Derivative Instruments and Hedging Activities   Generally, derivative instruments help the Company manage exposure to market risk and meet customer financing needs. Market risk represents the possibility that fluctuations in external factors such as interest rates, market-driven loan rates, prices, or other economic factors will adversely affect economic value or net interest income.   The Company has used interest rate swap contracts to modify its exposure to interest rate risk caused by changes in benchmark interest rates in relation to certain designated fixed rate loans. These instruments are used to convert these fixed rate loans to an effective floating rate. If the Secured Overnight Financing Rate ("SOFR") plus a spread falls below the loan's stated fixed rate for a given period, the Company will owe the floating rate payer the notional amount times the difference between the floating rate and the stated fixed rate. If SOFR is above the stated rate for a given period, the Company will receive payments based on the notional amount times the difference between the floating rate and the stated fixed rate.   The Company's interest rate swaps qualify as fair value hedging instruments; therefore, fair value changes in the derivative and hedged item attributable to the hedged risk are recognized in earnings in the same period. The fair value hedges were effective as of June 30, 2024, and December 31, 2023.   The following table presents the notional, or contractual, amounts and fair values of derivative instruments as of the dates indicated: <table border="0" cellpadding="0" cellspacing="0" class="finTable" style="width: 100%; text-indent: 0px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <tbody> <tr style="background-color: rgb(255, 255, 255); vertical-align: bottom"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="10" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom-color: rgb(0, 0, 0); border-bottom-width: 1px; border-bottom-style: solid;"> June 30, 2024 </td> <td style="padding-bottom: 1px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="10" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom-color: rgb(0, 0, 0); border-bottom-width: 1px; border-bottom-style: solid;"> December 31, 2023 </td> <td style="padding-bottom: 1px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> </tr> <tr style="background-color: rgb(255, 255, 255); vertical-align: bottom"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt;"> Notional or </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="6" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom-color: rgb(0, 0, 0); border-bottom-width: thin; border-bottom-style: solid;"> Fair Value </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt;"> Notional or </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="6" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom-color: rgb(0, 0, 0); border-bottom-width: thin; border-bottom-style: solid;"> Fair Value </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> </tr> <tr style="background-color: rgb(255, 255, 255); vertical-align: bottom"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt;"> <p

Employee Benefit Plans   The Company maintains two nonqualified domestic, noncontributory defined benefit plans (the “Benefit Plans”) for key members of senior management and non-management directors. The Company’s unfunded Benefit Plans include the Supplemental Executive Retention Plan ("SERP") and the Directors’ Supplemental Retirement Plan ("Director Plan"). The SERP was frozen near the end of 2021; the Director Plan was fundamentally frozen at that time as well. The following table presents the components of net periodic pension cost and the effect on the consolidated statements of income for the periods indicated: <table border="0" cellpadding="0" cellspacing="0" class="finTable" style="width: 100%; font-size: 10pt; font-family: "Times New Roman", Times, serif; text-indent: 0px;"> <tbody><tr class="finHeading GFJY4-DGU-com-rdg-thunderdome-client-resources-CssResource-html-lineItem-v2v-addition" style="background-color: rgb(255, 255, 255); vertical-align: bottom"><td style="font-family: "Times New Roman", Times, serif; font-size: 10pt; width: 28%;"> </td><td style="font-family: "Times New Roman", Times, serif; font-size: 10pt; width:

Fair Value   Financial Instruments Measured at Fair Value   Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The fair value hierarchy ranks the inputs used in measuring fair value as follows: <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <tbody> <tr> <td style="width: 18pt;"> </td> <td style="width: 18pt; vertical-align: top;"> ● </td> <td style="vertical-align: top;"> Level 1 – Observable, unadjusted quoted prices in active markets </td> </tr> </tbody> </table> <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <tbody> <tr> <td style="width: 18pt;"> </td> <td style="width: 18pt; vertical-align: top;"> ● </td> <td style="vertical-align: top;"> Level 2 – Inputs other than quoted prices included in Level 1 that are directly or indirectly observable for the asset or liability </td> </tr> </tbody> </table> <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <tbody> <tr> <td style="width: 18pt;"> </td> <td style="width: 18pt; vertical-align: top;"> ● </td> <td style="vertical-align: top;"> Level 3 – Unobservable inputs with little or no market activity that require the Company to use reasonable inputs and assumptions </td> </tr> </tbody> </table>   The Company uses fair value measurements to record adjustments to certain financial assets and liabilities on a recurring basis. The Company may be required to record certain assets at fair value on a nonrecurring basis in specific circumstances, such as evidence of impairment. Methodologies used to determine fair value might be highly subjective and judgmental in nature; therefore, valuations may not be precise. If the Company determines that a valuation technique change is necessary, the change is assumed to have occurred at the end of the respective reporting period. The following discussion describes the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments under the valuation hierarchy.   Assets and Liabilities Reported at Fair Value on a Recurring Basis   Available-for-sale Debt Securities   Debt securities available-for-sale are reported at fair value on a recurring basis. The fair value of Level 1 securities is based on quoted market prices in active markets, if available. If quoted market prices are not available, fair values are measured utilizing independent valuation techniques of identical or similar securities for which significant assumptions are primarily derived from or corroborated by observable market data. Level 2 securities use fair value measurements from independent pricing services obtained by the Company. These fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information, and bond terms and conditions. The Company's Level 2 securities include U.S. Agency and Treasury securities, municipal securities, and mortgage-backed securities. Securities are based on Level 3 inputs when there is limited activity or less transparency to the valuation inputs. In the absence of observable or corroborated market data, internally developed estimates that incorporate market-based assumptions are used when such information is available.   Fair value models may be required when trading activity has declined significantly or does not exist, prices are not current, or pricing variations are significant. For Level 3 securities, the Company obtains the cash flow of specific securities from third parties that use modeling software to determine cash flows based on market participant data and knowledge of the structures of each individual security. The fair values of Level 3 securities are determined by applying proper market observable discount rates to the cash flow derived from third-party models. Securities with increased uncertainty about the receipt of cash flows are discounted at higher rates due to the addition of a deal specific credit premium based on assumptions about the performance of the underlying collateral. Finally, internal fair value model pricing and external pricing observations are combined by assigning weights to each pricing observation. Pricing is reviewed for reasonableness based on the direction of specific markets and the general economic indicators.   Equity Securities. Equity securities are recorded at fair value on a recurring basis and included in other assets in the consolidated balance sheets. The Company uses Level 1 inputs to value equity securities that are traded in active markets. Equity securities that are not actively traded are classified in Level 2.   Loans Held for Investment. Loans held for investment that are subject to a fair value hedge are reported at fair value derived from third-party models. Loans designated in fair value hedges are recorded at fair value on a recurring basis.   Deferred Compensation Assets and Liabilities. Securities held for trading purposes are recorded at fair value on a recurring basis and included in other assets in the consolidated balance sheets. These securities include assets related to employee deferred compensation plans, which are generally invested in Level 1 equity securities. The liability associated with these deferred compensation plans is carried at the fair value of the obligation to the employee, which corresponds to the fair

value of the invested assets.   Derivative Assets and Liabilities. Derivatives are recorded at fair value on a recurring basis. The Company obtains dealer quotes, Level 2 inputs, based on observable data to value derivatives.   The following tables summarize financial assets and liabilities recorded at fair value on a recurring basis, by the level of valuation inputs in the fair value hierarchy, as of the dates indicated: <table border="0" cellpadding="0" cellspacing="0" class="finTable" style="width: 100%; Fair value is based on appraised value adjusted for customized discounting criteria, Level 3 inputs.   The Company maintains an active and robust problem credit identification system. The impairment review includes obtaining third-party collateral valuations to help management identify potential credit impairment and determine the amount of impairment to record. The Company’s Special Assets staff manages and monitors all impaired loans. Internal collateral valuations are generally performed within two to four weeks of identifying the initial potential impairment. The internal valuation compares the original appraisal to current local real estate market conditions and considers experience and expected liquidation costs. The Company typically receives a third-party valuation within thirty to forty-five days of completing the internal valuation. When a third-party valuation is received, it is reviewed for reasonableness. Once the valuation is reviewed and accepted, discounts are applied to fair market value, based on, but not limited to, our historical liquidation experience for like collateral, resulting in an estimated net realizable value. The estimated net realizable value is compared to the outstanding loan balance to determine the appropriate amount of specific impairment reserve.   OREO. OREO is recorded at fair value on a nonrecurring basis using Level 3 inputs. The Company calculates the fair value of OREO from current or prior appraisals that have been adjusted for valuation declines, estimated selling costs, and other proprietary qualitative adjustments that are deemed necessary.   The following tables present assets measured at fair value on a nonrecurring basis, by the level of valuation inputs in the fair value hierarchy, as of the dates indicated: <table border="0" cellpadding="0" cellspacing="0" class="finTable" style="width: 100%; text-indent: 0px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <tbody> <tr style="background-color: rgb(255, 255, 255); vertical-align: bottom"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="14" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom-color: rgb(0, 0, 0); border-bottom-width: 1px; border-bottom-style: solid;"> June 30, 2024 </td> <td style="padding-bottom: 1px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> </tr> <tr style="background-color: rgb(255, 255, 255); vertical-align: bottom"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt;"> Total </td> <td style="padding-bottom: 1px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="10" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom-color: rgb(0, 0, 0); border-bottom-width: 1px; border-bottom-style: solid;"> Fair Value Measurements Using </td> <td style="padding-bottom: 1px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> </tr> <tr style="background-color: rgb(255, 255, 255); vertical-align: bottom"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom-color: rgb(0, 0, 0); border-bottom-width: 1px; border-bottom-style: solid;"> Fair Value </td> <td style="padding-bottom: 1px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td

