The Company is a Maryland corporation and has made tax elections to be treated as a real estate investment trust (a "REIT") for U.S. federal income tax purposes since 2013. The Company believes that it has qualified as a REIT and intends to continue to meet the requirements for qualification and taxation as a REIT. Substantially all of the Company's business is conducted through Benefit Street Partners Realty Operating Partnership, L.P. (the "OP"), a Delaware limited partnership. The Company is the sole general partner and directly or indirectly holds all of the units of limited partner interests in the OP. In addition, the Company, through one or more subsidiaries which are treated as a taxable REIT subsidiary (a "TRS"), is indirectly subject to U.S. federal, state and local income taxes. The Company has no employees. Benefit Street Partners L.L.C. serves as the Company's advisor (the "Advisor") pursuant to an advisory agreement, as amended on August 18, 2021 (the "Advisory Agreement"). The Advisor, an investment adviser registered with the SEC, is a credit-focused alternative asset management firm. Established in 2008, the Advisor's credit platform manages funds for institutions and high-net-worth investors across various credit funds and complementary strategies including high yield, levered loans, private/opportunistic debt, liquid credit, structured credit and commercial real estate debt. These strategies complement each other as they all leverage the sourcing, analytical, compliance, and operational capabilities that encompass the platform. The Advisor manages the Company's affairs on a day-to-day basis. The Advisor receives compensation fees and reimbursements for services related to the investment and management of the Company's assets and the operations of the Company. The Advisor is a wholly-owned subsidiary of Franklin Resources, Inc., which together with its various subsidiaries operates as "Franklin Templeton". The Company invests in commercial real estate debt investments, which may include first mortgage loans, subordinated mortgage loans, mezzanine loans and participations in such loans. The Company also originates conduit loans which the Company intends to sell through its TRS into commercial mortgage-backed securities ("CMBS") securitization transactions. Historically this business has focused primarily on CMBS, commercial real estate collateralized loan obligation bonds and single asset single borrower bonds (collectively "CMBS bonds"), collateralized debt obligations ("CDOs") and other securities. The Company also owns real estate that was either acquired by the Company through foreclosure or deed in lieu of foreclosure, or that was purchased for investment, primarily subject to triple net leases. Note 2 - Summary of Significant Accounting Policies Basis of Accounting The Company's unaudited consolidated financial statements and related footnotes have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP") for interim financial statements and pursuant to the requirements for reporting on Form 10-Q and Regulation S-X, as appropriate. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto as of, and for the year ended December 31, 2023, which are included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on February 26, 2024, as certain disclosures that would substantially duplicate those contained in the audited consolidated financial statements have not been included in this report. Reclassifications Certain prior year balances have been reclassified in order to conform to the current period presentation. For the nine months ended September 30, 2023, \$2.2 million related to straight lining of rents was reclassified from Prepaid expenses and other assets to Straight line rental income in the consolidated statement of cash flows. Use of Estimates GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as of the date of the financial statements and the reported amounts of income and expenses during the reported periods. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ materially. In the opinion of management, the interim data includes all adjustments, of a normal and recurring nature, necessary for a fair statement of the results for the periods presented. The current period's results of operations will not necessarily be indicative of results that ultimately may be achieved for the entire year or any subsequent interim periods. 8)Table of ContentsFRANKLIN BSP REALTY TRUST, INC.NOTES TO CONSOLIDATED FINANCIAL STATEMENTSSeptember 30, 2024(Unaudited)Principles of Consolidation The accompanying consolidated financial statements include the accounts of the Company, the OP and its subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. In determining whether the Company has a controlling financial interest in a joint venture and the requirement to consolidate the accounts of that entity, management considers factors such as ownership interest, authority to make decisions and contractual and substantive participating rights of the other partners or members, as well as whether the entity is a variable interest entity ("VIE") for which the Company is the primary beneficiary. The Company has determined the OP is a VIE of which the Company is the primary beneficiary. Substantially all of the Company's assets and liabilities are held by the OP. The Company consolidates all entities that it controls through either majority ownership or voting rights. In addition, the Company consolidates all VIEs of which the Company is considered the primary beneficiary. VIEs are entities in which equity investors (i) do not have the characteristics of a controlling financial interest and/or (ii) do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The entity that consolidates a VIE is its primary beneficiary and is generally the entity with (i) the power to direct the activities that most significantly affect the VIE's economic performance and (ii) the right to receive benefits from the VIE or the obligation to absorb losses of the VIE that could be significant to the VIE. Non-controlling interest represents the equity of consolidated joint ventures that are not owned by the Company. The accompanying consolidated financial statements include the accounts of collateralized loan obligations ("CLOs") issued and securitized by wholly owned subsidiaries of the Company. The Company has determined the CLOs are VIEs of which the Company's subsidiary is the primary beneficiary. The assets and liabilities of the CLOs are consolidated in the accompanying consolidated balance sheets in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 810, Consolidation. Cash and Cash Equivalents Cash consists of amounts deposited with high quality financial institutions. These deposits are guaranteed by the Federal Deposit Insurance Company up to an insurance limit. Cash and cash equivalent balances may, at a limited number of banks and financial institutions, exceed insurable amounts. The Company believes it mitigates risk by investing in or through major financial institutions and primarily in funds that are currently U.S. federal government insured up to applicable account limits. Recoverability of investments is dependent upon the performance of the issuers. Cash equivalents include short-term, liquid investments in money market funds with original maturities of 90 days or less when purchased. Recently Issued Accounting Pronouncements In November 2023, the FASB issued ASU 2023-07 "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," or ASU 2023-07. ASU 2023-07 enhances the disclosures required for reportable segments on an annual and interim basis. ASU 2023-07 is effective on a retrospective basis for annual periods beginning after December 15, 2023 and for interim periods within fiscal years beginning after December 15, 2024. The amendments will require expanded disclosures around significant segment expenses and identification of the Company's chief operating decision maker. The Company will implement the amendments and related disclosure requirements in our consolidated financial statements for the year ended December 31, 2024, and for interim periods thereafter. In December 2023, the FASB issued Accounting Standards Update, or ASU, 2023-09 "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," or ASU 2023-09. ASU 2023-09 requires additional disaggregated disclosures on the entity's effective tax rate reconciliation and additional details on income taxes paid. ASU 2023-09 is effective on a prospective basis, with the option for retrospective application, for annual periods beginning after December 15, 2024 and early adoption is permitted. We do not expect the adoption of ASU 2023-09 to have a material impact on our consolidated financial statements. In March 2024, the FASB issued Accounting Standards Update, or ASU, 2024-01 "Compensation - Stock Compensation (Topic 718): Scope Application of Profits Interest and Similar Awards," or ASU 2024-01. ASU 2024-01 improves clarity and operability without changing the guidance. ASU 2024-01 is effective on a prospective basis, with the option for retrospective application, for annual periods beginning after December 15, 2024 and early adoption is permitted. We do not expect the adoption of ASU 2023-09 to have a material impact on our consolidated financial statements. In March 2024, the FASB issued Accounting Standards Update, or ASU, 2024-02 "Codification Improvements" Amendments to Remove References to the Concepts Statements, or ASU 2024-02. ASU 2024-02 amended certain definitions in the guidance. ASU 2024-02 is effective on a prospective basis, with the option for retrospective application, for annual 9)Table of ContentsFRANKLIN BSP REALTY TRUST, INC.NOTES TO CONSOLIDATED FINANCIAL STATEMENTSSeptember 30, 2024(Unaudited)periods beginning after December 15, 2024 and early adoption is permitted. At the time of the deed-in-lieu of foreclosure, the amortized cost of the loan was \$42.2 million and contractual interest was satisfied. Subsequently thereafter, the property was sold to a third party. In connection with the sale, the senior mortgage note was assumed by the buyer and immediately modified, resulting in a \$5.9 million principal paydown. As a result, the modification was accounted for as a new loan for GAAP purposes and the sale of the real estate owned transaction resulted in a net gain of \$6.0 million recorded in Gain/(loss) on other real estate investments in the consolidated statement of operations. (2) For additional details on properties obtained through foreclosure or deed-in-lieu of foreclosure see Note 5 - Real Estate Owned. 10)Table of ContentsFRANKLIN BSP REALTY TRUST, INC.NOTES TO CONSOLIDATED FINANCIAL STATEMENTSSeptember 30, 2024(Unaudited)As of September 30, 2024 and December 31, 2023, the Company's total commercial mortgage loan, held for investment portfolio, was comprised of 157 and 144 loans, respectively. As such, these loans receivable are measured at fair value on a nonrecurring basis using significant unobservable inputs and are classified as Level 3 assets in the fair value hierarchy. The fair value of the underlying collateral is determined using the market approach, the income approach, or a combination thereof. The significant unobservable input used for the income approach is the exit capitalization rate assumptions, which ranged from 6.25% to 9.50%. The significant unobservable input used for the market approach is the estimated fair value less cost to sell based on a negotiated price from an anticipated buyer. In June 2022, the Company originated a first mortgage loan with a commitment of \$60.8 million secured by two multifamily properties in North Carolina. The loan was identified by management as non-performing and placed on non-accrual status, with an amortized cost of \$58.0 million as of March 31, 2024. The Company recorded a specific allowance for credit losses of \$0.7 million on this loan for the quarter ended March 31, 2024. In May 2024, the Company, through deed-in-lieu of foreclosure, acquired the properties which are recorded in Real estate owned, held for sale in the consolidated balance sheets. See Note 5 - Real Estate Owned for additional details. In March 2021, the Company originated a first

The mortgage loan with a commitment of \$48.1 million secured by an office property in Colorado. The loan was identified by management as non-performing and placed on cost recovery status, with an amortized cost of \$44.1 million as of September 30, 2024. The Company recorded a specific allowance for credit losses of \$27.1 million on this loan for the quarter ended September 30, 2024.

In December 2019, the Company originated a first mortgage loan with a commitment of \$33.0 million secured by an office property in Georgia. The loan was identified by management as non-performing and placed on cost recovery status, with an amortized cost of \$23.1 million as of September 30, 2024. The Company recorded a specific allowance for credit losses of \$1.6 million on this loan for the quarter ended September 30, 2024.

In July 2019, the Company originated a first mortgage loan with a commitment of \$20.9 million secured by a residential property in Texas. During the third quarter of 2024, the loan was paid off resulting in a loss of \$0.4 million. The Company recorded a specific allowance for credit losses of \$0.4 million during the third quarter of 2024, and subsequently wrote off this specific allowance for credit losses in the same quarter.

In June 2022, the Company originated a first mortgage loan with a commitment of \$152.8 million secured by a pool of 15 multifamily properties located throughout the United States. The loan was identified by management as non-performing and placed on non-accrual status, with an amortized cost of \$111.3 million as of June 30, 2024. The Company recorded a specific allowance for credit losses of \$0.9 million on this loan for the quarter ended June 30, 2024. During the third quarter of 2024, the Company, either through deed-in-lieu of foreclosure or foreclosure, took possession of five of these properties, which are recorded in Real estate owned, held for sale in the consolidated balance sheets, resulting in a loss on foreclosure of \$3.6 million. The Company recorded a specific allowance for credit losses of \$3.6 million during the third quarter of 2024, and subsequently wrote off this specific allowance for credit losses in the same quarter. See Note 5 - Real Estate Owned for additional details.

General Allowance for Credit Losses

The Company recorded a total increase (decrease) in its general allowance for credit losses during the three and nine months ended September 30, 2024 of \$(0.8) million and \$1.3 million, respectively. The primary driver for the lower reserve balance over the three-month period is due to the Company utilizing a lower forward SOFR rate in the CECL scenario model along with a decrease in the size of the overall portfolio of commercial mortgage loans, held for investment for the same period. The primary driver for the higher reserve balance over the nine-month period is due to the Company utilizing a pessimistic macro-economic outlook since the fourth quarter of 2023 along with an increase in size of the overall portfolio of commercial mortgage loans, held for investment for the same period. Changes in the provision for credit losses for the Company's financial instruments are recorded in (Provision)/benefit for credit losses in the consolidated statements of operations with a corresponding offset to the financial instrument's amortized cost recorded in the consolidated balance sheet, or as a component of Accounts payable and accrued expenses for unfunded loan commitments.

Past Due Status

The following table presents a summary of the loans amortized cost basis as of September 30, 2024 (dollars in thousands):

(1) Comprised of five mortgage loans, two of which are collateralized by office properties and the other three of which are collateralized by multifamily properties. Both office properties have been designated as non-performing and placed on cost recovery status, and one multifamily property has been designated as non-performing and placed on non-accrual status. Non-performing Status

The following table presents the amortized cost basis of our non-performing loans as of September 30, 2024 and December 31, 2023 (dollars in thousands):

	September 30, 2024	December 31, 2023
Non-performing loan amortized cost	\$504,672	\$157,841
Non-performing loan amortized cost end of period	\$1,867,915	\$78,185

(1) As of September 30, 2024, and December 31, 2023, the Company had three and two loans, respectively, designated as non-performing. As of September 30, 2024, one of the three non-performing loans was placed on non-accrual status and two were placed on cost recovery status. For the loan designated as non-performing and placed on non-accrual status, the Company recognized \$0.6 million and \$4.7 million of interest proceeds included in Interest income in the consolidated statements of operations for the three and nine months ended September 30, 2024, respectively. As of September 30, 2024, the two loans designated as non-performing and placed on cost recovery were determined to have a specific allowance for credit losses of \$27.1 million and \$1.6 million, respectively. As of September 30, 2024, one of the three designated non-performing loans was collateralized by a multifamily property and two were collateralized by office properties.

Loan Credit Characteristics, Quality and Vintage

As part of the Company's process for monitoring the credit quality of its commercial mortgage loans, excluding those held for sale, measured at fair value, it performs a quarterly loan portfolio assessment and assigns risk ratings to each of its loans. The loans are scored on a scale of 1 to 5 as follows:

Risk Rating	Description
Very Low Risk	Investment exceeding fundamental performance expectations and/or capital gain expected. Trends and risk factors since time of investment are favorable.
Low Risk	Performing consistent with expectations and a full return of principal and interest expected. Trends and risk factors are neutral to favorable.
Average Risk	Performing investments requiring closer monitoring. Trends and risk factors show some deterioration.
High Risk/Delinquent/Defaulted/Potential For Loss	Underperforming investment with the potential of some interest loss but still expecting a positive return on investment. Trends and risk factors are negative.
Impaired/Defaulted/Loss Likely	Underperforming investment with expected loss of interest and some principal.
All commercial mortgage loans, excluding loans classified as Commercial mortgage loans, held for sale, measured at fair value within the consolidated balance sheets, are assigned an initial risk rating of 2. As of September 30, 2024 and December 31, 2023, the weighted average risk rating of loans was 2.2 and 2.3, respectively.

