TotalEnergies Celebrates Fifty Years of Operations in Saudi Arabia – Riyadh, December 3, 2024 – On the occasion of French President Emmanuel Macron’s state visit to the Kingdom of Saudi Arabia and as the Company celebrates fifty years of operations in the country, TotalEnergies underlines the importance of its strategic partnership in the field of energy with the Kingdom under the patronage of His Royal Highness Prince Abdulaziz bin Salman Al Saud, Saudi Minister of Energy. The company deploys with success its multi energy strategy in the Kingdom with its flagship projects in the downstream oil sector thanks to its partnership with Aramco, and the development of renewables with various local partners. “On behalf of TotalEnergies, I would like to celebrate our long history in Saudi Arabia, our strategic partnership with Aramco in particular, as well as the quality, loyalty and commitment of our stakeholders in the Kingdom’s energy sector,” said Patrick Pouyann  , Chairman and CEO of TotalEnergies. “Saudi Arabia is emblematic of our multi-energy strategy aimed at supporting the energy transition of oil and gas producing countries. Our activities to produce low-carbon and renewable energies contribute to the country’s Green Initiative and Vision 2030’s objectives. So, we look forward to continuing to build beautiful things there for years come.”

– SATORP: TotalEnergies’ largest refining and chemicals platform in the world – Jointly held by Aramco (62.5%) and TotalEnergies (37.5%), SATORP is one of the world’s best performing integrated refining and petrochemicals platforms, with a production capacity of 460,000 barrels a day. – Located in Jubail and commissioned in 2014, SATORP is the first platform in the Middle East North Africa region to receive ISCC+ certification (July 2022), a sign of international recognition of its circular projects such as the production of polymers from an oil made of recycled plastic waste – In 2022, SATORP played a vital role in ensuring France’s energy security. When sanctions shut Russian diesel out of Europe, SATORP delivered around 300 000 tons of diesel to France, which has made it possible to guarantee France’s security of supply. – AMIRAL: an \$11 billion petrochemical complex – The construction of the Amiral petrochemical complex, which benefits from synergies with the SATORP platform, is already a third of the way through in line with its initial schedule, which is scheduled to start in 2027. The Amiral project alone, jointly developed by Aramco (62.5%) and TotalEnergies (37.5%), represents an investment of about \$11 billion. – Solar: our multi-energy strategy to serve the Kingdom’s objectives – TotalEnergies is currently building the Wadi Al Dawasir solar power plant (119 MW) with its partners Toyota Tshusho (40%) and Al Taqaa Zahid (40%). It will be connected to the grid and operational at the beginning of 2025. – In addition, the consortium composed of TotalEnergies and Saudi developer Aljomaih Energy and Water Company (AEW) has signed, in November 2024, a 25-year power purchase agreement (PPA) with Saudi Power Procurement Company (SPPC) for the Rabigh 2 solar project (300 MW). The solar power plant will be developed, built, owned and operated by the consortium with a grid connection planned for 2026. – Finally, TotalEnergies is developing smaller-scale solar projects through its 50%-owned subsidiary Safeer with Al Taqa Zahid for industrial and commercial customers. – Sustainable aviation fuels (SAF) : a production unit under study – After successful tests carried out in 2024, Aramco and TotalEnergies have embarked on a project to co-process used cooking oil to produce sustainable aviation fuels at SATORP from 2026. – In addition, Aramco, TotalEnergies and Saudi Investment Recycling Company (SIRC) are assessing the development of a sustainable aviation fuels (SAF) production unit in synergy with SATORP. – This collaboration will draw on the expertise of the three partners to develop a production unit of sustainable aviation fuels by converting local residues from the circular economy, such as used cooking oil and animal fats. *** – About TotalEnergies

