Forward-Looking Statements

This presentation includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and Section 21E of the Securities Exchange Act of 1934, as amended. Any statements that are not statements of historical fact may be deemed to be forward-looking statements. For example, words such as "may," "will," "should," "estimates," "predicts," "potential," "continue," "strategy," "believes," "anticipates," "plans," "expects," "intends," and similar expressions are intended to identify forward-looking statements. These forward-looking statements include, but are not limited to: the size of our market opportunity; the potential success and impact of our investments in artificial intelligence technologies; our strategic transformation initiatives; our ability to drive increased platform and multi-product adoption; our ability to increase profitability and cash flow and fund investment in innovation; whether we can increase customer retention; whether our unified communication and contact center traffic will increase; our future revenue and growth (including platform usage revenue); whether we can sustain an increasing pace of innovation; the success of our go-to-market engine; our ability to improve general and administrative synergies; our ability to enhance shareholder value; and our financial outlook, revenue growth, and profitability, including whether we will achieve sustainable growth and profitability. These forward-looking statements are predictions only, and actual events or results may differ materially from such statements depending on a variety of factors. These factors include, but are not limited to:

- The impact of economic downturns on us and our customers;
- Customer adoption and demand for our products may be lower than we anticipate.
- A reduction in our total costs as a percentage of revenue may negatively impact our revenues and our business.
- Impact of economic downturns, political instability, government shutdowns and threats of shutdowns, rising interest rates and other inflationary pressures on us and our customers.
- Risks related to our delayed draw term loan due 2027 and convertible senior notes due 2028, including the impact of variable interest expense and timing of any future repayments or refinancing on our stock price.
- We may not achieve our target service revenue or total revenue growth rates, or the revenue and other amounts we forecast in our guidance, for a particular quarter or for the full fiscal year.
- Competitive dynamics of the UCaaS, CCaaS, CPaaS, video and other markets in which we compete may change in ways we are not anticipating.
- Our customer churn rate may be higher than we anticipate.
- Third parties may assert ownership rights in our IP, which may limit or prevent our continued use of the core technologies behind our solutions.
- Risks related to our plans to sunset the Fuze platform and migrate customers to our own platform following our earlier acquisition of Fuze, Inc.
- The impact of U.S. trade restrictions, tariffs and international trade policies could adversely affect our costs and operations.
- Investments we make in marketing, channel and value-added resellers (VARs), e-commerce, and new products may not result in revenue growth.

For a discussion of such risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see "Risk Factors" in the Forms 10-K and 10-Q filed by 8x8, Inc. with the Securities and Exchange Commission. All forward-looking statements are qualified in their entirety by this cautionary statement, and 8x8, Inc. undertakes no obligation to update publicly any forward-looking statement for any reason, except as required by law, even as new information becomes available or other events occur in the future.

See Appendix for Non-GAAP reconciliation and disclaimers.

Non-GAAP Measures and Guidance

Non-GAAP Measures

This presentation contains certain financial information that has not been prepared in accordance with Generally Accepted Accounting Principles (GAAP). Management uses these non-GAAP financial measures internally in analyzing the Company's financial results and believes they are useful to investors, as a supplement to GAAP measures, in evaluating the Company's ongoing operational performance. This information should not be considered a substitute for any measures derived in accordance with GAAP.

Non-GAAP Guidance

The Company does not reconcile its forward-looking estimates of non-GAAP operating margins to the corresponding GAAP measures of GAAP operating margin due to the significant variability of, and difficulty in making accurate forecasts and projections with regards to, the various expenses it excludes. For example, future hiring and employee turnover may not be reasonably predictable, stock-based compensation expense depends on variables that are largely not within the control of nor predictable by management, such as the market price of 8x8 common stock, and may also be significantly impacted by events like acquisitions, the timing and nature of which are difficult to predict with accuracy. The actual amounts of these excluded items could have a significant impact on the Company's GAAP operating margins. Accordingly, management believes that reconciliations of this forward-looking non-GAAP financial measure to the corresponding GAAP measure are not available without unreasonable effort. All projections are on a non-GAAP basis.
