☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended July October 31, 2024

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number: 001-41422

HEART TEST  
LABORATORIES, HEARTSCIENCES INC.

(Exact Name of Registrant as Specified in its Charter)

TEXAS

26-1344466

( State or other jurisdiction of  
incorporation or organization)

(I.R.S. Employer  
Identification No.)

550 Reserve Street, Suite 360

Southlake, Texas

76092

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: (682)-237-7781

Securities registered pursuant to Section 12(b) of the Act:

	Trading	
Title of each class	Symbol(s)	Name of each exchange on which registered
Common Stock	HSCS	The Nasdaq Stock Market LLC
Warrants	HSCSW	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐

Non-accelerated filer ☒

Emerging growth ☒

company

Accelerated filer ☐

Smaller reporting company ☒

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of September 10, 2024 December 12, 2024, the registrant had 911,321 980,321 shares of Common Stock outstanding.

**NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This Quarterly Report on Form 10-Q contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements relate to our future plans, objectives, expectations and intentions and may be identified by terminology such as “may,” “will,” “should,” “expects,” “aims,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential,” “intends,” or “continue,” or the negative of these terms or other comparable terminology. Readers are cautioned that these forward-looking statements are based on our current beliefs, expectations and assumptions and are subject to risks, uncertainties, and assumptions that are difficult to predict, including those identified below, under Part II, Item 1A “Risk Factors” and elsewhere in this Quarterly Report on Form 10-Q and those risks identified under Part I, Item 1A of our Annual Report on Form 10-K for the year ended April 30, 2024 filed with the Securities and Exchange Commission on July 29, 2024 (“2024 Annual Report on Form 10-K”). Therefore, actual results may differ materially and adversely from those expressed, projected or implied in any forward-looking statements. We undertake no obligation to revise or update any forward-looking statements for any reason.

These forward-looking statements may include, but are not limited to, statements relating to our objectives, plans and strategies, statements that contain projections of results of operations or of financial condition, expected capital needs and expenses, statements relating to the research, development, completion and use of our device, and all statements (other than statements of historical facts) that address activities, events or developments that we intend, expect, project, believe or anticipate will or may occur in the future.

Forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties. We have based these forward-looking statements on assumptions and assessments made by our management in light of their experience and their perception of historical trends, current conditions, expected future developments and other factors they believe to be appropriate.

Important factors that could cause actual results, developments and business decisions to differ materially from those anticipated in these forward-looking statements include, among other things:

- our expectation regarding the sufficiency of our existing cash and cash equivalents to fund our current operations;
- our ability to receive regulatory clearance for the MyoVista wavECG or the MyoVista Insights cloud platform from the U.S. Food and Drug Administration (the “FDA”), state regulators, if any, or other similar foreign regulatory agencies, including approval to conduct clinical trials, the timing and scope of those trials and the prospects for regulatory approval or clearance of, or other regulatory action with respect to our current products or other future potential products;
- our ability to further advance the development of the MyoVista wavECG, our 12-lead electrocardiograph (“ECG”) device that also incorporates an additional proprietary AI-ECG algorithm that we have been designing to detect cardiac dysfunction, and future potential products;

- our ability to develop a cloud-based hardware agnostic platform and to develop and incorporate AI-ECG algorithm that platform;
- our ability to launch sales of the MyoVista wavECG, Myo Vista Insights cloud platform and AI-ECG algorithms or any future potential products into the U.S.;
- our assessment of the potential of the MyoVista wavECG device, MyoVista Insights cloud platform and AI-ECG algorithms and any future potential products;
- our planned level of capital expenditures and liquidity;
- our plans to continue to invest in research and development to develop technology for new products;
- our ability to continue to meet the continued listing requirements of Nasdaq (as defined below) could result in a delisting of our shares and penny stock trading;
- the regulatory environment and changes in the health policies and regimes in the countries in which we intend to operate, including the impact of any changes in regulation and legislation that could affect the medical device industry;
- our ability to meet our expectations regarding the commercial supply of our current products and any future products;
- our ability to retain key executives;
- our ability to internally develop new inventions and intellectual property;
- the overall global economic environment;

- 
- the ultimate impact of the COVID-19 pandemic, or any other health epidemic, epidemics, on our business, our clinical trials, our research programs, healthcare system or the global economy as a whole;
  - the impact of competition and new technologies;
  - general market, political and economic conditions in the countries in which we operate;
  - our ability to develop new products and intellectual property;
  - changes in our strategy; and
  - potential litigation.

These statements are only current predictions and are subject to known and unknown risks, uncertainties, and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from those anticipated by the forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by law, we are under no duty to update or revise any of the forward-looking statements, whether as a result of new information, future events or otherwise for any reason.

The Company will continue to file annual, quarterly and current reports, proxy statements and other information with the Securities and Exchange Commission (the “SEC”). Forward-looking statements speak only as of the dates specified in such filings. Except as expressly required under federal securities laws and the rules and regulations of the SEC, we do not undertake any obligation to update any forward-looking statements to reflect events or circumstances arising after any such date, whether as a result of new information or future events or otherwise. You should not place undue reliance on the forward-looking statements included in this report or that may be made elsewhere from time to time by us, or on our behalf. All forward-looking statements attributable to us are expressly qualified by these cautionary statements.

#### NOTE REGARDING COMPANY REFERENCES

Throughout this Quarterly Report on Form 10-Q, “HeartSciences”, the “Company,” “we,” “us” and “our” refer to Heart Test Laboratories, HeartSciences Inc. References to “Fiscal 2025” refer to the 12 months ending April 30, 2025 and references to “Fiscal 2024” refer to the 12 months ended April 30, 2024.

#### REVERSE STOCK SPLIT

Effective May 17, 2024, the Company effected a 1-for-100 reverse stock split of its issued and outstanding shares of Common Stock (the “Reverse Stock Split”). As a result of the Reverse Stock Split, every 100 shares of the Company's issued and outstanding pre-reverse split shares of common stock, par value \$0.001 per share (the “Common Stock”), were combined into one share of Common Stock, except to the extent that the Reverse Stock Split resulted in any of the Company's shareholders owning a fractional share, which was rounded up to the next highest whole share. In connection with the Reverse Stock Split, there was no change in the par value per share of \$0.001. As a result of the Reverse Stock Split, equitable adjustments corresponding to the Reverse Stock Split ratio were made to the Company's outstanding warrants and its other convertible instruments and upon the exercise or vesting of all stock options such that every 100 shares of Common Stock that may be issued upon the exercise of the Company's warrants and stock options and conversion of its other convertible instruments held immediately prior to the Reverse Stock Split represent one share of Common Stock that may be issued upon exercise of such warrants and stock options and conversion of the other convertible instruments immediately following the Reverse Stock Split. Correspondingly, the exercise price per share of Common Stock attributable to the Company's warrants and stock options and the conversion price of its other convertible instruments immediately prior to the Reverse Stock Split was proportionately increased by a multiple of 100 following the Reverse Stock Split.

All Common Stock share and per share data, and exercise price data for applicable Common Stock equivalents, included in these financial statements have been retroactively adjusted to give effect to the Reverse Stock Split for all

periods presented, unless otherwise indicated.

## Notes to Condensed Unaudited Financial Statements

### Note 1. Basis of Presentation

HeartSciences Inc. formerly known as Heart Test Laboratories, Inc. d/b/a HeartSciences (“HeartSciences” or the “Company”) is a medical technology company specializing in cardiovascular diagnostic technology. The Company is a Texas corporation and is headquartered in Southlake, Texas. On October 11, 2024, the Company filed a Certificate of Amendment to its Amended and Restated Certificate of Formation with the Secretary of State of Texas to change the Company's corporate name to “HeartSciences Inc.” (the “Name Change”), with an effective date of October 17, 2024. The Name Change was approved by the Company's shareholders at the Company's Annual Meeting of Shareholders held on January 17, 2024. The Name Change became effective at the open of market on October 23, 2024, and does not affect the Company's ticker symbols or the applicable CUSIP number for the Company's outstanding shares of Common Stock and public warrants.

HeartSciences' focus is on applying AI-based technology to an electrocardiograph (“ECG”) device, to expand and improve an ECG's clinical usefulness. The Company's objective is to make an ECG a far more valuable cardiac screening tool by expanding its clinical capability to detect a broader range of cardiac indications through the development of AI-based ECG cardiovascular algorithms (“AI-ECG”). The Company is seeking to provide AI-ECG solutions in any care setting worldwide in a manner that best suits different providers, either via one of the millions of ECG's currently in clinical use or via its proprietary MyoVista wavECG device. The MyoVista wavECG, is a resting 12-lead ECG that will incorporate HeartSciences' proprietary AI-ECG algorithm designed to provide diagnostic information related to cardiac dysfunction as well as conventional ECG information in the same test. Additionally, the Company is developing a cloud-based platform to provide access to AI-ECG algorithms, both HeartSciences developed and third-party algorithms, (the “MyoVista Insights Cloud Platform”). In the future, the Company intends to deliver a range of AI-ECG algorithms for each product. The Company is preparing to seek U.S. Food and Drug Administration (“FDA”) submission in the first calendar quarter of 2025.

On May 6, 2024, the Company filed a Certificate of Amendment to the Amended and Restated Certificate of Formation with the Secretary of the State of Texas to effect a 1-for-100 reverse stock split (the “Reverse Stock Split”) of its outstanding shares of Common Stock, with an effective date of May 17, 2024. As a result of the Reverse Stock Split, every 100 shares of the Company's issued and outstanding pre-reverse split Common Stock were combined into one share of Common Stock, except to the extent that the Reverse Stock Split resulted in any of the Company's shareholders owning a fractional share, which was rounded up to the next highest whole share. In connection with the Reverse Stock Split, there was no change in the par value per share of \$0.001. As a result of the Reverse Stock Split, equitable adjustments corresponding to the Reverse Stock Split ratio will be made to the Company's outstanding warrants and upon the exercise or vesting of all stock options such that every one hundred (100) shares of Common Stock that may be issued upon the exercise of the warrants and stock options held immediately prior to the Reverse Stock Split will represent one share of Common Stock that may be issued upon exercise of such warrants and stock options immediately following the Reverse Stock Split. Correspondingly, the exercise price per share of Common Stock attributable to the warrants and stock options immediately prior to the Reverse Stock Split will be proportionately increased by a multiple of 100 following the Reverse Stock Split.

