ASBURY AUTOMOTIVE GROUP, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Asbury Automotive Group, Inc., a Delaware corporation organized in 2002, is one of the largest automotive retailers in the United States. Our store operations are conducted by our subsidiaries.

As of September 30, 2023 March 31, 2024, we owned and operated 181 206 new vehicle franchises 138 157 dealership locations), representing 31 brands of automobiles, and 31 37 collision centers in 14 15 states. For the nine three months ended September 30, 2023 March 31, 2024, our new vehicle revenue brand mix consisted of 33% 29% luxury, 39% 41% imports and 28% 30% domestic brands. Our stores offer an extensive range of automotive products and services, including new and used vehicles; parts and service, which includes repair and maintenance services, replacement parts and collision repair services (collectively referred to as "parts and services" or "P&S"); and finance and insurance ("F&I") products, including arranging vehicle financing through third parties and aftermarket products, such as extended service contracts, guaranteed asset protection ("GAP") debt cancellation and prepaid maintenance. The finance and insurance products are provided by independent third parties and Total Care Auto, Powered by Landcar ("TCA"). The Company reflects its operations in two reportable segments: Dealerships and TCA.

Pending Acquisition

On September 7, 2023 December 11, 2023, the Company through one completed the acquisition of its subsidiaries, entered into substantially all of the assets, including all real property and businesses of the Jim Koons Dealerships ("Koons") pursuant to a Purchase and Sale Agreement (the "Transaction Agreement") with various entities that comprise the Jim Koons automotive dealerships group (the "Jim Koons Dealerships" "Koons acquisition"). Pursuant to the Transaction Agreement, the Company is expected to acquire substantially all of the assets, including all real property of the Jim Koons Dealerships for an aggregate purchase price of approximately \$1.20 \$1.50 billion, which includes approximately \$417.0 \$256.1 million of new vehicle floor plan financing and \$100.9 million of assets held for real estate sale related to Koons Lexus of Wilmington. The acquisition was funded with borrowings under Asbury's existing credit facility and leasehold improvements. In addition, we expect to acquire new and used vehicles, service loaner vehicles, fixed assets, parts and supplies for a purchase price to be determined at the closing of the transaction. Jim cash on hand. The Koons Dealerships operates acquisition comprised 20 new vehicle dealerships and six collision centers. The acquisition of these entities is anticipated to close in the fourth quarter of 2023 and is subject to various customary closing conditions, including approval from the applicable automotive manufacturers.

Basis of Presentation

The accompanying condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"), and reflect the consolidated accounts of Asbury Automotive Group, Inc. (the "Company") and our wholly owned subsidiaries. All intercompany transactions have been eliminated in consolidation. If necessary, reclassifications of amounts previously reported have been made to the accompanying condensed consolidated financial statements in order to conform to current presentation.

In the opinion of management, all adjustments, consisting only of normal, recurring adjustments, considered necessary for a fair statement of the condensed consolidated financial statements as of September 30, 2023 March 31, 2024, and for the three and nine months ended September 30, 2023 March 31, 2024 and 2022, 2023, have been included, unless otherwise indicated. Amounts presented in the condensed consolidated financial statements have been calculated using non-rounded amounts for all periods presented and therefore certain amounts may not compute or tie to prior year financial statements due to rounding. compute.

The results of operations for the three and nine months ended September 30, 2023 March 31, 2024 are not necessarily indicative of the results that may be expected for any other interim period, or any full year period. Our condensed consolidated financial statements should be read together with our audited consolidated financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2022 December 31, 2023.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the periods presented. Actual results could differ materially from these estimates. Estimates and assumptions are reviewed quarterly and the effects of any revisions are reflected in the consolidated financial statements in the period they are determined to be necessary. Estimates made in the accompanying condensed consolidated financial statements include, but are not limited to, those relating to inventory valuation reserves, reserves for chargebacks against revenue recognized from the sale of finance and insurance F&I products, reserves for self-insurance programs, and certain assumptions related to goodwill and dealership franchise rights intangible assets.

Share Repurchases

Share repurchases may be made from time-to-time in open market transactions or through privately negotiated transactions under the authorization approved by the Board of Directors. Periodically, the Company may retire repurchased shares of common stock previously held by the Company as treasury stock. In accordance with our accounting policy, we allocate any

[Table of Contents](#)

excess share repurchase price over par value between additional paid-in capital, which is limited to amounts initially recorded for the same issue, and retained earnings.

During the three months ended September 30, 2023 March 31, 2024 and 2022, there were no shares repurchased under our share repurchase program. During the nine months ended September 30, 2023 and 2022, 2023, the Company repurchased 1,070,126 239,790 and 1,069,203 110,323 shares and retired 1,124,330 239,790 and 1,069,203 164,527, shares, of our common stock under our share repurchase program, respectively. The cash paid for these share repurchases was \$210.7 \$50.0 million and \$200.0 \$20.7 million for the nine three months ended September 30, 2023 March 31, 2024 and 2022, 2023, respectively.

On May 25, 2023 May 26, 2023, we announced that our Board of Directors approved a new authorization to repurchase up to \$250 million of the Company's common stock (the "New Share Repurchase Authorization"), which replaces our previous share repurchase authorization. As of March 31, 2024, the Company had \$152.6 million remaining on its share repurchase authorization.

Earnings per Share

Basic earnings per share is computed by dividing net income by the weighted-average common shares outstanding during the period. Diluted earnings per share is computed by dividing net income by the weighted-average common shares and common share equivalents outstanding during the period. The Company excluded 466 2,877 and 403 4,005 restricted share units and 3 14 and 0 476 performance share units issued under the Asbury Automotive Group, Inc. 2019 Equity and Incentive Compensation Plan from its computation of diluted earnings per share for the three months ended September 30, 2023 March 31, 2024 and 2022, respectively. During the nine months ended September 30, 2023 and 2022, the Company excluded 2,235 and 1,937 restricted share units and 0 and 394 performance share units issued under the Asbury Automotive Group, Inc. 2019 Equity and Incentive Compensation Plan from its computation of diluted earnings per share, 2023, respectively, because they were anti-dilutive. For all periods presented, there were no adjustments to the numerator necessary to compute diluted earnings per share.

Recent Accounting Pronouncements

In September 2022, the The Financial Accounting Standards Board ("FASB") issued final guidance in ASU 2023-09, *Improvements to Income Tax Disclosures*, in December 2023 which primarily expands the disclosures related to the effective tax rate reconciliation and income taxes paid. The guidance is effective for annual periods beginning after December 15, 2024 and should be applied prospectively with the option of retrospective application. We are evaluating the impact of this new guidance on our consolidated financial statements.

In November 2023, the FASB issued Accounting Standards Update ("ASU") 2022-04, 2023-07, *Liabilities-Supplier Finance Programs. Segment Reporting: Improvements to Reportable Segment Disclosures*. This standard serves to improve transparency about supplier finance programs. ("ASU 2023-07"), which enhances the disclosures primarily around segment expenses. In addition, the amendments expand the scope of quarterly financial reporting by requiring disclosure of both existing annual segment reporting disclosures and the expanded disclosures outlined in ASU 2023-07. The ASU requires certain disclosures around key terms of outstanding supply chain finance programs guidance should be applied retrospectively and changes in obligations during a reporting period related to vendors participating in these programs. The new disclosure requirements do not affect the recognition, measurement or financial statement presentation of any amounts due. The guidance is effective for fiscal years beginning after December 15, 2022 December 15, 2023, except and for rollforward information, which is effective in interim periods beginning after December 15, 2024. We are evaluating the first quarter of 2024. Early adoption is permitted. The adoption impact of this new guidance on January 1, 2023 did not have a material impact on our condensed consolidated financial statements. See Note 8 "Floor Plan Notes Payable."

Contract Assets

Changes in contract assets during the period are reflected in the table below. Contract assets related to vehicle repair and maintenance services are transferred to receivables when a repair order is completed and invoiced to the customer. Certain incremental sales commissions payable to obtain an F&I revenue contract with a customer have been capitalized and are amortized using the same pattern of recognition applicable to the associated F&I revenue contract.

Approximately \$176.7 \$66.7 million of deferred revenue at December 31, 2022 December 31, 2023 was recorded in finance and insurance, net revenue in the condensed consolidated statements of income during the nine three months ended September 30, 2023 March 31, 2024.

3. ACQUISITIONS AND DIVESTITURES

Koons Acquisition

On December 11, 2023, we completed the acquisition of the Jim Koons Dealerships. The results of the Jim Koons Dealerships have been included in our consolidated financial statements since that date. The Koons acquisition diversifies Asbury's geographic mix, with expansion in the greater Washington-Baltimore region of the United States.

As a result of the Koons acquisition, we acquired 20 new vehicle dealerships, six collision centers and the real property related thereto, for a total purchase price of approximately \$1.50 billion, which includes \$256.1 million of new vehicle floor plan financing and \$100.9 million of assets held for sale related to Koons Lexus of Wilmington. The preliminary purchase price was paid in cash.

