These factors include, among other things: business disruptions or other consequences of economic instability, political instability, civil unrest, armed hostilities, and global conflict, natural and man-made disasters, pandemics or other public health crises, or other catastrophic events; the impact of changes or declines in consumer spending and increases in interest rates and inflation on our business, sales, results of operations and financial condition; our ability to manage and sustain our growth and profitability effectively, including in our ecommerce business, forecast our operating results, and manage inventory levels; our ability to remediate our material weakness and maintain effective internal control over financial reporting; our ability to improve our products and develop new products; our ability to successfully open and operate new showrooms; our ability to advance, implement or achieve the goals set forth in our ESG Report; our ability to realize the expected benefits of investments in our supply chain and infrastructure; disruption in our supply chain and dependence on foreign manufacturing and imports for our products; our ability to acquire new customers and engage existing customers; reputational risk associated with increased use of social media; our ability to attract, develop and retain highly skilled associates and employees; associates; system interruption or failures in our technology infrastructure needed to service our customers, process transactions and fulfill orders; the impact of the restatement of our previously issued audited financial statements as of and for the year ended January 29, 2023 and our unaudited condensed financial statements for the quarterly periods ended April 30, 2023, October 30, 2022, July 31, 2022 and May 1, 2022; and the related litigation and investigation related to such restatements; any inability to implement and maintain effective internal control over financial reporting or inability to remediate our existing material weaknesses in our internal controls deemed ineffective; unauthorized disclosure of sensitive or confidential information through breach of our computer system; reporting; unauthorized disclosure of sensitive or confidential information through breach of our computer system; the ability of third-party providers to continue uninterrupted service; the impact of tariffs, and the countermeasures and tariff mitigation initiatives; the regulatory environment in which we operate, our ability to maintain, grow and enforce our brand and intellectual property rights and avoid infringement or violation of the intellectual property rights of others; and our ability to compete and succeed in a highly competitive and evolving industry.

We caution you that the foregoing list may not contain all of the factors that may impact the forward-looking statements made in this Quarterly Report on Form 10-Q.

You should not rely upon forward-looking statements as predictions of future events. The outcome of the events described in these forward-looking statements is subject to risks, uncertainties, and other factors described in the sections entitled "Risk Factors" and in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our most recent Annual Report on Form 10-K as amended by Amendment No. 1 and Amendment No. 2 on Form 10-K/A, filed with the Securities and Exchange Commission and in this Quarterly Report on Form 10-Q. Legal Proceedings

The Company is involved in various legal proceedings in the ordinary course of business. Management cannot presently predict the outcome of these matters, although management believes, based in part on the advice of counsel, that the ultimate resolution of these matters will not have a materially adverse effect on the Company's condensed financial position, results of operations or cash flows.

The Company has voluntarily self-reported to the SEC information concerning the internal investigation of the accounting matters that led to the restatement of its previously issued audited financial statements as of and for the year ended January 29, 2023 and our unaudited condensed financial statements for the quarterly periods ended April 30, 2023, October 30, 2022, July 31, 2022 and May 1, 2022. As a result of self-reporting, the Company is the subject of an ongoing, non-public investigation by the SEC. The Company is cooperating fully with the SEC in its investigation and continues to respond to requests in connection with this matter. The investigation could result in the SEC seeking various penalties and relief including, without limitation, civil injunctive relief and/or civil monetary penalties or administrative relief. The nature of the relief or remedies the SEC may seek with respect to the Company, if any, cannot be predicted at this time.

