We are constructing a natural gas liquefaction and export facility located in the Rio Grande Valley in Brownsville, Texas (the "Rio Grande LNG Facility"). The Rio Grande LNG Facility has received Federal Energy Regulatory Commission ("FERC") approval and Department of Energy ("DOE") FTA and non-FTA authorizations for the construction of five liquefaction trains and LNG exports totaling 27 million tonnes per annum ("MTPA"). The Rio Grande LNG Facility has three liquefaction trains and related infrastructure ("Phase 1") under construction while liquefaction trains 4 and 5 are currently in development. We are also developing a planned carbon capture and storage ("CCS") project at the Rio Grande LNG Facility and other potential CCS projects that would be located at third-party industrial facilities. The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with Rule 10-01 of Regulation S-X. Accordingly, they do not include all the information and disclosures required by GAAP for complete financial statements and should be read in conjunction with the consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2023. In our opinion, all adjustments, consisting only of normal recurring items, which are considered necessary for a fair presentation of the unaudited consolidated financial statements, have been included. The results of operations for the three and six months ended June 30, 2024 are not necessarily indicative of the operating results for the full year.Certain reclassifications have been made to conform prior period information to the current presentation. The reclassifications did not have a material effect on the Company's financial position, results of operations or cash flows.The Company has incurred operating losses since its inception and management expects operating losses and negative cash flows to continue until the commencement of operations at the Rio Grande LNG Facility and, as a result, the Company will require additional capital to fund its operations and execute its business plan. As of June 30, 2024, the Company had \$38.1 million in cash and cash equivalents and available commitments of \$26.2 million under a revolving loan facility, which may not be sufficient to fund the Company's planned operations and development activities for future phases of the Rio Grande LNG Facility, including expected spending for Train 4 prior to a positive final investment decision ("FID"), and CCS projects through one year after the date the consolidated financial statements are issued. Accordingly, there is substantial doubt about the Company's ability to continue as a going concern. The analysis used to determine the Company's ability to continue as a going concern does not include cash sources outside of the Company's direct control that management expects to be available within the next twelve months.The Company plans to alleviate the going concern issue by obtaining sufficient funding through additional equity, equity-based or debt instruments or any other means and by managing certain operating and overhead costs. The Company's ability to raise additional capital in the equity and debt markets, should the Company choose to do so, is dependent on a number of factors, including, but not limited to, the market demand for the Company's equity or debt securities, which itself is subject to a number of business risks and uncertainties, as well as the uncertainty that the Company would be able to raise such additional capital at a price or on terms that are satisfactory to the Company. In the event the Company is unable to obtain sufficient additional funding, there can be no assurance that it will be able to continue as a going concern.These consolidated financial statements have been prepared on a going concern basis and do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary in the event the Company can no longer continue as a going concern.6Table of Contents Note 2 Property, Plant and EquipmentProperty, plant and equipment consisted of the following (in thousands):June 30,2024December 31,2023Rio Grande LNG Facility under construction\$3,720,997\$ 2,431,389 Corporate and other13,537\$ 7,518 Total property, plant and equipment, at cost3,734,534\$ 2,438,907 Less: accumulated depreciation(751)(1,174)Total property, plant and equipment, net\$3,733,783\$ 2,437,733 Note 3 DerivativesIn July 2023, Rio Grande entered into interest rate swaps agreements (the "Swaps") to protect against interest rate volatility by hedging a portion of the floating-rate interest payments associated with the credit facilities described in Note 6 Debt. In June 2024, Rio Grande reduced the maximum notional amount associated with the Swaps by approximately \$583.1 million, which resulted in a realized derivative gain of \$30.9 million. As of June 30, 2024, Rio Grande has the following Swaps outstanding (in thousands):Initial Notional AmountMaximum Notional AmountMaturity (1)Weighted Average Fixed Interest Rate PaidVariable Interest Rate Received\$123,000\$ 7,916,900 20483.4% USD - SOFR(1) Swaps have an early mandatory termination date in July 2030.The Company values the Swaps using an income-based approach based on observable inputs to the valuation model including interest rate curves, risk adjusted discount rates, credit spreads and other relevant data. The fair value of the Swaps is approximately \$276.5 million as of June 30, 2024, and is classified as Level 2 in the fair value hierarchy.Note 4 Leases The Company commenced the Rio Grande LNG Facility site lease on July 12, 2023 and it has an initial term of 30 years. The Company has the option to renew and extend the term of the lease for up to two consecutive renewal periods of ten years each, but as the Company is not reasonably certain that those options will be exercised, none are recognized as part of our right of use assets and lease liabilities. The Company has also entered into an office space lease which expires on December 31, 2035, and does not include any options for renewal.For the three months ended June 30, 2024 and 2023, our operating lease costs were \$2.6 million and \$0.3 million, respectively. The Rio Grande Facilities, the Senior Secured Loans, and Senior Secured Notes require Rio Grande to maintain a historical debt service coverage ratio of at least 1.10:1.00 at the end of each fiscal quarter starting from the initial principal payment date.With respect to certain events, including a change of control event and receipt of certain proceeds from asset sales, events of loss or liquidated damages, the Senior Secured Notes and Senior Secured Loans requires Rio Grande to make an offer to repay the amounts outstanding at 101% (with respect to a change of control event) or par (with respect to each other event).As of June 30, 2024, the Company was in compliance with all covenants related to its respective debt agreements.Debt Extinguishment As of June 30, 2024, Rio Grande has made repayments of \$1,282.0Â million, on the outstanding principal balance of the CD Credit Facility. The Company is not obligated to fund losses of Intermediate Holdings, however, the Company’s capital account, which would be considered in allocating the net assets of Intermediate Holdings were it to be liquidated, continues to share in losses of Intermediate Holdings. Further, Rio Grande has granted the Company decision-making rights regarding the construction of Phase 1 of the Rio Grande LNG Facility and key aspects of its operation, which may only be terminated by equity holders for cause, via agreements with NextDecade LLC. Due to the foregoing, the Company determined that it holds a variable interest in Rio Grande through Intermediate Holdings and is its primary beneficiary, and therefore consolidates Intermediate Holdings in these Consolidated Financial Statements.The following table presents the summarized assets and liabilities (in thousands) of Intermediate Holdings, which are included in the Company’s Consolidated Balance Sheets. The Court’s decision will not be effective until the Court has issued its mandate, which is not expected to occur until after the appeals process has been completed. At this time, construction continues on Phase 1 at the Rio Grande LNG Facility. The Company is reviewing the Court’s decision and assessing all of its options, together with the key project constituencies, including its equity partners and lenders. The Company expects to take all available legal and regulatory actions, including but not limited to, appellate actions and other strategies, to ensure that construction on Phase 1 will continue and that necessary regulatory approvals will be maintained to enable the construction of Trains 4 and 5 at the Rio Grande LNG Facility.As of August 14, 2024, the Company was in compliance with all covenants related to its respective debt agreements.13Table of Contents Item 2. We are constructing a natural gas liquefaction and export facility located in the Rio Grande Valley in Brownsville, Texas (the â€¢Rio Grande LNG Facilityâ€¢), which currently has three liquefaction trains and related infrastructure under construction. The Rio Grande LNG Facility has received Federal Energy Regulatory Commission (â€¢FERCâ€¢) approval and Department of Energy ("DOE") FTA and non-FTA authorizations for the construction of five liquefaction trains and supporting infrastructure with LNG exports totaling 27 million tonnes per annum (â€¢MTPAâ€¢). Please see "Significant Recent Developments - Regulatory" for more information regarding our FERC permit. Liquefaction trains 1 through 3 and related infrastructure are currently under construction and liquefaction trains 4 and 5 at the Rio Grande LNG Facility are currently in development. We are also developing a planned carbon capture and storage (â€¢CCSâ€¢) project at the Rio Grande LNG Facility and other potential CCS projects that would be located at third-party industrial facilities.We are constructing the Rio Grande LNG Facility on the north shore of the Brownsville Ship Channel. The site is located on 984 acres of land which has been leased long-term and includes 15 thousand feet of frontage on the Brownsville Ship Channel. We believe the site is advantaged due to its proximity to abundant natural gas resources in the Permian Basin and Eagle Ford Shale, access to an uncongested waterway for vessel loading, and location in a region that has historically been subject to fewer and less severe weather events relative to other locations along the US Gulf Coast. The 15Table of Contents Rio Grande LNG Facility has been permitted by the FERC and authorized by the DOE to export up to 27 MTPA of LNG from up to five liquefaction trains.In July 2023, our partially owned subsidiary Rio Grande LNG, LLC ("Rio Grande") commenced construction on the first three liquefaction trains and related infrastructure (â€¢Phase 1â€¢) of the Rio Grande LNG Facility following a positive final investment decision (â€¢FIDâ€¢) and the closing of project financing by Rio Grande, which owns Phase 1 of the Rio Grande LNG Facility. Construction will be completed by Bechtel Energy Inc. (â€¢Bechtelâ€¢) under fully wrapped, lump-sum turnkey engineering, procurement, and construction (â€¢EPCâ€¢) contracts, and will utilize APCI liquefaction technology, which is the predominant liquefaction technology utilized globally.Pursuant to a joint venture agreement with equity partners for ownership of Rio Grande, we expect to receive up to approximately 20.8% of distributions of available cash generated from Phase 1 operations, provided that a majority of the cash distributions to which we are otherwise entitled will be paid for any distribution period only after our equity partners receive an agreed distribution threshold in respect of such distribution period and certain other deficit payments from prior distribution periods, if any, are made.Rio Grande has entered into long-term LNG Sale and Purchase Agreements (â€¢SPAsâ€¢) for over 90% of the expected Phase 1 nameplate LNG production capacity, pursuant to which Rio Grande customers are generally required to pay a fixed fee with respect to the contracted volumes, irrespective of whether they cancel or suspend deliveries of LNG cargoes. These SPAs create a stable foundation of predictable, long-term cash flows to Rio Grande. We believe our SPAs are attractive to our customers for several reasons, including long-term reliable supply, volumes to support growing demand for LNG and to replace customers' contracts with legacy LNG suppliers, diversification of supply portfolios in terms of geography, price indexation, delivery points, and/or tenor, flexibility of volumes with no destination restrictions, and compatibility of some of our customers' ESG goals with our expected lower carbon intensity LNG and planned CCS project at the Rio Grande LNG Facility. Rio Grande expects to sell any commissioning LNG volumes and operational LNG volumes in excess of SPA volumes into the LNG market through spot, short-term, and medium-term agreements. Rio Grande has entered into certain time charter agreements and expects to enter into additional time charter agreements with vessel owners to provide shipping capacity for LNG sales related to its existing DES SPA, commissioning volumes, and expected portfolio volumes.Rio Grande will provide a number of services in support of producing and selling LNG from the Rio Grande LNG Facility pursuant to its SPAs, including natural gas feedstock procurement and transportation, liquefaction, and delivery of LNG to customers either at the loading dock of the Rio Grande LNG Facility or at the customer's global delivery points via chartered vessels.We are focused on constructing and operating the Rio Grande LNG Facility safely, efficiently, reliably, and sustainably. We seek to provide a less carbon-intensive and more sustainable LNG through project design, responsibly sourced gas, proposed net-zero power, and our planned CCS project at the Rio Grande LNG Facility. We also seek to make additional measurable contributions toward a net-zero future by developing CCS projects to reduce greenhouse gas emissions at other industrial facilities.Unless the context requires otherwise, references to â€¢NextDecade,â€¢ â€¢the Company,â€¢ â€¢we,â€¢ â€¢us,â€¢ and â€¢ourâ€¢ refer to NextDecade Corporation and its consolidated subsidiaries, and references to â€¢Rio Grandeâ€¢ refer to Rio Grande LNG, LLC and its subsidiaries.Significant Recent DevelopmentsSignificant developments since January 1, 2024 and through the filing date of this 10-Q include the following:Constructionâ€¢Under the EPC contracts with Bechtel, Phase 1 progress is tracked for Train 1, Train 2, and the common facilities on a combined basis and Train 3 on a separate basis. As of June 2024:â€¢The overall project completion percentage for Trains 1 and 2 and the common facilities of the Rio Grande LNG Facility was 24.1%, which is in line with the schedule under the EPC contract. Within this project completion percentage, engineering was 66.4% complete, procurement was 45.4% complete, and construction was 3.5% complete.â€¢The overall project completion percentage for Train 3 of the Rio Grande LNG Facility was 7.8%, based on preliminary schedules, which is also in line with the schedule under the EPC contract. Within this 16Table of Contents project completion percentage, engineering was 8.4% complete, procurement was 18.4% complete, and construction was 0.1% complete.Strategic and Commercialâ€¢In May 2024, the Company entered into a 20-year LNG SPA with ADNOC, pursuant to which ADNOC will purchase 1.9 MTPA of LNG from Train 4 at the Rio Grande LNG Facility for 20 years, on a free on board (FOB) basis at a price indexed to Henry Hub, subject to a positive FID on Train 4.â€¢In June 2024, the Company entered into a non-binding Heads of Agreement (HoA) with Aramco for a 20-year LNG SPA for offtake from Train 4 at the Rio Grande LNG Facility. Under the terms of the HoA, Aramco expects to purchase 1.2 MTPA of LNG for 20 years, on an FOB basis at a price indexed to Henry Hub. Aramco and the Company are in the process of negotiating a binding LNG SPA, and once executed, the SPA will be subject to a positive FID on Train 4.â€¢In August 2024, the Company finalized an EPC contract with Bechtel for Train 4 and related infrastructure for a cost of approximately \$4.3 billion. Price validity under the EPC contract for Train 4 and related infrastructure extends through December 31, 2024.â€¢In July 2024, the Company appointed Tarik Skeik as Chief Operating Officer. Mr. Skeik has over 20 years of experience delivering complex global mega projects in LNG, oil, and petrochemicals across North America, the Middle East, and Asia. He led the completion and start-up of six greenfield assets, and his experience includes the planning and execution through initial operation of projects including the Huizhou Chemicals Complex in China, Gulf Coast Growth Ventures in the US, Banyu Urip in Indonesia, Kearn Expansion in Canada, and QatarGas 2 in Qatar.Financialâ€¢In January 2024, the Company's wholly-owned subsidiary NextDecade LLC entered into a credit agreement that provides for a \$50 million senior secured revolving credit facility with additional capacity of \$12.5 million to cover interest. Borrowings under the revolving credit facility may be used for general corporate purposes, including development costs related to Train 4 at the Rio Grande LNG Facility. Borrowings bear interest at SOFR or the base rate plus an applicable margin as defined in the credit agreement. The revolving credit facility and interest term loan mature at the earlier of two years from the closing date of 10 business days after a positive FID on Train 4.â€¢In February 2024, Rio Grande issued and sold \$190 million of senior secured notes in a private placement transaction to finance a portion of Phase 1. The Senior secured notes were issued on February 9, 2024 and resulted in a reduction in the commitments outstanding under Rio Grande's existing bank credit facilities for Phase 1. These senior secured notes will be amortized over a period of approximately 18 years beginning in mid-2029, with a final maturity in June 2047. The senior secured notes bear interest at a fixed rate of 6.85% and rank pari passu to Rio Grande's existing senior secured financings.â€¢In June 2024, Rio Grande issued \$1.115 billion of senior secured notes in a private placement, and net proceeds were utilized to reduce outstanding borrowings and commitments under existing Rio Grande bank credit facilities for Phase 1. These senior secured notes will be amortized over a period of 18 years beginning in September 2029, with a final maturity in September 2047. The senior secured notes bear interest at a fixed rate of 6.58% and rank pari passu to Rio Grande's existing senior secured financings. Including this transaction, the Company has refinanced a total of over \$1.85 billion of the original \$11.1 billion Rio Grande term

