The Bank provides business banking products and services predominantly to the Asian-American communities through full service branches located in Los Angeles County, Orange County and Ventura County in California, Las Vegas (Nevada), the New York City metropolitan areas, Chicago (Illinois), Edison (New Jersey) and Honolulu (Hawaii). The products and services include commercial and investor real estate loans, business loans and lines of credit, Small Business Administration (SBA) 7A and 504 loans, mortgage loans, trade finance and a full range of depository accounts, including specialized services such as remote deposit, E-banking, A mobile banking and treasury management services. We operate as a minority depository institution, which is defined by the Federal Deposit Insurance Corporation (FDIC) as a federally insured depository institution where 51% or more of the voting stock is owned by minority individuals or a majority of the board of directors is minority and the community that the institution serves is predominantly minority. A minority depository institution is eligible to receive support from the FDIC and other federal regulatory agencies such as training, technical assistance and review of proposed new deposit taking and lending programs, and the adoption of applicable policies and procedures governing such programs. We intend to maintain our minority depository institution designation, as it is expected that at least 51% of our issued and outstanding shares of capital shall remain owned by minority individuals. The minority depository institution designation has been historically beneficial to us, and we continue to use the program for technical assistance. We operate a full-service banking offices in Arcadia, Cerritos, Diamond Bar, Irvine, Los Angeles, Monterey Park, Oxnard, Rowland Heights, San Gabriel, Silver Lake, Torrance, and Westlake Village, California; Las Vegas, Nevada; Manhattan, Brooklyn, Flushing, and Elmhurst, New York; the Chinatown and Bridgeport neighborhoods of Chicago, Illinois; Edison, New Jersey; and Honolulu, Hawaii. Our primary source of revenue is providing loans to customers, who are predominantly small and middle-market businesses and individuals. We generate our revenue primarily from interest received on loans and, to a lesser extent, from interest received on investment securities. We also derive income from noninterest sources, such as fees received in connection with various lending and deposit services, loan servicing, gain on sales of loans and wealth management services. Our principal expenses include interest expense on deposits and borrowings, and operating expenses, such as salaries and employee benefits, occupancy and equipment, data processing, and income tax expense. We completed six whole bank acquisitions and one branch acquisition from July 2011 through January 2022. All of our acquisitions have been accounted for using the acquisition method of accounting and, accordingly, the operating results of the acquired entities have been included in the consolidated financial statements from their respective acquisition dates.

NOTE 2 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A Basis of Presentation The accompanying unaudited consolidated financial statements and notes thereto of the Company have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) for Form 10-Q and conform to practices within the banking industry and include all of the information and disclosures required by accounting principles generally accepted in the United States of America (GAAP) for interim financial reporting. The accompanying unaudited consolidated financial statements reflect all adjustments (consisting only of normal recurring adjustments), which are necessary for a fair presentation of financial results for the interim periods presented. Certain prior period amounts have been reclassified to conform to the current period presentation. Such reclassifications had no impact on our net income or shareholders' equity. The results of operations for the three months and the six months ended June 30, 2024 are not necessarily indicative of the results for the full year. These interim unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto as of and for the year ended December 31, 2023, included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023 (our 2023 Annual Report). Use of Estimates in the Preparation of Financial Statements The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. It is reasonably possible that these estimates could change as actual results could differ from those estimates. The allowance for credit losses, realization of deferred tax assets, the valuation of goodwill and other intangible assets, other derivatives, and the fair value measurement of financial instruments are particularly subject to change and such change could have a material effect on the consolidated financial statements.

Summary of Significant Accounting Policies The accompanying unaudited consolidated financial statements were compiled in accordance with the accounting policies set forth in "Note 2" Basis of Presentation and Summary of Significant Accounting Policies" in our consolidated financial statements as of and for the year ended December 31, 2023, included in our 2023 Annual Report. The Financial Accounting Standards Board ("FASB") issues Accounting Standards Updates ("ASU" or Update) and Accounting Standards Codifications (ASC), which are the primary source of GAAP. We have not made any changes to our significant accounting policies from those disclosed in our 2023 Annual Report. A Recent Accounting Pronouncement Recently adopted In June 2022, the FASB issued ASU 2022-03, Fair Value Measurement (Topic 820) "Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions". This pronouncement clarifies that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, is not considered in measuring fair value. ASU 2022-03A also clarifies that an entity cannot, as a separate unit of account, recognize and measure a contractual sale restriction and requires certain new disclosures for equity securities subject to contractual sale restrictions. We adopted ASU 2022-03A on January 1, 2024 and the adoption did not have a material impact on our consolidated financial statements. In March 2023, the FASB issued ASU 2023-02, Investments - Equity Method and Joint Ventures (Topic 323). This Update permits reporting entities to elect to account for their tax equity investments using the proportional amortization method if certain conditions are met. It requires that a liability to be recognized for delayed equity contributions that are unconditional and legally binding or for equity contributions that are contingent upon a future event when that contingent event becomes probable. The reporting entity needs to disclose the nature of its tax equity investments and the effect of its tax equity investments on its financial position and results of operations. ASU 2023-02 is effective for US in fiscal years beginning after December 15, 2023, including interim periods within those fiscal years. We adopted ASU 2023-02A on January 1, 2024 and the adoption did not have a material impact on our consolidated financial statements.

