Summary of Significant Accounting Policies Basis of PresentationThe accompanying unaudited financial statements of the Company as of and for the three and six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023 have been prepared in conformity with accounting principles generally accepted in the United States (â€œGAAPâ€) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. These financial statements include all adjustments (consisting only of normal recurring adjustments) the Companyâ€™s management considers necessary for a fair presentation of its financial position at such dates and the operating results and cash flows for those periods. The financial statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although management believes these estimates and assumptions are adequate, actual results could differ from the estimates and assumptions used.The fiscal 2024 year-end balance sheet data was derived from audited consolidated financial statements, and certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to Securities and Exchange Commission (â€œSECâ€) rules or regulations; however, the Company believes the disclosures made are adequate to make the information presented not misleading. The unaudited consolidated results of operations for the interim periods presented are not necessarily indicative of the results of operations to be expected for the full fiscal year. These interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended MayÂ 25, 2024, which are included in the Companyâ€™s Annual Report on Form 10-K (â€œFiscal Year 2024 Form 10-Kâ€) filed with the SEC on July 22, 2024 (File No. 0-32113). A complete listing of the Companyâ€™s significant accounting policies is discussed in Note 2 â€“ Summary of Significant Accounting Policies in the Notes to Consolidated Financial Statements included in the Fiscal Year 2024 Form 10-K. Reporting SegmentsDuring the first quarter of fiscal 2025, the Chief Executive Officer, the Companyâ€™s Chief Operating Decision Maker (â€œCODMâ€), announced a decision to reorganize the Companyâ€™s business by forming multiple discrete operational business units. To align the new operating model and financial reporting, the Company made management organizational changes and implemented new reporting modules and processes to provide discrete information to manage the business. During the first quarter of fiscal 2025, the Company completed its assessment of the Company's operating segments and identified the following newly defined operating segments:9Table of Contentsâ€¢On-Demand Talent â€“ operating under the On-Demand by RGPTM brand, this segment provides businesses with a go-to source for bringing in experts when they need them. â€¢Consulting â€“ operating under the Veracity by RGPTM brand, this segment drives transformation across people, processes and technology across domain areas including finance, technology and digital, risk and compliance and supply chain transformation. â€¢Europe & Asia Pacific â€“ is a geographically defined segment that offers both on-demand and consulting services (excluding the digital consulting business, which is included in our Consulting segment) to clients throughout Europe and Asia Pacific.â€¢Outsourced Services â€“ operating under the Countsy by RGPTM brand, this segment offers finance, accounting and HR services provided to startups, spinouts and scale-up enterprises, utilizing a technology platform and fractional team.â€¢Sitrick â€“ a crisis communications and public relations firm which operates under the Sitrick brand, providing corporate, financial, transactional and crisis communication and management services.Each of these segments reports through a separate segment manager to the Companyâ€™s Chief Executive Officer and Chief Operating Officer, who are collectively designated as the CODMs for segment reporting purposes. The Company's reportable segments are comprised of On-Demand Talent, Consulting, Europe & Asia Pacific, and Outsourced Services. Sitrick does not individually meet the quantitative thresholds to qualify as a reportable segment. Therefore, Sitrick is disclosed under the â€œAll Otherâ€ segment. Each of these segments represents a reporting unit for the purposes of assessing goodwill for impairment.On July 1, 2024, the Company acquired Reference Point LLC (â€œReference Pointâ€). See Note 4 â€“ Acquisitions for further discussion about the Companyâ€™s acquisition of Reference Point. Reference Point is reported within the Consulting Services operating segment from the date of acquisition.All prior year periods presented were recast to reflect the impact of the preceding segment changes. See Note 14 â€“ Segment Information and Enterprise Reporting for further information.Per Share Information The Company presents both basic and diluted (loss) earnings per share (â€œEPSâ€). Basic EPS is calculated by dividing net (loss) income by the weighted-average number of common shares outstanding during the period. Diluted EPS is based upon the weighted-average number of common shares and potentially dilutive common shares outstanding during the period. Potentially dilutive shares of common stock include the assumed exercise of outstanding in-the-money stock options, assumed issuance of common stock under the Company's 2019 Employee Stock Purchase Plan, as amended (â€œESPPâ€), assumed release of outstanding restricted stock awards (â€œRSAsâ€), restricted stock units (â€œRSUsâ€) and performance stock units (â€œPSUsâ€) using the treasury stock method. However, potentially dilutive shares of common stock are excluded from the computation in periods in which they have an anti-dilutive effect.During the three

and six months ended NovemberÂ 23, 2024, the Company incurred a net loss, and as a result potentially dilutive common shares issuable from the assumed exercise of stock options and the assumed release of shares of common stock under the outstanding ESPP, RSAs, RSUs, and PSUs awards were not included in the diluted shares used to calculate net loss per share, as their inclusion would have been anti-dilutive.10Table of ContentsThe following table summarizes the calculation of net (loss) income per common share for the three and six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023 (in thousands, except per share amounts): Three Months Ended Six Months EndedNovember 23,2024November 25,2023November 23,2024November 25,2023Net (loss) income$(68,715)$4,895Â $(74,422)$8,012Â Weighted-average shares outstanding:Basic weighted-average shares33,04633,40933,22633,410Effect of dilutive shares:Potentially dilutive stock optionsâ€”52â€”89Potentially dilutive employee stock purchase planâ€”â€”â€”â€”Potentially dilutive restricted stock awardsâ€”62â€”58Potentially dilutive restricted stock unitsâ€”188â€”200Potentially dilutive performance stock unitsâ€”190â€”188Diluted weighted-average shares outstanding33,04633,90133,22633,945Net (loss) income per common share:Basic (2.08)0.15(2.24)0.24Diluted(2.08)0.14(2.24)0.24The following table sets forth the potentially dilutive shares excluded from the computation of the diluted net (loss) income per common share because their effect was anti-dilutive (in thousands):Three Months EndedSix Months EndedNovember 23,2024November 25,2023November 23,2024November 25,2023Stock options1,9262,2251,9521,999Employee stock purchase plan41227â€”Restricted stock awards10021041Restricted stock units87357505Performance stock unitsâ€”â€”â€”Total2,9402,2542,8132,005Financial InstrumentsThe fair value of the Companyâ€™s financial instruments reflects the amounts that the Company estimates it will receive in connection with the sale of an asset in an orderly transaction between market participants at the measurement date (exit price). The fair value hierarchy prioritizes the use of inputs used in valuation techniques into the following three levels: Level 1 â€“ Quoted prices in active markets for identical assets and liabilities.Level 2 â€“ Observable inputs other than quoted prices in active markets for identical assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.Level 3 â€“ Unobservable inputs. 11Table of ContentsContingent consideration liability is for estimated future contingent consideration payments related to the Companyâ€™s acquisitions. Total contingent consideration liability related to the acquisition of CloudGo Pte. Ltd. (â€œCloudGoâ€) was preliminarily valued at $4.5 million as of November 25, 2023 and zero as of NovemberÂ 23, 2024 and MayÂ 25, 2024. The fair value measurement of the liability was based on significant inputs not observed in the market and thus represents a Level 3 measurement. The significant unobservable inputs used in the fair value measurement of the contingent consideration liability at these dates were the Companyâ€™s measures of the estimated payouts based on internally generated financial projections and discount rates. The fair value of contingent consideration liability will be remeasured on a quarterly basis until settlement by the Company using additional information as it becomes available, and any change in the fair value estimates will be recorded in selling, general and administrative expenses in the Companyâ€™s Consolidated Statements of Operations. Future revisions to these significant unobservable inputs and the assumptions underlying them could materially change the estimate of the fair value of contingent consideration and therefore could materially affect the Companyâ€™s future operating results.The Companyâ€™s financial instruments, including cash and cash equivalents, trade accounts receivable, and accounts payable and other accrued expenses are carried at cost, which approximates their fair value because of the short-term maturity of these instruments. Long-lived AssetsIn accordance with Financial Accounting Standards Board (â€œFASBâ€) Accounting Standards Codification (â€œASCâ€) 360, Property, Plant, and Equipment, the Company evaluates the recoverability of long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. During the second quarter of fiscal 2025, the Company experienced a decrease in its market capitalization, along with slower than expected recovery in business performance within the Companyâ€™s On-Demand Talent segment and Europe and Asia Pacific segment. This constituted a triggering event under ASC 360 to evaluate long-lived assets for potential impairment. Accordingly, the Company completed an analysis pursuant to ASC 360-10-35-17 and determined that the expected undiscounted cash flows of the asset group exceeded its carrying amount, indicating that the long-lived assets were not impaired.Goodwill ImpairmentGoodwill is tested for impairment on an annual basis on the first day of the fourth quarter and more frequently if indicators of potential impairment exist. Impairment testing is conducted at the reporting unit level. Under ASC 350, Intangibles - Goodwill and Other, the qualitative assessment requires the consideration of factors such as recent market transactions, macroeconomic conditions, and changes in projected future cash flows or planned revenue or earnings of the reporting unit as potential indicators when determining the need for a quantitative assessment of impairment. Under the quantitative analysis, the estimated fair value of goodwill is determined by using a combination of a market approach and/or an income approach. The market approach estimates fair value by applying revenue and EBITDA multiples to each reporting unitâ€™s operating performance. The multiples are derived from guideline public companies with similar operating and investment characteristics to the Company's reporting units, and are evaluated and adjusted, if needed, based on specific characteristics of the reporting units relative to the selected guideline companies. The market approach requires the Company to make a series of assumptions that involve significant judgment, such as the selection of comparable companies and the evaluation of the multiples. The income approach estimates fair value based on estimated future cash flows of each reporting unit, discounted by an estimated weighted-average cost of capital that reflects the relevant risks associated with each reporting unit and the time value of money. The income approach also requires a series of assumptions that involve significant judgment, such as revenue projections and Adjusted EBITDA margin projections, which are based on historical experience and internal forecasts about future performance.While the Company believes that the assumptions underlying its quantitative assessment are reasonable, these assumptions could have a significant impact on whether a non-cash impairment charge is recognized and the magnitude of 12Table of Contentssuch charge. The results of an impairment analysis are as of a point in time. There is no assurance that the actual future earnings or cash flows of our reporting units will be consistent with the Companyâ€™s projections.During the six months ended November 23, 2024, the Company performed two goodwill impairment assessments. See Note 6 â€“ Goodwill and Intangible Assets for further information.Capitalized Hosting ArrangementsThe capitalized hosting arrangements costs are primarily related to the implementation of a cloud-based enterprise resource planning system and talent acquisition and management systems. Such costs include third party implementation costs and costs associated with internal resources directly involved in the implementation. Capitalized hosting arrangements are stated at historical cost and amortized on a straight-line basis over the estimated useful life of the expected term of the hosting arrangement, taking into consideration several other factors such as, but not limited to, options to extend the hosting arrangement or options to terminate the hosting arrangement. The amortization of capitalized implementation costs for hosting arrangements will commence when the systems are ready for their intended use and will be presented as operating expenses in the Consolidated Statements of Operations consistent with the presentation for expensing the fees for the associated hosting arrangement.As of NovemberÂ 23, 2024, the capitalized costs related to hosting arrangements incurred during the application development stage were $20.1 million. These capitalized hosting arrangements are included in other non-current assets in the Consolidated Balance Sheets, and the Company incurred $0.1 million and $0.2 million of amortization expense during the three and six months ended NovemberÂ 23, 2024, respectively, related to these arrangements. There were $16.1 million of capitalized costs recorded as of MayÂ 25, 2024.Share Repurchases The Companyâ€™s stock repurchase program authorizes the Company to repurchase shares at the discretion of the Companyâ€™s senior executives based on numerous factors, including, without limitation, share price and other market conditions, the Companyâ€™s ongoing capital allocation planning, the levels of cash and debt balances, and other demands for cash. The Company records the shares repurchased as treasury stock based on the amount paid to repurchase its shares. Direct costs incurred to acquire treasury stock are treated like stock issue costs and added to the cost of the treasury stock.See Note 10 â€“ Stockholdersâ€™ Equity for further information on the repurchase of shares of common stock under the stock repurchase program.Reclassifications Certain prior period amounts have been reclassified to conform to current period presentation. These reclassifications had no effect on previously reported totals for assets, liabilities, stockholdersâ€™ equity, cash flows or net income.Recent Accounting Pronouncements On November 4, 2024, the FASB issued Accounting Standards Update (â€œASUâ€) 2024-03, Income Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses. The guidance requires public companies to disclose, in the notes to financial statements, specified information about certain costs and expenses at each interim and annual reporting period. This guidance is effective for public business entities for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. Revenue RecognitionThe timing of revenue recognition, billings and cash collections affects the recognition of trade accounts receivable, contract assets and contract liabilities.13Table of ContentsContract assets represent the Companyâ€™s rights to consideration for completed performance under the contract (i.e., unbilled receivables), in which the Company has transferred control of the product or services before there is an unconditional right to payment. Contract assets were $26.7 million and $29.3 million as of NovemberÂ 23, 2024 and MayÂ 25, 2024, respectively, which were included in trade accounts receivable in the Consolidated Balance Sheets. Contract liabilities represent deferred revenue when cash is received in advance of performance of services and are presented in other current liabilities in the Consolidated Balance Sheets. Contract liabilities were $2.8 million and $3.5 million as of NovemberÂ 23, 2024 and MayÂ 25, 2024, respectively. Revenue recognized during the three and six months ended NovemberÂ 23, 2024 that was included in deferred revenue as of MayÂ 25, 2024 was $0.9 million and $1.5 million, respectively. Revenue recognized during the three and six months ended NovemberÂ 25, 2023 that was included in deferred revenue as of May 27, 2023 was $0.5 million and $2.1 million, respectively.4. AcquisitionsAcquisition of Reference PointOn JulyÂ 1, 2024, the Company entered into an Amended and Restated Membership Interest Purchase Agreement (the â€œReference Point MIPAâ€) with Reference Point LLC (â€œReference Pointâ€) and the holder of all the outstanding membership interests of Reference Point LLC, in which the Company acquired 100% of the membership interests of Reference Point. Reference Point is a strategy, management, and technology consulting firm serving the financial services sector across four areas of focus: Strategy & Management, Risk & Regulatory Compliance, Digital & Technology and Data & Analytics. The Company paid initial cash consideration of $23.0 million (net of $0.2 million cash acquired). The initial consideration is subject to final post-closing adjustments for the final working capital, cash, indebtedness and transaction expenses as described in the Reference Point MIPA.Results of operations of Reference Point are included within the Consulting Services operating segment in the Consolidated Statements of Operations from the date of acquisition. Reference Point contributed $4.8 million and $7.5 million of revenue and $0.6 million and $1.1 million of operating income to the Consolidated Statements of Operations during the three and six months ended NovemberÂ 23, 2024, respectively. During the three and six months ended NovemberÂ 23, 2024, the Company incurred $0.5 million and $1.8 million, respectively, in acquisition costs that were recorded in selling, general and administrative expenses in the Consolidated Statements of Operations. In accordance with ASC 805 Business Combinations, the Company made an initial provisional allocation of the purchase price for Reference Point based on the fair value of the assets acquired and liabilities assumed, with the residual amount recorded as goodwill. The Companyâ€™s provisional purchase price allocation considered a number of factors, including the valuation of identifiable intangible assets. In connection with this acquisition, the Company provisionally recorded total intangible assets consisting of $14.4 million for customer relationships (to be amortized over 11 to 13 years), $0.7 million related to a non-compete agreement (to be amortized over 5 years) and $0.6 million for trade name (to be amortized over 1 year). The Company also provisionally recorded $6.7 million of goodwill. The goodwill is attributable primarily to expected synergies and the assembled workforce of Reference Point.The following table summarizes the consideration for the acquisition of Reference Point and the provisional amounts of the identified assets acquired and liabilities assumed at the acquisition date:Fair value of consideration transferred (in thousands):Cash$23,21514Table of ContentsRecognized provisional amounts of identifiable assets acquired and liabilities assumed (in thousands): Cash and cash equivalents$248Trade accounts receivable (1)2,013Prepaid expenses and other current assets52Intangible assets15,720Property and equipment28Other non-current assets63Total identifiable assets18,124Accounts payable and other accrued expenses47Accrued salaries and related obligations988Other liabilities527Total liabilities assumed1,562Net identifiable assets acquired16,562Goodwill6,653Net assets acquired$23,215(1)As of the acquisition date, the gross contractual amount of accounts receivable of $2.0 million was expected to be fully collected, and was subsequently collected.The purchase price allocation described above is preliminary with respect to the valuation of intangible assets acquired, goodwill, and tax related matters. A final determination of fair value of assets acquired and liabilities assumed relating to the acquisition could differ from the preliminary purchase price allocation. The Company expects to finalize the valuation and complete the purchase price allocation as soon as practicable, but no later than one year from the acquisition date.The weighted-average useful lives of Reference Point's trade name, non-compete agreement and customer relationships are approximately 1 year, 5 years and 12 years, respectively. The weighted-average useful life of all Reference Point's intangible assets is 11.26 years.Acquisition of CloudGoOn November 15, 2023, the Company acquired 100% of the equity interests in CloudGo pursuant to the terms of a Share Purchase Agreement entered into by and between the Company, CloudGo, and the shareholders of CloudGo (the â€œCloudGo SPAâ€). Headquartered in Singapore, CloudGo is a digital transformation firm primarily focused on technology implementation through the ServiceNow platform. The Company paid cash consideration of $7.4 million (net of $0.3 million of cash acquired). In addition, the CloudGo SPA provides for contingent consideration of up to $12.0 million to be paid based on CloudGoâ€™s revenue and operating profit margin performance during two one-year performance periods that began after the acquisition date. The Company determined the fair value of the contingent consideration as of the acquisition date using the Monte Carlo simulation model and the application of an appropriate discount rate (Level 3 fair value). The preliminary fair value of the contractual obligation to pay the contingent consideration amounted to $4.4 million. As of the fourth quarter of fiscal 2024, the Company revised its estimates of CloudGoâ€™s expected revenue and operating profit margin performance for the performance periods, and the Company decreased the fair value of the CloudGo contingent consideration liability to zero as of May 25, 2024, which remained zero as of NovemberÂ 23, 2024. 5. Assets Held for SaleAs of February 24, 2024, the Company determined the asset groups associated with its former corporate office in Irvine, California met the criteria of held for sale, since the Company intended to complete the sale of these assets within the twelve months following the end of the third quarter of fiscal 2024. Accordingly, the related assets classified as held for sale are separately presented in our Consolidated Balance Sheets as of May 25, 2024. In addition, such assets are presented at the lower of carrying value or fair value less any costs to sell. The Company concluded that the offering price of the 15Table of Contentsdisposal assets was an approximate fair value, which exceeded the carrying value of the related assets as of May 25, 2024. As such, the assets held for sale are reported at their carrying value.The following table presents information related to the major classes of assets that were classified as held for sale in our Consolidated Balance Sheets associated with the Company's former corporate office in Irvine, California as described above (in thousands):Assets Held for SaleAs ofIrvine Office BuildingMay 25, 2024Building and land$14,309Â Leasehold improvements321Â Furniture and fixtures1,565Â Total assets held for sale, gross16,195Â Less: accumulated depreciation and amortization(7,286)Total assets held for sale, net$8,909Â Sale of Irvine BuildingThe Company entered into a Purchase and Sale Agreement dated May 15, 2024, and as amended as of May 20, 2024, with a third-party buyer for the sale of its Irvine building for a total purchase price of $13.0 million. During the six months ended November 23, 2024, the Company completed the sale of its Irvine building to the City of Irvine for total consideration of $13.0 million. The transaction closed on August 15, 2024, and resulted in a gain of $3.4 million. The sale does not constitute a discontinued operation. As such, the gain has been recorded as a reduction of selling, general, and administrative expenses in the Consolidated Statement of Operations for the six months ended NovemberÂ 23, 2024.6. Goodwill and Intangible Assets As described in Note 2 â€“ Summary of Significant Accounting Policies, the Company performed interim quantitative goodwill impairment assessments for its reporting units, each of which is also a reporting segment, during the three months ended November 23, 2024 and August 24, 2024, which resulted in pre-tax goodwill impairment charges of $79.5Â million and $3.9Â million, respectively. In the second quarter of fiscal 2025, the Company experienced a decrease in its market capitalization, along with slower than expected recovery in business performance within the On-Demand Talent segment and Europe and Asia Pacific segment. As a result, the Company performed a goodwill impairment assessment for each of its reporting units with associated goodwill, in which the estimated fair values of each reporting unit were compared to its respective carrying amounts. The Companyâ€™s determination of the estimated fair value was based on a combination of the income-based approach and the market-based approach. The income-based approach was based on the present value of discounted cash flows of each reporting unit, using the Companyâ€™s assumptions regarding revenue growth rates, forecasted gross profit margins, forecasted adjusted EBITDA margins, operating costs, tax rates, terminal period growth rates, and other economic and market trends. Additionally, the present value was based on applying a weighted average cost of capital, which considered long-term interest rates and cost of equity based on the reporting segmentâ€™s risk profile. The market-based approach was based on the guideline public company method, which uses market multiples of revenue and earnings before

