#### WAVEDANCER, INC.

#### NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

##### **Note 1. Summary of Significant Accounting Policies**

##### **Organization and Business**

Founded in 1979 as Information Analysis Incorporated ("IAI"), IAI changed its name to WaveDancer, Inc. ("WaveDancer" or the "Company") and converted from a Virginia corporation to a Delaware corporation in December 2021. The Company is in the business of developing and maintaining information technology ("IT") systems, modernizing client information systems, and performing other IT-related professional services to government and commercial organizations.

On March 17, 2023, the Company sold effectively 75.1% of the equity of its Gray Matters, Inc. subsidiary ("GMI") to Gray Matters Data Corporation ("GMDC"). Subsequent to the sale, the Company discontinued consolidating GMI and the Company has reflected GMI as a discontinued operation in its consolidated statements of operations **for all periods presented through 2023**. Unless otherwise noted, all amounts and disclosures throughout these Notes to Condensed Consolidated Financial Statements relate to the Company's continuing operations. See Note 2 for further information about the sale transaction, the deconsolidation of GMI, and treatment of GMI as a discontinued operation. **On August 9, 2023 the Company sold its remaining equity interest in GMDC.**

Prior to March 17, 2023, we had two operating segments: Tellenger and Blockchain SCM. **Given** **Following the classification** **sale** of GMI, which comprised all of the material operations of the Blockchain SCM segment, **it was presented** as a discontinued operation (see Note 2), and the Blockchain SCM segment ceased to exist. After March 17, 2023, the Company manages its business as one reportable operating segment.

##### **Liquidity and Going Concern**

During the **nine** **three** months ended **September 30, 2023** **March 31, 2024**, the Company generated an operating loss from continuing operations of **\$978,459**, **\$673,971**. As of **September 30, 2023** **March 31, 2024**, the Company had a net working capital deficit of **\$537,375**, **\$480,073** including cash and cash equivalents of **\$877,198**. We **\$563,324**. Under existing operating conditions, we estimate that over the twelve months from the date of these financial statements our operating activities may use as much as \$1.0 million to \$1.5 million of cash, including the satisfaction of all existing liabilities. The Company's line of credit balance as of March 31, 2024 was \$500,000, has no additional borrowing capacity, and expires on May 16, 2024.

On **August 2**, **November 15**, 2023, the Company **realized \$118,655** entered into a merger agreement with Firefly Neuroscience, Inc. ("Firefly"), a privately held, commercial-stage, medical technology company, to combine the companies in an all-stock transaction (the "Merger"). The closing of cash proceeds from the sale transaction requires the approval of 20,000 shares WaveDancer and Firefly shareholders, both of common stock, which have been obtained, as well as the satisfaction of other closing conditions, as discussed more fully below in "Management's Discussion and Analysis of Financial Condition and Results of Operations". The Merger agreement provides that in connection with the closing of the Merger, WaveDancer will sell its Tellenger subsidiary, the entity through which WaveDancer operates its current revenue-generating business, to WaveTop Solutions, Inc., a

company owned and controlled by WaveDancer's chairman and chief executive officer. Upon closing of the Merger, the combined company will focus on August 9, 2023, continuing to develop and commercialize Firefly's Artificial Intelligence driven Brain Network Analytics (BNA™) platform, which was previously cleared by the U.S. Food and Drug Administration. The Merger is expected to close in late May or early June 2024. The Company received \$1,400,000 of cash from the sale is seeking a short-term extension of its remaining equity interest in GMDC and its contingent consideration receivable from GMDC. On August 9, 2023, the Company repaid \$500,000 on the Summit line of credit and has no further borrowing capacity thereunder. On September 29, 2023, from the lender to allow for additional time to close the Merger transaction, upon which the lender will be repaid in full. In the absence of an extension, the Company issued 35,000 shares of its common stock and FireFly are considering options to its chairman and CEO for \$175,000 of cash. The transaction was approved by prevent or resolve the board of directors and was at issues arising from a premium to the trading price on the date of the transaction. We estimate that within twelve months from the issuance of these financial statements, the Company will need to raise additional capital to meet its ongoing operating cash flow requirements as well as to grow its business either organically or through acquisitions. The Company is evaluating strategic alternatives which include the potential merger or sale of the Company. There is no assurance that such activities will result in any transactions or provide additional capital. Accordingly, there is substantial doubt about the Company's ability to continue as a going concern for at least one year from the date that the accompanying unaudited condensed consolidated financial statements are issued. default.

The accompanying unaudited condensed consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates continuity of operations, realization of assets, and satisfaction of liabilities in the ordinary course of business. The propriety of using the going-concern basis is dependent upon, among other things, the achievement of future profitable operations, the ability to generate sufficient cash from operations and potential other funding sources, in addition to cash on-hand, to meet its obligations as they become due. The Company's unaudited condensed consolidated financial statements do not include any adjustment that might result from the outcome of this uncertainty.

Form 10-Q March 31, 2024

**Reverse Stock Split**

On October 18, 2023, the Company effected a reverse stock split of its common stock, par value \$0.001 per share, (the "Common Stock") at a ratio of one-for-ten (the "Reverse Stock Split"). The Reverse Stock split affected all issued common stock and options and warrants to acquire common stock. No fractional shares were issued as a result of the reverse split and any fractional share otherwise issuable were rounded up to the nearest whole number. All shares and per share amounts in the condensed consolidated financial statements and accompanying notes have been retroactively adjusted to give effect to the Reverse Stock Split. Following the Reverse Stock Split, the Company's issued and outstanding shares of Common Stock decreased from 19,809,834 pre-split shares to approximately 1,980,983 post-split shares, before finalizing the rounding of fractional shares. As a result of the Reverse Stock Split, the exercise prices of the outstanding options and warrants were increased by a factor of ten. Certain amounts presented in the 2023 unaudited condensed consolidated financial statements, including common stock, additional paid-in capital, and shares and per share data have been retroactively adjusted for the reverse stock split to conform to the current period financial statement presentation.

**Unaudited Interim Condensed Consolidated Financial Statements**

The accompanying unaudited condensed consolidated financial statements ("financial statements") have been prepared in conformity with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions for Form 10-Q and Article 8-03 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") for interim financial statements. In the opinion of management, the financial statements include all adjustments necessary (which are of a normal and recurring nature) for the fair and not misleading presentation of the results of the interim periods presented. These unaudited interim condensed consolidated financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2022 2023 included in the Annual Report on Form 10-K filed by the Company with the SEC on April 17, 2023 March 20, 2024 (the "Annual Report"), as amended. The accompanying December 31, 2022 2023 condensed consolidated balance sheet was derived from the audited financial statements included in the Annual Report but does not include all disclosures required by accounting principles generally accepted in the United States of America. The results of operations for any interim periods are not necessarily indicative of the results of operations for any other interim period or for a full fiscal year.