On December 19, 2023, a putative securities class action was filed against the Company and certain of its current and former officers related to the restatement of certain of the Company's financial statements. The suit, captioned *Gutknecht v. The Lovesac Company*, No. 3:23-cv-1640, was filed in the United States District Court for the District of Connecticut and alleges that all defendants violated Sections 10(b) of the Exchange Act and Rule 10b-5 promulgated thereunder by the SEC, and that the individual defendants violated Section 20(a) of the Exchange Act. The complaint generally alleges that the Company made certain misrepresentations or failed to disclose certain accounting errors related to the restatement of its financial statements and that the Company's disclosure controls and procedures and internal controls over financial reporting were deficient. The plaintiffs seek, among other things, an unspecified amount of damages and attorneys' fees, expert fees and other costs. On March 11, 2024, the court appointed Susan Cooke Peña as Lead Plaintiff and The Rosen Law Firm, P.A. as Lead Counsel. The court's scheduling order provides for Lead Plaintiff to file an Amended Complaint by May 10, 2024. On May 29, 2024, the parties entered into a term sheet to settle the action subject to various conditions, including execution of a definitive settlement agreement, filing of the definitive agreement with the court, and court approval. The Company does not expect the settlement to have a material impact to the financial statements.

These factors may have a negative impact on markets in which we operate, including the potential for an economic recession, a continued downturn in the housing market, disruption in the U.S. banking

## Sales Channels

We offer our products through an omni-channel platform that provides a seamless and meaningful experience to our customers online and in-store. Our distribution strategy allows us to reach customers through four three distinct, brand-enhancing channels.

- **Showrooms.** We market and sell our products through 230 246 showroom locations at top tier malls, lifestyle centers, mobile concierge, kiosk, and street locations in 41 42 states in the U.S. We carefully select the best small-footprint showroom locations in high-end malls and lifestyle centers for our showrooms. Compared to traditional retailers, our showrooms require significantly less square footage because of our need to have only a few in-store sample configurations for display and our ability to stack stock our inventory for immediate sale. The architecture and layout of these showrooms is designed to communicate our brand personality and key product features. Our goal is to educate first-time customers, creating an environment where people can touch, feel, read, and understand the technology behind our products. Our new showroom concept emphasizes our unique product platform and utilizes technology in more experiential ways to increase traffic and net sales. Net sales generated by this channel accounted for 64.0% 61.5% and 62.3% 59.2% of total net sales for the thirteen and thirty-nine weeks ended October 29, 2023 May 5, 2024 and April 30, 2023, respectively, up from 61.5% and 62.2% of total net sales for the thirteen and thirty-nine weeks ended October 30, 2022, respectively.
- **Ecommerce.** Through our ecommerce channel, we believe we are able to significantly enhance the consumer shopping experience for home furnishings, driving deeper brand engagement and loyalty, while also realizing more favorable margins than our showroom locations. We believe our robust technological capabilities position us well to benefit from the growing consumer preference to transact at home and via mobile devices. With furniture especially suited to ecommerce applications, our net sales generated by this channel accounted for 26.0% 27.6% and 27.1% 28.5% of total net sales for the thirteen and thirty-nine weeks ended October 29, 2023, respectively, up from 24.7% May 5, 2024 and 24.3% of total net sales for the thirteen and thirty-nine weeks ended October 30, 2022 April 30, 2023, respectively.
- **Other touchpoints.** We augment our showrooms with other touchpoint strategies including online and in store pop-up-shops, shop-in-shops, and barter inventory transactions. Our barter inventory transactions with a third party vendor are part of our Circle to Customer ("CTC"), Designed for Life

- **In store and Environmental, Social and Governance ("ESG") initiatives.** CTC is our operational philosophy in which business processes, including the design of our products, are optimized for looped (circle) and/or local operations. We repurpose returned open-box inventory in exchange for media credits, which are being used to support our advertising initiatives to create brand awareness and drive net sales growth. **online pop-up-shops.** We utilize in store pop-up-shops to increase the number of locations where customers can experience and purchase our products, a low cost alternative to drive brand awareness, in store net sales, and ecommerce net sales. These in store pop-up-shops are typically 10-day shows and are staffed similarly to our showrooms with associates trained to demonstrate and sell our products and promote our brand. Unlike For the thirteen weeks ended May 5, 2024 and April 30, 2023, we operated 120 and 95 in store pop-up-shops, which are typically 10-day shows, respectively, and pop-up locations, shop-in-shops 3 and 2 online pop-up-shops on Costco.com, respectively.
- **Shop-in-shops.** Shop-in-shops are designed to be in permanent locations carrying the same digital technology of our showrooms and are also staffed with associates trained to demonstrate and sell our