2024, the Company extended the maturity date to October 25, 2025, with a one-year extension option remaining.(6) Comprised of two note-on-note financings via participation agreements. From inception of the loan, the Company's outstanding loans could increase as a result of future fundings, leading to an increase in amount outstanding via the participation agreement. The weighted average contractual maturity date of these loans is July 2028.(7) The notes are currently redeemable, in whole or in part, without penalty, at the Company's option. Interest paid on unsecured debt totaled \$1.9A million and \$5.7A million for the three and nine months ended SeptemberA 30, 2024, respectively.(8) On September 19, 2024, the Company extended the maturity date to September 19, 2026 with a one-year extension option. Additionally, the committed financing was decreased from \$250A million to \$100A million. Repurchase Agreements - Real Estate SecuritiesThe Company has entered into various Master Repurchase Agreements (the "MRAs") that allow the Company to sell real estate securities while providing a fixed repurchase price for the same real estate securities in the future. The repurchase contracts on each security under an MRA generally mature in 30-90 days and terms are adjusted for current market rates as necessary.21Table of ContentsFRANKLIN BSP REALTY TRUST, INC.NOTES TO CONSOLIDATED FINANCIAL STATEMENTSSeptemberA 30, 2024(Unaudited)Below is a summary of the Company's MRAs which were included in Repurchase agreements - real estate securities in the Company's consolidated balance sheets as of SeptemberA 30, 2024 and DecemberA 31, 2023 (dollars in thousands):September 30, 2024CounterpartyAmount OutstandingInterest ExpenseCollateral Pledged(1)Weighted Average Interest RateWeighted Average Days to MaturityJP Morgan Securities LLC\$127,283A \$5,444A \$157,378A 6.05A %16Wells Fargo Securities, LLC\$8,999A 417A 10,032A 5.61A %28Barclays Capital Inc.\$78,040A 3,435A 87,622A 5.59A %29Lucid Prime Fund\$26,944A 828A 30,848A 5.85A %17Total/Weighted Average \$241,266A \$10,124A \$285,880A 5.87A %20 See note belowDecember 31, 2023CounterpartyAmount OutstandingInterest ExpenseCollateral Pledged(1)Weighted Average Interest RateWeighted Average Days to MaturityJP Morgan Securities LLC\$113,111A \$6,717A \$127,602A 6.29A %15Wells Fargo Securities, LLC\$8,994A 235A 9,975A 6.14A %5Barclays Capital Inc.\$1,950A 3,371A 58,250A 6.19A %5Total/Weighted Average\$174,055A \$10,323A \$195,827A 6.25A %11 (1) Includes \$75.2 million and \$27.9 million of CMBS bonds, held by the Company, which is eliminated through consolidation of the related CLO's on the Company's consolidated balance sheets as of SeptemberA 30, 2024 and DecemberA 31, 2023, respectively.Collateralized Loan ObligationThe following table represents the terms of the notes issued by 2021-FL6 Issuer, 2021-FL7 Issuer, 2022-FL8 Issuer, 2022-FL9 Issuer, 2023-FL10 Issuer and 2024-FL11 Issuer (collectively the "CLOs"), as of SeptemberA 30, 2024 and DecemberA 31, 2023:22Table of ContentsFRANKLIN BSP REALTY TRUST, INC.NOTES TO CONSOLIDATED FINANCIAL STATEMENTSSeptemberA 30, 2024(Unaudited)September 30, 2024CLO FacilityNumber of Loans in pool(1)Benchmark Interest RateWeighted Average SpreadPar ValuePar Value Outstanding(2)Principal Balance of Collateralized Mortgage AssetsMaturity Dates2021-FL6 Issuer42Term SOFR1.56A %\$584,500A \$401,842A \$498,796A 3/15/20362021-FL7 Issuer36Term SOFR1.69A %722,250A 610,510A 787,313A 12/21/20382022-FL8 Issuer42AVG SOFR1.74A %960,000A 895,108A 1,127,016A 2/15/20372022-FL9 Issuer47Term SOFR2.84A %670,637A 618,086A 724,014A 5/15/20392023-FL10 Issuer(3)34Term SOFR2.59A %717,243A 717,243A 892,269A 9/15/20352024-FL11 Issuer18Term SOFR1.99A %886,176A 886,176A 891,149A 7/15/2039\$4,540,806A \$4,128,965A \$4,920,557A December 31, 2023CLO FacilityNumber of Loans in pool(1)Benchmark interest rateWeighted Average SpreadPar ValuePar Value Outstanding(2)Principal Balance of Collateralized Mortgage AssetsMaturity Dates2021-FL6 Issuer54Term SOFR1.43A %\$584,500A 500A \$673,289A 3/15/20362021-FL7 Issuer40Term SOFR1.64A %722,250A 720,000A 864,079A 12/21/20382022-FL8 Issuer46AVG SOFR1.72A %960,000A 960,000A 1,184,931A 2/15/20372022-FL9 Issuer51Term SOFR2.80A %670,637A 670,639A 800,638A 5/15/20392023-FL10 Issuer27Term SOFR2.57A %717,243A 689,294A 895,525A 9/15/2035\$3,654,630A \$3,597,973A \$4,418,462A (1) Loan assets may be pledged towards one or multiple CLO pool.(2) Excludes \$532.4A million and \$495.0A million, respectively, of CLO notes, held by the Company, which are eliminated in Collateralized loan obligations in the consolidated balance sheet as of SeptemberA 30, 2024 and DecemberA 31, 2023.(3) During the first quarter of 2024, the Company sold the BSPRT FL10 AS retained tranche with a principal balance of \$27.9 million.On September 26, 2024, BSPRT 2024-FL11 Issuer, LLC, a wholly-owned indirect subsidiary of the Company, entered into an indenture with the OP, as advancing agent, U.S. Bank Trust Company, National Association, as trustee and note administrator, and U.S. Bank National Association, as custodian and in other capacities, which governs the issuance of approximately \$1.0A billion principal balance secured floating rate notes, of which \$886.2A million were purchased by third party investors and \$138.3A million were purchased by a wholly-owned subsidiary of the OP. See discussion in the "Stock Repurchases" section below.During the nine months ended SeptemberA 30, 2024 and 2023, the Company paid an aggregate of \$88.4 million and \$87.7 million, respectively, of common stock distributions comprised of quarterly common dividends of \$0.355 per share. Stock RepurchasesThe Company's board of directors has authorized a \$65A million share repurchase program of the Company's common stock. The Company's share repurchase program authorizes share repurchases at prices below the most recently reported book value per share as determined in accordance with GAAP. Repurchases made under the program may be made through open market, block, and privately negotiated transactions, including Rule 10b5-1 plans, as permitted by securities laws and other legal requirements. The timing, manner, price and amount of any purchases by the Company will be determined by the Company in its reasonable business judgment and consistent with the exercise of its legal duties and will be subject to economic and market conditions, stock price, applicable legal requirements and other factors. The share repurchase program does not obligate the Company to acquire any particular amount of common stock. The Company's share repurchase program will remain open until it expires or until the capital committed to the applicable repurchase program has been exhausted, whichever is sooner. Repurchases under the Company's share repurchase program may be suspended from time to time at the Company's discretion without prior notice. As of SeptemberA 30, 2024, the Company had \$31.1A million remaining under the share repurchase program. Under the dividend reinvestment component of this plan, the Company's common stockholders can designate all or a portion of their cash dividends to be reinvested in additional shares of common stock (which shares, at the Company's option, are either issued directly from the Company or purchased by the administrator on the open market). The direct stock purchase component allows stockholders, subject to the Company's approval, to purchase shares of common stock directly from us. During the three months ended SeptemberA 30, 2024 and 2023, no shares were issued, and 40,165 shares and 49,178 shares, respectively, of common stock were purchased by the administrator on the open market under the dividend reinvestment component of the DRIP. During the nine months ended SeptemberA 30, 2024 and 2023, no shares were issued, and 125,350 shares and 169,354 shares, respectively, of common stock were purchased by the administrator on the open market under the dividend reinvestment component of the DRIP.Accumulated Other Comprehensive Income/(Loss)The following table sets forth the changes in accumulated other comprehensive income/(loss) related to the Company's real estate securities, available for sale, measured at fair value for the three and nine months ended SeptemberA 30, 2024 and 2023 (dollars in thousands):For the Three Months EndedSeptember 30, 2024September 30, 2023Balance, Beginning of Period\$575A \$(1,299)Other comprehensive income/(loss)(175)448A Reclassification adjustment for amounts included in net income/(loss)\$A (248)Balance, End of Period\$400A \$(1,099)For the Nine Months EndedSeptember 30, 2024September 30, 2023Balance, Beginning of Period(703)\$390A Other comprehensive income/(loss)797A (564)Reclassification adjustment for amounts included in net income/(loss)306A (925)Balance, End of Period\$400A \$(1,099)27Table of ContentsFRANKLIN BSP REALTY TRUST, INC.NOTES TO CONSOLIDATED FINANCIAL STATEMENTSSeptemberA 30, 2024(Unaudited)Note 10 - Commitments and ContingenciesUnfunded Commitments Under Commercial Mortgage Loans As of SeptemberA 30, 2024, the Company had the below unfunded commitments to the Company's borrowers (dollars in thousands):Funding ExpirationSeptember 30, 20242024\$32,886A 2025\$6,042A 2026 \$189,466A 2027\$120,538A Total\$428,932A The borrowers are generally required to meet or maintain certain metrics in order to qualify for the unfunded commitment amounts.Litigation and Regulatory ProceedingsThe Company is not presently named as a defendant in any material litigation arising outside the ordinary course of business. Commercial mortgage loans, held for investment and Real estate securities, available for sale, measured at fair value lines of the consolidated balance sheets. (2) These are related to reimbursable costs incurred related to the increase in loan origination activities and are included in Other expenses in the Company's consolidated statements of operations. (3) As of September 30, 2024 and December 31, 2023, the related party payables include \$0.9A million and \$0.7 million, respectively, of payments made by the Advisor to third party vendors on behalf of the Company. The payables as of September 30, 2024 and December 31, 2023, in the table above are included in Due to affiliates on the Company's consolidated balance sheets. Other Transactions In the third quarter of 2021, the Company and an affiliate of the Company entered into the Jeffersonville JV to acquire a \$139.5A million triple net lease property in Jeffersonville, GA. The Company has a 79% interest in the Jeffersonville JV, while the affiliate has a 21% interest. The Company invested a total of \$109.8A million, made up of \$88.7A million in debt and \$21.1A million in equity, representing 79% of the ownership interest in the Jeffersonville JV. The affiliated fund made up the remaining \$29.8A million composed of a \$24.0A million mortgage note payable and \$5.8A million in non-controlling interest. The Company has majority control of Jeffersonville JV and, therefore, consolidates the accounts of Jeffersonville JV into its consolidated financial statements. The Company's \$88.7A million mortgage note payable to Jeffersonville JV is eliminated in consolidation (see Note 7 - Debt). Pursuant to the Company's 2021 Incentive Plan, in the first quarter of 2024 the Company issued awards of restricted stock units to its officers and certain other personnel of the Advisor who provide services to the Company under the Advisory Agreement. As of September 30, 2024 and December 31, 2023, our commercial mortgage loans, held for investment, includes an aggregate of \$71.8 million and \$124.1 million, respectively, carrying value of loans to affiliates of our Advisor. For the three and nine months ended September 30, 2024, the Company recognized \$1.6A million and \$6.4A million, respectively, of interest income from these loans in the Company's consolidated statement of operations. For the three and nine months ended September 30, 2023, the Company recognized \$2.8A million and \$7.4A million, respectively, of interest income from these loans in the Company's consolidated statement of operations. In the second quarter of 2022, the Company fully funded a \$149.7A million first mortgage consisting of the Walgreens Portfolio: 24 retail properties with various locations throughout the United States. The Company entered into a joint venture agreement and formed the Walgreens JV to acquire 75.618% ownership interest in the Walgreens Portfolio, while the affiliated fund has 24.242% interest. 29 Table of Contents FRANKLIN BSP REALTY TRUST, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS September 30, 2024 (Unaudited) Note 12 - Fair Value of Financial Instruments GAAP establishes a hierarchy of valuation techniques based on the observability of inputs used in measuring financial instruments at fair values. GAAP establishes market-based or observable inputs as the preferred source of values, followed by valuation models using management assumptions in the absence of market inputs. The three levels of the hierarchy are described below: Level I - Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. Level II - Inputs (other than quoted prices included in Level I) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument. Level III - Unobservable inputs that reflect the entity's own assumptions about the assumptions that market participants would use in the pricing of the asset or liability and are consequently not based on market activity, but rather through particular valuation techniques. The determination of where an asset or liability falls in the above hierarchy requires significant judgment and factors specific to the asset or liability. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company evaluates its hierarchy disclosures each quarter and depending on various factors, it is possible that an asset or liability may be classified differently from quarter to quarter. The Company has implemented valuation control processes to validate the fair value of the Company's financial instruments measured at fair value including those derived from pricing models. These control processes are designed to assure that the values used for financial reporting are based on observable inputs wherever possible. In the event that observable inputs are not available, the control processes are designed to assure that the valuation approach utilized is appropriate and consistently applied and the assumptions are reasonable. Financial Instruments Measured at Fair Value on a Recurring Basis CMBS bonds, recorded in Real estate securities, available for sale, measured at fair value on the consolidated balance sheets are valued utilizing both observable and unobservable market inputs. These factors include projected future cash flows, ratings, subordination levels, vintage, remaining lives, credit issues, and recent trades of similar real estate securities. Depending upon the significance of the fair value inputs used in determining these fair values, these real estate securities are classified in either Level II or Level III of the fair value hierarchy. The Company obtains third party pricing for determining the fair value of each CMBS investment, resulting in a Level II classification. Commercial mortgage loans held for sale, measured at fair value in the Company's TRS are initially recorded at transaction price, which are considered to be the best initial estimate of fair value. The Company engaged the services of a third party independent valuation firm to determine fair value of certain investments held by the Company. Fair value is determined using a discounted cash flow model that primarily considers changes in interest rates and credit spreads, weighted average life and current performance of the underlying collateral. Commercial mortgage loans held for sale, measured at fair value that are originated in the last month of the reporting period are held and marked to the transaction price. The Company classified its commercial mortgage loans held for sale, measured at fair value as Level III. Other real estate investments, measured at fair value on the consolidated balance sheets are valued using unobservable inputs. The Company engaged the services of a third party independent valuation firm to determine fair value of certain investments, including preferred equity investments, held by the Company. Fair value is determined using a discounted cash flow model that primarily considers changes in interest rates and credit spreads, weighted average life and current performance of the underlying collateral. The Company generally classifies its other real estate investments, measured at fair value as Level III. Derivative instruments, measured at fair value are valued using market prices. A Treasury note futures traded on the Chicago Mercantile Exchange (a CME®) are a variety of recently issued 10-year U.S. Treasury notes. The future contracts are liquid and are centrally cleared through the CME. A Treasury note futures are categorized as Level I. 30 Table of Contents FRANKLIN BSP REALTY TRUST, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS September 30, 2024 (Unaudited) The fair value for credit default swaps and interest rate swaps contracts are derived using pricing models that are widely accepted by marketplace participants. Credit default swaps and some interest rate swaps are traded in the over the counter ("OTC") market. The pricing models take into account multiple inputs including specific contract terms, interest rate yield curves, interest rates, credit curves, recovery rates, and/or current credit spreads obtained from swap counterparties and other market participants. Most inputs into the models are not subjective as they are observable in the marketplace or set per the contract. Valuation is primarily determined by the difference between the contract spread and the current market spread. The contract spread (or rate) is generally fixed and the market spread is determined by the credit risk of the underlying debt or reference entity. The underlying indices are liquid and the OTC market for the current spread is active, credit default swaps and interest rate swaps are categorized in Level II of the fair value hierarchy. If the underlying indices are illiquid and the OTC market for the current spread is not active, credit default swaps are categorized in Level III of the fair value hierarchy. The Company classified its credit default swaps and interest rate swaps as Level II. A review of the fair value hierarchy classification is conducted on a quarterly basis. Changes in the type of inputs may result in a reclassification for certain assets or liabilities. The Company's policy with respect to transfers between levels of the fair value hierarchy is to recognize transfers into and out of each level as of the beginning of the reporting period. There were no material transfers between levels within the fair value hierarchy for the period ended September 30, 2024 and December 31, 2023. The following table presents the Company's financial instruments carried at fair value on a recurring basis in the consolidated balance sheets by its level in the fair value hierarchy as of September 30, 2024 and December 31, 2023 (dollars in thousands). The fair value of cash and cash equivalents and restricted cash are measured using observable quoted market prices, or Level I inputs and their carrying value approximate their fair value. The fair value of borrowings under repurchase agreements approximate their carrying value on the consolidated balance sheets due to their short-term nature and are measured using Level III inputs. Financial Instruments Measured at Fair Value on a Nonrecurring Basis Real Estate Owned, held for sale, on the consolidated balance sheets are valued at fair value on a non-recurring basis in accordance with ASC 820 and are classified as Level III investments. At the time of acquisition, we determined the fair value of the net real estate assets, using either the market approach, the income approach, or a combination thereof. During the quarters ended June 30, 2024 and September 30, 2024, the Walgreens Portfolio was written down to estimated fair value less cost to sell for impairment purposes based on the market approach and the income approach, respectively. In addition, the Company determined the fair value of its ten multifamily properties, obtained through foreclosure or deed-in-lieu 32 Table of Contents FRANKLIN BSP REALTY TRUST, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS September 30, 2024 (Unaudited) of foreclosure, based on a combination of the market approach and the income approach. The significant unobservable input used for the income approach is the exit capitalization rate assumptions, which ranged from 5.00% - 7.88%. The significant unobservable input used for the market approach is the estimated fair value less cost to sell based on a negotiated price from an anticipated buyer. As of September 30, 2024, the Company's Real estate owned, held for sale assets and liabilities, had a fair value of \$282.6 million, net, that represented the remaining five retail properties in the Walgreens Portfolio and ten multifamily properties. As of December 31, 2023 the Company's real estate owned, held for sale assets and liabilities, had a fair value of \$91.4A million, net, representing the remaining 23 retail properties in the Walgreens Portfolio and four multifamily properties. Financial Instruments Not Measured at Fair Value The fair values of the Company's commercial mortgage loans, held for investment and collateralized loan obligations, which are not reported at fair value on the consolidated balance sheets are reported below as of September 30, 2024 and December 31, 2023 (dollars in thousands): September 30, 2024 December 31, 2023 Level Carrying Amount Fair Value Level Carrying Amount Fair Value Commercial mortgage loans, held for investment (1) Asset III \$15,116A \$5,111,165A III \$5,036,942A \$5,010,580A Collateralized loan obligations (2) Liability III 097,668A 4,104,846A III 356,166A 3,521,274A Mortgage note payable Liability III 23,998A III 23,998A III 23,998A Other financings Liability III 12,865A 12,865A III 36,534A 36,534A Unsecured debt Liability III 1,370A 69,700A III 1,295A 64,900A (1) The carrying value is gross of \$76.6 million and \$47.2 million of allowance for credit losses as of September 30, 2024 and December 31, 2023, respectively. (2) Depending upon the significance of the fair value inputs utilized in determining these fair values, our collateralized loan obligations are classified as either Level II or Level III of the fair value hierarchy. Beginning in the third quarter of 2023, the transfers from Level III to Level II were the result of the availability of current and reliable market data provided by third party pricing services or other valuation techniques which utilized observable inputs. Repurchase agreements - commercial mortgage loans of \$183.8 million and \$299.7 million as of September 30, 2024 and December 31, 2023, respectively, and repurchase agreements - real estate securities of \$241.3 million and \$174.1 million as of September 30, 2024 and December 31, 2023, respectively, are not carried at fair value and do not include accrued interest expense, which are presented in Note 7 - Debt. For these instruments, carrying value generally approximates fair value and are classified as Level III. The fair value of the commercial mortgage loans, held for investment is estimated using a discounted cash flow analysis, based on the Advisor's experience with similar types of investments. The Company estimates the fair value of the collateralized loan obligations using external broker quotes. The mortgage note payable was recorded at transaction proceeds, which are considered to be the best initial estimate of fair value. The fair value of the other financings is generally estimated using a discounted cash flow analysis. The fair value of the unsecured debt is based on discounted cash flows using Company estimates for market yields on similarly structured debt instruments. Note 13 - Derivative Instruments The Company uses derivative instruments primarily to manage the fair value variability of fixed rate

