Note 1 Description of Business and Basis of Presentation

Zebra Technologies Corporation and its subsidiaries ("Zebra" or the "Company") is a global leader providing innovative Enterprise Asset Intelligence ("EAI") solutions in the **Automatic Identification** **automatic identification** and **Data Capture ("AIDC")** **data capture solutions** industry. We design, manufacture, and sell a broad range of products and solutions, **as well as various workflow optimization solutions**, **including** **cloud-based software subscriptions**, **that capture and robotic automation solutions**, **move data**. We also provide a full range of services, including maintenance, technical support, repair, managed and professional services. End-users of our products, solutions and services include those in retail and e-commerce, manufacturing, transportation and logistics, healthcare, public sector, and other industries. We provide our products, solutions and services globally through a direct sales force and an extensive network of channel partners.

Management prepared these unaudited interim consolidated financial statements according to the rules and regulations of the Securities and Exchange Commission for interim financial information and notes. As permitted under Article 10 of Regulation S-X and the instructions of Form 10-Q, these consolidated financial statements do not include all the information and notes required by United States Generally Accepted Accounting Principles ("GAAP") for complete financial statements, although management believes that the disclosures made are adequate to make the information not misleading. These interim financial statements should be read in conjunction with the audited consolidated financial statements and notes included in the Annual Report on Form 10-K for the fiscal year ended **December 31, 2022** **December 31, 2023**.

In the opinion of the Company, these interim financial statements include all adjustments (of a normal, recurring nature) necessary to fairly present its Consolidated Balance Sheet as of **September 30, 2023** **March 30, 2024**, the Consolidated Statements of Operations, Comprehensive Income, **(Loss)** and Stockholders' Equity, for the three and **nine months** ended **September 30, 2023** and **October 1, 2022**, and the Consolidated Statement of Cash Flows for the **nine** **three** months ended **September 30, 2023** **March 30, 2024** and **October 1, 2022** **April 1, 2023**. These results, however, are not necessarily indicative of the results expected for the full fiscal year ending **December 31, 2023** **December 31, 2024**.

In the second quarter, our advanced location technology solutions business, which is primarily comprised of radio frequency identification devices ("RFID") and real-time location solution offerings ("RTLS"), moved from our Enterprise Visibility & Mobility ("EVM") segment into our Asset Intelligence & Tracking ("AIT") segment contemporaneous with a change in our organizational structure and management of the business. We have reported our segment results reflecting this change, including historical periods, on a comparable basis. This change does not have an impact on the Consolidated Financial Statements.

Note 2 Significant Accounting Policies

For a discussion of our significant accounting policies, see Note 2, *Significant Accounting Policies* within Part II, Item 8. "Financial Statements and Supplementary Data" in the Annual Report on Form 10-K for the year ended **December 31, 2022** **December 31, 2023**. There have been no changes to our significant accounting policies since our Annual Report on Form 10-K for the year ended **December 31, 2022** **December 31, 2023**.

Note 3 Revenues

The Company recognizes revenue to depict the transfer of goods, solutions or services to a customer at an amount that reflects the consideration which it expects to receive for providing those goods, solutions or services.

Revenues for **tangible** products are generally recognized upon shipment, whereas revenues for services and solution offerings are generally recognized over time by using an output or time-based method, assuming all other criteria for revenue recognition have been met. Revenues for software are recognized either upon delivery or over time using a time-based method, depending **upon** **on** how control is transferred to the customer. In cases where a bundle of products, services, solutions and/or software are delivered to the customer, judgment is required to select the method of progress which best reflects the transfer of control.

Performance Obligations

The Company's remaining performance obligations relate to repair and support services, as well as software solutions. The aggregated transaction price allocated to remaining performance obligations for arrangements with an original term exceeding one year was \$1,094 million \$1,126 million and \$1,105 million \$1,127 million, inclusive of deferred revenue, as of September 30, 2023 March 30, 2024 and December 31, 2022 December 31, 2023, respectively. On average, remaining performance obligations as of September 30, 2023 March 30, 2024 and December 31, 2022 December 31, 2023 are expected to be recognized over a period of approximately two years.

Contract Balances

Progress on satisfying performance obligations under contracts with customers related to billed revenues is reflected on the Consolidated Balance Sheets in Accounts receivable, net. Progress on satisfying performance obligations under contracts with customers related to unbilled revenues ("contract assets") is reflected on the Consolidated Balance Sheets as Prepaid expenses and other current assets for revenues expected to be billed within the next twelve months, and Other long-term assets for revenues expected to be billed thereafter. The total contract asset balances were \$14 million \$17 million and \$16 million as of September 30, 2023 March 30, 2024 and December 31, 2022, respectively. December 31, 2023. These contract assets result from timing differences between billing and satisfying performance obligations, as well as the impact of from the allocation of the transaction price among performance obligations for contracts that include multiple performance obligations. Contract assets are evaluated for impairment and no impairment losses have been recognized during the three and nine months ended September 30, 2023 March 30, 2024 and October 1, 2022 April 1, 2023, respectively.

Deferred revenue on the Consolidated Balance Sheets consists of payments and billings in advance of our performance. The combined short-term and long-term deferred revenue balances were \$746 million \$760 million and \$758 million \$770 million as of September 30, 2023 March 30, 2024 and December 31, 2022 December 31, 2023, respectively. During the three and nine months ended September 30, 2023 March 30, 2024, the Company recognized \$100 million and \$349 million \$146 million in revenue, which was previously included in the beginning balance of deferred revenue as of

December 31, 2022. December 31, 2023. During the three and nine months ended October 1, 2022 April 1, 2023, the Company recognized \$92 million and \$329 million \$135 million in revenue, which was previously included in the beginning balance of deferred revenue as of December 31, 2021 December 31, 2022.

Note 6 Exit and Restructuring Costs

In the second quarter, the Company expanded the scope of Total charges associated with the 2022 Productivity Plan and also initiated a U.S. voluntary retirement plan, ("VRP") applicable which was completed in 2023, were \$120 million incurred to retirement-eligible U.S. employees. Employees who participate date, including \$10 million recorded during the three months ended March 30, 2024. The Company expects to incur an additional \$10 million in the VRP have agreed to retire in 2023 in exchange for cash severance and other benefits current year associated with its 2022 Productivity Plan. The total cost of these programs, which primarily relate to employee severance and other benefits, is expected to be at least \$105 million.

Total charges associated with these programs, plans are classified within Exit and restructuring on the Consolidated Statements of Operations, were \$94 million to date, including \$58 million and \$82 million recorded for the three and nine months ended September 30, 2023, respectively. The actions under both programs are expected to be substantially completed by the end of 2023. Operations. The Company's remaining payment obligations of \$54 \$12 million, primarily related to the VRP are reflected within Accrued liabilities on the Consolidated Balance Sheets. These obligations are expected to be settled by the first quarter of 2024.

The Company's liability associated with Exit and restructuring was:

Note 7 Fair Value Measurements

Financial assets and liabilities are measured using inputs from three levels of the fair value hierarchy in accordance with Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements*. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 established a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into the following three broad levels:

- Level 1: Quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs (e.g. U.S. Treasuries and money market funds).
- Level 2: Observable prices that are based on inputs not quoted in active markets but corroborated by market data.
- Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Company utilizes valuation techniques that maximize the use of observable **inputs to the extent possible**, **inputs**. In addition, the Company considers counterparty credit risk in the assessment of fair value.