All Common Stock share and per share data, and exercise price data for applicable Common Stock equivalents, included in these financial statements have been retroactively adjusted to give effect to the Reverse Stock Split for all periods presented, unless otherwise indicated.

## Note 2. Liquidity, Going Concern and Other Uncertainties

The Company is subject to a number of risks similar to those of early-stage companies, including dependence on key individuals and products, the difficulties inherent in the development of a commercial market, the need to obtain additional capital, competition from larger companies, and other technologies.

The Company has incurred losses each year since inception, **limited capital resources**, and has experienced negative cash flows from operations in each year since inception. At **July 31, 2024** **October 31, 2024** and April 30, 2024, the Company had an accumulated deficit of **\$69.4** **71.5** million and \$67.4 million, respectively. These factors raise substantial doubt regarding the Company's ability to continue as a going concern.

In March 2023, the Company entered into a purchase agreement and a registration rights agreement with an institutional investor, providing for the sale, from time to time at the discretion of the Company, of up to \$15.0 million of the Company's common stock, \$0.001 par value per shares ("Common Stock"), over the thirty-six (36) month term of the purchase agreement (the "Equity Line"). As of **July 31, 2024** **October 31, 2024**, the Company has issued and sold an aggregate **67,878** **109,283** shares of Common Stock, including 1,000 commitment shares, under the Equity Line and received proceeds of approximately **\$1.6** **1.7** million (see Note 5). Subsequent to **July 31, 2024** **October 31, 2024** and

6

---

through the date of this filing, the Company sold **4,905** **32,500** shares of Common Stock under the Equity Line, receiving proceeds of approximately **\$15,000** **96,000**.

In September 2023, the Company entered into an Equity Distribution Agreement (the "EDA") with an institutional investor, pursuant to which the Company may offer and sell an aggregate of up to \$3.25 million of its shares of Common Stock in at-the-market offerings ("ATM Facility"). In November 2023, the EDA was further amended increasing the aggregate amount of Common Stock that may be sold under the ATM Facility from \$3.25 million to up to \$15.0 million. The Company is eligible to sell up to approximately \$11.0 million worth of shares of Common Stock as the aggregate market value of the Company's shares of Common Stock eligible for

5

sale under the EDA is subject to limitations of General Instruction I.B.6 of Form S-3 until such time that the Company's public float equals or exceeds \$75.0 million. \$75.0 million. In the event the aggregate market value of the Company's outstanding Common Stock held by non-affiliates equals or exceeds \$75.0 million, then the one-third limitation on sales set forth in General Instruction I.B.6 of Form S-3 shall not apply to additional sales made pursuant to the EDA. From inception through July 31, 2024 October 31, 2024, the Company has issued and sold an aggregate 530,057 shares of Common Stock and received net proceeds of approximately \$9.8 million, after banker fees, legal fees and other costs under the ATM Facility (see Note 5).

In September 2024, the Company entered into a Note Purchase Agreement note purchase agreement (the "Note Purchase Agreement") with Streeterville Capital, LLC, an accredited investor ("Streeterville"), pursuant to which Streeterville the Company issued the Company to Streeterville an unsecured promissory note in the original principal amount of \$2,510,000 (the "Streeterville Note"). The Streeterville Note), which included carried an original issuance discount OID of \$500,000 (the "OID") and \$10,000 was withheld from the Streeterville Note for reimbursement of Streeterville's transaction expenses expenses. Additionally, the Company incurred debt financing costs of \$10,000 159,700. See further discussion As a result, the Company received aggregate net proceeds of approximately \$1.9 million in connection with the issuance of the Streeterville Note. (see Note 9.4).

Based on the Company's forecasts business plan assumptions and cashflow projections, expected cash burn rate, management believes that current resources would be insufficient to fund operations to achieve commercialization. for the next twelve months following the issuance of these financial statements. Additionally, the FDA can delay, limit or deny clearance of a medical device for many reasons outside the Company's control which may involve substantial unforeseen costs.

Management's plans include raising capital through the sale of additional equity securities, debt, or capital inflows from strategic partnerships. Management can provide no assurance that such financing or strategic relationships will be available on acceptable terms, or at all, which would likely have a material adverse effect on the Company and its financial statements.

The condensed unaudited financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern for a reasonable period.

### Note 3. Summary of Significant Accounting Policies

#### Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“US GAAP”) and in conformity with the instructions on Form 10-Q and Rule 8-03 of Regulation S-X and the related rules and regulations of the U.S. Securities and Exchange Commissions (“SEC”) and have been prepared on a basis which assumes that the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. In the opinion of management, the unaudited interim financial statements reflect all adjustments, which include only normal recurring adjustments necessary for the fair statement of the balances and results of operations for the periods presented. The interim operating results are not necessarily indicative of results that may be expected for any subsequent period. The accompanying unaudited condensed financial statements should be read in conjunction with the Company’s audited financial statements and notes thereto included in the 2024 Annual Report on Form 10-K.

**Use of Estimates**

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

**Cash and Cash Equivalents**

7

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. The fair value of cash and cash equivalents approximates carrying value. At times, the Company’s cash balances may exceed the current insured amounts under the Federal Deposit Insurance Corporation (“FDIC”).

**Inventory**

All inventories are stated at lower of cost or net realizable value, with cost determined substantially on a “first-in, first-out” basis. The following is a summary of the Company’s inventories at July 31, 2024 October 31, 2024 and April 30, 2024:

6

	July 31, 2024	April 30, 2024	October 31, 2024	April 30, 2024
Raw materials	\$ 322,996	\$ 322,996	\$ 322,996	\$ 322,996
Sub-assemblies	361,296	347,436	371,164	347,436
Work in progress	21,741	21,741	21,741	21,741
Finished goods	22,581	22,581	22,581	22,581
Reserve for obsolescence	(85,575)	(85,575)	(85,575)	(85,575)
Total Inventory	\$ 643,039	\$ 629,179	\$ 652,907	\$ 629,179

Inventory consists mainly of raw materials and components used in the current hardware build of the MyoVista wavECG devices and components are used for research and development purposes and device sales, which to date have been in international markets as sale of the MyoVista wavECG in the U.S. is subject to FDA clearance. Management believes that its hardware platform is in final form, however, prior to FDA clearance and market acceptance of the MyoVista wavECG, further hardware changes could be necessary which could have an impact on net realizable values. The majority of the Company's current inventory is intended for use to build finished products following regulatory clearance. Finished products do not contain materials that would degrade significantly over the useable life of the device and are considered to have a useable life of over seven years. Existing inventory related to finished devices are planned to be updated to the latest hardware revision and specifically allocated to a limited distribution for field reliability studies and are not slated for general purpose sales. The Company periodically evaluates inventory and makes specific write-offs and provides an allowance for inventory that is considered obsolete due to hardware and or software related changes. If the Company does not receive FDA clearance and/or obtain market acceptance of the MyoVista wavECG, the Company could have further material write-downs of inventory due to obsolescence in excess of the amount currently reserved.

## Research and Development Expenses

In accordance with ASC Topic 730, *Accounting for Research and Development Costs*, the Company accounts for research and development expenditures, including payments to collaborative research partners and regulatory filing costs, as research and development expenses. Accordingly, all research and development costs are charged to expense as incurred.

## Property and Equipment

Property and equipment are recorded at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives. The range of estimated useful lives used to calculate depreciation is generally 3 to 5 years. Ordinary maintenance and repairs are charged to expense as incurred, and replacements and betterments are capitalized. When items are retired or otherwise disposed, the related cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in other income (expense).

The following is a summary of the Company’s property and equipment at **July 31, 2024** **October 31, 2024** and April 30, 2024:

	<u>July 31,</u>	<u>April 30,</u>	<u>October 31,</u>	<u>April 30,</u>
	<u>2024</u>	<u>2024</u>	<u>2024</u>	<u>2024</u>
Equipment	\$ 462,375	\$ 462,375	\$ 465,532	\$ 462,375
Furniture & fixtures	102,563	102,563	102,563	102,563
Leasehold improvements	32,812	32,812	32,812	32,812
Total	597,750	597,750	600,907	597,750
Less: Accumulated depreciation	(511,623)	(499,759)	(523,838)	(499,759)
Property and equipment, net	<u>\$ 86,127</u>	<u>\$ 97,991</u>	<u>\$ 77,069</u>	<u>\$ 97,991</u>

**Deferred Offering Costs**

The Company capitalizes certain legal, professional, and other-third party charges related to its efforts to raise capital and other ongoing equity financings as deferred offering costs until fully consummated. These costs are deferred until the completion of the

8

offerings at which time they are reclassified to additional paid-in-capital as a reduction of the offering proceeds. If the Company terminates the planned offering, all of the deferred offering costs will be immediately written off to operating expenses.

In March, 2023, the Company entered into the Equity Line. Deferred offering costs associated with the Equity Line are reclassified to additional paid in capital on a pro-rata basis over the term of the agreement.

In September 2023, the Company entered into an EDA to sell its Common Stock under the ATM Facility. Deferred offering costs associated with the ATM Facility are reclassified to additional paid in capital on a pro-rata basis.

7

In October 2023, September 2024, the Company filed an S-1/A registration statement which has not yet been declared effective by the SEC. These costs are deferred until the completion of the offerings at which time they are reclassified to additional paid-in-capital as a reduction of the offering proceeds.

As of July 31, 2024, October 31, 2024 and April 30, 2024, \$663,490, 704,044 and \$692,988 of deferred offering costs were capitalized on the balance sheet, respectively.

## Fair Value Measurements

The accounting guidance establishes a consistent framework for measuring fair value and expands disclosure for each major asset and liability category measured at fair value on either a recurring or nonrecurring basis. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset transaction between market participants on the measurement date. Where available, fair value is based on observable market prices or is derived from such prices. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability.

As a basis for considering such assumptions, the accounting guidance establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 – Observable inputs such as quoted prices in active markets;
- Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly;
- Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the assignment of an asset or liability within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

Management's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. The carrying amounts of the Company's financial instruments, which primarily include cash and cash equivalents, accounts payable and accrued expenses, approximate their fair values due to their short-term nature. The carrying amounts of the Company's existing notes payable approximate their fair values at the stated interest rates and are reflective of the prevailing market rates.

## Long-Lived Assets

Long-lived assets, such as equipment and intangible assets, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If circumstances require a long-lived asset or asset group be tested for possible impairment, the Company first compares undiscounted cash flows

expected to be generated by that asset or asset group to its carrying amount. If the carrying amount of the long-lived asset or asset group is determined to not be recoverable on an undiscounted cash flow basis, an impairment is recognized to the extent the carrying amount exceeds its fair value.

