Main Street Capital Corporation

Corporate Overview and Investment Strategy

2nd Quarter – 2025

MAIN is a Principal Investor in Private Debt and Equity

Focus on unique Lower Middle Market debt and equity investment strategy, Asset Management Business and internally managed operating structure differentiates MAIN from other investment firms

Internally-managed Business Development Company (BDC)

- IPO in 2007
- Over \$8.4 billion in capital under management⁽¹⁾
 - Over \$6.5 billion internally at MAIN⁽¹⁾
 - Approximately \$1.9 billion as the investment adviser to external parties⁽¹⁾

Primarily invests in the under-served Lower Middle Market (LMM)

- Targets companies with annual revenue between \$10 million and \$150 million and annual EBITDA between \$3 million and \$20 million
- Provides one-stop financing solutions, including a combination of first lien, senior secured debt and equity financing

Proprietary debt investments in privately held companies typically owned or being acquired by a private equity fund (Private Loans)

- Primarily originated directly by MAIN or, to a lesser extent, through strategic relationships with other investment funds
- First lien, senior secured debt investments
- Targets companies with annual revenue between \$25 million and \$500 million and annual EBITDA between \$7.5 million and \$50 million

Attractive asset management advisory business

Significant management ownership / investment in MAIN

Headquartered in Houston, Texas

(1) Capital under management includes undrawn portion of debt capital and uncalled equity capital commitments as of June 30, 2025

MAIN is a Principal Investor in Private Debt and Equity

MAIN's unique investment strategy, efficient operating structure and conservative capitalization are designed to provide sustainable, long-term growth in recurring monthly dividends, meaningful quarterly supplemental dividends and long-term capital appreciation to our shareholders

Long-term focus on delivering our shareholders sustainable growth in net asset value and recurring dividends per share

Consistent cash dividend yield – dividends paid monthly

- MAIN has never decreased its monthly dividend rate
- 132% increase in monthly dividends from \$0.33 per share paid in Q4 2007⁽¹⁾ to declared dividends of \$0.765 per share for Q4 2025
- Supplemental dividends, paid or declared, in addition to monthly dividends, of \$1.20 per share during the last twelve months⁽²⁾

Owns two Small Business Investment Company (SBIC) Funds

- Main Street Mezzanine Fund (2002 vintage) and Main Street Capital III (2016 vintage)
- Provides access to 10-year, low cost, fixed rate U.S. government-backed leverage

Strong capitalization and liquidity position – stable, long-term debt and significant available liquidity to take advantage of opportunities

- Favorable opportunities in capital markets through issuer investment grade ratings of BBB-/Stable from both Fitch Ratings and Standard & Poor's Global Ratings
- Total SBIC debentures regulatory financing capacity of \$350.0 million, the maximum amount permitted under current U.S. Small Business Administration (SBA) regulations

(1) MAIN's Initial Public Offering, or IPO, occurred in October 2007

(2) Includes dividends paid or declared as of August 8, 2025

MAIN is a Principal Investor in Private Debt and Equity

Focus on LMM equity investments and efficient operating structure differentiates MAIN and provides opportunity for significant total returns for our shareholders

Equity investments in LMM portfolio provide the opportunity to grow net asset value (NAV) per share and generate recurring dividend income and periodic realized gains to support MAIN's dividend growth

- NAV growth of \$19.45 per share (or 151%) since 2007
- Cumulative net realized gains from LMM portfolio investments of \$175.9 million since MAIN's initial public offering⁽¹⁾
- Approximately \$6.32 per share in cumulative, pre-tax net unrealized appreciation on LMM portfolio as of June 30, 2025
- Realized gains provide opportunities for additional returns in excess of net investment income (NII)

Internally managed operating structure provides significant operating leverage

- Favorable ratio of total expenses, excluding interest expense, to average total assets of approximately 1.3%⁽²⁾
- Greater portion of gross portfolio returns are delivered to our shareholders
- Attractive and growing Asset Management Business benefits MAIN's shareholders
- Significant positive impact to NII
- Alignment of interests between MAIN management and our shareholders

(1) MAIN's Initial Public Offering, or IPO, occurred in October 2007

(2) Based upon the trailing twelve-month period ended June 30, 2025

MAIN Strategy Produces Differentiated Returns

Enhanced Value Proposition - Three Ways to Win are Better Than One

1. Sustain and Grow Dividends

- Efficient operating structure provides operating leverage to grow Distributable Net Investment Income (DNII)⁽¹⁾, and dividends paid, as investment portfolio and total investment income grow
- 132% increase in monthly dividends from \$0.33 per share paid in Q4 2007⁽²⁾ to declared dividends of \$0.765 per share for Q4 2025
- Never decreased regular monthly dividends (including through 2008/2009 recession and 2020/2021 COVID-19 pandemic)
- Paid or declared \$46.855⁽³⁾ per share in total dividends since IPO⁽²⁾ at \$15.00 per share (\$39.315⁽³⁾ per share in regular dividends and \$7.54⁽³⁾ per share in supplemental dividends)
- Multi-faceted investment strategy supports growth of dividends over various cycles and markets

