In the absence of an active market, fair values are determined based on prevailing market rates such as bid and ask prices, as appropriate, for instruments with similar characteristics and risk profiles or internal or external valuation models, such as option pricing models and discounted cash flow analysis, using observable marketÂ inputs when available.Fair values determined using valuation models require the use of assumptions concerning the amount and timing of estimated future cash flows and discount rates. In determining those assumptions, the partnership looks primarily to external readily observable market inputs such as interest rate yield curves, currency rates and price and rate volatility, as applicable.The following table provides the details of financial instruments and their associated financial instrument classifications as at JuneÂ 30, 2024:(US$ MILLIONS)MEASUREMENT BASISFVTPLFVOCIAmortized costTotalFinancial assetsÂ Â Â Â Cash and cash equivalents$â€”Â $â€”Â $2,959Â $2,959Â Accounts and other receivable, net (current and non-current)â€”Â â€”Â 6,607Â 6,607Â Financial assets (current and non-current) (1)924Â 4,937Â 7,961Â 13,822Â Total$924Â $4,937Â $17,527Â $23,388Â Financial liabilitiesÂ Â Â Â Accounts payable and other (current and non-current) (1) (2)$243Â $196Â $10,623Â $11,062Â Borrowings (current and non-current)â€”Â â€”Â 42,122Â 42,122Â Total$243Â $196Â $52,745Â $53,184Â _____(1)FVOCI and FVTPL include derivative assets and liabilities designated in hedge accounting relationships. BORROWINGS(a)Corporate borrowingsThe partnership has bilateral credit facilities backed by large global banks. The credit facilities are available in Euros, British pounds, Australian dollars, U.S. dollars and Canadian dollars. Advances under the credit facilities bear interest at the specified SOFR, SONIA, EURIBOR, CORRA (which replaced CDOR on July 1, 2024), BBSY or bankersâ€™ acceptance rate plus 2.50%, or the specified base rate or prime rate plus 1.50%. The credit facilities require the partnership to maintain a minimum tangible net worth and deconsolidated debt to capitalization ratio at the corporate level. The total capacity on the bilateral credit facilities is $2,350Â million with a maturity date of June 29, 2029. The balance drawn on the bilateral credit facility, net of deferred financing costs, was $1,882Â million as at JuneÂ 30, 2024 (DecemberÂ 31, 2023: $1,440Â million).The partnership had $1Â billion available on its revolving credit facility with Brookfield (the â€œBrookfield Credit Agreementâ€) as at JuneÂ 30, 2024. The credit facility is guaranteed by the partnership, the Holding LP and certain of the partnershipâ€™s subsidiaries. The credit facility is available in U.S. dollars or Canadian dollars and advances are made by way of SOFR, base rate, bankersâ€™ acceptance rate or prime rate loans. The credit facility bears interest at the specified SOFR or bankersâ€™ acceptance rate plus 3.45%, or the specified base rate or prime rate plus 2.45%. The credit facility requires the partnership to maintain a minimum deconsolidated net worth and contains restrictions on the ability of the borrowers and the guarantors to, among other things, incur certain liens or enter into speculative hedging arrangements. Net proceeds above a specified threshold that are received by the borrowers from asset dispositions, debt incurrences or equity issuances by the borrowers or their subsidiaries must be used to pay down the credit facility (which can then be redrawn to fund future investments). The maturity date of the credit facility is April 27, 2028, which date will automatically extend for a one-year period on April 27 of each year unless Brookfield provides written notice of its intention not to further extend the then prevailing maturity date. The total available amount on the credit facility will decrease to $500Â million on April 27, 2025. As at JuneÂ 30, 2024, the credit facility remained undrawn.The partnership is currently in compliance with covenant requirements of its corporate borrowings and continues to monitor performance against such covenant requirements.As at JuneÂ 30, 2024, there were no funds on deposit from Brookfield (DecemberÂ 31, 2023: $nil). Refer to Note 17 for further details on the Deposit Agreements (defined herein) with Brookfield.(b)Non-recourse subsidiary borrowings of the partnershipCurrent and non-current non-recourse subsidiary borrowings in subsidiaries of the partnership as at JuneÂ 30, 2024, net of deferred financing costs, premiums and discounts, were $2,965Â million and $37,275Â million, respectively (DecemberÂ 31, 2023: $2,757Â million and $38,052Â million, respectively). Non-recourse borrowings in subsidiaries of the partnership include borrowings made under subscription facilities of Brookfield-sponsored private equity funds.Some of the partnershipâ€™s operations have credit facilities in which they borrow and repay on a short-term basis. This movement has been shown on a net basis in the partnershipâ€™s unaudited interim condensed consolidated statements of cash flow.The partnership has financing arrangements within its operating businesses that trade in public markets or are held at major financial institutions. The financing arrangements are primarily composed of term loans, securitization programs, credit facilities and notes and debentures which are subject to fixed or floating interest rates. The majority of borrowings drawn are not subject to financial maintenance covenants, however, some are subject to fixed charge coverage, leverage ratios and minimum equity or liquidity covenants.The partnership principally finances assets at the subsidiary level with debt that is non-recourse to both the partnership and to its other subsidiaries and is generally secured against assets within the respective subsidiaries. Moreover, debt instruments at the partnershipâ€™s subsidiaries do not cross-accelerate or cross-default to debt at other subsidiaries. The partnershipâ€™s subsidiaries are currently in compliance with all material covenant requirements and the partnership continues to work with its businesses to monitor performance against such covenant requirements.19NOTES TO UNAUDITED INTERIM CONDENSEDCONSOLIDATED FINANCIAL STATEMENTSÂ As at JuneÂ 30, 2024 and DecemberÂ 31, 2023 and for the three and six months ended JuneÂ 30, 2024 and 2023NOTE 17. For purposes of calculating the base management fee, the total capitalization of the partnership is equal to the quarterly volume-weighted average trading price of an LP Unit on the principal stock exchange for the LP Units (based on trading volumes) multiplied by the number of LP Units outstanding at the end of the quarter (assuming full conversion of the Redemption-Exchange Units into LP Units of Brookfield Business Partners L.P.), plus the value of securities of the other Service Recipients (including the BBUC

In the normal course of business, the partnership and institutional investors have made commitments to Brookfield-sponsored private equity funds, and in connection therewith, the partnership, together with institutional investors, has access to short-term financing using the private equity fundsâ€™ credit facilities to facilitate investments that Brookfield has determined to be in the partnershipâ€™s best interests.In addition, at the time of spin-off of the partnership from Brookfield in 2016, the partnership entered into indemnity agreements with Brookfield that relate to certain contracts that were in place prior to the spin-off. Under these indemnity agreements, Brookfield has agreed to indemnify the partnership for payments relating to such contracts.(b)OtherInclusive of those described above, the following table summarizes the transactions the partnership has entered into with related parties for the three and six month periods ended JuneÂ 30, 2024 and 2023:Three Months EndedJune 30,Six Months EndedJune 30,(US$ MILLIONS)20242023202420023Transactions during the periodBusiness services revenues (1)$74Â $15Â $110Â $73Â _____(1) Within the business services segment, the partnership provides construction services and fuel products to affiliates of Brookfield.20NOTES TO UNAUDITED INTERIM CONDENSEDCONSOLIDATED FINANCIAL STATEMENTSÂ As at JuneÂ 30, 2024 and DecemberÂ 31, 2023 and for the three and six months ended JuneÂ 30, 2024 and 2023Inclusive of those described above, the following table summarizes balances with related parties as at JuneÂ 30, 2024 and DecemberÂ 31, 2023:(US$ MILLIONS)June 30, 2024December 31, 2023Balances at end of periodAccounts and other receivable, net$447Â $182Â Accounts payable and other (1)341Â 346Â Non-recourse borrowings in subsidiaries of the partnership150Â 146Â Interest of others in operating subsidiaries4Â 4Â _____(1)Includes $258Â million related to a tax receivable agreement payable to related parties by the partnershipâ€™s advanced energy storage operation (DecemberÂ 31, 2023: $245Â million).NOTE 18. SEGMENT INFORMATIONThe partnershipâ€™s operations are organized into four operating segments which are regularly reviewed by the Chief Operating Decision Maker (â€œCODMâ€) for the purpose of allocating resources to the segment and to assess its performance. The CODM uses adjusted earnings from operations (â€œAdjusted EFOâ€) to assess performance and make resource allocation decisions. Adjusted EFO allows the CODM to evaluate the partnershipâ€™s segments on the basis of return on invested capital generated by its operations and to evaluate the performance of its segments on a levered basis. Adjusted EFO is calculated as net income and equity accounted income at the partnershipâ€™s economic ownership interest in consolidated subsidiaries and equity accounted investments, respectively, excluding the impact of depreciation and amortization expense, deferred income taxes, transaction costs, restructuring charges, unrealized revaluation gains or losses, impairment expenses or reversals and other income or expense items that are not directly related to revenue generating activities. The partnershipâ€™s economic ownership interest in consolidated subsidiaries excludes amounts attributable to non-controlling interests consistent with how the partnership determines net income attributable to non-controlling interests in its unaudited interim condensed consolidated statements of operating results. In order to provide additional insight regarding the partnershipâ€™s operating performance over the lifecycle of an investment, Adjusted EFO includes the impact of preferred equity distributions and realized disposition gains or losses recorded in net income, other comprehensive income, or directly in equity, such as ownership changes. Adjusted EFO does not include legal and other provisions that may occur from time to time in the partnershipâ€™s operations and that are one-time or non-recurring and not directly tied to the partnershipâ€™s operations, such as those for litigation or contingencies. Adjusted EFO includes expected credit losses and bad debt allowances recorded in the normal course of the partnershipâ€™s operations.Other income (expense), net in the partnershipâ€™s unaudited interim condensed consolidated statements of operating results includes amounts that are not related to revenue generating activities, and are not normal, recurring operating income and expenses necessary for business operations. These include revaluation gains and losses, transaction costs, restructuring charges, stand-up costs and business separation expenses, gains or losses on debt extinguishments or modifications, gains or losses on dispositions of property, plant and equipment, non-recurring and one-time provisions that may occur from time to time at one of the partnershipâ€™s operations that are not reflective of normal operations, and other items. Other income (expense), net included within Adjusted EFO in the tables below corresponds to items of other income (expense), net at the partnershipâ€™s economic ownership interest that are considered by the partnership when evaluating operating performance and returns on invested capital generated by its businesses and may include realized revaluation gains and losses, realized gains or losses on the disposition of property, plant and equipment, and other items. Refer to the footnotes to the tables below for additional details on items included therein.Gain (loss) on acquisitions/dispositions, net in Adjusted EFO reflects the partnershipâ€™s economic ownership interest in the gains or losses on acquisitions/dispositions recognized during the period in unaudited interim condensed consolidated statements of operating results that are considered by the partnership when evaluating the performance and returns on invested capital generated by its businesses.Gain (loss) on acquisitions/dispositions, net recorded in equity in Adjusted EFO corresponds to the partnershipâ€™s economic ownership interest in gains and losses recorded in the unaudited interim condensed consolidated statements of changes in equity that have been realized through a completed disposition, including material realized disposition gains or losses that may be recorded in equity on the partial disposition of a subsidiary where the partnership retains control and through the sale of an investment in securities accounted