Thousands)Nature of Operations: Renasant Corporation (referred to herein as the â€œCompanyâ€) owns and operates Renasant Bank (â€œRenasant Bankâ€ or the â€œBankâ€), Renasant Insurance, Inc., Park Place Capital Corporation and Continental Republic Capital, LLC (doing business as â€œRepublic Business Creditâ€). On July 1, 2024, the Bank sold substantially all of the assets of Renasant Insurance, Inc. Through its subsidiaries, the Company offers a diversified range of financial, wealth management and fiduciary services to its retail and commercial customers from offices located throughout the Southeast and offers factoring and asset-based lending on a nationwide basis.Basis of Presentation: The accompanying unaudited consolidated financial statements of the Company and its subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America (â€œGAAPâ€) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For further information regarding the Companyâ€™s significant accounting policies, refer to the audited consolidated financial statements and notes thereto included in the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023 filed with the Securities and Exchange Commission (the â€œSECâ€) on FebruaryÂ 23, 2024.Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates, and such differences may be material.Impact of Recently-Issued Accounting Standards and Pronouncements:In March 2023, the Financial Accounting Standards Board (â€œFASBâ€) issued Accounting Standards Update (â€œASUâ€) 2023-02, â€œInvestments - Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Methodâ€ (â€œASU 2023-02â€), which permits reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. ASU 2023-02 was effective on January 1, 2024. The adoption of this accounting pronouncement did not have an impact on the Companyâ€™s historical financial statements but could influence the Companyâ€™s decisions with respect to investments in certain tax credits prospectively.In October 2023, FASB issued ASU 2023-06, â€œDisclosure Improvementsâ€ (â€œASU 2023-06â€), which amends the disclosure requirements related to various subtopics in the FASB Accounting Standards Codification (the â€œCodificationâ€). ASU 2023-06 adds a number of disclosure requirements to the Codification in response to the SEC initiative to update and simplify disclosure requirements. ASU 2023-06 is to be applied prospectively, and early adoption is prohibited. For SEC reporting entities, the effective dates will be the respective effective dates of the SECâ€™s removal of the related disclosure requirements from Regulation S-X or Regulation S-K. If by June 30, 2027, the SEC has not removed the applicable requirement from Regulation S-X or Regulation S-K, the pending content of the related amendment will be removed from the Codification and will not become effective for any entities. ASU 2023-06 is not expected to have significant impact on the Companyâ€™s financial statements.In November 2023, FASB issued ASU 2023-07, â€œSegment Reporting (Topic 280): Improvements to Reportable Segment Disclosuresâ€ (â€œASU 2023-07â€), which amends the disclosure requirements related to segment reporting primarily through enhanced disclosure about significant segment expenses and by requiring disclosure of segment information on an annual and interim basis. ASU 2023-07 was effective January 1, 2024 and did not have a significant impact on our financial statements or segment disclosures.In December 2023, FASB issued ASU 2023-09, â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosuresâ€ (â€œASU 2023-09â€), which enhances the transparency and decision usefulness of income tax disclosures. ASU 2023-09 will require disaggregated information about a reporting entityâ€™s effective tax rate reconciliation as well as information on income taxes paid. Entities will also be required to disclose income/(loss) from continuing operations before income tax expense/(benefit) disaggregated between domestic and foreign, as well as income tax expense/(benefit) from continuing operations disaggregated by federal, state and foreign. ASU 2023-09 is effective January 1, 2025 and is not expected to have a significant impact on our financial statements.7Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)Note 2 â€“ Securities(In Thousands, Except Number of Securities)The amortized cost and fair value of securities available for sale were as follows as of the dates presented in the tables below. If the Company intends to sell the security or it is more likely than not that it will be required to sell before recovery, the entire unrealized loss is recorded as a loss within noninterest income in the Consolidated Statements of Income along with a corresponding adjustment to the amortized cost basis of the security. If the Company does not intend to sell the security and it is not more likely than not that it will be required to sell the security before recovery of its amortized cost basis, the Company evaluates if any of the unrealized loss is related to a potential credit loss. The amount related to credit loss, if any, is recognized in earnings as a provision for credit loss and a corresponding allowance for credit losses is established; each is calculated as the difference between the estimate of the discounted future contractual cash flows and the amortized cost basis of the security. A number of qualitative and quantitative factors are considered by management in the estimate of the discounted future contractual cash flows, including the financial condition of the underlying issuer, current and projected deferrals or defaults and credit ratings by nationally recognized statistical rating agencies. The remaining difference between the fair value and the amortized cost basis of the security is considered the amount related to other market factors and is recognized in other comprehensive income, net of tax.As of SeptemberÂ 30, 2024, the Company does not intend to sell any of the securities in an unrealized loss position, and it is not more likely than not that the Company will be required to sell any such security prior to the recovery of its amortized cost basis, which may be maturity. Furthermore, more than 90% of available for sale securities have the explicit or implicit backing of the federal government. Performance of these securities has been in line with broader market price performance, indicating that increases in market-based, risk-free rates, and not credit-related factors, are driving losses. When determining the fair value of 13Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)the contractual cash flows for municipal and corporate securities, the Company considers historical experience with credit sensitive securities, current market conditions, the financial condition of the underlying issuer, current credit ratings, ratings changes and outlook, explicit and implicit guarantees, or insurance programs. Based upon its review of these factors as of SeptemberÂ 30, 2024, the Company determined that all such losses resulted from factors not deemed credit-related. As a result, no credit-related impairment was recognized in current earnings, and all unrealized losses for available for sale securities were recorded in other comprehensive income (loss). See Note 12, â€œOther Comprehensive Incomeâ€ for more information on the Companyâ€™s unrealized losses on securities.The allowance for credit losses on held to maturity securities was $32 at SeptemberÂ 30, 2024 and December 31, 2023. The Company monitors the credit quality of debt securities held to maturity using bond investment grades assigned by nationally recognized statistical ratings agencies. Updated investment grades are obtained as they become available from agencies. As of SeptemberÂ 30, 2024, all of the amortized cost of debt securities held to maturity were rated A or higher by the ratings agencies.Note 3 â€“ Loans(In Thousands, Except Number of Loans)For purposes of this Note 3, all references to â€œloansâ€ mean loans excluding loans held for sale.The following is a summary of loans and leases as of the dates presented:Â September 30,2024DecemberÂ 31, 2023Commercial, financial, agricultural$1,804,961Â $1,871,821Â Lease financing103,005Â 122,807Â Real estate â€“ construction:Residential258,356Â 269,616Â Commercial940,482Â 1,063,781Â Total real estate â€“ construction1,198,838Â 1,333,397Â Real estate â€“ 1-4 family mortgage:Primary2,409,912Â 2,422,482Â Home equity537,372Â 522,688Â Rental/investment390,029Â 373,755Â Land development102,725Â 120,994Â Total real estate â€“ 1-4 family mortgage3,440,038Â 3,439,919Â Real estate â€“ commercial mortgage:Owner-occupied1,845,791Â 1,648,961Â Non-owner occupied4,045,666Â 3,733,174Â Land development103,695Â 104,415Â Total real estate â€“ commercial mortgage5,995,152Â 5,486,550Â Installment loans to individuals90,500Â 103,523Â Gross loans12,632,494Â 12,358,017Â Unearned income(4,846)(6,787)Loans, net of unearned income$12,627,648Â $12,351,230Â Past Due and Nonaccrual LoansLoans are considered past due if the required principal and interest payments have not been received as of the date such payments were due. Generally, the recognition of interest on loans is discontinued at the time the loan is 90 days past due unless the credit is well-secured and in process of collection. Consumer and other retail loans are typically charged-off no later than the time the loan is 120 days past due. In all cases, loans are placed on nonaccrual status or charged-off at an earlier date if collection of principal or interest is considered doubtful. Loans may be placed on nonaccrual status regardless of whether or not 14Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)such loans are considered past due. For loans that are placed on nonaccrual status or charged-off, all interest accrued for the current year but not collected is reversed against interest income. The interest on these loans is accounted for on the cash-basis or cost-recovery method, until qualifying for return to accrual status. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured. Management analyzes the resulting ratings, as well as other external statistics and factors such as delinquency, to track the migration performance of the portfolio balances of commercial and commercial real estate secured loans. Loan grades range between 10 and 95, with 10 being loans with the least credit risk. Loans within the â€œPassâ€ grade (those with a risk rating between 10 and 60) generally have a lower risk of loss and therefore a lower risk factor applied to the loan balances. The â€œSpecial Mentionâ€ grade (those with a risk rating of 70) represents a loan where a significant adverse risk-modifying action is anticipated in the near term that, if left uncorrected, could result in deterioration of the credit quality of the loan. Loans that migrate toward the â€œSubstandardâ€ grade (those with a risk rating between 80 and 95) generally have a higher risk of loss and therefore a higher risk factor applied to those related loan balances.The following tables present the Companyâ€™s loan portfolio by year of origination and internal risk-rating grades as of the dates presented:Â Term Loans Amortized Cost Basis by Origination YearÂ 20242023202220212020PriorRevolving LoansRevolving Loans Converted to TermTotalLoansSeptember 30, 2024Commercial, Financial, Agricultural$169,011Â $245,027Â $242,343Â $120,226Â $81,822Â $72,830Â $861,207Â $7,519Â $1,799,985Â Pass163,622Â 242,583Â 227,798Â 119,696Â 80,650Â 68,705Â 837,371Â 2,878Â 1,7 Mention311Â 1,905Â 163Â 242Â 766Â 394Â 16,290Â â€Â 20,071Â Substandard5,078Â 539Â 14,382Â 288Â 406Â 3,731Â 7,546Â 4,641Â 36,611Â Lease Financing Receivables$11,869Â $26,194Â $42,225Â $9,702Â $4,221Â $3,948Â $â€Â $â€Â $98,159Â Pass11,869Â 24,236Â 36,482Â 9,494Â 2,911Â 3,592Â â€Â â€Â 88,584Â Special Mentionâ€Â 1,638Â 5,075Â 208Â 1,310Â 356Â â€Â â€Â 8,587Â Substandardâ€Â 320Â 668Â â€Â â€Â â€Â 988Â Real Estate - Management evaluates the adequacy of the allowance for credit losses on a quarterly basis. Expected credit loss inherent in non-cancellable off-balance-sheet credit exposures is accounted for as a separate liability in the Consolidated Balance Sheets. The allowance for credit losses on loans held for investment, as reported in the Companyâ€™s Consolidated Balance Sheets, is adjusted by a provision for credit losses, which is reported in earnings, and reduced by net charge-offs. Loan losses are charged against the allowance for credit losses when management believes the uncollectability of a loan balance is confirmed and such losses are reasonably quantified. Subsequent recoveries, if any, are credited to the allowance. For more information about the Companyâ€™s policies and procedures for determining the amount of the allowance for credit losses, please refer to the discussion in Note 1, â€œSignificant Accounting Policies,â€ in the Notes to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data, in the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023.The Company has made an accounting policy election to exclude accrued interest from the measurement of the allowance for credit losses in the Companyâ€™s loan portfolio. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Company had accrued interest receivable for loans of $55,542 and $54,804, respectively, which is recorded in the â€œOther assetsâ€ line item on the Consolidated Balance Sheets. Although the Company made the election to exclude accrued interest from the measurement of the allowance for credit losses, the Company did have an allowance for credit losses on interest deferred as part of the loan deferral program established in 2020 in response to the COVID-19 pandemic of $758 and $1,245 as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.26Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)The following tables provide a roll-forward of the allowance for credit losses by loan category and a breakdown of the ending balance of the allowance based on the Companyâ€™s credit loss methodology for the periods presented:CommercialReal Estate -ConstructionRealÂ EstateÂ -1-4 FamilyMortgageRealÂ EstateÂ -CommercialMortgageLease FinancingInstallmentLoans to IndividualsTotalThree Months Ended September 30, 2024Allowance for credit losses:Beginning balance$44,951Â $18,896Â $47,421Â $77,125Â $2,515Â $8,963Â $199,871Â Charge-offs(347)â€”Â (256)(10)(642)(649)(1,904)Recoveries514Â â€”Â 57Â 11Â 8Â 611Â 1,201Â Net (charge-offs) recoveries167Â â€”Â (199)1Â (634)(38)(703)Provision for (recovery of) credit losses on loans(2,065)(2,240)(3)4,961Â 503Â 54Â 1,210Â Ending balance$43,053Â $16,656Â $47,219Â $82,087Â $2,384Â $8,979Â $200,378Â Nine Months Ended September 30, 2024Allowance for credit losses:Beginning balance$43,980Â $18,612Â $47,283Â $77,020Â $2,515Â $9,168Â $198,578Â Charge-offs(882)(546)(5,737)(642)(1,379)(9,186)Recoveries1,385Â 130Â 116Â 26Â 1,181Â 2,838Â Net (charge-offs) recoveries503Â â€”Â (416)(5,621)(616)(198)(6,348)Provision for (recovery of) credit losses on loans(1,430)(1,956)352Â 10,688Â 485Â 9Â 8,148Â Ending balance$43,053Â $16,656Â $47,219Â $82,087Â $2,384Â $8,979Â $200,378Â Period-End Amount Allocated to:Individually evaluated$8,805Â $â€”Â $â€”Â $4,878Â $â€”Â $270Â $13,953Â Collectively evaluated 34,248Â 16,656Â 47,219Â 77,209Â 2,384Â 8,709Â 186,425Â Ending balance$43,053Â $16,656Â $47,219Â $82,087Â $2,384Â $8,979Â $200,378Â Loans:Individually evaluated$15,370Â $241Â $7,815Â $47,321Â $614Â $270Â $71,631Â Collectively evaluated 1,789,591Â 1,198,597Â 3,432,223Â 5,947,831Â 97,545Â 90,230Â 12,556,017Â Ending balance$1,804,961Â $1,198,838Â $3,440,038Â $5,995,152Â $98,159Â $90,500Â $12,627,648Â Nonaccruing loans with no allowance for credit losses$122Â $â€”Â $6,868Â $25,016Â $614Â $â€”Â $32,620Â 27Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)CommercialReal Estate -ConstructionRealÂ EstateÂ -1-4 FamilyMortgageRealÂ EstateÂ -CommercialMortgageLease FinancingInstallment Loans to IndividualsTotalThree Months Ended September 30, 2023Allowance for credit losses:Beginning balance$41,310Â $19,125Â $46,434Â $75,667Â $2,480Â $9,375Â $194,391Â Charge-offs(2,252)â€”Â (130)â€”Â (641)(607)(3,630)Recoveries690Â 48Â 181Â 208Â 2Â 568Â 1,697Â Net (charge-offs) recoveries(1,562)48Â 51Â 208Â (639)(39)(1,933)Provision for (recovery of) credit losses on loans4,696Â 483Â (686)(642)1,514Â (50)5,315Â Ending balance$44,444Â $19,656Â $45,799Â $75,233Â $3,355Â $9,286Â $197,773Â Nine Months Ended September 30, 2023Allowance for credit losses:Beginning balance$44,255Â $19,114Â $44,727Â $71,798Â $2,463Â $9,733Â $192,090Â Initial impact of purchased credit deteriorated loans acquired during the period(26)â€”Â â€”Â â€”Â â€”Â â€”Â (26)Charge-offs(7,720)(57)(345)(5,512)(641)(1,997)(16,272)Recoveries2,689Â 48Â 375Â 697Â 13Â 1,884Â 5,706Â Net (charge-offs) recoveries(5,031)(9)30Â (4,815)(628)(113)(10,566)Provision for (recovery of) credit losses on loans5,246Â 551Â 1,042Â 8,250Â 1,520Â (334)16,275Â Ending balance$44,444Â $19,656Â $45,799Â $75,233Â $3,355Â $9,286Â $197,773Â Period-End Amount Allocated to:Individually evaluated$11,194Â $â€”Â $77Â $1,260Â $856Â $270Â $13,657Â Collectively evaluated33,250Â 19,656Â 45,722Â 73,973Â 2,499Â 9,016Â 184,116Â Ending balance$44,444Â $19,656Â $45,799Â $75,233Â $3,355Â $9,286Â $197,773Â Loans:Individually evaluated$20,996Â $â€”Â $13,007Â $18,403Â $1,047Â $270Â $53,723Â Collectively evaluated1,798,895Â 1,407,364Â 3,385,869Â 5,294,763Â 119,677Â 107,732Â 12,114,300Â Ending balance$1,819,891Â $1,407,364Â $3,398,876Â $5,313,166Â $120,724Â $108,002Â $12,168,023Â Nonaccruing loans with no allowance for credit losses$1,987Â $â€”Â $11,441Â $11,226Â $191Â $â€”Â $24,845Â Â The Company recorded a provision for credit losses on loans of $1,210 during the third quarter of 2024, as compared to a provision for credit losses on loans of $5,315 recorded in the third quarter of 2023. The Companyâ€™s allowance for credit losses model considers economic projections, primarily the national unemployment rate and GDP, over a reasonable and supportable period of two years. The provision for credit losses on loans of $1,210 in the third quarter of 2024 was primarily driven by loan growth and changes in credit metrics that influence the Companyâ€™s expectations of future losses, including but not limited to the balance of nonperforming loans, underlying collateral values, and historical levels of charge-offs, all considered in the context of the existing balance of the allowance for credit losses.Allowance for Credit Losses on Unfunded Loan Commitments The Company maintains a separate allowance for credit losses on unfunded loan commitments, which is included in the â€œOther liabilitiesâ€ line item on the Consolidated Balance Sheets. For more information about the Companyâ€™s policies and procedures for determining the amount of the allowance for credit losses on unfunded loan commitments, please refer to the discussion in 28Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)Note 1, â€œSignificant Accounting Policies,â€ in the Notes to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data, in the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023.The following tables provide a roll-forward of the allowance for credit losses on unfunded loan commitments for the periods presented. These mortgage servicing rights (â€œMSRsâ€) are recognized as a separate asset on the date the corresponding mortgage loan is sold. MSRs are amortized in proportion to and over the period of estimated net servicing income. These servicing rights are carried at the lower of amortized cost or fair value. Fair value is determined using an income approach with various assumptions, including expected cash flows, prepayment speeds, market discount rates, servicing costs, and other factors, and is subject to significant fluctuation as a result of actual prepayment speeds, default rates and losses differing from estimates thereof. For example, an increase in mortgage interest rates or a decrease in actual prepayment speeds may cause positive adjustments to the valuation of the Companyâ€™s MSRs.MSRs are evaluated for impairment (or reversals of prior impairments) quarterly based upon the fair value of the rights as compared to the carrying amount. Impairment is recognized through a valuation allowance in the amount that unamortized cost exceeds fair value. If the Company later determines that all or a portion of the impairment no longer exists, a reduction of the valuation allowance may be recorded as an increase to income. Changes in valuation allowances related to servicing rights are reported in â€œMortgage banking incomeâ€ on the Consolidated Statements of Income. There was no valuation adjustment on MSRs during the nine months ended September 30, 2024 or 2023.During the first quarter of 2024, the Company sold MSRs relating to mortgage loans having an aggregate unpaid principal balance of $2,013,235 to a third party for net proceeds of $23,011, resulting in a gain of $3,472.Changes in the Companyâ€™s MSRs were as follows:Balance at January 1, 2024$91,688Â Sale of MSRs(19,539)Capitalization6,860Â Amortization(7,019)Balance at September 30, 2024$71,990Â Data and key economic assumptions related to the Companyâ€™s MSRs are as follows as of the dates presented:Â 31Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)September 30, 2024DecemberÂ 31, 2023Unpaid principal balance$5,938,135Â $7,826,182Â Weighted-average prepayment speed (CPR)10.71Â %8.77Â %Estimated impact of a 10%