2. Meaningfully Grow Net Asset Value (NAV) Per Share

- \$12.85 as of December 31, 2007⁽²⁾ to \$32.30 as of June 30, 2025 – 151% growth; CAGR of 5.4%
- Represents incremental economic return to investors beyond dividends
- MAIN's debt-focused peers (which comprises most BDCs) have not been able to generate NAV per share growth through the cycles
- Unrealized appreciation is a good proxy for future dividend growth without the need for additional capital through growing portfolio dividend income and periodic harvesting of realized gains from equity investments
- Ability to grow NAV per share provides opportunity for MAIN share price appreciation and additional shareholder returns

3. Supplement Growth in DNII⁽¹⁾ with Periodic Realized Gains

- LMM equity component of investment strategy provides opportunity for meaningful realized gains (analogous to PIK income on debt investments from cash flow perspective, but more tax efficient and without cap on upside)
- Realized gains validate the quality of MAIN's unrealized appreciation on its LMM equity investments
- Realized gains can be retained for future reinvestment due to MAIN's unique tax structure or paid to shareholders as dividends

(1) See reconciliation of DNII per share to NII per share on page 36 and Non-GAAP Information disclosures on page 46 of this presentation

(2) MAIN's Initial Public Offering, or IPO, occurred in October 2007

(3) Includes dividends paid or declared as of August 8, 2025

Historical Monthly Dividends, NAV and DNII⁽¹⁾⁽²⁾ Per Share

MAIN's unique focus on LMM equity investments provides the opportunity for significant NAV per share growth

MAIN's efficient operating structure provides significant operating leverage, greater dividends and greater overall returns for our shareholders

- In addition to the monthly dividends above, \$7.54 per share of supplemental dividends have been paid or declared since 2007 IPO⁽³⁾
- Annual return on equity averaging 14.4% from 2010 through the second quarter of 2025

(1) See reconciliation of DNII per share to NII per share on page 36 and Non-GAAP Information disclosures on page 46 of this presentation

(2) DNII for 2023, 2024 and the first quarter of 2025 has been revised to include the impact of excise tax and net investment income related federal and state income and other tax expenses previously included within a single disclosure of the total income tax provision; this correction was determined to be immaterial to all prior periods and had no impact on net increases in or net assets resulting from operations (i.e., net income) or the related per share amounts

(3) Includes dividends paid or declared as of August 8, 2025

LMM Investment Strategy

LMM investment strategy differentiates MAIN from its competitors and provides attractive risk-adjusted returns

MAIN's permanent capital structure as a publicly traded investment firm allows MAIN to maintain a long-term to permanent expected holding period for its LMM investments, providing significant benefits to both MAIN and our LMM portfolio companies

Investment Objectives

- Attractive cash yield from secured debt investments (12.5%⁽¹⁾ weighted-average cash coupon as of June 30, 2025); plus
- Dividend income, fair value appreciation and periodic capital gains from equity investments

Investments are structured for (i) protection of capital, (ii) high recurring income and (iii) meaningful capital gain opportunity

Focus on self-sponsored, “one-stop” financing opportunities

- Partner with business owners, management teams and entrepreneurs
- Provide highly customized financing solutions
- Recapitalization, buyout, growth and acquisition capital
- Extensive network of grass roots referral sources
- Strong and growing “Main Street” brand recognition / reputation

Investments have low correlation to the broader debt and equity markets and attractive risk-adjusted returns

Unique LMM strategy, combined with MAIN's perpetual capital structure and goal to be long-term partners, results in a highly diversified and high-quality investment portfolio

(1) Weighted-average cash coupon is calculated using the applicable cash interest rate as of June 30, 2025 and is weighted based upon the principal amount of each debt investment as of June 30, 2025; excludes amortization of deferred debt origination fees and accretion of original issue discount, any fees payable upon repayment of the debt investment and any debt investments on non-accrual status

LMM Investment Opportunity

MAIN targets LMM investments in established, profitable companies

Characteristics of LMM provide beneficial risk-reward investment opportunities

Large and critical portion of U.S. economy

- 245,000+ domestic LMM businesses⁽¹⁾

LMM is under-served from a capital perspective and less competitive

Inefficient asset class generates pricing inefficiencies

- Typical entry enterprise values between 4.5x – 7.0x EBITDA
- Typical entry leverage multiples between 2.0x – 4.0x EBITDA to MAIN debt investment

Partner relationship with the management teams of our portfolio companies vs a “commoditized vendor of capital”

(1) Source: U.S. Census 2022 – U.S. Data Table by Enterprise Receipt Size; 2022 County Business Patterns and Economic Census; includes Number of Firms with Enterprise Receipt Size between \$10,000,000 and \$99,999,999

