***for Credit Losses (In Thousands)
 Allowance for Credit Losses on Loans
 The allowance for credit losses is an estimate of expected losses inherent within the Company's loans held for***

investment and is maintained at a level believed adequate by management to absorb credit losses inherent in the entire loan portfolio. Management evaluates the adequacy of the allowance for credit losses on a quarterly basis. Expected credit loss inherent in non-cancellable off-balance-sheet credit exposures is accounted for as a separate liability in the Consolidated Balance Sheets. The allowance for credit losses on loans held for investment, as reported in the Company's Consolidated Balance Sheets, is adjusted by a provision for credit losses, which is reported in earnings, and reduced by net charge-offs. Loan losses are charged against the allowance for credit losses when management believes the uncollectability of a loan balance is confirmed and such losses are reasonably quantified. Subsequent recoveries, if any, are credited to the

allowance. For more information about the Company's policies and procedures for determining the amount of the allowance for credit losses, please refer to the discussion in Note 1, "Significant Accounting Policies," in the Notes to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data, in the Company's Annual Report on Form 10-K for the year ended December 31, 2023. The Company has made an accounting policy election to exclude accrued interest from the measurement of the allowance for credit losses in the Company's loan portfolio. As of September 30, 2024 and

December 31, 2023, the Company had accrued interest receivable for loans of $55,542 and $54,804, respectively, which is recorded in the “Other assets” line item on the Consolidated Balance Sheets. Although the Company made the election to exclude accrued interest from the measurement of the allowance for credit losses, the Company did have an allowance for credit losses on interest deferred as part of the loan deferral program established in 2020 in response to the COVID-19 pandemic of $758 and $1,245 as of September 30, 2024 and December 31, 2023, respectively. The following tables provide a roll-forward of the allowance for credit losses by loan category and a

breakdown of the ending balance of the allowance based on the Company's credit loss methodology for the periods presented: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.269%"><tr><td style="width:1.0%"></td><td style="width:23.053%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:9.062%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.536%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:9.062%"></td><td style="width:0.1%"></td><td style="width:0.1%"></td><td style="width:0.536%"></td><td style="width:0.1%"></td><td

serif;font-size:9pt;font-weight:400;line-height:120%"> The Company recorded a provision for credit losses on loans of $1,210 during the third quarter of 2024, as compared to a provision for credit losses on loans of $5,315 recorded in the third quarter of 2023. The Company's allowance for credit losses model considers economic projections, primarily the national unemployment rate and GDP, over a reasonable and supportable period of two years. The provision for credit losses on loans of $1,210 in the third quarter of 2024 was primarily driven by loan growth and changes in credit metrics that influence the

Company's expectations of future losses, including but not limited to the balance of nonperforming loans, underlying collateral values, and historical levels of charge-offs, all considered in the context of the existing balance of the allowance for credit losses. Allowance for Credit Losses on Unfunded Loan Commitments The Company maintains a separate allowance for credit losses on

unfunded loan commitments, which is included in the “Other liabilities” line item on the Consolidated Balance Sheets. For more information about the Company’s policies and procedures for determining the amount of the allowance for credit losses on unfunded loan commitments, please refer to the discussion in Note 1, “Significant Accounting Policies,” in the Notes to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data, in the Company’s Annual Report on Form 10-K for the year ended December 31, 2023. <div style="margin-bottom:9pt;text-

</td><td colspan="3" style="display:none"></td></tr></table> 34980001192000469000003102 Servicing Rights (In Thousands) The Company retains the right to service certain mortgage loans that it sells to secondary market investors. These mortgage servicing rights (“MSRs”) are recognized as a separate asset on the date the corresponding mortgage loan is sold. MSRs are amortized in proportion to and over the period of

estimated net servicing income. These servicing rights are carried at the lower of amortized cost or fair value. Fair value is determined using an income approach with various assumptions, including expected cash flows, prepayment speeds, market discount rates, servicing costs, and other factors, and is subject to significant fluctuation as a result of actual prepayment speeds, default rates and losses differing from estimates thereof. For example, an increase in mortgage interest rates or a decrease in actual prepayment speeds may cause positive adjustments to the valuation of the Company's MSRs. MSRs are evaluated for impairment (or

reversals of prior impairments) quarterly based upon the fair value of the rights as compared to the carrying amount. Impairment is recognized through a valuation allowance in the amount that unamortized cost exceeds fair value. If the Company later determines that all or a portion of the impairment no longer exists, a reduction of the valuation allowance may be recorded as an increase to income. Changes in valuation allowances related to servicing rights are reported in "Mortgage banking income" on the Consolidated Statements of Income. There was no valuation adjustment on MSRs during the nine months ended September 30, 2024 or 2023.