#### Use of Estimates

Preparation of condensed consolidated financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the amounts reported and disclosed in the financial statements and the accompanying notes. Actual results could differ materially from these estimates due to uncertainties. On an ongoing basis, we evaluate our estimates, including those related to the allowance for credit losses; fair values of financial instruments, intangible assets, and goodwill, including the underlying estimates of cash flows of our products and reporting unit; useful lives of intangible assets and property and equipment; the valuation of stock-based compensation, and the valuation of deferred tax assets and liabilities, among others. We base our estimates on assumptions, both historical and forward looking, that are believed to be reasonable, and the results of which form the basis for making judgments about the carrying values of assets and liabilities.

**Note 2. Sale and Deconsolidation of GMI and Sale and Deconsolidation of GMI and Discontinued Operations**

On March 17, 2023, the Company entered into and closed a Stock Purchase Agreement with GMDC, a company newly formed by StealthPoint LLC, a San Francisco based venture fund, under which the Company sold all of the shares of its subsidiary, Gray Matters, Inc. In exchange for this sale, the Company received common shares of GMDC representing on a primary share basis, assuming the conversion of the Series A preferred stock referenced below, 24.9% interest in the purchaser, cash consideration of \$935,974 and contingent annual payments equal to five percent (5%) of the purchaser's GAAP based revenue through December 31, 2029 attributable to the purchaser's blockchain-enabled digital supply chain management platform and associated technologies. Payments will be calculated for each calendar year and are due by March 31 of the following year. GMDC also paid the Company \$133,148 for certain of GMI's operating expenses for the period beginning March 1, 2023 through March 17, 2023.

The equity interest StealthPoint and other GMDC investors received is in the form of Series A non-participating convertible preferred stock having a one-times (1x) liquidation preference and no cumulative dividends. In addition, the Company and GMDC entered into a transition services agreement whereby the Company continues to provide certain administrative services for GMI. The value of these services is estimated to be \$65,000 which was paid by GMDC at closing and is not subject to adjustment.

9

**WaveDancer, Inc.**

Form 10-Q March 31, 2024

The \$65,000 prepayment is included in other accrued liabilities on the unaudited condensed consolidated balance sheet as of March 31, 2023 and has been amortized as a reduction to selling, general and administrative expenses ratably over the three-month period ending June 30, 2023 after which time no further transition services were provided. The total cash received at closing was \$1,000,974. The Company also has had the right to appoint a representative to GMDC's board of directors and a right to co-invest in the anticipated Series B a later preferred stock financing round which GMDC intends to consummate in the future. The Company recognized a gain on the sale of GMI of \$100,615 in the first quarter of 2023, which was included in net loss on discontinued operations in the unaudited condensed consolidated statement of operations, and immediately deconsolidated GMI upon its sale. GMDC was not a related party of the Company at the time of its purchase of GMI. Subsequent to our deconsolidation of GMI, GMI and GMDC are related parties of the Company due to until the August 9, 2023 sale of our equity interest in GMDC. The Company's current and future rights with regard to GMDC terminated with the sale of the equity interest.

The components of the consideration received and the methods for determining their fair values as of March 17, 2023 were as follows:

Consideration	Amount	Description and Valuation Methodology
Cash at closing	\$ 935,974	Cash received at closing less estimated value of transition services to be provided.
Cash after closing	133,148	Actual cash operating expenses of GMI from March 1 through March 17, 2023 (prior to the transfer of GMI to GMDC).
GMDC common stock	581,000	Based on Series A preferred stock issuance to other GMDC investors for \$3,000,000 in cash and application of an option pricing model backsolve method and a minority interest discount to estimate the fair value of the common shares of GMDC.
Contingent payments	682,000	Estimated by applying a discount rate of 40.8% to the projected cash receipts expected over the 7-year horizon. (See Note 5).
Total consideration	\$ 2,332,122	

The GMDC common stock was accounted for as an equity method investment from March 17, 2023 and through its sale on August 9, 2023. During this period, a net loss of \$245,525 in the equity investment was recorded. On August 9, 2023, the Company sold its remaining equity interest in GMDC in exchange for \$400,000 in cash and recognized a gain on sale of \$64,525. The contingent consideration receivable of \$682,000 was settled in cash for \$1,000,000 and a gain of \$318,000 was recognized during the three months ended September 30, 2023 (see Note 5).

#### Nature of Products and Services

We generate revenue from the sales of information technology professional services, sales of third-party software licenses and implementation and training services, and sales of third-party support and maintenance contracts based on those software products, and incentive payments received from third-party software suppliers for facilitating sales directly between that supplier and a customer introduced by the Company. We sell through our direct relationships with end customers and under subcontractor arrangements.

12

**WaveDancer, Inc.**

Form 10-Q September 30, 2023

Professional services are offered through several arrangements – through time and materials arrangements, fixed-price-per-unit arrangements, fixed-price arrangements, or combinations of these arrangements within individual contracts. Revenue under time and materials arrangements is recognized over time in the period the hours are worked or the expenses are incurred, as control of the benefits of the work is deemed to have passed to the customer as the work is performed. Revenue under fixed-price-per-unit arrangements is recognized at a point in time when delivery of units has occurred, and units are accepted by the customer or are reasonably expected to be accepted. Generally, revenue under fixed-price arrangements and mixed arrangements is recognized either over time or at a point in time based on the allocation of transaction pricing to each identified performance obligation as control of each is transferred to the customer. For fixed-price arrangements under which documentary evidence of acceptance or receipt of deliverables is not present or withheld by the customer, the Company recognizes revenue when it has the right to invoice the customer. For fixed-price arrangements for which the Company is paid a fixed fee to make itself available to support a customer, with no predetermined deliverables to which transaction prices can be estimated or allocated, revenue is recognized ratably over time.

Third-party software licenses are classified as enterprise server-based software licenses or desktop software licenses, and desktop licenses are further classified by the type of customer and whether the licenses are bulk licenses or individual licenses. The Company's obligations as the seller for each class differ based on its reseller agreements and whether its customers are government or non-government customers. Revenue from enterprise server-based sales to either government or non-government customers is usually recognized in full at a point in time based on when the customer gains use of the full benefit of the licenses, after the licenses are implemented. If the transaction prices of the performance obligations related to implementation and customer support for the individual contract ~~is~~ are material, these obligations are recognized separately over time, as performed. Revenue for desktop software licenses for government customers is usually recognized on a gross basis at a point in time, based on when the customer's administrative contact gains training in and beneficial use of the administrative portal. Revenue for bulk desktop software licenses for non-government customers is usually recognized on a gross basis at a point in time, based on when the customer's administrative contact gains training in and beneficial use of the administrative portal. For desktop software licenses sold on an individual license basis to non-government customers, where the Company has no obligation to the customer after the third-party makes delivery of the licenses, the Company has determined it is acting as an agent, and the Company recognizes revenue upon delivery of the licenses only for the net of the selling price and its contract costs.