loan facilities since a positive FID was reached on Phase 1 at the Rio Grande LNG Facility in July 2023.Regulatory&cIn August 2024, the U.S. Court of Appeals for the D.C. Circuit (the “Court”) issued an order vacating the FERC remand authorization of the Rio Grande LNG Facility on the grounds that the FERC should have issued a supplemental Environmental Impact Statement (“EIS”) during its remand process. The Court's decision will not be effective until the Court has issued its mandate, which is not expected to occur until after the appeals process has been completed.&cAt this time, construction continues on Phase 1 at the Rio Grande LNG Facility.&cThe Company is reviewing the Court's decision and assessing all of its options, together with the key project constituencies, including its equity partners and lenders. The Company expects to take all available legal and regulatory actions, including but not limited to, appellate actions and other strategies, to ensure that construction 17Table of Contents on Phase 1 will continue and that necessary regulatory approvals will be maintained to enable the construction of Trains 4 and 5 at the Rio Grande LNG Facility.Rio Grande LNG Facility ActivityLiquefaction Facilities OverviewWe are constructing the Rio Grande LNG Facility on the north shore of the Brownsville Ship Channel. The site is located on 984 acres of land which has been leased long-term and includes 15 thousand feet of frontage on the Brownsville Ship Channel. We believe the site is advantaged due to its proximity to abundant natural gas resources in the Permian Basin and Eagle Ford Shale, access to an uncongested waterway for vessel loading, and location in a region that has historically been subject to fewer and less severe weather events relative to other locations along the US Gulf Coast. The Rio Grande LNG Facility has been permitted by the FERC and authorized by the DOE to export up to 27 MTPA of LNG from up to five liquefaction trains. Please see "Significant Recent Developments - Regulatory" for more information regarding our FERC permit.In July 2023, construction commenced on Phase 1 of the Rio Grande LNG Facility following a positive FID and the closing of project financing by Rio Grande, which owns Phase 1 of the Rio Grande LNG Facility. Phase 1 includes three liquefaction trains with a total expected nameplate capacity of approximately 17.6 MTPA, two 180,000 cubic meter full containment LNG storage tanks, two jetty berthing structures designed to load LNG carriers up to 216,000 cubic meters in capacity, and associated site infrastructure and common facilities including feed gas pretreatment facilities, electric and water utilities, two totally enclosed ground flares for the LNG tanks and marine facilities, two ground flares for the liquefaction trains, roads, levees surrounding the entire site, and warehouses, administrative, operations control room and maintenance buildings.As of June 2024, progress on Trains 1 through 3 is in line with the schedule under the EPC Contracts.Train 1 deep soil mixing has been completed and foundation pours are underway, including refrigeration compressor foundations. Additionally, steel erection for Train 1 is in process, and first pipework has been placed in the Train 1 cryogenic rack. Train 2 deep soil mixing is in process, and delivery of key materials such as large bore above-ground pipe and structural steel has continued. LNG tank progress has been strong, with excavation, pile leveling, and rebar installation for Tank 1 underway and Tank 2 piling completed. The permanent water supply for the site has been full constructed and is operational.Bechtel has continued to make meaningful progress on procurement for Phase 1, with a focus on completing purchase orders for critical and high-value items early in the construction process. As of June 2024, Bechtel has issued approximately 92% of the total purchase orders for Trains 1 and 2 and approximately 88% of the total purchase orders for Train 3.LNG Sale and Purchase AgreementsFor Phase 1 of the Rio Grande LNG Facility, Rio Grande has entered into long-term LNG SPAs with nine creditworthy counterparties for aggregate volumes of approximately 16.2 MTPA of LNG, which is over 90% of the expected Phase 1 nameplate LNG production capacity. The SPAs have a weighted average term of 19.2 years. Under these SPAs, the customers will purchase LNG from Rio Grande for a price consisting of a fixed fee per MMBtu of LNG plus a variable fee per MMBtu of LNG, with the variable fees structured to cover the expected cost of natural gas plus fuel and other sourcing costs to produce LNG. In certain circumstances, customers may elect to cancel or suspend deliveries of LNG cargoes, in which case the customers would still be required to pay the fixed fee with respect to cargoes that are not delivered. A portion of the fixed fee under each SPA will be subject to annual adjustment for inflation. The SPAs and contracted volumes to be made available under the SPAs are not tied to a specific train; however, the commencement of the term of each SPA is tied to a specified train.18Table of Contents Rio Grande’s portfolio of LNG SPAs for Phase 1 of the Rio Grande LNG Facility is as follows:CustomerVolume (MTPA)Tenor (years)Delivery Model (1)TotalEnergies Gas & Power North America, Inc.5.420FOBShell NA LNG LLC (“Shell”)2.020FOBENN LNG Singapore Pte Ltd.2.020FOBENGIE S.A.1.7515FOBChina Gas Hongda Energy Trading Co., LTD1.020FOBGuangdong Energy Group1.020DESExxon Mobil LNG Asia Pacific1.020FOBGalp Trading S.A.1.020FOBIttochu1.015FOBTotol16.1519.2 yearsweighted averageÂ(1)FOB - free on board; DES - delivered ex-shipEach of these SPAs is currently effective, and deliveries of LNG under these SPAs will commence on the respective Date of First Commercial Delivery (“DFCD”), which is primarily tied to the substantial completion or guaranteed substantial completion dates of specific trains as defined in each SPA. In aggregate, approximately 14.65 MTPA of Phase 1 Henry Hub-linked SPAs have average fixed fees, unadjusted for inflation, totaling approximately \$1.8 billion expected to be paid annually.Marketing of Uncontracted VolumesRio Grande expects to sell any commissioning LNG volumes and operational LNG volumes in excess of SPA volumes into the LNG market through spot, short-term, and medium-term agreements. Rio Grande has entered into certain time charter agreements and expects to enter into additional time charter agreements with vessel owners to provide shipping capacity for LNG sales related to its existing DES SPA, commissioning volumes, and expected portfolio volumes.Engineering, Procurement and Construction (“EPC”)Rio Grande entered into fully wrapped, lump-sum turnkey contracts with Bechtel, a well-established and reputable LNG engineering and construction firm, for the engineering, procurement, and construction of Phase 1 and Train 4 at the Rio Grande LNG Facility, under which Bechtel has generally guaranteed cost, performance, and schedule. Under the Phase 1 and Train 4 EPC contracts, Bechtel is responsible for the engineering, procurement, construction,commissioning, and startup of liquefaction trains and their respective related infrastructure.On July 12, 2023, Rio Grande issued final notice to proceed to Bechtel under the EPC contracts for Phase 1. Total expected capital costs for Phase 1 are estimated to be approximately \$18.0 billion, including estimated EPC costs, owner’s costs, contingencies, and financing costs, and including amounts spent prior to FID under limited notices to proceed.Natural Gas Transportation and SupplyFor Phase 1 of the Rio Grande LNG Facility, Rio Grande has entered into a firm transportation agreement for capacity on the Rio Bravo Pipeline to transport natural gas feedstock to the Rio Grande LNG Facility. The Rio Bravo Pipeline will be developed by Whistler LLC, a joint venture between WhiteWater, I Squared, MPLX LP, and Enbridge, and will be constructed and operated by WhiteWater. The Rio Bravo Pipeline will provide Rio Grande access to purchase natural gas supplies in the Agua Dulce area and will connect to six regional intra and interstate pipelines, giving Rio Grande access to prolific gas production from the Permian Basin and Eagle Ford Shale and providing significant flexibility to obtain competitively priced natural gas feedstock.The Rio Bravo Pipeline is under development and is expected to be constructed and completed prior to the start of commissioning of Train 1 at the Rio Grande LNG Facility. Rio Grande has also entered into an agreement for capacity on an interruptible basis with Enbridge’s Valley Crossing Pipeline to provide redundant natural gas transportation capacity to the Rio Grande LNG Facility for commissioning and operations.We have proposed and are in the process of executing on a substantial and diversified natural gas feedstock sourcing strategy to spread risk exposure across multiple contracts, counterparties, and pricing hubs. We expect to enter into gas supply arrangements with a wide range of suppliers, and we also expect to leverage trading platforms and exchanges to lock in natural gas supply prices and/or hedge risk. Certain of our LNG offtake counterparties have the option 19Table of Contents to sell to Rio Grande some or all of the natural gas required to produce their respective contracted LNG volumes pursuant to structured options which define how much volume can be supplied and how much notice must be provided to switch to and from self-sourcing.We believe our proximity to major reserve basins and shale plays, increasing pipeline capacity in the area, a significant amount of natural gas production and infrastructure investment, as well as our existing contacts and discussions with some of the largest regional operators, represent key elements of a comprehensive and effective feed gas strategy.Final Investment Decision of Train 4 and Train 5 at the Rio Grande LNG FacilityWe expect to make a positive final investment decision and commence construction of Train 4 and related infrastructure, and subsequently Train 5 and related infrastructure, at the Rio Grande LNG Facility, subject to, among other things, maintaining requisite governmental approvals, finalizing and entering into EPC contracts, entering into appropriate commercial arrangements, and obtaining adequate financing to construct each train and related infrastructure. The Company has finalized an EPC contract with Bechtel for Train 4 and related infrastructure.The Company continues to advance commercial discussions with multiple potential counterparties and expects to finalize commercial arrangements for Train 4 in the coming months to support a positive FID on Train 4. The Company entered into an LNG SPA with ADNOC for the sale of 1.9 MTPA of LNG from Train 4, as well as a non-binding HoA with Aramco for the sale of 1.2 MTPA of LNG from Train 4. The Company is working with Aramco to finalize a binding SPA. Additionally, an affiliate of TotalEnergies SE (“TotalEnergies”) has an LNG purchase option of 1.5 MTPA for Train 4, and the Company expects TotalEnergies to exercise the option.The Company expects to finance construction of Train 4 utilizing a combination of debt and equity funding. The Company expects to enter into bank facilities for the debt portion of the funding. In connection with consummating the Rio Grande Phase 1 equity joint venture, the Company’s equity partners each have options to invest in Train 4 equity, which, if exercised, would provide approximately 60% of the equity funding required for Train 4. Inclusive of these options, NextDecade currently expects to fund 40% of the equity commitments for Train 4 and to have an initial economic interest of 40% in Train 4, increasing to 60% after its equity partners achieve certain returns on their investments in Train 4. The Company expects to take a final investment decision on Train 4 after commercial and financing arrangements are finalized.The Company expects to progress the development of Train 5 after a positive FID on Train 4. TotalEnergies also holds an LNG purchase option for 1.5 MTPA for Train 5, and the Rio Grande Phase 1 equity partners have options to invest in Train 5 equity which are materially equivalent to their options to participate in Train 4 equity.FERC UpdateOn April 21, 2023, the FERC issued the order on remand (the “Remand Order”) reaffirming the order issued by FERC on November 22, 2019, authorizing the siting, construction and operation of the Rio Grande LNG Facility (the “Order”). The Remand Order reaffirmed that the Rio Grande LNG Facility is not inconsistent with the public interest under the Natural Gas Act Section 3.The Remand Order was issued as a result of the decision of the U.S. Court of Appeals for the District of Columbia (the “D.C. Circuit”) dated August 3, 2021, which denied all petitions filed by parties who filed requests for re-hearing of the Order, except for two technical issues dealing with environmental justice and GHG emissions, which were remanded to the FERC for further consideration.Parties sought rehearing of the Remand Order, which FERC denied by operation of law on June 22, 2023, and subsequently issued a substantive order on the merits upholding the conclusions in the Remand Order, and its reaffirmation of the FERC Order. On August 17, 2023, parties petitioned the D.C. Circuit for review of the Remand Order. Oral arguments were held on May 17, 2024. On August 6, 2024, the D.C. Circuit issued an order vacating FERC's remand authorization of the Rio Grande LNG Facility on the grounds that the FERC should have issued a supplemental EIS during its remand process. The D.C. Circuit's decision will not be effective until the appeals process has been completed.On November 24, 2023, a motion was filed with FERC to stay construction of the Rio Grande LNG Facility, which FERC denied on January 24, 2024. On February 2, 2024, parties filed a motion with the D.C. Circuit to stay construction of the Rio Grande LNG Facility. On March 1, 2024 the motion to stay was denied by the D.C. Circuit.We are reviewing the D.C. Circuit's decision and evaluating all of our options. We expect to take all available legal and regulatory actions, including but not limited to, appellate actions and other strategies, to ensure that construction on Phase 1 will continue and that necessary regulatory approvals are maintained to enable the construction of Trains 4 and 5 at the Rio Grande LNG Facility.20Table of Contents Corporate and Other ActivitiesWe are required to maintain corporate and general and administrative functions to serve our business activities described above. We are also in various stages of developing other projects, such as Train 4 and Train 5 at the Rio Grande LNG Facility, additional liquefaction expansions at the Rio Grande LNG Facility, a CCS project at the Rio Grande LNG Facilities, and potential CCS projects at third party industrial facilities.Financing ActivityCorporate Credit FacilityIn January 2024, our wholly-owned subsidiary NextDecade LLC entered into a credit agreement that provides for a \$50 million senior secured revolving credit facility with additional capacity of \$12.5 million to cover interest. Borrowings under the revolving credit facility may be used for general corporate purposes, including development costs related to Train 4 at the Rio Grande LNG Facility. Borrowings bear interest at SOFR or the base rate plus an applicable margin as defined in the credit agreement. The revolving credit facility and interest term loan mature at the earlier of two years from the closing date or 10 business days after a positive FID on Train 4.Rio Grande Senior Secured NotesIn February 2024, Rio Grande issued and sold \$190