interest, taxes, depreciation and amortization for a group of comparable public companies. As part of the goodwill impairment test, we reconciled the aggregated estimated fair value of the Company's operating segments to the Companyâ€™s market capitalization, including consideration of any asymmetry in information, and control premium representing the estimated amount a market participant would pay to obtain a controlling interest in the Company.Based on the assessment as of an interim date in the three months ended November 23, 2024, the Company concluded as follows:On-Demand Talent â€“ The carrying value, including $70.2Â million of goodwill, was in excess of its fair value by $48.4Â million. In addition to recording this excess as a goodwill impairment charge, the Company also recorded a $9.3Â million charge related to the deferred tax impacts from the excess carrying value. The Company therefore recorded an aggregate of $57.8Â million in goodwill impairment charges for the On-Demand Talent segment.Consulting â€“ The fair value exceeded its carrying value, including $98.4Â million of goodwill, by 13.3%.16Table of ContentsEurope and Asia Pacific â€“ The carrying value, including $22.0Â million of goodwill, was in excess of its fair value by $26.8Â million. Because the excess of carrying value over fair value exceeded the goodwill balance for the segment, the Company fully impaired the goodwill balance, resulting in goodwill impairment charges of $21.7Â million for the Europe and Asia Pacific segment.Outsourced Services â€“ The fair value exceeded its carrying value, including $28.8Â million of goodwill, by 49.5%.The goodwill impairment assessment in the first quarter of fiscal 2025 was performed concurrently with the change in the Companyâ€™s operating segments, which were aligned to the Companyâ€™s reporting units and reportable segments. As a result of this segment realignment, the Company allocated goodwill to each of its reporting units under the new organizational structure on a relative fair value basis. The Company estimated the fair values of the reporting units based on the income-based approach using the discounted cash flow method, which included assumptions regarding revenue growth rates, forecasted gross profit margins, operating costs, tax rates, terminal period growth rates, and economic and market trends. Additionally, the present value of discounted cash flows was based on applying a weighted average cost of capital, which considered long-term interest rates and cost of equity based on the reporting segmentâ€™s risk profile.As a result of this assessment, in the three months ended August 24, 2024, the Company concluded that the carrying value of the Europe and Asia Pacific segment was in excess of its fair value and recorded a non-cash goodwill impairment charge of $3.9Â million for its Europe and Asia Pacific Segment.In performing the goodwill impairment assessments, the Company considers the assumptions used in determining the estimated fair values of its reporting units to be reasonable and appropriate. However, the assumptions are complex and subjective, and additional adverse changes in a key assumption or a combination of key assumptions may significantly affect the Companyâ€™s assessment of the fair value and goodwill impairment. These assumptions include, among other things, a failure to meet expected earnings or other financial plans; changes in the discount rate, the terminal growth rate or tax rates; or significant changes in industry or economic trends. If the assumptions noted above adversely change, negative macroeconomic conditions worsen or the Companyâ€™s market capitalization decreases for a sustained period of time, the Company may be required to perform additional impairment analysis that could result in additional impairment charges and materially adversely affect the Companyâ€™s financial condition and results of operations.The following table summarizes the activity in the Companyâ€™s goodwill balance. Long-Term Debt On November 12, 2021, the Company and Resources Connection LLC, as borrowers, and all of the Companyâ€™s other domestic subsidiaries, as guarantors, entered into a credit agreement with the lenders that are party thereto and Bank of America, N.A. as administrative agent for the lenders (the â€œCredit Agreementâ€), and concurrently terminated the then existing credit facility. The Credit Agreement provides for a $175.0 million senior secured revolving loan (the â€œCredit Facilityâ€), which includes a $10.0 million sublimit for the issuance of standby letters of credit and a swingline sublimit of $20.0 million. The Credit Facility also includes an option to increase the amount of the revolving loan up to an additional $75.0 million, subject to the terms of the Credit Agreement. The Credit Facility matures on NovemberÂ 12, 2026. The obligations under the Credit Facility are secured by substantially all assets of the Company, Resources Connection LLC and all of the Companyâ€™s domestic subsidiaries.Future borrowings under the Credit Facility bear interest at a rate per annum of either, at the Companyâ€™s election, (i) Term SOFR (as defined in the Credit Agreement) plus a margin ranging from 1.25% to 2.00% or (ii) the Base Rate (as defined in the Credit Agreement), plus a margin of 0.25% to 1.00% with the applicable margin depending on the 19Table of ContentsCompanyâ€™s consolidated leverage ratio. In addition, the Company pays an unused commitment fee on the average daily unused portion of the Credit Facility, which ranges from 0.20% to 0.30% depending on the Companyâ€™s consolidated leverage ratio.The Credit Agreement contains both affirmative and negative covenants. Covenants include, but are not limited to, limitations on the Companyâ€™s and its subsidiariesâ€™ ability to incur liens, incur additional indebtedness, make certain restricted payments, merge or consolidate and make dispositions of assets. In addition, the Credit Agreement requires the Company to comply with financial covenants including limitations on the Companyâ€™s total funded debt, minimum interest coverage ratio and maximum leverage ratio.As of NovemberÂ 23, 2024, the Company was not in compliance with its financial covenant related to the consolidated interest coverage ratio under the Credit Agreement due to the goodwill impairment recognized during the second quarter of fiscal 2025 as described in Note 6 â€“ Goodwill and Intangible Assets; however, the parties entered into an amendment to the Credit Agreement on December 31, 2024 to waive the event of default and amend certain definitions under the Credit Agreement to exclude the impact of goodwill impairments recognized in the first and second quarters of fiscal 2025. As of November 23, 2024, the Company was compliant with all other financial covenants under the Credit Agreement. The Company had no debt outstanding under the Credit Facility as of NovemberÂ 23, 2024 and MayÂ 25, 2024. However, the Company had $1.5 million and $1.4 million of outstanding letters of credit issued under the Credit Facility as of NovemberÂ 23, 2024 and MayÂ 25, 2024, respectively. As of NovemberÂ 23, 2024, there was $173.5 million remaining capacity under the Credit Facility.On NovemberÂ 2, 2022, Resources Global Enterprise Consulting (Beijing) Co., Ltd. (a wholly-owned subsidiary of the Company), as borrower, and the Company, as guarantor, entered into a RMB 13.4 million ($1.8 million based on the prevailing exchange rate on NovemberÂ 2, 2022) revolving credit facility with Bank of America, N.A. (Beijing) as the lender (the â€œBeijing Revolverâ€). The Beijing Revolver bears interest at loan prime rate plus 0.80%. Interest incurred on borrowings will be payable monthly in arrears. As of NovemberÂ 23, 2024, the Company had no debt outstanding under the Beijing Revolver and RMB 13.4 million ($1.9 million based on the prevailing exchange rate on NovemberÂ 23, 2024) in available credit. Income Taxes For the three months ended NovemberÂ 23, 2024, the Companyâ€™s income tax benefit was $7.7 million, an effective tax rate of 10.1%, and for the three months ended November 25, 2023, the Company's income tax expense was $3.8 million, an effective tax rate of 43.4%. For the six months ended NovemberÂ 23, 2024, the Companyâ€™s income tax benefit was $6.7 million, an effective tax rate of 8.2%, and for the six months ended November 25, 2023, the Company's income tax expense was $5.8 million, an effective tax rate of 42.1%. The income tax benefit in fiscal 2025 was primarily attributed to the Companyâ€™s pretax loss. The lower effective benefit rate was due to the non-deductible portion of the goodwill impairment. The higher effective tax rate in fiscal 2024 was attributed primarily to a nonrecurring increase in forfeiture of stock options, coupled with the capitalization of acquisition related costs for tax purposes.The Company operates in an international environment. Accordingly, the consolidated effective tax rate is a composite rate reflecting the earnings (losses) in various locations and the applicable tax rates in those jurisdictions. Fluctuations in the consolidated effective tax rate year over year are due to the changes in the mix of operating income and losses amongst the various jurisdictions in which the Company operates.For the three months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, the Company recognized a tax benefit of approximately $0.8 million and $1.0 million, respectively, associated with the exercise of nonqualified stock options, vesting of restricted stock awards (â€œRSAsâ€), restricted stock units (â€œRSUsâ€), performance-based stock units (â€œPSUsâ€), and disqualifying dispositions by employees of shares acquired under the Company's Employee Stock Purchase Plan (â€œESPPâ€). For the six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, the Company recognized a tax benefit of approximately $1.3 million and $1.2 million, respectively, associated with the exercise of nonqualified stock options, vesting of RSAs, RSUs, PSUs, and disqualifying dispositions by employees of shares acquired under the ESPP.The Companyâ€™s total liability for unrecognized gross tax benefits, including accrued interest and penalties, was $1.1 million and $1.0 million as of NovemberÂ 23, 2024 and MayÂ 25, 2024, which, if ultimately recognized, would impact the effective tax rate in future periods. The unrecognized tax benefits are included in other long-term liabilities in the Consolidated Balance Sheets. None of the unrecognized tax benefits are considered short-term liabilities as the Company does not anticipate any cash payments to settle the liability within the next 12 months.20Table of Contents10. Stockholdersâ€™ Equity Stock Repurchase ProgramThe Companyâ€™s board of directors have previously approved two stock repurchase programs authorizing the repurchase, at the discretion of the Companyâ€™s senior executives, of the Companyâ€™s common stock for a designated aggregate dollar limit. Subject to the aggregate dollar limits, the currently authorized Stock Repurchase Programs do not have an expiration date. On OctoberÂ 17, 2024, the board of directors declared a regular quarterly dividend of $0.14 per share of the Companyâ€™s common stock. The dividend was paid on December 16, 2024 to stockholders of record at the close of business on November 15, 2024. Restructuring ActivitiesDuring fiscal 2024, the Company initiated a cost reduction plan, including a reduction in force (the â€œ2023 U.S. Restructuring Planâ€) intended to reduce costs and streamline operations. The Company incurred employee termination costs associated with the 2023 U.S. Restructuring Plan, which were recorded in selling, general and administrative expenses in its Consolidated Statements of Operations. The 2023 U.S. Restructuring Plan was substantially completed as of the year ended MayÂ 25, 2024. Restructuring costs were $0.3Â million for both the three and six months ended NovemberÂ 23, 2024 and $2.3Â million for both the three and six months ended NovemberÂ 25, 2023. The restructuring liability was zero and $0.8Â million as of NovemberÂ 23, 2024 and MayÂ 25, 2024, respectively. As described in Note 15 â€“ Subsequent Events below, on December 2, 2024, the Company authorized a global reduction in its management and administrative workforce to enhance operational efficiency and reduce costs.12. Stock-Based Compensation Plans GeneralThe Company's stockholders approved the Resources Connection, Inc. 2020 Performance Incentive Plan (the â€œ2020 Planâ€) on October 22, 2020, which replaced and succeeded in its entirety the Resources Connection, Inc. 2014 Performance Incentive Plan (the â€œ2014 Planâ€). On October 17, 2024, the Companyâ€™s stockholders approved an amendment and restatement of the 2020 Plan, which increased the maximum number of shares of the Companyâ€™s common stock authorized for issuance under the 2020 Plan by 815,000 shares. Executive officers and certain employees, as well as non-employee directors of the Company and certain consultants and advisors are eligible to participate in the 2020 Plan. The maximum number of shares of the Companyâ€™s common stock that may be issued or transferred pursuant to awards under the 2020 Plan equals: (1) 815,000 shares, plus (2) 1,797,440 (which represents the number of shares that were available for additional award grant purposes under the 2014 Plan immediately prior to the termination of the authority to grant new awards under the 2014 Plan as of October 22, 2020), plus (3) the number of shares subject to stock options granted under the 2014 Plan or the Resources Connection, Inc. 2004 Performance Incentive Plan (together with the 2014 Plan, the â€œPrior Plansâ€) and outstanding as of October 22, 2020 which expire, or for any reason are cancelled or terminated, after that date 21Table of Contentswithout being exercised, plus (4) the number of any shares subject to RSAs and RSUs granted under the Prior Plans that are outstanding and unvested as of October 22, 2020 which are forfeited, terminated, cancelled, or otherwise reacquired after that date without having become vested.Awards under the 2020 Plan may include, but are not limited to, stock options, stock appreciation rights, restricted stock, performance stock, stock units, stock bonuses and other forms of awards granted or denominated in shares of common stock or units of common stock, as well as certain cash bonus awards. Historically, the Company has granted RSAs and RSUs under the 2020 Plan that typically vest in equal annual installments, and PSUs under the 2020 Plan that vest upon the achievement of certain Company-wide performance targets at the end of the defined performance period. Stock option grants typically terminate ten years from the date of grant. Vesting periods for RSAs, RSUs and stock option awards range from three to four years. The performance periods for the PSUs are three years. As of NovemberÂ 23, 2024, there were 888,113 shares available for further award grants under the 2020 Plan (with outstanding PSUs counted for this purpose based on the target number of shares granted).Stock-Based Compensation Expense Stock-based compensation expense included in selling,

general and administrative expenses was $1.9 million and $0.5 million for the three months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, respectively, and $3.5 million and $3.1 million for the six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, respectively. These amounts consisted of stock-based compensation expense related to employee stock options, RSAs, RSUs and PSUs under the 2020 Plan and Prior Plans, employee stock purchases made via the ESPP, and stock units credited under the Directors Deferred Compensation Plan. The Company recognized a tax benefit of $0.5 million and a near zero tax benefit associated with such stock-based compensation expense during the three months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, respectively, and $0.8 million and $0.6 million during the six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, respectively. The Company recognizes stock-based compensation expense on time-vesting equity awards ratably over the applicable vesting period based on the grant date fair value, net of estimated forfeitures. Expense related to the liability-classified awards reflects the change in fair value during the reporting period. The number of PSUs earned at the end of the applicable performance period may equal, exceed or be less than the targeted number of shares depending on whether the performance criteria are met, surpassed or not met. During each reporting period, the Company uses the latest forecasted results to estimate the number of shares to be issued at the end of the performance period. Any resulting changes to stock compensation expense are adjusted in the period in which the change in estimates occur.Stock Options The following table summarizes the stock option activity for the six months ended NovemberÂ 23, 2024 (in thousands, except weighted-average exercise price): Number of OptionsWeighted-Average Exercise PriceAwards outstanding at May 25, 20242,185$16.36Â Exercisedâ€”Â $â€”Â Forfeitedâ€”Â $â€”Â Expired(280)$13.14Â Awards outstanding at November 23, 20241,905$16.94Â Exercisable at November 23, 20241,905$16.94Â Vested and expected to vest at November 23, 2024 (1)1,905$16.94Â (1)The options expected to vest are the result of applying the pre-vesting forfeiture rate assumptions to options not yet vested. Segment Information and Enterprise ReportingThe tables below reflect the operating results of the Companyâ€™s segments consistent with the management and performance measurement system utilized by the Company. During the first quarter of fiscal 2025, the Company reorganized its business segments to better align with changes in its internal operating model and financial reporting, which is used for performance assessment and resource allocation by the CODMs. All prior year periods presented were recast to reflect the impact of the preceding segment changes. See Note 2 â€“ Summary of Significant Accounting Policies for further discussion about the Companyâ€™s operating and reportable segments.Performance measurement is based on segment Adjusted EBITDA. Adjusted EBITDA is defined as net (loss) income before amortization expense, depreciation expense, interest and income taxes excluding stock-based compensation expense, technology transformation costs, goodwill impairment, acquisition costs, gain on sale of assets, and restructuring costs. Adjusted EBITDA at the segment level excludes certain shared corporate administrative costs that are not practical to allocate. The Companyâ€™s CODMs do not evaluate segments using asset information. 24Table of ContentsThe following table discloses the Companyâ€™s revenue and Adjusted EBITDA by segment for both periods presented (in thousands): Three Months EndedSix Months EndedNovember 23,2024November 25,2023November 23,2024November 25,2023Revenue:On-Demand Talent$53,452$70,949$105,925$148,923Consulting60,64359,058115,668115,903Europe & Asia Pacific19,70121,80237,68445,069Outsourced Services9,4269,06618,91718,484All Other2,3962,2524,3594,917Total consolidated revenue$145,618$163,127$282,553$333,296Adjusted EBITDA:On-Demand Talent$5,605$8,662$8,164$17,219Consulting9,72310,92817,47619,457Europe & Asia Pacific1,4801,7011,7073,405Outsourced Services1,5461,7782,9403,326All Other(526)(534)(993)(463)Unallocated items (1)(8,172)(6,474)(17,318)(15,337)Adjustments:Stock-based compensation expense(1,948)(516)(3,509)(3,068)Technology transformation costs (2)(2,043)(1,678)(3,901)(3,601)Acquisition costs (3)(515)(1,126)(1,804)(1,126)Goodwill impairment (4)(79,482)â€”(83,337)â€”Gain on sale of assets (5)â€”â€”3,420â€”Restructuring cost (6)(299)(2,255)(252)(2,255)Amortization expense(1,569)(1,321)(3,054)(2,635)Depreciation expense(462)(810)(1,002)(1,687)Interest income, net215293363605(Loss) income before income tax benefit (expense)(76,447)8,648(81,100)13,840Income tax benefit (expense)7,732(3,753)6,678(5,828)Net (loss) income$(68,715)$4,895$(74,422)$8,012(1) Unallocated items are generally comprised of unallocated corporate administrative costs, including management and board compensation, corporate support function costs and other general corporate costs that are not allocated to segments.(2) Technology transformation costs represent costs included in net income related to the Companyâ€™s initiative to upgrade its technology platform globally, including a cloud-based enterprise resource planning system and talent acquisition and management systems. Overview Resources Global Professionals (â€œRGP,â€ â€œwe" or â€œusâ€) is a professional services firm based in Dallas, Texas (with offices worldwide) focused on delivering consulting execution services that power clientsâ€™ operational needs and change initiatives utilizing a combination of bench and on-demand, expert and diverse talent. As a next-generation human capital partner for our clients, we specialize in leadership and co-delivery of enterprise initiatives typically precipitated by business transformation, strategic transactions or regulatory change. We attract top-caliber professionals with in-demand skill sets who seek a workplace environment characterized by choice and control, collaboration and human connection. The trends in todayâ€™s marketplace favor flexibility and agility as businesses confront transformation pressures and skilled labor shortages even in the face of protracted economic uncertainty. Our client engagement and talent delivery model offer speed and agility, strongly positioning us to help clients transform their businesses and workforce. Our model is especially relevant at a time where cost reduction initiatives drive an enhanced reliance on a flexible workforce to execute transformational projects.We are laser-focused on driving long-term growth in our business by seizing favorable macro shifts in workforce strategies and preferences, building an efficient and scalable operating model, and maintaining a distinctive culture and approach to professional services. Our enterprise initiatives in recent years include refining the operating model for sales, talent and delivery to be more client-centric, cultivating a more robust performance culture by aligning incentives to business performance, enhancing our consulting capabilities in digital transformation to align with market demand, improving operating leverage through pricing and a more efficient cost structure, and driving growth through strategic acquisitions. In May 2024, we reorganized our business into three distinct engagement models to create greater clarity for all stakeholders and to better serve our clients. By offering On-Demand Talent, Consulting, and Outsourced Services within one enterprise, we can deliver what clients want today â€“ flexibility, value and integrated service solutions. We believe our focus and execution around this new operating model will serve as the foundation for growth ahead. As further described under Operating Results of Segments below, in connection with this reorganization, management completed an assessment of our operating segments and concluded that we now have five reportable segments comprising each of these engagement models (On-Demand Talent, Consulting, and Outsourced Services), Europe & Asia Pacific and All Other (which includes our Sitrick operating segment).Fiscal 2025 Strategic Focus AreasBuilding upon the foundation we established through fiscal 2024, we will continue to execute the following enterprise growth drivers in fiscal 2025:â€¢Evolve and execute under our new business segmentsâ€