for as financial assets measured at fair value with changes in fair value recorded in other comprehensive income.The following tables provide each segmentâ€™s results at the partnershipâ€™s economic ownership interest, in the format that the CODM organizes reporting segments to make resource allocation decisions and assess performance. Amounts attributable to non-controlling interests are calculated based on the economic ownership interests held by non-controlling interests in consolidated subsidiaries. The tables below reconcile the partnershipâ€™s economic ownership interest in its consolidated results to the partnershipâ€™s unaudited interim condensed consolidated statements of operating results.29NOTES TO UNAUDITED INTERIM CONDENSEDCONSOLIDATED FINANCIAL STATEMENTSÂ As at JuneÂ 30, 2024 and DecemberÂ 31, 2023 and for the three and six months ended JuneÂ 30, 2024 and 2023Â Three Months Ended June 30, 2024Â Total attributable to UnitholdersAttributable to non-controlling interestsAs per IFRS Financials(US$ MILLIONS)BusinessservicesInfrastructure servicesIndustrialsCorporateand otherTotal (1)Revenues$2,353Â $322Â $964Â $â€”Â $3,639Â $8,307Â $11,946Â Direct operating costs (2)(2,154)(189)(739)(3)(3,085)(7,034)(10,119)General and administrative expenses(35)(20)(27)(25)(107)(200)(307)Gain (loss) on acquisitions / dispositions, net (3)â€”Â â€”Â 81Â â€”Â 81Â 3Â 84Â Gain (loss) on acquisitions / dispositions, net recorded in equity (4)â€”Â â€”Â 22Â â€”Â 22Â â€”Â 22Â Other income (expense), net (5)2Â â€”Â 3Â â€”Â 5Â 8Â 13Â Interest income (expense), net(72)(60)(86)(38)(256)(522)(778)Current income tax (expense) recovery (17)(3)(22)â€”Â (42)(80)(122)Preferred equity distributionsâ€”Â â€”Â â€”Â (13)(13)13Â â€”Â Equity accounted Adjusted EFO (6)9Â 26Â 10Â â€”Â 45Â 36Â 81Â Adjusted EFO86Â 76Â 206Â (79)289Â Depreciation and amortization expense (2)(7)Â Â Â Â Â (251)(558)(809)Gain (loss) on acquisitions / dispositions, net recorded in equity (4)(22)â€”Â (22)Other income (expense), net (5)Â Â Â Â Â (89)(24)(113)Deferred income tax (expense) recoveryÂ Â Â Â 88Â 151Â 239Â Non-cash items attributable to equity accounted investments(6)Â Â Â Â Â (35)(15)(50)Net income (loss)Â Â Â Â Â (20)85Â $65Â (1)Adjusted EFO and net income (loss) attributable to Unitholders include Adjusted EFO and net income (loss) attributable to limited partnership unitholders, general partnership unitholders, redemption-exchange unitholders, special limited partnership unitholders and BBUC exchangeable shareholders.(2)The sum of these amounts equates to direct operating costs of $10,928Â million as per the unaudited interim condensed consolidated statements of operating results.(3)Gain (loss) on acquisitions/dispositions, net recorded in Adjusted EFO of $81Â million represents the partnershipâ€™s economic ownership interest in gains from the disposition of the partnershipâ€™s Canadian aggregates production operation.(4)Gain (loss) on acquisitions/dispositions, net recorded in equity in Adjusted EFO of $22Â million represents the partnership's economic ownership interest in gains related to the disposition of public securities.(5)The sum of these amounts equates to other income (expense), net of $(100)Â million as per the unaudited interim condensed consolidated statements of operating results. We have joint control over the business and have accounted for our investment as an equity accounted investment.IndustrialsOur industrials segment includes our (i) advanced energy storage operation, (ii) engineered components manufacturing operation, (iii) water and wastewater operation and (iv) other industrials operations.Advanced energy storage operationOur advanced energy storage operation is a global market leader in manufacturing automotive batteries that has over 17,000 employees around the world with a footprint that consists of over 50 manufacturing, recycling and distribution centers servicing a global customer base in over 100 countries. We manufacture and distribute over 150Â million batteries per year, which power one in three cars in the world.8The batteries manufactured by our advanced energy storage operation power both internal combustion engines and electric vehicles. We sell starting, lighting and ignition batteries which are used primarily for initial engine ignition of traditional vehicles. The business has made significant investments to develop higher margin advanced battery technologies, including enhanced flooded batteries and absorbent glass mat batteries, which provide the energy density necessary for next-generation vehicles to comply with increased regulatory requirements and support increased electrical loads such as start-stop functionality and autonomous features.The evolution towards battery electric vehicles is driving demand for more advanced batteries and opportunities for our advanced energy storage operation. We are working hand-in-hand with most global OEMs to design and integrate our advanced battery technologies into their platforms, including electric vehicle platforms. We are also working with several manufacturers on their next generation electric vehicle platforms and have been sourced for close to 200 electric vehicle platforms.Our advanced energy storage operation distributes products primarily to aftermarket retailers and to OEMs. Approximately 80% of the sales volume is generated through the aftermarket channel, which services the existing car parc and represents a stable and recurring revenue base as end users replace car batteries on average two to four times over the life of each vehicle. Approximately 20% of our sales volume is generated through the OEM channel, which comprises sales to major car manufacturers globally and is driven by global demand for new vehicles. We have also developed longstanding relationships with large aftermarket customers.Engineered components manufacturing operationOur engineered components manufacturing operation is a leading global manufacturer of highly engineered components primarily for industrial trailers and other towable-equipment providers. We operate in a growing segment of the packaging space that has favorable long-term trends driven by an increased focus on sustainability and logistics.Our Canadian natural gas production operation produces approximately 40,000 barrels of oil equivalent per day, or BOE/d. Our properties are characterized by long-life, low-decline reserves located at shallow depths and are low-risk with low-cost capital projects. Operational results and financial condition are dependent principally upon the prices received for gas production which have fluctuated widely in recent years. Any upward or downward movement in natural gas prices could have an impact on the natural gas operationsâ€™ financial condition.Our roofing products manufacturer is the worldâ€™s largest provider of slate roofing tiles. With its 27 quarries, the company produces and supplies premium slate roofing tiles globally to support the non-discretionary renovation of residential and heritage buildings in markets with strict local regulations that mandate the use of slate for roofing. We have joint control over the business and have accounted for our investment as an equity accounted investment.As described below under â€œRecent Developments in Our Businessâ€, we completed the sale of our Canadian aggregates production operation on JuneÂ 11, 2024.Corporate and otherCorporate and other includes corporate cash and liquidity management, as well as activities related to the management of the partnershipâ€™s relationship with Brookfield.9Recent Developments in Our BusinessBelow are key developments in our business since March 31, 2024:On JuneÂ 11, 2024, we completed the sale of our Canadian aggregates production operation for total consideration of $140Â million, resulting in a pre-tax net gain of $84Â million recorded in the unaudited interim condensed consolidated statements of operating results, included in gain (loss) on acquisitions/dispositions, net.On JulyÂ 31, 2024, the partnership completed the sale of its road fuels operation following the receipt of outstanding regulatory approvals.OutlookWe seek to increase the cash flows from our operations through acquisitions and organic growth opportunities as described below. We believe our global scale and leading operations allow us to efficiently allocate capital around the world toward those sectors and geographies where we see the greatest opportunities to realize our targeted returns. This year, we have continued to take advantage of strong debt markets and liquidity remains robust for high-quality businesses such as the ones we own. Our business fundamentals remain sound and we continue to build value within our operations. Business servicesIn June 2024, our dealer software and technology services operation detected and promptly responded to unauthorized cyber activity on its network. Upon discovery, our dealer software and technology services operation shut down its systems to address and investigate the issue while notifying law enforcement. This cybersecurity incident, and the subsequent system shut down, caused disruption to the business. In addition, the business incurred certain expenses to respond to, investigate and remediate the matter, including one-time billing credits that were provided to customers. Our dealer software and technology services operation has successfully brought all active customers back onto its dealer management system and other applications. We do not expect that this cybersecurity incident will have a material impact on the results of operations or financial condition of the partnership. For further information, refer to pages 21 and 22 of the â€œRisk Factorsâ€ section in our 2023 Annual Report.Our residential mortgage insurer continues to perform well. The Canadian housing market has remained resilient supported by increasing activity levels and stable overall home prices. Losses on claims remain low and the business continues to generate strong levels of cash flows. Low levels of unemployment and borrowersâ€™ ability to self-cure delinquencies following multiple years of significant home price appreciation and work out arrangements with lenders are supporting low levels of mortgage delinquencies and claims on loss ratios. We expect that the Bank of Canadaâ€™s decision in June to begin lowering its benchmark interest rate will contribute to improved affordability and support higher levels of housing activity. Performance at our construction operation was impacted by additional costs primarily on one project nearing completion in Australia. The business is focused on completing the project later this year and mitigating the impacts of additional cost escalation. The majority of other projects underway are performing well and the bidding environment for social infrastructure

projects is improving, which could support increased backlog visibility and profitability in the business. Infrastructure servicesOur lottery services operation is performing in line with our expectations. Performance during the quarter benefited from hardware deliveries, higher margin instant game sales and ongoing operational improvement initiatives. The business is accelerating optimization initiatives focused on cost reduction and manufacturing rationalization which are supporting resilient margin performance. We are continuing to help scale the businessâ€™ digital capabilities and the ramp-up of several recent commercial wins including the new digital lottery services offering in the United Kingdom, which should contribute to higher run-rate level of earnings.Performance in our modular building leasing services operation remains resilient. Strong demand for value added products and services supported performance during the quarter. Utilization of our units is mixed as the United Kingdom continues to be soft given a downturn in broader construction activity, which is offset by more resilient performance in Germany and Asia Pacific. We recently appointed a new CEO of the business who supported execution of our value creation plans at our nuclear technology services operation that was sold in November 2023.10Our offshore oil services operation had a strong quarter supported by increased performance in shuttle tanker operations. We are making good progress on repositioning the business. Earlier this year, the business sold its non-core towage operations with proceeds largely used to repay debt as it continues to strengthen its capital structure. The business is benefiting from higher rates on the re-contracting of its shuttle tanker fleet for customers looking to secure transportation for new offshore field development projects on the back of improving industry sentiment. While the FPSO operations have historically been a more challenged part of the business, last year the business finalized agreements for the long-term deployment of two FPSO vessels onto new field developments, with customers in both cases funding the incremental capital required to refurbish the vessels. We expect that the first of these vessel redeployment should be operational next year. IndustrialsAs the global leader in low-voltage batteries for all vehicles, performance of our advanced energy storage operation continues to increase driven by the growing demand