## Leases

The Company determines if a contract is or contains a lease at inception or modification of a contract. A contract is or contains a lease if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration. Control over the use of the identified asset means the lessee has both (a) the right to obtain substantially all of the economic benefits from the use of the asset and (b) the right to direct the use of the asset. Right-of-use assets and liabilities are recognized based on the present value of future minimum lease payments over the expected lease term at commencement date. The Company measures and records a

9

---

right-of-use asset and lease liability based on the discount rate implicit in the lease, if known. In cases where the discount rate implicit in the lease is not known, the Company measures the right-of-use assets and lease liabilities using a discount rate equal to the Company's estimated incremental borrowing rate for loans with similar collateral and duration.

The Company elected to not apply the recognition requirements to leases of all classes of underlying assets that, at the commencement date, have a lease term of 12 months or less and do not include an option to purchase the underlying asset that the lessee is reasonably certain to exercise. Instead, lease payments for such short-term leases are recognized in operations on a straight-line basis over the lease term and variable lease payments in the period in which the obligation for those payments is incurred.

8

---

## Stock-Based Compensation

The Company accounts for employee and non-employee share-based compensation in accordance with the provisions of ASC 718, *Compensation – Stock Compensation*. Under ASC 718, share-based compensation cost is

measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the requisite service period (generally the vesting period of the equity grant).

The estimated fair value of common stock option awards is calculated using the Black-Scholes option pricing model, based on key assumptions such as fair value of common stock, expected volatility, and expected term. These estimates require the input of subjective assumptions, including (i) the expected stock price volatility, (ii) the calculation of the expected term of the award, (iii) the risk-free rate and (iv) expected dividend yields. These assumptions are primarily based on historical data, peer company data and the judgment of management regarding future trends and other factors.

Management has estimated the expected term of its Common Stock options using the “simplified” method, whereby, the expected term equals the arithmetic average of the vesting term and the original contractual term of the option due to its lack of sufficient historical data. The risk-free interest rates for periods within the expected term of the option are based on the US Treasury securities with a maturity date that commensurate with the expected term of the associated award. There is no expected dividend yield since the Company has never paid cash dividends and does not expect to pay cash dividends in the foreseeable future.

For stock options issued to employees and non-employees, the fair value of stock-based awards is recognized as compensation expense over the requisite service period, which is defined as the period during which an employee is required to provide service in exchange for an award. The Company uses a straight-line attribution method for all grants that include only a service condition. The Company accounts for forfeitures when they occur. Stock-based compensation expense recognized in the financial statements is reduced by actual awards forfeited.

## **Net Loss Per Common Share**

Basic net loss per share excludes the effect of dilution and is computed by dividing the net loss attributable to common shareholders by the weighted-average number of shares of Common Stock outstanding during the period, without consideration of potentially dilutive securities.

Diluted net loss per share is computed by dividing the net loss attributable to common shareholders by the weighted-average number of Common Stock and potentially dilutive securities outstanding for the period. For purposes of the diluted net loss per share calculation, convertible preferred stock, stock options, Common Stock subject to repurchase related to early exercise of stock options, convertible stock warrants and convertible notes are considered to be potentially dilutive securities. As the Company has reported a net loss for all periods presented, diluted net loss per common share is the same as basic net loss per common share for those periods.

## **Common Stock Warrants**

The Company grants warrants to purchase Common Stock in connection with financing transactions. Warrants are valued based on Black-Scholes models and the fair value is recorded to additional paid-in-capital.

## **Revenue Recognition**

In accordance with ASC 606, *Revenue from Contracts with Customers*, revenue is recognized when a customer obtains control of promised goods or services. The guidance focuses on the core principle for revenue recognition, which is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The Company recognizes revenue in accordance with ASC 606, which provides a five-step model for recognizing revenue from contracts with customers as follows:

10

- 
- Step 1: Identify the contract(s) with a customer
  - Step 2: Identify the performance obligations in the contract
  - Step 3: Determine the transaction price
  - Step 4: Allocate the transaction price to the performance obligations in the contract
  - Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

9

---

A contract with a customer exists when (i) the Company enters into a legally enforceable contract with a customer, through a purchase order, that defines each party's rights regarding the products to be transferred and identifies the payment terms related to these products, (ii) the contract has commercial substance and, (iii) the Company determines that collection of substantially all consideration for products that are transferred is probable based on the customer's intent and ability to pay the promised consideration. The only performance obligation is to create and ship the product and each product has separate, distinct pricing. Performance obligations are met and revenue is recognized at a point in time when the order for its goods are shipped FOB manufacturer and control is transferred.

The transaction price is determined based on the amount expected to be entitled to in exchange for transferring the product to the customer net of any transaction price adjustments. The Company's payment terms to customers generally range from 30 to 60 days.

Payment terms fall within the one-year guidance for the practical expedient which allows the Company to forgo adjustment of the promised amount of consideration for the effects of a significant financing component. The Company accepts product returns at its discretion or if the product is defective as manufactured. Historically, the actual product returns have been immaterial to the Company's financial statements. The Company elected to treat shipping and handling costs as a fulfillment cost and included them in the cost of goods sold as incurred. Costs associated with product sales include commissions. The Company applies the practical expedient and recognizes commissions as expense when incurred because the expense is incurred at a point in time and the amortization period is less than one year. Commissions are recorded as selling expense.

The Company did not recognize material revenues during the three and six month periods ended July 31, 2024 October 31, 2024 and 2023. The Company's revenues do not require significant estimates or judgments. The Company is not a party to contracts that include multiple performance obligations or material variable consideration. As of July 31, 2024 October 31, 2024 and April 30, 2024, the Company did not have any contract assets or liabilities from contracts with customers and there were no remaining performance obligations that the Company had not satisfied.

## Income Taxes

The Company accounts for income taxes under the asset and liability method, which requires recognition of deferred tax assets, subject to valuation allowances, and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting and income tax purposes. Management considers many factors when assessing the likelihood of future realization of deferred tax assets, including recent cumulative experience by taxing jurisdiction, expectations of future taxable income or loss, the carry-forward periods available to the Company for tax reporting purposes, and other relevant factors.

A valuation allowance is established if it is more likely than not that all or a portion of the net deferred tax assets will not be realized.

Accruals for uncertain tax positions are provided for in accordance with applicable accounting standards. The Company may recognize the tax benefits from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Judgment is required in assessing the future tax consequences of events that have been recognized in the financial statements or tax returns.

Based on its analysis, management has determined that it has not incurred any liability for unrecognized tax benefits as of July 31, 2024 October 31, 2024 and April 30, 2024.

The Company may be subject to potential examination by U.S. federal, U.S. states or foreign jurisdiction authorities in the areas of income taxes. These potential examinations may include questioning the timing and amount of deductions, the

nexus of income among various tax jurisdictions and compliance with U.S. federal, U.S. state and foreign tax laws.

11

The Company is subject to income taxes in the U.S. federal jurisdiction and franchise taxes in the State of Texas. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. Generally, the Company is no longer subject to income tax examinations by major taxing authorities for years before 2018.

Note 4. Debt

Debt consists of the following:

10

	July 31, 2024	April 30, 2024	October 31, 2024	April 30, 2024
FRV Note	\$ 500,000	\$ 500,000	\$ 500,000	\$ 500,000
Streeterville Note, net	\$ 1,916,270	—		
Less: current maturities	—	(500,000)	(2,366,800)	(500,000)
Notes payable, long-term	\$ 500,000	\$ —	\$ 49,470	\$ —

Loan and Security Agreement

In April 2020, the Company entered into a loan and security agreement (the “Loan and Security Agreement”) pursuant to which a secured promissory note in the original principal amount of \$500,000 (the “FRV Note”) was issued to each of Front Range Ventures LLC (“FRV”) and John Q. Adams (the “JQA Note”), who were both shareholders of the Company at the time of issuance. John Q. Adams was also a director of the Company at the time of entering into the Loan and Security Agreement. Each party committed to lend a principal amount of \$500,000, totaling \$1,000,000, and the loan was drawn in three installments of \$300,000 upon execution of the loan agreement, \$350,000 on or about July 2, 2020 and \$350,000 on or about September 4, 2020. The loan accrued interest at a rate of 12% per annum, compounded annually, payable at

maturity. The Company is also required to pay default interest at a rate of 18% per annum, compounded annually, on any unpaid amounts after the applicable due date until the loan amounts are fully re-paid. The loan is collateralized by substantially all of the Company's assets and intellectual property, except for the secured interest on the covered technology as discussed in Note 8.

The loan had an original maturity date of September 30, 2021, which was amended in September 2021 making the note repayable on demand. The loan was amended in November 2021, extending the maturity to September 30, 2022; further amended in May 2022 to extend the maturity to September 30, 2023; amended again in January 2023 to (i) further extend the maturity date of the FRV Note to September 30, 2024, on which date the principal amount and all accrued interest thereon would be due and payable; and (ii) amend the dates on which principal and accrued interest was due under the JQA Note, such that interest accrued would be due and payable on September 30, 2023, and the principal amount together with all accrued interest after September 30, 2023 would be due and payable on March 31, 2024.

On November 16, 2023, the Company entered into a note conversion letter agreement with John Q. Adams (the "Adams Note Conversion Letter Agreement"). Pursuant to the Adams Note Conversion Letter Agreement, in consideration for the conversion of the principal and interest in the amounts of \$585,006 due under the JQA Note, on November 16, 2023, the Company: (1) issued 36,563 shares of Common Stock to Mr. Adams; and (2) entered into a Adams Warrant Amendment (as defined below) with Mr. Adams, amending the \$1M Lender Warrants to reduce the exercise price of an aggregate of 1,076 \$1M Lender Warrants to \$16.00 per share (the "Adams Warrant Amendment").

As of July 31, 2024 and April 30, 2024, accrued interest was approximately \$291,000 and \$269,000, respectively, and is included in accrued expenses in the accompanying condensed balance sheets.