The Company's financial assets and liabilities carried at fair value as of **September 30, 2023** **March 30, 2024**, are classified below (in millions):

(1) The fair value of the foreign exchange contracts is calculated as follows:

- Fair value of forward contracts associated with forecasted sales hedges is calculated using the period-end exchange rate adjusted for current forward points.
- Fair value of hedges against net assets denominated in foreign currencies is calculated at the period-end exchange rate adjusted for current forward points unless the hedge has been traded but not settled at **year end period-end** (Level 2). If this is the case, the fair value is calculated at the rate at which the hedge is being settled (Level 1).

(2) The fair value of forward interest rate swaps is based upon a valuation model that uses relevant observable market inputs at the quoted intervals, such as forward yield curves, and is adjusted for the Company's credit risk and the interest rate swap terms.

Note 8 Derivative Instruments

In the normal course of business, the Company is exposed to global market risks, including the effects of changes in foreign currency exchange rates and interest rates. The Company uses derivative instruments to manage its exposure to such risks and may elect to designate certain derivatives as hedging instruments under ASC Topic 815, *Derivatives and Hedging* ("ASC 815"). The Company formally documents all relationships between designated hedging instruments and hedged items as well as its risk management objectives and strategies for undertaking hedge transactions. The Company does not hold or issue derivatives for trading or speculative purposes.

In accordance with ASC 815, the Company recognizes derivative instruments as either assets or liabilities on the Consolidated Balance Sheets and measures them at fair value. The following table presents the fair value of its derivative instruments (in millions):

Credit and Market Risk Management

Financial instruments, including derivatives, expose the Company to counterparty credit risk of nonperformance and to market risk related to currency exchange rate and interest rate fluctuations. The Company manages its exposure to counterparty credit risk by establishing minimum credit standards, diversifying its counterparties, and monitoring its concentrations of credit. The Company's counterparties are commercial banks with expertise in derivative financial instruments. The Company evaluates the impact of market risk on the fair value and cash flows of its derivative and other financial instruments by considering reasonably possible changes in interest rates and currency exchange rates. The Company continually monitors the creditworthiness of the customers to which it grants credit terms in the normal course of business. The terms and conditions of the Company's credit policies are designed to mitigate concentrations of credit risk.

The Company's master netting and other similar arrangements with the respective counterparties allow for net settlement under certain conditions, which are designed to reduce credit risk by permitting net settlement with the same counterparty. We present the assets and liabilities of our derivative financial instruments, for which we have net settlement agreements in place, on a net basis on the Consolidated Balance Sheets. If the derivative financial instruments had been presented gross on the Consolidated Balance Sheets, the asset and liability positions would have been increased by \$1 million and \$4 million as of **September 30, 2023** both **March 30, 2024** and **December 31, 2022** **December 31, 2023**, respectively.

Foreign Currency Exchange Risk Management

The Company conducts business on a multinational basis in a variety of foreign currencies. Exposure to market risk for changes in foreign currency exchange rates arises primarily from Euro-denominated external revenues, cross-border financing activities between subsidiaries, and foreign currency denominated monetary assets and liabilities. The Company manages its objective of preserving the economic value of non-functional currency denominated cash flows by initially hedging transaction exposures with natural offsets and, once these opportunities have been exhausted, through foreign exchange forward and option contracts, as deemed appropriate.

The Company manages the exchange rate risk of anticipated Euro-denominated sales using forward contracts, which typically mature within twelve months of execution. The Company designates these derivative contracts as cash flow hedges. Unrealized gains and losses on these contracts are deferred in Accumulated other comprehensive income (loss) ("AOCI") on the Consolidated Balance Sheets until the contract is settled and the hedged sale is realized. The realized gain or loss is then recorded as an adjustment to Net sales on the Consolidated Statements of Operations. Realized amounts reclassified to Net sales were \$6 million \$1 million of losses gains and \$29 million \$3 million of gains losses for the three months ended **September 30, 2023** **March 30, 2024** and **October 1, 2022**, respectively. Realized amounts reclassified to Net sales were \$16 million of losses and \$72 million of gains for the nine months ended **September 30, 2023** and **October 1, 2022** **April 1, 2023**, respectively. As of **September 30, 2023** **March 30, 2024** and **December 31, 2022** **December 31, 2023**, the notional amounts of the Company's foreign exchange cash flow hedges were €597 million €551 million and €549 million €485 million, respectively. The Company has reviewed its cash flow hedges for effectiveness and determined that they are highly effective.

The Company uses forward contracts, which are not designated as hedging instruments, to manage its exposures related to net assets denominated in foreign currencies. These forward contracts typically mature within one month after execution. Monetary gains and losses on these forward contracts are recorded in income and are generally offset by the transaction gains and losses related to their net asset positions. The notional values and the net fair values of these outstanding contracts were as follows (in millions):

Interest Rate Risk Management

The Company's debt consists of borrowings under a term loan ("Term Loan A"), Revolving Credit Facility, and Receivables Financing Facilities, which bear interest at variable rates plus applicable margins. As a result, the Company is exposed to market risk associated with the variable interest rate payments on these borrowings. See Note 9, *Long-Term Debt* for further details related to these borrowings.

The Company manages its exposure to changes in interest rates by utilizing long-term forward interest rate swaps to hedge this exposure and to achieve a desired proportion of fixed versus variable-rate debt, based on current and projected market conditions. The Company has interest rate swap agreements with a total notional amount of \$800 million and \$400 million, through October 2027 and June 2030, respectively, that are intended to lock into a fixed SOFR interest rate base, which on a portion of its variable rate debt. These agreements are subject to monthly net cash settlements effective through October 2027.

In the second quarter, the Company entered into new interest rate swap agreements that contain a total notional amount of \$400 million to lock into a variable interest rate base designed to offset a portion of the Company's existing swap agreements. These agreements are subject to monthly cash settlements effective through October 2027. At the same time, the Company entered into additional new interest rate swap agreements that contain a total notional amount of \$400 million to lock into a fixed SOFR interest rate base, which are subject to monthly cash settlements effective through June 2030. As a result of these transactions, the Company maintained fixed interest rates on a total notional amount of \$800 million through October 2027 and a total notional amount of \$400 million through June 2030. There was no cash settlement, or significant impact on the Consolidated Statement of Operations, as a result of these transactions. settlements.

The estimated fair value of the Company's debt approximated **\$2.2 billion** **\$2.1 billion** and **\$2.0 billion** **\$2.2 billion** as of **September 30, 2023** **March 30, 2024** and **December 31, 2022** **December 31, 2023**, respectively. These fair value amounts, developed based on inputs classified as Level 2 within the fair value hierarchy, represent the estimated value at which the Company's lenders could trade its debt within the financial markets and do not represent the settlement value of these liabilities to the Company. The fair value of debt will continue to vary each period based on a number of factors, including fluctuations in market interest rates as well as changes to the Company's credit ratings.

