offered compensation obligations required to be included in shares of Company stock. A diluted EPS is computed using the same method as basic EPS and reflects the potential dilution which could occur if stock options and unvested shares were exercised and converted into common stock. The potentially diluted shares would then be included in the weighted average number of shares outstanding for the period using the treasury stock method.

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share calculations for the three and nine months ended September 30, 2024 and 2023:

	For the Three Months Ended September 30, 2024	For the Nine Months Ended September 30, 2024	For the Three Months Ended September 30, 2023	For the Nine Months Ended September 30, 2023
(In thousands, except per share data)				
Net income	\$6,185A	\$9,130A	\$9,570A	\$29,517A
Shares: Weighted average shares outstanding - basic	101,623,160A	101,968,294A	101,673,619A	102,993,215A
Weighted average diluted shares outstanding	208,888A	129,197A	139,634A	264,401A
Weighted average shares outstanding - diluted	101,832,048A	102,097,491A	101,813,253A	103,257,616A
Earnings per share: Basic	\$0.06A	\$0.09A	\$0.09A	\$0.29A
Diluted	\$0.06A	\$0.09A	\$0.09A	\$0.29A

During the three and nine months ended September 30, 2024 and 2023, the average number of stock options which could potentially dilute basic earnings per share in the future that were not included in the computation of diluted earnings per share because to do so would have been anti-dilutive totaled 1,027,893 and 975,690, and 744,335 and 642,166, respectively.

A Stock Repurchase Program On December 14, 2022, the Company announced that its Board of Directors authorized the Company's fifth stock repurchase program to acquire up to 3,000,000 shares, or approximately 2.7% of the Company's then issued and outstanding common stock, commencing upon the completion of the Company's fourth stock repurchase program. As of September 30, 2024, all shares were repurchased under this program. On May 25, 2023, the Company announced that its Board of Directors authorized the Company's sixth stock repurchase program to acquire up to 2,000,000 shares, or approximately 1.9% of the Company's then issued and outstanding common stock. As of September 30, 2024, there were 741,725 shares remaining to be purchased under this program. During the nine months ended September 30, 2024, the Company repurchased 365,116 shares at a cost of approximately \$5.9 million, or \$16.14 per share, under these programs. There were no repurchases during the three months ended September 30, 2024 under these programs. During the three and nine months ended September 30, 2023, the Company repurchased 518,539 shares at a cost of approximately \$9.0 million, or \$17.31 per share, and 4,104,073 shares at a cost of approximately \$78.3 million, or \$19.08 per share, respectively, under these programs. Repurchases have been paused to retain capital. Repurchased shares are held as treasury stock and are available for general corporate purposes.

The amortized cost and fair value of debt securities available for sale at September 30, 2024, by contractual final maturity, is shown below. Expected maturities may differ from contractual maturities due to prepayment or early call options exercised by the issuer.	September 30, 2024	Amortized Cost	Fair Value	(In thousands)		
One year or less	\$99,641A	\$99,662A	More than one year to five years	195,370A		
196,775A	More than five years to ten years	78,259A	66,457A	\$373,270A		
\$362,894A	Mortgage-backed securities and collateralized mortgage obligations	1,022,232A	909,570A	\$1,395,502A		
1,272,464A	Mortgage-backed securities and collateralized mortgage obligations totaling	\$1.0 billion at amortized cost, and \$909.6 million at fair value, are not classified by maturity in the table above as their expected lives are likely to be shorter than the contractual maturity date due to principal prepayments.	A A During the three months ended September 30, 2024, there were no sales, calls or maturities of debt securities available for sale. During the nine months ended September 30, 2024, proceeds from the sale of a debt security available for sale totaled \$3.5 million, resulting in no gross gains and \$1.3 million of gross losses. There was one matured debt security available for sale totaling \$10.0 million during the nine months ended September 30, 2024. There were no calls of debt securities available for sale during the nine months ended September 30, 2024. During the three months ended September 30, 2023, there were no proceeds from the sale of debt securities available for sale. During the nine months ended September 30, 2023, proceeds from the sale of debt securities available for sale totaled \$277.0 million, resulting in no gross gains and \$10.8 million of gross losses. There were no calls or matured debt securities available for sale during the three and nine months ended September 30, 2023. Debt securities available for sale having a carrying value of \$225.9 million and \$211.5 million, at September 30, 2024 and December 31, 2023, respectively, were pledged as security for public funds on deposit at Columbia Bank as required and permitted by law, pledged for outstanding borrowings at the Federal Home Loan Bank, and pledged for potential borrowings at the Federal Reserve Bank of New York. Debt securities available for sale having a carrying value of \$74.9 million and \$75.1 million, at September 30, 2024 and December 31, 2023, respectively, were pledged by Freehold Bank for outstanding borrowings at the Federal Home Loan Bank, and for potential borrowings at the Federal Reserve Bank of New York.	A A The following tables summarize the fair value and gross unrealized losses of those securities that reported an unrealized loss at September 30, 2024 and December 31, 2023 and if the unrealized loss position was continuous for the twelve months prior to those respective dates:

\$962,837A	\$(158,615)A	\$962,891A	\$(158,619)A	The number of securities in an unrealized loss position at September 30, 2024 totaled 303, compared with 329 at December 31, 2023. All temporarily impaired securities were investment grade as of September 30, 2024 and December 31, 2023, except two corporate debt securities which were rated BB+, totaling approximately \$8.4 million and \$8.1 million at September 30, 2024 and December 31, 2023, respectively. For available for sale securities, the Company assesses whether a loss is from credit or other factors and considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency and adverse conditions related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of cash flows is less than the amortized cost, a credit loss would be recorded through an allowance for credit losses, limited by the amount that the fair value is less than the amortized cost basis. There was no activity in

have not received a payment within 30 days of its contractual due date, or when the Company does not expect to receive all principal and interest payments owed substantially in accordance
with the terms of the loan agreement, regardless of the past due status. Non-accurring loans are returned to accrual status after there has been a sustained period of repayment performance and
both principal and interest are deemed collectible. The Company identifies loans that may need to be charged-off as a loss, by reviewing all delinquent loans, classified loans and other loans for
which management may have concerns about collectability.19COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESNotes to Unaudited Consolidated Financial Statements9.A A A Loans
Receivable and Allowance for Credit Losses (continued) At September 30, 2024 and December 31, 2023, non-accurrual loans totaled \$28.0 million and \$12.6 million, respectively. Included in
non-accurrual loans at September 30, 2024 and December 31, 2023, are 32 and 10 loans totaling \$23.6 million and \$1.6 million, respectively, which are less than 90 days in arrears. At
September 30, 2024 and December 31, 2023, there were no loans past due 90 days or more still accruing interest.Purchased credit-deteriorated ("PCD") loans were loans acquired at a
discount primarily due to deteriorated credit quality. These loans were initially recorded at fair value at acquisition, based upon the present value of expected future cash flows, with no related
allowance for credit losses. Loans acquired in a business combination are recorded in accordance with ASC Topic 326, which requires loans as of the acquisition date, that have experienced a
more than insignificant deterioration in credit quality since origination, to be classified as PCD loans.At September 30, 2024 and December 31, 2023, PCD loans acquired in the Stewardship
Financial Corporation ("Stewardship") acquisition totaled \$1.2 million and \$1.7 million, respectively. PCD loans acquired in the Freehold Bank acquisition totaled \$247,000 and \$2.8 million,
respectively, and PCD loans acquired in the RSI Bank acquisition totaled \$10.4 million and \$10.6 million, respectively. A A A We may obtain physical possession of real estate collateralizing a
residential mortgage loan via foreclosure or through an in-substance repossession. At September 30, 2024, the Company held one commercial property with a carrying value of \$2.0 million in
other real estate owned that was acquired through foreclosure on a nonresidential mortgage loan. At December 31, 2023, the Company had no real estate owned. At September 30, 2024 we
had four residential mortgage loans with a carrying value of \$1.2 million collateralized by residential real estate, which were in the process of foreclosure. At December 31, 2023, we had one
residential mortgage loan and one home equity loan with carrying values of \$576,000 and \$93,000, respectively, collateralized by residential real estate which were in the process of
foreclosure. The Company has made an accounting policy election to exclude accrued interest receivable from the amortized cost basis of loans receivable. Accrued interest receivable on loans
receivable is reported as a component of accrued interest receivable in the Consolidated Statement of Financial Condition, which totaled \$33.6 million and \$32.9 million at September 30, 2024
and December 31, 2023, respectively, and is excluded from the estimate of credit losses. The determination of the allowance for credit losses (\$e"ACL)e" on loans is considered a critical
accounting estimate by management because of the high degree of judgment involved in determining qualitative loss factors, the subjectivity of the assumptions used, and the potential for
changes in the forecasted economic environment. The ACL is maintained at a level management considers adequate to provide for estimated losses and impairment based upon an evaluation of
known and inherent risk in the loan portfolio. The ACL consists of two elements: (1) identification of loans that must be individually analyzed for impairment and (2) establishment of an ACL for
loans collectively analyzed. Portfolio segments are defined as the level at which an entity develops and documents a systematic methodology to determine its allowance for credit losses.
Management developed segments for estimating losses based on the type of borrower and collateral which is generally based upon federal call report segmentation. The segments have been
combined or sub-segments have been added as needed to ensure loans of similar risk profiles are appropriately pooled. We maintain a loan review system that provides a periodic review of the
loan portfolio and the identification of individually analyzed loans. The ACL for individually analyzed loans is based on the fair value of collateral or cash flows. While management uses the best
information available to make such evaluations, future adjustments to the allowance may be necessary if economic conditions differ substantially from the assumptions used in making the
evaluations. The ACL quantitative allowance for each segment is measured using a discounted cash flow methodology incorporating an econometric, probability of default (\$e"PD)e" and loss
given default (\$e"LGD)e" with distinct segment-specific multi-variate regression models applied. Expected credit losses are estimated over the life of the loans by measuring the difference
between the net present value of modeled cash flows and amortized cost basis. Contractual cash flows over the contractual life of the loans are the basis for the modeled cash flows, adjusted for
model defaults and expected prepayments and discounted at the loan-level effective interest rate. The contractual term excludes expected extensions, renewals, and modifications.20COLUMBIA
FINANCIAL, INC. AND SUBSIDIARIESNotes to Unaudited Consolidated Financial Statements9.A A A Loans Receivable and Allowance for Credit Losses (continued)Management estimates the
ACL using relevant and reliable information from internal and external sources, related to past events, current conditions, and a reasonable and supportable forecast. Historical credit loss
experience for both the Company and its segment-specific peers provides the basis for the estimate of expected credit losses. Credit losses over a defined period are converted to PD rate curves
through the use of segment-specific LGD risk factors that convert default rates to loss severity based on industry-level, observed relationships between the two variables for each segment,
primarily due to the nature of the underlying collateral. These risk factors were assessed for reasonableness against the Company's own loss experience and adjusted in certain cases when
the relationship between the Company's historical default and loss severity deviate from that of the wider industry. The historical PD curves, together with corresponding economic
conditions, establish a quantitative relationship between economic conditions and loan performance through an economic cycle. Using the historical relationship between economic conditions
and loan performance, management's expectation of future loan performance is incorporated using a single economic forecast of macroeconomic variables (i.e., unemployment, gross
domestic product, vacancy, and home price index). This forecast is applied over a period that management has determined to be reasonable and supportable. Beyond the period over which
management can develop or source a reasonable and supportable forecast, the model reverts to long-term average historical loss rates using a straight-line, time-based methodology. The
Company's current forecast period is six quarters, with a four-quarter reversion period to long-term average historical loss rates.After quantitative considerations, management applies
additional qualitative adjustments that consider the expected impact of certain factors not fully captured in the quantitative reserve. Qualitative adjustments include but are not limited to
concentrations of large loan balances, delinquency trends, change in collateral values within segments, and other considerations.The ACL is established through the provision for credit losses
that are charged to income, which is based upon an evaluation of estimated losses in the current loan portfolio, including the evaluation of individually analyzed loans. Charge-offs against the
ACL are taken on loans where management determines that the collection of loan principal and interest is unlikely. Recoveries made on loans that have been charged-off are credited to the
ACL. Although we believe we have established and maintained the ACL on loans at appropriate levels, changes in reserves may be necessary if actual economic and other conditions differ
substantially from the forecast used in estimating the ACL. Our financial results are affected by the changes in and the level of the ACL. This process involves our analysis of internal and
external variables, and it requires that we exercise judgment to estimate an appropriate ACL. As a result of the uncertainty associated with this subjectivity, we cannot assure the precision of
the amount reserved, should we experience sizable loan losses in any particular period and/or significant changes in assumptions or economic condition. We believe the primary risks inherent in
the portfolio are a general decline in the economy, a decline in real estate market values, rising unemployment, increasing vacancy rates, and increases in interest rates in the absence of
economic improvement or any other such factors. Any one or a combination of these events may adversely affect a borrower's ability to repay its loan, resulting in increased delinquencies and
loan losses. Accordingly, we have recorded loan credit losses at a level which is estimated to represent the current risk in its loan portfolio. For our non-performing loans, the allowance is
determined on an individual basis using the present value of expected cash flows, or for collateral dependent loans, the fair value of the collateral less estimated costs to sell. We continue to
assess the collateral of loans and update our appraisals on these loans on an annual basis. To the extent the property values decline, there could be additional losses on these non-performing
assets, which may be material. Management considered these market conditions in deriving the estimated ACL. Should economic difficulties occur, the ultimate amount of loss could vary from
our current estimate.21COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESNotes to Unaudited Consolidated Financial Statements9.A A A Loans Receivable and Allowance for Credit Losses

Credit Losses (Topic 326), Troubled Debt Restructurings and Vintage Disclosures, which eliminated the accounting guidance for troubled debt restructurings (\$e"TDR)s" while enhancing
disclosure requirements for certain loan refinancing and restructurings by creditors when a borrower is experiencing financial difficulty. This guidance was applied on a prospective basis.<

[illegible]

[illegible]

The Company records all derivatives included in other assets and liabilities on the Consolidated Statements of Financial Condition at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting, and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. See note 16 for disclosures related to the accounting treatment for derivatives. The fair value of the Company's derivatives is determined using discounted cash flow analysis using observable market-based inputs, which are considered Level 2 inputs.

A A A The following tables present the assets and liabilities reported on the Consolidated Statements of Financial Condition at their fair values at September 30, 2024 and December 31, 2023, by level within the fair value hierarchy:

COLUMBIA FINANCIAL, INC. AND SUBSIDIARIES Notes to Unaudited Consolidated Financial Statements 14.A A A Fair Value Measurements (continued) Significant Unobservable Inputs (Level 3)(In thousands)
Debt securities available for sale: Balance of recurring Level 3 assets - December 31, 2022 \$12,123A Change in fair value of Level 3 assets \$(1,523) Balance of recurring Level 3 assets - March 31, 2023 \$10,600A
Change in fair value of Level 3 assets \$481A Balance of recurring Level 3 assets - June 30, 2023 \$11,081A
Maturity of Level 3 assets \$(918) Change in fair value of Level 3 assets \$125A
Balance of recurring Level 3 assets - September 30, 2023 \$10,288A
The fair value of investments placed in Level 3 is estimated by discounting the expected future cash flows using reasonably available current rates for comparable new issue securities with similar structure, including original maturity, call date, and assumptions about risk. Discounted cash flow estimated valuations are subsequently validated against comparable structures as an approximation of value. Expected cash flows were projected based on contractual cash flows. At both September 30, 2024 and December 31, 2023, two private placement corporate debt securities classified as available for sale, and two private placement municipal obligations classified as available for sale were included in Level 3 assets. There were no transfers to Level 3 assets during the three and nine months ended September 30, 2023. At September 30, 2024, private placement corporate debt security cash flows were discounted to a market yield ranging from 12.00% to 12.50% (weighted average is 12.17%), and the cash flows for private placement municipal obligations were discounted to a market yield ranging from 3.07% to 3.69% (weighted average is 3.39%). The period end valuations were supported by an analysis prepared by an independent third party market participant and approved by management. Assets Measured at Fair Value on a Non-Recurring Basis A A A The valuation techniques described below were used to estimate fair value of financial instruments measured on a non-recurring basis at September 30, 2024 and December 31, 2023.
Individually Analyzed Collateral Dependent Loans / Impaired Loans A A A The fair value of collateral dependent loans that are individually analyzed or previously deemed impaired is measured based on the present value of expected future cash flows discounted at the loan's effective interest rate or, as a practical expedient, at the loan's observable market price or the fair value of the collateral if the loan is collateral dependent. For individually analyzed loans measured for impairment based on the fair value of the underlying collateral, fair value was estimated using a market approach. The Company measures the fair value of collateral underlying impaired loans primarily through obtaining independent appraisals that rely upon quoted market prices for similar assets in active markets. These appraisals include adjustments, on an individual case-by-case basis, to comparable assets based on the appraiser's market knowledge and experience, as well as adjustments for estimated costs to sell between 6% and 8%. For non-collateral dependent loans, management estimates fair value using discounted cash flows based on inputs that are largely unobservable. The Company classifies these loans as Level 3 within the fair value hierarchy.
4 COLUMBIA FINANCIAL, INC. AND SUBSIDIARIES Notes to Unaudited Consolidated Financial Statements 14.A A A Fair Value Measurements (continued) Other Real Estate Owned A A A A Other real estate owned is initially recorded at the lower of the recorded investment in the loan at the time of foreclosure or at fair value, less estimated costs to sell, when acquired. Fair value is generally based on an independent appraisal which includes adjustments to comparable assets based on the appraisers' market knowledge and experience. Subsequent write-downs in the value of other real estate owned is recorded though expense as incurred. Other real estate owned is considered Level 3 within the fair value hierarchy. Mortgage Servicing Rights, Net ("MSRs") A A A A A Mortgage servicing rights are carried at the lower of cost or estimated fair value. The estimated fair value of MSRs is obtained through an analysis of future cash flows, incorporating assumptions that market participants would use in determining fair value including market discount rates, prepayments speeds, servicing income, servicing costs, default rates and other market driven data, including the market's perception of future interest rate movements. The prepayment speed and the discount rate are considered two of the most significant inputs in the model. A significant degree of judgment is involved in valuing the mortgage servicing rights using Level 3 inputs. The use of different assumptions could have a significant effect on this fair value estimate. The following tables present the assets and liabilities reported on the Consolidated Statements of Financial Condition at their fair values on a non-recurring basis at September 30, 2024 and December 31, 2023, by level within the fair value hierarchy:

(4) Value of SBA servicing rights based on a discount rate of 15.00%. Other Fair Value Disclosures A A A The Company is required to disclose estimated fair value of financial instruments, both assets and liabilities on and off the balance sheet, for which it is practicable to estimate fair value. A description of the valuation methodologies used for those assets and liabilities not recorded at fair value on a recurring or non-recurring basis are set forth below.
Cash and Cash Equivalents A A A For cash and due from banks, federal funds sold and short-term investments, the carrying amount approximates fair value due to their nature and short-term maturities.
5 COLUMBIA FINANCIAL, INC. AND SUBSIDIARIES Notes to Unaudited Consolidated Financial Statements 14.A A A Fair Value Measurements (continued) Debt Securities Held to Maturity A A A For debt securities held to maturity, fair value was estimated using a market approach. The majority of the Company's securities are fixed income instruments that are not quoted on an exchange but are traded in active markets. Prices for these instruments are obtained through third-party data service providers or dealer market participants with which the Company has historically transacted both purchases and sales of securities. Prices obtained from these sources include market quotations and matrix pricing. Matrix pricing, a Level 2 input, is a mathematical technique used principally to value certain securities to a benchmark or to comparable securities. The Company evaluates the quality of Level 2 matrix pricing through comparison to similar assets with greater liquidity and evaluation of projected cash flows. As the Company is responsible for the determination of fair value, it performs quarterly analysis on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to assess the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services has not historically resulted in an adjustment in the prices obtained from the pricing service. The Company also holds debt instruments issued by the U.S. government and U.S. government-sponsored agencies that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs within the fair value hierarchy.
Federal Home Loan Bank Stock ("FHLB") A A A The fair value of FHLB stock is based on redemption at par value and can only be sold to the issuing FHLB, to other FHLBs, or to other member banks. As such, the Company's FHLB stock is recorded at cost, or par value, and is evaluated for impairment each reporting period by considering the ultimate recoverability of the investment rather than temporary declines in value. The Company classifies the estimated fair value as Level 2 within the fair value hierarchy.
Loans Receivable A A A Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type such as commercial mortgage, residential mortgage, commercial, construction, consumer, and other. Each loan category is further segmented into fixed and adjustable rate interest terms and into performing and non-performing categories. The fair value of performing loans was estimated using a combination of techniques, including a discounted cash flow model that utilizes a discount rate that reflects the Company's current pricing for loans with similar characteristics and remaining maturity, adjusted by an amount for estimated credit losses inherent in the portfolio at the balance sheet date. The rates take into account the expected yield curve, as well as an adjustment for prepayment risk, when applicable. The Company classifies the estimated fair value of its loan portfolio as Level 3 A A A The fair value for significant non-performing loans was based on recent external appraisals of collateral securing such loans, adjusted for the timing of anticipated cash flows. The Company classifies the estimated fair value of its non-performing loan portfolio as Level 3 A A A Deposits A A A The fair value of deposits with no stated maturity such as demand, money market, and savings and club deposits are payable on demand at each reporting date and classified as Level 2. The estimated fair value of certificates of deposit was based on the discounted value of contractual cash flows. The discount rate was estimated using the Company's current rates offered for deposits with similar remaining maturities.