Table of Contents

Recently issued not yet effective In October 2023, the FASB issued ASU 2023-06, Disclosure Improvements. This pronouncement amends the FASB Accounting Standards Codification to reflect updates and simplifications to certain disclosure requirements referred to the FASB by the SEC in 2018, including disclosures for the statement of cash flows, earnings per share, commitments, debt and equity instruments, and certain industry information, among other things. Each amendment is effective when the related disclosure is effectively removed from Regulations S-X or S-K; early adoption is prohibited. All amendments should be applied prospectively. If the SEC has not removed the applicable requirement from Regulation S-X or Regulation S-K by June 30, 2027, the pending amendments will be removed and will not become effective for any entity. Adoption of ASU 2023-06A is not expected to have a material impact on our consolidated financial statements. In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segments. The amendments in this Update improve financial reporting by requiring disclosure of incremental segment information on an annual and interim basis. Amendments in this Update include: a requirement that a public entity provide all annual disclosures about a reportable segment's profit or loss in its interim period disclosures, disclosure of significant segment expenses that are regularly provided to the chief operating decision maker (CODM), disclosure of amounts for other segment items by reportable segment and a description of its composition, clarification that if the CODM uses more than one measure of a segment's profit or loss in assessing segment performance and deciding how to allocate resources, a public entity may report one or more of those additional measures of segment profit or loss, a requirement that a public entity disclose the title and position of the CODM, and an explanation of how the CODM uses the reported measure(s) of segment profit or loss, and a requirement that a public entity that has a single reportable segment provide all the disclosures required by this Update as well as all existing disclosures required in Topic 280. The amendments in this Update are effective for the Company beginning with its 2024 annual financial statement disclosures for the year ended December 31, 2024, and for all interim and annual periods thereafter. Early adoption is permitted. Adoption of ASU 2023-07A is not expected to have a material impact on our consolidated financial statements. In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740) - Improvements to Income Tax Disclosures. This Update enhances the transparency and decision usefulness of income tax disclosures. The amendments in this Update require the following: 1) consistent categories and greater disaggregation of information in the rate reconciliation, and 2) income taxes paid disaggregated by jurisdiction. The amendments in the ASU are effective for annual periods beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. The amendments in this Update should be applied on a prospective basis. However, retrospective application in all prior periods presented is permitted. Adoption of ASU 2023-09 is not expected to have a material impact on our consolidated financial statements.

Á There were no amounts outstanding under any of the otherÁ borrowing arrangements aboveÁ as of JuneÁ 30, 2024, except the FHLB advances maturing in the first quarter of 2025. Á NOTE 11 - INCOME TAXES Á The asset and liability method is used in accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Á We recorded an income tax provision of \$2.5 millionÁ and \$4.6Á million, reflecting an effective tax rate of 25.9%Á and 29.5%Á for the three months ended JuneÁ 30, 2024Á and 2023, and \$5.8Á million and \$9.1 million, reflecting an effective tax rate of 27.4% and 29.4% for the six months ended June 30, 2024 and 2023.Á We recognized a tax expense/(benefit) from stock option exercises of \$16,000Á and zeroÁ for the three months ended JuneÁ 30, 2024Á and 2023 and \$24,000Á and \$(5,000) for the six months ended June 30, 2024 and 2023.Á Á NOTE 12 - COMMITMENTS AND CONTINGENCIES Á In the ordinary course of business, we enterÁ into financial commitments to meet the financing needs of ourÁ customers. These financial commitments include commitments to extend credit, unused lines of credit, commercial and similar letters of credit and standby letters of credit. Those instruments involve to varying degrees, elements of credit and interest rate risk not recognized in ourÁ financial statements. Á Our exposure to loss in the event of nonperformance on these financial commitments is represented by the contractual amount of those instruments. We useÁ the same credit policies in making commitments as we doÁ for loans reflected in the financial statements. Á At JuneÁ 30, 2024Á and December 31, 2023, we had the following financial commitments whose contractual amount represents credit risk: Á Á June 30, Á Á December 31, Á Á Á 2024Á Á 2023Á Á Á (dollars in thousands) Á Commitments to make loans Á \$85,342Á Á \$77,844Á Unused lines of credit Á Á 83,443Á Á Á 106,315Á Commercial and similar letters of credit Á Á 4,476Á Á Á 3,904Á Standby letters of credit Á Á 2,303Á Á Á 2,687Á Total Á \$175,564Á Á \$190,750Á Á Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Since many of the commitments are expected to expire without being drawn upon, the total amounts do not necessarily represent future cash requirements. We evaluateÁ each client's creditworthiness on a case-by-case basis. Á We recordÁ a liability for lifetime expected losses on off-balance-sheet credit exposure that does not fit the definition of unconditionally cancelable in accordance with ASC 326. We useÁ the loss rate and exposure of default framework to estimate a reserve for unfunded commitments. Loss rates for the expected funded balances are determined based on the associated pooled loan analysis loss rate and the exposure at default is based on an estimated utilization given default. The reserve for off-balance sheet commitments was \$624,000Á and \$640,000Á as of JuneÁ 30, 2024Á and December 31, 2023. We recorded a reversal of the provisionÁ forÁ unfunded loanÁ commitments of \$47,000Á forÁ the three months ended JuneÁ 30, 2024, a provision for unfunded loan commitments of \$31,000 for the three months ended March 31, 2024, and a reversalÁ of the provision for unfunded loan commitmentsÁ of \$221,000Á forÁ the three months ended June 30, 2023. Á In addition, weÁ invest in various affordable housing partnershipsÁ and Small Business Investment Company ("SBIC") funds. Pursuant to these investments, we commitÁ to an investment amount to be fulfilled in future periods. Such unfunded commitments totaled \$3.0Á million as of June 30, 2024 and \$3.3Á millionÁ as of December 31, 2023. Á We areÁ involved in various matters of litigation which have arisen in the ordinary course of business and accruals for estimates of potential losses have been provided when necessary and appropriate under generally accepted accounting principles.Á In the opinion of management, the disposition of such pending litigation will not have a material effect on the Company's financial statements. Fees received from deposit clients for the various deposit activities are recognized as revenue once the performance obligations are met.	Wealth Management Fees
We employ financial consultants to provide investment planning services for customers including wealth management services, asset allocation strategies, portfolio analysis and monitoring, investment strategies, and risk management strategies. The fees we earn are variable and are generally received monthly. We recognize revenue for the services performed at quarter-end based on actual transaction details received from the broker dealer we engage.	In our wealth management division, revenue is primarily generated from (1) securities brokerage accounts, (2) investment advisor accounts, (3) full service brokerage implementation fees, and (4) life insurance and annuity products.	Gain/(loss) on Sales of Other Real Estate Owned
We record a gain or loss from the sale of OREO, when control of the property or asset transfers to the buyer, which generally occurs at the time of an executed deed or sales agreement.	34	Table of Contents

