Exhibits 54 Â Â Â Signatures 56 Â Â 2 Table of Contents Â Â CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS Â Forward-looking statements in filings with the Securities and Exchange Commission, including this Quarterly Report on Form 10-Q and the accompanying Exhibits, filings incorporated by reference, reports to shareholders, and other communications that represent the Companyâ€™s beliefs, plans, objectives, goals, guidelines, expectations, anticipations, estimates, and intentions are made in good faith pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are not guarantees of future performance and involve certain risks, uncertainties, and assumptions that are difficult to predict. The words â€œmay,â€ â€œcould,â€ â€œshould,â€ â€œwould,â€ â€œbelieve,â€ â€œanticipate,â€ â€œestimate,â€ â€œexpect,â€ â€œintend,â€ â€œplan,â€ and other similar expressions identify forward-looking statements. The following factors, among others, could cause financial performance to differ materially from that expressed in such forward-looking statements: Â Â â— inflation, interest rate, market and monetary fluctuations; Â â— the strength of the U.S. economy in general and the strength of the local economies in which we conduct operations; Â â— the effects of, and changes in, trade, monetary, and fiscal policies and laws, including interest rate policies of the Federal Reserve System; Â â— timely development of competitive new products and services and the acceptance of these products and services by new and existing customers; Â â— the willingness of customers to substitute competitorsâ€™ products and services for the Companyâ€™s products and services and vice versa; Â â— the impact of changes in financial services laws and regulations, including laws about taxes, banking, securities, and insurance; Â â— the impact of the U.S. Department of the Treasury and federal banking regulatorsâ€™ continued implementation of programs to address capital and liquidity in the banking system; Â â— technological changes; Â â— the cost and effects of cyber incidents or other failures, interruptions, or security breaches of our systems or those of third-party providers; Â â— the effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board, and other accounting standard setters;Â Â â— the effect of acquisitions, including, without limitation, the failure to achieve the expected revenue growth and/or expense savings from such acquisitions; Â â— the sustainabilityÂ of noninterest, or fee, income being less than expected; Â â— unanticipated regulatory or judicial proceedings; Â â— changes in consumer spending and saving habits; and Â â— the Companyâ€™s success at managing the risks mentioned above. Â This list of important factors is not exclusive. If one or more of the factors affecting these forward-looking statements proves incorrect, actual results, performance, or achievements could differ materially from those expressed in, or implied by, forward-looking statements contained in this Quarterly Report on Form 10-Q and other reports we file with the Securities and Exchange Commission. Therefore, the Company cautions you not to place undue reliance on forward-looking information and statements. The Company does not intend to update any forward-looking statements, whether written or oral, to reflect changes. These cautionary statements expressly qualify all forward-looking statements that apply to the Company including the risk factors presented in Part II, Item 1A, â€œRisk Factors,â€ of this Quarterly Report on Form 10-Q and Part I, Item 1A, â€œRisk Factors,â€ of the Companyâ€™s Annual Report on Form 10-K for the year ended December 31, 2023. Â 9 Table of Contents Â NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) Â Â Note 1. Basis of Presentation Â General Â First Community Bankshares, Inc. (the â€œCompanyâ€), a financial holding company, was founded in 1989 and reincorporated under the laws of the Commonwealth of Virginia. The Companyâ€™s principal executive office is located in Bluefield, Virginia. The Company provides banking products and services to individual and commercial customers through its wholly owned subsidiary First Community Bank (the â€œBankâ€), a Virginia-chartered banking institution founded in 1874. The Bank offers wealth management and investment advice through its Trust Division and wholly owned subsidiary First Community Wealth Management.Â Unless the context suggests otherwise, the terms â€œFirst Community,â€ â€œCompany,â€ â€œwe,â€ â€œour,â€ and â€œusâ€ refer to First Community Bankshares, Inc. and its subsidiaries as a consolidated entity. Â Principles of Consolidation Â The Companyâ€™s accounting and reporting policies conform with U.S. generally accepted accounting principles (â€œGAAPâ€) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The consolidated financial statements include all accounts of the Company and its wholly owned subsidiaries and eliminate all intercompany balances and transactions. The Company operates in one business segment, Community Banking, which consists of all operations, including commercial and consumer banking, lending activities, and wealth management. Operating results for interim periods are not necessarily indicative of results that may be expected for other interim periods or for the full year. In managementâ€™s opinion, the accompanying unaudited interim condensed consolidated financial statements contain all necessary adjustments, including normal recurring accruals, and disclosures for a fair presentation. Â These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Companyâ€™s Annual Report on Form 10-K for the year ended December 31, 2023 (the â€œ2023 Form 10-Kâ€), as filed with the Securities and Exchange Commission (the â€œSECâ€) on March 8, 2024. The condensed consolidated balance sheet as of December 31, 2023, has been derived from the audited consolidated financial statements. Â Reclassifications Â Certain amounts reported in prior years have been reclassified to conform to the current yearâ€™s presentation. These reclassifications had no effect on the Companyâ€™s results of operations, financial position, or net cash flow. Â Use of Estimates Â Preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.Â Â Significant Accounting Policies Â The Companyâ€™s significant accounting policies are included in Note 1, â€œBasis of Presentation and Significant Accounting Policies,â€ of the Notes to Consolidated Financial Statements in Part II, Item 8 of the Companyâ€™s 2023 Form 10-K. Â 10 Table of Contents Â Recent Accounting Standards Â Standards Not Yet AdoptedÂ Â In December 2023, the FASB issued ASU 2023-09, â€œIncome Taxes (Topic 740).â€Â The amendments in this ASU are related to the rate reconciliation and income taxes paid disclosures and are designed to improve the transparency of income tax disclosures by requiring (1) consistent categories and greater disaggregation of information in the rate reconciliation and (2) income taxes paid disaggregated by jurisdiction.Â Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance.Â The adoption of this pronouncement is not expected to have a material impact on the Consolidated Financial Statements. Â The Company has not yet adopted any newÂ accounting standards in 2024Â thatÂ have been issued by the FASB or other standards-setting bodies.Â The CompanyÂ does notÂ anticipate any of the recent standards issuedÂ to have a material impact on the consolidated financial statements.Â Â Â Â Â Â Â Â Note 2. Acquisitions Â On November 18, 2022, the Company and North Carolina-based Surrey Bancorp ("Surrey"), parent company of Surrey Bank & Trust, jointly announced their entry into an agreement and plan of merger pursuant to which First Community wouldÂ acquire Surrey and its wholly-owned bank subsidiary, Surrey Bank & Trust.Â Under the terms of the agreement and plan of merger, each share of Surrey common stock immediately converted into the right to receive 0.7159Â shares of the Company's common stock.Â The transaction was consummated on April 21, 2023.Â The total purchase price for the transaction was $71.37 million. Â The Surrey transaction was accounted for using the acquisition method of accounting and, accordingly, assets acquired, liabilities assumed and consideration exchanged were recorded at estimated fair value on the acquisition date.Â Fair values are preliminary and subject to refinement for up to a year after the closing date of the acquisition.Â The Company incurred a total of $2.99 million in merger expenses related toÂ the Surrey transaction,Â $596 thousand was recorded in the last quarter of 2022 and $2.39 million in 2023. These costs were primarily related to data conversion, investment banking fees, and legal fees.Â Â Goodwill arising from business combinations represents the excess of the purchase price over the sum of the estimated fair values of the tangible and identifiable intangible assets acquired less the fair value of the liabilities assumed.Â The Surrey acquisition resulted in the Company recognizing $14.38 million in goodwill. Â The primary identifiable intangible asset we typically record in connection with a whole bank or bank branch acquisition is the value of the core deposit intangibles which represents the estimated value of the long-term deposit relationships acquired in the transaction. Determining the amount of identifiable intangible assets and their average lives involves multiple assumptions and estimates and is typically determined by performing a discounted cash flow analysis, which involves a combination of any or all of the following assumptions: customer attrition/runoff, alternative funding costs, deposit servicing costs, and discount rates. The core deposit intangibles are amortized over the estimated useful lives of the deposit accounts based on a method that we believe reasonably approximates the anticipated benefit stream from this intangible.Â Core deposit intangibles for the Surrey transaction totaled $12.70 million.Â Â When loansÂ are acquired they are identified as either purchased credit deteriorated PCD or non-PCD.Â PCD loansÂ represent assets that are acquired with evidence of more than insignificant credit quality deterioration since the origination of the loans as of the acquisition date.Â Â The ACL for PCD assets is recognized within business combination accounting with no initial impact to net income. Changes in estimates of expected credit losses on PCD loans after acquisition are recognized as provision expense (or reversal of provision expense) in subsequent periods as they arise.Â Non-PCD loans acquired are generally estimated at fair value using a discounted cash flow approach with assumptions of discount rate, remaining life, prepayments, probability of default, and loss given default. The actual cash flows on these loans could differ materially from the fair value estimates. The amount we record as the fair values for the loans is generally less than the contractual unpaid principal balance due from the borrowers, with the difference being referred to as the â€œdiscountâ€ on the acquired loans. Discounts on acquired non-PCD loans are accreted to interest income over their estimated remaining lives, which may include prepayment estimates in certain circumstances.Â Â The ACL for non-PCD assets is recognized as provision expense in the same reporting period as the business combination. Estimated loan losses for acquired loans are determined using methodologies and applying estimates and assumptions similar to originated performing loans.Â The fair value of purchased loansÂ with credit deterioration was $101.42 million on the date of acquisition with the gross contractual amount totaling $111.22 million.Â The Company estimates that $2.01 million ofÂ contractual cash flows specific to the purchased loansÂ with credit deteriorationÂ will not be collected.Â Non purchased credit deteriorated loans acquired had a fair value of $137.55 million with a gross contractual value of $143.55 million. There wereÂ 112 individual debt securities in an unrealized loss position as of December 31, 2023, and their combined depreciation in value representedÂ 5.02%Â ofÂ the debt securities portfolio.Â Â Â Management evaluates securities for impairment where there has been a decline in fair value below the amortized cost basis of a security to determine whether there is a credit loss associated with the decline in fair value on at least a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Credit losses are calculated individually, rather than collectively, using a discounted cash flow method, whereby management compares the present value of expected cash flows with the amortized cost basis of the security.Â The credit loss component would be recognized through the provision for credit losses and the creation of an allowance for credit losses. Consideration is given to (1)Â the financial condition and near-term prospects of the issuer including looking at default and delinquency rates, (2)Â the outlook for receiving the contractual cash flows of the investments, (3)Â the length of time and the extent to which the fair value has been less than cost, (4)Â our intent and ability to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value or for a debt security whether it is more-likely-than-not that we will be required to sell the debt security prior to recovering its fair value, (5)Â the anticipated outlook for changes in the general level of interest rates, (6) credit ratings, (7) third party guarantees, and (8) collateral values. In analyzing an issuerâ€™s financial condition, management considers whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, the results of reviews of the issuerâ€™s financial condition, and the issuerâ€™s anticipated ability to pay the contractual cash flows of the investments. Â All of the U.S. Treasury and Agency-Backed Securities have the full faith and credit backing of the United State Government or one of its agencies. Municipal securities and all other securities that do not have a zero expected credit loss are evaluated quarterly to determine whether there is a credit loss associated with a decline in fair value. All debt securities available-for-sale in an unrealized loss position as of June 30, 2024, continue to perform as scheduled and we do not believe that there is a credit loss or that a provision for credit losses is necessary. Also, as part of our evaluation of our intent and ability to hold investments for a period of time sufficient to allow for any anticipated recovery in the market, we consider our investment strategy, cash flow needs, liquidity position, capital adequacy and interest rate risk position. We do not currently intend to sell the securities within the portfolio and it is not more-likely-than-not that we will be required to sell the debt securities.Â Â Management continues to monitor all of our securities with a high degree of scrutiny. There can be no assurance that we will not conclude in future periods that conditions existing at that time indicate some or all of its securities may be sold or would require a charge to earnings as a provision for credit losses in such periods. Â There were no available-for-sale securities sold during the secondÂ quarter or for the first sixÂ months ofÂ Â 2024. Approximately $21.97 million in securities available for sale were sold in the secondÂ quarter ofÂ 2023, and approximatelyÂ $38.98Â million for the first sixÂ months of 2023.Â Approximately $20.93 million of the sales in 2023 wereÂ attributable to the sale of the entire portfolio of Surrey comprised primarily of U. S. Treasury Notes.