AND SUBSIDIARIESNotes to Unaudited Consolidated Financial Statements16.Â Â Â Â Derivatives and Hedging ActivitiesÂ Â Â Â The Company uses derivative financial instruments as components of its market risk management, principally to manage interest rate risk. Certain derivatives are entered into in connection with transactions with commercial customers. Derivatives are not used for speculative purposes.Â All derivatives are recognized as either assets or liabilities in the Consolidated Statements of Financial Condition, reported at fair value and presented on a gross basis. Until a derivative is settled, a favorable change in fair value results in an unrealized gain that is recognized as an asset, while an unfavorable change in fair value results in an unrealized loss that is recognized as a liability.Â The Company generally applies hedge accounting to its derivatives used for market risk management purposes. Hedge accounting is permitted only if specific criteria are met, including a requirement that a highly effective relationship exists between the derivative instrument and the hedged item, both at inception of the hedge and on an ongoing basis. Changes in the fair value of effective fair value hedges are recognized in current earnings (with the change in fair value of the hedged asset or liability also recognized in earnings). Changes in the fair value of effective cash flow hedges are recognized in other comprehensive income (loss) until earnings are affected by the variability in cash flows of the designated hedged item. Ineffective portions of hedge results are recognized in current earnings. Changes in the fair value of derivatives for which hedge accounting is not applied are recognized in current earnings.The Company formally documents at inception all relationships between the derivative instruments and the hedged items, as well as its risk management objectives and strategies for undertaking the hedge transactions. This process includes linking all derivatives that are designated as hedges to specific assets and liabilities, or to specific firm commitments. The Company also formally assesses, both at inception of the hedge and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in the fair values or cash flows of the hedged items. If it is determined that a derivative is not highly effective or has ceased to be a highly effective hedge, the Company would discontinue hedge accounting prospectively. Gains or losses resulting from the termination of a derivative accounted for as a cash flow hedge remain in other comprehensive income (loss) and is (accreted) amortized to earnings over the remaining period of the former hedging relationship.Certain derivative financial instruments are offered to certain commercial banking customers to manage their risk of exposure and risk management strategies. These derivative instruments consist primarily of currency forward contracts and interest rate swap contracts.Â The risk associated with these transactions is mitigated by simultaneously entering into similar transactions having essentially offsetting terms with a third party. In addition, the Company executes interest rate swaps with third parties in order to hedge the interest rate risk of short-term FHLB advances.Â Â Â Â Â Interest Rate Swaps. At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Company had 86 and 80 interest rate swaps in place with commercial banking customers executed by offsetting interest rate swaps with third parties, with aggregated notional amounts of \$303.7 million and \$277.8 million, respectively. These derivatives are not designated as hedges and are not speculative. These interest rate swaps do not meet hedge accounting requirements. Â Â Â Â Â Â Â Â Â At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Company had 31 and 30 interest rate swaps with notional amounts of \$378.7 million and \$380.0 million, respectively, hedging certain FHLB advances. These interest rate swaps meet the cash flow hedge accounting requirements. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counter-party in exchange for the Company making fixed-rate payments over the life of the agreements without the exchange of the underlying notional amount. At DecemberÂ 31, 2023, the Company had two interest rate swaps hedged against pools of floating rate commercial loans with notional amounts totaling \$100.0 million. These swaps meet the cash flow hedge accounting requirements. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counter-party in exchange for the Company making fixed-rate payments over the life of the agreements without the exchange of the underlying notional amount. At SeptemberÂ 30, 2024, the Company did not have any interest rate swaps hedged against pools of floating rate commercial loans.At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, the Company had ten and eight interest rate fair value swaps with notional amounts totaling \$850.0 million and \$700.0 million, respectively. The Company is exposed to changes in the fair value of certain of its fixed-rate pools of assets due to changes in benchmark interest rates. The Company uses interest rate swaps to manage its exposure to changes in fair value on these instruments attributable to changes in the designated benchmark interest rate, the Secured Overnight Financing Rate ("SOFR"). 58COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESNotes to Unaudited Consolidated Financial Statements16.Â Â Â Â Derivatives and Hedging Activities (continued)Interest rate swaps designated as fair value hedges involve the payment of fixed-rate amounts to a counterparty in exchange for the Company receiving variable-rate payments over the life of the agreements without the exchange of the underlying notional amount. For the three and nine months ended SeptemberÂ 30, 2024 and 2023, the Company recorded hedge ineffectiveness associated with these contracts totaling \$(41,000) and \$37,000, \$6,000 and \$64,000, respectively. Â Â Â Â Â The tables below present the fair value of the Companyâ€™s derivative financial instruments as well as their classification in the Consolidated Statements of Financial Condition at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023:September 30, 2024Asset DerivativeLiability DerivativeConsolidated Statements of Financial ConditionFair ValueConsolidated Statements of Financial ConditionFair Value(In thousands)Derivatives:Interest rate products - designated hedgesOther Assets\$1,831Â Other Liabilities\$16,939Â Interest rate products - non-designated hedgesOther Assets12,207Â Other Liabilities12,389Â Total derivative instruments\$14,038Â \$29,328Â December 31, 2023Asset DerivativeLiability DerivativeConsolidated Statements of Financial ConditionFair ValueConsolidated Statements of Financial ConditionFair Value(In thousands)Derivatives:Interest rate products - designated hedgesOther Assets\$5,394Â Other Liabilities\$11,530Â Interest rate products - non-designated hedgesOther Assets13,504Â Other Liabilities13,495Â Total derivative instruments\$18,898Â \$25,025Â For the three months ended SeptemberÂ 30, 2024 and 2023, (losses) gains of \$(241,000) and \$332,000, respectively, were recorded for changes in fair value of interest rate swaps with third parties. For the nine months ended SeptemberÂ 30, 2024 and 2023, (losses) gains of \$(191,000) and \$130,000, respectively, were recorded for changes in fair value of interest rate swaps with third parties.Â Â Â Â Â At SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, accrued interest was \$1.4 million and \$1.2 million.Â Â Â Â Â The Company has agreements with counterparties that contain a provision that if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default of its derivative obligations. Â Â Â Â Â At SeptemberÂ 30, 2024, the termination value of derivatives in a net liability position, which includes accrued interest, was \$15.3 million. The Company has collateral posting thresholds with certain of its derivative counterparties, and as of SeptemberÂ 30, 2024 has posted collateral of \$14.2 million against its obligations under these agreements. 59COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESNotes to Unaudited Consolidated Financial Statements16.Â Â Â Â Derivatives and Hedging Activities (continued)Fair Value Hedges of Interest Rate Risk. The Company is exposed to changes in the fair value of certain of its fixed-rate pools of assets due to changes in benchmark interest rates. The Company uses interest rate swaps to manage its exposure to changes in fair value on these instruments attributable to changes in the designated benchmark interest rate, SOFR. Interest rate swaps designated as fair value hedges involve the payment of fixed-rate amounts to a counterparty in exchange for the Company receiving variable-rate payments over the life of the agreements without the exchange of the underlying notional amount. For derivatives designated and that qualify as fair value hedges, the gain or loss on the derivative as well as the offsetting gain or loss on the hedged item attributable to the hedged risk are recognized in interest income. At SeptemberÂ 30, 2024, the following amounts were recorded on the Consolidated Statements of Financial Condition related to cumulative basis adjustment for fair value hedges:Carrying Amount of Hedged Assets/(Liabilities)Cumulative Amount of Fair Value Hedging Adjustment included in the Carrying Amount of Hedged Assets/(Liabilities)Carrying Amount of Hedged Assets/(Liabilities)Cumulative Amount of Fair Value Hedging Adjustment included in the Carrying Amount of Hedged Assets/(Liabilities)At SeptemberÂ 30, 2024At December 31, 2023(In thousands)Fair value interest rate products\$862,176Â \$12,176Â \$706,412Â \$6,412Â 17.Â Â Â Â Â Revenue RecognitionThe Company's revenue includes net interest income on financial instruments and non-interest income. Most of the Company's revenue is not within the scope of Accounting Standards Codification Topic 606 which does not apply to revenue associated with financial instruments, including interest income on loans and securities, which comprise the majority of the Company's revenue. Revenue-generating activities that are within the scope of this guidance are components of non-interest income. These revenue streams can generally be classified as demand deposit account fees, title insurance fees, insurance agency income and other fees. The following table presents non-interest income, segregated by revenue streams in-scope and out-of-scope of Topic 606, for the three and nine months ended SeptemberÂ 30, 2024 and 2023.Â For the Three Months Ended September 30,For the Nine Months Ended September 30,2024202320242023(In thousands)Non-interest incomeIn-scope of Topic 606:Demand deposit account fees\$1,695Â \$1,348Â \$4,698Â \$3,815Â Title insurance fees\$684Â \$629Â 1,935Â 1,840Â Insurance agency income\$84Â \$31Â 192Â 141Â Other non-interest income1,559Â 1,518Â 4,468Â 6,480Â Total in-scope non-interest income4,026Â 3,558Â 11,293Â 12,276Â Total out-of-scope non-interest income4,952Â 5,044Â 14,317Â 3,854Â Total non-interest income\$8,978Â \$8,602Â \$25,610Â \$16,130Â Â Â Â Â 60COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESNotes to Unaudited Consolidated Financial Statements17.Â Â Â Â Revenue Recognition (continued)Demand deposit account fees include monthly maintenance fees and service charges. These fees are generally derived as a result of either transaction-based or service-based services. The Company's performance obligation for these services is generally satisfied, and revenue recognized, at the time the transaction is completed, or the service rendered. Fees for these services are generally received from the customer either at the time of the transaction or monthly.Title insurance fees are generally recognized at the time the transaction closes or when the service is rendered.Columbia Insurance Services Inc. (formerly known as RSI Insurance Agency, Inc.) performs the function of an insurance intermediary, by introducing the policyholder and insurer for life and health, and property and casualty insurance, and is compensated by a commission fee for placement of an insurance policy. Commission and fees are generally recognized as of the effective date of the insurance policy. Commission revenues related to installment billings are recognized on the invoice date. Subsequent commission adjustments are recognized upon the receipt of notification from insurance companies concerning matters necessitating such adjustments. Other non-interest income includes check printing fees, traveler's check fees, gift card fees, branch service fees, overdraft fees, account analysis fees, other deposit related fees, wealth management related fee income which includes annuity fees, brokerage commissions, and asset management fees. Wealth management related fee income represent fees earned from customers as consideration for asset management and investment advisory services provided by a third party. The Company's performance obligation is generally satisfied monthly, and the resulting fees are recognized monthly based upon the month-end market value of the assets under management and the applicable fee rate. The Company does not earn performance-based incentives. The Company's performance obligation for these transaction-based services are generally satisfied, and related revenue recognized, at the time the transaction closes or when the service is rendered or a point in time when the service is completed.Also included in other fees are debit card and ATM fees which are transaction-based. Debit card revenue is primarily comprised of interchange fees earned when a customer's Company card is processed through a card payment network. ATM fees are largely generated when a Company cardholder uses a non-Company ATM, or a non-Company cardholder uses a Company ATM. The Company's performance obligation for these services is satisfied when the service is rendered. Payment is generally received at time of transaction or monthly.Out-of-scope non-interest income primarily consists of income from bank-owned life insurance, loan prepayment and servicing fees, net fees on loan level swaps, gains and losses on the sale of loans and securities, credit card interchange income, and changes in the fair value of equity securities. None of these revenue streams are subject to the requirements of Topic 606.18.Â Â Â Â Subsequent EventsÂ Â Â Â The Company has evaluated events subsequent to SeptemberÂ 30, 2024 and through the financial statement issuance date of NovemberÂ 8, 2024, and concluded that no material events occurred that would require disclosure. 61COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESItem 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONSForward-Looking StatementsÂ Â Â Â Certain statements contained herein are â€œforward-looking statementsâ€ within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements may be identified by reference to a future period or periods, or by the use of forward-looking terminology, such as â€œmay,â€ â€œwill,â€ â€œbelieve,â€ â€œexpect,â€ â€œestimate,â€ "project," "intend," â€œanticipate,â€ â€œcontinue,â€ or similar terms or variations on those terms, or the negative of those terms. Forward-looking statements are subject to numerous risk factors and uncertainties, including, but not limited to, those set forth in Item 1A of the Company's Annual Report on Form 10-K as supplemented by its Quarterly Reports on Form 10-Q, and those related to the economic environment, particularly in the market areas in which the Company operates, competitive products and pricing, as well as its impact on fiscal and monetary policies of the U.S. Government, changes in government regulations affecting financial institutions, including regulatory fees and capital requirements, changes in prevailing interest rates, higher inflation and its impact on national and local economic conditions, the Company's ability to successfully implement its business strategy, acquisitions and the integration of acquired businesses, credit risk management, asset-liability management, the financial and securities markets, the impact of failures or disruptions in or breaches of the Company's operational or security systems, data or infrastructure, or those of third parties, including as a result of cyber attacks or campaigns, and the availability of and costs associated with sources of liquidity.Â Â Â Â The Company cautions readers not to place undue reliance on any such forward-looking statements which speak only as of the date made. The Company also advises readers that the factors listed above could affect the Companyâ€™s financial performance and could cause the Companyâ€™s actual results for future periods to differ materially from any opinions or statements expressed with respect to future periods in any current statements. The Company does not have any obligation to update any forward-looking statements to reflect any subsequent events or circumstances after the date of this statement.Comparison of Financial Condition at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023 Total assets increased \$40.9 million, or 0.4%, to \$10.7 billion at SeptemberÂ 30, 2024 as compared to \$10.6 billion at DecemberÂ 31, 2023. The increase in total assets was primarily attributable to an increase in debt securities available for sale of \$178.9 million, and an increase in

other assets of \$21.3 million, partially offset by a decrease in cash and cash equivalents of \$139.7 million, and a decrease in loans receivable, net, of \$20.7 million. Cash and cash equivalents decreased \$139.7 million, or 33.0%, to \$283.5 million at September 30, 2024 from \$423.2 million at December 31, 2023. The decrease was primarily attributable to purchases of securities of \$283.5 million and repurchases of common stock under our stock repurchase program of \$5.9 million, partially offset by proceeds from principal repayments on securities of \$119.3 million, and repayments on loans receivable. Debt securities available for sale increased \$178.9 million, or 16.4%, to \$1.3 billion at September 30, 2024 from \$1.1 billion at December 31, 2023. The increase was attributable to the purchases of debt securities available for sale of \$266.9 million, consisting primarily of U.S. government obligations and mortgage-backed securities, and a decrease in gross unrealized losses on securities of \$34.3 million, partially offset by repayments on securities of \$107.8 million, maturities of securities of \$10.0 million, and the sale of one corporate debt security with a carrying value of \$4.8 million, resulting in a loss of \$1.3 million. Loans receivable, net, decreased \$20.7 million, or 0.3%, with a balance of \$7.8 billion at both September 30, 2024 and December 31, 2023. One-to-four family real estate loans, multifamily loans, commercial real estate loans, and home equity loans and advances decreased \$55.6 million, \$10.2 million, \$64.3 million, and \$5.6 million, respectively, partially offset by increases in construction loans of \$67.3 million and commercial business loans of \$53.4 million. The allowance for credit losses for loans increased \$3.4 million to \$58.5 million at September 30, 2024 from \$55.1 million at December 31, 2023. Other assets increased \$21.3 million or 6.9%, to \$329.7 million at September 30, 2024 compared to \$308.4 million at December 31, 2023, primarily due to a \$10.4 million increase in the Company's pension plan balance, as the return on plan assets outpaced the growth in the plan's obligations and a \$12.6 million increase in the Company's collateral posting with certain of its derivative counterparties. Total liabilities increased \$2.1 million, or 0.02%, totaling \$9.6 billion at both September 30, 2024 and December 31, 2023. The increase was primarily attributable to an increase in total deposits of \$111.5 million, or 1.4%, partially offset by a decrease in borrowings of \$108.1 million, or 7.1%. The increase in total deposits primarily consisted of an increase in certificates of deposit and interest-bearing demand deposits of \$195.7 million, and \$13.8 million, respectively, partially offset by decreases in non-interest-bearing demand deposits, money market accounts, and savings and club accounts of \$31.2 million, \$16.3 million, and \$50.5 million, respectively. The Bank has priced select certificates of deposit accounts very competitively to the market to attract new customers.

62COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESItem 2. **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**The \$108.1 million decrease in borrowings was primarily driven by a net decrease in short-term borrowings of \$167.8 million and repayments of \$175.5 million in maturing long-term borrowings, partially offset by an increase in long-term borrowings of \$235.2 million. Total stockholders' equity increased \$38.8 million, or 3.7%, to \$1.1 billion at September 30, 2024 as compared to \$1.0 billion at December 31, 2023. The increase in total stockholders' equity was primarily attributable to net income of \$9.6 million, a \$5.5 million increase in stock based compensation and an increase of \$27.7 million in other comprehensive income, which includes changes in unrealized losses on debt securities available for sale and unrealized gains on swap contracts, net of taxes, included in other comprehensive income. These increases were partially offset by the repurchase of 365,116 shares of common stock at a cost of approximately \$5.9 million, or \$16.14 per share, under our stock repurchase program. Repurchases have been paused in order to retain capital.

Comparison of Results of Operations for the Three Months Ended September 30, 2024 and September 30, 2023 Net income of \$6.2 million was recorded for the quarter ended September 30, 2024, a decrease of \$2.9 million, or 32.3%, compared to \$9.1 million for the quarter ended September 30, 2023. The decrease in net income was primarily attributable to a \$3.2 million decrease in net interest income, and a \$1.7 million increase in provision for credit losses, partially offset by a \$376,000 increase in non-interest income, and a \$1.6 million decrease in income tax expense. Net interest income was \$45.3 million for the quarter ended September 30, 2024, a decrease of \$3.2 million, or 6.7%, from \$48.5 million for the quarter ended September 30, 2023. The decrease in net interest income was primarily attributable to a \$20.7 million increase in interest expense on deposits and borrowings, partially offset by a \$17.5 million increase in interest income. The increase in interest income was primarily due to an increase in the average balance of total interest-earning assets coupled with an increase in average yields due to market interest rate increases that occurred throughout 2023, and adjustable rate securities and loans tied to various indexes that repriced higher in the 2024 period. The 50 basis point decrease in market rates in September 2024 did not significantly impact the 2024 period results. The increase in interest expense on deposits was driven by the 2023 rate increases and an increase in the average balance of interest-bearing deposits, coupled with the continued intense competition for deposits in the market and the repricing of existing deposits into higher cost products. The increase in interest expense on borrowings was also impacted by an increase in the average balance of borrowings and the increase in interest rates for new borrowings. Prepayment penalties, which are included in interest income on loans, totaled \$171,000 for the quarter ended September 30, 2024, compared to \$83,000 for the quarter ended September 30, 2023. The average yield on loans for the quarter ended September 30, 2024 increased 53 basis points to 5.00%, as compared to 4.47% for the quarter ended September 30, 2023, as interest income was influenced by rising interest rates and the average balance of loans. The average yield on securities for the quarter ended September 30, 2024 increased 53 basis points to 2.90%, as compared to 2.37% for the quarter ended September 30, 2023, as new securities purchased during the 2024 period were at higher rates. The average yield on other interest-earning assets for the quarter ended September 30, 2024 increased 81 basis points to 6.72%, as compared to 5.91% for the quarter ended September 30, 2023, due to the rise in average balances and interest rates paid on cash balances and an increase in the dividend rate paid on Federal Home Loan Bank stock. Total interest expense was \$70.6 million for the quarter ended September 30, 2024, an increase of \$20.7 million, or 41.6%, from \$49.9 million for the quarter ended September 30, 2023. The increase in interest expense was primarily attributable to a 90 basis point increase in the average cost of interest-bearing deposits, coupled with an increase in the average balance of interest-bearing deposits, along with a 17 basis point increase in the average cost of borrowings, coupled with an increase in the average balance of borrowings. Interest expense on deposits increased \$16.3 million, or 45.3%, and interest expense on borrowings increased \$4.5 million, or 31.9%. The Company's net interest margin for the quarter ended September 30, 2024 decreased 22 basis points to 1.84%, when compared to 2.06% for the quarter ended September 30, 2023. The weighted average yield on interest-earning assets increased 53 basis points to 4.70% for the quarter ended September 30, 2024, as compared to 4.17% for the quarter ended September 30, 2023. The average cost of interest-bearing liabilities increased 82 basis points to 3.52% for the quarter ended September 30, 2024, as compared to 2.70% for the quarter ended September 30, 2023. The increase in yields for the quarter ended September 30, 2024 was due to the impact of market interest rate increases in 2023. The net interest margin decreased for the quarter ended September 30, 2024, as the increase in the average cost of interest-bearing liabilities outweighed the increase in the average yield on interest-earning assets. The Company's net interest margin for the quarter ended September 30, 2024 when compared to the quarter ended March 31, 2024 increased 9 basis points from 1.75% to 1.84%.

63COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESItem 2. **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**The provision for credit losses for the quarter ended September 30, 2024 was \$4.1 million, an increase of \$1.7 million, from \$2.4 million for the quarter ended September 30, 2023. The increase in provision for credit losses during the quarter was primarily attributable to net charge-offs totaling \$2.7 million and an increase in the loan performance qualitative factors. Non-interest income was \$9.0 million for the quarter ended September 30, 2024, an increase of \$376,000, from \$8.6 million for the quarter ended September 30, 2023. The increase was primarily attributable to an increase of \$347,000 in demand deposit account fees, mainly related to commercial account treasury services. Non-interest expense was \$42.8 million for the quarter ended September 30, 2024, a decrease of \$76,000, from \$42.9 million for the quarter ended September 30, 2023. The decrease was primarily attributable to a decrease in compensation and employee benefits expense of \$1.0 million, partially offset by an increase in data processing fees of \$666,000, and federal deposit insurance premiums of \$317,000. The decrease in compensation and employee benefits expense was the result of workforce reduction and lower incentive compensation related to employee cost cutting strategies implemented during 2023 and 2024. Data processing and software expenses increased due to costs related to cybersecurity and technology enhancements, and federal deposit insurance premiums increased due to the 2024 quarter including an increase in a one-time special assessment charge. Income tax expense was \$1.1 million for the quarter ended September 30, 2024, a decrease of \$1.6 million, as compared to income tax expense of \$2.7 million for the quarter ended September 30, 2023, mainly due to a decrease in pre-tax income. The Company's effective tax rate was 15.5% and 22.9% for the quarters ended September 30, 2024 and 2023, respectively. The effective tax rate for the 2024 quarter was primarily impacted by permanent income tax differences. Comparison of Results of Operations for the Nine Months Ended September 30, 2024 and September 30, 2023 Net income of \$9.6 million was recorded for the nine months ended September 30, 2024, a decrease of \$19.9 million, or 67.6%, compared to \$29.5 million for the nine months ended September 30, 2023. The decrease in net income was primarily attributable to a \$29.0 million decrease in net interest income and a \$7.9 million increase in provision for credit losses, partially offset by a \$9.5 million increase in non-interest income and a \$7.8 million decrease in income tax expense. Net interest income was \$131.6 million for the nine months ended September 30, 2024, a decrease of \$29.0 million, or 18.1%, from \$160.5 million for the nine months ended September 30, 2023. The decrease in net interest income was primarily attributable to a \$79.4 million increase in interest expense on deposits and borrowings, partially offset by a \$50.4 million increase in interest income. The increase in interest income was primarily due to an increase in the average balance of total interest-earning assets coupled with an increase in average yields due to market interest rate increases that occurred throughout 2023, and adjustable rate securities and loans tied to various indexes that repriced higher in the 2024 period. The 50 basis point decrease in market rates in September 2024 did not significantly impact the 2024 period results. The increase in interest expense on deposits was driven by the 2023 rate increases and an increase in the average balance of interest-bearing deposits, coupled with the continued intense competition for deposits in the market and the repricing of existing deposits into higher cost products. The increase in interest expense on borrowings was also impacted by an increase in the average balance of borrowings and the increase in interest rates for new borrowings. Prepayment penalties, which are included in interest income on loans, totaled \$875,000 for the nine months ended September 30, 2024, compared to \$339,000 for the nine months ended September 30, 2023. The average yield on loans for the nine months ended September 30, 2024 increased 55 basis points to 4.91%, as compared to 4.36% for the nine months ended September 30, 2023, as interest income was influenced by higher interest rates and loan growth. The average yield on securities for the nine months ended September 30, 2024 increased 40 basis points to 2.82%, as compared to 2.42% for the nine months ended September 30, 2023, as a number of adjustable rate securities tied to various indexes repriced higher during the nine months, and new securities purchased during the 2024 period were at higher yields. The average yield on other interest-earning assets for the nine months ended September 30, 2024 increased 90 basis points to 6.35%, as compared to 5.45% for the nine months ended September 30, 2023, due to the rise in average balances and interest rates paid on cash balances and an increase in the dividend rate paid on Federal Home Loan Bank stock. Total interest expense was \$206.2 million for the nine months ended September 30, 2024, an increase of \$79.4 million, 62.5%, from \$126.9 million for the nine months ended September 30, 2023. The increase in interest expense was primarily attributable to a 134 basis point increase in the average cost of interest-bearing deposits, coupled with an increase in the average balance of interest-bearing deposits, along with a 25 basis point increase in the average cost of borrowings, and an increase in the average balance of borrowings. Interest expense on deposits increased \$68.7 million, or 84.1%, and interest expense on borrowings increased \$10.6 million, or 23.6%.

64COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESItem 2. **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**The Company's net interest margin for the nine months ended September 30, 2024 decreased 47 basis points to 1.80%, when compared to 2.27% for the nine months ended September 30, 2023. The weighted average yield on interest-earning assets increased 55 basis points to 4.61% for the nine months ended September 30, 2024, as compared to 4.06% for the nine months ended September 30, 2023. The average cost of interest-bearing liabilities increased 118 basis points to 3.47% for the nine months ended September 30, 2024, as compared to 2.29% for the nine months ended September 30, 2023. The increase in yields for the nine months ended September 30, 2024 was due to the impact of market interest rate increases between periods. The net interest margin decreased for the nine months ended September 30, 2024, as the increase in the average cost of interest-bearing liabilities outweighed the increase in the average yield on interest-earning assets. The provision for credit losses for the nine months ended September 30, 2024 was \$11.6 million, an increase of \$7.9 million, from \$3.6 million for the nine months ended September 30, 2023. The increase in provision for credit losses was primarily attributable to net charge-offs totaling \$8.2 million and an increase in the loan performance qualitative factors. Non-interest income was \$25.6 million for the nine months ended September 30, 2024, an increase of \$9.5 million, from \$16.1 million for the nine months ended September 30, 2023. The increase was primarily attributable to a decrease in the loss on securities transactions of \$9.6 million. Non-interest expense was \$134.7 million for the nine months ended September 30, 2024, an increase of \$321,000, from \$134.4 million for the nine months ended September 30, 2023. The increase was primarily attributable to an increase in federal deposit insurance premiums of \$2.1 million, due to the 2024 period including an increase in a one-time special assessment charge. In addition, there was an increase in professional fees of \$4.9 million, an increase in data processing and software expenses of \$1.1 million, an increase in merger-related expense of \$457,000, and an increase in other non-interest expense of \$1.2 million, partially offset by a decrease in compensation and employee benefits expense of \$9.5 million. Professional fees included an increase in legal, regulatory and compliance-related costs while data processing and software expenses increased due to costs related to cybersecurity and technology enhancements. The decrease in compensation and employee benefits expense was the result of workforce reduction and lower incentive compensation related to employee cost cutting strategies implemented during 2023 and 2024. Income tax expense was \$1.3 million for the nine months ended September 30, 2024, a decrease of \$7.8 million, as compared to income tax expense of \$9.1 million for the nine months ended September 30, 2023, mainly due to a decrease in pre-tax income. The Company's effective tax rate was 11.8% and 23.6% for the nine months ended September 30, 2024 and 2023, respectively. The effective tax rate for the 2024 period was also impacted by permanent income tax differences.

Asset QualityThe Company's non-performing loans at September 30, 2024 totaled \$28.0 million, or 0.36% of total gross loans, as compared to \$12.6 million, or 0.16% of total gross loans, at December 31, 2023. The \$15.4 million increase in non-performing loans was primarily attributable to an increase in non-performing one-to-four family real estate loans of \$4.2 million, an increase in non-performing commercial real estate loans of \$6.7 million, and an increase in non-performing commercial business loans of \$4.5 million. One borrower with an outstanding \$5.7 million commercial real estate loan and a related \$3.5 million commercial business loan was placed on non-accrual status, representing approximately 60% of the increase in non-performing loans during the 2024 period. This borrower is a healthcare facility that was acquired by another healthcare provider in 2024. The acquiring entity has strong cash flow, has guaranteed the commercial business loan and has provided cash collateral. The Company has the first lien on the healthcare facility which has a 2024 appraised value of approximately \$18.5 million along with additional collateral. One commercial real estate loan for \$2.0 million secured by a medical condominium was transferred to other real estate owned in May 2024, and a related commercial business loan to the same borrower for \$54,000 was charged-off during the nine months ended September 30, 2024. The increase in non-performing one-to-four family real estate loans was due to an increase in the number of loans from 17 non-performing loans at December 31, 2023 to 27 loans at September 30, 2024. Non-performing assets as a percentage of total assets totaled 0.28% and 0.12% at September 30, 2024 and December 31, 2023, respectively. For the quarter ended September 30, 2024, net charge-offs totaled \$2.7 million, as compared to \$1.7 million in net charge-offs recorded for the quarter ended September 30, 2023. For the nine months ended September 30, 2024, net charge-offs totaled \$8.2 million, as compared to \$2.3 million in net charge-offs recorded for the nine months ended September 30, 2023. Net charge-offs recorded for the nine months ended September 30, 2024 included charge-offs related to 15 commercial business loans totaling \$7.7 million. The majority of these loans have continued making monthly payments, and management expects additional recoveries from these borrowers on a go forward basis.

65COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESItem 2. **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**The Company's allowance for credit losses on loans was \$58.5 million, or 0.75% of total gross loans, at September 30, 2024, compared to \$55.1 million, or 0.70% of total gross loans, at December 31, 2023. Additional Liquidity, Loan, Deposit and Capital InformationThe Company services a diverse retail and commercial deposit base through its 68 branches. With approximately 215,000 accounts, the average deposit account balance was approximately \$37,000 at September 30, 2024. Deposit balances are summarized as follows: At September 30, 2024At June 30, 2024BalanceWeighted Average RateBalanceWeighted Average Rate(Dollars in thousands)Non-interest-bearing demand\$1,406,152\$1,405,441Interest-bearing demand1,980,298\$2.41\$1,904,483\$2.37Money market accounts1,239,204\$2.92\$1,246,663\$3.17Savings and club deposits649,858\$0.79\$673,031\$0.83Certificates of deposit2,682,547\$4.45\$2,551,929\$4.34Total deposits\$7,958,059\$2.62\$7,781,547\$2.56The Company continues to maintain strong liquidity and capital positions. The Company had no outstanding borrowings from the Federal Reserve Discount Window at September 30, 2024. As of September 30, 2024, the Company had immediate access to approximately \$2.6 billion of funding, with additional unpledged loan collateral in excess of \$1.8 billion. At September 30, 2024, the Company's non-performing commercial real estate loans totaled \$9.4 million, or 0.12%, of the total loans receivable loan

portfolio balance. The following table presents multifamily real estate, owner occupied commercial real estate, and the components of investor owned commercial real estate loans included in the real estate loan portfolio. 66COLUMBIA FINANCIAL, INC. Critical Accounting PoliciesA A A The Company considers certain accounting policies to be critically important to the fair presentation of its Consolidated Statements of Financial Condition and Consolidated Statements of Income. These policies require management to make significant judgments and assumptions on matters which by their nature have elements of uncertainty. The sensitivity of the Companyâ€™s consolidated financial statements to these critical accounting policies, and the assumptions, estimates and judgements applied, could have a material impact on its financial condition and results of operations. These assumptions, estimates and judgments made by management can be influenced by a number of factors, including the general economic environment. The Company has identified the following as critical accounting policies:â€¢Adequacy of the allowance for credit lossesâ€¢Valuation of deferred tax assetsâ€¢Valuation of retirement and post-retirement benefitsThe determination of the allowance for credit losses (â€¢ACLâ€¢) on loans is considered a critical accounting estimate by management because of the high degree of judgment involved in determining qualitative loss factors, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment The ACL is maintained at a level management considers adequate to provide for estimated losses and impairment based upon an evaluation of known and inherent risk in the loan portfolio. The ACL consists of two elements: (1) identification of loans that must be individually analyzed for impairment and (2) establishment of an ACL for loans collectively analyzed. Management estimates the ACL using relevant and reliable information from internal and external sources, related to past events, current conditions, and a reasonable and supportable forecast. Historical credit loss experience for both the Company and its segment-specific peers provides the basis for the estimate of expected credit losses. Credit losses over a defined period are converted to PD rate curves through the use of segment-specific LGD risk factors that convert default rates to loss severity based on industry-level, observed relationships between the two variables for each segment, primarily due to the nature of the underlying collateral. These risk factors were assessed for reasonableness against the Companyâ€™s own loss experience and adjusted in certain cases when the relationship between the Companyâ€™s historical default and loss severity deviate from that of the wider industry. The historical PD 67COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESItem 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONSCurves, together with corresponding economic conditions, establish a quantitative relationship between economic conditions and loan performance through an economic cycle.Portfolio segments are defined as the level at which an entity develops and documents a systematic methodology to determine its allowance for credit losses. Management developed segments for estimating losses based on the type of borrower and collateral which is generally based upon federal call report segmentation. The segments have been combined or sub-segments have been added as needed to ensure loans of similar risk profiles are appropriately pooled. We maintain a loan review system that provides a periodic review of the loan portfolio and the identification of individually analyzed loans. The ACL for individually analyzed loans is based on the fair value of collateral or cash flows. While management uses the best information available to make such evaluations, future adjustments to the allowance may be necessary if economic conditions differ substantially from the assumptions used in making the evaluations. The ACL quantitative allowance for each segment is measured using a discounted cash flow methodology incorporating an econometric, probability of default (â€¢PDâ€¢) and loss given default (â€¢LGDâ€¢) with distinct segment-specific multi-variate regression models applied. Expected credit losses are estimated over the life of the loans by measuring the difference between the net present value of modeled cash flows and amortized cost basis. Contractual cash flows over the contractual life of the loans are the basis for the modeled cash flows, adjusted for model defaults and expected prepayments and discounted at the loan-level effective interest rate. The contractual term excludes expected extensions, renewals, and modifications.Management estimates the ACL using relevant and reliable information from internal and external sources, related to past events, current conditions, and a reasonable and supportable forecast. Historical credit loss experience for both the Company and its segment-specific peers provides the basis for the estimate of expected credit losses. Credit losses over a defined period are converted to PD rate curves through the use of segment-specific LGD risk factors that convert default rates to loss severity based on industry-level, observed relationships between the two variables for each segment, primarily due to the nature of the underlying collateral. These risk factors were assessed for reasonableness against the Companyâ€™s own loss experience and adjusted in certain cases when the relationship between the Companyâ€™s historical default and loss severity deviate from that of the wider industry. The historical PD curves, together with corresponding economic conditions, establish a quantitative relationship between economic conditions and loan performance through an economic cycle. Using the historical relationship between economic conditions and loan performance, managementâ€™s expectation of future loan performance is incorporated using a single economic forecast of macroeconomic variables (i.e., unemployment, gross domestic product, vacancy, and home price index). This forecast is applied over a period that management has determined to be reasonable and supportable. Beyond the period over which management can develop or source a reasonable and supportable forecast, the model reverts to long-term average historical loss rates using a straight-line, time-based methodology. The Company's current forecast period is six quarters, with a four-quarter reversion period to long-term average historical loss rates.After quantitative considerations, management applies additional qualitative adjustments that consider the expected impact of certain factors not fully captured in the quantitative reserve. Qualitative adjustments include but are not limited to concentrations of large loan balances, delinquency trends, change in collateral values within segments, and other considerations.The ACL is established through the provision for credit losses that are charged to income, which is based upon an evaluation of estimated losses in the current loan portfolio, including the evaluation of individually analyzed loans. Charge-offs against the ACL are taken on loans where management determines that the collection of loan principal and interest is unlikely. Recoveries made on loans that have been charged-off are credited to the ACL. Although we believe we have established and maintained the ACL on loans at appropriate levels, changes in reserves may be necessary if actual economic and other conditions differ substantially from the forecast used in estimating the ACL. Our financial results are affected by the changes in and the level of the ACL. This process involves our analysis of internal and external variables, and it requires that we exercise judgment to estimate an appropriate ACL. As a result of the uncertainty associated with this subjectivity, we cannot assure the precision of the amount reserved, should we experience sizable loan losses in any particular period and/or significant changes in assumptions or economic condition. We believe the primary risks inherent in the portfolio are a general decline in the economy, a decline in real estate market values, rising unemployment, increasing vacancy rates, and increases in interest rates in the absence of economic improvement or any other such factors. Any one or a combination of these events may adversely affect a borrower's ability to repay its loan, resulting in increased delinquencies and loan losses. Accordingly, we have recorded loan credit losses at a level which is estimated to represent the current risk in its loan portfolio. 68COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESItem 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONSMost of our non-performing assets are collateral dependent loans which are written down to the fair value of the collateral less estimated costs to sell. We continue to assess the collateral of these loans and update our appraisals on these loans on at least an annual basis. To the extent the property values decline, there could be additional losses on these non-performing assets, which may be material. Management considered these market conditions in deriving the estimated ACL. Should economic difficulties occur, the ultimate amount of loss could vary from our current estimate.A A A The determination of whether deferred tax assets will be realizable is predicated on the reversal of existing deferred tax liabilities, utilization against carry-back years, and projections of future taxable income. These estimates are subject to managementâ€™s judgment. A valuation allowance is established when management is unable to conclude that it is more likely than not that it will realize deferred tax assets based on the nature and timing of these items. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income tax expense in the period enacted. Management believes, based on current facts, that it is more likely than not that there will be sufficient taxable income in future years to realize federal deferred tax assets and that it is more likely than not that the benefits from certain state temporary differences will not be realized. At SeptemberA 30, 2024 and DecemberA 31, 2023, the Company's net deferred tax assets totaled \$16.3 million and \$25.5 million, respectively, which included a valuation allowance totaling \$26,000 at both period end dates. Based upon projections of future taxable income and the ability to carryforward operating losses indefinitely, management believes it is more likely than not the Company will realize the remaining deferred tax assets. A A A The Company provides certain health care and life insurance benefits, along with a split dollar BOLI death benefit, to eligible retired employees. The cost of retiree health care and other benefits during the employees' period of active service are accrued monthly. The accounting guidance requires the following: (a) recognize in the statement of financial position the over funded or underfunded status of a defined benefit post-retirement plan measured as the difference between the fair value of plan assets and the benefit obligations; (b) measure a plan's assets and its obligations that determine its funded status as of the end of the Company's fiscal year (with limited exceptions); and (c) recognize as a component of other comprehensive income (loss), net of tax, the actuarial gain and losses and the prior service costs and credits that arise during the period. These assets and liabilities and expenses are based upon actuarial assumptions including interest rates, rates of increase in compensation, expected rate of return on plan assets and the length of time we will have to provide those benefits. Actual results may differ from these assumptions. These assumptions are reviewed and updated at least annually, and management believes the estimates are reasonable.69COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESItem 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK A A A Qualitative Analysis. Interest rate risk is defined as the exposure of a Company's current and future earnings and capital arising from movements in market interest rates. The guidelines of the Companyâ€™s interest rate risk policy seek to limit the exposure to changes in interest rates that affect the underlying economic value of assets, liabilities, earnings and capital. A A A The Asset/Liability Committee meets regularly to review the impact of interest rate changes on net interest income, net interest margin, net income, and the economic value of equity. The Asset/Liability Committee reviews a variety of strategies that project changes in asset or liability mix and the impact of those changes on projected net interest income and net income. A A A The Companyâ€™s strategy for liabilities has been to maintain a stable funding base by focusing on core deposit accounts. The Companyâ€™s ability to retain maturing time deposit accounts is the result of its strategy to remain competitively priced within its marketplace. The Companyâ€™s pricing strategy may vary depending upon current funding needs and the ability of the Company to fund operations through alternative sources.A A A Quantitative Analysis. Current and future sensitivity to changes in interest rates are measured through the use of balance sheet and income simulation models. The analysis captures changes in net interest income using flat rates as a base and rising and declining interest rate forecasts. Changes in net interest income and net income for the forecast period, generally twelve to twenty-four months, are measured and compared to policy limits for acceptable changes. The Company periodically reviews historical deposit re-pricing activity and makes modifications to certain assumptions used in its balance sheet and income simulation models regarding the interest rate sensitivity of deposits. These modifications are made to more closely reflect the most likely results under the various interest rate change scenarios. Since it is inherently difficult to predict the sensitivity of interest-bearing deposits to changes in interest rates, the changes in net interest income due to changes in interest rates cannot be precisely predicted. There are a variety of reasons that may cause actual results to vary considerably from the predictions presented below which include, but are not limited to, the timing, magnitude, and frequency of changes in interest rates, interest rate spreads, prepayments, and actions taken in response to such changes. A A A Assumptions used in the simulation model may include but are not limited to:â€¢Securities pricing from third parties;â€¢Loan pricing indications from third parties;â€¢Loan and depository spread assumptions based upon the Company's product offerings;â€¢Securities and borrowing spreads based upon third party indications; andâ€¢Prepayment assumptions derived from the Company's actual results and third party surveys. A A A Certain shortcomings are inherent in the methodologies used in the interest rate risk measurements. Modeling changes in net interest income requires the use of certain assumptions regarding prepayment and deposit repricing, which may or may not reflect the manner in which actual yields and costs respond to changes in market interest rates. While management believes such assumptions are reasonable, there can be no assurance that assumed prepayment rates and repricing rates will approximate actual future asset prepayment and liability repricing activity. A A A The table below sets forth an approximation of our interest rate exposure. Net interest income assumes that the composition of interest sensitive assets and liabilities existing at the beginning of a period remains constant over the period being measured and also assumes that a particular change in interest rates is reflected uniformly across the yield curve regardless of the duration to maturity or repricing of specific assets and liabilities. Accordingly, although the net interest income table provides an indication of our interest rate risk exposure at a particular point in time, such measurement is not intended to and does not provide a precise forecast of the effect of changes in market interest rates on our net interest income and will differ from actual. A A A The table below sets forth, as of SeptemberA 30, 2024, the net portfolio value, the estimated changes in the net portfolio value, and the net interest income that would result from the designated instantaneous parallel changes in market interest rates. This data is for Columbia Bank and Freehold Bank and its subsidiaries only and does not include any assets of the Company. 70COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESItem 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKTwelve Months Net Interest IncomeNet Portfolio Value ("NPV")Change in Interest Rates (Basis Points)AmountDollar ChangePercent ChangeEstimated NPVPresent Value RatioPercent ChangeA A A (\$ Dollars in thousands)+400\$205,581A 2,797A 1.38A %\$727,059A 7.95A % (34.99)%+300205,591A 2,807A 1.38A 833,756A 8.88A (25.45)+200205,230A 2,446A 1.21A 936,225A 9.71A (16.29)+100204,684A 1,900A 0.94A 1,035,728A 10.46A (7.39)Base202,784A â€¢A â€¢. (1.01)1,193,965A 11.43A 6.76A -200199,000A (3,784)(1.87)1,250,620A 11.66A 11.82A -300197,249A (5,535)(2.73)1,276,883A 11.60A 14.17A -400185,181A (17,603) (8.68)1,214,191A 10.76A 8.57A A A A A As of SeptemberA 30, 2024, based on the scenarios above, net interest income would increase by approximately 1.21% if rates were to rise 200 basis points, and would decrease by 1.87% if rates were to decrease 200 basis points over a one-year time horizon. A A A Another measure of interest rate sensitivity is to model changes in net portfolio value through the use of immediate and sustained interest rate shocks. As of SeptemberA 30, 2024, based on the scenarios above, in the event of an immediate and sustained 200 basis point increase in interest rates, the NPV is projected to decrease 16.29%. If rates were to decrease 200 basis points, the model forecasts a 11.82% increase in the NPV. A A A Overall, our SeptemberA 30, 2024 results indicate that we are adequately positioned with an acceptable net interest income and economic value at risk in all scenarios and that all interest rate risk results continue to be within our policy guidelines.Liquidity Management and Capital Resources.A A A Liquidity Management. Liquidity refers to the Company's ability to generate adequate amounts of cash to meet financial obligations of a short-term and long-term nature. Sources of funds consist of deposit inflows, loan repayments and maturities, maturities and sales of securities, and the ability to execute new borrowings. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit flows, calls of debt securities, and prepayments on loans and mortgage-backed securities are influenced by economic conditions, competition, and interest rate movements. A A A The Company's cash flows are identified as cash flows from operating activities, investing activities and financing activities. Refer to the Consolidated Statements of Cash Flows for further details of the cash inflows and outflows of the Company. A A A We mitigate liquidity risk by attempting to structure our balance sheet prudently and by maintaining diverse borrowing resources to fund potential cash needs. For example, we structure our balance sheet so that we fund less liquid assets, such as loans, with stable funding sources, such as retail deposits, long-term debt, wholesale borrowings, and capital. We assess liquidity needs arising from asset growth, maturing obligations, and deposit withdrawals, taking into account operations in both the normal course of business and times of unusual events. In addition, we consider our off-balance sheet arrangements and commitments that may impact liquidity in certain business environments. Our Asset/Liability Committee measures liquidity risks, sets policies to manage these risks, and reviews adherence to those policies at its quarterly meetings. For example, we manage the use of short-term unsecured borrowings as well as total wholesale funding through policies established and reviewed by our Asset/Liability Committee. In addition, the Risk Committee of our Board of Directors reviews liquidity limits and reviews current and forecasted liquidity positions at each of its regularly scheduled meetings. We have contingency funding plans that assess liquidity needs that may arise from certain stress events such as rapid asset growth or financial market disruptions. Our contingency plans also provide for continuous monitoring of net borrowed funds and dependence and available sources of contingent liquidity. These sources of contingent liquidity include cash and cash equivalents, capacity to borrow at the Federal Reserve discount window and through the FHLB system, fed funds purchased from other banks 71COLUMBIA FINANCIAL, INC. AND SUBSIDIARIESItem 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKand the ability to