Private Loan Investment Strategy

Private Loan portfolio investments are primarily debt investments in privately held companies which have primarily been originated directly by MAIN or, to a lesser extent, through strategic relationships with other credit funds on a collaborative basis (often referred to in the debt markets as “club deals” because of the small lender group size)

MAIN’s Private Loan investments are typically made to a company owned by or being acquired by a private equity fund

Investment Objectives

- Access proprietary investments with attractive risk-adjusted return characteristics
- Generate cash yield to support MAIN’s monthly dividend

Investment Characteristics

- Targets companies with annual revenue between \$25 million and \$500 million and annual EBITDA between \$7.5 million and \$50 million
- Proprietary investments primarily originated directly by MAIN or, to a lesser extent, through strategic relationships with other investment funds on a collaborative basis
- Current Private Loan portfolio companies have weighted-average EBITDA of approximately \$32.5 million⁽¹⁾

Investments in secured debt investments

- First lien, senior secured debt investments
- Floating rate debt investments

9% – 14% targeted gross yields

- Weighted-average effective yield of 11.4%⁽²⁾
- Net returns positively impacted by lower overhead requirements and modest use of leverage
- Floating rate debt investments provide matching with MAIN’s floating rate Credit Facilities⁽³⁾

(1) This calculation excludes six Private Loan portfolio companies as EBITDA is not a meaningful metric for these portfolio companies

(2) Weighted-average effective yield is calculated using the applicable interest rate as of June 30, 2025 and is weighted based upon the principal amount of each debt investment as of June 30, 2025; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

(3) The defined term and additional details for the Credit Facilities are included on page 40

Asset Management Business

MAIN's Asset Management Business (AMB) represents additional income diversification and the opportunity for greater shareholder returns

MAIN⁽¹⁾ is focused on growing its AMB

MAIN's internally managed operating structure provides MAIN's shareholders the benefits of the AMB

Growth of the AMB is expected to be primarily driven by MAIN's Private Loan investment strategy

MAIN⁽¹⁾ is the investment adviser to several third-party clients in the AMB

MAIN⁽¹⁾ is the investment adviser to and administrator of MSC Income Fund, Inc. (NYSE: MSIF), a publicly traded BDC focused on MAIN's Private Loan investment strategy⁽²⁾

- MAIN⁽¹⁾ provides asset management services, including sourcing, diligence and post-investment monitoring
- MAIN⁽¹⁾ receives management fees and incentive fees
 - Base management fee of 1.5% of total assets⁽²⁾
 - Incentive fees – 17.5% of net investment income above a hurdle rate with a 50% / 50% "catch-up" provision and 17.5% of net realized capital gains⁽²⁾
- MSIF is solely focused on co-investments with MAIN in the Private Loan investment strategy for investments in new portfolio companies; will continue to participate in follow-on investments in its existing portfolio companies

MAIN⁽¹⁾ is the investment adviser and administrator to two private funds, each of which is solely focused on MAIN's Private Loan investment strategy

Benefits to MAIN

- Highly predictable source of recurring base management fee income, with opportunity for upside through incentive fees
- No significant increases to MAIN's operating costs to provide services (utilize existing infrastructure and investment capabilities and leverage fixed costs)
- Monetizing the intangible value of the MAIN franchise
- Significant positive impact on MAIN's financial results
 - \$8.7 million contribution to net investment income in the second quarter of 2025⁽³⁾
 - \$16.6 million contribution to net investment income in the six months ended June 30, 2025⁽³⁾
 - \$34.3 million contribution to net investment income in the year ended December 31, 2024⁽³⁾
 - \$243.1 million of cumulative unrealized appreciation as of June 30, 2025

(1) Through MSC Adviser I, LLC (the External Investment Manager), MAIN's wholly-owned unconsolidated subsidiary

(2) In January 2025, MSIF completed a listing and follow-on equity offering of its shares of common stock; see *Note D — External Investment Manager* of MAIN's Form 10-Q for the quarterly period ended June 30, 2025 for additional details

(3) Contribution to Net Investment Income includes (a) dividend income received by MAIN from the External Investment Manager and (b) operating expenses allocated from MAIN to the External Investment Manager

MAIN Regulatory Framework

Highly regulated structure provides significant advantages and protections to our shareholders, including investment transparency, tax efficiency and beneficial leverage