securities.â€¢The commercial real estate conduit business operated through the Company's TRS, which is focused on generating risk-adjusted returns by originating and subsequently selling fixed-rate commercial real estate loans into the CMBS securitization market at a profit. The TRS may also hold certain mezzanine loans that don't qualify as good REIT assets due to any potential loss from foreclosure.â€¢The real estate owned business represents real estate acquired by the Company through foreclosure, deed in lieu of foreclosure, or purchase.Profit or loss on segment operations is measured by net income/(loss) included in the consolidated statements of operations. We are managed by the Advisor pursuant to an advisory agreement, as amended on August 18, 2021 (the "Advisory Agreement") with the Advisor. The Advisor manages our affairs on a day-to-day basis. The Advisor receives compensation and fees for services related to the investment and management of our assets and our operations.The Advisor, an SEC-registered investment adviser, is a credit-focused alternative asset management firm. The Advisor manages funds for institutions and high-net-worth investors across various credit funds and complementary strategies including high yield, levered loans, private / opportunistic debt, liquid credit, structured credit and commercial real estate debt. These strategies complement each other as they all leverage the sourcing, analytical, compliance, and operational capabilities that encompass the Advisor's robust platform. The Advisor is a wholly-owned subsidiary of Franklin Resources, Inc., which together with its various subsidiaries operates as "Franklin Templeton".The Company invests in commercial real estate debt investments, which may include first mortgage loans, subordinated mortgage loans, mezzanine loans and participations in such loans. The Company also originates conduit loans which the Company intends to sell through its TRS into commercial mortgage-backed securities ("CMBS") securitization transactions. Historically this business has focused primarily on CMBS, commercial real estate collateralized loan obligation bonds and single asset single borrower bonds (collectively "CMBS bonds"), collateralized debt obligations ("CDOs") and other securities. The Company also owns real estate that was either acquired by the Company through foreclosure or deed in lieu of foreclosure, or that was purchased for investment, primarily subject to triple net leases.Book Value Per ShareThe following table calculates our book value per share as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 (in thousands, except share and per share amounts):September 30, 2024December 31, 2023Stockholders' equity applicable to common stock\$1,257,707Â \$1,300,372Â Shares:Common stock\$1,788,091Â \$1,842,656Â Restricted stock and restricted stock units\$1,278,698Â \$809,257Â Total outstanding shares\$3,066,789Â \$2,751,913Â Book value per share\$15.14Â \$15.71Â The following table calculates our fully-converted book value per share as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 (in thousands, except share and per share amounts):September 30, 2024December 31, 2023Stockholders' equity applicable to convertible common stock\$1,347,455Â \$1,390,120Â Shares:Common stock\$1,788,091Â \$1,842,656Â Restricted stock and restricted stock units\$1,278,698Â \$809,257Â Series H convertible preferred stock\$5,370,498Â \$5,370,498Â Total outstanding shares\$8,437,287Â \$8,122,411Â Fully-converted book value per share(1)\$15.24Â \$15.77Â (1) Fully-converted book value per share reflects full conversion of our outstanding series of convertible preferred stock and full vesting of our outstanding equity compensation awards.38Table of ContentsBook value per share as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, excluding the impact for accumulated depreciation and amortization of real property of \$12.6Â million and \$9.4 million, respectively, was \$15.38 and \$15.88. Critical Accounting EstimatesOur financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Critical accounting estimates are those that require the application of management's most difficult, subjective or complex judgments on matters that are inherently uncertain and that may change in subsequent periods. In preparing the financial statements, management has made estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. In preparing the financial statements, management has utilized available information, including our past history, industry standards and the current economic environment, among other factors, in forming its estimates and judgments, giving due consideration to materiality. Actual results may differ from these estimates. In addition, other companies may utilize different estimates, which may impact the comparability of our results of operations to those of companies in similar businesses.During the nine months ended SeptemberÂ 30, 2024, there were no material changes to our critical accounting estimates as compared to the critical accounting estimates disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations contained in Part II, Item 7 of our Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023.39Table of ContentsPortfolioAs of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, our portfolio consisted of 157 and 144 commercial mortgage loans, held for investment, respectively. The commercial mortgage loans, held for investment, net of allowance for credit losses, as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 had a total carrying value of \$5,077.5Â million and \$4,989.8Â million, respectively. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 the Company did not hold any commercial mortgage loans, held for sale. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, we had \$210.7 million and \$242.6 million, respectively, of real estate securities, available for sale, measured at fair value. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, our real estate owned, held for investment portfolio was composed of three investments with carrying values of \$113.8 million and \$115.8 million, respectively. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, we had 11 positions and one position classified as real estate owned, held for sale with combined carrying values of \$284.4 million and \$103.7 million, respectively.As of SeptemberÂ 30, 2024, we had three loans (one secured by a multifamily property and two secured by office properties) designated as non-performing status with a total amortized cost of \$67.9 million. As of SeptemberÂ 30, 2024, two loans designated as non-performing and put on cost recovery status were determined to have a combined \$28.7Â million specific allowance for credit losses. During the first quarter of 2024, one multifamily loan which was designated as non-performing as of DecemberÂ 31, 2023, was assumed by the Company through a deed-in-lieu of foreclosure, and subsequently sold (see "Note 3 - Commercial Mortgage Loans").As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 our commercial mortgage loans, held for investment, excluding commercial mortgage loans on non-performing status, had a weighted average coupon of 8.5% and 9.2%, respectively, and a weighted average remaining contractual maturity life of 1.0 year and 0.9 years, respectively.40Table of (1) For a discussion of risk ratings, see Note 3 - Commercial Mortgage Loans in our Consolidated Financial Statements included in this Form 10-Q.(2) Date loan was originated or acquired by us. The origination or acquisition date is not updated for subsequent loan modifications.(3) Fully extended maturity assumes all extension options are exercised by the borrower; provided, however, that our loans may be repaid prior to such date.(4) Our floating rate loan agreements generally contain the contractual obligation for the borrower to maintain an interest rate cap to protect against rising interest rates. In a simple interest rate cap, the borrower pays a premium for a notional principal amount based on a capped interest rate (the "capped rate"). When the floating rate exceeds the cap rate, the borrower receives a payment from the cap counterparty equal to the difference between the floating rate and the cap rate on the same notional principal amount for a specified period of time. When interest rates rise, the value of an interest rate cap will increase, thereby reducing the borrower's exposure to rising interest rates.(5) As of September 30, 2024, all of our commercial mortgage loans, held for investment which had been indexed at LIBOR have been converted from LIBOR to compounded SOFR, plus a benchmark adjustment of 11.448 basis points, and the applicable spreads remain unchanged. The loans which have the SOFR adjustment are indicated with "Adj. 1M SOFR Term".(6) Effective yield is calculated as the spread of the loan plus the greater of the applicable index or index floor.(7) Loan-to-value percentage ("LTV") represents the ratio of the loan amount to the appraised value of the property at the time of origination. However, for predevelopment construction loans at origination, LTV is not applicable and is therefore nil.(8) Commitment on the loan was unfunded as of September 30, 2024.The following table shows selected data from our real estate owned, held for investment assets in our portfolio as of September 30, 2024 (dollars in thousands):TypeAcquisition DatePrimary LocationProperty TypeReal Estate Owned, NetIntangible Lease Asset, NetTotal Real Estate Owned 1September 2021Jeffersonville, GAIndustrial\$83,718\$ 40,554\$ 124,272A Real Estate Owned 2August 2023Portland, OROffice18,492A "A 18,492A Real Estate Owned 3October 2023Lubbock, TXMultifamily11,638A "A 11,638A Total\$113,848A \$40,554A \$154,402A The following table shows selected data from our real estate owned, held for sale assets in our portfolio as of September 30, 2024 (dollars in thousands):TypeAcquisition DatePrimary Location(s)Property TypeAssets, NetLiabilities, NetReal Estate Owned, held for sale 1VariousVariousRetail\$18,674A \$1,805A Real Estate Owned, held for sale 2VariousVariousMultifamily267,843A 2,559A Total\$286,517A \$4,364A The following table shows selected data from our real estate securities, measured at fair value as of September 30, 2024 (dollars in thousands):TypeAcquisition DateMaturityPar ValueFair ValueA Effective YieldCMBS bond 11 month SOFR + 2.78%8/19/2035\$20,000A \$20,022A 7.63%CMBS bond 21 month SOFR + 2.90%10/19/20328,340A 28,485A 7.74%CMBS bond 31 month SOFR + 3.20%5/25/203843,333A 43,382A 8.04%CMBS bond 41 month SOFR + 2.36%4/16/202844,995A 45,138A 7.21%CMBS bond 51 month SOFR + 2.27%6/19/203829,676A 29,764A 7.12%CMBS bond 61 month SOFR + 3.11%6/19/203812,000A 12,050A 7.95%CMBS bond 71 month SOFR + 1.36%11/15/203615,887A 15,641A 6.21%CMBS bond 81 month SOFR + 1.64%4/15/20295,000A 4,981A 6.49%CMBS bond 91 month SOFR + 2.99%8/15/20393,800A 3,794A 7.84%CMBS bond 101 month SOFR + 2.84%8/15/20297,397A 7,399A 7.69%Total/Weighted Averages\$210,428A \$210,656A 7.46%48Table of ContentsResults of OperationsThe Company conducts its business through the following segments:â€”The real estate debt business focuses on originating, acquiring and asset managing commercial real estate debt investments, including first mortgages, subordinate mortgages, mezzanine loans and participations in such loans.â€”The real estate securities business focuses on investing in and asset managing real estate securities. Historically this business has focused primarily on CMBS, CMBS bonds, CDO notes, and other securities.â€”The commercial real estate conduit business operated through the Company's TRS, which is focused on generating risk-adjusted returns by originating and subsequently selling fixed-rate commercial real estate loans into the CMBS securitization market at a profit. The TRS may also hold certain mezzanine loans that don't qualify as good REIT assets due to any potential loss from foreclosure.â€”The real estate owned business represents real estate acquired by the Company through foreclosure, deed in lieu of foreclosure, or purchase.Comparison of the Three Months Ended September 30, 2024 to the Three Months Ended September 30, 2023Net Interest IncomeNet interest income is generated on our interest-earning assets less related interest-bearing liabilities and is recorded as part of our real estate debt, real estate securities and TRS segments.The following table presents the average balance of interest-earning assets less related interest-bearing liabilities, associated interest income and expense and corresponding yield earned and incurred for the three months ended September 30, 2024 and 2023 (dollars in thousands):Three Months EndedSeptember 30, 2024September 30, 2023Average Carrying Value(1)Interest Income/Expense(2) (3)WA Yield/Financing Cost(4)(5)Average Carrying Value(1)Interest Income/Expense(2) (3)WA Yield/Financing Cost(4)(5)Interest-earning assets:Real estate debt\$5,296,465\$127,550A 9.6A %\$4,770,339\$131,093A 11.0A %Real estate conduit\$4,0731,761A 1.6A %Real estate securities\$218,223A 432A 8.1A %\$277,664A 908A 7.1A %Total\$5,558,761\$133,743A 9.6A %\$5,057,862\$136,110A 8.4A %Interest-bearing liabilities:Repurchase agreements - commercial mortgage loans\$767,481\$16,767A 8.7A %\$711,560\$16,868A 9.5A %Other financing and loan participation - commercial mortgage loans\$12,865\$197A 6.1A %\$1,425,444A 9.4A %Repurchase agreements - real estate securities\$247,022\$901A 6.3A %\$223,193A 5.6A %Collateralized loan obligations\$3,418,656\$7,122A 7.9A %\$2,974,039\$4,608A 7.3A %Unsecured debt\$1,358,189\$7A 9.3A %\$1,258,190\$2A 9.4A %Total\$4,527,382\$89,884A 7.9A %\$4,051,181\$87,973A 7.7A %Net interest income/spread\$43,859A 1.7A %\$58,137A 3.1A %Average leverage % (6)81.4A %80.1A %Weighted average levered yield(7)17.0A %23.1A % interest-bearing liabilities. This decrease was primarily due to an increase in non-performing loans, which averaged \$189.8 million in principal during the three months ended September 30, 2024 partially offset by an increase in the average carrying value of our real estate debt. As of September 30, 2024, our portfolio consisted of (i) 157 commercial mortgage loans, held for investment and (ii) ten real estate securities, available for sale, measured at fair value. As of September 30, 2023, our portfolio consisted of (i) 145 commercial mortgage loans, held for investment, (ii) one commercial mortgage loan, held for sale, measured at fair value and (iii) six real estate securities, available for sale, measured at fair value and (iv) ARMs (as defined below).Interest ExpenseInterest expense for the three months ended September 30, 2024 and 2023 totaled \$89.9A million and \$78.0 million, respectively, an increase of \$11.9A million. The increase was primarily due to an increase of \$44.6 million in the average carrying balance of our collateralized loan obligations coupled with an increase in deferred fee amortization due to the utilization of expected duration of our CLOs compared to contractual duration.Revenue from Real Estate OwnedFor the three months ended September 30, 2024 and 2023, revenue from real estate owned was \$5.4 million and \$3.3 million, respectively. The \$2.1 million increase was primarily the result of rental income from obtaining possession of additional multifamily properties brought on as real estate owned for the three months ended September 30, 2024.(Provision)/Benefit for Credit losses Benefit for credit losses was \$0.3A million during the three months ended September 30, 2024 compared to a provision of \$2.4 million during the three months ended September 30, 2023. For the three months ended September 30, 2024, general benefit for credit losses was \$0.8 million compared to a general provision of \$2.8A million for the three months ended September 30, 2023. General benefit for the three months ended September 30, 2024 was attributable to the portfolio turnover of older vintage loans with new originated loans. For the three months ended September 30, 2023, the increase in general reserve was attributable to a more pessimistic view of the macroeconomic scenario utilized for the CECL model compared to preceding

