

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **September 30, 2023**

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 00 1 - 3 52 8 5

Vaxart, Inc.

(Exact Name of Registrant as Specified in its Charter)

Delaware

(State or other jurisdiction of incorporation or organization)

5 9 - 1212264

(IRS Employer Identification No.)

170 Harbor Way , Suite 300 , South San Francisco , CA 94 080

(Address of principal executive offices, including zip code)

(6 50) 550 - 3 5 0 0

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading symbol	Name of each exchange on which registered
Common Stock, \$0.0001 par value	VXRT	The Nasdaq Capital Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The Registrant had 152,038,840 shares of common stock, \$0.0001 par value, outstanding as of November 1, 2023.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (this "Quarterly Report") for the quarterly period ended September 30, 2023, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), which are subject to the "safe harbor" created by those sections, concerning our business, operations, and financial performance and condition as well as our plans, objectives, and expectations for business operations and financial performance and condition. Any statements contained herein that are not of historical facts may be deemed to be forward-looking statements. You can identify these statements by words such as "anticipate," "assume," "believe," "could," "estimate," "expect," "intend," "may," "plan," "should," "will," "would," and other similar expressions that are predictions of or indicate future events and future trends. These forward-looking statements are based on current expectations, estimates, forecasts, and projections about our business and the industry in which we operate and management's beliefs and assumptions and are not guarantees of future performance or development and involve known and unknown risks, uncertainties, and other factors that are in some cases beyond our control. As a result, any or all of our forward-looking statements in this Quarterly Report may turn out to be inaccurate. Factors that could materially affect our business operations and financial performance and condition include, but are not limited to, those risks and uncertainties described herein under "Item 1A. Risk Factors." and those described in our Annual Report on Form 10-K for the year ended December 31, 2022, under "Item 1A. Risk Factors." You are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on the forward-looking statements. The forward-looking statements are based on information available to us as of the filing date of this Quarterly Report. Unless required by law, we do not intend to publicly update or revise any forward-looking statements to reflect new information or future events or otherwise. You should, however, review the risk factors we describe in the reports we will file from time to time with the Securities and Exchange Commission (the "SEC") after the date of this Quarterly Report.

This Quarterly Report also contains market data related to our business and industry. These market data include projections that are based on a number of assumptions. If these assumptions turn out to be incorrect, actual results may differ from the projections based on these assumptions. As a result, our markets may not grow at the rates projected by these data, or at all. The failure of these markets to grow at these projected rates may harm our business, results of operations, financial condition and the market price of our common stock.

VAXART, INC.

Notes to the Condensed Consolidated Financial Statements (Unaudited)

NOTE 1. Organization and Nature of Business

General

Vaxart Biosciences, Inc. was originally incorporated in California in March 2004, under the name West Coast Biologicals, Inc. The Company changed its name to Vaxart, Inc. ("Private Vaxart") in July 2007, and reincorporated in the state of Delaware. In February 2018, Private Vaxart completed a business combination with Aviragen Therapeutics, Inc. ("Aviragen"), pursuant to which Aviragen merged with Private Vaxart, with Private Vaxart surviving as a wholly-owned subsidiary of Aviragen (the "Merger"). Pursuant to the terms of the Merger, Aviragen changed its name to Vaxart, Inc. (together with its subsidiaries, the "Company" or "Vaxart") and Private Vaxart changed its name to Vaxart Biosciences, Inc.

In June 2023, Vaxart completed an underwritten public offering (the "June 2023 Offering") in which 16,000,000 shares of its common stock were sold at an offering price of \$ 0.8680 per share pursuant to the Company's effective shelf registration statement on Form S-3 (the "2023 Shelf Registration"). The net proceeds from the June 2023 Offering were \$ 13.6 million after deducting underwriting discounts and commission and estimated offering expenses payable by Vaxart.

On September 15, 2021, the Company entered into a Controlled Equity Offering Sales Agreement (the "September 2021 ATM"), pursuant to which it may offer and sell, from time to time through sales agents, shares of its common stock having an aggregate offering price of up to \$ 100 million. The Company filed a prospectus supplement with the U.S. Securities and Exchange Commission (the "SEC") on September 16, 2021, and a subsequent prospectus supplement with the SEC on May 9, 2023, and will pay sales commissions of up to 3.0 % of gross proceeds from the sale of shares.

During the nine months ended September 30, 2023, 1,362,220 shares were issued and sold under the September 2021 ATM for gross proceeds of \$ 1.5 million, which, after deducting sales commissions and expenses incurred to date, resulted in net proceeds of \$ 1.4 million. Since September 30, 2023, the Company has not raised any additional capital under the September 2021 ATM.

The Company's principal operations are based in South San Francisco, California, and it operates in one reportable segment, which is the discovery and development of oral recombinant protein vaccines, based on its proprietary oral vaccine platform.

NOTE 2. Summary of Significant Accounting Policies

Basis of Presentation, Liquidity and Going Concern – The accompanying condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and pursuant to the accounting and disclosure rules and regulations of the SEC assuming the Company will continue as a going concern.

The Company is a clinical-stage biotechnology company with no product sales. Its primary source of capital is from the sale and issuance of common stock and common stock warrants. As of September 30, 2023, the Company had cash, cash equivalents, restricted cash, and investments of \$ 53.0 million. The Company's cash, cash equivalents, restricted cash and investments are not sufficient to fund the Company's planned operations for a period of 12 months from the date the financial statements are issued.

The Company will be dependent upon raising additional capital through placement of its common stock, notes or other securities, borrowings, or entering into a partnership with a strategic party in order to implement its business plan. The Company is currently not in compliance with the minimum bid price requirement for continued listing on The Nasdaq Capital Market and has been provided an initial compliance period until January 17, 2024, to regain compliance. The Company may be eligible for an additional 180 calendar days compliance period under certain circumstances. If the Company does not regain compliance during the compliance period, the Company's common stock will be delisted from Nasdaq. The delisting of the Company's common stock from Nasdaq may make it more difficult for the Company to raise capital on favorable terms in the future, or at all. There can be no assurance that the Company will be successful raising additional capital.

Based on management's current plan, the Company expects to have enough cash runway into the third quarter of 2024. If the Company is unable to raise additional capital in sufficient amounts or on acceptable terms, management's plans include further reducing or delaying operating expenses. These conditions raise substantial doubt about the Company's ability to continue as a going concern for a period of one year from the date of the issuance of these condensed consolidated financial statements. The accompanying condensed consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business.

The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

The condensed consolidated balance sheet as of December 31, 2022, included in this filing, was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. Certain information and footnote disclosures normally included in consolidated financial statements have been condensed or omitted pursuant to these rules and regulations. These condensed consolidated financial statements should be read in conjunction with the Company's audited financial statements and footnotes related thereto for the year ended December 31, 2022, included in the Company's Annual Report on Form 10-K filed with the SEC on March 15, 2023 (the "Annual Report"). Unless noted below, there have been no material changes to the Company's significant accounting policies described in Note 2 to the consolidated financial statements included in the Annual Report. In the opinion of management, the unaudited condensed consolidated financial statements include all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the Company's financial position and the results of its operations and cash flows. The results of operations for such interim periods are not necessarily indicative of the results to be expected for the full year or any future periods.

Basis of Consolidation – The condensed consolidated financial statements include the financial statements of Vaxart, Inc. and its subsidiaries. All significant transactions and balances between Vaxart, Inc. and its subsidiaries have been eliminated in consolidation.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and disclosure of contingent assets and liabilities in the financial statements and accompanying notes. Actual results and outcomes could differ from these estimates and assumptions.

VAXART, INC.**Notes to the Condensed Consolidated Financial Statements (Unaudited)**

Concentration of Credit Risk – Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of cash, cash equivalents, restricted cash and available-for-sale investments. The Company places its cash, cash equivalents, restricted cash and available-for-sale investments at financial institutions that management believes are of high credit quality. The Company is exposed to credit risk in the event of default by the financial institutions holding the cash, cash equivalents and restricted cash to the extent such amounts are in excess of the federally insured limits. Losses incurred or a lack of access to such funds could have a significant adverse impact on the Company's financial condition, results of operations, and cash flows.

The primary focus of the Company's investment strategy is to preserve capital and meet liquidity requirements. The Company's investment policy addresses the level of credit exposure by limiting the concentration in any one corporate issuer or sector and establishing a minimum allowable credit rating.

Recent Accounting Pronouncements

The Company has reviewed all newly-issued accounting pronouncements that are not yet effective and concluded that they are either not applicable to its operations or their adoption is not expected to have a material impact on its financial position or results of operations.

NOTE 3. Fair Value of Financial Instruments

Fair value accounting is applied for all financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). Financial instruments include cash and cash equivalents, marketable securities, accounts receivable and accounts payable that approximate fair value due to their relatively short maturities.

Assets and liabilities recorded at fair value on a recurring basis in the balance sheets are categorized based upon the level of judgment associated with inputs used to measure their fair values. The accounting guidance for fair value provides a framework for measuring fair value and requires certain disclosures about how fair value is determined. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The accounting guidance also establishes a three-level valuation hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether such inputs are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions made by the reporting entity.

The three-level hierarchy for the inputs to valuation techniques is briefly summarized as follows:

Level 1 – Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date;

Level 2 – Inputs are observable, unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities; and

Level 3 – Unobservable inputs that are significant to the measurement of the fair value of the assets or liabilities that are supported by little or no market data.

The following table sets forth the fair value of the Company's financial assets that are measured on a recurring basis as of September 30, 2023 and December 31, 2022 (in thousands):

	Level 1	Level 2	Level 3	Total
September 30, 2023				
Financial assets:				
Money market funds	\$ 27,975	\$ —	\$ —	\$ 27,975
U.S. Treasury securities	—	19,799	—	19,799
Total	\$ 27,975	\$ 19,799	\$ —	\$ 47,774
December 31, 2022				
Financial assets:				
Money market funds	\$ 30,834	\$ —	\$ —	\$ 30,834
U.S. Treasury securities	—	41,542	—	41,542
Commercial paper	—	5,674	—	5,674
Corporate debt securities	—	2,488	—	2,488
Total	\$ 30,834	\$ 49,704	\$ —	\$ 80,538

The Company held no recurring financial liabilities as of September 30, 2023, or December 31, 2022.

VAXART, INC.