¢Launch and activate new brand identity; andâ€¢Enhance digital and AI capabilities.Evolve and execute under our new business segments â€“ Our first area of focus for fiscal 2025 is to evolve our business by focusing on three core engagement models: On-Demand Talent, Consulting, and Outsourced Services. Our On-Demand Talent business is branded â€œOn-Demand by RGPTM,â€ our Consulting business is called â€œVeracity by RGPTMâ€ and our Outsourced Services business is CountsyÂ®. We expect this shift to reduce market and buyer confusion, enhance our ability to focus on our core strengths and areas of expertise, and provide greater optionality for our buying set to engage with RGP. This new organizational structure will enable us to better serve our clients along their transformation journey by providing targeted skill sets, high value consulting services, and outsourced delivery under a single umbrella. Our approach combines flexibility, best of breed technology, and human-centered design with functional and subject matter expertise. This year, we will clarify and operationalize these models to unlock the cross selling of our diversified capabilities throughout our blue-chip, loyal and longstanding client base. Part of the growth plan for our consulting business includes leveraging On-Demand by RGPTM for greater financial flexibility and better skill set alignment. Our growing consulting capability provides us with deeper visibility into our clientsâ€™ transformation agendas to drive greater opportunity for our 28Table of Contentson-demand execution capabilities. In our outsourced services business, we have expanded Countsyâ€™s total addressable market beyond the start-up ecosystem to serve the finance, accounting and human resources needs surrounding spin-outs and carve-outs. Europe and Asia will continue to operate in the geographic regions as one business segment, serving our clients with consulting capabilities and On-Demand Talent. Evolving our business through this reorganization ensures that we are well positioned to execute and succeed as the macro environment recovers.Launch and activate new brand â€“ Our second focus area for this fiscal year is to launch and activate a new brand identity and brand architecture in the marketplace. The central objective behind our brand refresh is to clarify to stakeholders what we do, who we serve, when to call us, and the impact we deliver. Under this new architecture, RGP serves as an enterprise parent brand, representing a family of brands that are comprised of On-Demand by RGPTM, Veracity by RGPTM and Countsy by RGPTM. We have refreshed our digital properties to reflect our new brand identity and align them with our new brand architecture as part of this effort. We believe these changes will result in clarity around our full suite of capabilities and create greater understanding of the value we can bring to our clients across a broader spectrum. Enhance digital and AI capabilities â€“ Our third focus area for fiscal 2025 is continuing to expand and enhance our technology, digital and data capabilities across all business units. The increased adoption of digital tools, remote work styles, generative artificial intelligence, and globalization is driving new areas of need within our client base. We are actively adding skilled on-demand and consulting professionals in areas such as technology migration, cybersecurity, data modernization and data privacy, and user experience to proactively meet these evolving client needs. Under the Veracity by RGPTM consulting business we are bringing together our digital transformation business and the deep functional expertise within RGPâ€™s legacy Project Consulting Services (PCS) group. We believe this combined offering will uniquely position us to offer our clients integrated end-to-end consulting solutions in the digital arena.On July 1, 2024, we acquired Reference Point LLC (â€œReference Pointâ€). See Note 4 â€“ Acquisitions included in Part I, Item 1 of this Quarterly Report on Form 10-Q for further discussion about our acquisition of Reference Point. Reference Point is reported within the Consulting Services operating segment from the date of acquisition. With the addition of Reference Point, we are also now able to bring tailored technology and data modernization offerings to our many financial services industry clients. Market Trends and UncertaintiesOn a macro level, uncertain macroeconomic conditions including ambiguity around interest rates, softening labor markets and fluctuations in currency exchange rates have created significant uncertainty in the global economy, volatility in the capital markets and recessionary pressures, which has adversely impacted our financial results. We expect these conditions will continue through the rest of fiscal 2025. While we are not able to fully predict the potential impact, we continue to see caution in professional services spending within our client base. If these conditions persist and a prolonged economic downturn or recession develops, it could result in further decline in billable hours and negatively impact our bill rates which would adversely affect our financial results and operating cash flows.Critical Accounting Policies and EstimatesThe following discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments. Actual results may differ from these estimates under different assumptions or conditions. Our significant accounting policies are discussed in Note 2 â€“ Summary of Significant Accounting Policies in the Notes to Consolidated Financial Statements included in Item 7 of Part II of our Fiscal Year 2024 Form 10-K, and in Note 2 â€“ Summary of Significant Accounting Policies in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q. The Company performed interim quantitative goodwill impairment assessments for its reporting units, each of which is also a reporting segment, during the three months ended November 23, 2024 and August 24, 2024, which resulted in pre-tax goodwill impairment charges of $79.5Â million and $3.9Â million, respectively. In the second quarter of fiscal 2025, the Company experienced a decrease in its market capitalization, along with slower than expected recovery in business performance within the On-Demand Talent segment and Europe and Asia Pacific segment. As a result, the Company performed a goodwill impairment assessment for each of its reporting units with associated goodwill, in which the estimated fair values of each reporting unit were compared to its respective carrying amounts. Based on this 29Table of Contentsassessment, the Company recorded a goodwill impairment charge of $57.8 million in the On-Demand Talent segment and $21.7 million for the Europe and Asia Pacific segment for the second quarter of fiscal 2025.In performing the goodwill impairment assessments, the Company considers the assumptions used in determining the estimated fair values of its reporting units to be reasonable and appropriate. However, the assumptions are complex and subjective, and additional adverse changes in a key assumption or a combination of key assumptions may significantly affect the Companyâ€™s assessment of the fair value and goodwill impairment. These assumptions include, among other things, a failure to meet expected earnings or other financial plans; changes in the discount rate, the terminal growth rate or tax rates; or significant changes in industry or economic trends. If the assumptions noted above adversely change, negative macroeconomic conditions worsen or the Companyâ€™s market capitalization decreases for a sustained period of time, the Company may be required to perform additional impairment analysis that could result in additional impairment charges and materially adversely affect the Companyâ€™s financial condition and results of operations. See Note 6 â€“ Goodwill and Intangible Assets in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q.There have been no material changes in our critical accounting policies, or in the estimates and assumptions underlying those policies, from those described under the heading â€œCritical Accounting Policies and Estimatesâ€ in Item 7 of Part II of our Fiscal Year 2024 Form 10-K. Non-GAAP Financial MeasuresWe use certain non-GAAP financial measures to assess our financial and operating performance that are not defined by or calculated in accordance with GAAP. A non-GAAP financial measure is defined as a numerical measure of a companyâ€™s financial performance that (i) excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the comparable measure calculated and presented in accordance with GAAP in the Consolidated Statements of Operations; or (ii) includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the comparable GAAP measure so calculated and presented.Our primary non-GAAP financial measures are listed below and reflect how we evaluate our operating results: â€¢Same-day constant currency revenue is adjusted for the following items:â—¦Currency impact. In order to remove the impact of fluctuations in foreign currency exchange rates, we calculate same-day constant currency revenue, which represents the outcome that would have resulted had exchange rates in the current period been the same as those in effect in the comparable prior period. â—¦Business days impact. In order to remove the fluctuations caused by comparable periods having a different number of business days, we calculate same-day revenue as current period revenue (adjusted for currency impact) divided by the number of business days in the current period, multiplied by the number of business days in the comparable prior period. The number of business days in each respective period is provided in the â€œNumber of Business Daysâ€ section in the table below.â€¢EBITDA is calculated as net (loss) income before amortization expense, depreciation expense, interest and income taxes.â€¢Adjusted EBITDA is calculated as EBITDA excluding stock-based compensation expense, technology transformation costs, acquisition costs, goodwill impairment, gain on sale of assets and restructuring adjustments. We also present herein Adjusted EBITDA at the segment level as a measure used to assess the performance of our segments. Segment Adjusted EBITDA excludes certain shared corporate administrative costs that are not practical to allocate. See Note 14 â€“ Segment Information and Enterprise Reporting in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q for further information.â€¢Adjusted EBITDA Margin is calculated by dividing Adjusted EBITDA by revenue.30Table of ContentsSame-Day Constant Currency RevenueSame-day constant currency revenue assists management in evaluating revenue trends on a more comparable and consistent basis. Further, a limitation of our non-GAAP financial measures is that they exclude items detailed above that have an impact on our GAAP reported results. Other companies in our industry may calculate these non-GAAP financial measures differently than we do, limiting their usefulness as a comparative measure. Because of these limitations, these 32Table of Contentsnon-GAAP financial measures should not be considered a substitute but rather considered in addition to performance measures calculated in accordance with GAAP. Revenue decreased $17.5Â million, or 10.7%, to $145.6Â million in the second quarter of fiscal 2025 from $163.1Â million in the second quarter of fiscal 2024. On a same-day constant currency basis, revenue decreased by $21.5Â million, or 13.2%. Similar to previous quarters, the demand environment continued to be choppy. While certain pockets within the business have started to show some improvement, which we attribute to improving business confidence post-election and interest rate cuts, clients are still measured in their decisions to move forward with transformation projects or filling professional interim needs. Timelines for opportunities to close in the pipeline continue to be extended compared to previous years. Compared to the prior year quarter, billable hours decreased by 11.2%, while the average bill rate increased by 0.8% (also 0.8% on a constant currency basis). The year-over-year improvement in average bill rate is attributable to an ongoing focus on value-based pricing, although average bill rate will continue to reflect the global revenue mix with a higher proportion of revenue being delivered in Asia Pacific and Mexico where average bill rates are significantly lower than the United States (â€œU.S.â€) and Europe.Direct Cost of Services. Direct cost of services decreased $10.1Â million, or 10.2%, to $89.5Â million for the second quarter of fiscal 2025 from $99.7Â million in the second quarter of fiscal 2024. The decrease in direct cost of services was primarily attributable to a 11.2% decline in billable hours as a result of reduced client spending as noted above, partially offset by a 1.7% (also 1.7% on a constant currency basis) increase in average pay rate during the quarter ended NovemberÂ 23, 2024 compared to the prior year quarter. 33Table of ContentsDirect cost of services as a percentage of revenue was 61.5% for the second quarter of fiscal 2025 compared to 61.1% for the second quarter of fiscal 2024. The increased percentage compared to the prior year quarter was primarily due higher pay/bill ratio and lower utilization of salaried consultants, partially offset by a favorable impact from the timing of the Thanksgiving holidays (not in the second quarter of fiscal 2025). We continue to seek improvement in the overall pay/bill ratio and indirect cost leverage through strategic pricing, while offering competitive compensation and benefits to our consultants to attract and retain the best talent in the marketplace. The number of consultants on assignment at the end of the

second quarter of fiscal 2025 was 2,639 compared to 3,167 at the end of the second quarter of fiscal 2024.Selling, General and Administrative Expenses. Selling, general and administrative expenses (â€œSG&Aâ€) was $51.3Â million, or 35.2% of revenue, for the second quarter of fiscal 2025 compared to $53.0Â million, or 32.5% of revenue, for the second quarter of fiscal 2024. The $1.7Â million decrease in SG&A year-over-year was primarily due to $2.0 million decrease in employee termination benefits largely attributable to the cost reduction plan (the â€œ2023 U.S. Restructuring Planâ€) initiated in October 2023, $1.2 million lower employee compensation expense, a $0.7 million reduction in employee health benefit expenses, and a $0.6 million decrease in costs related to acquisitions. These reductions were partially offset by a $1.4 million increase in stock compensation expense as a result of forfeitures as well as the remeasurement of achievement associated with performanceâ€'based equity awards, both of which were recorded in the second quarter of fiscal 2024. The second quarter of fiscal 2025 additional had a $0.7 million increase in bad debt expense.Management and administrative headcount was 749 at the end of the second quarter of fiscal 2025 and 850 at the end of the second quarter of fiscal 2024. Management and administrative headcount includes full time equivalent headcount for our seller-doer group, a consulting term for a professional who balances business development activities with billable work for clients, which is determined by utilization levels achieved by the seller-doers. Any unutilized time is converted to full time equivalent headcount.Goodwill Impairment. During the second quarter of fiscal 2025, in light of the decline in the Company's market capitalization, along with slower than expected recovery in business performance within the Companyâ€™s On-Demand Talent segment and Europe and Asia Pacific segment, the Company conducted a goodwill impairment analysis and recorded a non-cash impairment charge of $79.5 million, which included $57.8 million recorded in the On-Demand Talent segment and $21.7 million recorded in the Europe and Asia Pacific segment. See Note 6 â€“ Goodwill and Intangible Assets in the Notes to Consolidated Financial Statements for further information.Income Taxes. Income tax benefit was $7.7Â million, reflecting an effective tax rate of 10.1%, for the second quarter of fiscal 2025 compared to an income tax expense of $3.8Â million, or an effective tax rate of 43.4%, for the second quarter of fiscal 2024. We record tax expense based upon actual results versus a forecasted tax rate because of the volatility in our international operations that span numerous tax jurisdictions. The income tax benefit in the quarter ended NovemberÂ 23, 2024 was primarily attributed to the Companyâ€™s pretax loss. The lower effective benefit rate was due to the non-deductible portion of the goodwill impairment. The higher effective tax rate in the second quarter of fiscal 2024 was attributed primarily to a nonrecurring increase in forfeiture of stock options, coupled with the capitalization of acquisition related costs for tax purposes.We recognized a tax benefit of approximately $0.8Â million and $1.0Â million during the second quarters of fiscal 2025 and fiscal 2024, respectively, associated with the exercise of nonqualified stock options, vesting of restricted stock awards (â€œRSAsâ€), restricted stock units (â€œRSUsâ€), performance-based stock units (â€œPSUsâ€), and disqualifying dispositions by employees of shares acquired under the Company's Employee Stock Purchase Plan (â€œESPPâ€).Periodically, we review the components of both book and taxable income to prepare the tax provision. There can be no assurance that our effective tax rate will remain constant in the future because of the lower benefit from the U.S. statutory rate for losses in certain foreign jurisdictions, the limitation on the benefit for losses in jurisdictions in which a valuation allowance for operating loss carryforwards has previously been established, and the unpredictability of timing and the amount of disqualifying dispositions of certain stock options. Consolidated Operating Results â€“ Six Months Ended NovemberÂ 23, 2024 Compared to Six Months Ended NovemberÂ 25, 2023Revenue. Revenue decreased $50.7Â million, or 15.2%, to $282.6Â million for the six months ended NovemberÂ 23, 2024 from $333.3Â million for the six months ended NovemberÂ 25, 2023. On a same-day constant currency basis, revenue for the six months ended NovemberÂ 23, 2024 decreased by $53.9Â million, or 16.2% compared to the six months ended NovemberÂ 25, 2023. The decrease is primarily due to reduced client spending across a majority of our markets, client 34Table of Contentssegments and solution offerings as a result of the persistently challenging global macroeconomic environment. The time to close opportunities in the pipeline continued to be protracted, typical in a tougher macro environment when clients are more hesitant to spend on professional services. Billable hours decreased by 13.2% and the average bill rate declined by 1.6% (also 1.6% on a constant currency basis) from the six months ended NovemberÂ 25, 2023. Direct Cost of Services. Direct cost of services decreased $26.3Â million, or 13.0%, to $176.5Â million for the six months ended NovemberÂ 23, 2024 from $202.8Â million for the six months ended NovemberÂ 25, 2023. The decrease in direct cost of services was primarily attributable to a 13.2% decline in billable hours as a result of reduced client spending as noted above and a 1.7% decrease (or flat on a constant currency basis) in average pay rate in the six months ended NovemberÂ 23, 2024 compared to the six months ended NovemberÂ 25, 2023. Direct cost of services as a percentage of revenue was 62.5% for the six months ended NovemberÂ 23, 2024 compared to 60.9% for the six months ended NovemberÂ 25, 2023. The increased percentage compared to the prior year period was primarily due to an 80 basis point increase in the pay/bill ratio based on a constant currency, lower utilization of salaried consultants and less favorable leverage on indirect cost of services as a result of lower revenue, partially offset by the favorable timing of the Thanksgiving holiday in the U.S. (not in the six months ended NovemberÂ 25, 2023).Selling, General and Administrative Expenses. SG&A was $100.2Â million, or 35.5% of revenue, for the six months ended NovemberÂ 23, 2024 compared to $112.9Â million, or 34.0% of revenue, for the six months ended NovemberÂ 25, 2023. The $12.7Â million decrease in SG&A year-over-year was primarily attributed to lower employee compensation expense of $7.6 million largely resulting from the 2023 U.S. Restructuring Plan initiated in October 2023 and ongoing alignment of resource capacity to demand, a $3.4 million gain on the sale of the Irvine office building, a decrease of $2.0 million of employee termination benefits in connection with the 2023 U.S. Restructuring Plan in the previous fiscal year, a $1.0 million reduction in employee health benefit expenses and a decrease of $0.8 million in computer software and certain professional services fees. These reductions were partially offset by a $0.7 million increase in costs related to acquisitions and a $0.5 million increase in bad debt expense.Goodwill Impairment. During the first quarter of fiscal 2025, the Company completed a goodwill impairment assessment concurrent with its segment change and concluded that the carrying value of the Europe and Asia Pacific segment was in excess of its fair value. As a result, the Company recorded a non-cash impairment charge of $3.9 million. In the second quarter of fiscal 2025, in light of the decline in the Company's market capitalization, along with slower than expected recovery in business performance within the Companyâ€™s On-Demand Talent segment and Europe and Asia Pacific segment, the Company conducted a goodwill impairment analysis and recorded a non-cash impairment charge of $79.5 million in the On-Demand Talent and Europe and Asia Pacific segments. See Note 6 â€“ Goodwill and Intangible Assets in the Notes to Consolidated Financial Statements for further information.Income Taxes. Income tax benefit was $6.7Â million, reflecting an effective tax rate of 8.2%, for the six months ended NovemberÂ 23, 2024 compared to income tax expense of $5.8Â million, or an effective tax rate of 42.1%, for the six months ended NovemberÂ 25, 2023. We record tax expense based upon actual results versus a forecasted tax rate because of the volatility in our international operations that span numerous tax jurisdictions. The income tax benefit in the six months ended NovemberÂ 23, 2024 was primarily attributed to the Companyâ€™s pretax loss. The lower effective benefit rate was due to the non-deductible portion of the goodwill impairment. The higher effective tax rate in the six months ended NovemberÂ 25, 2023 was attributed primarily to a nonrecurring increase in forfeiture of stock options, coupled with the capitalization of acquisition related costs for tax purposes.The Company recognized a tax benefit of approximately $1.3 million and $1.2Â million for the six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, respectively, associated with the exercise of nonqualified stock options, vesting of RSAs, RSUs, PSUs, and disqualifying dispositions by employees of shares acquired under the ESPP.Comparability of Quarterly Results. Our quarterly results have fluctuated in the past and we believe they will continue to do so in the future. Certain factors that could affect our quarterly operating results are described in Part I, Item 1A of our Fiscal Year 2024 Form 10-K and our other public filings made with the SEC. Due to these and other factors, we believe quarter-to-quarter comparisons of our results of operations may not be meaningful indicators of future performance.35Table of ContentsOperating Results of SegmentsDuring the first quarter of fiscal 2025, the Company identified the following newly defined operating segments: â€¢On-Demand Talent â€“ operating under the On-Demand by RGPTM brand, this segment provides businesses with a go-to source for bringing in experts when they need them.â€¢Consulting â€“ operating under the Veracity by RGPTM brand, this segment drives transformation across people, processes and technology across domain areas including finance, technology and digital, risk and compliance and supply chain transformation.â€¢Europe & Asia Pacific â€“ is a geographically defined segment that offers both on-demand and consulting services (excluding the digital consulting business, which is included in our Consulting segment) to clients throughout Europe and Asia Pacific.â€¢Outsourced Services â€“ operating under the Countsy by RGPâ„¢ brand, this segment offers finance, accounting and HR services provided to startups, spinouts and scale-up enterprises, utilizing a technology platform and fractional team.â€¢Sitrick â€“ a crisis communications and public relations firm that operates under the Sitrick brand, providing corporate, financial, transactional and crisis communication and management services.Our reportable segments are comprised of On-Demand Talent, Consulting, Outsourced Services, and Europe & Asia Pacific. All prior year periods presented were recast to reflect the impact of the preceding segment changes. On July 1, 2024, we acquired Reference Point, which is reported within the Consulting operating segment from the date of acquisition. 36Table of ContentsThe following table presents our current operating results by segment for the three and six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, respectively (in thousands, except percentages and average bill rates).Three Months Ended Six Months EndedNovember 23,2024% of Revenue (1)November 25,2023% of Revenue (1)November 23,2024% of Revenue (1)November 25,2023% of Revenue (1)Adjusted EBITDA: (Unaudited)(Unaudited)(Unaudited)(Unaudited)On-Demand Talent$5,605Â 10.5%$8,662Â 12.2%$8,164Â 7.7%$17,219Â 11.6%Consulting9,723Â 16.0%10,928Â 18.5%17,476Â 15.1%19,457Â 16.8%Europe & Asia Pacific1,480Â 7.5%1,701Â 7.8%1,707Â 4.5%3,405Â 7.6%Outsourced Services1,546Â 16.4%1,778Â 19.6%2,940Â 15.5%3,326Â 18.0%All Other(526)(22.0Â %)(534)(23.7Â %)(993)(22.8Â %)(463)(9.4Â %)Unallocated items (2)(8,172)(6,474)(17,318)(15,337)Adjustments:Stock-based compensation expense(1,948)(516)(3,509)(3,068)Technology transformation costs (3)(2,043)(1,678)(3,901)(3,601)Acquisition costs (4)(515)(1,126)(1,804)(1,126)Goodwill impairment (5)(79,482)â€”(83,337)â€”Gain on sale of assets (6)â€”Â â€”Â 3,420Â â€”Â Restructuring cost (7)(299)(2,255)(252)(2,255)Amortization expense(1,569)(1,321)(3,054)(2,635)Depreciation expense(462)(810)(1,002)(1,687)Interest income, net215Â 293Â 363Â 605Â (Loss) income before income tax benefit (expense)(76,447)8,648Â (81,100)13,840Â Income tax benefit (expense)7,732(3,753)6,678(5,828)Net (loss) income$(68,715)$4,895$(74,422)$8,012(1)Segment Adjusted EBITDA Margin is calculated by dividing segment Adjusted EBITDA by segment revenue. See Note 6 â€“ Goodwill and Intangible Assets in the Notes to Consolidated Financial Statements for further discussion.(6) Gain on sale of assets was related to the Companyâ€™s sale of its Irvine office building, which was completed on August 15, 2024.(7) The Company initiated a U.S. restructuring plan in October 2023 and substantially completed the 2023 U.S. restructuring plan during fiscal 2024.37Table of ContentsRevenue by SegmentOn-Demand Talent â€“ Revenue in the On-Demand Talent segment declined by $17.5 million or 24.7%, to $53.5 million in the second quarter of fiscal 2025 compared to $70.9 million in the second quarter of fiscal 2024. The decline was primarily due to lower demand across solution areas amongst economic uncertainty, with billable hours decreasing by 21.7% and a 2.8% (also 2.8% on a constant currency basis) decline in average bill rate. The reduction in average bill rate was primarily due to revenue mix weighing more heavily in Mexico which carries significantly lower average bill rate. For the six months ended NovemberÂ 23, 2024, On-Demand Talent segment revenue decreased by $43.0 million or 28.9%, to $105.9 million compared to $148.9 million for the six months ended NovemberÂ 25, 2023, primarily as a result of a 26.2% decrease in billable hours and a 3.5% (or 2.8% on a constant currency basis) decrease in average bill rate due to revenue mix weighing more heavily in Mexico.Consulting â€“ Revenue in the Consulting segment increased by $1.6 million or 2.7%, to $60.6 million in the second quarter of fiscal 2025 compared to $59.1 million in the second quarter of fiscal 2024. The growth was primarily due to a 6.2% (also 6.2% on a constant currency basis) increase in the average bill rate, partially offset by the billable hours declining by 3.6%. The improvement in average bill rate was largely attributable to the Companyâ€™s value pricing initiative as well as the addition of Reference Point (acquired in the first fiscal quarter of 2025) which carries a significantly higher average bill rate. Reference point contributed $4.8 million of revenue during the second fiscal quarter. For the six months ended NovemberÂ 23, 2024, Consulting segment revenue of $115.7 million remained relatively flat compared to the six months ended NovemberÂ 25, 2023.Europe and Asia Pacific â€“ Revenue in the Europe and Asia Pacific segment declined by $2.1 million or 9.6%, to $19.7 million in the second quarter of fiscal 2025 compared to $21.8 million in the second quarter of fiscal 2024. The average bill rate for the Europe and Asia Pacific segment declined by 3.3% (or 6.6% on a constant currency basis) and the billable hours decreased by 5.3% year-over-year. This segment experienced delays in decision making and project starts as clients sorted through their own organizational challenges amidst economic uncertainty most notably in Europe. Asia Pacific performed relatively more resiliently than Europe, large global clients continued to drive demand in this region. Pricing competition remained fierce across the region, from the big 4 firms as well as local boutique firms. Additionally, with a higher proportion of revenue in Asia Pacific in the second quarter of fiscal 2025, which carries significantly lower average bill rates. For the six months ended NovemberÂ 23, 2024, Europe and Asia Pacific segment revenue decreased by $7.4 million or 16.4%, to $37.7 million compared to $45.1 million for the six months ended NovemberÂ 25, 2023, primarily as a result of a 6.5% decrease in billable hours and a 9.5% (also 9.5% on a constant currency basis) decrease in average bill rate.Outsourced Services â€“ Revenue in the Outsourced Services segment increased by $0.4 million or 4.0%, to $9.4 million in the second quarter of fiscal 2025 compared to $9.1 million in the second quarter of fiscal 2024. The growth was primarily due to a 2.2% (or 2.2% on a constant currency basis) increase in the average bill rate and a 1.7% increase in the billable hours. For the six months ended NovemberÂ 23, 2024, Outsourced Services segment revenue increased by $0.4 million or 2.3%, to $18.9 million compared to $18.5 million for the six months ended NovemberÂ 25, 2023, primarily as a result of a 1.5% increase in billable hours and a 0.7% (also 0.7% on a constant currency basis) increase in average bill rate year-over-year.All Other â€“ Revenue in the All Other segment of $2.4 million in the second quarter of fiscal 2025 remained relatively flat compared to the prior year quarter. For the six months ended NovemberÂ 23, 2024, All Other segment revenue decreased by $0.6 million or 11.3%, to $4.4 million compared to $4.9 million for the six months ended NovemberÂ 25, 2023. The billable hours decreased by 24.7% partially offset by the increase in average bill rate by 20.1% (also 20.1% on a constant currency basis). Adjusted EBITDA by SegmentOn-Demand Talent â€“ The On-Demand Talent segmentâ€™s Adjusted EBITDA decreased by $3.1Â million or 35.3%, to $5.6 million for the second quarter of fiscal 2025, compared to $8.7 million for the second quarter of fiscal 2024. Compared to the prior year quarter, revenue decreased $17.5 million for the second quarter of fiscal 2025, which was partially offset by the decrease in the related cost of services of $11.4 million. Additionally, SG&A costs decreased by $3.1 million for the second quarter of fiscal 2025 as compared to the second quarter of fiscal 2024 primarily due to the decrease in employee compensation expense. 38Table of ContentsFor the six months ended NovemberÂ 23, 2024, the On-Demand Talent segmentâ€™s Adjusted EBITDA decreased by $9.1Â million or 52.6%, to $8.2Â million, compared to $17.2 million for the six months ended NovemberÂ 25, 2023. Compared to the prior year period, revenue decreased by $43.0 million, which was partially offset by the decrease in the related cost of services of $25.6 million. Additionally, SG&A costs decreased by $8.4 million for the six months ended NovemberÂ 23, 2024 as compared to the six months ended NovemberÂ 25, 2023 primarily due to decreases in employee compensation expense.Consulting â€“ The Consulting segmentâ€™s Adjusted EBITDA decreased by $1.2Â million or 11.0%, to $9.7 million for the second quarter of fiscal 2025, compared to $10.9 million for the second quarter of fiscal 2024. Compared to the prior year quarter, revenue increased by $1.6 million, which was offset by the related cost of services increasing by $2.1 million. Additionally, SG&A costs increased by $0.6 million for the second quarter of fiscal 2025 as compared to the second quarter of fiscal 2024 primarily due to the increase in general and administrative expenses. For the six months ended NovemberÂ 23, 2024, the Consulting segmentâ€™s Adjusted EBITDA decreased by $2.0Â million or 10.2%, to $17.5Â million, compared to $19.5Â million for the six months ended NovemberÂ 25, 2023. Compared to the prior year period, revenue remained relatively flat but the related cost of services increased by $2.9 million compared to the prior year period. Partially offsetting the adverse impact from revenue and cost of services, SG&A costs decreased by $1.2 million for the six months ended NovemberÂ 23, 2024 as compared to the six months ended NovemberÂ 25, 2023 primarily due to the decrease in employee compensation expense.Europe & Asia Pacific â€“ The Europe & Asia Pacific segmentâ€™s Adjusted EBITDA decreased by $0.2Â million or 13.0%, to $1.5 million for the second quarter of fiscal 2025, compared to $1.7 million for the second quarter of fiscal 2024. Compared to the prior year quarter, revenue decreased $2.1 million, which was partially offset by the decrease in the related cost of services of $1.2 million. Additionally, SG&A costs decreased by $0.6 million for the second quarter of

