Forward Looking Statements

Certain statements contained in this presentation that are not historical facts are forward-looking statements within the meaning of the safe harbor from civil liability provided for such statements by the Private Securities Litigation Reform Act of 1995 (set forth in Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Forward-looking statements provide our current expectations or forecasts of future events. Forward-looking statements include statements about the Company's expectations, beliefs, intentions, plans, objectives, goals, strategies, future events, performance and underlying assumptions and other statements that are not historical facts. Forward-looking statements can be identified by their use of forward-looking words, such as "may," "will," "anticipate," "expect," "believe," "intend," "plan," "should," "seek" or comparable terms, or the negative use of those words, but the absence of these words does not necessarily mean that a statement is not forward-looking. The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. Forward-looking statements are not predictions of future events. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. Some of these factors are described below and under the headings "Business", "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". These and other risks, uncertainties and factors could cause our actual results to differ materially from those included in any forward-looking statements we make. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise over time, and it is not possible for us to predict those events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Important factors that could cause actual results to differ materially from our expectations include, among others: changes in the real estate market conditions and general economic conditions; the inherent risks associated with owning real estate, including local real estate market conditions, governing laws and regulations affecting manufactured housing communities and illiquidity of real estate investments; increased competition in the geographic areas in which we own and operate manufactured housing communities; our ability to continue to identify, negotiate and acquire manufactured housing communities and/or vacant land which may be developed into manufactured housing communities on terms favorable to us; our ability to maintain or increase rental rates and occupancy levels; changes in market rates of interest; inflation and increases in costs, including personnel, insurance and the cost of purchasing manufactured homes; our ability to purchase manufactured homes for rental or sale; our ability to repay debt financing obligations; our ability to refinance amounts outstanding under our credit facilities at maturity on terms favorable to us; our ability to comply with certain debt covenants; our ability to integrate acquired properties and operations into existing operations; the availability of other debt and equity financing alternatives; continued ability to access the debt or equity markets; the loss of any member of our management team; our ability to maintain internal controls and processes to ensure all transactions are accounted for properly, all relevant disclosures and filings are made in a timely manner in accordance with all rules and regulations, and any potential fraud or embezzlement is thwarted or detected; the ability of manufactured home buyers to obtain financing; the level of repossessions by manufactured home lenders; market conditions affecting our investment securities; changes in federal or state tax rules or regulations that could have adverse tax consequences; our ability to qualify as a real estate investment trust for federal income tax purposes; litigation, judgments or settlements, including costs associated with prosecuting or defending claims and any adverse outcomes; changes in real estate and zoning laws and regulations; legislative or regulatory changes, including changes to laws governing the taxation of REITs; risks and uncertainties related to pandemics or other highly infectious or contagious diseases; and those risks and uncertainties referenced under the heading "Risk Factors" contained in the Form 10-K and the Company's filings with the Securities and Exchange Commission ("SEC").

You should not place undue reliance on these forward-looking statements, as events described or implied in such statements may not occur. The forward-looking statements contained in this Presentation speak only as of the date hereof and the Company expressly disclaims any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Recipients are strongly advised to read the Company's filings with the Securities and Exchange Commission because they contain important information.

Marcellus & Utica Shale Region Exposure

- The Marcellus and Utica Shale Regions are large natural gas fields located beneath much of Pennsylvania, Ohio, West Virginia and New York.
 - Fields have the potential to be among the largest sources of natural gas in the world.
 - Activity surrounding the development of the shale regions is expected to accelerate over the next few years.
- Economies in the shale region are expected to benefit from increased employment, wealth of landowners and state and local tax revenues.
- UMH is seeing increased demand for residential units in the region as a result of Marcellus and Utica Shale related activity. Demand for rental homes has increased substantially over the past year. UMH added an additional 433 rental homes during the first nine months of 2025.
- With approximately 4,000 acres in existing communities, UMH benefits from significant exposure to the Marcellus and Utica Shale Regions.

Favorable U.S. Housing Trends

UMH is well positioned to participate in the ongoing recovery of the US housing market.