On August 19, 2024, the Company and FRV entered into Amendment No. 6 to the Loan and Security Agreement to further extend the maturity date of the FRV Note to September 30, 2025 and pay the outstanding accrued interest as follows: (i) a payment of all accrued interest outstanding within five (5) business days of execution of the agreement; (ii) a payment of accrued interest on September 30, 2024 and (iii) thereafter all accrued interest due shall be payable at maturity. The Company may elect to repay all or any part of the FRV Note, as amended, in its sole discretion at any time prior to the extended maturity date, provided such repayment shall not be less than \$50,000 and shall first be applied to accrued interest and thereafter to outstanding principal. In August 2024, During the six months ended October 31, 2024, the Company paid approximately \$300,000 305,000 in accrued interest to FRV.

As of October 31, 2024 and April 30, 2024, accrued interest was approximately \$5,096 and \$269,000, respectively, and is included in accrued expenses in the accompanying condensed balance sheets.

### **Streeterville Note**

In September 2024, the Company entered into a Note Purchase Agreement with Streeterville, pursuant to which the Company issued to Streeterville the unsecured Streeterville Note in the original principal amount of \$2,510,000. The Streeterville Note carried an OID of \$500,000 and \$10,000 was withheld from the Streeterville Note for reimbursement of Streeterville's transaction expenses. Additionally, the Company incurred debt financing costs of \$159,700. As a result, the

Company received aggregate net proceeds of approximately \$1.9 million in connection with the issuance of the Streeterville Note.

12

The Streeterville Note bears interest at the rate of 8.5% per annum and matures in 18 months after its issuance date. From time to time, beginning six months after issuance, Streeterville may redeem a portion of the Streeterville Note, not to exceed \$270,000 per month. In the event the Company has not reduced the outstanding balance under the Streeterville Note by at least \$900,000 by the 12-month anniversary following the issuance date, then the outstanding balance at such time will automatically increase by 5%. Subject to terms and conditions set forth in the Streeterville Note, the Company may prepay all or any portion of the outstanding balance of the Streeterville Note at any time.

The Streeterville Note contains customary events of default, including if the Company undertakes a fundamental transaction (including consolidations, mergers, and certain changes in control of the Company), without Streeterville's prior written consent. As described in the Streeterville Note, upon the occurrence of certain events of default, the outstanding balance of the Streeterville Note will become automatically due and payable. Additionally, upon an event of default described in the Streeterville Note (i.e., the failure to pay amounts under the Streeterville Note when due or to observe any covenant under the Note Purchase Agreement), the outstanding balance of the Streeterville Note automatically increases to the lesser of 18% or the maximum rate permitted by law.

The OID and deferred financing costs pursuant to the Streeterville Note are being amortized over the life of the note as a non-cash interest expense. During the six months ended October 31, 2024, the Company recorded amortization of approximately \$65,000 and recorded accrued interest of approximately \$32,000, respectively.

## Note 5. Stockholders' Equity

### Preferred Stock

The Company authorized 20,000,000 shares of preferred stock, par value \$0.001 per share ("Preferred Stock"), of which 10,000 shares have been designated as Series A Convertible Preferred Stock ("Series A Preferred Stock"), 10,000 shares have been designated as Series B Convertible Preferred Stock ("Series B Preferred Stock"), and 600,000 shares have been designated as Series C Preferred Stock with a liquidation preference to Common Stock.

11

---

## Series C Preferred Stock

The Series C Preferred Stock was originally issued at \$25.00 per share. An amendment to, or waiver of rights in, the Series C Preferred Stock certificate of designation requires the approval of holders of a majority of the outstanding shares of Series C Preferred Stock and FRV (so long as FRV owns at least 71,000 shares of Series C Preferred Stock).

At **July 31, 2024** **October 31, 2024** and April 30, 2024, there were 380,440 shares of Series C Preferred Stock outstanding, respectively.

Holders of the Series C Preferred Stock are entitled to receive dividends at an annual rate of \$1.50 per share of Series C Preferred Stock, shall accrue and are payable out of funds legally available, are payable only when and if declared by the board of directors, and are noncumulative. No dividends have been declared to date. The holders of the shares of Series C Preferred Stock have voting rights equal to an equivalent number of shares of Common Stock into which it is convertible and vote together as one class with Common Stock.

Each share of Series C Preferred Stock is convertible, at the option of the holder at any time, into such number of fully paid and non-assessable shares of Common Stock determined by dividing the original issue price of \$25.00 by the conversion price for such series in effect at the time of conversion for the Series C Preferred Stock. The conversion price for the Series C Preferred Stock is subject to adjustment in accordance with conversion provisions contained in the Company's certificate of formation, as amended.

During the **three** **six** months ended **July 31, 2023** **October 31, 2023**, 431 shares of Series C Preferred Stock converted into 20 shares of Common Stock at a conversion ratio of 0.0464 shares of Common Stock for each share of Series C Preferred Stock.

At **July 31, 2024** **October 31, 2024**, the outstanding shares of Series C Preferred Stock were convertible into **76,027** **78,893** shares of Common Stock at a conversion price of **\$125.03** **120.49** per share.

At **September 10, 2024** **December 12, 2024**, the outstanding shares of Series C Preferred Stock were convertible into **76,380** **81,147** shares of Common Stock at a conversion price of **\$124.47** **117.16** per share.

Common Stock

The Company’s Certificate of Formation, as amended, authorizes 500,000,000 shares of Common Stock with a par value of \$0.001 per share. As of July 31, 2024 October 31, 2024 and April 30, 2024, the Company had issued 906,416 947,821 and 676,598 shares of Common Stock, respectively.

During the three six months ended July 31, 2024 October 31, 2024, the Company issued 229,818 271,223 shares of Common Stock, as set forth in the below table:

	Number of Shares
Issuance of Common Stock under Equity Line	14,500 55,905
Issuance of Common Stock under ATM Facility	120,857
Issuance of Common Stock	94,461
Issued during the three six months ended July 31, 2024 October 31, 2024	229,818 271,223

Summary table of common stock share transactions:

Balance at April 30, 2024	676,598
Issued in Fiscal 2025	229,818 271,223
Balance at July 31, 2024 October 31, 2024	906,416 947,821

On March 10, 2023, the Company entered into a purchase agreement with Lincoln Park Capital Fund, LLC (“Lincoln Park”) providing for the purchase, from time to time at the Company’s discretion, of up to \$15.0 million of the Company’s Common Stock, over the thirty-six (36) month term of the purchase agreement. The agreement allows the Company, at its sole discretion, to direct Lincoln Park to purchase shares of Common Stock, subject to limitations in both volume and dollar amount. The purchase price of the shares that may be sold to Lincoln Park under the agreement is the lower of (i) the lowest sale price on the date of purchase, or (ii) the average of the three lowest closing prices in the prior ten business days. Concurrently with the purchase agreement, the Company entered into a registration rights agreement, pursuant to which the Company filed a registration statement on Form S-1 with the SEC on March 22, 2023. This registration statement was declared effective on April 10, 2023. At the annual shareholder meeting held on January 17, 2024, the Company’s shareholders approved the full issuance of shares of Common Stock issuable by the Company pursuant to the Company’s Equity Line, for purposes of complying with Nasdaq Listing Rule 5635(d). The Company filed a registration statement on Form S-1 with the SEC on March 5, 2024 and the registration statement was declared effective on March 13, 2024. During the three six months ended July 31, 2024 October 31, 2024, the Company issued 14,500 55,905 shares of Common Stock to Lincoln Park receiving approximately \$52,000 213,000 in net proceeds.

On September 18, 2023, the Company entered into an EDA with Maxim Group LLC as sales agent pursuant to which the Company may offer and sell up to \$3.25 million shares of Common Stock under the ATM Facility. The shares may be issued and sold from time to time through or to the placement agent acting as sales agent or principal pursuant to our shelf registration statement on Form S-3 (the “Shelf S-3”), as filed with the SEC on September 18, 2023. The \$3.25 million shares comprised of Common Stock that may be offered, issued and sold under the at-the-market offering prospectus is included in the \$50.0 million of securities that may be offered, issued, and sold by the Company under the base prospectus of the Shelf S-3. The Shelf S-3 was declared effective by the SEC on September 28, 2023.

On November 9, 2023, the Company entered into Amendment No. 1 to the EDA with Maxim, pursuant to which the Company may sell up to \$10.0 million shares of Common Stock from time to time through the sales agent. On November 17, 2023, the Company entered into Amendment No. 2 to the EDA with Maxim, pursuant to which the Company may sell up to \$15.0 million shares of Common Stock from time to time through the sales agent.

During the **three** **six** months ended **July 31, 2024** **October 31, 2024**, the Company issued 120,857 shares of Common Stock under the ATM Facility, receiving net proceeds of approximately \$551,000.

During the **three** **six** months ended **July 31, 2024** **October 31, 2024**, the Company issued 94,461 shares of Common Stock to shareholders to account for fractional shares rounded up to the next highest whole share as a result of the Reverse Stock Split.

The holders of Common Stock are entitled to receive dividends whenever funds and assets are legally available and when declared by the board of directors, subject to the rights of holders of Preferred Stock outstanding. No dividends were declared as of or through the **three** **six** months ended **July 31, 2024** **October 31, 2024** and the year ended April 30, 2024.

Common Stock Warrants

The Company has issued warrants to investors in connection with funding or for services rendered and these warrants are convertible into a number of shares of the Company's Common Stock for a period of 5 years from the date of issuance.

The following is a summary of warrant activity during the **three** **six** months ended **July 31, 2024** **October 31, 2024**:

Warrants	Exercise	Weighted
----------	----------	----------

	Outstanding and Exercisable	Price Per Share	Average Strike Price per Share
Balance, April 30, 2024		\$0.001-\$825.0	
	56,555	0	\$ 182.00
Granted	2,500	\$ 5.15	\$ 5.15
Balance, July 31, 2024		\$0.001-\$825.0	
	59,055	0	\$ 174.42

	Warrants Outstanding and Exercisable	Exercise Price Per Share	Weighted Average Strike Price per Share
Balance, April 30, 2024		\$0.001-\$825.0	
	56,555	0	\$ 182.00
Issued	2,500	\$ 5.15	\$ 5.15
Balance, October 31, 2024		\$0.001-\$825.0	
	59,055	0	\$ 174.42

During the **three** six months ended **July 31, 2024** **October 31, 2024**, the Company issued warrants to purchase up to 2,500 shares of Common Stock, at an exercise price of \$5.15 per share, to consultants of the Company as consideration for services rendered.