A CRITICAL ACCOUNTING POLICIES A Management has established various accounting policies that govern the application of generally accepted accounting principles in the U.S.A (    GAAP  ) in the preparation of our financial statements. Certain accounting policies require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions or conditions. The Company's critical accounting policies consist of the allowance for credit losses on loans held for investment, investment securities, goodwill and income taxes. Please see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2023 ("2023 Annual Report") for additional discussion concerning these critical accounting policies. Also, our significant accounting policies are described in greater detail in Note 2A to the "Basis of Presentation and Summary of Significant Accounting Policies to the audited consolidated financial statements included in our 2023 Annual Report, and are essential to understanding Management's Discussion and Analysis of Financial Condition and Results of Operations. A 37 Table of Contents A Allowance for Credit Losses (ACL) A sensitivity analysis of our ACL was performed as of June 30, 2024. Based on this sensitivity analysis, a positive 25% change in prepayment speed would result in a \$943,000, or 2%, decrease to the ACL. A negative 25% change in prepayment speed would result in a \$1.2 million, or 3%, increase to the ACL. Additionally, a one percentage point increase in the unemployment rate would result in a \$717,000, or 2%, increase to the ACL and a one percentage point decrease in the unemployment rate would result in a \$678,000, or 2%, decrease to the ACL. Management reviews the results using the comparison scenario for sensitivity analysis and considered the results when evaluating the qualitative factor adjustments. A On a quarterly basis, we stress test the qualitative factors, which are lending policy, procedures and strategies, economic conditions, changes in nature and volume of the portfolio, credit and lending staff, problem loan trends, loan review results, collateral value, concentrations and regulatory and business environment by creating two scenarios, moderate risk and major risk. A In the Moderate Stress scenario, the status of all nine risk factors across all pooled loan types were set at the Major Risk level while in the Major Stress scenario, the status of all nine risk factors across all pooled loan types were set at the Moderate Risk level while in the Major Stress scenario, the status of all nine risk factors across all pooled loan types were set at the Major Risk level. Under the Moderate Stress scenario, the ACL would increase by \$3.5 million, or 8%, as of June 30, 2024. Under the Major Stress scenario, the ACL would increase by \$18.9 million, or 45%, as of June 30, 2024. A For additional information on the policies, methodologies and judgments used to determine the ACL, see Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations A Critical Accounting Policies A in our 2023 Annual Report and Note 4A to the "Loans and Allowance for Credit Losses" to the Notes to Consolidated Financial Statements in this Form 10-Q. A minority depository institution is eligible to receive support from the FDIC and other federal regulatory agencies such as training, technical assistance and review of proposed new deposit taking and lending programs, and the adoption of applicable policies and procedures governing such programs. We intend to maintain our minority depository institution designation, as it is expected that at least 51% of our issued and outstanding shares of capital shall remain owned by minority individuals. The minority depository institution designation has been historically beneficial to us, and we continue to use the program for technical assistance. We operate full-service banking offices in Arcadia, Cerritos, Diamond Bar, Irvine, Los Angeles, Monterey Park, Oxnard, Rowland Heights, San Gabriel, Silver Lake, Torrance, Westlake Village, California; Las Vegas, Nevada; Manhattan, Brooklyn, Flushing and Elmhurst, New York; the Chinatown and Bridgeport neighborhoods of Chicago, Illinois; Edison, New Jersey; and Honolulu, Hawaii. Our primary source of revenue is providing loans to customers, who are predominantly small and middle-market businesses and individuals. A 38 Table of Contents A We have completed six whole bank acquisitions and one branch acquisition from July 2011 through January 2022. All of our acquisitions have been accounted for using the acquisition method of accounting and, accordingly, the operating results of the acquired entities have been included in the consolidated financial statements from their respective acquisition dates. A OVERVIEW A The following discussion provides information about the results of operations, financial condition, liquidity and capital resources of RBB and its wholly owned subsidiaries. This information is intended to facilitate the understanding and assessment of significant changes and trends related to our financial condition and the results of our operations. This discussion and analysis should be read in conjunction with our audited financial statements included in our 2023 Annual Report, and the unaudited consolidated financial statements and accompanying notes presented elsewhere in this Report. The results for the three and six months ended June 30, 2024 are not necessarily indicative of the results expected for the year ending December 31, 2024. A We reported net income of \$7.2 million, or \$0.39 diluted earnings per share, for the quarter ended June 30, 2024, compared to net income of \$8.0 million, or \$0.43 diluted earnings per share, for the quarter ended March 31, 2024 and \$11.0 million, or \$0.58 diluted earnings per share for the quarter ended June 30, 2023. A At June 30, 2024, total assets were \$3.9 billion, a decrease of \$157.8 million, or 3.9%, from total assets of \$4.0 billion at December 31, 2023, primarily due to a \$178.6 million decrease in cash and cash equivalents, partially offset by a \$17.1 million increase in gross loans, including loans held for sale (AFSA), a \$6.6 million increase in available for sale ("AFS") investment securities. The decrease in cash and cash equivalents was primarily due to a decrease of \$284.9 million in wholesale deposits, partially replaced by retail deposits. Wholesale deposits include brokered deposits, collateralized deposits from the State of California, and deposits acquired through internet listing services. A At June 30, 2024, AFS investment securities totaled \$325.6 million, inclusive of a pre-tax net unrealized loss of \$30.2 million, compared to \$319.0 million, inclusive of a pre-tax unrealized loss of \$28.1 million at December 31, 2023. The pre-tax unrealized loss was due to a decline in the value of AFSA investment securities due to continued higher market interest rates in 2024. A Total loans HFI, net of deferred fees and discounts, increased \$15.9 million, or 0.5%, to \$3.0 billion at June 30, 2024 from \$2.9 billion at December 31, 2023. The increase was primarily due to an increase in commercial real estate ("CRE") loans of \$22.4 million, and construction and land development ("C&D") loans of \$21.0 million, partially offset by decreases in single-family residential ("SFR") mortgages of \$20.0 million, commercial and industrial ("C&I") loans of \$3.4 million. A Small Business Administration (SBA) loans of \$1.8 million and other loans of \$2.3 million. In addition, mortgage loans HFS increased \$1.2 million to \$3.1 million at June 30, 2024. The loan to deposit ratio was 99.4% at June 30, 2024, compared to 94.2% at December 31, 2023, and 99.3% at June 30, 2023. A Total deposits were \$3.0 billion as of June 30, 2024, a \$151.2 million, or 4.8%, decrease compared to \$3.2 billion as of December 31, 2023. This decrease was due to a decrease in interest-bearing deposits. Noninterest-bearing deposits increased \$3.4 million to \$543.0 million at June 30, 2024, or 18.0% of total deposits, compared to \$539.6 million, or 17.0% of total deposits at December 31, 2023. A The decrease in interest-bearing deposits included a decrease in time deposits of \$169.5 million, offset by an increase in non-maturity deposits of \$15.0 million. The decrease in time deposits included a \$284.9 million decrease in wholesale deposits, partially replaced by an increase of \$115.4 million in retail deposits. Wholesale deposits totaled \$120.7 million at June 30, 2024 and \$405.6 million at December 31, 2023. A Borrowings, consisting of Federal Home Loan Bank ("FHLB") advances, long-term debt and subordinated debt, were \$284.4 million at June 30, 2024, relatively unchanged compared to \$284.1 million as of December 31, 2023. These balances include FHLB term advances of \$150.0 million, which matured in the first quarter of 2025. A As of June 30, 2024, the ACL totaled \$42.4 million and was comprised of an allowance for loan losses (ALL) of \$41.7 million and a reserve for unfunded commitments (RUC) of \$624,000 (included in Accrued interest and other liabilities). This compares to the ACL of \$42.4 million comprised of an ALL of \$41.7 million and a RUC of \$671,000 at March 31, 2024. The ACL for the second quarter of 2024 included a \$557,000 provision for credit losses, net charge-offs of \$551,000. Although nonperforming loans increased, additional specific reserves were not required based on sufficient collateral for individually reviewed, collateral dependent loans. A Charge-offs in the second quarter of 2024 were mostly related to a CRE non-owner occupied loan, which migrated to nonaccrual status and was written-down to its estimated fair value. The ALL as a percentage of loans HFI was 1.37% at June 30, 2024, compared to 1.38% at March 31, 2024. The ALL as a percentage of nonperforming loans was 76% at June 30, 2024, a decrease from 116% at March 31, 2024 due to the \$18.7 million increase in nonperforming loans during the second quarter of 2024. A At June 30, 2024, total shareholders' equity was \$511.3 million, a \$2.7 million decrease compared to March 31, 2024, and an \$11.0 million increase compared to June 30, 2023. The decrease in shareholders' equity for the second quarter of 2024 was due to dividends paid of \$3.0 million and common stock share repurchases totaling \$8.1 million, offset by net earnings of \$7.2 million, stock option exercises and other equity award activity of \$1.1 million and lower net unrealized loss on AFS securities of \$67,000. Book value per share increased to \$28.12 from \$27.67 and tangible book value per share increased to \$24.06 from \$23.68. For additional information, see the Non-GAAP Financial Measures. A Provision for Credit Losses

