Unless the context suggests otherwise, references to "Healthpeak Properties, Inc." mean the parent company without its subsidiaries.Cautionary Language Regarding Forward-Looking StatementsStatements in this Annual Report on Form 10-K that are not historical factual statements are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). A Forward-looking statements include, among other things, statements regarding our and our officers' intent, belief or expectation as identified by the use of words such as "may," "will," "expect," "believe," "anticipate," "seek," "target," "forecast," "plan," "potential," "estimate," "could," "would," "should" and other comparable and derivative terms or the negatives thereof. Forward-looking statements reflect our current expectations and views about future events and are subject to risks and uncertainties that could cause actual results, including our future financial condition and results of operations, to differ materially from those expressed or implied by any forward-looking statements. You are urged to carefully review the disclosures we make concerning risks and uncertainties that may affect our business and future financial performance, including those made below under "Risk Factors Summary" and in "Item 1A, Risk Factors" in this report. Forward-looking statements are based on certain assumptions and analysis made in light of our experience and perception of historical trends, current conditions and expected future developments as well as other factors that we believe are appropriate under the circumstances. While forward-looking statements reflect our good faith belief and assumptions we believe to be reasonable based upon current information, we can give no assurance that our expectations or forecasts will be attained. Further, we cannot guarantee the accuracy of any such forward-looking statement contained in this Annual Report, and you should not place undue reliance on these forward-looking statements, which speak only as of the date of this report. Except as required by law, we do not undertake, and hereby disclaim, any obligation to update any forward-looking statements, which speak only as of the date on which they are made.Risk Factors SummaryInvestors should consider the risks and uncertainties described below that may affect our business and future financial performance. These and other risks and uncertainties are more fully described in "Item 1A, Risk Factors" in this report. Additional risks not presently known to us or that we currently deem immaterial may also affect us. If any of these risks occur, our business, financial condition or results of operations could be materially and adversely affected. As more fully set forth under "Item 1A, Risk Factors" in this report, principal risks and uncertainties that may affect our business, financial condition, or results of operations include: "macroeconomic trends that may increase construction, labor, and other operating costs;" "changes within the life science industry, and significant regulation, funding requirements, and uncertainty faced by our lab tenants;" "factors adversely affecting our tenants' operators' or borrowers' ability to meet their financial and other contractual obligations to us;" "the insolvency or bankruptcy of one or more of our major tenants, operators, or borrowers;" "our concentration of real estate investments in the healthcare property sector, which makes us more vulnerable to a downturn in that specific sector than if we invested across multiple sectors;" "the illiquidity of real estate investments;" "our ability to identify and secure new or replacement tenants and operators;" "our property development, redevelopment, and tenant improvement risks, which can render a project less profitable or unprofitable and delay or prevent its undertaking or completion;" "the ability of the hospitals on whose campuses our outpatient medical buildings are located and their affiliated healthcare systems to remain competitive or financially viable;" "our ability to develop, maintain, or expand hospital and health system client relationships;" "operational risks associated with our senior housing properties managed by third parties, including our properties operated through structures permitted by the Housing and Economic Recovery Act of 2008, which includes most of the provisions previously proposed in the REIT Investment Diversification and Empowerment Act of 2007 (commonly referred to as "RIDEA");" "Table of Contents" "economic conditions, natural disasters, weather, and other conditions that negatively affect geographic areas where we have concentrated investments;" "uninsured or underinsured losses, which could result in a significant loss of capital invested in a property, lower than expected future revenues, and unanticipated expenses;" "our use of joint ventures may limit our returns on and our flexibility with jointly owned investments;" "our use of rent escalators or contingent rent provisions in our leases;" "competition for suitable healthcare properties to grow our investment portfolio;" "our ability to exercise rights on collateral securing our real estate-related loans;" "any requirement that we recognize reserves, allowances, credit losses, or impairment charges;" "investment of substantial resources and time in transactions that are not consummated;" "our ability to successfully integrate or operate acquisitions and/or internalize property management;" "the potential impact of unfavorable resolution of litigation or disputes and resulting rising liability and insurance costs;" "environmental compliance costs and liabilities associated with our real estate investments;" "environmental, social, and governance ("corporate impact") and sustainability commitments and requirements, as well as stakeholder expectations;" "epidemics, pandemics, or other infectious diseases, including the coronavirus disease ("COVID-19"), and health and safety measures intended to reduce their spread;" "human capital risks, including the loss or limited availability of our key personnel;" "our reliance on information technology and any material failure, inadequacy, interruption, or security failure of that technology;" "the use of, or inability to use, artificial intelligence by us, our tenants, our vendors, and our investors;" "volatility, disruption, or uncertainty in the financial markets;" "increased borrowing costs, which could impact our ability to refinance existing debt, sell properties, and conduct investment activities;" "cash available for distribution to stockholders and our ability to make dividend distributions at expected levels;" "the availability of external capital on acceptable terms or at all;" "an increase in our level of indebtedness;" "covenants in our debt instruments, which may limit our operational flexibility, and breaches of these covenants;" "volatility in the market price and trading volume of our common stock;" "adverse changes in our credit ratings;" "the failure of our tenants, operators, and borrowers to comply with federal, state, and local laws and regulations, including resident health and safety requirements, as well as licensure, certification, and inspection requirements;" "required regulatory approvals to transfer our senior housing properties;" "compliance with the Americans with Disabilities Act and fire, safety, and other regulations;" "laws or regulations prohibiting eviction of our tenants;" "the requirements of, or changes to, governmental reimbursement programs such as Medicare or Medicaid, and legislation to address federal government operations and administrative decisions affecting the Centers for Medicare and Medicaid Services;" "our participation in the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") Provider Relief Fund and other COVID-related stimulus and relief programs;" "changes in federal, state, or local laws or regulations that may limit our opportunities to participate in the ownership of, or investment in, healthcare real estate;" "Table of Contents" "our ability to successfully integrate our operations with Physicians Realty Trust and realize the anticipated synergies of the Merger (as defined below) and benefits of property management internalization;" "our ability to maintain our qualification as a real estate investment trust ("REIT");" "our taxable REIT subsidiaries being subject to corporate level tax;" "tax imposed on any net income from "prohibited transactions;" "changes to U.S. federal income tax laws, and potential deferred and contingent tax liabilities from corporate acquisitions;" "calculating non-REIT tax earnings and profits distributions;" "tax protection agreements that may limit our ability to dispose of certain properties and may require us to maintain certain debt levels;" "ownership limits in our charter that restrict ownership in our stock, and provisions of Maryland law and our charter that could prevent a transaction that may otherwise be in the interest of the stockholders;" "conflicts of interest between the interests of our stockholders and the interests of holders of Healthpeak OP, LLC ("Healthpeak OP") common units;" "provisions in the operating agreement of Healthpeak OP and other agreements that may delay or prevent unsolicited acquisitions and other transactions; and" "our status as a holding company of Healthpeak OP.Important Information Regarding Our Disclosure to InvestorsWe may use our website (www.healthpeak.com) and our LinkedIn account (https://www.linkedin.com/company/healthpeak) to communicate with our investors and disclose company information. The information disclosed through these channels may be considered to be material, so investors should monitor them in addition to our press releases, SEC filings, and public conference calls and webcasts. The contents of our website or social media channels referenced herein are not incorporated by reference into this Annual Report on Form 10-K.3Table of ContentsPART ITEM 1.Â A BusinessGeneral OverviewHealthpeak Properties, Inc. is a Standard & Poor's ("S&P") 500 company that owns, operates, and develops high-quality real estate focused on healthcare discovery and delivery in the United States ("U.S."). Our company was originally founded in 1985. In 2023, we completed our corporate reorganization (the "Reorganization") into an umbrella partnership REIT ("UPREIT"). We hold substantially all of our assets and conduct our operations through our operating subsidiary, Healthpeak OP, a consolidated subsidiary of which we are the managing member. We are a Maryland corporation and qualify as a self-administered REIT. We are headquartered in Denver, Colorado, with additional corporate offices in California, Tennessee, Wisconsin, and Massachusetts and property management offices in several locations throughout the U.S.We have a diversified portfolio of high-quality healthcare properties across three core asset classes of outpatient medical, lab, and continuing care retirement community ("CCRC") real estate. Under the outpatient medical and lab segments, we own, operate, and develop outpatient medical buildings, hospitals, and lab buildings. Under the CCRC segment, our properties are operated through RIDEA structures. We have other non-reportable segments that are comprised primarily of: (i) an interest in an unconsolidated joint venture that owns 19 senior housing assets (our "SWF SH JV") and (ii) loans receivable. These non-reportable segments have been presented on a combined basis herein.The MergerOn March 1, 2024 (the "Closing Date"), pursuant to the Agreement and Plan of Merger dated October 29, 2023 (the "Merger Agreement"), by and among us, DOC DR Holdco, LLC, one of our wholly owned subsidiaries (the "DOC DR Holdco"), DOC DR, LLC, a wholly owned subsidiary of Healthpeak OP (the "DOC DR OP Sub"), Physicians Realty Trust, Physicians Realty L.P. (the "Physicians Partnership"), Physicians Realty Trust merged with and into DOC DR Holdco (the "Company Merger"), with DOC DR Holdco surviving as our wholly owned subsidiary (the "Company Surviving Entity"); (i) immediately following the effectiveness of the Company Merger, we contributed all of the outstanding equity interests in the Company Surviving Entity to Healthpeak OP (the "Contribution"); and (ii) immediately following the Contribution, Physicians Partnership merged with and into DOC DR OP Sub (the "Partnership Merger" and, together with the Company Merger, the "Merger"), with DOC DR OP Sub surviving as a subsidiary of Healthpeak OP. Subsequent to the Closing Date, the "Combined Company" means Healthpeak and its subsidiaries.On the Closing Date, each outstanding common share of Physicians Realty Trust (other than Physicians Realty Trust common shares that were canceled in accordance with the Merger Agreement) were converted into the right to receive 0.674 (the "Exchange Ratio") shares of our common stock, and each outstanding common unit of the Physicians Partnership was converted into common units in the successor entity to the Physicians Partnership equal to the Exchange Ratio.As a result of the Merger, we acquired 299 outpatient medical buildings. See Note 3 to the Consolidated Financial Statements for additional information.At December 31, 2024, our portfolio of investments, including properties in certain of our unconsolidated joint ventures, consisted of interests in 697 properties: (i) Outpatient medical "524 properties; (ii) Lab "139 properties; (iii) CCRC "15 properties; and (iv) Other non-reportable "19 properties. The following table summarizes information for our reportable segments for the year ended December 31, 2024 (dollars in thousands):SegmentAdjusted NOI by Reportable Segment(1)Outpatient medical\$748,730Â Lab590,606Â CCRC136,104Â (1)Our Adjusted NOI for our reportable segments, which we also refer to as Total Portfolio Adjusted NOI for our reportable segments, includes results of operations from disposed properties through the disposition date. See Note 16 to the Consolidated Financial Statements for a reconciliation of Adjusted NOI by reportable segment to income (loss) before income taxes and equity income (loss) from unconsolidated joint ventures. See our Segment Analysis below for additional information.For a description of our significant activities during 2024, see "Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations" "Company Highlights" in this report.4Table of ContentsBusiness StrategyOur strategy is to own, operate, and develop high-quality real estate focused on healthcare discovery and delivery. We manage our real estate portfolio for the long-term to maximize risk-adjusted returns and support the growth of our dividends. Our strategy consists of four core elements: (i)Our real estate: Our portfolio consists of high-quality properties in desirable locations. Our portfolio is focused on outpatient medical and lab buildings, favorable sectors that benefit from the universal desire for improved health. We have built scale and fostered deep industry relationships, two unique factors that provide us with a competitive advantage.(ii)Our financials: We maintain a strong investment-grade balance sheet with ample liquidity as well as long-term fixed-rate debt financing with staggered maturities to reduce our exposure to interest rate volatility and refinancing risk.(iii)Our partnerships: We work with leading pharmaceutical, biotechnology, and medical device companies, as well as healthcare delivery systems, specialty physician groups, and other healthcare service providers, to meet their real estate needs. We provide high-quality property management services to encourage tenants to renew, expand, and relocate into our properties, which drives increased occupancy, rental rates, and property values.(iv)Our platform: We have a people-first culture that we believe attracts, develops, and retains top talent. We continually strive to create and maintain an industry-leading platform, with systems and tools that allow us to effectively and efficiently manage our assets and investment activity.Internal Growth StrategiesWe believe our real estate portfolio holds the potential for increased future cash flows as it is well-maintained and in desirable locations. Our strategy for maximizing the benefits from these opportunities is to: (i) work with new or existing tenants to address their space and capital needs and (ii) provide high-quality property management services in order to motivate tenants to renew, expand, or relocate into our properties. We expect to continue our internal growth as a result of our ability to: "Build and maintain long-term leasing and management relationships with quality tenants. In choosing locations for our properties, we focus on the physical environment, adjacency to established businesses (e.g., hospital systems or life science submarkets) and educational centers, proximity to sources of business growth, and other local demographic factors." "Replace tenants at the best available market terms and lowest possible transaction costs. We believe we are well-positioned to attract new tenants and achieve attractive rental rates and operating cash flow as a result of the location, design, and maintenance of our properties, together with our reputation for high-quality building services, responsiveness to tenants, and our ability to offer space alternatives within our portfolio." "Extend and modify terms of existing leases prior to expiration. We selectively structure lease extensions, early renewals, or modifications, which reduce the cost associated with lease downtime, while securing the tenancy and relationship of our high-quality tenants on a long-term basis.Investment StrategiesThe discovery and delivery of healthcare services requires real estate and, as a result, tenants depend on our real estate, in part, to maintain and grow their businesses. We believe the healthcare real estate market provides investment opportunities due to the: (i) compelling long-term demographics driving the demand for healthcare services; (ii) specialized nature of healthcare real estate investing; and (iii) ongoing consolidation of the fragmented healthcare real estate sector.While we emphasize healthcare real estate ownership, we may also provide real estate secured financing to, or invest in equity or debt securities of, healthcare operators or other entities engaged in healthcare real estate ownership. We may also acquire all or substantially all of the securities or assets of other REITs, operating companies, or similar entities where such investments would be consistent with our investment strategies. We may co-invest alongside institutional or development investors through partnerships or limited liability companies.5Table of ContentsWe monitor our investments based on the percentage of our total assets that may be invested in any one property type, investment vehicle, or geographic location, the number of properties that may be leased to a single tenant or operator, or loans that may be made to a single borrower. In allocating capital, we target opportunities with the most attractive risk/reward profile for our portfolio as a whole. We may take additional measures to mitigate risk, including diversifying our investments (by sector, geography, and tenant), structuring transactions as master leases, requiring tenant or operator insurance and indemnifications, and/or obtaining credit enhancements in the form of guarantees, letters of credit, or security deposits. We believe we are well-positioned to achieve external growth through acquisitions, development, and redevelopment. Other factors that contribute to our competitive position include: "our reputation gained through decades of successful operations and the strength of our existing portfolio of properties;" "our relationships with leading pharmaceutical and biotechnology tenants, healthcare operators and systems, investment banks and other market intermediaries, corporations, private equity firms, not-for-profit organizations, and companies seeking to monetize existing assets or develop new facilities;" "our

relationships with institutional buyers and sellers of high-quality healthcare real estate;â€¢our track record and reputation for executing acquisitions responsively and efficiently, which provides confidence to domestic and foreign institutions and private investors who seek to sell healthcare real estate in our market areas;â€¢our relationships with nationally recognized financial institutions that provide capital to the healthcare and real estate industries; andâ€¢our control of land sites held for future development.Financing StrategiesOur REIT qualification requires us to distribute at least 90% of our REIT taxable income (excluding net capital gains); therefore, we do not retain a significant amount of earnings. As a result, we regularly access the public equity and debt markets to raise the funds necessary to finance acquisitions and debt investments, develop and redevelop properties, and refinance maturing debt.Â¢We may finance acquisitions and other investments in a variety of ways, including:â€¢cash flow from operations;â€¢sale or exchange of ownership interests in properties or other investments;â€¢borrowings under our credit facility or commercial paper program;â€¢issuance of additional debt, including unsecured notes, term loans, and mortgage debt; and/orâ€¢issuance of common stock or preferred stock or its equivalent.We maintain a disciplined investment-grade balance sheet by actively managing our debt to equity levels and maintaining access to multiple sources of liquidity. Our debt obligations are primarily long-term fixed rate with staggered maturities. We finance our investments based on our evaluation of available sources of funding. For short-term purposes, we may utilize our revolving line of credit facility or commercial paper program, arrange for other short-term borrowings from banks or other sources, or issue equity securities pursuant to our at-the-market equity offering program. We arrange for longer-term financing by offering debt and equity, placing mortgage debt, and obtaining capital from institutional lenders and joint venture partners.In addition, capital recycling through dispositions and redeployment through acquisitions, developments, and redevelopments is an important facet of our investment and financing strategies. We routinely have multiple transactions involving both individual properties and portfolios under consideration that are in varying stages of evaluation, underwriting, negotiation, and due diligence review, some of which, if consummated or completed, may have a material effect on our liquidity, results of operations, and financial condition.6Table of ContentsSegmentsOutpatient MedicalOur outpatient medical segment includes outpatient medical buildings and hospitals. Outpatient medical buildings typically contain physiciansâ€™ offices and examination rooms, and may also include pharmacies, hospital ancillary service space, and outpatient services such as diagnostic centers, rehabilitation clinics, and day-surgery operating rooms. While these facilities have certain similarities to commercial office buildings, they require additional plumbing, electrical, and mechanical systems to accommodate multiple exam rooms that may require sinks in every room and specialized equipment such as x-ray machines and MRIs. Outpatient medical buildings are often built to accommodate higher structural loads for such specialized equipment and may contain vaults or other unique construction. Our outpatient medical buildings are typically multi-tenant properties leased to healthcare providers (hospitals and physician practices), with approximately 78% of our outpatient medical buildings located on or adjacent to hospital campuses and 96% affiliated with hospital systems as of December 31, 2024 (based on total square feet). Occasionally, we invest in outpatient medical buildings located on hospital campuses subject to ground leases. At December 31, 2024, approximately 76% of our outpatient medical buildings were triple-net leased (based on leased square feet) with the remaining leased under gross or modified gross leases.The following table provides information about our most significant outpatient medical tenant concentration for the year ended December 31, 2024:TenantPercentage ofSegment RevenuesPercentage ofTotal RevenuesHCA Healthcare, Inc. (HCA)15% 7% A CommonSpirit Health6% 3% Â¢During the year ended December 31, 2024, we had various other outpatient medical tenants that each represented 1% or less of total revenues. Our outpatient medical segment also includes nine hospitals. Services provided by our tenants and operators in hospitals are paid for by private sources, third-party payors (e.g., Â¢ insurance and HMOs), or through Medicare and Medicaid programs. Our hospital property types include acute care, long-term acute care, and specialty and rehabilitation hospitals. All of our hospitals are triple-net leased.LabOur lab properties, which contain laboratory and office space, are leased primarily to biotechnology, medical device and pharmaceutical companies, scientific research institutions, government agencies, and other organizations involved in the life science industry. While these properties have certain characteristics similar to commercial office buildings, they generally accommodate heavier floor loads and contain more advanced electrical, mechanical, heating, ventilating, and air conditioning systems. The facilities generally have specialty equipment including emergency generators, fume hoods, lab bench tops, and related amenities. In addition to improvements funded by us as the landlord, many of our lab tenants make significant investments to improve their leased space to accommodate biology, chemistry, or medical device research initiatives.Lab properties are primarily configured in business park or campus settings and include multiple buildings. The business park and campus settings allow us the opportunity to provide flexible, contiguous/adjacent expansion to accommodate the growth of existing tenants. Our properties are located in well-established geographical markets known for scientific research and drug discovery, including San Francisco (53%) and San Diego (17%), California, and Boston, Massachusetts (28%) (based on total square feet). At December 31, 2024, 88% of our lab properties were triple-net leased (based on leased square feet).During the year ended December 31, 2024, we had various lab tenants that each represented 1% or less of total revenues. Continuing care retirement community, or CCRCCCRCs are retirement communities that include independent living, assisted living, memory care, and skilled nursing units to provide a continuum of care in an integrated campus. Our CCRCs are owned through RIDEA structures, which is permitted by the Housing and Economic Recovery Act of 2008, and includes most of the provisions previously proposed in the REIT Investment Diversification and Empowerment Act of 2007. The services provided by our third-party manager-operators under a RIDEA structure at our properties are primarily paid for by the residents directly or through private insurance and are less reliant on government reimbursement programs such as Medicare and Medicaid.7Table of ContentsA RIDEA structure allows us, through a taxable REIT subsidiary (â€¢TRSâ€¢), to receive cash flow from the operations of a healthcare facility in compliance with REIT tax requirements. The criteria for operating a healthcare facility through a RIDEA structure require us to lease the facility to an affiliate TRS and for such affiliate TRS to engage an independent qualifying management company (also known as an eligible independent contractor or third-party operator) to manage and operate the day-to-day business of the facility in exchange for a management fee. As a result, under a RIDEA structure, we are required to rely on a third-party operator to hire and train all facility employees, enter into third-party contracts for the benefit of the facility, including resident/patient agreements, comply with laws, including healthcare laws, and provide resident care. We are substantially limited in our ability to control or influence day-to-day operations under a RIDEA structure, and thus rely on the third-party operator to manage and operate the business. Through our TRS entities, we bear all operational risks and liabilities associated with the operation of these properties, with limited exceptions, such as a third-party operatorâ€™s gross negligence or willful misconduct. These operational risks and liabilities include those relating to any employment matters of our operator, compliance with healthcare and other laws, liabilities relating to personal injury-tort matters, resident-patient quality of care claims, and any governmental reimbursement matters, even though we have limited ability to control or influence our third-party operatorsâ€™ management of these risks. The management agreements we have in RIDEA structures related to CCRCs have original terms ranging from 10 to 15 years, with mutual renewal options. There are base management fees and incentive management fees payable to our third-party operators if operating results of the RIDEA properties exceed pre-established thresholds. Conversely, there are also provisions in the management agreements that reduce management fees payable to our third-party operators if operating results do not meet certain pre-established thresholds.CCRCs are different from other housing and care options for seniors because they typically provide written agreements or long-term contracts between residents and the communities (frequently lasting the term of the residentâ€™s lifetime), which offer a continuum of housing, services, and healthcare on one campus or site. CCRCs are appealing as they allow residents to â€¢age in placeâ€¢ and typically the individual is independent and in relatively good health upon entry. As third-party operators manage our RIDEA properties in exchange for the receipt of a management fee, we are not directly exposed to the credit risk of these operators in the same manner or to the same extent as a triple-net tenant.Other non-reportable segmentAt December 31, 2024, we had the following investments in our other non-reportable segments: (i) our unconsolidated joint venture with a sovereign wealth fund that owns 19 senior housing assets (which we refer to as our SWF SH JV) and (ii) loans receivable. The properties in our SWF SH JV are owned through RIDEA structures and include independent living facilities and assisted living facilities, which cater to different segments of the elderly population based upon their personal needs. These facilities are often in apartment-like buildings with private residences ranging from single rooms to large apartments.CompetitionInvesting in real estate serving the healthcare industry is highly competitive. We face competition from other REITs, investment companies, pension funds, private equity investors, sovereign funds, healthcare operators, lenders, developers, and other institutional investors, some of whom may have greater flexibility (e.g., non-REIT competitors), greater resources, and lower costs of capital than we do. Increased competition and resulting capitalization rate compression, as well as the impacts of inflation and higher interest rates, make it more challenging for us to identify and successfully capitalize on opportunities that meet our objectives. Our ability to compete may also be impacted by global, national, and local economic trends, availability of investment alternatives, availability and cost of capital, construction and renovation costs, existing laws and regulations, new legislation, and population trends.Income from our investments depends on our tenantsâ€™ and operatorsâ€™ ability to compete with other companies on multiple levels, including: (i) the quality of care provided, (ii) reputation, (iii) success of product or drug development, (iv) price, (v) the range of services offered, (vi) the physical appearance of a property, (vii) alternatives for healthcare delivery, (viii) the supply of competing properties, (ix) physicians, (x) staff, (xi) referral sources, (xii) location, (xiii) the size and demographics of the population in surrounding areas, and (xiv) the financial condition of our tenants and operators. For a discussion of the risks associated with competitive conditions affecting our business, see â€¢Item 1A, Risk Factorsâ€¢ in this report.8Table of ContentsGovernment Regulation, Licensing, and EnforcementOverviewOur healthcare facility operators (which include our TRS entities when we use a RIDEA structure) and tenants are subject to extensive and complex federal, state, and local healthcare laws and regulations relating to quality of care, licensure and certificate of need, resident rights (including abuse and neglect), consumer protection, government reimbursement, fraud and abuse practices, and similar laws governing the operation of healthcare facilities. We expect the healthcare industry, in general, will continue to face increased regulation and pressure in the areas of fraud, waste and abuse, cost control, healthcare management, and provision of services, among others. Federal, state, and local officials are increasingly focusing their efforts on enforcement of these laws and regulations. In addition, our operators are subject to a variety of laws, regulations, and executive orders, including those relating to operatorsâ€™ response to Covid and other infectious diseases, which can vary based on the provider type and jurisdiction, complicating compliance efforts. These regulations are wide ranging and can subject our tenants and operators to civil, criminal, and administrative sanctions, including enhanced or additional penalties, sanctions, and other adverse actions that may arise under new regulations adopted in response to Covid. Affected tenants and operators may find it increasingly difficult to comply with this complex and evolving regulatory environment because of a relative lack of guidance in many areas as certain of our healthcare properties are subject to oversight from several government agencies, and the laws may vary from one jurisdiction to another. Changes in laws, regulations, reimbursement enforcement activity, and regulatory non-compliance by our tenants and operators can all have a significant effect on their operations and financial condition, which in turn may adversely impact us, as detailed below and set forth under â€¢Item 1A, Risk Factorsâ€¢ in this report.The following is a discussion of certain laws and regulations generally applicable to our operators, and in certain cases, to us.Fraud and Abuse EnforcementThere are various extremely complex U.S. federal and state laws and regulations governing healthcare providersâ€™ referrals, relationships and arrangements and prohibiting fraudulent and abusive practices by such providers. These laws include: (i) U.S. federal and state false claims acts, which, among other things, prohibit providers from filing false claims or making false statements to receive payment from Medicare, Medicaid, or other U.S. federal or state false healthcare programs; (ii) U.S. federal and state anti-kickback and fee-splitting statutes, including the Medicare and Medicaid anti-kickback statute, which prohibit or restrict the payment or receipt of remuneration to induce referrals or recommendations of healthcare items or services; (iii) U.S. federal and state physician self-referral laws (commonly referred to as the â€¢Stark Lawâ€¢), which, subject to certain exceptions, generally prohibit referrals of specifically designated health services by physicians to entities with which the physician or an immediate family member has a financial relationship; and (iv) the federal Civil Monetary Penalties Law, which prohibits, among other things, the knowing presentation of a false or fraudulent claim for certain healthcare services and which authorizes the U.S. Department of Health and Human Services to impose monetary penalties for certain fraudulent acts. Violations of U.S. healthcare fraud and abuse laws carry civil, criminal, and administrative sanctions, including punitive sanctions, monetary penalties, imprisonment, denial of Medicare and Medicaid reimbursement, payment suspensions, and potential exclusion from Medicare, Medicaid, or other federal or state healthcare programs. These laws are enforced by a variety of federal, state, and local agencies and in the U.S. can also be enforced by private litigants through, among other things, federal and state false claims acts, which allow private litigants to bring qui tam or â€¢whistleblowerâ€¢ actions, in which individuals have tremendous financial gain in bringing a whistleblower claim as federal and state false claim acts provide that individuals receive between 15% and 30% of the money recouped. Additionally, violations of false claims acts can result in treble damages. Our tenants and operators that participate in government reimbursement programs are subject to these laws and may become the subject of governmental enforcement actions or whistleblower actions if they fail to comply with applicable laws. Additionally, the licensed operators of our U.S. long-term care facilities that participate in government reimbursement programs are required to have compliance and ethics programs that meet the requirements of federal laws and regulations relating to the Social Security Act. Where we have used a RIDEA structure, we are dependent on management companies to fulfill our compliance obligations, and we have developed a program to periodically monitor compliance with such obligations. Investigation by a federal or state governmental body for violation of fraud and abuse laws or imposition of any of these penalties upon one of our operators could jeopardize that operatorâ€™s business, reputation, and ability to operate.9Table of ContentsLaws and Regulations Governing Privacy and SecurityThere are various U.S. federal and state privacy laws and regulations, including the privacy and security rules contained in the Health Insurance Portability and Accountability Act of 1996 (commonly referred to as â€¢HIPAAâ€¢), that provide for the privacy and security of personal health information. An increasing focus of the U. S. Federal Trade Commissionâ€™s (â€¢FTCâ€¢) consumer protection regulation is the impact of technological change on protection of consumer privacy. The FTC, as well as state attorneys general, have taken enforcement action against companies that do not abide by their representations to consumers regarding electronic security and privacy. To the extent we or our affiliated operating entities are a covered entity or business associate under HIPAA and the Health Information Technology for Economic and Clinical Health Act (the â€¢HITECH Actâ€¢), compliance with those requirements require us to, among other things, conduct a risk analysis, implement a risk management plan, implement policies and procedures, and conduct employee training. In most cases, we are dependent on our tenants and management companies to fulfill our compliance obligations, and we have developed a program to periodically monitor compliance with such obligations. Because of the far reaching nature of these laws, there can be no assurance we would not be required to alter one or more of our systems and data security procedures to be in compliance with these laws. Our failure to protect health information could subject us to civil or criminal liability and adverse publicity, and could harm our business and impair our ability to attract new customers and residents. We may be required to notify individuals, as well as government agencies and the media, if we experience a data breach.Further, as reliance on technology has increased, so have the risks posed to those systems. Parties that provide us with services essential to our operations must continuously monitor and develop their networks and information technology to prevent, detect, address, and mitigate the risk of unauthorized access, misuse, computer viruses, and social engineering, such as phishing. Our tenants and management companies are continuously working, including with the aid of third-party service providers, to install new, and to upgrade existing, network and information technology systems, to create processes for risk assessment, testing, prioritization, remediation, risk acceptance, and reporting, and to provide awareness training around phishing, malware, and other cyber risks to ensure that our partners that provide us with services essential to our operations are protected against cyber risks and security breaches and that we are also therefore so protected. However, these upgrades, processes, new technology, and training may not be sufficient to protect us from all risks. Even the most well protected information, networks, systems, and facilities remain potentially vulnerable because the techniques and technologies used in attempted attacks and intrusions evolve and generally are not recognized until launched against a target. In some cases, attempted attacks and intrusions are designed not to be detected and, in fact, may not be detected.ReimbursementSources of revenue for some of our tenants and operators include, among others, governmental healthcare programs, such as the federal Medicare programs and state Medicaid programs, and non-governmental third-party payors, such as insurance carriers and HMOs. Our tenants and operators who participate in governmental healthcare programs are subject to government reviews, audits, and investigations to verify compliance with these programs and applicable laws and regulations. As federal and state governments focus on healthcare reform initiatives, and as the federal government and many states face significant current and future budget deficits, efforts to reduce costs by these payors will likely continue, which may result in reduced or slower growth in reimbursement for certain services provided by some of our tenants and operators. Governmental healthcare programs are highly regulated and are subject to frequent and substantial legislative, regulatory, and interpretive changes, which could adversely affect reimbursement rates and the method and timing of payment under these programs. Additionally, new and evolving payor and provider programs in the U.S., including Medicare Advantage, Dual Eligible, Accountable Care Organizations, Post-Acute Care Payment Models, SNF Value-Based Purchasing