fiscal 2025 as compared to the second quarter of fiscal 2024 primarily due to decreases in employee compensation expense. For the six months ended NovemberÂ 23, 2024, the Europe & Asia Pacific segmentâ€™s Adjusted EBITDA decreased by $1.7Â million or 49.9%, to $1.7Â million, compared to $3.4 million for the six months ended NovemberÂ 25, 2023. Compared to the prior year period, revenue decreased $7.4 million, which was partially offset by the decrease in the related cost of services of $4.3 million. Additionally, SG&A costs decreased by $1.3 million for the six months ended NovemberÂ 23, 2024 as compared to the six months ended NovemberÂ 25, 2023 primarily due to decreases in employee compensation expense. Outsourced Services â€“ The Outsourced Services segmentâ€™s Adjusted EBITDA declined slightly by $0.2Â million or 13.0% to $1.5Â million in the second quarter of fiscal 2025, compared to $1.7 million for the second quarter of fiscal 2024. This decline was primarily driven by increase in cost of services.For the six months ended NovemberÂ 23, 2024, the Outsourced services segment declined by $0.4Â million or 11.6%, to $2.9Â million compared to $3.3Â million for the six months ended NovemberÂ 25, 2023 due to increase in cost of services.All Other â€“ The All Other segment's Adjusted EBITDA of $(0.5)Â million for the second quarter of fiscal 2025 remained flat compared to the prior year quarter. For the six months ended NovemberÂ 23, 2024, the All Other segment declined by $0.5Â million or 114.5%, to $(1.0)Â million compared to $(0.5)Â million for the six months ended NovemberÂ 25, 2023 due to lower revenue performance.Liquidity and Capital ResourcesOur primary sources of liquidity are cash provided by operating activities, our $175.0 million senior secured revolving credit facility (as discussed further below) and historically, to a lesser extent, stock option exercises and ESPP purchases. During the six months ended NovemberÂ 23, 2024, we generated positive cash flow from operations and have generated positive cash flows from operations on an annual basis since inception. Our ability to generate positive cash flows from operations in the future will depend, at least in part, on global economic conditions and our ability to remain resilient during periods of deteriorating macroeconomic conditions and any economic downturns. As of NovemberÂ 23, 2024, we had $78.2Â million of cash and cash equivalents, including $42.1 million held in international operations.On November 12, 2021, we and Resources Connection LLC, as borrowers, and all of our domestic subsidiaries, as guarantors, entered into a credit agreement with the lenders that are party thereto and Bank of America, N.A. as 39Table of Contentsadministrative agent for the lenders (the â€œCredit Agreementâ€). The Credit Agreement provides for a $175.0 million senior secured revolving loan (the â€œCredit Facilityâ€), which includes a $10.0 million sublimit for the issuance of standby letters of credit and a swingline sublimit of $20.0 million. The Credit Facility also includes an option to increase the amount of the revolving loan up to an additional $75.0 million, subject to the terms of the Credit Agreement. The Credit Facility matures on November 12, 2026. The obligations under the Credit Facility are secured by substantially all of our assets, and assets of Resources Connection LLC and all of our domestic subsidiaries.Future borrowings under the Credit Facility bear interest at a rate per annum of either, at our election, (i) Term SOFR (as defined in the Credit Agreement) plus a margin ranging from 1.25% to 2.00% or (ii) the Base Rate (as defined in the Credit Agreement), plus a margin of 0.25% to 1.00% with the applicable margin depending on our consolidated leverage ratio. In addition, we pay an unused commitment fee on the average daily unused portion of the Credit Facility, which ranges from 0.20% to 0.30% depending upon our consolidated leverage ratio. As of NovemberÂ 23, 2024, we had no debt outstanding under the Credit Facility and $173.5 million remaining capacity under the Credit Facility.On December 31, 2024, the parties entered into an amendment to the Credit Agreement to waive an event of default related to the consolidated interest coverage ratio under the Credit Agreement and to amend certain definitions under the Credit Agreement to exclude the impact of goodwill impairments recognized in the first and second quarters of fiscal 2025.The Credit Facility is available for working capital and general corporate purposes, including potential acquisitions, dividend distribution and stock repurchases. Additional information regarding the Credit Facility is included in Note 8 â€“ Long-Term Debt in the Notes to Consolidated Financial Statements included in Part I, Item I of this Quarterly Report on Form 10-Q.On November 2, 2022, Resources Global Enterprise Consulting (Beijing) Co., Ltd, (our wholly owned subsidiary), as borrower, and we, as guarantor, entered into a RMB 13.4 million ($1.8 million based on the prevailing exchange rate on November 2, 2022) revolving credit facility with Bank of America, N.A. (Beijing) as the lender (the â€œBeijing Revolverâ€). The Beijing Revolver bears interest at a loan prime rate plus 0.80%. Interest incurred on borrowings will be payable monthly in arrears. As of NovemberÂ 23, 2024, we had no debt outstanding under the Beijing Revolver.In addition to cash needs for ongoing business operations, from time to time, we have strategic initiatives that could generate significant additional cash requirements. Our initiative to upgrade our technology platform, as described in â€œFiscal 2025 Strategic Focus Areasâ€ above, required significant investments over multiple years. Such costs primarily include software licensing fees, third-party implementation and consulting fees, incremental costs associated with additional internal resources needed on the project and other costs in areas including change management and training. As of NovemberÂ 23, 2024, we capitalized $20.1 million related to the technology platform initiative. We went live on the new technology platform in most of North America in December and we are currently working on the implementation timing and roadmap to rollout to our Europe and Asia Pacific regions. We believe our current cash, ongoing cash flows from our operations and funding available under our Credit Facility will provide sufficient funds for these initiatives. As of NovemberÂ 23, 2024, we have non-cancellable purchase obligations totaling $8.0 million, which primarily consists of payments pursuant to the licensing arrangements that we have entered into in connection with the technology platform initiative: $1.5 million due during fiscal 2025; $3.4 million due during fiscal 2026; $2.1 million due during fiscal 2027; $1.0 million due during fiscal 2028; and zero due thereafter.In addition, we pay a regular quarterly dividend to our stockholders, subject to approval each quarter by our board of directors. Most recently, on December 16, 2024 we paid a dividend of $0.14 per share of our common stock to stockholders of record at the close of business on November 15, 2024. Continuation of the quarterly dividend is at the discretion of the board of directors and depends upon our financial condition, results of operations, capital requirements, general business condition, contractual restrictions contained in the Credit Facility and other agreements, and other factors deemed relevant by our board of directors.We entered into a Membership Interest Purchase Agreement, dated as of March 27, 2024, and as amended and restated as of June 30, 2024 (the â€œReference Point MIPAâ€) with Reference Point and the sole member of Reference Point, pursuant to which we acquired 100% of the membership interests of Reference Point. During the six months ended November 23, 2024, we paid an initial cash consideration of $23.0 million (net of $0.2 million cash acquired). See Note 4 â€“ Acquisitions in the Notes to Consolidated Financial Statements for further information.As described under â€œMarket Trends and Uncertaintiesâ€ above, uncertain macroeconomic conditions including ambiguity around interest rates, softening labor markets and fluctuations in currency exchange rates have created 40Table of Contentssignificant uncertainty in the global economy, volatility in the capital markets and recessionary pressures, which have adversely impacted, and may continue to adversely impact, our financial results, operating cash flows, and liquidity needs. If we are required to raise additional capital or incur additional indebtedness for our operations or to invest in our business, we can provide no assurances that we would be able to do so on acceptable terms or at all. Our ongoing operations and growth strategy may require us to continue to make investments in critical markets and further expand our internal technology and digital capabilities. In addition, we may consider making additional strategic acquisitions or initiating additional restructuring initiatives, which could require significant liquidity and adversely impact our financial results due to higher cost of borrowings. We believe that our current cash, ongoing cash flows from our operations and funding available under our Credit Facility will be adequate to meet our working capital and capital expenditure needs for at least the next 12 months.Beyond the next 12 months, if we require additional capital resources to grow our business, either organically or through acquisitions, we may seek to sell additional equity securities, increase the use of our Credit Facility, expand the size of our Credit Facility or raise additional debt. In addition, if we decide to make additional share repurchases, we may fund these through existing cash balances or the use of our Credit Facility. The sale of additional equity securities or certain forms of debt financing could result in additional dilution to our stockholders. Our ability to secure additional financing in the future, if needed, will depend on several factors. These include our future profitability and the overall condition of the credit markets. Notwithstanding these considerations, we expect to meet our long-term liquidity needs with cash flows from operations and financing arrangements. Other than as described herein, there have been no material changes to our material cash requirements, including commitments for capital expenditures, described under the heading â€œLiquidity and Capital Resourcesâ€ in Item 7 of Part II of our Fiscal Year 2024 Form 10-K. Operating ActivitiesOperating activities for the first six months of fiscal 2025 provided cash of $1.5Â million compared to $1.8Â million of cash used in the first six months of fiscal 2024. The cash provided by operations for the first six months of fiscal 2025 was primarily driven by the non-cash adjustments of $80.3Â million (primarily due to the non-cash goodwill impairment), which was offset by a net loss of $74.4Â million and net unfavorable changes in operating assets and liabilities of $4.4Â million. These net unfavorable changes in operating assets and liabilities were driven by a $3.7Â million increase in other assets largely related to the investments in our technology implementation, a $1.7Â million decrease in accounts payable and other accrued expenses, a $1.5 million increase in prepaid expenses and other current assets, and a $0.7Â million increase in prepaid income taxes. Offsetting these unfavorable changes were a $1.8Â million decrease in trade accounts receivable, a $0.8Â million increase in other liabilities, and a $0.7Â million increase in accrued salaries and related obligations, mainly due to the timing of our pay cycle.In the first six months of fiscal 2024, cash used in operations resulted from net income of $8.0Â million, non-cash adjustments of $8.6Â million, and net unfavorable changes in operating assets and liabilities totaling $18.4Â million, which primarily consisted of a $17.2Â million decrease in accrued salaries and related obligations, mainly due to the timing of our pay cycle and the payout of the annual incentive compensation during the first six months of fiscal 2024, a $5.8 million increase in other assets primarily due to the capitalized implementation costs for hosting arrangements, and a $2.3Â million increase in prepaid expenses and other current assets, partially offset by an $8.3Â million decrease in trade accounts receivable, a $2.6Â million increase in accounts payable and other accrued expenses, and a $4.0 million increase in income taxes payable and other liabilities.Investing ActivitiesNet cash used in investing activities was $12.7Â million for the first six months of fiscal 2025 compared to $8.1Â million for the first six months of fiscal 2024. Net cash used in investing activities for the first six months of fiscal 2025 was primarily related to $23.0Â million of net cash used towards the acquisition of Reference Point and $2.0 million of cash used for the development of internal-use software and acquisition of property and equipment, partially offset by the $12.3Â million in net proceeds from the sale of the Irvine office building. Net cash used in investing activities in the first six months of fiscal 2024 was primarily related to the $7.2Â million acquisition of CloudGo the development of internal-use software and acquisition of property and equipment. Financing ActivitiesNet cash used in financing activities totaled $17.4Â million in the first six months of fiscal 2025 compared to $11.2Â million in the first six months of fiscal 2024. Net cash used in financing activities during the first six months of fiscal 41Table of Contents2025 consisted of $10.0Â million to purchase 1,028,315 shares of common stock on the open market and cash dividend payments of $9.4Â million; these uses were partially offset by $2.0 million in proceeds received from ESPP share purchases. Net cash used in financing activities during the first six months of fiscal 2024 consisted of cash dividend payments of $9.4 million and $5.0Â million to purchase 353,858 shares of common stock on the open market; these uses were partially offset by $3.2 million in proceeds received from ESPP share purchases and employee stock option exercises.ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK. Interest Rate Risk. We are primarily exposed to market risks from fluctuations in interest rates and the effects of those fluctuations on the market values of our cash and cash equivalents and our borrowings under the Credit Facility that bear interest at a variable market rate. As of NovemberÂ 23, 2024, we had approximately $78.2Â million of cash and cash equivalents. The earnings on cash and cash equivalents are subject to changes in interest rates; however, assuming a constant balance available for investment, a 10% decline in interest rates would reduce our interest income but would not have a material impact on our consolidated financial position or results of operations. As of NovemberÂ 23, 2024, we had no outstanding debt under our Credit Facility. We are exposed to interest rate risk related to fluctuations in the term SOFR rate and, to a lesser extent, the loan prime rate on the Beijing Revolver. See â€œLiquidity and Capital Resourcesâ€ above and Note 8 â€“ Long-Term Debt in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q for further discussion about the interest rate on our Credit Facility and the Beijing Revolver. To the extent that there is a significant increase in the level of borrowings, a sharp rise in interest rate could have a material impact on our consolidated financial position or results of operations.Foreign Currency Exchange Rate Risk. For the six months ended NovemberÂ 23, 2024, approximately 18.2% of our revenues were generated outside of the U.S. As a result, our operating results are subject to fluctuations in the exchange rates of foreign currencies in relation to the U.S. dollar. Revenues and expenses denominated in foreign currencies are translated into U.S. dollars at the monthly average exchange rates prevailing during the period. Thus, as the value of the U.S. dollar fluctuates relative to the currencies in our non-U.S.-based operations, our reported results may vary. Assets and liabilities of our non-U.S.-based operations are translated into U.S. dollars at the exchange rate effective at the end of each monthly reporting period. Approximately 46.2% of our balances of cash and cash equivalents as of NovemberÂ 23, 2024 were denominated in U.S. dollars. The remaining amount of approximately 53.8% was comprised primarily of cash balances translated from Euros, British Pound Sterling, Japanese Yen, Canadian Dollar, Chinese Yuan, Indian Rupee, and Mexican Pesos. This compares to approximately 59.2% of our cash and cash equivalents balances as of MayÂ 25, 2024 that were denominated in U.S. dollars and approximately 40.8% that were comprised primarily of cash balances translated from Euros, Japanese Yen, Mexican Pesos, Chinese Yuan, Canadian Dollar, Indian Rupee and British Pound Sterling. The difference resulting from the translation in each period of assets and liabilities of our non-U.S.-based operations is recorded as a component of stockholdersâ€™ equity in accumulated other comprehensive income or loss. Although we monitor our exposure to foreign currency fluctuations, we do not currently use financial hedges to mitigate risks associated with foreign currency fluctuations including in a limited number of circumstances when we may be asked to transact with our client in one currency but are obligated to pay our consultants in another currency. Our foreign entities typically transact with clients and consultants in their local currencies and generate enough operating cash flows to fund their own operations. We believe our economic exposure to exchange rate fluctuations has not been material. However, we cannot provide assurance that exchange rate fluctuations will not adversely affect our financial results in the future. 42Table of ContentsITEM 4. CONTROLS AND PROCEDURES. Evaluation of Disclosure Controls and ProceduresAs required by Rule 13a-15(b) under the Exchange Act, the Company carried out an evaluation, under the supervision and with the participation of the Companyâ€™s management, including the Companyâ€™s Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Companyâ€™s disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of November 23, 2024. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as a result of a material weakness in internal control over financial reporting that is described below, our disclosure controls and procedures were not effective as of November 23, 2024.Material Weakness in Internal Control over Financial ReportingDuring the first quarter of fiscal 2025, the Company reorganized its business segments and, as a result, the Company was required to perform an interim goodwill impairment analysis on the new reporting units as of May 26, 2024. During completion of such goodwill impairment analysis, the management review control that related to the review of certain inputs into the valuation analysis, as well as related disclosures, did not operate effectively. The ineffective operation of the management review control resulted in a change to the goodwill impairment amount recorded for the Europe and Asia Pacific segment as of August 24, 2024. The total goodwill impairment recorded in the first quarter of fiscal 2025 was $3.9 million. This misstatement was identified and corrected prior to release of the Companyâ€™s Form 10-Q for the first quarter of fiscal 2025.Remediation of Material WeaknessWith oversight from the audit committee of our board of directors (the â€œAudit Committeeâ€), management has enhanced and implemented changes in controls intended to remediate the material weakness described in the Material Weakness in Internal Control over Financial Reporting section above and to improve our internal control over financial reporting as noted below. We took the following remedial actions to improve controls and procedures:â€¢Enhanced managementâ€™s review of the work performed by any valuation specialists used in preparing our goodwill impairment analysis. This includes formalized review procedures to ensure consistency and accuracy.â€¢Improved documentation standards for inputs and assumptions used in the valuation analysis such that all critical inputs, including data provided by third-party valuation specialists, is supported by clear and comprehensive documentation. â€¢Enhanced the design and operation of our controls related to agreeing disclosures to supporting documents through improved version control management and review procedures.â€¢Enhanced supervision over third-party valuation specialists by engaging an additional external expert to further challenge the Company and the preparer of any impairment analysis regarding the assumptions used and conclusions drawn.Management has overseen the planning and execution of the remediation steps described above and believes the steps taken will have addressed the material weakness described above; however, more time is needed for the improved controls to operate and undergo testing of effectiveness before the above material weakness can be deemed remediated. Changes in Internal Controls over Financial ReportingOther than the remediation measures described above, there were no changes to our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act) that occurred during the fiscal quarter ended November 23, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.As of the filing of this Form 10-Q, the material weakness described above has not been remediated because the applicable controls must operate for a sufficient period of time and management must conclude, through testing, that the controls are designed and operating effectively. Based on the implementation of the remedial actions taken, management 43Table of Contentswill continue to monitor and test controls for effectiveness through the end of the observation period, which is expected to be through the end of the fiscal year