products. Shop-in-shops require less capital expenditure to open a productive space to drive brand awareness and touchpoint opportunities for demonstrating and selling our products. We As of May 5, 2024 and April 30, 2023, we operated 251 and 7 online pop-up-shops on Costco.com for the thirteen and thirty-nine weeks ended October 29, 2023, and 3 and 8 for the thirteen and thirty-nine weeks ended October 30, 2022. We operated 4123 Best Buy shop-in-shops, respectively.

- **Barter inventory transactions.** Our barter inventory transactions with a third party vendor are part of our Circle Operations ("CO"), Designed for Life, and Environmental, Social and Governance ("ESG") initiatives. CO is a way of doing business that is meant to reduce our footprint, while dramatically extending the thirteen life of products through more looped, localized, long-term, and thirty-nine weeks ended October 29, 2023, up from 22 sustainable practices, policies, and programs. We repurpose returned open-box inventory in exchange for the thirteen media credits, which are being used to support our advertising initiatives to create brand awareness and thirty-nine weeks ended October 30, 2022. drive net sales growth.

Other net sales which includes pop-up-shop sales, shop-in-shop sales, and barter inventory transactions accounted for 10.0% 10.9% and 10.6% 12.3% of our total net sales for the thirteen and thirty-nine weeks ended October 29, 2023 May 5, 2024 and April 30, 2023, down from 13.7% and 13.6% of our total net sales for the thirteen and thirty-nine weeks ended October 30, 2022. respectively.

## How We Assess the Performance of Our Business

We consider a variety of financial and operating measures, including the following, to evaluate our business, measure our performance, identify trends affecting our business, formulate business plans, and make strategic decisions.

### Net Sales

Net sales reflect our sale of merchandise plus shipping and handling revenue less returns and discounts. Net sales made at Company operated showrooms, including shop-in-shops and pop-up-shops, and via the web are recognized, typically at the point of transference of title when the goods are shipped.

### ***Omni-channel Comparable Net Sales***

Omni-channel comparable net sales is a measure that highlights the performance of our existing locations and websites by measuring the change in net sales for a period over the comparable prior-period of equivalent length. Comparable net sales includes sales at all retail locations and online, open greater than 12 months (including remodels and relocations) and excludes closed stores. Comparable net sales is intended only as supplemental information and is not a substitute for net sales presented in accordance with GAAP. We have In fiscal year 2024, we updated how we calculate comparable sales to better reflect our business, store growth and omni-channel sales approach.

### ***New Customer***

We define a customer as new when the customer has completed a transaction at Lovesac either at a showroom or internet channel only for the first time. We have In fiscal 2024, we updated how we calculate new and repeat customers to better reflect business across all of our channels as well as the purchase cycle of the categories in which we compete.

### ***Cost of Merchandise Sold***

Cost of merchandise sold includes the direct cost of sold merchandise; inventory shrinkage; inventory adjustments due to obsolescence, including excess and slow-moving inventory and lower of cost or net realizable value reserves; inbound freight; all freight costs to ship merchandise to our showrooms, and warehousing and all logistics costs associated with shipping product to our customers. Certain of our competitors and other retailers may report gross profit differently than we do, by excluding from gross profit some or all of the costs related to their distribution network and instead including them in selling, general and administrative expenses. As a result, the reporting of our gross profit and profit margin may not be comparable to other companies.

The primary drivers of our cost of merchandise sold are raw materials costs, labor costs in the countries where we source our merchandise, and logistics costs. We expect gross profit to increase to the extent that we successfully grow our net sales and continue to realize scale economics with our manufacturing partners. We review our inventory levels on an ongoing basis in order to identify slow-moving merchandise and use product markdowns to efficiently sell these products. The timing and level of markdowns are driven primarily by customer acceptance of our merchandise.

### ***Gross Profit***

Gross profit is equal to our net sales less cost of merchandise sold. Gross profit as a percentage of our net sales is referred to as gross margin.