To mitigate the interest rate risk associated with these customer contracts, the Company enters into an offsetting derivative contract position. The Company manages its credit risk, or potential risk of default by its commercial customers, through credit limit approval and monitoring procedures. The Company enters into interest rate lock commitments with its customers to mitigate the interest rate risk associated with the commitments to fund fixed-rate and adjustable-rate residential mortgage loans. The Company also enters into forward commitments to sell residential mortgage loans to secondary market investors. The Company uses both interest rate swap contracts and interest rate collars in an effort to manage future interest rate exposure on borrowings and loans, respectively. The swap hedging strategy converts the variable interest rate on the forecasted borrowings to a fixed interest rate. The collar hedging strategy limits the benefit to interest income when rates exceed the cap but protects interest income from interest rate fluctuations below the floor strike rate.The following table provides a summary of the Companyâ€™s derivatives designated as cash flow hedges as of the dates presented:Â Balance SheetSeptember 30, 2024DecemberÂ 31, 2023Â LocationNotional AmountFair ValueNotional AmountFair ValueDerivative assets:Â Â Interest rate swapsOtherÂ Assets$130,000Â $18,373Â $130,000Â $21,486Â Â Â Interest rate collarsOther Assets450,000Â 1,232Â 200,000Â 572Â Total$580,000Â $19,605Â $330,000Â $22,058Â Derivative liabilities:Â Â Interest rate collarsOtherÂ Liabilities$â€”Â $â€”Â $250,000Â $384Â Totals$â€”Â $â€”Â $250,000Â $384Â Changes in fair value of cash flow hedges are, to the extent that the hedging relationship is effective, recorded as other comprehensive income and are subsequently recognized in earnings at the same time that the hedged item is recognized in earnings. Certain of the Companyâ€™s derivative instruments are subject to master netting agreements; however, the Company has not elected to offset such financial instruments in the Consolidated Balance Sheets. The following table presents the Companyâ€™s gross derivative positions as recognized in the Consolidated Balance Sheets as well as the net derivative positions, including collateral pledged to the extent the application of such collateral did not reduce the net derivative liability position below zero, had the Company elected to offset those instruments subject to an enforceable master netting agreement:35Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)Offsetting Derivative AssetsOffsetting Derivative LiabilitiesSeptember 30,2024DecemberÂ 31, 2023September 30,2024DecemberÂ 31, 2023Gross amounts recognized$24,514Â $29,284Â $20,661Â $26,425Â Gross amounts offset in the Consolidated Balance Sheetsâ€”Â â€”Â â€”Â â€”Â Net amounts presented in the Consolidated Balance Sheets24,514Â 29,284Â 20,661Â 26,425Â Gross amounts not offset in the Consolidated Balance SheetsFinancial instruments19,285Â 23,863Â 19,285Â 23,863Â Financial collateral pledgedâ€”Â â€”Â 810Â 1,074Â Net amounts$5,229Â $5,421Â $566Â $1,488Â Note 10 â€“ Income TaxesFor the nine months ended September 30, 2024 and 2023, the effective tax rate was 22.80% and 19.77%, respectively. The year-over-year increase in the Companyâ€™s effective tax rate was driven primarily by taxable gains from the sale of its insurance business, taxable effects from certain restructurings of the investment portfolio, and nondeductible expense related to the Companyâ€™s potential acquisition of The First Bancshares, Inc. The Company calculated the provision for income taxes by applying the estimated annual effective tax rate to year-to-date pre-tax income, and adjusting for discrete items that occurred during the period.Note 11 â€“ Fair Value Measurements(In Thousands)Fair Value Measurements and the Fair Level HierarchyAccounting Standards Codification (â€œASCâ€) 820, â€œFair Value Measurements and Disclosures,â€ provides guidance for using fair value to measure assets and liabilities and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to a valuation based on quoted prices in active markets for identical assets and liabilities (Level 1), moderate priority to a valuation based on quoted prices in active markets for similar assets and liabilities and/or based on assumptions that are observable in the market (Level 2), and the lowest priority to a valuation based on assumptions that are not observable in the market (Level 3).Recurring Fair Value MeasurementsThe Company carries certain assets and liabilities at fair value on a recurring basis in accordance with applicable standards. The Companyâ€™s recurring fair value measurements are based on the requirement to carry such assets and liabilities at fair value or the Companyâ€™s election to carry certain eligible assets at fair value. Assets and liabilities that are required to be carried at fair value on a recurring basis include securities available for sale and derivative instruments. The Company has elected to carry mortgage loans held for sale at fair value on a recurring basis as permitted under the guidance in ASC 825, â€œFinancial Instrumentsâ€ (â€œASC 825â€).The following methods and assumptions are used by the Company to estimate the fair values of the Companyâ€™s financial assets and liabilities that are measured on a recurring basis:Securities available for sale: Securities available for sale consist primarily of debt securities, such as obligations of U.S. Government agencies and corporations, obligations of states and political subdivisions and mortgage-backed securities. Where quoted market prices in active markets are available, securities are classified within Level 1 of the fair value hierarchy. If quoted prices from active markets are not available, fair values are based on quoted market prices for similar instruments traded in active markets, quoted market prices for identical or similar instruments traded in markets that are not active, or model-based valuation techniques where all significant assumptions are observable in the market. Such instruments are classified within Level 2 of the fair value hierarchy. When assumptions used in model-based valuation techniques are not observable in the market, the assumptions used by management reflect estimates of assumptions used by other market participants in determining fair value. When there is limited transparency around the inputs to the valuation, the instruments are classified within Level 3 of the fair value hierarchy.36Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)Derivative instruments: Most of the Companyâ€™s derivative contracts are extensively traded in over-the-counter markets and are valued using discounted cash flow models which incorporate observable market based inputs including current market interest rates, credit spreads, and other factors. Such instruments are categorized within Level 2 of the fair value hierarchy and include interest rate swaps, interest rate collars and other interest rate contracts such as interest rate caps and/or floors. The Companyâ€™s interest rate lock commitments are valued using current market prices for mortgage-backed securities with similar characteristics, adjusted for certain factors including servicing and risk. The value of the Companyâ€™s forward commitments is based on current prices for securities backed by similar types of loans. Because these assumptions are observable in active markets, the Companyâ€™s interest rate lock commitments and forward commitments are categorized within Level 2 of the fair value hierarchy.Mortgage loans held for sale in loans held for sale: Mortgage loans held for sale are primarily agency loans which trade in active secondary markets. The fair value of these instruments is derived from current market pricing for similar loans, adjusted for differences in loan characteristics, including servicing and risk. Because the valuation is based on external pricing of similar instruments, mortgage loans held for sale are classified within Level 2 of the fair value hierarchy.The following tables present assets and liabilities that are measured at fair value on a recurring basis as of the dates presented:Â LevelÂ 1Level 2Level 3TotalsSeptember 30, 2024Financial assets:Securities available for saleâ€”Â $764,844Â â€”Â $764,844Â Derivative instrumentsâ€”Â 39,963Â â€”Â 39,963Â Mortgage loans held for sale in loans held for saleâ€”Â 291,735Â â€”Â 291,735Â Total financial assetsâ€”Â $1,096,542Â â€”Â $1,096,542Â Financial liabilities:Derivative instruments:$â€”Â $34,555Â $â€”Â $34,555Â LevelÂ 1Level 2Level 3TotalsDecemberÂ 31, 2023Financial assets:Securities available for saleâ€”Â $923,279Â $â€”Â $923,279Â Derivative instrumentsâ€”Â 37,151Â â€”Â 37,151Â Mortgage loans held for sale in loans held for saleâ€”Á 179,756Â â€”Â 179,756Â Total financial assets$â€”Â $1,140,186Â $â€”Â $1,140,186Â Financial liabilities:Derivative instruments$â€”Â $33,608Â $â€”Â $33,608Â The Company reviews fair value hierarchy classifications on a quarterly basis. Changes in the Companyâ€™s ability to observe inputs to the valuation may cause reclassification of certain assets or liabilities within the fair value hierarchy. Transfers between levels of the hierarchy are deemed to have occurred at the end of period. There were no such transfers between levels of the fair value hierarchy during the nine months ended SeptemberÂ 30, 2024.For the nine months ended SeptemberÂ 30, 2024 and 2023, respectively, there were no gains or losses included in earnings that were attributable to the change in unrealized gains or losses related to assets or liabilities held at the end of each respective period that were measured on a recurring basis using significant unobservable inputs.Â Nonrecurring Fair Value MeasurementsCertain assets and liabilities may be recorded at fair value on a nonrecurring basis. These nonrecurring fair value adjustments typically are a result of the application of the lower of cost or market accounting or a write-down occurring during the period. The following tables provide the fair value measurement for assets measured at fair value on a nonrecurring basis that were still held on the Consolidated Balance Sheets as of the dates presented and the level within the fair value hierarchy each is classified:Â 37Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)September 30, 2024LevelÂ 1LevelÂ 2Level 3TotalsIndividually evaluated loans, net of allowance for credit losses$â€”Â $â€”Â $42,248Â $42,248Â OREOâ€”Â â€”Â 29Â 29Â Total$â€”Â $â€”Â $42,277Â $42,277Â Â DecemberÂ 31, 2023LevelÂ 1LevelÂ 2Level 3TotalsIndividually evaluated loans, net of allowance for credit losses$â€”Â $â€”Â $21,303Â $21,303Â Total$â€”Â $â€”Â $21,303Â $21,303Â The following methods and assumptions are used by the Company to estimate the fair values of the Companyâ€™s financial assets measured on a nonrecurring basis:Individually evaluated loans are reviewed and evaluated for credit losses on at least a quarterly basis for additional impairment and adjusted accordingly, taking into account the fair value of the collateral less estimated selling costs. Collateral may be real estate and/or business assets including but not limited to equipment, inventory and accounts receivable. The fair value of real estate is determined based on appraisals by qualified licensed appraisers. The fair value of the business assets is generally based on amounts reported on the businessâ€™s financial statements. Appraised and reported values may be adjusted based on changes in market conditions from the time of valuation and managementâ€™s knowledge of the client and the clientâ€™s business. Since not all valuation inputs are observable, these nonrecurring fair value determinations are classified as Level 3. Individually evaluated loans that were measured or re-measured at fair value had a carrying value of $50,898 and $22,328 at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and a specific reserve for these loans of $8,650 and $1,025 was included in the allowance for credit losses as of such dates.Other real estate owned: OREO is comprised of commercial and residential real estate obtained in partial or total satisfaction of loan obligations. OREO acquired in settlement of indebtedness is recorded at the fair value of the real estate less estimated costs to sell. Subsequently, it may be necessary to record nonrecurring fair value adjustments for declines in fair value. Fair value, when recorded, is determined based on appraisals by qualified licensed appraisers and adjusted for managementâ€™s estimates of costs to sell. Accordingly, values for OREO are classified as Level 3.The following table presents OREO measured at fair value on a nonrecurring basis that was still held on the Consolidated Balance Sheets as of SeptemberÂ 30, 2024. There was no impairment recognized during

Fair value is determined using an income approach with various assumptions including expected cash flows, market discount rates, prepayment speeds, servicing costs, and other factors. Because these factors are not all observable and include managementâ€™s assumptions, mortgage servicing rights are classified within Level 3 of the fair value hierarchy. Mortgage servicing rights were carried at amortized cost at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. There were no valuation adjustments on MSRs during the nine months ended SeptemberÂ 30, 2024 or 2023.The following table presents information as of SeptemberÂ 30, 2024 about significant unobservable inputs (Level 3) used in the valuation of assets measured at fair value on a nonrecurring basis:Â 38Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)Financial instrumentFairValueValuation TechniqueSignificantUnobservableÂ InputsRangeÂ ofÂ InputsIndividually evaluated loans, net of allowance for credit losses$42,248Â Appraised value of collateral less estimated costs to sellEstimatedÂ costsÂ toÂ sell4-10%OREO$29Â Appraised value of property less estimated costs to sellEstimated costs to sell4-10%Fair Value OptionThe Company has elected to measure all mortgage loans held for sale at fair value under the fair value option as permitted under ASC 825. Electing to measure these assets at fair value reduces certain timing differences and better matches the changes in fair value of the loans with changes in the fair value of derivative instruments used to economically hedge them.A net gain of $1,826 and net loss of $256 resulting from fair value changes of these mortgage loans were recorded in income during the nine months ended SeptemberÂ 30, 2024 and 2023, respectively. These amounts do not reflect changes in fair values of related derivative instruments used to hedge exposure to market-related risks associated with these mortgage loans. The change in fair value of both mortgage loans held for sale and the related derivative instruments are recorded in â€œMortgage banking incomeâ€ in the Consolidated Statements of Income.The Companyâ€™s valuation of mortgage loans held for sale incorporates an assumption for credit risk; however, given the short-term period that the Company holds these loans, valuation adjustments attributable to instrument-specific credit risk is nominal. Interest income on mortgage loans held for sale measured at fair value is accrued as it is earned based on contractual rates and is reflected in loan interest income on the Consolidated Statements of Income.The following table summarizes the differences between the fair value and the principal balance for mortgage loans held for sale measured at fair value as of SeptemberÂ 30, 2024 and DecemberÂ In addition, the Wealth Management segment, through the Financial Services division, provides specialized products and services to customers, which include fixed and variable annuities, mutual funds and other investment services through a third party broker-dealer.To give the Companyâ€™s divisional management a more precise indication of the income and expenses they can control, the results of operations for the Community Banks, the Insurance and the Wealth Management segments reflect the direct revenues and expenses of each respective segment. Indirect revenues and expenses, including but not limited to income from the Companyâ€™s investment portfolio as well as certain costs associated with data processing and back office functions, primarily support the operations of the community banks and, therefore, are included in the results of the Community Banks segment. Included in â€œOtherâ€ are the operations of the holding company and other eliminations which are necessary for purposes of reconciling to the consolidated amounts.The following tables provide financial information for the Companyâ€™s operating segments as of and for the periods presented:CommunityBanksWealthManagementOtherConsolidatedThree months ended September 30, 2024Net interest income (loss)$137,860Â $15Â $(6,877)$130,998Â Provision for credit losses935Â â€”Â â€”Â 935Â Noninterest income (loss)83,244Â 6,447Â (392)89,299Â Noninterest expense117,035Â 4,511Â 437Â 121,983Â Income (loss) before income taxes103,134Â 1,951Â (7,706)97,379Â Income tax expense (benefit)26,867Â 47Â (1,990)24,924Â Net income (loss)$76,267Â $1,904Â $(5,716)$72,455Â Total assets$17,959,839Â $1,163Â $(2,162)$17,958,840Â Goodwill$988,898Â â€”Â â€”Â $988,898Â CommunityBanksInsuranceWealthManagementOtherConsolidatedThree months ended September 30, 2023Net interest income (loss)$133,901Â $456Â $16Â $(6,990)$127,383Â Provision for credit losses4,615Â â€”Â â€”Â â€”Â 4,615Â Noninterest income (loss)28,956Â 3,276Â 6,361Â (393)38,200Â Noninterest expense100,902Â 2,237Â 4,739Â 491Â 108,369Â Income (loss) before income taxes57,340Â 1,495Â 1,638Â (7,874)52,599Â Income tax expense (benefit)12,339Â 387Â 72Â (2,032)10,766Â Net income (loss)$45,001Â $1,108Â $1,566Â $(5,842)$41,833Â Total assets$17,143,564Â $39,434Â $5,077Â $(6,454)$17,181,621Â Goodwill$988,898Â $2,767Â â€”Â â€”Â $991,665Â 45Table of ContentsRenasant Corporation and SubsidiariesNotes to Consolidated Financial Statements (Unaudited)CommunityBanksInsuranceWealthManagementOtherConsolidatedNine months ended September 30, 2024Net interest income (loss)$398,970Â $942Â $47Â $(20,645)$379,314Â Provision for credit losses6,673Â â€”Â â€”Â â€”Â 6,673Â Noninterest income (loss)145,179Â 6,473Â 18,933Â (1,143)169,442Â Noninterest expense327,541Â 4,392Â 13,725Â 1,213Â 346,871Â Income (loss) before income taxes209,935Â 3,023Â 5,255Â (23,001)195,212Â Income tax expense (benefit)49,507Â 785Â 147Â (5,937)44,502Â Net income (loss)$160,428Â $2,238Â $5,108Â $(17,064)$150,710Â Total assets$17,959,839Â $â€”Â $1,163Â $(2,162)$17,958,840Â Goodwill$988,898Â $â€”Â $â€”Â $â€”Â $988,898Â Nine months ended September 30, 2023Net interest income (loss)$412,070Â $1,170Â $52Â $(19,918)$393,374Â Provision for credit losses13,075Â â€”Â â€”Â â€”Â 13,075Â Noninterest income (loss)66,895Â 9,497Â 17,524Â (1,197)92,719Â Noninterest expense306,666Â 6,346Â 13,473Â 1,257Â 327,742Â Income (loss) before income taxes159,224Â 4,321Â 4,103Â (22,372)145,276Â Income tax expense (benefit)33,305Â 1,119Â 72Â (5,774)28,722Â Net income (loss)$125,919Â $3,202Â $4,031Â $(16,598)$116,554Â Total assets$17,143,564Â $39,434Â $5,077Â $(6,454)$17,181,621Â Goodwill$988,898Â $2,767Â $â€”Â $â€”Â $991,665Â 46Table of ContentsITEMÂ 2. MANAGEMENTâ€™S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS(In Thousands, Except Share Data)This Form 10-Q may contain or incorporate by reference statements regarding Renasant Corporation (referred to herein as the â€œCompanyâ€, â€œRenasantâ€, â€œweâ€, â€œourâ€, or â€œusâ€) that constitute â€œforward-looking statementsâ€ within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include information about the Companyâ€™s future financial performance, business strategy, projected plans and objectives and are based on the current beliefs and expectations of management. The Companyâ€™s management believes these forward-looking statements are reasonable, but they are all