## Note 6. Stock-based Compensation

The Company grants certain employees and board members stock option awards where vesting is contingent upon a service period, as it believes that such awards better align the interests of its employees with those of its shareholders. Stock option awards are granted with an exercise price equal to or above the market price of the Company's stock at the date of grant. Certain stock option awards provide for accelerated vesting if there is a change in control, as defined in the Nonstatutory Stock Option Agreement. Unvested stock options forfeit when an employee leaves the Company.

Time-based grants generally vest quarterly based on 3 years continuous service for executive directors and employees, or 12 months continuous service for directors and have 10-year contractual terms. The Company also grants stock option awards where vesting is contingent upon meeting various departmental and company-wide performance goals, including FDA and CE Mark regulatory approval and certain EBITDA and funding thresholds. Such performance-based stock options are expected to vest when the performance criteria and metrics have been met. These stock options have contractual lives of ten years.

## 2023 Equity Incentive Plan

13

On March 15, 2023, the Company's Board of Directors adopted the 2023 Equity Incentive Plan (as amended, the "Equity Incentive Plan"), subject to . The Company's shareholders approved the Equity Incentive Plan at the Company's 2023 annual shareholder approval meeting held on January 17, 2024. The Equity Incentive Plan provides for the grant of nonstatutory stock options, incentive stock options, restricted stock, restricted stock units, performance units, performance shares, and other share-based awards. Pursuant to the Equity Incentive Plan, the Company is authorized to issue up to 25,000 shares of Common Stock plus (i) any shares of our Common Stock subject to options that expire or otherwise terminate without having been exercised in full, are tendered to or withheld by us for payment of an exercise price or for tax withholding obligations, or are forfeited to or repurchased by us due to failure to vest, with the maximum number of shares of Common Stock to be added to the Equity Incentive Plan under this clause (ii) equal to 8,322 shares of Common Stock.

On November 27, 2023, the Company's Board of Directors approved and entered into Amendment No. 1 to the Equity Incentive Plan subject to shareholder approval, to increase the initial number of shares currently issuable under the Plan from 25,000 shares to 85,000 shares.

The Company's shareholders approved number of shares available for issuance under the Equity Incentive Plan at is subject to automatic increase on the Company's 2023 annual shareholder meeting held first day of each fiscal year beginning May 1, 2024, so that the number of shares available for issuance under the Equity Incentive Plan is equal to the lesser of: (i) twenty five percent (25%) of the total number of shares of all classes of Common Stock and preferred stock as converted to Common Stock of the Company outstanding on January 17, 2024, the last day of the immediately preceding fiscal year, and (ii) a lesser number of shares determined by the administrator.

During the three six months ended July 31, 2024 October 31, 2024, the Company granted 1,500 3,500 stock options to a scientific board advisor advisors of the Company. The stock options, which have an a weighted average exercise price of \$5.15 4.24, will expire in June 2034 and vest on a quarterly basis beginning July 2024.

15

The following is a summary of service-based stock option activity during the **three** **six** months ended **July 31, 2024** **October 31, 2024**:

	Number of Options Outstanding	Weighted Average Exercise Price	Average Remaining Contractual Life (in years)
Outstanding - April 30, 2024	18,659	\$ 121.00	8.9

Vested at October 31, 2024	1,891	\$ 268.00	5.8

During the three six months ended July 31, 2024 October 31, 2024, management estimated the fair value of the awards utilizing the Black-Scholes Option Pricing model with the following weighted-average assumptions:

Risk free interest rate	4.35 4.2 %
Volatility	103.9 104 %
Weighted average expected term (in years)	5.0

14

During the three six months ended July 31, 2024 October 31, 2024 and 2023, the Company recognized stock based compensation for stock options of \$54,554 99,115 and \$124,646 230,486, respectively.

As of July 31, 2024 October 31, 2024, there was approximately \$152,000 113,000 of unrecognized compensation costs related to non-vested service-based Common Stock options and approximately \$1.5 million of unrecognized compensation costs related to non-vested performance-based Common Stock options.

## Note 7. Income Taxes

The tax effects of temporary differences and carry-forwards that give rise to significant portions of the deferred tax assets and liabilities are presented below:

	July 31,	April 30,

	2024	2024
Deferred tax assets (liabilities):		
Net operating loss carryforwards	\$ 11,658,241	\$ 11,378,409
Start-up costs	808,647	833,918
Stock option and warrant payments	705,662	694,206
Accumulated depreciation	159,300	(3,339)
Research and development credits	255,600	255,600
Research and development warrants	21,488	21,488
Total deferred tax assets, net	13,608,938	13,180,282
Valuation Allowance	(13,608,938)	(13,180,282)
Net Deferred Tax Assets	\$ —	\$ —

16

	October 31, 2024	April 30, 2024
Deferred tax assets (liabilities):		
Net operating loss carryforwards	\$ 10,413,290	\$ 11,378,409
Start-up costs	993,377	833,918
Stock option and warrant payments	715,020	694,206
Accumulated depreciation	1,102,896	(3,339)
Research and development credits	816,075	255,600
Research and development warrants	21,488	21,488
Total deferred tax assets, net	14,062,146	13,180,282
Valuation Allowance	(14,062,146)	(13,180,282)
Net Deferred Tax Assets	\$ —	\$ —

For the **three** **six** months ended **July 31, 2024** **October 31, 2024** and the year ended April 30, 2024, the Company's cumulative net operating loss for federal income tax purposes was approximately **\$56** **50** million and \$54 million, respectively. The net operating loss, subject to limitations, may be available in future tax years to offset taxable income. The net operating loss carry-forward will begin to expire in year 2028.

Federal and state tax laws impose restrictions on the utilization of net operating loss carryforwards in the event of a change in ownership as defined by the Internal Revenue Code (the "Code"), Section 382. Under Section 382 of the Code, substantial changes in ownership and the ownership of acquired companies may limit the amount of net operating loss carryforwards that are available to offset taxable income. The annual limitation would not automatically result in the loss of net operating loss carryforwards but may limit the amount available in any given future period.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Based upon the projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not that the Company will not realize the benefits of these deductible differences, and therefore, a full valuation allowance has been recorded at **July 31, 2024** **October 31, 2024** and April 30, 2024.

## Note 8. Commitments and Contingencies

### Operating Leases

The Company has a long-term operating lease for office, industrial, and laboratory space which was entered into in May 2017. On September 27, 2022, the Company entered into the First Amendment to Lease (the "Lease Amendment"), which amended the Lease Agreement to document the exercise of its option to extend the term of the lease for an additional 64 months, commencing February 1, 2023, and expiring on May 31, 2028 (the "Extension Term"). Pursuant to the amendment, the Company will pay initial monthly payments of \$13,129, beginning February 2023, subject to 3% annual increases. Rent expense for the **three six** months ended **July 31, 2024** **October 31, 2024** was approximately **\$37,000** **74,000**.

The Company records right-of-use assets and liabilities at the present value of the fixed lease payments over the term at the commencement date. The Company uses its incremental borrowing rate of 12% to determine the present value of the lease as the rate implicit in the lease is typically not readily available.

Information related to the Company's right-of-use assets and lease liabilities consist of the following:

	<b>October 31,</b>
	<b>2024</b>
Right-of-use assets	\$ 418,334
Lease liabilities, current	\$ 110,645
Lease liabilities, net of current portion	376,241
Total lease liabilities	\$ 486,886
Weighted average remaining term (in years)	4.6

15 17

	July 31, 2024
Right-of-use assets	\$ 440,529
Lease liabilities, current	\$ 106,402
Lease liabilities, net of current portion	405,743
Total lease liabilities	\$ 512,145
Weighted average remaining term (in years)	3.8
Weighted average discount rate	12 %

As of July 31, 2024 October 31, 2024, future maturities of lease liabilities due under lease agreements for the period ended are as follows:

2025	\$ 162,167	80,748
2026	166,214	165,190
2027	170,361	169,307
2028	144,928	173,559
Thereafter	14,493	
Total future lease payments	643,670	603,297
Less imputed interest	(131,525)	(116,411)
Total operating lease liabilities	\$ 512,145	\$ 486,886

## Litigation

From time to time, the Company may be subject to legal proceedings and claims that arise in the ordinary course of business. The Company does not believe that the outcome of those matters will have a material adverse effect to the financial position, operating results or cash flows. However, there can be no assurance such legal proceedings will not have a material impact.

The Company is not aware of any material claims outstanding or pending against the Company as of **July 31, 2024** **October 31, 2024**.

## Royalty Agreements

In 2013, the Company entered into an agreement (“Technology Agreement”) with its founder, conveying ownership of all intellectual property and rights to the Company. As part of that agreement, the Company will make royalty payments, based upon paid MyoVista wavECG device unit sales, as follows:

- a) \$500 on each of the first 2,400 MyoVista wavECG devices; and
- b) \$200 on each MyoVista wavECG device thereafter until royalties total \$3,500,000.

The royalty obligation has a first priority security interest and pledge on the covered technology (as defined in the Technology Agreement, which essentially is comprised of the intellectual property of the MyoVista wavECG device) in priority to the debt holders of the Loan and Security Agreement as discussed further in Note 4.

Upon (i) the aggregate payment of \$3,000,000 of royalties; (ii) the Common Stock having a closing quoted share price of \$6,875 per share or more; or (iii) receipt by the Company of a bona fide offer valuing the Common Stock at \$6,875 or more, then the secured interest and pledge shall be released.

In the event of a bankruptcy of the Company, any balance of the \$3,500,000 royalty not paid at that point would accelerate and become an immediately due debt obligation of the Company with the benefit of the secured interest and pledge (if it remained at such time).

In December 2015, the Company entered into an agreement with The University Court of The University of Glasgow (“Glasgow”) for a non-exclusive license of the Glasgow algorithm interpretive analysis for the conventional ECG trace. The agreement was amended in March 2023 and **again in July 2024, and** as part of the agreement, the Company is required to make royalty payments, based upon MyoVista wavECG device unit sales dependent on sale volumes per year, subject to minimum annual fees. To date, such amounts have been expensed to research and development as the Glasgow algorithm has been part of the device development and will form part of the submission for FDA clearance of the MyoVista wavECG device.

## Collaboration Agreements

### *Rutgers Collaboration Agreement*

On November 29, 2022, the Company entered into a multi-year Collaboration Agreement with Rutgers, The State University of New Jersey, to develop AI-ECG algorithms for new or improved ECG indications, which is expected to accelerate our product development pipeline and further expand the clinical value of an ECG for low-cost detection of heart disease.

