the period covered by the report. Neither the Corporation nor its affiliates have knowingly engaged in any transaction or dealing reportable under Section 13(r) of the Exchange Act during the year ended DecemberÂ 31, 2024. INCORPORATION BY REFERENCEThe Corporation's Annual Report on Form 40-F (other than the section entitled "Credit Ratings" in Exhibit 99.1 to this Form 40-F) is incorporated by reference into the Corporation's Registration Statements on Form S-8 (File No. 333-264838), Form S-8 (File No. 333-276111), Form S-8 (File No. 333-276112), Form S-8 (File No. 333-281205), Form S-8 (File No. 333-226663), Form S-8

(File No. 333-236213), Form F-3 (File No. 333-279253), and Form F-10 (File No. 333-283687). 7EXHIBIT INDEXExhibitDescription97Executive Compensation Clawback Policy effective October 2, 202399.1Annual Information Form of the Corporation dated February 13, 202599.2Audited Consolidated Financial Statements for the fiscal year ended December 31, 202499.3Management's Discussion and Analysis for the fiscal year ended December 31, 202499.4Chief Executive Officer certification required by Rule 13a-14(a)99.5Chief Financial Officer certification required by Rule 13a-14(a)99.6Chief Executive Officer certification required by Rule 13a-14(b)99.7Chief Financial Officer certification required by Rule 13a-14(b)99.8Consent of Deloitte LLP101.INSXBRL Instance101.SCHXBRL Taxonomy Extension Schema101.CALXBRL Taxonomy Extension Calculation Linkbase101.DEFXBRL Taxonomy Extension Definition Linkbase101.LABXBRL Taxonomy Extension Label Linkbase101.PREXBRL Taxonomy Extension Presentation Linkbase8SIGNATURESPursuant to the requirements of the Exchange Act, the Corporation certifies that it meets all of the requirements for filing on FormÂ 40â€'F andÂ has duly caused this annual report to be signed on its behalf by the undersigned, thereto duly authorized.FORTIS INC./s/ Jocelyn H. PerryJocelyn H. PerryExecutive Vice President, Chief Financial OfficerDate: February 14, 20259 EX-97 2 a2024annual-97executivecom.htm EX-97 DocumentExhibit 97Fortis Inc. Executive Compensation Clawback PolicyI.Â Â Â Â INTRODUCTIONThe board of directors (the "Board") of Fortis Inc. ("Fortis" or the "Corporation") believes that it is in the best interests of the Corporation to adopt this executive compensation clawback policy (the "Policy"). The Policy is divided into two parts and is intended to comply with (i) Section 304 of the United States Sarbanes-Oxley Act of 2002 (see Part II below) and (ii) Section 10D of the United States Securities Exchange Act of 1934, as amended (the "Exchange Act"), Rule 10D-1 promulgated under the Exchange Act ("Rule 10D-1") and Section 303A.14 of the New York Stock Exchange Listed Corporation Manual (the "NYSE Listing Standards") (see Part III below).1.Â Â Â Â AuthorityExcept as specifically set forth herein, the Policy shall be administered by the Board or, if so designated by the Board, a committee of the Board (the Board or such committee designated by the Board to administer the Policy, the "Administrator"). The Administrator is authorized to interpret and construe the Policy and to make all determinations necessary, appropriate or advisable for the administration of the Policy. Any determinations made by the Administrator shall be final and binding on all affected individuals. In the administration of the Policy, the Administrator is authorized and directed to consult with the full Board or such other committees of the Board, as may be necessary or appropriate as to matters within the scope of such other committee's responsibility and authority. Subject to any limitation at applicable law, the Administrator may authorize and empower any officer or employee of the Corporation to take any and all actions necessary or appropriate to carry out the purpose and intent of the Policy (other than with respect to any recovery under the Policy involving such officer or employee).2.Â Â Â Â IndemnificationAny members of the Administrator, and any other members of the Board who assist in the administration of the Policy, shall not be personally liable for any action, determination or interpretation made in good faith with respect to the Policy and such persons shall be indemnified by the Corporation with respect to any such action, determination or interpretation to the fullest extent permitted under applicable law and the policies of the Corporation in effect from time to time. The foregoing sentence shall not limit any other rights to indemnification of the members of the Board under applicable law or the policies of the Corporation in effect from time to time.3.Â Â Â Â Amendment; TerminationThe Board may amend, modify, supplement, rescind or replace all or any portion of the Policy at any time and from time to time in its discretion, and shall amend the Policy as it deems necessary to comply with applicable law or any rules or standards adopted by a securities exchange on which the Corporation's securities are listed. 4.Â Â Â Â SeverabilityIf any provision of the Policy or its application shall be adjudicated to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provisions of the Policy, and the invalid, illegal or unenforceable provisions shall be deemed amended to the minimum extent necessary to render any such provision or application enforceable.5.Â Â Â Â Other Recoupment RightsThe Board intends that the Policy shall be applied to the fullest extent permitted by law. Any right of recoupment under the Policy is in addition to, and not in lieu of, any other remedies or rights of recoupment that may be available to the Corporation under applicable law, rules or regulations with respect to the claw back or recoupment of erroneously awarded compensation or pursuant to the terms of any employment agreement, equity award agreement, or similar agreement. To the extent that Fortis, the Board, or any committee of the Board is required to comply with any such laws, rules or regulations, the Policy shall be read to incorporate such requirements to the extent applicable.16.Â Â Â Â Other ClaimsNothing contained in the Policy, and no recoupment or recovery as contemplated by the Policy, shall limit any claims, damages or other legal remedies the Corporation or any of its affiliates may have against any person arising out of or resulting from any actions or omissions by such person. 7.Â Â Â Â Absence of ConflictsSubject to Section 5b) of Part III of the Policy, the application of the Policy by the Administrator may result in recoupment of compensation pursuant to Part II or Part III of the Policy or both Part II and Part III of the Policy, as determined to be necessary, appropriate and advisable.8.Â Â Â Â SuccessorsThe Policy shall be binding and enforceable against all persons subject thereto and their beneficiaries, heirs, executors, administrators or other legal representatives. 9.Â Â Â Â Disclosure RequirementsThe Corporation shall file all disclosures with respect to the Policy required by applicable laws and regulations, including applicable rules of the United States Securities and Exchange Commission ("SEC").II.Â Â Â Â [Intentionally Omitted]III.Â Â Â Â DODD-FRANK CLAWBACKPart III of the Policy is intended to comply with, and shall be interpreted to be consistent with, Section 10D of the Exchange Act, Rule 10D-1 and Section 303A.14 of the NYSE Listing Standards. 1.Â Â Â Â DefinitionsAs used in this Part III of the Policy, the following terms shall have the meanings ascribed to them below:"Accounting Restatement" means an accounting restatement due to the material noncompliance of Fortis with any financial reporting requirement under securities laws, including any required accounting restatement to correct an error in previously issued financial statements that is material to the previously issued financial statements (a â€œBig Râ€ restatement), or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period (a â€œlittle râ€ restatement)."Applicable Period" means the three completed fiscal years immediately preceding the date on which Fortis is required to prepare an Accounting Restatement, as well as any transition period (that results from a change in the Corporation's fiscal year) within or immediately following those three completed fiscal years (except that a transition period that comprises a period of at least nine months shall count as a completed fiscal year). The "date on which the Corporation is required to prepare an Accounting Restatement" is the earlier to occur of (a) the date the Board, a committee of the Board (e.g., the Audit Committee), or the officer or officers of the Corporation authorized to take such action (if Board action is not required) concludes, or reasonably should have concluded, that the Corporation is required to prepare an Accounting Restatement or (b) the date a court, regulator or other legally authorized body directs the Corporation to prepare an Accounting Restatement, in each case regardless of if or when the restated financial statements are filed."Erroneously Awarded Compensation" has the meaning set forth in Section 4 of this Part III of the Policy."Executives" means the Corporation's current and former president, principal financial officer, principal accounting officer (or, if there is no such accounting officer, the controller), any vice-president of the Corporation in charge of a principal business unit, division or function (such as sales, administration or finance), any other executive who performs a policy-making function, or any other person who performs similar policy-making functions for the Corporation, as determined by the Administrator in accordance with the definition of executive officer set forth in Rule 10D-1 and the NYSE Listing Standards. 2"Financial Reporting Measure" means measures that are determined and presented in accordance with the accounting principles used by Fortis in preparing its financial statements, and all other measures that are derived wholly or in part from such measures. Share price and total shareholder return (and any measures that are derived wholly or in part from share price or total shareholder return) shall, for purposes of this Part III of the Policy, be considered Financial Reporting Measures. For the avoidance of doubt, a Financial Reporting Measure need not be presented within Fortis financial statements or included in a filing with any securities regulatory authority, including the SEC."Incentive-Based Compensation" means any compensation that is granted, earned or vested based wholly or in part upon the attainment of a Financial Reporting Measure. Incentive-Based Compensation is "received", for purposes of this Part III of the Policy, in the Corporation's fiscal period during which the Financial Reporting Measure specified in the Incentive-Based Compensation award is attained, even if the payment or grant of such Incentive-Based Compensation occurs after the end of that period. 2.Â Â Â Â Covered Executives; Incentive-Based CompensationPart III of the Policy applies to Incentive-Based Compensation received by an Executive (i) after beginning services as an Executive; (ii) if the Executive served as an Executive at any time during the performance period for such Incentive-Based Compensation; and (iii) while the Corporation has (or had) a class of securities listed on the New York Stock Exchange (â€œNYSEâ€) or any other U.S. national securities exchange.3.Â Â Â Â Recoupment of Erroneously Awarded Compensation in the Event of an Accounting Restatement If the Corporation is required to prepare an Accounting Restatement, the Corporation shall promptly recoup the amount of any Erroneously Awarded Compensation received by any Executive during the Applicable Period as calculated pursuant to Section 4 of this Part III of the Policy. 4.Â Â Â Â Erroneously Awarded Compensation: Amount Subject to RecoveryThe amount of "Erroneously Awarded Compensation" subject to recovery under this Part III of the Policy, as determined by the Administrator, is the amount of Incentive-Based Compensation received by the Executive that exceeds the amount of Incentive-Based Compensation that would have been received by the Executive had the Incentive-Based Compensation been determined based on the restated financial statements. Erroneously Awarded Compensation shall be computed by the Administrator without regard to any taxes paid by the Executive in respect of the Erroneously Awarded Compensation. For Incentive-Based Compensation based on share price or total shareholder return, where the amount of Erroneously Awarded Compensation is not subject to mathematical recalculation directly from the information in the applicable accounting restatement: a)Â Â Â Â the Administrator shall determine the amount of Erroneously Awarded Compensation based on a reasonable estimate of the effect of the Accounting Restatement on the share price or total shareholder return upon which the Incentive-Based Compensation was received; and b)Â Â Â Â Fortis shall maintain documentation of the determination of that reasonable estimate and provide such documentation to the NYSE.5.Â Â Â Â Method of Recoupmenta)Â Â Â Â The Administrator shall have discretion to determine the appropriate means of recouping Erroneously Awarded Compensation based on the particular facts and circumstances. Notwithstanding the foregoing, except as set forth in Section 6 of this Part III of the Policy, in no event may Fortis accept an amount that is less than the amount of Erroneously Awarded Compensation in satisfaction of an Executive's obligations hereunder.b)Â Â Â Â To the extent that the Executive reimburses Fortis for any Incentive-Based Compensation received that constitutes Erroneously Awarded Compensation under any duplicative recovery obligation established by the Corporation in the Policy or otherwise, or pursuant to applicable law, any such reimbursed amount may be credited to the amount of Erroneously Awarded Compensation that is subject to recovery under this Part III of the Policy.3c)Â Â Â Â To the extent that an Executive fails to repay all Erroneously Awarded Compensation to Fortis when due, the Corporation shall take all actions reasonable and appropriate to recover such Erroneously Awarded Compensation from the applicable Executive. The applicable Executive shall be required to reimburse the Corporation for any and all expenses reasonably incurred (including legal fees) by the Corporation in recovering such Erroneously Awarded Compensation in accordance with the immediately preceding sentence.6.Â Â Â Â Exceptions to RecoveryFortis will recover Erroneously Awarded Compensation in compliance with this Part III of the Policy unless any of the following conditions are met and the Administrator determines that recovery would be impracticable:a)Â Â Â Â The direct expense paid to a third party to assist in enforcing this Part III of the Policy would exceed the amount to be recovered. Before concluding that it would be impracticable to recover any amount of Erroneously Awarded Compensation based on the expense of enforcement, the Corporation must make a reasonable attempt to recover such Erroneously Awarded Compensation, document such reasonable attempt(s) to recover, and provide that documentation to the NYSE.b)Â Â Â Â Recovery would violate applicable Canadian federal or provincial law (provided that law was adopted prior to November 28, 2022). Before concluding that it would be impracticable to recover any amount of Erroneously Awarded Compensation based on violation of Canadian federal or provincial law, the Corporation shall obtain an opinion of Canadian counsel, acceptable to the NYSE, that recovery would result in such a violation, and must provide such opinion to the NYSE.c)Â Â Â Â Recovery would likely cause an otherwise tax-qualified retirement plan, under which benefits are broadly available to employees of the Corporation, to fail to meet the requirements of Section 401(a)(13) or 411(a) of the United States Internal Revenue Code and the regulations thereunder.7.Â Â Â Â No indemnification of ExecutivesFortis shall not insure or indemnify any Executive against (i) the loss of any Erroneously Awarded Compensation that is repaid, returned or recovered pursuant to the terms of this Part III of the Policy, or (ii) any claims relating to the Corporation's enforcement of its rights under this Part III of the Policy. Fortis shall not enter into any agreement that exempts any Incentive-Based Compensation that is granted, paid or awarded to an Executive from the application of this Part III of the Policy or that waives the Corporation's right to recovery of any Erroneously Awarded Compensation, and this Part III of the Policy shall supersede any such agreement (whether entered into before, on or after the Effective Date of this Part III of the Policy).8.Â Â Â Â Part III Effective Date; Retroactive Application Part III of the Policy shall be effective as of October 2, 2023 (the "Part III Effective Date"). The terms of Part III of the Policy shall apply to any Incentive-Based Compensation that is received by Executives on or after the Part III Effective Date, even if such Incentive-Based Compensation was approved, awarded, granted or paid to Executives prior to the Part III Effective Date. Without limiting the generality of Section 5 of this Part III of the Policy, and subject to applicable law, the Administrator may affect recovery under this Part III of the Policy from any amount of compensation approved, awarded, granted, payable or paid to the Executive prior to, on or after the Part III Effective Date.4[TO BE SIGNED BY FORTIS EXECUTIVES:]Acknowledgment of the Fortis Inc. Executive Compensation Clawback PolicyI, the undersigned, agree and acknowledge that I have read, and that I am fully bound by, and subject to, all of the terms and conditions of the Fortis Inc. Executive Compensation Clawback Policy (as such policy may be amended, restated, supplemented or otherwise modified from time to time, the "Policy"). Any capitalized terms used in this Acknowledgment without definition shall have the meaning set forth in the Policy.If there is any inconsistency between the Policy and the terms of any employment agreement to which I am a party, or the terms of any compensation plan, program or agreement under which any compensation has been granted, awarded, earned or paid, the terms of the Policy shall govern. If it is determined by the Administrator that any amounts granted, awarded, earned or paid to me must be forfeited or reimbursed to the Corporation, I will promptly take any action necessary to effectuate such forfeiture and/or reimbursement.By:Â Â Â Â _____[Name][Title]Date:Â Â Â Â _____5 EX-99.1 3 a2024annual-991aif.htm EX-99.1 DocumentExhibit 99.1Annual Information FormTable of ContentsForward-Looking Information2Governance and Oversight19Glossary3Risk Management and Strategy20Corporate Structure5Social and Environmental Policies21Name and Incorporation5Ethical Conduct21Inter-Corporate Relationships5Climate Change and Environmental Matters21General Development of the Business5Safety and Reliability21Overview5Environmental Regulation and Contingencies21Three-Year History6Capital Structure and Dividends22Outlook7Description of Capital Structure22Description of the Business7Dividends and Distributions22Regulated Utilities8Debt Covenant Restrictions on Dividend Distributions23ITC8Credit Ratings23UNS Energy10Directors and Officers25Central Hudson12Audit Committee27FortisBC Energy12Members27FortisAlberta14Education and Experience27FortisBC Electric14Pre-Approval Policies and Procedures28Other Electric15External Auditor Service Fees28Non-Regulated17Transfer Agent and Registrar28Corporate and Other17Interests of Experts28Human Resources18Additional Information29Legal Proceedings and Regulatory Actions18Exhibit A: Summary of Terms and Conditions of Authorized Securities30Interest of Management and Others in Material Transactions19Exhibit B: Market for Securities32Risk Factors19Exhibit C: Audit Committee Mandate34Cybersecurity19Exhibit D: Material Contracts41Dated FebruaryÂ 13, 2025Financial information in this AIF has been prepared in accordance with U.S. GAAP and is presented in Canadian dollars ($) based, as applicable, on the following U.S. dollar-to-Canadian dollar exchange rates: (i)Â average of 1.37 and 1.35 for the years ended DecemberÂ 31, 2024 and 2023, respectively; (ii) 1.44 and 1.32 as at DecemberÂ 31, 2024 and 2023, respectively; and (iii) 1.30 for all forecast periods.Except as otherwise expressly noted, the information in this AIF is given as of DecemberÂ 31, 2024.1December 31, 2024Annual Information FormFORWARD-LOOKING INFORMATION Fortis includes forward-looking information in this AIF within the meaning of applicable Canadian securities laws and forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 (collectively referred to as "forward-looking information"). Forward-looking information reflects expectations of Fortis management regarding future growth, results of operations, performance, business prospects and opportunities. Wherever possible, words such as anticipates, believes, budgets, could, estimates, expects, forecasts, intends, may, might, plans, projects, schedule, should, target, will, would, and the negative of these terms, and other similar terminology or expressions, have been used to identify the forward-looking information, which includes, without limitation: forecast Capital Expenditures for 2025 through 2029; TEP's planned exit from coal generation; the expected funding sources for the capital plan, including the sources of common equity proceeds; the 2030 and 2035 GHG emissions reduction targets, the 2050 net-zero direct GHG emissions target; the potential impact of federal, state and provincial energy policies and other factors, including significant customer and load growth and the development of clean energy technology, on the Corporation's ability to achieve its GHG emissions reduction targets; forecast midyear rate base for 2029 and rate base growth from 2024 through to 2029; the expected nature, timing and benefits of additional opportunities beyond the capital plan, including further expansion of the electric transmission grid in the U.S. to support load growth and facilitate the interconnection of cleaner energy, transmission investments associated with the MISO LRTP tranches 1, 2.1 and 2.2 as well as regional transmission in New York, grid resiliency and climate adaptation investments, renewable gas solutions and LNG infrastructure in British Columbia, and the acceleration of load growth and cleaner energy infrastructure investments; the expectation that long-term growth in rate base will drive earnings that support

dividend growth guidance of 4-6% annually through 2029; the expectation that Fortis is positioned well for future investment opportunities; the potential impact on growth caused by competition to the Corporation's transmission business and by challenges to existing right of first refusal statutes applicable to the transmission business; the potential impact of government policies to address climate change on the competitiveness of natural gas relative to other energy sources; the expected output of FortisBC Electric's Kootenay River system plants in the event of the termination of the CPA; the expected benefits of the Wataynikaneyap Transmission Power project; the expected timing, outcome and impact of regulatory proceedings and decisions; the expectation that the Corporation and its utilities will be targeted by cybersecurity threats, cyber attacks, data breaches, cyber extortion and similar compromises in the future; the expected in-service dates for certain projects; the expectation that no risks have arisen from any past or present cybersecurity threats that are reasonably likely to materially affect the Corporation's business strategy, results of operations or financial condition; TEP's estimated mine reclamation costs; and Central Hudson's estimated remediation costs, including the potential for insurance reimbursement and partial cost recovery from rates, related to former manufactured gas plant facilities.Forwardâ€‘looking information involves significant risks, uncertainties and assumptions. Certain material factors or assumptions have been applied in drawing the conclusions contained in the forward-looking information, including, without limitation: reasonable outcomes for legal and regulatory proceedings and the expectation of regulatory stability; the successful execution of the capital plan; no material capital project or financing cost overrun; sufficient human resources to deliver service and execute the capital plan; the realization of additional opportunities beyond the capital plan; no significant variability in interest rates; no material changes in the assumed U.S. dollar-to-Canadian dollar exchange rate; the continuation of current participation levels in the Corporation's DRIP; the Board exercising its discretion to declare dividends, taking into account the business performance and financial condition of the Corporation; no significant operational disruptions or environmental liability or upset; the continued ability to maintain the performance of the electricity and gas systems; no severe and prolonged economic downturn; sufficient liquidity and capital resources; the ability to hedge exposures to fluctuations in foreign exchange rates, natural gas prices and electricity prices; the continued availability of natural gas, fuel, coal and electricity supply; continuation of power supply and capacity purchase contracts; no significant changes in government energy plans, environmental laws and regulations that could have a material negative impact; maintenance of adequate insurance coverage; the ability to obtain and maintain licences and permits; retention of existing service areas; no significant changes in tax laws and the continued tax deferred treatment of earnings from the Corporation's foreign operations; continued maintenance of information technology infrastructure and no material breach of cybersecurity; continued favourable relations with Indigenous Peoples; and favourable labour relations.Fortis cautions readers that a number of factors could cause actual results, performance or achievements to differ materially from those discussed or implied in the forward-looking information. These factors should be considered carefully and undue reliance should not be placed on the forward-looking information. Risk factors which could cause results or events to differ from current expectations are detailed in the MD&A under the heading "Business Risks" and in other continuous disclosure materials filed from time to time with Canadian securities regulatory authorities and the SEC. All forward-looking information in this AIF is given as of the date of this AIF. Fortis disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise.2December 31, 2024Annual Information FormGLOSSARYCertain terms used in this 2024 Annual Information Form are defined below:2024 Annual Information Form or AIF: this annual information form of the Corporation in respect of the year ended DecemberÂ 31, 2024AECO/NIT: Alberta Energy Company/Nova Inventory TransferAitken Creek: Aitken Creek natural gas storage facilityAlgoma Power: Algoma Power Inc.APS: Arizona Public Service CompanyATM Program: at-the-market equity programAUC: Alberta Utilities CommissionBC Hydro: BC Hydro and Power AuthorityBCUC: British Columbia Utilities CommissionBelize Electricity: Belize Electricity LimitedBESS: battery energy storage systemBoard: Board of Directors of the CorporationCAGR: compound annual growth rate. The corporate head office and registered office of Fortis is located at Fortis Place, Suite 1100, 5Â Springdale Street, P.O.Â BoxÂ 8837, St.Â John's, Newfoundland and Labrador, Canada, A1BÂ 3T2. The articles of continuance of the Corporation were amended to: (i) change its name to Fortis on OctoberÂ 13,Â 1987; (ii) set out the rights, privileges, restrictions and conditions attached to the commonÂ shares on October 15, 1987; (iii) designate 2,000,000Â First Preference Shares, Series A on SeptemberÂ 11, 1990; (iv)Â replace the class rights, privileges, restrictions and conditions attaching to the First Preference Shares and the Second Preference Shares on July 22, 1991; (v) designate 2,000,000 First Preference Shares, Series B on DecemberÂ 13,Â 1995; (vi)Â designate 5,000,000 First Preference Shares, SeriesÂ C on MayÂ 27,Â 2003; (vii)Â designate 8,000,000 First Preference Shares, Series D and First Preference Shares, Series E on JanuaryÂ 23,Â 2004; (viii) amend the redemption provisions attaching to the First Preference Shares, Series D on July 15, 2005; (ix)Â designate 5,000,000 First Preference Shares, Series F on September 22, 2006; (x)Â designate 9,200,000 First Preference Shares, Series G on May 20, 2008; (xi) designate 10,000,000 First Preference Shares, SeriesÂ H and 10,000,000Â FirstÂ Preference Shares, Series I on January 20, 2010; (xii)Â designate 8,000,000Â First Preference Shares, Series J on November 8, 2012; (xiii)Â designate 12,000,000Â First Preference Shares, Series K and 12,000,000 First Preference Shares, SeriesÂ L on JulyÂ 11,Â 2013; and (xiv) designate 24,000,000Â First Preference Shares, SeriesÂ M and 24,000,000Â First Preference Shares, SeriesÂ N on SeptemberÂ 16,Â 2014. Inter-Corporate RelationshipsThe following table lists the principal subsidiaries of the Corporation, their jurisdictions of incorporation and the percentage of votes attaching to voting securities held directly or indirectly by the Corporation as at FebruaryÂ 13, 2025. The principal subsidiaries together comprise approximately 91% of the Corporation's consolidated assets as at DecemberÂ 31, 2024 and approximately 86% of the Corporation's 2024 consolidated revenue. This table excludes certain subsidiaries, the assets and revenues of which did not individually exceed 10%, or in the aggregate exceed 20%, of the total consolidated assets or total consolidated revenues of the Corporation as at DecemberÂ 31, 2024.SubsidiaryJurisdiction of IncorporationVotes attaching to voting securities beneficially owned, controlled or directed by the Corporation (%)ITC (1)Michigan, United States80.1UNS Energy (2)Arizona, United States100Central Hudson (3)New York, United States100FortisBC Energy (4)British Columbia, Canada100FortisAlberta (5)Alberta, Canada100Newfoundland Power (6)Newfoundland and Labrador, Canada100(1)ITC Holdings, a Michigan corporation, owns all of the shares of ITC Great Plains, ITC Midwest, ITCTransmission and METC. Fortis owns all of the shares of FortisCanada.(6)Fortis owns all the shares of Newfoundland Power.GENERAL DEVELOPMENT OF THE BUSINESSOverviewFortis is a well-diversified leader in the North American regulated electric and gas utility industry, with 2024 revenue of $12 billion and total assets of $73Â billion as at DecemberÂ 31, 2024. Regulated utilities account for virtually all of the Corporation's assets. The Corporation's 9,800 employees serve 3.5 million utility customers in five Canadian provinces, ten U.S. states and three Caribbean countries. As at DecemberÂ 31, 2024, 69% of the Corporation's assets were located outside Canada and 62% of 2024 revenue was derived from foreign operations. 5December 31, 2024Annual Information FormThree-Year HistoryOver the past three years, Fortis has continued to experience significant growth. Total assets have increased from $57.7 billion at the start of 2022 to $73.5Â billion as at DecemberÂ 31, 2024. Consolidated Capital Expenditures totalled $13.6 billion from 2022 through 2024, resulting in a three-year midyear rate base CAGR of 6.4%. The Corporation's shareholders' equity has also grown from $19.3 billion at the start of 2022 to $23.8 billion as at DecemberÂ 31, 2024. Common Equity Earnings for 2022 totalled $1,330 million compared to $1,606 million in 2024. The growth in earnings over the three-year period reflects the Corporation's regulated growth strategy, and is also impacted by the higher average U.S. dollar-to-Canadian dollar exchange rate in 2024 of 1.37 compared to 1.30 in 2022.An overview of the Corporation's performance for the past three years follows:2022The Corporation's utilities delivered reliable and safe service in 2022. In March 2022, the Corporation made progress on its commitment as a TCFD supporter with the release of its first TCFD and Climate Assessment Report. The report provided information on the Corporation's strategy and actions to combat climate change, identified new opportunities associated with decarbonization, and provided a guide for investment in resilient and adaptable infrastructure. In October 2022, Fortis announced its 2023-2027 capital plan of $22.3 billion, representing $2.3 billion of additional capital investment in comparison to the five-year capital plan released in 2021. The increase was driven by organic growth, largely reflecting regional transmission projects associated with the MISO LRTP at ITC, investments in Arizona to support TEP's exit from coal, and enhancements to distribution reliability and capacity, as well as investments to support customer growth, across the Corporation's utilities. Approximately $500 million of the increase was driven by a higher assumed U.S.-to-Canadian dollar exchange rate over the five-year period. 2023The Corporation reliably and safely delivered electricity and gas service. In September 2023, Fortis released its 2024-2028 capital plan of $25 billion, reflecting incremental capital investment of $2.7 billion over the previous five-year plan. The increase was driven by organic growth, largely reflecting regional transmission projects at ITC associated with tranche one of the MISO LRTP, as well as additional investments in Arizona to support TEPâ€™s exit from coal. Investments supporting system adaptation and resiliency, customer growth and economic development also contributed to capital growth across the Corporation's utilities.2024The Corporation continued to reliably and safely deliver electricity and gas service to its customers. In September 2024, Fortis released its 2025-2029 capital plan of $26.0 billion, representing 6.5% five-year rate base growth and reflecting incremental capital investment of $1.0Â billion over the previous five-year plan. The increase is driven by projects associated with the MISO LRTP and resiliency investments at ITC, as well as distribution investments largely due to customer growth at FortisAlberta. The five-year capital plan is expected to be funded primarily by cash from operations and regulated utility debt. Common equity proceeds are expected to be provided by the Corporation's DRIP, assuming current participation levels. The Corporation's $500 million ATM Program remains available and provides funding flexibility as required.Fortis has reduced its corporate-wide direct GHG emissions by 34% from a 2019 base year, and has targets to further reduce such GHG emissions by 50% by 2030 and 75% by 2035. The Corporation's additional 2050 net-zero direct GHG emissions target reinforces Fortis' commitment to further decarbonize over the long-term, while continuing our focus on reliability and affordability. The Corporation's ability to achieve the GHG targets may be impacted by federal, state and provincial energy policies, as well as external factors, including significant customer and load growth and the development of clean energy technology.The Corporation reported Common Equity Earnings of $1.6 billion in 2024, or $3.24 per common share, compared to $1.5 billion, or $3.10 per common share in 2023. The increase was primarily driven by rate base growth across Fortis' utilities and higher earnings in Arizona, largely reflecting new customer rates at TEP effective September 1, 2023 and higher production tax credits. New customer rates at Central Hudson including a higher allowed ROE effective July 1, 2024, and an unfavourable deferred income tax adjustment recognized by ITC in 2023 also contributed to earnings growth. The increase was partially offset by higher holding company finance costs, unrealized losses on derivative contracts, and a $10 million gain realized upon the disposition of Aitken Creek in 2023. The recognition of a refund liability at ITC in 2024 associated a the reduction in the MISO base ROE, largely reflecting the retroactive impact to prior periods, also unfavourably impacted earnings. In addition, an increase in the weighted average number of common shares outstanding related to the Corporation's DRIP impacted earnings per common share.Capital Expenditures in 2024 were $5.2 billion, consistent with expectations and $0.9 billion higher than 2023. The increase compared to 2023 was primarily due to investments associated with the Eagle Mountain Pipeline project at FortisBC Energy, expenditures on various transmission reliability projects at ITC, and construction of the Roadrunner Reserve battery storage projects at UNS Energy.6December 31, 2024Annual Information FormOutlookFortis continues to enhance shareholder value through the execution of its capital plan, the balance and strength of its diversified portfolio of regulated utility businesses, and growth opportunities within and proximate to its service territories. The Corporation's $26.0 billion five-year capital plan is expected to increase midyear rate base from $39.0Â billion in 2024 to $53.0Â billion by 2029, translating into a five-year CAGR of 6.5%. Beyond the five-year capital plan, opportunities to expand and extend growth include: further expansion of the electric transmission grid in the U.S. to support load growth and facilitate the interconnection of cleaner energy; transmission investments associated with the MISO LRTP tranches 1, 2.1 and 2.2 as well as regional transmission in New York; grid resiliency and climate adaptation investments; renewable gas solutions and LNG infrastructure in British Columbia; and the acceleration of load growth and cleaner energy infrastructure investments across our jurisdictions. Fortis expects its long-term growth in rate base will drive earnings that support dividend growth guidance of 4-6% annually through 2029, and is premised on the assumptions and material factors listed under "Forward-Looking Information". DESCRIPTION OF THE BUSINESSFortis is principally an energy delivery company, with 93% of its assets related to transmission and distribution. The business is characterized by low-risk, stable and predictable earnings and cash flows. The Corporation's regulated utility businesses are: ITC (electric transmission - Michigan, Iowa, Minnesota, Illinois, Missouri, Kansas, Oklahoma and Wisconsin); UNS

Energy (integrated electric and natural gas distribution - Arizona); Central Hudson (electric transmission and distribution, and natural gas distribution - New York State); FortisBC Energy (natural gas transmission and distribution - British Columbia); FortisAlberta (electric distribution - Alberta); FortisBC Electric (integrated electric - British Columbia); Newfoundland Power (integrated electric - Newfoundland and Labrador); Maritime Electric (integrated electric - Prince Edward Island); FortisOntario (integrated electric - Ontario); Caribbean Utilities (integrated electric - Grand Cayman); and FortisTCI (integrated electric - Turks and Caicos Islands). Fortis also holds equity investments in Wataynikaneyap Power (electric transmission - Ontario) and Belize Electricity (integrated electric - Belize). The Corporation's non-regulated business is limited to Fortis Belize (three hydroelectric generation facilities - Belize). Fortis has a unique operating model with a small corporate office in St. John's, Newfoundland and Labrador and business units that operate on a substantially autonomous basis. Each utility has its own management team and board of directors, with most having a majority of independent board members, which provides effective oversight within the broad parameters of Fortis policies and best practices. Subsidiary autonomy supports constructive relationships with regulators, policy makers, customers and communities. Fortis believes this model enhances accountability, opportunity and performance across the Corporation's businesses, and positions Fortis well for future investment opportunities. Fortis is focused on providing safe, reliable and cost-effective service to customers. Delivering a cleaner energy future is the Corporation's core purpose. In addition, management is focused on delivering long-term profitable growth for shareholders through the execution of its capital plan and the pursuit of investment opportunities within and proximate to its service territories.CompetitionMost of the Corporation's regulated utilities operate as the sole supplier of electricity and/or gas within their respective service territories. Competition in the regulated electric business is primarily from alternative energy sources and on-site generation by customers. The Corporation faces competition in its transmission business which may restrict its ability to grow this business outside of its established service territories. Challenges to existing right of first refusal statutes applicable to the transmission business may also restrict future growth. At the Corporation's regulated gas utilities, natural gas primarily competes with electricity for space and hot water heating load. In addition to other price comparisons, upfront capital cost differences between electric and natural gas equipment for hot water and space heating applications continue to present challenges for the competitiveness of natural gas on a fully-costed basis. As governments develop policies to address climate change, any resulting changes to energy policy may impact the competitiveness of natural gas relative to other energy sources. Specifically, government policy could impact the competitiveness of natural gas in British Columbia, which accounts for 79% of the Corporation's natural gas revenue. SeasonalityAs the Corporation's subsidiaries operate in various jurisdictions throughout North America, seasonality impacts each utility differently. Earnings of the Corporation's gas utilities tend to be highest in the first and fourth quarters due to space-heating requirements. Earnings for the electric distribution utilities in the U.S. tend to be highest in the second and third quarters due to the use of air conditioning and other cooling equipment. 7December 31, 2024Annual Information FormSummary of OperationsThe following table and sections describe the Corporation's operations and reportable segments.CustomersPeak Demand (1)Electric T&D Lines (circuit km)Gas T&D Lines (km)Generating Capacity (MW)Revenue($ millions)GWh SalesGas Volumes (PJ)EmployeesRegulated

ITC's Regulated Operating Subsidiaries own and operate high-voltage electric transmission systems in Michigan's Lower Peninsula and portions of Iowa, Minnesota, Illinois, Missouri, Kansas, Oklahoma and Wisconsin that transmit electricity from generating stations to local distribution facilities connected to ITC's transmission systems.The primary operating responsibilities of ITC's Regulated Operating Subsidiaries include maintaining, improving and expanding transmission systems to meet their customersâ€™ ongoing needs, managing and scheduling maintenance and construction, maintaining appropriate system voltagesÂ andÂ monitoring flows over transmission lines and other facilities to ensure physical limits are not exceeded. ITC owns and operates approximately 26,100 circuit km of transmission lines. ITC's Regulated Operating Subsidiaries earn revenues from the use of their transmission systems by customers, including investor-owned utilities, municipalities, cooperatives, power marketers and alternative energy suppliers. As independent transmission companies, ITC's Regulated Operating Subsidiaries are subject to rate regulation by FERC. The rates charged are established using cost-based formula rates.ITC's principal transmission service customers are DTE, CMS and IPL. These customers, individually and together, have consistently represented a significant percentage of ITC's operating revenues. Nearly all of ITC's revenues are from transmission customers in the U.S.Market and SalesRevenuesITC's revenue was $2,229 million in 2024 compared to $2,085 million in 2023.ITC derives nearly all of its revenues from transmission, scheduling, control and dispatch services and other related services over ITC's Regulated Operating Subsidiaries' transmission systems to DTE, CMS, IPL and other entities, such as alternative energy suppliers, power marketers and other wholesale customers that provide electricity to end-use customers, as well as from transaction-based capacity reservations on ITC's transmission systems. MISO and SPP are responsible for billing and collecting the majority of transmission service revenues. As the billing agents for ITC's MISO Regulated Operating Subsidiaries and ITC Great Plains, MISO and SPP collect fees for the use of ITC's transmission systems, invoicing DTE, CMS, IPL and other customers on a monthlyÂ basis.8December 31, 2024Annual Information FormThe following table compares the composition of ITC's 2024 and 2023 revenue by customer class.Revenue (%) 20242023Network revenues72.3Â 70.7Â Regional cost-sharing revenues24.7Â 24.8Â Point-to-point1.3Â 1.2Â Scheduling, control and dispatch1.1Â 1.3Â Other0.6Â 2.0Â Total100.0Â 100.0Â Network revenues are generated from network customers for their use of ITC's electric transmission systems and are based on the actual revenue requirements under its cost-based formula rates that contain a true-up mechanism. Network revenues from ITC Great Plains include the annual revenue requirements specific to projects that are charged exclusively within one pricing zone within SPP or are classified as direct assigned network upgrades under the SPP tariff and contain a true-up mechanism.Regional cost-sharing revenues are generated from transmission customers throughout RTO regions for their use of ITC's MISO Regulated Operating Subsidiaries' network upgrade projects that are eligible for regional cost-sharing under provisions of the MISO tariff. Additionally, certain projects at ITC Great Plains are eligible for recovery through a region-wide charge under provisions of the SPP tariff. Regional cost-sharing revenues are treated as a reduction to the net network revenue requirement under ITC's cost-based formula rates.Point-to-point revenues consist of revenues generated from a type of transmission service for which the customer pays for transmission capacity reserved along a specified path between two points on an hourly, daily, weekly or monthly basis. Point-to-point revenues also include other components pursuant to schedules under the MISO and SPP transmission tariffs. Point-to-point revenues are treated as a revenue credit to network or regional customers and are a reduction to the gross revenue requirement when calculating the net revenue requirement under ITC's cost-based formulaÂ rates.Scheduling, control and dispatch revenues are allocated to ITC's MISO Regulated Operating Subsidiaries by MISO as compensation for the services performed in operating the transmission system. Such services include monitoring of reliability data, current and next-day analysis, implementation of emergency procedures and outage coordination andÂ switching.Other revenues consist of rental revenues, easement revenues, revenues relating to use of jointly-owned assets under ITC's transmission ownership and operating agreements and revenues from providing ancillary services to customers. Other revenues for 2024 also include the recognition of a refund liability associated with a reduction in the MISO base ROE, largely reflecting the retroactive impact to prior periods, as approved by FERC in October 2024. The majority of other revenues is treated as a revenue credit and taken as a reduction to the gross revenue requirement when calculating the net revenue requirement under ITC's cost-based formula rates.ContractsITCTransmissionDTE operates an electric distribution system that is interconnected with ITCTransmission's transmission system. A set of three operating contracts sets forth the terms and conditions related to DTE's and ITCTransmission's interconnected systems. These contracts include:Master Operating Agreement - governs the primary day-to-day operational responsibilities of ITCTransmission and DTE. It identifies the control area coordination services that ITCTransmission is obligated to provide to DTE and certain generation-based support services that DTE is required to provide to ITCTransmission.Generator Interconnection and Operation Agreement - established and maintains the direct electricity interconnection of DTE's electricity generating assets with ITCTransmission's transmission system for the purposes of transmitting electric power from and to the electricity generating facilities. Coordination and Interconnection Agreement - governs the rights, obligations and responsibilities of ITCTransmission and DTE regarding, among other things, the operation and interconnection of DTE's distribution system and ITCTransmission's transmission system and the construction of new facilities or modification of existing facilities. Additionally, this agreement allocates costs for operation of supervisory, communications and metering equipment. METCCMS operates an electric distribution system that interconnects with METC's transmission system. METC is a party to a number of operating contracts with CMS that govern the operations and maintenance of its transmission system. These contracts include:Amended and Restated Easement Agreement - CMS provides METC with an easement to the land on which a majority of METC's transmission towers, poles, lines and other transmission facilities used to transmit electricity for CMS and others are located. METC pays CMS an annual rent for the easement and also pays for any rentals, property taxes and other fees related to the property covered by the agreement. 9December 31, 2024Annual Information FormAmended and Restated Operating Agreement - METC is responsible for maintaining and operating its transmission system, providing CMS with information and access to its transmission system and related books and records, administering and performing the duties of control area operator (that is, the entity exercising operational control over the transmission system) and, if requested by CMS, building connection facilities necessary to permit interaction with new distribution facilities built by CMS. Amended and Restated Purchase and Sale Agreement for Ancillary Services - Since METC does not own any generating facilities, it must procure ancillary services from third-party suppliers, such as CMS. Currently, under this agreement, METC pays CMS for providing certain generation-based services necessary to support the reliable operation of the bulk power grid, such as voltage support and generation capability and capacity to balance loads and generation.Amended and Restated Distribution-Transmission Interconnection Agreement - provides for the interconnection of CMS' distribution system with METC's transmission system and defines the continuing rights, responsibilities and obligations of the parties with respect to the use of certain of their respective property, assets and facilities.Amended and Restated Generator Interconnection Agreement - specifies the terms and conditions under which CMS and METC maintain the interconnection of CMS' generation resources and METC's transmission assets. ITC MidwestIPL operates an electric distribution system that interconnects with ITC Midwest's transmission system. ITC Midwest is a party to a number of operating contracts with IPL that govern the operations and maintenance of their respective systems. These contracts include:Distribution-Transmission Interconnection Agreement - governs the rights, responsibilities and obligations of ITC Midwest and IPL with respect to the use of certain of their respective property, assets and facilities and the construction of new facilities or modification of existing facilities. Large Generator Interconnection Agreement - ITC Midwest, IPL and MISO entered into this agreement in order to establish and maintain the direct electricity interconnection of IPL's electricity generating assets with ITC Midwest's transmission system for the purposes of transmitting electric power from and to the electricity generating facilities.UNS EnergyUNS Energy is a vertically integrated utility services holding company, headquartered in Tucson, Arizona. It is engaged through its subsidiaries in the regulated electric generation and energy delivery business, primarily in the State of Arizona, serving approximately 727,000 retail electricity and gas customers. UNS Energy primarily consists of three wholly owned regulated utilities: TEP, UNSÂ Electric and UNSÂ Gas.TEP is a vertically integrated regulated electric utility that generates, transmits and distributes electricity. TEP serves approximately 452,000 retail customers in a territory comprising approximately 2,991 square km in southeastern Arizona, including the greater Tucson metropolitan area. TEP also sells wholesale electricity to other entities in the western U.S.UNS Electric is a vertically integrated regulated electric utility that generates, transmits and distributes electricity to approximately 105,000 retail customers in southeastern Arizona.TEP and UNS Electric own generation resources with an aggregate capacity of 3,442Â MW, including 318 MW of renewable resources. Several of the generating assets in which TEP and UNSÂ Electric have an interest are jointly owned. As at DecemberÂ 31, 2024, approximately 26% of the generating capacity was fueled by coal.TEP also owns transmission-related assets representing approximating 14% of UNS Energy's total assets.UNS Gas is a regulated gas distribution utility that serves approximately 170,000 retail customers in northern and southern Arizona.Market and SalesUNS Energy's electricity sales were 16,680 GWh in 2024 compared to 16,173 GWh in 2023. Gas volumes were 17 PJ in 2024, consistent with 2023. Revenue was $3,007Â million in 2024 compared to $3,006 million in 2023. The following table provides the composition of UNS Energy's 2024 and 2023 revenue, electricity sales, and gas volumes by customer class.Revenue (%)GWh Sales (%)PJ Volumes

Gas volumes include negotiated sales program customers.10December 31, 2024Annual Information FormPower SupplyTEP meets the electricity supply requirements of its retail and wholesale customers with its owned electrical generating capacity of 3,126 MW and its transmission and distribution system consisting of approximately 16,000 circuit km of line. In 2024, TEP met a peak demand of 2,764 MW, which includes firm sales to wholesale customers. TEP is a member of a regional reserve-sharing organization and has reliability and power sharing relationships with other utilities. TEP's generating capacity is set forth in the following table.Generation SourceUnit No.LocationDate in ServiceTotal Capacity (MW)Operating AgentTEP's Share (%)TEP's Share (MW)CoalSpringerville Station1Springerville, AZ1985387Â TEP100.0Â 387Â Springerville Station (1)2Springerville, AZ1990406Â TEP100.0Â 406Â Four Corners Station4Farmington, NM1969785Â APS7.0Â 55Â Four Corners Station5Farmington, NM1970785Â APS7.0Â 55Â Natural GasGila River Power Station (2)2Gila Bend, AZ2003607Â SRP100.0Â 607Â Gila River Power Station (2) (3)3Gila Bend, AZ2003607Â SRP75.0Â 455Â Luna Generating Station1Deming, NM2006555Â PNM33.3Â 185Â Sundt Station3Tucson, AZ1962104Â TEP100.0Â 104Â Sundt Station4Tucson, AZ1967156Â TEP100.0Â 156Â Sundt Internal Combustion TurbinesTucson, AZ1972-197350Â TEP100.0Â 50Â Sundt Reciprocating Internal Combustion Engine (3)1-10Tucson, AZ2019-2020188Â TEP100.0Â 188Â DeMoss Petrie (4)N/ATucson, AZ200175Â TEP100.0Â 75Â North LoopN/ATucson, AZ200196Â TEP100.0Â 96Â RenewableUtility-Owned RenewablesVarious2002-2023307Â TEP100.0Â 307Â Total Capacity3,126Â (1)Springerville Generating Station Unit 2 is owned by San Carlos Resources Inc., a wholly owned subsidiary of TEP.(2)In January 2024, upgrades to Gila River Unit 3 increased capacity by 34 MW, for a total nominal capacity of 607 MW. (3)TEP owns 75% of Gila River Unit 3 and UNS Electric owns 25%.(4)Demoss Petrie is accompanied by 10 MW of battery storage.UNS Electric meets the electricity supply requirements of its retail customers with its owned electrical generating capacity of 316 MW and purchasing power on the wholesale market, and its transmission and distribution system consisting of approximately 7,000 circuit km of line. In 2024, UNS Electric met a peak demand of 527Â MW.UNS Electric's generating capacity is set forth in the following table.Generation SourceUnit No.LocationDate In ServiceResource TypeTotal Capacity (MW)Operating AgentUNSE's Share (%)UNSE's Share (MW)Black Mountain1Kingman, AZ2011Gas45Â UNSE100.0Â 45Â Black Mountain2Kingman, AZ2011Gas45Â UNSE100.0Â 45Â Valencia1Nogales, AZ1989Gas/Oil14Â UNSE100.0Â 14Â Valencia2Nogales, AZ1989Gas/Oil14Â UNSE100.0Â 14Â Valencia3Nogales, AZ1989Gas/Oil14Â UNSE100.0Â 14Â Valencia4Nogales, AZ2006Gas/Oil21Â UNSE100.0Â 21Â Gila River Power Station (1)3Gila Bend, AZ2003Gas607Â SRP25.0Â 152Â Utility-Owned RenewablesN/AVarious2011-2017Solar11Â UNSE100.0Â 11Total Capacity316Â (1)Â Â Â Â In January 2024, upgrades to Gila River Unit 3 increased capacity by 34 MW for a total nominal capacity of 607 MWUtility-Owned Renewable and Battery ResourcesTEP owns 307 MW of renewable generation resources, has 3 MW of solar generation resources under development and two-200 MW battery storage projects under development at its BESS Facility with planned 2025 and 2026 in-service dates. UNS Electric owns 11 MW of solar generation capacity.11December 31, 2024Annual Information FormRenewable and Battery Storage Power Purchase AgreementsTEP has renewable PPAs of 256 MW from solar resources and 179 MW from wind resources. The solar PPAs contain options that allow TEP to purchase all or part of the related facilities at a future date. The Babacomari North, Wilmot II and the Winchester solar facilities are expected to be placed in service in 2025, 2026 and 2027, respectively, and are expected to add 340Â MW to TEP's renewable capacity. UNS Electric has renewable PPAs of 83 MW from solar resources and 10 MW from wind resources. TEP has PPAs for battery storage of 40 MW located on renewable sites, with 180 MW of battery storage under development at Wilmot II and Winchester.Gas PurchasesTEP and UNS Gas directly manage their gas supply and transportation contracts. The price for gas varies based on market conditions,

which include weather, supply balance, economic growth rates and other factors. TEP and UNS Gas hedge their gas supply prices by entering into fixed-price forward contracts, collars and financial swaps from time to time, up to three years in advance, with a view to hedging 70-90% of expected monthly energy volumes prior to the beginning of each month.UNS Gas met peak demand of 114 TJ in 2024. Central HudsonCentral Hudson is a regulated electric and gas transmission and distribution utility serving approximately 315,000 electricity customers and 90,000 natural gas customers in portions of New York State's Mid-Hudson RiverÂ Valley. Central Hudson serves a territory of approximately 6,700 square km. Electric service is available throughout the territory, and natural gas service is provided in and around the cities of Poughkeepsie, Beacon, Newburgh and Kingston, NewÂ York, and in certain outlying and intervening territories.Central Hudson's electric transmission and distribution system consists of approximately 15,300 circuit km of line and met a peak demand of 1,103 MW in 2024.Central Hudson's natural gas system consists of approximately 2,400 km of T&D pipelines and met a peak demand of 137 TJ in 2024.Market and SalesCentral Hudson's electricity sales were 5,060 GWh in 2024 compared to 4,921 GWh in 2023. Natural gas sales volumes were 25 PJ in 2024 compared to 24Â PJ in 2023. Revenue was $1,372 million in 2024 compared to $1,360Â million in 2023. The following table compares the composition of Central Hudson's 2024 and 2023 revenue, electricity sales and natural gas volumes by customer class.Revenue (%)GWh Sales (%)PJ Volumes (%)20242023202420232024202320242023Residential63.1Â 61.9Â 42.9Â 42.6Â 22.3Â 22.1Â Commercial30.0Â 29.4Â 39.7Â 39.4Â 28.7Â 28.3Â Industrial4.6Â 3.8Â 16.6Â 17.5Â 42.5Â 42.6Â Wholesale (1)0.9Â 1.2Â 0.8Â 0.5Â 6.5Â 7.0Â Other (2)1.4Â 3.7Â â€”Â â€”Â â€”Â â€”Â Total100.0Â 100.0Â 100.0Â 100.0Â 100.0Â 100.0Â (1)Includes sales for resale.(2)Other includes regulatory deferrals and revenue from sources other than from the sale of gas and electricity. Power SupplyCentral Hudson relies on purchased capacity and energy from third-party providers, together with its own minimal generating capacity, to meet the demands of its full-service customers.Costs of electric and natural gas commodity purchases are recovered from customers, without earning a profit on these costs. Rates are reset monthly based on Central Hudson's actual costs to purchase the electricity and natural gas needed to serve its full-service customers.FortisBC EnergyFortisBC Energy is the largest distributor of natural gas in British Columbia, serving approximately 1,098,000 residential, commercial, industrial, and transportation customers. FortisBC Energy provides transmission and distribution services to customers and obtains natural gas and renewable gas supplies on behalf of most of its residential, commercial and industrial customers. Gas supplies are sourced primarily from northeastern British Columbia and, through FortisBC Energy's Southern Crossing Pipeline, from Alberta. FortisBC Energy owns and operates approximately 51,700 km of natural gas pipelines and met a peak demand of 1,705Â TJ in 2024.12December 31, 2024Annual Information FormMarket and SalesFortisBC Energy's natural gas sales volumes were 220Â PJ in 2024 compared to 213 PJ in 2023. Revenue was $1,665 million in 2024 compared to $1,955Â million inÂ 2023.The following table compares the composition of FortisBC Energy's 2024 and 2023 revenue and natural gas volumes by customer class.Revenue (%)PJ Volumes (%)20242023202420232024202320242023Residential56.6Â 56.2Â 35.4Â 36.2Â Commercial30.6Â 32.3Â 25.9Â 26.3Â Industrial8.0Â 7.4Â 11.4Â 9.4Â Other (1)4.8Â 4.1Â 27.3Â 28.1Â Total100.0Â 100.0Â 100.0Â 100.0Â (1)Includes revenue and gas volumes from transportation customers. Due to the nature of transportation contracts, the percentage of revenue by customer category may not correlate with associated volumes. Gas Purchase AgreementsTo ensure supply of adequate resources for reliable natural gas deliveries to its customers, FortisBC Energy purchases natural gas supply from counterparties, including producers, aggregators and marketers. FortisBC Energy contracts for approximately 184 PJ of baseload and seasonal supply, of which the majority is sourced in northeastern British Columbia and transported on Westcoast Energy Inc.'s Tâ€‘South pipeline system. The remainder is sourced in Alberta and transported on TC Energy's pipeline transportation system. FortisBC Energy purchased approximately 2.7 PJs of RNG in 2024.FortisBC Energy procures and delivers natural gas directly to core market customers. Transportation customers are responsible to procure and deliver their own natural gas to the FortisBC Energy system and FortisBC Energy then delivers the gas to the operating premises of these customers. FortisBC Energy contracts for transportation capacity on third-party pipelines, such as the Tâ€‘South pipeline and the TC Energy pipeline, to transport gas supply from various market hubs to FortisBC Energy's system. These third-party pipelines are regulated by the Canada Energy Regulator. FortisBC Energy pays both fixed and variable charges for the use of transportation capacity on these pipelines, which are recovered through rates paid by FortisBC Energy's core market customers. FortisBC Energy contracts for firm transportation capacity to ensure it is able to meet its obligation to supply customers within its broad operating region under all reasonable demandÂ scenarios.Gas Storage and Peak Shaving ArrangementsFortisBC Energy incorporates peak shaving and gas storage facilities into its portfolioÂ to: (i) supplement contracted base load and seasonal gas supply in the winter months, while injecting excess base load supply to refill storage in the summer months; (ii) mitigate the risk of supply shortages during cooler weather and peak demand; (iii) manage the cost of gas during the winter months; and (iv)Â balance daily supply and demand on the distribution system during periods of peak use that occur during the winter months.FortisBC Energy holds approximately 37 PJs of total storage capacity.Â FortisBC Energy owns Tilbury and Mount Hayes LNG peak shaving facilities, which provide on-system storage capacity and deliverability. FortisBC Energy also contracts for underground storage capacity and deliverability from parties in northeastern British Columbia, Alberta and the Pacific Northwest of the U.S. On a combined basis, FortisBC Energy's Tilbury and Mount Hayes facilities, the contracted storage facilities and other peaking arrangements can deliver up to 0.82Â PJs per day of supply to FortisBC Energy on the coldest days of the heating season. The heating season typically occurs during the period from December to February.Mitigation ActivitiesFortisBC Energy engages in off-system sales activities that allow for the recovery or mitigation of costs of any unutilized supply and/or pipeline and storage capacity that is available once customers' daily load requirements are met.Under the Gas Supply Mitigation Incentive Plan revenue sharing model approved by the BCUC, FortisBC Energy can earn an incentive payment for mitigation activities. Subject to the BCUC's approval, FortisBC Energy earned an incentive payment of approximately $3.9 million for the gas contract year ending October 31, 2024.The BCUC has approved extensions of the program through OctoberÂ 31,Â 2025. Price-Risk Management PlanFortisBC Energy engages in price-risk management activities to mitigate the impact on customer rates of fluctuations in natural gas prices. These activities include: (i) physical gas purchasing and storage strategies; (ii) quarterly commodity rate-setting and a deferral account mechanism; and (iii) the use of derivative instruments, which were implemented pursuant to a price-risk management plan approved by the BCUC, as discussed below.For the April 2024 to March 2028 period, FortisBC Energy has implemented fixed price AECO/NIT hedges to mitigate the impact of rising prices at the AECO/NIT market hub and provide increased pricing diversity to the commodity supply portfolio. FortisBC Energy's AECO/NIT Price Risk Mitigation Application was approved by the BCUC in June 2023.13December 31, 2024Annual Information FormUnbundlingA Customer Choice program at FortisBC Energy allows eligible commercial and residential customers to buy their natural gas commodity supply from FortisBC Energy or from third-party marketers. FortisBC Energy continues to provide the delivery service of the natural gas to all its customers. In 2024, approximately 9% of eligible commercial customers and 4% of eligible residential customers purchased their commodity supply from alternate providers.FortisAlbertaFortisAlberta is a regulated electricity distribution utility operating in Alberta. Its business is the ownership and operation of electric distribution facilities that distribute electricity, generated by other market participants, from high-voltage transmission substations to end-use customers. FortisAlberta is not involved in the generation, transmission or direct retail sale of electricity. FortisAlberta operates the electricity distribution system in a substantial portion of southern and central Alberta around and between the cities of Edmonton and Calgary, totalling approximately 91,100 circuit km of distribution lines. FortisAlberta's distribution network serves approximately 603,000 customers and met a peak demand of 2,867 MW in 2024.Market and SalesFortisAlberta's energy deliveries were 17,324 GWh in 2024 compared to 16,976 GWh in 2023. Revenue was $817 million in 2024 compared to $738Â million in 2023.The following table compares the composition of FortisAlberta's 2024 and 2023 revenue and energy deliveries by customer class. Revenue (%)GWh Deliveries (%) (1)20242023202420232024202320242023Residential44.3Â 43.7Â 28.2Â 28.6Â Commercial24.8Â 25.4Â 13.3Â 13.6Â Industrial18.2Â 18.3Â 58.5Â 57.8Â Other (2)12.7Â 12.6Â â€”Â â€”Â Total100.0Â 100.0Â 100.0Â 100.0Â (1)GWh percentages exclude FortisAlberta's GWh deliveries to "transmission-connected" customers. These deliveries were 6,906 GWh in 2024 and 6,571 GWh in 2023 and consisted primarily of energy deliveries to large-scale industrial customers directly connected to the transmission grid.(2)Includes rate riders, deferrals and adjustments.Franchise AgreementsFortisAlberta customers located within a city, town, village or summer village boundary are served under franchise agreements between FortisAlberta and the respective customers' municipality of residence. FortisAlberta maintains standard franchise agreements with many municipalities throughout Alberta. Any franchise agreement that is not renewed at the expiry of the term continues in effect until either FortisAlberta or the municipality terminates it with the approval of the AUC. The Municipal Government Act (Alberta) provides municipalities an option to purchase FortisAlberta assets located within their municipal boundaries upon termination of a franchise agreement. FortisAlberta must be compensated if a franchise agreement is terminated, and the municipality subsequently exercises its option to purchase FortisAlberta distribution assets. In such a case, compensation would likely be determined based on a methodology approved by the AUC.FortisAlberta holds franchise agreements with 163 municipalities within its service area. The franchise agreements include 10â€‘year terms with an option to renew for up to two subsequent five-year terms. Notices to extend the franchise agreements expiring in 2025 have been or will be provided to affected municipalities prior to expiration.FortisBC ElectricFortisBC Electric is an integrated regulated electric utility that owns hydroelectric generating plants, high voltage transmission lines and a large network of distribution assets located in the southern interior of British Columbia. FortisBC Electric serves approximately 195,000 customers and met a peak demand of 818Â MW in 2024. FortisBC Electric's transmission and distribution assets include approximately 7,400 circuitÂ km of T&D lines.FortisBC Electric is also responsible for operation, maintenance and management services at the 493â€‘MW Waneta hydroelectric generating facility owned by BC Hydro and theÂ 340â€‘MWÂ Waneta Expansion, the 149-MW Brilliant hydroelectric plant, the 120â€‘MW Brilliant hydroelectric expansion plant and the 185-MW Arrow Lakes generating station, all ultimately owned by Columbia Basin Trust and Columbia Power Corporation.Market and SalesElectricity sales were 3,513Â GWh in 2024 compared to 3,478 GWh in 2023. Revenue was $545Â million in 2024 compared to $528Â million in 2023.14December 31, 2024Annual Information FormThe following table compares the composition of FortisBC Electric's 2024 and 2023 revenue and electricity sales by customer class.Revenue (%)GWh Sales (%)20242023202420232024202320242023Residential48.4Â 48.9Â 37.6Â 37.9Â Commercial26.6Â 27.0Â 28.7Â 29.2Â Industrial12.1Â 11.3Â 16.7Â 16.0Â Wholesale12.9Â 12.8Â 17.0Â 16.9Â Total100.0Â 100.0Â 100.0 and Power SupplyFortisBC Electric meets the electricity supply requirements of its customers through a mix of its own generation and PPAs. FortisBC Electric owns four regulated hydroelectric generating plants on the Kootenay River with an aggregate capacity of 225Â MW, which provide approximately 41% of its energy needs and 25% of its peak capacity needs. FortisBC Electric meets the balance of its requirements through a portfolio of long-term and short-term PPAs.FortisBC Electric's four hydroelectric generating facilities are governed by the multiparty CPA that enables the five separate owners of nine major hydroelectric generating plants, with a combinedÂ capacity of approximately 1,900Â MW and located in relatively close proximity to each other, toÂ coordinate the operation and dispatch of their generatingÂ plants.The following table lists the plants and their respective capacity and owner.PlantCapacity(MW)OwnersCanal Plant580Â BC HydroWaneta Dam493Â BC HydroWaneta Expansion340Â Waneta Expansion Power CorporationKootenay River System225Â FortisBC ElectricBrilliant Dam149Â Brilliant Power CorporationBrilliant Expansion120Â Brilliant Expansion Power CorporationTotal1,907Â Brilliant Power Corporation, Brilliant Expansion Power Corporation, Teck Metals Ltd., Waneta Expansion Power Corporation and FortisBC Electric are collectively defined in the CPA as the entitlementÂ parties. The CPA enables BC Hydro and the entitlement parties to generate more power from their respective generating plants than they could if they operated independently through coordinated use of water flows, subject to the 1961 Columbia River Treaty between Canada and the U.S., and coordinated operation of storage reservoirs and generating plants. Under the CPA, BCÂ Hydro takes into its system all power actually generated by the plants listed in the table above. In exchange for permitting BC Hydro to determine the output of these facilities, each of the entitlementÂ parties is contractually entitled to a fixed annual entitlement of capacity and energy from BCÂ Hydro, which is based on 50-year historical water flows and the plants' generating capabilities. The entitlementÂ parties receive their defined entitlements irrespective of actual water flows to the entitlementÂ parties' generating plants. BCÂ Hydro enjoys the benefits of the additional power generated through coordinated operation and optimal use of water flows. The entitlement parties benefit by knowing years in advance the amount of power that they will receive from their generating plants and, therefore, do not face hydrology variability in generation supply planning. However, FortisBC Electric retains rights to its original water licences and flows in perpetuity. Should the CPA be terminated, the output of FortisBC Electric's Kootenay River system plants would, with the water and storage authorized under its existing licences and on a longâ€‘term average, be approximately the same power output as FortisBC Electric receives under the CPA. The CPA does not affect FortisBC Electric's ownership of its physical generation assets. The CPA continues in force until terminated by any of the parties by giving no less than five years' notice at any time on or after DecemberÂ 31,Â 2030.FortisBC Electric's remaining electricity supply is acquired primarily through long-term PPAs with a number of counterparties, including the Brilliant PPA, the BC Hydro PPA and the Waneta Expansion Capacity Agreement. Additionally, FortisBC Electric purchases capacity and energy from the market to meet its peak energy requirements and optimize its overall power supply portfolio. These market purchases provided approximately 11% of FortisBC Electric's energy supply requirements in 2024. FortisBCÂ Electric's PPAs and market purchases have been accepted by the BCUC and prudently incurred costs thereunder flow through to customers through FortisBCÂ Electric's electricity rates. Other ElectricOther Electric consists of utilities in eastern Canada and the Caribbean as follows: Newfoundland Power; MaritimeÂ Electric; FortisOntario; a 39% equity investment in Wataynikaneyap Power; an approximate 60% controlling interest in Caribbean Utilities; FortisTCI; and a 33% equity investment in BelizeÂ Electricity.15December 31, 2024Annual Information FormNewfoundland Power is an integrated regulated electric utility and the principal distributor of electricity on the island portion of Newfoundland and Labrador. MaritimeÂ Electric is an integrated regulated electric utility and the principal distributor of electricity on PEI. FortisOntario provides integrated electric utility service through its three regulated operating utilities primarily in FortÂ Erie, Port Colborne, Cornwall, Gananoque, and the District of Algoma in Ontario. Wataynikaneyap Power is a transmission company majority-owned by 24 First Nations communities (51%), in partnership with FortisOntario (39%) and Algonquin Power & Utilities Corp. (10%). The 1,800 KM Wataynikaneyap Power transmission line was completed in the second quarter of 2024 and will connect 17 remote First Nations communities to the Ontario power grid.Caribbean Utilities is an integrated regulated electric utility and the sole provider of electricity on Grand Cayman, Cayman Islands. FortisTCI is an integrated regulated electric utility on the Turks and Caicos Islands. Belize Electricity is an integrated electric utility and the principal distributor of electricity in Belize. Both Wataynikaneyap Power and Belize Electricity are excluded from the following discussion as Fortis holds minority interests in these entities. The following table sets out the customers, installed generating capacity, peak demand and kilometers of transmission and distribution lines for the segment.CustomersPeak Demand (MW)T&D Lines (circuit km)Generating Capacity (MW)Resource Type(s)Newfoundland Power277,000Â 1,510Â 11,600Â 145Â Hydroelectric, Gas, DieselMaritime Electric91,000Â 313Â 7,000Â 90Â DieselFortisOntario (1)70,000Â 268Â 3,400Â 3Â Natural Gas CogenerationCaribbean Utilities (2)35,000Â 128Â 800Â 166Â DieselFortisTCI18,000Â 46Â 700Â 99Â Diesel, SolarTotal491,000Â 2,265Â 23,500Â 503Â (1)Â Â Â Â FortisOntario also owns a 10% interest in certain regional electric distribution companies serving approximately 40,000Â customers. (2)Â Â Â Â Includes 24 km of high-voltage submarine cable.Market and SalesElectricity sales attributable to Other Electric were 9,879 GWh in 2024 compared to 9,753 GWh in 2023. Revenue was $1,838Â million in 2024 compared to $1,761 million in 2023.The following table compares the composition of revenue and electricity sales by customer class for Other Electric in 2024 and 2023.Revenue (%)GWh Sales (%)20242023202420232024202320242023Residential55.7Â 56.4Â 56.9Â 56.8Â Commercial37.2Â 37.6Â 40.0Â 39.9Â Industrial1.8Â 1.8Â 2.6Â 2.7Â Other (1)5.3Â 4.2Â 0.5Â 0.6Â Total100.0Â 100.0Â 100.0Â 100.0Â (1)Â Â Â Â Includes revenue from sources other than from the sale of electricity.Power SupplyNewfoundland PowerApproximately 93% of Newfoundland Power's energy requirements are purchased from NL Hydro with the remaining 7% generated by Newfoundland Power. The principal terms of the supply arrangements with NLÂ Hydro are regulated by the PUB on a basis similar to that upon which Newfoundland Power's service to its customers is regulated.NL Hydro charges NewfoundlandÂ Power for purchased power and includes charges for both demand and energy purchased. The demand charge is based on the peak billing demand for the most recent winter season. The existing energy charge is a two-block charge with a higher second block charge set to reflect NL Hydro's marginal cost of generating electricity. On January 16, 2025, the PUB approved the Corporation and NL Hydro's applications to establish a new wholesale rate effective January 1, 2025. The new wholesale rate structure will continue as a two-block charge, with a lower second block charge reflecting NL Hydro's current marginal energy costs based on energy exports. 16December 31, 2024Annual Information FormEnergy from the Muskrat Falls project supplies a significant portion of NL Hydro's electricity requirements and, in turn, Newfoundland Power's electricity requirements. All units of NL Hydro's Muskrat Falls generating facility have been released for service. In October 2022, NL Hydro filed an updated study with the PUB recommending, among other things, that its 490 MW Holyrood Thermal Generating Station remain operational until 2030 as backup generation in the event of an extended outage to the Labrador Island Link. The Government of Newfoundland and Labrador announced the finalization of its rate mitigation plan in respect of the Muskrat Falls project in May 2024. The plan came into effect on JulyÂ 1,Â 2024 and limits annual domestic customer rate increases associated with the Muskrat Falls project

