NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1: Summary of Significant Accounting Policies

Basis of Presentation

The accompanying Condensed Consolidated Financial Statements include Belden Inc. and all of its subsidiaries (the Company, us, we, or our). We eliminate all significant affiliate accounts and transactions in consolidation.

The accompanying Condensed Consolidated Financial Statements presented as of any date other than December 31, 2023:

- Are prepared from the books and records without audit, and
- Are prepared in accordance with the instructions for Form 10-Q and do not include all of the information required by accounting principles generally accepted in the United States for complete statements, but
- Include all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the financial statements.

These Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and Supplementary Data contained in our 2023 Annual Report on Form 10-K.

Business Description

We are a leading global supplier of network infrastructure and digitization solutions built around two global businesses - Enterprise Solutions and Industrial Automation Solutions. Our mission is to build the foundation for a digital world that makes the digital journey simpler, smarter and secure.

Reporting Periods

Our fiscal year and fiscal fourth quarter both end on December 31. Our fiscal first quarter ends on the Sunday falling closest to 91 days after December 31, which was March 31, 2024, the 91st day of our fiscal year 2024. Our fiscal second and third quarters each have 91 days. The six months ended June 30, 2024 and July 2, 2023 included 182 and 183 days, respectively.

Fair Value Measurement

Accounting guidance for fair value measurements specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources or reflect our own assumptions of market participant valuation. The hierarchy is broken down into three levels based on the reliability of the inputs as follows:

- Level 1 – Quoted prices in active markets that are unadjusted and accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 – Quoted prices for identical assets and liabilities in markets that are not active, quoted prices for similar assets and liabilities in active markets, or financial instruments for which significant inputs are observable, either directly or indirectly; and
- Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

As of and during the three and six months ended June 30, 2024 and July 2, 2023, we utilized Level 1 inputs to determine the fair value of cash equivalents. We did not have any transfers between Level 1 and Level 2 fair value measurements during the six months ended June 30, 2024 and July 2, 2023.

Cash and Cash Equivalents

We classify cash on hand and deposits in banks, including commercial paper, money market accounts, and other investments with an original maturity of three months or less, that we hold from time to time, as cash and cash equivalents. We periodically have cash equivalents consisting of short-term money market funds and other investments. As of June 30, 2024, we did not have any such cash equivalents on hand. The primary objective of our investment activities is to preserve our capital for the purpose of funding operations. We do not enter into investments for trading or speculative purposes.

Contingent Liabilities

We have established liabilities for environmental and legal contingencies that are probable of occurrence and reasonably estimable, the amounts of which are currently not material. We accrue environmental remediation costs based on estimates of known environmental remediation exposures developed in consultation with our environmental consultants and legal counsel. We are, from time to time, subject to routine litigation incidental to our business. Historically, these lawsuits have primarily involved claims for damages arising out of the use of our products, allegations of patent or trademark infringement, and litigation and administrative proceedings involving employment matters and commercial disputes. Based on facts currently available, we believe the disposition of the claims that are pending or asserted will not have a material adverse effect on our financial position, results of operations, or cash flow. As of June 30, 2024, we were party to standby letters of credit, surety bonds, and bank guaranties totaling \$ 6.9 million, \$6.0 million, and \$5.2 million, respectively.

Revenue Recognition

We recognize revenue consistent with the principles as outlined in the following five step model: (1) identify the contract with the customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) each performance obligation is satisfied. See Note 2.

Subsequent Events

We evaluated subsequent events after the balance sheet date through the financial statement issuance date for appropriate accounting and disclosure.

Noncontrolling Interest

A Belden subsidiary includes a noncontrolling interest as of and for the periods ended June 30, 2024 and July 2, 2023. The results attributable to the noncontrolling interest holders are not material to our condensed consolidated financial statements, and are presented as net income (loss) attributable to noncontrolling interests in the Condensed Consolidated Statements of Operations.

Current Year Adoption of Accounting Pronouncements

None of the accounting pronouncements that became effective during 2024 had a material impact to our condensed consolidated financial statements or disclosures.

Pending Adoption of Recent Accounting Pronouncements

The Financial Accounting Standards Board (FASB) amended the guidance in Accounting Standards Codification (ASC) 280, *Segment Reporting*, to require public companies disclose significant segment expenses and other segment items on an annual and interim basis and to provide in interim periods all disclosures about a reportable segment's profit or loss and assets that are currently required annually. The guidance is effective for public entities for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The guidance is applied retrospectively to all periods presented in the financial statements, unless it is impracticable. We did not early adopt this pronouncement, and we expect the amended guidance to have a minimal impact on our disclosures.

In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740) Improvements to Income Tax Disclosures (ASU 2023-09) enhancing the transparency and decision usefulness of income tax disclosures. ASU 2023-09 addresses investor requests for more transparency about income tax information through improvements to income tax disclosures primarily related to the rate reconciliation and income taxes paid information. ASU 2023-09 is effective for annual periods beginning after December 15, 2024, with early adoption permitted. The amendments in ASU 2023-09 are applied on a prospective basis, though retrospective application is permitted. We did not early adopt this pronouncement and are in the process of evaluating its impact on our consolidated financial statements and related disclosures.

In March 2024, the SEC issued a final climate disclosure rule, which requires registrants to disclose climate-related information in registration statements and annual reports. The final rule also requires certain disclosures related to risk management and governance over climate-related risks, material climate targets and goals, and material Scope 1 and Scope 2 greenhouse gas emissions. For calendar year companies, the ruling requires certain disclosures in annual reports for the year ending December 31, 2025. On April 4, 2024, the SEC voluntarily stayed the final rule pending the completion of judicial review of cases pending in the Eighth Circuit. We are continuing to evaluate the impact of the final rule on our consolidated financial statements and disclosures.