These financial statements include all adjustments (consisting only of normal recurring adjustments) the Companyâ€™s management considers necessary for a fair presentation of its financial position at such dates and the operating results and cash flows for those periods. The financial statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although management believes these estimates and assumptions are adequate, actual results could differ from the estimates and assumptions used.The fiscal 2024 year-end balance sheet data was derived from audited consolidated financial statements, and certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to Securities and Exchange Commission (â€œSECâ€) rules or regulations; however, the Company believes the disclosures made are adequate to make the information presented not misleading. The unaudited consolidated results of operations for the interim periods presented are not necessarily indicative of the results of operations to be expected for the full fiscal year. These interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended MayÂ 25, 2024, which are included in the Companyâ€™s Annual Report on Form 10-K (â€œFiscal Year 2024 Form 10-Kâ€) filed with the SEC on July 22, 2024 (File No. 0-32113). A complete listing of the Companyâ€™s significant accounting policies is discussed in Note 2 â€“ Summary of Significant Accounting Policies in the Notes to Consolidated Financial Statements included in the Fiscal Year 2024 Form 10-K. Reporting SegmentsDuring the first quarter of fiscal 2025, the Chief Executive Officer, the Companyâ€™s Chief Operating Decision Maker (â€œCODMâ€), announced a decision to reorganize the Companyâ€™s business by forming multiple discrete operational business units. To align the new operating model and financial reporting, the Company made management organizational changes and implemented new reporting modules and processes to provide discrete information to manage the business. During the first quarter of fiscal 2025, the Company completed its assessment of the Company's operating segments and identified the following newly defined operating segments:â€¢On-Demand Talent â€“ operating under the On-Demand by RGPTM brand, this segment provides businesses with a go-to source for bringing in experts when they need them. â€¢Consulting â€“ operating under the Veracity by RGPTM brand, this segment drives transformation across people, processes and technology across domain areas including finance, technology and digital, risk and compliance and supply chain transformation. â€¢Europe & Asia Pacific â€“ is a geographically defined segment that offers both on-demand and consulting services (excluding the digital consulting business, which is included in our Consulting segment) to clients throughout Europe and Asia Pacific.â€¢Outsourced Services â€“ operating under the Countsy by RGPTM brand, this segment offers finance, accounting and HR services provided to startups, spinouts and scale-up enterprises, utilizing a technology platform and fractional team.â€¢Sitrick â€“ a crisis communications and public relations firm which operates under the Sitrick brand, providing corporate, financial, transactional and crisis communication and management services.Each of these segments reports through a separate segment manager to the Companyâ€™s Chief Executive Officer and Chief Operating Officer, who are collectively designated as the CODMs for segment reporting purposes. The Company's reportable segments are comprised of On-Demand Talent, Consulting, Europe & Asia Pacific, and Outsourced Services. Sitrick does not individually meet the quantitative thresholds to qualify as a reportable segment. Therefore, Sitrick is disclosed under the â€œAll Otherâ€ segment. Each of these segments represents a reporting unit for the purposes of assessing goodwill for impairment.On July 1, 2024, the Company acquired Reference Point LLC (â€œReference Pointâ€). See Note 4 â€“ Acquisitions for further discussion about the Companyâ€™s acquisition of Reference Point. Reference Point is reported within the Consulting Services operating segment from the date of acquisition.All prior year periods presented were recast to reflect the impact of the preceding segment changes. See Note 14 â€“ Segment Information and Enterprise Reporting for further information.Per Share Information The Company presents both basic and diluted (loss) earnings per share (â€œEPSâ€). Basic EPS is calculated by dividing net (loss) income by the weighted-average number of common shares outstanding during the period. Diluted EPS is based upon the weighted-average number of common shares and potentially dilutive common shares outstanding during the period. Potentially dilutive shares of common stock include the assumed exercise of outstanding in-the-money stock options, assumed issuance of common stock under the Company's 2019 Employee Stock Purchase Plan, as amended (â€œESPPâ€), assumed release of outstanding restricted stock awards (â€œRSAsâ€), restricted stock units (â€œRSUsâ€) and performance stock units (â€œPSUsâ€) using the treasury stock method. However, potentially dilutive shares of common stock are excluded from the computation in periods in which they have an anti-dilutive effect.During the three and six months ended NovemberÂ 23, 2024, the Company incurred a net loss, and as a result potentially dilutive common shares issuable from the assumed exercise of stock options and the assumed release of shares of common stock under the outstanding ESPP, RSAs, RSUs, and PSUs awards were not included in the diluted shares used to calculate net loss per share, as their inclusion would have been anti-dilutive.The following table summarizes the calculation of net (loss) income per common share for the three and six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023 (in thousands, except per share amounts): Three Months Ended Six Months EndedNovember 23,2024November 25,2023November 23,2024November 25,2023Net (loss) income$(68,715)$4,895Â $(74,422)$8,012Â Weighted-average shares outstanding:Basic weighted-average shares33,04633,40933,22633,410Effect of dilutive shares:Potentially dilutive stock optionsâ€”52â€”89Potentially dilutive employee stock purchase planâ€”â€”â€”â€”Potentially dilutive restricted stock awardsâ€”62â€”58Potentially dilutive restricted stock unitsâ€”188â€”200Potentially dilutive performance stock unitsâ€”190â€”188Diluted weighted-average shares outstanding33,04633,90133,22633,945Net (loss) income per common share:Basic (2.08)0.15(2.24)0.24Diluted(2.08)0.14(2.24)0.24The following table sets forth the potentially dilutive shares excluded from the computation of the diluted net (loss) income per common share because their effect was anti-dilutive (in thousands):Three Months EndedSix Months EndedNovember 23,2024November 25,2023November 23,2024November 25,2023Stock options1,9262,2251,9521,999Employee stock purchase plan41227â€”Restricted stock awards10021041Restricted stock units87357505Performance stock unitsâ€”â€”â€”â€”Total2,9402,2542,8132,005Financial InstrumentsThe fair value of the Companyâ€™s financial instruments reflects the amounts that the Company estimates it will receive in connection with the sale of an asset in an orderly transaction between market participants at the measurement date (exit price). The fair value hierarchy prioritizes the use of inputs used in valuation techniques into the following three levels: Level 1 â€“ Quoted prices in active markets for identical assets and liabilities.Level 2 â€“ Observable inputs other than quoted prices in active markets for identical assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.Level 3 â€“ Unobservable inputs. Contingent consideration liability is for estimated future contingent consideration payments related to the Companyâ€™s acquisitions. Total contingent consideration liability related to the acquisition of CloudGo Pte. Ltd. (â€œCloudGoâ€) was preliminarily valued at $4.5 million as of November 25, 2023 and zero as of NovemberÂ 23, 2024 and MayÂ 25, 2024. The fair value measurement of the liability was based on significant inputs not observed in the market and thus represents a Level 3 measurement. The significant unobservable inputs used in the fair value measurement of the contingent consideration liability at these dates were the Companyâ€™s measures of the estimated payouts based on internally generated financial projections and discount rates. The fair value of contingent consideration liability will be remeasured on a quarterly basis until settlement by the Company using additional information as it becomes available, and any change in the fair value estimates will be recorded in selling, general and administrative expenses in the Companyâ€™s Consolidated Statements of Operations. Future revisions to these significant unobservable inputs and the assumptions underlying them could materially change the estimate of the fair value of contingent consideration and therefore could materially affect the Companyâ€™s future operating results.The Companyâ€™s financial instruments, including cash and cash equivalents, trade accounts receivable, and accounts payable and other accrued expenses are carried at cost, which approximates their fair value because of the short-term maturity of these instruments. Long-lived AssetsIn accordance with Financial Accounting Standards Board (â€œFASBâ€) Accounting Standards Codification (â€œASCâ€) 360, Property, Plant, and Equipment, the Company evaluates the recoverability of long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. During the second quarter of fiscal 2025, the Company experienced a decrease in its market capitalization, along with slower than expected recovery in business performance within the Companyâ€™s On-Demand Talent segment and Europe and Asia Pacific segment. This constituted a triggering event under ASC 360 to evaluate long-lived assets for potential impairment. Accordingly, the Company completed an analysis pursuant to ASC 360-10-35-17 and determined that the expected undiscounted cash flows of the asset group exceeded its carrying amount, indicating that the long-lived assets were not impaired.Goodwill ImpairmentGoodwill is tested for impairment on an annual basis on the first day of the fourth quarter and more frequently if indicators of potential impairment exist. Impairment testing is conducted at the reporting unit level. Under ASC 350, Intangibles - Goodwill and Other, the qualitative assessment requires the consideration of factors such as recent market transactions, macroeconomic conditions, and changes in projected future cash flows or planned revenue or earnings of the reporting unit as potential indicators when determining the need for a quantitative assessment of impairment. Under the quantitative analysis, the estimated fair value of goodwill is determined by using a combination of a market approach and/or an income approach. The market approach estimates fair value by applying revenue and EBITDA multiples to each reporting unitâ€™s operating performance. The multiples are derived from guideline public companies with similar operating and investment characteristics to the Company's reporting units, and are evaluated and adjusted, if needed, based on specific characteristics of the reporting units relative to the selected guideline companies. The market approach requires the Company to make a series of assumptions that involve significant judgment, such as the selection of comparable companies and the evaluation of the multiples. The income approach estimates fair value based on estimated future cash flows of each reporting unit, discounted by an estimated weighted-average cost of capital that reflects the relevant risks associated with each reporting unit and the time value of money. The income approach also requires a series of assumptions that involve significant judgment, such as revenue projections and Adjusted EBITDA margin projections, which are based on historical experience and internal forecasts about future performance.While the Company believes that the assumptions underlying its quantitative assessment are reasonable, these assumptions could have a significant impact on whether a non-cash impairment charge is recognized and the magnitude of such charge. The results of an impairment analysis are as of a point in time. There is no assurance that the actual future earnings or cash flows of our reporting units will be consistent with the Companyâ€™s projections.During the six months ended November 23, 2024, the Company performed two goodwill impairment assessments. See Note 6 â€“ Goodwill and Intangible Assets for further information.Capitalized Hosting ArrangementsThe capitalized

hosting arrangements costs are primarily related to the implementation of a cloud-based enterprise resource planning system and talent acquisition and management systems. Such costs include third party implementation costs and costs associated with internal resources directly involved in the implementation. Capitalized hosting arrangements are stated at historical cost and amortized on a straight-line basis over the estimated useful life of the expected term of the hosting arrangement, taking into consideration several other factors such as, but not limited to, options to extend the hosting arrangement or options to terminate the hosting arrangement. The amortization of capitalized implementation costs for hosting arrangements will commence when the systems are ready for their intended use and will be presented as operating expenses in the Consolidated Statements of Operations consistent with the presentation for expensing the fees for the associated hosting arrangement.As of NovemberÂ 23, 2024, the capitalized costs related to hosting arrangements incurred during the application development stage were $20.1 million. These capitalized hosting arrangements are included in other non-current assets in the Consolidated Balance Sheets, and the Company incurred $0.1 million and $0.2 million of amortization expense during the three and six months ended NovemberÂ 23, 2024, respectively, related to these arrangements. There were $16.1 million of capitalized costs recorded as of MayÂ 25, 2024.Share Repurchases The Companyâ€™s stock repurchase program authorizes the Company to repurchase shares at the discretion of the Companyâ€™s senior executives based on numerous factors, including, without limitation, share price and other market conditions, the Companyâ€™s ongoing capital allocation planning, the levels of cash and debt balances, and other demands for cash. The Company records the shares repurchased as treasury stock based on the amount paid to repurchase its shares. Direct costs incurred to acquire treasury stock are treated like stock issue costs and added to the cost of the treasury stock.See Note 10 â€” Stockholdersâ€™ Equity for further information on the repurchase of shares of common stock under the stock repurchase program.Reclassifications Certain prior period amounts have been reclassified to conform to current period presentation. Reference Point is a strategy, management, and technology consulting firm serving the financial services sector across four areas of focus: Strategy & Management, Risk & Regulatory Compliance, Digital & Technology and Data & Analytics. The Company paid initial cash consideration of $23.0 million (net of $0.2 million cash acquired). The initial consideration is subject to final post-closing adjustments for the final working capital, cash, indebtedness and transaction expenses as described in the Reference Point MIPA.Results of operations of Reference Point are included within the Consulting Services operating segment in the Consolidated Statements of Operations from the date of acquisition. Reference Point contributed $4.8 million and $7.5 million of revenue and $0.6 million and $1.1 million of operating income to the Consolidated Statements of Operations during the three and six months ended NovemberÂ 23, 2024, respectively. During the three and six months ended NovemberÂ 23, 2024, the Company incurred $0.5 million and $1.8 million, respectively, in acquisition costs that were recorded in selling, general and administrative expenses in the Consolidated Statements of Operations. In accordance with ASC 805 Business Combinations, the Company made an initial provisional allocation of the purchase price for Reference Point based on the fair value of the assets acquired and liabilities assumed, with the residual amount recorded as goodwill. The Companyâ€™s provisional purchase price allocation considered a number of factors, including the valuation of identifiable intangible assets. In connection with this acquisition, the Company provisionally recorded total intangible assets consisting of $14.4 million for customer relationships (to be amortized over 11 to 13 years), $0.7 million related to a non-compete agreement (to be amortized over 5 years) and $0.6 million for trade name (to be amortized over 1 year). The Company also provisionally recorded $6.7 million of goodwill. The goodwill is attributable primarily to expected synergies and the assembled workforce of Reference Point.The following table summarizes the consideration for the acquisition of Reference Point and the provisional amounts of the identified assets acquired and liabilities assumed at the acquisition date:Fair value of consideration transferred (in thousands):Cash$23,215Recognized provisional amounts of identifiable assets acquired and liabilities assumed (in thousands): Cash and cash equivalents$248Trade accounts receivable (1)2,013Prepaid expenses and other current assets52Intangible assets15,720Property and equipment28Other non-current assets63Total identifiable assets18,124Accounts payable and other accrued expenses47Accrued salaries and related obligations988Other liabilities527Total liabilities assumed1,562Net identifiable assets acquired16,562Goodwill6,653Net assets acquired$23,215(1)As of the acquisition date, the gross contractual amount of accounts receivable of $2.0 million was expected to be fully collected, and was subsequently collected.The purchase price allocation described above is preliminary with respect to the valuation of intangible assets acquired, goodwill, and tax related matters. A final determination of fair value of assets acquired and liabilities assumed relating to the acquisition could differ from the preliminary purchase price allocation. The Company expects to finalize the valuation and complete the purchase price allocation as soon as practicable, but no later than one year from the acquisition date.The weighted-average useful lives of Reference Point's trade name, non-compete agreement and customer relationships are approximately 1 year, 5 years and 12 years, respectively. The weighted-average useful life of all Reference Point's intangible assets is 11.26 years.Acquisition of CloudGoOn November 15, 2023, the Company acquired 100% of the equity interests in CloudGo pursuant to the terms of a Share Purchase Agreement entered into by and between the Company, CloudGo, and the shareholders of CloudGo (the â€œCloudGo SPAâ€). Headquartered in Singapore, CloudGo is a digital transformation firm primarily focused on technology implementation through the ServiceNow platform. The Company paid cash consideration of $7.4 million (net of $0.3 million of cash acquired). In addition, the CloudGo SPA provides for contingent consideration of up to $12.0 million to be paid based on CloudGoâ€™s revenue and operating profit margin performance during two one-year performance periods that began after the acquisition date. The Company determined the fair value of the contingent consideration as of the acquisition date using the Monte Carlo simulation model and the application of an appropriate discount rate (Level 3 fair value). The preliminary fair value of the contractual obligation to pay the contingent consideration amounted to $4.4 million. As of the fourth quarter of fiscal 2024, the Company revised its estimates of CloudGoâ€™s expected revenue and operating profit margin performance for the performance periods, and the Company decreased the fair value of the CloudGo contingent consideration liability to zero as of May 25, 2024, which remained zero as of NovemberÂ 23, 2024. In the second quarter of fiscal 2025, the Company experienced a decrease in its market capitalization, along with slower than expected recovery in business performance within the On-Demand Talent segment and Europe and Asia Pacific segment. As a result, the Company performed a goodwill impairment assessment for each of its reporting units with associated goodwill, in which the estimated fair values of each reporting unit were compared to its respective carrying amounts. The Companyâ€™s determination of the estimated fair value was based on a combination of the income-based approach and the market-based approach. The income-based approach was based on the present value of discounted cash flows of each reporting unit, using the Companyâ€™s assumptions regarding revenue growth rates, forecasted gross profit margins, forecasted adjusted EBITDA margins, operating costs, tax rates, terminal period growth rates, and other economic and market trends. Additionally, the present value was based on applying a weighted average cost of capital, which considered long-term interest rates and cost of equity based on the reporting segmentâ€™s risk profile. The market-based approach was based on the guideline public company method, which uses market multiples of revenue and earnings before interest, taxes, depreciation and amortization for a group of comparable public companies. As part of the goodwill impairment test, we reconciled the aggregated estimated fair value of the Company's operating segments to the Companyâ€™s market capitalization, including consideration of any asymmetry in information, and control premium representing the estimated amount a market participant would pay to obtain a controlling interest in the Company.Based on the assessment as of an interim date in the three months ended November 23, 2024, the Company concluded as follows:On-Demand Talent â€” The carrying value, including $70.2Â million of goodwill, was in excess of its fair value by $48.4Â million. In addition to recording this excess as a goodwill impairment charge, the Company also recorded a $9.3Â million charge related to the deferred tax impacts from the excess carrying value. The Company therefore recorded an aggregate of $57.8Â million in goodwill impairment charges for the

