

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE QUARTERLY PERIOD ENDED JUNE 30, 2024

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE TRANSITION PERIOD FROM _____ TO _____.

Commission file number: 000-32897

UNITED SECURITY BANCSHARES

(Exact name of registrant as specified in its charter)

CALIFORNIA	91-2112732
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
2126 Inyo Street, Fresno, California	93721
(Address of principal executive offices)	(Zip Code)

Registrant's telephone number, including area code (559) 490-6261

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common Stock, no par value	UBFO	Nasdaq

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a small reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Common Stock, no par value

(Title of Class)

Shares outstanding as of July 31, 2024: 17,322,758

See accompanying notes to condensed consolidated financial statements.

United Security Bancshares and Subsidiaries - Notes to Condensed Consolidated Financial Statements - (Unaudited)**1. Organization and Summary of Significant Accounting and Reporting Policies**

The consolidated financial statements include the accounts of United Security Bancshares ("Company" or "USB") and its wholly-owned subsidiary, United Security Bank ("Bank"). Intercompany accounts and transactions have been eliminated in consolidation.

These unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information on a basis consistent with the accounting policies reflected in the audited consolidated financial statements of the Company included in its 2023 Annual Report on Form 10-K. These interim consolidated financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments consisting of a normal, recurring nature and considered necessary for a fair presentation have been included. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for any other interim period or for the year as a whole.

Reclassifications:

Some items in the prior year financial statements were reclassified to conform to the current presentation. Reclassifications had no effect on prior period net income or shareholders' equity.

2. Investment Securities

Following is a comparison of the amortized cost and fair value of securities available-for-sale as of June 30, 2024, and December 31, 2023:

(In thousands)	June 30, 2024				
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value (Carrying Amount)	
Securities available-for-sale:					
U.S. Government agencies	\$ 5,222	\$ 4	\$ (32)	\$ 5,194	
U.S. Government-sponsored entities and agencies collateralized by mortgage obligations	95,748	4	(13,300)	82,452	
Municipal bonds	50,282	—	(7,805)	42,477	
Corporate bonds	34,849	48	(2,104)	32,793	
Total securities available-for-sale	\$ 186,101	\$ 56	\$ (23,241)	\$ 162,916	

(In thousands)	December 31, 2023				
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value (Carrying Amount)	
Securities available-for-sale:					
U.S. Government agencies	\$ 6,197	\$ 4	\$ (45)	\$ 6,156	
U.S. Government-sponsored entities and agencies collateralized by mortgage obligations	100,487	4	(12,307)	88,184	
U.S. Treasury securities	12,510	—	(72)	12,438	
Municipal bonds	50,382	—	(8,017)	42,365	
Corporate bonds	34,813	24	(2,715)	32,122	
Total securities available-for-sale	\$ 204,389	\$ 32	\$ (23,156)	\$ 181,265	

The amortized cost and fair value of securities available for sale at June 30, 2024, by contractual maturity, are shown below. Actual maturities may differ from contractual maturities because issuers have the right to call or prepay obligations with or without call or prepayment penalties. Contractual maturities on collateralized mortgage obligations cannot be anticipated due to allowed paydowns.

(In thousands)	June 30, 2024	
	Amortized Cost	Fair Value (Carrying Amount)
	\$ 101	\$ 100
Due in one year or less	\$ 101	\$ 100
Due after one year through five years	34,614	32,833
Due after five years through ten years	53,682	45,577
Due after ten years	1,956	1,955
Collateralized mortgage obligations	95,748	82,451
	\$ 186,101	\$ 162,916

There were no proceeds or realized gains or losses from the sale or call of available-for-sale securities for the three and six-month periods ended periods ended June 30, 2024, or June 30, 2023.

As market interest rates or risks associated with a security's issuer continue to change and impact the actual or perceived values of investment securities, the Company may determine that selling these securities and using the proceeds to purchase securities that better fit with the Company's current risk profile is appropriate and beneficial to the Company. There were no losses recorded due to credit-related factors for the three and six-month periods ended June 30, 2024, or June 30, 2023.

At June 30, 2024, available-for-sale securities with an amortized cost of approximately \$ 95.1 million and a fair value of \$ 82.1 million were pledged as collateral for FHLB borrowings, securitized deposits, and public funds balances. At December 31, 2023, available-for-sale securities with an amortized cost of approximately \$94.3 million and a fair value of \$ 82.9 million were pledged as collateral for FHLB borrowings, securitized deposits, and public funds balances.

The following summarizes available-for-sale securities in an unrealized loss position for which a credit loss has not been recorded:

(In thousands)	Less than 12 Months		12 Months or More		Total	
	Fair Value (Carrying Amount)	Unrealized Losses	Fair Value (Carrying Amount)	Unrealized Losses	Fair Value (Carrying Amount)	Unrealized Losses
	June 30, 2024					
U.S. Government agencies	\$ —	\$ —	\$ 3,565	\$ (32)	\$ 3,565	\$ (32)
U.S. Government sponsored entities and agencies collateralized by mortgage obligations	154	(3)	82,075	(13,297)	82,229	(13,300)
Municipal bonds	871	(120)	41,606	(7,685)	42,477	(7,805)
Corporate bonds	—	—	27,934	(2,104)	27,934	(2,104)
Total available-for-sale	\$ 1,025	\$ (123)	\$ 155,180	\$ (23,118)	\$ 156,205	\$ (23,241)

December 31, 2023

U.S. Government agencies	\$ —	\$ —	\$ 4,064	\$ (45)	\$ 4,064	\$ (45)
U.S. Government sponsored entities and agencies collateralized by mortgage obligations	—	—	87,904	(12,307)	87,904	(12,307)
U.S. Treasury securities	—	—	12,438	(72)	12,438	(72)
Municipal bonds	—	—	42,366	(8,017)	42,366	(8,017)
Corporate bonds	—	—	27,286	(2,715)	27,286	(2,715)
Total available-for-sale	\$ —	\$ —	\$ 174,058	\$ (23,156)	\$ 174,058	\$ (23,156)

The following summarizes the number of available-for-sale securities in an unrealized loss position for which a credit loss has not been recorded:

	June 30, 2024	December 31, 2023
Securities available for sale:		
U.S. Government agencies	4	4
U.S. Government sponsored entities and agencies collateralized by mortgage obligations	46	46
Municipal bonds	46	45
Corporate bonds	8	8
U.S. Treasury securities	—	2
Total available for sale	<u>104</u>	<u>105</u>

Management has evaluated each available-for-sale investment security in an unrealized loss position to determine if it would be required to sell the security before the fair value increases to amortized cost and whether any unrealized losses are due to credit losses or noncredit factors such as current market rates, which would not require the establishment of an allowance for credit losses. At June 30, 2024, the decline in fair value of the available-for-sale securities is attributed to changes in interest rates and not credit quality. These declines are primarily the result of the fast pace and large increases in interest rates during the last two years, which have led to decreases in bond prices and increases in yields. Because the Company does not intend to sell these securities, and because it is more likely than not that it will not be required to sell these securities before their anticipated recovery, the Company does not consider it necessary to provide an allowance for any available-for-sale security at June 30, 2024.

During the six months ended June 30, 2024 and 2023, the Company recognized unrealized gains of \$ 46,000 and unrealized losses of \$ 7,000, respectively, related to one mutual fund included in marketable equity securities. During the quarters ended June 30, 2024 and 2023, the Company recognized unrealized gains of \$4,000 and unrealized losses of \$50,000, respectively, related to the same mutual fund.

The Company had no held-to-maturity or trading securities at June 30, 2024, or December 31, 2023.

3. Loans

Loans, net of unearned fees and unamortized loan origination costs, are comprised of the following:

(In thousands)	June 30, 2024	December 31, 2023
Commercial and industrial:		
Commercial and business loans	\$ 58,907	6.2 %
Government program loans	68	<0.01 %
Total commercial and industrial	<u>58,975</u>	<u>6.2 %</u>
Real estate mortgage:		
Commercial real estate	442,180	46.6 %
Residential mortgages	252,118	26.6 %
Home improvement and home equity loans	28	<0.01 %
Total real estate mortgage	<u>694,326</u>	<u>73.1 %</u>
Real estate construction and development	102,374	10.8 %
Agricultural	53,546	5.6 %
Installment and student loans	40,192	4.3 %
Total loans	<u><u>\$ 949,413</u></u>	<u><u>100.0 %</u></u>

The Company's directly originated loans are predominantly in the San Joaquin Valley and the greater Oakhurst/East Madera County area, as well as the Campbell area of Santa Clara County. The Company's participation loans with other financial institutions and residential mortgage loans are primarily within the state of California.

Commercial and industrial loans are generally made to support the ongoing operations of small- to medium-sized commercial businesses. Commercial and industrial loans have a high degree of industry diversification and provide working capital, financing for the purchase of manufacturing plants and equipment, or funding for growth and general expansion of businesses. A substantial portion of commercial and industrial loans are secured by accounts receivable, inventory, leases, or other collateral including real estate; the remainder are unsecured. Extensions of credit are predicated upon the financial capacity of the borrower and repayment is generally from the cash flow of the borrower.

Real estate mortgage loans are typically secured by either trust deeds on commercial property or single-family residences. Repayment of real estate mortgage loans generally comes from the cash flow of the borrower and or guarantor(s).

- Commercial real estate mortgage loans comprise the largest segment of this loan category and are available for both income-producing and non-income-producing commercial properties, including office buildings, shopping centers, apartments and motels, owner-occupied buildings, manufacturing facilities, and more. Commercial real estate mortgage loans can also be used to refinance existing debt. These loans are typically repaid from the borrower's business operations, rental income associated with the real property, or personal assets.
- Residential mortgage loans are provided to individuals to finance or refinance single-family residences. Residential mortgages are not a primary business line offered by the Company, and a majority are conventional mortgages that were purchased as a pool.
- Home improvement and home equity loans comprise a relatively small portion of total real estate mortgage loans. Home equity loans are generally secured by junior trust deeds, but may be secured by 1st trust deeds.

Real estate construction and development loans consist of loans for residential and commercial construction projects, as well as land acquisition and development, and land held for future development. Loans in this category are secured by real estate, including improved- and unimproved-land, as well as single-family residential, multi-family residential, and commercial properties in various stages of completion. All real estate loans have established equity requirements. Repayment of construction loans generally comes from long-term mortgages with other lending institutions obtained at completion of the project or from the sale of the constructed homes to individuals.

Agricultural loans are generally secured by land, equipment, inventory, and receivables. Repayment is from the cash flow of the borrower.

Installment loans generally consist of student loans; loans to individuals for household, family, and other personal expenditures; automobiles; or other consumer items. See "[Note 4 - Student Loans](#)" for specific information on the student loan portfolio.

Off-Balance Sheet Instruments

In the normal course of business, the Company is party to financial instruments with off-balance sheet risk to meet the financing needs of its customers. At June 30, 2024, and December 31, 2023, these financial instruments include commitments to extend credit of \$165.7 million and \$183.5 million, respectively, and standby letters of credit of \$1.7 million and \$2.9 million for the same period ends, respectively. These instruments involve elements of credit risk in excess of the amount recognized on the consolidated balance sheet. The contract amounts of these instruments reflect the extent of the Company's involvement in off-balance sheet financial instruments.

The Company's exposure to credit loss in the event of nonperformance by the counterparty to these financial instruments is represented by the contractual amounts of those instruments. The Company applies the same credit policies used for on-balance sheet instruments.

Commitments to extend credit continue as long as there is no violation of any condition established in the customer's contract. Substantially all of these commitments are at floating interest rates based on the prime rate and generally have fixed expiration dates. The Company evaluates each customer's creditworthiness on a case-by-case basis and requires collateral in some cases. Collateral held varies but may include accounts receivable, inventory, leases, property, plant and equipment, residential real estate, and income-producing properties.

Standby letters of credit are generally unsecured and are issued by the Company to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers.

Past Due Loans

The following is a summary of the amortized cost of delinquent loans at June 30, 2024:

(In thousands)	Loans						Accruing Loans 90 or More Days Past Due

Nonaccrual Loans

Loans are placed on nonaccrual status under the following circumstances:

- When there is doubt regarding the full repayment of interest and principal.
- When principal and/or interest on the loan has been in default for 90 days or more, unless the asset is both well-secured and in the process of collection that will result in repayment in the near future.
- When the loan is identified as having loss elements and/or is risk rated grade 8 (doubtful).

Loans on nonaccrual status are usually returned to accrual status when all delinquent principal and/or interest has been brought current, when there is no identified element of loss, and when current and continued satisfactory performance is expected. Return to accrual is generally demonstrated through the timely receipt of at least six monthly payments on a loan with monthly amortization. There was no interest income recognized on nonaccrual loans for the six months ended June 30, 2024 and 2023.

There were no remaining undisbursed commitments to extend credit on nonaccrual loans at June 30, 2024, or December 31, 2023.

The following table presents the amortized cost basis of loans on nonaccrual status and accruing loans more than 90 days past due:

(In thousands)	June 30, 2024				December 31, 2023

Credit Quality Indicators

As part of its credit monitoring program, the Company utilizes a risk rating system to quantify the risk the Company estimates it has assumed during the life of a loan. This system rates the strength of the borrower and the facility or transaction, and is designed to provide a program for risk management and early detection of problems.

For each new credit approval, credit extension, renewal, or modification of existing credit facilities, the Company assigns risk ratings utilizing the rating scale identified in this policy. In addition, on an ongoing basis, loans and credit facilities are reviewed for internal and external influences impacting the credit facility that would warrant a change in the risk rating. Each credit facility is given a risk rating that takes into account factors that materially affect credit quality.

When assigning risk ratings, the Company evaluates two risk-rating approaches; a facility rating and a borrower rating.

Facility Rating:

The facility rating is determined by the analysis of positive and negative factors that may indicate that the quality of a particular loan or credit arrangement requires a different risk rating than that assigned to the borrower. The Company assesses the risk impact of these factors:

Collateral - The rating may be affected by the type and quality of the collateral, the degree of coverage, the economic life of the collateral, the liquidation value, and the Company's ability to dispose of the collateral.