Notes to the Condensed Consolidated Financial Statements (Unaudited)

NOTE 4. Balance Sheet Components

(a) Cash, Cash Equivalents, Restricted Cash and Investments

Cash, cash equivalents, restricted cash and investments consisted of the following (in thousands):

	Amortized Cost	Gross Unrealized		Estimated Fair Value	Cash and Cash Equivalents and Restricted Cash	Short-Term Investments
		Gains	Losses			
September 30, 2023						
Cash at banks	\$ 5,263	\$ —	\$ —	\$ 5,263	\$ 5,263	\$ —
Money market funds	27,975	—	—	27,975	27,975	—
U.S. Treasury securities	19,810	—	(11)	19,799	—	19,799
Total	\$ 53,048	\$ —	\$ (11)	\$ 53,037	\$ 33,238	\$ 19,799

	Amortized Cost	Gross Unrealized		Estimated Fair Value	Cash and Cash Equivalents and Restricted Cash	Short-Term Investments
		Gains	Losses			
December 31, 2022						
Cash at banks	\$ 15,179	\$ —	\$ —	\$ 15,179	\$ 15,179	\$ —
Money market funds	30,834	—	—	30,834	30,834	—
U.S. Treasury securities	41,812	—	(270)	41,542	—	41,542
Commercial paper	2,488	—	—	2,488	—	2,488
Corporate debt securities	5,703	—	(29)	5,674	—	5,674
Total	\$ 96,016	\$ —	\$ (299)	\$ 95,717	\$ 46,013	\$ 49,704

Cash and cash equivalents and restricted cash of \$ 33.2 million as of September 30, 2023 and \$ 46.0 million as of December 31, 2022, includes restricted cash of \$ 79,000 and \$ 2.0 million, respectively.

(b) Property and Equipment, Net

Property and equipment, net consists of the following (in thousands):

	September 30, 2023	December 31, 2022
Laboratory equipment	\$ 13,638	\$ 12,035
Office and computer equipment	1,105	1,078
Leasehold improvements	4,098	1,760
Construction in progress	27	3,984
Total property and equipment	18,868	18,857
Less: accumulated depreciation	(5,942)	(3,272)
Property and equipment, net	\$ 12,926	\$ 15,585

Depreciation expense was \$ 1.0 million and \$ 0.5 million for the three months ended September 30, 2023 and 2022, respectively, and \$ 2.8 million and \$ 1.3 million for the nine months ended September 30, 2023 and 2022, respectively. There were no material impairments of the Company's property and equipment recorded in the nine months ended September 30, 2023, or 2022, respectively.

(c) Right-of-Use Assets, Net

Right-of-use assets, net comprises facilities of \$ 25.8 million and \$ 25.7 million as of September 30, 2023 and December 31, 2022, respectively.

(d) Intangible Assets, Net

Intangible assets comprise developed technology and intellectual property. Intangible assets are carried at cost less accumulated amortization. Amortization is computed using the straight-line method over useful life of 11.75 years for developed technology and 20 years for intellectual property. As of September 30, 2023, developed technology and intellectual property had remaining lives of 6.1 and 4.25 years, respectively. As of September 30, 2023, there have been no indicators of impairment. Intangible assets consist of the following (in thousands):

	September 30, 2023	December 31, 2022
Developed technology	\$ 5,000	\$ 5,000
Intellectual property	80	80
Total cost	5,080	5,080
Less: accumulated amortization	(608)	(60)
Intangible assets, net	\$ 4,472	\$ 5,020

VAXART, INC.**Notes to the Condensed Consolidated Financial Statements (Unaudited)**

Intangible asset amortization expense for the three months ended September 30, 2023 and 2022, was \$ 0.2 million and \$ 0.3 million, respectively, and for the nine months ended September 30, 2023 and 2022, \$ 0.5 million and \$ 1.0 million respectively.

As of September 30, 2023, the estimated future amortization expense by year is as follows (in thousands):

Year Ending December 31,	Amount
2023 (three months remaining)	\$ 183
2024	731
2025	731
2026	731
2027	731
Thereafter	1,365
Total	\$ 4,472

(e) Goodwill

Goodwill, which represents the excess of the purchase price over the fair value of assets acquired, comprises \$ 4.5 million as of September 30, 2023 and December 31, 2022. As of September 30, 2023, there have been no indicators of impairment.

(f) Other Accrued Liabilities

Other accrued liabilities consist of the following (in thousands):

	September 30, 2023	December 31, 2022
Accrued compensation	\$ 4,573	\$ 3,112
Accrued clinical and manufacturing expenses	535	2,413
Accrued professional and consulting services	306	691
Other liabilities, current portion	577	1,868
Total	\$ 5,991	\$ 8,084

NOTE 5. Revenue*Royalty Agreement*

The Company generates royalty revenue from the sale of Inavir in Japan, pursuant to a collaboration and license agreement that Aviragen entered into with Daiichi Sankyo Company, Limited ("Daiichi Sankyo") in 2009. In September 2010, Ininamivir octanoate was approved for sale by the Japanese Ministry of Health and Welfare for the treatment of influenza in adults and children, which Daiichi Sankyo markets as Inavir. Under the agreement, the Company currently receives a 4 % royalty on net sales of Inavir in Japan. The last patent related to Inavir is set to expire in December 2029, at which time royalty revenue will cease. The Company's royalty revenue is seasonal, in line with the flu season, so the majority of the Company's royalty revenue and non-cash royalty revenue related to the sale of future royalties are earned in the first and fourth fiscal quarters. The royalty revenue related to Inavir recognized in the nine months ended September 30, 2023 and 2022, was nil. In addition, the Company recognized non-cash royalty revenue related to sale of future royalties (see [Note 6](#)) of \$ 0.4 million and nil in the three months ended September 30, 2023 and 2022, respectively, and \$ 0.8 million and \$ 85,000 in the nine months ended September 30, 2023 and 2022, respectively. Both royalty revenue and the non-cash royalty revenue related to sale of future royalties are subject to a 5 % withholding tax in Japan, for which \$ 23,000 and nil was included in income tax expense in the three months ended September 30, 2023 and 2022, respectively, and \$ 38,000 and \$ 4,000 in the nine months ended September 30, 2023 and 2022, respectively.

Grant Revenue

In November 2022, the Company accepted a grant (the "BMGF Grant") to perform research and development work for the Bill & Melinda Gates Foundation ("BMGF") and received \$ 2.0 million in advance that was recorded as restricted cash and deferred revenue. The Company received an additional \$ 1.5 million in July 2023 upon completion of certain milestones. The Company recognizes revenue under research contracts only when a contract has been executed and the contract price is fixed or determinable. Revenue from the BMGF Grant is recognized in the period during which the related costs are incurred and the related services are rendered, provided that the applicable conditions under the contract have been met. Costs of contract revenue are recorded as a component of operating expenses in the consolidated statements of operations and comprehensive loss. The Company recognized revenue from the BMGF Grant of \$ 1.7 million and \$ 3.4 million in the three and nine months ended September 30, 2023, respectively. As of September 30, 2023 and December 31, 2022, restricted cash and deferred revenue were \$ 79,000 and \$ 2.0 million, respectively.

NOTE 6. Liabilities Related to Sale of Future Royalties

In April 2016, Aviragen entered into a Royalty Interest Acquisition Agreement (the "RIAA") with HealthCare Royalty Partners III, L.P. ("HCRP"). Under the RIAA, HCRP made a \$ 20.0 million cash payment to Aviragen in consideration for acquiring certain royalty rights ("Royalty Rights") related to the approved product Inavir in the Japanese market. The Royalty Rights were obtained pursuant to the collaboration and license agreements (the "License Agreement") and a commercialization agreement that the Company entered into with Daiichi Sankyo. Per the terms of the RIAA, HCRP is entitled to the first \$ 3.0 million plus 15 % of the next \$ 1.0 million in royalties earned in each year commencing on April 1, with any excess revenue being retained by the Company.

VAXART, INC.**Notes to the Condensed Consolidated Financial Statements (Unaudited)**

Under the relevant accounting guidance, due to a limit on the amount of royalties that HCRP can earn under the RIAA, this transaction was accounted for as a liability that is being amortized using the effective interest method over the life of the arrangement. The Company has no obligation to pay any amounts to HCRP other than to pass through to HCRP its share of royalties as they are received from Daiichi Sankyo. To record the amortization of the liability, the Company is required to estimate the total amount of future royalty payments to be received under the License Agreement and the payments that will be passed through to HCRP over the life of this agreement. Consequently, the Company imputes interest on the unamortized portion of the liability and records non-cash interest expense using an estimated effective interest rate. The royalties earned in each period that will be passed through to HCRP are recorded as non-cash royalty revenue related to sale of future royalties, with any excess not subject to pass-through being recorded as royalty revenue. When the pass-through royalties are paid to HCRP in the following quarter, the imputed liability related to sale of future royalties is commensurately reduced. The Company periodically assesses the expected royalty payments, and to the extent such payments are greater or less than the initial estimate, the Company adjusts the amortization of the liability and interest rate. As a result of this accounting, even though the Company does not retain HCRP's share of the royalties, it will continue to record non-cash revenue related to those royalties until the amount of the associated liability, including the related interest, is fully amortized.

The following table shows the activity within the liability account during the nine months ended September 30, 2023 (in thousands):

Total liability related to sale of future royalties, start of period	\$ 5,716
Non-cash royalty revenue paid to HCRP	(314)
Non-cash interest expense recognized	573
Total liability related to sale of future royalties, end of period	5,975
Current portion	(1,342)
Long-term portion	\$ 4,633

NOTE 7. Leases

The Company has obtained the right of use for office and manufacturing facilities under seven operating lease agreements with initial terms exceeding one year and has one operating lease agreement for facilities and one for manufacturing equipment with initial terms of one year or less. The lease term at the commencement date is determined by considering whether renewal options and termination options are reasonably assured of exercise.

In September 2021, the Company executed a lease for a facility in South San Francisco, California, with an initial term expiring on March 31, 2029. This lease has two separate components, one commenced in the third quarter of 2022 and the other in the first quarter of 2023 resulting in an additional right of use asset \$ 15.0 million and \$ 3.1 million, respectively.

As of September 30, 2023, the weighted average discount rate for operating leases with initial terms of more than one year was 9.8 % and the weighted average remaining term of these leases was 5.4 years. Discount rates were determined using the Company's marginal rate of borrowing at the time each lease was executed or extended.