sell, pledge or borrow against unencumbered securities in our securities portfolio. As of September 30, 2024, the potential liquidity from these sources is an amount we believe currently exceeds any contingent liquidity need. A A A Capital Resources. The Company and its subsidiary banks (Columbia Bank and Freehold Bank) are subject to various regulatory capital requirements administered by the federal banking regulators, including a risk-based capital measure. The Federal Reserve establishes capital requirements, including well capitalized standards, for the consolidated financial holding company, and the Office of the Comptroller of the Currency (the "OCC") has similar requirements for the Company's subsidiary banks. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's Consolidated Statements of Financial Condition. Federal regulators require federally insured depository institutions to meet several minimum capital standards: (1) total capital to risk-weighted assets of 8.0%; (2) tier 1 capital to risk-weighted assets of 6.0%; (3) common equity tier 1 capital to risk-weighted assets of 4.5%; and (4) tier 1 capital to adjusted total assets of 4.0%. In addition to establishing the minimum regulatory capital requirements, the regulations limit capital distributions and certain discretionary bonus payments to management if the institution does not hold a ecapital conservation buffer consisting of 2.5% of common equity tier 1 capital to risk-weighted assets above the amount necessary to meet its minimum risk-based capital requirements. The regulators established a framework for the classification of savings institutions into five categories: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized. Generally, an institution is considered well capitalized if it has: a total capital to risk-weighted assets ratio of at least 10.0%, a tier 1 capital to risk-weighted assets ratio of at least 8.0%, a common tier 1 capital to risk-weighted assets ratio of at least 6.5%, and a tier 1 capital to adjusted total assets ratio of at least 5.0%. As of September 30, 2024 and December 31, 2023, each of the Company and Columbia Bank and Freehold Bank exceeded all capital adequacy requirements to which it was subject. A A A The following tables presents the Company's, Columbia Bank's and Freehold Bank's actual capital amounts and ratios at September 30, 2024 and December 31, 2023 compared to the Federal Reserve Bank minimum capital adequacy requirements and the Federal Reserve Bank requirements for classification as a well-capitalized institution:ActualMinimum Capital Adequacy RequirementsMinimum Capital Adequacy Requirements with Capital Conservation BufferTo be Well Capitalized Under Prompt Corrective Action

AND SUBSIDIARIESItem 4. CONTROLS AND PROCEDURES
A A A An evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities and Exchange Act of 1934, as amended) as of September 30, 2024. In designing and evaluating the Company's disclosure controls and procedures, the Company and its management recognize that any controls and procedures, no matter how well-designed and operated, can provide only a reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating and implementing possible controls and procedures. Based on that evaluation, the Company's management, including the Chief Executive Officer and the Chief Financial Officer, concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective. A A A During the quarter ended September 30, 2024, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. 74PART II e OTHER INFORMATION Item 1. A A A Legal ProceedingsA A A A A The Company is involved in various legal actions and claims arising in the normal course of business. In the opinion of management, these legal actions and claims are not expected to have a material adverse impact on the Company's financial condition. Item 1A. A A A Risk FactorsA A A For information regarding the Company's risk factors, refer to the Risk Factors previously disclosed under Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2023 filed with the Securities and Exchange Commission on February 29, 2024. As of September 30, 2024, the risk factors of the Company have not materially changed from those disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2023. Item 2. A A A Unregistered Sales of Equity Securities and Use of ProceedsA A A The following table reports information regarding repurchases of the Company's common stock, excluding excise tax during the quarter ended September 30, 2024: PeriodTotal Number of Shares (2)Average Price Paid per ShareTotal Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)Maximum Number of Shares that May Yet Be Purchased Under the Plans or ProgramsJuly 1 - 31, 202428,824A \$17.62A eA A 741,725A August 1 - 31, 20241,807A 16.80A eA A 741,725A September 1 - 30, 2024eA A eA A 741,725A Total30,631A \$17.57A eA A (1) On May 25, 2023, the Company announced that its Board of Directors authorized the Company's sixth stock repurchase program to acquire up to 2,000,000 shares, or approximately 1.9% of the Company's then issued and outstanding common stock. Repurchases have been paused in order to retain capital. (2) During the three months ended September 30, 2024, 27,969 shares were repurchased for taxes related to the 2019 Equity Incentive Plan and 2,662 shares were repurchased pursuant to forfeitures and not as part of a share repurchase program. DefinitionNumber of shares that have been repurchased during the period and have not been retired and are not held in treasury. Some state laws may govern the circumstances under which an entity may acquire its own stock and prescribe the accounting treatment therefore. This element is used when state law does not recognize treasury stock. + ReferencesReference 1: http://fasb.org/us-gaap/role/ref/legacyRef -Name Accounting Standards Codification -Section 50 -Paragraph 2 -SubTopic 10 -Topic 505 -Publisher FASB -URI https://asc.fasb.org/1943274/2147481112/505-10-50-2Reference 2: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 210 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(28)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1Reference 3: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 210 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.5-02(29)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480566/210-10-S99-1Reference 4: http://www.xbrl.org/2003/role/disclosureRef -Topic 946 -SubTopic 505 -Name Accounting Standards Codification -Section 50 -Paragraph 2 -Subparagraph (c) -Publisher FASB -URI https://asc.fasb.org/1943274/2147478448/946-505-50-2Reference 5: http://www.xbrl.org/2003/role/disclosureRef -Topic 946 -SubTopic 220 -Name Accounting Standards Codification -Section S99 -Paragraph 3 -Subparagraph (SX 210.6-09(4)(b)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147479134/946-220-S99-3Reference 6: http://www.xbrl.org/2003/role/disclosureRef -Topic 946 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 3 -Subparagraph (SX 210.6-03(i)(2)) -Publisher FASB -URI https://asc.fasb.org/1943274/2147479886/946-10-S99-3Reference 7: http://fasb.org/us-gaap/role/ref/legacyRef -Topic 505 -SubTopic 10 -Name Accounting Standards Codification -Section S99 -Paragraph 1 -Subparagraph (SX 210.3-04) -Publisher FASB -URI https://asc.fasb.org/1943274/2147480008/505-10-S99-1 + Details Name: us-gaap StockRepurchasedDuringPeriodShares Namespace Prefix: us-gaap Data Type: xbrli:sharesItemBalance Type: na Period Type: duration X - ASU 2023-07 enhances segment reporting under Topic 280 by expanding the breadth and frequency of segment disclosures. The ASU requires a public entity to disclose entity-wide and segment information in the notes to the financial statements. Disclosures include the measure of profit or loss that the chief operating decision maker uses to assess segment performance and decide how to allocate resources, as well as certain specified amounts included in that measure. This ASU was effective for fiscal years beginning after December 15, 2023, including interim periods within those fiscal years. The Company adopted this ASU on January 1, 2024 on a retrospective basis for all periods presented. As it is only disclosure related, this ASU did not have an impact on the Company's consolidated financial statements. securities available for sale at SeptemberÁ 30, 2024, by contractual final maturity, is shown below. Expected maturities may differ from contractual maturities due to prepayment or early call options exercised by the issuer.September 30, 2024Amortized CostFair Value(In thousands)One year or less\$99,641Á \$99,662Á More than one year to five years195,370Á 196,775Á More than five years to ten years78,259Á 66,457Á \$373,270Á \$362,894Á Mortgage-backed securities and collateralized mortgage obligations1,022,232Á 909,570Á \$1,395,502Á \$1,272,464Á Mortgage-backed securities and collateralized mortgage obligations totaling \$1.0 billion at amortized cost, and \$909.6 million at fair value, are not classified by maturity in the table above as their expected lives are likely to be shorter than the contractual maturity date due to principal prepayments.Á Á Á During the three months ended SeptemberÁ 30, 2024, there were no sales, calls or maturities of debt securities available for sale. During the nine months ended SeptemberÁ 30, 2024, proceeds from the sale of a debt security available for sale totaled \$3.5 million, resulting in no gross gains and \$1.3 million of gross losses. There was one matured debt security available for sale totaling \$10.0 million during the nine months ended SeptemberÁ 30, 2024. There were no calls of debt securities available for sale during the nine months ended SeptemberÁ 30, 2024. During the three months ended SeptemberÁ 30, 2023, there were no proceeds from the sale of debt securities available for sale. During the nine months ended SeptemberÁ 30, 2023, proceeds from the sale of debt securities available for sale totaled \$277.0 million, resulting in no gross gains and \$10.8 million of gross losses. There were no calls or matured debt securities available for sale during the three and nine months ended SeptemberÁ 30, 2023. Debt securities available for sale having a carrying value of \$225.9 million and \$211.5 million, at SeptemberÁ 30, 2024 and DecemberÁ 31, 2023, respectively, were pledged as security for public funds on deposit at Columbia Bank as required and permitted by law, pledged for outstanding borrowings at the Federal Home Loan Bank, and pledged for potential borrowings at the Federal Reserve Bank of New York. Debt securities available for sale having a carrying value of \$74.9 million and \$75.1 million, at SeptemberÁ 30, 2024 and DecemberÁ 31, 2023, respectively, were pledged by Freehold Bank for outstanding borrowings at the Federal Home Loan Bank, and for potential borrowings at the Federal Reserve Bank of New York.Á Á Á The following tables summarize the fair value and gross unrealized losses of those securities that reported an unrealized loss at SeptemberÁ 30, 2024 and DecemberÁ 31, 2023 and if the unrealized loss position was continuous for the twelve months prior to those respective dates:6.Á Á Á Debt Securities Available for Sale (continued)September 30, 2024Less Than 12 Months12 Months or LongerTotalFair ValueGross Unrealized (Losses)Fair ValueGross Unrealized (Losses)(In thousands)U.S. government and agency obligations\$46,492Á \$41,308Á \$(4,184)\$42,214Á Mortgage-backed securities and collateralized mortgage obligations9,993Á (4)813,803Á (113,467)\$823,796Á (113,471)Municipal obligations1,010Á (1)1,809Á (26)2,819Á (27)Corporate debt securitiesâ€“Á â€“Á 79,578Á (12,933)\$79,578Á (12,933)\$11,003Á \$(5)\$916,270Á \$(127,559)\$927,273Á \$(127,564)December 31, 2023Less Than 12 Months12 Months or LongerTotalFair ValueGross Unrealized (Losses)Fair ValueGross Unrealized (Losses)Fair ValueGross Unrealized (Losses)(In thousands)U.S. government and agency obligations\$â€“Á \$â€“Á \$21,344Á \$(1,810)\$21,344Á (1,810)Mortgage-backed securities and collateralized mortgage obligations544Á (4)863,026Á (141,939)\$63,080Á (141,943)Municipal obligationsâ€“Á â€“Á 75,765Á (14,798)\$75,765Á (14,943)\$544Á (4)\$962,837Á \$(158,615)\$962,891Á \$(158,619)The number of securities in an unrealized loss position at SeptemberÁ 30, 2024 totaled 303, compared with 329 at DecemberÁ 31, 2023. All temporarily impaired securities were investment grade as of SeptemberÁ 30, 2024 and DecemberÁ 31, 2023, except two corporate debt securities which were rated BB+, totaling approximately \$8.4 million and \$8.1 million at SeptemberÁ 30, 2024 and DecemberÁ 31, 2023, respectively. For available for sale securities, the Company assesses whether a loss is from credit or other factors and considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency and adverse conditions related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of cash flows is less than the amortized cost, a credit loss would be recorded through an allowance for credit losses, limited by the amount that the fair value is less than the amortized cost basis. There was no activity in the allowance for credit losses on debt securities available for sale for the three and nine months ended SeptemberÁ 30, 2024 and 2023. The Company made an accounting policy election to exclude accrued interest receivable from the amortized cost basis of debt securities available for sale. Accrued interest receivable on debt securities available for sale is reported as a component of accrued interest receivable on the Consolidated Statement of Financial Condition, which totaled \$5.0 million and \$3.7 million at SeptemberÁ 30, 2024 and DecemberÁ 31, 2023, respectively, and is excluded from the estimate of credit losses. During the nine months ended September 30, 2023, the Company sold \$64.6 million, \$21.4 million, \$18.4 million, and \$5.7 million, of one-to-four family real estate loans and home equity loans and advances, commercial real estate loans, SBA loans included in commercial business loans, and construction loans held-for-sale, respectively, resulting in gross gains of \$1.4 million and gross losses of \$383,000. During the three and nine months ended September 30, 2024, no loans were purchased by the Company. During the three months ended September 30, 2023 no loans were purchased by the Company. During the nine months ended September 30, 2023, the Company purchased a \$14.7 million commercial real estate participation loan from a third party financial institution. 9. A Loans Receivable and Allowance for Credit Losses (continued) At September 30, 2024 and December 31, 2023, commercial business loans included \$530,000 and \$809,000, respectively, in SBA Payroll Protection Program ("PPP") loans. At September 30, 2024 and December 31, 2023, the carrying value of loans serviced by the Company for investors was \$513.0 million and \$551.0 million, respectively. These loans are not included in the Consolidated Statements of Financial Condition. The following tables summarize the aging of loans receivable by portfolio segment, including non-accrual loans and excluding PCD loans at September 30, 2024 and December 31, 2023: September 30, 2024 2023 30-59 Days 60-89 Days 90 Days or More Total Past Due Non-accrual Current Total (In thousands) Real estate loans: One-to-four family \$ 14,915A \$ 6,989A \$ 2,982A \$ 24,886A \$ 7,368A \$ 2,712,304A \$ 2,737,190A Multifamily \$ 1,399,000A \$ 1,399,000A Commercial real estate 15,492A 450A \$ 15,942A 9,413A 2,296,817A 2,312,759A Construction \$ 510,439A \$ 510,439A Commercial business loans 3,686A 1,253A 1,404A 6,343A 11,061A 580,104A 586,447A Consumer loans: Home equity loans and advances 560A 139A 13A 712A 172A 260,329A 261,041A Other consumer loans 2A \$ 2A \$ 2,875A 2,877A Total loans \$ 15,297A \$ 11,657A \$ 10,986A \$ 37,940A \$ 12,618A \$ 7,786,725A \$ 7,824,665A The Company considers a loan to be delinquent when we have not received a payment within 30 days of its contractual due date, or when the Company does not expect to receive all principal and interest payments owed substantially in accordance with the terms of the loan agreement, regardless of the past due status. Non-accruing loans are returned to accrual status after there has been a sustained period of repayment performance and both principal and interest are deemed collectible. The Company identifies loans that may need to be charged-off as a loss, by reviewing all delinquent loans, classified loans and other loans for which management may have concerns about collectability. 9. A Loans Receivable and Allowance for Credit Losses (continued) At September 30, 2024 and December 31, 2023, non-accrual loans totaled \$28.0 million and \$12.6 million, respectively. Included in non-accrual loans at September 30, 2024 and December 31, 2023, are 32 and 10 loans totaling \$23.6 million and \$1.6 million, respectively, which are less than 90 days in arrears. At September 30, 2024 and December 31, 2023, there were no loans past due 90 days or more still accruing interest. Purchased credit-deteriorated ("PCD") loans were loans acquired at a discount primarily due to deteriorated credit quality. These loans were initially recorded at fair value at acquisition, based upon the present value of expected future cash flows, with no related allowance for credit losses. Loans acquired in a business combination are recorded in accordance with ASC Topic 326, which requires loans as of the acquisition date, that have experienced a more than insignificant deterioration in credit quality since origination, to be classified as PCD loans. At September 30, 2024 and December 31, 2023, PCD loans acquired in the Stewardship Financial Corporation ("Stewardship") acquisition totaled \$1.2 million and \$1.7 million, respectively, PCD loans acquired in the Freehold Bank acquisition totaled \$247,000 and \$2.8 million, respectively, and PCD loans acquired in the RSI Bank acquisition totaled \$10.4 million and \$10.6 million, respectively. A The Company may obtain physical possession of real estate collateralizing a residential mortgage loan via foreclosure or through an in-substance repossession. At September 30, 2024, the Company held one commercial property with a carrying value of \$2.0 million in other real estate owned that was acquired through foreclosure on a nonresidential mortgage loan. At December 31, 2023, the Company had no real estate owned. At September 30, 2024 we had four residential mortgage loans with a carrying value of \$1.2 million collateralized by residential real estate, which were in the process of foreclosure. At December 31, 2023, we had one residential mortgage loan and one home equity loan with carrying values of \$576,000 and \$93,000, respectively, collateralized by residential real estate which were in the process of foreclosure. The Company has made an accounting policy election to exclude accrued interest receivable from the amortized cost basis of loans receivable. Accrued interest receivable on loans receivable is reported as a component of accrued interest receivable in the Consolidated Statement of Financial Condition, which totaled \$33.6 million and \$32.9 million at September 30, 2024 and December 31, 2023, respectively, and is excluded from the estimate of credit losses. The determination of the allowance for credit losses (the ACL) on loans is considered a critical accounting estimate by management because of the high degree of judgment involved in determining qualitative loss factors, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment. The ACL is maintained at a level management considers adequate to provide for estimated losses and impairment based upon an evaluation of known and inherent risk in the loan portfolio. The ACL consists of two elements: (1) identification of loans that must be individually analyzed for impairment and (2) establishment of an ACL for loans collectively analyzed. Portfolio segments are defined as the level at which an entity develops and documents a systematic methodology to determine its allowance for credit losses. Management developed segments for estimating losses based on the type of borrower and collateral which is generally based upon federal call report segmentation. The segments have been combined or sub-segments have been added as needed to ensure loans of similar risk profiles are appropriately pooled. We maintain a loan review system that provides a periodic review of the loan portfolio and the identification of individually analyzed loans. The ACL for individually analyzed loans is based on the fair value of collateral or cash flows. While management uses the best information available to make such evaluations, future adjustments to the allowance may be necessary if economic conditions differ substantially from the assumptions used in making the evaluations. The ACL quantitative allowance for each segment is measured using a discounted cash