Guarantees - The value of third-party support arrangements varies widely. Unconditional guarantees from persons with demonstrable ability to perform are more substantial than that of persons closely-related to the borrower who offer only modest support.

Unusual Terms - Credit may be extended on terms that subject the Company to a higher level of risk than indicated in the rating of the borrower.

Borrower Rating:

The borrower rating is a measure of loss possibility based on the historical, current, and anticipated financial characteristics of the borrower in the current risk environment. To determine the rating, the Company considers the following factors:

- Quality of management
- Liquidity
- Leverage/capitalization
- Profit margins/earnings trend
- Adequacy of financial records
- Alternative funding sources
- Geographic risk
- Industry risk
- Cash flow risk
- Accounting practices
- Asset protection
- Extraordinary risks

The Company assigns risk ratings to loans, other than consumer loans and other homogeneous loan pools, based on the following scale. The risk ratings are used when determining borrower ratings as well as facility ratings. The Company uses the following risk rating grades:

Pass Ratings:

- *Grades 1 and 2* – These grades include loans to high-quality borrowers with high credit quality and sound financial strength. Key financial ratios are generally above industry averages and the borrower has a strong earnings history or net worth. These may be secured by deposit accounts or high-grade investment securities.
- *Grade 3* – This grade includes loans to borrowers with solid credit quality and minimal risk. The borrower's balance sheet and financial ratios are generally in line with industry averages, and the borrower has historically demonstrated the ability to manage economic adversity. Real estate and asset-based loans assigned this risk rating must have characteristics that place them well above the minimum underwriting requirements for those departments. Asset-based borrowers assigned this rating must exhibit extremely favorable leverage and cash flow characteristics and consistently demonstrate a high level of unused borrowing capacity.
- *Grades 4 and 5* – These include pass-grade loans to borrowers of acceptable credit quality and risk. The borrower's balance sheet and financial ratios may be below industry averages but above the lowest industry quartile. Leverage is above and liquidity is below industry averages. Inadequacies evident in financial performance and/or management sufficiency are offset by readily available features of support, such as adequate collateral, or good guarantors having the liquid assets and/or cash flow capacity to repay the debt. Although the borrower may have recognized a loss over three or four years, recent earnings trends, while perhaps somewhat cyclical, are improving, and cash flows are adequate to cover debt service and fixed obligations. Real estate and asset borrowers who fully comply with all underwriting standards and are performing according to projections are assigned this rating. These also include grade 5 loans which are leveraged or on management's watch list. While still considered pass loans, the borrower's financial condition, cash flow, or operations evidence more than average risk and short-term weaknesses. These loans warrant a higher-than-average level of monitoring, supervision, and attention from the Company, but do not reflect credit weakness trends that weaken or inadequately protect the Company's credit position. Loans with a grade 5 rating are not normally acceptable as new credits unless they are adequately secured or carry substantial endorser/guarantors.

Special Mention Rating:

- *Grade 6* – This grade includes loans that are currently protected but potentially weak. This is generally an interim classification and these loans will typically be upgraded to an acceptable rating or downgraded to a substandard rating within a reasonable time period. Weaknesses in special mention loans may, if not checked or corrected, weaken the asset or inadequately protect the Company's credit position at some future date. Special mention loans are often loans with weaknesses inherent in the loan origination and loan servicing, and may have some technical deficiencies. This designation indicates a distinct probability that the classification will deteriorate to a more adverse class if the noted deficiencies are not addressed by the loan officer or loan management.

Substandard Rating:

- *Grade 7* – This grade includes substandard loans that are inadequately supported by the current sound net worth and paying capacity of the borrower or the collateral pledged, if any. Substandard loans have a well-defined weakness, or

weaknesses, that may impair the regular liquidation of the debt. When a loan has been downgraded to substandard, there exists a distinct possibility that the Company will sustain a loss if the deficiencies are not corrected.

Doubtful Ratings:

- *Grade 8* – This grade includes doubtful loans that exhibit the same characteristics as substandard loans. Loan weaknesses make collection or liquidation in full, based on currently existing facts, conditions, and values, highly questionable and improbable. The possibility of loss is extremely high but, due to pending factors that may work toward the strengthening of the loan, its classification as an estimated loss is deferred until its more exact status may be determined. Pending factors include a proposed merger, acquisition, or liquidation procedures, capital injection, perfecting liens on additional collateral, and refinancing plans.
- *Grade 9* – This grade includes loans classified as loss which are considered uncollectible and of such little value that their continuance as bankable assets is not warranted. This classification does not mean that the asset has no recovery or salvage value, but rather that it is not practical or desirable to defer writing off the asset even though partial recovery may be achieved in the future.

The following table presents loans by class, at amortized cost, by risk rating, and period indicated as of June 30, 2024:

Allowance for Credit Losses on Loans

The Company adopted ASU 2016-13, *Financial Instrument-Credit Losses (Topic 326)*, effective January 1, 2023. This loss measurement, which uses the current expected credit loss (CECL) cohort methodology analysis, relies on segmenting the loan portfolio into pools with similar risks, tracking the performance of the pools over time, and using the data to determine pool loss experience. Management estimates the allowance for credit loss balance using relevant available information, from internal and external sources, relating to past events, current conditions, and reasonable and supportable forecasts. The cumulative loss rate used as the basis for the estimate of credit losses is comprised of the Company's historical loss experience from 2006 to the most recent quarter. The Company expects that the markets in which it operates will experience a slight decline in economic conditions and an increase in unemployment rates and levels and trends of delinquencies over the next two years. Management has adjusted the historical loss experience for these expectations.

The Company analyzes risk characteristics inherent in each loan portfolio segment as part of the quarterly review of the adequacy of the allowance for credit losses on loans. The following summarizes some of the key risk characteristics for the ten segments of the loan portfolio:

Commercial and industrial loans – Commercial loans are subject to the effects of economic cycles and tend to exhibit increased risk as economic conditions deteriorate or economic downturns are prolonged. The Company considers this segment to be one of higher risk given the size of individual loans and the balances in the overall portfolio.

Government program loans – This is a relatively small part of the Company's loan portfolio but has historically had a high percentage of loans that have migrated from pass to substandard given their vulnerability to economic cycles.

Commercial real estate loans – This segment is considered to have more risk due to the vulnerability of commercial businesses to economic cycles as well as their exposure to fluctuations in real estate prices. Losses in this segment have been historically low because most loans are real estate-secured, and the Bank maintains appropriate loan-to-value ratios.

Residential mortgages – This segment is considered to have low risk factors based on the past experience of both the Company and peers. Loans in this category are secured by first deeds of trust.

Home improvement and home equity loans – Because of their junior lien position, these loans have an inherently higher risk level.

Real estate construction and development loans – This segment of loans is considered to have a higher risk profile due to construction issues and market value fluctuations in conjunction with normal credit risks.

Agricultural loans – This segment is considered to have risks associated with weather, insects, marketing issues, commodity prices, land valuation, water availability, fertilizer costs, and crop concentration. Additionally, California may experience severe droughts, which can significantly harm the business of customers and the credit quality of the loans to those customers. Water resources and related issues affecting customers are closely monitored. Signs of deterioration within this loan portfolio are closely monitored to manage credit quality and promote early efforts to work with borrowers to mitigate any potential losses.

Installment, overdrafts, and overdraft protection lines – This segment is at higher risk because most of the loans are unsecured. Additionally, in the case of student loans, there are increased risks associated with liquidity as there is a significant time lag between funding a student loan and eventual repayment.

The following summarizes the activity in the allowance for credit losses by loan category:

(In thousands)	Three Months Ended June 30, 2024						Total
	Commercial and Industrial		Real Estate Mortgage		Construction Development		
	Commercial	Industrial	Real Estate	Mortgage	Construction	Development	Agricultural
Beginning balance	\$ 1,981	\$ 2,732	\$ 3,008	\$ 1,097	\$ 6,633	\$ 15,451

Ending balance	\$ 2,007	\$ 3,731	\$ 3,513	\$ 1,504	\$ 5,355	\$ 16,110		

(1) There was a provision of \$ 135,000 for unfunded loan commitments during the six months ended June 30, 2023.

Collateral-Dependent Loans

A loan is considered collateral-dependent when the borrower is experiencing financial difficulty and repayment is expected to be provided substantially through the operation or sale of the collateral.

The following table presents the recorded investment in collateral-dependent loans by type of loan:

(Dollars in thousands)	June 30, 2024		December 31, 2023	
	Amount	Number of Collateral-Dependent Loans	Amount	Number of Collateral-Dependent Loans
Real estate construction and development loans	\$ 12,067	3	\$ 11,390	3
Agricultural loans	390	1	390	1
Total	\$ 12,457	4	\$ 11,780	4

Reserve for Unfunded Commitments

The allowance for off-balance sheet credit exposure relates to commitments to extend credit, letters of credit, and undisbursed funds on lines of credit. The Company evaluates credit risk associated with the off-balance sheet loan commitments in the same manner as it evaluates credit risk within the loan portfolio. There was a reversal of provision of \$194,000 for unfunded loan commitments made during the quarter ended June 30, 2024, decreasing the liability balance to \$732,000. For the quarter ended June 30, 2023, there was a provision of \$135,000 made for unfunded loan commitments increasing the balance for unfunded loan commitments to \$940,000. For the six months ended June 30, 2024 and 2023, a reversal of provision of \$103,000 and a provision of \$135,000 were made, respectively. The reserve for the unfunded loan commitments is a liability on the Company's consolidated financial statements and is included in other liabilities.

Loan Modifications

Occasionally, the Company modifies loans to borrowers in financial distress by providing principal forgiveness, term extension, and other-than-insignificant payment delay or interest rate reduction. When principal forgiveness is provided, the amount of forgiveness is charged off against the allowance for credit losses. There was one loan modification made during the three and six months ended June 30, 2024. No loans modifications were made during the three or six months ended June 30, 2023.

The following tables present loan modifications made to borrowers experiencing financial difficulties for the periods indicated:

(In thousands)	Three Months Ended June 30, 2024				
	Principal Forgiveness	Term Extension	Interest Rate Reduction	Payment Delay	Total % of Loans Outstanding
Commercial and business loans	—	\$ 92	—	—	<0.01%

(In thousands)	Six Months Ended June 30, 2024				
	Principal Forgiveness	Term Extension	Interest Rate Reduction	Payment Delay	Total % of Loans Outstanding
Commercial and business loans	—	\$ 92	—	—	<0.01%

4. Student Loans

Included in the installment loan portfolio are \$ 36.6 million and \$38.5 million in student loans at June 30, 2024, and December 31, 2023, respectively, made to medical and pharmacy school students. Upon graduation, the loan is automatically placed in a grace period of six months. This may be extended up to 48 months for graduates enrolling in internships, medical residency, or fellowship programs. As approved, the student may receive additional deferment for hardship or administrative reasons in the form of forbearance for a maximum of 36 months throughout the life of the loan. Student loans have not been originated or purchased since 2019.

As of June 30, 2024, and December 31, 2023, the reserve against the student loan portfolio was \$ 6.8 million and \$6.3 million, respectively. At June 30, 2024, there were \$206,000 in student loans in the substandard category. At December 31, 2023, there were \$426,000 in student loans included in the substandard category.

The following tables summarize the credit quality indicators for outstanding student loans:

(Dollars in thousands)	June 30, 2024			December 31, 2023		
	Number of Loans	Principal Amount	Accrued Interest	Number of Loans	Principal Amount	Accrued Interest
School	35	\$ 902	\$ 605	44	\$ 1,242	\$ 734
Grace	9	340	206	18	473	296
Repayment	433	20,920	294	444	20,833	289
Deferment	229	10,018	2,466	237	10,163	2,022
Forbearance	85	4,413	143	98	5,782	133
Total	791	\$ 36,593	\$ 3,714	841	\$ 38,493	\$ 3,474

School - The time in which the borrower is still actively in school at least half-time. No payments are expected during this stage, though the borrower may make payments during this time.

Grace - A six-month period of time granted upon graduation, or end of active-student status, during which payment is not required but interest continues to accrue. Upon completion of the six-month grace period, the loan is transferred to repayment status. This status may also represent an in-school borrower activated to military duty. The borrower must return to at least half-time status within six months of their active-duty end date to return to in-school status.

Repayment - The time in which the borrower is no longer attending school at least half-time, and has not received an approved grace, deferment, or forbearance. Regular payment is expected from these borrowers under an allotted payment plan.

Deferment - May be granted for up to 48 months for borrowers who have begun the repayment period on their loans but are either actively enrolled in an eligible school at least half-time or actively enrolled in an approved and verifiable medical residency, internship, or fellowship program.

Forbearance - The period of time during which the borrower may postpone making principal and interest payments due to either hardship or administrative reasons. Interest will continue to accrue on loans during periods of authorized forbearance and

will be capitalized at the end of the forbearance period. If the borrower is delinquent at the time the forbearance is granted, unpaid interest and interest accrued during the delinquency will also be capitalized. Loan terms will not change as a result of forbearance and payment amounts may be increased to allow the loan to pay off in the required time frame. A forbearance that results in an insignificant delay in payment, is not considered a concessionary change in terms, provided the borrower affirms the obligation. Forbearance is not an uncommon status designation and is considered standard industry practice, consistent with the succession of students migrating from school to career. However, additional risk is associated with this designation.

Student Loan Aging

Student loans are generally charged off at the end of the quarter during which the account becomes 120 days contractually past due. Accrued but unpaid interest related to charged-off student loans is reversed and charged against interest income. For the six months ended June 30, 2024, \$58,000 in accrued interest receivable was reversed, due to charge-offs of \$781,000. For the six months ended June 30, 2023, \$111,000 in accrued interest receivable was reversed, due to charge-offs of \$985,000. For the three months ended June 30, 2024 and June 30, 2023, \$31,000 in accrued interest receivable was reversed, due to charge-offs of \$386,000, and \$83,000 in accrued interest receivable was reversed, due to charge-offs of \$ 515,000, respectively.