Operates as a Business Development Company

- Regulated by the SEC - 1940 Act
- Publicly traded, private investment company

Regulated Investment Company (RIC) tax structure

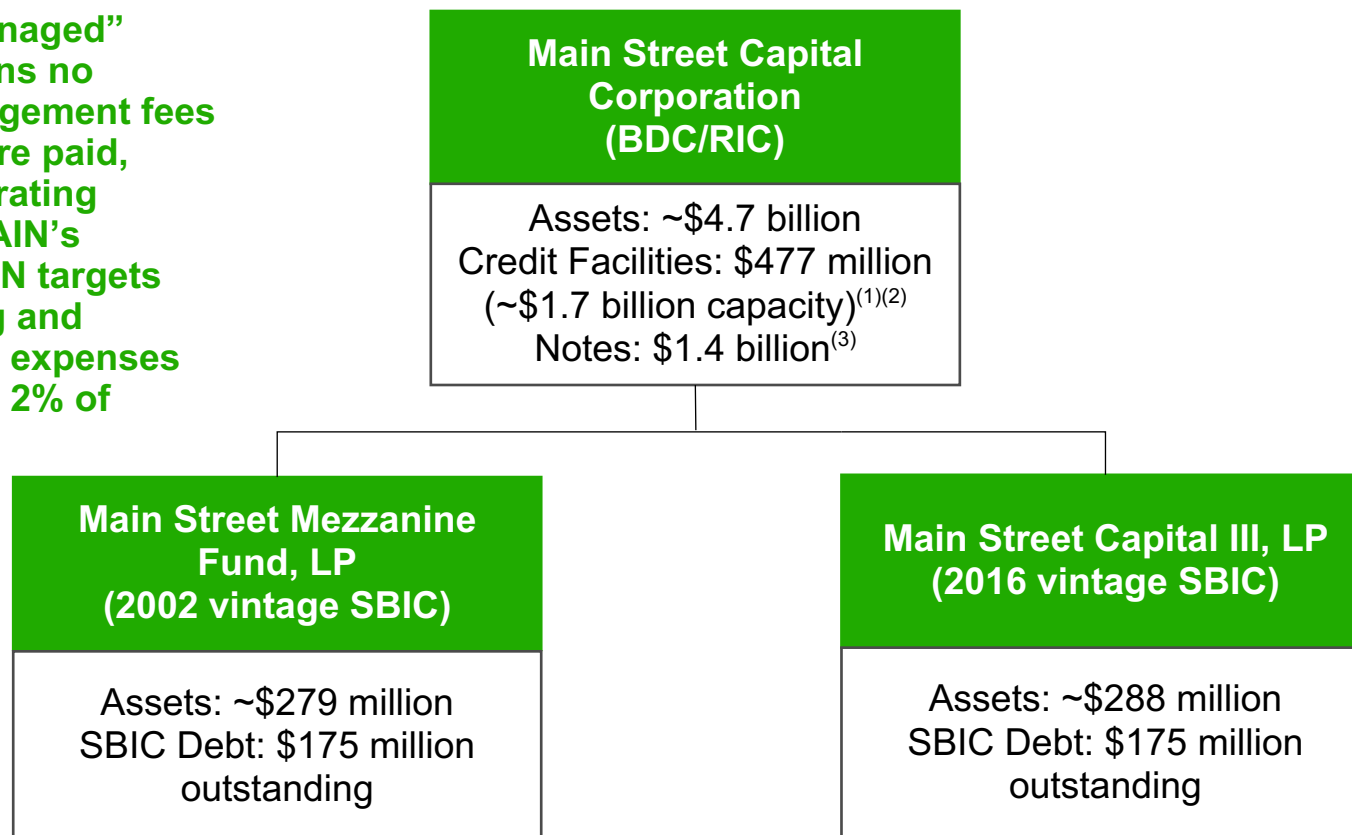

- Eliminates corporate level income tax
- Efficient tax structure providing high yield to investors
- Passes through qualified dividends and capital gains to investors

Small Business Investment Company (SBIC) subsidiaries

- Regulated by the SBA
- Access to low cost, fixed rate, long-term leverage guaranteed by the U.S. government
- Total SBIC debenture regulatory financing capacity of \$350.0 million
- Total outstanding leverage of \$350.0 million through two wholly-owned SBIC funds
- MAIN is a previous SBIC of the Year Award recipient

MAIN Corporate Structure – Internally Managed

“Internally managed” structure means no external management fees or expenses are paid, providing operating leverage to MAIN’s business; MAIN targets total operating and administrative expenses at or less than 2% of assets

(1) The defined term and additional details for the Credit Facilities are included on page 40

(2) As of June 30, 2025, MAIN’s Credit Facilities had \$1.7 billion in total commitments with accordion features which could increase total commitments up to \$2.5 billion

(3) Includes \$500.0 million of July 2026 Notes, \$400.0 million of June 2027 Notes, \$350.0 million of March 2029 Notes and \$150.0 million of December 2025 Notes

Monthly Dividends Per Share – Sustainable Growth

Recurring monthly dividend has never been decreased and has grown meaningfully (132%) since IPO⁽¹⁾

Based upon the most recently declared monthly dividends, the annual effective yield on MAIN's stock is 4.8%⁽²⁾

MAIN has also paid or declared supplemental dividends of \$7.54⁽⁴⁾ per share since IPO⁽¹⁾

Based upon the most recently declared monthly dividends and supplemental dividend, the annual effective yield on MAIN's stock is 6.6%⁽³⁾

Cumulative dividends paid or declared, including supplemental dividends, since IPO⁽¹⁾ (at \$15.00 per share) through fourth quarter of 2025 equal \$46.855 per share⁽⁴⁾