On-Demand Talent segment.Consulting â€“ The fair value exceeded its carrying value, including $98.4Â million of goodwill, by 13.3%.Europe and Asia Pacific â€“ The carrying value, including $22.0Â million of goodwill, was in excess of its fair value by $26.8Â million. Because the excess of carrying value over fair value exceeded the goodwill balance for the segment, the Company fully impaired the goodwill balance, resulting in goodwill impairment charges of $21.7Â million for the Europe and Asia Pacific segment.Outsourced Services â€“ The fair value exceeded its carrying value, including $28.8Â million of goodwill, by 49.5%.The goodwill impairment assessment in the first quarter of fiscal 2025 was performed concurrently with the change in the Companyâ€™s operating segments, which were aligned to the Companyâ€™s reporting units and reportable segments. As a result of this segment realignment, the Company allocated goodwill to each of its reporting units under the new organizational structure on a relative fair value basis. The Company estimated the fair values of the reporting units based on the income-based approach using the discounted cash flow method, which included assumptions regarding revenue growth rates, forecasted gross profit margins, operating costs, tax rates, terminal period growth rates, and economic and market trends. Additionally, the present value of discounted cash flows was based on applying a weighted average cost of capital, which considered long-term interest rates and cost of equity based on the reporting segmentâ€™s risk profile.As a result of this assessment, in the three months ended August 24, 2024, the Company concluded that the carrying value of the Europe and Asia Pacific segment was in excess of its fair value and recorded a non-cash goodwill impairment charge of $3.9Â million for its Europe and Asia Pacific Segment.In performing the goodwill impairment assessments, the Company considers the assumptions used in determining the estimated fair values of its reporting units to be reasonable and appropriate. However, the assumptions are complex and subjective, and additional adverse changes in a key assumption or a combination of key assumptions may significantly affect the Companyâ€™s assessment of the fair value and goodwill impairment. These assumptions include, among other things, a failure to meet expected earnings or other financial plans; changes in the discount rate, the terminal growth rate or tax rates; or significant changes in industry or economic trends. If the assumptions noted above adversely change, negative macroeconomic conditions worsen or the Companyâ€™s market capitalization decreases for a sustained period of time, the Company may be required to perform additional impairment analysis that could result in additional impairment charges and materially adversely affect the Companyâ€™s financial condition and results of operations.The following table summarizes the activity in the Companyâ€™s goodwill balance. [Abstract] Â Income Taxes Income Taxes For the three months ended NovemberÂ 23, 2024, the Companyâ€™s income tax benefit was $7.7 million, an effective tax rate of 10.1%, and for the three months ended November 25, 2023, the Company's income tax expense was $3.8 million, an effective tax rate of 43.4%. For the six months ended NovemberÂ 23, 2024, the Companyâ€™s income tax benefit was $6.7 million, an effective tax rate of 8.2%, and for the six months ended November 25, 2023, the Company's income tax expense was $5.8 million, an effective tax rate of 42.1%. The income tax benefit in fiscal 2025 was primarily attributed to the Companyâ€™s pretax loss. The lower effective benefit rate was due to the non-deductible portion of the goodwill impairment. The higher effective tax rate in fiscal 2024 was attributed primarily to a nonrecurring increase in forfeiture of stock options, coupled with the capitalization of acquisition related costs for tax purposes.The Company operates in an international environment. Accordingly, the consolidated effective tax rate is a composite rate reflecting the earnings (losses) in various locations and the applicable tax rates in those jurisdictions. Fluctuations in the consolidated effective tax rate year over year are due to the changes in the mix of operating income and losses amongst the various jurisdictions in which the Company operates.For the three months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, the Company recognized a tax benefit of approximately $0.8 million and $1.0 million, respectively, associated with the exercise of nonqualified stock options, vesting of restricted stock awards (â€œRSAsâ€), restricted stock units (â€œRSUsâ€), performance-based stock units (â€œPSUsâ€), and disqualifying dispositions by employees of shares acquired under the Company's Employee Stock Purchase Plan (â€œESPPâ€). For the six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, the Company recognized a tax benefit of approximately $1.3 million and $1.2 million, respectively, associated with the exercise of nonqualified stock options, vesting of RSAs, RSUs, PSUs, and disqualifying dispositions by employees of shares acquired under the ESPP.The Companyâ€™s total

liability for unrecognized gross tax benefits, including accrued interest and penalties, was $1.1 million and $1.0 million as of NovemberÂ 23, 2024 and MayÂ 25, 2024, which, if ultimately recognized, would impact the effective tax rate in future periods. The unrecognized tax benefits are included in other long-term liabilities in the Consolidated Balance Sheets. None of the unrecognized tax benefits are considered short-term liabilities as the Company does not anticipate any cash payments to settle the liability within the next 12 months. 2024 Restructuring and Related Activities [Abstract] Â Restructuring Activities Restructuring ActivitiesDuring fiscal 2024, the Company initiated a cost reduction plan, including a reduction in force (the â€œ2023 U.S. Restructuring Planâ€) intended to reduce costs and streamline operations. The 2023 U.S. Restructuring Plan resulted in a reduction of force of approximately 12% of the Companyâ€™s U.S. management and administrative workforce. The Company incurred employee termination costs associated with the 2023 U.S. Restructuring Plan, which were recorded in selling, general and administrative expenses in its Consolidated Statements of Operations. The 2023 U.S. Restructuring Plan was substantially completed as of the year ended MayÂ 25, 2024. Restructuring costs were $0.3Â million for both the three and six months ended NovemberÂ 23, 2024 and $2.3Â million for both the three and six months ended NovemberÂ 25, 2023. The restructuring liability was zero and $0.8Â million as of NovemberÂ 23, 2024 and MayÂ 25, 2024, respectively. As described in Note 15 â€“ Subsequent Events below, on December 2, 2024, the Company authorized a global reduction in its management and administrative workforce to enhance operational efficiency and reduce costs. On October 17, 2024, the Companyâ€™s stockholders approved an amendment and restatement of the 2020 Plan, which increased the maximum number of shares of the Companyâ€™s common stock authorized for issuance under the 2020 Plan by 815,000 shares. Executive officers and certain employees, as well as non-employee directors of the Company and certain consultants and advisors are eligible to participate in the 2020 Plan. The maximum number of shares of the Companyâ€™s common stock that may be issued or transferred pursuant to awards under the 2020 Plan equals: (1) 815,000 shares, plus (2) 1,797,440 (which represents the number of shares that were available for additional award grant purposes under the 2014 Plan immediately prior to the termination of the authority to grant new awards under the 2014 Plan as of October 22, 2020), plus (3) the number of shares subject to stock options granted under the 2014 Plan or the Resources Connection, Inc. 2004 Performance Incentive Plan (together with the 2014 Plan, the â€œPrior Plansâ€) and outstanding as of October 22, 2020 which expire, or for any reason are cancelled or terminated, after that date without being exercised, plus (4) the number of any shares subject to RSAs and RSUs granted under the Prior Plans that are outstanding and unvested as of October 22, 2020 which are forfeited, terminated, cancelled, or otherwise reacquired after that date without having become vested.Awards under the 2020 Plan may include, but are not limited to, stock options, stock appreciation rights, restricted stock, performance stock, stock units, stock bonuses and other forms of awards granted or denominated in shares of common stock or units of common stock, as well as certain cash bonus awards. Historically, the Company has granted RSAs and RSUs under the 2020 Plan that typically vest in equal annual installments, and PSUs under the 2020 Plan that vest upon the achievement of certain Company-wide performance targets at the end of the defined performance period. Stock option grants typically terminate ten years from the date of grant. Vesting periods for RSAs, RSUs and stock option awards range from three to four years. The performance periods for the PSUs are three years. As of NovemberÂ 23, 2024, there were 888,113 shares available for further award grants under the 2020 Plan (with outstanding PSUs counted for this purpose based on the target number of shares granted).Stock-Based Compensation Expense Stock-based compensation expense included in selling, general and administrative expenses was $1.9 million and $0.5 million for the three months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, respectively, and $3.5 million and $3.1 million for the six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, respectively. These amounts consisted of stock-based compensation expense related to employee stock options, RSAs, RSUs and PSUs under the 2020 Plan and Prior Plans, employee stock purchases made via the ESPP, and stock units credited under the Directors Deferred Compensation Plan. The Company recognized a tax benefit of $0.5 million and a near zero tax benefit associated with such stock-based compensation expense during the three months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, respectively, and $0.8 million and $0.6 million during the six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, respectively. The Company recognizes stock-based compensation expense on time-vesting equity awards ratably over the applicable vesting period based on the grant date fair value, net of estimated forfeitures. Expense related to the liability-classified awards reflects the change in fair value during the reporting period. The number of PSUs earned at the end of the applicable performance period may equal, exceed or be less than the targeted number of shares depending on whether the performance criteria are met, surpassed or not met. During each reporting period, the Company uses the latest forecasted results to estimate the number of shares to be issued at the end of the performance period. Any resulting changes to stock compensation expense are adjusted in the period in which the change in estimates occur.Stock Options The following table summarizes the stock option activity for the six months ended NovemberÂ 23, 2024 (in thousands, except weighted-average exercise price): Number of OptionsWeighted-Average Exercise PriceAwards outstanding at May 25, 20242,185$16.36Â Exercisedâ€”Â $â€”Â Forfeitedâ€”Â $â€”Â Expired(280)$13.14Â Awards outstanding at November 23, 20241,905$16.94Â Exercisable at November 23, 20241,905$16.94Â Vested and expected to vest at November 23, 2024 (1)1,905$16.94Â (1)The options expected to vest are the result of applying the pre-vesting forfeiture rate assumptions to options not yet vested. Employee Stock Purchase Plan On OctoberÂ 20, 2022, the Companyâ€™s stockholders approved an amendment and restatement of the 2019 ESPP that increased the number of shares authorized for issuance under the ESPP by 1,500,000, resulting in a maximum number of shares of the Companyâ€™s common stock authorized for issuance under the ESPP of 3,325,000 shares.The Companyâ€™s ESPP allows qualified employees (as defined in the ESPP) to purchase designated shares of the Companyâ€™s common stock at a price equal to 85% of the lesser of the fair market value of common stock at the beginning or end of each semi-annual stock purchase period. The Company issued 229,341 and 198,150 shares of common stock pursuant to the ESPP during the six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023, respectively. 23, 2024 Accounting Policies [Abstract] Â Fiscal Period The Companyâ€™s fiscal year consists of 52 or 53 weeks, ending on the Saturday in May closest to May 31. The second quarters of fiscal 2025 and 2024 each consisted of 13 weeks. The Companyâ€™s fiscal year 2025 will consist of 53 weeks. Basis of Presentation Basis of PresentationThe accompanying unaudited financial statements of the Company as of and for the three and six months ended NovemberÂ 23, 2024 and NovemberÂ 25, 2023 have been prepared in conformity with accounting principles generally accepted in the United States (â€œGAAPâ€) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. These financial statements include all adjustments (consisting only of normal recurring adjustments) the Companyâ€™s management considers necessary for a fair presentation of its financial position at such dates and the operating results and cash flows for those periods. The financial statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although management believes these estimates and assumptions are adequate, actual results could differ from the estimates and assumptions used.The fiscal 2024 year-end balance sheet data was derived from audited consolidated financial statements, and certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to Securities and Exchange Commission (â€œSECâ€) rules or regulations; however, the Company believes the disclosures made are adequate to make the information presented not misleading. The unaudited consolidated results of operations for the interim periods presented are not necessarily indicative of the results of operations to be expected for the full fiscal year. These interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended MayÂ 25, 2024, which are included in the Companyâ€™s Annual Report on Form 10-K (â€œFiscal Year 2024 Form 10-Kâ€) filed with the SEC on July 22, 2024 (File No. 0-32113). A complete listing of the Companyâ€™s significant accounting policies is discussed in Note 2 â€“ Summary of Significant Accounting Policies in the Notes to Consolidated Financial Statements included in the Fiscal Year 2024 Form 10-K. Reporting Segments Reporting SegmentsDuring the first quarter of fiscal 2025, the Chief Executive Officer, the Companyâ€™s Chief Operating Decision Maker (â€œCODMâ€), announced a decision to reorganize the Companyâ€™s business by forming multiple discrete operational business units. To align the new operating model and financial reporting, the Company made management organizational changes and implemented new reporting modules and processes to provide discrete information to manage the business. During the first quarter of fiscal 2025, the Company completed its assessment of the Company's operating segments and identified the following newly defined operating segments:â€¢On-Demand Talent â€“ operating under the On-Demand by RGPTM brand, this segment provides businesses with a go-to source for bringing in experts when they need them. â€¢Consulting â€“ operating under the Veracity by RGPTM brand, this segment drives transformation across people, processes and technology across domain areas including finance, technology and digital, risk and compliance and supply chain transformation. â€¢Europe & Asia Pacific â€“ is a geographically defined segment that offers both on-demand and consulting services (excluding the digital consulting business, which is included in our Consulting segment) to clients throughout Europe and Asia Pacific.â€¢Outsourced Services â€“ operating under the Countsy by RGPTM brand, this segment offers finance, accounting and HR services provided to startups, spinouts and scale-up enterprises, utilizing a technology platform and fractional team.â€¢Sitrick â€“ a crisis communications and public relations firm which operates under the Sitrick brand, providing corporate, financial, transactional and crisis communication and management services.Each of these segments reports through a separate segment manager to the Companyâ€™s Chief Executive Officer and Chief Operating Officer, who are collectively designated as the CODMs for segment reporting purposes. The Company's reportable segments are comprised of On-Demand Talent, Consulting, Europe & Asia Pacific, and Outsourced Services. Sitrick does not individually meet the quantitative thresholds to qualify as a reportable segment. Therefore, Sitrick is disclosed under the â€œAll Otherâ€ segment. Each of these segments represents a reporting unit for the purposes of assessing goodwill for impairment.On July 1, 2024, the Company acquired Reference Point LLC (â€œReference Pointâ€). See Note 4 â€“ Acquisitions for further discussion about the Companyâ€™s acquisition of Reference Point. Reference Point is reported within the Consulting Services operating segment from the date of acquisition.All prior year periods presented were recast to reflect the impact of the preceding segment changes. See Note 14 â€“ Segment Information and Enterprise Reporting for further information. Per Share Information Per Share Information The Company presents both basic and diluted (loss) earnings per share (â€œEPSâ€). Basic EPS is calculated by dividing net (loss) income by the weighted-average number of common shares outstanding during the period. Diluted EPS is based upon the weighted-average number of common shares and potentially dilutive common shares outstanding during the period. Potentially dilutive shares of common stock include the assumed exercise of outstanding in-the-money stock options, assumed issuance of common stock under the Company's 2019 Employee Stock Purchase Plan, as amended (â€œESPPâ€), assumed release of outstanding restricted stock awards (â€œRSAsâ€), restricted stock units (â€œRSUsâ€) and performance stock units (â€œPSUsâ€) using the treasury stock method. However, potentially dilutive shares of common stock are excluded from the computation in periods in which they have an anti-dilutive effect.During the three and six months ended NovemberÂ 23, 2024, the Company incurred a net loss, and as a result potentially dilutive common shares issuable from the assumed exercise of stock options and the assumed release of shares of common stock under the outstanding ESPP, RSAs, RSUs, and PSUs awards were not included in the diluted shares used to calculate net loss per share, as their inclusion would have been anti-dilutive. Financial Instruments Financial InstrumentsThe fair value of the Companyâ€™s financial instruments reflects the amounts that the Company estimates it will receive in connection with the sale of an asset in an orderly transaction between market participants at the measurement date (exit price). The fair value hierarchy prioritizes the use of inputs used in valuation techniques into the following three levels: Level 1 â€“ Quoted prices in active markets for identical assets and liabilities.Level 2 â€“ Observable inputs other than quoted prices in active markets for identical assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.Level 3 â€“ Unobservable inputs. Contingent consideration liability is for estimated future contingent consideration payments related to the Companyâ€™s acquisitions. Total contingent consideration liability related to the acquisition of CloudGo Pte. Ltd. (â€œCloudGoâ€) was preliminarily valued at $4.5 million as of November 25, 2023 and zero as of NovemberÂ 23, 2024 and MayÂ 25, 2024. The fair value measurement of the liability was based on significant inputs not observed in the market and thus represents a Level 3 measurement. The significant unobservable inputs used in the fair value measurement of the contingent consideration liability at these dates were the Companyâ€™s measures of the estimated payouts based on internally generated financial projections and discount rates. The fair value of contingent consideration liability will be remeasured on a quarterly basis until settlement by the Company using additional information as it becomes available, and any change in the fair value estimates will be recorded in selling, general and administrative expenses in the Companyâ€™s Consolidated Statements of Operations. Future revisions to these significant unobservable inputs and the assumptions underlying them could materially change the estimate of the fair value of contingent consideration and therefore could materially affect the Companyâ€™s future operating results.The Companyâ€™s financial instruments, including cash and cash equivalents, trade accounts receivable, and accounts payable and other accrued expenses are carried at cost, which approximates their fair value because of the short-term maturity of these instruments. Long-lived Assets Long-lived AssetsIn accordance with Financial Accounting Standards Board (â€œFASBâ€) Accounting Standards Codification (â€œASCâ€) 360, Property, Plant, and Equipment, the Company evaluates the recoverability of long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. During the second quarter of fiscal 2025, the Company experienced a decrease in its market capitalization, along with slower than expected recovery in business performance within the Companyâ€™s On-Demand Talent segment and Europe and Asia Pacific segment. This constituted a triggering event under ASC 360 to evaluate long-lived assets for potential impairment. Accordingly, the Company completed an analysis pursuant to ASC 360-10-35-17 and determined that the expected undiscounted cash flows of the asset group exceeded its carrying amount, indicating that the long-lived assets were not impaired. Goodwill Impairment Goodwill ImpairmentGoodwill is tested for impairment on an annual basis on the first day of the fourth quarter and more frequently if indicators of potential impairment exist. Impairment testing is conducted at the reporting unit level. Under ASC 350, Intangibles - Goodwill and Other, the qualitative assessment requires the consideration of factors such as recent market transactions, macroeconomic conditions, and changes in projected future cash flows or planned revenue or earnings of the reporting unit as potential indicators when determining the need for a quantitative assessment of impairment. Under the quantitative analysis, the estimated fair value of goodwill is determined by using a combination of a market approach and/or an income approach. The market approach estimates fair value by applying revenue and EBITDA multiples