Information concerning risk factors, that may affect TotalEnergies’ financial results or activities is provided in the most recent Registration Document, the French-language version of which is filed by TotalEnergies SE with the French securities regulator Autorit   des March  s Financiers (AMF), and in the Form 20-F filed with the United States Securities and Exchange Commission (SEC). – EX-99.3 4 tm2431996d1_ex99-3.htm EXHIBIT 99.3 – Exhibit 99.3 – PRESS RELEASE – Aramco, TotalEnergies and Saudi Investment Recycling Company (SIRC) assess the development of a sustainable aviation fuels unit – Riyadh, Saudi Arabia, December 3, 2024 – On the occasion of the visit of the President of the French Republic Emmanuel Macron to the Kingdom of Saudi Arabia, and in the presence of His Royal Highness Prince Abdulaziz bin Salman Al Saud, Saudi Minister of Energy, Aramco, TotalEnergies, and Saudi Investment Recycling Company (SIRC), the major player which collects and valorizes organic materials into sustainable products in Saudi Arabia, announced today the signing of a Joint Development and Cost Sharing Agreement (JDSCA) to assess the development of a sustainable aviation fuels (SAF) production unit in the Kingdom of Saudi Arabia. – This collaboration will draw on the expertise of the three partners to develop a production unit of sustainable aviation fuel by converting local residues from the circular economy, such as used cooking oil and animal fats. – Amin H. Nasser, Aramco President & CEO, said “With demand for air travel forecast to grow, it’s becoming imperative to address aviation emissions through lower-carbon alternatives such as sustainable aviation fuels. This is where major global energy companies like Aramco and TotalEnergies can play a part, by collaborating to help meet this need. Addressing transport emissions requires a wide range of approaches and Aramco is pursuing a number of potential innovative solutions, as we seek opportunities to make an impact. We already have a well-established partnership with TotalEnergies and this new collaboration demonstrates our intent to explore ways to leverage our combined strengths, in this case with a view to establishing a sustainable aviation fuels plant in the Kingdom with SIRC. As Saudi Arabia’s tourism and aviation sectors expand, this could potentially benefit both domestic and international airlines.” – Patrick Pouyann  , Chairman and Chief Executive Officer of TotalEnergies, said: “We are delighted to partnering with Aramco and SIRC to study the production of sustainable aviation fuels in the Kingdom. By leveraging our collective expertise, we can take a further step towards the decarbonization of air transport together. SAF is at the heart of our company’s transition strategy, as we strive to meet the aviation industry’s demand to reduce its carbon footprint. Saudi Arabia is emblematic of our multi-energy strategy aimed at supporting the energy transition of oil and gas producing countries. This SAF production project contributes to the country’s Green Initiative and Vision 2030’s objectives.” – Eng. Ziad Al-Sheha, Chief Executive Officer of SIRC, said: “In keeping with our commitment to supporting the ambitious

sustainability objectives of Vision 2030 and the Saudi Green Initiative, we have a keen focus on increasing waste conversion rates into renewable resources. The new partnership with Aramco and TotalEnergies to assess the feasibility of a renewable aviation fuels plant signifies a major leap forward in our mission. We also believe it will enrich and energize our efforts to lead the development of the Kingdom's circular economy.

PRESS RELEASE

Saudi Arabia: TotalEnergies and Aljomaih Energy & Water Company Awarded 300 MW Solar Project

Paris, December 3rd, 2024

On the occasion of the visit of the President of the French Republic Emmanuel Macron to the Kingdom of Saudi Arabia, and in the presence of His Royal Highness Prince Abdulaziz bin Salman Al Saud, Saudi Minister of Energy, The consortium comprising TotalEnergies and Saudi developer Aljomaih Energy and Water Company (AEW) has signed a 25-year Power Purchase Agreement (PPA) with the Saudi Power Procurement Company (SPPC) related to the 300 MW solar power project, Rabigh 2. This project is part of Round 5 of the National Renewable Energy Program (NREP) which is supervised by the Ministry of Energy aiming to achieve an optimal energy mix for electricity production by having gas and renewable energy at approximately 50% each by 2030 and reduce dependence on liquid fuels in electricity generation in line with Saudi Vision 2030. The solar plant will be developed, built, owned and operated by the consortium with a connection to the grid planned in 2026.

Together with our partner Aljomaih Energy and Water Company, we are thrilled to contribute to Saudi Arabia's target of increasing the share of renewables in its energy mix. Through our large participation in refining and petrochemical Satorp and Amiral projects, TotalEnergies is a close partner of the Kingdom of Saudi Arabia. This new project is another example of our multi-energy strategy to accompany Oil & Gas producing countries in their energy transition. This also demonstrates our ability to provide more energy with less emissions, while contributing to our growth in electricity and renewable energy," said Patrick Pouyanné, Chairman and CEO of TotalEnergies.