periods. For the three months ended September 30, 2024, specific provision for credit losses was \$0.5Å million compared to a specific benefit of \$0.4Å million for the three months ended September 30, 2023. For the three months ended September 30, 2024, the increase in specific reserve was primarily related to foreclosures on multifamily properties located in Oklahoma and North Carolina. For the three months ended September 30, 2023, the increase in specific benefit was related to recoveries recorded due to a deed-in-lieu of foreclosure of an office property located in Oregon. 50Table of ContentsRealized Gain/(Loss) on Extinguishment of DebtThe Company did not realize a gain or loss on extinguishment of debt for the three months ended September 30, 2024. Realized loss on extinguishment of debt for the three months ended September 30, 2023 was \$2.8Å million related to the redemption of the BSPT 2019-FL5 CLO. Realized Gain/(Loss) on Real Estate Securities, Available for SaleRealized gain on real estate securities, available for sale for the three months ended September 30, 2024 of \$0.1Å million was related to the sale of two CMBS bonds. Realized loss on real estate securities, available for sale for the three months ended September 30, 2023 of \$0.5Å million was primarily related to the sale of six CMBS bonds. Realized Gain/(Loss) on Commercial Mortgage Loans, Held for Sale, Measured at Fair ValueRealized gain on commercial mortgage loans, held for sale, measured at fair value for the three months ended September 30, 2024 of \$6.2 million was related to the sale of \$131.6 million in principal amount of commercial real estate loans into the CMBS securitization market resulting in proceeds of \$137.8Å million. Realized gain on commercial mortgage loans, held for sale, measured at fair value for the three months ended September 30, 2023 of \$0.9Å million was related to \$34.3Å million sales of commercial real estate loans into the CMBS securitization market resulting in proceeds of \$35.2Å million. Unrealized Gain/(Loss) on Commercial Mortgage Loans, Held for Sale, Measured at Fair ValueUnrealized loss on commercial mortgage loans, held for sale, measured at fair value, for the three months ended September 30, 2024 was \$0.6 million which is attributable to the reversal of previous unrealized gains due to sales into the CMBS securitization market. The Company did not have an unrealized gain or loss on commercial mortgage loans, held for sale, measured at fair value, for the three months ended September 30, 2023.Gain/(Loss) on Other Real Estate InvestmentsLoss on other real estate investments for the three months ended September 30, 2024 was \$2.2Å million primarily due to write offs related to the Walgreens Portfolio coupled with the onboarding of real estate owned, held for sale, multifamily properties. This is compared to a loss of \$4.1Å million for the three months ended September 30, 2023 that was primarily due to an impairment on the Walgreens Portfolio. Trading Gain/(Loss)The Company did not hold any trading securities as of September 30, 2024. Trading loss for the three months ended September 30, 2023 of \$2.6 million was attributable to principal paydowns, and changes in market values on our former portfolio of adjustable-rate mortgage pass-through securities ("ARM Agency Securities" or "ARMs") issued and guaranteed by government-sponsored enterprises or by an agency of the federal government. Net Result from Derivative TransactionsNet result from derivative transactions for the three months ended September 30, 2024 of a \$1.3Å million loss was composed of a realized loss of \$1.6Å million primarily related to the termination and settlement of credit default swaps and treasury note futures partially offset by an unrealized gain of \$0.3Å million. This is compared to a net loss on our derivative portfolio of \$0.1 million composed of a realized gain of \$0.1Å million primarily due to the termination and settlement of our interest rate swap positions offset by an unrealized loss of \$0.2Å million for three months ended September 30, 2023. (Provision)/Benefit for Income TaxProvision for income tax for the three months ended September 30, 2024 was \$0.2Å million compared to a benefit of \$1.8 million for the three months ended September 30, 2023. The decrease was primarily due to the recognition of \$20.4Å million of interest income in the sale of a Brooklyn hotel asset in the second quarter of 2023 coupled with loans placed on non-performing status, which averaged \$231.6 million in principal during the nine months ended September 30, 2024. As of September 30, 2024, our portfolio consisted of (i) 157 commercial mortgage loans, held for investment and (ii) ten real estate securities, available for sale, measured at fair value. As of September 30, 2023, our portfolio consisted of (i) 145 commercial mortgage loans, held for investment, (ii) one commercial mortgage loan, held for sale, measured at fair value and (iii) six real estate securities, available for sale, measured at fair value.Interest ExpenseInterest expense for the nine months ended September 30, 2024 and 2023 was \$257.9Å million and \$224.3 million, respectively, an increase of \$33.6 million. The increase was primarily due to an increase of \$451.6 million in the average carrying value of our collateralized loan obligations coupled with an increase in deferred fee amortization due to the utilization of expected duration of our CLOs compared to contractual duration.Revenue from Real Estate OwnedFor the nine months ended September 30, 2024 and 2023, revenue from real estate owned was \$14.2Å million and \$13.1 million, respectively. The \$1.1 million increase was primarily the result of rental income from obtaining possession of additional multifamily properties brought on as real estate owned for the nine months ended September 30, 2024. Provision/(Benefit) for Credit Losses Provision for credit losses was \$34.8 million during the nine months ended September 30, 2024 compared to a provision of \$28.4 million during the nine months ended September 30, 2023.For the nine months ended September 30, 2024 and 2023, general provision for credit losses was \$1.3 million and \$16.0Å million, respectively. General provision for the nine months ended September 30, 2024 was attributable to the portfolio turnover of older vintage loans with new originated loans. For the nine months ended September 30, 2023, the increase in general reserve was attributable to a more pessimistic view of the macroeconomic scenario utilized for the CECL model compared to preceding periods.For the nine months ended September 30, 2024, the primary increase in specific reserve of \$33.5Å million was related to two non-performing loans collateralized by office properties coupled with foreclosures on non-performing loans collateralized by multifamily properties located in Oklahoma and North Carolina. For the nine months ended September 30, 2023, the increase in specific reserve of \$12.4Å million was primarily related to one office loan located in Oregon coupled with higher capitalization rates on the assumed fair value of the properties in the Walgreens Portfolio.Realized Gain/(Loss) on Extinguishment of DebtThe Company did not realize a gain or loss on extinguishment of debt for the nine months ended September 30, 2024. Realized gain on extinguishment of debt for the nine months ended September 30, 2023 of \$2.2 million was primarily related to the redemption of \$17.5 million par value unsecured debt at a price equal to 75% par coupled with the repurchase of the Class E notes in our BSPT 2021-FL7 CLO and \$8.3Å million of bonds of BSPT 2019-FL5 partially offset by the redemption of BSPT 2019-FL5.Realized Gain/(Loss) on Real Estate Securities, Available for SaleRealized gain on real estate securities, available for sale for the nine months ended September 30, 2024 was \$0.1 million related to the sale of six CMBS bonds. (1) See discussion below for further information on the Company's collateralized loan obligations.(2) Represents cash available we can invest at a market advance rate utilizing our available capacity on financing lines.We expect to use additional debt and equity financing as a source of capital. Our board of directors currently intends to operate at a leverage level of between one to three times book value of equity. However, our board of directors may change this target without shareholder approval. We anticipate that our debt and equity financing sources and our anticipated cash generated from operations will be adequate to fund our anticipated uses of capital. We have an effective shelf registration statement for offerings of equity securities that is not limited on the amount of securities we may issue. We also have authorized an at-the-market sales program ("ATM") pursuant to which we may sell up to 59Table of Contents\$200 million of shares of our common stock from time to time. We have not sold any shares of common stock under the ATM to date. We also may access liquidity through our dividend reinvestment and direct stock purchase plan ("DRIP").In addition to our current mix of financing sources, we may also access additional forms of financings, including credit facilities, securitizations, public and private, secured and unsecured debt issuances by the Company or its subsidiaries, or through capital recycling initiatives whereby we sell certain assets in our portfolio and reinvest the proceeds in assets with more attractive risk-adjusted returns.Collateralized Loan Obligations As of September30, 2024, the Company had \$137.6A million of reinvestment capital available across all outstanding collateralized loan obligations. We expect to use the advances from these Repo and Revolving Credit Facilities to finance the acquisition or origination of eligible loans, including first mortgage loans, subordinated mortgage loans, mezzanine loans and participation interests therein. The Repo and Revolving Credit Facilities generally provide that in the event of a decrease in the value of our collateral, the lenders can demand additional collateral. Should the value of our collateral decrease as a result of deteriorating credit quality, resulting margin calls may cause an adverse change in our liquidity position.60Table of ContentsThe following tables summarize our Repo and Revolving Credit Facilities and our master repurchase agreements ("MRAs") for the nine months ended September 30, 2024, 2023, and 2022, respectively (dollars in thousands):As of September 30, 2024Amount OutstandingAverage Outstanding BalanceQ1Q2Q3Q1Q2Q3Repurchase agreements and revolving credit facilities - commercial mortgage loans\$412,556A \$762,437A 183,761A \$382,313A \$671,561A \$799,861A Repurchase agreements, real estate securities194,769A 243,646A 241,266A 217,012A 249,442A 259,977A Total\$607,325A \$1,006,083A \$425,027A \$599,325A \$921,003A \$1,059,838A As of September 30, 2023Amount OutstandingAverage Outstanding BalanceQ1Q2Q3Q1Q2Q3Repurchase agreements and revolving credit facilities - commercial mortgage loans\$604,421A \$695,039A \$249,345A \$725,300A \$796,659A \$816,929A Repurchase agreements - real estate securities107,934A 176,993A 240,010A 217,389A 209,025A 349,878A Repurchase agreements - real estate securities, held as trading121,000A 113,000A 6A 149,387A 117,159A 57,242A Total\$833,355A \$985,032A \$489,355A \$1,092,076A \$1,122,843A \$1,224,049A As of September 30, 2022Amount OutstandingAverage Outstanding BalanceQ1Q2Q3Q1Q2Q3Repurchase agreements and revolving credit facilities - commercial mortgage loans\$522,890A \$832,034A \$699,408A \$813,144A \$834,337A \$709,679A Repurchase agreements - real estate securities54,610A 53,288A 112,613A 44,744A 54,033A 53,688A Repurchase agreements - real estate securities, held as trading1,659,931A 240,000A 225,000A 3,055,413A 1,818,495A 230,011A Total\$2,237,431A \$1,125,322A \$1,037,021A \$3,913,301A \$2,706,865A \$993,378A The use of our warehouse lines is dependent upon a number of factors including but not limited to: origination volume, loan repayments and prepayments, our use of other financing sources such as collateralized loan obligations, our liquidity needs and types of loan assets and underlying collateral that we hold.During the nine months ended September 30, 2024, the maximum average outstanding balance was \$1.1A billion, of which \$0.8A billion was related to repurchase agreements on our commercial mortgage loans and \$0.3A billion for repurchase agreements on our real estate securities. The Company must distribute 100% of its taxable income (including net capital gains) to avoid paying corporate U.S. federal income taxes.Distributions on our common stock are payable when declared by our board of directors.Dividends payable on each share of Series H convertible preferred stock ("Series H Preferred Stock") is generally equal to the quarterly dividend that would have been paid had such share of preferred stock been converted to a share of common stock, except to the extent common stock dividends have been reduced below certain specified levels. To the extent dividends on shares of preferred stock are not authorized and declared by our board of directors and paid by the Company monthly, the dividend amounts will accrue.Holders of shares of the Company's 7.50% Series E Cumulative Redeemable Preferred Stock ("Series E Preferred Stock") are entitled to receive, when, as and if authorized by our board of directors and declared by the Company, out of funds legally available for the payment of dividends, cumulative cash dividends at the rate of 7.50% of the \$25.00 per share liquidation preference per annum (equivalent to \$1.875 per annum per share). In September 2024, the Company's board of directors declared the following: (i) a third quarter 2024 dividend of \$0.355 per share on the Company's common stock (equivalent to \$1.42 per annum), (ii) a third quarter 2024 dividend of \$106.216 per share on the Company'sSeries H Preferred Stock, and (iii) a third quarter 2024 dividend of \$0.46875 per share on the Company'sSeries E Preferred Stock, all of which were paid in October 2024 to holders of record as of September30, 2024. Under the Company'sDRIP, the Company may elect to supply shares for reinvestment via newly issued shares of common stock or via shares of common stock purchased by the DRIP administrator on the open market. During the nine months ended September30, 2024 and 2023, 0 and 768 shares were newly issued, and 125,350 and 169,354 shares of common stock were purchased, respectively, by the administrator under the dividend reinvestment component of the DRIP.During the nine months ended September30, 2024 and 2023, the Company paid an aggregate of \$88.4 million and \$87.8 million, respectively, of common stock distributions.62Table of ContentsCash FlowsThe following table sets forth changes in cash, cash equivalents and restricted cash for the nine months ended September30, 2024 and 2023:For the Nine Months Ended September 30, 20242023Cash Flows From Operating Activities\$112,322A \$141,462A Cash Flows From Investing Activities(420,438)554,809A Cash Flows From Financing Activities318,302A (468,666)Net Increase/(Decrease) in Cash, Cash Equivalents and Restricted Cash\$10,186A \$227,605A Cash Flows from Operating ActivitiesDuring the nine months ended September30, 2024, cash inflow of \$112.3 million from operating activities were primarily driven by cash inflows from (i) net income of \$62.2 million and (ii) net cash inflow of \$13.1 million related to originations and sales of commercial mortgage loans, held for sale, measured at fair value and (iii) certain non-cash income.During the nine months ended September30, 2023, cash inflow of \$141.5 million from operating activities were primarily driven by cash inflows from (i) net income of \$114.5 million and (ii) net cash inflow of \$1.6 million related to originations and sales of commercial mortgage loans, held for sale, measured at fair value and (iii) certain non-cash income.Cash Flows from Investing ActivitiesDuring the nine months ended September30, 2024, cash outflow of \$420.4A million from investing activities were primarily driven by (i) the origination and purchase of \$1.4 billion of commercial mortgage loans, held for investment and (ii) the purchase of real estate securities for \$57.1 million. Outflows were partially offset by net borrowings on collateralized loan obligations of \$357.6 million.63Table of ContentsElection as a REITWe elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code commencing with the taxable year ended December 31, 2013. As a REIT, if we meet certain organizational and operational requirements and distribute at least 90% of our "REIT taxable income" (determined before the deduction of dividends paid and excluding net capital gains) to our stockholders in a year, we will not be subject to U.S. federal income tax to the extent of the income that we distribute. Even if we qualify for taxation as a REIT, we may be subject to certain state and local taxes on our income and property, and U.S. federal income and excise taxes on our undistributed income.Contractual Obligations and CommitmentsOur contractual obligations, excluding interest obligations (as amounts are not fixed or determinable), as of September30, 2024 are summarized as follows (dollars in thousands):Less than 1 year1 to 3 years3 to 5 yearsMore than 5 yearsTotalUnfunded loan commitments(1)\$116,676A \$312,256A \$6A \$A \$428,932A Repurchase agreements - commercial mortgage loans\$66,539A 117,222A 6A 183,761A Repurchase agreements - real estate securities241,266A 6A 6A 241,266A CLOs(2)\$6A 6A 4,128,965A 4,128,965A Mortgage Note Payable6A 23,998A 6A 23,998A Unsecured debt6A 6A 81,370A 81,370A Other financings 6A 6A 12,865A 6A 12,865A Total\$424,481A \$453,476A 12,865A \$4,210,335A \$5,101,157A (1) The allocation of our unfunded loan commitments is based on the earlier of the commitment expiration date or the loan maturity date.(2) Excludes \$532.4A million of CLO notes, held by the Company, which are eliminated within the Collateralized loan obligations line of the consolidated balance sheet as of September30, 2024. This reflects the contractual CLO maturity dates.In addition to its cash requirements, the Company pays a quarterly dividend and has an existing share repurchase authorization. As of September30, 2024, the Company'squarterly cash dividend was \$0.355 per share of common stock (which was paid on an as-converted basis on the Company'sshares of Series H Preferred Stock), and \$0.46875 per share on the Company'sshares of Series E Preferred Stock. The payment of future dividends is subject to declaration by the board of directors. The Company'sboard of directors also has authorized