Term Loan A

The principal on Term Loan A is due in quarterly installments, with the next quarterly installment due in **March 2024** the second quarter of 2025 and the majority due upon maturity in 2027. The Company may make prepayments as it did in the first quarter of 2023, in whole or in part, without premium or penalty, and would be required to prepay certain outstanding amounts in the event of certain circumstances or transactions. As of **September 30, 2023** **March 30, 2024**, the Term Loan A interest rate was **6.67%** **6.68%**. Interest payments are made monthly and are subject to variable rates plus an applicable margin.

Revolving Credit Facility

The Company has a Revolving Credit Facility that is available for working capital and other general business purposes, including letters of credit. As of **September 30, 2023** **March 30, 2024**, the Company had letters of credit totaling \$11 million, which reduced funds available for borrowings under the Revolving Credit Facility from \$1,500 million to \$1,489 million. As of **September 30, 2023** **March 30, 2024**, the Revolving Credit Facility had an average interest rate of **6.65%** **6.68%**. Upon borrowing, interest payments are made monthly and are subject to variable rates plus an applicable margin. The Revolving Credit Facility matures on May 25, 2027.

Receivables Financing Facilities

The Company has two Receivables Financing Facilities with financial institutions that have a combined total borrowing limit of up to \$280 million. As collateral, the Company pledges perfected first-priority security interests in its U.S. domestically originated accounts receivable. The Company has accounted for transactions under its facilities as secured borrowings. The Company's During the first quarter of 2024, the Company amended its first facility, which allows for borrowings of up to \$180 million and matures on March 19, 2024, to extend the maturity to March 19, 2027, but otherwise did not substantially change the terms of the facility. The Company's second facility allows for borrowings of up to \$100 million and matures on May 13, 2024, and is not expected to be renewed.

As of **September 30, 2023** **March 30, 2024**, the Company's Consolidated Balance Sheets included **\$530 million** **\$504 million** of gross receivables that were pledged under the facilities. As of **September 30, 2023** **March 30, 2024**, **\$119 million** **\$280 million** had been borrowed, and of which **\$261 million** was classified as current. Borrowings under the facilities

bear interest at a variable rate plus an applicable margin. As of **September 30, 2023** **March 30, 2024**, the facilities had an average interest rate of **6.80%** **6.56%**. Interest is paid monthly on these borrowings.

Each of the Company's borrowings described above include terms and conditions that limit the incurrence of additional borrowings and require that certain financial ratios be maintained at designated levels.

The Company uses interest rate swaps to manage the interest rate risk associated with its debt. See Note 8, *Derivative Instruments* for further information.

As of **September 30, 2023** **March 30, 2024**, the Company was in compliance with all debt covenants.

Note 10 Leases

During the **nine** **three** months ended **September 30, 2023** **March 30, 2024**, the Company recorded an additional **\$41** **\$10** million of right-of-use ("ROU") assets obtained in exchange for lease obligations primarily related to the commencement of a new office facility lease as well as contract modifications that **extend** **extended** existing lease terms.

Contingencies

The Company is subject to a variety of investigations, claims, suits, and other legal proceedings that arise from time to time in the ordinary course of business, including but not limited to, intellectual property, employment, tort, and breach of contract matters. The Company currently believes that the outcomes of such proceedings, individually and in the aggregate, will not have a material adverse impact on its business, cash flows, financial position, or results of operations. Any legal proceedings are subject to inherent uncertainties, and the Company's view of these matters and their potential effects may change in the future. The Company records a liability for contingencies when a loss is deemed to be probable and the loss can be reasonably estimated.

During the second quarter of 2022, the Company entered into a License and Settlement Agreement ("Settlement") to resolve certain patent-related litigation. The payment terms under the Settlement consist of 8 quarterly payments of \$45 million that began in the second quarter of 2022. The remaining 2 quarterly amounts will be paid by the first quarter of 2024 and are included within Accrued liabilities on the Consolidated Balance Sheets.

Note 12 Income Taxes

The Company's effective tax rate for the three and nine months ended September 30, 2023 March 30, 2024 and April 1, 2023 was 37.5% benefit 19.0% and 16.0% expense, respectively, compared to 23.4% and 13.2% for the three and nine months ended October 1, 2022 18.9%, respectively. For the three current and nine months ended September 30, 2023, prior period, the variance from the 21% federal statutory rate was primarily due to a discrete tax benefit from the VRP, U.S. generation of tax credits and the favorable impacts of foreign earnings subject to U.S. taxation. For the three months ended October 1, 2022, the variance from the 21% federal statutory rate was primarily attributable to unfavorable impacts from return to provision adjustments. For the nine months ended October 1, 2022, the variance from the 21% federal statutory rate was primarily attributable to a discrete tax benefit resulting from the Settlement and related costs recorded in the second quarter, lower tax rates on foreign earnings, and U.S. tax credits.

Note 13 (Loss) Earnings Per Share

Basic net (loss) earnings per share is calculated by dividing net (loss) income by the weighted average number of common shares outstanding for the period. Diluted (loss) earnings per share is computed by dividing net (loss) income by the weighted average number of diluted common shares outstanding. Diluted common shares outstanding is computed using the Treasury Stock method and, in periods of income, reflects the additional shares that would be outstanding if dilutive share-based compensation awards were converted into common shares during the period.

Note 14 Accumulated Other Comprehensive (Loss) Income (Loss)

Stockholders' equity includes certain items classified as AOCI, including:

- **Unrealized gain (loss) on anticipated sales hedging transactions** which relates to derivative instruments used to hedge the exposure related to currency exchange rates for forecasted Euro sales. These hedges are designated as cash flow hedges, and the Company defers income statement recognition of gains and losses until the hedged transaction occurs. See Note 8, *Derivative Instruments* for more details.
- **Foreign currency translation adjustments** relate which relates to the Company's non-U.S. subsidiary companies that have designated a functional currency other than the U.S. Dollar. The Company translates the subsidiary functional currency financial statements to U.S. Dollars using a combination of historical, period-end, and average foreign exchange rates. This combination of rates creates the foreign currency translation adjustment component of AOCI.

Note 15 Accounts Receivable Factoring

The Company transfers certain receivables to banks without recourse as part of its credit and cash management activities. Such transfers are accounted for as sales and the related receivables are removed from the Company's balance sheet. The Company does not maintain any beneficial interest in the receivables sold. The Company services the receivables on behalf of the banks, but otherwise maintains no significant continuing involvement with respect to the receivables. Sale proceeds that are representative of the fair value of factored receivables, less a factoring fee, are reflected in Cash flows from operating activities on the Consolidated Statements of Cash Flows, while sale proceeds in excess of the fair value of factored receivables are reflected in Cash flows from financing activities on the Consolidated Statements of Cash Flows.

The Company has two Receivables Factoring arrangements. One arrangement allows for the factoring of up to €150 million of uncollected receivables originated from the EMEA and Asia-Pacific regions. In the current quarter, the Company amended its second arrangement to allow the factoring of uncollected receivables originated from the Europe, Middle East, and Africa ("EMEA") region from up to \$25 million to \$50 million. Otherwise, the amendment did not substantially change the terms of the arrangement.

