Â Â Â Â Â ELDORADO GOLD CORPORATION Â Â Â Â Â By: /s/ Karen Aram Â Â Â Karen Aram, Corporate Secretary Â Â Date: December 12, 2024 Â Â 2 Â Â Exhibits Â Exhibit No. Â Description 99.1 Â News Release dated December 11, 2024 Â Â 3 Â EX-99.1 2 ego_ex991.htm NEWS RELEASE ego_ex991.htm EXHIBIT 99.1 Â Â Â NEWS RELEASE Â Â TSX: ELD Â NYSE: EGO Â Â December 11, 2024 Â Eldorado Gold Releases Updated Mineral Reserve and Mineral Resource Statement; 2024 Gold Mineral Reserves Increased to 11.9 Million Oz with M&I Gold Mineral Resources of 22.0 Million Oz; Inaugural Mineral Reserve Declared at Ormaque; Outline of 2025 Reporting Schedule Â VANCOUVER, BC

â€ Eldorado Gold Corporation (â€Eldoradoâ€ or â€the Companyâ€) today releases its updated Mineral Reserve and Mineral Resource (â€MRMRâ€) estimates as of September 30, 2024. â€Our updated Mineral Reserves estimate provides a solid foundation and underpins our production profile over the next decade and beyond,â€ said George Burns, President and CEO. â€We were pleased to increase our Mineral Reserves by approximately 2% overall, driven by increases at the Lamaque Complex and Efemcukuru that extends Reserve mine life significantly and complements our already long mine life assets at Skouries, Kisladag and Olympias. The Lamaque Complex Mineral Reserve increased by 45%, driven primarily by the declaration of an Inaugural Mineral Reserve at Ormaque of 619 thousand ounces. This follows a solid track record of successfully replacing Mineral Reserves since acquiring the asset in 2017 and sets up the Lamaque Complex for the long-term with two underground mines with significant Inferred Mineral Resource conversion potential and exploration upside.â€

â€In addition, at Efemcukuru, we increased Mineral Reserves by 23% resulting in an extension to the mine life by an additional two years to an updated life of mine of eight years. Efemcukuru has been a reliable producer since 2011, and our team remains committed to exploring opportunities to extend mine life further. During 2025, our focus will continue to be on extending the mine life at our existing operations and testing near-mine exploration targets, while seeking a discovery from our highly prospective portfolio of early stage exploration targets in Canada and Türkiye.â€