Note 2: Revenues

Revenues are recognized when control of the promised goods or services is transferred to our customers and in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. Taxes collected from customers and remitted to governmental authorities are not included in our revenues. The following tables present our revenues disaggregated by major product category.

We generate revenues primarily by selling products that support communication, infrastructure, and deliver solutions that make the digital journey simpler, smarter, and secure. We also generate revenues from providing support and professional services. We sell our products to distributors, end-users, installers, and directly to original equipment manufacturers. At times, we enter into arrangements that involve the delivery of multiple performance obligations. For these arrangements, revenue is allocated to each performance obligation based on its relative standalone selling price and recognized when or as each performance obligation is satisfied. Generally, we determine relative standalone selling price using the prices charged separately to customers on a standalone basis. Typically, payments are due after control transfers.

Most of our performance obligations related to the sale of products are satisfied at a point in time when control of the product is transferred to the customer, which generally occurs when the product has been shipped or delivered from our facility to our customers, the customer has legal title to the product, and we have a present right to payment for the product. We also consider any customer acceptance clauses in determining when control has transferred to the customer and typically, these clauses are not substantive.

The amount of consideration we receive and revenue we recognize varies due to rebates, returns, and price adjustments. We estimate the expected rebates, returns, and price adjustments based on an analysis of historical experience, anticipated sales demand, and trends in product pricing. For example, our estimate of price adjustments is based on our historical price adjustments as a percentage of revenues and the average time period between the original sale and the issuance of the price adjustment. We adjust our estimate of revenue for variable consideration at the earlier of when the most likely amount of consideration we expect to receive changes or when the consideration becomes fixed. We adjust other current assets and cost of sales for the estimated level of returns. Adjustments to revenue for performance obligations satisfied in prior periods were not significant during the three and six months ended June 30, 2024 and July 2, 2023.

The following table presents estimated and accrued variable consideration:

	June 30, 2024	December 31, 2023
	(in thousands)	
Accrued rebates included in accrued liabilities	\$ 45,788	\$ 49,255
Accrued returns included in accrued liabilities	15,417	15,570
Price adjustments recognized against gross accounts receivable	26,603	26,005

Depending on the terms of an arrangement, we may defer the recognition of a portion of the consideration received because we have to satisfy a future performance obligation. Consideration allocated to support services under a support and maintenance contract is typically paid in advance and recognized ratably over the term of the service. Consideration allocated to professional services is recognized when or as the services are performed depending on the terms of the arrangement. Our contract terms for support, maintenance, and professional services typically require payment within one year or less of when the services will be provided. As of June 30, 2024, total deferred revenue was \$29.6 million, and of this amount, \$22.1 million is expected to be recognized within the next twelve months, and the remaining \$7.5 million is long-term and is expected to be recognized over a period greater than twelve months. The following table presents deferred revenue activity during the three and six months ended June 30, 2024 and July 2, 2023, respectively:

	2024	2023
	(In thousands)	
Beginning balance at January 1	\$ 31,062	\$ 33,243
New deferrals	6,280	4,359

Balance at the end of Q1	\$ 29,950	\$ 29,295
New deferrals	11,058	6,900
Revenue recognized	(11,395)	(6,528)
Balance at the end of Q2	\$ 29,613	\$ 29,667

Service-type warranties represent \$9.7 million of the deferred revenue balance at June 30, 2024, and of this amount \$ 4.5 million is expected to be recognized in the next twelve months, and the remaining \$5.2 million is long-term and will be recognized over a period greater than twelve months. As of June 30, 2024 and December 31, 2023, we did not have any material contract assets recorded in the Condensed Consolidated Balance Sheets.

We expense sales commissions as incurred when the duration of the related revenue arrangement is one year or less. We capitalize sales commissions when the original duration of the related revenue arrangement is longer than one year, and we amortize it over the related revenue arrangement period. We did not have any capitalized sales commissions as of June 30, 2024 and December 31, 2023. The following table presents sales commissions that are recorded within selling, general and administrative expenses:

	Three Months Ended		Six Months ended

Note 3: Acquisitions

On June 30, 2024, we acquired Precision Optical Technologies, Inc. ("Precision") for \$ 289.6 million, net of cash acquired. Precision, based in New York, is a leading supplier of value-added optical transceivers with proprietary software, firmware configurations, and related components. Precision is reported within the Enterprise Solutions segment. The Precision acquisition was not material to our results of operations. Consideration for the acquisition was funded with cash on hand in July and is included in current liabilities in the June 30, 2024 condensed consolidated balance sheet. The following table summarizes the estimated, preliminary fair values of the assets acquired and liabilities assumed for Precision as of the acquisition date (in thousands):

Receivables	\$ 18,386
Inventory	11,680
Other current assets	2,391
Property, plant and equipment	5,109
Intangible assets	176,500
Goodwill	131,402
Operating lease right-of-use assets	3,272
Total assets acquired	\$ 348,740
Accounts payable	\$ 11,350
Accrued liabilities	3,485
Deferred income taxes	41,379
Long-term operating lease liabilities	2,936
Total liabilities assumed	\$ 59,150
Net assets	\$ 289,590

The above purchase price allocation is preliminary and subject to revision as additional information about the fair value of individual assets and liabilities becomes available. The preliminary measurement of receivables, inventory, intangible assets, goodwill, deferred income taxes, and other assets and liabilities are subject to change. A change in the estimated fair value of the net assets acquired will change the amount of the purchase price allocated to goodwill.

The preliminary fair value of acquired receivables is \$18.4 million, which is equivalent to its gross contractual amount. A single estimate of fair value results from a complex series of judgments about future events and uncertainties and relies heavily on estimates and assumptions. The judgments we have used in estimating the preliminary fair values assigned to each class of acquired assets and assumed liabilities could materially affect the results of our operations.