[illegible]

management-sponsored agencies that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs. The Company classifies the estimated fair value of its loan portfolio as Level 3.

Equity Securities. At Fair Value. The Company holds equity securities that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs. A trust preferred security that is not traded in an active market and Federal Home Loan Mortgage Corporation ("FHLMC") and Federal National Mortgage Association ("FNMA") preferred stock are considered Level 2 instruments. In addition, Level 2 instruments include Atlantic Community Bankers Bank ("ACCB") stock, which is based on redemption at par value and can only be sold to the issuing ACBB or another institution that holds ACBB stock.

Fair Value Measurements (continued).

Derivatives. At Fair Value. The Company records all derivatives included in other assets and liabilities on the Consolidated Statements of Financial Condition at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting, and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. See note 16 for disclosures related to the accounting treatment for derivatives. The fair value of the Company's derivatives is determined using discounted cash flow analysis using observable market-based inputs, which are considered Level 2 inputs.

The following tables present the assets and liabilities reported on the Consolidated Statements of Financial Condition at their fair values at September 30, 2024 and December 31, 2023, by level within the fair value hierarchy:

September 30, 2024

Discounted cash flow estimated valuations are subsequently validated against comparable structures as an approximation of value. Expected cash flows were projected based on contractual cash flows. At both September 30, 2024 and December 31, 2023, two private placement corporate debt securities classified as available for sale, and two private placement municipal obligations classified as available for sale were included in Level 3 assets. There were no transfers to Level 3 assets during the three and nine months ended September 30, 2023. At September 30, 2024, private placement corporate debt security cash flows were discounted to a market yield ranging from 12.00% to 12.50% (weighted average is 12.17%), and the cash flows for private placement municipal obligations were discounted to a market yield ranging from 3.07% to 3.69% (weighted average is 3.39%). The period end valuations were supported by an analysis prepared by an independent third party market participant and approved by management. Assets Measured at Fair Value on a Non-Recurring Basis A valuation technique described below was used to estimate fair value of financial instruments measured on a non-recurring basis at September 30, 2024 and December 31, 2023. Individually Analyzed Collateral Dependent Loans/Impaired Loans A The fair value of collateral dependent loans that are individually analyzed or were previously deemed impaired is measured based on the present value of expected future cash flows discounted at the loan's effective interest rate or, as a practical expedient, at the loan's observable market price or the fair value of the collateral if the loan is collateral dependent. For individually analyzed loans measured for impairment based on the fair value of the underlying collateral, fair value was estimated using a market approach. The Company measures the fair value of collateral underlying impaired loans primarily through obtaining independent appraisals that rely upon quoted market prices for similar assets in active markets. These appraisals include adjustments, on an individual case-by-case basis, to comparable assets based on the appraiser's market knowledge and experience, as well as adjustments for estimated costs to sell between 6% and 8%. For non-collateral dependent loans, management estimates fair value using discounted cash flows based on inputs that are largely unobservable. The Company classifies these loans as Level 3 within the fair value hierarchy. A Fair Value Measurements (continued) Other Real Estate Owned A The real estate owned is initially recorded at the lower of the recorded investment in the loan at the time of foreclosure or at fair value, less estimated costs to sell, when acquired. Fair value is generally based on an independent appraisal which includes adjustments to comparable assets based on the appraisers' market knowledge and experience. Subsequent write-downs in the value of other real estate owned is recorded though expense as incurred. Other real estate owned is considered Level 3 within the fair value hierarchy. Mortgage Servicing Rights, Net ("MSRs") A A Mortgage servicing rights are carried at the lower of cost or estimated fair value. The estimated fair value of MSRs is obtained through an analysis of future cash flows, incorporating assumptions that market participants would use in determining fair value including market discount rates, prepayments speeds, servicing income, servicing costs, default rates and other market driven data, including the market's perception of future interest rate movements. The prepayment speed and the discount rate are considered two of the most significant inputs in the model. A significant degree of judgment is involved in valuing the mortgage servicing rights using Level 3 inputs. The use of different assumptions could have a significant effect on this fair value estimate. The following tables present the assets and liabilities reported on the Consolidated Statements of Financial Condition at their fair values on a non-recurring basis at September 30, 2024 and December 31, 2023, by level within the fair value hierarchy: September 30, 2024 <table border="1"><thead><tr><th>Level 1 Significant Other Observable Inputs (Level 2)</th><th>Level 2 Significant Unobservable Inputs (Level 3)</th></tr></thead><tbody><tr><td>(In thousands) Impaired loans \$4,892A \$4,892A \$Other real estate owned \$1,974A \$1,974A Mortgage servicing rights \$2,528A \$2,528A \$2,528A \$4,394A \$4,394A December 31, 2023 Fair Value Measurements Fair Value Quoted Prices in Active Markets for Identical Assets (Level 1) Significant Other Observable Inputs (Level 2) Significant Unobservable Inputs (Level 3) (In thousands) Impaired loans \$5,000A \$5,000A Mortgage servicing rights \$2,908A \$2,908A \$2,908A \$7,908A \$7,908A 14.4A \$Fair Value Measurements (continued) The following table presents information for Level 3 assets measured at fair value on a non-recurring basis at September 30, 2024 and December 31, 2023: September 30, 2024 <table border="1"><thead><tr><th>Valuation Methodology</th><th>Unobservable Inputs</th><th>Range of Inputs</th><th>Weighted Average Rate (Dollars in thousands)</th></tr></thead><tbody><tr><td>Impaired loans \$4,892A Other/R aging schedule \$4,892A Other real estate owned \$1,974A Appraised value (1) Discount for costs to sell (2) 6.0A % 6.0A % Mortgage servicing rights \$2,528A Discounted cash flow Prepayment speeds and discount rates (3) 4.7% - 27.2% 11.0A % December 31, 2023</td><td>Fair Value Valuation Methodology</td><td>Unobservable Inputs</td><td>Range of Inputs</td><td>Weighted Average Rate (Dollars in thousands)</td></tr><tr><td>Impaired loans \$5,000A Other Contracted modification agreement \$4,892A Mortgage servicing rights \$2,908A Discounted cash flow Prepayment speeds and discount rates (4) 4.3% - 27.2% 8.1A % (1) Value based on an independent appraisal of the property's fair value. (4) Value of SBA servicing rights based on a discount rate of 15.50%</td><td>Other Fair Value Disclosures</td><td>A A The Company is required to disclose estimated fair value of financial instruments, both assets and liabilities on and off the balance sheet, for which it is practicable to estimate fair value. A description of the valuation methodologies used for those assets and liabilities not recorded at fair value on a recurring or non-recurring basis are set forth below.</td><td>Cash and Cash Equivalents</td><td>A A For cash and due from banks, federal funds sold and short-term investments, the carrying amount approximates fair value due to their nature and short-term maturities. 14.4A \$Fair Value Measurements (continued) Debt Securities Held to Maturity</td><td>A A For debt securities held to maturity, fair value was estimated using a market approach. The majority of the Company's securities are fixed income instruments that are not quoted on an exchange but are traded in active markets. Prices for these instruments are obtained through third-party data service providers or dealer market participants with which the Company has historically transacted both purchases and sales of securities. Prices obtained from these sources include market quotations and matrix pricing. Matrix pricing, a Level 2 input, is a mathematical technique used principally to value certain securities to a benchmark or to comparable securities. The Company evaluates the quality of Level 2 matrix pricing through comparison to similar assets with greater liquidity and evaluation of projected cash flows. As the Company is responsible for the determination of fair value, it performs quarterly analysis on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to assess the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services has not historically resulted in an adjustment in the prices obtained from the pricing service. The Company also holds debt instruments issued by the U.S. government and U.S. government-sponsored agencies that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs within the fair value hierarchy.</td><td>Federal Home Loan Bank Stock ("FHLB")</td><td>A A The fair value of FHLB stock is based on redemption at par value and can only be sold to the issuing FHLB, to other FHLBs, or to other member banks. As such, the Company's FHLB stock is recorded at cost, or par value, and is evaluated for impairment each reporting period by considering the ultimate recoverability of the investment rather than temporary declines in value. The Company classifies the estimated fair value as Level 2 within the fair value hierarchy.</td><td>Loans Receivable</td><td>A A Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type such as commercial mortgage, residential mortgage, commercial, construction, consumer, and other. Each loan category is further segmented into fixed and adjustable rate interest terms and into performing and non-performing categories. The fair value of performing loans was estimated using a combination of techniques, including a discounted cash flow model that utilizes a discount rate that reflects the Company's current pricing for loans with similar characteristics and remaining maturity, adjusted by an amount for estimated credit losses inherent in the portfolio at the balance sheet date. The rates take into account the expected yield curve, as well as an adjustment for prepayment risk, when applicable. The Company classifies the estimated fair value of its loan portfolio as Level 3.</td><td>A A The fair value for significant non-performing loans was based on recent external appraisals of collateral securing such loans, adjusted for the timing of anticipated cash flows. The Company classifies the estimated fair value of its non-performing loan portfolio as Level 3.</td><td>A A Deposits</td><td>A A The fair value of deposits with no stated maturity, such as demand, money market, and savings and club deposits are payable on demand at each reporting date and classified as Level 2. The estimated fair value of certificates of deposit was based on the discounted value of contractual cash flows. The discount rate was estimated using the Company's current rates offered for deposits with similar remaining maturities. The Company classifies the estimated fair value of its certificates of deposit portfolio as Level 2.</td><td>Borrowings</td><td>A A The fair value of borrowings was estimated by discounting future cash flows using rates available for debt with similar terms and maturities and is classified by the Company as Level 2 within the fair value hierarchy.</td><td>14.4A \$Fair Value Measurements (continued) Commitments to Extend Credit and Letters of Credit</td><td>A A The fair value of commitments to extend credit and letters of credit was estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counter-parties. For fixed rate loan commitments, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value estimates of commitments to extend credit and letters of credit</td></tr></tbody></table></td></tr></tbody></table>	Level 1 Significant Other Observable Inputs (Level 2)	Level 2 Significant Unobservable Inputs (Level 3)	(In thousands) Impaired loans \$4,892A \$4,892A \$Other real estate owned \$1,974A \$1,974A Mortgage servicing rights \$2,528A \$2,528A \$2,528A \$4,394A \$4,394A December 31, 2023 Fair Value Measurements Fair Value Quoted Prices in Active Markets for Identical Assets (Level 1) Significant Other Observable Inputs (Level 2) Significant Unobservable Inputs (Level 3) (In thousands) Impaired loans \$5,000A \$5,000A Mortgage servicing rights \$2,908A \$2,908A \$2,908A \$7,908A \$7,908A 14.4A \$Fair Value Measurements (continued) The following table presents information for Level 3 assets measured at fair value on a non-recurring basis at September 30, 2024 and December 31, 2023: September 30, 2024 <table border="1"><thead><tr><th>Valuation Methodology</th><th>Unobservable Inputs</th><th>Range of Inputs</th><th>Weighted Average Rate (Dollars in thousands)</th></tr></thead><tbody><tr><td>Impaired loans \$4,892A Other/R aging schedule \$4,892A Other real estate owned \$1,974A Appraised value (1) Discount for costs to sell (2) 6.0A % 6.0A % Mortgage servicing rights \$2,528A Discounted cash flow Prepayment speeds and discount rates (3) 4.7% - 27.2% 11.0A % December 31, 2023</td><td>Fair Value Valuation Methodology</td><td>Unobservable Inputs</td><td>Range of Inputs</td><td>Weighted Average Rate (Dollars in thousands)</td></tr><tr><td>Impaired loans \$5,000A Other Contracted modification agreement \$4,892A Mortgage servicing rights \$2,908A Discounted cash flow Prepayment speeds and discount rates (4) 4.3% - 27.2% 8.1A % (1) Value based on an independent appraisal of the property's fair value. The Company also holds debt instruments issued by the U.S. government and U.S. government-sponsored agencies that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs within the fair value hierarchy.	Federal Home Loan Bank Stock ("FHLB")	A A The fair value of FHLB stock is based on redemption at par value and can only be sold to the issuing FHLB, to other FHLBs, or to other member banks. As such, the Company's FHLB stock is recorded at cost, or par value, and is evaluated for impairment each reporting period by considering the ultimate recoverability of the investment rather than temporary declines in value. The Company classifies the estimated fair value as Level 2 within the fair value hierarchy.	Loans Receivable	A A Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type such as commercial mortgage, residential mortgage, commercial, construction, consumer, and other. Each loan category is further segmented into fixed and adjustable rate interest terms and into performing and non-performing categories. The fair value of performing loans was estimated using a combination of techniques, including a discounted cash flow model that utilizes a discount rate that reflects the Company's current pricing for loans with similar characteristics and remaining maturity, adjusted by an amount for estimated credit losses inherent in the portfolio at the balance sheet date. The rates take into account the expected yield curve, as well as an adjustment for prepayment risk, when applicable. The Company classifies the estimated fair value of its loan portfolio as Level 3.	A A The fair value for significant non-performing loans was based on recent external appraisals of collateral securing such loans, adjusted for the timing of anticipated cash flows. The Company classifies the estimated fair value of its non-performing loan portfolio as Level 3.	A A Deposits	A A The fair value of deposits with no stated maturity, such as demand, money market, and savings and club deposits are payable on demand at each reporting date and classified as Level 2. The estimated fair value of certificates of deposit was based on the discounted value of contractual cash flows. The discount rate was estimated using the Company's current rates offered for deposits with similar remaining maturities. The Company classifies the estimated fair value of its certificates of deposit portfolio as Level 2.	Borrowings	A A The fair value of borrowings was estimated by discounting future cash flows using rates available for debt with similar terms and maturities and is classified by the Company as Level 2 within the fair value hierarchy.	14.4A \$Fair Value Measurements (continued) Commitments to Extend Credit and Letters of Credit	A A The fair value of commitments to extend credit and letters of credit was estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counter-parties. For fixed rate loan commitments, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value estimates of commitments to extend credit and letters of credit

