**Note 1 — The Company**

*Description of the Business*

PAVmed Inc. and Subsidiaries, referred to herein as "PAVmed" or the "Company," is comprised of PAVmed Inc. and its wholly-owned subsidiary and its majority-owned subsidiaries, inclusive of Lucid Diagnostics Inc. ("Lucid Diagnostics" or "Lucid") and Veris Health Inc. ("Veris Health" or "Veris").

PAVmed is a diversified commercial-stage medical technology company operating in the medical device, diagnostics, and digital health sectors, including through Lucid Diagnostics, a commercial-stage cancer prevention diagnostics company, and Veris Health, a private digital health company focused on enhanced personalized cancer care through remote patient monitoring using implantable biologic sensors with wireless communication along with a custom suite of connected external devices. The Company's current central focus is on the commercialization of Lucid's EsoGuard assay and Veris Health's Veris Cancer Care Platform. As resources permit, we will continue to explore internal and external innovations that fulfill our project selection criteria without limiting ourselves to any target specialty or condition.

**Liquidity**

The Company has financed its operations principally through public and private issuances of its common stock, preferred stock, common stock purchase warrants, and debt. The Company is subject to all of the risks and uncertainties typically faced by medical device and diagnostic companies that devote substantially all of their efforts to the commercialization of their initial product and services and ongoing research and development activities and conducting clinical trials. The Company expects to continue to experience recurring losses from operations and will continue to fund its operations with debt and equity financing transactions, including current obligations on the Company's existing convertible debt which in accordance with management's plans may include conversions to equity and refinancing our existing debt obligations to extend maturity dates. Notwithstanding, however, with the cash on-hand as of the date hereof and other debt and equity committed sources of financing, conversion and refinancing of existing convertible notes, the Company expects to be able to fund its operations for one year from the date of the issue of the Company's consolidated financial statements included herein in the Company's Quarterly Report on Form 10-Q for the period ended **June 30, 2023** **September 30, 2023**.

**Note 2 — Summary of Significant Accounting Policies**

**Significant Accounting Policies**

The Company's significant accounting policies are as disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2022 as filed with the SEC on March 14, 2023, except as otherwise noted herein below.

**Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements of PAVmed and its subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), and applicable rules and regulations of the United States Securities and Exchange Commission ("SEC"), and include the accounts of the Company and its wholly-owned and majority-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company holds a majority-ownership interest and has controlling financial interest in each of Lucid Diagnostics and Veris Health, with the corresponding noncontrolling interest included as a separate component of consolidated stockholders' equity (deficit), including the recognition in the unaudited condensed consolidated statement of operations of a net loss attributable to the noncontrolling interest based on the respective minority-interest equity ownership of each majority-owned subsidiary. See Note 15, *Noncontrolling Interest*, for a discussion of each of the majority-owned subsidiaries noted above. The Company manages its operations as a single operating segment for the purposes of assessing performance and making operating decisions.

As permitted under SEC rules, certain footnotes or other financial information normally required by U.S. GAAP have been condensed or omitted. The balance sheet as of December 31, 2022 has been derived from audited consolidated financial statements at such date. The accompanying unaudited condensed consolidated financial statements have been prepared on the same basis as the Company's annual consolidated financial statements, and in the opinion of management, include all adjustments, consisting only of routine recurring adjustments, necessary for a fair statement of the Company's unaudited condensed consolidated financial information.

**Note 2 — Summary of Significant Accounting Policies - continued**

The consolidated results of operations for the three and **six** **nine** months ended **June 30, 2023** **September 30, 2023** are not necessarily indicative of the consolidated results to be expected for the year ending December 31, 2023 or for any other interim period or for any other future periods. The accompanying unaudited condensed consolidated financial statements and related unaudited condensed consolidated financial information should be read in conjunction with the Company's audited consolidated financial statements and related notes thereto as of and for the year ended December 31, 2022 included in the Company's Annual Report on Form 10-K as filed with the SEC on March 14, 2023.

All amounts in the accompanying unaudited condensed consolidated financial statements and the notes thereto are presented in thousands of dollars, if not otherwise noted as being presented in millions of dollars, except for shares and per share amounts.

## Note 2 — Summary of Significant Accounting Policies - continued

### Use of Estimates

In preparing the unaudited condensed consolidated financial statements in conformity with U.S. GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and the determination of corresponding carrying value reserve, if any, and liabilities and the disclosure of contingent losses, as of the date of the consolidated financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Significant estimates in these unaudited condensed consolidated financial statements include those related to the estimated fair value of debt obligations, stock-based equity awards, intangible assets and common stock purchase warrants. Other significant estimates include the estimated incremental borrowing rate, the provision or benefit for income taxes and the corresponding valuation allowance on deferred tax assets. Additionally, management's assessment of the Company's ability to continue as a going concern involves the estimation of the amount and timing of future cash inflows and outflows. On an ongoing basis, the Company evaluates its estimates and assumptions. The Company bases its estimates on historical experience and on various other assumptions believed to be reasonable. Due to inherent uncertainty involved in making estimates, actual results reported in future periods may be affected by changes in these estimates.

### Revenue Recognition

Revenues are recognized when the satisfaction of the performance obligation occurs, in an amount that reflects the consideration the Company expects to collect in exchange for those services. The Company's revenue is primarily generated by its laboratory testing services utilizing its EsoGuard Esophageal DNA tests. The services are completed upon release of a patient's test result to the ordering healthcare provider. Revenue recognized is inclusive of both variable consideration in connection with an individual patient's third-party insurance coverage policy and fixed consideration in connection with a contracted services arrangement with an unrelated third party legal entity. To determine revenue recognition for the arrangements that the Company determines are within the scope of ASC 606, Revenue from Contracts with Customers, the Company performs the following five steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract and (5) recognize revenue when (or as) the entity satisfies a performance obligation.

The key aspects considered by the Company include the following:

*Contracts*—The Company's customer is primarily the patient, but the Company does not enter into a formal reimbursement contract with a patient. The Company establishes a contract with a patient in accordance with other customary business practices, which is the point in time an order is received from a provider and a patient specimen has been returned to the laboratory for testing. Payment terms are a function of a patient's existing insurance benefits, including the impact of coverage decisions with Center for Medicare & Medicaid Services ("CMS") and applicable reimbursement contracts established between the Company and payers. However, when a patient is considered self-pay, the Company requires payment from the patient prior to the commencement of the Company's performance obligations. The Company's consideration can be deemed variable or fixed depending on the structure of specific payer contracts, and the Company considers collection of such consideration to be probable to the extent that it is unconstrained.

*Performance obligations*—A performance obligation is a promise in a contract to transfer a distinct good or service (or a bundle of goods or services) to the customer. The Company's contracts have a single performance obligation, which is satisfied upon rendering of services, which culminates in the release of a patient's test result to the ordering healthcare provider. The Company elects the practical expedient related to the disclosure of unsatisfied performance obligations, as the duration of time between providing testing supplies, the receipt of a sample, and the release of a test result to the ordering healthcare provider is far less than one year.

**Note 2 — Summary of Significant Accounting Policies - continued**

*Transaction price*—The transaction price is the amount of consideration that the Company expects to collect in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties (for example, some sales taxes). The consideration expected to be collected from a contract with a customer may include fixed amounts, variable amounts, or both.

If the consideration derived from the contracts is deemed to be variable, the Company estimates the amount of consideration to which it will be entitled in exchange for the promised goods or services. The Company limits the amount of variable consideration included in the transaction price to the unconstrained portion of such consideration. In other words, the Company recognizes revenue up to the amount of variable consideration that is not subject to a significant reversal until additional information is obtained or the uncertainty associated with the additional payments or refunds is subsequently resolved.

When the Company does not have significant historical experience or that experience has limited predictive value, the constraint over estimates of variable consideration may result in no revenue being recognized upon delivery of patient EsoGuard test results to the ordering healthcare provider. As such, the Company recognizes revenue up to the amount of variable consideration not subject to a significant reversal until additional information is obtained or the uncertainty associated with additional payments or refunds, if any, is subsequently resolved. Differences between original estimates and subsequent revisions, including final settlements, represent changes in estimated expected variable consideration, with the change in estimate recognized in the period of such revised estimate. With respect to a contracted service arrangement, the fixed consideration revenue is recognized on an as-billed basis upon delivery of the laboratory test report with realization of such fixed consideration deemed probable based upon actual historical experience.

*Allocate transaction price*—The transaction price is allocated entirely to the performance obligation contained within the contract with a customer on the basis of the relative standalone selling prices of each distinct good or service.

*Practical Expedients*—The Company does not adjust the transaction price for the effects of a significant financing component, as at contract inception, the Company expects the collection cycle to be one year or less.

**Note 2 — Summary of Significant Accounting Policies - continued****Fair Value Option ("FVO") Election**

Under a Securities Purchase Agreement dated March 31, 2022, the Company issued a Senior Secured Convertible Note dated April 4, 2022, referred to herein as the "April 2022 Senior Convertible Note", and a Senior Secured Convertible Note dated September 8, 2022, referred to herein as the "September 2022 Senior Convertible Note", which are accounted under the "fair value option election" as discussed below.

Under a Securities Purchase Agreement dated March 13, 2023, Lucid Diagnostics issued a Senior Secured Convertible Note dated March 21, 2023, referred to herein as the "Lucid March 2023 Senior Convertible Note", which is accounted under the "fair value option election" as discussed below.

Under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 815, *Derivative and Hedging*, ("ASC 815"), a financial instrument containing embedded features and/or options may be required to be bifurcated from the financial instrument host and recognized as separate derivative asset or liability, with the bifurcated derivative asset or liability initially measured at estimated fair value as of the transaction issue date and then subsequently remeasured at estimated fair value as of each reporting period balance sheet date.

Alternatively, FASB ASC Topic 825, *Financial Instruments*, ("ASC 825") provides for the "fair value option" ("FVO") election. In this regard, ASC 825-10-15-4 provides for the FVO election (to the extent not otherwise prohibited by ASC 825-10-15-5) to be afforded to financial instruments, wherein the financial instrument is initially measured at estimated fair value as of the transaction issue date and then subsequently remeasured at estimated fair value as of each reporting period balance sheet date, with changes in the estimated fair value recognized as other income (expense) in the statement of operations. The estimated fair value adjustment of the April 2022 Senior Convertible Note, the September 2022 Senior Convertible Note and the Lucid March 2023 Senior Convertible Note are presented in a single line item within other income (expense) in the accompanying unaudited condensed consolidated statement of operations (as provided for by ASC 825-10-50-30(b)). Further, as required by ASC 825-10-45-5, to the extent a portion of the fair value adjustment is attributed to a change in the instrument-specific credit risk, such portion would be recognized as a component of other comprehensive income ("OCI") (for which there was no such adjustment with respect to the April 2022 Senior Convertible Note, the September 2022 Senior Convertible Note or the Lucid March 2023 Senior Convertible Note).

See Note 10, *Financial Instruments Fair Value Measurements*, with respect to the FVO election; and Note 11, *Debt*, for a discussion of the April 2022 Senior Convertible Note, the September 2022 Senior Convertible Note and the Lucid March 2023 Senior Convertible Note.

**Reclassifications**

Certain prior-year amounts have been reclassified to conform to the current year presentation, which includes presenting costs of revenue within operating expenses on the statements of operations, in the unaudited condensed consolidated financial statements and accompanying notes to the unaudited condensed consolidated financial statements. The impact of the reclassifications made to prior year amounts is not material and did not affect net loss.

## **Note 2 — Summary of Significant Accounting Policies - continued**

### **Recently Adopted Accounting Pronouncements**

In June 2016, the FASB issued Accounting Standards Update ("ASU") No. 2016-13, Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The updated guidance requires companies to measure all expected credit losses for financial instruments held at the reporting date based on historical experience, current conditions, and reasonable supportable forecasts. This replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets, including trade receivables. The guidance was adopted by the Company on January 1, 2023. The adoption of the ASU did not have an impact on the Company's unaudited condensed consolidated financial statements.

### **Note 3 — Revenue from Contracts with Customers**

#### *EsoGuard Commercialization Agreement*

The Company, through its majority-owned subsidiary, Lucid Diagnostics, entered into the EsoGuard Commercialization Agreement, dated August 1, 2021, with its former commercial laboratory service provider, ResearchDx Inc. ("RDx"), an unrelated third-party. The EsoGuard Commercialization Agreement was on a month-to-month basis, and was terminated on February 25, 2022 upon the execution of an asset purchase agreement ("APA") dated February 25, 2022, between LucidDx Labs Inc. (a wholly-owned subsidiary of Lucid Diagnostics) and RDx, with such agreement further discussed in Note 5, *Asset Purchase Agreement and Management Services Agreement*.

**Note 3 — Revenue from Contracts with Customers - continued****Revenue Recognized**

In the three and **six** nine months ended **June 30, 2023** September 30, 2023, the Company recognized total revenue of **\$166,791** and **\$612,1403**, respectively, primarily resulting from the delivery of patient EsoGuard test results. Revenue recognized from customer contracts deemed to include a variable consideration transaction price is limited to the unconstrained portion of the variable consideration. The Company's revenue for the three and **six** months ended **June 30, 2022** September 30, 2022 was **\$0** 76, primarily resulting from the delivery of patient EsoGuard test results. Prior to February 25, 2022, RDx provided such laboratory services at its owned CLIA-certified, CAP-accredited clinical laboratory. In connection with the execution and delivery of the APA-RDx, LucidDx Labs and RDx entered into a separate management services agreement ("MSA-RDx"), dated and effective February 25, 2022, pursuant to which RDx provided certain testing and related services for the Laboratory.

The total purchase price consideration payable under the APA-RDx is a face value of \$3,200 comprised of three contractually specified periodic payments. The APA-RDx is being accounted for as an asset acquisition, with the recognition of an intangible asset of approximately \$3,200, which is included in "Intangible assets, net" on the accompanying unaudited condensed consolidated balance sheet, as further discussed in Note 8, *Intangible Assets, net*.

### Termination of Management Services Agreement and Modification of Other Payment Obligations - ResearchDx Inc

The termination was effective as February 10, 2023. Until the termination of the management service agreement with RDx, RDx had continued to provide certain testing and related services for the Laboratory in accordance with the terms of the MSA-RDx.

The MSA Termination Agreement reduces the remaining amounts of the earnout payments and management fees due under the APA-RDx and the MSA-RDx to \$713. The payment was satisfied through the issuance of 553,436 shares of Lucid Diagnostics' common stock in February 2023. Lucid Diagnostics was not required to make any cash payments in connection with the termination.

As discussed in Note 11, *Debt*, the Company issued Senior Secured Convertible Notes dated April 4, 2022 and September 8, 2022, with an initial \$27.5 million face value principal ("April 2022 Senior Convertible Note") and an initial \$11.25 million face value principal ("September 2022 Senior Convertible Note"), respectively. Both convertible notes are accounted for under the ASC 825-10-15-4 fair value option ("FVO") election, wherein, the financial instrument is initially measured at its issue-date estimated fair value and subsequently remeasured at estimated fair value on a recurring basis at each reporting period date.

As discussed in Note 11, *Debt*, Lucid Diagnostics issued a Senior Secured Convertible Note dated March 21, 2023, with an initial \$11.1 million face value principal ("Lucid March 2023 Senior Convertible Note"). This convertible note is also accounted for under the ASC 825-10-15-4 fair value option ("FVO") election, wherein, the financial instrument is initially measured at its issue-date estimated fair value and subsequently remeasured at estimated fair value on a recurring basis at each reporting period date.

The estimated fair value of the financial instruments classified within the Level 3 category was determined using both observable inputs and unobservable inputs. Unrealized gains and losses associated with liabilities within the Level 3 category include changes in fair value attributable to both observable (e.g., changes in market interest rates) and unobservable (e.g., changes in unobservable long- dated volatilities) inputs.

The estimated fair value of the Lucid March 2023 Senior Convertible Note as of each of March 21, 2023 and **June 30, 2023** **September 30, 2023**, and the estimated fair value of the April 2022 Senior Convertible Note and the September 2022 Senior Convertible Note as of **June 30, 2023** **September 30, 2023**, were computed using a Monte Carlo simulation of the present value of its cash flows using a synthetic credit rating analysis and a required rate-of-return, using the following assumptions:

*Derivative Liability - Written Protective Put*

The Company, through its majority-owned subsidiary Veris Health, entered into a Research and Development Agreement, with an effective date of May 31, 2023, with an unrelated third-party technical services provider (the "May 31, 2023 R&D Agreement"). The principal service to be provided by the service provider under the May 31, 2023 R&D Agreement was the continued development of the electronics and firmware for the Veris Health implantable physiologic monitor.

As discussed in Note 14, *Common Stock and Common Stock Purchase Warrants*, 1.5 million shares of PAVmed common stock were issued to the service provider as the consideration for a \$750 portion of the services to be rendered under the May 31, 2023 R&D Agreement. The issued shares of common stock are (contingently) settlement-in-full of the consideration obligations of the Company under the May 31, 2023 R&D Agreement, subject-to a contractual "minimum fair market value" as such amount is discussed below.

The resolution of the contingent settlement-in-full with respect to the issued shares of common stock of the Company is predicated on and subject-to such issued shares having a \$750 minimum "fair market value" (as defined), with such derived fair market value computed using a contractual formula based on the PAVmed Inc. common stock volume weighted average price per share ("VWAP") during the last ten days of the six month anniversary of the May 31, 2023 R&D Agreement.

If the fair market value, as such amount is computed as described above, is equal-to or greater than \$750, then no further contractual consideration is required. However, if such fair market value is less than \$750, then, the Company will incur an additional contractual consideration obligation in amount equal to the difference between the required minimum fair market value of \$750 and the contractual formula based computed fair market value. At the election of the Company, the additional contractual consideration obligation, if any, may be paid in cash or settled with the issue of additional shares of PAVmed common stock.

The contingent additional contractual consideration obligation is deemed to be a separate unit-of-account, in the form of a written protective put, and recognized as a derivative liability measured at estimated fair value. The derivative liability had an initial May 31, 2023 estimated fair value of approximately \$262 which was recognized as a current an initial period charge classified in other income (expense) in the accompanying (unaudited) condensed consolidated statement of operations. Further, such recognized derivative liability is further remeasured at estimated fair value as of each quarterly reporting period date, with changes in the estimated fair value recognized as current period other income (expense), with such remeasurement recognized through the date of the final determination and settlement or extinguishment of the contingent additional contractual consideration obligation, if any. In this regard, as of **June 30, 2023** **September 30, 2023**, the remeasured estimated fair value was approximately **\$260** **291**, with the change in the estimated fair value recognized as other income (expense).

The estimated fair value of the written protective put derivative liability, as such is discussed above, were computed using a Monte Carlo simulation to generate stock price paths (assuming geometric-Brownian motion) of the PAVmed Inc. common stock to compute the respective written protective put expected fair value, with the principal assumptions of such estimated fair value computation, for the respective measurement dates noted, as follows:

	As of: May 31, 2023	As of: June 30, 2023	As of: May 31, 2023	As of: September 30, 2023
Fair Value	\$ 262	\$ 260	\$ 262	\$ 291
Contractual minimum effective conversion price	\$ 0.50	\$ 0.50	\$ 0.50	\$ 0.50
Price per share	\$ 0.40	\$ 0.41	\$ 0.40	\$ 0.30
Remaining expected term (years)	0.50	0.42	0.50	0.17
Volatility	160.00%	200.00%	160.00%	240.00%
Risk free rate	5.30%	5.30%	5.30%	5.40%
Dividend yield	—%	—%	—%	—%

The estimated fair values recognized with respect to the senior secured convertible debt and the written protective put derivative liability, as each is discussed above, utilized PAVmed and Lucid Diagnostics common stock prices, along with certain Level 3 inputs (as presented in the respective tables above), in the development of Monte Carlo simulation models, discounted cash flow analyses, and /or Black-Scholes valuation models. The estimated fair values are subjective and are affected by changes in inputs to the valuation models and analyses, including the respective common stock prices, the dividend yields, the risk-free rates based on U.S. Treasury security yields, and certain other Level-3 inputs including, assumptions regarding the estimated volatility in the value of the respective common stock prices. Changes in these assumptions can materially affect the recognized estimated fair values.

## Note 14 — Common Stock and Common Stock Purchase Warrants

### Common Stock

On December 29, 2022, the Company received a notice from the Listing Qualifications Department of Nasdaq stating that, for the prior 30 consecutive business days (through December 28, 2022), the closing bid price of the Company's common stock had been below the minimum of \$1 per share required for continued listing on the Nasdaq Capital Market under Nasdaq Listing Rule 5550(a)(2). The notification letter stated that the Company would be afforded 180 calendar days (until June 27, 2023) to regain compliance. On June 28, 2023, the Company received a second notice from the Listing Qualifications Department of Nasdaq granting the Company a 180-day extension (or until December 26, 2023) to regain compliance with the minimum bid price requirement. In order to regain compliance, the closing bid price of the Company's common stock must be at least \$1 for a minimum of ten consecutive business days. During the special meeting ("Special Meeting") of shareholders held on March 31, 2023, the shareholders approved a proposal to amend the Company's Certificate of Incorporation, to effect, at any time prior to the one-year anniversary date of the Special Meeting, (i) a reverse split of the Company's outstanding shares of common stock at a specific ratio, ranging from 1-for-5 to 1-for-15, to be determined by the board of directors of the Company in its sole discretion, and (ii) an associated reduction in the number of shares of common stock the Company is authorized to issue, from 250,000,000 shares to 50,000,000 shares. If the Company's board of directors authorizes the Company to consummate the reverse stock split, the Company anticipates it will regain compliance with the Nasdaq requirements for continued listing through such transaction.

The issued shares of common stock had a fair value of approximately \$602 (with such fair value measured using the quoted closing price of the common stock of the Company on the effective date of the respective underlying agreement). The issued shares of common stock are nonrefundable. As the service provider has substantially rendered the services under the May 31, 2023 R&D Agreement as of June 30, 2023 September 30, 2023, the estimated fair value of the issued shares was recognized as a research and development expense in the accompanying (unaudited) condensed consolidated statement of operations for the three and six nine months ended June 30, 2023 September 30, 2023. PAVmed is a diversified commercial-stage medical technology company operating in the medical device, diagnostics, and digital health sectors, including through its majority-owned subsidiaries Lucid Diagnostics, a publicly-traded commercial-stage cancer prevention diagnostics company, and Veris Health, a private digital health company focused on enhanced personalized cancer care through remote patient monitoring using implantable biologic sensors with wireless communication along with a custom suite of connected external devices. Our current central focus is on the commercialization of Lucid Diagnostics's EsoGuard and Veris Health's Veris Cancer Care Platform. As resources permit, we will continue to explore internal and external innovations that fulfill our project selection criteria without limiting ourselves to any target specialty or condition. More broadly, we strive to maintain balance within our pipeline with shorter-term, lower-risk projects with the prospect for rapid commercialization and revenue generation supporting development of longer-term projects. At the same time, we are continuously re-assessing each project's long-term commercial potential relative to other projects in our pipeline, accelerating or decelerating the project and reallocating resources.

See Part I, Item 1, "Business," in the Form 10-K for a more detailed summary of the medical device, diagnostics, and digital health sectors and our key products, including in particular EsoGuard and the Veris Cancer Care Platform, which are currently our two leading products.

## Recent Developments

### Business

#### PAVmed Strategic Business Update

In January 2023, PAVmed launched a strategic initiative designed to maximize cash runway and protect long-term shareholder interests through adjustments in near-term strategic priorities and associated resource allocation. The Company is currently focusing substantially all of its resources and near-term efforts on the commercialization of Lucid's and Veris' products.

#### Status of Lucid Clinical Trials and Publications

Lucid is currently seeking to accelerate its collection and publication of clinical utility data through a range of trials that can be efficiently executed. These efforts include a planned investigator-initiated, retrospective analysis of prospectively collected data on the 391 San Antonio firefighters who underwent testing as part of a community-sponsored cancer awareness event described below (in respect of which we expect to publish results in the second half of 2023); a virtual-patient randomized controlled trial with intended recruitment of at least 100 physician participants (in respect of which we expect to publish results this year); a Lucid-sponsored multi-center, prospective, observational study with 500 patients; and a Lucid-sponsored registry at existing registries, in which Lucid Test Centers, whereby all patients undergoing EsoCheck collects real-world clinical utility and clinical validity data on EsoGuard Esophageal DNA testing will be given for the opportunity detection of esophageal precancer in two distinct populations.

With regard to provide informed consent and contribute the two registries, the Prospective REView of Esophageal Precancer DetectioN in AT-Risk Patients (PREVENT) Registry collects data about their risk factors, on EsoGuard results, and subsequent diagnostic and/or therapeutic journey. Both Lucid-sponsored observational/registry studies expect to have preliminary results and/or interim analysis submitted testing in the commercial increased-risk population, while the PREVENT-Fire Fighters (PREVENT-FF) Registry focuses exclusively on increased-risk firefighters. Complete data for the San Antonio firefighter study has been accepted for peer review publication in Journal of Gastrointestinal & Digestive System (ISSN: 2161-069X). Combined early interim results from the PREVENT and PREVENT-FF registries focusing on provider decision impact has also been accepted for peer review publication in Journal of Gastroenterology & Digestive Systems (ISSN: 2640-7477).

Interim results for the Lucid-sponsored observational study have been posted in preprint on medRxiv and are undergoing journal peer review. Enrollment for the Lucid-sponsored observational study is expected to be completed by the end of the year. Similarly, results for the Lucid-sponsored virtual-patient study are expected to be ready for analysis before the end of 2023.

#### LucidDx Labs Laboratory Operations Update

On February 14, 2023, Lucid and its subsidiary, LucidDx Labs, entered into an agreement (the "MSA Termination Agreement") with RDx, pursuant to which the parties mutually agreed to terminate the management service agreement between them (the "MSA-RDx") without cause. The termination was effective as of February 10, 2023. Until the termination of the MSA-RDx, RDx had provided certain testing and related services for our laboratory in accordance with the terms of the MSA-RDx. In anticipation of the termination of the MSA-RDx, however, Lucid accelerated the development of internal resources necessary to operate its laboratory entirely on its own. The termination of the MSA-RDx and our operating the laboratory on our own has improved the performance of the EsoGuard assay.

Among other things, the MSA Termination Agreement reduces the remaining amounts of the earnout payments and management fees due under the MSA-RDx and the related asset purchase agreement (the "APA-RDx") to \$0.7 million (from the \$3.4 million that would otherwise have been payable under the MSA-RDx and APA-RDx, if the MSA-RDx had remained in effect through the balance of its stated term), resulting in a net savings to Lucid of \$2.7 million. The payment was satisfied through the issuance of 553,436 shares of Lucid's common stock on February 25, 2023. Lucid was not required to make any cash payments in connection with the termination.

#### #CheckYourFoodTube Events

In January 2023, Lucid completed its first #CheckYourFoodTube Precancer Testing Event, with the San Antonio Fire Department (the "SAFD") during Firefighter Cancer Awareness Month as designated by the International Association of Fire Fighters (IAFF). A total of 391 members who were deemed to be at-risk for esophageal precancer, underwent a brief, on-site, noninvasive cell collection procedure, performed by our clinical personnel using EsoCheck. Firefighters with suspected esophageal precancer based on a positive EsoGuard result were identified, including some less than 40 years of age, and will undergo appropriate monitoring and treatment, as indicated by clinical practice guidelines, to prevent progression to esophageal cancer.

Since then, additional testing events have been hosted with the SAFD, and similar events have been held with fire departments throughout the country. These events are ongoing and are an extension of Lucid's satellite Lucid Test Center ("sLTC") program, which brings Lucid precancer testing directly to patients—at their physician's office and now at large testing day events.

#### Launch of EsoGuard® #CheckYourFoodTube Mobile Testing Unit

In June 2023, Lucid launched its first EsoGuard #CheckYourFoodTube Mobile Test Unit ("mobile testing unit"), with the inaugural mobile testing unit event being held in Sarasota, Florida. The mobile testing unit is another channel by which the Company is bringing EsoGuard testing to at-risk patients.

#### Launch of Direct Contracting Strategic Initiative

In March 2023, Lucid launched a Direct Contracting Strategic Initiative (DCSI) ("DCSI") to engage directly with large Administrative Services Only (ASO) ("ASO") self-insured employers, unions and other entities, seeking to replicate the successes of other diagnostic companies that have deployed similar strategies. In August 2023, the company announced it had contracted with the Ancira Automotive Group as a result of this initiative, providing access to esophageal precancer testing for its employees at all 12 San Antonio locations.

#### Veris Health Commercialization Update

In December 2022 Veris Health, PAVmed's digital health subsidiary, commercially launched its Veris Cancer Care Platform™ Platform by executing its first commercial contract with New Jersey Cancer Care, PA ("NJCC"), an oncology practice and member of the prestigious Quality Cancer Care Alliance. In February 2023, the Veris Cancer Care Platform went live following successful onboarding of the first cohort of cancer patients and their clinicians at NJCC. Enrolled patients received a VerisBox™ VerisBox and began connecting their Bluetooth-enabled health care devices to transmit real-time physiologic data to the cloud-based Veris Cancer Care Platform clinician portal. The patients also began reporting symptoms and quality-of-life parameters through the Veris Cancer Care Platform patient smartphone app, which is now available for patients on the Apple App Store and Google Play. The cloud-based clinician portal was concurrently integrated into the oncology practice and the cancer care team began using it to review physiologic and clinical data and other remote patient monitoring ("RPM") services. Since the Veris Cancer Care Platform went "live" in February, Veris added two additional accounts, expanding utilization of the product to a total of six locations across three oncology practices while continuing to seek to build a pipeline of prospective customers.

Under the leadership of its new President, Veris is actively restructuring and expanding its commercial team seeking to accelerate patient enrollment and subscription revenue, while also launching two strategic initiatives which expand its long-term commercial potential. These include:

- Building a Biopharma Companion Digital Platform module to extend the Veris Cancer Care Platform as a companion solution for biopharmaceutical companies developing novel cancer therapeutics. The module will provide these companies with a long-term patient monitoring solution tightly linked to their cancer therapeutic—from clinical-stage through full commercialization. This includes support for clinical trials and post-marketing surveillance to enhance safety by reducing adverse events, expedite regulatory filings, lower regulatory hurdles, and accelerate speed to market. The business model seeks to replicate the widespread success of companion diagnostics tightly linked to therapeutics.
- Upgrading the Veris Cancer Care Platform from an FDA-designated Medical Device Data System ("MDDS"), limited to displaying medical data for clinicians without modification, to a Software-as-a-Medical-Device ("SaMD"). As a SaMD, the platform will have unlimited potential to grow into a full-bore clinical decision support tool that includes threshold alarms for faster provider response, analytical algorithms for effective triage, and digital biomarkers based on artificial intelligence and machine learning that will provide a risk assessment for cancer patients. The first step will be to incorporate the key features in the next generation product and initiate validation testing to support FDA 510(k) submission as a SaMD next year.

Veris continues also has continued to make progress toward regulatory submission of its implantable cardiac and physiologic monitor, which is targeted for commercial launch next year. The device, which is designed to be implanted in conjunction with a chemotherapy vascular access port, is targeted for FDA submission and commercial launch in 2024 and will further the power of the Veris Cancer Care Platform by better assuring patient compliance with RPM data reporting requirements. It Veris recently completed an animal study which demonstrated intended device performance, consistent with its design and clinical specifications, over an extended implant period.

In April 2023, Gary Manning joined PAVmed to become the President of Veris Health. Mr. Manning has a track record spanning three decades, including leading companies in the medical device, wearable, period and digital health sectors and commercializing products in the global market. pre-submission meetings seeking feedback on various design features have been ongoing.

## Results of Operations

### Overview

#### Revenue

The Company recognized revenue resulting from the delivery of patient EsoGuard test results when the Company considered the collection of such consideration to be probable to the extent that it is unconstrained. Additionally, in the three months ended March 31, 2022, revenue was recognized with respect to the EsoGuard Commercialization Agreement, dated August 1, 2021, between the Lucid Diagnostics Inc. and ResearchDx Inc. ("RDx"), a CLIA certified commercial laboratory service provider. On February 25, 2022, the EsoGuard Commercialization Agreement was terminated upon Lucid's acquisition, pursuant to the execution of the APA-RDx, of certain assets necessary to operate its own CLIA certified laboratory. For a fuller description of the APA-RDx, see Note 5, *Asset Purchase Agreement and Management Services Agreement*, to our accompanying unaudited condensed consolidated financial statements.

#### Cost of revenue

Cost of revenues recognized from the delivery of patient EsoGuard test results includes costs related to EsoCheck device usage, shipment of test collection kits, royalties and the cost of services to process tests and provide results to physicians. We incur expenses for tests in the period in which the activities occur, therefore, gross margin as a percentage of revenue may vary from quarter to quarter due to costs being incurred in one period that relate to revenues recognized in a later period.

We expect that gross margin for our services will continue to fluctuate and be affected by EsoGuard test volume, our operating efficiencies, patient compliance rates, payor mix, the levels of reimbursement, and payment patterns of payors and patients.

The cost of revenue recognized with respect to the revenue recognized under the EsoGuard Commercialization Agreement is inclusive of: a royalty fee incurred under the Amended CWRU License Agreement (as defined in Note 4, *Related Party Transactions*, to our accompanying unaudited condensed consolidated financial statements); the cost of EsoCheck devices and EsoGuard mailers (cell sample shipping costs) distributed to medical practitioners locations and the Lucid Test Centers; and Lucid Test Centers operating expenses, including rent expense and supplies.

#### Sales and marketing expenses

Sales and marketing expenses consist primarily of salaries and related costs for employees engaged in sales and marketing activities, as well as advertising and promotion expenses. We anticipate our sales and marketing expenses will increase in the future, to the extent we expand our commercial sales and marketing operations as resources permit.

#### General and administrative expenses

General and administrative expenses consist primarily of salaries and related costs for personnel, travel expenses, facility-related costs, professional fees for accounting and legal services, salaries and related costs for employees involved in third-party payor reimbursement contract negotiations and consulting and other expenses associated with obtaining and maintaining patents within our intellectual property portfolio.

We anticipate our general and administrative expenses will increase in the future as and to the extent our business operations grow. We also anticipate continued expenses related to being a public company, including fees and expenses for audit, legal, regulatory, and tax-related services associated with maintaining compliance as a public company, insurance premiums and investor relations costs.

#### Research and development expenses

Research and development expenses are recognized in the period they are incurred and consist principally of internal and external expenses incurred for the research and development of our products, including:

- consulting costs for engineering design and development;
- salary and benefit costs associated with our chief medical officer and engineering personnel;
- costs associated with regulatory filings;
- patent license fees;
- cost of laboratory supplies and acquiring, developing, and manufacturing preclinical prototypes;
- product design engineering studies; and
- rental expense for facilities maintained solely for research and development purposes.

Our current research and development activities, including our clinical trials, are focused principally on the acceleration of EsoGuard and Veris Cancer Care Platform commercialization. We will resume research and development activities with respect to other products in our pipeline as well as applicable new technologies, as resources permit.

#### Other Income and Expense, net

Other income and expense, net, consists principally of changes in fair value of our convertible notes and losses on extinguishment of debt upon repayment of such convertible notes.

**Liquidity and Capital Resources**

Our current operational activities are principally focused on the commercialization of EsoGuard and the Veris Cancer Care Platform, and, as resources permit, our development activities would be focused on pursuing FDA approval and clearance of other lead products in our product portfolio pipeline. Our ability to generate revenue depends upon successfully advancing the commercialization of EsoGuard and the Veris Cancer Care Platform while, as resources permit, also completing the development and the necessary regulatory approvals of our other products and services. There are no assurances, however, we will be able to obtain an adequate level of financial resources required for the short-term or long-term commercialization and development of our products and services.

We have financed our operations principally through the public and private issuances of our common stock, preferred stock, common stock purchase warrants, and debt. We are subject to all of the risks and uncertainties typically faced by medical device and diagnostic and medical device companies that devote substantially all of their efforts to the commercialization of their initial product and services and ongoing R&D and clinical trials. We experienced a net loss before noncontrolling interests of approximately \$40.1 million \$61.9 million and used approximately \$29.1 million \$40.2 million of cash in operations for the six nine months ended June 30, 2023 September 30, 2023. Financing activities provided \$25.5 million \$25.9 million of cash during the six nine months ended June 30, 2023 September 30, 2023. We ended the quarter with cash on-hand of \$37.2 million \$26.4 million as of June 30, 2023 September 30, 2023. We expect to continue to experience recurring losses and negative cash flows from operations, and will continue to fund our operations with debt and/or equity financing transactions, including current obligations on the Company's existing convertible debt which in accordance with management's plans may include conversions to equity and refinancing our existing debt obligations to extend the maturity date. Notwithstanding, however, with the cash on-hand as of the date hereof and the other debt and equity committed sources of financing, described below, and conversion and refinancing of existing convertible notes, we expect to be able to fund our future operations for the one year period from the date of the issue of the our unaudited condensed consolidated Financial Statements, as included herein this Form 10-Q.

*Issue of Shares of Our Common Stock*

During the six nine months ended June 30, 2023 September 30, 2023

- We issued 573,229 877,230 shares of our common stock for proceeds of approximately \$0.2 million \$0.3 million under the PAVmed Employee Stock Purchase Plan ("ESPP"), as such plan is discussed in Note 12, *Stock-Based Compensation*, to the Financial Statements.
- We issued 2,330,747 shares of our common stock for net proceeds of approximately \$1.2 million, after payment of 3% commissions, from the sale of shares through PAVmed's at-the-market equity facility through Cantor. See below for more information.
- We issued 1,500,000 shares of our common stock to a service provider as the consideration for services rendered. The issued shares of common stock had a fair value of approximately \$0.6 million. See Note 14, Common Stock and Common Stock Purchase Warrants for additional discussion. On the six-month anniversary of the issuance of the shares, the then-current market value of the shares will be determined based on the volume weighted average price per share of the common stock during the last ten trading days of such six-month period. If the aggregate market value of the shares as so determined is less than \$750,000, the Company shall, at its election, either pay to the service provider an amount in cash equal to the shortfall or issue to the service provider a number of additional shares equal to the shortfall divided by the greater of the market value and \$0.10. In no event will the number of shares issued exceed 9.99% of the Company's outstanding common stock as of May 31, 2023.
- We issued 20,383,445 shares of our common stock in satisfaction of approximately \$5.1 million of principal repayments along with approximately \$0.3 million of interest expense thereon under the April 2022 Senior Convertible Note and September 2022 Senior Convertible Note.

### PAVmed Inc. ATM Facility

In December 2021, we entered into an "at-the-market offering" for up to \$50 million of our common stock that may be offered and sold under a Controlled Equity Offering Agreement between us and Cantor. In March 2023, the "at-the-market offering" became subject to General Instruction I.B.6 of Form S-3, which limits sales of our securities under this instruction in any 12-month period to one-third of the aggregate market value of our public float (unless our public float rises to \$75 million or more, in which case the instruction will cease to apply). As a result of this limitation and our then-current public float, in May 2023, we amended our "at-the-market offering" to cover up to an additional \$18 million of our common stock. In the **six** **nine** months ended **June 30, 2023** **September 30, 2023**, the Company sold 2,330,747 shares through its at-the-market equity facility for net proceeds of approximately \$1.2 million, after payment of 3% commissions. Cumulatively a total of 680,263 shares of Lucid Diagnostics' common stock were issued for net proceeds of approximately \$1.8 million, after a 4% discount, as of **June 30, 2023** **September 30, 2023**.