Programs, and Bundled Payments could adversely impact our tenants’ and operators’ liquidity, financial condition, or results of operations. Effective January 16, 2024, Medicare and Medicaid nursing facilities are required to disclose new data about the facility’s ownership, management, and the owners of real property lessors upon initial enrollment and revalidation. In addition, the nursing facilities are required to timely report any changes, including in connection with any change of ownership. The Centers for Medicare and Medicaid Services (‘CMS’) defines the new disclosable parties to include members of the facility’s governing body, persons, or entities who are an officer, director, member, partner, trustee, or managing employee of the facility, persons, or entities that exercise operational, financial, or managerial control, lease or sublease real property to the facility, own a direct or indirect interest of five percent or greater of the real property, or provide management or administrative services to the facility. Additionally, facilities are required to disclose whether any entity on the enrollment form is a private equity company or REIT. CMS makes the information publicly available. This new disclosure requirement involves reporting extensive information and may complicate our healthcare facility operators’ efforts to comply with Medicare and Medicaid requirements. Failure to comply with the new disclosure requirements could negatively affect our healthcare facility operators’ participation in Medicare and state Medicaid programs.

Table of Contents Healthcare Licensure and Certificate of Need Certain healthcare facilities in our portfolio are subject to extensive national, federal, state, and local licensure, certification, and inspection laws and regulations. A healthcare facility’s failure to comply with these laws and regulations could result in a revocation, suspension, restriction, or non-renewal of the facility’s license and loss of a certificate of need, which could adversely affect the facility’s operations and ability to bill for items and services provided at the facility. In addition, various licenses and permits are required to handle controlled substances (including narcotics), operate pharmacies, handle radioactive materials, and operate equipment. Many states in the U.S. require certain healthcare providers to obtain a certificate of need, which requires prior approval for the construction, expansion, or closure of certain healthcare facilities. The approval process related to state certificate of need laws may impact the ability of some of our tenants and operators to expand or change their businesses. Changes in these laws and regulations could negatively affect the ability of our tenants to make lease payments to us. In some states, healthcare facilities are subject to various state certificate of need (‘CON’) laws requiring governmental approval prior to the development or expansion of healthcare facilities and services. State CON laws often materially impact the ability of competitors to enter into the marketplace of our facilities and the repeal of CON laws could allow competitors to freely operate in previously closed markets.

Product Approvals While our lab tenants include some well-established companies, other tenants are less established and, in some cases, may not yet have a product approved by the Food and Drug Administration, or other regulatory authorities, for commercial sale. Creating a new pharmaceutical product or medical device requires substantial investments of time and capital, in part because of the extensive regulation of the healthcare industry. It also entails considerable risk of failure in demonstrating that the product is safe and effective and in gaining regulatory approval and market acceptance.

Entrance Fee Communities Our CCRCs are operated as entrance fee communities. Generally, an entrance fee is an upfront fee or consideration paid by a resident, a portion of which may be refundable, in exchange for some form of long-term benefit, typically consisting of a right to receive certain personal or health care services. In certain states (including the ones in which we operate) entrance fee communities are subject to significant state regulatory oversight, including, for example, oversight of each facility’s financial condition, establishment and monitoring of reserve requirements and other financial restrictions, the right of residents to cancel their contracts within a specified period of time, the right of residents to receive a refund of their entrance fees, lien rights in favor of the residents, restrictions on change of ownership, and similar matters. Americans with Disabilities Act (‘ADA’) Our properties must comply with the ADA and any similar state or local laws to the extent that such properties are ‘public accommodations’ as defined in those statutes. The ADA may require removal of barriers to access by persons with disabilities in certain public areas of our properties where such removal is readily achievable. To date, we have not received any notices of noncompliance with the ADA that have caused us to incur substantial capital expenditures to address ADA concerns. Should barriers to access by persons with disabilities be discovered at any of our properties, we may be directly or indirectly responsible for additional costs that may be required to make facilities ADA-compliant. Noncompliance with the ADA could result in the imposition of fines or an award of damages to private litigants. The obligation to make readily achievable accommodations pursuant to the ADA is an ongoing one, and we continue to assess our properties and make modifications as appropriate in this respect.

Environmental Matters A wide variety of federal, state, and local environmental and occupational health and safety laws and regulations affect healthcare facility operations. These complex federal and state statutes, and their enforcement, involve a myriad of regulations, many of which involve strict liability on the part of the potential offender. Some of these federal and state statutes may directly impact us. Under various federal, state, and local environmental laws, ordinances, and regulations, an owner of real property or a secured lender, such as us, may be liable for the costs of removal or remediation of hazardous or toxic substances at, under or disposed of in connection with such property, as well as other potential costs relating to hazardous or toxic substances (including government fines and damages for injuries to persons and adjacent property). The cost of any required remediation, removal, fines, personal or property damages, and any related liability therefore could exceed or impair the value of the property and/or the assets. In addition, the presence of such substances, or the failure to properly dispose of or remediate such substances, may adversely affect the value of such property and the owner’s ability to sell or rent such property or to borrow using such property as collateral, which, in turn, could reduce our earnings. For a description of the risks associated with environmental matters, see ‘Item 1A, Risk Factors’ in this report.

Table of Contents Insurance We obtain various types of insurance to mitigate the impact of property, business interruption, liability, flood, windstorm, earthquake, fire, environmental, and terrorism-related losses. We attempt to obtain appropriate policy terms, conditions, limits, and deductibles considering the relative risk of loss, the cost of such coverage, and current industry practice. There are, however, certain types of extraordinary losses, such as those due to acts of war or other events, that may be either uninsurable or not economically insurable. In addition, we have a large number of properties that are exposed to earthquake, flood, and windstorm occurrences, which carry higher deductibles. We maintain property insurance for all of our properties. Tenants under triple-net leases are required to provide primary property, business interruption, and liability insurance. We maintain separate general and professional liability insurance for our CCRCs and the senior housing facilities owned by our SWF SH JV. Additionally, our corporate general liability insurance program also extends coverage for all of our properties beyond the aforementioned. We periodically review whether we or our RIDEA operators will bear responsibility for maintaining the required insurance coverage for the applicable CCRCs and senior housing facilities owned by our SWF SH JV, but the costs of such insurance are facility expenses paid from the revenues of those properties, regardless of who maintains the insurance. We also maintain directors and officers liability insurance, which provides protection for claims against our directors and officers arising from their responsibilities as directors and officers. Such insurance also extends to us in certain situations.

Sustainability and Corporate Impact We believe that corporate impact initiatives are a vital part of corporate responsibility, which supports our primary goal of increasing stockholder value through profitable growth. We continue to advance our commitment to sustainability, with a focus on achieving goals in each of the corporate impact dimensions. Our Board of Directors oversees corporate impact matters, with the Nominating and Corporate Governance Committee overseeing sustainability and corporate governance matters, the Audit Committee overseeing risk management, and the Compensation and Human Capital Committee overseeing human capital management. We use an integrated approach to corporate impact throughout our business to identify risks and opportunities, capture efficiencies and cost savings, and report on the issues most relevant to stakeholders.

Environment: Our environmental management programs strive to make our buildings more sustainable and capture cost efficiencies that ultimately benefit our investors, employees, tenants, business partners, and other stakeholders, while reducing our carbon footprint and providing a positive impact on the communities in which we operate. We regularly assess the risks and financial impacts to our business posed by climate change, including transition risks, physical climate risks, potential business disruption, and regulatory requirements, and work with our property managers, operators, and tenants to implement projects to mitigate these risks and impacts. For a description of the risks associated with climate risk matters, see ‘Item 1A, Risk Factors’ in this report.

Social: See ‘Human Capital Matters’ below.

Governance: Our transparent corporate governance initiatives incorporate sustainability as a critical component in achieving our business objectives and properly managing risks. Our recent corporate impact highlights include: ‘Reported a reduction of 2.1% in Scope 1 and Scope 2 greenhouse gas emissions (‘GHG’) in 2023 compared to 2022 on a like-for-like comparative basis (as defined below)’ ‘Obtained 6 new LEED certifications, 19 new ENERGY STAR certifications, and 150 ENERGY STAR recertifications in 2024’ ‘Named an ENERGY STAR Partner of the Year for Sustained Excellence in 2024, marking our fourth time receiving the Partner of the Year award and first time being recognized for Sustained Excellence’ ‘Received a Green Star rating from the Global Real Estate Sustainability Benchmark (‘GRESB’) for the thirteenth consecutive year, recognizing leading sustainability performance in our sector’ ‘Named to Newsweek’s ‘America’s Most Responsible Companies list for the third consecutive year’ ‘Named a constituent in the FTSE4Good Index for the thirteenth consecutive year’ ‘Named a constituent in the S&P Global Dow Jones Sustainability World Index for the fifth time and S&P Global North America Dow Jones Sustainability Index for the twelfth consecutive year’ ‘Named to the S&P Global Sustainability Yearbook for the ninth consecutive year’

Table of Contents Under our ‘like-for-like’ methodology, direct and indirect GHG emissions are compared on a year-over-year rolling basis using Scope 1 and Scope 2 GHG emissions for the properties that we have owned for two full consecutive calendar years, excluding non-stabilized developments and redevelopments in each year of the calculation. Base data utilized in the calculation of Scope 1 and Scope 2 GHG emissions is obtained from third-party invoices or estimates. For additional information regarding our corporate impact initiatives, methodologies, and approach to climate change, please visit our website at www.healthpeak.com/corporate-impact.

Human Capital Matters Our employees represent our greatest asset, and as of December 31, 2024, we had 387 full-time employees. Our Board of Directors, through its Compensation and Human Capital Committee, retains oversight of human capital management, including corporate culture, diversity, inclusion, talent acquisition, retention, employee satisfaction, engagement, and succession planning. We report on human capital matters at each regularly scheduled Board of Directors meeting and periodically throughout the year. The most significant human capital measures or objectives that we focus on in managing our business and our related human capital initiatives include the following:

- ‘Workforce Diversity: We believe we are a stronger organization when our workforce represents a diversity of ideas and experiences. We value and embrace such diversity in our employee recruiting, hiring, and development practices. Our workforce was made up of 59% female employees and 35% racially or ethnically diverse employees as of December 31, 2024.’
- ‘Inclusion and Belonging: We promote a work environment that emphasizes respect, fairness, inclusion, and dignity. We are committed to providing equal opportunity and fair treatment to all individuals based on merit, without discrimination based on race, color, religion, national origin, citizenship, marital status, gender (including pregnancy), gender identity, gender expression, sexual orientation, age, disability, veteran status, or other characteristics protected by law. We do not tolerate discrimination or harassment. All employees are required to attend a biennial training on unconscious bias.’
- ‘Engagement: High employee engagement and satisfaction are both critical to attracting and retaining top talent and benefit our business in many ways. We conduct a regular employee engagement survey through an independent third party, measuring our progress on important employee issues and identifying opportunities for growth and improvement.’
- ‘Training and Development: We conduct at least annual employee training on our Code of Business Conduct and Ethics, as well as annual training on harassment prevention or unconscious bias. We also provide training and development to all employees, focusing on career development, professional development, and REIT essentials.’
- ‘Compensation and Benefits: We aim to ensure merit-based, equitable compensation practices to attract, retain, and recognize talent. We provide competitive compensation and benefit packages to our employees.’
- ‘Health, Safety, and Wellness: The health, safety, and wellness of our employees are vital to our success. We are committed to protecting the well-being and safety of employees through special training and other measures. We maintain a hybrid work model, which we believe maximizes company-wide productivity, and provide employees with resources, including virtual tools and ergonomic equipment, to maximize work-from-home efficiency.’

Community Partnership: Our Social Responsibility Committee is responsible for oversight of our charitable and volunteer activities. We partner with organizations that share our desire to support research, education, and other activities related to healthcare. For additional information on human capital matters, please see our most recent proxy statement or corporate impact report, each of which is available on our website at www.healthpeak.com.

Available Information Our website address is www.healthpeak.com. Our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act are available on our website, free of charge, as soon as reasonably practicable after we electronically file such materials with the SEC, including us, to the SEC. Additionally, the SEC maintains a website that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC, including us, at www.sec.gov. References to our website throughout this Annual Report on Form 10-K are provided for convenience only and the content on our website does not constitute a part of this Annual Report on Form 10-K.

Table of Contents **Item 1A – Risk Factors** The section below discusses the risk factors that may materially adversely affect our business, results of operations, and financial condition. Additional risks not presently known to us or that we currently deem immaterial may also adversely affect our business. As set forth below, we believe that the risks we face generally fall into the following categories:

- ‘risks related to our business and operations;’
- ‘risks related to our capital structure and market conditions;’
- ‘risks related to the regulatory environment;’
- ‘risks relating to integration and property management internalization following our Merger with Physicians Realty Trust;’
- ‘risks related to tax, including REIT-related risks, and related to our jurisdiction of incorporation and our structure as an UPREIT.’

Risks Related to Our Business and Operations We may be negatively impacted by macroeconomic trends that may increase construction, labor, and other operating costs for us and our tenants, operators, and borrowers. In recent periods, many of our costs, including labor costs, construction costs, utilities, and other operating and administrative costs, have been adversely affected by macroeconomic trends, including inflation, price volatility, declines in economic growth rates, and changes in unemployment. These macroeconomic trends have been exacerbated by higher interest rates, supply chain disruptions, geopolitical conflicts, federal government deficits, responses to the Covid pandemic, and other international and domestic events impacting the macroeconomic environment. If any of these adverse macroeconomic trends continue or recur in the future, our business and results of operations may be negatively impacted. Interest rates rose substantially in 2022 and 2023. U.S. government policies implemented to address inflation, including actions by the Federal Reserve System’s Federal Open Market Committee (the ‘FOMC’) to increase short-term interest rates, resulted in increases in interest rates in the credit markets and other impacts on the macroeconomic environment. Interest rates may continue to remain elevated above historical levels for the foreseeable future or rise again. The FOMC may maintain a higher federal funds rate for a longer period of time, or may determine to raise the federal funds rate again, either of which would likely lead to higher short-term interest rates and the possibility of lower asset values, slowing economic growth and increasing the possibility of a recession. Historically higher interest rates have caused, and may in the future cause, unfavorable financing terms and increased interest costs for variable rate debt and new debt. Further, actions by the FOMC to decrease short-term interest rates could lead to inflationary pressures. We may not be able to offset additional costs caused by inflation, higher interest rates, or other macroeconomic trends by passing them through, or increasing the rates we charge, to tenants and residents. These increased costs may hinder our ability to execute on accretive acquisitions or otherwise adversely affect our business, results of operations, and financial condition. Increased interest rates could also negatively impact consumer spending and our tenants’, operators’, and borrowers’ businesses and future demand for our properties. Furthermore, rising labor costs and personnel shortages may adversely impact us or our tenants, operators, and borrowers. Competitive pressures may require that we or our tenants, operators, or borrowers enhance pay and benefits packages to compete effectively for such personnel. To the extent we or our tenants, operators, or borrowers cannot hire a sufficient number of qualified personnel, we or they may need to utilize high-cost alternatives to meet labor needs, including contract and overtime labor, or our business may operate below capacity, which may affect our ability to effectively manage risk and pursue potential revenue and growth opportunities. Additionally, changing technologies, political and regulatory conditions, and cultural trends could negatively impact future demand for our properties, which could have a material adverse effect on our business, results of operations, and financial condition.