"We are proud to lead the development of the 300MW Rabigh 2 solar project, together with TotalEnergies, highlighting our shared commitment towards supporting Saudi Arabia's Green Initiative and Vision 2030. Leveraging our local market expertise and global reach, our mission is to play our role in advancing the energy transition underscored by our philosophy of partnership and excellence, and we would like to take this opportunity to thank the Saudi Power Procurement Company (SPPC) for their continued support and trust in Aljomaih Energy & Water," said Mr. Ibrahim Al Jomaih, Chairman of the Board of Directors of Aljomaih Energy and Water Company.

This renewable project is a new milestone for TotalEnergies in Saudi Arabia where TotalEnergies is currently building the 119 MW Wadi Al Dawasir solar power plant, which will start operation in early 2025.

TotalEnergies and electricity As part of its ambition to get to net zero by 2050, TotalEnergies is building a world class cost-competitive portfolio combining renewables (solar, onshore and offshore wind) and flexible assets (CCGT, storage) to deliver clean firm power to its customers. At the end of 2023, TotalEnergies' gross renewable electricity generation installed capacity was 22 GW. TotalEnergies will continue to expand this business to reach 35 GW in 2025 and more than 100 TWh of net electricity production by 2030.

About TotalEnergies TotalEnergies is a global integrated energy company that produces and markets energies: oil and biofuels, natural gas and green gases, renewables and electricity. Our more than 100,000 employees are committed to provide as many people as possible with energy that is more reliable, more affordable and more sustainable. Active in about 120 countries, TotalEnergies places sustainability at the heart of its strategy, its projects and its operations.

About Aljomaih Energy & Water Company Established in 2007, Aljomaih Energy & Water is a leading Saudi investor, developer and operator of utilities and infrastructure projects with a global presence, and assets portfolio of 10 GW of Power projects and 700,000m3/day of Water projects across the Kingdom of Saudi Arabia, the Middle East, Asia and Africa.

Aljomaih Energy & Water is a subsidiary of Aljomaih Holding Company, a diversified conglomerate with a legacy spanning nearly 90 years, acting as a major player across key sectors including Investment & Joint Ventures, Automotive & Equipment, Financial Services, Consumer Goods, Energy & Water and Real Estate.

With four local and overseas offices and a rapidly expanding team of specialists, Aljomaih Energy & Water Company contributes to accelerating its mission to support the economic and social advancement of communities through the delivery of vital high-quality, sustainable energy and water projects.