A description of the valuation methodologies used for those assets and liabilities not recorded at fair value on a recurring or non-recurring basis are set forth below.</td><td>Cash and Cash Equivalents</td><td>A A For cash and due from banks, federal funds sold and short-term investments, the carrying amount approximates fair value due to their nature and short-term maturities. 14.4A \$Fair Value Measurements (continued) Debt Securities Held to Maturity</td><td>A A For debt securities held to maturity, fair value was estimated using a market approach. The majority of the Company's securities are fixed income instruments that are not quoted on an exchange but are traded in active markets. Prices for these instruments are obtained through third-party data service providers or dealer market participants with which the Company has historically transacted both purchases and sales of securities. Prices obtained from these sources include market quotations and matrix pricing. Matrix pricing, a Level 2 input, is a mathematical technique used principally to value certain securities to a benchmark or to comparable securities. The Company evaluates the quality of Level 2 matrix pricing through comparison to similar assets with greater liquidity and evaluation of projected cash flows. As the Company is responsible for the determination of fair value, it performs quarterly analysis on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to assess the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services has not historically resulted in an adjustment in the prices obtained from the pricing service. The Company also holds debt instruments issued by the U.S. government and U.S. government-sponsored agencies that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs within the fair value hierarchy.</td><td>Federal Home Loan Bank Stock ("FHLB")</td><td>A A The fair value of FHLB stock is based on redemption at par value and can only be sold to the issuing FHLB, to other FHLBs, or to other member banks. Most of the Company's revenue is not within the scope of Accounting Standards Codification Topic 606 which does not apply to revenue associated with financial instruments, including interest income on loans and securities, which comprise the majority of the Company's revenue. Revenue-generating activities that are within the scope of this guidance are components of non-interest income. These revenue streams can generally be classified as demand deposit account fees, title insurance fees, insurance agency income and other fees. The following table presents non-interest income, segregated by revenue streams in-scope and out-of-scope of Topic 606, for the three and nine months ended September 30, 2024 and 2023. A For the Three Months Ended September 30, For the Nine Months Ended September 30, 2024 2023 2024 2023 (In thousands) Non-interest income In-scope of Topic 606: Demand deposit account fees \$1,695A \$1,348A \$4,698A \$3,815A Title insurance fees 688A 629A 1,935A 1,840A Insurance agency income 84A 63A 192A 141A Other non-interest income 1,559A 1,518A 4,468A 4,480A Total in-scope non-interest income 4,026A 3,558A 11,293A 12,276A Total out-of-scope non-interest income 4,952A 5,044A 14,317A 3,854A Total non-interest income \$8,978A \$8,602A \$25,610A \$16,130A A A A 17 A A A Revenue Recognition (continued) Demand deposit account fees include monthly maintenance fees and service charges. These fees are generally derived as a result of either transaction-based or serviced-based services. The Company's performance obligation for these services is generally satisfied, and revenue recognized, at the time the transaction is completed, or the service rendered. Fees for these services are generally received from the customer either at the time of the transaction or monthly. Title insurance fees are generally recognized at the time the transaction closes or when the service is rendered. Columbia Insurance Services Inc. (formerly known as RSI Insurance Agency, Inc.) performs the function of an insurance intermediary, by introducing the policyholder and insurer for life and health, and property and casualty insurance, and is compensated by a commission fee for placement of an insurance policy. Commission and fees are generally recognized as of the effective date of the insurance policy. Commission revenues related to installment billings are recognized on the invoice date. Subsequent commission adjustments are recognized upon the receipt of notification from insurance companies concerning matters necessitating such adjustments. Other non-interest income includes check printing fees, traveler's check fees, gift card fees, branch service fees, overdraft fees, account analysis fees, other deposit related fees, wealth management related fee income which includes annuity fees, brokerage commissions, and asset management fees. Wealth management related fee income represent fees earned from customers as consideration for asset management and investment advisory services provided by a third party. The Company's performance obligation is generally satisfied monthly, and the resulting fees are recognized monthly based upon the month-end market value of the assets under management and the applicable fee rate. The Company does not earn performance-based incentives. The Company's performance obligation for these transaction-based services are generally satisfied, and related revenue recognized, at the time the transaction closes or when the service is rendered or a point in time when the service is completed. Also included in other fees are debit card and ATM fees which are transaction-based. Debit card revenue is primarily comprised of interchange fees earned when a customer's Company card is processed through a card payment network. ATM fees are largely generated when a Company cardholder uses a non-Company ATM, or a non-Company cardholder uses a Company ATM. The Company's performance obligation for these services is satisfied when the service is rendered. Payment is generally received at time of transaction or monthly. Out-of-scope non-interest income primarily consists of income from bank-owned life insurance, loan prepayment and servicing fees, net fees on loan level swaps, gains and losses on the sale of loans and securities, credit card interchange income, and changes in the fair value of equity securities. None of these revenue streams are subject to the requirements of Topic 606. xbrl:stringItemType Balance Type: na Period Type: duration XML 39 R29.htm IDEA: XBRL DOCUMENT v3.24.3 Summary of Significant Accounting Policies (Policies) 9 Months Ended Sep. 30, 2024 Accounting Standards Update and Change in Accounting Principle [Abstract] A Accounting Pronouncements Adopted Accounting Pronouncements Adopted In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280); Improvements to Reportable Segment Disclosures. ASU 2023-07 enhances segment reporting under Topic 820 by expanding the breadth and frequency of segment disclosures. The ASU requires a public entity to disclose entity-wide and segment information in the notes to the financial statements. Disclosures include the measure of profit or loss that the chief operating decision maker uses to assess segment performance and decide how to allocate resources, as well as certain specified amounts included in that measure. This ASU was effective for fiscal years beginning after December 15, 2023, including interim periods within those fiscal years. The Company adopted this ASU on January 1, 2024 on a retrospective basis for all periods presented. As it is only disclosure related, this ASU did not have an impact on the Company's consolidated financial statements. Loans Receivable The Company has made an accounting policy election to exclude accrued interest receivable from the amortized cost basis of loans receivable. Accrued interest receivable on loans receivable is reported as a component of accrued interest receivable in the Consolidated Statement of Financial Condition, which totaled \$33.6 million and \$32.9 million at SeptemberÂ 30, 2024 and DecemberÂ 31, 2023, respectively, and is excluded from the estimate of credit losses. The determination of the allowance for credit losses (âACLâ) on loans is considered a critical accounting estimate by management because of the high degree of judgment involved in determining qualitative loss factors, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment. The ACL is maintained at a level management considers adequate to provide for estimated losses and impairment based upon an evaluation of known and inherent risk in the loan portfolio. The ACL consists of two elements: (1) identification of loans that must be individually analyzed for impairment and (2) establishment of an ACL for loans collectively analyzed. Portfolio segments are defined as the level at which an entity develops and documents a systematic methodology to determine its allowance for credit losses. Management developed segments for estimating losses based on the type of borrower and collateral which is generally based upon federal call report segmentation. The segments have been combined or sub-segments have been added as needed to ensure loans of similar risk profiles are appropriately pooled. We maintain a loan review system that provides a periodic review of the loan portfolio and the identification of individually analyzed loans. The ACL for individually analyzed loans is based on the fair value of collateral or cash flows. While management uses the best information available to make such evaluations, future adjustments to the allowance may be necessary if economic conditions differ substantially from the assumptions used in making the evaluations. The ACL quantitative allowance for each segment is measured using a discounted cash flow methodology incorporating an econometric, probability of default (âPDâ) and loss given default (âLGDâ) with distinct segment-specific multi-variate regression models applied. Expected credit losses are estimated over the life of the loans by measuring the difference between the net present value of modeled cash flows and amortized cost basis. Contractual cash flows over the contractual life of the loans are the basis for the modeled cash flows, adjusted for model defaults and expected prepayments and discounted at the loan-level effective interest rate. The contractual term excludes expected extensions, renewals, and modifications.9.Â A Â A Loans Receivable and Allowance for Credit Losses (continued)Management estimates the ACL using relevant and reliable information from internal and external sources, related to past events, current conditions, and a reasonable and supportable forecast. Historical credit loss experience for both the Company and its segment-specific peers provides the basis for the estimate of expected credit losses. Credit losses over a defined period are converted to PD rate curves through the use of segment-specific LGD risk factors that convert default rates to loss severity based on industry-level, observed relationships between the two variables for each segment, primarily due to the nature of the underlying collateral. These risk factors were assessed for reasonableness against the Companyâs own loss experience and adjusted in certain cases when the relationship between the Companyâs historical default and loss severity deviate from that of the wider industry. The historical PD curves, together with corresponding economic conditions, establish a quantitative relationship between economic conditions and loan performance through an economic cycle. Using the historical relationship between economic conditions and loan performance, managementâs expectation of future loan performance is incorporated using a single economic forecast of macroeconomic variables (i.e., unemployment, gross domestic product, vacancy, and home price index). This forecast is applied over a period that management has determined to be reasonable and supportable. Beyond the period over which management can develop or source a reasonable and supportable forecast, the model reverts to long-term average historical loss rates using a straight-line, time-based methodology. The Company's current forecast period is six quarters, with a four-quarter reversion period to long-term average historical loss rates. After quantitative considerations, management applies additional qualitative adjustments that consider the expected impact of certain factors not fully captured in the quantitative reserve. Qualitative adjustments include but are not limited to concentrations of large loan balances, delinquency trends, change in collateral values within segments, and other considerations.The ACL is established through the provision for credit losses that are charged to income, which is based upon an evaluation of estimated losses in the current loan portfolio, including the evaluation of individually analyzed loans. Charge-offs against the ACL are taken on loans where management determines that the collection of loan principal and interest is unlikely. Recoveries made on loans that have been charged-off are credited to the ACL. Although we believe we have established and maintained the ACL on loans at appropriate levels, changes in reserves may be necessary if actual economic and other conditions differ substantially from the forecast used in estimating the ACL. Our financial results are affected by the changes in and the level of the ACL. This process involves our analysis of internal and external variables, and it requires that we exercise judgment to estimate an appropriate ACL. As a result of the uncertainty associated with this subjectivity, we cannot assure the precision of the amount reserved, should we experience sizable loan losses in any particular period and/or significant changes in assumptions or economic condition. We believe the primary risks inherent in the portfolio are a general decline in the economy, a decline in real estate market values, rising unemployment, increasing vacancy rates, and increases in interest rates in the absence of economic improvement or any other such factors. Any one or a combination of these events may adversely affect a borrower's ability to repay its loan, resulting in increased delinquencies and loan losses. Accordingly, we have recorded loan credit losses at a level which is estimated to represent the current risk in its loan portfolio. For our non-performing loans, the allowance is determined on an individual basis using the present value of expected cash flows, or for collateral dependent loans, the fair value of the collateral less estimated costs to sell. We continue to assess the collateral of loans and update our appraisals on these loans on an annual basis. To the extent the property values decline, there could be additional losses on these non-performing assets, which may be material. Management considered these market conditions in deriving the estimated ACL. Should economic difficulties occur, the ultimate amount of loss could vary from our current estimate. Fair Value Measurements Debt Securities Available for Sale, at Fair ValueÂ A Â A For debt securities available for sale, fair value was estimated using a market approach. The majority of these securities are fixed income instruments that are not quoted on an exchange but are traded in active markets. Prices for these instruments are obtained through third-party data service providers or dealer market participants with which the Company has historically transacted both purchases and sales of securities. Prices obtained from these sources include market quotations, matrix pricing and discounted cash flow pricing. Matrix pricing, a Level 2 input, is a mathematical technique used principally to value certain securities to a benchmark or to comparable securities. The Company evaluates the quality of Level 2 matrix pricing through comparison to similar assets with greater liquidity and evaluation of projected cash flows. Discounted cash flows, a Level 3 input, is estimated by discounting the expected future cash flows using the current rates for securities with similar credit ratings and similar remaining maturities. As the Company is responsible for the determination of fair value, it performs quarterly analysis on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to assess the reasonableness of the reported prices. The Companyâs internal price verification procedures and review of fair value methodology documentation provided by independent pricing services has not historically resulted in an adjustment in the prices obtained from the pricing service. The Company may hold debt instruments issued by the U.S. government and U.S. government-sponsored agencies that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs. The Company classifies the estimated fair value of its loan portfolio as Level 3.Equity Securities, at Fair ValueÂ A Â A The Company holds equity securities that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs. A trust preferred security that is not traded in an active market and Federal Home Loan Mortgage Corporation ("FHLMC") and Federal National Mortgage Association ("FNMA") preferred stock are considered Level 2 instruments. In addition, Level 2 instruments include Atlantic Community Bankers Bank ("ACCB") stock, which is based on redemption at par value and can only be sold to the issuing ACBB or another institution that holds ACBB stock.14.Â A Â A Fair Value Measurements (continued)DerivativesÂ A Â A The Company records all derivatives included in other assets and liabilities on the Consolidated Statements of Financial Condition at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting, and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. See note 16 for disclosures related to the accounting treatment for derivatives. The fair value of the Company's derivatives is determined using discounted cash flow analysis using observable market-based inputs, which are considered Level 2 inputs.Individually Analyzed Collateral Dependent Loans/Impaired LoansÂ A Â A The fair value of collateral dependent loans that are individually analyzed or were previously deemed impaired is measured based on the present value of expected future cash flows discounted at the loan's effective interest rate or, as a practical expedient, at the loan's observable market price or the fair value of the collateral if the loan is collateral dependent. For individually analyzed loans measured for impairment based on the fair value of the underlying collateral, fair value was estimated using a market approach. The Company measures the fair value of collateral underlying impaired loans primarily through obtaining independent appraisals that rely upon quoted market prices for similar assets in active markets. These appraisals include adjustments, on an individual case-by-case basis, to comparable assets based on the appraisersâ market knowledge and experience, as well as adjustments for estimated costs to sell between 6% and 8%. For non-collateral dependent loans, management estimates fair value using discounted cash flows based on inputs that are largely unobservable. The Company classifies these loans as Level 3 within the fair value hierarchy. 14.Â A Â A Fair Value Measurements (continued)Other Real Estate OwnedÂ A Â A Â A Other real estate owned is initially recorded at the lower of the recorded investment in the loan at the time of foreclosure or at fair value, less estimated costs to sell, when acquired. Fair value is generally based on an independent appraisal which includes adjustments to comparable assets based on the appraisers' market knowledge and experience. Subsequent write-downs in the value of other real estate owned is recorded though expense as incurred. Other real estate owned is considered Level 3 within the fair value hierarchy. Mortgage Servicing Rights, Net ("MSR's")Â A Â A Â A Mortgage servicing rights are carried at the lower of cost or estimated fair value. The estimated fair value of MSRs is obtained through an analysis of future cash flows, incorporating assumptions that market participants would use in determining fair value including market discount rates, prepayments speeds, servicing income, servicing costs, default rates and other market driven data, including the market's perception of future interest rate movements. The prepayment speed and the discount rate are considered two of the most significant inputs in the model. A significant degree of judgment is involved in valuing the mortgage servicing rights using Level 3 inputs. The use of different assumptions could have a significant effect on this fair value estimate.Other Fair Value DisclosuresÂ A Â A The Company is required to disclose estimated fair value of financial instruments, both assets and liabilities on and off the balance sheet, for which it is practicable to estimate fair value. A description of the valuation methodologies used for those assets and liabilities not recorded at fair value on a recurring or non-recurring basis are set forth below.Cash and Cash EquivalentsÂ A Â A For cash and due from banks, federal funds sold and short-term investments, the carrying amount approximates fair value due to their nature and short-term maturities. 14.Â A Â A Fair Value Measurements (continued)Debt Securities Held to MaturityÂ A Â A For debt securities held to maturity, fair value was estimated using a market approach. The majority of the Companyâs securities are fixed income instruments that are not quoted on an exchange but are traded in active markets. Prices for these instruments are obtained through third-party data service providers or dealer market participants with which the Company has historically transacted both purchases and sales of securities. Prices obtained from these sources include market quotations and matrix pricing. Matrix pricing, a Level 2 input, is a mathematical technique used principally to value certain securities to a benchmark or to comparable securities. The Company evaluates the quality of Level 2 matrix pricing through comparison to similar assets with greater liquidity and evaluation of projected cash flows. As the Company is responsible for the determination of fair value, it performs quarterly analysis on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to assess the reasonableness of the reported prices. The Companyâs internal price verification procedures and review of fair value methodology documentation provided by independent pricing services has not historically resulted in an adjustment in the prices obtained from the pricing service. The Company also holds debt instruments issued by the U.S. government and U.S. government-sponsored agencies that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs within the fair value hierarchy.Federal Home Loan Bank Stock ("FHLB")Â A Â A The fair value of FHLB stock is based on redemption at par value and can only be sold to the issuing FHLB, to other FHLBs, or to other member banks. As such, the Company's FHLB stock is recorded at cost, or par value, and is evaluated for impairment each reporting period by considering the ultimate recoverability of the investment rather than temporary declines in value. The Company classifies the estimated fair value as Level 2 within the fair value hierarchy.Loans ReceivableÂ A Â A Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type such as commercial mortgage, residential mortgage, commercial, construction, consumer, and other. Each loan category is further segmented into fixed and adjustable rate interest terms and into performing and non-performing categories. The fair value of performing loans was estimated using a combination of techniques, including a discounted cash flow model that utilizes a discount rate that reflects the Company's current pricing for loans with similar characteristics and remaining maturity, adjusted by an amount for estimated credit losses inherent in the portfolio at the balance sheet date. The rates take into account the expected yield curve, as well as an adjustment for prepayment risk, when applicable. The Company classifies the estimated fair value of its loan portfolio as Level 3.Â A Â A The fair value for significant non-performing loans was based on recent external appraisals of collateral securing such loans, adjusted for the timing of anticipated cash flows. The Company classifies the estimated fair value of its non-performing loan portfolio as Level 3.Â A Â A DepositsÂ A Â A The fair value of deposits with no stated maturity, such as demand, money market, and savings and club deposits are payable on demand at each reporting date and classified as Level 2. The estimated fair value of certificates of deposit was based on the discounted value of contractual cash flows. The discount rate was estimated using the Companyâs current rates offered for deposits with similar remaining maturities. The Company classifies the estimated fair value of its certificates of deposit portfolio as Level 2.BorrowingsÂ A Â A The fair value of borrowings was estimated by discounting future cash flows using rates available for debt with similar terms and maturities and is classified by the Company as Level 2 within the fair value hierarchy.14.Â A Â A Fair Value Measurements (continued)Commitments to Extend Credit and Letters of CreditÂ A Â A The fair value of commitments to extend credit and letters of credit was estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counter-parties. For fixed rate loan commitments, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value estimates of commitments to extend credit and letters of credit are deemed immaterial.LimitationsÂ A Â A Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Companyâs entire holdings of a particular financial instrument. Because limited markets exist for a significant portion of the Companyâs financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.Â A Â A Fair value estimates are based on existing on and off-balance-sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Other significant assets and liabilities that are not considered financial assets or liabilities include goodwill and intangible assets, deferred tax assets and liabilities, office properties and equipment, and bank-owned life insurance. X - DefinitionDisclosure of accounting policy for fair value measurements of financial and non-financial assets, liabilities and instruments classified in shareholders' equity. Disclosures include, but are not limited to, how an entity that manages a group of financial assets and liabilities on the basis of its net exposure measures the fair value of those assets and liabilities. + ReferencesNo definition available. + Details Name: us-gaap_FairValueMeasurementPolicyTextBlock Namespace Prefix: us-gaap_ Data Type: dtr-types:textBlockItemType Balance Type: na Period Type: duration X - DefinitionDisclosure of

Definition Fair value portion of currency on hand as well as demand deposits with banks or financial institutions. Includes other kinds of accounts that have the general characteristics of demand deposits. Also includes short-term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. + ReferencesReference 1:](#) [http://www.xbrl.org/2009/role/commonPracticeRef - Topic 820 - SubTopic 10 - Name Accounting Standards Codification - Section 50 - Paragraph 2 - Subparagraph \(b\) - Publisher FASB - URI https://asc.fasb.org/1943274/2147482106/820-10-50-2Reference 2:](#) [http://www.xbrl.org/2009/role/commonPracticeRef - Topic 820 - SubTopic 10 - Name Accounting Standards Codification - Section 50 - Paragraph 2 - Subparagraph \(a\) - Publisher FASB - URI https://asc.fasb.org/1943274/2147482106/820-10-50-2 + Details Name: us-gaap CashAndCashEquivalentsFairValueDisclosure Namespace Prefix: us-gaap Data Type: xbrli:monetaryItemType Balance Type: debit Period Type: instant X - DefinitionFair value portion of debt instrument payable, including, but not limited to, notes payable and loans payable. + ReferencesReference 1:](#) [http://www.xbrl.org/2009/role/commonPracticeRef - Topic 820 - SubTopic 10 - Name Accounting Standards Codification - Section 50 - Paragraph 2E - Publisher FASB - URI https://asc.fasb.org/1943274/2147482106/820-10-50-2Reference 2:](#) [http://www.xbrl.org/2009/role/commonPracticeRef - Topic 820 - SubTopic 10 - Name Accounting Standards Codification - Section 50 - Paragraph 2 - Subparagraph \(b\) - Publisher FASB - URI https://asc.fasb.org/1943274/2147482106/820-10-50-2Reference 3:](#) [http://www.xbrl.org/2009/role/commonPracticeRef - Topic 820 - SubTopic 10 - Name Accounting Standards Codification - Section 50 - Paragraph 2 - Subparagraph \(bbb\)\(2\)\(i\) - Publisher FASB - URI https://asc.fasb.org/1943274/2147482106/820-10-50-2Reference 4:](#) [http://www.xbrl.org/2009/role/commonPracticeRef - Topic 820 - SubTopic 10 - Name Accounting Standards Codification - Section 50 - Paragraph 2 - Subparagraph \(bbb\)\(2\) - Publisher FASB - URI https://asc.fasb.org/1943274/2147482106/820-10-50-2Reference 5:](#) [http://www.xbrl.org/2009/role/commonPracticeRef](#)

other post-retirement benefits. These estimates, significant judgments and assumptions are evaluated on an ongoing basis and are adjusted when facts and circumstances dictate.

The interim unaudited consolidated financial statements reflect all normal and recurring adjustments, which are, in the opinion of management, considered necessary for a fair presentation of the financial condition and results of operations for the periods presented. The results of operations for the three and nine months periods ended September 30, 2024 are not necessarily indicative of the results of operations that may be expected for the entire fiscal year or any other period.

The interim unaudited consolidated financial statements of the Company presented herein have been prepared in accordance with the rules of the Securities and Exchange Commission ("SEC") for quarterly reports on Form 10-Q and U.S. generally accepted accounting principles ("GAAP"). Certain information and note disclosures have been condensed or omitted pursuant to the rules and regulations of the SEC.

These unaudited consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2023, and the audited consolidated financial statements included therein.