#### *Mount Sinai Collaboration Agreement*

On September 20, 2023, the Company entered into multiple definitive license agreements (each a “License Agreement” and collectively, the “License Agreements”) with Mount Sinai to commercialize a range of AI cardiovascular algorithms developed by Mount Sinai as well as a memorandum of understanding for ongoing cooperation encompassing de-identified data access, on-going

18

---

research, and the evaluation of the MyoVista wavECG. The License Agreements, of which there are eleven in total, cover rights to thirteen AI cardiovascular algorithms, two data science methods for use with ECG waveforms and three filed patents.

#### **Note 9. Subsequent Events**

Management has evaluated subsequent events after the balance sheet date of July 31, 2024 October 31, 2024, through the date of filing. Please refer to Note 4 regarding the extension of the FRV Note that occurred after July 31, 2024.

During August 2024, Subsequent to October 31, 2024, the Company sold 4,905 32,500 shares of Common Stock under the Equity Line, receiving net proceeds of approximately \$15,000 96,000.

In September 2024, the Company entered into a Note Purchase Agreement with Streeterville pursuant to which Streeterville issued the Company an unsecured promissory note in the amount of \$2,510,000 which included an original issuance discount of \$500,000 and reimbursement of Streeterville's transaction expenses of \$10,000.

The Streeterville Note bears interest at the rate of 8.5% per annum and matures in 18 months after its issuance date. From time to time, beginning six months after issuance, Streeterville may redeem a portion of the Streeterville Note, not to exceed \$270,000 per month. In the event the Company has not reduced the outstanding balance under the Streeterville Note by at least \$900,000 by the 12-month anniversary following the issuance date, then the outstanding balance at such time will automatically increase by 5%. Subject to terms and conditions set forth in the Streeterville Note, the Company may prepay all or any portion of the outstanding balance of the Streeterville Note at any time.

The Note Purchase Agreement and the Streeterville Note contain customary events of default, including if the Company undertakes a fundamental transaction (including consolidations, mergers, and certain changes in control of the Company), without Streeterville's prior written consent. As described in the Streeterville Note, upon the occurrence of certain events of default, the outstanding balance of the Streeterville Note will become automatically due and payable. Additionally, upon an event of default described in the Streeterville Note (i.e., the failure to pay amounts under the Streeterville Note when due or to observe any covenant under the Note Purchase Agreement), the outstanding balance of the Streeterville Note automatically increases to the lesser of 18% or the maximum rate permitted by law.

The Note Purchase Agreement also provides for indemnification of Streeterville and its affiliates in the event that they incur loss or damage related to, among other things, a breach by the Company of any of its representations, warranties or covenants under the Note Purchase Agreement.

The Company engaged Maxim Group LLC and Ascendant Capital Markets, LLC to serve as placement agents for the transaction between the Company and Streeterville in exchange for an aggregate commission equal to 7% of the gross cash proceeds received from the sale of the Streeterville Note. The Company received approximately \$1.9 million in net cash proceeds from the sale of the Streeterville Note.

17 19

---

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

*The following discussion and analysis is intended as a review of significant factors affecting our financial condition and results of operations for the periods indicated. The discussion should be read in conjunction with our unaudited financial statements and the notes presented herein included in this Quarterly Report on Form 10-Q and the audited financial statements and the related notes set forth in our 2024 Annual Report on Form 10-K. The discussion below contains forward-looking statements that are based upon our current expectations and are subject to uncertainty and changes in circumstances. Actual results may differ materially from these expectations due to inaccurate assumptions and known or unknown risks and uncertainties, including those identified in "Cautionary Note Regarding Forward-Looking Statements" and under "Risk Factors" as identified under Part 1, Item 1A of our 2024 Annual Report on Form 10-K.*

### Overview

We are a medical technology company focused on applying innovative AI-based technology to an ECG, also known as an "EKG," to expand and improve an ECG's clinical usefulness. Our objective is to make an ECG a far more valuable

cardiac screening tool by expanding its clinical capability to detect a broader range of heart disease conditions through the development of AI-ECG. We are seeking to provide AI-ECG solutions in any care setting worldwide in a manner that best suits different providers, either via our cloud-based application that can receive an upload from one of the millions of ECG devices currently in clinical use or via our proprietary MyoVista wavECG device. The MyoVista wavECG, is a resting 12-lead ECG that will incorporate HeartSciences' proprietary AI-ECG algorithm designed to provide diagnostic information related to cardiac dysfunction as well as conventional ECG information in the same test. We are also developing a cloud-based platform to host AI-ECG algorithms on an ECG hardware agnostic basis (the "MyoVista Insights Cloud Platform"). In the future, we intend to offer a range of AI-ECG algorithms, via each product. Neither the MyoVista wavECG device, MyoVista Insights Cloud Platform nor any of our AI-ECG algorithms are yet cleared for marketing by the FDA.

The AI-ECG algorithms are intended to provide diagnostic information which has traditionally required cardiac imaging. We believe, the combination of a device agnostic cloud platform and MyoVista wavECG device would allow us to offer AI-ECG solutions across a wide range of healthcare settings from large health systems to frontline or point of care environments such as primary care. The initial revenue model for the MyoVista wavECG device, which involves the use of the MyoVista hardware, associated software and consumables for each test, is expected to be "razor-razorblade" as the cable connection to the electrodes used with the MyoVista wavECG are proprietary to HeartSciences, and new electrodes are used for every test performed. As further algorithms are made commercially available via the MyoVista wavECG or the MyoVista Insights Cloud Platform, we would expect to adopt revenue models based on algorithm usage and/or recurring subscriptions. Our MyoVista Insights Cloud Platform is being designed to fit simply into existing clinical workflows and be available to host third party AI-ECG algorithms, which increases its clinical value and our speed to market as well as reducing R&D costs associated with internal algorithm development.

On September 20, 2023, we entered into the License Agreements with Mount Sinai to commercialize a range of AI-ECG algorithms covering a range of cardiovascular conditions developed by Mount Sinai as well as a memorandum of understanding for ongoing cooperation encompassing de-identified data access, on-going research, and the evaluation of the MyoVista wavECG device.

Our future success is dependent upon receiving FDA clearances for our products and additional funding may be required as part of achieving FDA clearance and thereafter would be required to support the sales launch, provide working capital and support further R&D.

We believe that there is currently no low-cost, front-line, medical device that is effective at screening broadly for many types of heart disease. As a result, we believe that frontline physicians face a significant challenge in determining if a patient has heart disease. Although many think of the ECG as the frontline test for heart disease, in 2012, the United States Preventive Services Task Force conducted an evaluation of conventional ECG testing and stated: "There is no good evidence the test, called an ECG, helps doctors predict heart risks any better than traditional considerations such as smoking, blood pressure and cholesterol levels in people with no symptoms."

ECG devices record the electrical signals of a patient's heart. The ECG is a ubiquitous, relatively low-cost, simple and quick test; it is portable and can be performed in a wide range of clinical settings by a non-specialist clinician or clinical

aide. There are three basic categories of heart disease: electrical (such as an arrhythmia), structural (such as valvular disease) and ischemic (such as coronary artery disease, or CAD). Conventional resting ECGs have limited sensitivity in detecting structural and ischemic disease and are typically used for diagnosing cardiac rhythm abnormalities, such as atrial fibrillation, or acute coronary syndrome, such as a myocardial infarction which is also known as a heart attack. However, traditional ECGs have a limited role in identifying cardiac dysfunction associated with structural and ischemic disease.

HeartSciences has designed or licensed algorithms designed to help address these limitations and extend the clinical capability of an ECG to detect cardiac dysfunction and other heart disease types.

1820

---

Our first AI-ECG algorithm to be incorporated into the MyoVista wavECG device has been designed by the Company and applies AI-machine learning to the signal processed ECG signal to develop a proprietary algorithm designed to detect impaired cardiac relaxation, or cardiac dysfunction caused by heart disease and/or age-related cardiac dysfunction. We have been adjusting the algorithm to reflect updated echo measurement thresholds in respect of ~~≥60 year old~~ ≥60-year-old patients. The change was made, and agreed with the FDA, to reflect recent clinical findings which we believe will further increase the clinical value of this algorithm.

We expect the first AI-ECG algorithm to be submitted as part of the MyoVista Insights Cloud Platform will be for detection of low ejection fraction, or systolic dysfunction, and based on one of those licensed from Mount Sinai.

The editorial comment associated with the study titled “Prediction of Abnormal Myocardial Relaxation from Signal Processed Surface ECG” presented below discusses recent applications of machine learning to data derived from surface 12-lead ECGs in relation to cardiac dysfunction:

*“These represent some of the most significant advances in electrocardiography since its inception, which has historically had a limited, if any, role in the evaluation of cardiac dysfunction. In the past, our cardiovascular community was resigned to the fact that surface ECGs are poor indicators for cardiac dysfunction.”*

Khurram Nasir, MD, MPH, MSC, Department of Cardiology, Houston Methodist DeBakey Heart & Vascular Center, Houston, Texas, et. al., *Journal of American College of Cardiology Editorial Comment Volume 76 Number 8 2020.*

Almost all forms of heart disease, including CAD and structural disease, affect heart muscle, or cardiac function prior to symptoms. Impaired cardiac function is first observed as impaired cardiac relaxation which is an early indicator of

diastolic dysfunction and usually continues to increase in severity as heart disease progresses. The diastolic phase of the cardiac cycle occurs when the heart muscle relaxes (following contraction). Diastolic dysfunction may also be related to age-related cardiac dysfunction. Low ejection fraction, or systolic dysfunction, is a later stage of cardiac dysfunction and occurs when the heart pumps a reduced level of blood from the ventricles during contraction.

If we receive FDA clearances for our product candidates, our main target markets would be frontline healthcare environments in the U.S., to assist physician decision making in the cardiology referral process. Currently, cardiology referral decisions are often based on a patient's risk factors and/or a conventional ECG test. Accordingly, many patients with heart disease are left undetected while no current treatment or intervention is required for most patients referred for cardiac imaging. We believe that adding the capability to detect a broader range of cardiac conditions to the standard 12-lead resting ECG could help improve cardiac referral pathways and be valuable for patients, physicians, health systems and third-party payors.