The following table summarizes the student loan aging for loans in repayment and forbearance as of June 30, 2024 and December 31, 2023:

(Dollars in thousands)	June 30, 2024		December 31, 2023	
	Number of Borrowers	Amount	Number of Borrowers	Amount
Current or less than 31 days	201	\$ 23,133	221	\$ 25,070
31 - 60 days	7	1,328	6	791
61 - 90 days	4	666	2	328
91 - 120 days	1	206	3	426
Total	213	\$ 25,333	232	\$ 26,615

5. Deposits

Deposits include the following:

(In thousands)	December 31,	
	June 30, 2024	2023
Noninterest-bearing deposits	\$ 372,886	\$ 403,225
Interest-bearing deposits:		
NOW and money market accounts	443,317	406,857
Savings accounts	116,093	122,547
Time deposits:		
Under \$250,000	45,680	48,098
\$250,000 and over	28,638	23,750
Total interest-bearing deposits	633,728	601,252
Total deposits	\$ 1,006,614	\$ 1,004,477

Included in total deposits at June 30, 2024 are \$ 50.0 million in interest-bearing, brokered demand deposit accounts purchased during the second quarter of 2024. At December 31, 2023, the Company held no brokered deposits.

6. Short-term Borrowings/Other Borrowings

The following table sets forth the Company's credit lines, balances outstanding, and pledged collateral:

(In thousands)	December 31,	
	June 30, 2024	2023
Unsecured credit lines:		
Credit limit	\$ 90,000	\$ 80,000
Balance outstanding	23,000	2,000
Federal Home Loan Bank:		
Credit limit	136,000	128,935
Balance outstanding	40,000	60,000
Collateral pledged	236,947	232,144
Federal Reserve Bank:		
Credit limit	496,630	463,501
Balance outstanding	—	—
Collateral pledged	628,882	608,045

At June 30, 2024, the Company's available lines of credit totaled \$ 722.6 million. All lines of credit are on an "as available" basis and can be revoked by the grantor at any time. These lines of credit have interest rates that are generally tied to the Federal Funds rate or are indexed to short-term U.S. Treasury rates or SOFR. At June 30, 2024, pledged collateral at the Federal Home Loan Bank consisted of \$1.9 million in available-for-sale investment securities and \$235.0 million in loan balances. Pledged collateral at the Federal Reserve Bank consisted of \$3.9 million in available-for-sale investment securities and \$625.0 million in loan balances. At December 31, 2023, \$230.1 million in loans and \$ 2.1 million in available-for-sale investment securities were pledged as collateral for FHLB advances. Additionally, \$604.0 million in loans and \$ 4.1 million in available-for-sale investment securities were pledged as collateral for advances at the Federal Reserve Bank.

7. Leases

The Company leases land and premises for its branch banking offices, administration facility, and ATMs. The initial terms of these leases expire at various dates through 2044. Under the provisions of most of these leases, the Company has the option to extend the leases beyond their original terms at rental rates adjusted to certain economic indices or market conditions. Lease terms may also include options for termination. Under guidance from Topic 842, the discount rate applied to the lease liability is calculated by determining the Bank's incremental borrowing rate. Current rates for fully-secured loans with amounts and terms similar to the lease amount and term at inception are used to calculate the incremental borrowing rate. The liability is reduced at each reporting period based on the discounted present value of remaining payments. As of June 30, 2024, the Company had 13 operating leases and no financing leases.

The components of lease expense are as follows:

(In thousands)	Three Months Ended		Six Months Ended	
	June 30, 2024	June 30, 2023	June 30, 2024	June 30, 2023
Operating lease expense	\$ 186	\$ 178	\$ 363	\$ 356
Variable lease expense	—	—	—	—
Total	\$ 186	\$ 178	\$ 363	\$ 356

Supplemental information related to leases is as follows:

(Dollars in thousands)	Six Months Ended	
	June 30, 2024	June 30, 2023
Operating cash flows from operating leases	\$ 368	\$ 356
ROU assets obtained in exchange for new operating lease liabilities	\$ 2,314	\$ —
Weighted-average remaining lease term in years for operating leases	8.71	4.29
Weighted-average discount rate for operating leases	5.06 %	5.11 %

Maturities of lease liabilities are as follows:

(In thousands)	June 30, 2024
2025	\$ 789
2026	572
2027	435
2028	413
2029	384
Thereafter	1,702
Total undiscounted cash flows	4,295
Less: present value discount	(878)
Present value of net future minimum lease payments	<u><u>\$ 3,417</u></u>

8. Supplemental Cash Flow Disclosures

(In thousands)	Six Months Ended	
	June 30, 2024	June 30, 2023
Cash paid during the period for:		
Interest	\$ 6,602	\$ 4,201
Income taxes	4,400	—
Noncash investing activities:		
ROU asset recognized	2,314	—
Impact of ASC 326 CECL adoption	—	6,367
Unrealized gain on unrecognized post-retirement costs, net of tax	20	43
Unrealized (loss) gain on available-for-sale securities, net of tax	(61)	1,239
Unrealized gain on junior subordinated debentures, net of tax	275	(53)
Cash dividend declared	2,079	2,055

9. Dividends on and Repurchase of Common Stock

On June 25, 2024, the Company's Board of Directors declared a cash dividend of \$ 0.12 per share on the Company's common stock. The dividend was payable on July 23, 2024, to shareholders of record as of July 8, 2024. Approximately \$2.1 million was transferred from retained earnings to dividends payable as of June 30, 2024, to allow for distribution of the dividend to shareholders.

The Company has a program to repurchase up to \$ 3.0 million of its outstanding common stock. The timing of the purchases will depend on certain factors including, but not limited to, market conditions and prices, available funds, and alternative uses of capital. The stock repurchase program may be carried out through open-market purchases, block trades, or negotiated private transactions. For the three and six months ended June 30, 2024, and June 30, 2023, no shares have been repurchased.

10. Net Income per Common Share

The following table provides a reconciliation of the numerator and the denominator of the basic EPS computation with the numerator and the denominator of the diluted EPS computation:

	Three Months Ended		Six Months Ended	
	June 30, 2024	June 30, 2023	June 30, 2024	June 30, 2023
Net income (in thousands)	\$ 4,297	\$ 4,417	\$ 8,458	\$ 10,542
Weighted average shares issued	17,186,266	17,102,740	17,178,566	17,089,693
Add: dilutive effect of stock options and unvested restricted stock	1,000	12,000	993	13,908
Weighted average shares outstanding adjusted for potential dilution	17,187,266	17,114,740	17,179,559	17,103,601
Basic earnings per share	\$ 0.25	\$ 0.26	\$ 0.49	\$ 0.62
Diluted earnings per share	\$ 0.25	\$ 0.26	\$ 0.49	\$ 0.62
Weighted average anti-dilutive shares excluded from earnings per share calculation	190,000	98,000	153,000	98,000

11. Taxes on Income

The Company periodically reviews its tax positions under the accounting standards related to uncertainty in income taxes, which defines the criteria that an individual tax position would have to meet for some or all of the income tax benefit to be recognized in a taxable entity's financial statements. Under the guidelines, an entity should recognize the financial statement benefit of a tax position if it determines that it is more likely than not that the position will be sustained on examination. The term "more likely than not" means a likelihood of more than 50 percent. In assessing whether the more-likely-than-not criterion is met, the entity should assume that the tax position will be reviewed by the applicable taxing authority and all available information is known to the taxing authority.

The Company periodically evaluates its deferred tax assets to determine whether a valuation allowance is required based upon a determination that some or all of the deferred assets may not be ultimately realized. At June 30, 2024, and December 31, 2023, the Company had no recorded valuation allowance. The Company is no longer subject to examinations by taxing authorities for years before 2019 and 2018 for Federal and California jurisdictions, respectively.

The Company's policy is to recognize any interest or penalties related to uncertain tax positions in income tax expense. There were no interest or penalties recognized on uncertain tax positions during the periods ended June 30, 2024 and 2023.

The Company reported a provision for income taxes of \$ 3.4 million for the six months ended June 30, 2024, compared to \$ 4.3 million for the comparable period of 2023. The effective tax rate was 28.95% for the six months ended June 30, 2024, compared to 29.07% for the comparable period of 2023.

12. Junior Subordinated Debt/Trust Preferred Securities

The contractual principal balance of the Company's debentures relating to its trust preferred securities is \$ 12.0 million as of June 30, 2024, and December 31, 2023. The Company may redeem the junior subordinated debentures at any time at par.

The Company accounts for its junior subordinated debt issued under USB Capital Trust II at fair value. The Company believes the election of fair value accounting for the junior subordinated debentures better reflects the true economic value of the debt instrument on the consolidated balance sheet. As of June 30, 2024, the rate paid on the junior subordinated debt issued under USB Capital Trust II is the forward 3-month SOFR rate of 5.32% plus 129 basis points and is adjusted quarterly.

At June 30, 2024, the Company performed a fair value measurement analysis on its junior subordinated debt using a cash flow model approach to determine its present value. The cash flow model approach utilizes the forward three-month SOFR curve to estimate future quarterly interest payments due over the life of the debt instrument. Cash flows were discounted at a rate based on current market rates for similar-term debt instruments and adjusted for additional credit and liquidity risks associated with junior subordinated debt. The 6.45% discount rate used represents an investor's yield based on current market assumptions. At June 30, 2024, the total cumulative gain recorded on the debt was \$1.2 million.

The following table provides detail on the Company's junior subordinated debt/trust preferred securities:

(In thousands)	Three Months Ended		Six Months Ended	
	June 30, 2024	June 30, 2023	June 30, 2024	June 30, 2023
Net fair value calculation (loss) gain	\$ (104)	\$ 312	\$ (244)	\$ 205
Other comprehensive income gain (loss)	121	387	275	(53)
Recognized (loss) gain on fair value	(225)	(75)	(520)	258
Cumulative gain recorded	1,217	1,937	1,217	1,937
Discount rate	6.45 %	6.56 %	6.45 %	6.56 %

The net fair value calculation performed as of June 30, 2024, resulted in a net pretax loss adjustment of \$ 244,000 for the six months ended June 30, 2024, compared to a net pretax gain adjustment of \$205,000 for the six months ended June 30, 2023.

For the six months ended June 30, 2024, the net \$ 244,000 fair value loss adjustment was separately presented as a \$ 520,000 loss, (\$366,000 net of tax) recognized on the consolidated statements of income, and a \$275,000 gain, (\$194,000 net of tax) associated with the instrument-specific credit risk recognized in other comprehensive income. For the six months ended June 30, 2023, the net \$205,000 fair value gain adjustment was separately presented as a \$258,000 gain, (\$182,000 net of tax) recognized on the consolidated statements of income, and a \$ 53,000 loss, (\$37,000 net of tax) associated with the instrument-specific credit risk recognized in other comprehensive income. The Company calculated the change in the discounted cash flows based on updated market credit spreads for the periods indicated.

13. Fair Value Measurements and Disclosure

The following summary disclosures are made in accordance with the guidance provided by ASC Topic 825 " *Fair Value Measurements and Disclosures*" which requires the disclosure of fair value information for both on- and off-balance sheet financial instruments where it is practicable to estimate that value.

GAAP guidance clarifies the definition of fair value, describes methods used to appropriately measure fair value in accordance with generally accepted accounting principles, and expands fair value disclosure requirements. This guidance applies whenever other accounting pronouncements require or permit fair value measurements.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are unadjusted quoted prices in active markets (as defined) for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability and reflect the reporting entity's assumptions regarding the pricing of an asset or liability by a market participant (including assumptions about risk).

The table below is a summary of fair value estimates for financial instruments and the level of the fair value hierarchy within which the fair value measurements are categorized at the periods indicated:

(In thousands)		June 30, 2024					
		Carrying Amount	Estimated Fair Value	Quoted Prices In Active Markets for Identical Assets Level 1		Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3
				—	—		
Financial Assets:							
Investment securities	\$ 162,916	\$ 162,916	\$ 162,916	—	\$ 162,916	\$ —	—

Short-term borrowings	62,000	62,000	62,000	62,000	—	—	—
Junior subordinated debt	11,213	11,213	—	—	—	11,213	—

The Company performs fair value measurements on certain assets and liabilities as the result of the application of current accounting guidelines. Some fair value measurements, such as those on investment securities and junior subordinated debt, are performed on a recurring basis, while others, such as evaluations of loans, other real estate owned, goodwill, and other intangibles, are performed on a nonrecurring basis.

- Level 1 financial assets consist of money market funds and highly liquid mutual funds for which fair values are based on quoted market prices.
- Level 2 financial assets include highly liquid debt instruments of U.S. government agencies, collateralized mortgage obligations, and debt obligations of states and political subdivisions, whose fair values are obtained from readily-available pricing sources for the identical or similar underlying security that may or may not be actively traded.
- Level 3 financial assets include certain instruments where the assumptions may be made by the Company or third parties about assumptions that market participants would use in pricing the asset or liability.

The Company recognizes transfers between Levels 1, 2, and 3 when a change in circumstances warrants a transfer. There were no transfers between fair value measurement classifications during the six months ended June 30, 2024, or the six months ended June 30, 2023.

The following methods and assumptions were used in estimating the fair values of financial instruments measured at fair value on a recurring and non-recurring basis:

Investment Securities - Available-for-sale and marketable equity security values are based on open-market price quotes obtained from reputable third-party brokers. Market pricing is based upon specific CUSIP identification for each individual

security. To the extent there are observable prices in the market, the mid-point of the bid/ask price is used to determine the fair value of individual securities. If that data is not available for the last 30 days, a Level-2 type matrix-pricing approach, based on comparable securities in the market, is utilized. Level 2 pricing may include the use of a forward spread from the last observable trade or may use a proxy bond, such as a TBA mortgage, to determine the price for the security being valued. Changes in fair market value are recorded through other accumulated comprehensive income as an unrecognized gain or loss on fair value.

Individually-Evaluated Loans - Fair value measurements for individually-evaluated loans are performed pursuant to authoritative accounting guidance and are based upon either collateral values supported by third-party appraisals or observed market prices. Collateral-dependent loans are measured for impairment using the fair value of the collateral. There were no individually-evaluated loans measured at fair value as of June 30, 2024 or December 31, 2023.