### ***Selling, General and Administrative Expenses***

Selling, general and administrative expenses include all operating costs, other than advertising and marketing expense, not included in cost of merchandise sold. These expenses include all payroll and payroll-related expenses; showroom expenses, including occupancy costs related to showroom operations, such as rent and common area maintenance; occupancy and expenses related to many of our operations at our headquarters, including utilities, equity based compensation, financing related expense; public company expenses; customer financing fees; and credit card transaction fees. Selling, general and administrative expenses as a percentage of net sales is usually higher in lower volume quarters and lower in higher volume quarters because a significant portion of the costs are relatively fixed.

Our recent revenue growth has been accompanied by increased selling, general and administrative expenses. The most significant components of these increases are payroll and rent costs. We expect these expenses, as well as rent expense associated with the opening of new showrooms, to increase as we grow our business. While we expect to leverage total selling, general and administrative expenses as a percentage of net sales as net sales volumes continue to grow, the impact will be lessened by our continued investments grow. We expect to continue to invest in infrastructure to support our the Company's growth. Our continued growth. These infrastructure investments include research and development costs on our existing and future products and foundational technology investments.. investments to support our continued growth. These investments will lessen the impact of expense leveraging during the period of investment with the greater impact of expense leveraging happening after the period of investment. However, total selling, general and administrative expenses generally will leverage during the periods of investments with the greatest leverage occurring within the fourth quarter.

### Advertising and Marketing Expense

Advertising and marketing expense include digital, social, and traditional advertising and marketing initiatives, that cover all of our business channels. Advertising and marketing expense is expected to continue to increase as a percentage of net sales as we continue to invest in advertising and marketing which has accelerated net sales growth.

We believe that EBITDA and Adjusted EBITDA are useful measures of operating performance, as they eliminate expenses that are not reflective of the underlying business performance, facilitate a comparison of our operating performance on a consistent basis from period-to-period and provide for a more complete understanding of factors and trends affecting our business. Additionally, EBITDA is frequently used by analysts, investors and other interested parties to evaluate companies in our industry. We use EBITDA and Adjusted EBITDA, alongside GAAP measures such as gross profit, operating income (loss) and net income (loss), to measure and evaluate our operating performance and we believe these measures are useful to investors in evaluating our operating performance.

We define "EBITDA" as earnings before interest, taxes, depreciation and amortization. We define "Adjusted EBITDA" as EBITDA adjusted for the impact of certain non-cash and other items that we do not consider in our evaluation of ongoing operating performance. These items include equity-based compensation expense and certain other charges and gains that we do not believe reflect our underlying business performance.

These Non-GAAP Measures should not be considered as alternatives to net income (loss) or net income (loss) per share as a measure of financial performance, cash flows from operating activities as a measure of liquidity, or any other performance measure derived in accordance with GAAP. They should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Additionally, our Non-GAAP Measures are not intended to be measures of free cash flow for management's discretionary use, as they do not consider certain cash requirements such as tax payments and debt service requirements and certain other cash costs that recur increase in the future. Our Non-GAAP Measures contain certain other limitations, including the failure to reflect our cash expenditures, cash requirements for working capital needs and

cash costs to replace assets being depreciated and amortized. In addition, our Non-GAAP Measures exclude certain non-recurring and other charges.

In the future, we may incur expenses that are the same as or similar to some of the adjustments in our Non-GAAP Measures. Our presentation of our Non-GAAP Measures should not be construed to imply that our future results will be unaffected by any such adjustments. Management compensates for these limitations by relying primarily on our GAAP results and by using our Non-GAAP Measures as supplemental information. Our Non-GAAP Measures are not necessarily comparable to other similarly titled captions of other companies due to different methods of calculation.