For purposes of the above allocation, we based our preliminary estimate of the fair values for intangible assets on valuation studies performed by a third party valuation firm. We used various valuation methods including discounted cash flows, lost income, excess earnings, and relief from royalty to estimate the preliminary fair value of the identifiable intangible assets (Level 3 valuation). Goodwill and other intangible assets reflected above were determined to meet the criteria for recognition apart from tangible assets acquired and liabilities assumed. The goodwill is primarily attributable to the expansion of Belden's solution selling capabilities, particularly the ability to offer more complete fiber infrastructure solutions. Our tax basis in the acquired goodwill is zero.

The intangible assets related to the acquisition consisted of the following:

	Fair Value (In thousands)	Amortization Period (In years)
Intangible assets subject to amortization:		
Developed technologies	\$ 21,000	5.0
Customer relationships	145,000	20.0
Trademarks	6,000	5.0
Non-compete agreements	4,500	5.0
Total intangible assets subject to amortization	\$ 176,500	
Intangible assets not subject to amortization:		
Goodwill	\$ 131,402	n/a
Total intangible assets not subject to amortization	\$ 131,402	
Total intangible assets	\$ 307,902	
Weighted average amortization period		17.3

The amortizable intangible assets reflected in the table above were determined by us to have finite lives. The useful life for the developed technology intangible asset was based on the estimated time that the technology provides us with a competitive advantage and thus approximates the period and pattern of consumption of the intangible asset. The useful life for the customer relationship intangible asset was based on our forecasts of estimated sales from recurring customers. The useful life for the trademarks was based on the period of time we expect to continue to go to market using the trademarks.

Note 4: Reportable Segments

We are organized around two global businesses: Enterprise Solutions and Industrial Automation Solutions. Each of the global businesses represents a reportable segment. The key measures of segment profit or loss are Segment Revenues and Segment EBITDA. Segment Revenues represent non-affiliate revenues. Segment EBITDA excludes certain items, including depreciation expense; amortization of intangibles; asset impairment; severance, restructuring, and acquisition integration costs; adjustments related to acquisitions and divestitures; and other costs. We allocate corporate expenses to the segments for purposes of measuring Segment EBITDA. Corporate expenses are allocated on the basis of each segment's relative EBITDA prior to the allocation.

Our measure of segment assets does not include cash, goodwill, intangible assets, deferred tax assets, or corporate assets. All goodwill is allocated to reporting units of our segments for purposes of impairment testing. Inter-company revenues between our segments is not material.

Note 5: Income per Share

The following table presents the basis for the income per share computations:

	Three Months Ended		Six Months Ended

Weighted average shares outstanding, diluted	<u>41,204</u>	<u>43,088</u>	<u>41,348</u>	<u>43,380</u>

For both the three and six months ended June 30, 2024 and July 2, 2023, diluted weighted average shares outstanding do not include outstanding equity awards of 0.1 million and 0.2 million, respectively, because they are anti-dilutive. In addition, for the three and six months ended June 30, 2024, diluted weighted average shares outstanding do not include outstanding equity awards of 0.2 million and 0.3 million, respectively, because the related performance conditions have not been satisfied. For the three and six months ended July 2, 2023, diluted weighted average shares outstanding do not include outstanding equity awards of 0.2 million because the related performance conditions have not been satisfied.

For purposes of calculating basic earnings per share, unvested restricted stock units are not included in the calculation of basic weighted average shares outstanding until all necessary conditions have been satisfied and issuance of the shares underlying the restricted stock units is no longer contingent. Necessary conditions are not satisfied until the vesting date, at which time holders of our restricted stock units receive shares of our common stock. For purposes of calculating diluted earnings per share, unvested restricted stock units are included to the extent that they are dilutive. In determining whether unvested restricted stock units are dilutive, each issuance of restricted stock units is considered separately. Once a restricted stock unit has vested, it is included in the calculation of both basic and diluted weighted average shares outstanding.

Note 6: Credit Losses

We are exposed to credit losses primarily through sales of products and services. Our expected loss allowance methodology for accounts receivable is developed using historical collection experience, current and future economic and market conditions and a review of the current status of customers' trade accounts receivables. Due to the short-term nature of such receivables, the estimated amount of accounts receivable that may not be collected is based on aging of the accounts receivable balances and the financial condition of customers. Additionally, specific allowance amounts are established to record the appropriate provision for customers that have a higher probability of default. Our monitoring activities include timely account reconciliation, dispute resolution, payment confirmation, consideration of customers' financial condition and macroeconomic conditions. Balances are written off when determined to be uncollectible. Provisions and recoveries are included in selling, general and administrative expenses.

The following table presents the activity in the trade receivables allowance for doubtful accounts for the three and six months ended June 30, 2024 and July 2, 2023, respectively:

	2024	2023

Net inventories	\$ 374,991	\$ 366,987

Note 8: Leases

We have operating and finance leases for properties, including manufacturing facilities, warehouses, and office space; as well as vehicles and equipment. We make certain judgments in determining whether a contract contains a lease in accordance with ASU 2016-02. Our leases have remaining lease terms within 1 to 20 years; some of which include extension and termination options. We do not assume renewals in our determination of the lease term unless the renewals are deemed to be reasonably certain as of the commencement date of the lease. We have a few short-term operating leases with terms less than twelve months - these leases are not recorded on our balance sheet and the overall rent expense is not material.

We also have certain lease contracts that contain both lease and non-lease components. We have elected the practical expedient to account for these components together as a single, combined lease component. The rate implicit in most of our leases is not readily determinable. As a result, we utilize the incremental borrowing rate to determine the present value of the lease payments, which is unique to each leased asset, and is based upon the term of the lease, commencement date of the lease, local currency of the leased asset, and the credit rating of the legal entity leasing the asset.

Our lease agreements do not contain material residual value guarantees. Our variable lease expense was approximately \$ 0.9 million and \$1.8 million for the three and six months ended June 30, 2024, respectively, and \$0.8 million and \$1.6 million for the three and six months ended July 2, 2023, respectively.

The components of lease expense were as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2024	July 2, 2023	June 30, 2024	July 2, 2023
(In thousands)

Interest on lease liabilities	109	77	218	157
Total finance lease cost	\$ 299	\$ 267	\$ 602	\$ 548

Supplemental cash flow information related to leases was as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2024	July 2, 2023	June 30, 2024	July 2, 2023
(In thousands)				
Cash paid for amounts included in the measurement of lease liabilities:				
Operating cash flows from operating leases	\$ 4,776	\$ 4,625	\$ 11,503	\$ 9,290

Operating cash flows from finance leases were not material during the three and six months ended June 30, 2024 and July 2, 2023.

Supplemental balance sheet information related to leases was as follows:

	June 30, 2024	December 31, 2023
(In thousands)		
Operating leases:		
Total operating lease right-of-use assets	\$ 127,824	\$ 89,686
Accrued liabilities	\$ 19,192	\$ 18,226
Long-term operating lease liabilities	110,148	74,941
Total operating lease liabilities	\$ 129,340	\$ 93,167
Finance leases:

Accrued liabilities	\$ 1,037	\$ 719
Other long-term liabilities	6,944	6,084
Total finance lease liabilities	\$ 7,981	\$ 6,803

The increases in operating lease right-of-use assets and lease liabilities are primarily due to the recognition of a new lease that had balances of \$34.0 million and \$33.4 million, respectively, as of June 30, 2024.

	June 30, 2024	December 31, 2023
Weighted Average Remaining Lease Term		
Operating leases	10 years	6 years
Finance leases	8 years	9 years
Weighted Average Discount Rate		
Operating leases	5.8 %	5.0 %
Finance leases	4.6 %	4.3 %

In addition, we guaranteed the lease payments for certain property leases of a former subsidiary with expiration dates extending up to 2035. These lease guarantees were retained by Belden and not transferred to the buyer of the former subsidiary. As of June 30, 2024, the fixed, remaining base rent payments were approximately \$21 million. As of June 30, 2024 and December 31, 2023, we had a liability for expected, future payments of \$ 10.0 million and \$11.3 million, respectively. The liability is based on certain assumptions, such as receiving a level of sublease income, that we continually reassess on an ongoing basis. We will update the estimated liability balance for changes in assumptions as needed.

Note 9: Long-Lived Assets

Depreciation and Amortization Expense

We recognized depreciation expense of \$13.6 million and \$27.0 million in the three and six months ended June 30, 2024, respectively, and \$ 12.7 million and \$25.0 million in the three and six months ended July 2, 2023, respectively.

We recognized amortization expense of \$12.4 million and \$25.9 million in the three and six months ended June 30, 2024, respectively, and \$ 12.9 million and \$24.0 million in the three and six months ended July 2, 2023, respectively.

Note 10: Long-Term Debt and Other Borrowing Arrangements

The carrying values of our long-term debt were as follows:

Long-term debt	<u>\$ 1,164,840</u>	<u>\$ 1,204,211</u>

Revolving Credit Agreement due 2026

We have a \$300.0 million multi-currency asset-based revolving credit facility (the Revolver). The maturity date of the Revolver is June 2, 2026. The borrowing base under the Revolver includes eligible accounts receivable; inventory; and property, plant and equipment of certain of our subsidiaries in the United States, Canada, Germany, the United Kingdom and the Netherlands. Interest on outstanding borrowings is variable, based upon SOFR or other similar indices in foreign jurisdictions, plus a spread that ranges from 1.25%-1.75%, depending upon our leverage position. Outstanding borrowings in the U.S. and Canada may also, at our election, be priced on a base rate plus a spread that ranges from 0.25% — 0.75%, depending on our leverage position. We pay a commitment fee on the total commitments of 0.25%. In the event that we borrow more than 90% of our combined borrowing base or our borrowing base availability is less than \$20.0 million, we are subject to a fixed charge coverage ratio covenant. As of June 30, 2024, we had no borrowings outstanding on the Revolver, and our available borrowing capacity was \$293.3 million.

Senior Subordinated Notes

We have outstanding €450.0 million aggregate principal amount of 3.375% senior subordinated notes due 2027 (the 2027 Notes). The carrying value of the 2027 Notes as of June 30, 2024 is \$480.5 million. The 2027 Notes are guaranteed on a senior subordinated basis by our current and future domestic subsidiaries. The 2027 Notes rank equal in right of payment with our senior subordinated notes due 2031 and 2028 and with any future subordinated debt, and they are subordinated to all of our senior debt and the senior debt of our subsidiary guarantors, including our Revolver. Interest is payable semiannually on January 15 and July 15 of each year.

We have outstanding €350.0 million aggregate principal amount of 3.875% senior subordinated notes due 2028 (the 2028 Notes). The carrying value of the 2028 Notes as of June 30, 2024 is \$373.7 million. The 2028 Notes are guaranteed on a senior subordinated basis by our current and future domestic subsidiaries. The 2028 Notes rank equal in right of payment with our senior subordinated notes due 2031 and 2027 and with any future subordinated debt, and they are subordinated to all of our senior debt and the senior debt of our subsidiary guarantors, including our Revolver. Interest is payable semiannually on March 15 and September 15 of each year.

We have outstanding €300.0 million aggregate principal amount of 3.375% senior subordinated notes due 2031 (the 2031 Notes). The carrying value of the 2031 Notes as of June 30, 2024 is \$320.3 million. The 2031 Notes are guaranteed on a senior subordinated basis by our current and future domestic subsidiaries. The 2031 Notes rank equal in right of payment with our senior subordinated notes due 2028 and 2027 and with any future subordinated debt, and they are subordinated to all of our senior debt and the senior debt of our subsidiary guarantors, including our Revolver. Interest is payable semiannually on January 15 and July 15 of each year.

Fair Value of Long-Term Debt

The fair value of our senior subordinated notes as of June 30, 2024 was approximately \$ 1,120.4 million based on quoted prices of the debt instruments in inactive markets (Level 2 valuation). This amount represents the fair value of our senior subordinated notes with a carrying value of \$1,174.5 million as of June 30, 2024.

Note 11: Net Investment Hedge

All of our euro denominated notes were issued by Belden Inc., a USD functional currency entity. As of June 30, 2024, €567.8 million of our outstanding foreign denominated debt is designated as a net investment hedge on the foreign currency risk of our net investment in our euro foreign operations. The objective of the hedge is to protect the net investment in the foreign operation against adverse changes in the euro exchange rate. The transaction gain or loss is reported in the translation adjustment section of other comprehensive income. For the six months ended June 30, 2024 and July 2, 2023, the transaction gain (loss) associated with the net investment hedge reported in other comprehensive income was \$21.0 million and \$(13.0) million, respectively.

Note 12: Income Taxes

For the three and six months ended June 30, 2024, we recognized income tax expense of \$ 11.1 million and \$19.5 million, respectively, representing effective tax rates of 18.4% and 18.4%, respectively. For the three and six months ended July 2, 2023, we recognized income tax expense of \$ 15.7 million and \$30.5 million, respectively, representing effective tax rates of 18.5% and 18.8%, respectively. The effective tax rates were primarily impacted by the effect of our foreign operations, including statutory tax rates differences and foreign tax credits.

The Organization for Economic Cooperation and Development is actively implementing changes to existing tax laws, including a global minimum tax of 15% which went into effect in 2024. This legislation has not materially impacted our provision for income taxes, but we will continually monitor and evaluate the potential impact on the countries in which we do business in future periods.

Note 13: Pension and Other Postretirement Obligations

The following table provides the components of net periodic benefit costs for our pension and other postretirement benefit plans:

(1) The amortization of these accumulated other comprehensive loss components are included in the computation of net periodic benefit costs (see Note 13).

Note 15: Share Repurchase

In 2018, our Board of Directors authorized a share repurchase program, which allows us to purchase up to \$ 300.0 million of our common stock through open market repurchases, negotiated transactions, or other means, in accordance with applicable securities laws and other restrictions. In April 2023, our Board of Directors authorized an additional \$300.0 million under the share repurchase program. This program is funded with cash on hand and cash flows from operating activities.

During the three months ended June 30, 2024, we did not repurchase shares of our common stock. During the six months ended June 30, 2024, we repurchased 0.7 million shares of our common stock for an aggregate cost of \$ 57.9 million at an average price per share of \$ 85.66. During the three months ended July 2, 2023, we repurchased 0.4 million shares of our common stock for an aggregate cost of \$ 36.2 million at an average price per share of \$92.01. During the six months ended July 2, 2023, we repurchased 1.0 million shares of our common stock for an aggregate cost of \$ 86.2 million at an average price per share of \$87.30.

From inception of our program to the date of this filing, we have repurchased 7.4 million shares of our common stock for an aggregate cost of \$485.0 million and an average price per share of \$ 65.68. As of June 30, 2024, we had \$ 115.0 million of authorizations remaining under the program. This share repurchase authorization does not have an expiration date.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Belden Inc. (the Company, us, we, or our) is a leading global supplier of network infrastructure and digitization solutions built around 2 global businesses - Enterprise Solutions and Industrial Automation Solutions. Our mission is to build the foundation for a digital world that makes the digital journey simpler, smarter and secure.

Belden is moving beyond connectivity, from what we make to what we make possible through a performance-driven portfolio, forward-thinking expertise and purpose-built solutions. We are aligned with attractive secular growth markets, positioned to provide comprehensive solutions that drive customer outcomes, focused on new product innovation and technology leadership, and committed to sustainable ESG practices. Our current business goals are to:

- Drive organic revenue growth in excess of GDP;
- Deliver incremental Adjusted EBITDA margins of approximately 30%;
- Generate free cash flow of approximately \$1 billion cumulatively from 2022 through 2025;
- Execute a disciplined capital allocation strategy while maintaining net leverage of approximately 1.5x; and
- Drive Adjusted EPS to at least \$8.00 by 2025.

Trends and Events

The following trends and events during 2024 have had varying effects on our financial condition, results of operations, and cash flows.

Foreign Currency

Our exposure to currency rate fluctuations primarily relates to exchange rate movements between the U.S. dollar and the euro, Canadian dollar, Hong Kong dollar, Chinese yuan, Mexican peso, Australian dollar, British pound, Indian rupee and Swiss franc. Generally, as the U.S. dollar strengthens against these foreign currencies, our revenues and earnings are negatively impacted as our foreign denominated revenues and earnings are translated into U.S. dollars at a lower rate. Conversely, as the U.S. dollar weakens against foreign currencies, our revenues and earnings are positively impacted. Approximately 44% of our consolidated revenues during the quarter ended June 30, 2024 were to customers outside of the U.S.

In addition to the translation impact described above, currency rate fluctuations have an economic impact on our financial results. As the U.S. dollar strengthens or weakens against foreign currencies, it results in a relative price increase or decrease for certain of our products that are priced in U.S. dollars in a foreign location.

Inflation

During periods of inflation, if we are unable to raise prices timely and sufficiently to recover our material costs, our earnings could decline. Furthermore, inflation may impact labor, energy, and other costs. We monitor inflation pressures and proactively implement selling price increases or cost control measures as appropriate.

Commodity Prices

Our operating results can be affected by changes in prices of commodities, primarily copper and compounds, which are components in some of the products we sell. Generally, as the costs of inventory purchases increase due to higher commodity prices, we raise selling prices to customers to cover the increase in costs, resulting in higher sales revenue but a lower gross profit percentage. Conversely, a decrease in commodity prices would result in lower sales revenue but a higher gross profit percentage. Selling prices of our products are affected by many factors, including end market demand, capacity utilization, overall economic conditions, and commodity prices. There is no exact measure of the effect of changing commodity prices, as there are thousands of transactions in any given quarter, each of which has various factors involved in the individual pricing decisions. Therefore, all references to the effect of copper prices or other commodity prices are estimates.

Channel Inventory

Our operating results also can be affected by the levels of Belden products purchased and held as inventory by our channel partners and customers. Our channel partners and customers purchase and hold the products they bought from us in their inventory in order to meet the service and on-time delivery requirements of their customers. Generally, as our channel partners and customers change the level of products they buy from us and hold in their inventory, it impacts our revenues. Comparisons of our results between periods can be impacted by changes in the levels of channel inventory. We use information provided to us by our channel partners and make certain assumptions based on our sales to them to determine the amount of products they bought from us and hold in their inventory. As such, all references to the effect of channel inventory changes are estimates.

Market Growth and Market Share

The markets in which we operate can generally be characterized as highly competitive and highly fragmented, with many players. We monitor available data regarding market growth, including independent market research reports, publicly available indices, and the financial results of our direct and indirect peer companies, in order to estimate the extent to which our served markets grew or contracted during a particular period. We generally expect that our unit sales volume will increase or decrease consistently with the market growth rate. Our strategic goal is to transition to a solutions provider and target faster growing geographies, applications, and trends within our end markets, in order to achieve growth that is higher than the general market growth rate. To the extent that we exceed the market growth rates, we consider it to be the result of capturing market share.

Precision Optical Technologies Acquisition

On June 30, 2024, we acquired Precision for \$289.6 million, net of cash acquired. Precision, based in New York, is a leading supplier of value-added optical transceivers with proprietary software, firmware configurations, and related components. Precision is reported within the Enterprise Solutions segment. See Note 3.

Share Repurchase Program

During the six months ended June 30, 2024, we repurchased 0.7 million shares of our common stock for an aggregate cost of \$57.9 million at an average price per share of \$85.66. See Note 15.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, results of operations, or cash flows that are or would be considered material to investors.

Critical Accounting Policies

During the six months ended June 30, 2024:

- We did not change any of our existing critical accounting policies from those listed in our 2023 Annual Report on Form 10-K;
- No existing accounting policies became critical accounting policies because of an increase in the materiality of associated transactions or changes in the circumstances to which associated judgments and estimates relate; and
- There were no significant changes in the manner in which critical accounting policies were applied or in which related judgments and estimates were developed.

Income before taxes	60,125	84,431	(28.8)%	105,794	162,255	(34.8)%

Revenues decreased \$87.9 million and \$194.0 million in the three and six months ended June 30, 2024, respectively, from the comparable periods of 2023 due to the following factors:

- Lower sales volume resulted in a \$92.9 million and \$203.7 million decline in revenues, respectively.
- Currency translation had a \$3.6 million and \$4.4 million unfavorable impact on revenues, respectively.
- Divestitures had a \$0.1 million and \$0.4 million unfavorable impact on revenues, respectively.
- Acquisitions contributed \$0.0 million and \$7.6 million in revenues, respectively.
- Copper pass-through pricing had an \$8.7 million and \$6.9 million favorable impact on revenues, respectively.

Gross profit decreased \$34.5 million and \$79.0 million in the three and six months ended June 30, 2024, respectively, from the comparable periods of 2023 primarily due to the decline in revenues discussed above. Despite the decline in gross profit, margins remained relatively flat over the year ago periods due to favorable pricing and mix.

Selling, general and administrative expenses decreased \$7.1 million and \$17.9 million in the three and six months ended June 30, 2024, respectively, from the comparable periods of 2023. The decrease in selling, general and administrative expenses was primarily attributable to the benefits realized from our productivity initiatives and a decline in incentive compensation.

Research and development expenses decreased \$2.5 million and \$4.9 million in the three and six months ended June 30, 2024, respectively, from the comparable periods of 2023 primarily due to a shift, or change in R&D project timing.

Amortization of intangibles decreased \$1.2 million in the three months ended June 30, 2024 from the comparable period of 2023 primarily due to certain intangible assets becoming fully amortized and foreign currency exchange rates. Amortization of intangibles remained relatively flat in the six months ended June 30, 2024 from the comparable period of 2023.

Operating income decreased \$23.7 million and \$56.2 million in the three and six ended June 30, 2024, respectively, from the comparable periods of 2023 primarily due to the decline in gross profit, partially offset by the decline in selling, general and administrative expenses as discussed above.

Net interest expense increased \$0.2 million and decreased \$0.4 million in the three and six months ended June 30, 2024, respectively, from the comparable periods of 2023 due to fluctuations in interest income and foreign currency translation.

Income before taxes decreased \$24.3 million and \$56.5 million in the three and six months ended June 30, 2024, respectively, from the comparable periods of 2023 primarily due to the changes in operating income discussed above.