to each reporting unitâ€™s operating performance. The multiples are derived from guideline public companies with similar operating and investment characteristics to the Company's reporting units, and are evaluated and adjusted, if needed, based on specific characteristics of the reporting units relative to the selected guideline companies. The market approach requires the Company to make a series of assumptions that involve significant judgment, such as the selection of comparable companies and the evaluation of the multiples. The income approach estimates fair value based on estimated future cash flows of each reporting unit, discounted by an estimated weighted-average cost of capital that reflects the relevant risks associated with each reporting unit and the time value of money. The income approach also requires a series of assumptions that involve significant judgment, such as revenue projections and Adjusted EBITDA margin projections, which are based on historical experience and internal forecasts about future performance.While the Company believes that the assumptions underlying its quantitative assessment are reasonable, these assumptions could have a significant impact on whether a non-cash impairment charge is recognized and the magnitude of such charge. The results of an impairment analysis are as of a point in time. There is no assurance that the actual future earnings or cash flows of our reporting units will be consistent with the Companyâ€™s projections. Capitalized Hosting Arrangements Capitalized Hosting ArrangementsThe capitalized hosting arrangements costs are primarily related to the implementation of a cloud-based enterprise resource planning system and talent acquisition and management systems. Such costs include third party implementation costs and costs associated with internal resources directly involved in the implementation. Capitalized hosting arrangements are stated at historical cost and amortized on a straight-line basis over the estimated useful life of the expected term of the hosting arrangement, taking into consideration several other factors such as, but not limited to, options to extend the hosting arrangement or options to terminate the hosting arrangement. The amortization of capitalized implementation costs for hosting arrangements will commence when the systems are ready for their intended use and will be presented as operating expenses in the Consolidated Statements of Operations consistent with the presentation for expensing the fees for the associated hosting arrangement. Share Repurchases Share Repurchases The Companyâ€™s stock repurchase program authorizes the Company to repurchase shares at the discretion of the Companyâ€™s senior executives based on numerous factors, including, without limitation, share price and other market conditions, the Companyâ€™s ongoing capital allocation planning, the levels of cash and debt balances, and other demands for cash. The Company records the shares repurchased as treasury stock based on the amount paid to repurchase its shares. Direct costs incurred to acquire treasury stock are treated like stock issue costs and added to the cost of the treasury stock. Reclassifications Reclassifications Certain prior period amounts have been reclassified to conform to current period presentation. These reclassifications had no effect on previously reported totals for assets, liabilities, stockholdersâ€™ equity, cash flows or net income. Recent Accounting Pronouncements Recent Accounting Pronouncements On November 4, 2024, the FASB issued Accounting Standards Update (â€œASUâ€) 2024-03, Income Statementâ€”Reporting Comprehensive Incomeâ€”Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses. The guidance requires public companies to disclose, in the notes to financial statements, specified information about certain costs and expenses at each interim and annual reporting period. This guidance is effective for public business entities for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. The Company expects to adopt this guidance in its fiscal year beginning May 30, 2027. The Company is evaluating the potential impact of this guidance on its financial statement disclosures.No other recent accounting pronouncements or changes in accounting pronouncements issued by the FASB, the America Institute of Certified Public Accountants and the SEC have a material significance, or have potential material significance, to the Companyâ€™s financial statements since those discussed in the Companyâ€™s Fiscal Year 2024 Form 10-K. The Company's fiscal year consists of 52 or 53 weeks, ending on the Saturday in May closest to May 31. The second quarters of fiscal 2025 and 2024 each consisted of 13 weeks. The Company's fiscal year 2025 will consist of 53 weeks. Summary of Significant Accounting Policies Basis of Presentation The accompanying unaudited financial statements of the Company as of and for the three and six months ended November 23, 2024 and November 25, 2023 have been prepared in conformity with accounting principles generally accepted in the United States ("GAAP") for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. These financial statements include all adjustments (consisting only of normal recurring adjustments) the Company's management considers necessary for a fair presentation of its financial position at such dates and the operating results and cash flows for those periods. The financial statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although management believes these estimates and assumptions are adequate, actual results could differ from the estimates and assumptions used. The fiscal 2024 year-end balance sheet data was derived from audited consolidated financial statements, and certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to Securities and Exchange Commission ("SEC") rules or regulations; however, the Company believes the disclosures made are adequate to make the information presented not misleading. The unaudited consolidated results of operations for the interim periods presented are not necessarily indicative of the results of operations to be expected for the full fiscal year. These interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended May 25, 2024, which are included in the Company's Annual Report on Form 10-K ("Fiscal Year 2024 Form 10-K") filed with the SEC on July 22, 2024 (File No. 0-32113). A complete listing of the Company's significant accounting policies is discussed in Note 2 – Summary of Significant Accounting Policies in the Notes to Consolidated Financial Statements included in the Fiscal Year 2024 Form 10-K. Reporting Segments During the first quarter of fiscal 2025, the Chief Executive Officer, the Company's Chief Operating Decision Maker ("CODM"), announced a decision to reorganize the Company's business by forming multiple discrete operational business units. To align the new operating model and financial reporting, the Company made management organizational changes and implemented new reporting modules and processes to provide discrete information to manage the business. During the first quarter of fiscal 2025, the Company completed its assessment of the Company's operating segments and identified the following newly defined operating segments: • On-Demand Talent – operating under the On-Demand by RGPTM brand, this segment provides businesses with a go-to source for bringing in experts when they need them.
 • Consulting – operating under the Veracity by RGPTM brand, this segment drives transformation across people, processes and technology across domain areas including finance, technology and digital, risk and compliance and supply chain transformation.
 • Europe & Asia Pacific – is a geographically defined segment that offers both on-demand and consulting services (excluding the digital consulting business, which is included in our Consulting segment) to clients throughout Europe and Asia Pacific.
 • Outsourced Services – operating under the Countsy by RGPTM brand, this segment offers finance, accounting and HR services provided to startups, spinouts and scale-up enterprises, utilizing a technology platform and fractional team.
 • Sitrick – a crisis communications and public relations firm which operates under the Sitrick brand, providing corporate, financial, transactional and crisis communication and management services. Each of these segments reports through a separate segment manager to the Company's Chief Executive Officer and Chief Operating Officer, who are collectively designated as the CODMs for segment reporting purposes. The Company's reportable segments are comprised of On-Demand Talent, Consulting, Europe & Asia Pacific, and Outsourced Services. Sitrick does not individually meet the quantitative thresholds to qualify as a reportable segment. Therefore, Sitrick is disclosed under the "All Other" segment. Each of these segments represents a reporting unit for the purposes of assessing goodwill for impairment.
 On July 1, 2024, the Company acquired Reference Point LLC ("Reference Point"). See Note 4 – Acquisitions for further discussion about the Company's acquisition of Reference Point. Reference Point is reported within the Consulting Services operating segment from the date of acquisition. All prior year periods presented were recast to reflect the impact of the preceding segment changes. See Note 14 – Segment Information and Enterprise Reporting for further information. Per Share Information
 The Company presents both basic and diluted (loss) earnings per share ("EPS"). Basic EPS is calculated by dividing net (loss) income by the weighted-average number of common shares outstanding during the period. Diluted EPS is based upon the weighted-average number of common shares and potentially dilutive common shares outstanding during the period. Potentially dilutive shares of common stock include the assumed exercise of outstanding in-the-money stock options, assumed issuance of common stock under the Company's 2019 Employee Stock Purchase Plan, as amended ("ESPP"), assumed release of outstanding restricted stock awards ("RSAs"), restricted stock units ("RSUs") and performance stock units ("PSUs") using the treasury stock method. However, potentially dilutive shares of common stock are excluded from the computation in periods in which they have an anti-dilutive effect.
 During the three and six months ended November 23, 2024, the Company incurred a net loss, and as a result potentially dilutive common shares issuable from the assumed exercise of stock options and the assumed release of shares of common stock under the outstanding ESPP, RSAs, RSUs, and PSUs awards were not included in the diluted shares used to calculate net loss per share, as their inclusion would have been anti-dilutive. The following table summarizes the calculation of net (loss) income per common share for the three and six months ended November 23, 2024 and November 25, 2023 (in thousands, except per share amounts): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:45.415%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.930%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.778%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.778%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.781%"></td><td style="width:0.1%"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none">

The fair value hierarchy prioritizes the use of inputs used in valuation techniques into the following three levels:
 Level 1 – Quoted prices in active markets for identical assets and liabilities.
 Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.
 Level 3 – Unobservable inputs. Contingent consideration liability is for estimated future contingent consideration payments related to the Company's acquisitions. Total contingent consideration liability related to the acquisition of CloudGo Pte. Ltd. ("CloudGo") was preliminarily valued at $4.5 million as of November 25, 2023 and zero as of November 23, 2024 and May 25, 2024. The fair value measurement of the liability was based on significant inputs not observed in the market and thus represents a Level 3 measurement. The significant unobservable inputs used in the fair value measurement of the contingent consideration liability at these dates were the Company's measures of the estimated payouts based on internally generated financial projections and discount rates. The fair value of contingent consideration liability will be remeasured on a quarterly basis until settlement by the Company using additional information as it becomes available, and any change in the fair value estimates will be recorded in selling, general and administrative expenses in the Company's Consolidated Statements of Operations. Future revisions to these significant unobservable inputs and the assumptions underlying them could materially change the estimate of the fair value of contingent consideration and therefore could materially affect the Company's future operating results. The Company's financial instruments, including cash and cash equivalents, trade accounts receivable, and accounts payable and other accrued expenses are carried at cost, which approximates their fair value because of the short-term maturity of these instruments.
 Long-lived Assets In accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 360, Property, Plant, and Equipment, the Company evaluates the recoverability of long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. During the second quarter of fiscal 2025, the Company experienced a decrease in its market capitalization, along with slower than expected recovery in business performance within the Company's On-Demand Talent segment and Europe and Asia Pacific segment. This constituted a triggering event under ASC 360 to evaluate long-lived assets for potential impairment. Accordingly, the Company completed an analysis pursuant to ASC 360-10-35-17 and determined that the expected undiscounted cash flows of the asset group exceeded its carrying amount, indicating that the long-lived assets were not impaired. Goodwill Impairment Goodwill is tested for impairment on an annual basis on the first day of the fourth quarter and more frequently if indicators of potential impairment exist. Impairment testing is conducted at the reporting unit level. Under ASC 350, Intangibles - Goodwill and Other, the qualitative assessment requires the consideration of factors such as recent market transactions, macroeconomic conditions, and changes in projected future cash flows or planned revenue or earnings of the reporting unit as potential indicators when determining the need for a quantitative assessment of impairment. Under the quantitative analysis, the estimated fair value of goodwill is determined by using a combination of a market approach and/or an income approach. The market approach estimates fair value by applying revenue and EBITDA multiples to each reporting unit's operating performance. The multiples are derived from guideline public companies with similar operating and investment characteristics to the Company's reporting units, and are evaluated and adjusted, if needed, based on specific characteristics of the reporting units relative to the selected guideline companies. The market approach requires the Company to make a series of assumptions that involve significant judgment, such as the selection of comparable companies and the evaluation of the multiples. The income approach estimates fair value based on estimated future cash flows of each reporting unit, discounted by an estimated weighted-average cost of capital that reflects the relevant risks associated with each reporting unit and the time value of money. The income approach also requires a series of assumptions that involve significant judgment, such as revenue projections and Adjusted EBITDA margin projections, which are based on historical experience and internal forecasts about future performance. While the Company believes that the assumptions underlying its quantitative assessment are reasonable, these assumptions could have a significant impact on whether a non-cash impairment charge is recognized and the magnitude of such charge. The results of an impairment analysis are as of a point in time. There is no assurance that the actual future earnings or cash flows of our reporting units will be consistent with the Company's projections. During the six months ended November 23, 2024, the Company performed two goodwill impairment assessments. See Note 6 – Goodwill and Intangible Assets for further information. Capitalized Hosting Arrangements The capitalized hosting arrangements costs are primarily related to the implementation of a cloud-based enterprise resource planning system and talent acquisition and management systems. Such costs include third party implementation costs and costs associated with internal resources directly involved in the implementation. Capitalized hosting arrangements are stated at historical cost and amortized on a straight-line basis over the estimated useful life of the expected term of the hosting arrangement, taking into consideration several other factors such as, but not limited to, options to extend the hosting arrangement or options to terminate the hosting arrangement. The amortization of capitalized implementation costs for hosting arrangements will commence when the systems are ready for their intended use and will be presented as operating expenses in the Consolidated Statements of Operations consistent with the presentation for expensing the fees for the associated hosting arrangement. As of November 23, 2024, the capitalized costs related to hosting arrangements incurred during the application development stage were $20.1 million. These capitalized hosting arrangements are included in other non-current assets in the Consolidated Balance Sheets, and the Company incurred $0.1 million and $0.2 million of amortization expense during the three and six months ended November 23, 2024, respectively, related to these arrangements. There were $16.1 million of capitalized costs recorded as of May 25, 2024. Share Repurchases The Company's stock repurchase program authorizes the Company to repurchase shares at the discretion of the Company's senior executives based on numerous factors, including, without limitation, share price and other market conditions, the Company's ongoing capital allocation planning, the levels of cash and debt balances, and other demands for cash. The Company records the shares repurchased as treasury stock based on the amount paid to repurchase its shares. Direct costs incurred to acquire treasury stock are treated like stock issue costs and added to the cost of the treasury stock. See Note 10 — Stockholders' Equity for further information on the repurchase of shares of common stock under the stock repurchase program. Reclassifications Certain prior period amounts have been reclassified to conform to current period presentation.  On November 4, 2024, the FASB issued Accounting Standards Update ("ASU") 2024-03, Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses. The guidance requires public companies to disclose, in the notes to financial statements, specified information about certain costs and expenses at each interim and annual reporting period. This guidance is effective for public business entities for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. The Company expects to adopt this guidance in its fiscal year beginning May 30, 2027. The Company is evaluating the potential impact of this guidance on its financial statement disclosures.
 No other recent accounting pronouncements or changes in accounting pronouncements issued by the FASB, the America Institute of Certified Public Accountants and the SEC have a material significance, or have potential material significance, to the Company's financial statements since those discussed in the Company's Fiscal Year 2024 Form 10-K. Basis of Presentation The accompanying unaudited financial statements of the Company as of and for the three and six months ended November 23, 2024 and November 25, 2023 have been prepared in conformity with accounting principles generally accepted in the United States ("GAAP") for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. These financial statements include all adjustments (consisting only of normal recurring adjustments) the Company's management considers necessary for a fair presentation of its financial position at such dates and the operating results and cash flows for those periods. The financial statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although management believes these estimates and assumptions are adequate, actual results could differ from the estimates and assumptions used. The fiscal 2024 year-end balance sheet data was derived from audited consolidated financial statements, and certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to Securities and Exchange Commission ("SEC") rules or regulations; however, the Company believes the disclosures made are adequate to make the information presented not misleading. The unaudited consolidated results of operations for the interim periods presented are not necessarily indicative of the results of operations to be expected for the full fiscal year. These interim financial statements should be read in conjunction with the audited consolidated financial statements for the year ended May 25, 2024, which are included in the Company's Annual Report on Form 10-K ("Fiscal Year 2024 Form 10-K") filed with the SEC on July 22, 2024 (File No. 0-32113). A complete listing of the Company's significant accounting policies is discussed in Note 2 – Summary of Significant Accounting Policies in the Notes to Consolidated Financial Statements included in the Fiscal Year 2024 Form 10-K. Reporting Segments During the first quarter of fiscal 2025, the Chief Executive Officer, the Company's Chief Operating Decision Maker ("CODM"), announced a decision to reorganize the Company's business by forming multiple discrete operational business units. To align the new operating model and financial reporting, the Company made management organizational changes and implemented new reporting modules and processes to provide discrete information to manage the business. During the first quarter of fiscal 2025, the Company completed its assessment of the Company's operating segments and identified the following newly defined operating segments: • On-Demand Talent – operating under the On-Demand by RGPTM brand, this segment provides businesses with a go-to source for bringing in experts when they need them.
 • Consulting – operating under the Veracity by RGPTM brand, this segment drives transformation across people, processes and technology across domain areas including finance, technology and digital, risk and compliance and supply chain transformation.
 • Europe & Asia Pacific – is a geographically defined segment that offers both on-demand and consulting services (excluding the digital consulting business, which is included in our Consulting segment) to clients throughout Europe and Asia Pacific.
 • Outsourced Services – operating under the Countsy by RGPTM brand, this segment offers finance, accounting and HR services provided to startups, spinouts and scale-up enterprises, utilizing a technology platform and fractional team.
 • Sitrick – a crisis communications and public relations firm which operates under the Sitrick brand, providing corporate, financial, transactional and crisis communication and management services. Each of these segments reports through a separate segment manager to the Company's Chief Executive Officer and Chief Operating Officer, who are collectively designated as the CODMs for segment reporting purposes. The Company's reportable segments are comprised of On-Demand Talent, Consulting, Europe & Asia Pacific, and Outsourced Services. Sitrick does not individually meet the quantitative thresholds to qualify as a reportable segment. Therefore, Sitrick is disclosed under the "All Other" segment. Each of these segments represents a reporting unit for the purposes of assessing goodwill for impairment.
 On July 1, 2024, the Company acquired Reference Point LLC ("Reference Point"). See Note 4 - Acquisitions for further discussion about the Company's acquisition of Reference Point. Reference Point is reported within the Consulting Services operating segment from the date of acquisition. All prior year periods presented were recast to reflect the impact of the preceding segment changes. See Note 14 – Segment Information and Enterprise Reporting for further information. Per Share Information
 The Company presents both basic and diluted (loss) earnings per share ("EPS"). Basic EPS is calculated by dividing net (loss) income by the weighted-average number of common shares outstanding during the period. Diluted EPS is based upon the weighted-average number of common shares and potentially dilutive common shares outstanding during the period. Potentially dilutive shares of common stock include the assumed exercise of outstanding in-the-money stock options, assumed issuance of common stock under the Company's 2019 Employee Stock Purchase Plan, as amended ("ESPP"), assumed release of outstanding restricted stock awards ("RSAs"), restricted stock units ("RSUs") and performance stock units ("PSUs") using the treasury stock method. However, potentially dilutive shares of common stock are excluded from the computation in periods in which they have an anti-dilutive effect.
 During the three and six months ended November 23, 2024, the Company incurred a net loss, and as a result potentially dilutive common shares issuable from the assumed exercise of stock options and the assumed release of shares of common stock under the outstanding ESPP, RSAs, RSUs, and PSUs awards were not included in the diluted shares used to calculate net loss per share, as their inclusion would have been anti-dilutive. The following table summarizes the calculation of net (loss) income per common share for the three and six months ended November 23, 2024 and November 25, 2023 (in thousands, except per share amounts): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:45.415%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.930%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.778%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.781%"></td><td style="width:0.1%"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Three Months Ended </td><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Six Months Ended</td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">November 23,

The fair value hierarchy prioritizes the use of inputs used in valuation techniques into the following three levels:
 Level 1 – Quoted prices in active markets for identical assets and liabilities.
 Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.
 Level 3 – Unobservable inputs. Contingent consideration liability is for estimated future contingent consideration payments related to the Company's acquisitions. Total contingent consideration liability related to the acquisition of CloudGo Pte. Ltd. ("CloudGo") was preliminarily valued at $4.5 million as of November 25, 2023 and zero as of November 23, 2024 and May 25, 2024. The fair value measurement of the liability was based on significant inputs not observed in the market and thus represents a Level 3 measurement. The significant unobservable inputs used in the fair value measurement of the contingent consideration liability at these dates were the Company's measures of the estimated payouts based on internally generated financial projections and discount rates. The fair value of contingent consideration liability will be remeasured on a quarterly basis until settlement by the Company using additional information as it becomes available, and any change in the fair value estimates will be recorded in selling, general and administrative expenses in the Company's Consolidated Statements of Operations. Future revisions to these significant unobservable inputs and the assumptions underlying them could materially change the estimate of the fair value of contingent consideration and therefore could materially affect the Company's future operating results. The Company's financial instruments, including cash and cash equivalents, trade accounts receivable, and accounts payable and other accrued expenses are carried at cost, which approximates their fair value because of the short-term maturity of these instruments.450000000 Long-lived Assets In accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 360, Property, Plant, and Equipment, the Company evaluates the recoverability of long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. During the second quarter of fiscal 2025, the Company experienced a decrease in its market capitalization, along with slower than expected recovery in business performance within the Company's On-Demand Talent segment and Europe and Asia Pacific segment. This constituted a triggering event under ASC 360 to evaluate long-lived assets for potential impairment. Accordingly, the Company completed an analysis pursuant to ASC 360-10-35-17 and determined that the expected undiscounted cash flows of the asset group exceeded its carrying amount, indicating that the long-lived assets were not impaired. Goodwill Impairment Goodwill is tested for impairment on an annual basis on the first day of the fourth quarter and more frequently if indicators of potential impairment exist. Impairment testing is conducted at the reporting unit level. Under ASC 350, Intangibles - Goodwill and Other, the qualitative assessment requires the consideration of factors such as recent market transactions, macroeconomic conditions, and changes in projected future cash flows or planned revenue or earnings of the reporting unit as potential indicators when determining the need for a quantitative assessment of impairment. Under the quantitative analysis, the estimated fair value of goodwill is determined by using a combination of a market approach and/or an income approach. The market approach estimates fair value by applying revenue and EBITDA multiples to each reporting unit's operating performance. The multiples are derived from guideline public companies with similar operating and investment characteristics to the Company's reporting units, and are evaluated and adjusted, if needed, based on specific characteristics of the reporting units relative to the selected guideline companies. The market approach requires the Company to make a series of assumptions that involve significant judgment, such as the selection of comparable companies and the evaluation of the multiples. The income approach estimates fair value based on estimated future cash flows of each reporting unit, discounted by an estimated weighted-average cost of capital that reflects the relevant risks associated with each reporting unit and the time value of money. The income approach also requires a series of assumptions that involve significant judgment, such as revenue projections and Adjusted EBITDA margin projections, which are based on historical experience and internal forecasts about future performance. While the Company believes that the assumptions underlying its quantitative assessment are reasonable, these assumptions could have a significant impact on whether a non-cash impairment charge is recognized and the magnitude of such charge. The results of an impairment analysis are as of a point in time. There is no assurance that the actual future earnings or cash flows of our reporting units will be consistent with the Company's projections. Capitalized Hosting Arrangements The capitalized hosting arrangements costs are primarily related to the implementation of a cloud-based enterprise resource planning system and talent acquisition and management systems. Such costs include third party implementation costs and costs associated with internal resources directly involved in the implementation. Capitalized hosting arrangements are stated at historical cost and amortized on a straight-line basis over the estimated useful life of the expected term of the hosting arrangement, taking into consideration several other factors such as, but not limited to, options to extend the hosting arrangement or options to terminate the hosting arrangement. The amortization of capitalized implementation costs for hosting arrangements will commence when the systems are ready for their intended use and will be presented as operating expenses in the Consolidated Statements of Operations consistent with the presentation for expensing the fees for the associated hosting arrangement. 20100000100000200000161000000 Share Repurchases The Company's stock repurchase program authorizes the Company to repurchase shares at the discretion of the Company's senior executives based on numerous factors, including, without limitation, share price and other market conditions, the Company's ongoing capital allocation planning, the levels of cash and debt balances, and other demands for cash. The Company records the shares repurchased as treasury stock based on the amount paid to repurchase its shares. Direct costs incurred to acquire treasury stock are treated like stock issue costs and added to the cost of the treasury stock. This guidance is effective for public business entities for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. The Company expects to adopt this guidance in its fiscal year beginning May 30, 2027. The Company is evaluating the potential impact of this guidance on its financial statement disclosures.