Third-party support and maintenance contracts for enterprise server-based software include a performance obligation under the Company's reseller agreements for it to be the first line of support (direct support) and second line of support (intermediary between customer and manufacturer) to the customer. Because of the support performance obligations, and because the amount of support is not estimable, the Company recognizes revenue ratably over time as it makes itself available to provide the support.

Incentive payments are received under reseller agreements with software manufacturers and suppliers where the Company introduces and courts a customer, but the sale occurs directly between the customer and the supplier or between the customer and the manufacturer. Since the transfer of control of the licenses cannot be measured from outside of these transactions, revenue is recognized when payment from the manufacturer or supplier is received.

### Contract Balances

#### Accounts Receivable

Trade accounts receivable are recorded at the billable amount where the Company has the unconditional right to bill, net of allowances for doubtful accounts. The allowance for doubtful accounts is based on the Company's assessment of the collectability of accounts. Management regularly reviews the adequacy of the allowance for doubtful accounts by considering the age of each outstanding invoice, each customer's expected ability to pay and collection history, when applicable, to determine whether a specific allowance is appropriate. Accounts receivable deemed uncollectible are charged against the allowance for **doubtful accounts credit losses** when identified. There were no such allowances recognized as of **September 30, 2023** **March 31, 2024** and December 31, **2022** **2023**.

Accounts receivable as of **September 30, 2023** **March 31, 2024** and December 31, **2022** **2023**, consist of the following:

	September 30, 2023	December 31, 2022	March 31, 2024	December 31, 2023
Billed federal government	\$ 1,456,519	\$ 1,573,407	\$ 774,764	\$ 1,110,001

Accounts receivable	<u>\$ 1,479,780</u>	<u>\$ 1,629,559</u>	<u>\$ 776,025</u>	<u>\$ 1,117,862</u>

Billed receivables from the federal government include amounts due from both prime contracts and subcontracts where the federal government is the end customer.

#### Contract Liabilities

Contract liabilities consist of amounts that have been invoiced and for which the Company has the right to bill, but that have not been recognized as revenue because the related goods or services have not been transferred. Changes in **contracts** **contract** liabilities balances are as follows:

#### Deferred Costs of Revenue

Deferred costs of revenue consist of the costs of third-party support and maintenance contracts for enterprise server-based software. These costs are reported under the prepaid expenses and other current assets caption on the Company's condensed consolidated balance sheets. The Company recognizes these direct costs ratably over time as it makes itself available to provide its performance obligation for software support, commensurate with its recognition of revenue. As of **September 30, 2023**, and **December 31, 2022** and **March 31, 2023** the Company had **\$0** of **no** deferred costs of revenue. Changes in deferred costs of revenue balances for the **nine** **three** months ended **September 30, 2022**, **March 31, 2024** are as follows:

#### Note **Leases** **4. Leases**

The Company has two significant operating leases, one for its headquarters offices in Fairfax, Virginia (the "Fairfax Lease") and one for additional office space in Annapolis, Maryland. The leases both commenced in 2021 and **have had** original lease terms ranging from 37 to 67 months, and rental rates escalate by approximately 2.5% annually under both leases. The Company determines if an arrangement is a lease at inception. In February 2024, the Company gave notice of exercise of a termination option of the Fairfax Lease effective November 30, 2024 for a fee equivalent to two months rent, in accordance with lease terms. Under lease modification standards, the Company reassessed the Fairfax Lease, resulting in the derecognition of the related lease asset of \$165,721 and lease liabilities of \$172,140 on the Company's condensed consolidated balance sheets and a gain on lease termination of \$6,419 as presented on the Company's condensed consolidated statements of operations.

As of **September 30, 2023** **March 31, 2024** and **December 31, 2022** **2023**, the Company does not have any sales-type or direct financing leases.

Each of the Company's operating lease assets represent its right to use an underlying asset for the lease term and the related lease liability **represent** **represents** its obligation to make lease payments arising from the lease. Operating lease assets and liabilities are recognized at the commencement date, **subject** to reassessment upon the material

modification of a lease, based on the present value of lease payments over the lease term. Since the leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at the lease commencement dates or lease modification dates in determining the present value of lease payments. The operating lease assets also include any lease payments made and exclude lease incentives. Lease expense for lease payments is recognized on a straight-line basis over the lease term. The Company's lease agreements include rental payments escalating annually for inflation at a fixed rate. These payments are included in the initial measurement of the operating lease liabilities and operating lease assets. The Company does not have any rental payments which are based on a change in an index or a rate that can be considered variable lease payments, which would be expensed as incurred.

The Company's lease agreements do not contain any material residual value guarantees or material restrictions or covenants.

The Company does not sublease any real estate to third parties.

As of September 30, 2023 March 31, 2024, our two remaining operating leases had a weighted average remaining lease term of 28.7 months and a weighted average discount rate of 5.1% 4.5%. Future lease payments under operating leases as of September 30, 2023 March 31, 2024, were as follows:

2023	58,041
2024	174,721
2025	74,804
2026	70,220
Total lease payments	377,786
Less: discount	(24,301 )
Present value of lease liabilities	\$ 353,485
Remainder of 2024	\$ 80,114
Total lease payments	80,114
Less: discount	(1,336 )
Present value of lease liabilities	\$ 78,778

The total expense incurred related to its operating leases was \$38,053 \$38,719 and \$53,560 \$38,053 for the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and \$118,567 and \$164,281 for the nine months ended September 30, 2023 and 2022, respectively, and is included in selling, general and administrative expenses on the condensed consolidated statements of operations.