Â The following table presents gross realized gains and losses from the sale of available-for-sale debt securities for the periods indicated: Â Â Â Three Months Ended Â Â Six Months Ended Â Â Â June 30, Â Â June 30, Â Â Â 2024 Â Â 2023 Â Â 2024 Â Â 2023 Â (Amounts in thousands) Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Gross realized gains Â $-Â Â $-Â Â $-Â Â $7Â Gross realized losses Â Â -Â Â Â (28)Â Â -Â Â Â (28) Net gain (loss) on sale of securities Â $-Â Â $(28)Â $-Â Â $(21) Â The carrying amount of securities pledged for various purposes totaled $22.71Â millionÂ as of June 30, 2024, and $145.09Â million as of December 31, 2023. Â Â Note 4. Loans Â The Company groups loans held for investment into three segments (commercial loans, consumer real estate loans, and consumer and other loans) with each segment divided into various classes. Customer overdrafts reclassified as loans totaled $1.59Â millionÂ as of June 30, 2024, and $1.50Â million as of December 31, 2023. Deferred loan fees, net of loan costs, totaled $7.02Â millionÂ as of June 30, 2024, andÂ $7.71Â million as of December 31, 2023.Â Â In accordance with the adoption of ASU 2016-13, the table below reflects the loan portfolio at the amortized cost basis to include net deferred loan fees of $7.02Â millionÂ and $7.71Â million and unamortized discountÂ related to loans acquired of $13.85Â millionÂ and $15.29Â million for June 30, 2024, and December 31, 2023, respectively.Â Accrued interest receivableÂ of $9.33Â millionÂ as ofÂ June 30, 2024, and $9.64Â millionÂ as ofÂ December 31, 2023, is accounted for separately and reported in Interest Receivable on the Consolidated Balance Sheet. Credit Quality Â The Company uses a risk grading matrix to assign a risk grade to each loan in its portfolio. Loan risk ratings may be upgraded or downgraded to reflect current information identified during the loan review process. The general characteristics of each risk grade are as follows: Â â— Pass -- This grade is assigned to loans with acceptable credit quality and risk. The Company further segments this grade based on borrower characteristics that include capital strength, earnings stability, liquidity, leverage, and industry conditions. Â â— Special Mention -- This grade is assigned to loans that require an above average degree of supervision and attention. These loans have the characteristics of an asset with acceptable credit quality and risk; however, adverse economic or financial conditions exist that create potential weaknesses deserving of managementâ€™s close attention. If potential weaknesses are not corrected, the prospect of repayment may worsen. Â â— Substandard -- This grade is assigned to loans that have well defined weaknesses that may make payment default, or principal exposure, possible. These loans will likely be dependent on collateral liquidation, secondary repayment sources, or events outside the normal course of business to meet repayment terms. Â â— Doubtful -- This grade is assigned to loans that have the weaknesses inherent in substandard loans; however, the weaknesses are so severe that collection or liquidation in full is unlikely based on current facts, conditions, and values. Due to certain specific pending factors, the amount of loss cannot yet be determined. Â â— Loss -- This grade is assigned to loans that will be charged off or charged down when payments, including the timing and value of payments, are uncertain. This risk grade does not imply that the asset has no recovery or salvage value, but simply means that it is not practical or desirable to defer writing off, either all or a portion of, the loan balance even though partial recovery may be realized in the future. considered past due when either principal or interest payments become contractually delinquent by 30 days or more. The Companyâ€™s policy is to
discontinue the accrual of interest, if warranted, on loans based on the payment status, evaluation of the related collateral, and the financial strength of the
borrower. Loans that are 90 days or more past due are placed on nonaccrual status. Management may elect to continue the accrual of interest when the
loan is well secured and in process of collection. When interest accruals are discontinued, interest accrued and not collected in the current year is reversed
from income, and interest accrued and not collected from prior years is charged to the allowance for credit losses. Nonaccrual loans may be returned to
accrual status when all principal and interest amounts contractually due, including past due payments, are brought currentÍ¾ the ability of the borrower to
repay the obligation is reasonably assuredÍ¾ and there is generally a period of at least six months of repayment performance by the borrower in
accordance with the contractual terms. There was no material nonaccrual loan interest recognized in income during the secondÂ quarter or for the
firstÂ six months ofÂ 2024Â orÂ 2023.Â Â Â The following tables presents the aging of past due loans, by loan class, as of the dates indicated. Nonaccrual

Â Unused borrowing capacity with the FHLB totaled $391.26Â million, net of FHLB letters of credit of $120.23Â million, as of June 30, 2024. As of June 30, 2024, the Company maintainsÂ $511.49Â millionÂ in qualifying loans to secure the FHLB borrowing capacity. Â Â Note 9. Derivative Instruments and Hedging Activities Â Generally, derivative instruments help the Company manage exposure to market risk and meet customer financing needs. Market risk represents the possibility that fluctuations in external factors such as interest rates, market-driven loan rates, prices, or other economic factors will adversely affect economic value or net interest income. Â The Company has usedÂ interest rate swap contracts to modify its exposure to interest rate risk caused by changes in benchmark interest ratesÂ in relation to certain designated fixed rate loans.Â These instruments are used to convert these fixed rate loans to an effective floating rate. If the Secured Overnight Financing Rate ("SOFR") plus a spreadÂ falls below the loanâ€™s stated fixed rate for a given period, the Company will owe the floating rate payer the notional amount times the difference between the floating rateÂ and the stated fixed rate. If SOFRÂ is above the stated rate for a given period, the Company will receive payments based on the notional amount times the difference between the floating rateÂ and the stated fixed rate.Â Â The Company's interest rate swaps qualify as fair value hedging instruments; therefore, fair value changes in the derivative and hedged item attributable to the hedged risk are recognized in earnings in the same period. The fair value hedges were effective as of June 30, 2024, and December 31, 2023. See Note 10, "Employee Benefit Plans." Â Â Note 13. Fair Value Â Financial Instruments Measured at Fair Value Â Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The fair value hierarchy ranks the inputs used in measuring fair value as follows: Â Â â— Level 1 â€“ Observable, unadjusted quoted prices in active markets Â â— Level 2 â€“ Inputs other than quoted prices included in Level 1 that are directly or indirectly observable for the asset or liability Â â— Level 3 â€“ Unobservable inputs with little or no market activity that require the Company to use reasonable inputs and assumptions Â The Company uses fair value measurements to record adjustments to certain financial assets and liabilities on a recurring basis. The Company may be required to record certain assets at fair value on a nonrecurring basis in specific circumstances, such as evidence of impairment. Methodologies used to determine fair value might be highly subjective and judgmental in nature; therefore, valuations may not be precise. If the Company determines that a valuation technique change is necessary, the change is assumed to have occurred at the end of the respective reporting period. The following discussion describes the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments under the valuation hierarchy. Â 33 Table of Contents Â Assets and Liabilities Reported at Fair Value on a Recurring Basis Â Available-for-sale Debt Securities Â Debt securities available-for-sale are reported at fair value on a recurring basis. The fair value of Level 1 securities is based on quoted market prices in active markets, if available. If quoted market prices are not available, fair values are measured utilizing independent valuation techniques of identical or similar securities for which significant assumptions are primarily derived from or corroborated by observable market data. Level 2 securities use fair value measurements from independent pricing services obtained by the Company. These fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information, and bond terms and conditions. The Companyâ€™s Level 2 securities include U.S. Agency and Treasury securities, municipal securities, and mortgage-backed securities. Securities are

based on Level 3 inputs when there is limited activity or less transparency to the valuation inputs. In the absence of observable or corroborated market data, internally developed estimates that incorporate market-based assumptions are used when such information is available. Â Fair value models may be required when trading activity has declined significantly or does not exist, prices are not current, or pricing variations are significant. For Level 3 securities, the Company obtains the cash flow of specific securities from third parties that use modeling software to determine cash flows based on market participant data and knowledge of the structures of each individual security. The fair values of Level 3 securities are determined by applying proper market observable discount rates to the cash flow derived from third-party models. Â Securities with increased uncertainty about the receipt of cash flows are discounted at higher rates due to the addition of a deal specific credit premium based on assumptions about the performance of the underlying collateral. Finally, internal fair value model pricing and external pricing observations are combined by assigning weights to each pricing observation. Pricing is reviewed for reasonableness based on the direction of specific markets and the general economic indicators. Â Equity Securities. Equity securities are recorded at fair value on a recurring basis and included in other assets in the consolidated balance sheets. The Company uses Level 1 inputs to value equity securities that are traded in active markets. Equity securities that are not actively traded are classified in Level 2. Â Loans Held for Investment. Loans held for investment that are subject to a fair value hedge are reported at fair value derived from third-party models. LoansÂ designated inÂ fair value hedges are recorded at fair value on a recurring basis. Â Deferred Compensation Assets and Liabilities. Securities held for trading purposes are recorded at fair value on a recurring basis and included in other assets in the consolidated balance sheets. These securities include assets related to employee deferred compensation plans, which are generally invested in Level 1 equity securities. The liability associated with these deferred compensation plans is carried at the fair value of the obligation to the employee, which corresponds to the fair value of the invested assets. Â Derivative Assets and Liabilities. Derivatives are recorded at fair value on a recurring basis. The Company obtains dealer quotes, Level 2 inputs, based on observable data to value derivatives. Fair value is based on appraised value adjusted for customized discounting criteria, Level 3 inputs. Â The Company maintains an active and robust problem credit identification system. The impairment review includes obtaining third-party collateral valuations to help management identify potential credit impairment and determine the amount of impairment to record. The Companyâ€™s Special Assets staff manages and monitors all impaired loans. Internal collateral valuations are generally performed within two to four weeks of identifying the initial potential impairment. The internal valuation compares the original appraisal to current local real estate market conditions and considers experience and expected liquidation costs. The Company typically receives a third-party valuation within thirty to forty-five days of completing the internal valuation. When a third-party valuation is received, it is reviewed for reasonableness. Once the valuation is reviewed and accepted, discounts are applied to fair market value, based on, but not limited to, our historical liquidation experience for like collateral, resulting in an estimated net realizable value. The estimated net realizable value is compared to the outstanding loan balance to determine the appropriate amount of specific impairment reserve. Â OREO. OREO is recorded at fair value on a nonrecurring basis using Level 3 inputs. The Company calculates the fair value of OREO from current or prior appraisals that have been adjusted for valuation declines, estimated selling costs, and other proprietary qualitative adjustments that are deemed necessary. Litigation, Commitments, and Contingencies Â Litigation Â On May 6, 2024, the Bank agreed to settle a putative class action lawsuit pending in the United States District Court for the Southern District of West Virginia, filed on June 24, 2022. The civil action alleges the Bank breached its deposit account agreements and was unjustly enriched by collecting overdraft fees with respect to certain debit card transactions and by assessing more than one nonsufficient funds fee on items presented multiple times for payment.Â The Bank denies each and every substantive allegation asserted in the civil action.Â Under the settlement, which is subject to documentation and preliminary and final court approval, the Bank agrees to establish a $4.80 million settlement fund and forgive up to $500,000 in assessed but unpaid fees. Attorneysâ€™ fees, settlement administration expenses, and settlement payments to eligible class members will be paid from the settlement fund. Under the settlement, the Bank admitted no wrongdoing and will receive a complete release of all claims asserted in the civil action. The Bank agreed to the settlement in order to resolve the litigation and avoid further expense. The Company previously accrued $3.00 million as an estimated liability relating to this civil action. Â We are currently a defendant in other legal actions and asserted claims in the normal course of business. Although we are unable to assess the ultimate outcome of each matter with certainty, we believe that the resolution of these actions should not have a material adverse effect on our financial position, results of operations, or cash flows. Â Commitments and Contingencies Â The Company is a party to financial instruments with off balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, standby letters of credit, and financial guarantees. These instruments involve, to varying degrees, elements of credit and interest rate risk beyond the amount recognized in the consolidated balance sheets. The contractual amounts of these instruments reflect the extent of involvement the Company has in particular classes of financial instruments. If the other party to a financial instrument does not perform, the Companyâ€™s credit loss exposure is the same as the contractual amount of the instrument. The Company uses the same credit policies in making commitments and conditional obligations as it does for on balance sheet instruments. Â Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many commitments are expected to expire without being drawn on, the total

commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if deemed necessary, is based on managementâ€™s credit evaluation of each customer on a case-by-case basis. Collateral may include accounts receivable, inventory, property, plant and equipment, and income producing commercial properties. The Company maintains a reserve for the risk inherent in unfunded lending commitments, which is included in other liabilities in the consolidated balance sheets. Â Standby letters of credit and financial guarantees are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending credit to customers. The amount of collateral obtained, if deemed necessary, to secure the customerâ€™s performance under certain letters of credit is based on managementâ€™s credit evaluation of the customer. Â The following table presents the off-balance sheet financial instruments as of the dates indicated: Â Â Â June 30, 2024 Â Â December 31, 2023 Â (Amounts in thousands) Â Â Â Â Â Â Â Â Commitments to extend credit Â $258,461Â Â $277,462Â Standby letters of credit and financial guarantees(1) Â Â 122,502Â Â Â 129,220Â Total off-balance sheet risk Â $380,963Â Â $406,682Â Â (1) Includes FHLB letters of credit Â Â ITEM 2.Â Â Â Â Â Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operations Â Managementâ€™s Discussion and Analysis of Financial Condition and Results of Operations (â€œMD&Aâ€) is intended to help the reader understand our financial condition, changes in financial condition, and results of operations. MD&A contains forward-looking statements and should be read in conjunction with our consolidated financial statements, accompanying notes, and other financial information included in this report and our Annual Report on Form 10-K for the year ended December 31, 2023 (the â€œ2023 Form 10-Kâ€). Unless the context suggests otherwise, the terms â€œFirst Community,â€ â€œCompany,â€ â€œwe,â€ â€œour,â€ and â€œusâ€ refer to First Community Bankshares, Inc. and its subsidiaries as a consolidated entity. Â Executive Overview Â First Community Bankshares, Inc. (the â€œCompanyâ€) is a financial holding company, headquartered in Bluefield, Virginia, that provides banking products and services through its wholly owned subsidiary First Community Bank (the â€œBankâ€), a Virginia chartered bank institution. As of June 30, 2024, the Bank operated 53Â branches in Virginia, West Virginia,Â North Carolina and Tennessee. As of June 30, 2024, full-time equivalent employees, calculated using the number of hours worked, totaled 591. Our primary source of earnings is net interest income, the difference between interest earned on assets and interest paid on liabilities, which is supplemented by fees for services, commissions on sales, and various deposit service charges. We fund our lending and investing activities primarily through the retail deposit operations of our branch banking network. We invest our funds primarily in loans to retail and commercial customers and various investment securities. Our common stock is traded on the NASDAQ Global Select Market under the symbolÂ FCBC. Â 37 Table of Contents Â The Bank offers trust management, estate administration, and investment advisory services through its Trust Division and wholly owned subsidiary First Community Wealth Management Inc.Â (â€œFCWMâ€). The Trust Division manages inter vivos trusts and trusts under will, develops and administers employee benefit and individual retirement plans, and manages and settles estates. Fiduciary fees for these services are charged on a schedule related to the size, nature, and complexity of the account. Revenues consist primarily of investment advisory fees and commissions on assets under management and administration. As of June 30, 2024, the Trust Division and FCWM managed and administered $1.58Â billionÂ in combined assets under various fee-based arrangements as fiduciary or agent. The Bank also offers a full range of commercial and personal insurance products through its strategic partnership with Bankers Insurance, LLC. Â Critical Accounting Estimates Â We prepare our consolidated financial statements in accordance with generally accepted accounting principles (â€œGAAPâ€) in the U.S. and conform to general practices within the banking industry. Our financial position and results of operations may require management to make significant estimates and assumptions that have a material impact on our financial condition or operating performance. Due to the level of subjectivity and the susceptibility of such matters to change, actual results could differ significantly from managementâ€™s assumptions and estimates. Estimates, assumptions, and judgments, which are periodically evaluated, are based on historical experience and other factors, including expectations of future events believed reasonable under the circumstances. These estimates are generally necessary when assets and liabilities are required to be recorded at estimated fair value, when a decline in the value of an asset carried on the financial statements at fair value warrants an impairment write-down or a valuation reserve, or when an asset or liability needs recorded based on the probability of occurrence of a future event. Carrying assets and liabilities at fair value inherently results in more financial statement volatility. Fair values and information used to record valuation adjustments for certain assets and liabilities are based on quoted market prices, when available, or third-party sources. When quoted prices or third-party information is not available, management estimates valuation adjustments primarily through the use of financial modeling techniques and appraisal estimates. Â Our accounting policies are fundamental in understanding MD&A and the disclosures presented in Item 1, â€œFinancial Statements,â€ of this Quarterly Report on Form 10-Q. Our accounting policies are described in detailÂ in Note 1, â€œBasis of Presentation and Significant Accounting Policies,â€ of the Notes to Consolidated Financial Statements in Part II, Item 8 of our 2023 Form 10-K. Our critical accounting estimates are detailed in the â€œCritical Accounting Estimatesâ€ section in Part II, Item 7 of our 2023 Form 10-K. Â 38 Table of Contents Â Performance Overview Â Highlights of our results of operations for the three and six months ended June 30, 2024, and financial condition as of June 30, 2024, include the following: Â Â â— Net income of $12.69Â million for the secondÂ quarter of 2024, was an increase of $2.87Â million, or 29.26%, from the same quarter of 2023.Â Net income of $25.53 million for the first six months of 2024, was an increase of $3.94 million, or 18.22%, from the same period of 2023. Â â— The provision for credit losses decreased $3.96 million, or 96.49%, from the same quarter of 2023.Â The second quarter of 2023 included $1.61 million of Day 2 provision associated with the Surrey Bancorp acquisition.Â The majority of the difference is due to a much smaller required credit loss provision as the loan portfolio has experienced a decline of $147.81 million from the same period of 2023.Â In addition, there was a recovery of provision for the allowance for unfunded commitments of $305 thousand for the current quarter; there was no provision for the same period of 2023. Â â— Net interest income decreased $950 thousand compared to the same quarter in 2023, primarily due to increases in rates paid on interest-bearing deposits. Â â— Net interest margin of 4.51% was an increase of 3 basis points over the same quarter of 2023. Â The yield on earning assets increased 45 basis points from the same period of 2023 and is attributable to an increase in interest income resulting from an increase in yield and an increase in average balance.Â There was an increase in yield for both loans and securities available for sale.Â The average balance for interest-bearing deposits with banks increased $147.11 million over the same period of 2023.Â The yield on interest-bearing liabilities increased 67 basis points when compared with the same period of 2023 and is primarily attributable to increased rates on interest-bearing deposit liabilities. Â â— Noninterest income increased approximately $557 thousand, or 6.34%, when compared to the same quarter of 2023. Noninterest expense increased $226 thousand, or 0.92%.Â Noninterest expense for the quarter ending June 30, 2024, included a non-recurring charge of $1.80 million to settle a putative class action lawsuit.Â Noninterest expense for the same period of 2023 included non-recurring expense of $2.01 million in merger charges related to the Surrey Bancorp acquisition. Â â— Annualized return on average assetsÂ wasÂ 1.58% for theÂ second quarter and 1.59% for the first six months of 2024 compared toÂ 1.18%Â and 1.36% for the same periods, respectively of 2023.Â Annualized return on average common equity wasÂ 10.02% for theÂ second quarter and 10.10% for the first six months of 2024 compared toÂ 8.04%Â and 9.48% for the same periods, respectively of 2023. Â â— Consolidated assets totaled $3.23 billion at June 30, 2024. Â â— Securities available-for-sale decreased $151.28 million, or 53.84%, from December 31, 2023. The decrease is primarily attributable to the maturity of $141.50 million in U.S. Treasury Notes during the first six months of 2024. Loans decreased $99.03 million, or 3.85%. Deposits decreased $45.05 million, or 1.65%. The net effect of these balance sheet changes resulted in an increase in cash and cash equivalents of $213.46 million, or 183.35%.Â Â â— The Company repurchased 155,044 common shares during the second quarter of 2024 at a total cost of $5.28 million.Â The Company repurchased 244,440 common shares during the first six months of 2024 at a total cost of $8.25 million. Â â— Non-performing loans to total loans increased slightly to 0.80% when compared with the same quarter of 2023.Â The Company experienced net charge-offs for the second quarter of 2024 of $1.03 million, or 0.16% of annualized average loans, compared to net charge-offs of $728 thousand, or 0.11%, of annualized average loans for the same period of 2023. Â â— The allowance for credit losses to total loans was 1.41%Â atÂ June 30, 2024 compared toÂ 1.41% at December 31, 2023, and 1.38% for June 30, 2023. Â â— Book value per share at June 30, 2024, was $27.85, an increase of $0.65 from year-end 2023. Net interest income comprisedÂ 77.35%Â of total net interest and noninterest income in the secondÂ quarter of 2024 compared toÂ 78.91%Â in the same quarter of 2023. Net interest income on a GAAP basis decreased $950Â thousand, or 2.89%.Â Â Net interest income on a FTE basis decreased $949 thousand, with a percentage decrease of 2.88%. The net interest margin on a FTE basis increased 3Â basis points whileÂ the net interest spread on a FTE basis decreased 22Â basis points. The increase in net interest margin was primarily driven by an increase in interest incomeÂ on interest-bearing deposits with banks as well as an increase in interest income on loans.Â The increase in earnings on interest-bearing deposits with banks was primarily due to an increase in average balance of $147.11 million while the increase in loan interest is primarily due to an increase in yield of 28 basis points.Â The 22Â basis point decrease in net interest spread is primarily due to the increase in yieldÂ for interest-bearing liabilities of 67 basis points versus the increaseÂ in yield for earning assets of 45Â basis points. Â Average earning assets decreased $97.66Â million, or 3.31%, primarily due to an decrease in average securities available for sale of $173.51 million, or 54.52%.Â In addition, the average balance for loans decreased $71.27Â million, or 2.77%.Â These decreases to earning assets wereÂ offset by an increase in the average balance for interest-bearing balances with banks of $147.11 million, or 232.32%.Â The yield on earning assets increased 45Â basis points, or 9.47%, primarily due to an increase in benchmark rates as compared to the same period of 2023. The average loan to deposit ratio increased to 93.60% from 91.92% reported in the same quarter of 2023. Non-cash accretion income was $661Â thousandÂ for the second quarter compared to $884Â thousandÂ reported in the same period of 2023. Â Average interest-bearing liabilities, which consist of interest-bearing deposits and borrowings, decreased $77.69Â million, or 4.17%, primarily due to a decrease in deposits. DemandÂ deposits decreased $48.24Â million, or 6.77%,Â while time deposits decreased $35.94Â million, or 12.73%.Â These decreases were offset by an increase in savings deposits of $13.11 million, or 1.52%.Â The yield on interest-bearing liabilities increased 67Â basis points and is primarily due toÂ increases in benchmark rates throughout 2023.Â Â Six-Month Comparison. Net interest income comprisedÂ 77.36%Â of total net interest and noninterest income for theÂ sixÂ monthsÂ ending June 30, 2024Â compared to 78.19%Â in the same periodÂ of 2023. Net interest income on a GAAP basis increased $1.27Â million, or 2.03%.Â Â Net interest income on a FTE basis increased $1.27Â million as well, with a percentage increase of 2.04%. The net interest margin on a FTE basis increased 7Â basis points whileÂ the net interest spread on a FTE basis decreased 20Â basis points. The increase in net interest margin was primarily driven by increaseÂ in theÂ average balanceÂ for loans as well as an increase in the yield on loans.Â The average balance for loans increased $41.55Â million, while the yieldÂ increased 43Â basis points resulting in a tax effected increase in interest on loans of $6.58Â million compared to 2023.Â The 20Â basis point decrease in net interest spread is primarily due to the increase in yieldÂ for interest-bearing liabilities of 73Â basis points versus the increaseÂ in yield for earning assets of 53Â basis points. Â Average earning assets increased $2.17Â million, or 0.08%, primarily due to an increase in the average balance for interest-bearing deposits with banks of $86.24 million, or 165.15%, and an increase in the average balance of loans of $41.55 million, or 1.67%.Â These increases were offset by a decrease in the average balance for securities available for sale of $125.62 million, or 39.57%Â The yield on earning assets increased 53Â basis points, or 11.47%, primarily due to an increase in benchmark rates as compared to the same period of 2023.Â The average loan to deposit ratio increased to 94.56% from 91.94% reported in the same periodÂ of 2023. Non-cash accretion income increasedÂ to $1.44 millionÂ fromÂ $1.08 million reported in the same period of 2023. Â Average interest-bearing liabilities, which consist of interest-bearing deposits and borrowings, decreased $32.24Â million, or 1.77%, primarily due to a decrease in deposits. TimeÂ deposits decreased $28.62Â million, or 10.34%,Â while interest-bearing demandÂ deposits decreased $24.53Â million, or 3.56%.Â These decreases were offset by an increase in savings deposits of $25.79 million, or 3.05%.Â The yield on interest-bearing liabilities increased 73Â basis points and is primarily due toÂ increases in benchmark rates throughout 2023. Â 42 Table of Contents Â Provision for CreditÂ Losses Â Three-Month Comparison. The provision charged to operations decreased $3.96Â millionÂ in theÂ secondÂ quarter of 2024 compared to the same quarter of 2023. Provision for credit losses for loansÂ of $449 thousandÂ was recorded in the secondÂ quarter of 2024Â compared to the provision of $4.11Â millionÂ recorded in the same period of 2023.Â Â The provision of $4.11 million recorded in the second quarter of 2023 included $1.61 million of Day 2 provision associated with the Surrey Bancorp acquisition. The remaining decrease in provision is primarily due a much smaller required credit loss provision as the loan portfolio has experienced a decrease in balance of $147.81 million from the same period of 2023.Â In addition,Â there was a recoveryÂ ofÂ provision recorded for the allowance for unfunded commitmentsÂ during the secondÂ quarter ofÂ 2024Â of $305 thousand.Â There was noÂ provision for the allowance for unfundedÂ commitments for the same quarter of 2023.