The following table summarizes the Company's undiscounted cash payment obligations for its operating lease liabilities with initial terms of more than twelve months as of September 30, 2023 (in thousands):

Year Ending December 31,	
2023 (three months remaining)	\$ 1,043
2024	4,275
2025	4,421
2026	4,975
2027	5,205
2028	5,387
Thereafter	1,410
Undiscounted total	26,716
Less: imputed interest	(6,257)
Present value of future minimum payments	20,459
Current portion of operating lease liability	(2,517)
Operating lease liability, net of current portion	\$ 17,942

The Company has a future payment obligation of up to \$0.2 million that is not reflected in the table above relating to a lease agreement that has not yet commenced but was executed as of September 30, 2023. The Company presently has no finance leases and no future obligations under operating leases with initial terms of one year or less.

VAXART, INC.**Notes to the Condensed Consolidated Financial Statements (Unaudited)**

The Company is also required to pay for operating expenses related to the leased space. The operating expenses are incurred separately and were not included in the present value of lease payments. Operating lease expenses for the three and nine months ended September 30, 2023, and 2022 are summarized as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
Lease cost				
Operating lease cost	\$ 1,554	\$ 1,202	\$ 4,617	\$ 2,652
Short-term lease cost	10	117	41	335
Variable lease cost	459	397	1,401	926
Total lease cost	\$ 2,023	\$ 1,716	\$ 6,059	\$ 3,913

NOTE 8. Commitments and Contingencies**(a) Purchase Commitments**

As of September 30, 2023, the Company had approximately \$ 4.8 million of non-cancelable purchase commitments, principally for contract manufacturing and clinical services which are expected to be paid within the next year.

(b) Indemnifications

In the ordinary course of business, the Company enters into agreements that may include indemnification provisions. Pursuant to such agreements, the Company may indemnify, hold harmless and defend indemnified parties for losses suffered or incurred by the indemnified party. Some of the provisions will limit losses to those arising from third-party actions. In some cases, the indemnification will continue after the termination of the agreement. The maximum potential amount of future payments the Company could be required to make under these provisions is not determinable. The Company has also entered into indemnification agreements with certain officers and directors which provide, among other things, that the Company will indemnify and advance expenses incurred in connection with certain actions, suits or proceedings to such officer or director, under the circumstances and to the extent provided for therein, for expenses, damages, judgments, fines and settlements he or she may be required to pay in actions or proceedings which he or she is or may be made a party by reason of his or her position as a director, officer or other agent of the Company, and otherwise to the fullest extent permitted under Delaware law and the Company's Bylaws. The Company currently has directors' and officers' insurance.

(c) Litigation

From time to time the Company may be involved in legal proceedings arising in connection with its business. Based on information currently available, the Company believes that the amount, or range, of reasonably possible losses in connection with any pending actions against it in excess of established reserves, in the aggregate, is indeterminable to its consolidated financial condition or cash flows. However, any current or future dispute resolution or legal proceeding, regardless of the merits of any such proceeding, could result in substantial costs and a diversion of management's attention and resources that are needed to run the Company successfully, and could have a material adverse impact on its business, financial condition and results of operations.

On October 23, 2020, a complaint was filed in the U.S. District Court for the Southern District of New York, entitled *Roth v. Armistice Capital LLC, et al.* The complaint names Armistice and certain Armistice-related parties as defendants, asserting a violation of Exchange Act Section 16(b) and seeking the disgorgement of short-swing profits. The complaint purports to bring the lawsuit on behalf of and for the benefit of the Company and names the Company as a "nominal defendant" for whose benefit damages are sought.

On January 8, 2021, a purported shareholder, Phillip Chan, commenced a *pro se* lawsuit in the U.S. District Court for the Northern District of California titled *Chan v. Vaxart, Inc. et al.* (the "Opt-Out Action"), opting out of the consolidated Himmelberg v. Vaxart, Inc. et al. and Hovhannisyan v. Vaxart, Inc. et al. class actions, (together, the "Putative Class Action"). Because this complaint is nearly identical to an earlier version of a complaint filed in the Putative Class Action, the Opt-Out Action has been stayed while the Putative Class Action is pending.

NOTE 9. Stockholders' Equity**(a) Preferred Stock**

The Company is authorized to issue 5,000,000 shares of preferred stock, \$ 0.0001 par value per share. The Company's board of directors may, without further action by the stockholders, fix the rights, preferences, privileges and restrictions of up to an aggregate of 5,000,000 shares of preferred stock in one or more series and authorize their issuance. These rights, preferences and privileges could include dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences, sinking fund terms and the number of shares constituting any series or the designation of such series, any or all of which may be greater than the rights of our common stock. The issuance of preferred stock could adversely affect the voting power of holders of common stock and the likelihood that such holders will receive dividend payments and payments upon liquidation. In addition, the issuance of preferred stock could have the effect of delaying, deterring or preventing a change of control or other corporate action. No shares of preferred stock are currently outstanding, and the Company has no present plan to issue any shares of preferred stock.

VAXART, INC.

Notes to the Condensed Consolidated Financial Statements (Unaudited)

(b) Common Stock

As of September 30, 2023, the Company was authorized to issue 250,000,000 shares of common stock, \$ 0.0001 par value per share, which includes an increase of 100,000,000 on August 4, 2022, when the Company's stockholders approved an amendment to the Company's certificate of incorporation to increase the number of authorized shares of common stock from 150,000,000 shares. Except as otherwise required by law or as otherwise provided in any certificate of designation for any series of preferred stock, the holders of common stock possess all voting power for the election of the Company's directors and all other matters requiring stockholder action. Holders of common stock are entitled to one vote per share on matters to be voted on by stockholders. Holders of common stock are entitled to receive such dividends, if any, as may be declared from time to time by the Company's board of directors at its discretion out of funds legally available therefor. In no event will any stock dividends or stock splits or combinations of stock be declared or made on common stock unless the shares of common stock at the time outstanding are treated equally and identically. As of September 30, 2023, no dividends had been declared by the board of directors.

In the event of the Company's voluntary or involuntary liquidation, dissolution, distribution of assets or winding-up, the holders of the common stock will be entitled to receive an equal amount per share of all the Company's assets of whatever kind available for distribution to stockholders, after the rights of the holders of the preferred stock have been satisfied. There are no sinking fund provisions applicable to the common stock.

The Company had shares of common stock reserved for issuance as follows:

	September 30, 2023	December 31, 2022
Options issued and outstanding	18,073,909	14,725,261
RSUs issued and outstanding	3,594,698	808,310
Available for future grants of equity awards	5,527,341	12,074,692
Common stock warrants	227,434	227,434
2022 Employee Stock Purchase Plan	1,498,939	1,800,000
Total	28,922,321	29,635,697

In June 2023, Vaxart completed an underwritten public offering in which 16,000,000 shares of its common stock were sold at an offering price of \$ 0.8680 per share pursuant to the Company's effective 2023 Shelf Registration. The net proceeds from the June 2023 Offering were \$ 13.6 million after deducting underwriting discounts and commission and estimated offering expenses payable by Vaxart. The June 2023 Offering included a 30-day option to purchase up to an additional 2,400,000 common shares at the offering price of \$ 0.8680 per share which expired in July 2023.

(c) Warrants

The following warrants were outstanding as of September 30, 2023, all of which contain standard anti-dilution protections in the event of subsequent rights offerings, stock splits, stock dividends or other extraordinary dividends, or other similar changes in the Company's common stock or capital structure, and none of which have any participating rights for any losses:

Securities into which warrants are convertible	Warrants Outstanding	Exercise Price	Expiration Date
Common Stock	44,148	\$ 1.10	April 2024
Common Stock	26,515	\$ 1.375	April 2024
Common Stock	29,150	\$ 2.50	March 2025
Common Stock	100,532	\$ 3.125	February 2025
Common Stock	16,175	\$ 3.125	March 2024
Common Stock	10,914	\$ 22.99	December 2026
Total	227,434		

In the event of a Fundamental Transaction (a transfer of ownership of the Company as defined in the warrant) within the Company's control, the holders of the unexercised common stock warrants exercisable for \$ 1.10 and \$ 2.50 and those exercisable for \$ 3.125 expiring in February 2025 shall be entitled to receive cash consideration equal to a Black-Scholes valuation, as defined in the warrant. If such Fundamental Transaction is not within the Company's control, the warrant holders would only be entitled to receive the same form of consideration (and in the same proportion) as the holders of the Company's common stock, hence these warrants are classified as a component of permanent equity.

VAXART, INC.

Notes to the Condensed Consolidated Financial Statements (Unaudited)

NOTE 10. Equity Incentive Plans

On April 23, 2019, the Company's stockholders approved the adoption of the 2019 Equity Incentive Plan (the "2019 Plan"), under which the Company is authorized to issue incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock awards, restricted stock units ("RSUs"), other stock awards and performance awards that may be settled in cash, stock, or other property. The 2019 Plan is designed to secure and retain the services of employees, directors and consultants, provide incentives for the Company's employees, directors and consultants to exert maximum efforts for the success of the Company and its affiliates, and provide a means by which employees, directors and consultants may be given an opportunity to benefit from increases in the value of the Company's common stock. Following adoption of the 2019 Plan, all previous plans were frozen, and on forfeiture, cancellation and expiration, awards under those plans are not assumed by the 2019 Plan.

The aggregate number of shares of common stock authorized for issuance under the 2019 Plan was initially 1,600,000 shares, which was increased through an amendment to the 2019 Plan adopted by the Company's stockholders (a "Plan Amendment") on June 8, 2020, to 8,000,000 , by a Plan Amendment on June 16, 2021, to 16,900,000 , and by a Plan Amendment on August 4, 2022, to 28,900,000 . Further amendments to the 2019 Plan to increase the share reserve would require stockholder approval. Awards that are forfeited or canceled generally become available for issuance again under the 2019 Plan. Awards have a maximum term of ten years from the grant date and may vest over varying periods, as specified by the Company's board of directors for each grant.