The sources of the preliminary purchase consideration are as follows:

		(In millions)
Cash	\$	936.8
New vehicle floor plan facility		256.1
Used vehicle floor plan facility		307.1
Preliminary purchase price	\$	1,500.0

Table of Contents

Under the acquisition method of accounting, the tangible and intangible assets acquired and liabilities assumed are recorded at their estimated fair value based on information currently available. The following table summarizes the amounts recorded based on preliminary estimates of fair value:

Summary of Assets Acquired and Liabilities Assumed

	(In millions)
Assets	
Inventories, net	\$ 309.0
Other current assets	10.3
Assets held for sale	100.9
Total current assets	420.2
Property and equipment, net	418.3
Goodwill	238.5
Intangible franchise rights	430.3
Operating lease right-of-use assets	11.2
Total assets acquired	\$ 1,518.5
Liabilities	
Operating lease liabilities	\$ 11.2
Other liabilities	7.2
Total liabilities assumed	18.4
Net assets acquired	\$ 1,500.0

The preliminary acquisition accounting is based upon the Company's estimates of fair value. The estimated fair values of the assets acquired and liabilities assumed and the related preliminary acquisition accounting are based on management's estimates and assumptions, as well as other information compiled by management, including the books and records of Koons. Our estimates and assumptions are subject to change during the measurement period, not to exceed one year from the acquisition date. The areas of acquisition accounting that are not yet finalized primarily relate to the following significant items: (i) finalizing the review and valuation of inventory, land, land improvements, buildings and non-real property and equipment (including the models, key assumptions, estimates and inputs used) and assignment of remaining useful lives associated with the depreciable assets, and (ii) finalizing the review and valuation of manufacturer franchise rights (including key assumptions, inputs and estimates). As the initial acquisition accounting is based on our preliminary assessments, actual values may differ (possibly materially) when final information becomes available that differs from our current estimates. Additionally, the total consideration transferred is subject to certain post-close adjustments. We believe that the information gathered to date provides a reasonable basis for estimating the preliminary fair

values of assets acquired and liabilities assumed. We will continue to evaluate these items until they are satisfactorily resolved and adjust our acquisition accounting accordingly, within the allowable measurement period. Measurement period adjustments recorded during the three months ended March 31, 2024 and their related effects on our consolidated statement of income were not material.

Approximately \$430.3 million of the purchase price was assigned to the indefinite lived franchise rights intangible assets related to the dealer agreements applicable to each new vehicle dealership. In addition, goodwill of \$238.5 million was recognized and is primarily attributable to the anticipated synergies that Asbury expects to derive from the Koons acquisition as well as the acquired assembled workforce of the Koons dealerships.

The Company's consolidated statement of income for the three months ended March 31, 2024 included revenue and net income attributable to the Jim Koons Dealerships of \$681.4 million and \$26.5 million, respectively.

Other Acquisitions and Divestitures

There were no acquisitions during the three months ended March 31, 2024 and 2023.

During the nine three months ended September 30, 2023 March 31, 2024, we sold one franchise (one dealership location) in Austin, Texas, Wilmington, Delaware. The Company recorded a pre-tax gain totaling \$13.5 million, which is presented in our accompanying condensed consolidated statements carrying value of income as gain on dealership assets, net of liabilities sold, approximated the sales price. There were no divestitures net.

During during the nine three months ended September 30, 2022, we sold one franchise (one dealership location) in St. Louis, Missouri, three franchises (three dealership locations) and one collision center in Denver, Colorado, two franchises (two dealership locations) in Spokane, Washington and one franchise (one dealership location) in Albuquerque, New Mexico. The Company recorded a pre-tax gain totaling \$4.4 million, during the nine months September 30, 2022, which is presented in our accompanying condensed consolidated statements of income as gain on dealership divestitures, net. We also paid an additional \$5.0 million during the quarter ended September 30, 2022 in connection with purchase price adjustments related to a prior year acquisition.

The Company reviews the investment securities portfolio at the security level on a quarterly basis for potential credit losses, which takes into consideration numerous factors including changes in credit ratings. The decline in fair value identified in the tables above are a result of widening market spreads and not a result of credit quality. Additionally, the Company has determined it has both the intent and ability to hold these investments until the market price recovers or until maturity and does not believe it will be required to sell the securities before maturity. Accordingly, no credit losses were recognized on these securities during the three and nine months ended **September 30, 2023** **March 31, 2024**.

We have the ability to convert a portion of our availability under the Revolving Credit Facility to the New Vehicle Floor Plan Facility or the Used Vehicle Floor Plan Facility. The maximum amount we are allowed to convert is determined based on our aggregate revolving commitment under the Revolving Credit Facility, less \$50.0 million. In addition, we are able to convert any amounts moved to the New Vehicle Floor Plan Facility or Used Vehicle Floor Plan Facility back to the Revolving Credit Facility.

Table of Contents

On May 27, 2022, \$389.0 million of our availability under the Revolving Credit Facility was re-designated to the New Vehicle Floor Plan Facility to take advantage of lower commitment fee rates. On March 31, 2023, we designated this \$389.0 million back to the Revolving Credit Facility.

In addition to our new and used vehicle floor plan facilities, we have loaner vehicle floor plan facilities with Bank of America and certain original equipment manufacturers ("OEMs"). Loaner vehicles notes payable related to Bank of America as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023 were \$22.8 \$128.1 million and \$10.8 million, net of offsets of \$81.2 million and \$63.2 \$127.2 million, respectively. Loaner vehicles notes payable related to OEMs as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023 were \$92.8 \$99.9 million and \$83.7 million \$111.9 million, respectively.

2023 Senior Credit Facility

On October 20, 2023, the Company and certain of its subsidiaries entered into a fourth amended and restated credit agreement with Bank of America, N.A. ("Bank of America"), as administrative agent, and the other lenders party thereto (the "2023 Senior Credit Facility"). The 2023 Senior Credit Facility amended and restated the Company's pre-existing third amended and restated credit agreement, dated as of September 25, 2019, among the Company, certain of its subsidiaries, Bank of America, as administrative agent, and the other lenders party thereto.

The 2023 Senior Credit Facility provides for the following, in each case subject to limitations on availability as set forth therein:

- \$500.0 million revolving credit facility (the "Revolving Credit Facility");
- \$1,925.0 million new vehicle revolving floorplan facility (the "New Vehicle Floorplan Facility"); and
- \$375.0 million used vehicle revolving floorplan facility (the "Used Vehicle Floorplan Facility").

In addition, subject to compliance with certain conditions, the 2023 Senior Credit Facility provides that the Company and its subsidiaries that are borrowers under the 2023 Senior Credit Facility (collectively, the "Borrowers") have the ability, at their option and subject to the receipt of additional commitments from existing or new lenders, to increase the size of the facilities by up to \$750.0 million in the aggregate.

Borrowings outstanding under the 2023 Senior Credit Facility bear interest, at the option of the Company, based on Daily Simple SOFR (as defined in the 2023 Senior Credit Facility) or the Base Rate, in each case plus an Applicable Rate. The Base Rate is the highest of (i) the Federal Funds Rate (as defined in the 2023 Senior Credit Agreement) plus 0.50%, (ii) the Bank of America prime rate, and (iii) Daily Simple SOFR plus 1.00% and (iv) 1.00%. Applicable Rate means with respect to the Revolving Credit Facility, a range from 1.00% to 2.00% for Daily Simple SOFR loans and 0.15% to 1.00% for Base Rate loans, in each case based on the Company's consolidated total lease adjusted leverage ratio. Borrowings under the New Vehicle Floorplan Facility bear interest, at the option of the Company, based on Daily Simple SOFR plus 1.10%, or the Base Rate plus 0.10%. Borrowings under the Used Vehicle Floorplan Facility bear interest, at the option of the Company, based on Daily Simple SOFR plus 1.40% or the Base Rate plus 0.40%.

The 2023 Senior Credit Facility matures, and all amounts outstanding thereunder will be due and payable, on October 20, 2028.

10. FINANCIAL INSTRUMENTS AND FAIR VALUE

In determining fair value, we use various valuation approaches, including market and income approaches. Accounting standards establish a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from independent sources. Unobservable inputs are inputs that reflect our assumptions about the presumptions market participants would use in pricing the asset or liability, developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1-Valuations based on quoted prices in active markets for identical assets or liabilities that we have the ability to access.

Level 2-Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. Assets and liabilities utilizing Level 2 inputs include interest rate swap instruments, exchange-traded debt securities that are not actively traded or do not have a high trading volume, mortgage notes payable and certain real estate properties on a non-recurring basis.

[Table of Contents](#)

Level 3-Valuations based on inputs that are unobservable and significant to the overall fair value measurement. Asset and liability measurements utilizing Level 3 inputs include those used in estimating the fair value of certain non-financial assets and non-financial liabilities in purchase acquisitions and those used in the assessment of impairment for goodwill and manufacturer franchise rights.

The availability of observable inputs can vary and is affected by a wide variety of factors. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment required to determine fair value is greatest for instruments

categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed is determined based on the lowest level input that is significant to the fair value measurement.

Fair value is a market-based exit price measure considered from the perspective of a market participant who holds the asset or owes the liability rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, our assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. We use inputs that are current as of the measurement date, including during periods of significant market fluctuations.

Financial instruments consist primarily of cash and cash equivalents, investments, contracts-in-transit, accounts receivable, cash surrender value of corporate-owned life insurance policies, accounts payable, floor plan notes payable, subordinated long-term debt, mortgage notes payable and interest rate swap instruments. The carrying values of our financial instruments, with the exception of subordinated long-term debt, **and certain mortgage notes payable**, approximate fair value due to (i) their short-term nature, (ii) recently completed market transactions or (iii) existence of variable interest rates, which approximate market rates. The fair value of our subordinated long-term debt is based on reported market prices in an inactive market that reflect Level 2 inputs. **We estimate the fair value of our mortgage notes payable using a present value technique based on current market interest rates for similar types of financial instruments that reflect Level 2 inputs.**

A summary of the carrying values and fair values of our subordinated long-term debt **and our mortgage notes payable** is as follows:

Interest Rate Swap Agreements

We currently have six interest rate swap agreements. In January 2022, we entered into two new interest rate swap agreements with a combined notional principal amount of \$550.0 million. These swaps are designed to provide a hedge against changes in variable rate cash flows regarding fluctuations in the SOFR rate. All interest rate swap agreements with an inception

date of 2021 and prior were amended on June 1, 2022 to provide a hedge against changes in variable rate cash flows regarding fluctuations in SOFR as compared to the previous benchmark rate of one-month LIBOR. The revisions to the interest rate swap agreements did not impact our hedge accounting because we applied the accounting expedients outlined in ASU 2020-04 and ASU 2021-01 of ASC Topic 848, *Reference Rate Reform*. The following table provides information on the attributes of each swap as of September 30, 2023 March 31, 2024:

The fair value of cash flow swaps is calculated as the present value of expected future cash flows, determined on the basis of forward interest rates and present value factors. Fair value estimates reflect a credit adjustment to the discount rate applied to all expected cash flows under the swaps. Other than this input, all other inputs used in the valuation of these swaps are designated to be Level 2 inputs. The fair value of our swaps was a \$111.4 million an \$89.8 million and \$102.4 million \$79.8 million asset as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively.

Our interest rate swaps qualify for cash flow hedge accounting treatment. These interest rate swaps are marked to market at each reporting date and any unrealized gains or losses are included in accumulated other comprehensive income and reclassified to interest expense in the same period or periods during which the hedged transactions affect earnings. Information about the effect of our interest rate swap agreements in the accompanying condensed consolidated statements of income and condensed consolidated statements of comprehensive income, is as follows (in millions):

For the Three Months Ended September 30,	Results Recognized in Accumulated Other Comprehensive Income/(Loss)	Location of Amount Reclassified from Accumulated Other Comprehensive Income/(Loss) to Earnings	Amount Reclassified from Accumulated Other Comprehensive Income/(Loss) to Earnings

On the basis of yield curve conditions as of **September 30, 2023** **March 31, 2024** and including assumptions about future changes in fair value, we expect the amount to be reclassified out of accumulated other comprehensive income into earnings within the next 12 months will be gains of **\$32.3 million** **\$28.8 million**.

We review the fair value hierarchy classifications each reporting period. Changes in the observability of the valuation attributes may result in a reclassification of certain investments. Such reclassifications are reported as transfers in and out of Level 3, or between other levels, at the beginning fair value for the reporting period in which the changes occur.

Available-for-sale debt securities are recorded at fair value and any unrealized gains or losses are included in accumulated other comprehensive income and reclassified to finance and insurance, net revenue in the period or periods during which the debt securities are sold and the gains or losses are realized. 12. SEGMENT INFORMATION

As of **September 30, 2023** **March 31, 2024**, the Company had two reportable segments: (1) Dealerships and (2) TCA. Our dealership operations are organized by management into geographic market-based groups within the Dealerships segment. The operations of our F&I product provider are reflected within our TCA segment. Our Chief Operating Decision Maker is our Chief Executive Officer who manages the business, regularly reviews financial information and allocates resources at the geographic market level for our dealerships and at the TCA segment level for our F&I product provider's operations. The geographic dealership group operating segments have been aggregated into one reportable segment as their operations (i) have similar economic characteristics (our markets all have similar long-term average gross margins), (ii) offer similar products and

services (all of our markets offer new and used vehicles, parts and service, and finance and insurance products), (iii) have similar customers, (iv) have similar distribution and marketing practices (all of our markets distribute products and services through dealership facilities that market to customers in similar ways), and (v) operate under similar regulatory environments.

TCA's vehicle protection products are sold through affiliated dealerships and the revenue from the related commissions is included in finance and insurance, net revenue in the Dealerships segment before consolidation. The corresponding claims expense incurred and the amortization of deferred acquisition costs is recorded as a cost of sales in the TCA segment. The Dealerships segment also provides vehicle repair and maintenance services to TCA customers in connection with claims related to TCA's vehicle protection products. Upon consolidation, the associated service revenue and costs recorded by the Dealerships segment are eliminated against claims expense recorded by the TCA segment.

13. COMMITMENTS AND CONTINGENCIES

On August 3, 2022, we received a Civil Investigative Demand ("CID") from the FTC requesting information and documents concerning the Company's corporate structure and operation of six of its dealerships. We responded to the CID by producing information and documents for the period August 1, 2019 to April 24, 2023. On February 8, 2024, the FTC staff counsel sent to us a proposed consent order and draft complaint, alleging that the Company and three of our dealerships had violated Section 5 of the Federal Trade Commission Act ("FTC Act") and certain provisions of the Equal Credit Opportunity Act ("ECOA") in connection with the sale of add-on products (e.g., vehicle service contracts, maintenance plans, etc.), and advising that it would recommend the filing of an enforcement action if the Company did not settle the FTC's claims. The

[Table of Contents](#)

Company disputes the FTC's allegations that it violated the FTC Act and the ECOA, and is currently involved in discussions with the FTC staff regarding the matter. There can be no assurance that negotiations between us and the FTC for a favorable settlement will be successful, or that we will succeed in any litigation as a result of the investigation. At this time, we are unable to reasonably predict the possible outcome of this matter, or provide a reasonably possible range of loss, if any, as a result of the investigation. If the FTC files a suit against us based on these allegations, whether meritorious or not, it may adversely affect our ability to attract customers, result in the loss of existing customers, harm our reputation and cause us to incur defense costs and other expenses.

Our dealerships are party to dealer and framework agreements with applicable vehicle manufacturers. In accordance with these agreements, each dealership has certain rights and is subject to restrictions typical in the industry. The ability of these manufacturers to influence the operations of the dealerships or the loss of any of these agreements could have a materially negative impact on our operating results.

In some instances, manufacturers may have the right, and may direct us, to implement costly capital improvements to dealerships as a condition to entering into, renewing, or extending franchise agreements with them. Manufacturers also typically require that their franchises meet specific standards of appearance. These factors, either alone or in combination, could cause us to use our financial resources on capital projects for which we might not have planned or otherwise determined to undertake.

From time-to-time, we and our dealerships are or may become involved in various claims relating to, and arising out of, our business and our operations. These claims may involve, but not be limited to, financial and other audits by vehicle manufacturers or lenders and certain federal, state, and local government authorities, which have historically related primarily to (i) incentive and warranty payments received from vehicle manufacturers, or allegations of violations of manufacturer agreements or policies, (ii) compliance with lender rules and covenants, and (iii) payments made to government authorities relating to federal, state, and local taxes, as well as compliance with other government regulations. Claims may also arise through litigation, government proceedings, and other dispute resolution processes. Such claims, including class actions, could relate to, but may not be limited to, the practice of charging administrative fees and other fees and commissions, employment-related matters, truth-in-lending and other dealer assisted financing obligations, contractual disputes, actions brought by governmental authorities, and other matters.

We evaluate pending and threatened claims and establish loss contingency reserves based upon outcomes we currently believe to be probable and reasonably estimable. Based on our review of the various types of claims currently known to us, there is no indication of material reasonably possible losses in excess of amounts accrued in the aggregate. We currently do not anticipate that any known claim will materially adversely affect our financial condition, liquidity, or results of operations. However, the outcome of any matter cannot be predicted with certainty, and an unfavorable resolution of one or more matters presently known or arising in the future could have a material adverse effect on our financial condition, liquidity, or results of operations.

A significant portion of our business involves the sale of vehicles, parts, or vehicles composed of parts that are manufactured outside the United States. As a result, our operations are subject to customary risks of importing merchandise, including fluctuations in the relative values of currencies, import duties, exchange controls, trade restrictions, work stoppages, and general political and socio-economic conditions in foreign countries. The United States or the countries from which our products are imported may, from time-to-time, impose new quotas, duties, tariffs, or other restrictions, or adjust

[Table of Contents](#)

presently prevailing quotas, duties, or tariffs, which may affect our operations, and our ability to purchase imported vehicles and/or parts at reasonable prices.

Substantially all of our facilities are subject to federal, state and local provisions regarding the discharge of materials into the environment. Compliance with these provisions has not had, nor do we expect such compliance to have, any material effect upon our capital expenditures, net earnings, financial condition, liquidity or competitive position. We believe that our current practices and procedures for the control and disposition of such materials comply with applicable federal, state, and local requirements. No assurances can be provided, however, that future laws or regulations, or changes in existing laws or regulations, would not require us to expend significant resources in order to comply therewith.

We had \$14.0 million of letters of credit outstanding as of **September 30, 2023** **March 31, 2024**, which are required by certain of our insurance providers. In addition, as of **September 30, 2023** **March 31, 2024**, we maintained a **\$18.5 million** **\$21.5 million** surety bond line in the ordinary course of our business. Our letters of credit and surety bond line are considered to be off balance sheet arrangements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Information

Certain of the discussions and information included or incorporated by reference in this report may constitute "forward-looking statements" within the meaning of the federal securities laws. Forward-looking statements are statements that are not historical in nature and may include statements relating to our goals, plans and projections regarding industry and general economic trends, our expected financial position, results of operations or market position and our business strategy. Such statements can generally be identified by words such as "may," "target," "could," "would," "will," "should," "believe," "expect," "anticipate," "plan," "intend," "foresee," and other similar words or phrases. Forward-looking statements may also relate to our expectations and assumptions with respect to, among other things:

- the seasonally adjusted annual rate of new vehicle sales in the United States;
- general economic conditions and its expected impact on our revenue and expenses;
- our expected parts and service revenue due to, among other things, improvements in vehicle technology;
- our ability to limit our exposure to regional economic downturns due to our geographic diversity and brand mix;
- manufacturers' continued use of incentive programs to drive demand for their product offerings;
- our capital allocation strategy, including as it relates to acquisitions and divestitures, stock repurchases, dividends and capital expenditures;
- our revenue growth strategy;
- the growth of the brands that comprise our portfolio over the long-term;
- disruptions in the production and supply of vehicles and parts from our vehicle and parts manufacturers and other suppliers, **due to any ongoing impact of supply issues**, which can disrupt our operations; and
- our estimated future capital expenditures, which can be impacted by increasing prices and labor shortages and acquisitions and divestitures.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual future results, performance or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. Such factors include, but are not limited to:

- the ability to acquire and successfully integrate acquired businesses into our existing operations and realize expected benefits and synergies from such acquisitions;
- the effects of increased expenses or unanticipated liabilities incurred as a result of, or due to activities related to our acquisitions or divestitures;
- changes in general economic and business conditions, including the current inflationary environment, the current **rising** interest rate environment, changes in employment levels, consumer confidence levels, consumer demand and preferences, the availability and cost of credit, fuel prices and levels of discretionary personal income;
- our ability to generate sufficient cash flows, maintain our liquidity and obtain any necessary additional funds for working capital, capital expenditures, acquisitions, stock repurchases, debt maturity payments and other corporate purposes, if necessary or desirable;
- significant disruptions in the production and delivery of vehicles and parts for any reason, including supply shortages, **(including semiconductor chips), the ongoing conflict in Russia and Ukraine, including any government sanctions imposed in connection therewith,** natural disasters, severe weather, civil unrest, product recalls, work stoppages or other occurrences that are outside of our control;
- **our ability to execute our automotive retailing and service business strategy while operating under restrictions and best practices imposed or encouraged by governmental and other regulatory authorities;**
- our ability to successfully attract and retain skilled employees;
- our ability to successfully operate, including our ability to maintain, and obtain future necessary regulatory approvals, for Total Care Auto, Powered by Landcar ("TCA"), our finance and insurance ("**F&I**") ("**I**") product provider;

[Table of Contents](#)

- adverse conditions affecting the vehicle manufacturers whose brands we sell, and their ability to design, manufacture, deliver and market their vehicles successfully;
- changes in the mix and total number of vehicles we are able to sell;
- our outstanding indebtedness and our continued ability to comply with applicable covenants in our various financing and lease agreements, or to obtain waivers of these covenants as necessary;

[Table of Contents](#)

- high levels of competition in our industry, which may create pricing and margin pressures on our products and services;
- our relationships with manufacturers of the vehicles we sell and our ability to renew, and enter into new framework and dealer agreements with vehicle manufacturers whose brands we sell, on terms acceptable to us;
- the availability of manufacturer incentive programs and our ability to earn these incentives;
- failure of our, or those of our third-party service providers, management information systems;
- any data security breaches occurring, including with regard to personally identifiable information ("PII");
- changes in laws and regulations governing the operation of automobile franchises, including trade restrictions, consumer protections, accounting standards, taxation requirements and environmental laws;

OVERVIEW

We are one of the largest automotive retailers in the United States. As of September 30, 2023 March 31, 2024, through our Dealerships segment, we owned and operated 181 206 new vehicle franchises (138 157 dealership locations), representing 31 brands of automobiles, and 81 37 collision centers within 14 15 states. Our stores offer an extensive range of automotive products and services, including new and used vehicles; parts and service, which includes repair and maintenance services, replacement parts and collision repair services; and finance and insurance products. The finance and insurance products are provided by both independent third parties and TCA. The F&I products offered by TCA are sold through affiliated dealerships. For the nine three months ended September 30, 2023 March 31, 2024, our new vehicle revenue brand mix consisted of 33% 29% luxury, 39% 41% imports and 28% 30% domestic brands. The Company manages its operations in two reportable segments: Dealerships and TCA. Amounts presented have been calculated using non-rounded amounts for all periods presented and therefore certain amounts may not compute or tie to prior year financial statements due to rounding. compute.

Our Dealerships segment revenues are derived primarily from: (i) the sale of new vehicles; (ii) the sale of used vehicles to individual retail customers ("used retail") and to other dealers at auction ("wholesale") (the terms "used retail" and "wholesale" collectively referred to as "used"); (iii) repair and maintenance services, including collision repair, the sale of automotive replacement parts, and the reconditioning of used vehicles (collectively referred to as "parts and service"); and (iv) the arrangement of third-party vehicle financing and the sale of a number of vehicle protection products. We evaluate the results of our new and used vehicle sales based on unit volumes and gross profit per vehicle sold, our parts and service operations based on aggregate gross profit, and our F&I business based on F&I gross profit per vehicle sold.

Our TCA segment revenues, reflected in F&I revenue, net, are derived from the sale of various vehicle protection products including vehicle service contracts, GAP, prepaid maintenance contracts, and appearance protection contracts. These products are sold through company-owned dealerships. TCA's F&I revenues also include investment gains or losses and income earned associated with the performance of TCA's investment portfolio.

Our TCA segment gross profit margin can vary due to incurred claims expense and the performance of our investment portfolio. Certain F&I products may result in higher gross profit margins to TCA. Therefore, the product mix of F&I products sold by TCA can affect the gross profits earned. In addition, interest rate volatility, based on economic and market conditions outside the control of the Company, may increase or reduce TCA segment gross profit margins as well as the fair market values of certain securities within our investment portfolio. Fair market values typically fluctuate inversely to the fluctuations in interest rates.

Selling, general, and administrative ("SG&A") expenses consist primarily of fixed and incentive-based compensation, advertising, rent, insurance, utilities, and other customary operating expenses. A significant portion of our cost structure is variable (such as sales commissions) or controllable (such as advertising), which we believe allows us to adapt to changes in the retail environment over the long-term. We evaluate commissions paid to salespeople as a percentage of retail vehicle gross profit, advertising expense on a per vehicle retailed basis, and all other SG&A expenses in the aggregate as a percentage of total gross profit.

Our continued organic growth is dependent upon the execution of our balanced automotive retailing and service business strategy, the continued strength of our brand mix and the production and allocation of desirable vehicles from the automobile manufacturers whose brands we sell. Our vehicle sales have historically fluctuated with product availability as well as local and national economic conditions, including consumer confidence, availability of consumer credit, fuel prices and employment levels.

In addition, our ability to sell certain new and used vehicles can be negatively impacted by a number of factors, some of which are outside of our control. While new vehicle inventories Certain manufacturers continue to rise, manufacturers remain be hampered by the lack of availability of parts and key components from suppliers which has impacted new vehicle inventory levels and availability of certain parts, keeping new vehicle inventories at historical lows. In September 2023, the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) initiated a labor strike at certain facilities operated by Ford, General Motors and Stellantis in North America, causing stoppages to some vehicle production and parts distribution activities. We are continuing to monitor the status of the labor strike and the potential effects it may have on our business, parts. We cannot predict with any certainty how long the automotive retail industry will continue to be subject to these production slowdowns or when normalized production will resume at these manufacturers.

We are strategically operating within the changing environment and we continue to prioritize profitability. Over the last couple of years, pre-owned vehicle inventory has been depleted due to fleet levels, lower new vehicle sales and lack of leasing. Overall, with this limited availability of pre-owned inventory and unbalanced new inventory by brand, we are focused on maximizing our gross profit streams.

Clicklane

As part of our omni-channel strategy, we implemented Clicklane, the automotive retail industry's first, end-to-end, 100% online vehicle retail tool, which offers our customers a convenient, seamless and transparent approach to purchase and sell vehicles completely online. Our Clicklane platform provides our customers with the ability to (i) select a new or used vehicle, (ii) arrange for and obtain financing from a variety of lenders, (iii) obtain an offer on their trade-in vehicle, (iv) obtain an exact pay-off amount on any existing loan on a trade-in vehicle, (v) select and purchase F&I products designed for the customer's vehicle and then (vi) complete the vehicle purchase and financing by signing the transaction documents and scheduling in-store pickup or home delivery, with each step performed entirely online. Clicklane provides the the customer with the ability to switch between online and in-person during the process based on their preference. We have implemented Clicklane across all of our stores.

Pending Jim Koons Acquisition

On September 7, 2023 December 11, 2023, the Company through one completed the acquisition of its subsidiaries, entered into substantially all of the assets, including all real property and businesses of the Jim Koons Dealerships ("Koons") pursuant to a Purchase and Sale Agreement (the "Transaction Agreement") with various entities that comprise the Jim Koons automotive dealerships group (the "Jim Koons Dealerships" "Koons acquisition"). Pursuant to the Transaction Agreement, the Company is expected to acquire substantially all of the assets, including all real property of the Jim Koons Dealerships for an aggregate purchase price of approximately \$1.20 billion \$1.50 billion, which includes approximately \$417.0 million \$256.1 million of new vehicle floor plan financing and \$100.9 million of assets held for real estate sale related to Koons Lexus of Wilmington. The acquisition was funded with borrowings under Asbury's existing credit facility and leasehold improvements. In addition, we expect to acquire new and used vehicles, service loaner vehicles, fixed assets, parts and supplies for a purchase price to be determined at the closing of the transaction. Jim cash on hand. The Koons Dealerships operates acquisition comprised 20 new vehicle dealerships and six collision centers. The acquisition of these entities is anticipated to close in the fourth quarter of 2023 and is subject to various customary closing conditions, including approval from the applicable automotive manufacturers.

Financial Highlights

Highlights related to our financial condition and results of operations include the following:

- Consolidated revenue for the nine three months ended September 30, 2023 March 31, 2024 was \$10.99 billion \$4.20 billion, compared to \$11.73 billion \$3.58 billion for the nine months ended September 30, 2022. prior year.
- Consolidated gross profit for the nine three months ended September 30, 2023 March 31, 2024 was \$2.08 billion \$750.0 million, compared to \$2.36 billion \$696.2 million for the nine months ended September 30, 2022. prior year.
- The decrease increase in consolidated revenue and gross profit is primarily due to lower used vehicle and F&I revenues. Lower gross profit was driven by lower gross profit per vehicle sold for both new and used vehicles as margins continue to shift downward from the historic highs in recent years. The effects of dealership divestitures also impacted consolidated revenue the Koons acquisition. Refer to Note 3, "Acquisitions and gross profit. During the nine months ended September 30, 2023, we sold one franchise (one dealership location) in Austin, Texas. During 2022, we completed sixteen divestitures that contributed \$683 million in revenue Divestitures" for the year ended December 31, 2022. Four of the divestitures closed in the first quarter, three in the second quarter, and nine in the fourth quarter of 2022. further details.
- Our capital allocation priorities were supported by the repurchase of 1,070,126 million 239,790 shares for \$210.7 million \$50.0 million during the nine three months ended September 30, 2023 March 31, 2024.
- On October 20, 2023, we entered into a fourth amended and restated credit agreement with Bank of America, as administrative agent, and the other lenders party thereto (the "2023 Senior Credit Facility"). The 2023 Senior Credit Facility increased our borrowing capacity from \$2.55 billion to \$2.80 billion and extended the maturity date to October 20, 2028.

CONSOLIDATED RESULTS OF OPERATIONS

The Company's operating results for the three months ended March 31, 2024 include the results of the Koons dealerships acquired in the fourth quarter of 2023. Accordingly, the increases in revenue, gross profit and income from operations for the three months ended March 31, 2024 compared to the three months ended March 31, 2023 are largely a result of this acquisition.

We assess the organic growth of our revenue and gross profit on a same store basis. We believe that our assessment on a same store basis represents an important indicator of comparative financial performance and provides relevant information to assess our performance. As such, for the following discussion, same store amounts consist of information from dealerships for identical months in each comparative period, commencing with the first full month we owned the dealership. Additionally, amounts related to divested dealerships are excluded from each comparative period. During 2022, the Company completed sixteen divestitures that contributed \$683 million in revenue for the year. Four of the divestitures closed in the first quarter, three in the second quarter, and nine in the fourth quarter of 2022.

For the three months ended **September 30, 2023** **March 31, 2024**, new vehicle revenue increased by \$62.7 million (3%) \$296.6 million (17%) due to as a \$67.2 million (10%) result of an 18% increase in import brands revenue and a \$13.2 million (2%) increase in luxury brands revenue, new vehicle units sold, partially offset by a \$17.7 million (3%) 1% decrease in domestic brands revenue, revenue per new vehicle sold. Same store new vehicle revenue increased decreased by \$131.0 million (8%) \$11.0 million (1%) primarily driven by a \$94.6 million (14%) increase in import brands revenue, a \$36.9 million (7%) increase in luxury brands revenue, partially offset by a \$0.5 million as the result of an 1% decrease in domestic brands revenue, revenue per new vehicle sold. New vehicle unit sales on a same store basis remained flat during the three months ended March 31, 2024, as compared to the same period of the prior year.

For the three months ended **September 30, 2023** **March 31, 2024**, new vehicle gross profit and same store new vehicle gross profit decreased by \$32.9 million (16%) \$16.0 million (9%) and \$25.9 million (13%) \$40.9 million (23%), respectively. Same store new vehicle gross profit margin for the three months ended **September 30, 2023** **March 31, 2024** decreased 218 227 basis points to 9.0%. A similar decrease was seen in as reported new vehicle gross profit margins. The decrease in our new vehicle gross profit margin was primarily attributable to 7.8% driven by the slight easing of new vehicle inventory constraints which softened the historically high new vehicle margins seen in recent years. As a result, our new vehicle gross profit per vehicle sold decreased from \$5,512 for the three months ended September 30, 2022 to \$4,567 for the three months ended September 30, 2023.

The seasonally adjusted annual rate ("SAAR") for new vehicle sales in the U.S. during the three months ended **September 30, 2023** **March 31, 2024** was approximately 15.5 million 15.4 million which increased as compared to approximately 13.3 million 15.2 million during the three months ended **September 30, 2022** **March 31, 2023**. The increase in new vehicle sales revenue on a same store basis for the three months ended September 30, 2023 over the same period in the prior year is primarily attributable to an increase of \$1,136 of revenue per new vehicle sold and an increase of 1,804 in new vehicle units sold. The increase in SAAR period over period reflects higher fleet

For the three months ended September 30, 2023, used vehicle revenue decreased increased by \$219.0 million (16% \$230.4 million (20%)) compared to the same period of prior year, primarily due to a \$233.0 million (19% \$169.7 million (17%)) decrease increase in used vehicle retail revenue partially offset by and a \$14.0 million (17% \$60.6 million (58%)) increase in used vehicle wholesale revenue. Same store used vehicle revenue decreased by \$139.0 million (11% \$19.5 million (2%)) largely due to a \$155.4 million (13% \$44.4 million (4%)) decrease in used vehicle retail revenue, partially offset by a \$16.4 million (21% \$24.9 million (24%)) increase in used vehicle wholesale revenue. Total used vehicle retail unit sales decreased increased by 17% 20% due to the Koons acquisition while same store retail used vehicle retail unit sales decreased by 11% 2% during the three months ended September 30, 2023 March 31, 2024 as compared to the three months ended September 30, 2022 March 31, 2023. Used vehicle revenues revenue and unit volume have continued to contract as seen in the third first quarter of 2023, 2024, along with margins on both an all store and same store basis. Used vehicle revenue and unit volumes have been negatively impacted by the lack of inventory availability, especially in vehicles with lower mileage. For the three months ended September 30, 2023,

* Reconditioning and preparation represents the gross profit earned by our parts and service departments for internal work performed and is included as a reduction of Parts and Service Cost of Sales in the accompanying Condensed Consolidated Statements of Income upon the sale of the vehicle.

The \$9.6 million (2%) decrease in parts and service revenue was primarily due to a \$9.3 million (3%) decrease in customer pay revenue and a \$2.4 million (2 %) decrease in wholesale parts revenue, partially offset by a \$2.1 million (3%) increase in warranty revenue. Same store parts and service revenue increased by \$16.8 million (3%) to \$526.3 million during the three months ended September 30, 2023 from \$509.5 million during the three months ended September 30, 2022. The increase in same store parts and service revenue was due to a \$9.3 million (3%) increase in customer pay revenue, a \$5.1 million (8%) increase in warranty revenue and a \$2.4 million (2%) increase in wholesale parts revenue. We attribute much of this increase to strong customer pay and warranty demand and increased aging of vehicles, which are at historically high levels, driven by historically low new vehicle inventory levels. We continue to focus on increasing our customer pay parts and service revenue over the long-term by improving the customer experience, providing competitive benefits to our technicians, capitalizing on our dealership training programs and upgrading equipment.

During the three months ended September 30, 2023, parts and service gross profit, excluding reconditioning and preparation, decreased by \$5.7 million (2%) to \$235.5 million primarily due to dealership divestitures and same store parts and service gross profit, excluding reconditioning and preparation, increased by \$6.4 million (3%) to \$235.4 million demonstrating our continued commitment to our guest-centric service approach.

F&I revenue, net decreased by \$33.8 million (17%) during the third quarter of 2023 when compared to the third quarter of 2022, as a result of a 9% decrease in total retail units sold and a 11% decrease in F&I per vehicle retailed.

On a same store basis, F&I revenue, net decreased by \$25.8 million (13%) during the third quarter of 2023 when compared to the third quarter of 2022, as a result of a 3% decrease in total retail units sold and a 12% decrease in F&I per vehicle retailed. We are seeing slightly lower penetration rates in our F&I products as customers look for ways to manage lower monthly payments in a rising interest rate environment.

TCA's F&I revenue, after dealership intercompany eliminations, was \$36.2 million and \$36.1 million for the three months ended September 30, 2023 and 2022, respectively. TCA's F&I gross profit, after dealership intercompany eliminations, was \$22.1 million and \$23.0 million for the three months ended September 30, 2023 and 2022, respectively.

SG&A expense as a percentage of gross profit increased 109 basis points from 57.1% for the third quarter of 2022 to 58.2% for the third quarter of 2023, while same store SG&A expense as a percentage of gross profit increased 109 basis points, from 57.0% for the third quarter of 2022 to 58.1% over the same period in 2023. The increase in reported SG&A expense as a percentage of gross profit is primarily the result of lower gross profits for the three months ended September 30, 2023 as compared to the three months ended September 30, 2022. SG&A expense for the three months ended September 30, 2023 includes a \$3.6 million gain from the sale of real estate and \$1.8 million of professional fees related to the pending acquisition of the Jim Koons Dealerships. In addition, on a total company basis, SG&A expense decreased by \$46.5 million for the the third quarter of 2023 as compared to the third quarter of 2022 primarily due to the effects of lower personnel costs in the third quarter of 2023.

Floor Plan Interest Expense —

Floor plan interest expense decreased by \$1.9 million (99%) to \$0.0 million during the three months ended September 30, 2023 as compared to \$1.9 million for the three months ended September 30, 2022 due to less cash held in the floor plan offset account during the three months ended September 30, 2022.

Income Tax Expense —

The \$11.4 million (17%) decrease in income tax expense was primarily the result of a \$47.1 million (17%) decrease in income before income taxes. Our effective tax rate for the three months ended September 30, 2023 was 25.1% compared to 24.9% in the prior comparative period, which differed from the U.S. statutory rate primarily due to the favorable effects of the windfall component of equity compensation, a discrete item, and unfavorable effects of various permanent tax adjustments such as executive compensation. We estimate our effective tax rate for the year ended December 31, 2023 at 24.9%.

For the nine months ended September 30, 2023, new vehicle revenue increased by \$53.0 million (1%) as a result of a 5% increase in revenue per new vehicle sold offset partially by a 4% decrease in new vehicle units sold. Same store new vehicle revenue increased by \$328.5 million (6%) as the result of a 1% increase in new vehicle units sold and a 5% increase in revenue per new vehicle sold.

For the nine months ended September 30, 2023, new vehicle gross profit and same store new vehicle gross profit decreased by \$113.5 million (18%) and \$83.6 million (14%), respectively. Same store new vehicle gross margin for the nine months ended September 30, 2023 decreased 220 basis points to 9.5% driven by the slight easing of new vehicle inventory constraints which softened the historically high new vehicle margins seen in recent years.

The seasonally adjusted annual rate ("SAAR") for new vehicle sales in the U.S. during the nine months ended September 30, 2023 was approximately 15.4 million which increased as compared to approximately 13.6 million during the nine months ended September 30, 2022. The increase in SAAR period over period reflects higher fleet inventory supply coupled with continued consumer demand for new vehicles. However, we continue to be negatively impacted by the significant variation in new vehicle days supply among brands and models.

increased by \$48.4 million (7%) \$15.9 million (6%) to \$703.1 million \$296.8 million when compared to the same period of prior year. The all store increase is primarily due to the Koons acquisition and reconditioning and preparation, while the same store increase is primarily a result of reconditioning and preparation, and increased customer pay and warranty volume, which is in line with the increasing trend of aged vehicles.

On a same store basis, F&I revenue, net decreased by \$71.7 million (12%) \$16.5 million (10%) during the nine three months ended September 30, 2023 March 31, 2024 when compared to the nine three months ended September 30, 2022 March 31, 2023, as a result of a 4% 1% decrease in new and used retail unit sales and a 7% 6% decrease in F&I per vehicle retailed. We are seeing slightly lower penetration rates in our F&I products as customers look for ways to manage lower monthly payments in a rising interest rate environment.

The financial results of the TCA segment, after dealership eliminations, are as follows:

TCA offers a variety of F&I products, such as extended vehicle service contracts, prepaid maintenance contracts, GAP, appearance protection contracts and lease wear-and-tear contracts. TCA's products are sold through our automobile dealerships.

Revenue generated by TCA is earned over the period of the related product contract. The method for recognizing revenue is assigned based on contract type and expected claim patterns. Premium revenues are supplemented with investment gains or losses and income earned associated with the performance of TCA's investment portfolio. During the three months ended March 31, 2024, TCA generated \$30.7 million of revenue, consisting primarily of earned premium and \$4.2 million from the investment portfolio.

Direct expenses incurred for the acquisition of F&I contracts on which revenue has not yet been recognized have been deferred and are amortized over the related contract period. During the three months ended March 31, 2024, TCA recorded \$8.6 million of cost of sales consisting primarily of claims expense, after the elimination of claims paid to affiliated dealerships. Commissions expense paid by TCA to our affiliated dealerships and reflected as F&I revenue after dealership intercompany eliminations, was \$103.3 million in our Dealerships segment is eliminated in the TCA segment upon consolidation.

Table of Contents

As we continue to integrate TCA, we expect a rollout of TCA products to our remaining stores by the end of 2024. With the ownership of TCA, while the combined profitability of the transaction is higher, the timing of revenue and \$89.9 million for cost recognition is deferred and amortized over the nine months ended September 30, 2023 life of the contract. We expect that this rollout will result in lower F&I revenue and 2022, respectively. TCA's F&I gross profit after dealership intercompany eliminations, was \$73.8 million and \$50.3 million for over the nine months ended September 30, 2023 and 2022, respectively, next two to three years due to the change in how these contracts are earned.

The slight increase in SG&A as a percentage of gross profit on a total company basis during the nine three months ended September 30, 2023 March 31, 2024 is primarily the result of higher cost in personnel and other categories in SG&A expense partially offset by higher gross profits for the three months ended March 31, 2024 as compared to the three months ended March 31, 2023. The increase in SG&A as a percentage of gross profit on the same store basis during the three months ended March 31, 2024 is primarily the result of lower gross profits for the nine three months ended September 30, 2023 March 31, 2024 as compared to the nine three months ended September 30, 2022 March 31, 2023. During the nine months ended September 30, 2023, we incurred \$4.3 million of losses related to hail damage at certain dealerships. SG&A expense for the three and nine months ended September 30, 2023 includes a \$3.6 million gain from the sale of real estate and \$1.8 million of professional fees related to the pending acquisition of the Jim Koons Dealerships. During the nine months ended September 30, 2023, we sold one franchise (one dealership location) in Austin, Texas and recorded a pre-tax gain totaling \$13.5 million. During the nine months ended September 30, 2022, we sold one franchise (one dealership location) in St. Louis, Missouri and three franchises (three dealership locations) and one

collision center in the Denver, Colorado market, two franchises (two dealership locations) in Spokane, Washington and one franchise (one dealership location) in Albuquerque, New Mexico, and we recorded a pre-tax gain on dealership divestitures, net of \$4.4 million. There were no dealership divestitures during the three months ended September 30, 2023 March 31, 2023.

Income Tax Expense—

The \$31.8 million \$8.4 million (15%) decrease in income tax expense was primarily the result of a \$128.9 million (15%) \$42.7 million (18%) decrease in income before income taxes. For both or the nine three months ended September 30, 2023 March 31, 2024 and 2022, 2023, our effective income tax rate was 24.6% 24.9% and 23.9%, respectively, which differed from the U.S. statutory rate primarily due to the favorable effects of the windfall component of equity compensation, a discrete item, and unfavorable effects of various permanent tax adjustments such as executive compensation. We currently estimate our effective tax rate for the year ended December 31, 2023 December 31, 2024 at 24.9% approximately 25.0%.

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2023 March 31, 2024, we had total available liquidity of \$1.68 billion \$712.3 million, which consisted of cash and cash equivalents of \$31.0 million \$19.8 million (excluding \$10.6 million \$9.2 million held by TCA), available funds in our floor plan offset accounts of \$988.7 million which \$907.5 million is offset against new vehicle floor plan notes payable \$205.2 million and \$81.2 million is netted against loaner vehicle notes payable, \$436.0 million \$486.0 million of availability under our revolving credit facility and \$226.2 million \$1.4 million of availability under our used vehicle floor plan facility. The borrowing capacities under our revolving credit facility and our used vehicle floor plan facility are limited by borrowing base calculations and, from time-to-time, may be further limited by our required compliance with certain financial covenants. As of September 30, 2023 March 31, 2024, these financial covenants did not further limit our availability under our other credit facilities.

We continually evaluate our liquidity and capital resources based upon (i) our cash and cash equivalents on hand, (ii) the funds that we expect to generate through future operations, (iii) current and expected borrowing availability under our 2019 2023 Senior Credit Facility, (iv) amounts in our new vehicle floor plan notes payable offset accounts, and (v) the potential impact of our capital allocation strategy and any contemplated or pending future transactions, including, but not limited to, financings, acquisitions, dispositions, equity and/or debt repurchases, dividends, or other capital expenditures. We believe we will have sufficient liquidity to meet our debt service and working capital requirements; commitments and contingencies; debt repayment, maturity and repurchase obligations; acquisitions; capital expenditures; and any operating requirements for at least the next twelve months and the foreseeable future.

Covenants

We are subject to a number of customary operating and other restrictive covenants in our various debt and lease agreements. We were in compliance with all of our covenants as of September 30, 2023 March 31, 2024.

Share Repurchases and Dividend Restrictions

Our ability to repurchase shares or pay dividends on our common stock is subject to our compliance with the covenants and restrictions in our various debt and lease agreements.

During the three months ended September 30, 2023, there were no repurchases of shares of our common stock under our repurchase program. During the nine months ended September 30, 2023 March 31, 2024, we repurchased 1,070,126 239,790 shares of our common stock under our repurchase program for a total of \$210.7 \$50.0 million. On May 25, 2023 May 26, 2023, we announced that our Board of Directors authorized a new \$250.0 million share repurchase authorization (the "New Share Repurchase Authorization"), which replaced our previous share repurchase authorization. As of September 30, 2023 March 31, 2024, we had \$250.0 \$152.6 million remaining under our New Share Repurchase Authorization.

During the three and nine months ended September 30, 2023 March 31, 2024, we repurchased 1,129 and 47,121 45,399 shares of our common stock for \$0.2 \$9.8 million, and \$11.2 million, respectively, from employees in connection with a net share settlement feature of employee equity-based awards.

Cash Flows

Classification of Cash Flows Associated with Floor Plan Notes Payable

Borrowings and repayments of floor plan notes payable through our 2019 2023 Senior Credit Facility ("Non-Trade"), and all floor plan notes payable relating to used vehicles (together referred to as "floor plan notes payable—non-trade"), are classified as financing activities on the accompanying condensed consolidated statements of cash flows, with borrowings reflected separately from repayments. The net change in floor plan notes payable to a lender affiliated with the manufacturer from which we purchase a particular new vehicle (collectively referred to as "floor plan notes payable—trade") is classified as an operating activity on the accompanying condensed consolidated statements of cash flows. Borrowings of floor plan notes payable associated with inventory acquired in connection with all acquisitions and repayments made in connection with all divestitures are classified as a financing activity in the accompanying condensed consolidated statement of cash flows. Cash flows related to floor plan notes payable included in operating activities differ from cash flows related to floor plan notes payable included in financing activities only to the extent that the former are payable to a lender affiliated with the manufacturer from which we purchased the related inventory, while the latter are payable to our 2019 2023 Senior Credit Facility that includes lenders affiliated with the manufacturers and lenders not affiliated with the manufacturers from which we purchased the related inventory. The majority of our floor plan notes are payable to our 2019 2023 Senior Credit Facility, with the exception of floor plan notes payable relating to the financing of new Ford and Lincoln vehicles and certain loaner vehicle programs.

Floor plan borrowings are required by all vehicle manufacturers for the purchase of new vehicles, and all floor plan lenders require amounts borrowed for the purchase of a vehicle to be repaid within a short time period after the related vehicle is sold.

[Table of Contents](#)

As a result, we believe that it is important to understand the relationship between the cash flows of all of our floor plan notes payable and new vehicle inventory in order to understand our working capital and operating cash flow and to be able to compare our operating cash flow to that of our competitors (i.e., if our competitors have a different mix of trade and non-trade floor plan financing as compared to us). In addition, we include all floor plan borrowings and repayments in our internal

[Table of Contents](#)

operating cash flow forecasts. As a result, we use the non-GAAP measure "Adjusted cash flow provided by operating activities" (defined below) to compare our results to forecasts. We believe that splitting the cash flows of floor plan notes payable between operating activities and financing activities, while all new vehicle inventory activity is included in operating activities, results in significantly different operating cash flows than if all the cash flows of floor plan notes payable were classified together in operating activities.

Adjusted cash flow provided by operating activities includes borrowings and repayments of floor plan notes payable non-trade and used floor plan notes payable borrowing base changes. Adjusted cash flow provided by operating activities may not be comparable to similarly titled measures of other companies and should not be considered in isolation, or as a substitute for analysis of our operating results in accordance with GAAP. In order to compensate for these potential limitations, we also review the related GAAP measures. We believe that the adjustments related to cash flows associated with our used vehicle borrowing base, floor plan offset accounts and the impact of acquisitions and divestitures eliminates cash flow volatility and provides an adjusted operating cash flow metric that best reflects our results of operations and our management of inventory and related financing activities.

We have provided below a reconciliation of cash flow provided by operating activities as if all changes in floor plan notes payable, except for (i) borrowings associated with acquisitions and repayments associated with divestitures and (ii) borrowings and repayments associated with the purchase of used vehicle inventory and (iii) changes in the floor plan offset accounts were classified as an operating activity for both floor plan notes payable - non-trade and floor plan notes payable - trade.

Operating Activities—

Net cash provided by operating activities totaled \$239.8 million \$177.1 million and \$664.4 million \$171.7 million, for the nine three months ended September 30, 2023 March 31, 2024 and 2022, 2023, respectively. Adjusted cash flow provided by operating activities totaled \$513.6 million \$208.7 million and \$781.6 million \$243.9 million, for the nine three months ended September 30, 2023 March 31, 2024 and 2022, 2023, respectively. Adjusted cash flow provided by operating activities includes net income, adjustments to reconcile net income to net cash provided by operating activities, changes in working capital, changes in used vehicle borrowing base, changes in floor plan notes payable—non-trade and trade, excluding the impact of offsets, and excluding operating cash flows associated with acquisitions and divestitures related to loaner vehicles and new vehicle inventories financed through floor plan notes payable—trade.

The \$268.0 million \$35.2 million decrease in adjusted cash flow provided by operating activities for the nine three months ended September 30, 2023 March 31, 2024 compared to the nine three months ended September 30, 2022 March 31, 2023, was primarily the result of the following:

- decrease in \$106.4 million \$19.8 million net income and non-cash adjustments to net income;
- \$129.9 89.9 million related to the increase a decrease in other current assets, net; accounts payable and accrued liabilities; and
- \$74.9 13.1 million related to sales volume and the timing of collection of accounts receivable and contracts-in-transit during 2023 2024 as compared to 2022, 2023.
- \$57.7 million related to a decrease in accounts payable and accrued liabilities; and
- \$27.8 million decrease in other long term assets and liabilities, net.

The decrease in our adjusted cash flow provided by operating activities was partially offset by:

- \$130.0 49.1 million related to an increase in inventory, net of floor plan notes payable, including both trade and non-trade, excluding offset and including used vehicle borrowing base changes adjusted for acquisitions and divestitures, divestitures;
- \$34.1 million related to the increase in other current assets, net; and
- \$5.3 million increase in other long term assets and liabilities, net.

Investing Activities—

Net cash used in investing activities totaled \$90.4 million \$13.6 million and \$55.2 million for the nine three months ended September 30, 2023 compared to net cash provided by investing activities of \$233.0 million for the nine months ended September 30, 2022. March 31, 2024 and 2023, respectively. Capital expenditures, excluding the purchase of real estate, were \$76.5 million \$25.7 million and \$62.5 million \$15.2 million for the nine three months ended September 30, 2023 March 31, 2024 and 2022, 2023, respectively.

During the three months ended March 31, 2024, we acquired real estate properties for \$67.4 million and also purchased previously leased real estate properties for \$11.9 million.

During the three months ended March 31, 2024, we sold one franchise (one dealership location) in Wilmington, Delaware for an aggregate purchase price of \$102.0 million.

We purchased \$20.1 million and \$44.1 million of debt securities during the three months ended March 31, 2024 and 2023, respectively.

We received proceeds of \$9.5 million and \$3.5 million from the sale of debt securities during the three months ended March 31, 2024 and 2023, respectively. We also received proceeds of \$0.6 million from the sale of equity securities during the three months ended March 31, 2023.

We expect that capital expenditures during 2023 2024 will total approximately \$185.0 million \$200.0 - \$225.0 million to upgrade or replace our existing facilities, construct new facilities, expand our service capacity, and invest in technology and equipment. In addition, as part of our capital allocation strategy, we continually evaluate opportunities to

purchase properties currently under lease and acquire properties in connection with future dealership relocations. No assurances can be provided that we will have or be able to access capital at times or on terms in amounts deemed necessary to execute this strategy.

During the nine months ended September 30, 2022, we paid \$5.0 million to settle obligations related to prior year acquisitions and acquired real estate properties for \$10.2 million.

During the nine months ended September 30, 2023, we sold one franchise (one dealership location) in Austin, Texas for an aggregate purchase price of \$30.7 million.

We purchased \$164.9 million and \$132.4 million of debt securities during the nine months ended September 30, 2023 and 2022, respectively. We did not purchase equity securities during the nine months ended September 30, 2023, and we purchased \$41.4 million of equity securities during the nine months ended September 30, 2022.

We also received proceeds of \$52.2 million and \$56.0 million from the sale of debt securities and \$51.8 million and \$49.5 million from the sale of equity securities, respectively, during the nine months ended September 30, 2023 and 2022, respectively.

During the nine months ended September 30, 2023, we received cash proceeds of \$16.3 million from the sale of real estate. During the nine months ended September 30, 2022, we did not sell any real estate assets.

As part of our capital allocation strategy, we continually evaluate opportunities to purchase properties currently under lease and acquire properties in connection with future dealership relocations. No assurances can be provided that we will have or be able to access capital at times or on terms in amounts deemed necessary to execute this strategy.

2023 Senior Credit Facility

On October 20, 2023, the Company and certain of its subsidiaries entered into a fourth amended and restated credit agreement with Bank of America, N.A. ("Bank of America"), as administrative agent, and the other lenders party thereto (the "2023 Senior Credit Facility"). The 2023 Senior Credit Facility amended and restated the Company's pre-existing third amended and restated credit agreement, dated as of September 25, 2019, among the Company, certain of its subsidiaries, Bank of America, as administrative agent, and the other lenders party thereto.

