of ContentsSYNAPTICS INCORPORATED AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)1. Basis of Presentation and Principles of ConsolidationThe accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission, or the SEC, and United States generally accepted accounting principles, or U.S. GAAP. Certain information or footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to SEC rules and regulations. In our opinion, the financial statements include all adjustments, which are of a normal and recurring nature and necessary for the fair presentation of the results of the interim periods presented. The results of operations for the interim periods are not necessarily indicative of the operating results for the full fiscal year or any future period. These financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended JuneÂ 29, 2024. The condensed consolidated financial statements include our financial statements and those of our wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated upon consolidation. Certain reclassifications have been made to the amounts for prior years in order to conform to the current yearâ€™s presentation.Our fiscal year is the 52- or 53-week period ending on the last Saturday in June. Our fiscal 2025 is a 52-week period ending JuneÂ 28, 2025, and our fiscal 2024 was a 53-week period ending on JuneÂ 29, 2024. The fiscal periods presented in this report are 13-week periods and 26-week periods for the three and six months ended DecemberÂ 28, 2024 and DecemberÂ 30, 2023, respectively. For simplicity, the accompanying condensed consolidated financial statements have been shown as ending on calendar quarter end dates as of and for all periods presented, unless otherwise indicated.Use of EstimatesThe preparation of consolidated financial statements in conformity with U.S. GAAP requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue, expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates including, but not limited to, those estimates related to revenue recognition, allowance for credit losses, cost of revenue, inventories, loss on purchase commitments, product warranty, accrued liabilities, share-based compensation costs, provision for income taxes, deferred tax assets and the associated valuation allowance, uncertain tax positions, goodwill, intangible assets, investments and loss contingencies. We base our estimates on historical experience, current period developments, applicable laws and regulations, and various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Convertible Senior NotesWe account for our convertible senior notes with embedded conversion features in accordance with Accounting Standards Update ("ASU") 2020-06, Debt with Conversion and Other Options

(Subtopic 470-20) and Derivatives and Hedging - Contracts in Entity's Own Equity (Subtopic 815-40), which removes from GAAP the liability and equity separation model for convertible instruments with either cash or beneficial conversion features. As a result, convertible debt instruments would only be separated into multiple components if they were issued at a substantial premium or if embedded derivatives requiring bifurcation were identified. The convertible senior notes (the "2031 Notes") were not issued at a substantial premium, and we analyzed the provisions of the notes and did not identify any material embedded features which would require bifurcation from the host debt. As such, the 2031 Notes are accounted for entirely as a liability, net of unamortized issuance costs. The carrying amount of the liability is classified as long-term as the instrument does not mature within one year of the balance sheet date and the holder is not permitted to demand repayment of the principal within one year of the balance sheet date. However, if conditions to convertibility are met and holders are expected to convert within one year as described further in Note 12, we may be required to reclassify the carrying amount of the liability to current. The embedded conversion features are not remeasured as long as they do not meet the separation requirement of a derivative. Issuance costs are amortized to interest expense using the effective interest rate method. Additionally, ASU 2020-06 requires the application of the if-converted method to calculate the impact of convertible instruments on diluted earnings per share.Accounting Pronouncements Recently IssuedIn November 2023, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update, or ASU No. 2023-07, â€œSegment Reporting: Improvements to Reportable Segment Disclosures.â€ This guidance requires 9Table of ContentsSYNAPTICS INCORPORATED AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)disclosure of incremental segment information on an annual and interim basis. This amendment is effective for our fiscal year ending June 2025 and our interim periods within the fiscal year ending June 2026. We are currently assessing the impact of this guidance on our disclosures.In December 2023, the FASB issued ASU No. 2023-09, â€œIncome Taxes: Improvements to Income Tax Disclosures.â€ This guidance requires consistent categories and greater disaggregation of information in the rate reconciliation and disclosures of income taxes paid by jurisdiction. This amendment is effective for our fiscal year ending June 2026. We are currently assessing the impact of this guidance on our disclosures. In November 2024, the FASB issued ASU No. 2024-03, â€œIncome Statement - Reporting Comprehensive Income - Disaggregation of Income Statement Expenses.â€ This guidance requires disclosures about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. This amendment is effective for our fiscal year ending June 2028 and our interim periods within the fiscal year ending June 2029. We are currently assessing the impact of this guidance on our disclosures.In November 2024, the FASB, issued ASU 2024-04, "Debt - Debt with Conversions and Other Options." This guidance is intended to clarify requirements for determining whether certain settlements of convertible debt instruments, including convertible debt instruments with cash conversion features or convertible debt instruments that are not currently convertible, should be accounted for as an induced conversion. This amendment is effective for our fiscal year ending June 2027. We are currently evaluating the potential impact of this guidance on our disclosures.2. Revenue RecognitionRevenue is recognized when control of the promised goods or services is transferred to our customers in an amount that reflects the consideration we expect to receive in exchange for those goods or services. Most of our revenue, except an inconsequential amount, is recognized at a point in time, either on shipment or delivery of the product, depending on customer terms and conditions.Rights to our intellectual property, or IP, are either sold or licensed to customers. Revenue recognition from the licensing of our IP is dependent on the nature and terms of each agreement. We recognize revenue from the licensing of our IP upon delivery of the IP if there are no substantive future obligations to perform under the arrangement. Sales-based or usage-based royalties from the license of IP are recognized at the later of the period the sale or usage occurs, or the satisfaction of the performance obligation to which some or all of the sales-based or usage-based royalties have been allocated. Our accounts receivable balance is from contracts with customers and represents our unconditional right to receive consideration from customers. To date, there have been no material credit loss charges recorded on accounts receivable. As of December 2024 and June 2024, contract assets recorded on our condensed consolidated balance sheets were $1.2 million. Contract assets are presented as part of prepaid expenses and other current assets. Contract liabilities and refund liabilities were $8.8 million and $45.0 million, respectively, as of December 2024, and $14.7 million and $43.5 million, respectively, as of June 2024. Both contract liabilities and refund liabilities are presented as customer obligations in Note 10. Balance Sheet Components. During the three months ended December 2024 and December 2023, we recognized $0.9 million and $0.5 million, respectively, in revenue related to contract liabilities, which was outstanding as of the beginning of each fiscal quarter. During the six months ended December 2024 and December 2023, we recognized $13.5 million and $2.9 million, respectively, in revenue related to contract liabilities, which was outstanding as of the beginning of each fiscal quarter. Revenue from contracts with customers disaggregated by geographic area based on customer location and product category is presented in Note 15. Segment, Customers, and Geographical Information.10Table of ContentsSYNAPTICS INCORPORATED AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)3. Our diluted net income (loss) per share amounts for each period presented include the weighted average effect of potentially dilutive shares. We use the "treasury stock" method to determine the dilutive effect of our stock options, restricted stock units, or RSUs, market stock units, or MSUs, and performance stock units, or PSUs. Upon any conversion of our convertible notes, we will be required to pay cash in an amount at least equal to the principal portion and have the option to settle any amount in excess of the principal portion in cash and/or ordinary shares. As a result, only the amounts expected to be settled in excess of the principal portion are considered in calculating diluted earnings per share under the if-converted method. Potentially dilutive shares whose effect would have been antidilutive are excluded from the computation of diluted net loss per share.4. Prepayment of Intangible AssetsDuring the first quarter of fiscal 2024, we paid an aggregate consideration of $130.0 million to Avago Technologies, or Broadcom, to license four developed technology products and to extend the exclusivity period of certain developed technologies that were previously licensed from Broadcom in July 2020. As of December 2024, we have obtained control of three of the four technology products and the three-year extension period to exclusively license previously acquired developed technology intangible assets. The fair value of the remaining technology product of $42.5 million for which we have not yet obtained control is an advance payment on intangible assets and is presented within other long-term assets in our consolidated balance sheets. 5. InventoriesInventories are stated at the lower of cost (first-in, first-out method) or net realizable value and consisted of the following (in millions):DecemberJune20242024Raw materials and work-in-progress$66.4Â $69.5Â Finished goods53.1Â 44.5Â Inventories$119.5Â $114.0Â Inventories are recorded at standard cost, which approximates actual cost computed on a first-in, first-out basis. We record a write-down, if necessary, to reduce the carrying value of inventory to its net realizable value. The effect of such a write-down is to establish a new cost basis in the related inventory, which we do not subsequently write up. We also 11Table of ContentsSYNAPTICS INCORPORATED AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)record a liability and charge to cost of revenue for estimated losses on inventory we are obligated to purchase from our contract manufacturers when such losses become probable from customer delays, order cancellations, or other factors. The following factors influence our estimates: changes to or cancellations of customer orders, unexpected or sudden decline in demand, rapid product improvements, technological advances, and termination or changes by our original equipment manufacturers, or OEM, customers of any product offerings incorporating our product solutions. 6. Fair Value MeasurementsWe determine fair value based on the fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value assumes that the transaction to sell the asset or transfer the liability occurs in the principal or most advantageous market for the asset or liability and establishes that the fair value of an asset or liability shall be determined based on the assumptions that market participants would use in pricing the asset or liability. The classification of a financial asset or liability within the hierarchy is based upon the lowest level input that is significant to the fair value measurement. The fair value hierarchy prioritizes the inputs into three levels that may be used to measure fair value: â€¢Level 1 â€“ Valuation is based upon unadjusted quoted prices for identical assets or liabilities in active markets.â€¢Level 2 â€“ Valuation is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instruments.â€¢Level 3 â€“ Valuation is based upon other unobservable inputs that are significant to the fair value measurements.Our Level 1 financial instruments are traded in active markets, and the fair value is based on quoted market prices for identical instruments. The fair value of our Level 2 fixed income securities is obtained from an independent pricing service, which may use quoted market prices for identical or comparable instruments or model driven valuations using observable market data or inputs corroborated by observable market data. Our marketable securities are held by custodians who obtain investment prices from a third-party pricing provider that incorporates standard inputs in various asset price models. 12Table of ContentsSYNAPTICS INCORPORATED AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)At December 2024 and June 2024, financial assets measured at fair value on a recurring basis are summarized below (in millions): December 2024June 2024Level 1Level 2Total (1)Level 1Level 2Total (1)Assets:Cash equivalents:Money market funds$66.9Â $â€”Â $66.9Â $600.4Â $â€”Â $600.4Â Certificates of depositâ€”Â 11.1Â 11.1Â â€”Â 38.1Â 38.1Â Total assets$66.9Â $11.1Â $78.0Â $600.4Â $38.1Â $638.5Â (1)Excludes $518.1 million and $238.4 million in cash held in our bank accounts as of December 2024 and June 2024, respectively. LeasesOur leases primarily include our worldwide office and research and development facilities which are all classified as operating leases. Certain leases include renewal options at our discretion. The leases expire at various dates through fiscal 2034, some of which include options to extend the lease for up to seven years. For the three months ended December 2024 and December 2023, we recorded operating lease expense of approximately $3.2 million and $2.9 million, respectively. For the six months ended December 2024 and December 2023, we recorded operating lease expense of approximately $6.4 million and $5.7 million, respectively. Indemnifications and ContingenciesIndemnificationsWe have entered into indemnification agreements with our officers and directors. In addition, in connection with certain agreements, we are obligated to indemnify the counterparty against third party claims alleging infringement of certain intellectual property rights by us. Maximum potential future payments under these agreements cannot be estimated because these agreements generally do not have a maximum stated liability. Historical costs related to these indemnification provisions have not been significant. However, we will accrue for any losses related to these indemnification agreements when it is both probable that we will incur the loss and we can reasonably estimate the amount of the loss or range of loss. During the six months ended December 2024, we recorded an estimated liability of $2.2Â million related to our proportionate share of an indemnity obligation to defend a counterparty against a third party claim alleging infringement of certain intellectual property rights.ContingenciesWe have in the past, and may in the future, receive notices from third parties that claim our products infringe their intellectual property rights. We cannot be certain that our technologies and products do not, and will not, infringe issued patents or other proprietary rights of third parties. Any infringement claims, with or without merit, could result in significant litigation costs and diversion of management and financial resources, including the payment of damages, which could have a material adverse effect on our business, financial condition, and results of operations. Legal ProceedingsFrom time to time, we are subject to various claims and legal proceedings, either asserted or unasserted, that arise in the ordinary course of business. While we currently believe that resolving claims against us, individually or in the aggregate, will not have a material adverse impact on our business, financial condition, or results of operations, these matters are subject to inherent uncertainties and our view of these matters may change in the future. We accrue for loss contingencies when it is both probable that we will incur the loss and we can reasonably estimate the amount of the loss or range of loss.12. DebtSenior NotesOn MarchÂ 11, 2021, we completed an offering of $400.0 million aggregate principal amount of

4.0% senior notes due 2029, or the Senior Notes, in a private offering. The Senior Notes were issued pursuant to an indenture, dated as of March 11, 2021, or the Indenture, by and among our company, the guarantors named therein and Wells Fargo Bank, National Association, as trustee. The Indenture provides that the Senior Notes will bear interest at a rate of 4.0% per annum, payable in cash semi-annually in arrears on December 15 and June 15 of each year, commencing on June 15, 2021. The Senior Notes will mature on June 15, 2029 and are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by each of our current and future domestic restricted subsidiaries that guarantee our obligations under our senior secured credit facilities. 17Table of ContentsSYNAPTICS INCORPORATED AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)On or after June 15, 2024, we may redeem some or all of the Senior Notes at the redemption prices specified below, plus accrued and unpaid interest, if any, up to, but excluding, the redemption date:YearPrice 2024102Â %2025101Â %2026 and thereafter100Â %The Senior Notes are the general unsecured obligations of our company. The Senior Note guarantees are the senior unsecured obligations of each guarantor. Under certain circumstances, the guarantors may be released from their Senior Note guarantees without consent of the holders of Senior Notes. Under the terms of the Indenture, the Senior Notes rank equally in right of payment with all of our and the guarantorsâ€™ existing and future senior indebtedness, and rank contractually senior in right of payment to our and the guarantorsâ€™ future indebtedness and other obligations that are, by their terms, expressly subordinated in right of payment to the Senior Notes. The Senior Notes are effectively subordinated to our and the guarantorsâ€™ existing and future secured indebtedness, including secured indebtedness under our senior secured credit facilities, to the extent of the value of the assets securing such indebtedness. The Senior Notes and guarantees are structurally subordinated to all existing and future indebtedness and liabilities (including trade payables) of our subsidiaries that do not guarantee the Senior Notes. The Indenture contains covenants that, subject to exceptions and qualifications, among other things, limit our ability and the ability of our Restricted Subsidiaries (as defined in the Indenture) to (i) incur additional indebtedness and guarantee indebtedness; (ii) pay dividends or make other distributions or repurchase or redeem our companyâ€™s or any parentâ€™s capital stock; (iii) prepay, redeem or repurchase certain indebtedness; (iv) issue certain preferred stock or similar equity securities; (v) make loans and investments; (vi) dispose of assets; (vii) incur liens; (viii) enter into transactions with affiliates; (ix) enter into agreements restricting its subsidiariesâ€™ ability to pay dividends; and (x) consolidate, merge or sell all, or substantially all, of its assets. The Indenture contains customary events of default including, without limitation, failure to make required payments, failure to comply with certain agreements or covenants, cross-acceleration to certain other indebtedness in excess of specified amounts, certain events of bankruptcy and insolvency, and failure to pay certain judgments. An event of default under the Indenture will allow either the trustee or the holders of at least 25% in aggregate principal amount of the then outstanding Senior Notes to accelerate, or in certain cases, will automatically cause the acceleration of, the maturity of the principal, and accrued and unpaid interest, if any, on all outstanding Notes. Revolving Credit FacilityOn November 21, 2024, we entered into a Fourth Amendment and Lender Joinder Agreement, or the Fourth Amendment, to our existing Second Amended and Restated Credit Agreement, as amended, or the Credit Agreement, with the lenders party thereto and Wells Fargo Bank, National Association, as the administrative agent, or the Administrative Agent, dated as of March 11, 2021. The Fourth Amendment extends the maturity date to be the earlier of (i) November 21, 2029 and (ii) ninety one (91) days prior to any maturity of the Senior Notes. Clause (ii) will not apply if we have Liquidity (as defined in the Fourth Amendment) in an amount of at least $100.0 million in excess of the amount that would be required to be paid on such date. The Fourth Amendment is arranged by a syndicate of financial institutions and, among other things, increases the revolving commitments from $250.0 million to $350.0 million. Additionally, the Fourth Amendment includes a $25.0 million sublimit for letters of credit and a $25.0 million sublimit for swingline loans. Under the terms of the Fourth Amendment we may, subject to the satisfaction of certain conditions, request increases in the revolving credit facility commitments in an aggregate principal amount of up to $170.0 million to the extent existing or new lenders agree to provide such increased or additional commitments, as applicable. Future proceeds under the revolving credit facility are available for working capital and general corporate purposes. As of December 2024, there was no balance outstanding under the revolving credit facility. Debt issuance costs relating to the revolving credit facility of $2.0 million, included in non-current other assets on our consolidated balance sheet, are being amortized over 60 months. The amortization of debt issuance costs on the revolving credit facility was $0.1Â million and $0.2Â million for the three and six months ended December 2024 and December 2023, respectively. 