A summary of stock option and RSU transactions in the nine months ended September 30, 2023, is as follows:

	Shares Available For Grant	Number of Options Outstanding	Weighted Option Average Exercise Price	Unvested RSU Shares Outstanding	Weighted RSU Average Grant Date Fair Value
Balance as of January 1, 2023	12,074,692	14,725,261	\$ 4.48	808,310	\$ 3.57
Granted	(10,631,320)	7,399,849	\$ 0.78	3,231,471	\$ 0.78
Exercised	—	(54,720)	\$ 0.31	—	\$ —
Released	—	—	\$ —	(163,766)	\$ 3.82
Forfeited	2,347,716	(2,066,399)	\$ 5.08	(281,317)	\$ 2.53
Canceled	1,736,253	(1,930,082)	\$ 4.48	—	\$ —
Balance as of September 30, 2023	5,527,341	18,073,909	\$ 2.91	3,594,698	\$ 1.13

As of September 30, 2023, there were 18,073,909 options outstanding with a weighted average exercise price of \$ 2.91 , a weighted average remaining term of 8.43 years and an aggregate intrinsic value of \$ 52,000 . Of these options, 6,434,571 were vested, with a weighted average exercise price of \$ 4.08 , a weighted average remaining term of 7.27 years and an aggregate intrinsic value of \$ 44,000 .

The Company received \$ 17,000 for the 54,720 options exercised during the nine months ended September 30, 2023, which had an intrinsic value of \$ 31,000 and received \$ 214,000 for the 166,993 options exercised during the nine months ended September 30, 2022, which had an intrinsic value of \$ 474,000 . The aggregate intrinsic value represents the total pre-tax value (i.e., the difference between the Company's stock price and the exercise price) of stock options outstanding as of September 30, 2023, based on the Company's common stock closing price of \$ 0.75 on September 29, 2023, the prior business day, which would have been received by the option holders had all their in-the-money options been exercised as of that date.

The weighted average grant date fair value of options awarded in the nine months ended September 30, 2023 and 2022, was \$ 0.78 and \$ 3.88 , respectively. Their fair values were estimated using the following assumptions:

	Nine Months Ended September 30,	
	2023	2022
Risk-free interest rate	3.45 % - 4.15%	1.62 % - 3.20%
Expected term (in years)	5.50 - 6.00	5.42 - 6.08
Expected volatility	128 % - 134%	125 % - 131%
Dividend yield	—%	—%

The Company measures the fair value of all stock-based awards on the grant date and records the fair value of these awards, net of estimated forfeitures, to compensation expense over the service period. Total stock-based compensation recognized for options, RSUs and ESPP was as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
Research and development	\$ 2,404	\$ 2,567	\$ 6,142	\$ 6,977
General and administrative	1,439	1,076	4,275	3,217
Total stock-based compensation	\$ 3,843	\$ 3,643	\$ 10,417	\$ 10,194

As of September 30, 2023, the unrecognized stock-based compensation cost related to outstanding unvested stock options and RSUs expected to vest was \$ 21.3 million, which the Company expects to recognize over an estimated weighted average period of 2.24 years.

VAXART, INC.

Notes to the Condensed Consolidated Financial Statements (Unaudited)

On August 4, 2022, the 2022 Employee Stock Purchase Plan (the "2022 ESPP") was approved by the Company's stockholders. The Company reserved 1,800,000 shares of the Company's common stock for purchase under the ESPP. The ESPP has a six-month offering period comprised of one purchase period. The purchase price of the stock is equal to 85% of the lesser of the market value of such shares at the beginning of the six-month offering period or the end of such offering period. During the nine months ended September 30, 2023, the Company received \$ 298,000 and issued 301,061 shares under the ESPP. As of September 30, 2023, 1,498,939 shares are available and reserved for future issuance under the ESPP.

The estimated fair value used for the six-month offering period beginning June 1, 2023 and ending November 30, 2023, was \$ 0.54 per share. The estimated fair value used for the six-month offering period beginning December 1, 2022 and ending May 31, 2023 was \$ 0.46 per share. Stock-based compensation expense related to the ESPP for the nine months ended September 30, 2023, was \$ 270,000. As of September 30, 2023, the unrecognized stock-based compensation cost related to outstanding ESPP expected to be recognized is \$ 61,000 by November 2023. The fair value of the ESPP shares was estimated using the Black-Scholes option pricing model using the following assumptions:

	Six-Month Offering Period Ending November 30, 2023	Six-Month Offering Period Ending May 31, 2023
Risk-free interest rate	5.37%	4.60%
Expected term (in years)	0.5	0.5
Expected volatility	98.55%	84.66%
Dividend yield	—%	—%

NOTE 11. Net Loss Per Share

The following table presents the calculation of basic and diluted net loss per share (in thousands, except share and per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
Net loss	\$ (17,400)	\$ (29,309)	\$ (65,090)	\$ (83,840)
Shares used to compute net loss per share – basic and diluted	152,026,112	126,889,718	145,810,175	126,374,424
Net loss per share – basic and diluted	\$ (0.11)	\$ (0.23)	\$ (0.45)	\$ (0.66)

No adjustment has been made to the net loss in the three and nine months ended September 30, 2023, or 2022, as the effect would be anti-dilutive due to the net loss.

The following potentially dilutive weighted average securities were excluded from the computation of weighted average shares outstanding because they would have been antidilutive:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
Options to purchase common stock	18,151,747	14,735,710	17,019,217	13,170,959
Restricted stock units to purchase common stock	3,629,741	660,660	2,840,178	353,738
Warrants to purchase common stock	227,434	227,434	227,434	229,156
Employee Stock Purchase Plan	337,496	—	379,720	—
Total potentially dilutive securities excluded from denominator of the diluted earnings per share computation	22,346,418	15,623,804	20,466,549	13,753,853

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q and with our audited consolidated financial statements included in our Annual Report on Form 10-K filed with the SEC on March 15, 2023. This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are subject to the "safe harbor" created by those sections. Forward-looking statements are based on our management's beliefs and assumptions and on information currently available to our management. In some cases, you can identify forward-looking statements by terms such as "may," "will," "should," "could," "goal," "would," "expect," "plan," "anticipate," "believe," "estimate," "project," "predict," "potential" and similar expressions intended to identify forward-looking statements and reflect our beliefs and opinions on the relevant subject. Our actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to these differences include those discussed below and in this Quarterly Report on Form 10-Q. The forward-looking statements included in this Quarterly Report on Form 10-Q are made only as of the date hereof. These statements are based upon information available to us as of the filing date of this Quarterly Report on Form 10-Q, and while we believe such information forms a reasonable basis for such statements, such information may be limited or incomplete, and our statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all potentially available relevant information. These statements are inherently uncertain, and we caution investors against unduly relying upon these statements. In all events, we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, change in circumstances, future events or otherwise, and you are advised to consult any additional disclosures that we may make directly to you or through reports that we, in the future, may file with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

Company Overview and Background

Vaxart Biosciences, Inc. was originally incorporated in California under the name West Coast Biologicals, Inc. in March 2004 and changed its name to Vaxart, Inc. ("Private Vaxart") in July 2007, when it reincorporated in the state of Delaware. On February 13, 2018, Private Vaxart completed a reverse merger (the "Merger") with Aviragen Therapeutics, Inc. ("Aviragen"), pursuant to which Private Vaxart survived as a wholly owned subsidiary of Aviragen. Under the terms of the Merger, Aviragen changed its name to Vaxart, Inc. and Private Vaxart changed its name to Vaxart Biosciences, Inc.

We are a clinical-stage biotechnology company primarily focused on the development of oral recombinant vaccines based on our Vector-Adjuvant-Antigen Standardized Technology ("VAAST") proprietary oral vaccine platform. We are developing prophylactic vaccine candidates that target a range of infectious diseases, including norovirus (a widespread cause of acute gastroenteritis), coronavirus including SARS-CoV-2 (the virus that causes coronavirus disease 2019 ("COVID-19")), and influenza. In addition, we have generated preclinical data for our first therapeutic vaccine candidate targeting cervical cancer and dysplasia caused by human papillomavirus ("HPV"). Our investigational vaccines are administered using a room temperature-stable tablet, rather than by injection.

[Table of Contents](#)

Our Product Pipeline

Figure 1. The following table outlines the status of our oral vaccine development programs:

We are developing the following tablet vaccine candidates, which are all based on our proprietary platform:

- **Norovirus Vaccine.** Norovirus is the leading cause of acute gastroenteritis symptoms, such as vomiting and diarrhea, among people of all ages in the United States. Each year, on average, norovirus causes 19 to 21 million cases of acute gastroenteritis and contributes to 109,000 hospitalizations and 900 deaths, mostly among young children and older adults. In a study by the CDC and Johns Hopkins University, published in 2016, the global annual economic impact of norovirus disease was estimated at \$60 billion, \$34 billion of which occurred in high income regions including the United States. An update by the lead authors estimated the burden in the U.S. alone to be \$10.5 billion annually in 2018. Virtually all norovirus disease is caused by norovirus GI and GII genotypes, and we are developing a bivalent vaccine candidate designed to protect against both.

In September 2023, we announced that our Phase 2 GI.1 norovirus challenge study evaluating the safety, immunogenicity, and clinical efficacy of the GI.1 component of our bivalent norovirus vaccine candidate met five of six primary endpoints based on preliminary topline data. The study achieved its primary endpoints of a statistically significant 29% relative reduction in the rate of norovirus infection between the vaccinated and placebo arms, a strong induction of norovirus-specific immunoglobulin A (IgA) and immunoglobulin G (IgG) antibodies, and other immune response endpoints. Vaccination also led to a 21% relative reduction in norovirus acute gastroenteritis in the vaccine arm compared to placebo, but this was not statistically significant. In prespecified analyses, the study also showed an 85% relative decrease in viral shedding in the vaccine arm compared with placebo and no statistically significant difference in disease severity in the vaccinated cohort compared with placebo. The vaccine candidate was also safe and well tolerated with no vaccine-related serious adverse events.

In July 2023, we announced our Phase 2 placebo-controlled dose-ranging trial evaluating the safety and immunogenicity of our bivalent norovirus vaccine candidate met all primary endpoints and our bivalent norovirus vaccine candidate was well-tolerated with robust immunogenicity based on preliminary topline data. Preliminary results showed robust increases in serum antibody responses across both doses at Day 29 relative to Day 1. Placebo subjects did not have a measurable increase in the antibody response. The vaccine candidate also had a favorable safety profile that included no vaccine-related serious adverse events and no dose limiting toxicity. Adverse event rates for both doses were similar to placebo.

We are currently conducting additional analyses of the data from our norovirus trials and will engage with regulators to discuss a Phase 2B study and potentially a GII.4 challenge study. We expect the Phase 2B study will generate sufficient safety data to enable us to have an end of Phase 2 meeting with the FDA, potentially as early as in the fourth quarter of 2024. The end of Phase 2 meeting will allow us to gain concurrence on the scope and design of the Phase 3 pivotal efficacy study in adults over 18 years of age.