and NL Hydroâ€™s operations to 2.25% until 2030. The impact of the Muskrat Falls project on customer rates beyond 2030 remains uncertain. Maritime ElectricMaritime Electric is interconnected to the Province of New Brunswick via four provincially owned submarine cables with a total capacity of 560 MW. The company purchases its energy requirements through energy purchase agreements with NBÂ Power, a New Brunswick Crown corporation, and from renewable energy facilities owned by the PEI Energy Corporation. Company-owned on-island generation facilities totalling 90 MW are used primarily for peaking, submarine-cable loading issues and emergency purposes.Maritime Electric has the following contracts with NB Power: (i) an energy supply agreement covering the period March 1, 2019 to DecemberÂ 31, 2026; (ii)Â a transmission capacity contract allowing MaritimeÂ Electric to reserve 30Â MW of capacity to PEI expiring NovemberÂ 2032; and (iii) an entitlement agreement for approximately 4.55% of the output from NB Power's Point Lepreau Nuclear Generating Station for the life of the unit. Maritime Electric also has several renewable energy contracts with the PEI Energy Corporation for the purchase of energy for remaining periods ranging from one to 15 years. As part of its entitlement agreement relating to the output of the Point Lepreau Nuclear Generating Station, Maritime Electric is required to pay its share of the unit's capital and operating costs. FortisOntarioThe power requirements of FortisOntario's service territories are met through various sources. CanadianÂ Niagara Power purchases all its power requirements for Fort Erie and Port Colborne from the IESO, purchases approximately 79% of energy requirements for the Gananoque region from Hydro One Networks Inc. and purchases the remaining 21% from fiveÂ hydroelectric generating plants owned by EOÂ GenerationÂ LP. Algoma Power purchases its energy requirements primarily from the IESO. Under the Ontario Energy Board's Standard Supply Code, Canadian Niagara Power and AlgomaÂ Power must provide standard service supply to all its customers who do not choose to contract with an electricity retailer. This energy is provided to customers at either regulated or market prices.Cornwall Electric purchases substantially all of its power requirements from Hydro-QuÃ©bec Energy Marketing under a contract that expires in DecemberÂ 2030 and which provides a minimum of 537 GWh of energy per year and up to 145 MW of capacity at any one time.Caribbean UtilitiesCaribbean Utilities relies upon in-house diesel-powered generation to produce electricity for its customers. Caribbean Utilities is party to primary and secondary fuel supply contracts with two different suppliers from whom it is committed to purchasing 60% and 40%, respectively, of its diesel fuel requirements for its diesel-powered generating plant. In October 2024, Caribbean Utilities executed new fuel supply contracts with these two suppliers, each with a term of 36 months. FortisTCIFortisTCI relies upon in-house diesel-powered generation to produce electricity for its customers. FortisTCI's generating capacity increased in 2024 due to the commissioning of: (i) a new 9.4 MW Wartsila engine; and (ii) a 1.2 MW ground mounted solar photovoltaic system on the island of North Caicos. FortisTCI's BESS Micrgrid project is scheduled for completion in 2025. FortisTCI has installed 2.7 MW of rooftop solar in partnership with customers under its Utility Owned Renewable Energy Program.FortisTCI continues to engage with the Government of the Turks and Caicos Islands on regulatory reform to enable further development of renewable energy resources. FortisTCI has contracted with a major supplier for all its diesel fuel requirements for electricity generation. The current contract expires in August 2025 and negotiations are ongoing for a one-year renewal.Non-RegulatedCorporate and OtherCorporate and other captures expenses and revenues not specifically related to anyÂ reportable segment and those business operations that are below the required threshold for segmented reporting. This segment consists of non-regulated holding company expenses, as well as earnings from non-regulated long-term contracted generation assets in Belize. The generation assets include three hydroelectric generating facilities with a combined generating capacity of 51 MW, held through Fortis Belize, the output of which is sold to Belize Electricity under 50-year PPAs expiring in 2055 and 2060. This segment also includes results for Aitken Creek until the November 1, 2023 disposition date.Market and SalesEnergy sales were 215 GWh in 2024 compared to 164Â GWh in 2023. Revenue was $35 million in 2024 compared toÂ $84 million in 2023, largely reflecting the disposition of Aitken Creek in November 2023.17December 31, 2024Annual Information FormHUMAN RESOURCES Fortis and its subsidiaries have 9,848 employees, with 53% in Canada, 42% in the U.S. and 5% in other countries. The following table provides the breakdown of employees by reportable segment.EmployeesParticipation in a Collective AgreementUnion(s)Collective Agreement(s) Expiry Date(s)Regulated UtilitiesITC787Â Noneâ€”â€”UNS Energy2,087Â 46Â %IBEWJune 2024 â€“ June 2028(1)Central Hudson1,245Â 53Â %IBEWApril 2026 â€“ March 2028 FortisBC Energy (2)2,160Â 58Â %IBEW, MoveUPMarch 2024 â€“ June 2028 (3) FortisAlberta1,326Â 74Â %UUWADecember 2025FortisBC Electric 583Â 67Â %IBEW, MoveUPJanuary 2023 â€“ June 2028 (4)Other Electric 1,556Â 38Â %CUPE, IBEW, PWUJune 2022 â€“ December 2026 (5)Non-RegulatedCorporate and Other (6)104Â Noneâ€”â€”Total9,848Â 49Â %(1)The UNS Gas and IBEW Local Union 1116 collective agreement expired in June 2024 and negotiations are ongoing. Fortis and its utilities respect their employees' freedom to associate and right to a fair wage and strive to maintain positive and constructive relationships with labour associations and unions. Fortis values its 9,800 employees and recognizes that success is dependent on a strong workforce which is safe, supported and empowered. Fortis and its utilities have compensation and benefit programs designed to attract and retain talent. Fortis believes that the foundation for a healthy work environment starts with leadership from the most senior levels of the organization and must be driven by clearly articulated values that are understood and practiced at all levels of the organization.The Corporation's subsidiaries are required to develop and retain a skilled workforce for their operations. Many of the employees of the Corporation's utilities possess specialized skills and training and Fortis must compete in the marketplace for these workers.LEGAL PROCEEDINGS AND REGULATORY ACTIONS There are no legal proceedings that involve a claim for damages exceeding 10% of the Corporation's current assets in respect of which the Corporation is or was a party, or in respect of which any of the Corporation's property is or was the subject during the year ended DecemberÂ 31, 2024, nor are there any such proceedings known to the Corporation to be contemplated. Information related to the Corporation's legal proceedings can be found in Note 27 of the Financial Statements, which are incorporated by reference in this AIF and available on SEDAR+ and EDGAR. The Corporation's utilities operate under a cost of service regulation, in combination with performance-based rate-setting mechanisms in certain jurisdictions, and are regulated by the regulatory body in their respective operating jurisdiction. During the year ended DecemberÂ 31, 2024, there have not been any: (i)Â penalties or sanctions imposed against the Corporation by a court relating to securities legislation or by a securities regulatory authority; (ii)Â other penalties or sanctions imposed by a court or regulatory body against the Corporation that would likely be considered important to a reasonable investor in making an investment decision; or (iii) settlement agreements entered into by the Corporation before a court relating to securities legislation or with a securities regulatory authority. For information with respect to the nature of regulation and material regulatory decisions and applications associated with each of the Corporation's utilities, refer to the "Regulatory Highlights - Significant Regulatory Matters" section of the MD&A and to NotesÂ 2 and 8 of the Financial Statements, each of which are incorporated by reference in this AIF and available on SEDAR+ and EDGAR. 18December 31, 2024Annual Information FormINTEREST OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS There were no directors or executive officers of the Corporation, or any associate or affiliate of a director or executive officer of the Corporation, with a material interest in any transaction within the three most recently completed financial years or during the current financial year that has materially affected the Corporation or is reasonably expected to materially affect the Corporation. RISK FACTORSFor information with respect to the Corporation's business risks, refer to the "BusinessÂ Risks" section of the MD&A, which is incorporated by reference in this AIF and available on SEDAR+ and EDGAR.CYBERSECURITYThe Corporation and its utilities are at risk of cybersecurity threats, including cyber attacks, data breaches, cyber extortion or similar compromises, which may target operations, critical infrastructure assets, information systems and/or data. Certain of the Corporation's and its utilities' information systems have been targeted by malware, unauthorized access, phishing efforts, denial-of-service attacks and other cyberattacks. Fortis and its utilities expect to be targeted by similar attacks in the future. The Board and management of the Corporation oversee the Corporation's cybersecurity strategy, policies and practices, including the Corporation's cybersecurity policy and an enterprise-wide comprehensive CRMP. Similarly, each utility has adopted and implemented a cybersecurity policy and comprehensive CRMP. Each utility board, or a designated committee of a utility board, provides oversight of the utility's IT and OT use and protection, including, but not limited to, cybersecurity, data governance, privacy and compliance. Certain of the information systems of the Corporation's utilities have been subjected to direct and/or third-party cyberattacks, none of which have been material. No risks have arisen from any past or present cybersecurity threats that materially affect, or are reasonably likely to materially affect, the Corporation's business strategy, results of operations or financial condition. Governance and OversightThe Board, through the Governance and Sustainability Committee, oversees the Corporation's strategies and policies relating to IT and OT, as well as reviews the Corporation's cybersecurity risks and the measures taken to monitor or mitigate such exposures. The Governance and Sustainability Committee is responsible specifically for overseeing the Corporation's IT and OT use and protection policies and practices, including in respect of cybersecurity, system integrity, data protection, privacy and compliance. The Corporation's Executive Vice President, Operations and Technology has oversight responsibilities for operations, cybersecurity and technology functions. The Vice President, Chief Information Officer of the Corporation, reports to the Executive Vice President, Operations and Technology, and coordinates the CRMP with the leaders of each subsidiary's IT group, including those identified as cybersecurity risk management leads. The Vice President, Chief Information Officer has overall accountability for the operation of the CRMP. A summary of the relevant expertise of the Executive Vice President, Operations and Technology and the Vice President, Chief Information Officer of the Corporation follows:ExecutiveSummary of Relevant Experience and Expertise Gary J. Smith, Executive Vice President, Operations and TechnologyMr. Smith has held a number of senior leadership positions with the Fortis group throughout his 40-year tenure including: Executive Vice President, Operations and Innovation; Executive Vice President, Eastern Canadian and Caribbean Operations of Fortis; President and Chief Executive Officer of Newfoundland Power; Vice President of Customer Operations and Engineering of Newfoundland Power; and Vice President of Operations and Engineering of FortisAlberta. Mr. Smith serves on the boards of FortisAlberta, FortisOntario, UNS Energy, Caribbean Utilities, FortisTCI, Fortis Energy Caribbean Inc. and Fortis Belize. He is also Chair of the board of directors of Wataynikaneyap Power PM Inc. Mr. Smith holds a Bachelor of Engineering (Electrical) from Memorial University of Newfoundland. He is a former director of the Canadian Electricity Association and was elected as a Fellow of the Canadian Academy of Engineering in 2021. He is a member of the Association of Professional Engineers and Geoscientists of Newfoundland and the Steering Committee on Power Engineering for the Canadian Standards Association. Mr. Smith is a subject matter expert in all areas of power engineering and utility operations. As a result of his extensive career in the utility industry, leading both operations and innovation functions, Mr. Smith has specialized knowledge of utility IT and OT systems, uniquely qualifying him to oversee the protection and integrity of our critical infrastructure. 19December 31, 2024Annual Information FormKeri L. Glitch, Vice President, Chief Information OfficerMs. Glitch has extensive IT leadership experience within the power and utilities sector. Prior to joining the Fortis group in 2023, Ms. Glitch served in technology leadership roles for six years at MISO as the Chief Digital Officer and the Chief Information Security Officer. In her positions with MISO, Ms. Glitch had responsibility for integrating technology functions to develop a long-term digital strategy to enable reliable, secure operations for future grid operational requirements. Ms. Glitch was also the Senior Manager responsible for NERC Critical Infrastructure Protection compliance. Prior to MISO, Ms. Glitch held the position of Vice President, Chief Security Officer of Avangrid Inc. and Executive Director, Information Technology, Chief Information Officer, at Iberdrola USA. Ms.Â Glitch holds a Bachelor of Science from the State University of New York at Geneseo and a Master of Science in multidisciplinary studies from the Rochester Institute of Technology. She is a former board member of the Midwest Reliability Organization, where she served as Chair of their Organizational Group Oversight committee. Given her many years of IT experience and her technical expertise in the energy industry, Ms. Glitch is a subject matter expert in IT leadership in the power and utilities sector. In addition, Stuart Lochray, Executive Vice President, Strategy and Business Development,(1) and Kevin Woodbury, Vice President, Technology and Innovation, lead our innovation initiatives, which include investing in new technologies to further increase the security of our IT and OT systems.Management reports on matters related to information security, technology and cybersecurity to the Governance and Sustainability Committee at each quarterly meeting of the committee. At least annually, the Governance and Sustainability Committee reviews, both with the Board and management, the Corporation's IT and OT risk exposures, including cybersecurity, system integrity, data and privacy risks, and the steps the Corporation has taken to monitor or mitigate such exposures around critical Corporation assets, including any related policies, such as cyber incident response plans, data and privacy risk assessments, security measures, system controls and testing, and cyber insurance coverage. The Cybersecurity Executive Committee of the Corporation is chaired by the Vice President, Chief Information Officer, and its members include: the Executive Vice President, Chief Financial Officer, the Executive Vice President, Sustainability and Chief Legal Officer, the Executive Vice President, Operations and Technology and the Executive Vice President, Strategy and Business Development. The Cybersecurity Executive Committee meets at least annually to review various cybersecurity matters which may include objectives, policies, risk assessments, metrics and audits. The Vice President, Chief Information Officer further ensures the Cybersecurity Executive Committee is updated regarding material changes to the CRMP throughout the year. The cybersecurity policy requires that utilities have a cybersecurity steering committee that meets a minimum of twice annually to review cybersecurity projects, objectives, policies, metrics, audits and other matters that arise pertaining to cybersecurity risk management. Further, the Fortis CRMP requires each utility to identify an individual responsible for cybersecurity risk management for that company. The cybersecurity policy requires the Corporation and each utility's cybersecurity risk management lead to provide updates on key risk items, the company's cybersecurity programs and disclosure of significant incidents or breaches at each regularly scheduled meeting of the committee or board with the applicable oversight.Risk Management and StrategyUnder the CRMP, there is a cybersecurity risk framework which establishes enterprise-wide cybersecurity risk management practices for the Corporation and its utilities that identifies and monitors cybersecurity risks and provides insights for remediation of any risks that could lead to cybersecurity incidents throughout the company. The framework includes a process by which key cyber threats and vulnerabilities are identified and sorted by threat actors, motives and potential attack path. Once threats or vulnerabilities are identified, the CRMP assesses and prioritizes them based on the likelihood and potential impact. Under this framework, utilities assess cybersecurity threats and set risk targets that are appropriate for their business. The CRMP is incorporated into, and closely linked with, the overall Fortis enterprise risk management program. When the CRMP highlights a risk, the teams develop and implement a mitigation roadmap. Monitoring of the mitigation roadmap occurs to ensure the risk is mitigated at an acceptable level. Further, under the cybersecurity policy, utilities are required to have a cybersecurity incident response plan, which must include processes and escalation levels for classifying the severity and actual or potential impact of cybersecurity incidents. Fortis uses third parties to manage, monitor and assess cyber activities and cybersecurity risks. The use of third parties supplements the Corporation's internal team and provides unbiased assessments. The Corporation further utilizes a variety of tools and sources to oversee and detect risks from cybersecurity threats associated with our use of third-party service providers. These include external monitoring services and information provided by external information sharing services, such as United States and Canadian intelligence services, reputable cybersecurity raters and the Electricity Information Sharing and Analysis Center (E-ISAC) which is operated by NERC. The CRMP addresses the requisite technical controls across our critical asset classes for all Fortis companies. The CRMP is aligned with the National Institute of Standards and Technology's (NIST) Cybersecurity Framework, the International Organization for Standardizationâ€™s Security Standard (ISO 27001), the Standard of Good Practice for Information Security and NERCâ€™s Critical Infrastructure Protection (NERC CIP) reliability standards. The Corporation's U.S. utilities are required to follow NERC CIP requirements, which include standards targeted at protecting critical information assets that operate the bulk electric system and are audited regularly by their governing RTO. (1)Â Â Â Â Effective January 1, 2025, Stuart Lochray's title was changed from Senior Vice President, Capital Markets and Business Development to Executive Vice President, Strategy and Business Development.20December 31, 2024Annual Information FormThe Corporation employs a team of cybersecurity professionals with certifications in cybersecurity engineering and cybersecurity operational areas. Fortis continues to invest in training for all employees on the specific technologies utilized by the Corporation and professional development for cybersecurity professionals to keep their knowledge current. As the cybersecurity threat landscape continues to evolve, the Corporation continues to adapt its defensive strategy, deploy new technology and advance its protections from cybersecurity threats, leveraging threat intelligence and external industry practices for continuous improvement and refinement of the CRMP. SOCIAL AND ENVIRONMENTAL POLICIESEthical ConductThe Fortis Code of Conduct is guided by the Corporation's purpose and values and sets out standards for the ethical conduct of its directors, officers, and employees. The core principles of the Code of Conduct apply across the organization, with each operating subsidiary adopting its own substantially similar code. Fortis and its utilities hold regular Code of Conduct employee training and all Fortis employees and Board members annually certify compliance. The Code of Conduct is supported by other policies that outline the actions and behaviours expected from management and employees, including the Anti-Corruption Policy and Respectful Workplace Policy. As of January 1, 2024, the Corporation adopted a Vendor Code of Conduct, which applies to vendors, suppliers, contractors, consultants and other service providers that do business with the Corporation, and a Human Rights Policy

which details the Corporation's commitment to respecting and upholding human rights. Fortis has a Speak Up Policy to support and facilitate the anonymous reporting of conduct that may breach the Code of Conduct or other workplace policies. All Fortis operating subsidiaries have policies in place that uphold the Corporation's values as contained in these policies and demonstrate their commitment to ensuring equal opportunity and providing safe, respectful work environments. Climate Change and Environmental MattersFortis has reduced its corporate-wide direct GHG emissions by 34% from a 2019 base year, and has targets to further reduce such GHG emissions by 50% by 2030 and 75% by 2035. The Corporation's additional 2050 net-zero direct GHG emissions target reinforces Fortis' commitment to further decarbonize over the long-term, while continuing our focus on reliability and affordability. The Corporation's ability to achieve the GHG targets may be impacted by federal, state and provincial energy policies, as well as external factors, including significant customer and load growth and the development of clean energy technology.The Corporation released its 2024 Climate Report in March 2024, building on the 2022 TCFD and Climate Assessment and further detailing the Corporation's assessment of climate-related impacts across the Fortis group. The report provides climate scenario analysis, outlines physical risks and opportunities for priority assets, and assesses transition risks and opportunities using a framework based on enterprise risk management principles.Each utility has extensive environmental compliance programs aligned with the ISO 14001 standard, regularly reviews its environmental management systems and protocols, strives for continual performance improvement and sets and reviews its own environmental objectives, targets and programs.Safety and ReliabilityFortis is an industry leader in safety and reliability, with the Corporation's utilities consistently performing above industry averages. Fortis leverages its unique operating model and utility experience to deliver safe and reliable service to its customers and the communities it serves. Senior operational executives from all Fortis utilities meet regularly to share best practices and identify opportunities for collaboration on a range of operational areas including health and safety.All contractors are required to share Fortis' commitment to conduct work in a safe manner. Contractors must demonstrate a strong safety program with a high level of training centered around risk management. Historical safety performance is a consideration when selecting successful contractors.Environmental Regulation and Contingencies As part of the regulatory process, operating subsidiaries engage with stakeholders, including community groups, regulators and customers, to consult on the potential environmental impact of their operations. Fortis and its subsidiaries are subject to various federal, provincial, state and municipal laws, regulations and guidelines relating to the protection of the environment. Environmental compliance involves significant operating and capital costs. At the Corporation's regulated utilities, prudently incurred costs associated with environmental protection and compliance are generally eligible for recovery in customer rates. The following environmental contingencies have been made as of DecemberÂ 31, 2024:Mine Reclamation at Generation Facilities Not Operated by TEP. TEP pays ongoing reclamation costs related to coal mines that supply generation facilities in which TEP has an ownership interest but does not operate. TEP is permitted to fully recover these costs from customers and, accordingly, these costs are deferred as a regulatory asset for future recovery.21December 31, 2024Annual Information FormTEP is liable for a portion of final mine reclamation costs upon closure of the mines servicing the San Juan and Four Corners power stations. TEP's estimated share of final mine reclamation costs at Four Corners is $4 million upon expiration of the related coal supply agreement, which expires inÂ 2031.Â At DecemberÂ 31, 2024, TEP's estimated share of final mine reclamation costs at the San Juan generating station, which was retired in June 2022, was $45 million. Former Manufactured Gas Plant Facilities. Environmental regulations require Central Hudson to investigate sites at which Central Hudson or its predecessors once owned and/or operated manufactured gas plants and, if necessary, remediate these sites. Central Hudson accrues for remediation costs based on the amounts that can be reasonably estimated. As at DecemberÂ 31, 2024, an obligation of $105 million was recognized. Central Hudson has notified its insurers and intends to seek reimbursement where insurance coverage exists. Further, as authorized by the New York Public Service Commission, Central Hudson is currently permitted to defer, for future recovery from customers, differences between actual costs for manufactured gas plant site investigation and remediation and the associated rate allowances.CAPITAL STRUCTURE AND DIVIDENDSDescription of Capital StructureThe authorized share capital of the Corporation consists of an unlimited number of common shares without nominal or par value, an unlimited number of first preference shares without nominal or par value and an unlimited number of second preference shares without nominal or par value. As at FebruaryÂ 13, 2025, the Corporation had issued and outstanding 499.3 million common shares; 5.0 million FirstÂ Preference Shares, Series F; 9.2 million First Preference Shares, Series G; 7.7 million FirstÂ Preference Shares, Series H; 2.3 million First Preference Shares, Series I; 8.0 million FirstÂ Preference Shares, Series J; 10.0 million First Preference Shares, Series K; and 24.0 million FirstÂ Preference Shares, SeriesÂ M. For a summary of the terms and conditions of the Corporation's authorized securities and trading information for the Corporation's publicly listed securities, refer to Exhibit "A" and Exhibit "B" of this AIF.Dividends and DistributionsThe declaration and payment of dividends on the Corporation's common shares and first preference shares are at the discretion of the Board. Dividends on the common shares are typically paid quarterly, on the first day of March, June, September and December of each year. Dividends on the Corporation's First Preference Shares, Series F, G, H, I, J, K and M are typically also paid quarterly.In September 2024, Fortis declared an increase in the 2024 fourth quarter dividend per common share of 4.2% to $0.615 per share, or $2.46 on an annualized basis. In December 2024 and February 2025, the Board declared first and second quarter 2025 dividends, respectively, on the common shares of $0.615 per share and on the First Preference Shares, Series F, G, H, I, J, K and M in accordance with the applicable prescribed rate. The first and second quarter 2025 dividends on the common shares and the First Preference Shares, Series F, G, H, I, J, K and M are to be paid on March 1 and June 1, 2025 to holders of record as of February 18 and May 16, 2025, respectively. The following table summarizes the dividends declared per share for each of the Corporation's class of shares for the past three years. 202420232022Â Common Shares2.41002.3100Â 2.2000Â First Preference Shares, Series F (1)1.22501.2250Â 1.2250Â First Preference Shares, Series G (2)1.53081.3145Â 1.0983Â First Preference Shares, Series H (3)0.45880.4588Â 0.4588Â First Preference Shares, Series I (4)1.49021.5619Â 0.9157Â First Preference Shares, Series J (1)1.18751.1875Â 1.1875Â First Preference Shares, Series K (5)1.36730.9823Â 0.9823Â First Preference Shares, Series M (6)1.07700.9783Â 0.9783Â (1)Â Â Â Â The dividend rate on the First Preference Shares, Series F and First Preference Shares, Series J are fixed and do not reset.(2)Â Â Â Â The annual dividend per share was reset to $1.5308 for the five-year period from September 1, 2023 up to but excluding September 1, 2028.(3)Â Â Â Â The annual dividend per share was reset to $0.4588 for the five-year period from June 1, 2020 up to but excluding June 1, 2025.(4)Â Â Â Â The First Preference Shares, Series I are entitled to receive floating rate cumulative dividends, which rate will reset every quarter based on the then current threeâ€’month Government of Canada Treasury Bill rate plusÂ 1.45%. (5)Â Â Â Â The annual dividend per share was reset to $1.3673 for the five-year period from MarchÂ 1,Â 2024 up to but excluding March 1, 2029. (6)Â Â Â Â The annual dividend per share was reset to $1.3733 for the five-year period from December 1, 2024 up to but excluding December 1, 2029.For purposes of the enhanced dividend tax credit rules contained in the Income Tax Act (Canada) and any corresponding provincial and territorial tax legislation, all dividends paid on common and preferenceÂ shares after December 31, 2005 by Fortis to Canadian residents are designated as "eligibleÂ dividends". Unless stated otherwise, all dividends paid by Fortis hereafter are designated as "eligibleÂ dividends" for the purposes of such rules.22December 31, 2024Annual Information FormDebt Covenant Restrictions on Dividend DistributionsThe Trust Indenture pertaining to the Corporation's $200 million Unsecured Debentures contains a covenant which provides that Fortis shall not declare or pay any dividends (other than stock dividends or cumulative preferred dividends on preferred shares not issued as stock dividends) or make any other distribution on its shares or redeem any of its shares or prepay subordinated debt if, immediately thereafter, its consolidated funded obligations would be in excess of 75% of its total consolidated capitalization. The Corporation has a $1.3 billion unsecured committed revolving corporate credit facility, maturing JulyÂ 2029, and a US$500 million non-revolving term credit facility, maturing May 2025. Half of the term credit facility was repaid in the third quarter of 2024 and the remaining US$250 million has been fully utilized as at December 31, 2024. The credit facilities contain a covenant that provides that Fortis shall not: (i) declare, pay or make any ordinary course dividend except that in giving effect to the payment of such ordinary course dividend, it would not result in the Corporation's consolidated debt to consolidated capitalization ratio exceeding 70%; or (ii) declare, pay or make any restricted payments (including special or extraordinary dividends) if, immediately thereafter, its consolidated debt to consolidated capitalization ratio would exceed 65%. As at DecemberÂ 31, 2024 and 2023, the Corporation was in compliance with its debt covenant restrictions pertaining to dividend distributions, as described above.Credit Ratings Credit ratings provide an opinion about the creditworthiness of an issuer and the issuer's capacity and willingness to meet its financial commitments on the obligation in accordance with its terms. Credit ratings are intended to provide investors with an independent measure of credit quality of an issue of securities and are not recommendations to buy, sell or hold securities. The ratings assigned to securities issued by Fortis and its utilities are reviewed by the agencies on an ongoing basis. Ratings may be subject to revision or withdrawal at any time by the rating organization. The following table summarizes the Corporation's debt credit ratings as at FebruaryÂ 13, 2025.Company/SecurityDBRS MorningstarS&PMoody'sFortis Unsecured DebtA (low), StableBBB+Baa3Preference SharesPfd-2 (low), StableP-2â€Â Caribbean Utilities - Unsecured DebtA (low), StableBBB+â€Â Central Hudson - Unsecured Debt(1)â€Â BBB+Baa1FortisAlberta - Unsecured DebtA (low), StableA-Baa1FortisBC ElectricSecured DebtA (low), Stableâ€Â â€Â Unsecured DebtA (low), Stableâ€Â Baa1Commercial PaperR-1 (low), Stableâ€Â â€Â FortisBC EnergyUnsecured DebtA, Stableâ€Â A3Commercial PaperR-1 (low), Stableâ€Â â€Â ITC HoldingsUnsecured Debtâ€Â BBB+Baa2Commercial Paperâ€Â A-2Prime-2ITC Great Plains - First Mortgage Bondsâ€Â AA1ITC Midwest - First Mortgage Bondsâ€Â AA1ITCTransmission - First Mortgage Bondsâ€Â AA1Maritime Electric - Secured Debtâ€Â Aâ€Â METC - Secured Debtâ€Â AA1Newfoundland Power - First Mortgage BondsA, Stableâ€Â A2TEPUnsecured Debtâ€Â A-A3Unsecured Bank Credit Facilityâ€Â â€Â A3UNS ElectricUnsecured Debtâ€Â â€Â A3Unsecured Bank Credit Facilityâ€Â â€Â A3UNS Gas - Unsecured Debtâ€Â â€Â A3(1)Central Hudson's senior unsecured debt is also rated by Fitch at 'BBB+'. Fitch rates long-term debt on a rating scale that ranges from AAA to C, which represents the range from highest to lowest quality of such securities. Fitch uses '+' or '-' designations to indicate the relative status of securities within a particular rating category. According to Fitch, a long-term obligation rated A denotes the expectation of low credit risk, with strong capacity for payment of financial commitments. The capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.23December 31, 2024Annual Information FormIn October 2024, S&P confirmed the Corporationâ€™s â€˜A-â€˜ issuer and â€˜BBB+â€™ senior unsecured debt credit ratings and the negative issuer rating outlook for the Corporation and certain of its subsidiaries. S&P has indicated that the negative issuer rating outlook reflects rising exposure to physical risks due to climate change. The table below highlights rating category ranges from highest to lowest quality of such securities for the issuer's credit rating agencies.SecurityDBRS Morningstar S&PMoody'sLong-term debtAAA to D (1)AAA to D (2)Aaa to C (5)Short-term debtR-1 to D (1)A-1 to D (3)Prime-1 to Not Prime (6)Preference SharesÂ Pfd-1 to DP-1 to D (4)N/A(1)All rating categories contain subcategories of '(high)' or '(low)' other than AAA and D for long-term debt and below R-2 for short-term debt. The absence of either a '(high)' or '(low)' designation indicates the rating is in the middle of a category.(2)S&P uses '+' or '-' designations to indicate the relativeÂ standing of securities within a particular rating category. Such modifiers are not added to ratings below CCC or ratings at AAA.(3)Within only the A-1 category may certain obligations be designated with a '+', indicating that the issuer's capacity to meet its financial commitments under these obligations is extremely strong.(4)S&P uses 'high' or 'low' designations to indicate the relativeÂ standing of securities within a particular rating category. Such modifiers are not added to ratings below P-5.(5)Moody's applies numerical modifiers 1, 2 and 3 to each generic rating classification from Aa to Caa to indicate relative standing within such classification. The modifier 1 indicates that the security ranks at the higher end of its generic rating category, the modifier 2 indicates a mid-range ranking and the modifier 3 indicates a ranking at the lower end of that generic rating category.(6)Short-term obligations with a Not Prime rating do not fall within any of the Prime rating categories.DBRS MorningstarLong-term debtAccording to DBRS Morningstar, a rating of A is assigned to a long-term debt instrument that has good credit quality, with the issuer having substantial capacity to pay its financial obligations, but credit quality is less than AA-rated instruments and may be vulnerable to future events, but qualifying negative factors are considered manageable.Short-term debtAccording to DBRS Morningstar, a rating of R-1 (low) means that the short-term debt obligation has good credit quality, with the issuer having substantial capacity to repay short-term debt obligations and may be vulnerable to future events, but qualifying negative factors are considered manageable. The overall strength of R-1 (low) rated instruments is not as favourable as those in higher rated categories.Preference sharesAccording to DBRS Morningstar, a rating of Pfd-2 (low) means that the preference shares have good credit quality and although the protection of dividends and principal is substantial, earnings, the balance sheet and coverage ratios of Pfd-2 rated companies are not as strong as Pfd-1 rated companies.S&PLong-term debtAccording to S&P, a rating of A is assigned to long-term debt instruments that are somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than those in higher-rated categories. However, the issuer's capacity to meet its financial obligations is still strong. Debt instruments rated BBB exhibit adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the issuer to meet its financial commitments on the obligation. Short-term debtAccording to S&P, a short-term obligation rated A-2 is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the issuer's capacity to meet its financial commitments on the short-term obligation is satisfactory. Preference sharesAccording to S&P, a rating of P-2 means that the preference shares have adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the issuer to meet its financial commitments on the obligation. Moody'sLong-term debtAccording to Moody's, a rating of Baa is assigned to long-term debt instruments considered to be of medium-grade quality. Debt instruments rated Baa are subject to moderate credit risk and may possess certain speculative characteristics. Debt instruments rated A are considered upper-medium grade and are subject to low credit risk. Short-term debtAccording to Moody's, a rating of Prime-2 means that an issuer has a strong ability to repay short-term debt obligations.The Corporation and/or each of its currently rated utilities pay DBRS Morningstar, S&P, Moody's and/or Fitch an annual monitoring fee and a one-time fee in connection with each rated issuance.24December 31, 2024Annual Information FormDIRECTORS AND OFFICERSThe Board has governance guidelines that cover various items, including director tenure. The governance guidelines provide that Directors of the Corporation are to be elected for a term of one year and are eligible for reâ€’election until the annual meeting of shareholders following the date they turn 72 or until they have served on the Board for 12 years, whichever is earlier. Exceptions may be made by the Board if it is in the best interests of the Corporation and the Director has received solid annual performance evaluations, has the necessary skills and experience and meets the other Board policies and legal requirements for Board service. The following table sets out the name, province or state and country of residence of each of the Directors of the Corporation and their principal occupations during the fiveÂ precedingÂ years. EachÂ Director's current term expires at the next annual meeting of shareholders.Name, Residence, Principal Occupation Within Five Preceding YearsDirector SinceCommittees (1)ACGSHRTRACEY C. (2)Â Â Â Â Mr. Hutchens does not serve on any of the committees because he is the President and Chief Executive Officer of the Corporation but is invited to and attends all committee meetings.(3)Â Â Â Â Ms. Lisa Crutchfield resigned from the Board effective December 31, 2024. Mr. Knight was appointed to the Board on January 1, 2025 and to the Audit Committee and Governance and Sustainability Committee on February 13, 2025. ProceedingsFrom 2010 to November 2021, Donald Marchand held various senior executive positions with TC Energy (formerly TransCanada Corporation), including serving as Chief Financial Officer from 2010 until July 2021. In 2016, TC Energy acquired Columbia Pipeline Group Inc. In July 2018, former Columbia Pipeline Group Inc. stockholders filed a class action lawsuit in the Delaware Court of Chancery against two Columbia Pipeline Group Inc. executives and TC Energy, alleging breaches of fiduciary duties and material disclosure omissions during the acquisition. In June 2023, the court found the Columbia Pipeline Group Inc. executives liable for breaches of their fiduciary duties and TC Energy liable for aiding and abetting such breaches. In a May 15, 2024 decision, the court awarded the Columbia Pipeline Group Inc. stockholders damages of US$398.4 million and

allocated responsibility for that award 50% to the former Columbia Pipeline Group Inc. executives and 50% to TC Energy. TC Energy's appeal of the decision is ongoing.From October 2018 until April 2021, Maura Clark served on the board of directors of Garrett Motion Inc. (Garrett), a NYSE listed company. OnÂ September 20, 2020, Garrett and certain affiliated companies filed petitions in the United States Bankruptcy Court for the Southern District of New York seeking relief under Chapter 11 of the United States Bankruptcy Code. Garrett emerged from the Chapter 11 proceedings in AprilÂ 2021. 25December 31, 2024Annual Information FormThe following table sets out the name, province or state, and country of residence of each of the executive officers of Fortis and indicates the office held and principal occupations of the executive officers during the five preceding years.Name, Residence, Principal Occupation During the Five Preceding YearsOfficeDAVID G. Jones Graduate School of Business in Houston and has a certificate in audit committee governance from Harvard Business Schoolâ€™s Corporate Board Director Program. DONALD R. MARCHANDMr. Marchand was Executive Vice President of TC Energy, a leading North American energy infrastructure company, from July 2021 until his retirement in November 2021. He served as Chief Financial Officer of TC Energy and its predecessor, TransCanada Corporation, from 2010 until July 2021, with additional responsibility for Strategy and Corporate Development from 2015 to 2017 and from 2020 to 2021. During his 27-year tenure with the company, Mr. Marchand led many of its financial functions, including treasury, finance, accounting, taxation, risk management and investor relations. Mr. Marchand graduated from the University of Manitoba with a Bachelor of Commerce degree and subsequently qualified as a Chartered Accountant and Chartered Financial Analyst. He is a member of the Chartered Professional Accountants of Alberta, the CFA Institute and the Calgary Society of Financial Analysts. JO MARK ZURELMr. Zurel was the president of Stonebridge Capital Inc., a private investment company, from 2006 to March 2019. From 1998 to 2006, Mr. Zurel was Senior Vice-President and Chief Financial Officer of CHC Helicopter Corporation. Mr. Zurel graduated from Dalhousie University with a Bachelor of Commerce and is a Fellow of the Association of Chartered Professional Accountants of Newfoundland and Labrador. He holds an ICD.D designation from the Institute of Corporate Directors.(1)Â Â Â Â Ms. Lisa Crutchfield resigned from the Board and Audit Committee effective December 31, 2024. Mr. Knight was appointed to the Board on January 1, 2025 and to the Audit Committee on February 13, 2025.27December 31, 2024Annual Information FormPre-Approval Policies and ProceduresThe Audit Committee has established a policy that requires pre-approval of all audit and non-audit services provided to the Corporation and its subsidiaries by the Corporation's external auditor. The Preâ€‘Approval Policy for Independent Auditor Services describes the services that may be contracted from the external auditor and the related limitations and authorization procedures. This policy defines prohibited services, including but not limited to bookkeeping, valuations, internal audit and management functions, which may not be contracted from the external auditor and establishes an annual limit for permissible non-audit services not greater than the total fee for audit services. Audit Committee pre-approval is required for all services provided by the external auditor.External Auditor Service Fees The aggregate fees billed by the Corporation's externalÂ auditors during each of the last two fiscal years are set out in the following table.Deloitte LLP($ thousands)Description of Fee Category20242023Audit FeesCore audit services11,111Â 10,807Â Audit-Related FeesAssurance and related services that are reasonably related to the audit or review of the Financial Statements and are not included under Audit Fees1,775Â 1,582Â Tax FeesServices related to tax compliance, planning and advice107Â 10Â All Other FeesServices which are not Audit Services, Audit-Related Fees or Tax Fees356Â 99Â Total13,349Â 12,498Â TRANSFER AGENT AND REGISTRARThe transfer agent and registrar in Canada for the common shares and first preference shares of Fortis is ComputershareÂ Trust Company of Canada in MontrÃ©al and Toronto.The co-transfer agent and co-registrar in the U.S. for the common shares is Computershare Trust Company, N.A. in Canton, MA, Jersey City, NJ and Providence, RI.Computershare Trust Company of Canada8th Floor, 100 University AvenueToronto, ON M5J 2Y1T: 514.982.7555 or 1.866.586.7638F: 416.263.9394 or 1.888.453.0330E: service@computershare.com W: www.investorcentre.com/fortisincComputershare Trust Company, N.A.Attn: Shareholder ServicesOvernight Mail Delivery: 150 Royall Street, Canton, MA 02021Regular Mail Delivery (U.S. Shareholders): P.O. Requests for additional copies of the aboveâ€‘mentioned documents, as well as thisÂ AIF, should be directed to the Executive Vice President, Sustainability and Chief Legal Officer, Fortis, P.O.Â BoxÂ 8837, St.Â John's, NL, A1BÂ 3T2 (telephone:Â 709.737.2800). 29December 31, 2024Annual Information FormEXHIBIT A:SUMMARY OF TERMS AND CONDITIONS OF AUTHORIZED SECURITIESCommon SharesDividends on common shares are declared at the discretion of the Board. Holders of common shares are entitled to dividends on a pro rata basis if, as and when declared by the Board. Subject to the rights of the holders of the first preference shares and second preference shares and any other classes of shares of the Corporation entitled to receive dividends in priority to or ratably with the holders of the commonÂ shares, the Board may declare dividends on the commonÂ shares to the exclusion of any other classes of shares of the Corporation.On the liquidation, dissolution or winding-up of Fortis, holders of common shares are entitled to participate ratably in any distribution of assets of Fortis, subject to the rights of holders of firstÂ preference shares and second preference shares and any other classes of shares of the Corporation entitled to receive the assets of the Corporation on such a distribution in priority to or ratably with the holders of the common shares.Holders of the common shares are entitled to receive notice of and to attend all annual and special meetings of the shareholders of Fortis, other than separate meetings of holders of any other classes or series of shares, and are entitled to one vote in respect of each common share held at such meetings.Preference SharesFirst Preference SharesThe following is a summary of the material rights, privileges, conditions and restrictions attached to the firstÂ preferenceÂ shares as a class. The specific terms of the first preference shares, including the currency in which first preference shares may be purchased and redeemed and the currency in which any dividend is payable, if other than Canadian dollars, and the extent to which the general terms described herein apply to those first preference shares, is or will be as set forth in the applicable articles of amendment of Fortis relating to such series.Issuance in SeriesThe Board may from time to time issue first preference shares in one or more series. Prior to issuing shares in a series, the Board is required to fix the number of shares in the series and determine the designation, rights, privileges, restrictions and conditions attaching to that series of first preference shares.PriorityThe shares of each series of first preference shares rank on a parity with the first preference shares of every other series and in priority to all other shares of Fortis, including the second preference shares, as to the payment of dividends, return of capital and the distribution of assets in the event of the liquidation, dissolution or winding-up of Fortis, whether voluntary or involuntary, or any other distribution of the assets of Fortis among its shareholders for the purpose of winding-up its affairs.Each series of first preference shares participates ratably with every other series of first preference shares in respect of accumulated cumulative dividends and returns of capital, if any, cumulative dividends, whether or not declared and any amount payable on the return of capital in respect of a series of first preference shares, if not paid in full.VotingThe holders of the first preference shares are not entitled to any voting rights as a class except to the extent that voting rights may from time to time be attached to any series of first preference shares and except as provided by law or as described below under the heading "Modification". At any meeting of the holders of first preference shares, each holder shall have one vote in respect of each first preference share held.RedemptionSubject to the provisions of the Corporations Act (Newfoundland and Labrador) and any provisions relating to any particular series, Fortis, upon giving proper notice, may redeem out of capital or otherwise at any time, or from time to time, the whole or any part of the then outstanding first preference shares of any one or more series on payment for each such first preference share at such price or prices as may be applicable to such series. Subject to the foregoing, if only a part of the then outstanding first preference shares of any particular series is at any time redeemed, the shares to be redeemed will be selected by lot in such manner as the directors or the transfer agent for the first preference shares, if any, decide, or if the directors so determine, may be redeemed pro rata, disregarding fractions.ModificationThe class provisions attached to the first preference shares may only be amended with the prior approval of the holders of the first preference shares, in addition to any other approvals required by the Corporations Act (Newfoundland and Labrador) or any other statutory provisions of like or similar effect in force from time to time.The approval of the holders of the first preference shares with respect to any and all matters may be given by at least two-thirds of the votes cast at a meeting of the holders of the first preference shares duly called for that purpose.30December 31, 2024Annual Information FormFirst Preference Shares Authorized and OutstandingThe following table summarizes the series of first preference shares as of FebruaryÂ 13, 2025.AuthorizedIssued and OutstandingDividend Rate (%)Annual Dividend ($) (1)Reset Dividend Yield(%)Redemption and/or Conversion Option Date (2)Redemption Value ($)Right to Convert on a One for One BasisPerpetual Fixed RateSeries F5,000,000Â 5,000,000Â 4.90Â 1.2250Â â€”Â Currently Redeemable25.00Â â€”Â Series J8,000,000Â 8,000,000Â 4.75Â 1.1875Â â€”Â Currently Redeemable25.00Â â€”Â Fixed Rate Reset (3)Series G 9,200,000Â 9,200,000Â 6.12Â 1.5308Â 2.13Â September 1, 202825.00Â â€”Â Series H (4)10,000,000Â 7,665,082Â 1.84Â 0.4588Â 1.45Â June 1, 202525.00Â Series ISeries K (5)12,000,000Â 10,000,000Â 5.47Â 1.3673Â 2.05Â March 1, 202925.00Â Series LSeries M (4)(6)24,000,000Â 24,000,000Â 5.49Â 1.3733Â 2.48Â December 1, 202925.00Â Series NFloating Rate Reset (4) (7)Series I10,000,000Â 2,334,918Â (7)â€”Â 1.45Â June 1, 202525.00Â Series HSeries L12,000,000Â â€”Â â€”Â â€”Â â€”Â â€”Â Series KSeries N24,000,000Â â€”Â â€”Â â€”Â â€”Â â€”Â â€”Â Series M(1)Holders are entitled to receive a fixed or floating cumulative quarterly cash dividend as and when declared by the Board, payable in equal installments on the first day of each quarter.(2)On or after the specified redemption dates, the Corporation has the option to redeem for cash the outstanding first preference shares, in whole or in part, at the specified per share redemption value plus all accrued and unpaid dividends up

to but excluding the dates fixed for redemption, and in the case of the first preference shares that reset, on every fifth anniversary date thereafter.(3)On the redemption and/or conversion option date, and on each five-year anniversary thereafter, the reset annual dividend per share will be determined by multiplying $25.00 per share by the annual fixed dividend rate, which is the sum of the five-year Government of Canada Bond Yield on the applicable reset date, plus the applicable reset dividend yield.(4)On each conversion option date, the holders have the option, subject to certain conditions, to convert any or all of their shares into an equal number of Cumulative Redeemable first preference shares of a specified series. (5)The annual dividend per share of the First Preference Shares, Series K was reset from 0.9823 to 1.3673 for a five year period from March 1, 2024 up to, but excluding, March 1, 2029.(6)The annual dividend per share of the First Preference Shares, Series M was reset from 0.9783 to 1.3733 for a five year period from December 1, 2024 up to, but excluding, December 1, 2029.(7)The floating quarterly dividend rate will be reset every quarter based on the then current threeâ€‘month Government of Canada Treasury Bill rate plus the applicable reset dividend yield. Second Preference SharesThe rights, privileges, conditions and restrictions attaching to the second preference shares are substantially identical to those attaching to the first preference shares, except that the second preference shares are junior to the first preference shares with respect to the payment of dividends, repayment of capital and the distribution of assets of Fortis in the event of a liquidation, dissolution or winding up of Fortis.The specific terms of the second preference shares, including the currency in which second preference shares may be purchased and redeemed and the currency in which any dividend is payable, if other than Canadian dollars, and the extent to which the general terms described herein apply to those second preference shares, will be as set forth in the applicable articles of amendment of Fortis relating to such series.As at FebruaryÂ 13, 2025, there were no second preference shares issued and outstanding.31December 31, 2024Annual Information FormEXHIBIT B:MARKET FOR SECURITIESCommon SharesThe common shares are traded on the TSX in Canada and on the NYSE in the U.S., in each case under the symbol FTS. The Committee shall also provide for open communication among the Independent Auditor, the Internal Auditor, Management and the Board.1.3Â Â Â Â To perform its duties and responsibilities, the Committee has the authority to: (i) conduct investigations into any matters within its scope of responsibility; (ii) have unrestricted access to information, management and employees and books and records of the Corporation and its affiliates; and (iii) directly access and communicate with the Independent Auditor and Internal Auditor.2.0Â Â Â Â DEFINITIONS2.1Â Â Â Â In this Mandate: a."Board" means the board of directors of the Corporation;b."Chair" means the Chair of the Committee;c."Committee" means the audit committee of the Board;d."Core Audit Services" means services necessary to: (i) audit the Corporation's annual consolidated or non-consolidated financial statements; (ii) review the Corporation's condensed consolidated interim financial statements; and (iii) audit internal controls over financial reporting in accordance with the requirements of all applicable laws, regulations and professional standards;e."Corporation" means Fortis Inc.;f."CPAB" means the Canadian Public Accountability Board or its successor;g."Director" means a member of the Board;h."ERM Program" means the Corporation's Enterprise Risk Management Program that incorporates an effective risk management framework to identify, evaluate, manage, monitor and communicate key corporate risks;i."Financial Expert" means an "audit committee financial expert" as defined in SEC Regulation S-K;j."Financially Literate" means having the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breath and complexity of the issues that can reasonably be expected to be present in the Corporation's financial statements;k."Governance and Sustainability Committee" means the governance and sustainability committee of the Board;34December 31, 2024Annual Information Forml."Independent" means, in the context of a Member and in accordance with all applicable laws and stock exchange requirements, being free from any direct or indirect material relationship with the Corporation and its subsidiaries which, in the view of the Board, could reasonably be expected to interfere with the exercise of a Member's independent judgment;m."Independent Auditor" means the firm of chartered professional accountants, registered with the CPAB and the PCAOB, and appointed by the shareholders to act as external auditor;n."Internal Auditor" means the person(s) employed or engaged by the Corporation to perform the internal audit function of the Corporation;o."Management" means the senior officers of the Corporation;p."Mandate" means this mandate of the Committee;q."MD&A" means the Corporation's management discussion and analysis prepared in accordance with the requirements of National Instrument 51-102 and the SEC in respect of the Corporation's annual consolidated and interim condensed consolidated financial statements;r."Member" means a Director appointed to the Committee;s."NYSE" means the New York Stock Exchange;t."PCAOB" means the Public Company Accounting Oversight Board or its successor;u."Related Party Transactions" means those transactions required to be disclosed under Items 404(a) and 404(b) of SEC Regulation S-K and required to be evaluated by an appropriate group within the Corporation pursuant to Section 314.00 of the NYSE Listed Company Manual and all applicable laws and stock exchange requirements which include, without limitation, transactions between: (i) executive officers, directors, principal shareholders or their immediate family members; and (ii) the Corporation or any of its subsidiaries; andv."SEC" means the United States Securities and Exchange Commission. 3.0Â Â Â Â ESTABLISHMENT AND COMPOSITION OF COMMITTEE3.1Â Â Â Â The Committee shall be comprised of three (3) or more Directors, each of whom is Independent and Financially Literate. No Member may be a member of Management or an employee of the Corporation or of any affiliate of the Corporation. The Board shall appoint to the Committee at least one (1) Director who is a Financial Expert. 3.2Â Â Â Â Members shall be appointed annually by the Board, or as otherwise necessary, provided, however, that each Director serving as a Member shall continue to serve until such Member resigns, is removed or has a successor appointed.3.3Â Â Â Â The Board may appoint a Member to fill a vacancy which occurs on the Committee between annual elections of Directors. If a vacancy exists on the Committee, the remaining Members shall exercise all of the powers of the Committee so long as at least three (3) Members remain in office.3.4Â Â Â Â Any Member may be removed from the Committee or replaced by a resolution of the Board.3.5Â Â Â Â No Member shall serve on more than three (3) public company audit committees (inclusive of the Corporation) without the prior approval of the Board.3.6Â Â Â Â The Board shall appoint a Chair on the recommendation of the Corporation's Governance and Sustainability Committee, or such other committee as the Board may authorize. The Chair shall continue in that role until a successor is appointed. The Board shall periodically rotate the Chair and shall make reasonable efforts to rotate the Chair every four (4) years. 4.0Â Â Â Â COMMITTEE MEETINGS4.1Â Â Â Â The Committee shall meet at least quarterly and at such other times as it deems appropriate. Meetings of the Committee shall be held at the call of: (i) the Chair; (ii) any two Members; or (iii) the Independent Auditor.35December 31, 2024Annual Information Form4.2Â Â Â Â The Chief Executive Officer, the Chief Financial Officer, the Independent Auditor and the Internal Auditor shall receive notice of and, unless otherwise determined by the Chair, shall be entitled to attend all meetings of the Committee. For clarity, the Independent Auditor must attend the Committee meetings at which the Corporation's annual audited consolidated and non-consolidated financial statements and unaudited condensed consolidated interim financial statements are reviewed.4.3Â Â Â Â A quorum at any meeting of the Committee shall be three (3) Members.4.4Â Â Â Â Each Member shall have the right to vote on matters that come before the Committee.4.5Â Â Â Â Matters to be determined by the Committee shall be decided by a majority of votes cast at a meeting of the Committee where such matter is considered. Actions of the Committee may also be taken by instruments in writing signed by all of the Members.4.6Â Â Â Â The Chair shall act as chair of all meetings of the Committee at which the Chair attends, otherwise the Members present at the meeting shall appoint one of their number to act as chair of the meeting.4.7Â Â Â Â Unless otherwise determined by the Chair, the Corporate Secretary of the Corporation shall act as secretary of all meetings of the Committee.4.8Â Â Â Â The Committee shall periodically meet separately with Management, the Internal Auditor and the Independent Auditor to discuss any matters that the Committee or any of these persons or firms believes should be discussed privately. The Committee shall conduct in camera sessions without Management present at each meeting of the Committee.4.9Â Â Â Â The Committee may invite any Directors, officers or employees of the Corporation or any other person to attend the meetings of the Committee to assist in the discussion and examination of the matters under consideration by the Committee.4.10Â Â Â Â Subject to section 5.4, the Committee may delegate authority to individual Members or subcommittees, if deemed appropriate.5.0Â Â Â Â DUTIES AND RESPONSIBILITIES OF THE COMMITTEEA.Â Â Â Â Independent Auditor5.1Â Â Â Â In consultation and coordination with the subsidiary audit committees, the Committee shall be directly responsible for the selection and appointment (through a recommendation to the Board for the appointment by the shareholders), compensation and retention of the Independent Auditor.5.2Â Â Â Â The Committee shall oversee the work of the Independent Auditor in connection with the Core Audit Services and any other services performed for the Corporation. The Independent Auditor shall report directly to the Committee and the Committee has the authority to communicate directly with the Independent Auditor.5.3Â Â Â Â The Committee shall oversee the resolution of any disagreements between Management and the Independent Auditor. The Committee shall discuss with the Independent Auditor the matters required to be discussed under PCAOB Auditing Standard No. 1301 relating to the conduct of the audit, including any problems or difficulties encountered and Management's responses thereto and any restrictions on the scope of activities or access to requested information.5.4Â Â Â Â The Committee shall pre-approve all services performed by the Independent Auditor in accordance with the Corporation's Pre-Approval Policy for Independent Auditor Services. For any service, other than Core Audit Services, requiring specific pre-approval in accordance with such policy, the Committee may delegate pre-approval authority to one or more of its Members. Currently, pre-approval authority in this regard has been delegated to the Chair or, in that person's absence, the Chair of the Board who is a Member. Delegates must report all pre-approval decisions to the Committee at the next scheduled meeting.5.5Â Â Â Â The Committee shall annually obtain and review a report from the Independent Auditor delineating all relationships between the Independent Auditor and the Corporation and its subsidiaries in accordance with Item 407(d) of SEC Regulation S-K and Section 303A.07 of the NYSE Listed Company Manual and addressing the matters set forth in PCAOB Rule 3526 and all applicable laws and stock exchange requirements and any other applicable regulations and professional standards. The Committee shall use reasonable efforts, including discussion with the Independent Auditor, to satisfy itself as to the Independent Auditor's independence in accordance with Canadian generally accepted auditing standards and PCAOB standards, the applicable requirements and interpretative guidance of SEC Regulation S-X and any other applicable regulations and professional standards. The Committee shall discuss any potential independence issues with the Board and recommend any action that the Committee deems appropriate.5.6Â Â Â Â The Committee shall review and evaluate the qualifications, independence and performance of the Independent Auditor and its lead engagement partner. Without limiting the foregoing, the Committee shall:36December 31, 2024Annual Information Forma.review and discuss with Management and separately with the Independent Auditor the results of the Corporation's annual Independent Auditor assessment process; andb.at least annually, obtain and review a report from the Independent Auditor describing the firm's internal quality control processes and procedures, including any material issues raised by the most recent internal quality control review or peer review, or by any inquiry or investigation by governmental or professional authorities (including without limitation the PCAOB and the CPAB) within the preceding five (5) years with respect to independent audits carried out by the Independent Auditor, and any steps taken to address such issues.The Committee shall discuss any material issues identified with the Board and recommend any action that the Committee deems appropriate.5.7Â Â Â Â The Committee shall ensure the rotation of the audit partner(s) as required by applicable law and consider the need for rotation of the Independent Auditor.5.8Â Â Â Â The Committee shall meet with the Independent Auditor prior to the audit to discuss the planning and staffing of the audit, including the general approach, scope, areas subject to significant risk of material misstatement, estimated fees and other terms of engagement.B.Â Â Â Â Financial Reporting5.9Â Â Â Â In consultation with Management, the Independent Auditor and the Internal Auditor, the Committee shall review and satisfy itself as to: (i) the integrity of the Corporation's internal and external financial reporting processes; (ii) the adequacy and effectiveness of the Corporation's disclosure controls and procedures (including those pertaining to the review of disclosure containing financial information extracted or derived from the Corporation's financial statements) and internal controls over financial reporting; and (iii)Â the competence of the Corporation's personnel responsible for accounting and financial reporting. Without limiting the generality of the foregoing, the Committee shall receive and review:a.reports regarding: (i) critical accounting estimates, policies and practices; (ii) goodwill impairment testing; (iii) derivatives and hedges; (iv) any reserves, accruals, provisions and estimates that may have a material effect on the Corporation's financial statements; (v) any pro forma, adjusted or restated financial information, forecasts, or projections; and (vii) the effect of regulatory and accounting initiatives, as well as off-balance sheet arrangements, on the Corporation's financial statements;b.analyses by Management and the Independent Auditor regarding significant financial reporting issues and judgments made in connection with the preparation of the Corporation's consolidated financial statements including: (i) alternative treatments of financial information within generally accepted accounting principles related to material matters that have been discussed with Management, their ramifications and the treatment preferred by the Independent Auditor; (ii) major issues regarding auditing and accounting principles and presentations, including significant changes in the selection or application of auditing and accounting principles; and (iii) major issues regarding the adequacy of the Corporation's internal controls over financial reporting and disclosure controls and procedures and any specific audit steps adopted in light of material weaknesses or significant deficiencies in such controls; andc.other material written communication between Management and the Independent Auditor.5.10Â Â Â Â The Committee shall, prior to external release, if applicable, review and discuss with Management and the Independent Auditor, and with others as it deems appropriate:a.the Corporation's annual audited consolidated and non-consolidated financial statements and unaudited condensed consolidated interim financial statements and the Independent Auditor's related attestation reports, as well as any related MD&As;b.Management's report and the Independent Auditor's audit report on internal controls over financial reporting;c.significant reports or summaries thereof pertaining to the Corporation's processes for compliance with the requirements of the Sarbanes Oxley Act of 2002 with respect to internal controls over financial reporting;37December 31, 2024Annual Information Formd.Â Â Â Â the Independent Auditor's quarterly review reports and annual audit results report summarizing the scope, status, results and recommendations of the quarterly reviews of the Corporation's condensed consolidated interim financial statements and of the audit of the Corporation's annual consolidated financial statements and related audit of internal controls over financial reporting, and also containing at least: (i) the communications with respect thereto between the Independent Auditor and the Committee required by PCAOB Auditing Standard No. 1301 and any other applicable regulations and professional standards, including