Mineral Reserves Update Â The Company's Proven and Probable gold Mineral Reserves totalled 11.9 million ounces as of September 30, 2024, an increase of approximately 2% from the previous MRMR statement from September 30, 2023. The complete MRMR table and notes can be found at the end of this release. Â Â Ore Tonnes (t x 1,000) Gold Grade (g/t) Total Mineral Reserves (Gold Ounces) x 1,000 Mineral Reserves as of September 30, 2023(1) Â Â Â Â Â Â Â Â 350,665 1.04 11,717 Depletion(2) (14,667) 1.57 (742) Adjustments for metal prices, cut-off value, mine plan optimization, additions due to new drilling and conversion of Resources 8,735 3.33 936 Mineral Reserves as of September 30, 2024 344,733 1.07 11,911 Â (1) The Company's total MRMR excludes Mineral Reserves at its non-core Romanian asset (Certej). As disclosed in the Q3 2024 Managements Discussion & Analysis, the Certej project has been presented as a disposal group held for sale as at September 30, 2024 and as a discontinued operation for the three and nine months ended September 30, 2024. On October 7, 2024, the Company entered into a share purchase agreement to sell the Certej project. The closing of the disposition is subject to certain conditions. (2) Depletion declared here are in-situ ounces. Depletion includes the 12-month period of October 1, 2023, through September 30, 2024. Â Â 1 Â Â Excluding depletion, the increase in Mineral Reserves is primarily attributable to additions at Kokarpinar South at Efemcukuru as well as an inaugural Mineral Reserve estimate for the Ormaque deposit within the Lamaque Complex. Â Â - Lamaque Complex: Mineral Reserves increased 45% with the addition of Ormaque, partially offset by depletion at Triangle, resulting in an increase in life of mine to eight years. Â Â o Ormaque: Inaugural Mineral Reserve of 619 thousand ounces at Ormaque. Â o Triangle: Mineral Reserves decreased primarily as a result of depletion. Â Â - Kisladag: Mineral Reserves decreased as a result of depletion, partially offset by positive design changes. Â Â Â - Efemcukuru: Mineral Reserves increased with the addition of Kokarpinar South, increasing the life of mine by two years to an updated eight year life of mine. Â Â Â - Olympias: Mineral Reserves decreased due to depletion and Resource modelling incorporating additional drilling. Â The following table summarizes the period-over-period changes to the Company's Mineral Reserves: Â Gold Mineral Reserves Â 2023 2024 Change(1) Change excluding depletion Contained Gold Oz (x 1,000) Efemcukuru 550 678 128 224 Kisladag 3,759 3,559 (200) 144 Lamaque Complex (Triangle + Parallel) 877 658 (219) (43) Lamaque Complex (Ormaque) 0 619 619 936 Olympias 1,907 1,770 (137) (11) Perama Hill 995 997 2 2 Skouries 3,630 3,630 0 0 Total 11,717 11,911 194 936 Â NOTE: Totals may not sum due to rounding. Â (1) The Company reports its MRMR as of September 30, 2024. As such, the change year over year is from October 1, 2023 to September 30, 2024. Â Mineral Resources Update Â Eldorado's Measured and Indicated Mineral Resources (â€M&I Mineral Resourcesâ€) totalled 22.0 million ounces gold, as of September 30, 2024. The Company successfully converted Inferred Mineral Resources to M&I Mineral Resources at Ormaque, within the Lamaque Complex, and at Efemcukuru. The total is offset by depletion at the other operating mines. This resulted in a 3% decrease from the previous MRMR statement from September 30th, 2023. Eldorado's Inferred Mineral Resources totalled 6.8 million ounces as of September 30, 2024, a 10% decrease from the previous MRMR statement. Detailed MRMR disclosure tables are included at the end of this news release. Â Â 2 Â Â - Lamaque Complex: The increase in total M&I Mineral Resources is primarily related to conversion from Inferred Mineral Resources at Ormaque, whilst partially offset by depletion at Triangle. Â o Ormaque: M&I Mineral Resources increased nearly 300% attributable to significant expansion and conversion of Inferred Mineral Resources. Inferred Mineral Resources decreased as a result of the above-mentioned conversion, partially offset by the addition of new Inferred Mineral Resources. Â o Triangle: M&I Mineral Resources decreased due to depletion and Inferred Mineral Resources decreased due to discontinuities in C7 vein continuity recognised during in-fill drilling, grade changes, and cut-off grade assumptions, coupled with conversion to M&I Mineral Resources. Â Â - Kisladag: The decrease in M&I Mineral Resources is primarily from depletion. Inferred Mineral Resources remained relatively unchanged period-over-period. Â Â Â - Efemcukuru: The decrease in M&I Mineral Resources is primarily from depletion, partially offset by the conversion to Mineral Reserves at Kokarpinar South. The slight decrease in Inferred Mineral Resources is

attributable to conversion to M&I Mineral Resources. - Olympias: Both M&I Mineral Resources and Inferred Mineral Resources decreased due to depletion, model estimation parameters updates, and the exclusion of un-minable material which were previously included, off-setting extensional discoveries. As part of the annual review of Mineral Resources with respect to reasonable prospects for eventual economic extraction (RPEEE), some un-mineable material was removed due to proximity to existing infrastructure, areas of poor geotechnical conditions and inaccessibility due to previous mining activities. The following table summarizes the period-over-period changes to the Company's Mineral Resources:

	Measured and Indicated Gold Mineral Resources	Inferred Gold Mineral Resources
2023	2024	Change(2)
2023	2024	Change(2)
Contained Gold ounces (x1000)	Contained Gold ounces (x1000)

	Subtotal	18,962 18,210 (752)
		7,550 6,739
	Certej(3)	held for sale 3,829 3,829
		23 23
	Total	22,791 22,039 (752)
		7,573 6,762 (811)

NOTE: Totals may not sum due to rounding. (1) Mineral Resources are inclusive of Mineral Reserves. (2) The Company Reports on its MRMR as of September 30, 2024. As such, the change year over year is from October 1, 2023 to September 30, 2024. (3) As disclosed in the Q3 2024 Managements Discussion & Analysis, the Certej project has been presented as a disposal group held for sale as at September 30, 2024 and as a discontinued operation for the three and nine months ended September 30, 2024. On October 7, 2024, the Company entered into a share purchase agreement to sell the Certej project. The closing of the disposition is subject to certain conditions. 3 2025 Reporting Schedule The Company intends to report, and host a conference call led by senior management, as set out in the table below. The Company reserves the right to amend the schedule in its discretion and will inform the market of any changes in schedule.

