are presented as discontinued operations in the Condensed Consolidated Statements of Operations for all periods presented. Prior periods have been adjusted to conform to the current presentation. The assets of the Company's EGP business have been reflected as assets and liabilities of discontinued operations in the Condensed Consolidated Balance Sheet for the year ended December 31, 2023. Restricted Cash As of June 30, 2024 and December 31, 2023, the Company's balance sheet includes \$0.8 million in restricted cash, which was deposited into a separate account as collateral for the Company's letters of credit. The Company's cash and cash equivalents and restricted cash, as presented in the Condensed Consolidated Statements of Cash Flows, was as follows (in thousands): As of June 30, 2024 and 2023 Cash and cash equivalents \$ 85,136 As of June 30, 2024 and 2023 Restricted cash \$ 779 As of June 30, 2024 and 2023 Total as presented in the Condensed Consolidated Statements of Cash Flows \$ 85,915 As of June 30, 2024 and 2023 Related Party Substantially all of the Company's television stations are Univision- or UniMás-affiliated television stations. The network affiliation agreement with TelevisaUnivision provides certain of the Company's owned stations the exclusive right to broadcast TelvisaUnivision's primary Univision network and UniMás network programming in their respective markets. Under the network affiliation agreement, the Company retains the right to sell no less than four minutes per hour of the available advertising time on stations that broadcast Univision network programming, and the right to sell approximately four and a half minutes per hour of the available advertising time on stations that broadcast UniMás network programming, subject to adjustment from time to time by TelevisaUnivision. Under the network affiliation agreement, TelevisaUnivision acts as the Company's exclusive third-party sales representative for the sale of certain national advertising on the Univision- and UniMás-affiliate television stations, and the Company pays certain sales representation fees to TelevisaUnivision relating to sales of all advertising for broadcast on its Univision- and UniMás-affiliate television stations. During each of the three-month periods ended June 30, 2024 and 2023, the amount the Company paid TelevisaUnivision in this capacity was \$1.5 million. During the six-month periods ended June 30, 2024 and 2023, the amount the Company paid TelevisaUnivision in this capacity was \$2.9 million and \$3.0 million, respectively. These amounts were included in Direct Operating Expenses in the Company's Condensed Consolidated Statements of Operations. The Company also generates revenue under two marketing and sales agreements with TelevisaUnivision, which give it the right to manage the marketing and sales operations of TelevisaUnivision-owned Univision affiliates in three markets - Albuquerque, Boston and Denver. On October 2, 2017, the Company entered into the current affiliation agreement which superseded and replaced its prior affiliation agreements with TelevisaUnivision. Additionally, on the same date, the Company entered into a proxy agreement and marketing and sales agreement with TelevisaUnivision, each of which superseded and replaced the prior comparable agreements with TelevisaUnivision. The term of each of these current agreements expires on December 31, 2026 for all of the Company's Univision and UniMás network affiliate stations, except that each current agreement expired on December 31, 2021 with respect to the Company's Univision and UniMás network affiliate stations in Orlando, Tampa and Washington, D.C. Under the Company's current proxy agreement with TelevisaUnivision, the Company grants TelevisaUnivision the right to negotiate the terms of retransmission consent agreements for its Univision- and UniMás-affiliated television station signals. Among other things, the proxy agreement provides terms relating to compensation to be paid to the Company by TelevisaUnivision with respect to retransmission consent agreements entered into with multichannel video programming distributors, (MVPDs). As of June 30, 2024, the amount due to the Company from TelevisaUnivision was \$8.1 million related to the agreements for the carriage of its Univision and UniMás-affiliated television station signals. During the three-month periods ended June 30, 2024 and 2023, retransmission consent revenue accounted for \$8.8 million and \$9.3 million, respectively, of which \$6.2 million and \$6.5 million, respectively, relate to the TelevisaUnivision proxy agreement. During the six-month periods ended June 30, 2024 and 2023, retransmission consent revenue accounted for \$18.0 million and \$18.9 million, respectively, of which \$12.6 million and \$13.1 million, respectively, relate to the TelevisaUnivision proxy agreement. TelevisaUnivision currently owns approximately 10% of the Company's common stock on a fully-converted basis. The Company's Class U common stock, all of which is held by TelevisaUnivision, has limited voting rights and does not include the right to elect directors. Each share of Class U common stock is automatically convertible into one share of the Company's Class A common stock (subject to adjustment for stock splits, dividends or combinations) in connection with any transfer of such shares of Class U 11 A common stock to a third party that is not an affiliate of TelevisaUnivision. In addition, as the holder of all of the Company's issued and outstanding Class U common stock, so long as TelevisaUnivision holds a certain number of shares of Class U common stock, the Company may not, without the consent of TelevisaUnivision, merge, consolidate or enter into a business combination, dissolve or liquidate the Company or dispose of any interest in any FCC license with respect to television stations which are affiliates of TelevisaUnivision, among other things. Stock-Based Compensation The Company measures all stock-based awards using a fair value method and recognizes the related stock-based compensation expense in the condensed consolidated financial statements over the requisite service period. As stock-based compensation expense recognized in the Company's condensed consolidated financial statements is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. Restricted Stock Units Stock-based compensation expense related to restricted stock units ("RSUs") is based on the fair value of the Company's stock price on the date of grant and is amortized over the vesting period, generally between 1 to 4 years. During the six-month period ended June 30, 2024, the Company had the following non-vested RSUs activity (in thousands, except grant date fair value data): Number of RSUs Weighted-Average Grant Date Fair Value Nonvested balance at December 31, 2023 6,358 \$ 5.74 Granted 2,928 4.01 Vested 4,01 (896) 6.23 Forfeited or cancelled (1,242) 5.48 Nonvested balance at June 30, 2024 7,148 \$ 5.01 A Stock-based compensation expense related to RSUs was \$3.8 million and \$5.4 million for the three-month periods ended June 30, 2024 and 2023, respectively. Stock-based compensation expense related to RSUs was \$8.4 million and \$9.1 million for the six-month periods ended June 30, 2024 and 2023, respectively. As of June 30, 2024, there was \$15.2 million of total unrecognized compensation expense related to grants of RSUs that is expected to be recognized over a weighted-average period of 1.8 years. Performance Stock Units In connection with the hiring of the Company's CEO in July 2023, the Company has granted the CEO Performance Stock Units ("PSUs"), which are subject to both time-based vesting conditions and market-based conditions. Both the service and market conditions must be satisfied for the PSUs to vest. The PSUs consist of five equal tranches (each, a "Performance Tranche"), based on achievement of a share price condition if the Company achieves share price targets of \$5.75, \$7.25, \$9.00, \$11.20, and \$13.75, respectively, over 30 consecutive trading days during a performance period commencing on July 1, 2023 and ending on July 1, 2028. The fair value of each of the Performance Tranches was \$0.8 million, \$0.7 million, \$0.7 million, \$0.6 million, and \$0.5 million, respectively, and have a grant date fair value per share of restricted stock of \$3.98, \$3.64, \$3.31, \$2.93, and \$2.58, respectively. To the extent that any of the performance-based requirements are met, the Company's CEO must also provide continued service to the Company through at least July 1, 2024 to receive any shares of common stock underlying the PSUs and through July 1, 2028 to receive all of the shares of common stock underlying the PSUs that have satisfied the applicable market-based requirement. The maximum number of shares that can be earned under this PSU grant is 1,000,000 shares, with 20% of the total award allocated to each Performance Tranche. Between 0% and 100% of each Performance Tranche of the PSUs will vest on each of the tranche dates. Additionally, in connection with the annual grant in January 2024, the Company has granted PSUs to certain employees, which are subject to both time-based vesting conditions and market-based conditions. Both the service and market conditions must be satisfied for the PSUs to vest. The PSUs consist of four equal tranches (each, a "Performance Tranche"), based on achievement of a share price condition if the Company achieves share price targets of \$4.83, \$5.65, \$7.15, and \$8.90, respectively, over 30 consecutive trading days during a performance period commencing on January 25, 2024 and ending on January 25, 2029. The fair value of each of the Performance Tranches was \$0.6 million, \$0.6 million, \$0.5 million, and \$0.5 million, respectively, and have a grant date fair value per share of restricted stock of \$4.16, \$3.98, \$3.66, and \$3.32, respectively. To the extent that any of the performance-based requirements are met, the grantees must also provide continued service to the Company through at least January 25, 2025 to receive any shares of common stock underlying the PSUs and through January 25, 2029 to receive all of the shares of common stock underlying the PSUs that have satisfied the applicable market-based requirement. The maximum number of shares that could be 12 A earned under this PSU grant was 600,000 shares, with 25% of the total award allocated to each Performance Tranche. Between 0% and 100% of each Performance Tranche of the PSUs will vest on each of the tranche dates. During the second quarter of 2024, 300,000 of these PSUs were cancelled. The Company recognizes compensation expense related to the PSUs using the accelerated attribution method over the requisite service period. Stock-based compensation expense for PSUs is based on a performance measurement of 100%. The compensation expense will not be reversed even if the performance metrics are not met. Stock-based compensation expense related to PSUs was \$0.4 million and \$0.9 million for the three and six-month periods ended June 30, 2024, respectively. There was no stock-based compensation expense related to PSUs for the three and six-month periods ended June 30, 2023. As of June 30, 2024, there was \$2.7 million of total unrecognized compensation expense related to grants of PSUs that is expected to be recognized over a weighted-average period of 2.4 years. The grant date fair value for each PSU was estimated using a Monte-Carlo simulation model that incorporates option-pricing inputs covering the period from the grant date through the end of the performance period. The unobservable significant inputs to the valuation model at the time of award issuance were as follows: 2024 PSUs 2023 PSUs Stock price at issuance \$ 4.38 \$ 4.39 Expected volatility 57.0 % 58.0 % Risk-free interest rate 4.01 % 4.13 % Expected term 5.0 5.0 Expected dividend yield 0 % 0 % During the six-month period ended June 30, 2024, the Company had the following non-vested PSUs activity (in thousands, except grant date fair value data): Number of PSUs Weighted-Average Grant Date Fair Value Nonvested balance at December 31, 2023 1,000 \$ 3.29 Granted 600 3.78 Vested - - Forfeited or cancelled (300) 3.78 Nonvested balance at June 30, 2024 1,300 \$ 3.40 Income (Loss) Per Share The following table illustrates the reconciliation of the basic and diluted income (loss) per share (in thousands, except share and per share data): 13 A 13 A Three-Month Period 13 A 13 A Six-Month Period 13 A 13 A Ended June 30, 2024 13 A 13 A Ended June 30, 2023 13 A 13 A Ended June 30, 2023 Numerator: Net income (loss) from continuing operations \$ 3,732 \$ (5,826) \$ (3,778) \$ (13,842) Net income (loss) from discontinued operations \$ (35,412) \$ 3,837 \$ (76,792) \$ 13,894 Net income (loss) attributable to common stockholders \$ (31,680) \$ (1,989) \$ (80,570) \$ 52 A Basic earnings per share: Denominator: Weighted average common shares outstanding 89,820,737 87,787,772 89,669,397 87,706,282 Per share: Income (loss) per share from continuing operations \$ 0.04 \$ (0.07) \$ (0.04) \$ (0.16) Income (loss) per share from discontinued operations \$ (0.39) \$ 0.04 \$ (0.86) \$ 0.16 Net income (loss) per share attributable to common stockholders \$ (0.35) \$ (0.02) \$ (0.90) \$ 0.00 Diluted earnings per share: Dilutive securities: Stock options and restricted stock units 900,543 900,543 - - Diluted shares outstanding 90,721,280 87,787,772 89,669,397 87,706,282 Per share: Income (loss) per share from continuing operations \$ 0.04 \$ (0.07) \$ (0.04) \$ (0.16) Income (loss) per share from discontinued operations \$ (0.39) \$ 0.04 \$ (0.86) \$ 0.16 Net income (loss) per share attributable to common stockholders \$ (0.35) \$ (0.02) \$ (0.90) \$ 0.00 For the three-month period ended June 30, 2024, a total of 3,240,646 shares of dilutive securities were not included in the computation of diluted income per share because the exercise prices of the dilutive securities were greater than the average market price of the common shares. For the six-month period ended June 30, 2024, all dilutive securities have been excluded as their inclusion would have had an antidilutive effect on loss per share. The number of securities whose conversion would result in an incremental number of shares that would be included in determining the weighted average shares outstanding for diluted earnings per share if their effect was not antidilutive was 1,067,997 equivalent shares of dilutive securities for the six-month period ended June 30, 2024. For the three- and six-month periods ended June 30, 2023, all dilutive securities have been excluded as their inclusion would have had an antidilutive effect on loss per share. The number of securities whose conversion would result in an incremental number of shares that would be included in determining the weighted average shares outstanding for diluted earnings per share if their effect was not antidilutive was 2,038,928 and 2,100,813 equivalent shares of dilutive securities for the three- and six-month period ended June 30, 2023, respectively. Impairment The Company has identified each of its three operating segments to be separate reporting units: digital, television, and audio. The carrying values of the reporting units are determined by allocating all applicable assets (including goodwill) and liabilities based upon the unit in which the assets are employed and to which the liabilities relate, considering the methodologies utilized to determine the fair value of the reporting units. Goodwill and indefinite life intangibles are not amortized but are tested annually for impairment, or more frequently, if events or changes in circumstances indicate that the assets might be impaired. The annual testing date is October 1. As of the most recent annual goodwill testing date, October 1, 2023, there was \$50.1 million of goodwill in the digital reporting unit. Based on the assumptions and estimates discussed in the Company's 2023 10-K, the fair value of the digital reporting unit exceeded its carrying value by 28%, resulting in no impairment charge for the year ended December 31, 2023. On March 4, 2024, the Company received a communication from Meta that it intended to wind down its ASP program globally and end its relationship with all of its ASPs, including the Company, by July 1, 2024. For the fiscal year ended December 31, 2023 ASP revenue from Meta represented approximately 53% of the Company's consolidated revenue, and 63% of the Company's digital 14 A segment revenue. The Company expected a significant loss of future revenue due to the termination of the ASP by Meta. As a result, during the first quarter of 2024, the Company updated its internal forecasts of future performance and determined that a triggering event had occurred during the first quarter of 2024 that required interim impairment tests. As a result, the Company conducted a review of certain of its long-lived assets using a two-step approach. In the first step, the carrying value of the asset group is compared to the projected undiscounted cash flows to determine recoverability. If the asset carrying value is not recoverable, then the fair value of the asset group is determined in the second step using an income approach. The income approach requires the Company to make a series of assumptions, such as discount rates, revenue projections, profit margin projections and useful lives. Based on the assumptions and estimates described above, the carrying values of long-lived assets in the digital reporting unit exceeded their fair values. As a result, the Company performed the second step analysis, resulting in intangibles subject to amortization impairment charge of \$14.0 million during the three-month period ended March 31, 2024, related to the then impending termination by Meta of its ASP program. The Company also conducted a review of the fair value of the digital reporting unit in the first quarter of 2024. The estimated fair value of the reporting unit was determined by using a combination of a market approach and an income approach. The market approach estimates fair value by applying sales, earnings and cash flow multiples to the reporting unit's operating performance. The multiples are derived from comparable publicly-traded companies with similar operating and investment characteristics to the Company's reporting units. The market approach requires the Company to make a series of assumptions, such as selecting comparable companies and comparable transactions and transaction premiums. The income approach estimates fair value based on the estimated future cash flows of each reporting unit, discounted by an estimated weighted-average cost of capital that reflects current market conditions, which reflect the overall level of inherent risk of the reporting unit. The income approach also requires the Company to make a series of assumptions, such as discount rates, revenue projections, profit margin projections and terminal value multiples. The Company estimated the discount rate on a blended rate of return considering both debt and equity for comparable publicly-traded companies in the digital media industries. These comparable publicly-traded companies have similar size, operating characteristics and/or financial profiles to the Company's reporting units. The Company also estimated the terminal value multiple based on comparable publicly-traded companies in the digital media industries. The Company estimated its revenue projections and profit margin projections based on internal forecasts about future performance. Based on the assumptions and estimates described above, the Company concluded that the digital reporting unit carrying value exceeded its fair value, resulting in a goodwill impairment charge of \$35.4 million for the three-month period ended March 31, 2024. The impairments of the intangibles subject to amortization and goodwill were allocated to the Company's EGP business which is accounted for as discontinued operations. See Note 8 for additional details. Treasury Stock On March 1, 2022, the Company's Board of Directors approved a share repurchase program of up to \$20 million of the Company's Class A common stock. Under this share repurchase program, the Company is authorized to purchase shares of its Class A common stock from time to time through open market purchases or negotiated purchases, subject to market conditions and other factors. During the three- and six-month periods ended June 30, 2024 and 2023, the Company did not repurchase any shares of its Class A common stock. As of June 30, 2024, the Company has repurchased a total of 1.8 million shares of its Class A common stock under the new share repurchase program for an aggregate purchase price of \$11.3 million, or an average price per share of \$6.43. Credit Facility On November 30, 2017, the Company entered into the 2017 Credit Facility pursuant to the 2017 Credit Agreement. The 2017 Credit Facility consisted of a \$300.0 million senior secured Term Loan B Facility (the "Term Loan B Facility"), which was drawn in full. The Company's borrowings under the 2017 Credit Facility bore interest on the outstanding principal amount thereof from the date when made at a rate per annum equal to either: (i) the Eurodollar Rate (as defined in the 2017 Credit Agreement) plus 2.75%; or (ii) the Base Rate (as defined in the 2017 Credit Agreement) plus 1.75%. As of March