million of senior secured notes to finance a portion of Phase 1. The senior secured notes were issued on February 9, 2024 and resulted in a reduction in the commitments outstanding under Rio Grande's existing bank credit facilities for Phase 1. These senior secured notes will be amortized over a period of approximately 18 years beginning in mid-2029, with a final maturity in June 2047. The senior secured notes bear interest at a fixed rate of 6.85% and rank pari passu to Rio Grande's existing senior secured financings. In June 2024, Rio Grande issued \$1.115 billion of senior secured notes in a private placement, and proceeds were utilized to reduce outstanding borrowings and commitments under Rio Grande's existing bank credit facilities for Phase 1. These senior secured notes will be amortized over a period of 18 years beginning in September 2029, with a final maturity in September 2047. The senior secured notes bear interest at a fixed rate of 6.58% and rank pari passu to Rio Grande's existing senior secured financings. Liquidity and Capital Resources Following FID on Phase 1 and the project financing obtained by Rio Grande, NextDecade and Rio Grande operate with independent capital structures. Although our sources and uses are presented from a consolidated standpoint, certain restrictions under debt and equity agreements limit the ability of NextDecade and Rio Grande to use and distribute cash. Rio Grande is required to deposit all cash received under its debt agreements into restricted accounts. The usage or withdrawal of such cash is restricted to the payment of obligations related to Phase 1 and other restricted payments, and such cash and capital resources are not available to service the obligations of NextDecade. Phase 1 FID Rio Grande Financing In connection with the FID on Phase 1 of the Rio Grande LNG Facility, Rio Grande obtained approximately \$6.2 billion in equity capital commitments, inclusive of commitments from the NextDecade Member, entered into senior secured non-recourse bank credit facilities of \$11.6 billion, consisting of \$11.1 billion in construction term loans and a \$500 million working capital facility, and closed a \$700 million senior secured non-recourse private notes offering. Rio Grande expects to utilize these capital resources to fund the total cost of Phase 1, which is currently estimated at \$18.0 billion and consists of EPC costs, owner's costs and contingencies, dredging for the Brazos Island Harbor Channel Improvement Project, conservation of more than 4,000 acres of wetland and wildlife habitat area and installation of utilities, and interest during construction and other financing costs. Near Term Liquidity and Capital Resources of NextDecade Corporation Prior to the FID on Phase 1 of the Rio Grande LNG Facility, our primary cash needs historically were funding development activities in support of the Rio Grande LNG Facility and our CCS projects, which included payments of initial direct costs of the Rio Grande site lease and expenses in support of engineering and design activities, regulatory approvals and compliance, commercial and marketing activities and corporate overhead. We spent approximately \$97.7 million on such development activities year-to-date through FID on July 12, 2023, which we funded through our cash on hand and proceeds from the issuances of equity and equity-based securities. Following the FID on Phase 1 of the Rio Grande LNG Facility, costs associated with the Phase 1 EPC agreements, Rio Grande site lease, and other Phase 1 related costs are being funded by debt and equity proceeds received by Rio Grande. Because our businesses and assets are under construction or in development, we have not historically generated significant cash flow from operations, nor do we expect to do so until liquefaction trains at the Rio Grande LNG Facility begin operating or until we install CCS systems at third-party industrial facilities. We intend to fund development activities for the foreseeable future with cash and cash equivalents on hand and through the sale of additional equity, equity-based or debt securities in us or in our subsidiaries. There can be no assurance that we will succeed in selling equity or equity-based securities or, if successful, that the capital we raise will not be expensive or dilutive to stockholders. Our consolidated financial statements as of and for the three and six months ended June 30, 2024 have been prepared on the basis that we will continue as a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. Based on our balance of cash and cash equivalents of \$38.1 million and available commitments under a revolving loan facility of \$26.2 million at June 30, 2024, there is substantial doubt about our ability to continue as a going concern within one year after the date that our consolidated financial statements were issued. Our ability to continue as a going concern will depend on managing certain operating and overhead costs and our ability to raise capital through equity, equity-based or debt financings. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty, which could have a material adverse effect on our financial condition. Our capital raising activities since January 1, 2024 have included the following: In January 2024, NextDecade LLC entered into a Credit and Guaranty Agreement by and among NextDecade LLC, as borrower, Rio Grande LNG Super Holdings, LLC and Rio Grande LNG Intermediate Super Holdings, LLC, as subsidiary guarantors, MUFG Bank, Ltd., as the administrative agent (the "Administrative Agent"), Wilmington Trust, National Association, as the collateral agent (the "Collateral Agent"), MUFG Bank, Ltd., as coordinating lead arranger and bookrunner and the financial institutions party thereto as lenders. The Credit and Guarantee Agreement provides for the following facilities: a revolving loan facility (the "Revolving Loans") in an amount up to \$50.0 million available to NextDecade LLC to be used for (a) general corporate purposes and working capital requirements of NextDecade LLC and its subsidiaries, including development costs related to the fourth liquefaction train and related common facilities at the Rio Grande LNG Facility, and (b) certain permitted payments on behalf of the Company and its subsidiaries; and an interest loan facility (the "Interest Loans") and together with the Revolving Loans, the "Loans") in an amount up to \$12.5 million available to NextDecade LLC to pay interest obligations, fees, and expenses due and payable under the Credit Agreement and the other finance documents. Long Term Liquidity and Capital Resources of NextDecade Corporation We will not receive significant cash flows from Phase 1 of the Rio Grande LNG Facility until it is operational, and the commercial operation date for the first train of Phase 1 is expected to occur in late 2027 based on the schedule under the EPC contracts. Any future phases of development at the Rio Grande LNG Facility and CCS projects will similarly take an extended period of time to develop, construct and become operational and will require significant capital deployment. We currently expect that the long-term capital requirements for future phases of development at the Rio Grande LNG Facility and any CCS projects will be financed predominantly through the proceeds from future debt, equity-based, and equity offerings by us or our subsidiaries. As a result, our business success will depend, to a significant extent, upon our ability to obtain financing required to fund future phases of development and construction at the Rio Grande LNG Facility and any CCS projects, to bring them into operation on a commercially viable basis and to finance any required increases in staffing, operating and expansion costs during that process. There can be no assurance that we will succeed in securing additional debt and/or equity financing in the future to fund future phases of development and construction at the Rio Grande LNG Facility or complete any CCS projects or, if successful, that the capital we raise will not be expensive or dilutive to stockholders. Additionally, if these types of financing are not available, we will be required to seek alternative sources of financing, which may not be available on terms acceptable to us, if at all. Table of Contents Sources and Uses of Cash The following table summarizes the sources and uses of our cash for the periods presented (in thousands):

Six Months Ended June 30, 2024	2023
Operating cash flows	\$22,838
Investing cash flows	(1,374,290)
Financing cash flows	1,305,729
Net decrease in cash, cash equivalents and restricted cash	(91,399)
Cash, cash equivalents and restricted cash at beginning of period	294,478
Cash, cash equivalents and restricted cash at end of period	\$203,079

Operating Cash Flows Operating cash outflows during the six months ended June 30, 2024 and 2023 were \$22.8 million and \$41.2 million, respectively. The decrease in operating cash outflows during the six months ended June 30, 2024 compared to the six months ended June 30, 2023 was primarily due to cash received in the settlement of derivatives partially offset by an increase in employee costs and professional fees paid to consultants as we construct Phase 1 of the Rio Grande LNG Facility and continue to develop subsequent phases. Investing Cash Flows Investing cash outflows during the six months ended June 30, 2024 and 2023 were \$1,374.3 million and \$56.5 million, respectively. Investing cash outflows primarily consist of cash used in the construction of Phase 1 of the Rio Grande LNG Facility. The increase in investing cash outflows during the six months ended June 30, 2024 compared to the same period in 2023 was primarily due to a positive FID on Phase 1 of the Rio Grande LNG Facility in July 2023 which has carried into 2024. Financing Cash Flows Financing cash inflows during the six months ended June 30, 2024 and 2023 were \$1,305.7 million and \$74.9 million, respectively. Financing cash inflows during the 2024 period are primarily comprised of \$2,300.6 million of proceeds from borrowings under Rio Grande's credit facilities and its issuance of senior secured notes and proceeds from the receipt of equity commitments in Intermediate Holdings of \$333.3 million, partially offset by debt issuance costs of \$36.6 million and repayment of \$1,282.0 million of debt using proceeds of the senior secured notes offering during the 2024 period. Financing cash inflows during the 2023 period were primarily comprised of the sale of Company common stock. Table of Contents Results of Operations The following table summarizes costs, expenses and other income for the periods indicated (in thousands):