Note 5. Fair

Value Fair Value Measurements

Measurements

The Company defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The standard describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value which are the following:

- Level 1—Quoted prices in active markets for identical assets or liabilities;
- Level 2—Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and
- Level 3—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table presents the fair value hierarchy for the Company's financial instruments measured at fair value on a recurring basis as of September 30, 2023 March 31, 2024 and December 31, 2022 2023:

	September 30, 2023				March 31, 2024			
	Level 1		Level 2		Level 3		Total	
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Cash equivalents:								
Money market funds	\$ 809,997	\$ -	\$ -	\$ 809,997	\$ 330,593	\$ -	\$ -	\$ 330,593

	December 31, 2022				December 31, 2023			
	Level 1		Level 2		Level 3		Total	
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Cash equivalents:								
Money market funds	\$ 58,242	\$ -	\$ -	\$ 58,242	\$ 631,258	\$ -	\$ -	\$ 631,258

Money market funds are highly liquid investments and are included in cash and cash equivalents on the consolidated balance sheets. The pricing information on these investment instruments is readily available and can be independently validated as of the measurement date. This approach results in the classification of these securities as Level 1 of the fair value hierarchy.

As discussed in Note 2 above, in connection with its sale of GMI, the Company received contingent consideration that requires to required GMDC to make annual payments equal to five percent (5%) of the purchaser's GAAP based revenue through December 31, 2029, up to a cumulative maximum of \$4,000,000, attributable to the purchaser's blockchain-enabled digital supply chain management platform and associated technologies. The fair value of the contingent consideration was estimated based on GMDC's forecast of revenue, the estimated after-tax payments to the Company, and the present value of the after-tax payments based on discount rate that reflects the risk of achieving the timing and amounts of forecasted payments. The significant inputs utilized in estimating the fair value of contingent consideration include the forecast of revenues, the income tax rate of 27.0 percent, and the discount rate of 40.75 percent. On August 9, 2023, the Company and GMDC agreed to terminate all rights and obligations with respect to the calculation and payment of future contingent payments from GMDC to the Company in exchange for the payment of \$1,000,000 cash by GMDC to the Company, resulting in a gain of \$318,000.

The following table is a roll-forward of the There were no assets requiring Level 3 fair value measurements which are as of not March 31, 2024 considered financial instruments. and December 31, 2023.

**Note 7. Stock**

**Based** Stock-Based Compensation  
**Compensation**

We have three stock-based compensation plans. The 2006 Stock Incentive Plan was adopted in 2006 ("2006 Plan") and had options granted under it through April 12, 2016. The 2016 Stock Incentive Plan was adopted in 2016 ("2016 Plan") and had options granted under it through November 15, 2021. On October 11, 2021, the Board of Directors approved the 2021 Stock Incentive Plan ("2021 Plan") and on December 2, 2021, our shareholders approved the 2021 Plan.

17

The Company recognizes compensation costs on a straight-line basis over the service period of the awards.

There were no option awards granted in the three and nine months ended September 30, March 31, 2024 and 2023. Fair values of option awards granted in the three and nine months ended September 30, 2022, were estimated using the Black-Scholes option pricing model under the following assumptions:

	Three Months	Nine Months
Risk-free interest rate	2.85% - 2.90%	1.91% - 2.90%
Dividend yield	0 %	0 %
Expected term (years)	3.25 - 6.00	3.25 - 6.00
Expected volatility	45.9% - 48.1%	45.8% - 48.5%

Determining the assumptions for the expected term and volatility requires management to exercise significant judgment. The expected term represents the weighted-average period that options granted are expected to be outstanding giving consideration to vesting schedules. Since the Company does not have an extended history of actual exercises, the Company has estimated the expected term using a simplified method which calculates the expected term as the average of the time-to-vesting and the contractual life of the awards. Given the limited public market for the Company's stock, the Company has elected to estimate its expected volatility by benchmarking its volatility to that of several public company issuers that operate within its market segment. The guideline companies' volatility was increased by a size adjustment premium of 30% to compensate for the difference in size between the guideline companies and the Company in its calculation.

There were 53,500 options with grant date fair values totaling \$168,900, and 131,200 options with grant date fair values totaling \$1,639,870, granted during the three and nine months ended September 30, 2022, respectively. There were zero and 10,700 options exercised during the three months ended September 30, 2023 March 31, 2024 and 2022, respectively. There were 2,000 and 26,400 options exercised during the nine months ended September 30, 2023 and 2022, respectively. As of September 30, 2023 March 31, 2024, there was \$431,067 \$222,359 of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the stock incentive plans; that cost is expected to be recognized over a weighted-average period of 11.14 months.

Total compensation expense related to these plans was \$180,816 \$113,780 and \$398,319 \$288,172 for the three months ended September 30, 2023 March 31, 2024 and 2022, respectively, and \$557,146 and \$971,777 for the nine months ended September 30, 2023 and 2022, respectively, and is included in selling, general and administrative expenses on the condensed consolidated statements of operations.

#### Note 8. Settlement of Litigation

On April 28, 2023, the Company and Jeffrey Gerald, the individual from whom the WaveDancer purchased all the outstanding shares of GMI, executed an agreement to settle pending litigation between them (the "Settlement Agreement"). On January 25, 2023, Gerald, as the result of the termination of his employment, filed a lawsuit against the Company for one year's severance of \$150,000 and benefits to which he claimed he was entitled under his employment agreement with the Company. He had also claimed an anticipatory breach of the payment of \$1,500,000 of deferred consideration otherwise due him on December 10, 2023, under the Stock Purchase Agreement between him and the Company and an anticipatory breach to release from escrow 43,648 shares of the Company's common stock which are held in escrow for application against potential indemnity claims under the Stock Purchase Agreement.

The Company filed an answer denying Gerald's claims. In addition, the Company filed a counterclaim seeking damages from Gerald associated with the acquisition transaction and arising under the Stock Purchase Agreement.

The principal terms of the Settlement Agreement were:

(a) Note All amounts due to Gerald related to the GMI acquisition, including the \$1,500,000 Revolving Line of deferred consideration, were deemed satisfied and such obligations were extinguished;

8. Credit

(b) The Company removed restrictions from 43,648 shares of the Company's common stock;

(c) The Company paid Gerald \$25,000 as reimbursement for legal costs; and,

(d) Gerald and the Company agreed to mutual general releases of one another.

As a result of the settlement, the Company recognized a gain, net of expenses, of \$1,442,468 in the second quarter of 2023.

#### Note 9. Revolving Line of Credit and Notes Payable

On September 30, 2022, the Company entered a revolving line of credit with Summit Community Bank ("Summit") that provided for on-demand or short-term borrowings of up to \$1,000,000 at a variable interest rate equal to the prime rate as published in *The Wall Street Journal*, with a minimum rate of 3.99% and a maximum rate of 20.00%, and subject to a borrowing base calculated using outstanding accounts receivable. Borrowings under the line of credit are secured by the assets of the Company. There were no borrowings and \$500,000 of no repayments during the three months ended September 30, 2023 March 31, 2024, and there were \$575,000 was \$575,000 of borrowings and \$500,000 of no repayments during the nine months ended September 30, March 31, 2023. This line of credit expired on August 16, 2023.