of higher margin advanced batteries and the benefit of ongoing optimization initiatives. The businessâ€™ global market share for low-voltage batteries is over 30% today and its share of higher margin advanced battery technologies is even greater. It is now partnering with original equipment manufacturers to provide battery solutions on close to 200 electric vehicle platforms to support the growing power requirements of its customers. In November 2023, the European Commission (â€œECâ€) announced an investigation into the starter automotive battery market. While the ECâ€™s investigation is ongoing and its outcomes uncertain, our advanced energy storage operation does not currently foresee any material adverse exposures in its future earnings or net cash flows in relation to the matter, because, among other things, it has received conditional immunity from the EC and is indemnified against losses incurred in relation to the matter, if any.Our engineered components manufacturing operation is executing well despite the ongoing impact of weaker industry conditions. A combination of the businessâ€™ highly variable cost structure, product diversification and global footprint is contributing to performance in the current environment. Ongoing productivity enhancements in the business should support improved profitability when volumes recover.Our largest operations are global providers of essential products and services that have proven to be resilient and able to navigate all operating environments. Our continued access to capital enabled us to complete several key initiatives to opportunistically manage our maturities and reduce our overall financing costs during the quarter. During and subsequent to quarter end, we refinanced more than $11Â billion of borrowings, reducing the spread on the cost of these borrowings by an average of 50 basis points. Going forward, this initiative should reduce interest expense at our operations by over $50Â million, or approximately $15Â million at our share. 11Review of Consolidated Results of OperationsThe table below summarizes our results of operations for the three and six months ended JuneÂ 30, 2024 and 2023. Revenues from our business services segment decreased by $289Â million, primarily due to lower volumes at our road fuels operation and dispositions completed in the prior year, combined with lower revenues at our dealer software and technology services operation due to one-time billing credits offered to customers following a cybersecurity incident. Included in the revenues and direct operating costs at our road fuels operation is duty payable to the government of the United Kingdom of $2,014Â million (JuneÂ 30, 2023: $1,995Â million), which is recorded gross within revenues and direct operating costs without impact on the margin generated by the business. Revenues from our infrastructure services segment decreased by $1,064Â million, primarily due to the disposition of our nuclear technology services operation in November 2023. Revenues from our industrials segment decreased by $207Â million primarily due to dispositions completed in the prior year, combined with lower volumes at our engineered components manufacturing operation due to a reduction in overall market demand. The decrease was partially offset by an increase in revenues from our advanced energy storage operation due to strong performance reflecting ongoing execution of commercial initiatives and growth of higher margin advanced batteries driven by increased aftermarket demand.For the six months ended JuneÂ 30, 2024, revenues decreased by $3,303Â million to $23,961Â million, compared to $27,264Â million for the six months ended JuneÂ 30, 2023. The decrease was primarily due to the disposition of our nuclear technology services operation which reduced direct operating costs by $897Â million, combined with the impact of other business dispositions completed in the prior year and lower inventory costs at our road fuels operation. As noted above, included in the revenues and direct operating costs at our road fuels operation is a duty payable to the government of the United Kingdom, which is recorded gross within revenues and direct costs without impact on the margin generated by the business.For the six months ended JuneÂ 30, 2024, direct operating costs decreased by $2,990Â million to $21,806Â million, compared to $24,796Â million for the six months ended JuneÂ 30, 2023. The decrease was primarily due to the same factors described above.General and administrative expensesFor the three months ended JuneÂ 30, 2024, general and administrative expenses decreased by $91Â million to $307Â million, compared to $398Â million for the three months ended JuneÂ 30, 2023. The decrease was primarily due to the same factors described above.Interest income (expense), netFor the three months ended JuneÂ 30, 2024, interest expense decreased by $154Â million to $778Â million, compared to $932Â million for the three months ended JuneÂ 30, 2023. The decrease in net interest expense was primarily due to reduced borrowings in our operations primarily from recent dispositions and the impact of refinancing to lower the cost of debt at select operations.For the six months ended JuneÂ 30, 2024, interest expense decreased by $223Â million to $1,574Â million compared to $1,797Â million for the six months ended JuneÂ 30, 2023. The decrease was primarily due to the same factors described above.Gain (loss) on acquisitions/dispositions, netFor the three months ended JuneÂ 30, 2024, net gain (loss) on acquisitions/dispositions was $84Â million. This was related to the gain recognized from the disposition of our Canadian aggregates production operation.For the six months ended JuneÂ 30, 2024, net gain (loss) on acquisitions/dispositions was $99Â million. The net gain includes a $84Â million gain from the disposition of our Canadian aggregates production operation and a $15Â million gain recognized from the disposition of our general partner interest and residential real estate brokerage portfolio to Bridgemarq, a publicly listed real estate services operation and brokerage business.13Other income (expense), netFor the three months ended JuneÂ 30, 2024, net other income (expense) decreased by $238Â million to net other expense of $100Â million, compared to net other income of $138Â million for the three months ended JuneÂ 30, 2023. The decrease in current income tax expense is primarily due to lower taxable income within our dealer software and technology services operation and lower income tax expense in our operations due to dispositions completed in the prior year. Deferred income tax recovery increased by $23Â million to $239Â million, compared to $216Â million for the three months ended JuneÂ 30, 2023. The increase in deferred income tax recovery is primarily due to the recognition of tax attributes generated within our advanced energy storage operation and healthcare services business, partially offset by lower utilization of tax attributes in our dealer software and technology services operation compared to the prior period. Within our industrials segment, at our advanced energy storage operation, the demand for batteries in the aftermarket is typically higher in the colder seasons, and in our natural gas production operation, the ability to move heavy equipment safely and efficiently in Western Canadian oil and gas fields is dependent on weather conditions. Within our infrastructure services segment, our work access services operation is impacted by seasonality in the industries it services; for example, most refineries tend to close down for turnarounds during the spring and fall. In addition, cold temperatures in the first and fourth fiscal quarters typically limit activity on maintenance and capital projects in cold climates. In our modular building leasing services, business activity peaks in the summer months while the fourth fiscal quarter is a seasonal low as deliveries typically reduce in the winter. Some of our business services activities are seasonal in nature and are affected by the general level of economic activity and related volume of services purchased by our clients. Our road fuels operation is impacted by changes in demand for fuel linked to seasonal weather changes and the bi-annual change in the fuel specifications. Mortgage insurance premiums underwritten at our residential mortgage insurer fluctuate based on the general seasonality and macroeconomic conditions affecting the Canadian housing market. Net income is impacted by periodic monetization gains and impairment losses.15Review of Consolidated Financial PositionThe following is a summary of the unaudited interim condensed consolidated statements of financial position as at JuneÂ 30, 2024 and DecemberÂ 31, 2023:Change(US$ MILLIONS)June 30, 2024December 31, 2023JuneÂ 30, 2024 vs DecemberÂ 31, 2023AssetsÂ Â Cash and cash equivalents$2,959Â $3,252Â $(293)Financial assets13,822Â 13,176Â 646Â Accounts and other receivable, net6,607Â 6,563Â 44Â Inventory and other assets5,627Â 5,321Â 306Â Property, plant and equipment15,430Â 15,724Â (294)Deferred income tax assets1,388Â 1,220Â 168Â Intangible assets19,674Â 20,846Â (1,172)Equity accounted investments2,104Â 2,154Â (50)Goodwill13,910Â 14,129Â (219)$81,521Â $82,385Â $(864)Liabilities and EquityÂ Â LiabilitiesÂ Â Accounts payable and other$18,216Â $18,378Â $(162)Corporate borrowings1,882Â 1,440Â 442Â Non-recourse borrowings in subsidiaries of the partnership40,240Â 40,809Â (569)Deferred income tax liabilities2,979Â 3,226Â (247)$63,317Â $63,853Â $(536)EquityLimited partners$1,868Â $1,909Â $(41)Non-controlling interests attributable to:Redemption-exchange units1,752Â 1,792Â (40)Special limited partnerâ€”Â â€”Â â€”Â BBUC exchangeable shares1,834Â 1,875Â (41)Preferred securities740Â 740Â â€”Â Interest of others in operating subsidiaries12,010Â 12,216Â (206)18,204Â 18,532Â (328)$81,521Â $82,385Â $(864)Financial assetsFinancial assets increased by $646Â million to $13,822Â million as at JuneÂ 30, 2024, compared to $13,176Â million as at DecemberÂ 31, 2023. The increase was primarily due to higher mortgage and loans receivable at our Australian asset manager and lender and our Indian non-bank financial services operation due to the growth in loan originations.The following table presents financial assets by segment as at JuneÂ 30, 2024 and DecemberÂ 31, 2023:(US$ MILLIONS)BusinessservicesInfrastructureservicesIndustrialsCorporateand otherTotalJune 30, 2024$13,221Â $161Â $436Â $4Â $13,822Â December 31, 2023$12,617Â $159Â $399Â $1Â $13,176Â 16Accounts receivable, netAccounts receivable, net increased by $44Â million to $6,607Â million as at JuneÂ 30, 2024, compared to $6,563Â million as at DecemberÂ 31, 2023. The increase was primarily due to increased activity in our payment processing services operation and higher accounts receivable in our offshore oil services, partially offset by timing of billed receivables in our advanced energy storage operation.Inventory and other assetsInventory and other assets increased by $306Â million to $5,627Â million as at

JuneÂ 30, 2024, compared to $5,321Â million as at DecemberÂ 31, 2023. The increase was primarily due to higher inventory on hand at our advanced energy storage operation.Property, plantÂ & equipment and intangible assetsPP&E decreased by $294Â million to $15,430Â million as at JuneÂ 30, 2024, compared to $15,724Â million as at DecemberÂ 31, 2023. The decrease was due to regular depreciation expense of $829Â million, dispositions of $581Â million, and the impact of foreign exchange movements of $494Â million. These factors were partially offset by additions to PP&E of $1,610Â million primarily due to growth capital expenditures. As at JuneÂ 30, 2024, PP&E included $1,193Â million of right-of-use assets (DecemberÂ 31, 2023: $1,296Â million).Intangible assets decreased by $1,172Â million to $19,674Â million as at JuneÂ 30, 2024, compared to $20,846Â million as at DecemberÂ 31, 2023. The decrease was primarily due to regular amortization expense of $793Â million, combined with the impact of foreign exchange movements of $568Â million, partially offset by net additions of $189Â million.Capital expenditures represent additions to PP&E and certain intangible assets. Included in capital expenditures are maintenance capital expenditures, which are required to sustain the current performance of our operations, and growth capital expenditures, which are made for incrementally new assets that are expected to expand existing operations. Within our business services segment, capital expenditures were primarily related to maintenance and improvements on hospital facilities and new hospital equipment at our healthcare services and maintenance and expansion of the fleet at our fleet management and car rental services operation. Within our infrastructure services segment, capital expenditures were primarily vessel dry-docking costs at our offshore oil services operation which are contractually reimbursed by our customer and fleet investment at our modular building leasing services. Within our industrials segment, capital expenditures were primarily related to expansions and equipment replacement at our advanced energy storage operation. We also include additions to intangible assets in our water and wastewater