Interest expense, net of capitalized interest	(26,030)
Loss on debt extinguishment	(40,133)
Net income (loss) attributable to NextDecade Corporation	122,593
Preferred stock dividends	(6,754)
Net loss attributable to common stockholders	\$32.6 million, or \$(0.13) per common share (basic and diluted), for the three months ended June 30, 2024 compared to a net loss of \$127.0 million, or \$(0.84) per common share (basic and diluted), for the three months ended June 30, 2023. The \$94.5 million decrease in net loss was primarily a result of derivative gain, partially offset by increases in general and administrative expense, net income attributable to non-controlling interest, loss on debt extinguishment and interest expense, net of capitalized interest. Derivative gain during the three months ended June 30, 2024 of \$109.1 million is primarily due to an increase in forward SOFR rates from March 31, 2024 to June 30, 2024 and cash received in derivative settlements. General and administrative expense during the three months ended June 30, 2024 increased approximately \$7.1 million compared to the same period in 2023 primarily due to an increase in professional fees and employee costs, partially offset by a decrease in share-based compensation expense. Interest expense, net of capitalized interest during the three months ended June 30, 2024 of \$26.0 million represents total interest cost on debt of \$63.8 million, net of capitalized interest of \$37.8 million. Net income attributable to non-controlling interest during the three and six months ended June 30, 2024 of \$34.9 million and \$193.3 million, respectively, is due to the sale of equity in Intermediate Holdings in July 2023 and the non-controlling interests share of Intermediate Holdings net income. Net loss attributable to common stockholders was \$4.2 million, or \$(0.02) per common share (basic and diluted) for the six months ended June 30, 2024 compared to a net loss of \$161.1 million, or \$(1.08) per common share (basic and diluted), for the six months ended June 30, 2023. The \$156.9 million decrease in net loss was primarily a result of derivative gain, partially offset by increases in general and administrative expense, net income attributable to non-controlling interest, loss on debt extinguishment and interest expense, net of capitalized interest. Derivative gain during the six months ended June 30, 2024 of \$367.9 million is due to the reversal of derivative liabilities recognized at December 31, 2023, an increase in forward SOFR rates from December 31, 2023 to June 30, 2024 and cash received in derivative settlements. General and administrative expense during the six months ended June 30, 2024 increased approximately \$13.3 million compared to the same period in 2023 primarily due to an increase in professional fees and employee costs, partially offset by a decrease in share-based compensation expense. Table of Contents Interest expense, net of capitalized interest during the six months ended June 30, 2024 of \$51.5 million represents total interest cost on debt of \$117.4 million, net of capitalized interest of \$65.9 million. Summary of Critical Accounting Estimates The preparation of our Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make certain estimates and assumptions that affect the amounts reported in the Consolidated Financial Statements and the accompanying notes. There have been no significant changes to our critical accounting estimates from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2023. Item 3. Quantitative and Qualitative Disclosures About Market Risk We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934, as amended, and

are not required to provide the information under this item.Item 4. Controls and ProceduresWe maintain a set of disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports filed by us under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. As of the end of the period covered by this report, we evaluated, under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 of the Exchange Act. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that, as of June 30, 2024, our disclosure controls and procedures were effective.During the most recent fiscal quarter, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.25Table of Contents PART II – OTHER INFORMATIONItem 1. Legal ProceedingsNone.Item 1A. Risk FactorsIn addition to the other information set forth in this report, you should carefully consider the factors discussed below and in Part I, "Item 1A. Risk Factors" in our 2023 Annual Report on Form 10-K, which could materially affect our business, financial condition or future results.The recent decision by the D.C. Circuit Court of Appeals could impact Rio Grande’s ability to complete Phase 1 on the expected time frame or at all, our ability to take a final investment decision on expansion trains at the Rio Grande LNG Facility and our ability to achieve expected investment returns.We are required to obtain and maintain governmental approvals and authorizations to implement our proposed business strategy, which includes the design, construction and operation of the Rio Grande LNG Facility and the export of LNG from the U.S. to foreign countries. As described in more detail in –Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations–Overview of Business and Significant Developments–Significant Recent Developments–Regulatory,–on August 6, 2024, the D.C. Circuit Court of Appeals vacated the FERC authorization for the siting, construction and operation of the Rio Grande LNG Facility. We intend to pursue available legal remedies against judicial challenges and are engaged in active resolution of the requisite issues to ensure that the affected permit remains in effect; however, there is no guarantee as to how long any agency proceedings and judicial challenges will take to resolve, whether there will be any delays in construction activities or whether Rio Grande will ultimately succeed in maintaining the permit in its issued form or in a suitable replacement form. These uncertainties could cause Rio Grande to be subject to increased costs and adverse impact to its ability to complete the construction of Phase 1 on a timely basis or at all, which in turn could adversely affect the ability for Rio Grande and its owners, including us, to successfully implement our business strategy or achieve expected returns. Similarly, these uncertainties could impact the timing of, and our ability to take, a final investment decision on any expansion trains at the Rio Grande LNG Facility. In addition, the bank credit facilities obtained by Rio Grande to finance a substantial portion of Phase 1 costs require maintenance of material governmental approvals. To the extent Rio Grande becomes unable to satisfy such requirement as set forth in the credit agreements or reach other accommodations with its lenders, its ability to continue borrowing under such credit facilities could be negatively impacted, which in turn could adversely affect our business, financial condition, results of operations and liquidity.Item 2. Certification of the cancellation of Notes will be delivered to the Company upon the Company's written request. The Company may not issue new Notes to replace Notes that it has paid or that have been delivered to the Trustee for cancellation.2.12Defaulted InterestIf the Company defaults in a payment of interest on the Notes, it will pay the defaulted interest in any lawful manner plus, to the extent lawful, interest payable on the defaulted interest, to the Persons who are Noteholders on a subsequent special record date, in each case at the rate provided in the Notes and in Section 4.1. The Company will notify the Trustee in writing of the amount of defaulted interest proposed to be paid on each Note and the date of the proposed payment. The Company will fix or cause to be fixed each such special record date and payment date; provided, that no such special record date may be less than ten days prior to the related payment date for such defaulted interest. At least fifteen days before the special record date, the Company (or, upon the written request of the Company and provision of such notice information, the Trustee in the name and at the expense of the Company) will mail or cause to be mailed or deliver electronically to Noteholders a notice that states the special record date, the related payment date and the amount of such interest to be paid.2.13CUSIP Numbers / PPNThe Company in issuing the Notes may use "CUSIP" numbers or private placement numbers ("PPNs") (if then generally in use), and, if so, the Trustee shall use "CUSIP" numbers or PPNs in notices of redemption as a convenience to Holders; provided that the Trustee shall have no liability for any defect in the "CUSIP" numbers or PPNs as they appear on the any Note, notice or elsewhere, and, provided further that any such notice may state that no representation is made as to the correctness of such numbers either as printed on the Notes or as contained in any notice of a redemption and that reliance may be placed only on the other identification numbers printed on the Notes, and any such redemption shall not be affected by any defect in or

omission of such 30numbers. The Company will promptly notify the Trustee in writing of any change in the "CUSIP" numbers or PPNs, as applicable. 2.14Tax WithholdingNotwithstanding any other provision to the contrary, the Company shall be entitled to deduct and withhold from any amounts payable or otherwise deliverable with respect to a Note such amounts as may be required to be deducted or withheld therefrom under any provision of applicable law, and to be provided any necessary tax forms and information, including Internal Revenue Service Form W-9 or appropriate version of Internal Revenue Service Form W-8, as applicable, from each beneficial owner of the Note. The Company shall, at least five business days prior to the date the applicable payment is scheduled to be made, provide the Noteholder with (i) written notice of the intent to deduct and withhold, which notice shall include the basis for the withholding and an estimate of the amount proposed to be deducted and withheld, and (ii) a reasonable opportunity to provide forms or other evidence that would exempt such amounts from withholding. To the extent such amounts are so deducted or withheld and paid over to the appropriate taxing authority, such amounts shall be treated for all purposes as having been paid to the person to whom such amounts otherwise would have been paid.2.15Net of Taxes(a)If any deduction or withholding of any tax is required pursuant to Section 2.14, then if such Tax is an Indemnified Tax, the amounts payable or otherwise deliverable with respect to a Note by the Company shall be increased as necessary so that after such deduction or withholding has been made (including such deductions and withholdings applicable to additional sums payable under this Section 2.15), the applicable Noteholder receives an amount equal to the sum it would have received had no such deduction or withholding been made. (b)The Company and any applicable Guarantor shall, jointly and severally, indemnify each Noteholder, within ten (10) days after demand therefor, for the full amount of any Indemnified Taxes (including Indemnified Taxes imposed or asserted on or attributable to amounts payable under this Section 2.15) payable or paid by such Noteholder or required to be withheld or deducted from a payment to such Noteholder and any reasonable expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes were correctly or legally imposed or asserted by the relevant governmental authority. A certificate as to the amount of such payment or liability delivered to the Company or other applicable Guarantor by a Noteholder shall be conclusive absent manifest error. (c)As soon as practicable after any payment of taxes by the Company or a Guarantor to a governmental authority pursuant to this Section 2.15, the Company or such Guarantor shall deliver to the Noteholder the original or a certified copy of a receipt issued by such governmental authority evidencing such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to the Noteholder. (d)Any Noteholder that is entitled to an exemption from or reduction of withholding tax with respect to payments made under the Note Purchase Agreement, Indenture, or Collateral and Intercreditor Agreement (the "Notes Documents") shall deliver to the Company, at the time or times reasonably requested by the Company, such properly completed and executed documentation reasonably requested by the Company as will permit such payments to be made without withholding or at a reduced rate of withholding. In addition, any Noteholder, if reasonably requested by the Company, shall deliver such other documentation prescribed by applicable law or reasonably requested by the Company as will enable the Company to determine whether or not such Noteholder is subject to backup withholding or information reporting requirements. Notwithstanding anything to the contrary in the preceding two sentences, the completion, execution and submission of such documentation (other than such documentation set forth in Section 2.15(d)(i), 2.15(d)(ii), and 2.15(d)(iv) below) shall not be required if in the reasonable judgment of the Noteholder such completion, execution or submission would subject such Noteholder to any material unreimbursed cost or expense or would materially prejudice the legal or commercial position of such Noteholder. Without limiting the generality of the foregoing: (i)any U.S. Noteholder shall deliver to the Company on or prior to the date on which such Person becomes a U.S. Noteholder (and from time to time thereafter upon the reasonable request of the Company), executed copies of IRS Form W-9 certifying that such U.S. Noteholder is exempt from U.S. federal backup withholding tax; (ii)any Foreign Noteholder shall, to the extent it is legally entitled to do so, deliver to the Company (in such number of copies as shall be requested by the Company) on or prior to the date on which such Person becomes a Foreign Noteholder (and from time to time thereafter upon the reasonable request of the Company), whichever of the following is applicable: (A)in the case of a Foreign Noteholder claiming the benefits of an income tax treaty to which the United States is a party (x) with respect to payments of interest under any Notes Document, executed copies of IRS Form W-8BEN-E or W-8BEN, as applicable, establishing an exemption from, or reduction of, U.S. federal withholding tax pursuant to the "interest" article of such tax treaty and (y) with respect to any other applicable payments under any Notes Document, IRS Form W-8BEN-E or W-8BEN, as applicable, establishing an exemption from, or reduction of, U.S. federal withholding tax pursuant to the "business profits" or "other income" article of such tax treaty; (B)executed copies of IRS Form W-8ECI;(C)in the case of a Foreign Noteholder claiming the benefits of the exemption for portfolio interest under Section 881(c) of the Code, (x) a certificate substantially in the form of Exhibit 2.15-A to the effect that such Foreign Noteholder is not a "bank" within the meaning of Section 881(c)(3)(A) of the Code, a "10 percent shareholder" of the Company within the meaning of Section 871(h)(3)(B) of the Code, or a "controlled foreign corporation" described in Section 881(c)(3)(C) of the Code and (y) executed copies of IRS Form W-8BEN-E or W-8BEN, as applicable; or (D)to the extent a Foreign Noteholder is not the beneficial owner, executed copies of IRS Form W-8IMY, accompanied by IRS Form W-8ECI, IRS 32Form W-8BEN-E or W-8BEN, a certificate substantially in the form of Exhibit 2.15-B or Exhibit 2.15-C, IRS Form W-9, and/or other certification documents from each beneficial owner, as applicable; provided that if the Foreign Noteholder is a partnership and one or more direct or indirect partners of such Foreign Noteholder are claiming the portfolio interest exemption, such Foreign Noteholder may provide a certificate substantially in the form of Exhibit 2.15-D on behalf of each such direct and indirect partner; (iii)any Foreign Noteholder shall, to the extent it is legally entitled to do so, deliver to the Company (in such number of copies as shall be requested by the Company) on or prior to the date on which such Person becomes a Foreign Noteholder (and from time to time thereafter upon the reasonable request of the Company), executed copies of any other form prescribed by applicable law as a basis for claiming exemption from or a reduction in U.S. federal withholding tax, duly completed, together with such supplementary documentation as may be prescribed by applicable law to permit the Company to determine the withholding or deduction required to be made; (iv)if a payment made to a Noteholder under any Notes Document would be subject to U.S. federal withholding tax imposed by FATCA if such Noteholder were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Code, as applicable), such Noteholder shall deliver to the Company at the time or times prescribed by law and at such time or times reasonably requested by the Company such documentation prescribed by applicable law (including as prescribed by Section 1471(b)(3)(C)(i) of the Code) and such additional documentation reasonably requested by the Company as may be necessary for the Company to comply with its obligations under FATCA and to determine that such Noteholder has complied with its obligations under FATCA or to determine the amount to deduct and withhold from such payment. Solely for purposes of this clause (iv), "FATCA" shall include any amendments made to FATCA after the date of this Agreement; and (v)each Noteholder agrees that if any form or certification it previously delivered expires or becomes obsolete or inaccurate in any respect, it shall update such form or certification or promptly notify the Company in writing of its legal inability to do so.(e)If any Noteholder determines, in its sole discretion exercised in good faith, that it has received a refund of any taxes as to which it has been indemnified pursuant to this Section 2.15 (including by the payment of additional amounts pursuant to this Section 2.15), it shall pay to the indemnifying party an amount equal to such refund (but only to the extent of indemnity payments made under this Section 2.15 with respect to the taxes giving rise to such refund), net of all out-of-pocket expenses (including taxes) of such indemnified party and without interest (other than any interest paid by the relevant governmental authority with respect to such refund). Such indemnifying party, upon the request of such indemnified party, shall repay to such indemnified party the amount paid over pursuant to this clause (e) (plus any penalties, interest or other charges imposed by the relevant governmental authority) in the event that such indemnified party is required to repay such refund to such governmental authority. Notwithstanding anything to the contrary in this clause (e), in no event will the indemnified party be required to pay any amount to an indemnifying party pursuant to this clause (e) the payment of which would place the indemnified party in a less favorable net after-tax position than the indemnified party would have been in if the tax subject to indemnification and giving rise to such refund had not been deducted, withheld or otherwise imposed and the indemnification payments or additional amounts with respect to such tax had never been paid. This paragraph shall not be construed to require any indemnified party to make available its tax returns (or any other information relating to its taxes that it deems confidential) to the indemnifying party or any other Person. (f)The obligations of the Company under this Section 2.15 will survive the payment or transfer of any Note, the enforcement, amendment or waiver of any provision of this Agreement, the Notes, or any other Notes Document, and the termination of this Agreement or any other Notes Document. (g)Notwithstanding any of the foregoing, this Section 2.15 is solely for the benefit of the Foreign Noteholders existing as of the date hereof and any of their Affiliates that become holders of the Notes through a permitted transfer, and not for any other successors or assigns thereof; provided that, an Affiliate of a Noteholder shall not be entitled to additional amounts on Notes pursuant to this Section 2.15 if, at the time such Affiliate became the holder of the Notes, a law was in place, that caused the Notes held by such Affiliate to be subject to the payment of additional amounts pursuant to this Section 2.15 that would not have otherwise been applicable to the transferor of such Notes (but an Affiliate shall be entitled to additional amounts attributable to a change in law occurring after the date it became a holder of Notes). 3.REDEMPTION AND PREPAYMENT3.1Notices to TrusteeIf the Company elects to redeem Notes pursuant to the optional redemption provisions of Section 3.7, it must furnish to the Trustee, at least fifteen days (unless a shorter period is acceptable to the Trustee) but not more than sixty days before a redemption date, an Officer's Certificate setting forth:(a)the Section of this Indenture pursuant to which the redemption shall occur;(b)the redemption date;(c)the series, or more than one series, if applicable, of Notes to be redeemed;(d)the principal amount of Notes to be redeemed;(e)the redemption price; and(f)the CUSIP number or PPN of the Notes to be redeemed; and(g)the manner in which the aggregate principal amount of the Notes redeemed will be applied to the Payment Schedule.3.2Selection of Notes to Be RedeemedIf less than all of the Notes, or less than all of the Notes of a particular series, are to be redeemed at any time, the Trustee will select Notes and any portions thereof for redemption on a pro rata basis and, if applicable, with such adjustments so that only Notes in denominations of \$100,000 or whole multiples of \$1,000 in excess thereof will be purchased unless otherwise required by law, or applicable stock exchange requirements; provided, that if only Notes of a particular series are to be redeemed, such selection by the Trustee shall be limited to Notes of such series.In the event of partial redemption, the particular Notes to be redeemed will be selected, unless otherwise provided herein, not less than fifteen nor more than sixty days prior to the redemption or purchase date by the Trustee from the outstanding Notes not previously called for redemption.The Trustee will promptly notify the Company in writing of the Notes selected for redemption and, in the case of any Note selected for partial redemption, the principal amount thereof to be redeemed. Notes and portions of Notes selected will be in amounts of \$100,000 or whole multiples of \$1,000 in excess thereof; except, that if all of the Notes of a Noteholder are to be redeemed, the entire outstanding amount of Notes held by such Noteholder, even if not in the amount of \$100,000 or a whole multiple of \$1,000 thereof, shall be redeemed. Except as provided in the preceding sentence, provisions of this Indenture that apply to Notes called for redemption also apply to portions of Notes called for redemption.3.3Notice of RedemptionAt least fifteen days but not more than sixty days before a redemption date, the Company will mail or cause to be mailed by first class mail or delivered electronically, a notice of redemption to each Noteholder whose Notes are to be redeemed at its registered address, except that redemption notices may be mailed or delivered electronically more than sixty days prior to a redemption date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of this Indenture pursuant to Articles 8 or 11.The notice will identify the Notes to be redeemed and will state:(a)the redemption date; (b)the redemption price;(c)if any Note is being redeemed in part, the portion of the principal amount of such Note to be redeemed, the manner in which the aggregate principal amount of the Notes redeemed will be applied to the Payment Schedule (which will be adjusted with respect to remaining payments pursuant to Section 2.1(c)) and that, after the redemption date upon surrender of such Note, a new Note or Notes in principal amount equal to the unredeemed portion will be issued in the name of the Noteholder upon cancellation of the original Note;(d)the name and address of the Paying Agent;(e)that Notes called for redemption must be surrendered to the Paying Agent to collect the redemption price;(f)that, unless the Company defaults in making such redemption payment, interest on Notes called for redemption ceases to accrue on and after the redemption date (as it may be delayed pursuant to Section 3.4);(g)the paragraph of the Notes and/or