As of June 30, 2023, the interest rate on the Company's Term A Facility was 7.38%. The Term Loan B Facility had an expiration date on November 30, 2024. On March 17, 2023, the Company entered into the 2023 Credit Facility, pursuant to the 2023 Credit Agreement by and among the Company, Bank of America, N.A., as Administrative Agent, and the other financial institutions party thereto as Lenders (collectively, the "Lenders" and individually each a "Lender"). The 2023 Credit Agreement amended, restated and replaced in its entirety the 2017 Credit Agreement. On the 2023 Closing Date, the Company repaid in full all of the outstanding obligations under the 2017 Credit Agreement and accounted for this repayment as an extinguishment of debt in accordance with Accounting Standards Codification ("ASC") 470, "Debt". The repayment resulted in a loss on debt extinguishment of \$1.6 million, which included a write-off of unamortized debt issuance costs in the amount of \$1.1 million. As provided for in the 2023 Credit Agreement, the 2023 Credit Facility consists of (i) a \$200.0 million senior secured Term A Facility (the "Term A Facility"), which was drawn in full on the 2023 Closing Date, and (ii) a \$75.0 million Revolving Credit Facility (the "Revolving Credit Facility"), of which \$11.5 million was drawn on the 2023 Closing Date. In addition, the 2023 Credit Agreement provides that the Company may increase the aggregate principal amount of the 2023 Credit Facility by an additional amount equal to \$100.0 million plus the amount that would result in the Company's first lien net leverage ratio (as such term is used in the 2023 Credit Agreement) not exceeding 2.25 to 1.0, subject to the Company satisfying certain conditions. Borrowings under the 2023 Credit Facility were used on the 2023 Closing Date (a) to repay in full all of the outstanding obligations of the Company and its subsidiaries under the 2017 Credit Facility, (b) to pay fees and expenses in connection with the 2023 Credit Facility and (c) for general corporate purposes. The 2023 Credit Facility matures on March 17, 2028 (the "Maturity Date"). The 2023 Credit Facility is guaranteed on a senior secured basis by certain of the Company's existing and future wholly-owned domestic subsidiaries, and secured on a first priority basis by the Company's and those subsidiaries' assets. The Company's borrowings under the 2023 Credit Facility bear interest on the outstanding principal amount thereof from the date when made at a rate per annum equal to either: (i) the Term SOFR (as defined in the 2023 Credit Agreement) plus a margin between 2.50% and 3.00%, depending on the Total Net Leverage Ratio or (ii) the Base Rate (as defined in the 2023 Credit Agreement) plus a margin between 1.50% and 2.00%, depending on the Total Net Leverage Ratio. In addition, the unused portion of the Revolving Credit Facility is subject to a rate per annum between 0.30% and 0.40%, depending on the Total Net Leverage Ratio. As of June 30, 2024, the interest rate on the Company's Term A Facility and the drawn portion of the Revolving Credit Facility was 8.25%. The amounts outstanding under the 2023 Credit Facility may be prepaid at the option of the Company without premium or penalty, provided that certain limitations are observed, and subject to customary breakage fees in connection with the prepayment of a Term SOFR loan. The principal amount of the Term A Facility shall be paid in installments on the dates and in the respective amounts set forth in the 2023 Credit Agreement, with the final balance due on the Maturity Date. In March 2024, the Company made a prepayment of \$10.0 million, of which \$8.75 million was applied to the upcoming quarterly principal payments in 2024 under the Term A Facility, and \$1.25 million was applied to the Revolving Credit Facility. In June 2024, the Company made an additional prepayment of \$10.0 million, of which \$4.9 million was a mandatory prepayment as a result of the EGP disposition. The prepayment was applied to the quarterly principal payments in 2025 under the Term A Facility. The Company recorded a loss on debt extinguishment of \$0.1 million for the three- and six-month periods ended June 30, 2024 due to these prepayments of our 2023 Credit Facility. The Company incurred debt issuance costs of \$1.8 million associated with the 2023 Credit Facility. Debt outstanding under the 2023 Credit Facility is presented net of issuance costs on the Company's Consolidated Balance Sheets. The debt issuance costs are amortized on an effective interest basis over the term of the 2023 Credit Facility, and are included in interest expense in the Company's Condensed Consolidated Statements of Operations. The covenants of the Credit Agreement include customary negative covenants that, among other things, restrict the Company's ability to incur additional indebtedness, grant liens and make certain acquisitions, investments, asset dispositions and restricted payments. In addition, the 2023 Credit Facility requires compliance with financial covenants related to total net leverage ratio, not to exceed 3.25 to 1.00, and interest coverage ratio with a minimum permitted ratio of 3.00 to 1.00 (calculated as set forth in the 2023 Credit Agreement). As of June 30, 2024, the Company believes that it is in compliance with all covenants in the 2023 Credit Agreement. The 2023 Credit Agreement includes customary events of default, as well as the following events of default, that are specific to the Company: any revocation, termination, substantial and adverse modification, or refusal by final order to renew, any media license, or the requirement (by final non-appealable order) to sell a television or radio station, where any such event or failure is reasonably expected to have a material adverse effect; or the interruption of operations of any television or radio station for more than 96 consecutive hours during any period of seven consecutive days; The 2023 Credit Agreement includes customary rights and remedies upon the occurrence of any event of default thereunder, including rights to accelerate the loans, terminate the commitments thereunder and realize upon the collateral securing the obligations under the 2023 Credit Agreement. The security agreement that the Company entered into with respect to its 2017 Credit Facility remains in effect with respect to its 2023 Credit Facility. The carrying amount of the Term Loan A Facility as of June 30, 2024 approximated its fair value and was \$176.6 million, net of \$0.9 million of unamortized debt issuance costs and original issue discount. Concentrations of Credit Risk and Trade Receivables The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents and trade accounts receivable. From time to time, the Company has had, and may have, bank deposits in excess of Federal Deposit Insurance Corporation insurance limits. As of June 30, 2024, the majority of all U.S. deposits are maintained in two financial institutions. The Company has not experienced any losses in such accounts and believes that it is not exposed to significant credit risk on cash and cash equivalents. In addition, to the Company's knowledge, all or substantially all of the bank deposits held in banks outside the United States are not insured. The Company's credit risk is spread across a large number of customers in the United States, Europe and various other countries, therefore spreading the trade receivable credit risk. The Company routinely assesses the financial strength of its customers and, as a consequence, believes that it is managing its trade receivable credit risk effectively. Trade receivables are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. An allowance for doubtful accounts is provided for known and anticipated credit losses, as determined by management in the course of regularly evaluating individual customer receivables. This evaluation takes into consideration a customer's financial condition and credit history, as well as current economic conditions. Trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received. No interest is charged on customer accounts. No single advertiser represents more than 5% of the Company's total trade receivables as of June 30, 2024 and December 31, 2023, respectively. No single advertiser represented more than 5% of the Company's total revenue for the three- and six-month periods ended June 30, 2024 and 2023. Allowance for Doubtful Accounts The Company's accounts receivable consist of a homogeneous pool of relatively small dollar amounts from a large number of customers. The Company evaluates the collectability of its trade accounts receivable based on a number of factors. When the Company is aware of a specific customer's inability to meet its financial obligations to us, a specific reserve for bad debts is estimated and recorded which reduces the recognized receivable to the estimated amount the Company believes will ultimately be collected. In addition to specific customer identification of potential bad debts, bad debt charges are recorded based on our recent past loss history and an overall assessment of past due trade accounts receivable amounts outstanding. Estimated losses for bad debts are provided for in the condensed consolidated financial statements through a charge to expense that aggregated \$0.4 million and a de minimis amount for the three-month periods ended June 30, 2024 and 2023, respectively, and \$0.6 million and \$0.2 million for the six-month periods ended June 30, 2024 and 2023, respectively. The net charge off of bad debts aggregated \$0.1 million and \$0.3 million for the three-month periods ended June 30, 2024 and 2023, respectively, and \$0.2 million and \$0.5 million for the six-month periods ended June 30, 2024 and 2023, respectively. Fair Value Measurements The Company measures certain financial assets and liabilities at fair value on a recurring basis. Fair value is the price the Company would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. ASC 820, "Fair Value Measurements and Disclosures", defines and establishes a framework for measuring fair value and expands disclosures about fair value measurements. In accordance with ASC 820, the Company has categorized its financial assets and liabilities, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy as set forth below. Level 1 "Assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the company has the ability to access at the measurement date." Level 2 "Assets and liabilities whose values are based on quoted prices for similar attributes in active markets; quoted prices in markets where trading occurs infrequently; and inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term of the asset or liability." Level 3 "Assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument." The following table presents the Company's financial assets and liabilities measured at fair value on a recurring and nonrecurring basis in the condensed consolidated balance sheets (in millions):

	June 30, 2024	Total Fair Value	Carrying Value	On Balance Sheet	Fair Value Measurement Category	Recurring	Nonrecurring

The Company's money market account is comprised of cash and cash equivalents, which are recorded at their fair market value within Cash and cash equivalents in the Condensed Consolidated Balance Sheets. The Company's available for sale debt securities are comprised of corporate bonds and notes, asset-backed securities, and U.S. Government securities. The majority of the carrying value of these securities held by the Company are investment grade. These securities are valued using quoted prices for similar attributes in active markets (Level 2). Since these investments are classified as available for sale, they are recorded at their fair market value within Marketable securities in the Condensed Consolidated Balance Sheets and their unrealized gains or losses are included in other comprehensive income. Realized gains and losses from the sale of available for sale securities are included in the Condensed Consolidated Statements of Operations and were determined on a specific identification basis. As of June 30, 2024, the following table summarizes the amortized cost and the unrealized gains (losses) of the available for sale securities (in thousands):

	Corporate Bonds and Notes	Amortized Cost	Unrealized gains (losses)	Due within a year	Due after one year	Total
As of June 30, 2024	\$ 4,443	\$ 4,443	\$ 3,186	\$ 4,443	\$ 3,186	\$ 7,629
As of December 31, 2023	\$ 4,443	\$ 4,443	\$ 3,186	\$ 4,443	\$ 3,186	\$ 7,629

The Company's available for sale debt securities are considered for credit losses under the guidance of Accounting Standards Update ("ASU") 2016-13, "Financial Instruments—Credit Losses (Topic 326)". As of June 30, 2024 and December 31, 2023, the Company determined that a credit loss allowance is not required. Included in interest income for the three-month periods ended June 30, 2024 and 2023 was interest income related to the Company's available for sale securities of \$0.1 million and \$0.3 million, respectively. Included in interest income for the six-month periods ended June 30, 2024 and 2023 was interest income related to the Company's available for sale securities of \$0.2 million and \$0.8 million, respectively. The fair value of the contingent consideration is related to the acquisition of 100% of the issued and outstanding shares of stock of a global mobile app marketing solutions company that, together with its subsidiaries, does business under the name BCN Monetize ("BCN Monetize"). As of December 31, 2023, the contingent liability fair value was included in the Condensed Consolidated Balance Sheets in the amount of \$1.2 million as a current liability within Accounts payable and accrued expenses, and \$0.7 million as a noncurrent liability within Other long-term liabilities. The fair value of the contingent consideration was estimated by applying the real options approach. Key assumptions include risk-neutral expected growth rates based on management's assessments of expected growth in EBITDA, adjusted by appropriate factors capturing their correlation with the market and

the Companyâ€™s performance obligations, offset by revenues recognized that were included in the deferred revenue balance in the prior period. The Companyâ€™s payment terms vary by the type and location of customer and the products or services offered. The term between invoicing and when payment is due is typically 30 days. For certain individual customers and customer types, the Company generally requires payment before the services are delivered to the customer. Disaggregated Revenue The following table presents our revenues disaggregated by major source (in thousands):

4. LEASES The Companyâ€™s leases are considered operating leases and primarily consist of real estate such as office space, broadcasting towers, land and land easements. The operating leases are reflected within the consolidated balance sheet as Operating leases right of use asset with the related liability presented as Operating lease liabilities and Long-term operating lease liabilities. Lease expense is recognized on a straight-line basis over the lease term. Generally, lease terms include options to renew or extend the lease. Unless the renewal option is considered reasonably certain, the exercise of any such options has been excluded from the calculation of lease liabilities. The following table summarizes the expected future payments related to lease liabilities as of June 30, 2024: (in thousands)