In the Fall of 2022, we announced a study that would receive significant funding and support from the Bill and Melinda Gates Foundation to evaluate whether our bivalent norovirus vaccine candidate induces antibodies in the breast milk of lactating mothers and whether infants up to six months of age can acquire those antibodies by breastfeeding. Passive transfer of antibodies from mother to infant that are induced in milk may protect breastfeeding infants from infectious pathogens. We initiated this study in the fourth quarter of 2023. As a grant recipient from the Bill and Melinda Gates Foundation, Vaxart has agreed to a global access commitment for use of its bivalent norovirus vaccine candidate, if proven effective and approved, in breastfeeding mothers from low- and middle-income countries.

- **Coronavirus Vaccine.** COVID-19, a severe respiratory tract infection caused by the virus SARS-CoV-2, is a major cause of hospitalization and death in the U.S. and worldwide. According to the CDC, an outbreak of COVID-19 began in Wuhan, China, in late 2019 and rapidly spread worldwide. While most COVID-19 restrictions, such as stay-at-home orders, have been lifted, COVID-19 continues to spread and remains a public health threat, not least due to the continuing emergence of new variants.

[Table of Contents](#)

In September 2022, we announced the results from the first part of a two-part Phase 2 clinical study evaluating the safety and immunogenicity of our oral COVID-19 (spike ("S") protein only) vaccine candidate VXA-CoV2-1.1-S met both its primary and secondary endpoints based on topline data. VXA-CoV2-1.1-S was able to boost the serum antibody responses for volunteers that previously received an mRNA vaccine (either Pfizer/BioNTech or Moderna). Serum neutralizing antibody responses to SARS-CoV-2 (Wuhan), a recognized correlate of protection, were boosted in this population from a geometric mean of 481 to 778, a fold rise of 1.6. Volunteers that had lower starting titers had larger increases than subjects that had higher titers. There were also substantial increases in the neutralizing antibody responses to the SARS-CoV-2 Omicron BA4/5 in these volunteers as measured by sVNT assay. Increases in the mucosal IgA antibody responses (antibodies in the nose and mouth) were observed in approximately 50% of subjects. Subjects that had an increase in the mucosal IgA response to SARS-CoV-2 Wuhan S had an increase in IgA responses to other coronaviruses including SARS-CoV-2 Omicron BA4/5, SARS-CoV-1, and MERS-CoV, demonstrating the cross-reactive nature of these immune readouts. We are not proceeding with the second part of the study.

In February 2021, we announced our Phase 1 study evaluating the safety and immunogenicity of our oral COVID-19 (S and nucleocapsid ("N") proteins) vaccine candidate VXA-CoV2-1 met both its primary and secondary endpoints based on preliminary data. Initial results showing cross-reactive mucosal antibody responses were published in *Science Translational Medicine*. Additional detailed study results and mucosal durability data were reported in *medRxiv* in July 2022.

We have also initiated preclinical work on novel vaccine constructs that seek to create more a potent pan-betacoronavirus vaccine candidate that would respond to SARS-CoV-2 and also other betacoronaviruses (such as SARS-CoV-1 and MERS-CoV).

The Company remains engaged in discussions with regulatory agencies, governments, non-governmental organizations and other potential strategic parties to determine the best way to progress its pan-betacoronavirus vaccine program.

- **Influenza Vaccine.** Flu is a contagious respiratory illness caused by influenza viruses that infect the nose, throat, and sometimes the lungs. An estimated one billion cases of seasonal influenza occur annually worldwide, of which three to five million cases are considered severe, causing 290,000 to 650,000 deaths per year. In the United States, between 9,000,000 to 41,000,000 people catch influenza annually, between 140,000 and 710,000 people are hospitalized with complications of influenza, and between 12,000 and 52,000 people die from influenza and its complications each year. The total economic burden of seasonal influenza in the United States has been estimated to be \$87.1 billion, including medical costs which average \$10.4 billion annually, while lost earnings due to illness and loss of life amount to \$16.3 billion annually.

In September 2018, we completed a \$15.7 million contract with the U.S. Government through the Department of Health and Human Services, Office of Biomedical Advanced Research and Development Authority ("BARDA") under which a Phase 2 challenge study of our H1N1 flu vaccine candidate was conducted. We announced that, in healthy volunteers immunized and then experimentally infected with H1 influenza, our H1 influenza oral tablet vaccine candidate reduced clinical disease by 39% relative to placebo. Fluzone, the market-leading injectable quadrivalent influenza vaccine, reduced clinical disease by 27%. Our tablet vaccine candidate also showed a favorable safety profile, indistinguishable from placebo.

On October 2018, we presented data from the study demonstrating that our vaccine candidate elicited a significant expansion of mucosal homing receptor plasmablasts to approximately 60% of all activated B cells. We believe these mucosal plasmablasts are a key indicator of a protective mucosal immune response and a unique feature of our vaccine candidates.

We have also initiated early-stage development on novel vaccine constructs containing our own antigens to develop a universal influenza vaccine candidate. We had previously produced a non-GMP oral vaccine candidate containing certain proprietary antigens from Janssen Vaccines & Prevention B.V. ("Janssen") and tested the candidate in a preclinical challenge model. The preclinical study has been completed and we have submitted a report to Janssen. In August 2023, Janssen announced it would exit all vaccine and infectious disease R&D programs aside from an E.coli preventive vaccine and continuing to provide access to marketed HIV products.

The Company intends to work with governments around the world to create pandemic monovalent influenza vaccines for emergency use or stockpiling, if requested. We are also continuing development of our preclinical seasonal and universal influenza vaccine candidates.

- **HPV Therapeutic Vaccine.** Cervical cancer is the fourth most common cancer in women worldwide and in the United States with about 13,000 new cases diagnosed annually in the United States according to the National Cervical Cancer Coalition. Our first therapeutic oral vaccine candidate targets HPV 16 and HPV 18, the two strains responsible for 70% of cervical cancers and precancerous cervical dysplasia.

We have tested our HPV 16 vaccine candidate in two different HPV 16 solid tumor models in mice. The HPV 16 vaccine candidate elicited T cell responses and promoted migration of the activated T cells into the tumors, leading to tumor cell killing. Mice that received our HPV 16 vaccine candidate showed a significant reduction in volume of their established tumors.

In October 2018, we filed a pre-IND meeting request with the FDA for our first therapeutic vaccine candidate targeting HPV 16 and HPV 18 and we subsequently submitted our pre-IND briefing package. We received feedback from the FDA in January 2019 to support submission of an IND application to support initiation of clinical testing.

The Company remains engaged in discussions with regulatory agencies, governments, non-governmental organizations and other potential strategic parties to determine the best way to progress its HPV program.

Antivirals

- Through the Merger, we acquired two royalty earning products, Relenza and Inavir. We also acquired three Phase 2 clinical stage antiviral compounds, which we have discontinued independent clinical development of. However, for one of these, Vapendavir, we entered into an exclusive worldwide license agreement with Altesa Biosciences, Inc. ("Altesa") in July 2021, permitting Altesa to develop and commercialize this capsid-binding broad spectrum antiviral. In May 2022, Altesa announced its intention to initiate clinical trials.
- Relenza and Inavir are antivirals for the treatment of influenza, marketed by GlaxoSmithKline, plc ("GSK") and Daiichi Sankyo Company, Limited ("Daiichi Sankyo"), respectively. We have earned royalties on the net sales of Relenza and Inavir in Japan. The last patent for Relenza expired in July 2019 and the last patent for Inavir expires in December 2029. Sales of these antivirals vary significantly by quarter, because influenza virus activity displays strong seasonal cycles, and by year depending on the intensity and duration of the flu season, the impact COVID-19 has had, and may continue to have, on seasonal influenza, and competition from other antivirals such as Tamiflu and Xofluza.

Financial Operations Overview

Revenue

Non-Cash Royalty Revenue Related to Sale of Future Royalties

In April 2016, Aviragen sold certain royalty rights related to Inavir in the Japanese market for \$20.0 million to HealthCare Royalty Partners III, L.P. ("HCRP"). We pay HCRP the first \$3 million plus 15% of the next \$1 million of royalties earned in annual periods ending on March 31. At the time of the Merger, the estimated future benefit to HCRP was remeasured at fair value and was estimated to be \$15.9 million, which we account for as a liability and amortize using the effective interest method over the remaining estimated life of the arrangement. The estimated future benefit was remeasured as of December 31, 2022, when the fair value was estimated to be \$5.7 million, resulting in a revaluation gain of \$7.0 million in the year ended December 31, 2022. Even though we do not retain the related royalties under the transaction, as the amounts are remitted to HCRP, we will continue to record revenue related to these royalties until the amount of the associated liability and related interest is fully amortized.

Grant Revenue

In November 2022, the Company accepted a grant (the "BMGF Grant") to perform research and development work for the Bill & Melinda Gates Foundation ("BMGF") and received \$2.0 million in advance that was recorded as restricted cash and deferred revenue. The Company received an additional \$1.5 million in July 2023 upon completion of certain milestones. The Company recognizes revenue under research contracts only when a contract has been executed and the contract price is fixed or determinable. Revenue from the BMGF Grant is recognized in the period during which the related costs are incurred and the related services are rendered, provided that the applicable conditions under the contract have been met. Costs of contract revenue are recorded as a component of operating expenses in the consolidated statements of operations and comprehensive loss. The Company recognized revenue from the BMGF Grant of \$1.7 million in the three months ended September 30, 2023 and \$3.4 million in the nine months ended September 30, 2023. As of September 30, 2023 and December 31, 2022, restricted cash and deferred revenue were \$79,000 and \$2.0 million, respectively.

Research and Development Expenses

Research and development expenses represent costs incurred on conducting research, such as developing our tablet vaccine platform, and supporting preclinical and clinical development activities of our tablet vaccine candidates. We recognize all research and development costs as they are incurred. Research and development expenses consist primarily of the following:

- employee-related expenses, which include salaries, benefits and stock-based compensation;
- expenses incurred under agreements with contract research organizations ("CROs"), that conduct clinical trials on our behalf;
- expenses incurred under agreements with contract manufacturing organizations ("CMOs"), that manufacture product used in the clinical trials;
- expenses incurred in procuring materials and for analytical and release testing services required to produce vaccine candidates used in clinical trials;
- process development expenses incurred internally and externally to improve the efficiency and yield of the bulk vaccine and tablet manufacturing activities
- laboratory supplies and vendor expenses related to preclinical research activities;
- consultant expenses for services supporting our clinical, regulatory and manufacturing activities; and
- facilities, depreciation and allocated overhead expenses.