a \$65.4 million share repurchase program, of which \$31.1 million remained available as of September 30, 2024. The authorization does not obligate the Company to acquire any specific number of shares. The Company did not repurchase any shares during the three months ended September 30, 2024. Table of Contents Non-GAAP Financial Measures Distributable Earnings and Distributable Earnings to Common Distributable Earnings is a non-GAAP measure, which the Company defines as GAAP net income (loss), adjusted for (i) non-cash CLO amortization acceleration and amortization over the expected useful life of the Company's CLOs, (ii) unrealized gains and losses on loans and derivatives, including CECL reserves and impairments, net of realized gains and losses, as described further below, (iii) non-cash equity compensation expense, (iv) depreciation and amortization, (v) subordinated performance fee accruals (reversal), (vi) realized gains and losses on debt extinguishment and CLO calls, and (vii) certain other non-cash items. Further, Distributable Earnings to Common, a non-GAAP measure, presents Distributable Earnings net of (i) perpetual preferred stock dividend payments and (ii) non-controlling interests in joint ventures. As noted in (ii) above, we exclude unrealized gains and losses on loans and other investments, including CECL reserves and impairments, from our calculation of Distributable Earnings and include realized gains and losses. The nature of these adjustments is described more fully in the footnotes to our reconciliation tables. GAAP loan loss reserves and any property impairment losses have been excluded from Distributable Earnings consistent with other unrealized losses pursuant to our existing definition of Distributable Earnings. We expect to only recognize such potential credit or property impairment losses in Distributable Earnings if and when such amounts are deemed nonrecoverable upon a realization event. This is generally at the time a loan is repaid, or in the case of a foreclosure or other property, when the underlying asset is sold. Amounts may also be deemed non-recoverable if, in our determination, it is nearly certain the carrying amounts will not be collected or realized. The realized loss amount reflected in Distributable Earnings will generally equal the difference between the cash received and the Distributable Earnings basis of the asset. The timing of any such loss realization in our Distributable Earnings may differ materially from the timing of the corresponding loss reserves, charge-offs or impairments in our consolidated financial statements prepared in accordance with GAAP. The Company believes that Distributable Earnings and Distributable Earnings to Common provide meaningful information to consider in addition to the disclosed GAAP results. The Company believes Distributable Earnings and Distributable Earnings to Common are useful financial metrics for existing and potential future holders of its common stock as historically, over time, Distributable Earnings to Common has been an indicator of common dividends per share. As a REIT, the Company generally must distribute annually at least 90% of its taxable income, subject to certain adjustments, and therefore believes dividends are one of the principal reasons stockholders may invest in its common stock. Further, Distributable Earnings to Common helps investors evaluate performance excluding the effects of certain transactions and GAAP adjustments that the Company does not believe are necessarily indicative of current loan portfolio performance and the Company's operations and is one of the performance metrics the Company's board of directors considers when dividends are declared. Distributable Earnings and Distributable Earnings to Common do not represent net income (loss) and should not be considered as an alternative to GAAP net income (loss). The methodology for calculating Distributable Earnings and Distributable Earnings to Common may differ from the methodologies employed by other companies and thus may not be comparable to the Distributable Earnings reported by other companies.

Table of Contents The following table provides a reconciliation of GAAP net income to Distributable Earnings and Distributable Earnings to Common as of the three and nine months ended September 30, 2024 and 2023 (amounts in thousands, except share and per share data):

Three Months Ended September 30, 2024	Three Months Ended September 30, 2023	Nine Months Ended September 30, 2024	Nine Months Ended September 30, 2023

Distributable Earnings ROE	67.7%	67.1%	13.5%
GAAP Net Income (Loss) Per Share, Fully Diluted	\$0.30	\$0.57	\$1.12
Distributable Earnings Per Share, Fully Diluted	\$0.43	\$0.62	\$1.53

Before Q1 2024, we adjusted GAAP income for non-cash CLO amortization acceleration to effectively amortize the issuance costs of our CLOs over the expected lifetime of the CLOs. We assume our CLOs will be outstanding for approximately four years and amortized the financing costs over approximately four years in our distributable earnings as compared to effective yield methodology in our GAAP earnings. Starting in Q1 2024, we amortized the issuance costs incurred on our CLOs over the expected lifetime of the CLOs in our GAAP presentation, making our previous adjustment no longer necessary.

(2) Represents unrealized gains and losses on (i) commercial mortgage loans, held for sale, measured at fair value, (ii) other real estate investments, measured at fair value and (iii) derivatives.

(3) Represents accrued and unpaid subordinated performance fee. In addition, reversal of subordinated performance fee represents cash payment obligations in the quarter.

(4) Represents amounts deemed nonrecoverable upon a realization event, which is generally at the time a loan is repaid, or in the case of a foreclosure or other property, when the underlying asset is sold. Amounts may also be deemed non-recoverable if, in our determination, it is nearly certain the carrying amounts will not be collected or realized upon sale. Amount may be different than the GAAP basis. As of September 30, 2024, the Company has \$11.9 million of GAAP loss adjustments that would run through distributable earnings if and when cash losses are realized.

(5) Represents loan workout charges the Company incurred, which the Company deemed likely to be recovered. Reversal of loan workout charges represent recoveries received. During the second quarter of 2023, the Company recovered \$5.1 million of loan workout charges, in aggregate, related to the loan workout charges incurred in the first, second, and third quarters of 2022 amounting to \$1.9 million, \$3.0 million, and \$0.2 million, respectively.

(6) Represents the average of all classes of equity except the Series E Preferred Stock.

(7) Fully Converted assumes conversion of our series of convertible preferred stock and full vesting of our outstanding equity compensation awards.

Item 3. Quantitative and Qualitative Disclosures about Market Risk. Credit Risk Our investments are subject to a high degree of credit risk. Credit risk is the exposure to loss from loan defaults. Default rates are subject to a wide variety of factors, including, but not limited to, borrower financial condition, property performance, property management, supply/demand factors, construction trends, consumer behavior, regional economics, interest rates, the strength of the U.S. economy, and other factors beyond our control. All loans are subject to a certain probability of default. We manage credit risk through the underwriting process, acquiring our investments at the appropriate discount to face value, if any, and establishing loss assumptions. We also carefully monitor the performance of the loans, as well as external factors that may affect their value. Capital Market Risk We are exposed to risks related to the debt capital markets, and our related ability to finance our business through borrowings under repurchase obligations or other debt instruments. As a REIT, we are required to distribute a significant portion of our taxable income annually, which constrains our ability to accumulate operating cash flow and therefore requires us to utilize debt or equity capital to finance our business. We seek to mitigate these risks by monitoring the debt capital markets to inform our decisions on the amount, timing and terms of capital we raise. Market uncertainty and volatility may cause fluctuation in market value of certain asset classes within our portfolio. We have and may continue to receive margin calls from our lenders as a result of the decline in the market value of the assets pledged by us to our lenders under our repurchase agreements and warehouse credit facilities, and if we fail to resolve such margin calls when due by payment of cash or delivery of additional collateral, the lenders may exercise remedies including demanding payment by us of our aggregate outstanding financing obligations and/or taking ownership of the loans or other assets securing the applicable obligations and liquidating them at inopportune prices. Interest Rate Risk Our market risk arises primarily from interest rate risk relating to interest rate fluctuations. Many factors including governmental monetary and tax policies, domestic and international economic and political considerations and other factors that are beyond our control contribute to interest rate risk. To meet our short and long-term liquidity requirements, we may borrow funds at fixed and variable rates. Our interest rate risk management objectives are to limit the impact of interest rate changes in earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, from time to time, we may enter into interest rate hedge contracts such as swaps, collars and treasury lock agreements in order to mitigate our interest rate risk with respect to various debt instruments. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in benefits of lower interest rates with respect to our portfolio of investments with fixed interest rates. We do not have any foreign denominated investments, and thus, we are not exposed to foreign currency fluctuations. As of September 30, 2024 and December 31, 2023, our portfolio included 144 and 141 variable rate investments, respectively, based on LIBOR and SOFR (or "indexing rates") for various terms. As of June 2023, the Company has fully transitioned all loans formerly on LIBOR indexing rates to SOFR indexing rates. Borrowings under our financing arrangements are based on SOFR. The following table quantifies the potential changes in interest income net of interest expense should interest rates increase by 50 basis points or decrease by 50 or 100 basis points, assuming that our current balance sheet was to remain constant, and no actions were taken to alter our existing interest rate sensitivity. The changes in the portfolio for each basis points increase/decrease is a change from the base scenario.

Table of Contents Estimated Percentage Change in Interest Income Net of Interest Expense Change in Interest Rates September 30, 2024 December 31, 2023 (-) 100 Basis Points (2.44)% (6.15)% (-) 50 Basis Points (1.58)% (3.03)% Base Interest Rate 5.00% (+) 50 Basis Points 1.72% 3.01% Real Estate Risk The market values of commercial mortgage assets are subject to volatility and may be affected adversely by a number of factors, including, but not limited to, national, regional and local economic conditions (which may be adversely affected by industry slowdowns and other factors); local real estate conditions; changes or continued weakness in specific industry segments; and demographic factors. In addition, decreases in property values reduce the value of the collateral and the potential proceeds available to a borrower to repay the underlying loans, which could also cause us to suffer losses.

A to A Item 4. Controls and Procedures. Disclosure Controls and Procedures In accordance with Rules 13a-15(b) and 15d-15(b) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), management with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded, as of the end of such period, that our disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in our reports that we file or submit under the Exchange Act. Changes in Internal Control Over Financial Reporting During the quarter ended September 30, 2024, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents PART III Item 1. Legal Proceedings. Please refer to Litigation and Regulatory Proceedings in "Note 10 - Commitments and Contingencies" to the consolidated financial statements included in this report. The Company believes that those proceedings, individually or in the aggregate, will not have a material impact on the Company's financial condition, operating results or cash flows. Loan Fraud Lawsuit The Company originated a loan in April 2022 secured by a portfolio of 24 properties net leased to Walgreens (the "Collateral Properties"). As described in more detail in Part I, Item 3, "Legal Proceedings" in the Company's Annual Report on Form 10-K for the year ended December 31, 2022, due to the sponsor's fraud and default under the loan the Company foreclosed on all of the Collateral Properties in 2022 and 2023. The Company has sold some of the Collateral Properties, is marketing the others for sale and is actively pursuing its civil remedies. Note that the collectability, if any, of legal judgments we have achieved to date and that we may achieve in the future is not currently determinable.

Item 1A. Risk Factors. Our potential risks and uncertainties are presented in the section entitled "Risk Factors" contained in our Annual Report on Form 10-K for the year ended December 31, 2023. There have been no material changes from these risk factors.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds. Purchases of Equity Securities by the Issuer and Affiliated Purchasers The Company's board of directors has authorized a \$65.4 million share repurchase program that permits share repurchases at prices below the most recently reported book value per share as determined in accordance with GAAP. Purchases made under the Company's program may be made through open market, block, and

Organization and Business Operations	9 Months Ended Sep. 30, 2024	
Organization, Consolidation and Presentation of Financial Statements [Abstract]		
Organization and Business Operations	Note 1 - Organization and Business Operations Franklin BSP Realty Trust, Inc., (the "Company") is a real estate finance company that primarily originates, acquires and manages a diversified portfolio of commercial real estate debt investments secured	

by properties located within and outside the United States. The Company is a Maryland corporation and has made tax elections to be treated as a real estate investment trust (a "REIT") for U.S. federal income tax purposes since 2013.

The Company believes that it has qualified as a REIT and intends to continue to meet the requirements for qualification and taxation as a REIT. Substantially all of the Company's business is conducted through Benefit Street Partners Realty Operating Partnership, L.P. (the "OP"), a Delaware limited partnership. The Company is the sole general partner and directly or indirectly holds all of the units of limited partner interests in the OP. In addition, the Company, through one or more subsidiaries which are treated as a taxable REIT subsidiary (a "TRS"), is indirectly subject to U.S. federal, state and local income taxes.

The Company has no employees. Benefit Street Partners L.L.C. serves as the Company's advisor (the "Advisor") pursuant to an advisory agreement, as amended on August 18, 2021 (the "Advisory Agreement"). The Advisor, an investment adviser registered with the SEC, is a credit-focused alternative asset management firm.

Established in 2008, the Advisor's credit platform manages funds for institutions and high-net-worth investors across various credit funds and complementary strategies including high yield, levered loans, private/opportunistic debt, liquid credit, structured credit and commercial real estate debt. These strategies complement each other as they all leverage the sourcing, analytical, compliance, and operational capabilities that encompass the platform. The Advisor manages the Company's affairs on a day-to-day basis. The Advisor receives compensation fees and reimbursements for services related to the investment and management of the Company's assets and the operations of the Company. The Advisor is a wholly-owned subsidiary of Franklin Resources, Inc., which together with its various subsidiaries operates as "Franklin Templeton".

The Company invests in commercial real estate debt investments, which may include first mortgage loans, subordinated mortgage loans, mezzanine loans and participations in such loans. The Company also originates conduit loans which the Company intends to sell through its TRS into commercial mortgage-backed securities ("CMBS") securitization transactions. Historically this business has focused primarily on CMBS, commercial real estate collateralized loan obligation bonds and single asset single borrower bonds (collectively "CMBS bonds"), collateralized debt obligations ("CDOs") and other securities. The Company also owns real estate that was either acquired by the Company through foreclosure or deed in lieu of foreclosure, or that was purchased for investment, primarily subject to triple net leases.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The Company's unaudited consolidated financial statements and related footnotes have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP") for interim financial statements and pursuant to the requirements for reporting on Form 10-Q and Regulation S-X, as appropriate.

These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto as of, and for the year ended December 31, 2023, which are included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on February 26, 2024, as certain disclosures that would substantially duplicate those contained in the audited consolidated financial statements have not been included in this report.

Reclassifications

Certain prior year balances have been reclassified in order to conform to the current period presentation.

For the nine months ended September 30, 2023, \$2.2 million related to straight lining of rents was reclassified from *Prepaid expenses and other assets* to *Straight line rental income* in the consolidated statement of cash flows.