On September 11, 2023, the Company and Summit entered a new line of credit agreement with the same terms as the preceding agreement, except that the maximum availability under the new line was reduced from \$1,000,000 to \$500,000. As of September 30, 2023 March 31, 2024, there was \$500,000 outstanding and no borrowing availability under this

line of credit. The line of credit expires on January May 16, 2024. The Company is seeking a short-term extension from the lender to allow for additional time to close the Merger transaction, upon which the lender will be repaid in full.

As of March 31, 2024, the fair value of debt outstanding on our revolving line of credit approximates its carrying value due to the short term nature of the facility.

**Agreement**

On July 8, 2022, we entered into a Common Stock Purchase Agreement (the "Purchase Agreement" or "ELOC") and a Registration Rights Agreement (the "Registration Rights Agreement") with B. Riley Principal Capital II, LLC ("B. Riley"). Pursuant to the Purchase Agreement, subject to certain limitations and conditions, the Company has the right, but not the obligation, to sell to B. Riley up to \$15,000,000 \$15,000,000 of shares of the Company's common stock, par value \$0.001 per share ("Common Stock"), from time to time. Sales of Common Stock to B. Riley under the Purchase Agreement, and the timing of any such sales, are solely at the Company's option, and the Company is under no obligation to sell any securities to B. Riley under the Purchase Agreement. Pursuant to the Registration Rights Agreement, the Company agreed to file a registration statement with the Securities Exchange Commission (the "SEC") to register under the Securities Act of 1933, as amended (the "Securities Act") the resale by B. Riley of up to 450,000 shares of Common Stock that the Company may issue or elect, in the Company's sole discretion, to issue and sell to B. Riley, from time to time under the Purchase Agreement.

On August 11, 2022 Use of the ELOC is subject to restrictions based on the price and November 10, 2022, trading volume of our stock, which limits its availability to the Company issued to B. Riley 8,984 and 2,995 shares, respectively, as a commitment fee in accordance with the Purchase Agreement. The total value significant source of the commitment fee shares was \$150,000 and is included in prepaid expenses and other current assets on the unaudited consolidated condensed balance sheet as of December 31, 2022. The commitment fee represents prepaid stock issuance cost and is being amortized to additional paid in capital as shares are sold under the Purchase Agreement. For the three and nine months ended September 30, 2023, the Company amortized \$54,692 and \$150,000 of the commitment fee, respectively, capital.

During the three months ended September 30, March 31, 2024, the Company had no sales of shares of common stock. During the three months ended March 31, 2023, the Company sold 20,000 7,429 shares of common stock under the ELOC at an average price of \$5.90 \$7.20 per share, net of fees of \$0.30 approximately \$0.40 per share. The net proceeds from this sale were \$118,655. During the nine months ended September 30, 2023, the Company sold 27,429 shares of common stock under the ELOC at an average price of \$6.30 per share, net of fees of approximately \$0.30 per share. The net proceeds from these sales were \$172,108. There were no sales under the Purchase Agreement during the three and nine months ended September 30, 2022, \$53,453.

Note

11. Earnings Loss Per Share  
Per Share

Basic earnings (loss) per share excludes dilution and is computed by dividing the loss available to common shareholders by the weighted-average number of shares outstanding for the period. Diluted earnings (loss) per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, except for periods when the Company reports a net loss because the inclusion of such items would be antidilutive. The antidilutive effects of 23,104 3,929 shares from stock options and zero shares from warrants, and 29,456 34,599 shares from stock options and zero shares from warrants, were excluded from diluted shares for the three and nine months ended September 30, 2022 March 31, 2024, respectively. The antidilutive effects of 43,735 shares from stock options and zero shares from warrants, and 57,009 shares from stock options and 15,000 shares from warrants, were excluded from diluted shares for the three and nine months ended September 30, 2022 2023, respectively.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Statement Regarding Forward-Looking Statements

This Form 10-Q contains forward-looking statements regarding our business, customer prospects, or other factors that may affect future earnings or financial results that are subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995. Such statements involve risks and uncertainties which could cause actual results to vary materially from those expressed in the forward-looking statements. Investors should read and understand the risk factors detailed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 December 31, 2023 ("Annual Report") and in other filings with the Securities and Exchange Commission.

We operate in a rapidly changing environment that involves a number of risks, some of which are beyond our control. This list highlights some of the risks which may affect future operating results. These are the risks and uncertainties we believe are most important for you to consider. Additional risks and uncertainties, not presently known to us, which we currently deem immaterial, or which are similar to those faced by other companies in our industry or business in general, may also impair our business operations. If any of the following risks or uncertainties actually occur, our business, financial condition and operating results would likely suffer. These risks include, among others, the following:

- Recent, past and future acquisitions and investments could disrupt our business and harm our financial condition and operating results.
- We have had operating losses in three of each four of the last four five years and may not achieve or maintain profitability in the future.
- A significant portion of our revenue is expected to be generated by sales to government entities, which are subject to a number of challenges and risks.
- We face intense competition and could lose market share to our competitors, which could adversely affect our business, financial condition, and results of operations.
- We rely on our management team and other key employees and will need additional personnel to grow our business, and the loss of one or more key employees or our inability to hire, integrate, train and retain qualified personnel, including members for our board of directors, could harm our business.
- We are dependent on a few key customer contracts for a significant portion of our future revenue, and a significant reduction in services to one or more of these contracts would reduce our future revenue and harm our anticipated operating results.
- Our proprietary rights may be difficult to enforce or protect, which could enable others to copy or use aspects of our products without compensating us.
- We are dependent on information technology, and disruptions, failures or security breaches of our information technology infrastructure could have a material adverse effect on our operations.
- We depend on computing infrastructure operated by Microsoft and other third parties to support some of our solutions and customers, and any errors, disruption, performance problems, or failure in their or our operational infrastructure could adversely affect our business, financial condition, and results of operations.
- Failure to comply with governmental laws and regulations could harm our business.
- We are subject to risks associated with our strategic investments, and impairments in the value of our investments could negatively impact our financial results.
- Our failure to raise additional capital or generate the significant capital necessary to expand our operations and invest in new products and subscriptions could reduce our ability to compete and could harm our business.
- The requirements of being a public company may strain our resources, divert management's attention, and affect our ability to attract and retain qualified board members.

- If we are not able to maintain and enhance our brand and our reputation as a provider of high-quality security solutions and services, our business and results of operations may be adversely affected.