inherently subject to significant business, economic and competitive risks and uncertainties, many of which are beyond the Companyâ€™s control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. Actual results may differ from those indicated or implied in the forward-looking statements, and such differences may be material. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties and, accordingly, investors should not place undue reliance on these forward-looking statements, which speak only as of the date they are made. Important factors currently known to management that could cause our actual results to differ materially from those in forward-looking statements include the following: (i) the Companyâ€™s ability to efficiently integrate acquisitions (including its recently-announced acquisition of The First Bancshares, Inc. described under the â€œRecent Developmentsâ€ heading below) into its operations, retain the customers of these businesses, grow the acquired operations and realize the cost savings expected from an acquisition to the extent and in the timeframe anticipated by management (including the possibility that such cost savings will not be realized when expected, or at all, as a result of the impact of, or challenges arising from, the integration of the acquired assets and assumed liabilities into the Company, potential adverse reactions or changes to business or employee relationships, or as a result of other unexpected factors or events); (ii) potential exposure to unknown or contingent risks and liabilities we have acquired, or may acquire, or target for acquisition, including in connection with the proposed merger with The First Bancshares, Inc.; (iii) the effect of economic conditions and interest rates on a national, regional or international basis; (iv) timing and success of the implementation of changes in operations to achieve enhanced earnings or effect cost savings; (v) competitive pressures in the consumer finance, commercial finance, financial services, asset management, retail banking, factoring, mortgage lending and auto lending industries; (vi) the financial resources of, and products available from, competitors; (vii) changes in laws and regulations as well as changes in accounting standards; (viii) changes in policy by regulatory agencies or increased scrutiny by, and/or additional regulatory requirements of, regulatory agencies as a result of our proposed merger with The First Bancshares, Inc.; (ix) changes in the securities and foreign exchange markets; (x) the Companyâ€™s potential growth, including its entrance or expansion into new markets, and the need for sufficient capital to support that growth; (xi) changes in the quality or composition of the Companyâ€™s loan or investment portfolios, including adverse developments in borrower industries or in the repayment ability of individual borrowers or issuers of investment securities, or the impact of interest rates on the value of our investment securities portfolio; (xii) an insufficient allowance for credit losses as a result of inaccurate assumptions; (xiii) changes in the sources and costs of the capital we use to make loans and otherwise fund our operations, due to deposit outflows, changes in the mix of deposits and the cost and availability of borrowings; (xiv) general economic, market or business conditions, including the impact of inflation; (xv) changes in demand for loan and deposit products and other financial services; (xvi) concentrations of credit or deposit exposure; (xvii) changes or the lack of changes in interest rates, yield curves and interest rate spread relationships; (xviii) increased cybersecurity risk, including potential network breaches, business disruptions or financial losses; (xix) civil unrest, natural disasters, epidemics and other catastrophic events in the Companyâ€™s geographic area; (xx) geopolitical conditions, including acts or threats of terrorism, actions taken by the United States or other governments in response to acts or threats of terrorism and/or military conflicts, which could impact business and economic conditions in the United States and abroad; (xxi) the impact, extent and timing of technological changes; and (xxii) other circumstances, many of which are beyond managementâ€™s control. Management believes that the assumptions underlying the Companyâ€™s forward-looking statements are reasonable, but any of the assumptions could prove to be inaccurate.The Company undertakes no obligation, and specifically disclaims any obligation, to update or revise forward-looking statements, whether as a result of new information or to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time, except as required by federal securities laws.47Table of ContentsRecent DevelopmentsSale of Renasant Insurance, Inc.Effective July 1, 2024, Renasant Bank sold substantially all of the assets of Renasant Insurance, Inc. for gross cash proceeds to Renasant Bank of $56,390. During the first quarter of 2024, the Company sold from the available for sale portfolio municipal securities, residential mortgage backed securities and commercial mortgage backed securities for net proceeds of $177,185. The Company intended to sell these securities as of December 31, 2023; therefore, the Company impaired the securities and recognized the loss in net income as of December 31, 2023. The carrying value of the securities immediately prior to the impairment was $196,537, and the impairment charge was $19,352. No loss was recorded in the first nine months of 2024. Proceeds from the maturities, calls and principal payments on securities during the first nine months of 2023 totaled $208,095. The Company sold from the available for sale portfolio agency securities, municipal securities, residential mortgage backed securities and commercial mortgage backed securities with a carrying value of $511,419 at the time of sale for net proceeds of $488,981, resulting in a net loss on sale of $22,438 during the nine months ended September 30, 2023. The Company did not sell any securities during the third quarter of 2024 or 2023.During the third quarter of 2022, the Company transferred, at fair value, $882,927 of securities from the available for sale portfolio to the held to maturity portfolio as the Company has the intent and ability to hold these securities until their maturity. The related net unrealized losses of $99,675 (after tax losses of $74,307) remained in accumulated other comprehensive income (loss) and will be amortized over the remaining life of the securities, offsetting the related amortization of discount on the transferred securities. At SeptemberÂ 30, 2024, the net unrealized after tax losses remaining to be amortized in accumulated other comprehensive income (loss) was $51,332. No gains or losses were recognized at the time of transfer.For more information about the Companyâ€™s security portfolio, see Note 2, â€œSecurities,â€ in the Notes to Consolidated Financial Statements of the Company in Item 1, Financial Statements, in this report.Loans Held for SaleLoans held for sale, which consist of residential mortgage loans being held until they are sold in the secondary market, were $291,735 at SeptemberÂ 30, 2024, as compared to $179,756 at DecemberÂ 31, 2023. Mortgage loans to be sold are sold either on a â€œbest effortsâ€ basis or under a mandatory delivery sales agreement. Under a â€œbest effortsâ€ sales agreement, residential real estate originations are locked in at a contractual rate with third party private investors or directly with government sponsored agencies, and the Company is obligated to sell the mortgages to such investors only if the mortgages are closed and funded. The risk we assume is conditioned upon loan underwriting and market conditions in the national mortgage market. Under a mandatory delivery sales agreement, the Company commits to deliver a certain principal amount of mortgage loans to an investor at a specified price and delivery date. Penalties are paid to the investor if we fail to satisfy the contract. Gains and losses are realized at the time consideration is received and all other criteria for sales treatment have been met. Our standard practice is to sell the loans within 30-40 days after the loan is funded. Although loan fees and some interest income are derived from mortgage loans held for sale, the main source of income is gains from the sale of these loans in the secondary market.LoansTotal loans, excluding loans held for sale, were $12,627,648 at SeptemberÂ 30, 2024 and $12,351,230 at DecemberÂ 31, 2023.The tables below set forth the balance of loans outstanding, net of unearned income and excluding loans held for sale, by loan type and the percentage of each loan type to total loans as of the dates presented:49Table of ContentsÂ September 30, 2024DecemberÂ 31, 2023Â TotalLoansPercentage of Total LoansTotalLoansPercentage of Total LoansCommercial, financial, agricultural$1,804,961Â 14.29Â %$1,871,821Â 15.15Â %Lease financing, net of unearned income98,159Â 0.78Â 116,020Â 0.94Â Real estate â€“ construction:Residential258,356Â 2.05Â 269,616Â 2.18Â Commercial940,482Â 7.45Â 1,063,781Â 8.61Â Total real estate â€“ construction1,198,838Â 9.50Â 1,333,397Â 10.79Â Real estate â€“ 1-4 family mortgage:Primary2,409,912Â 19.08Â 2,422,482Â 19.61Â Home equity537,372Â 4.26Â 522,688Â 4.23Â Rental/investment390,029Â 3.09Â 373,755Â 3.03Â Land development102,725Â 0.81Â 120,994Â 0.98Â Total real estate â€“ 1-4 family mortgage3,440,038Â 27.24Â 3,439,919Â 27.85Â Real estate â€“ commercial mortgage:Owner-occupied1,845,791Â 14.61Â 1,648,961Â 13.35Â Non-owner occupied4,045,666Â 32.04Â 3,733,174Â 30.23Â Land development103,695Â 0.82Â 104,415Â 0.85Â Total real estate â€“ commercial mortgage5,995,152Â 47.47Â 5,486,550Â 44.43Â Installment loans to individuals90,500Â 0.72Â 103,523Â 0.84Â Total loans, net of unearned income$12,627,648Â 100.00Â %$12,351,230Â 100.00Â %Loan concentrations are considered to exist when there are amounts loaned to a number of borrowers engaged in similar activities that would cause them to be similarly impacted by economic or other conditions. Total deposits were $14,509,751 and $14,076,785 at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. Noninterest-bearing deposits were $3,529,801 and $3,583,675 at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, while interest-bearing deposits were $10,979,950 and $10,493,110 at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. Interest-bearing deposits included brokered deposits of $126,995 and $461,441 at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.Management continues to focus on growing and maintaining a stable source of funding, specifically noninterest-bearing deposits and other core deposits (that is, deposits excluding brokered deposits and time deposits greater than $250,000). Noninterest-bearing deposits represented 24.33% of total deposits at SeptemberÂ 30, 2024, as compared to 25.46% of total deposits at DecemberÂ 31, 2023. The decrease in noninterest-bearing deposits as a percentage of total deposits primarily reflects deposit customers transferring noninterest-bearing deposits to interest-bearing deposits such as money market funds offered by the Company, other financial institutions and other financial services companies due to the elevated interest rate environment that continued in the first nine months of 2024. Under certain circumstances, management may elect to acquire non-core deposits (in the form of brokered deposits) or public fund deposits (which are deposits of counties, municipalities or other political subdivisions). The source of funds that we select depends on the terms of the deposits and how those terms assist us in mitigating interest rate risk, maintaining our liquidity position and managing our net interest margin; business factors, described in the following paragraph, may lead us to obtain public deposits. Accordingly, funds are acquired to meet anticipated funding needs at the rate and with other terms that, in managementâ€™s view, best address our interest rate risk, liquidity and net interest margin parameters.Public fund deposits may be readily obtained based on the Companyâ€™s pricing bid in comparison with competitors. Because public fund deposits are obtained through a bid process, these deposit balances may fluctuate as competitive and market forces change. Although the Company has focused on growing stable sources of deposits to reduce reliance on public fund deposits, it participates in the bidding process for public fund deposits when pricing and other terms make it reasonable given market 50Table of Contentsconditions or when management perceives that other factors, such as the public entityâ€™s use of our treasury management or other products and services, make such participation advisable. Our public fund transaction accounts are principally obtained from public universities and municipalities, including school boards and utilities. Public fund deposits were $2,185,034 and $1,866,495 at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and represented 15.06% and 13.26% of total deposits as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.Borrowed FundsTotal borrowings include federal funds purchased, securities sold under agreements to repurchase, advances from the Federal Home Loan Bank of Dallas (the â€œFHLBâ€), borrowings from the Federal Reserve Discount Window, subordinated notes and junior subordinated debentures and are classified on the Consolidated Balance Sheets as either short-term borrowings or long-term debt. Short-term borrowings have original maturities less than one year and typically consist of federal funds purchased, securities sold under agreements to repurchase, and short-term FHLB advances. The following table presents our short-term borrowings by type as of the dates presented:September 30, 2024DecemberÂ 31, 2023Security repurchase agreements$8,732Â $7,577Â Short-term borrowings from the FHLB100,000Â 300,000Â $108,732Â $307,577Â Long-term debt typically consists of long-term FHLB advances, our junior subordinated debentures and our subordinated notes. The following table presents our long-term debt by type as of the dates presented:September 30, 2024DecemberÂ 31, 2023Junior subordinated debentures$113,681Â $112,978Â Subordinated notes319,496Â 316,422Â $433,177Â $429,400Â Long-term funds obtained from the FHLB are used to match-fund fixed rate loans in order to minimize interest rate risk and to meet day-to-day liquidity needs, particularly when the cost of such borrowing compares favorably to the rates that we would be required to pay to attract deposits. There were no long-term advances from the FHLB outstanding at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023. All advances from the FHLB are collateralized by a blanket lien on the Bankâ€™s loans. The Company had $3,449,164 of availability on unused lines of credit with the FHLB at SeptemberÂ 30, 2024, as compared to $2,922,315 at DecemberÂ 31, 2023. The Company also had credit available at the Federal Reserve Discount Window in the amount of $634,636 with no borrowings outstanding at SeptemberÂ 30, 2024 or December 31, 2023.The Company has issued subordinated notes, the proceeds of which have been used for general corporate purposes, including providing capital to support the Companyâ€™s growth organically or through strategic acquisitions, repaying indebtedness and financing investments and capital expenditures, and for investments in Renasant Bank as regulatory capital. The subordinated notes qualify as Tier 2 capital under current regulatory guidelines.The Company owns the outstanding common securities of business trusts that issued corporation-obligated mandatorily redeemable preferred capital securities to third-party investors. The trusts used the proceeds from the issuance of their preferred capital securities and common securities (collectively referred to as â€œcapital securitiesâ€) to buy floating rate junior subordinated debentures issued by the Company (or by companies that the Company subsequently acquired). The debentures are the trustsâ€™ only assets and interest payments from the debentures finance the distributions paid on the capital securities. Interest income and weighted average yields on tax-exempt loans and securities have been computed on a fully tax equivalent basis assuming a federal tax rate of 21%.Net interest margin and net interest income are influenced by internal and external factors. Internal factors include balance sheet changes in volume and mix and pricing decisions. External factors include changes in market interest rates, competition and other factors affecting the banking industry in general, and the shape of the interest rate yield curve. The largest contributing factor to the decrease in net interest income for the nine months ended September 30, 2024, as compared to the same period in 2023, was the rising rate environment that began in 2022 and continued throughout 2023. The higher interest rates benefited yields on earning assets, but this increase was more than offset by an increase in interest expense. The rising interest rates negatively impacted both the cost and mix of our funding sources. The Federal Reserve lowered the federal funds rate by 50 basis points in September 2024, but it did not have a material impact on the Companyâ€™s results for the third quarter of 2024. The Company has continued its efforts to mitigate increases in the cost of funding through maintaining noninterest-bearing deposits, staying disciplined yet competitive in pricing on interest-bearing deposits in the current rate environment and accessing alternative sources of liquidity, such as brokered deposits. These efforts, coupled with loan growth, resulted in the growth of net interest income for the three months ended September 30, 2024, as compared to the same period in 2023. 54Table of ContentsThe following tables set forth a summary of the changes in interest earned, on a tax equivalent basis, and interest paid resulting from changes in volume and rates for the Company for the three and nine months ended September 30, 2024, as compared to the same periods in 2023 (the changes attributable to the combined impact of yield/rate and volume have been allocated on a pro-rata basis using the absolute value of amounts calculated):Three Months Ended September 30, 2024 Compared to the Three Months Ended September 30, 2023VolumeRateNetInterest income:Loans held for investment$8,662Â $12,752Â $21,414Â Loans held for sale695Â (234)461Â Securities:Taxable(1,499)1,252Â (247)Tax-exempt(123)(53)(176)Interest-bearing balances with banks2,183Â (439)1,744Â Total interest-earning assets9,918Â 13,278Â 23,196Â Interest expense:Interest-bearing demand deposits5,620Â 13,242Â 18,862Â Savings deposits(112)48Â (64)Brokered deposits(10,542)(192)(10,734)Time deposits4,975Â 6,842Â 11,817Â Borrowed funds(45)(85)(130)Total interest-bearing liabilities(104)19,855Â 19,751Â Change in net interest income$10,022Â $(6,577)$3,445Â Nine months ended September 30, 2024 Compared to the Nine Months Ended September 30, 2023VolumeRateNetInterest income:Loans held for investment$30,357Â $46,848Â $77,205Â Loans held for sale1,912Â (340)1,572Â Securities:Taxable(8,515)1,361Â (7,154)Tax-exempt(1,391)(339)(1,730)Interest-bearing balances with banks4,572Â 419Â 4,991Â Total interest-earning assets26,935Â 47,949Â 74,884Â Interest expense:Interest-bearing demand deposits14,651Â 63,360Â 78,011Â Savings deposits(405)161Â (244)Brokered deposits(16,851)1,335Â (15,516)Time deposits16,456Â 27,151Â 43,607Â Borrowed funds(17,590)1,337Â (16,253)Total interest-bearing liabilities(3,739)93,344Â 89,605Â Change in net interest income$30,674Â $(45,395)$(14,721)Interest income, on a tax equivalent basis, was $231,621 and $670,143 for the three and nine months ended September 30, 2024, as compared to $208,425 and $595,259 for the same periods in 2023. Interest expense on deposits was $261,021 and $155,163 for the nine months ended September 30, 2024 and 2023, respectively, and the cost of total deposits was 2.45% and 1.50% for the same respective periods. The increase in both deposit expense and cost is attributable to the Companyâ€™s efforts to offer competitive deposit rates in the high interest rate environment. Following the bank failures and broader industry concerns about bank liquidity that arose in March 2023, the Company maintained additional on-balance sheet liquidity, primarily in the form of brokered deposits and short-term FHLB advances. As risks abated, the Company repaid the advances and has allowed brokered deposits to mature, mitigating to some degree the impact of rising rates on our deposit costs. The Company has continued its efforts to maintain non-interest bearing deposits. Low cost deposits continue to be the preferred choice of funding; however, the Company may rely on brokered deposits or wholesale borrowings when advantageous or otherwise deemed advisable due to market conditions.Interest expense on total borrowings was $7,258 and $7,388 for the three months ended September 30, 2024 and 2023, respectively. Interest expense on total borrowings was $22,098 and $38,351 for the nine months ended September 30, 2024 and 2023, respectively. The decrease in interest expense on borrowings is a result of the repayment of FHLB borrowings during 2023 and the first quarter of 2024.57Table of ContentsA more detailed discussion of the cost of our funding sources is set forth below under the heading â€œLiquidity and Capital Resourcesâ€ in this Item.Noninterest IncomeNoninterest Income to Average AssetsThree Months Ended September 30,Nine Months Ended September 30,2024Â 20232024Â 20232.01%Â 0.88%1.30%Â 0.72%Total noninterest income includes fees generated from deposit services and other fees and commissions, income from our insurance, wealth management and mortgage banking operations, realized gains and losses on the sale of securities, the gain from the sale of our insurance agency and all other noninterest income. Noninterest income was $169,442 for the nine months ended September 30, 2024 as compared to $92,719 for the same period in 2023. The increase over the three and nine month periods is primarily due to the gain on sale of our insurance agency business on July 1, 2024, as described under the â€œRecent Developmentsâ€ heading above. Noninterest income in future periods will be negatively impacted by this sale, as we will no longer earn insurance commissions (the amount of these commissions for the three and nine months ended September 30, 2023 are described below).Service charges on deposit accounts include maintenance fees on accounts, per item charges, account enhancement charges for additional packaged benefits and overdraft fees (which encompasses traditional overdraft fees as well as non-sufficient funds fees). The Trust division operates on a custodial basis, which includes administration of benefit plans, as well as accounting and money management for trust accounts. The division manages a number of trust accounts inclusive of personal and corporate benefit accounts, IRAs, and custodial accounts. Fees for managing these accounts are based on changes in market values of the assets under management in the account, with the amount of the fee depending on the type of account. The Financial Services division provides specialized products and services to our customers, which include fixed and variable annuities, mutual funds, and stocks offered through a third party provider. Wealth Management revenue was $5,835 for the third quarter of 2024 compared to $5,986 for the same period in 2023, and was $17,188 for the nine months ended September 30, 2024 compared to $16,464 for the same period in 2023. The market value of assets under management or administration was $5,694,433 and $4,999,504 at SeptemberÂ 30, 2024 and SeptemberÂ 30, 2023, respectively.Mortgage banking income is derived from the origination and sale of mortgage loans and the servicing of mortgage loans that the Company has sold but retained the right to service. Although loan fees and some interest income are derived from mortgage loans held for sale, the main source of income is gains from the sale of these loans in the secondary market. Interest rate lock commitments and originations of mortgage loans to be sold totaled $543,597 and $412,059, respectively, in the third quarter of 2024 compared to