	2024	2025	2026	2027	2028	2029	2030	2031	2032	2033	2034	2035	2036	2037	2038	2039	2040	2041	2042	2043	2044	2045	2046	2047	2048	2049	2050	2051	2052	2053	2054	2055	2056	2057	2058	2059	2060	2061	2062	2063	2064	2065	2066	2067	2068	2069	2070	2071	2072	2073	2074	2075	2076	2077	2078	2079	2080	2081	2082	2083	2084	2085	2086	2087	2088	2089	2090	2091	2092	2093	2094	2095	2096	2097	2098	2099	2100	2101	2102	2103	2104	2105	2106	2107	2108	2109	2110	2111	2112	2113	2114	2115	2116	2117	2118	2119	2120	2121	2122	2123	2124	2125	2126	2127	2128	2129	2130	2131	2132	2133	2134	2135	2136	2137	2138	2139	2140	2141	2142	2143	2144	2145	2146	2147	2148	2149	2150	2151	2152	2153	2154	2155	2156	2157	2158	2159	2160	2161	2162	2163	2164	2165	2166	2167	2168	2169	2170	2171	2172	2173	2174	2175	2176	2177	2178	2179	2180	2181	2182	2183	2184	2185	2186	2187	2188	2189	2190	2191	2192	2193	2194	2195	2196	2197	2198	2199	2200	2201	2202	2203	2204	2205	2206	2207	2208	2209	2210	2211	2212	2213	2214	2215	2216	2217	2218	2219	2220	2221	2222	2223	2224	2225	2226	2227	2228	2229	2230	2231	2232	2233	2234	2235	2236	2237	2238	2239	2240	2241	2242	2243	2244	2245	2246	2247	2248	2249	2250	2251	2252	2253	2254	2255	2256	2257	2258	2259	2260	2261	2262	2263	2264	2265	2266	2267	2268	2269	2270	2271	2272	2273	2274	2275	2276	2277	2278	2279	2280	2281	2282	2283	2284	2285	2286	2287	2288	2289	2290	2291	2292	2293	2294	2295	2296	2297	2298	2299	2300	2301	2302	2303	2304	2305	2306	2307	2308	2309	2310	2311	2312	2313	2314	2315	2316	2317	2318	2319	2320	2321	2322	2323	2324	2325	2326	2327	2328	2329	2330	2331	2332	2333	2334	2335	2336	2337	2338	2339	2340	2341	2342	2343	2344	2345	2346	2347	2348	2349	2350	2351	2352	2353	2354	2355	2356	2357	2358	2359	2360	2361	2362	2363	2364	2365	2366	2367	2368	2369	2370	2371	2372	2373	2374	2375	2376	2377	2378	2379	2380	2381	2382	2383	2384	2385	2386	2387	2388	2389	2390	2391	2392	2393	2394	2395	2396	2397	2398	2399	2400	2401	2402	2403	2404	2405	2406	2407	2408	2409	2410	2411	2412	2413	2414	2415	2416	2417	2418	2419	2420	2421	2422	2423	2424	2425	2426	2427	2428	2429	2430	2431	2432	2433	2434	2435	2436	2437	2438	2439	2440	2441	2442	2443	2444	2445	2446	2447	2448	2449	2450	2451	2452	2453	2454	2455	2456	2457	2458	2459	2460	2461	2462	2463	2464	2465	2466	2467	2468	2469	2470	2471	2472	2473	2474	2475	2476	2477	2478	2479	2480	2481	2482	2483	2484	2485	2486	2487	2488	2489	2490	2491	2492	2493	2494	2495	2496	2497	2498	2499	2500	2501	2502	2503	2504	2505	2506	2507	2508	2509	2510	2511	2512	2513	2514	2515	2516	2517	2518	2519	2520	2521	2522	2523	2524	2525	2526	2527	2528	2529	2530	2531	2532	2533	2534	2535	2536	2537	2538	2539	2540	2541	2542	2543	2544	2545	2546	2547	2548	2549	2550	2551	2552	2553	2554	2555	2556	2557	2558	2559	2560	2561	2562	2563	2564	2565	2566	2567	2568	2569	2570	2571	2572	2573	2574	2575	2576	2577	2578	2579	2580	2581	2582	2583	2584	2585	2586	2587	2588	2589	2590	2591	2592	2593	2594	2595	2596	2597	2598	2599	2600	2601	2602	2603	2604	2605	2606	2607	2608	2609	2610	2611	2612	2613	2614	2615	2616	2617	2618	2619	2620	2621	2622	2623	2624	2625	2626	2627	2628	2629	2630	2631	2632	2633	2634	2635	2636	2637	2638	2639	2640	2641	2642	2643	2644	2645	2646	2647	2648	2649	2650	2651	2652	2653	2654	2655	2656	2657	2658	2659	2660	2661	2662	2663	2664	2665	2666	2667	2668	2669	2670	2671	2672	2673	2674	2675	2676	2677	2678	2679	2680	2681	2682	2683	2684	2685	2686	2687	2688	2689	2690	2691	2692	2693	2694	2695	2696	2697	2698	2699	2700	2701	2702	2703	2704	2705	2706	2707	2708	2709	2710	2711	2712	2713	2714	2715	2716	2717	2718	2719	2720	2721	2722	2723	2724	2725	2726	2727	2728	2729	2730	2731	2732	2733	2734	2735	2736	2737	2738	2739	2740	2741	2742	2743	2744	2745	2746	2747	2748	2749	2750	2751	2752	2753	2754	2755	2756	2757	2758	2759	2760	2761	2762	2763	2764	2765	2766	2767	2768	2769	2770	2771	2772	2773	2774	2775	2776	2777	2778	2779	2780	2781	2782	2783	2784	2785	2786	2787	2788	2789	2790	2791	2792	2793	2794	2795	2796	2797	2798	2799	2800	2801	2802	2803	2804	2805	2806	2807	2808	2809	2810	2811	2812	2813	2814	2815	2816	2817	2818	2819	2820	2821	2822	2823	2824	2825	2826	2827	2828	2829	2830	2831	2832	2833	2834	2835	2836	2837	2838	2839	2840	2841	2842	2843	2844	2845	2846	2847	2848	2849	2850	2851	2852	2853	2854	2855	2856	2857	2858	2859	2860	2861	2862	2863	2864	2865	2866	2867	2868	2869	2870	2871	2872	2873	2874	2875	2876	2877	2878	2879	2880	2881	2882	2883	2884	2885	2886	2887	2888	2889	2890	2891	2892	2893	2894	2895	2896	2897	2898	2899	2900	2901	2902	2903	2904	2905	2906	2907	2908	2909	2910	2911	2912	2913	2914	2915	2916	2917	2918	2919	2920	2921	2922	2923	2924	2925	2926	2927	2928	2929	2930	2931	2932	2933	2934	2935	2936	2937	2938	2939	2940	2941	2942	2943	2944	2945	2946	2947	2948	2949	2950	2951	2952	2953	2954	2955	2956	2957	2958	2959	2960	2961	2962	2963	2964	2965	2966	2967	2968	2969	2970	2971	2972	2973	2974	2975	2976	2977	2978	2979	2980	2981	2982	2983	2984	2985	2986	2987	2988	2989	2990	2991	2992	2993	2994	2995	2996	2997	2998	2999	3000	3001	3002	3003	3004	3005	3006	3007	3008	3009	3010	3011	3012	3013	3014	3015	3016	3017	3018	3019	3020	3021	3022	3023 June 30, 2024 due to prepayments totaling \$20.0 million of our 2023 Credit Facility. We recorded a loss on debt extinguishment of \$1.6 million for the six-month period ended June 30, 2023 due to the refinancing of our previous credit facility with our 2023 Credit Facility. Realized gain (loss) on marketable securities. For each of the three-month periods ended June 30, 2024 and 2023 we recorded a de minimis amount of realized gain and loss, respectively, related to our available for sale securities. For each of the six-month periods ended June 30, 2024 and 2023 we recorded \$0.1 million of realized loss, related to our available for sale securities. Income Tax Expense or Benefit. Income tax benefit for the three-month period ended June 30, 2024 was \$10.7 million. The effective tax rate for the three-month period ended June 30, 2024 was different from our statutory rate due to foreign and state taxes, changes in valuation allowances on deferred tax assets, non-deductible executive compensation, changes in the fair value of the contingent consideration liability, goodwill impairment, and non-taxable non-territorial income. Income tax benefit for the three-month period ended June 30, 2023 was \$1.6 million. The effective tax rate for the three-month period ended June 30, 2023 was different from our statutory rate due to foreign and state taxes, changes in valuation allowances on deferred tax assets, non-deductible executive compensation, changes in the fair value of the contingent consideration liability, and non-taxable non-territorial income. Income tax benefit for the six-month period ended June 30, 2024 was \$14.8 million. The effective tax rate for the six-month period ended June 30, 2024 was different from our statutory rate due to foreign and state taxes, changes in valuation allowances on deferred tax assets, non-deductible executive compensation, changes in the fair value of the contingent consideration liability, goodwill impairment, and non-taxable non-territorial income. Income tax benefit for the six-month period ended June 30, 2023 was \$2.0 million. The effective tax rate for the six-month period ended June 30, 2023 was different from our statutory rate due to foreign and state taxes, changes in valuation allowances on deferred tax assets, non-deductible executive compensation, changes in the fair value of the contingent consideration liability, and non-taxable non-territorial income. Our management periodically evaluates the realizability of the deferred tax assets and, if it is determined that it is more likely than not that the deferred tax assets are, or are not, realizable, adjusts the valuation allowance accordingly. Valuation allowances are established and maintained for deferred tax assets on a â€œmore likely than notâ€ threshold. The process of evaluating the need to maintain a valuation allowance for deferred tax assets and the amount maintained in any such allowance is highly subjective and is based on many factors, several of which are subject to significant judgment calls. Based on our analysis, we determined that it was more likely than not that our deferred tax assets would be realized for all jurisdictions with the exception of certain of our digital operations and certain U.S. Foreign Tax Credit carryovers. As a result of historical losses from our digital operations primarily in Spain, Uruguay, Mexico and Argentina, certain U.S. Foreign Tax Credit carryovers and capital losses due to sale of subsidiaries management has determined that it is more likely than not that deferred tax assets of \$31.3 million at June 30, 2024 will not be realized and therefore we have established a valuation allowance in that amount on those assets. The Organization for Economic Co-operation and Development (â€œOECDâ€) Pillar 2 guidelines address the increasing digitalization of the global economy, re-allocating taxing rights among countries. The OECD, many other member states and various other governments have adopted, or are in the process of adopting, Pillar 2 which calls for a global minimum tax of 15% to be effective for tax years beginning in 2024. The OECD guidelines published to date include transition and safe harbor rules around the implementation of the Pillar 2 global minimum tax. The Company is monitoring developments and evaluating the impacts these new rules will have on its tax rate, including eligibility to qualify for these safe harbor rules. 31 â€ Segment Operations Digital Net Revenue. Net revenue in our digital segment increased to \$41.1 million for the three-month period ended June 30, 2024 from \$30.2 million for the three-month period ended June 30, 2023. The increase was primarily due to increases in advertising revenue from Smaxed. Net revenue in our digital segment increased to \$79.3 million for the six-month period ended June 30, 2024 from \$55.4 million for the six-month period ended June 30, 2023. The increase was primarily due to increases in advertising revenue from Smaxed. Cost of revenue. Cost of revenue in our digital segment increased to \$24.4 million for the three-month period ended June 30, 2024 from \$19.6 million for the three-month period ended June 30, 2023, primarily due to the increase in advertising revenue. Cost of revenue in our digital segment increased to \$47.1 million for the six-month period ended June 30, 2024 from \$36.5 million for the six-month period ended June 30, 2023, primarily due to the increase in advertising revenue. We have previously noted a trend in our digital operations globally whereby revenue is shifting more to programmatic revenue. As a result, advertisers are demanding more efficiency and lower cost from intermediaries like us. In response to this trend, we have been offering our programmatic purchasing platform, Smaxed, to advertisers. The digital advertising industry remains dynamic and is continuing to undergo rapid changes in technology, customer expectation and competition. We expect this trend to continue and possibly accelerate. We must continue to remain vigilant to meet these dynamic and rapid changes including the need to further adjust our business strategies accordingly. No assurances can be given that such strategies will be successful. Direct operating expenses. Direct operating expenses in our digital segment increased to \$7.4 million for the three-month period ended June 30, 2024 from \$6.1 million for the three-month period ended June 30, 2023, primarily due to an increase in cloud infrastructure expenses associated with the increase in digital advertising revenue. Direct operating expenses in our digital segment increased to \$14.4 million for the six-month period ended June 30, 2024 from \$10.8 million for the six-month period ended June 30, 2023, primarily due to an increase of \$2.6 million in cloud infrastructure expenses and an increase of \$1.0 million in salaries associated with the increase in digital advertising revenue. Selling, general and administrative expenses. Selling, general and administrative expenses in our digital segment increased to \$5.4 million for the three-month period ended June 30, 2024, from \$3.8 million for the three-month period ended June 30, 2023, primarily due to an increase in salaries. Selling, general and administrative expenses in our digital segment increased to \$10.3 million for the six-month period ended June 30, 2024, from \$7.4 million for the six-month period ended June 30, 2023, primarily due to an increase in salaries. Television Net Revenue. Net revenue in our television segment decreased to \$28.6 million for the three-month period ended June 30, 2024 from \$29.9 million for the three-month period ended June 30, 2023. This decrease was primarily due to a decrease of \$1.5 million in advertising revenue, a decrease of \$0.5 million in spectrum usage rights revenue and a decrease of \$0.5 million in retransmission consent revenue, partially offset by an increase of \$1.2 million in political advertising revenue. Net revenue in our television segment decreased to \$57.1 million for the six-month period ended June 30, 2024 from \$60.3 million for the six-month period ended June 30, 2023. This decrease was primarily due to a decrease of \$2.8 million in advertising revenue, a decrease of \$0.8 million in spectrum usage rights revenue and a decrease of \$1.0 million in retransmission consent revenue, partially offset by an increase of \$1.4 million in political advertising revenue. In general, our television segment faces declining audiences, which we believe is present across the industry, competitive factors with the other major Spanish-language broadcasters, and changing demographics and preferences of audiences, particularly younger audiences, in terms of the media they prefer to view, including streaming and social media. We anticipate that these changes in viewer habits will persist at least for the foreseeable future and possibly permanently. Additionally, we have previously noted a trend for advertising to move increasingly from traditional media, such as television, to new media, such as digital media, and we expect this trend will also continue. Direct Operating Expenses. Direct operating expenses in our television segment increased to \$17.0 million for the three-month period ended June 30, 2024 from \$15.0 million for the three-month period ended June 30, 2023, primarily due to an increase in salaries, primarily associated with the expansion of our news programming in anticipation of this year's election cycle. Direct operating expenses in our television segment increased to \$33.9 million for the six-month period ended June 30, 2024 from \$29.8 million for the six-month period ended June 30, 2023, primarily due to an increase of \$3.6 million in salaries, primarily associated with the expansion of our news programming in anticipation of this year's election cycle, and \$0.2 million in programming fees. 32 â€ Selling, General and Administrative Expenses. Selling, general and administrative expenses in our television segment increased to \$5.7 million for the three-month period ended June 30, 2024 from \$4.8 million for the three-month period ended June 30, 2023, primarily due to an increase in salaries and other employee benefits. Selling, general and administrative expenses in our television segment decreased to \$11.7 million for the six-month period ended June 30, 2024 from \$10.2 million for the three-month period ended June 30, 2023, primarily due to an increase in salaries and other employee benefits. Audio Net Revenue. Net revenue in our audio segment decreased to \$13.0 million for the three-month period ended June 30, 2024 from \$13.5 million for the three-month period ended June 30, 2023. This decrease was primarily due to a decrease of \$0.8 million in advertising revenue, partially offset by an increase of \$0.3 million in political advertising revenue. Net revenue in our audio segment decreased to \$24.4 million for the six-month period ended June 30, 2024 from \$25.8 million for the six-month period ended June 30, 2023. This decrease was primarily due to a decrease of \$1.9 million in advertising revenue, partially offset by an increase of \$0.5 million in political advertising revenue. In general, our audio segment faces declining audiences, which we believe is present across the industry, competitive factors with other major Spanish-language broadcasters, and changing demographics and preferences of listening audiences, particularly younger audiences, including podcasts and other streaming services. We anticipate that these changes in listener habits will persist at least for the foreseeable future and possibly permanently. Additionally, we have previously noted a trend for advertising to move increasingly from traditional media, such as radio, to new media, such as digital media, and we expect this trend will also continue. While we believe that none of these new technologies and services can completely replace local broadcast radio stations due to the element of localism that broadcast radio offers, the challenges we face in our radio operations from new technologies and services will continue to require attention from management. Direct Operating Expenses. Direct operating expenses in our audio segment decreased to \$7.4 million for the three-month period ended June 30, 2024 from \$7.8 million for the three-month period ended June 30, 2023, primarily due to a decrease of \$0.7 million in expenses associated with the decrease in advertising revenue, partially offset by an increase of \$0.2 million in ratings services expense. Direct operating expenses in our audio segment increased to \$15.3 million for the six-month period ended June 30, 2024 from \$14.9 million for the six-month period ended June 30, 2023, primarily due to an increase of \$0.4 million in salaries expense and \$0.4 million in ratings services expense, partially offset by a decrease of \$0.5 million in expenses associated with the decrease in advertising revenue. Selling, General and Administrative Expenses. Selling, general and administrative expenses in our audio segment decreased to \$3.3 million for the three-month period ended June 30, 2024 from \$4.0 million for the three-month period ended June 30, 2023, primarily due to a decrease in rent expense. Selling, general and administrative expenses in our audio segment decreased to \$6.7 million for the six-month period ended June 30, 2024 from \$7.9 million for the six-month period ended June 30, 2023, primarily due to a decrease in rent expense. Liquidity and Capital Resources While we have a history of operating losses in some periods and operating income in other periods, we also have a history of generating significant positive cash flows from our operations. We had net loss attributable to common stockholders of \$15.4 million for the year ended December 31, 2023, and net income attributable to common stockholders of \$18.1 million and \$29.3 million for the years ended December 31, 2022 and 2021, respectively. We had positive cash flow from operations of \$75.2 million, \$78.9 million and \$65.3 million for the years ended December 31, 2023, 2022 and 2021, respectively. We had positive cash flow from operations of \$51.1 million for the six-month period ended June 30, 2024. For at least the next twelve months, we expect to fund our working capital requirements, capital expenditures and payments of principal and interest on outstanding indebtedness, with cash on hand and cash flows from operations. We currently believe that our cash position is capable of meeting our operating and capital expenses and debt service requirements for at least the next twelve months from the issuance of this report. We believe that our position is strengthened by cash and cash equivalents on hand, in the amount of \$85.1 million, and available for sale marketable securities in the additional amount of \$3.2 million, as of June 30, 2024. Our liquidity is not materially affected by the amounts held in accounts outside the United States. On March 4, 2024, we received a communication from Meta that it intended to wind down its authorized sales partner, or ASP, program globally and end its relationship with all of its ASPs, including us, by July 1, 2024. As a result, we conducted a thorough review of our digital strategy, operations and cost structure, and during the second quarter of 2024 made the decision to dispose of the operations of EGP, our digital commercial partnerships business, which was completed during the second quarter of 2024. 33 â€ We expect that the disposition of our EGP business, the largest business unit of our digital segment, will have a material effect on our results of operations in that total revenue from our digital segment is expected to be significantly lower than it was prior to the disposition of our EGP business. Additionally, cash flow from operations will be materially and adversely affected in future periods, which could also adversely affect our liquidity. To the extent that our then current liquidity is insufficient to fund our business activities or if we do not remain in compliance with our financial covenants under the 2023 Credit Agreement, whether as a direct or indirect result of the disposition of our EGP business or otherwise, we may be required to seek additional equity or debt financing in the future to satisfy capital requirements. There is no guarantee that any such capital would be available to us on favorable terms, or at all. The failure to obtain any required capital could have a material adverse effect on our operations and financial condition. Credit Facility On March 17, 2023, we entered into the 2023 Credit Facility, pursuant to the 2023 Credit Agreement, by and among us, Bank of America, N.A., as Administrative Agent, and the other financial institutions party thereto as Lenders (collectively, the â€œLendersâ€ and individually each a â€œLenderâ€). The 2023 Credit Agreement amended, restated and replaced in its entirety our previous credit agreement (the "2017 Credit Agreement"). For detailed information regarding certain terms of our 2023 Credit Agreement and Credit Facility, see Note 2 to Notes to Consolidated Consolidated Financial Statements. In March 2024, we made a prepayment of \$10.0 million, of which \$8.75 million was applied to the upcoming quarterly principal payments in 2024 under the Term A Facility, and \$1.25 million was applied to the Revolving Credit Facility. In June 2024, we made an additional prepayment of \$10.0 million, of which \$4.9 million was a mandatory prepayment as a result of the EGP disposition. The prepayment was applied to the quarterly principal payments in 2025 under the Term A Facility. Consolidated EBITDA Consolidated EBITDA is a non-GAAP measure. The most directly comparable GAAP financial measure to consolidated EBITDA is net income (loss) attributable to common stockholders. We use the term â€œconsolidated EBITDAâ€ because that term is defined in our 2023 Credit Agreement. Under the terms of our 2023 Credit Agreement, consolidated EBITDA is a measure that governs several critical aspects of our 2023 Credit Facility, including, among other things, financial covenants with which we must comply and financial ratios which we must maintain in order to borrow funds needed for the operation of our business and with respect to the interest rates that we pay on our 2023 Credit Facility. For example, our 2023 Credit Agreement contains a total net leverage ratio financial covenant. The total net leverage ratio, or the ratio of consolidated total debt (net of up to \$50.0 million of unrestricted cash) to trailing-twelve-month consolidated EBITDA, affects both our ability to borrow from our Revolving Credit Facility and our applicable margin for the interest rate calculation. Under our 2023 Credit Agreement, our maximum total leverage ratio may not exceed 3.25 to 1.00. In addition, our 2023 Credit Agreement contains an interest coverage ratio financial covenant (calculated as set forth in the 2023 Credit Agreement), with a minimum permitted ratio of 3.00 to 1.00. Therefore, we believe that it is important to disclose consolidated EBITDA to our investors to understand our compliance with these, and certain other, terms of our 2023 Credit Agreement. While many in the financial community and we consider consolidated EBITDA to be important, it should be considered in addition to, but not as a substitute for or superior to, other measures of financial performance and liquidity prepared in accordance with accounting principles generally accepted in the United States of America, such as operating income (loss), net income (loss) and cash flows from operating activities. Consolidated EBITDA has certain limitations because it excludes and includes several important financial line items as noted above. Therefore, we consider both non-GAAP and GAAP measures when evaluating our business. Consolidated EBITDA is also used to make executive compensation decisions. A reconciliation of this non-GAAP measure to its most directly comparable GAAP financial measure follows (in thousands): 34 â€ â€ Six-Month Period â€ â€ Ended June 30, â€ â€ 2024 â€ 2023 â€ Net income (loss) attributable to common stockholders â€ \$ (80,570) â€ \$ 52 â€ Net income (loss) attributable to redeemable noncontrolling interest - discontinued operations â€ (2,779) â€ (12) â€ Net income (loss) attributable to noncontrolling interest - discontinued operations â€ â€" â€ (342) â€ Interest expense â€ 8,561 â€ 8,118 â€ Interest expense - discontinued operations â€ 219 â€ 216 â€ Interest income â€ (1,155) â€ (1,328) â€ Interest income - discontinued operations â€ (731) â€ (569) â€ Dividend income â€ (10) â€ (32) â€ Realized gain (loss) on marketable securities â€ 109 â€ 61 â€ (Gain) loss on debt extinguishment â€ 91 â€ 1,556 â€ Income tax expense â€ (14,811) â€ (2,043) â€ Income tax expense - discontinued operations â€ (645) â€ 1,535 â€ Amortization of syndication contracts â€ 227 â€ 240 â€ Payments on syndication contracts â€ (229) â€ (241) â€ Non-cash stock-based compensation â€ 8,734 â€ 10,021 â€ Depreciation and amortization â€ 9,167 â€ 7,214 â€ Depreciation and amortization - discontinued operations â€ 3,958 â€ 5,766 â€ Change in fair value of contingent consideration â€ 20 â€ 721 â€ Change in fair value of contingent consideration - discontinued operations â€ (12,568) â€ (3,663) â€ Impairment charge - discontinued operations â€ 49,438 â€ â€" â€ Non-recurring cash severance and restructuring charge â€ 3,127 â€ 612 â€ Other operating (gain) loss - discontinued operations â€ 45,014 â€ â€" â€ EBITDA attributable to redeemable noncontrolling interest - discontinued operations â€ (167) â€ (417) â€ EBITDA attributable to noncontrolling interest - discontinued operations â€ â€" â€ (230) â€ Consolidated EBITDA (1) â€ \$ 15,000 â€ \$ 27,235 â€ (1)Consolidated EBITDA is presented in accordance with the definition provided in our 2023 Credit Facility. Cash Flow Net cash flow provided by operating activities was \$51.1 million for the six-month period ended June 30, 2024, compared to \$47.1 million for the three-month period ended June 30, 2023. The increase in cash flow from operating activities was primarily due to net changes in our working capital of \$29.9 million for the six-months periods ended June 30, 2024 compared to \$25.7 million for the six-months periods ended June 30, 2023. The net changes in working were primarily due to the timing of cash payments to publishers in the EGP business and timing of collections in the EGP business. The increase in cash flow