Event	Result	Date
Conference Call	Fourth Quarter and Full Year 2024	February 20, 2025
First Quarter 2025	May 1, 2025	May 2, 2025
Second Quarter 2025	July 31, 2025	August 1, 2025
Third Quarter 2025	October 30, 2025	October 31, 2025

About Eldorado Eldorado is a gold and base metals producer with mining, development and exploration operations in Turkiye, Canada and Greece. The Company has a highly skilled and dedicated workforce, safe and responsible operations, a portfolio of high-quality assets, and long-term partnerships with local communities. Eldorado's common shares trade on the Toronto Stock Exchange (TSX: ELD) and the New York Stock Exchange (NYSE: EGO). Contact Investor Relations Lynette Gould, VP, Investor Relations, Communications & External Affairs 647 271 2827 or 1 888 353 8166 lynette.gould@eldoradogold.com Media Chad Pederson, Director, Communications and Public Affairs 236 885 6251 or 1 888 353 8166 chad.pederson@eldoradogold.com 4 5 6 Notes: (1) Resource grades are reported undiluted, however resources are assessed for reasonable expectation of economic extraction by applying expected minimum mining shapes. (2) As disclosed in the Q3 2024 Managements Discussion & Analysis, the Certej project has been presented as a disposal group held for sale as at September 30, 2024 and as a discontinued operation for the three and nine months ended September 30, 2024. On October 7, 2024, the Company entered into a share purchase agreement to sell the Certej project. The closing of the disposition is subject to certain conditions. (3) Mineralized shapes based on RPEEE identified based on 2.5 g/t Au COG; within shapes material below incremental COG of 1.0 g/t have been excluded; grades are diluted by must-take material between 1.0 and 2.5 g/t Au. (4) Due to narrow veins, continued conversion of Resources to Reserves at Ormaque will reflect expected lower grades to fully represent mining modifying factors. 7 Notes: (1) Resource grades are reported undiluted, however resources are assessed for reasonable expectation of economic extraction by applying expected minimum mining shapes. (2) As disclosed in the Q3 2024 Managements Discussion & Analysis, the Certej project has been presented as a disposal group held for sale as at September 30, 2024 and as a discontinued operation for the three and nine months ended September 30, 2024. On October 7, 2024, the Company entered into a share purchase agreement to sell the Certej project. The closing of the disposition is subject to certain conditions. (3) Due to narrow veins, any future potential conversion of Resources to Reserves at Ormaque will reflect expected lower grades to fully represent mining modifying factors. 8 ADVISORIES AND DETAILED NOTES ON MINERAL RESERVES AND RESOURCES General Mineral Reserves and Mineral Resources are as of September 30, 2024 The Mineral Reserves and Mineral Resources were classified using logic consistent with the CIM Definition Standards for Mineral Resources & Mineral Reserves (2014) incorporated, by reference, into National Instrument 43-101 "Standards of Disclosure for Mineral Projects (NI 43-101)". Sample preparation, analytical techniques, laboratories used, and quality assurance and quality control protocols used during exploration drilling programs are done consistent with industry standards and independent certified assay labs are used. Mineral Reserves are included in the Mineral Resources. The Mineral Reserves and Mineral Resources are disclosed on a total project basis. Measured and Indicated Mineral Resources which are not Mineral Reserves, do not have demonstrated economic viability. With respect to "Inferred Mineral Resources", there is a great amount of uncertainty as to their existence and uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of a "Measured Mineral Resource", "Indicated Mineral Resource" or "Inferred Mineral Resource" will ever be upgraded to a higher category. Additional information on the Kisladag, Efemcukuru, Olympias, Skouries and Lamaque mineral properties mentioned in this news release (all of which are considered to be material mineral properties to the Company) are contained in Eldorado's annual information form for the year ended December 31, 2023 and the following technical reports for each of those properties, all of which are available under the Company's profile at www.sedarplus.com and www.sec.gov:

- Technical report entitled "Technical Report, Kisladag Gold Mine, Turkiye" with an effective date of January 17, 2020.
- Technical report entitled "Technical Report, Efemcukuru Gold Mine, Turkiye" with an effective date of December 31, 2023.
- Technical report entitled "Technical Report, Olympias Mine, Greece" with an effective date of December 31, 2023.
- Technical report entitled "Technical Report, Skouries Project, Greece" with an effective date of January 22, 2022.
- Technical report entitled "Technical Report, for the Lamaque Project, Quebec, Canada" with an effective date of December 31, 2021.