Permanent differences are income and expense items excluded by law in the calculation of taxable income. The Companyâ€™s most significant permanent differences generally include interest income on municipal securities and increases in the cash surrender value of life insurance policies. Â Three-Month Comparison. Income tax expense increased $470Â thousand, or 15.37%.Â The effective tax rate decreasedÂ to 21.75%Â in theÂ secondÂ quarter of 2024 from 23.75%Â in the same quarter of 2023.Â Â Six-Month Comparison. Income tax expense increased $458Â thousand, or 6.82%.Â The effective tax rate decreasedÂ to 21.93%Â for the firstÂ Â sixÂ monthsÂ of 2024 from 23.72%Â in the same periodÂ of 2023.Â Â Non-GAAP Financial MeasuresÂ Â In addition to financial statements prepared in accordance with GAAP, we use certain non-GAAP financial measures that management believes provide investors with important information useful in understanding our operational performance and comparing our financial measures with other financial institutions. The non-GAAP financial measure presented in this report includes net interest income on a FTE basis. We believe FTE basis is the preferred industry measurement of net interest income and provides better comparability between taxable and tax exempt amounts. We use this non-GAAP financial measure to monitor net interest income performance and to manage the composition of our balance sheet. The FTE basis adjusts for the tax benefits of income from certain tax exempt loans and investments using the federal statutory rate of 21%. While we believe certain non-GAAP financial measures enhance understanding of our business and performance, they are supplemental and not a substitute for, or more important than, financial measures prepared on a GAAP basis. Our non-GAAP financial measures may not be comparable to those reported by other financial institutions. The reconciliations of non-GAAP to GAAP measures are presented below. Â 44 Table of Contents Â The following table reconciles net interest income and margin, as presented in our consolidated statements of income, to net interest income on a FTE basis for the periods indicated: Â Â Â Three Months Ended June 30, Â Â Six Months Ended June 30, Â Â Â 2024 Â Â 2023 Â Â 2024 Â Â 2023 Â (Amounts in thousands) Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Net interest income, GAAP Â $ 31,912 Â Â $ 32,862 Â Â $ 63,541 Â Â $ 62,274 Â FTE adjustment(1) Â Â 113 Â Â Â 112 Â Â Â 232 Â Â Â 226 Â Net interest income, FTE Â Â 32,025 Â Â Â 32,974 Â Â Â 63,773 Â Â Â 62,500 Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Net interest margin, GAAP Â Â 4.49 % Â Â 4.46 % Â Â 4.47 % Â Â 4.39 % FTE adjustment(1) Â Â 0.02 % Â Â 0.02 % Â Â 0.02 % Â Â 0.03 % Net interest margin, FTE Â Â 4.51 % Â Â 4.48 % Â Â 4.49 % Â Â 4.42 % Â (1) FTE basis of 21%. Â Financial Condition Â Total assets as of June 30, 2024, decreased $35.73Â million, or 1.09%, from December 31, 2023.Â The decrease in assets was primarily driven by decreases in the securities available-for-sale portfolio and loans.Â Total liabilities decreased $41.32Â million, or 1.49%, and was primarily driven by a decrease in deposits.Â Stockholders' equity increased $5.59Â million or 1.11%.Â Â Â Â Investment Securities Â Our investment securities are used to generate interest income through the employment of excess funds, to provide liquidity, to fund loan demand or deposit liquidation, and to pledge as collateral where required. The composition of our investment portfolio changes from time to time as we consider our liquidity needs, interest rate expectations, asset/liability management strategies, and capital requirements. Â Available-for-sale debt securities as of June 30, 2024, decreased $151.28Â million, or 53.84%, compared to December 31, 2023.Â The decrease is primarily due to the maturity of $141.50Â millionÂ in U. S. Treasury Notes during the first six monthsÂ of 2024. The market value of debt securities available-for-sale as a percentage of amortized cost was 89.06% as of June 30, 2024, compared to 95.23% as of December 31, 2023.Â Â Â Management evaluates securities for impairment where there has been a decline in fair value below the amortized cost basis of a security to determine whether there is a credit loss associated with the decline in fair value on at least a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Credit losses are calculated individually, rather than collectively, using a discounted cash flow method, whereby management compares the present value of expected cash flows with the amortized cost basis of the security.Â The credit loss component would be recognized through the provision for credit losses and the creation of an allowance for credit losses. Consideration is given to (1)Â the financial condition and near-term prospects of the issuer including looking at default and delinquency rates, (2)Â the outlook for receiving the contractual cash flows of the investments, (3)Â the length of time and the extent to which the fair value has been less than cost, (4)Â our intent and ability to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value or for a debt security whether it is more-likely-than-not that we will be required to sell the debt security prior to recovering its fair value, (5)Â the anticipated outlook for changes in the general level of interest rates, (6) credit ratings, (7) third party guarantees, and (8) collateral values. In analyzing an issuerâ€™s financial condition, management considers whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, the results of reviews of the issuerâ€™s financial condition, and the issuerâ€™s anticipated ability to pay the contractual cash flows of the investments. U.S. Treasury Securities, Agency-Backed Securities including GNMA, FHLMC, FNMA, FHLB, FFCB and SBA. All of the U.S. Treasury and Agency-Backed Securities have the full faith and credit backing of the United State Government or one of its agencies. Municipal securities and all other securities that do not have a zero expected credit loss are evaluated quarterly to determine whether there is a credit loss associated with a decline in fair value. All debt securities available-for-sale in an unrealized loss position as of June 30, 2024 continue to perform as scheduled and we do not believe that a provision for credit losses is necessary. Â Loans Held for Investment Â Loans held for investment, which generates the largest component of interest income, are grouped into commercial, consumer real estate, and consumer and other loan segments. Each segment is divided into various loan classes based on collateral or purpose.Â Â 45 Table of Contents Â The following table presents loans, net of unearned income, with non-covered loans by loan class as of the dates indicated: Â Â Â June 30, 2024 Â Â December 31, 2023 Â Â June 30, 2023 Â (Amounts in thousands) Â Amount Â Â Percent Â Â Amount Â Â Percent Â Â Amount Â Â Percent Â Loans held for investment Â Commercial loans Â

Our underwriting practices include the analysis of borrowersâ€™ prior credit histories, financial statements, tax returns, and cash flow projections; valuation of collateral based on independent appraisersâ€™ reports; and verification of liquid assets. We believe our underwriting criteria are appropriate for the various loan types we offer; however, losses may occur that exceed the reserves established in our allowance for loan losses. We track certain credit quality indicators that include: trends related to the risk rating of commercial loans, the level of classified commercial loans, net charge-offs, nonperforming loans, and general economic conditions. The Company's loan review function performs an independent credit analysis on a risk-based sample of commercial loan relationships annually, and performs a qualitative review of a sample of smaller commercial and retail loans. Â Nonperforming assets consist of nonaccrual loans, accrual loans contractually past due 90 days or more, and modified loans past due 90 days or more,Â and OREO.Â Ongoing activity in the classification and categories of nonperforming loans include collections on delinquencies, foreclosures, loan restructurings, and movements into or out of the nonperforming classification due to changing economic conditions, borrower financial capacity, or resolution efforts.Â Â 46 Table of Contents Â The following table presents the components of nonperforming assets and related information as of the periods indicated: Â Â Â June 30, 2024 Â Â December 31, 2023 Â Â June 30, 2023 Â (Amounts in thousands) Â Â Â Â Â Â Â Â Â Â Â Â Nonperforming Â Â Â Â Â Â Â Â Â Â Â Â Nonaccrual loans Â $ 19,815 Â Â $ 19,356 Â Â $ 18,628 Â Accruing loans past due 90 days or more Â Â 19 Â Â Â 104 Â Â Â - Â Modified loans past due 90 days or more Â Â - Â Â Â - Â Â Â - Â Total nonperforming loans Â Â 19,834 Â Â Â 19,460 Â Â Â 18,628 Â OREO Â Â 100 Â Â Â 192 Â Â Â 339 Â Total nonperforming assets Â $ 19,934 Â Â $ 19,652 Â Â $ 18,967 Â Additional Information Â Â Â Â Â Â Â Â Â Â Â Â Total modified loans Â $ 2,290 Â Â $ 2,046 Â Â $ 642 Â Asset Quality Ratios: Â Â Â Â Â Â Â Â Â Â Â Â Nonperforming loans to total loans Â Â 0.80 % Â Â 0.76 % Â Â 0.71 % Nonperforming assets to total assets Â Â 0.62 % Â Â 0.60 % Â Â 0.56 % Allowance for credit losses to nonperforming loans Â Â 175.88 % Â Â 185.97 % Â Â 194.21 % Allowance for credit losses to total loans Â Â 1.41 % Â Â 1.41 % Â Â 1.38 % Â Â Nonperforming assets as of June 30, 2024, increased $282Â thousand, or 1.43%, from December 31, 2023.Â Nonaccrual loans increased $459Â thousand, or 2.37%.Â OREO decreased $92Â thousand, or 47.92%Â and accruing loans past due 90 days or more decreased $85Â thousandÂ from year-end.Â As of June 30, 2024, nonaccrual loans were largely attributed to single family owner occupied (48.58%), non-farm, non-residential (14.13%), and commercial and industrialÂ of (8.57%). Certain loans included in the nonaccrual category have been written down to estimated realizable value or assigned specific reserves in the allowance for loan losses based on managementâ€™s estimate of loss at ultimate resolution. Â Delinquent loans, comprised of loans 30 days or more past due and nonaccrual loans, totaled $31.03Â millionÂ as of June 30, 2024, a decrease of $2.90Â million, or 8.54%, compared to $33.93Â million as of December 31, 2023. Delinquent loans as a percent of totalÂ loans totaled 1.23%Â as of June 30, 2024, which includes past due loans (0.45%) and nonaccrual loans (0.80%). Â 47 Table of Contents Â When restructuring loans for borrowers experiencing financial difficulty, we generally make concessions in interest rates, loan terms, or amortization terms.Â Total loans modified as ofÂ June 30, 2024, were $2.29Â million.Â As of June 30, 2024, $26Â thousand of these loans were 30-89 days past due.Â Â Â Â Â Â OREO, which is carried at the lesser of estimated net realizable value or cost, decreased $92Â thousand, or 47.92%, as of June 30, 2024, compared to December 31, 2023, and consisted ofÂ 3Â properties with an average holding period of approximately 24Â months. TheÂ net loss on the sale of OREO totaled $32Â thousandÂ for theÂ six months ended June 30, 2024, compared to aÂ net lossÂ of $41Â thousand for the same period of the prior year. Management uses a systematic methodology to determine its ACL for loans held for investment and certain off-balance-sheet credit exposures. The ACL is a valuation account that is deducted from the amortized cost basis to present the net amount expected to be collected on the loan portfolio. Management considers the effects of past events, current conditions, and reasonable and supportable forecasts on the collectability of the loan portfolio. The Companyâ€™s estimate of its ACL involves a high degree of judgment; therefore, managementâ€™s process for determining expected credit losses may result in a range of expected credit losses. It is possible that others, given the same information, may at any point in time reach a different reasonable conclusion. The Companyâ€™s ACL recorded in the balance sheet reflects managementâ€™s best estimate of expected credit losses. The Company recognizes in net income the amount needed to adjust the ACL for managementâ€™s current estimate of expected credit losses. The Companyâ€™s measurement of credit losses policy adheres to GAAP as well as interagency guidance. The Company's ACL is calculated using collectively evaluated and individually evaluated loans. Â â€‹For collectively evaluated loans, the Company in general uses two modeling approaches to estimate expected credit losses. The Company projects the contractual run-off of its portfolio at the segment level and incorporates a prepayment assumption in order to estimate exposure at default. Financial assets that have been individually evaluated can be returned to a pool for purposes of estimating the expected credit loss insofar as their credit profile improves and that the repayment terms were not considered to be unique to the asset. Â In addition to its own loss experience, management also includes peer bank historical loss experience in its assessment of expected credit losses to determine the ACL. The Company utilized call report data to measure historical credit loss experience with similar risk characteristics within the segments. For the majority of segment models for collectively evaluated loans, the Company incorporated at least one macroeconomic driver either using a statistical regression modeling methodology or simple loss rate modeling methodology.Â Â 48 Table of Contents Â Included in its systematic methodology to determine its ACL for loans held for investment and certain off-balance-sheet credit exposures.Â Management considers the need to qualitatively adjust expected credit losses for information not already captured in the loss estimation process. These qualitative adjustments either increase or decrease the quantitative model estimation (i.e. formulaic model results). Each period the Company considers qualitative factors that are relevant within the qualitative framework.Â For further discussion of our Allowance for Credit Losses - See Note 1, â€œBasis of Presentation and Significant Accounting Policies,â€ of the Notes to Consolidated Financial Statements in Part II, Item 8 of our 2023 Form 10-K. Â As of June 30, 2024, the balance of the ACL for loans was $34.89Â million, or 1.41%Â of total loans. The ACL at June 30, 2024, decreased $1.30 millionÂ from the balance of $36.19Â millionÂ recorded at December 31, 2023. This decrease included a $1.46Â millionÂ provision offset byÂ net charge-offs for theÂ sixÂ monthsÂ of $2.76Â million.