provided by operating activities was partially offset by a decrease in net income after adjusting for non-cash items. Significant non-cash items in the six-month period ended June 30, 2024 included the loss on sale related to the EGP business of \$45.0 million, impairment charges of \$49.4 million, depreciation and amortization expense of \$13.1 million, non-cash stock based compensation of \$8.7 million, and income related to the change in fair value of contingent consideration of \$12.5 million. Significant non-cash items in the six-month period ended June 30, 2023 included depreciation and amortization expense of \$13.0 million, non-cash stock based compensation of \$10.0 million, and income related to the change in fair value of contingent consideration of \$2.9 million. We expect to have positive cash flow from operating activities for the 2024 year. Net cash flow used in investing activities was \$26.9 million for the six-month period ended June 30, 2024, compared to \$12.1 million for the six-month period ended June 30, 2023. The increase in cash flow used in investing activities was primarily due to net cash divested in the sale of the EGP business of \$43.0 million for the six-month period ended June 30, 2024 compared to \$6.9 million spent on the purchase of businesses for the six-month period ended June 30, 2023, and a reduction in proceeds from the sale of marketable securities to \$10.0 million for the six-month period ended June 30, 2024 compared to \$28.1 million for the six-month period ended June 30, 2023. The increase in cash flow used in operating activities was partially offset by a reduction in capital expenditures to \$4.7 million for the six-month period ended June 30, 2024 compared to \$14.9 million for the six-month period ended June 30, 2023 as a result of the build out of our corporate headquarters in the prior year period, no spend on purchases of marketable securities for the six-month period ended June 30, 2024 compared to \$10.2 million for the six-month period ended June 30, 2023, and proceeds from a loan receivable associated with the sale of the EGP business of \$10.7 million for the six-month period ended June 30, 2024 compared to the issuance of a loan receivable of \$8.1 million for the six-month period ended June 30, 2023. We anticipate that our capital expenditures will be approximately \$7.0 million during the full year 2024. The amount of our anticipated capital expenditures may change based on future changes in business plans and our financial condition and general economic conditions. We expect to fund capital expenditures with cash on hand and net cash flow from operations. 35 A Net cash flow used in financing activities was \$44.7 million for the six-month period ended June 30, 2024, compared to \$46.1 million for the six-month period ended June 30, 2023. The decrease in cash flow used in financing activities was primarily due to payments of contingent consideration of \$14.3 million for the six-month period ended June 30, 2024 compared to \$31.7 million for the six-month period ended June 30, 2023, distributions to noncontrolling interest of \$1.1 million for the six-month period ended June 30, 2024 compared to \$3.4 million for the six-month period ended June 30, 2023, and payments of \$1.8 million of debt issuance costs for the six-month period ended June 30, 2023 as a result of the refinancing of our credit facility. The decrease in cash flow used in financing activities was partially offset by \$20.0 million of debt prepayments during the six-month period ended June 30, 2024. 36 A ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK General Market risk represents the potential loss that may affect our financial position, results of operations and/or cash flows due to adverse changes in the financial markets. We are also exposed to market risk from changes in the base rates on our 2023 Credit Facility. Interest Rates As of June 30, 2024, we had \$187.8 million of variable rate bank debt outstanding under our 2023 Credit Facility. Our borrowings bear interest on the outstanding principal amount thereof from the date when made at a rate per annum equal to either: (i) the Term SOFR (as defined in the 2023 Credit Agreement) plus a margin between 2.50% and 3.00%, depending on the Total Net Leverage Ratio (as defined in the 2023 Credit Agreement) or (ii) the Base Rate (as defined in the 2023 Credit Agreement) plus a margin between 1.50% and 2.00%, depending on the Total Net Leverage Ratio. In addition, the unused portion of the Revolving Credit Facility is subject to a rate per annum between 0.30% and 0.40%, depending on the Total Net Leverage Ratio. Because our debt is subject to interest at a variable rate, our earnings will be affected in future periods by changes in interest rates. If the SOFR were to increase by a hypothetical 100 basis points, or one percentage point, from its June 30, 2024 level, our annual interest expense would increase and cash flow from operations would decrease by \$1.9 million based on the outstanding balance of our term loan as of June 30, 2024. Foreign Currency We have foreign currency risks related to our revenue and operating expenses denominated in currencies other than the U.S. dollar. Historically, our revenues have primarily been denominated in U.S. dollars, and the majority of our current revenues continue to be, and are expected to remain, denominated in U.S. dollars. However, we have operations in countries other than the United States, primarily related to our continuing digital operations, and expect a portion of our future revenues will be denominated in currencies other than the U.S. dollar. The effect of an immediate and hypothetical 10% adverse change in foreign exchange rates on foreign-denominated accounts receivable at June 30, 2024 would not be material to our consolidated results of operations or overall financial condition. Our operating expenses are primarily denominated in U.S. dollars. In addition, certain of our operating expenses are denominated in the currencies of the countries in which our operations are located, primarily Spain. Increases and decreases in our foreign-denominated revenue from movements in foreign exchange rates are partially offset by the corresponding decreases or increases in our foreign-denominated operating expenses. In addition, currency fluctuations or a weakening U.S. dollar can increase the amount of operating expense of our international operations, which are primarily related to our continuing digital operations. To date, we have not entered into any foreign currency hedging contracts, since exchange rate fluctuations historically have not had a material effect on our operating results and cash flows. ITEM 4. CONTROLS AND PROCEDURES We conducted an evaluation, under the supervision and with the participation of management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this quarterly report. Based on this evaluation, our chief executive officer and chief financial officer concluded that, as of the evaluation date, our disclosure controls and procedures were effective. Our disclosure controls and procedures are designed to ensure that the information relating to our company, including our consolidated subsidiaries, required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow for timely decisions regarding required disclosure. Our management, including our chief executive officer and chief financial officer, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. There have not been any changes in our internal control over financial reporting during the period covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. 37 A PART II. OTHER INFORMATION A ITEM 1. LEGAL PROCEEDINGS We are subject to various outstanding claims and other legal proceedings that may arise in the ordinary course of business. In the opinion of management, any liability that may arise out of or with respect to these matters will not materially adversely affect our financial position, results of operations or cash flows. ITEM 1A. RISK FACTORS None. ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES, USE OF PROCEEDS, AND ISSUER PURCHASES OF EQUITY SECURITIES Issuer Purchases of Equity Securities On March 1, 2022, our Board of Directors approved a share repurchase program of up to \$20 million of our Class A common stock. Under this share repurchase program, we are authorized to purchase shares of our Class A common stock from time to time through open market purchases or negotiated purchases, subject to market conditions and other factors. We did not repurchase any shares of our Class A common stock during three-month periods ended March 31, 2024 and 2023. As of March 31, 2024, we have repurchased a total of 1.8 million shares of our Class A common stock under the current share repurchase program for an aggregate purchase price of \$11.3 million, or an average price per share of \$6.43. All such repurchased shares were retired as of March 31, 2024. ITEM 3. DEFAULTS UPON SENIOR SECURITIES None. ITEM 4. MINE SAFETY DISCLOSURES Not applicable. ITEM 5. OTHER INFORMATION Insider Trading Arrangements During the quarter ended June 30, 2024, none of our directors or officers informed us of the adoption or termination of a Rule 10b5-1 trading arrangement or a non-Rule 10b5-1 trading arrangement, as those terms are defined in Regulation S-K, Item 408. A ENTRAVISION COMMUNICATIONS CORPORATION A A A By: /s/ MARK BOELKE A Mark Boelke Chief Financial Officer and Treasurer A Date: August 8, 2024 A 40 EX-10.6 2 evc-ex10.6.htm EX-10.6 Exhibit 10.6 EXECUTIVE COMPENSATION LETTER A This Executive Compensation Letter (this "Letter") set forth the terms of employment between Entravision Communications Corporation (the "Company"), and Mark Boelke (the "Executive"), effective as of March 15, 2024 (the "Effective Date"). 1. Position. Executive will serve as the Company's General Counsel, will report directly to the Company's Chief Executive Officer (the "CEO") and will perform such duties as are customarily performed by such position, including the duties as may be assigned from time to time that are consistent with such position. The principal location at which Executive is required to provide services to the Company during the term of employment will be the Company's corporate office in Santa Monica, California. 2. Compensation and Benefits. a. Salary. Executive will receive a gross base annual salary of \$669,500, payable in installments according to the Company's regular paydays, less any applicable tax deductions and withholding (the "Base Annual Compensation"). b. Bonus. Executive is eligible to receive an annual bonus in a target amount equal to 60% of Executive's base salary, determined in accordance with the Company's executive bonus plan in effect for the applicable calendar year. c. Benefits. Executive is eligible to participate in the Company's benefit programs and plans, as may be amended from time to time. The Company will pay for the cost of medical and dental coverage for Executive and Executive's dependents under the Company's established medical and dental benefit plans at no cost to Executive. d. Time Off and Holidays. Executive will be entitled to discretionary time off in accordance with the policies established by the Company for its employees, as may be amended from time to time. Executive will also be entitled to the paid holidays as set forth in the Company's policies. e. Automobile Allowance. Executive will receive \$1,000 per month as an allowance in respect of automobile expenses, payable in accordance with the Company's payroll policies. f. Equity Incentive Grants. Executive is eligible for equity incentive grants under the Entravision Communications Corporation 2004 Equity Incentive Plan, subject to the discretion of the Compensation Committee of the Board of Directors of the Company. g. Expenses. The Company will reimburse Executive for all necessary and reasonable expenses incurred by Executive as a direct consequence of the performance of Executive's duties for the Company, in accordance with the Company's employment policies and subject to Executive's submission of receipts and applicable documentation in accordance with the Company's policies. 3. At-Will Employment. Executive's employment with the Company will be on an at-will basis, meaning that either Executive or the Company may terminate Executive's employment at any time with or without cause or advance notice. Nothing in this letter or in any document or statement, and nothing implied from any course of conduct, will limit the Company's or Executive's right to terminate Executive's at-will employment with the Company. A 4. Severance. Executive is designated as a Covered Executive for purposes of the Company's Executive Severance and Change in Control Plan (the "Severance Plan") and Executive will be eligible for severance benefits thereunder in accordance with the terms and conditions of the Severance Plan. 5. Employee Handbook and Covenants Agreements. Executive is required, as a condition to and in consideration of employment, and continued employment, with Entravision, to sign and acknowledge receipt of Entravision's Employee Handbook and Executive's agreement to comply with Entravision's employment policies as well as Entravision's agreements applicable to confidentiality, non-solicitation and other employment covenants. 6. Obligations to the Company. Executive will devote their entire productive time, ability and attention to the Company's business during the term of employment. Executive will not engage in any other business duties or pursuits whatsoever, or directly or indirectly render any services of a business, commercial or professional nature to any other person or organization, whether for compensation or otherwise, without the prior written consent of the CEO. The foregoing will not preclude Executive from engaging in appropriate civic, charitable or religious activities or from devoting a reasonable amount of time to passive private investments or from serving on the boards of directors of other entities (provided that any director position will require the prior written consent of the CEO), as long as such activities and/or services do not interfere or conflict with Executive's responsibilities to the Company. Executive will not directly or indirectly acquire, hold or retain any interest in any business competing with or similar in nature to the business of the Company, or which in any other way creates a conflict of interest, except for up to one percent (1%) ownership interests in public companies. During the term of employment, Executive will not in any way engage or participate in any business that is in competition with the Company. In performing job duties, Executive will abide by all applicable federal, state and local laws, as well as the Company's bylaws, rules, regulations and policies, as may be amended from time to time. 7. Miscellaneous. a. Indemnification. The Company will indemnify Executive consistent with the Company's other executive officers and its legal obligations under California Labor Code Section 2802. b. Entire Agreement. This letter, together with applicable additional employment agreements such as those related to arbitration, confidentiality, non-solicitation and other employment covenants, constitutes the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes any and all prior or contemporaneous, express or implied, written or oral agreements, representations and conditions between the parties with respect thereto. The terms of this letter may not be amended or modified except by a writing signed by both Executive and the Company. c. Governing Law and Venue. This letter and Executive's employment with the Company will be governed by, construed and enforced in accordance with the laws of the State of California, and without the aid of any canon, custom or rule of law requiring construction against the draftsman. The parties consent to submit to the exclusive jurisdiction of the courts of the State of California and the United States of America located in the State of California, County of Los Angeles, for any action, suits or proceedings arising out of or relating to Executive's employment with the Company, and further agree that service of any process, summons, notice or document by 2A A U.S. certified mail shall be effective service of process for any action, suit or proceeding brought in any such court. d. Other. The waiver by either party, or the failure of either party to claim a breach of any provision of this Letter, shall not operate or be construed as a waiver of any subsequent breach. If any provision hereof is found to be invalid or unenforceable by any court, the remaining provisions hereof will remain in effect unless such partial invalidity or unenforceability would defeat an essential business purpose of this letter. This letter may be executed in counterpart originals, may be signed by electronic signature and exchanged by email or other electronic form, with the same legal effect as if all signatures had appeared in original handwriting on the same physical document. The parties acknowledge and agree to the terms of this Letter by signing and dating in the applicable space below. Smadex, the Company's programmatic ad purchasing platform; and Adwake, the Company's mobile growth solutions business. The Company's television and audio operations reach and engage U.S. Hispanics in the United States. The Company owns and/or operates 49 primary television stations and 44 radio stations (37 FM and 7 AM). Discontinued Operations and Assets Held for Sale

On March 4, 2024, the Company received a communication from Meta that it intended to wind down its Authorized Sales Partners ("ASP") program globally and end its relationship with all of its ASPs, including the Company, by July 1, 2024. For the fiscal year ended December 31, 2023 ASP revenue from Meta represented approximately 53% of the Company's consolidated revenue, and 63% of the Company's digital segment revenue. As a result of this communication from Meta, the Company conducted a thorough review of its digital strategy, operations and cost structure, and during the second quarter of 2024 made the decision to dispose of the operations of EGP. Following this decision, during the second quarter of 2024, the Company entered into a definitive agreement to sell substantially all of its EGP business to IMS Internet Media Services, Inc. ("IMS"). The transaction was completed on June 28, 2024. The remaining EGP businesses, Jack of Digital and Adsmural, S.L. ("Adsmural"), were each sold back to their respective founders in separate transactions during the second quarter of 2024. See Note 8 for additional details. A business or asset is classified as held for sale when management having the authority to approve the action commits to a plan to sell the business, the sale is probable to occur during the next 12 months at a price that is reasonable in relation to its current fair value, and when certain other criteria are met. A business or asset classified as held for sale is recorded at the lower of (i) its carrying amount and (ii) estimated fair value less costs to sell. When the carrying amount of the business exceeds its estimated fair value less costs to sell, a loss is recognized and updated each reporting period as appropriate. Depreciation is not recorded on assets classified as held for sale. The results of operations of a business classified as held for sale are reported as discontinued operations if the disposal represents a strategic shift that will have a major effect on the entity's operations and financial results. When a business is identified for discontinued operations reporting: (i) results for prior periods are retrospectively reclassified as discontinued operations; (ii) results of operations are reported in a single line, net of tax, in the consolidated statement of operations; and (iii) assets and liabilities are reported as held for sale in the consolidated balance sheets in the period in which the business is classified as held for sale. The Company concluded that the assets of its EGP business met the criteria for classification as held for sale. Additionally, the Company determined that the disposal, which was initiated and completed during the second quarter of 2024, represented a strategic shift that had a major effect on the Company's operations and financial results. As such, the results of the Company's EGP business are presented as discontinued operations in the Condensed Consolidated Statements of Operations for all periods presented. Prior periods have been adjusted to conform to the current presentation. The assets of the Company's EGP business have been reflected as assets and liabilities of discontinued operations in the Condensed Consolidated Balance Sheet for the year ended December 31, 2023. Restricted Cash As of June 30, 2024 and December 31, 2023, the Company's balance sheet includes \$0.8 million in restricted cash, which was deposited into a separate account as collateral for the Company's letters of credit. The Company's cash and cash equivalents and restricted cash, as presented in the Condensed Consolidated Statements of Cash Flows, was as follows (in thousands):

As of June 30, 2024	\$ 85,136	As of June 30, 2023	\$ 99,580
Restricted cash	\$ 779	Restricted cash	\$ 761
Total	\$ 85,915	Total	\$ 100,341

Related Party Substantially all of the Company's television stations are Univision- or UniMás-affiliated television stations. The network affiliation agreement with TelevisaUnivision provides certain of the Company's owned stations the exclusive right to broadcast TelevisaUnivision's primary Univision network and UniMás's network programming in their respective markets. Under the network affiliation agreement, the Company retains the right to sell no less than four minutes per hour of the available advertising time on stations that broadcast Univision network programming, and the right to sell approximately four and a half minutes per hour of the available advertising time on stations that broadcast UniMás's network programming, subject to adjustment from time to time by TelevisaUnivision. Under the network affiliation agreement, TelevisaUnivision acts as the Company's exclusive third-party sales representative for the sale of certain national advertising on the Univision- and UniMás-affiliate television stations, and the Company pays certain sales representation fees to TelevisaUnivision relating to sales of all advertising for broadcast on its Univision- and UniMás-affiliate television stations. During each of the three-month periods ended June 30, 2024 and 2023, the amount the Company paid TelevisaUnivision in this capacity was \$1.5 million. During the six-month periods ended June 30, 2024 and 2023, the amount the Company paid TelevisaUnivision in this capacity was \$2.9 million and \$3.0 million, respectively. These amounts were included in Direct Operating Expenses in the Company's Condensed Consolidated Statements of Operations. The Company also generates revenue under two marketing and sales agreements with TelevisaUnivision, which give it the right to manage the marketing and sales operations of TelevisaUnivision-owned Univision affiliates in three markets: Albuquerque, Boston and Denver. On October 2, 2017, the Company entered into the current affiliation agreement which superseded and replaced its prior affiliation agreements with TelevisaUnivision. Additionally, on the same date, the Company entered into a proxy agreement and marketing and sales agreement with TelevisaUnivision, each of which superseded and replaced the prior comparable agreements with TelevisaUnivision. The term of each of these current agreements expires on December 31, 2026 for all of the Company's Univision and UniMás's network affiliate stations, except that each current agreement expired on December 31, 2021 with respect to the Company's Univision and UniMás's network affiliate stations in Orlando, Tampa and Washington, D.C. Under the Company's current proxy agreement with TelevisaUnivision, the Company grants TelevisaUnivision the right to negotiate the terms of retransmission consent agreements for its Univision- and UniMás-affiliated television station signals. Among other things, the proxy agreement provides terms relating to compensation to be paid to the Company by TelevisaUnivision with respect to retransmission consent agreements entered into with multichannel video programming distributors, (MVPDs). As of June 30, 2024, the amount due to the Company from TelevisaUnivision was \$8.1 million related to the agreements for the carriage of its Univision and UniMás-affiliated television station signals. During the three-month periods ended June 30, 2024 and 2023, retransmission consent revenue accounted for \$8.8 million and \$9.3 million, respectively, of which \$6.2 million and \$6.5 million, respectively, relate to the TelevisaUnivision proxy agreement. During the six-month periods ended June 30, 2024 and 2023, retransmission consent revenue accounted for \$18.0 million and \$18.9 million, respectively, of which \$12.6 million and \$13.1 million, respectively, relate to the TelevisaUnivision proxy agreement. TelevisaUnivision currently owns approximately 10% of the Company's common stock on a fully-converted basis. The Company's Class U common stock, all of which is held by TelevisaUnivision, has limited voting rights and does not include the right to elect directors. Each share of Class U common stock is automatically convertible into one share of the Company's Class A common stock (subject to adjustment for stock splits, dividends or combinations) in connection with any transfer of such shares of Class U common stock to a third party that is not an affiliate of TelevisaUnivision. In addition, as the holder of all of the Company's issued and outstanding Class U common stock, so long as TelevisaUnivision holds a certain number of shares of Class U common stock, the Company may not, without the consent of TelevisaUnivision, merge, consolidate or enter into a business combination, dissolve or liquidate the Company or dispose of any interest in any FCC license with respect to television stations which are affiliates of TelevisaUnivision, among other things. Stock-Based Compensation The Company measures all stock-based awards using a fair value method and recognizes the related stock-based compensation expense in the condensed consolidated financial statements over the requisite service period. As stock-based compensation expense recognized in the Company's condensed consolidated financial statements is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. Restricted Stock Units Stock-based compensation expense related to restricted stock units ("RSUs") is based on the fair value of the Company's stock price on the date of grant and is amortized over the vesting period, generally between 1 to 4 years. During the six-month period ended June 30, 2024, the Company had the following non-vested RSUs activity (in thousands, except grant date fair value data):

Number of RSUs	Weighted-Average Grant Date Fair Value	Nonvested balance at December 31, 2023	Granted	Vested	Forfeited or cancelled	Nonvested balance at June 30, 2024
6,358	\$ 5.74	2,928	4,011	896	6,231	1,242
5.48	5.01	5.01	5.01	5.01	5.01	5.01

Stock-based compensation expense related to RSUs was \$3.8 million and \$5.4 million for the three-month periods ended June 30, 2024 and 2023, respectively. Stock-based compensation expense related to RSUs was \$8.4 million and \$9.1 million for the six-month periods ended June 30, 2024 and 2023, respectively. As of June 30, 2024, there was \$15.2 million of total unrecognized compensation expense related to grants of RSUs that is expected to be recognized over a weighted-average period of 1.8 years. Performance Stock Units In connection with the hiring of the Company's CEO in July 2023, the Company has granted the CEO Performance Stock Units ("PSUs"), which are subject to both time-based vesting conditions and market-based conditions. Both the service and market conditions must be satisfied for the PSUs to vest. The PSUs consist of five equal tranches (each, a "Performance Tranche"), based on achievement of a share price condition if the Company achieves share price targets of \$5.75, \$7.25, \$9.00, \$11.20, and \$13.75, respectively, over 30 consecutive trading days during a performance period commencing on July 1, 2023 and ending on July 1, 2028. The fair value of each of the Performance Tranches was \$0.8 million, \$0.7 million, \$0.7 million, \$0.6 million, and \$0.5 million, respectively, and have a grant date fair value per share of restricted stock of \$3.98, \$3.64, \$3.31, \$2.93, and \$2.58, respectively. To the extent that any of the performance-based requirements are met, the Company's CEO must also provide continued service to the Company through at least July 1, 2024 to receive any shares of common stock underlying the PSUs and through July 1, 2028 to receive all of the shares of common stock underlying the PSUs that have satisfied the applicable market-based requirement. The maximum number of shares that can be earned under this PSU grant is 1,000,000 shares, with 20% of the total award allocated to each Performance Tranche. Between 0% and 100% of each Performance Tranche of the PSUs will vest on each of the tranche dates. Additionally, in connection with the annual grant in January 2024, the Company has granted PSUs to certain employees, which are subject to both time-based vesting conditions and market-based conditions. Both the service and market conditions must be satisfied for the PSUs to vest. The PSUs consist of four equal tranches (each, a "Performance Tranche"), based on achievement of a share price condition if the Company achieves share price targets of \$4.83, \$5.65, \$7.15, and \$8.90, respectively, over 30 consecutive trading days during a performance period commencing on January 25, 2024 and ending on January 25, 2029. The fair value of each of the Performance Tranches was \$0.6 million, \$0.6 million, \$0.5 million, and \$0.5 million, respectively, and have a grant date fair value per share of restricted stock of \$4.16, \$3.98, \$3.66, and \$3.32, respectively. To the extent that any of the performance-based requirements are met, the grantees must also provide continued service to the Company through at least January 25, 2025 to receive any shares of common stock underlying the PSUs and through January 25, 2029 to receive all of the shares of common stock underlying the PSUs that have satisfied the applicable market-based requirement. The maximum number of shares that could be earned under this PSU grant was 600,000 shares, with 25% of the total award allocated to each Performance Tranche. Between 0% and 100% of each Performance Tranche of the PSUs will vest on each of the tranche dates. During the second quarter of 2024, 300,000 of these PSUs were cancelled. The Company recognizes compensation expense related to the PSUs using the accelerated attribution method over the requisite service period. Stock-based compensation expense for PSUs is based on a performance measurement of 100%. The compensation expense will not be reversed even if the performance metrics are not met. Stock-based compensation expense related to PSUs was \$0.4 million and \$0.9 million for the three and six-month periods ended June 30, 2024, respectively. There was no stock-based compensation expense related to PSUs for the three and six-month periods ended June 30, 2023. As of June 30, 2024, there was \$2.7 million of total unrecognized compensation expense related to grants of PSUs that is expected to be recognized over a weighted-average period of 2.4 years. The grant date fair value for each PSU was estimated using a Monte-Carlo simulation model that incorporates option-pricing inputs covering the period from the grant date through the end of the performance period. The unobservable significant inputs to the valuation model at the time of award issuance were as follows:

2024 PSUs	2023 PSUs	Stock price at issuance	\$ 4.38	\$ 4.39	Expected volatility	57.0%	58.0%	Risk-free interest rate	4.01%	4.13%	Expected term	5.0	5.0	Expected dividend yield	0%	0%

similar operating and investment characteristics to the Company's reporting units. The market approach requires the Company to make a series of assumptions, such as selecting comparable companies and comparable transactions and transaction premiums. The income approach estimates fair value based on the estimated future cash flows of each reporting unit, discounted by an estimated weighted-average cost of capital that reflects current market conditions, which reflect the overall level of inherent risk of the reporting unit. The income approach also requires the Company to make a series of assumptions, such as discount rates, revenue projections, profit margin projections and terminal value multiples. The Company estimated the discount rate on a blended rate of return considering both debt and equity for comparable publicly-traded companies in the digital media industries. These comparable publicly-traded companies have similar size, operating characteristics and/or financial profiles to the Company's reporting units. The Company also estimated the terminal value multiple based on comparable publicly-traded companies in the digital media industries. The Company estimated its revenue projections and profit margin projections based on internal forecasts about future performance. Based on the assumptions and estimates described above, the Company concluded that the digital reporting unit carrying value exceeded its fair value, resulting in a goodwill impairment charge of \$35.4 million for the three-month period ended March 31, 2024. The impairments of the intangibles subject to amortization and goodwill were allocated to the Company's EGP business which is accounted for as discontinued operations. See Note 8 for additional details. Treasury Stock On March 1, 2022, the Company's Board of Directors approved a share repurchase program of up to \$20 million of the Company's Class A common stock. Under this share repurchase program, the Company is authorized to purchase shares of its Class A common stock from time to time through open market purchases or negotiated purchases, subject to market conditions and other factors. During the three- and six-month periods ended June 30, 2024 and 2023, the Company did not repurchase any shares of its Class A common stock. As of June 30, 2024, the Company has repurchased a total of 1.8 million shares of its Class A common stock under the new share repurchase program for an aggregate purchase price of \$11.3 million, or an average price per share of \$6.43. Credit Facility On November 30, 2017, the Company entered into the 2017 Credit Facility pursuant to the 2017 Credit Agreement. The 2017 Credit Facility consisted of a \$300.0 million senior secured Term Loan B Facility (the "Term Loan B Facility"), which was drawn in full. The Company's borrowings under the 2017 Credit Facility bore interest on the outstanding principal amount thereof from the date when made at a rate per annum equal to either: (i) the Eurodollar Rate (as defined in the 2017 Credit Agreement) plus 2.75%; or (ii) the Base Rate (as defined in the 2017 Credit Agreement) plus 1.75%. As of March 16, 2023, the interest rate on the Company's Term Loan B was 7.38%. The Term Loan B Facility had an expiration date on November 30, 2024. On March 17, 2023 (the "2023 Closing Date"), the Company entered into the 2023 Credit Facility, pursuant to the 2023 Credit Agreement, by and among the Company, Bank of America, N.A., as Administrative Agent, and the other financial institutions party thereto as Lenders (collectively, the "Lenders" and individually each a "Lender"). The 2023 Credit Agreement amended, restated and replaced in its entirety the 2017 Credit Agreement. On the 2023 Closing Date, the Company repaid in full all of the outstanding obligations under the 2017 Credit Agreement and accounted for this repayment as an extinguishment of debt in accordance with Accounting Standards Codification ("ASC") 470, "Debt". The repayment resulted in a loss on debt extinguishment of \$1.6 million, which included a write-off of unamortized debt issuance costs in the amount of \$1.1 million. As provided for in the 2023 Credit Agreement, the 2023 Credit Facility consists of (i) a \$200.0 million senior secured Term A Facility (the "Term A Facility"), which was drawn in full on the 2023 Closing Date, and (ii) a \$75.0 million Revolving Credit Facility (the "Revolving Credit Facility"), of which \$11.5 million was drawn on the 2023 Closing Date. In addition, the 2023 Credit Agreement provides that the Company may increase the aggregate principal amount of the 2023 Credit Facility by an additional amount equal to \$100.0 million plus the amount that would result in the Company's first lien net leverage ratio (as such term is used in the 2023 Credit Agreement) not exceeding 2.25 to 1.0, subject to the Company satisfying certain conditions. Borrowings under the 2023 Credit Facility were used on the 2023 Closing Date (a) to repay in full all of the outstanding obligations of the Company and its subsidiaries under the 2017 Credit Facility, (b) to pay fees and expenses in connection the 2023 Credit Facility and (c) for general corporate purposes. The 2023 Credit Facility matures on March 17, 2028 (the "Maturity Date"). The 2023 Credit Facility is guaranteed on a senior secured basis by certain of the Company's existing and future wholly-owned domestic subsidiaries, and secured on a first priority basis by the Company's and those subsidiaries' assets. The Company's borrowings under the 2023 Credit Facility bear interest on the outstanding principal amount thereof from the date when made at a rate per annum equal to either: (i) the Term SOFR (as defined in the 2023 Credit Agreement) plus a margin between 2.50% and 3.00%, depending on the Total Net Leverage Ratio or (ii) the Base Rate (as defined in the 2023 Credit Agreement) plus a margin between 1.50% and 2.00%, depending on the Total Net Leverage Ratio. In addition, the unused portion of the Revolving Credit Facility is subject to a rate per annum between 0.30% and 0.40%, depending on the Total Net Leverage Ratio. As of June 30, 2024, the interest rate on the Company's Term A Facility and the drawn portion of the Revolving Credit Facility was 8.25%. The amounts outstanding under the 2023 Credit Facility may be prepaid at the option of the Company without premium or penalty, provided that certain limitations are observed, and subject to customary breakage fees in connection with the prepayment of a Term SOFR loan. The principal amount of the Term A Facility shall be paid in installments on the dates and in the respective amounts set forth in the 2023 Credit Agreement, with the final balance due on the Maturity Date. In March 2024, the Company made a prepayment of \$10.0 million, of which \$8.75 million was applied to the upcoming quarterly principal payments in 2024 under the Term A Facility, and \$1.25 million was applied to the Revolving Credit Facility. In June 2024, the Company made an additional prepayment of \$10.0 million, of which \$4.9 million was a mandatory prepayment as a result of the EGP disposition. The prepayment was applied to the quarterly principal payments in 2025 under the Term A Facility. The Company recorded a loss on debt extinguishment of \$0.1 million for the three- and six-month periods ended June 30, 2024 due to these prepayments of our 2023 Credit Facility. The Company incurred debt issuance costs of \$1.8 million associated with the 2023 Credit Facility. Debt outstanding under the 2023 Credit Facility is presented net of issuance costs on the Company's Consolidated Balance Sheets. The debt issuance costs are amortized on an effective interest basis over the term of the 2023 Credit Facility, and are included in interest expense in the Company's Condensed Consolidated Statements of Operations. The covenants of the Credit Agreement include customary negative covenants that, among other things, restrict the Company's ability to incur additional indebtedness, grant liens and make certain acquisitions, investments, asset dispositions and restricted payments. In addition, the 2023 Credit Facility requires compliance with financial covenants related to total net leverage ratio, not to exceed 3.25 to 1.00, and interest coverage ratio with a minimum permitted ratio of 3.00 to 1.00 (calculated as set forth in the 2023 Credit Agreement). As of June 30, 2024, the Company believes that it is in compliance with all covenants in the 2023 Credit Agreement. The 2023 Credit Agreement includes customary events of default, as well as the following events of default, that are specific to the Company: any revocation, termination, substantial and adverse modification, or refusal by final order to renew, any media license, or the requirement (by final non-appealable order) to sell a television or radio station, where any such event or failure is reasonably expected to have a material adverse effect; the interruption of operations of any television or radio station for more than 96 consecutive hours during any period of seven consecutive days; The 2023 Credit Agreement includes customary rights and remedies upon the occurrence of any event of default thereunder, including rights to accelerate the loans, terminate the commitments thereunder and realize upon the collateral securing the obligations under the 2023 Credit Agreement. The security agreement that the Company entered into with respect to its 2017 Credit Facility remains in effect with respect to its 2023 Credit Facility. The carrying amount of the Term Loan A Facility as of June 30, 2024 approximated its fair value and was \$176.6 million, net of \$0.9 million of unamortized debt issuance costs and original issue discount. Concentrations of Credit Risk and Trade Receivables The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents and trade accounts receivable. From time to time, the Company has had, and may have, bank deposits in excess of Federal Deposit Insurance Corporation insurance limits. As of June 30, 2024, the majority of all U.S. deposits are maintained in two financial institutions. The Company has not experienced any losses in such accounts and believes that it is not exposed to significant credit risk on cash and cash equivalents. In addition, to the Company's knowledge, all or substantially all of the bank deposits held in banks outside the United States are not insured. The Company's credit risk is spread across a large number of customers in the United States, Europe and various other countries, therefore spreading the trade receivable credit risk. The Company routinely assesses the financial strength of its customers and, as a consequence, believes that it is managing its trade receivable credit risk effectively. Trade receivables are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. An allowance for doubtful accounts is provided for known and anticipated credit losses, as determined by management in the course of regularly evaluating individual customer receivables. This evaluation takes into consideration a customer's financial condition and credit history, as well as current economic conditions. Trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received. No interest is charged on customer accounts. No single advertiser represents more than 5% of the Company's total trade receivables as of June 30, 2024 and December 31, 2023, respectively. No single advertiser represented more than 5% of the Company's total revenue for the three- and six-month periods ended June 30, 2024 and 2023. Allowance for Doubtful Accounts The Company's accounts receivable consist of a homogeneous pool of relatively small dollar amounts from a large number of customers. The Company evaluates the collectability of its trade accounts receivable based on a number of factors. When the Company is aware of a specific customer's inability to meet its financial obligations to us, a specific reserve for bad debts is estimated and recorded which reduces the recognized receivable to the estimated amount the Company believes will ultimately be collected. In addition to specific customer identification of potential bad debts, bad debt charges are recorded based on our recent past loss history and an overall assessment of past due trade accounts receivable amounts outstanding. Estimated losses for bad debts are provided for in the condensed consolidated financial statements through a charge to expense that aggregated \$0.4 million and a de minimis amount for the three-month periods ended June 30, 2024 and 2023, respectively, and \$0.6 million and \$0.2 million for the six-month periods ended June 30, 2024 and 2023, respectively. The net charge off of bad debts aggregated \$0.1 million and \$0.3 million for the three-month periods ended June 30, 2024 and 2023, respectively, and \$0.2 million and \$0.5 million for the six-month periods ended June 30, 2024 and 2023, respectively. Fair Value Measurements The Company measures certain financial assets and liabilities at fair value on a recurring basis. Fair value is the price the Company would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. ASC 820, "Fair Value Measurements and Disclosures," defines and establishes a framework for measuring fair value and expands disclosures about fair value measurements. In accordance with ASC 820, the Company has categorized its financial assets and liabilities, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy as set forth below. Level 1 "Assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the company has the ability to access at the measurement date." Level 2 "Assets and liabilities whose values are based on quoted prices for similar attributes in active markets; quoted prices in markets where trading occurs infrequently; and inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term of the asset or liability." Level 3 "Assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. The following table presents the Company's financial assets and liabilities measured at fair value on a recurring and nonrecurring basis in the condensed consolidated balance sheets (in millions):

	June 30, 2024 Total Fair Value and Carrying Value on Balance Sheet	Fair Value Measurement Category	Level 1	Level 2	Level 3	Total

The Company's money market account is comprised of cash and cash equivalents, which are recorded at their fair market value within Cash and cash equivalents in the Condensed Consolidated Balance Sheets. The Company's available for sale debt securities are comprised of corporate bonds and notes, asset-backed securities, and U.S. Government securities. The majority of the carrying value of these securities held by the Company are investment grade. These securities are valued using quoted prices for similar attributes in active markets (Level 2). Since these investments are classified as available for sale, they are recorded at their fair market value within Marketable securities in the Condensed Consolidated Balance Sheets and their unrealized gains or losses are included in other comprehensive income. Realized gains and losses from the sale of available for sale securities are included in the Condensed Consolidated Statements of Operations and were determined on a specific identification basis. As of June 30, 2024, the following table summarizes the amortized cost and the unrealized gains (losses) of the available for sale securities (in thousands):

	Amortized Cost	Unrealized gains (losses)
Due within a year	\$ 2,443	\$ 743
Due after one year	\$ 3,186	\$ 1,111

The Company's available for sale debt securities are considered for credit losses under the guidance of Accounting Standards Update ("ASU") 2016-13, Financial Instruments—"Credit Losses" (Topic 326). As of June 30, 2024 and December 31, 2023, the Company determined that a credit loss allowance is not required. Included in interest income for the three-month periods ended June 30, 2024 and 2023 was interest income related to the Company's available for sale securities of \$0.1 million and \$0.3 million, respectively. Included in interest income for the six-month periods ended June 30, 2024 and 2023 was interest income related to the Company's available for sale securities of \$0.2 million and \$0.8 million, respectively. The fair value of the contingent consideration is related to the acquisition of 100% of the issued and outstanding shares of stock of a global mobile app marketing solutions company that, together with its subsidiaries, does business under the name BCN Monetize ("BCN Monetize"). As of December 31, 2023, the contingent liability fair value was included in the Condensed Consolidated Balance Sheets in the amount of \$1.2 million as a current liability within Accounts payable and accrued expenses, and \$0.7 million as a noncurrent liability within Other long-term liabilities. The fair value of the contingent consideration was estimated by applying the real options approach. Key assumptions include risk-neutral expected growth rates based on management's assessments of expected growth in EBITDA, adjusted by appropriate factors capturing their correlation with the market and volatility, discounted at a cost of debt. These are significant inputs that are not observable in the market, which ASC 820-10-35 refers to as Level 3 inputs. Accumulated Other Comprehensive Income (Loss) Accumulated other comprehensive income (loss) includes foreign currency translation adjustments and changes in the fair value of available for sale securities. The following table provides a roll-forward of accumulated other comprehensive income (loss) (in thousands):

	Foreign Currency Translation	Marketable Securities	Total
Accumulated other comprehensive income (loss) as of December 31, 2023	\$ (1,257)	\$ 342	\$ (915)

Foreign Currency The Company's reporting currency is the U.S. dollar. All transactions initiated in foreign currencies are translated into U.S. dollars in accordance with ASC 830, "Foreign Currency Matters" and the related rate fluctuation on transactions is included in the Condensed Consolidated Statements of Operations. For foreign operations with the local currency as the functional currency, assets and liabilities are translated from the respective local currencies into U.S. dollars at the exchange rate prevailing at the balance sheet date, and equity and long-term assets are translated at historical rates. Revenues and expenses are translated at the average exchange rate for the period. Translation adjustments resulting from the process of translating the local currency financial statements into U.S. dollars are included in determining comprehensive (income) loss. Cost of Revenue Cost of revenue related to the Company's digital segment consists primarily of the costs of online media acquired from third-party media companies. Recent Accounting Pronouncements There were no new accounting pronouncements that were issued or became effective since the issuance of the 2023 10-K that had, or are expected to have, a material impact on the Company's condensed consolidated financial statements. Newly Adopted Accounting Standards There were no new accounting standards that were adopted since the issuance of the 2023 10-K. REVENUES Revenue RecognitionRevenues are recognized when control of the promised services is transferred to the Company's customers, in an amount equal to the consideration the Company expects to be entitled to in exchange for those services.Digital Advertising. Revenue related to the Company's digital segment is recognized when display or other digital advertisements record impressions on the websites and mobile and Internet-connected television apps of media companies on whose digital platforms the advertisements are placed or as the advertiser's previously agreed-upon performance criteria are satisfied. The Company has concluded that it is the principal in the transaction and therefore recognizes revenue on a gross basis, because (i) the Company is responsible for fulfillment of the contract, including customer support, resolving customer complaints, and accepting responsibility for the quality or suitability of the product or service; (ii) the Company has pricing discretion over the transaction; and (iii) the Company carries inventory risk for all inventory purchased regardless of whether the Company is able to collect on a transaction. Broadcast Advertising. Revenue related to the sale of advertising in the television and audio segments is recognized at the time of broadcast. Revenue for contracts with advertising agencies is recorded at an amount that is net of the commission retained by the agency. Revenue from contracts directly with the advertisers is recorded as gross revenue and the related commission or national representation fee is recorded in operating expense.Retransmission Consent. The Company generates revenue from retransmission consent agreements that are entered into with multichannel video programming distributors ("MVPDs"). The Company grants the MVPDs access to its television station signals so that they may rebroadcast the signals and charge their subscribers for this programming. Revenue is recognized as the television signal is delivered to the MVPD.Spectrum Usage Rights. The Company generates revenue from agreements associated with its television stations' spectrum usage rights. Revenue is recognized in accordance with the contractual fees over the term of the agreement or when the Company has relinquished all or a portion of its spectrum usage rights for a station or have relinquished its rights to operate a station on the existing channel free from interference.The Company does not disclose the value of unsatisfied performance obligations when (i) contracts have an original expected length of one year or less, which applies to essentially all of the Company's advertising contracts, and (ii) variable consideration is a sales-based or usage-based royalty promised in exchange for a license of intellectual property, which applies to retransmission consent revenue.The Company expenses contract acquisition costs, such as sales commissions generated either by internal direct sales employees or through third party advertising agency intermediaries, when incurred because the amortization period is one year or less. These costs are recorded within direct operating expenses.The Company records deferred revenues within Accounts payable and accrued expenses in the Consolidated Balance Sheets, when cash payments are received or due in advance of its performance, including amounts which are refundable. The change in the deferred revenue balance is primarily driven by cash payments received or due in advance of satisfying the Company's performance obligations, offset by revenues recognized that were included in the deferred revenue balance in the prior period.The Company's payment terms vary by the type and location of customer and the products or services offered. The term between invoicing and when payment is due is typically 30 days. For certain individual customers and customer types, the Company generally requires payment before the services are delivered to the customer.Disaggregated RevenueThe following table presents our revenues disaggregated by major source (in thousands): A Three-Month Period A Six-Month Period A Ended June 30, A A Ended June 30, A A A 2023 A 2024 A 2023 A Digital advertising A \$ 41,068 A A \$ 30,234 A A \$ 79,290 A A \$ 55,357 A Broadcast advertising A A 29,857 A A \$ 30,983 A A \$ 57,694 A A 60,610 A Spectrum usage rights A A 1,625 A A 2,078 A A A 3,385 A A 4,224 A Retransmission consent A A 8,825 A A 9,324 A A A 17,980 A A 18,947 A Other A A 1,279 A A 1,100 A A 2,481 A A 2,228 A Total revenue A \$ 82,654 A A \$ 73,719 A A \$ 160,830 A A \$ 141,366 A Contracts are entered into directly with customers or through an advertising agency that represents the customer. The acquisition, funded from the Company's cash on hand, included an initial purchase price of \$6.0 million in cash, which amount was adjusted at closing to \$7.2 million due to customary purchase price adjustments for cash, indebtedness and estimated working capital. Additionally, the transaction includes contingent earn-out payments based upon the achievement of certain EBITDA targets in calendar years 2023 through 2026, calculated as a predetermined multiple of EBITDA for each of those years. The total purchase price for the acquisition, including the fair value of the contingent consideration, was \$8.8 million. The following is a summary of the final purchase price allocation (in millions): A Cash \$ 0.8 Accounts receivable A 2.8 A Other assets A 0.7 Intangible assets subject to amortization A 4.2 A Goodwill 3.5 Current liabilities (2.1) Deferred tax A (1.1) Intangible assets subject to amortization acquired includes: A Intangible Asset Estimated Fair Value (in millions) Weighted average life (in years) Publisher relationships \$ 2.2 3.0 Advertiser relationships 1.5 1.0 Trade name 0.3 1.0 Non-Compete agreements 0.2 1.5 The fair value of the assets acquired includes trade receivables of \$2.8 million. The gross amount due under contract was \$2.9 million, of which \$0.1 million was expected to be uncollectable. The goodwill, which is not expected to be deductible for tax purposes, is assigned to the Company's digital segment and is attributable to BCNMonetize's workforce and expected synergies from combining BCNMonetize's operations with the Company's operations. As noted above, the acquisition of BCNMonetize includes a contingent consideration arrangement that requires additional consideration to be paid by the Company to the selling stockholders of BCNMonetize, based on a predetermined multiple of BCNMonetize's 12-month EBITDA in calendar years 2023 through 2026. The fair value of the contingent consideration recognized on the acquisition date of \$1.6 million was estimated by applying the real options approach. Key assumptions include risk-neutral expected growth rates based on management's assessments of expected growth in EBITDA, adjusted by appropriate factors capturing their correlation with the market and volatility, discounted at a cost of debt rate ranging from 8.2% to 8.4% over the three-year period. These are significant inputs that are not observable in the market, which ASC 820-10-35 refers to as Level 3 inputs. The following unaudited pro forma information has been prepared to give effect to the Company's acquisition of BCNMonetize as if the acquisition had occurred on January 1, 2023. This pro forma information was adjusted to exclude acquisition fees and costs of \$0.2 million for the six-month period ended June 30, 2023, which were expensed in connection with the acquisition. This pro forma information does not purport to represent what the actual results of operations of the Company would have been had this acquisition occurred on such date, nor does it purport to predict the results of operations for any future periods. DISCONTINUED OPERATIONSAs discussed in Note 2, as a result of the communication from Meta on March 4, 2024, that it intended to wind down its ASP program globally and end its relationship with all of its ASPs, including the Company, by July 1, 2024, the Company conducted a thorough review of its digital strategy, operations and cost structure, and during the second quarter of 2024 made the decision to dispose of the operations of its EGP business, the Company's digital commercial partnerships business, which took place in the following three transactions: Sale to IMSDuring the second quarter of 2024, the Company entered into a definitive agreement to sell substantially all of its EGP business to IMS. The transaction was completed on June 28, 2024. Cash proceeds from the transaction received at the closing were \$16.4 million. Immediately after the closing, an amount equal to \$6.5 million of the proceeds was paid by the Company to the founders of MediaDonuts, to satisfy a remaining contingent consideration liability owed to them. The Company recorded a loss of \$40.7 million as a result of this transaction. Sale of AdsmuraiOn August 5, 2022, the Company made a loan (the "Adsmurai Loan") in the principal amount of \$12,535,000 (\$12.8 million as of that date) to an entity affiliated with owners of a majority interest in Adsmurai, S.L. (the "Adsmurai"), a company engaged in the sale and marketing of digital advertising. On April 3, 2023, the Company entered into an agreement among the Company and the selling stockholders of Adsmurai, pursuant to which the Company acquired a 51% equity interest in Adsmurai (the "Adsmurai Acquisition") on the same date. The Company acquired 51% of the issued and outstanding shares of stock of Adsmurai by means of conversion of the Adsmurai Loan, for total purchase consideration of \$13.0 million (\$14.2 million as of April 3, 2023), including interest. In connection with the Adsmurai Acquisition, on April 3, 2023 the Company made a loan to entities affiliated with owners of the remaining 49% interest in Adsmurai in the principal amount of \$7,355,000 (\$8.1 million as of April 3, 2023) and a second loan on July 11, 2023 in the principal amount of \$4,993,344 (\$5.6 million as of July 11, 2023) based on Adsmurai's EBITDA for calendar year 2022 (the "New Adsmurai Loans"). On May 6, 2024 (the "Effective Date"), the Company entered into a Share Purchase Agreement (the "Adsmurai Purchase Agreement"), among Adsmurai, the Company and the other stockholders of Adsmurai (the "Adsmurai Buyers"). Pursuant to the Adsmurai Purchase Agreement, on such date (i) the Company sold its 51% equity interest in Adsmurai to the Adsmurai Buyers, (ii) the Company terminated the New Adsmurai Loans it made previously to the Adsmurai Buyers in the principal amount of \$12.3 million and (iii) the parties terminated other previous agreements made between them, including an options agreement which contained put redemption features for buyers and call redemption features for the Company. As consideration, the Company received \$15.0 million (approximately \$16.2 million as of the Effective Date) ("Total Consideration"). The Adsmurai Purchase Agreement also contains representations, warranties, covenants, indemnities and releases of the parties thereto. The Total Consideration is payable to the Company as follows: \$10.0 million paid on the Effective Date; and \$5.0 million to be paid within six months of the Effective Date. A The Company recorded a loss of \$2.6 million as a result of this transaction. A Sale of Jack of DigitalOn August 3, 2022, the Company acquired 15% of the issued and outstanding stock of Jack of Digital, a digital marketing services company that serves as the exclusive advertising sales partner of ByteDance Ltd. in Pakistan, for \$0.1 million. On April 3, 2023, the Company acquired the remaining issued and outstanding stock of Jack of Digital for \$1.1 million. Of that amount, the Company paid an initial installment payment of \$0.5 million in 2023, an additional installment payment of \$0.3 million during the three-month period ended March 31, 2024, and the balance was to be paid in January 2025. Additionally, the transaction included a contingent earn-out payment based upon the achievement of an EBITDA target in calendar year 2026. The total purchase price for the acquisition, including the fair value of the contingent consideration, was \$1.4 million. On June 28, 2024, the Company sold 100% of the issued and outstanding shares of stock of Jack of Digital back to its founder for cash consideration of \$0.1 million. The Company recorded a loss of \$1.7 million as a result of this transaction. The Company concluded that the assets of the EGP business met the criteria for classification as held for sale. Additionally, the Company determined that the disposal, which was initiated and completed during the second quarter of 2024, represented a strategic shift that had a major effect on the Company's operations and financial results. As such, the results of the Company's EGP business are presented as discontinued operations in the Condensed Consolidated Statements of Operations for all periods presented. Prior periods have been adjusted to conform to the current presentation. The assets of the Company's EGP business have been reflected as assets and liabilities of discontinued operations in the Condensed Consolidated Balance Sheet as of December 31, 2023. The Company and IMS entered into a transition services agreement, pursuant to which the Company and IMS provide certain services to each other through October 2024. For the three- and six-months periods ended June 30, 2024, the Company did not collect or pay any cash related to these activities, and does not expect to collect or pay any cash related to these activities during the term of this agreement. For the three- and six-months periods ended June 30, 2024, there was a tax expense and tax benefit, respectively, in discontinued operations as a result of the (i) tax effect of a pre-tax loss, (ii) benefit related to disposal, and (iii) permanent items and state taxes related to the Disposition. For the three- and six-months periods ended June 30, 2023, there was a tax expense in discontinued operations as a result of the (i) tax effect of a pre-tax loss, (ii) benefit related to disposal, and (iii) permanent items and state taxes related to