In addition, Eldorado will file a new technical report for the Lamaque mineral properties (which will include the inaugural reserves at Ormaque noted above) by the end of January 2025. Qualified Persons Simon Hille, FAusIMM, Executive Vice President, Operations and Technical Services, is the "qualified person" under NI 43-101 responsible for preparing and supervising the preparation of the scientific or technical information contained in this news release and verifying the technical data disclosed in this document relating to our operating mines and development projects, unless otherwise noted. Additional qualified persons have approved disclosures for specific properties as detailed in "Mineral Reserve Notes" and "Mineral Resource Notes" below. Jessy Thelland, gAO (OGQ No. 758), Director Technical Services Lamaque, a member in

good standing of the Ordre des GÃ©ologues du QuÃ©bec, is the qualified person as defined in NI 43-101 responsible for, and has verified and approved, the scientific and technical disclosure contained in this news release for the Quebec projects. 9 Cautionary Note to US Investors Concerning Estimates of Measured, Indicated and Inferred Resources There are differences between the standards and terms used for reporting mineral reserves and resources in Canada, and in the United States pursuant to the United States Securities and Exchange Commission's (the "SEC"). The terms Mineral Resource, Measured Mineral Resource, Indicated Mineral Resource and Inferred Mineral Resource are defined by the Canadian Institute of Mining, Metallurgy and Petroleum (CIM) and the CIM Definition Standards on Mineral Reserves and Mineral Resources adopted by the CIM Council, and must be disclosed according to Canadian securities regulations. These standards differ from the requirements of the SEC applicable to domestic United States reporting companies. Accordingly, information contained in this news release with respect to mineral deposits may not be comparable to similar information made public by United States companies subject to the SEC's reporting and disclosure requirements. Mineral Reserve Notes Eldorado reports Mineral Reserves in accordance with CIM Definition Standards. Mineral Reserves for the operating sites (Efemcukuru, Kisladag, Olympias, and within the Lamaque Complex "Ormaque and Triangle") were determined using a long-term gold price of \$1,450/oz while Mineral Reserves for the Skouries and Perama Hill projects were determined based on a \$1,300/oz gold price. A reserve test is undertaken every year to confirm future undiscounted cash flow from reserve mine plan is positive. Long-Term Metal Price Assumptions Mineral Reserves 2023 2024 Gold price (\$ per ounce) 1,400 1,450 Silver price (\$ per ounce) 19.00 19.00 Copper price (\$ per pound) 2.75 2.75 Copper price (\$ per tonne) 6,061 6,061 Lead price (\$ per tonne) 2,000 2,000 Zinc price (\$ per tonne) 2,500 2,500 Cut-off Grades/Values Mineral Reserves 2023 2024 Efemcukuru \$123.62/t NSR(long hole stoping), \$126.60/t NSR (drift and fill) \$130.05/t NSR (long hole stoping), \$136.10/t NSR (drift and fill) Kisladag 0.173 g/t Au Recoverable 0.179 g/t Au Recoverable Lamaque Complex 5.06 g/t Au (Triangle Mine "long hole stoping) 4.99 g/t Au (long hole stoping), 5.67 g/t Au (drift and fill) Olympias \$217.63/t NSR \$216.79/t NSR Perama Hill 0.81 g/t Au 0.81 g/t Au Skouries \$10.60/t NSR (open pit), \$33.33/t NSR (underground) \$10.60/t NSR (open pit), \$33.33/t NSR (underground) 10 Qualified Persons The following persons, all of whom are qualified persons under NI 43-101, have approved the disclosure related to the Mineral Reserves for the projects noted below contained within this release: Asset Mining Type(s) Qualified Person Company Lamaque Complex: Triangle, Parallel, Plug #4 Underground Jessy Thelland, gao (OGQ No. 758), Technical Services Director Lamaque Eldorado Gold Lamaque Complex: Ormaque Underground Phillippe Groleau, Eng. (OIQ No. 5032770), Senior Strategic Planner Eldorado Gold Kisladag Open Pit Herb Ley, SME-RM, Senior Project Manager Stantec Efemcukuru Underground Mike Tsafaras, P.Eng., Director, Mine Planning