Loans that experience insignificant payment delays and payment shortfalls generally are not adversely classified or determined to not share similar risk characteristics with collectively evaluated pools of loans for determination of the ACL estimate. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record and the amount of the shortfall in relation to the principal and interest owed. Significant payment delays or shortfalls may lead to a

determination that a loan should be individually evaluated for estimated credit losses. Collateral Dependent Loans. At September 30, 2024, there were no nonaccrual loans individually evaluated for which no ACL was recorded. Interest income recognized on nonaccrual loans in the three-month periods ended September 30, 2024 and 2023, was immaterial. Modifications to Borrowers Experiencing Financial Difficulty. The Company adopted ASU 2022-02, “Financial Instruments – Credit Losses (Topic 326), Troubled Debt Restructurings and Vintage Disclosures,” effective July 1, 2023. The amendments in ASU 2022-02 eliminated the recognition and measurement of TDRs and enhanced disclosures for loan modifications to borrowers experiencing financial difficulty. During the three-month periods ended September 30, 2024 and 2023, there were no loan modifications made for borrowers experiencing financial difficulty. Residential Real Estate Foreclosures. The Company may obtain physical possession of real estate collateralizing a residential mortgage loan or home equity loan via foreclosure or in-substance repossession. The Company elected certain relief options under ASU 2016-02, Leases (Topic 842), including the option not to recognize right of use asset and lease liabilities that arise from short-term leases (leases with terms of twelve months or less). At September 30, 2024, the Company had ten leased properties, which included banking facilities, administrative offices and ground leases, and numerous office equipment lease agreements in which it was the lessee, with lease terms exceeding twelve months. All of the Company’s leases are classified as operating leases. These operating leases are included as a ROU asset in the premises and equipment line item on the Company’s consolidated balance sheets. The corresponding lease liability is included in the accounts payable and other liabilities line item on the Company’s consolidated balance sheets. In the February 2022 acquisition of Fortune, the Company assumed a ground lease with an entity that is controlled by a Company insider. This property is in St. Louis County, MO and is in its fourth year of a twenty year term. ASU 2016-02 also requires certain other accounting elections. The Company elected the short-term lease recognition exemption for all leases that qualify, meaning those with terms under twelve months. ROU assets or lease liabilities are not to be recognized for short-term leases. The calculated amount of the ROU assets and lease liabilities in the table below are impacted by the length of the lease term and the discount rate used to present value the minimum lease payments. The Company’s lease agreements often include one or more options to renew at the Company’s discretion. If at lease inception, the Company considers the exercising of a renewal option to be reasonably certain, the Company will include the extended term in the calculation of the ROU asset and lease liability. Regarding the discount rate, the ASU requires the use of the rate implicit in the lease whenever this rate is readily determinable. As this rate is rarely

determinable, the Company utilizes its incremental borrowing rate at lease inception over a similar term. The expected lease terms range from 18 months to 20 years. <table style="border-collapse:collapse;font-size:16pt;height:max-content;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;width:69.75%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.55%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:12.22%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.95%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.14%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:11.4%;margin:0pt;padding:0pt;"> </td></tr><tr><td style="vertical-align:bottom;width:69.75%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.95%;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:13.78%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> September 30, 2024 </td><td style="vertical-align:bottom;white-space:nowrap;width:1.95%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"> </td><td colspan="2" style="vertical-align:bottom;white-space:nowrap;width:12.54%;border-bottom:1px solid #000000;margin:0pt;padding:0pt;"><p style="font-family:'Times New