operation within capital expenditures due to the nature of its concession agreements. Maintenance and growth capital expenditures for the six months ended JuneÂ 30, 2024 were $394Â million and $954Â million, respectively (JuneÂ 30, 2023: $301Â million and $1,045Â million, respectively). Growth capital expenditures include fleet expansion capital expenditures at our fleet management and car rental services operation presented as cash used in operating activities in the unaudited interim condensed consolidated statement of cash flows.Deferred Income Tax AssetsDeferred income tax assets increased by $168Â million to $1,388Â million as at JuneÂ 30, 2024, compared to $1,220Â million as at DecemberÂ 31, 2023. The increase was primarily due to recognition of tax attributes at our advanced energy storage operation and our construction operation.GoodwillGoodwill decreased by $219Â million to $13,910Â million as at JuneÂ 30, 2024, compared to $14,129Â million as at DecemberÂ 31, 2023. The decrease was primarily due to lower liabilities at our residential mortgage insurer, fleet management and car rental services, payment processing services operation and our lottery services operation. These factors were partially offset by higher deferred revenues at offshore oil services.Corporate and non-recourse borrowingsBorrowings are discussed in the â€œLiquidity and Capital Resourcesâ€ section of this MD&A.17Deferred Income Tax LiabilitiesDeferred income tax liabilities decreased by $247Â million to $2,979Â million as at JuneÂ 30, 2024, compared to $3,226Â million as at DecemberÂ 31, 2023. The decrease was primarily due to an increase in tax attributes within our dealer software and technology services operation and our engineered components manufacturing operation, combined with reductions to the deferred tax liabilities within our advanced energy storage operation and our water and wastewater operation.Equity attributable to UnitholdersAs at JuneÂ 30, 2024, our capital structure comprised two classes of partnership units: LP Units and GP Units. LP Units entitle the holder to their proportionate share of distributions. GP Units entitle the holder the right to govern our financial and operating policies. See Item 10.B, â€œMemorandum and Articles of Association - Description of our Units and our Limited Partnership Agreementâ€ in our 2023 Annual Report.The Holding LPâ€™s capital structure comprised three classes of partnership units: managing general partner units held by Brookfield Business Partners L.P., Special LP Units and Redemption-Exchange Units held by Brookfield. In its capacity as the holder of the Special LP Units, the special limited partner is entitled to receive incentive distributions based on a 20% increase in the LP Unit price over an initial threshold. See Item 10.B, â€œMemorandum and Articles of Association - Description of the Holding LP Limited Partnership Agreementâ€ in our 2023 Annual Report.During the second quarter of 2024, the volume-weighted average price was $19.30 per LP Unit, which was below the current incentive distribution threshold of $31.53 per LP Unit, resulting in an incentive distribution of $nil for the quarter.BBUCâ€™s capital structure comprised BBUC exchangeable shares held by Brookfield and public shareholders. Each BBUC exchangeable share has been structured with the intention of providing an economic return equivalent to one LP Unit, and BBUC targets to pay identical dividends on a per share basis to the distributions paid on each LP Unit. Each BBUC exchangeable share is exchangeable, at the BBUC shareholderâ€™s option, for one LP Unit (subject to adjustment to reflect certain capital events) or its cash equivalent.On August 15, 2023, the Toronto Stock Exchange (â€œTSXâ€) accepted a notice filed by the partnership of its intention to renew a normal course issuer bid (â€œNCIBâ€) for its LP Units. Under the NCIB, the partnership is authorized to repurchase up to 5% of its issued and outstanding LP Units as at AugustÂ 8, 2023, or 3,730,658 LP Units, including up to 14,522 LP Units on the TSX during any trading day.On AugustÂ 15, 2023, the TSX accepted a notice filed by BBUC, a consolidated subsidiary of the partnership, of its intention to renew the NCIB for its BBUC exchangeable shares. Under the NCIB, BBUC is authorized to repurchase up to 5% of its issued and outstanding BBUC exchangeable shares as at August 8, 2023 or 3,647,745 shares, including up to 7,702 shares on the TSX during any trading day.During the six months ended JuneÂ 30, 2024, the partnership did not repurchase any of its LP Units (JuneÂ 30, 2023: nil LP Units).During the six months ended JuneÂ 30, 2024, Brookfield Corporation purchased 15,211 LP Units under our NCIB (JuneÂ 30, 2023: 374,533 LP Units).As at JuneÂ 30, 2024 and DecemberÂ 31, 2023, the total number of Units outstanding are asÂ follows:UNITSJune 30, 2024December 31, 2023GP Units4Â 4Â LP Units74,281,766Â 74,281,763Â Non-controlling interests:Redemption-Exchange Units69,705,497Â 69,705,497Â BBUC exchangeable shares72,954,447Â 72,954,450Â Special LP Units4Â 4Â 18Segment AnalysisOur operations are organized into four operating segments which are regularly reviewed by the CODM for the purpose of allocating resources to the segment and to assess its performance. The key measures used by the CODM in assessing performance and in making resource allocation decisions are adjusted earnings from operations (â€œAdjusted EFOâ€) and Adjusted EBITDA.Adjusted EFO is our segment measure of profit or loss reported in accordance with IFRS 8, Operating segments. The CODM uses Adjusted EFO to assess performance and make resource allocation decisions. Adjusted EFO is used by the CODM to evaluate our segments on the basis of return on invested capital generated by the underlying operations and is used by the CODM to evaluate the performance of our segments on a levered basis.Adjusted EFO is calculated as net income and equity accounted income at our economic ownership interest in consolidated subsidiaries and equity accounted investments, respectively, excluding the impact of depreciation and amortization expense, deferred income taxes, transaction costs, restructuring charges, unrealized revaluation gains or losses, impairment reversals or expenses and other income or expense items that are not directly related to revenue generating activities. Our economic ownership interest in consolidated subsidiaries excludes amounts attributable to non-controlling interests consistent with how we determine net income attributable to non-controlling interests in our IFRS consolidated statements of operating results. In order to provide additional insight regarding our operating performance over the lifecycle of an investment, Adjusted EFO includes the impact of preferred equity distributions and realized disposition gains or losses, recorded in net income, other comprehensive income, or directly in equity, such as ownership changes. Adjusted EFO does not include legal and other provisions that may occur from time to time in the partnershipâ€™s operations and that are one-time or non-recurring and not directly tied to the partnershipâ€™s operations, such as those for litigation or contingencies. Adjusted EFO includes expected credit losses and bad debt allowances recorded in the normal course of the partnershipâ€™s operations.Adjusted EBITDA, a non-IFRS measure of operating performance, provides a comprehensive understanding of the ability of the partnershipâ€™s businesses to generate recurring earnings and assists our CODM in understanding and evaluating the core underlying financial performance of our businesses. For further information on Adjusted EBITDA, see the â€œReconciliation of Non-IFRS Measuresâ€ section of this MD&A.19The following table presents net income (loss), net income (loss) attributable to Unitholders and Adjusted EBITDA for the three and six months ended JuneÂ 30, 2024 andÂ 2023:Â Three Months EndedJune 30,Six Months EndedJune 30,(US$ MILLIONS)20242023202420232024Net income (loss)$65Â $41Â $268Â $244Â Net income (loss) attributable to Limited partners(7)(16)$10Â $9Â Net income (loss) attributable to Redemption-exchange units held by Brookfield Corporation(6)(16)9Â 8Â Net income (loss) attributable to special limited partnerâ€”Â â€”Â Â â€”Â Â â€”Â Net income (loss) attributable to BBUC exchangeable shares(7)(16)9Â 9Â Net income (loss) attributable to Unitholders(20)(48)$28Â $26Â Adjusted EBITDA $524Â $606Â $1,068Â $1,228Â The following table presents Adjusted EFO per segment for the three and six months ended JuneÂ 30, 2024 andÂ 2023:Â Three Months EndedJune 30,Six Months EndedJune 30,(US$ MILLIONS)20242023202420232024Business services$86Â $119Â $254Â $332Â Infrastructure services76Â 88Â 148Â 174Â Industrials206Â 63Â 386Â 225Â Corporate and other(79)(85)(168)(165)Comparison of the three and six months ended JuneÂ 30, 2024 and 2023Net loss attributable to Unitholders for the three months ended JuneÂ 30, 2024 was $20Â million, representing a decrease of $28Â million compared to net loss attributable to Unitholders of $48Â million for the three months ended JuneÂ 30, 2023. Our healthcare services contributed $16Â million of Adjusted EBITDA for the three months ended JuneÂ 30, 2024, in line with the three months ended JuneÂ 30, 2023. Total admissions and numbers of surgeries increased slightly but with a mix shift to lower revenue same day surgeries. Expenses continue to be elevated primarily due to higher labor costs. Performance at our construction operation was impacted by additional costs related to a project in Australia and contributed to the decline in segment Adjusted EBITDA compared to the prior period. The business is focused on mitigating further cost escalation on the project, which is expected to be completed later this year.Adjusted EBITDA in our business services segment for the six months ended JuneÂ 30, 2024 was $387Â million, representing a decrease of $48Â million compared to $435Â million for the six months ended JuneÂ 30, 2023. Strong performance at our advanced energy storage operation was partially offset by reduced contribution from our engineered components manufacturing operation due to the impact of lower volumes.Our advanced energy storage operation contributed $140Â million to Adjusted EBITDA for the three months ended JuneÂ 30, 2024 compared to $113Â million for the three months ended JuneÂ 30, 2023. Strong performance during the quarter reflected the ongoing execution of commercial initiatives and growth of higher margin advanced batteries driven by increased aftermarket demand. Performance in the prior period was impacted by a labor strike and downtime at one of the operations' larger U.S. production facilities. Our engineered components manufacturing operation contributed $33Â million to Adjusted EBITDA for the three months ended JuneÂ 30, 2024 compared to $44Â million for the three months ended JuneÂ 30, 2023. Performance was impacted by lower sales volume resulting from a reduction in overall market

demand.Adjusted EBITDA in our industrials segment for the six months ended JuneÂ 30, 2024 was $441Â million, representing an increase of $26Â million compared to $415Â million for the six months ended JuneÂ 30, 2023. The increase was primarily due to the same factors described above.23Corporate and otherThe following table presents Adjusted EFO and Adjusted EBITDA for our corporate and other segment for the three and six months ended JuneÂ 30, 2024 and 2023:Â Three Months EndedJune 30,Six Months EndedJune 30,(US$ MILLIONS)20242023202420232023Adjusted EFO(79)(85)(168)(165)Adjusted EBITDA(28)(29)(60)(63)The following table presents equity attributable to Unitholders for our corporate and other segment as at JuneÂ 30, 2024 and DecemberÂ 31, 2023:(US$ MILLIONS)June 30, 2024December 31, 2023Total assets$284Â $317Â Total liabilities3,606Â 3,108Â Equity attributable to preferred securities740Â 740Â Equity attributable to Unitholders(4,062)(3,531)Total equity$(3,322)$(2,791)Pursuant to our Master Services Agreement, we pay Brookfield a base management fee equal to 0.3125% quarterly (1.25% annually) of our total market capitalization, plus recourse debt, net of cash, and other securities held by corporate entities. Adjusted EBITDA is a non-IFRS measure of operating performance presented as net income and equity accounted income at our economic ownership interest in consolidated subsidiaries and equity accounted investments, respectively, excluding the impact of interest income (expense), net, income taxes, depreciation and amortization expense, gains (losses) on acquisitions/dispositions, net, transaction costs, restructuring charges, revaluation gains or losses, impairment expenses or reversals, other income or expenses, and preferred equity distributions. Adjusted EBITDA excludes other income (expense), net as reported in our IFRS consolidated statements of operating results, because this includes amounts that are not related to revenue earning activities, and are not normal, recurring operating income or expenses necessary for business operations. Other income (expense), net includes revaluation gains and losses, transaction costs, restructuring charges, stand-up costs and business separation expenses, gains or loss on debt extinguishments or modifications, gains