We do not allocate our internal expenses to specific programs. Our employees and other internal resources are not directly tied to any one research program and are typically deployed across multiple projects. Internal research and development expenses are presented as one total.

We have incurred significant external costs for CROs that conduct clinical trials on our behalf, and for CMOs that manufacture our tablet vaccine candidates, although these costs have decreased since 2022 since we now perform the majority of our manufacturing activities in-house. We have captured these external costs for each vaccine program. We do not allocate external costs incurred on preclinical research or process development to specific programs.

[Table of Contents](#)

The following table shows our period-over-period research and development expenses, identifying external costs that were incurred in each of our vaccine programs and, separately, on preclinical research and process development (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2023	2022	2023	2022
External program costs:				
Norovirus program	\$ 1,648	\$ 2,491	\$ 9,065	\$ 6,229
COVID-19 program	884	2,287	2,876	5,244
Other programs	—	52	—	171
Preclinical research	68	317	698	1,267
Process development	103	634	887	1,820
Total external costs	2,703	5,781	13,526	14,731
Internal costs	12,299	16,685	39,911	45,864
Total research and development	\$ 15,002	\$ 22,466	\$ 53,437	\$ 60,595

We expect to incur significant research and development expenses in 2023 and beyond as we advance our tablet vaccine candidates into and through clinical trials, pursue regulatory approval of our tablet vaccine candidates and prepare for a possible commercial launch, all of which will also require a significant investment in manufacturing and inventory related costs. To the extent that we enter into licensing, partnering or collaboration agreements, a significant portion of such costs may be borne by third parties.

The process of conducting clinical trials necessary to obtain regulatory approval is costly and time consuming. We may never succeed in achieving marketing approval for our tablet vaccine candidates. The probability of successful commercialization of our tablet vaccine candidates may be affected by numerous factors, including clinical data obtained in future trials, competition, manufacturing capability and commercial viability. As a result, we are unable to determine the duration and completion costs of our research and development projects or when and to what extent we will generate revenue from the commercialization and sale of any of our tablet vaccine candidates.

General and Administrative Expense

General and administrative expenses consist of personnel costs, insurance, allocated expenses and expenses for outside professional services, including legal, audit, accounting, public relations, market research and other consulting services. Personnel costs consist of salaries, benefits and stock-based compensation. Allocated expenses consist of rent, depreciation and other facilities related expenses.

Results of Operations

The following table presents period-over-period changes in selected items in the condensed consolidated statements of operations and comprehensive loss for the three and nine months ended September 30, 2023 and 2022 (in thousands, except percentages):

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2023	2022	% Change	2023	2022	% Change
Revenue	\$ 2,101	\$ —	100%	\$ 4,134	\$ 85	*
Operating expenses	19,923	29,426	(32)%	70,581	83,534	(16)%
Operating loss	(17,822)	(29,426)	(39)%	(66,447)	(83,449)	(20)%
Net non-operating income (expense)	461	133	*	1,444	(340)	*
Loss before income taxes	(17,361)	(29,293)	(41)%	(65,003)	(83,789)	(22)%
Provision for income taxes	39	16	*	87	51	71%
Net loss	\$ (17,400)	\$ (29,309)	(41)%	\$ (65,090)	\$ (83,840)	(22)%

* Percentages greater than 100% or not meaningful

[Table of Contents](#)

Total Revenue

The following table summarizes the period-over-period changes in our revenues for the three and nine months ended September 30, 2023 and 2022 (in thousands, except percentages):

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2023	2022	% Change	2023	2022	% Change
Non-cash royalty revenue related to sale of future royalties	\$ 446	\$ —	100%	\$ 754	\$ 85	*
Grant revenue	1,655	—	100%	3,380	—	100%
Total revenue	\$ 2,101	\$ —	100%	\$ 4,134	\$ 85	*

* Percentages greater than 100% or not meaningful

Non-cash Royalty Revenue Related to Sale of Future Royalties

Non-cash royalty revenue related to sale of future royalties for the three months ended September 30, 2023 and 2022, was \$0.4 million and nil, respectively, and for the nine months ended September 30, 2023 and 2022, was \$0.8 million and \$85,000, respectively. The increase was due to an increase in sales of Inavir in Japan. Non-cash royalty revenue of up to \$3.3 million may be earned each year ending March 31. The Company's royalty revenue is seasonal, in line with the flu season, so the majority of the Company's royalty revenue and non-cash royalty revenue related to the sale of future royalties are earned in the first and fourth fiscal quarters.

Grant Revenue

The Company recognized revenue from the Bill and Melinda Gates Foundation Grant of \$1.7 million and \$3.4 million in the three and nine months ended September 30, 2023, respectively.

Total Operating Expenses

The following table summarizes the period-over-period changes in our operating expenses for the three and nine months ended September 30, 2023 and 2022 (in thousands, except percentages):

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2023	2022	% Change	2023	2022	% Change
Research and development	\$ 15,002	\$ 22,466	(33)%	\$ 53,437	\$ 60,595	(12)%
General and administrative	4,921	6,960	(29)%	17,144	22,939	(25)%
Total operating expenses	\$ 19,923	\$ 29,426	(32)%	\$ 70,581	\$ 83,534	(16)%

Research and Development

For the three months ended September 30, 2023, research and development expenses decreased by \$7.5 million, or 33%, compared to the three months ended September 30, 2022. The decrease is primarily due to decreases in manufacturing costs, personnel related costs and clinical trial expenses related to our COVID-19 vaccine candidates, partially offset by increased depreciation.

For the nine months ended September 30, 2023, research and development expenses decreased by \$7.2 million, or 12%, compared to the nine months ended September 30, 2022. The decrease is primarily due to decreases in manufacturing costs, personnel related costs and clinical trial expenses related to our COVID-19 vaccine candidates, partially offset by increased facilities and depreciation expense and increased clinical trial expenses related to our norovirus vaccine candidates.

General and Administrative

For the three months ended September 30, 2023, general and administrative expenses decreased by \$2.0 million, or 29%, compared to the three months ended September 30, 2022. The decrease is primarily due to a decrease in legal and professional fees, directors' and officers' insurance and personnel related costs, partially offset by an increase in personnel stock-based costs.

For the nine months ended September 30, 2023, general and administrative expenses decreased by \$5.8 million, or 25%, compared to the nine months ended September 30, 2022. The decrease is primarily due to a decrease in litigation settlement cost, legal and professional fees, directors' and officers' insurance and personnel related costs, partially offset by an increase in personnel stock-based costs.

[Table of Contents](#)

Non-Operating Income (Expense)

The following table summarizes the period-over-period changes in our non-operating income for the three and nine months ended September 30, 2023 and 2022, respectively (in thousands, except percentages):

	Three Months Ended September 30,			% Change	Nine Months Ended September 30,		
	2023	2022			2023	2022	% Change
Interest income	\$ 723	\$ 458		58%	\$ 2,076	\$ 650	*
Non-cash interest expense related to sale of future royalties	(207)	(325)		36%	(573)	(988)	42%
Other expense, net	(55)	—		*	(59)	(2)	*
Net non-operating income (expense)	<u>\$ 461</u>	<u>\$ 133</u>		*	<u>\$ 1,444</u>	<u>\$ (340)</u>	*

* Percentages greater than 100% or not meaningful

For the three months ended September 30, 2023, we recorded interest income of \$0.7 million, a 58% increase from the \$0.5 million interest income recorded in the three months ended September 30, 2022. For the nine months ended September 30, 2023, we recorded interest income of \$2.1 million, a 219% increase from the \$0.7 million interest income recorded in the nine months ended September 30, 2022. The increase is due to an increase in interest rates on our cash, cash equivalents, restricted cash and marketable securities.

Non-cash interest expense related to sale of future royalties, which relates to accounting for sums that will become payable to HCRP for royalty revenue earned from Inavir as debt, was \$0.2 million in the three months ended September 30, 2023, down from the \$0.3 million in the three months ended September 30, 2022, and \$0.6 million in the nine months ended September 30, 2023, down from the \$1.0 million in the nine months ended September 30, 2022, as the outstanding balance due to HCRP has been paid down and remeasured. We project a further reduction in 2023 following the December 2022 revaluation of our liability to HCRP.

Provision for Income Taxes

The following table summarizes the period-over-period changes in our provision for income taxes for the three and nine months ended September 30, 2023 and 2022, respectively (in thousands, except percentages):

	Three Months Ended September 30,			% Change	Nine Months Ended September 30,		
	2023	2022			2023	2022	% Change
Foreign withholding tax on royalty revenue	\$ 23	\$ —		100%	\$ 38	\$ 4	*
Foreign taxes payable on intercompany interest	16	16		—%	46	45	2%
State income taxes	—	—		—%	3	2	50%
Provision for income taxes	<u>\$ 39</u>	<u>\$ 16</u>		*	<u>\$ 87</u>	<u>\$ 51</u>	71%

* Percentages greater than 100% or not meaningful

The provision for income taxes was \$39,000 and \$16,000 in the three months ended September 30, 2023 and 2022, respectively, and \$87,000 and \$51,000 in the nine months ended September 30, 2023 and 2022, respectively. The tax charge relates primarily to interest on an intercompany loan from a foreign subsidiary and a 5% withholding tax on royalty revenue earned on sales of Inavir in Japan, which is potentially recoverable as a foreign tax credit but expensed because we record a 100% valuation allowance against our deferred tax assets. The amount of income tax expense recorded is directly proportional to Inavir royalties, including the portion that we pass through to HCRP.

Liquidity and Capital Resources

Our primary source of financing is from the sale and issuance of common stock and common stock warrants in public offerings, along with proceeds from the exercise of warrants. In the past, we have also obtained funds from the issuance of secured debt and preferred stock and from collaboration agreements.

In June 2023, Vaxart completed an underwritten public offering (the "June 2023 Offering") in which 16,000,000 shares of its common stock were sold at an offering price of \$0.8680 per share. The net proceeds from the June 2023 Offering were \$13.6 million after deducting underwriting discounts and commission and estimated offering expenses payable by Vaxart.