EX-99.5 6 tm2431996d1_ex99-5.htm EXHIBIT 99.5 Exhibit 99.5 PRESS RELEASE Integrated Power & Renewables: TotalEnergies Implements its Strategy of Capital Recycling with an Acquisition in Germany and a Farm Down in the US TotalEnergies acquires VSB and strengthens its renewables position in Germany TotalEnergies sells 50% of a 2 GW renewable portfolio in United States Paris, December 4, 2024 TotalEnergies announces the signing of an agreement with Swiss asset manager Partners Group for the acquisition of VSB Group, a Germany based renewable energy project developer for a consideration of 1,57 B€, (equity value and shareholder loan). On another side in line with its Integrated Power business model, TotalEnergies has signed an agreement with funds managed by Apollo (NYSE: APO) for the sale of 50% of a portfolio of 2 GW solar and battery energy storage systems (BESS) projects located in Texas. This transaction will provide 800 M\$ cash to TotalEnergies (550 M\$ equity from Apollo and 250 M\$ shareholder loan refinancing). Germany: TotalEnergies acquires VSB and consolidates its Integrated Power business VSB is a renewable leader in Europe with nearly 30 years of experience. Thanks to its 500 employees, VSB has built a recognized expertise and notable track record in the development of onshore wind power farms across Europe (more than 2 GW of developed capacity). VSB has over 475 MW of renewable capacity in operation or under construction mainly in Germany and France, and a pipeline of 18 GW of wind, solar and battery storage technologies mainly across Germany, Poland and France. This transaction will strengthen TotalEnergies Integrated Power value chain in Germany, which represents half of VSB's portfolio. This complements the recent acquisitions of battery storage developer Kyon Energy and energy manager Quadra Energy, as well as TotalEnergies' major offshore wind positions in northern Germany. In addition, this transaction will reinforce TotalEnergies' top 3 position in renewable power in France. The completion of the transaction remains subject to the approval of applicable merger control authorities. USA: TotalEnergies sells 50% of a 2 GW solar and BESS portfolio The portfolio consists of three solar projects with a total capacity of 1.7 GW, and two battery storage projects with a capacity of 300 MW. Following this transaction subject to certain conditions precedent, TotalEnergies will retain a 50% stake and remain the operator of the assets, which are Danish Fields, Cottonwood, and Hill Solar I. The electricity production of these projects has either already been sold to third parties or will be commercialized by TotalEnergies. "In line with our strategy, these transactions will enable us to optimize our capital allocation in renewables and contributes to improve the profitability of our Integrated Power business. We welcome the 500 employees of VSB Group and their leading onshore wind expertise in European markets. Their competences and assets will contribute to the development of our Integrated Power strategy in Europe, and notably in Germany", said Stéphane Michel, president of Gas, Renewables and Power at TotalEnergies. "Finally, we are looking forward to joining forces with Apollo as a partner in our renewable assets in Texas", he added. *** TotalEnergies' Integrated Power business model TotalEnergies is building a competitive portfolio that combines renewables (solar, onshore wind, offshore wind) and flexible assets (CCGT, storage) to deliver clean firm power to its customers. To achieve its 12% profitability target for the Integrated Power business, TotalEnergies plans to sell up to 50% of its wholly owned renewable assets once they reach commercial operation date (COD) and are derisked, allowing the company to maximize asset value and manage risks. By the end of 2024, TotalEnergies' gross renewable electricity generation installed capacity had reached over 24 GW. TotalEnergies will continue to expand this business to reach 35 GW in 2025 and more than 100 TWh of net electricity production by 2030. About TotalEnergies TotalEnergies is a global integrated energy company that produces and markets energies: oil and biofuels, natural gas and green gases, renewables and electricity. Our more than 100,000 employees are committed to provide as many people as possible with energy that is more reliable, more affordable and more sustainable. Active in about 120 countries, TotalEnergies places sustainability at the heart of its strategy, its projects and its operations. Security and Net Zero, said: "This investment launches a new era for clean energy in Britain - boosting energy security, backing industries, and supporting thousands of highly skilled jobs in Teesside and the North East. This is the Government's mission to make the UK a clean energy superpower in action- replacing Britain's energy insecurity with homegrown clean power that rebuilds the strength of our industrial heartlands."

About Northern Endurance Partnership (NEP) NEP is the CO2 transportation and storage provider for the East Coast Cluster (ECC). The NEP infrastructure will initially serve the Teesside-based carbon capture projects " N2T Power, H2Teesside and Teesside Hydrogen CO2 Capture " that were selected for first connection to NEP by Department of Energy Security and Net Zero (DESNZ) in March 2023 as part of the UK's cluster sequencing process for carbon capture usage and storage (CCUS). NEP has been granted the first Carbon Dioxide Transport and Storage Licence in the UK under the Transportation and storage Regulatory Investment (TRI) regime " a regulatory regime that unlocks private investment in long-term infrastructure by providing incentives and protections in developing a nascent CCUS market in the UK. NEP has also been granted a CO2 Storage Permit by the North Sea Transition Authority which will enable CO2 injection and storage to commence when the infrastructure is complete. bp (45%), Equinor (45%), and TotalEnergies (10%) are NEP shareholders.

About TotalEnergies and Carbon Storage TotalEnergies' focus is first to avoid emissions and then to reduce them by developing and deploying a systematic approach, asset-by-asset, to implement the best available technologies. For residual emissions, the Company is developing industrial projects for carbon storage. Backed by core competencies in large-scale project management, gas processing and geosciences, TotalEnergies is on track to enable significant decarbonization of hard-to-abate industrial businesses through projects such as Northern Lights in Norway, Northern Endurance Partnership in the UK, Bayou-Bend in the US, Aramis in the Netherlands and Bifrost in Denmark.