Trailing Twelve Months Monthly Dividends Per Share

(1) Initial Public Offering, or IPO, in October 2007

(2) As of and based upon the closing market price on August 6, 2025 of \$64.15 per share and the annualized most recently declared monthly dividends

(3) As of and based upon the closing market price on August 6, 2025 of \$64.15 per share and the annualized most recently declared monthly dividends and supplemental dividend

(4) Based upon dividends which have been paid or declared as of August 8, 2025

Total Dividends per Share – Significant Incremental Value to Shareholders

MAIN's dividend policy includes an expectation for:

- Consistent annual growth of its monthly dividends and meaningful coverage of such monthly dividends with recurring DNII⁽³⁾
- Meaningful supplemental dividends to the extent DNII⁽³⁾ significantly exceeds the monthly dividends or as necessary to manage MAIN's spillover taxable income as a result of DNII⁽³⁾ in excess of dividends paid and periodic realized gains

MAIN's dividend policy is intended to provide MAIN's shareholders significant comfort regarding the recurring nature of MAIN's monthly dividends and visibility to additional significant value through MAIN's supplemental dividends

Trailing Twelve Months Total Dividends Per Share

(1) Includes monthly dividends which have been paid or are payable on or before September 30, 2025; in August 2025, we also declared regular monthly dividends of \$0.765 per share to be paid in Q4 2025

(2) Includes supplemental dividends which have been declared as of August 8, 2025

(3) See reconciliation of DNII per share to NII per share on page 36 and Non-GAAP Information disclosures on page 46 of this presentation

LMM investment portfolio consists of a diversified mix of secured debt and lower cost basis equity investments

MAIN's long-term to permanent expected holding period for its LMM investments enhances the diversity and quality of its LMM investment portfolio

88 portfolio companies / \$2.7 billion in fair value

- 52% of total investment portfolio at fair value

Debt yielding 12.8%⁽¹⁾ (70% of LMM portfolio at cost)

- Over 99% of debt investments have first lien position
- 75% of debt investments earn fixed-rate interest
- Approximately 755 basis point net cash interest margin vs "matched" fixed interest rate on SBIC debentures and Notes Payable

Equity ownership in all LMM portfolio companies representing a 38% average ownership position (30% of LMM portfolio at cost)

- Lower entry multiple valuations, lower cost basis
- Opportunity for dividend income, fair value appreciation and periodic capital gains
- 61% of LMM portfolio companies⁽²⁾ with direct equity investment are currently paying dividends
- Fair value appreciation of equity investments supports Net Asset Value per share growth

LMM Investment Portfolio

LMM investment portfolio is a pool of high quality, seasoned assets with attractive risk-adjusted return characteristics

MAIN's long-term to permanent expected holding period for its LMM investments significantly enhances the quality of MAIN's LMM investment portfolio and drives significant fair value appreciation

Median LMM portfolio credit statistics⁽¹⁾:

- Senior leverage of 2.7x EBITDA through MAIN's debt position
- 2.9x EBITDA to senior interest coverage
- Total leverage of 2.7x EBITDA including debt junior in priority to MAIN
- Free cash flow deleveraging improves credit metrics and increases equity appreciation

Average investment size of \$30.3 million at fair value or \$23.9 million on a cost basis (less than 1% of total investment portfolio)

Opportunistic, selective posture toward new investment activity over the economic cycle

High quality, seasoned LMM portfolio

- MAIN has been invested in 30% (26 different companies) of its LMM portfolio companies for greater than 10 years (representing 13% of total cost basis and 19% of total fair value)
- Total LMM investment portfolio at fair value equals 127% of cost
- Equity component of LMM portfolio at fair value equals 197% of cost
- Majority of LMM portfolio companies have deleveraged and have experienced equity appreciation
 - 55 LMM portfolio companies with unrealized appreciation on equity investments
 - Cumulative pre-tax net unrealized appreciation on LMM equity investments of \$608.6 million

(1) These credit statistics exclude portfolio companies on non-accrual status and five companies for which EBITDA is not a meaningful metric

(1) Weighted-average effective yield is calculated using the applicable interest rate as of June 30, 2025 and is weighted based upon the principal amount of each debt investment as of June 30, 2025; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

(2) Percentages calculated based upon the number of LMM portfolio companies in each ownership category

Term and Total Interest Coupon of Existing LMM Debt Investments

Original Term⁽¹⁾

Total Interest Coupon⁽²⁾

Debt Investments generally have a 5-Year Original Term⁽¹⁾ and ~2.8 Year Weighted-Average Remaining Duration; Weighted-Average Effective Yield of 12.8%⁽⁴⁾ on LMM Debt Portfolio