In September 2021, we entered into a Controlled Equity Offering Sales Agreement (the "September 2021 ATM"), under which we may offer and sell, from time to time through sales agents, shares of our common stock having an aggregate offering price of up to \$100 million. We will incur direct expenses and pay sales commissions of up to 3.0% of gross proceeds from the sale of shares under the September 2021 ATM.

As of September 30, 2023, we had received net proceeds of \$1.4 million from the sale of common stock under the September 2021 ATM and there is approximately \$79.0 million in net proceeds still available to us. Since September 30, 2023, we have not raised any additional capital under the September 2021 ATM.

[Table of Contents](#)

As of September 30, 2023, we had approximately \$53.0 million of cash, cash equivalents, restricted cash and marketable securities. Our expectation is that we will continue to generate operating losses and negative operating cash flows in the future and the need for additional funding to support our planned operations raise substantial doubt regarding our ability to continue as a going concern for a period of one year after the date that the financial statements are issued.

Management intends on completing additional financing transactions in the next 12 months. The sale of additional equity would result in additional dilution to our stockholders. We may fund a significant portion of our ongoing operations through partnering and collaboration agreements which, while reducing our risks and extending our cash runway, will also reduce our share of eventual revenues, if any, from our vaccine candidates. We may be able to fund certain activities with assistance from government programs. We may also fund our operations through debt financing, which would result in debt service obligations, and the instruments governing such debt could provide for operating and financing covenants that would restrict our operations.

However, due to several factors, including those outside management's control, there can be no assurance that the Company will be able to complete additional financing transactions. If we are unable to raise additional capital in sufficient amounts or on acceptable terms, management's plans include further reducing or delaying operating expenses.

Our future funding requirements will depend on many factors, including the following:

- the timing and costs of our planned preclinical studies for our product candidates;
- the timing and costs of our planned clinical trials of our product candidates;
- our manufacturing capabilities, including the availability of contract manufacturing organizations to supply our product candidates at reasonable cost;
- the amount and timing of royalties received on sales of Inavir;
- the number and characteristics of product candidates that we pursue;
- the outcome, timing and costs of seeking regulatory approvals;
- revenue received from commercial sales of our future products, which will be subject to receipt of regulatory approval;
- the terms and timing of any future collaborations, licensing, consulting or other arrangements that we may enter into;
- the amount and timing of any payments that may be required in connection with the licensing, filing, prosecution, maintenance, defense and enforcement of any patents or patent applications or other intellectual property rights;
- our ability to stay listed on Nasdaq; and
- the extent to which we in-license or acquire other products and technologies.

Cash Flows

The following table summarizes our cash flows for the periods indicated (in thousands):

	Nine Months Ended September 30,	
	2023	2022
Net cash used in operating activities	\$ (56,932)	\$ (65,627)
Net cash provided by (used in) investing activities	28,848	(36,216)
Net cash provided by financing activities	15,309	8,866
Net decrease in cash, cash equivalents and restricted cash	\$ (12,775)	\$ (92,977)

Net Cash Used in Operating Activities

We experienced negative cash flow from operating activities for the nine months ended September 30, 2023 and 2022, in the amounts of \$56.9 million and \$65.6 million, respectively. The cash used in operating activities in the nine months ended September 30, 2023, was due to cash used to fund a net loss of \$65.1 million and a decrease in working capital of \$8.4 million, partially offset by adjustments for net non-cash income related to depreciation and amortization, amortization of discount on investments, net, stock-based compensation, non-cash interest expense related to sale of future royalties and non-cash revenue related to sale of future royalties totaling \$16.5 million. The cash used in operating activities in the nine months ended September 30, 2022, was due to cash used to fund a net loss of \$83.8 million and a decrease in working capital of \$3.3 million, further decreased by adjustments for net non-cash income related to depreciation and amortization, amortization of discount on investments, net, stock-based compensation, non-cash interest expense related to sale of future royalties and non-cash revenue related to sale of future royalties totaling \$14.9 million.

[Table of Contents](#)

Net Cash Provided by (Used in) Investing Activities

In the nine months ended September 30, 2023, we received \$30.7 million from maturities of marketable securities, net of purchases, and used \$1.9 million to purchase property and equipment, net of disposals. In the nine months ended September 30, 2022, we used \$25.5 million to purchase marketable securities, net of maturities, \$5.7 million to purchase property and equipment and \$5.0 million to pay for right-of-use assets.

Net Cash Provided by Financing Activities

In the nine months ended September 30, 2023, we received net proceeds of \$13.6 million from the sale of 16,000,000 shares of our common stock, \$1.4 million from the sale of common stock under the September 2021 ATM and \$0.3 million from the issuance of common stock under the employee stock purchase plan. In the nine months ended September 30, 2022, we received \$8.7 million from the sale of common stock under the September 2021 ATM and \$0.2 million from the exercise of stock options and warrants.

Contractual Obligations and Commercial Commitments

We have the following contractual obligations and commercial commitments as of September 30, 2023 (in thousands):

Contractual Obligation	Total	< 1 Year	2 - 3 Years	4 - 5 Years	> 5 Years
Long Term Debt, HCRP	\$ 10,021	1,342	2,435	3,867	2,377
Operating Leases	26,716	1,043	8,696	10,180	6,797
Purchase Obligations	4,792	4,792	—	—	—
Total	\$ 41,529	7,177	11,131	14,047	9,174

Long Term Debt, HCRP. Under an agreement executed in 2016, we are obligated to pay HCRP the first \$3 million plus 15% of the next \$1 million of royalty revenues that we earn for sales of Inavir in each year ending on March 31. See [Note 6](#) to the Condensed Consolidated Financial Statements in Part I, Item 1 for further details.

Operating leases. Operating lease amounts include future minimum lease payments under all our non-cancellable operating leases with an initial term in excess of one year. See [Note 7](#) to the Condensed Consolidated Financial Statements in Part I, Item 1 for further details of leases.

Purchase obligations. These amounts include an estimate of all open purchase orders and contractual obligations in the ordinary course of business, including commitments with contract manufacturers and suppliers for which we have not received the goods or services. We consider all open purchase orders, which are generally enforceable and legally binding, to be commitments, although the terms may afford us the option to cancel based on our business needs prior to the delivery of goods or performance of services.

Share-based payment arrangements. Beginning in 2022, we shifted from awarding only options to issuing a mixture of options and restricted stock units ("RSUs") to our employees. As of September 30, 2023, the unrecognized stock-based compensation cost related to outstanding unvested stock options and RSUs expected to vest was \$21.3 million, which the Company expects to recognize over an estimated weighted average period of 2.24 years. See [Note 10](#) for further details on stock-based compensation expense recognized.

Critical Accounting Policies and Estimates

Our management's discussion and analysis of financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities and expenses. On an ongoing basis, we evaluate these estimates and judgments. We base our estimates on historical experience and on various assumptions that we believe to be reasonable under the circumstances. These estimates and assumptions form the basis for making judgments about the carrying values of assets and liabilities and the recording of expenses that are not readily apparent from other sources. Actual results may differ materially from these estimates. We believe that the accounting policies discussed below are critical to understanding our historical and future performance, as these policies relate to the more significant areas involving management's judgments and estimates.

Accrued Research and Development Expenses

We record accrued expenses for estimated costs of research and development activities conducted by third-party service providers, which include the conduct of preclinical studies and clinical trials, and contract manufacturing activities. We record the estimated costs of research and development activities based upon the estimated amount of services provided and include the costs incurred but not yet invoiced within other accrued liabilities in the consolidated balance sheets and within research and development expense in the consolidated statements of operations and comprehensive loss. These costs can be a significant component of our research and development expenses.

We estimate the amount of work completed through discussions with internal personnel and external service providers as to the progress or stage of completion of the services and the agreed-upon fee to be paid for such services. We make significant judgments and estimates in determining the accrued balance in each reporting period. As actual costs become known, we adjust our accrued estimates.

Intangible Assets

Intangible assets acquired in the Merger were initially recorded at their estimated fair values of \$20.3 million for developed technology related to Inavir which was, until it was revalued, being amortized on a straight-line basis over the estimated period of future royalties of 11.75 years and \$1.8 million for the developed technology related to Relenza which was fully amortized as of December 31, 2022. The developed technology related to Inavir was revalued at \$5.0 million as of December 31, 2022, resulting in an impairment loss of \$4.3 million being recorded. These valuations were prepared by an independent third party based on discounted cash flows of estimated future revenue streams, which are highly subjective. The fair value, as reassessed as of December 31, 2022, is being amortized on a straight-line basis over the remaining period of future royalties of 6.1 years.

Stock-Based Compensation

We measure the fair value of all stock option awards to employees, non-executive directors and consultants on the grant date, and record the fair value of these awards, net of estimated forfeitures, as compensation expense over the service period. The fair value of options is estimated using the Black-Scholes valuation model and the expense recorded is affected by subjective assumptions regarding a number of variables, as follows:

Expected term – This represents the period that our stock-based awards granted are expected to be outstanding and is determined using the simplified method (the arithmetic average of its original contractual term and its average vesting term). We have very limited historical information to develop reasonable expectations about future exercise patterns and post-vesting employment termination behavior for our stock-based awards. Based on the weighted average applied to options awarded in nine months ended September 30, 2023, a notional 10% decrease in expected term would have reduced the fair value and the related compensation expense by approximately 2%.

Expected volatility – This is a measure of the amount by which our common stock price has fluctuated or is expected to fluctuate. Since the beginning of 2020 we have measured volatility based on the historical volatility of our own stock over the retrospective period corresponding to the expected term of the options on the measurement date. Based on the weighted average applied to options awarded in nine months ended September 30, 2023, a notional 10% decrease in expected volatility (from 128% to 115%) would have reduced the fair value and the related compensation expense by approximately 4%.

Risk-free interest rate – This is based on the U.S. Treasury yield curve on the measurement date corresponding with the expected term of the stock-based awards.

Expected dividend – We have not made any dividend payments and do not plan to pay dividends in the foreseeable future. Therefore, we use an expected dividend yield of zero.

Forfeiture rate – This is a measure of the number of awards that are expected to not vest and is reassessed quarterly. An increase in the estimated forfeiture rate will cause a small decrease in the related compensation expense early in the service period, but since the final expense recorded for each award is the number of options vested times their grant date fair value, it has no impact on the total expense recorded.

