Asure Software, Inc. ("Asure", the "Company", "we" and "our"), a Delaware corporation, is a provider of cloud-based Human Capital Management ("HCM") software solutions delivered as Software-as-a-Service ("SaaS") for small and medium-sized businesses ("SMBs"). We offer human resources ("HR") tools necessary to build a thriving workforce, provide the resources to stay compliant with dynamic federal, state, and local tax jurisdictions and their respective labor laws, freeing cash flows so SMBs can spend their financial capital on growing their businesses rather than administrative overhead that can impede growth. Our solutions also provide new ways for employers to connect with **and to differentiate themselves with their** employees in order to enhance their relationships with their talent. Asure's HCM suite ("Asure HCM") includes Payroll & Tax solutions, HR compliance and services, Time & Attendance software and data integrations that enable employers and their employees to enhance efficiencies and take advantage of value-added solutions, which we refer to as AsureMarketplace™. AsureMarketplace™ automates interactions between our HCM systems with third-party providers to enhance efficiency, improve accuracy and to extend the range of services offered to employers and their employees. **The Company's Our** approach to HR compliance services incorporates artificial intelligence technology to enhance scalability and efficiency while prioritizing client interactions. We offer our services directly and indirectly through our network of **Reseller Partners. reseller partners.**

We strive to be the most trusted HCM resource to SMBs. We target less densely populated U.S. metropolitan cities where fewer of our competitors have a presence. Our solutions solve three primary challenges that prevent businesses from growing: HR complexity, allocation of human and financial capital, and the ability to build great teams. We have and will continue to invest in research and development to expand our solutions. Our solutions reduce the administrative burden on employers and increase employee productivity while managing the employment lifecycle. The Asure HCM suite includes five product lines: Asure Payroll & Tax, Asure Tax Management Solutions, Asure Time & Attendance, Asure HR Compliance, and AsureMarketplace™.

We develop, market, sell and support our offerings nationwide through our principal office in Austin, Texas and from our processing hubs in **Alabama**, California, Florida, New Jersey, New York, Tennessee, and Vermont.

We have prepared the accompanying unaudited Condensed Consolidated Financial Statements in accordance with the rules and regulations of the Securities and Exchange Commission (the "SEC") and accordingly, they do not include all information and footnotes required under U.S. generally accepted accounting principles ("U.S. GAAP") for complete financial statements.

In the opinion of management, these interim financial statements contain all adjustments, consisting of normal, recurring adjustments, necessary for a fair presentation of our financial position as of **September 30, 2023** **March 31, 2024**, comprehensive **loss (loss) income** and changes in stockholders' equity for the three **and nine** months ended **September 30,**

2023 March 31, 2024 and September 30, 2022 March 31, 2023, and cash flows for the nine three months ended September 30, 2023 March 31, 2024 and September 30, 2022 March 31, 2023. Certain amounts in the prior period financial statements have been reclassified to conform to the presentation of the current period financial statements. These reclassifications had no effect on the consolidated financial position or consolidated results of operations of the Company.

These unaudited Condensed Consolidated Financial Statements should be read in conjunction with our audited Consolidated Financial Statements and notes thereto filed with the SEC in our annual report on Form 10-K for the fiscal year ended December 31, 2022 December 31, 2023 (our "2022 "2023 Annual Report on Form 10-K"). The Company's results for any interim period are not necessarily indicative of results for a full fiscal year.

## NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

### USE OF ESTIMATES

Preparation of the Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities, the disclosure of contingent assets and liabilities at the date of the Condensed Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. These estimates are subjective in nature and involve judgments. The more significant estimates made by management include the valuation allowance for the gross deferred tax assets, the determination of the fair value of its long-lived assets, and the fair value of assets acquired, and liabilities assumed during acquisitions. We base our estimates on historical experience and on various other assumptions management believes reasonable under the given circumstances. These estimates could be materially different under different conditions and assumptions.