Use of Estimates

GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as of the date of the financial statements and the reported amounts of income and expenses during the reported periods. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ materially. In the opinion of management, the interim data includes all adjustments, of a normal and recurring nature, necessary for a fair statement of the results for the periods presented. The current period's results of operations will not necessarily be indicative of results that ultimately may be achieved for the entire year or any subsequent interim periods.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company, the OP and its subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. In determining whether the Company has a controlling financial interest in a joint venture and the requirement to consolidate the accounts of that entity, management considers factors such as ownership interest, authority to make decisions and contractual and substantive participating rights of the other partners or members, as well as whether the entity is a variable interest entity ("VIE") for which the Company is the primary beneficiary.

The Company has determined the OP is a VIE of which the Company is the primary beneficiary. Substantially all of the Company's assets and liabilities are held by the OP.

The Company consolidates all entities that it controls through either majority ownership or voting rights. In addition, the Company consolidates all VIEs of which the Company is considered the primary beneficiary. VIEs are entities in which equity investors (i) do not have the characteristics of a controlling financial interest and/or (ii) do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The entity that consolidates a VIE is its primary beneficiary and is generally the entity with (i) the power to direct the activities that most significantly affect the VIE's economic performance and (ii) the right to receive benefits from the VIE or the obligation to absorb losses of the VIE that could be significant to the VIE. Non-controlling interest represents the equity of consolidated joint ventures that are not owned by the Company.

The accompanying consolidated financial statements include the accounts of collateralized loan obligations ("CLOs") issued and securitized by wholly owned subsidiaries of the Company. The Company has determined the CLOs are VIEs of which the Company's subsidiary is the primary beneficiary. The assets and liabilities of the CLOs are consolidated in the accompanying consolidated balance sheets in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 810, *Consolidation*.

Cash and Cash Equivalents

Cash consists of amounts deposited with high quality financial institutions. These deposits are guaranteed by the Federal Deposit Insurance Company up to an insurance limit. Cash and cash equivalent balances may, at a limited number of banks and financial institutions, exceed insurable amounts. The Company believes it mitigates risk by investing in or through major financial institutions and primarily in funds that are currently U.S. federal government insured up to applicable account limits. Recoverability of investments is dependent upon the performance of the issuers. Cash equivalents include short-term, liquid investments in money market funds with original maturities of 90 days or less when purchased.

Recently Issued Accounting Pronouncements

In November 2023, the FASB issued ASU 2023-07 "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," or ASU 2023-07. ASU 2023-07 enhances the disclosures required for reportable segments on an annual and interim basis. ASU 2023-07 is effective on a retrospective basis for annual periods beginning after December 15, 2023 and for interim periods within fiscal years beginning after December 15, 2024. The amendments will require expanded disclosures around significant segment expenses and identification of the Company's chief operating decision maker. The Company will implement the amendments and related disclosure requirements in our consolidated financial statements for the year ended December 31, 2024, and for interim periods thereafter.

In December 2023, the FASB issued Accounting Standards Update, or ASU, 2023-09 "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," or ASU 2023-09. ASU 2023-09 requires additional disaggregated disclosures on the entity's effective tax rate reconciliation and additional details on income taxes paid. ASU 2023-09 is effective on a prospective basis, with the option for retrospective application, for annual periods beginning after December 15, 2024 and early adoption is permitted. We do not expect the adoption of ASU 2023-09 to have a material impact on our consolidated financial statements.

In March 2024, the FASB issued Accounting Standards Update, or ASU, 2024-01 "Compensation — Stock Compensation (Topic 718): Scope Application of Profits Interest and Similar Awards," or ASU 2024-01. ASU 2024-01 improves clarity and operability without changing the guidance. ASU 2024-01 is effective on a prospective basis, with the option for retrospective application, for annual periods beginning after December 15, 2024 and early adoption is permitted. We do not expect the adoption of ASU 2023-09 to have a material impact on our consolidated financial statements.

In March 2024, the FASB issued Accounting Standards Update, or ASU, 2024-02 "Codification Improvements — Amendments to Remove References to the Concepts Statements," or ASU 2024-02. ASU 2024-02 amended certain definitions in the guidance. ASU 2024-02 is effective on a prospective basis, with the option for retrospective application, for annual periods beginning after December 15, 2024 and early adoption is permitted. We do not expect the adoption of ASU 2023-09 to have a material impact on our consolidated financial statements.

⁽¹⁾ In February 2024, the Company, through deed-in-lieu of foreclosure, acquired a multifamily property located in San Antonio, TX, and assumed the senior mortgage note which the Company originated in November 2021. At the time of the deed-in-lieu of foreclosure, the amortized cost of the loan was \$42.2 million and contractual interest was satisfied. Subsequently thereafter, the property was sold to a third party. In connection with the sale, the senior mortgage note was assumed by the buyer and immediately modified, resulting in a \$5.9 million principal payoff. As a result, the modification was accounted for as a new loan for GAAP purposes and the sale of the real estate owned transaction resulted in a net gain of \$6.0 thousand recorded in *Gain/(loss) on other real estate investments* in the consolidated statement of operations.

⁽²⁾ For additional details on properties obtained through foreclosure or deed-in-lieu of foreclosure see Note 5 - Real Estate Owned.

As of September 30, 2024 and December 31, 2023, the Company's total commercial mortgage loan, held for investment portfolio, was comprised of 157 and 144 loans, respectively.

Specific Allowance for Credit Losses

The Company elected to apply a practical expedient for collateral dependent assets in which the allowance for credit losses is calculated as the difference between the estimated fair value of the underlying collateral, less estimated cost to sell, and the amortized cost basis of the loan. As such, these loans receivable are measured at fair value on a nonrecurring basis using significant unobservable inputs and are classified as Level 3 assets in the fair value hierarchy. The fair value of the underlying collateral is determined using the market approach, the income approach, or a combination thereof. The significant unobservable input used for the income approach is the exit capitalization rate assumptions, which ranged from 6.25% to 9.50%. The significant unobservable input used for the market approach is the estimated fair value less cost to sell based on a negotiated price from an anticipated buyer.

In June 2022, the Company originated a first mortgage loan with a commitment of \$60.8 million secured by two multifamily properties in North Carolina. The loan was identified by management as non-performing and placed on non-accrual status, with an amortized cost of \$58.0 million as of March 31, 2024. The Company recorded a specific allowance for credit losses of \$0.7 million on this loan for the quarter ended March 31, 2024. In May 2024, the Company, through deed-in-lieu of foreclosure, acquired the properties which are recorded in *Real estate owned, held for sale* in the consolidated balance sheets. See Note 5 - Real Estate Owned for additional details.

In March 2021, the Company originated a first mortgage loan with a commitment of \$48.5 million secured by an office property in Colorado. The loan was identified by management as non-performing and placed on cost recovery status, with an amortized cost of \$44.1 million as of September 30, 2024. The Company recorded a specific allowance for credit losses of \$27.1 million on this loan for the quarter ended September 30, 2024.

In December 2019, the Company originated a first mortgage loan with a commitment of \$33.0 million secured by an office property in Georgia. The loan was identified by management as non-performing and placed on cost recovery status, with an amortized cost of \$23.1 million as of September 30, 2024. The Company recorded a specific allowance for credit losses of \$1.6 million on this loan for the quarter ended September 30, 2024.

In July 2019, the Company originated a first mortgage loan with a commitment of \$20.9 million secured by a hospitality property in Texas. During the third quarter of 2024, the loan was paid off resulting in a loss of \$0.4 million. The Company recorded a specific allowance for credit losses of \$0.4 million during the third quarter of 2024, and subsequently wrote off this specific allowance for credit losses in the same quarter.

In June 2022, the Company originated a first mortgage loan with a commitment of \$152.8 million secured by a pool of 15 multifamily properties located throughout the United States. The loan was identified by management as non-performing and placed on non-accrual status, with an amortized cost of \$111.3 million as of June 30, 2024. The Company recorded a specific allowance for credit losses of \$0.9 million on this loan for the quarter ended June 30, 2024. During the third quarter of 2024, the Company, either through deed-in-lieu of foreclosure or foreclosure, took possession of five of these properties, which are recorded in *Real estate owned, held for sale* in the consolidated balance sheets, resulting in a loss on foreclosure of \$3.6 million. The Company recorded a specific allowance for credit losses of \$3.6 million during the third quarter of 2024, and subsequently wrote off this specific allowance for credit losses in the same quarter. See Note 5 - Real Estate Owned for additional details.

General Allowance for Credit Losses

The Company recorded a total increase (decrease) in its general allowance for credit losses during the three and nine months ended September 30, 2024 of \$(0.8) million and \$1.3 million, respectively. The primary driver for the lower reserve balance over the three-month period is due to the Company utilizing a lower forward SOFR rate in the CECL scenario model along with a decrease in the size of the overall portfolio of commercial mortgage loans, held for investment for the same period. The primary driver for the higher reserve balance over the nine-month period is due to the Company utilizing a pessimistic macro-economic outlook since the fourth quarter of 2023 along with an increase in size of the overall portfolio of commercial mortgage loans, held for investment for the same period. Changes in the provision for credit losses for the Company's financial instruments are recorded in *(Provision)/benefit for credit losses* in the consolidated statements of operations with a corresponding offset to the financial instrument's amortized cost recorded in the consolidated balance sheet, or as a component of *Accounts payable and accrued expenses* for unfunded loan commitments.

Past Due Status

The following table presents a summary of the loans amortized cost basis as of September 30, 2024 (dollars in thousands):

	Current	Less than 90 days past due	90 or more days past due ⁽¹⁾	Total
As of September 30, 2024	\$ 4,866,383	\$ 76,998	\$ 210,735	\$ 5,154,116

⁽¹⁾ Comprised of five mortgage loans, two of which are collateralized by office properties and the other three of which are collateralized by multifamily properties. Both office properties have been designated as non-performing and placed on cost recovery status, and one multifamily property has been designated as non-performing and placed on non-accrual status.

Non-performing Status

The following table presents the amortized cost basis of our non-performing loans as of September 30, 2024 and December 31, 2023 (dollars in thousands):

	September 30, 2024	December 31, 2023
Non-performing loan amortized cost at beginning of year, January 1	\$ 78,185	\$ 117,379
Addition of non-performing loan amortized cost	494,402	118,647
Less: Removal of non-performing loan amortized cost	504,672	157,841
Non-performing loan amortized cost end of period⁽¹⁾	\$ 67,915	\$ 78,185

⁽¹⁾ As of September 30, 2024, and December 31, 2023, the Company had three and two loans, respectively, designated as non-performing. As of September 30, 2024, one of the three non-performing loans was placed on non-accrual status and two were placed on cost recovery status. For the loan designated as non-performing and placed on non-accrual status, the Company recognized \$0.6 million and \$4.7 million of interest proceeds included in *Interest income* in the consolidated statements of operations for the three and nine months ended September 30, 2024, respectively. As of September 30, 2024, the two loans designated as non-performing and placed on cost recovery were determined to have a specific allowance for credit losses of \$27.1 million and \$1.6 million, respectively. As of September 30, 2024, one of the three designated non-performing loans was collateralized by a multifamily property and two were collateralized by office properties.

Loan Credit Characteristics, Quality and Vintage

As part of the Company's process for monitoring the credit quality of its commercial mortgage loans, excluding those held for sale, measured at fair value, it performs a quarterly loan portfolio assessment and assigns risk ratings to each of its loans. The loans are scored on a scale of 1 to 5 as follows:

Investment Rating	Summary Description
1	<i>Very Low Risk</i> - Investment exceeding fundamental performance expectations and/or capital gain expected. Trends and risk factors since time of investment are favorable.
2	<i>Low Risk</i> - Performing consistent with expectations and a full return of principal and interest expected. Trends and risk factors are neutral to favorable.
3	<i>Average Risk</i> - Performing investments requiring closer monitoring. Trends and risk factors show some deterioration.
4	<i>High Risk/Delinquent/Defaulted/Potential For Loss</i> - Underperforming investment with the potential of some interest loss but still expecting a positive return on investment. Trends and risk factors are negative.
5	<i>Impaired/Defaulted/Loss Likely</i> - Underperforming investment with expected loss of interest and some principal.

All commercial mortgage loans, excluding loans classified as *Commercial mortgage loans, held for sale, measured at fair value* within the consolidated balance sheets, are assigned an initial risk rating of 2. As of September 30, 2024 and December 31, 2023, the weighted average risk rating of loans was 2.2 and 2.3, respectively.

⁽¹⁾ Represents year to date expense and includes amortization of deferred financing costs.

⁽²⁾ The Company may pledge one or more mortgage loans to the financing entity in exchange for funds typically at an advance rate of between 60% to 75% of the principal amount of the mortgage loan being pledged. These loans are all floating rate at the Secured Overnight Financing Rate ("SOFR") plus an applicable spread. Additionally, the Repo and Revolving Credit Facilities generally provide that in the event of a decrease in the value of the Company's collateral, the lenders can demand additional collateral. As of September 30, 2024 and December 31, 2023, the Company is in compliance with all debt covenants.

⁽³⁾ There are two one-year extension options.

⁽⁴⁾ On January 4, 2024, the Company extended the maturity date to January 5, 2026 with a one-year extension option. Additionally, the committed financing was decreased from \$600 million to \$350 million.

⁽⁵⁾ Relates to a mortgage note payable in Jeffersonville JV, a consolidated joint venture. The loan has a principal amount of \$112.7 million of which \$88.7 million of the loan is owned by the Company and was eliminated in our consolidated financial statements (see Note 5 - Real Estate Owned). On October 1, 2024, the Company extended the maturity date to October 25, 2025, with a one-year extension option remaining.

⁽⁶⁾ Comprised of two note-on-note financings via participation agreements. From inception of the loan, the Company's outstanding loans could increase as a result of future fundings, leading to an increase in amount outstanding via the participation agreement. The weighted average contractual maturity date of these loans is July 2028.

⁽⁷⁾ The notes are currently redeemable, in whole or in part, without penalty, at the Company's option. Interest paid on unsecured debt totaled \$1.9 million and \$5.7 million for the three and nine months ended September 30, 2024, respectively.

⁽⁸⁾ On September 19, 2024, the Company extended the maturity date to September 19, 2026 with a one-year extension option. Additionally, the committed financing was decreased from \$250 million to \$100 million.

Repurchase Agreements - Real Estate Securities

The Company has entered into various Master Repurchase Agreements (the "MRAs") that allow the Company to sell real estate securities while providing a fixed repurchase price for the same real estate securities in the future. The repurchase contracts on each security under an MRA generally mature in 30-90 days and terms are adjusted for current market rates as necessary.

Below is a summary of the Company's MRAs which were included in *Repurchase agreements - real estate securities* in the Company's consolidated balance sheets as of September 30, 2024 and December 31, 2023 (dollars in thousands):

⁽³⁾ During the first quarter of 2024, the Company sold the BSPRT FL10 AS retained tranche with a principal balance of \$27.9 million.

On September 26, 2024, BSPRT 2024-FL11 Issuer, LLC, a wholly-owned indirect subsidiary of the Company, entered into an indenture with the OP, as advancing agent, U.S. Bank Trust Company, National Association, as trustee and note administrator, and U.S. Bank National Association, as custodian and in other capacities, which governs the issuance of approximately \$1.0 billion principal balance secured floating rate notes, of which \$886.2 million were purchased by third party investors and \$138.3 million were purchased by a wholly-owned subsidiary of the OP. In addition, concurrently with the issuance of the notes, BSPRT 2024-FL11 Issuer, LLC also issued 72,995 preferred shares, par value of \$0.001 per share and with an aggregate liquidation preference and notional amount equal to \$1,000 per share, which were not offered as part of closing the indenture. For U.S. federal income tax purposes, BSPRT 2024-FL11 Issuer, LLC is a disregarded entity.

The below table reflects the total assets and liabilities of the Company's outstanding CLOs. The CLOs are considered VIEs and are consolidated into the Company's consolidated financial statements as of September 30, 2024 and December 31, 2023 as the Company is the primary beneficiary of the VIE. The Company is the primary beneficiary of the CLOs because (i) the Company has the power to direct the activities that most significantly affect the VIE's economic performance and (ii) the right to receive benefits from the VIEs or the obligation to absorb losses of the VIEs that could be significant to the VIE. The VIE's are non-recourse to the Company.