Recent Accounting Pronouncements

See the "Recent Accounting Pronouncements" in [Note 2](#) to the Condensed Consolidated Financial Statements in Part I, Item 1 for information related to the issuance of new accounting standards in the first nine months of 2023, none of which had a material impact on our condensed consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Sensitivity

Our exposure to market risk for changes in interest rates relates primarily to our investments in marketable debt securities. The primary objective of our investment activities is to preserve principal, maintain liquidity that is sufficient to meet cash needs and maximize total return without significantly increasing risk. To achieve this goal, we maintain our excess cash and cash equivalents in money market funds and debt securities. We do not enter into investments for trading or speculative purposes and we hold no equity securities. We presently have no borrowings or lines of credit.

Specifically, as of September 30, 2023, we had cash, cash equivalents, restricted cash and investments of approximately \$53.0 million, which consist of bank deposits, money market funds, direct obligations of the U.S. government or its agencies, commercial paper and corporate bonds. All of our investments must satisfy high credit rating requirements at the time of purchase. Such interest-earning instruments carry a degree of interest rate risk, however, because our investments are rated highly and mostly short-term, we believe that our exposure to risk of loss due to interest rate changes is not significant.

[Table of Contents](#)

Exchange Rate Sensitivity

Our royalty revenue, which is calculated in U.S. dollars, is based on sales in Japanese yen, so a 1% increase in the strength of the U.S. dollar against the yen would lead to a 1% reduction in royalty revenue. All our other revenue and substantially all of our expenses, assets and liabilities are denominated in U.S. dollars and, as a result, we have not experienced significant foreign exchange gains or losses recently and do not anticipate that foreign exchange gains or losses will be significant in the near future.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our principal executive officer and principal accounting and financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on such evaluation, our management has concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of September 30, 2023.

Changes in Internal Control over Financial Reporting

There was no material change in our internal control over financial reporting that occurred during the quarter ended September 30, 2023, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our principal executive officer and principal accounting and financial officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within Vaxart have been detected.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

The information included in "[Note 8. Commitments and Contingencies—\(c\) Litigation](#)" to the Condensed Consolidated Financial Statements in Part I, Item 1 is incorporated by reference into this Item.

We may also from time to time be involved in legal proceedings arising in connection with our business. Based on information currently available, we believe that the amount, or range, of reasonably possible losses in connection with any pending actions against us in excess of established reserves, in the aggregate, is not material to our consolidated financial condition or cash flows. However, any current or future dispute resolution or legal proceeding, regardless of the merits of any such proceeding, could result in substantial costs and a diversion of management's attention and resources that are needed to run our business successfully, and could have a material adverse impact on our business, financial condition and results of operations.

Item 1A. Risk Factors

You should consider the risks and uncertainties described under Item 1A of Part I of our Annual Report on Form 10-K for the fiscal year ended December 31, 2022, which we filed with the Securities and Exchange Commission on March 15, 2023, together with all other information contained or incorporated by reference in this Quarterly Report on Form 10-Q, when evaluating our business and our prospects. There are no material changes to the risk factors set forth in Part I, Item 1A, in our Annual Report on Form 10-K for the year ended December 31, 2022. *We have marked with an asterisk (*) those risks described below that reflect additions to the risks described in our Annual Report on Form 10-K for the year ended December 31, 2022.*

*** Our recurring losses from operations and negative cash flows have raised substantial doubt regarding our ability to continue as a going concern. We will require substantial additional funding to finance our operations, and if we are unable to raise capital, we could be forced to delay, reduce the scope of or eliminate certain of our development programs, or explore other strategic options.**

Our recurring losses from operations and negative cash flows raise substantial doubt about our ability to continue as a going concern. As of September 30, 2023, we had \$53.0 million of cash, cash equivalents, restricted cash, and investments. We believe these funds are sufficient to fund our operations into the third quarter of 2024.

Our ability to continue as a going concern is dependent upon our ability to raise additional capital through outside sources. We plan to raise additional capital through the sale of convertible stock, additional equity, debt financings or strategic alliances with third parties. Such financing and funding may not be available at all, or on terms that are favorable to us. Failure to raise additional capital could have a material adverse effect on our business, results of operations, financial condition and/or our ability to fund our scheduled obligations on a timely basis or at all.

If we are unable to continue as a going concern, we may be forced to liquidate our assets and the values we receive for our assets in liquidation or dissolution could be significantly lower than the values reflected in our financial statements.

*** Our failure to meet the continued listing requirements of The Nasdaq Capital Market could result in a delisting of our common stock.**

Our common stock is listed on The Nasdaq Capital Market, which imposes, among other requirements, a \$1.00 minimum bid price requirement set forth in Nasdaq Listing Rule 5550(a)(2). Our common stock traded for less than \$1.00 for 30 consecutive trading days, and we received notice of this from the Listing Qualifications Department of The Nasdaq Stock Market on July 21, 2023. Under Nasdaq Listing Rule 5810(c)(3)(A), we were granted a 180-calendar day grace period, or until January 17, 2024, to regain compliance with the minimum bid price requirement. The minimum bid price requirement would be met if our common stock had a minimum closing bid price of at least \$1.00 per share for a minimum of ten consecutive business days during the 180-calendar day grace period. If at any time during this 180-calendar day period the bid price of the Company's common stock closes at or above \$1.00 per share for a minimum of ten consecutive business days, the Nasdaq staff stated that it will provide the Company with a written confirmation of compliance and the matter will be closed. However, under Nasdaq Listing Rule 5810(c)(3)(A), the Nasdaq staff may exercise its discretion to extend this ten-day period as discussed in Rule 5810(c)(3)(H).

Alternatively, if we fail to regain compliance with Rule 5550(a)(2) prior to the expiration of the initial 180-calendar day period, we may be eligible for an additional 180-calendar day compliance period, provided (i) we meet the continued listing requirement for market value of publicly held shares and all other applicable requirements for initial listing on The Nasdaq Capital Market (except for the \$1.00 minimum bid price requirement) and (ii) we provide written notice to Nasdaq of our intention to cure this deficiency during the second compliance period by effecting a reverse stock split, if necessary. In the event we do not regain compliance with Rule 5550(a)(2) prior to the expiration of the initial 180-calendar day period, and if it appears to the Staff that we will not be able to cure the deficiency, or if we are not otherwise eligible, the Staff stated that it will provide us with written notification that our securities are subject to delisting from The Nasdaq Capital Market. At that time, we may appeal the delisting determination to a Hearings Panel. There can be no assurance that we will be able to regain compliance or that Nasdaq will grant us a further extension of time to regain compliance, if necessary.

The delisting of our common stock from Nasdaq may make it more difficult for us to raise capital on favorable terms in the future, or at all. Such a delisting would likely have a negative effect on the price of our common stock and would impair our stockholders' ability to sell or purchase our common stock when they wish to do so. Further, if our common stock were to be delisted from The Nasdaq Capital Market, our common stock would cease to be recognized as a covered security and we would be subject to additional regulation in each state in which we offer our securities. Moreover, there is no assurance that any actions that we take to restore our compliance with the Nasdaq minimum bid requirement would stabilize the market price or improve the liquidity of our common stock, prevent our common stock from falling below the Nasdaq minimum bid price required for continued listing again, or prevent future non-compliance with Nasdaq's listing requirements.

There can be no assurance that we will continue to meet the minimum bid price requirement, or any other requirement in the future. If we fail to meet the minimum bid price requirement, or other applicable Nasdaq listing requirements, including maintaining minimum levels of stockholders' equity or market values of our common stock, our common stock could be delisted. If our common stock were to be delisted, the liquidity of our common stock would be adversely affected, and the market price of our common stock could decrease.

Table of Contents

*** Unless our common stock continues to be listed on a national securities exchange it will become subject to the so-called "penny stock" rules that impose restrictive sales practice requirements.**

If we are unable to maintain the listing of our common stock on Nasdaq or another national securities exchange, our common stock could become subject to the so-called "penny stock" rules if the shares have a market value of less than \$5.00 per share. The SEC has adopted regulations that define a penny stock to include any stock that has a market price of less than \$5.00 per share, subject to certain exceptions, including an exception for stock traded on a national securities exchange. The SEC regulations impose restrictive sales practice requirements on broker-dealers who sell penny stocks to persons other than established customers and "accredited investors" as defined by relevant SEC rules. These additional requirements may discourage broker-dealers from effecting transactions in securities that are classified as penny stocks, which could severely limit the market price and liquidity of such securities and the ability of purchasers to sell such securities in the secondary market. This means that if we are unable to maintain the listing of our common stock on a national securities exchange, the ability of stockholders to sell their common stock in the secondary market could be adversely affected.

If a transaction involving a penny stock is not exempt from the SEC's rule, a broker-dealer must deliver a disclosure schedule relating to the penny stock market to each investor prior to a transaction. The broker-dealer also must disclose the commissions payable to both the broker-dealer and its registered representative, current quotations for the penny stock, and, if the broker-dealer is the sole market-maker, the broker-dealer must disclose this fact and the broker-dealer's presumed control over the market. Finally, monthly statements must be sent disclosing recent price information for the penny stock held in the customer's account and information on the limited market in penny stocks.

Item 2. Unregistered Sales of Equity Securities, Use of Proceeds and Issuer Purchases of Equity Securities

Not applicable.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Not applicable.

§	In accordance with Item 601(b)(32)(ii) of Regulation S-K and SEC Release Nos. 33-8238 and 34-47986, Final Rule: Management's Reports on Internal Control Over Financial Reporting and Certification of Disclosure in Exchange Act Periodic Reports, the certification furnished in Exhibit 32.1 hereto is deemed to accompany this Quarterly Report on Form 10-Q and will not be deemed "filed" for purposes of Section 18 of the Exchange Act. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.				

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

VAXART, INC.

CERTIFICATION

I, Andrei Floroiu, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Vaxart, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION

Pursuant to the requirement set forth in Rule 13a-14(b) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. § 1350), Andrei Floroiu, President and Chief Executive Officer of Vaxart, Inc. (the "Company"), and Phillip Lee, Chief Financial Officer of the Company, each hereby certifies that, to his knowledge:

- (1) The Company's Quarterly Report on Form 10-Q for the period ended September 30, 2023, to which this Certification is attached as Exhibit 32.1 (the "Periodic Report"), fully complies with the requirements of Section 13(a) or Section 15(d) of the Exchange Act; and
- (2) The information contained in the Periodic Report fairly presents, in all material respects, the financial condition of the Company at the end of the period covered by the Periodic Report and results of operations of the Company for the period covered by the Periodic Report.