New Class II devices, such as our products, require FDA premarket review. The MyoVista wavECG device along with its proprietary software and hardware is classified as a Class II medical device by the FDA. Premarket review and clearance by the FDA for these devices is generally accomplished through the 510(k) premarket notification process or De Novo classification request, or petition process. We previously submitted an FDA De Novo classification request in December 2019 and, following feedback and communications with the FDA during and since that submission, we have been making modifications to our device, including our proprietary algorithm. We have finished the patient recruitment and core lab work for our FDA validation study and have been undertaking device and algorithm development testing for a revised FDA submission. We had been planning a revised submission under the De Novo pathway, however, in December 2023 the FDA confirmed that we could submit the MyoVista wavECG device for clearance under the 510(k) pathway following the grant by the FDA in August 2023 of an industry-first De Novo clearance which created a new Class II product code for cardiovascular machine learning-based notification software. This was in respect of a hypertrophic cardiomyopathy algorithm and in late September 2023, the FDA cleared an algorithm for low ejection fraction (less than 40%) under the 510(k) pathway using this new product code. Accordingly, we are now preparing for a 510(k) FDA submission and are aiming for a submission in the first calendar quarter of 2025. If successful, FDA clearance would provide us the ability to market and sell the MyoVista wavECG device in the U.S. and additional funding would be required to support the sales launch of the MyoVista wavECG device in the U.S., provide working capital and support further R&D.

To date we have not yet entered into a discussion with the FDA regarding the MyoVista Insights Cloud Platform or Mount Sinai licensed AI-ECG algorithms but **are aiming to start that process in the current calendar year. We** expect these products to fall under the 510(k) pathway and are aiming for an FDA submission of our MyoVista Insights Cloud Platform and low ejection fraction algorithm in the **middle** **second half** of 2025.

## Recent Developments

**Compliance with Nasdaq Listing Requirements** **Corporate Name Change**

**19** **21**

---

On October 17, 2024, the Company filed a Certificate of Amendment to its Amended and Restated Certificate of Formation with the Secretary of State of Texas to change the Company's corporate name to "HeartSciences Inc.", with an effective date of October 17, 2024. The Name Change was approved by the Company's shareholders at the Company's Annual Meeting of Shareholders held on January 17, 2024. The Name Change became effective at the open of market on October 23, 2024, and does not affect the Company's ticker symbols or the applicable CUSIP number for the Company's outstanding shares of Common Stock and public warrants.

#### *Compliance with Nasdaq Listing Requirements*

On August 2, 2023, we received a letter from the Staff indicating that, based upon the closing bid price of the Company's Common Stock for the last 30 consecutive business days, the Company no longer met the Minimum Bid Price Requirement. In accordance with Nasdaq listing rules, we had until January 29, 2024 to regain compliance with the Minimum Bid Price Requirement. In the event we did not regain compliance during this period, we were eligible to seek an additional 180 calendar day compliance period if we met the Nasdaq continued listing requirement for market value of publicly held shares and all other initial listing standards, with the exception of the Minimum Bid Price Requirement, and provide written notice to Nasdaq of our intent to cure the deficiency during this second compliance period.

We attended an August 17, 2023 hearing before the Nasdaq Hearing Panel (the "Panel"), and requested the continued listing of its securities on the Nasdaq Capital Market pending our return to compliance with the Minimum Bid Price Requirement.

On January 30, 2024, we received a letter from the Panel advising that we have been granted an additional 180-day extension to July 29, 2024, to regain compliance with the Minimum Bid Price Requirement.

On May 9, 2024, the Company received a Staff Determination from Nasdaq to delist the Company's securities from the Nasdaq Capital Market. The Staff Determination was issued because, as of May 8, 2024, the Company's Common Stock had a closing bid price of \$0.10 or less for at least ten consecutive trading days. Accordingly, the Company is subject to the provisions contemplated under Nasdaq Listing Rule 5810(c)(3)(A)(iii) (the "Low Priced Stocks Rule").

On May 17, 2024, the Company effected the Reverse Stock Split, such that as a result of the Reverse Stock Split, every 100 shares of the Company's issued and outstanding pre-reverse split Common Stock were combined into one share of Common Stock.

On June 3, 2024, the Company received a letter from Nasdaq informing the Company that the Nasdaq Listing Qualifications staff has confirmed that the Company has regained compliance with the \$1.00 per share minimum bid price requirement pursuant to the Minimum Bid Price Requirement, and that the Company is therefore in compliance with Nasdaq's listing requirements. The Company's Common Stock and public warrants continue to be listed on Nasdaq.

#### *Reverse Stock Split*

On May 6, 2024, the Company filed a Certificate of Amendment to the Amended and Restated Certificate of Formation with the Secretary of the State of Texas to effect the Reverse Stock Split of its outstanding shares of Common Stock, with an effective date of May 17, 2024. As a result of the Reverse Stock Split, equitable adjustments corresponding to the Reverse Stock Split ratio were made to the Company's outstanding warrants and its other convertible instruments and upon the exercise or vesting of all stock options such that every 100 shares of Common Stock that may be issued upon the exercise of the Company's warrants and stock options and conversion of its other convertible instruments held immediately prior to the Reverse Stock Split represent one share of Common Stock that may be issued upon exercise of such warrants and stock options and conversion of the other convertible instruments immediately following the Reverse Stock Split. Correspondingly, the exercise price per share of Common Stock attributable to the Company's warrants and stock options and the conversion price of its other convertible instruments immediately prior to the Reverse Stock Split was proportionately increased by a multiple of 100 following the Reverse Stock Split.

#### *Patents*

In May 2024, we were granted a patent from the Indian Patent Office covering MyoVista wavelet technology.

In July 2024, we were granted a patent allowance from the United States Patent and Trademark Office for the detection of left ventricular and/or right ventricular dysfunction using deep learning.

#### *Debt Extension*

22

On August 19, 2024, the Company and FRV entered into Amendment No. 6 to the Loan and Security Agreement to further extend the maturity date of the FRV Note to September 30, 2025 and pay the outstanding accrued interest as follows: (i) a payment of all accrued interest outstanding within five (5) business days of execution of the agreement; (ii) a payment of accrued interest on September 30, 2024 and (iii) thereafter all accrued interest due shall be payable at maturity. In August and September 2024, the Company paid approximately \$300,000 \$305,000 in accrued interest to FRV.

## *Streeterville Note Purchase Agreement and Promissory Note*

In September 2024, the Company entered into a Note Purchase Agreement with Streeterville, pursuant to which Streeterville issued the Company an issued to Streeterville the unsecured promissory note Streeterville Note in the original principal amount of \$2,510,000 which included \$2,510,000. The Streeterville Note carried an original issuance discount OID of \$500,000 and \$10,000 was withheld from the Streeterville Note for reimbursement of Streeterville's transaction expenses of \$10,000. The expenses. Additionally, the Company incurred placement agent fees equal to 7% debt financing costs of \$159,700. As a result, the gross

20

Company received aggregate net proceeds received from of approximately \$1.9 million in connection with the sale issuance of the Streeterville Note. The Company received approximately \$1.9 million in net cash proceeds from the sale of the Streeterville Note.

The Streeterville Note bears interest at the rate of 8.5% per annum and matures in 18 months after its issuance date. From time to time, beginning six months after issuance, Streeterville may redeem a portion of the Streeterville Note, not to exceed \$270,000 per month. In the event the Company has not reduced the outstanding balance under the Streeterville Note by at least \$900,000 by the 12-month anniversary following the issuance date, then the outstanding balance at such time will automatically increase by 5%. Subject to terms and conditions set forth in the Streeterville Note, the Company may prepay all or any portion of the outstanding balance of the Streeterville Note at any time.

## **Operating Expenses**

Our operating expenses have consisted solely of research and development expenses and selling, general and administrative expenses.

### *Research and Development Expenses*

Our research and development activities primarily consist of clinical, regulatory, engineering and research work associated with our MyoVista wavECG device, device and Myo Vista Insights Cloud Platform. Research and development expenses include payroll and personnel-related costs for our research and development, clinical and regulatory personnel, including expenses related to stock-based compensation for such employees, consulting services, clinical trial expenses, regulatory expenses, prototyping and testing. Research and development expenses also include costs attributable to clinical trial expenses including clinical trial design, site development and study costs, data, related travel expenses, the

cost of products used for clinical activities, internal and external costs associated with regulatory compliance and patent costs. We have expensed research and development costs as they have been incurred.

*Selling, General and Administrative Expenses*

Our selling, general and administrative expenses consist of payroll and personnel-related costs for field support personnel, business development, consulting, stock-based compensation, and for administrative personnel that support our general operations such as executive management and financial accounting. Selling, general and administrative expenses also include costs attributable to professional fees for legal and accounting services, premises costs, IT, insurance, consulting, recruiting fees, travel expenses and depreciation.

*Interest Expense*

Interest expense relates to our loan facilities and convertible notes. facilities.

The following table summarizes our results of operations for the periods presented on our statement of operations data.

Summary of Statements of Operations for the three and six months ended July 31, 2024 October 31, 2024 compared with the three and six months ended July 31, 2023 October 31, 2023:

21 There were no revenues for the three and six months ended October 31, 2024. Revenues were \$4,000 and cost of sales were \$2,000 for the three and six months ended October 31, 2023. Our revenues to date have been mainly generated in the establishment of distributor relationships outside the United States as part of obtaining feedback during product development and improvement of the MyoVista wavECG.

Research and development expenses were \$1.2 million and \$2.4 million for the three and six months ended July 31, 2024 October 31, 2024, representing an increase of \$659,000, \$442,000, or 117% 58% , and an increase of \$1.1 million, or 83%, when compared to the same periods in 2023. The increase is primarily due to consulting costs incurred for development of our MyoVista Insights Cloud Platform and increase in headcount and professional services supporting the FDA submission process.

Selling, general, and administrative expenses were approximately \$0.9 million \$0.8 million and \$1.6 million for the three and six months ended July 31, 2024 October 31, 2024, representing a decrease of \$29,000, or 4%, and an increase of \$86,000, \$57,000, or 11% 4%, when compared to the same periods in 2023. The increase decrease noted during the three month period is primarily due to payroll related and professional expenses related to reduction in stock compensation expense of \$14,000 and reduction of marketing costs and other professional fees of \$15,000. The increase noted during the reverse six month period is primarily related to an increase in legal expenses of \$82,000 and rent expense of \$16,000, offset by reductions in stock split. compensation expense of \$45,000.