The Company may be required to maintain a portion of sales proceeds as deposits in a restricted cash account that is released to the Company as it satisfies its obligations as servicer of sold receivables, which totaled \$0 million and \$12 million \$1 million as of September 30, 2023 March 30, 2024 and December 31, 2022 December 31, 2023, respectively, and is classified within Prepaid expenses and other current assets on the Consolidated Balance Sheets.

During the nine three months ended September 30, 2023 March 30, 2024 and October 1, 2022 April 1, 2023, the Company received cash proceeds of \$1,077 million \$346 million and \$1,135 \$373 million, respectively, from the sales of accounts receivables under its factoring arrangements. As of September 30, 2023 March 30, 2024 and December 31, 2022 December 31, 2023, there were a total of \$72 million \$43 million and \$61 million \$56 million, respectively, of uncollected receivables that had been sold and removed from the Company's Consolidated Balance Sheets.

As servicer of sold receivables, the Company had \$82 million \$121 million and \$130 million \$112 million of obligations that were not yet remitted to banks as of September 30, 2023 March 30, 2024 and December 31, 2022 December 31, 2023, respectively. These obligations are included within Accrued liabilities on the Consolidated Balance Sheets, with changes in such obligations reflected within Cash flows from financing activities on the Consolidated Statements of Cash Flows.

Note 16 Segment Information & Geographic Data

The Company's operations consist of two reportable segments: Asset Intelligence & Tracking ("AIT") and Enterprise Visibility & Mobility ("EVM"). The reportable segments have been identified based on the financial data utilized by the Company's Chief Executive Officer (the chief operating decision maker or "CODM") to assess segment performance and allocate resources among the Company's segments. The CODM reviews adjusted operating income to assess segment profitability. To the extent applicable, segment operating income excludes business acquisition purchase accounting adjustments, amortization of intangible assets, acquisition and integration costs, impairment of goodwill and other intangibles, exit and restructuring costs, as well as certain other non-recurring costs (such as the Settlement costs in the prior year). Segment assets are not reviewed by the Company's CODM and therefore are not disclosed below.

In the second quarter, our advanced location technology solutions business, which is primarily comprised of RFID devices and RTLS offerings, moved from our EVM segment into our AIT segment contemporaneous with a change in our organizational structure and management of the business. We have reported our segment results reflecting this change, including historical periods, on a comparable basis. This change does not have an impact on the Consolidated Financial Statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Zebra Technologies Corporation and its subsidiaries ("Zebra" or the "Company") is We are a global leader respected for innovative Enterprise Asset Intelligence ("EAI") solutions in the Automatic Identification and Data Capture ("AIDC") industry. The AIDC market consists of mobile computing, data capture, radio frequency identification devices ("RFID"),

barcode printing, and other workflow automation products and services. The Company's solutions are proven to help our customers and end-users digitize and automate their workflows to achieve their critical business objectives, including improved productivity and operational efficiency, optimized regulatory compliance, and better customer experiences.

We design, manufacture, and sell a broad range of AIDC products, and solutions, including cloud-based software subscriptions, that capture and move data. These products and solutions include including: mobile computers; computers, barcode scanners and imagers; radio frequency identification devices and printers ("RFID") and real-time location systems ("RTLS"); imagers, RFID readers, specialty printers for barcode labeling and personal identification; fixed industrial scanning and machine vision; identification, real-time location systems ("RTLS"), related accessories and supplies, such as self-adhesive labels and other consumables; consumables, and related software applications. We also provide machine vision and robotics automation solutions; a full range of services, including maintenance, technical support, repair, managed and professional services, services; as well as various workflow optimization solutions, including cloud-based software subscriptions and robotic automation solutions, subscriptions. End-users of our products, solutions and services include those in the retail and e-commerce, manufacturing, transportation and logistics, healthcare, public sector, and other industries within the following regions: North America; Europe, Middle East, and Africa ("EMEA"); Asia-Pacific; Asia Pacific; and Latin America.

Our customers

We continue to advance our Enterprise Asset Intelligence ("EAI") vision: every asset and front-line worker visible, connected, and fully optimized. Through continual innovation, we have traditionally benefited from proven solutions that increase productivity and improve asset efficiency and utilization. The Company is poised expanded beyond the traditional AIDC market to drive, and capitalize on, the evolution of the data capture industry into the broader EAI industry, supported by technology trends including the Internet of Things ("IoT"), ubiquitous mobility, automation, cloud computing, transform activities such as factory production, packages moving through a supply chain, retail shopping, and the increasingly on-demand global economy. EAI hospital patient journey. Data from enterprise assets, including status, condition, location, utilization, and preferences, is analyzed in the cloud to provide prioritized actionable insights. As a result, our solutions offer additional benefits enable enterprises to our customers including real-time, data-driven insights that improve operational visibility "sense, analyze, and drive workflow optimization. act" more effectively to optimize their activities.

The Company's operations consist of two reportable segments that provide complementary offerings to our customers: Asset Intelligence & Tracking ("AIT") and Enterprise Visibility & Mobility ("EVM").

- The AIT segment is an industry leader in barcode printing and asset tracking technologies. Its major product lines include barcode and card printers, RFID and RTLS offerings, and supplies, including temperature-monitoring labels, and services.
- The EVM segment is an industry leader in automatic information and data capture solutions. Its major product lines include mobile computing, data capture, fixed industrial scanning and machine vision, services, and workflow optimization solutions. Our workflow optimization solutions include cloud-based software subscriptions, retail solutions, and robotic automation solutions.

In the second quarter, our advanced location technology solutions business, which is primarily comprised of RFID devices and RTLS offerings, moved from our EVM segment into our AIT segment contemporaneous with a change in our organizational structure and management of the business. We have reported our segment results reflecting this change, including historical periods, on a comparable basis. This change does not have an impact on the Consolidated Financial Statements.

We are a market leader in our core businesses, which are generally considered to be comprised of our mobile computing and data capture products, printing products and supplies, as well as support and repair services. We continue to focus on growth opportunities within adjacent and expansion markets by scaling and integrating our recent business acquisitions, inclusive of our \$881 million acquisition of Matrox Electronic Systems Ltd. ("Matrox") in the second quarter of 2022. acquisitions.

Third First Quarter 2023 2024 Financial Summary and Other Recent Developments

- Net sales were \$956 million \$1,175 million in the current quarter compared to \$1,378 million \$1,405 million in the prior year.
- Operating loss income was \$12 million \$159 million in the current quarter compared to operating income of \$202 million \$225 million in the prior year.
- Net loss income was \$15 million \$115 million, or \$(0.28) \$2.23 per diluted share in the current quarter, compared to net income of \$170 million \$150 million, or \$3.26 \$2.90 per diluted share in the prior year.
- Net cash provided by operating activities was \$125 million in the current quarter compared to net cash used in operating activities was \$145 million in the current year compared to net cash provided by operating activities of \$221 million \$76 million in the prior year.