Table of Contents **Life science industry changes** could have a material adverse effect on our business, results of operations, and financial condition. If economic, financial, regulatory, or industry conditions adversely affect the life science industry, we may be unable to lease or re-lease our lab properties in a timely manner or at profitable rates or with favorable terms. In addition, because lab property infrastructure improvements are typically significantly more costly than improvements to other property types due to their highly specialized nature, and lab tenants typically require greater lease square footage relative to outpatient medical tenants, repositioning efforts would have a disproportionate adverse effect on our lab segment performance. Further, our lab investments could face decreased demand from biotech and life science companies relative to supply, and life science industry consolidation could reduce the rentable square footage requirements of our client tenants and prospective client tenants, which may adversely impact our revenues from lease payments. Finally, our lab investments could also be adversely affected if the life science industry migrates from the U.S. to other countries or to areas outside of our primary lab markets in the greater South San Francisco, San Diego, and Boston areas. Our

lab tenants face significant regulation, funding requirements, and uncertainty. Our lab tenants face substantial requirements for, and risks related to, the research, development, clinical testing, manufacture, and commercialization of their products and technologies, including: significant funding requirements, including for rent payments due to us; federal, state, and foreign regulatory approvals that may be costly or difficult to obtain, may take several years and be subject to delay, may not be obtained at all, require validation through clinical trials that may face delays or difficulties, or ultimately be unsuccessful; product and technology efficacy risks; acceptance risks among doctors and patients; significant regulatory and liability risks, including the possible later discovery of safety concerns and other defects and potential loss of approvals, competition from new products, and the expiration of patent protection; new and emerging laws aimed at the life science/biotechnology industry, increasing regulatory requirements and compliance costs, as well as healthcare reforms and reimbursement policies of government or private healthcare payors, including price controls for prescription drug prices; intellectual property and technology risks under patent, copyright, and trade secret laws; and economic conditions potentially restricting growth opportunities. Our lab tenants' ability to raise capital depends on the actual or perceived viability of their products and technologies, their financial and operating condition and outlook, and the overall financial, banking, and economic environment. If venture capital firms, private investors, the public markets, companies in the life science industry, the government, or other sources of funding are difficult to obtain or unavailable to support our tenants' activities, including as a result of general economic conditions or adverse market conditions that negatively impact our tenants' ability to raise capital, our tenants' business would be adversely affected or could fail. If our lab tenants' businesses are adversely affected, they may fail to make their rent payments to us, which could have a material adverse effect on our business, results of operations, and financial condition. Decreases in our tenants' operators' revenues, or increases in their expenses, or other factors adversely affecting their ability to borrow money, could affect their ability to meet their financial and other contractual obligations to us. Occupancy levels at, and rental income from, our outpatient medical and senior housing properties depend on our ability and the ability of our tenants, operators, and borrowers to compete with respect to (i) the quality of care provided, (ii) reputation, (iii) price, (iv) the range of services offered, (v) the physical appearance of a property, (vi) family preference, (vii) referral sources, and (viii) location. In addition, our outpatient medical and senior housing tenants, operators, and borrowers compete with certain companies that have superior resources and attributes and/or provide similar healthcare services or alternatives such as home health agencies, telemedicine, life care at home, community-based service programs, retirement communities, and convalescent centers. There have been, and there are expected to continue to be, advances and changes in technology, payment models, healthcare delivery models, regulation, and consumer behavior, preferences, and perception that could reduce demand for on-site activities provided at our properties. If our tenants, operators, or borrowers are unable to adapt to long-term changes in demand, their financial condition could be materially impacted and our business, financial condition, and results of operations could be adversely affected.

15 Table of Contents Furthermore, these tenants, operators, and borrowers face a competitive labor market. A shortage of care givers or other trained personnel, union activities (including strikes, labor slowdowns, or contract negotiations), wage laws, or general inflationary pressures on wages may require our tenants, operators, and borrowers to enhance pay and benefits packages, or to use more expensive contract personnel, and they may be unable to offset these added costs by increasing the rates charged to residents or patients. An inability to attract and retain qualified personnel, including personnel possessing the expertise needed to operate in the life science, outpatient medical, and senior housing sectors, could negatively impact the ability of our tenants, operators, and borrowers to meet their obligations to us. Our tenants, operators, and borrowers could also be adversely impacted by a bank failure or other event affecting financial institutions, including through disruptions in access to bank deposits or borrowing capacity, including access to letters of credit from certain of our tenants relating to lease obligations, and any resulting adverse effects to our tenants' operators' or borrowers' liquidity or financial performance could affect their ability to meet their financial and other contractual obligations to us. Although we generally have the right under specified circumstances to terminate a lease, evict a tenant or terminate an operator, demand immediate repayment of outstanding loan amounts or other obligations to us, or draw on a letter of credit, we may be unable to enforce these rights or we may determine not to do so if we believe that doing so would be more detrimental than alternative approaches. If widespread default or nonpayment of outstanding obligations from our tenants, operators, or borrowers occurs at a time when terminating our agreements with them and replacing them would be difficult or impossible, we could elect instead to amend our agreements on materially less favorable terms to us. The failure of our tenants, operators, or borrowers to meet their financial and other contractual obligations to us could have a material adverse effect on our business, results of operations, and financial condition. We may be negatively impacted by the insolvency or bankruptcy of, or the inability to obtain funding by, one or more of our major tenants, operators, or borrowers. A downturn in our tenants' operators' or borrowers' businesses has led, and could in the future lead, to voluntary or involuntary bankruptcy or similar insolvency proceedings, including assignment for the benefit of creditors, liquidation, or winding-up. Bankruptcy and insolvency laws afford certain rights to a defaulting tenant, operator, or borrower that has filed for bankruptcy or reorganization that has, and in the future may, render certain of our remedies unenforceable or, at the least, delay our ability to pursue such remedies and realize any related recoveries. A debtor has the right to assume, or to assume and assign to a third party, or to reject its executory contracts and unexpired leases in a bankruptcy proceeding. We have been subject to rejection of our leases in the past and may experience such rejection in the future. When a debtor rejects its leases with us, obligations under such rejected leases cease. The claim against the rejecting debtor for remaining rental payments due under the lease is an unsecured claim limited by the statutory cap set forth in the U.S. Bankruptcy Code. This statutory cap may be substantially less than the remaining rent actually owed under the lease. In addition, a debtor may also assert in bankruptcy proceedings that certain leases should be re-characterized as financing agreements, which could result in our being deemed a lender instead of a landlord. A lender's rights and remedies, as compared to a landlord's, generally are materially less favorable, and our rights as a lender may be subject to lower priority for payment under the U.S. Bankruptcy Code. Furthermore, the automatic stay provisions of the U.S. Bankruptcy Code preclude us from enforcing our remedies unless we first obtain relief from the court having jurisdiction over the bankruptcy case. This effectively limits or delays our ability to collect unpaid rent or interest payments, and we may ultimately not receive any payment at all. In addition, we have been, and may again be, required to fund certain expenses and obligations (e.g., real estate taxes, insurance, debt costs, and maintenance expenses) to preserve the value of our properties, avoid the imposition of liens on our properties, or transition our properties to a new tenant or operator. If we are unable to transition affected properties, they would likely experience prolonged operational disruption, leading to lower occupancy rates and further depressed revenues. Publicity about the operator's financial condition and insolvency proceeds may also negatively impact their and our reputations, decreasing customer demand and revenues. Any or all of these risks could have a material adverse effect on our revenues, results of operations, and cash flows. These risks could be magnified where we lease multiple properties to a single operator under a master lease, as an operator failure or default under a master lease would expose us to these risks across multiple properties.

16 Table of Contents We depend on real estate investments, particularly in the healthcare property sector, making us more vulnerable to a downturn or slowdown in that specific sector than if we were investing across multiple sectors. We concentrate our investments in the healthcare property sector. A downturn or slowdown in this sector would have a greater adverse impact on our business than if we had investments across multiple sectors, and could negatively impact the ability of our tenants, operators, and borrowers to meet their obligations to us, as well as their ability to maintain historical rental and occupancy rates, which could have a material adverse effect on our business, results of operations, and financial condition. In addition, such downturns could have a material adverse effect on the value of our properties and our ability to sell properties at prices or on terms acceptable or favorable to us. The illiquidity of our real estate investments may prevent us from timely responding to economic or investment performance changes. Our real estate investments can be relatively illiquid due to: (i) restrictions on our ability to sell properties under applicable REIT tax laws, (ii) other tax-related considerations, (iii) regulatory hurdles, and (iv) market conditions. As a result, we may be unable to recognize full value for any property that we seek to sell. Our inability to timely respond to economic or investment performance changes could have a material adverse effect on our business, results of operations, and financial condition. Identifying and securing new or replacement tenants or operators can be time consuming and costly. Healthcare properties can be highly customized, and the improvements generally required to conform a property to healthcare use are costly, sometimes tenant-specific, and may be subject to regulatory requirements. A new or replacement tenant or operator may require different features in a property, depending on that tenant's or operator's particular business. In addition, infrastructure improvements for outpatient medical and lab properties typically are significantly more expensive than improvements to other property types due to the highly specialized nature of the properties, and with respect to lab properties, the greater lease square footage often required by lab tenants. Therefore, we may incur substantial expenditures to modify a lab property and experience delays before we are able to secure a new or replacement tenant or operator or to accommodate multiple tenants or operators, which may have a material adverse effect on our business, results of operations, and financial condition. In addition, we may fail to identify suitable replacements or enter into leases, management agreements, or other arrangements with new tenants or operators on a timely basis or on terms as favorable to us as our current leases, if at all. We also may be required to fund certain expenses and obligations, such as real estate taxes, debt costs, insurance costs, and maintenance expenses, to preserve the value of, and avoid the imposition of liens on, our properties while they are being repositioned. In addition, we may incur certain obligations and liabilities, including obligations to indemnify the replacement tenant or operator. Identifying and securing new or replacement tenants or operators can be time consuming and costly, which could have a material adverse effect on our business, results of operations, and financial condition. Property development, redevelopment, and tenant improvement risks can render a project less profitable or unprofitable and delay or prevent its undertaking or completion. Our property development, redevelopment, and tenant improvement projects could be canceled, abandoned, delayed or, if completed, fail to perform in accordance with expectations due to, among other things: the inability to obtain financing on favorable terms or at all, or the lack of liquidity we deem necessary or appropriate for the project; legal and regulatory hurdles, including moratoriums on development and redevelopment activities, net zero or carbon neutrality requirements, or other building and energy performance requirements; the failure to obtain, or costs associated with obtaining, necessary zoning, entitlements, and permits; cost increases; and other factors over which we have limited or no control, including: (i) changes in market and economic conditions; (ii) natural disasters and other catastrophic events or physical climate risks, such as wildfires, earthquakes, and wind storms; (iii) pandemics or other health crises; (iv) labor conditions, including a labor shortage or work stoppage; (v) shortages of construction materials; (vi) environmental conditions; or (vii) civil unrest and acts of war or terrorism. Project costs may materially exceed original estimates due to, among other things: higher interest rates; increased costs for materials, transportation, environmental remediation, labor, or other inputs, including those caused by a shortage of construction materials or labor; negligent construction or construction defects; 17 Table of Contents damage, vandalism, or accidents; and increased operating costs, including insurance premiums, utilities, real estate taxes, and costs of complying with changes in government regulations or increases in tariffs. Delays in project completion also delay the commencement of related rental payments, including increases in rental payments following tenant improvement projects, and may provide tenants the right to terminate leases or cause us to incur additional costs, including through rent abatement. Demand for a project may decrease prior to a project's completion, and resulting lease-up rates, rental rates, lease commencement dates, and occupancy levels may fail to meet expectations. Tenants that have pre-leased at a project may file for bankruptcy or become insolvent, or elect to terminate their lease prior to delivery if they are acquired or for other reasons. Finally, a project may have defects that we do not discover through the inspection processes, including latent defects not discovered until after we put a property in service. The foregoing risks could result in not achieving anticipated returns on investment and could have a material adverse effect on our business, results of operations, and financial condition. The hospitals on whose campuses our outpatient medical buildings are located and their affiliated healthcare systems could fail to remain competitive or financially viable, which could adversely impact their ability to attract physicians and physician groups to our outpatient medical buildings and our other properties that serve the healthcare industry. The viability of hospitals depends on factors such as: (i) the quality and mix of healthcare services provided, (ii) competition for patients and physicians, (iii) demographic trends in the surrounding community, (iv) market position, (v) growth potential, and (vi) changes to the reimbursement system, as well as the ability of the affiliated healthcare systems to provide economies of scale and access to capital. In addition, hospitals could be negatively affected by widespread cancellations of elective procedures due to health and safety measures or otherwise. If a hospital whose campus is located near one of our outpatient medical buildings is unable to meet its financial obligations, and if an affiliated healthcare system is unable to support that hospital or goes bankrupt, the hospital may be unable to successfully compete or could be forced to close, relocate, or be sold to another provider, which could adversely impact its ability to attract physicians and other healthcare-related users. In addition, hospitals can also be adversely affected by increasing legal and regulatory scrutiny and hurdles, including requirements for hospitals to be able to engage in certain transactions or change owners or operators, which could impact the financial viability of the hospitals. Because we rely on our proximity to, and affiliations with, these hospitals to create tenant demand for space in our outpatient medical buildings, their inability to remain competitive or financially viable, or to attract physicians and physician groups, could adversely affect our outpatient medical building operations and have a material adverse effect on us. We may be unable to develop, maintain, or expand hospital and health system client relationships. We invest significant time in developing, maintaining, and expanding relationships with both new and existing hospital and health system clients. If we fail to maintain these relationships, including through a lack of responsiveness, failure to adapt to the current market, or employment of individuals with inadequate experience, our reputation and relationships will be harmed and we may lose business to competitors, which could have a material adverse effect on us. We assume operational risks with respect to our senior housing properties managed in RIDEA structures that could have a material adverse effect on our business, results of operations, and financial condition. Although the RIDEA structure gives us certain oversight approval rights (e.g., budgets and material contracts) and the right to review operational and financial reporting information, our operators are ultimately in control of the day-to-day business of the property. As a result, we have limited rights to direct or influence the business or operations of our CCRCs and in the properties owned by our SWF SH JV, all of which are under RIDEA structures, and we depend on our operators to operate these properties in a manner that complies with applicable law, minimizes legal risk, and maximizes the value of our investment. Under a RIDEA structure, our TRS is ultimately responsible for all operational risks and other liabilities of the properties, other than those arising out of certain actions by our operator, such as gross negligence or willful misconduct. Operational risks include, and our resulting revenues therefore depend on, among other things: (i) occupancy rates; (ii) the entrance fees and rental rates charged to residents; (iii) the requirements of, or changes to, governmental reimbursement programs such as Medicare or Medicaid, to the extent applicable, including changes to reimbursement rates; (iv) our operators' reputations and ability to attract and retain residents; (v) general economic conditions and market factors that impact seniors, including general inflationary pressures; (vi) competition from other senior housing providers; (vii) compliance with federal, state, local, and industry-regulated licensure, certification and inspection laws, regulations and standards; (viii) litigation involving our properties or residents/patients; (ix) the availability and cost of general and professional liability insurance coverage or increases in insurance policy deductibles; and (x) the ability to control operating expenses.

18 Table of Contents Operators of our CCRCs and the SWF SH JV properties primarily depend on private sources for their revenues and the ability of their patients and residents to pay fees. Costs associated with independent and assisted living services are not generally reimbursable under governmental reimbursement programs such as Medicare and Medicaid. Accordingly, our operators of these properties depend on attracting seniors with appropriate levels of income and assets, which may be affected by many factors, including: (i) prevailing economic and market trends, including general inflationary pressures; (ii) consumer confidence; (iii) demographics; (iv) property condition and safety; (v) public perception about such properties; (vi) social and environmental factors; and (vii) changes in consumer preferences (such as favoring home health services instead of residing in a senior housing community). In addition, epidemics, pandemics, and severe flu seasons or any other widespread illness could result in early move-outs or delayed move-ins during quarantine periods or during periods when actual or perceived risks of such illnesses are heightened, and have reduced, and could continue to reduce, our operators' revenues. If our operators fail to effectively conduct operations on our behalf, or to maintain and improve our properties, it could adversely affect our business reputation as the owner of the properties, as well as the business reputation of our operators and their ability to attract and retain patients and residents in our properties, which could have a material adverse effect on our and our operators' business, results of operations, and financial condition. Economic conditions, natural disasters, weather, and other events or conditions that negatively affect geographic areas where we have concentrated investments could have a material adverse effect on our business, results of operations, and financial condition. We are subject to increased exposure to adverse conditions affecting the geographies in which our properties are located, including: (i) downturns in local economies or increases in unemployment rates; (ii) changes in local real estate conditions, including increases in real estate taxes and property insurance premiums; (iii) increased competition; (iv) decreased demand; (v) changes in political administrations, or federal, state, and local legislation, including changes affecting business or property taxes; (vi) local climate events and natural disasters and other catastrophic events, such as pandemics, earthquakes,

hurricanes, windstorms, flooding, wildfires, and mudslides and other physical climate risks, including water stress and heat stress; and (vii) failures of regional banks. These risks could significantly disrupt our businesses in the region, harm our ability to compete effectively, result in increased costs or construction delays, and divert management attention, any or all of which could have a material adverse effect on our business, results of operations, and financial condition. In addition, significant climate changes in areas where we own property could result in extreme weather and changes in precipitation, temperature, and other weather patterns, all of which could result in physical damage to or a decrease in demand for properties located in these areas or affected by these conditions or delays in construction. Moreover, an increase in volatility and difficulty predicting adverse weather events, such as freeze events in warmer climates in recent years, as well as increased hurricane intensity, may result in additional losses. Intensifying natural disasters resulting from climate change and extreme weather events, coupled with macroeconomic factors, have directly affected the availability of insurance, premiums, deductibles, and capacity that insurers are willing to underwrite. As a result, we may determine to self-insure more of our exposures, absorb more below deductible losses, and look for alternative means of risk transfer in order to avoid spiraling insurance costs. These events also have indirect effects on our business by increasing the costs of energy, maintenance, and snow removal at our properties. If changes in the climate have material effects, such as property destruction, or occur for extended periods, this could have a material adverse effect on business, results of operations, and financial condition. Uninsured or underinsured losses could result in a significant loss of capital invested in a property, lower than expected future revenues, and unanticipated expenses. A large number of our properties are located in areas exposed to earthquakes, hurricanes, windstorms, flooding, water stress, heat stress, and other common natural disasters and physical climate risks. In particular, (i) a significant portion of our lab development projects and approximately 67% of our lab portfolio (based on gross asset value as of December 31, 2024) was concentrated in California, which is known to be subject to earthquakes, wildfires, and other natural disasters, and (ii) approximately 68% of our CCRC portfolio (based on gross asset value as of December 31, 2024) was concentrated in Florida, which is known to be subject to hurricanes. While we maintain insurance coverage for earthquakes, fires, hurricanes, windstorms, floods, and other natural disasters and physical climate risks, we may be unable to purchase the limits and terms we desire on a commercially reasonable basis due to increased insurance costs or the unavailability of insurance for certain exposures in other regions. We maintain additional earthquake insurance for our properties that are located in the vicinity of active earthquake zones in amounts and with deductibles we believe are commercially reasonable. Because of our significant concentration in the seismically active regions of South San Francisco, California, and San Diego, California, an earthquake in these areas could damage a significant portion of our lab portfolio. Similarly, a hurricane in Florida could damage a significant portion of our CCRC portfolio. As a result, aggregate deductible amounts may be material, and our insurance coverage may be materially insufficient to cover our losses. Furthermore, there are certain exposures for which we do not purchase insurance because we do not believe it is economically feasible to do so or there is no viable insurance market.

19 Table of Contents If one of our properties experiences a loss that is uninsured or that exceeds policy coverage limits, we could lose our investment in the damaged property as well as the anticipated future cash flows from such property. If the damaged property is subject to recourse indebtedness, we could continue to be liable for the indebtedness even if the property is irreparably damaged. In addition, even if damage to our properties is covered by insurance, a disruption of business caused by a casualty event may result in loss of revenues for us. Any business interruption insurance may not fully compensate the lender or us for such loss of revenue. Our insurance coverage does not include damages as a result of a pandemic (such as Covid), including business interruption, loss of revenue or earnings, or any related effects (e.g., increased costs related to personal protective equipment, sanitization/sterilization of surfaces and equipment, and additional staffing). Insurance coverage for pandemics is not generally available; if it does become available again, it may not be on commercially reasonable terms and we may be unable to receive insurance proceeds that would compensate us fully for our liabilities, costs, and expenses in the event of a pandemic. Our CCRC and senior housing operators also face various forms of class-action lawsuits from time to time, such as wage and hour and consumer rights actions, which generally are not covered by insurance. These class actions could result in significant defense costs, as well as settlements or verdicts that materially decrease anticipated revenues from a property and can result in the loss of a portion or all of our invested capital. We may also incur significant out-of-pocket costs associated with legal proceedings or other claims from residents and patients at our properties. Any of the foregoing risks could have a material adverse effect on our business, results of operations, and financial condition. In addition, the rise in outsized jury verdicts and/or intensifying natural disasters could threaten policy limits and/or sublimits, which may result in the exhaustion of available insurance coverage for the remainder of the policy year. These events could also have a material adverse effect on our business, results of operations, and financial condition. Our use of joint ventures may limit our returns on and our flexibility with jointly owned investments. From time to time, we develop, acquire, and/or recapitalize properties in joint ventures with other persons or entities when circumstances warrant the use of these structures. Our participation in joint ventures is subject to risks that may not be present with other methods of ownership, including:

- our joint venture partners could have investment and financing goals that are inconsistent with our objectives, including the timing, terms, and strategies for any investments, and what levels of debt to incur or carry;
- because we lack sole decision-making authority, we could experience impasses or disputes relating to certain decisions, including those related to budget approvals, entitlements, construction and development, acquisitions, sales of assets, debt financing, execution of lease agreements, and vendor approvals, which could result in delayed decisions and missed opportunities and could require us to expend additional resources on litigation or arbitration to resolve;
- our joint venture partners may have competing interests that create conflicts of interest in our markets;
- our ability to transfer our interest in a joint venture to a third party may be restricted;
- the market for our interest may be limited and/or valued lower than fair market value;
- our joint venture partners may be structured differently than us for tax purposes, and this could create conflicts of interest and risks to our REIT status or could restrict the ways in which we are able to exit investments;
- our joint venture partners might become insolvent, fail to fund their share of required capital contributions or fail to fulfill their obligations as a joint venture partner, which may require us to infuse our own capital into the venture on behalf of the partner despite other competing uses for such capital;
- our joint venture agreements may contain anti-competitive restrictions that impact certain of our non-joint venture assets and require us to manage the non-joint venture assets in a manner we otherwise would not;
- our joint venture agreements may in certain circumstances grant our partners a right of first refusal to acquire certain of our non-joint venture assets;
- our joint venture agreements may give our partners management rights that allow them to make operational or other decisions with which we disagree or that we would manage differently;
- and
- our joint venture agreements may impose limitations or caps on the property management fees that we otherwise would have been entitled to receive if the underlying property were wholly owned. In addition, in some instances, our joint venture partner will have the right to cause us to sell our interest, or acquire their interest, at a time when we otherwise would not have initiated such a transaction. Our ability to acquire our partner's interest will be limited if we lack sufficient capital resources. This could require us to sell our interest in the joint venture when we might otherwise prefer to retain it. Any of the foregoing risks could have a material adverse effect on our business, results of operations, and financial condition.

20 Table of Contents Rent escalators or contingent rent provisions in our leases could hinder our profitability and growth. We derive a significant portion of our revenues from leasing properties pursuant to leases that generally provide for fixed rental rates, subject to annual escalations. If inflation exceeds our annual escalations, as it often recently has, our growth and profitability may be limited. Under certain leases, a portion of the tenant's rental payment to us is based on the property's revenues (i.e., contingent rent). If a tenant's revenue at a rental property with contingent rent declines, our rental revenues would decrease. Additionally, some of our leases provide that annual rent is modified based on changes in the Consumer Price Index or other thresholds (i.e., contingent rent escalators). If the Consumer Price Index does not increase or other applicable thresholds are not met, rental rates may not increase as anticipated or at all, which could hinder our profitability and growth. Furthermore, if economic conditions result in significant increases in the Consumer Price Index, but the escalations under our leases with contingent rent escalators are capped or the increase in the Consumer Price Index exceeds our tenants' ability to pay, our growth and profitability also may be limited. Competition may make it difficult to identify and purchase, or develop, suitable healthcare properties to grow our investment portfolio, to finance acquisitions on favorable terms, or to retain or attract tenants and operators. We face significant competition from other REITs, investment companies, private equity and hedge fund investors, sovereign funds, healthcare operators, lenders, developers, and other institutional investors, some of whom may have greater resources and lower costs of capital than we do. Increased competition and resulting capitalization rate compression make it more challenging for us to identify and successfully capitalize on opportunities that meet our business goals and could improve the bargaining power of property owners seeking to sell, thereby impeding our investment, acquisition, and development activities. Similarly, our properties face competition for tenants and operators from other properties in the same market, which may affect our ability to attract and retain tenants and operators, or may reduce the rents we are able to charge. The failure to capitalize on our development pipeline, identify and purchase a sufficient quantity of healthcare properties at favorable prices, finance acquisitions on commercially favorable terms, or attract and retain profitable tenants could have a material adverse effect on our business, results of operations, and financial condition. We may be unable to successfully exercise rights on the collateral securing our real estate-related loans and, even if we are successful in exercising those rights, we may be unable to successfully operate, occupy, or reposition the underlying real estate. If a borrower defaults under one of our real estate related loans, we may look to exercise our rights under the loan, including acquiring title to the collateral via deed in lieu of foreclosure, foreclosure, statutory or judicial foreclosure, or commencing collection litigation. In some cases, because our collateral consists of the equity interests in an entity that directly or indirectly owns the applicable real property or interests in other operating properties, we may not have full recourse with respect to assets of that entity, or that entity may have incurred unexpected liabilities, either of which would preclude us from fully recovering our investment. Borrowers and guarantors may contest enforcement of foreclosure or other remedies, seek bankruptcy protection against our exercise of enforcement or other remedies, and/or bring claims for lender liability in response to actions to enforce borrower obligations. Because many of the properties securing our mortgage loans are licensed senior housing health care facilities, we would also need to navigate and comply with various healthcare regulatory matters in a variety of states in connection with any foreclosure effort. Enforcement or collections-related costs, high loan-to-value ratios, healthcare regulatory issues or consents, or declines in the value of the property, may prevent us from realizing an amount equal to our loan balance upon enforcement or conclusion of litigation, and we may be required to record a valuation allowance for such losses. Even if we are able to successfully exercise our rights on the collateral securing our real estate-related loans, we may acquire properties for which we may be unable to expeditiously secure tenants or operators, if at all, or that are burdened with healthcare regulatory compliance issues that need to be addressed, or we may acquire equity interests that we are unable to immediately resell or otherwise liquidate due to limitations under the securities laws, either of which would adversely affect our ability to fully recover our investment. We may also determine that substantial improvements or repairs to the property are necessary in order to maximize the property's investment potential. Alternatively, we may determine to sell a distressed loan for less than full value, in which event we may incur a loss on the investment.