Other Real Estate Owned - Nonrecurring adjustments to certain commercial and residential real estate properties classified as other real estate owned (OREO) are measured at the lower of carrying amount or fair value, less costs to sell. Fair values are generally based on third-party appraisals of the property, resulting in a Level 3 classification. In cases where the carrying amount exceeds the fair value, less costs to sell, an impairment loss is recognized. No OREO properties were measured at fair value as of June 30, 2024, or December 31, 2023.

Junior Subordinated Debt - The fair value of the junior subordinated debt is based on a discounted cash flow model utilizing observable market rates and credit characteristics for similar debt instruments. In its analysis, the Company uses characteristics that market participants would generally use and considers factors specific to the liability and the principal, or most advantageous, market for the liability. Cash flows are discounted at a rate that incorporates a current market rate for similar-term debt instruments, adjusted for credit and liquidity risks associated with similar junior subordinated debt and circumstances unique to the Company. The Company believes that the subjective nature of these inputs, credit concerns in the capital markets, and inactivity in the trust preferred markets, limit the observability of market spreads, requiring the junior subordinated debt to be classified at a Level 3 fair value.

The following tables summarize the Company's assets and liabilities that were measured at fair value on a recurring basis as of June 30, 2024:

(In thousands)	June 30, 2024	Quoted Prices			
		in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Assets:					
AFS Securities:					
U.S. Government agencies	\$ 5,194	\$ —	\$ 5,194	\$ —

Total AFS securities	162,916	—	162,916	—	
Marketable equity securities	3,400	3,400	—	—	
Total	\$ 166,316	\$ 3,400	\$ 162,916	\$ —	
Liabilities:					
Junior subordinated debt	\$ 11,454	\$ —	\$ —	\$ 11,454	
Total	\$ 11,454	\$ —	\$ —	\$ 11,454	

The following tables summarize the Company's assets and liabilities that were measured at fair value on a recurring basis as of December 31, 2023.

(In thousands)	December 31, 2023	Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
		Assets (Level 1)	Inputs (Level 2)	Inputs (Level 3)		
Assets:						
AFS Securities:						
U.S. Government agencies	\$ 6,156	\$ —	\$ 6,156	\$ —	\$ —	
U.S. Government collateralized mortgage obligations	88,184	—	88,184	—	—	
Municipal bonds	42,365	—	42,365	—	—	
Treasury securities	12,438	—	12,438	—	—	
Corporate bonds	32,122	—	32,122	—	—	
Total AFS securities	181,265	—	181,265	—	—	
Marketable equity securities	3,354	3,354	—	—	—	
Total	\$ 184,619	\$ 3,354	\$ 181,265	\$ —	\$ —	
Liabilities:						
Junior subordinated debt	\$ 11,213	\$ —	\$ —	\$ 11,213	\$ 11,213	
Total	\$ 11,213	\$ —	\$ —	\$ 11,213	\$ 11,213	

There were no non-recurring fair value adjustments at June 30, 2024, or December 31, 2023.

The following table provides a description of the valuation technique, unobservable input, and qualitative information about the unobservable inputs for the Company's assets and liabilities classified as Level 3 and measured at fair value on a recurring basis at June 30, 2024, and December 31, 2023.

June 30, 2024				December 31, 2023			
Financial Instrument	Valuation Technique	Unobservable Input	Weighted Average	Financial Instrument	Valuation Technique	Unobservable Input	Weighted Average
Junior Subordinated Debt	Discounted cash flow	Market credit risk- adjusted spreads	6.45%	Junior Subordinated Debt	Discounted cash flow	Market credit risk- adjusted spreads	6.14%

Management believes that the credit risk-adjusted spread utilized in the fair value measurement of the junior subordinated debentures is indicative of the nonperformance risk premium a willing market participant would require under current, inactive market conditions. Management attributes the change in fair value of the junior subordinated debentures to market changes in the nonperformance expectations and pricing of this type of debt. Generally, an increase in the credit risk-adjusted spread and/or a decrease in the forward three-month SOFR curve will result in a positive fair value adjustment and a decrease in the fair value measurement. Conversely, a decrease in the credit risk adjusted spread and/or an increase in the forward three-month SOFR curve will result in a negative fair value adjustment and an increase in the fair value measurement. The increase in discount rate between the periods ended June 30, 2024, and December 31, 2023, is primarily due to increases in rates for similar debt instruments.

The following table provides a reconciliation of liabilities at fair value using Level 3 significant, unobservable inputs on a recurring basis:

(In thousands)	Three Months Ended		Six Months Ended	
	June 30, 2024	June 30, 2023	June 30, 2024	June 30, 2023
Junior Subordinated Debt:				
Beginning balance	\$ 11,348	\$ 11,017	\$ 11,213	\$ 10,883
Gross loss (gain) included in earnings	225	74	520	(258)
Gross (gain) loss related to changes in instrument-specific credit risk	(121)	(387)	(275)	53
Increase (decrease) in accrued interest	2	15	(4)	41
Ending balance	\$ 11,454	\$ 10,719	\$ 11,454	\$ 10,719
Amount of total loss (gain) for the period included in earnings attributable to the change in unrealized gains or losses relating to liabilities held at the reporting date	\$ 225	\$ 74	\$ 520	\$ (258)

14. Goodwill and Intangible Assets

At June 30, 2024, the Company held goodwill of \$ 4.5 million in connection with various business combinations and purchases. This amount was unchanged from the balance of \$4.5 million at December 31, 2023. The Company conducts impairment analysis on goodwill both annually and in the event of triggering events, if any. The Company performed an analysis of goodwill impairment and concluded goodwill was not impaired as of December 31, 2023, with no triggering events occurring through the period ended June 30, 2024.

15. Accumulated Other Comprehensive Income (Loss)

The components of accumulated other comprehensive income included in shareholders' equity are as follows:

(In thousands)	June 30, 2024			December 31, 2023		
	Net unrealized gain (loss) on available-for-sale securities	Unfunded status of the supplemental retirement plans	Net unrealized gain (loss) on junior subordinated debentures	Net unrealized gain (loss) on available-for-sale securities	Unfunded status of the supplemental retirement plans	Net unrealized gain (loss) on junior subordinated debentures
	Beginning balance	\$ (16,290)	\$ (130)	\$ 1,382	\$ (19,066)	\$ (194)
Current period comprehensive income (loss), net of tax	(41)	14	192	2,776	64	(383)
Ending balance	\$ (16,331)	\$ (116)	\$ 1,574	\$ (16,290)	\$ (130)	\$ 1,382
Accumulated other comprehensive loss			\$ (14,873)			\$ (15,038)

16. Investment in York Monterey Properties

The Bank wholly owns the subsidiary, York Monterey Properties, Inc. ("Properties"), which is organized as a California corporation. The Bank capitalized the subsidiary through the transfer of eight unimproved lots at a historical cost of \$ 5.3 million comprised of approximately 186.97 acres in the York Highlands subdivision of the Monterra Ranch residential development in Monterey County, California, together with cash contributions. The Bank transferred the properties to York Monterey Properties, Inc., to maintain ownership beyond the ten-year regulatory holding period applicable to a state bank. The Bank acquired five of the lots through a non-judicial foreclosure on or about May 29, 2009. In addition, the Bank purchased three of the lots from another bank. The Bank has continuously held the Properties from the date of foreclosure and acquisition until the time of transfer. At the time of transfer, the Properties had reached the end of the ten-year regulatory holding period limit.

At both June 30, 2024 and December 31, 2023, the Bank's investment in York Monterey Properties, Inc., totaled \$ 5.0 million. York Monterey Properties, Inc., is included within the consolidated financial statements of the Company, with \$4.6 of the total investment recognized within the balance of other real estate owned on the consolidated balance sheets.

17. Commitments and Contingent Liabilities

Financial Instruments with Off-Balance Sheet Risk: The Company is party to financial instruments with off-balance sheet risks which arise in the normal course of business. These instruments, which may contain elements of credit risk, interest rate risk, and liquidity risk, include commitments to extend credit and standby letters of credit. The credit risks associated with these instruments are essentially the same as those involved in extending credit to customers and are represented by the contractual amount indicated in the table below:

(In thousands)	December 31,	
	June 30, 2024	2023
Commitments to extend credit	\$ 165,723	\$ 183,537
Standby letters of credit	\$ 1,670	\$ 2,940

Commitments to extend credit are agreements to lend to a customer, as long as conditions established in the contract have not been violated. These commitments are floating-rate instruments based on the current prime rate, and, in most cases, have fixed expiration dates. The Company evaluates each customer's creditworthiness on a case-by-case basis, and the amount of collateral obtained is based on management's credit evaluation. Collateral held varies but includes accounts receivable, inventory, leases, property, plant and equipment, residential real estate, and income-producing properties. As many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent the future cash requirements of the Company.

Standby letters of credit are generally unsecured and are issued by the Company to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers. The Company's letters of credit are short-term guarantees and generally have terms from one month to three years. At June 30, 2024, the maximum potential amount of future undiscounted payments the Company could be required to make under outstanding standby letters of credit totaled \$1.7 million.

The remaining unfunded commitments for the investment in limited partnership as of June 30, 2024, and December 31, 2023, totaled \$ 600,000 and \$800,000, respectively.

In the ordinary course of business, the Company may become involved in litigation arising out of its normal business activities. Management, after consultation with legal counsel, believes that the ultimate liability, if any, resulting from the disposition of such claims would not be material to the financial position of the Company.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Certain matters discussed, or incorporated by reference in this *Quarterly Report of Form 10-Q*, contain forward-looking statements about the Company that are intended to be covered by the safe harbor for "forward-looking statements" provided by the Private Securities Litigation Reform Act of 1995 and are not guarantees of future performance and are subject to risks and uncertainties that could cause actual results to differ materially from those projected. Such risks and uncertainties include, but are not limited to, the following factors:

- Adverse developments with respect to U.S. or global economic conditions and other uncertainties, including the impact of supply chain disruptions, inflationary pressures, labor shortages, and global conflict and unrest;
- The impact of natural disasters, droughts, earthquakes, floods, wildfires, terrorist attacks, health epidemics, and threats of war or actual war, including current military actions involving the Russian Federation and Ukraine and the conflict in the Middle East, which may impact the local economy and/or the condition of real estate collateral;
- Geopolitical and domestic political developments that can increase levels of political and economic unpredictability, contribute to rising energy and commodity prices, and increase the volatility of financial markets;
- Changes in general economic and financial market conditions, either nationally or locally;
- Fiscal policies of the U.S. government, including interest rate policies of the Board of Governors of the Federal Reserve System and the resulting impact on the Company's interest-rate sensitive assets and liabilities;
- Changes in banking laws or regulations and government policies that could lead to a tightening of credit and/or a requirement that the Company raise additional capital;
- Increased competition in the Company's markets, impacting the ability to execute its business plans;
- Continued or increasing competition from other financial institutions, credit unions, and non-bank financial services companies, many of which are subject to different regulations than the Company is, and the Company's response to competitive pressure;
- Loss of, or inability to attract, key personnel;
- Unanticipated deterioration in the loan portfolio, credit losses, and the sufficiency of the allowance for credit losses;
- The ability to grow the loan portfolio due to constraints on concentrations of credit;
- Challenges arising from unsuccessful attempts to expand into new geographic markets, products, or services;
- The impact of technological changes and the ability to develop and maintain secure and reliable electronic systems, including failures in or breaches of the Company's operational and/or security systems or infrastructure, and the Company's ability to identify and address cyber-security risks such as data security breaches, "denial of service" attacks, "hacking" and identity theft, and other attacks on the Company's information technology systems or on the third-party vendors who perform functions for the Company;
- The failure to maintain effective controls over financial reporting;
- Risks related to the sufficiency of liquidity, including the quality and quantity of the Company's deposits and the ability to attract and retain deposits and other sources of funding and liquidity;
- Adverse developments in the financial services industry generally, such as the bank failures in 2023 and 2024 and any related impact on depositor behavior or investor sentiment;
- The possibility that the recorded goodwill could become impaired which may have an adverse impact on earnings and capital;
- Asset/liability matching risks; and
- Changes in the accounting policies or procedures.

The information set forth herein should be carefully considered when evaluating the business prospects of the Company. For additional information concerning risks and uncertainties related to the Company and its operations, please refer to the Company's *Annual Report on Form 10-K* for the year ended December 31, 2023.

The Company

United Security Bancshares, a California corporation, is a bank holding company registered under the Bank Holding Company Act (BHCA) with corporate headquarters located in Fresno, California. The principal business of United Security Bancshares is to serve as the holding company for its wholly-owned subsidiary, United Security Bank. References to the "Bank" refer to United Security Bank together with its wholly-owned subsidiary, York Monterey Properties, Inc. References to the "Company" refer to United Security Bancshares together with its subsidiaries on a consolidated basis. References to the "Holding Company" refer to United Security Bancshares, the parent company, on a stand-alone basis. The Bank currently maintains 13 banking branches, which provide banking services in Fresno, Madera, Kern, and Santa Clara counties, in the state of California.

In addition to full-service branches, the Bank has several stand-alone interactive teller machines (ITMs) within its geographic footprint.

Executive Summary

During 2024, the Company has worked closely with long-term, core customers to provide deposit and lending solutions that meet their business and individual needs. The Company has also focused on maintaining adequate liquidity, managing credit risk, and responsibly managing growth on the balance sheet.