without limitation schedules of corrected and uncorrected account and disclosure misstatements and significant deficiencies and material weaknesses in internal controls; (ii) the (at least) annual independence communication required by PCAOB Rule 3526; (iii) the Management representation letter; and (iv) the documentation and communication required quarterly from the Independent Auditor under the Corporation's Pre-Approval Policy for Independent Auditor Services;e.Â Â Â Â the report to shareholders contained in the Corporation's annual report; andf.Â Â Â Â any other document that the Committee determines should be reviewed and discussed with Management and the Independent Auditor or for which a legal or regulatory requirement in that regard exists.5.11Â Â Â Â The Committee shall, prior to external release, review and discuss with Management and with others as it deems appropriate, the financial information to be disclosed in the Corporation's interim and annual earnings releases or other news releases.5.12Â Â Â Â The Committee shall recommend the Corporation's annual audited consolidated financial statements together with the Independent Auditor's audit report thereon and on internal controls over financial reporting, Management's report on internal controls over financial reporting and disclosure controls and procedures, MD&As, earnings releases, and reports to shareholders for approval by the Board and subsequent external release, as well as inclusion of the noted financial statements in the Corporation's annual reports on Form 40-F. The Committee shall approve the external release of the Corporation's unaudited condensed consolidated interim financial statements and related interim MD&As and earnings releases on behalf of the Board.5.13Â Â Â Â The Committee shall, prior to external release, review and discuss with Management and with others as it deems appropriate, and recommend for approval by the Board:a.any future oriented financial information, financial outlooks, and earnings or dividend guidance to be provided by the Corporation;b.the Annual Information Form and Management Information Circular to be filed by the Corporation;c.any prospectus or other offering documents and documents related thereto for the issuance of securities by the Corporation; andd.other disclosure documents to be released publicly by the Corporation containing or derived from financial information.5.14Â Â Â Â The Committee shall review, discuss with Management and with others as it deems appropriate, the disclosures made by the Chief Executive Officer and Chief Financial Officer of the Corporation pursuant to their certification of the Corporation's annual and quarterly reports regarding significant deficiencies or material weaknesses in the design or operation of internal controls over financial reporting and any alleged fraud involving Management or other employees.5.15Â Â Â Â The Committee shall ensure that action is taken by Management to remediate any material weaknesses or significant deficiencies identified in the design or operation of internal controls over financial reporting in a timely manner.5.16Â Â Â Â The Committee shall use reasonable efforts to satisfy itself as to the appropriateness of the Corporation's material financing, capital and tax structures.5.17Â Â Â Â The Committee shall review, discuss with Management and with others as it deems appropriate, financial information provided to analysts and ratings agencies. Such discussions may be in general terms (i.e., discussion of the types of information to be disclosed and the types of presentations to be made) and need not occur in advance of each release of information.5.18Â Â Â Â The Committee shall prepare, or cause to be prepared, any reports of the Committee required to be included in the Corporation's public disclosures or otherwise required by applicable laws.5.19Â Â Â Â The Committee shall review, discuss with Management and with others as it deems appropriate, and approve all Related Party Transactions and the disclosure thereof.C.Â Â Â Â Internal Audit5.20Â Â Â Â The Committee shall be responsible for the appointment and oversight of the Internal Auditor in accordance with the Policy on the Role of the Internal Audit Function and has the authority to communicate directly with the Internal Auditor.5.21Â Â Â Â The Committee shall review and discuss with the Internal Auditor and others as it deems appropriate, and approve the annual internal audit plan.38December 31, 2024Annual Information Form5.22Â Â Â Â The Committee shall review and discuss with Management, the Internal Auditor and others as it deems appropriate, the quarterly internal audit reports prepared for the Committee (which shall incorporate all significant activities of the internal audit function for the quarter) and any Management responses thereto.5.23Â Â Â Â The Committee shall periodically discuss with the Internal Auditor any significant difficulties, disagreements with Management, or scope restrictions encountered in the course of carrying out the work of the internal audit function.5.24Â Â Â Â The Committee shall periodically discuss with the Internal Auditor the internal audit function's responsibility, budget, staffing and compensation.5.25Â Â Â Â The Committee shall satisfy itself as to the performance of the internal audit function and the integrity and qualifications of its staff.D.Â Â Â Â Risk Management and Other5.26Â Â Â Â The Committee shall be responsible for the oversight of the ERM Program, including ensuring that Management has in place policies, processes, procedures and the appropriate organizational structure, budget and resources to manage significant risks, and shall report any actions or findings of the ERM Program to the Board.5.27Â Â Â Â The Committee shall review and discuss with Management and others as it deems appropriate Management's report regarding identifying, assessing, managing and mitigating significant risks and related matters identified pursuant to the ERM Program.5.28Â Â Â Â The Committee shall satisfy itself as to the appropriateness of the Corporation's internal controls and processes associated with the release of any sustainability disclosures and may consult with the third party retained by the Corporation to provide independent assurance in respect of the Corporation's sustainability disclosures. 5.29Â Â Â Â The Committee shall review and discuss with Management and others as it deems appropriate the quarterly report prepared by Management regarding significant litigation and other material legal matters that could have a significant impact on the Corporation or its financial statements.5.30Â Â Â Â The Committee shall be responsible for the oversight of the Corporation's insurance programs, any renewals or replacements thereof, including in respect of directors' and officers' insurance and indemnification of Directors.E.Â Â Â Â Policies and Mandate5.31Â Â Â Â The Committee is responsible for the oversight of the following policies:a.Policy on Reporting Allegations of Suspected Improper Conduct and Wrongdoing (Speak Up Policy), including overseeing procedures for the receipt, retention, and treatment of complaints regarding accounting, internal controls, or auditing matters as well as procedures for confidential, anonymous submissions by employees regarding questionable accounting or auditing matters as required by applicable law;b.Derivative Instruments and Hedging Policy;c.Pre-Approval Policy for Independent Auditor Services;d.Guidelines for Hiring Employees or Former Employees of the Independent Auditor;e.Policy on the Role of the Internal Audit Function;f.Disclosure Policy; andg.other policies that may be established from time-to-time regarding accounting, financial reporting, disclosure controls and procedures, internal controls over financial reporting, oversight of the external audit of the Corporation's financial statements, and oversight of the internal audit function.5.32Â Â Â Â The Committee shall periodically review this Mandate and the policies in Section 5.30 and recommend any necessary amendments to the Governance and Sustainability Committee for consideration and recommendation to the Board for approval, as deemed appropriate.39December 31, 2024Annual Information Form6.0Â Â Â Â REPORTING6.1Â Â Â Â The Chair, or another designated Member, shall report to the Board at each regular meeting on those matters that were dealt with by the Committee since the last regular meeting of the Board.7.0Â Â Â Â REMUNERATION OF MEMBERS7.1Â Â Â Â Members and the Chair shall receive such remuneration for their service on the Committee as the Board may determine from time to time, having considered the recommendation of the Governance and Sustainability Committee.8.0Â Â Â Â GENERAL8.1Â Â Â Â This Mandate shall be posted on the Corporation's corporate website at www.fortisinc.com.8.2Â Â Â Â The Committee shall annually review its own effectiveness and performance.8.3Â Â Â Â The Committee shall perform any other activities consistent with this Mandate, the Corporation's by-laws and applicable laws, that the Board or Committee determines are necessary or appropriate.8.4Â Â Â Â The Committee may, in its discretion and in circumstances that it considers appropriate, obtain advice and assistance from outside legal, accounting and other advisors and approve the engagement by the Committee or any Member of outside advisors or persons having special expertise, all at the expense of the Corporation. The Corporation shall provide appropriate compensation, as determined by the Committee, for the Independent Auditor, to any independent counsel or other advisors that the Committee chooses to engage, and for payment of ordinary administrative expenses of the Committee that are necessary and appropriate in carrying out its duties and responsibilities.8.5Â Â Â Â The Committee is not responsible for certifying the accuracy or completeness of the Corporation's financial statements or their presentation in accordance with generally accepted accounting principles, or for guaranteeing the accuracy of the attestation reports of the Independent Auditor. The fundamental responsibility for the Corporation's financial statements and reporting, internal controls over financial reporting and disclosure controls and processes rests with Management and, in accordance with its professional responsibilities, the Independent Auditor. Nothing in this Mandate is intended to modify or augment the obligations of the Corporation or the fiduciary duties of the members of the Committee or the Board under applicable laws.40December 31, 2024Annual Information FormEXHIBIT D:MATERIAL CONTRACTSThe following are the material contracts of Fortis filed on SEDAR+ and EDGAR during 2024 or which were entered into prior to 2024 and are still in effect. Requests for additional copies of these material contracts should be directed to the Executive Vice President, Sustainability and Chief Legal Officer, Fortis, P.O. Box 8837, St. John's, NL, A1B 3T2 (telephone: 709.737.2800). All such contracts are also available under the Corporation's profile at www.sedarplus.ca and www.sec.gov. Revolving Credit FacilityFortis is a party to a Fourth Amended and Restated Credit Facility dated May 4, 2022, with The Bank of Nova Scotia as underwriter, sole lead arranger, book runner, sustainability structuring agent and administrative agent and Canadian Imperial Bank of Commerce and Royal Bank of Canada as co-syndication agents, and the lenders party thereto from time to time, as amended by the First Amending Agreement dated May 4, 2023 and the Second Amending Agreement dated June 6, 2024 between Fortis, The Bank of Nova Scotia and the lenders named therein. The Fourth Amended and Restated Credit Facility is a $1.3 billion unsecured committed revolving credit facility and contains the terms and conditions upon which such credit is available to Fortis during the duration of the facility. The Fourth Amended and Restated Credit Facility contains customary representations and warranties, affirmative and negative covenants and events of default. Customary fees are payable by Fortis in respect of the facility and amounts outstanding under the facility bear interest at market rates.Amended and Restated Shareholders' AgreementOn January 28, 2021, ITC Investment Holdings, ITC Holdings, FortisUS and Eiffel Investment, an affiliate of GIC, entered into an Amended and Restated Shareholders' Agreement, amending the shareholders' agreement among the parties originally entered into on October 14, 2016. The Amended and Restated Shareholders' Agreement governs the rights of the parties in their respective capacities as direct or indirect shareholders of ITC Holdings. Under the terms of the Amended and Restated Shareholders' Agreement, Eiffel Investment has certain minority approval rights relating to ITCÂ Investment Holdings and ITC Holdings which depend on: (x) whether Eiffel Investment is a holder of Class A common stock or Class B non-voting common stock at the relevant time; and (y) the satisfaction by Eiffel Investment of certain ownership thresholds with respect to ITCÂ Investment Holdings. The minority approval rights available to Eiffel Investment contingent on its ITC Investment Holdings share class and percentage ownership include rights with respect to: (i) amendments to charter documents; (ii)Â changes in board size; (iii) issuances of equity; (iv)Â business combinations that would impact Eiffel Investment differently than other shareholders; (v)Â insolvency; (vi)Â certain acquisitions of, investments in, or joint ventures relating to non-core assets, or certain material sales or dispositions of core assets; (vii)Â in limited circumstances, the incurrence of indebtedness by ITC Investment Holdings, ITCÂ Holdings or its subsidiaries or the taking of certain actions that would reasonably be expected to result in the long-term unsecured indebtedness of ITCÂ Investment Holdings, ITCÂ Holdings and its subsidiaries being rated below investment grade; (viii)Â actions that would cause a ratio of ITCÂ Holding's cash flow to debt to exceed an agreed targeted threshold; (ix)Â limitations on corporate overhead costs paid by ITCÂ Holdings to Fortis; and (x)Â expansion of the core business outside ITCÂ Holdings' current regulatory jurisdictions. The Amended and Restated Shareholders' Agreement also provides for a dividend policy, which can be amended only with the approval of all the independent directors of ITCÂ Investment Holdings.Indenture and First Supplemental IndentureOn October 4, 2016, Fortis entered into an Indenture and a First Supplement thereto with The Bank of NewÂ YorkÂ Mellon, as U.S. trustee, and BNY Trust Company of Canada, as Canadian co-trustee. The Indenture and the FirstÂ Supplement set forth the terms of the Corporation's currently outstanding US$1.1 billion aggregate principal amount of 3.055% Unsecured Notes due 2026. The Indenture contains customary covenants, events of default and rights for the benefit of security holders and the trustees. An unlimited amount of debt securities may be issued under the Indenture, which is governed by the laws of the State of New York.Indenture and Supplemental IndenturesThe Corporation currently has outstanding $2 billion aggregate principal amount of senior unsecured notes pursuant to an Indenture dated December 12, 2016 and four supplemental indentures thereto with Computershare Trust Company of Canada, as trustee, as follows: the Second Supplemental Indenture dated May 14, 2021 sets out the terms of the Corporation's $500 million 2.18% senior unsecured notes due 2028; the Third Supplemental Indenture dated May 31, 2022 sets forth the terms of the Corporation's $500 million 4.431% senior unsecured notes due 2029; the Fourth Supplemental Indenture dated November 8, 2023 sets forth the terms of the Corporation's $500 million 5.677% senior unsecured notes due 2033; and the Fifth Supplemental Indenture dated September 9, 2024 sets forth the terms of the Corporation's $500 million 4.171% senior unsecured notes due 2031. The Indenture contains customary covenants, events of default and rights for the benefit of security holders and the trustee. An unlimited amount of debt securities may be issued under the Indenture, which is governed by the laws of the Province of Newfoundland and Labrador and the laws of Canada applicable therein.41December 31, 2024 EX-99.2 4 fts-20241231_d2.htm EX-99.2 fts-20241231_d2Exhibit 99.2Consolidated Financial StatementsFORTIS INC.Audited Consolidated Financial StatementsAs at and for the years ended DecemberÂ 31, 2024 and 20231FORTIS INC.DECEMBER 31, 2024Consolidated Financial StatementsTable of ContentsManagement's Report on Internal Control over Financial Reporting2NOTE 9Other Assets23Report of Independent Registered Public Accounting FirmNOTE 10Property, Plant and Equipment23("PCAOB ID No. 01208") - Opinion on the Financial Statements3NOTE 11Intangible Assets24Report of Independent Registered Public Accounting Firm - Opinion onNOTE 12Goodwill25Internal Control over Financial Reporting5NOTE 13Accounts Payable and Other Current Liabilities25Consolidated Balance Sheets6NOTE 14Long-Term Debt26Consolidated Statements of Earnings7NOTE 15Leases29Consolidated Statements of Comprehensive Income7NOTE 16Other Liabilities30Consolidated Statements of Cash Flows8NOTE 17Earnings Per Common Share31Consolidated Statements of Changes in Equity9NOTE 18Preference Shares31Notes to Consolidated Financial StatementsNOTE 19Accumulated Other Comprehensive Income33NOTE 1Description of Business10NOTE 20Stock-Based Compensation Plans33NOTE 2Regulation11NOTE 21Disposition35NOTE 3Summary of Significant Accounting Policies13NOTE 22Other Income, Net36NOTE 4Segmented Information19NOTE 23Income Taxes36NOTE 5Revenue20NOTE 24Employee Future Benefits37NOTE 6Accounts Receivable and Other Current Assets21NOTE 25Supplementary Cash Flow Information41NOTE 7Inventories21NOTE 26Fair Value of Financial Instruments and Risk Management41NOTE 8Regulatory Assets and Liabilities21NOTE 27Commitments and Contingencies45MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTINGManagement of Fortis Inc. and its subsidiaries (the "Corporation") is responsible for establishing and maintaining adequate internal control over financial reporting ("ICFR"). The Corporation's ICFR is designed by, or under the supervision of, the Corporation's President and Chief Executive Officer ("CEO") and Executive Vice President, Chief Financial Officer ("CFO") and effected by the Corporation's board of directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Because of its inherent limitations, ICFR may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.The Corporation's management, including its CEO and CFO, assessed the effectiveness of the Corporation's ICFR as of DecemberÂ 31, 2024, based on the criteria set forth in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management concluded that, as of DecemberÂ 31, 2024, the Corporation's ICFR was effective.The Corporation's ICFR as of DecemberÂ 31, 2024 has been audited by Deloitte LLP, an Independent Registered Public Accounting Firm, which also audited the Corporation's consolidated financial statements for the year ended DecemberÂ 31, 2024. Deloitte LLP issued an unqualified opinion for both audits.FebruaryÂ 13, 2025/s/ David G. Hutchens/s/ Jocelyn H. PerryDavid G. HutchensJocelyn H. PerryPresident and Chief Executive Officer, Fortis Inc.Executive Vice President, Chief Financial Officer, Fortis Inc.St. John's, Canada2FORTIS INC.DECEMBER 31, 2024Consolidated Financial StatementsREPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRMTo the Shareholders and the Board of Directors of Fortis Inc. Opinion on the Financial StatementsWe have audited the accompanying consolidated balance sheets of Fortis Inc. and subsidiaries (the "Corporation") as of DecemberÂ 31, 2024 and 2023, the related consolidated statements of earnings, comprehensive income, cash flows, and changes in equity, for each of the two years in the period ended DecemberÂ 31, 2024, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Corporation as of DecemberÂ 31, 2024 and 2023, and the results of its operations and its cash flows for each of the two years in the period ended DecemberÂ 31, 2024, in conformity with accounting principles generally accepted in the United States of America.We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Corporation's internal control over financial reporting as of DecemberÂ 31, 2024, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated FebruaryÂ 13, 2025, expressed an unqualified opinion on the Corporation's internal control over financial reporting.Basis for OpinionThese financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on the Corporation's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Corporation in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the

PCAOB.We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.Critical Audit MattersThe critical audit matters communicated below are matters arising from the current-period audit of the financial statements that were communicated or required to be communicated to the audit committee and that (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.Assessment for Impairment of Goodwill - Refer to Notes 3 and 12 to the financial statementsCritical Audit Matter DescriptionThe Corporation assesses goodwill for impairment annually as well as whenever any event or other change indicates that the fair value of a reporting unit may be below its carrying value. Management has determined that there is no impairment based on its current annual assessment.Management's assessment primarily utilizes the income approach which is based on underlying estimates and assumptions with varying degrees of uncertainty. Those with the highest degree of subjectivity and impact are the assumed terminal growth rates and discount rates. Auditing these estimates and assumptions required a high degree of audit judgment and effort, including the involvement of a fair value specialist.How the Critical Audit Matter Was Addressed in the AuditOur audit procedures related to the terminal growth rate and discount rate used by management to estimate the fair value of more recently acquired reporting units included the following, among others:â€¢Evaluating the effectiveness of controls over the estimated fair value of the reporting units, including the review and approval of the terminal growth rate and discount rate selected by management.â€¢Evaluating management's ability to accurately forecast the terminal growth rate by:â€¢Assessing the methodology used in management's determination of the terminal growth rate; andâ€¢Comparing management's assumptions to historical data and available market projection data.â€¢With the assistance of a fair value specialist, evaluating the reasonableness of the discount rate by:â€¢Testing the source information underlying the determination of the discount rate; andâ€¢Developing a range of independent estimates and comparing those to the discount rate selected by management.3FORTIS INC.DECEMBER 31, 2024Consolidated Financial StatementsImpact of Rate Regulation on the financial statements - Refer to Notes 2, 3 and 8 to the financial statementsCritical Audit Matter DescriptionThe Corporation's regulated utilities are subject to rate regulation and annual earnings oversight by various federal, state and provincial regulatory authorities who have jurisdiction in the United States and Canada. Rates and resultant earnings of the Corporation's regulated utilities are determined under cost of service regulation, with some using performance-based rate-setting mechanisms. The regulation of rates is premised on the full recovery of prudently incurred costs and a reasonable rate of return on asset value ("ROA") or common shareholders' equity ("ROE"). Regulatory decisions can have an impact on the timely recovery of costs and the regulator-approved ROE and/or ROA. Accounting for the economics of rate regulation impacts multiple financial statement line items and disclosures, such as property, plant, and equipment; regulatory assets and liabilities; operating revenues and expenses; income taxes; and depreciation expense.We identified the impact of rate regulation as a critical audit matter due to the significant judgments made by management to support its assertions about impacted account balances and disclosures and the high degree of subjectivity involved in assessing the potential impact of future regulatory orders on the financial statements. Management judgments include assessing the likelihood of recovery of costs incurred or a refund to customers through the rate-setting process. While the Corporation's regulated utilities have indicated they expect to recover costs from customers through regulated rates, there is a risk that the respective regulatory authority will not approve full recovery of the costs incurred and a reasonable ROE and/or ROA. Auditing these matters required especially subjective judgment and specialized knowledge of accounting for rate regulation due to its inherent complexities across different jurisdictions.How the Critical Audit Matter Was Addressed in the AuditOur audit procedures related to the likelihood of recovery of costs incurred or a refund to customers through the rate-setting process, included the following, among others:â€¢Evaluating the effectiveness of controls over the monitoring and evaluation of regulatory developments that may affect the likelihood of recovering costs in future rates or of a future reduction in rates.â€¢Assessing relevant regulatory orders, regulatory statutes and interpretations as well as procedural memorandums, utility and intervener filings, and other publicly available information to evaluate the likelihood of recovery in future rates or of a future reduction in rates and the ability to earn a reasonable ROA or ROE.â€¢For regulatory matters in progress, inspecting the regulated utilities' filings for any evidence that might contradict management's assertions. We obtained an analysis from management and letters from internal and external legal counsel, as appropriate, regarding cost recoveries or a future reduction in rates.â€¢Evaluating the Corporation's disclosures related to the impacts of rate regulation, including the balances recorded and regulatory developments./s/ Deloitte LLPChartered Professional AccountantsSt. John's, CanadaFebruaryÂ 13, 2025We have served as the Corporation's auditor since 2017.4FORTIS INC.DECEMBER 31, 2024Consolidated Financial StatementsREPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRMTo the Shareholders and the Board of Directors of Fortis Inc.Opinion on Internal Control over Financial ReportingWe have audited the internal control over financial reporting of Fortis Inc. and subsidiaries (the "Corporation") as of DecemberÂ 31, 2024, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Corporation maintained, in all material respects, effective internal control over financial reporting as of DecemberÂ 31, 2024, based on criteria established in Internal Control - Integrated Framework (2013) issued by COSO.We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended DecemberÂ 31, 2024, of the Corporation and our report dated FebruaryÂ 13, 2025, expressed an unqualified opinion on those financial statements.Basis for Opinion The Corporation's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Corporation's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Corporation in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.Definition and Limitations of Internal Control over Financial ReportingA company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate./s/ Deloitte LLPChartered Professional AccountantsSt. John's, CanadaFebruaryÂ 13, 20255FORTIS INC.DECEMBER 31, 2024Consolidated Financial StatementsCONSOLIDATED BALANCE SHEETSFORTIS INC.As at December 31 (in millions of Canadian dollars)2024Â 2023Â ASSETSCurrent assetsCash and cash equivalents$220Â $625Â Accounts receivable and other current assets (Note 6)1,886Â 1,818Â Prepaid expenses182Â 150Â Inventories (Note 7)685Â 566Â Regulatory assets (Note 8)823Â 866Â Total current assets3,796Â 4,025Â Other assets (Note 9)1,653Â 1,298Â Regulatory assets (Note 8)3,808Â 3,518Â Property, plant and equipment, net (Note 10)49,456Â 43,385Â Intangible assets, net (Note 11)1,661Â 1,510Â Goodwill (Note 12)13,112Â 12,184Â Total assets$73,486Â $65,920Â LIABILITIES AND EQUITYCurrent liabilitiesShort-term borrowings (Note 14)$98Â $119Â Accounts payable and other current liabilities (Note 13)3,353Â 2,972Â Regulatory liabilities (Note 8)595Â 577Â Current installments of long-term debt (Note 14)1,990Â 2,296Â Total current liabilities6,036Â 5,964Â Regulatory liabilities (Note 8)3,696Â 3,381Â Deferred income taxes (Note 23)5,020Â 4,399Â Long-term debt (Note 14)31,224Â 27,235Â Finance leases (Note 15)343Â 339Â Other liabilities (Note 16)1,314Â 1,270Â Total liabilities47,633Â 42,588Â Commitments and contingencies (Note 27)EquityCommon shares (1) 15,589Â 15,108Â Preference shares (Note 18)1,623Â 1,623Â Additional paid-in capital8Â 9Â Accumulated other comprehensive income (Note 19)2,067Â 653Â Retained earnings4,521Â 4,112Â Shareholders' equity23,808Â 21,505Â Non-controlling interests 2,045Â 1,827Â Total equity25,853Â 23,332Â Total liabilities and equity$73,486Â $65,920Â (1) No par value. DESCRIPTION OF BUSINESSFortis Inc. ("Fortis" or the "Corporation") is a well-diversified North American regulated electric and gas utility holding company. Entities within the reporting segments that follow operate with substantial autonomy. Regulated Utilities ITC: ITC Investment Holdings Inc., ITC Holdings Corp. and the electric transmission operations of its regulated operating subsidiaries, which include International Transmission Company ("ITCTransmission"), Michigan Electric Transmission Company, LLC ("METC"), ITC Midwest LLC ("ITCÂ Midwest"), and ITC Great Plains, LLC. Fortis owns 80.1% of ITC and an affiliate of GIC Private Limited owns a 19.9% minority interest.ITC owns and operates high-voltage transmission lines in Michigan's lower peninsula and portions of Iowa, Minnesota, Illinois, Missouri, Kansas, Oklahoma and Wisconsin.UNS Energy: UNS Energy Corporation, which primarily includes Tucson Electric Power Company ("TEP"), UNS Electric, Inc. ("UNSÂ Electric") and UNS Gas, Inc. ("UNS Gas").UNS Energy's largest operating subsidiary, TEP, and UNS Electric are vertically integrated regulated electric utilities. They generate, transmit and distribute electricity to retail customers in southeastern Arizona, including the greater Tucson metropolitan area. TEP also sells wholesale electricity to other entities in the western United States. Together they own generating capacity of 3,442Â megawatts ("MW"), including 68 MW of solar capacity and 250 MW of wind capacity. Several generating assets in which they have an interest are jointly owned. UNS Gas is a regulated gas distribution utility serving retail customers in northern and southern Arizona. Central Hudson: CH Energy Group, Inc., which primarily includes Central Hudson Gas & Electric Corporation. Central Hudson is a regulated electric and gas transmission and distribution utility that serves portions of New York State's Mid-Hudson River Valley and owns gas-fired and hydroelectric generating capacity totallingÂ 43 MW.FortisBC Energy: FortisBC Energy Inc., which is the largest regulated distributor of natural gas in British Columbia, providing transmission and distribution services. FortisBC Energy sources natural gas supplies primarily from northeastern British Columbia and Alberta on behalf of most customers.FortisAlberta: FortisAlberta Inc. is a regulated electricity distribution utility operating in a substantial portion of southern and central Alberta. FortisAlberta is not involved in the direct sale of electricity. FortisBC Electric: FortisBC Inc. is an integrated regulated electric utility operating in the southern interior of BritishÂ Columbia. It owns four hydroelectric generating facilities with a combined capacity of 225Â MW. It also provides operating, maintenance and management services relating to five hydroelectric generating facilities in BritishÂ Columbia that are owned by third parties.Other Electric: Eastern Canadian and Caribbean utilities, as follows: Newfoundland Power Inc. ("Newfoundland Power"); MaritimeÂ Electric Company, Limited ("Maritime Electric"); FortisOntario Inc. ("FortisOntario"); a 39% equity investment in Wataynikaneyap Power Limited Partnership ("Wataynikaneyap Power"); an approximate 60% controlling interest in Caribbean Utilities Company, Ltd. ("Caribbean Utilities");

FortisTCI Limited and Turks and Caicos Utilities Limited (collectively, "FortisTCI"); and a 33% equity investment in Belize Electricity Limited ("Belize Electricity").Newfoundland Power is an integrated regulated electric utility and the principal distributor of electricity on the island portion of Newfoundland and Labrador with a generating capacity of 145Â MW,Â of which 98Â MW is hydroelectric. Maritime Electric is an integrated regulated electric utility and theÂ principal distributor of electricity on Prince Edward Island ("PEI") with on-Island generating capacity of 90Â MW. FortisOntario consists of three regulated electric utilities that provide service to customers in FortÂ Erie, Cornwall, Gananoque, Port Colborne and the District of Algoma in Ontario with a generating capacity of 3 MW. Wataynikaneyap Power is a transmission company majority-owned by 24 First Nations in which Fortis owns a 39% interest. The 1,800 kilometer Wataynikaneyap Power Transmission Line will connect 17 remote First Nations to the Ontario power grid.Caribbean Utilities is an integrated regulated electric utility and the sole electricity provider on Grand Cayman with a diesel-powered generating capacity of 166Â MW.Â FortisTCI consists of two integrated regulated electric utilities that provide electricity to certain Turks and Caicos Islands and has a generating capacity of 99 MW, including 95 MW of diesel-powered generating capacity and 4 MW of solar capacity. Belize Electricity is an integrated electric utility and the principal distributor of electricity in Belize. Non-Regulated Corporate and Other: Captures expenses and revenues not specifically related to anyÂ reportable segment and those business operations that are below the required threshold for segmented reporting. Consists of non-regulated holding company expenses, as well as non-regulated long-term contracted generation assets in Belize. The generation assets include three hydroelectric generating facilities with a combined generating capacity of 51 MW, held through the Corporation's indirectly wholly owned subsidiary Fortis Belize Limited, the output of which is sold to Belize ElectricityÂ underÂ 50-yearÂ power purchase agreements ("PPAs"). Also includes results for the Aitken Creek natural gas storage facility ("Aitken Creek") until the November 1, 2023 date of disposition (Note 21).10FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 20232. REGULATION GeneralThe earnings of the Corporation's regulated utilities are determined under cost of service ("COS") regulation, with some using performance-based rate setting ("PBR") mechanisms.Under COS regulation, the regulator sets customer rates to permit a reasonable opportunity for the timely recovery of the estimated costs of providing service, including a fair rate of return on a deemed or targeted capital structure applied to an approved regulatory asset value ("rate base"). PBR mechanisms generally apply a formula that incorporates inflation and assumed productivity improvements for a set term. The ability to recover prudently incurred costs of providing service and earn the regulatorâ€‘approved rate of return on common shareholders' equity ("ROE") and/or rate of return on rate base assets ("ROA") may depend on achieving the forecasts established in the rate-setting process. As well, the Corporation's regulated utilities, where applicable, are permitted by their respective regulators to flow through to customers, without markup, the cost of natural gas, fuel and/or purchased power through base customer rates and/or the use of rate stabilization and otherÂ mechanisms (Note 8). There can be varying degrees of regulatory lag between when costs are incurred and when they are reflected in customer rates.Nature of RegulationAllowedCommonEquity(%)Allowed ROE (1)(%)Regulated UtilityRegulatory Authority20242023Significant FeaturesITC Federal Energy Regulatory Commission ("FERC")60.0Â 10.73(2)10.77(2)Cost-based formula rates, with annual true-up mechanism (3)Incentive addersTEPArizona Corporation Commission ("ACC") 54.3Â 9.55Â 9.55Â (4)COS regulationHistorical test yearFERC(5)9.79Â 9.79Â Formula transmission ratesUNS ElectricACC53.7Â 9.75Â (6)9.50Â UNS GasACC50.8Â 9.75(7)9.75Â Central Hudson New York State Public Service Commission ("PSC")48.09.50(8)9.00Â COS regulationFuture test yearFortisBC Energy British Columbia Utilities Commission ("BCUC")45.0Â 9.659.65Â COS regulation with formula components and incentivesFortisBC ElectricBCUC41.0Â 9.659.65Â Future test yearFortisAlbertaAlberta Utilities Commission ("AUC")37.0Â 9.28 8.50Â PBR, with formula to calculate ROE on an annual basis (9)Newfoundland PowerNewfoundland and Labrador Board of Commissioners of Public Utilities45.0Â 8.508.50Â COS regulationFuture test yearMaritime ElectricIsland Regulatory and Appeals Commission40.0Â 9.359.35COS regulationFuture test yearFortisOntario (10)Ontario Energy Board40.0Â 8.52-9.308.52-9.30COS regulation with incentive mechanismsCaribbean Utilities (11)Utility Regulation and Competition OfficeN/A8.25-10.257.50-9.50COS regulationRate-cap adjustment mechanismbased on published consumer price indicesFortisTCI (12)Government of the Turks and Caicos IslandsN/A15.00-17.50 15.00-17.50 COS regulationHistorical test year(1)Â Â Â Â ROA for Caribbean Utilities and FortisTCI(2)Â Â Â Â Reflects the allowed common equity and ROE for ITCTransmission, METC, and ITC Midwest. The ROE above is inclusive of the base ROE as well as incentive adders totalling 0.75%. FERC issued an order in October 2024 retroactively revising the base ROE to certain prior periods including 2023. See "Significant Regulatory Matters" below(3)Â Â Â Â Annual true-up collected or refunded in rates within a two-year period(4)Â Â Â Â Allowed common equity of 54.3% and ROE of 9.55% effective September 1, 2023 (5)Â Â Â Â The allowed common equity component for FERC transmission rates is formulaic, and is updated annually based on TEP's actual equity ratio(6)Â Â Â Â Allowed common equity of 53.7% and ROE of 9.75% effective February 1, 2024 (7)Â Â Â Â A general rate application requesting new customer rates is ongoing. REGULATION (cont'd)Significant Regulatory MattersITCMISO Base ROE: In 2022, the U.S. Court of Appeals for the District of Columbia Circuit issued a decision vacating certain FERC orders that had established the methodology for setting the base ROE for transmission owners operating in the Midcontinent Independent System Operator, Inc. ("MISO") region, including ITC, and remanded the matter to FERC for further process. This matter dates back to complaints filed at FERC in 2013 and 2015 challenging the MISO base ROE then in effect. In October 2024, FERC issued an order that removed the use of the risk premium model from the calculation of the base ROE, while maintaining other modifications to the methodology. The updated methodology revised the base ROE from 10.02% to 9.98%, with a maximum ROE inclusive of incentives not to exceed 12.58%. The order also directed the payment of certain refunds, with interest, by December 2025, for the 15-month period from November 2013 through February 2015, and prospectively from September 2016. A regulatory liability of $39Â million (US$27Â million) associated with the refunds has been recognized by ITC as of December 31, 2024. Certain MISO transmission owners, including ITC, filed a request for rehearing with FERC in November 2024, and filed an appeal of the order with the D.C. Circuit Court in January 2025. The requests for rehearing and appeal primarily focus on the refund period and the related interest. The timing and outcome of these filings are unknown.Transmission Incentives: In 2021, FERC issued a supplemental notice of proposed rulemaking ("NOPR") on transmission incentives modifying the proposal in the initial NOPR released by FERC in 2020. The supplemental NOPR proposes to eliminate the 50-basis point regional transmission organization ("RTO") ROE incentive adder for RTO members that have been members for longer than three years. The timing and outcome of this proceeding remain unknown.Transmission Right of First Refusal ("ROFR"): In December 2023, the Iowa District Court ruled that the manner in which Iowa's ROFR statute was passed was unconstitutional. The statute granted incumbent electric transmission owners, including ITC, a ROFR to construct, own and maintain certain electric transmission assets in the state. The District Court did not make any determination on the merits of the ROFR itself, but did issue a permanent injunction preventing ITC and others from taking further action to construct the MISO long-range transmission plan ("LRTP") tranche 1 Iowa projects in reliance on the ROFR.In May 2024, MISO commenced a variance analysis process as a result of the inability to construct a portion of the tranche 1 LRTP projects in Iowa due to the injunction imposed by the District Court. In August 2024, MISO concluded the variance analysis, which reaffirmed the original allocation of projects to ITC and other incumbent transmission owners. While the results of MISO's variance analysis process allow ITC to move forward with the development of its portion of tranche 1 LRTP projects in Iowa, various legal proceedings with respect to this matter are ongoing for which the timing and outcome are unknown. UNS EnergyGeneric Regulatory Lag Docket: In December 2024, the ACC approved a formula rate plan policy statement which allows utilities to propose formula rates in future rate cases. A formula rate plan, if approved by the ACC, would adjust rates annually based on a predetermined formula. A formula rate plan is expected to improve rate stability for customers, while also reducing regulatory lag and the number of existing rate adjusters.UNS Gas General Rate Application: In November 2024, UNS Gas filed a general rate application with the ACC requesting an increase in gas delivery rates effective February 1, 2026. The application includes a request to set its ROE at 10.25% and a 56% common equity component of capital structure. In January 2025, UNS Gas filed supplemental material proposing an annual rate adjustment mechanism as a result of the ACC's formula rate policy statement discussed above. The timing and outcome of this proceeding are unknown.Central Hudson2025 General Rate Application: In August 2024, Central Hudson filed a general rate application with the PSC requesting an increase in electric and gas delivery rates effective July 1, 2025. The application includes a request to set Central Hudson's allowed ROE at 10% and a 48% common equity component of capital structure. The timing and outcome of this proceeding are unknown.Show Cause Order: In October 2024, the PSC issued a Show Cause Order which directed Central Hudson to explain why the PSC should not initiate an enforcement proceeding in connection with a gas-related explosion that occurred in November 2023. Central Hudson filed its response in NovemberÂ 2024. The timing and outcome of the Show Cause Order are unknown.FortisBC Energy and FortisBC Electric2025-2027 Rate Framework: In April 2024, FortisBC filed an application with the BCUC requesting approval of a rate framework for the period 2025 through 2027. The rate framework builds upon the current multi-year rate plan and includes, amongst other items, updates to depreciation and capitalized overhead rates, a revised level of operation and maintenance expense per customer indexed for inflation less a fixed productivity adjustment factor, a similar approach to growth capital, a forecast approach to sustaining and other capital, continued collection of an innovation fund recognizing the need to accelerate investment in clean energy innovation, and the continued sharing with customers of variances from the allowed ROE. The rate framework also proposes the continuation of deferral mechanisms currently in place. A decision from the BCUC is expected in mid-2025. 12FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 20232. REGULATION (cont'd)FortisAlbertaGeneric Cost of Capital ("GCOC") Decision: In October 2023, the AUC issued a decision on the 2024 GCOC proceeding. In November 2023, FortisAlberta sought permission to appeal the GCOC decision to the Court of Appeal of Alberta ("Court of Appeal") on the basis that the AUC erred in its decision to not adjust FortisAlberta's ROE and common equity component of capital structure to address incremental business risk associated with competition from Rural Electrification Associations ("REAs") located in FortisAlberta's service area, as well as heightened regulatory risk due to the non-recovery of costs attributable to REAs. In April 2024, the Court of Appeal granted FortisAlberta permission to appeal, and a decision is expected in the first quarter of 2025.Third PBR Term Decision: In October 2023, the AUC issued a decision establishing the parameters for the third PBR setting term for the period of 2024 through 2028. In November 2023, FortisAlberta sought permission to appeal the decision to the Court of Appeal on the basis that the AUC erred in its decision to determine capital funding using 2018-2022 historical capital investments without consideration for funding of new capital programs included in the company's 2023 cost of service revenue requirement as approved by the AUC. FortisAlberta's application for permission to appeal the decision was heard by the Court of Appeal in December 2024 and a decision is expected in the first quarter of 2025.3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES Basis of PresentationThese consolidated financial statements have been prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for rate-regulated entities, and are in Canadian dollars unless otherwise indicated.These consolidated financial statements include the accounts of the Corporation and its subsidiaries. They reflect the equity method of accounting for entities in which Fortis has significant influence, but not control, and proportionate consolidation for assets that are jointly owned with non-affiliated entities. Cash and Cash EquivalentsCash and cash equivalents include cash, cash held in margin accounts, and short-term deposits with initial maturities of three months or less from the date of deposit.Allowance for Credit LossesFortis and its subsidiaries recognize an allowance for credit losses to reduce accounts receivable for amounts estimated to be uncollectible. The allowance for credit losses is estimated based on historical collection patterns, sales, and current and forecast economic and other conditions. Accounts receivable are written off in the period in which they are deemedÂ uncollectible.Inventories Inventories, consisting of materials and supplies, gas, fuel and coal in storage, are measured at the lower of weighted average cost and net realizable value.Regulatory Assets and LiabilitiesRegulatory assets and liabilities arise as a result of the utility rate-setting process and are subject to regulatory approval. Regulatory assets represent future revenues and/or receivables associated with certain costsÂ incurred that will be, or are expected to be, recovered from customers in future periods through the rate-setting process. Regulatory liabilities represent: (i) future reductions or limitations of increases in revenue associated with amounts that will be, or are expected to be, refunded to customers through the rate-setting process; or (ii) obligations to provide future service that customers have paid for in advance.Certain remaining recovery and settlement periods are those expected by management and the actual periods could differ based on regulatory approval. InvestmentsInvestments are reviewed annually for potential impairment in value. Impairments are recognized when identified.13FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 20233. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)Property, Plant and EquipmentProperty, plant and equipment ("PPE") are recognized at cost less accumulated depreciation. Contributions in aid of construction by customers and governments are recognized as a reduction in the cost of, and are amortized in a manner consistent with, the related PPE.Depreciation rates of the Corporation's regulated utilities include a provision for estimated future removal costs not identified as a legal obligation. The provision is recognized as a long-term regulatory liability (Note 8) against which actual removal costs are netted when incurred.The Corporation's regulated utilities derecognize PPE on disposal or when no future economic benefits are expected from their use. Upon derecognition, any difference between cost and accumulated depreciation, net of salvage proceeds, is charged to accumulated depreciation. No gain or loss is recognized.Through methodologies established by their respective regulators, the Corporation's regulated utilities capitalize: (i) overhead costs that are not directly attributable to specific PPE but relate to the overall capital expenditure plan; and (ii) an allowance for funds used during construction ("AFUDC"). The debt component of AFUDC for 2024 totalled $74 million (2023 - $56 million) and is reported as a reduction of finance charges and the equity component is reported as other income (Note 22). Both components are recorded to earnings through depreciation expense over the estimated service lives of the applicable PPE. Excluding UNS Energy and Central Hudson, PPE includes inventory held for the development, construction and betterment of other assets. As required by its regulators, UNS Energy and CentralÂ Hudson recognize such items as inventory until used and reclassifies them to PPE once put into service.Repairs and maintenance costs are charged to earnings in the period incurred. Replacements and betterments that extend the useful lives of PPE are capitalized.PPE is depreciated using the straight-line method based on the estimated service lives of the assets. Depreciation rates for regulated PPE are approved by the respective regulators and ranged from 0.5% to 33.0% for 2024 (2023 - 0.5% to 35.0%). The weighted average composite rate of depreciation, before reduction for amortization of contributions in aid of construction, was 2.7% for 2024 (2023 â€“ 2.6%). The service life ranges and weighted average remaining service life of PPE as at DecemberÂ 31 were as follows.20242023(years)Service LifeRangesWeightedAverageRemainingService LifeService LifeRangesWeightedAverageRemainingService LifeDistributionElectric5-80325-8031Gas18-833718-9538TransmissionElectric20-854220-9041Gas10-803510-8536Generation2-95222-9523Other3-80133-8010Intangible AssetsIntangible assets are recorded at cost less accumulated amortization. Their useful lives are assessed to be either indefinite or finite.Intangible assets with indefinite useful lives are not amortized and are tested for impairment annually, either individually or, where the particular entity also has goodwill, at the reporting unit level in conjunction with goodwill impairment testing. An annual review is completed to determine whether the indefinite life assessment continues to be supportable. If not, the resultant changes are made prospectively.Intangible assets with finite lives are amortized using the straight-line method based on the estimated service lives of the assets. Amortization rates for regulated intangible assets are approved by the respective regulators and ranged from 1.0% to 33.0% for 2024 (2023 â€“ 1.0% to 33.0%).14FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 20233. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)The service lifeÂ ranges and weighted average remaining service life of finite-life intangible assets as at DecemberÂ 31Â were as follows.20242023(years)Service LifeRangesWeightedAverageRemainingService LifeService LifeRangesWeightedAverageRemainingService LifeComputer software3-1853-185Land, transmission and water rights30-855230-9052Other10-1001610-10014The Corporation's regulated utilities derecognize intangible assets on disposal or when no future economic benefits are expected from their use. Upon derecognition any difference between the cost and accumulated amortization of the asset, net of salvage proceeds, is charged to accumulated amortization. No gain or loss is recognized.Impairment of Long-Lived AssetsThe Corporation reviews the valuation of PPE, intangible assets with finite lives, and other long-term assets when events or changes in circumstances indicate that the total undiscounted cash flows expected to be generated by the asset may be below carrying value. If that is determined to be the case, the asset is written down to estimated fair value and an impairment loss is recognized.GoodwillGoodwillÂ represents the

excess of the purchase price over the fair value of the identifiable net assets related to business acquisitions. Goodwill at each of the Corporation's reporting units is tested for impairment annually and whenever an event or change in circumstances indicates that fair value may be below carrying value. If so determined, goodwill is written down to estimated fair value and an impairment loss is recognized.The Corporation performs a qualitative assessment on each reporting unit, and if it is determined that it is not likely that fair value is less than carrying value, then a quantitative estimate of fair value is not required. When a quantitative assessment is performed, the primary method for estimating fair value of the reporting units is the income approach, whereby net cash flow projections are discounted. Underlying estimates and assumptions, with varying degrees of uncertainty, include the amount and timing of expected future cash flows, growth rates, and discount rates. A secondary valuation, the market approach along with a reconciliation of the total estimated fair value of all the reporting units to the Corporation's market capitalization, is also performed and evaluated.Deferred Financing CostsIssue costs, discounts and premiums are recognized against, and amortized over the life of, the related long-term debt.Employee Future BenefitsFortis and each subsidiary maintain one or a combination of defined benefit pension ("DBP") and defined contribution pension plans, as well as other post-employment benefit ("OPEB") plans, including certain health and dental coverage and life insurance benefits, for qualifying members. The costs of defined contribution pension plans are expensed as incurred.For DBP and OPEB plans, the projected or accumulated benefit obligation and net benefit costs are actuarially determined using the projected benefits method prorated on service and management's best estimate of expected plan investment performance, salary escalation, retirement ages of employees and, for OPEB plans, expected health care costs. Discount rates reflect market interest rates on highâ€‘quality bonds with cash flows that match the timing and amount of expected pension or OPEB payments. DBP and OPEB plan assets are recognized at fair value. For the purpose of determining defined benefit pension cost, FortisBCÂ Energy and Newfoundland Power use the market-related value whereby investment returns in excess of, or below, expected returns are recognized in the asset value over a period of three years.The excess of any cumulative net actuarial gain or loss over 10% of the greater of: (i) the projected or accumulated benefitÂ obligation; and (ii) the fair value or market-related value, as applicable, of plan assets at the beginning of the fiscal year, along with unamortized past service costs, are deferred and amortized over the average remaining service period of active employees.The net funded or unfunded status of DBP and OPEB plans, measured as the difference between the fair value of the plan assets and the projected or accumulated benefit obligation, is recognized on the Corporation's consolidated balance sheets. 15FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 20233. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)For most of the Corporation's regulated utilities, any difference between DBP or OPEB plan costs ordinarily recognized under U.S. GAAP and those recovered from customers in current rates is subject to deferral account treatment and is expected to be recovered from, or refunded to, customers in future rates. In addition, any unamortized balances related to net actuarial gains and losses, past service costs and transitional obligations associated with DBP or OPEB plans, as applicable, which would otherwise be recognized in accumulated other comprehensive income, are subject to deferral account treatment (Note 8).LeasesA right-of-use asset and lease liability is recognized for leases with a lease term greater than 12 months. The right-of-use asset and liability are both measured at the present value of future lease payments, excluding variable payments that are based on usage or performance. Future lease payments include both lease components (e.g., rent, real estate taxes and insurance costs) and non-lease components (e.g., common area maintenance costs), which Fortis accounts for as a single lease component. The present value is calculated using the rate implicit in the lease or a lease-specific secured interest rate based on the remaining lease term. Renewal options are included in the lease term when it is reasonably certain that the option will be exercised. Finance leases are depreciated over the lease term, except where: (i) ownership of the asset is transferred at the end of the lease term, in which case depreciation is over the estimated service life of the underlying asset; and (ii) the regulator has approved a different recovery methodology for rate-setting purposes, in which case the timing of the expense recognition will conform to the regulator's requirements.Revenue RecognitionMost revenue is derived from energy sales and the provision of transmission services to customers based on regulator-approved tariff rates. Most contracts have a single performance obligation, being the delivery of energy or the provision of transmission services. No component of the transaction price is allocated to unsatisfied performance obligations. Energy sales are generally measured in kilowatt hours, gigajoules or transmission load delivered. The billing of energy sales is based on customer meter readings, which occur systematically throughout each month. The billing of transmission services at ITC is based on peak monthly load.FortisAlberta is a distribution company and is required by its regulator to arrange and pay for transmission services with the Alberta Electric System Operator ("AESO"). This includes the collection of transmission revenue from its customers, which occurs through the transmission component of its regulator-approved rates. FortisAlberta reports transmission revenue and expenses on a net basis. Electricity, gas and transmission service revenue includes an estimate for unbilled energy consumed or service provided since the last meter reading that has not been billed at the end of the reporting period. Sales estimates generally reflect an analysis of historical consumption in relation to key inputs, such as current energy prices, population growth, economic activity, weather conditions and system losses. Unbilled revenue accruals are adjusted in the periods actual consumption becomes known.Generation revenue from non-regulated operations is recognized on delivery at contracted fixed or market rates.Variable consideration is estimated at the most likely amount and reassessed at each reporting date until the amount is known. Variable consideration, including amounts subject to a future regulatory decision, is recognized as a refund liability until entitlement is probable.Revenue excludes sales and municipal taxes collected from customers.The Corporation has elected not to assess or account for any significant financing components associated with revenue billed in accordance with equal payment plans as the period between the transfer of energy to customers and the customers' payment is less than one year.Stock-Based CompensationFortis recognizes liabilities associated with directors' deferred share units ("DSUs"), performance share units ("PSUs") and restricted share unitsÂ ("RSUs").Â DSUs represent cash-settled awards whereas PSUs and RSUs represent cash or share-settled awards. The fair value of these liabilities is based on the five-day volume weighted average price ("VWAP") of the Corporation's common shares at the end of each reporting period. The fair value of the PSU liability is also based on the expected payout probability, based on historical performance in accordance with the defined metrics of each grant and management's best estimate. Compensation expense is recognized on a straight-line basis over the vesting period, which for PSUs and RSUs is over the lesser of three years or the period to retirement eligibility and for DSUs is at the time of grant. Forfeitures are accounted for as they occur. 16FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 20233. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)Foreign Currency TranslationAssets and liabilities of the Corporation's foreign operations, all of which have a U.S.Â dollar functional currency, are translated at the exchange rate in effect at the balance sheet date and the resultant unrealized translation gains and losses are recognized in accumulated other comprehensive income. TheÂ exchange rate as at DecemberÂ 31, 2024 was US$1.00=CA$1.44 (2023 â€“ US$1.00=CA$1.32). Revenue and expenses of the Corporation's foreign operations are translated at the average exchange rate for theÂ reporting period, which was US$1.00=CA$1.37 for 2024 (2023 - US$1.00=CA$1.35). Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate prevailing at the balance sheet date. Revenue and expenses denominated in foreign currencies are translated at the exchange rate prevailing at the transaction date. Translation gains and losses are recognized in earnings.Translation gains and losses on foreign currency-denominated debt that is designated as an effective hedge of foreign net investments are recognized in other comprehensive income. Derivatives and HedgingDerivatives Not Designated as HedgesDerivatives not designated as hedges are used by: (i) Fortis, to manage cash flow risk associated with forecast U.S. dollar cash inflows and forecast future cash settlements of DSU, PSU and RSU obligations; and (ii)Â UNSÂ Energy, to meet forecast load and reserve requirements. Aitken Creek, to its date of disposition, utilized derivatives to manage commodity price risk, capture natural gas price spreads, and manage the financial risk of physical transactions (Note 21). Derivatives are measured at fair value with changes thereto recognized in earnings.Derivatives not designated as hedges are also used by UNS Energy, Central Hudson and FortisBCÂ Energy to reduce energy price risk associated with purchased power and gas requirements. The settled amounts of these derivatives are generally included in regulated rates, as permitted by the respective regulators. These derivatives are measured at fair value with changes recognized as regulatory assets or liabilities for recovery from, or refund to, customers in future rates (Note 8).Derivatives that meet the normal purchase or normal sale scope exception are not measured at fair value and settled amounts are recognized in earnings as energy supply costs.Derivatives Designated as HedgesFortis, ITC and Central Hudson use cash flow hedges, from time to time, to manage interest rate risk. Unrealized gains and losses are initially recognized in accumulated other comprehensive income and reclassified to earnings when the underlying hedged transaction affects earnings. The Corporation's earnings from, and net investments in, foreign subsidiaries and certain equity-accounted investments are exposed to fluctuations in the U.S. dollar-to-Canadian dollar exchange rate. The Corporation has hedged a portion of this exposure through U.S. dollar-denominated debt at the corporate level. Exchange rate fluctuations associated with the translation of this debt and the foreign net investments are recognized in accumulated other comprehensive income.Presentation of DerivativesThe fair value of derivatives is recognized as current or long-term assets and liabilities depending on the timing of settlements and resulting cash flows. Derivatives under master netting agreements and collateral positions are presented on a gross basis. Cash flows associated with the settlement of all derivatives are presented in operating activities in the consolidated statements of cash flows.Income TaxesThe Corporation and its taxable subsidiaries follow the asset and liability method of accounting for income taxes. Current income tax expense or recovery is recognized for the estimated income taxes payable or receivable in the current year.Deferred income tax assets and liabilities are recognized for temporary differences between the tax and accounting basis of assets and liabilities, as well as for the benefit of losses available to be carried forward to future years for tax purposes that are "more likely than not" to be realized. They are measured using enacted income tax rates and laws in effect when the temporary differences are expected to be recovered or settled. The effect of a change in income tax rates on deferred income tax assets and liabilities is recognized in earnings in the period when the change occurs. Valuation allowances are recognized when it is "more likely than not" that all of, or a portion of, a deferred income tax asset will not be realized. Customer rates at ITC, UNS Energy, Central Hudson and Maritime Electric reflect current and deferred income tax. Customer rates at FortisAlberta reflect current income tax. Customer rates at FortisBCÂ Energy, FortisBCÂ Electric, Newfoundland Power and FortisOntario reflect current income tax and, for certain regulatory balances, deferred income tax. Caribbean Utilities, FortisTCI and Fortis Belize are not subject to income tax. Differences between the income tax expense or recovery recognized under U.S. GAAP and reflected in current customer rates, which is expected to be recovered from, or refunded to, customers in future rates, are recognized as regulatory assets or liabilities (Note 8). 17FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 20233. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)Income Taxes (cont'd)Fortis does not recognize deferred income taxes on temporary differences related to investments in foreign subsidiaries where it intends to indefinitely reinvest earnings. The difference between the carrying values of these foreign investments and their tax bases, resulting from unrepatriated earnings and currency translation adjustments, is approximately $8.1Â billion as at DecemberÂ 31, 2024 (2023 - $6.3Â billion). If such earnings are repatriated, the Corporation may be subject to income taxes and foreign withholding taxes. The determination of the amount of unrecognized deferred income tax liabilities on such amounts is impractical.Tax benefits associated with actual or expected income tax positions are recognized when the "more likely than not" recognition threshold is met. The tax benefits are measured at the largest amount of benefit that is greater than 50% likely to be realized upon settlement.Income tax interest and penalties are recognized as income tax expense when incurred.Asset Retirement Obligations The Corporation's subsidiaries have asset retirement obligations ("AROs") associated with certain generation, transmission, distribution and interconnection assets, including land and environmental remediation and/or asset removal. These assets and related licences, permits, rights-of-way and agreements are reasonably expected to effectively exist and operate in perpetuity due to their nature. Consequently, where the final date and cost of remediation and/or removal of the noted assets cannot be reasonably determined, AROs have not been recognized.Otherwise, AROs are recognized at fair value in the period incurred as an increase in PPE and long-term other liabilities (Note 16) if a reasonable estimate of fair value can be determined. Fair value is estimated as the present value of expected future cash outlays, discounted at a credit-adjusted risk-free interest rate. The increase in the liability due to the passage of time is recognized through accretion and the capitalized cost is depreciated over the useful life of the asset. Accretion and depreciation expense are deferred as a regulatory asset or liability based on regulatory recovery of these costs. Actual settlement costs are recognized as a reduction in the accrued liability.ContingenciesFortis and its subsidiaries are subject to various legal proceedings and claims that arise in the normal course of business. Management makes judgments regarding the future outcome of contingent events and recognizes a loss based on its best estimate when it is determined that such loss, or range of loss, is probable and can be reasonably estimated. Legal fees are expensed as incurred. When a loss is recoverable in future rates, a regulatory asset is also recognized. Management regularly reviews current information to determine whether recognized provisions should be adjusted and new provisions are required. However, estimating probable losses requires considerable judgment about potential actions by third parties and matters are often resolved over long periods of time. Actual outcomes may differ materially from the amounts recognized.Use of Accounting EstimatesThe preparation of these consolidated financial statements in accordance with U.S. GAAP requires management to make estimates and judgments, including those arising from matters dependent upon the finalization of regulatory proceedings, that affect the reported amounts of assets, liabilities, revenues, expenses, gains and losses. Management evaluates these estimates on an ongoing basis based upon historical experience, current conditions, and assumptions believed to be reasonable at the time they are made, with any adjustments being recognized in the period they become known. Actual results may differ significantly from these estimates.New Accounting PoliciesSegment Reporting: The Corporation adopted ASU No. 2023-07, Improvements to Reportable Segment Disclosures, for the year ended December 31, 2024 and will adopt it for interim periods beginning in 2025. This update requires disclosure of incremental segment information, including significant segment expenses and other items that are included in segment profit or loss. This adoption of this standard did not materially impact Fortis' disclosures.Future Accounting PronouncementsThe Corporation considers the applicability and impact of all Accounting Standards Updates ("ASUs") issued by the Financial Accounting Standards Board. Any ASUs not included in these consolidated financial statements were assessed and determined to be either not applicable to the Corporation or are not expected to have a material impact on the consolidated financial statements.Income Taxes: ASU No. 2023-09, Improvements to Income Tax Disclosures, is effective for Fortis on January 1, 2025 on a prospective basis, with retrospective application and early adoption permitted. The ASU requires additional disclosure of income tax information by jurisdiction to reflect an entity's exposure to potential changes in tax legislation, and associated risks and opportunities. Fortis does not expect the ASU to materially impact its disclosures.Expense Disaggregation: ASU No. 2024-03, Disaggregation of Income Statement Expenses, is effective for Fortis on January 1, 2027 for annual periods and on January 1, 2028 for interim periods, on a prospective basis, with retrospective application and early adoption permitted. The ASU requires detailed disclosure of certain expense categories included on the consolidated statements of earnings, including energy supply costs, operating expenses, and depreciation and amortization expense. Fortis is assessing the impact on its disclosures.18FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 20234. SEGMENTED INFORMATIONFortis' CEO is considered the chief operating decision maker ("CODM") for purposes of reviewing segment performance. Fortis segments its business based on regulatory jurisdiction and service territory, as well as the information used by the CODM in deciding how to allocate resources. Segment performance is evaluated principally on net earnings attributable to common equity shareholders, and this measure is used consistently in the evaluation of actual segment performance as well as in the Corporationâ€™s business plan and forecasting processes.Related-Party and Inter-Company TransactionsRelated-party transactions are in the normal course of operations and are measured at the amount of consideration agreed to by the related parties. There were no material related-party transactions in 2024 or 2023. As of DecemberÂ 31, 2024, accounts receivable included $18 million due from Belize Electricity (DecemberÂ 31, 2023 - $8 million).Fortis periodically provides short-term financing to subsidiaries to support capitalÂ expenditures and seasonal working capital requirements, the impacts of which are eliminated on consolidation. As at DecemberÂ 31, 2024 and 2023, there were no inter-segment loans outstanding. Interest charged on inter-segment loans was not material in 2024 and 2023.RegulatedNon-RegulatedInter-UNSCentralFortisBCFortisFortisBCOtherSub-Corporatesegment($ millions)ITCEnergyHudsonEnergyAlbertaElectricElectrictotaland OthereliminationsTotalYear ended DecemberÂ 31, 2024Revenue2,229Â 3,007Â 1,372Â 1,665Â 817Â 545Â 1,838Â 11,473Â 35Â â€”Â 11,508Â Energy supply costsâ€”Â 1,183Â 393Â 423Â â€”Â 155Â 1,095Â 3,249Â â€”Â â€”Â 3,249Â Operating expenses530Â 798Â 659Â 418Â 195Â 141Â 250Â 2,991Â 49Â â€”Â 3,040Â Depreciation and amortization448Â 404Â 134Â 337Â 291Â 88Â 218Â 1,920Â 7Â â€”Â 1,927Â Operating income1,251Â 622Â 186Â 487Â 331Â 161Â 275Â 3,313Â (21)â€”Â 3,292Â Other income, net96Â 51Â 58Â 45Â 11Â 6Â 29Â 296Â (8)â€”Â 288Â Finance charges483Â 155Â 79Â 155Â 135Â 81Â 93Â 1,181Â 225Â â€”Â 1,406Â Income tax expense200Â 70Â 37Â 83Â 26Â 14Â 23Â 453Â (107)â€”Â 346Â Net earnings664Â 448Â 128Â 294Â 181Â 72Â 188Â 1,975Â (147)â€”Â 1,828Â Non-controlling interests122Â â€”Â â€”Â 1Â â€”Â â€”Â 25Â 148Â â€”Â â€”Â 148Â Preference share dividendsâ€”Â â€”Â â€”Â â€”Â â€”Â â€”Â â€”Â 74Â â€”Â 74Â Net earnings attributable to common equity