Acquisitions

Freehold Bank

On December 1, 2021, the Company completed its acquisition of Freehold Bancorp, MHC, Freehold Bancorp, Inc. and Freehold Bank (collectively, the "Freehold Entities" or "Freehold"). Pursuant to the terms of the merger agreement, Freehold Bancorp, MHC merged with and into the MHC, with the MHC as the surviving entity; and Freehold Bancorp, Inc. merged with and into Columbia Financial, with Columbia Financial as the surviving entity. In connection with the merger, Freehold Bank converted to a federal savings bank and operated as a wholly-owned subsidiary of Columbia Financial, until October 5, 2024, when the Company merged Freehold Bank into Columbia Bank. Under the terms of the merger agreement, upon the merger of the two banks, depositors of Freehold Bank became depositors of Columbia Bank and have the same rights and privileges in the MHC as if their accounts had been established at Columbia Bank on the date established at Freehold Bank. The Company issued 2,591,007 shares of its common stock to the MHC, representing an amount equal to the fair value of the Freehold Entities as determined by an independent appraiser, at the effective time of the holding company mergers.

Merger-related expenses are recorded in the Consolidated Statements of Income and are expensed as incurred. Direct acquisition and other charges incurred in connection with the acquisition of the Freehold Entities totaled \$23,000 and \$737,000 during the three and nine months ended September 30, 2024, and \$14,000 and \$88,000 recorded during the three and nine months ended September 30, 2023.

Earnings per Share

Basic earnings per share ("EPS") is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. For purposes of calculating basic EPS, weighted average common shares outstanding excludes treasury stock, unallocated employee stock ownership plan shares that have not been committed for release and deferred compensation obligations required to be settled in shares of Company stock.

Diluted EPS is computed using the same method as basic EPS and reflects the potential dilution which could occur if stock options and unvested shares were exercised and converted into common stock. The potentially diluted shares would then be included in the weighted average number of shares outstanding for the period using the treasury stock method.

	2024	2023
Basic earnings per share	0.494	0.122
Diluted earnings per share	0.494	0.122

Weighted average common shares outstanding

	2024	2023
Weighted average common shares outstanding	1,122,000	1,122,000

Debt Securities Available for Sale (continued)

The amortized cost and fair value of debt securities available for sale at September 30, 2024, by contractual final maturity, is shown below. Expected maturities may differ from contractual maturities due to prepayment or early call options exercised by the issuer.

Maturity	Amortized Cost	Fair Value
One year or less	\$99,641	\$99,662
More than one year to five years	\$195,370	\$196,775
More than five years to ten years	\$78,259	\$78,259
Mortgage-backed securities and collateralized mortgage obligations	\$1,022,232	\$1,022,232

Mortgage-backed securities and collateralized mortgage obligations totaling \$1.0 billion at amortized cost, and \$209.6 million at fair value, are not classified by maturity in the table above as their expected lives are likely to be shorter than the contractual maturity date due to principal prepayments.

During the three months ended September 30, 2024, there were no sales, calls or maturities of debt securities available for sale. During the nine months ended September 30, 2024, proceeds from the sale of a debt security available for sale totaled \$3.5 million, resulting in no gross gains and \$1.3 million of gross losses. There was one matured debt security available for sale totaling \$10.0 million during the nine months ended September 30, 2024. There were no calls of debt securities available for sale during the nine months ended September 30, 2024.

During the three months ended September 30, 2023, there were no proceeds from the sale of debt securities available for sale. During the nine months ended September 30, 2023, proceeds from the sale of debt securities available for sale totaled \$277.0 million, resulting in no gross gains and \$10.8 million of gross losses. There were no calls or matured debt securities available for sale during the three and nine months ended September 30, 2023.

Debt securities available for sale having a carrying value of \$225.9 million and \$211.5 million, at September 30, 2024 and December 31, 2023, respectively, were pledged as security for public funds on deposit at Columbia Bank as required and permitted by law, pledged for outstanding borrowings at the Federal Home Loan Bank, and pledged for potential borrowings at the Federal Reserve Bank of New York. Debt securities available for sale having a carrying value of \$74.9 million and \$75.1 million, at September 30, 2024 and December 31, 2023, respectively, were pledged by Freehold Bank for outstanding borrowings at the Federal Home Loan Bank, and for potential borrowings at the Federal Reserve Bank of New York.

The following tables summarize the fair value and gross unrealized losses of those securities that reported an unrealized loss at September 30, 2024 and December 31, 2023 and if the unrealized loss position was continuous for the twelve months prior to those respective dates:

The Company had no loans held-for-sale at September 30, 2024 and December 31, 2023. During the three months ended September 30, 2024, the Company sold \$6.2 million and \$2.8 million of one-to-four family real estate loans and Small Business Administration ("SBA") loans included in commercial business loans held-for-sale, respectively, resulting in gross gains of \$459,000 and no gross losses. During the nine months ended September 30, 2024, the Company sold \$6.4 million, \$6.8 million, and \$2.7 million of one-to-four family real estate loans, SBA loans included in commercial business loans, and construction loans held-for-sale, respectively, resulting in gross gains of \$825,000 and no gross losses.

During the three months ended September 30, 2023, the Company sold \$6.8 million, \$7.1 million, and \$1.9 million of one-to-four family real estate loans, SBA loans included in commercial business loans, and construction loans held-for-sale, respectively, resulting in gross gains of \$455,000 and gross losses of \$58,000. During the nine months ended September 30, 2023, the Company sold \$64.6 million, \$21.4 million, \$18.4 million, and \$5.7

million, of one-to-four family real estate loans and home equity loans and advances, commercial real estate loans, SBA loans included in commercial business loans, and construction loans held-for-sale, respectively, resulting in gross gains of \$1.4 million and gross losses of \$383,000.

During the three and nine months ended September 30, 2024, no loans were purchased by the Company. During the three months ended September 30, 2023 no loans were purchased by the Company. During the nine months ended September 30, 2023, the Company purchased a \$14.7 million commercial real estate participation loan from a third party financial institution.

Loans Receivable and Allowance for Credit Losses (continued)

At September 30, 2024 and December 31, 2023, commercial business loans included \$530,000 and \$809,000, respectively, in SBA Payroll Protection Program ("PPP") loans.

At September 30, 2024 and December 31, 2023, the carrying value of loans serviced by the Company for investors was \$513.0 million and \$551.0 million, respectively. These loans are not included in the Consolidated Statements of Financial Condition.

The following tables summarize the aging of loans receivable by portfolio segment, including non-accrual loans and excluding PCD loans at September 30, 2024 and December 31, 2023:

	30 Days or Less	31-60 Days	61-90 Days	91-120 Days	More Than 120 Days	Non-Accrual	Total

</div><div style="text-indent:36pt">The Company considers a loan to be delinquent when we have not received a payment within 30 days of its contractual due date, or when the Company does not expect to receive all principal and interest payments owed substantially in accordance with the terms of the loan agreement, regardless of the past due status. Non-accruing loans are returned to accrual status after there has been a sustained period of repayment performance and both principal and interest are deemed collectible. The Company identifies loans that may need to be charged off as a loss, by reviewing all delinquent loans, classified loans and other loans for which management may have concerns about collectability.</div><div style="text-align:justify">9. — Loans Receivable and Allowance for Credit Losses (continued)</div><div style="text-align:justify;text-indent:36pt">
</div><div style="text-align:justify;text-indent:36pt">At September 30, 2024 and December 31, 2023, non-accrual loans totaled \$28.0 million and \$12.6 million, respectively. Included in non-accrual loans at September 30, 2024 and December 31, 2023, are 32 and 10 loans totaling \$23.6 million and \$1.6 million, respectively, which are less than 90 days in arrears.</div><div style="text-align:justify;text-indent:36pt">
</div><div style="text-align:justify;text-indent:36pt">At September 30, 2024 and December 31, 2023, there were no loans past due 90 days or more still accruing interest.</div><div style="text-align:justify">
</div><div style="text-align:justify;text-indent:36pt">Purchased credit deteriorated ("PCD") loans were loans acquired at a discount primarily due to deteriorated credit quality. These loans were initially recorded at fair value at acquisition, based upon the present value of expected future cash flows, with no related allowance for credit losses. Loans acquired in a business combination are recorded in accordance with ASC Topic 326, which requires loans as of the acquisition date, that have experienced a more than insignificant deterioration in credit quality since origination, to be classified as PCD loans.</div><div style="text-align:justify;text-indent:36pt">
</div><div style="text-align:justify;text-indent:36pt">At September 30, 2024 and December 31, 2023, PCD loans acquired in the Stewardship Financial Corporation ("Stewardship") acquisition totaled \$1.2 million and \$1.7 million, respectively. PCD loans acquired in the Freehold Bank acquisition totaled \$247,000 and \$2.8 million, respectively, and PCD loans acquired in the RSL Bank acquisition totaled \$10.4 million and \$10.6 million, respectively.</div><div style="text-align:justify">
</div><div style="text-align:justify">— We may obtain physical possession of real estate collateralizing a residential mortgage loan via foreclosure or through an in-substance repossession. At September 30, 2024, the Company held one commercial property with a carrying value of \$2.0 million in other real estate owned that was acquired through foreclosure on a nonresidential mortgage loan. At December 31, 2023, the Company had no real estate owned. At September 30, 2024 we had four residential mortgage loans with a carrying value of \$1.2 million collateralized by residential real estate, which were in the process of foreclosure. At December 31, 2023, we had one residential mortgage loan and one home equity loan with carrying values of \$576,000 and \$93,000, respectively, collateralized by residential real estate which were in the process of foreclosure.</div><div>
</div><div style="text-align:justify;text-indent:36pt">The Company has made an accounting policy election to exclude accrued interest receivable from the amortized cost basis of loans receivable. Accrued interest receivable on loans receivable is reported as a component of accrued interest receivable in the Consolidated Statement of Financial Condition, which totaled \$33.6 million and \$32.9 million at September 30, 2024 and December 31, 2023, respectively, and is excluded from the estimate of credit losses.</div><div style="text-align:justify">
</div><div style="text-align:justify;text-indent:36pt">The determination of the allowance for credit losses ("ACL") on loans is considered a critical accounting estimate by management because of the high degree of judgment involved in determining qualitative loss factors, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment. The ACL is maintained at a level management considers adequate to provide for estimated losses and impairment based upon an evaluation of known and inherent risk in the loan portfolio. The ACL consists of two elements: (1) identification of loans that must be individually analyzed for impairment and (2) establishment of an ACL for loans collectively analyzed.</div><div style="text-align:justify;text-indent:36pt">
</div><div style="text-align:justify;text-indent:36pt">Portfolio segments are defined as the level at which an entity develops and documents a systematic methodology to determine its allowance for credit losses. Management developed segments for estimating losses based on the type of borrower and collateral which is generally based upon federal call report segmentation. The segments have been combined or sub-segments have been added as needed to ensure loans of similar risk profiles are

appropriately pooled.

We maintain a loan review system that provides a periodic review of the loan portfolio and the identification of individually analyzed loans. The ACL for individually analyzed loans is based on the fair value of collateral or cash flows. While management uses the best information available to make such evaluations, future adjustments to the allowance may be necessary if economic conditions differ substantially from the assumptions used in making the evaluations.

The ACL quantitative allowance for each segment is measured using a discounted cash flow methodology incorporating an econometric, probability of default ("PD") and loss given default ("LGD") with distinct segment-specific multi-variate regression models applied. Expected credit losses are estimated over the life of the loans by measuring the difference between the net present value of modeled cash flows and amortized cost basis. Contractual cash flows over the contractual life of the loans are the basis for the modeled cash flows, adjusted for model defaults and expected prepayments and discounted at the loan-level effective interest rate. The contractual term excludes expected extensions, renewals, and modifications.

9. Loans Receivable and Allowance for Credit Losses (continued)

Management estimates the ACL using relevant and reliable information from internal and external sources, related to past events, current conditions, and a reasonable and supportable forecast. Historical credit loss experience for both the Company and its segment-specific peers provides the basis for the estimate of expected credit losses. Credit losses over a defined period are converted to PD rate curves through the use of segment-specific LGD risk factors that convert default rates to loss severity based on industry-level, observed relationships between the two variables for each segment, primarily due to the nature of the underlying collateral. These risk factors were assessed for reasonableness against the Company's own loss experience and adjusted in certain cases when the relationship between the Company's historical default and loss severity deviate from that of the wider industry. The historical PD curves, together with corresponding economic conditions, establish a quantitative relationship between economic conditions and loan performance through an economic cycle.

Using the historical relationship between economic conditions and loan performance, management's expectation of future loan performance is incorporated using a single economic forecast of macroeconomic variables (i.e., unemployment, gross domestic product, vacancy, and home price index). This forecast is applied over a period that management has determined to be reasonable and supportable. Beyond the period over which management can develop or source a reasonable and supportable forecast, the model reverts to long-term average historical loss rates using a straight-line, time-based methodology. The Company's current forecast period is six quarters, with a four-quarter reversion period to long-term average historical loss rates.

After quantitative considerations, management applies additional qualitative adjustments that consider the expected impact of certain factors not fully captured in the quantitative reserve. Qualitative adjustments include but are not limited to concentrations of large loan balances, delinquency trends, change in collateral values within segments, and other considerations.

The ACL is established through the provision for credit losses that are charged to income, which is based upon an evaluation of estimated losses in the current loan portfolio, including the evaluation of individually analyzed loans. Charge-offs against the ACL are taken on loans where management determines that the collection of loan principal and interest is unlikely. Recoveries made on loans that have been charged-off are credited to the ACL. Although we believe we have established and maintained the ACL on loans at appropriate levels, changes in reserves may be necessary if actual economic and other conditions differ substantially from the forecast used in estimating the ACL.

Our financial results are affected by the changes in and the level of the ACL. This process involves our analysis of internal and external variables, and it requires that we exercise judgment to estimate an appropriate ACL. As a result of the uncertainty associated with this subjectivity, we cannot assure the precision of the amount reserved, should we experience sizable loan losses in any particular period and/or significant changes in assumptions or economic condition. We believe the primary risks inherent in the portfolio are a general decline in the economy, a decline in real estate market values, rising unemployment, increasing vacancy rates, and increases in interest rates in the absence of economic improvement or any other such factors. Any one or a combination of these events may adversely affect a borrower's ability to repay its loan, resulting in increased delinquencies and loan losses. Accordingly, we have recorded loan credit losses at a level which is estimated to represent the current risk in its loan portfolio.

For our non-performing loans, the allowance is determined on an individual basis using the present value of expected cash flows, or for collateral-dependent loans, the fair value of the collateral less estimated costs to sell. We continue to assess the collateral of loans and update our appraisals on these loans on an annual basis. To the extent the property values decline, there could be additional losses on these non-performing assets, which may be material. Management considered these market conditions in deriving the estimated ACL. Should economic difficulties occur, the ultimate amount of loss could vary from our current estimate.

9. Loans Receivable and Allowance for Credit Losses (continued)

The following tables summarize loans receivable (including PCD loans) and allowance for credit losses by portfolio segment and impairment method at September 30, 2024 and December 31, 2023:

Receivable and Allowance for Credit Losses (continued)

	2024	2023
The following table presents interest income recognized for individually analyzed loans by loan segment, excluding PCD loans and non-accrual loans, for the three and nine months ended September 30, 2024 and 2023:		
	2024	2023
Average Recorded Investment	\$1.01 billion	\$1.01 billion
Interest Income Recognized	\$3.808 million	\$3.808 million
Real estate loans	\$4.329 million	\$4.329 million
One-to-four family	\$54 million	\$54 million
Multifamily	\$2.872 million	\$2.872 million
Commercial real estate	\$8.258 million	\$8.258 million
Commercial business loans	\$11.477 million	\$11.477 million

each quarter that categorizes the entire loan portfolio by certain risk characteristics such as loan type (residential mortgage, commercial mortgage, construction, commercial business, etc.) and loan risk rating. The categorization of loans into risk categories is based upon relevant information about the borrower's ability to service their debt.</div><div style="margin-top:5pt;text-align:justify;text-indent:36pt">The Company utilizes a risk rating system to summarize its loan portfolio into categories with similar risk characteristics. Loans deemed to be "acceptable quality" are rated 1 through 4, with a rating established for loans with minimal risk. Loans rated 4w are watch loans, which may have a potential concern that warrants increased oversight and tracking by management. We enhanced our level of scrutiny and focus regarding documentation related to credit risk rating benchmark guidelines that pertain to debt service coverage ratios, LTV ratios, borrower strength, asset quality, and funded cash reserves. Other factors such as guarantees, market strength, and remaining loan term and borrower equity are also reviewed and are factored into determining the credit risk rating assigned to each loan. Loans that are deemed to be of "questionable quality" are rated 5 (Special Mention) or 6 (Substandard). Loans with adverse classifications are rated 7 (Doubtful) or 8 (Loss). The risk ratings are also confirmed through periodic loan review examinations which are currently performed by both an independent third-party and the Company's credit risk review department. The Company requires an annual review be performed above certain dollar thresholds, depending on loan type, to

Accrued interest receivable on loans receivable is reported as a component of accrued interest receivable in the Consolidated Statement of Financial Condition, which totaled \$33.6 million and \$32.9 million at September 30, 2024 and December 31, 2023, respectively, and is excluded from the estimate of credit losses.</div><div style="text-align:justify"> </div><div style="text-align:justify;text-indent:36pt">The determination of the allowance for credit losses ("ACL") on loans is considered a critical accounting estimate by management because of the high degree of judgment involved in determining qualitative loss factors, the subjectivity of the assumptions used, and the potential for changes in the forecasted economic environment. The ACL is maintained at a level management considers adequate to provide for estimated losses and impairment based upon an evaluation of known and inherent risk in the loan portfolio. The ACL consists of two elements: (1) identification of loans that must be individually analyzed for impairment and (2) establishment of an ACL for loans collectively analyzed.</div><div style="text-align:justify;text-indent:36pt"> </div><div style="text-align:justify;text-indent:36pt">Portfolio segments are defined as the level at which an entity develops and documents a systematic methodology to determine its allowance for credit losses. Management developed segments for estimating losses based on the type of borrower and collateral which is generally based upon federal call report segmentation. The segments have been combined or sub-segments have been added as needed to ensure loans of similar risk profiles are appropriately pooled.</div><div style="text-align:justify;text-indent:36pt"> </div><div style="text-align:justify;text-indent:36pt">We maintain a loan review system that provides a periodic review of the loan portfolio and the identification of individually analyzed loans. The ACL for individually analyzed loans is based on the fair value of collateral or cash flows. While management uses the best information available to make such evaluations, future adjustments to the allowance may be necessary if economic conditions differ substantially from the assumptions used in making the evaluations.</div><div style="text-align:justify;text-indent:36pt"> </div><div style="text-align:justify;text-indent:36pt">The ACL quantitative allowance for each segment is measured using a discounted cash flow methodology incorporating an econometric, probability of default ("PD") and loss given default ("LGD") with distinct segment-specific multi-variate regression models applied. Expected credit losses are estimated over the life of the loans by measuring the difference between the net present value of modeled cash flows and amortized cost basis. Contractual cash flows over the contractual life of the loans are the basis for the modeled cash flows, adjusted for model defaults and expected prepayments and discounted at the loan-level effective interest rate. The contractual term excludes expected extensions, renewals, and modifications.</div><div style="text-align:justify">9. Loans Receivable and Allowance for Credit Losses (continued)</div><div style="text-align:justify;text-indent:36pt"> </div><div style="text-align:justify;text-indent:36pt">Management estimates the ACL using relevant and reliable information from internal and external sources, related to past events, current conditions, and a reasonable and supportable forecast. Historical credit loss experience for both the Company and its segment-specific peers provides the basis for the estimate of expected credit losses. Credit losses over a defined period are converted to PD rate curves through the use of segment-specific LGD risk factors that convert default rates to loss severity based on industry-level, observed relationships between the two variables for each segment, primarily due to the nature of the underlying collateral. These risk factors were assessed for reasonableness against the Company's own loss experience and adjusted in certain cases when the relationship between the Company's historical default and loss severity deviate from that of the wider industry. The historical PD curves, together with corresponding economic conditions, establish a quantitative relationship between economic conditions and loan performance through an economic cycle.</div><div style="text-align:justify;text-indent:36pt"> </div><div style="text-align:justify;text-indent:36pt">Using the historical relationship between economic conditions and loan performance, management's expectation of future loan performance is incorporated using a single economic forecast of macroeconomic variables (i.e., unemployment, gross domestic product, vacancy, and home price index). This forecast is applied over a period that management has determined to be reasonable and supportable. Beyond the period over which management can develop or source a reasonable and supportable forecast, the model reverts to long-term average historical loss rates using a straight-line, time-based methodology. The Company's current forecast period is six quarters, with a four-quarter reversion period to long-term average historical loss rates.</div><div style="text-align:justify;text-indent:36pt"> </div><div style="text-align:justify;text-indent:36pt">After quantitative considerations, management applies additional qualitative adjustments that consider the expected impact of certain factors not fully captured in the quantitative reserve. Qualitative adjustments include but are not limited to concentrations of large loan balances, delinquency trends, change in collateral values within segments, and other considerations.</div><div style="text-align:justify;text-indent:36pt"> </div><div style="text-align:justify;text-indent:36pt">The ACL is established through the provision for credit losses that are charged to income, which is based upon an evaluation of estimated losses in the current loan portfolio, including the evaluation of individually analyzed loans. Charge-offs against the ACL are taken on loans where management determines that the collection of loan principal and interest is unlikely. Recoveries made on loans that have been charged-off are credited to the ACL. Although we believe we have established and maintained the ACL on loans at appropriate levels, changes in reserves may be necessary if actual economic and other conditions differ substantially from the forecast used in estimating the ACL.</div><div style="text-align:justify;text-indent:36pt"> </div><div style="text-align:justify;text-indent:36pt">Our financial results are affected by the changes in and the level of the ACL. This process involves our analysis of internal and external variables, and it requires that we exercise judgment to estimate an appropriate ACL. As a result of the uncertainty associated with this subjectivity, we cannot assure the precision of the amount reserved, should we experience sizable loan losses in any particular period and/or significant changes in assumptions or economic condition. We believe the primary risks inherent in the portfolio are a general decline in the economy, a decline in real estate market values, rising unemployment, increasing vacancy rates, and increases in interest rates in the absence of economic improvement or any other such factors. Any one or a combination of these events may adversely affect a</div>

which the Company has historically transacted both purchases and sales of securities. Prices obtained from these sources include market quotations, matrix pricing and discounted cash flow pricing. Matrix pricing, a Level 2 input, is a mathematical technique used principally to value certain securities to a benchmark or to comparable securities. The Company evaluates the quality of Level 2 matrix pricing through comparison to similar assets with greater liquidity and evaluation of projected cash flows. Discounted cash flows, a Level 3 input, is estimated by discounting the expected future cash flows using the current rates for securities with similar credit ratings and similar remaining maturities. As the Company is responsible for the determination of fair value, it performs quarterly analysis on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to assess the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services has not historically resulted in an adjustment in the prices obtained from the pricing service. The Company may hold debt instruments issued by the U.S. government and U.S. government-sponsored agencies that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs. The Company classifies the estimated fair value of its loan portfolio as Level 3.