About TotalEnergies in the United Kingdom TotalEnergies has been present in the UK for more than 60 years, employing more than 1,800 people across the energy value chain. As one of the country's leading oil and gas operators, the Company operates around 30% of the UK Continental Shelf's gas production, with average daily production of 142,000 barrels of oil equivalent per day (boe/d) in 2023 in company share. TotalEnergies is deploying its Integrated Power strategy in the UK, which combines renewable power production and flexible power generation capacities. Its renewable portfolio in the country includes 1.1 GW of gross installed capacity (Seagreen offshore wind farm) and 4.5 GW under development. It was complemented in 2024 by the acquisition of gas-fired power plants (CCGT) with total output of 1.3 GW. The Company is one of the UK's largest suppliers of gas and electricity to businesses and the public sector. TotalEnergies also offers EV charging solutions and markets petroleum products including lubricants, aviation fuel, bitumen and specialty fluids.

About TotalEnergies TotalEnergies is a global integrated energy company that produces and markets energies: oil and biofuels, natural gas and green gases, renewables and electricity. Our more than 100,000 employees are committed to provide as many people as possible with energy that is more reliable, more affordable and more sustainable. Active in about 120 countries, TotalEnergies places sustainability at the heart of its strategy, its projects and its operations.

EX-99.9 10 tm2431996d1_ex99-9.htm EXHIBIT 99.9 Exhibit 99.9 PRESS RELEASE Oman: TotalEnergies and OQAE Sign Agreements to Develop 300 MW of Renewable Projects Paris/Oman, December 11, 2024 " In line with its multi-energy strategy in the Sultanate of Oman, TotalEnergies is pleased to announce, together with its partner OQ Alternative Energy (OQAE), the National Renewable Energy Champion, the signing of landmark agreements to develop 300 MW of renewable energy projects in the country. The electricity will be delivered through long-term Power Purchase Agreements (PPA) to Petroleum Development Oman (PDO), the leading exploration and production company in the Sultanate. With respectively 49% and 51% shares, TotalEnergies and OQAE will lead in realizing three renewable projects: oNorth Solar, a 100 MW solar project, located in Saih Nihaydah in northern Oman; oRiyah-1 and Riyah-2, two 100 MW wind projects, located in Amin and West Nimr fields in southern Oman. The construction will start in early 2025, and the electricity production in late 2026. These solar and wind projects will generate over 1.4 TWh of renewable electricity annually. "

"Following our recent successes in the Sultanate of Oman, notably with the launch of the Marsa LNG project in April, we are pleased to make a new step in the deployment of our integrated multi-energy strategy in Oman," said Olivier Jouny, Senior Vice President Renewables at TotalEnergies. "Together with our partner OQAE, we are eager to start the construction of these three projects which will provide long-term renewable electricity to PDO while supporting the Sultanate in its energy transition."

"We are delighted to sign these agreements, which further reinforce our steadfast commitment to achieving Net Zero emissions by 2050 in line with the objectives of Oman Vision 2040, mainly the diversification of energy sources to ensure sustainable energy security. PDO's journey towards sustainability was firmly established with previous groundbreaking initiatives, including the Amin Solar IPP Power Plant and the Rima Water Treatment Project. These projects, alongside the ones signed today, continue to reshape Oman's energy landscape by blending technological innovation with environmental stewardship. They also support our aim of sourcing 30% of our power capacity from renewables by 2026, reflecting our dedication to a cleaner, sustainable future," said Dr Aflah Al Hadhrami, Managing Director of PDO.