18Table of ContentsSYNAPTICS INCORPORATED AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)Our obligations under the Credit Agreement are guaranteed by the material domestic subsidiaries of the Company, subject to certain exceptions, who collectively with the Company are referred to as the Credit Parties. The obligations of the Credit Parties under the Amended Credit Agreement and the other loan documents delivered in connection therewith are secured by a first priority security interest in substantially all of the existing and future personal property of the Credit Parties, including, without limitation, 65% of the voting capital stock and 100% of the non-voting capital stock of certain of the Credit Partiesâ€™ direct foreign subsidiaries, subject to certain exceptions. The Credit Agreement bears interest, at our election, of a Base Rate plus an Applicable Margin or Adjusted Term SOFR, as defined in the Second Amendment, plus an Applicable Margin. Swingline loans bear interest at a Base Rate plus an Applicable Margin. The Base Rate is a floating rate that is the greater of the Prime Rate, the Federal Funds Rate plus 50 basis points, or Adjusted Term SOFR plus 100 basis points. The Applicable Margin is based on a sliding scale which ranges from 25 to 100 basis points for Base Rate loans and 100 basis points to 175 basis points for Adjusted Term SOFR loans. We are required to pay a commitment fee on any unused commitments under the Credit Agreement which is determined on a leverage-based sliding scale ranging from 0.175% to 0.25% per annum. Interest and fees are payable on a quarterly basis. Under the Credit Agreement, there are various restrictive covenants, including two financial covenants which limit the consolidated total net leverage ratio, or net leverage ratio, the consolidated net interest coverage ratio, or net interest coverage ratio. The net leverage ratio is the ratio of net debt as of the measurement date to Consolidated EBITDA, for the four consecutive quarters ending with the quarter of measurement. The current net leverage ratio shall not exceed 3.75 to 1.00 provided that for the four fiscal quarters ending after the date of a material acquisition, such maximum leverage ratio shall be adjusted to 4.75 to 1.00, and thereafter 3.75 to 1.0. The net interest coverage ratio is Consolidated EBITDA to interest expense for the four consecutive quarters ending with the quarter of measurement net of total cash interest income. The current net interest coverage ratio shall not be less than 2.75 to 1.0, provided that such net interest coverage ratio shall be 3.0 to 1.0 starting with the last day of the first fiscal quarter ending after the 18 month anniversary of the Fourth Amendment Effective Date, or May 21, 2026, and thereafter. As of December 2024, we remain in compliance with the restrictive covenants.Convertible Senior Notes due 2031On November 19, 2024 and November 26, 2024, we issued and sold $400.0Â million and $50.0Â million, respectively, in aggregate principal amount of 0.75% Convertible Senior Notes due 2031, or the 2031 Notes, in a private placement. The 2031 Notes were issued pursuant to an indenture, dated November 19, 2024, by and among us, and U.S. Bank Trust Company, National Association, as trustee, or the 2031 Indenture. The 2031 Notes are unsecured, bear interest at a fixed rate of 0.75% per year, payable semi-annually in arrears on June 1 and December 1 of each year, beginning on June 1, 2025 and mature on December 1, 2031, unless earlier converted, redeemed or repurchased by us. The net proceeds from the 2031 Notes were approximately $435.6Â million after deducting the debt issuance costs and our estimated offering expenses. We used approximately (i) $67.0Â million to repurchase shares of our common stock with which we repurchased 890,484 shares at $75.24 a share, the stock price on November 14, 2024, the date of the offering memorandum, and (ii) $49.9Â million to pay the cost of the capped call transactions (as described below). Additionally, the remainder of the net proceeds, together with our cash on hand, were used to repay the outstanding balance of our Term Loan Facility.The initial conversion rate of the 2031 Notes is 10.0308 shares of our common stock per $1,000 principal amount of 2031 Notes (which is equivalent to an initial conversion price of approximately $99.69 per share). The conversion rate is subject to adjustment upon the occurrence of certain events specified in the 2031 Indenture. In addition, upon the occurrence of a Make-Whole Fundamental Change (as defined in the 2031 Indenture) or if we deliver a Redemption Notice (as defined in the 2031 Indenture), we will, in certain circumstances, increase the conversion rate by a number of additional shares of common stock as described in the 2031 Indenture for a holder who elects to convert its 2031 Notes in connection with such Make-Whole Fundamental Change or to convert its 2031 Notes called (or deemed called as provided in the 2031 Indenture) for redemption in connection with such Redemption Notice, as the case may be. At any time from, and including, September 2, 2031, the 2031 Notes are convertible at the option of the holders thereof only under the following circumstances: (1) during any calendar quarter commencing after the first calendar quarter ending on March 31, 2025, if the last reported sale price per share of our common stock exceeds 130% of the conversion price for at least 20 trading days (whether or not consecutive) during the 30 consecutive trading days ending on, and including, the last trading day of the immediately preceding calendar quarter; (2) during the five consecutive business days after any ten consecutive trading day period (such ten consecutive trading day period, the "measurement period") in which 19Table of ContentsSYNAPTICS INCORPORATED AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)the Trading Price per $1,000 principal amount of the 2031 Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price per share of our common stock on such trading day and the conversion rate on such trading day; (3) if we call such 2031 Notes for redemption; or (4) upon the occurrence of specified corporate events or distributions on our common stock, (as defined in the 2031 Indenture). As of December 28, 2024, none of the conditions allowing holders of the 2031 Notes to convert had been met. On or after September 2, 2031 until the close of business on the second scheduled trading day immediately preceding the maturity date of the 2031 Notes, holders of the 2031 Notes may convert all or a portion of their 2031 Notes, regardless of the foregoing conditions. Upon conversion, the 2031 Notes will be settled in cash, shares of the our common stock based on the conversion rate (as defined in the 2031 Indenture) or any combination thereof, at our election.The 2031 Notes are redeemable, at our option at any time, and from time to time, on or after December 6, 2028. We may redeem for cash all or any portion of the 2031 Notes (subject to the limitation described below), at our option, on or after December 6, 2028 and on or before the 40th scheduled trading day immediately before December 1, 2031 at a cash redemption price equal to the principal amount of the 2031 Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date, but only if (i) the notes are Freely Tradable (as defined in 2031 Indenture) as of the date we send the related redemption notice and all accrued and unpaid additional interest, if any, has been paid in full as of the most recent interest payment date occurring on or before the date we send such notice; and (ii) the last reported sale price per share of our common stock exceeds 130% of the conversion price on (1) each of at least 20 trading days, whether or not consecutive, during the 30 consecutive trading days ending on, and including, the trading day immediately before the date we send such redemption notice; and (2) the trading day immediately before the date we send such notice. However, we may not redeem less than all of the outstanding notes unless at least $100.0Â million aggregate principal amount of notes are outstanding and not called for redemption as of the time we send, and after giving effect to, the related redemption notice. In addition, calling any note for redemption will constitute a Make-Whole Fundamental Change with respect to that note, in which case the conversion rate applicable to the conversion of that note will be increased in certain circumstances if it is converted after it is called for redemption. No sinking fund is provided for the 2031 Notes.The 2031 Notes will be our senior, unsecured obligations and will be (i) equal in right of payment with our existing and future senior unsecured indebtedness; (ii) senior in right of payment to our existing and future indebtedness that is expressly subordinated 2031 Notes; (iii) effectively subordinated to our existing and future secured indebtedness, to the extent of the value of the collateral securing that indebtedness; and (iv) structurally subordinated to all existing and future indebtedness and other liabilities.Upon the occurrence of a Fundamental Change (as defined in the 2031 Indenture) prior to the maturity date of the 2031 Notes, holders of the 2031 Notes may require us to repurchase their notes for a cash repurchase price equal to the principal amount of the 2031 Notes to be repurchased, plus any accrued and unpaid interest, if any, to, but excluding, the Fundamental Change Repurchase Date (as defined in the 2031 Indenture).2031 Capped CallsIn connection with the issuance of the 2031 Notes, we entered into privately negotiated capped call transactions, or, each, a 2031 Capped Call, and, collectively, the 2031 Capped Calls, with certain financial institutions. The 2031 Capped Calls have an initial strike price of $99.69, subject to certain adjustments, which corresponds to the initial conversion price of the 2031 convertible senior notes. The 2031 Capped Calls have an initial cap price of $150.48 per share, subject to certain adjustments. The 2031 Capped Calls are expected to partially offset the potential dilution to the Companyâ€™s common stock upon any conversion of the 2031 convertible senior notes, with such offset subject to a cap based on the cap price. Each 2031 Capped Call covers, subject to anti-dilution adjustments, approximately 4.5Â million shares of the Companyâ€™s common stock. The 2031 Capped Calls are subject to adjustment upon the occurrence of specified extraordinary events affecting the Company, including merger events, tender offers, and announcement events. In addition, each 2031 Capped Call is subject to certain specified additional disruption events that may give rise to a termination of the 2031 Capped Calls, including nationalization, insolvency or delisting, changes in law, failures to deliver, insolvency filings, and hedging disruptions. For accounting purposes, each 2031 Capped Call is treated as a separate transaction from, and not part of, the terms of the 2031 convertible senior notes. As these transactions meet certain accounting criteria, the 2031 Capped Calls are recorded in stockholders' equity and are not accounted for as derivatives. The 2031 Capped Calls will not be remeasured as long as they continue to meet the conditions for equity classification.20Table of ContentsSYNAPTICS INCORPORATED AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)Term Loan FacilityOn DecemberÂ 2, 2021, we entered into that certain First Amendment and Lender Joinder Agreement to the Credit Agreement, to, among other things, establish a new $600.0 million incremental term loan facility, or the Term Loan Facility. The Term Loan Facility was advanced by certain existing and new lenders under the Credit Agreement to finance the DSPG acquisition. The Term Loan Facility matures on December 2, 2028. Principal on the Term Loan Facility is payable in equal quarterly installments on the last day of each March, June, September and December of each year, beginning December 31, 2021, at a rate of 1.00% per annum.We used a portion of the net proceeds from the 2031 Notes, together with our cash on hand, to repay the outstanding balance under our Term Loan Facility. On November 19, 2024, we paid a total of $583.4Â million, which consisted of (i) the remaining outstanding principal balance of $582.0Â million and (ii) accrued and unpaid interest of $1.4Â million. The repayment of the Term Loan Facility was accounted for as a debt extinguishment. The consideration used to extinguish the Term Loan Facility and the carrying value of the Term Loan Facility (including unamortized debt issuance costs) resulted in a loss on early extinguishment of debt of $6.5Â million included in loss on early extinguishment of debt within our condensed consolidated statements of operations. Shares underlying certain share-based awards forfeited under the 2010 Incentive Plan subsequent to the approval of the 2019 Incentive Plan automatically transfer to and become available for award issuance from the 2019 Incentive Plan.The 2019 Incentive Plan authorizes our Board of Directors to provide equity-based compensation in the form of stock options, stock appreciation rights, restricted stock, RSUs, cash incentive awards, performance shares, PSUs, and other stock-based awards. The 2019 Incentive Plan has been amended and restated, and the cumulative number of shares approved by stockholders is 7,588,000 as of OctoberÂ 29, 2024. The 2019 ESPP authorizes the Company to provide eligible employees with an opportunity to acquire an equity interest in the Company through the purchase of stock at a discount, with an initial authorization of 1,500,000 shares.Effective AugustÂ 19, 2019, we adopted the 2019 Inducement Equity Plan, and 650,000 shares of our common stock were reserved for issuance under the 2019 Inducement Equity Plan, subject to adjustment for stock dividends, stock splits, or other changes in our common stock or

capital structure. The 2019 Inducement Equity Plan was intended to comply with Rule 5635(c)(4) of the Nasdaq Stock Market Listing Rules, which provide an exception to the Nasdaq Stock Market Listing Rules on the shareholder approval requirement for the issuance of securities with regards to grants to employees of the Company or its subsidiaries as an inducement material to such individuals entering into employment with the Company or its subsidiaries. An individual was eligible to receive an award under the 2019 Inducement Equity Plan only if he or she was not previously an employee or director of our Company (or is returning to work after a bona-fide period of non-employment), and an award under the 2019 Inducement Equity Plan is a material inducement for him or her to accept employment with our Company. No new awards may be granted under the 2019 Inducement Equity Plan.Share-Based CompensationShare-based compensation recognized in our condensed consolidated statements of operations was as follows (in millions):Three Months EndedSix Months EndedDecemberDecember20242023202420232Cost of revenue$0.3Â $1.1Â (2.4)2.2Â Research and development15.6Â 15.5Â 30.1Â 30.7Â Selling, general, and administrative18.7Â 12.6Â 34.1Â 29.5Â Total$34.6Â $29.2Â $61.8Â $62.4Â Historically, we have issued new shares in connection with our equity-settled share-based compensation plans, however, treasury shares are also available for issuance. The amount of stock-based compensation expense recognized in any period related to PSUs can vary based on the achievement or anticipated achievement of the performance conditions. Income TaxesWe account for income taxes under the asset and liability method. The provision for income taxes recorded in interim periods is based on our estimate of the annual effective tax rate applied to year-to-date income before provision for income taxes, adjusted for discrete items required to be recognized in the period in which they are incurred. In each quarter, we update our estimate of the annual effective tax rate, and if the estimated annual tax rate changes, we make a cumulative adjustment in that quarter. Our quarterly tax provision and our quarterly estimate of the annual effective tax rate can be subject to volatility due to several factors, including our ability to accurately forecast annual income before provision for income taxes in each of the tax jurisdictions in which we operate.The benefit from income taxes of $27.8 million and $39.0Â million for the three and six months ended December 2024, respectively, represented estimated federal, foreign, and state income taxes. The effective tax rate for the three months and six months ended December 2024 diverged from the combined U.S. federal and state statutory tax rate primarily due to two one-time events: 1) a $14.1Â million deferred tax benefit driven by a â€œcheck-the-box electionâ€ for our Israel subsidiary to be treated as a U.S. disregarded entity for federal income tax purpose, and 2) an $8.9Â million tax benefit associated with our fiscal 2018 federal one-time deemed repatriation liability under the U.S. Tax Cuts and Jobs Act, or TCJA, resulting from a recent U.S. Tax Court decision in Varian Medical Systems, Inc. v. Commissioner. The U.S. Tax Court held that a fiscal year taxpayer was entitled to claim a dividend received deduction, or DRD, on certain dividends deemed received during its gap period. The divergence also reflects foreign income taxed at lower rates. These benefits were partially offset by non-deductible officer compensation and non-deductible share-based compensation.24Table of ContentsSYNAPTICS INCORPORATED AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)The effective tax rate for the three and six months ended December 2023 diverged from the combined U.S. federal and state statutory tax rate primarily due to tax benefits from the impact of foreign tax credit temporary relief provided by U.S. Treasury Notice 2023-55 and Notice 2023-80 issued in July 2023 and December 2023, respectively, which delayed the effective date of the U.S. final foreign tax credit regulations published in January 2022. It was partially offset by the research and development capitalization rules increasing our global intangible low-taxed income, or GILTI, resulting from the U.S. Tax Cuts and Jobs Act of 2017, foreign income taxed at higher rates, and non-deductible officer compensation.The total liability for gross unrecognized tax benefits related to uncertain tax positions decreased $2.1 million during the six months ended December 2024, to $44.4 million, and was included in other long-term liabilities on our condensed consolidated balance sheets. If recognized, the total gross unrecognized tax benefits would reduce the effective tax rate on income from continuing operations. Accrued interest and penalties related to unrecognized tax benefits as of December 2024 were $3.7 million; this balance increased by $0.1 million compared to June 2024. We classify interest and penalties as components of income tax expense. Any prospective adjustments to our unrecognized tax benefits will be recorded as an increase or decrease to income tax expense and cause a corresponding change to our effective tax rate. Accordingly, our effective tax rate could fluctuate materially from period to period.Our major tax jurisdictions are the United States, Hong Kong SAR, Japan, Israel and the United Kingdom. From fiscal 2017 onward, we remain subject to examination by one or more of these jurisdictions.15. Segment, Customers, and Geographic InformationWe operate in one segment: the development, marketing, and sale of semiconductor products used in electronic devices and products. We generate our revenue from three broad product categories: Core IoT, Enterprise and Automotive, and Mobile product applications. A summary of our products and how they are categorized is as follows:â€¢Core IoT: Wireless and Processor Solutionsâ€¢Enterprise and Automotive: PC Touch Pad, PC Fingerprint, Video Interface Solutions, Enterprise Audio Solutions, Fax and Printer Solutions, and Automotive Solutionsâ€¢Mobile: Touch and Display Solutions for Mobile phone applicationsNet revenue from our customers for each product category was as follows (in millions): Three Months EndedSix Months EndedDecemberDecember20242023202420232Enterprise and Automotive product applications$159.1Â $136.6Â $306.7Â $291.4Â Core IoT product applications61.1Â 37.5Â 120.7Â 76.0Â Mobile product applications47.0Â 62.9Â 97.5Â 107.3Â 267.2Â $237.0Â $524.9Â $474.7Â 25Table of ContentsSYNAPTICS INCORPORATED AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)Net revenue within geographic areas based on our customersâ€™ locations for the periods presented was as follows (in millions): Â Three Months EndedSix Months EndedÂ DecemberDecemberÂ 20242023202420232China/Hong Kong$112.2Â $105.5Â $240.0Â $212.3Â Taiwan77.4Â 49.6Â 141.5Â 86.4Â Japan43.6Â 57.0Â 81.8Â 109.6Â Other12.5Â 7.9Â 23.1Â 22.0Â South Korea18.8Â 15.1Â 34.0Â 26.7Â United States2.7Â 1.9Â 4.5Â 17.7Â Â $267.2Â $237.0Â $524.9Â $474.7Â Net revenue from major customers as a percentage of total net revenue for the periods presented was as follows: Â Three Months EndedSix Months EndedÂ DecemberDecemberÂ 20242023202420232Customer A15%10%14%*Customer B11%13%12%15%_____* Less than 10% We extend credit based on evaluation of a customerâ€™s financial condition, and we generally do not require collateral. Restructuring ActivitiesIn the first quarter of fiscal 2025, we initiated restructuring actions primarily intended to focus on key growth initiatives, reduce costs and align our business in response to market conditions. As a result of this restructuring, we expect to incur approximately $16.0Â million in restructuring charges and expect to complete the restructuring by the end of fiscal 2025. For the three and six months ended December 2024, the restructuring costs related to this action were $0.8Â million and $14.5Â million, respectively, and are recorded in the restructuring costs line item within our condensed consolidated statements of operations.In the fourth quarter of fiscal 2024, we initiated restructuring actions to further improve efficiencies in our operational activities, decrease costs and increase profitability. We completed this restructuring action in the first quarter of fiscal 2025 and incurred restructuring charges of $0.5Â million. These costs were recorded under the restructuring costs line item in our condensed consolidated statements of operations.26Table of Contents The following table summarizes the restructuring activity and related charges during the periods presented (in millions):Three Months EndedSix Months EndedDecember 2024Balance, beginning of period$5.0Â $1.4Â Charges0.8Â 15.0Â Payments(2.8)(13.4)Balance, end of period$3.0Â $3.0Â During the three and six months ended December 2024, the restructuring and related charges of $0.8 million and $15.0 million, respectively, were primarily attributable to severance and employee-related benefits. 17. Subsequent EventOn January 19, 2025, we entered into an Asset Purchase Agreement with Broadcom Inc., or Broadcom, to acquire certain assets and assume certain liabilities related to an Android customer, or the Acquired Customer Business, and obtain non-exclusive licenses relating to certain of Broadcomâ€™s Wi-Fi, Bluetooth and GPS/GNSS products and technology for the IoT and AndroidTM ecosystem for aggregate consideration of $198.0Â million, which closed on January 30, 2025, or the Closing Date. We also entered into an amendment to the Existing Product License Agreement with Broadcom and an amendment to the existing Derivative and Roadmap Products Agreement, pursuant to which Broadcom will provide (i) certain non-exclusive licenses to us for the right to manufacture and sell products relating to the IoT and AndroidTM ecosystem, (ii) development services for certain roadmap products, (iii) an agreement not to grant any third party the right to manufacture and sell the newly licensed products for the Acquired Customer Business for 42 months following the Closing Date, and (iv) an agreement not to grant any third party the right to manufacture and sell a certain roadmap product for the IoT and AndroidTM ecosystem for one year after production readiness. Additionally, we have entered into a Transition Services Agreement with Broadcom, under which both parties will provide one another with certain transition services following the Closing Date.On January 28, 2025, Michael Hurlston notified the Company of his resignation from his position as President and Chief Executive Officer and from the board of directors (the â€œBoardâ€) of the Company, effective February 3, 2025, to pursue another opportunity. His resignation was not the result of any dispute or disagreement with the Company or the Board.On January 28, 2025, the Board appointed Ken Rizvi, the Companyâ€™s Chief Financial Officer, as the interim Chief Executive Officer and principal executive officer, and Nelson Chan, the Chairman of the Board, as the interim Executive Chairman, each effective February 3, 2025. Mr. Rizvi will continue to serve as Chief Financial Officer while he is the interim Chief Executive Officer.27Table of Contents ITEM 2. MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS Forward-Looking Statements and Factors That May Affect ResultsThis Quarterly Report on Form 10-Q for the quarter ended DecemberÂ 28, 2024 (this â€œReportâ€) contains forward-looking statements that are subject to the safe harbors created under the Securities Act of 1933, as amended, or the Securities Act, and the Securities Exchange Act of 1934, as amended, or the Exchange Act. Forward-looking statements give our current expectations and projections relating to our financial condition, results of operations, plans, objectives, future performance and business, can be identified by the fact that they do not relate strictly to historical or current facts. Such forward-looking statements may include words such as â€œexpect,â€ â€œanticipate,â€ â€œintend,â€ â€œbelieve,â€ â€œestimate,â€ â€œplan,â€ â€œtarget,â€ â€œstrategy,â€ â€œcontinue,â€ â€œmay,â€ â€œwill,â€ â€œshould,â€ variations of such words, or other words and terms of similar meaning. All forward-looking statements reflect our best judgment and are based on several factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. Such factors include, but are not limited to the following: our dependence on our solutions for the Core IoT and Enterprise and Automotive product applications market for a substantial portion of our revenue; risks related to the volatility of our net revenue from our solutions for Core IoT and Enterprise and Automotive product applications; our dependence on one or more large customers; our exposure to industry downturns and cyclicality in our target markets; the risk that our product solutions for new markets will not be successful; risks related to our expectations regarding technology and strategic investments and the anticipated timing or benefits thereof; our ability to execute on our cost reduction initiatives and to achieve expected synergies and expense reductions; our ability to maintain and build relationships with our customers; our dependence on third parties to maintain satisfactory manufacturing yields and deliverable schedule; the risk that our indemnification obligations for third party claims