As anticipated, Our first quarter of 2024 results continued to be impacted by broad-based softness across our end markets in all regions. While our current quarter results reflect are below the first quarter of 2023, they have improved from the fourth quarter of 2023. As we entered the year, we saw a broad-based moderation stabilization of demand across our core product offerings. Demand declines were most pronounced in our mobile computing and printing businesses within our EVM and AIT segments, respectively, as we believe many of our customers are absorbing significant capacity built-out over recent years, while also experiencing tighter capital spending budgets. This, coupled with a general trend of distributors reducing distributor inventory levels has negatively impacted and a modest recovery in the demand trends for our current year results. We expect these trends to continue into 2024. We are partially mitigating products resulting in a 16.5% increase in revenues from the financial impacts fourth quarter of operating headwinds through a combination of targeted list price increases and operating cost management. 2023. As discussed below, our overall supply chain continues to recover, with improvements in both component part availability and costs of transportation, first quarter results benefited from the actions taken under our ability to meet customer demand has improved compared to the prior year.

As a result of the impacts on our business discussed above, the Company expanded the scope of its 2022 Productivity Plan and initiated the U.S. voluntary retirement plan. We expect revenues and profitability to improve sequentially from the first half to the second half of the current year, and on a year-over-year basis in the second half of the year.

Total charges associated with the 2022 Productivity Plan and the U.S. employee voluntary retirement plan, ("VRP") during the second quarter. The total cost of these programs, consisting primarily of employee severance and other benefits, which was completed in 2023, are expected to be at least \$105 million, with \$94 million incurred to date, including \$58 million and \$82 million recorded for in the three and nine months ended September 30, 2023, respectively. All such current quarter. The remaining actions under the 2022 Productivity Plan are expected to be substantially completed in the second quarter of this year. The costs of these actions are classified within Exit and restructuring on the Consolidated Statements of Operations. The actions under these programs are expected to be substantially completed by the end of 2023 with the related obligations substantially settled by the first quarter of 2024. The programs are expected to impact greater than 7% over 9% of our global employee base and are estimated to result in annualized net cost savings of approximately \$120 million, primarily within Operating expenses, expenses. The Company has realized approximately \$75 million of approximately \$100 million net savings to date, including \$25 million in the current quarter.

(1) Operating results reported in U.S. Dollars are affected by foreign currency exchange rate fluctuations. Foreign currency translation impact represents the difference in results that are attributable to fluctuations in the currency exchange rates used to convert the results for businesses where the functional currency is not the U.S. Dollar. This impact is calculated by translating the current period results at the currency exchange rates used in the comparable prior year period, inclusive of the Company's foreign currency hedging program.

(2) For purposes of computing Consolidated Organic Net sales decline, amounts directly attributable to business acquisitions are excluded for twelve months following their respective acquisitions.

(3) Consolidated Organic Net sales decline is a non-GAAP financial measure. See the *Non-GAAP Measures* section at the end of this item.

Third/First quarter 2023/2024 compared to third/first quarter 2022/2023

Total Net sales decreased ~~\$422 million~~ \$230 million or ~~30.6%~~ 16.4% compared to the prior year reflecting declines in both of our segments resulting from a broad-based moderation of demand for primarily due to continued softness across our core products as well as a reduction of inventory levels at our distribution customers. Current year Net sales of both segments included the benefit of targeted list price increases, partially offset by the negative effects of foreign currency changes. Prior year EVM Net sales were negatively impacted by supply chain bottlenecks associated with our North America distribution center transition. end markets in all regions. Excluding the effects of currency changes, the decrease in Consolidated Organic Net sales was 29.6% decreased by 16.8%.

Gross margin decreased increased to ~~44.7%~~ 47.9% for the current year compared to ~~45.6%~~ 47.5% for the prior year. As compared to the prior year, Gross margin was higher in our AIT EVM segment and lower in our EVM AIT segment. Both Gross margins of both segments particularly AIT, benefited from lower premium freight and component part costs rates compared to the prior year which and were more than offset negatively impacted by volume deleveraging.

Operating expenses for the quarters ended September 30, 2023 March 30, 2024 and October 1, 2022 April 1, 2023 were ~~\$439 million~~ \$404 million and ~~\$426 million~~ \$442 million, or ~~45.9%~~ 34.4% and ~~30.9%~~ 31.5% of Net sales, respectively. Current year Operating expenses were ~~higher~~ lower than the prior year primarily due to ~~higher~~ Exit and restructuring costs, partially offset by lower employee incentive compensation, Amortization of intangible assets, and cost efficiencies savings largely attributed to our Exit and restructuring actions. The increase as a percentage of Net sales over the prior year also reflects the impact of expense deleveraging.

Operating loss income was ~~\$12 million~~ \$159 million for the current year compared to ~~\$202 million~~ of income ~~\$225 million~~ in the prior year. The decrease was primarily due to lower Gross profit, partially offset by lower Operating expenses.

Net income decreased compared to the prior year primarily due to lower Operating income, as described above, as well as higher partially offset by lower Other (expense), expense, net. The decrease in Other (expense) income, expense, net was an expense of ~~\$12 million~~ primarily due to interest rate swap gains in the current year compared to income of ~~\$20 million~~ losses in the prior year. The increase was primarily due to year, partially offset by higher interest expense associated with higher interest rates and average outstanding debt levels as well as lower interest rate swap gains in the current year.

The Company's effective tax rates for the three months ended September 30, 2023 March 30, 2024 and October 1, 2022 April 1, 2023 were a 37.5% benefit ~~19.0%~~ and ~~23.4%~~ expense, ~~18.9%~~, respectively. The change in the effective tax rate includes the impact of the discrete tax benefit recorded in the current year related to the VRP.

Diluted earnings per share decreased to ~~\$(0.28)~~ \$2.23 as compared to ~~\$3.26~~ \$2.90 in the prior year due to lower Net income, partially offset by lower average shares outstanding.

Year to date 2023 compared to Year to date 2022

Total Net sales decreased \$703 million or 16.4% compared to the prior year reflecting declines in both of our segments resulting from a broad-based moderation of demand for our core products as well as a reduction of inventory levels at our distribution customers. Current year Net sales of both segments included the benefit of targeted list price increases, partially offset by the negative effects of foreign currency changes. Prior year Net sales of both segments were negatively impacted by supply chain bottlenecks. Excluding the effects of currency changes and acquisitions, the decrease in Consolidated Organic Net sales was 15.1%.

Gross margin increased to 46.9% for the current year compared to 45.3% for the prior year. As compared to the prior year, Gross margin was significantly higher in our AIT segment, while Gross margin of our EVM segment was modestly lower. Both segments, particularly AIT, benefited from lower premium freight and component part costs compared to the prior year, which were partially offset by volume deleveraging.

Operating expenses for the periods ended September 30, 2023 and October 1, 2022 were \$1,268 million and \$1,670 million, or 35.5% and 39.0% of Net sales, respectively. Excluding the Settlement charge in the prior year, Operating expenses would have been 30.3% of Net sales. Current year Operating expenses were modestly lower than the prior year, excluding the Settlement charge, primarily due to lower employee incentive compensation, Amortization of intangible assets, and Acquisition and integration costs, partially offset by higher Exit and restructuring costs and the inclusion of operating expenses associated with recently acquired businesses. The increase as a percentage of Net sales over the prior year also reflects the impact of expense deleveraging.

Operating income increased to \$407 million for the current year compared to \$269 million for the prior year. The increase was primarily due to lower Operating expenses, as the prior period included the \$372 million Settlement charge, partially offset by lower Gross profit.