or losses on dispositions of property, plant and equipment, non-recurring and one-time provisions that may occur from time to time at one of the partnershipâ€™s operations that are not reflective of normal operations, and other items. Our economic ownership interest in consolidated subsidiaries excludes amounts attributable to non-controlling interests consistent with how we determine net income attributable to non-controlling interests in our IFRS consolidated statements of operating results. Due to the size and diversification of our operations, including economic ownership interests that vary, Adjusted EBITDA is critical in assessing the overall operating performance of our business. When viewed with our IFRS results, we believe Adjusted EBITDA is useful to investors because it provides a comprehensive understanding of the ability of our businesses to generate recurring earnings which allows users to better understand and evaluate the underlying financial performance of our operations and excludes items we believe do not directly relate to revenue earning activities and are not normal, recurring items necessary for business operations. Our presentation of Adjusted EBITDA also gives investors comparability of our ongoing performance across periods.24Adjusted EBITDA has limitations as an analytical tool as it does not include interest income (expense), net, income taxes, depreciation and amortization expense, gains (losses) on acquisitions/dispositions, net, transaction costs, restructuring charges, revaluation gains or losses, impairment reversals or expenses and other income (expense), net. As a result of these limitations, Adjusted EBITDA should not be considered as the sole measure of our performance and should not be considered in isolation from, or as a substitute for, analysis of our results as reported under IFRS. However, Adjusted EBITDA is a key measure that we use to evaluate the performance of our operations.Adjusted EBITDA ReconciliationThe following table reconciles Adjusted EBITDA to net income (loss) for the three and six months ended JuneÂ 30, 2024:Three Months Ended June 30, 2024(US$ MILLIONS)Business ServicesInfrastructure ServicesIndustrialsCorporate and OtherTotalNet income (loss)(5)(92)$216Â (54)65Â Add or subtract the following:Depreciation and amortization expense248Â 222Â 339Â â€”Â 809Â Gain (loss) on acquisitions/dispositions, netâ€”Â â€”Â (84)â€”Â (84)Other income (expense), net (1)51Â 22Â 26Â 1Â 100Â Income tax (expense) recovery(17)4Â (91)(13)(117)Equity accounted income (loss)(5)(11)(15)â€”Â (31)Interest income (expense), net253Â 178Â 309Â 38Â 778Â Equity accounted Adjusted EBITDA (2)18Â 44Â 15Â â€”Â 77Â Amounts attributable to non-controlling interests (3)(361)(210)(502)â€”Â (1,073)Adjusted EBITDA$182Â $157Â $213Â (28)524Â _____(1)Other income (expense), net corresponds to amounts that are not directly related to revenue earning activities and are not normal, recurring income or expenses necessary for business operations. The depreciation and amortization expense in our infrastructure services segment is mainly due to the amortization of intangibles at our modular building leasing services and our lottery services operation and the depreciation of vessels at our offshore oil services operation. The depreciation and amortization expense in our industrials segment is primarily related to the depreciation of PP&E and amortization of intangibles at our advanced energy storage operation and our engineered components manufacturing operation. Depreciation and amortization expense in our business services segment is primarily due to amortization of intangible assets in our dealer software and technology services operation. Depreciation and amortization expense is generally consistent period-over-period with large changes typically attributable to the addition or disposal of depreciable assets and the impact of foreign exchange movements.Depreciation and amortization expense decreased by $98Â million to $809Â million for the three months ended JuneÂ 30, 2024 compared to $907Â million for the three months ended JuneÂ 30, 2023. The decrease was primarily due to the disposition of our nuclear technology services operation in November 2023.Depreciation and amortization expense decreased by $190Â million to $1,617Â million for the six months ended JuneÂ 30, 2024 compared to $1,807Â million for the six months ended JuneÂ 30, 2023. The decrease was primarily due to the same factor described above.Income tax (expense) recovery, net was a net income tax recovery of $117Â million for the three months ended JuneÂ 30, 2024 compared to an income tax expense of $51Â million for the three months ended JuneÂ 30, 2023. The increase in income tax recovery was primarily due to lower taxable income within our dealer software and technology services operation and lower income tax expense in our operations due to dispositions completed in the prior year, combined with the recognition of tax attributes generated within our advanced energy storage operation and healthcare services business. The increase was partially offset by lower utilization of tax attributes in our dealer software and technology services operation compared to the prior period. Prior period results included a deferred income tax expense related to the recognition of previously unrecognized tax attributes in our solar power solutions.28Income tax (expense) recovery, net was a net income tax recovery of $132Â million for the six months ended JuneÂ 30, 2024 compared to an income tax expense of $109Â million for the six months ended JuneÂ 30, 2023. The increase was primarily due to the same factors described above.Interest expense, net decreased by $154Â million to $778Â million for the three months ended JuneÂ 30, 2024 compared to $932Â million for the three months ended JuneÂ 30, 2023. The decrease was primarily due to reduced borrowings in our operations primarily from recent dispositions and the impact of refinancing to lower the cost of debt at select operations.Interest expense, net decreased by $223Â million to $1,574Â million for the six months ended JuneÂ 30, 2024 compared to $1,797Â million for the six months ended JuneÂ 30, 2023. The decrease was primarily due to the same factor described above.Amounts attributable to non-controlling interests decreased by $81Â million to $1,073Â million for the three months ended JuneÂ 30, 2024 compared to $1,154Â million for the three months ended JuneÂ 30, 2023. The decrease in amounts attributable to non-controlling interests is primarily due to dispositions completed in the prior year.Amounts attributable to non-controlling interests decreased by $165Â million to $2,229Â million for the six months ended JuneÂ 30, 2024 compared to $2,394Â million for the six months ended JuneÂ 30, 2023. We aim to maintain sufficient financial liquidity to meet our ongoing operating requirements and to fund debt service payments, recurring expenses, required capital expenditures, and acquisition opportunities as they arise. In addition, an integral part of our strategy is to pursue acquisitions through Brookfield-led consortium arrangements with institutional partners or strategic partners, and to form partnerships to pursue acquisitions on a specialized or global basis. Brookfield has an established track record of leading such consortiums and partnerships and actively managing underlying assets to improve performance. Overall, we believe that our liquidity profile is strong, positioning us and our businesses well to take advantage of accretive investment opportunities.Our principal sources of liquidity are financial assets, undrawn credit facilities, cash flows from operations, monetizations of businesses, and access to public and private capital markets.29The following table presents non-recourse borrowings in subsidiaries of the partnership by segment as at JuneÂ 30, 2024 and DecemberÂ 31, 2023:(US$ MILLIONS)Business servicesInfrastructure servicesIndustrialsTotalJune 30, 2024$17,369Â $8,732Â $14,139Â $40,240Â December 31, 2023$17,310Â $8,977Â $14,522Â $40,809Â As at JuneÂ 30, 2024, the partnership had non-recourse borrowings in subsidiaries of $40,240Â million compared to $40,809Â million as at DecemberÂ 31, 2023. The decrease of $569Â million was primarily due to scheduled debt repayments and repayment of borrowings made under subscription facilities of Brookfield-sponsored private equity funds, combined with debt repayments in our offshore oil services. We principally finance our assets at the operating company level with debt that is non-recourse to both the partnership and to our other operations and is generally secured against assets within the respective operating companies. Moreover, debt instruments at the operating company level do not cross-accelerate or cross-default to debt at other operating companies. This debt has varying maturities ranging from less than one year to 57 years. The weighted average maturity as at JuneÂ 30, 2024 was 6.2 years and the weighted average interest rate on debt outstanding was 7.7%, including the impact of hedges. Approximately 70% of our non-recourse borrowings are either fixed or hedged through derivatives or naturally hedged within our operations. The credit facility is guaranteed by the partnership, the Holding LP, the Holding Entities and certain of our subsidiaries. The credit facility bears interest at the specified SOFR or bankersâ€™ acceptance rate plus 3.45%, or the specified base rate or prime rate plus 2.45%. The credit facility requires us to maintain a minimum deconsolidated net worth and contains restrictions on the ability of the borrowers and the guarantors to, among other things, incur certain liens or enter into speculative hedging arrangements. The maturity date of the credit facility is AprilÂ 27, 2028, which date will automatically extend for a one-year period on April 27 of each year unless Brookfield provides written notice of its intention not to further extend the then prevailing maturity date. The total available amount on the credit facility will decrease to $500Â million on AprilÂ 27, 2025. As at JuneÂ 30, 2024, the revolving acquisition credit facility remains undrawn.The partnership also has deposit agreements with Brookfield whereby we may place funds on deposit with Brookfield and whereby Brookfield may place funds on deposit with our partnership. As at JuneÂ 30, 2024, the total outstanding amount was approximately $2.0 billion. If these letters of credit or bonds are drawn upon, our operating subsidiaries will be obligated to reimburse the issuer of the letter of credit or bonds. The partnership does not conduct its operations, other than those of equity accounted investments, through entities that are not consolidated in the consolidated financial statements and has not guaranteed or otherwise contractually committed to support any material financial obligations not reflected in the consolidated financial statements.Our construction operation and other operations may be called upon to give, in the ordinary course of business, guarantees and indemnities in respect of the performance of controlled entities, associates and related parties of their contractual obligations. 32In the normal course of operations, our operating subsidiaries will execute agreements that provide for indemnification and guarantees to third parties in transactions such as business dispositions and acquisitions, construction projects, capital projects, and sales and purchases of assets and services. We have also agreed to indemnify our directors and certain of our officers and employees. The nature of substantially all of the indemnification undertakings prevents us from making a reasonable estimate of the maximum potential amount that we could be required to pay third parties, as many of the agreements do not specify a maximum amount and the amounts are dependent upon the outcome of future contingent events, the nature and likelihood of which cannot be determined at this time. Historically, we have made no significant payments under such indemnification agreements. In addition, we have also entered into indemnity agreements with Brookfield that relate to certain construction projects in the Middle East region that have been in place for several years. Under these indemnity agreements, Brookfield has agreed to indemnify us or refund us, as appropriate, for the receipt of payments relating to such projects.From time to time, we may be contingently liable with respect to litigation and claims that arise in the normal course of operations. In our construction operation, this may include litigation and claims from clients or subcontractors, in addition to our associated counterclaims. Our dealer software and technology services operation has become subject to several class action lawsuits in connection with the cybersecurity incident and the operation may be subject to further lawsuits, claims, inquiries or investigations. We believe that the legal proceedings are without merit and intend to vigorously contest them. On an ongoing basis, we assess the potential impact of these events. Aside from the costs to defend against these claims, the potential loss amount from these claims cannot be measured and is not probable at this time. Contractual ObligationsAn integral