could result in substantial costs; uncertainty surrounding macroeconomic factors in the United States, or the U.S., and globally, impacting the supply chain environment, inflationary pressure, workforce reductions, regional instabilities and hostilities (including the Israel-Hamas war) and the other risks as identified in the â€œRisk Factors,â€ â€œManagementâ€™s Discussion and Analysis of Financial Condition and Results of Operationsâ€ and â€œBusinessâ€ sections of our Annual Report on Form 10-K for the fiscal year ended JuneÂ 29, 2024, and other risks as identified from time to time in our SEC reports. Forward-looking statements are based on information available to us on the date hereof, and we do not have, and expressly disclaim, any obligation to publicly release any updates or any changes in our expectations, or any change in events, conditions, or circumstances on which any forward-looking statement is based. Our actual results and the timing of certain events could differ materially from the forward-looking statements. These forward-looking statements do not reflect the potential impact of any mergers, acquisitions, or other business combinations that have not been completed as of the date of this filing. Statements made in this Report, unless the context otherwise requires, include the use of the terms â€œus,â€ â€œwe,â€ â€œour,â€ the â€œCompanyâ€ and â€œSynapticsâ€ to refer to Synaptics Incorporated and its consolidated subsidiaries.OverviewWe are a leading worldwide developer and fabless supplier of premium mixed signal semiconductor solutions that enable people to engage with connected devices and data, engineering exceptional experiences throughout the home, at work, in the car and on the go. We provide our customers with sensing, processing, and connecting solutions, which represent the three foundational elements of the Internet of Things, or IoT. We supply connectivity, sensors, and artificial intelligence, or AI, enhanced processor solutions to original equipment manufacturers, or OEMs, that design IoT products and devices for automobiles, enterprise workspace devices, virtual reality, smartphones, tablets, and notebook computers. Our currently served markets include IoT, personal computer, or PC, Enterprise and Automotive, and Mobile. Our solutions either contain or consist of our wireless, voice and speech, video processing, fingerprint, authentication, display driver, or touch semiconductor solutions, which include our hardware, and, where applicable, firmware and software. Many of our customers have manufacturing operations in China, and many of our OEM customers have established design centers in Asia. With our global presence, including offices in China, France, Germany, Hong Kong, India, Israel, Japan, Korea, Poland, Switzerland, Taiwan, the U.K., and the U.S., we are well positioned to provide local sales, operational, and engineering support services to our existing customers, as well as potential new customers, on a global basis. Our manufacturing operations are based on a variable cost model in which we outsource all of our production requirements and generally drop ship our products directly to our customers from our contract manufacturersâ€™ facilities, eliminating the need for significant capital expenditures and allowing us to minimize our investment in inventories. This approach requires us to work closely with our contract manufacturers and semiconductor fabricators to ensure adequate production capacity to meet our forecasted volume requirements. We use third-party wafer manufacturers to supply wafers and third-party packaging manufacturers to package our proprietary ASICs. In certain cases, we rely on a single source, or a limited number of suppliers, to provide other key components of our products. Our cost of revenue includes all costs 28Table of Contents associated with the production of our products, including materials; logistics; amortization of intangibles related to acquired developed technology; backlog; supplier arrangements; manufacturing, assembly, royalties paid to third-party intellectual property providers and test costs paid to third-party manufacturers; and related overhead costs associated with

our indirect manufacturing operations personnel. Additionally, we charge all warranty costs, losses on inventory purchase obligations, and the provision for excess and obsolete inventories to cost of revenue. Our gross margin generally reflects the combination of the added value we bring to our OEM customersâ€™ products by meeting their custom design requirements and the impact of our ongoing cost-improvement programs. These cost-improvement programs include reducing materials and component costs and implementing design and process improvements. Our research and development expenses include costs for supplies and materials related to product development, as well as the engineering costs incurred to design ASICs and human experience solutions for OEM customers prior to and after our OEMsâ€™ commitment to incorporate those solutions into their products. In addition, we expense in-process research and development projects acquired as part of a business acquisition, which have not yet reached technological feasibility, and which have no foreseeable alternative future use. We continue to commit to the technological and design innovation required to maintain our position in our existing markets, and to adapt our existing technologies or develop new technologies for new markets. Selling, general, and administrative expenses include expenses related to sales, marketing, and administrative personnel; internal sales and outside sales representativesâ€™ commissions; market and usability research; outside legal, accounting, and consulting costs; and other marketing and sales activities. Acquired intangibles amortization included in operating expenses consists primarily of amortization of customer relationship and tradename intangible assets recognized under the purchase method for business combinations.Restructuring costs primarily reflect severance costs related to the restructuring of our operations to reduce operating expenses and gain efficiencies from our recent acquisitions. See Note 16. Restructuring Activities to the consolidated financial statements contained elsewhere in this Report.Interest and other expense, net, primarily reflects interest expense and amortization of debt issuance costs on our 2031 Notes, Senior Notes and the Term Loan Facility and loss on early extinguishment of debt. See Note 12. Debt for additional information. The interest and other expense, net, is partially offset by interest income earned on our cash and cash equivalents.Critical Accounting Policies and Estimates There have been no significant changes in our critical accounting policies and estimates during the six months ended December 2024, compared with our critical accounting policies and estimates disclosed in Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended JuneÂ 29, 2024. Trends and UncertaintiesCurrent Economic Conditions As a majority of our sales and manufacturing occurs outside of the U.S., we are exposed to and impacted by global macroeconomic factors, U.S. and foreign government policies and foreign exchange fluctuations. In recent years, there has been uncertainty surrounding macroeconomic factors in the U.S., and globally, characterized by the supply chain environment, inflationary pressure, higher interest rates, workforce reductions as well as geopolitical developments, including regional conflicts and trade tariff developments. While certain conditions have been improving during fiscal 2025, including deceleration of inflation and lowering of interest rates in certain geographies, there continues to be uncertainty regarding overall macroeconomic conditions and increased geopolitical tensions. Although we have seen improvements in revenues in the first half of fiscal 2025 compared to the same periods a year ago, our operational and financial performance may be adversely impacted if these global conditions continue to remain unstable. In addition, although we currently do not believe inflation in the costs of goods will have a material impact on our results of operations, it is possible that elevated inflation could increase our cost of goods sold and/or operating expenses and reduce our gross profit and net income. The Israel-Hamas WarAlthough our employees in our Israel office have the ability to work remotely and business continuity plans are in place to address any medium- or long-term disruptions that could result from the closure of this office, the office closure and general effects of employees operating in a region at war could have a negative impact on our operations. Further, a number of our employees in Israel are members of the military reserves who have been subject to activation in response to 29Table of Contents the war, and it is possible that these employees may be re-activated if the Israel-Hamas war continues or expands further throughout the Middle East region. While we also have business continuity plans in place to address the safety of our employees and continue product development in the event of reduced employee availability in the region during the war, it could affect the timing of projects in the short-term as work is shifted to other team members where necessary. If these conditions continue or worsen, they could adversely impact our future financial and operating results.Results of Operations Certain of the data used in our condensed consolidated statements of operations for the periods indicated, together with comparative absolute and percentage changes in these amounts, were as follows (in millions, except percentages):Three Months Ended December Six Months Ended December 20242023$ Change%Â Change20242023$ Change%Â ChangeEnterprise and Automotive product applications$159.1Â $136.6Â $22.5Â 16.5Â %$306.7Â $291.4Â $15.3Â 5.3Â %Core IoT product applications61.1Â 37.5Â 23.6Â 62.9Â %120.7Â 76.0Â 44.7Â 58.8Â %Mobile product applications47.0Â 62.9Â (15.9)(25.3Â %)97.5Â 107.3Â (9.8)(9.1)%Net revenue267.2Â 237.0Â 30.2Â 12.7Â %524.9Â 474.7Â 50.2Â 10.6Â %Gross margin122.2Â 109.0Â 13.2Â 12.1Â %243.1Â 216.1Â 27.0Â 12.5Â %Operating expenses:Research and development83.3Â 82.0Â 1.3Â 1.6Â %164.6Â 168.5Â (3.9)(2.3)%Selling, general, and administrative49.5Â 39.7Â 9.8Â 24.7Â %99.5Â 82.0Â 17.5Â 21.3Â %Acquired intangibles amortization3.8Â 3.9Â (0.1)(2.6Â %)7.6Â 9.4Â (1.8)(19.1)%Restructuring costs0.8Â 1.3Â (0.5)(38.5Â %)15.0Â 9.3Â 5.7Â 61.3Â %Operating loss(15.2)(17.9)2.7Â (15.1Â %)(43.6)(53.1)9.5Â (17.9)%Interest and other expense, net(4.3)(6.1)1.8Â (29.5Â %)(10.2)(11.5)1.3Â (11.3)%Loss on early extinguishment of debt(6.5)â€”Â (6.5)100.0%(6.5)â€”Â (6.5)100.0%Loss before benefit from income taxes(26.0)(24.0)(2.0)8.3Â %(60.3)(64.6)4.3Â (6.7)%Benefit from income taxes(27.8)(15.0)(12.8)85.3Â %(39.0)â€”Â (39.0)100.0%Net income (loss)$1.8Â (9.0)10.8Â (120.0Â %)(21.3)(64.6)$43.3Â (67.0)%30Table of Contents Certain of the data used in our condensed consolidated statements of operations presented here as a percentage of net revenue for the periods indicated were as follows: Three Months EndedPercent Point Increase/(Decrease)Six Months EndedPercent Point Increase/(Decrease)December December202420230242023Enterprise and Automotive product applications59.5Â %57.6Â %1.9Â %58.4Â %61.4Â %(3.0)%Core IoT product applications22.9Â %15.8Â %7.1Â %23.0Â %16.0Â %7.0Â %Mobile product applications17.6Â %26.6Â %(9.0Â %)18.6Â %22.6Â %(4.0Â %)Net revenue100.0Â %100.0Â %0.0Â %100.0Â %100.0Â %â€”Â %Gross margin45.7Â %46.0Â %(0.3Â %)46.3Â %45.5Â %0.8Â %Operating expenses:Research and development31.2Â %34.6Â %(3.4Â %)31.4Â %35.5Â %(4.1)%Selling, general, and administrative18.5Â %16.8Â %1.7Â %19.0Â %17.3Â %1.7Â %Acquired intangibles amortization1.4Â %1.6Â %(0.2Â %)1.4Â %2.0Â %(0.6)%Restructuring costs0.3Â %0.5Â %(0.2Â %)2.9Â %2.0Â %0.9Â %Operating loss(5.7Â %)(7.5Â %)1.8Â %(8.4)%(11.3)%2.9Â %Interest and other expense, net(1.6Â %)(2.6Â %)1.0Â %(1.9Â %)(2.4Â %)0.5Â %Loss on early extinguishment of debt(2.4Â %)â€”Â %(2.4Â %)(1.2)%â€”Â %(1.2)%Loss before benefit from income taxes(9.7Â %)(10.1Â %)0.4Â %(11.5)%(13.7)%2.2Â %Benefit from income taxes(10.4Â %)(6.3Â %)(4.1Â %)(7.4Â %)0.0Â %(7.4Â %)Net income (loss)0.7Â %(3.8Â %)4.5Â %(4.1)%(13.7)%9.6Â %Net RevenueNet revenue was $267.2 million for the three months ended December 2024, compared with $237.0 million for the three months ended December 2023, an increase of $30.2 million, or 12.7%. Of this net revenue, $159.1 million, or 59.5%, was from Enterprise and Automotive product applications, $47.0 million, or 17.6%, was from Mobile product applications, and $61.1 million, or 22.9%, was from Core IoT product applications. Revenue increased in most of our product applications for the three months ended December 2024. Net revenue from Core IoT product applications increased due to an increase in units sold (which increased 20.5%), as well as an increase in average selling prices (which increased 35.2%) due to our product sales mix compared to the same period a year ago. Net revenue from Enterprise and Automotive product applications increased as a result of an increase in units sold (which increased 22.7%), partially offset by a decrease in average selling prices (which decreased 2.9%) due to our product sales mix and a decrease in revenue of $3.0 million from the licensing of certain of our IP compared to the same period a year ago. Net revenue from Mobile product applications decreased due to a decrease in units sold (which decreased 12.3%), a decrease in average selling prices (which decreased 5.8%), as overall demand decreased for our products in the mobile market, and a decrease in revenue of $6.0 million from the licensing of certain of our IP compared to the same period a year ago. Net revenue was $524.9 million for the six months ended December 2024, compared with $474.7 million for the six months ended December 2023, an increase of $50.2 million, or 10.6%. Of this net revenue, $306.7 million, or 58.4%, was from Enterprise and Automotive product applications, $97.5 million, or 18.6%, was from Mobile product applications, and $120.7 million, or 23.0%, was from Core IoT product applications. Revenue increased in most of our product applications for the six months ended December 2024. Net revenue from Core IoT product applications increased due to an increase in units sold (which increased 47.8%), as well as a increase in average selling prices (which increased 7.4%) due to our product sales mix compared to the same period a year ago. Net revenue from Enterprise and Automotive product applications increased as a result of a increase in units sold (which increased 9.8%), and an increase in average selling prices (which increased 6.8%) due to our product sales mix compared to the same period a year ago. The increase in revenue from Enterprise and Automotive product applications was partially offset by a decrease of $30.0 million in revenue from the licensing of certain of our IP. Net revenue from Mobile product applications decreased due to a decrease in units sold (which decreased 6.5%), and a decrease in average selling prices (which decreased 8.2%), as overall demand decreased for our products in the mobile market compared to the same period a year ago. The decrease in revenue from Mobile product applications was partially offset by an increase of $4.5 million in revenue from the licensing of certain of our IP.31Table of Contents Gross Margin Gross margin as a percentage of net revenue was 45.7%, or $122.2 million, for the three months ended December 2024, compared with 46.0%, or $109.0 million, for the three months ended December 2023. The net 30 basis point decrease in gross margin for the three months ended December 2024 was primarily due to a decrease in revenue of $9.0 million in revenue from our IP licenses, partially offset by favorable changes in our product mix. Gross margin as a percentage of net revenue was 46.3%, or $243.1 million, for the six months ended December 2024, compared with 45.5%, or $216.1 million, for the six months ended December 2023. The net 80 basis point increase in gross margin for the six months ended December 2024 was primarily due to favorable changes in product mix and lower costs related to excess obsolescence reserve charges and share-based compensation charges, partially offset by a net decrease of $25.5 million in revenue from our IP licenses.Because we sell our technology solutions in designs that are generally unique or specific to an OEM customerâ€™s application, gross margin varies on a product-by-product basis, making our cumulative gross margin a blend of our product specific designs. As a fabless manufacturer, our gross margin percentage is generally not materially impacted by our shipment volume. Under most circumstances, revenue from license-based arrangements are accretive to our gross margin.Operating ExpensesResearch and Development Expenses. Research and development expenses increased $1.3 million to $83.3 million for the three months ended December 2024, compared with $82.0 million for the three months ended December 2023. The increase in research and development expenses was primarily driven by a $6.3 million increase in variable compensation related to bonus accrual, partially offset by a $3.5 million decrease in wages and related costs as a result of the restructuring actions initiated during fiscal 2024 and 2025. Research and Development Expenses. Research and development expenses decreased $3.9 million to $164.6 million for the six months ended December 2024, compared with $168.5 million for the six months ended December 2023. The decrease in research and development expenses was primarily driven by a $8.4 million decrease in wages and related costs as a result of the restructuring actions initiated during fiscal 2024 and 2025, and a $4.1 million decrease in project specific costs, partially offset by a $9.2 million increase in variable compensation related to bonus accrual.Selling, General, and Administrative Expenses. Selling, general, and administrative expenses increased $9.8 million to $49.5 million for the three months ended December 2024, compared with $39.7 million for the three months ended December 2023. The increase in selling, general, and administrative expenses was primarily driven by an increase of $6.2 million in stock-based compensation charges primarily related to the departure of certain executive officers from the Company during the second quarter of fiscal 2024 and a $3.7 million increase in variable compensation related to bonus accrual.Selling, General, and Administrative Expenses. Selling, general, and administrative expenses increased $17.5 million to $99.5 million for the six months ended December 2024, compared with $82.0 million for the six months ended December 2023. The increase in selling, general, and administrative expenses was primarily driven by a $5.6 million increase in variable compensation related to bonus accrual, a $4.6 million increase in stock-based compensation charges primarily related to the departure of certain executive officers from the Company during the second quarter of fiscal 2024, a $3.0 million increase in professional service fees related to various corporate projects and strategy and a $1.9 million unfavorable impact from exchange rates on foreign currencies.Acquired Intangibles Amortization. Amortization of acquisition-related intangibles decreased $0.1 million, or 2.6%, and $1.8 million, or 19.1%, for the three and six months ended December 2024, respectively, compared to the same periods a year ago. The decrease is primarily related to the amortization of customer related intangible assets and acquired trademarks from the Displaylink acquisition which were fully amortized by the end of fiscal 2024.Restructuring Costs. Restructuring costs primarily reflect employee severance costs related to the restructuring of operations and to improve efficiencies in our operational activities. These headcount-related costs included personnel in operations, research and development, and selling, general and administrative functions. See Note 16. Restructuring Activities in the notes to the consolidated financial statements for additional information on restructuring costs.Non-Operating IncomeInterest and Other Income. Interest and other income of $8.0 million and $18.3 million for the three and six months ended December 2024 decreased by $2.3 million and $3.0 million, respectively, compared to the same periods a year ago, which was primarily driven by an overall decrease in interest rates on our invested cash and cash equivalents, as well as a reduction in cash balances following the early repayment of the entire Term Loan Facility in November 2024.32Table of Contents Interest expense. Interest expense primarily includes interest on our debt and amortization of debt issuance costs. Interest expense for the three and six months ended December 2024 of $12.4 million and $28.5 million, respectively, decreased by $4.0 million and $4.2 million, respectively, compared to the same periods a year ago. The decrease in interest expense is primarily driven by a decrease of approximately 50 basis points in the interest rate on our $600.0 million incremental Term Loan Facility during the first half of fiscal 2025 compared to the same period a year ago, as well as the early repayment of the entire Term Loan Facility in November 2024 with the net proceeds received from the issuance of the 2031 Notes, which bears a significantly lower interest at a rate of 0.75%. See Note 12. Debt for additional information.Loss on early extinguishment of debt. In connection with our issuance of the 2031 Notes, we used a portion of the net proceeds from the 2031 Notes, along with our cash on hand, to repay the outstanding balance under our Term Loan Facility. The repayment of the Term Loan Facility was accounted for as a debt extinguishment. The consideration used to extinguish the Term Loan Facility and the carrying value of the Term Loan Facility (including unamortized debt issuance costs) resulted in a loss on early extinguishment of debt of $6.5Â million, which is included in "Loss on early extinguishment of debt" within our condensed consolidated statements of operations. (Benefit)/Provision for Income Taxes. We account for income taxes under the asset and liability method. The (benefit)/provision for income taxes recorded in interim periods is based on our estimate of the annual effective tax rate applied to year-to-date (loss)/income before (benefit)/provision for income taxes, adjusted for discrete items required to be recognized in the period in which they are incurred. In each quarter, we update our estimate of the annual effective tax rate, and if the estimated annual tax rate changes, we make a cumulative adjustment in that quarter. Our quarterly tax (benefit)/provision for income taxes and our quarterly estimate of the annual effective tax rate can be subject to volatility due to several factors, including our ability to accurately forecast annual (loss)/income before (benefit)/provision for income taxes in each of the tax jurisdictions in which we operate.The Organization for Economic Co-operation and Development, or OECD, introduced Pillar Two Model Rules for a global minimum tax of 15% applicable to large multinational corporations. Many countries in which we have business operations, including the United Kingdom, Switzerland, and Japan, have implemented certain aspects of Pillar Two, which become effective to our company in fiscal 2025. The OECD and the implementing countries are expected to keep issuing more guidance and refining their laws. Based on the current legislation, Pillar Two had no impact on our effective tax rate or cash flows for the first six months of fiscal 2025. We will continue to evaluate the potential impact of these tax law changes on future reporting periods.On August 26, 2024, the United States Tax Court, or the Tax Court issued a unanimous decision in Varian Medical Systems v. Commissioner, holding that a fiscal year taxpayer was entitled to claim a dividend received deduction, or DRD, on certain dividends deemed received during its gap period. The Tax Court also determined that the amount of foreign tax credits, or FTCs, the taxpayer could claim was reduced. During the second quarter of fiscal 2025, we completed a comprehensive analysis of the Tax Court's findings and identified a potential opportunity for us to recover some taxes paid under the U.S. Transition Tax of the 2017 Tax Cuts and Jobs Act, or TCJA. As a result, we decided to file a protective refund claim with the U.S. Internal Revenue Service, or the IRS in fiscal 2025 to preserve our right to seek a refund, contingent upon further developments in related cases or guidance from the IRS. As of the second quarter of fiscal 2025, an $8.9 million tax benefit was recognized based on a more-likely-than-not position, supported by the relevant technical merits of the Tax Courtâ€™s decision.See Note 14. Income Taxes in the Notes to the Unaudited Condensed Consolidated Financial Statements for additional information on our (benefit)/provision for income taxes.Liquidity and Capital Resources Our cash and cash equivalents were $596.1 million and $876.9 million as of December 2024 and June 2024, respectively, representing a decrease of $280.8 million. The decrease in cash and cash equivalents during six months ended December 2024 was driven by cash used in financing activities of $278.2 million related to full repayment of our Term Loan Facility, repurchases of our common stock and payment of capped call transactions, partially offset by net proceeds from the issuance of the 2031 Notes (as defined below).We consider almost all of the earnings of our foreign subsidiaries as not indefinitely invested overseas and have made appropriate provisions for income or withholding taxes that may result from a future repatriation of those earnings. As of December 2024, $304.7 million of cash and cash equivalents was held by our foreign subsidiaries. If these funds are needed for our operations in the United States, we would be able to repatriate substantially all of these funds without a