- (1) Original terms can be extended if the portfolio company's objectives and performance align with MAIN's long-term to permanent holding period expectations, often providing significant growth and longer tenure to MAIN's debt investments
- (2) Interest coupon excludes amortization of deferred upfront fees, original issue discount, exit fees and any debt investments on non-accrual status
- (3) Floating interest rates generally include contractual minimum "floor" rates; interest rate of 12.6% is based on weighted-average principal balance of floating rate debt investments as of June 30, 2025
- (4) Weighted-average effective yield is calculated using the applicable interest rate as of June 30, 2025 and is weighted based upon the principal amount of each debt investment as of June 30, 2025; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

Private Loan Investment Portfolio

Private Loan investment portfolio provides a diversified mix of investments and sources of income to complement the LMM investment portfolio

87 investments / \$1.9 billion in fair value

- 38% of total investment portfolio at fair value

Average investment size of \$22.5 million⁽¹⁾ (less than 1% of total portfolio)

Investments in secured debt instruments

- 95%⁽¹⁾ of Private Loan portfolio is secured debt
- Over 99%⁽¹⁾ of Private Loan debt portfolio is first lien term debt

Debt yielding 11.4%⁽²⁾

- 97%⁽¹⁾ of Private Loan debt investments bear interest at floating rates⁽³⁾, providing matching with MAIN's floating rate Credit Facilities⁽⁴⁾
- Over 500 basis point effective interest margin vs "matched" floating rate on MAIN's Credit Facilities⁽⁴⁾

(1) As of June 30, 2025; based on cost

(2) Weighted-average effective yield is calculated using the applicable interest rate as of June 30, 2025 and is weighted based upon the principal amount of each debt investment as of June 30, 2025; includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes fees payable upon repayment of the debt instruments and any debt investments on non-accrual status

(3) Over 99% of floating interest rates on Private Loan debt investments are subject to contractual minimum "floor" rates

Efficient and Leverageable Operating Structure

MAIN's internally managed operating structure provides significant operating leverage and greater returns for our shareholders

“Internally managed” structure means no external management fees or expenses are paid

Alignment of interest between management and investors

- Greater incentives to maximize increases to shareholder value and rationalize debt and equity capital raises
- 100% of MAIN's management efforts and activities are for the benefit of MAIN investors

MAIN targets total operating expenses⁽¹⁾ as a percentage of average assets (Operating Expense to Assets Ratio) at or less than 2%

- Long-term actual results have significantly outperformed target
- An industry leading position in cost efficiency, with an Operating Expense to Assets Ratio of 1.3%⁽²⁾

Significant portion of total operating expenses⁽¹⁾ are non-cash

- Non-cash compensation expenses⁽³⁾ were 32.6%⁽²⁾ of total operating expenses⁽¹⁾
- Operating Expense to Assets Ratio of 0.9%⁽²⁾ excluding non-cash compensation expenses⁽³⁾

(1) Total expenses excluding interest expense

Stable, Long-Term Leverage – Significant Unused Capacity

MAIN maintains a conservative capital structure, with limited overall leverage and an intentional mix of secured, floating rate revolving debt and unsecured, fixed rate long-term debt

Capital structure is designed to correlate to and complement the expected duration and fixed/floating rate nature of investment portfolio assets