Â Â At June 30, 2024, the Company also had an allowance for unfunded commitments of $441Â thousandÂ which was recorded in Other Liabilities on the Balance Sheet.Â During the firstÂ sixÂ months of 2024, the Company recordedÂ a recoveryÂ of provisionÂ for credit lossesÂ for loan commitments of $305Â thousandÂ compared to aÂ recovery of provision ofÂ $232Â thousandÂ recorded in the same period of 2023.Â Â Deposits Â Total deposits as of June 30, 2024, decreased $45.05Â million, or 1.65%, compared to December 31, 2023.Â The largest decreases in depositsÂ occurredÂ in noninterest-bearing demand of $42.46Â million, or 4.56%, and interest-bearing demand of $34.99Â million, or 5.04%.Â Time deposits decreased $7.82Â million or 3.09%.Â Theses decreases were offset by an increase in savings of $40.21Â million or 4.77%. Â Total borrowings in the form of retail repurchase agreements as of June 30, 2024, decreased $225Â thousand, or 20.11%, compared to December 31, 2023. Â Liquidity and Capital Resources Â Liquidity Â Liquidity is a measure of our ability to convert assets to cash or raise cash to meet financial obligations. We believe that liquidity management should encompass an overall balance sheet approach that draws together all sources and uses of liquidity. Poor or inadequate liquidity risk management may result in a funding deficit that could have a material impact on our operations. We maintain a liquidity risk management policy and contingency funding policy (â€œLiquidity Planâ€) to detect potential liquidity issues and protect our depositors, creditors, and shareholders. The Liquidity Plan includes various internal and external indicators that are reviewed on a recurring basis by our Asset/Liability Management Committee (â€œALCOâ€) of the Board of Directors. ALCO reviews liquidity risk exposure and policies related to liquidity management; ensures that systems and internal controls are consistent with liquidity policies; and provides accurate reports about liquidity needs, sources, and compliance. The Liquidity Plan involves ongoing monitoring and estimation of potentially credit sensitive liabilities and the sources and amounts of balance sheet and external liquidity available to replace outflows during a funding crisis. The liquidity model incorporates various funding crisis scenarios and a specific action plan is formulated, and activated, when a financial shock that affects our normal funding activities is identified. Generally, the plan will reflect a strategy of replacing liability outflows with alternative liabilities, rather than balance sheet asset liquidity, to the extent that significant premiums can be avoided. If alternative liabilities are not available, outflows will be met through liquidation of balance sheet assets, including unpledged securities. Â 49 Table of Contents Â As a financial holding company, the Companyâ€™s primary source of

liquidity is dividends received from the Bank, which are subject to certain regulatory limitations. Other sources of liquidity include cash, investment securities, and borrowings. As of June 30, 2024, the Companyâ€™s cash reserves and short-term investment securities totaled $34.08Â million and $10.77Â million, respectively. The Companyâ€™s cash reserves and investments provide adequate working capital to meet obligations for the next twelve months. Â In addition to cash on hand and deposits with other financial institutions, we rely on customer deposits, cash flows from loans and investment securities, and lines of credit from the FHLB and the Federal Reserve Bank (â€œFRBâ€) Discount Window to meet potential liquidity demands. These sources of liquidity are immediately available to satisfy deposit withdrawals, customer credit needs, and our operations. Secondary sources of liquidity include approved lines of credit with correspondent banks and unpledged available-for-sale securities. As of June 30, 2024, our unencumbered cash totaled $329.88Â million, unused borrowing capacity from the FHLB totaled $391.26Â million, available credit from the FRB Discount Window totaled $5.78Â million, available lines from correspondent banks totaled $100.00Â million, and unpledged available-for-sale securities totaled $106.97Â million. Â Capital Resources Â We are committed to effectively managing our capital to protect our depositors, creditors, and shareholders. Failure to meet certain capital requirements may result in actions by regulatory agencies that could have a material impact on our operations. Total stockholdersâ€™ equity as of June 30, 2024, increased $5.59Â million, or 1.11%, to $508.88Â million from $503.29Â million as of December 31, 2023.Â Capital increased due toÂ net income of $25.53Â million.Â The increaseÂ wasÂ offset by dividends declared of $10.68Â million as well as the repurchase of our common stock totaling $8.25Â million.Â Book value per share at June 30, 2024,Â was $27.85, an increase of $0.65Â from year-end 2023. Â Â Capital Adequacy Requirements Â Risk-based capital guidelines, issued by state and federal banking agencies, include balance sheet assets and off-balance sheet arrangements weighted by the risks inherent in the specific asset type. Our current risk-based capital requirements are based on the international capital standards known as Basel III. A description of the Basel III capital rules is included in Part I, Item 1 of the 2023 Form 10-K. Our current required capital ratios are as follows: Â Â â — 4.5% Common Equity Tier 1 capital to risk-weighted assets (effectively 7.00% including the capital conservation buffer) Â â— 6.0% Tier 1 capital to risk-weighted assets (effectively 8.50% including the capital conservation buffer) Â â— 8.0% Total capital to risk-weighted assets (effectively 10.50% including the capital conservation buffer) Â â— 4.0% Tier 1 capital to average consolidated assets (â€œTier 1 leverage ratioâ€) Â The following table presents our capital ratios as of the dates indicated: Â Â Â June 30, 2024 Â Â December 31, 2023 Â Â Â Company Â Â Bank Â Â Company Â Â Bank Â Â Â Â Â Â Â Â Â Â Â Â Â Â Common equity Tier 1 ratio Â 15.66% Â Â 13.52% Â Â 14.69% Â Â 12.97% Â Tier 1 risk-based capital ratio Â 15.66% Â Â 13.52% Â Â 14.69% Â Â 12.97% Â Total risk-based capital ratio Â 16.91% Â Â 14.77% Â Â 15.94% Â Â 14.22% Â Tier 1 leverage ratio Â 11.75% Â Â 10.23% Â Â 11.52% Â Â 10.07% Â Â Our risk-based capital ratios as of June 30, 2024, increased from December 31, 2023, primarily due to aÂ decrease in risk weighted assets. The decrease in risk-weighted assetsÂ was primarily driven by aÂ decrease in both the loan and securities available for sale portfolios.Â As of June 30, 2024, we continued to meet all capital adequacy requirements and were classified as well-capitalized under the regulatory framework for prompt corrective action. Management believes there have been no conditions or events that would change the Bankâ€™s classification. Additionally, our capital ratios were in excess of the minimum standards under the Basel III capital rules as of June 30, 2024. Â 50 Table of Contents Â Off-Balance Sheet Arrangements Â We extend contractual commitments with off-balance sheet risk in the normal course of business to meet the financing needs of our customers. Our exposure to credit loss in the event of nonperformance by other parties to financial instruments is the same as the contractual amount of the instrument. The following table presents our off-balance sheet arrangements as of the dates indicated: Â Â Â June 30, 2024 Â Â December 31, 2023 Â (Amounts in thousands) Â Â Â Â Â Â Â Â Commitments to extend credit Â $ 258,461 Â Â $ 277,462 Â Standby letters of credit and financial guarantees (1) Â Â 122,502 Â Â Â 129,220 Â Total off-balance sheet risk Â $ 380,963 Â Â $ 406,682 Â Â (1) Includes FHLB letters of credit Â Market Risk and Interest Rate Sensitivity Â Market risk represents the risk of loss due to adverse changes in current and future cash flows, fair values, earnings, or capital due to movements in interest rates and other factors. Our profitability is largely dependent upon net interest income, which is subject to variation due to changes in the interest rate environment and unbalanced repricing opportunities. We are subject to interest rate risk when interest-earning assets and interest-bearing liabilities reprice at differing times, when underlying rates change at different levels or in varying degrees, when there is an unequal change in the spread between two or more rates for different maturities, and when embedded options, if any, are exercised. ALCO reviews our mix of assets and liabilities with the goal of limiting exposure to interest rate risk, ensuring adequate liquidity, and coordinating sources and uses of funds while maintaining an acceptable level of net interest income given the current interest rate environment. ALCO is also responsible for overseeing the formulation and implementation of policies and strategies to improve balance sheet positioning and mitigate the effect of interest rate changes. Â In order to manage our exposure to interest rate risk, we periodically review internal simulation and third-party models that project net interest income at risk, which measures the impact of different interest rate scenarios on net interest income, and the economic value of equity at risk, which measures potential long-term risk in the balance sheet by valuing our assets and liabilities at fair value under different interest rate scenarios. Simulation results show the existence and severity of interest rate risk in each scenario based on our current balance sheet position, assumptions about changes in the volume and mix of interest-earning assets and interest-bearing liabilities, and estimated yields earned on assets and rates paid on liabilities. The simulation model provides the best tool available to us and the industry for managing interest rate risk; however, the model cannot precisely predict the impact of fluctuations in interest rates on net interest income due to the use of significant estimates and assumptions. Actual results will differ from simulated results due to the timing, magnitude, and frequency of interest rate changes; changes in market conditions and customer behavior; and changes in our strategies that management might undertake in response to a sudden and sustained rate shock. Â As of June 30, 2024, the Federal Open Market Committee had set the benchmark federal funds rate to a range of 525Â to 550Â basis points.Â The following table presents the sensitivity of net interest income from immediate and sustained rate shocks in various interest rate scenarios over a twelve-month period for the periods indicated: Â Â Â June 30, 2024 Â Â December 31, 2023 Â Increase (Decrease) in Basis Points Â Change in Net Interest Income Â Â Percent Change Â Â Change in Net Interest Income Â Â Percent Change Â (Dollars in thousands) Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â Â 200 Â $ 2,109 Â Â Â 1.6 % Â $ 1,606 Â Â Â 1.3 % 100 Â Â 1,062 Â Â Â 0.8 % Â Â 757 Â Â Â 0.6 % (100) Â Â (2,158) Â Â (1.6)% Â Â (3,858) Â Â -3.0 % (200) Â Â (4,726) Â Â (3.6)% Â Â (9,257) Â Â -7.5 % Â Inflation and Changing Prices Â Our consolidated financial statements and related notes are presented in accordance with GAAP, which requires the measurement of results of operations and financial position in historical dollars. Inflation may cause a rise in price levels and changes in the relative purchasing power of money. These inflationary effects are not reflected in historical dollar measurements. The primary effect of inflation on our operations is increased operating costs. In managementâ€™s opinion, interest rates have a greater impact on our financial performance than inflation. Interest rates do not necessarily fluctuate in the same direction, or to the same extent, as the price of goods and services; therefore, the effect of inflation on businesses with large investments in property, plant, and inventory is generally more significant than the effect on financial institutions. Â Astronomic federal government spending, growth in economic activity and demand for goods and services, alongside labor shortages and supply chain complications, have contributed to rising inflation. In response, the Federal ReserveÂ Bank has begun raising interest rates and signaled that it will continue to raise rates, taper its purchase of mortgage and other bonds and reduce the size of the balance sheet over time. The timing and impact of inflation and rising interest rates on our business and related financial results will depend on future developments, which are highly uncertain and difficult to predict. Â Most LIBOR settings ceased to be published after June 30, 2023.Â The Company hadÂ discontinued originating LIBOR-based variable rate loans in 2018 in favor of U. S. Treasury rates.Â The Company has substituted an alternative reference rate publishedÂ by the U. S. Treasury for any remaining loans tied to LIBOR. Â 51 Table of Contents Â Item 3. Quantitative and Qualitative Disclosures about Market Risk Â The information required in this item is incorporated by reference to â€œMarket Risk and Interest Rate Sensitivityâ€ in Item 2 of this Quarterly Report on Form 10-Q. Â Item 4. Controls and Procedures Â Evaluation of Disclosure Controls and Procedures Â In connection with this report, we conducted an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer (â€œCEOâ€) and Chief Financial Officer (â€œCFOâ€), of the effectiveness of our disclosure controls and procedures under the Exchange Act Rule 13a-15(b). Based upon that evaluation, the CEO and CFO concluded that, as of June 30, 2024, our disclosure controls and procedures were effective. Â Disclosure controls and procedures are our Companyâ€™s controls and other procedures that are designed to ensure that information we are required to disclose in the reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the periods specified in the SECâ€™s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information we are required to disclose in the reports that we file or submit under the Exchange Act is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions about required disclosure. Â Management, including the CEO and CFO, does not expect that our disclosure controls and internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our Company have been detected. These inherent limitations include the realities that judgments in decision making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, collusion of two or more people, or managementâ€™s override of the controls. Â Changes in Internal Control over Financial Reporting Â We assess the adequacy of our internal control over financial reporting quarterly and enhance our controls in response to internal control assessments and internal and external audit and regulatory recommendations. There were no changes in our internal control over financial reporting during the quarter ended June 30, 2024, that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Â PART II. OTHER INFORMATION Â ITEM 1. Legal Proceedings Â For details on legal proceedings, see â€œNote 14, Litigation, Commitments, and Contingenciesâ€ included in Part I, Financial Information, Item 1, Financial Statements, which information is incorporated by referenced into this Item. Â ITEM 1A. Risk Factors Â The risk factors set forth in our annual report on Form 10-K for the year ended December 31, 2023, discuss potential events, trends, or other circumstances that could adversely affect our business, financial condition, results of operations, cash flows, liquidity, access to capital resources, and, consequently, cause the market value of our common stock to decline. These risks could cause our future results to differ materially from historical results and expectations of future financial performance. If any of the risks occur and the market price of our common stock declines significantly, individuals may lose all, or part, of their investment in our Company. Individuals should carefully consider our risk factors and information included in our annual report on Form 10-K for the year ended December 31, 2023 before making an investment decision. There may be risks and uncertainties that we have not identified or that we have deemed immaterial that could adversely affect our business; therefore, such risk factors are not intended to be an exhaustive list of all risks we face. There have been no material changes to the risk factors included in Part I, Item 1A, â€œRisk