the Disposition.As a result of the EGP disposition, the Company was required to repay \$4.9 million of the outstanding principal under the 2023 Credit Facility, which represented approximately 2.5% of the total outstanding principal under the 2023 Credit Facility. The prepayment resulted in a de minimis amount of loss on debt extinguishment that was attributed to the discontinued operation. For the fiscal year ended December 31, 2023 ASP revenue from Meta represented approximately 53% of the Company's consolidated revenue, and 63% of the Company's digital segment revenue. As a result of this communication from Meta, the Company conducted a thorough review of its digital strategy, operations and cost structure, and during the second quarter of 2024 made the decision to dispose of the operations of EGP. Following this decision, during the second quarter of 2024, the Company entered into a definitive agreement to sell substantially all of its EGP business to IMS Internet Media Services, Inc. ("IMS"). The transaction was completed on June 28, 2024. The remaining EGP businesses, Jack of Digital and Adsmurai, S.L. ("Adsmurai"), were each sold back to their respective founders in separate transactions during the second quarter of 2024. See Note 8 for additional details. A business or asset is classified as held for sale when management having the authority to approve the action commits to a plan to sell the business, the sale is probable to occur during the next 12 months at a price that is reasonable in relation to its current fair value, and when certain other criteria are met. A business or asset classified as held for sale is recorded at the lower of (i) its carrying amount and (ii) estimated fair value less costs to sell. When the carrying amount of the business exceeds its estimated fair value less costs to sell, a loss is recognized and updated each reporting period as appropriate. Depreciation is not recorded on assets classified as held for sale.The results of operations of a business classified as held for sale are reported as discontinued operations if the disposal represents a strategic shift that will have a major effect on the entityâ€™s operations and financial results. When a business is identified for discontinued operations reporting: (i) results for prior periods are retrospectively reclassified as discontinued operations; (ii) results of operations are reported in a single line, net of tax, in the consolidated statement of operations; and (iii) assets and liabilities are reported as held for sale in the consolidated balance sheets in the period in which the business is classified as held for sale.The Company concluded that the assets of its EGP business met the criteria for classification as held for sale. Additionally, the Company determined that the disposal, which was initiated and completed during the second quarter of 2024, represented a strategic shift that had a major effect on the Company's operations and financial results. As such, the results of the Company's EGP business are presented as discontinued operations in the Condensed Consolidated Statements of Operations for all periods presented. Prior periods have been adjusted to conform to the current presentation. The assets of the Company's EGP business have been reflected as assets and liabilities of discontinued operations in the Condensed Consolidated Balance Sheet for the year ended December 31, 2023. Restricted Cash Restricted Cash As of June 30, 2024 and December 31, 2023, the Companyâ€™s balance sheet includes \$0.8 million in restricted cash, which was deposited into a separate account as collateral for the Companyâ€™s letters of credit. The Company's cash and cash equivalents and restricted cash, as presented in the Condensed Consolidated Statements of Cash Flows, was as follows (in thousands): Â As of June 30, Â Â 2024 Â 2023 Â Cash and cash equivalents \$ 85,136 Â Â \$ 99,580 Â Restricted cash \$ 779 Â Â \$ 761 Â Total as presented in the Condensed Consolidated Statements of Cash Flows \$ 85,915 Â Â \$ 100,341 Â Related Party Related Party Substantially all of the Companyâ€™s television stations are Univision- or UniMÃ¡s-affiliated television stations. The network affiliation agreement with TelevisaUnivision provides certain of the Companyâ€™s owned stations the exclusive right to broadcast TelevisaUnivisionâ€™s primary Univision network and UniMÃ¡s network programming in their respective markets. Under the network affiliation agreement, the Company retains the right to sell no less than four minutes per hour of the available advertising time on stations that broadcast Univision network programming, and the right to sell approximately four and a half minutes per hour of the available advertising time on stations that broadcast UniMÃ¡s network programming, subject to adjustment from time to time by TelevisaUnivision. Under the network affiliation agreement, TelevisaUnivision acts as the Companyâ€™s exclusive third-party sales representative for the sale of certain national advertising on the Univision- and UniMÃ¡s-affiliate television stations, and the Company pays certain sales representation fees to TelevisaUnivision relating to sales of all advertising for broadcast on its Univision- and UniMÃ¡s-affiliate television stations. During each of the three-month periods ended June 30, 2024 and 2023, the amount the Company paid TelevisaUnivision in this capacity was \$1.5 million. During the six-month periods ended June 30, 2024 and 2023, the amount the Company paid TelevisaUnivision in this capacity was \$2.9 million and \$3.0 million, respectively. These amounts were included in Direct Operating Expenses in the Company's Condensed Consolidated Statements of Operations. The Company also generates revenue under two marketing and sales agreements with TelevisaUnivision, which give it the right to manage the marketing and sales operations of TelevisaUnivision-owned Univision affiliates in three markets â€“ Albuquerque, Boston and Denver. On October 2, 2017, the Company entered into the current affiliation agreement which superseded and replaced its prior affiliation agreements with TelevisaUnivision. Additionally, on the same date, the Company entered into a proxy agreement and marketing and sales agreement with TelevisaUnivision, each of which superseded and replaced the prior comparable agreements with TelevisaUnivision. The term of each of these current agreements expires on December 31, 2026 for all of the Companyâ€™s Univision and UniMÃ¡s network affiliate stations, except that each current agreement expired on December 31, 2021 with respect to the Companyâ€™s Univision and UniMÃ¡s network affiliate stations in Orlando, Tampa and Washington, D.C.Under the Companyâ€™s current proxy agreement with TelevisaUnivision, the Company grants TelevisaUnivision the right to negotiate the terms of retransmission consent agreements for its Univision- and UniMÃ¡s-affiliated television station signals. Among other things, the proxy agreement provides terms relating to compensation to be paid to the Company by TelevisaUnivision with respect to retransmission consent agreements entered into with multichannel video programming distributors, (â€œMVPDsâ€). As of June 30, 2024, the amount due to the Company from TelevisaUnivision was \$8.1 million related to the agreements for the carriage of its Univision and UniMÃ¡s-affiliated television station signals. During the three-month periods ended June 30, 2024 and 2023, retransmission consent revenue accounted for \$8.8 million and \$9.3 million, respectively, of which \$6.2 million and \$6.5 million, respectively, relate to the TelevisaUnivision proxy agreement. During the six-month periods ended June 30, 2024 and 2023, retransmission consent revenue accounted for \$18.0 million and \$18.9 million, respectively, of which \$12.6 million and \$13.1 million, respectively, relate to the TelevisaUnivision proxy agreement. TelevisaUnivision currently owns approximately 10% of the Companyâ€™s common stock on a fully-converted basis. The Companyâ€™s Class U common stock, all of which is held by TelevisaUnivision, has limited voting rights and does not include the right to elect directors. Each share of Class U common stock is automatically convertible into one share of the Companyâ€™s Class A common stock (subject to adjustment for stock splits, dividends or combinations) in connection with any transfer of such shares of Class U common stock to a third party that is not an affiliate of TelevisaUnivision. In addition, as the holder of all of the Companyâ€™s issued and outstanding Class U common stock, so long as TelevisaUnivision holds a certain number of shares of Class U common stock, the Company may not, without the consent of TelevisaUnivision, merge, consolidate or enter into a business combination, dissolve or liquidate the Company or dispose of any interest in any FCC license with respect to television stations which are affiliates of TelevisaUnivision, among other things. Stock-Based Compensation Stock-Based Compensation The Company measures all stock-based awards using a fair value method and recognizes the related stock-based compensation expense in the condensed consolidated financial statements over the requisite service period. As stock-based compensation expense recognized in the Companyâ€™s condensed consolidated financial statements is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. Restricted Stock UnitsStock-based compensation expense related to restricted stock units ("RSUs") is based on the fair value of the Companyâ€™s stock price on the date of grant and is amortized over the vesting period, generally between 1 to 4 years. During the six-month period ended June 30, 2024, the Company had the following non-vested RSUs activity (in thousands, except grant date fair value data):Â Â Â Number of RSUs Â Â Â Weighted-Average Grant Date Fair Value Â Nonvested balance at December 31, 2023 Â Â 6,358 Â Â \$ 5.74 Â Granted Â Â 2,928 Â Â \$ 4.01 Â Vested Â Â 8 (896) Â Â 6.23 Â Forfeited or cancelled Â Â (1,242) Â Â 5.48 Â Nonvested balance at June 30, 2024 Â Â 7,148 Â Â \$ 5.01 Â Stock-based compensation expense related to RSUs was \$3.8 million and \$5.4 million for the three-month periods ended June 30, 2024 and 2023, respectively. Stock-based compensation expense related to RSUs was \$8.4 million and \$9.1 million for the six-month periods ended June 30, 2024 and 2023, respectively. As of June 30, 2024, there was \$15.2 million of total unrecognized compensation expense related to grants of RSUs that is expected to be recognized over a weighted-average period of 1.8 years. Performance Stock Units In connection with the hiring of the Company's CEO in July 2023, the Company has granted the CEO Performance Stock Units ("PSUs"), which are subject to both time-based vesting conditions and market-based conditions. Both the service and market conditions must be satisfied for the PSUs to vest. The PSUs consist of five equal tranches (each, a "Performance Tranche"), based on achievement of a share price condition if the Company achieves share price targets of \$5.75, \$7.25, \$9.00, \$11.20, and \$13.75, respectively, over 30 consecutive trading days during a performance period commencing on July 1, 2023 and ending on July 1, 2028. The fair value of each of the Performance Tranches was \$0.8 million, \$0.7 million, \$0.7 million, \$0.6 million, and \$0.5 million, respectively, and have a grant date fair value per share of restricted stock of \$3.98, \$3.64, \$3.31, \$2.93, and \$2.58, respectively. To the extent that any of the performance-based requirements are met, the Company's CEO must also provide continued service to the Company through at least July 1, 2024 to receive any shares of common stock underlying the PSUs and through July 1, 2028 to receive all of the shares of common stock underlying the PSUs that have satisfied the applicable market-based requirement. The maximum number of shares that can be earned under this PSU grant is 1,000,000 shares, with 20% of the total award allocated to each Performance Tranche. Between 0% and 100% of each Performance Tranche of the PSUs will vest on each of the tranche dates. Additionally, in connection with the annual grant in January 2024, the Company has granted PSUs to certain employees, which are subject to both time-based vesting conditions and market-based conditions. Both the service and market conditions must be satisfied for the PSUs to vest. The PSUs consist of four equal tranches (each, a "Performance Tranche"), based on achievement of a share price condition if the Company achieves share price targets of \$4.83, \$5.65, \$7.15, and \$8.90, respectively, over 30 consecutive trading days during a performance period commencing on January 25, 2024 and ending on January 25, 2029. The fair value of each of the Performance Tranches was \$0.6 million, \$0.6 million, \$0.5 million, and \$0.5 million, respectively, and have a grant date fair value per share of restricted stock of \$4.16, \$3.98, \$3.66, and \$3.32, respectively. To the extent that any of the performance-based requirements are met, the grantees must also provide continued service to the Company through at least January 25, 2025 to receive any shares of common stock underlying the PSUs and through January 25, 2029 to receive all of the shares of common stock underlying the PSUs that have satisfied the applicable market-based requirement. The maximum number of shares that could be earned under this PSU grant was 600,000 shares, with 25% of the total award allocated to each Performance Tranche. Between 0% and 100% of each Performance Tranche of the PSUs will vest on each of the tranche dates. During the second quarter of 2024, 300,000 of these PSUs were cancelled. The Company recognizes compensation expense related to the PSUs using the accelerated attribution method over the requisite service period. Stock-based compensation expense for PSUs is based on a performance measurement of 100%. The compensation expense will not be reversed even if the performance metrics are not met. Stock-based compensation expense related to PSUs was \$0.4 million and \$0.9 million for the three and six-month periods ended June 30, 2024, respectively. There was no stock-based compensation expense related to PSUs for the three and six-month periods ended June 30, 2023. As of June 30, 2024, there was \$2.7 million of total unrecognized compensation expense related to grants of PSUs that is expected to be recognized over a weighted-average period of 2.4 years. The grant date fair value for each PSU was estimated using a Monte-Carlo simulation model that incorporates option-pricing inputs covering the period from the grant date through the end of the performance period. For the six-month period ended June 30, 2024, all dilutive securities have been excluded as their inclusion would have had an antidilutive effect on loss per share. The number of securities whose conversion would result in an incremental number of shares that would be included in determining the weighted average shares outstanding for diluted earnings per share if their effect was not antidilutive was 1,067,997 equivalent shares of dilutive securities for the six-month period ended June 30, 2024. As the Company's conversion would result in an incremental number of shares that would be included in determining the weighted average shares outstanding for diluted earnings per share if their effect was not antidilutive was 2,038,928 and 2,100,813 equivalent shares of dilutive securities for the three- and six-month period ended June 30, 2023, respectively. Impairment Impairment The Company has identified each of its three operating segments to be separate reporting units: digital, television, and audio. The carrying values of the reporting units are determined by allocating all applicable assets (including goodwill) and liabilities based upon the unit in which the assets are employed and to which the liabilities relate, considering the methodologies utilized to determine the fair value of the reporting units. Goodwill and indefinite life intangibles are not amortized but are tested annually for impairment, or more frequently, if events or changes in circumstances indicate that the assets might be impaired. The annual testing date is October 1. As of the most recent annual goodwill testing date, October 1, 2023, there was \$50.1 million of goodwill in the digital reporting unit. Based on the assumptions and estimates discussed in the Company's 2023 10-K, the fair value of the digital reporting unit exceeded its carrying value by 28%, resulting in no impairment charge for the year ended December 31, 2023. On March 4, 2024, the Company received a communication from Meta that it intended to wind down its ASP program globally and end its relationship with all of its ASPs, including the Company, by July 1, 2024. For the fiscal year ended December 31, 2023 ASP revenue from Meta represented approximately 53% of the Company's consolidated revenue, and 63% of the Company's digital segment revenue. The Company expected a significant loss of future revenue due to the termination of the ASP by Meta. As a result, during the first quarter of 2024, the Company updated its internal forecasts of future performance and determined that a triggering event had occurred during the first quarter of 2024 that required interim impairment tests. As a result, the Company conducted a review of certain of its long-lived assets using a two-step approach. In the first step, the carrying value of the asset group is compared to the projected undiscounted cash flows to determine recoverability. If the asset carrying value is not recoverable, then the fair value of the asset group is determined in the second step using an income approach. The income approach requires the Company to make a series of assumptions, such as discount rates, revenue projections, profit margin projections and useful lives. Based on the assumptions and estimates described above, the carrying values of long-lived assets in the digital reporting unit exceeded their fair values. As a result, the Company performed the second step analysis, resulting in intangibles subject to amortization impairment charge of \$14.0 million during the three-month period ended March 31, 2024, related to the then impending termination by Meta of its ASP program. The Company also conducted a review of the fair value of the digital reporting unit in the first quarter of 2024. The estimated fair value of the reporting unit was determined by using a combination of a market approach and an income approach. The market approach estimates fair value by applying sales, earnings and cash flow multiples to the reporting unit's operating performance. The multiples are derived from comparable publicly-traded companies with similar operating and investment characteristics to the Company's reporting units. The market approach requires the Company to make a series of assumptions, such as selecting comparable companies and comparable transactions and transaction premiums. The income approach estimates fair value based on the estimated future cash flows of each reporting unit, discounted by an estimated weighted-average cost of capital that reflects current market conditions, which reflect the overall level of inherent risk of the reporting unit. The income approach also requires the Company to make a series of assumptions, such as discount rates, revenue projections, profit margin projections and terminal value multiples. The Company estimated the discount rate on a blended rate of return considering both debt and equity for comparable publicly-traded companies in the digital media industries. These comparable publicly-traded companies have similar size, operating characteristics and/or financial profiles to the Company's reporting units. The Company also estimated the terminal value multiple based on comparable publicly-traded companies in the digital media industries. The Company estimated its revenue projections and profit margin projections based on internal forecasts about future performance. Based on the assumptions and estimates described above, the Company concluded that the digital reporting unit carrying value exceeded its fair value, resulting in a goodwill impairment charge of \$35.4 million for the three-month period ended March 31, 2024. The impairments of the intangibles subject to amortization and goodwill were allocated to the Company's EGP business which is accounted for as discontinued operations. See Note 8 for additional details. Treasury Stock Treasury Stock On March 1, 2022, the Company's Board of Directors approved a share repurchase program of up to \$20 million of the Company's Class A common stock. Under this share repurchase program, the Company is authorized to purchase shares of its Class A common stock from time to time through open market purchases or negotiated purchases, subject to market conditions and other factors. During the three- and six-month periods ended June 30, 2024 and 2023, the Company did not repurchase any shares of its Class A common stock. As of June 30, 2024, the Company has repurchased a total of 1.8 million shares of its Class A common stock under the new share repurchase program for an aggregate purchase price of \$11.3 million, or an average price per share of \$6.43. Credit Facility Credit Facility On November 30, 2017, the Company entered into the 2017 Credit Facility pursuant to the 2017 Credit Agreement. The 2017 Credit Facility consisted of a \$300.0 million senior secured Term Loan B Facility (the "Term Loan B Facility"), which was drawn in full. The Company's borrowings under the 2017 Credit Facility bore interest on the outstanding principal amount thereof from the date when made at a rate per annum equal to either: (i) the Eurodollar Rate (as defined in the 2017 Credit Agreement) plus 2.75%; or (ii) the Base Rate (as defined in the 2017 Credit Agreement) plus 1.75%. As of March 16, 2023, the interest rate on the Company's Term Loan B was 7.38%. The Term Loan B Facility had an expiration date on November 30, 2024. On March 17, 2023 (the "2023 Closing Date"), the Company entered into the 2023 Credit Facility, pursuant to the 2023 Credit Agreement, by and among the Company, Bank of America, N.A., as Administrative Agent, and the other financial institutions party thereto as Lenders (collectively, the "Lenders" and individually each a "Lender"). The 2023 Credit Agreement amended, restated and replaced in its entirety the 2017 Credit Agreement. On the 2023 Closing Date, the Company repaid in full all of the outstanding obligations under the 2017 Credit Agreement and accounted for this repayment as an extinguishment of debt in accordance with Accounting Standards Codification ("ASC") 470, "Debt". The repayment resulted in a loss on debt extinguishment of \$1.6 million, which included a write-off of unamortized debt issuance costs in the amount of \$1.1 million. As provided for in the 2023 Credit Agreement, the 2023 Credit Facility consists of (i) a \$200.0 million senior secured Term A Facility (the "Term A Facility"), which was drawn in full on the 2023 Closing Date, and (ii) a \$75.0 million Revolving Credit Facility (the "Revolving Credit Facility"), of which \$11.5 million was drawn on the 2023 Closing Date. In addition, the 2023 Credit Agreement provides that the Company may increase the aggregate principal amount of the 2023 Credit Facility by an additional amount equal to \$100.0 million plus the amount that would result in the Company's first lien net leverage ratio (as such term is used in the 2023 Credit Agreement) not exceeding 2.25 to 1.0, subject to the Company satisfying certain conditions. Borrowings under the 2023 Credit Facility were used on the 2023 Closing Date (a) to repay in full all of the outstanding obligations of the Company and its subsidiaries under the 2017 Credit Facility, (b) to pay fees and expenses in connection the 2023 Credit Facility and (c) for general corporate purposes. The 2023 Credit Facility matures on March 17, 2028 (the "Maturity Date"). The 2023 Credit Facility is guaranteed on a senior secured basis by certain of the Company's existing and future wholly-owned domestic subsidiaries, and secured on a first priority basis by the Company's and those subsidiaries' assets. The Company's borrowings under the 2023 Credit Facility bear interest on the outstanding principal amount thereof from the date when made at a rate per annum equal to either: (i) the Term SOFR (as defined in the 2023 Credit Agreement) plus a margin between 2.50% and 3.00%, depending on the Total Net Leverage Ratio or (ii) the Base Rate (as defined in the 2023 Credit Agreement) plus a margin between 1.50% and 2.00%, depending on the Total Net Leverage Ratio. In addition, the unused portion of the Revolving Credit Facility is subject to a rate per annum between 0.30% and 0.40%, depending on the Total Net Leverage Ratio. As of June 30, 2024, the interest rate on the Company's Term A Facility and the drawn portion of the Revolving Credit Facility was 8.25%. The amounts outstanding under the 2023 Credit Facility may be prepaid at the option of the Company without premium or penalty, provided that certain limitations are observed, and subject to customary breakage fees in connection with the prepayment of a Term SOFR loan. The principal amount of the Term A Facility shall be paid in installments on the dates and in the respective amounts set forth in the 2023 Credit Agreement, with the final balance due on the Maturity Date. In March 2024, the Company made a prepayment of \$10.0 million, of which \$8.75 million was applied to the upcoming quarterly principal payments in 2024 under the Term A Facility, and \$1.25 million was applied to the Revolving Credit Facility. In June 2024, the Company made an additional prepayment of \$10.0 million, of which \$4.9 million was a mandatory prepayment as a result of the EGP disposition. The prepayment was applied to the quarterly principal payments in 2025 under the Term A Facility. The Company recorded a loss on debt extinguishment of \$0.1 million for the three- and six-month periods ended June 30, 2024 due to these prepayments of our 2023 Credit Facility. The Company incurred debt issuance costs of \$1.8 million associated with the 2023 Credit Facility. Debt outstanding under the 2023 Credit Facility is presented net of issuance costs on the Company's Consolidated Balance Sheets. The debt issuance costs are amortized on an effective interest basis over the term of the 2023 Credit Facility, and are included in interest expense in the Company's Condensed Consolidated Statements of Operations. The covenants of the Credit Agreement include customary negative covenants that, among other things, restrict the Company's ability to incur additional indebtedness, grant liens and make certain acquisitions, investments, asset dispositions and restricted payments. In addition, the 2023 Credit Facility requires compliance with financial covenants related to total net leverage ratio, not to exceed 3.25 to 1.00, and interest coverage ratio with a minimum permitted ratio of 3.00 to 1.00 (calculated as set forth in the 2023 Credit Agreement). As of June 30, 2024, the Company believes that it is in compliance with all covenants in the 2023 Credit Agreement. The 2023 Credit Agreement includes customary events of default, as well as the following events of default, that are specific to the Company: any revocation, termination, substantial and adverse modification, or refusal by final order to renew, any media license, or the requirement (by final non-appealable order) to sell a television or radio station, where any such event or failure is reasonably expected to have a material adverse effect; or the interruption of operations of any television or radio station for more than 96 consecutive hours during any period of seven consecutive days; The 2023 Credit Agreement includes customary rights and remedies upon the occurrence of any event of default thereunder, including rights to accelerate the loans, terminate the commitments thereunder and realize upon the collateral securing the obligations under the 2023 Credit Agreement. The security agreement that the Company entered into with respect to its 2017 Credit Facility remains in effect with respect to its 2023 Credit Facility. The carrying amount of the Term Loan A Facility as of June 30, 2024 approximated its fair value and was \$176.6 million, net of \$0.9 million of unamortized debt issuance costs and original issue discount. Concentrations of Credit Risk and Trade Receivables Concentrations of Credit Risk and Trade Receivables The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents and trade accounts receivable. From time to time, the Company has had, and may have, bank deposits in excess of Federal Deposit Insurance Corporation insurance limits. As of June 30, 2024, the majority of all U.S. deposits are maintained in two financial institutions. The Company has not experienced any losses in such accounts and believes that it is not exposed to significant credit risk on cash and cash equivalents. In addition, to the Company's knowledge, all or substantially all of the bank deposits held in banks outside the United States are not insured. The Company's credit risk is spread across a large number of customers in the United States, Europe and various other countries, therefore spreading the trade receivable credit risk. The Company routinely assesses the financial strength of its customers and, as a consequence, believes that it is managing its trade receivable credit risk effectively. Trade receivables are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. An allowance for doubtful accounts is provided for known and anticipated credit losses, as determined by management in the course of regularly evaluating individual customer receivables. This evaluation takes into consideration a customer's financial condition and credit history, as well as current economic conditions. Trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received. No interest is charged on customer accounts. No single advertiser represents more than 5% of the Company's total trade receivables as of June 30, 2024 and December 31, 2023, respectively. No single advertiser represented more than 5% of the Company's total revenue for the three- and six-month periods ended June 30, 2024 and 2023. Allowance for Doubtful Accounts Allowance for Doubtful Accounts The Company's accounts receivable consist of a homogeneous pool of relatively small dollar amounts from a large number of customers. The Company evaluates the collectability of its trade accounts receivable based on a number of factors. When the Company is aware of a specific customer's inability to meet its financial obligations to us, a specific reserve for bad debts is estimated and recorded which reduces the recognized receivable to the estimated amount the Company believes will ultimately be collected. In addition to specific customer identification of potential bad debts, bad debt charges are recorded based on our recent past loss history and an overall assessment of past due trade accounts receivable amounts outstanding. Estimated losses for bad debts are provided for in the condensed consolidated financial statements through a charge to expense that aggregated \$0.4 million and a de minimis amount for the three-month periods ended June 30, 2024 and 2023, respectively, and \$0.6 million and \$0.2 million for the six-month periods ended June 30, 2024 and 2023, respectively. The net charge off of bad debts aggregated \$0.1 million and \$0.3 million for the three-month periods ended June 30, 2024 and 2023, respectively, and \$0.2 million and \$0.5 million for the six-month periods ended June 30, 2024 and 2023, respectively. Fair Value Measurements Fair Value Measurements The Company measures certain financial assets and liabilities at fair value on a recurring basis. Fair value is the price the Company would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. ASC 820, "Fair Value Measurements and Disclosures," defines and establishes a framework for measuring fair value and expands disclosures about fair value measurements. In accordance with ASC 820, the Company has categorized its financial assets and liabilities, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy as set forth below. Level 1 "Assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the company has the ability to access at the measurement date." Level 2 "Assets and liabilities whose values are based on quoted prices for similar attributes in active markets; quoted prices in markets where trading occurs infrequently; and inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term of the asset or liability." Level 3 "Assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument." The following table presents the Company's financial assets and liabilities measured at fair value on a recurring and nonrecurring basis in the condensed consolidated balance sheets (in millions): June 30, 2