Net income increased compared to the prior year due to higher Operating income, partially offset by higher Other (expense) income, net and income tax expense.

- Other (expense) income, net was an expense of \$75 million in the current year, compared to income of \$50 million in the prior year. The increase was primarily due to higher interest expense associated with higher interest rates and average outstanding debt levels as well as lower interest rate swap gains in the current year.
- The Company's effective tax rates for the nine months ended September 30, 2023 and October 1, 2022 were 16.0% and 13.2%, respectively. The change in the effective tax rate compared to the prior year was primarily due to the impact of the discrete benefit recorded in the prior year related to the Settlement.

Diluted earnings per share increased to \$5.40 as compared to \$5.25 in the prior year due to higher Net income and lower average shares outstanding.

Results of Operations by Segment

The following commentary should be read in conjunction with the financial results of each reportable business segment as detailed in Note 16, *Segment Information & Geographic Data* in the Notes to Consolidated Financial Statements. To the extent applicable, segment operating income excludes business acquisition purchase accounting adjustments, amortization of intangible assets, acquisition and integration costs, impairment of goodwill and other intangibles, exit and restructuring costs, as well as certain other non-recurring costs (such as the Settlement costs in the prior year) costs.

Liquidity and Capital Resources

The primary factors that influence our liquidity include the amount and timing of cash collections from our customers, cash payments to our suppliers, capital expenditures, acquisitions, and share repurchases. Management believes that our existing capital resources, inclusive of available borrowing capacity on debt and other financing facilities and funds generated from operations, are sufficient to meet anticipated capital requirements and service our indebtedness. The following table summarizes our cash flow activities for the periods indicated (in millions):

The change in our cash and cash equivalents balance during the **nine****three** months ended **September 30, 2023****March 30, 2024** compared to the prior year is **reflective of primarily due to** the following:

- **\$366 201 million of change in** operating activities primarily due to **higher****lower** cash payments for inventory purchases and the reduction of overall inventory levels, as well as lower employee incentive compensation and income taxes, interest, the Settlement, and Exit and restructuring actions, tax payments, partially offset by favorability in the unfavorable timing of customer collections and lower employee incentive compensation payments, higher payments associated with Exit and restructuring actions.
- **\$892 194 million of investing activities** primarily due to cash payments for the acquisition of **Matrox** change in the prior year.
- **\$330 million of financing activities** primarily due to increased net debt repayments in the current year compared to net debt borrowings in the prior year as a result of the Company refinancing its long-term credit facilities, partially offset by lower common stock repurchases in the current year.

Company Debt

The following table shows the carrying value of the Company's debt (in millions):

	September 30, 2023	December 31, 2022

As of **September 30, 2023****March 30, 2024**, the Company had letters of credit totaling \$11 million, which reduced funds available for borrowings under the Revolving Credit Facility from \$1,500 million to \$1,489 million. As of **September 30, 2023****March 30, 2024**, the Revolving Credit Facility had an average interest rate of **6.65%****6.68%**. Upon borrowing, interest payments are made monthly and are subject to variable rates plus an applicable margin. The Revolving Credit Facility matures on May 25, 2027.

Receivables Financing Facilities

The Company has two Receivables Financing Facilities with financial institutions that have a combined total borrowing limit of up to \$280 million. As collateral, the Company pledges perfected first-priority security interests in its U.S. domestically originated accounts receivable. The Company has accounted for transactions under its facilities as secured borrowings. **The Company's** During the first quarter of 2024, the Company amended its first facility, which allows for borrowings of up to \$180 million and matures on March 19, 2024., to extend the maturity to March 19, 2027, but otherwise did not substantially change the terms of the facility. The Company's second facility allows for borrowings of up to \$100 million and, matures on May 13, 2024, and is not expected to be renewed.

As of **September 30, 2023** March 30, 2024, the Company's Consolidated Balance Sheets included **\$530 million** \$504 million of gross receivables that were pledged under the facilities. As of **September 30, 2023** March 30, 2024, **\$119 million** \$280 million had been borrowed, and of which \$261 million was classified as current. Borrowings under the facilities bear interest at a variable rate plus an applicable margin. As of **September 30, 2023** March 30, 2024, the facilities had an average interest rate of **6.80%** 6.56%. Interest is paid monthly on these borrowings.

See Note 9, *Long-Term Debt* in the Notes to Consolidated Financial Statements for further details related to the Company's debt instruments.

Receivables Factoring

The Company transfers certain receivables to banks without recourse as part of its credit and cash management activities. Such transfers are accounted for as sales and the related receivables are removed from the Company's balance sheet. **The Company does not maintain any beneficial interest in the receivables sold.** The Company services the receivables on behalf of the banks, but otherwise maintains no significant continuing involvement with respect to the receivables. Sale proceeds that are representative of the fair value of factored receivables, less a factoring fee, are reflected in Cash flows from operating activities on the Consolidated Statements of Cash Flows, while sale proceeds in excess of the fair value of factored receivables are reflected in Cash flows from financing activities on the Consolidated Statements of Cash Flows. **The Company has two Receivables Factoring arrangements.** One arrangement allows for the factoring of up to €150 million of uncollected receivables originated from the EMEA and Asia-Pacific regions. In the current quarter, the Company amended its second arrangement to allow the factoring of uncollected receivables originated from the Europe, Middle East, and Africa ("EMEA") region from up to \$25 million to \$50 million. Otherwise, the amendment did not substantially change the terms of the arrangement.

As of **September 30, 2023** March 30, 2024 and **December 31, 2022** December 31, 2023, there were a total of **\$72 million** \$43 million and **\$61 million** \$56 million, respectively, of uncollected receivables that had been sold and removed from the Company's Consolidated Balance Sheets.

As servicer of sold receivables, the Company had **\$82 million** \$121 million and **\$130 million** \$112 million of obligations that were not yet remitted to banks as of **September 30, 2023** March 30, 2024 and **December 31, 2022** December 31, 2023, respectively. These obligations are included within Accrued liabilities on the Consolidated Balance Sheets, with changes in such obligations reflected within Cash flows from financing activities on the Consolidated Statements of Cash Flows.

See Note 15, *Accounts Receivable Factoring* in the Notes to Consolidated Financial Statements for further details.

Share Repurchases

On May 17, 2022, the Company announced that its Board of Directors authorized a share repurchase program for up to **an incremental** \$1 billion of its outstanding shares of common stock. This authorization augments the previous \$1 billion share repurchase authorization which was announced on July 30, 2019. The **newly authorized** May 2022 share repurchase program does not have a stated expiration date. The level of the Company's repurchases depends on a number of factors, including its financial condition, capital requirements, cash flows, results of operations, future business prospects and other factors its management may deem relevant. The timing, volume, and nature of repurchases are subject to market conditions, applicable securities laws and other factors and may be amended, suspended or discontinued at any time. Repurchases may be affected from time to time through open market purchases, including pursuant to a pre-set trading plan meeting the requirements of Rule 10b5-1(c) of the Securities Exchange Act of 1934. **In the fourth quarter of 2022, the Company completed its original authorization of \$1 billion in share repurchases.** During the first **nine** three months of **2023, 2024**, the Company did not repurchase shares of common stock. As of March 30, 2024, the Company has cumulatively repurchased 194,319,409,014 shares of common stock for approximately \$52 million. As of **September 30, 2023**, the Company has cumulatively repurchased 3,517,602 shares of common stock for approximately **\$1.1 billion** \$107 million, resulting in a remaining amount of share repurchases authorized under the **plans** May 2022 program of \$893 million.