*** During the first quarter of 2024, the Company sold MSRs relating to mortgage loans having an aggregate unpaid principal balance of $2,013,235 to a third party for net proceeds of $23,011, resulting in a gain of $3,472. Changes in the Company's MSRs were as follows: <table style="border-collapse:collapse;display:inline-***

***Plans (In Thousands, Except Share Data)
 Pension and Post-retirement Medical Plans The Company sponsors a noncontributory defined benefit pension plan, under***

which participation and benefit accruals ceased as of December 31, 1996, and it provides retiree medical benefits, consisting of the opportunity to purchase coverage at subsidized rates under the Company's group medical plan.

Information related to the defined benefit pension plan maintained by Renasant Bank ("Pension Benefits") and to the post-retirement health and life plan ("Other Benefits") as of the dates presented is as follows:

The Company uses certain derivative instruments to meet the needs of customers as well as to manage the interest rate risk associated with certain transactions. Non-hedge derivatives <span style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-

weight:400;line-height:120%">The Company enters into derivative instruments that are not designated as hedging instruments to help its commercial customers manage their exposure to interest rate fluctuations. To mitigate the interest rate risk associated with these customer contracts, the Company enters into an offsetting derivative contract position. The Company manages its credit risk, or potential risk of default by its commercial customers, through credit limit approval and monitoring procedures. The Company enters into interest rate lock commitments with its customers to mitigate the interest

rate risk associated with the commitments to fund fixed-rate and adjustable-rate residential mortgage loans. The Company also enters into forward commitments to sell residential mortgage loans to secondary market investors. The following table provides a summary of the Company's derivatives not designated as hedging instruments as of the dates presented: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.853%"><tr><td style="width:1.0%"></td>

style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-style:italic;font-weight:400;line-height:120%">Derivatives designated as cash flow hedges Cash flow hedge relationships mitigate exposure to the variability of future cash flows or other forecasted transactions. The Company uses both interest rate swap contracts and interest rate collars in an effort to manage future interest rate exposure on borrowings and loans, respectively. The swap hedging strategy converts the variable interest rate on the forecasted borrowings to a fixed interest rate.

The collar hedging strategy limits the benefit to interest income when rates exceed the cap but protects interest income from interest rate fluctuations below the floor strike rate. The following table provides a summary of the Company’s derivatives designated as cash flow hedges as of the dates presented: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.853%"><tr><td style="width:1.0%"></td><td style="width:30.964%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td

The ineffective portions of the changes in fair value of the hedging instruments are immediately recognized in earnings. The assessment of the effectiveness of the hedging relationship is evaluated under the

hypothetical derivative method. There were no ineffective portions for the nine months ended September 30, 2024 or 2023. The impact on other comprehensive income for the nine months ended September 30, 2024 and 2023 is discussed in Note 12, “Other Comprehensive Income.” Derivatives designated as fair value hedges <div

style="margin-bottom:9pt;margin-top:12pt;text-align:justify">Fair value hedges protect against changes in the fair value of an asset, liability, or firm commitment. The Company enters into interest rate swap agreements to manage interest rate exposure on certain of the Company's fixed-rate subordinated notes. The agreements convert the fixed interest rates to variable interest rates. The following table provides a summary of the Company's derivatives designated as fair value hedges as of

Taxes For the nine months ended September 30, 2024 and 2023, the effective tax rate was 22.80% and 19.77%, respectively. The year-over-year increase in the Company's effective tax rate was driven primarily by taxable gains from the sale of its insurance business, taxable effects from certain restructurings of the investment portfolio, and nondeductible expense related to the Company's potential acquisition of The First Bancshares, Inc. The Company calculated the provision for income taxes by applying the estimated annual effective tax rate to year-to-date pre-tax income, and adjusting for discrete items that occurred during the period.