Three Months Ended June 30, 2024

Compared to Three Months Ended March 31, 2024

We recorded a \$557,000 provision for credit losses for the second quarter of 2024 compared to no provision for credit losses for the first quarter of 2024.

The second quarter provision took into consideration factors including changes in the loan portfolio mix, ongoing uncertainty in the economy related to inflation and the outlook for market interest rates, and credit quality metrics, including higher nonperforming loans at the end of the second quarter of 2024 compared to the end of the first quarter of 2024.

Three Months Ended June 30, 2024 Compared to Three Months Ended June 30, 2023

We recorded a provision for credit losses of \$557,000 for the second quarter of 2024 compared to a \$380,000 provision for the second quarter of 2023. There were \$551,000 in net loan charge-offs in the second quarter of 2024, as compared to \$580,000 in net loan charge-offs in the second quarter of 2023.

The higher provision for the second quarter of 2024 was reflective of factors including changes in the loan portfolio mix, ongoing uncertainty in the economy related to inflation and the outlook for market interest rates and credit quality metrics, including the level of classified and nonperforming loans at June 30, 2024.

Six Months Ended June 30, 2024 Compared to Six Months Ended June 30, 2023

We recorded a provision for credit losses of \$557,000 for the six months ended June 30, 2024 compared to a \$2.4 million provision for the six months ended June 30, 2023. There were \$735,000 in net loan charge-offs for the six months ended June 30, 2024, as compared to \$737,000 in net loan charge-offs for the six months ended June 30, 2023.

The provision for the first six months of 2024 was lower than the first six months of 2023 due to a decline in the average balance of the loan portfolio since June 2023 and the Company recording a provision in the first quarter of 2023 related to classified loans and nonperforming loans at that date.

Three Months Ended June 30, 2024

Compared to Three Months Ended March 31, 2024

Noninterest income for the second quarter of 2024 was \$3.5 million, an increase of \$116,000 from \$3.4 million in the first quarter of 2024. This increase was due to higher income from equity investments (included in other income) of \$359,000 and higher gain on sale of loans of \$139,000, partially offset by a lower gain on OREO of \$432,000. Income from equity investments is recorded based on the most recent information available from the investee and fluctuates based on their underlying performance.

OREO totaling \$1.1 million was sold during the second quarter of 2024 for a gain of \$292,000. This compared to a \$560,000 gain on transfer of loans to OREO and gain on the sale of OREO of \$164,000 in the first quarter of 2024. There was no OREO outstanding at June 30, 2024.