Second Quarter 2024 Highlights (as of, or for, the quarter ended June 30, 2024, except where noted):

- Net interest margin decreased to 4.28% for the quarter ended June 30, 2024, compared to 4.35% for the quarter ended June 30, 2023.
- Annualized average cost of funds, including short-term borrowings, was 1.24% for the quarter ended June 30, 2024, compared to 0.85% for the quarter ended June 30, 2023.
- Net income for the quarter decreased 2.72% to \$4.3 million for the quarter ended June 30, 2024, compared to the \$4.4 million reported for the quarter ended June 30, 2023.
- Interest and fees on loans increased 0.35% to \$13.6 million, as a result of increases in interest rates, partially offset by a decrease in average loan balances, compared to \$13.5 million for the second quarter of 2023.
- Interest expense increased 33.6% to \$3.5 million, as a result of increases in short-term borrowing costs, compared to \$2.6 million for the second quarter of 2023.
- The total fair value of the junior subordinated debentures (TRUPs) changed by \$104,000 during the quarter ended June 30, 2024. A loss of \$225,000 was recorded through the income statement and a gain of \$121,000 was recorded through accumulated other comprehensive income. For the quarter ended June 30, 2023, the net \$312,000 fair value gain was separately presented as a \$75,000 loss recorded through the income statement and a \$387,000 gain recorded through accumulated other comprehensive income.
- The Company recorded a provision for credit losses of \$19,000 for the quarter ended June 30, 2024, compared to a provision of \$1.1 million for the quarter ended June 30, 2023.
- Net interest income before the provision for credit losses decreased 7.85% to \$11.5 million for the quarter ended June 30, 2024, compared to \$12.5 million for the quarter ended June 30, 2023.
- Annualized return on average assets (ROAA) increased to 1.45% for the quarter ended June 30, 2024, compared to 1.40% for the quarter ended June 30, 2023.
- Annualized return on average equity (ROAE) decreased to 13.79% for the quarter ended June 30, 2024, compared to 16.49% for the quarter ended June 30, 2023.
- The Company had remaining available secured lines of credit of \$592.6 million, available unsecured lines of credit of \$67.0 million, unpledged investment securities of \$80.9 million, and cash and cash equivalents of \$38.8 million as of June 30, 2024. Short-term borrowings totaled \$63.0 million at June 30, 2024, compared to \$62.0 million at December 31, 2023.
- Total loans, net of unearned fees, increased 3.19% to \$949.4 million, compared to \$920.0 million at December 31, 2023.
- Total investments decreased 9.91%, to \$166.3 million, compared to \$184.6 million at December 31, 2023.
- Total deposits increased 0.2% to \$1.01 billion, compared to \$1.00 billion at December 31, 2023.
- Net charge-offs totaled \$352,000, compared to net charge-offs of \$469,000 for the quarter ended June 30, 2023.
- The allowance for credit losses as a percentage of gross loans decreased to 1.61%, compared to 1.70% at December 31, 2023.
- Book value per share increased to \$7.35, compared to \$7.14 at December 31, 2023.
- Capital position remains well-capitalized with a 12.71% Tier 1 Leverage Ratio compared to 11.82% as of December 31, 2023.

Trends Affecting Results of Operations and Financial Position

The Company's overall operations are impacted by a number of factors including not only interest rates and margin spreads, which impact the results of operations, but also the composition of the Company's consolidated balance sheet. One of the primary strategic goals of the Company is to maintain a mix of assets that will generate a reasonable rate of return without undue risk and to finance those assets with a low-cost and stable source of funds. Liquidity and capital resources must also be considered in the planning process to mitigate risk and allow for growth.

Since the Bank primarily conducts banking operations in California's Central Valley, its operations and cash flows are subject to changes in the economic condition of the Central Valley. Business results are dependent in large part upon the business

activity, population, income levels, deposits, and real estate activity in the Central Valley, and declines in economic conditions can have materially-adverse effects on the Bank. Due to the Central Valley's economic dependence on agriculture, a downturn in agriculture and agricultural-related business could indirectly and adversely affect the Company as many borrowers and customers are involved in, or are to some extent impacted by, the agricultural industry. The agricultural industry has been affected by declines in prices and changes in yields of various crops and other agricultural commodities. Weaker prices could reduce the cash flows generated by farms and the value of agricultural land in our local markets and thereby increase the risk of default by our borrowers or reduce the foreclosure value of agricultural land and equipment that serve as collateral for our loans. Moreover, weaker prices might threaten farming operations in the Central Valley, reducing market demand for agricultural lending. In particular, farm income has seen recent declines, and in line with the downturn in farm income, farmland prices are coming under pressure. While most of our borrowers are not directly involved in agriculture, they would likely be impacted by downturns in the agricultural industry as many jobs in our market areas are ancillary to the regular production, processing, marketing, and sale of agricultural commodities. Despite the unusually wet winter experienced recently, the state of California has experienced severe droughts in the past which have resulted in water-allocation reductions for farmers in the Central Valley. Due to these uncertain water issues, the impact on businesses and consumers located in the Company's market areas is not possible to predict or quantify. In response to drought conditions, the California state legislature passed the *Sustainable Groundwater Management Act* in 2014 with the goal of ensuring better local and regional management of groundwater use and sustainable groundwater management in California by 2042. Development, preparation, and implementation of the Groundwater Sustainability Plan began in 2020. The effects of this plan have yet to be determined.

The Company's earnings are impacted by the monetary and fiscal policies of the United States government and its agencies. The Federal Reserve Bank (FRB) has a significant impact on the operating results of depository institutions through its power to implement national monetary policy, among other things, to curb inflation or combat a recession. The FRB affects the levels of bank loans, investments, and deposits through its control over the issuance of United States government securities, its regulation of the discount rate applicable to member banks, and its influence over reserve requirements to which member banks may be subject. While the Federal Open Market Committee (FOMC) has indicated that interest rates will likely decrease during 2024, there were no rate decreases during the first six months of 2024. It is unknown what effects increases or decreases in the inflation rate and the recent banking turmoil, in conjunction with continued international instability, will have on FRB monetary policies.

The Company continually evaluates its strategic business plan as economic and market factors change in its market area. Managing the balance sheet, enhancing revenue sources, attracting and retaining deposit customers, and maintaining market share will continue to be of primary importance.

Results of Operations

On a year-to-date basis, the Company reported net income of \$8.5 million, or \$0.49 per share (\$0.49 diluted), for the six months ended June 30, 2024, compared to \$10.5 million, or \$0.62 per share (\$0.62 diluted), for the same period in 2023. The Company's annualized return on average assets was 1.42% for the six months ended June 30, 2024, compared to 1.68% for the six months ended June 30, 2023. The Company's annualized return on average equity was 13.64% for the six months ended June 30, 2024, compared to 19.32% for the six months ended June 30, 2023. The decrease in the return on average assets is primarily attributable to increases in deposit and short-term borrowing costs and decreases in average assets. The decrease in the return on average equity is primarily due to a decrease in net income and an increase in average equity.

Net Interest Income

The following table presents condensed average balance sheet information, together with interest income and yields earned on average interest-earning assets and interest expense and rates paid on average interest-bearing liabilities for the three and six month periods ended June 30, 2024 and 2023.

Distribution of Average Assets, Liabilities and Shareholders' Equity:

Net interest margin		<u>4.28 %</u>				<u>4.35 %</u>

(1) Loan interest income includes loan fee costs of approximately \$173,000 for the three months ended June 30, 2024, and loan fee income of \$141,000 for the three months ended June 30, 2023.

(2) Interest income/expense is divided by actual number of days in the period times 365 days in the yield calculation.

(3) Yields on investment securities, aside from marketable equity securities, are calculated based on average amortized cost balances rather than fair value, as changes in fair value are reflected as a component of shareholders' equity.

(4) Yields on junior subordinated debentures are calculated based on average amortized cost balances rather than fair value, as changes in fair value are reflected as a component of shareholders' equity.

(1) Loan interest income includes loan fee costs of approximately \$372,000 for the six months ended June 30, 2024, and loan fee income of \$168,000 for the six months ended June 30, 2023.

(2) Interest income/expense is divided by actual number of days in the period times 365 days in the yield calculation.

(3) Yields on investment securities, aside from marketable equity securities, are calculated based on average amortized cost balances rather than fair value, as changes in fair value are reflected as a component of shareholders' equity.

(4) Yields on junior subordinated debentures are calculated based on average amortized cost balances rather than fair value, as changes in fair value are reflected as a component of shareholders' equity.

The prime rate increased from 8.25% at June 30, 2023, to 8.50% at June 30, 2024. Future increases or decreases will affect both interest income and expense and the resultant net interest margin.

Both net interest income and net interest margin are affected by changes in the amount and mix of interest-earning assets and interest-bearing liabilities, referred to as volume change. Both are also affected by changes in yields on interest-earning assets and rates paid on interest-bearing liabilities, referred to as rate change. The following table sets forth the changes in interest income and interest expense for each major category of interest-earning assets and interest-bearing liabilities, and the amount of change attributable to volume and rate changes for the periods indicated.

Rate and Volume Analysis:

(In thousands)	Three Months Ended		
	Rate	Volume	Total
June 30, 2024, compared to June 30, 2023			
Increase (decrease) in interest income:			
Loans	\$ 518	\$ (471)	\$ 47
Investment securities available for sale	128	(326)	(198)
Interest-bearing deposits in FRB	(1)	38	37
Total interest income	645	(759)	(114)
Increase (decrease) in interest expense:			
Interest-bearing demand accounts	6	(389)	(383)
Savings and money market accounts	—	—	—
Time deposits	269	27	296
Other borrowings	13	929	942
Junior subordinated debentures	12	—	12
Total interest expense	300	567	867
Increase (decrease) in net interest income	\$ 345	\$ (1,326)	\$ (981)

For the three months ended June 30, 2024, total interest income decreased \$114,000, or 0.8%, compared to the three months ended June 30, 2023. In comparing the two periods, average interest-earning assets decreased \$70.0 million, with a decrease of \$31.1 million in average loan balances and a decrease of \$42.1 million in average investment securities balances, offset by an increase of \$3.1 million in average balances held at the Federal Reserve Bank. The decrease in average loan balances is attributed primarily to decreases in the real estate construction and development portfolio and installment portfolio, offset by increases in the residential mortgage portfolio, commercial and industrial portfolio, and the agriculture portfolio. Loan yields increased 24 basis points and investment securities yields increased 27 basis points. The average yield on total interest-earning assets increased 31 basis points. The increase in yields is a result of the increases in loan yields and investment securities yields, offset by decreases in yields on overnight deposits held at the Federal Reserve Bank.

(In thousands)	Six Months Ended		
	Rate	Volume	Total
Increase (decrease) in interest income:			
Loans	\$ 1,550	\$ (1,023)	\$ 527
Investment securities available for sale	227	(572)	(345)
Interest-bearing deposits in FRB	11	12	23
Total interest income	1,788	(1,583)	205
Increase (decrease) in interest expense:			
Interest-bearing demand accounts	306	(579)	(273)
Savings and money market accounts	—	(1)	(1)
Time deposits	544	24	568
Other borrowings	44	2,043	2,087
Junior subordinated debentures	40	—	40
Total interest expense	934	1,487	2,421
Increase (decrease) in net interest income	\$ 854	\$ (3,070)	\$ (2,216)

For the six months ended June 30, 2024, total interest income increased \$205,000, or 0.69%, compared to the six months ended June 30, 2023. In comparing the two periods, average interest-earning assets decreased \$74.3 million, with a decrease of \$38.2 million in average loan balances, a decrease of \$38.2 million in average investment securities balances, offset by an increase of \$429,000 in average balances held at the Federal Reserve Bank. The decrease in average loan balances is attributed primarily to decreases in the real estate construction and development portfolio and installment portfolio, offset by increases in the residential mortgage portfolio, agriculture portfolio, and commercial and industrial portfolio. Loan yields increased 32 basis points and investment securities yields increased 23 basis points. The average yield on total interest-earning assets increased 38 basis points. The increase in yields is a result of the increases in loan yields, increases in investment securities yields, and increases in yields on overnight deposits related to the increase in the Fed Funds rate.

The overall average yield on the loan portfolio increased to 5.99% for the six months ended June 30, 2024, as compared to 5.67% for the six months ended June 30, 2023. At June 30, 2024, 29.4% of the Company's loan portfolio consisted of floating rate instruments, as compared to 31.7% of the portfolio at December 31, 2023, with the majority of those tied to the prime rate. Approximately 58.8%, or \$164.0 million, of the floating-rate loans had rate floors at June 30, 2024.

The Company's net interest margin decreased to 4.31% for the six months ended June 30, 2024, compared to 4.43% for the six months ended June 30, 2023. The net interest margin decreased primarily as a result of increases in deposit and short-term borrowing costs, offset by increases in yields on interest-earning assets. The yield on average interest-earning assets increased from 5.16% to 5.54%. Yields on average interest-bearing liabilities increased from 1.16% to 1.89%.

While deposit rates have increased, the Company's disciplined deposit pricing efforts have helped keep the Company's cost of funds relatively low. The rates paid on interest-bearing liabilities increased to 1.89% for the six months ended June 30, 2024, compared to 1.16% for the six months ended June 30, 2023. For the six months ended June 30, 2024, total interest expense increased approximately \$2.4 million, or 57.7%, as compared to the six months ended June 30, 2023. Between those two periods, average interest-bearing liabilities decreased by \$26.3 million due to decreases in NOW and money market accounts and savings accounts, partially offset by increases in time deposits and short-term borrowings. The Company may purchase brokered deposits as an additional source of funding. At June 30, 2024, the Company held \$50.0 million in brokered deposits. At December 31, 2023, the Company held no brokered deposits.