Section of this Indenture pursuant to which the Notes called for redemption are being redeemed; and(h)that no representation is made as to the correctness or accuracy of the CUSIP number or PPN, if any, listed in such notice or printed on the Notes.At the Companyâ€™s request, the Trustee will give the notice of redemption in the Companyâ€™s name and at its expense; provided, that the Company has delivered to the Trustee, at leastÂ thirty days prior to the redemption date (unless a shorter period is acceptable to the Trustee), an Officerâ€™s Certificate requesting that the Trustee give such notice and setting forth the information to be stated in such notice as provided in the preceding paragraph.3.4Effect of Notice of RedemptionOnce notice of redemption is mailed or delivered electronically in accordance with SectionÂ 3.3, Notes called for redemption become irrevocably due and payable on the redemption date at the redemption price; provided, that a notice of redemption may be conditional (in which case such Notes shall become irrevocably due and payable on the redemption date at the redemption price upon the satisfaction or waiver of any such conditions).If the redemption is delayed pursuant to this SectionÂ 3.4 and the terms of the applicable notice of redemption, such redemption date as so delayed may occur at any time after the original redemption date set forth in the applicable notice of redemption and after the satisfaction of any applicable conditions precedent, including, without limitation, on a date that is less than fifteen days after the original redemption date or more than sixty days after the date of the applicable notice of redemption.3.5Deposit of Redemption or Purchase PriceAt least one Business Day prior to the redemption date, the Company will deposit or will cause to be deposited with the Trustee or with the Paying Agent money sufficient to pay the redemption price of and accrued interest on all Notes to be redeemed on that date. The Trustee or the Paying Agent will promptly return to the Company any money deposited with the Trustee or the Paying Agent by the Company in excess of the amounts necessary to pay the redemption price of, and accrued interest on all Notes to be redeemed.If the Company complies with the provisions of the preceding paragraph, on and after the redemption date, interest will cease to accrue on the Notes or the portions of Notes called for redemption. If a Note is redeemed on or after an interest record date but on or prior to the related Interest Payment Date, then any accrued and unpaid interest shall be paid to the Person in whose name such Note was registered at the close of business on such record date. If any Note called for redemption is not so paid upon surrender for redemption because of the failure of the Company to comply with the preceding paragraph, interest shall be paid on the unpaid principal, from the redemption or purchase date until such principal is paid, and to the extent lawful on any interest not paid on such unpaid principal, in each case at the rate provided in the Notes and in SectionÂ 4.1.363.6Notes Redeemed in PartUpon surrender of a Note that is redeemed in part, the Company will issue and, upon receipt of an Authentication Order, the Trustee will authenticate for the Noteholder at the expense of the Company a new Note equal in principal amount to the unredeemed portion of the Note surrendered.3.7Optional RedemptionAt any time or from time to time prior to the Par Call Date of the Notes, the Company may, at its option, redeem all or a part of the Notes, at a redemption price equal to the Make-Whole Price (subject to the right of Noteholders of record on the relevant record date to receive interest due on an Interest Payment Date that is on or prior to the redemption date, without duplication).â€œMake-Whole Priceâ€ shall mean the greater of: (a)the sum of the present values of the remaining scheduled payments of principal and interest on the Notes to be redeemed, discounted to the redemption date (assuming the Notes matured on the Par Call Date) on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate, plus 50 basis points less (b) interest accrued to, but excluding, the redemption date; and(b)100% of the principal amount of the Notes to be redeemed,plus, in either case, accrued and unpaid interest thereon to, but excluding, the redemption date.On or after June 30, 2047 (three months prior to the Maturity Date) (the â€œPar Call Dateâ€), the Company may redeem the Notes, in whole or in part, at any time and from time to time, at a redemption price equal to 100% of the principal amount of the Notes being redeemed plus accrued and unpaid interest thereon to, but excluding, the redemption date.The notice of redemption with respect to the foregoing redemption need not set forth the Make-Whole Price but only the manner of calculation thereof. The Company will notify the Trustee of the Make-Whole Price with respect to any redemption promptly after the calculation, and the Trustee shall not be responsible for such calculation. For the avoidance of doubt and notwithstanding any other provision of the Indenture or the Notes, (x) the Noteholders shall not be entitled to specific performance of the optional redemption provisions applicable to any Notes described under this Section 3.7 and no premium (including any Make-Whole Price) will be due or available as a remedy, in each case in connection with (1) any Default or Event of Default or (2) any acceleration (automatic or otherwise) of all, or any portion of, the Notes (other than an acceleration in respect of an Event of Default for failing to pay the redemption price when due following the Companyâ€™s voluntary election, if any, to redeem Notes pursuant to the optional redemption provisions applicable to the Notes under this Section 3.7, to the extent any premium is due in connection therewith), and (y) the requirement to pay any premium (including any Make-Whole Price) shall only arise in connection with the Companyâ€™s voluntary election, if any, to redeem Notes pursuant to the optional redemption provisions applicable to Notes described under this Section 3.7, and not in connection with any other payment, distribution, satisfaction or other recovery in respect of the Notes.373.8Open Market Purchases; No Mandatory Redemption The Company may at any time and from time to time purchase Notes in the open market or otherwise; provided that the Company may not make purchases in excess of \$25,000,000 in aggregate principal amount in any calendar year unless (i) it purchases Notes through a pro-rata offer on substantially the same terms to all Holders and (ii) the Company and its Affiliates are in compliance with Section 4.27. The Company is not required to make mandatory redemption payments with respect to the Notes.3.9Offer to Purchase by Application of Collateral Proceeds; LNG SPA Termination OfferIn the event that, pursuant to Sections 4.8,Â 4.13, 4.14 or 4.15 the Company is required to commence an offer to all Noteholders to purchase Notes (a â€œLNG SPA Termination Offerâ€ â€œLoss Proceeds Offer,â€ â€œAsset Sale Offer,â€ or a â€œPLD Proceeds Offer,â€ respectively), it will follow the procedures specified below.The Loss Proceeds Offer, Asset Sale Offer, LNG SPA Termination Offer or PLD Proceeds Offer, as applicable, shall be made to all Noteholders and all holders of other Indebtedness that is pari passu with the Notes containing provisions similar to those set forth in this Indenture with respect to offers or requirements to prepay, purchase or redeem with the proceeds of sales of assets, loss proceeds, project document termination payments or certain indemnity payments. The Loss Proceeds Offer, Asset Sale Offer, LNG SPA Termination Offer or PLD Proceeds Offer, as applicable, with respect to all Noteholders will remain open for a period of at leastÂ twenty Business Days following its commencement and not more thanÂ thirty Business Days, except to the extent that a longer period is required by applicable law (the â€œOffer Periodâ€). No later than five Business Days after the termination of the Offer Period (the â€œPurchase Dateâ€), the Company will apply all Excess Loss Proceeds, Excess Asset Sale Proceeds, LNG SPA Termination Prepayment Amount or Excess Performance Liquidated Damages, as applicable (the â€œOffer Amountâ€), to the purchase of Notes and such other pari passu Indebtedness (on a pro rata basis, if applicable) or, if less than the Offer Amount has been tendered, all Notes and other Indebtedness tendered in response to the Loss Proceeds Offer, Asset Sale Offer, LNG SPA Termination Offer or PLD Proceeds Offer, as applicable. The Company will give written notice to the Trustee of the location, and any change in the location, of such office or agency. If at any time the Company fails to maintain any such required office or agency or fails to furnish the Trustee with the address thereof, such presentations, surrenders, notices and demands may be made or served at the Corporate Trust Office of the Trustee. The Company may also from time to time designate one or more other offices or agencies where the Notes may be presented or surrendered for any or all such purposes and may from time to time rescind such designations; provided, that no such designation or rescission will in any manner relieve the Company of its obligation to maintain an office or agency in the United States for such purposes. in order to have the claims of the Trustee (including any claim for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel) and the Noteholders allowed in any judicial proceedings relative to the Company (or any other obligor upon the Notes), its creditors or its property and shall be entitled and empowered to collect, receive and distribute any money or other property payable or deliverable on any such claims and any custodian in any such judicial proceeding is hereby authorized by each Noteholder to make such payments to the Trustee, and in the event that the Trustee shall consent to the making of such payments directly to the Noteholders, to pay to the Trustee any amount due to it for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, and any other amounts due the Trustee under Section 7.6. To the extent that the payment of any such compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, and any other amounts due the Trustee under Section 7.6 out of the estate in any such proceeding, shall be denied for any reason, payment of the same shall be secured by a Lien on, and shall be paid out of, any and all distributions, dividends, money, securities and other properties that the Noteholders may be entitled to receive in such proceeding whether in liquidation or under any plan of reorganization or arrangement or otherwise. Nothing herein contained shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Noteholder any plan of reorganization, arrangement, adjustment or composition affecting the Notes or the rights of any Noteholder, or to authorize the Trustee to vote in respect of the claim of any Noteholder in any such proceeding.