21 Table of Contents We may be required to recognize reserves, allowances, credit losses, or impairment charges. Declines in the value of our properties or other assets or loan collateral, financial deterioration of our tenants, borrowers, or other obligors, or other factors may result in the recognition of reserves, allowances, credit losses, or impairment charges. Our determination of such reserves, allowances, or credit losses relies on estimates regarding the fair value of any loan collateral, which is a complex and subjective process. In addition, we evaluate our assets for impairments based on various triggers, including market conditions, our current intentions with respect to holding or disposing of the assets and the expected future undiscounted cash flows from the assets. Impairments, reserves, allowances, and credit losses are based on estimates and assumptions that are inherently uncertain, may increase or decrease in the future, and may not represent or reflect the ultimate value of, or loss that we ultimately realize with respect to, the relevant assets. Any such impairment, reserve, allowance, or credit loss, or any change in any of the foregoing, could have an adverse impact on our results of operations and financial condition. We may invest substantial resources and time in transactions that are not consummated. We regularly review potential transactions in order to maximize stockholder value. Our review process may require significant management attention, and a potential transaction could be abandoned or rejected by us or the other parties involved after we expend significant resources and time. We may not be able to successfully integrate or operate acquisitions and/or internalize property management, or may incur unanticipated liabilities. Successful integration of acquired companies and/or internalization of the property management function, as applicable, depends primarily on our ability to consolidate operations, systems, procedures, properties, and personnel, and to eliminate redundancies and reduce costs. We may encounter difficulties in these integrations and property management internalizations. Potential difficulties associated with acquisitions and property management internalizations include: (i) our ability to effectively monitor and manage our expanded portfolio of properties; (ii) the loss of key employees; (iii) the disruption of our ongoing business or that of the acquired entity; (iv) possible inconsistencies in standards, controls, procedures, and policies; and (v) the assumption of unexpected liabilities and claims, including:- liabilities relating to the cleanup or remediation of undisclosed environmental conditions;
- unasserted claims of vendors, residents, patients, or other persons dealing with the seller;
- liabilities, claims, and litigation, whether or not incurred in the ordinary course of business, relating to periods prior to the acquisition;
- claims for indemnification by general partners, directors, officers, and others indemnified by the seller;
- claims for return of government reimbursement payments; and
- liabilities for taxes relating to periods prior to the acquisition. In addition, acquired companies and their properties may fail to perform as expected, including with respect to estimated cost savings. Inaccurate assumptions regarding future rental or occupancy rates could result in overly optimistic estimates of future revenues. Similarly, we may underestimate future operating expenses or the costs necessary to bring properties up to standards established for their intended use or for property improvements. If we have difficulties with any of these areas, or if we later discover additional liabilities or experience unforeseen costs relating to our acquired companies or property management internalization, we may not achieve the anticipated economic benefits from our acquisitions or property management internalization, and this may have a material adverse effect on our business, results of operations, and financial condition. For additional information on risks related to integration following the Merger, see "Risks Relating to Integration following our Merger with Physicians Realty Trust" below.

22 Table of Contents We may be affected by unfavorable resolution of litigation or disputes and rising liability and insurance costs as a result thereof or other market factors. Our tenants, operators, property managers, employees, and borrowers are from time to time parties to litigation, including, for example, disputes regarding the quality of care at healthcare properties or the operations of the properties. The effect of litigation may materially increase the costs incurred by our tenants, operators, property managers, and borrowers, including costs to monitor and report quality of care compliance. In addition, the cost of professional liability, medical malpractice, property, business interruption, general liability, and insurance policies can be significant and may increase or not be available at a reasonable cost or at all. Cost increases could cause our tenants and borrowers to be unable to make their lease or mortgage payments or fail to purchase the appropriate liability and malpractice insurance, or cause our borrowers to be unable to meet their obligations to us, potentially decreasing our revenues and increasing our collection and litigation costs. Cost increases could also lead our operators and property managers to increase the fees they charge, which could have a material adverse effect on our business, results of operations, and financial condition. Furthermore, with respect to our CCRC properties and the properties in our SWF SH JV, all of which are operated in RIDEA structures, we generally directly bear the costs of any such increases in litigation, monitoring, reporting, and insurance due to our direct exposure to the cash flows of such properties. We are responsible for these claims, litigation, and liabilities, with limited indemnification rights against our operators, which are typically based on the gross negligence or willful misconduct by the operator. Although our leases provide us with certain information rights with respect to our tenants, one or more of our tenants may be or become party to pending litigation or investigation of which we are unaware or in which we do not have a right to participate or evaluate. In such cases, we would be unable to determine the potential impact of such litigation or investigation on our tenants or our business or results. Moreover, negative publicity of any of our operators', property managers', or tenants' litigation, other legal proceedings or investigations may also negatively impact their and our reputation, resulting in lower customer demand and revenues, which could have a material adverse effect on our financial condition, results of operations, and cash flows. We may also be named as defendants in lawsuits arising out of our alleged actions or the alleged actions of our tenants, operators, or property managers for which such tenants, operators, or property managers may have agreed to indemnify us. Unfavorable resolution of any such litigation, including an outsized jury verdict, or negative publicity as a result of such litigation could have a material adverse effect on our business, results of operations, and financial condition. Regardless of the outcome, litigation or other legal proceedings may result in substantial costs, disruption of our normal business operations, and the diversion of management attention. We may be unable to prevail in, or achieve a favorable settlement of, any pending or future legal action against us. Even when a tenant or operator is obligated to indemnify us for liability incurred as a result of a lawsuit pursuant to the terms of its agreement with us, the tenant may fail to satisfy those obligations and, in such event, we would have to incur the costs that should have been covered by the tenant, operator, or property manager and to determine whether to expend additional resources to seek the contractually owed indemnity from that tenant, operator, or property

manager, including potentially through litigation or arbitration. In some instances, we may decide not to enforce our indemnification rights if we believe that enforcement of such rights would be more detrimental to our business than alternative approaches. Regardless, such an event would divert management attention and may result in a disruption to our normal business operations, any or all of which could have an adverse effect on our business, results of operations, and financial condition. Environmental compliance costs and liabilities associated with our real estate-related investments may be substantial and may materially impair the value of those investments. Federal, state and local laws, ordinances, and regulations may require us, as a current or previous owner of real estate, to investigate, monitor, and/or clean up certain hazardous or toxic substances released at a property. We may be held liable to a governmental entity or to third parties for injury or property damage and for investigation and cleanup costs incurred in connection with the contamination. The costs of cleanup and remediation could be substantial. In addition, some environmental laws create a lien on the contaminated site in favor of the government for damages and the costs it incurs in connection with the contamination, and/or impose fines and penalties on the property owner with respect to such contamination.

23Table of ContentsAlthough we currently carry environmental insurance on our properties in an amount that we believe is commercially reasonable and generally require our tenants and operators to indemnify us for environmental liabilities they cause, such liabilities could exceed the amount of our insurance, the financial ability of the tenant or operator to indemnify us, or the value of the contaminated property. As the owner of a site, we may also be held liable to third parties for damages and injuries resulting from environmental contamination emanating from the site. We may also experience environmental costs and liabilities arising from conditions not known to us or disrupted during development. The cost of defending against these claims, complying with environmental regulatory requirements, conducting remediation of any contaminated property, or paying personal injury or other claims or fines could be substantial and could have a material adverse effect on our business, results of operations, and financial condition. In addition, the presence of contamination or the failure to remediate contamination may materially adversely affect our ability to use, develop, sell, or lease the property or to borrow using the property as collateral. Corporate impact and sustainability commitments and requirements, as well as stakeholder expectations, may impose additional costs and expose us to new risks. Investors, tenants, business partners and other stakeholders, as well as regulators and other groups, are increasingly focusing on our corporate impact and sustainability commitments and performance. Some investors may use corporate impact factors to guide their investment strategies and, in some cases, may choose not to invest in us if our corporate impact commitment and performance do not satisfy their criteria. Similarly, some business partners or tenants may use corporate impact factors to guide their business decisions and choose not to do business with us if they believe our corporate impact or sustainability policies are inadequate. Third-party providers of corporate impact ratings have increased in number, resulting in varied and, in some cases, inconsistent standards. In addition, the criteria by which companies’ corporate impact and sustainability practices are assessed are evolving, which could result in greater expectations for us to undertake costly initiatives to satisfy such new criteria. At the same time, diverging views on corporate impact may emerge from regulators and stakeholders, potentially resulting in increased scrutiny of our corporate impact practices and political or reputational risk. We have established corporate goals to reduce greenhouse gas emissions, energy, water and waste in our operations, and various regions in which we own properties are establishing building performance standards. Our reputation may be adversely affected if we do not meet our announced goals or these external standards. In addition, metrics and quantitative data we disclose related to our corporate impact and sustainability commitments are based on and verified in accordance with standards that are different from U.S. generally accepted accounting principles. Such data and metrics may be subject to measurement uncertainties resulting from limitations inherent in the nature and the methods used for determining such data. The selection of different but acceptable measurement techniques can result in materially different measurements. If we fail to satisfy the expectations of investors, tenants, business partners or other stakeholders, or our announced goals and other initiatives are not executed as planned or there are changes in the measurement techniques (including any changes in estimates or assumptions underlying the measurements) or in the standards referenced for the measurement of data, our reputation and financial results could be adversely affected, and our revenues, results of operations and ability to grow our business may be negatively impacted. In addition, we may incur significant costs in attempting to comply with corporate impact policies or third-party expectations or demands.

In addition, changes in federal, state, and local legislation and regulation relating to climate change, net zero or carbon neutrality requirements, and building and energy performance standards could require (i) increased capital expenditures to improve the energy efficiency or resiliency of our existing properties and increase the costs of new developments and (ii) increased compliance costs for us and our tenants, in each case without a corresponding increase in revenue. In addition, our reputation may be adversely affected if we do not meet stakeholder expectations to mitigate climate risk in a transition to a low-carbon economy. We may be impacted by epidemics, pandemics, or other infectious diseases, including Covid, and health and safety measures intended to reduce their spread. Epidemics, pandemics, or other infectious diseases, including future outbreaks of Covid and its variants, as well as both future widespread and localized outbreaks of infectious diseases and other health concerns, and the health and safety measures taken to reduce the spread or lessen the impact, could cause a material disruption to our industry or deteriorate the economy as a whole. The impacts of such events could be severe and far-reaching, and may impact our operations in several ways, including: (i) tenants could experience deteriorating financial condition and be unable or unwilling to pay rent on time and in full; (ii) we may have to restructure tenants’ obligations and may not be able to do so on terms that are favorable to us; (iii) inquiries and tours at our properties could decrease; (iv) move-ins, new tenanting efforts, and re-letting efforts could slow or stop altogether; (v) move-outs and potential early termination of leases thereunder could increase; (vi) operating expenses, including the costs of certain essential services or supplies, including payments to third-party contractors, service providers, and employees essential to ensure continuity in our building operations, may increase; (vii) procedures normally conducted on our properties may be disrupted, adversely affecting the economic viability of our tenants; and (viii) costs of development, including expenditures for materials utilized in construction and labor essential to complete existing developments in progress, may increase substantially.

24Table of ContentsHuman capital risks, including the loss or limited availability of our key personnel, could disrupt or impair our operations. We face elevated labor costs and increased competition for talent. Insufficient employee development, inadequate succession planning or an inability to successfully maintain a hybrid work model could negatively impact our business and operations. We also depend on the efforts of our executive officers for the success of our business. Although they are covered by our Executive Severance Plan and Executive Change in Control Severance Plan, which provide many of the benefits typically found in executive employment agreements, none of our executive officers have employment agreements with us. The loss or limited availability of the services of any of our executive officers, or our inability to recruit and retain qualified personnel, could, at least temporarily, disrupt, or impair our operations. We rely on information technology in our operations, and any material failure, inadequacy, interruption, or security failure of that technology could harm our business. We rely on information technology networks, enterprise applications, and other information systems to process, transmit, and store electronic information, and to manage or support a variety of business processes, including financial transactions and records, to maintain personal identifying information and tenant and lease data, and to operate building management systems. We utilize software and cloud-based technology from third-party service providers, on whom our information systems depend. We rely on commercially available systems, software, tools, and monitoring to provide security for the processing, transmission, and storage of confidential employee, tenant and customer data, including individually identifiable information relating to financial accounts, as well as building access, security, and operations. Although we have taken steps to protect the security of our information systems, with multiple layers of controls around the data maintained in those systems, it is possible that our safety and security measures will not prevent the systems’ improper functioning or damage, or the improper access of systems or disclosure of personally identifiable information such as in the event of cyber-attacks or other cybersecurity incidents. Our third-party service providers may also experience unexpected power losses, computer system failures, or data network disruptions, negatively impacting the systems or solutions we depend on. If our third-party providers face a security incident or other interruptions, or if there is a flaw or failed software update in the third-party software used in our systems, our information systems may become disabled or inaccessible. This could limit access to our data and business information, potentially causing significant disruptions to our operations. Furthermore, because our operators as well as other third-party service providers with whom we and they do business (including vendors, software creators and cloud solution and cybersecurity providers) also rely on the Internet, information technology networks, enterprise applications, systems, and software, some of our data may be vulnerable to cybersecurity incidents or cybersecurity threats involving our operators and third parties with whom we or they do business. We do not control the cybersecurity systems and protocols put in place by our operators or other third parties, and such parties may have limited indemnification obligations to us, which could cause us to be negatively impacted as a result. Cybersecurity incidents and cybersecurity threats affecting our or our operators’ or other third party providers’ information systems, including those caused by physical or electronic break-ins, computer viruses, malware, worms, attacks by hackers or foreign governments, ransomware attacks, disruptions from unauthorized access and tampering, including through social engineering such as phishing or vishing attacks, coordinated denial-of-service attacks, and similar breaches, could result in, among other things: (i) system disruptions; (ii) shutdowns; (iii) unauthorized access to or disclosure of confidential information, including as a result of impersonation of authorized users or manipulated communications; (iv) misappropriation of our or our business partners’ proprietary or confidential information; (v) breach of our legal, regulatory, or contractual obligations; (vi) inability to access or rely upon critical business records or systems; or (vii) other delays in our operations. In some cases, it may be difficult to anticipate or immediately detect such cybersecurity threats and cybersecurity incidents and the damage they cause. The risk of cybersecurity incidents and cybersecurity threats has generally increased as the number, intensity, and sophistication of attacks and intrusions affecting companies generally have increased, and we have seen a significant increase in cyber phishing attacks. The risk of security breaches has also increased under our hybrid work model. We may be required to expend significant financial resources to detect, protect against or remediate such cybersecurity incidents or cybersecurity threats. In addition, our technology infrastructure and information systems are vulnerable to damage or interruption from natural disasters, power loss, and telecommunications failures. Any failure to adequately train employees or to maintain proper function, security, and availability of our and our operators’ information systems and the data maintained in those systems could interrupt our operations, damage our reputation, subject us to liability claims or regulatory penalties, harm our business relationships, or increase our security and insurance costs, which could have a material adverse effect on our business, financial condition, and results of operations.

25Table of ContentsOur tenants and borrowers may also from time to time experience cybersecurity incidents or cybersecurity threats that compromise, damage or disrupt their information systems or result in the loss or misuse of confidential information, intellectual property or sensitive or personal information. Any resulting financial impact to our tenants or borrowers, including liability claims or regulatory penalties, increased security and insurance costs as well as business impacts resulting from any damage to their reputation or harm to their business relationships, could negatively impact the ability of our tenants and borrowers to meet their financial and other contractual obligations to us, which could have a material adverse effect on our business, financial condition and results of operations. The use of, or inability to use, artificial intelligence by us, our tenants, our vendors, and our investors presents risks and challenges that may adversely impact our business and operating results or the business and operating results of our tenants and vendors or may adversely impact the requirements and demand for properties. We may use generative artificial intelligence and/or machine learning (collectively, “AI”) tools in our operations. If our peers use AI tools to optimize operations and we fail to utilize AI tools in a comparable manner, we may be competitively disadvantaged. However, while AI tools may facilitate optimization and operational efficiencies, they also have the potential for inaccuracy, bias, infringement or misappropriation of intellectual property, and risks related to data privacy and cybersecurity. The use of AI tools may introduce errors or inadequacies that are not easily detectable, including deficiencies, inaccuracies, or biases in the data used for AI training, or in the content, analyses, or recommendations generated by AI applications. The results of such errors or inadequacies may adversely affect our business, financial condition, and results of operations. The legal requirements relating to AI continue to evolve and remain uncertain, including how legal developments could impact our business and ability to enforce our proprietary rights or protect against infringement of those rights. Cybersecurity threat actors may utilize AI tools to automate and enhance cybersecurity attacks against us. We utilize software and platforms designed to detect such cybersecurity threats, including AI-based tools, but these threats could become more sophisticated and harder to detect and counteract, which may pose significant risks to our data security and systems. Such cybersecurity attacks, if successful, could lead to data breaches, loss of confidential or sensitive information, and financial or reputational harm. The integration of AI tools in the healthcare industry may present significant opportunities and risks, including for our tenants. For example, in the life science industry, AI predictive models have the potential to be utilized broadly across various stages of drug development. Physicians in our outpatient medical portfolio may use AI tools to run comprehensive diagnostic tests. However, the adoption of AI tools also introduces a complex risk landscape for our tenants, similar to those risks described above. Moreover, the adoption of AI tools by our tenants may lead to infrastructure requirements that our buildings currently do not accommodate, such as increased power needs for high-performance computing. Infrastructure upgrades may require significant capital expenditures and could potentially impact the environmental footprint of our building operations. Our vendors may use AI tools in their products or services without our knowledge, and the providers of these tools may not meet the evolving regulatory or industry standards for privacy and data protection. Consequently, this may inhibit our or our vendors’ ability to uphold an appropriate level of service and data privacy. If we, our vendors, or other third parties with which we conduct business experience an actual or perceived breach of privacy or security incident due to the use of AI, we may be adversely impacted, lose valuable intellectual property or confidential information, and incur harm to our reputation and the public perception of the effectiveness of our security measures. In addition, investors, analysts, and other market participants may use AI tools to process, summarize or interpret our financial information or other data about us. The use of AI tools in financial and market analysis may introduce risks similar to those described above, including an inaccurate interpretation of our financial or operational performance or market trends or conditions, which in turn could result in inaccurate conclusions or investment recommendations.

26Table of ContentsRisks Related to Our Capital Structure and Market ConditionsVolatility, disruption, or uncertainty in the financial markets may impair our ability to raise capital, obtain new financing or refinance existing obligations, and fund acquisition and development activities. Increased or prolonged market disruption, volatility, or uncertainty could have a material adverse effect on our ability to raise capital, obtain new financing or refinance our existing obligations as they mature, and fund acquisition and development activities. Our lenders and other financial institutions could also require us to agree to more restrictive covenants, grant liens on our assets as collateral, and/or accept other terms that are not commercially beneficial to us in order to obtain financing. One or more of our lenders under our credit facility could refuse or fail to fund their financing commitment to us as a result of lender liquidity and/or viability challenges, which financing commitments we may not be able to replace on favorable terms, or at all. In addition, the failure of a bank, or events involving limited liquidity, defaults, non-performance or other adverse conditions in the financial or credit markets impacting financial institutions at which we maintain balances, or concerns or rumors about such events, could lead to disruptions in access to our bank deposits, our inability to access our bank deposits in excess of the Federal Deposit Insurance Corporation (FDIC) limits, or otherwise adversely impact our liquidity and financial performance, and our tenants, operators, and borrowers could be similarly adversely affected. Market volatility could also lead to significant uncertainty in the valuation of our investments and those of our joint ventures, which may result in a substantial decrease in the value of our properties and those of our joint ventures. As a result, we may be unable to recover the carrying amount of such investments and the associated goodwill, if any, which may require us to recognize impairment charges in earnings. Increased borrowing costs could materially adversely impact our ability to refinance existing debt, sell properties, and conduct investment activities. We currently have and may incur additional debt obligations that have variable interest rates and related payments that vary with the movement of certain indices. During inflationary periods, interest rates have historically increased. For example, actions taken by the FOMC in response to recent inflationary conditions led to rising interest rates, which may continue to remain at elevated levels for the foreseeable future. Elevated interest rates result in increased interest costs for our variable rate debt and our new debt, which adversely affects our cost of capital and makes the financing of any acquisition and development activity more costly. In addition, elevated interest rates have lowered, and could continue to lower, the amount third parties are willing to pay for our properties, thereby negatively impacting our ability to reposition our portfolio promptly in response to changes in economic or other conditions. Higher borrowing costs could limit our ability to refinance existing debt when it matures, or cause us to pay higher interest rates upon refinancing and increased interest expense on refinanced indebtedness. We manage a portion of our exposure to interest rate risk by accessing debt with staggered maturities and through the use of derivative instruments, primarily interest rate cap and swap agreements. These agreements involve risk, including that counterparties may fail to honor their obligations under these arrangements, that these arrangements may not be effective in reducing our exposure to interest rate changes, that the amount of income we earn from hedging transactions may be limited by federal tax provisions governing REITs, and that these arrangements may cause us to incur higher debt service costs than would otherwise be the case. Failure to hedge effectively against interest rate risk could adversely affect our results of operations and financial

condition. Additionally, higher borrowing costs and attendant negative impacts on our business can reduce the amount investors are willing to pay for our common stock. Because REIT stocks are often perceived as high-yield investments, investors may perceive less relative benefit to owning REIT stocks as borrowing costs increase. Cash available for distribution to stockholders may be insufficient to make dividend distributions at expected levels and are made at the discretion of our Board of Directors. Decreases in cash available for distributions may result in us being unable to make dividend distributions at expected levels. Our failure to make distributions commensurate with market expectations would likely result in a decrease in the market price of our common stock. Further, all distributions are made at the discretion of our Board of Directors in accordance with Maryland law and depend on: (i) our earnings; (ii) our financial condition; (iii) debt and equity capital available to us; (iv) our expectations for future capital requirements and operating performance; (v) covenants in our financial or other contractual arrangements, including those in our credit facility agreement; (vi) maintenance of our REIT qualification; and (vii) other factors as our Board of Directors may deem relevant from time to time.

Table of Contents

§ 1. Access to external capital is unavailable on acceptable terms or at all, it could have a material adverse effect on our ability to meet commitments as they become due or make investments necessary to grow our business. We periodically rely on external sources of capital (including debt and equity financing) to fulfill our capital requirements. The availability of external capital sources is affected by several factors, some of which we have little or no control over, including: § 2. general availability of capital, including our ability to raise capital on acceptable terms, higher interest rates, and increased borrowing costs; § 3. the market price of the shares of our equity securities and the credit ratings of our debt and any preferred securities we may issue; § 4. the market's perception of our growth potential and our current and potential future earnings and cash distributions; § 5. our degree of financial leverage and operational flexibility; § 6. the financial integrity of our lenders, which might impair their ability to meet their commitments to us or their willingness to make additional loans to us, and our inability to replace the financing commitment of any such lender on favorable terms, or at all; § 7. bank failures or other events affecting financial institutions, which could adversely affect our or our tenants' liquidity and financial performance; § 8. the stability of the market value of our properties; § 9. the financial performance and general market perception of our tenants and operators; § 10. changes in the credit ratings on U.S. government debt securities or default or delay in payment by the U.S. of its obligations; § 11. issues facing the healthcare industry, including healthcare reform and changes in government reimbursement policies; and § 12. the performance of the national and global economies generally, including any economic downturn and volatility in the financial markets.