The Bank made “safe harbor” matching contributions to the Plan of up to 4% of eligible compensation, depending upon the percentage of eligible pay deferred into the plan by the employee, and also made additional, discretionary profit-sharing contributions for fiscal 2024. For fiscal 2025, the Company has maintained the safe harbor matching contribution of up to 4% , and expects to continue to make additional, discretionary profit-sharing contributions. During the three-month period ended September 30, 2024, retirement plan expenses recognized for the Plan totaled approximately $760,000, as compared to $711,000 for the same period of the prior fiscal year. Employee deferrals and safe harbor contributions are fully vested. Profit-sharing or other contributions vest over a period of five years. 0.040.04760000711000P5Y Note 11: Subordinated Debt In March 2004, the Company established Southern Missouri Statutory Trust I as a statutory business trust, to issue Floating Rate Capital Securities (the “Trust Preferred Securities”). The securities mature in 2034, became redeemable after five years, and bear interest at a floating rate based on SOFR. The securities represent undivided beneficial interests in the trust, which was established by the Company for the purpose of issuing the securities. The Trust Preferred Securities were sold in a private transaction exempt from registration under the Securities Act of 1933, as amended (the “Act”) and have not been registered under the Act. The securities may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements. Southern Missouri Statutory Trust I used the proceeds from the sale of the Trust Preferred Securities to purchase Junior Subordinated Debentures (the “Debentures”) of the Company which have terms identical to the Trust Preferred Securities. At September 30, 2024, the Debentures carried an interest rate of 7.95%. The balance of the Debentures outstanding was $7.2 million at both September 30, 2024 and June 30, 2024. The Company used its net proceeds for working capital and investment in its subsidiaries. In connection with the October 2013 Ozarks Legacy Community Financial, Inc. (OLCF) merger, the Company assumed $3.1 million in floating rate junior subordinated debt securities. The debt securities had been issued in June 2005 by OLCF in connection with the sale of trust preferred securities, bear interest at a floating rate based on SOFR, are now redeemable at par, and mature in 2035. At September 30, 2024, the current rate was 7.66%. The carrying value of the debt securities was approximately $2.8 million at both September 30, 2024 and June 30, 2024. In connection with the August 2014 Peoples Service Company, Inc. (PSC) merger, the Company assumed $6.5 million in floating rate junior subordinated debt securities. The debt securities had been issued in 2005 by PSC’s subsidiary bank holding company, Peoples Banking Company, in connection with the sale of trust preferred securities, bear interest at a floating rate based on SOFR, are now redeemable at par, and mature in 2035. At September 30, 2024, the current rate was 7.01%. The carrying value of the debt securities was approximately $5.5 million at September 30, 2024 and $5.6 million at June 30, 2024. The Company’s investment at a face amount of $505,000 in these trusts is included with Prepaid Expenses and Other Assets in the consolidated balance sheets, and is carried at a value of $468,000 and $467,000 at

September 30, 2024 and June 30, 2024, respectively. In connection with the February 2022 Fortune merger, the Company assumed $7.5 million in fixed-to-floating rate subordinated notes. The notes had been issued in May 2021 by Fortune to a multi-lender group, bear interest through May 2026 at a fixed rate of 4.5% and will bear interest thereafter at SOFR plus 3.77%. The notes will be redeemable at par beginning in May 2026, and mature in May 2031. The carrying value of the notes was approximately $7.6 million at both September 30, 2024 and June 30, 2024. style="font-family:'Times New Roman','Times','serif';font-size:10pt;margin:0pt 0pt 10pt 0pt;"> Note 12: Fair Value Measurements ASC Topic 820, Fair Value Measurements, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value: Level 1 Quoted prices in active markets for identical assets or liabilities Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in active markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities Level 3 Unobservable inputs supported by little or no market activity that are significant to the fair value of the assets or liabilities Recurring Measurements. The following table presents the fair value measurements recognized in the accompanying condensed consolidated balance sheets measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at September 30, 2024 and June 30, 2024: <table style="border-collapse:collapse;font-size:16pt;height:max-content;margin-left:-0.010307312%;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;width:46.21%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.64%;margin:0pt;padding:0pt;"> <span style="font-

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying consolidated balance sheets, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the three months ended September 30, 2024. Available-for-sale Securities. When quoted market prices are available in an active market, securities are classified within Level 1. If quoted market prices are not available, then fair values are estimated using pricing models, or quoted prices of securities with similar characteristics. For these securities, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond’s terms and conditions, among other things. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. Derivative financial instruments. The Company’s derivative

financial instruments consist of interest rate swaps on loans accounted for as fair value hedges. The fair value of interest rate swaps was determined by discounting the expected cash flows of the interest rate swaps. This valuation reflects the contractual terms of the interest rate swaps, including the period to maturity, and uses observable market-based inputs. The inputs used to value the Company's interest rate swaps fall within Level 2 of the fair value hierarchy and, as a result, the interest rate swaps were categorized as Level 2 within the fair value hierarchy. There were no transfers between levels of the fair value hierarchy during the period ended September 30, 2024. See information regarding the Company's derivative financial agreements in Note 13: Derivative Financial Instruments of these Notes to Consolidated Financial Statements.

Mortgage servicing rights. The Company records MSR at fair value on a recurring basis with subsequent remeasurement of MSR based on change in fair value. An estimate of the fair value of the Company's MSR is determined by utilizing assumptions about factors such as mortgage interest rates, discount rates, mortgage loan prepayment speeds, market trends and industry demand. All of the Company's MSR are classified as Level 3.

Nonrecurring Measurements. The following tables present the fair value measurement of assets measured at fair value on a nonrecurring basis and the level within the ASC 820 fair value hierarchy in which the fair value measurements fell at September 30, 2024 and June 30, 2024:

For assets classified within Level 3 of fair value hierarchy, the process used to develop the reported fair value process is described below. Foreclosed and Repossessed Assets Held for Sale. Foreclosed and repossessed assets held for sale are valued at the time the loan is foreclosed upon or collateral is repossessed and the asset is transferred to foreclosed or repossessed assets held for sale. The value of the asset is based on third party or internal appraisals, less estimated costs to sell and appropriate discounts, if any. The appraisals are generally discounted based on current and expected market conditions that may impact the sale or value of the asset and management's knowledge and experience with similar assets. Such discounts typically may be significant and result in a Level 3 classification of the inputs for determining fair value of these assets. Foreclosed and repossessed assets held for sale are continually evaluated for additional impairment and are adjusted accordingly if impairment is identified. Unobservable (Level 3) Inputs. The following tables present quantitative information about unobservable inputs used in nonrecurring Level 3 fair value measurements at September 30, 2024 and June 30, 2024. 1 <table style="border-collapse:collapse;font-size:16pt;height:max-content;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;white-space:nowrap;width:17.75%;margin:0pt;padding:0pt;"> 1 </td><td style="vertical-align:bottom;white-space:nowrap;width:1.64%;margin:0pt;padding:0pt;"> 1 </td><td style="vertical-

decoration-style:solid;">Derivative Financial Instruments</p><p style="font-

family:'Times New Roman','Times','serif';font-size:10pt;margin:0pt;"> The Company enters into derivative financial instruments, primarily interest rate swaps, to convert certain long term fixed rate loans to floating rates to manage interest rate risk, facilitate asset/liability management strategies and manage other exposures. The fair value of derivative positions outstanding is included in other assets and other liabilities in the accompanying consolidated balance sheets and in the net change in each of these line items in the operating section of the accompanying consolidated statements of cash flows. The unrealized gains and losses, representing the change in fair value of the derivative, are being recorded in interest income in the consolidated statements of income. The ineffective portions of the unrealized gains or losses, if any, are recorded in interest income and interest expense in the consolidated statements of income. The Company executed one interest rate swap, with an original notional amount of $10.0 million, during the first quarter of fiscal 2025, and executed two interest rate swaps, with original notional amounts of $20.0 million each, during the fourth quarter of fiscal 2024, for a total of $50.0 million, designated as fair value hedges, to convert certain long-term fixed rate 1-4 family loans to floating rates to hedge interest rate risk exposure. The portfolio layer method is being used, which allows the Company to designate a stated amount of the assets that are not expected to be affected by prepayments, defaults or other factors that could affect the timing and amount of the cash flow, as the hedged item. The effect of the swaps on loan interest income in the income statement during the three-month period ended September 30, 2024, totaled $178,000, and none in the same period of the prior year. The notional amounts and estimated fair values of the Company’s interest rate swaps at September 30, 2024 and June 30, 2024 are presented in the tables below: <table style="border-collapse:collapse;font-size:16pt;height:max-content;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;white-space:nowrap;width:65.36%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:2.06%;margin:0pt;padding:0pt;"> <p style="font-family:'Times New

wrap;">Note 14: Business Combinations On January 20, 2023, the Company completed its acquisition of Citizens and its wholly owned subsidiary, Citizens Bank & Trust Company (Citizens Bank), in a stock and cash transaction. In late February 2023, the Company merged Citizens Bank with and into Southern Bank, coincident to the data systems conversion. For the three-month period ended September 30, 2023, the Company incurred $125,000, compared to none in the same period of the current fiscal year, of third-party acquisition-related costs, included in noninterest expense in the Company's condensed consolidated statements of income. Under the acquisition method of accounting, the total purchase price is allocated to the net tangible and intangible assets acquired based on their estimated fair values on the date of the acquisition. Based on preliminary valuations of the fair value of tangible and intangible assets acquired and liabilities assumed, the purchase price for the Citizens acquisition is detailed in the following table. If, prior to the end of the one-year measurement period for finalizing the purchase price allocation, information becomes available about facts and circumstances that existed as of the acquisition date, which would indicate adjustments are required to the purchase price allocation, such adjustments will be included in the purchase price allocation retrospectively. <table style="border-collapse:collapse;font-size:16pt;height:max-content;padding-left:0pt;padding-right:0pt;width:100%;"><tr style="height:1pt;"><td style="vertical-align:bottom;white-space:nowrap;width:77.34%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:3.05%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:1.91%;margin:0pt;padding:0pt;"> </td><td style="vertical-align:bottom;white-space:nowrap;width:17.67%;margin:0pt;padding:0pt;"> </td></tr><tr><td style="vertical-align:bottom;white-space:nowrap;width:77.34%;margin:0pt;padding:0pt;"> Citizens Bancshares Company </td><td style="vertical-align:bottom;white-space:nowrap;width:3.05%;margin:0pt;padding:0pt;"> </td><td