REVENUE The following table presents the disaggregation of the Corporation's revenue on the consolidated statements of earnings by geography and substantially autonomous utility operations.($ millions)2024Â 2023Â Electric and gas revenueUnited StatesITC2,205Â 2,098Â UNS Energy2,731Â 2,707Â Central Hudson1,366Â 1,329Â CanadaFortisBC Energy1,538Â 1,766Â FortisAlberta770Â 699Â FortisBC Electric481Â 460Â Newfoundland Power770Â 759Â Maritime Electric277Â 258Â FortisOntario235Â 217Â CaribbeanCaribbean Utilities402Â 388Â FortisTCI118Â 108Â Total electric and gas revenue10,893Â 10,789Â Other services revenue350Â 374Â Revenue from contracts with customers11,243Â 11,163Â Alternative revenue169Â 150Â Other revenue96Â 204Â Total revenue11,508Â 11,517Â Revenue from Contracts with CustomersElectric and gas revenue includes revenue from the sale and/or delivery of electricity and gas, transmission revenue, and wholesale electric revenue, all based on regulator-approved tariff rates including the flow through of commodity costs.Other services revenue includes management fees at UNS Energy for the operation of Springerville Units 3 and 4 and revenue from other services that reflect the ordinary business activities of Fortis' utilities. Other services revenue for 2023 also includes revenue from storage optimization activities at Aitken Creek through the date of disposition (Note 21).Alternative RevenueAlternative revenue programs allow utilities to adjust future rates in response to past activities or completed events if certain criteria are met. Alternative revenue is recognized on an accrual basis with a corresponding regulatory asset or liability until the revenue is settled. Upon settlement, revenue is not recognized as revenue from contracts with customers but rather as settlement of the regulatory asset or liability. The significant alternative revenue programs of Fortis' utilities are summarized as follows.ITC's formula rates include an annual true-up mechanism that compares actual revenue requirements to billed revenue, and any under- or over-collections are accrued as a regulatory asset or liability and reflected in future rates within a two year period (Note 8). The formula rates do not require annual regulatory approvals, although inputs remain subject to legal challenge.UNS Energy's lost fixed-cost recovery mechanism ("LFCR") surcharge recovers lost fixed costs, as measured by a reduction in non-fuel revenue, associated with energy efficiency savings and distributed generation. To recover the LFCR regulatory asset, UNS Energy is required to file an annual LFCR adjustment request with the ACC for the LFCR revenue recognized in the prior year. The recovery is subject to a year-over-year cap of 2% of total retail revenue.FortisBC Energy and FortisBC Electric have an earnings sharing mechanism that provides for a 50/50 sharing of variances from the allowed ROE. Additionally, variances between forecast and actual customer-use rates and industrial and other customer revenue are captured in a revenue stabilization account and a flow-through deferral account, respectively, to be refunded to, or received from, customers in rates within two years.Other RevenueOther revenue primarily includes gains or losses on energy contract derivatives, as well as regulatory deferrals at FortisBC Energy and FortisBC Electric including cost recovery variances from forecast.20FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 20236. REGULATORY ASSETS AND LIABILITIES (cont'd)($ millions)2024Â 2023Â Regulatory liabilitiesFuture cost of removal (Note 3)1,728Â 1,547Â Deferred income taxes (Note 3)1,329Â 1,280Â Employee future benefits (Notes 3 and 24)459Â 294Â Rate stabilization and related accounts (2)208Â 292Â Renewable energy surcharge (8)155Â 129Â Energy efficiency liability (9)88Â 78Â Electric and gas moderator account (10)61Â 50Â AESO charges deferral (11)58Â 121Â Other regulatory liabilities (7)205Â 167Â Total regulatory liabilities4,291Â 3,958Â Less: Current portion(595)(577)Long-term regulatory liabilities3,696Â 3,381Â (1)Â Â Â Â Deferred Energy Management Costs: Certain regulated subsidiaries provide energy management services to facilitate customer energy efficiency programs where the related expenditures have been deferred as a regulatory asset and are being amortized, and recovered from customers through rates, on a straight-line basis over periods ranging from one to 10 years.(2)Â Â Â Â Rate Stabilization and Related Accounts: Rate stabilization accounts mitigate the earnings volatility otherwise caused by variability in the cost of fuel, purchased power and natural gas above or below a forecast or predetermined level, and by weather-driven volume variability. At certain utilities, revenue decoupling mechanisms minimize the earnings impact of reduced energy consumption as energy efficiency programs are implemented. Resultant deferrals are recovered from, or refunded to, customers in future rates as approved by the respective regulators. Related accounts include the annual true-up mechanism at ITC (Note 5). (3)Â Â Â Â Deferred Lease Costs: Deferred lease costs at FortisBC Electric primarily relate to the Brilliant Power Purchase Agreement ("BPPA") (Note 15). The depreciation of the asset under finance lease and interest expense on the finance lease obligation are not being fully recovered in current customer rates since these rates only reflect the cash payments required under the BPPA. The annual differences are being deferred as a regulatory asset, which is expected to be recovered from customers in future rates over the term of the lease, which expires in 2056.(4)Â Â Â Â Deferred Restoration Costs: Incremental costs incurred at Central Hudson and Maritime Electric associated with restoration activities due to significant weather events. Incremental costs incurred in excess of that collected in customer rates at Central Hudson are recovered through rate stabilization accounts. The form and recovery period for Maritime Electric will be determined by the regulator.(5)Â Â Â Â Generation Early Retirement Costs: Includes costs at TEP associated with the retirement of the Navajo Generating Station ("Navajo"), Sundt Generating Facility Units 1 and 2, and the San Juan Generating Station ("San Juan"), as approved for recovery by its regulator.(6)Â Â Â Â Renewable Natural Gas Account: Reflects the variance between costs incurred to procure consumable biomethane gas and the related revenue recovered in customer rates. The difference is generally refunded or recovered from customers within one year.(7)Â Â Â Â Other Regulatory Assets and Liabilities: Comprised of regulatory assets and liabilities individually less than $50Â million. (8)Â Â Â Â Renewable Energy Surcharge: Under the ACC's Renewable Energy Standard ("RES"), UNS Energy is required to increase its use of renewable energy each year until it represents at least 15% of its total annual retail energy requirements by 2025. The cost of carrying out the plan is recovered from retailÂ customers through a RES surcharge. Any RES surcharge collections above or below the costs incurred to implement the plans are deferred as a regulatory liability or asset.The ACC measures RES compliance through Renewable Energy Credits ("RECs"). Each REC represents one kilowatt hour generated from renewable resources. When UNSÂ Energy purchases renewable energy, the premium paid above the market cost of conventional power equals the REC recoverable through the RES surcharge. When RECs are purchased, UNS Energy records their cost as long-term other assets (Note 9) with a corresponding regulatory liability to reflect the obligation to use the RECs for future RES compliance. When RECs are utilized for RES compliance, energy supply costs and revenue are recognized in an equal amount. (9)Â Â Â Â Energy Efficiency Liability: The energy efficiency liability primarily relates to Central Hudson's Energy Efficiency Program, established to fund environmental policies associated with energy conservation programs as approved by its regulator.(10)Â Â Â Â Electric and Gas Moderator Account: As part of Central Hudson's general rate applications, certain regulatory assets and liabilities were offset and included in the electric and gas moderator account, which will be used for future customer rate moderation.(11)Â Â Â Â AESO Charges Deferral: Relates to differences in revenue collected and amounts incurred for transmission-related items at FortisAlberta that are expected to be collected or refunded in customer rates. 22FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 20238. REGULATORY ASSETS AND LIABILITIES (cont'd)Regulatory assets not earning a return: (i) totalled $1,908 million and $1,995 million as at DecemberÂ 31, 2024 and 2023, respectively; (ii) are primarily related to deferred income taxes and employee future benefits; and (iii) generally do not represent a past cash outlay as they are offset by related liabilities that, likewise, do not incur a carrying cost for rate-making purposes. Recovery periods vary or are yet to be determined by the respective regulators.9. PROPERTY, PLANT AND EQUIPMENT (cont'd)Electric distribution assets are those used to distribute electricity at lower voltages (generally below 69Â kilovolts ("kV")). These assets include poles, towers and fixtures, low-voltage wires, transformers, overhead and underground conductors, street lighting, meters, metering equipment and other related equipment. Gas distribution assets are those used to transport natural gas at low pressures (generallyÂ belowÂ 2,070Â kilopascals ("kPa")). These assets include distribution stations, telemetry, distribution pipe for mains and services, meter sets and other related equipment. Electric transmission assets are those used to transmit electricity at higher voltages (generally at 69Â kV and higher). These assets include poles, wires, switching equipment, transformers, support structures and other related equipment. Gas transmission assets are those used to transport natural gas at higher pressures (generallyÂ atÂ 2,070Â kPa and higher). These assets include transmission stations, telemetry, transmission pipe and other related equipment.Generation assets are those used to generate electricity. These assets include hydroelectric and thermal generation stations, gas and combustion turbines, coal-fired generating stations, dams, reservoirs, photovoltaic systems, wind resources and other relatedÂ equipment.Other assets include buildings, equipment, vehicles, inventory, and information technology assets.As at DecemberÂ 31, 2024, assets under construction largely reflect ongoing transmission projects at ITC and UNS Energy, as well as the Roadrunner Reserve battery storage projects at UNS Energy and the Eagle Mountain Pipeline project at FortisBC Energy.The cost of PPE under finance lease as at DecemberÂ 31, 2024 was $324Â million (2023Â - $318Â million) and related accumulated depreciation was $119Â million (2023 - $113Â million) (Note 15). Jointly Owned FacilitiesUNS Energy and ITC hold undivided interests in jointly owned generating facilities and transmission systems, are entitled to their proÂ rata share of the PPE, and are proportionately liable for the associated operating costs and liabilities. As at DecemberÂ 31, 2024, interests in jointly owned facilities consisted of the following.OwnershipAccumulatedNet Book($ millions, except as indicated)(%)CostDepreciationValueTransmission FacilitiesVarious1,704Â (489)1,215Â Springerville Common Facilities86.0Â 580Â (344)236Â Springerville Coal Handling Facilities83.0Â 299Â (154)145Â Four Corners Units 4 and 5 ("Four Corners")7.0Â 311Â (155)156Â Gila River Common Facilities50.0Â 131Â (52)79Â Luna Energy Facility ("Luna")33.3Â 101Â 3Â 104Â 3,126Â (1,191)1,935Â 11. STOCK-BASED COMPENSATION PLANS Stock OptionsBeginning January 1, 2022, the Corporation no longer grants stock options. Existing options to purchase common shares of the Corporation are exercisable for a period of 10 years from the grant date, expire no later than three years after the death or retirement of the optionee, and vest evenly over a four year period on each anniversary of the grant date. Compensation expense related to stock options was measured at the grant date using the Black-Scholes fair value option-pricing model with each grant amortized to compensation expense evenly over the four year vesting period, with the offsetting entry to additional paid-in capital. Fortis satisfies stock option exercises by issuing common shares from treasury. Upon exercise, proceeds are credited to capital stock at the option prices and the fair value of the options, as previously recognized, is reclassified from additional paid-in capital to capital stock.As at December 31, 2024, the Corporation had 1.5 million stock options outstanding (2023 - 1.9 million) with a weighted average exercise price of $48.96 (2023 - $48.12). There were 1.4 million options vested as of December 31, 2024 (2023 â€“ 1.6 million) with a weighted average exercise price of $48.87 (2023 - $47.19). In 2024, 0.4 million stock options were exercised (2023 - 0.3 million) for cash proceeds of $15Â million (2023 - $13Â million) and an intrinsic value realized by option holders of $5Â million (2023 - $6Â million).DSUsDirectors of the Corporation who are not officers are eligible for grants of DSUs representing the equity portion of their annual compensation. Directors can also elect to receive credit for their quarterly cash retainer in a notional account of DSUs in lieu of cash. The Corporation may also determine that special circumstances justify the grant of additional DSUs to a director.Beginning in 2024, in any year in which a director satisfies their share ownership target, the director may elect to receive a portion of their equity compensation in cash or common shares, with the remaining portion to be granted as DSUs. Common share elections are satisfied quarterly through purchases on the Toronto Stock Exchange or the New York Stock Exchange.Each DSU vests at the grant date, has an underlying value equivalent to that of one common share of the Corporation, is entitled to commensurate notional common share dividends, and is settled in cash.33FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 202320. STOCK-BASED COMPENSATION PLANS (cont'd)DSUs (cont'd)The following table summarizes information related to DSUs.2024Â 2023Â Number of units (thousands)Beginning of year241Â 224Â Granted29Â 40Â Notional dividends reinvested10Â 10Â Paid out(39)(33)End of year241Â 241Â The accrued liability has been recognized at the respective December 31st VWAP and included in other liabilities (Note 16). The accrued liability, compensation expense and cash payout were not material for 2024 or 2023.PSUsSenior management of the Corporation and its subsidiaries, and all ITC employees, are eligible for grants of PSUs representing a component of their long-term compensation.Each PSU vests over a three year period, has an underlying value equivalent to that of one common share of the Corporation, and is entitled to commensurate notional common share dividends. PSUs are generally settled in cash with cash payouts calculated at the end of the three year vesting period as the product of: (i) the number of units vested; (ii) the VWAP of the Corporation's common shares for the five trading days prior to the vesting date; and (iii) a payout percentage that may range from 0%Â toÂ 200%. Effective with the 2024 grant, PSUs granted under the Corporation's Omnibus Equity Plan can be settled in cash or common shares of the Corporation. PSUs settled through common shares will be satisfied by issuing common shares from treasury.TheÂ payout percentage is based on the Corporation's performance over the three year vesting period, mainly determined by: (i) the Corporation's total shareholder return as compared to a predefined peer group of companies; (ii) the Corporation's cumulative EPS, or for subsidiaries the company's cumulative net income, as compared to the target established at the time of the grant; and (iii) beginning with the 2022 PSU grant, the Corporation's Scope 1 carbon reduction performance as compared to target established at the time of the grant. In addition, the 2023 PSU grant included a payout modifier based on the achievement of diversity, equity and inclusion goals.The following table summarizes information related to PSUs.2024Â 2023Â Number of units (thousands)Beginning of year1,942Â 1,790Â Granted788Â 722Â Notional dividends reinvested78Â 66Â Paid out(609)(606)Cancelled/forfeited(28)(30)End of year2,171Â 1,942Â Additional information ($ millions)Compensation expense recognized 53Â 45Â Compensation expense unrecognized (1)34Â 28Â Cash payout44Â 46Â Accrued liability as at December 31 (2)105Â 90Â Aggregate intrinsic value as at December 31 (3)139Â 118Â (1)Â Â Â Â Relates to unvested PSUs and is expected to be recognized over a weighted average period of two years(2)Â Â Â Â Recognized at the respective December 31st VWAP and included in accounts payable and other current liabilities and in other liabilities (Notes 13 and 16)(3)Â Â Â Â Relates to outstanding PSUs and reflects a weighted average contractual life of one year34FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 202320. STOCK-BASED COMPENSATION PLANS (cont'd)RSUsSenior management of the Corporation and its subsidiaries, and all ITC employees, are eligible for grants of RSUs representing a component of their long-term compensation.Each RSU vests over a three year period, has an underlying value equivalent to that of one common share of the Corporation, is entitled to commensurate notional

common share dividends, and is settled in cash or common shares of the Corporation. Beginning with the 2024 grant, RSUs settled through common shares will be satisfied by issuing common shares from treasury.The following table summarizes information related to RSUs.2024Â 2023Â Number of units (thousands)Beginning of year1,079Â 977Â Granted464Â 416Â Notional dividends reinvested38Â 35Â Paid out(357)(323)Cancelled/forfeited(23)(26)End of year1,201Â 1,079Â Additional information ($ millions)Compensation expense recognized 29Â 21Â Compensation expense unrecognized (1)21Â 17Â Cash payout19Â 17Â Accrued liability as at December 31 (2)54Â 42Â Aggregate intrinsic value as at December 31 (3)75Â 59Â (1)Â Â Â Â Relates to unvested RSUs and is expected to be recognized over a weighted average period of two years(2)Â Â Â Â Recognized at the respective December 31st VWAP and included in accounts payable and other current liabilities and in long-term other liabilities (Notes 13 and 16)(3)Â Â Â Â Relates to outstanding RSUs and reflects a weighted average contractual life of one year Share-settlements were not material for 2024 and 2023.21. DISPOSITIONOn November 1, 2023, FortisBC Holdings Inc. ("FHI") completed the sale of its Aitken Creek business to a subsidiary of Enbridge Inc. for approximately $470Â million including working capital and closing adjustments, following the satisfaction of all regulatory requirements. The transaction reflected a March 31, 2023 effective date. A gain on disposition of $23Â million ($10Â million after tax), net of transaction costs, was recognized in the Corporate and Other segment. For the seven-month period between the March 31, 2023 effective date and the November 1, 2023 disposition date, Aitken Creek recognized net earnings, excluding the gain as noted above, of $5Â million. From January 1, 2023 through to the November 1, 2023 disposition date, excluding the gain, Aitken Creek recognized net earnings of $20Â million.35FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 202322. The material jurisdictions in which the Corporation is subject to potential income tax compliance examinations include the United States (Federal, Arizona, Kansas, Iowa, Michigan, Minnesota and NewÂ York) and Canada (Federal, BritishÂ Columbia and Alberta). The Corporation's 2020 to 2024 taxation years are still open for audit in Canadian jurisdictions, and its 2020 to 2024 taxation years are still open for audit in United States jurisdictions.24. EMPLOYEE FUTURE BENEFITSFor DBP and OPEB plans, the benefit obligation and fair value of plan assets are measured as at DecemberÂ 31.For the Corporation's Canadian and Caribbean subsidiaries, actuarial valuations to determine funding contributions for pension plans are required at least every three years. The most recent valuations were as of December 31, 2021 for certain FortisBC Energy and FortisBC Electric plans; DecemberÂ 31,Â 2022 for the remaining FortisBC Energy and FortisBCÂ Electric plans, Newfoundland Power, FortisAlberta and FortisOntario; December 31, 2023 for the Corporation; and December 31, 2024 for Caribbean Utilities. ITC, UNS Energy and Central Hudson perform annual actuarial valuations as their funding requirements are based on maintaining minimum annual targets, all of which have been met.The Corporation's investment policy is to ensure that the DBP and OPEB plan assets, together with expected contributions, are invested in a prudent and cost-effective manner to optimally meet the liabilities of the plans. The investment objective is to maximize returns in order to manage the funded status of the plans and minimize the Corporation's cost over the long term, as measured by both cash contributions and recognized expense.37FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 202324. FAIR VALUE OF FINANCIAL INSTRUMENTS AND RISK MANAGEMENT DerivativesThe Corporation generally limits the use of derivatives to those that qualify as accounting, economic or cash flow hedges, or those that are approved for regulatory recovery.Derivatives are recorded at fair value, with certain exceptions, including those derivatives that qualify for the normal purchase and normal sale exception. Fair values reflect estimates based on current market information about the derivatives as at the balance sheet dates. The estimates cannot be determined with precision as they involve uncertainties and matters of judgment and, therefore, may not be relevant in predicting the Corporation's future consolidated earnings or cash flow. 41FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 202326. FAIR VALUE OF FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)Energy Contracts Subject to Regulatory DeferralUNS Energy holds electricity power purchase contracts, customer supply contracts and gas swap contracts to reduce its exposure to energy price risk. Fair values are measured primarily under the market approach using independent third-party information, where possible. When published prices are not available, adjustments are applied based on historical price curve relationships, transmission costs and line losses. Central Hudson holds swap contracts for electricity and natural gas to minimize price volatility by fixing the effective purchase price. Fair values are measured using forward pricing provided by independent third-party information. FortisBC Energy holds gas supply contracts to fix the effective purchase price of natural gas. Fair values reflect the present value of future cash flows based on published market prices and forward natural gas curves.Unrealized gains or losses associated with changes in the fair value of these energy contracts areÂ deferred as a regulatory asset or liability for recovery from, or refund to, customers in futureÂ rates, as permitted by the regulators. As at DecemberÂ 31, 2024, unrealized losses of $175Â million (2023 - $197Â million) were recognized as regulatory assets and unrealized gains of $41Â million (2023 - $37Â million) were recognized as regulatory liabilities.Energy Contracts Not Subject to Regulatory Deferral UNS Energy holds wholesale trading contracts to fix power prices and realize potential margin, of which 10% of any realized gains is shared with customers through rate stabilization accounts. Fair values are measured using a market approach incorporating, where possible, independent third-party information.Aitken Creek, which was sold on November 1, 2023 (Note 21), held gas swap contracts to manage exposure to changes in natural gas prices, capture natural gas price spreads, and manage the financial risk posed by physical transactions. Fair values were measured using forward pricing from published market sources. Gains or losses associated with changes in the fair value of these energy contracts are recognized in revenue. In 2024, gains of $48Â million (2023 - losses of $28Â million) were recognized in revenue.Total Return Swaps The Corporation holds total return swaps to manage the cash flow risk associated with forecast future cash and/or share settlements of certain stock-based compensation obligations. The swaps have a combined notional amount of $134 million and terms up to three years expiring at varying dates through January 2027. Fair value is measured using an income valuation approach based on forward pricing curves. Unrealized gains and losses associated with changes in fair value are recognized in other income, net. In 2024, unrealized gains of $12 million (2023 - $nil) were recognized in other income, net.Foreign Exchange Contracts The Corporation holds U.S. dollar-denominated foreign exchange contracts to help mitigate exposure to foreign exchange rate volatility. The contracts expire at varying dates through September 2026 and have a combined notional amount of $608Â million. Fair value was measured using independent third-party information. Unrealized gains and losses associated with changes in fair value are recognized in other income, net. In 2024, unrealized losses of $17Â million (2023 - unrealized gains of $10Â million) were recognized in other income, net. Interest Rate ContractsDuring 2024, ITC entered into and settled interest rate locks with a combined notional value of US$300 million. These contracts were used to manage interest rate risk associated with the issuance of US$400 million unsecured senior notes in May 2024. Realized losses of US$3 million were recognized in other comprehensive income, which will be reclassified to earnings as a component of interest expense over five years.ITC also entered into 5-year interest rate swap contracts in 2024 with a combined notional value of US$135 million. The swaps will be used to manage interest rate risk associated with forecasted debt issuances. Fair value was measured using a discounted cash flow method based on secured overnight financing rates ("SOFR"). Unrealized gains and losses associated with the changes in fair value are recognized in other comprehensive income, and will be reclassified to earnings as a component of interest expense over the life of the debt. Unrealized gains of US$4 million were recorded in 2024.In 2025, ITC entered into 5-year interest rate swap contracts with a notional value of US$95Â million to manage interest rate risk associated with forecasted debt issuances, increasing the total notional amount of interest rate swaps outstanding to US$230Â million.During 2024, the Corporation entered into and settled interest rate locks with a combined notional value of $250 million. These contract were used to manage interest rate risk associated with the issuance of $500Â million unsecured senior notes in September 2024. Realized losses of $2 million were recognized in other comprehensive income, which will be reclassified to earnings as a component of interest expense over seven years. Cross-Currency Interest Rate SwapsThe Corporation holds cross-currency interest rate swaps, maturing in 2029, to effectively convert its $500Â million, 4.43% unsecured senior notes to US$391Â million, 4.34% debt. The Corporation has designated this notional U.S. debt as an effective hedge of its foreign net investments and unrealized gains and losses associated with exchange rate fluctuations on the notional U.S. debt are recognized in other comprehensive income, consistent with the translation adjustment related to the foreign net investments. Other changes in the fair value of the swaps are also recognized in other comprehensive income but are excluded from the assessment of hedge effectiveness. Fair value is measured using a discounted cash flow method based on SOFR. In 2024, unrealized losses of $29 million (2023 - unrealized gains of $15Â million) were recorded in other comprehensive income.42FORTIS

INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 202326. FAIR VALUE OF FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)Recurring Fair Value MeasuresThe following table presents derivative assets and liabilities that are accounted for at fair value on a recurring basis. ($ millions)Level 1 (1)Level 2 (1)Level 3 (1)TotalAs at December 31, 2024AssetsEnergy contracts subject to regulatory deferral (2) (3)â€”Â 63Â â€”Â 63Â Energy contracts not subject to regulatory deferral (2)â€”Â 7Â â€”Â 7Â Total return swaps and interest rate contracts (2)â€”Â 16Â â€”Â 16Â Other investments (4)150Â â€”Â â€”Â 150Â 150Â 86Â â€”Â 236Â LiabilitiesEnergy contracts subject to regulatory deferral (3) (5)â€”Â (197)â€”Â (197)Energy contracts not subject to regulatory deferral (5)â€”Â (2)â€”Â (2)Foreign exchange contracts and cross-currency interest rate swaps (5)â€”Â (45)â€”Â (45)â€”Â (244)â€”Â (244)As at December 31, 2023AssetsEnergy contracts subject to regulatory deferral (2) (3)â€”Â 49Â â€”Â 49Â Energy contracts not subject to regulatory deferral (2)â€”Â 6Â â€”Â 6Â Foreign exchange contracts (2)â€”Â 5Â â€”Â 5Â Other investments (4)145Â â€”Â â€”Â 145Â 145Â 60Â â€”Â 205Â LiabilitiesEnergy contracts subject to regulatory deferral (3) (5)â€”Â (209)â€”Â (209)Energy contracts not subject to regulatory deferral (5)â€”Â (3)â€”Â (3)Total return and cross-currency interest rate swaps (5)â€”Â (6)â€”Â (6)â€”Â (218)â€”Â (218)(1)Under the hierarchy, fair value is determined using: (i) Level 1- unadjusted quoted prices in active markets; (ii)Â Level 2 - other pricing inputs directly or indirectly observable in the marketplace; and (iii) Level 3 - unobservable inputs, used when observable inputs are not available. Classifications reflect the lowest level of input that is significant to the fair value measurement. (2)Included in accounts receivable and other current assets or other assets(3)Unrealized gains and losses arising from changes in fair value of these contracts are deferred as a regulatory asset or liability for recovery from, or refund to, customers in future rates as permitted by the regulators, with the exception of long-term wholesale trading contracts and certain gas swap contracts.(4)UNS Energy holds investments in money market accounts, and ITC and Central Hudson hold investments in trust associated with supplemental retirement benefit plans for select employees, whichÂ include mutual funds and money market accounts. The fair value of these investments is included in cash and cash equivalents and other assets, with gains and losses recognized in other income, net(5)Included in accounts payable and other current liabilities or other liabilitiesEnergy ContractsThe Corporation has elected gross presentation for its derivative contracts under master netting agreements and collateral positions, which apply only to its energy contracts. The following table presents the potential offset of counterparty netting. ($ millions)Gross AmountRecognized InBalance SheetCounterpartyNetting ofEnergy ContractsCash CollateralPosted/(Received)Net AmountAs at December 31, 2024Derivative assets70Â (30)15Â 55Â Derivative liabilities(199)30Â â€”Â (169)As at December 31, 2023Derivative assets55Â (24)28Â 59Â Derivative liabilities(212)24Â (1)(189)43FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 202326. FAIR VALUE OF FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)Volume of Derivative Activity As at DecemberÂ 31, 2024, the Corporation had various energy contracts that will settle on various dates through 2029. The volumes related to electricity and natural gas derivatives are outlined below. 2024Â 2023Â Energy contracts subject to regulatory deferral (1)Electricity swap contracts (GWh)774Â 628Â Electricity power purchase contracts (GWh)430Â 588Â Gas swap contracts (PJ)236Â 228Â Gas supply contracts (PJ)105Â 134Â Energy contracts not subject to regulatory deferral (1)Wholesale trading contracts (GWh)1,499Â 1,310Â Gas swap contracts (PJ)3Â 3Â (1)GWh means gigawatt hours and PJ means petajoulesCredit RiskFor cash equivalents, accounts receivable and other current assets, and long-term other receivables, credit risk is generally limited to the carrying value on the consolidated balance sheets. The Corporation's subsidiaries generally have a large and diversified customer base, which minimizes the concentration of credit risk. Policies in place to minimize credit risk include requiring customer deposits, prepayments and/or credit checks for certain customers, performing disconnections and/or using third-party collection agencies for overdue accounts.ITC has a concentration of credit risk as approximately 70% of its revenue is derived from three customers. These customers have investment-grade credit ratings and credit risk is further managed by MISO by requiring a letter of credit or cash deposit equal to the credit exposure, which is determined by a credit-scoring model and other factors.FortisAlberta has a concentration of credit risk as its distribution service billings are to a relatively small group of retailers. Credit risk is managed by obtaining from the retailers either a cash deposit, letter of credit, an investment-grade credit rating, or a financial guarantee from an entity with an investment-grade creditÂ rating.Central Hudson has seen an increase in accounts receivable since the suspension of collection efforts initially required in response to the COVID-19 pandemic. Central Hudson continues to contact customers regarding past-due balances and collection efforts continue to expand. Under its regulatory framework, Central Hudson can defer uncollectible write-offs above the amounts collected in customer rates for future recovery.UNS Energy, Central Hudson, FortisBC Energy, and Fortis may be exposed to credit risk from nonâ€'performance by counterparties to derivative contracts. Credit risk is managed by net settling payments, when possible, and dealing only with counterparties that have investment-grade credit ratings. At UNS Energy, Central Hudson and FortisBC Energy, certain contractual arrangements require counterparties to post collateral.The value of derivatives in net liability positions under contracts with credit risk-related contingent features that, if triggered, could require the posting of a like amount of collateral was $117 million as at DecemberÂ 31, 2024 (2023 - $117 million).Hedge of Foreign Net InvestmentsThe reporting currency of ITC, UNS Energy, Central Hudson, Caribbean Utilities, FortisTCI, Fortis Belize Limited and Belize Electricity is, or is pegged to, the U.S. dollar. The earnings and cash flow from, and net investments in, these entities are exposed to fluctuations in the U.S. dollar-to-Canadian dollar exchange rate. The Corporation has reduced this exposure through hedging.As at DecemberÂ 31, 2024, US$2.2 billion (2023 - US$2.6 billion) of corporately issued U.S.Â dollar-denominated long-term debt has been designated as an effective hedge of net investments, leaving approximately US$12.6 billion (2023 - US$11.5 billion) unhedged. Exchange rate fluctuations associated with the hedged net investment in foreign subsidiaries and the debt serving as the hedge are recognized in accumulated other comprehensive income.Financial Instruments Not Carried at Fair ValueExcluding long-term debt, the consolidated carrying value of the Corporation's remaining financial instruments approximates fair value, reflecting their short-term maturity, normal trade credit terms and/or nature. As at DecemberÂ 31, 2024, the carrying value of long-term debt, including the current portion, wasÂ $33.4 billion (2023 - $29.7 billion) compared to an estimated fair value of $31.3Â billion (2023 - $27.9Â billion). 44FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 202327. COMMITMENTS AND CONTINGENCIES As at DecemberÂ 31, 2024, unconditional minimum purchase obligations were as follows.($ millions)TotalYear 1Year 2Year 3Year 4Year 5ThereafterGas and fuel purchase obligations (1)6,299Â 763Â 571Â 520Â 465Â 393Â 3,587Â Renewable PPAs (2)2,628Â 139Â 166Â 182Â 182Â 173Â 1,786Â Waneta Expansion capacity agreement (3)2,362Â 56Â 58Â 59Â 60Â 61Â 2,068Â Power purchase obligations (4)1,335Â 302Â 217Â 131Â 124Â 122Â 439Â ITC easement agreement (5)370Â 14Â 14Â 14Â 14Â 14Â 300Â TEP EPC agreements (6)308Â 307Â 1Â â€”Â â€”Â â€”Â â€”Â Debt collection agreement (7)99Â 3Â 3Â 3Â 3Â 3Â 84Â Renewable energy credit purchase agreements (8)58Â 18Â 7Â 6Â 6Â 6Â 15Â Other (9)140Â 32Â 11Â 11Â 12Â 10Â 64Â 13,599Â 1,634Â 1,048Â 926Â 866Â 782Â 8,343Â (1)Â Â Â Â FortisBC Energy ($5,014 million): includes contracts of $2,792 million for the purchase of renewable natural gas expiring in 2045 and contracts of $2,222Â million for the purchase of gas, renewable gas, gas transportation and storage services, expiring in 2062. FortisBC Energy's gas purchase obligations are based on gas commodity indices that vary with market prices and the obligations are based on index prices as at DecemberÂ 31, 2024. The renewable gas supply obligations disclosed reflect the contracted price per gigajoule between the Corporation and the suppliers.UNS Energy ($1,160 million): includes long-term contracts for the purchase and delivery of coal to fuel generating facilities, the purchase of gas transportation services to meet load requirements,Â the purchase of transmission services for purchased power, as well as natural gas commodity agreements based on projected market prices as of December 31, 2024. Amounts paid for coal depend on actual quantities purchased and delivered. Certain contracts have price adjustment clauses that will affect future costs. These contracts have various expiry dates through 2048.(2)Â Â Â Â TEP and UNS Electric are party to renewable PPAs, with expiry dates from 2027 through 2051, that require TEP and UNS Electric to purchase 100% of the output of certain renewable energy generating facilities and RECs associated with the output delivered once commercial operation is achieved. The agreements include purchase commitments that are contingent upon the developers obtaining commercial operation of the generating facilities, which are expected to be placed in service in 2026 and 2027. Amounts are the estimated future payments. (3)Â Â Â Â FortisBC Electric is a party to an agreement to purchase capacity from the Waneta Expansion hydroelectric generating facility for forty-years, beginning April 2015.(4)Â Â Â Â Maritime Electric ($563Â million): includes an energy purchase agreement and transmission capacity contract for 30 MW of capacity to PEI with New Brunswick Power, expiring December 2026 and November 2032, respectively. The agreements entitle Maritime Electric to approximately 4.55% of the output of New Brunswick Power's Point Lepreau nuclear generating station and require Maritime Electric to pay its share of the station's capital operating costs for the life of the unit. FortisOntario ($374Â million): an agreement with Hydro-QuÃ©bec for the supply of up to 145Â MW of capacity and a minimum of 537 GWh of associated energy annually through DecemberÂ 2030.FortisBC Electric ($301Â million): an agreement with BC Hydro to purchase up to 200 MW of capacity and 1,752 GWh of associated energy annually for a 20-year term beginning OctoberÂ 1,Â 2013.(5)Â Â Â Â ITC is party to an agreement with Consumers Energy, the primary customer of METC, which provides METC with an easement for transmission purposes and rights-of-way, leasehold interests, fee interests and licenses associated with the land over which its transmission lines cross. The agreement expires in December 2050, subject to 10 potential 50-year renewals thereafter unless METC gives notice of non-renewal at least one year in advance. (6)Â Â Â Â TEP has entered into two engineering, procurement and construction ("EPC") agreements associated with the development of energy storage projects. Roadrunner Reserve 1 is expected to be placed in service in 2025, with Roadrunner Reserve 2 to follow in 2026. (7)Â Â Â Â Maritime Electric is party to a debt collection agreement with PEI Energy Corporation for the initial capital cost of the submarine cables and associated parts of the New Brunswick transmission system interconnection. Payments under the agreement, which expires in February 2056, are collected in customer rates.(8)Â Â Â Â UNS Energy and Central Hudson are party to REC purchase agreements, mainly for the purchase of environmental attributions from retail customers with solar installations or other renewable generation. Payments are primarily made at contractually agreed-upon intervals based on metered energy production. (9)Â Â Â Â Includes AROs and joint-use asset and shared service agreements.45FORTIS INC.DECEMBER 31, 2024Notes to Consolidated Financial StatementsFor the years ended December 31, 2024 and 202327. COMMITMENTS AND CONTINGENCIES (cont'd)Other CommitmentsUnder a funding framework with the Governments of Ontario and Canada, Fortis will contribute a minimum of approximately $165 million of equity capital to Wataynikaneyap Power, based on Fortis' proportionate 39% ownership interest and the final regulatory-approved capital cost of the related project. Wataynikaneyap Power has construction financing loan agreements in place and it is expected that long-term operating financing will replace the construction financing. In the event a lender under the loan agreements realizes security on the loans, Fortis may be required to accelerate its equity capital contributions, which may be in excess of the amount otherwise required of Fortis under the funding framework, to a maximum total funding of $235 million. Equity of $137Â million has been contributed as of December 31, 2024.UNS Energy has joint generation performance guarantees with participants at Four Corners and Luna, with agreements expiring in 2041 and 2046 respectively, and at San Juan and Navajo through decommissioning. The participants have guaranteed that in the event of payment default, each non-defaulting participant will bear its proportionate share of expenses otherwise payable by the defaulting participant. In exchange, the non-defaulting participants are entitled to receive their proportionate share of the generation capacity of the defaulting participant. In the case of San Juan and Navajo, participants would seek financial recovery from the defaulting party. There is no maximum amount under these guarantees, except for a maximum of $360 million for Four Corners. As at DecemberÂ 31, 2024, there was no obligation under these guarantees. Contingency In 2013, FHI and Fortis were named as defendants in an action in the British Columbia Supreme Court by the Coldwater Indian Band ("Band") regarding interests in a pipeline across reserve lands. The Band seeks cancellation of the right-of-way and damages for wrongful interference with the Band's use and enjoyment of reserve lands. In 2016, the Federal Court dismissed the Band's application for judicial review of the ministerial consent. In 2017, the Federal Court of Appeal set aside the minister's consent and returned the matter to the minister for redetermination. No amount has been accrued as the outcome cannot yet be reasonably determined.46FORTIS INC.DECEMBER 31, 2024 EX-99.3 5 a2024annual-993mda.htm EX-99.3 DocumentExhibit 99.3Management Discussion and AnalysisContentsAbout Fortis1Cash Flow Summary15Performance at a Glance2Contractual Obligations17The Industry5Capital Structure and Credit Ratings18Operating Results6Capital Plan19Business Unit Performance7Business Risks22ITC7Accounting Matters30UNS Energy7Financial Instruments33Central Hudson8Long-Term Debt and Other33FortisBC Energy8Derivatives33FortisAlberta9Selected Annual Financial Information36FortisBC Electric9Fourth Quarter Results37Other Electric10Summary of Quarterly Results38Corporate and Other10Related-Party and Inter-Company Transactions39Non-U.S. GAAP Financial Measures10Management's Evaluation of Controls and Procedures39Regulatory Highlights11Outlook40Financial Position13Forward-Looking Information40Liquidity and Capital Resources14Glossary41Cash Flow Requirements14Annual Consolidated Financial StatementsF-1Dated FebruaryÂ 13, 2025This MD&A has been prepared in accordance with NationalÂ Instrument 51-102 - Continuous Disclosure Obligations. It should be read in conjunction with the 2024 Annual Financial Statements and is subject to the cautionary statement and disclaimer provided under "Forward-Looking Information" on page 40. Further information about Fortis, including its Annual Information Form, can be accessed at www.fortisinc.com, www.sedarplus.ca, or www.sec.gov.Financial information herein has been prepared in accordance with U.S.Â GAAP (except for indicated Non-U.S. GAAP Financial Measures) and, unless otherwise specified, is presented in Canadian dollars based,Â as applicable, on the following U.S. dollar-to-Canadian dollar exchange rates: (i)Â average of 1.37 and 1.35 for the years ended DecemberÂ 31, 2024 and 2023, respectively; (ii) 1.44 and 1.32 as at DecemberÂ 31, 2024 and 2023, respectively; (iii) average of 1.40 and 1.36 for the quarters ended DecemberÂ 31, 2024 and 2023, respectively; and (iv) 1.30 for all forecast periods. Certain terms used in this MD&A are defined in the "Glossary" on page 41.ABOUT FORTISFortis (TSX/NYSE: FTS) is a well-diversified leader in the North American regulated electric and gas utility industry, with revenue of $12 billion in 2024 and total assets of $73Â billion as at DecemberÂ 31, 2024.Regulated utilities account for virtually all of the Corporation's assets. The Corporation's 9,800 employees serve 3.5 million utility customers in five Canadian provinces, ten U.S. states and three Caribbean countries. As at DecemberÂ 31, 2024, 66% of the Corporation's assets were located in the U.S., 31% in Canada and the remaining 3% in the Caribbean. Operations in the U.S. accounted for 57% of the Corporation's 2024 revenue, with the remaining 38% in Canada, and 5% in the Caribbean.Fortis is principally an energy delivery company, with 93% of its assets related to transmission and distribution. The business is characterized by low-risk, stable and predictable earnings and cash flows. Earnings, EPS and TSR are the primary measures of financial performance.1FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisFortis' regulated utility businesses are: ITC (electric transmission - Michigan, Iowa, Minnesota, Illinois, Missouri, Kansas, Oklahoma and Wisconsin); UNS Energy (integrated electric and natural gas distribution - Arizona); Central Hudson (electric transmission and distribution, and natural gas distribution - New York State); FortisBC Energy (natural gas transmission and distribution - British Columbia); FortisAlberta (electric distribution - Alberta); FortisBC Electric (integrated electric - British Columbia); Newfoundland Power (integrated electric - Newfoundland and Labrador); Maritime Electric (integrated electric - Prince Edward Island); FortisOntario (integrated electric - Ontario); Caribbean Utilities (integrated electric - Grand Cayman); and FortisTCI (integrated electric - Turks and Caicos Islands). Fortis also holds equity investments in Wataynikaneyap Power (electric transmission - Ontario) and Belize Electricity (integrated electric - Belize). The Corporation's non-regulated business is limited to Fortis Belize (three hydroelectric generation facilities - Belize). The Aitken Creek natural gas storage facility in British Columbia was sold on November 1, 2023 with a March 31, 2023 effective date. Fortis has a unique operating model with a small corporate office in St. John's, Newfoundland and Labrador and business units that operate on a substantially autonomous basis. Each utility has its own management team and board of directors, with most having a majority of independent board members, which provides effective oversight within the broad parameters of Fortis policies and best practices. Subsidiary autonomy supports constructive relationships with regulators, policy makers, customers and communities. Fortis believes this model enhances accountability, opportunity and performance across the Corporation's businesses, and positions Fortis well for future investment opportunities. Fortis is focused on providing safe, reliable and cost-effective service to customers. Delivering a cleaner energy future is the Corporation's core purpose. In addition, management is focused on delivering long-term profitable growth for shareholders through the execution of its capital plan and the pursuit of investment opportunities within and proximate to its service territories.Additional information about the Corporation's business and reporting units is provided in Note 1 in the 2024 Annual Financial Statements.PERFORMANCE AT A GLANCEKey Financial Metrics($ millions, except as indicated)2024Â 2023Â VarianceCommon Equity EarningsActual1,606Â 1,506Â 100Â Adjusted (1)1,626Â 1,502Â 124Â Basic EPS ($)Actual3.24Â 3.10Â 0.14Â Adjusted (1)3.28Â 3.09Â 0.19Â DividendsPaid per common share ($)2.39Â 2.29Â 0.10Â Actual Payout Ratio (%)73.6Â 73.7Â (0.1)Adjusted Payout Ratio (%) (1)72.7Â 73.9Â (1.2)Weighted average number of common shares outstanding (# millions)495.0Â 486.3Â 8.7Â Operating Cash Flow3,882Â 3,545Â 337Â Capital Expenditures (1)5,247Â 4,329Â 918Â (1)See "Non-U.S. GAAP Financial Measures" on page 10Earnings and EPSCommon Equity Earnings increased by $100 million in comparison to 2023. The increase was due to: (i) Rate Base growth; (ii) higher earnings in Arizona, largely reflecting new customer rates at TEP effective September 1, 2023 and higher production tax credits; (iii) new customer rates and a higher allowed ROE at Central Hudson effective July 1, 2024; and (iv) an unfavourable deferred income tax adjustment recognized by ITC in 2023. The increase was partially offset by higher holding company finance costs, unrealized

losses on derivative contracts, and a $10Â million gain realized upon the disposition of Aitken Creek in 2023. The recognition of a refund liability at ITC in 2024, due to the reduction in the MISO base ROE as approved by FERC and largely reflecting the retroactive impact to prior periods, also unfavourably impacted earnings.In addition to the above-noted items impacting earnings, the change in EPS also reflected an increase in the weighted average number of common shares outstanding, largely associated with the Corporation's DRIP.2FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisAdjusted Common Equity Earnings and Adjusted Basic EPS increased by $124 million and $0.19, respectively. Refer to "Non-U.S. GAAP Financial Measures" on page 10 for a reconciliation of these measures. The change in Adjusted Basic EPS is illustrated in the following chart.(1)Â Â Â Â Includes UNS Energy and Central Hudson. Reflects higher earnings at UNS Energy due to new customer rates at TEP effective September 1, 2023, higher production tax credits, and favourable margins on wholesale sales, partially offset by higher operating costs. Also reflects higher earnings at CentralÂ Hudson due to Rate Base growth as well as new customer rates and a higher allowed ROE effective July 1, 2024, partially offset by favourable regulatory adjustments recognized in 2023(2)Â Â Â Â Includes FortisBC Energy, FortisAlberta and FortisBC Electric. Primarily reflects Rate Base growth, as well as higher earnings at FortisAlberta due to an increase in the allowed ROE, higher demand charges and customer growth, partially offset by higher operating expenses(3)Â Â Â Â Primarily reflects Rate Base growth, partially offset by higher holding company finance costs(4)Â Â Â Â Primarily reflects Rate Base growth and higher electricity sales(5)Â Â Â Â Reflects average foreign exchange rate of 1.37 in 2024 compared to 1.35 in 2023, partially offset by a foreign exchange loss associated with the revaluation of U.S. dollar denominated liabilities at a rate of 1.44 at DecemberÂ 31, 2024(6)Â Â Â Â Reflects higher holding company finance costs and unrealized losses on derivative contracts, partially offset by higher hydroelectric production in Belize(7)Â Â Â Â Weighted average shares of 495.0Â million in 2024 compared to 486.3Â million in 2023DividendsFortis paid a dividend of $0.615 per common share in the fourth quarter of 2024, up 4.2% from $0.59 paid in each of the previous four quarters. This marked the Corporation's 51st consecutive year of increases in dividends paid. The Adjusted Payout Ratio was 73% in 2024 and an average of 76% over the five-year period of 2020 through 2024. Fortis is targeting annual dividend growth of approximately 4-6% through 2029. See "Outlook" on page 40.Growth in dividends and changes in the market price of the Corporation's common shares have yielded the following TSRs. TSR (1) (%)1-Year5-Year10-Year20-YearFortis14.1Â 6.1Â 8.4Â 10.3Â (1)Annualized TSR per Bloomberg, as at DecemberÂ 31, 20243FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisOperating Cash FlowThe $337Â million increase in Operating Cash Flow was due to: (i) higher cash earnings, reflecting Rate Base growth, as well as new customer rates and higher sales at TEP; and (ii) the higher collection of flow-through costs at UNS Energy. Deposits received related to the construction of the Eagle Mountain Pipeline project and the receipt of an income tax refund at FortisBC Energy also favourably impacted Operating Cash Flow. The increase was partially offset by: (i) the timing of flow-through costs in customer rates as well as other changes in working capital balances at FortisBC Energy; (ii) the timing of flow-through transmission costs at FortisAlberta; (iii) higher interest payments; and (iv) the disposition of AitkenÂ Creek in November 2023, which contributed approximately $110 million of operating cash flow in 2023.Capital ExpendituresCapital Expenditures in 2024 were $5.2 billion, consistent with expectations and $0.9 billion higher than 2023. The increase compared to 2023 was primarily due to investments associated with the Eagle Mountain Pipeline project at FortisBC Energy, expenditures on various transmission reliability projects at ITC, and construction of the Roadrunner Reserve battery storage projects at UNS Energy.Capital Expenditures is a Non-U.S. GAAP financial measure. Refer to "Non-U.S. GAAP Financial Measures" on page 10.New Five-Year Capital PlanThe Corporation's 2025-2029 capital plan of $26.0 billion is the largest in the Corporationâ€™s history and is $1.0Â billion higher than the previous five-year plan. The increase is driven by projects associated with the MISO LRTP and resiliency investments at ITC, as well as distribution investments largely due to customer growth at FortisAlberta. For a detailed discussion of the Corporation's capital expenditure program, see "Capital Plan" on page 19.Funding of the capital plan is expected to be primarily through Operating Cash Flow and debt issued at the regulated utilities. Common equityÂ proceeds are expected to be sourced from the Corporation's DRIP assuming current participation levels. The Corporation's $500 million ATM Program remains available and provides funding flexibility as required.The five-year capital plan is expected to increase midyear Rate Base from $39.0 billion in 2024 to $53.0 billion by 2029, translating into a five-year CAGR of 6.5%. PROJECTED RATE BASE (1)(1) Â Â Â Â Reflects average exchange rate of 1.37 for 2024 and exchange rate of 1.30 for 2025-2029. On average, Fortis estimates that a five-cent increase or decrease in the U.S. dollar relative to the Canadian dollar would increase or decrease Rate Base by approximately $1.1 billion over the five-year planning periodBeyond the five-year capital plan, opportunities to expand and extend growth include: further expansion of the electric transmission grid in the U.S. to support load growth and facilitate the interconnection of cleaner energy; transmission investments associated with the MISO LRTP tranches 1, 2.1 and 2.2 as well as regional transmission in New York; grid resiliency and climate adaptation investments; renewable gas solutions and LNG infrastructure in British Columbia; and the acceleration of load growth and cleaner energy infrastructure investments across our jurisdictions. 4FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisTHE INDUSTRYThe North American utility industry is undergoing significant transformation due to the need for energy security, the impacts of climate change, the transition to cleaner energy, and projected growth in load driven by data centers, manufacturing and electrification. These factors are creating significant investment opportunities for the sector.Policy makers and regulators at the federal, state, and provincial levels are increasingly prioritizing matters of energy security, with many continuing to support the transition to cleaner energy. The conjunction of policy and forecasted load growth has resulted in opportunities to invest in renewable and natural gas generation, energy storage systems and transmission infrastructure. Electrification of transportation and heating continues to grow and represents another opportunity to reduce carbon emissions while increasing the output and efficiency of the grid. Grid resilience continues to grow in importance with the increasing frequency and intensity of weather events such as extreme heat and cold, hurricanes, wildfires, floods and storms. With electricity expected to represent a larger portion of society's energy mix, investments in resiliency are necessary to improve the grid's ability to withstand and recover from climate events. Diversity of energy supply and enhanced integration of energy systems are vital to deliver the resilience, energy, and capacity needed to support economic growth and energy demand. Electric transmission is a critical enabler of load growth, interconnecting large-scale generation while improving system resilience. Natural gas generation provides a reliable source of energy and capacity that will be an essential resource to meet growing energy needs. Natural gas investments, as well as energy storage solutions, will enable the adoption of additional renewable energy. Increased adoption of RNG and, in the longer-term, hydrogen will further contribute to carbon emissions reduction. The Corporation's utilities are well positioned and actively involved in pursuing these opportunities, which will drive significant capital investment, particularly at ITC, UNS Energy and in Western Canada.New technology is stimulating change across the Corporation's service territories. Energy delivery systems are becoming more intelligent, with advanced meters, remote sensing, and grid automation. More capable operational technology provides utilities with detailed usage data, enhanced inspection capabilities, and predictive maintenance information, contributing to increased efficiency and more reliable energy delivery. Energy management capabilities are expanding through emerging storage, demand response, and distributed energy management systems. Fortis' culture of innovation underlies a continuous drive to find better ways to safely, reliably and affordably deliver the energy and services that customers need. Fortis is a partner in Energy Impact Partners, a strategic private venture fund that invests in emerging technologies, products, services and business models that are transforming the industry. The Corporation is also involved in the Low Carbon Resources Initiative, a collaboration between EPRI and GTI Energy, along with other major utilities, to develop and demonstrate the low- and zero-carbon energy technologies needed to enable pathways to decarbonization. Fortis is also a member of EPRI's Climate READi, an initiative involving major North American utilities, regulators, policy makers, and other stakeholders focused on developing an industry-wide best practice framework for managing physical climate risk. Meaningful customer engagement is important for utilities as customer expectations change. Customers want to make informed energy choices and become active participants in the delivery of their energy. They also expect personalized service, customized self-service offerings, and more real-time, digital communication. To respond to these changes, Fortis' utilities are enhancing customer information systems, adopting digital technologies including AI, and advancing new and modern approaches to customer engagement. At the same time, increased investment in cybersecurity is an ongoing priority in the context of an ever-changing threat landscape. Upgrades to the physical security environment are also required to keep pace with evolving challenges. These technological advancements and challenges offer strategic investment opportunities for Fortis' utilities.The Corporation's culture and decentralized structure support our utilities' efforts to meet changing customer expectations, and to work constructively with regulators and all stakeholders on policy, energy and service solutions. Fortis is well positioned to support energy security, load growth and the clean energy transition across the Corporation's footprint.5FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisOPERATING RESULTSVariance($ millions)2024Â 2023Â FXOtherRevenue11,508Â 11,517Â 108Â (117)Energy supply costs3,249Â 3,771Â 32Â (554)Operating expenses3,040Â 2,889Â 29Â 122Â Depreciation and amortization1,927Â 1,773Â 16Â 138Â Other income, net288Â 291Â (10)7Â Finance charges1,406Â 1,305Â 13Â 88Â Income tax expense346Â 360Â 1Â (15)Net earnings1,828Â 1,710Â 7Â 111Â Net earnings attributable to:Non-controlling interests148Â 137Â 2Â 9Â Preference equity shareholders74Â 67Â â€”Â 7Â Common equity shareholders1,606Â 1,506Â 5Â 95Â Net earnings1,828Â 1,710Â 7Â 111Â RevenueThe decrease in revenue, net of foreign exchange, was due to lower flow-through commodity costs in customer rates at FortisBC Energy and Central Hudson. The decrease was also due to a reduction in the MISO base ROE at ITC, approved by FERC in October 2024, including retroactive application to prior periods (see "Regulatory Highlights - Significant Regulatory Matters" on pageÂ 12), and lower short-term wholesale sales revenue at UNS Energy. The decrease was partially offset by Rate Base growth and new customer rates at TEP and Central Hudson, effective SeptemberÂ 1,Â 2023 and July 1, 2024, respectively.Energy Supply CostsThe decrease in energy supply costs, net of foreign exchange, was due primarily to lower commodity costs, mainly at FortisBC Energy, CentralÂ Hudson, and UNS Energy.Operating ExpensesThe increase in operating expenses, net of foreign exchange, was due primarily to general inflationary and employee-related cost increases.Depreciation and AmortizationThe increase in depreciation and amortization, net of foreign exchange, was due to continued investment in energy infrastructure at the Corporation's regulated utilities, and new depreciation rates approved for TEP in September 2023 as part of its general rate application.Other Income, NetOther Income, net of foreign exchange, was relatively consistent with 2023. An increase in other income associated with higher AFUDC at UNSÂ Energy and FortisBC Energy was largely offset by the pre-tax gain recognized in 2023 on the sale of Aitken Creek and net unrealized losses on derivative contracts.Finance ChargesThe increase in finance charges, net of foreign exchange, was due to higher debt levels to support the Corporation's capital plan, as well as higher interest rates on new debt issuances.Income Tax ExpenseThe decrease in income tax expense, net of foreign exchange, was driven by higher production tax credits at UNS Energy, and the unfavourable $9Â million deferred income tax adjustment recognized at ITC in 2023 following a reduction in the corporate income tax rate in the state of Iowa. The decrease was partially offset by higher earnings before taxes.Net EarningsSee "Performance at a Glance - Earnings and EPS" on page 2.6FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisBUSINESS UNIT PERFORMANCECommon Equity EarningsVariance($ millions)2024Â 2023Â FX (1)OtherRegulated UtilitiesITC542Â 508Â 8Â 26Â UNS Energy448Â 400Â 6Â 42Â Central Hudson128Â 105Â 3Â 20Â FortisBC Energy293Â 274Â â€”Â 19Â FortisAlberta181Â 162Â â€”Â 19Â FortisBC Electric72Â 68Â â€”Â 4Â Other Electric (2)163Â 146Â â€”Â 17Â 1,827Â 1,663Â 17Â 147Â Non-RegulatedCorporate and Other (3)(221)(157)(12)(52)Common Equity Earnings1,606Â 1,506Â 5Â 95Â (1)The reporting currency of ITC, UNS Energy, Central Hudson, Caribbean Utilities, FortisTCI and Fortis Belize is the U.S.Â dollar. Earnings represent the Corporation's 80.1% controlling ownership interest in ITC and reflect consolidated purchase price accounting adjustments. RevenueThe increase in revenue, net of foreign exchange, was due primarily to Rate Base growth and higher flow-through costs in customer rates. TheÂ increase was partially offset by a decrease in the MISO base ROE from 10.02% to 9.98%, as approved by FERC in October 2024, for the 15-month period from November 2013 through February 2015 and prospectively from September 2016 (See "Regulatory Highlights - Significant Regulatory Matters" on page 12).EarningsThe increase in earnings, net of foreign exchange, was due primarily to Rate Base growth as well as an unfavourable $9 million deferred income tax adjustment recognized in 2023 following a reduction in the corporate income tax rate in the state of Iowa. The increase was partially offset by: (i) a decrease in the MISO base ROE from 10.02% to 9.98% as discussed above, which resulted in a $22 million reduction in earnings in 2024, including $20Â million associated with the retroactive impact to prior periods; and (ii) higher holding company finance costs.UNS EnergyVariance($ millions, except as indicated)2024Â 2023Â FXOtherRetail electricity sales (GWh)10,870Â 10,786Â â€”Â 84Â Wholesale electricity sales (GWh)(1)5,810Â 5,387Â â€”Â 423Â Gas sales (PJ)17Â 17Â â€”Â â€”Â Revenue3,007Â 3,006Â 45Â (44)Earnings448Â 400Â 6Â 42Â (1)Â Â Â Â Primarily short-term wholesale salesSalesThe increase in retail electricity sales was due primarily to warmer weather and customer additions.7FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisThe increase in wholesale electricity sales was driven by higher short-term wholesale sales, due to market conditions, partially offset by lower long-term wholesale sales due to the expiration of certain contracts. Revenue from short-term wholesale sales, which relate to contracts that are less than one-year in duration, is primarily credited to customers through the PPFAC mechanism and, therefore, does not materially impact earnings.Gas sales were consistent with 2023.RevenueThe decrease in revenue, net of foreign exchange, was due primarily to: (i) lower wholesale sales revenue, largely driven by unfavourable pricing on short-term wholesale sales; (ii) the recovery of overall lower fuel and non-fuel costs through the normal operation of regulatory mechanisms; and (iii) lower transmission revenue. The decrease was partially offset by new customer rates at TEP effective SeptemberÂ 1, 2023.EarningsThe increase in earnings, net of foreign exchange, was due primarily to: (i) new customer rates at TEP effective September 1, 2023, following the conclusion of the general rate application; (ii) higher production tax credits related to the Oso Grande generating facility; and (iii) higher margins on long-term wholesale sales. The increase was partially offset by: (i) higher depreciation expense, due to new depreciation rates also approved as part of the rate application; (ii) higher operating expenses, reflecting labour costs as well as an increase in planned generation maintenance in 2024; and (iii)Â lower transmission revenue.Central HudsonVariance($ millions, except as indicated)2024Â 2023Â FXOtherElectricity sales (GWh)5,060Â 4,921Â â€”Â 139Â Gas sales (PJ)25Â 24Â â€”Â 1Â Revenue 1,372Â 1,360Â 22Â (10)Earnings 128Â 105Â 3Â 20Â SalesThe increase in electricity sales was due primarily to higher average consumption by residential and commercial customers due to warmer weather.Gas sales were relatively consistent with 2023.Changes in electricity and gas sales at Central Hudson are subject to regulatory revenue decoupling mechanisms and, therefore, do not materially impact earnings.RevenueThe decrease in revenue, net of foreign exchange, was due primarily to the flow-through of lower energy supply costs driven by commodity prices, partially offset by the conclusion of Central Hudson's 2024 general rate application and related rebasing of customer rates effective JulyÂ 1,Â 2024. Favourable regulatory adjustments recognized in 2023 that did not reoccur in 2024 also contributed to the decrease in revenue. EarningsThe increase in earnings, net of foreign exchange, was due to Rate Base growth, as well as new customer rates reflecting the rebasing of costs and a higher allowed ROE effective July 1, 2024. The increase was partially offset by favourable regulatory adjustments recognized in 2023 that did not reoccur in 2024.FortisBC Energy($ millions, except as indicated)2024Â 2023Â VarianceGas sales (PJ)220Â 213Â 7Â Revenue1,665Â 1,955Â (290)Earnings293Â 274Â 19Â SalesThe increase in gas sales was due primarily to higher average consumption by industrial, residential and commercial customers.8FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisRevenueThe decrease in revenue was due primarily to the recovery of lower flow-through commodity costs and the normal operation of regulatory mechanisms.EarningsThe increase in earnings was due primarily to higher net investments in regulated assets. FortisBC Energy earns approximately the same margin regardless of whether a customer contracts for the purchase and delivery of natural gas or only for delivery. Due to regulatory deferral mechanisms, changes in consumption levels and commodity costs do not materially impact earnings.FortisAlberta($ millions, except as indicated)2024Â 2023Â VarianceElectricity deliveries (GWh)17,324Â 16,976Â 348Â Revenue817Â 738Â 79Â Earnings 181Â 162Â 19Â DeliveriesThe increase in electricity deliveries was due primarily to customer additions and higher average consumption by industrial customers.As approximately 85% of FortisAlberta's revenue is derived from fixed or largely fixed billing determinants, changes in quantities of energy delivered are not entirely correlated with changes in revenue. Revenue is a function of numerous variables, many of which are independent of actual energy deliveries. Significant variations in weather conditions, however, can impact revenue and earnings.Revenue The increase in revenue was due to: (i) Rate Base growth, including changes associated with the third PBR term beginning January 1, 2024; (ii) an increase in the allowed ROE from 8.50% to 9.28%, as approved by the AUC, effective January 1, 2024; and (iii) higher industrial and commercial demand charges, as well as customer additions. EarningsThe increase in earnings was due to the higher allowed ROE, Rate Base growth, higher