Interest-Earning Assets and Liabilities:

The following table summarizes the year-to-date (YTD) averages of the components of interest-earning assets as a percentage of total interest-earning assets and the components of interest-bearing liabilities as a percentage of total interest-bearing liabilities:

	YTD Averages		
	June 30, 2024	December 31, 2023	June 30, 2023
Loans	83.73%	82.11%	81.72%
Investment securities available for sale	15.81%	17.36%	17.89%
Interest-bearing deposits in FRB	0.46%	0.53%	0.39%
Total interest-earning assets	100.00%	100.00%	100.00%
NOW accounts	18.74%	18.90%	19.28%
Money market accounts	39.60%	42.98%	51.01%
Savings accounts	16.93%	16.46%	16.53%
Time deposits	9.61%	11.46%	8.86%
Other borrowings	13.35%	8.71%	2.83%
Junior subordinated debentures	1.77%	1.49%	1.49%
Total interest-bearing liabilities	100.00%	100.00%	100.00%

Noninterest Income

Changes in Noninterest Income:

The following tables set forth the amount and percentage changes in the categories presented for the three and six month periods ended June 30, 2024 and 2023:

(In thousands)	Three Months Ended			\$ Change	% Change
	June 30, 2024	June 30, 2023			
Customer service fees	\$ 718	\$ 767		\$ (49)	(6.4)%
Increase in cash surrender value of bank-owned life insurance	130	171		(41)	(24.0)%
Gain (loss) on fair value of marketable equity securities	4	(50)		54	108.0 %
Gain on death benefit proceeds from bank-owned life insurance	573	—		573	— %
Loss on fair value of junior subordinated debentures	(225)	(75)		(150)	(200.0)%
Other	317	198		119	60.1 %
Total noninterest income	\$ 1,517	\$ 1,011		\$ 506	50.0 %

Noninterest income for the quarter ended June 30, 2024, increased \$506,000 to \$1.5 million compared to the quarter ended June 30, 2023. The change in fair value of junior subordinated debentures caused a \$225,000 loss for the quarter ended June 30, 2024, compared to a \$75,000 loss for the quarter ended June 30, 2023, resulting in a difference of \$150,000. The change in the fair value of junior subordinated debentures was caused by fluctuations in the SOFR yield curve. A gain on proceeds from life insurance of \$573,000 was recorded during the quarter. Customer service fees decreased \$49,000 between the two quarters primarily due to decreases in ATM and cash advance fees. Other noninterest income increased due to increases in miscellaneous income.

(In thousands)	Six Months Ended			\$ Change	% Change
	June 30, 2024	June 30, 2023			
Customer service fees	\$ 1,424	\$ 1,501	\$ (77)	(5.1)%	
Increase in cash surrender value of bank-owned life insurance	267	303	(36)	(11.9)%	
Gain (loss) on fair value of marketable equity securities	46	(7)	53	757.1 %	
Gain on death benefit proceeds from bank-owned life insurance	573	—	573	— %	
(Loss) gain on fair value of junior subordinated debentures	(520)	258	(778)	301.6 %	
Gain on sale of assets	11	—	11	(100.0)%	
Other	770	405	365	90.1 %	
Total noninterest income	\$ 2,571	\$ 2,460	\$ 111	4.5 %	

Noninterest income for the six months ended June 30, 2024, increased \$111,000 to \$2.6 million compared to the six months ended June 30, 2023. The change in fair value of junior subordinated debentures caused a \$520,000 loss for the six months ended June 30, 2024, compared to a \$258,000 gain for the six months ended June 30, 2023, resulting in a difference of \$778,000. The change in the fair value of junior subordinated debentures was caused by fluctuations in the SOFR yield curve. Customer service fees decreased \$77,000 between the two periods primarily due to decreases in ATM fees. Other noninterest income increased due to increases in miscellaneous income. Included in the increase in miscellaneous income is an increase of \$110,000 in FHLB dividends.

Noninterest Expense

Changes in Noninterest Expense:

The following tables set forth the amount and percentage changes in the categories presented for the three and six month periods ended June 30, 2024 and 2023:

(In thousands)	Three Months Ended			\$ Change	% Change
	June 30, 2024	June 30, 2023			
Salaries and employee benefits	\$ 3,390	\$ 3,301	\$ 89	2.7 %	
Occupancy expense	884	858	26	3.0 %	
Data processing	198	205	(7)	(3.4)%	
Professional fees	1,511	910	601	66.0 %	
Regulatory assessments	162	193	(31)	(16.1)%	
Director fees	103	106	(3)	(2.8)%	
Correspondent bank service charges	11	19	(8)	(42.1)%	
Net cost of operation of OREO	64	58	6	10.3 %	
Other	650	557	93	16.7 %	
Total expense	\$ 6,973	\$ 6,207	\$ 766	12.3 %	

Noninterest expense for the quarter ended June 30, 2024, increased \$766,000 to \$7.0 million, compared to the quarter ended June 30, 2023. The increase was primarily attributed to increases in professional fees and salaries and employee benefits, and was partially offset by decreases in regulatory assessments, correspondent bank service charges, and data processing expenses. The Company has nearly completed the outsourcing of virtually all its information technology services to improve the security and effectiveness of its operations, which has also contributed to the increase in professional fees. The increase in salaries and employee benefits was caused by increases in salary expenses, 401(k) expenses, and stock compensation expense.

(In thousands)	Six Months Ended			\$ Change	% Change
	June 30, 2024	June 30, 2023			
Salaries and employee benefits	\$ 6,888	\$ 6,561	\$ 327	5.0 %	
Occupancy expense	1,741	1,820	(79)	(4.3)%	
Data processing	309	379	(70)	(18.5)%	
Professional fees	2,735	1,792	943	52.6 %	
Regulatory assessments	335	385	(50)	(13.0)%	
Director fees	232	216	16	7.4 %	
Correspondent bank service charges	23	38	(15)	(39.5)%	
Net cost of operation of OREO	52	96	(44)	(45.8)%	
Other	1,393	1,161	232	20.0 %	
Total expense	\$ 13,708	\$ 12,448	\$ 1,260	10.1 %	

Noninterest expense for the six months ended June 30, 2024, increased \$1.3 million to \$13.7 million, compared to the six months ended June 30, 2023. The increase was primarily attributed to increases in professional fees and salaries and employee benefits, and was partially offset by decreases in occupancy expense, data processing, regulatory assessment, and net cost of operation of OREO. Professional fees increased primarily due to increases in service contract expenses related to recently outsourced information technology services. The increase in salaries and employee benefits was caused by increases in salary expenses, 401(k) expenses, and stock compensation expense.

Income Taxes

The Company's income tax expense is impacted to some degree by permanent taxable differences between income reported for book purposes and income reported for tax purposes, as well as certain tax credits which are not reflected in the Company's pretax income or loss shown in the statements of operations and comprehensive income. As pretax income or loss amounts become smaller, the impact of these differences becomes more significant and are reflected as variances in the Company's effective tax rate for the periods presented. In general, the permanent differences and tax credits affecting tax expense have a positive impact and tend to reduce the effective tax rates shown in the Company's statements of income and comprehensive income.

The Company reviews its current tax positions at least quarterly based on the accounting standards related to uncertainty in income taxes. These standards identify the individual tax position criteria that would have to be met to recognize an income tax benefit on a taxable entity's financial statements. Under the income tax guidelines, an entity should recognize the financial statement benefit of a tax position if it determines that it is more likely than not that the position will be sustained on examination. The term "more likely than not" means a likelihood of more than 50 percent. In assessing whether the more likely than not criterion is met, the entity should assume that the tax position will be reviewed by the applicable taxing authority.

The Company has reviewed all of its tax positions as of June 30, 2024, and has determined that there are no material additional amounts to be recorded under the current income tax accounting guidelines.

The Company's effective tax rate for the six months ended June 30, 2024, was 28.95% compared to 29.07% for the six months ended June 30, 2023.

Financial Condition

The following table illustrates the changes in balances as of and for the periods ended:

(In thousands)	December 31,		June 30, 2023	Year-to-Date \$ Change	Prior Period \$ Change
	June 30, 2024	2023			
Due from Federal Reserve Bank (FRB)	\$ 2,755	\$ 207	\$ 25,183	\$ 2,548	\$ (22,428)
Net loans	934,090	904,384	944,011	29,706	(9,921)
Investment securities	166,316	184,620	205,521	(18,304)	(39,205)
Total assets	1,219,822	1,211,045	1,288,819	8,777	(68,997)
Total deposits	1,006,614	1,004,477	1,046,554	2,137	(39,940)

Average interest-earning assets	1,084,069	1,147,728	1,158,411	(63,659)	(74,342)
Average interest-bearing liabilities	704,004	725,075	730,351	(21,071)	(26,347)

Net loans decreased on a year-over-year basis due to loan payoffs and paydowns. Net loans increased during the six months ended June 30, 2024, due to organic loan growth. Investment securities decreased on a year-over-year and year-to-date basis due to repayments of principal and maturities. Deposits decreased on a year-over-year basis due to decreases in non-interest-bearing deposits and increased year-to-date due to increases in time deposits and NOW and money market accounts, partially offset by decreases in non-interest bearing deposits and savings accounts. Total deposits at June 30, 2024 include \$50.0 million in brokered deposits purchased during the second quarter of 2024. The balances in overnight interest-bearing deposits in the Federal Reserve Bank and federal funds sold decreased on a year-over-year basis due to decreases in deposit balances. Short-term borrowings totaled \$63.0 million at June 30, 2024, and \$100.6 million June 30, 2023.

Earning assets averaged \$1.08 billion during the six months ended June 30, 2024, compared to \$1.16 billion for the same period in 2023. Average interest-bearing liabilities decreased to \$704.0 million for the six months ended June 30, 2024, from \$730.4 million for the comparative period of 2023.

Loans

The Company's primary business is that of acquiring deposits and making loans, with the loan portfolio representing the largest and most important component of earning assets. Loans totaled \$949.4 million at June 30, 2024, an increase of \$29.4 million, or 3.2%, when compared to the balance of \$920.0 million at December 31, 2023, and a decrease of \$10.7 million, or 1.1%, when compared to the balance of \$960.1 million reported at June 30, 2023. Loans on average decreased \$38.2 million, or 4.0%, between the six months ended June 30, 2023 and June 30, 2024, with loans, excluding nonaccrual loans, averaging \$907.6 million for the six months ended June 30, 2024, as compared to \$944.3 million for the same period in 2023.

The following table sets forth the amounts of loans outstanding by category and the category percentages for the periods presented:

(In thousands)	June 30, 2024		December 31, 2023		June 30, 2023	
	Amount	% of Loans	Amount	% of Loans	Amount	% of Loans
Commercial and industrial	\$ 58,975	6.2 %	\$ 53,347	5.8 %	\$ 52,927	5.5 %
Real estate – mortgage	694,326	73.1 %	646,709	70.3 %	669,117	69.7 %
Real estate construction and development	102,374	10.8 %	127,944	13.9 %	135,300	14.1 %
Agricultural	53,546	5.6 %	49,795	5.4 %	57,666	6.0 %
Installment and student loans	40,192	4.3 %	42,247	4.6 %	45,111	4.7 %
Total gross loans	\$ 949,413	100.00 %	\$ 920,042	100.00 %	\$ 960,121	100.00 %

Loan volume continues to be highest in what has historically been the Bank's primary lending emphasis: real estate mortgage and real estate construction and development lending. Total loans increased \$29.4 million during the six months ended June 30, 2024. There were increases of \$47.6 million, or 7.4%, in real estate mortgage loans, \$5.6 million, or 10.5%, in commercial and industrial loans, and \$3.8 million, or 7.5%, in agricultural loans. Real estate construction and development loans decreased \$25.6 million, or 20.0%, and installment loans decreased by \$2.1 million, or 4.9%.

The real estate mortgage loan portfolio, totaling \$694.3 million at June 30, 2024, consists of commercial real estate, residential mortgages, and home equity loans. Commercial real estate loans have remained a significant percentage of total loans over the past year, amounting to 46.6%, 42.0%, and 42.0% of the total loan portfolio at June 30, 2024, December 31, 2023, and June 30, 2023, respectively. Commercial real estate balances increased to \$442.2 million at June 30, 2024, from \$386.1 million at December 31, 2023. Commercial real estate loans are generally a mix of short- to medium-term, fixed- and floating-rate instruments and are mainly secured by commercial income and multi-family residential properties.

Residential mortgage loans are generally 30-year amortizing loans with an average life of nine to 11 years. These loans totaled \$252.1 million, or 26.6%, of the portfolio at June 30, 2024, \$260.5 million, or 28.3%, of the portfolio at December 31, 2023, and \$265.9 million, or 27.7%, of the portfolio at June 30, 2023. Included in the residential mortgage portfolio are purchased home-mortgage loan pools with aggregate balances of \$226.6 million, comprising 89.9% of the total residential mortgage portfolio at June 30, 2024. These loans were purchased in whole-loan form, in several pools, during 2021 and 2022. Dovenmuehle Mortgage, Inc., (DMI) is the third-party sub-servicer for the Company's purchased residential mortgage portfolio. DMI's services include administration, Company-approved modification, escrow management, monitoring, and collection. DMI is paid a monthly servicing fee based primarily upon the number of loans being serviced which, at June 30, 2024, totaled 251.

Real estate construction and development loans, representing 10.8%, 13.9%, and 14.1% of total loans at June 30, 2024, December 31, 2023, and June 30, 2023, respectively, consisted of loans for residential and commercial construction projects, as well as land acquisition and development, and land held for future development. Loans in this category are secured by real estate, including improved and unimproved land, as well as single-family residential, multi-family residential, and commercial properties in various stages of completion. All real estate loans have established equity requirements. Repayment on construction loans generally comes from long-term mortgages with other lending institutions obtained at the completion of the project or from the sale of the constructed homes to individuals.

Commercial and industrial loans increased \$5.6 million between December 31, 2023, and June 30, 2024, and increased \$6.0 million between June 30, 2023, and June 30, 2024. Agricultural loans increased \$3.8 million between December 31, 2023, and June 30, 2024, and decreased \$4.1 million between June 30, 2023, and June 30, 2024. Installment loans decreased \$2.1 million between December 31, 2023, and June 30, 2024, and decreased \$4.9 million between June 30, 2023, and June 30, 2024, primarily due to decreases in student loan balances.

Included in installment loans are \$36.6 million in unsecured student loans made to medical and pharmacy school students in the US and Caribbean, all of which are exclusively US citizens. Student loans decreased \$4.8 million between the six months ended June 30, 2024 and 2023, due to paydowns, consolidations with other lenders, and charge-offs. The outstanding balance of loans for students who are in school or in a grace period and have not entered repayment status totaled \$1.2 million at June 30, 2024. At June 30, 2024, there were 747 loans within repayment, deferment, and forbearance which represented \$20.9 million, \$10.0 million, and \$4.4 million in outstanding balances, respectively. Student loans have not been originated or purchased since 2019.

Repayment of the unsecured student loans is premised on the medical and pharmacy students graduating and becoming high-income earners. Under program guidelines, repayment terms can vary per borrower; however, repayment occurs on average within 10 to 20 years. Additional repayment capacity is provided by non-student, co-borrowers for roughly one-third of the portfolio. The average student loan balance per borrower as of June 30, 2024, was approximately \$110,300. At June 30, 2023, the average balance per borrower was approximately \$104,000. Loan interest rates are variable and currently range from 6.00% to 13.125%.