$494,442 and $397,355, respectively for the same period in 2023. Interest rate lock commitments and originations of mortgage loans to be sold totaled $1,548,198 and $1,053,190 in the nine months ended September 30, 2024 compared to $1,734,035 and $1,057,277 for the same period in 2023. The decrease in interest rate lock commitments for the nine months ended September 30, 2024 as compared to the same period in 2023 was due to continued increases in mortgage interest rates during 2023, significantly dampening demand for mortgages nationwide. In the first quarter of 2024, the Company 58Table of Contentssold a portion of its mortgage servicing rights portfolio with a carrying value of $19,539 for a pre-tax gain of $3,472. The increase is primarily due to $11,273 in expenses relating to the proposed merger with The First and the sale of substantially all of the assets of Renasant Insurance.Salaries and employee benefits increased $1,849 to $71,307 for the third quarter of 2024 as compared to $69,458 for the same period in 2023. Salaries and employee benefits increased $3,581 to $213,508 for the nine months ended September 30, 2024 as compared to $209,927 for the same period in 2023. The minimal change in salaries and employee benefits is primarily due to annual merit increases implemented in April 2024 and an increase in the cost associated with the Companyâ€™s health and welfare benefits offered to its employees offset by decreases in salaries and benefits within our mortgage division attributable to declines in mortgage production as well as the termination of insurance employees following the sale of substantially all of the assets of Renasant Insurance.Data processing costs were $4,133 in the third quarter of 2024 as compared to $3,907 for the same period in 2023 and were $11,885 for the nine months ended September 30, 2024 as compared to $11,224 for the same period in 2023. The Company continues to examine new and existing contracts to negotiate favorable terms to offset the increased variable cost components of our data processing costs, such as new accounts and increased transaction volume.Net occupancy and equipment expense for the third quarter of 2024 was $11,415, as compared to $11,548 for the same period in 2023. These expenses for the first nine months of 2024 were $34,648, as compared to $34,818 for the same period in 2023.Professional fees include fees for legal and accounting services, such as routine litigation matters, external audit services as well as assistance in complying with newly-enacted and existing banking and other governmental regulations. Professional fees were $3,189 for the third quarter of 2024 as compared to $3,338 for the same period in 2023 and were $9,732 for the nine months ended September 30, 2024 as compared to $10,817 for the same period in 2023.Advertising and public relations expense was $3,677 for the third quarter of 2024 as compared to $3,474 for the same period in 2023 and was $12,370 for the nine months ended September 30, 2024 as compared to $11,642 for the same period in 2023. During the nine months ended September 30, 2024 and 2023, the Company contributed approximately $1,305 and $1,292, respectively, to charitable organizations throughout Mississippi and Georgia, which contributions are included in our advertising and public relations expense, for which it received a dollar-for-dollar tax credit.59Table of ContentsAmortization of intangible assets totaled $1,160 and $1,311 for the third quarter of 2024 and 2023 and $3,558 and $4,106 for the nine months ended September 30, 2024 and 2023, respectively. This amortization relates to finite-lived intangible assets which are being amortized over the useful lives as determined at acquisition. These finite-lived intangible assets have remaining estimated useful lives ranging from approximately 1 year to 7 years.Communication expenses, those expenses incurred for communication to clients and between employees, were $2,176 for the third quarter of 2024 as compared to $2,006 for the same period in 2023. Communication expenses were $6,312 for the nine months ended September 30, 2024 as compared to $6,212 for the same period in 2023.Other noninterest expense includes business development and travel expenses, other discretionary expenses, loan fees expense and other miscellaneous fees and operating expenses. Other noninterest expense was $13,597 and $43,317 for the three and nine months ended September 30, 2024 as compared to $13,447 and $39,035 for the same periods in 2023. The increase in other noninterest expense is primarily attributable to lower mortgage deferred loan origination expense in the first nine months of 2024 compared to the same period in 2023. The amount of loan origination expense deferred is directly correlated to the volume and mix of our loan production during the period. The Company also accrued $700 for an FDIC deposit insurance special assessment in the first quarter of 2024.Efficiency RatioEfficiency RatioThree Months Ended September 30,Nine Months Ended September 30,2024Â 20232024Â 2023Efficiency ratio54.73Â %64.38Â %62.33Â %Â 66.28Â %The efficiency ratio is a measure of productivity in the banking industry. (This ratio is a measure of our ability to turn expenses into revenue. That is, the ratio is designed to reflect the percentage of one dollar that we must expend to generate a dollar of revenue.) The Company calculates this ratio by dividing noninterest expense by the sum of net interest income on a fully tax equivalent basis and noninterest income. The efficiency ratio for both the three and nine months ended September 30, 2024 was impacted by the noninterest income generated by the sale of our insurance agency business. We remain committed to aggressively managing our costs within the framework of our business model. Our goal is to improve the efficiency ratio over time from currently reported levels as a result of revenue growth while at the same time controlling noninterest expenses.Income TaxesIncome tax expense for the third quarter of 2024 and 2023 was $24,924 and $10,766, respectively, and $44,502 and $28,722 for the nine months ended September 30, 2024 and 2023, respectively. The increase in income tax expense is primarily due to the increase in pre-tax income generated from the gain on sale of substantially all of the assets of the insurance agency, nondeductible expenses from the planned acquisition of The First and certain changes to the Companyâ€™s investment portfolio.Risk ManagementThe management of risk is an on-going process. Primary risks that are associated with the Company include credit, interest rate and liquidity risk. Credit risk and interest rate risk are discussed below, while liquidity risk is discussed in the next subsection under the heading â€œLiquidity and Capital Resources.â€Credit Risk and Allowance for Credit Losses on Loans and Unfunded CommitmentsManagement of Credit Risk. Inherent in any lending activity is credit risk, that is, the risk of loss should a borrower default. Credit risk is monitored and managed on an ongoing basis by our credit administration department, our problem asset resolution committee and the Board of Directors Credit Review Committee. Oversight of the Companyâ€™s lending operations (including adherence to our policies and procedures governing the loan approval and monitoring process), credit quality and loss mitigation are major concerns of credit administration and these committees. The Companyâ€™s central appraisal review department reviews and approves third-party appraisals obtained by the Company on real estate collateral and monitors loan maturities to ensure updated appraisals are obtained. This department is managed by a State Certified General Real Estate Appraiser and employs three additional State Certified General Real Estate Appraisers and four real estate evaluators. In addition, we maintain a loan review staff to independently monitor loan quality and lending practices. Loan review personnel monitor and, if necessary, adjust the grades assigned to loans through periodic examination, focusing their review on commercial and real estate loans rather than consumer and small balance consumer mortgage loans, such as 1-4 family mortgage loans.60Table of ContentsIn compliance with loan policy, the lending staff is given lending limits based on their knowledge and experience. In addition, each lending officerâ€™s prior performance is evaluated for credit quality and compliance as a tool for establishing and enhancing lending limits. Before funds are advanced on consumer and commercial loans below certain dollar thresholds, loans are reviewed and scored using centralized underwriting methodologies. Loan quality, or â€œrisk-rating,â€ grades are assigned based upon certain factors, which include the scoring of the loans. This information is used to assist management in monitoring credit quality. Loan requests of amounts greater than an officerâ€™s lending limit are reviewed for approval by senior credit officers or potentially the chief credit officer.For loans with a commercial purpose, internal risk-rating grades are assigned by lending, credit administration and loan review personnel, based on an analysis of the financial and collateral strength and other credit attributes underlying each loan. Loan grades range from 10 to 95, with 10 being loans with the least credit risk.Managementâ€™s problem asset resolution committee and the Board of Directorsâ€™ Credit Review Committee monitor loans that are past due or those that have been downgraded to criticized due to a decline in the collateral value or cash flow of the borrower. This information is used to assist management in monitoring credit quality. When the ultimate collectability of a loanâ€™s principal is in doubt, wholly or partially, the loan is placed on nonaccrual.After all collection efforts have failed, collateral securing loans may be repossessed and sold or, for loans secured by real estate, foreclosure proceedings initiated. The collateral is sold at public auction or private sale for fair market value (based upon recent appraisals as described above), with fees associated with the foreclosure being deducted from the sales price. The purchase price is applied to the outstanding loan balance. Any remaining balance is charged-off, which reduces the allowance for credit losses on loans. Charge-offs reflect the realization of losses in the portfolio that were recognized previously through the provision for credit losses on loans.The Companyâ€™s practice is to charge off estimated losses as soon as management believes the uncollectability of a loan balance is confirmed and such losses are reasonably quantified. Net charge-offs for the first nine months of 2024 were $6,348, or 0.07% of average loans (annualized), compared to net charge-offs of $10,566, or 0.12% of average loans (annualized), for the same period in 2023. The charge-offs were fully reserved for in the Companyâ€™s allowance for credit losses on loans. Subsequent recoveries, if any, are credited to the allowance for credit losses on loans.Allowance for Credit Losses on Loans; Provision for Credit Losses on Loans. The allowance for credit losses is available to absorb credit losses inherent in the loans held for investment portfolio. Management evaluates the adequacy of the allowance on a quarterly basis. The appropriate level of the allowance is based on an ongoing analysis of the loan portfolio and represents an amount that management deems adequate to provide for inherent losses, including loans evaluated on a collective (pooled) basis and those evaluated on an individual basis as set forth in ASC 326. The credit loss estimation process involves procedures to appropriately consider the unique characteristics of the Companyâ€™s loan portfolio segments. Credit quality is assessed and monitored by evaluating various attributes, and the results of those evaluations are utilized in underwriting new loans and in the Companyâ€™s process for the estimation of expected credit losses. Credit quality monitoring procedures and indicators can include an assessment of problem loans, the types of loans, historical loss experience, new lending products, emerging credit trends, changes in the size and character of loan categories, and other factors, including our risk rating system, regulatory guidance and economic conditions, such as the unemployment rate and change in GDP in the national and local economies as well as trends in the market values of underlying collateral securing loans, all as determined based on input from management, loan review staff and other sources. This evaluation is complex and inherently subjective, as it requires estimates by management that are inherently uncertain and therefore susceptible to significant revision as more information becomes available. In future periods, evaluations of the overall loan portfolio, in light of the factors and forecasts then prevailing, may result in significant changes in the allowance and provision for credit loss in those future periods.The methodology for estimating the amount of expected credit losses reported in the allowance for credit losses has two basic components: first, a collective or pooled component for estimated expected credit losses for pools of loans that share similar risk characteristics; and second, an asset-specific component involving individual loans that do not share risk characteristics with other loans and the measurement of expected credit losses for such individual loans.â€¢The allowance for credit losses for loans that share similar risk characteristics with other loans is calculated on a collective (or pooled) basis, where such loans are segregated into loan portfolio segments. In determining the allowance for credit losses on loans evaluated on a collective basis, the Company further categorizes the loan segments based on risk rating. The Company uses two CECL models: (1) for the Real Estate - 1-4 Family Mortgage, Real Estate - Construction and the Installment Loans to Individuals portfolio segments, the Company uses a loss rate model, based on average historical life-of-loan loss rates, and (2) for the Commercial, Real Estate - Commercial Mortgage and Lease Financing portfolio 61Table of Contentssegments, the Company uses a probability of default/loss given default model, which calculates an expected loss percentage for each loan pool by considering (a) the probability of default, based on the migration of loans from performing (using risk ratings) to default using life-of-loan analysis periods, and (b) the historical severity of loss, based on the aggregate net lifetime losses incurred per loan pool.The historical loss rates calculated as described above are adjusted, as necessary, for both internal and external qualitative factors where there are differences in the historical loss data of the Company and current or projected future conditions. Internal factors include loss history, changes in credit quality (including movement between risk ratings) and/or credit concentration and the nature and volume of the respective loan portfolio segments. External factors include current and reasonable and supportable forecasted economic conditions and changes in collateral values. These factors are used to adjust the historical loss rates (as described above) to ensure that they reflect managementâ€™s expectation of future conditions based on a reasonable and supportable forecast period. To the extent the lives of the loans in the portfolio extend beyond the period for which a reasonable and supportable forecast can be made, when necessary, the models immediately revert to the historical loss rates adjusted for qualitative factors related to current conditions.â€¢For loans that do not share similar risk characteristics with other loans, an individual analysis is performed to determine the expected credit loss. If the respective loan is collateral dependent (that is, when the borrower is experiencing financial difficulty and repayment is expected to be provided substantially through the operation or sale of the collateral), the expected credit loss is measured as the difference between the amortized cost basis of the loan and the fair value of the collateral. The fair value of collateral is initially based on external appraisals. Generally, collateral values for loans for which measurement of expected losses is dependent on the fair value of such collateral are updated every twelve months, either from external third parties or in-house certified appraisers. Third-party appraisals are obtained from a pre-approved list of independent, third-party, local appraisal firms. The fair value of the collateral derived from the external appraisal is then adjusted for the estimated cost to sell if repayment or satisfaction of a loan is dependent on the sale (rather than only on the operation) of the collateral. Other acceptable methods for determining the expected credit losses for individually evaluated loans (typically used for loans that are not collateral dependent) is a discounted cash flow approach or, if applicable, an observable market price. Once the expected credit loss amount is determined, an allowance equal to such expected credit loss is included in the allowance for credit losses.In addition to its quarterly analysis of the allowance for credit losses, on a regular basis management and the Board of Directors review loan ratios. These ratios include the allowance for credit losses as a percentage of total loans, net charge-offs as a percentage of average loans, nonperforming loans as a percentage of total loans and the allowance coverage on nonperforming loans, among others. Also, management reviews past due ratios by officer, community bank and the Company as a whole.The following table presents the allocation of the allowance for credit losses on loans by loan category and the percentage of loans in each category to total loans as of the dates presented:Â September 30, 2024DecemberÂ 31, 2023September 30, 2023Balance% of TotalBalance% of TotalBalance% of TotalCommercial, financial, agricultural$43,053Â 14.29Â %$43,980Â 15.15Â %$44,444Â 14.96Â %Lease financing2,384Â 0.78Â 2,515Â 0.94Â 3,355Â 0.99Â Real estate â€“ construction16,656Â 9.50Â 18,612Â 10.79Â 19,656Â 11.57Â Real estate â€“ 1-4 family mortgage47,219Â 27.24Â 47,283Â 27.85Â 45,799Â 27.94Â Real estate â€“ commercial mortgage82,087Â 47.47Â 77,020Â 44.43Â 75,233Â 43.65Â Installment loans to individuals8,979Â 0.72Â 9,168Â 0.84Â 9,286Â 0.89Â Total$200,378Â 100.00Â %$198,578Â 100.00Â %$197,773Â 100.00Â %The provision for credit losses on loans charged to operating expense is an amount which, in the judgment of management, is necessary to maintain the allowance for credit losses on loans at a level that is believed to be adequate to meet the inherent risks of losses in our loan portfolio. The Company recorded a provision for credit losses on loans of $1,210 in the third quarter of 2024 and $8,148 in the first nine months of 2024, as compared to $5,315 in the third quarter of 2023 and $16,275 in the first nine months of 2023. The Companyâ€™s allowance for credit losses model considers economic projections, primarily the national unemployment rate and GDP, over a reasonable and supportable period of two years. Loan growth as well as changes in credit metrics that influenced our expectations of future credit losses, considered in the context of the existing balance of the 62Table of Contentsallowance for credit losses, resulted in the Companyâ€™s model indicating that the aforementioned provision for credit losses on loans was appropriate during the first nine months of 2024.The table below reflects the activity in the allowance for credit losses on loans for the periods presented:Three Months EndedNine Months EndedÂ September 30,September 30,Â 2024202320242023Balance at beginning of period$199,871Â $194,391Â $198,578Â $192,090Â Impact of purchased credit deteriorated loans acquired during the periodâ€”Â â€”Â â€”Â (26)Charge-offsCommercial, financial, agricultural347Â 2,252Â 882Â 7,720Â Lease financing642Â 641Â 642Â 641Â Real estate â€“ constructionâ€”Â â€”Â â€”Â 57Â Real estate â€“ 1-4 family mortgage256Â 130Â 546Â 345Â Real estate â€“ commercial mortgage10Â â€”Â 5,737Â 5,512Â Installment loans to