Eldorado Gold Olympias Underground Filip Medinac, P.Eng., Technical Services Manager, Olympias Eldorado Gold Skouries Open Pit Victor Vdovin, P.Eng., Head of Technical Services, Cassandra Eldorado Gold Skouries Underground Mike Tsafaras, P.Eng., Director, Mine Planning Eldorado Gold Perama Hill Open Pit Herb Ley, SME-RM, Senior Project Manager Stantec Mineral Resource Notes Eldorado reports Mineral Resources in accordance with CIM Definition Standards. All Mineral Resources are assessed for reasonable prospects for eventual economic extraction (RPEEE). The Resource cut-off grades or values (e.g. gold equivalent) are determined using a long-term gold price (\$1,800/oz) and modifying factors derived in the resource to reserve conversion process (or by comparison to similar projects for our resource-only properties). These values are then used to create constraining volumes that provide limits to the reported Resources. Resource grades are reported undiluted from within the constraining volumes that satisfy RPEEE. At Efemcukuru, mineralized shapes based on RPEEE identified based on 2.5 g/t Au COG; within shapes material below incremental COG of 1.0 g/t have been excluded; grades are diluted by must-take material between 1.0 and 2.5 g/t Au. Due to the presence of narrow veins, any future potential conversion of Resources to Reserves at Ormaque will reflect expected lower grades to fully represent modifying factors associated with mining. Open Pit Resources used pit shells created with the long-term gold price to constrain reportable model blocks. Underground Resources were constrained by volumes whose design was guided by a combination of the reporting cut-off grade or value, contiguous areas of mineralization and mineability. Eldorado's Mineral Resources are inclusive of Reserves. Long-Term Metal Price Assumptions Mineral Resources 2023 2024 Gold price (\$ per ounce) 1,800 1,800 Silver price (\$ per ounce) 24.00 24.00 Copper price (\$ per pound) 3.25 3.25 Copper price (\$ per tonne) 7,163 7,163 Lead price (\$ per tonne) 2,200 2,200 Zinc price (\$ per tonne) 2,800 2,800 11 Mineral Resource Reporting and demonstration of Reasonable Prospects for Eventual Economic Extraction: The Mineral Resources used a long term look gold metal price of \$1,800/oz for the determination of resource cut-off grades or values. This guided execution of the next step where constraining surfaces or volumes were created to control resource reporting. Open pit-only projects (Kisladag, Perama Hill, Perama South, and Certej) used pit shells created with the long-term gold price to constrain reportable model blocks. Underground Resources were constrained by 3D volumes whose design was guided by the reporting cut-off grade or value, contiguous areas of mineralization and mineability. Only material internal to these volumes were eligible for reporting. Projects with both open pit and underground Resources have the open pit Resources constrained by either the permit (Skouries), and pit shell, or by an open pit/underground economic crossover surface, and underground Resources constrained by a reporting shape. Cut-off Grades/Values Mineral Resources 2023 2024 Certej 0.60 g/t Au 0.60 g/t Au Efemcukuru 2.5 g/t Au 2.5 g/t Au(1) Kisladag 0.25 g/t Au (in-situ) 0.27 g/t Au (in-situ) Lamaque Complex Triangle Mine: 3.0 g/t Au; Ormaque 3.5 g/t Au Triangle, Plug #4, Parallel, Ormaque: 3.5 g/t Au Olympias \$125/t NSR \$115/t NSR Perama Hill and Perama South 0.50 g/t Au 0.50 g/t Au Piavitsa 4.0 g/t Au 4.0 g/t Au Sapes 2.5 g/t Au (underground), 1.0 g/t Au (open pit) 2.5 g/t Au (underground), 1.0 g/t Au (open pit) Skouries 0.30 g/t Au Equivalent grade (open pit), 0.70 g/t Au Equivalent grade (underground); Au Equivalent: (=Au g/t + 1.25*Cu%) 0.30 g/t Au Equivalent grade (open pit), 0.70 g/t Au Equivalent grade (underground); Au Equivalent: (=Au g/t + 1.25*Cu%) Stratoni \$200/t NSR \$200/t NSR, based on Zn Equivalent grade of 10% (1) Mineralized shapes based on RPEEE identified based on 2.5 g/t Au COG; within shapes material below incremental COG of 1.0 g/t have been excluded; grades are diluted by must-take material between 1.0 and 2.5 g/t Au.