Condensed Consolidated Balance Sheets in the amount of \$1.2 million as a current liability within Accounts payable and accrued expenses, and \$0.7 million as a noncurrent liability within Other long-term liabilities. The fair value of the contingent consideration was estimated by applying the real options approach. Key assumptions include risk-neutral expected growth rates based on management's assessments of expected growth in EBITDA, adjusted by appropriate factors capturing their correlation with the market and volatility, discounted at a cost of debt. These are significant inputs that are not observable in the market, which ASC 820-10-35 refers to as Level 3 inputs. Foreign Currency Foreign Currency The Company's reporting currency is the U.S. dollar. All transactions initiated in foreign currencies are translated into U.S. dollars in accordance with ASC 830, Foreign Currency Matters and the related rate fluctuation on transactions is included in the Condensed Consolidated Statements of Operations. For foreign operations with the local currency as the functional currency, assets and liabilities are translated from the respective local currencies into U.S. dollars at the exchange rate prevailing at the balance sheet date, and equity and long-term assets are translated at historical rates. Revenues and expenses are translated at the average exchange rate for the period. Translation adjustments resulting from the process of translating the local currency financial statements into U.S. dollars are included in determining comprehensive (income) loss. Cost of Revenue Cost of revenue related to the Company's digital segment consists primarily of the costs of online media acquired from third-party media companies. Entravision Global Partners ("EGP") business during the second quarter of 2024, the Company operates as<span
style="color:#212529;white-space:pre-wrap;font-size:10pt;font-family:Times New Roman,min-width:fit-content;">a media and advertising

technology company. The Company's management has determined that the Company operates in three reportable segments as of June 30, 2024, based upon the type of advertising medium: digital, television and audio.

Continuing operations in the Company's digital segment, whose operations are primarily located in the United States and Europe, are comprised of two business units: Smadex, the Company's programmatic ad purchasing platform; and Adwake, the Company's mobile growth solutions business. The Company's television and audio operations reach and engage U.S. Hispanics in the United States. The Company owns and/or operates primary television stations and radio stations (3.7 FM and 7 AM).

Discontinued Operations and Assets Held for Sale

On March 4, 2024, the Company received a communication from Meta that it intended to wind down its Authorized Sales Partners ("ASP") program globally and end its relationship with all of its ASPs, including the Company, by July 1, 2024. For the fiscal year ended December 31, 2023 ASP revenue from Meta represented approximately 53% of the Company's consolidated revenue, and 63% of the Company's digital segment revenue.

As a result of this communication from Meta, the Company conducted a thorough review of its digital strategy, operations and cost structure, and during the second quarter of 2024 made the decision to dispose of the operations of EGP.

Following this decision, during the second quarter of 2024, the Company entered into a definitive agreement to sell substantially all of its EGP business to IMS Internet Media Services, Inc. ("IMS"). The transaction was completed on June 28, 2024. The remaining EGP businesses, Jack of Digital and Adsmurai, S.L. ("Adsmurai"), were each sold back to their respective founders in separate transactions during the second quarter of 2024. See Note 8 for additional details.

The results of operations of a business classified as held for sale are reported as discontinued operations if the disposal represents a strategic shift that will have a major effect on the entity's operations and financial results. When a business is identified for discontinued operations reporting: (i) results for prior periods are retrospectively reclassified as discontinued operations; (ii) results of operations are reported in a single line, net of tax, in the consolidated statement of operations; and (iii) assets and liabilities are reported as held for sale in the consolidated balance sheets in the period in which the business is classified as held for sale.

The Company concluded that the assets of its EGP business met the criteria for classification as held for sale. Additionally, the Company determined that the disposal, which was initiated and completed during the second quarter of 2024, represented a strategic shift that had a major effect on the Company's operations and financial results. As such, the results of the Company's EGP business are presented as discontinued operations in the Condensed Consolidated Statements of Operations for all periods presented. Prior periods have been adjusted to conform to the current presentation. The assets of the Company's EGP business have been reflected as assets and liabilities of discontinued operations in the Condensed Consolidated Balance Sheet for the year ended December 31, 2023.

Restricted Cash

As of June 30, 2024 and December 31, 2023, the Company's balance sheet includes \$0.8 million in restricted cash, which was deposited into a separate account as collateral for the Company's letters of credit.

The Company's cash and cash equivalents and restricted cash, as presented in the Condensed Consolidated Statements of Cash Flows, was as follows (in thousands):

	June 30, 2024	December 31, 2023
Cash and cash equivalents	\$13,123,000	\$13,123,000

million of goodwill in the digital reporting unit. Based on the assumptions and estimates discussed in the Company's 2023 10-K, the fair value of the digital reporting unit exceeded its carrying value by 28.

no

impairment charge for the year ended December 31, 2023

On March 4, 2024, the Company received a communication from Meta that it intended to wind down its ASP

program globally and end its relationship with all of its ASPs, including the Company, by July 1, 2024. For the fiscal year ended December 31, 2023 ASP revenue from Meta represented approximately 53

53

of the Company's consolidated revenue, and

63

of the Company's digital

segment

revenue. The Company expected a significant loss of future revenue due to the termination of the ASP by Meta. As a result, during the first quarter of 2024, the Company updated its internal forecasts of future performance and determined that a triggering event had occurred during the first quarter of 2024 that required interim impairment tests.

As a result, the Company conducted a review of certain of its long-lived assets using a two-step approach. In the first step, the carrying value of the asset group is compared to the projected undiscounted cash flows to determine recoverability. If the asset carrying value is not recoverable, then the fair value of the asset group is determined in the second step using an income approach. The income approach requires the Company to make a series of assumptions, such as discount rates, revenue projections, profit margin projections and useful lives.

Based on the assumptions and estimates described above, the carrying values of long-lived assets in the digital reporting unit exceeded their fair values. As a result, the Company performed the second step analysis, resulting in intangibles subject to amortization impairment charge of \$14.0

n during the three-month period ended March 31, 2024, related to the then impending termination by Meta of its ASP program.

The Company also conducted a review of the fair value of the digital reporting unit in the first quarter of 2024. The estimated fair value of the reporting unit was determined by using a combination of a market approach and an income approach. The market approach estimates fair value by applying sales, earnings and cash flow multiples to the reporting unit's operating performance. The multiples are derived from comparable publicly-traded companies with similar operating and investment characteristics to the Company's reporting units. The market approach requires the Company to make a series of assumptions, such as selecting comparable companies and comparable transactions and transaction premiums.

The income approach estimates fair value based on the estimated future cash flows of each reporting unit, discounted by an estimated weighted-average cost of capital that reflects current market conditions, which reflect the overall level of inherent risk of the reporting unit. The income approach also requires the Company to make a series of assumptions, such as discount rates, revenue projections, profit margin projections and terminal value multiples. The Company estimated the discount rate on a blended rate of return considering both debt and equity for comparable publicly-traded companies in the digital media industries. These comparable publicly-traded companies have similar size, operating characteristics and/or financial profiles to the Company's reporting units. The Company also estimated the terminal value multiple based on comparable publicly-traded companies in the digital media industries. The Company estimated its revenue projections and profit margin projections based on internal forecasts about future performance.

Based on the assumptions and estimates described above, the Company concluded that the digital reporting unit carrying value exceeded its fair value, resulting in a goodwill impairment charge of \$35.4

million for the three-month period ended March 31, 2024.

The impairments of the intangibles subject to amortization and goodwill were allocated to the Company's EGP business which is accounted for as discontinued operations. See Note 8 for additional details.

From time to time, the Company has had, and may have, bank deposits in excess of Federal Deposit Insurance Corporation insurance limits. As of June 30, 2024, the majority of all U.S. deposits are maintained in two financial institutions. The Company has not experienced any losses in such accounts and believes that it is not exposed to significant credit risk on cash and cash equivalents. In addition, to the Company's knowledge, all or substantially all of the bank deposits held in banks outside the United States are not insured.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;"> The Company's credit risk is spread across a large number of customers in the United States, Europe and various other countries, therefore spreading the trade receivable credit risk. The Company routinely assesses the financial strength of its customers and, as a consequence, believes that it is managing its trade receivable credit risk effectively. Trade receivables are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. An allowance for doubtful accounts is provided for known and anticipated credit losses, as determined by management in the course of regularly evaluating individual customer receivables. This evaluation takes into consideration a customer's financial condition and credit history, as well as current economic conditions. Trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received. Allowance for Doubtful Accounts

The Company's accounts receivable consist of a homogeneous pool of relatively small dollar amounts from a large number of customers. The Company evaluates the collectability of its trade accounts receivable based on a number of factors. When the Company is aware of a specific customer's inability to meet its financial obligations to us, a specific reserve for bad debts is estimated and recorded which reduces the recognized receivable to the estimated amount the Company believes will ultimately be collected. In addition to specific customer identification of potential bad debts, bad debt charges are recorded based on our recent past loss history and an overall assessment of past due trade accounts receivable amounts outstanding.