ZuntaFi is the third-party servicer for the student loan portfolio. ZuntaFi's services include application administration, processing, approval, documenting, funding, collection, and borrower file custodial responsibilities. Except in cases where applicants/loans do not meet program requirements or extreme delinquency, ZuntaFi is responsible for complete program management. ZuntaFi is paid a monthly servicing fee based on the outstanding principal balance.

The Company classifies student loans delinquent more than 90 days as substandard. As of June 30, 2024, and December 31, 2023, reserves against the student loan portfolio totaled \$6.8 million and \$6.3 million, respectively. For the six months ended June 30, 2024, \$58,000 in accrued interest receivable was reversed, due to charge-offs of \$781,000. For the six months ended June 30, 2023, \$111,000 in accrued interest receivable was reversed, due to charge-offs of \$985,000.

[Table of Contents](#)

The following table sets forth the Bank's student loan portfolio with activity from December 31, 2023, to June 30, 2024:

(In thousands)	Balance
Balance at December 31, 2023	\$ 38,493
Capitalized interest	1,256
Loan consolidations/payoffs	(1,729)
Payments received	(646)
Loans charged-off	(781)
Balance at June 30, 2024	\$ 36,593

Loan participations purchased totaled \$4.2 million, or 0.4%, of the portfolio, at June 30, 2024, \$9.2 million, or 1.0%, of the portfolio at December 31, 2023, and \$9.3 million, or 1.0%, of the portfolio at June 30, 2023. Loan participations sold totaled \$4.3 million, or 0.4%, of the portfolio, at June 30, 2024, \$4.2 million, or 0.5%, of the portfolio, at December 31, 2023, and \$9.4 million, or 1.0%, of the portfolio at June 30, 2023.

Deposits

Deposit balances totaled \$1.01 billion at June 30, 2024, representing an increase of \$2.1 million, or 0.2%, from the balance of \$1.00 billion reported at December 31, 2023, and a decrease of \$39.9 million, or 3.8%, from the balance of \$1.05 billion at June 30, 2023.

The following table sets forth the amounts of deposits outstanding by category at June 30, 2024 and December 31, 2023, and the net change between the two periods presented:

(In thousands)	June 30, 2024		December 31, 2023		\$ Change
Noninterest-bearing deposits	\$ 372,886	37.04 %	\$ 403,225	40.14 %	\$ (30,339)
Interest-bearing deposits:					
NOW and money market accounts	443,317	44.04 %	406,857	40.50 %	36,460
Savings accounts	116,093	11.53 %	122,547	12.20 %	(6,454)
Time deposits:					
Under \$250,000	45,680	4.55 %	48,098	4.80 %	(2,418)
\$250,000 and over	28,638	2.84 %	23,750	2.36 %	4,888
Total interest-bearing deposits	633,728	62.96 %	601,252	59.86 %	32,476
Total deposits	\$ 1,006,614	100.00 %	\$ 1,004,477	100.00 %	\$ 2,137

The following tables set forth estimated deposit balances exceeding the FDIC insurance limits as of:

(In thousands)	June 30, 2024	December 31, 2023
Uninsured deposits (1)	\$ 509,360	\$ 523,971

(1) Represents the amount over the insurance limit

(In thousands)	December 31, 2023				
	Over three months or less		Over six months through twelve months		Over twelve months
	Three months or less	months through six months	through twelve months	Over twelve months	Total
Uninsured time deposits (1)	\$ 1,379	\$ 1,186	\$ 1,891	\$ 6,792	\$ 11,248

(1) Represents the amount over the insurance limit

Core deposits, defined by the Company as consisting of all deposits other than time deposits of more than \$250,000 and brokered deposits, continue to provide the foundation of the Company's principal sources of funding and liquidity. These core deposits amounted to 92.2% and 97.6% of total deposits at June 30, 2024, and December 31, 2023, respectively. The Company held \$50.0 million in brokered deposits at June 30, 2024. The Company held no brokered deposits at December 31, 2023.

On a year-to-date average basis, the Company experienced a decrease of \$161.4 million, or 14.5%, in total deposits between the six months ended June 30, 2024 and the six months ended June 30, 2023. Between these two periods, interest-bearing deposits decreased \$99.7 million, or 14.3%, and noninterest-bearing deposits decreased \$61.7 million, or 14.8%.

Short-Term Borrowings

At June 30, 2024, the Company had collateralized lines of credit with the Federal Reserve Bank of San Francisco totaling \$496.6 million, as well as Federal Home Loan Bank (FHLB) lines of credit totaling \$136.0 million. At June 30, 2024, the Company had uncollateralized lines of credit with Pacific Coast Bankers Bank (PCBB), Zions Bank, and US Bank totaling \$50.0 million, \$20.0 million, and \$20.0 million, respectively. These lines of credit generally have interest rates tied to either the Federal Funds rate or short-term U.S. Treasury rates. All lines of credit are on an "as available" basis and can be revoked by the grantor at any time. The Company had outstanding borrowings of \$63.0 million and \$100.6 million at June 30, 2024, and June 30, 2023, respectively. The Company had collateralized FRB lines of credit of \$463.5 million, collateralized FHLB lines of credit totaling \$128.9 million, and uncollateralized lines of credit of \$50.0 million with PCBB, \$20.0 million with Zions's Bank, and \$10.0 million with US Bank at December 31, 2023.

Asset Quality and Allowance for Credit Losses

Lending money is the Company's principal business activity, and ensuring appropriate evaluation, diversification, and control of credit risks is a primary management responsibility. Losses are implicit in lending activities and the amount of such losses will vary, depending on the risk characteristics of the loan portfolio as affected by local economic conditions and the financial experience of borrowers.

The Company adopted ASU 2016-13, *Financial Instruments-Credit Losses (Topic 326)*, effective January 1, 2023, and utilizes a current expected credit loss (CECL) methodology which relies on segmenting the loan portfolio into pools with similar risks, tracking the performance of the pools over time, and using the data to determine pool loss experience. The allowance for credit losses on most loans is measured on a collective (pool) basis for loans with similar characteristics. The Company estimates the appropriate level of allowance for credit losses for collateral-dependent loans by evaluating them separately. The Company also uses the CECL model to calculate the allowance for credit losses on off-balance sheet credit exposures, such as undrawn amounts on lines of credit. While the allowance for credit losses on loans is reported as a contra-asset for loans, the allowance for credit losses on off-balance sheet credit exposure is reported as a liability.

The eight (8) segments of the loan portfolio are as follows, net of unearned fees and unamortized loan origination costs (subtotals are provided as needed to allow the reader to reconcile the amounts to loan classifications reported elsewhere in this report):

Loan Segments for Allowance for Credit Loss Analysis (In thousands)	June 30, 2024	December 31, 2023
Commercial and business loans	\$ 58,907	\$ 53,273
Government program loans	68	74
Total commercial and industrial	58,975	53,347
Real estate – mortgage:		
Commercial real estate	442,180	386,134
Residential mortgages	252,118	260,539
Home improvement and home equity loans	28	36
Total real estate mortgage	694,326	646,709
Real estate construction and development	102,374	127,944
Agricultural	53,546	49,795
Installment and student loans	40,192	42,247
Total loans	\$ 949,413	\$ 920,042

Individually-Evaluated Loans and Specific Reserves:

The following table summarizes the components of individually-evaluated loans and related specific reserves:

(In thousands)	June 30, 2024		December 31, 2023	
	Individually-Evaluated Loan		Individually-Evaluated Loan	
	Balances	Specific Reserve	Balances	Specific Reserve
Real estate construction and development	\$ 12,067	\$ —	\$ 11,390	\$ —
Agricultural	410	—	451	14
Total individually-evaluated loans	\$ 12,477	\$ —	\$ 11,841	\$ 14

Individually-evaluated loans increased \$636,000 to \$12.5 million at June 30, 2024, compared to \$11.8 million at December 31, 2023. There were no reserves for individually-evaluated loans using the discounted cash flow method at June 30, 2024, compared to \$14,000 at December 31, 2023.

Collateral-Dependent Loans:

A loan is considered collateral-dependent when the borrower is experiencing financial difficulty and repayment is expected to be provided substantially through the operation or sale of the collateral.

The following table presents the recorded investment in collateral-dependent loans by type of loan:

(Dollars in thousands)	June 30, 2024		December 31, 2023	
	Amount	Number of Collateral- Dependent Loans	Number of Collateral- Dependent Loans	
			Amount	Number of Collateral- Dependent Loans
Real estate construction and development loans	\$ 12,067	3	\$ 11,390	3
Agricultural loans	390	1	390	1
Total	\$ 12,457	4	\$ 11,780	4

Credit Quality Indicators for Outstanding Student Loans:

The following table summarizes the credit quality indicators for outstanding student loans as of:

(Dollars in thousands)	June 30, 2024			December 31, 2023		
	Number of Loans	Amount	Accrued Interest	Number of Loans	Amount	Accrued Interest
School	35	\$ 902	\$ 605	44	\$ 1,242	\$ 734
Grace	9	340	206	18	473	296
Repayment	433	20,920	294	444	20,833	289
Deferment	229	10,018	2,466	237	10,163	2,022
Forbearance	85	4,413	143	98	5,782	133
Total	791	\$ 36,593	\$ 3,714	841	\$ 38,493	\$ 3,474

Included in installment loans are \$36.6 million and \$38.5 million in student loans at June 30, 2024, and December 31, 2023, respectively, made to medical and pharmacy school students. As of June 30, 2024, and December 31, 2023, the reserve against the student loan portfolio totaled \$6.8 million and \$6.3 million, respectively. Loan interest rates on the student loan portfolio are variable and range from 6.00% to 13.125 % at June 30, 2024, and December 31, 2023.

Nonperforming Assets:

The following table summarizes the components of nonperforming assets as of June 30, 2024, and December 31, 2023, and the percentage of nonperforming assets to total gross loans, total assets, and the percentage of nonperforming assets to allowance for loan losses:

(In thousands)	December 31,	
	June 30, 2024	2023
Nonaccrual loans	\$ 12,100	\$ 11,448
Loans past due 90 days or more, still accruing	526	426
Loan modifications	92	—
Total nonperforming loans	12,718	11,874
Other real estate owned	4,582	4,582
Total nonperforming assets	\$ 17,300	\$ 16,456
Nonperforming loans to total gross loans	1.34 %	1.29 %
Nonperforming assets to total assets	1.42 %	1.36 %
Allowance for credit losses to nonperforming loans	120.48 %	131.87 %

Nonperforming assets, which are primarily related to the real estate loan and other-real-estate-owned portfolio, increased \$844,000 from \$16.5 million at December 31, 2023, to \$17.3 million at June 30, 2024. Nonaccrual loan balances increased to \$12.1 million between the two periods. All nonaccrual loans are well-collateralized and in the process of collection.

The following table summarizes the nonaccrual totals by loan category for the periods shown:

(In thousands)	December 31,		\$ Change
	June 30, 2024	2023	
Nonaccrual Loans:			
Real estate construction and development	\$ 12,080	\$ 11,403	\$ 677
Agricultural	20	45	(25)
Total nonaccrual loans	\$ 12,100	\$ 11,448	\$ 652

Loans past due more than 30 days receive increased management attention and are monitored for increased risk. The Company continues to move past-due loans to nonaccrual status in an ongoing effort to recognize and address loan problems as early and most effectively as possible and appropriate. As individually-evaluated loans, nonaccrual, and modified loans are reviewed for specific reserve allocations, the allowance for credit losses is adjusted accordingly.

Except for nonaccrual and individually-evaluated loans, there were no loans at June 30, 2024, where the known credit problems of a borrower caused the Company to have serious doubts as to the ability of such borrower to comply with loan repayment terms.

Nonaccrual loans, totaling \$12.1 million at June 30, 2024, increased \$652,000 from \$11.4 million at December 31, 2023, with real estate construction loans comprising 99.8% of total nonaccrual loans at June 30, 2024. In determining the adequacy of the underlying collateral related to these loans, management monitors trends within specific geographical areas, loan-to-value ratios, appraisals, and other credit-related issues. Nonaccrual loans represented 1.27% of total loans at June 30, 2024 and 1.24% at December 31, 2023. The loan allowance for credit loss represented 126.64% and 136.77%, respectively, of nonaccrual loans for the same periods.

Other real estate owned through foreclosure remained at \$4.6 million for the periods ended June 30, 2024, and December 31, 2023. Nonperforming assets as a percentage of total assets increased from 1.36% at December 31, 2023, to 1.42% at June 30, 2024.

Management continues to monitor economic conditions in the real estate market for signs of deterioration or improvement which may impact the level of the allowance for credit losses required to cover identified and potential losses in the loan portfolio. Focus has been placed on monitoring and reducing the level of problem assets.

The following table summarizes special mention loans by type as of:

(In thousands)	December 31,	
	June 30, 2024	2023
Commercial and industrial	\$ 421	\$ —
Commercial real estate mortgage	5,726	5,796
Agricultural	2,994	2,974
Total special mention loans	\$ 9,141	\$ 8,770

The Company remains focused on competition and other economic conditions within its market area which may ultimately affect the risk assessment of the portfolio. The Company continues to experience increased competition from major banks, local independents, and non-bank institutions, which creates pressure on loan pricing. Increased emphasis has been placed on reducing both the level of nonperforming assets and potential losses on the disposition of those assets. It is in the best interest of both the Company and the borrowers to seek alternative options to foreclosure to reduce the impacts on the real estate market. As part of this strategy, the Company enters into loan modifications when it improves collection prospects.

Management recognizes the increased risk of loss due to the Company's exposure to local and worldwide economic conditions, as well as potentially volatile real estate markets, and takes these factors into consideration when analyzing the adequacy of the allowance for credit losses.

The following table provides a summary of the Company's allowance for loan credit losses, loan loss provisions, and charge-off and recovery activity affecting the allowance for credit losses for the six months ended June 30, 2024, and June 30, 2023.