Litigation, Commitments, and Contingencies <p style="margin: 0pt; text-align:

justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> Litigation   On May 6, 2024, the Bank agreed to settle a putative class action lawsuit pending in the United States District Court for the Southern District of West Virginia, filed on June 24, 2022. The civil action alleges the Bank breached its deposit account agreements and was unjustly enriched by collecting overdraft fees with respect to certain debit card transactions and by assessing more than one nonsufficient funds fee on items presented multiple times for payment. The Bank denies each and every substantive allegation asserted in the civil action. Under the settlement, which is subject to documentation and preliminary and final court approval, the Bank agrees to establish a $4.80 million settlement fund and forgive up to $500,000 in assessed but unpaid fees. Attorneys' fees, settlement administration expenses, and settlement payments to eligible class members will be paid from the settlement fund. Under the settlement, the Bank admitted no wrongdoing and will receive a complete release of all claims asserted in the civil action. The Bank agreed to the settlement in order to resolve the litigation and avoid further expense. The Company previously accrued $3.00 million as an estimated liability relating to this civil action.</p> <p style="margin: 0pt; text-align: justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </p> <p style="margin: 0pt; font-family: "Times New Roman", Times, serif; font-size: 10pt; text-align: justify;">We are currently a defendant in other legal actions and asserted claims in the normal course of business. Although we are unable to assess the ultimate outcome of each matter with certainty, we believe that the resolution of these actions should <em style="font: inherit;">not have a material adverse effect on our financial position, results of operations, or cash flows.</p> <p style="margin: 0pt; text-align: justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </p> <p style="margin: 0pt; text-align: justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;"><i>Commitments and Contingencies</i></p> <p style="margin: 0pt; text-align: justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </p> <p style="margin: 0pt; text-align: justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;">The Company is a party to financial instruments with off balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, standby letters of credit, and financial guarantees. These instruments involve, to varying degrees, elements of credit and interest rate risk beyond the amount recognized in the consolidated balance sheets. The contractual amounts of these instruments reflect the extent of involvement the Company has in particular classes of financial instruments. If the other party to a financial instrument does <em style="font: inherit;">not perform, the Company's credit loss exposure is the same as the contractual amount of the instrument. The Company uses the same credit policies in making commitments and conditional obligations as it does for on balance sheet instruments.</p> <p style="margin: 0pt; text-align: justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </p> <p style="margin: 0pt; text-align: justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;">Commitments to extend credit are agreements to lend to a customer as long as there is <em style="font: inherit;">no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and <em style="font: inherit;"> may require payment of a fee. Since many commitments are expected to expire without being drawn on, the total commitment amounts do <em style="font: inherit;">not necessarily represent future cash requirements. The amount of collateral obtained, if deemed necessary, is based on management's credit evaluation of each customer on a case-by-case basis. Collateral <em style="font: inherit;"> may include accounts receivable, inventory, property, plant and equipment, and income producing commercial properties. The Company maintains a reserve for the risk inherent in unfunded lending commitments, which is included in other liabilities in the consolidated balance sheets.</p> <p style="margin: 0pt; text-align: justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </p> <p style="margin: 0pt; text-align: justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;">Standby letters of credit and financial guarantees are conditional commitments issued by the Company to guarantee the performance of a customer to a <em style="font: inherit;">third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending credit to customers. The amount of collateral obtained, if deemed necessary, to secure the customer's performance under certain letters of credit is based on management's credit evaluation of the customer.</p> <p style="margin: 0pt; text-align: justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </p> <p style="margin: 0pt; text-align: justify; font-family: "Times New Roman", Times, serif; font-size: 10pt;">The following table presents the off-balance sheet financial instruments as of the dates indicated:</p> <p style="margin: 0pt;  (b) No changes were made to the procedures by which security holders <em

style="font: inherit;"> may recommend nominees to the Company's board of directors.
 (c) During the three months ended June 30, 2024, none of our directors or executive officers (as defined in Rule 16a-1(f) of the Exchange Act) adopted or terminated a Rule 10b5-1 trading arrangement or a non-Rule 10b5-1 trading arrangement (as such terms defined in Item 408 of Regulation S-K under the Securities Exchange Act of 1934, as amended).   The recorded investment in consumer mortgage loans collateralized by residential real estate that are in the process of foreclosure according to local requirements of the applicable jurisdiction Adjustment reflects the fair value adjustments of $(15.80) million based on the Company's evaluation of the acquired loan portfolio and excludes the allowance for credit losses and deferred loans fees of $2.94 million as recorded by Surrey. Fair value is generally based on appraisals of the underlying collateral. Adjustment to reclass deferred tax asset $(99) thousand, goodwill $(282) thousand, federal income tax payable $(389) thousand, and state income tax payable $8 thousand. Derived from audited financial statements Adjustment to record the core deposit intangible on the acquired deposit accounts. Adjustment reflects the fair value adjustment based on the Company's evaluation of the time deposit portfolio. Adjustment reflects the fair value adjustment based on the Company's evaluation of stocks with other banks of $47 thousand. Appraisals may be adjusted by management for customized discounting criteria, estimated sales costs, and proprietary qualitative adjustments. Adjustment to record the deferred tax asset related to the fair value adjustments $(177) thousand. Adjustment reflects the fair value adjustments based on the Company's evaluation of the acquired premises and equipment. Adjustment reflects the fair value adjustment based on the Company's evaluation of the acquired investment portfolio. Includes FHLB letters of credit '