0.22800.1977Fair Value Measurements (In Thousands) Fair Value Measurements and the Fair Level Hierarchy Accounting Standards Codification (“ASC”) 820,

“Fair Value Measurements and Disclosures,” provides guidance for using fair value to measure assets and liabilities and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to a valuation based on quoted prices in active markets for identical assets and liabilities (Level 1), moderate priority to a valuation based on quoted prices in active markets for similar assets and liabilities and/or

based on assumptions that are observable in the market (Level 2), and the lowest priority to a valuation based on assumptions that are not observable in the market (Level 3). Recurring Fair Value Measurements The Company carries certain assets and liabilities at fair value on a recurring basis in accordance with applicable standards. The Company's recurring fair value measurements are based on the requirement to carry such

assets and liabilities at fair value or the Company's election to carry certain eligible assets at fair value. Assets and liabilities that are required to be carried at fair value on a recurring basis include securities available for sale and derivative instruments. The Company has elected to carry mortgage loans held for sale at fair value on a recurring basis as permitted under the guidance in ASC 825, "Financial Instruments"("ASC 825"). <span

style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%">The following methods and assumptions are used by the Company to estimate the fair values of the Company's financial assets and liabilities that are measured on a recurring basis: Securities available for sale: Securities available for sale consist primarily of debt securities, such as obligations of U.S. Government agencies and corporations,

obligations of states and political subdivisions and mortgage-backed securities. Where quoted market prices in active markets are available, securities are classified within Level 1 of the fair value hierarchy. If quoted prices from active markets are not available, fair values are based on quoted market prices for similar instruments traded in active markets, quoted market prices for identical or similar instruments traded in markets that are not active, or model-based valuation techniques where all significant assumptions are observable in the market. Such instruments are classified within Level 2 of the fair value hierarchy. When assumptions used in model-based valuation techniques are not observable in the market, the assumptions used by management reflect estimates of assumptions used by other market participants in

determining fair value. When there is limited transparency around the inputs to the valuation, the instruments are classified within Level 3 of the fair value hierarchy. Derivative instruments: Most of the Company's derivative contracts are extensively traded in over-the-counter markets and are valued using discounted cash flow models which incorporate observable market based inputs including current market interest rates, credit spreads, and other factors. Such

instruments are categorized within Level 2 of the fair value hierarchy and include interest rate swaps, interest rate collars and other interest rate contracts such as interest rate caps and/or floors. The Company's interest rate lock commitments are valued using current market prices for mortgage-backed securities with similar characteristics, adjusted for certain factors including servicing and risk. The value of the Company's forward commitments is based on current prices for securities backed by similar types of loans. Because these assumptions are observable in active markets, the Company's interest rate lock commitments and forward commitments are categorized within Level 2 of the fair value hierarchy. <span style="color:#000000;font-family:'Times New Roman',sans-

serif;font-size:10pt;font-weight:400;line-height:120%;text-decoration:underline">Mortgage loans held for sale in loans held for sale: Mortgage loans held for sale are primarily agency loans which trade in active secondary markets. The fair value of these instruments is derived from current market pricing for similar loans, adjusted for differences in loan characteristics, including servicing and risk. Because the valuation is based on external pricing of similar instruments, mortgage loans held for sale are classified within Level 2 of the fair value hierarchy. <span style="color:#000000;font-family:'Times New Roman',sans-

 The Company reviews fair value hierarchy classifications on a quarterly basis. Changes in the Company's ability to observe inputs to the valuation may cause reclassification of certain assets or liabilities within the fair value hierarchy. Transfers between levels of the hierarchy are deemed to have occurred at the end of period. There were no such transfers between levels of the fair value hierarchy during the nine months ended September 30, 2024. <span style="color:#000000;font-family:'Times New Roman',sans-

serif;font-size:10pt;font-weight:400;line-height:120%">For the nine months ended September 30, 2024 and 2023, respectively, there were no gains or losses included in earnings that were attributable to the change in unrealized gains or losses related to assets or liabilities held at the end of each respective period that were measured on a recurring basis using significant unobservable inputs. <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:85.449%"></td><td style="width:0.1%"></td><td colspan="3" style="display:none"></td><td style="width:0.1%"></td><td style="width:0.530%"></td><td style="width:0.1%"></td><td colspan="3" style="display:none">

height:120%">Nonrecurring Fair Value Measurements Certain assets and liabilities may be recorded at fair value on a nonrecurring basis. These nonrecurring fair value adjustments typically are a result of the application of the lower of cost or market accounting or a write-down occurring during the period. The following tables provide the fair value measurement for assets measured at fair value on a nonrecurring basis that were still held on the Consolidated Balance Sheets as of the dates presented and the level within the fair value hierarchy each is classified: <span

 The following methods and assumptions are used by the Company to estimate the fair values of the Company's financial assets measured on a nonrecurring basis: ***

