# Forward-Looking Statements

This discussion of financial results includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, (the "1933 Act") and Section 21E of the Securities Exchange Act of 1934, as amended, (the "1934 Act"). Those sections of the 1933 Act and 1934 Act provide a "safe harbor" for forward-looking statements to encourage companies to provide prospective information about their financial performance so long as they provide meaningful, cautionary statements identifying important factors that could cause actual results to differ significantly from projected results. Our forward-looking statements include descriptions of plans or objectives of management for future operations, products or services, and forecasts of revenues, earnings or other measures of economic performance. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts. They often include the words "believe," "expect," "intend," "estimate" or words of similar meaning, or future or conditional verbs preceded by "will," "would," "should," "could" or "may." Forward-looking statements are based on management's current expectations regarding economic, legislative, and regulatory issues that may affect our earnings in future periods. Factors that could cause future results to vary materially from current management expectations include, but are not limited to, general economic conditions and the economic uncertainty in the United States and abroad, including economic or other disruptions to financial markets caused by the Trump administration's approach to tariffs and trade, acts of terrorism, war, impacts from inflation, supply chain disruptions, changes in interest rates (including the actions taken by the Federal Reserve to control inflation), California's unemployment rate, deposit flows, real estate values, and expected future cash flows on loans and securities; the impact of adverse developments at other banks, including bank failures, that impact general sentiment regarding the stability and liquidity of banks; costs or effects of acquisitions; competition; changes in accounting principles, policies or guidelines; changes in legislation or regulation; natural disasters (such as wildfires and earthquakes in our area); adverse weather conditions; interruptions of utility service in our markets for sustained periods; and other economic, competitive, governmental, regulatory and technological factors (including external fraud and cybersecurity threats) affecting our operations, pricing, products and services; and successful integration of acquisitions. These and other important factors detailed in various securities law filings made periodically by Bancorp, copies of which are available from us at no charge. Forward-looking statements speak only as of the date they are made. Bancorp undertakes no obligation to release publicly the result of any revisions to these forward-looking statements that may be made to reflect events or circumstances that occur after the date of this press release or to reflect the occurrence of unanticipated events.

# Second Quarter 2025 Overview

## Highlights

- Tax-equivalent net interest margin increased to 2.93% from 2.86%, mostly driven by new loan production at higher rates
- Net (loss) income and diluted EPS for 2Q'25 was (\$8.5) million and (\$0.53); excluding the loss on sale of securities was \$4.7 million and \$0.29, respectively, all other factors unchanged, using blended statutory tax rate of 29.56%, and \$5.7 million and \$0.36, respectively, using 2Q'25 effective tax rate of 23.78% (both non-GAAP)
- Sold \$185.8 million AFS securities resulting in pre-tax loss \$18.7 million; proceeds redeployed in securities with expected 13bp increase in annualized NIM and \$0.20 EPS accretion over 4 quarters and 4 year earnback, assuming 5% average yield
- Originated \$68.8 million in new loans (\$50.2 million funded) including \$49.1 million in commercial loans (\$41.2 million funded)

## Capital

- Strong capital allowed for the repurchase of \$2.2 million in shares
- Bancorp total risk-based capital remained strong at 16.25%
- Bancorp TCE / TA of 10.0%, 8.3% when adjusted for HTM securities<sup>1</sup>

## Key Operating Trends

- Tax-equivalent yield on interest-earning assets increased 6 basis points to 4.10% resulting from higher yields on both loans and investment securities
- Total cost of deposits down 1 bps at 1.28% (interest-bearing 2.24%) for Q2 and stable at 1.28% (interest-bearing 2.25%) for the month of June. 6/30/25 spot rate was 1.29% (interest-bearing 2.24%)
- Book value per share was \$27.21 and tangible book value per share<sup>1</sup> was \$22.55

## Deposits and Liquidity

- Total deposits decreased \$56.9 million, the majority was non-interest bearing deposits impacted by business expenses, payroll and distributions, asset purchases and seasonal outflows for tax payments
- Non-interest bearing deposits remained a strong 42.5% of total deposits
- Immediately available net funding of \$1.9 billion, representing 200% coverage of estimated uninsured deposits

## Credit Quality

- No provision for credit losses in Q2 compared to \$75 thousand in Q1
- Non-accrual loans decreased to 1.57% of total loans from 1.59% in the prior quarter
- Classified loans increased to 2.95% (from 2.77% last quarter) of total loans largely due to downgrades of two commercial real estate loans totaling \$3.9 million, partially offset by paydowns and payoffs totaling \$1.1 million

# Net Interest Margin Drivers

- Linked-quarter NIM increased 7 bps due primarily to higher loan and securities yields, largely due to the effects of new loan production at higher rates
- The Bank began deposit rate cuts in August '24 and continues making strategic pricing adjustments into July'25
- 2Q'25 non-maturity deposit modeling assumptions use average betas of 45% for rising rates (no lag) and 38% for falling rates (1-month lag)
- 2Q'25 actual non-maturity interest-bearing deposit beta was 35%
- Recent AFS securities restructuring expected to contribute 13bps to annualized NIM

# Robust Capital Ratios

As of 6/30/25

- We maintained high capital levels and are in a position of strength
- Total risk-based capital of 16.3%
- Tangible common equity ratio of 10.0%
- During 2Q'25 we repurchased 100,000 shares at an average price of \$21.72, totaling \$2.2 million

## Strong Liquidity: \$1.9 Billion in Net Availability

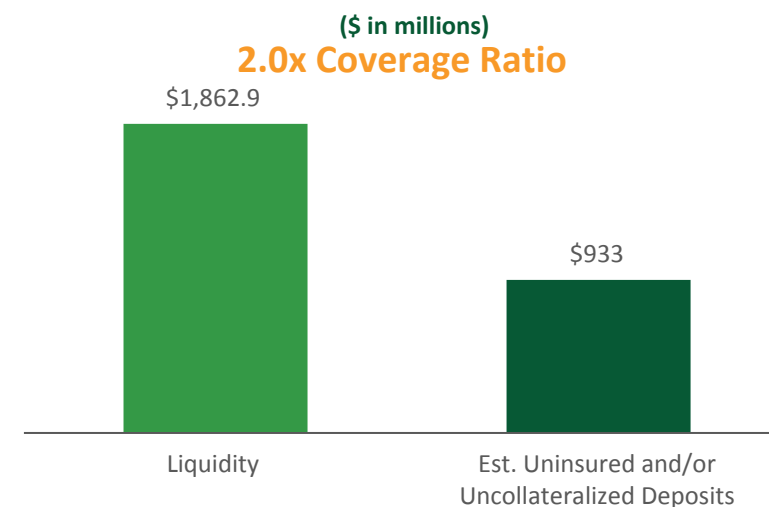

- Immediately available contingent funding represented 200% of estimated uninsured and/or uncollateralized deposits at June 30, 2025,
- The Bank has long-established minimum liquidity requirements regularly monitored using metrics and tools similar to larger banks, such as the liquidity coverage ratio and multi-scenario, long-horizon stress tests
- Deposit outflow assumptions for liquidity monitoring and stress testing are conservative relative to actual experience

# Prudent, Sustainable Model for Loan Growth

- Loan originations were at yields higher than those on paid off loans
- Notable pipeline growth and diversification from key hires, compensation program enhancements, and calling programs
- Sound underwriting produces a high-quality loan portfolio with low credit costs and stable earnings through cycles
- Extending credit and serving the needs of existing clients while ensuring new opportunities present the appropriate levels of risk and return

Total Loans (\$ in billions)

<sup>1</sup> Includes American River Bank loans acquired in 3Q21