In some cases, you can identify forward-looking statements by terms such as "may," "will," "should," "could," "would," "expect," "plans," "anticipates," "believes," "estimates," "projects," "predicts," "intends," "potential" and similar expressions intended to identify forward-looking statements. These statements reflect our current views with respect to future events and are based on assumptions and subject to risks and uncertainties. Given these uncertainties, you should not place undue reliance on these forward-looking statements. We discuss many of these risks in greater detail under the heading "Risk Factors" in Item 1A of our 2022 10-K. Also, these forward-looking statements represent our estimates and assumptions only as of the date of this report. Except as required by law, we assume no obligation to update any forward-looking statements after the date of this report.

#### Our Business

Founded in 1979 as Information Analysis Incorporated, the Company changed its name to WaveDancer, Inc. and converted from a Virginia corporation to a Delaware corporation in December 2021. The Company is in the business of developing and maintaining information technology ("IT") systems, modernizing client information systems, and performing other IT-related professional services to government and commercial organizations.

On March 17, 2023, the Company sold effectively 75.1% of the equity of its Gray Matters, Inc. subsidiary ("GMI") to Gray Matters Data Corporation ("GMDC"). The Company's retained interest in GMI of 24.9% was initially accounted for as an equity method investment. Subsequent to the sale the Company discontinued consolidating GMI and the Company has reflected GMI as a discontinued operation in its consolidated statements of operations for all periods presented. Unless otherwise noted, all amounts and disclosures throughout this Item 2 relate to the Company's continuing operations. See Note 2 to the unaudited condensed consolidated financial statements for further information about the sale transaction, the deconsolidation of GMI, and treatment of GMI as a discontinued operation. On August 9, 2023, the Company sold its remaining 24.9% interest in GMI to GMDC. On August 9, 2023, the Company sold its remaining equity interest in GMDC in exchange for \$400,000 in cash, and recognized a gain on sale of \$64,525. As of September 30, 2023 the Company has no equity method investment in GMDC and any other equity exposure to the GMI business.

The Company is an IT provider primarily for the benefit of federal government agencies. At present, we primarily apply our technology, services and experience to legacy software migration and modernization, developing web-based and mobile device solutions, including dynamic electronic forms development and conversion, data analytics, and we are in the process of acquiring talent and expertise in developing cybersecurity and cloud services practices. Our focus is on enterprise IT solutions primarily relating to system modernization, cloud-based solutions and cybersecurity protection.

Since the Company's inception, we have performed software development and conversion projects for over 100 commercial and government customers including, but not limited to, the Department of Agriculture, Department of Defense, Department of Education, Department of Homeland Security, Department of the Treasury, U.S. Small Business Administration, U.S. Army, U.S. Air Force, Department of Veterans Affairs, and General Dynamics Information Technology (formerly Computer Sciences Corporation, CSRA).

Modernization has been a core competency of the Company for over 20 years. We have modernized over 100 million lines of COBOL code for over 35 governmental and commercial customers. We maintain a pool of skilled COBOL programmers. This provides us with a competitive advantage as the labor pool of such programmers is shrinking as aging software professionals retire. Our business has also historically relied upon the reselling of applications, primarily for forms development.

Through our acquisition in April 2021 of Tellenger, Inc. ("Tellenger"), which is now a wholly owned subsidiary of the Company, we acquired competencies in web-based solutions and cybersecurity. Tellenger is a boutique IT consulting and software development firm specializing in modernization, software development, cybersecurity, cloud solutions, and data analytics. We believe combining web-based solutions with system modernization will provide us with the skill sets that are needed to migrate legacy systems to the cloud. We foresee this as a key component of our modernization growth since there are billions of lines of code, in both the governmental and commercial sectors, that eventually must be modernized. It is also our intention to better leverage our resources, largely gained through the acquisition of Tellenger, to take advantage of the growth in the cybersecurity market.

In December 2021, we announced the reorganization of our entire professional services practice into Tellenger, and as a result, our professional services are contained in a single entity. Through Tellenger, we perform services such as business process re-engineering, cloud migrations, and Software-as-a-Service, ("SaaS") or SaaS, implementations on behalf of clients in the private and public sector with an aim to increase productivity, gain efficiencies, and achieve key performance indicators.

## Our Strategy

**Our strategy** On November 15, 2023, the Company entered into a merger agreement with Firefly Neuroscience, Inc. ("Firefly"), a privately held, commercial-stage, medical technology company, to combine the companies in an all-stock transaction (the "Merger"). The closing of the transaction is to grow our business organically contingent upon the approval of WaveDancer and Firefly shareholders, both of which have been obtained, as well as satisfaction of other closing conditions including, among other things, the Company having sufficient cash to satisfy all its outstanding liabilities as of the closing date and approval by Nasdaq Capital Markets LLC ("Nasdaq") of Firefly's initial listing application. The Merger agreement provides that in connection with and nearly simultaneous with the closing of the Merger, WaveDancer will sell its Tellenger subsidiary, the company through acquisitions, which WaveDancer operates its current revenue-generating business, to WaveTop Solutions, Inc., a company owned and controlled by WaveDancer's chairman and chief executive officer, for \$1.5 million of cash. Upon closing of the Merger, the combined company will focus on continuing to develop and commercialize Firefly's Artificial Intelligence driven Brain Network Analytics (BNA™) platform, which was previously cleared by the U.S. Food and Drug Administration.

Since late 2023, we have been devoting our efforts to closing the Merger with Firefly. If the Merger does not close, we will need to make fundamental decisions as to how to proceed with our business. We anticipate that we will be delisted from Nasdaq. We can operate profitably but cannot support the administrative expenses of being a public reporting company. We will consider all of our options, including, but not limited to, ceasing to be a reporting company (which would reduce our operating expenses significantly), raising capital through private placement (which could be highly dilutive), transferring to the OTC Market, seeking another merger partner (which may be difficult if we are delisted from Nasdaq), or selling our business to satisfy our liabilities and dissolving. To pursue any strategy under which we continue operations, we will need to reduce our expense structure and raise capital.

The key elements of the strategy for continuing operations that we will pursue if the Merger does not close are discussed below.

Through the acquisition of Tellenger Inc. in 2021, we began to reposition our legacy professional services business by allocating resources away from third-party product reselling and toward professional services, which management viewed as provides more consistent revenue at significantly higher margin. margins. If the Merger does not close, we may seek to purchase other technology companies whose businesses complement the Company's existing business and whose personnel would better enable us to compete for engagements in our focus areas. Pursuing growth through acquisition will require substantial additional capital, which will be more difficult and dilutive without our ability to trade on Nasdaq.