Equity Securities, at Fair Value

The Company holds equity securities that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs. A trust preferred security that is not traded in an active market and Federal Home Loan Mortgage Corporation ("FHLMC") and Federal National Mortgage Association ("FNMA") preferred stock are considered Level 2 instruments. In addition, Level 2 instruments include Atlantic Community Bankers Bank ("ACCB") stock, which is based on redemption at par value and can only be sold to the issuing ACBB or another institution that holds ACBB stock.

14. Fair Value Measurements (continued)

Derivatives

The Company records all derivatives included in other assets and liabilities on the Consolidated Statements of Financial Condition at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting, and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. See note 16 for disclosures related to the accounting treatment for derivatives.

The fair value of the Company's derivatives is determined using discounted cash flow analysis using observable market-based inputs, which are considered Level 2 inputs.

The following tables present the assets and liabilities reported on the Consolidated Statements of Financial Condition at their fair values at September 30, 2024 and December 31, 2023, by level within the fair value hierarchy.

	Level 1	Level 2	Level 3

</div><div style="text-align:justify">— The valuation techniques described below were used to estimate fair value of financial instruments measured on a non-recurring basis at September 30, 2024 and December 31, 2023.</div><div style="padding-left: 36pt;text-align:justify;text-indent: 36pt">
</div><div style="text-align:justify">Individually Analyzed Collateral Dependent Loans/Impaired Loans</div><div>
</div><div style="text-align:justify">— The fair value of collateral dependent loans that are individually analyzed or were previously deemed impaired is measured based on the present value of expected future cash flows discounted at the loan's effective interest rate or, as a practical expedient, at the loan's observable market price or the fair value of the collateral if the loan is collateral dependent. For individually analyzed loans measured for impairment based on the fair value of the underlying collateral, fair value was

carried at the lower of cost or estimated fair value. The estimated fair value of MSRs is obtained through an analysis of future cash flows, incorporating assumptions that market participants would use in determining fair value including market discount rates, prepayments speeds, servicing income, servicing costs, default rates and other market driven data, including the market's perception of future interest rate movements. The prepayment speed and the discount rate are considered two of the most significant inputs in the model. A significant degree of judgment is involved in valuing the mortgage servicing rights using Level 3 inputs. The use of different assumptions could have a significant effect on this fair value estimate.

[illegible]

[illegible]

methodology documentation provided by independent pricing services has not historically resulted in an adjustment in the prices obtained from the pricing service.

The Company also holds debt instruments issued by the U.S. government and U.S. government-sponsored agencies that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs within the fair value hierarchy.

Federal Home Loan Bank Stock ("FHLB")

The fair value of FHLB stock is based on redemption at par value and can only be sold to the issuing FHLB, to other FHLBs, or to other member banks. As such, the Company's FHLB stock is recorded at cost, or par value, and is evaluated for impairment each reporting period by considering the ultimate recoverability of the investment rather than temporary declines in value. The Company classifies the estimated fair value as Level 2 within the fair value hierarchy.

Loans Receivable

Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type such as commercial mortgage, residential mortgage, commercial, construction, consumer, and other. Each loan category is further segmented into fixed and adjustable rate interest terms and into performing and non-performing categories.

The fair value of performing loans was estimated using a combination of techniques, including a discounted cash flow model that utilizes a discount rate that reflects the Company's current pricing for loans with similar characteristics and remaining maturity, adjusted by an amount for estimated credit losses inherent in the portfolio at the balance sheet date. The rates take into account the expected yield curve, as well as an adjustment for prepayment risk, when applicable. The Company classifies the estimated fair value of its loan portfolio as Level 3.

The fair value for significant non-performing loans was based on recent external appraisals of collateral securing such loans, adjusted for the timing of anticipated cash flows. The Company classifies the estimated fair value of its non-performing loan portfolio as Level 3.

Deposits

The fair value of deposits with no stated maturity, such as demand, money market, and savings and club deposits are payable on demand at each reporting date and classified as Level 2. The estimated fair value of certificates of deposit was based on the discounted value of contractual cash flows. The discount rate was estimated using the Company's current rates offered for deposits with similar remaining maturities. The Company classifies the estimated fair value of its certificates of deposit portfolio as Level 2.

Borrowings

The fair value of borrowings was estimated by discounting future cash flows using rates available for debt with similar terms and maturities and is classified by the Company as Level 2 within the fair value hierarchy.

14. Fair Value Measurements (continued)

Commitments to Extend Credit and Letters of Credit

The fair value of commitments to extend credit and letters of credit was estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counter parties. For fixed rate loan commitments, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value estimates of commitments to extend credit and letters of credit are deemed immaterial.

The following tables present the assets and liabilities reported on the Consolidated Statements of Financial Condition at their fair values at September 30, 2024 and December 31, 2023:

	September 30, 2024	December 31, 2023
Carrying Value	\$283,501	\$283,501
Quoted Prices in Active Markets for Identical Assets (Level 1)	\$283,501	\$283,501
Significant Other Observable Inputs (Level 2)	\$0	\$0
Significant Unobservable Inputs (Level 3)	\$0	\$0
Cash and cash equivalents	\$283,501	\$283,501
Financial assets	\$283,501	\$283,501

Derivative Liabilities

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because limited markets exist for a significant portion of the Company's financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Fair Value Estimates

Fair value estimates are based on existing on- and off-balance sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Other significant assets and liabilities that are not considered financial assets or liabilities include goodwill and intangible assets, deferred tax assets and liabilities, office properties and equipment, and bank-owned life insurance.

Debt Securities Available for Sale, at Fair Value

For debt securities available for sale, fair value was estimated using a market approach. The majority of these securities are fixed income instruments that are not quoted on an exchange but are traded in active markets. Prices for these instruments are obtained through third-party data service providers or dealer market participants with which the Company has historically transacted both purchases and sales of securities. Prices obtained from these sources include market quotations, matrix pricing and discounted cash flow pricing. Matrix pricing, a Level 2 input, is a mathematical technique used principally to value certain securities to a benchmark or to comparable securities. The Company evaluates the quality of Level 2 matrix pricing through comparison to similar assets with greater liquidity and evaluation of projected cash flows. Discounted cash flows, a Level 3 input, is estimated by discounting the expected future cash flows using the current rates for securities with similar credit ratings and similar remaining maturities. As the Company is responsible for the determination of fair value, it performs quarterly analysis on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to assess the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services has not historically resulted in an adjustment in the prices obtained from the pricing service. The Company may hold debt instruments issued by the U.S. government and U.S. government-sponsored agencies that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs. The Company classifies the estimated fair value of its loan portfolio as Level 3.

Equity Securities, at Fair Value

The Company holds equity securities that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs. A trust preferred security that is not traded in an active market and Federal Home Loan Mortgage Corporation ("FHLMC") and Federal National Mortgage Association ("FNMA") preferred stock are considered Level 2 instruments. In addition, Level 2 instruments include Atlantic Community Bankers Bank ("ACCB") stock, which is based on redemption at par value and can only be sold to the issuing ACBB or another institution that holds ACBB stock.

Fair Value Measurements (continued)

Derivatives

The Company records all derivatives included in other assets and liabilities on the Consolidated Statements of Financial Condition at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting, and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. See note 16 for disclosures related to the accounting treatment for derivatives.

Other Real Estate Owned

The fair value of the Company's derivatives is determined using discounted cash flow analysis using observable market-based inputs, which are considered Level 2 inputs.

Individually Analyzed Collateral Dependent Loans/Impaired Loans

The fair value of collateral dependent loans that are individually analyzed or were previously deemed impaired is measured based on the present value of expected future cash flows discounted at the loan's effective interest rate or, as a practical expedient, at the loan's observable market price or the fair value of the collateral if the loan is collateral dependent. For individually analyzed loans measured for impairment based on the fair value of the underlying collateral, fair value was estimated using a market approach. The Company measures the fair value of collateral underlying impaired loans primarily through obtaining independent appraisals that rely upon quoted market prices for similar assets in active markets. These appraisals include adjustments, on an individual case-by-case basis, to comparable assets based on the appraisers' market knowledge and experience, as well as adjustments for estimated costs to sell between 6% and 8%. For non-collateral dependent loans, management estimates fair value using discounted cash flows based on inputs that are largely unobservable. The Company classifies these loans as Level 3 within the fair value hierarchy.

Mortgage Servicing Rights, Net ("MSR's")

Mortgage servicing rights are carried at the lower of cost or estimated fair value. The estimated fair value of MSR's is obtained through an analysis of future cash flows, incorporating assumptions that market participants would use in determining fair value including market discount rates, prepayments speeds, servicing income, servicing costs, default rates and other market driven data, including the market's perception of future interest rate movements. The prepayment speed and the discount rate are considered two of the most significant inputs in the model. A significant degree of judgment is involved in valuing the mortgage servicing rights using Level 3

inputs. The use of different assumptions could have a significant effect on this fair value estimate.

Other Fair Value Disclosures

The Company is required to disclose estimated fair value of financial instruments, both assets and liabilities on and off the balance sheet, for which it is practicable to estimate fair value. A description of the valuation methodologies used for those assets and liabilities not recorded at fair value on a recurring or non-recurring basis are set forth below.

Cash and Cash Equivalents

For cash and due from banks, federal funds sold and short-term investments, the carrying amount approximates fair value due to their nature and short-term maturities.

14. Fair Value Measurements (continued)

Debt Securities Held to Maturity

For debt securities held to maturity, fair value was estimated using a market approach. The majority of the Company's securities are fixed income instruments that are not quoted on an exchange but are traded in active markets. Prices for these instruments are obtained through third-party data service providers or dealer market participants with which the Company has historically transacted both purchases and sales of securities. Prices obtained from these sources include market quotations and matrix pricing. Matrix pricing, a Level 2 input, is a mathematical technique used principally to value certain securities to a benchmark or to comparable securities. The Company evaluates the quality of Level 2 matrix pricing through comparison to similar assets with greater liquidity and evaluation of projected cash flows. As the Company is responsible for the determination of fair value, it performs quarterly analysis on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to assess the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services has not historically resulted in an adjustment in the prices obtained from the pricing service.

The Company also holds debt instruments issued by the U.S. government and U.S. government-sponsored agencies that are traded in active markets with readily accessible quoted market prices that are considered Level 1 inputs within the fair value hierarchy.

Federal Home Loan Bank Stock ("FHLB")

The fair value of FHLB stock is based on redemption at par value and can only be sold to the issuing FHLB, to other FHLBs, or to other member banks. As such, the Company's FHLB stock is recorded at cost, or par value, and is evaluated for impairment each reporting period by considering the ultimate recoverability of the investment rather than temporary declines in value. The Company classifies the estimated fair value as Level 2 within the fair value hierarchy.

Loans Receivable

Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type such as commercial mortgage, residential mortgage, commercial, construction, consumer, and other. Each loan category is further segmented into fixed and adjustable rate interest terms and into performing and non-performing categories.

The fair value of performing loans was estimated using a combination of techniques, including a discounted cash flow model that utilizes a discount rate that reflects the Company's current pricing for loans with similar characteristics and remaining maturity, adjusted by an amount for estimated credit losses inherent in the portfolio at the balance sheet date. The rates take into account the expected yield curve, as well as an adjustment for prepayment risk, when applicable. The Company classifies the estimated fair value of its loan portfolio as Level 3.

The fair value for significant non-performing loans was based on recent external appraisals of collateral securing such loans, adjusted for the timing of anticipated cash flows. The Company classifies the estimated fair value of its non-performing loan portfolio as Level 3.

Deposits

Deposits with no stated maturity, such as demand, money market, and savings and club deposits are payable on demand at each reporting date and classified as Level 2. The estimated fair value of certificates of deposit was based on the discounted value of contractual cash flows. The discount rate was estimated using the Company's current rates offered for deposits with similar remaining maturities. The Company classifies the estimated fair value of its certificates of deposit portfolio as Level 2.

Borrowings

The fair value of borrowings was estimated by discounting future cash flows using rates available for debt with similar terms and maturities and is classified by the Company as Level 2 within the fair value hierarchy.

14. Fair Value Measurements (continued)

Commitments to Extend Credit and Letters of Credit

The fair value of commitments to extend credit and letters of credit was estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the present creditworthiness of the counter-parties. For fixed rate loan commitments, fair value also considers the difference between current levels of interest rates and the committed rates. The fair value estimates of commitments to extend credit and letters of credit are deemed immaterial.

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Because limited markets exist for a significant portion of the Company's financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Fair value estimates are based on existing on and off-balance sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. Other significant assets and liabilities that are not considered financial assets or liabilities include goodwill and intangible assets, deferred tax assets and liabilities, office properties and equipment, and bank-owned life insurance.

The following tables present the assets and liabilities reported on the Consolidated Statements of Financial Condition at their fair values at September 30, 2024 and December 31, 2023, by level within the fair value hierarchy.

	Level 1	Level 2	Level 3	Total

Derivatives and Hedging Activities

The Company uses derivative financial instruments as components of its market risk management, principally to manage interest rate risk. Certain derivatives are entered into in connection with transactions with commercial customers. Derivatives are not used for speculative purposes. All derivatives are recognized as either assets or liabilities in the Consolidated Statements of Financial Condition, reported at fair value and presented on a gross basis. Until a derivative is settled, a favorable change in fair value results in an unrealized gain that is recognized as an asset, while an unfavorable change in fair value results in an unrealized loss that is recognized as a liability.

The Company generally applies hedge accounting to its derivatives used for market risk management purposes. Hedge accounting is permitted only if specific criteria are met, including a requirement that a highly effective relationship exists between the derivative instrument and the hedged item, both at inception of the hedge and on an ongoing basis. Changes in the fair value of effective fair value hedges are recognized in current earnings (with the change in fair value of the hedged asset or liability also recognized in earnings). Changes in the fair value of effective cash flow hedges are recognized in other comprehensive income (loss) until earnings are affected by the variability in cash flows of the designated hedged item. Ineffective portions of hedge results are recognized in current earnings. Changes in the fair value of derivatives for which hedge accounting is not applied are recognized in current earnings.

The Company formally documents at inception all relationships between the derivative instruments and the hedged items, as well as its risk management objectives and strategies for undertaking the hedge transactions. This process includes linking all derivatives that are designated as hedges to specific assets and liabilities, or to specific firm commitments. The Company also formally assesses, both at inception of the hedge and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in the fair values or cash flows of the hedged items. If it is determined that a derivative is not highly effective or has ceased to be a highly effective hedge, the Company would discontinue hedge accounting prospectively. Gains or losses resulting from the termination of a derivative accounted for as a cash flow hedge remain in other comprehensive income (loss) and is (accrues) amortized to earnings over the remaining period of the former hedging relationship.

Certain derivative financial instruments are offered to certain commercial banking customers to manage their risk of exposure and risk management strategies. These derivative instruments consist primarily of currency forward contracts and interest rate swap contracts. The risk associated with these transactions is mitigated by simultaneously entering into similar transactions having essentially offsetting terms with a third party. In addition, the Company executes interest rate swaps with third parties in order to hedge the interest rate risk of short-term FHLB advances.

Interest Rate Swaps

At September 30, 2024 and December 31, 2023, the Company had 86 and 80 interest rate swaps in place with commercial banking customers executed by offsetting interest rate swaps with third parties, with aggregated notional amounts of \$303.7 million and \$277.8 million, respectively. These derivatives are not designated as hedges and are not speculative. These interest rate swaps do not meet hedge accounting requirements.

At September 30, 2024 and December 31, 2023, the Company had 31 and 30 interest rate swaps with notional amounts of \$378.7 million and \$380.0 million, respectively, hedging certain FHLB advances. These interest rate swaps meet the cash flow hedge accounting requirements. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed rate payments over the life of the agreements without the exchange of the underlying notional amount.

At September 30, 2024 and December 31, 2023, the Company had ten and eight interest rate fair value swaps with notional amounts totaling \$850.0 million and \$700.0 million, respectively. The Company is exposed to changes in the fair value of certain of its fixed-rate pools of assets due to changes in benchmark interest rates. The Company uses interest rate swaps to manage its exposure to changes in fair value on these instruments attributable to changes in the designated benchmark interest rate, the Secured Overnight Financing Rate ("SOFR").

16. Derivatives and Hedging Activities (continued)

Interest rate swaps designated as fair value hedges involve the payment of fixed rate amounts to a counterparty in exchange for the Company receiving variable rate payments over the life of the agreements without the exchange of the underlying notional amount.

For the three and nine months ended September 30, 2024 and 2023, the Company recorded hedge ineffectiveness associated with these contracts totaling \$41,000 and \$37,000, \$6,000 and \$64,000, respectively.

Fair Value Hedges of Interest Rate Risk

Carrying Amount of Hedged Assets/(Liabilities)

For the three months ended September 30, 2024 and 2023, (losses) gains of \$(241,000) and \$332,000, respectively, were recorded for changes in fair value of interest rate swaps with third parties. For the nine months ended September 30, 2024 and 2023, (losses) gains of \$(191,000) and \$130,000, respectively, were recorded for changes in fair value of interest rate swaps with third parties.

The Company has agreements with counterparties that contain a provision that if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default of its derivative obligations.

The Company's net liability position, which includes accrued interest, was \$15.3 million. The Company has collateral posting thresholds with certain of its derivative counterparties, and as of September 30, 2024 has posted collateral of \$14.2 million against its obligations under these agreements.

Derivatives and Hedging Activities (continued)

The Company is exposed to changes in the fair value of certain of its fixed-rate pools of assets due to changes in benchmark interest rates. The Company uses interest rate swaps to manage its exposure to changes in fair value on these instruments attributable to changes in the designated benchmark interest rate, SOFR. Interest rate swaps designated as fair value hedges involve the payment of fixed-rate amounts to a counterparty in exchange for the Company receiving variable rate payments over the life of the agreements without the exchange of the underlying notional amount.

For derivatives designated and that qualify as fair value hedges, the gain or loss on the derivative as well as the offsetting gain or loss on the hedged item attributable to the hedged risk are recognized in interest income.

At September 30, 2024, the following amounts were recorded on the Consolidated Statements of Financial Condition related to cumulative basis adjustment for fair value hedges:

	September 30, 2024	December 31, 2023
Cumulative basis adjustment for fair value hedges	\$17.12%	\$17.12%
Assets	\$17.12%	\$17.12%
Liabilities	\$17.12%	\$17.12%