Nonperforming assets consist of nonperforming loans and other real estate owned. Nonperforming loans are those on which the accrual of interest has stopped or loans which are contractually 90 days past due on which interest continues to accrue. Generally, the accrual of interest is discontinued when the full collection of principal or interest is in doubt or when the payment of principal or interest has been contractually 90 days past due, unless the obligation is both well secured and in the process of collection. Management, the problem asset resolution committee and our loan review staff closely monitor loans that are considered to be nonperforming.Other real estate owned consists of properties acquired through foreclosure or acceptance of a deed in lieu of foreclosure. These properties are carried at the lower of cost or fair market value based on appraised value less estimated selling costs. Losses arising at the time of foreclosure of properties are charged against the allowance for credit losses on loans. Reductions in the carrying value subsequent to acquisition are charged to earnings and are included in â€œOther real estate ownedâ€ in the Consolidated Statements of Income.The following table provides details of the Companyâ€™s nonperforming assets as of the dates presented. Management also continually monitors past due loans for potential credit quality deterioration. Total loans 30-89 days past due but still accruing interest were $17,523, or 0.14% of total loans, at SeptemberÂ 30, 2024 as compared to $54,031, or 0.44% of total loans, at DecemberÂ 31, 2023 and $13,641, or 0.11% of total loans, at SeptemberÂ 30, 2023.Certain modifications of loans made to borrowers experiencing financial difficulty in the form of principal forgiveness, an interest rate reduction, an other-than-insignificant payment delay (including an extension of the amortization period), or a term extension, excluding covenant waivers and modification of contingent acceleration clauses, are required to be disclosed in accordance with ASU 2022-02, â€œFinancial Instruments - Credit Losses (Topic326): Troubled Debt Restructurings and Vintage Disclosuresâ€ (â€œASU 2022-02â€). All modifications for the nine months ended SeptemberÂ 30, 2024 and 2023 and which met the disclosure criteria in ASU 2022-02 were performing in accordance with their modified terms at SeptemberÂ 30, 2024 and 2023, respectively. The total amortized cost basis of loans that were experiencing financial difficulty, modified during the nine months ended SeptemberÂ 30, 2024 and 2023, were $15,747 and $6,497, respectively. Unused commitments totaled $464 and $721 at SeptemberÂ 30, 2024 and 2023, respectively. Upon the Companyâ€™s determination that a modified loan has been subsequently deemed uncollectible, the loan, or portion of the loan, is charged off, the amortized cost basis of the loan is reduced by the uncollectible amount and the allowance for credit losses is adjusted accordingly. For more information about loan modifications made to borrowers experiencing financial difficulty, see the information under the heading â€œCertain Modifications to Borrowers Experiencing Financial Difficultyâ€ in Note 3, â€œLoans,â€ in the Notes to Consolidated Financial Statements of the Company in Item 1, Financial Statements.The following table provides details of the Companyâ€™s other real estate owned, net of valuation allowance and direct write-downs, as of the dates presented:Â 66Table of ContentsSeptember 30,2024DecemberÂ 31, 2023September 30,2023Residential real estate$2,774Â $1,211Â $1,045Â Commercial real estate6,336Â 8,407Â 8,182Â Residential land development19Â 4Â 4Â Commercial land development7Â â€”Â 27Â Total other real estate owned$9,136Â $9,622Â $9,258Â Changes in the Companyâ€™s other real estate owned were as follows:20242023Balance at JanuaryÂ 1$9,622Â $1,763Â Transfers of loans3,286Â 10,073Â Impairments(67)(18)Dispositions(1,323)(2,544)Other(2,382)(16)Balance at September 30$9,136Â $9,258Â Other real estate owned with a cost basis of $1,323 was sold during the nine months ended September 30, 2024, resulting in a net gain of $143, while other real estate owned with a cost basis of $2,544 was sold during the nine months ended September 30, 2023, resulting in a net gain of $289.Interest Rate RiskMarket risk is the risk of loss from adverse changes in market prices and rates. The majority of assets and liabilities of a financial institution are monetary in nature and therefore differ greatly from most commercial and industrial companies that have significant investments in fixed assets and inventories. Our market risk arises primarily from interest rate risk inherent in lending, investing and deposit-taking activities. Management believes a significant impact on the Companyâ€™s financial results stems from our ability to react to changes in interest rates. A sudden and substantial change in interest rates may adversely impact our earnings because the interest rates borne by assets and liabilities do not change at the same speed, to the same extent or on the same basis. Changes in rates may also limit our liquidity, making it more costly for the Company to generate funds to make loans and to satisfy customers wishing to withdraw deposits.Because of the impact of interest rate fluctuations on our profitability and liquidity, we actively monitor and manage our interest rate risk exposure. We have an Asset/Liability Committee (â€œALCOâ€), which is comprised of various members of senior management and is authorized by the Board of Directors to monitor interest rate sensitivity and liquidity risk, over the short-, medium-, and long-term, and to make decisions relating to these processes. The ALCOâ€™s goal is to structure our asset/liability composition to maximize net interest income while managing interest rate risk and preserving adequate liquidity so as to minimize the adverse impact of changes in interest rates on net interest income, liquidity and capital. We regularly monitor liquidity and stress our liquidity position in various simulated scenarios, which are incorporated in our contingency funding plan outlining different potential liquidity environments. The ALCO uses an asset/liability model as the primary quantitative tool in measuring the amount of interest rate risk associated with changing market rates. The model is used to perform both net interest income forecast simulations for multiple year horizons and economic value of equity (â€œEVEâ€) analyses, each under various interest rate scenarios.Net interest income forecast simulations measure the short- and medium-term earnings exposure from changes in market interest rates in a rigorous and explicit fashion. Our current financial position is combined with assumptions regarding future business to calculate future net interest income under various hypothetical rate scenarios. EVE measures our long-term earnings exposure from changes in market rates of interest. EVE is defined as the present value of assets minus the present value of liabilities at a point in time for a given set of market rate assumptions. An increase in EVE due to a specified rate change indicates an improvement in the long-term earnings capacity of the balance sheet assuming that the rate change remains in effect over the life of the current balance sheet.The following table presents the projected impact of a change in interest rates on (1) static EVE and (2) earnings at risk (that is, net interest income) for the 1-12 and 13-24 month periods commencing October 1, 2024, in each case as compared to the result under rates present in the market on SeptemberÂ 30, 2024. The changes in interest rates assume an instantaneous and parallel shift in the yield curve and do not account for changes in the slope of the yield curve.67Table of ContentsÂ Percentage Change In:Immediate Change in Rates of (in basis points):Economic Value Equity (EVE)Earning at Risk (Net Interest Income)Static1-12 Months13-24 Months+1003.74%2.67%3.99%-100(4.68)%(3.81)%(5.15)%-200(10.07)%(7.28)%(10.08)%The rate shock results for the net interest income simulations for the next 24 months produce an asset sensitive position at SeptemberÂ 30, 2024. The preceding measures assume no change in the size or asset/liability compositions of the balance sheet, and they do not reflect future actions the ALCO may undertake in response to such changes in interest rates. The scenarios assume instantaneous movements in interest rates in increments described in the table above. As interest rates are adjusted over a period of time, it is our strategy to proactively change the volume and mix of our balance sheet in order to mitigate our interest rate risk. The computation of the prospective effects of hypothetical interest rate changes requires numerous assumptions, including asset prepayment speeds, the impact of competitive factors on our pricing of loans and deposits, the impact of market conditions on the securities yields and interest rates of our borrowings, how responsive our deposit repricing is to the change in market rates and the expected life of non-maturity deposits. These business assumptions are based upon our experience, business plans and published industry experience; however, such assumptions may not necessarily reflect the manner or timing in which cash flows, asset yields and liability costs respond to changes in market rates. Because these assumptions are inherently uncertain, actual results will differ from simulated results.The Company utilizes derivative financial instruments, including interest rate contracts such as swaps, collars, caps and/or floors, forward commitments, and interest rate lock commitments, as part of its ongoing efforts to mitigate its interest rate risk exposure. For more information about the Companyâ€™s derivatives, see the information under the heading â€œLoan Commitments and Other Off-Balance Sheet Arrangementsâ€ in the Liquidity and Capital Resources section below and Note 9, â€œDerivative Instruments,â€ in the Notes to Consolidated Financial Statements of the Company in ItemÂ 1, Financial Statements. The next section also details our available sources of liquidity, both on and off-balance sheet.Liquidity and Capital ResourcesLiquidity management is the ability to meet the cash flow requirements of customers who may be either depositors wishing to withdraw funds or borrowers needing assurance that sufficient funds will be available to meet their credit needs.Core deposits, which are deposits excluding brokered deposits and time deposits greater than $250,000, are the major source of funds used by the Bank to meet cash flow needs. Maintaining the ability to acquire these funds as needed in a variety of markets is the key to assuring the Bankâ€™s liquidity. We may also access the brokered deposit market where rates are favorable to other sources of liquidity (especially in light of collateral requirements for certain borrowings) and core deposits are not sufficient for meeting our current and anticipated short- or long-term liquidity needs. During the first nine months of 2024, brokered deposits decreased by $334,713 as compared to the balance at December 31, 2023. The Bank obtained brokered deposits in the amount of $120,345 during the first nine months of 2024 and paid down brokered deposits of $455,058 during the same period. Management continually monitors the Bankâ€™s liquidity and non-core dependency ratios to ensure compliance with targets established by the ALCO.Our investment portfolio is another alternative for meeting liquidity needs. These assets generally have readily available markets that offer conversions to cash as needed. Within the next twelve months, the securities portfolio is forecasted to generate cash flow through principal payments and maturities equal to approximately 11.64% of the carrying value of the total securities portfolio. Securities within our investment portfolio are also used to secure certain deposit types, short-term borrowings and derivative instruments. At SeptemberÂ 30, 2024, securities with a carrying value of $824,163 were pledged to secure government, public fund and trust deposits and as collateral for short-term borrowings and derivative instruments as compared to securities with a carrying value of $895,044 similarly pledged at DecemberÂ 31, 2023.Other sources available for meeting liquidity needs include federal funds purchased, short-term and long-term advances from the FHLB and borrowings from the Federal Reserve Discount Window. Interest is charged at the prevailing market rate on federal funds purchased, FHLB advances and borrowings from the Federal Reserve Discount Window. There were $100,000 in short-term borrowings from the FHLB at SeptemberÂ 30, 2024, as compared to $300,000 at DecemberÂ 31, 2023. Long-term funds obtained from the FHLB are used to match-fund fixed rate loans in order to minimize interest rate risk and also are used to meet day-to-day liquidity needs, particularly when the cost of such borrowing compares favorably to the rates that we would 68Table of Contentsbe required to pay to attract deposits. There were no outstanding long-term advances with the FHLB at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023. The total amount of the remaining credit available to us from the FHLB at SeptemberÂ 30, 2024 was $3,449,164. The credit available at the Federal Reserve Discount Window at SeptemberÂ 30, 2024 was $634,636 with no borrowings outstanding as of such date. We also maintain lines of credit with other commercial banks totaling $160,000. These are unsecured lines of credit with the majority maturing at various times within the next twelve months. There were no amounts outstanding under these lines of credit at SeptemberÂ 30, 2024 or DecemberÂ 31, 2023.Finally, we can access the capital markets to meet liquidity needs. The Company maintains a shelf registration statement with the Securities and Exchange Commission (â€œSECâ€). The shelf registration statement, which was effective upon filing, allows the Company to raise capital from time to time through the sale of common stock, preferred stock, depositary shares, debt securities, rights, warrants and units, or a combination thereof, subject to market conditions. Specific terms and prices will be determined at the time of any offering under a separate prospectus supplement that the Company will file with the SEC at the time of the specific offering. The proceeds of the sale of securities, if and when offered, will be used for general corporate purposes or as otherwise described in the prospectus supplement applicable to the offering and could include the expansion of the Company's banking and wealth management operations as well as other business opportunities. Our common stock offering described under the â€œRecent Developmentsâ€ heading above reflects our access of the capital markets as described in this paragraph. In addition, in previous years, we have accessed the capital markets to generate liquidity in the form of subordinated notes. We have also assumed subordinated notes as part of acquisitions. The carrying value of subordinated notes, net of unamortized debt issuance costs, was $319,496 at SeptemberÂ 30, 2024.The following table presents, by type, the Companyâ€™s funding sources, which consist of total average deposits and borrowed funds, and the total cost of each funding source for the periods presented:Â Percentage of Total Average Deposits and Borrowed FundsCost of FundsNine Months EndedNine Months EndedÂ September 30,September 30,Â 20242023202420232023Noninterest-bearing demand23.74Â %27.48Â %â€”Â %â€”Â %Interest-bearing demand48.18Â 42.06Â 3.16Â 1.95Â Savings5.67Â 6.74Â 0.35Â 0.33Â Brokered deposits2.00Â 4.85Â 5.36Â 5.10Â Time

Collateralized public funds over FDIC insurance limits were $1,804,840 at SeptemberÂ 30, 2024.Our strategy in choosing funds is focused on minimizing cost in the context of our balance sheet composition, interest rate risk position and liquidity forecast. Accordingly, management targets growth of core deposits, focusing on noninterest-bearing deposits. While we do not control the types of deposit instruments our clients choose, we do influence those choices with the rates and the deposit specials we offer. We constantly monitor our funds position and evaluate the effect that various funding sources have on our financial position.Cash and cash equivalents were $1,275,620 at SeptemberÂ 30, 2024, as compared to $741,156 at SeptemberÂ 30, 2023. The increase is largely driven by growth in deposits and proceeds from the aforementioned common stock offering offset to some degree by the payoff of certain short-term borrowings.Cash provided by investing activities for the nine months ended September 30, 2024 was $25,572, as compared to cash provided by investing activities of $89,172 for the nine months ended September 30, 2023. Proceeds from the sale, maturity or call of securities within our investment portfolio were $319,665 for the nine months ended SeptemberÂ 30, 2024, as compared to $697,076 for the same period in 2023. A portion of the securities portfolio was sold during the first quarter of 2024, resulting in proceeds of $177,185 of which a portion were used to purchase higher yielding securities, while the remainder was used to fund loan growth. A portion of the securities portfolio was sold during the second quarter of 2023, resulting in proceeds of $488,981 69Table of Contentswhich were used to pay off short-term FHLB borrowings and to fund loan growth. Purchases of investment securities were $60,656 during the first nine months of 2024 and $9,646 for the same period in 2023. Cash provided by financing activities for the nine months ended September 30, 2024 was $411,366, as compared to cash provided by financing activities of $27,868 for the same period in 2023. Deposits increased $432,966 and $670,144 for the nine months ended September 30, 2024 and 2023, respectively. Restrictions on Bank Dividends, Loans and AdvancesThe Companyâ€™s liquidity and capital resources, as well as its ability to pay dividends to its shareholders, are substantially dependent on the ability of Renasant Bank to transfer funds to the Company in the form of dividends, loans and advances. Under Mississippi law, a Mississippi bank may not pay dividends unless its earned surplus is in excess of three times capital stock. A Mississippi bank with earned surplus in excess of three times capital stock may pay a dividend, subject to the approval of the Mississippi Department of Banking and Consumer Finance (the â€œDBCFâ€). In addition, the FDIC also has the authority to prohibit the Bank from engaging in business practices that the FDIC considers to be unsafe or unsound, which, depending on the financial condition of the bank, could include the payment of dividends. Accordingly, the approval of the DBCF is required prior to the Bank paying dividends to the Company, and under certain circumstances the approval of the FDIC may be required.Federal Reserve regulations also limit the amount the Bank may loan to the Company unless such loans are collateralized by specific obligations. At SeptemberÂ 30, 2024, the maximum amount available for transfer from the Bank to the Company in the form of loans was $198,943. The Company maintains a $3,000 line of credit collateralized by cash with the Bank. There were no amounts outstanding under this line of credit at SeptemberÂ 30, 2024. These restrictions did not have any impact on the Companyâ€™s ability to meet its cash obligations in the nine months ended September 30, 2024, nor does management expect such restrictions to materially impact the Companyâ€™s ability to meet its currently-anticipated cash obligations.Loan Commitments and Other Off-Balance Sheet ArrangementsThe Company enters into loan commitments and standby letters of credit in the normal course of its business. Loan commitments are made to accommodate the financial needs of the Companyâ€™s customers. Standby letters of credit commit the Company to make payments on behalf of customers when certain specified future events occur. Both arrangements have credit risk essentially the same as that involved in extending loans to customers and are subject to the Companyâ€™s normal credit policies, including establishing a provision for credit losses on unfunded commitments. Collateral (e.g., securities, receivables, inventory, equipment, etc.) is obtained based on managementâ€™s credit assessment of the customer.Loan commitments and standby letters of credit do not necessarily represent future cash requirements of the Company in that while the borrower has the ability to draw upon these commitments at any time, these commitments often expire without being drawn upon. The Companyâ€™s unfunded loan commitments and standby letters of credit outstanding were as follows as of the dates presented:September 30, 2024DecemberÂ 31, 2023Loan commitments$2,826,873Â $3,091,997Â Standby letters of credit88,275Â 113,970Â The Company closely monitors the amount of remaining future commitments to borrowers in light of prevailing economic conditions and adjusts these commitments and the provision related thereto as necessary; the Company also reviews these commitments as part of its analysis of loan concentrations within the loan portfolio. The Company will continue this process as new commitments are entered into or existing commitments are renewed. For a more detailed discussion related to the allowance and provision for credit losses on unfunded loan commitments, refer to the â€œRisk Managementâ€ section above.The Company utilizes derivative financial instruments, including interest rate contracts such as swaps, collars, caps and/or floors, as part of its ongoing efforts to mitigate its interest rate risk exposure and to facilitate the needs of its customers. The Company enters into derivative instruments that are not designated as hedging instruments to help its commercial customers manage their exposure to interest rate fluctuations. To mitigate the interest rate risk associated with these customer contracts, the Company enters into an offsetting derivative contract position with other financial institutions. The Company manages its credit risk, or potential risk of default by its commercial customers, through credit limit approval and monitoring procedures. At SeptemberÂ 30, 2024, the Company had notional amounts of $830,409 on interest rate contracts with corporate customers and 70Table of Contents$833,761 in offsetting interest