material impact on our provision for income taxes. Cash Flows from Operating Activities. Cash provided by operating activities during the six months ended December 2024 was $11.4 million compared with cash provided by operating activities of $84.6 million during same period a year ago. For the six months ended December 2024, the primary operating activities were adjustments for non-33Table of Contents cash charges of $97.3 million and a net change in operating assets and liabilities of $64.6 million. The net change in operating assets and liabilities was attributable to a decrease in income taxes payable primarily related to tax payments of approximately $46.2 million made to various tax jurisdictions, a $4.9 million decrease in accounts payable due to the timing of payments made to our vendors, and an increase of $3.9 million in accounts receivable due to an increase in sales and the timing of collections received from our customers.During the three months ended December 2024 and December 2023, our days sales outstanding was 49 days and 48 days, respectively. Our annual inventory turns stayed consistent at four during the three months ended December 2024 and December 2023. Cash Flows from Investing Activities. Cash used by investing activities during the six months ended December 2024 and December 2023 was $14.6 million and $139.8 million, respectively. Net cash used in investing activities for the six months ended December 2024 consisted of $13.8 million for purchases of property and equipment. Cash used in investing activities for the six months ended December 2023 consisted of $130.0 million paid to Broadcom as a prepayment to acquire developed technologies and to extend the exclusivity for certain products for an additional three-year period, $16.6 million to purchase short-term investments and $17.1 million for purchases of property and equipment, partially offset by $23.9 million in proceeds from the maturities of our short-term investments. Cash Flows from Financing Activities. Cash used by financing activities for the six months ended December 2024 and December 2023 was $278.2 million and $23.9 million, respectively. Net cash used by financing activities for the six months ended December 2024 consisted of $583.5 million used to repay the remaining outstanding balance of our Term Loan Facility, $74.5 million used to repurchase our common stock, exclusive of excise taxes, $49.9 million used for the payment of capped call transactions associated with our 2031 Notes, partially offset by $439.5 million in net proceeds from issuance of our 2031 Notes.Net cash used by financing activities for the six months ended December 2023 consisted of $29.6 million used for payroll taxes on the delivery of the underlying shares for share-based awards, partially offset by $8.5 million in proceeds from issuance of shares.Common Stock Repurchase Program. As of April 2023, our board had cumulatively authorized $2.3 billion for our common stock repurchase program, which will expire in July 2025. The program authorizes us to purchase our common stock in the open market or in privately negotiated transactions, depending upon market conditions and other factors. The number of shares purchased, and the timing of purchases, are based on the level of our cash balances, general business and market conditions, and other factors. Common stock purchased under this program is held as treasury stock. From April 2005 through December 2024, we purchased, net of issuances for settlement of our convertible notes, 31,103,558 shares of our common stock in the open market for an aggregate cost of $952.4 million. During the six months ended December 2024, we repurchased $74.5 million shares of our common stock. As of December 2024, the remaining available authorization under our common stock repurchase program was $819.4 million. Senior Notes. In March 2021, we completed an offering of $400.0 million aggregate principal amount of 4.0% senior notes due 2029, or the Senior Notes, in a private offering. The Senior Notes were issued pursuant to an Indenture, dated as of March 11, 2021, by and among our company, the guarantors named therein and Wells Fargo Bank, National Association, as trustee. The Senior Notes requires bi-annual interest only payments in June and December of each year. For the six months ended December 2024, we paid interest expense of $8.0 million on the Senior Notes.Bank Credit Facility. On November 21, 2024, we entered into the Fourth Amendment to our Credit Agreement. The Fourth Amendment extends the maturity date of the Credit Agreement and, among other things, increases the revolving commitments from $250.0 million to $350.0 million. Under the terms of the Fourth Amendment we may, subject to the satisfaction of certain conditions, request increases in the revolving credit facility commitments in an aggregate principal amount of up to $170.0 million. Future proceeds under the revolving credit facility are available for working capital and general corporate purposes. As of December 2024, there was no balance outstanding under the revolving credit facility. 2031 Notes. On November 19, 2024 and November 26, 2024, we issued and sold $400.0Â million and $50.0Â million, respectively, in aggregate principal amount of 0.75% Convertible Senior Notes due 2031, or the 2031 Notes, in a private placement. The 2031 Notes are unsecured, bear interest at a rate of 0.75% per year, payable semi-annually in arrears on June 1 and December 1 of each year, beginning on June 1, 2025, and will mature on December 1, 2031, unless earlier converted, redeemed or repurchased by us. The net proceeds from the 2031 Notes were approximately $435.6 million after deducting the debt issuance costs and our estimated offering expenses. We used approximately (i) $67.0Â million to repurchase shares of our common stock with which we repurchased 890,484 shares at $75.24 a share, and (ii) $49.9Â million to pay the cost of the capped call 34Table of Contents transactions. Additionally, the remainder of the net proceeds, together with our cash on hand, were used to repay the outstanding balance of our Term Loan Facility.In connection with the issuance of the 2031 Notes, we entered into privately negotiated capped call transactions with certain financial institutions. The 2031 Capped Calls are expected to partially offset the potential dilution to our common stock upon any conversion of the 2031 Notes, with such offset subject to a cap based on the cap price. Term Loan Facility. In connection with our issuance of the 2031 Notes, we used a portion of the net proceeds from the 2031 Notes, along with our cash on hand, to repay the outstanding balance of our Term Loan Facility. See Note 12. Debt in the Notes to the Unaudited Condensed Consolidated Financial Statements for additional information on our outstanding debt obligations.$100 Million Shelf Registration. We have registered an aggregate of $100.0 million of common stock and preferred stock for issuance in connection with acquisitions, which shares will generally be freely tradeable after their issuance under the Securities Act unless held by an affiliate of us, in which case such shares will be subject to the volume and manner of sale restrictions of Rule 144 of the Securities Act. Working Capital Needs. We believe our existing cash and cash equivalents, anticipated cash flows from operating activities, anticipated cash flows from financing activities, and available credit under our revolving credit facility, will be sufficient to meet our working capital and other cash requirements, and our debt service obligations for at least the next 12 months. Our future capital requirements will depend on many factors, including our revenue, the timing and extent of spending to support product development efforts, costs associated with restructuring activities net of projected savings from those activities, costs related to protecting our intellectual property, the expansion of sales and marketing activities, timing of introduction of new products and enhancements to existing products, costs to ensure access to adequate manufacturing, costs of maintaining sufficient space for our workforce, the continuing market acceptance of our product solutions, our common stock repurchase program, and the amount and timing of our investments in, or acquisitions of, other technologies or companies. Further equity or debt financing may not be available to us on acceptable terms. If sufficient funds are not available or are not available on acceptable terms, our ability to fund our future long-term working capital needs, take advantage of business opportunities or to respond to competitive pressures could be limited or severely constrained. The undistributed earnings of our foreign subsidiaries are not currently required to meet our United States working capital and other cash requirements, but should we repatriate a portion of these earnings, we may be required to pay certain previously accrued state and foreign taxes, which would impact our cash flows. As of December 2024, we were unable to make a reasonably reliable estimate of when cash settlement with a taxing authority may occur in connection with our gross unrecognized tax benefit. 35Table of Contents ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKAs of DecemberÂ 28, 2024, our market risk related to interest rates on our cash and cash equivalents, and foreign currency exchange risks has not changed materially from the risks disclosed in Item 7A of our Annual Report on Form 10-K for the fiscal year ended JuneÂ 29, 2024. ITEM 4. CONTROLS AND PROCEDURESEvaluation of Disclosure Controls and Procedures Under the supervision and with the participation of our management, including our Chief Executive Officer and Principal Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on this evaluation, our Chief Executive Officer and Principal Financial Officer, as of DecemberÂ 28, 2024, concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) were effective to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Principal Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.Changes in Internal Control over Financial ReportingWe assessed, with the participation of our Chief Executive Officer and Principal Financial Officer, any change in our internal control over financial reporting as of the end of the fiscal quarter covered by this Report.There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period ended December 2024, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. 36Table of Contents PART IIâ€“OTHER INFORMATIONITEM 1. LEGAL PROCEEDINGSWe are party to various litigation matters and claims arising from time to time in the ordinary course of business. While the results of such matters cannot be predicted with certainty, we believe that the final outcome of such matters will not have a material adverse effect on our business, financial condition, results of operations or cash flows. ITEM 1A. RISK FACTORSWe refer you to the Companyâ€™s risk factors set forth in Part I, Item 1A, â€œRisk Factors,â€ of our Annual Report on Form 10-K for the fiscal year ended JuneÂ 29, 2024 for material risks that may affect our business. There have been no material changes from the risk factors previously disclosed, except as described below. Risks Related to Ownership of Our Convertible Senior NotesServicing our debt may require a significant amount of cash. We may not have sufficient cash flows from our business to pay our indebtedness, and we may not have the ability to raise the funds necessary to settle conversions of the convertible senior notes in cash or to repurchase the convertible senior notes for cash upon a fundamental change, which could adversely affect our business and results of operations.In November 2024, we issued $450.0 million in aggregate principal amount of the 2031 Notes in a private offering. The 2031 Notes mature on December 1, 2031, and bear interest at a fixed rate of 0.75% per annum, payable semiannually in arrears on June 1 and December 1 of each year, beginning on June 1, 2025. Our ability to make scheduled payments of interest under our 2031 Notes, or to refinance such indebtedness, depends on our future performance, which is subject to economic, financial, competitive and other factors beyond our control, including those described in this report. Our business may not generate cash flows from operations in the future that are sufficient to service our indebtedness and make necessary capital expenditures. If we are unable to generate sufficient cash flows, we may be required to pursue one or more alternatives, such as selling assets, restructuring debt or obtaining additional debt financing or equity capital on terms that may be highly dilutive to existing holders of our common stock. Our ability to obtain additional financing or refinance the 2031 Notes, or any future indebtedness, will depend on conditions in the capital markets and our financial condition at such time, among other factors. We may not be able to engage in any of these activities on favorable terms or at all, which could result in a default on our debt obligations or other material adverse effects on our business and financial condition.Subject to certain conditions, holders of the 2031 Notes have the right to require us to repurchase for cash all or any portion of their 2031 Notes upon the occurrence of a fundamental change at a make-whole premium through an increase to the conversion rate (as defined in the indenture governing the 2031 Notes), plus accrued and unpaid interest, if any, to, but excluding, the applicable fundamental change repurchase date.Upon conversion of the 2031 Notes in accordance with their terms, unless we elect to solely deliver shares of our common stock to settle such conversion (other than paying cash in lieu of delivering any fractional shares), we will be required to settle a portion or all of our conversion obligation through the payment of cash. We may not have enough available cash or be able to obtain financing at the time we are required to make repurchases in connection with such conversions and our ability to pay may be further limited by law, regulatory authority or agreements governing our future indebtedness. Our failure to repurchase any convertible senior notes at a time when the repurchase is required by the applicable indenture or to pay any cash payable on any future conversions as required by such indenture would constitute a default under such indenture. A default under the applicable indenture would, and the occurrence of the fundamental change itself may, lead to a default under agreements governing our future indebtedness. If the repayment of the related indebtedness were to be accelerated after any applicable notice or grace periods, we may not have sufficient funds to repay the indebtedness or repurchase the convertible senior notes when required, or to make cash payments upon conversions thereof.If triggered, the conditional conversion features of the convertible senior notes may adversely affect our financial condition and operating results.If and to the extent the conditional conversion features of our 2031 Notes are triggered, holders of such convertible senior notes will be entitled to convert their convertible senior notes at any time during specified periods at their option. The holders of the 2031 Notes are not entitled to convert their convertible senior notes during the third quarter 37Table of Contents of fiscal 2025. Whether our 2031 Notes will be convertible after the third quarter of fiscal 2025 will depend on the satisfaction of the applicable conversion conditions.To the extent that the conditional conversion features of either or both series of our convertible senior notes are triggered in the future, holders of such convertible senior notes will be entitled to convert their convertible senior notes at any time during the specified periods at their option. If one or more holders elect to convert their convertible senior notes during any such specified period, we have the option to pay or deliver, as the case may be, cash, shares of our common stock or a combination of cash and shares of our common stock, at our election. Any election to settle conversions of convertible senior notes with cash could adversely affect our liquidity.Transactions relating to the convertible senior notes may dilute the ownership interests of our existing stockholders or adversely affect the market price of our common stock; the trading price of our convertible senior notes may be affected by volatility in the price of our common stock.The conversion of some or all of the convertible senior notes would dilute the ownership interests of our existing stockholders to the extent we satisfy our conversion obligation by delivering shares of our common stock. In this regard, if holders of the 2031 Notes elect to convert their notes, we may settle our conversion obligations by delivering to them cash, shares of our common stock or a combination thereof. In addition, we may issue shares of our common stock in connection with repurchases, exchanges or other transactions involving the 2031 Notes. Historically, we have elected to satisfy our convertible senior note conversion obligations through the payment of cash in certain circumstances, the issuance of shares of common stock in other circumstances, or a combination thereof, to such convertible senior note holders. In addition, in connection with the issuance of each series of the convertible senior notes, we entered into capped call transactions with certain financial institutions, or the Option Counterparties. The capped call transactions are expected generally to reduce the potential dilution to holders of our common stock upon any conversion or settlement of the convertible notes and/or offset any cash payments we are required to make in excess of the principal amount of such convertible senior notes, as the case may be, with such reduction, offset or a combination thereof subject to a cap under the terms of the capped call transactions. We expect that the Option Counterparties or their respective affiliates may from time to time purchase shares of our common stock, enter into various derivative transactions with respect to our common stock or a combination thereof in connection with their hedging activities relating to the capped call transactions. The Option Counterparties or their respective affiliates also may modify their hedge positions by entering into or unwinding such derivative transactions, purchasing or selling our common stock or other securities of ours in secondary market transactions or a combination thereof prior to the applicable maturity of the convertible senior notes. These activities could negatively affect the market price of our common stock.Volatility and declines in the trading price of our common stock may result in decreases in the trading prices of our convertible senior notes. Our convertible senior notes do not trade in a liquid market and are thus subject to increased volatility, particularly when our common stock price is volatile.38Table of Contents ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS Issuer Purchases of Equity Securities From April 2005 through April 2023, our Board of Directors cumulatively authorized the repurchase of up to $2.3 billion of our common stock under our stock repurchase program, which will expire at the end of July 2025. As of December 2024, the remaining amount authorized for the repurchase of our common stock was $819.4 million. Additionally, certain provisions within the Plan specify a certain percentage of the net shares that can be sold at the vesting date of the underlying equity award. As such, for purposes of this disclosure, the shares included in this table reflect the aggregate maximum number of shares underlying the holders of the equity awards without excluding (i) the shares that will be sold to satisfy the tax withholding obligations and (ii) any limitations on the amount of net shares that can be sold on the vesting date of the equity award.39Table of Contents ITEM 6. Principles of Consolidation Basis of Presentation and Principles of ConsolidationThe accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission, or the SEC, and United States generally accepted accounting principles, or U.S. GAAP. Certain information or footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to SEC rules and regulations. In our opinion, the financial statements include all adjustments, which are of a normal and recurring nature and necessary for the fair presentation of the results of the interim periods presented. The results of operations for the interim periods are not necessarily indicative of the operating results for the full fiscal year or any future period. These financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended JuneÂ 29, 2024. The condensed consolidated financial statements include our financial statements and those of our wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated upon consolidation. Certain reclassifications have been made to the amounts for prior years in order to conform to the current yearâ€™s presentation.Our fiscal year is the 52- or 53-week period ending on the last Saturday in June. Our fiscal 2025 is a 52-week period ending JuneÂ 28, 2025, and our fiscal 2024 was a 53-week period ending on JuneÂ 29, 2024. The fiscal periods presented in this report are 13-week periods and 26-week periods for the three and six months ended DecemberÂ 28, 2024 and DecemberÂ 30, 2023, respectively. For simplicity, the accompanying condensed consolidated financial statements have been shown as ending on calendar quarter end dates as of and for all periods presented, unless otherwise indicated.Use of EstimatesThe preparation of consolidated financial statements in conformity with U.S. GAAP requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue, expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates including, but not limited to, those estimates related to revenue recognition, allowance for credit losses, cost of revenue, inventories, loss on purchase commitments, product warranty, accrued liabilities, share-based compensation costs, provision for income taxes, deferred tax assets and the associated valuation allowance, uncertain tax positions, goodwill, intangible assets, investments and loss contingencies. We base our estimates on historical experience, current period developments, applicable laws and regulations, and various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Convertible Senior NotesWe account for our convertible senior notes with embedded conversion features in accordance with Accounting Standards Update ("ASU") 2020-06, Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging - Contracts in Entity's Own Equity (Subtopic 815-40), which removes from GAAP the liability and equity separation model for convertible instruments with either cash or beneficial conversion features. As a result, convertible debt instruments would only be separated into multiple components if they were issued at a substantial premium or if embedded derivatives requiring bifurcation were identified. The convertible senior notes (the "2031 Notes") were not issued at a substantial premium, and we analyzed the provisions of the notes and did not identify any material embedded features which would require bifurcation from the host debt. As such, the 2031 Notes are accounted for entirely as a liability, net of unamortized issuance costs. The carrying amount of the liability is classified as long-term as the instrument does not mature within one year of the balance sheet date and the holder is not permitted to demand repayment of the principal within one year of the balance sheet date. However, if conditions to convertibility are met and holders are expected to convert within one year as described further in Note 12, we may be required to reclassify the carrying amount of the liability to current. The embedded conversion features are not remeasured as long as they do not meet the separation requirement of a derivative. Issuance costs are amortized to interest expense using the effective interest rate method. Additionally, ASU 2020-06 requires the application of the if-converted method to calculate the impact of convertible instruments on diluted earnings per share.Accounting Pronouncements Recently IssuedIn November 2023, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update, or ASU No. 2023-07, â€œSegment Reporting: Improvements to Reportable Segment Disclosures.