 On July 1, 2024, the Company entered into an Amended and Restated Membership

Interest Purchase Agreement (the "Reference Point MIPA") with Reference Point LLC ("Reference Point") and the holder of all the outstanding membership interests of Reference Point LLC, in which the Company acquired 100% of the membership interests of Reference Point. Reference Point is a strategy, management, and technology consulting firm serving the financial services sector across four areas of focus: Strategy & Management, Risk & Regulatory Compliance, Digital & Technology and Data & Analytics. The Company paid initial cash consideration of $23.0 million (net of $0.2 million cash acquired). The initial consideration is subject to final post-closing adjustments for the final working capital, cash, indebtedness and transaction expenses as described in the Reference Point MIPA. Results of operations of Reference Point are included within the Consulting Services operating segment in the Consolidated Statements of Operations from the date of acquisition. Reference Point contributed $4.8 million and $7.5 million of revenue and $0.6 million and $1.1 million of operating income to the Consolidated Statements of Operations during the three and six months ended November 23, 2024, respectively. During the three and six months ended November 23, 2024, the Company incurred $0.5 million and $1.8 million, respectively, in acquisition costs that were recorded in selling, general and administrative expenses in the Consolidated Statements of Operations. In accordance with ASC 805 Business Combinations, the Company made an initial provisional allocation of the purchase price for Reference Point based on the fair value of the assets acquired and liabilities assumed, with the residual amount recorded as goodwill. The Company's provisional purchase price allocation considered a number of factors, including the valuation of identifiable intangible assets. In connection with this acquisition, the Company provisionally recorded total intangible assets consisting of $14.4 million for customer relationships (to be amortized over 11 to 13 years), $0.7 million related to a non-compete agreement (to be amortized over 5 years) and $0.6 million for trade name (to be amortized over 1 year). The Company also provisionally recorded $6.7 million of goodwill. The goodwill is attributable primarily to expected synergies and the assembled workforce of Reference Point. </div><div style="margin-top:10pt;text-align:justify;text-indent:36pt">The following table Acquisition of CloudGo On November 15, 2023, the Company acquired 100% of the equity interests in CloudGo pursuant to the terms of a Share Purchase Agreement entered into by and between the Company, CloudGo, and the shareholders of CloudGo (the "CloudGo SPA"). Headquartered in Singapore, CloudGo is a digital transformation firm primarily focused on technology implementation through the ServiceNow platform. The Company paid cash consideration of $7.4 million (net of $0.3 million of cash acquired). In addition, the CloudGo SPA provides for contingent consideration of up to $12.0 million to be paid based on CloudGo's revenue and operating profit margin performance during two one-year performance periods that began after the acquisition date. The Company determined the fair value of the contingent consideration as of the acquisition date using the Monte Carlo simulation model and the application of an appropriate discount rate (Level 3 fair value). The preliminary fair value of the contractual obligation to pay the contingent consideration amounted to $4.4 million. As of the fourth quarter of fiscal 2024, the Company revised its estimates of CloudGo's expected revenue and operating profit margin performance for the performance periods, and the Company decreased the fair value of the CloudGo contingent consideration liability to zero as of May 25, 2024, which remained zero as of November 23, 2024.123000000.020000048000007500000600000110000050000018000001440000P11YP13Y700000P5Y600000P1Y6700000 Fair value of consideration transferred (in thousands): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:83.748%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:14.052%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="background-color:#CCEEFF;padding:2px 1pt;text-align:left;vertical-align:bottom">Cash</td>

 In the second quarter of fiscal 2025, the Company experienced a decrease in its market capitalization, along with slower than expected recovery in business performance within the On-Demand Talent segment and Europe and Asia Pacific segment. As a result, the Company performed a goodwill impairment assessment for each of its reporting units with associated goodwill, in which the estimated fair values of each reporting unit were compared to its respective carrying amounts. The Company's determination of the estimated fair value was based on a combination of the income-based approach and the market-based approach. The income-based approach was based on the present value of discounted cash flows of each reporting unit, using the Company's assumptions regarding revenue growth rates, forecasted gross profit margins, forecasted adjusted EBITDA margins, operating costs, tax rates, terminal period growth rates, and other economic and market trends. Additionally, the present value was based on applying a weighted average cost of capital, which considered long-term interest rates and cost of equity based on the reporting segment's risk profile. The market-based approach was based on the guideline public company method, which uses market multiples of revenue and earnings before interest, taxes, depreciation and amortization for a group of comparable public companies. As part of the goodwill impairment test, we reconciled the aggregated estimated fair value of the Company's operating segments to the Company's market capitalization, including consideration of any asymmetry in information, and control premium representing the estimated amount a market participant would pay to obtain a controlling interest in the Company.
 Based on the assessment as of an interim date in the three months ended November 23, 2024, the Company concluded as follows:
 On-Demand Talent – The carrying value, including $70.2 million of goodwill, was in excess of its fair value by $48.4 million. In addition to recording this excess as a goodwill impairment charge, the Company also recorded a $9.3 million charge related to the deferred tax impacts from the excess carrying value. The Company therefore recorded an aggregate of $57.8 million in goodwill impairment charges for the On-Demand Talent segment.
 Consulting – The fair value exceeded its carrying value, including $98.4 million of goodwill, by 13.3%. Europe and Asia Pacific – The carrying value, including $22.0 million of goodwill, was in excess of its fair value by $26.8 million. Because the excess of carrying value over fair value exceeded the goodwill balance for the segment, the Company fully impaired the goodwill balance, resulting in goodwill impairment charges of $21.7 million for the Europe and Asia Pacific segment.
 Outsourced Services – The fair value exceeded its carrying value, including $28.8 million of goodwill, by 49.5%.
 The goodwill impairment assessment in the first quarter of fiscal 2025 was performed concurrently with the change in the Company's operating segments, which were aligned to the Company's reporting units and reportable segments. As a result of this segment realignment, the Company allocated goodwill to each of its reporting units under the new organizational structure on a relative fair value basis. The Company estimated the fair values of the reporting units based on the income-based approach using the discounted cash flow method, which included assumptions regarding revenue growth rates, forecasted gross profit margins, operating costs, tax rates, terminal period growth rates, and economic and market trends. Additionally, the present value of discounted cash flows was based on applying a weighted average cost of capital, which considered long-term interest rates and cost of equity based on the reporting segment's risk profile.
 As a result of this assessment, in the three months ended August 24, 2024, the Company concluded that the carrying value of the Europe and Asia Pacific segment was in excess of its fair value and recorded a non-cash goodwill impairment charge of $3.9 million for its Europe and Asia Pacific Segment.
 In performing the goodwill impairment assessments, the Company considers the assumptions used in determining the estimated fair values of its reporting units to be reasonable and appropriate. However, the assumptions are complex and subjective, and additional adverse changes in a key assumption or a combination of key assumptions may significantly affect the Company's assessment of the fair value and goodwill impairment. These assumptions include, among other things, a failure to meet expected earnings or other financial plans; changes in the discount rate, the terminal growth rate or tax rates; or significant changes in industry or economic trends. If the assumptions noted above adversely change, negative macroeconomic conditions worsen or the Company's market capitalization decreases for a sustained period of time, the Company may be required to perform additional impairment analysis that could result in additional impairment charges and materially adversely affect the Company's financial condition and results of operations.
 The following table summarizes the activity in the Company's goodwill balance. The balance as of May 25, 2024 was recast to reflect the impact of the Company's change in segment reporting and the final fair value allocation of the reporting units that became effective during the first quarter of fiscal 2025 (in thousands): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:28.596%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.566%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.263%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.112%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.869%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.557%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:8.445%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.406%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:10.268%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom"> On-Demand Talent</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom"> Consulting </td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom"> Europe & Asia Pacific </td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:left;vertical-align:bottom"> Outsourced Services </td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom"> All Other </td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Total</td></tr><tr><td colspan="3" style="background-

The Credit Agreement provides for a $175.0 million senior secured revolving loan (the "Credit Facility"), which includes a $10.0 million sublimit for the issuance of standby letters of credit and a swingline sublimit of $20.0 million. The Credit Facility also includes an option to increase the amount of the revolving loan up to an additional $75.0 million, subject to the terms of the Credit Agreement. The Credit Facility matures on November 12, 2026. The obligations under the Credit Facility are secured by substantially all assets of the Company, Resources Connection LLC and all of the Company's domestic subsidiaries. Future borrowings under the Credit Facility bear interest at a rate per annum of either, at the Company's election, (i) Term SOFR (as defined in the Credit Agreement) plus a margin ranging from 1.25% to 2.00% or (ii) the Base Rate (as defined in the Credit Agreement), plus a margin of 0.25% to 1.00% with the applicable margin depending on the Company's consolidated leverage ratio. In addition, the Company pays an unused commitment fee on the average daily unused portion of the Credit Facility, which ranges from 0.20% to 0.30% depending on the Company's consolidated leverage ratio. The Credit Agreement contains both affirmative and negative covenants. Covenants include, but are not limited to, limitations on the Company's and its subsidiaries' ability to incur liens, incur additional indebtedness, make certain restricted payments, merge or consolidate and make dispositions of assets. In addition, the Credit Agreement requires the Company to comply with financial covenants including limitations on the

Company's total funded debt, minimum interest coverage ratio and maximum leverage ratio. As of November 23, 2024, the Company was not in compliance with its financial covenant related to the consolidated interest coverage ratio under the Credit Agreement due to the goodwill impairment recognized during the second quarter of fiscal 2025 as described in Note 6 – Goodwill and Intangible Assets; however, the parties entered into an amendment to the Credit Agreement on December 31, 2024 to waive the event of default and amend certain definitions under the Credit Agreement to exclude the impact of goodwill impairments recognized in the first and second quarters of fiscal 2025. As of November 23, 2024, the Company was compliant with all other financial covenants under the Credit Agreement. The Company had no debt outstanding under the Credit Facility as of November 23, 2024 and May 25, 2024. However, the Company had $1.5 million and $1.4 million of outstanding letters of credit issued under the Credit Facility as of November 23, 2024 and May 25, 2024, respectively. As of November 23, 2024, there was $173.5 million remaining capacity under the Credit Facility. On November 2, 2022, Resources Global Enterprise Consulting (Beijing) Co., Ltd. (a wholly-owned subsidiary of the Company), as guarantor, entered into a RMB 13.4 million ($1.8 million based on the prevailing exchange rate on November 2, 2022) revolving credit facility with Bank of America, N.A. (Beijing) as the lender (the "Beijing Revolver"). The Beijing Revolver bears interest at loan prime rate plus 0.80%. Interest incurred on borrowings will be payable monthly in arrears. As of November 23, 2024, the Company had no debt outstanding under the Beijing Revolver and RMB 13.4 million ($1.9 million based on the prevailing exchange rate on November 23, 2024) in available credit. The availability of proceeds under the Beijing Revolver is at the lender's absolute discretion and may be terminated at any time by the lender, with or without prior notice to the borrower.175000000.010000000.020000000.075000000.00.01250.02000.00250.01000.00200.00300015000001400000173500000134000001800000.008001340000019000001Income Taxes For the three months ended November 23, 2024, the Company's income tax benefit was $7.7 million, an effective tax rate of 10.1%, and for the three months ended November 25, 2023, the Company's income tax expense was $3.8 million, an effective tax rate of 43.4%. For the six months ended November 23, 2024, the Company's income tax benefit was $6.7 million, an effective tax rate of 8.2%, and for the six months ended November 25, 2023, the Company's income tax expense was $5.8 million, an effective tax rate of 42.1%. The income tax benefit in fiscal 2025 was primarily attributed to the Company's pretax loss. The lower effective benefit rate was due to the non-deductible portion of the goodwill impairment. The higher effective tax rate in fiscal 2024 was attributed primarily to a nonrecurring increase in forfeiture of stock options, coupled with the capitalization of acquisition related costs for tax purposes. The Company operates in an international environment. Accordingly, the consolidated effective tax rate is a composite rate reflecting the earnings (losses) in various locations and the applicable tax rates in those jurisdictions. Fluctuations in the consolidated effective tax rate year over year are due to the changes in the mix of operating income and losses amongst the various jurisdictions in which the Company operates. For the three months ended November 23, 2024 and November 25, 2023, the Company recognized a tax benefit of approximately $0.8 million and $1.0 million, respectively, associated with the exercise of nonqualified stock options, vesting of restricted stock awards ("RSAs"), restricted stock units ("RSUs"), performance-based stock units ("PSUs"), and disqualifying dispositions by employees of shares acquired under the Company's Employee Stock Purchase Plan ("ESPP"). For the six months ended November 23, 2024 and November 25, 2023, the Company recognized a tax benefit of approximately $1.3 million and $1.2 million, respectively, associated with the exercise of nonqualified stock options, vesting of RSAs, RSUs, PSUs, and disqualifying dispositions by employees of shares acquired under the ESPP. The Company's total liability for unrecognized gross tax benefits, including accrued interest and penalties, was $1.1 million and $1.0 million as of November 23, 2024 and May 25, 2024, which, if ultimately recognized, would impact the effective tax rate in future periods. The unrecognized tax benefits are included in other long-term liabilities in the Consolidated Balance Sheets. None of the unrecognized tax benefits are considered short-term liabilities as the Company does not anticipate any cash payments to settle the liability within the next 12 months. -77000000.10138000000.434-67000000.08258000000.421800000100000000.013000001200000110000010000000.000Stockholders' Equity Stock Repurchase Program The Company's board of directors have previously approved two stock repurchase programs authorizing the repurchase, at the discretion of the Company's senior executives, of the Company's common stock for a designated aggregate dollar limit. In July 2015, the first program was authorized for an aggregate dollar limit not to exceed $150 million, and in October 2024, the second program was authorized for an additional dollar limit not to exceed $50 million (collectively, the "Stock Repurchase Programs"). Subject to the aggregate dollar limits, the currently authorized Stock Repurchase Programs do not have an expiration date. Repurchases under the programs may take place in the open market or in privately negotiated transactions and may be made pursuant to a Rule 10b5-1 plan. During the three months ended November 23, 2024, the Company purchased 598,031 shares of its common stock on the open market at an average price of $8.36 per share, for an aggregate total purchase price of approximately $5.0 million. During the six months ended November 23, 2024, the Company purchased 1,028,315 shares of its common stock on the open market at an average price of $9.72 per share, for an aggregate total purchase price of approximately $10.0 million. As of November 23, 2024, approximately $82.2 million remained available for future repurchases of the Company's common stock under the Stock Repurchase Programs. During the three and six months ended November 25, 2023, the Company repurchased 353,858 shares of its common stock on the open market at an average price of $14.13 per share, for an aggregate total purchase price of approximately $5.0 million. Quarterly Dividend Subject to approval each quarter by its board of directors, the Company pays a regular dividend. On October 17, 2024, the board of directors declared a regular quarterly dividend of $0.14 per share of the Company's common stock. The dividend was paid on December 16, 2024 to stockholders of record at the close of business on November 15, 2024. As of November 23, 2024 and May 25, 2024, $4.6 million and $4.7 million, respectively, were accrued and recorded in other current liabilities in the Company's Consolidated Balance Sheets for dividends declared but not yet paid. Continuation of the quarterly dividend is at the discretion of the board of directors and depends upon the Company's financial condition, results of operations, capital requirements, general business condition, contractual restrictions contained in the Credit Facility and other agreements, and other factors deemed relevant by the board of directors. 215000000050000000598O318.365000000.010283159.7210000000.0822000003538583853858l4.1314.135000000.05000000.00.1446000004700000Restructuring Activities During fiscal 2024, the Company initiated a cost reduction plan, including a reduction in force (the "2023 U.S. Restructuring Plan") intended to reduce costs and streamline operations. The 2023 U.S. Restructuring Plan resulted in a reduction of force of approximately 12% of the Company's U.S. management and administrative workforce. The Company incurred employee termination costs associated with the 2023 U.S. Restructuring Plan, which were recorded in selling, general and administrative expenses in its Consolidated Statements of Operations. The 2023 U.S. Restructuring Plan was substantially completed as of the year ended May 25, 2024. Restructuring costs were $0.3 million for both the three and six months ended November 23, 2024 and $2.3 million for both the three and six months ended November 25, 2023. The restructuring liability was zero and $0.8 million as of November 23, 2024 and May 25, 2024, respectively. As described in Note 15 – Subsequent Events below, on December 2, 2024, the Company authorized a global reduction in its management and administrative workforce to enhance operational efficiency and reduce costs. 0.123000003000002300000230000080000000Stock-Based Compensation Plans General The Company's stockholders approved the Resources Connection, Inc. 2020 Performance Incentive Plan (the "2020 Plan") on October 22, 2020, which replaced and succeeded in its entirety the Resources Connection, Inc. 2014 Performance Incentive Plan (the "2014 Plan"). On October 17, 2024, the Company's stockholders approved an amendment and restatement of the 2020 Plan, which increased the maximum number of shares of the Company's common stock authorized for issuance under the 2020 Plan by 815,000 shares. Executive officers and certain employees, as well as non-employee directors of the Company and certain consultants and advisors are eligible to participate in the 2020 Plan. The maximum number of shares of the Company's common stock that may be issued or transferred pursuant to awards under the 2020 Plan equals: (1) 815,000 shares, plus (2) 1,797,440 (which represents the number of shares that were available for additional award grant purposes under the 2014 Plan immediately prior to the termination of the authority to grant new awards under the 2014 Plan as of October 22, 2020), plus (3) the number of shares subject to stock options granted under the 2014 Plan or the Resources Connection, Inc. 2004 Performance Incentive Plan (together with the 2014 Plan, the "Prior Plans") and outstanding as of October 22, 2020 which expire, or for any reason are cancelled or terminated, after that date without being exercised, plus (4) the number of any shares subject to RSAs and RSUs granted under the Prior Plans that are outstanding and unvested as of October 22, 2020 which are forfeited, terminated, cancelled, or otherwise reacquired after that date without having become vested. Awards under the 2020 Plan may include, but are not limited to, stock options, stock appreciation rights, restricted stock, performance stock, stock units, stock bonuses and other forms of awards granted or denominated in shares of common stock or units of common stock, as well as certain cash bonus awards. Historically, the Company has granted RSAs and RSUs under the 2020 Plan that typically vest in equal annual installments, and PSUs under the 2020 Plan that vest upon the achievement of certain Company-wide performance targets at the end of the defined performance period. Stock option grants typically terminate ten years from the date of grant. Vesting periods for RSAs, RSUs and stock option awards range from three to four years. The performance periods for the PSUs are three years. As of November 23, 2024, there were 888,113 shares available for further award grants under the 2020 Plan (with outstanding PSUs counted for this purpose based on the target number of shares granted). Stock-Based Compensation Expense Stock-based compensation expense included in selling, general and administrative expenses was $1.9 million and $0.5 million for the three months ended November 23, 2024 and November 25, 2023, respectively, and $3.5 million and $3.1 million for the six months ended November 23, 2024 and November 25, 2023, respectively. These amounts consisted of stock-based compensation expense related to employee stock options, RSAs, RSUs and PSUs under the 2020 Plan and Prior Plans, employee stock purchases made via the ESPP, and stock units credited under the Directors Deferred Compensation Plan. The Company recognized a tax benefit of $0.5 million and a near zero tax benefit associated with such stock-based compensation expense during the three months ended November 23, 2024 and November 25, 2023, respectively, and $0.8 million and $0.6 million during the six months ended November 23, 2024 and November 25, 2023, respectively. The Company recognizes stock-based compensation expense on time-vesting equity awards ratably over the applicable vesting period based on the grant date fair value, net of estimated forfeitures. Expense related to the liability-classified awards reflects the change in fair value during the reporting period. The number of PSUs earned at the end of the applicable performance period may equal, exceed or be less than the targeted number of shares depending on whether the performance criteria are met, surpassed or not met. During each reporting period, the Company uses the latest forecasted results to estimate the number of shares to be issued at the end of the performance period. Any resulting changes to stock compensation expense are adjusted in the period in which the change in estimates occur. In the opinion of management, none of such matters, if disposed of unfavorably, would have a material adverse effect on the Company's financial position, cash flows or results of operations.Segment Information and Enterprise Reporting The tables below reflect the operating results of the Company's segments consistent with the management and performance measurement system utilized by the Company. During the first quarter of fiscal 2025, the Company reorganized its business segments to better align with changes in its internal operating model and financial reporting, which is used for performance assessment and resource allocation by the CODMs. All prior year periods presented were recast to reflect the impact of the preceding segment changes. See Note 2 - Summary of Significant Accounting Policies for further discussion about the Company's operating and reportable segments. Performance measurement is based on segment Adjusted EBITDA. Adjusted EBITDA is defined as net (loss) income before amortization expense, depreciation expense, interest and income taxes excluding stock-based compensation expense, technology transformation costs, goodwill impairment, acquisition costs, gain on sale of assets, and restructuring costs. Adjusted EBITDA at the segment level excludes certain shared corporate administrative costs that are not practical to allocate. The Company's CODMs do not evaluate segments using asset information. The following table discloses the Company's revenue and Adjusted EBITDA by segment for both periods presented (in thousands): <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:41.714%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.788%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.392%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:11.788%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.392%"></td><td style="width:0.1%"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td colspan="3" style="display:none"></td><td style="width:1.0%"></td><td style="width:13.714%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.392%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:13.720%"></td><td style="width:0.1%"></td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Three Months Ended</td><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="display:none"></td><td colspan="9" style="padding:2px 1pt;text-align:center;vertical-align:bottom">Six Months Ended</td></tr><tr><td colspan="3" style="padding:0 1pt"></td><td colspan="3" style="border-top:1pt solid #000;padding:2px 1pt;text-align:center;vertical-align:bottom">November 23,