***
 Individually evaluated loans: Individually evaluated loans are reviewed and evaluated for credit losses on at least a quarterly basis for additional impairment and adjusted accordingly, taking into account the fair value of the collateral less estimated selling costs. Collateral may be real estate and/or business assets including but not limited to equipment, inventory and accounts receivable. The fair value of real estate is determined based on appraisals by qualified***

licensed appraisers. The fair value of the business assets is generally based on amounts reported on the business's financial statements. Appraised and reported values may be adjusted based on changes in market conditions from the time of valuation and management's knowledge of the client and the client's business. Since not all valuation inputs are observable, these nonrecurring fair value determinations are classified as Level 3. Individually evaluated loans that were measured or re-measured at fair value had a carrying value of $50,898 and $22,328 at September 30, 2024 and December 31, 2023, respectively, and a specific reserve for these loans of $8,650 and $1,025 was included in the allowance for credit losses as of such dates. <span

style="color:#000000;font-family:'Times New Roman',sans-serif;font-size:10pt;font-weight:400;line-height:120%;text-decoration:underline">Other real estate owned: OREO is comprised of commercial and residential real estate obtained in partial or total satisfaction of loan obligations. OREO acquired in settlement of indebtedness is recorded at the fair value of the real estate less estimated costs to sell. Subsequently, it may be necessary to record nonrecurring fair value adjustments for declines in fair value. Fair value, when recorded, is determined based on appraisals by qualified licensed appraisers and adjusted for management's estimates of costs to sell.

Accordingly, values for OREO are classified as Level 3. The following table presents OREO measured at fair value on a nonrecurring basis that was still held on the Consolidated Balance Sheets as of September 30, 2024. There was no impairment recognized during 2023 of OREO assets still held in the Consolidated Balance Sheets as of December 31, 2023. <table style="border-

period. Diluted net income per common share reflects the pro forma dilution of shares outstanding, assuming outstanding service-based restricted stock awards fully vested, calculated in accordance with the treasury method. Basic and diluted net income per common share calculations are as follows for the periods presented: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:100.000%"><tr><td style="width:1.0%"></td><td style="width:72.730%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td

to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on the Company's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and the Bank must meet specific capital guidelines that involve quantitative measures of assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. Capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.
***
***

The Federal Reserve, the FDIC and the Office of the Comptroller of the Currency have issued guidelines governing the levels of capital that bank holding companies and banks must maintain. Those guidelines specify capital tiers, which include the following classifications: <table style="border-collapse:collapse;display:inline-table;margin-bottom:5pt;vertical-align:text-bottom;width:99.269%"><tr><td style="width:1.0%"></td><td style="width:37.927%"></td><td style="width:0.1%"></td><td style="width:1.0%"></td><td style="width:13.627%"></td><td style="width:0.1%"></td><td

serif;font-size:10pt;font-weight:400;line-height:120%">The operations of the Company's reportable segments are described as follows: •The Community Banks segment delivers a complete range of banking and financial services to individuals and small to medium-sized businesses including checking and savings accounts, business and personal loans, asset-based lending,

factoring, equipment leasing and treasury management services, as well as safe deposit and night depository facilities. •For periods prior to the third quarter of 2024, the Insurance segment included a full service insurance agency offering all major lines of commercial and personal insurance through major carriers. Effective July 1, 2024, the Bank sold substantially all of the assets of its

Insurance segment. •The Wealth Management segment, through the Trust division, offers a broad range of fiduciary services including the administration (as trustee or in other fiduciary or representative capacities) of benefit plans, management of trust accounts, inclusive of personal and corporate benefit accounts, and custodial accounts, as well as accounting and

money management for trust accounts. In addition, the Wealth Management segment, through the Financial Services division, provides specialized products and services to customers, which include fixed and variable annuities, mutual funds and other investment services through a third party broker-dealer. To give the Company's divisional management a more precise indication of the income and expenses they can control, the results of operations for the Community Banks, the Insurance and the Wealth Management segments reflect the direct revenues and expenses of each respective segment. Indirect revenues and

***expenses, including but not limited to income from the Company's investment portfolio as well as certain costs associated with data processing and back office functions, primarily support the operations of the community banks and, therefore, are included in the results of the Community Banks segment. Included in "Other" are the operations of the holding company and other eliminations which are necessary for purposes of reconciling to the consolidated amounts. The following tables provide financial information for the Company's operating segments as of and for the periods presented: ***