â€ This guidance requires disclosure of incremental segment information on an annual and interim basis. This amendment is effective for our fiscal year ending June 2025 and our interim periods within the fiscal year ending June 2026. We are currently assessing the impact of this guidance on our disclosures.In December 2023, the FASB issued ASU No. 2023-09, â€œIncome Taxes: Improvements to Income Tax Disclosures.â€ This guidance requires consistent categories and greater disaggregation of information in the rate reconciliation and disclosures of income taxes paid by jurisdiction. This amendment is effective for our fiscal year ending June 2026. We are currently assessing the impact of this guidance on our disclosures. In November 2024, the FASB issued ASU No. 2024-03, â€œIncome Statement - Reporting Comprehensive Income - Disaggregation of Income Statement Expenses.â€ This guidance requires disclosures about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. This amendment is effective for our fiscal year ending June 2028 and our interim periods within the fiscal year ending June 2029. We are currently assessing the impact of this guidance on our disclosures.In November 2024, the FASB, issued ASU 2024-04, "Debt - Debt with Conversions and Other Options." This guidance is intended to clarify requirements for determining whether certain settlements of convertible debt instruments, including convertible debt instruments with cash conversion features or convertible debt instruments that are not currently convertible, should be accounted for as an induced conversion. This amendment is effective for our fiscal year ending June 2027. We are currently evaluating the potential impact of this guidance on our disclosures. Most of our revenue, except an inconsequential amount, is recognized at a point in time, either on shipment or delivery of the product, depending on customer terms and conditions.Rights to our intellectual property, or IP, are either sold or licensed to customers. Revenue recognition from the licensing of our IP is dependent on the nature and terms of each agreement. We recognize revenue from the licensing of our IP upon delivery of the IP if there are no substantive future obligations to perform under the arrangement. Sales-based or usage-based royalties from the license of IP are recognized at the later of the period the sale or usage occurs, or the satisfaction of the performance obligation to which some or all of the sales-based or usage-based royalties have been allocated. Our accounts receivable balance is from contracts with customers and represents our unconditional right to receive consideration from customers. To date, there have been no material credit loss charges recorded on accounts receivable. As of December 2024 and June 2024, contract assets recorded on our condensed consolidated balance sheets were $1.2 million. Contract assets are presented as part of prepaid expenses and other current assets. Contract liabilities and refund liabilities were $8.8 million and $45.0 million, respectively, as of December 2024, and $14.7 million and $43.5 million, respectively, as of June 2024. Both contract liabilities and refund liabilities are presented as customer obligations in Note 10. Balance Sheet Components. During the three months ended December 2024 and December 2023, we recognized $0.9 million and $0.5 million, respectively, in revenue related to contract liabilities, which was outstanding as of the beginning of each fiscal quarter. During the six months ended December 2024 and December 2023, we recognized $13.5 million and $2.9 million, respectively, in revenue related to contract liabilities, which was outstanding as of the beginning of each fiscal quarter. Revenue from contracts with customers disaggregated by geographic area based on customer location and product category is presented in Note 15. Segment, Customers, and Geographical Information. We use the "treasury stock" method to determine the dilutive effect of our stock options, restricted stock units, or RSUs, market stock units, or MSUs, and performance stock units, or PSUs. Upon any conversion of our convertible notes, we will be required to pay cash in an amount at least equal to the principal portion and have the option to settle any amount in excess of the principal portion in cash and/or ordinary shares. As a result, only the amounts expected to be settled in excess of the principal portion are considered in calculating diluted earnings per share under the if-converted method. Potentially dilutive shares whose effect would have been antidilutive are excluded from the computation of diluted net loss per share. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value assumes that the transaction to sell the asset or transfer the liability occurs in the principal or most advantageous market for the asset or liability and establishes that the fair value of an asset or liability shall be determined based on the assumptions that market participants would use in pricing the asset or liability. The classification of a financial asset or liability within the hierarchy is based upon the lowest level input that is significant to the fair value measurement. The fair value hierarchy prioritizes the inputs into three levels that may be used to measure fair value: â€¢Level 1 â€“ Valuation is based upon unadjusted quoted prices for identical assets or liabilities in active markets.â€¢Level 2 â€“ Valuation is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instruments.â€¢Level 3 â€“ Valuation is based upon other unobservable inputs that are significant to the fair value measurements.Our Level 1 financial instruments are traded in active markets, and the fair value is based on quoted market prices for identical instruments. The fair value of our Level 2 fixed income securities is obtained from an independent pricing service, which may use quoted market prices for identical or comparable instruments or model driven valuations using observable market data or inputs corroborated by observable market data. Our marketable securities are held by custodians who obtain investment prices from a third-party pricing provider that incorporates standard inputs in various asset price models. At December 2024 and June 2024, financial assets measured at fair value on a recurring basis are summarized below (in millions): December 2024June 2024Level 1Level 2Total (1)Level 1Level 2Total (1)Assets:Cash equivalents:Money market funds$66.9Â $â€”Â $66.9Â $600.4Â $â€”Â $600.4Â Certificates of depositâ€”Â 11.1Â 11.1Â â€”Â 38.1Â 38.1Â Total assets$66.9Â $11.1Â $78.0Â $600.4Â $38.1Â $638.5Â (1)Excludes $518.1 million and $238.4 million in cash held in our bank accounts as of December 2024 and June 2024, respectively. In addition, in connection with certain agreements, we are obligated to indemnify the counterparty against third party claims alleging infringement of certain intellectual property rights by us. Maximum potential future payments under these agreements cannot be estimated because these agreements generally do not have a maximum stated liability. Historical costs related to these indemnification provisions have not been significant. However, we will accrue for any losses related to these indemnification agreements when it is both probable that we will incur the loss and we can reasonably estimate the amount of the loss or range of loss. During the six months ended December 2024, we recorded an estimated liability of $2.2Â million related to our proportionate share of an indemnity obligation to defend a counterparty against a third party claim alleging infringement of certain intellectual property rights.ContingenciesWe have in the past, and may in the future, receive notices from third parties that claim our products infringe their intellectual property rights. We cannot be certain that our technologies and products do not, and will not, infringe issued patents or other proprietary rights of third parties. Any infringement claims, with or without merit, could result in significant litigation costs and diversion of management and financial resources, including the payment of damages, which could have a material adverse effect on our business, financial condition, and results of operations. Legal ProceedingsFrom time to time, we are subject to various claims and legal proceedings, either asserted or unasserted, that arise in the ordinary course of business. While we currently believe that resolving claims against us, individually or in the aggregate, will not have a material adverse impact on our business, financial condition, or results of operations, these matters are subject to inherent uncertainties and our view of these matters may change in the future. We accrue for loss contingencies when it is both probable that we will incur the loss and we can reasonably estimate the amount of the loss or range of loss. The Senior Notes were issued pursuant to an indenture, dated as of March 11, 2021, or the Indenture, by and among our company, the guarantors named therein and Wells Fargo Bank, National Association, as trustee. The Indenture provides that the Senior Notes will bear interest at a rate of 4.0% per annum, payable in cash semi-annually in arrears on December 15 and June 15 of each year, commencing on June 15, 2021. The Senior Notes will mature on June 15, 2029 and are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by each of our current and future domestic restricted subsidiaries that guarantee our obligations under our senior secured credit facilities. On or after June 15, 2024, we may redeem some or all of the Senior Notes at the redemption prices specified below, plus accrued and unpaid interest, if any, up to, but excluding, the redemption date:YearPrice 2024102Â %2025101Â %2026 and thereafter100Â %The Senior Notes are the general unsecured obligations of our company. The Senior Note guarantees are the senior unsecured obligations of each guarantor. Under certain circumstances, the guarantors may be released from their Senior Note guarantees without consent of the holders of Senior Notes. Under the terms of the Indenture, the Senior Notes rank equally in right of payment with all of our and the guarantorsâ€™ existing and future senior indebtedness, and rank contractually senior in right of payment to our and the guarantorsâ€™ future indebtedness and other obligations that are, by their terms, expressly subordinated in right of payment to the Senior Notes. The Senior Notes are effectively subordinated to our and the guarantorsâ€™ existing and future secured indebtedness, including secured indebtedness under our senior secured credit facilities, to the extent of the value of the assets securing such indebtedness. The Senior Notes and guarantees are structurally subordinated to all existing and future indebtedness and liabilities (including trade payables) of our subsidiaries that do not guarantee the Senior Notes. The Indenture contains covenants that, subject to exceptions and qualifications, among other things, limit our ability and the ability of our Restricted Subsidiaries (as defined in the Indenture) to (i) incur additional indebtedness and guarantee indebtedness; (ii) pay dividends or make other distributions or repurchase or redeem our companyâ€™s or any parentâ€™s capital stock; (iii) prepay, redeem or repurchase certain indebtedness; (iv) issue certain preferred stock or similar equity securities; (v) make loans and investments; (vi) dispose of assets; (vii) incur liens; (viii) enter into transactions with affiliates; (ix) enter into agreements restricting its subsidiariesâ€™ ability to pay dividends; and (x) consolidate, merge or sell all, or substantially all, of its assets. The Indenture contains customary events of default including, without limitation, failure to make required payments, failure to comply with certain agreements or covenants, cross-acceleration to certain other indebtedness in excess of specified amounts, certain events of bankruptcy and insolvency, and failure to pay certain judgments. An event of default under the Indenture will allow either the trustee or the holders of at least 25% in aggregate principal amount of the then outstanding Senior Notes to accelerate, or in certain cases, will automatically cause the acceleration of, the maturity of the principal, and accrued and unpaid interest, if any, on all outstanding Notes. Revolving Credit FacilityOn November 21, 2024, we entered into a Fourth Amendment and Lender Joinder Agreement, or the Fourth Amendment, to our existing Second Amended and Restated Credit Agreement, as amended, or the Credit Agreement, with the lenders party thereto and Wells Fargo Bank, National Association, as the administrative agent, or the Administrative Agent, dated as of March 11, 2021. The Fourth Amendment extends the maturity date to be the earlier of (i) November 21, 2029 and (ii) ninety one (91) days prior to any maturity of the Senior Notes. Clause (ii) will not apply if we have Liquidity (as defined in the Fourth Amendment) in an amount of at least $100.0 million in excess of the amount that would be required to be paid on such date. The Fourth Amendment is arranged by a syndicate of financial institutions and, among other things, increases the revolving commitments from $250.0 million to $350.0 million. Additionally, the Fourth Amendment includes a $25.0 million sublimit for letters of credit and a $25.0 million sublimit for swingline loans. Under the terms of the Fourth Amendment we may, subject to the satisfaction of certain conditions, request increases in the revolving credit facility commitments in an aggregate principal amount of up to $170.0 million to the extent existing or new lenders agree to provide such increased or additional commitments, as applicable. Future proceeds under the revolving credit facility are available for working capital and general corporate purposes. As of December 2024, there was no balance outstanding under the revolving credit facility. Debt issuance costs relating to the revolving credit facility of $2.0 million, included in non-current other assets on our consolidated balance sheet, are being amortized over 60 months. The amortization of debt issuance costs on the revolving credit facility was $0.1Â million and $0.2Â million for the three and six months ended December 2024 and December 2023, respectively. Our obligations under the Credit Agreement are guaranteed by the material domestic subsidiaries of the Company, subject to certain exceptions, who collectively with the Company are referred to as the Credit Parties. The obligations of the Credit Parties under the Amended Credit Agreement and the other loan documents delivered in connection therewith are secured by a first priority security interest in substantially all of the existing and future personal property of the Credit Parties, including, without limitation, 65% of the voting capital stock and 100% of the non-voting capital stock of certain of the Credit Partiesâ€™ direct foreign subsidiaries, subject to certain exceptions. The Credit Agreement bears interest, at our election, of a Base Rate plus an Applicable Margin or Adjusted Term SOFR, as defined in the Second Amendment, plus an Applicable Margin. Swingline loans bear interest at a Base Rate plus an Applicable Margin. The Base Rate is a floating rate that is the greater of the Prime Rate, the Federal Funds Rate plus 50 basis points, or Adjusted Term SOFR plus 100 basis points. The Applicable Margin is based on a sliding scale which ranges from 25 to 100 basis points for Base Rate loans and 100 basis points to 175 basis points for Adjusted Term SOFR loans. We are required to pay a commitment fee on any unused commitments under the Credit Agreement which is determined on a leverage-based sliding scale ranging from 0.175% to 0.25% per annum. Interest and fees are payable on a quarterly basis. Under the Credit Agreement, there are various restrictive covenants, including two financial covenants which limit the consolidated total net leverage ratio, or net leverage ratio, the consolidated net interest coverage ratio, or net interest coverage ratio. The net leverage ratio is the ratio of net debt as of the measurement date to Consolidated EBITDA, for the four consecutive quarters ending with the quarter of measurement. The current net leverage ratio shall not exceed 3.75 to 1.00 provided that for the four fiscal quarters ending after the date of a material acquisition, such maximum leverage ratio shall be adjusted to 4.75 to 1.00, and thereafter 3.75 to 1.0. The net interest coverage ratio is Consolidated EBITDA to interest expense for the four consecutive quarters ending with the quarter of measurement net of total cash interest income. The current net interest coverage ratio shall not be less than 2.75 to 1.0, provided that such net interest coverage ratio shall be 3.0 to 1.0 starting with the last day of the first fiscal quarter ending

after the 18 month anniversary of the Fourth Amendment Effective Date, or May 21, 2026, and thereafter. As of December 2024, we remain in compliance with the restrictive covenants.Convertible Senior Notes due 2031On November 19, 2024 and November 26, 2024, we issued and sold $400.0Â million and $50.0Â million, respectively, in aggregate principal amount of 0.75% Convertible Senior Notes due 2031, or the 2031 Notes, in a private placement. The 2031 Notes were issued pursuant to an indenture, dated November 19, 2024, by and among us, and U.S. Bank Trust Company, National Association, as trustee, or the 2031 Indenture. The 2031 Notes are unsecured, bear interest at a fixed rate of 0.75% per year, payable semi-annually in arrears on June 1 and December 1 of each year, beginning on June 1, 2025 and mature on December 1, 2031, unless earlier converted, redeemed or repurchased by us. The net proceeds from the 2031 Notes were approximately $435.6Â million after deducting the debt issuance costs and our estimated offering expenses. We used approximately (i) $67.0Â million to repurchase shares of our common stock with which we repurchased 890,484 shares at $75.24 a share, the stock price on November 14, 2024, the date of the offering memorandum, and (ii) $49.9Â million to pay the cost of the capped call transactions (as described below). Additionally, the remainder of the net proceeds, together with our cash on hand, were used to repay the outstanding balance of our Term Loan Facility.The initial conversion rate of the 2031 Notes is 10.0308 shares of our common stock per $1,000 principal amount of 2031 Notes (which is equivalent to an initial conversion price of approximately $99.69 per share). The conversion rate is subject to adjustment upon the occurrence of certain events specified in the 2031 Indenture. In addition, upon the occurrence of a Make-Whole Fundamental Change (as defined in the 2031 Indenture) or if we deliver a Redemption Notice (as defined in the 2031 Indenture), we will, in certain circumstances, increase the conversion rate by a number of additional shares of common stock as described in the 2031 Indenture for a holder who elects to convert its 2031 Notes in connection with such Make-Whole Fundamental Change or to convert its 2031 Notes called (or deemed called as provided in the 2031 Indenture) for redemption in connection with such Redemption Notice, as the case may be. At any time from, and including, September 2, 2031, the 2031 Notes are convertible at the option of the holders thereof only under the following circumstances: (1) during any calendar quarter commencing after the first calendar quarter ending on March 31, 2025, if the last reported sale price per share of our common stock exceeds 130% of the conversion price for at least 20 trading days (whether or not consecutive) during the 30 consecutive trading days ending on, and including, the last trading day of the immediately preceding calendar quarter; (2) during the five consecutive business days after any ten consecutive trading day period (such ten consecutive trading day period, the "measurement period") in which the Trading Price per $1,000 principal amount of the 2031 Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price per share of our common stock on such trading day and the conversion rate on such trading day; (3) if we call such 2031 Notes for redemption; or (4) upon the occurrence of specified corporate events or distributions on our common stock, (as defined in the 2031 Indenture). As of December 28, 2024, none of the conditions allowing holders of the 2031 Notes to convert had been met. On or after September 2, 2031 until the close of business on the second scheduled trading day immediately preceding the maturity date of the 2031 Notes, holders of the 2031 Notes may convert all or a portion of their 2031 Notes, regardless of the foregoing conditions. Upon conversion, the 2031 Notes will be settled in cash, shares of the our common stock based on the conversion rate (as defined in the 2031 Indenture) or any combination thereof, at our election.The 2031 Notes are redeemable, at our option at any time, and from time to time, on or after December 6, 2028. We may redeem for cash all or any portion of the 2031 Notes (subject to the limitation described below), at our option, on or after December 6, 2028 and on or before the 40th scheduled trading day immediately before December 1, 2031 at a cash redemption price equal to the principal amount of the 2031 Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date, but only if (i) the notes are Freely Tradable (as defined in 2031 Indenture) as of the date we send the related redemption notice and all accrued and unpaid additional interest, if any, has been paid in full as of the most recent interest payment date occurring on or before the date we send such notice; and (ii) the last reported sale price per share of our common stock exceeds 130% of the conversion price on (1) each of at least 20 trading days, whether or not consecutive, during the 30 consecutive trading days ending on, and including, the trading day immediately before the date we send such redemption notice; and (2) the trading day immediately before the date we send such notice. However, we may not redeem less than all of the outstanding notes unless at least $100.0Â million aggregate principal amount of notes are outstanding and not called for redemption as of the time we send, and after giving effect to, the related redemption notice. In addition, calling any note for redemption will constitute a Make-Whole Fundamental Change with respect to that note, in which case the conversion rate applicable to the conversion of that note will be increased in certain circumstances if it is converted after it is called for redemption. No sinking fund is provided for the 2031 Notes.The 2031 Notes will be our senior, unsecured obligations and will be (i) equal in right of payment with our existing and future senior unsecured indebtedness; (ii) senior in right of payment to our existing and future indebtedness that is expressly subordinated 2031 Notes; (iii) effectively subordinated to our existing and future secured indebtedness, to the extent of the value of the collateral securing that indebtedness; and (iv) structurally subordinated to all existing and future indebtedness and other liabilities.Upon the occurrence of a Fundamental Change (as defined in the 2031 Indenture) prior to the maturity date of the 2031 Notes, holders of the 2031 Notes may require us to repurchase their notes for a cash repurchase price equal to the principal amount of the 2031 Notes to be repurchased, plus any accrued and unpaid interest, if any, to, but excluding, the Fundamental Change Repurchase Date (as defined in the 2031 Indenture).2031 Capped CallsIn connection with the issuance of the 2031 Notes, we entered into privately negotiated capped call transactions, or, each, a 2031 Capped Call, and, collectively, the 2031 Capped Calls, with certain financial institutions. The 2031 Capped Calls have an initial strike price of $99.69, subject to certain adjustments, which corresponds to the initial conversion price of the 2031 convertible senior notes. The 2031 Capped Calls have an initial cap price of $150.48 per share, subject to certain adjustments. The 2031 Capped Calls are expected to partially offset the potential dilution to the Companyâ€™s common stock upon any conversion of the 2031 convertible senior