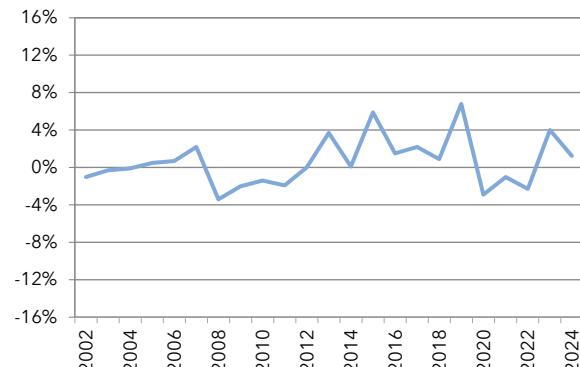

% of Households Owning a Single-Family Home

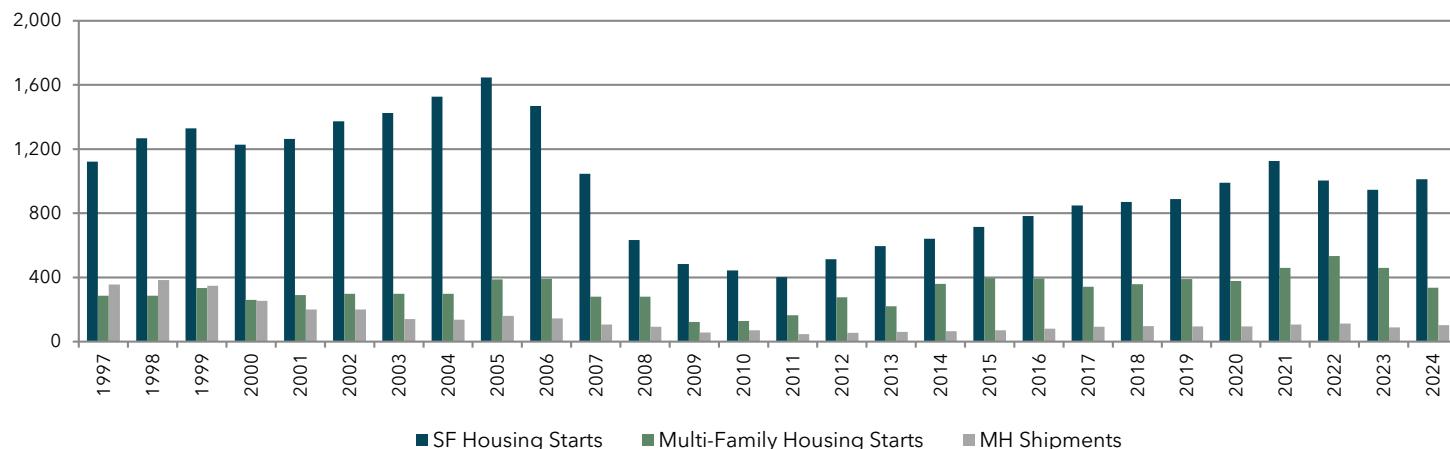

Single Family Home Price Change Year-Over-Year

Single Family Household Income Change Year-Over-Year

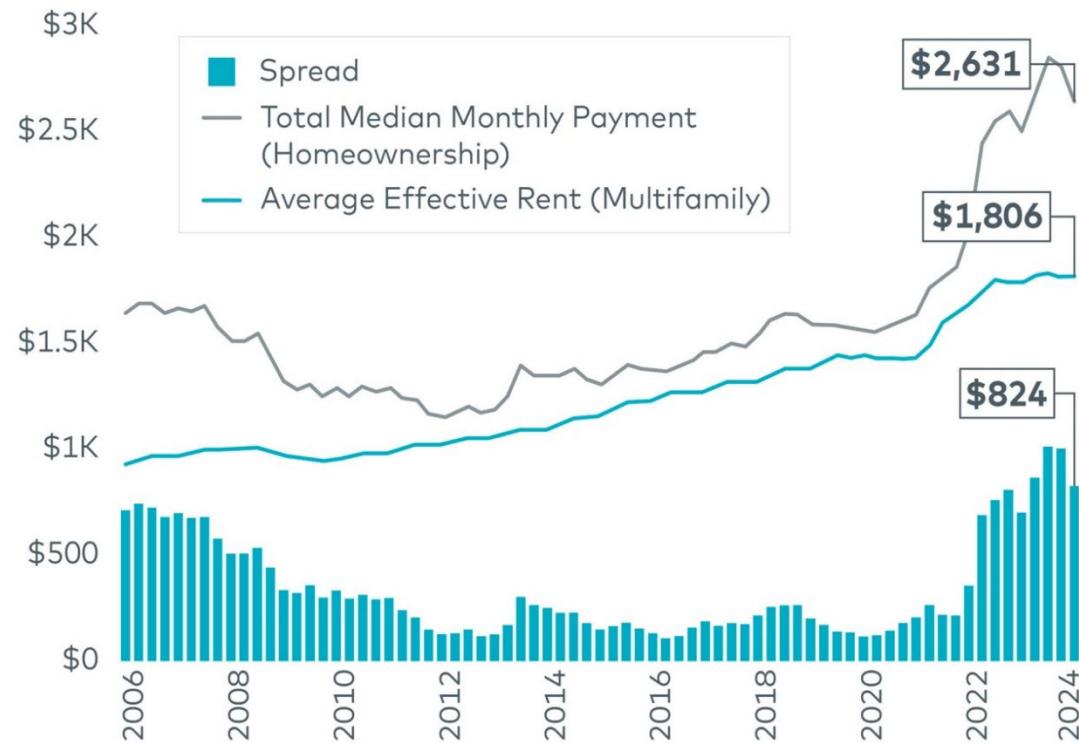

The Cyclicality of Housing

Favorable U.S. Housing Trends (contd.)