rate contracts with other financial institutions to mitigate the Companyâ€™s rate exposure on its corporate customersâ€™ contracts and certain fixed rate loans.Additionally, the Company enters into interest rate lock commitments with its customers to mitigate the interest rate risk associated with the commitments to fund fixed-rate and adjustable rate residential mortgage loans and also enters into forward commitments to sell residential mortgage loans to secondary market investors.The Company also enters into interest rate swap contracts on its FHLB borrowings and its junior subordinated debentures that are accounted for as cash flow hedges. Under each of these contracts, the Company pays a fixed rate of interest and receives a variable rate of interest. The Company entered into an interest rate swap contract on its subordinated notes that is accounted for as a fair value hedge. Under this contract, the Company pays a variable rate of interest and receives a fixed rate of interest. The Company utilizes interest rate collars to protect against interest rate fluctuations on certain variable-rate loans. Under these contracts, interest income is limited to the interest rate cap; however, interest income is protected when market rates fall below the floor strike rate.For more information about the Companyâ€™s derivatives, see Note 9, â€œDerivative Instruments,â€ in the Notes to Consolidated Financial Statements of the Company in ItemÂ 1, Financial Statements.Shareholdersâ€™ Equity and Regulatory MattersTotal shareholdersâ€™ equity of the Company was $2,658,078 at SeptemberÂ 30, 2024 compared to $2,297,383 at DecemberÂ 31, 2023. Book value per share was $41.82 and $40.92 at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively. The growth in shareholdersâ€™ equity was attributable to the previously mentioned common stock offering, current period earnings and declines in accumulated other comprehensive loss, offset by dividends declared.In October 2023, the Companyâ€™s Board of Directors approved a stock repurchase program, authorizing the Company to repurchase up to $100,000 of its outstanding common stock. This program expired in October 2024 and was replaced with a new stock repurchase program authorizing the Company to repurchase up to $100,000 of its outstanding common stock, either in open market purchases or privately-negotiated transactions. The new repurchase program will remain in effect through October 2025 or, if earlier, the repurchase of the entire amount of common stock authorized to be repurchased. The Company did not repurchase any of its common stock under the previous stock repurchase program in the first nine months of 2024.The Company has junior subordinated debentures with a carrying value of $113,681 at SeptemberÂ 30, 2024, of which $110,090 is included in the Companyâ€™s Tier 1 capital. Federal Reserve guidelines limit the amount of securities that, similar to our junior subordinated debentures, are includable in Tier 1 capital, but these guidelines did not impact the debentures we include in Tier 1 capital at SeptemberÂ 30, 2024. Although our existing junior subordinated debentures are currently unaffected by these Federal Reserve guidelines, on account of changes enacted as part of the Dodd-Frank Act, any new trust preferred securities are not includable in Tier 1 capital. Further, if we complete the proposed merger with The First (or we make any other acquisition of a financial institution) now that we have exceeded $15,000,000 in assets, we will lose Tier 1 treatment of our junior subordinated debentures.The Company has subordinated notes with a par value of $336,400 at SeptemberÂ 30, 2024, of which $333,844 is included in the Companyâ€™s Tier 2 capital. The Federal Reserve, the FDIC and the Office of the Comptroller of the Currency have issued guidelines governing the levels of capital that bank holding companies and banks must maintain. Those guidelines specify capital tiers, which include the following classifications:Capital TiersTierÂ 1Â CapitalÂ toAverage Assets(Leverage)Common Equity Tier 1Â toRisk - Weighted AssetsTierÂ 1Â CapitalÂ toRiskÂ - WeightedAssetsÂ TotalÂ CapitalÂ toRiskÂ - WeightedAssetsWell capitalized5%Â orÂ above6.5%Â orÂ aboveÂ 8%Â orÂ aboveÂ 10%Â orÂ aboveAdequately capitalized4%Â orÂ above4.5%Â orÂ aboveÂ 6%Â orÂ aboveÂ 8%Â orÂ aboveUndercapitalizedLessÂ thanÂ 4%LessÂ thanÂ 4.5%Â LessÂ thanÂ 6%Â LessÂ thanÂ 8%Significantly undercapitalizedLessÂ thanÂ 3%LessÂ thanÂ 3%Â LessÂ thanÂ 4%Â LessÂ thanÂ 6%Critically undercapitalizedÂ Tangible Equity / Total Assets less than 2%71Table of ContentsThe following table provides the capital and risk-based capital and leverage ratios for the Company and for Renasant Bank as of the dates presented:Â ActualMinimum CapitalRequirementÂ toÂ beWell CapitalizedMinimumÂ CapitalRequirementÂ toÂ beAdequatelyCapitalized (including the Capital Conservation Buffer)Â AmountRatioAmountRatioAmountRatioSeptember 30, 2024Renasant Corporation:Risk-based capital ratios:Common equity tier 1 capital ratio$1,793,916Â 12.88Â %$905,215Â 6.50Â %$974,847Â 7.00Â %Tier 1 risk-based capital ratio1,904,006Â 13.67Â 1,114,111Â 8.00Â 1,183,743Â 8.50Â Total risk-based capital ratio2,412,254Â 17.32Â 1,392,638Â 10.00Â 1,462,270Â 10.50Â Leverage capital ratios:Tier 1 leverage ratio1,904,006Â 11.32Â 841,001Â 5.00Â 672,801Â 4.00Â Renasant Bank:Risk-based capital ratios:Common equity tier 1 capital ratio$1,814,955Â 13.03Â %$905,598Â 6.50Â %$975,259Â 7.00Â %Tier 1 risk-based capital ratio1,814,955Â 13.03Â 1,114,582Â 8.00Â 1,184,243Â 8.50Â Total risk-based capital ratio1,989,433Â 14.28Â 1,393,227Â 10.00Â 1,462,889Â 10.50Â Leverage capital ratios:Tier 1 leverage ratio1,814,955Â 10.80Â 840,402Â 5.00Â 672,322Â 4.00Â DecemberÂ 31, 2023Renasant Corporation:Risk-based capital ratios:Common equity tier 1 capital ratio$1,469,531Â 10.52Â %$908,163Â 6.50Â %$978,022Â 7.00Â %Tier 1 risk-based capital ratio1,578,918Â 11.30Â 1,117,740Â 8.00Â 1,187,598Â 8.50Â Total risk-based capital ratio2,085,531Â 14.93Â 1,397,175Â 10.00Â 1,467,033Â 10.50Â Leverage capital ratios:Tier 1 leverage ratio1,578,918Â 9.62Â 820,428Â 5.00Â 656,342Â 4.00Â Renasant Bank:Risk-based capital ratios:Common equity tier 1 capital ratio$1,714,965Â 12.25Â %$909,711Â 6.50Â %$979,689Â 7.00Â %Tier 1 risk-based capital ratio1,714,965Â 12.25Â 1,119,644Â 8.00Â 1,189,622Â 8.50Â Total risk-based capital ratio1,888,104Â 13.49Â 1,399,556Â 10.00Â 1,469,533Â 10.50Â Leverage capital ratios:Tier 1 leverage ratio1,714,965Â 10.45Â 820,761Â 5.00Â 656,608Â 4.00Â The Company elected to take advantage of transitional relief offered by the Federal Reserve and FDIC to delay for two years the estimated impact of CECL on regulatory capital, followed by a three-year transitional period to phase out the capital benefit provided by the two-year delay. Our accounting policies are more fully described in Note 1, â€œSignificant Accounting Policies,â€ in the Notes to Consolidated Financial Statements of the Company in Item 8, Financial Statements and Supplementary Data, in our Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023, filed with the Securities and Exchange Commission on February 23, 2024. Actual amounts and values as of the balance sheet dates may be materially different from the amounts and values reported due to the inherent uncertainty in the estimation process. Also, future amounts and values could differ materially from those estimates due to changes in values and circumstances after the balance sheet date.The critical accounting estimates that we believe to be the most critical in preparing our consolidated financial statements relate to the allowance for credit losses and acquisition accounting, which are described under â€œCritical Accounting Policies and Estimatesâ€ in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023. Since December 31, 2023, there have been no material changes in these critical accounting estimates.ItemÂ 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKThere have been no material changes in our market risk since DecemberÂ 31, 2023. For additional information regarding our market risk, see our Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023, filed with the Securities and Exchange Commission on February 23, 2024.ItemÂ 4. CONTROLS AND PROCEDURESBased on their evaluation as of the end of the period covered by this quarterly report on Form 10-Q, our Principal Executive Officer and Principal Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) are effective for ensuring that information the Company is required to disclose in reports that it files or submits under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commissionâ€™s rules and forms and that such information is accumulated and communicated to the Companyâ€™s management, including its Principal Executive and Principal Financial Officers, as appropriate to allow timely decisions regarding required disclosure. There was no change in the Companyâ€™s internal control over financial reporting during the fiscal quarter covered by this quarterly report that has materially affected, or is reasonably likely to materially affect, the Companyâ€™s internal control over financial reporting.73Table of ContentsPart II. OTHER INFORMATIONItemÂ 1A. RISK FACTORSWhen evaluating the risk of an investment in the Companyâ€™s common stock, potential investors should carefully consider the risk factors appearing in Part I, Item 1A, Risk Factors, of the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023.On July 29, 2024, the Company announced that it had entered into a definitive merger agreement (the â€œMerger Agreementâ€) with The First Bancshares, Inc. (â€œThe Firstâ€) under which the Company will acquire The First in an all-stock transaction (the â€œMergerâ€). The following represents material changes in the Companyâ€™s risk factors from the risk factors set forth in our Annual Report on Form 10-K.Risks Relating to the MergerFailure to complete the Merger could negatively affect our share price, future business and financial results.Although we anticipate closing the Merger in the first half of 2025, we cannot guarantee when, or whether, the Merger will be completed. The completion of the Merger is subject to a number of customary conditions which must be fulfilled in order to complete the merger.If the Merger is not completed for any reason, our ongoing business and financial results may be adversely affected and we will be subject to several risks, including:â€¢having to pay significant transaction costs without realizing any of the anticipated benefits of completing the Merger;â€¢failing to pursue other beneficial opportunities due to the focus of our management on the Merger, without realizing any of the anticipated benefits of completing the Merger;â€¢declines in our share price to the extent that the current market prices reflect an assumption by the market that the Merger will be completed; andâ€¢becoming subject to litigation related to any failure to complete the Merger.Regulatory approvals may not be received, may take longer than expected or may impose conditions that are not presently anticipated, cannot be met, or that could have an adverse effect on the combined company following the consummation of the Merger.Before the Merger may be completed, various approvals, consents and/or non-objections must be obtained from bank regulatory authorities, including the Federal Reserve, FDIC, and the DBCF. Additionally, the U.S. Department of Justice has between 15 and 30 days following approval of the Merger by the Federal Reserve and FDIC, respectively, to challenge the approval on antitrust grounds.In determining whether to grant their approvals, the regulatory agencies consider a variety of factors, including the regulatory standing of each party. These approvals could be delayed or not obtained at all, including due to an adverse development in either partyâ€™s regulatory standing or in any other factors considered by regulators in granting such approvals; governmental, political or community group inquiries, investigations or opposition; or changes in legislation or the political or regulatory environment generally.The approvals that are granted may impose terms and conditions, limitations, obligations or costs, or place restrictions on the conduct of the combined companyâ€™s business or require changes to the terms of the Merger. There can be no assurance that regulators will not impose any such conditions, limitations, obligations or restrictions and that such conditions, limitations, obligations or restrictions will not have the effect of delaying the completion of any of the Merger, imposing additional material costs on or materially limiting the revenues of the combined company following the Merger or otherwise reduce the anticipated benefits of the Merger if the Merger were consummated successfully within the expected timeframe. In addition, there can be no assurance that any such conditions, terms, obligations or restrictions will not result in the delay or abandonment of the Merger. The completion of the Merger is conditioned on the receipt of the requisite regulatory approvals without the imposition of any materially financially burdensome regulatory condition and the expiration of all statutory waiting periods. Additionally, the completion of the Merger is conditioned on the absence of certain laws, orders, injunctions or decrees issued by any court or governmental entity of competent jurisdiction that would prevent, prohibit or make illegal the completion of the Merger or any of the other transactions contemplated by the Merger Agreement.74Table of ContentsThe federal banking agencies are in the process of revising their merger policies. In September 2024, the FDIC approved revisions to its Statement of Policy on Bank Merger Transactions, which updates

the FDICâ€™s process for evaluating mergers and the principles that guide the FDICâ€™s review of proposed mergers. While the Federal Reserve has not issued a similar proposal, Federal Reserve Vice Chair for Supervision Michael Barr has stated that the Federal Reserve is working with the Department of Justice to update guidelines setting forth standards for the review of the competitive impact of a transaction. In addition, in September 2024 the Department of Justice withdrew from the 1995 Bank Merger Guidelines that it previously had used to review bank mergers, stating that its 2023 Merger Guidelines will apply to its review of bank mergers going forward. These regulatory revisions create uncertainty regarding how the agencies will review bank mergers and may make it more difficult and/or costly to obtain regulatory approval or otherwise result in more burdensome conditions in approval orders than the agencies have previously imposed.Our ongoing business and financial results may be adversely affected by a delay in receipt of necessary regulatory approvals, a denial of a regulatory application, or the imposition of a burdensome regulatory condition.Shareholder litigation could prevent or delay the completion of the Merger or otherwise negatively impact our business, financial condition and results of operations.Shareholders of The First have filed lawsuits against The First and its directors in connection with the Merger and Renasant shareholders may do the same. One of the conditions to the closing of the Merger is that no law, order, injunction or decree issued by any court or governmental entity of competent jurisdiction that would restrict, prohibit or make illegal the completion of the Merger or any of the other transactions contemplated by the Merger Agreement be in effect. While Renasant believes that the suits filed against The First and its directors are without merit, if any plaintiff were successful in obtaining an injunction prohibiting Renasant or The First from completing the Merger or any of the other transactions contemplated by the Merger Agreement, then such injunction may delay or prevent the effectiveness of the Merger and could result in significant costs to us, including any cost associated with the indemnification of our directors and officers. We may incur costs in connection with the defense or settlement of any shareholder lawsuits filed in connection with the Merger. Shareholder lawsuits may divert management attention from management of our business or operations. Such litigation could have an adverse effect on our business, financial condition and results of operations and could prevent or delay the completion of the Merger.We and The First will be subject to various uncertainties while the Merger is pending that could adversely affect our financial results or the anticipated benefits of the Merger.Uncertainty about the effect of the Merger on counterparties to contracts, employees and other parties may have an adverse effect on us or the anticipated benefits of the Merger. These uncertainties could cause contract counterparties and others who deal with us or The First to seek to change existing business relationships with us or The First, and may impair our and The Firstâ€™s ability to attract, retain and motivate key personnel until the Merger is completed and for a period of time thereafter. Employee retention and recruitment may be particularly challenging prior to completion of the Merger, as our employees and prospective employees, and the employees and prospective employees of The First, may experience uncertainty about their future roles with us following the Merger.The pursuit of the Merger and the preparation for the integration of the two companies may place a significant burden on management and internal resources. Any significant diversion of management attention away from ongoing business and any difficulties encountered in the transition and integration process could affect our financial results prior to and/or following the completion of the Merger and could limit us from pursuing attractive business opportunities and making other changes to our business prior to completion of the Merger or termination of the Merger Agreement.The First may have liabilities that are not known to us.In connection with the Merger, we will assume all of The Firstâ€™s liabilities by operation of law. There may be liabilities that we failed or were unable to discover in the course of performing due diligence investigations into The First, or we may not have correctly assessed the significance of certain liabilities of The First identified in the course of our due diligence. Any such liabilities, individually or in the aggregate, could have an adverse effect on our business, financial condition and results of operations.The Merger may be completed on different terms from those contained in the Merger Agreement.Prior to the completion of the Merger, we and The First may, by mutual agreement, amend or alter the terms of the Merger Agreement, including with respect to, among other things, the merger consideration or any covenants or agreements with respect to the partiesâ€™ respective operations during the pendency of the Merger Agreement. Any such amendments or alterations may have negative consequences to us.75Table of ContentsRisks Relating to the Combined Companyâ€™s Business Following the MergerThe market price of the common stock of the combined company after the Merger may be affected by factors different from those currently affecting the shares of Renasant common stock.Upon the completion of the Merger, Renasant shareholders and The First shareholders will become shareholders of the combined company. Renasantâ€™s business differs from that of The First, and, accordingly, the results of operations of the combined company and the market price of the combined companyâ€™s shares of common stock may be affected by factors different from those currently affecting the independent results of operations of each of The First and Renasant. Sales of substantial amounts of Renasant common stock in the open market by former shareholders of The First could depress Renasantâ€™s stock price.Shares of Renasant common stock that are issued to The First shareholders in the Merger will be freely tradable without restrictions or further registration under the Securities Act of 1933, as amended. Based on the number of shares of The First common stock that are outstanding (which includes the shares of The First common stock underlying The First restricted stock awards), Renasant currently expects to issue approximately 31,782,668 shares of Renasant common stock in connection with the Merger. If the Merger is completed and if The Firstâ€™s former shareholders sell substantial amounts of Renasant common stock in the public market following completion of the Merger, the market price of Renasant common stock may decrease. These sales might also make it more difficult for Renasant to sell equity or equity-related securities at a time and price that it otherwise would deem appropriate.Combining Renasant and The First may be more difficult, costly or time consuming than expected, and we may fail to realize the anticipated benefits of the Merger.The success of the Merger will depend on, among other things, our ability to integrate The First into our business in a manner that facilitates growth opportunities and achieves the anticipated benefits of the Merger. If we are not able to successfully achieve these objectives, the anticipated benefits of the Merger may not be realized fully or at all or may take longer to realize than expected. In addition, the actual cost savings and anticipated benefits of the Merger could be less than anticipated, and integration may result in additional unforeseen expenses.Renasant and The First have operated and, until the completion of the Merger, will continue to