Compared to Three Months Ended June 30, 2023

Noninterest income increased \$995,000 to \$3.5 million for the second quarter of 2024, compared to \$2.5 million for the same quarter in the prior year. The increase was primarily attributable to higher gain on sale of loans of \$433,000, higher income from equity investments (included in other income) of \$359,000, and higher gain on OREO of \$292,000, offset by a lower service charges and fees of \$56,000 and lower loan servicing income, net of amortization of \$27,000.

Six Months Ended June 30, 2024

Compared to Six Months Ended June 30, 2023

Noninterest income increased \$2.0 million to \$6.9 million for the six months ended June 30, 2024, compared to \$4.9 million for the same period in the prior year. The increase was due to higher gain on OREO of \$1.0 million, a higher gain on sale of loans of \$716,000 and higher income from equity investments (included in other income) of \$359,000, partially offset by a lower loan servicing income, net of amortization of \$169,000.

The decrease in loan servicing income was due to a decrease in average loans being serviced including higher pre-payments on such loans.

In addition to deposits, we have used long- and short-term borrowings, such as federal funds purchased and FHLB long-and short-term advances, as a source of funds to meet the daily liquidity needs of our customers and fund growth in earning assets. We had no FHLB overnight advances at June 30, 2024A and A December 31, 2023. We had \$150.0 million in FHLBA advances at June 30, 2024A and December 31, 2023, which had an original term of five years and a maturity dateA in the first quarter ofA 2025. A Shareholders' equity increased \$31,000, or 0.01%, to \$511.3A million as of June 30, 2024A since December 31, 2023.A The increase in shareholders'A equity for the firstA half of fiscal 2024 was due to net earnings of \$15.3A million and \$1.8 million from stock option and other equity awardA activity, partially offset by dividends paid of \$6.0A million, common stock share repurchases of \$9.6A million, and higher net after tax unrealized losses on AFS securities of \$1.4A million. As a result, book value per share increased to \$28.12A from \$27.47A and tangible book value per shareA increased to \$24.06A from \$23.48.A For additional information, see "Non-GAAP Financial Measures." A Liquidity Management. Liquidity refers to the measure of our ability to meet the cash flow requirements of depositors and borrowers, while at the same time meeting our operating, capital and strategic cash flow needs, all at a reasonable cost. We continuously monitor our liquidity position to ensure that assets and liabilities are managed in a manner that will meet all short-term and long-term cash requirements as well as expected and unexpected cash needs. We manage our liquidity position to meet the daily cash flow needs of customers, while maintaining an appropriate balance between assets and liabilities to meet the return on investment objectives of our shareholders. A Our liquidity position is supported by management of liquid assets and liabilities and access to alternative sources of funds. Liquid assets include cash, interest-bearing deposits in banks, federal funds sold, available for sale securities, purchased receivables and maturing or prepaying balances in our securities and loan portfolios. Liquid liabilities include core deposits, federal funds purchased, securities sold under repurchase agreements and other borrowings. Other sources of liquidity include the sale of loans, the ability to acquire additional national market non-core deposits, the issuance of additional collateralized borrowings such as FHLB advances, the issuance of debt securities, additional borrowings through the Federal Reserve's discount window and the issuance of preferred or common securities. Our short-term and long-term liquidity requirements are primarily to fund on-going operations, including payment of interest on deposits and debt, extensions of credit to borrowers, capital expenditures and shareholder dividends. These liquidity requirements are met primarily through cash flow from operations, redeployment of prepaying and maturing balances in our loan and investment portfolios, debt financing and increases in customer deposits. For additional information regarding our operating, investing and financing cash flows, see the consolidated statements of cash flows provided in our consolidated financial statements. A Integral to our liquidity management is the administration of short-term borrowings. To the extent we are unable to obtain sufficient liquidity through core deposits, we seek to meet our liquidity needs through wholesale funding or other borrowings on either a short- or long-term basis. Our wholesale funding ratio was 3.6%A at June 30, 2024 compared to 11.7%A at December 31, 2023. A We haveA sufficient capital and doA not anticipate any need for additional liquidity as of June 30, 2024. As ofA June 30, 2024, we had \$92.0A millionA of federal funds lines, of which \$80.0 million is unsecuredA and \$12.0 million is collateralized by investment securities with fair market value of \$20.4A million, with no amounts advanced against the nes. At December 31, 2023, we had \$92.0A million of unsecured fed funds line, with no advances drawn.A In addition, lines of credit from the Federal Reserve Discount Window were \$45.9A million at June 30, 2024A and \$42.3A million at December 31, 2023. Federal Reserve Discount Window lines were collateralized by a pool of CRE loans totaling \$64.0A million as of June 30, 2024A and \$62.8A million as of December 31, 2023. We did not have any borrowings outstanding with the Federal Reserve at June 30, 2024A and December 31, 2023, and our borrowing capacity is limited only by eligible collateral. A At June 30, 2024A and December 31, 2023, we had \$150.0A million in FHLB term advances outstanding which mature in the first quarter of 2025. Based on the values of loans pledged as collateral, we had \$789.7A million of remaining secured borrowing capacity with the FHLB as of June 30, 2024A and \$888.3 million at December 31, 2023. A 64 Table of Contents A RBB is a corporation separate and apart from the Bank and, therefore, must provide for its own liquidity. RBB's main source of funding is dividends declared and paid to RBB by the Bank and RAM. There are statutory, regulatory and debt covenant limitations that affect the ability of the Bank to pay dividends to RBB. Management believes that these limitations will not impact our ability to meet our ongoing short-term cash obligations.A At June 30, 2024, RBB had \$30.9A million in cash, of whichA \$29.8A million was on deposit at the Bank. A Regulatory Capital Requirements A We are subject to various regulatory capital requirements administered by the federal and state banking regulators. Failure to meet regulatory capital requirements may result in certain mandatory and possible additional discretionary actions by regulators that, if undertaken, could have a direct material effect on our financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action(described below), we must meet specific capital guidelines that involve quantitative measures of our assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting policies. A The table below summarizes the minimum capital requirements applicable to RBB and the Bank pursuant to Basel III regulations.A The minimum capital requirements are only regulatory minimums and banking regulators can impose higher requirements on individual institutions. For example, banks and bank holding companies experiencing internal growth or making acquisitions generally will be expected to maintain strong capital positions substantially above the minimum supervisory levels. Higher capital levels may also be required if warranted by the particular circumstances or risk profiles of individual banking organizations. The table belowA summarizes the capital requirements applicable to RBB and the Bank in order to be considered "well-capitalized" under a regulatory perspective, as well as the capital ratios of RBB and the Bank as of June 30, 2024A and December 31, 2023. RBB and the Bank exceeded all regulatory capital requirements under Basel III and the Bank was considered to be "well-capitalized" as of the dates reflected in the table below: A A Ratio at June 30, 2024 A A Ratio at December 31, 2023 A Regulatory Capital Ratio Requirements A Regulatory Capital Ratio Requirements, including fully phased-in Capital Conservation Buffer A Minimum Requirement for "Well Capitalized" Depository Institution A Tier 1 Leverage Ratio A A A A A Consolidated A A 12.48 % A A 11.99 % A 4.00 % A 4.00 % A 5.00 % Bank A A 14.61 % A A 13.62 % A A 4.00 % A A 4.00 % A 5.00 % Common Equity Tier 1 Risk-Based Capital Ratio (1) A A A A A A A A A A A Consolidated A A 18.89 % A A 19.07 % A A 4.50 % A A 7.00 % A A 6.50 % Bank A A 22.87 % A A 22.41 % A A 4.50 % A A 6.50 % Tier 1 Risk-Based Capital Ratio A A A A A A A A A A A Consolidated A A 19.50 % A A 19.69 % A A 6.