Interest expense was \$23,000 \$118,000 and \$140,000 for the three and six months ended July 31, 2024 October 31, 2024, representing a decrease of \$13,000 \$61,000, or 36% 34%, and a decrease of \$75,000, or 35%, when compared to the same periods in 2023. Interest expense in Fiscal 2025 is related to interest on the FRV Note and interest and debt

service amortization on the Streeterville Note. The JQA Note and related accrued interest and the MSW Note converted to equity in November 2023.

Other income of \$47,000 \$20,000 and \$66,000 during the three and six months ended July 31, 2024 October 31, 2024 is related to interest earned on our cash balances.

### Liquidity, Capital Resources, and Going Concern Considerations

We have incurred losses each year since inception and have experienced negative cash flows from operations in each year since inception. We incurred a net loss of \$2.1 million \$4.1 million for the period ended July 31, 2024 October 31, 2024. As of July 31, 2024 October 31, 2024, we had an accumulated deficit of \$69.4 million \$71.5 million and stockholder's equity of \$5.9 million \$4.0 million and working capital of \$4.7 million \$2.4 million.

Based on our current business plan assumptions and expected cash burn rate, we believe that the existing cash is insufficient to fund operations for the next twelve months following the issuance of these financial statements. These factors raise substantial doubt regarding our ability to continue as a going concern.

24

---

On March 10, 2023, we entered into the Lincoln Park Purchase Agreement providing for the purchase, from time to time at our discretion, of up to \$15.0 million of our Common Stock, over the 36-month term of the agreement. Actual sales of shares of Common Stock will depend on a variety of factors to be determined by us from time to time. The net proceeds received from these purchases will depend on the frequency and prices at which we sell shares of our Common Stock to Lincoln Park. As of the date of this Quarterly Report, we have received approximately \$1.6 million \$1.8 million from the sale of Common Stock pursuant to the Lincoln Park Purchase Agreement. We expect that any proceeds received from such sales to Lincoln Park will be used for working capital and general corporate purposes.

On September 18, 2023, we entered into an EDA with Maxim Group LLC as sales agent pursuant to which we may offer and sell up to \$3.25 million of our shares of Common Stock in at-the-market offerings. The EDA was further amended on November 9, 2023 and again on November 17, 2023, to increase the amount of shares of Common Stock we may sell to up to \$15.0 million. The shares of Common Stock may be issued and sold from time to time through or to the placement agent acting as sales agent or principal pursuant to our shelf registration statement on the Shelf S-3, as filed with the SEC on September 18, 2023. As of the date of this Quarterly Report, we have received approximately \$9.8 million in net proceeds, after Maxim fees, legal fees and other costs, from the sale of Common Stock pursuant to the amended EDA. We expect that any proceeds received from such sales under the ATM Facility will be used for working capital and general corporate purposes

In September 2023, the Company entered into the MSW Note for up to \$1.0 million, drawn in installments consisting of (i) \$0.25 million on or prior to September 8, 2023, (ii) ) \$0.25 million on or prior to September 20, 2023, and (iii) further drawdowns of up to \$0.5 million in such amounts and such times to be mutually agreed upon between the Company and MSW. In September 2023, the Company drew \$0.5 million under the MSW Note and in November 2023, the MSW Note was converted into shares of Common Stock.

In September 2024, the Company entered into a Note Purchase Agreement with Streeterville pursuant to which Streeterville issued the Company an unsecured promissory note in the amount of \$2,510,000 which included an original issuance discount of \$500,000 and reimbursement of Streeterville’s transaction expenses of \$10,000. The Company incurred placement agent fees equal to 7% of the gross proceeds received from the sale of the Streeterville Note. The Company received approximately \$1.9 million in net cash proceeds from the sale of the Streeterville Note.

Our cash requirements are, and will continue to be, dependent upon a variety of factors. We expect to continue devoting significant capital resources to R&D, clinical studies and go-to-market strategies. We will need to continue to raise capital through the sale of additional equity securities, debt, or capital inflows from strategic partnerships, however we can provide no assurance that that

we will be able to consummate the sale of any such securities or strategic relationships will be available on terms acceptable to us, if at all.

Since our inception, we have raised capital through the public and private sale of debt and equity. As of July 31, 2024 October 31, 2024, we had cash and cash equivalents balance of approximately \$4.3 million \$4.1 million, a decrease of \$1.5 million \$1.8 million from \$5.8 million as of April 30, 2024.

The table below presents our cash flows for the periods indicated:

U.S. dollars, in thousands	Three Months Ended July 31,		Six months ended October 31,	
	2024	2023	2024	2023
	(Unaudited)		(Unaudited)	
Net cash used in operating activities	\$ (2,019)	\$ (1,404)	\$ (4,202)	\$ (2,392)
Net cash used in investing activities	\$ (1)	\$ (5)		
Net cash (used in) provided by investing activities	\$ (7)	\$ (7)		
Net cash provided by financing activities	\$ 552	\$ 324	\$ 2,453	\$ 839

Net change in cash and cash equivalents during the period	\$	(1,468)	\$	(1,085)	\$	(1,756)	\$	(1,560)
---	----	---------	----	---------	----	---------	----	---------

Operating Activities

Net cash used by our operating activities of \$2.0 million\$4.2 million during the three six months ended July 31, 2024 October 31, 2024 is primarily due to our net loss of \$2.1 million\$4.1 million, plus \$98,000\$243,000 in non-cash expenses less \$65,000\$311,000 of net changes in operating assets and liabilities.

Net cash used by our operating activities of \$1.4 million\$2.4 million during the three six months ended July 31, 2023 October 31, 2023 is primarily due to our net loss of \$1.4 million\$3.1 million plus \$232,000\$587,000 in non-cash expenses less \$269,000 plus \$135,000 of net changes in operating assets and liabilities.

Financing Activities

Net cash provided by financing activities of \$0.6 million\$2.4 million during the three six months ended July 31, 2024 October 31, 2024 is primarily from the issuance of Common Stock under the Equity Line, and the ATM Facility Facility, and net proceeds from the Streeterville Note.

Net cash provided by financing activities of \$0.3 million\$0.8 million during the three six months ended July 31, 2023 October 31, 2023 is primarily from the issuance of Common Stock under the Equity Line. Line, ATM Facility, and net proceeds from the MSW Note.

Critical Accounting Policies and Estimates

There have been no material changes to our critical accounting policies and estimates from the information provided in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," included in our 2024 Annual Report on Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not required to be provided by a smaller reporting company.

Item 4. Controls and Procedures.

## *Disclosure Controls and Procedures*

The Company has adopted and maintains disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in the reports filed under the Exchange Act, such as this Quarterly Report on Form 10-Q, is collected, recorded, processed, summarized and reported within the time periods specified in the rules of the SEC. The Company's disclosure controls and procedures are also designed to ensure that such information is accumulated and communicated to management to allow timely decisions regarding required disclosure. Based upon the most recent evaluation of internal controls over financial reporting, our Chief Executive Officer (our principal executive officer) and our Chief Financial Officer (our principal financial officer) determined that our disclosure controls and procedures were not effective as of **July 31, 2024** **October 31, 2024** as a result of identified material weaknesses in our internal control over financial reporting. The identified material weaknesses were as follows: (i) lack of proper approval processes and review processes and documentation for such reviews; (ii) we did not maintain sufficient U.S. GAAP and SEC accounting resources commensurate with those required of a public company; and (iii) insufficient number of staff to maintain optimal segregation of duties and levels of oversight. We have taken and continue to take remedial steps to improve our internal controls over financial reporting, which includes establishing a more robust process related to review of complex accounting transactions, preparation of account reconciliations, and review of journal entries. Our Chief Financial Officer frequently attends continuing education for updates on accounting policies and procedures. We cannot assure you that these measures will significantly improve or remediate the material weaknesses described above. Management is monitoring the effectiveness of these and other

23

---

processes, procedures and controls and will make any further changes deemed appropriate. We are committed to ensuring that our internal controls over financial reporting are designed and operating effectively. Management believes the foregoing actions will effectively remediate the material weaknesses, however, our material weaknesses will not be considered remediated until controls are in place for a period of time, the controls are tested, and management concludes that the controls are properly designed and operating effectively.

## *Changes in Internal Control Over Financial Reporting*

Except as described above with respect to the remediation steps we are taking, there have been no changes in our internal control over financial reporting during the quarter ended **July 31, 2024** **October 31, 2024** that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## *CEO and CFO Certifications*

Exhibits 31.1 and 31.2 to this Quarterly Report are the Certifications of our Chief Executive Officer and Chief Financial Officer, respectively. These Certifications are required in accordance with Section 302 of the Sarbanes-Oxley Act (the “Section 302 Certifications”). This Item 4 of this Quarterly Report, which you are currently reading, is the information concerning the evaluation referred to above and in the Section 302 Certifications and this information should be read in conjunction with the Section 302 Certifications for a more complete understanding of the topics presented.

## PART II—OTHER INFORMATION

### Item 1. Legal Proceedings.

There are no actions, suits, proceedings, inquiries or investigations before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of the Company, threatened against or affecting the Company, our Common Stock, any of our officers or directors in their capacities as such, in which an adverse decision could have a material adverse effect on the Company.

### Item 1A. Risk Factors.

For a discussion of risk factors, please refer to Item 1A of our 2024 Annual Report on Form 10-K. There have been no material changes to the risk factors contained in Item 1A of our 2024 Annual Report on Form 10-K. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition, and/or operating results.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

There were no other sales of equity securities during the period covered by this Quarterly Report on Form 10-Q that were not registered under the Securities Act and were not previously reported in a Current Report on Form 8-K filed by the Company.

### Item 3. Defaults Upon Senior Securities.

Not applicable.

### Item 4. Mine Safety Disclosures.

Not applicable.

## Item 5. Other Information.

Not applicable. applicable.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Heart Test Laboratories, Inc.

Date: September 12, 2024 December 16, 2024

By: /s/ Andrew Simpson

Name: Andrew Simpson

President, Chief Executive Officer, and Chairman of the Board of Directors

Title: (Principal Executive Officer)

Date: September 12, 2024 December 16, 2024

By: /s/ Danielle Watson

Name: Danielle Watson

Title: Chief Financial Officer and Treasurer (Principal Financial and Accounting Officer)

3032

**CERTIFICATION PURSUANT TO  
RULES 13a-14(a) AND 15d-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,  
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Andrew Simpson, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Heart Test Laboratories, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, any material weaknesses in the registrant's internal control over financial reporting that have not been remediated, and the registrant's plans to remediate such weaknesses.

financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

- (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