The 2023 Senior Credit Facility provides for the following, in each case subject to limitations on availability as set forth therein:

- **\$500.0 million revolving credit facility (the "Revolving Credit Facility");**
- **\$1,925.0 million new vehicle revolving floorplan facility (the "New Vehicle Floorplan Facility"); and**
- **\$375.0 million used vehicle revolving floorplan facility (the "Used Vehicle Floorplan Facility").**

In addition, subject to compliance with certain conditions, the 2023 Senior Credit Facility provides that the Company and its subsidiaries that are borrowers under the 2023 Senior Credit Facility (collectively, the "Borrowers") have the ability, at their option and subject to the receipt of additional commitments from existing or new lenders, to increase the size of the facilities by up to \$750.0 million in the aggregate.

Borrowings outstanding under the 2023 Senior Credit Facility bear interest, at the option of the Company, based on Daily Simple SOFR (as defined in the 2023 Senior Credit Facility) or the Base Rate, in each case plus an Applicable Rate. The Base Rate is the highest of (i) the Federal Funds Rate (as defined in the 2023 Senior Credit Agreement) plus 0.50%, (ii) the Bank of America prime rate, and (iii) Daily Simple SOFR plus 1.00% and (iv) 1.00%. Applicable Rate means with respect to the Revolving Credit Facility, a range from 1.00% to 2.00% for Daily Simple SOFR loans and 0.15% to 1.00% for Base Rate loans, in each case based on the Company's consolidated total lease adjusted leverage ratio.

Borrowings under the New Vehicle Floorplan Facility bear interest, at the option of the Company, based on Daily Simple SOFR plus 1.10%, or the Base Rate plus 0.10%. Borrowings under the Used Vehicle Floorplan Facility bear interest, at the option of the Company, based on Daily Simple SOFR plus 1.40% or the Base Rate plus 0.40%.

The 2023 Senior Credit Facility matures, and all amounts outstanding thereunder will be due and payable, on October 20, 2028.

Off Balance Sheet Arrangements

We had no off balance sheet arrangements during any of the periods presented other than those disclosed in Note 13 "Commitments and Contingencies" within the accompanying condensed consolidated financial statements.

Critical Accounting Policies and Estimates

Guarantor Financial Information

As of September 30, 2023 March 31, 2024, the Company had outstanding \$405.0 million of 4.500% Senior Notes due 2028 and \$445.0 million of 4.750% Senior Notes due 2030. The Senior Notes have been fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis, by each existing and future restricted subsidiary of the Company (the "Guarantor Subsidiaries"), with the exception of Landcar Administration Company, Landcar Agency, Inc. and Landcar Casualty Company and their respective subsidiaries (collectively, the "TCA Non-Guarantor Subsidiaries Subsidiaries"). The 2028 Notes and the 2030 Notes were required to be registered under the Securities Act of 1933 within 270 days of the closing date for the offering of each respective series. The Company completed the registration of the 2028 Notes and 2030 Notes in October 2020.

The following tables present summarized financial information for the Company and the Guarantor Subsidiaries on a combined basis after elimination of (i) intercompany transactions and balances among Asbury and the Guarantor Subsidiaries and (ii) assets, liabilities, and equity in earnings from and investments in any non-guarantor subsidiaries.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We are exposed to risk from changes in interest rates on a portion of our outstanding indebtedness. Based on \$90.5 million \$1.70 billion of total variable interest rate debt outstanding as of March 31, 2024 which includes our floor plan notes payable, amounts drawn on our used vehicle floor plan, and certain mortgage liabilities, outstanding as net of September 30, 2023, interest rate swaps, a 100 basis point change in interest rates could result in a change of as much as \$0.9 million \$17.0 million to our total annual interest expense in our condensed consolidated statements of income.

We periodically receive floor plan assistance from certain automobile manufacturers, which is accounted for primarily as a reduction in our new vehicle inventory cost. Floor plan assistance reduced our cost of sales for the nine three months ended September 30, 2023 March 31, 2024 and 2022 2023 by \$64.2 million \$23.0 million and \$65.1 million \$20.8 million, respectively. We cannot provide assurance as to the future amount of floor plan assistance and these amounts may be negatively impacted due to future changes in interest rates.

As part of our strategy to mitigate our exposure to fluctuations in interest rates, we have various interest rate swap agreements. All of our interest rate swaps qualify for cash flow hedge accounting treatment and do not contain any ineffectiveness.

We currently have six interest rate swap agreements. In January 2022, we entered into two new interest rate swap agreements with a combined notional principal amount Each of \$550.0 million. These these swaps are were designed to provide a hedge against changes in variable rate cash flows regarding fluctuations in the SOFR rate. All interest rate swap agreements with an inception date of 2021 and prior were amended on June 1, 2022 to provide a hedge against changes in variable rate cash flows regarding fluctuations in SOFR as compared to the previous benchmark rate of one-month LIBOR. The revisions to the interest rate swap agreements did not impact our hedge accounting. The following table provides information on the attributes of each swap as of September 30, 2023 March 31, 2024:

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"). Based on this evaluation, our principal executive officer and principal financial officer concluded that as of the end of such period such our disclosure controls and procedures were not effective solely as a result of a previously reported material weakness.

Notwithstanding the foregoing, there were no changes to previously issued financial statements and management did not identify any misstatements in our financial statements as a result of this material weakness. Our principal executive officer and principal financial officer believe that the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q fairly present, in all material respects, our financial condition, results of operations and cash flows as of and for the periods presented in accordance with United States Generally Accepted Accounting Principles ("US GAAP") March 31, 2024.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. Specifically, the material weakness is due to control deficiencies in the design of the user access reviews for segregation of duties ("SOD") configurations and appropriate administrative access for certain key applications at

the Larry H. Miller Dealerships ("LHM") and Total Care Auto, Powered by Landcar ("TCA"), businesses that we acquired in December 2021. Refer to Item 9A in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 for more information.

As previously described in Item 9A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2022, management is in the process of implementing its remediation plan. Our remediation efforts include the evaluation of the design of user access controls and SOD configurations for key applications at LHM and TCA. Where needed, access rights and assigned job responsibilities are being changed to resolve instances of inappropriate or excessive user access capabilities, and SOD conflicts. Additionally, key applications at LHM and TCA are beginning to adhere to the same standards of the Company's legacy ITGC environment. We expect that the material weakness will be fully remediated in 2023, once the remediated controls have operated for a sufficient period for management to conclude, through testing, that the controls are designed and operating effectively.

Changes in Internal Control Over Financial Reporting

Other than During the ongoing remediation quarter ended March 31, 2024, as part of our integration activities following the acquisition of the Jim Koons Dealerships ("Koons") in December 2023, we are evaluating and have begun to implement changes related to Koons' business process controls, IT general controls and IT infrastructure to more closely align with the standards of the Company's controls environment. In accordance with our integration efforts, described above, there we plan to incorporate Koons' operations into our internal control over financial reporting program within the time provided by the applicable rules and regulations of the U.S. Securities and Exchange Commission.

We also implemented a new cloud-based human resource information system during the quarter ended March 31, 2024. We implemented new or modified procedures and controls where appropriate and will continue to evaluate the design and operating effectiveness of internal control over financial reporting in subsequent periods.

There were no other changes in our internal control over financial reporting during the quarter ended September 30, 2023 March 31, 2024 that have materially affected, or are reasonably likely to materially affect, the Company's our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we and our dealerships may become involved

As of the date of this filing, there have been no additional material legal proceedings or material developments in various claims relating to, and arising out the legal proceedings disclosed in Part 1, Item 3, of our business Annual Report on Form 10-K for the year ended December 31, 2023. For more information, see Note 13 "Commitments and our operations. These claims may involve, but are not limited to, Contingencies" within the accompanying condensed consolidated financial and other audits by vehicle manufacturers or lenders, and certain federal, state, and local government authorities that relate primarily to (i) incentive and warranty payments received from vehicle manufacturers, or allegations of violations of manufacturer agreements or policies, (ii) compliance with lender rules and covenants and (iii) payments made to government authorities relating to federal, state, and local taxes, as well as compliance with other government regulations. Claims may also arise through litigation, government proceedings, and other dispute resolution processes. Such claims, including class actions, can relate to, but are not limited to, the practice of charging administrative fees, employment-related matters, truth-in-lending practices, contractual disputes, actions brought by governmental authorities and other matters. We evaluate pending and threatened claims and establish loss contingency reserves based upon outcomes we currently believe to be probable and reasonably estimable.

We currently do not anticipate that any known claim will materially adversely affect our financial condition, liquidity or results of operations. However, the outcome of any matter cannot be predicted with certainty, and an unfavorable resolution of one or more matters presently known or arising in the future could have a material adverse effect on our financial condition, liquidity or results of operations. statements..

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the risk factors that affect our business and financial results that are discussed in Part I, Item 1A, of our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 December 31, 2023. These factors could materially adversely affect our business, financial condition, liquidity, results of operations and capital position, and could cause our actual results to differ materially from our historical results or the results contemplated by the forward-looking statements contained in this report. There have been no material changes to such risk factors.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Share repurchases are implemented through purchases made from time to time in either the open market or private transactions. The share repurchases could include purchases pursuant to a written trading plan in accordance with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, which allows companies to repurchase shares of stock at times when they might otherwise be prevented from doing so by securities laws or under self-imposed trading blackout periods. The extent that the Company repurchases its shares, the number of shares and the timing of any repurchases will depend on general market conditions, legal requirements and other corporate considerations. The repurchase program may be modified, suspended or terminated at any time without prior notice.