If access to capital is unavailable on acceptable terms or at all, it could have a material adverse impact on our ability to fund operations, repay or refinance our debt obligations, fund dividend payments, acquire properties, and make the investments in development and redevelopment activities, as well as capital expenditures, needed to grow our business. Our level of indebtedness may increase and materially adversely affect our future operations. Our outstanding indebtedness as of December 31, 2024 was approximately \$8.7A billion. We may incur additional indebtedness, which may be substantial. Any significant additional indebtedness would likely negatively affect the credit ratings of our debt and require us to dedicate a growing portion of our cash flow to interest and principal payments. Greater demands on our cash resources may reduce funds available to us to pay dividends, conduct development activities, make capital expenditures and acquisitions, or carry out other aspects of our business strategy. Increased indebtedness can also make us more vulnerable to general adverse economic and industry conditions and create competitive disadvantages for us compared to other companies with comparatively lower debt levels. Increased future debt service obligations may limit our operational flexibility, including our ability to finance or refinance our properties, contribute properties to joint ventures, or sell properties as needed. In addition, any changes to benchmark rates, or uncertainty as to the nature of such potential changes, may increase the cost of our variable rate debt or cost of funds, adversely affect the trading market for our securities, have an unpredictable impact on the financial markets or otherwise affect our financial condition and results of operations. Covenants in our debt instruments limit our operational flexibility, and breaches of these covenants could result in adverse actions by our creditors. The terms of our current secured and unsecured debt instruments require us to comply with a number of customary financial and other covenants, such as maintaining leverage ratios, minimum tangible net worth requirements, REIT status, and certain levels of debt service coverage. Our ability to incur additional debt and to conduct business in general is subject to compliance with these covenants, which limits our operational flexibility. For example, mortgages on our properties contain customary covenants such as those that limit or restrict our ability, without the consent of the lender, to further encumber or sell the applicable properties, or to replace the applicable tenant or operator. Breaches of certain covenants may result in defaults under the mortgages on our properties and cross-defaults under certain of our other indebtedness, even if we satisfy our payment obligations to the respective obligee. Covenants that limit our operational flexibility, as well as defaults resulting from the breach of any of these covenants, could have a material adverse effect on our business, results of operations, and financial condition.

Table of Contents

The market price and trading volume of our common stock may be volatile. The market price of our common stock has been, and may in the future be, highly volatile and subject to wide fluctuations. In addition, the trading volume in our common stock may fluctuate and cause significant price variations to occur. The stock market has experienced extreme price and volume fluctuations that have affected the market price of many companies in industries similar or related to ours and that have been unrelated to these companies' operating performances. If the market price of our common stock declines significantly, you may be unable to resell your shares at a gain. We cannot assure you that the market price of our common stock will not fluctuate or decline significantly in the future. Some of the factors that could negatively affect our share price or result in fluctuations in the price or trading volume of our common stock include: § 1. actual or anticipated variations in our quarterly operating results, guidance, or distributions; § 2. changes in market valuations of similar companies; § 3. adverse market reaction to any increased indebtedness we may incur in the future; § 4. issuance of additional equity securities; § 5. actions by institutional stockholders; § 6. the publication of research reports and articles (or false or misleading information) about us, our tenants, the real estate industry, or the industries in which our tenants operate; § 7. speculation in the press or investment research community and investor sentiment regarding commercial real estate generally, our industry sectors or other real estate sectors, the industries in which our tenants operate, and the regions in which our properties are located; § 8. short selling of our common stock or related derivative securities; and § 9. general market and economic conditions. Adverse changes in our credit ratings could impair our ability to obtain additional debt and equity financing on favorable terms. Our credit ratings affect the amount and type of capital, as well as the terms of any financing we may obtain. The credit ratings of our senior unsecured debt are based on, among other things, our operating performance, liquidity and leverage ratios, geographic and tenant concentration, and pending or future changes in the regulatory framework applicable to our operators and our industry. If we are unable to maintain our current credit ratings, we would likely incur higher borrowing costs, which would make it more difficult or expensive to obtain additional financing or refinance existing obligations and commitments. An adverse change in our outlook may ultimately lead to a downgrade in our credit ratings, which would trigger additional borrowing costs or other potentially negative consequences under our current credit facilities and debt instruments. Also, if our credit ratings are downgraded, or general market conditions were to ascribe higher risk to our ratings, our industry, or us, our access to capital and the cost of any future debt financing will be further negatively impacted. In addition, the terms of future debt agreements could include more restrictive covenants, or require incremental collateral, which may further restrict our business operations or be unavailable due to our covenant restrictions then in effect. There is no guarantee that debt or equity financings will be available in the future to fund future acquisitions, developments, or general operating expenses, or that such financing will be available on terms consistent with our historical agreements or expectations.

Table of Contents

Risks

Tenants, operators, and borrowers that fail to comply with federal, state, local, and international laws and regulations, including resident health and safety requirements, as well as licensure, certification, and inspection requirements, may cease to operate or be unable to meet their financial and other contractual obligations to us. Our tenants, operators, and borrowers across our segments are subject to or impacted by extensive, frequently changing federal, state, and local laws and regulations. See § 1. Business's Government Regulation, Licensing and Enforcement. Healthcare Licensure and Certificate of Need for a discussion of certain of these laws and regulations. Unannounced surveys, inspections, or audits occur frequently, including following a regulator's receipt of a complaint about a facility, and these surveys, inspections, and audits can result in deficiencies and further adverse action. Our tenants', operators', or borrowers' failure to comply with any of the laws, regulations, or requirements applicable to them could result in: (i) loss of accreditation; (ii) denial of reimbursement; (iii) imposition of fines and civil monetary penalties; (iv) suspension or decertification from government healthcare programs; (v) civil liability; and (vi) in certain instances, suspension, or denial of admissions, criminal penalties, loss of license, or closure of the property and/or the incurrence of considerable costs arising from an investigation or regulatory action, which may have an adverse effect on properties that we own and lease to a third party tenant in our outpatient medical and lab segments, that we own and operate through a RIDEA structure in our CCRC segment or our SWF SH JV, or on which we hold a mortgage, and therefore may materially adversely impact us. Furthermore, we are required under RIDEA to rely on our operators to oversee and direct these aspects of the properties' operations to ensure compliance with applicable laws and regulations. If one or more of our healthcare properties fails to comply with applicable laws and regulations, our TRS would be responsible (except in limited circumstances, such as the gross negligence or willful misconduct of our operators, where we would have a contractual claim against them), which could subject our TRS to penalties including loss or suspension of licenses, certification or accreditation, exclusion from government healthcare programs (i.e., Medicare, Medicaid), administrative sanctions, and civil monetary penalties. Some states also reserve the right to sanction affiliates of a licensee when they take administrative action against the licensee, and require a licensee to report all healthcare-related administrative actions that have been brought against any of the licensee's affiliates, even in other states. Additionally, when we receive individually identifiable health information relating to residents of our healthcare properties, we are subject to federal and state data privacy and security laws and rules, and could be subject to liability in the event of an audit, complaint, cybersecurity incident, or data breach. Furthermore, our TRS has exposure to professional liability claims that could arise out of resident claims, such as quality of care, and the associated litigation costs. Required regulatory approvals can delay or prohibit transfers of our senior housing properties. Transfers of senior housing properties, including in connection with the foreclosure of a real-estate secured loan, to successor owners or operators are typically subject to regulatory approvals or ratifications, including change of ownership approvals for licensure and Medicare / Medicaid (if applicable) that are not required for transfers of other types of commercial operations and other types of real estate. Federal and state authorities have become increasingly focused on the review and potential regulation of healthcare transactions for impacts on costs, access to care, and quality, which could involve lengthy review and approval periods, enhanced disclosure obligations, impact analysis, public notices, and hearings. Such regulation could adversely impact the time and cost of completing transactions and, in certain circumstances, affect the feasibility of pursuing or completing such transactions. The sale of, or replacement of any operator at, our senior housing facilities, or the foreclosure of a loan secured by senior housing real estate, could be delayed by the regulatory approval process of any federal, state, or local government agency necessary for the transfer of the property or the replacement of the operator licensed to manage the property, during which time the property may experience performance declines. We may also elect to use an interim licensing structure to facilitate such transfers, which structure expedites the transfer by allowing a third party to operate under our license until the required regulatory approvals are obtained, but could subject us to fines or penalties if the third party fails to comply with applicable laws and regulations and fails to indemnify us for such fines or penalties pursuant to the terms of its agreement with us. Compliance with the Americans with Disabilities Act and fire, safety, and other regulations may require us to make expenditures that adversely affect our cash flows. Our properties must comply with applicable ADA and any similar state and local laws. These laws may require removal of barriers to access by persons with disabilities in public areas of our properties. Noncompliance could result in the incurrence of additional costs associated with bringing the properties into compliance, the imposition of fines or an award of damages to private litigants in individual lawsuits or as part of a class action. We could also be required to expend funds to comply with the provisions of the ADA and similar state and local laws on behalf of tenants, which could adversely affect our results of operations and financial condition.

Table of Contents

In addition, we are required to operate our properties in compliance with fire and safety regulations, building codes and other land use regulations. New and revised regulations and codes may be adopted by governmental agencies and bodies and become applicable to our properties. For example, new safety laws for senior housing properties were adopted following the particularly damaging 2018 hurricane season. Compliance could require substantial capital expenditures, both for significant upgrades and for tenant relocations that may be necessary depending on the scope and duration of upgrades, and may restrict our ability to renovate our properties. These expenditures and restrictions could have a material adverse effect on our financial condition and cash flows. Laws or regulations prohibiting eviction of our tenants, even on a temporary basis, could have a material adverse effect on our revenues if our tenants fail to make their contractual rent payments to us. Various federal, state, and local governments previously enacted, and may again enact, laws, regulations, and moratoriums or take other actions that could limit our ability to evict tenants until such laws, regulations, or moratoriums are reversed or lifted. In particular, several state and local governments implemented eviction moratoriums as a result of the Covid pandemic that applied to both residential and commercial tenants. Although these moratoriums have generally terminated or expired, federal, state, and local governments could enact moratoriums under similar circumstances in the future. While we generally have arrangements and other agreements that give us the right under specified circumstances to terminate a lease or evict a tenant for nonpayment of contractual rent, such laws, regulations, and moratoriums may restrict our ability to begin eviction proceedings even where no rent or only partial rent is being paid. Further, under current laws and regulations, eviction proceedings for delinquent tenants are already costly and time-consuming, and, if there are existing backlogs or backlogs develop in courts due to higher than normal eviction proceedings, we may incur significant costs and it may take a significant amount of time to ultimately evict any tenant who is not meeting their contractual rent obligations. If we are restricted, delayed, or prohibited from evicting tenants for failing to make contractual rent payments, it may have a material adverse effect on our business, results of operations, and financial condition. The requirements of, or changes to, governmental reimbursement programs such as Medicare or Medicaid may adversely affect our tenants', operators', and borrowers' ability to meet their financial and other contractual obligations to us. Certain of our tenants, operators, and borrowers, as well as our owned assets in the CCRC segment and SWF SH JV, are affected, directly or indirectly, by a complex set of federal, state, and local laws and regulations pertaining to governmental reimbursement programs. These laws and regulations are subject to frequent and substantial changes that are sometimes applied retroactively. See § 1. Business's Government Regulation, Licensing and Enforcement. For example, to the extent that our tenants, operators, or borrowers, or assets owned in our CCRC segment or through the SWF SH JV, receive a significant portion of their revenues from governmental payors, primarily Medicare and Medicaid, they are generally subject to, among other things: § 1. statutory and regulatory changes, including changes that impact state reimbursement programs, particularly Medicaid reimbursement and managed care payments; § 2. minimum staffing levels and other staffing and quality requirements; § 3. retroactive rate adjustments and recoupment efforts; § 4. recovery of program overpayments or set-offs; § 5. federal, state, and local litigation and enforcement actions, including those relating to Covid and the failure to satisfy the terms and conditions of financial relief; § 6. administrative proceedings; § 7. policy interpretations; § 8. payment or other delays by fiscal intermediaries or carriers; § 9. government funding restrictions (at a program level or with respect to specific properties); § 10. reduced reimbursement rates under managed care contracts; § 11. changes in reimbursement rates, methods, or timing under governmental reimbursement programs, including changes that impact state reimbursement programs, particularly Medicaid reimbursement and managed care payments; § 12. pre- and post-payment reviews and audits by governmental authorities, which could result in recoupments, denials or delay of payments; § 13. interruption or delays in payments due to any ongoing governmental investigations and audits at such properties or due to a partial or total federal or state government shutdown for a prolonged period of time; and § 14. Table of Contents reputational harm of publicly disclosed enforcement actions, audits, or investigations related to billing and reimbursements. We are unable to predict future changes to or interpretations of, or the intensity of enforcement efforts with respect to, these laws and regulations, including those that pertain to the Medicare and Medicaid programs. The failure to comply with the extensive laws, regulations, and other requirements applicable to their business and the operation of our properties could result in, among other challenges: (i) becoming ineligible to receive reimbursement from governmental reimbursement programs or being compelled to repay amounts received, including under the CARES Act; (ii) becoming subject to prepayment reviews or claims for overpayments; (iii) bans on admissions of new patients or residents; (iv) civil or criminal penalties; and (v) significant operational changes, including requirements to increase staffing or the scope of care given to residents. These laws and regulations are enforced by a variety of federal, state, and local agencies and can also be enforced by private litigants through, among other things, federal and state false claims acts, which allow private litigants to bring qui tam or whistleblower actions. Any changes in the regulatory framework or the intensity or extent of governmental or private enforcement actions could have a material adverse effect on our tenants, operators, borrowers, and/or assets. The status of the Patient Protection and Affordable Care Act, along with the Health Care and Education Reconciliation Act of 2010 (collectively, the Affordable Care Act) and related regulations may be subject to change, and other health reform measures could be implemented as a result of political, legislative, regulatory, and

administrative developments and judicial proceedings, including those with far reaching implications and effecting fundamental changes in the healthcare system. Federal and state authorities may continue to implement new or modified reimbursement methodologies that may negatively impact health care property operations. There can be no assurance that adequate reimbursements will be available for services provided by our operators and tenants. Additionally, the patient driven payment model utilized by the Centers for Medicare and Medicaid Services to calculate reimbursement rates for patients in skilled nursing properties (which is among the unit types in our CCRCs) could result in decreases in payments to our operators and tenants or increase our operators' and tenants' costs. We cannot make any assessment as to the ultimate timing or the effect that any future changes may have on our tenants', operators', and borrowers' costs of doing business, or the cost of doing business for or the assets owned in our CCRC segment or through the SFW SH JV, and on the amount of reimbursement by government and other third-party payors. Any significant limits on the scope of services reimbursed, reductions in reimbursement rates and fees, or increases in provider or similar types of taxes, could materially adversely affect their ability to meet their financial and contractual obligations to us. We could be negatively impacted by legislation to address federal government operations and administrative decisions affecting the Centers for Medicare and Medicaid Services or other legislative or regulatory changes affecting REITs or the industries in which we operate. Congressional consideration of legislation pertaining to the federal debt ceiling, the Affordable Care Act, tax reform, and entitlement programs, including reimbursement rates for physicians, could have a material adverse effect on our tenants', operators', and borrowers' liquidity, financial condition, or results of operations. In particular, reduced funding for entitlement programs such as Medicare and Medicaid would result in increased costs and fees for programs such as Medicare Advantage Plans and additional reductions in reimbursements to providers. Amendments to the Affordable Care Act in whole or in part and decisions by the Centers for Medicare and Medicaid Services could impact the delivery of services and benefits under Medicare, Medicaid, or Medicare Advantage Plans and could affect our tenants and operators and the manner in which they are reimbursed by such programs. Any shutdown of the federal government that delays or disrupts payments or any other material adverse effect on payments to our tenants, operators, or borrowers could adversely affect their ability to satisfy their obligations to us and could have a material adverse effect on us. In addition, changes in federal, state, or local laws affecting the healthcare or life sciences industries, particularly that apply to REITs, or changes in the scope, interpretation, or enforcement of the related regulatory frameworks could adversely affect us or our tenants, operators, or borrowers. Our participation in the CARES Act Provider Relief Fund and other Covid-related stimulus and relief programs could subject us or our operators to disruptive government and financial audits, enforcement actions, and recovery activity. Under the CARES Act and subsequent Covid relief legislation, Congress allocated more than \$178 billion to eligible health care providers through the Public Health and Social Services Emergency Fund (the "Provider Relief Fund" or "PRRF"). The U.S. Department of Health and Human Services ("HHS") distributed PRRF awards through various general and targeted distributions. We and our senior housing operators (including operators of senior housing facilities that we have subsequently disposed of) received relief funds through several distributions. Table of Contents PRRF funds are intended to reimburse eligible providers for unreimbursed health care-related expenses and lost revenues attributable to Covid and must be used only to prevent, prepare for, or respond to Covid. PRRF funds received under certain targeted distributions are further limited to specific uses. Additionally, the PRRF program imposes certain distribution-specific eligibility criteria and requires recipients to comply with various terms and conditions. PRRF program terms and conditions include limitations and requirements governing use of PRRF funds, implementation of controls, retention of records, audit and reporting to governmental authorities, and other PRRF program requirements, the interpretation of which may change over time. Failure to comply with program requirements may result in payment recovery or other enforcement actions. We also may be subject to or incur costs related to PRRF compliance activities, as well as government oversight and enforcement, including post-payment recovery and recoupment and government investigations, audits, enforcement activity, and penalties. Our current and former operators may similarly be impacted. Differences in operators' PRRF policies and protocols may adversely impact availability of data and financial audits. Changes in federal, state, or local laws or regulations may limit our opportunities to participate in the ownership of, or investment in, healthcare real estate. Changes in federal, state, or local laws or regulations, including changes limiting REIT investment in the healthcare sector, reducing healthcare-related tax benefits for REITs, or requiring additional approvals for healthcare entities to transact with REITs, could have a material adverse effect on our ability to participate in the ownership of or invest in healthcare providers and healthcare real estate. Legislation potentially impacting REIT ownership and investment in the healthcare sector has recently been introduced or is under discussion at the federal and state level. Such legislation or similar laws or regulations, if enacted, could have a material adverse impact on our business. Risks Relating to Integration and Property Management Internalization Following the Merger We may be unable to fully integrate the operations of the Company and Physicians Realty Trust successfully and realize the anticipated synergies of the Merger and benefits of property management internalization or do so within the anticipated time frame. We have benefited from, and expect to continue to benefit from, the synergies from our Merger with Physicians Realty Trust as a result of (i) the elimination of duplicative costs associated with supporting an additional public company platform, (ii) internalization of the property management function, and (iii) leveraging state-of-the-art technology and systems. However, we continue to devote significant management attention and resources to integrating the operations of the Company and Physicians Realty Trust and internalizing the property management function. Potential difficulties we may encounter in the ongoing integration process include the following: the inability to successfully combine the operations of the Company and Physicians Realty Trust, including the integration of employees, customer records and maintaining cybersecurity protections, in a manner that permits us to achieve the cost savings anticipated from the Merger, which would result in the anticipated benefits of the Merger not being realized in the time frame currently anticipated or at all; the inability to dispose of assets or operations that we desire to dispose of; the complexities associated with managing the combined businesses out of different locations and integrating personnel from the two companies; the failure to retain key employees of either of the two companies; potential disruptions and performance shortfalls due to the failure to successfully internalize the property management function; potential unknown liabilities and unforeseen increased expenses, delays, or regulatory conditions associated with the Merger; and performance shortfalls as a result of the diversion of management's attention caused by integrating the companies' operations. For all these reasons, it is possible that the integration and property management internalization process could result in the distraction of management, the disruption of our ongoing business, or inconsistencies in our operations, services, standards, controls, procedures, and policies, any of which could adversely affect our ability to maintain relationships with tenants, property managers, and employees or to achieve the anticipated synergies and other benefits of the Merger, or could otherwise adversely affect our business and financial results. Table of Contents Risks Related to Tax, Including REIT-Related Risks, and Related to Our Jurisdiction of Incorporation and Our Structure as an UPREIT Loss of our tax status as a REIT would substantially reduce our available funds and would have materially adverse consequences for us and the value of our common stock. Qualification as a REIT involves the application of numerous highly technical and complex provisions of the Internal Revenue Code of 1986, as amended (the "Code"), for which there are limited judicial and administrative interpretations, as well as the determination of various factual matters and circumstances not entirely within our control. We intend to continue to operate in a manner that enables us to qualify as a REIT. However, our qualification and taxation as a REIT depend upon our ability to meet the various qualification tests imposed under the Code, through actual annual operating results, asset diversification, distribution levels, and diversity of stock ownership. For example, to qualify as a REIT, at least 95% of our gross income in any year must be derived from qualifying sources, and we must make distributions to our stockholders aggregating annually to at least 90% of our REIT taxable income, excluding net capital gains. Rents we receive from a TRS in a RIDEA structure are treated as qualifying rents from real property for REIT tax purposes only if (i) they are paid pursuant to a lease of a qualified healthcare property and (ii) the operator qualifies as an eligible independent contractor, as each term is defined in the Code. If either of these requirements is not satisfied, then the rents we receive from the TRS will not be qualifying rents and we may not satisfy the REIT gross income requirements. Furthermore, new legislation, regulations, administrative interpretations, or court decisions could change the tax laws or interpretations of the tax laws regarding qualification as a REIT, or the federal income tax consequences of that qualification, in a manner that is materially adverse to our stockholders. Accordingly, we cannot assure you that we have operated or will continue to operate in a manner so as to qualify or remain qualified as a REIT. If we lose our REIT status, we will face serious tax consequences that will substantially reduce the funds available to make payments of principal and interest on the debt securities we issue and to make distributions to stockholders. If we fail to qualify as a REIT, we will not be allowed a deduction for distributions to stockholders in computing our taxable income; we will be subject to corporate-level income tax on our taxable income at regular corporate rates; we will be subject to increased state and local income taxes; and unless we are entitled to relief under relevant statutory provisions, we will be disqualified from taxation as a REIT for the four taxable years following the year during which we fail to qualify as a REIT. As a result of all these factors, our failure to qualify as a REIT could also impair our ability to expand our business and raise capital and could materially adversely affect the value of our common stock. Our taxable REIT subsidiaries (TRSs) may be subject to corporate level tax. Certain of our subsidiaries have elected or will elect with us to be treated as TRSs. Other than some activities relating to lodging and health care facilities, a TRS may generally engage in any business, including the provision of customary or non-customary services to tenants of its parent REIT that the parent REIT could not provide directly. TRSs are taxed as regular C corporations, and are thus generally required to pay regular corporate income tax, and potentially the alternative minimum tax, on their earnings. Any taxes paid by our TRSs will reduce the amounts that our TRSs could otherwise distribute to us. Furthermore, new legislation, regulations, administrative interpretations, or court decisions could change the tax laws or interpretations of the tax laws regarding our ability to continue to use one or more TRSs or other structures or arrangements in such a manner that could be materially adverse to us. The tax imposed on any net income from prohibited transactions may limit our ability to engage in transactions which would be treated as sales for federal income tax purposes. We will be required to pay a 100% tax on any net income from prohibited transactions. Prohibited transactions are, in general, sales or other taxable dispositions of property, other than foreclosure property, held as inventory or primarily for sale to customers in the ordinary course of business. A sale will not be considered a prohibited transaction, however, if it meets certain safe harbor requirements. Although we do not intend to hold any properties that would be characterized as held for sale to customers in the ordinary course of our business (other than through a TRS), such characterization is a factual determination and no guarantee can be given that the U.S. Internal Revenue Service (the "IRS") would agree with our characterization of our properties or that we will always be able to take advantage of available safe harbors. Table of Contents Further changes to U.S. federal income tax laws could materially and adversely affect us and our stockholders. The present federal income tax treatment of REITs and various transactional structures that we utilize may be modified, possibly with retroactive effect, by legislative, judicial, or administrative action at any time, which could affect the federal income tax treatment of an investment in us. The federal income tax rules dealing with U.S. federal income taxation and REITs are constantly under review by persons involved in the legislative process, the IRS, and the U.S. Treasury Department, which results in statutory changes as well as revisions to regulations and interpretations. We cannot predict how changes in the tax laws might affect our investors or us. Revisions in federal tax laws and interpretations thereof could significantly and negatively affect our ability to qualify as a REIT, as well as the tax considerations relevant to an investment in us, or could cause us to change our investments and commitments. Potential deferred and contingent tax liabilities from corporate acquisitions could limit or delay future property sales. If, during the five-year period beginning on the date we acquire certain assets or companies in certain tax deferred transactions, we recognize a gain on the disposition of any property acquired, then, to the extent of the excess of (i) the fair market value of such property as of the acquisition date, over (ii) our adjusted income tax basis in such property as of that date, we will be required to pay a corporate-level federal income tax on this gain at the highest regular corporate rate. These potential tax effects could limit or delay future property sales. In addition, the IRS may assert liabilities against us for income taxes of certain entities we acquire for taxable years prior to the time that we acquire such entities, in which case we will owe these taxes plus interest and penalties, if any. There are uncertainties relating to the calculation of non-REIT tax earnings and profits ("E&P") in certain acquisitions, which may require us to distribute E&P. In order to remain qualified as a REIT, we are required to distribute to our stockholders all of the accumulated non-REIT E&P of certain C corporations that we acquire, prior to the close of the first taxable year in which the acquisition occurs. Failure to make such E&P distributions could result in our disqualification as a REIT. The determination of the amount to be distributed in such E&P distributions is a complex factual and legal determination. We may have less than complete information at the time we undertake our analysis, or we may interpret the applicable law differently from the IRS. We currently believe that we have satisfied the requirements relating to such E&P distributions. There are, however, substantial uncertainties relating to the determination of E&P, including the possibility that the IRS could successfully assert that the taxable income of the companies acquired should be increased, which could increase our non-REIT E&P. Thus, we might fail to satisfy the requirement that we distribute all of our non-REIT E&P by the close of the first taxable year in which the acquisition occurs. Although there are procedures available to cure a failure to distribute all of our E&P, we cannot now determine whether we will be able to take advantage of these procedures or the economic impact on us of doing so. Tax protection agreements may limit our ability to sell or otherwise dispose of certain properties and may require us to maintain certain debt levels that otherwise would not be required to operate our business. We acquired in the past and in the future may acquire properties or portfolios of properties through tax deferred contribution transactions in exchange for units in our DownREITs or Healthpeak OP. In connection with these transactions, our DownREITs have entered and, with Healthpeak OP, may in the future enter into tax protection agreements that enable contributing partners to defer the recognition of taxable gain resulting from the sale or other disposition of the contributed properties. Tax protection agreements may make it economically prohibitive to sell any properties that are subject to such agreements even though it may otherwise be in our stockholders' best interests to do so. In addition, under these agreements, we may be required to maintain a minimum level of indebtedness throughout the term of the agreements regardless of whether such debt levels are otherwise required to operate our business. Physicians Realty Trust and the Physicians Partnership has also entered into similar tax protection arrangements with certain third parties and, as a result of the Merger, we inherited the obligations under such arrangements. Our charter contains ownership limits with respect to our common stock and other classes of capital stock. Our charter contains restrictions on the ownership and transfer of our common stock and preferred stock that are intended to assist us in preserving our qualification as a REIT. Under our charter, subject to certain exceptions, no person or entity may own, actually or constructively, more than 9.8% (by value or by number of shares, whichever is more restrictive) of the outstanding shares of our common stock or any class or series of our preferred stock. Additionally, our charter has a 9.9% ownership limitation on the direct or indirect ownership of our voting shares, which may include common stock or other classes of capital stock. Our Board of Directors, in its sole discretion, may exempt a proposed transferee from either ownership limit. The ownership limits may delay, defer or prevent a transaction or a change of control that might involve a premium price for our common stock or might otherwise be in the best interests of our stockholders. Table of Contents We are subject to certain provisions of Maryland law and our charter relating to business combinations that may prevent a transaction that may otherwise be in the interest of our stockholders. We are subject to the Maryland Business Combination Act (the "MBCA"), which provides that unless exempted, a Maryland corporation may not engage in certain business combinations with an "interested stockholder" or an affiliate of an interested stockholder for five years after the most recent date on which the interested stockholder became an interested stockholder, and thereafter unless specified criteria are met. In addition to the restrictions on business combinations contained in the MBCA, our charter also requires that, except in certain circumstances, "business combinations" with a "related person" must be approved by the affirmative vote of the holders of at least 90% of our outstanding voting stock. These restrictions on business combinations may delay, defer, or prevent a change of control or other transaction even if such transaction involves a premium price for our common stock or our stockholders believe that such transaction is otherwise in their best interests. Conflicts of interest may exist or could arise in the future between the interests of our stockholders and the interests of holders of Healthpeak OP common units, which may impede business decisions that could benefit our stockholders. Conflicts of interest may exist or could arise in the future as a result of the relationships between us and our affiliates, on the one hand, and Healthpeak OP or any member thereof, on the other. Our directors and officers have duties to our company under Maryland law in connection with their management of our company. At the same time, we, as the managing member of Healthpeak OP, have certain fiduciary duties and obligations to Healthpeak OP and its members under Maryland law and the operating agreement of Healthpeak OP in connection with the management of Healthpeak OP. Our fiduciary duties and obligations as the managing member of Healthpeak OP may come into conflict with the duties of our directors and officers to our company. Under Maryland law, a managing member of a Maryland limited liability company has fiduciary duties of loyalty and care to the limited liability company and its members and must discharge its duties and exercise its rights as managing member under the operating agreement or Maryland law consistent with the obligation of good faith and fair dealing. The operating agreement provides that, to the maximum extent permitted under the Maryland Limited Liability Company Act, the only duties that the managing member owes to Healthpeak OP, any member, or any other person, fiduciary or otherwise, are to perform its contractual obligations as expressly set forth in the operating agreement