notes, with such offset subject to a cap based on the cap price. Each 2031 Capped Call covers, subject to anti-dilution adjustments, approximately 4.5Â million shares of the Companyâ€™s common stock. The 2031 Capped Calls are subject to adjustment upon the occurrence of specified extraordinary events affecting the Company, including merger events, tender offers, and announcement events. In addition, each 2031 Capped Call is subject to certain specified additional disruption events that may give rise to a termination of the 2031 Capped Calls, including nationalization, insolvency or delisting, changes in law, failures to deliver, insolvency filings, and hedging disruptions. For accounting purposes, each 2031 Capped Call is treated as a separate transaction from, and not part of, the terms of the 2031 convertible senior notes. As these transactions meet certain accounting criteria, the 2031 Capped Calls are recorded in stockholders' equity and are not accounted for as derivatives. The 2031 Capped Calls will not be remeasured as long as they continue to meet the conditions for equity classification.Term Loan FacilityOn DecemberÂ 2, 2021, we entered into that certain First Amendment and Lender Joinder Agreement to the Credit Agreement, to, among other things, establish a new $600.0 million incremental term loan facility, or the Term Loan Facility. The Term Loan Facility was advanced by certain existing and new lenders under the Credit Agreement to finance the DSPG acquisition. The Term Loan Facility matures on December 2, 2028. Principal on the Term Loan Facility is payable in equal quarterly installments on the last day of each March, June, September and December of each year, beginning December 31, 2021, at a rate of 1.00% per annum.We used a portion of the net proceeds from the 2031 Notes, together with our cash on hand, to repay the outstanding balance under our Term Loan Facility. On November 19, 2024, we paid a total of $583.4Â million, which consisted of (i) the remaining outstanding principal balance of $582.0Â million and (ii) accrued and unpaid interest of $1.4Â million. The repayment of the Term Loan Facility was accounted for as a debt extinguishment. The consideration used to extinguish the Term Loan Facility and the carrying value of the Term Loan Facility (including unamortized debt issuance costs) resulted in a loss on early extinguishment of debt of $6.5Â million included in loss on early extinguishment of debt within our condensed consolidated statements of operations. Compensation Plan, or the 2019 Incentive Plan, to replace our Amended and Restated 2010 Incentive Compensation Plan, or the 2010 Incentive Plan, and (ii) our 2019 Employee Stock Purchase Plan, or the 2019 ESPP, to replace our Amended and Restated 2010 Employee Stock Purchase Plan. Awards outstanding at October 29, 2019 under our prior share-based compensation plans were not impacted by the approval of the 2019 Incentive Plan and continue to remain outstanding and vest by their terms under the applicable share-based compensation plan. Shares underlying certain share-based awards forfeited under the 2010 Incentive Plan subsequent to the approval of the 2019 Incentive Plan automatically transfer to and become available for award issuance from the 2019 Incentive Plan.The 2019 Incentive Plan authorizes our Board of Directors to provide equity-based compensation in the form of stock options, stock appreciation rights, restricted stock, RSUs, cash incentive awards, performance shares, PSUs, and other stock-based awards. The 2019 Incentive Plan has been amended and restated, and the cumulative number of shares approved by stockholders is 7,588,000 as of OctoberÂ 29, 2024. The 2019 ESPP authorizes the Company to provide eligible employees with an opportunity to acquire an equity interest in the Company through the purchase of stock at a discount, with an initial authorization of 1,500,000 shares.Effective AugustÂ 19, 2019, we adopted the 2019 Inducement Equity Plan, and 650,000 shares of our common stock were reserved for issuance under the 2019 Inducement Equity Plan, subject to adjustment for stock dividends, stock splits, or other changes in our common stock or capital structure. The 2019 Inducement Equity Plan was intended to comply with Rule 5635(c)(4) of the Nasdaq Stock Market Listing Rules, which provide an exception to the Nasdaq Stock Market Listing Rules on the shareholder approval requirement for the issuance of securities with regards to grants to employees of the Company or its subsidiaries as an inducement material to such individuals entering into employment with the Company or its subsidiaries. An individual was eligible to receive an award under the 2019 Inducement Equity Plan only if he or she was not previously an employee or director of our Company (or is returning to work after a bona-fide period of non-employment), and an award under the 2019 Inducement Equity Plan is a material inducement for him or her to accept employment with our Company. No new awards may be granted under the 2019 Inducement Equity Plan.Share-Based CompensationShare-based compensation recognized in our condensed consolidated statements of operations was as follows (in millions):Three Months EndedSix Months EndedDecemberDecember2024202320242023Cost of revenue$0.3Â $1.1Â (2.4)2.2Â Research and development15.6Â 15.5Â 30.1Â 30.7Â Selling, general, and administrative18.7Â 12.6Â 34.1Â 29.5Â Total$34.6Â $29.2Â $61.8Â $62.4Â Historically, we have issued new shares in connection with our equity-settled share-based compensation plans, however, treasury shares are also available for issuance. We value PSUs using the aggregate intrinsic value on the date of grant adjusted for estimated performance achievement during the performance period and amortize the compensation expense over the three-year service period on a ratable basis. The amount of stock-based compensation expense recognized in any period related to PSUs can vary based on the achievement or anticipated achievement of the performance conditions. If the performance conditions are not met, or not expected to be met, no compensation cost would be recognized on the underlying PSUs, and any previously recognized compensation expense related to those PSUs would be reversed. The unrecognized share-based compensation cost of our outstanding PSUs was approximately $23.3Â million as of December 2024, which will be recognized over a weighted average period of approximately 1.14 years.Employee Stock Purchase PlanShares purchased, weighted average purchase price, cash received, and the aggregate intrinsic value for employee stock purchase plan purchases during the six months ended December 2024, were as follows (in millions, except for shares purchased and weighted average price): Shares purchased122,080Weighted average purchase price$63.4Â Cash received$7.7Â Aggregate intrinsic value$1.4Â X - DefinitionThe entire disclosure for share-based payment arrangement. + ReferencesReference 1: http://www.xbrl.org/2003/role/exampleRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (a)(1) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2Reference 2: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -Name Accounting Standards Codification -Publisher FASB -URI https://asc.fasb.org/718/tableOfContentReference 3: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (a) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2Reference 4: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (h)(2) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2Reference 5: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (h)(2)(i) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2Reference 6: http://www.xbrl.org/2003/role/disclosureRef -Topic 718 -SubTopic 10 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (l) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480429/718-10-50-2 + Details Name: us-gaap_DisclosureOfCompensationRelatedCostsShareBasedPaymentsTextBlock Namespace Prefix: us-gaap_ Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration X - ReferencesNo definition available. + Details Name: us-gaap_DisclosureOfCompensationRelatedCostsSharebasedPaymentsAbstract Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration XML 30 R21.htm IDEA: XBRL DOCUMENT v3.25.0.1 Income Taxes 6 Months Ended Dec. 28, 2024 Income Tax Disclosure [Abstract] Â Income Taxes Income TaxesWe account for income taxes under the asset and liability method. The provision for income taxes recorded in interim periods is based on our estimate of the annual effective tax rate applied to year-to-date income before provision for income taxes, adjusted for discrete items required to be recognized in the period in which they are incurred. In each quarter, we update our estimate of the annual effective tax rate, and if the estimated annual tax rate changes, we make a cumulative adjustment in that quarter. Our quarterly tax provision and our quarterly estimate of the annual effective tax rate can be subject to volatility due to several factors, including our ability to accurately forecast annual income before provision for income taxes in each of the tax jurisdictions in which we operate.The benefit from income taxes of $27.8 million and $39.0Â million for the three and six months ended December 2024, respectively, represented estimated federal, foreign, and state income taxes. The effective tax rate for the three months and six months ended December 2024 diverged from the combined U.S. federal and state statutory tax rate primarily due to two one-time events: 1) a $14.1Â million deferred tax benefit driven by a â€œcheck-the-box electionâ€ for our Israel subsidiary to be treated as a U.S. disregarded entity for federal income tax purpose, and 2) an $8.9Â million tax benefit associated with our fiscal 2018 federal one-time deemed repatriation liability under the U.S. Tax Cuts and Jobs Act, or TCJA, resulting from a recent U.S. Tax Court decision in Varian Medical Systems, Inc. v. Commissioner. The U.S. Tax Court held that a fiscal year taxpayer was entitled to claim a dividend received deduction, or DRD, on certain dividends deemed received during its gap period. The divergence also reflects foreign income taxed at lower rates. These benefits were partially offset by non-deductible officer compensation and non-deductible share-based compensation.The effective tax rate for the three and six months ended December 2023 diverged from the combined U.S. federal and state statutory tax rate primarily due to tax benefits from the impact of foreign tax credit temporary relief provided by U.S. Treasury Notice 2023-55 and Notice 2023-80 issued in July 2023 and December 2023, respectively, which delayed the effective date of the U.S. final foreign tax credit regulations published in January 2022. It was partially offset by the research and development capitalization rules increasing our global intangible low-taxed income, or GILTI, resulting from the U.S. Tax Cuts and Jobs Act of 2017, foreign income taxed at higher rates, and non-deductible officer compensation.The total liability for gross unrecognized tax benefits related to uncertain tax positions decreased $2.1 million during the six months ended December 2024, to $44.4 million, and was included in other long-term liabilities on our condensed consolidated balance sheets. If recognized, the total gross unrecognized tax benefits would reduce the effective tax rate on income from continuing operations. Accrued interest and penalties related to unrecognized tax benefits as of December 2024 were $3.7 million; this balance increased by $0.1 million compared to June 2024. We classify interest and penalties as components of income tax expense. Any prospective adjustments to our unrecognized tax benefits will be recorded as an increase or decrease to income tax expense and cause a corresponding change to our effective tax rate. Accordingly, our effective tax rate could fluctuate materially from period to period.Our major tax jurisdictions are the United States, Hong Kong SAR, Japan, Israel and the United Kingdom. From fiscal 2017 onward, we remain subject to examination by one or more of these jurisdictions. Dec. 28, 2024 Restructuring and Related Activities [Abstract] Â Restructuring Activities Restructuring ActivitiesIn the first quarter of fiscal 2025, we initiated restructuring actions primarily intended to focus on key growth initiatives, reduce costs and align our business in response to market conditions. As a result of this restructuring, we expect to incur approximately $16.0Â million in restructuring charges and expect to complete the restructuring by the end of fiscal 2025. For the three and six months ended December 2024, the restructuring costs related to this action were $0.8Â million and $14.5Â million, respectively, and are recorded in the restructuring costs line item within our condensed consolidated statements of operations.In the fourth quarter of fiscal 2024, we initiated restructuring actions to further improve efficiencies in our operational activities, decrease costs and increase profitability. We completed this restructuring action in the first quarter of fiscal 2025 and incurred restructuring charges of $0.5Â million. These costs were recorded under the restructuring costs line item in our condensed consolidated statements of operations.The following table summarizes the restructuring activity and related charges during the periods presented (in millions):Three Months EndedSix Months EndedDecember 2024Balance, beginning of period$5.0Â $1.4Â Charges0.8Â 15.0Â Payments(2.8)(13.4)Balance, end of period$3.0Â $3.0Â During the three and six months ended December 2024, the restructuring and related charges of $0.8 million and $15.0 million, respectively, were primarily attributable to severance and employee-related benefits. On an ongoing basis, we evaluate our estimates including, but not limited to, those estimates related to revenue recognition, allowance for credit losses, cost of revenue, inventories, loss on purchase commitments, product warranty, accrued liabilities, share-based compensation costs, provision for income taxes, deferred tax assets and the associated valuation allowance, uncertain tax positions, goodwill, intangible assets, investments and loss contingencies. We base our estimates on historical experience, current period developments, applicable laws and regulations, and various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Convertible Senior Notes Convertible Senior NotesWe account for our convertible senior notes with embedded conversion features in accordance with Accounting Standards Update ("ASU") 2020-06, Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging - Contracts in Entity's Own Equity (Subtopic 815-40), which removes from GAAP the liability and equity separation model for convertible instruments with either cash or beneficial conversion features. As a result, convertible debt instruments would only be separated into multiple components if they were issued at a substantial premium or if embedded derivatives requiring bifurcation were identified. The convertible senior notes (the "2031 Notes") were not issued at a substantial premium, and we analyzed the provisions of the notes and did not identify any material embedded features which would require bifurcation from the host debt. As such, the 2031 Notes are accounted for entirely as a liability, net of unamortized issuance costs. The carrying amount of the liability is classified as long-term as the instrument does not mature within one year of the balance sheet date and the holder is not permitted to demand repayment of the principal within one year of the balance sheet date. However, if conditions to convertibility are met and holders are expected to convert within one year as described further in Note 12, we may be required to reclassify the carrying amount of the liability to current. The embedded conversion features are not remeasured as long as they do not meet the separation requirement of a derivative. Issuance costs are amortized to interest expense using the effective interest rate method. Additionally, ASU 2020-06 requires the application of the if-converted method to calculate the impact of convertible instruments on diluted earnings per share. Accounting Pronouncement Recently Issued Accounting Pronouncements Recently IssuedIn November 2023, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update, or ASU No. 2023-07, â€œSegment Reporting: Improvements to Reportable Segment Disclosures.â€ This guidance requires disclosure of incremental segment information on an annual and interim basis. This amendment is effective for our fiscal year ending June 2025 and our interim periods within the fiscal year ending June 2026. We are currently assessing the impact of this guidance on our disclosures.In December 2023, the FASB issued ASU No. 2023-09, â€œIncome Taxes: Improvements to Income Tax Disclosures.â€ This guidance requires consistent categories and greater disaggregation of information in the rate reconciliation and disclosures of income taxes paid by jurisdiction. This amendment is effective for our fiscal year ending June 2026. We are currently assessing the impact of this guidance on our disclosures. In November 2024, the FASB issued ASU No. 2024-03, â€œIncome Statement - Reporting Comprehensive Income - Disaggregation of Income Statement Expenses.â€ This guidance requires disclosures about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. This amendment is effective for our fiscal year ending June 2028 and our interim periods within the fiscal year ending June 2029. We are currently assessing the impact of this guidance on our disclosures.In November 2024, the FASB, issued ASU 2024-04, "Debt - Debt with Conversions and Other Options." This guidance is intended to clarify requirements for determining whether certain settlements of convertible debt instruments, including convertible debt instruments with cash conversion features or convertible debt instruments that are not currently convertible, should be accounted for as an induced conversion. This amendment is effective for our fiscal year ending June 2027. We are currently evaluating the potential impact of this guidance on our disclosures. current and noncurrent portions of long-term obligations drawn from a line of credit, which is a bank's commitment to make loans up to a specific amount. Examples of items that might be included in the application of this element may consist of letters of credit, standby letters of credit, and revolving credit arrangements, under which borrowings can be made up to a maximum amount as of any point in time conditional on satisfaction of specified terms before, as of and after the date of drawdowns on the line. Includes short-term obligations that would normally be classified as current liabilities but for which (a) postbalance sheet date issuance of a long term obligation to refinance the short term obligation on a long term basis, or (b) the enterprise has entered into a financing agreement that clearly permits the enterprise to refinance the short-term obligation on a long term basis and the following conditions are met (1) the agreement does not expire within 1 year and is not cancelable by the lender except for violation of an objectively determinable provision, (2) no violation exists at the BS date, and (3) the lender has entered into the financing agreement is expected to be financially capable of honoring the agreement. + ReferencesReference 1: http://fasb.org/us-gaap/role/ref/legacyRef -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(22)) -SubTopic 10 -Topic 210 -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1Reference 2: http://fasb.org/us-gaap/role/ref/legacyRef -

of Presentation and Principles of Consolidation The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission, or the SEC, and United States generally accepted accounting principles, or U.S. GAAP. Certain information or footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to SEC rules and regulations. In our opinion, the financial statements include all adjustments, which are of a normal and recurring nature and necessary for the fair presentation of the results of the interim periods presented. The results of operations for the interim periods are not necessarily indicative of the operating results for the full fiscal year or any future period. These financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended June 29, 2024. The condensed consolidated financial statements include our financial statements and those of our wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated upon consolidation. Certain reclassifications have been made to the amounts for prior years in order to conform to the current year's presentation. Our fiscal year is the 52- or 53-week period ending on the last Saturday in June. Our fiscal 2025 is a 52-week period ending June 28, 2025, and our fiscal 2024 was a 53-week period ending on June 29, 2024. The fiscal periods presented in this report are 13-week periods and 26-week periods for the three and six months ended December 28, 2024 and December 30, 2023, respectively. For simplicity, the accompanying condensed consolidated financial statements have been shown as ending on calendar quarter end dates as of and for all periods presented, unless otherwise indicated. Use of Estimates The preparation of consolidated financial statements in conformity with U.S. GAAP requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue, expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates including, but not limited to, those estimates related to revenue recognition, allowance for credit losses, cost of revenue, inventories, loss on purchase commitments, product warranty, accrued liabilities, share-based compensation costs, provision for income taxes, deferred tax assets and the associated valuation allowance, uncertain tax positions, goodwill, intangible assets, investments and loss contingencies. We base our estimates on historical experience, current period developments, applicable laws and regulations, and various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that