656.10 Priorities Subject to the terms of the Collateral and Intercreditor Agreement, if the Trustee collects any money pursuant to this Article 6, or, after an Event of Default, any money or other property distributable in respect of the Company's obligations under this Indenture, it shall pay out the money in the following order: first: to the Trustee (including any predecessor trustee), its agents and attorneys for amounts due under Section 7.6, including payment of all compensation, expenses and liabilities incurred, and all advances made, by the Trustee and the costs and expenses of collection; second: to Noteholders for amounts due and unpaid on the Notes for principal, premium, if any, and interest, ratably, without preference or priority of any kind, according to the amounts due and payable on the Notes for principal, premium, if any, and interest, respectively; and third: to the Company or to such party as a court of competent jurisdiction shall direct. This Section 6.11 does not apply to a suit by the Trustee, a suit by a Noteholder pursuant to Section 6.7, or a suit by Noteholders of more than 10% in aggregate principal amount of the then outstanding Notes.

7. TRUSTEE

7.1 Duties of Trustee (a) If an Event of Default has occurred and is continuing, the Trustee will exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs. (b) Except during the continuance of an Event of Default: (i) the duties of the Trustee will be determined solely by the express provisions of this Indenture and the Trustee need perform only those duties that are specifically set forth in this Indenture and no others, and no implied covenants or obligations shall be read into this Indenture against the Trustee; and (ii) in the absence of bad faith on its part, the Trustee may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon 66 certificates or opinions furnished to the Trustee and conforming to the requirements of this Indenture (provided, that, in the case of any such certificates or opinions which by any provision hereof are specifically required to be furnished to the Trustee, the Trustee will examine the certificates and opinions to determine whether or not they conform to the requirements of this Indenture (but need not confirm or investigate the accuracy of mathematical calculations or other facts, statements, opinions or conclusions stated therein)). (c) The Trustee may not be relieved from liabilities for its own negligent action, its own negligent failure to act, or its own willful misconduct, except that: (i) this paragraph does not limit the effect of paragraphs (b) and (e) of this Section 7.1; (ii) the Trustee will not be liable for any error of judgment made in good faith by a Responsible Officer, unless it is proved that the Trustee was negligent in ascertaining the pertinent facts; and (iii) the Trustee will not be liable with respect to any action it takes or omits to take in good faith in accordance with a direction received by it pursuant to Section 6.5. (d) Whether or not therein expressly so provided, every provision of this Indenture that in any way relates to the Trustee is subject to this Section 7.1. (e) No provision of this Indenture will require the Trustee to expend or risk its own funds or incur any liability. The Trustee will be under no obligation to exercise any of its rights and powers under this Indenture at the request of any Noteholders, unless such Noteholder has offered to the Trustee security and indemnity satisfactory to it against any loss, liability or expense. (f) The Trustee will not be liable for interest on any money received by it except as the Trustee may agree in writing with the Company. Money held in trust by the Trustee need not be segregated from other funds except to the extent required by law. 7.2 Rights of Trustee (a) The Trustee may conclusively rely upon any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, other evidence of indebtedness or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties. The Trustee need not investigate any fact or matter stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, other evidence of indebtedness or other paper or document, but the Trustee, in its discretion, may make such further inquiry or investigation into such facts or matters as it may see fit and, if the Trustee shall determine to make such further inquiry or investigation, it shall be entitled (subject to reasonable confidentiality arrangements as may be proposed by the Company) to make reasonable investigation (upon prior notice and during regular business hours) of the books, records and premises of the Company, personally or by agent or attorney at the sole cost of the Company and shall incur no liability or additional liability of any kind by reason of such inquiry or investigation. 67 (b) Before the Trustee acts or refrains from acting, it may require an Officer's Certificate or an Opinion of Counsel or both; provided, that an Officer's Certificate or Opinion of Counsel will not be required if the Indenture requires the Company to deliver a certificate of an Authorized Officer of the Company in connection with such act or refrain from acting. The Trustee will not be liable for any action it takes, suffers or omits to take in good faith in reliance on such Officer's Certificate, Opinion of Counsel or a certificate of an Authorized Officer of the Company. The Trustee may consult with counsel and the advice of such counsel or any Opinion of Counsel will be full and complete authorization and protection from liability in respect of any action taken, suffered or omitted by it hereunder in good faith and in reliance thereon. (c) The Trustee may act through its attorneys and agents and will not be responsible for the misconduct or negligence of any agent appointed with due care. (d) The Trustee will not be liable for any action it takes, suffers or omits to take in good faith that it reasonably believes to be authorized or within the rights or powers conferred upon it by this Indenture. (e) Unless otherwise specifically provided for in this Indenture, any demand, request, direction or notice from the Company will be sufficient if signed by an Authorized Officer of the Company. (f) The Trustee will be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request or direction of any of the Noteholders unless such Noteholders have offered to the Trustee indemnity or security satisfactory to the Trustee against the losses, liabilities and expenses that might be incurred by it in compliance with such request or direction. (g) The Trustee shall not be deemed to have notice of any Default or Event of Default unless a Responsible Officer of the Trustee has actual knowledge thereof or unless written notice of such Default or Event of Default is received by a Responsible Officer of the Trustee at the Corporate Trust Office of the Trustee, and such notice references the Notes and this Indenture. (h) The Trustee shall not be responsible or liable for any failure or delay in the performance of its obligations under this Indenture arising out of or caused, directly or indirectly, by circumstances beyond its reasonable control, including acts of God; earthquakes; fire; flood; terrorism; wars and other military disturbances; sabotage; epidemics; riots; interruptions; loss or malfunctions of utilities, computer (hardware or software) or communication services; accidents; labor disputes; acts of civil or military authority and governmental action. (i) The rights, privileges, protections, immunities and benefits given to the Trustee, including its right to be indemnified, are extended to, and shall be enforceable by, the Trustee in each of its capacities hereunder (and under the other P1 Financing Documents to which it is a party) and each agent, custodian and other Person employed to act hereunder or thereunder. (j) The Trustee may request that the Company deliver a certificate setting forth the names of individuals and/or titles of officers authorized at such time to take specified actions pursuant to this Indenture, which certificate may be signed by any person authorized to sign an Officer's Certificate, including any person specified as so authorized in any such certificate previously delivered and not superseded. (k) Anything in this Indenture notwithstanding, in no event shall the Trustee be liable for special, indirect, punitive, incidental or consequential loss or damage of any kind whatsoever (including loss of profit), even if the Trustee has been advised as to the likelihood of such loss or damage and regardless of the form of action.

7.3 Individual Rights of Trustee The Trustee in its individual or any other capacity may become the owner or pledgee of Notes and may otherwise deal with the Company or any Affiliate of the Company with the same rights it would have if it were not Trustee. Any Agent may do the same with like rights. The Trustee is also subject to Section 7.9.7.4.

Trustee's Disclaimer The Trustee will not be responsible for and makes no representation as to the validity or adequacy of this Indenture or the Notes, it shall not be accountable for the Company's use of the proceeds from the Notes or any money paid to the Company or upon the Company's direction under any provision of this Indenture, it will not be responsible for the use or application of any money received by any Paying Agent other than the Trustee, and it will not be responsible for any statement or recital herein or any statement in the Notes or any other document in connection with the sale of the Notes or pursuant to this Indenture other than its certificate of authentication.

7.5 Notice of Defaults If a Default or Event of Default occurs and is continuing and if it is known to the Trustee, the Trustee will mail to Noteholders a notice of the Default or Event of Default within 90 days after it occurs. Except in the case of a Default or Event of Default in payment of principal of, premium, if any, or interest on, any Note, the Trustee may withhold the notice if and so long as a committee of its Responsible Officers in good faith determines that withholding the notice is in the interests of the Noteholders.

7.6 Compensation and Indemnity (a) The Company will pay to the Trustee from time to time compensation for its acceptance of this Indenture and services hereunder in accordance with written arrangements between the Company and the Trustee. The Trustee's compensation will not be limited by any law on compensation of a trustee of an express trust. The Company will reimburse the Trustee promptly upon request for all reasonable disbursements, advances and expenses incurred or made by it in addition to the compensation for its services. Such expenses will include the reasonable compensation, disbursements and expenses of the Trustee's agents and counsel. (b) The Company will indemnify the Trustee against any and all loss, liability or expense, including taxes (other than taxes based upon, measured by or determined by the income of the Trustee), incurred by it arising out of or in connection with the acceptance or administration of its duties under this Indenture and the P1 Financing Documents, including the costs and expenses of enforcing this Indenture against the Company (including this Section 7.6) and defending itself against any claim (whether asserted by the Company, any Noteholder or any other Person) or liability in connection with the exercise or performance of any of its powers or duties hereunder or thereunder, except to the extent any such loss, liability or expense may be attributable to its negligence or willful misconduct. The Trustee will notify the Company promptly of any claim for which it may seek indemnity. Failure by the Trustee to so notify the Company will not relieve the Company of its obligations hereunder. The Company will defend the claim and the Trustee will cooperate in the defense. The Trustee may have separate counsel and the Company will pay the reasonable fees and expenses of such counsel. The Company need not pay for any settlement made without its consent, which consent will not be unreasonably withheld, conditioned or delayed. (c) The obligations of the Company to the Trustee under this Section 7.6 will survive the satisfaction and discharge of this Indenture, the termination for any reason of this Indenture and the resignation or removal of the Trustee. (d) To secure the Company's payment obligations in this Section 7.6, the Trustee will have a Lien prior to the Notes on all money or property held or collected by the Trustee, except that held in trust to pay principal and interest on particular Notes. Such Lien will survive the satisfaction and discharge of this Indenture, the termination for any reason of this Indenture and the resignation or removal of the Trustee. (e) When the Trustee incurs expenses or renders services after an Event of Default specified in Section 7.5 (Bankruptcy) of the Common Terms Agreement as described in clause (b) of Section 6.1 occurs, the expenses and the compensation for the services (including the fees and expenses of its agents and counsel) are intended to constitute expenses of administration under any Debtor Relief Law.