[illegible]

holders. On February 3, 2025, our Board of Directors declared a quarterly common stock cash dividend of \$0.305 per share, reflecting an increase from \$0.30 to \$0.305 per share. The common stock cash dividend will be paid on February 26, 2025 to stockholders of record as of the close of business on February 14, 2025. Table of Contents Issuer Purchases of Equity Securities The following table sets forth information with respect to purchases of our common stock made by or on our behalf during the three months ended December 31, 2024. Period Covered Total Number of Shares Purchased Average Price Paid per Share Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1) October 1-31, 2024 \$500,000.000A November 1-30, 2024 \$500,000.000A December 1-31, 2024 \$500,000.000A (1) On July 24, 2024, our Board of Directors approved the 2024 Share Repurchase Program under which we may acquire shares of our common stock in the open market or other similar purchase techniques (including in compliance with the safe harbor provisions of Rule 10b-18 under the Exchange Act or pursuant to one or more plans adopted under Rule 10b5-1 promulgated under the Exchange Act), up to an aggregate purchase price of \$500 million. Purchases of common stock under the 2024 Share Repurchase Program may be exercised at our discretion with the timing and number of shares repurchased depending on a variety of factors, including price, corporate and regulatory requirements, and other corporate liquidity requirements and priorities. The 2024 Share Repurchase Program expires in July 2026 and may be suspended or terminated at any time without prior notice. As of December 31, 2024, no shares have been repurchased under the 2024 Share Repurchase Program. Therefore, at December 31, 2024, \$500A million of the Company's common stock remained available for repurchase under the 2024 Share Repurchase Program. 44 Table of Contents Performance Graph The graph and table below compare the cumulative total return of Healthpeak, the S&P 500 Index, and the Equity REIT Index of Nareit, from January 1, 2020 to December 31, 2024. Total cumulative return is based on a \$100 investment in Healthpeak common stock and in each of the indices at the close of trading on December 31, 2019 and assumes quarterly reinvestment of dividends before consideration of income taxes. Stockholder returns over the indicated periods should not be considered indicative of future stock prices or stockholder returns. COMPARISON OF FIVE-YEAR CUMULATIVE TOTAL RETURN AMONG S&P 500, EQUITY REITS AND HEALTHPEAK PROPERTIES, INC. This section generally discusses the results of our operations for the year ended December 31, 2024 compared to the year ended December 31, 2023. For a discussion of the year ended December 31, 2023 compared to the year ended December 31, 2022, please refer to Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023 filed with the SEC on February 9, 2024. The discussion below contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including those which are discussed in Item 1A, Risk Factors. See also Cautionary Language Regarding Forward-Looking Statements preceding Part I. The following discussion and analysis should be read in conjunction with our accompanying, consolidated financial statements and the notes thereto. We will discuss and provide our analysis in the following order: Market Trends and Uncertainties Company Highlights Dividends Results of Operations Liquidity and Capital Resources Non-GAAP Financial Measures Reconciliations Critical Accounting Estimates Recent Accounting Pronouncements Market Trends and Uncertainties Our operating results have been and will continue to be impacted by global and national economic and market conditions generally and by the local economic conditions where our properties are located. Increased interest rates, ongoing geopolitical tensions, and volatility in public and private equity and fixed income markets have led to increased costs and limitations on the availability of capital. In addition, increased interest rates have and could continue to adversely impact our borrowing costs, the fair value of our fixed rate instruments, transaction volume, and real estate values generally, including our real estate. To the extent our tenants and/or operators have also experienced increased costs, liquidity constraints, and financing difficulties due to the foregoing macroeconomic and market conditions, they may be unable or unwilling to make payments or perform their obligations when due. We have also been affected by increased costs relating to tenant improvements and construction, which, together with higher costs of capital, have adversely affected, and in the future may adversely affect, the expected yields on our development and redevelopment projects. While there have been signs that cost pressures are moderating, there can be no assurance that this will continue to be the case. We continuously monitor the effects of domestic and global events on our operations and financial position, and on the operations and financial position of our tenants, operators, and borrowers, to enable us to remain responsive and adaptable to the dynamic changes in our operating environment. These events include but are not limited to inflation; interest rates; challenges in the financial markets; and changes in the U.S. political administration, which could affect healthcare policy, labor supply, procurement and construction costs, and economic conditions, among other things. See Item 1A, Risk Factors in this report for additional discussion of the risks posed by macroeconomic conditions, as well as the uncertainties we and our tenants, operators, and borrowers may face as a result. 46 Table of Contents Company Highlights On March 1, 2024, we completed the Merger with Physicians Realty Trust, which resulted in the acquisition of 299 outpatient medical buildings. Real Estate Transactions In January 2024, we sold a 65% interest in two lab buildings in San Diego, California (the Callan Ridge JV) to a third-party for net proceeds of \$128 million. In April 2024, we exercised our option to buy out four redeemable noncontrolling interests, made aggregate cash payments for the total redemption value of \$53A million to the related noncontrolling interest holders, and acquired the redeemable noncontrolling interests associated with these entities. During the year ended December 31, 2024, we sold: (i) a portfolio of 61 outpatient medical buildings for \$697A million and provided the buyer with a mortgage loan secured by the real estate sold for \$419A million, (ii) 14 outpatient medical buildings for \$220A million, (iii) a portfolio of seven lab buildings for \$180A million, and (iv) a portfolio comprised of a land parcel and various vacant buildings on certain of our CCRC campuses for \$12 million. Development and Redevelopment Activities During the year ended December 31, 2024, the following projects were placed in service: (i) a portion of two lab development projects with total project costs of \$83 million, (ii) two outpatient medical development projects with total project costs of \$62 million, (iii) one outpatient medical development project held in a consolidated joint venture of which our share of total project costs was \$22 million, (iv) one lab redevelopment building held in one of our unconsolidated South San Francisco JVs of which our share of total project costs was \$15 million, (v) one lab redevelopment project with total project costs of \$14 million, (vi) a portion of one lab redevelopment project with total project costs of \$13 million, and (vii) a portion of one lab redevelopment building held in one of our unconsolidated South San Francisco JVs of which our share of total project costs was \$9 million. Financing Activities In March 2024, we executed a \$750A million five year unsecured term loan (the 2029 Term Loan) as an incremental facility under the term loan agreement. In January 2024, we entered into forward-starting interest rate swap instruments on the 2029 Term Loan which are designated as cash flow hedges and establish a blended fixed effective interest rate of 4.66%. During the year ended December 31, 2024, we repurchased 10.5A million shares of our common stock under our 2022 Share Repurchase Program (as defined below) at a weighted average price of \$17.98 per share for a total of \$188A million. In February 2025, we repaid \$348A million aggregate principal amount of 3.40% senior unsecured notes at maturity. Other Activities During the year ended December 31, 2024, we refinanced one of our existing seller financing loans receivable, extended the maturity date to August 2027, and received aggregate partial principal repayments of \$74 million. During the year ended December 31, 2024, we executed an early lease renewal for approximately 2A million square feet leased by CommonSpirit Health, which is subject to a master agreement, which extended the weighted average lease term of existing leases from July 2027 to December 2035, amended the contractual rents to current market rates, and increased the annual contractual lease escalations from 2.5% to 3.0%. In January 2025, we received full repayment of: (i) the \$48A million outstanding balance of one of our seller financing loans receivable and (ii) the \$15A million outstanding balance of one secured loan with an original maturity of July 2027. Dividends Quarterly common stock cash dividends paid during 2024 aggregated to \$1.20 per share. On February 3, 2025, our Board of Directors declared a quarterly common stock cash dividend of \$0.305 per share, reflecting an increase from \$0.30 to \$0.305 per share. The dividend will be paid on February 26, 2025 to stockholders of record as of the close of business on February 14, 2025. 47 Table of Contents Results of Operations We evaluate our business and allocate resources among our operating segments: (i) outpatient medical, (ii) lab, (iii) CCRC, (iv) an interest in our unconsolidated SWF SH JV, and (v) loans receivable. Our operating segments are aggregated into the following reportable segments: (i) outpatient medical, (ii) lab, and (iii) CCRC. Under the outpatient medical and lab segments, we own, operate, and develop outpatient medical buildings, hospitals, and lab buildings. Our CCRCs are operated through RIDEA structures. The SWF SH JV and loans receivable are non-reportable segments that have been presented on a combined basis herein. We evaluate performance based upon property adjusted net operating income (Adjusted NOI) or Cash NOI in each segment. The accounting policies of the segments are the same as those described in the summary of significant accounting policies in Note 2 to the Consolidated Financial Statements. Non-GAAP Financial Measures Adjusted NOI Adjusted NOI is a non-U.S. generally accepted accounting principles (GAAP) supplemental financial measure used to evaluate the operating performance of real estate. Adjusted NOI represents real estate revenues (inclusive of rental and related revenues, resident fees and services, and government grant income and exclusive of interest income), less property level operating expenses; Adjusted NOI excludes all other financial statement amounts included in net income (loss) as presented in Note 16 to the Consolidated Financial Statements. Adjusted NOI eliminates the effects of straight-line rents, amortization of market lease intangibles, termination fees, actuarial reserves for insurance claims that have been incurred but not reported, and the impact of deferred community fee income and expense. Adjusted NOI is calculated as Adjusted NOI from consolidated properties, plus our share of Adjusted NOI from unconsolidated joint ventures (calculated by applying our actual ownership percentage for the period), less noncontrolling interests' share of Adjusted NOI from consolidated joint ventures (calculated by applying our actual ownership percentage for the period). We utilize our share of Adjusted NOI in assessing our performance as we have various joint ventures that contribute to our performance. Our share of Adjusted NOI should not be considered a substitute for, and should only be considered together with and as a supplement to, our financial information presented in accordance with GAAP. Adjusted NOI is oftentimes referred to as Cash NOI. Management believes Adjusted NOI is an important supplemental measure because it provides relevant and useful information by reflecting only income and operating expense items that are incurred at the property level and presents them on an unlevered basis. We use Adjusted NOI to make decisions about resource allocations, to assess and compare property level performance, and to evaluate our Merger-Combined Same-Store (Merger-Combined SS) performance, as described below. We believe that net income (loss) is the most directly comparable GAAP measure to Adjusted NOI. Adjusted NOI should not be viewed as an alternative measure of operating performance to net income (loss) as defined by GAAP since it does not reflect various excluded items. Further, our definition of Adjusted NOI may not be comparable to the definitions used by other REITs or real estate companies, as they may use different methodologies for calculating Adjusted NOI. As described in Note 16 to the Consolidated Financial Statements, our chief operating decision maker (CODM) evaluates the performance of our operating segments based on Adjusted NOI. Our operating segments are aggregated into reportable segments for which we disclose Total Portfolio Adjusted NOI for our reportable segments. For further information, including information reconciling our Adjusted NOI for reportable segments to our income (loss) before income taxes and equity income (loss) from unconsolidated joint ventures, refer to Note 16 to the Consolidated Financial Statements. Operating expenses generally relate to leased outpatient medical and lab buildings, as well as CCRC facilities. We generally recover all or a portion of our leased outpatient medical and lab property expenses through tenant recoveries, which are recognized within rental and related revenues. Merger-Combined Same-Store Adjusted NOI Merger-Combined Same-Store Adjusted NOI includes legacy Physicians Realty Trust properties that met the same-store criteria as if they were owned by the Company for the full analysis period. This information allows our investors, analysts, and us to evaluate the performance of our property portfolio under a consistent population by eliminating changes in the composition of our portfolio of properties, excluding properties within the other non-reportable segments. We include properties from our consolidated portfolio, as well as properties owned by our unconsolidated joint ventures in Adjusted NOI (see Adjusted NOI definition above for further discussion regarding our use of pro-rata share information and its limitations). Merger-Combined Same-Store Adjusted NOI excludes government grant income under the CARES Act, amortization of deferred revenue from tenant-funded improvements, and certain non-property specific operating expenses that are allocated to each operating segment on a consolidated basis. 48 Table of Contents Properties are included in Merger-Combined Same-Store once they are fully operating for the entirety of the comparative periods presented. A property is removed from Merger-Combined Same-Store when it is classified as held for sale, sold, placed into redevelopment, experiences a casualty event that significantly impacts operations, or a significant tenant relocates from a Merger-Combined Same-Store property to a Merger-Combined non Same-Store property and that change results in a corresponding increase in revenue. We do not report Merger-Combined Same-Store metrics for our other non-reportable segments. Management believes that continued reporting of the same-store portfolio for only pre-merger Healthpeak Properties, Inc. offers minimal value to investors who are seeking to understand the operating performance and growth potential of the Combined Company. The Company was provided access to the underlying financial statements of legacy Physicians Realty Trust (which financial statements have been audited or, in the case of interim periods, reviewed) and other detailed information about each property, such as the acquisition date. Based on this available information, the Company was able to consistently apply its same-store definition across the combined portfolio. As a result of the Merger, approximately 97% of the combined portfolio is represented in the Merger-Combined Same-Store presentation for the outpatient medical segment for the year ended December 31, 2024. For a reconciliation of Merger-Combined Same-Store to total portfolio Adjusted NOI and other relevant disclosures by segment, refer to our Segment Analysis below. Nareit FFO. Funds from Operations (FFO), as defined by the National Association of Real Estate Investment Trusts (Nareit), is net income (loss) applicable to common shares (computed in accordance with GAAP), excluding gains or losses from sales of depreciable property, including any current and deferred taxes directly associated with sales of depreciable property, impairments of, or related to, depreciable real estate, plus real estate-related depreciation and amortization, and adjustments to compute our share of Nareit FFO from joint ventures. Adjustments for joint ventures are calculated to reflect our pro rata share

Adjusted. In addition, we present Nareit FFO on an adjusted basis before the impact of non-comparable items including, but not limited to, transaction and merger-related items, other impairments (recoveries) and other losses (gains), restructuring and severance-related charges, prepayment costs (benefits) associated with early retirement or payment of debt, litigation costs (recoveries), casualty-related charges (recoveries), deferred tax asset valuation allowances, and changes in tax legislation (â€œFFO as Adjustedâ€). These adjustments are net of tax, when applicable, and are reflective of our share of our joint 49Table of Contentsventures. Adjustments for joint ventures are calculated to reflect our pro rata share of both our consolidated and unconsolidated joint ventures. We reflect our share of FFO as Adjusted for unconsolidated joint ventures by applying our actual ownership percentage for the period to the applicable reconciling items on an entity by entity basis. We reflect our share for consolidated joint ventures in which we do not own 100% of the equity by adjusting our FFO as Adjusted to remove the third-party ownership share of the applicable reconciling items based on actual ownership percentage for the applicable periods. See â€œNareit FFOâ€ above for further disclosures regarding our use of pro rata share information and its limitations. Transaction and merger-related items include transaction expenses and gains/charges incurred as a result of mergers and acquisitions and lease amendment or termination activities. Prepayment costs (benefits) associated with early retirement of debt include the write-off of unamortized deferred financing fees, or additional costs, expenses, discounts, make-whole payments, penalties or premiums incurred as a result of early retirement or payment of debt. Other impairments (recoveries) and other losses (gains) include interest income associated with early and partial repayments of loans receivable and other losses or gains associated with non-depreciable assets including goodwill, undeveloped land parcels, and loans receivable. Management believes that FFO as Adjusted provides a meaningful supplemental measurement of our FFO run-rate and is frequently used by analysts, investors, and other interested parties in the evaluation of our performance as a REIT. At the same time that Nareit created and defined its FFO measure for the REIT industry, it also recognized that â€œmanagement of each of its member companies has the responsibility and authority to publish financial information that it regards as useful to the financial community.â€ We believe stockholders, potential investors, and financial analysts who review our operating performance are best served by an FFO run-rate earnings measure that includes certain other adjustments to net income (loss), in addition to adjustments made to arrive at the Nareit defined measure of FFO. FFO as Adjusted is used by management in analyzing our business and the performance of our properties and we believe it is important that stockholders, potential investors, and financial analysts understand this measure used by management. We use FFO as Adjusted to: (i) evaluate our performance in comparison with expected results and results of previous periods, relative to resource allocation decisions, (ii) evaluate the performance of our management, (iii) budget and forecast future results to assist in the allocation of resources, (iv) assess our performance as compared with similar real estate companies and the industry in general, and (v) evaluate how a specific potential investment will impact our future results. Other REITs or real estate companies may use different methodologies for calculating an adjusted FFO measure, and accordingly, our FFO as Adjusted may not be comparable to those reported by other REITs. For a reconciliation of net income (loss) to FFO as Adjusted and other relevant disclosure, refer to â€œNon-GAAP Financial Measures Reconciliationsâ€ below. Adjusted FFO (â€œAFFOâ€). AFFO is defined as FFO as Adjusted after excluding the impact of the following: (i) stock-based compensation amortization expense, (ii) amortization of deferred financing costs and debt discounts (premiums), (iii) straight-line rents, (iv) deferred income taxes, (v) amortization of above (below) market lease intangibles, net, (vi) non-refundable entrance fees collected in excess of (less than) the related amortization, and (vii) other AFFO adjustments, which include: (a) lease incentive amortization (reduction of straight-line rents), (b) actuarial reserves for insurance claims that have been incurred but not reported, and (c) amortization of deferred revenues, excluding amounts amortized into rental income that are associated with tenant funded improvements owned/recognized by us and up-front cash payments made by tenants to reduce their contractual rents. Also, AFFO is computed after deducting recurring capital expenditures, including second generation leasing costs and second generation tenant and capital improvements (â€œAFFO capital expendituresâ€). All adjustments are reflective of our pro rata share of both our consolidated and unconsolidated joint ventures (reported in â€œother AFFO adjustmentsâ€). We reflect our share of AFFO for unconsolidated joint ventures by applying our actual ownership percentage for the period to the applicable reconciling items on an entity by entity basis. We reflect our share for consolidated joint ventures in which we do not own 100% of the equity by adjusting our AFFO to remove the third-party ownership share of the applicable reconciling items based on actual ownership percentage for the applicable periods. See â€œNareit FFOâ€ above for further disclosures regarding our use of pro rata share information and its limitations. We believe AFFO is an alternative run-rate performance measure that improves the understanding of our operating results among investors and makes comparisons with: (i) expected results, (ii) results of previous periods, and (iii) results among REITs more meaningful. AFFO does not represent cash generated from operating activities determined in accordance with GAAP and is not indicative of cash available to fund cash needs as it excludes the following items which generally flow through our cash flows from operating activities: (i) adjustments for changes in working capital or the actual timing of the payment of income or expense items that are accrued in the period, (ii) transaction-related costs, (iii) litigation settlement expenses, and (iv) restructuring and severance-related charges. Furthermore, AFFO is adjusted for recurring capital expenditures, which are generally not considered when determining cash flows from operations or liquidity. Other REITs or real estate companies may use different methodologies for calculating AFFO, and accordingly, our AFFO may not be comparable to those reported by other REITs. Management believes AFFO provides a meaningful supplemental measure of our performance and is frequently used by analysts, investors, and other interested parties in the evaluation of our performance as a REIT, and by presenting AFFO, we are assisting these parties in their evaluation. AFFO is a non-GAAP supplemental financial measure and should not be considered as an alternative to net income (loss) determined in accordance with GAAP and should only be considered together with and as a supplement to our financial information prepared in accordance with GAAP. For a reconciliation of net income (loss) to AFFO and other relevant disclosures, refer to â€œNon-GAAP Financial Measures Reconciliationsâ€ below. 50Table of ContentsComparison of the Year Ended December 31, 2024 to the Year Ended December 31, 2023 OverviewThe following table summarizes results for the years ended December 31, 2024 and 2023(1) (in thousands):Year Ended December 31, 20242023ChangeNet income (loss) applicable to common shares\$242,384\$ 304,284\$ (61,900)Nareit FFO1,092,730\$ 985,180\$ 107,550AFFO as Adjusted1,231,868\$ 978,306\$ 253,562AFFO1,140,665\$ 884,230\$ 256,435