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK. A Market Risk. A Market risk represents the risk of loss due to changes in market values of assets and liabilities. We incur market risk in the normal course of business through exposures to market interest rates, equity prices, and credit spreads. We have identified three primary sources of market risk: A interest rate risk, price risk and basis risk. A Interest Rate Risk. A Interest rate risk is the risk to earnings and value arising from changes in market interest rates. Interest rate risk arises from timing differences in the repricing and maturities of interest-earning assets and interest-bearing liabilities (repricing risk), changes in the expected maturities of assets and liabilities arising from embedded options, such as borrowers' ability to prepay residential mortgage loans at any time and depositors' ability to redeem certificates of deposit before maturity (option risk), changes in the shape of the yield curve where interest rates increase or decrease in a nonparallel fashion (yield curve risk), and changes in spread relationships between different yield curves, such as U.S. Treasuries and SOFR (basis risk). A Price Risk. A Price risk represents the risk of loss arising from adverse movements in the prices of financial instruments that are carried at fair value and subject to fair value accounting. We have price risk from the available for sale SFR mortgage loans and fixed-rate available for sale securities. A Basis Risk. A Basis risk represents the risk of loss arising from asset and liability pricing movements not changing in the same direction. We have basis risk primarily in the SFR mortgage loan portfolio, the multifamily loan portfolio and our securities portfolio. A Our ALCOA establishes broad policy limits with respect to interest rate risk. The ALCOA establishes specific operating guidelines within the parameters of the board of directors' policies. In general, we seek to minimize the impact of changing interest rates on net interest income and the economic values of assets and liabilities. The ALCOA monitors the level of interest rate risk sensitivity to ensure compliance with the board of directors' approved risk limits and to oversee management's balance sheet risk management strategies. A Interest rate risk management is an active process that encompasses monitoring loan and deposit flows complemented by investment and funding activities. Effective management of interest rate risk begins with understanding the dynamic characteristics of assets and liabilities and determining the appropriate interest rate risk posture given business forecasts, management objectives, market expectations, and policy constraints. A An asset sensitive position refers to a balance sheet position in which a short-term decrease in interest rates is expected to generate lower net interest income, as rates earned on interest-earning assets would reprice downward more quickly than rates paid on interest-bearing liabilities, thus compressing the net interest margin. Conversely, a liability sensitive position refers to a balance sheet position in which a short-term decrease in interest rates is expected to generate higher net interest income, as rates paid on interest-bearing liabilities would reprice downward more quickly than rates earned on interest-earning assets, thus expanding the net interest margin. A Income Simulation and Economic Value Analysis. A Interest rate risk measurement is calculated and reported to the board and the ALCOA at least quarterly. The information reported includes period-end results and identifies any policy limits exceeded, along with an assessment of the policy limit breach and the action plan and timeline for resolution, mitigation, or assumption of the risk. A 68. Table of Contents A We use two approaches to model interest rate risk: Net Interest Income at Risk (NII at Risk), and Economic Value of Equity (EVE). Under NII at Risk, net interest income is modeled utilizing various assumptions for assets, liabilities, and derivatives over a 12 month time horizon assuming a flat balance sheet and an instantaneous and parallel shift in market interest rates in 100 basis point increments. A We report NII at Risk to isolate the change in income related solely to interest-earning assets and interest-bearing liabilities. The model results do not take into consideration any steps management might take to respond to the changes in interest rates or changes in competitor or customer behavior. EVE measures the period end market value of assets minus the market value of liabilities and the change in this value as rates change. EVE is a period end measurement. A This is directionally consistent with our profile at December 31, 2023. Actual results could vary materially from those calculated by our model, due to a variety of factors or assumptions such as the uncertainty of the magnitude, timing and direction of future interest rate movement or the shape of the yield curve. When interest rates rise, fixed rate assets generally lose economic value as these assets are discounted at a higher rate demonstrating the longer duration assets result in a greater value to be lost. When interest rates fall, the opposite is true, however these positives are offset by a decrease in the value of noninterest-bearing deposits, which have a lower value in lower interest rate environments. A Actual results could vary materially from those calculated by our model, due to a variety of factors or assumptions such as the uncertainty of the magnitude, timing and direction of future interest rate movement or the shape of the yield curve. The EVE results are within board policy limits. A ITEM 4. CONTROLS AND PROCEDURES. A Evaluation of Disclosure Controls and Procedures. These financial commitments include commitments to extend credit, unused lines of credit, commercial and similar letters of credit and standby letters of credit. Those instruments involve to varying degrees, elements of credit and interest rate risk not recognized in our financial statements. A Our exposure to loss in the event of nonperformance on these financial commitments is represented by the contractual amount of those instruments. We use the same credit policies in making commitments as we do for loans reflected in the financial statements. A At June 30, 2024 and December 31, 2023, we had the following financial commitments whose contractual amount represents credit risk: A June 30, A December 31, A A 2024 A 2023 A A (dollars in thousands) A Commitments to make loans A \$85,342 A \$77,844 A Unused lines of credit A \$83,443 A \$106,315 A Commercial and similar letters of credit A \$4,476 A \$3,904 A Standby letters of credit A \$2,303 A \$2,687 A Total A \$175,564 A \$190,750 A Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Since many of the commitments are expected to expire without being drawn upon, the total amounts do not necessarily represent future cash requirements. We evaluate each client's creditworthiness on a case-by-case basis. A We record a liability for lifetime expected losses on off-balance-sheet credit exposure that does not fit the definition of unconditionally cancelable in accordance with ASC 326. We use the loss rate and exposure of default framework to estimate a reserve for unfunded commitments. Loss rates for the expected funded balances are determined based on the associated pooled loan analysis loss rate and the exposure at default is based on an estimated utilization given default. The reserve for off-balance sheet commitments was \$624,000 and \$640,000 as of June 30, 2024 and December 31, 2023. We recorded a reversal of the provision for unfunded loan commitments of \$47,000 for the three months ended June 30, 2024, a provision for unfunded loan commitments of \$31,000 for the three months ended March 31, 2024, and a reversal of the provision for unfunded loan commitments of \$221,000 for the three months ended June 30, 2023. We recorded a reversal of the provision for unfunded loan commitments of \$16,000 for the six months ended June 30, 2024, and a reversal of the provision of unfunded loan commitments of \$359,000 for the six months ended June 30, 2023. A In addition, we invest in various affordable housing partnerships and Small Business Investment Company ("SBIC") funds. Pursuant to these investments, we commit to an investment amount to be fulfilled in future periods. Such unfunded commitments totaled \$3.0 million as of June 30, 2024 and \$3.3 million as of December 31, 2023. A We are involved in various matters of litigation which have arisen in the ordinary course of business and accruals for estimates of potential losses have been provided when necessary and appropriate under generally accepted accounting principles. A In the opinion of management, the disposition of such pending litigation will not have a material effect on the Company's financial statements. A X - Definition The entire disclosure for significant arrangements with third parties, which includes operating lease arrangements and arrangements in which the entity has agreed to expend funds to procure goods or services, or has agreed to commit resources to supply goods or services, and operating lease arrangements. Weighted average relates to the portion of time within a reporting period that common shares have been issued and outstanding to the total time in that period. BUSINESS DESCRIPTION