Factors,â€ of our annual report on Form 10-K for the year ended December 31, 2023. Â Â 52 Table of Contents Â ITEM 2. Basis of Presentation 6 Months Ended Jun. 30, 2024 Notes to Financial Statements Â Basis of Presentation and Significant Accounting Policies [Text Block] Note 1. Basis of Presentation Â General Â First Community Bankshares, Inc. (the â€œCompanyâ€), a financial holding company, was founded in 1989 and reincorporated under the laws of the Commonwealth of Virginia. The Companyâ€™s principal executive office is located in Bluefield, Virginia. The Company provides banking products and services to individual and commercial customers through its wholly owned subsidiary First Community Bank (the â€œBankâ€), a Virginia-chartered banking institution founded in 1874. The Bank offers wealth management and investment advice through its Trust Division and wholly owned subsidiary First Community Wealth Management.Â Unless the context suggests otherwise, the terms â€œFirst Community,â€ â€œCompany,â€ â€œwe,â€ â€œour,â€ and â€œusâ€ refer to First Community Bankshares, Inc. and its subsidiaries as a consolidated entity. Â Principles of Consolidation Â The Companyâ€™s accounting and reporting policies conform with U.S. generally accepted accounting principles (â€œGAAPâ€) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The consolidated financial statements include all accounts of the Company and its wholly owned subsidiaries and eliminate all intercompany balances and transactions. The Company operates in one business segment, Community Banking, which consists of all operations, including commercial and consumer banking, lending activities, and wealth management. Operating results for interim periods are not necessarily indicative of results that may be expected for other interim periods or for the full year. In managementâ€™s opinion, the accompanying unaudited interim condensed consolidated financial statements contain all necessary adjustments, including normal recurring accruals, and disclosures for a fair presentation. Â These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Companyâ€™s Annual Report on Form 10-K for the year ended December 31, 2023 (the â€œ2023 Form 10-Kâ€), as filed with the

Securities and Exchange Commission (the â€œSECâ€) on March 8, 2024. The condensed consolidated balance sheet as of December 31, 2023, has been derived from the audited consolidated financial statements. Â Reclassifications Â Certain amounts reported in prior years have been reclassified to conform to the current yearâ€™s presentation. These reclassifications had no effect on the Companyâ€™s results of operations, financial position, or net cash flow. Â Use of Estimates Â Preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.Â Â Significant Accounting Policies Â The Companyâ€™s significant accounting policies are included in Note 1, â€œBasis of Presentation and Significant Accounting Policies,â€ of the Notes to Consolidated Financial Statements in Part II, Item 8 of the Companyâ€™s 2023 Form 10-K. Â Recent Accounting Standards Â Standards Not Yet AdoptedÂ Â In December 2023, the FASB issued ASU 2023-09, â€œIncome Taxes (Topic 740).â€Â The amendments in this ASU are related to the rate reconciliation and income taxes paid disclosures and are designed to improve the transparency of income tax disclosures by requiring (1) consistent categories and greater disaggregation of information in the rate reconciliation and (2) income taxes paid disaggregated by jurisdiction.Â Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance.Â The adoption of this pronouncement is not expected to have a material impact on the Consolidated Financial Statements. Â The Company has not yet adopted any newÂ accounting standards in 2024Â thatÂ have been issued by the FASB or other standards-setting bodies.Â The CompanyÂ does notÂ anticipate any of the recent standards issuedÂ to have a material impact on the consolidated financial statements.Â Â Â Â Â Â Â X - DefinitionThe entire disclosure for the basis of presentation and significant accounting policies concepts. Basis of presentation describes the underlying basis used to prepare the financial statements (for example, US Generally Accepted Accounting Principles, Other Comprehensive Basis of Accounting, IFRS). Acquisitions Â On November 18, 2022, the Company and North Carolina-based Surrey Bancorp ("Surrey"), parent company of Surrey Bank & Trust, jointly announced their entry into an agreement and plan of merger pursuant to which First Community wouldÂ acquire Surrey and its wholly-owned bank subsidiary, Surrey Bank & Trust.Â Under the terms of the agreement and plan of merger, each share of Surrey common stock immediately converted into the right to receive 0.7159Â shares of the Company's common stock.Â The transaction was consummated on April 21, 2023.Â The total purchase price for the transaction was $71.37 million. Â The Surrey transaction was accounted for using the acquisition method of accounting and, accordingly, assets acquired, liabilities assumed and consideration exchanged were recorded at estimated fair value on the acquisition date.Â Fair values are preliminary and subject to refinement for up to a year after the closing date of the acquisition.Â The Company incurred a total of $2.99 million in merger expenses related toÂ the Surrey transaction,Â $596 thousand was recorded in the last quarter of 2022 and $2.39 million in 2023. These costs were primarily related to data conversion, investment banking fees, and legal fees.Â Â Goodwill arising from business combinations represents the excess of the purchase price over the sum of the estimated fair values of the tangible and identifiable intangible assets acquired less the fair value of the liabilities assumed.Â The Surrey acquisition resulted in the Company recognizing $14.38 million in goodwill. Â The primary identifiable intangible asset we typically record in connection with a whole bank or bank branch acquisition is the value of the core deposit intangibles which represents the estimated value of the long-term deposit relationships acquired in the transaction. Determining the amount of identifiable intangible assets and their average lives involves multiple assumptions and estimates and is typically determined by performing a discounted cash flow analysis, which involves a combination of any or all of the following assumptions: customer attrition/runoff, alternative funding costs, deposit servicing costs, and discount rates. The core deposit intangibles are amortized over the estimated useful lives of the deposit accounts based on a method that we believe reasonably approximates the anticipated benefit stream from this intangible.Â Core deposit intangibles for the Surrey transaction totaled $12.70 million.Â Â When loansÂ are acquired they are identified as either purchased credit deteriorated PCD or non-PCD.Â PCD loansÂ represent assets that are acquired with evidence of more than insignificant credit quality deterioration since the origination of the loans as of the acquisition date.Â Â The ACL for PCD assets is recognized within business combination accounting with no initial impact to net income. Changes in estimates of expected credit losses on PCD loans after acquisition are recognized as provision expense (or reversal of provision expense) in subsequent periods as they arise.Â Non-PCD loans acquired are generally estimated at fair value using a discounted cash flow approach with assumptions of discount rate, remaining life, prepayments, probability of default, and loss given default. The actual cash flows on these loans could differ materially from the fair value estimates. The amount we record as the fair values for the loans is generally less than the contractual unpaid principal balance due from the borrowers, with the difference being referred to as the â€œdiscountâ€ on the acquired loans. Discounts on acquired non-PCD loans are accreted to interest income over their estimated remaining lives, which may include prepayment estimates in certain circumstances.Â Â The ACL for non-PCD assets is recognized as provision expense in the same reporting period as the business combination. Estimated loan losses for acquired loans are determined using methodologies and applying estimates and assumptions similar to originated performing loans.Â The fair value of purchased loansÂ with credit deterioration was $101.42 million on the date of acquisition with the gross contractual amount totaling $111.22 million.Â The Company estimates that $2.01 million ofÂ contractual cash flows specific to the purchased loansÂ with credit deteriorationÂ will not be collected.Â Non purchased credit deteriorated loans acquired had a fair value of $137.55 million with a gross contractual value of $143.55 million. There wereÂ 112 individual debt securities in an unrealized loss position as of December 31, 2023, and their combined depreciation in value representedÂ 5.02%Â ofÂ the debt securities portfolio.Â Â Â Management evaluates securities for impairment where there has been a decline in fair value below the amortized cost basis of a security to determine whether there is a credit loss associated with the decline in fair value on at least a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Credit losses are calculated individually, rather than collectively, using a discounted cash flow method, whereby management compares the present value of expected cash flows with the amortized cost basis of the security.Â The credit loss component would be recognized through the provision for credit losses and the creation of an allowance for credit losses. Consideration is given to (1)Â the financial condition and near-term prospects of the issuer including looking at default and delinquency rates, (2)Â the outlook for receiving the contractual cash flows of the investments, (3)Â the length of time and the extent to which the fair value has been less than cost, (4)Â our intent and ability to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value or for a debt security whether it is more-likely-than-not that we will be required to sell the debt security prior to recovering its fair value, (5)Â the anticipated outlook for changes in the general level of interest rates, (6) credit ratings, (7) third party guarantees, and (8) collateral values. In analyzing an issuerâ€™s financial condition, management considers whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, the results of reviews of the issuerâ€™s financial condition, and the issuerâ€™s anticipated ability to pay the contractual cash flows of the investments. Â All of the U.S. Treasury and Agency-Backed Securities have the full faith and credit backing of the United State Government or one of its agencies. Municipal securities and all other securities that do not have a zero expected credit loss are evaluated quarterly to determine whether there is a credit loss associated with a decline in fair value. All debt securities available-for-sale in an unrealized loss position as of June 30, 2024, continue to perform as scheduled and we do not believe that there is a credit loss or that a provision for credit losses is necessary. Also, as part of our evaluation of our intent and ability to hold investments for a period of time sufficient to allow for any anticipated recovery in the market, we consider our investment strategy, cash flow needs, liquidity position, capital adequacy and interest rate risk position. We do not currently intend to sell the securities within the portfolio and it is not more-likely-than-not that we will be required to sell the debt securities.Â Â Management continues to monitor all of our securities with a high degree of scrutiny. There can be no assurance that we will not conclude in future periods that conditions existing at that time indicate some or all of its securities may be sold or would require a charge to earnings as a provision for credit losses in such periods. Â There were no available-for-sale securities sold during the secondÂ quarter or for the first sixÂ months ofÂ Â 2024. Approximately $21.97 million in securities available for sale were sold in the secondÂ quarter ofÂ 2023, and approximatelyÂ $38.98Â million for the first sixÂ months of 2023.Â Approximately $20.93 million of the sales in 2023 wereÂ attributable to the sale of the entire portfolio of Surrey comprised primarily of U. S. Credit Quality Â The Company uses a risk grading matrix to assign a risk grade to each loan in its portfolio. Loan risk ratings may be upgraded or downgraded to reflect current information identified during the loan review process. The general characteristics of each risk grade are as follows: Â â— Pass -- This grade is assigned to loans with acceptable credit quality and risk. The Company further segments this grade based on borrower characteristics that include capital strength, earnings stability, liquidity, leverage, and industry conditions. Â â— Special Mention -- This grade is assigned to loans that require an above average degree of supervision and attention. These loans have the characteristics of an asset with acceptable credit quality and risk; however, adverse economic or financial conditions exist that create potential weaknesses deserving of managementâ€™s close attention. If potential weaknesses are