Effective tax rate	18.4 %	18.5 %		18.4 %	18.8 %	

For the three and six months ended June 30, 2024, we recognized income tax expense of \$11.1 million and \$19.5 million representing effective tax rates of 18.4%. The effective tax rates were primarily impacted by the effect of our foreign operations, including statutory tax rates differences and foreign tax credits. See Note 12.

Consolidated Adjusted EBITDA

as a percent of revenues	16.5 %	17.8 %		16.2 %	17.6 %	

Adjusted EBITDA decreased \$23.8 million and \$50.5 million in the three and six months ended June 30, 2024 from the comparable periods of 2023 primarily due to the decline in revenues as discussed above, partially offset by favorable mix and benefits realized from our productivity improvement initiatives.

Use of Non-GAAP Financial Information

Adjusted EBITDA, Adjusted EBITDA margin, and free cash flow are non-GAAP financial measures. In addition to reporting financial results in accordance with accounting principles generally accepted in the United States, we provide non-GAAP operating results adjusted for certain items, including: asset impairments; accelerated depreciation expense due to plant consolidation activities; acquisition-related expenses, such as the adjustment of acquired inventory to fair value, and transaction costs; severance, restructuring, and acquisition integration costs; gains (losses) recognized on the disposal of businesses and assets; amortization of intangible assets; gains (losses) on debt extinguishment; certain gains (losses) from patent settlements; discontinued operations; and other costs. We adjust for the items listed above in all periods presented, unless the impact is clearly immaterial to our financial statements. When we calculate the tax effect of the adjustments, we include all current and deferred income tax expense commensurate with the adjusted measure of pre-tax profitability.

We utilize the adjusted results to review our ongoing operations without the effect of these adjustments and for comparison to budgeted operating results. We believe the adjusted results are useful to investors because they help them compare our results to previous periods and provide important insights into underlying trends in the business and how management oversees our business operations on a day-to-day basis. As an example, we adjust for acquisition-related expenses, such as amortization of intangibles and impacts of fair value adjustments because they generally are not related to the acquired business' core operating performance. As an additional example, we exclude the costs of restructuring programs, which can occur from time to time for our current businesses and/or recently acquired businesses. We exclude the costs in calculating adjusted results to allow us and investors to evaluate the performance of the business based upon its expected ongoing operating structure. We believe the adjusted measures, accompanied by the disclosure of the costs of these programs, provides valuable insight.

Adjusted results should be considered only in conjunction with results reported according to accounting principles generally accepted in the United States. The following tables reconcile our GAAP results to our non-GAAP financial measures:

	Three Months Ended		Six Months Ended

Enterprise Solutions revenues decreased \$42.1 million and \$83.3 million in the three and six months ended June 30, 2024 from the comparable periods of 2023. The decrease in revenues in the three months ended June 30, 2024 was primarily due to decreases in volume and unfavorable currency translation of \$43.8 million and \$0.8 million, respectively, partially offset by higher copper pass-through pricing of \$2.5 million. The decrease in revenues in the six months ended June 30, 2024 was primarily due to decreases in volume and unfavorable currency translation of \$92.1 million and \$1.0 million, respectively, partially offset by acquisitions and higher copper pass-through pricing of \$7.5 million and \$2.3 million, respectively.

Enterprise Solutions EBITDA decreased \$12.5 million and \$23.9 million in the three and six months ended June 30, 2024 from the comparable periods of 2023 primarily as a result of the decrease in revenues discussed above, partially offset by benefits realized from our productivity improvement initiatives.

as a percent of segment revenues	20.3 %	20.7 %		19.9 %	20.4 %	

Industrial Automation Solutions revenues decreased \$45.9 million and \$110.7 million in the three and six months ended June 30, 2024 from the comparable periods of 2023. The decrease in revenues in the three months ended June 30, 2024 was primarily due to decreases in volume, unfavorable currency translation, and divestitures of \$49.2 million, \$2.8 million, and \$0.1 million, respectively, partially offset by higher copper pass-through pricing of \$6.2 million. The decrease in revenues in the six months ended June 30, 2024 was primarily due to decreases in volume, unfavorable currency translation, and divestitures of \$111.6 million, \$3.4 million, and \$0.4 million, respectively, partially offset by higher copper pass-through pricing and acquisitions of \$4.6 million and \$0.1 million, respectively.

Industrial Automation Solutions EBITDA decreased \$10.9 million and \$25.9 million in the three and six months ended June 30, 2024 from the comparable periods of 2023 primarily as a result of the decrease in revenues discussed above, partially offset by favorable mix as we transition to solutions.

Liquidity and Capital Resources

Significant factors affecting our cash liquidity include (1) cash from operating activities, (2) disposals of businesses and tangible assets, (3) cash used for acquisitions, restructuring actions, capital expenditures, share repurchases, dividends, and senior subordinated note repurchases, and (4) our available credit facilities and other borrowing arrangements. We expect our operating activities to generate cash in 2024 and believe our sources of liquidity are sufficient to fund current working capital requirements, capital expenditures, contributions to our retirement plans, share repurchases, senior subordinated note repurchases, quarterly dividend payments, and our short-term operating strategies. However, we may require external financing in the event we complete a significant acquisition. Our ability to continue to fund our future needs from business operations could be affected by many factors, including, but not limited to: economic conditions worldwide, customer demand, competitive market forces, customer acceptance of our product mix, and commodities pricing.