(1)For the reconciliation of non-GAAP financial measures, see â€œNon-GAAP Financial Measures Reconciliationsâ€ below. Net income (loss) applicable to common shares decreased primarily as a result of the following: â€œcan increase in depreciation, primarily as a result of: (i) assets acquired as part of the Merger and (ii) development and redevelopment projects placed in service during 2023 and 2024; â€œcan increase in transaction and merger-related costs, primarily as a result of costs incurred in connection with the Merger; â€œcan increase in interest expense, primarily as a result of: (i) debt assumed as part of the Merger, including \$1.25 billion aggregate principal amount of senior unsecured notes, \$400 million aggregate principal amount of senior unsecured term loans assumed as part of the Merger (the â€œ2028 Term Loanâ€), and \$128 million aggregate principal amount of mortgage debt and (ii) borrowings under the 2029 Term Loan, which closed in March 2024; â€œcan increase in impairments and loan loss reserves (recoveries), net, primarily as a result of: (i) impairment charges associated with an asset impaired under the held for sale model and (ii) an increase in loan loss reserves recognized on secured loans and mezzanine loans receivable acquired as part of the Merger; â€œcan increase in casualty-related losses from Hurricane Milton during the fourth quarter of 2024; and â€œcan increase in income tax expense primarily as a result of an income tax expense incurred in connection with the sale of a 65% interest in two lab buildings in San Diego, California to a third-party in January 2024. The decrease in net income (loss) applicable to common shares was partially offset by: â€œcan increase in Adjusted NOI generated from our lab and outpatient medical segments related to: (i) assets acquired as part of the Merger, (ii) development and redevelopment projects placed in service during 2023 and 2024, and (iii) new leasing activity during 2023 and 2024 (including the impact to straight-line rents); â€œcan increase in gain on sales of depreciable real estate sales during 2024 as compared to 2023; â€œcan gain upon change of control related to the sale of a 65% interest in two lab buildings in San Diego, California to a third-party in January 2024; and â€œcan increase in interest income related to mezzanine and secured loans receivable acquired as part of the Merger and seller financing provided in connection with the disposition of 61 outpatient medical buildings in 2024. Nareit FFO increased primarily as a result of the aforementioned events impacting net income (loss) applicable to common shares, except for the following, which are excluded from Nareit FFO: â€œdepreciation and amortization expense; â€œgain on sales of depreciable real estate; â€œgain upon change of control; â€œimpairments of depreciable real estate; and â€œtaxes associated with real estate dispositions. 51Table of ContentsAFFO as Adjusted increased primarily as a result of the aforementioned events impacting Nareit FFO, except the following, which are excluded from FFO as Adjusted: â€œtransaction and merger-related items; â€œcasualty-related losses; and â€œloan loss reserves (recoveries). AFFO increased primarily as a result of higher cash collections of non-refundable entrance fees at our CCRCs, and the aforementioned events impacting FFO as Adjusted, except for the impact of straight-line rents and amortization of deferred financing costs, deferred income taxes, and debt discounts (premiums) on amounts recognized in connection with the Merger, which are excluded from AFFO, partially offset by higher AFFO capital expenditures during the period. Segment AnalysisThe following tables provide selected operating information for our Merger-Combined Same-Store and total property portfolio for each of our reportable segments. For the year ended December 31, 2024, our Merger-Combined Same-Store consists of 625 properties representing properties fully operating on or prior to January 1, 2023 and that remained in operation through December 31, 2024. Legacy Physicians Realty Trust properties that met the definition of Merger-Combined Same-Store are included in both periods presented as if they were owned by the Company for the full analysis period. See â€œNon-GAAP Financial Measuresâ€ above for additional information. Our total property portfolio consisted of 697 and 477 properties at December 31, 2024 and 2023, respectively. 52Table of ContentsOutpatient MedicalThe following table summarizes results at and for the years ended December 31, 2024 and 2023 (dollars and square feet in thousands, except per square foot data):Merger-Combined SS(1)Total Portfolio(2)Year Ended December 31,Year Ended December 31,20242023Change20242023ChangeRental and related revenues\$1,197,264\$1,138,437\$58,827\$1,205,748\$753,479\$452,265\$1Healthpeakâ€™s share of unconsolidated joint venture total revenues26,092\$24,012,014,0413,033\$1,008\$1Noncontrolling interestsâ€™ share of consolidated joint venture total revenues(36,083)\$(35,365)\$(718)\$(37,643)\$(35,073)\$(2,570)Operating expenses(395,079)\$(382,748)\$(12,331)\$(405,993)\$(263,132)\$(142,861)Healthpeakâ€™s share of unconsolidated joint venture operating expenses(10,007)\$(8,986)\$(1,021)\$(9,034)\$(1,189)\$(7,845)Noncontrolling interestsâ€™ share of consolidated joint venture operating expenses(10,071)10,149(78)10,582,921661\$1 Adjustments to NOI(3)\$(37,396)\$(14,468)\$(22,928)\$(38,967)\$(14,314) (24,653)Adjusted NOI\$754,862\$731,110\$23,752\$748,730\$52,725\$296,005\$1Pre-Merger legacy Physicians Realty Trust Adjusted NOI(4)\$61,398\$309,000\$247,602\$Less: Merger-Combined Non-SS Adjusted NOI(5)\$266(30,615)\$(24,651)Merger-Combined SS Adjusted NOI\$754,862\$731,110\$23,752\$Adjusted NOI 1% change3.2A %Property count(5)506\$506\$524\$297\$A End of period occupancy(6)92.3A %92.4A %92.2A %90.7A %Average occupancy(6)92.3A %92.2A %90.1A %Average occupied square feet33,407\$33,320\$35,726\$21,531\$A Average annual total revenues per occupied square foot(7)\$36\$35\$36\$35\$A Average annual base rent per occupied square foot(8)\$28\$27\$29\$29\$A (1)Merger-Combined Same-Store includes legacy Physicians Realty Trust properties that met the definition of Merger-Combined Same-Store as if they were owned by the Company for the full analysis period. Refer to â€œNon-GAAP Financial Measuresâ€ above for the definition of Merger-Combined Same-Store. (2)Total Portfolio includes results of operations from disposed properties through the disposition date. 2024 Total Portfolio includes results of operations for legacy Healthpeak prior to the Closing Date and results of operations for the Combined Company after the Closing Date. (3)Represents adjustments we make to calculate Adjusted NOI in accordance with our definition of Adjusted NOI, which is used by our CODM to evaluate performance of our reportable segments. See Note 16 to the Consolidated Financial Statements for further information, including information reconciling our Adjusted NOI for reportable segments to income (loss) before income taxes and equity income (loss) from unconsolidated joint ventures. Refer also to â€œNon-GAAP Financial Measuresâ€ above for the definition of Adjusted NOI. (4)Represents Adjusted NOI for legacy Physicians Realty Trust properties prior to the Closing Date. (5)From our 2023 presentation of Same-Store, we added: (i) 290 properties acquired as part of the Merger, (ii) 8 stabilized developments placed in service, (iii) 5 stabilized redevelopments placed in service, and (iv) 4 stabilized acquisitions, and we removed: (i) 72 assets that were sold and (ii) 1 asset that was classified as held for sale. (6)Total Portfolio occupancy excludes any of the following: (i) developments, (ii) significant redevelopments, (iii) newly completed properties under lease-up, and (iv) properties held for sale. (7)Average annual total revenues does not include non-cash revenue adjustments (i.e., A straight-line rents, amortization of market lease intangibles, and deferred revenues). (8)Base rent does not include tenant recoveries, additional rents in excess of floors, and non-cash revenue adjustments (i.e., A straight-line rents, amortization of market lease intangibles, and deferred revenues). Merger-Combined Same-Store Adjusted NOI increased primarily as a result of the following: â€œmark-to-market lease renewals; â€œhigher average occupancy; and â€œannual rent escalations; partially offset by â€œhigher operating expenses, net of savings from our internalization of property management. Total Portfolio Adjusted NOI increased primarily as a result of the aforementioned impacts to Merger-Combined Same-Store and the following Merger-Combined Non-Same-Store impacts: â€œAdjusted NOI from the outpatient medical buildings acquired as part of the Merger in 2024; â€œincreased occupancy in former redevelopment and development properties that have been placed into service; partially offset by â€œbusiness interruption proceeds received in 2023 related to a demolished asset; and â€œdecreased Adjusted NOI from our 2023 and 2024 dispositions. 53Table of ContentsLabThe following table summarizes results at and for the years ended December 31, 2024 and 2023 (dollars and square feet in thousands, except per square foot data):Merger-Combined SSTotal Portfolio(1)Year Ended December 31,Year Ended December 31,20242023Change20242023ChangeRental and related revenues\$671,796\$644,775\$27,021\$881,452\$878,326\$3,126\$1Healthpeakâ€™s share of unconsolidated joint venture total revenues\$3,229\$3,347(118)19\$7339,924\$809\$1Noncontrolling interestsâ€™ share of consolidated joint venture total revenues\$â€“(â€“(196)619)423\$1 Operating expenses(184,839)\$(176,142)\$(8,697)\$(239,620)\$(229,630)\$(9,990)Healthpeakâ€™s share of unconsolidated joint venture operating expenses(1,800)\$(1,878)78(6,366)\$(4,092)\$(2,274)Noncontrolling interestsâ€™ share of consolidated joint venture operating expenses\$â€“(â€“(52156)104)Adjustments to NOI(2)\$(31,101)\$(34,665)3,564(64,449)\$(36,524)\$(27,925)Adjusted NOI\$457,285\$435,437\$21,848\$Adjusted NOI 1% change5.0A %Property count(3)104\$104\$139\$146\$A End of period occupancy(4)97.6A %97.4A %96.9A %Average occupancy(4)97.7A %98.2A %96.0A %97.8A %Average occupied square feet7,194\$7,759\$9,665\$10,524\$A Average annual total revenues per occupied square foot(5)\$84\$79\$87\$81\$A Average annual base rent per occupied square foot(6)\$61\$59\$66\$63\$A (1)Total Portfolio includes results of operations from disposed properties through the disposition date. See Note 16 to the Consolidated Financial Statements for further information, including information reconciling our Adjusted NOI for reportable segments to income (loss) before income taxes and equity income (loss) from unconsolidated joint ventures. Refer also to Non-GAAP Financial Measures above for the definition of Adjusted NOI.(3)From our 2023 presentation of Same-Store, no properties were added or removed.(4)Refer to Non-GAAP Financial Measures above for the definition of Merger-Combined Same-Store. Total Portfolio occupancy excludes any of the following: (i) developments, (ii) significant redevelopments, (iii) newly completed properties under lease-up, and (iv) properties held for sale.(5)Represents average occupied units as reported by the operators for the twelve-month period.Merger-Combined Same-Store Adjusted NOI and Total Portfolio Adjusted NOI increased primarily as a result of the following:Increased rates for resident fees; andhigher occupancy; partially offset byhigher costs of compensation and property management, food, and other operating expenses.55Table of ContentsOther Income and Expense ItemsThe following table summarizes the results of our other income and expense items for the years ended December 31, 2024 and 2023 (in thousands):Year Ended December 31,20242023ChangeInterest income and other\$44,778Ä \$21,781Ä \$22,997Ä Interest expense280,430Ä 200,331Ä 80,099Ä Depreciation and amortization1,057,205Ä 749,904Ä 307,304Ä General and administrative97,162Ä 95,132Ä 2,030Ä Transaction and merger-related costs132,685Ä 17,515Ä 115,170Ä Impairments and loan loss reserves (recoveries), net22,978Ä (5,601)Ä 28,579Ä Gain (loss) on sales of real estate, net178,695Ä 86,463Ä 92,232Ä Other income (expense), net59,345Ä 6,808Ä 52,537Ä Income tax benefit (expense)(4,350)9,617Ä (13,967)Equity income (loss) from unconsolidated joint ventures(1,515)10,204Ä (11,719)Noncontrolling interests share in continuing operations(24,161)(28,748)4,587Ä Interest income and otherInterest income and other increased for the year endedÄ DecemberÄ 31, 2024Ä primarily as a result of: (i) mezzanine and secured loans receivable acquired as part of the Merger and (ii) seller financing provided in connection with the disposition of 61 outpatient medical buildings during 2024, partially offset by principal repayments on loans receivable in 2023 and 2024.Interest expenseInterest expense increased for the year ended December 31, 2024 primarily as a result of: (i) debt assumed as part of the Merger, including \$1.25 billion aggregate principal amount of senior unsecured notes, \$400 million aggregate principal amount of the 2028 Term Loan, and \$128 million aggregate principal amount of mortgage debt, (ii) borrowings under the 2029 Term Loan, which closed in March 2024, and (iii) senior unsecured notes issued in January and May 2023, partially offset by lower borrowings on the commercial paper program.Depreciation and amortizationDepreciation and amortization expense increased for the year ended December 31, 2024 primarily as a result of: (i) assets acquired as part of the Merger and (ii) development and redevelopment projects placed in service during 2023 and 2024, partially offset by: (i) assets placed into development and redevelopment in 2023 and 2024 and (ii) dispositions of real estate in 2023 and 2024.General and administrativeGeneral and administrative expenses increased for the year ended December 31, 2024 primarily as a result of increased compensation, travel, information technology, and other costs incurred as a result of a higher headcount, partially offset by merger-related synergies and lower corporate office rent expense.Transaction and merger-related costsTransaction and merger-related costs increased for the year ended December 31, 2024 primarily as a result of advisory, legal, accounting, tax, post-combination severance and stock compensation expense, and other costs of combining operations with Physicians Realty Trust that were incurred in connection with the Merger, partially offset by: (i) merger-related costs incurred during the year ended December 31, 2023 and (ii) expenses incurred in connection with our reorganization to an UPREIT structure in 2023.Impairments and loan loss reserves (recoveries), netImpairments and loan loss reserves (recoveries), net increased for the year ended December 31, 2024 primarily as a result of: (i) impairment charges associated with an asset impaired under the held for sale model and (ii) an increase in loan loss reserves under the current expected credit losses model, which is primarily due to reserves recognized on secured loans and mezzanine loans receivable acquired as part of the Merger.56Table of ContentsGain (loss) on sales of real estate, netGain on sales of real estate, net increased during the year ended December 31, 2024 primarily as a result of the \$179Ä million gain on sales from: (i) a portfolio of 61 outpatient medical buildings sold for proceeds of \$697Ä million, (ii) 14 outpatient medical buildings sold for proceeds of \$220Ä million, (iii) a portfolio of seven lab buildings sold for proceeds of \$180Ä million, and (vi) a portfolio comprised of a land parcel and various vacant buildings on certain of the CompanyÄs CCRC campuses sold for proceeds of \$12 million, which were sold during the year ended December 31, 2024, as compared to the \$81Ä million gain on sales from: (i) two lab buildings in Durham, North Carolina sold for proceeds of \$113Ä million and (ii) two outpatient medical buildings sold for proceeds of \$32Ä million, which were sold during the year ended December 31, 2023. Refer to Note 5 to the Consolidated Financial Statements for additional information regarding dispositions of real estate and the associated gain (loss) on sales recognized.Other income (expense), netOther income increased for the year ended December 31, 2024 primarily due to a gain upon change of control related to the sale of a 65% interest in two lab buildings in San Diego, California to a third-party in January 2024, partially offset by casualty-related losses from Hurricane Milton during the fourth quarter of 2024.Income tax benefit (expense)Income tax expense increased for the year ended December 31, 2024 primarily as a result of: (i) income tax expense incurred in connection with the sale of a 65% interest in two lab buildings in San Diego, California to a third-party in January 2024 and (ii) an increase in operating income associated with our CCRCs, partially offset by the tax impact of casualty-related losses from Hurricane Milton.Equity income (loss) from unconsolidated joint venturesEquity income from unconsolidated joint ventures decreased for the year ended December 31, 2024 primarily as a result of losses on unconsolidated joint ventures acquired as part of the Merger, partially offset by increased income from the South San Francisco JVs.Noncontrolling interests share in continuing operationsNoncontrolling interests share in continuing operations decreased for the year ended December 31, 2024 primarily as a result of a gain on sale of an outpatient medical building in a consolidated joint venture in the first quarter of 2023, partially offset by increased income from consolidated joint ventures acquired as part of the Merger.Liquidity and Capital ResourcesWe anticipate that our cash flows from operations, available cash balances, and cash from our various financing activities will be adequate for the next 12 months and for the foreseeable future for purposes of: (i) funding recurring operating expenses; (ii) meeting debt service requirements; and (iii) satisfying funding of distributions to our stockholders and non-controlling interest members. Distributions are made using a combination of cash flows from operations, funds available under our bank line of credit (the Revolving Facility) and commercial paper program, proceeds from the sale of properties, and other sources of cash available to us.In addition to funding the activities above, our principal liquidity needs for the next 12 months are to:fund capital expenditures, including tenant improvements and leasing costs; andfund future acquisition, transactional, and development and redevelopment activities.Our longer term liquidity needs include the items listed above as well as meeting debt service requirements.We anticipate satisfying these future needs using one or more of the following:cash flows from operations; sale of, or exchange of ownership interests in, properties or other investments;borrowings under our Revolving Facility and commercial paper program;issuance of additional debt, including unsecured notes, term loans, and mortgage debt; and/orissuance of common or preferred stock or its equivalent, including sales of common stock under the ATM Program (as defined below).57Table of ContentsOur ability to access the capital markets impacts our cost of capital and ability to refinance maturing indebtedness, as well as our ability to fund future acquisitions and development through the issuance of additional securities or secured debt. Credit ratings impact our ability to access capital and directly impact our cost of capital as well. Our 2029 Term Loan, our two senior unsecured delayed draw term loans with an aggregate principal amount of \$500Ä million (the 2027 Term Loans), our 2028 Term Loan, and our Revolving Facility accrue interest at the Secured Overnight Financing Rate (SOFR) plus a margin that depends on the credit ratings of our senior unsecured long-term debt. We also pay a facility fee on the entire commitment under our Revolving Facility that depends upon our credit ratings. As of January 31, 2025, we had long-term credit ratings of Baa1 from MoodyÄs and BBB+ from S&P Global, and short-term credit ratings of P-2 from MoodyÄs and A-2 from S&P Global.A downgrade in credit ratings by MoodyÄs or S&P Global may have a negative impact on (i) the interest rates of our Revolving Facility, 2027 Term Loans, 2028 Term Loan, and 2029 Term Loan, (ii) facility fees for our Revolving Facility, and (iii) the pricing of notes issued under our commercial paper program and senior unsecured notes. While a downgrade in our credit ratings would adversely impact our cost of borrowing, we believe we would continue to have access to the unsecured debt markets, and we could also seek to enter into one or more secured debt financings, issue additional securities, including under our ATM Program, or dispose of certain assets to fund future operating costs, capital expenditures, or acquisitions, although no assurances can be made in this regard. Refer to Market Trends and Uncertainties above for a more comprehensive discussion of the potential impact of economic and market conditions on our business.Material Cash RequirementsOur material cash requirements include the below contractual and other obligations.Debt. As of December 31, 2024, we had total debt of \$8.7 billion, including notes outstanding under our commercial paper program, senior unsecured notes, term loans, and mortgage debt. Of our total debt, the total amount payable within twelve months is comprised of \$800 million of senior unsecured notes and \$7 million of mortgage debt. Commercial paper borrowings are backstopped by the availability under our Revolving Facility. As such, we calculate the weighted average remaining term of our commercial paper borrowings using the maturity date of our Revolving Facility. Future interest payments associated with borrowings under our senior unsecured notes, term loans, and mortgage debt total \$1.5 billion, \$304 million of which are payable within twelve months. Future interest payments associated with commercial paper borrowings payable within the next twelve months total \$7 million, assuming no change in interest rates and borrowings remain outstanding for the next twelve months. Development and redevelopment commitments. Our development and redevelopment commitments represent construction and other commitments for development and redevelopment projects in progress and includes certain allowances for Company-owned tenant improvements that we have provided as a lessor. As of December 31, 2024, we had \$199 million of development and redevelopment commitments, all of which we expect to spend within the next twelve months.Lease and other contractual commitments. Our lease and other contractual commitments represent our commitments, as lessor, under signed leases and contracts for operating properties and include allowances for Company-owned tenant improvements and leasing commissions. These commitments exclude allowances for Company-owned tenant improvements related to developments and redevelopments in progress for which we have executed an agreement with a general contractor to complete the tenant improvements, which are recognized as development and redevelopment commitments and are discussed further above. As of December 31, 2024, we had total lease and other contractual commitments of \$85 million, \$83 million of which we expect to spend within the next twelve months. Construction loan commitments. As of December 31, 2024, we are obligated to provide additional loans up to \$85 million to fund outpatient medical capital expenditure projects, which extend through 2028. As a result of the repayment of a secured loan in January 2025, this remaining commitment was reduced to \$67Ä million. See Note 8 to the Consolidated Financial Statements for additional information.Ground and other operating lease commitments. Our ground and other operating lease commitments represent our commitments as lessee under signed operating leases. As of December 31, 2024, we had total ground and other operating lease commitments of \$834 million, \$22 million of which are payable within twelve months. See Note 7 to the Consolidated Financial Statements for additional information.Redeemable noncontrolling interests. As of December 31, 2024, we have one redeemable noncontrolling interest and the redemption value of our redeemable noncontrolling interest was \$3 million. Our noncontrolling interest holder has the ability to put their equity interest to us beginning in September 2025. The put option is subject to changes in redemption value in the event that the underlying property generates specified returns for us and meets certain promote thresholds pursuant to the respective agreement. See Note 13 to the Consolidated Financial Statements for additional information.58Table of ContentsDistribution and Dividend Requirements. Our dividend policy on our common stock is to distribute a percentage of our cash flow to ensure that we meet the dividend requirements of the Code, relative to maintaining our REIT status, while still allowing us to retain cash to fund capital improvements and other investment activities. Under the Code, REITs may be subject to certain federal income and excise taxes on undistributed taxable income. We paid quarterly common stock cash dividends of \$0.30 per share in 2024. In February 2025, our Board of Directors declared an increase in the quarterly common stock cash dividend, from \$0.30 to \$0.305 per share. Our future common stock cash dividends, if and as declared, may vary and will be determined by the Board based upon the circumstances prevailing at the time, including our financial condition. Off-Balance Sheet Arrangements We own interests in certain unconsolidated joint ventures as described in Note 9 to the Consolidated Financial Statements. Four of these joint ventures have aggregate mortgage debt of \$845 million, of which our share is \$187 million. Except in limited circumstances, our risk of loss is limited to our investment in the applicable joint venture. Additionally, as of December 31, 2024, we had 15 outstanding letter of credit obligations totaling \$12 million expiring in 2025 and one outstanding letter of credit obligation of \$100 thousand expiring in 2026. We have no other material off-balance sheet arrangements that we expect would materially affect our liquidity and capital resources.InflationA significant portion of our revenues are derived from leases that generally provide for fixed rental rates, subject to annual escalations. A period of high inflation could result in increases in the Consumer Price Index in excess of our fixed annual escalations. Certain of our leases provide that annual rent is modified based on changes in the Consumer Price Index or other thresholds. Most of our outpatient medical leases require the tenant to pay a share of property operating costs such as real estate taxes, insurance, and utilities. Substantially all of our lab leases require the tenant or operator to pay all of the property operating costs or reimburse us for all such costs. Labor costs, costs of construction materials, interest, utilities, and other operating costs may increase during periods of inflation. Inflationary increases in expenses will generally be offset, in whole or in part, by the tenant expense reimbursements and contractual rent increases described above. Cash Flow SummaryThe following summary discussion of our cash flows is based on the Consolidated Statements of Cash Flows and is not meant to be an all-inclusive discussion of the changes in our cash flows for the periods presented below. The following table sets forth changes in cash flows (in thousands):Year Ended December 31,20242023ChangeNet cash provided by (used in) operating activities\$1,070,497Ä \$956,242Ä \$114,255Ä Net cash provided by (used in) investing activities(113,799)(576,754)462,955Ä Net cash provided by (used in) financing activities(941,416)(337,299)(604,117)Operating Cash FlowsOur cash flows from operations are dependent upon the occupancy levels of our buildings, rental rates on leases, our tenantsÄ performance on their lease obligations, the level of operating expenses, and other factors. Our net cash provided by operating activities increased \$114 million for the year ended December 31, 2024 compared to the year ended December 31, 2023 primarily as a result of:Ä (i) an increase in Adjusted NOI from properties acquired as part of the Merger, (ii) developments and redevelopments placed in service during 2023 and 2024, (iii) annual rent increases, and (iv) new leasing and renewal activity. The increase in net cash provided by operating activities was partially offset by: (i) an increase in merger-related costs and (ii) an increase in cash paid for interest.59Table of ContentsInvesting Cash FlowsOur cash flows from investing activities are generally used to fund acquisitions, developments, and redevelopments of real estate, net of proceeds received from sales of real estate, and repayments on loans receivable. Our net cash used in investing activities decreased \$463 million for the year ended December 31, 2024 compared to the year ended December 31, 2023 primarily as a result of the following: (i) an increase in proceeds from sales of real estate, (ii) a reduction in cash used for development and redevelopment of real estate, (iii) proceeds received from the Callan Ridge JV transaction, (iv) a reduction in investments in unconsolidated joint ventures, and (v) a reduction in cash used for acquisitions of real estate. The decrease in cash used in investing activities was partially offset by: (i) cash paid in connection with the Merger, (ii) a decrease in proceeds from principal repayments on loans receivable and marketable debt securities, (iii) an increase in fundings of loans receivable, and (iv) a decrease in proceeds received from insurance recoveries.Financing Cash FlowsOur cash flows from financing activities are generally impacted by issuances and/or repurchases of equity, borrowings and repayments under our bank line of credit and commercial paper program, senior unsecured notes, term loans, and mortgage debt, net of dividends paid to common shareholders. Our net cash used in financing activities increased \$604 million for the year ended December 31, 2024 compared to the year ended December 31, 2023 primarily as a result of the following: (i) higher net repayments under the commercial paper program, (ii) repurchases of common stock under our 2022 Share Repurchase Program, (iii) an increase in dividends paid on common stock, (iv) cash used to buy out four redeemable noncontrolling interests in April 2024, and (v) an increase in payments for deferred financing costs. The increase in cash used in financing activities was partially offset by lower repayments of mortgage debt.Discontinued OperationsOperating, investing, and financing cash flows in our Consolidated Statements of Cash Flows are reported inclusive of both cash flows from continuing operations and cash flows from discontinued operations. Certain significant cash flows from discontinued operations are disclosed in Note 18 to the Consolidated Financial Statements.DebtIn December 2024, we amended our Revolving Facility to extend the maturity date to January 2029, which may be further extended pursuant to two six-month extension options, subject to certain customary conditions.On March 1, 2024, concurrently with the consummation of the Merger, we assumed the following debt instruments: (i) \$1.25Ä billion aggregate principal of senior unsecured notes, (ii) the \$400Ä million 2028 Term Loan, and (iii) \$128Ä million aggregate principal of mortgage debt. Additionally, on March 1, 2024, concurrently with the consummation of the Merger, we executed the \$750Ä million 2029 Term Loan, which is an incremental facility under our existing term loan agreement. In January 2024, we entered into forward-starting interest rate swap instruments that are designated as cash flow hedges that effectively established a fixed interest rate for the 2029 Term Loan at a blended effective interest rate of 4.66%. Additionally, on March 1, 2024, in connection with the consummation of the Merger, we acquired: (i) three interest rate swap instruments that are