not corrected, the prospect of repayment may worsen. Â â— Substandard -- This grade is assigned to loans that have well defined weaknesses that may make payment default, or principal exposure, possible. These loans will likely be dependent on collateral liquidation, secondary repayment sources, or events outside the normal course of business to meet repayment terms. Â â— Doubtful -- This grade is assigned to loans that have the weaknesses inherent in substandard loans; however, the weaknesses are so severe that collection or liquidation in full is unlikely based on current facts, conditions, and values. Due to certain specific pending factors, the amount of loss cannot yet be determined. Â â— Loss -- This grade is assigned to loans that will be charged off or charged down when payments, including the timing and value of payments, are uncertain. This risk grade does not imply that the asset has no recovery or salvage value, but simply means that it is not practical or desirable to defer writing off, either all or a portion of, the loan balance even though partial recovery may be realized in the future. Â Â Â 1,528Â Â Â 1,906Â Â Â â€”Â Â Â 1,906Â Total nonaccrual loans Â $18,858Â Â $957Â Â $19,815Â Â $18,183Â Â $1,173Â Â $19,356Â Â Loans are considered past due when either principal or interest payments become contractually delinquent by 30 days or more. The Companyâ€™s policy is to discontinue the accrual of interest, if warranted, on loans based on the payment status, evaluation of the related collateral, and the financial strength of the borrower. Loans that are 90 days or more past due are placed on nonaccrual status. Management may elect to continue the accrual of interest when the loan is well secured and in process of collection. When interest accruals are discontinued, interest accrued and not collected in the current year is reversed from income, and interest accrued and not collected from prior years is charged to the allowance for credit losses. Nonaccrual loans may be returned to accrual status when all principal and interest amounts contractually due, including past due payments, are brought currentÍ¾ the ability of the borrower to repay the obligation is reasonably assuredÍ¾ and there is generally a period of at least six months of repayment performance by the borrower in accordance with the contractual terms. There was no material nonaccrual loan interest recognized in income during the secondÂ quarter or for the firstÂ six months ofÂ 2024Â orÂ 2023.Â Â Â The following tables presents the aging of past due loans, by loan class, as of the dates indicated. Derivative Instruments and Hedging Activities Â Generally, derivative instruments help the Company manage exposure to market risk and meet customer financing needs. Market risk represents the possibility that fluctuations in external factors such as interest rates, market-driven loan rates, prices, or other economic factors will adversely affect economic value or net interest income. Â The Company has usedÂ interest rate swap contracts to modify its exposure to interest rate risk caused by changes in benchmark interest ratesÂ in relation to certain designated fixed rate loans.Â These instruments are used to convert these fixed rate loans to an effective floating rate. If the Secured Overnight Financing Rate ("SOFR") plus a spreadÂ falls below the loanâ€™s stated fixed rate for a given period, the Company will owe the floating rate payer the notional amount times the difference between the floating rateÂ and the stated fixed rate. If SOFRÂ is above the stated rate for a given period, the Company will receive payments based on the notional amount times the difference between the floating rateÂ and the stated fixed rate.Â Â The Company's interest rate swaps qualify as fair value hedging instruments; therefore, fair value changes in the derivative and hedged item attributable to the hedged risk are recognized in earnings in the same period. The fair value hedges were effective as of June 30, 2024, and December 31, 2023. Litigation, Commitments, and Contingencies Â Litigation Â On May 6, 2024, the Bank agreed to settle a putative class action lawsuit pending in the United States District Court for the Southern District of West Virginia, filed on June 24, 2022. The civil action alleges the Bank breached its deposit account agreements and was unjustly enriched by collecting overdraft fees with respect to certain debit card transactions and by assessing more than one nonsufficient funds fee on items presented multiple times for payment.Â The Bank denies each and every substantive allegation asserted in the civil action.Â Under the settlement, which is subject to documentation and preliminary and final court approval, the Bank agrees to establish a $4.80 million settlement fund and forgive up to $500,000 in assessed but unpaid fees. Attorneysâ€™ fees, settlement administration expenses, and settlement payments to eligible class members will be paid from the settlement fund. Under the settlement, the Bank admitted no wrongdoing and will receive a complete release of all claims asserted in the civil action. The Bank agreed to the settlement in order to resolve the litigation and avoid further expense. The Company previously accrued $3.00 million as an estimated liability relating to this civil action. Â We are currently a defendant in other legal actions and asserted claims in the normal course of business. Although we are unable to assess the ultimate outcome of each matter with certainty, we believe that the resolution of these actions should not have a material adverse effect on our financial position, results of operations, or cash flows. Â Commitments and Contingencies Â The Company is a party to financial instruments with off balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, standby letters of credit, and financial guarantees. These instruments involve, to varying degrees, elements of credit and interest rate risk beyond the amount recognized in the consolidated balance sheets. The contractual amounts of these instruments reflect the extent of involvement the Company has in particular classes of financial instruments. If the other party to a financial instrument does not perform, the Companyâ€™s credit loss exposure is the same as the contractual amount of the instrument. The Company uses the same credit policies in making commitments and conditional obligations as it does for on balance sheet instruments. Â Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many commitments are expected to expire without being drawn on, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if deemed necessary, is based on managementâ€™s credit evaluation of each customer on a case-by-case basis. Collateral may include accounts receivable, inventory, property, plant and equipment, and income producing commercial properties. The Company maintains a reserve for the risk inherent in unfunded lending commitments, which is included in other liabilities in the consolidated balance sheets. Â Standby letters of credit and financial guarantees are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending credit to customers. The amount of collateral obtained, if deemed necessary, to secure the customerâ€™s performance under certain letters of credit is based on managementâ€™s credit evaluation of the customer. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The consolidated financial statements include all accounts of the Company and its wholly owned subsidiaries and eliminate all intercompany balances and transactions. The Company operates in one business segment, Community Banking, which consists of all operations, including commercial and consumer banking, lending activities, and wealth management. Operating results for interim periods are not necessarily indicative of results that may be expected for other interim periods or for the full year. In managementâ€™s opinion, the accompanying unaudited interim condensed consolidated financial statements contain all necessary adjustments, including normal recurring accruals, and disclosures for a fair presentation. Â These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Companyâ€™s Annual Report on Form 10-K for the year ended December 31, 2023 (the â€œ2023

Form 10-Kâ€), as filed with the Securities and Exchange Commission (the â€œSECâ€) on March 8, 2024. The condensed consolidated balance sheet as of December 31, 2023, has been derived from the audited consolidated financial statements. Â Reclassification, Comparability Adjustment [Policy Text Block] Reclassifications Â Certain amounts reported in prior years have been reclassified to conform to the current yearâ€™s presentation. These reclassifications had no effect on the Companyâ€™s results of operations, financial position, or net cash flow. Â Use of Estimates, Policy [Policy Text Block] Use of Estimates Â Preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.Â Â New Accounting Pronouncements, Policy [Policy Text Block] Significant Accounting Policies Â The Companyâ€™s significant accounting policies are included in Note 1, â€œBasis of Presentation and Significant Accounting Policies,â€ of the Notes to Consolidated Financial Statements in Part II, Item 8 of the Companyâ€™s 2023 Form 10-K. Â Recent Accounting Standards Â Standards Not Yet AdoptedÂ Â In December 2023, the FASB issued ASU 2023-09, â€œIncome Taxes (Topic 740).â€Â The amendments in this ASU are related to the rate reconciliation and income taxes paid disclosures and are designed to improve the transparency of income tax disclosures by requiring (1) consistent categories and greater disaggregation of information in the rate reconciliation and (2) income taxes paid disaggregated by jurisdiction.Â Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance.Â The adoption of this pronouncement is not expected to have a material impact on the Consolidated Financial Statements. Â The Company has not yet adopted any newÂ accounting standards in 2024Â thatÂ have been issued by the FASB or other standards-setting bodies.Â The CompanyÂ does notÂ anticipate any of the recent standards issuedÂ to have a material impact on the consolidated financial statements.Â Â X - ReferencesNo definition available. + Details Name: us-gaap_AccountingPoliciesAbstract Namespace Prefix: us-gaap_ Data Type: xbrli:stringItemType Balance Type: na Period Type: duration X - DefinitionDisclosure of accounting policy regarding (1) the principles it follows in consolidating or combining the separate financial statements, including the principles followed in determining the inclusion or exclusion of subsidiaries or other entities in the consolidated or combined financial statements and (2) its treatment of interests (for example, common stock, a partnership interest or other means of exerting influence) in other entities, for example consolidation or use of the equity or cost methods of accounting. Basis of Presentation   General   First Community Bankshares, Inc. (the “Company”), a financial holding

company, was founded in 1989 and reincorporated under the laws of the Commonwealth of Virginia. The Company's principal executive office is located in Bluefield, Virginia. The Company provides banking products and services to individual and commercial customers through its wholly owned subsidiary First Community Bank (the "Bank"), a Virginia-chartered banking institution founded in 1874. The Bank offers wealth management and investment advice through its Trust Division and wholly owned subsidiary First Community Wealth Management. Unless the context suggests otherwise, the terms "First Community," "Company," "we," "our," and "us" refer to First Community Bankshares, Inc. and its subsidiaries as a consolidated entity.   Principles of Consolidation   The Company's accounting and reporting policies conform with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The consolidated financial statements include all accounts of the Company and its wholly owned subsidiaries and eliminate all intercompany balances and transactions. The Company operates in one business segment, Community Banking, which consists of all operations, including commercial and consumer banking, lending activities, and wealth management. Operating results for interim periods are not necessarily indicative of results that may be expected for other interim periods or for the full year. In management's opinion, the accompanying unaudited interim condensed consolidated financial statements contain all necessary adjustments, including normal recurring accruals, and disclosures for a fair presentation.   These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023 (the "2023 Form 10-K"), as filed with the Securities and Exchange Commission (the "SEC") on March 8, 2024. The condensed consolidated balance sheet as of December 31, 2023, has been derived from the audited consolidated financial statements.   Reclassifications   Certain amounts reported in prior years have been reclassified to conform to the current year's presentation. These reclassifications had no effect on the Company's results of operations, financial position, or net cash flow.   Use of Estimates   Preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.   Significant Accounting Policies   The Company's significant accounting policies are included in Note 1, "Basis of Presentation and Significant Accounting Policies," of the Notes to Consolidated Financial Statements in Part II, Item 8 of the Company's 2023 Form 10-K.   Recent Accounting Standards   Standards Not Yet Adopted   In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740)." The amendments in this ASU are related to the rate reconciliation and income taxes paid disclosures and are designed to improve the transparency of income tax disclosures by requiring (1) consistent categories and greater disaggregation of information in the rate reconciliation and (2) income taxes paid disaggregated by jurisdiction. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. The adoption of this pronouncement is not expected to have a material impact on the Consolidated Financial Statements.   The Company has not yet adopted any new accounting standards in 2024 that have been issued by the FASB or other standards-setting bodies. The Company does not anticipate any of the recent standards issued to have a material impact on the consolidated financial statements. Acquisitions   On November 18, 2022, the Company and North Carolina-based Surrey Bancorp ("Surrey"), parent company of Surrey Bank & Trust, jointly announced their entry into an agreement and plan of merger pursuant to which First Community would acquire Surrey and its wholly-owned bank subsidiary, Surrey Bank & Trust. Under the terms of the agreement and plan of merger, each share of Surrey common stock immediately converted into the right to receive 0.7159 shares of the Company's common stock. The transaction was consummated on April 21, 2023. The total purchase price for the transaction was $71.37 million.   The Surrey transaction was accounted for using the acquisition method of accounting and, accordingly, assets acquired, liabilities assumed and consideration exchanged were recorded at estimated fair value on the acquisition date. Fair values are preliminary and subject to refinement for up to a year after the closing date of the acquisition. The Company incurred a total of $2.99 million in merger expenses related to the Surrey transaction, $596 thousand was recorded in the last quarter of 2022 and $2.39 million in 2023. These costs were primarily related to data conversion, investment banking fees, and legal fees.   Goodwill arising from business combinations represents the excess of the purchase price over the sum of the estimated fair values of the tangible and identifiable intangible assets acquired less the fair value of the liabilities assumed. The Surrey acquisition resulted in the Company recognizing $14.38 million in goodwill.   The primary identifiable intangible asset we typically record in connection with a whole bank or bank branch acquisition is the value of the core deposit intangibles which represents the estimated value of the long-term deposit relationships acquired in the transaction. Determining the amount of identifiable intangible assets and their average lives involves multiple assumptions and estimates and is typically determined by performing a discounted cash flow analysis, which involves a combination of any or all of the following assumptions: customer attrition/runoff, alternative funding costs, deposit servicing costs, and discount rates. The core deposit intangibles are amortized over the estimated useful lives of the deposit accounts based on a method that we believe reasonably approximates the anticipated benefit stream from this intangible. Core deposit intangibles for the Surrey transaction totaled $12.70 million.   When loans are acquired they are identified as either purchased credit deteriorated PCD or non-PCD. PCD loans represent assets that are acquired with evidence of more than insignificant credit quality deterioration since the origination of the loans as of the acquisition date. The ACL for PCD assets is recognized within business combination accounting with no initial impact to net income. Changes in estimates of expected credit losses on PCD loans after acquisition are recognized as provision expense (or reversal of provision expense) in subsequent periods as they arise. Non-PCD loans acquired are generally estimated at fair value using a discounted cash flow approach with assumptions of discount rate, remaining life, prepayments, probability of default, and loss given default. The actual cash flows on these loans could differ materially from the fair value estimates. The amount we record as the fair values for the loans is generally less than the contractual unpaid principal balance due from the borrowers, with the difference being referred to as the "discount" on the acquired loans. Discounts on acquired non-PCD loans are accreted to interest income over their estimated remaining lives, which may include prepayment estimates in certain circumstances. The ACL for non-PCD assets is recognized as provision expense in the same reporting period as the business combination. Estimated loan losses for acquired loans are determined using methodologies and applying estimates and assumptions similar to originated performing loans. The fair value of purchased loans with credit deterioration was $101.42 million on the date of acquisition with the gross contractual amount totaling $111.22 million. The Company estimates that $2.01 million of contractual cash flows specific to the purchased loans with credit deterioration will not be collected. Non purchased credit deteriorated loans acquired had a fair value of $137.55 million with a gross

contractual value of $143.55 million.</p> <p style="margin: 0pt; text-align: left; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </p> <table cellpadding="0" cellspacing="0" class="finTable" style="width: 100%; There were 112 individual debt securities in an unrealized loss position as of December 31, 2023, and their combined depreciation in value represented 5.02% of the debt securities portfolio.   Management evaluates securities for impairment where there has been a decline in fair value below the amortized cost basis of a security to determine whether there is a credit loss associated with the decline in fair value on at least a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Credit losses are calculated individually, rather than collectively, using a discounted cash flow method, whereby management compares the present value of expected cash flows with the amortized cost basis of the security. The credit loss component would be recognized through the provision for credit losses and the creation of an allowance for credit losses. Consideration is given to (1) the financial condition and near-term prospects of the issuer including looking at default and delinquency rates, (2) the outlook for receiving the contractual cash flows of the investments, (3) the length of time and the extent to which the fair value has been less than cost, (4) our intent and ability to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value or for a debt security whether it is more-likely-than-not that we will be required to sell the debt security prior to recovering its fair value, (5) the anticipated outlook for changes in the general level of interest rates, (6) credit ratings, (7) third party guarantees, and (8) collateral values. In analyzing an issuer’s financial condition, management considers whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, the results of reviews of the issuer’s financial condition, and the issuer’s anticipated ability to pay the contractual cash flows of the investments. All of the U.S. Treasury and Agency-Backed Securities have the full faith and credit backing of the United State Government or one of its agencies. Municipal securities and all other securities that do not have a zero expected credit loss are evaluated quarterly to determine whether there is a credit loss associated with a decline in fair value. All debt securities available-for-sale in an unrealized loss position as of June 30, 2024, continue to perform as scheduled and we do not believe that there is a credit loss or that a provision for credit losses is necessary. Also, as part of our evaluation of our intent and ability to hold investments for a period of time sufficient to allow for any anticipated recovery in the market, we consider our investment strategy, cash flow needs, liquidity position, capital adequacy and interest rate risk position. We do not currently intend to sell the securities within the portfolio and it is not more-likely-than-not that we will be required to sell the debt securities.   Management continues to monitor all of our securities with a high degree of scrutiny. There can be no assurance that we will not conclude in future periods that conditions existing at that time indicate some or all of its securities may be sold or would require a charge to earnings as a provision for credit losses in such periods.   There were no available-for-sale securities sold during the second quarter or for the first six months of 2024. Approximately $21.97 million in securities available for sale were sold in the second quarter of 2023, and approximately $38.98 million for the first six months of 2023. Approximately $20.93 million of the sales in 2023 were attributable to the sale of the entire portfolio of Surrey comprised primarily of U. S. Treasury Notes. Loans   The Company groups loans held for investment into three segments (commercial loans, consumer real estate loans, and consumer and other loans) with each segment divided into various classes. Customer overdrafts reclassified as loans totaled $1.59 million as of June 30, 2024, and $1.50 million as of December 31, 2023. Deferred loan fees, net of loan costs, totaled $7.02 million as of June 30, 2024, and $7.71 million as of December 31, 2023.   In accordance with the adoption of ASU 2016-13, the table below reflects the loan portfolio at the amortized cost basis to include net deferred loan fees of $7.02 million and $7.71 million and unamortized discount related to loans acquired of $13.85 million and $15.29 million for June 30, 2024, and December 31, 2023, respectively. Accrued interest receivable of $9.33 million as of June 30, 2024, and $9.64 million as of December 31, 2023, is accounted for separately and reported in Interest Receivable on the Consolidated Balance Sheet.   <table border="0" cellpadding="0" cellspacing="0" class="finTable" style="width: 100%; text-indent: 0px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> <tbody> <tr style="background-color: rgb(255, 255, 255); vertical-align: bottom"> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="6" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom-color: rgb(0, 0, 0); border-bottom-width: 1px; border-bottom-style: solid;"> June 30, 2024 </td> <td style="padding-bottom: 1px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="6" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom-color: rgb(0, 0, 0); border-bottom-width: 1px; border-bottom-style: solid;"> December 31, 2023 </td> <td style="padding-bottom: 1px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> </tr> <tr style="background-color: rgb(255, 255, 255); vertical-align: bottom"> <td style="width: 52%; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> (Amounts in thousands) </td> <td style="font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td colspan="2" style="text-align: center; font-family: "Times New Roman", Times, serif; font-size: 10pt; margin-left: 0pt; border-bottom-color: rgb(0, 0, 0); border-bottom-width: 1px; border-bottom-style: solid;"> Amount </td> <td style="padding-bottom: 1px; font-family: "Times New Roman", Times, serif; font-size: 10pt;"> </td> <td style="font-family: "Times New Roman", Times,

Credit Quality   The Company uses a risk grading matrix to assign a risk grade to each loan in its portfolio. Loan risk ratings may be upgraded or downgraded to reflect current information identified during the loan review process. The general characteristics of each risk grade are as follows: <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; font-family: "Times New Roman", Times, serif; font-size: 10pt;"><tbody><tr><td style="width: 18pt;"> </td><td style="width: 18pt; vertical-align: top;"> ● </td><td style="vertical-align: top;"> Pass -- This grade is assigned to loans with acceptable credit quality and risk. The Company further segments this grade based on borrower characteristics that include capital strength, earnings stability, liquidity, leverage, and industry conditions. </td></tr> </tbody></table> <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; font-family: "Times New Roman", Times, serif; font-size: 10pt;"><tbody><tr><td style="width: 18pt;"> </td><td style="width: 18pt; vertical-align: top;"> ● </td><td style="vertical-align: top;"> Special Mention -- This grade is assigned to loans that require an above average degree of supervision and attention. These loans have the characteristics of an asset with acceptable credit quality and risk; however, adverse economic or financial conditions exist that create potential weaknesses deserving of management’s close attention. If potential weaknesses are not corrected, the prospect of repayment may worsen. </td></tr> </tbody></table> <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; font-family: "Times New Roman", Times, serif; font-size: 10pt;"><tbody><tr><td style="width: 18pt;"> </td><td style="width: 18pt; vertical-align: top;"> ● </td><td style="vertical-align: top;"> Substandard -- This grade is assigned to loans that have well defined weaknesses that may make payment default, or principal exposure, possible. These loans will likely be dependent on collateral liquidation, secondary repayment sources, or events outside the normal course of business to meet repayment terms. </td></tr> </tbody></table> <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; font-family: "Times New Roman", Times, serif; font-size: 10pt;"><tbody><tr><td style="width: 18pt;"> </td><td style="width: 18pt; vertical-align: top;"> ● </td><td style="vertical-align: top;"> Doubtful -- This grade is assigned to loans that have the weaknesses inherent in substandard loans; however, the weaknesses are so severe that collection or liquidation in full is unlikely based on current facts, conditions, and values. Due to certain specific pending factors, the amount of loss cannot yet be determined. </td></tr> </tbody></table> <table border="0" cellpadding="0" cellspacing="0" style="width: 100%; font-family: "Times New Roman", Times, serif; font-size: 10pt;"><tbody><tr><td style="width: 18pt;"> </td><td style="width: 18pt; vertical-align: top;"> ● </td><td style="vertical-align: top;"> Loss -- This grade is assigned to loans that will be charged off or charged down when payments, including the timing and value of payments, are uncertain. This risk grade does not imply that the asset has no recovery or salvage value, but simply means that it is not practical or desirable to defer writing off, either all or a portion of, the loan balance even though partial recovery may be realized in the future. </td></tr> </tbody></table>   The following table presents the recorded investment of the loan portfolio, by loan class and credit quality, as of the dates indicated: <p style="margin: 0pt; text-align: left; font-family:
