POLARIS INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Basis of Presentation and Significant Accounting Policies

*Basis of presentation.* The accompanying unaudited consolidated financial statements of Polaris Inc. ("Polaris" or the "Company") have been prepared in accordance with accounting principles generally accepted in the United States for interim financial statements and, therefore, do not include all information and disclosures of results of operations, financial position, and changes in cash flow in conformity with accounting principles generally accepted in the United States for complete financial statements. Accordingly, such statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2023 previously filed with the Securities and Exchange Commission ("SEC"). In the opinion of management, such statements reflect all adjustments (which include only normal recurring adjustments) necessary for a fair presentation of the financial position, results of operations, equity, and cash flows for the periods presented. Due to the seasonality trends for certain products and certain changes in production and shipping cycles, results of such periods are not necessarily indicative of the results to be expected for the complete year.

*Fair value measurements.* Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Assets and liabilities measured at fair value are classified using the following hierarchy, which is based upon the transparency of inputs to the valuation as of the measurement date:

- Level 1 — Quoted prices in active markets for identical assets or liabilities.
- Level 2 — Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

In making fair value measurements, observable market data must be used when available. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. The Company utilizes the market approach to measure fair value for its non-qualified deferred compensation assets and liabilities, and the income approach for foreign currency contracts, interest rate contracts, and commodity contracts. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities, and for the income approach, the Company uses significant other observable inputs to value its derivative instruments used to hedge foreign currency, interest rate transactions, and commodity transactions.

Assets and liabilities measured at fair value on a recurring basis are summarized below (in millions):

	Input Level	Input Level	March 31, 2024	December 31, 2023	Input Level	June 30, 2024	December 31, 2023

*Fair value of other financial instruments.* The carrying values of the Company’s short-term financial instruments, including cash and cash equivalents, trade receivables, accounts payable and current financing obligations, approximate their fair values due to their short-term nature. As of March 31, 2024 June 30, 2024 and December 31, 2023, the fair value of the Company’s long-term financing obligations was approximately \$2,099.2 million \$2,164.2 million and \$1,954.3 million, respectively, and was determined primarily using Level 2 inputs by discounting projected cash flows based on quoted market rates at which similar amounts of debt could currently be borrowed. The carrying value of long-term financing obligations was \$2,068.2 million \$2,143.5 million and \$1,908.4 million as of March 31, 2024 June 30, 2024 and December 31, 2023, respectively.

*Property and equipment.* The Company recorded \$58.4 million \$64.1 million and \$57.4 million \$54.2 million of depreciation expense for the three months ended March 31, 2024 June 30, 2024 and 2023, respectively, and \$122.5 million and \$111.6 million for the six months ended June 30, 2024 and 2023, respectively. A majority of the Company’s property and equipment is located in North America.

*Product warranties.* The activity in the warranty reserve during the periods presented was as follows (in millions):

*New accounting pronouncements.*

*Reportable Segment Disclosures.* In November 2023, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) 2023-07, “Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures”. ASU 2023-07 is intended to enhance financial reporting by requiring incremental disclosures for significant segment expenses on an annual and interim basis by public entities required to report segment information in accordance with Accounting Standards Codification Topic 280. The amendments in ASU 2023-07 are to be applied retrospectively to all periods presented in the financial statements and early adoption is permitted. This standard will be applicable to the Company for the 2024 annual period and quarterly periods thereafter. The Company is evaluating continuing to evaluate the impact ASU 2023-07 will have on its disclosure approach for ASU 2023-07 financial statement disclosures and anticipates adopting the standard for its Annual Report on Form 10-K for the year ended December 31, 2024 and filings thereafter.

*SEC Climate Disclosure Rules.* In March 2024, the SEC issued its final climate disclosure rule, which requires the disclosure of material Scope 1 and Scope 2 greenhouse gas emissions and other climate-related topics in annual reports and registration statements. For large accelerated filers, disclosure requirements will begin phasing in for fiscal years beginning on or after January 1, 2025. The Company is currently evaluating the impact these rules will have on its consolidated financial statements and related disclosures.

Apart from the items discussed above and in our Annual Report on Form 10-K for the year ended December 31, 2023, there are no other new accounting pronouncements that are expected to have a significant impact on the Company’s consolidated financial statements or related disclosures.

### Note 3. Revenue Recognition

The Company recognizes revenue when it satisfies a performance obligation by transferring control of a good or service to a customer. Revenue is measured based on the amount of consideration that the Company expects to be entitled to in exchange for the goods or services transferred. Sales, value add, and other taxes that are collected from a customer concurrent with revenue-producing activities are excluded from revenue. Revenue from goods and services transferred to customers at a point-in-time accounts for the majority of the Company's revenue. Revenue from products or services transferred over time is discussed in the contract liabilities section below.

The following tables disaggregate the Company's revenue by major product type and geography (in millions):

For the majority of wholegood vehicles, boats, and parts, garments, and accessories ("PG&A"), the Company transfers control and recognizes a sale when it ships the product from its manufacturing facility, distribution center, or vehicle holding center to the customer. The amount of consideration the Company receives and revenue it recognizes varies with changes in marketing incentives and rebates it offers to its customers. Payment terms vary by customer and most of the Company's sales are financed by the customer under floorplan financing arrangements whereby the Company receives payment within a few days of shipment of the product.

When the right of return exists, the Company adjusts the consideration for the estimated effect of returns. The Company estimates expected returns based on historical sales levels, the timing and magnitude of historical sales return levels as a percent of sales, type of product, type of customer, and a projection of this experience into the future. The Company adjusts its estimate of revenue at the earlier of when the most likely amount of consideration it expects to receive changes or when the consideration becomes fixed.

Depending on the terms of the arrangement, the Company may also defer the recognition of a portion of the consideration received because it has to satisfy a future obligation. The Company uses an observable price to determine the stand-alone selling price for separate performance obligations. The Company has elected to recognize the cost for freight and shipping as an expense in cost of sales when control over vehicles, boats, or PG&A has transferred to the customer as an expense in cost of sales. customer.

The Company sells separately-priced extended service contracts ("ESCs") that extend mechanical coverages beyond the base limited warranty as well as prepaid maintenance agreements to vehicle owners. Each of these separately-priced service contracts range from 12 months to 84 months. The Company typically receives payment at the inception of the contract and recognizes revenue over the term of the agreement in proportion to the costs expected to be incurred in satisfying the obligations under the contract.

**Contract Liabilities.** Contract liabilities relate to deferred revenue recognized for cash consideration received at contract inception in advance of the Company's performance under the respective contract and generally relate to the sale of separately-priced ESCs. The Company finances its self-insured risks related to ESCs. The premiums for ESCs are primarily recognized in income **over the term of the agreement** in proportion to the costs expected to be incurred **over in satisfying the contract period obligations under the contract**. Warranty costs are recognized as incurred.

The activity in the deferred revenue reserve for ESCs during the periods presented was as follows (in millions):

As of **March 31, 2024** **June 30, 2024**, there was **\$83.3 million** **\$73.0 million** of total unrecognized share-based compensation expense related to unvested share-based equity awards. Debt issuance costs and discounts are recognized as a reduction in the carrying value of the related long-term debt in the consolidated balance sheets and are being amortized to interest expense in the consolidated statements of income over the expected remaining terms of the related debt.

As of **March 31, 2024** **June 30, 2024**, the Company had open letters of credit totaling **\$38.3 million** **\$35.9 million**. The amounts are primarily related to inventory purchases and are reduced as the purchases are received.

*Private senior notes.* In December 2010, the Company entered into an unsecured Master Note Purchase Agreement, which has been amended and supplemented, under which it has issued senior notes. In July 2018, the Company issued \$350 million of unsecured senior notes that remain outstanding as of **March 31, 2024** **June 30, 2024** and are due in full in July 2028.

*Unsecured credit facility.* The Company maintains an unsecured credit facility which consists of a term loan facility (the "Term Loan Facility") and a revolving loan facility (the "Revolving Loan Facility"). In July 2018, the Company amended the credit facility to increase its Term Loan Facility to \$1,180 million, of which **\$768.0 million** **\$756.0 million** was outstanding as of **March 31, 2024** **June 30, 2024**. The Company is required to make principal payments under the Term Loan Facility totaling \$45.0 million over the next 12 months. In June 2021, the Company further amended the credit facility to increase its Revolving Loan Facility to \$1.0 billion, of which **\$401.0 million** **\$487.5 million** was outstanding as of **March 31, 2024** **June 30, 2024**, and extend the maturity date to June 2026. Interest is charged at rates based on adjusted Term SOFR plus the applicable add-on percentage as defined.

In November 2023, the Company amended the credit facility to terminate all guarantees provided by subsidiaries of the Company under the credit facility, remove the requirement for subsidiaries of the Company to provide guarantees of the obligations under the credit facility, and remove certain subsidiaries of the Company as co-borrowers.

The agreements governing the credit facility and the Master Note Purchase Agreement contain covenants that require the Company to maintain certain financial ratios, including minimum interest coverage and maximum leverage ratios. The agreements require the Company to maintain an interest coverage ratio of not less than 3.00 to 1.00 and a leverage ratio of not more than 3.50 to 1.00 on a rolling four quarter basis. The Company was in compliance with all such covenants as of **March 31, 2024** **June 30, 2024**.

*Public senior notes.* In November 2023, the Company issued \$500 million aggregate principal amount of 6.95% Senior Notes pursuant to a public offering. The Company received approximately \$492 million in net proceeds from the notes offering after deducting the underwriting discount and other fees and expenses. The notes bear interest at a rate of 6.95% per year, with interest payable semi-annually in arrears in March and September of each year. The notes mature in March of 2029. The indenture governing the notes is subject to customary covenants and make-whole provisions upon early redemption.

*Acquisition-related deferred payments.* On July 2, 2018, pursuant to the Agreement and Plan of Merger dated May 29, 2018, the Company completed the acquisition of Boat Holdings, LLC, a privately held Delaware limited liability company, headquartered in Elkhart, Indiana that manufactures boats ("Boat Holdings"). As a component of the Boat Holdings merger agreement, the Company has committed to make a series of deferred payments to the former owners following the closing date of the merger through July 2030. The original discounted payable was for \$76.7 million, of which \$49.4 million was outstanding as of **March 31, 2024** **June 30, 2024**. The outstanding balance is included in long-term financing obligations and current financing obligations in the consolidated balance sheets.

Note 7. Shareholders' Equity

During the three six months ended March 31, 2024 June 30, 2024, the Company paid \$16.0 million \$82.3 million to repurchase approximately 0.2 million 1.0 million shares of its common stock. As of March 31, 2024 June 30, 2024, the Board of Directors has authorized the Company to repurchase up to an additional \$1,175.1 million \$1,109.3 million of the Company's common stock.

Diluted net income per share was computed under the treasury stock method and was calculated to compute the dilutive effect of outstanding stock options and certain share-based awards issued under the Omnibus Plan. Reconciliations of these amounts are as follows (in millions):

## Note 8. Financial Services Arrangements

Polaris Acceptance, a joint venture between the Company and Wells Fargo Commercial Distribution Finance Corporation, a direct subsidiary of Wells Fargo Bank, N.A., which is supported by a partnership agreement between their respective wholly owned subsidiaries, finances substantially all of the Company's United States sales of off-road vehicles, snowmobiles, motorcycles, and related PG&A, whereby the Company receives payment within a few days of shipment of the product.

The Company's subsidiary has a 50 percent equity interest in Polaris Acceptance. The Company's allocable share of the income of Polaris Acceptance has been included as a component of income from financial services in the consolidated statements of income. The partnership agreement is effective through February 2027.

The Company's total investment in Polaris Acceptance was **\$139.6 million** **\$142.4 million** as of **March 31, 2024** **June 30, 2024** and is accounted for under the equity method and recorded in investment in finance affiliate in the consolidated balance sheets. As of **March 31, 2024** **June 30, 2024**, the outstanding amount of net receivables financed for dealers under this arrangement was **\$1,880.4 million** **\$1,882.2 million**.

The Company has agreed to repurchase products repossessed by Polaris Acceptance up to an annual maximum of 15 percent of the aggregate average month-end outstanding Polaris Acceptance receivables and Securitized Receivables during the prior calendar year. For calendar year 2024, the potential 15 percent aggregate repurchase obligation is approximately \$219.1 million.

A subsidiary of Huntington Bancshares Incorporated ("Huntington") finances a portion of the Company's United States sales of boats whereby the Company receives payment within a few days of shipment of the product. The Company has agreed to repurchase products repossessed by Huntington up to a maximum of 100 percent of the aggregate outstanding Huntington receivables balance. As of **March 31, 2024** **June 30, 2024**, the potential aggregate repurchase obligation was approximately **\$363.3 million** **\$255.8 million**.

The Company has other financing arrangements related to its foreign subsidiaries in which it has agreed to repurchase repossessed products. For calendar year 2024, the potential aggregate repurchase obligations are approximately \$43.1 million.

The Company's financial exposure under these repurchase agreements is limited to the difference between the amounts unpaid by the dealer or distributor with respect to the repossessed product plus costs of repossession and the amount received on the resale of the repossessed product. No material losses have been incurred under these agreements during the periods presented.

The Company has agreements with third-party financing companies to provide financing options to end consumers of the Company's products. The Company has no material contingent liabilities for residual value or credit collection risk under these agreements. The Company's income generated from these agreements has been included as a component of income from financial services in the consolidated statements of income.

#### Note 9. Commitments and Contingencies

**Product liability.** The Company is subject to product liability claims in the normal course of business. The Company purchases excess insurance coverage annually for product liability claims, which is subject to self-insured retention and aggregate limits. The estimated costs resulting from any losses are charged to operating expenses when it is probable a loss has been incurred and the amount of the loss is reasonably estimable. The Company utilizes historical trends and actuarial analysis, along with an analysis of current claims, to assist in determining the appropriate loss reserve levels. As of **March 31, 2024** **June 30, 2024**, the Company had an accrual of **\$135.2 million** **\$195.2 million** for the probable payment of pending claims related to product liability litigation associated with the Company's products. This accrual is included as a component of accrued expenses in the consolidated balance sheets. Amounts due from insurance carriers, to the extent applicable, reduce our financial exposure to product liability claims and are included as a component of prepaid expenses and other in the consolidated balances sheets.

**Litigation.** The Company is subject to lawsuits and claims arising in the normal course of business, including matters related to intellectual property, commercial matters, employment, product liability claims and putative class actions. Additional details about certain of the pending putative class actions are provided in Part II, Item 1 – Legal Proceedings.

In the opinion of management, it is presently unlikely that any legal proceedings pending against or involving the Company will have a material adverse effect on the Company's financial position, results of operations, or cash flows. However, in many of these matters, it is inherently difficult to determine whether a loss is probable or reasonably possible or to estimate the size or range of the possible loss given the variety of potential outcomes of actual and potential claims, including legal proceedings **resulting in verdicts that exceed policy limits for a given year or** seeking punitive damages for certain policy years for which we may not be insured, the uncertainty of future rulings, possible class certification, the behavior or incentives of adverse parties, and other factors outside of the control of the Company. Accordingly, the Company's loss reserve may change from time to time, and actual losses could exceed the amounts accrued by an amount that could be material to the Company's consolidated financial position, results of operations, or cash flows in any particular reporting period.

**Regulatory.** In the normal course of business, the Company's products are subject to extensive laws and regulations relating to safety, environmental, and other regulations promulgated by the United States federal government and individual states, as well as international regulatory authorities. Failure to comply with applicable regulations could result in fines, penalties, or other costs.

#### Note 10. Derivative Instruments and Hedging Activities

The Company is exposed to certain risks from fluctuations in foreign currency exchange rates, interest rates, and commodity prices. To reduce its exposure to such risks, the Company selectively uses derivative financial instruments. The decision of whether and when to execute derivative instruments, along with the duration of the instrument, may vary from period to period depending on market conditions, the relative costs of the instruments and capacity to hedge. The duration is linked to the timing of the underlying exposure, with the connection between the two being regularly monitored. The Company does not use any financial contracts for trading purposes. The derivative contracts contain credit risk to the extent that our bank counterparties may be unable to meet the terms of the agreements. The amount of such credit risk is generally limited to the unrealized gains, if any, in such contracts. Such risk is minimized by limiting those counterparties to major financial institutions of high credit quality and spreading the risk among such financial institutions.

The Company conducts business in various locations throughout the world and is subject to market risk associated with certain product sourcing activities and intercompany cash flows due to changes in the value of foreign currencies in relation to its reporting currency, the U.S. dollar. The Company's foreign currency management objective is to mitigate the potential impact of currency fluctuations on the value of its U.S. dollar cash flows and to reduce the variability of certain cash flows at the subsidiary level. The Company actively manages certain forecasted foreign currency exposures and uses a centralized currency management operation to take advantage of potential opportunities to naturally offset foreign currency exposures. The Company utilizes foreign currency exchange contracts to mitigate the effects of foreign currency exchange rate fluctuations related to the Australian dollar, Canadian dollar, and Mexican peso. The Company's foreign currency exchange contracts, with maturities **of less than one year, through December 2025**, met the criteria to be accounted for as cash flow hedges during the periods presented.

The Company mitigates its interest rate risk by managing its exposure to fixed and variable rates while attempting to optimize its interest costs. The Company enters into interest rate swap transactions to hedge the variable interest rate payments for the Term Loan Facility. In connection with these contracts, the Company pays interest based upon a fixed rate and receives variable rate interest payments based on adjusted Term SOFR plus the applicable add-on percentage as defined. These contracts, with maturities through February 2026, met the criteria to be accounted for as cash flow hedges during the periods presented.

Commodity hedging contracts are entered into in order to manage fluctuating market prices of certain purchased commodities and raw materials that are integrated into the Company's end products. The Company's commodity contracts, with maturities of less than one year, met the criteria to be accounted for as cash flow hedges during the periods presented.

The notional and fair values of the Company's derivative financial instruments designated as cash flow hedges were as follows (in millions):

The unrealized gains or losses, after tax, are recorded as a component of accumulated other comprehensive loss in shareholders' equity. Gains and losses on derivative instruments representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized currently in the consolidated statements of income and were not material for the periods presented.

The net amount of the existing gains or losses as of **March 31, 2024** **June 30, 2024** that is expected to be reclassified into the statements of income within the next 12 months is not expected to be material.

#### Note 11. Segment Reporting

The Company's reportable segments are based on the Company's method of internal reporting and are comprised of various product offerings that serve multiple end markets. These results are not necessarily indicative of the results of operations that would have occurred had each segment been an independent, stand-alone entity during the periods presented. The internal reporting of these operating segments is based, in part, on the reporting and review process used by the Company's Chief Executive Officer. Item 2 – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion pertains to the results of operations and financial position of Polaris Inc., a Delaware corporation, for the three and six month period ended March 31, 2024 June 30, 2024 compared to the three and six month period ended March 31, 2023 June 30, 2023. The terms “Polaris,” the “Company,” “we,” “us,” and “our” as used herein refer to the business and operations of Polaris Inc., its subsidiaries and its predecessors, which began doing business in 1954. We design, engineer, manufacture and market powersports vehicles which include: off-road vehicles (“ORV”), including all-terrain vehicles (“ATV”) and side-by-side vehicles; military and commercial ORVs; snowmobiles; motorcycles; moto-roadsters; quadricycles; and boats. We also design and manufacture or source parts, garments and accessories (“PG&A”), which includes aftermarket accessories and apparel. Due to the seasonal trends for certain products and certain changes in production and shipping cycles, results of such periods are not necessarily indicative of the results to be expected for the complete year. Unless otherwise noted, all “quarter” comparisons are from the first second quarter of 2024 to the first second quarter of 2023, 2023 and all “year-to-date” comparisons are from the six month period ended June 30, 2024 to the six month period ended June 30, 2023. Estimates related to industry retail sales are unaudited and based on internally-generated management estimates, including estimates based on extrapolations from third-party surveys of the industries in which we compete, and are subject to change.

Overview

First Second quarter sales totaled \$1,736.4 million \$1,961.2 million, a decrease of 20 12 percent from last year’s first second quarter sales of \$2,179.7 million \$2,216.6 million. The decrease in sales for the quarter was primarily due to decreased shipments in all segments and lower net pricing driven by higher promotional costs, partially offset by product mix.

Our gross profit of \$330.3 million \$424.0 million decreased 30 16 percent from \$469.2 million \$505.0 million in the comparable prior year first second quarter. Gross profit, as a percentage of sales, decreased primarily due to lower net pricing driven by higher promotional costs and decreased leverage of fixed costs as a result of reduced sales volumes. This decrease was partially offset by favorable operational costs.

Net income attributable to Polaris was \$3.8 million \$68.7 million, or \$0.07 \$1.21 per diluted share, compared to 2023 first second quarter net income attributable to Polaris of \$113.4 million \$134.3 million, or \$1.95 \$2.32 per diluted share. These decreases were primarily the result of decreased shipments in all segments and lower net pricing partially offset driven by decreased operating expenses, higher promotional costs. We reported first second quarter Adjusted EBITDA of \$110.0 million \$198.1 million, compared to 2023 first second quarter Adjusted EBITDA of \$238.1 million \$265.5 million. For information on how we define and calculate Adjusted EBITDA, and a reconciliation from net income to Adjusted EBITDA, see “Non-GAAP Financial Measures”.

#### Non-GAAP Financial Measures

To supplement our consolidated financial statements, which are prepared and presented in accordance with GAAP, we use certain non-GAAP financial measures, as described below, to understand and evaluate our core operating performance. These non-GAAP financial measures, which may be different than similarly titled measures used by other companies, are presented to enhance investors' overall understanding of our financial performance and should not be considered a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP.

We use the non-GAAP financial measure of Adjusted EBITDA, which is defined as net income, excluding interest expense, income tax expense, depreciation and amortization, and certain other non-cash, non-recurring, or non-operating items impacting net income from time to time. For example, costs associated with certain corporate restructuring activities, such as acquisitions and divestitures, are included as non-GAAP adjustments. We use the non-GAAP financial measure of Adjusted EBITDA Margin, which is defined as Adjusted EBITDA divided by net sales. We believe that Adjusted EBITDA and Adjusted EBITDA Margin help identify underlying trends in our business that could otherwise be masked by the effect of the expenses that we exclude from Adjusted EBITDA and Adjusted EBITDA Margin.

We believe that these measures provide useful information about our financial performance, enhance the overall understanding of our past performance and future prospects, and allow for greater transparency with respect to key metrics used by our management for financial and operational decision making. We are presenting these non-GAAP measures to assist investors in seeing our financial performance through the eyes of management, and because we believe that these measures provide an additional tool for investors to use in comparing our core financial performance over multiple periods with other companies in our industry.

Adjusted EBITDA has limitations and should not be considered in isolation from, as a substitute for, or more meaningful than, net income as determined in accordance with GAAP. Certain items excluded from Adjusted EBITDA are significant components in understanding and assessing a company's financial performance. Our presentation of Adjusted EBITDA and Adjusted EBITDA Margin should not be construed as an inference that our results will be unaffected by unusual or non-recurring items.

The following table presents a reconciliation of net income, the most comparable GAAP financial measure, to Adjusted EBITDA for each of the periods presented:

## Liquidity and Capital Resources

Our primary sources of liquidity have been cash provided by operating and financing activities, including funds as needed from our credit facility and issuances of long-term debt. Our primary uses of funds have been for new product development, capital investments, cash dividends to shareholders, repurchases and retirements of common stock and acquisitions. The seasonality of production and shipments cause working capital requirements to fluctuate during the year and from year to year.

We believe that existing cash balances and cash flows to be generated from operating activities, borrowing capacity under our credit facility and from future issuances or borrowings of long-term debt, will be sufficient to fund operations, new product development, cash dividends to shareholders, repurchases and retirement of common stock, and capital requirements for at least the next 12 months and for the foreseeable future thereafter.

## Cash Flows

The following table summarizes the cash flows from operating, investing and financing activities:

### **Operating Activities:**

The decrease in net cash from operating activities was primarily due to lower net income and increased working capital additions.

### **Investing Activities:**

The primary sources and uses of cash were for the purchase of property, equipment and tooling for continued capacity and capability at our manufacturing, distribution, and product development facilities, and distributions from and contributions to Polaris Acceptance. Net cash used for investing activities decreased due to a reduction in property, equipment and tooling purchases, as well as increased distributions from Polaris Acceptance. These decreases were partially offset by strategic investments in the current year.

### **Financing Activities:**

The increase in net cash from financing activities was primarily due to increased net borrowings under debt arrangements and lower share repurchases. repurchases, partially offset by reduced proceeds from stock issuances under employee plans. Net borrowings totaled \$165.3 million \$239.2 million for the three six months ended March 31, 2024 June 30, 2024, compared to \$45.0 million \$1.0 million of net borrowings for the comparable period in 2023.

### **Financing Arrangements:**

We are party to an unsecured Master Note Purchase Agreement, as amended and supplemented, under which we have issued senior notes. As of March 31, 2024 June 30, 2024, outstanding borrowings under the Master Note Purchase Agreement totaled \$350.0 million.

We are also party to an unsecured credit facility, which includes a \$1.0 billion variable interest rate Revolving Loan Facility that matures in June 2026, under which we have unsecured borrowings. As of March 31, 2024 June 30, 2024, there were borrowings of \$401.0 million \$487.5 million outstanding under the Revolving Loan Facility. Our credit facility also includes a Term Loan Facility, on which \$768.0 million \$756.0 million was outstanding as of March 31, 2024 June 30, 2024. We are required to make principal payments under the Term Loan Facility totaling \$45 million over the next 12 months. For the credit facility, interest is charged at rates based on adjusted Term SOFR plus the applicable add-on percentage as defined. As of March 31, 2024 June 30, 2024, we had \$591.5 million \$505.0 million of availability on the Revolving Loan Facility.

In November 2023, we amended the credit facility to terminate all guarantees provided by our subsidiaries under the credit facility, remove the requirement for our subsidiaries to provide guarantees of the obligations under the credit facility, and remove certain of our subsidiaries as co-borrowers.

The agreements governing the facility and the Master Note Purchase Agreement contain covenants that require the Company to maintain certain financial ratios, including minimum interest coverage and maximum leverage ratios. The agreements also require the Company to maintain an interest coverage ratio of not less than 3.00 to 1.00 and a leverage ratio of not more than 3.50 to 1.00 on a rolling four quarter basis.

In November 2023, we issued \$500 million aggregate principal amount of 6.95% Senior Notes pursuant to a public offering. We received approximately \$492 million in net proceeds from the notes offering after deducting the underwriting discount and other fees and expenses. The notes bear interest at a rate of 6.95% per year, with interest payable semi-annually in arrears in March and September of each year. The notes mature in March of 2029. The indenture governing the notes is subject to customary covenants and make-whole provisions upon early termination.

On July 2, 2018, pursuant to the Agreement and Plan of Merger dated May 29, 2018, the Company completed the acquisition of Boat Holdings, LLC, a privately held Delaware limited liability company, headquartered in Elkhart, Indiana which manufactures boats ("Boat Holdings"). As a component of the Boat Holdings merger agreement, we have committed to make a series of deferred payments to the former owners through July 2030. The original discounted payable was for \$76.7 million, of which \$49.4 million was outstanding as of March 31, 2024 June 30, 2024.

As of March 31, 2024 June 30, 2024, we were in compliance with all debt covenants and our debt to total capital ratio was 60 62 percent. Additionally, as of March 31, 2024 June 30, 2024, we had letters of credit outstanding of \$38.3 million \$35.9 million, primarily related to purchase obligations for raw materials.

### **Share Repurchases:**

We repurchased a total of 0.2 million approximately 1.0 million shares of our common stock for \$16.0 million \$82.3 million during the first three six months of 2024, which had an a favorable impact of less than one cent on diluted net income per share. As of March 31, 2024 June 30, 2024, our Board of Directors has authorized us to repurchase up to an additional \$1,175.1 million \$1,109.3 million of our common stock.

### **Wholesale Customer Financing Arrangements:**

We have arrangements with certain finance companies to provide secured floor plan financing for our dealers. These arrangements provide liquidity by financing dealer purchases of our products without the use of our working capital. A majority of the worldwide sales of snowmobiles, ORVs, motorcycles, boats and related PG&A are financed under similar arrangements whereby we receive payment within a few days of shipment of the product. We participate in the cost of dealer financing up to certain limits.

Under these arrangements, we have agreed to repurchase products repossessed by these finance companies. As of March 31, 2024 June 30, 2024, the potential aggregate repurchase obligations were approximately \$625.5 million \$518.0 million. Our financial exposure under these repurchase agreements is limited to the difference between the amounts unpaid by the dealer with respect to the repossessed product plus costs of repossession and the amount received on the resale of the repossessed product. No material losses have been incurred under these agreements during the periods presented.

### **Retail Customer Financing Arrangements:**

We have agreements with third-party financing companies to provide financing options to end consumers of our products. We have no material contingent liabilities for residual value or credit collection risk under these agreements.

## Item 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Refer to the Company’s Annual Report on Form 10-K for the year ended December 31, 2023 for a complete discussion on the Company’s market risk. There have been no material changes in market risk from those disclosed in the Company’s Form 10-K for the year ended December 31, 2023. Refer below for further discussion on commodity cost risk, foreign currency exchange rate risk, and interest rate risk.

### ***Inflation:***

We are subject to market risk from fluctuating market prices of certain purchased commodities and raw materials, including steel, aluminum, copper, petroleum-based resins, certain rare earth metals and diesel fuel. In addition, we are a purchaser of components and parts containing various commodities, including steel, aluminum, rubber and others, which are integrated into our end products. While such materials are typically available from numerous suppliers, commodity raw materials are subject to price fluctuations. We generally buy these commodities and components based upon market prices that are established with the vendor as part of the purchase process. We enter into commodity hedging contracts in order to manage fluctuating market prices of certain commodities such as steel and diesel fuel. Based on our current outlook for commodity prices, the total impact of commodities is expected to have a favorable impact on our gross profit margins for full-year 2024 when compared to 2023.

### ***Foreign Exchange Rates:***

The changing relationships of the U.S. dollar to foreign currencies can have a material impact on our financial results.

***Euro:*** We have operations in the Eurozone through wholly owned subsidiaries and distributors. We also purchase components from certain suppliers directly for our U.S. operations in transactions denominated in Euros. Fluctuations in the Euro to U.S. dollar exchange rate impacts sales, cost of sales and net income.

***Canadian Dollar:*** We operate in Canada through a wholly owned subsidiary. The relationship of the U.S. dollar in relation to the Canadian dollar impacts sales, cost of sales and net income.

***Other currencies:*** We operate in various countries, principally in Europe, Mexico and Australia, through wholly owned subsidiaries. We also sell to certain distributors in other countries and purchase components from certain suppliers directly

for our U.S. operations in transactions denominated in these foreign currencies. The relationship of the U.S. dollar in relation to these other currencies impacts sales, cost of sales and net income.

We actively manage our exposure to fluctuating foreign currency exchange rates by entering into foreign exchange hedging contracts. A portion of our foreign currency exposure is mitigated with the following open foreign currency hedging contracts as of **March 31, 2024** **June 30, 2024**:

Foreign Currency	Currency Position	Foreign currency hedging contracts	
		Notional amounts (in millions of U.S.	Average exchange rate of open
		Dollars)	contracts
Australian Dollar	Long	\$ 18.6 18.8	\$0.65 0.66 to 1 AUD
Canadian Dollar	Long	128.8 \$ 109.9	\$0.74 0.73 to 1 CAD
Mexican Peso	Short	42.6 \$ 115.0	19 18.5 Peso to \$1

During the quarter ended **March 31, 2024** **June 30, 2024**, after consideration of the existing foreign currency hedging contracts, foreign currencies had a **negative** **neutral** impact on net income compared to 2023. We expect currencies to have a negative impact on full-year net income in 2024 compared to 2023.

The assets and liabilities in all of our international entities are translated at the foreign exchange rate in effect at the balance sheet date. Translation gains and losses are reflected as a component of accumulated other comprehensive loss, net in the shareholders' equity section of the consolidated balance sheets. Revenues and expenses in all of our international entities are translated at the average foreign exchange rate in effect for each month of the year. Certain assets and liabilities related to intercompany positions reported on our consolidated balance sheets that are denominated in a currency other than the entity's functional currency are translated at the foreign exchange rates at the balance sheet date and the associated gains and losses are included in net income.

#### Interest Rates:

We are a party to an unsecured credit facility with various lenders consisting of a \$1.0 billion Revolving Loan Facility and a \$1.2 billion Term Loan Facility. Interest accrues on the revolving loan and term loans at variable rates based on adjusted Term SOFR plus the applicable add-on percentage as defined. As of **March 31, 2024** **June 30, 2024**, there was **\$401.0 million** **\$487.5 million** outstanding on the Revolving Loan Facility and **\$768.0 million** **\$756.0 million** outstanding on the Term Loan Facility. We enter into interest rate swaps in order to manage our exposure to fixed and variable interest rates associated with our debt. We expect interest rates to have a negative impact on full-year net income in 2024 compared to 2023.

Borrowings pursuant to our private senior notes and public senior notes bear interest at fixed rates. We are subject to changes in the fair value of fixed-rate borrowings as a result of potential changes in prevailing interest rates. Changes in the fair value of fixed-rate borrowings have no impact on the amount of interest incurred, cash flows or our financial position.

## Item 4 – CONTROLS AND PROCEDURES

### Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and its Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this report. ### Changes in Internal Controls

There have been no changes in the Company's internal control over financial reporting during the latest fiscal quarter covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## Part II OTHER INFORMATION

### Item 1 – LEGAL PROCEEDINGS

We are involved in a number of legal proceedings incidental to our business, none of which is presently expected to have a material effect on our financial position, results of operations or cash flows, or the financial results of our business.

As of the date hereof, we are party to certain putative class actions brought by the same plaintiff's counsel and largely repeating the same allegations regarding various state consumer protection laws focused on rollover protection structures' certifications for various Polaris off-road vehicles sold in California. The first case brought **in federal court in California** related to this matter—*Guzman/Albright*—was first reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2020. The district court granted summary judgment against both plaintiffs' claims, which the plaintiffs appealed. The Ninth Circuit issued two rulings in September 2022 that reversed the district court's summary judgment rulings and remanded the case to the district court with instructions to dismiss one plaintiff's claims without prejudice. The plaintiff whose claims were dismissed without prejudice refiled **a** **the** putative class action in California State Court under the name *Albright*. In June 2023, the *Albright* court granted the parties' stipulation to stay that case pending a decision on class certification **in federal court** in the *Guzman* case. On September 27, 2023, the district court in *Guzman* entered an order granting in part and denying in

part plaintiff's motion for class certification. The district court certified a California class for plaintiff's claim seeking money damages under the California Consumers Legal Remedies Act but denied class certification on plaintiff's claim seeking injunctive relief under Fed. R. Civ. P. 23(b)(2). On October 11, 2023, Polaris filed a petition to appeal the portion of the district court's order granting class certification. On December 14, 2023, the Ninth Circuit denied Polaris's petition. On **December 20, 2023** **June 27, 2024**, the **state** court in *Albright* entered an order setting a hearing for **June 27, 2024** **December 20, 2024** to review the stay of proceedings in that case. **On January 30, 2024, the** **The Guzman** court entered an amended scheduling order in that case setting dates is set for further expert discovery, the filing of dispositive motions and other pre-trial motions, and a trial date of December 3, 2024 beginning on February 25, 2025. On February 27, 2024, the *Guzman* plaintiff filed a motion for approval of class notice. On March 12, 2024, the *Guzman* court entered an order approving a joint stipulation filed by the parties regarding the plaintiff's motion for approval of class notice. The second Plaintiff's counsel's related case—*Hellman/Berlanga*—was first reported in the Company's quarterly report for the period ended June 30, 2021. Plaintiffs' counsel, in both *Since then*, the *Albright Hellman* and *Hellman/Berlanga* cases, filed similar putative class actions on behalf of certain plaintiffs dismissed from the *Hellman/Berlanga* case in Texas (*Lollar*), Nevada (*Mitchell*), and Oregon (*Artoff*), though the *Lollar* and *Mitchell* matters have since plaintiff has been dismissed the parties reached a final settlement agreement of the plaintiff's individual claims and, in *Artoff*, and another plaintiff from the *Hellman/Berlanga* matter, Michael Hellman, has been dismissed. In May 2023, the remaining plaintiff in the *Berlanga* case filed a motion for class certification. We have filed certification, which we opposed. On July 16, 2024, the federal district court entered an opposition to the order granting in part and denying in part plaintiff's motion for class certification and have filed a motion to exclude the opinions of certain of plaintiff's expert witnesses. On August 28, 2023, the United States District Court for the Eastern District of California transferred the *Berlanga* case to the United States District Court for the Central District of California. On September 13, 2023, the certification. The district court in the *Guzman* case consented to the transfer of the *Berlanga* case. That district court has not yet ruled on the *Berlanga* certified a California class for plaintiff's motion for claim seeking money damages but denied class certification or Polaris's motion to exclude the opinions of on plaintiff's expert witnesses in that case. On February 16, 2024, the plaintiff in the *Guzman* case discussed above filed a motion to consolidate the *Guzman* and *Berlanga* cases. That motion has been briefed by the parties and is pending a decision by the *Guzman* court. claim seeking injunctive relief.

With respect to each of the aforementioned putative class action lawsuits, we are unable to provide any reasonable evaluation of the likelihood that a loss will be incurred or any reasonable estimate of the range of possible loss.

As previously reported in the Company's quarterly report on Form 10-Q for the period ended **September 30, 2021** **March 31, 2024**, the district court parties in *In re Polaris* dismissed half of the plaintiffs and their claims related to alleged fire hazards in certain Polaris products. Plaintiffs' counsel voluntarily dismissed the remaining plaintiffs to appeal. The Eighth Circuit affirmed dismissal of the claims brought by plaintiffs who had appealed. On April 28, 2022, the *In re Polaris* plaintiffs' counsel filed a new, substantially similar putative class action in California State Court, seeking damages for alleged economic loss: *James DeBiasio v. Polaris Industries Inc.* (County of Los Angeles, Ca.). We removed the matter to federal court (C.D. Cal) in June 2022 and moved to dismiss the plaintiff's claims; plaintiff filed a motion to remand the case. The district court denied plaintiff's motion to remand and granted our motion to dismiss, allowing plaintiff to file Cal.) reached an amended complaint. We moved to dismiss plaintiff's amended complaint, which the Court denied in March 2023. On February 5, 2024, the *DeBiasio* court entered an amended scheduling order setting dates for fact and expert discovery, and the filing of class certification, dispositive, and other motions. The court did not set a trial date. On March 11, 2024, the *DeBiasio* court entered an order extending the dates in its amended scheduling order by four weeks. The parties recently agreed agreement to confidentially resolve plaintiff's claims on an individual basis. That settlement is now final and on April 26, 2024, the parties filed a joint stipulation to dismiss the case with prejudice. The settlement will be finalized and the case will be dismissed in the second quarter of 2024. The settlement will was not be material to the Company's consolidated results of operations.

#### Exhibit 4.1

### DESCRIPTION OF THE REGISTRANT'S SECURITIES REGISTERED PURSUANT TO SECTION 12 OF THE SECURITIES EXCHANGE ACT OF 1934 POLARIS INC. DEFERRED STOCK UNIT AWARD AGREEMENT

THIS DEFERRED STOCK UNIT AWARD AGREEMENT ("Agreement"), dated April 25, 2024, is between Polaris Inc., a Delaware corporation (the "Company"), and \_\_\_\_\_, a director of the Company (the "Director").

The Company maintains the Polaris Inc. 2024 Omnibus Incentive Plan (the "Plan"), which is incorporated into and forms a part of this Agreement. The Board of Directors has determined to grant the Award set forth in this Agreement to the Director pursuant to Article 5 of the Plan. Capitalized terms used in this Agreement shall, unless defined elsewhere in this Agreement, have the respective meanings given to such terms in the Plan.

The following description sets forth certain material terms and provisions 1. Deferred Stock Unit Award. In consideration of the securities Director's services to the Company and for other good and valuable consideration, the Company shall, effective on the date set forth set forth above, grant to the Director a number of Polaris Inc. shares of deferred stock units (the "Company" "Units") that are registered under Section 12 equal to the value of [\$150,000] divided by the closing price of the Securities Exchange Act of 1934, as amended, and relevant provisions of the General Corporation Law of the State of Delaware (the "DGCL"). This description does not purport to be complete and is subject to and qualified in its entirety by reference to the applicable provisions of the DGCL, the Company's Certificate of Incorporation (the "Certificate of Incorporation") and the Company's Bylaws (the "Bylaws" and, together with the Certificate of Incorporation, the "Charter Documents"). Each of the Charter Documents is incorporated herein by reference and attached as an exhibit to the Company's most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC"). For additional information, please read the Charter Documents and the applicable provisions of the DGCL.

#### Authorized Capital Stock

The Company is authorized to issue an aggregate of 180,000,000 shares of capital stock consisting of up to 160,000,000 shares of common stock, par value \$0.01 \$0.01 per share (the "Common Stock" "Common Stock"), and 20,000,000 shares of preferred stock, par value \$0.01 per share (the "Preferred Stock").

#### Common Stock

#### Dividend Rights

Subject to the rights of the holders of Preferred Stock and any other class or series having a preference as to dividends over the Common Stock then outstanding, the holders of the Common Stock are entitled to receive ratably, to the extent permitted by law, such dividends as may be declared from time to time by the Company's Board of Directors (the "Board") upon the terms and conditions provided by law and the Certificate of Incorporation.

#### Voting Rights

The holders of shares of Common Stock are entitled to one vote for each share held of record on all matters submitted to a vote of stockholders, including the election of directors. The Certificate of Incorporation does not permit cumulative voting in the election of directors. Subject to the rights, if any, of the holders of one or more classes or series of Preferred Stock issued by the Company, each director of the Company shall be elected at a meeting of stockholders by the vote of the majority of votes cast with respect to that director, provided that directors of the Company shall be elected by a plurality of the votes present and entitled to vote on the election of directors at any such meeting for which the number of nominees exceeds the number of directors to be elected. Voting rights with respect to certain significant corporate transactions may require more than a majority vote in certain circumstances as described below under “Potential Anti-Takeover Effects.” Holders of Common Stock may act by unanimous

---

written consent in lieu of meeting with respect to any action required or permitted to be taken at a meeting of the stockholders.

#### **Classified Board**

Members of the Board are divided into three classes and serve staggered three-year terms. This means that approximately one-third of the directors are elected at each annual meeting of stockholders and that it would take two years to replace a majority of the directors unless they are removed. Under the Certificate of Incorporation, directors can be removed from office only with cause during their terms and only if holders of at least 75% of the outstanding voting stock, voting together as one class, approve the removal. At least 75% of the outstanding voting stock, voting together as one class, must approve any proposal to amend or repeal, or adopt any provisions inconsistent with, these provisions of the Certificate of Incorporation.

#### **Liquidation Rights**

Upon the voluntary or involuntary liquidation, dissolution, distribution of assets or winding-up of the Company, the holders of the Common Stock are entitled to share ratably in all assets remaining after payment of liabilities and the liquidation preferences of any Preferred Stock.

#### **Other Rights**

The Common Stock has no sinking fund or redemption provisions or preemptive, conversion, or exchange rights. The absence of preemptive rights could result in a dilution of the interest of investors should additional capital stock be issued. The Common Stock is not liable to further call or assessment by the Company or subject to any restriction on alienability, except as required by law.

#### **Listing**

The Common Stock is currently traded on the New York Stock Exchange under the symbol “PII.”

#### **Preferred Stock**

The rights of holders of our Common Stock may be materially limited or qualified by the rights of holders of our Preferred Stock that may be issued in the future.

The Board is authorized at any time and from time to time, subject to any limitations prescribed by law, to provide for the issuance of Preferred Stock in one or more classes and/or series, to establish the number of shares to be included in each such series, and to fix by resolution the designation, powers, preferences and rights of the shares of such series and any qualifications, limitations or restrictions thereof. The number of authorized shares of Preferred Stock may be increased or decreased (but not below the number of shares thereof then outstanding) by the affirmative vote of the holders of a majority of the Common Stock, without a vote of the holders of the Preferred Stock, or of any series thereof, unless a vote of any such

- 2 -

holders is required pursuant to the certificate or certificates establishing the series of Preferred Stock.

#### **Potential Anti-Takeover Effects**

The Charter Documents and the DGCL contain certain provisions that may delay, defer, discourage, or prevent a change in control of the Company. These provisions include:

#### **Special Meetings of Stockholders; Stockholder Action by Unanimous Written Consent; and Advance Notice of Stockholder Business Proposals and Nominations**

Special meetings of the Company's stockholders may be called by the Company's chief executive officer, chief financial officer, the Board or two or more directors, the chairman of the Board, or stockholders holding 10% or more of the voting power of all shares entitled to vote, except that a special meeting demanded by stockholders for the purpose of considering any action to directly or indirectly facilitate or effect a business combination, including any action to change or otherwise affect the composition of the Board for that purpose, must be called by 25% or more of the voting power of all shares entitled to vote. Action also may be taken by stockholders without a meeting only by unanimous written consent. The Bylaws provide an advance written notice procedure with respect to stockholder proposals of business and stockholder nominations of candidates for election as directors. Stockholders at an annual meeting are able to consider only the proposals and nominations specified in the notice of meeting or otherwise brought before the meeting by or at the direction of the Board or by a stockholder that has delivered timely written notice in proper form to the Company's Secretary of the business to be brought before the meeting.

#### **Business Combination Provision**

Section 203 of the DGCL generally prohibits the Company or any of its subsidiaries from entering into any merger, stock exchange, sale of material assets or similar transaction with a 15% stockholder within three years following the date the person became a 15% stockholder, unless (a) the Board approved either the transaction or the person's acquisition of shares prior to the person becoming a 15% stockholder, (b) upon consummating the transaction that resulted in the person becoming a 15% stockholder, the interested stockholder owned at least 85% of the voting stock of the Company outstanding at the time the transaction commenced (excluding shares owned by persons who are both officers and directors of the Company and shares held by certain employee stock ownership plans), or (c) on or after the date the person becomes a 15% stockholder, the business combination is approved by the Board and at an annual or special meeting of stockholders by the affirmative vote of at least 66-2/3% of the Company's outstanding voting stock that is not owned by the 15% stockholder.

A corporation can elect to have Section 203 of the DGCL not apply to it by expressly providing so in its certificate of incorporation or bylaws; the Company has not made such an election.

- 3 -

#### **Authority of the Board**

The Board has the power to issue any or all of the shares of the Company's capital stock, including the authority to establish one or more series of Preferred Stock, setting forth the designation of each such series and fixing the relative rights and preferences for each such series, without seeking stockholder approval in most instances. In addition, under the Bylaws, the Board has the right to fill vacancies of the Board (including a vacancy created by an increase in the size of the Board).

Attachment: Option Terms and Conditions

Polaris Inc.  
 2007 Omnibus Incentive Plan  
 (As Amended and Restated April 30, 2020)  
 Nonqualified Stock Option Agreement

Option Terms and Conditions

1. **Nonqualified Stock Option.** This Option is not intended to be an "incentive stock option" within the meaning of Section 422 of the Code and will be interpreted accordingly.

## 2. **Vesting and Exercisability of Option.**

- (a) **Scheduled Vesting.** This Option will vest and become exercisable as to the number of Shares of Common Stock and on the dates specified in the Vesting and Exercise Schedule on the cover page to this Agreement, so long as you have continuously provided service to the Company or any of its Affiliates in the capacity of an Employee, Nonemployee Director or Third-Party Service Provider since the Grant Date. For purposes of this Agreement, use of the terms "employment" and "employed" refers to providing service in any of these capacities to the Company and its Affiliates. The Vesting and Exercise Schedule is cumulative, meaning that to the extent the Option has not already been exercised and has not expired or been terminated or cancelled, you or the person otherwise entitled to exercise the Option as provided in this Agreement may at any time purchase all or any portion of the Shares subject to the vested portion of the Option.
- (b) **Accelerated Vesting.** Vesting and exercisability of this Option may be accelerated or extended during the term of the Option under the circumstances described in Section 9 of this Agreement and Article 11 of the Plan, and at the discretion of the Committee in accordance with Section 3.2 of the Plan.
- (c) **Change of Control.** If a Change of Control occurs after the Grant Date but before the Expiration Date and while you continue to be employed, then the following shall apply:
- i. If this Award is continued, assumed or replaced in connection with the Change of Control but you experience an involuntary termination of employment for reasons other than Cause, or you terminate your employment for Good Reason (as defined below), and in either case such termination occurs within one year after the Change of Control, then this Option (or any replacement therefor) shall fully vest as of the termination date, and shall remain exercisable for one year following such termination of employment, but not after the scheduled Expiration Date.
  - ii. If this Award is not continued, assumed or replaced in connection with a Change of Control, then this Option shall fully vest and be exercisable as provided in Section 11.1(b) of the Plan.

For purposes of this Section 2(c), "Good Reason" means, without your express written consent, (w) any material reduction in the scope of your authority, duties or responsibilities; (x) any material reduction in your base compensation; (y) any material change in the geographic location of your principal place of employment; or (z) any action or inaction that constitutes a material breach by the Company of any agreement under which you provide services to the Company. Good Reason shall not, however, exist unless you have first provided written notice to the Company of the initial occurrence of one or more of the events under clauses (w) through (z) above within ninety (90) days of

---

the event's occurrence, and such event is not fully remedied by the Company within thirty (30) days after the Company's receipt of written notice from you.

## 3. **Expiration.** This Option will expire and will no longer be exercisable on the earliest of:

- (a) The Expiration Date specified on the cover page of this Agreement;
- (b) Termination of your employment with the Company and its Affiliates for Cause;
- (c) The expiration of any applicable period specified in Section 9 of this Agreement or specified pursuant to Article 11 of the Plan during which this Option may be exercised after termination of your employment with the Company and its Affiliates; or
- (d) The date (if any) fixed for termination or cancellation of this Option pursuant to Article 11 of the Plan.

## 4. **Service Requirement.** Except as otherwise provided in Section 9 of this Agreement and Sections 11.1 and 11.2 of the Plan, this Option may be exercised only while you continue to be employed by the Company or any Affiliate, and only if you have continuously been so employed since the Grant Date.

## 5. **Exercise of Option.** Subject to Sections 6 and 7 of this Agreement, the vested and exercisable portion of this Option may be exercised in whole or in part by delivering electronic notice of exercise to the Company's third-party stock plan administrator (as the Company's agent), which electronic notice must be in a form approved by the Company stating the number of Shares to be purchased, the method of payment of the aggregate Option Price, and directions for the delivery of the Shares to be acquired, and must be signed or otherwise authenticated by the person exercising this Option. This Option may also be exercised by such other means as the Committee may approve from time to time, including by providing notice of exercise to the third-party administrator by telephone or by using the third-party administrator's Internet web site. If you are not the person exercising this Option, the person exercising the Option must also submit appropriate proof of his or her right to exercise this Option. For purposes of this Section 5, "third-party stock option administrator" means E\*Trade Financial Corporate Services or, as applicable, any successor designated by the Committee.

6. **Payment of Option Price.** When you submit your notice of exercise, you must include payment of the aggregate Option Price of the Shares being purchased through one or a combination of the following methods:
- (a) Cash or its equivalent (including a check payable to the order of the Company);
  - (b) To the extent then not prohibited by the Committee, a broker-assisted cashless exercise in which you irrevocably instruct a broker to deliver proceeds of a sale of all or a portion of the Shares for which the Option is being exercised (or proceeds of a loan secured by such Shares) to the Company in payment of the purchase price of such Shares;
  - (c) To the extent then not prohibited by the Committee, by delivering (either actual delivery or using attestation procedures approved by the Company) to the Company or its designated agent unencumbered Shares having an aggregate fair market value on the date of exercise equal to the purchase price of the Shares for which the Option is being exercised; or
  - (d) To the extent then not prohibited by the Committee, by directing the Company to withhold a number of Shares otherwise issuable to you upon such exercise having an aggregate fair market value on the date of exercise equal to the purchase price of the Shares for which the Option is being exercised.
- 
7. **Withholding Taxes.** The Company will make such provisions for the withholding or payment of taxes as it deems necessary under applicable law. Unless expressly agreed otherwise between you and the Company, the Company will satisfy any withholding or payment of taxes by delivering a number of Shares with respect to the Options that is net of taxes and applicable withholdings, unless the Company (the Committee, if you are subject to reporting under Section 16 of the Exchange Act) determines otherwise in its sole discretion, in which case the Company will have the right to deduct from payments of any kind otherwise due to you or alternatively to require you to remit to the Company an amount in cash, by wire transfer of immediately available funds, certified check or such other form as may be acceptable to the Company, sufficient to satisfy at the time when due any federal, state, or local taxes or other withholdings of any kind required by law to be withheld with respect to the Options.
8. **Delivery of Shares.** As soon as practicable after the Company receives the notice of exercise and payment of the aggregate Option Price as provided above, and determines that all other conditions to exercise, including satisfaction of withholding tax obligations and compliance with applicable laws as provided in Section 19.6 (*Requirements of Law*) of the Plan, have been satisfied, it will arrange for the issuance or transfer and delivery of the Shares being purchased. Delivery of the Shares will be effected by the issuance of a stock certificate, by an appropriate entry in the stock register maintained by the Company's transfer agent with a notice of issuance provided, or by the electronic delivery of the Shares to a designated brokerage account. The Company will pay any original issue or transfer taxes with respect to the issuance and delivery of the Shares to you, and all fees and expenses incurred by it in connection therewith.
9. **Termination of Employment.** Subject to Article 11 (*Change in Control*) of the Plan, if your employment by the Company and its Affiliates terminates before the scheduled Expiration Date and before the Option has been exercised in full, then the following will apply:
- (a) If your employment terminates for any reason other than disability (within the meaning of Section 22(e)(3) of the Code) ("Disability"), death or Retirement as defined below, then any unvested portion of the Option will terminate on the date your employment terminates and be of no further force and effect.
  - (b) Subject to Section 3(b), if your employment terminates for any reason other than Disability, death, or Retirement, then any vested portion of the Option that has not yet been exercised on the date of termination will continue to be exercisable for a period of ninety (90) days after such date, but not after the scheduled Expiration Date.
  - (c) If your employment terminates by reason of your death or Disability, then (i) any unvested portion of the Option will vest immediately and become exercisable; and (ii) the portion of the Option that has not yet been exercised will remain exercisable for a period of one (1) year following the date of termination of employment, but not after the scheduled Expiration Date.
  - (d) If your employment terminates by reason of your Retirement, then (i) any unvested portion of the Option shall vest and become exercisable immediately upon such Retirement, and (ii) the portion of the Option that has not yet been exercised shall remain exercisable until the scheduled Expiration Date. For these purposes, "Retirement" means any termination of your employment with the Company and its Affiliates, other than termination for Cause, that occurs (A) at least twelve (12) months after the Grant Date, and (B) at or after you reach the age of fifty-five (55) and have completed at least ten (10) years of continuous service with the Company or its Affiliates, provided that in the event of your Retirement, you must give the Company written notice that you are considering Retirement at least one year prior to the date of termination to be entitled to such vesting of this Award.
10. **Transfer of Option.** During your lifetime, only you (or your guardian or legal representative in the event of legal incapacity) may exercise this Option. You may not assign or transfer this Option

other than a transfer upon your death in accordance with your will, by the laws of descent and distribution or pursuant to a beneficiary designation submitted in accordance with Article 13 of the Plan. Following any such transfer, this Option will continue to be subject to the same terms and conditions that were applicable to this Option immediately prior to its transfer and may be exercised by such permitted transferee as and to the extent that this Option has become exercisable and has not terminated in accordance with the provisions of the Plan and this Agreement. Whenever you are referred to in any provision of this Agreement under circumstances where the provision should logically be construed to apply to any permitted transferee of the Option, such references will be deemed to include such person or persons.

11. **Compensation Recovery.** Notwithstanding any other provision of this Agreement to the contrary, you acknowledge and agree that this Agreement and the award described herein (and any settlement thereof) are subject to (a) the terms and conditions of the Company's clawback policies as may be in effect from time to time, including specifically to implement Section 10D of the Exchange Act and any applicable rules or regulations promulgated thereunder (including applicable rules and regulations of any national securities exchange on which the Shares may be traded) (the "NYSE Compensation Clawback Policy"), and that, to the extent the NYSE Compensation Clawback Policy, by its terms, is applicable to your Option, relevant sections of this Agreement shall be (if necessary) deemed superseded by and subject to the terms and conditions of the NYSE Compensation Clawback Policy from and after the effective date thereof; and (b) forfeiture to or reimbursement of the Company under the circumstances and to the extent provided in Section 304 of the Sarbanes-Oxley Act of 2002 if you are one of the individuals expressly subject to such Section 304. Further, by accepting the Option covered by this Agreement, you (i) consent to be bound by the terms of this Section 11 and the NYSE Compensation Clawback Policy, as applicable, (ii) agree and acknowledge that you are obligated to and will cooperate with, and will provide any and all assistance necessary to, the Company in any effort to recover or recoup any compensation or other amounts subject to clawback or recovery pursuant to this Section 11, the NYSE Compensation Clawback Policy and/or applicable laws, rules, regulations, stock exchange listing standards or other Company policy, and (iii) agree that the Company may enforce its rights under this Section 11 and the NYSE Compensation Clawback Policy through any and all reasonable means permitted under applicable law as it deems necessary or desirable under the NYSE Compensation Clawback Policy.
12. **Governing Plan Document.** This Agreement and Option Award are subject to all the provisions of the Plan, and to all interpretations, rules and regulations which may, from time to time, be adopted and promulgated by the Committee pursuant to the Plan. If there is any conflict between the provisions of this Agreement and the Plan, the provisions of the Plan will govern.
13. **Binding Effect.** This Agreement will be binding in all respects on your heirs, representatives, successors and assigns, and on the successors and assigns of the Company.
14. **Notices.** Unless and until some other address is so designated, all notices or communications by you to the Company will be mailed or delivered to the Company at:

Attn: General Counsel

15. **Entire Agreement; Amendment; Severability.** This Agreement and the Plan embody the entire understanding of the parties with respect to this Option Award and supersede all other oral or written agreements or understandings between you and the Company regarding the subject

---

matter hereof. Except as otherwise provided in Section 15.4 (*Amendment to Conform to Law*) of the Plan, no change, alteration or modification hereof may adversely affect in any material way your rights under this Agreement without your prior written consent. If any provision of this Agreement or the application of any provision hereof is declared to be illegal, invalid, or otherwise unenforceable by a court of competent jurisdiction, the remainder of this Agreement will not be affected thereby.

16. **Choice of Law.** This Agreement will be governed by, and interpreted and enforced in accordance with, the laws of the state of Minnesota (without regard to its conflicts or choice of law principles).
17. **Certain References.** References to you in any provision of this Agreement under circumstances where the provision should logically be construed to apply to your executors or administrators, or to the person or persons to whom all or any portion of the Option may be transferred by will or the laws of descent and distribution, will be deemed to include such person or persons.

Exhibit A

**Polaris Inc.**  
**2007 Omnibus Incentive Plan**  
**(As Amended and Restated April 30, 2020)**  
**Performance Restricted Stock Units Award Agreement**

**Award Terms and Conditions**

- Award of Performance Restricted Stock Units.** The Company hereby confirms the grant to you, as of the Grant Date and subject to the terms and conditions of this Agreement and the Plan, of an award of Performance Restricted Stock Units in an amount initially equal to the Target Number of Performance Restricted Stock Units granted as specified on the cover page of this Agreement ("Target Number of Units"). The Target Number of Units granted is determined by the fair value of the award using the closing stock price on the date of grant for Units allocated for Revenue Growth, EBITDA Margin and EBITDA Dollars, whereas a Monte Carlo valuation is used to determine the grant date fair value for Units allocated for Relative TSR. The number of Units that may actually be earned and become eligible to vest pursuant to this Award can be from 0% to 200% of the Target Number of Units. Each Unit that is earned as a result of the performance goals specified in Exhibit A to this Agreement having been satisfied and which thereafter vests represents the right to receive one Share of the Company's common stock. The Units granted to you will be credited to an account in

your name maintained by the Company. This account will be unfunded and maintained for book-keeping purposes only, with the Units simply representing an unfunded and unsecured obligation of the Company.

2. **Restrictions Applicable to Units.** Neither this Award nor the Units subject to this Award may be sold, assigned, transferred, exchanged or encumbered other than by will or the laws of descent and distribution. Any attempted transfer in violation of this Section 2 will be void and ineffective. The Units and your right to receive Shares in settlement of the Units under this Agreement are subject to forfeiture except to extent the Units have vested as provided in Section 4.
3. **No Shareholder Rights.** The Units subject to this Award do not entitle you to any rights of a shareholder of the Company, including with respect to dividends or dividend equivalents. You will not have any of the rights of a shareholder of the Company in connection with the grant of Units subject to this Agreement unless and until Shares are issued to you upon settlement of the Units as provided in Section 5.
4. **Vesting and Forfeiture of Units.** The Units will vest at the earliest of the following times and to the degree specified. For purposes of this Agreement, use **payment and settlement. Delivery** of the terms "employment" and "employed" refers to providing services to the Company and its Affiliates in the capacity of an Employee, Nonemployee Director or Third-Party Service Provider.
- (a) **Scheduled Vesting.** The number of Units that have been earned during the Performance Period will be eligible to vest on the Scheduled Vesting Date, so long as your employment has been continuous since the Grant Date through the last day of the Performance Period. The actual number of earned Units that will vest on the Scheduled Vesting Date will be determined by the Committee as provided in Exhibit A. For these purposes, the "Scheduled Vesting Date" means the date the Committee certifies (i) the degree to which the applicable performance goals for the Performance Period have been satisfied and (ii) the number of Units that have been earned and will vest as determined in accordance with Exhibit A, which certification shall occur after the end of the Performance Period but no later than March 15 of the calendar year immediately following the calendar year during which the Performance Period ended.

- (b) **Change of Control.** If a Change of Control occurs after the Grant Date but before the Payment Date (as defined in Section 5) and while you continue to be employed, then the following will apply:
- (1) If the Change of Control occurs on or after the last day of the Performance Period, the number of Units determined to have been earned as of the end of the Performance Period in accordance with Exhibit A will vest as of the Scheduled Vesting Date.
- (2) If the Change of Control occurs before the last day of the Performance Period, and if this Award is not continued, assumed or replaced in connection with the Change of Control, then a pro rata portion of the Target Number of Units will vest as of the date of and immediately prior to the Change of Control. The pro rata portion will be determined in the same manner as provided in Section 4(c) (*Death, Disability, or Retirement*).
- (3) If the Change of Control occurs before the last day of the Performance Period, and if this Award is continued, assumed or replaced in connection with the Change of Control but you experience an involuntary termination of employment for reasons other than Cause, or you terminate your employment for Good Reason (as defined below), and in either case such termination occurs within one year after the Change of Control, then a pro rata portion of the Target Number of Units shall vest as of your employment termination date. The pro rata portion shall be determined in the same manner as provided in Section 4(c) (*Death, Disability, or Retirement*).
- (4) For purposes of this Section 4(b), "Good Reason" means, without your express written consent, (A) any material reduction in the scope of your authority, duties or responsibilities; (B) any material reduction in your base compensation; (C) any material change in the geographic location of your principal place of employment; or (D) any action or inaction that constitutes a material breach by the Company of any agreement under which you provide services to the Company. Good Reason shall not, however, exist unless you have first provided written notice to the Company of the initial occurrence of one or more of the events under clauses (A) through (D) above within ninety (90) days of the event's occurrence, and such event is not fully remedied by the Company within thirty (30) days after the Company's receipt of written notice from you.
- (c) **Death, Disability, or Retirement.** If your employment terminates by reason of your death, disability (within the meaning of Section 22(e)(3) of the Code), or Retirement prior to the last day of the Performance Period, then you will be entitled to have vest on the Scheduled Vesting Date a pro rata portion of the Units that would otherwise have been determined to vest on the Scheduled Vesting Date in accordance with Exhibit A if you had remained continuously employed until the last day of the Performance Period. The pro rata portion shall be determined by multiplying the number of Units that would otherwise have been determined to vest by a fraction whose numerator is the number of full calendar months during the Performance Period prior to your employment termination date and whose denominator is thirty-six (36). For these purposes, "Retirement" means any termination of your employment with the Company and its Affiliates, other than termination for Cause.

that occurs (i) at least twelve (12) months after the Grant Date, and (ii) at or after you reach the age of fifty-five (55) and have completed at least ten (10) years of continuous employment with the Company or its Affiliates, provided that in the event of your Retirement, you must give the Company written notice that you are

considering Retirement at least one year prior to the date of termination to be entitled to vesting of this Award.

- (d) **Severance Agreement.** If your employment terminates prior to the last day of the Performance Period at a time when you are party to a severance agreement with the Company, and if such termination of employment constitutes a "Non-Change of Control Termination" as defined in the severance agreement, then you will be entitled to have vest on the Scheduled Vesting Date a pro rata portion of the Units that would otherwise have been determined to vest on the Scheduled Vesting Date in accordance with Exhibit A if you had remained continuously employed through the last day of the Performance Period. The pro rata portion shall be determined in the same manner as provided in Section 4(c) (*Death, Disability, or Retirement*).
- (e) **Forfeiture of Unvested Units.** Except as expressly provided in this Section 4, any Units that do not vest on the applicable vesting date as provided herein will immediately be forfeited. If your employment terminates before the last day of the Performance Period under circumstances other than as set forth in Section 4, all unvested Units will immediately be forfeited.

**5. In the event that the Units vest pursuant to Section 4(b)(2) or Section 4(b)(3), the Company will, as soon as practicable after, but no later than 30 days following (a) the date of and immediately prior to the Change of Control, in the case of Section 4(b)(2), or (b) the date of the termination of employment, in the case of Section 4(b)(3), cause to be issued or transferred and delivered to you, or to your designated beneficiary or estate in the event of your death, one Share in payment and settlement of each vested Unit.