### CASH AND CASH EQUIVALENTS AND RESTRICTED CASH

The Company considers We consider all highly liquid investments with an original maturity of 90 days or less at the time of purchase to be cash equivalents. Cash equivalents include investments in an institutional money market fund, which invests in U.S. Treasury bills, notes and bonds, and/or repurchase agreements, backed by such obligations. Carrying value approximates fair value. Restricted cash consists of cash balances which are restricted as to withdrawal or usage. As of December 31, 2022, the Company had a restricted cash balance of \$500 related to the collateralization of a letter of credit issued by South State Bank in connection with its money transmission licenses, which was released in the first quarter of 2023. As of September 30, 2023, the Company had no restricted cash.

### LIQUIDITY

In March 2021, we filed a universal shelf registration statement on Form S-3 with the Securities and Exchange Commission ("SEC") to provide access to additional capital, if needed. Pursuant to the shelf registration statement, we may from time to time offer to sell in one or more offerings shares of our common stock or other securities having an aggregate value of up to \$150,000 (which includes 1,480 of unsold securities that were previously registered on other registration statements effective at the time of the filing of our current S-3). The shelf registration statement relating to these securities

became effective on April 21, 2021. As of September 30, 2023, there is \$104,000 available under the shelf registration statement.

On August 21, 2023, we completed an underwritten public offering in which we sold an aggregate of 3,333 newly issued shares of our common stock at a public offering price of \$12.00 per share, and realized net proceeds of \$37,475, after deducting underwriting discounts and offering expenses of \$2,525. Additionally, on August 30, 2023, the Underwriters exercised their option to purchase an additional 500 shares of our common stock, and we realized net proceeds of \$5,507, after deducting underwriting discounts and offering expenses of \$493.

As of September 30, 2023, the Company's principal sources of liquidity consisted of approximately \$32,787 of cash, cash equivalents and restricted cash, together with cash generated from operations of our business over the next twelve months.

We cannot assure that we can grow our cash balances or limit our cash consumption and thus maintain sufficient cash balances for our planned operations or future acquisitions; however we believe that we have sufficient liquidity to support our business operations for at least the next twelve months. Future business demands may lead to cash utilization at levels greater than recently experienced or expected. We may need to raise additional capital in the future in order to grow our existing software operations and to seek additional strategic acquisitions in the near future. Currently the Company does not have a credit facility or access to a line of credit. Further, we cannot assure that we will be able to raise additional capital on acceptable terms, or at all.

## NOTE 4 - INVESTMENTS AND FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820 "Fair Value Measurement" (ASC 820) defines fair value, establishes a framework for measuring fair value under U.S. GAAP and enhances disclosures about fair value measurements. Fair value is

defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. ASC 820 describes a fair value hierarchy based on the following three levels of inputs that may be used to measure fair value, of which the first two are considered observable and the last unobservable:

- Level 1: Quoted prices in active markets for *identical* assets or liabilities;
- Level 2: Quoted prices in active markets for *similar* assets or liabilities; quoted prices in markets that are not active for identical or similar assets or liabilities; and model-driven valuations whose significant inputs are observable; and
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table presents the fair value hierarchy for our financial assets and liabilities measured at fair value on a recurring basis as of September 30, 2023 and December 31, 2022, respectively for the periods presented below (in thousands):

As of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **December 31, 2023**, there were **732** and **354** securities, respectively, in an unrealized gain position and there were **159** **141** and **124** **113** securities in an unrealized loss position, respectively. As of **September 30, 2023** **March 31, 2024**, these unrealized losses were less than **\$79** **\$60** individually and **\$2,719** **\$1,489** in the aggregate. As of **December 31, 2022** **December 31, 2023**, these unrealized losses were less than **\$96** **\$61** individually and **\$2,480** **\$1,363** in the aggregate. We invest in high quality securities with roughly 70% of our portfolio made up of A ratings and above with unrealized losses primarily attributable to macroeconomic factors rather than credit related. These securities have not been in a continuous unrealized gain or loss position for more than 12 months. We do not intend to sell these investments and we do not expect to sell these investments before recovery of their amortized cost basis, which may be at maturity. We review our investments to identify and evaluate investments that indicate possible credit losses. Factors considered in determining whether a loss is a credit loss include the length of time and extent to which fair value has been less than the cost basis, the credit rating of the investment, and our intent and ability to hold the investment for a period of time sufficient to allow for any anticipated recovery in market value.