part of the partnershipâ€™s strategy is to participate with institutional investors in Brookfield-sponsored private equity funds that target acquisitions that suit the partnershipâ€™s investment mandate. In the normal course of business, the partnership has made commitments to Brookfield-sponsored private equity funds to participate in these target acquisitions in the future, if and when identified.In the ordinary course of business, we enter into contractual arrangements that may require future cash payments. The table below outlines our undiscounted contractual obligations as atÂ JuneÂ 30, 2024:Â Payments as at JuneÂ 30, 2024(US$ MILLIONS)Total< 1 Year1-2 Years3-5 Years5+ YearsBorrowings$42,850Â $3,037Â $5,606Â $21,957Â $12,250Â Lease liabilities1,646Â 248Â 272Â 484Â 642Â Interest expense13,129Â 2,640Â 2,423Â 5,427Â 2,639Â Decommissioning liabilities751Â 9Â 6Â 17Â 719Â Pension obligations397Â 34Â 35Â 106Â 222Â Commitments for capital expenditure (1)1,245Â 940Â 260Â 45Â â€”Â Total$60,018Â $6,908Â $8,602Â $28,036Â $16,472Â _____(1)Includes approximately $1.2Â billion of contractual commitments in the form of shipbuilding contracts at our offshore oil services. The capital expenditures relate to a customer contract and will be funded by proceeds to be contractually received from the customer.Financial instruments - foreign currency hedging strategyTo the extent that we believe it is economical to do so, our strategy is to hedge all or a portion of our equity investments and/or cash flows exposed to foreign currencies by the partnership. The partnershipâ€™s foreign currency hedging policy includes leveraging any natural hedges that may exist within our operations, utilizing local currency debt financing to the extent possible and utilizing derivative contracts to minimize any residual exposures to the extent natural hedges are insufficient.33The following table presents a summary as at JuneÂ 30, 2024 of our Unitholder equity positions by functional currency and our derivative contract net investment hedges:Â Net Unitholder Equity by Functional Currency(US$ MILLIONS)CADAUDBRLGBPEURINROtherNet Equity$1,392Â $729Â $664Â $328Â $1,054Â $177Â $1,110Â FX ContractsÂ â€”Â US$(588)(204)(428)â€”Â (51)(96)â€”Â As at JuneÂ 30, 2024, approximately 24% of our Unitholder equity with foreign currency exposure was hedged using derivative contracts.Related Party TransactionsWe entered into a number of related party transactions with Brookfield as described in Note 17 of the unaudited interim condensed consolidated financial statements.Critical Accounting Policies, Estimates and JudgmentsThe preparation of financial statements requires management to make critical judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses that are not readily apparent from other sources, during the reporting period. These estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.For further reference on accounting policies, critical judgments and estimates, see our material accounting policy information contained in Note 2 of our annual audited consolidated financial statements as at DecemberÂ 31, 2023 and 2022 and for the years ended DecemberÂ 31, 2023, 2022 and 2021.Global minimum top-up taxThe partnership operates in countries, including Canada, which have enacted new legislation to implement the global minimum top-up tax, effective from JanuaryÂ 1, 2024. The partnership has applied a temporary mandatory relief from recognizing and disclosing deferred taxes in connection with the global minimum top-up tax and will account for it as a current tax when it is incurred. There is no material current tax impact for the six months ended JuneÂ 30, 2024. The global minimum top-up tax is not anticipated to have a material impact on the financial position of the partnership.Controls and proceduresNo change in our internal control over financial reporting occurred during the three and six months ended JuneÂ 30, 2024 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.New Accounting Policies AdoptedThe partnership has applied new and revised standards issued by the IASB that are effective for the period beginning on or after JanuaryÂ 1, 2024.(i)Amendments to IAS 1 Presentation of financial statements (â€œIAS 1â€)The amendments clarify how to classify debt and other liabilities as current or non-current. The partnership adopted these amendments on JanuaryÂ 1, 2024 and the adoption did not have a material impact on the partnershipâ€™s unaudited interim condensed consolidated financial statements.Future changes in accounting policiesThere are currently no other future changes to IFRS with expected material impacts on the partnership.34Quick LinksExhibit 99.1UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS OF BROOKFIELD BUSINESS PARTNERS L.P.INDEX TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS OF BROOKFIELD BUSINESS PARTNERS L.P.BROOKFIELD BUSINESS PARTNERS L.P. Fair values are determined by reference to quoted bid or ask prices, as appropriate. Where bid and ask prices are unavailable, the closing price of the most recent transaction of that instrument is used. In the absence of an active market, fair values are determined based on prevailing market rates such as bid and ask prices, as appropriate, for instruments with similar characteristics and risk profiles or internal or external valuation models, such as option pricing models and discounted cash flow analysis, using observable marketÂ inputs when available.Fair values determined using valuation models require the use of assumptions concerning the amount and timing of estimated future cash flows and discount rates. In determining those assumptions, the partnership looks primarily to external readily observable market inputs such as interest rate yield curves, currency rates and price and rate volatility, as applicable.The following table provides the details of financial instruments and their associated financial instrument classifications as at JuneÂ 30, 2024:(US$ MILLIONS)MEASUREMENT BASISFVTPLFVOCIAmortized costTotalFinancial assetsÂ Â Â Â Cash and cash equivalents$â€”Â $â€”Â $2,959Â $2,959Â Accounts and other receivable, net (current and non-current)â€”Â â€”Â 6,607Â 6,607Â Financial assets (current and non-current) (1)924Â 4,937Â 7,961Â 13,822Â Total$924Â $4,937Â $17,527Â $23,388Â Financial liabilitiesÂ Â Â Â Accounts payable and other (current and non-current) (1) (2)$243Â $196Â $10,623Â $11,062Â Borrowings (current and non-current)â€”Â â€”Â 42,122Â 42,122Â Total$243Â $196Â $52,745Â $53,184Â _____(1)FVOCI and FVTPL include derivative assets and liabilities designated in hedge accounting relationships. The credit facilities are available in Euros, British pounds, Australian dollars, U.S. dollars and Canadian dollars. Advances under the credit facilities bear interest at the specified SOFR, SONIA, EURIBOR, CORRA (which replaced CDOR on July 1, 2024), BBSY or bankersâ€™ acceptance rate plus 2.50%, or the

specified base rate or prime rate plus 1.50%. The credit facilities require the partnership to maintain a minimum tangible net worth and deconsolidated debt to capitalization ratio at the corporate level. The total capacity on the bilateral credit facilities is $2,350Â million with a maturity date of June 29, 2029. The balance drawn on the bilateral credit facility, net of deferred financing costs, was $1,882Â million as at JuneÂ 30, 2024 (DecemberÂ 31, 2023: $1,440Â million).The partnership had $1Â billion available on its revolving credit facility with Brookfield (the â€œBrookfield Credit Agreementâ€) as at JuneÂ 30, 2024. The credit facility is guaranteed by the partnership, the Holding LP and certain of the partnershipâ€™s subsidiaries. The credit facility is available in U.S. dollars or Canadian dollars and advances are made by way of SOFR, base rate, bankersâ€™ acceptance rate or prime rate loans. The credit facility bears interest at the specified SOFR or bankersâ€™ acceptance rate plus 3.45%, or the specified base rate or prime rate plus 2.45%. The credit facility requires the partnership to maintain a minimum deconsolidated net worth and contains restrictions on the ability of the borrowers and the guarantors to, among other things, incur certain liens or enter into speculative hedging arrangements. Net proceeds above a specified threshold that are received by the borrowers from asset dispositions, debt incurrences or equity issuances by the borrowers or their subsidiaries must be used to pay down the credit facility (which can then be redrawn to fund future investments). The maturity date of the credit facility is April 27, 2028, which date will automatically extend for a one-year period on April 27 of each year unless Brookfield provides written notice of its intention not to further extend the then prevailing maturity date. The total available amount on the credit facility will decrease to $500Â million on April 27, 2025. As at JuneÂ 30, 2024, the credit facility remained undrawn.The partnership is currently in compliance with covenant requirements of its corporate borrowings and continues to monitor performance against such covenant requirements.As at JuneÂ 30, 2024, there were no funds on deposit from Brookfield (DecemberÂ 31, 2023: $nil). Refer to Note 17 for further details on the Deposit Agreements (defined herein) with Brookfield.(b)Non-recourse subsidiary borrowings of the partnershipCurrent and non-current non-recourse subsidiary borrowings in subsidiaries of the partnership as at JuneÂ 30, 2024, net of deferred financing costs, premiums and discounts, were $2,965Â million and $37,275Â million, respectively (DecemberÂ 31, 2023: $2,757Â million and $38,052Â million, respectively). Non-recourse borrowings in subsidiaries of the partnership include borrowings made under subscription facilities of Brookfield-sponsored private equity funds.Some of the partnershipâ€™s operations have credit facilities in which they borrow and repay on a short-term basis. This movement has been shown on a net basis in the partnershipâ€™s unaudited interim condensed consolidated statements of cash flow.The partnership has financing arrangements within its operating businesses that trade in public markets or are held at major financial institutions. The financing arrangements are primarily composed of term loans, securitization programs, credit facilities and notes and debentures which are subject to fixed or floating interest rates. The majority of borrowings drawn are not subject to financial maintenance covenants, however, some are subject to fixed charge coverage, leverage ratios and minimum equity or liquidity covenants.The partnership principally finances assets at the subsidiary level with debt that is non-recourse to both the partnership and to its other subsidiaries and is generally secured against assets within the respective subsidiaries. Moreover, debt instruments at the partnershipâ€™s subsidiaries do not cross-accelerate or cross-default to debt at other subsidiaries. The partnershipâ€™s subsidiaries are currently in compliance with all material covenant requirements and the partnership continues to work with its businesses to monitor performance against such covenant requirements. These transactions have been measured at fair value and are recognized in the unaudited interim condensed consolidated financial statements.(a)Transactions with BrookfieldThe partnership is a party to the Brookfield Credit Agreement, which permits borrowings of up to $1Â billion. As at JuneÂ 30, 2024, $nil was drawn on the credit facilities under the Brookfield Credit Agreement (DecemberÂ 31, 2023: $nil). Refer to Note 16 for further details.From time to time, each of Brookfield and the partnership may place funds on deposit with the other, on terms approved by the independent directors of the partnershipâ€™s General Partner, pursuant to deposit agreements entered into between Brookfield and the partnership (the â€œDeposit Agreementsâ€). Interest earned or incurred on such deposits is at market terms. As at JuneÂ 30, 2024, the net deposit from Brookfield was $nil (DecemberÂ 31, 2023: $nil) and the partnership incurred interest income (expense) of $nil for the three and six months ended JuneÂ 30, 2024 (JuneÂ 30, 2023: $nil) on theseÂ deposits.Pursuant to the Master Services Agreement (â€œMaster Services Agreementâ€), Brookfield Business Partners L.P. and other service recipients (the â€œService Recipientsâ€ as defined in the Master Services Agreement) pay a base management fee, referred to as the Base Management Fee, to certain service providers (the â€œService Providersâ€ as defined in the Master Services Agreement) equal to 0.3125% per quarter (1.25% annually) of the total capitalization of the partnership, which is reflected within general and administrative expenses. For purposes of calculating the base management fee, the total capitalization of the partnership is equal to the quarterly volume-weighted average trading price of an LP Unit on the principal stock exchange for the LP Units (based on trading volumes) multiplied by the number of LP Units outstanding at the end of the quarter (assuming full conversion of the Redemption-Exchange Units into LP Units of Brookfield Business Partners L.P.), plus the value of securities of the other Service Recipients (including the BBUC exchangeable shares) that are not held by the partnership, plus all outstanding debt with recourse to a Service Recipient, less all cash held by such entities. The base management fee for the three and six months ended JuneÂ 30, 2024 was $21 million and $44Â million, respectively (JuneÂ 30, 2023: $23 million and $46 million, respectively).In its capacity as the holder of the Special LP Units, Brookfield is entitled to incentive distribution rights. The incentive distribution for the three and six months ended JuneÂ 30, 2024 was $nil (JuneÂ 30, 2023: $nil).An integral part of the partnershipâ€™s strategy is to participate with institutional investors in Brookfield-sponsored private equity funds that target acquisitions that suit the partnershipâ€™s investment mandate. In the normal course of business, the partnership and institutional investors have made commitments to Brookfield-sponsored private equity funds, and in connection therewith, the partnership, together with institutional investors, has access to short-term financing using the private equity fundsâ€™ credit facilities to facilitate investments that Brookfield has determined to be in the partnershipâ€™s best interests.In addition, at the time of spin-off of the partnership from Brookfield in 2016, the partnership entered into indemnity agreements with Brookfield that relate to certain contracts that were in place prior to the spin-off. Under these indemnity agreements, Brookfield has agreed to indemnify the partnership for payments relating to such contracts.(b)OtherInclusive of those described above, the following table summarizes the transactions the partnership has entered into with related parties for the three and six month periods ended JuneÂ 30, 2024 and 2023:Three Months EndedJune 30,Six Months EndedJune 30,(US$ MILLIONS)20242023202420232023Transactions during the periodBusiness services revenues (1)$74Â $15Â $110Â $73Â _____(1) Within the business services segment, the partnership provides construction services and fuel products to affiliates of Brookfield.Inclusive of those described above, the following table summarizes balances with related parties as at JuneÂ 30, 2024 and DecemberÂ 31, 2023:(US$ MILLIONS)June 30, 2024December 31, 2023Balances at end of periodAccounts and other receivable, net$447Â $182Â Accounts payable and other (1)341Â 346Â Non-recourse borrowings in subsidiaries of the partnership150Â 146Â Interest of others in operating subsidiaries4Â 4Â _____(1)Includes $258Â million related to a tax receivable agreement payable to related parties by the partnershipâ€™s advanced energy storage operation (DecemberÂ 31, 2023: $245Â million). Both the LP Units and GP Units issued by Brookfield Business Partners L.P. and the Redemption-Exchange Units issued by the Holding LP have the same economic attributes in all respects, except as noted below.The Redemption-Exchange Units may, at the request of Brookfield, be redeemed in whole or in part, for cash in an amount equal to the market value of one of the partnershipâ€™s LP Units multiplied by the number of units to be redeemed (subject to certain customary adjustments). This right is subject to the partnershipâ€™s right, at its sole discretion, to elect to acquire any unit presented for redemption in exchange for one of the partnershipâ€™s LP Units (subject to certain customary adjustments). If the partnership elects not to exchange the Redemption-Exchange Units for LP Units, the Redemption-Exchange Units are required to be redeemed for cash. Since this redemption right is subject to the partnershipâ€™s right, at its sole discretion, to satisfy the redemption request with LP Units of Brookfield Business Partners L.P. on a one-for-one basis, the Redemption-Exchange Units are classified as equity instruments in accordance with IAS 32, Financial instruments: presentation (â€œIAS 32â€).(c)BBUC exchangeable sharesThe table below provides a continuity of BBUC exchangeable shares outstanding for the six-month period ended JuneÂ 30, 2024:SHARESBBUC exchangeable sharesBalance as at January 1, 202472,954,450Â Converted to LP Units(3)Issued as at June 30, 202472,954,447Â During the six months ended JuneÂ 30, 2024, 3 BBUC exchangeable shares were exchanged into LP Units (JuneÂ 30, 2023: 622).An additional Managing General Partner Unit is issued to the partnership each time an LP Unit is issued, including when a BBUC exchangeable share is exchanged by the holder thereof for an LP Unit. The CODM uses adjusted earnings from operations (â€œAdjusted EFOâ€) to assess performance and make resource allocation decisions. Adjusted EFO allows the CODM to evaluate the partnershipâ€™s segments on the basis of return on invested capital generated by its operations and to evaluate the performance of its segments on a levered basis. Adjusted EFO is calculated as net income and equity accounted income at the partnershipâ€™s economic ownership interest in consolidated subsidiaries and equity accounted investments, respectively, excluding the impact of depreciation and amortization expense, deferred income taxes, transaction costs, restructuring charges, unrealized revaluation gains or losses, impairment expenses or reversals and other income or expense items that are not directly related to revenue generating activities. The partnershipâ€™s economic ownership interest in consolidated subsidiaries excludes amounts attributable to non-controlling interests consistent with how the partnership determines net income attributable to non-controlling interests in its unaudited interim condensed consolidated statements of operating results. In order to provide additional insight regarding the partnershipâ€™s operating performance over the lifecycle of an investment, Adjusted EFO includes the impact of preferred equity distributions and realized disposition gains or losses recorded in net income, other comprehensive income, or directly in equity, such as ownership changes. Adjusted EFO does not include legal and other provisions that may occur from time to time in the partnershipâ€™s operations and that are one-time or non-recurring and not directly tied to the partnershipâ€™s operations, such as those for litigation or contingencies. Adjusted EFO includes expected credit losses and bad debt allowances recorded in the normal course of the partnershipâ€™s operations.Other income (expense), net in the partnershipâ€™s unaudited interim condensed consolidated statements of operating results includes amounts that are not related to revenue generating activities, and are not normal, recurring operating income and expenses necessary for business operations. These include revaluation gains and losses, transaction costs, restructuring charges, stand-up costs and business separation expenses, gains or losses on debt extinguishments or modifications, gains or losses on dispositions of property, plant and equipment, non-recurring and one-time provisions that may occur from time to time at one of the partnershipâ€™s operations that are not reflective of normal operations, and other items. Other income (expense), net included within Adjusted EFO in the tables below corresponds to items of other income (expense), net at the partnershipâ€™s economic ownership interest that are considered by the partnership when evaluating operating performance and returns on invested capital generated by its businesses and may include realized revaluation gains and losses, realized gains or losses on the disposition of property, plant and equipment, and other items. Refer to the footnotes to the tables below for additional details on items included therein.Gain (loss) on acquisitions/dispositions, net in Adjusted EFO reflects the partnershipâ€™s economic ownership interest in the gains or losses on acquisitions/dispositions recognized during the period in unaudited interim condensed consolidated statements of operating results that are considered by the partnership when evaluating the performance and returns on invested capital generated by its businesses.Gain (loss) on acquisitions/dispositions, net recorded in equity in Adjusted EFO corresponds to the partnershipâ€™s economic ownership interest in gains and losses recorded in the unaudited interim condensed consolidated statements of changes in equity that have been realized through a completed disposition, including material realized disposition gains or losses that may be recorded in equity on the partial disposition of a subsidiary where the partnership retains control and through the sale of an investment in securities accounted for as financial assets measured at fair value with changes in fair value recorded in other comprehensive income.The following tables provide each segmentâ€™s results at the partnershipâ€™s economic ownership interest, in the format that the CODM organizes reporting segments to make resource allocation decisions and assess performance. Amounts attributable to non-controlling interests are calculated based on the economic ownership interests held by non-controlling interests in consolidated subsidiaries. The tables below reconcile the partnershipâ€™s economic ownership interest in its consolidated results to the partnershipâ€™s unaudited interim condensed consolidated statements of operating results.Â Three Months Ended June 30, 2024Â Total attributable to UnitholdersAttributable to non-controlling interestsAs per IFRS Financials(US$ MILLIONS)BusinessservicesInfrastructure servicesIndustrialsCorporateand otherTotal (1)Revenues$2,353Â $322Â $964Â $â€”Â $3,639Â $8,307Â $11,946Â Direct operating costs (2)(2,154)(189)(739)(3)(3,085)(7,034)(10,119)General and administrative expenses(35)(20)(27)(25)(107)(200)(307)Gain (loss) on acquisitions / dispositions, net (3)â€”Â â€”Â 81Â â€”Â 81Â 3Â 84Â Gain (loss) on acquisitions / dispositions, net recorded in equity (4)â€”Â â€”Â 22Â â€”Â 22Â â€”Â 22Â Other income (expense), net (5)2Â â€”Â 3Â â€”Â 5Â 8Â 13Â Interest income (expense), net(72)(60)(86)(38)(256)(522)(778)Current income tax (expense) recovery (17)(3)(22)â€”Â (42)(80)(122)Preferred equity distributionsâ€”Â â€”Â â€”Â (13)(13)13Â â€”Â Equity accounted Adjusted EFO (6)9Â 26Â 10Â â€”Â 45Â 36Â 81Â Adjusted EFO86Â 76Â 206Â (79)289Â Depreciation and amortization expense (2)(7)Â Â Â Â (251)(558)(809)Gain (loss) on acquisitions / dispositions, net recorded in equity (4)(22)â€”Â (22)Other income (expense), net (5)Â Â Â Â Â (89)(24)(113)Deferred income tax (expense) recoveryÂ Â Â Â 88Â 151Â 239Â Non-cash items attributable to equity accounted investments(6)Â Â Â Â (35)(15)(50)Net income (loss)Â Â Â Â Â (20)85Â $65Â (1)Adjusted EFO and net income (loss) attributable to Unitholders include Adjusted EFO and net income (loss) attributable to limited partnership unitholders, general partnership unitholders, redemption-exchange unitholders, special limited partnership unitholders and BBUC exchangeable shareholders.(2)The sum of these amounts equates to direct operating costs of $10,928Â million as per the unaudited interim condensed consolidated statements of operating results.(3)Gain (loss) on acquisitions/dispositions, net recorded in Adjusted EFO of $81Â million represents the partnershipâ€™s economic ownership interest in gains from the disposition of the partnershipâ€™s Canadian aggregates production operation.(4)Gain (loss) on acquisitions/dispositions, net recorded in equity in Adjusted EFO of $22Â million represents the partnership's economic ownership interest in gains related to the disposition of public securities.(5)The sum of these amounts equates to other income (expense), net of $(100)Â million as per the unaudited interim condensed consolidated statements of operating results. 541000000 501000000 -348000000 -301000000 BORROWINGS (a) Corporate borrowings The partnership has bilateral credit facilities backed by large global banks. The credit facilities are available in Euros, British pounds, Australian dollars, U.S. dollars and Canadian dollars. Advances under the credit facilities bear interest at the specified SOFR, SONIA, EURIBOR, CORRA (which replaced CDOR on July 1, 2024), BBSY or bankers' acceptance rate plus 2.50%, or the specified base rate or prime rate plus 1.50%. The credit facilities require the partnership to maintain a minimum tangible net worth and deconsolidated debt to capitalization ratio at the corporate level. The total capacity on the bilateral credit facilities is $2,350 million, with a maturity date of June 29, 2029. The balance drawn on the bilateral credit facility, net of deferred financing costs, was $1,882 million as at June 30, 2024 (December 31, 2023: $1,440 million). The partnership had $1 billion available on its revolving credit facility with Brookfield (the "Brookfield Credit Agreement") as at June 30, 2024. The credit facility is guaranteed by the partnership, the Holding LP and certain of the partnership's subsidiaries. The credit facility is available in U.S. dollars or Canadian dollars and advances are made by way of SOFR, base rate, bankers' acceptance rate or prime rate loans. The credit facility bears interest at the specified SOFR or bankers' acceptance rate plus 3.45%, or the specified base rate or prime rate plus 2.45%. The credit facility requires the partnership to maintain a minimum deconsolidated net worth and contains restrictions on the ability of the borrowers and the guarantors to, among other things, incur certain liens or enter into speculative hedging arrangements. Net proceeds above a specified threshold that are received by the borrowers from asset dispositions, debt incurrences or equity issuances by the borrowers or their subsidiaries must be used to pay down the credit facility (which can then be redrawn to fund future investments). The maturity date of the credit facility is April 27, 2028, which date will automatically extend for a one-year period on April 27 of each year unless Brookfield provides written notice of its intention not to further extend the then prevailing maturity date. The total available amount on the credit facility will decrease to $500 million on April 27, 2025. As at June 30, 2024, the credit facility remained undrawn. The partnership is currently in compliance with covenant requirements of its corporate borrowings and continues to monitor performance against such covenant requirements. As at June 30, 2024, there were no funds on deposit from Brookfield (December 31, 2023: $nil). Refer to Note 17 for further details on the Deposit Agreements (defined herein) with Brookfield. (b)Non-recourse subsidiary borrowings of the partnership <div style="margin-bottom:8pt;margin-top:8pt;text-align:justify;text-