demand charges and customer additions, as discussed above. The increase was partially offset by higher operating expenses, primarily reflecting operational requirements driven by customer growth, including higher labour costs.FortisBC Electric($ millions, except as indicated)2024Â 2023Â VarianceElectricity sales (GWh)3,513Â 3,478Â 35Â Revenue 545Â 528Â 17Â Earnings 72Â 68Â 4Â SalesThe increase in electricity sales was due to higher average consumption by industrial customers, partially offset by lower average consumption by commercial customers. RevenueThe increase in revenue was due primarily to higher electricity sales and Rate Base growth, as well as higher energy supply costs recovered from customers. The increase was partially offset by the normal operation of regulatory mechanisms.EarningsThe increase in earnings was due primarily to Rate Base growth.Due to regulatory deferral mechanisms, changes in consumption levels do not materially impact earnings.9FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisOther ElectricVariance($ millions, except as indicated)2024Â 2023Â FXOtherElectricity sales (GWh)9,879Â 9,753Â â€”Â 126Â Revenue1,838Â 1,761Â 8Â 69Â Earnings 163Â 146Â â€”Â 17Â SalesThe increase in electricity sales was mainly due to higher average consumption by residential and commercial customers, as well as customer additions. Higher average consumption was largely due to the conversion of home heating systems from oil to electric in Eastern Canada and increased tourism-related activities in the Caribbean.RevenueThe increase in revenue, net of foreign exchange, was due to Rate Base growth, higher electricity sales and the flow-throughÂ of higher energy supply costs.EarningsThe increase in earnings, net of foreign exchange, was due primarily to Rate Base growth and higher electricity sales.Corporate and OtherVariance($ millions)2024Â 2023Â FXOtherElectricity sales (GWh) (1)215Â 164Â â€”Â 51Â Revenue (2)35Â 84Â â€”Â (49)Net loss (3)(221)(157)(12)(52) (1)Â Â Â Â Â Reflects electricity sales at Fortis Belize(2)Â Â Â Â Includes revenue for Fortis Belize as well as revenue for Aitken Creek up to the November 1, 2023 date of disposition (3)Â Â Â Â Includes non-regulated holding company expenses, earnings for Fortis Belize, as well as earnings for Aitken Creek up to the November 1, 2023 date of dispositionSalesThe increase in electricity sales reflected higher hydroelectric production in Belize associated with rainfall levels.RevenueThe decrease in revenue reflected the disposition of Aitken Creek in November 2023, partially offset by higher hydroelectric production in Belize.Net LossThe increase in net loss was due to: (i) higher holding company finance costs; (ii) net unrealized losses on derivative contracts, reflecting losses on foreign exchange contracts partially offset by gains on total return swaps; and (iii) the $10 million gain on disposition of AitkenÂ Creek recognized in 2023. The increase in net loss was partially offset by higher hydroelectric production in Belize.The $12 million foreign exchange impact was largely due to the revaluation of U.S. dollar denominated liabilities following the significant depreciation in the Canadian dollar relative to the U.S. dollar in the fourth quarter of 2024. NON-U.S. GAAP FINANCIAL MEASURESAdjusted Common Equity Earnings, Adjusted Basic EPS, Adjusted Payout Ratio and Capital Expenditures are Non-U.S. GAAP Financial Measures and may not be comparable with similar measures used by other entities. They are presented because management and external stakeholders use them in evaluating the Corporation's financial performance and prospects. Net earnings attributable to common equity shareholders (i.e., Common Equity Earnings) and basic EPS are the most directly comparable U.S.Â GAAP measures to Adjusted Common Equity Earnings and Adjusted Basic EPS, respectively. The Actual Payout Ratio calculated using Common Equity Earnings is the most comparable U.S. GAAP measure to the Adjusted Payout Ratio. These adjusted measures reflect the removal of items that management excludes in its key decision-making processes and evaluation of operating results.Capital Expenditures include additions to property, plant and equipment and additions to intangible assets, as shown on the consolidated statements of cash flows. It also included Fortis' 39% share of capital spending for the Wataynikaneyap Transmission Power Project, consistent with Fortis' evaluation of operating results and its role as project manager during the construction of the project. 10FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisNon-U.S. GAAP Reconciliation($ millions, except as indicated)2024Â 2023Â VarianceAdjusted Common Equity Earnings, Adjusted Basic EPSand Adjusted Payout RatioCommon Equity Earnings1,606Â 1,506Â 100Â Adjusting items:October 2024 MISO base ROE decision (1)20Â â€”Â 20Â Disposition of Aitken Creek (2)â€”Â (15)15Â Unrealized loss on mark-to-market of derivatives (3)â€”Â 2Â (2)Revaluation of deferred income tax assets (4)â€”Â 9Â (9)Adjusted Common Equity Earnings1,626Â 1,502Â 124Â Adjusted Basic EPS (5) ($) 3.28Â 3.09Â 0.19Â Adjusted Payout Ratio (6) (%) 72.7Â 73.9Â (1.2)Capital ExpendituresAdditions to property, plant and equipment5,012Â 3,986Â 1,026Â Additions to intangible assets206Â 183Â 23Â Adjusting item:Wataynikaneyap Transmission Power Project (7)29Â 160Â (131)Capital Expenditures5,247Â 4,329Â 918Â (1)Â Â Â Â Represents the prior period impact of FERC's October 2024 MISO base ROE decision (see "Regulatory Highlights - Significant Regulatory Matters" on page 12), net of income tax recovery of $7 million, included in the ITC segment(2)Â Â Â Â Aitken Creek was sold on November 1, 2023, with a March 31, 2023 effective date. For the year ended December 31, 2023, the adjustment represents: (i) the $10 million gainÂ on disposition, net of income tax expense of $13 million; and (ii) $5 million of net earnings at Aitken Creek, recognized in accordance with U.S. GAAP, during the MarchÂ 31, 2023 to November 1, 2023 stub period, net of income tax expense of $2 million, included in the Corporate and Other segment(3)Â Â Â Â Represents the impact of mark-to-market accounting of natural gas derivatives at Aitken Creek through the March 31, 2023 effective date of disposition, net of income tax recovery $1 million, included in the Corporate and Other segment(4)Â Â Â Â Represents the revaluation of deferred income tax assets resulting from the reduction in the corporate income tax rate in the state of Iowa, included in the ITC segment (5) Â Â Â Â Calculated using Adjusted Common Equity Earnings divided by weighted average common shares of 495.0Â million in 2024 (2023 - 486.3Â million)(6)Â Â Â Â Calculated using dividends paid per common share of $2.39 in 2024 (2023 - $2.29) divided by Adjusted Basic EPS(7)Â Â Â Â Represents Fortis' 39% share of capital spending for the Wataynikaneyap Transmission Power Project, included in the Other Electric segment. Construction was completed in the second quarter of 2024REGULATORY HIGHLIGHTSGeneralThe earnings of the Corporation's regulated utilities are determined under COS regulation, with some using PBR mechanisms. Under COS regulation, the regulator sets customer rates to permit a reasonable opportunity for the timely recovery of the estimated costs of providing service, including a fair rate of return on a deemed or targeted capital structure applied to an approved Rate Base. PBR mechanisms generally apply a formula that incorporates inflation and assumed productivity improvements for a set term.The ability to recover prudently incurred costs of providing service and earn the regulatorâ€‘approved ROE or ROA may depend on achieving the forecasts established in the rate-setting process. There can be varying degrees of regulatory lag between when costs are incurred and when they are recovered in customer rates. As well, the Corporation's regulated utilities, where applicable, are permitted by their respective regulators to flow through to customers, without markup, the cost of natural gas, fuel and/or purchased power through base customer rates and/or the use of rate stabilization and otherÂ mechanisms. Transmission operations in the U.S. are regulated federally by FERC. Remaining utility operations in the U.S. and Canada are regulated by state or provincial regulators. Utility operations in the Caribbean are regulated by regulatory and governmental authorities.Additional information about regulation and the regulatory matters discussed below is provided in NoteÂ 2 in the 2024 Annual Financial Statements. Also refer to "Business Risks - Utility Regulation" on pageÂ 22.11FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisSignificant Regulatory MattersITCMISO Base ROE: In 2022, the D.C. Circuit Court issued a decision vacating certain FERC orders that had established the methodology for setting the base ROE for transmission owners operating in the MISO region, including ITC, and remanded the matter to FERC for further process. This matter dates back to complaints filed at FERC in 2013 and 2015 challenging the MISO base ROE then in effect. In October 2024, FERC issued an order that removed the use of the risk premium model from the calculation of the base ROE, while maintaining other modifications to the methodology. The updated methodology revised the base ROE from 10.02% to 9.98%, with a maximum ROE inclusive of incentives not to exceed 12.58%. The order also directed the payment of certain refunds, with interest, by December 2025, for the 15-month period from November 2013 through February 2015, and prospectively from September 2016. A regulatory liability of $39Â million (US$27 million) associated with the refunds has been recognized by ITC as of December 31, 2024. Fortis' 80.1% share of the related after-tax earnings impact was approximately $22 million, of which $20 million related to periods prior to January 1, 2024.Certain MISO transmission owners, including ITC, filed a request for rehearing with FERC in November 2024, and filed an appeal of the order with the D.C. Circuit Court in January 2025. The requests for rehearing and appeal primarily focus on the refund period and the related interest. The timing and outcome of these filings are unknown.Transmission Incentives: In 2021, FERC issued a supplemental NOPR on transmission incentives modifying the proposal in the initial NOPR released by FERC in 2020. The supplemental NOPR proposes to eliminate the 50-basis point RTO ROE incentive adder for RTO members that have been members for longer than three years. Although the timing and outcome of this proceeding remain unknown, every 10-basis point change in ROE at ITC impacts Fortis' annual EPS by approximately $0.01. Transmission ROFR: In December 2023, the Iowa District Court ruled that the manner in which Iowa's ROFR statute was passed was unconstitutional. The statute granted incumbent electric transmission owners, including ITC, a ROFR to construct, own and maintain certain electric transmission assets in the state. The District Court did not make any determination on the merits of the ROFR itself, but did issue a permanent injunction preventing ITC and others from taking further action to construct the MISO LRTP tranche 1 Iowa projects in reliance on the ROFR. MISO's decision with respect to the assignment of the tranche 1 LRTP projects was finalized on July 25, 2022. MISO is the only entity charged with determining what projects are to be competitively bid pursuant to its tariff. In May 2024, MISO commenced a variance analysis process as a result of the inability to construct a portion of the tranche 1 LRTP projects in Iowa due to the injunction imposed by the District Court. In August 2024, MISO concluded the variance analysis, which reaffirmed the original allocation of projects to ITC and other incumbent transmission owners. Approximately US$800 million of capital expenditures associated with the first tranche of MISO's LRTP in Iowa is reflected in Fortis' 2025-2029 capital plan. While the results of MISO's variance analysis process allow ITC to move forward with the development of its portion of tranche 1 LRTP projects in Iowa, various legal proceedings with respect to this matter are ongoing for which the timing and outcome are unknown. UNS EnergyGeneric Regulatory Lag Docket: In December 2024, the ACC approved a formula rate plan policy statement which allows utilities to propose formula rates in future rate cases. A formula rate plan, if approved by the ACC, would adjust rates annually based on a predetermined formula. A formula rate plan is expected to improve rate stability for customers, while also reducing regulatory lag and the number of existing rate adjusters.UNS Gas General Rate Application: In November 2024, UNS Gas filed a general rate application with the ACC requesting an increase in gas delivery rates effective February 1, 2026. The application includes a request to set its ROE at 10.25% and a 56% common equity component of capital structure. In January 2025, UNS Gas filed supplemental material proposing an annual rate adjustment mechanism as a result of the ACC's formula rate policy statement discussed above. The timing and outcome of this proceeding are unknown.Central Hudson2025 General Rate Application: In August 2024, Central Hudson filed a general rate application with the PSC requesting an increase in electric and gas delivery rates effective July 1, 2025. The application includes a request to set Central Hudson's allowed ROE at 10% and a 48% common equity component of capital structure. The timing and outcome of this proceeding are unknown.Show Cause Order: In October 2024, the PSC issued a Show Cause Order which directed Central Hudson to explain why the PSC should not initiate an enforcement proceeding in connection with a gas-related explosion that occurred in November 2023. Central Hudson filed its response in November 2024. The timing and outcome of the Show Cause Order are unknown.12FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisFortisBC Energy and FortisBC Electric2025-2027 Rate Framework: In April 2024, FortisBC filed an application with the BCUC requesting approval of a rate framework for the period 2025 through 2027. The rate framework builds upon the current multi-year rate plan and includes, amongst other items, updates to depreciation and capitalized overhead rates, a revised level of operation and maintenance expense per customer indexed for inflation less a fixed productivity adjustment factor, a similar approach to growth capital, a forecast approach to sustaining and other capital, continued collection of an innovation fund recognizing the need to accelerate investment in clean energy innovation, and the continued sharing with customers of variances from the allowed ROE. The rate framework also proposes the continuation of deferral mechanisms currently in place. A decision from the BCUC is expected in mid-2025. FortisAlbertaGCOC Decision: In October 2023, the AUC issued a decision on the 2024 GCOC proceeding. In November 2023, FortisAlberta sought permission to appeal the GCOC decision to the Court of Appeal on the basis that the AUC erred in its decision to not adjust FortisAlberta's ROE and common equity component of capital structure to address incremental business risk associated with competition from REAs located in FortisAlberta's service area, as well as heightened regulatory risk due to the non-recovery of costs attributable to REAs. In April 2024, the Court of Appeal granted FortisAlberta permission to appeal, and a decision is expected in the first quarter of 2025.Third PBR Term Decision: In October 2023, the AUC issued a decision establishing the parameters for the third PBR term for the period of 2024 through 2028. In November 2023, FortisAlberta sought permission to appeal the decision to the Court of Appeal on the basis that the AUC erred in its decision to determine capital funding using 2018-2022 historical capital investments without consideration for funding of new capital programs included in the company's 2023 cost of service revenue requirement as approved by the AUC. FortisAlberta's application for permission to appeal the decision was heard by the Court of Appeal in December 2024 and a decision is expected in the first quarter of 2025.FINANCIAL POSITION Significant Changes between DecemberÂ 31, 2024 and 2023Balance Sheet AccountVariance($ millions)FXOtherExplanationCash and cash equivalents44Â (449)Reflects the timing of a debt issuance at ITC in 2023, with proceeds reinvested in operating and capital requirements in 2024.Other assets87Â 268Â Due primarily to an increase in employee future benefit assets, driven by higher discount rates as well as investment returns on DBP and OPEB plans.Regulatory assets (current and long-term)126Â 121Â Due to changes associated with various regulatory mechanisms, including an increase in deferred income taxes and deferred energy management costs.Property, plant and equipment, net2,423Â 3,648Â Reflects capital investments, partially offset by depreciation.Accounts payable & other current liabilities119Â 262Â Due to an increase in trade accounts payable related to the Corporation's capital program, and an increase in customer deposits for the Eagle Mountain Pipeline project.Regulatory liabilities (current and long-term)214Â 119Â Due to changes associated with various regulatory mechanisms including employee future benefit and future cost of removal deferrals, partially offset by the normal operation of rate stabilization accounts.Deferred income taxes238Â 383Â Primarily due to higher temporary differences associated with ongoing capital investments.Long-term debt (including current portion)1,655Â 2,028Â Reflects debt issuances, partially offset by debt repayments, as well as higher borrowings under committed credit facilities, in support of the Corporation's capital plan.Shareholders' equity1,405Â 898Â Due primarily to: (i) Common Equity Earnings for 2024, less dividends declared on common shares; and (ii)Â the issuance of common shares, largely under the DRIP.13FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisLIQUIDITY AND CAPITAL RESOURCESCash Flow RequirementsAt the subsidiary level, it is expected that operating expenses and interest costs will be paid from Operating Cash Flow, with varying levels of residual cash flow available for capital expenditures and/or dividend payments to Fortis. Remaining capital expenditures are expected to be financed primarily from borrowings under credit facilities, long-term debt offerings and equity injections from Fortis. Borrowings under credit facilities may be required periodically to support seasonal working capital requirements.Cash required of Fortis to support subsidiary growth is generally derived from borrowings under the Corporation's credit facilities, the operation of the DRIP, as well as issuances of long-term debt, preference equity, and common shares including those issued through the ATM Program. The subsidiaries pay dividends to Fortis and receive equity injections from Fortis when required. Both Fortis and its subsidiaries initially borrow through their credit facilities and periodically replace these borrowings with long-term financing. Financing needs also arise to refinance maturing debt. Credit facilities are syndicated primarily with large banks in Canada and the U.S., with no one bank holding more than approximately 20% of the Corporation's total revolving credit facilities. Approximately $5.8 billion of the total credit facilities are committed with maturities ranging from 2025 through 2029. Available credit facilities are summarized in the following table.Credit FacilitiesAs at December 31RegulatedCorporate($ millions)Utilitiesand Other20242023Â Total credit facilities (1)4,396Â 1,946Â 6,342Â 6,176Â Credit facilities utilized:Short-term borrowings(98)â€”Â (98)(119)Long-term debt (including current portion)(1,335)(881)(2,216)(1,572)Letters of credit outstanding(81)(21)(102)(101)Credit facilities unutilized2,882Â 1,044Â 3,926Â 4,384Â (1)Additional information about the Corporation's credit facilities is provided in Note 14 in the 2024 Annual Financial StatementsIn April 2024, FortisBC Energy increased its operating credit facility from $700 million to $900 million and extended the maturity to July 2028. In May 2024, FortisBC Electric increased its operating credit facility from $150 million to $200 million and extended the maturity to April 2028.In May 2024, the Corporation extended the maturity on its unsecured US$500 million non-revolving term credit facility to May 2025. Half of the term credit facility was repaid in the third quarter of 2024 and the remaining US$250 million has been fully utilized as at December 31, 2024. The facility is repayable at any time without penalty. In June 2024, the Corporation amended its $1.3 billion revolving term committed credit facility to extend the maturity to July 2029. In August 2024, Newfoundland Power increased its operating credit facility from $100 million to $130 million and extended the maturity to August 2029.The Corporation's ability to service debt and pay dividends is dependent on the financial results of, and the related cash payments from, its subsidiaries. Certain regulated subsidiaries are subject to restrictions that limit their ability to distribute cash to Fortis, including restrictions by certain regulators limiting annual dividends and restrictions by certain lenders limiting debt to total capitalization. There are also practical limitations on using the net assets of the regulated subsidiaries to pay dividends, based on management's intent to maintain the subsidiaries' regulator-approved capital structures. Fortis does not expect that maintaining such capital structures will impact its ability to pay dividends in the foreseeable future.As at DecemberÂ 31, 2024, consolidated fixed-term debt maturities/repayments are expected to average $1,484 million annually over the next five years and approximately 76% of the Corporation's consolidated long-term debt, excluding credit facility borrowings, had maturities beyond five years. In December 2024, Fortis filed a short-form base

shelf prospectus with a 25-month life under which it may issue common or preference shares, subscription receipts, or debt securities in an aggregate principal amount of up to $2.0Â billion. Fortis also reestablished the ATM Program pursuant to the short-form base shelf prospectus, which allows the Corporation to issue up to $500Â million of common shares from treasury to the public from time to time, at the Corporation's discretion, effective until January 10, 2027. As at DecemberÂ 31, 2024, $500Â million remained available under the ATM Program and $1.5Â billion remained available under the short-form base shelf prospectus.14FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisFortis is well positioned with strong liquidity. This combination of available credit facilities and manageable annual debt maturities/repayments provides flexibility in the timing of access to capital markets. Given current credit ratings and capital structures, the Corporation and its subsidiaries currently expect to continue to have reasonable access to long-term capital in 2025.Fortis and its subsidiaries were in compliance with debt covenants as at DecemberÂ 31, 2024 and are expected to remain compliant in 2025.Cash Flow SummarySummary of Cash FlowsYears ended December 31($ millions)2024Â 2023Â VarianceCash and cash equivalents, beginning of year625Â 209Â 416Â Cash from (used in):Operating activities3,882Â 3,545Â 337Â Investing activities(5,395)(3,742)(1,653)Financing activities1,064Â 613Â 451Â Effect of exchange rate changes on cash and cash equivalents44Â â€”Â 44Â Cash and cash equivalents, end of year220Â 625Â (405)Operating ActivitiesSee "Performance at a Glance - Operating Cash Flow" on page 4.Investing ActivitiesThe increase in cash used in investing activities primarily reflects higher capital expenditures in 2024, as well as the proceeds received in 2023 related to the disposition of Aitken Creek. See "Capital Plan" on page 19. Lower customer contributions in aid of construction also contributed to the year over year variance.Financing ActivitiesCash flows related to financing activities will fluctuate largely as a result of changes in the subsidiaries' capital expenditures and the amount of Operating Cash Flow available to fund those capital expenditures, which together impact the amount of funding required from debt and common equity issuances. See "Cash Flow Requirements" on page 14. The year over year increase in cash from financing activities also reflects the repayment of credit facility borrowings in 2023 with the proceeds received from the sale of Aitken Creek.15FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisDebt FinancingMonthIssuedInterest Rate(%)MaturityAmount($ millions)Use of ProceedsSignificant Long-Term Debt IssuancesYear ended DecemberÂ 31, 2024ITCSecured senior notesJanuary5.98Â 2034US85Â (1) (2) (3)First mortgage bondsJanuary5.11Â 2029US75Â (1) (2) (3)First mortgage bondsJanuary5.38Â 2034US75Â (1) (2) (3)Unsecured senior notesMay5.65Â 2034US400Â (3) (4)First mortgage bondsDecember4.88Â 2035US125Â (1) (2) (3)First mortgage bondsDecember5.25Â 2043US125Â (1) (2) (3)UNS EnergyUnsecured senior notesMay5.60Â 2036US30Â (1) (3)Unsecured senior notesAugust5.20Â 2034US400Â (3) (4)Central HudsonSenior notesApril5.59Â 2031US25Â (1) (3)Senior notesApril5.69Â 2034US35Â (1) (3)Senior notesOctober4.88Â 2029US25Â (3) (4)Senior notesOctober5.30Â 2034US44Â (3) (4)Senior notesOctober5.40Â 2036US35Â (3) (4)FortisBC ElectricUnsecured debenturesAugust4.92Â 2054100Â (1)FortisAlbertaUnsecured debenturesMay4.90Â 2054300Â (1) (2) (3) (4)Caribbean UtilitiesUnsecured senior notesMay6.17Â 2039US40Â (1) (2) (3) Unsecured senior notesMay6.37Â 2049US40Â (1) (2) (3) FortisOntarioUnsecured senior notesAugust5.05Â 205455Â (1)FortisUnsecured senior notesSeptember4.17Â 2031500Â (1) (3) (4)(1)Â Â Â Â Repay short-term and/or credit facility borrowings (2)Â Â Â Â Fund capital expenditures(3)Â Â Â Â General corporate purposes(4) Â Â Â Â Repay maturing long-term debtCommon Equity FinancingCommon Equity Issuances and Dividends PaidYears ended December 31($ millions, except as indicated)2024Â 2023Â VarianceCommon shares issued:Cash (1)46Â 43Â 3Â Non-cash (2)435Â 409Â 26Â Total common shares issued481Â 452Â 29Â Number of common shares issued (# millions)8.7Â 8.40.3Â Common share dividends paid:Cash(744)(701)(43)Non-cash (3)(434)(408)(26)Total common share dividends paid(1,178)(1,109)(69)Dividends paid per common share ($)2.392.29Â 0.10Â (1)Â Â Â Â Includes common shares issued under stock option and employee share purchase plans(2)Â Â Â Â Common shares issued under the DRIP and stock option plan(3)Â Â Â Â Common share dividends reinvested under the DRIP16FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisOn December 4, 2024 and FebruaryÂ 13, 2025, Fortis declared a dividend of $0.615 per common share payable on March 1, 2025 and JuneÂ 1,Â 2025, respectively. The payment of dividends is at the discretion of the Board and depends on the Corporation's financial condition and other factors.On March 1, 2024, the annual fixed dividend per share for the First Preference Shares, Series K was reset from $0.9823 to $1.3673 for the five-year period up to but excluding March 1, 2029.On December 1, 2024, the annual fixed dividend per share for the First Preference Shares, Series M was reset from $0.9783 to $1.3733 for the five-year period up to but excluding December 1, 2029.Contractual ObligationsContractual ObligationsAs at DecemberÂ 31, 2024($ millions)TotalYear 1Year 2Year 3Year 4Year 5ThereafterLong-term debt:Principal (1)33,405Â 1,990Â 2,585Â 2,541Â 1,499Â 1,024Â 23,766Â Interest19,630Â 1,371Â 1,343Â 1,252Â 1,162Â 1,116Â 13,386Â Finance leases (2)1,139Â 37Â 37Â 37Â 37Â 37Â 954Â Other obligations (3)464Â 127Â 110Â 100Â 22Â 21Â 84Â Other commitments: (4)Gas and fuel purchase obligations 6,299Â 763Â 571Â 520Â 465Â 393Â 3,587Â Renewable power purchase agreements2,628Â 139Â 166Â 182Â 182Â 173Â 1,786Â Waneta Expansion capacity agreement2,362Â 56Â 58Â 59Â 60Â 61Â 2,068Â Power purchase obligations1,335Â 302Â 217Â 131Â 124Â 122Â 439Â ITC easement agreement 370Â 14Â 14Â 14Â 14Â 14Â 300Â TEP EPC agreements308Â 307Â 1Â â€”Â â€”Â â€”Â Debt collection agreement 99Â 3Â 3Â 3Â 3Â 3Â 84Â Renewable energy credit purchase agreements58Â 18Â 7Â 6Â 6Â 6Â 15Â Other140Â 32Â 11Â 11Â 12Â 10Â 64Â 68,237Â 5,159Â 5,123Â 4,856Â 3,586Â 2,980Â 46,533Â (1)Amounts not reduced by unamortized deferred financing and discount costs of $191 million. Additional information is provided in Note 14 of the 2024 Annual Financial Statements(2)Additional information is provided in Note 15 of the 2024 Annual Financial Statements(3)Primarily includes commitments with respect to long-term compensation and employee future benefit arrangements(4)Represents unrecorded commitments. Additional information is provided in Note 27 of the 2024 Annual Financial StatementsOther Contractual ObligationsThe Corporation's regulated utilities are obligated to provide service to customers within their respective service territories. Capital Expenditures are forecast to be approximately $5.2Â billion for 2025 and approximately $26.0 billion for the five-year 2025-2029 capital plan. See "Capital Plan" on page 19.Under a funding framework with the Governments of Ontario and Canada, Fortis will contribute a minimum of approximately $165 million of equity capital to Wataynikaneyap Power, based on Fortis' proportionate 39% ownership interest and the final regulatory-approved capital cost of the related project. Wataynikaneyap Power has construction financing loan agreements in place and it is expected that long-term operating financing will replace the construction financing. In the event a lender under the loan agreements realizes security on the loans, Fortis may be required to accelerate its equity capital contributions, which may be in excess of the amount otherwise required of Fortis under the funding framework, to a maximum total funding of $235 million. Equity of $137Â million has been contributed as of December 31, 2024.UNS Energy has joint generation performance guarantees with participants at Four Corners and Luna, with agreements expiring in 2041 and 2046 respectively, and at San Juan and Navajo through decommissioning. The participants have guaranteed that in the event of payment default, each non-defaulting participant will bear its proportionate share of expenses otherwise payable by the defaulting participant. In exchange, the non-defaulting participants are entitled to receive their proportionate share of the generation capacity of the defaulting participant. In the case of San Juan and Navajo, participants would seek financial recovery from the defaulting party. There is no maximum amount under these guarantees, except for a maximum of $360 million for Four Corners. As at DecemberÂ 31, 2024, there was no obligation under these guarantees. Off-Balance Sheet ArrangementsWith the exception of letters of credit outstanding of $102 million as at DecemberÂ 31, 2024 and the unrecorded commitments in the table above, the Corporation had no off-balance sheet arrangements.17FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisCapital Structure and Credit RatingsFortis requires ongoing access to capital and, therefore, targets a consolidated long-term capital structure that will enable it to maintain investment-grade credit ratings. The regulated utilities maintain their own capital structures in line with those reflected in customer rates.Consolidated Capital Structure20242023As at December 31($ millions)(%)($ millions)(%)Debt (1)33,435Â 56.4Â 29,364Â 55.7Â Preference shares1,623Â 2.7Â 1,623Â 3.1Â Common shareholders' equity and non-controlling interests (2)24,230Â 40.9Â 21,709Â 41.2Â 59,288Â 100.0Â 52,696Â 100.0Â (1)Includes long-term debt and finance leases, including current portion, and short-term borrowings, net of cash(2)Includes shareholders' equity, excluding preference shares, and non-controlling interests. Non-controlling interests represented 3.4% as at DecemberÂ 31, 2024 (DecemberÂ 31, 2023 - 3.5%)Outstanding Share DataAs at FebruaryÂ 13, 2025, the Corporation had issued and outstanding 499.3 million common shares andÂ the following First Preference Shares: 5.0Â million Series F; 9.2 million Series G; 7.7 million SeriesÂ H; 2.3 million Series I; 8.0 million SeriesÂ J; 10.0 million Series K; and 24.0 million Series M. The common shares of the Corporation have voting rights. TheÂ Corporation's first preference shares do not have voting rights unless and until Fortis fails to pay eight quarterly dividends, whether or not consecutive or declared. If all outstanding stock options were converted as at FebruaryÂ 13, 2025, an additional 1.5 million common shares would be issued and outstanding.Credit RatingsThe Corporation's credit ratings shown below reflect its low business risk profile, diversity of operations, the stand-alone nature and financial separation of each regulated subsidiary, and the level of holding company debt.As at DecemberÂ 31, 2024RatingType OutlookS&PA-IssuerNegativeBBB+Unsecured debtMorningstar DBRSA (low)IssuerStableA (low)Unsecured debtStableMoody'sBaa3IssuerStableBaa3Unsecured debt18FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisCapital PlanCapital investment in energy infrastructure is required to ensure the continued and enhanced performance, reliability and safety of the electricity and gas systems, to meet customer growth, and to deliver cleaner energy. Capital Expenditures in 2024 were $5.2 billion, consistent with expectations and $0.9 billion higher than 2023. The increase compared to 2023 was primarily due to investments associated with the Eagle Mountain Pipeline project at FortisBC Energy, expenditures on various transmission reliability projects at ITC, and construction of the Roadrunner Reserve battery storage projects at UNS Energy.2024 Capital Expenditures (1)(2)Regulated UtilitiesTotalRegulatedUtilitiesNon-Regulated Corporate and OtherTotal($ millions, except as indicated)ITCUNSEnergyCentralHudsonFortisBCEnergyFortisAlbertaFortisBCElectricOther ElectricTotal1,456Â 1,151Â 431Â 1,035Â 554Â 132Â 483Â 5,242Â 5Â 5,247Â Forecast 2025 Capital Expenditures (2)Regulated UtilitiesTotalRegulatedUtilitiesNon-Regulated Corporate and OtherTotal (3)($ millions, except as indicated)ITCUNSEnergyCentralHudsonFortisBCEnergyFortisAlbertaFortisBCElectricOther ElectricTotal1,403Â 1,276Â 462Â 687Â 624Â 179Â 540Â 5,171Â 7Â 5,178Â 2025-2029 Capital Plan (2)($ billions)2025202620272028 2029Total (3)Five-year capital plan5.2Â 5.2Â 5.6Â 5.4Â 4.6Â 26.0Â (1)See "Non-U.S. GAAP Financial Measures" on page 10. Reflects a U.S. dollar-to-Canadian dollar exchange rate of 1.37 for 2024(2)Excludes the non-cash equity component of AFUDC(3)Reflects an assumed U.S. dollar-to-Canadian dollar exchange rate of 1.30. On average, Fortis estimates that a five-cent increase or decrease in the U.S. dollar relative to the Canadian dollar would increase or decrease Capital Expenditures by approximately $600 million over the five-year planning periodThe Corporation's 2025-2029 capital plan of $26.0 billion is $1.0 billion higher than the previous five-year plan. The increase is driven by projects associated with the MISO LRTP and resiliency investments at ITC, as well as distribution investments largely due to customer growth at FortisAlberta.The five-year capital plan is low risk and highly executable, with nearly all investments being regulated and only 23% relating to Major Capital Projects. Geographically, 58% of planned expenditures are expected in the U.S., including 29% at ITC, with 38% in Canada and the remaining 4% in the Caribbean.The five-year capital plan is expected to be funded primarily by cash from operations and regulated utility debt. Common equity proceeds are expected to be provided by the Corporation's DRIP, assuming current participation levels. The Corporation's $500 million ATM Program remains available and provides funding flexibility as required.Planned capital expenditures are based on detailed forecasts of energy demand as well as labour and material costs, including inflation, supply chain availability, general economic conditions, foreign exchange rates and other factors. These factors, including potential new or revised tariffs, could change and cause actual expenditures to differ from forecast. Fortis remains focused on maintaining customer affordability by controlling costs, investing in cleaner energy resulting in fuel savings for customers, utilizing available tax credits, and implementing innovative practices, among other initiatives.19FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisMidyear Rate Base (1)($ billions)2024(2)2025(2)2029(2)ITC12.5Â 12.8Â 16.5Â UNS Energy7.6Â 7.7Â 10.7Â Central Hudson3.2Â 3.4Â 4.3Â FortisBC Energy5.8Â 6.3Â 8.7Â FortisAlberta4.4Â 4.7Â 5.7Â FortisBC Electric1.7Â 1.8Â 2.1Â Other Electric3.8Â 4.0Â 5.0Â Total39.0Â 40.7Â 53.0Â (1)Â Â Â Â Simple average of Rate Base at beginning and end of the year(2)Â Â Â Â Reflects a U.S. dollar-to-Canadian dollar average exchange rate of 1.37 for 2024. 2025 and 2029 reflect an assumed U.S. dollar-to-Canadian dollar exchange rate of 1.30 consistent with the Corporation's 2025-2029 capital plan. On average, Fortis estimates that a five-cent increase or decrease in the U.S. dollar relative to the Canadian dollar would increase or decrease Rate Base by approximately $1.1 billion over the five-year planning periodTotal midyear Rate Base is forecast to grow to $53.0 billion by 2029 underpinned by the five-year capital plan, translating to a CAGR of 6.5%. Major Capital ProjectsPlanExpected($ millions)Pre-2024Actual 20242025-2029CompletionITCMISO LRTP25Â 64Â 1,704Â Post-2029UNS EnergyIRP Related Generationâ€”Â 1Â 1,620Â VariousRoadrunner Reserve Battery Storage Project 1137Â 286Â 51Â 2025Â Roadrunner Reserve Battery Storage Project 21Â 115Â 325Â 2026Â Vail-to-Tortolita Transmission Project152Â 47Â 253Â 2027Â FortisBC EnergyEagle Mountain Pipeline Project (1)50Â 386Â 314Â 2027Â Tilbury LNG Storage Expansion29Â 6Â 585Â 2029Â AMI Project7Â 30Â 733Â 2028Â Tilbury 1B Project44Â 5Â 339Â 2029Â Total940Â 5,924Â (1)Net of customer contributionsMISO LRTPReflects investments associated with two tranches of the MISO LRTP. In 2022, the MISO board approved the first tranche of projects representing 18 transmission projects across the MISO Midwest subregion with total associated costs estimated at US$10 billion. Six of these projects run through ITC's MISO operating companies' service territories. ITC estimates transmission investments of US$1.4Â billion to US$1.8 billion through 2030 associated with six of the 18 projects, with investments of approximately $1.6 billion (US$1.2 billion) included in the Corporation's 2025-2029 capital plan. Investments of approximately $0.2 billion (US$0.1 billion) have been included in the Corporation's 2025-2029 capital plan associated with tranche 2.1. Significant additional investment opportunities remain for tranche 2.1 (see "Additional Investment Opportunities" on page 21).IRP Related GenerationIncludes capital expenditures supporting the energy transition as outlined in the 2023 IRPs for TEP and UNS Electric including renewableÂ generation, energy storage systems and natural gas generation. Investments support approximately 950 MW of generation, subject to all-source requests for proposals.Roadrunner Reserve Battery Storage ProjectsConsists of two, 200 MW, battery energy storage systems which will facilitate the integration of renewable energy into the electric grid. Each system is capable of storing 800 MW hours of energy, enough to serve approximately 42,000 homes for four hours when deployed at full capacity. TEP will own and operate the systems.Construction of Roadrunner Reserve 1 has commenced and is scheduled for completion in 2025. In October 2024, TEP filed an application with the ACC requesting approval to defer certain costs associated with owning and operating Roadrunner Reserve 1 for future recovery. TEP cannot predict the timing or outcome of this application.In August 2024, TEP entered into an EPC agreement to develop Roadrunner Reserve 2, which is scheduled for completion in 2026. 20FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisVail-to-Tortolita Transmission ProjectIncludes investment in one circuit of a new double circuit 230 kilovolt transmission line to tie infrastructure into the TEP system, improving service and reliability to customers. Construction commenced in late 2023, and is scheduled for completion in 2027.Eagle Mountain Pipeline ProjectThe project consists of a 50-km pipeline expansion to a small-scale LNG facility owned by Woodfibre LNG near Squamish, British Columbia. FortisBC Energy commenced construction of the project in 2023 which is scheduled for completion in 2027.Tilbury LNG Storage Expansion ProjectThis project replaces the original LNG storage tank at the Tilbury site and increases the available regasification capacity to provide backup gas supply for lower mainland customers. The regulatory process was adjourned in 2023 in order for FortisBC Energy to prepare further information in support of the CPCN application. In October 2024, FortisBC Energy filed the additional information requested. A decision from the BCUC is expected in late 2025. AMI ProjectThe project includes replacement of residential, commercial and industrial meters with advanced gas meters to support the safety, resiliency, and efficient operation of FortisBC Energy's gas distribution system. The project will enable remote meter reading and remote shutoff of gas. The CPCN application was approved by the BCUC in 2023, and installation of the advanced meters is expected to commence in 2025 and be substantially complete in 2028.Tilbury 1B ProjectConstruction of additional liquefaction and dispensing, including on-shore piping, in support of marine bunkering and to further optimize the Tilbury Phase 1A Expansion Project. This FortisBC Energy project received an Order in Council from the Government of British Columbia in 2017. An initial project scope has been filed with regulators to support the federal impact assessment and provincial environmental assessment required to further expand the Tilbury site. Additional Investment OpportunitiesFortis is pursuing additional investment opportunities within existing service territories that are not yet included in the five-year capital plan.ITCThe MISO LRTP is expected to consist of several tranches. The opportunity associated with the first tranche of projects is outlined above. In December 2024, the MISO board of directors approved a portfolio of tranche 2.1 LRTP projects with estimated transmission costs of approximately US$22 billion. ITC now estimates a range of US$3.7Â billion to US$4.2 billion in capital expenditures for the MISO tranche 2.1 projects located in Michigan and Minnesota where ROFRs are in effect and for projects requiring system upgrades in Iowa which are not subject to a competitive bidding process. A majority of the tranche 2.1 investment is expected beyond 2029.In October 2024, ITC in collaboration with another Midwest U.S. energy company, received MISO approval for the Big Cedar Load Expansion Project in Iowa. The project will consist of two phases and includes transmission upgrades to serve up to 1,600 MW of new data center loadÂ atÂ theÂ Big Cedar Industrial Center. The first phase of the project requires transmission

upgrades to support 800 MW of new load with a targeted in-service date of 2027, and phase two requires an additional 800 MW with an expected in-service date of 2028. The project requires franchise approvals from the Iowa Utilities Commission prior to construction. The project has a potential investment of up to US$400 million.UNS EnergyTEP is experiencing significant interest from potential new large retail customers in the manufacturing, data center, and mining sectors with energy demands that could create substantial new energy needs. TEP continues to work with the potential companies to assess capital requirements and associated timelines.FortisBC Energy - LNGDuring 2024, provincial and federal environmental assessment certificates were issued for the Tilbury Marine Jetty project. The construction of the jetty supports further expansion of FortisBC's Tilbury LNG facility, which is uniquely positioned to meet customer demand for LNG. The site is scalable, can accommodate additional storage and liquefaction equipment and is close to international shipping lanes. Once constructed, the jetty would utilize FortisBC Energy's assets at the Tilbury site, including the Tilbury Phase 1B Project yet to be constructed, to service marine bunkering. Other OpportunitiesIncludes incremental transmission investment and grid modernization projects at ITC; projects related to the 2023 IRPs as well as transmission investments at UNS Energy; regional transmission in New York; further renewable gas and LNG infrastructure opportunities in British Columbia; grid resiliency and climate adaptation investments; and the acceleration of load growth and cleaner energy infrastructure investments across our jurisdictions.21FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisGHG Emissions Reduction TargetsFortis is primarily an energy delivery company with 93% of its assets related to transmission and distribution. This limits the impact of theÂ Corporationâ€™s utilities on the environment when compared to more generation-intensive businesses. Fortis has a relatively small amount of fossil-fuel generation in its portfolio and plans to transition to more renewable sources of energy for its customers.Fortis continues to lower its already low emissions profile, and has set a 2050 net-zero direct GHG emissions target. This goal is in addition to the Corporation's interim targets to reduce direct GHG emissions 50% by 2030 and 75% by 2035 from a 2019 base year. Fortis expects to achieve its targets primarily through TEP's plan to exit from coal, as well as clean energy initiatives across the Corporation's other utilities. The Corporation's ability to achieve the GHG targets may be impacted by federal, state and provincial energy policies, as well as external factors, including significant customer and load growth and the development of clean energy technology. Reliability and affordability will remain key priorities as Fortis works to meet its emissions reduction targets.Through 2024, Fortis has made significant progress on its emissions reduction targets with the Corporation's Scope 1 emissions 34% lower compared to 2019 levels. The retirement of certain coal generating stations, the commencement of seasonal operations at other generating stations, and the introduction of renewable wind and solar energy in Arizona, have supported our carbon emissions reduction to date. Climate-Related Disclosure StandardsIn December 2024, the CSSB issued CSDS S1, General Requirements for DisclosureÂ of Sustainability-Related Financial Information, and CSDS S2, Climate-Related Disclosures, which require an entity to disclose information about its sustainability-related and climate-related risks and opportunities, including the disclosure of material Scope 1, 2 and 3 GHG emissions. The CSSB standards are voluntary and must be adopted by the CSA to become mandatory for Canadian reporting issuers, including Fortis. The CSA continues to work towards a revised climate-related disclosure rule that will consider the CSSB standards and may include modifications considered appropriate for Canadian capital markets. The content and timing of the CSA's revised climate-related disclosure rule are unknown. Fortis will continue to monitor updates from the CSA to assess any potential impact on the Corporation's disclosures.In March 2024, the SEC released Rule No. 33-11275, The Enhancement and Standardization of Climate-Related Disclosures for Investors, whichÂ outlines climate-related disclosure requirements. The rule requires disclosure of the financial effects of severe weather events and other natural conditions, as well as other climate-related financial information, in the notes to the financial statements. In addition, the rule requires disclosure of risk management, governance and oversight activities, the impact of material climate-related risks on a company's strategy, business model and outlook, and details of material climate-related targets or goals. Disclosure of material Scope 1 and 2 GHG emissions is also required for certain filers. The SEC subsequently voluntarily stayed the rule pending completion of judicial review by the Court of Appeals for the Eighth Circuit. While the rule does not apply to Fortis as a foreign private issuer filing in the U.S. using Form 40-F, management is reviewing the standard to assess the potential impact on the Corporation's disclosures.BUSINESS RISKSFortis has an ERM program that identifies and evaluates the severity and probability of risks to its business. The Fortis Board, through its audit committee, oversees Fortis' ERM program ensuring that management has an effective risk management system to support strategic planning. The ERM program at the subsidiary level is overseen by each subsidiary's board of directors and any material risks identified form part of Fortis' ERM program. Materiality thresholds are reviewed annually. Systems of internal controls are used by management to monitor and manage identified risks. A summary of the Corporation's significant business risks follows. Utility Regulation Regulated utility assets represented virtually all of the Corporation's total assets as at DecemberÂ 31,Â 2024. Regulatory jurisdictions include five Canadian provinces, ten U.S. states and three Caribbean countries, as well FERC regulation for transmission assets in the U.S.Regulators administer legislation covering material aspects of the utilities' business including: customer rates, allowed ROEs and deemed capital structures; capital expenditures; the terms and conditions for the provision of energy and capacity, ancillary services and affiliate services; securities issuances; and certain accounting matters. Regulatory or legislative changes and decisions, and delays in the recovery of costs in rates due to regulatory lag, could have a Material Adverse Effect. The risk of regulatory lag may be significant for UNS Energy given the past practice of its regulator to use historical test years in setting customer rates. The ability to recover the actual cost of service and earn the approved ROE or ROA typically depends upon achieving the forecasts established in the rate-setting process. For those utilities subject to PBR mechanisms, rates reflect assumed inflation rates and productivity improvement factors, and variances therefrom could adversely affect rates of return. Failure to recover costs and/or earn a return could have a Material Adverse Effect.22FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisFor transmission operations, the underlying elements of FERC-established formula rates can be challenged by third parties which could result in rate reductions and customer refunds. These underlying elements include the ROE, ROE adders and deemed capital structure, as well as operating and capital expenditures. In addition, the U.S. Congress periodically considers enacting energy legislation that could assign new responsibilities to FERC, modify provisions of the U.S. Federal Power Act or the Natural Gas Act, or provide FERC or another entity with increased authority to regulate U.S. federal energy matters. While Fortis is well-positioned to maintain constructive regulatory relationships through local management teams and subsidiary boards of directors comprised mostly of independent local members, it cannot predict future legislative or regulatory changes, whether caused by economic, political or other factors. The Corporation and its utilities may experience challenges and compliance costs in responding to such regulatory changes in an effective and timely manner. Any such regulatory changes or operational impacts could have a Material Adverse Effect.Physical RisksThe provision of electric and gas service is subject to physical risks, including impacts from severe weather and natural disasters, wars, terrorism, vandalism, critical equipment failure and other catastrophic events, including wildfires, within and outside the Corporation's service territories. Electric utilities face risk of loss or damage from wildfires, floods, hurricanes, storm surges, washouts, landslides, earthquakes, avalanches, snow or ice storms, and other acts of nature. Further, certain utilities operate in remote or mountainous terrain that can be difficult to access for timely repairs and maintenance. Gas utilities are exposed to operational risks associated with natural gas, including fires, explosions, pipeline corrosion and leaks, accidental damage to mains and service lines, equipment failure, damage and destruction from earthquakes, fires, floods and other natural disasters. Accidents or natural disasters affecting any of the Corporation's electricity or gas utilities can lead to service disruption, spills and commensurate environmental or other liability. In addition, the operation of electric and gas systems has the potential to cause fires, including wildfires as a result of equipment failure, falling trees, lightning strikes to lines or equipment, or otherwise. The risks associated with fire damage vary depending on weather, forestation, the proximity of habitation and third-party facilities to utility facilities, and other factors. Failure to adequately address the risk of fire and wildfires could result in civil actions and government enforcement proceedings and utilities may become liable for fire-suppression costs, regeneration and timber value costs, and third-party losses if their facilities are determined to have been responsible for, or contributed to, a fire or wildfire. Generating equipment and facilities are subject to physical risks, including equipment breakdown or damage from fire, floods or other natural disasters, that may result in the uncontrolled release of water, interruption of fuel supply, lower-than-expected operational efficiency or performance, and service disruption. Electricity and gas systems require ongoing maintenance, improvement and replacement. The utilities are responsible for operating and maintaining their assets in a safe manner, including the development and application of appropriate standards, system processes and/or procedures to ensure the safety of employees, contractors and the general public. If service disruption, or damage arising from, or caused by, the failure to properly implement or complete approved maintenance and capital expenditures, severe weather or other physical risks, is not mitigated through insurance policies or the recovery of such costs in customer rates, such service disruption or damage could result in loss. Any of the foregoing potential impacts of physical risk could have a Material Adverse Effect.The foregoing physical risks can be exacerbated by the "Climate Change" risks discussed below.Climate ChangeClimate-Related Physical RiskClimate change may negatively impact the ability to provide reliable and safe electric and gas service. A changing climate that leads to higher temperatures and more frequent and severe weather events may impact or disrupt the reliability of electric or gas systems. The physical risks associated with a changing climate requires the Corporationâ€™s utilities to adapt and respond to continue delivering reliable service to customers.Severe weather and events related to severe weather impact the Corporation's service territories, primarily in the form of thunderstorms, flooding, drought, extreme heat, wildfires, hurricanes, storm surges, atmospheric rivers and snow, or ice storms. Increased frequency of such events could increase the cost of providing service through increased repairs and use of contingency plans. Extreme weather conditions and changes in air temperature require system backup and can result in system stress, including service disruptions, and decreased efficiency of operating facilities over time. Changes in precipitation that impact soil moisture and water levels, or result in droughts, could increase the risk of wildfire caused by the Corporation's electricity assets or may cause water shortages that could adversely affect operations.23FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisLonger-term climate change impacts, such as sustained higher temperatures, higher sea levels, larger storm surges and floods, could result in service disruption, shortened asset life, increased repair and replacement costs, and costs associated with strengthened design standards and systems. The impacts of climate change can intensify the "Physical Risks" (see "Physical Risks" on page 23).The physical risks posed by the impacts of climate change and resultant damage to assets, service disruption repair and replacement costs, and liability for third party damages could have a Material Adverse Effect if not resolved in a timely and effective manner and/or mitigated through insurance policies or regulatory cost recovery. An increase in business risk associated with climate change can also impact credit ratings, which could affect credit risk spreads on new long-term debt and credit facilities, as well as their availability (see "Access to Capital" on page 28). Climate-Related Transition RiskA transition towards decarbonization and further renewable energy use elevates risks associated with policy, legal, technological and market changes which may have capital and financial implications for the Corporation and its utilities.The transition to cleaner energy will require the Corporation's utilities to effectively manage, among other things, evolving regulatory and legislative requirements, new resiliency standards, the integration of new technologies and impacts on customer demand and rates. Failure to appropriately respond to climate change and decarbonize may disrupt the ability of the utilities to provide safe and cost-effective service, which could cause reputational harm and other impacts. Fortis expects changes to government policy and regulation to continue in the coming years (see "Environmental Regulation" on pageÂ 25). Further, the emergence of initiatives designed to reduce GHG emissions, increase renewable energy use, and control or limit the effects of climate change has increased the incentive for the development of new technologies that produce renewable energy, enable more efficient storage of energy and reduce energy consumption. As new technologies become widely available, infrastructure design risks and time delays may emerge. Utility energy delivery systems will require technological changes and updates in order to effectively deliver increasing amounts of renewable energy to customers (see "Technology Developments and AI" on page 25). The availability of regulatory mechanisms or the ability of the Corporation's utilities to pass related costs on to customers remains uncertain. Regulatory lag in relation to the adoption of climate change initiatives and/or the availability of regulatory recovery mechanisms in certain jurisdictions could contribute to financial harm to Fortis and its utilities (see "Utility Regulation" on page 22). Technological advancements will be required in order for the Corporation to achieve its net-zero target while preserving system reliability and customer affordability. In addition to the development and implementation of relevant energy technologies, the Corporation's ability to achieve its GHG targets depends upon many factors, including the impact of federal, provincial and state energy policies, significant load and customer growth, the size of the Corporation's service territory, or the adoption of alternative energy products by the public, any of which could cause actual results and the ability to achieve such targets to materially differ from expectations. The ultimate impact of achieving or failing to achieve such targets could cause reputational damage which could result in a Material Adverse Effect.Cybersecurity and Information and Operations TechnologyAs operators of critical energy infrastructure, the Corporation's utilities are at risk of cybercrime, including cyberattacks, data breaches, cyber extortion, and similar compromises. As with other businesses, our information systems and the information systems of our third-party vendors are targeted by malware, phishing efforts, and other cyberattacks. Certain of the information systems of the Corporation's utilities have been subjected to direct and/or third-party cybersecurity breaches, including unauthorized access, none of which have been material. We expect to be targeted by similar attacks in the future. The ability of the Corporation's utilities to operate effectively is dependent upon using and maintaining complex information systems and infrastructure that: (i) support the operation of generation, transmission and distribution facilities, including electric and gas facilities; (ii) provide customers with billing, consumption and load settlement information, where applicable; and (iii) support financial and general operations. Information and operations technology systems, including those of the Corporation's third-party service providers, may be vulnerable to unauthorized access or disruption due to cyber and other attacks, including hacking, malware, acts of war or terrorism, and acts of vandalism, among others. Further, geopolitical conflicts and the advancement of AI and generative AI may further increase the scale, sophistication or frequency of cyberattacks from malicious actors, some of which actions may even be initiated by or connected with nation-state actors. Any such event could result in the disruption of energy service and other business operations, including safety disruptions, disruption of internal control processes, property damage, reputational damage, corruption or unavailability of critical data, loss of assets, and the theft, loss, misappropriation and/or disclosure of sensitive, confidential and proprietary business information, intellectual property, or personal information of customers and/or employees. The Corporation's exposure to these risks increases as the Corporation continues to partner with third-party providers (see "Reliance on Supply Chain and Third Parties" on pageÂ 28).24FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisA material cybersecurity breach of the Corporation's information security systems or those of a third-party service provider, or any delay or failure in assessing the materiality of such breach and related reporting/disclosure, could expose the Corporation to significant remediation costs and/or adversely affect the operations and financial performance of the Corporation, its reputation and standing with customers, regulators and financial markets, and expose it to claims for third-party damages or regulatory penalties. The resultant financial impacts may not be fully covered by insurance policies or, in the case of utilities, through regulatory cost recovery, and could have a Material Adverse Effect. GrowthFortis has a history of both growth through acquisitions and organic growth from capital investment in existing service territories. The Corporation's dividend growth guidance is significantly dependent upon achieving the Rate Base growth expected from the execution of the five-year capital plan as described under "Capital Plan" on page 19. Projects, particularly Major Capital Projects, are subject to risks of delay and cost overruns during construction caused by commodity price fluctuations, supply and labour costs, potential new or revised tariffs, supply chain constraints, supplier non-performance, weather, geologic conditions or other factors beyond the Corporation's control. There is no assurance that regulators will approve: (i) all of the planned projects or their amounts or timing; (ii) permits in a timely manner, or with reasonable terms and conditions; or (iii) the recovery of cost overruns in customer rates, which may have a Material Adverse Effect.Health and Safety The operations of the Corporation's utilities inherently involve risk to the health and safety of both employees and the public. Personal injury or loss of life could result from failure to implement or observe appropriate health and safety procedures and gives rise to operational, reputational or financial impacts, any of which could have a Material Adverse Effect. In addition, failure to comply with health and safety regulations could result in fines, penalties, reputational damage, litigation, increased capital and operating costs or adverse regulatory outcomes.Political EnvironmentThe political environment, at the local, national or global level, may impact energy laws, governmental energy policies or regulatory decisions. For example, political pressure or intervention to address energy prices and customer affordability concerns may impact regulatory decisions, as well as the period over which the Corporationâ€™s utilities recover allowed costs. The business is further exposed to risks associated with international relations and geopolitical events. Political, economic or social instability or events, trade disputes, new or revised tariffs, changes in laws or the imposition of onerous regulations applicable to existing operations, currency restrictions, and the impacts of changes in political leadership could lead to an increase in commodity prices, impact the availability and cost of energy or generally affect global economic conditions, any of which could have a Material Adverse Effect (see "Environmental Regulation" below and "General Economic Conditions" on page 27). Technology Developments and AINew technology developments in distributed generation, particularly solar, and energy efficiency products and services, as well as the implementation of renewable energy and energy efficiency standards, will continue to impact retail

sales. Heightened awareness of energy costs and environmental concerns have increased demand for products that reduce energy consumption. The Corporation's utilities are also promoting demand-side management programs. New technologies available to customers include energy derived from renewable sources, customer-owned generation, energy-efficient appliances, battery storage and control systems. Advances in these or other technologies could have a significant impact on retail sales with a potential Material Adverse Effect. Additionally, advances in AI or generative AI could cause disruption to our business and, if we are unable to acquire, develop, implement or adopt new technology, we may suffer a competitive disadvantage, which could also have an adverse effect on our results of operations, financial condition and/or liquidity.Further, the implementation of new information technology systems and emerging technologies, such as cloud computing, AI and generative AI into the business, including those impacting utility operations, customer billing systems and cybersecurity threat monitoring, carries risk that any such technology or system will not operate as expected. Failure to maintain, upgrade, replace or properly implement such new technology or systems could result in increased risk of a cybersecurity incident and have an adverse effect on operational efficiency, revenue or reputation (see "Cybersecurity and Information and Operations Technology" on page 24). Environmental RegulationThe Corporation's businesses are subject to environmental laws and regulations, including those which concern emissions into the air, discharges into water or soil, use of water, hazardous waste disposal and containment, and the investigation and remediation of contamination, among others.The risk of contamination of air, soil and water associated with electricity operations primarily relates to: (i) the transportation, handling, storage and combustion of fuel; (ii) the use of petroleum-based products, mainly transformer and lubricating oil; (iii) the management and disposal of coal combustion residuals and other wastes; and (iv) accidents resulting in hazardous release at or from coal mines that supply generating facilities. Contamination risks at gas operations primarily relate to leaks and other accidents involving gas systems. The key environmental risks for hydroelectric generation operations include dam failures and the creation of artificial water flows that may disrupt natural habitats. 25FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisFailure to comply with environmental laws and regulations, or to obtain or comply with any necessary environmental permits pursuant to such laws and regulations, could result in injunctions, fines or other penalties. Further, liabilities relating to contamination investigation and remediation, and related claims for personal injury or property damage, may arise at many locations, including formerly and currently owned/operated properties and waste treatment or disposal sites, regardless of whether such contamination was caused by the business at the time it owned the property, whether it resulted from non-compliance with applicable environmental laws and regulations, or whether it resulted from any act or omission of the business. These liabilities could result in substantial monetary judgments for clean-up costs, damages, fines and/or penalties. To the extent not fully covered by insurance or through regulatory mechanisms, these foregoing costs could have a Material Adverse Effect. Environmental laws and regulations continue to develop and may result in significant additional expense. In particular, the management of GHG emissions and related decarbonization requirements is a concern due to new and emerging federal, state and provincial GHG laws, regulations and guidelines. Regulation and the pace of regulatory change to address reliability, resiliency, resource planning and safety is expected to increase. Future legislation could impact generation assets, operations, energy supply, operational costs, reporting obligations and other material aspects of the Corporation's business. Increased compliance costs or additional operating restrictions from revised or additional regulation could have a Material Adverse Effect (see "Climate Change" at page 23).Natural Gas CompetitivenessApproximately 18% of the Corporation's revenue is derived from the delivery of natural gas. In British Columbia, which accounts for 79% of the Corporation's natural gas revenue, natural gas primarily competes with electricity for space and hot water heating load. Upfront capital costs for gas service continue to present competitive challenges for natural gas compared to electricity service. If gas becomes less competitive due to price or other factors, such as government policy or public perception of natural gas or its carbon intensity relative to other energy sources, the ability to add new customers could be impaired. Existing customers could also reduce their consumption or switch to electricity, placing further pressure on rates and, in the extreme, could ultimately lead to an inability to recover the utility's cost of service through customer rates.Government policy could further impact the competitiveness of natural gas in British Columbia. As governments develop policies to address climate change, any resultant changes to energy policy may impact the competitiveness of natural gas relative to other energy sources. Additionally, there are other competitive challenges that are impacting the penetration of natural gas into new housing stock such as the carbon intensity of the energy source and the type of housing stock being built. As part of their own climate change policy plans, local governments may use various tools at their disposal such as franchise agreements, permits, building codes and zoning bylaws to impose limitations on energy sources permitted in new and existing developments. Municipalities can also provide incentives, such as higher density allowance, to builders to adopt carbon free energy options for their developments. These actions and policies may hinder the Corporation's ability to attract new natural gas customers or retain existing customers. A decrease in the competitiveness of natural gas due to pricing, government policy or other factors could have a Material Adverse Effect.Weather Variability and SeasonalityElectricity consumption varies significantly in response to seasonal weather changes which have been and will continue to be impacted by climate change (see "Climate Change" on page 23). Cool summers may reduce the use of air conditioning and other cooling equipment, while warmer and less severe winters may reduce heating load. Alternatively, severe weather could unexpectedly increase heating and cooling loads, negatively impacting system reliability. Hydroelectric generation is sensitive to rainfall levels and unexpected variations in seasonal rainfall levels can negatively impact operations. Weather and seasonality have a significant impact on gas distribution volumes as a major portion of natural gas is used for space heating by residential customers. The earnings of the Corporation's gas utilities are typically highest in the first and fourth quarters. Regulatory deferral and revenue decoupling mechanisms are in place at certain of the Corporation's utilities to minimize the volatility in earnings that would otherwise be caused by variations in weather conditions. The absence or the discontinuance of key regulatory mechanisms could result in significant and prolonged weather variations from seasonal norms having a Material Adverse Effect. Required ApprovalsThe acquisition, ownership and operation of electric and gas businesses require numerous licences, permits, agreements, orders, certificates, consultations, and other approvals from various levels of government, regulators, government agencies and/or other third parties. There is no assurance that: (i) such approvals will be obtained, continuously maintained or renewed without delay; and (ii) the terms and conditions thereof will be fully complied with at all times and will not change in a material adverse manner. Significant failures in these regards could prevent the operation of the businesses and have a Material Adverse Effect. 26FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisReliability StandardsThe Energy Policy Act of 2005 provides for a regulatory framework which requires owners, operators and users of the bulk electric system in the U.S. to meet mandatory reliability standards developed by the North American Electric Reliability Corporation and its regional entities, which are approved and enforced by FERC. Many of these, or similar, standards have been adopted in certain Canadian provinces including British Columbia and Alberta. The failure to develop, implement and maintain appropriate operating practices/systems and capital plans to address reliability obligations could lead to compliance violations and a Material Adverse Effect, including as a result of the exclusion of related costs from customer rates and other potentially significant penalties. Indigenous Peoples' Land Claims In British Columbia, the Corporation's utilities provide service to customers on Indigenous Peoples' lands and maintain facilities on lands that are subject to Indigenous Peoples' land claims. Various treaty negotiation processes involving Indigenous Peoples and the Governments of British Columbia and Canada are underway, but the basis for potential settlements is unclear and not all Indigenous Peoples are participating in such processes. To date, the policy of the Government of British Columbia has been to structure settlements without prejudicing existing third-party rights; however, there is no assurance that the settlement processes will not have a Material Adverse Effect. FortisAlberta has distribution assets on Indigenous Peoples' lands in Alberta with access permits held by a third party. Some of these permits require approvals from First Nations and Crown-Indigenous Relations and Northern Affairs Canada. FortisAlberta may be unable to obtain such approvals or negotiate land-use agreements with reasonable terms. Significant failures in these regards could have a Material Adverse Effect. Certain jointly owned facilities and portions of TEP's transmission lines are located on tribal lands pursuant to leases, land easements and other rights-of-way that are effective for specified time periods. The inability to receive future approvals for continued access to the facilities and land could have a Material Adverse Effect. Joint-Ownership Interests and Third-Party OperatorsCertain generating facilities from which TEP receives power are jointly owned with, or are operated by, third parties. TEP may not have sole discretion or any ability to affect the management or operations of such facilities, including how to best address changing economic conditions or environmental requirements. A divergence in the interests of TEP and those of the joint owners or operators could have a Material Adverse Effect. General Economic ConditionsFluctuations in general economic conditions, inflation, energy prices, employment levels, personal disposable incomes, housing starts, industrial activity and other factors, including potential new or revised tariffs, may lower energy demand and sales and reduce capital spending, particularly to the extent that related customer and Rate Base growth are impacted. A severe and prolonged economic downturn could also impair customers' ability to pay their bills in a timely manner. Each of these factors could lead to the impairment of goodwill or other long-term assets, and could have a Material Adverse Effect. Further, the impact of macroeconomic factors, including, but not limited to, international relations and geopolitical events, could cause weaker economic conditions or increase the volatility of the equity capital markets, which could impact the business and financial condition of the Corporation or adversely impact the Corporation's share price.Commodity Price VolatilityPurchased power and gas, and generation fuel costs are subject to commodity price volatility, which is managed through regulator-approved: (i)Â mechanisms that permit the flow through in customer rates of commodity price changes and/or that provide for rate-stabilization and other deferral accounts; and (ii) price-risk management strategies such as the use of derivative contracts that effectively fix costs (see "Financial Instruments - Derivatives" on page 33). There is no assurance that current regulator-approved mechanisms or strategies will continue to exist in the future. Additionally, despite these mechanisms and strategies, severe and prolonged commodity price increases could result in rates that customers are unable to pay and/or could affect consumption and sales growth, which could have a Material Adverse Effect. Purchased Power SupplyA significant portion of electricity and gas sold by the Corporation's utilities is purchased through the wholesale energy markets or pursuant to contracts with energy suppliers and is not being produced by the Corporation's utilities. A disruption in the wholesale energy markets, or a failure on the part of energy or fuel suppliers or operators of energy delivery systems that connect to the Corporation's utilities, could result in a loss and/or increase in the cost of purchased power and gas, which could have a Material Adverse Effect. The cost and availability of purchased power and gas may be adversely impacted by factors discussed under "Climate Change" on page 23, "Environmental Regulation" on page 25 and "Commodity Price Volatility" above.27FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisCounterparty Credit RiskITC has a concentration of credit risk as approximately 70% of its revenue is derived from three customers. These customers have investment-grade credit ratings and credit risk is further managed by MISO by requiring a letter of credit or cash deposit equal to the credit exposure, which is determined by a credit-scoring model and other factors. FortisAlberta has a concentration of credit risk as its distribution service billings are to a relatively small group of retailers. Credit risk is managed by obtaining from the retailers either a cash deposit, letter of credit, an investment-grade credit rating, or a financial guarantee from an entity with an investment-grade credit rating. Central Hudson has seen an increase in accounts receivable since the suspension of collection efforts initially required in response to the COVID-19 pandemic. Central Hudson continues to contact customers regarding past-due balances and collection efforts continue to expand. Under its regulatory framework, Central Hudson can defer uncollectible write-offs above the amounts collected in customer rates for future recovery.UNS Energy, Central Hudson, FortisBC Energy, and Fortis may be exposed to credit risk from nonâ€'performance by counterparties to derivative contracts. Credit risk is managed by net settling payments, when possible, and dealing only with counterparties that have investment-grade credit ratings. At UNS Energy, Central Hudson and FortisBC Energy, certain contractual arrangements require counterparties to post collateral. There is no assurance that credit risk management strategies will continue to be effective. Significant counterparty defaults could have a Material Adverse Effect. Reliance on Supply Chain and Third Parties Domestic and global supply chain disruptions, as a result of either physical or cyberattacks or geopolitical issues, may delay the delivery or result in shortages of certain materials, equipment and other resources that are critical to the operation of the Corporation's utilities, or impact the services and performance of the operation of the Corporation's utilities. Failure to eliminate or manage constraints in, or performance of, the supply chain may impact the availability of items or service that are necessary to support operations as well as materials that are required for continued infrastructure growth and could have a Material Adverse Effect. Further, cybersecurity incidents in the Corporation's supply chain or cyberattacks originating from the Corporation's supply chain may further result in disruption of energy service and other business operations which could have a Material Adverse Effect. Interest Rates Generally, the market price of the Corporation's common shares is inversely correlated to interest rate changes. Additionally, allowed ROEs are exposed to changes in long-term interest rates, such that a decreasing interest rate environment can result in lower allowed ROEs over time. While a rising interest rate environment could result in higher allowed ROEs, such ROE changes tend to lag as a result of regulatory timelines. Borrowings under variable-rate credit facilities and long-term debt, as well as new debt issuances, are also exposed to interest rate changes. Although interest costs at the regulated utilities are generally recovered through customer rates, the discontinuance of regulatory mechanisms that permit the flow-through of actual interest costs, the impact of regulatory lag at UNS Energy, and higher finance costs on holding company debt could have a Material Adverse Effect.Foreign Exchange ExposureAs at DecemberÂ 31, 2024, 69% of the Corporation's assets were located outside Canada and 62% of 2024 revenue was derived from foreign operations. The reporting currency of ITC, UNS Energy, Central Hudson, Caribbean Utilities, FortisTCI, Fortis Belize and Belize Electricity is, or is pegged to, the U.S. dollar. The earnings and cash flow from, and net investments in, these entities are exposed to fluctuations in the U.S. dollar-to-Canadian dollar exchange rate. The Corporationâ€™s $26.0 billion five-year capital plan for 2025 through 2029 also includes exposure to foreign exchange. Fortis has reduced its U.S. dollar currency exposure through hedging. The Corporation has issued and designated U.S. dollar-denominated long-term debt as an effective hedge of foreign net investments. Fortis has also entered into foreign exchange contracts and cross-currency swaps to manage a portion of its exposure to foreign currency risk. Given only partial hedging, earnings and cash flow continue to be impacted by exchange rate fluctuations. In addition, there is no assurance that existing hedging strategies will continue to be effective, and therefore a significant, prolonged decrease in the U.S dollar-to-Canadian dollar exchange rate could have a Material Adverse Effect. Access to Capital The Corporation and certain of its subsidiaries have incurred material amounts of indebtedness. Ongoing access to cost-effective capital is required to fund, among other things, capital expenditures and the repayment of maturing debt. Operating Cash Flow may not be sufficient to fund the repayment of all outstanding liabilities when due or fund anticipated capital expenditures. 28FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisThe ability to meet long-term debt repayments is dependent upon obtaining sufficient and cost-effective financing to replace maturing indebtedness. The ability to arrange financing is subject to numerous factors, including the results of operations and financial condition of Fortis and its subsidiaries, the regulatory environments including decisions regarding capital structure and allowed ROEs, capital market conditions, general economic conditions, credit ratings, and the environmental, social and governance profile of Fortis and its subsidiaries. Changes in credit ratings could affect credit risk spreads on new long-term debt and credit facilities, as well as their availability. Fortis is a holding company and, as such, has no revenue-generating operations of its own. The Corporationâ€™s subsidiaries are separate legal entities and have no independent obligation to pay dividends to Fortis. Prior to paying dividends to the Corporation, the subsidiaries have financial obligations that must be satisfied, including, among others, their operating expenses and obligations to creditors. Furthermore, the Corporationâ€™s utilities are required by regulation to maintain a minimum equity-to-total capital ratio that may restrict their ability to pay dividends to the Corporation or may require the Corporation to contribute capital to such subsidiaries. The future enactment of laws or regulations may prohibit or further restrict the ability of the Corporation's subsidiaries to pay dividends or to repay intercorporate indebtedness. In addition, in the event of a subsidiaryâ€™s liquidation or reorganization, the Corporationâ€™s right to participate in a distribution of assets is subject to the prior claims of the subsidiaryâ€™s creditors. As a result, the Corporationâ€™s ability to generate cash flow to service its debt obligations and pay dividends is reliant on the ability of its subsidiaries to generate sustained earnings and cash flows and to pay dividends and repay loans.There is no assurance that sufficient capital will continue to be available on acceptable terms. For further information see "Liquidity and Capital Resources" on page 14. TaxationEarnings at Fortis and its subsidiaries could be impacted by changes in income tax rates and other tax legislation in Canada, the U.S. and other international jurisdictions. The nature, timing or impact of changes in tax laws cannot be predicted and could have a Material Adverse Effect. Although income taxes at the regulated utilities are generally recovered in customer rates, tax-related regulatory lag can result in recovery delays or non-recovery for certain periods. At the non-regulated level, changes in income tax rates and other tax legislation could materially affect the after-tax cost of existing and future debt which is not recoverable in customer rates. InsuranceInsurance is maintained with reputable industry insurers for property damage, potential liabilities and business interruption for coverage considered appropriate and in accordance with industry practice. A significant portion of transmission and distribution assets is uninsured, as is customary in North America, as the cost to insure such assets is prohibitive. Insurance is subject to coverage limits and deductibles, as well as time-sensitive claims discovery and reporting provisions. There is no assurance that: (i) the amounts and types of losses from actual damage, liabilities or business interruption will be fully covered by insurance; (ii)Â regulatory relief would be obtained for

coverage shortfalls; (iii) adequate insurance at reasonable rates will continue to be available; or (iv)Â insurers will fulfill their obligations. Significant actual shortfalls in insurance coverage or claims payment could have a Material Adverse Effect. The availability and cost of certain types of insurance may be adversely impacted by the risks described under "Climate Change" on page 23. Pandemics and Public Health CrisesThe Corporation could be negatively impacted by widespread outbreaks of communicable diseases or other public health crises that cause economic and/or other disruptions. Outbreaks of communicable diseases, as well as efforts to reduce the health impacts and control disease spread, can lead to restrictions on business operations, including business closures and the potential impacts of reduced labour availability and productivity, supply chain disruptions, project construction delays, disruptions to capital markets, governmental and regulatory action, and a prolonged reduction in economic activity. An extended economic slowdown could reduce energy sales and adversely impact the ability of customers, contractors and suppliers to fulfill their obligations and could disrupt operations and capital expenditure programs or cause impairment of goodwill (see "General Economic Conditions" on page 27). The Corporation's utilities provide essential services and must be operational and maintained throughout any pandemic or other public health crisis, though such events can challenge operations and increase operating costs. The duration and severity of a pandemic or other public health crisis could have a Material Adverse Effect.Talent ManagementThe delivery of safe, reliable and cost-effective service depends on the attraction, development and retention of a skilled workforce as well as filling strategic positions. Like its peers, Fortis faces demographic challenges and competitive markets relating to trades, technical and professional staff, particularly considering its significant capital plan. ITC relies heavily on agreements with third parties to provide services for the construction, maintenance and operation of certain aspects of its business. Significant failures in attracting or retaining a skilled workforce or filling strategic positions within the Corporation or its utilities could have a Material Adverse Effect. 29FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisLabour Relations Most of the Corporation's utilities employ members of labour unions or associations under collective bargaining agreements. Fortis considers its labour relationships to be satisfactory, but there is no assurance that this will continue or that existing collective bargaining agreements will be renewed on reasonable terms without work disruption or other job action. Significant failures in these regards could cause service interruptions and/or labour cost increases for which regulators may not allow full recovery in customer rates, and could have a Material Adverse Effect.Post-Retirement ObligationsFortis and most of its subsidiaries maintain a combination of DBP and/or OPEB plans for certain employees and retirees. The most significant cost drivers for these plans are investment performance and interest rates, which are affected by global financial markets. Regulatory deferral mechanisms are in place at many of the Corporationâ€™s utilities that permit the flow through in customer rates of certain impacts associated with market fluctuations. Severe and prolonged market disruptions, significant declines in the market values of investments held to meet plan obligations, discount rate changes, participant demographics, changes in laws and regulations, as well as changes in existing regulatory treatment of post-retirement benefit costs, may increase plan expenses or require additional plan funding and could have a Material Adverse Effect. Reputation, Relationships and Stakeholder ActivismThere can be no assurance that internal processes, controls or audits, including those related to the preparation and presentation of financial statements, will ensure compliance with the Corporation's internal policies, including its Code of Conduct, or anti-bribery and anti-corruption laws. Employees, affiliates, independent contractors or agents may violate such policies and laws, which may potentially lead to reputational damage, in addition to potential fines, penalties or litigation, any of which could have a Material Adverse Effect. The Corporation's operations and growth prospects require strong relationships with key stakeholders, including regulators, governments and agencies, Indigenous communities, landowners, and environmental organizations. Inadequately managing expectations and issues important to stakeholders, including those arising during construction of Major Capital Projects, could affect the Corporation's reputation as well as have a significant impact on its operations and infrastructure development. See "Required Approvals" and "Indigenous Peoples' Land Claims" on pageÂ 27. External stakeholders have been challenging companies regarding climate change, sustainability, diversity, returns (including ROEs and ROAs), executive compensation, and other matters. Public opposition to larger infrastructure projects is becoming increasingly common, which can challenge capital plans and resultant organic growth. While the Corporation actively monitors such activism and is committed to developing stronger relationships with its external stakeholders, failure to effectively manage or respond to stakeholder activism could have a Material Adverse Effect. Legal, Administrative and Other ProceedingsLegal, administrative and other proceedings arise in the ordinary course of business and may include environmental claims, employment-related claims, securities-based litigation, contractual disputes, personal injury or property damage claims, actions by regulatory or tax authorities, and other matters. Unfavourable outcomes such as judgments or settlements for monetary or other damages, injunctions, denial or revocation of permits, reputational harm, and other results could have a Material Adverse Effect. ACCOUNTING MATTERSNew Accounting PoliciesSegment Reporting: The Corporation adopted ASU No. 2023-07, Improvements to Reportable Segment Disclosures, for the year ended DecemberÂ 31,Â 2024 and will adopt it for interim periods beginning in 2025. This update requires disclosure of incremental segment information, including significant segment expenses and other items that are included in segment profit or loss. This adoption of this standard did not materially impact Fortis' disclosures.Future Accounting PronouncementsIncome Taxes: ASU No. 2023-09, Improvements to Income Tax Disclosures, is effective for Fortis on January 1, 2025 on a prospective basis, with retrospective application and early adoption permitted. The ASU requires additional disclosure of income tax information by jurisdiction to reflect an entity's exposure to potential changes in tax legislation, and associated risks and opportunities. Fortis does not expect the ASU to materially impact its disclosures.Expense Disaggregation: ASU No. 2024-03, Disaggregation of Income Statement Expenses, is effective for Fortis on January 1, 2027 for annual periods and on January 1, 2028 for interim periods, on a prospective basis, with retrospective application and early adoption permitted. The ASU requires detailed disclosure of certain expense categories included on the consolidated statements of earnings, including energy supply costs, operating expenses, and depreciation and amortization expense. Fortis is assessing the impact on its disclosures.30FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisCritical Accounting EstimatesGeneralThe preparation of the 2024 Annual Financial Statements required management to make estimates and judgments that affect the reported amounts of, and disclosures related to, assets, liabilities, revenues, expenses, gains, losses and contingencies. Management evaluates these estimates on an ongoing basis based upon historical experience, current conditions, and assumptions believed to be reasonable at the time they are made, with any adjustments recognized in the period they become known. Actual results may differ significantly from these estimates.Regulatory Assets and LiabilitiesAs at DecemberÂ 31, 2024, Fortis recognized regulatory assets of $4.6 billion (2023 - $4.4Â billion) and regulatory liabilities of $4.3 billion (2023 - $4.0Â billion).Regulatory assets represent future revenues and/or receivables associated with certain costs incurredÂ that will be, or are expected to be, recovered from customers in future periods through the rate-setting process. Regulatory liabilities represent: (i) future reductions or limitations of increases in revenue associated with amounts that will be, or are expected to be, refunded to customers through the rate-setting process; or (ii)Â obligations to provide future service that customers have paid for in advance. The recognition of regulatory assets and liabilities and the period(s) of settlement are often estimates based on past, existing or expected regulatory orders in relation to the nature of the underlying amounts, and are subject to regulatory approval. There is no assurance that actual settlement amounts and the related settlement periods will not be materially different from those estimated. Differences arising from the regulator's orders would be recognized in accordance with those orders, whereby any amounts disallowed would be immediately recognized in earnings with the remainder recognized in earnings in accordance with their inclusion in customer rates. Employee Future BenefitsKey Estimates and AssumptionsDBP PlansOPEB PlansYears ended December 31($ millions, except as indicated)2024Â 2023Â 2024Â 2023Â Funded status: (1)Benefit obligation (2)(3,440)(3,347)(603)(596)Plan assets3,613Â 3,313Â 506Â 430Â 173Â (34)(97)(166)Net benefit cost (2) 11Â 21Â 12Â 15Â Key assumptions: (weighted average %)Discount rate as at December 31 (3)5.25Â 4.84Â 5.43Â 4.94Â Expected long-term rate of return on plan assets (4)6.51Â 6.58Â 6.05Â 5.92Â Rate of compensation increase3.52Â 3.37Â â€”Â â€”Â Health care cost trend increase rate (5)â€”Â â€”Â 4.53Â 4.52Â (1)Periodic actuarial valuations determine funding contributions for the DBP plans and U.S. OPEB plans, while Canadian OPEB plans are unfunded(2)Actuarially determined using the projected benefits method prorated on service and management's best estimate of expected plan investment performance, salary escalation, average remaining service life of employees, mortality rates and, for OPEB plans, expected health care costs(3)Reflects market interest rates on highâ€‘quality bonds with cash flows that match the timing and amount of expected pension payments. The discount rate used during the year for DBP plans is 4.84% (2023 - 5.36%) and 4.96% (2023 - 5.39%) for OPEB plans(4)Developed using best estimates of expected returns, volatilities and correlations for each class of asset. There is no assurance that these deferral mechanisms will continue in the future.Depreciation and AmortizationAs at DecemberÂ 31, 2024, Fortis recognized property, plant and equipment and intangible assets of $51.1Â billion (2023 - $44.9 billion) representing 70% of total assets (2023 - 68%). Depreciation and amortization of these assets totalled $1.8 billion for 2024 (2023 - $1.7Â billion).Depreciation and amortization reflect the estimated useful lives of the underlying assets, which considers historical experience, manufacturers' ratings and specifications, the past and expected future pattern and nature of usage, and other factors. At the regulated utilities, depreciation rates require regulatory approval and include a provision for estimated future removal costs, not identified as a legal obligation. Estimates primarily reflect historical experience and expected cost trends. The provision is recognized as a long-term regulatory liability against which actual removal costs are netted when incurred. As at DecemberÂ 31, 2024, this regulatory liability was $1.7Â billion (2023 - $1.5Â billion).Depreciation rates at the regulated utilities are typically determined through periodic depreciation studies performed by external experts. Where actual experience differs from previous estimates, resultant differences are generally reflected in future depreciation rates and thereby recovered or refunded through customer rates in the manner prescribed by the regulator.Goodwill ImpairmentAs at DecemberÂ 31, 2024, Fortis recognized goodwill of $13.1 billion (2023 - $12.2 billion), representing 18% of total assets (2023 - 18%). The increase in goodwill was due to a higher U.S. dollar-to-Canadian dollar exchange rate at December 31, 2024 in comparison to December 31, 2023, and the associated impact on the translation of U.S. dollar-denominated goodwill.Goodwill at each of the Corporation's reporting units is tested for impairment annually and whenever an event or change in circumstances indicates that fair value may be below carrying value. If so determined, goodwill is written down to estimated fair value and an impairment loss is recognized.The Corporation performs a qualitative assessment on each reporting unit and if it is determined that it is not likely that fair value is less than carrying value, then a quantitative estimate of fair value is not required. When a quantitative assessment is performed, the primary method for estimating fair value of the reporting units is the income approach, whereby net cash flow projections are discounted. Underlying estimates and assumptions, with varying degrees of uncertainty, include the amount and timing of expected future cash flows, growth rates, and discount rates. A secondary valuation, the market approach along with a reconciliation of the total estimated fair value of all the reporting units to the Corporation's market capitalization, is also performed and evaluated.The recognition of impairment losses could have a Material Adverse Effect. Such losses are not recoverable in regulated utility rates. To the extent impairment losses signal lower expected future cash flows to support interest payments on unregulated holding company debt and dividends on common shares, they could adversely affect the future cost of such capital, expressed as higher interest rates on such debt, which is not recoverable in regulated utility rates, and lower common share market prices. Income Tax As at DecemberÂ 31, 2024, deferred income tax liabilities, income tax receivable, deferred income taxes included in regulatory assets, income tax payable, and deferred income taxes included in regulatory liabilities totalled $5.0 billion, $nil, $2.2 billion, $33 million and $1.3Â billion, respectively (2023 - $4.4 billion, $78 million, $2.1 billion, $nil, and $1.3 billion, respectively). Income tax expense was $346 million in 2024 (2023 - $360 million).Current income taxes reflect the estimated taxes payable/receivable in the current year based on enacted tax rates and laws, and the estimated proportion of taxable earnings/loss attributable to various jurisdictions. Deferred income tax assets and liabilities reflect temporary differences between the tax and accounting basis of assets and liabilities. A deferred income tax asset or liability is determined for each temporary difference based on enacted income tax rates and laws in effect when the temporary differences are expected to be recovered or settled. A valuation allowance is recognized in earnings to the extent that future tax recovery is not assessed as "more likely than not".32FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisAt the regulated utilities, differences between the income tax expense or recovery recognized under U.S.Â GAAP and reflected in customer rates, which is expected to be recovered from, or refunded to, customers in future rates, are recognized as regulatory assets or liabilities. These are subsequently amortized to earnings in accordance with their inclusion in customer rates pursuant to the regulator's orders. Otherwise, changes in expectations and resultant estimates arising from changes in tax rates, tax laws, jurisdictional earnings allocations and other factors are recognized in earnings upon occurrence.The Corporation and certain of its subsidiaries are subject to taxation in Canada, the United States and other foreign jurisdictions. The material jurisdictions in which the Corporation is subject to potential income tax compliance examinations include the United States (Federal, Arizona, Kansas, Iowa, Michigan, Minnesota and New York) and Canada (Federal, British Columbia and Alberta). The Corporation's 2020 to 2024 taxation years are still open for audit in Canadian jurisdictions, and its 2020 to 2024 taxation years are still open for audit in U.S. jurisdictions. The impact of such income tax compliance examinations could be material to the Corporation (see "Business Risks - Taxation" on page 29).In June 2024, the Government of Canada enacted legislation with respect to interest deductibility limitations and global minimum tax, both of which were applicable to Fortis as of January 1, 2024. There was no material impact to Fortis in 2024 and the Corporation does not expect a material impact on its financial results, Operating Cash Flow or credit metrics over the five-year planning period.DerivativesThe fair values of derivatives are based on estimates that cannot be determined with precision as they involve uncertainties and matters of judgment and, therefore, may not be relevant in predicting future earnings or cash flows. ContingenciesThe Corporation and its subsidiaries are subject to various legal proceedings and claims arising in the ordinary course of business, including those generally described under "Business Risks - Legal, Administrative and Other Proceedings" on page 30, for which no amounts have been accrued because the outcomes currently cannot be reasonably determined. Further information is provided in Note 27 in the 2024 Annual Financial Statements.FINANCIAL INSTRUMENTSLong-Term Debt and OtherAs at DecemberÂ 31, 2024, the carrying value of long-term debt, including the current portion,Â wasÂ $33.4Â billion (2023 - $29.7 billion) compared to an estimated fair value of $31.3Â billion (2023Â - $27.9Â billion). The consolidated carrying value of the remaining financial instruments, other than derivatives, approximates fair value, reflecting their short-term maturity, normal trade credit terms and/or nature.DerivativesThe Corporation generally limits the use of derivatives to those that qualify as accounting, economic or cash flow hedges, or those that are approved for regulatory recovery. Derivatives are recorded at fair value, with certain exceptions, including those derivatives that qualify for the normal purchase and normal sale exception.Energy contracts subject to regulatory deferralUNS Energy holds electricity power purchase contracts, customer supply contracts and gas swap contracts to reduce its exposure to energy price risk. Fair values are measured primarily under the market approach using independent third-party information, where possible. When published prices are not available, adjustments are applied based on historical price curve relationships, transmission costs and line losses. Central Hudson holds swap contracts for electricity and natural gas to minimize price volatility by fixing the effective purchase price. Fair values are measured using forward pricing provided by independent third-party information. FortisBC Energy holds gas supply contracts to fix the effective purchase price of natural gas. Fair values reflect the present value of future cash flows based on published market prices and forward natural gas curves.Unrealized gains or losses associated with changes in the fair value of these energy contracts areÂ deferred as a regulatory asset or liability for recovery from, or refund to, customers in futureÂ rates, as permitted by the regulators. As at DecemberÂ 31, 2024, unrealized losses of $175Â million (2023 - $197Â million) were recognized as regulatory assets and unrealized gains of $41Â million (2023 - $37Â million) were recognized as regulatory liabilities.33FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisEnergy contracts not subject to regulatory deferral UNS Energy holds wholesale trading contracts to fix power prices and realize potential margin, of which 10% of any realized gains is shared with customers through rate stabilization accounts. Fair values are measured using a market approach incorporating, where possible, independent third-party information.Aitken Creek, which was sold on November 1, 2023, held gas swap contracts to manage exposure to changes in natural gas prices, capture natural gas price spreads, and manage the financial risk posed by physical transactions. Fair values were measured using forward pricing from published market sources. Gains or losses associated with changes in the fair value of these energy contracts are recognized in revenue. In 2024, gains of $48Â million (2023 - losses of $28Â million) were recognized in revenue.Total return swaps The Corporation holds total return swaps to manage the cash flow risk associated with forecast future cash and/or share settlements of certain stock-based

compensation obligations. The swaps have a combined notional amount of $134 million and terms up to three years expiring at varying dates through January 2027. Fair value is measured using an income valuation approach based on forward pricing curves. Unrealized gains and losses associated with changes in fair value are recognized in other income, net. In 2024, unrealized gains of $12Â million (2023 - $nil) were recognized in other income, net.Foreign exchange contracts The Corporation holds U.S. dollar-denominated foreign exchange contracts to help mitigate exposure to foreign exchange rate volatility. The contracts expire at varying dates through September 2026 and have a combined notional amount of $608Â million. Fair value was measured using independent third-party information. Unrealized gains and losses associated with changes in fair value are recognized in other income, net. In 2024, unrealized losses of $17Â million (2023 - unrealized gains of $10Â million) were recognized in other income, net.Interest rate contractsDuring 2024, ITC entered into and settled interest rate locks with a combined notional value of US$300 million. These contracts were used to manage interest rate risk associated with the issuance of US$400 million unsecured senior notes in May 2024. Realized losses of US$3 million were recognized in other comprehensive income, which will be reclassified to earnings as a component of interest expense over five years.ITC also entered into five-year interest rate swap contracts in 2024 with a combined notional value of US$135 million. The swaps will be used to manage interest rate risk associated with forecasted debt issuances. Fair value was measured using a discounted cash flow method based on SOFR. Unrealized gains and losses associated with the changes in fair value are recognized in other comprehensive income, and will be reclassified to earnings as a component of interest expense over the life of the debt. Unrealized gains of US$4 million were recorded in 2024.In 2025, ITC entered into five-year interest rate swap contracts with a notional value of US$95 million to manage interest rate risk associated with forecasted debt issuances, increasing the total notional amount of interest rate swaps outstanding to US$230 million.During 2024, the Corporation entered into and settled interest rate locks with a combined notional value of $250 million. These contract were used to manage interest rate risk associated with the issuance of $500Â million unsecured senior notes in September 2024. Realized losses of $2Â million were recognized in other comprehensive income, which will be reclassified to earnings as a component of interest expense over sevenÂ years. Cross-Currency interest rate swapsThe Corporation holds cross-currency interest rate swaps, maturing in 2029, to effectively convert its $500Â million, 4.43% unsecured senior notes to US$391Â million, 4.34% debt. The Corporation has designated this notional U.S. debt as an effective hedge of its foreign net investments and unrealized gains and losses associated with exchange rate fluctuations on the notional U.S. debt are recognized in other comprehensive income, consistent with the translation adjustment related to the foreign net investments. Other changes in the fair value of the swaps are also recognized in other comprehensive income but are excluded from the assessment of hedge effectiveness. Fair value is measured using a discounted cash flow method based on SOFR. In 2024, unrealized losses of $29 million (2023 - unrealized gains of $15Â million) were recorded in other comprehensive income.34FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisDerivative Fair ValuesThe following table presents derivative assets and liabilities that are accounted for at fair value on a recurring basis. ($ millions)Level 1 (1)Level 2 (1)Level 3 (1)TotalAs at DecemberÂ 31, 2024Assets (2)Energy contracts subject to regulatory deferral â€”Â 63Â â€”Â 63Â Energy contracts not subject to regulatory deferralâ€”Â 7Â â€”Â 7Â Total return swaps and interest rate contractsâ€”Â 16Â â€”Â 16Â Other investments 150Â â€”Â â€”Â 150Â 150Â 86Â â€”Â 236Â Liabilities (3)Energy contracts subject to regulatory deferral â€”Â (197)â€”Â (197)Energy contracts not subject to regulatory deferralâ€”Â (2)â€”Â (2)Foreign exchange contracts and cross-currency interest rate swapsâ€”Â (45)â€”Â (45)â€”Â (244)â€”Â (244)As at DecemberÂ 31, 2023Assets (2)Energy contracts subject to regulatory deferral â€”Â 49Â â€”Â 49Â Energy contracts not subject to regulatory deferral â€”Â 6Â â€”Â 6Â Foreign exchange contractsâ€”Â 5Â â€”Â 5Â Other investments 145Â â€”Â â€”Â 145Â 145Â 60Â â€”Â 205Â Liabilities (3)Energy contracts subject to regulatory deferralâ€”Â (209)â€”Â (209)Energy contracts not subject to regulatory deferralâ€”Â (3)â€”Â (3)Total return and cross-currency interest rate swapsâ€”Â (6)â€”Â (6)â€”Â (218)â€”Â (218)(1)Under the hierarchy, fair value is determined using: (i) Level 1 - unadjusted quoted prices in active markets; (ii)Â Level 2 - other pricing inputs directly or indirectly observable in the marketplace; and (iii) Level 3 - unobservable inputs, used when observable inputs are not available. Classifications reflect the lowest level of input that is significant to the fair value measurement.(2)Included in cash and cash equivalents, accounts receivable and other current assets, or other assets(3)Included in accounts payable and other current liabilities or other liabilitiesDerivative VolumesAs at December 312024Â 2023Â Energy contracts subject to regulatory deferral (1)Electricity swap contracts (GWh)774Â 628Â Electricity power purchase contracts (GWh)430Â 588Â Gas swap contracts (PJ)236Â 228Â Gas supply contracts (PJ)105Â 134Â Energy contracts not subject to regulatory deferral (1)Wholesale trading contracts (GWh)1,499Â 1,310Â Gas swap contracts (PJ)3Â 3Â (1)Energy contracts settle on various dates through 202935FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisSELECTED ANNUAL FINANCIAL INFORMATIONYears ended December 31($ millions, except as indicated)2024Â 2023Â 2022Â Revenue11,508Â 11,517Â 11,043Â Net earnings 1,828Â 1,710Â 1,514Â Common Equity Earnings1,606Â 1,506Â 1,330Â EPS: ($)Basic3.24Â 3.10Â 2.78Â Diluted3.24Â 3.10Â 2.78Â Total assets 73,486Â 65,920Â 64,252Â Long-term debt (excluding current portion) 31,224Â 27,235Â 25,931Â Dividends declared: ($)Per common share2.41Â 2.31Â 2.20Â Per first preference share:Series F1.2250Â 1.2250Â 1.2250Â Series G (1)1.5308Â 1.3145Â 1.0983Â Series H0.4588Â 0.4588Â 0.4588Â Series I (2)1.4902Â 1.5619Â 0.9157Â Series J1.1875Â 1.1875Â 1.1875Â Series K (3)1.3673Â 0.9823Â 0.9823Â Series M (4)1.0770Â 0.9783Â 0.9783Â (1)The annual dividend per share was reset to $1.5308 for the five-year period from September 1, 2023 up to but excluding September 1, 2028(2)Floating quarterly dividend rate is reset every quarter based on the then current three-month Government of Canada Treasury Bill rate plus the applicable reset dividend yield(3)The annual dividend per share was reset from $0.9823 to $1.3673 for the five-year period from March 1, 2024 up to but excluding March 1, 2029(4)The annual dividend per share was reset from $0.9783 to $1.3733 for the five-year period from December 1, 2024 up to but excluding December 1, 20292024/2023For a discussion of the changes in revenue, Common Equity Earnings, EPS, total assets and long-term debt see "Performance at a Glance" on pageÂ 2, "Operating Results" on page 6, and "Financial Position" on page 13. 2023/2022The increase in revenue was due primarily to: (i) a higher U.S. dollar-to-Canadian dollar exchange rate; (ii) Rate Base growth; (iii) higher retail revenue at UNS Energy driven by new customer rates effective September 1, 2023, customer additions, and warmer weather; and (iv)Â theÂ recognition of a regulatory deferral at FortisBC associated with the new cost of capital parameters approved by the BCUC effective JanuaryÂ 1, 2023. The increase was partially offset by the flow-through of lower commodity costs in customer rates.Common Equity Earnings increased by $176 million in comparison to 2022. The increase was primarily driven by Rate Base growth across our utilities and the new cost of capital parameters approved for FortisBC effective January 1, 2023. Higher earnings in Arizona also contributed to earnings growth, reflecting higher retail electricity sales, new customer rates at TEP effective September 1, 2023, and lower depreciation expense associated with retirement of the San Juan generating station in 2022. An increase in the market value of certain investments that support retirement benefits, and the higher U.S. dollar-to-Canadian dollar exchange rate, also favourably impacted earnings year over year. The increase was partially offset by higher corporate finance costs and lower earnings from Aitken Creek. In addition to the above-noted items impacting earnings, the change in EPS also reflected an increase in the weighted average number of common shares outstanding, largely associated with the Corporation's DRIP.The increase in total assets was primarily due to capital expenditures in 2023 and an increase in regulatory assets, largely due to an increase in deferred income taxes and unrealized losses on energy derivatives. The increase was partially offset by the translation of U.S. dollar-denominated assets at a lower U.S. dollar-to-Canadian dollar exchange rate.36FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisFOURTH QUARTER RESULTSSales(GWh, except as indicated)2024Â 2023Â VarianceRegulated UtilitiesUNS EnergyRetail Electricity2,348Â 2,302Â 46Â Wholesale Electricity1,295Â 1,349Â (54)Gas (PJ)5Â 5Â â€”Â Central HudsonElectricity1,187Â 1,196Â (9)Gas (PJ)6Â 6Â â€”Â FortisBC Energy (PJ)67Â 66Â 1Â FortisAlberta4,428Â 4,273Â 155Â FortisBC Electric 916Â 901Â 15Â Other Electric2,533Â 2,525Â 8Â Non-Regulated Corporate and Other80Â 58Â 22Â Electricity sales for the fourth quarter were largely consistent with the comparable period in 2023 for most of Fortis' utilities. The increase in retail sales at UNS Energy was due primarily to customer additions, while the decrease in wholesale sales was related to lower long-term wholesale sales due to the expiration of certain contracts. As well, the increase in sales at FortisAlberta was due to customer additions and higher average consumption from industrial and residential customers.Gas sales for the fourth quarter were consistent with the comparable period in 2023.Revenue and Common Equity EarningsRevenueEarnings($ millions, except as indicated)2024Â 2023Â Variance2024Â 2023Â VarianceRegulated UtilitiesITC567Â 527Â 40Â 127Â 136Â (9)UNS Energy659Â 706Â (47)52Â 62Â (10)Central Hudson356Â 311Â 45Â 66Â 36Â 30Â FortisBC Energy522Â 544Â (22)120Â 105Â 15Â FortisAlberta207Â 188Â 19Â 42Â 36Â 6Â FortisBC Electric149Â 145Â 4Â 18Â 15Â 3Â Other Electric479Â 457Â 22Â 52Â 35Â 17Â Non-regulatedCorporate and Other10Â 7Â 3Â (81)(44)(37)Total2,949Â 2,885Â 64Â 396Â 381Â 15Â Weighted average number of common shares outstanding (# millions)498.2Â 489.4Â 8.8Â Basic EPS ($)0.79Â 0.78Â 0.01Â The increase in revenue was due primarily to Rate Base growth, a higher U.S. dollar-to-Canadian dollar exchange rate, and new customer rates at Central Hudson effective July 1, 2024. The implementation of Central Hudson's new customer rates has shifted the timing of quarterly rate recovery in comparison to related costs, resulting in higher revenue and earnings in the fourth quarter of 2024. The increase was partially offset by: (i) lower flow-through costs at UNS Energy and FortisBC Energy; and (ii) the recognition of a refund liability at ITC in 2024, largely reflecting the prior period impact of the reduction in the MISO base ROE approved by FERC (see "Regulatory Highlights - Significant Regulatory Matters" on pageÂ 12).The increase in Common Equity Earnings was driven by Rate Base growth as well as higher earnings at Central Hudson due to new customer rates and a higher allowed ROE effective July 1, 2024. The increase was partially offset by the refund liability recognized at ITC, discussed above, and lower earnings in Arizona, largely reflecting higher operating expenses. Unrealized losses on derivative contracts and the $10 million gain on disposition of Aitken Creek recognized in 2023 also unfavourably impacted fourth quarter earnings in comparison to the prior year. The favourable earnings impact resulting from the translation of U.S. dollar denominated earnings at the higher average U.S. dollar-to-Canadian dollar exchange rate was largely offset by foreign exchange losses associated with the revaluation of U.S. dollar denominated liabilities at a rate of US$1.00=CA$1.44 at DecemberÂ 31, 2024.37FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisThe increase in basic EPS reflects higher Common Equity Earnings, as discussed above, partially offset by an increase in the weighted average number of common shares outstanding, largely associated with the Corporation's DRIP.Cash Flows($ millions)2024Â 2023Â VarianceCash and cash equivalents, beginning of period896Â 765Â 131Â Cash from (used in):Operating activities962Â 746Â 216Â Investing activities(1,796)(748)(1,048)Financing activities125Â (134)259Â Effect of exchange rate changes on cash and cash equivalents33Â (13)46Â Change in cash associated with assets held for saleâ€”Â 9Â (9)Cash and cash equivalents, end of period220Â 625Â (405)Operating ActivitiesThe increase in Operating Cash Flow was largely driven by FortisBC Energy reflecting higher deposits received, net of expenditures incurred, associated with the Eagle Mountain Pipeline project, as well as other changes in working capital balances. The increase was partially offset by the timing of flow-through transmission amounts at FortisAlberta as well as higher interest payments.Investing ActivitiesThe increase in cash used in investing activities primarily reflects higher capital expenditures in 2024, as well as the proceeds received in 2023 related to the disposition of Aitken Creek. Lower customer contributions in aid of construction also contributed to the variance.Financing ActivitiesThe increase in cash from financing activities reflects changes in the subsidiaries' capital expenditures and the amount of Operating Cash Flow available to fund those capital expenditures, as well as the repayment of credit facility borrowings in the fourth quarter of 2023 associated with the proceeds received from the sale of Aitken Creek. See "Cash Flow Summary" on page 15.SUMMARY OF QUARTERLY RESULTSCommon EquityRevenueEarningsBasic EPSDiluted EPSQuarter ended($ millions)($ millions)($)($)December 31, 20242,949Â 396Â 0.79Â 0.79Â September 30, 20242,771Â 420Â 0.85Â 0.85Â June 30, 20242,670Â 331Â 0.67Â 0.67Â March 31, 20243,118Â 459Â 0.93Â 0.93Â December 31, 20232,885Â 381Â 0.78Â 0.78Â September 30, 20232,719Â 394Â 0.81Â 0.81Â June 30, 20232,594Â 294Â 0.61Â 0.61Â March 31, 20233,319Â 437Â 0.90Â 0.90Â Generally, within each calendar year, quarterly results fluctuate in accordance with seasonality. Given the diversified nature of the Corporation's subsidiaries, seasonality varies. Earnings of the gas utilities tend to be highest in the first and fourth quarters due to space-heating requirements. Earnings of the electric distribution utilities in the U.S. tend to be highest in the second and third quarters due to the use of air conditioning and other cooling equipment.Generally, from one calendar year to the next, quarterly results reflect: (i) continued organic growth driven by the Corporation's capital plan; (ii)Â any significant temperature fluctuations from seasonal norms; (iii) the impact of market conditions, particularly with respect to long-term wholesale sales at UNS Energy; (iv) the timing and significance of any regulatory decisions; (v) changes in the U.S. dollar-to-Canadian dollar exchange rate; (vi) for revenue, the flow through in customer rates of commodity costs; and (vii) for EPS, increases in the weighted average number of common shares outstanding. December 2024/December 2023 See "Fourth Quarter Results" on page 37.38FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisSeptember 2024/September 2023 Common Equity Earnings increased by $26 million and basic EPS increased by $0.04 in comparison to the third quarter of 2023. The increase was driven by: (i) Rate Base growth; and (ii) strong earnings in Arizona, reflecting new customer rates at TEP effective September 1, 2023, an increase in the market value of investments that support retirement benefits and higher production tax credits. Unrealized gains on derivative contracts recognized in the third quarter of 2024, and an unfavourable deferred income tax adjustment recognized by ITC in the third quarter of 2023, also contributed to the growth in earnings. The increase was partially offset by the timing of recognition of new cost of capital parameters approved for FortisBC in 2023, which included $26Â million associated with the retroactive impact to January 1, 2023, as well as higher holding company finance costs. The change in basic EPS also reflected an increase in the weighted average number of common shares outstanding, largely associated with the Corporation's DRIP.June 2024/June 2023Common Equity Earnings increased by $37 million and basic EPS increased by $0.06 in comparison to the second quarter of 2023. The increase was driven by strong earnings in Arizona, reflecting new customer rates at TEP effective September 1, 2023 and higher retail electricity sales associated with warmer weather. Rate Base growth across our utilities and the timing of recognition of new cost of capital parameters approved for FortisBC in 2023 also contributed to earnings growth. The increase was partially offset by lower earnings for Central Hudson and the OtherÂ Electric segment, largely reflecting higher operating costs. The change in basic EPS also reflected an increase in the weighted average number of common shares outstanding, largely associated with the Corporation's DRIP.March 2024/March 2023Common Equity Earnings increased by $22 million and basic EPS increased by $0.03 in comparison to the first quarter of 2023. The increase was due to the timing of recognition of new cost of capital parameters approved for FortisBC in 2023 and Rate Base growth across our utilities. The increase was partially offset by higher holding company costs, including finance charges and unrealized losses on derivative contracts, and the November 1, 2023 disposition of Aitken Creek. In addition, the change in EPS reflected an increase in the weighted average number of common shares outstanding, largely associated with the Corporation's DRIP.RELATED-PARTY AND INTER-COMPANY TRANSACTIONSRelated-party transactions are in the normal course of operations and are measured at the amount of consideration agreed to by the related parties. There were no material related-party transactions in 2024 or 2023. As of DecemberÂ 31, 2024, accounts receivable included $18 million due from Belize Electricity (December 31, 2023 - $8 million).Fortis periodically provides short-term financing to subsidiaries to support capitalÂ expenditures and seasonal working capital requirements, the impacts of which are eliminated on consolidation. As at DecemberÂ 31, 2024 and 2023, there were no inter-segment loans outstanding. Interest charged on inter-segment loans was not material in 2024 and 2023.MANAGEMENT'S EVALUATION OF CONTROLS AND PROCEDURESDisclosure Controls and ProceduresDCP are designed to provide reasonable assurance that information required to be disclosed in reports filed with, or submitted to, securities regulatory authorities is recorded, processed, summarized and reported within the time periods specified under Canadian and U.S. securities laws. As of DecemberÂ 31, 2024, an evaluation was carried out under the supervision of, and with the participation of, the Corporation's management, including the CEO and CFO, of the effectiveness of the Corporation's DCP, as defined in the applicable Canadian and U.S. securities laws. Based on that evaluation, the CEO and CFO concluded that such DCP are effective as of DecemberÂ 31, 2024.Internal Control over Financial ReportingICFR is designed by, or under the supervision of, the Corporation's CEO and CFO and effected by the Corporation's Board, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. GAAP. Because of its inherent limitations, ICFR may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.The Corporation's management, including the Corporation's CEO and CFO, assessed the effectiveness of the Corporation's ICFR as of DecemberÂ 31, 2024, based on the criteria set forth in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management concluded that, as of December 31, 2024, the Corporation's ICFR was effective.During the year ended DecemberÂ 31, 2024, there have been no changes in the Corporation's ICFR that have materially affected, or are reasonably likely to materially affect, the Corporation's ICFR.39FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisOUTLOOKFortis continues to enhance shareholder value through the execution of its capital plan, the balance and strength of its diversified portfolio of regulated utility businesses, and growth opportunities within and proximate to its service territories. The Corporation's $26.0 billion five-year capital plan is expected to

increase midyear Rate Base from $39.0Â billion in 2024 to $53.0Â billion by 2029, translating into a five-year CAGR of 6.5%. Beyond the five-year capital plan, opportunities to expand and extend growth include: further expansion of the electric transmission grid in the U.S. to support load growth and facilitate the interconnection of cleaner energy; transmission investments associated with the MISO LRTP tranches 1, 2.1, and 2.2 as well as regional transmission in New York; grid resiliency and climate adaptation investments; renewable gas solutions and LNG infrastructure in British Columbia; and the acceleration of load growth and cleaner energy infrastructure investments across our jurisdictions.Fortis expects its long-term growth in Rate Base will drive earnings that support dividend growth guidance of 4-6% annually through 2029, and is premised on the assumptions and material factors listed under "Forward-Looking Information". Fortis has reduced its corporate-wide direct GHG emissions by 34% from a 2019 base year, and has targets to further reduce such GHG emissions by 50% by 2030 and 75% by 2035. The Corporation's additional 2050 net-zero direct GHG emissions target reinforces Fortis' commitment to further decarbonize over the long-term, while continuing our focus on reliability and affordability. The Corporation's ability to achieve the GHG targets may be impacted by federal, state and provincial energy policies, as well as external factors, including significant customer and load growth and the development of clean energy technology.FORWARD-LOOKING INFORMATIONFortis includes forward-looking information in the MD&A within the meaning of applicable Canadian securities laws and forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, (collectively referred to as "forward-looking information"). Forward-looking information reflects expectations of Fortis management regarding future growth, results of operations, performance, business prospects and opportunities. Wherever possible, words such as anticipates, believes, budgets, could, estimates, expects, forecasts, intends, may, might, plans, projects, schedule, should, target, will, would, and the negative of these terms, and other similar terminology or expressions, have been used to identify the forward-looking information, which includes, without limitation: the expectation that Fortis is well-positioned for future investment opportunities; annual dividend growth guidance through 2029; forecast Capital Expenditures for 2025 through 2029; the expected sources of funding for the capital plan, including the source of common equity proceeds; forecast midyear Rate Base for 2029 and projected Rate Base growth from 2024 through to 2029; the expected nature, timing and benefits of additional opportunities beyond the capital plan, including further expansion of the electric transmission grid in the U.S. to support load growth and facilitate the interconnection of cleaner energy, transmission investments associated with the MISO LRTP tranches 1, 2.1 and 2.2 as well as regional transmission in New York, grid resiliency and climate adaptation investments, renewable gas solutions and LNG infrastructure in British Columbia, and the acceleration of load growth and cleaner energy infrastructure investments; expected implications of utility industry trends on the utility sector and on the Corporation's capital investments; the expected timing, outcome and impact of legal and regulatory proceedings and decisions; the expected or potential funding sources for operating expenses, interest costs and capital expenditures; the expectation that maintaining the targeted capital structure of the regulated operating subsidiaries will not have an impact on the Corporation's ability to pay dividends in the foreseeable future; the expected consolidated fixed-term debt maturities and repayments over the next five years; the expectation that the Corporation and its subsidiaries will continue to have reasonable access to long-term capital and will remain compliant with debt covenants in 2025; the expected uses of proceeds from debt financings; the performance of contractual obligations to provide equity capital to Wataynikaneyap Power; the potential impact of new or revised tariffs on forecast and actual capital expenditures; forecast midyear Rate Base for 2025 and 2029 by segment; the nature, timing, benefits and expected costs of certain capital projects, including ITC's transmission projects associated with the MISO LRTP, IRP Related Generation, the Roadrunner Reserve Battery Storage Projects 1 and 2, the Vail-to-Tortolita Transmission Project, the Eagle Mountain Pipeline Project, the Tilbury LNG Storage Expansion, the AMI Project, and the Tilbury 1B Project, and additional investment opportunities; the 2050 net-zero direct GHG emissions target; the 2030 and 2035 direct GHG emissions reduction targets; how the Corporation's GHG emissions targets are expected to be achieved, including TEP's plan to exit coal; the potential impact of federal, state and provincial energy policies and other factors, including significant customer and load growth and the development of clean energy technology, on the Corporation's ability to achieve its GHG emissions reduction targets; the expected impacts of future accounting pronouncements on the Corporation's disclosures; the potential impact of the recognition of goodwill impairment losses; the potential and expected impacts of income tax compliance examinations and legislation with respect to interest deductibility limitations and global minimum tax; and the expectation that long-term growth in Rate Base will drive earnings that support dividend growth guidance of 4-6% annually through 2029.Forward-looking information involves significant risks, uncertainties and assumptions. Certain material factors or assumptions have been applied in drawing the conclusions contained in the forward-looking information including, without limitation: reasonable legal and regulatory decisions and the expectation of regulatory stability; the successful execution of the capital plan; no material capital project or financing cost overrun; sufficient human resources to deliver service and execute the capital plan; the realization of additional opportunities beyond the capital plan; no significant variability in interest rates; no material changes in the assumed U.S. dollar- to- Canadian dollar exchange rate; the continuation of current participation levels in the Corporation's DRIP; the Board exercising its discretion to declare dividends, taking into account the financial performance and condition of the Corporation; no significant operational disruptions or environmental liability or upset; the continued ability to maintain the performance of the electricity and gas systems; no severe and prolonged economic downturn; sufficient liquidity and capital resources; the ability to hedge exposures to fluctuations in foreign exchange rates, natural gas prices and electricity prices; the continued availability of natural gas, fuel, coal and electricity supply; continuation of power supply and capacity purchase contracts; no significant changes in government energy plans, environmental laws and regulations that could have a material negative impact; maintenance of adequate insurance coverage; the ability to obtain and maintain licences and permits; retention of existing service areas; no significant changes in tax laws and the continued tax deferred treatment of earnings from the Corporation's foreign operations; continued maintenance of information technology infrastructure and no material breach of cybersecurity; continued favourable relations with Indigenous Peoples; and favourable labour relations.Fortis cautions readers that a number of factors could cause actual results, performance or achievements to differ materially from those discussed or implied in the forward-looking information. These factors should be considered carefully and undue reliance should not be placed on the forward-looking information. Risk factors which could cause results or events to differ from current expectations are detailed under the heading "Business Risks" in this MD&A and in other continuous disclosure materials filed from time to time with Canadian securities regulatory authorities and the Securities and Exchange Commission. Key risk factors for 2025 include, but are not limited to: uncertainty regarding changes in utility regulation, including the outcome of regulatory proceedings at the Corporation's utilities; the physical risks associated with the provision of electric and gas service, which can be exacerbated by the impacts of climate change; risks related to environmental laws and regulations; risks associated with capital projects and the impact on the Corporation's continued growth; risks associated with cybersecurity and information and operations technology; the impact of weather variability and seasonality on heating and cooling loads, gas distribution volumes and hydroelectric generation; risks associated with commodity price volatility and supply of purchased power; and risks related to general economic conditions, including inflation, interest rate and foreign exchange risks. All forward-looking information herein is given as of FebruaryÂ 13, 2025. Fortis disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise.40FORTIS INC.DECEMBER 31, 2024Management Discussion and AnalysisGLOSSARY2024 Annual Financial Statements: the Corporation's audited consolidated financial statements and notes thereto for the year ended DecemberÂ 31, 2024Actual Payout Ratio: dividends paid per common share divided by basic EPSAdjusted Basic EPS: Adjusted Common Equity Earnings divided by the basic weighted average number of common shares outstandingAdjusted Common Equity Earnings: net earnings attributable to common equity shareholders adjusted as shown under "Non-U.S. GAAP Financial Measures" on page 10Adjusted Payout Ratio: dividends paid per common share divided by Adjusted Basic EPS as shown under "Non-U.S. GAAP Financial Measures" on page 10AFUDC: allowance for funds used during constructionAI: artificial intelligenceAitken Creek: Aitken Creek Gas Storage ULC, a 93.8%-owned subsidiary of FortisBC Holdings Inc., sold on November 1, 2023AMI: advanced metering infrastructureATM Program: at-the-market equity programACC: Arizona Corporation CommissionASU: accounting standards updateAUC: Alberta Utilities CommissionBCUC: British Columbia Utilities CommissionBelize Electricity: Belize Electricity Limited, in which Fortis indirectly holds a 33% equity interestBoard: Board of Directors of the CorporationCAGR(s): compound annual growth rate of a particular item. - Definition

Amount of currency on hand as well as demand deposits with banks or financial institutions. Includes other kinds of accounts that have the general characteristics of demand deposits. Also includes short-term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Excludes cash and cash equivalents within disposal group and discontinued operation.

- Definition

Represents the caption on the face of the balance sheet to indicate that the entity has entered into (1) purchase or supply arrangements that will require expending a portion of its resources to meet the terms thereof, and (2) is exposed to potential losses or, less frequently, gains, arising from (a) possible claims against a company's resources due to future performance under

contract terms, and (b) possible losses or likely gains from uncertainties that will ultimately be resolved when one or more future events that are deemed likely to occur do occur or fail to occur.

+ Definition

Carrying amount as of the balance sheet date of capitalized costs of regulated entities that are expected to be recovered through revenue sources within one year or the normal operating cycle, if longer. Such costs are capitalized if they meet both of the following criteria: a. It is probable that future revenue in an amount at least equal to the capitalized cost will result from inclusion of that cost in allowable costs for rate-making purposes. b. Based on available evidence, the future revenue will be provided to permit recovery of the previously incurred cost rather than to provide for expected levels of similar future costs. If the revenue will be provided through an automatic rate-adjustment clause, this criterion requires that the regulator's intent clearly be to permit recovery of the previously incurred cost.

Consolidated Balance Sheets (Parenthetical) - shares shares in Millions Dec. 31, 2024 Dec. 31, 2023

Statement of Financial Position [Abstract]

Common stock, shares issued (in shares) 499,349 0,6

Common stock, shares outstanding (in shares) 499,349 0,6

- Definition

Total number of common shares of an entity that have been sold or granted to shareholders (includes common shares that were issued, repurchased and remain in the treasury). These shares represent capital invested by the firm's shareholders and owners, and may be all or only a portion of the number of shares authorized. Shares issued include shares outstanding and shares held in the treasury.

- Definition

The aggregate expense charged against earnings to allocate the cost of intangible assets (nonphysical assets not used in production) in a systematic and rational manner to the periods expected to benefit from such assets. As a noncash expense, this element is added back to net income when calculating cash provided by or used in operations using the indirect method.

Description of Business 12 Months Ended

Dec. 31, 2024

Organization, Consolidation and Presentation of Financial Statements [Abstract] Description of BusinessDESCRIPTION OF BUSINESS

Fortis Inc. ("Fortis" or the "Corporation") is a well-diversified North American regulated electric and gas utility holding company. Entities within the reporting segments that follow operate with substantial autonomy.

Regulated Utilities

ITC: ITC Investment Holdings Inc., ITC Holdings Corp. and the electric transmission operations of its regulated operating subsidiaries, which include International Transmission Company ("ITCTransmission"), Michigan Electric Transmission Company, LLC ("METC"), ITC Midwest LLC ("ITC Midwest"), and ITC Great Plains, LLC. Fortis owns 80.1% of ITC and an affiliate of GIC Private Limited owns a 19.9% minority interest.

ITC owns and operates high-voltage transmission lines in Michigan's lower peninsula and portions of Iowa, Minnesota, Illinois, Missouri, Kansas, Oklahoma and Wisconsin.

UNS Energy: UNS Energy Corporation, which primarily includes Tucson Electric Power Company ("TEP"), UNS Electric, Inc. ("UNS Electric") and UNS Gas, Inc. ("UNS Gas").

UNS Energy's largest operating subsidiary, TEP, and UNS Electric are vertically integrated regulated electric utilities. They generate, transmit and distribute electricity to retail customers in southeastern Arizona, including the greater Tucson metropolitan area. TEP also sells wholesale electricity to other entities in the western United States. Together they own generating capacity of 3,442 megawatts ("MW"), including 68 MW of solar capacity and 250 MW of wind capacity. Several generating assets in which they have an interest are jointly owned.

UNS Gas is a regulated gas distribution utility serving retail customers in northern and southern Arizona.

Central Hudson: CH Energy Group, Inc., which primarily includes Central Hudson Gas & Electric Corporation. Central Hudson is a regulated electric and gas transmission and distribution utility that serves portions of New York State's Mid-Hudson River Valley and owns gas-fired and hydroelectric generating capacity totalling 43 MW.

FortisBC Energy: FortisBC Energy Inc., which is the largest regulated distributor of natural gas in British Columbia, providing transmission and distribution services. FortisBC Energy sources natural gas supplies primarily from northeastern British Columbia and Alberta on behalf of most customers.

FortisAlberta: FortisAlberta Inc. is a regulated electricity distribution utility operating in a substantial portion of southern and central Alberta. FortisAlberta is not involved in the direct sale of electricity.

FortisBC Electric: FortisBC Inc. is an integrated regulated electric utility operating in the southern interior of British Columbia. It owns four hydroelectric generating facilities with a combined capacity of 225 MW. It also provides operating, maintenance and management services relating to five hydroelectric generating facilities in British Columbia that are owned by third parties.

Other Electric: Eastern Canadian and Caribbean utilities, as follows: Newfoundland Power Inc. ("Newfoundland Power"); Maritime Electric Company, Limited ("Maritime Electric"); FortisOntario Inc. ("FortisOntario"); a 39% equity investment in Wataynikaneyap Power Limited Partnership ("Wataynikaneyap Power"); an approximate 60% controlling interest in Caribbean Utilities Company, Ltd. ("Caribbean Utilities"); FortisTCI Limited and Turks and Caicos Utilities Limited (collectively, "FortisTCI"); and a 33% equity investment in Belize Electricity Limited ("Belize Electricity").

Newfoundland Power is an integrated regulated electric utility and the principal distributor of electricity on the island portion of Newfoundland and Labrador with a generating capacity of 145 MW, of which 98 MW is hydroelectric. Maritime Electric is an integrated regulated electric utility and the principal distributor of electricity on Prince Edward Island ("PEI") with on-Island generating capacity of 90 MW. FortisOntario consists of three regulated electric utilities that provide service to customers in Fort Erie, Cornwall, Gananoque, Port Colborne and the District of Algoma in Ontario with a generating capacity of 3 MW. Wataynikaneyap Power is a transmission company majority-owned by 24 First Nations in which Fortis owns a 39% interest. The 1,800 kilometer Wataynikaneyap Power Transmission Line will connect 17 remote First Nations to the Ontario power grid.

Caribbean Utilities is an integrated regulated electric utility and the sole electricity provider on Grand Cayman with a diesel-powered generating capacity of 166 MW. FortisTCI consists of two integrated regulated electric utilities that provide electricity to certain Turks and Caicos Islands and has a generating capacity of 99 MW, including 95 MW of diesel-powered generating capacity and 4 MW of solar capacity. Belize Electricity is an integrated electric utility and the principal distributor of electricity in Belize.

Non-Regulated

Corporate and Other: Captures expenses and revenues not specifically related to any reportable segment and those business operations that are below the required threshold for segmented reporting. Consists of non-regulated holding company expenses, as well as non-regulated long-term contracted generation assets in Belize. The generation assets include three hydroelectric generating facilities with a combined generating capacity of 51 MW, held through the Corporation's indirectly wholly owned subsidiary Fortis Belize Limited, the output of which is sold to Belize Electricity under 50-year power purchase agreements ("PPAs"). Also includes results for the Aitken Creek natural gas storage facility ("Aitken Creek") until the November 1, 2023 date of disposition (Note 21).

- Definition

The entire disclosure for the business description and basis of presentation concepts. Business description describes the nature and type of organization including but not limited to organizational structure as may be applicable to holding companies, parent and subsidiary relationships, business divisions, business units, business segments, affiliates and information about significant ownership of the reporting entity. Basis of presentation describes the underlying basis used to prepare the financial statements (for example, US Generally Accepted Accounting Principles, Other Comprehensive Basis of Accounting, IFRS).

Regulation 12 Months Ended

Dec. 31, 2024

Regulated Operations [Abstract] RegulationREGULATION

General

The earnings of the Corporation's regulated utilities are determined under cost of service ("COS") regulation, with some using performance-based rate setting ("PBR") mechanisms.

Under COS regulation, the regulator sets customer rates to permit a reasonable opportunity for the timely recovery of the estimated costs of providing service, including a fair rate of return on a deemed or targeted capital structure applied to an approved regulatory asset value ("rate base"). PBR mechanisms generally apply a formula that incorporates inflation and assumed productivity improvements for a set term.

The ability to recover prudently incurred costs of providing service and earn the regulator-approved rate of return on common shareholders' equity ("ROE") and/or rate of return on rate base assets ("ROA") may depend on achieving the forecasts established in the rate-setting process. As well, the Corporation's regulated utilities, where applicable, are permitted by their respective regulators to flow through to customers, without markup, the cost of natural gas, fuel and/or purchased power through base customer rates and/or the use of rate stabilization and other mechanisms (Note 8). There can be varying degrees of regulatory lag between when costs are incurred and when they are reflected in customer rates.

									Nature of Regulation
Allowed Common Equity (%)	**Allowed ROE**[1]								
(%)									
Regulated Utility	**Regulatory Authority**	**2024**	2023	**Significant Features**					
ITC	Federal Energy Regulatory Commission ("FERC")	60.0							

| | | |

Investments are reviewed annually for potential impairment in value. Impairments are recognized when identified.

Property, Plant and Equipment

Property, plant and equipment ("PPE") are recognized at cost less accumulated depreciation. Contributions in aid of construction by customers and governments are recognized as a reduction in the cost of, and are amortized in a manner consistent with, the related PPE.

Depreciation rates of the Corporation's regulated utilities include a provision for estimated future removal costs not identified as a legal obligation. The provision is recognized as a long-term regulatory liability (Note 8) against which actual removal costs are netted when incurred.

The Corporation's regulated utilities derecognize PPE on disposal or when no future economic benefits are expected from their use. Upon derecognition, any difference between cost and accumulated depreciation, net of salvage proceeds, is charged to accumulated depreciation. No gain or loss is recognized.

Through methodologies established by their respective regulators, the Corporation's regulated utilities capitalize: (i) overhead costs that are not directly attributable to specific PPE but relate to the overall capital expenditure plan; and (ii) an allowance for funds used during construction ("AFUDC"). The debt component of AFUDC for 2024 totalled $74 million (2023 - $56 million) and is reported as a reduction of finance charges and the equity component is reported as other income (Note 22). Both components are recorded to earnings through depreciation expense over the estimated service lives of the applicable PPE.

Excluding UNS Energy and Central Hudson, PPE includes inventory held for the development, construction and betterment of other assets. As required by its regulators, UNS Energy and Central Hudson recognize such items as inventory until used and reclassifies them to PPE once put into service.

Repairs and maintenance costs are charged to earnings in the period incurred. Replacements and betterments that extend the useful lives of PPE are capitalized.

PPE is depreciated using the straight-line method based on the estimated service lives of the assets. Depreciation rates for regulated PPE are approved by the respective regulators and ranged from 0.5% to 33.0% for 2024 (2023 - 0.5% to 35.0%). The weighted average composite rate of depreciation, before reduction for amortization of contributions in aid of construction, was 2.7% for 2024 (2023 – 2.6%).

The service life ranges and weighted average remaining service life of PPE as at December 31 were as follows:

	2024 2023 (years):	
Service Life Ranges	**Weighted Average Remaining Service Life**	
Service Life Ranges	Weighted Average Remaining Service Life	
Distribution	Electric	
5-80 32		
5-80 31	Gas	
18-83 37		
18-95 36	transmission	Electric
20-85 42		
20-90 41	Gas	
10-90 35		
10-85 36	Generation	
2-95 22		
2-95 22	Other.	
3-80 13		
3-80 10		

Intangible Assets

Intangible assets are recorded at cost less accumulated amortization. Their useful lives are assessed to be either indefinite or finite.

Intangible assets with indefinite useful lives are not amortized and are tested for impairment annually, either individually or, where the particular entity also has goodwill, at the reporting unit level in conjunction with goodwill impairment testing. An annual review is completed to determine whether the indefinite life assessment continues to be supportable. If not, the resultant changes are made prospectively.

Intangible assets with finite lives are amortized using the straight-line method based on the estimated service lives of the assets. Amortization rates for regulated intangible assets are approved by the respective regulators and ranged from 1.0% to 33.0% for 2024 (2023 - 1.0% to 33.0%).
The service life ranges and weighted average remaining service life of finite-life intangible assets as at December 31 were as follows:

	2024 2023 (years):	**Service Life Ranges**
Weighted Average Remaining Service Life		
Service Life Ranges	Weighted Average Remaining Service Life	
Computer software		
2-18 5		
5-100	land, transmission and water rights	
30-85 32		
30-80	Other.	
10-100 16		
10-100		

The Corporation's regulated utilities derecognize intangible assets on disposal or when no future economic benefits are expected from their use. Upon derecognition any difference between the cost and accumulated amortization of the asset, net of salvage proceeds, is charged to accumulated amortization. No gain or loss is recognized.

Impairment of Long-Lived Assets

The Corporation reviews the valuation of PPE, intangible assets with finite lives, and other long-term assets when events or changes in circumstances indicate that the total undiscounted cash flows expected to be generated by the asset may be below carrying value. If that is determined to be the case, the asset is written down to estimated fair value and an impairment loss is recognized.

Goodwill

Goodwill represents the excess of the purchase price over the fair value of the identifiable net assets related to business acquisitions.

Goodwill at each of the Corporation's reporting units is tested for impairment annually and whenever an event or change in circumstances indicates that fair value may be below carrying value. If so determined, goodwill is written down to estimated fair value and an impairment loss is recognized.

The Corporation performs a qualitative assessment on each reporting unit, and if it is determined that it is not likely that fair value is less than carrying value, then a quantitative estimate of fair value is not required. When a quantitative assessment is performed, the primary method for estimating fair value of the reporting units is the income approach, whereby net cash flow projections are discounted. Underlying estimates and assumptions, with varying degrees of uncertainty, include the amount and timing of expected future cash flows, growth rates, and discount rates. A secondary valuation, the market approach along with a reconciliation of the total estimated fair value of all the reporting units to the Corporation's market capitalization, is also performed and evaluated.

Deferred Financing Costs

Issue costs, discounts and premiums are recognized against, and amortized over the life of, the related long-term debt.

Employee Future Benefits

Fortis and each subsidiary maintain one or a combination of defined benefit pension ("DBP") and defined contribution pension plans, as well as other post-employment benefit ("OPEB") plans, including certain health and dental coverage and life insurance benefits, for qualifying members. The costs of defined contribution pension plans are expensed as incurred.

For DBP and OPEB plans, the projected or accumulated benefit obligation and net benefit costs are actuarially determined using the projected benefits method prorated on service and management's best estimate of expected plan investment performance, salary escalation, retirement ages of employees and, for OPEB plans, expected health care costs. Discount rates reflect market interest rates on high-quality bonds with cash flows that match the timing and amount of expected pension or OPEB payments.

DBP and OPEB plan assets are recognized at fair value. For the purpose of determining defined benefit pension cost, FortisBC Energy and Newfoundland Power use the market-related value whereby investment returns in excess of, or below, expected returns are recognized in the asset value over a period of three years.

The excess of any cumulative net actuarial gain or loss over 10% of the greater of: (i) the projected or accumulated benefit obligation; and (ii) the fair value or market-related value, as applicable, of plan assets at the beginning of the fiscal year, along with unamortized past service costs, are deferred and amortized over the average remaining service period of active employees.

The net funded or unfunded status of DBP and OPEB plans, measured as the difference between the fair value of the plan assets and the projected or accumulated benefit obligation, is recognized on the Corporation's consolidated balance sheets. For most of the Corporation's regulated utilities, any difference between DBP or OPEB plan costs ordinarily recognized under U.S. GAAP and those recovered from customers in current rates is subject to deferral account treatment and is expected to be recovered from, or refunded to, customers in future rates. In addition, any unamortized balances related to net actuarial gains and losses, past service costs and transitional obligations associated with DBP or OPEB plans, as applicable, which would otherwise be recognized in accumulated other comprehensive income, are subject to deferral account treatment (Note 8).

Leases

A right-of-use asset and lease liability is recognized for leases with a lease term greater than 12 months. The right-of-use asset and liability are both measured at the present value of future lease payments, excluding variable payments that are based on usage or performance. Future lease payments include both lease components (e.g., rent, real estate taxes and insurance costs) and non-lease components (e.g., common area maintenance costs), which Fortis accounts for as a single lease component. The present value is calculated using the rate implicit in the lease or a lease-specific secured interest rate based on the remaining lease term. Renewal options are included in the lease term when it is reasonably certain that the option will be exercised.

Finance leases are depreciated over the lease term, except where: (i) ownership of the asset is transferred at the end of the lease term, in which case depreciation is over the estimated service life of the underlying asset; and (ii) the regulator has approved a different recovery methodology for rate-setting purposes, in which case the timing of the expense recognition will conform to the regulator's requirements.

Revenue Recognition

Most revenue is derived from energy sales and the provision of transmission services to customers based on regulator-approved tariff rates. Most contracts have a single performance obligation, being the delivery of energy or the provision of transmission services. No component of the transaction price is allocated to unsatisfied performance obligations. Energy sales are generally measured in kilowatt hours, gigajoules or transmission load delivered. The billing of energy sales is based on customer meter readings, which occur systematically throughout each month. The billing of transmission services at ITC is based on peak monthly load.

FortisAlberta is a distribution company and is required by its regulator to arrange and pay for transmission services with the Alberta Electric System Operator ("AESO"). This includes the collection of transmission revenue from its customers, which occurs through the transmission component of its regulator-approved rates. FortisAlberta reports transmission revenue and expenses on a net basis.

Electricity, gas and transmission service revenue includes an estimate for unbilled energy consumed or service provided since the last meter reading that has not been billed at the end of the reporting period. Sales estimates generally reflect an analysis of historical consumption in relation to key inputs, such as current energy prices, population growth, economic activity, weather conditions and system losses. Unbilled revenue accruals are adjusted in the periods actual consumption becomes known.

Generation revenue from non-regulated operations is recognized on delivery at contracted fixed or market rates.

Variable consideration is estimated at the most likely amount and reassessed at each reporting date until the amount is known. Variable consideration, including amounts subject to a future regulatory decision, is recognized as a refund liability until entitlement is probable.

Revenue excludes sales and municipal taxes collected from customers.

The Corporation has elected not to assess or account for any significant financing components associated with revenue billed in accordance with equal payment plans as the period between the transfer of energy to customers and the customers' payment is less than one year.

Stock-Based Compensation

Fortis recognizes liabilities associated with directors' deferred share units ("DSUs"), performance share units ("PSUs") and restricted share units ("RSUs"). DSUs represent cash-settled awards whereas PSUs and RSUs represent cash or share-settled awards. The fair value of these liabilities is based on the five-day volume weighted average price ("VWAP") of the Corporation's common shares at the end of each reporting period. The fair value of the PSU liability is also based on the expected payout probability, based on historical performance in accordance with the defined metrics of each grant and management's best estimate.

Compensation expense is recognized on a straight-line basis over the vesting period, which for PSUs and RSUs is over the lesser of three years or the period to retirement eligibility and for DSUs is at the time of grant. Forfeitures are accounted for as they occur.

Foreign Currency Translation

Assets and liabilities of the Corporation's foreign operations, all of which have a U.S. dollar functional currency, are translated at the exchange rate in effect at the balance sheet date and the resultant unrealized translation gains and losses are recognized in accumulated other comprehensive income. The exchange rate as at December 31, 2024 was US$1.00=CA$1.44 (2023 - US$1.00=CA$1.32).

Revenue and expenses of the Corporation's foreign operations are translated at the average exchange rate for the reporting period, which was US$1.00=CA$1.37 for 2024 (2023 - US$1.00=CA$1.35).

Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate prevailing at the balance sheet date. Revenue and expenses denominated in foreign currencies are translated at the exchange rate prevailing at the transaction date. Translation gains and losses are recognized in earnings.

Translation gains and losses on foreign currency-denominated debt that is designated as an effective hedge of foreign net investments are recognized in other comprehensive income.

Derivatives and Hedging

Derivatives Not Designated as Hedges

Derivatives not designated as hedges are used by: (i) Fortis, to manage cash flow risk associated with forecast U.S. dollar cash inflows and forecast future cash settlements of DSU, PSU and RSU obligations; and (ii) UNS Energy, to meet forecast load and reserve requirements. Aitken Creek, to its date of disposition, utilized derivatives to manage commodity price risk, capture natural gas price spreads, and manage the financial risk of physical transactions (Note 21). Derivatives are measured at fair value with changes thereto recognized in earnings.

Derivatives not designated as hedges are also used by UNS Energy, Central Hudson and FortisBC Energy to reduce energy price risk associated with purchased power and gas requirements. The settled amounts of these derivatives are generally included in regulated rates, as permitted by the respective regulators. These derivatives are measured at fair value with changes recognized as regulatory assets or liabilities for recovery from, or refund to, customers in future rates (Note 8).

Derivatives that meet the normal purchase or normal sale scope exception are not measured at fair value and settled amounts are recognized in earnings as energy supply costs.

Derivatives Designated as Hedges
Fortis, ITC and Central Hudson use cash flow hedges, from time to time, to manage interest rate risk. Unrealized gains and losses are initially recognized in accumulated other comprehensive income and reclassified to earnings when the underlying hedged transaction affects earnings.

The Corporation's earnings from, and net investments in, foreign subsidiaries and certain equity-accounted investments are exposed to fluctuations in the U.S. dollar-to-Canadian dollar exchange rate. The Corporation has hedged a portion of this exposure through U.S. dollar-denominated debt at the corporate level. Exchange rate fluctuations associated with the translation of this debt and the foreign net investments are recognized in accumulated other comprehensive income.

Presentation of Derivatives
The fair value of derivatives is recognized as current or long-term assets and liabilities depending on the timing of settlements and resulting cash flows. Derivatives under master netting agreements and collateral positions are presented on a gross basis. Cash flows associated with the settlement of all derivatives are presented in operating activities in the consolidated statements of cash flows.

Income Taxes
The Corporation and its taxable subsidiaries follow the asset and liability method of accounting for income taxes. Current income tax expense or recovery is recognized for the estimated income taxes payable or receivable in the current year.

Deferred income tax assets and liabilities are recognized for temporary differences between the tax and accounting basis of assets and liabilities, as well as for the benefit of losses available to be carried forward to future years for tax purposes that are "more likely than not" to be realized. They are measured using enacted income tax rates and laws in effect when the temporary differences are expected to be recovered or settled. The effect of a change in income tax rates on deferred income tax assets and liabilities is recognized in earnings in the period when the change occurs. Valuation allowances are recognized when it is "more likely than not" that all of, or a portion of, a deferred income tax asset will not be realized.

Customer rates at ITC, UNS Energy, Central Hudson and Maritime Electric reflect current and deferred income tax. Customer rates at FortisAlberta reflect current income tax. Customer rates at FortisBC Energy, FortisBC Electric, Newfoundland Power and FortisOntario reflect current income tax and, for certain regulatory balances, deferred income tax. Caribbean Utilities, FortisTCI and Fortis Belize are not subject to income tax.

Differences between the income tax expense or recovery recognized under U.S. GAAP and reflected in current customer rates, which is expected to be recovered from, or refunded to, customers in future rates, are recognized as regulatory assets or liabilities (Note 8).
Fortis does not recognize deferred income taxes on temporary differences related to investments in foreign subsidiaries where it intends to indefinitely reinvest earnings. The difference between the carrying values of these foreign investments and their tax bases, resulting from unrepatriated earnings and currency translation adjustments, is approximately $8.1 billion as at December 31, 2024 (2023 - $6.3 billion). If such earnings are repatriated, the Corporation may be subject to income taxes and foreign withholding taxes. The determination of the amount of unrecognized deferred income tax liabilities on such amounts is impractical.

Tax benefits associated with actual or expected income tax positions are recognized when the "more likely than not" recognition threshold is met. The tax benefits are measured at the largest amount of benefit that is greater than 50% likely to be realized upon settlement.

Income tax interest and penalties are recognized as income tax expense when incurred.

Asset Retirement Obligations
The Corporation's subsidiaries have asset retirement obligations ("AROs") associated with certain generation, transmission, distribution and interconnection assets, including land and environmental remediation and/or asset removal. These assets and related licences, permits, rights-of-way and agreements are reasonably expected to effectively exist and operate in perpetuity due to their nature. Consequently, where the final date and cost of remediation and/or removal of the noted assets cannot be reasonably determined, AROs have not been recognized.

Otherwise, AROs are recognized at fair value in the period incurred as an increase in PPE and long-term other liabilities (Note 16) if a reasonable estimate of fair value can be determined. Fair value is estimated as the present value of expected future cash outlays, discounted at a credit-adjusted risk-free interest rate. The increase in the liability due to the passage of time is recognized through accretion and the capitalized cost is depreciated over the useful life of the asset. Accretion and depreciation expense are deferred as a regulatory asset or liability based on regulatory recovery of these costs. Actual settlement costs are recognized as a reduction in the accrued liability.

Contingencies
Fortis and its subsidiaries are subject to various legal proceedings and claims that arise in the normal course of business. Management makes judgments regarding the future outcome of contingent events and recognizes a loss based on its best estimate when it is determined that such loss, or range of loss, is probable and can be reasonably estimated. Legal fees are expensed as incurred. When a loss is recoverable in future rates, a regulatory asset is also recognized.

Management regularly reviews current information to determine whether recognized provisions should be adjusted and new provisions are required. However, estimating probable losses requires considerable judgment about potential actions by third parties and matters are often resolved over long periods of time. Actual outcomes may differ materially from the amounts recognized.

Use of Accounting Estimates
The preparation of these consolidated financial statements in accordance with U.S. GAAP requires management to make estimates and judgments, including those arising from matters dependent upon the finalization of regulatory proceedings, that affect the reported amounts of assets, liabilities, revenues, expenses, gains and losses. Management evaluates these estimates on an ongoing basis based upon historical experience, current conditions, and assumptions believed to be reasonable at the time they are made, with any adjustments being recognized in the period they become known. Actual results may differ significantly from these estimates.

New Accounting Policies
Segment Reporting: The Corporation adopted ASU No. 2023-07, Improvements to Reportable Segment Disclosures, for the year ended December 31, 2024 and will adopt it for interim periods beginning in 2025. This update requires disclosure of incremental segment information, including significant segment expenses and other items that are included in segment profit or loss. This adoption of this standard did not materially impact Fortis' disclosures.

Future Accounting Pronouncements
The Corporation considers the applicability and impact of all Accounting Standards Updates ("ASUs") issued by the Financial Accounting Standards Board. Any ASUs not included in these consolidated financial statements were assessed and determined to be either not applicable to the Corporation or are not expected to have a material impact on the consolidated financial statements.

Income Taxes: ASU No. 2023-09, Improvements to Income Tax Disclosures, is effective for Fortis on January 1, 2025 on a prospective basis, with retrospective application and early adoption permitted. The ASU requires additional disclosure of income tax information by jurisdiction to reflect an entity's exposure to potential changes in tax legislation, and associated risks and opportunities. Fortis does not expect the ASU to materially impact its disclosures.

Expense Disaggregation: ASU No. 2024-03, Disaggregation of Income Statement Expenses, is effective for Fortis on January 1, 2027 for annual periods and on January 1, 2028 for interim periods, on a prospective basis, with retrospective application and early adoption permitted. The ASU requires detailed disclosure of certain expense categories included on the consolidated statements of earnings, including energy supply costs, operating expenses, and depreciation and amortization expense. Fortis is assessing the impact on its disclos

Segmented Information 12 Months Ended
Dec. 31, 2024
Segment Reporting [Abstract] Segmented Information
SEGMENTED INFORMATIONFortis periodically provides short-term financing to subsidiaries to support capital expenditures and seasonal working capital requirements, the impacts of which are eliminated on consolidation. As at December 31, 2024 and 2023, there were no inter-segment loans outstanding. Interest charged on inter-segment loans was not material in 2024 and 2023
Fortis' CEO is considered the chief operating decision maker ("CODM") for purposes of reviewing segment performance. Fortis segments its business based on regulatory jurisdiction and service territory, as well as the information used by the CODM in deciding how to allocate resources. Segment performance is evaluated principally on net earnings attributable to common equity shareholders, and this measure is used consistently in the evaluation of actual segment performance as well as in the Corporation's business plan and forecasting processes.

Related-Party and Inter-Company Transactions
Related-party transactions are in the normal course of operations and are measured at the amount of consideration agreed to by the related parties. There were no material related-party transactions in 2024 or 2023.

As of December 31, 2024, accounts receivable included $18 million due from Belize Electricity (December 31, 2023 - $8 million).

Revenue from Contract with Customer [Abstract] Revenue

REVENUEOther revenue primarily includes gains or losses on energy contract derivatives, as well as regulatory deferrals at FortisBC Energy and FortisBC Electric including cost recovery variances from forecast

The following table presents the disaggregation of the Corporation's revenue on the consolidated statements of earnings by geography and substantially autonomous utility operations:

(4 millions)	2024	2023
Electric and gas revenue		
United States		
ITC	2,205	2,098
UNS Energy	2,731	2,707
Central Hudson	1,366	1,320
Canada		
FortisBC Energy	1,538	1,766
FortisAlberta	770	699
FortisBC Electric	481	460
Newfoundland Power	770	759
Maritime Electric	277	250
FortisOntario	235	217
Caribbean		
Caribbean Utilities	402	386
FortisTCI	118	108
Total electric and gas revenue	10,893	10,789
Other services revenue	350	374
Revenue from contracts with customers	11,243	11,163
Alternative revenue	169	150
Other revenue	96	204
Total revenue	11,508	11,517

Revenue from Contracts with Customers

Electric and gas revenue includes revenue from the sale and/or delivery of electricity and gas, transmission revenue, and wholesale electric revenue, all based on regulator-approved tariff rates including the flow through of commodity costs.

Other services revenue includes management fees at UNS Energy for the operation of Springerville Units 3 and 4 and revenue from other services that reflect the ordinary business activities of Fortis' utilities. Other services revenue for 2023 also includes revenue from storage optimization activities at Aitken Creek through the date of disposition (Note 21).

Alternative Revenue

Alternative revenue programs allow utilities to adjust future rates in response to past activities or completed events if certain criteria are met. Alternative revenue is recognized on an accrual basis with a corresponding regulatory asset or liability until the revenue is settled. Upon settlement, revenue is not recognized as revenue from contracts with customers but rather as settlement of the regulatory asset or liability. The significant alternative revenue programs of Fortis' utilities are summarized as follows:

ITC's formula rates include an annual true-up mechanism that compares actual revenue requirements to billed revenue, and any under- or over-collections are accrued as a regulatory asset or liability and reflected in future rates within a two year period (Note 8). The formula rates do not require annual regulatory approvals, although inputs remain subject to legal challenge.

UNS Energy's lost fixed-cost recovery mechanism ("LFCR") surcharge recovers lost fixed costs, as measured by a reduction in non-fuel revenue, associated with energy efficiency savings and distributed generation. To recover the LFCR regulatory asset, UNS Energy is required to file an annual LFCR adjustment request with the ACC for the LFCR revenue recognized in the prior year. The recovery is subject to a year-over-year cap of 2% of total retail revenue.

FortisBC Energy and FortisBC Electric have an earnings sharing mechanism that provides for a 50/50 sharing of variances from the allowed ROE. Additionally, variances between forecast and actual customer use rates and industrial and other customer revenue are captured in a revenue stabilization account and a flow-through deferral account, respectively, to be refunded to, or received from, customers in rates within two years.

Other Revenue

Name:us-gaap_RevenueFromContractWithCustomerAbstract Namespace Prefix:us-gaap_ Data Type:xbrli:stringItemType Balance Type:na Period Type:duration

- Definition

The entire disclosure of revenue from contract with customer to transfer good or service and to transfer nonfinancial asset. Includes, but is not limited to, disaggregation of revenue, credit loss recognized from contract with customer, judgment and change in judgment related to contract with customer, and asset recognized from cost incurred to obtain or fulfill contract with customer. Excludes insurance and lease contracts.

Long-term regulatory liabilities	3,696	3,381

[1] Deferred Energy Management Costs: Certain regulated subsidiaries provide energy management services to facilitate customer energy efficiency programs where the related expenditures have been deferred as a regulatory asset and are being amortized, and recovered from customers through rates, on a straight-line basis over periods ranging from to 10 years **one**

[2] Rate Stabilization and Related Accounts: Rate stabilization accounts mitigate the earnings volatility otherwise caused by variability in the cost of fuel, purchased power and natural gas above or below a forecast or predetermined level, and by weather-driven volume variability. At certain utilities, revenue decoupling mechanisms minimize the earnings impact of reduced energy consumption as energy efficiency programs are implemented. Resultant deferrals are recovered from, or refunded to, customers in future rates as approved by the respective regulators.

Related accounts include the annual true-up mechanism at ITC (Note 5).

[3] Deferred Lease Costs: Deferred lease costs at FortisBC Electric primarily relate to the Brilliant Power Purchase Agreement ("BPPA") (Note 15). The depreciation of the asset under finance lease and interest expense on the finance lease obligation are not being fully recovered in current customer rates since these rates only reflect the cash payments required under the BPPA. The annual differences are being deferred as a regulatory asset, which is expected to be recovered from customers in future rates over the term of the lease, which expires in 2056.

[4] Deferred Restoration Costs: Incremental costs incurred at Central Hudson and Maritime Electric associated with restoration activities due to significant weather events. Incremental costs incurred in excess of that collected in customer rates at Central Hudson are recovered through rate stabilization accounts. The form and recovery period for Maritime Electric will be determined by the regulator.

[5] Generation Early Retirement Costs: Includes costs at TEP associated with the retirement of the Navajo Generating Station ("Navajo"), Sundt Generating Facility Units 1 and 2, and the San Juan Generating Station ("San Juan"), as approved for recovery by its regulator.

[6] Renewable Natural Gas Account: Reflects the variance between costs incurred to procure consumable biomethane gas and the related revenue recovered in customer rates. The difference is generally refunded or recovered from customers within one year.

[7] Other Regulatory Assets and Liabilities: Comprised of regulatory assets and liabilities individually less than $50 million.

[8] Renewable Energy Surcharge: Under the ACC's Renewable Energy Standard ("RES"), UNS Energy is required to increase its use of renewable energy each year until it represents at least 15% of its total annual retail energy requirements by 2025. The cost of carrying out the plan is recovered from retail customers through a RES surcharge. Any RES surcharge collections above or below the costs incurred to implement the plans are deferred as a regulatory liability or asset.

The ACC measures RES compliance through Renewable Energy Credits ("RECs"). Each REC represents one kilowatt-hour generated from renewable resources. When UNS Energy purchases renewable energy, the premium paid above the market cost of conventional power equals the REC recoverable through the RES surcharge. When RECs are purchased, UNS Energy records their cost as long-term other assets (Note 9) with a corresponding regulatory liability to reflect the obligation to use the RECs for future RES compliance. When RECs are utilized for RES compliance, energy supply costs and revenue are recognized in an equal amount.

[9] Energy Efficiency Liability: The energy efficiency liability primarily relates to Central Hudson's Energy Efficiency Program, established to fund environmental policies associated with energy conservation programs as approved by its regulator.

[2] Electric and Gas Moderator Account: As part of Central Hudson's general rate applications, certain regulatory assets and liabilities were offset and included in the electric and gas moderator account, which will be used for future customer rate moderation.

[3] AESO Charges Deferral: Relates to differences in revenue collected and amounts incurred for transmission-related items at FortisAlberta that are expected to be collected or refunded in customer rates.
Regulatory assets not earning a return: (i) totalled $1,908 million and $1,995 million as at December 31, 2024 and 2023, respectively; (ii) are primarily related to deferred income taxes and employee future benefits; and (iii) generally do not represent a past cash outlay as they are offset by related liabilities that, likewise, do not incur a carrying cost for rate-making purposes. Recovery periods vary or are yet to be determined by the respective regulators.

[1] Includes investments in Belize Electricity and Waterkinkeryap Power

ITC, UNS Energy and Central Hudson provide additional post-employment benefits through SERPs and deferred compensation plans for directors and officers. The assets held to support these plans are reported separately from the related liabilities (Note 16). Most plan assets are held in trust and funded mainly through life insurance policies and mutual funds. Assets in mutual and money market funds are recorded at fair value on a recurring basis (Note 26).

Assets under construction	2,581	—	2,581	
Land	435	—	435	
	58,323	(14,938)	43,385	

Electric distribution assets are those used to distribute electricity at lower voltages (generally below 69 kilovolts ("kV")). These assets include poles, towers and fixtures, low-voltage wires, transformers, overhead and underground conductors, street lighting, meters, metering equipment and other related equipment. Gas distribution assets are those used to transport natural gas at low pressures (generally below 2,070 kilopascals ("kPa")). These assets include distribution stations, telemetry, distribution pipe for mains and services, meter sets and other related equipment.

Electric transmission assets are those used to transmit electricity at higher voltages (generally at 69 kV and higher). These assets include poles, wires, switching equipment, transformers, support structures and other related equipment. Gas transmission assets are those used to transport natural gas at higher pressures (generally at 2,070 kPa and higher). These assets include transmission stations, telemetry, transmission pipe and other related equipment.

Generation assets are those used to generate electricity. These assets include hydroelectric and thermal generation stations, gas and combustion turbines, coal-fired generating stations, dams, reservoirs, photovoltaic systems, wind resources and other related equipment.

Other assets include buildings, equipment, vehicles, inventory, and information technology assets.

As at December 31, 2024, assets under construction largely reflect ongoing transmission projects at ITC and UNS Energy, as well as the Roadrunner Reserve battery storage projects at UNS Energy and the Eagle Mountain Pipeline project at FortisBC Energy.

The cost of PPE under finance lease as at December 31, 2024 was $324 million (2023 - $318 million) and related accumulated depreciation was $119 million (2023 - $113 million) (Note 15).

Jointly Owned Facilities

UNS Energy and ITC hold undivided interests in jointly owned generating facilities and transmission systems, are entitled to their pro rata share of the PPE, and are proportionately liable for the associated operating costs and liabilities. As at December 31, 2024, interests in jointly owned facilities consisted of the following:

	Ownership	Accumulated Depreciation	Net Book Value	($ millions, except as indicated)	(%)	Cost
Transmission Facilities						
Various	1,704	(489)	1,215			
Springerville Common Facilities	86.0	580	(344)	236		
Springerville Coal Handling Facilities	83.0	299	(154)	145		
Four Corners Units 4 and 5 ["Four Corners"]	7.0	311	(155)	156		
Gila River Common Facilities	50.0	131	(52)	79		
Luna Energy Facility ("Luna")	33.3	101	3	104		
		3,126	(1,191)	1,935

The weighted average interest rate was approximately 6.1% (2023 - 6.9%).
The weighted average interest rate was approximately 4.6% (2023 - 6.2%). The current portion was $1,860 million (2023 - $1,160 million).

Credit facilities are syndicated primarily with large banks in Canada and the U.S., with no one bank holding more than approximately 20% of the Corporation's total revolving credit facilities. Approximately $5.8 billion of the total credit facilities are committed with maturities ranging from 2025 through 2029.

In April 2024, FortisBC Energy increased its operating credit facility from $700 million to $900 million and extended the maturity to July 2028. In May 2024, FortisBC Electric increased its operating credit facility from $150 million to $200 million and extended the maturity to April 2028.

In May 2024, the Corporation extended the maturity on its unsecured US$500 million non-revolving term credit facility to May 2025. Half of the term credit facility was repaid in the third quarter of 2024 and the remaining US$250 million has been fully utilized as at December 31, 2024. The facility is repayable at any time without penalty. In June 2024, the Corporation amended its $1.3 billion revolving term committed credit facility to extend the maturity to July 2029.

In August 2024, Newfoundland Power increased its operating credit facility from $100 million to $130 million and extended the maturity to August 2029.
Consolidated credit facilities of approximately $6.3 billion as at December 31, 2024 are itemized below.

Leases 12 Months Ended

Dec. 31, 2024
Leases [Abstract] Leases LEASES
The Corporation and its subsidiaries lease office facilities, utility equipment, land, and communication tower space with remaining terms of up to 23 years, with optional renewal terms. Certain lease agreements include rental payments adjusted periodically for inflation or require the payment of real estate taxes, insurance, maintenance, or other operating expenses associated with the leased premises.

The Corporation's subsidiaries also have finance leases related to generating facilities with remaining terms of up to 31 years.

Leases were presented on the consolidated balance sheets as follows:

($ millions)	2024	2023
Operating leases		
Other assets	64	51
Accounts payable and other current liabilities	(17)	(12)
Other liabilities	(47)	(39)
Finance leases		
[1] Regulatory assets	142	137
PPE, net	205	205
Accounts payable and other current liabilities	(4)	(3)
Finance leases	(343)	(339)

[1] FortisBC Electric has a finance lease for the BPPA (Note 8), which relates to the sale of the output of the Brilliant hydroelectric plant, and for the Brilliant Terminal Station ("BTS"), which relates to the use of the station. Both agreements expire in 2056. In exchange for the specified take-or-pay amounts of power, the BPPA requires semi-annual payments based on a return on capital, which includes the original and ongoing capital cost, and related variable power purchase costs. The BTS requires semi-annual payments based on a charge related to the recovery of the capital cost of the BTS, and related variable operating costs.

The components of lease expense were as follows:

($ millions)	2024	2023
Operating lease cost	19	12
Finance lease cost:		
Amortization	2	3
Interest	33	33
Variable lease cost	21	23
Total lease cost	75	71

As at December 31, 2024, the present value of minimum lease payments was as follows:

($ millions)	OperatingLeases	FinanceLeases
2025	18	37
2026	15	37
2027	12	37
2028	6	37

[1] Environmental regulations require Central Hudson to investigate sites at which it or its predecessors once owned and/or operated manufactured gas plants and, if necessary, remediate those sites. Costs are accrued based on the amounts that can be reasonably estimated. Central Hudson has notified its insurers that it intends to seek reimbursement where insurance coverage exists. Differences between actual costs and the associated rate allowances are deferred as a regulatory asset for future recovery (Note 8).

[2] TEP pays ongoing reclamation costs related to two coal mines that supply generating facilities in which it has an ownership interest but does not operate. Costs are deferred as a regulatory asset and recovered from customers as permitted by the regulator. TEP's share of the reclamation costs is estimated to be $49 million. The present value of the estimated future liability is included in other liabilities.

[3] FortisAlberta has an agreement with a retail energy provider to act as its default retailer to eligible customers under the regulated retail option. As part of this agreement FortisAlberta received an upfront payment which is being amortized to revenue over the eight year agreement.

(1) Holders are entitled to receive a fixed or floating cumulative quarterly cash dividend as and when declared by the Board of Directors of the Corporation, payable in equal installments on the first day of each quarter.

(2) On or after the specified redemption dates, the Corporation has the option to redeem for cash the outstanding first preference shares, in whole or in part, at the specified per share redemption value plus all accrued and unpaid dividends up to but excluding the dates fixed for redemption, and in the case of the first preference shares that reset, on every fifth anniversary date thereafter.

(3) On the redemption and/or conversion option date, and on each five year anniversary thereafter, the reset annual dividend per share will be determined by multiplying $25.00 per share by the annual fixed dividend rate, which is the sum of the five year Government of Canada Bond Yield on the applicable reset date, plus the applicable reset dividend yield.

(4) On each conversion option date, the holders have the option, subject to certain conditions, to convert any or all of their shares into an equal number of Cumulative Redeemable first preference shares of a specified series.

(5) The floating quarterly dividend rate will be reset every quarter based on the then current three-month Government of Canada Treasury Bill rate plus the applicable reset dividend yield.

On the liquidation, dissolution or winding-up of Fortis, holders of common shares are entitled to participate ratably in any distribution of assets of Fortis, subject to the rights of holders of first and second preference shares, and any other class of shares of the Corporation entitled to receive the assets of the Corporation on such a distribution, in priority to or ratably with the holders of the common shares.

Stock-Based Compensation Plans12 Months Ended

Dec. 31, 2024

Share-Based Payment Arrangement [Abstract] Stock-Based Compensation PlansSTOCK-BASED COMPENSATION PLANS

Stock Options

Beginning January 1, 2022, the Corporation no longer grants stock options. Existing options to purchase common shares of the Corporation are exercisable for a period of 10 years from the grant date, expire no later than three years after the death or retirement of the optionee, and vest evenly over a four year period on each anniversary of the grant date. Compensation expense related to stock options was measured at the grant date using the Black-Scholes fair value option-pricing model with each grant amortized to compensation expense evenly over the four year vesting period, with the offsetting entry to additional paid-in capital. Fortis satisfies stock option exercises by issuing common shares from treasury. Upon exercise, proceeds are credited to capital stock at the option prices and the fair value of the options, as previously recognized, is reclassified from additional paid-in capital to capital stock.

As at December 31, 2024, the Corporation had 1.5 million stock options outstanding (2023 - 1.9 million) with a weighted average exercise price of $48.96 (2023 - $48.12). There were 1.4 million options vested as of December 31, 2024 (2023 - 1.6 million) with a weighted average exercise price of $48.87 (2023 - $47.19).

In 2024, 0.4 million stock options were exercised (2023 - 0.3 million) for cash proceeds of $15 million (2023 - $13 million) and an intrinsic value realized by option holders of $5 million (2023 - $6 million).

DSUs

Directors of the Corporation who are not officers are eligible for grants of DSUs representing the equity portion of their annual compensation. Directors can also elect to receive credit for their quarterly cash retainer in a notional account of DSUs in lieu of cash. The Corporation may also determine that special circumstances justify the grant of additional DSUs to a director.

Beginning in 2024, in any year in which a director satisfies their share ownership target, the director may elect to receive a portion of their equity compensation in cash or common shares, with the remaining portion to be granted as DSUs. Common share elections are satisfied quarterly through purchases on the Toronto Stock Exchange or the New York Stock Exchange.

Each DSU vests at the grant date, has an underlying value equivalent to that of one common share of the Corporation, is entitled to commensurate notional common share dividends, and is settled in cash.
The following table summarizes information related to DSUs.

	2024	2023
Number of units (thousands)		
Beginning of year	241	224
Granted	29	40
Notional dividends reinvested	10	10
Paid out	(39)	(33)
End of year	241	241

The accrued liability has been recognized at the respective December 31st VWAP and included in other liabilities (Note 16). The accrued liability, compensation expense and cash payout were not material for 2024 or 2023.

PSUs

Senior management of the Corporation and its subsidiaries, and all ITC employees, are eligible for grants of PSUs representing a component of their long-term compensation.

Each PSU vests over a three year period, has an underlying value equivalent to that of one common share of the Corporation, and is entitled to commensurate notional common share dividends. PSUs are generally settled in cash with cash payouts calculated at the end of the three year vesting period as the product of: (i) the number of units vested; (ii) the VWAP of the Corporation's common shares for the trading days prior to the vesting date; and (iii) a payout percentage that may range from 0% to 200%. Effective with the 2024 grant, PSUs granted under the Corporation's Omnibus Equity Plan can be settled in cash or common shares of the Corporation. PSUs settled through common shares will be satisfied by issuing common shares from treasury.**five**

The payout percentage is based on the Corporation's performance over the three year vesting period, mainly determined by: (i) the Corporation's total shareholder return as compared to a predefined peer group of companies; (ii) the Corporation's cumulative EPS, or for subsidiaries the company's cumulative net income, as compared to the target established at the time of the grant; and (iii) beginning with the 2022 PSU grant, the Corporation's Scope 1 carbon reduction performance as compared to target established at the time of the grant. In addition, the 2023 PSU grant included a payout modifier based on the achievement of diversity, equity and inclusion goals.

The following table summarizes information related to PSUs.

	2024	2023
Number of units (thousands)		
Beginning of year	1,942	1,790
Granted	788	722
Notional dividends reinvested	78	66
Paid out	(609)	(606)
Cancelled/forfeited	(28)	(30)
End of year	2,171	1,942
Additional information ($ millions)		
Compensation expense recognized	53	45
Compensation expense unrecognized [1]	34	28
Cash payout	44	46
Accrued liability as at December 31st [2]	105	90
Aggregate intrinsic value as at December 31st [3]	139	110

[1] - Relates to unvested PSUs and is expected to be recognized over a weighted average period of two years
[2] - Recognized at the respective December 31st VWAP and included in accounts payable and other current liabilities and in other liabilities (Notes 13 and 16)
[3] - Relates to outstanding PSUs and reflects a weighted average contractual life of one year

RSUs

Senior management of the Corporation and its subsidiaries, and all ITC employees, are eligible for grants of RSUs representing a component of their long-term compensation.

Each RSU vests over a three year period, has an underlying value equivalent to that of one common share of the Corporation, is entitled to commensurate notional common share dividends, and is settled in cash or common shares of the Corporation. Beginning with the 2024 grant, RSUs settled through common shares will be satisfied by issuing common shares from treasury.

The following table summarizes information related to RSUs.

	2024	2023
Number of units (thousands)		
Beginning of year	1,079	977
Granted	464	416
Notional dividends reinvested	38	35
Paid out	(357)	(323)
Cancelled/forfeited	(23)	(26)
End of year	1,201	1,079
Additional information ($ millions)		
Compensation expense recognized	29	21
Compensation expense unrecognized [1]	21	17
Cash payout	19	17
Accrued liability as at December 31st [2]	54	42
Aggregate intrinsic value as at December 31st [3]	75	59

[1] - Relates to unvested RSUs and is expected to be recognized over a weighted average period of two years
[2] - Recognized at the respective December 31st VWAP and included in accounts payable and other current liabilities and in long-term other liabilities (Notes 13 and 16)
[3] - Relates to outstanding RSUs and reflects a weighted average contractual life of one year

Share settlements were not material for 2024 and 2023.

- Definition

The entire disclosure for share-based payment arrangement.

Disposition 12 Months Ended

Dec. 31, 2024

Discontinued Operations and Disposal Groups [Abstract] DispositionDISPOSITION

On November 1, 2023, FortisBC Holdings Inc. ("FHI") completed the sale of its Aitken Creek business to a subsidiary of Enbridge Inc. for approximately $470 million including working capital and closing adjustments, following the satisfaction of all regulatory requirements. The transaction reflected a March 31, 2023 effective date. A gain on disposition of $23 million ($10 million after tax), net of transaction costs, was recognized in the Corporate and Other segment.

For the seven-month period between the March 31, 2023 effective date and the November 1, 2023 disposition date, Aitken Creek recognized net earnings, excluding the gain as noted above, of $5 million.

From January 1, 2023 through to the November 1, 2023 disposition date, excluding the gain, Aitken Creek recognized net earnings of $20 million.

Employee Future Benefits 12 Months Ended

Dec. 31, 2024

Retirement Benefits [Abstract] Employee Future BenefitsEMPLOYEE FUTURE BENEFITS

For DBP and OPEB plans, the benefit obligation and fair value of plan assets are measured as at December 31.

For the Corporation's Canadian and Caribbean subsidiaries, actuarial valuations to determine funding contributions for pension plans are required at least every three years. The most recent valuations were as of December 31, 2021 for certain FortisBC Energy and FortisBC Electric plans; December 31, 2022 for the remaining FortisBC Energy and FortisBC Electric plans; Newfoundland Power; FortisAlberta and FortisOntario; December 31, 2023 for the Corporation; and December 31, 2024 for Caribbean Utilities.

ITC, UNS Energy and Central Hudson perform annual actuarial valuations as their funding requirements are based on maintaining minimum annual targets, all of which have been met.

The Corporation's investment policy is to ensure that the DBP and OPEB plan assets, together with expected contributions, are invested in a prudent and cost-effective manner to optimally meet the liabilities of the plans. The investment objective is to maximize returns in order to manage the funded status of the plans and minimize the Corporation's cost over the long term, as measured by both cash contributions and recognized expense.

Allocation of Plan Assets 2024 Target Allocation (weighted average %) 2024 2023

Equities 46 47 46 Fixed income 46 45 45 Real estate 7 7 8 Cash and other 1 1 1 100 100 100

Fair Value of Plan Assets

($ millions)

Level 2 [1]

Level 3 [1] Total 2024 — Equities 773 1,168 — 1,941 Fixed income 268 1,561 — 1,829 Real estate — — 300 300 Cash and other 23 26 — 49 1,064 2,755 300 4,119 — 2023 Equities 666 1,059 — 1,725 Fixed income 232 1,447 — 1,679 Real estate — — 291 291 Cash and other 34 14 — 48 932 2,520 291 3,743

[1] See Note 26 for a description of the fair value hierarchy.

The following table reconciles the changes in the fair value of plan assets that have been measured using Level 3 inputs:

($ millions) 2024 2023 Balance, beginning of year 291 282 Return on plan assets 5 (9)

Foreign currency translation 3 (1) Purchases, sales and settlements 1 19 Balance, end of year 300 291

Funded Status DBP Plans OPEB Plans ($ millions) 2024 2023 2024 2023

Change in benefit obligation [1] — Balance, beginning of year 3,347 3,063 596 582 Service costs 74 62 25 22 Employee contributions 17 17 4 3 Interest costs 161 159 29 30 Benefits paid (181) (169) (35) (31) Actuarial (gains) losses (115) 255 (49) (1) Past service credits/plan amendments (3) — — — Foreign currency translation 140 (40) 33 (9)

Balance, end of year [2] 3,440 3,347 603 596 — Change in value of plan assets — Balance, beginning of year 3,313 3,079 430 389 Actual return on plan assets 249 373 50 61 Benefits paid (174) (162) (31) (26) Employee contributions 17 17 4 3 Employer contributions 57 46 14 13 Foreign currency translation 151 (40) 39 (10) Balance, end of year 3,613 3,313 506 430 — Funded status 173 (34) (97) (166) — Balance sheet presentation — Other assets (Note 9) 395 236 156 119 Other current liabilities (Note 13) (16) (15) (13) (13) Other liabilities (Note 16) (206) (255) (240) (272) 173 (34) (97) (166)

[1] Amounts reflect projected benefit obligation for DBP plans and accumulated benefit obligation for OPEB plans.

[2] The accumulated benefit obligation, which excludes assumptions about future salary levels, for DBP plans was $3,144 million as at December 31, 2024 (2023 - $2,983 million).

For those DBP plans for which the projected benefit obligation exceeded the fair value of plan assets as at December 31, 2024, the obligation was $1,668 million compared to plan assets of $1,460 million (2023 - $1,940 million and $1,681 million, respectively).

For those DBP plans for which the accumulated benefit obligation exceeded the fair value of plan assets as at December 31, 2024, the obligation was $195 million compared to plan assets of $62 million (2023 - $268 million and $130 million, respectively).

For those OPEB plans for which the accumulated benefit obligation exceeded the fair value of plan assets as at December 31, 2024, the obligation was $296 million compared to plan assets of $44 million (2023 - $320 million and $36 million, respectively).

Net Benefit Cost [1] DBP Plans OPEB Plans ($ millions) 2024 2023 2024 2023 Service costs 74 62 25 22 Interest costs 161 159 29 30 Expected return on plan assets (221) (202) (26) (22) Amortization of actuarial gains (1) (9) (17) (19) Amortization of past service credits/plan amendments (1) (1) (1) (1) Regulatory adjustments (1) 12 2 5 11 21 12 15

[1] The non-service benefit cost components of net periodic benefit cost are included in other income, net in the consolidated statements of earnings.

The following table summarizes the accumulated amounts of net benefit cost that have not yet been recognized in earnings or comprehensive income and shows their classification on the consolidated balance sheets.

DBP Plans OPEB Plans ($ millions) 2024 2023 2024 2023

Unamortized net actuarial losses (gains) 11 12 (11) (10)

Unamortized past service costs 1 1 6 6 Income tax (recovery) expense (3) (3) 1 1 — Accumulated other comprehensive income 9 10 (4) (3) — Net actuarial losses (gains) 46 189 (283) (215) Past service credits (1) (2) (2) (3) Other regulatory deferrals 12 (11) 4 2 57 176 (281) (216) — Regulatory assets (Note 8) 235 254 — — Regulatory liabilities (Note 8) (178) (78) (281) (216) Net regulatory assets (liabilities) 57 176 (281) (216)

The following table summarizes the components of net benefit cost recognized in comprehensive income or as regulatory (liabilities) assets:

DBP Plans OPEB Plans ($ millions) 2024 2023 2024 2023 Current year net actuarial (gains) losses (1) 4 (1) 1 Past service credits/plan amendments — — — (1) Foreign currency translation — (1) — — Income tax recovery — (1) — — Total recognized in comprehensive income (1) 2 (1) — — Current year net actuarial (gains) losses (142) 78 (72) (40) Amortization of actuarial gains 1 2 16 18 Amortization of past service credits 1 2 1 1 Foreign currency translation (2) (1) (12) 2 Regulatory adjustments 23 (5) 2 (5) Total recognized in regulatory (liabilities) assets (119) 83 (65) (24)

Significant Assumptions DBP Plans OPEB Plans (weighted average %) 2024 2023

2024 2023

Discount rate as at December 31 [1] 5.25 4.84 5.43 4.94

Expected long-term rate of return on plan assets [2] 6.51 6.58 6.05 5.92 Rate of compensation increase 3.52 3.37 — —

Health care cost trend increase as at December 31 [3] — — 4.53 4.52

[1] The discount rate used during the year was 4.84% for DBP plans (2023 - 5.36%) and 4.96% for OPEB plans (2023 - 5.39%). ITC and UNS Energy use the split discount rate methodology for determining current service and interest costs. All other subsidiaries use the single discount rate approach.

[2] Developed by management using best estimates of expected returns, volatilities and correlations for each class of asset. Best estimates are based on historical performance, future expectations and periodic portfolio rebalancing among the diversified asset classes.

[3] The projected 2025 health care cost trend rate is 6.51% and is assumed to decrease over the next 10 years to the ultimate health care cost trend rate of 4.53% in 2034 and thereafter.

Expected Benefit Payments ($ millions) DBP Plans OPEB Plans 2025 $196 $33 2026

201 34 2027 206 34 2028 210 35 2029 218 36 2030-2034 1,155 203

During 2025, the Corporation expects to contribute $49 million for DBP plans and $12 million for OPEB plans.

In 2024, the Corporation expensed $58 million (2023 - $53 million) related to defined contribution pension plans.

Contributions in aid of construction	14	15	13

- Definition

The entire disclosure for supplemental cash flow activities, including cash, noncash, and part noncash transactions, for the period. Noncash is defined as information about all investing and financing activities of an enterprise during a period that affect recognized assets or liabilities but that do not result in cash receipts or cash payments in the period. "Part noncash" refers to that portion of the transaction not resulting in cash receipts or cash payments in the period.

Fair Value of Financial Instruments and Risk Management 12 Months Ended

Dec. 31, 2024

Fair Value Disclosures [Abstract] Fair Value of Financial Instruments and Risk Management FAIR VALUE OF FINANCIAL INSTRUMENTS AND RISK MANAGEMENT 2023 - $27.9 billion).

Derivatives

The Corporation generally limits the use of derivatives to those that qualify as accounting, economic or cash flow hedges, or those that are approved for regulatory recovery.

Derivatives are recorded at fair value, with certain exceptions, including those derivatives that qualify for the normal purchase and normal sale exception. Fair values reflect estimates based on current market information about the derivatives as at the balance sheet dates. The estimates cannot be determined with precision as they involve uncertainties and matters of judgment and, therefore, may not be relevant in predicting the Corporation's future consolidated earnings or cash flow.

Energy Contracts Subject to Regulatory Deferral

UNS Energy holds electricity power purchase contracts, customer supply contracts and gas swap contracts to reduce its exposure to energy price risk. Fair values are measured primarily under the market approach using independent third-party information, where possible. When published prices are not available, adjustments are applied based on historical price curve relationships, transmission costs and line losses.

Central Hudson holds swap contracts for electricity and natural gas to minimize price volatility by fixing the effective purchase price. Fair values are measured using forward pricing provided by independent third-party information.

FortisBC Energy holds gas supply contracts to fix the effective purchase price of natural gas. Fair values reflect the present value of future cash flows based on published market prices and forward natural gas curves.

Unrealized gains or losses associated with changes in the fair value of these energy contracts are deferred as a regulatory asset or liability for recovery from, or refund to, customers in future rates, as permitted by the regulators. As at December 31, 2024, unrealized losses of $175 million (2023 - $197 million) were recognized as regulatory assets and unrealized gains of $41 million (2023 - $37 million) were recognized as regulatory liabilities.

Energy Contracts Not Subject to Regulatory Deferral

UNS Energy holds wholesale trading contracts to fix power prices and realize potential margin, of which 10% of any realized gains is shared with customers through rate stabilization accounts. Fair values are measured using a market approach incorporating, where possible, independent third-party information.

Aitken Creek, which was sold on November 1, 2023 (Note 21), held gas swap contracts to manage exposure to changes in natural gas prices, capture natural gas price spreads, and manage the financial risk posed by physical transactions. Fair values were measured using forward pricing from published market sources.

Gains or losses associated with changes in the fair value of these energy contracts are recognized in revenue. In 2024, gains of $48 million (2023 - losses of $28 million) were recognized in revenue.

Total Return Swaps

The Corporation holds total return swaps to manage the cash flow risk associated with forecast future cash and/or share settlements of certain stock-based compensation obligations. The swaps have a combined notional amount of $134 million and terms up to three years expiring at varying dates through January 2027. Fair value is measured using an income valuation approach based on forward pricing curves. Unrealized gains and losses associated with changes in fair value are recognized in other income, net. In 2024, unrealized gains of $12 million (2023 - $nil) were recognized in other income, net.

Foreign Exchange Contracts

The Corporation holds U.S. dollar-denominated foreign exchange contracts to help mitigate exposure to foreign exchange rate volatility. The contracts expire at varying dates through September 2026 and have a combined notional amount of $608 million. Fair value was measured using independent third-party information. Unrealized gains and losses associated with changes in fair value are recognized in other income, net. In 2024, unrealized losses of $17 million (2023 - unrealized gains of $10 million) were recognized in other income, net.

Interest Rate Contracts

During 2024, ITC entered into and settled interest rate locks with a combined notional value of US$300 million. These contracts were used to manage interest rate risk associated with the issuance of US$400 million unsecured senior notes in May 2024. Realized losses of US$3 million were recognized in other comprehensive income, which will be reclassified to earnings as a component of interest expense over five years.

ITC also entered into 5-year interest rate swap contracts in 2024 with a combined notional value of US$135 million. The swaps will be used to manage interest rate risk associated with forecasted debt issuances. Fair value was measured using a discounted cash flow method based on secured overnight financing rates ("SOFR"). Unrealized gains and losses associated with the changes in fair value are recognized in other comprehensive income, and will be reclassified to earnings as a component of interest expense over the life of the debt. Unrealized gains of US$4 million were recorded in 2024.

In 2025, ITC entered into 5-year interest rate swap contracts with a notional value of US$95 million to manage interest rate risk associated with forecasted debt issuances, increasing the total notional amount of interest rate swaps outstanding to US$230 million.

During 2024, the Corporation entered into and settled interest rate locks with a combined notional value of $250 million. These contract were used to manage interest rate risk associated with the issuance of $500 million unsecured senior notes in September 2024. Realized losses of $2 million were recognized in other comprehensive income, which will be reclassified to earnings as a component of interest expense over seven years.

Cross-Currency Interest Rate Swaps

The Corporation holds cross-currency interest rate swaps, maturing in 2029, to effectively convert its $500 million, 4.43% unsecured senior notes to US$391 million, 4.34% debt. The Corporation has designated this notional U.S. debt as an effective hedge of its foreign net investments and unrealized gains and losses associated with exchange rate fluctuations on the notional U.S. debt are recognized in other comprehensive income, consistent with the translation adjustment related to the foreign net investments. Other changes in the fair value of the swaps are also recognized in other comprehensive income but are excluded from the assessment of hedge effectiveness. Fair value is measured using a discounted cash flow method based on SOFR. In 2024, unrealized losses of $29 million (2023 - unrealized gains of $15 million) were recorded in other comprehensive income.

Recurring Fair Value Measures

The following table presents derivative assets and liabilities that are accounted for at fair value on a recurring basis.

($ millions)	As at December 31, 2024			
	Level 1 [1]	Level 2 [1]	Level 3 [1]	Total
Assets				
Energy contracts subject to regulatory deferral [2][3]	—	63	—	63
Energy contracts not subject to regulatory deferral [2]	—	7	—	7
Total return swaps and interest rate contracts [2]	—	16	—	16
Other investments [4]	150	—	—	150
	150	86	—	236
Liabilities				
Energy contracts subject to regulatory deferral [3][5]	—	(197)	—	(197)
Energy contracts not subject to regulatory deferral [5]	—	(2)	—	(2)
Foreign exchange contracts and cross-currency interest rate swaps [5]	—	(45)	—	(45)
	—	(244)	—	(244)

($ millions)	As at December 31, 2023			
	Level 1 [1]	Level 2 [1]	Level 3 [1]	Total
Assets				
Energy contracts subject to regulatory deferral [2][3]	—	49	—	49
Energy contracts not subject to regulatory deferral [2]	—	6	—	6
Foreign exchange contracts [2]	—	5	—	5
Other investments [4]	145	—	—	145
	145	60	—	205
Liabilities				
Energy contracts subject to regulatory deferral [3][5]	—	(209)	—	(209)
Energy contracts not subject to regulatory deferral [5]	—	(3)	—	(3)
Total return and cross-currency interest rate swaps [5]	—	(6)	—	(6)
	—	(218)	—	(218)

[1] Under the hierarchy, fair value is determined using: (i) Level 1 - unadjusted quoted prices in active markets; (ii) Level 2 - other pricing inputs directly or indirectly observable in the marketplace; and (iii) Level 3 - unobservable inputs, used when observable inputs are not available. Classifications reflect the lowest level of input that is significant to the fair value measurement.

[2] Included in accounts receivable and other current assets or other assets

[3] Unrealized gains and losses arising from changes in fair value of these contracts are deferred as a regulatory asset or liability for recovery from, or refund to, customers in future rates as permitted by the regulators, with the exception of long-term wholesale trading contracts and certain gas swap contracts.

[4] UNS Energy holds investments in money market accounts, and ITC and Central Hudson hold investments in trust associated with supplemental retirement benefit plans for select employees, which include mutual funds and money market accounts. The fair value of these investments is included in cash and cash equivalents and other assets, with gains and losses recognized in other income, net

[5] Included in accounts payable and other current liabilities or other liabilities

Energy Contracts

The Corporation has elected gross presentation for its derivative contracts under master netting agreements and collateral positions, which apply only to its energy contracts. The following table presents the potential offset of counterparty netting.

($ millions)	Gross Amount Recognized In Balance Sheet	Counterparty Netting of Energy Contracts	Cash Collateral Posted/(Received)	Net Amount
As at December 31, 2024				
Derivative assets	70	(30)	15	55
Derivative liabilities	(199)	30	—	(169)
As at December 31, 2023				
Derivative assets	55	(24)	28	59
Derivative liabilities	(212)	24	(1)	(189)

Volume of Derivative Activity

As at December 31, 2024, the Corporation had various energy contracts that will settle on various dates through 2029. The volumes related to electricity and natural gas derivatives are outlined below.

	2024	2023
Energy contracts subject to regulatory deferral [1]		
Electricity swap contracts (GWh)	774	628
Electricity power purchase contracts (GWh)	430	588
Gas swap contracts (Bcf)	236	228
Gas supply contracts (Bcf)	105	124
Energy contracts not subject to regulatory deferral [1]		
Wholesale trading contracts (GWh)	1,499	1,310
Gas swap contracts (Bcf)	3	3

[1] GWh means gigawatt hours and Bcf means petajoules

Credit Risk

For cash equivalents, accounts receivable and other current assets, and long-term other receivables, credit risk is generally limited to the carrying value on the consolidated balance sheets. The Corporation's subsidiaries generally have a large and diversified customer base, which minimizes the concentration of credit risk. Policies in place to minimize credit risk include requiring customer deposits, prepayments and/or credit checks for certain customers, performing disconnections and/or using third-party collection agencies for overdue accounts.

ITC has a concentration of credit risk as approximately 70% of its revenue is derived from three customers. These customers have investment-grade credit ratings and credit risk is further managed by MISO by requiring a letter of credit or cash deposit equal to the credit exposure, which is determined by a credit-scoring model and other factors.

FortisAlberta has a concentration of credit risk as its distribution service billings are to a relatively small group of retailers. Credit risk is managed by obtaining from the retailers either a cash deposit, letter of credit, an investment-grade credit rating, or a financial guarantee from an entity with an investment-grade credit rating.

Central Hudson has seen an increase in accounts receivable since the suspension of collection efforts initially required in response to the COVID-19 pandemic. Central Hudson continues to contact customers regarding past-due balances and collection efforts continue to expand. Under its regulatory framework, Central Hudson can defer uncollectible write-offs above the amounts collected in customer rates for future recovery.

UNS Energy, Central Hudson, FortisBC Energy, and Fortis may be exposed to credit risk from non-performance by counterparties to derivative contracts. Credit risk is managed by net settling payments, when possible, and dealing only with counterparties that have investment-grade credit ratings. At UNS Energy, Central Hudson and FortisBC Energy, certain contractual arrangements require counterparties to post collateral.

The value of derivatives in net liability positions under contracts with credit risk-related contingent features that, if triggered, could require the posting of a like amount of collateral was $117 million as at December 31, 2024 (2023 - $117 million).

Hedge of Foreign Net Investments

The reporting currency of ITC, UNS Energy, Central Hudson, Caribbean Utilities, FortisTCI, Fortis Belize Limited and Belize Electricity is, or is pegged to, the U.S. dollar. The earnings and cash flow from, and net investments in, these entities are exposed to fluctuations in the U.S. dollar-to-Canadian dollar exchange rate. The Corporation has reduced this exposure through hedging.

As at December 31, 2024, US$2.2 billion (2023 - US$2.6 billion) of corporately issued U.S. dollar-denominated long-term debt has been designated as an effective hedge of net investments, leaving approximately US$12.6 billion (2023 - US$11.5 billion) unhedged. Exchange rate fluctuations associated with the hedged net investment in foreign subsidiaries and the debt serving as the hedge are recognized in accumulated other comprehensive income.

Financial Instruments Not Carried at Fair Value

Excluding long-term debt, the consolidated carrying value of the Corporation's remaining financial instruments approximates fair value, reflecting their short-term maturity, normal trade credit terms and/or nature. As at December 31, 2024, the carrying value of long-term debt, including the current portion, was $33.4 billion (2023 - $29.7 billion) compared to an estimated fair value of $31.3 billion (

Commitments and Contingencies12 Months Ended

Dec. 31, 2024

Commitments and Contingencies Disclosure [Abstract] Commitments and ContingenciesCOMMITMENTS AND CONTINGENCIES

As at December 31, 2024, unconditional minimum purchase obligations were as follows:

($ millions)	Total	Year 1	Year 2	Year 3	Year 4	Year 5	Thereafter
Gas and fuel purchase obligations [1]	6,299	763	571	520	465	393	3,587
Renewable PPAs [2]	2,628	139	166	162	162	172	1,827
Waneta Expansion capacity agreement [3]	2,362	56	56	56	56	61	2,068
Power purchase obligations [4]	1,335	302	217	131	124	122	439
ITC easement agreement [5]	370	14	14	14	14	14	300
TEP EPC agreements [6]	308	307	1	—	—	—	—
Debt collection agreement [7]	99	3	3	3	3	3	84
Renewable energy credit purchase agreements [8]	58	10	7	6	6	6	15
Other [9]	140	32	11	11	12	10	64
	13,599	1,634	1,048	926	866	782	8,343

[1] FortisBC Energy ($5,014 million): includes contracts of $2,792 million for the purchase of renewable natural gas expiring in 2045 and contracts of $2,222 million for the purchase of gas, renewable gas, gas transportation and storage services, expiring in 2062. FortisBC Energy's gas purchase obligations are based on gas commodity indices that vary with market prices and the obligations are based on index prices as at December 31, 2024. The renewable gas supply obligations disclosed reflect the contracted price per gigajoule between the Corporation and the suppliers.

UNS Energy ($1,160 million): includes long-term contracts for the purchase and delivery of coal to fuel generating facilities, the purchase of gas transportation services to meet load requirements, the purchase of transmission services for purchased power, as well as natural gas commodity agreements based on projected market prices as of December 31, 2024. Amounts paid for coal depend on actual quantities purchased and delivered. Certain contracts have price adjustment clauses that will affect future costs. These contracts have various expiry dates through 2048.

[2] TEP and UNS Electric are party to renewable PPAs, with expiry dates from 2027 through 2051, that require TEP and UNS Electric to purchase 100% of the output of certain renewable energy generating facilities and RECs associated with the output delivered once commercial operation is achieved. The agreements include purchase commitments that are contingent upon the developers obtaining commercial operation of the generating facilities, which are expected to be placed in service in 2026 and 2027. Amounts are the estimated future payments.

[3] FortisBC Electric is a party to an agreement to purchase capacity from the Waneta Expansion hydroelectric generating facility for forty years, beginning April 2015.

[4] Maritime Electric ($563 million): includes an energy purchase agreement and transmission capacity contract for 30 MW of capacity to PEI with New Brunswick Power, expiring December 2026 and November 2032, respectively. The agreements entitle Maritime Electric to approximately 4.55% of the output of New Brunswick Power's Point Lepreau nuclear generating station and require Maritime Electric to pay its share of the station's capital operating costs for the life of the unit.

FortisOntario ($374 million): an agreement with Hydro-Québec for the supply of up to 145 MW of capacity and a minimum of 537 GWh of associated energy annually through December 2030.

FortisBC Electric ($301 million): an agreement with BC Hydro to purchase up to 200 MW of capacity and 1,752 GWh of associated energy annually for a 20-year term beginning October 1, 2013.

[5] ITC is party to an agreement with Consumers Energy, the primary customer of METC, which provides METC with an easement for transmission purposes and rights-of-way, leasehold interests, fee interests and licenses associated with the land over which its transmission lines cross. The agreement expires in December 2050, subject to 10 potential 50-year renewals thereafter unless METC gives notice of non-renewal at least one year in advance.

[6] TEP has entered into two engineering, procurement and construction ("EPC") agreements associated with the development of energy storage projects. Roadrunner Reserve 1 is expected to be placed in service in 2025, with Roadrunner Reserve 2 to follow in 2026.

[7] Maritime Electric is party to a debt collection agreement with PEI Energy Corporation for the initial capital cost of the submarine cables and associated parts of the New Brunswick transmission system interconnection. Payments under the agreement, which expires in February 2056, are collected in customer rates.

[8] UNS Energy and Central Hudson are party to REC purchase agreements, mainly for the purchase of environmental attributions from retail customers with solar installations or other renewable generation. Payments are primarily made at contractually agreed-upon intervals based on metered energy production.

[9] Includes AROs and joint-use asset and shared service agreements.

Other Commitments

Under a funding framework with the Governments of Ontario and Canada, Fortis will contribute a minimum of approximately $165 million of equity capital to Wataynikaneyap Power, based on Fortis' proportionate 39% ownership interest and the final regulatory-approved capital cost of the related project. Wataynikaneyap Power has construction financing loan agreements in place and it is expected that long-term operating financing will replace the construction financing. In the event a lender under the loan agreements realizes security on the loans, Fortis may be required to accelerate its equity capital contributions, which may be in excess of the amount otherwise required of Fortis under the funding framework, to a maximum total funding of $235 million. Equity of $137 million has been contributed as of December 31, 2024.

UNS Energy has joint generation performance guarantees with participants at Four Corners and Luna, with agreements expiring in 2041 and 2046 respectively, and at San Juan and Navajo through decommissioning. The participants have guaranteed that in the event of payment default, each non-defaulting participant will bear its proportionate share of expenses otherwise payable by the defaulting participant. In exchange, the non-defaulting participants are entitled to receive their proportionate share of the generation capacity of the defaulting participant. In the case of San Juan and Navajo, participants would seek financial recovery from the defaulting party. There is no maximum amount under these guarantees, except for a maximum of $360 million for Four Corners. As at December 31, 2024, there was no obligation under these guarantees.

Contingency

In 2013, FHI and Fortis were named as defendants in an action in the British Columbia Supreme Court by the Coldwater Indian Band ("Band") regarding interests in a pipeline across reserve lands. The Band seeks cancellation of the right-of-way and damages for wrongful interference with the Band's use and enjoyment of reserve lands. In 2016, the Federal Court dismissed the Band's application for judicial review of the ministerial consent. In 2017, the Federal Court of Appeal set aside the minister's consent and returned the matter to the minister for redetermination. No amount has been accrued as the outcome cannot yet be reasonably determined.

Summary of Significant Accounting Policies (Policies)12 Months Ended

Dec. 31, 2024

Accounting Policies [Abstract] Basis of Presentation

These consolidated financial statements include the accounts of the Corporation and its subsidiaries. They reflect the equity method of accounting for entities in which Fortis has significant influence, but not control, and proportionate consolidation for assets that are jointly owned with non-affiliated entities.

Basis of Presentation

These consolidated financial statements have been prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for rate-regulated entities, and are in Canadian dollars unless otherwise indicated.

Cash and Cash Equivalents

Cash and Cash Equivalents

Cash and cash equivalents include cash, cash held in margin accounts, and short-term deposits with initial maturities of three months or less from the date of deposit.Allowance for Credit Losses

Allowance for Credit Losses

Fortis and its subsidiaries recognize an allowance for credit losses to reduce accounts receivable for amounts estimated to be uncollectible. The allowance for credit losses is estimated based on historical collection patterns, sales, and current and forecast economic and other conditions. Accounts receivable are written off in the period in which they are deemed uncollectible.Inventories

Inventories

Inventories, consisting of materials and supplies, gas, fuel and coal in storage, are measured at the lower of weighted average cost and net realizable value.Regulatory Assets and Liabilities

Certain remaining recovery and settlement periods are those expected by management and the actual periods could differ based on regulatory approval.

Regulatory Assets and Liabilities

Regulatory assets and liabilities arise as a result of the utility rate-setting process and are subject to regulatory approval. Regulatory assets represent future revenues and/or receivables associated with certain costs incurred that will be, or are expected to be, recovered from customers in future periods through the rate-setting process. Regulatory liabilities represent: (i) future reductions or limitations of increases in revenue associated with amounts that will be, or are expected to be, refunded to customers through the rate-setting process; or (ii) obligations to provide future service that customers have paid for in advance.Investments

Investments

Investments are reviewed annually for potential impairment in value. Impairments are recognized when identified.Property, Plant and Equipment

Property, Plant and Equipment

Property, plant and equipment ("PPE") are recognized at cost less accumulated depreciation. Contributions in aid of construction by customers and governments are recognized as a reduction in the cost of, and are amortized in a manner consistent with, the related PPE.

Depreciation rates of the Corporation's regulated utilities include a provision for estimated future removal costs not identified as a legal obligation. The provision is recognized as a long-term regulatory liability (Note 8) against which actual removal costs are netted when incurred.

The Corporation's regulated utilities derecognize PPE on disposal or when no future economic benefits are expected from their use. Upon derecognition, any difference between cost and accumulated depreciation, net of salvage proceeds, is charged to accumulated depreciation. No gain or loss is recognized.

Through methodologies established by their respective regulators, the Corporation's regulated utilities capitalize: (i) overhead costs that are not directly attributable to specific PPE but relate to the overall capital expenditure plan; and (ii) an allowance for funds used during construction ("AFUDC"). The debt component of AFUDC for 2024 totalled $74 million (2023 - $56 million) and is reported as a reduction of finance charges and the equity component is reported as other income (Note 22). Both components are recorded to earnings through depreciation expense over the estimated service lives of the applicable PPE.

Excluding UNS Energy and Central Hudson, PPE includes inventory held for the development, construction and betterment of other assets. As required by its regulators, UNS Energy and Central Hudson recognize such items as inventory until used and reclassifies them to PPE once put into service.

Repairs and maintenance costs are charged to earnings in the period incurred. Replacements and betterments that extend the useful lives of PPE are capitalized.

PPE is depreciated using the straight-line method based on the estimated service lives of the assets. Depreciation rates for regulated PPE are approved by the respective regulators and ranged from 0.5% to 33.0% for 2024 (2023 - 0.5% to 35.0%). The weighted average composite rate of depreciation, before reduction for amortization of contributions in aid of construction, was 2.7% for 2024 (2023 – 2.6%).

The service life ranges and weighted average remaining service life of PPE as at December 31 were as follows:

2024 2023(years):

Service Life
Ranges WeightedAverageRemainingService Life

- Service LifeRanges
WeightedAverageRemainingService Life

Distribution Electric
5 80 32
5 80 31

10 85 36 Generation
5 25 22
5 25 22 Other.
3 80 13
3 80 10Intangible Assets

Intangible Assets

Intangible assets are recorded at cost less accumulated amortization. Their useful lives are assessed to be either indefinite or finite.

Intangible assets with indefinite useful lives are not amortized and are tested for impairment annually, either individually or, where the particular entity also has goodwill, at the reporting unit level in conjunction with goodwill impairment testing. An annual review is completed to determine whether the indefinite life assessment continues to be supportable. If not, the resultant changes are made prospectively.

Intangible assets with finite lives are amortized using the straight-line method based on the estimated service lives of the assets. Amortization rates for regulated intangible assets are approved by the respective regulators and ranged from 1.0% to 33.0% for 2024 (2023 - 1.0% to 33.0%).
The Corporation's regulated utilities derecognize intangible assets on disposal or when no future economic benefits are expected from their use. Upon derecognition any difference between the cost and accumulated amortization of the asset, net of salvage proceeds, is charged to accumulated amortization. No gain or loss is recognized.Impairment of Long-Lived Assets

Impairment of Long-Lived Assets

The Corporation reviews the valuation of PPE, intangible assets with finite lives, and other long-term assets when events or changes in circumstances indicate that the total undiscounted cash flows expected to be generated by the asset may be below carrying value. If that is determined to be the case, the asset is written down to estimated fair value and an impairment loss is recognized.Goodwill

Goodwill

Goodwill represents the excess of the purchase price over the fair value of the identifiable net assets related to business acquisitions.

Goodwill at each of the Corporation's reporting units is tested for impairment annually and whenever an event or change in circumstances indicates that fair value may be below carrying value. If so determined, goodwill is written down to estimated fair value and an impairment loss is recognized.

The Corporation performs a qualitative assessment on each reporting unit, and if it is determined that it is not likely that fair value is less than carrying value, then a quantitative estimate of fair value is not required. When a quantitative assessment is performed, the primary method for estimating fair value of the reporting units is the income approach, whereby net cash flow projections are discounted. Underlying estimates and assumptions, with varying degrees of uncertainty, include the amount and timing of expected future cash flows, growth rates, and discount rates. A secondary valuation, the market approach along with a reconciliation of the total estimated fair value of all the reporting units to the Corporation's market capitalization, is also performed and evaluated.Deferred Financing Costs

Deferred Financing Costs

Issue costs, discounts and premiums are recognized against, and amortized over the life of, the related long-term debt.Employee Future Benefits

For most of the Corporation's regulated utilities, any difference between DBP or OPEB plan costs ordinarily recognized under U.S. GAAP and those recovered from customers in current rates is subject to deferral account treatment and is expected to be recovered from, or refunded to, customers in future rates. In addition, any unamortized balances related to net actuarial gains and losses, past service costs and transitional obligations associated with DBP or OPEB plans, as applicable, which would otherwise be recognized in accumulated other comprehensive income, are subject to deferral account treatment

Employee Future Benefits

Fortis and each subsidiary maintain one or a combination of defined benefit pension ("DBP") and defined contribution pension plans, as well as other post-employment benefit ("OPEB") plans, including certain health and dental coverage and life insurance benefits, for qualifying members. The costs of defined contribution pension plans are expensed as incurred.

For DBP and OPEB plans, the projected or accumulated benefit obligation and net benefit costs are actuarially determined using the projected benefits method prorated on service and management's best estimate of expected plan investment performance, salary escalation, retirement ages of employees and, for OPEB plans, expected health care costs. Discount rates reflect market interest rates on high-quality bonds with cash flows that match the timing and amount of expected pension or OPEB payments.

DBP and OPEB plan assets are recognized at fair value. For the purpose of determining defined benefit pension cost, FortisBC Energy and Newfoundland Power use the market-related value whereby investment returns in excess of, or below, expected returns are recognized in the asset value over a period of three years.

The excess of any cumulative net actuarial gain or loss over 10% of the greater of: (i) the projected or accumulated benefit obligation; and (ii) the fair value or market-related value, as applicable, of plan assets at the beginning of the fiscal year, along with unamortized past service costs, are deferred and amortized over the average remaining service period of active employees.

The net funded or unfunded status of DBP and OPEB plans, measured as the difference between the fair value of the plan assets and the projected or accumulated benefit obligation, is recognized on the Corporation's consolidated balance sheets.Leases

Leases

A right-of-use asset and lease liability is recognized for leases with a lease term greater than 12 months. The right-of-use asset and liability are both measured at the present value of future lease payments, excluding variable payments that are based on usage or performance. Future lease payments include both lease components (e.g., rent, real estate taxes and insurance costs) and non-lease components (e.g., common area maintenance costs), which Fortis accounts for as a single lease component. The present value is calculated using the rate implicit in the lease or a lease-specific secured interest rate based on the remaining lease term. Renewal options are included in the lease term when it is reasonably certain that the option will be exercised.

Finance leases are depreciated over the lease term, except where: (i) ownership of the asset is transferred at the end of the lease term, in which case depreciation is over the estimated service life of the underlying asset; and (ii) the regulator has approved a different recovery methodology for rate-setting purposes, in which case the timing of the expense recognition will conform to the regulator's requirements.

Revenue Recognition

Most revenue is derived from energy sales and the provision of transmission services to customers based on regulator-approved tariff rates. Most contracts have a single performance obligation, being the delivery of energy or the provision of transmission services. No component of the transaction price is allocated to unsatisfied performance obligations. Energy sales are generally measured in kilowatt hours, gigajoules or transmission load delivered. The billing of energy sales is based on customer meter readings, which occur systematically throughout each month. The billing of transmission services at ITC is based on peak monthly load.

FortisAlberta is a distribution company and is required by its regulator to arrange and pay for transmission services with the Alberta Electric System Operator ("AESO"). This includes the collection of transmission revenue from its customers, which occurs through the transmission component of its regulator-approved rates. FortisAlberta reports transmission revenue and expenses on a net basis.

Electricity, gas and transmission service revenue includes an estimate for unbilled energy consumed or service provided since the last meter reading that has not been billed at the end of the reporting period. Sales estimates generally reflect an analysis of historical consumption in relation to key inputs, such as current energy prices, population growth, economic activity, weather conditions and system losses. Unbilled revenue accruals are adjusted in the periods actual consumption becomes known.

Generation revenue from non-regulated operations is recognized on delivery at contracted fixed or market rates.

Variable consideration is estimated at the most likely amount and reassessed at each reporting date until the amount is known. Variable consideration, including amounts subject to a future regulatory decision, is recognized as a refund liability until entitlement is probable.

Revenue excludes sales and municipal taxes collected from customers.

The Corporation has elected not to assess or account for any significant financing components associated with revenue billed in accordance with equal payment plans as the period between the transfer of energy to customers and the customers' payment is less than one y

Stock-Based Compensation

Compensation expense is recognized on a straight-line basis over the vesting period, which for PSUs and RSUs is over the lesser of three years or the period to retirement eligibility and for DSUs is at the time of grant. Forfeitures are accounted for as they occur.

Stock-Based Compensation

Fortis recognizes liabilities associated with directors' deferred share units ("DSUs"), performance share units ("PSUs") and restricted share units ("RSUs"). DSUs represent cash-settled awards whereas PSUs and RSUs represent cash or share-settled awards. The fair value of these liabilities is based on the five-day volume weighted average price ("VWAP") of the Corporation's common shares at the end of each reporting period. The fair value of the PSU liability is also based on the expected payout probability, based on historical performance in accordance with the defined metrics of each grant and management's best estimate.

Foreign Currency Translation

Translation gains and losses on foreign currency-denominated debt that is designated as an effective hedge of foreign net investments are recognized in other comprehensive income.

Foreign Currency Translation

Assets and liabilities of the Corporation's foreign operations, all of which have a U.S. dollar functional currency, are translated at the exchange rate in effect at the balance sheet date and the resultant unrealized translation gains and losses are recognized in accumulated other comprehensive income. The exchange rate as at December 31, 2024 was US$1.00=CA$1.44 (2023 - US$1.00=CA$1.32).

Revenue and expenses of the Corporation's foreign operations are translated at the average exchange rate for the reporting period, which was US$1.00=CA$1.37 for 2024 (2023 - US$1.00=CA$1.35).

Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate prevailing at the balance sheet date. Revenue and expenses denominated in foreign currencies are translated at the exchange rate prevailing at the transaction date. Translation gains and losses are recognized in earnings.

Derivatives and Hedging

Derivatives Not Designated as Hedges

Derivatives not designated as hedges are used by: (i) Fortis, to manage cash flow risk associated with forecast U.S. dollar cash inflows and forecast future cash settlements of DSU, PSU and RSU obligations; and (ii) UNS Energy, to meet forecast load and reserve requirements. Aitken Creek, to its date of disposition, utilized derivatives to manage commodity price risk, capture natural gas price spreads, and manage the financial risk of physical transactions (Note 21). Derivatives are measured at fair value with changes thereto recognized in earnings.

Derivatives not designated as hedges are also used by UNS Energy, Central Hudson and FortisBC Energy to reduce energy price risk associated with purchased power and gas requirements. The settled amounts of these derivatives are generally included in regulated rates, as permitted by the respective regulators. These derivatives are measured at fair value with changes recognized as regulatory assets or liabilities for recovery from, or refund to, customers in future rates (Note 8).

Derivatives that meet the normal purchase or normal sale scope exception are not measured at fair value and settled amounts are recognized in earnings as energy supply costs.

Derivatives Designated as Hedges

Fortis, ITC and Central Hudson use cash flow hedges, from time to time, to manage interest rate risk. Unrealized gains and losses are initially recognized in accumulated other comprehensive income and reclassified to earnings when the underlying hedged transaction affects earnings.

The Corporation's earnings from, and net investments in, foreign subsidiaries and certain equity-accounted investments are exposed to fluctuations in the U.S. dollar-to-Canadian dollar exchange rate. The Corporation has hedged a portion of this exposure through U.S. dollar-denominated debt at the corporate level. Exchange rate fluctuations associated with the translation of this debt and the foreign net investments are recognized in accumulated other comprehensive income.

Presentation of Derivatives

The fair value of derivatives is recognized as current or long-term assets and liabilities depending on the timing of settlements and resulting cash flows. Derivatives under master netting agreements and collateral positions are presented on a gross basis. Cash flows associated with the settlement of all derivatives are presented in operating activities in the consolidated statements of cash flows.

Income Taxes

Differences between the income tax expense or recovery recognized under U.S. GAAP and reflected in current customer rates, which is expected to be recovered from, or refunded to, customers in future rates, are recognized as regulatory assets or liabilities

Income Taxes

The Corporation and its taxable subsidiaries follow the asset and liability method of accounting for income taxes. Current income tax expense or recovery is recognized for the estimated income taxes payable or receivable in the current year.

Deferred income tax assets and liabilities are recognized for temporary differences between the tax and accounting basis of assets and liabilities, as well as for the benefit of losses available to be carried forward to future years for tax purposes that are "more likely than not" to be realized. They are measured using enacted income tax rates and laws in effect when the temporary differences are expected to be recovered or settled. The effect of a change in income tax rates on deferred income tax assets and liabilities is recognized in earnings in the period when the change occurs. Valuation allowances are recognized when it is "more likely than not" that all of, or a portion of, a deferred income tax asset will not be realized.

Customer rates at ITC, UNS Energy, Central Hudson and Maritime Electric reflect current and deferred income tax. Customer rates at FortisAlberta reflect current income tax. Customer rates at FortisBC Energy, FortisBC Electric, Newfoundland Power and FortisOntario reflect current income tax and, for certain regulatory balances, deferred income tax. Caribbean Utilities, FortisTCI and Fortis Belize are not subject to income tax.

Fortis does not recognize deferred income taxes on temporary differences related to investments in foreign subsidiaries where it intends to indefinitely reinvest earnings. The difference between the carrying values of these foreign investments and their tax bases, resulting from unrepatriated earnings and currency translation adjustments, is approximately $8.1 billion as at December 31, 2024 (2023 - $6.3 billion). If such earnings are repatriated, the Corporation may be subject to income taxes and foreign withholding taxes. The determination of the amount of unrecognized deferred income tax liabilities on such amounts is impractical.

Tax benefits associated with actual or expected income tax positions are recognized when the "more likely than not" recognition threshold is met. The tax benefits are measured at the largest amount of benefit that is greater than 50% likely to be realized upon settlement.

Income tax interest and penalties are recognized as income tax expense when incurred.

Asset Retirement Obligations

Asset Retirement Obligations

The Corporation's subsidiaries have asset retirement obligations ("AROs") associated with certain generation, transmission, distribution and interconnection assets, including land and environmental remediation and/or asset removal. These assets and related licences, permits, rights-of-way and agreements are reasonably expected to effectively exist and operate in perpetuity due to their nature. Consequently, where the final date and cost of remediation and/or removal of the noted assets cannot be reasonably determined, AROs have not been recognized.

Otherwise, AROs are recognized at fair value in the period incurred as an increase in PPE and long-term other liabilities (Note 16) if a reasonable estimate of fair value can be determined. Fair value is estimated as the present value of expected future cash outlays, discounted at a credit-adjusted risk-free interest rate. The increase in the liability due to the passage of time is recognized through accretion and the capitalized cost is depreciated over the useful life of the asset. Accretion and depreciation expense are deferred as a regulatory asset or liability based on regulatory recovery of these costs. Actual settlement costs are recognized as a reduction in the accrued liability.

Contingencies

Contingencies

Fortis and its subsidiaries are subject to various legal proceedings and claims that arise in the normal course of business. Management makes judgments regarding the future outcome of contingent events and recognizes a loss based on its best estimate when it is determined that such loss, or range of loss, is probable and can be reasonably estimated. Legal fees are expensed as incurred. When a loss is recoverable in future rates, a regulatory asset is also recognized.

Management regularly reviews current information to determine whether recognized provisions should be adjusted and new provisions are required. However, estimating probable losses requires considerable judgment about potential actions by third parties and matters are often resolved over long periods of time. Actual outcomes may differ materially from the amounts recognized.

Use of Accounting Estimates

Use of Accounting Estimates

The preparation of these consolidated financial statements in accordance with U.S. GAAP requires management to make estimates and judgments, including those arising from matters dependent upon the finalization of regulatory proceedings, that affect the reported amounts of assets, liabilities, revenues, expenses, gains and losses. Management evaluates these estimates on an ongoing basis based upon historical experience, current conditions, and assumptions believed to be reasonable at the time they are made, with any adjustments being recognized in the period they become known. Actual results may differ significantly from these estimates.

New Accounting Policies and Future Accounting Pronouncements

New Accounting Policies

Segment Reporting: The Corporation adopted ASU No. 2023-07, Improvements to Reportable Segment Disclosures, for the year ended December 31, 2024 and will adopt it for interim periods beginning in 2025. This update requires disclosure of incremental segment information, including significant segment expenses and other items that are included in segment profit or loss. This adoption of this standard did not materially impact Fortis' disclosures.

Future Accounting Pronouncements

The Corporation considers the applicability and impact of all Accounting Standards Updates ("ASUs") issued by the Financial Accounting Standards Board. Any ASUs not included in these consolidated financial statements were assessed and determined to be either not applicable to the Corporation or are not expected to have a material impact on the consolidated financial statements.

Income Taxes: ASU No. 2023-09, Improvements to Income Tax Disclosures, is effective for Fortis on January 1, 2025 on a prospective basis, with retrospective application and early adoption permitted. The ASU requires additional disclosure of income tax information by jurisdiction to reflect an entity's exposure to potential changes in tax legislation, and associated risks and opportunities. Fortis does not expect the ASU to materially impact its disclosures.

Expense Disaggregation: ASU No. 2024-03, Disaggregation of Income Statement Expenses, is effective for Fortis on January 1, 2027 for annual periods and on January 1, 2028 for interim periods, on a prospective basis, with retrospective application and early adoption permitted. The ASU requires detailed disclosure of certain expense categories included on the consolidated statements of earnings, including energy supply costs, operating expenses, and depreciation and amortization expense. Fortis is assessing the impact on its disclos

Rate-cap adjustment mechanism
based on published consumer price indices
FortisTCI [3][5] Government of the Turks and Caicos Islands N/A
15.00 **17.50**
15.00 17.50 COS regulationHistorical test year

[1] ROA for Caribbean Utilities and FortisTCI
[2] Reflects the allowed common equity and ROE for ITCTransmission, METC, and ITC Midwest. The ROE above is inclusive of the base ROE as well as incentive adders totalling 0.75%. FERC issued an order in October 2024 retroactively revising the base ROE to certain prior periods including 2023. See "Significant Regulatory Matters" below
[3] Annual true-up collected or refunded in rates within a two year period
[4] Allowed common equity of 54.3% and ROE of 9.55% effective September 1, 2023
[5] The allowed common equity component for FERC transmission rates is formulaic, and is updated annually based on TEP's actual equity ratio
[6] Allowed common equity of 53.7% and ROE of 9.75% effective February 1, 2024
[7] A general rate application requesting new customer rates is ongoing. See "Significant Regulatory Matters" below
[8] ROE of 9.5% effective July 1, 2024. A general rate application requesting new customer rates effective July 1, 2025 is ongoing. See "Significant Regulatory Matters" below
[9] In 2023, FortisAlberta was subject to a COS revenue requirement. The ROE for 2025 has been set at 8.97%
[10] Two of FortisOntario's utilities follow COS regulation with incentive mechanisms, while the remaining utility is subject to a 35 year franchise agreement expiring in 2033

[11] Operates under licences from the Government of the Cayman Islands. Its exclusive transmission and distribution licence is for an initial 20 year period, expiring in April 2028, with a provision for automatic renewal. Its non-exclusive generation licence is for a 25 year term, expiring in November 2034[12]

+ Definition

Tabular disclosure of regulation for public utility entities, including, but not limited to, rate requests, decommissioning costs and the amount of allowance for earnings on equity capitalized for rate making purposes.

- Definition

Tabular disclosure of the profit or loss and total assets for each reportable segment. An entity discloses certain information on each reportable segment if the amounts (a) are included in the measure of segment profit or loss reviewed by the chief operating decision maker or (b) are otherwise regularly provided to the chief operating decision maker, even if not included in that measure of segment profit or loss.

Revenue from Contract with Customer [Abstract]

Schedule of Revenue

The following table presents the disaggregation of the Corporation's revenue on the consolidated statements of earnings by geography and substantially autonomous utility operations.

($ millions)	2024	2023
Electric and gas revenue		
United States		
ITC	**2,205**	2,098
UNS Energy	**2,731**	2,707
Central Hudson	**1,366**	1,329
Canada		
FortisBC Energy	**1,538**	1,766
FortisAlberta	**770**	699
FortisBC Electric	**481**	460
Newfoundland Power	**770**	759
Maritime Electric	**277**	258
FortisOntario	**235**	217
Caribbean		
Caribbean Utilities	**402**	388
FortisTCI	**118**	108
Total electric and gas revenue	**10,893**	10,789
Other services revenue	**350**	374
Revenue from contracts with customers	**11,243**	11,163
Alternative revenue	**169**	150
Other revenue	**96**	204
Total revenue	**11,508**	11,517

Accounts Receivable and Other Current Assets (Tables) 12 Months Ended

Dec. 31, 2024

Receivables [Abstract]

Schedule Of Accounts Receivable and Other Current Assets

($ millions)	2024	2023
Trade accounts receivable	**1,009**	890
Unbilled accounts receivable	**738**	727
Allowance for credit losses	**(78)**	(68)
	1,669	1,549
Income tax receivable	**—**	78
Other [(1)]	**217**	191
	1,886	1,818

(1) Consists mainly of customer billings for non-core services, gas mitigation costs and collateral deposits for gas purchases, and the fair value of derivative instruments (Note 26)

Schedule of Allowance for Credit Losses

The allowance for credit losses changed as follows:

($ millions)	2024	2023
Balance, beginning of year	(68)	(58)
Credit loss expensed	(30)	(33)
Credit loss deferral	(31)	(13)
Write-offs, net of recoveries	55	35
Foreign exchange	(4)	1
Balance, end of year	(78)	(68)

See Note 26 for disclosure on the Corporation's credit risk.

+ Definition

Tabular disclosure of allowance for credit loss on accounts receivable.

Regulatory Assets and Liabilities (Tables) 12 Months Ended

Dec. 31, 2024

Regulated Operations [Abstract] Schedule of Regulatory Assets

Relates to differences in revenue collected and amounts incurred for transmission-related items at FortisAlberta that are expected to be collected or refunded in customer rates.

($ millions)	2024	2023
Regulatory assets		
Deferred income taxes (Note 3)	2,248	2,058
Deferred energy management costs [1]	591	521
Rate stabilization and related accounts [2]	453	521
Employee future benefits (Notes 3 and 24)	235	254
Derivatives (Notes 3 and 26)	175	197
Deferred lease costs [3]	142	122
Deferred restoration costs [4]	137	115
Manufactured gas plant site remediation deferral (Note 16)	82	81
Generation early retirement costs [5]	66	64
Renewable natural gas account [6]	58	41
Other regulatory assets [7]	448	389
Total regulatory assets	4,631	4,384
Less: Current portion	(823)	(866)
Long-term regulatory assets	3,808	3,518

($ millions)	2024	2023
Regulatory liabilities		
Future cost of removal (Note 3)	1,728	1,547
Deferred income taxes (Note 3)	1,329	1,280
Employee future benefits (Notes 3 and 24)	459	294
Rate stabilization and related accounts [2]	206	292
Renewable energy surcharge [8]	155	129
Energy efficiency liability [9]	88	78
Electric and gas moderator account [10]	61	50
AESO charges deferral [11]	58	121
Other regulatory liabilities [7]	205	167
Total regulatory liabilities	4,291	3,958
Less: Current portion	(595)	(577)
Long-term regulatory liabilities	3,696	3,381

[1] Deferred Energy Management Costs: Certain regulated subsidiaries provide energy management services to facilitate customer energy efficiency programs where the related expenditures have been deferred as a regulatory asset and are being amortized, and recovered from customers through rates, on a straight-line basis over periods ranging from to 10 years. One

[2] Rate Stabilization and Related Accounts: Rate stabilization accounts mitigate the earnings volatility otherwise caused by variability in the cost of fuel, purchased power and natural gas above or below a forecast or predetermined level, and by weather-driven volume variability. At certain utilities, revenue decoupling mechanisms minimize the earnings impact of reduced energy consumption as energy efficiency programs are implemented. Resultant deferrals are recovered from, or refunded to, customers in future rates as approved by the respective regulators.

Related accounts include the annual true-up mechanism at ITC (Note 5).

[3] Deferred Lease Costs: Deferred lease costs at FortisBC Electric primarily relate to the Brilliant Power Purchase Agreement ("BPPA") (Note 15). The depreciation of the asset under finance lease and interest expense on the finance lease obligation are not being fully recovered in current customer rates since these rates only reflect the cash payments required under the BPPA. The annual differences are being deferred as a regulatory asset, which is expected to be recovered from customers in future rates over the term of the lease, which expires in 2056.

[4] Deferred Restoration Costs: Incremental costs incurred at Central Hudson and Maritime Electric associated with restoration activities due to significant weather events. Incremental costs incurred in excess of that collected in customer rates at Central Hudson are recovered through rate stabilization accounts. The form and recovery period for Maritime Electric will be determined by the regulator.

[5] Generation Early Retirement Costs: Includes costs at TEP associated with the retirement of the Navajo Generating Station ("Navajo"), Sundt Generating Facility Units 1 and 2, and the San Juan Generating Station ("San Juan"), as approved for recovery by its regulator.

[6] Renewable Natural Gas Account: Reflects the variance between costs incurred to procure consumable biomethane gas and the related revenue recovered in customer rates. The difference is generally refunded or recovered from customers within one year.

[7] Other Regulatory Assets and Liabilities: Comprised of regulatory assets and liabilities individually less than $50 million.

[8] Renewable Energy Surcharge: Under the ACC's Renewable Energy Standard ("RES"), UNS Energy is required to increase its use of renewable energy each year until it represents at least 15% of its total annual retail energy requirements by 2025. The cost of carrying out the plan is recovered from retail customers through a RES surcharge. Any RES surcharge collections above or below the costs incurred to implement the plans are deferred as a regulatory liability or asset.

The ACC measures RES compliance through Renewable Energy Credits ("RECs"). Each REC represents one kilowatt hour generated from renewable resources. When UNS Energy purchases renewable energy, the premium paid above the market cost of conventional power equals the REC recoverable through the RES surcharge. When RECs are purchased, UNS Energy records their cost as long-term other assets (Note 9) with a corresponding regulatory liability to reflect the obligation to use the RECs for future RES compliance. When RECs are utilized for RES compliance, energy supply costs and revenue are recognized in an equal amount.

[9] Energy Efficiency Liability: The energy efficiency liability primarily relates to Central Hudson's Energy Efficiency Program, established to fund environmental policies associated with energy conservation programs as approved by its regulator.

[10] Electric and Gas Moderator Account: As part of Central Hudson's general rate applications, certain regulatory assets and liabilities were offset and included in the electric and gas moderator account, which will be used for future customer rate moderation. [11] AESO Charges Deferral: Schedule of Regulatory Liabilities

Relates to differences in revenue collected and amounts incurred for transmission-related items at FortisAlberta that are expected to be collected or refunded in customer rates.

- Definition

Tabular disclosure of proportionate interests in jointly owned utility plants. Includes the amount of plants in service, the accumulated provision for depreciation (if available), the amount of plants under construction, and the proportionate share. The amounts presented may be further subdivided to show amounts applicable to plant subcategories (for example, production, transmission, distribution). Includes statements that the amounts represent the utility's share in each joint plant and that it must provide its own financing. Information concerning two or more generating plants on the same site may be combined. States that the utility's share of direct expenses of the joint plants is included in the corresponding operating expenses on its income statement (for example, fuel, maintenance of plant, other operating expense). If the share of direct expenses is charged to purchased power, then disclose the amount so charged and the proportionate amounts charged to specific operating expenses on the records maintained for the joint plants.

(1) Repay short-term and/or credit facility borrowings
(2) Fund capital expenditures
(3) General corporate purposes
(4) Repay maturing long-term debt

Schedule of Long-Term Debt Repayments

The consolidated requirements to meet principal repayments and maturities in each of the next five years and thereafter are as follows:

($ millions)	Total	2025	2026	2027	2028	2029	Thereafter
	23,766	1,990	2,585	2,541	1,499	1,024	33,405

Schedule of Credit Facilities

($ millions)	Regulated Utilities	Corporate and Other

	2024	2023
Total credit facilities	$ 6,342	$ 6,176
Credit facilities utilized:		
Short-term borrowings [1]	$ (98)	$ (119)
Long-term debt (including current portion) [2]	(1,335)	(881)
Credit facilities unutilized	$ 4,909	$ 5,176

[1] The weighted average interest rate was approximately 6.1% (2023 - 6.9%).

[2] The weighted average interest rate was approximately 4.6% (2023 - 6.2%). The current portion was $1,860 million (2023 - $1,160 million).

Consolidated credit facilities of approximately $6.3 billion as at December 31, 2024 are itemized below:

($ millions)	Amount	Maturity
Unsecured committed revolving credit facilities		
Regulated utilities		
ITC [3]	$ 1,000	2028
UNS Energy	$ 375	2027
Central Hudson	$ 250	2029
FortisBC Energy	900	2028
FortisAlberta	250	2029
FortisBC Electric	200	2028
Other Electric	285	
Other Electric	$ 83	2025
Corporate and Other	1,350	
Other facilities		
Regulated utilities		
Central Hudson - uncommitted credit facility	$ 60	n/a
FortisBC Energy - uncommitted credit facility	55	2025
FortisBC Electric - unsecured demand overdraft facility	10	n/a
Other Electric - unsecured demand facilities	20	n/a
Other Electric - unsecured demand facility and emergency standby loan	$ 93	2025
Corporate and Other		
Unsecured non-revolving facility	$ 250	2025
Unsecured revolving facility	$ 150	2025
Unsecured non-revolving facility	21	n/a

[3] ITC also has a US$400 million commercial paper program, under which $nil was outstanding as at December 31, 2024 and 2023

[4] $90 million in 2027, $65 million in 2027, and $130 million in 2029

[5] $50 million in 2026 and $1.3 billion in 2029

Leases (Tables) 12 Months Ended

Dec. 31, 2024

Leases [Abstract] Schedule of Operating and Finance Leases Balance Sheet Location

Leases were presented on the consolidated balance sheets as follows:

(\$ millions)	2024	2023	Operating leases	Other assets	64
51	Accounts payable and other current liabilities	(17)	(12)	Other liabilities	(47)
(39)	Finance leases	[1]	Regulatory assets	142	137
PPE, net	205	205	Accounts payable and other current liabilities	(4)	(3)
Finance leases	(343)	(339)			

[1] FortisBC Electric has a finance lease for the BPPA (Note 8), which relates to the sale of the output of the Brilliant hydroelectric plant, and for the Brilliant Terminal Station ("BTS"), which relates to the use of the station. Both agreements expire in 2056. In exchange for the specified take-or-pay amounts of power, the BPPA requires semi-annual payments based on a return on capital, which includes the original and ongoing capital cost, and related variable power purchase costs. The BTS requires semi-annual payments based on a charge related to the recovery of the capital cost of the BTS, and related variable operating costs.

Components of Lease Expense and Supplemental Lease Information

The components of lease expense were as follows:

(\$ millions)	2024	2023	Operating lease cost	19	12
Finance lease cost:					
Amortization	2	3			
Interest	33	33	Variable lease cost	21	22
Total lease cost	75	71			

Supplemental lease information follows:

(\$ millions, except as indicated)	2024	2023			
Weighted average remaining lease term (years):					
Operating leases	7	7	Finance leases	31	32
Weighted average discount rate (%):					
Operating leases	4.6	4.5	Finance leases	5.0	5.0

Present Value of Minimum Finance Lease Payments

As at December 31, 2024, the present value of minimum lease payments was as follows:

(\$ millions)	OperatingLeases	FinanceLeases
Total	2025	18	37	55
2026	15	37	52
2027	12	37	49
2028	6	37	43
2029	4	37	41
Thereafter	19	954	973
	74	1,139	1,213
Less: Imputed interest	(10)	(792)	(802)
Total lease obligations	64	347	411
Less: Current installments	(17)	(4)	(21)
	47	343	390

Present Value of Minimum Operating Lease Payments

As at December 31, 2024, the present value of minimum lease payments was as follows:

(\$ millions)	OperatingLeases	FinanceLeases
Total	2025	18	37	55
2026	15	37	52
2027	12	37	49
2028	6	37	43
2029	4	37	41
Thereafter	19	954	973
	74	1,139	1,213
Less: Imputed interest	(10)	(792)	(802)
Total lease obligations	64	347	411
Less: Current installments	(17)	(4)	(21)
	47	343	390

Other Liabilities (Tables) 12 Months Ended

Dec. 31, 2024

Other Liabilities Disclosure [Abstract] Schedule of Other Liabilities)

($ millions) 2024 2023 Employee future benefits (Note 24) 446 527 AROs (Note 3) 249 163 Customer and other deposits 128 168 Stock-based compensation plans (Note 20) 113 82 Manufactured gas plant site remediation [1] 101 94 Derivatives (Note 26) 66 48 Deferred compensation plan (Note 9) 63 54 Operating leases (Note 15) 47 39 Mine reclamation obligations [2] 40 30 Retail energy contract [3] 20 27 Other 41 38 1,314 1,270

[1] Environmental regulations require Central Hudson to investigate sites at which it or its predecessors once owned and/or operated manufactured gas plants and, if necessary, remediate those sites. Costs are accrued based on the amounts that can be reasonably estimated. Central Hudson has notified its insurers that it intends to seek reimbursement where insurance coverage exists. Differences between actual costs and the associated rate allowances are deferred as a regulatory asset for future recovery (Note 8).

[2] TEP pays ongoing reclamation costs related to two coal mines that supply generating facilities in which it has an ownership interest but does not operate. Costs are deferred as a regulatory asset and recovered from customers as permitted by the regulator. TEP's share of the reclamation costs is estimated to be $49 million. The present value of the estimated future liability in included in other liabilities.

[3] FortisAlberta has an agreement with a retail energy provider to act as its default retailer to eligible customers under the regulated retail option. As part of this agreement FortisAlberta received an upfront payment which is being amortized to revenue over the eight year agreement.

[1] Holders are entitled to receive a fixed or floating cumulative quarterly cash dividend as and when declared by the Board of Directors of the Corporation, payable in equal installments on the first day of each quarter.

[2] On or after the specified redemption dates, the Corporation has the option to redeem for cash the outstanding first preference shares, in whole or in part, at the specified per share redemption value plus all accrued and unpaid dividends up to but excluding the dates fixed for redemption, and in the case of the first preference shares that reset, on every fifth anniversary date thereafter.

[3] On the redemption and/or conversion option date, and on each five-year anniversary thereafter, the reset annual dividend per share will be determined by multiplying $25.00 per share by the annual fixed dividend rate, which is the sum of the five-year Government of Canada Bond Yield on the applicable reset date, plus the applicable reset dividend yield.

[4] On each conversion option date, the holders have the option, subject to certain conditions, to convert any or all of their shares into an equal number of Cumulative Redeemable first preference shares of a specified series.

[5] The floating quarterly dividend rate will be reset every quarter based on the then current three-month Government of Canada Treasury Bill rate plus the applicable reset dividend yield.

[1] Amounts reflect projected benefit obligation for DBP plans and accumulated benefit obligation for OPEB plans.

[2] The accumulated benefit obligation, which excludes assumptions about future salary levels, for DBP plans was $3,144 million as at December 31, 2024 (2023 - $2,983 million).

Schedule of Net Benefit Costs

Net Benefit Cost [1] DBP Plans OPEB Plans ($ millions) 2024 2023 2024 2023 Service costs 74 62 25 22 Interest costs 161 159 29 30 Expected return on plan assets (221) (202) (26) (22) Amortization of actuarial gains (1) (9) (17) (19) Amortization of past service credits/plan amendments (1) (1) (1) (1) Regulatory adjustments (1) 12 2 5 11 21 12 15

[1] The non-service benefit cost components of net periodic benefit cost are included in other income, net in the consolidated statements of earnings.

Schedule of Amounts Recognized in AOCI and Net Regulatory Assets

The following table summarizes the accumulated amounts of net benefit cost that have not yet been recognized in earnings or comprehensive income and shows their classification on the consolidated balance sheets.

DBP Plans OPEB Plans ($ millions) 2024 2023 2024 2023

Unamortized net actuarial losses (gains) 11 12 (11) (10)

Unamortized past service costs 1 1 6 6 Income tax (recovery) expense (3) (3) 1 1 Accumulated other comprehensive income 9 10 (4) (3) Net actuarial losses (gains) 46 189 (283) (215) Past service credits (1) (2) (2) (3) Other regulatory deferrals 12 (11) 4 2 57 176 (281) (216) Regulatory assets (Note 8) 235 254 — — Regulatory liabilities (Note 8) (178) (78) (281) (216) Net regulatory assets (liabilities) 57 176 (281) (216)

Schedule of Amounts Recognized in OCI and Regulatory Assets

The following table summarizes the components of net benefit cost recognized in comprehensive income or as regulatory (liabilities) assets.

DBP Plans OPEB Plans ($ millions) 2024 2023 2024 2023 Current year net actuarial (gains) losses (1) 4 (1) 1 Past service credits/plan amendments — — — (1) Foreign currency translation — (1) — — Income tax recovery — (1) — — Total recognized in comprehensive income (1) 2 (1) — Current year net actuarial (gains) losses (142) 78 (72) (40) Amortization of actuarial gains 1 9 16 18 Amortization of past service credits 1 2 1 1 Foreign currency translation (2) (1) (12) 2 Regulatory adjustments 23 (5) 2 (5) Total recognized in regulatory (liabilities) assets (119) 83 (65) (24)

Schedule of Assumptions Used

The projected 2025 health care cost trend rate is 6.51% and is assumed to decrease over the next 10 years to the ultimate health care cost trend rate of 4.53% in 2034 and thereafter

Significant Assumptions DBP Plans OPEB Plans (weighted average %) 2024 2023 2024 2023
Discount rate as at December 31 [1] 5.25 4.84 5.43 4.94
Expected long-term rate of return on plan assets [2] 6.51 6.58 6.05 5.92 Rate of compensation increase 3.52 3.37 — —
Health care cost trend increase as at December 31 [3] — — 4.53 4.52

[1] The discount rate used during the year was 4.84% for DBP plans (2023 - 5.36%) and 4.96% for OPEB plans (2023 - 5.39%). ITC and UNS Energy use the split discount rate methodology for determining current service and interest costs. All other subsidiaries use the single discount rate approach.

[2] Developed by management using best estimates of expected returns, volatilities and correlations for each class of asset. Best estimates are based on historical performance, future expectations and periodic portfolio rebalancing among the diversified asset classes.[3]

Schedule of Expected Benefit Payments

Expected Benefit Payments ($ millions) DBP Plans OPEB Plans 2025 $196 $33 2026 201 34 2027 206 34 2028 210 35 2029 218 36 2030-2034 1,155 203

Fair Value of Financial Instruments and Risk Management (Tables) 12 Months Ended
Dec. 31, 2024
Fair Value Disclosures [Abstract] Fair Value Hierarchy
The following table presents derivative assets and liabilities that are accounted for at fair value on a recurring basis.

($ millions)
Level 1 [1]
Level 2 [1]
Level 3 [1] Total As at December 31, 2024 Assets
Energy contracts subject to regulatory deferral [2][3] — 63 — 63
Energy contracts not subject to regulatory deferral [3] — 7 — 7
Total return swaps and interest rate contracts [4] — 16 — 16
Other investments [5] 150 — — 150 150 86 — 236 Liabilities
Energy contracts subject to regulatory deferral [2][3] — (197) — (197)
Energy contracts not subject to regulatory deferral [3] — (2) — (2)
Foreign exchange contracts and cross-currency interest rate swaps [4] — (45) — (45) — (244) — (244)

As at December 31, 2023 Assets
Energy contracts subject to regulatory deferral [2][3] — 49 — 49
Energy contracts not subject to regulatory deferral [3] — 6 — 6
Foreign exchange contracts [4] — 5 — 5
Other investments [5] 145 — — 145 145 60 — 205 Liabilities
Energy contracts subject to regulatory deferral [2][3] — (209) — (209)
Energy contracts not subject to regulatory deferral [3] — (2) — (2)
Total return and cross-currency interest rate swaps [4] — (6) — (6) — (218) — (218)

[1] Under the hierarchy, fair value is determined using: (i) Level 1 - unadjusted quoted prices in active markets; (ii) Level 2 - other pricing inputs directly or indirectly observable in the marketplace; and (iii) Level 3 - unobservable inputs, used when observable inputs are not available. Classifications reflect the lowest level of input that is significant to the fair value measurement.
[2] Included in accounts receivable and other current assets or other assets
[3] Unrealized gains and losses arising from changes in fair value of these contracts are deferred as a regulatory asset or liability for recovery from, or refund to, customers in future rates as permitted by the regulators, with the exception of long-term wholesale trading contracts and certain gas swap contracts.
[4] UNS Energy holds investments in money market accounts, and ITC and Central Hudson hold investments in trust associated with supplemental retirement benefit plans for select employees, which include mutual funds and money market accounts. The fair value of these investments is included in cash and cash equivalents and other assets, with gains and losses recognized in other income, net
[5] Included in accounts payable and other current liabilities or other liabilities Derivative Asset Contracts Under Master Netting Agreements and Collateral Positions
The following table presents the potential offset of counterparty netting.

($ millions) Gross Amount Recognized in Balance Sheet

CounterpartyNetting of Energy Contracts

Cash Collateral Posted/(Received)
Net Amount As at December 31, 2024 Derivative assets 70 (30) 15 55 Derivative liabilities (199) 30 — (169)

As at December 31, 2023 Derivative assets 55 (24) 28 59 Derivative liabilities (212) 24 (1) (189) Derivative Liability Contracts Under Master Netting Agreements and Collateral Positions The following table presents the potential offset of counterparty netting.

($ millions) Gross Amount Recognized in Balance Sheet

CounterpartyNetting of Energy Contracts

Cash Collateral Posted/(Received)
Net Amount As at December 31, 2024 Derivative assets 70 (30) 15 55 Derivative liabilities (199) 30 — (169)

As at December 31, 2023 Derivative assets 55 (24) 28 59 Derivative liabilities (212) 24 (1) (189) Schedule of Volume of Derivative Activity
As at December 31, 2024, the Corporation had various energy contracts that will settle on various dates through 2029. The volumes related to electricity and natural gas derivatives are outlined below.

2024 2023
Energy contracts subject to regulatory deferral [1]
Electricity swap contracts (GWh) 774 628
Electricity power purchase contracts (GWh) 430 588
Gas swap contracts (PJ) 236 228
Gas supply contracts (PJ) 105 134
Energy contracts not subject to regulatory deferral [1]
Wholesale trading contracts (GWh) 1,499 1,310
Gas swap contracts (PJ) 3 3

[1] GWh means gigawatt hours and PJ means petajoules

Dec. 31, 2024
Commitments and Contingencies Disclosure [Abstract] Schedule of Consolidated Commitments in the Next Five Years and Periods Thereafter

As at December 31, 2024, unconditional minimum purchase obligations were as follows:

($ millions)	Total	Year 1	Year 2	Year 3	Year 4	Year 5	Thereafter
Gas and fuel purchase obligations[1]	6,299	763	571	520	465	393	3,587
Renewable PPAs[2]	2,628	139	166	182	182	172	1,786
Waneta Expansion capacity agreement[3]	2,362	56	58	59	60	61	2,068
Power purchase obligations[4]	1,335	302	217	191	154	122	349
ITC easement agreement[5]	370	14	14	14	14	14	300
TEP EPC agreements[6]	308	307	1	—	—	—	—
Debt collection agreement[7]	99	3	3	3	3	3	84
Renewable energy credit purchase agreements[8]	58	18	7	6	6	6	15
Other[9]	140	32	11	11	12	10	64
		13,599	1,634	1,048	926	866	782	8,343

[1] FortisBC Energy ($5,014 million): includes contracts of $2,792 million for the purchase of renewable natural gas expiring in 2045 and contracts of $2,222 million for the purchase of gas, renewable gas, gas transportation and storage services, expiring in 2062. FortisBC Energy's gas purchase obligations are based on gas commodity indices that vary with market prices and the obligations are based on index prices as at December 31, 2024. The renewable gas supply obligations disclosed reflect the contracted price per gigajoule between the Corporation and the suppliers.

UNS Energy ($1,160 million): includes long-term contracts for the purchase and delivery of coal to fuel generating facilities, the purchase of gas transportation services to meet load requirements, the purchase of transmission services for purchased power, as well as natural gas commodity agreements based on projected market prices as of December 31, 2024. Amounts paid for coal depend on actual quantities purchased and delivered. Certain contracts have price adjustment clauses that will affect future costs. These contracts have various expiry dates through 2048.

[2] TEP and UNS Electric are party to renewable PPAs, with expiry dates from 2027 through 2051, that require TEP and UNS Electric to purchase 100% of the output of certain renewable energy generating facilities and RECs associated with the output delivered once commercial operation is achieved. The agreements include purchase commitments that are contingent upon the developers obtaining commercial operation of the generating facilities, which are expected to be placed in service in 2026 and 2027. Amounts are the estimated future payments.

[3] FortisBC Electric is a party to an agreement to purchase capacity from the Waneta Expansion hydroelectric generating facility for forty years, beginning April 2015.

[4] Maritime Electric ($563 million): includes an energy purchase agreement and transmission capacity contract for 30 MW of capacity to PEI with New Brunswick Power, expiring December 2026 and November 2032, respectively. The agreements entitle Maritime Electric to approximately 4.55% of the output of New Brunswick Power's Point Lepreau nuclear generating station and require Maritime Electric to pay its share of the station's capital operating costs for the life of the unit.

FortisOntario ($374 million): an agreement with Hydro-Québec for the supply of up to 145 MW of capacity and a minimum of 537 GWh of associated energy annually through December 2030.

FortisBC Electric ($301 million): an agreement with BC Hydro to purchase up to 200 MW of capacity and 1,752 GWh of associated energy annually for a 20-year term beginning October 1, 2013.

[5] ITC is party to an agreement with Consumers Energy, the primary customer of METC, which provides METC with an easement for transmission purposes and rights-of-way, leasehold interests, fee interests and licenses associated with the land over which its transmission lines cross. The agreement expires in December 2050, subject to 10 potential 50-year renewals thereafter unless METC gives notice of non-renewal at least one year in advance.

[6] TEP has entered into two engineering, procurement and construction ("EPC") agreements associated with the development of energy storage projects. Roadrunner Reserve 1 is expected to be placed in service in 2025, with Roadrunner Reserve 2 to follow in 2026.

[7] Maritime Electric is party to a debt collection agreement with PEI Energy Corporation for the initial capital cost of the submarine cables and associated parts of the New Brunswick transmission system interconnection. Payments under the agreement, which expires in February 2056, are collected in customer rates.

[8] UNS Energy and Central Hudson are party to REC purchase agreements, mainly for the purchase of environmental attributions from retail customers with solar installations or other renewable generation. Payments are primarily made at contractually agreed-upon intervals based on metered energy production.

[9] Includes AROs and joint-use asset and shared service agreements.

- Definition

Tabular disclosure of contractual obligation by timing of payment due. Includes, but is not limited to, long-term debt obligation, lease obligation, and purchase obligation.