Significant Customers

End-users of our products, solutions and services are diversified across a wide variety of industries. We have three customers, who are distributors of the Company's products and solutions, that individually accounted for more than 10% of our Net sales for the periods presented. In the aggregate, the approximate percentage of our segment and Company total Net sales was as follows:

	Nine Months Ended					
	September 30, 2023			October 1, 2022		
	AIT	EVM	Total	AIT	EVM	Total
Significant customers as a % of Net sales	18 %	27 %	45 %	16 %	30 %	46 %
Three Months Ended						
	March 30, 2024			April 1, 2023		

	AIT	EVM	Total	AIT	EVM	Total
Significant customers as a % of Net sales	16 %	36 %	52 %	17 %	33 %	50 %

These customers accounted for 50% 51% of accounts receivable as of **September 30, 2023** **March 30, 2024**. No other customer accounted for more than 10% of total Net sales during the period ended **September 30, 2023** **March 30, 2024**.

Safe Harbor

Forward-looking statements contained in this filing are subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995 and are highly dependent upon a variety of important factors, which could cause actual results to differ materially from those expressed or implied in such forward-looking statements. When used in this document and documents referenced, the words "anticipate," "believe," "intend," "estimate," "will," and "expect" and similar expressions as they relate to the Company or its management are intended to identify such forward-looking statements but are not the exclusive means of identifying these statements. The forward-looking statements include, but are not limited to, the Company's financial outlook for full year of **2023**, **2024**. These forward-looking statements are based on current expectations, forecasts and assumptions, and are subject to the risks and uncertainties inherent in the Company's industry, market conditions, general domestic and international economic conditions, and other factors. These factors include:

- Market acceptance of the Company's products, services and solution offerings and competitors' offerings and the potential effects of emerging technologies and changes in customer requirements,
- The effect of global market conditions, including the North America; EMEA; Latin America; and Asia-Pacific regions in which we do business,
- The impact of changes in foreign exchange rates, customs duties and trade policies due to the large percentage of our sales and operations being outside the U.S.,
- Our ability to control manufacturing and operating costs,
- Risks related to the manufacturing of the Company's products and conducting business operations in non-U.S. countries, including the risk of depending on key suppliers who are also in non-U.S. countries,
- The Company's ability to purchase sufficient materials, parts, and components, our ability to provide services, software, and products to meet customer demand, particularly in light of global economic conditions,
- The availability of credit and the volatility of capital markets, which may affect our suppliers, customers, and ourselves,
- Success of integrating acquisitions,
- Our ability to attract, retain, develop, and motivate key personnel,
- Interest rate and financial market conditions,
- Access to cash and cash equivalents held outside the U.S.,
- The effect of natural disasters, man-made disasters, public health issues (including pandemics), and cybersecurity incidents on our business,
- The impact of changes in foreign and domestic governmental policies, laws, or regulations,
- The outcome of litigation in which the Company may be involved, particularly litigation or claims related to infringement of third-party intellectual property rights, and
- The outcome of any future tax matters or tax law changes.

We encourage readers of this report to review Part II, Item 1A, "Risk Factors" in this report for further discussion of issues that could affect the Company's future results. We undertake no obligation, other than as may be required by law, to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances, or any other reason after the date of this report.

New Accounting Pronouncements

We do not expect any recently issued accounting pronouncements to have a material impact **to** **on** our consolidated financial statements.

Non-GAAP Measures

The Company has provided reconciliations of the supplemental non-GAAP financial measures, as defined under the rules of the Securities and Exchange Commission, presented herein to the most directly comparable financial measures calculated and presented in accordance with GAAP.

These supplemental non-GAAP financial measures – Consolidated Organic Net sales decline, AIT Organic Net sales **(decline)** **growth**, **decline**, and EVM Organic Net sales decline – are presented because our management evaluates our financial results both including and excluding the effects of business acquisitions and foreign currency translation, as applicable. Management believes that the supplemental non-GAAP financial measures presented provide additional perspective and insights when analyzing the core operating performance of our business from period to period and trends in our historical operating results. These supplemental non-GAAP financial measures should not be considered superior to, as a substitute for, or as an alternative to, and should be considered in conjunction with the GAAP financial measures presented.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There were no material changes in the Company's market risk during the quarter ended **September 30, 2023** **March 30, 2024**. For additional information on market risk, refer to Item 7A, "Quantitative and Qualitative Disclosures About Market Risk" in the Annual Report on Form 10-K for the year ended **December 31, 2022** **December 31, 2023**.

Item 4. Controls and Procedures

Management's Report on Disclosure Controls

Our management is responsible for establishing and maintaining adequate disclosure controls as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. Our management assessed the effectiveness of our disclosure controls as of **September 30, 2023** **March 30, 2024**. Based on this assessment and those criteria, our management believes that, as of **September 30, 2023** **March 30, 2024**, our disclosure controls were effective.

Changes in Internal Control over Financial Reporting

During the quarter ended **September 30, 2023** **March 30, 2024**, there have been no changes in our internal controls that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on the Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent or detect all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within Zebra have been prevented or detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

See Note 11, *Accrued Liabilities, Commitments and Contingencies* in the Notes to Consolidated Financial Statements included in this report.

Item 1A. Risk Factors

In addition to the other information included in this report, you should carefully consider the factors discussed in Part I, Item 1A. "Risk Factors" in the Annual Report on Form 10-K for the year ended **December 31, 2022** **December 31, 2023**, and the factors identified under "Safe Harbor" in Part I, Item 2 of this Quarterly Report on Form 10-Q, which could materially affect our business, financial condition, cash flows, or results of operations. The risks described in the Annual Report are not the only risks facing the Company. Additional risks and uncertainties not currently known to the Company or that the Company currently considers immaterial also may materially adversely affect its business, financial condition, and/or operating results. There have been no material changes to the risk factors included in our Annual Report for the year ended **December 31, 2022**, other than as described below:

Cybersecurity incidents could disrupt business operations. We rely on information technology systems throughout the Company to keep financial records, process orders, manage inventory, coordinate shipments to distributors and customers, maintain confidential and proprietary information, and other technical activities, and operate other critical functions such as internet connectivity, network communications, and email. The Company stores confidential and proprietary information through cloud-based services that are hosted by third parties where we have less influence over security protocols. In addition, our customers may use certain of our products and solutions to transmit and/or process personal data and other sensitive information. Like many companies, we continually strive to meet industry information security standards relevant to our business. We periodically perform vulnerability assessments, remediate vulnerabilities, review log/access, perform system maintenance, manage network perimeter protection, implement and manage disaster recovery testing, and provide periodic educational sessions to our employees to foster awareness of schemes to access sensitive information. Despite our implementation of a variety of security controls and measures, as well as those of our third-party vendors, there is no assurance that such actions will be sufficient to prevent a cybersecurity incident. Further, as cybercrime and threats continue to rapidly evolve and become increasingly more difficult to detect and defend against, our current security controls and measures may not be effective in preventing cybersecurity incidents and we may not have the capabilities to detect certain vulnerabilities. A cybersecurity incident could include an attempt to gain unauthorized access to digital systems for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Phishing and other types of attempts to obtain unauthorized information or access are often sophisticated and difficult to detect or defeat.