The following table is derived from our Condensed Consolidated Cash Flow Statements:

	Six Months Ended	
	June 30, 2024	July 2, 2023
	(In thousands)	
Net cash provided by (used for):		
Operating activities	\$ 85,680	\$ 54,715
Investing activities	(45,660)	(121,005)
Financing activities	(67,397)	(105,885)
Effects of currency exchange rate changes on cash and cash equivalents	(4,916)	(734)

Cash and cash equivalents, beginning of period	597,044	687,676
Cash and cash equivalents, end of period	\$ 564,751	\$ 514,767

Net cash provided by operating activities totaled \$85.7 million in the six months ended June 30, 2024 compared to \$54.7 million in the year ago period. Despite the decrease in net income, operating assets and liabilities improved \$69.9 million compared to the prior year primarily driven by favorable changes in receivables and our successful management of working capital.

Net cash used for investing activities totaled \$45.7 million for the six months ended June 30, 2024 compared to \$121.0 million in the year ago period. Investing activities for the six months ended June 30, 2024 included capital expenditures of \$46.2 million, partially offset by asset sales of \$0.5 million. Investing activities for the six months ended July 2, 2023 included \$97.6 million primarily for the acquisition of Sichert and capital expenditures of \$32.7 million, partially offset by \$9.3 million received from escrow for the disposal of a business.

Net cash used for financing activities totaled \$67.4 million for the six months ended June 30, 2024 compared to \$105.9 million in the year ago period. Financing activities for the six months ended June 30, 2024 included payments under our share repurchase program of \$57.9 million, payments related to share based compensation activities of \$8.1 million, cash dividend payments of \$4.1 million, financing lease payments of \$0.4 million, and proceeds from the issuance of common stock of \$3.1 million. Financing activities for the six months ended July 2, 2023 included payments under our share repurchase program of \$86.2 million, net payments related to share based compensation activities of \$16.9 million, cash dividend payments of \$4.3 million, financing lease payments of \$0.1 million, and proceeds from the issuance of common stock of \$1.6 million.

Our cash and cash equivalents balance was \$564.8 million as of June 30, 2024. Of the total cash balance, \$291.5 million was paid to the sellers of Precision in July and \$173.0 million was held outside of the U.S. in our foreign operations. Substantially all of the foreign cash and cash equivalents are readily convertible into U.S. dollars or other foreign currencies. Our strategic plan does not require the repatriation of foreign cash in order to fund our operations in the U.S., and it is our current intention to permanently reinvest the foreign cash outside of the U.S. If we were to repatriate the foreign cash to the U.S., we may be required to accrue and pay U.S. taxes in accordance with applicable U.S. tax rules and regulations as a result of the repatriation.

Our outstanding debt obligations as of June 30, 2024 consisted of \$1,174.5 million of senior subordinated notes. Additional discussion regarding our various borrowing arrangements is included in Note 10 to the Condensed Consolidated Financial Statements.

Forward-Looking Statements

Statements in this report other than historical facts are "forward-looking statements." Forward-looking statements include statements regarding future financial performance (including revenues, expenses, earnings, margins, cash flows, dividends, capital expenditures and financial condition), plans and objectives, and related assumptions. These forward-looking statements reflect management's current beliefs and expectations and are not guarantees of future performance. Actual results may differ materially from those suggested by any forward-looking statements based on a number of factors. These factors include, among others, those set forth in Part II, Item 1A and in other documents that we file with the SEC. We expressly disclaim any obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by law.

Item 3: Quantitative and Qualitative Disclosures about Market Risks

The following table provides information about our financial instruments that are sensitive to changes in interest rates. The table presents principal amounts by expected maturity dates and fair values as of June 30, 2024.

	Principal Amount by Expected Maturity			Fair Value
	2024	Thereafter	Total	
(In thousands, except interest rates)				
€450.0 million fixed-rate senior subordinated notes due 2027	\$ —	\$ 480,465	\$ 480,465	\$ 464,850

Total			\$ 1,174,470	\$ 1,120,351

Item 7A of our 2023 Annual Report on Form 10-K provides information as to the practices and instruments that we use to manage market risks. There were no material changes in our exposure to market risks since December 31, 2023.

Item 4: Controls and Procedures

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, the principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. There was no change in our internal control over financial reporting during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1: Legal Proceedings

We are a party to various legal proceedings and administrative actions that are incidental to our operations. In our opinion, the proceedings and actions in which we are involved should not, individually or in the aggregate, have a material adverse effect on our financial condition, operating results, or cash flows. However, since the trends and outcome of this litigation are inherently uncertain, we cannot give absolute assurance regarding the future resolution of such litigation, or that such litigation may not become material in the future.

Item 1A: Risk Factors

There have been no material changes with respect to risk factors as previously disclosed in our Form 10-K filed on February 13, 2024. There may be additional risks that impact our business that we currently do not recognize as, or that are not currently, material to our business.

Item 5: Other Information

Rule 10b5-1 Trading Plans

The adoption, modification, or termination of contracts for the purchase or sale of our securities by our Section 16 officers and directors for the three months ended June 30, 2024, each of which is intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) under the Exchange Act ("Rule 10b5-1 Plan"), were as follows:

Name	Title	Action	Date Adopted	Expiration Date	Total SARs	Total Shares
Brian Anderson (1)	Senior Vice President-Legal, General Counsel and Corporate Secretary	Adoption	5/10/2024	1/31/2025	22,752	14,692

(1) Brian Anderson, Senior Vice President-Legal, General Counsel and Corporate Secretary, entered into a pre-arranged stock trading plan pursuant to Rule 10b5-1 on May 10, 2024. Mr. Anderson's plan provides for the exercise of up to 22,752 stock appreciation rights and the sale of up to 14,692 shares of Belden common stock. The plan expires on January 31, 2025, or upon the earlier completion of all authorized transactions under the plan.

Other than those disclosed above, none of our directors or officers adopted, modified, or terminated a "non-Rule 10b5-1 trading arrangement" as defined in Item 408 of Regulation S-K during the three months ended June 30, 2024.