operate, independently. The success of the Merger, including anticipated benefits and cost savings, will depend, in part, on the successful combination of the businesses of Renasant and The First. To realize these anticipated benefits and cost savings, after the completion of the Merger, Renasant expects to integrate The Firstâ€™s business into its own. It is possible that the integration process could result in the loss of key employees, the disruption of the combined companyâ€™s ongoing businesses or inconsistencies in technologies, standards, controls, procedures and policies that adversely affect the combined companyâ€™s ability to maintain relationships with clients, customers, depositors and employees or to achieve the anticipated benefits and cost savings of the Merger. The loss of key employees could have an adverse effect on the combined companyâ€™s financial results and the value of Renasant common stock. If Renasant experiences difficulties with the integration process, the anticipated benefits of the Merger may not be realized fully, or at all, or may take longer to realize than expected. As with any merger of financial institutions, there also may be business disruptions that cause The First or Renasant to lose current customers or cause current customers to remove their accounts from The First or Renasant and move their business to competing financial institutions. Integration efforts between the two companies will also divert management attention and resources. These integration matters could have an adverse effect on each of The First and Renasant during this transition period and for an undetermined period after consummation of the Merger.We expect to incur substantial transaction costs in connection with the Merger.We expect to incur a significant amount of non-recurring expenses in connection with the Merger, including legal, accounting, consulting and other expenses. In general, these expenses are payable by us whether or not the Merger is completed. Additional unanticipated costs may be incurred following consummation of the Merger in the course of the integration of our business and the business of The First. We cannot be certain that the elimination of duplicative costs or the realization of other efficiencies related to the integration of the two businesses will offset the transaction and integration costs in the near term, or at all.The Merger will result in changes to the board of directors of the combined company and the surviving bank.Upon completion of the Merger, the composition of the combined company boards of directors will be different than the current Renasant and Renasant Bank boards of directors. The Renasant board of directors and the Renasant Bank board of directors will consist of: (1) the current members of the Renasant board of directors and four current members of The First board of directors and (2) the current members of the Renasant Bank board of directors and six current members of The First Bank board of 76Table of Contentsdirectors, respectively. This new composition of the combined company boards of directors may affect the future decisions of the combined company.The unaudited pro forma financial information included as an exhibit to our Current Report on Form 8-K filed on July 29, 2024, is presented for illustrative purposes only and does not purport to be indicative of our financial condition or results of operations following the completion of the Merger.The unaudited pro forma financial information included as an exhibit to our Current Report on Form 8-K filed on July 29, 2024, is presented for illustrative purposes only, is based on various adjustments, assumptions and preliminary estimates and may not be an indication of our financial condition or results of operations following the consummation of the Merger for several reasons. On July 1, 2024, the Bank sold substantially all of the assets of Renasant Insurance, Inc. Through its subsidiaries, the Company offers a diversified range of financial, wealth management and fiduciary services to its retail and commercial customers from offices located throughout the Southeast and offers factoring and asset-based lending on a nationwide basis.Basis of Presentation: The accompanying unaudited consolidated financial statements of the Company and its subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America (â€œGAAPâ€) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For further information regarding the Companyâ€™s significant accounting policies, refer to the audited consolidated financial statements and notes thereto included in the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023 filed with the Securities and Exchange Commission (the â€œSECâ€) on FebruaryÂ 23, 2024.Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates, and such differences may be material.Impact of Recently-Issued Accounting Standards and Pronouncements:In March 2023, the Financial Accounting Standards Board (â€œFASBâ€) issued Accounting Standards Update (â€œASUâ€) 2023-02, â€œInvestments - Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Methodâ€ (â€œASU 2023-02â€), which permits reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. ASU 2023-02 was effective on January 1, 2024. The adoption of this accounting pronouncement did not have an impact on the Companyâ€™s historical financial statements but could influence the Companyâ€™s decisions with respect to investments in certain tax credits prospectively.In October 2023, FASB issued ASU 2023-06, â€œDisclosure Improvementsâ€ (â€œASU 2023-06â€), which amends the disclosure requirements related to various subtopics in the FASB Accounting Standards Codification (the â€œCodificationâ€). ASU 2023-06 adds a number of disclosure requirements to the Codification in response to the SEC initiative to update and simplify disclosure requirements. ASU 2023-06 is to be applied prospectively, and early adoption is prohibited. For SEC reporting entities, the effective dates will be the respective effective dates of the SECâ€™s removal of the related disclosure requirements from Regulation S-X or Regulation S-K. If by June 30, 2027, the SEC has not removed the applicable requirement from Regulation S-X or Regulation S-K, the pending content of the related amendment will be removed from the Codification and will not become effective for any entities. ASU 2023-06 is not expected to have significant impact on the Companyâ€™s financial statements.In November 2023, FASB issued ASU 2023-07, â€œSegment Reporting (Topic 280): Improvements to Reportable Segment Disclosuresâ€ (â€œASU 2023-07â€), which amends the disclosure requirements related to segment reporting primarily through enhanced disclosure about significant segment expenses and by requiring disclosure of segment information on an annual and interim basis. ASU 2023-07 was effective January 1, 2024 and did not have a significant impact on our financial statements or segment disclosures.In December 2023, FASB issued ASU 2023-09, â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosuresâ€ (â€œASU 2023-09â€), which enhances the transparency and decision usefulness of income tax disclosures. ASU 2023-09 will require disaggregated information about a reporting entityâ€™s effective tax rate reconciliation as well as information on income taxes paid. If the Company intends to sell the security or it is more likely than not that it will be required to sell before recovery, the entire unrealized loss is recorded as a loss within noninterest income in the Consolidated Statements of Income along with a corresponding adjustment to the amortized cost basis of the security. If the Company does not intend to sell the security and it is not more likely than not that it will be required to sell the security before recovery of its amortized cost basis, the Company evaluates if any of the unrealized loss is related to a potential credit loss. The amount related to credit loss, if any, is recognized in earnings as a provision for credit loss and a corresponding allowance for credit losses is established; each is calculated as the difference between the estimate of the discounted future contractual cash flows and the amortized cost basis of the security. A number of qualitative and quantitative factors are considered by management in the estimate of the discounted future contractual cash flows, including the financial condition of the underlying issuer, current and projected deferrals or defaults and credit ratings by nationally recognized statistical rating agencies. The remaining difference between the fair value and the amortized cost basis of the security is considered the amount related to other market factors and is recognized in other comprehensive income, net of tax.As of SeptemberÂ 30, 2024, the Company does not intend to sell any of the securities in an unrealized loss position, and it is not more likely than not that the Company will be required to sell any such security prior to the recovery of its amortized cost basis, which may be maturity. Furthermore, more than 90% of available for sale securities have the explicit or implicit backing of the federal government. Performance of these securities has been in line with broader market price performance, indicating that increases in market-based, risk-free rates, and not credit-related factors, are driving losses. When determining the fair value of the contractual cash flows for municipal and corporate securities, the Company considers historical experience with credit sensitive securities, current market conditions, the financial condition of the underlying issuer, current credit ratings, ratings changes and outlook, explicit and implicit guarantees, or insurance programs. Based upon its review of these factors as of SeptemberÂ 30, 2024, the Company determined that all such losses resulted from factors not deemed credit-related. As a result, no credit-related impairment was recognized in current earnings, and all unrealized losses for available for sale securities were recorded in other comprehensive income (loss). See Note 12, â€œOther Comprehensive Incomeâ€ for more information on the Companyâ€™s unrealized losses on securities.The allowance for credit losses on held to maturity securities was $32 at SeptemberÂ 30, 2024 and December 31, 2023. The Company monitors the credit quality of debt securities held to maturity using bond investment grades assigned by nationally recognized statistical ratings agencies. Updated investment grades are obtained as they become available from agencies. As of SeptemberÂ 30, 2024, all of the amortized cost of debt securities held to maturity were rated A or higher by the ratings agencies. Generally, the recognition of interest on loans is discontinued at the time the loan is 90 days past due unless the credit is well-secured and in process of collection. Consumer and other retail loans are typically charged-off no later than the time the loan is 120 days past due. In all cases, loans are placed on nonaccrual status or charged-off at an earlier date if collection of principal or interest is considered doubtful. Loans may be placed on nonaccrual status regardless of whether or not such loans are considered past due. For loans that are placed on nonaccrual status or charged-off, all interest accrued for the current year but not collected is reversed against interest income. The interest on these loans is accounted for on the cash-basis or cost-recovery method, until qualifying for return to accrual status. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured. All modifications for the three and nine months ended September 30, 2024 and 2023 and which met the disclosure criteria in ASU 2022-02 were performing in accordance with their modified terms at September 30, 2024 and 2023, respectively. Unused commitments totaled $464 at September 30, 2024. There were $721 in unused commitments at September 30, 2023. Upon the Companyâ€™s determination that a modification has been subsequently deemed uncollectible, the loan, or portion of the loan, is charged off, the amortized cost basis of the loan is reduced by the uncollectible amount, and the allowance for credit losses is adjusted accordingly. See Note 4, â€œAllowance for Credit Losses,â€ for more information on the allowance for credit losses.The following tables present the amortized cost basis of loans that were experiencing financial difficulty, modified during the three and nine months ended September 30, 2024 and the nine months ended September 30, 2023, and required to be disclosed under ASU 2022-02, by class of financing receivable and by type of modification. There were no modifications for the three months ended September 30, 2023. Management analyzes the resulting ratings, as well as other external statistics and factors such as delinquency, to track the migration performance of the portfolio balances of commercial and commercial real estate secured loans. Loan grades range between 10 and 95, with 10 being loans with the least credit risk. Loans within the â€œPassâ€ grade (those with a risk rating between 10 and 60) generally have a lower risk of loss and therefore a lower risk factor applied to the loan balances. The â€œSpecial Mentionâ€ grade (those with a risk rating of 70) represents a loan where a significant adverse risk-modifying action is anticipated in the near term that, if left uncorrected, could result in deterioration of the credit quality of the loan. Loans that migrate toward the â€œSubstandardâ€ grade (those with a risk rating between 80 and 95) generally have a higher risk of loss and therefore a higher risk factor applied to those related loan balances.The following tables present the Companyâ€™s loan portfolio by year of origination and internal risk-rating grades as of the dates presented:Â Term Loans Amortized Cost Basis by Origination YearÂ 20242023202220212020PriorRevolving LoansRevolving Loans Converted to TermTotalLoansSeptember 30, 2024Commercial, Financial, Agricultural$169,011Â $245,027Â $242,343Â $120,226Â $81,822Â $72,830Â $861,207Â $7,519Â $1,799,985Â Pass163,622Â 242,583Â 227,798Â 119,696Â 80,650Â 68,705Â 837,371Â 2,878Â 1,7

Management evaluates the adequacy of the allowance for credit losses on a quarterly basis. Expected credit loss inherent in non-cancellable off-balance-sheet credit exposures is accounted for as a separate liability in the Consolidated Balance Sheets. The allowance for credit losses on loans held for investment, as reported in the Companyâ€™s Consolidated Balance Sheets, is adjusted by a provision for credit losses, which is reported in earnings, and reduced by net charge-offs. Loan losses are charged against the allowance for credit losses when management believes the uncollectability of a loan balance is confirmed and such losses are reasonably quantified. Subsequent recoveries, if any, are credited to the allowance. For more information about the Companyâ€™s policies and procedures for determining the amount of the allowance for credit losses, please refer to the discussion in Note 1, â€œSignificant Accounting Policies,â€ in the Notes to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data, in the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023.The Company has made an accounting policy election to exclude accrued interest from the measurement of the allowance for credit losses in the Companyâ€™s loan portfolio. As of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Company had accrued interest receivable for loans of $55,542 and $54,804, respectively, which is recorded in the â€œOther assetsâ€ line item on the Consolidated Balance Sheets. Although the Company made the election to exclude accrued interest from the measurement of the allowance for credit losses, the Company did have an allowance for credit losses on interest deferred as part of the loan deferral program established in 2020 in response to the COVID-19 pandemic of $758 and $1,245 as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively.The following tables provide a roll-forward of the allowance for credit losses by loan category and a breakdown of the ending balance of the allowance based on the Companyâ€™s credit loss methodology for the periods presented:CommercialReal Estate - ConstructionRealÂ EstateÂ -1-4 FamilyMortgageRealÂ EstateÂ -CommercialMortgageLease FinancingInstallmentLoans to IndividualsTotalThree Months Ended September 30, 2024Allowance for credit losses:Beginning balance$44,951Â $18,896Â $47,421Â $77,125Â $2,515Â $8,963Â $199,871Â Charge-offs(347)â€”Â (256)(10)(642)(649) (1,904)Recoveries514Â â€”Â 57Â 11Â 8Â 611Â 1,201Â Net (charge-offs) recoveries167Â â€”Â (199)1Â (634)(38)(703)Provision for (recovery of) credit losses on loans(2,065)(2,240) (3)4,961Â 503Â 54Â 1,210Â Ending balance$43,053Â $16,656Â $47,219Â $82,087Â $2,384Â $8,979Â $200,378Â Nine Months Ended September 30, 2024Allowance for credit losses:Beginning balance$43,980Â $18,612Â $47,283Â $77,020Â $2,515Â $9,168Â $198,578Â Charge-offs(882)(546)(5,737)(642)(1,379)(9,186)Recoveries1,385Â 130Â 116Â 26Â 1,181Â 2,838Â Net (charge-offs) recoveries503Â â€”Â (416)(5,621)(616)(198)(6,348)Provision for (recovery of) credit losses on loans(1,430)(1,956)352Â 10,688Â 485Â 9Â 8,148Â Ending balance$43,053Â $16,656Â $47,219Â $82,087Â $2,384Â $8,979Â $200,378Â Period-End Amount Allocated to:Individually evaluated$8,805Â $â€”Â $â€”Â $4,878Â $â€”Â $270Â $13,953Â Collectively evaluated 34,248Â 16,656Â 47,219Â 77,209Â 2,384Â 8,709Â 186,425Â Ending balance$43,053Â $16,656Â $47,219Â $82,087Â $2,384Â $8,979Â $200,378Â Loans:Individually evaluated$15,370Â $241Â $7,815Â $47,321Â $614Â $270Â $71,631Â Collectively evaluated 1,789,591Â 1,198,597Â 3,432,223Â 5,947,831Â 97,545Â 90,230Â 12,556,017Â Ending balance$1,804,961Â $1,198,838Â $3,440,038Â $5,995,152Â $98,159Â $90,500Â $12,627,648Â Nonaccruing loans with no allowance for credit losses$122Â $â€”Â $6,868Â $25,016Â $614Â $â€”Â $32,620Â CommercialReal Estate -ConstructionRealÂ EstateÂ -1-4 FamilyMortgageRealÂ EstateÂ -CommercialMortgageLease FinancingInstallment Loans to IndividualsTotalThree Months Ended September 30, 2023Allowance for credit losses:Beginning balance$41,310Â $19,125Â $46,434Â $75,667Â $2,480Â $9,375Â $194,391Â Charge-offs(2,252)â€”Â (130)â€”Â (641)(607)(3,630)Recoveries690Â 48Â 181Â 208Â 2Â 568Â 1,697Â Net (charge-offs) recoveries(1,562)48Â 51Â 208Â (639)(39)(1,933)Provision for (recovery of) credit losses on loans4,696Â 483Â (686)(642)1,514Â (50)5,315Â Ending balance$44,444Â $19,656Â $45,799Â $75,233Â $3,355Â $9,286Â $197,773Â Nine Months Ended September 30, 2023Allowance for credit losses:Beginning balance$44,255Â $19,114Â $44,727Â $71,798Â $2,463Â $9,733Â $192,090Â Initial impact of purchased credit deteriorated loans acquired during the period(26)â€”Â â€”Â â€”Â â€”Â (26)Charge-offs(7,720)(57)(345)(5,512)(641)(1,997)(16,272)Recoveries2,689Â 48Â 375Â 697Â 13Â 1,884Â 5,706Â Net (charge-offs) recoveries(5,031) (9)30Â (4,815)(628)(113)(10,566)Provision for (recovery of) credit losses on loans5,246Â 551Â 1,042Â 8,250Â 1,520Â (334)16,275Â Ending balance$44,444Â $19,656Â $45,799Â $75,233Â $3,355Â $9,286Â $197,773Â Period-End Amount Allocated to:Individually evaluated$11,194Â $â€”Â $77Â $1,260Â $856Â $270Â $13,657Â Collectively evaluated33,250Â 19,656Â 45,722Â 73,973Â 2,499Â 9,016Â 184,116Â Ending balance$44,444Â $19,656Â $45,799Â $75,233Â $3,355Â $9,286Â $197,773Â Loans:Individually evaluated$20,996Â $â€”Â $13,007Â $18,403Â $1,047Â $270Â $53,723Â Collectively evaluated1,798,895Â 1,407,364Â 3,385,869Â 5,294,763Â 119,677Â 107,732Â 12,114,300Â Ending balance$1,819,891Â $1,407,364Â $3,398,876Â $5,313,166Â $120,724Â $108,002Â $12,168,023Â Nonaccruing loans with no allowance for credit losses$1,987Â $â€”Â $11,441Â $11,226Â $191Â $â€”Â $24,845Â Â The Company recorded a provision for credit losses on loans of $1,210 during the third quarter of 2024, as compared to a provision for credit losses on loans of $5,315 recorded in the third quarter of 2023. The Companyâ€™s allowance for credit losses model considers economic projections, primarily the national unemployment rate and GDP, over a reasonable and supportable period of two years. The provision for credit losses on loans of $1,210 in the third quarter of 2024 was primarily driven by loan growth and changes in credit metrics that influence the Companyâ€™s expectations of future losses, including but not limited to the balance of nonperforming loans, underlying collateral values, and historical levels of charge-offs, all considered in the context of the existing balance of the allowance for credit losses.Allowance for Credit Losses on Unfunded Loan Commitments The Company maintains a separate allowance for credit losses on unfunded loan commitments, which is included in the â€œOther liabilitiesâ€ line item on the Consolidated Balance Sheets. For more information about the Companyâ€™s policies and procedures for determining the amount of the allowance for credit losses on unfunded loan commitments, please refer to the discussion in Note 1, â€œSignificant Accounting Policies,â€ in the Notes to the Consolidated Financial Statements in Item 8, Financial Statements and Supplementary Data, in the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023.The following tables provide a roll-forward of the allowance for credit losses on unfunded loan commitments for the periods presented. These mortgage servicing rights (â€œMSRsâ€) are recognized as a separate asset on the date the corresponding mortgage loan is sold. MSRs are amortized in proportion to and over the period of estimated net servicing income. These servicing rights are carried at the lower of amortized cost or fair value. Fair value is determined using an income approach with various