Note 8 - Earnings Per Share

The Company uses the two-class method in calculating basic and diluted earnings per share. Net income/(loss) is allocated between our common stock and other participating securities based on their participation rights. Diluted net income per share has been computed using the weighted average number of shares of common stock outstanding and other dilutive securities. The following table presents a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations and the calculation of basic and diluted earnings per share for the three and nine months ended September 30, 2024 and 2023 (in thousands, except share and per share data):

⁽²⁾ On January 10, 2024, the Series H Preferred Stock was amended such that the mandatory conversion date was extended by one year, to January 21, 2025. Unless earlier converted, the Series H Preferred Stock will automatically convert into common stock at a rate of 299.2 shares of common stock per share of Series H Preferred Stock (subject to adjustments as described in the Articles Supplementary for the Series H Preferred Stock) on January 21, 2025. The holder of the Series H Preferred Stock has the right to convert up to 4,487 shares of Series H Preferred Stock one time in each calendar month through December 2024, upon 10 business days' advance notice to the Company.

⁽³⁾ Includes shares issued pursuant to the Company's dividend reinvestment plan ("DRIP") and unvested restricted shares.

⁽⁴⁾ During the three and nine months ended September 30, 2024, the Company repurchased zero and 391,863 shares, respectively, of common stock at an average price of \$12.42 per share, for a total of \$4.9 million. All of these shares were retired upon settlement. See discussion in the "Stock Repurchases" section below.

During the nine months ended September 30, 2024 and 2023, the Company paid an aggregate of \$88.4 million and \$87.7 million, respectively, of common stock distributions comprised of quarterly common dividends of \$0.355 per share.

Stock Repurchases

The Company's board of directors has authorized a \$65 million share repurchase program of the Company's common stock. The Company's share repurchase program authorizes share repurchases at prices below the most recently reported book value per share as determined in accordance with GAAP. Repurchases made under the program may be made through open market, block, and privately negotiated transactions, including Rule 10b5-1 plans, as permitted by securities laws and other legal requirements. The timing, manner, price and amount of any purchases by the Company will be determined by the Company in its reasonable business judgment and consistent with the exercise of its legal duties and will be subject to economic and market conditions, stock price, applicable legal requirements and other factors. The share repurchase program does not obligate the Company to acquire any particular amount of common stock. The Company share repurchase program will remain open until it expires or until the capital committed to the applicable repurchase program has been exhausted, whichever is sooner. Repurchases under the Company's share repurchase program may be suspended from time to time at the Company's discretion without prior notice. As of September 30, 2024, the Company had \$31.1 million remaining under the share repurchase program. In October 2024, the Company's board of directors extended the term of the share repurchase program to December 31, 2025.

The following table is a summary of the Company's repurchase activity of its common stock during the nine months ended September 30, 2024 (in thousands, except share amounts):

	For the Nine Months Ended September 30, 2024

⁽¹⁾ For the nine months ended September 30, 2024, the average purchase price was \$12.42 per share.

⁽²⁾Amount includes commissions paid associated with share repurchases.

Dividend Reinvestment and Direct Stock Purchase Plan

The Company has adopted a dividend reinvestment and direct stock purchase plan ("DRIP") under which we registered and reserved for issuance, in the aggregate, up to 63,000,000 shares of common stock. Under the dividend reinvestment component of this plan, the Company's common stockholders can designate all or a portion of their cash dividends to be reinvested in additional shares of common stock (which shares, at the Company's option, are either issued directly from the Company or purchased by the administrator on the open market). The direct stock purchase component allows stockholders, subject to the Company's approval, to purchase shares of common stock directly from us. During the three months ended September 30, 2024 and 2023, no shares were issued, and 40,165 shares and 49,178 shares, respectively, of common stock were purchased by the administrator on the open market under the dividend reinvestment component of the DRIP. During the nine months ended September 30, 2024 and 2023, no shares were issued, and 125,350 shares and 169,354 shares, respectively, of common stock were purchased by the administrator on the open market under the dividend reinvestment component of the DRIP.

Advisory Agreement Fees and Reimbursements

Pursuant to the Advisory Agreement, the Company is required to make the following payments and reimbursements to the Advisor:

- The Company reimburses the Advisor's costs of providing services pursuant to the Advisory Agreement, except the salaries and benefits paid by the Advisor to the Company's executive officers.
- The Company pays the Advisor, or its affiliates, a monthly asset management fee equal to one-twelfth of 1.5% of stockholders' equity as calculated pursuant to the Advisory Agreement.
- The Company will pay the Advisor an annual subordinated performance fee calculated on the basis of total return to stockholders, payable monthly in arrears, such that for any year in which total return on stockholders' capital (as defined in the Advisory Agreement) exceeds 6.0% per annum, our Advisor will be entitled to 15.0% of the excess total return; provided that in no event will the annual subordinated performance fee payable to our Advisor exceed 10.0% of the aggregate total return for such year.
- The Company reimburses the Advisor for insured expenses incurred by the Advisor on the Company's behalf related to selecting, evaluating, originating and acquiring investments in an amount up to 0.5% of the principal amount funded by the Company to originate or acquire commercial mortgage loans and up to 0.5% of the anticipated net equity funded by the Company to acquire real estate securities investments.

The table below shows the costs incurred due to arrangements with our Advisor and its affiliates during the three and nine months ended September 30, 2024 and 2023 and the associated payable as of September 30, 2024 and December 31, 2023 (dollars in thousands):

Other Transactions

In the third quarter of 2021, the Company and an affiliate of the Company entered into the Jeffersonville JV to acquire a \$139.5 million triple net lease property in Jeffersonville, GA. The Company has a 79% interest in the Jeffersonville JV, while the affiliate has a 21% interest. The Company invested a total of \$109.8 million, made up of \$88.7 million in debt and \$21.1 million in equity, representing 79% of the ownership interest in the Jeffersonville JV. The affiliated fund made up the remaining \$29.8 million composed of a \$24.0 million mortgage note payable and \$5.8 million in non-controlling interest. The Company has majority control of Jeffersonville JV and, therefore, consolidates the accounts of Jeffersonville JV into its consolidated financial statements. The Company's \$88.7 million mortgage note payable to Jeffersonville JV is eliminated in consolidation (see Note 7 - Debt).

Pursuant to the Company's 2021 Incentive Plan, in the first quarter of 2024 the Company issued awards of restricted stock units to its officers and certain other personnel of the Advisor who provide services to the Company under the Advisory Agreement.

As of September 30, 2024 and December 31, 2023, our commercial mortgage loans, held for investment, includes an aggregate of \$71.8 million and \$124.1 million, respectively, carrying value of loans to affiliates of our Advisor. For the three and nine months ended September 30, 2024, the Company recognized \$1.6 million and \$6.4 million, respectively, of interest income from these loans in the Company's consolidated statement of operations. For the three and nine months ended September 30, 2023, the Company recognized \$2.8 million and \$7.4 million, respectively, of interest income from these loans in the Company's consolidated statement of operations.

In the second quarter of 2022, the Company fully funded a \$149.7 million first mortgage consisting of the Walgreens Portfolio: 24 retail properties with various locations throughout the United States. The Company entered into a joint venture agreement and formed the Walgreens JV to acquire 75.618% ownership interest in the Walgreens Portfolio, while the affiliated fund has 24.242% interest.

Note 12 - Fair Value of Financial Instruments

GAAP establishes a hierarchy of valuation techniques based on the observability of inputs used in measuring financial instruments at fair values. GAAP establishes market-based or observable inputs as the preferred source of values, followed by valuation models using management assumptions in the absence of market inputs. The three levels of the hierarchy are described below:

- Level I - Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level II - Inputs (other than quoted prices included in Level I) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.
- Level III - Unobservable inputs that reflect the entity's own assumptions about the assumptions that market participants would use in the pricing of the asset or liability and are consequently not based on market activity, but rather through particular valuation techniques.

The determination of where an asset or liability falls in the above hierarchy requires significant judgment and factors specific to the asset or liability. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company evaluates its hierarchy disclosures each quarter and depending on various factors, it is possible that an asset or liability may be classified differently from quarter to quarter.

The Company has implemented valuation control processes to validate the fair value of the Company's financial instruments measured at fair value including those derived from pricing models. These control processes are designed to assure that the values used for financial reporting are based on observable inputs wherever possible. In the event that observable inputs are not available, the control processes are designed to assure that the valuation approach utilized is appropriate and consistently applied and the assumptions are reasonable.

Financial Instruments Measured at Fair Value on a Recurring Basis

CMBS bonds, recorded in *Real estate securities, available for sale, measured at fair value* on the consolidated balance sheets are valued utilizing both observable and unobservable market inputs. These factors include projected future cash flows, ratings, subordination levels, vintage, remaining lives, credit issues, and recent trades of similar real estate securities. Depending upon the significance of the fair value inputs used in determining these fair values, these real estate securities are classified in either Level II or Level III of the fair value hierarchy. The Company obtains third party pricing for determining the fair value of each CMBS investment, resulting in a Level II classification.

Commercial mortgage loans held for sale, measured at fair value in the Company's TRS are initially recorded at transaction price, which are considered to be the best initial estimate of fair value. The Company engaged the services of a third party independent valuation firm to determine fair value of certain investments held by the Company. Fair value is determined using a discounted cash flow model that primarily considers changes in interest rates and credit spreads, weighted average life and current performance of the underlying collateral. Commercial mortgage loans held for sale, measured at fair value that are originated in the last month of the reporting period are held and marked to the transaction price. The Company classified its commercial mortgage loans held for sale, measured at fair value as Level III.

Other real estate investments, measured at fair value on the consolidated balance sheets are valued using unobservable inputs. The Company engaged the services of a third party independent valuation firm to determine fair value of certain investments, including preferred equity investments, held by the Company. Fair value is determined using a discounted cash flow model that primarily considers changes in interest rates and credit spreads, weighted average life and current performance of the underlying collateral. The Company generally classifies its other real estate investments, measured at fair value as Level III.

Derivative instruments, measured at fair value are valued using market prices. Treasury note futures trade on the Chicago Mercantile Exchange ("CME"). The instruments are a variety of recently issued 10-year U.S. Treasury notes. The future contracts are liquid and are centrally cleared through the CME. Treasury note futures are categorized as Level I.

The fair value for credit default swaps and interest rate swaps contracts are derived using pricing models that are widely accepted by marketplace participants. Credit default swaps and some interest rate swaps are traded in the over the counter ("OTC") market. The pricing models take into account multiple inputs including specific contract terms, interest rate yield curves, interest rates, credit curves, recovery rates, and/or current credit spreads obtained from swap counterparties and other market participants. Most inputs into the models are not subjective as they are observable in the marketplace or set per the contract. Valuation is primarily determined by the difference between the contract spread and the current market spread. The contract spread (or rate) is generally fixed and the market spread is determined by the credit risk of the underlying debt or reference entity. If the underlying indices are liquid and the OTC market for the current spread is active, credit default swaps and interest rate swaps are categorized in Level II of the fair value hierarchy. If the underlying indices are illiquid and the OTC market for the current spread is not active, credit default swaps are categorized in Level III of the fair value hierarchy. The Company classified its credit default swaps and interest rate swaps as Level II.

A review of the fair value hierarchy classification is conducted on a quarterly basis. Changes in the type of inputs may result in a reclassification for certain assets or liabilities. The Company's policy with respect to transfers between levels of the fair value hierarchy is to recognize transfers into and out of each level as of the beginning of the reporting period. There were no material transfers between levels within the fair value hierarchy for the period ended September 30, 2024 and December 31, 2023.

The following table presents the Company's financial instruments carried at fair value on a recurring basis in the consolidated balance sheets by its level in the fair value hierarchy as of September 30, 2024 and December 31, 2023 (dollars in thousands). The Company did not have any liabilities carried at fair value as of December 31, 2023.

Both observable and unobservable inputs may be used to determine the fair value of positions that the Company has classified within the Level III category. The Company did not hold any applicable positions as of September 30, 2024 and December 31, 2023.

The following table presents additional information about the Company's financial instruments which are measured at fair value on a recurring basis as of September 30, 2024 and December 31, 2023 for which the Company has used Level III inputs to determine fair value (dollars in thousands):

The fair value of cash and cash equivalents and restricted cash are measured using observable quoted market prices, or Level I inputs and their carrying value approximate their fair value. The fair value of borrowings under repurchase agreements approximate their carrying value on the consolidated balance sheets due to their short-term nature and are measured using Level III inputs.

Financial Instruments Measured at Fair Value on a Nonrecurring Basis

Real Estate Owned, held for sale, on the consolidated balance sheets are valued at fair value on a non-recurring basis in accordance with ASC 820 and are classified as Level III investments. At the time of acquisition, we determined the fair value of the net real estate assets, using either the market approach, the income approach, or a combination thereof.

During the quarters ended June 30, 2024 and September 30, 2024, the Walgreens Portfolio was written down to estimated fair value less cost to sell for impairment purposes based on the market approach and the income approach, respectively. In addition, the Company determined the fair value of its ten multifamily properties, obtained through foreclosure or deed-in-lieu of foreclosure, based on a combination of the market approach and the income approach.

The significant unobservable input used for the income approach is the exit capitalization rate assumptions, which ranged from 5.00% - 7.88%. The significant unobservable input used for the market approach is the estimated fair value less cost to sell based on a negotiated price from an anticipated buyer.

As of September 30, 2024, the Company's *Real estate owned, held for sale* assets and liabilities, had a fair value of \$282.6 million, net, that represented the remaining five retail properties in the Walgreens Portfolio and ten multifamily properties. As of December 31, 2023 the Company's real estate owned, held for sale assets and liabilities, had a fair value of \$91.4 million, net, representing the remaining 23 retail properties in the Walgreens Portfolio and four multifamily properties.

Financial Instruments Not Measured at Fair Value

The fair values of the Company's commercial mortgage loans, held for investment and collateralized loan obligations, which are not reported at fair value on the consolidated balance sheets are reported below as of September 30, 2024 and December 31, 2023 (dollars in thousands):

September 30, 2024						December 31, 2023					
		Level	Carrying Amount		Fair Value			Level	Carrying Amount		Fair Value
Commercial mortgage loans, held for investment ⁽¹⁾	Asset	III	\$	5,154,116	\$	5,111,165	III	\$	5,036,942	\$	5,010,580
Collateralized loan obligations ⁽²⁾	Liability	II		4,097,668		4,104,846	II		3,567,166		3,521,274
Mortgage note payable	Liability	III		23,998		23,998	III		23,998		23,998
Other financings	Liability	III		12,865		12,865	III		36,534		36,534
Unsecured debt	Liability	III		81,370		69,700	III		81,295		64,900

⁽¹⁾ The carrying value is gross of \$76.6 million and \$47.2 million of allowance for credit losses as of September 30, 2024 and December 31, 2023, respectively.

⁽²⁾ Depending upon the significance of the fair value inputs utilized in determining these fair values, our collateralized loan obligations are classified as either Level II or Level III of the fair value hierarchy. Beginning in the third quarter of 2023, the transfers from Level III to Level II were a result of the availability of current and reliable market data provided by third party pricing services or other valuation techniques which utilized observable inputs.

Repurchase agreements - commercial mortgage loans of \$183.8 million and \$299.7 million as of September 30, 2024 and December 31, 2023, respectively, and repurchase agreements - real estate securities of \$241.3 million and \$174.1 million as of September 30, 2024 and December 31, 2023, respectively, are not carried at fair value and do not include accrued interest expense, which are presented in Note 7 - Debt. For these instruments, carrying value generally approximates fair value and are classified as Level III.