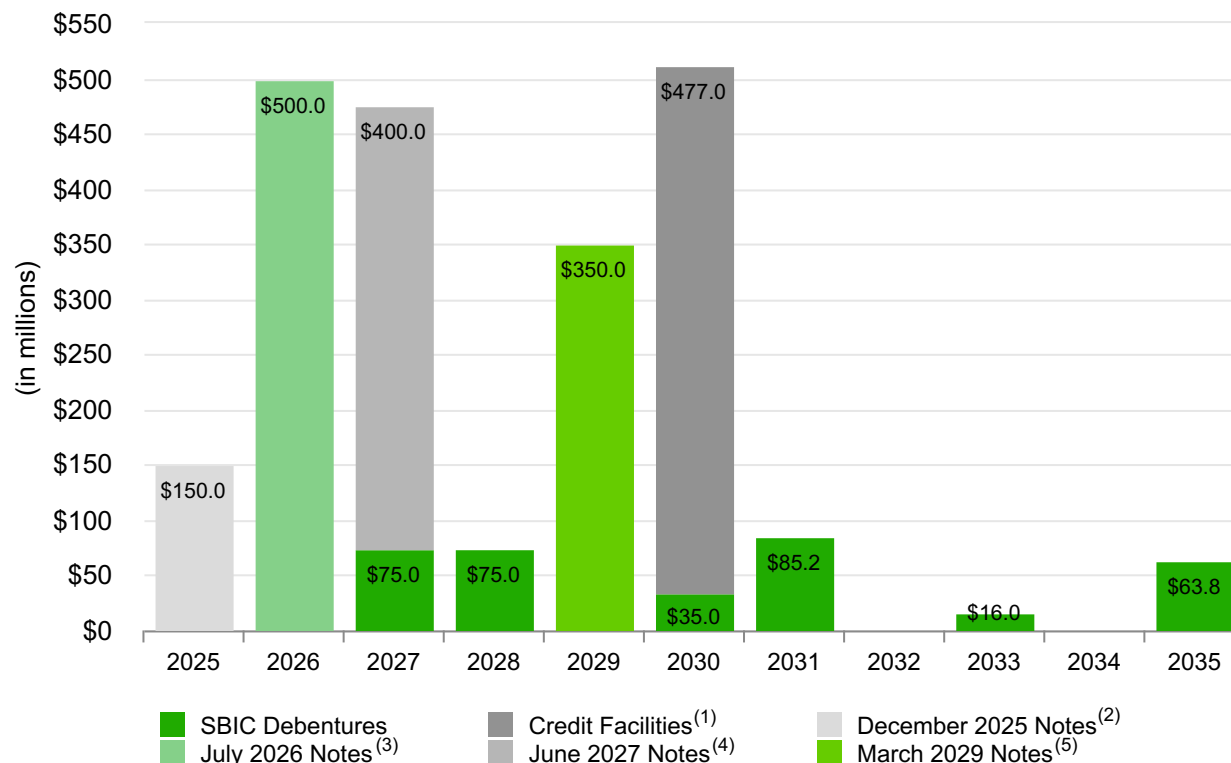

Facility	Interest Rate	Maturity	Principal Drawn
\$1.145 billion Corporate Facility ⁽¹⁾⁽³⁾	SOFR+1.775% floating (6.2% ⁽⁴⁾)	April 2030	\$301.0 million

- (1) As of June 30, 2025, MAIN maintained a corporate revolving line of credit (the Corporate Facility), which had \$1.145 billion in total commitments with an accordion feature with the right to request an increase up to \$1.718 billion; MAIN's Corporate Facility is fully revolving until April 2029, with a maturity date in April 2030
- (2) As of June 30, 2025, MAIN maintained a secured special purpose vehicle financing facility (the SPV Facility), which had \$600.0 million in total commitments with an accordion feature with the right to request an increase up to \$800.0 million; MAIN's SPV Facility is fully revolving until September 2028, with a maturity date in September 2030
- (3) Borrowings under the Corporate Facility and the SPV Facility (together, the Credit Facilities) are available to provide additional liquidity for investment and operational activities
- (4) Credit Facilities' rates reflect the rate based on SOFR effective for the contractual reset date of July 1, 2025
- (5) The \$400.0 million of outstanding notes bear interest at 6.50% per year with a yield-to-maturity of 6.34%
- (6) Based upon \$100.0 million and \$50.0 million in aggregate principal amount bearing interest at 7.84% and 7.53%, respectively
- (7) MAIN's SBIC licenses provide for total SBIC debenture capacity of \$350.0 million

Long-term Maturity of Debt Obligations

MAIN's conservative capital structure provides long-term access to attractively-priced and structured debt facilities

- Allows for investments in assets with long-term holding periods / illiquid positions and greater yields and overall returns
- Provides downside protection and liquidity through economic cycles
- Allows MAIN to be opportunistic during periods of economic uncertainty

(1) The defined term and additional details for the Credit Facilities are included on page 40

(2) Issued in December 2022, with a follow-on issuance in February 2023; redeemable at MAIN's option at any time, subject to certain make-whole provisions

(3) Issued in January 2021, with a follow-on issuance in October 2021; redeemable at MAIN's option at any time, subject to certain make-whole provisions

(4) Issued in June 2024, with a follow-on issuance in September 2024; redeemable at MAIN's option at any time, subject to certain make-whole provisions

(5) Issued in January 2024; redeemable at MAIN's option at any time, subject to certain make-whole provisions

Interest Rate Impact and Sensitivity

MAIN's financial results are subject to impact from changes in interest rates; MAIN's capital structure includes a majority of fixed rate debt obligations, while MAIN's investment portfolio includes a majority of floating rate debt investments with minimum interest rate floors

- 79% of MAIN's outstanding debt obligations have fixed interest rates⁽⁶⁾
- 66% of MAIN's debt investments bear interest at floating rates⁽⁶⁾, the majority of which contain contractual minimum index rates, or "interest rate floors" (weighted-average floor of approximately 130 basis points⁽⁷⁾)
- Results in increases in net investment income if market interest rates increase, and reductions to net investment income if market interest rates decrease

The following table illustrates the approximate annual changes in the components of MAIN's net investment income (NII) due to hypothetical increases (decreases) in interest rates⁽¹⁾⁽²⁾ (dollars in thousands, except per share data):

Basis Point Increase (Decrease) in Interest Rate	Increase (Decrease) in Interest Income	(Increase) Decrease in Interest Expense ⁽³⁾	Increase (Decrease) in NII from the External Investment Manager ⁽⁴⁾	Increase (Decrease) in NII	Increase (Decrease) in NII per Share ⁽⁵⁾
(100)	\$ (20,823)	\$ 4,770	\$ (384)	\$ (16,437)	\$ (0.18)
(75)	(15,485)	3,578	(265)	(12,172)	(0.14)
(50)	(10,291)	2,385	(152)	(8,058)	(0.09)
(25)	(5,146)	1,193	(38)	(3,991)	(0.04)
25	5,146	(1,193)	187	4,140	0.05
50	10,291	(2,385)	438	8,344	0.09
75	15,438	(3,578)	551	12,411	0.14
100	20,590	(4,770)	665	16,485	0.18