- Market conditions over the next several months imply a continuation in the gap between buying and renting.
- Higher mortgage rates incentivize homeowners not to move, reducing supply.
- The small number of homes being sold are in high demand, driving prices significantly higher.
- Once rates do decline, pent up demand could still support an overheated housing market.
- UMH benefits from both selling affordable homes and providing attractive rental options.
- Average cost of manufactured home - \$127,000 compared with \$413,000 for a site-built home.
- At UMH, in 3Q25 rentals averaged \$1,026/month ⁽¹⁾ and new home sales averaged \$140,000.

- Net cost of lot: $\$100,000 - \$50,000 = \$50,000$
- Charge \$800 lot rent per month, annual rent: $\$9,600$
- Net rent after 35% expenses: $\$9,600 \times 65\% = \$6,240$
- At 4% cap rate, value is: $\$6,240 / 4\% = \$156,000$
- Increase in value: $\$156,000 \text{ value} - \$50,000 \text{ net cost} = \$106,000$

Case Study of the Economics of Developing a 360 Lot Community

- Cost to build 360 lots: \$36,000,000
- Sell 360 homes: Sales price $\$300,000 \times 360 = \$108,000,000$; gross profit of \$18,000,000: possibly as high \$36,000,000
- Gross annual rent: $360 \times \$800 \times 12 = \$3,456,000$
- Net rent: $\$3,456,000 \times 65\% = \$2,246,400$
- Value of community: $\$2,246,400 / 4\% = \$56,160,000$
- Net cost: $\$36,000,000 - \$18,000,000 \text{ gross sales profit} = \$18,000,000$
- Value creation: $\$56,160,000 \text{ value} - \$18,000,000 \text{ net cost} = \$38,160,000$
- As rents rise 5%, net increases: $\$2,246,400 \times 5\% = \$112,320$
- Value increase: $\$112,320 / 4\% = \$2,808,000 \text{ per year}$

Sustainability

SPECIAL STRIDES NON-PROFIT ORGANIZATION, Monroe Twp., NJ
Founded in 1998

Sustainability has become increasingly important in recent years, and at UMH, we take pride in our long-standing commitment to these principles, which are deeply rooted in our company's core values. We understand that providing safe and affordable housing to low-income citizens addresses a critical social need and is an essential component to a thriving economy. Access to quality housing protects families and promotes productivity, making it a fundamental part of social infrastructure. In addition to our social efforts, we understand our responsibility to minimize our environmental impact and conserve natural resources. Our goal is to enhance the lives of everyone affected by our company, including employees, residents, neighbors, and the wider community. To ensure strong corporate governance, we prioritize the implementation of best practices across our organization. We are proud of our achievements and invite investors to review our 2024 Sustainability Report, which is available on our company's website at www.umh.reit.

Sustainability

VP of Corporate Security

- UMH appointed a VP to enhance security for both residents and employees.

Renewable Energy

- UMH pioneered the first solar-shingled manufactured home, marking a significant step forward in integrating renewable energy into affordable housing. To date, 20 homes have been delivered, set, approved, and completed in Ohio, with three already receiving permission to operate and the remaining homes expected to follow shortly.
- UMH entered a community solar program for its properties in New York. Through this program, we will contribute over 730,000 kWh, which is equivalent to offsetting approximately 515 metric tons of CO₂.

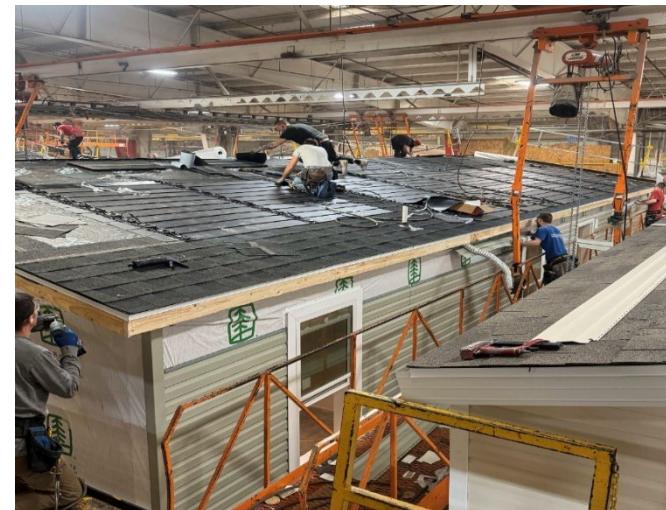

Sustainability Subcommittee

- The UMH Board established a subcommittee dedicated to overseeing all sustainability efforts.

Sustainalytics & MSCI Recognitions

- Sustainalytics endorsed our Sustainable Finance Framework for providing affordable housing and promoting energy efficiency.
- MSCI confirms all UMH revenues derive from affordable housing real estate.