The fair value of the commercial mortgage loans, held for investment is estimated using a discounted cash flow analysis, based on the Advisor's experience with similar types of investments. The Company estimates the fair value of the collateralized loan obligations using external broker quotes. The mortgage note payable was recorded at transaction proceeds, which are considered to be the best initial estimate of fair value. The fair value of the other financings is generally estimated using a discounted cash flow analysis. The fair value of the unsecured debt is based on discounted cash flows using Company estimates for market yields on similarly structured debt instruments.

Note 13 - Derivative Instruments

The Company uses derivative instruments primarily to manage the fair value variability of fixed rate assets caused by interest rate fluctuations and overall portfolio market risk.

The Company did not have any derivatives outstanding as of September 30, 2024.

The following tables indicate the net realized and unrealized gains and losses on derivatives, by primary underlying risk exposure, as included in the consolidated statements of operations for the three and nine months ended September 30, 2024 and 2023 (dollars in thousands):

Options		—		(90)		—		—
Total	\$	1	\$	(1,261)	\$	(110)	\$	684

Interest rate swap agreements are measured at fair value on a recurring basis primarily using Level II Inputs in accordance with ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820). In determining fair value estimates for swaps, the Company utilizes the standard methodology of netting the discounted future fixed cash payments and the discounted future variable cash receipts which are based on expected future interest rates derived from observable market interest rate curves. The Company also incorporates both its own nonperformance risk and its counterparties' nonperformance risk in determining fair value. In considering the effect of nonperformance risk, the Company considered the impact of netting and credit enhancements, such as collateral postings and guarantees, and has concluded that counterparty risk is not significant to the overall valuation.

Note 15 - Segment Reporting

The Company conducts its business through the following segments:

- The real estate debt business focuses on originating, acquiring and asset managing commercial real estate debt investments, including first mortgages, subordinate mortgages, mezzanine loans and participations in such loans.
- The real estate securities business focuses on investing in and asset managing real estate securities. Historically this business has focused primarily on CMBS, CMBS bonds, CDO notes, and other securities.
- The commercial real estate conduit business operated through the Company's TRS, which is focused on generating risk-adjusted returns by originating and subsequently selling fixed-rate commercial real estate loans into the CMBS securitization market at a profit. The TRS may also hold certain mezzanine loans that don't qualify as good REIT assets due to any potential loss from foreclosure.
- The real estate owned business represents real estate acquired by the Company through foreclosure, deed in lieu of foreclosure, or purchase.

Profit or loss on segment operations is measured by net income/(loss) included in the consolidated statements of operations. The following table represents the Company's operations by segment for the three and nine months ended September 30, 2024 and 2023 (dollars in thousands):

Accounting Policies
[Abstract]

[Basis of Accounting](#)

Basis of Accounting

The Company's unaudited consolidated financial statements and related footnotes have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP") for interim financial statements and pursuant to the requirements for reporting on Form 10-Q and Regulation S-X, as appropriate.

These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto as of, and for the year ended December 31, 2023, which are included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") on February 26, 2024, as certain disclosures that would substantially duplicate those contained in the audited consolidated financial statements have not been included in this report.

[Reclassifications](#)

Reclassifications

Certain prior year balances have been reclassified in order to conform to the current period presentation.

[Use of Estimates](#)

Use of Estimates

GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as of the date of the financial statements and the reported amounts of income and expenses during the reported periods. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ materially. In the opinion of management, the interim data includes all adjustments, of a normal and recurring nature, necessary for a fair statement of the results for the periods presented. The current period's results of operations will not necessarily be indicative of results that ultimately may be achieved for the entire year or any subsequent interim periods.

[Principles of Consolidation](#)

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company, the OP and its subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. In determining whether the Company has a controlling financial interest in a joint venture and the requirement to consolidate the accounts of that entity, management considers factors such as ownership interest, authority to make decisions and contractual and substantive participating rights of the other partners or members, as well as whether the entity is a variable interest entity ("VIE") for which the Company is the primary beneficiary.

The Company has determined the OP is a VIE of which the Company is the primary beneficiary. Substantially all of the Company's assets and liabilities are held by the OP.

The Company consolidates all entities that it controls through either majority ownership or voting rights. In addition, the Company consolidates all VIEs of which the Company is considered the primary beneficiary. VIEs are entities in which equity investors (i) do not have the characteristics of a controlling financial interest and/or (ii) do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The entity that consolidates a VIE is its primary beneficiary and is generally the entity with (i) the power to direct the activities that most significantly affect the VIE's economic performance and (ii) the right to receive benefits from the VIE or the obligation to absorb losses of the VIE that could be significant to the VIE. Non-controlling interest represents the equity of consolidated joint ventures that are not owned by the Company.

The accompanying consolidated financial statements include the accounts of collateralized loan obligations ("CLOs") issued and securitized by wholly owned subsidiaries of the Company. The Company has determined the CLOs are VIEs of which the Company's subsidiary is the primary beneficiary. The assets and liabilities of the CLOs are consolidated in the accompanying consolidated balance sheets in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 810, *Consolidation*.

[Cash and Cash Equivalents](#)

Cash and Cash Equivalents

Cash consists of amounts deposited with high quality financial institutions. These deposits are guaranteed by the Federal Deposit Insurance Company up to an insurance limit. Cash and cash equivalent balances may, at a limited number of banks and financial institutions, exceed insurable amounts. The Company believes it mitigates risk by investing in or through major financial institutions and primarily in funds that are currently U.S. federal government insured up to applicable account limits. Recoverability of investments is dependent upon the performance of the issuers. Cash equivalents include short-term, liquid investments in money market funds with original maturities of 90 days or less when purchased.

[Recently Issued Accounting Pronouncements](#)

Recently Issued Accounting Pronouncements

In November 2023, the FASB issued ASU 2023-07 "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures," or ASU 2023-07. ASU 2023-07 enhances the disclosures required for reportable segments on an annual and interim basis. ASU 2023-07 is effective on a retrospective basis for annual periods beginning after December 15, 2023 and for interim periods within fiscal years beginning after December 15, 2024. The amendments will require expanded disclosures around significant segment expenses and identification of the Company's chief operating decision maker. The Company will implement the amendments and related disclosure requirements in our consolidated financial statements for the year ended December 31, 2024, and for interim periods thereafter.

In December 2023, the FASB issued Accounting Standards Update, or ASU, 2023-09 "Income Taxes (Topic 740): Improvements to Income Tax Disclosures," or ASU 2023-09. ASU 2023-09 requires additional disaggregated disclosures on the entity's effective tax rate reconciliation and additional details on income taxes paid. ASU 2023-09 is effective on a prospective basis, with the option for retrospective application, for annual periods beginning after December 15, 2024 and early adoption is permitted. We do not expect the adoption of ASU 2023-09 to have a material impact on our consolidated financial statements.

In March 2024, the FASB issued Accounting Standards Update, or ASU, 2024-01 "Compensation — Stock Compensation (Topic 718): Scope Application of Profits Interest and Similar Awards," or ASU 2024-01. ASU 2024-01 improves clarity and operability without changing the guidance. ASU 2024-01 is effective on a prospective basis, with the option for retrospective application, for annual periods beginning after December 15, 2024 and early adoption is permitted. We do not expect the adoption of ASU 2023-09 to have a material impact on our consolidated financial statements.

In March 2024, the FASB issued Accounting Standards Update, or ASU, 2024-02 "Codification Improvements — Amendments to Remove References to the Concepts Statements," or ASU 2024-02. ASU 2024-02 amended certain definitions in the guidance. ASU 2024-02 is effective on a prospective basis, with the option for retrospective application, for annual periods beginning after December 15, 2024 and early adoption is permitted. We do not expect the adoption of ASU 2023-09 to have a material impact on our consolidated financial statements.

GAAP establishes a hierarchy of valuation techniques based on the observability of inputs used in measuring financial instruments at fair values. GAAP establishes market-based or observable inputs as the preferred source of values, followed by valuation models using management assumptions in the absence of market inputs. The three levels of the hierarchy are described below:

- Level I - Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level II - Inputs (other than quoted prices included in Level I) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.
- Level III - Unobservable inputs that reflect the entity's own assumptions about the assumptions that market participants would use in the pricing of the asset or liability and are consequently not based on market activity, but rather through particular valuation techniques.

The determination of where an asset or liability falls in the above hierarchy requires significant judgment and factors specific to the asset or liability. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company evaluates its hierarchy disclosures each quarter and depending on various factors, it is possible that an asset or liability may be classified differently from quarter to quarter.

The Company has implemented valuation control processes to validate the fair value of the Company's financial instruments measured at fair value including those derived from pricing models. These control processes are designed to assure that the values used for financial reporting are based on observable inputs wherever possible. In the event that observable inputs are not available, the control processes are designed to assure that the valuation approach utilized is appropriate and consistently applied and the assumptions are reasonable.

Financial Instruments Measured at Fair Value on a Recurring Basis

CMBS bonds, recorded in *Real estate securities, available for sale, measured at fair value* on the consolidated balance sheets are valued utilizing both observable and unobservable market inputs. These factors include projected future cash flows, ratings, subordination levels, vintage, remaining lives, credit issues, and recent trades of similar real estate securities. Depending upon the significance of the fair value inputs used in determining these fair values, these real estate securities are classified in either Level II or Level III of the fair value hierarchy. The Company obtains third party pricing for determining the fair value of each CMBS investment, resulting in a Level II classification.

Commercial mortgage loans held for sale, measured at fair value in the Company's TRS are initially recorded at transaction price, which are considered to be the best initial estimate of fair value. The Company engaged the services of a third party independent valuation firm to determine fair value of certain investments held by the Company. Fair value is determined using a discounted cash flow model that primarily considers changes in interest rates and credit spreads, weighted average life and current performance of the underlying collateral. Commercial mortgage loans held for sale, measured at fair value that are originated in the last month of the reporting period are held and marked to the transaction price. The Company classified its commercial mortgage loans held for sale, measured at fair value as Level III.

Other real estate investments, measured at fair value on the consolidated balance sheets are valued using unobservable inputs. The Company engaged the services of a third party independent valuation firm to determine fair value of certain investments, including preferred equity investments, held by the Company. Fair value is determined using a discounted cash flow model that primarily considers changes in interest rates and credit spreads, weighted average life and current performance of the underlying collateral. The Company generally classifies its other real estate investments, measured at fair value as Level III.

Derivative instruments, measured at fair value are valued using market prices. Treasury note futures trade on the Chicago Mercantile Exchange ("CME"). The instruments are a variety of recently issued 10-year U.S. Treasury notes. The future contracts are liquid and are centrally cleared through the CME. Treasury note futures are categorized as Level I.

The fair value for credit default swaps and interest rate swaps contracts are derived using pricing models that are widely accepted by marketplace participants. Credit default swaps and some interest rate swaps are traded in the over the counter ("OTC") market. The pricing models take into account multiple inputs including specific contract terms, interest rate yield curves, interest rates, credit curves, recovery rates, and/or current credit spreads obtained from swap counterparties and other market participants. Most inputs into the models are not subjective as they are observable in the marketplace or set per the contract. Valuation is primarily determined by the difference between the contract spread and the current market spread. The contract spread (or rate) is generally fixed and the market spread is determined by the credit risk of the underlying debt or reference entity. If the underlying indices are liquid and the OTC market for the current spread is active, credit default swaps and interest rate swaps are categorized in Level II of the fair value hierarchy. If the underlying indices are illiquid and the OTC market for the current spread is not active, credit default swaps are categorized in Level III of the fair value hierarchy. The Company classified its credit default swaps and interest rate swaps as Level II.

A review of the fair value hierarchy classification is conducted on a quarterly basis. Changes in the type of inputs may result in a reclassification for certain assets or liabilities. The Company's policy with respect to transfers between levels of the fair value hierarchy is to recognize transfers into and out of each level as of the beginning of the reporting period. There were no material transfers between levels within the fair value hierarchy for the period ended September 30, 2024 and December 31, 2023.

⁽¹⁾ In February 2024, the Company, through deed-in-lieu of foreclosure, acquired a multifamily property located in San Antonio, TX, and assumed the senior mortgage note which the Company originated in November 2021. At the time of the deed-in-lieu of foreclosure, the amortized cost of the loan was \$42.2 million and contractual interest was satisfied. Subsequently thereafter, the property was sold to a third party. In connection with the sale, the senior mortgage note was assumed by the buyer and immediately modified, resulting in a \$5.9 million principal payoff. As a result, the modification was accounted for as a new loan for GAAP purposes and the sale of the real estate owned transaction resulted in a net gain of \$6.0 thousand recorded in *Gain(loss) on other real estate investments* in the consolidated statement of operations.

⁽²⁾ For additional details on properties obtained through foreclosure or deed-in-lieu of foreclosure see Note 5 - Real Estate Owned.

⁽¹⁾ Represents year to date expense and includes amortization of deferred financing costs.

⁽²⁾ The Company may pledge one or more mortgage loans to the financing entity in exchange for funds typically at an advance rate of between 60% to 75% of the principal amount of the mortgage loan being pledged. These loans are all floating rate at the Secured Overnight Financing Rate ("SOFR") plus an applicable spread. Additionally, the Repo and Revolving Credit Facilities generally provide that in the event of a decrease in the value of the Company's collateral, the lenders can demand additional collateral. As of September 30, 2024 and December 31, 2023, the Company is in compliance with all debt covenants.

⁽³⁾ There are two one-year extension options.

⁽⁴⁾ On January 4, 2024, the Company extended the maturity date to January 5, 2026 with a one-year extension option. Additionally, the committed financing was decreased from \$600 million to \$350 million.

⁽⁵⁾ Relates to a mortgage note payable in Jeffersonville JV, a consolidated joint venture. The loan has a principal amount of \$112.7 million of which \$88.7 million of the loan is owned by the Company and was eliminated in our consolidated financial statements (see Note 5 - Real Estate Owned). On October 1, 2024, the Company extended the maturity date to October 25, 2025, with a one-year extension option remaining.

⁽⁶⁾ Comprised of two note-on-note financings via participation agreements. From inception of the loan, the Company's outstanding loans could increase as a result of future fundings, leading to an increase in amount outstanding via the participation agreement. The weighted average contractual maturity date of these loans is July 2028.

⁽⁷⁾ The notes are currently redeemable, in whole or in part, without penalty, at the Company's option. Interest paid on unsecured debt totaled \$1.9 million and \$5.7 million for the three and nine months ended September 30, 2024, respectively.

⁽⁸⁾ On September 19, 2024, the Company extended the maturity date to September 19, 2026 with a one-year extension option. Additionally, the committed financing was decreased from \$250 million to \$100 million.

[Schedule of Financial Instruments Not Carried at Fair Value](#)

The fair values of the Company's commercial mortgage loans, held for investment and collateralized loan obligations, which are not reported at fair value on the consolidated balance sheets are reported below as of September 30, 2024 and December 31, 2023 (dollars in thousands):

		September 30, 2024				December 31, 2023		
		Level	Carrying Amount	Fair Value		Level	Carrying Amount	Fair Value
Commercial mortgage loans, held for investment ⁽¹⁾	Asset	III	\$ 5,154,116	\$ 5,111,165	III	\$ 5,036,942	\$ 5,010,580	
Collateralized loan obligations ⁽²⁾	Liability	II	4,097,668	4,104,846	II	3,567,166	3,521,274	
Mortgage note payable	Liability	III	23,998	23,998	III	23,998	23,998	
Other financings	Liability	III	12,865	12,865	III	36,534	36,534	
Unsecured debt	Liability	III	81,370	69,700	III	81,295	64,900	

⁽¹⁾ The carrying value is gross of \$76.6 million and \$47.2 million of allowance for credit losses as of September 30, 2024 and December 31, 2023, respectively.

⁽²⁾ Depending upon the significance of the fair value inputs utilized in determining these fair values, our collateralized loan obligations are classified as either Level II or Level III of the fair value hierarchy. Beginning in the third quarter of 2023, the transfers from Level III to Level II were a result of the availability of current and reliable market data provided by third party pricing services or other valuation techniques which utilized observable inputs.