## NOTE 10 - NET LOSS PER SHARE

We compute net income or loss per share based on the weighted average number of common shares outstanding for the period. Diluted net income per share reflects the maximum dilution that would have resulted from incremental common shares issuable upon the exercise of stock options or vesting of RSUs and in some cases PSUs. In periods of net income, we compute the adjustment to the denominator of our dilutive net earnings per share calculation to include these stock options, RSUs, and PSUs, as applicable, using the treasury stock method. Regardless of the period resulting in net income or net loss, we exclude the adjustment to the denominator of our dilutive net loss per share calculation to the extent that they are anti-dilutive.

The following table sets forth the computation of basic and diluted net loss per common share for the periods presented below (in thousands, except per share amounts):

## Our Business

Asure is We are a provider of cloud-based Human Capital Management ("HCM") software solutions delivered as Software-as-a-Service ("SaaS") for small and medium-sized businesses ("SMBs"). We offer human resources ("HR") tools necessary to build a thriving workforce, provide the resources to stay compliant with dynamic federal, state, and local tax jurisdictions and their respective labor laws, freeing cash flows so SMBs can spend their financial capital on growing their businesses rather than administrative overhead that can impede growth. Our solutions also provide new ways for employers to connect with and to differentiate themselves with their employees in order to enhance their relationships with their talent. Asure's HCM suite ("Asure HCM") includes Payroll & Tax solutions, HR compliance and services, Time & Attendance software and data integrations that enable employers and their employees to enhance efficiencies and take advantage of value-added solutions, which we refer to as AsureMarketplace™. AsureMarketplace™ automates interactions between our HCM systems with third-party providers to enhance efficiency, improve accuracy and to extend the range of services offered to employers and their employees. The Company's Our approach to HR compliance services incorporates artificial intelligence technology to enhance scalability and efficiency while prioritizing client interactions. We offer our services directly and indirectly through our network of Reseller Partners, reseller partners.

From recruitment to retirement, our solutions help more than 100,000 SMBs across the United States. Approximately 15,000 of our clients are direct and the 85,000 remaining clients are indirect, as they have contracts with Reseller Partners, reseller partners who white label our solutions.

We strive to be the most trusted HCM resource to SMBs. We target SMBs and are focused on less densely populated U.S. metropolitan cities where fewer of our competitors have a presence. Our solutions solve three primary challenges that prevent businesses from growing: HR complexity, allocation of human and financial capital, and the ability to build great teams. We sell our solutions through both direct and partner channels. We supplement our direct sales efforts with partner programs that afford us access to opportunities in various geographic and industry niches. We have two types of partners: reseller

partners that white label our products while providing value-added services to their clients (or indirect clients) and referral partners that provide us with SMB leads but do not resell our solutions. We have and will continue to invest in research and development to expand our solutions. Our solutions reduce the administrative burden on employers and **increases** **increase** employee productivity while managing the employment lifecycle.

Recurring revenues include Revenue

Recurring revenue includes fees for our payroll, payroll tax, tax management, time and labor management, HR compliance services, AsureMarketplace™ and other Asure solutions as well as fees charged for form filings and delivery of client payroll checks and reports. These revenues are derived from fixed amounts charged per billing period and sometimes an additional fee per employee or transaction processed. We do not require clients to enter into long-term contractual commitments for our services. Our billing period varies by client based on when each client pays its employees, which may be weekly, bi-weekly, semi-monthly or monthly. We also generate recurring revenues from our Reseller Partners that license our solutions. Because recurring revenues are based, in part, on fees for use of our applications and the delivery of checks and reports that are levied on a per-employee basis, our recurring revenues increase as our clients hire more employees. Recurring revenues are recognized in the period services are rendered.