## Liquidity and Capital Resources

### General

Our business relies on cash flows from operations, our revolving line of credit (see “Revolving Line of Credit” below) and securities issuances as our primary sources of liquidity. At May 5, 2024, we had \$72.4 million in cash and cash equivalents. Our primary cash needs are for marketing and advertising, inventory, payroll, showroom rent, capital expenditures associated with opening new showrooms and updating existing showrooms, as well as investments in our future infrastructure and information technology. The most significant components of our working capital are cash and cash equivalents, merchandise inventory, prepaid expenses, accounts payable, accrued expenses, customer deposits, and customer deposits. Borrowings generally increase in our third fiscal quarter as we prepare to build our inventory levels in preparation for the fourth quarter holiday selling season. other current liabilities. We believe that cash expected to be generated from operations, the availability under our revolving line of credit and our existing cash balances are sufficient to meet working capital requirements and anticipated capital expenditures for at least the next 12 months.

Capital Expenditures

Historically, we have invested significant capital expenditures in opening new showrooms and updating existing showrooms. These capital expenditures have increased in the past and may continue to increase in future periods as we open additional showrooms. Capital expenditures are anticipated to support our showroom growth, including capital outlays for leasehold improvements, fixtures and equipment, and the construction of new showrooms. Cash paid for capital expenditures was \$7.3 million in the thirteen weeks ended May 5, 2024.

## Critical Accounting Policies and Estimates

The discussion and analysis of financial condition and results of operations is based upon our condensed financial statements, which have been prepared in conformity with GAAP. Certain accounting policies and estimates are particularly important to the understanding of our financial position and results of operations and require the application of significant judgment by our management or can be materially affected by changes from period to period in economic factors or conditions that are outside of our control. As a result, they are subject to an inherent degree of uncertainty. In applying these policies, management uses their judgment to determine the appropriate assumptions to be used in the determination of certain estimates. Those estimates are based on our historical operations, our future business plans and projected financial results, the terms of existing contracts, observance of trends in the industry, information provided by our customers and information available from other outside sources, as appropriate. Please see Note 1 to our financial statements included **in the Amendment No. 2** on Form **10-K/A 10-K** for the fiscal year ended **January 29, 2023** **February 4, 2024** for a complete description of our significant accounting policies. ## Recent Accounting Pronouncements

Refer to Note 1. Basis of Presentation and Summary of Significant Accounting Policies, contained in the Condensed Notes to Financial Statements in Item 1 of Part 1 of this Quarterly Report on Form 10-Q for a full description of the recent accounting pronouncements and our expectation of their impact, if any, on our results of operations and financial condition.

## Item 3. Quantitative and Qualitative Disclosures about Market Risk

In the normal course of business, we are exposed to a variety of risks, including fluctuations in interest rates, that could affect our financial position and results of operations.

### Interest Rate Risk

Cash and cash equivalents and short-term investments were held primarily in cash deposits, certificates of deposit, money market funds and investment grade corporate debt. The fair value of our cash, cash equivalents and short-term investments

will fluctuate with movements of interest rates, increasing in periods of declining rates of interest and declining in periods of increasing rates of interest.

Interest on the revolving line of credit incurred pursuant to the credit agreements described herein would accrue at a floating rate based on a formula tied to certain market rates at the time of occurrence; however, we do not expect that any changes in prevailing interest rates will have a material impact on our results of operations.

## Inflation

In fiscal year 2023, 2024, we saw inflationary pressures across various parts of our business and operations, including, but not limited to, wholesale cost inflation and rising costs across our supply chain. We continue to monitor the impact of inflation in order to minimize its effects through pricing strategies, productivity improvements and cost reductions. If our costs were to be subject to more significant inflationary pressures, we may not be able to fully offset such higher costs through price increases or other cost efficiency measures. Our inability or failure to do so could harm our business, financial condition and results of operations.

## Liquidity Risk

We are committed to maintaining a strong balance sheet and minimizing potential liquidity risk. We have taken numerous steps to ensure we partner with strong banking financial institutions to help reduce the risk of exposure to any failing institution while also allowing us to ensure the ability to access the credit markets through our existing credit agreement. In addition, as of October 29, 2023, we have not identified any major customer or supplier that had been materially impacted by the bank failures in 2023.