(f)Trustee for purposes of this Section shall include any predecessor Trustee.7.7Replacement of Trustee(a) A resignation or removal of the Trustee and appointment of a successor Trustee will become effective only upon the successor Trustee's acceptance of appointment as provided in this Section 7.7.(b) The Trustee may resign in writing at any time and be discharged from the trust hereby created by so notifying the Company. The Noteholders of a majority in aggregate principal amount of the then outstanding Notes may remove the Trustee by so notifying the Trustee and the Company in writing. The Company may remove the Trustee if: (i) the Trustee fails to comply with Section 7.9; (ii) the Trustee is adjudged a bankrupt or an insolvent or an order for relief is entered with respect to the Trustee under any Debtor Relief Law; (iii) a custodian or public officer takes charge of the Trustee or its property; (iv) the Trustee becomes incapable of acting; or (v) for any reason and upon receipt of a request from the Company to direct the removal of the Trustee and direct the appointment of a replacement Trustee in accordance with the terms hereof, in which case, (x) the Trustee shall give notice of such request to the Noteholders and (y) unless Noteholders representing more than 25% of the aggregate outstanding principal amount of the Notes object to such request within thirty days, the Trustee shall be removed on the immediately succeeding Business Day after such thirtieth day.(c) If the Trustee resigns or is removed or if a vacancy exists in the office of Trustee for any reason, the Company will promptly appoint a successor Trustee. Within one year after the successor Trustee takes office, the Noteholders of a majority in aggregate principal amount of the then outstanding Notes may appoint a successor Trustee to replace the successor Trustee appointed by the Company.(d) If a successor Trustee does not take office within sixty days after the retiring Trustee resigns or is removed, the retiring Trustee, the Company, or the Noteholders of at least 10% in aggregate principal amount of the then outstanding Notes may petition any court of competent jurisdiction for the appointment of a successor Trustee.(e) If the Trustee, after written request by any Noteholder who has been a Noteholder for at least six months, fails to be compliant with Section 7.9, such Noteholder may petition any court of competent jurisdiction for the removal of the Trustee and the appointment of a successor Trustee.(f) A successor Trustee will deliver a written acceptance of its appointment to the retiring Trustee and to the Company. Thereupon, the resignation or removal of the retiring Trustee will become effective, and the successor Trustee will have all the rights, powers and duties of the Trustee under this Indenture. The successor Trustee will mail a notice of its succession to Noteholders. The retiring Trustee will promptly transfer all property held by it as Trustee to the successor Trustee; provided, that all sums owing to the Trustee hereunder have been paid and subject to the Lien provided for in Section 7.6. Notwithstanding replacement of the Trustee pursuant to this Section 7.7, the Company's obligations under Section 7.6 will continue for the benefit of the retiring Trustee.7.8 Successor Trustee by Merger, etc. If the Trustee consolidates, merges or converts into, or transfers all or substantially all of its corporate trust business to, another Person, the successor Person without any further act will be the successor Trustee. In case any Notes shall have been authenticated but not delivered by the Trustee then in office, any successor by merger, conversion or consolidation to such authenticating Trustee may adopt such authentication and deliver the Notes so authenticated with the same effect as if such successor Trustee had itself authenticated such Notes.7.9 Eligibility; Disqualification There will at all times be a Trustee hereunder that is a Person organized and doing business under the laws of the United States of America or of any state thereof that is authorized under such laws to exercise corporate trustee power, that is subject to supervision or examination by federal or state authorities and that has a combined capital and surplus of at least \$100,000,000 as set forth in its most recent published annual report of condition.7.10 Authorization to Enter Into Accession Agreements The Trustee is hereby directed and authorized by the Company and each Noteholder to enter into the Common Terms Accession Agreement and the CIA Accession Confirmation and exercise all the rights and perform all the obligations of a Senior Secured Debt Holder Representative set out in the Common Terms Agreement and the Collateral and Intercreditor Agreement, including making, on behalf of the Noteholders, the agreements expressed to be made by Senior Secured Debt Holders under the P1 Financing Documents (including each reliance letter provided under Section 4.18 of the Note Purchase Agreement).7.11 Trustee Protective Provisions Without duplication of any amounts the Trustee is entitled to recover under any indemnification provisions in the P1 Financing Documents, the rights, privileges, protections, indemnities, immunities and benefits provided to the Trustee in this Indenture are in addition to, and are not intended to be in conflict with or limited by, any such provisions in the P1 Financing Documents. 8. LEGAL DEFEASANCE AND COVENANT DEFEASANCE 8.1 Option to Effect Legal Defeasance or Covenant Defeasance The Company may at any time, as evidenced by a resolution duly adopted by the authorized governing body and set forth in an Officer's Certificate, elect to have either Sections 8.2 or 8.3 be applied to all outstanding Notes upon compliance with the conditions set forth below in this Article 8.8.2 Legal Defeasance and Discharge Upon the Company's exercise under Section 8.1 of the option applicable to this Section 8.2, the Company will, subject to the satisfaction of the conditions set forth in Section 8.4, be deemed to have been discharged from its obligations with respect to all outstanding Notes on the date the conditions set forth below are satisfied (hereinafter, "Legal Defeasance"). For this purpose, Legal Defeasance means that the Company will be deemed to have paid and discharged the entire Indebtedness represented by all outstanding Notes, which will thereafter be deemed to be "outstanding" only for the purposes of Section 8.5 and the other Sections of this Indenture referred to in clauses (a) and (b) below, and to have satisfied all their other obligations under such Notes and this Indenture (and the Trustee, on demand of and at the expense of the Company, shall execute proper instruments acknowledging the same), except for the following provisions which will survive until otherwise terminated or discharged hereunder: (a) the rights of Noteholders of outstanding Notes to receive payments in respect of the principal of, or interest or premium, if any, on, such Notes when such payments are due from the trust referred to in Section 8.4; (b) the Company's obligations with respect to such Notes under Article 2 and Section 4.2; (c) the rights, powers, trusts, duties and immunities of the Trustee hereunder and the Company's obligations in connection therewith; and (d) this Article 8.72 Subject to compliance with this Article 8, the Company may exercise its option under this Section 8.2 notwithstanding the prior exercise of its option under Section 8.3.8.3 Covenant Defeasance Upon the Company's exercise under Section 8.1 of the option applicable to this Section 8.3, the Company will, subject to the satisfaction of the conditions set forth in Section 8.4, be released from each of its obligations under the covenants contained in Sections 4.3 through 4.15 with respect to all outstanding Notes on and after the date the conditions set forth in Section 8.4 are satisfied (hereinafter, "Covenant Defeasance"), and all outstanding Notes will thereafter be deemed not "outstanding" for the purposes of any direction, waiver, consent or declaration or act of Noteholders (and the consequences of any thereof) in connection with such covenants, but will continue to be deemed "outstanding" for all other purposes hereunder (it being understood that such Notes will not be deemed outstanding for accounting purposes). For this purpose, Covenant Defeasance means that, with respect to all outstanding Notes, the Company may omit to comply with and will have no liability in respect of any term, condition or limitation set forth in any such covenant, whether directly or indirectly, by reason of any reference elsewhere herein to any such covenant or by reason of any reference in any such covenant to any other provision herein or in any other document and such omission to comply will not constitute a Default or an Event of Default under Section 6.1, but, except as specified above, the remainder of this Indenture and such Notes will be unaffected thereby. In addition, upon the Company's exercise under Section 8.1 of the option applicable to this Section 8.3, subject to the satisfaction of the conditions set forth in Section 8.4, Sections 6.1(a) through 6.1(h) will not constitute Events of Default.8.4 Conditions to Legal or Covenant Defeasance In order to exercise either Legal Defeasance or Covenant Defeasance under either Section 8.2 or 8.3: (a) the Company must irrevocably deposit with the Trustee, in trust, for the benefit of the Noteholders, cash in U.S. dollars, non-callable Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized investment bank, appraisal firm, or firm of independent public accountants, to pay the principal of, premium, if any, and interest on, all outstanding Notes on the Maturity Date or on the applicable redemption date, as the case may be, and the Company must specify whether the Notes are being defeased to the Maturity Date or to a particular redemption date; (b) in the case of an election under Section 8.2, the Company has delivered to the Trustee an Opinion of Counsel confirming that: (i) the Company has received from, or there has been published by, the Internal Revenue Service a ruling; or (ii) since the Issue Date, there has been a change in the applicable federal income tax law, in either case to the effect that, and based thereon such Opinion of Counsel shall confirm that, the Noteholders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Legal Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred; (c) in the case of an election under Section 8.3, the Company must deliver to the Trustee an Opinion of Counsel confirming that the Noteholders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Covenant Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred; (d) no Default or Event of Default shall have occurred and be continuing on the date of such deposit (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit and the granting of Liens securing such borrowing) and the deposit will not result in a breach or violation of, or constitute a default under, any other instrument to which the Company is a party or by which the Company is bound; (e) such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under, any material agreement or instrument (other than this Indenture) to which the Company is a party or by which the Company is bound; (f) the Company must deliver to the Trustee an Officer's Certificate stating that the deposit was not made by the Company with the intent of preferring the Noteholders over the other creditors of the Company with the intent of defeating, hindering, delaying or defrauding creditors of the Company or others; (g) the Company must deliver to the Trustee an Officer's Certificate stating that all conditions precedent set forth in clauses (a) through (f) of this Section 8.4 have been complied with; and (h) the Company must deliver to the Trustee an Opinion of Counsel (which opinion of counsel may be subject to customary assumptions, qualifications and exclusions), stating that all conditions precedent set forth in clauses (b), (c) and (e) of this Section 8.4 have been complied with; provided, that the Opinion of Counsel with respect to clause (e) of this Section 8.4 may be to the knowledge of such counsel.8.5 Deposited Money and Government Securities to Be Held in Trust; Other Miscellaneous Provisions Subject to Section 8.6, all money and non-callable Government Securities (including the proceeds thereof) deposited with the Trustee (or other qualifying trustee, collectively for purposes of this Section 8.5, the "Trustee") pursuant to Section 8.4 in respect of the outstanding Notes will be held in trust and applied by the Trustee, in accordance with the provisions of such Notes and this Indenture, to the payment, either directly or through any Paying Agent (including the Company acting as Paying Agent) as the Trustee may determine, to the Noteholders of such Notes of all sums due and to become due thereon in respect of principal, premium, if any, and interest, but such money need not be segregated from other funds except to the extent required by law. The Company will pay and indemnify the Trustee against any tax, fee or other charge imposed on or assessed against the cash or non-callable Government Securities deposited pursuant to Section 8.4 or the principal and interest received in respect thereof other than any such tax, fee or other charge which by law is for the account of the Noteholders of the outstanding Notes. Notwithstanding anything in this Article 8 to the contrary, the Trustee will deliver or pay to the Company from time to time upon the request of the Company any money or non-callable Government Securities held by it as provided in Section 8.4 which, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustee (which may be the opinion delivered under Section 8.4(a)), are in excess of the amount thereof that would then be required to be deposited to effect an equivalent Legal Defeasance or Covenant Defeasance.8.6 Repayment to Company Any money deposited with the Trustee or any Paying Agent, or then held by the Company, in trust for the payment of the principal of, premium, if any, or interest on, any Note and remaining unclaimed for two years after such principal, premium, if any, or interest has become due and payable shall be paid to the Company on its request or (if then held by the Company) will be discharged from such trust; and the Noteholder of such Note will thereafter be permitted to look only to the Company for payment thereof, and all liability of the Trustee or such Paying Agent with respect to such trust money, and all liability of the Company as trustee thereof, will thereupon cease; provided, that the Trustee or such Paying Agent, before being required to make any such repayment, may at the expense of the Company cause to be published once, in the New York Times and The Wall Street Journal (national edition), notice that such money remains unclaimed and that, after a date specified therein, which will not be less than thirty days from the date of such notification or publication, any unclaimed balance of such money then remaining will be repaid to the Company.8.7 Reinstatement If the Trustee or Paying Agent is unable to apply any

SectionÄ 2.8 shall determine which Notes are considered to be äœoutstandingä for purposes of this SectionÄ 9.2. For the avoidance of doubt, the Company may issue Additional Notes either pursuant to this Indenture or pursuant to a Supplemental Indenture, in each case, without the consent of any Noteholder, subject to compliance with the provisions of this Indenture.Upon the request of the Company accompanied by a resolution duly adopted by the authorized governing body of the Company authorizing the execution of any such amended or supplemental indenture, and upon the filing with the Trustee of evidence satisfactory to the Trustee of the 76consent of the Noteholders as aforesaid, and upon receipt by the Trustee of the documents described in SectionÄ 7.2, the Trustee will join with the Company in the execution of such amended or supplemental indenture unless such amended or supplemental indenture directly affects the Trusteeä™s own rights, duties or immunities under this Indenture or otherwise, in which case the Trustee may in its discretion, but will not be obligated to, enter into such amended or supplemental indenture.It is not necessary for the consent of the Noteholders under this SectionÄ 9.2 to approve the particular form of any proposed amendment, supplement or waiver, but it is sufficient if such consent approves the substance thereof.Any consent given by a holder of a Note that has transferred or has agreed to transfer its Note to (i) the Company, (ii) any subsidiary or any other Affiliate or (iii) any other Person in connection with, or in anticipation of, such other Person acquiring, making a tender offer for or merging with the Company and/or any of its Affiliates, in each case in connection with such consent, shall be void and of no force or effect except solely as to such holder, and any amendments effected or waivers granted or to be effected or granted to this Indenture or any other P1 Financing Document that would not have been or would not be so effected or granted but for such consent (and the consents of all other holders of Notes that were acquired under the same or similar conditions) shall be void and of no force or effect except solely as to such holder and except for the purpose of determining whether the Trustee will be protected in relying on any such consent.Promptly after an amendment, supplement or waiver under this SectionÄ 9.2 becomes effective, the Company will mail or cause to be mailed to the Noteholders affected thereby a notice briefly describing the amendment, supplement or waiver and executed or true and correct copies of each amendment, waiver or consent effected. Any failure of the Company to mail such notice, or any defect therein, will not, however, in any way impair or affect the validity of any such amended or supplemental indenture or waiver. Subject to SectionsÄ 6.4 andÄ 6.7, the Noteholders of a majority in aggregate principal amount of the Notes then outstanding voting as a single class may waive compliance in a particular instance by the Company with any provision of this Indenture or the Notes. However, without the consent of each Noteholder of each series of Notes affected and subject to the provisions of the Collateral and Intercreditor Agreement, an amendment, supplement or waiver under this SectionÄ 9.2 may not (with respect to any Notes held by a non-consenting Noteholder):(a)reduce the principal amount of Notes whose Noteholders must consent to an amendment, supplement or waiver;(b)reduce the principal of or change the fixed maturity of any Note or alter or waive any of the provisions with respect to the redemption of the Notes; provided, that any purchase or repurchase of Notes, including pursuant to SectionsÄ 4.12, 4.13, 4.14 or 4.15, shall not be deemed a redemption of the Notes; or(h)make any change in the preceding amendment and waiver provisions.9.3Decisions under Other Financing Documents(a)Notwithstanding any provision of this Indenture or the Collateral and Intercreditor Agreement to the contrary, each Noteholder shall be deemed to have consented to, and the Trustee shall be deemed, without the requirement of any vote or consent by the Noteholders and without seeking vote, consent or direction by or from the Noteholders with respect to any of the clauses set forth below, to have voted as follows: (i)unless a proposed Economic Terms Modification applies only to the Notes, the Trustee shall be deemed to have voted in favor of any such Economic Terms Modification if (A) any such Economic Terms Modification is approved by each Senior Secured Bank Debt Holder Representative (if any) in accordance with the Collateral and Intercreditor Agreement and (B) the Company certifies to the Trustee, as set forth in a certificate of an Authorized Officer of the Company, that such Economic Terms Modification could not reasonably be expected to result in a Material Adverse Effect; Such indemnifying party, upon the request of such indemnified party, shall repay to such indemnified party the amount paid over pursuant to this Section 4.2(i) (plus any penalties, interest or other charges imposed by the relevant Government Authority) in the event that such indemnified party is required to repay such refund to such Government 19[US-DOCS\143711048.26]Authority. Notwithstanding anything to the contrary in this Section 4.2(i), in no event will the indemnified party be required to pay any amount to an indemnifying party pursuant to this Section 4.2(i) the payment of which would place the indemnified party in a less favorable net after-Tax position than the indemnified party would have been in if the Tax subject to indemnification and giving rise to such refund had not been deducted, withheld or otherwise imposed and the indemnification payments or additional amounts with respect to such Tax had never been paid. This Section 4.2(i) shall not be construed to require any indemnified party to make available its Tax returns (or any other information relating to its Taxes that it deems confidential) to the indemnifying party or any other Person. (j) **Survival.** Each party's obligations under this Section 4.2 shall survive the resignation or replacement of the Administrative Agent or any assignment of rights by, or the replacement of, a Senior Lender, the termination of the Senior Loan Commitment, and the repayment, satisfaction or discharge of all obligations under any Financing Document.