Recurring revenues include revenues relating to the annual processing of payroll forms, such as Form W-2 and Form 1099, and revenues from processing unscheduled payroll runs (such as bonuses) for our clients. Because payroll forms are typically processed in the first quarter of the year and many of our clients are subject to form filing requirements mandated by the Affordable Care Act (“ACA”), first quarter revenues and margins are generally higher than in subsequent quarters. We anticipate our revenues will continue to exhibit this seasonal pattern related to ACA form filings for so long as the ACA (or replacement legislation) includes employer reporting requirements. In addition, we often experience increased revenues during the fourth quarter due to unscheduled payroll runs for our clients that occur before the end of the year. We expect the seasonality of our revenue cycle to decrease to the extent clients utilize more of our non-payroll applications.

Our revenue line also includes interest earned on funds held for clients as well as revenues generated via fixed fee arrangements for provisioning and filing for Employee Retention Tax Credit (“ERTC”) credits. Interest earned is generated from funds we collect from clients in advance of either the applicable due date for payroll tax submissions or the applicable disbursement date for employee payment services. These collections from clients are typically disbursed from one to 30 days after receipt, with some funds being held for up to 120 days. We typically invest funds held for clients in money market funds, demand deposit accounts, commercial paper, fixed income securities and certificates of deposit until they are paid to the applicable tax or regulatory agencies or to client employees. The amount of interest we earn from the investment of client funds is also impacted by changes in interest rates. Asure also generates revenues from provisioning and filing for ERTC. Revenue generated for such activity is based on multi-year contracts with volume commitments and is recorded as recurring revenues. In September 2023, the Internal Revenue Service (“IRS”) announced a moratorium on processing of new ERTC claims through the end of 2023 to allow it to add additional safeguards to prevent future fraudulent and ineligible claims of the tax credit, which may delay our processing services and thus our revenue generated from ERTC and related business lines. Please see “Risk Factors” in Part II, 1A. for more information about risks related to our ERTC business.

Recurring revenue for the three months ended September 30, 2023 March 31, 2024 was \$23,833, \$30,273, an increase of \$3,874, \$2,317, or 19% 8%, from \$19,959 \$27,956 for the three months ended September 30, 2022 March 31, 2023. The increase is primarily due to an increase in HR compliance revenue, an increase in interest earned on funds held for clients, and an increase in revenue from AsureMarketplace™.

Recurring revenue for the nine months ended September 30, 2023 was \$74,749, an increase of \$12,772, or 21%, from \$61,977 for the nine months ended September 30, 2022. ## CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We have prepared our Condensed Consolidated Financial Statements in accordance with U.S. generally accepted accounting principles and included the accounts of our wholly owned subsidiaries. We have eliminated all significant intercompany transactions and balances in the consolidation. Preparation of the Condensed Consolidated Financial Statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates are subjective in nature and involve judgments that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at fiscal year-end and the reported amounts of revenues and expenses during the fiscal year. The more significant estimates made by management include the valuation allowance for our gross deferred tax asset, the determination of the fair value of our long-lived assets. We base our estimates on historical experience and on various other assumptions that management believes are reasonable under the given circumstances. These estimates could be materially different under different conditions and assumptions. Additionally, the actual amounts could differ from the estimates made. Management periodically evaluates estimates used in the preparation of our financial statements for continued reasonableness. We prospectively apply appropriate adjustments, if any, to our estimates based upon our periodic evaluation. For a description of our critical accounting policies, see Management's Discussion and Analysis in our Annual Report on Form 10-K for the year ended **December 31, 2022** **December 31, 2023**.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to our exposure from market risks from those disclosed in our **2022** **2023** Annual Report on Form 10-K.