are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Convertible Senior Notes We account for our convertible senior notes with embedded conversion features in accordance with Accounting Standards Update ("ASU") 2020-06, Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging - Contracts in Entity's Own Equity (Subtopic 815-40), which removes from GAAP the liability and equity separation model for convertible instruments with either cash or beneficial conversion features. As a result, convertible debt instruments would only be separated into multiple components if they were issued at a substantial premium or if embedded derivatives requiring bifurcation were identified. The convertible senior notes (the "2031 Notes") were not issued at a substantial premium, and we analyzed the provisions of the notes and did not identify any material embedded features which would require bifurcation from the host debt. As such, the 2031 Notes are accounted for entirely as a liability, net of unamortized issuance costs. The carrying amount of the liability is classified as long-term as the instrument does not mature within one year of the balance sheet date and the holder is not permitted to demand repayment of the principal within one year of the balance sheet date. However, if conditions to convertibility are met and holders are expected to convert within one year as described further in Note 12, we may be required to reclassify the carrying amount of the liability to current. The embedded conversion features are not remeasured as long as they do not meet the separation requirement of a derivative. Issuance costs are amortized to interest expense using the effective interest rate method. Additionally, ASU 2020-06 requires the application of the if-converted method to calculate the impact of convertible instruments on diluted earnings per share. Accounting Pronouncements Recently Issued In November 2023, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update, or ASU No. 2023-07, "Segment Reporting: Improvements to Reportable Segment Disclosures." This guidance requires disclosure of incremental segment information on an annual and interim basis. This amendment is effective for our fiscal year ending June 2025 and our interim periods within the fiscal year ending June 2026. We are currently assessing the impact of this guidance on our disclosures. In December 2023, the FASB issued ASU No. 2023-09, "Income Taxes: Improvements to Income Tax Disclosures." This guidance requires consistent categories and greater disaggregation of information in the rate reconciliation and disclosures of income taxes paid by jurisdiction. This amendment is effective for our fiscal year ending June 2026. We are currently assessing the impact of this guidance on our disclosures. In November 2024, the FASB issued ASU No. 2024-03, "Income Statement - Reporting Comprehensive Income - Disaggregation of Income Statement Expenses." This guidance requires disclosures about specific types of expenses included in the expense captions presented on the face of the income statement as well as disclosures about selling expenses. This amendment is effective for our fiscal year ending June 2028 and our interim periods within the fiscal year ending June 2029. We are currently assessing the impact of this guidance on our disclosures. In November 2024, the FASB, issued ASU 2024-04, "Debt - Debt with Conversions and Other Options." This guidance is intended to clarify requirements for determining whether certain settlements of convertible debt instruments, including convertible debt instruments with cash conversion features or convertible debt instruments that are not currently convertible, should be accounted for as an induced conversion. This amendment is effective for our fiscal year ending June 2027. We are currently evaluating the potential impact of this guidance on our disclosures. Revenue Recognition Revenue is recognized when control of the promised goods or services is transferred to our customers in an amount that reflects the consideration we expect to receive in exchange for those goods or services. Most of our revenue, except an inconsequential amount, is recognized at a point in time, either on shipment or delivery of the product, depending on customer terms and conditions. Rights to our intellectual property, or IP, are either sold or licensed to customers. Revenue recognition from the licensing of our IP is dependent on the nature and terms of each agreement. We recognize revenue from the licensing of our IP upon delivery of the IP if there are no substantive future obligations to perform under the arrangement. Sales-based or usage-based royalties from the license of IP are recognized at the later of the period the sale or usage occurs, or the satisfaction of the performance obligation to which some or all of the sales-based or usage-based royalties have been allocated. Our accounts receivable balance is from contracts with customers and represents our unconditional right to receive consideration from customers. To date, there have been no material credit loss charges recorded on accounts receivable. As of December 2024 and June 2024, contract assets recorded on our condensed consolidated balance sheets were $1.2 million. Contract assets are presented as part of prepaid expenses and other current assets. Contract liabilities and refund liabilities were $8.8 million and $45.0 million, respectively, as of December 2024, and $14.7 million and $43.5 million, respectively, as of June 2024. Both contract liabilities and refund liabilities are presented as customer obligations in Note 10, Balance Sheet Components. During the three months ended December 2024 and December 2023, we recognized $0.9 million and $0.5 million, respectively, in revenue related to contract liabilities, which was outstanding as of the beginning of each fiscal quarter. During the six months ended December 2024 and December 2023, we recognized $13.5 million and $2.9 million, respectively, in revenue related to contract liabilities, which was outstanding as of the beginning of each fiscal quarter. Revenue from contracts with customers disaggregated by geographic area based on customer location and product category is presented in Note 15. Our diluted net income (loss) per share amounts for each period presented include the weighted average effect of potentially dilutive shares. We use the "treasury stock" method to determine the dilutive effect of our stock options, restricted stock units, or RSUs, market stock units, or MSUs, and performance stock units, or PSUs. Upon any conversion of our convertible notes, we will be required to pay cash in an amount at least equal to the principal portion and have the option to settle any amount in excess of the principal portion in cash and/or ordinary shares. As a result, only the amounts expected to be settled in excess of the principal portion are considered in calculating diluted earnings per share under the if-converted method. quarter of fiscal 2024, we paid an aggregate consideration of $130.0 million to Avago Technologies, or Broadcom, to license four developed technology products and to extend the exclusivity period of certain developed technologies that were previously licensed from Broadcom in July 2020. As of December 2024, we have obtained control of three of the four technology products and the three-year extension period to exclusively license previously acquired developed technology intangible assets. The fair value of the remaining technology product of $42.5 million for which we have not yet obtained control is an advance payment on intangible assets and is presented within other long-term assets cost computed on a first-in, first-out basis. We record a write-down, if necessary, to reduce the carrying value of inventory to its net realizable value. The effect of such a write-down is to establish a new cost basis in the related inventory, which we do not subsequently write up. We also record a liability and charge to cost of revenue for estimated losses on inventory we are obligated to purchase from our contract manufacturers when such losses become probable from customer delays, order cancellations, or other factors. The following factors influence our estimates: changes to or cancellations of customer orders; unexpected or sudden decline in demand, rapid product improvements, technological advances, and termination or changes by our original equipment manufacturers, or OEM, customers of any product offerings incorporating our product solutions. Measurements We determine fair value based on the fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value assumes that the transaction to sell the asset or transfer the liability occurs in the principal or most advantageous market for the asset or liability and establishes that the fair value of an asset or liability shall be determined based on the assumptions that market participants would use in pricing the asset or liability. The classification of a financial asset or liability within the hierarchy is based upon the lowest level input that is significant to the fair value measurement. The fair value hierarchy prioritizes the inputs into three levels that may be used to measure fair value: •Level 1 – Valuation is based upon unadjusted quoted prices for identical assets or liabilities in active markets. •Level 2 – Valuation is based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instruments. •Level 3 – Valuation is based upon other unobservable inputs that are significant to the fair value measurements. Our Level 1 financial instruments are traded in active markets, and the fair value is based on quoted market prices for identical instruments. The fair value of our Level 2 fixed income securities is obtained from an independent pricing service, which may use quoted market prices for identical or comparable instruments or model driven valuations using observable market data or inputs corroborated by observable market data. Our marketable securities are held by custodians who obtain investment prices from a third-party pricing provider that incorporates standard inputs in various asset price models. At December 2024 and June 2024, financial assets measured at fair value on a recurring basis are summarized below (in millions): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:23.142%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.021%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.021%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.021%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.021%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.023%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="15" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-

Certain leases include renewal options at our discretion. The leases expire at various dates through fiscal 2034, some of which include options to extend the lease for up to seven years. For the three months ended December 2024 and December 2023, we recorded operating lease expense of approximately $3.2 million and $2.9 million, respectively. For the six months ended December 2024 and December 2023, we recorded operating lease expense of approximately $6.4 million and $5.7 million, respectively. Our short-term leases are immaterial and we do not have finance leases.</div><div style="margin-top:6pt;text-indent:36pt">As of December 2024 and June 2024, the components of leases are as follows (in millions): </div><div style="margin-top:6pt;text-align:center"><table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:70.000%"><tr><td style="width:1.0%"></td><td style="width:60.371%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:17.731%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.665%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:17.733%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">December</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">June</td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">2024</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Operating lease right-of-use assets</td><td style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 0;text-align:right;vertical-align:bottom">45.8 </td><td style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 1pt 2px 0;text-align:right;vertical-

In addition, in connection with certain agreements, we are obligated to indemnify the counterparty against third party claims alleging infringement of certain intellectual property rights by us. Maximum potential future payments under these agreements cannot be estimated because these agreements generally do not have a maximum stated liability. Historical costs related to these indemnification provisions have not been significant. However, we will accrue for any losses related to these indemnification agreements when it is both probable that we will incur the loss and we can reasonably estimate the amount of the loss or range of loss. During the six months ended December 2024, we recorded an estimated liability of $2.2 million related to our proportionate share of an indemnity obligation to defend a counterparty against a third party claim alleging infringement of certain intellectual property rights. Contingencies We have in the past, and may in the future, receive notices from third parties that claim our products infringe their intellectual property rights. We cannot be certain that our technologies and products do not, and will not, infringe issued patents or other proprietary rights of third parties. Any infringement claims, with or without merit, could result in significant litigation costs and diversion of management and financial resources, including the payment of damages, which could have a material adverse effect on our business, financial condition, and results of operations. Legal Proceedings From time to time, we are subject to various claims and legal proceedings, either asserted or unasserted, that arise in the ordinary course of business. While we currently believe that resolving claims against us, individually or in the aggregate, will not have a material adverse impact on our business, financial condition, or results of operations, these matters are subject to inherent uncertainties and our view of these matters may change in the future. We accrue for loss contingencies when it is both probable that we will incur the loss and we can reasonably estimate the amount of the loss or range of loss. 2200000Debt Senior Notes On March 11, 2021, we completed an offering of $400.0 million aggregate principal amount of 4.0% senior notes due 2029, or the Senior Notes, in a private offering. The Senior Notes were issued pursuant to an indenture, dated as of March 11, 2021, or the Indenture, by and among our company, the guarantors named therein and Wells Fargo Bank, National Association, as trustee. The Indenture provides that the Senior Notes will bear interest at a rate of 4.0% per annum, payable in cash semi-annually in arrears on December 15 and June 15 of each year, commencing on June 15, 2021. The Senior Notes will mature on June 15, 2029 and are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by each of our current and future domestic restricted subsidiaries that guarantee our obligations under our senior secured credit facilities. On or after June 15, 2024, we may redeem some or all of the Senior Notes at the redemption prices specified below, plus accrued and unpaid interest, if any, up to, but excluding, the redemption date: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:85.112%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.082%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">Year</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">Price </td></tr><tr><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 1pt;text-align:left;vertical-align:bottom">2024</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="2" style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">102 </td><td style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom">%</td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:2px 1pt;text-align:left;vertical-align:bottom">2025</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="2" style="background-color:#ffffff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">101 </td><td style="background-color:#ffffff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom">%</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">2026 and thereafter</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="2" style="background-color:#cceeff;padding:2px 0 2px 1pt;text-align:right;vertical-align:bottom">100 </td><td style="background-color:#cceeff;padding:2px 1pt 2px 0;text-align:right;vertical-align:bottom">%</td></tr></table> The Senior Notes are the general unsecured obligations of our company. The Senior Note guarantees are the senior unsecured obligations of each guarantor. Under certain circumstances, the guarantors may be released from their Senior Note guarantees without consent of the holders of Senior Notes. Under the terms of the Indenture, the Senior Notes rank equally in right of payment with all of our and the guarantors' existing and future senior indebtedness, and rank contractually senior in right of payment to our and the guarantors' future indebtedness and other obligations that are, by their terms, expressly subordinated in right of payment to the Senior Notes. The Senior Notes are effectively subordinated to our and the guarantors' existing and future secured indebtedness, including secured indebtedness under our senior secured credit facilities, to the extent of the value of the assets securing such indebtedness. The Senior Notes and guarantees are structurally subordinated to all existing and future indebtedness and liabilities (including trade payables) of our subsidiaries that do not guarantee the Senior Notes. The Indenture contains covenants that, subject to exceptions and qualifications, among other things, limit our ability and the ability of our Restricted Subsidiaries (as defined in the Indenture) to (i) incur additional indebtedness and guarantee indebtedness; (ii) pay dividends or make other distributions or repurchase or redeem our company's or any parent's capital stock; (iii) prepay, redeem or repurchase certain indebtedness; (iv) issue certain preferred stock or similar equity securities; (v) make loans and investments; (vi) dispose of assets; (vii) incur liens; (viii) enter into transactions with affiliates; (ix) enter into agreements restricting its subsidiaries' ability to pay dividends; and (x) consolidate, merge or sell all, or substantially all, of its assets. The Indenture contains customary events of default including, without limitation, failure to make required payments, failure to comply with certain agreements or covenants, cross-acceleration to certain other indebtedness in excess of specified amounts, certain events of bankruptcy and insolvency, and failure to pay certain judgments. An event of default under the Indenture will allow either the trustee or the holders of at least 25% in aggregate principal amount of the then outstanding Senior Notes to accelerate, or in certain cases, will automatically cause the acceleration of, the maturity of the principal, and accrued and unpaid interest, if any, on all outstanding Notes. Revolving Credit Facility On November 21, 2024, we entered into a Fourth Amendment and Lender Joinder Agreement, or the Fourth Amendment, to our existing Second Amended and Restated Credit Agreement, as amended, or the Credit Agreement, with the lenders party thereto and Wells Fargo Bank, National Association, as the administrative agent, or the Administrative Agent, dated as of March 11, 2021. The Fourth Amendment extends the maturity date to be the earlier of (i) November 21, 2029 and (ii) ninety one (91) days prior to any maturity of the Senior Notes. Clause (ii) will not apply if we have Liquidity (as defined in the Fourth Amendment) in an amount of at least $100.0 million in excess of the amount that would be required to be paid on such date. The Fourth Amendment is arranged by a syndicate of financial institutions and, among other things, increases the revolving commitments from $250.0 million to $350.0 million. Additionally, the Fourth Amendment includes a $25.0 million sublimit for letters of credit and a $25.0 million sublimit for swingline loans. Under the terms of the Fourth Amendment we may, subject to the satisfaction of certain conditions, request increases in the revolving credit facility commitments in an aggregate principal amount of up to $170.0 million to the extent existing or new lenders agree to provide such increased or additional commitments, as applicable. Future proceeds under the revolving credit facility are available for working capital and general corporate purposes. As of December 2024, there was no balance outstanding under the revolving credit facility. Debt issuance costs relating to the revolving credit facility of $2.0 million, included in non-current other assets on our consolidated balance sheet, are being amortized over 60 months. The amortization of debt issuance costs on the revolving credit facility was $0.1 million and $0.2 million for the three and six months ended December 2024 and December 2023, respectively. Our obligations under the Credit Agreement are guaranteed by the material domestic subsidiaries of the Company, subject to certain exceptions, who collectively with the Company are referred to as the Credit Parties. The obligations of the Credit Parties under the Amended Credit Agreement and the other loan documents delivered in connection therewith are secured by a first priority security interest in substantially all of the existing and future personal property of the Credit Parties, including, without limitation, 65% of the voting capital stock and 100% of the non-voting capital stock of certain of the Credit Parties' direct foreign subsidiaries, subject to certain exceptions. The Credit Agreement bears interest, at our election, of a Base Rate plus an Applicable Margin or Adjusted Term SOFR, as defined in the Second Amendment, plus an Applicable Margin. Swingline loans bear interest at a Base Rate plus an Applicable Margin. The Base Rate is a floating rate that is the greater of the Prime Rate, the Federal Funds Rate plus 50 basis points, or Adjusted Term SOFR plus 100 basis points. The Applicable Margin is based on a sliding scale which ranges from 25 to 100 basis points for Base Rate loans and 100 basis points to 175 basis points for Adjusted Term SOFR loans. We are required to pay a commitment fee on any unused commitments under the Credit Agreement which is determined on a leverage-based sliding scale ranging from 0.175% to 0.25% per annum. Interest and fees are payable on a quarterly basis. Under the Credit Agreement, there are various restrictive covenants, including two financial covenants which limit the consolidated total net leverage ratio, or net leverage ratio, the consolidated net interest coverage ratio, or net interest coverage ratio. The net leverage ratio is the ratio of net debt as of the measurement date to Consolidated EBITDA, for the four consecutive quarters ending with the quarter of measurement. The current net leverage ratio shall not exceed 3.75 to 1.00 provided that for the four fiscal quarters ending after the date of a material acquisition, such maximum leverage ratio shall be adjusted to 4.75 to 1.00, and thereafter 3.75 to 1.0. The net interest coverage ratio is Consolidated EBITDA to interest expense for the four consecutive quarters ending with the quarter of measurement net of total cash interest income. The current net interest coverage ratio shall not be less than 2.75 to 1.0, provided that such net interest coverage ratio shall be 3.0 to 1.0 starting with the last day of the first fiscal quarter ending after the 18 month

*anniversary of the Fourth Amendment Effective Date, or May 21, 2026, and thereafter. As of December 2024, we remain in compliance with the restrictive covenants. Convertible Senior Notes due 2031 On November 19, 2024 and November 26, 2024, we issued and sold $400.0 million and $50.0 million, respectively, in aggregate principal amount of 0.75% Convertible Senior Notes due 2031, or the 2031 Notes, in a private placement. The 2031 Notes were issued pursuant to an indenture, dated November 19, 2024, by and among us, and U.S. Bank Trust Company, National Association, as trustee, or the 2031 Indenture. The 2031 Notes are unsecured, bear interest at a fixed rate of 0.75% per year, payable semi-annually in arrears on June 1 and December 1 of each year, beginning on June 1, 2025 and mature on December 1, 2031, unless earlier converted, redeemed or repurchased by us. The net proceeds from the 2031 Notes were approximately $435.6 million after deducting the debt issuance costs and our estimated offering expenses. We used approximately (i) $67.0 million to repurchase shares of our common stock with which we repurchased 890,484 shares at $75.24 a share, the stock price on November 14, 2024, the date of the offering memorandum, and (ii) $49.9 million to pay the cost of the capped call transactions (as described below). Additionally, the remainder of the net proceeds, together with our cash on hand, were used to repay the outstanding balance of our Term Loan Facility. The initial conversion rate of the 2031 Notes is 10.0308 shares of our common stock per $1,000 principal amount of 2031 Notes (which is equivalent to an initial conversion price of approximately $99.69 per share). The conversion rate is subject to adjustment upon the occurrence of certain events specified in the 2031 Indenture. In addition, upon the occurrence of a Make-Whole Fundamental Change (as defined in the 2031 Indenture) or if we deliver a Redemption Notice (as defined in the 2031 Indenture), we will, in certain circumstances, increase the conversion rate by a number of additional shares of common stock as described in the 2031 Indenture for a holder who elects to convert its 2031 Notes in connection with such Make-Whole Fundamental Change or to convert its 2031 Notes called (or deemed called as provided in the 2031 Indenture) for redemption in connection with such Redemption Notice, as the case may be. At any time from, and including, September 2, 2031, the 2031 Notes are convertible at the option of the holders thereof only under the following circumstances: (1) during any calendar quarter commencing after the first calendar quarter ending on March 31, 2025, if the last reported sale price per share of our common stock exceeds 130% of the conversion price for at least 20 trading days (whether or not consecutive) during the 30 consecutive trading days ending on, and including, the last trading day of the immediately preceding calendar quarter; (2) during the five consecutive business days after any ten consecutive trading day period (such ten consecutive trading day period, the "measurement period") in which the Trading Price per $1,000 principal amount of the 2031 Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price per share of our common stock on such trading day and the conversion rate on such trading day; (3) if we call such 2031 Notes for redemption; or (4) upon the occurrence of specified corporate events or distributions on our common stock, (as defined in the 2031 Indenture). As of December 28, 2024, none of the conditions allowing holders of the 2031 Notes to convert had been met. On or after September 2, 2031 until the close of business on the second scheduled trading day immediately preceding the maturity date of the 2031 Notes, holders of the 2031 Notes may convert all or a portion of their 2031 Notes, regardless of the foregoing conditions. Upon conversion, the 2031 Notes will be settled in cash, shares of the our common stock based on the conversion rate (as defined in the 2031 Indenture) or any combination thereof, at our election.