Cybersecurity incidents can take a variety of forms including, unintentional events as well as deliberate attacks by individuals, groups and sophisticated organizations, such as state sponsored organizations or nation-state actors. Further, certain of our third party vendors have limited access to our employee and customer data and may use this data in unauthorized ways. Any such cybersecurity incident or misuse of our employees' or customers' data may lead to a material disruption of our core business systems, the loss or corruption of confidential business information, and/or the disclosure of personal data that in each case could result in an adverse business impact as well as possible damage to our brand. This could also lead to a public disclosure or theft of private intellectual property and a possible loss of customer confidence.

While we have experienced and expect to continue to experience these types of threats and incidents, there have been no material incidents incurred to-date at the Company. If our core business operations, or that of one of our third-party service providers, were to be breached, this could affect the confidentiality, integrity, and availability of our systems and data. Any failure on the part of us or our third-party service providers to maintain the security of data we are required to protect, including via the penetration of our network security and the misappropriation of confidential and proprietary information, could result in: business disruption; damage to our reputation; financial obligations to third parties; fines, penalties, regulatory proceedings; private litigation with potentially large costs; deterioration in our suppliers', distributors', and customers' confidence in us; as well as other competitive disadvantages. Such failures to maintain the security of data could have a material adverse effect on our business, financial condition, and results of operations. While we continue to perform security due diligence, there is always the possibility of a significant breach. In addition, any failure on the part of one of our contract manufacturers, distributors or resellers to maintain the security of its systems or data, including via the penetration of their network security or ransomware, could result in business disruption to us and damage to our reputation.

We rely on third-party dealers, distributors, and resellers to sell many of our products, services and solutions, and their failure to effectively bring our products, services and solutions to market may negatively affect our results of operation and financial results. In addition to our own sales force, we offer our products, services and solutions through a variety of third-party dealers, distributors, and resellers who may also market other products, services and solutions that compete with ours. Failure of one or more of our third-party dealers, distributors, or resellers to effectively promote our offerings could affect our ability to bring

products, services and solutions to market and have a negative impact on our results of operations. Any changes to our channel program may cause some of our third-party dealers, distributors, or resellers to exit the program due to modifications to the program structure, which may reduce our ability to bring products and solutions to market and could have a negative impact on our results of operations.

Third-party dealers, distributors or resellers could also face additional costs or credit concerns resulting from an uncertain economic environment that would cause such parties to reduce purchases of our products, thereby causing a negative impact on our financial results. Some of these third-parties are smaller and more likely to be impacted by a significant decrease in available credit that could result from a weakness in the financial markets. If credit pressures or other financial difficulties result in insolvency for third-party dealers, distributors, or resellers and we are unable to successfully transition end-customers to purchase our products and solutions from other third-parties or from us directly, it may cause, and in some cases, has caused, a negative impact on our financial results.

Our future operating results depend on our ability to purchase a sufficient amount of materials, parts, and components, as well as services and software to meet the demands of customers. We source some of our components from sole source suppliers. Any disruption to our suppliers or significant increase in the price of supplies, inclusive of transportation costs, or change in customer demand could have a negative impact on our results of operations. December 31, 2023. Our ability to meet customers' demands depends, in part, on our ability to obtain in a timely manner an adequate delivery of quality materials, parts, and components, as well as services and software from our suppliers, and our ability to deliver products, services and software to our customers. In addition, certain supplies are available only from a single source or limited sources and we may not be able to diversify sources in a timely manner. If demand for our products, solutions or services increases from our current expectations or if suppliers are unable or unwilling to meet our demand for other reasons, including as a result of natural disasters, public health issues, severe weather conditions, or financial issues, we could experience an interruption in supplies or a significant increase in the price of supplies that could have a negative impact on our business. We have experienced shortages in the past that have negatively impacted our results of operations and may experience such shortages in the future. At times we have and may continue to execute multi-year purchase commitments with suppliers that contain minimum spend thresholds, which we are obligated to fulfill even if customer demand declines, and may require that we purchase inventory that exceeds our forecasted demand. In addition, volatility in customer demand, product availability, and costs to transport products, may result in increased operating input costs, elevated inventory levels, as well as inventory-related losses. Also, credit constraints at our suppliers could cause us to accelerate payment of accounts payable by us, impacting our cash flow.

Economic conditions and financial market disruptions may adversely affect our business and results of operations. Adverse economic conditions or reduced and/or changes in the timing and amount of information technology spending may negatively impact our business. General disruption of financial markets and a related general economic downturn or uncertainty could adversely affect our business and financial condition through a reduction in demand for our products, solutions or services by our customers. If a slowdown were severe enough, it could require further impairment testing and write-downs of goodwill and other intangible assets. Cost reduction actions have been and may be necessary in the future resulting in restructuring charges as well as changes in staffing levels which may strain our resources. A tightening of financial credit or increase in the cost of borrowing could adversely affect our customers, suppliers, outsourced manufacturers, and channel partners (e.g., distributors and resellers) from obtaining adequate credit for the financing of significant purchases. An economic downturn could also result in a decrease in or cancellation of orders for our products, solutions and services; negatively impacting the ability to collect accounts receivable on a timely basis; result in additional reserves for uncollectible accounts receivable; and require additional reserves for inventory obsolescence. Higher volatility and fluctuations in foreign exchange rates for the U.S. Dollar against currencies such as the Euro, British Pound Sterling and Czech Koruna could negatively impact product sales, margins, and cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth information with respect to repurchases of the Company's common stock for the three months ended September 30, 2023 March 30, 2024:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (in millions) ⁽¹⁾
July 2, 2023 January 1, 2024 - July 29, 2023 January 27, 2024	—	\$ —	—	\$ 893
July 30, 2023 January 28, 2024 - August 26, 2023 February 24, 2024	—	—	—	893
August 27, 2023 February 25, 2024 - September 30, 2023 March 30, 2024	—	—	—	893
Total	—	\$ —	—	\$ 893

(1) On May 17, 2022, the Company announced that its Board of Directors authorized a share repurchase program for up to \$1 billion of its outstanding shares of common stock. This authorization augments the previous \$1 billion share repurchase authorization which was announced on July 30, 2019. Repurchases may be effected affected from time to time through open market purchases, including pursuant to a pre-set trading plan meeting the requirements of Rule 10b5-1(c) of the Securities Exchange Act of 1934. In the fourth quarter of 2022, the Company completed its original authorization of \$1 billion in share repurchases. As of September 30, 2023 March 30, 2024, the Company has cumulatively repurchased 3,517,602 409,014 shares of common stock for approximately \$1.1 billion \$107 million, resulting in a remaining amount of share repurchases authorized under the plans May 2022 program of \$893 million.

Item 5. Other Information

None of our directors or executive officers had in effect, adopted or terminated a Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement (as defined in Item 408(c) of Regulation S-K) during the third first quarter of 2023, 2024.