## ITEM 4. CONTROLS AND PROCEDURES

### Evaluation of Disclosure Control and Procedures

The Company maintains disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act that are designed to ensure that information required to be disclosed in the reports filed or submitted by Asure to the SEC is recorded, processed, summarized, and reported, within the time periods specified by the SEC's rules and forms, and is accumulated and communicated to management including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Company's management, including the Chief Executive Officer and Chief Financial Officer, performed an evaluation to conclude with reasonable assurance that Asure's disclosure controls and procedures were designed and operating effectively to report the information each company is required to disclose in the reports they file with the SEC on a timely basis. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer of Asure have concluded that as of **September 30, 2023** **March 31, 2024**, disclosure controls and procedures were effective.

### Change in Internal Controls over Financial Reporting

During the period ended September 30, 2023 March 31, 2024, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II – OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

We have been, and in the future may be, the defendant or plaintiff in various actions arising in the normal course of business. As of September 30, 2023 March 31, 2024, we were not party to any material legal proceedings.

### ITEM 1A. RISK FACTORS

Except for the risk factor set forth below, there There have been no material changes from the risk factors previously disclosed in the Company's 2022 2023 Annual Report on Form 10-K, filed with the SEC on February 27, 2023 or the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2023, filed with the SEC on August 7, 2023 February 26, 2024, and investors are encouraged to review these risk factors prior to making an investment in us. the Company.

***We generate revenues by providing services to enable businesses to file for Employee Retention Tax Credits under the CARES Act and such regulations will eventually expire, which, following their expiration, will adversely impact our revenues and abuses of this program may require government intervention, that could adversely affect the timing of our processing services and delay or otherwise materially affect our revenue.***

Since the introduction of the Employee Retention Tax Credits in 2021, we have received a significant portion of our tax processing revenues from the support we provide our customers in filing for Employee Retention Tax Credits and we expect revenues from these services to continue to be a significant portion of our tax processing revenues while the Employee Retention Tax Credits are available. Employee Retention Tax Credits are expected, at this time, to expire in 2025; however it is possible that the government could make changes to or revoke the program prior to its scheduled expiration. For example, on September 14, 2023, the IRS announced a moratorium on processing new ERTC claims until at least December 31, 2023 to handle the increased number of fraudulent ERTC claims filed. While the IRS is not pausing the processing of ERTC claims filed before September 14, 2023 and eligible taxpayers retain the right to continue to file legitimate ERTC claims, the moratorium will likely adversely affect revenues earned from support provided to customers who would otherwise undergo ERTC claim processing. Given this, investors should not expect our tax processing revenues from ERTC filings to continue beyond 2025, and any earlier expiration or revocation of the ERTC program, including the moratorium described above, will have an adverse effect on our financial condition and results of operation. Further, we have entered into deferred payment arrangements with some customers and referral partners whereby collections from the customer are expected to be received upon the customer's future receipt of their tax credit. Given the deferred nature of such receipts there is risk pertaining to our ability to collect such amounts in the future. In certain situations, the tax authorities could have the ability to challenge the validity of a business' filing or could challenge our calculations or find other deficiencies in our filings that could expose us to uncertain penalties or damages. Our current outlook envisions continued revenues from ERTC.

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS AND ISSUER PURCHASES OF EQUITY SECURITIES

In July 2023, On February 22, 2024, we issued 450 shares of our common stock to a payroll processing and benefits brokerage servicer based in New Jersey from whom we acquired certain of their assets. The shares were part of the Company paid the outstanding contingent purchase price consideration due in connection with the acquisition such purchase. The shares were valued at \$10.01 per share, or an aggregate of a payroll tax business in July 2020, see Note 3 - Business Combinations \$4,500. The issuance and Asset Acquisitions for more detail on sale of the July 2020 acquisition. As a result, the outstanding contingent consideration of \$2,299 was extinguished with the issuance of 214 shares of the Company's our common stock in lieu of cash and no further contingent obligation remains. The Company relied upon connection with this acquisition are exempt from the exemption provided by Section 4(a)(2) registration requirements of the Securities Act of 1933 as amended, in connection with foregoing issuance pursuant to Section 4(a)(2) thereof and Rule 506(b) of the securities.