RBB Bancorp ("RBB") is a bank holding company registered under the Bank Holding Company Act of 1956, as amended. RBB Bancorp's principal business is to serve as the holding company for its wholly-owned banking subsidiaries, Royal Business Bank ("Bank") and RBB Asset Management Company ("RAM"). RAM was formed to hold and manage problem assets acquired in business combinations. When we refer to "we," "us," "our," or the "Company," we are referring to RBB Bancorp and its consolidated subsidiaries including the Bank and RAM, collectively. When we refer to the "parent company," "Bancorp," or the "holding company," we are referring to RBB Bancorp, the parent company, on a stand-alone basis.

The Bank provides business-banking products and services predominantly to the Asian-American communities through full service branches located in Los Angeles County, Orange County and Ventura County in California, Las Vegas (Nevada), the New York City metropolitan areas, Chicago (Illinois), Edison (New Jersey) and Honolulu (Hawaii). The products and services include commercial and investor real estate loans, business loans and lines of credit, Small Business Administration ("SBA") loans, mortgage loans, trade finance and a full range of depository accounts, including specialized services such as remote deposit, E-banking, mobile banking and treasury management services.

We operate as a minority depository institution, which is defined by the Federal Deposit Insurance Corporation ("FDIC") as a federally insured depository institution where 51% or more of the voting stock is owned by minority individuals or a majority of the board of directors is minority and the community that the institution serves is predominantly minority. A minority depository institution is eligible to receive support from the FDIC and other federal regulatory agencies such as training, technical assistance and review of proposed new deposit taking and lending programs, and the adoption of applicable policies and procedures governing such programs. We intend to maintain our minority depository institution designation, as it is expected that at least 51% of our issued and outstanding shares of capital shall remain owned by minority individuals. The minority depository institution designation has been historically beneficial to us, and we continue to use the program for technical assistance.

We operate full-service banking offices in Arcadia, Cerritos, Diamond Bar, Irvine, Los Angeles, Monterey Park, Oxnard, Rowland Heights, San Gabriel, Silver Lake, Torrance, and Westlake Village, California; Las Vegas, Nevada; Manhattan, Brooklyn, Flushing, and Elmhurst, New York; the Chinatown and Bridgeport neighborhoods of Chicago, Illinois; Edison, New Jersey; and Honolulu, Hawaii. Our primary source of revenue is providing loans to customers, who are predominantly small and middle-market businesses and individuals.

We generate our revenue primarily from interest received on loans and, to a lesser extent, from interest received on investment securities. We also derive income from noninterest sources, such as fees received in connection with various lending and deposit services, loan servicing, gain on sales of loans and wealth management services. Our principal expenses include interest expense on deposits and borrowings, and operating expenses, such as salaries and employee benefits, occupancy and equipment, data processing, and income tax expense.

We completed whole bank acquisitions and branch acquisition from July 2011 through January 2022. All of our acquisitions have been accounted for using the acquisition method of accounting and, accordingly, the operating results of the acquired entities have been included in the consolidated financial statements from their respective acquisition dates.

BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited consolidated financial statements and notes thereto of the Company have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC") for Form 10-K and conform to practices within the banking industry and include all of the information and disclosures required by accounting principles generally accepted in the United States of America ("GAAP") for interim financial reporting. The accompanying unaudited consolidated financial statements reflect all adjustments (consisting only of normal recurring adjustments), which are necessary for a fair presentation of financial results for the interim periods presented. Certain prior period amounts have been reclassified to conform to the current period presentation. Such reclassifications had no impact on our net income or shareholders' equity. The results of operations for the three months and the six months ended June 30, 2023, are not necessarily indicative of the results for the full year. These interim unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto as of and for the year ended December 31, 2023, included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires

This Update permits reporting entities to elect to account for their tax equity investments using the proportional amortization method if certain conditions are met. It requires that a liability to be recognized for delayed equity contributions that are unconditional and legally binding or for equity contributions that are contingent upon a future event when that contingent event becomes probable. The reporting entity needs to disclose the nature of its tax equity investments and the effect of its tax equity investments on its financial position and results of operations. ASU <em style="font: inherit;">2023<em style="font: inherit;">02 is effective for us in fiscal years beginning after <em style="font: inherit;">December 15, 2023.including interim periods within those fiscal years. Amendments in this Update include: a requirement that a public entity provide all annual disclosures about a reportable segment's profit or loss in its interim period disclosures, disclosure of significant segment expenses that are regularly provided to the chief operating decision maker ("CODM"), disclosure of amounts for other segment items by reportable segment and a description of its composition, clarification that if the CODM uses more than <em style="font: inherit;">one<em style="font: inherit;">measure of a segment's profit or loss in assessing segment performance and deciding how to allocate resources, a public entity <em style="font: inherit;">may <em style="font: inherit;">report <em style="font: inherit;">one or more of those additional measures of segment profit or loss, a requirement that a public entity disclose the title and position of the CODM, and an explanation of how the CODM uses the reported measure(s) of segment profit or loss, and a requirement that a public entity that has a single reportable segment provide all the disclosures required by this Update as well as all existing disclosures required in Topic <em style="font: inherit;">280.The amendments in this Update are effective for the Company beginning with its <em style="font: inherit;">2024<em style="font: inherit;">annual financial statement disclosures for the year ended <em style="font: inherit;">December 31, 2024,and for all interim and annual periods thereafter. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. It is reasonably possible that these estimates could change as actual results could differ from those estimates. The allowance for credit losses, realization of deferred tax assets, the valuation of goodwill and other intangible assets, other derivatives, and the fair value measurement of financial instruments are particularly subject to change and such change could have a material effect on the consolidated financial statements.</p>

(a) Represents applicable tenor spread adjustment when the original LIBOR index was discontinued on June 30, 2023.

We considered the primary beneficiary of TFC trust (variable interest entity), therefore TFC Trust is not consolidated in our financial statements, but rather the subordinated debentures are shown as a liability. We also purchased an investment in the common stock of TFC Trust for \$155,000, which is included in other assets. At the close of this acquisition, a \$1.9 million valuation reserve was recorded to arrive at its fair market value, which is treated as a yield adjustment and amortized over the life of the security. The unamortized valuation reserve was \$1.1 million at June 30, 2024 and \$1.2 million at December 31, 2023. The subordinated debentures have a variable rate of interest equal to three-month CME Term SOFR plus applicable tenor spread adjustment of 0.26% plus 1.65%, which was 7.25% as of June 30, 2024 and 7.30% at December 31, 2023.

On October 2018, we, through the acquisition of First American International Corp. ("FAIC"), acquired First American International Statutory Trust I ("FAIC Trust"). FAIC Trust issued 7,000 units of \$7.0 million to an independent investor, and all of its common securities, with an aggregate liquidation amount of \$217,000. We are not considered the primary beneficiary of FAIC Trust (variable interest entity), therefore FAIC Trust is not consolidated in our financial statements, but rather the subordinated debentures are shown as a liability. We purchased an investment in the common stock of FAIC Trust for \$217,000, which is included in other assets. At the close of this acquisition, a \$1.2 million valuation reserve was recorded to arrive at its fair market value, which is treated as a yield adjustment and amortized over the life of the security. The unamortized valuation reserve was \$803,000 at June 30, 2024 and \$842,000 at December 31, 2023. The subordinated debentures have a variable rate of interest equal to three-month CME Term SOFR plus applicable tenor spread adjustment of 0.26% plus 2.25%, which was 7.85% as of June 30, 2024 and 7.90% at December 31, 2023.

On January 2020, we, through the acquisition of PGB Holdings, Inc., acquired Pacific Global Bank Trust I ("PGBH Trust"). PGBH Trust issued 5,000 units of fixed-to-floating rate capital securities with an aggregate liquidation amount of \$5 million to an independent investor, and all of its common securities, with an aggregate liquidation amount of \$155,000. We are not considered the primary beneficiary of PGBH Trust (variable interest entity), therefore PGBH Trust is not consolidated in our financial statements, but rather the subordinated debentures are shown as a liability. We purchased an investment in the common stock of PGBH Trust for \$155,000, which is included in other assets. At the close of this acquisition, a \$763,000 valuation reserve was recorded to arrive at its fair market value, which is treated as a yield adjustment and amortized over the life of the security. The unamortized valuation reserve was \$533,000 at June 30, 2024 and \$559,000 at December 31, 2023. The subordinated debentures have a variable rate of interest equal to three-month CME Term SOFR plus applicable tenor spread adjustment of 0.26% plus 2.10%, which was 7.70% as of June 30, 2024 and 7.75% at December 31, 2023.

The aggregate amount of amortization expense was \$55,000 for each of the three months ended June 30, 2024 and \$109,000 for each of the six months ended June 30, 2024 and June 30, 2023.

For regulatory reporting purposes, the Federal Reserve has indicated that the capital or trust preferred securities qualify as Tier 1 capital of the Company subject to previously specified limitations (including that the asset size of the issuer did not exceed \$15 billion) until further notice. If regulators make a determination that the capital securities can remain longer be considered in regulatory capital, the securities become callable and we may redeem them.