To grow organically, we are focused on intend to become more proactive in bidding as a prime contractor on government proposals and in expanding our outreach to larger prime contractors for subcontract and teaming opportunities. In the current era of digital transformation, companies of all sizes and types recognize the need to leverage enhanced technology to improve their business capabilities, operational efficiencies, and customer experiences. If they approach digital transformation in a structured, timely way they can gain benefits that give them an improved competitive advantage, reduce their time to market, improve the quality of their offerings, and revolutionize their culture in a positive way.

As discussed below under 'Liquidity Challenges in providing services to citizens throughout the COVID-19 pandemic heightened awareness and Capital Resources', accelerated the Company will progress of modernizations efforts with the U.S. Government. Many government agencies became focused on developing their own government digital strategies in order to improve productivity, streamline data sharing, reduce errors and reduce expenses. Automation also gives governments the information they need to raise additional capital make data-driven decisions.

WaveDancer's offering has the ability to grow its business either organically or through acquisition, offer a comprehensive set of technology services, that are built on a foundation of innovative technologies, to provide greater flexibility, agility, and security for IT transformations. We are actively pursuing strategic alternatives which include the potential merger or sale of the Company. Any such transaction, if consummated, could fundamentally alter the Company's business, will be able to help organizations modernize, transform and manage their technologies. We plan to capitalize on these opportunities in outreach and bids to market our relevant products and services.

## Results of Continuing Operations – Three Months Ended September 30, 2023 March 31, 2024 and 2022 2023

### Revenue

Total revenue was \$1,967,277 \$1,915,372 for the three months ended September 30, 2023 March 31, 2024, compared with \$2,306,379 \$2,160,123 in the prior year quarter, a decrease of \$339,102 \$244,751, or 14.7% 11.3%. The decrease in revenue was driven by our de-emphasis of third-party software sales which accounted for just 2.3% 1.5% of our sales in the third first quarter of 2023 2024 as compared to 8.3% 2.6% in the prior year quarter. Professional services revenue decreased by \$192,712, \$217,591, or 9.1% 10.3%, to \$1,921,300 \$1,885,867 in the third first quarter of 2023 from \$2,114,012 \$2,103,458 in the third first quarter of 2022, 2023. The decline in professional services revenue is driven primarily by one software modernization project of our historically larger projects where we had fewer resources deployed in the third first quarter of 2023 2024 as compared to the comparable prior year quarter based on current project deliverables, deliverables, as well as the discontinuation of a software training service under which our resources were continuously underutilized.

## Gross Profit

Gross profit decreased increased by **\$88,784** **\$42,460** or **12.0%** **6.5%**, to **\$649,812** **\$699,258** for the three months ended **September 30, 2023** **March 31, 2024** as compared to **\$738,596** **\$656,798** in the prior year quarter. The decrease increase in gross profit includes an increase from professional services of **\$5,533** **\$42,041** and a decrease an increase from third-party software sales of **\$94,317** **\$419**. Professional services gross profit as a percent of revenue declined increased from **37.5%** **31.2%** to **35.8%** **37.1%** due to a change in the mix of contracts generating revenue and the related billing rates resulting as well as increases in our costs of labor that outpaced billing rate increases.

## Selling, General and Administrative Expenses

The following table shows the major elements of SG&A expenses for the three months ended **September 30, 2023** **March 31, 2024** and **2022** **2023** and the changes between periods:

#### Results of Continuing Operations – Nine Months Ended September 30, 2023 and 2022

##### Revenue

Total revenue was \$6,152,022 for the nine months ended September 30, 2023, compared with \$9,052,411 in the corresponding prior year period, a decrease of \$2,900,389, or 32.0%. The decrease in revenue was driven primarily by our de-emphasis of third-party software sales which accounted for just 2.6% of our sales in the nine months ended September 30, 2023, as compared to 28.7% in the nine months ended September 30, 2022. Professional services revenue decreased by \$465,819 to \$5,992,715 for the nine months ended September 30, 2023, from \$6,458,534 in the corresponding nine months of 2022. The decline in professional services revenue arose after the first quarter and is driven primarily by one software modernization project where we had fewer resources deployed in the second and third quarters of 2023 as compared to the comparable prior year quarters based on current project deliverables.

##### Gross Profit

Gross profit decreased by \$327,284 or 14.0%, to \$2,011,623 for the nine months ended September 30, 2023, as compared to \$2,338,907 in the prior year. The decrease in gross profit includes a decrease from professional services of \$161,513 and from third-party software sales of \$165,771. Professional services gross profit as a percent of revenue declined slightly from 33.7% to 33.6% due primarily to changes in the mix of contracts generating revenue and the related billing rates.

#### Critical Accounting Estimates

Our accounting policies are described in Note 1 of our consolidated financial statements – *Organization and Summary of Significant Accounting Policies*. Our condensed consolidated financial statements and the accompanying notes thereto included elsewhere in this Quarterly Report on Form 10-Q are prepared in accordance with U.S. GAAP. The preparation of condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, costs and expenses, and related disclosures. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ significantly from our estimates. To the extent that there are differences between our estimates and actual results, our future financial statement presentation, financial condition, results of operations, and cash flows will be affected.

**WaveDancer, Inc.**

**Form 10-Q September 30, 2023**

There have been no material changes to our critical accounting estimates as compared to the critical accounting estimates discussed in our Annual Report on Form 10-K for the year ended December 31, 2022 except for two new fair value measures for the first quarter of 2023:

- 1) the determination of the fair value of the contingent consideration receivable from GMDC, as discussed in Notes 2 and 5 to the accompanying consolidated financial statements, and
- 2) the determination of the initial fair value of our equity method investment in GMDC as of March 17, 2023 December 31, 2023.

The determination of the fair value of the contingent consideration is a recurring fair value measure at the end of each reporting period and includes significant judgmental inputs not observable in the market. Significant judgment was employed in determining the assumptions used in the determination of fair value as of March 31, 2023 and, accordingly, changes in assumptions could have a material impact on the increase or decrease in the fair value of contingent consideration recorded in any given period.

#### Equity Method Investment in GMDC

The Company received 993,768 common shares of GMDC representing 19.0 percent of the fully diluted capitalization. Prior to closing the acquisition on March 17 and through March 31, 2023, GMDC raised \$3,000,000 by issuing Series A preferred shares at \$1.00 per share representing 57.2 percent of the fully diluted capitalization. The Series A transaction was considered by the Company to be the most reliable indication of the fair value of total equity of GMDC. We utilized an option pricing model backsolve method ("OPM Backsolve") to solve for the total equity value that results in a value of Series A equal to its issuance price, and to estimate the fair value of common shares. The significant inputs utilized in the OPM Backsolve include an estimated time to exit of four years, an estimated volatility of 75.0 percent, and a risk-free rate of 4.29 percent. A minority interest discount of 23.5% was also applied.