- (1) Assumes no changes in the portfolio investments or outstanding debt obligations existing as of June 30, 2025
- (2) Assumes that all SOFR and Prime rates would change effective immediately on the first day of the period; however, the actual contractual index rate reset dates will vary in future periods generally on either a monthly or quarterly basis across both our debt investments and our Credit Facilities (as defined on page 40) resulting in a delay in the realization of the increases or decreases in interest income or expense
- (3) The hypothetical (increase) decrease in interest expense would be impacted by the changes in the amount of debt outstanding under our Credit Facilities, with interest expense (increasing) decreasing as the debt outstanding under our Credit Facilities increases (decreases)
- (4) The NII contribution from the External Investment Manager is based on the performance of the assets managed by the External Investment Manager which may fluctuate due to changes in interest rates and other factors impacting the return on such managed assets; this change in NII contribution only represents the impact of interest rate changes and assumes no change to all other factors
- (5) Per share amount is calculated using shares outstanding as of June 30, 2025
- (6) As of June 30, 2025, based on par
- (7) Weighted-average interest rate floor calculated based on debt principal balances as of June 30, 2025

Although we believe that this analysis is indicative of the impact of interest rate changes to our NII as of June 30, 2025, the analysis does not take into consideration future changes in the credit market, credit quality or other business or economic developments that could affect our NII. Accordingly, we can offer no assurances that actual results would not differ materially from the analysis above.

Significant Management and Board of Directors Ownership / Investment

Significant equity ownership by MAIN's management team and its Board of Directors, coupled with internally managed structure, provides alignment of interest between MAIN's management and our shareholders

Non-GAAP Information

Distributable net investment income is net investment income as determined in accordance with U.S. Generally Accepted Accounting Principles, or U.S. GAAP, excluding the impacts of non-cash compensation expenses (as defined to the right). MAIN believes presenting distributable net investment income and the related per share amounts is useful and appropriate supplemental disclosure for analyzing our financial performance since non-cash compensation expenses do not result in a net cash impact to MAIN upon settlement. However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial performance.

Distributable net investment income before taxes is net investment income before taxes as determined in accordance with U.S. Generally Accepted Accounting Principles, or U.S. GAAP, excluding the impacts of non-cash compensation expenses (as defined to the right). MAIN believes presenting distributable net investment income before taxes and the related per share amounts is useful and appropriate supplemental disclosure for analyzing our financial performance since non-cash compensation expenses do not result in a net cash impact to MAIN upon settlement. However, distributable net investment income before taxes is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income before taxes or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial performance.

Non-cash compensation expenses consist of (i) share-based compensation and (ii) deferred compensation expense or benefit, both of which are non-cash in nature. Share-based compensation does not require settlement in cash. Deferred compensation expense or benefit does not result in a net cash impact to MAIN upon settlement. The appreciation (depreciation) in the fair value of deferred compensation plan assets is reflected in MAIN's Consolidated Statements of Operations as unrealized appreciation (depreciation) and an increase (decrease) in compensation expenses, respectively. MAIN believes presenting non-cash compensation expenses is useful and appropriate supplemental disclosure for analyzing its financial performance since non-cash compensation expenses do not result in a net cash impact to MAIN upon settlement. However, non-cash compensation expenses are non-U.S. GAAP measures and should not be considered as a replacement for compensation expenses, total expenses or other earnings measures presented in accordance with U.S. GAAP and should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial performance.

Net Debt to NAV Ratio is calculated as the Debt to NAV Ratio as determined in accordance with U.S. GAAP, except that total debt is reduced by cash and cash equivalents. The **Regulatory Debt to NAV Ratio** is calculated in the same manner as the Debt to NAV Ratio, except that outstanding SBIC debentures are excluded from the debt pursuant to an exemptive order MAIN received from the SEC. MAIN believes presenting the Net Debt to NAV Ratio is useful and appropriate supplemental disclosure for analyzing its financial position and leverage. MAIN believes presenting the Regulatory Debt to NAV Ratio is useful and appropriate supplemental disclosure because MAIN, a business development company, is permitted to exclude such borrowings from its regulatory asset coverage ratio calculation pursuant to an exemptive order received from the SEC. However, the Net Debt to NAV Ratio and the Regulatory Debt to NAV Ratio are non-U.S. GAAP measures and should not be considered as replacements for the Debt to NAV Ratio and other financial measures presented in accordance with U.S. GAAP. Instead, the Net Debt to NAV Ratio and the Regulatory Debt to NAV Ratio should be reviewed only in connection with such U.S. GAAP measures in analyzing MAIN's financial position.