CHANGE ORDER (for use when the Parties mutually agree upon and execute the Change Order pursuant to Section 6.1D or 6.2C) PROJECT NAME: Rio Grande Natural Gas Liquefaction Facility DATE OF AGREEMENT: September 14, 2022 AGREEMENT: Amended and Restated Fixed Price Turnkey Agreement for Trains 1 and 2 CHANGE ORDER NUMBER: Owner EC Number: EC00112 Contractor Change Number SC0077 OWNER: Rio Grande LNG, LLC EFFECTIVE DATE OF CHANGE ORDER: April 8, 2024 CONTRACTOR: Bechtel Energy Inc. TITLE: STUDY
E-1751 A/B UNEXPECTED FUEL GAS CONTAMINATION MITIGATION The Agreement between the Parties listed above is changed as follows: (attach additional documentation if necessary) BACKGROUND Gulf Coast LNG facilities are intermittently experiencing contaminants including high levels of heavy hydrocarbons. In the event RGLNG feed gas contains heavy hydrocarbons, fines or other contaminants to an extent greater than that defined by Attachment A, Schedule A-2 (Basis of Design) there is a risk of freezing in the Heavies Removal Unit (Unit 17), most likely in E-1751 A/B. With the current process configuration (1 x 100% Printed Circuit Heat Exchanger) if freezing and plugged flow does occur it will impact plant performance and remedial action will likely require an unplanned plant shutdown. Contractor is to perform an engineering study to investigate design mitigation measures for unexpected contaminants in the RGLNG feed gas over its operating life. The study will be performed in accordance with the requirements of the attached E-1751 A/B Unexpected Contamination - Mitigation Study Scope of Work (RG-NTD-000-PE-SOW- 00004) which is redlined as agreed upon between Owner and Contractor. Organization, Consolidation and Presentation of Financial Statements [Abstract] [Background and Basis of Presentation](#)

[Background and Basis of Presentation](#)

NextDecade Corporation, a Delaware corporation, is a Houston-based energy company primarily engaged in construction and development activities related to the liquefaction of natural gas and sale of LNG and the capture and storage of CO₂ emissions. We are constructing a natural gas liquefaction and export facility located in the Rio Grande Valley in Brownsville, Texas (the "Rio Grande LNG Facility"). The Rio Grande LNG Facility has received Federal Energy Regulatory Commission ("FERC") approval and Department of Energy ("DOE") FTA and non-FTA authorizations for the construction of five liquefaction trains and LNG exports totaling 27 million tonnes per annum ("MTPA"). The Rio Grande LNG Facility has three liquefaction trains and related infrastructure ("Phase 1") under construction while liquefaction trains 4 and 5 are currently in development. We are also developing a planned carbon capture and storage ("CCS") project at the Rio Grande LNG Facility and other potential CCS projects that would be located at third-party industrial facilities.

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with Rule 10-01 of Regulation S-X. Accordingly, they do not include all the information and disclosures required by GAAP for complete financial statements and should be read in conjunction with the consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2023. In our opinion,

all adjustments, consisting only of normal recurring items, which are considered necessary for a fair presentation of the unaudited consolidated financial statements, have been included. The results of operations for the three and six months ended June 30, 2024 are not necessarily indicative of the operating results for the full year.

Certain reclassifications have been made to conform prior period information to the current presentation. The reclassifications did not have a material effect on the Company's financial position, results of operations or cash flows.

The Company has incurred operating losses since its inception and management expects operating losses and negative cash flows to continue until the commencement of operations at the Rio Grande LNG Facility and, as a result, the Company will require additional capital to fund its operations and execute its business plan. As of June 30, 2024, the Company had \$38.1 million in cash and cash equivalents and available commitments of \$26.2 million under a revolving loan facility, which may not be sufficient to fund the Company's planned operations and development activities for future phases of the Rio Grande LNG Facility, including expected spending for Train 4 prior to a positive final investment decision ("FID"), and CCS projects through one year after the date the consolidated financial statements are issued. Accordingly, there is substantial doubt about the Company's ability to continue as a going concern. The analysis used to determine the Company's ability to continue as a going concern does not include cash sources outside of the Company's direct control that management expects to be available within the next twelve months.

The Company plans to alleviate the going concern issue by obtaining sufficient funding through additional equity, equity-based or debt instruments or any other means and by managing certain operating and overhead costs. The Company's ability to raise additional capital in the equity and debt markets, should the Company choose to do so, is dependent on a number of factors, including, but not limited to, the market demand for the Company's equity or debt securities, which itself is subject to a number of business risks and uncertainties, as well as the uncertainty that the Company would be able to raise such additional capital at a price or on terms that are satisfactory to the Company. In the event the Company is unable to obtain sufficient additional funding, there can be no assurance that it will be able to continue as a going concern.

These consolidated financial statements have been prepared on a going concern basis and do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary in the event the Company can no longer continue as a going concern.

- Definition

The entire disclosure for the business description and basis of presentation concepts. Business description describes the nature and type of organization including but not limited to organizational structure as may be applicable to holding companies, parent and subsidiary relationships, business divisions, business units, business segments, affiliates and information about significant ownership of the reporting entity. Basis of presentation describes the underlying basis used to prepare the financial statements (for example, US Generally Accepted Accounting Principles, Other Comprehensive Basis of Accounting, IFRS).

Derivatives **6 Months Ended**

Jun. 30, 2024

Derivative [Abstract] DerivativesDerivatives

In July 2023, Rio Grande entered into interest rate swaps agreements (the "Swaps") to protect against interest rate volatility by hedging a portion of the floating-rate interest payments associated with the credit facilities described in Note 6 — Debt.

In June 2024, Rio Grande reduced the maximum notional amount associated with the Swaps by approximately \$583.1 million, which resulted in a realized derivative gain of \$30.9 million.

As of June 30, 2024, Rio Grande has the following Swaps outstanding (in thousands):

	<u>Initial Notional Amount</u>	<u>Maximum</u>
Notional Amount		
Maturity ⁽¹⁾ Weighted Average Fixed Interest Rate Paid Variable Interest Rate Received \$123,000-·\$7,916,900-·2048-3-4-%-USD - SOFR		

⁽¹⁾ Swaps have an early mandatory termination date in July 2030.

The Company values the Swaps using an income-based approach based on observable inputs to the valuation model including interest rate curves, risk adjusted discount rates, credit spreads and other relevant data. The fair value of the Swaps is approximately \$276.5 million as of June 30, 2024, and is classified as Level 2 in the fair value hierarchy.

Leases [Abstract] LeasesLeases

The Company commenced the Rio Grande LNG Facility site lease on July 12, 2023 and it has an initial term of 30 years. The Company has the option to renew and extend the term of the lease for up to two consecutive renewal periods of ten years each, but as the Company is not reasonably certain that those options will be exercised, none are recognized as part of our right of use assets and lease liabilities. The Company has also entered into an office space lease which expires on December 31, 2035, and does not include any options for renewal.

For the three months ended June 30, 2024 and 2023, our operating lease costs were \$2.6 million and \$0.3 million, respectively. For the six months ended June 30, 2024 and 2023, our operating lease costs were \$5.6 million and \$0.7 million.

Maturity of operating lease liabilities as of June 30, 2024 are as follows (in thousands, except lease term and discount rate):

The obligations of Rio Grande under the TCF Credit Agreement are secured by substantially all of the assets of Rio Grande as well as a pledge of all of the membership interests in Rio Grande on a first-priority, pari passu basis with the Senior Secured Notes, the Senior Secured Loans and the loans made under the CD Credit Agreement. Total Energies Holdings SAS provides contingent credit support to the lenders under the TCF Credit Agreement to pay past due amounts owing from Rio Grande under the agreement upon demand.

The obligations of NextDecade LLC under the Corporate Credit Facility are guaranteed by Rio Grande LNG Super Holdings, LLC and Rio Grande LNG Intermediate Super Holdings, LLC, wholly owned subsidiaries of NextDecade LLC. The Corporate Credit Facility matures at the earlier of two years from the closing date or 10 business days after a positive FID on Train 4 at the Rio Grande LNG facility.

Restrictive Debt Covenants

The CD Credit Facility and the TCF Credit Facility (collectively, the "Rio Grande Facilities") include certain covenants and events of default customary for project financings, including a requirement that interest rates for a minimum of 75% of the projected and outstanding principal amount be hedged or have fixed interest rates. The Rio Grande Facilities, the Senior Secured Loans, and Senior Secured Notes require Rio Grande to maintain a historical debt service coverage ratio of at least 1.10:1.00 at the end of each fiscal quarter starting from the initial principal payment date.

With respect to certain events, including a change of control event and receipt of certain proceeds from asset sales, events of loss or liquidated damages, the Senior Secured Notes and Senior Secured Loans requires Rio Grande to make an offer to repay the amounts outstanding at 101% (with respect to a change of control event) or par (with respect to each other event).

As of June 30, 2024, the Company was in compliance with all covenants related to its respective debt agreements.

Debt Extinguishment

As of June 30, 2024, Rio Grande has made repayments of \$1,282.0 million, on the outstanding principal balance of the CD Credit Facility. As a result of these repayments, during the three and six months ended June 30, 2024, Rio Grande recognized approximately \$40.1 million and \$47.6 million loss on extinguishment, respectively.

With the exception of the 6.58% Senior Secured Notes, the fair value of the Senior Secured Notes and Senior Secured Loans was calculated based on inputs that are observable in the market or that note be derived from, or corroborated with, observable market data, including interest rates on debt issued by parties with comparable credit ratings. The fair value of the 6.58% Senior Secured Notes approximates its carrying amount due to the close proximity of the issuance of the debt and June 30, 2024.

The fair value of the CD Credit Facility, TCF Credit Facility and Corporate Credit Facility approximates its respective carrying amount due to its variable interest rate, which approximates a market interest rate.

Variable Interest Entity, Measure of Activity [Abstract] [Variable Interest Entity](#)Variable Interest Entity

Intermediate Holdings and its wholly owned subsidiaries, including Rio Grande, have been formed to undertake construction and operation of Phase 1 of the Rio Grande LNG Facility. The Company is not obligated to fund losses of Intermediate Holdings, however, the Company's capital account, which would be considered in allocating the net assets of Intermediate Holdings were it to be liquidated, continues to share in losses of Intermediate Holdings. Further, Rio Grande has granted the Company decision-making rights regarding the construction of Phase 1 of the Rio Grande LNG Facility and key aspects of its operation, which may only be terminated by equity holders for cause, via agreements with NextDecade LLC. Due to the foregoing, the Company determined that it holds a variable interest in Rio Grande through Intermediate Holdings and is its primary beneficiary, and therefore consolidates Intermediate Holdings in these Consolidated Financial Statements.

The following table presents the summarized assets and liabilities (in thousands) of Intermediate Holdings, which are included in the Company's Consolidated Balance Sheets. The assets in the table below may only be used to settle the obligations of Intermediate Holdings. In addition, there is no recourse to us for the consolidated VIE's liabilities. The assets and liabilities in the table below include assets and liabilities of Intermediate Holdings only and exclude intercompany

balances between Intermediate Holdings and NextDecade, which are eliminated in the Consolidated Financial Statements of NextDecade.