indent:36pt">Current and non-current non-recourse subsidiary borrowings in subsidiaries of the partnership as at June 30, 2024, net of deferred financing costs, premiums and discounts, were $2,965 million and $37,275 million, respectively (December 31, 2023: $2,757 million and $38,052 million, respectively). Non-recourse borrowings in subsidiaries of the partnership include borrowings made under subscription facilities of Brookfield-sponsored private equity funds. Some of the partnership's operations have credit facilities in which they borrow and repay on a short-term basis. This movement has been shown on a net basis in the partnership's unaudited interim condensed consolidated statements of cash flow. The partnership has financing arrangements within its operating businesses that trade in public markets or are held at major financial institutions. The financing arrangements are primarily composed of term loans, securitization programs, credit facilities and notes and debentures which are subject to fixed or floating interest rates. The majority of borrowings drawn are not subject to financial maintenance covenants, however, some are subject to fixed charge coverage, leverage ratios and minimum equity or liquidity covenants. The partnership principally finances assets at the subsidiary level with debt that is non-recourse to both the partnership and to its other subsidiaries and is generally secured against assets within the respective subsidiaries. Moreover, debt instruments at the partnership's subsidiaries do not cross-accelerate or cross-default to debt at other subsidiaries. The partnership's subsidiaries are currently in compliance with all material covenant requirements and the partnership continues to work with its businesses to monitor performance against such covenant requirements. 0.0250 0.0150 2350000000 1882000000 1440000000 1000000000 0.0345 0.0245 500000000 0 0 2965000000 37275000000 2757000000 38052000000 RELATED PARTY TRANSACTIONS In the normal course of operations, the partnership entered into the transactions below with related parties. These transactions have been measured at fair value and are recognized in the unaudited interim condensed consolidated financial statements. (a)Transactions with Brookfield The partnership is a party to the Brookfield Credit Agreement, which permits borrowings of up to $1 billion. As at June 30, 2024, $nil was drawn on the credit facilities under the Brookfield Credit Agreement (December 31, 2023: $nil). Refer to Note 16 for further details. From time to time, each of Brookfield and the partnership may place funds on deposit with the other, on terms approved by the independent directors of the partnership's General Partner, pursuant to deposit agreements entered into between Brookfield and the partnership (the "Deposit Agreements"). Interest earned or incurred on such deposits is at market terms. As at June 30, 2024, the net deposit from Brookfield was $nil (December 31, 2023: $nil) and the partnership incurred interest income (expense) of $nil for the three and six months ended June 30, 2024 (June 30, 2023: $nil) on these deposits. Pursuant to the Master Services Agreement ("Master Services Agreement"), Brookfield Business Partners L.P. and other service recipients (the "Service Recipients" as defined in the Master Services Agreement) pay a base management fee, referred to as the Base Management Fee, to certain service providers (the "Service Providers" as defined in the Master Services Agreement) equal to 0.3125% per quarter (1.25% annually) of the total capitalization of the partnership, which is reflected within general and administrative expenses. For purposes of calculating the base management fee, the total capitalization of the partnership is equal to the quarterly volume-weighted average trading price of an LP Unit on the principal stock exchange for the LP Units (based on trading volumes) multiplied by the number of LP Units outstanding at the end of the quarter (assuming full conversion of the Redemption-Exchange Units into LP Units of Brookfield Business Partners L.P.), plus the value of securities of the other Service Recipients (including the BBUC exchangeable shares) that are not held by the partnership, plus all outstanding debt with recourse to a Service Recipient, less all cash held by such entities. The base management fee for the three and six months ended June 30, 2024 was $21 million and $44 million, respectively (June 30, 2023: $23 million and $46 million, respectively). In its capacity as the holder of the Special LP Units, Brookfield is entitled to incentive distribution rights. The incentive distribution for the three and six months ended June 30, 2024 was $nil (June 30, 2023: $nil).</div><div style="margin-bottom:8pt;margin-top:8pt;text-align:justify;text-indent:36pt">An integral part of the partnership's strategy is to participate with institutional investors in Brookfield-sponsored private equity funds that target acquisitions that suit the partnership's investment mandate. In the normal course of business, the partnership and institutional investors have made commitments to Brookfield-sponsored private equity funds, and in connection therewith, the partnership, together with institutional investors, has access to short-term financing using the private equity funds' credit facilities to facilitate investments that Brookfield has determined to be in the partnership's best interests.</div><div style="margin-bottom:8pt;margin-top:8pt;text-align:justify;text-indent:36pt">In addition, at the time of spin-off of the partnership from Brookfield in 2016, the partnership entered into indemnity agreements with Brookfield that relate to certain contracts that were in place prior to the spin-off. The CODM uses adjusted earnings from operations ("Adjusted EFO") to assess performance and make resource allocation decisions. Adjusted EFO allows the CODM to evaluate the partnership's segments on the basis of return on invested capital generated by its operations and to evaluate the performance of its segments on a levered basis. Adjusted EFO is calculated as net income and equity accounted income at the partnership's economic ownership interest in consolidated subsidiaries and equity accounted investments, respectively, excluding the impact of depreciation and amortization expense, deferred income taxes, transaction costs, restructuring charges, unrealized revaluation gains or losses, impairment expenses or reversals and other income or expense items that are not directly related to revenue generating activities. The partnership's economic ownership interest in consolidated subsidiaries excludes amounts attributable to non-controlling interests consistent with how the partnership determines net income attributable to non-controlling interests in its unaudited interim condensed consolidated statements of operating results. In order to provide additional insight regarding the partnership's operating performance over the lifecycle of an investment, Adjusted EFO includes the impact of preferred equity distributions and realized disposition gains or losses recorded in net income, other comprehensive income, or directly in equity, such as ownership changes. Adjusted EFO does not include legal and other provisions that may occur from time to time in the partnership's operations and that are one-time or non-recurring and not directly tied to the partnership's operations, such as those for litigation or contingencies. Adjusted EFO includes expected credit losses and bad debt allowances recorded in the normal course of the partnership's operations. Other income (expense), net in the partnership's unaudited interim condensed consolidated statements of operating results includes amounts that are not related to revenue generating activities, and are not normal, recurring operating income and expenses necessary for business operations. These include revaluation gains and losses, transaction costs, restructuring charges, stand-up costs and business separation expenses, gains or losses on debt extinguishments or modifications, gains or losses on dispositions of property, plant and equipment, non-recurring and one-time provisions that may occur from time to time at one of the partnership's operations that are not reflective of normal operations, and other items. Other income (expense), net included within Adjusted EFO in the tables below corresponds to items of other income (expense), net at the partnership's economic ownership interest that are considered by the partnership when evaluating operating performance and returns on invested capital generated by its businesses and may include realized revaluation gains and losses, realized gains or losses on the disposition of property, plant and equipment, and other items. Refer to the footnotes to the tables below for additional details on items included therein. Gain (loss) on acquisitions/dispositions, net in Adjusted EFO reflects the partnership's economic ownership interest in the gains or losses on acquisitions/dispositions recognized during the period in unaudited interim condensed consolidated statements of operating results that are considered by the partnership when evaluating the performance and returns on invested capital generated by its businesses. Gain (loss) on acquisitions/dispositions, net recorded in equity in Adjusted EFO corresponds to the partnership's economic ownership interest in gains and losses recorded in the unaudited interim condensed consolidated statements of changes in equity that have been realized through a completed disposition, including material realized disposition gains or losses that may be recorded in equity on the partial disposition of a subsidiary where the partnership retains control and through the sale of an investment in securities accounted for as financial assets measured at fair value with changes in fair value recorded in other comprehensive income. The following tables provide each segment's results at the partnership's economic ownership interest, in the format that the CODM organizes reporting segments to make resource allocation decisions and assess performance. Amounts attributable to non-controlling interests are calculated based on the economic ownership interests held by non-controlling interests in consolidated subsidiaries. The tables below reconcile the partnership's economic ownership interest in its consolidated results to the partnership's unaudited interim condensed consolidated statements of operating results. <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:24.777%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:7.087%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:12.204%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:9.280%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:8.695%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:6.502%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.449%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.384%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:8.702%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom"> </td><td colspan="39" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Three Months Ended June 30, 2024</td></tr><tr style="height:14pt"><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom"> </td><td colspan="27" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Total attributable to Unitholders</td><td colspan="3" style="border-top:1pt solid #000;padding:0 1pt"></td><td colspan="3" rowspan="2" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">Attributable to non-controlling interests</td><td colspan="3" style="border-top:1pt solid #000;padding:0 1pt"></td><td colspan="3" rowspan="2" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">As per IFRS Financials</td></tr><tr style="height:30pt"><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom">(US$ MILLIONS)</td><td colspan="3" style="border-top:1pt solid #000000;padding:2px 1pt;text-align:center;vertical-align:bottom">Business