 The 2031 Notes are redeemable, at our option at any time, and from time to time, on or after December 6, 2028. We may redeem for cash all or any portion of the 2031 Notes (subject to the limitation described below), at our option, on or after December 6, 2028 and on or before the 40th scheduled trading day immediately before December 1, 2031 at a cash redemption price equal to the principal amount of the 2031 Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date, but only if (i) the notes are Freely Tradable (as defined in 2031 Indenture) as of the date we send the related redemption notice and all accrued and unpaid additional interest, if any, has been paid in full as of the most recent interest payment date occurring on or before the date we send such notice; and (ii) the last reported sale price per share of our common stock exceeds 130% of the conversion price on (1) each of at least 20 trading days, whether or not consecutive, during the 30 consecutive trading days ending on, and including, the trading day immediately before the date we send such redemption notice; and (2) the trading day immediately before the date we send such notice. However, we may not redeem less than all of the outstanding notes unless at least $100.0 million aggregate principal amount of notes are outstanding and not called for redemption as of the time we send, and after giving effect to, the related redemption notice. In addition, calling any note for redemption will constitute a Make-Whole Fundamental Change with respect to that note, in which case the conversion rate applicable to the conversion of that note will be increased in certain circumstances if it is converted after it is called for redemption. No sinking fund is provided for the 2031 Notes.
 The 2031 Notes will be our senior, unsecured obligations and will be (i) equal in right of payment with our existing and future senior unsecured indebtedness; (ii) senior in right of payment to our existing and future indebtedness that is expressly subordinated 2031 Notes; (iii) effectively subordinated to our existing and future secured indebtedness, to the extent of the value of the collateral securing that indebtedness; and (iv) structurally subordinated to all existing and future indebtedness and other liabilities.
 Upon the occurrence of a Fundamental Change (as defined in the 2031 Indenture) prior to the maturity date of the 2031 Notes, holders of the 2031 Notes may require us to repurchase their notes for a cash repurchase price equal to the principal amount of the 2031 Notes to be repurchased, plus any accrued and unpaid interest, if any, to, but excluding, the Fundamental Change Repurchase Date (as defined in the 2031 Indenture). 2031 Capped Calls In connection with the issuance of the 2031 Notes, we entered into privately negotiated capped call transactions, or, each, a 2031 Capped Call, and, collectively, the 2031 Capped Calls, with certain financial institutions. The 2031 Capped Calls have an initial strike price of $99.69, subject to certain adjustments, which corresponds to the initial conversion price of the 2031 convertible senior notes. The 2031 Capped Calls have an initial cap price of $150.48 per share, subject to certain adjustments. The 2031 Capped Calls are expected to partially offset the potential dilution to the Company's common stock upon any conversion of the 2031 convertible senior notes, with such offset subject to a cap based on the cap price. Each 2031 Capped Call covers, subject to anti-dilution adjustments, approximately 4.5 million shares of the Company's common stock. The 2031 Capped Calls are subject to adjustment upon the occurrence of specified extraordinary events affecting the Company, including merger events, tender offers, and announcement events. In addition, each 2031 Capped Call is subject to certain specified additional disruption events that may give rise to a termination of the 2031 Capped Calls, including nationalization, insolvency or delisting, changes in law, failures to deliver, insolvency filings, and hedging disruptions. For accounting purposes, each 2031 Capped Call is treated as a separate transaction from, and not part of, the terms of the 2031 convertible senior notes. As these transactions meet certain accounting criteria, the 2031 Capped Calls are recorded in stockholders' equity and are not accounted for as derivatives. The 2031 Capped Calls will not be remeasured as long as they continue to meet the conditions for equity classification. Term Loan Facility On December 2, 2021, we entered into that certain First Amendment and Lender Joinder Agreement to the Credit Agreement, to, among other things, establish a new $600.0 million incremental term loan facility, or the Term Loan Facility. The Term Loan Facility was advanced by certain existing and new lenders under the Credit Agreement to finance the DSPG acquisition. The Term Loan Facility matures on December 2, 2028. Principal on the Term Loan Facility is payable in equal quarterly installments on the last day of each March, June, September and December of each year, beginning December 31, 2021, at a rate of 1.00% per annum. We used a portion of the net proceeds from the 2031 Notes, together with our cash on hand, to repay the outstanding balance under our Term Loan Facility. On November 19, 2024, we paid a total of $583.4 million, which consisted of (i) the remaining outstanding principal balance of $582.0 million and (ii) accrued and unpaid interest of $1.4 million. The repayment of the Term Loan Facility was accounted for as a debt extinguishment. The consideration used to extinguish the Term Loan Facility and the carrying value of the Term Loan Facility (including unamortized debt issuance costs) resulted in a loss on early extinguishment of debt of $6.5 million included in loss on early extinguishment of debt within our condensed consolidated statements of operations. </div><div style="margin-top:6pt;text-indent:36pt">The net carrying amounts of our debt agreements are as follows (in millions): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:31.627%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:7.990%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:7.990%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:7.990%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:7.990%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:7.990%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:7.990%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:7.997%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="21" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">December 2024</td><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="15" style="background-color:#ffffff;padding:2px 1pt;text-align:center;vertical-align:bottom">June 2024</td></tr><tr><td colspan="3" style="background-color:#ffffff;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;border-top:0.5pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Senior Notes </td><td colspan="3" style="background-color:#ffffff;border-top:0.5pt solid #000;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;border-top:0.5pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Term Loan Facility </td><td colspan="3" style="background-color:#ffffff;border-top:0.5pt solid #000;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;border-top:0.5pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">2031 Notes </td><td colspan="3" style="background-color:#ffffff;border-top:0.5pt solid #000;padding:0 1pt"></td><td colspan="3" style="background-color:#ffffff;border-top:0.5pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Total </td><td colspan="3" style="background-color:#ffffff;border-top:0.5pt solid #ffffff;padding:0 1pt"></td><td colspan="3" style="border-top:0.5pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Senior Notes</td><td colspan="3" style="border-top:0.5pt solid #000;padding:0 1pt"></td><td colspan="3" style="border-top:0.5pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Term Loan Facility</td><td colspan="3" style="border-top:0.5pt solid #000;padding:0 1pt"></td><td colspan="3" style="border-top:0.5pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Total</td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:left;vertical-align:bottom">Principal balance</td><td style="background-color:#cceeff;border-top:0.5pt solid #000000;padding:2px 0 2px 1pt;text-align:left;vertical-align:bottom">$</td><td style="background-color:#cceeff;border-top:0.5pt solid #000000;padding:2px 0;text-align:right;vertical-align:bottom"><span*

Awards outstanding at October 29, 2019 under our prior share-based compensation plans were not impacted by the approval of the 2019 Incentive Plan and continue to remain outstanding and vest by their terms under the applicable share-based compensation plan. Shares underlying certain share-based awards forfeited under the 2010 Incentive Plan subsequent to the approval of the 2019 Incentive Plan automatically transfer to and become available for award issuance from the 2019 Incentive Plan. The 2019 Incentive Plan authorizes our Board of Directors to provide equity-based compensation in the form of stock options, stock appreciation rights, restricted stock, RSUs, cash incentive awards, performance shares, PSUs, and other stock-based awards. The 2019 Incentive Plan has been amended and restated, and the cumulative number of shares approved by stockholders is 7,588,000 as of October 29, 2024. The 2019 ESPP authorizes the Company to provide eligible employees with an opportunity to acquire an equity interest in the Company through the purchase of stock at a discount, with an initial authorization of 1,500,000 shares. Effective August 19, 2019, we adopted the 2019 Inducement Equity Plan, and 650,000 shares of our common stock were reserved for issuance under the 2019 Inducement Equity Plan, subject to adjustment for stock dividends, stock splits, or other changes in our common stock or capital structure. The 2019 Inducement Equity Plan was intended to comply with Rule 5635(c)(4) of the Nasdaq Stock Market Listing Rules, which provide an exception to the Nasdaq Stock Market Listing Rules on the shareholder approval requirement for the issuance of securities with regards to grants to employees of the Company or its subsidiaries as an inducement material to such individuals entering into employment with the Company or its subsidiaries. An individual was eligible to receive an award under the 2019 Inducement Equity Plan only if he or she was not previously an employee or director of our Company (or is returning to work after a bona-fide period of non-employment), and an award under the 2019 Inducement Equity Plan is a material inducement for him or her to accept employment with our Company. No new awards may be granted under the 2019 Inducement Equity Plan. 12208063.477000001400000Income Taxes We account for income taxes under the asset and liability method. The provision for income taxes recorded in interim periods is based on our estimate of the annual effective tax rate applied to year-to-date income before provision for income taxes, adjusted for discrete items required to be recognized in the period in which they are incurred. In each quarter, we update our estimate of the annual effective tax rate, and if the estimated annual tax rate changes, we make a cumulative adjustment in that quarter. Our quarterly tax provision and our quarterly estimate of the annual effective tax rate can be subject to volatility due to several factors, including our ability to accurately forecast annual income before provision for income taxes in each of the tax jurisdictions in which we operate.
 The benefit from income taxes of $27.8 million and $39.0 million for the three and six months ended December 2024, respectively, represented estimated federal, foreign, and state income taxes. The effective tax rate for the three months and six months ended December 2024 diverged from the combined U.S. federal and state statutory tax rate primarily due to two one-time events: 1) a $14.1 million deferred tax benefit driven by a “check-the-box election” for our Israel subsidiary to be treated as a U.S. disregarded entity for federal income tax purpose, and 2) an $8.9 million tax benefit associated with our fiscal 2018 federal one-time deemed repatriation liability under the U.S. Tax Cuts and Jobs Act, or TCJA, resulting from a recent U.S. Tax Court decision in Varian Medical Systems, Inc. v. Commissioner. The U.S. Tax Court held that a fiscal year taxpayer was entitled to claim a dividend received deduction, or DRD, on certain dividends deemed received during its gap period. The divergence also reflects foreign income taxed at lower rates. These benefits were partially offset by non-deductible officer compensation and non-deductible share-based compensation. The effective tax rate for the three and six months ended December 2023 diverged from the combined U.S. federal and state statutory tax rate primarily due to tax benefits from the impact of foreign tax credit temporary relief provided by U.S. Treasury Notice 2023-55 and Notice 2023-80 issued in July 2023 and December 2023, respectively, which delayed the effective date of the U.S. final foreign tax credit regulations published in January 2022. It was partially offset by the research and development capitalization rules increasing our global intangible low-taxed income, or GILTI, resulting from the U.S. Tax Cuts and Jobs Act of 2017, foreign income taxed at higher rates, and non-deductible officer compensation. The total liability for gross unrecognized tax benefits related to uncertain tax positions decreased $2.1 million during the six months ended December 2024, to $44.4 million, and was included in other long-term liabilities on our condensed consolidated balance sheets. If recognized, the total gross unrecognized tax benefits would reduce the effective tax rate on income from continuing operations. Accrued interest and penalties related to unrecognized tax benefits as of December 2024 were $3.7 million; this balance increased by $0.1 million compared to June 2024. We classify interest and penalties as components of income tax expense. Any prospective adjustments to our unrecognized tax benefits will be recorded as an increase or decrease to income tax expense and cause a corresponding change to our effective tax rate. Accordingly, our effective tax rate could fluctuate materially from period to period.</div><div style="margin-top:6pt;text-indent:36pt">Our major tax jurisdictions are the United States, Hong Kong SAR, Japan, Israel and the United Kingdom. We also entered into an amendment to the Existing Product License Agreement with Broadcom and an amendment to the existing Derivative and Roadmap Products Agreement, pursuant to which Broadcom will provide (i) certain non-exclusive licenses to us for the right to manufacture and sell products relating to the IoT and AndroidTM ecosystem, (ii) development services for certain roadmap products, (iii) an agreement not to grant any third party the right to manufacture and sell the newly licensed products for the Acquired Customer Business for 42 months following the Closing Date, and (iv) an agreement not to grant any third party the right to manufacture and sell a certain roadmap product for the IoT and AndroidTM ecosystem for one year after production readiness. Additionally, we have entered into a Transition Services Agreement with Broadcom, under which both parties will provide one another with certain transition services following the Closing Date. On January 28, 2025, Michael Hurlston notified the Company of his resignation from his position as President and Chief Executive Officer and from the board of directors (the "Board") of the Company, effective February 3, 2025, to pursue another opportunity. His resignation was not the result of any dispute or disagreement with the Company or the Board. On January 28, 2025, the Board appointed Ken Rizvi, the Company's Chief Financial Officer, as the interim Chief Executive Officer and principal executive officer, and Nelson Chan, the Chairman of the Board, as the interim Executive Chairman, each effective February 3, 2025. Mr. Rizvi will continue to serve as Chief Financial Officer while he is the interim Chief Executive Officer. 198000000P42MP1YDuring the fiscal quarter ended December 28, 2024, the following directors or officers of the Company (as defined in Rule 16a-1(f) of the Securities Exchange Act of 1934) adopted, terminated or modified a Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement (as such terms are defined in Item 408 of Regulation S-K), as follows: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:20.263%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:22.687%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:7.384%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:9.203%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:6.021%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:6.021%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:6.021%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:9.358%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Trading Arrangement </td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:0 1pt"></td></tr><tr><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">Name </td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">Title </td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">Action </td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">Date </td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Rule 10b5-1*</td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Non-Rule 10b5-1**</td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">Total Shares to be Sold </td><td colspan="3" style="background-color:#cceeff;padding:0 1pt"></td><td colspan="3" style="background-color:#cceeff;padding:2px 1pt;text-align:center;vertical-align:bottom">Expiration Date </td></tr><tr><td colspan="3" style="background-color:#ffffff;border-top:1pt solid #000;padding:2px 1pt;text-align:left;vertical-align:bottom"> Michael E.  (1) The aggregate number of RSU Shares that will be available for sale under the Plan is not yet determinable because the shares available will be net of shares sold to satisfy tax withholding obligations that arise in connection with the vesting and settlement of such RSU awards. Additionally, certain provisions within the Plan specify a certain percentage of the net shares that can be sold at the vesting date of the underlying equity award. As such, for purposes of this disclosure, the shares included in this table reflect the aggregate maximum number of shares underlying the holders of the equity awards without excluding (i) the shares that will be sold to satisfy the tax withholding obligations and (ii) any limitations on the amount of net shares that can be sold on the vesting date of the equity award. falsefalsefalseMichael E.