Estimated losses for bad debts are provided for in the condensed consolidated financial statements through a charge to expense that aggregated \$0.4 million and \$0.6 million for the three-month periods ended June 30, 2024 and 2023, respectively, and \$0.1 million for the six-month periods ended June 30, 2024 and 2023, respectively. The net charge off of bad debts aggregated \$0.3 million for the three-month periods ended June 30, 2024 and 2023, respectively, and \$0.2 million for the six-month periods ended June 30, 2024 and 2023, respectively.

ASC 820, "Fair Value Measurements and Disclosures", defines and establishes a framework for measuring fair value and expands disclosures about fair value measurements. In accordance with ASC 820, the Company has categorized its financial assets and liabilities, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy as set forth below:

Level 1 – Assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the company has the ability to access at the measurement date.

Level 2 – Assets and liabilities whose values are based on quoted prices for similar attributes in active markets; quoted prices in markets where trading occurs infrequently; and inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

The following table presents the Company's financial assets and liabilities measured at fair value on a recurring and nonrecurring basis in the condensed consolidated balance sheets (in millions):

There were no new accounting pronouncements that were issued or became effective since the issuance of the 2023 10-K that had, or are expected to have, a material impact on the Company's condensed consolidated financial statements.

Discontinued Operations and Assets Held for Sale

On March 4, 2024, the Company received a communication from Meta that it intended to wind down its Authorized Sales Partners ("ASP") program globally and end its relationship with all of its ASPs, including the Company, by July 1, 2024. For the fiscal year ended December 31, 2023 ASP revenue from Meta represented approximately 53% of the Company's consolidated revenue, and 63% of the Company's digital segment revenue.

As a result of this communication from Meta, the Company conducted a thorough review of its digital strategy, operations and cost structure, and during the second quarter of 2024 made the decision to dispose of the operations of EGP.

family:Times New Roman;margin-bottom:0;text-align:left;">Following this decision, during the second quarter of 2024, the Company entered into a definitive agreement to sell substantially all of its EGP business to IMS Internet Media Services, Inc. ("IMS"). The transaction was completed on June 28, 2024. The remaining EGP businesses, Jack of Digital and Adsmurai, S.L. ("Adsmurai"), were each sold back to their respective founders in separate transactions during the second quarter of 2024. See Note 8 for additional details.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">A business or asset is classified as held for sale when management having the authority to approve the action commits to a plan to sell the business, the sale is probable to occur during the next 12 months at a price that is reasonable in relation to its current fair value, and when certain other criteria are met. A business or asset classified as held for sale is recorded at the lower of (i) its carrying amount and (ii) estimated fair value less costs to sell. When the carrying amount of the business exceeds its estimated fair value less costs to sell, a loss is recognized and updated each reporting period as appropriate. Depreciation is not recorded on assets classified as held for sale.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The results of operations of a business classified as held for sale are reported as discontinued operations if the disposal represents a strategic shift that will have a major effect on the entity's operations and financial results. When a business is identified for discontinued operations reporting: (i) results for prior periods are retrospectively reclassified as discontinued operations; (ii) results of operations are reported in a single line, net of tax, in the consolidated statement of operations; and (iii) assets and liabilities are reported as held for sale in the consolidated balance sheets in the period in which the business is classified as held for sale.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company concluded that the assets of its EGP business met the criteria for classification as held for sale. Additionally, the Company determined that the disposal, which was initiated and completed during the second quarter of 2024, represented a strategic shift that had a major effect on the Company's operations and financial results. As such, the results of the Company's EGP business are presented as discontinued operations in the Condensed Consolidated Statements of Operationsfor all periods presented. Prior periods have been adjusted to conform to the current presentation. The assets of the Company's EGP business have been reflected as assets and liabilities of discontinued operations in the Condensed Consolidated Balance Sheet for the year ended December 31, 2023.<p>0.530.63</p><p style="margin-left:2.267%;font-size:10pt;margin-top:12pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Restricted Cash</p><p agreement, TelevisaUnivision acts as the Company's exclusive third-party sales representative for the sale of certain national advertising on the Univision and UniMás affiliate television stations, and the Company pays certain sales representation fees to TelevisaUnivision relating to sales of all advertising for broadcast on its Univision and UniMás affiliate television stations.

During each of the three-month periods ended June 30, 2024 and 2023, the amount the Company paid TelevisaUnivision in this capacity was \$2.9 million. During the six-month periods ended June 30, 2024 and 2023, the amount the Company paid TelevisaUnivision in this capacity was \$2.9 million, respectively.

These amounts were included in Direct Operating Expenses in the Company's Condensed Consolidated Statements of Operations.

On October 2, 2017, the Company entered into the current affiliation agreement which superseded and replaced its prior affiliation agreements with TelevisaUnivision. Additionally, on the same date, the Company entered into a proxy agreement and marketing and sales agreement with TelevisaUnivision, each of which superseded and replaced the prior comparable agreements with TelevisaUnivision. The term of each of these current agreements expires on December 31, 2026 for all of the Company's Univision and UniMás network affiliate stations, except that each current agreement expired on December 31, 2021 with respect to the Company's Univision and UniMás network affiliate stations in Orlando, Tampa and Washington, D.C.

Under the Company's current proxy agreement with TelevisaUnivision, the Company grants TelevisaUnivision the right to negotiate the terms of retransmission consent agreements for its Univision and UniMás-affiliated television station signals. Among other things, the proxy agreement provides terms relating to compensation to be paid to the Company by TelevisaUnivision with respect to retransmission consent agreements entered into with multichannel video programming distributors ("MVPDs"). As of June 30, 2024, the amount due to the Company from TelevisaUnivision was \$8.1 million related to the agreements for the carriage of its Univision and UniMás-affiliated television station signals. During the three-month periods ended June 30, 2024 and 2023, retransmission consent revenue accounted for \$6.2 million and \$6.5 million, respectively, of which \$18.0 million and \$18.9 million, respectively, of which \$12.6 million and \$13.1 million, respectively, relate to the TelevisaUnivision proxy agreement. During the six-month periods ended June 30, 2024 and 2023, retransmission consent revenue accounted for \$18.0 million and \$18.9 million, respectively, of which \$12.6 million and \$13.1 million, respectively, relate to the TelevisaUnivision proxy agreement.

TelevisaUnivision currently owns approximately 15,000,000 shares of Class U common stock, all of which is held by TelevisaUnivision, has limited voting rights and does not include the right to elect directors. Each share of Class U common stock is automatically convertible into one share of the Company's Class A common stock (subject to adjustment for stock splits, dividends or combinations) in connection with any transfer of such shares of Class U common stock.

The Company's Class U common stock, all of which is held by TelevisaUnivision, has limited voting rights and does not include the right to elect directors. Each share of Class U common stock is automatically convertible into one share of the Company's Class A common stock (subject to adjustment for stock splits, dividends or combinations) in connection with any transfer of such shares of Class U common stock.

Stock-Based Compensation

The Company measures all stock-based awards using a fair value method and recognizes the related stock-based compensation expense in the condensed consolidated financial statements over the requisite service period. As stock-based compensation expense recognized in the Company's condensed consolidated financial statements is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures.

Restricted Stock Units

Stock-based compensation expense related to restricted stock units ("RSUs") is based on the fair value of the Company's stock price on the date of grant and is amortized over the vesting period, generally between 1 and 4 years.

satisfied for the PSUs to vest.

The PSUs consist of four equal tranches (each, a "Performance Tranche"), based on achievement of a share price condition if the Company achieves share price targets of \$4.82, \$5.65, \$7.15, and \$8.90, respectively, over 30 consecutive trading days during a performance period commencing on January 25, 2024, and ending on January 25, 2029.

The fair value of each of the Performance Tranches was \$0.6 million, \$0.5 million, and \$0.6 million, respectively, and have a grant date fair value per share of restricted stock of \$4.16, \$3.98, and \$3.66, respectively.

The Company recognizes compensation expense related to the PSUs using the accelerated attribution method over the requisite service period. Stock-based compensation expense for PSUs is based on a performance measurement of 100%.

The compensation expense will not be reversed even if the performance metrics are not met.

Stock-based compensation expense related to PSUs was \$0.4 million and \$0.9 million for the three and six-month periods ended June 30, 2024, respectively. There was no stock-based compensation expense related to PSUs for the three and six-month periods ended June 30, 2023.

As of June 30, 2024, there was \$2.7 million of total unrecognized compensation expense related to grants of PSUs that is expected to be recognized over a weighted-average period of 2.4 years.

The grant date fair value for each PSU was estimated using a Monte Carlo simulation model that incorporates option pricing inputs covering the period from the grant date through the end of the performance period.

The unobservable significant inputs to the valuation model at the time of award issuance were as follows:

Input	Value
Volatility	66.993%
Dividend Yield	1.62%
Term	1.62 years

The income approach also requires the Company to make a series of assumptions, such as discount rates, revenue projections, profit margin projections and terminal value multiples. The Company estimated the discount rate on a blended rate of return considering both debt and equity for comparable publicly-traded companies in the digital media industries. These comparable publicly-traded companies have similar size, operating characteristics and/or financial profiles to the Company's reporting units. The Company also estimated the terminal value multiple based on comparable publicly-traded companies in the digital media industries. million was drawn on the 2023 Closing Date. In addition, the 2023 Credit Agreement provides that the Company may increase the aggregate principal amount of the 2023 Credit Facility by an additional amount equal to \$100.0 million plus the amount that would result in the Company's first lien net leverage ratio (as such term is used in the 2023 Credit Agreement) not exceeding 2.25:1.0, subject to the Company satisfying certain conditions. Borrowings under the 2023 Credit Facility were used on the 2023 Closing Date (a) to repay in full all of the outstanding obligations of the Company and its subsidiaries under the 2017 Credit Facility, (b) to pay fees and expenses in connection with the 2023 Credit Facility and (c) for general corporate purposes. The 2023 Credit Facility matures on March 17, 2028 (the "Maturity Date").

The 2023 Credit Facility is guaranteed on a senior secured basis by certain of the Company's existing and future wholly-owned domestic subsidiaries, and secured on a first priority basis by the Company's and those subsidiaries' assets.

The 2023 Credit Facility is guaranteed on a senior secured basis by certain of the Company's existing and future wholly-owned domestic subsidiaries, and secured on a first priority basis by the Company's and those subsidiaries' assets.

The Company's borrowings under the 2023 Credit Facility bear interest on the outstanding principal amount thereof from the date when made at a rate per annum equal to either: (i) the Term SOFR (as defined in the 2023 Credit Agreement) plus a margin between 2.50% and 3.00%, depending on the Total Net Leverage Ratio or (ii) the Base Rate (as defined in the 2023 Credit Agreement) plus a margin between 1.50% and 2.00%, depending on the Total Net Leverage Ratio. In addition, the unused portion of the Revolving Credit Facility is subject to a rate per annum between 0.30% and 0.40%, depending on the Total Net Leverage Ratio.

The amounts outstanding under the 2023 Credit Facility may be prepaid at the option of the Company without premium or penalty, provided that certain limitations are observed, and subject to customary breakage fees in connection with the prepayment of a Term SOFR loan. The principal amount of the Term A Facility shall be paid in installments on the dates and in the respective amounts set forth in the 2023 Credit Agreement, with the final balance due on the Maturity Date.

In March 2024, the Company made a prepayment of \$10.0 million, of which \$8.75 million was applied to the upcoming quarterly principal payments in 2024 under the Term A Facility, and \$1.25 million was applied to the Revolving Credit Facility.

In June 2024, the Company made an additional prepayment of \$4.9 million, of which \$4.9 million was a mandatory prepayment as a result of the EGP disposition. The prepayment was applied to the quarterly principal payments in 2025 under the Term A Facility.

The Company recorded a loss on debt extinguishment of \$0.1 million for the three- and six-month periods ended June 30, 2024 due to these prepayments of our 2023 Credit Facility.

The Company incurred debt issuance costs of \$1.8 million associated with the 2023 Credit Facility. Debt outstanding under the 2023 Credit Facility is presented net of issuance costs on the Company's Consolidated Balance Sheets. The debt issuance costs are amortized on an effective interest basis over the term of the 2023 Credit Facility, and are included in interest expense in the Company's Condensed Consolidated Statements of Operations.

The covenants of the Credit Agreement include customary negative covenants that, among other things, restrict the Company's ability to incur additional indebtedness, grant liens and make certain acquisitions, investments, asset dispositions and restricted payments. In addition, the 2023 Credit Facility requires compliance with financial covenants related to total net leverage ratio, not to exceed 3.25:1.0, and interest coverage ratio with a minimum permitted ratio of 3.00:1.0 (calculated as set forth in the 2023 Credit Agreement). As of June 30, 2024, the Company believes that it is in compliance with all covenants in the 2023 Credit Agreement.

The 2023 Credit Agreement includes customary events of default, as well as the following events of default, that are specific to the Company:

any revocation, termination, substantial and adverse modification, or refusal by final order to renew, any media license, or the requirement (by final non-appealable order) to sell a television or radio station, where any such event or failure is reasonably expected to have a material adverse effect; or

From time to time, the Company has had, and may have, bank deposits in excess of Federal Deposit Insurance Corporation insurance limits. As of June 30, 2024, the majority of all U.S. deposits are maintained in two financial institutions. The Company has not experienced any losses in such accounts and believes that it is not exposed to significant credit risk on cash and cash equivalents. In addition, to the Company's knowledge, all or substantially all of the bank deposits held in banks outside the United States are not insured.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">The Company's credit risk is spread across a large number of customers in the United States, Europe and various other countries, therefore spreading the trade receivable credit risk. The Company routinely assesses the financial strength of its customers and, as a consequence, believes that it is managing its trade receivable credit risk effectively. Trade receivables are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. An allowance for doubtful accounts is provided for known and anticipated credit losses, as determined by management in the course of regularly evaluating individual customer receivables. This evaluation takes into consideration a customer's financial condition and credit history, as well as current economic conditions. Trade receivables are written off when deemed uncollectible. The Company evaluates the collectability of its trade accounts receivable based on a number of factors. When the Company is aware of a specific customer's inability to meet its financial obligations to us, a specific reserve for bad debts is estimated and recorded which reduces the recognized receivable to the estimated amount the Company believes will ultimately be collected. In addition to specific customer identification of potential bad debts, bad debt charges are recorded based on our recent past loss history and an overall assessment of past due trade accounts receivable amounts outstanding.</p><p style="text-indent:4.533%;font-size:10pt;margin-top:6pt;font-family:Times New Roman;margin-bottom:0;text-align:left;">Estimated losses for bad debts are provided for in the condensedconsolidated financial statements through a charge to expense that aggregated \$0.4 million and a de minimis amount for the three-month periods ended June 30, 2024 and 2023, respectively, and \$0.6 million and \$0.2 million for the six-month periods ended June 30, 2024 and 2023, respectively. The Company's available for sale debt securities are considered for credit losses under the guidance of Accounting Standards Update ("ASU") 2016-13, Financial Instruments—Credit Losses (Topic 326). As of June 30, 2024 and December 31, 2023, the Company determined that a credit loss allowance is not required.

Included in interest income for the three-month periods ended June 30, 2024 and 2023 was interest income related to the Company's available for sale securities of \$ million and \$ million, respectively. Included in interest income for the six-month periods ended June 30, 2024 and 2023 was interest income related to the Company's available for sale securities of \$ million and \$ million, respectively. The fair value of the contingent consideration is related to the acquisition of BCG Monetize ("BCG Monetize").

The following table presents the Company's financial assets and liabilities measured at fair value on a recurring and nonrecurring basis in the condensed consolidated balance sheets (in millions).

	June 30, 2024	December 31, 2023
Financial assets:	\$ 9.703%	\$ 8.066%
Liabilities:	\$ 1.52%	\$ 1.52%

As of June 30, 2024, the Company has no other long-term liabilities. The fair value of the contingent consideration was estimated by applying the real options approach. Key assumptions include risk-neutral expected growth rates based on management's assessments of expected growth in EBITDA, adjusted by appropriate factors capturing their correlation with the market and volatility, discounted at a cost of debt. These are significant inputs that are not observable in the market, which ASC 820-10-35 refers to as Level 3 inputs.

CONTINGENCIES

The Company is subject to various outstanding claims and other legal proceedings that may arise in the ordinary course of business. In the opinion of management, any liability of the Company that may arise out of or with respect to these matters will not materially adversely affect the financial position, results of operations or cash flows of the Company.

ACQUISITIONS

On May 19, 2023, the Company acquired, through its wholly owned subsidiary, BCN Monetize, a global mobile app marketing solutions company headquartered in Barcelona, Spain. The acquisition, funded from the Company's cash on hand, included an initial purchase price of \$6.0 million in cash, which amount

was adjusted at closing to \$7.2 million due to customary purchase price adjustments for cash, indebtedness and estimated working capital. Additionally, the transaction includes contingent earn-out payments based upon the achievement of certain EBITDA targets in calendar years 2023 through 2026, calculated as a predetermined multiple of EBITDA for each of those years. The total purchase price for the acquisition, including the fair value of the contingent consideration, was \$8.8 million.

The following is a summary of the final purchase price allocation (in millions):

Cash	0.8
Accounts receivable	2.8
Other assets	0.7
Intangible assets subject to amortization	4.2
Goodwill	3.5
Current liabilities	2.1
Deferred tax	1.1
Fair Value	1.1

BCNMonetize's workforce and expected synergies from combining BCNMonetize's operations with the Company's operations.

The goodwill, which is not expected to be deductible for tax purposes, is assigned to the Company's digital segment and is attributable to BCNMonetize's workforce and expected synergies from combining BCNMonetize's operations with the Company's operations.

As noted above, the acquisition of BCNMonetize includes a contingent consideration arrangement that requires additional consideration to be paid by the Company to the selling stockholders of BCNMonetize, based on a pre-determined multiple of BCNMonetize's 12-month EBITDA in calendar years 2023 through 2026. The fair value of the contingent consideration recognized on the acquisition date of \$1.6 million was estimated by applying the real options approach. Key assumptions include risk neutral expected growth rates based on management's assessments of expected growth in EBITDA, adjusted by appropriate factors capturing their correlation with the market and volatility, discounted at a cost of debt rate ranging from 8.2% to 8.4% over the three year period. These are significant inputs that are not observable in the market, which ASC 820-10-35 refers to as Level 3 inputs.

The following unaudited pro forma information has been prepared to give effect to the Company's acquisition of BCNMonetize as if the acquisition had occurred on January 1, 2023. This pro forma information was adjusted to exclude acquisition fees and costs of \$0.2 million for the six-month period ended June 30, 2023, which were expensed in connection with the acquisition. This pro forma information does not purport to represent what the actual results of operations of the Company would have been had this acquisition occurred on such date, nor does it purport to predict the results of operations for any future periods.

White Space

White space is the area between text, images, and other elements on a page. It is essential for creating a clean, professional, and readable layout. White space is also known as negative space.

There are four types of white space:

- Micro white space:** This is the space between individual characters and words. It is the smallest type of white space and is often referred to as "kerning" and "tracking".
- Word white space:** This is the space between words. It is the most common type of white space and is often referred to as "word spacing".
- Line white space:** This is the space between lines of text. It is often referred to as "line spacing" or "leading".
- Block white space:** This is the space between paragraphs, sections, and other large elements on a page. It is often referred to as "margin" or "padding".

White space is important for several reasons:

- Readability:** White space makes text easier to read by reducing clutter and improving the flow of the page.
- Aesthetics:** White space is a key element of good design. It helps to create a balanced and visually appealing layout.
- Clarity:** White space helps to distinguish between different elements on a page, making it easier for the reader to understand the content.
- Professionalism:** A layout with good white space is perceived as more professional and trustworthy.

There are several ways to create white space:

- Line spacing:** Increasing the line spacing between lines of text can create more white space and improve readability.
- Word spacing:** Increasing the word spacing between words can create more white space and improve readability.
- Margin:** Increasing the margin around the text can create more white space and improve the overall layout.
- Padding:** Increasing the padding around individual elements can create more white space and improve the overall layout.

White space is a powerful tool for creating a clean, professional, and readable layout. By understanding the different types of white space and how to create them, you can improve the readability and aesthetics of your design.