assumptions, including expected cash flows, prepayment speeds, market discount rates, servicing costs, and other factors, and is subject to significant fluctuation as a result of actual prepayment speeds, default rates and losses differing from estimates thereof. For example, an increase in mortgage interest rates or a decrease in actual prepayment speeds may cause positive adjustments to the valuation of the Companyâ€™s MSRs.MSRs are evaluated for impairment (or reversals of prior impairments) quarterly based upon the fair value of the rights as compared to the carrying amount. Impairment is recognized through a valuation allowance in the amount that unamortized cost exceeds fair value. If the Company later determines that all or a portion of the impairment no longer exists, a reduction of the valuation allowance may be recorded as an increase to income. Changes in valuation allowances related to servicing rights are reported in â€œMortgage banking incomeâ€ on the Consolidated Statements of Income. There was no valuation adjustment on MSRs during the nine months ended September 30, 2024 or 2023.During the first quarter of 2024, the Company sold MSRs relating to mortgage loans having an aggregate unpaid principal balance of $2,013,235 to a third party for net proceeds of $23,011, resulting in a gain of $3,472.Changes in the Companyâ€™s MSRs were as follows:Balance at January 1, 2024$91,688Â Sale of MSRs(19,539)Capitalization6,860Â Amortization(7,019)Balance at September 30, 2024$71,990Â Data and key economic assumptions related to the Companyâ€™s MSRs are as follows as of the dates presented:Â September 30, 2024DecemberÂ 31, 2023Unpaid principal balance$5,938,135Â $7,826,182Â Weighted-average prepayment speed (CPR)10.71Â %8.77Â %Estimated impact of a 10% increase$(3,081)$(2,653)Estimated impact of a 20% increase(5,946)(5,457)Discount rate11.08Â %10.85Â %Estimated impact of a 10% increase$(3,399)$(4,753)Estimated impact of a 20% increase(6,552)(9,149)Weighted-average coupon interest rate4.22Â %3.88Â %Weighted-average servicing fee (basis points)36.04Â 33.24Â Weighted-average remaining maturity (in years)6.907.50 The Company recorded servicing fees of $3,594 and $4,335 for the three months ended SeptemberÂ 30, 2024 and 2023, respectively, and servicing fees of $11,463 and $13,275 for the nine months ended SeptemberÂ 30, 2024 and 2023, respectively, all of which are included in â€œMortgage banking incomeâ€ in the Consolidated Statements of Income. The year-over-year increase in the Companyâ€™s effective tax rate was driven primarily by taxable gains from the sale of its insurance business, taxable effects from certain restructurings of the investment portfolio, and nondeductible expense related to the Companyâ€™s potential acquisition of The First Bancshares, Inc. The Company calculated the provision for income taxes by applying the estimated annual effective tax rate to year-to-date pre-tax income, and adjusting for discrete items that occurred during the period. The fair value hierarchy gives the highest priority to a valuation based on quoted prices in active markets for identical assets and liabilities (Level 1), moderate priority to a valuation based on quoted prices in active markets for similar assets and liabilities and/or based on assumptions that are observable in the market (Level 2), and the lowest priority to a valuation based on assumptions that are not observable in the market (Level 3).Recurring Fair Value MeasurementsThe Company carries certain assets and liabilities at fair value on a recurring basis in accordance with applicable standards. The Companyâ€™s recurring fair value measurements are based on the requirement to carry such assets and liabilities at fair value or the Companyâ€™s election to carry certain eligible assets at fair value. Assets and liabilities that are required to be carried at fair value on a recurring basis include securities available for sale and derivative instruments. The Company has elected to carry mortgage loans held for sale at fair value on a recurring basis as permitted under the guidance in ASC 825, â€œFinancial Instrumentsâ€ (â€œASC 825â€).The following methods and assumptions are used by the Company to estimate the fair values of the Companyâ€™s financial assets and liabilities that are measured on a recurring basis:Securities available for sale: Securities available for sale consist primarily of debt securities, such as obligations of U.S. Government agencies and corporations, obligations of states and political subdivisions and mortgage-backed securities. Where quoted market prices in active markets are available, securities are classified within Level 1 of the fair value hierarchy. If quoted prices from active markets are not available, fair values are based on quoted market prices for similar instruments traded in active markets, quoted market prices for identical or similar instruments traded in markets that are not active, or model-based valuation techniques where all significant assumptions are observable in the market. Such instruments are classified within Level 2 of the fair value hierarchy. When assumptions used in model-based valuation techniques are not observable in the market, the assumptions used by management reflect estimates of assumptions used by other market participants in determining fair value. When there is limited transparency around the inputs to the valuation, the instruments are classified within Level 3 of the fair value hierarchy.Derivative instruments: Most of the Companyâ€™s derivative contracts are extensively traded in over-the-counter markets and are valued using discounted cash flow models which incorporate observable market based inputs including current market interest rates, credit spreads, and other factors. Such instruments are categorized within Level 2 of the fair value hierarchy and include interest rate swaps, interest rate collars and other interest rate contracts such as interest rate caps and/or floors. The Companyâ€™s interest rate lock commitments are valued using current market prices for mortgage-backed securities with similar characteristics, adjusted for certain factors including servicing and risk. The value of the Companyâ€™s forward commitments is based on current prices for securities backed by similar types of loans. Because these assumptions are observable in active markets, the Companyâ€™s interest rate lock commitments and forward commitments are categorized within Level 2 of the fair value hierarchy.Mortgage loans held for sale in loans held for sale: Mortgage loans held for sale are primarily agency loans which trade in active secondary markets. The fair value of these instruments is derived from current market pricing for similar loans, adjusted for differences in loan characteristics, including servicing and risk. Because the valuation is based on external pricing of similar instruments, mortgage loans held for sale are classified within Level 2 of the fair value hierarchy.The following tables present assets and liabilities that are measured at fair value on a recurring basis as of the dates presented:Â LevelÂ 1Level 2Level 3TotalsSeptember 30, 2024Financial assets:Securities available for sale$â€”Â $764,844Â $â€”Â $764,844Â Derivative instrumentsâ€”Â 39,963Â â€”Â 39,963Â Mortgage loans held for sale in loans held for saleâ€”Â 291,735Â â€”Â 291,735Â Total financial assets$â€”Â $1,096,542Â $â€”Â $1,096,542Â Financial liabilities:Derivative instruments:$â€”Â $34,555Â $â€”Â $34,555Â LevelÂ 1Level 2Level 3TotalsDecemberÂ 31, 2023Financial assets:Securities available for sale$â€”Â $923,279Â $â€”Â $923,279Â Derivative instrumentsâ€”Â 37,151Â â€”Â 37,151Â Mortgage loans held for sale in loans held for saleâ€”Â 179,756Â â€”Â 179,756Â Total financial assets$â€”Â $1,140,186Â $â€”Â $1,140,186Â Financial liabilities:Derivative instruments$â€”Â $33,608Â $â€”Â $33,608Â The Company reviews fair value hierarchy classifications on a quarterly basis. Changes in the Companyâ€™s ability to observe inputs to the valuation may cause reclassification of certain assets or liabilities within the fair value hierarchy. Transfers between levels of the hierarchy are deemed to have occurred at the end of period. There were no such transfers between levels of the fair value hierarchy during the nine months ended SeptemberÂ 30, 2024.For the nine months ended SeptemberÂ 30, 2024 and 2023, respectively, there were no gains or losses included in earnings that were attributable to the change in unrealized gains or losses related to assets or liabilities held at the end of each respective period that were measured on a recurring basis using significant unobservable inputs.Â Nonrecurring Fair Value MeasurementsCertain assets and liabilities may be recorded at fair value on a nonrecurring basis. These nonrecurring fair value adjustments typically are a result of the application of the lower of cost or market accounting or a write-down occurring during the period. The following tables provide the fair value measurement for assets measured at fair value on a nonrecurring basis that were still held on the Consolidated Balance Sheets as of the dates presented and the level within the fair value hierarchy each is classified:Â September 30, 2024LevelÂ 1LevelÂ 2Level 3TotalsIndividually evaluated loans, net of allowance for credit losses$â€”Â $â€”Â $42,248Â $42,248Â OREOâ€”Â â€”Â 29Â 29Â Total$â€”Â $â€”Â $42,277Â $42,277Â Â DecemberÂ 31, 2023LevelÂ 1LevelÂ 2Level 3TotalsIndividually evaluated loans, net of allowance for credit losses$â€”Â $â€”Â $21,303Â $21,303Â Total$â€”Â $â€”Â $21,303Â $21,303Â The following methods and assumptions are used by the Company to estimate the fair values of the Companyâ€™s financial assets measured on a nonrecurring basis:Individually evaluated loans: Individually evaluated loans are reviewed and evaluated for credit losses on at least a quarterly basis for additional impairment and adjusted accordingly, taking into account the fair value of the collateral less estimated selling costs. Collateral may be real estate and/or business assets including but not limited to equipment, inventory and accounts receivable. The fair value of real estate is determined based on appraisals by qualified licensed appraisers. The fair value of the business assets is generally based on amounts reported on the businessâ€™s financial statements. Appraised and reported values may be adjusted based on changes in market conditions from the time of valuation and managementâ€™s knowledge of the client and the clientâ€™s business. Since not all valuation inputs are observable, these nonrecurring fair value determinations are classified as Level 3. Individually evaluated loans that were measured or re-measured at fair value had a carrying value of $50,898 and $22,328 at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and a specific reserve for these loans of $8,650 and $1,025 was included in the allowance for credit losses as of such dates.Other real estate owned: OREO is comprised of commercial and residential real estate obtained in partial or total satisfaction of loan obligations. OREO acquired in settlement of indebtedness is recorded at the fair value of the real estate less estimated costs to sell. Subsequently, it may be necessary to record nonrecurring fair value adjustments for declines in fair value. Fair value, when recorded, is determined based on appraisals by qualified licensed appraisers and adjusted for managementâ€™s estimates of costs to sell. Accordingly, values for OREO are classified as Level 3.The following table presents OREO measured at fair value on a nonrecurring basis that was still held on the Consolidated Balance Sheets as of SeptemberÂ 30, 2024. There was no impairment recognized during 2023 of OREO assets still held in the Consolidated Balance Sheets as of DecemberÂ 31, 2023.Â September 30,2024Carrying amount prior to remeasurement$62Â Impairment recognized in results of operations(33)Fair value$29Â Mortgage servicing rights: Mortgage servicing rights are carried at the lower of amortized cost or fair value. Fair value is determined using an income approach with various assumptions including expected cash flows, market discount rates, prepayment speeds, servicing costs, and other factors. Because these factors are not all observable and include managementâ€™s assumptions, mortgage servicing rights are classified within Level 3 of the fair value hierarchy. Mortgage servicing rights were carried at amortized cost at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023. There were no valuation adjustments on MSRs during the nine months ended SeptemberÂ 30, 2024 or 2023.The following table presents information as of SeptemberÂ 30, 2024 about significant unobservable inputs (Level 3) used in the valuation of assets measured at fair value on a nonrecurring basis:Â Financial instrumentFairValueValuation TechniqueSignificantUnobservableÂ InputsRangeÂ ofÂ InputsIndividually evaluated loans, net of allowance for credit losses$42,248Â Appraised value of collateral less estimated costs to sellEstimatedÂ costsÂ toÂ sell4-10%OREO$29Â Appraised value of property less estimated costs to sellEstimated costs to sell4-10%Fair Value OptionThe Company has elected to measure all mortgage loans held for sale at fair value under the fair value option as permitted under ASC 825. Electing to measure these assets at fair value reduces certain timing differences and better matches the changes in fair value of the loans with changes in the fair value of derivative instruments used to economically hedge them.A net gain of $1,826 and net loss of $256 resulting from fair value changes of these mortgage loans were recorded in income during the nine months ended SeptemberÂ 30, 2024 and 2023, respectively. These amounts do not reflect changes in fair values of related derivative instruments used to hedge exposure to market-related risks associated with these mortgage loans. The change in fair value of both mortgage loans held for sale and the related derivative instruments are recorded in â€œMortgage banking incomeâ€ in the Consolidated Statements of Income.The Companyâ€™s valuation of mortgage loans held for sale incorporates an assumption for credit risk; however, given the short-term period that the Company holds these loans, valuation adjustments attributable to instrument-specific credit risk is nominal. Interest income on mortgage loans held for sale measured at fair value is accrued as it is earned based on contractual rates and is reflected in loan interest income on the Consolidated Statements of Income.The following table summarizes the differences between the fair value and the principal balance for mortgage loans held for sale measured at fair value as of SeptemberÂ 30, 2024 and DecemberÂ 31, 2023:Â AggregateFairÂ ValueAggregateUnpaidPrincipalBalanceDifferenceSeptember 30, 2024Mortgage loans held for sale measured at fair value$291,735Â $284,647Â $7,088Â DecemberÂ 31, 2023Mortgage loans held for sale measured at fair value$179,756Â $174,471Â $5,285Â Fair Value of Financial InstrumentsThe carrying amounts and estimated fair values of the Companyâ€™s financial instruments, including those assets and liabilities that are not measured and reported at fair value on a recurring basis or nonrecurring basis, were as follows as of the dates presented:Â Â Â Fair ValueAs of September 30, 2024CarryingValueLevel 1Level 2Level 3TotalFinancial assetsCash and cash equivalents$1,275,620Â $1,275,620Â $â€”Â $â€”Â $1,275,620Â Securities held to maturity1,150,531Â â€”Â 1,068,968Â â€”Â 1,068,968Â Securities available for sale764,844Â â€”Â 764,844Â â€”Â 764,844Â Loans held for sale291,735Â â€”Â 291,735Â â€”Â 291,735Â Loans, net12,427,270Â â€”Â â€”Â 12,051,978Â 12,051,978Â Mortgage servicing rights71,990Â â€”Â â€”Â 88,461Â 88,461Â Derivative instruments39,963Â â€”Â 39,963Â â€”Â 39,963Â Financial liabilitiesDeposits$14,509,751Â $11,816,487Â $2,687,734Â $â€”Â $14,504,221Â Short-term borrowings108,732Â 108,732Â â€”Â â€”Â 108,732Â Junior subordinated debentures113,681Â â€”Â 98,822Â â€”Â 98,822Â Subordinated notes319,496Â â€”Â 286,140Â â€”Â 286,140Â Derivative instruments34,555Â â€”Â 34,555Â â€”Â 34,555Â Â Â Â Fair ValueAs of December 31, 2023CarryingValueLevel 1Level 2Level 3TotalFinancial assetsCash and cash equivalents$801,351Â $801,351Â $â€”Â $â€”Â $801,351Â Securities held to

Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on the Companyâ€™s financial statements. Capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.The Federal Reserve, the FDIC and the Office of the Comptroller of the Currency have issued guidelines governing the levels of capital that bank holding companies and banks must maintain. Effective July 1, 2024, the Bank sold substantially all of the assets of its Insurance segment.â€¢The Wealth Management segment, through the Trust division, offers a broad range of fiduciary services including the administration (as trustee or in other fiduciary or representative capacities) of benefit plans, management of trust accounts, inclusive of personal and corporate benefit accounts, and custodial accounts, as well as accounting and money management for trust accounts. In addition, the Wealth Management segment, through the Financial Services division, provides specialized products and services to customers, which include fixed and variable annuities, mutual funds and other investment services through a third party broker-dealer.To give the Companyâ€™s divisional management a more precise indication of the income and expenses they can control, the results of operations for the Community Banks, the Insurance and the Wealth Management segments reflect the direct revenues and expenses of each respective segment. Indirect revenues and expenses, including but not limited to income from the Companyâ€™s investment portfolio as well as certain costs associated with data processing and back office functions, primarily support the operations of the community banks and, therefore, are included in the results of the Community Banks segment. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For further information regarding the Companyâ€™s significant accounting policies, refer to the audited consolidated financial statements and notes thereto included in the Companyâ€™s Annual Report on Form 10-K for the year ended DecemberÂ 31, 2023 filed with the Securities and Exchange Commission (the â€œSECâ€) on FebruaryÂ 23, 2024. Use of Estimates Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates, and such differences may be material. Impact of Recently-Issued Accounting Standards and Pronouncements Impact of Recently-Issued Accounting Standards and Pronouncements:In March 2023, the Financial Accounting Standards Board (â€œFASBâ€) issued Accounting Standards Update (â€œASUâ€) 2023-02, â€œInvestments - Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Tax Credit Structures Using the Proportional Amortization Methodâ€ (â€œASU 2023-02â€), which permits reporting entities to elect to account for their tax equity investments, regardless of the tax credit program from which the income tax credits are received, using the proportional amortization method if certain conditions are met. ASU 2023-02 was effective on January 1, 2024. The adoption of this accounting pronouncement did not have an impact on the Companyâ€™s historical financial statements but could influence the Companyâ€™s decisions with respect to investments in certain tax credits prospectively.In October 2023, FASB issued ASU 2023-06, â€œDisclosure Improvementsâ€ (â€œASU 2023-06â€), which amends the disclosure requirements related to various subtopics in the FASB Accounting Standards Codification (the â€œCodificationâ€). ASU 2023-06 adds a number of disclosure requirements to the Codification in response to the SEC initiative to update and simplify disclosure requirements. ASU 2023-06 is to be applied prospectively, and early adoption is prohibited. For SEC reporting entities, the effective dates will be the respective effective dates of the SECâ€™s removal of the related disclosure requirements from Regulation S-X or Regulation S-K. If by June 30, 2027, the SEC has not removed the applicable requirement from Regulation S-X or Regulation S-K, the pending content of the related amendment will be removed from the Codification and will not become effective for any entities. ASU 2023-06 is not expected to have significant impact on the Companyâ€™s financial statements.In November 2023, FASB issued ASU 2023-07, â€œSegment Reporting (Topic 280): Improvements to Reportable Segment Disclosuresâ€ (â€œASU 2023-07â€), which amends the disclosure requirements related to segment reporting primarily through enhanced disclosure about significant segment expenses and by requiring disclosure of segment information on an annual and interim basis. ASU 2023-07 was effective January 1, 2024 and did not have a significant impact on our financial statements or segment disclosures.In December 2023, FASB issued ASU 2023-09, â€œIncome Taxes (Topic 740): Improvements to Income Tax Disclosuresâ€ (â€œASU 2023-09â€), which enhances the transparency and decision usefulness of income tax disclosures. ASU 2023-09 will require disaggregated information about a reporting entityâ€™s effective tax rate reconciliation as well as information on income taxes paid. Entities will also be required to disclose income/(loss) from continuing operations before income tax expense/(benefit) disaggregated between domestic and foreign, as well as income tax expense/(benefit) from continuing operations disaggregated by federal, state and foreign. ASU 2023-09 is effective January 1, 2025 and is not expected to have a significant impact on our financial statements.