Allowance for Credit Losses - Summary of Activity:

(In thousands)	June 30, 2024	June 30, 2023
Total loans outstanding at end of period before deducting allowances for credit losses	\$ 949,413	\$ 960,121
Average loans outstanding during period	919,408	957,620
Balance of allowance at beginning of period	\$ 15,658	\$ 16,549
Loans charged-off:		
Real estate	—	—
Commercial and industrial	—	—
Agricultural	—	—
Installment and student loans	(812)	(995)
Total loans charged-off	(812)	(995)
Recoveries of loans previously charged off:		
Real estate	4	51
Commercial and industrial	1	1

Balance of allowance for credit losses at end of period	\$ 15,323	\$ 16,110
Net loan charged-off to total average loans (annualized)	0.14 %	0.19 %
Net loan charged-off to loans at end of period (annualized)	0.07 %	0.38 %
Allowance for credit losses to total loans at end of period	1.61 %	1.68 %
Net loan charged-off to allowance for credit losses (annualized)	16.73 %	22.40 %
Provision for credit losses to net charged-off (annualized)	190.95 %	102.66 %

(1) There was a reversal of provision of \$103,000 for unfunded loan commitments made during the six months ended June 30, 2024. There was a provision of \$135,000 for unfunded loan commitments made during the six months ended June 30, 2023.

Provisions for credit losses are determined based on management's periodic credit review of the loan portfolio, consideration of past loan loss experience, expected losses within the portfolio, current and future economic conditions, and other pertinent factors. Management believes its estimate of the allowance for credit losses adequately covers estimated losses inherent in the loan portfolio and, based on the condition of the loan portfolio, management believes the allowance is sufficient to cover risk elements in the loan portfolio. For the six months ended June 30, 2024, a \$306,000 provision was recorded to the allowance for credit losses as compared to a \$463,000 provision for the six months ended June 30, 2023.

The following provides a summary of the Company's net charge-offs as a percentage of average loan balances (including nonaccrual loans) in each category for the six months ended June 30, 2024 and June 30, 2023:

(In thousands)	June 30, 2024			June 30, 2023		
	Net Charge-offs (Recoveries)	Average Loan Balance	Percentage	Net Charge-offs (Recoveries)	Average Loan Balance	Percentage
Commercial and industrial	\$ (1)	\$ 56,672	<0.01%	\$ (1)	\$ 49,628	<0.01%
Real estate mortgages	(4)	648,726	<0.01%	(51)	667,376	<0.01%
RE construction and development	—	122,124	— %	—	148,340	— %
Agricultural	—	50,170	— %	—	50,332	— %
Installment and student loans	646	41,716	1.55 %	954	44,972	2.12 %
Total	<u>\$ 641</u>	<u>\$ 919,408</u>	<u>0.07 %</u>	<u>\$ 902</u>	<u>\$ 960,648</u>	<u>0.09 %</u>

Net charge-offs during the six months ended June 30, 2024, totaled \$641,000 as compared to net charge-offs of \$902,000 for the six months ended June 30, 2023. The Company charged-off or had partial charge-offs on 14 loans during the six months ended June 30, 2024, compared to 24 loans during the same period ended June 30, 2023. The annualized percentage of net charge-offs to average loans was 0.14% for the six months ended June 30, 2024, 0.25% for the year ended December 31, 2023, and 0.19% for the six months ended June 30, 2023. The Company's loans, net of unearned fees, decreased from \$960.1 million at June 30, 2023, to \$949.4 million at June 30, 2024.

The allowance for credit losses at June 30, 2024, was 1.61% of outstanding loan balances, as compared to 1.70% at December 31, 2023, and 1.68% at June 30, 2023. At June 30, 2024, and June 30, 2023, unfunded loan commitment reserves of \$732,000 and \$935,000, respectively, were reported in other liabilities.

Management believes that the loan allowance for credit losses, totaling 1.61% of the loan portfolio at June 30, 2024, is adequate to absorb both known and inherent risks in the loan portfolio. No assurance can be given, however, regarding future economic conditions, or other circumstances, which may adversely affect the Company's service areas and result in losses in the loan portfolio not captured by the current allowance for credit losses.

Management is not currently aware of any conditions that may adversely affect the levels of losses incurred in the Company's loan portfolio.

Liquidity and Capital Resources

The Company's asset/liability management, liquidity strategy, and capital planning are guided by policies formulated and monitored by the Asset and Liability Management Committee (ALCO) and Management, to provide adequate liquidity and maintain an appropriate balance between interest-sensitive assets and interest-sensitive liabilities.

Liquidity

Liquidity management may be described as the ability to maintain sufficient cash flows to fulfill both on- and off-balance sheet financial obligations, including loan funding commitments and customer deposit withdrawals, without straining the Company's equity structure. To maintain an adequate liquidity position, the Company relies on, in addition to cash and cash equivalents, cash inflows from deposits and short-term borrowings, repayments of principal on loans and investments, and interest income received. The Company's principal cash outflows are for loan originations, purchases of investment securities, depositor withdrawals, and payment of operating expenses.

The Company's liquid asset base, which generally consists of cash and due from banks, federal funds sold, and investment securities, is maintained at levels deemed sufficient to provide the cash necessary to fund loan growth, unfunded loan commitments, and deposit runoff. Included in this framework is the objective of maximizing the yield on earning assets. This is generally achieved by maintaining a high percentage of earning assets in loans and investment securities, which typically provide higher yields than cash balances.

The following table sets forth asset balances as of:

(Dollars in thousands)	June 30, 2024		December 31, 2023	
	Balance	% Total Assets	Balance	% Total Assets
Cash and cash equivalents	\$ 38,757	3.2 %	\$ 40,784	3.4 %
Loans, net of unearned income	949,413	77.8 %	920,042	76.0 %
Unpledged investment securities	80,858	6.6 %	98,394	8.1 %

At June 30, 2024, the loan-to-deposit ratio was 94.3%, compared to a loan-to-deposit ratio of 91.6% at December 31, 2023.

Liabilities used to fund liquidity sources include core and non-core deposits as well as short-term borrowing capabilities. Core deposits, which comprised approximately 92.2% of total deposits at June 30, 2024, provide a significant and stable funding source for the Company. The bank held \$40.0 million in borrowings from a secured credit line with the Federal Home Loan Bank and \$23.0 million in borrowings from an unsecured credit line with PCBB for a total of \$63.0 million in short-term borrowings at June 30, 2024. Unused lines of credit with the Federal Reserve Bank and FHLB, totaling \$659.6 million, were collateralized by investment securities and certain qualifying loans in the Company's portfolio. The carrying value of loans pledged on these borrowing lines totaled \$860.0 million at June 30, 2024. For further detail on the Company's borrowing arrangements, see "[Note 6](#) - Short-term Borrowings/Other Borrowings" in the notes to the consolidated financial statements.

The period-end balances of cash and cash equivalents for the periods shown are as follows (from Consolidated Statements of Cash Flows):

(In thousands)	Balance
December 31, 2022	\$ 38,595
June 30, 2023	58,403
December 31, 2023	40,784
June 30, 2024	38,757

Capital and Dividends

The Company and the Bank are subject to various regulatory capital requirements adopted by the Board of Governors of the Federal Reserve System (the "Board of Governors"). Failure to meet minimum capital requirements can initiate certain mandates and possible additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's consolidated financial statements. Under capital adequacy guidelines and the regulatory framework, the Company and the Bank must meet specific capital guidelines that include quantitative measures of their assets, liabilities, and certain off-balance sheet items, as calculated under regulatory accounting practices. Capital levels and classifications are also subject to qualitative judgments by the regulators regarding components, risk weightings, and other factors.

The Company's capital plan includes guidelines and trigger points designed to ensure sufficient capital is maintained at both the Bank and Company levels. Capital ratios are maintained at a level deemed appropriate under regulatory guidelines given the Bank's level of classified assets, concentrations of credit, allowance for credit losses, current and projected growth, and projected retained earnings. The capital plan contains contingency strategies to obtain additional capital as required to fulfill future capital requirements for both the Bank, as a separate legal entity, and the Company, on a consolidated basis. The capital plan requires the Bank to maintain a Tier 1 Leverage Ratio equal to or greater than 9%. The Bank's Tier 1 Capital Ratio was 12.67% and 11.18% at June 30, 2024 and 2023, respectively.

The following table sets forth the Company's and the Bank's actual capital positions at June 30, 2024 and December 31, 2023:

Capital Ratios:

	June 30, 2024	December 31, 2023	Minimum Requirement to be Well Capitalized	Minimum requirement for CBLR (1)
Tier 1 capital to adjusted average assets (Leverage Ratio)				
Company	12.71%	11.82%	5.00%	9.00%
Bank	12.67%	11.83%	5.00%	9.00%

(1) If the Bank's Leverage Ratio exceeds the minimum ratio under the Community Bank Leverage Ratio Framework (CBLR), it is deemed to be "well capitalized" under all other regulatory capital requirements. If the Bank's leverage ratio falls below the minimum required, it would no longer be eligible to elect the use of the CBLR framework.

As of June 30, 2024, the Company and the Bank meet all capital adequacy requirements to which they are subject. Management believes that, under the current regulations, both the Company and the Bank will continue to meet their minimum capital requirements for the foreseeable future.

Dividends

Dividends paid to shareholders by the Holding Company are subject to restrictions set forth under the California General Corporation Law. As applicable to the Holding Company, the California General Corporation Law provides that the Holding Company may make a distribution to its shareholders if either retained earnings immediately prior to the dividend payout are at least equal to the amount of the proposed distribution or, proceeding the distribution, the value of the Holding Company's assets would equal or exceed the sum of its total liabilities. The primary source of funds for dividends paid to shareholders is cash dividends received by the Holding Company from the Bank.

On April 25, 2017, the Board of Directors announced the authorization of the repurchase of up to \$3.0 million of the outstanding stock of the Holding Company. This amount represents 2.4% of total shareholders' equity of \$127.4 million at June 30, 2024. The timing of the purchases will depend on certain factors including, but not limited to, market conditions and prices, available funds, and alternative uses of capital. The stock repurchase program may be carried out through open-market purchases, block trades, or negotiated private transactions. During the six months ended June 30, 2024, the Company did not repurchase any of the shares available.

During the six months ended June 30, 2024, the Bank paid \$4.3 million in cash dividends to the Holding Company which funded the Holding Company's operating costs, payments of interest on its junior subordinated debt, and dividend payments to shareholders.

On June 25, 2024, the Company's Board of Directors declared a cash dividend of \$0.12 per share on the Company's common stock. The dividend was payable on July 23, 2024, to shareholders of record as of July 8, 2024. Approximately \$2.1 million was transferred from retained earnings to dividends payable to allow for the distribution of the dividend to shareholders.

The Bank, as a state-chartered bank, is subject to dividend restrictions set forth in the California Financial Code, as administered by the Commissioner of the Department of Financial Protection and Innovation (the "Commissioner"). As applicable to the Bank, the Financial Code provides that the Bank may not pay cash dividends in an amount that exceeds the lesser of the retained earnings of the Bank or the Bank's net income for the last three fiscal years less the amount of distributions to the Holding Company during that period of time. If the above test is not met, cash dividends may only be paid with the prior approval of the Commissioner, in an amount not exceeding the Bank's net income for its last fiscal year or the amount of its net income for the current fiscal year. Such restrictions do not apply to stock dividends, which generally require neither the satisfaction of any tests nor the approval of the Commissioner. Notwithstanding the foregoing, if the Commissioner finds that the shareholders' equity of the Bank is not adequate or that the declaration of a dividend would be unsafe or unsound, the Commissioner may order the Bank not to pay any dividend. The Federal Reserve Bank may also limit dividends paid by the Bank.

Item 3 - Quantitative and Qualitative Disclosures about Market Risk

This item is not applicable to smaller reporting companies.

Item 4. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer as appropriate, to allow for timely decisions regarding required disclosures. In designing and evaluating disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well-designed and executed, can provide only reasonable assurance that desired control objectives will be achieved. Management is required to apply its judgment in evaluating the cost-benefit relationship of controls and procedures.

As of June 30, 2024, an evaluation of the effectiveness of the design and operation of disclosure controls and procedures was carried out under the supervision and participation of management, including the Chief Executive Officer and the Chief Financial Officer. Based on the foregoing evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control over Financial Reporting

There were no changes made to the Company's internal control over financial reporting during the quarter ended June 30, 2024, that materially affected, or were reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company does not expect that its disclosure controls and procedures and internal control over financial reporting will prevent all error and fraud. A control procedure, no matter how well conceived and executed, can provide only reasonable, not absolute, assurance that the objectives of the control procedure will be met. Because of these inherent limitations in control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns in controls or procedures can occur due to simple errors or mistakes. Additionally, controls can be circumvented by the individual acts of a person, by collusion of two or more people, or by management override of the control. The design of any control procedure is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate due to changes in conditions or deterioration in the degrees of compliance with policies and/or procedures. Because of the inherent limitations in a cost-effective control procedure, misstatements due to error or fraud may occur and may not be detected.

PART II. Other Information

Item 1. Legal Proceedings

The Company is involved in various legal proceedings in the normal course of business. In the opinion of Management, any liability resulting from such proceedings would not have a material adverse effect on the Company's financial condition or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None during the quarter ended June 30, 2024.

Item 6. Exhibits:

(a) Exhibits:

11	Computation of Earnings per Share*
31.1	Certification of the Chief Executive Officer of United Security Bancshares pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
31.2	Certification of the Chief Financial Officer of United Security Bancshares pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
32.1	Certification of the Chief Executive Officer of United Security Bancshares pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
32.2	Certification of the Chief Financial Officer of United Security Bancshares pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

* Data required by Accounting Standards Codification (ASC) 260, *Earnings per Share*, is provided in Note 10 to the consolidated financial statements in this report.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

CERTIFICATION UNDER SECTION 302 OF
THE SARBANES-OXLEY ACT OF 2002

I, Dennis R. Woods, certify that:

1. I have reviewed this report on Form 10-Q of United Security Bancshares;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13(a) - 15(e) and 15d - 15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent quarter (the registrant's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