"In partnership with PDO and TotalEnergies, OQAE is proud to advance Oman's transition toward sustainable energy. As an energy transition enabler, we are delighted to lead the development of these projects supporting PDO to achieve their decarbonization plans. This significant milestone underscores the expertise and dedication of all stakeholders involved. As the National Champion for Clean Energy in Oman, OQAE is committed to supporting the nation's economic growth by developing innovative clean energy and low-carbon projects. With a focus on environmental stewardship and long-term prosperity, OQAE ensures the delivery of

sustainable solutions to meet Oman’s evolving industrial energy needs”, stated Ms. Najla Zuhair Al Jamali, Chief Executive of OQ Alternative Energy. *** About OQ Alternative Energy OQ’s Alternative Energy (AE) stands at the forefront of OQ’s energy transition initiatives, playing a vital role in realizing national objectives for achieving Net Zero emissions by 2050 aligned with Oman’s 2040 vision. Central to OQ AE’s strategy is the decarbonization of OQ’s assets, eventually extending to the decarbonization of Oman as a whole. OQ AE is committed to driving sustainable economic growth within Oman’s energy value chain and facilitating the energy transition through successful partnerships. As a national champion for renewable energy, OQ AE is dedicated to developing a robust clean energy portfolio and supporting Oman’s low carbon molecule investments. TotalEnergies and electricity As part of its ambition to get to net zero by 2050, TotalEnergies is building a world class cost-competitive portfolio combining renewables (solar, onshore and offshore wind) and flexible assets (CCGT, storage) to deliver clean firm power to its customers. By the end of 2024, TotalEnergies’ gross renewable electricity generation installed capacity had reached over 24 GW. TotalEnergies will continue to expand this business to reach 35 GW in 2025 and more than 100 TWh of net electricity production by 2030. About TotalEnergies Oman TotalEnergies has been present in Oman since 1937. The Company launched in 2024 the integrated Marsa LNG project (80%), which combines natural gas production from Block 10, a full electric liquefaction plant of 1Mt/y capacity intended to serve as the first LNG bunkering hub in the Middle East and a dedicated 300 MWp PV solar plant. TotalEnergies’ oil and gas production in Oman was 66 kboe/d in the third quarter 2024. TotalEnergies produces oil in Block 6 (4%), natural gas in Block 10 (26.55% via Marsa LNG LLC) as well as LNG through its participation in Oman LNG (5.54%)/Qalhat LNG (2.04% via Oman LNG). TotalEnergies is currently conducting exploration activities in Block 12 (50%, operator), and is appraising Block 11 (22.5%). TotalEnergies also contributes to the development of renewables in the country, such as the largest solar photovoltaic system built to provide power for a desalination plant in Oman, in the city of Sur, in joint-venture with Veolia. About TotalEnergies TotalEnergies is a global integrated energy company that produces and markets energies: oil and biofuels, natural gas and green gases, renewables and electricity. Our more than 100,000 employees are committed to provide as many people as possible with energy that is more reliable, more affordable and more sustainable. Integrated Power: TotalEnergies Sells 50% of its Shares in a Gas Power Plant in the United Kingdom Paris, December 16th, 2024 TotalEnergies announces the sale to EPUKI, the UK subsidiary of EPH, of 50% of its shares in West Burton Energy, a company wholly acquired in June 2024 with the announced intention to resale one half. West Burton Energy owns a 1.3 GW gas fired power plant and a 49 MW battery storage system in the United Kingdom. The plant will be operated by the joint venture between TotalEnergies and EPUKI. “We are delighted to partner with EPH, a recognized and experienced power producer in the United Kingdom. Thanks to this operation, we are adjusting our net flexible generation capacity at 700 MW, which is consistent with the capacity required to support our Renewables growth in the United Kingdom. This integration between flexible and renewable assets will contribute to the objective of our Integrated Power business to reach 12% return by 2030”, said Sophie Chevalier, Senior Vice President Flexible Power & Integration at TotalEnergies.

This document may contain forward-looking information and statements that are based on a number of economic data and assumptions made in a given economic, competitive and regulatory environment. They may prove to be inaccurate in the future and are subject to a number of risk factors. Neither TotalEnergies SE nor any of its subsidiaries assumes any obligation to update publicly any forward-looking information or statement, objectives or trends contained in this document whether as a result of new information, future events or otherwise. Information concerning risk factors, that may affect TotalEnergies' financial results or activities is provided in the most recent Registration Document, the French-language version of which is filed by TotalEnergies SE with the French securities regulator Autorité des Marchés Financiers (AMF), and in the Form 20-F filed with the United States Securities and Exchange Commission (SEC).