#### Liquidity and Capital Resources

On September 30, 2023 During the quarter ended March 31, 2024, the Company generated a net loss from continuing operations of \$673,950. As of March 31, 2024, the Company had a net working capital deficit of \$537,375, \$480,073, including cash and cash equivalents of \$877,198 and \$563,324. As of March 31, 2024, the Company had \$500,000 outstanding under its bank line of credit with Summit bank. For and no borrowing availability. The line of credit expires on May 16, 2024. The Company is seeking a short-term extension from the nine months ended September 30, 2023, we generated lender to allow for additional time to close the Merger transaction in early June 2024, upon which the lender will be repaid in full. In the absence of an extension, the Company and FireFly are considering options to prevent or resolve the issues arising from a net loss from continuing operations of \$929,106. As discussed below, our ability to generate sufficient cash flows to meet our obligations for the

twelve months following the issuance of these financial statements is dependent upon factors which are sufficiently outside of management's control. Accordingly, there is substantial doubt about our ability to continue as a going concern. default.

The Company's current focus is on closing the Merger. Under the terms of the Merger agreement, we must have Parent Net Cash of no less than zero on the closing date. Parent Net Cash means the amount of cash on hand, including the proceeds from the Tellenger Sale transaction of \$1.5 million, less all of our liabilities - other than the operating liabilities associated with Tellenger - on the closing date, including transaction costs and severance obligations. If the Company will need and Firefly are unable to raise additional capital required to grow its business either organically consummate the Merger, or through acquisition. The Company FireFly's Nasdaq application is also pursuing strategic alternatives which include not timely approved, and the potential merger or sale of Merger transaction does not close, we will likely be delisted from the Company. There is no assurance that our efforts will result in any transactions or provide additional capital, which creates substantial doubt about the Company's ability to continue Nasdaq as a going concern result of not meeting the minimum stockholders' equity requirement for at least one year continued listing.

If the Merger fails to close and we are delisted, we will consider all of our options, including, but not limited to, ceasing to be a reporting company (which would reduce our operating expenses significantly), raising capital through private placement (which could be highly dilutive), transferring to the OTC Market, seeking another merger partner (which may be difficult if we are delisted from the date that the accompanying financial statements are issued. We estimate that within twelve months from the date of issuing these financial statements, the Company will Nasdaq), or selling our business to satisfy our liabilities and dissolving. In any scenario where we maintain continuing operations, in addition to reducing our expense structure, we would likely need to raise additional capital to meet its ongoing operating cash flow requirements. our liquidity commitments through the end of 2024 and beyond. It is unlikely that our line of credit will continue to be extended in the absence of an imminent merger transaction.

WaveDancer, Inc.

Form 10-Q March 31, 2024

We used cash from continuing operations of \$2,020,330 \$118,671 during the nine three months ended September 30, 2023 March 31, 2024 and anticipate that over the twelve months from the date of these financial statements our operating activities may use as much as \$1.0 million to \$1.5 million.

On August 9, 2023, the Company received \$1,400,000 of cash from GMDC from: 1) the sale of the common stock of GMDC held by the Company; and, 2) in satisfaction of the contingent consideration receivable due from GMDC to the Company. On August 9, 2023, the Company repaid \$500,000 on the Summit line of credit and has no further borrowing capacity thereunder. The line of credit expires on January 16, 2024. The Company has no commitments for capital spending nor any plans for material capital expenditures.

#### Item 4. Controls and Procedures

##### *Disclosure Controls and Procedures*

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, and people performing similar functions, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of September 30, 2023 March 31, 2024 (the "Evaluation Date"). Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the Evaluation Date, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and (ii) is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

##### *Changes in Internal Controls over Financial Reporting*

There were no changes in the Company's internal control over financial reporting during the quarter ended September 30, 2023 March 31, 2024, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

##### *Inherent Limitations on Effectiveness of Controls*

Because of the inherent limitations in all control systems, no control system can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. These inherent limitations include the realities that judgments in decision making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of a person, by collusion of two or more people or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and

there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected. Notwithstanding these limitations, we believe that our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings

**There are no pending legal proceedings to which we are a party or to which any of our property is subject and, to the best of our knowledge, no such actions against us are contemplated or threatened.**

**There are no pending legal proceedings to which we are a party or to which any of our property is subject and, to the best of our knowledge, no such actions against us are contemplated or threatened.**

### Item 1A. Risk Factors

"Item 1A. Risk Factors" of our annual report on Form 10-K for the year ended December 31, 2023 includes a discussion of our risk factors. "Risk Factors" in our Form S-4/A filed on February 2, 2024 includes additional risk factors related to the Merger transaction.

*There is no assurance when or if the merger will be completed.*

If our pending merger agreement with Firefly Neuroscience, Inc. fails to close, we will likely be delisted from Nasdaq under its minimum stockholders' equity requirements, which will affect the liquidity of our common stock. Additionally, we face working capital deficits that will force us to make fundamental decisions as to how to proceed with our business. We will consider all of our options, including, but not limited to, ceasing to be a reporting company (which would reduce our operating expenses significantly), raising capital through private placement (which could be highly dilutive), transferring to the OTC Market, seeking another merger partner (which may be difficult if we are delisted from Nasdaq), or selling our business to satisfy our liabilities and dissolving. To pursue any strategy under which we continue operations, we will need to significantly reduce our expense structure and raise capital.

There have been no other material changes from the risk factors described in our annual report on Form 10-K for the year ended December 31, 2023.

"Item 1A. Risk Factors" of our annual report on Form 10-K for the year ended December 31, 2022, as amended, includes a discussion of our risk factors. There have been no material changes from the risk factors described in our annual report on Form 10-K for the year ended December 31, 2022.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On September 27, 2023, the Company sold 35,000 shares of common stock at a price of \$5.00 per share in a private placement offering from which it raised aggregate gross proceeds of \$175,000. The Company relied upon Rule 506(b) of Regulation D in issuing these shares. No placement fees or commissions were paid in connection with the offering. The proceeds are for use for general corporate purposes. **None**

### Item 3. Defaults Upon Senior Securities

**None. None**

### Item 4. Mine Safety Disclosures

Not applicable

### Item 5. Other Information

**None.** During the three months ended March 31, 2024, no director or officer of the Company adopted or terminated a "Rule 10b5-1" trading arrangement or a "non-Rule 10b5-1 trading arrangement," as each term is defined in item 408(a) of Regulation S-K.