designated as cash flow hedges that effectively establish a fixed interest rate for the 2028 Term Loan in a blended effective interest rate of 4.44% and (ii) one interest rate swap instrument on \$36A million of variable rate mortgage debt that was designated as a cash flow hedge prior to the maturity of the interest rate swap instrument in October 2024. See Note 11 to the Consolidated Financial Statements for additional information about our outstanding debt. Approximately 97% and 90% of our consolidated debt was fixed rate debt as of DecemberA 31, 2024 and 2023, respectively. At DecemberA 31, 2024, our fixed rate debt and variable rate debt had weighted average effective interest rates of 4.04% and 5.56%, respectively. At DecemberA 31, 2023, our fixed rate debt and variable rate debt had weighted average effective interest rates of 3.70% and 5.72%, respectively. As of DecemberA 31, 2024, we had the following swapped to fixed rates through interest rate swap instruments: (i) the \$750A million 2029 Term Loan, (ii) the \$500 million 2027 Term Loans, (iii) the \$400 million 2028 Term Loan, and (iv) \$142A million of variable rate mortgage debt. These interest rate swap instruments are designated as cash flow hedges. For purposes of classification of the amounts above, variable rate debt with a derivative financial instrument designated as a cash flow hedge is reported as fixed rate debt due to us having effectively established a fixed interest rate for the underlying debt instrument. For a more detailed discussion of our interest rate risk, see [Accounting 7A](#), Quantitative and Qualitative Disclosures About Market Risk, below.

[Table of Contents](#)
[Supplemental Guarantor Information](#)

Healthpeak OP has issued the senior unsecured notes issued by Healthpeak prior to the consummation of the Merger as described in Note 11 to the Consolidated Financial Statements. The obligations of Healthpeak OP to pay principal, premiums, if any, and interest on such senior unsecured notes are guaranteed on a full and unconditional basis by the Company, DOC DR Holdco, and DOC DR OP Sub. Additionally, DOC DR OP Sub is the issuer, as successor to the Physicians Partnership upon the Merger, of the senior unsecured notes issued by the Physicians Partnership prior to, and assumed by Healthpeak as part of, the Merger as described in Note 11 to the Consolidated Financial Statements. The obligations of DOC DR OP Sub to pay principal, premiums, if any, and interest on such senior unsecured notes are guaranteed on a full and unconditional basis by the Company, Healthpeak OP, and DOC DR Holdco. Subsidiary issuers of obligations guaranteed by the parent are not required to provide separate financial statements, provided that the parent guarantee is [effective](#) and unconditional, the subsidiary obligor is a consolidated subsidiary of the parent company, the guaranteed security is debt or debt-like, and consolidated financial statements of the parent company have been filed. Accordingly, separate consolidated financial statements of Healthpeak OP, DOC DR Holdco, and DOC DR OP Sub have not been presented. As permitted under Rule 13-01 of Regulation S-X, we have excluded the summarized financial information for the Company, Healthpeak OP, DOC DR Holdco, and DOC DR OP because the Company, Healthpeak OP, DOC DR Holdco, and DOC DR OP have no material assets, liabilities, or operations other than the debt financing activities described in the first paragraph of Note 11 to the Consolidated Financial Statements and their investments in non-guarantor subsidiaries, and management believes such summarized financial information would be repetitive and would not provide incremental value to investors. Equity At DecemberA 31, 2024, we had 699 million shares of common stock outstanding, equity totaled \$9.1 billion, and our equity securities had a market value of \$14.5 billion. The Merger Pursuant to the terms set forth in the Merger Agreement, on the Closing Date, each outstanding share of Physicians Realty Trust (other than Physicians Realty Trust common shares that were canceled in accordance with the Merger Agreement) automatically converted into the right to receive 0.674 shares of our common stock. Based on the number of outstanding Physicians Realty Trust common shares as of the Closing Date, we issued 162A million shares of our common stock. Refer to Note 3 to the Consolidated Financial Statements for additional information regarding the Merger. At The Market Program In February 2023, in connection with the Reorganization, we terminated our previous at-the-market equity offering program and established a new at-the-market equity offering program (the [ATM Program](#)) that allows for the sale of shares of common stock having an aggregate gross sales price of up to \$1.5 billion. The ATM Program was amended in March 2024 to contemplate the sale of the remaining shares of common stock pursuant to the Company's Registration Statement on Form S-3 filed with the SEC on February 8, 2024. In addition to the issuance and sale of shares of our common stock, we may also enter into one or more forward sales agreements (each, an [ATM forward contract](#)) with sales agents for the sale of our shares of common stock under our ATM Program. During the year ended DecemberA 31, 2024, we did not issue any shares of our common stock under any ATM Program. At DecemberA 31, 2024, \$1.5 billion of our common stock remained available for sale under the ATM Program. Actual future sales of our common stock will depend upon a variety of factors, including but not limited to market conditions, the trading price of our common stock, and our capital needs. We have no obligation to sell any shares under our ATM Program. See Note 13 to the Consolidated Financial Statements for additional information about our ATM Program.

[Table of Contents](#)
[Noncontrolling Interests](#)
[Healthpeak OP](#)

Immediately following the Reorganization, Healthpeak Properties, Inc. was the initial sole member and 100% owner of Healthpeak OP. Subsequent to the Reorganization, certain of our employees ([OP Unitholders](#)) have been issued noncontrolling, non-managing member units in Healthpeak OP ([OP Units](#)). During the three months ended March 31, 2024, OP Unitholders were issued approximately 2A million OP Units. When certain conditions are met, the OP Unitholders have the right to require redemption of part or all of their OP Units for cash or shares of our common stock, at our option as managing member of Healthpeak OP. The per unit redemption amount is equal to either one share of our common stock or cash equal to the fair value of a share of common stock at the time of redemption. We classify the OP Units in permanent equity because we may elect, in our sole discretion, to issue shares of our common stock to OP Unitholders who choose to redeem their OP Units rather than using cash. As of DecemberA 31, 2024, there were approximately 3A million OP Units outstanding, 76A thousand of which had met the criteria for redemption. DownREITs. During the year ended DecemberA 31, 2024, in connection with the Merger, Physicians Partnership merged with and into DOC DR OP Sub with DOC DR OP Sub surviving as the Partnership Surviving Entity. As of DecemberA 31, 2024, approximately 6A million DownREIT units in the Partnership Surviving Entity were outstanding (6A million shares of Healthpeak common stock are issuable upon conversion). Refer to Note 3 to the Consolidated Financial Statements for additional information regarding the Merger. At DecemberA 31, 2024, non-managing members held an aggregate of approximately 11 million units in eight limited liability companies for which we hold controlling interests and/or are the managing member. The DownREIT units are exchangeable for an amount of cash approximating the then-current market value of shares of our common stock or, at our option, shares of our common stock (subject to certain adjustments, such as stock splits and reclassifications). At DecemberA 31, 2024, the outstanding DownREIT units were convertible into approximately 14A million shares of our common stock. Share Repurchase Programs On August 1, 2022, our Board of Directors approved a share repurchase program under which we could acquire shares of our common stock in the open market up to an aggregate purchase price of \$500A million (the [2022 Share Repurchase Program](#)). Purchases of common stock under the 2022 Share Repurchase Program could be exercised at our discretion with the timing and number of shares repurchased depending on a variety of factors, including price, corporate and regulatory requirements, and other corporate liquidity requirements and priorities. Through July 24, 2024, we repurchased 10.5A million shares of our common stock under the 2022 Share Repurchase Program at a weighted average price of \$17.98 per share for a total of \$188A million. On July 24, 2024, our Board of Directors approved a new share repurchase program (the [2024 Share Repurchase Program](#)) to supersede and replace the 2022 Share Repurchase Program. Upon adoption of the 2024 Share Repurchase Program, no further share repurchases may be made pursuant to the 2022 Share Repurchase Program. Under the 2024 Share Repurchase Program, we may acquire shares of our common stock in the open market or other similar purchase techniques (including in compliance with the safe harbor provisions of Rule 10b-18 under the Exchange Act or pursuant to one or more plans adopted under Rule 10b5-1 promulgated under the Exchange Act), up to an aggregate purchase price of \$500 million. Purchases of common stock under the 2024 Share Repurchase Program may be exercised at our discretion with the timing and number of shares repurchased depending on a variety of factors, including price, corporate and regulatory requirements, and other corporate liquidity requirements and priorities. The 2024 Share Repurchase Program expires in July 2026 and may be suspended or terminated at any time without prior notice. As of DecemberA 31, 2024, no shares have been repurchased under the 2024 Share Repurchase Program. Therefore, at DecemberA 31, 2024, \$500A million of the Company's common stock remained available for repurchase under the 2024 Share Repurchase Program. Shelf Registration On February 8, 2024, the Company and Healthpeak OP jointly filed a prospectus with the SEC as part of a registration statement on Form S-3, using an automatic shelf registration process. This shelf registration statement expires on February 8, 2027 and at or prior to such time, we expect to file a new shelf registration statement. Under the [shelf](#) process, we may sell any combination of the securities described in the prospectus through one or more offerings. The securities described in the prospectus include future offerings of: (i) the Company's common stock, preferred stock, depositary shares, warrants, debt securities, and guarantees by the Company of debt securities issued by Healthpeak OP and/or by the Company's existing and future subsidiaries, and (ii) Healthpeak OP's debt securities and guarantees by Healthpeak OP of debt securities issued by the Company and/or by Healthpeak OP's existing and future subsidiaries.

our best estimates based on our evaluation of the specific characteristics of each tenant’s lease. Factors considered include estimates of carrying costs during hypothetical expected lease-up periods, market conditions, and costs to execute similar leases. Our assumptions affect the amount of future revenue and/or depreciation and amortization expense that we will recognize over the remaining useful life for the acquired in-place leases. Our fair value estimates for loans receivable and debt consider market-based information, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active (markets with few transactions), inputs other than quoted prices that are observable for the asset or liability (i.e., interest rates, yield curves, etc.) and inputs that are derived principally from or corroborated by observable market data correlation or other means (market corroborated inputs). Our fair value estimates for joint ventures consider ownership interests, subordination characteristics, redemption values, discounts for lack of control (as applicable), and hypothetical liquidation waterfalls.

Impairment of Long-Lived AssetsWe assess the carrying value of our real estate assets and related intangibles (real estate assets) when events or changes in circumstances indicate that the carrying value may not be recoverable. Recoverability of real estate assets is measured by comparing the carrying amount of the real estate assets to the respective estimated future undiscounted cash flows. The expected future undiscounted cash flows reflect external market factors, and based on the specific facts and circumstances, may be probability-weighted to reflect multiple possible cash-flow scenarios, including selling the assets at various points in the future. Additionally, the estimated future undiscounted cash flows are calculated utilizing the lowest level of identifiable cash flows that are largely independent of the cash flows of other assets and liabilities. In order to review our real estate assets for recoverability, we make assumptions regarding external market conditions (including capitalization rates and growth rates), forecasted cash flows and sales prices, and our intent with respect to holding or disposing of the asset. If our analysis indicates that the carrying value of the real estate assets is not recoverable on an undiscounted cash flow basis, we recognize an impairment charge for the amount by which the carrying value exceeds the fair value of the real estate assets. Determining the fair value of real estate assets, including assets classified as held for sale, involves significant judgment and generally utilizes market capitalization rates, comparable market transactions, estimated per unit or per square foot prices, negotiations with prospective buyers, and forecasted cash flows (primarily lease revenue rates, expense rates, and growth rates). Our ability to accurately predict future operating results and resulting cash flows, and estimate fair values, impacts the timing and recognition of impairments. While we believe our assumptions are reasonable, changes in these assumptions may have a material impact on our consolidated financial statements.

Recent Accounting PronouncementsSee Note 2 to the Consolidated Financial Statements for the impact of new accounting standards.

ITEM 7A. A Quantitative and Qualitative Disclosures About Market RiskWe are exposed to various market risks, primarily from the potential loss arising from adverse changes in interest rates. We use derivative and other financial instruments in the normal course of business to mitigate interest rate risk. We do not use derivative financial instruments for speculative or trading purposes. Derivatives are recorded on the Consolidated Balance Sheets at fair value (see Note 22 to the Consolidated Financial Statements). To illustrate the effect of movements in the interest rate markets, we performed a market sensitivity analysis on our hedging instruments. We applied various basis point spreads to the underlying interest rate curves of our derivative portfolio in order to determine the change in fair value. At December 31, 2024, a one percentage point increase or decrease in the underlying interest rate curve would result in a corresponding increase or decrease in the fair value of the derivative instruments by up to \$53A million.

Table of ContentsInterest Rate RiskAt December 31, 2024, our exposure to interest rate risk was primarily on our variable rate debt. At December 31, 2024, we had the following swapped to fixed rates through interest rate swap instruments: (i) the \$750A million 2029 Term Loan, (ii) the \$500 million 2027 Term Loans, (iii) the \$400 million 2028 Term Loan, and (iv) \$142A million of variable rate mortgage debt. The interest rate swap instruments are designated as cash flow hedges, with the objective of managing the exposure to interest rate risk by converting the interest rates on our variable rate debt to fixed interest rates. At December 31, 2024, both the fair value and carrying value of the interest rate swap instruments were \$35A million. Our remaining variable rate debt at December 31, 2024 was comprised of borrowings under our commercial paper program and certain of our mortgage debt. Interest rate fluctuations will generally not affect our future earnings or cash flows on our fixed rate debt and assets until their maturity or earlier prepayment and refinancing. If interest rates have risen at the time we seek to refinance our fixed rate debt, whether at maturity or otherwise, our future earnings and cash flows could be adversely affected by additional borrowing costs. Conversely, lower interest rates at the time of refinancing may reduce our overall borrowing costs. Interest rate changes will affect the fair value of our fixed rate instruments. At December 31, 2024, a one percentage point increase in interest rates would decrease the fair value of our fixed rate debt by approximately \$241 million and a one percentage point decrease in interest rates would increase the fair value of our fixed rate debt by approximately \$259 million. Additionally, at December 31, 2024, a one percentage point increase or decrease in interest rates would change the fair value of our fixed rate loans receivable by approximately \$15 million. These changes would not materially impact earnings or cash flows. Conversely, changes in interest rates on variable rate debt would change our future earnings and cash flows, but not materially impact the fair value of those instruments. Assuming a one percentage point increase in the interest rates related to our variable rate debt, and assuming no other changes in the outstanding balance at December 31, 2024, our annual interest expense would increase by approximately \$3 million. Lastly, assuming a one percentage point decrease in the interest rates related to our variable rate loans receivable, and assuming no other changes in the outstanding balance at December 31, 2024, our annual interest income would decrease by approximately \$1 million.

Table of ContentsITEM 8. A A Financial Statements and Supplementary DataHealthpeak Properties, Inc. Opinion on the Financial StatementsWe have audited the accompanying Consolidated Balance Sheets of Healthpeak Properties, Inc. and subsidiaries (the Company) as of December 31, 2024 and 2023, the related Consolidated Statements of Operations, Comprehensive Income (Loss), Equity and Redeemable Noncontrolling Interests, and Cash Flows, for each of the three years in the period ended December 31, 2024, and the related Notes and the schedules listed in the Index at Item 15 (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024 and 2023, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2024, in conformity with accounting principles generally accepted in the United States of America. We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 4, 2025, expressed an unqualified opinion on the Company’s internal control over financial reporting. Basis for Opinion These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit MattersThe critical audit matters communicated below are matters arising from the current-period audit of the financial statements that were communicated or required to be communicated to the audit committee and that (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Impairments – Real Estate Refer to Notes 2 and 6 to the financial statements.

Critical Audit Matter Description The Company’s evaluation of impairment of real estate involves an assessment of the carrying value of real estate assets and related intangibles (real estate assets) when events or changes in circumstances indicate that the carrying value may not be recoverable. Auditing the Company’s process to evaluate real estate assets for impairment was complex due to the subjectivity in determining whether impairment indicators were present. Additionally, for real estate assets where indicators of impairment were determined to be present, the determination of the future undiscounted cash flows involved significant judgment. In particular, the undiscounted cash flows were forecasted based on significant assumptions such as lease-up periods, lease revenue rates, operating expenses, and revenue and expense growth rates, and included judgments around the intended hold period and terminal capitalization rates. Given the Company’s evaluation of impairment indicators, forecasted cash flows, and sales prices of a long-lived asset requires management to make significant estimates and assumptions related to market capitalization rates, market prices per unit, and/or forecasted cash flows, performing audit procedures required a high degree of auditor judgment and an increased extent of effort.

Table of ContentsHow the Critical Audit Matter Was Addressed in the AuditOur audit procedures related to real estate asset impairment included the following, among others: We tested the effectiveness of controls over impairment of real estate assets, including those over identifying impairment indicators, and the determination of forecasted undiscounted cash flows and sales prices for real estate assets. We performed an independent search for impairment indicators through the evaluation of several factors including an analysis of industry and market data and trends in financial performance. For real estate assets where indicators of impairment were determined to be present, we subjected a sample of undiscounted cash flow models to testing by (1) evaluating the source information and assumptions used by management, (2) testing the mathematical accuracy of the undiscounted cash flow models, and (3) evaluating management’s intended hold period.

Business Combination – Physicians Realty Trust Merger Valuation Refer to Notes 2 and 3 to the financial statements.

Critical Audit Matter Description The Company completed the acquisition of Physicians Realty Trust on March 1, 2024 for total consideration of \$3.0A billion. The Company accounted for this acquisition as a business combination. Accordingly, the purchase price was allocated to the assets acquired, liabilities assumed, and noncontrolling interests based on their relative fair values, including approximately \$3.7A billion of consolidated real estate, \$891A million in related intangible assets, and \$150A million in related intangible liabilities. The fair value determination of the real estate assets acquired and liabilities assumed required management to make significant estimates related to assumptions such as market land values, discount rates, capitalization rates, costs to execute similar leases, and fair market lease rates. Given the fair value determination of assets acquired and liabilities assumed requires management to make significant estimates and assumptions such as market land values, discount rates, capitalization rates, costs to execute similar leases, and fair market lease rates, performing audit procedures to evaluate the reasonableness of these assumptions required a high degree of auditor judgment and an increased extent of effort, including the need to involve our fair value specialists. How the Critical Audit Matter Was Addressed in the AuditOur audit procedures related to the fair value of real estate assets acquired and liabilities assumed included the following, among others: We tested the effectiveness of controls over the purchase price allocation, including management’s controls over the identification of real estate assets, and the valuation methodology for estimating the fair value of real estate assets acquired and liabilities assumed. With the assistance of our fair value specialists, we evaluated the reasonableness of the (1) valuation methodology, (2) relevant market data, and (3) assumptions used in the valuation of land, buildings, and related intangible assets and liabilities, including testing the mathematical accuracy of the calculations, and comparing management’s assumptions to independently validated data sources used by market participants. We assessed the accuracy and completeness of the underlying data used in the valuation of land, buildings, and related intangible assets and liabilities including in-place lease agreements, square footage, and historical operating data./

DELOITTE & TOUCHE LLPCosta Mesa, CaliforniaFebruary 4, 2025We have served as the Company’s auditor since 2010.

[illegible]

classified as held-for-investment based on management's intent and ability to hold the loans for the foreseeable future or to maturity. Loans held-for-investment are carried at amortized cost and reduced by a valuation allowance for estimated credit losses, as necessary. When collectibility of the future payments is reasonably assured, the Company utilizes the interest method on a loan-by-loan basis to recognize interest income on its loans, which includes the amortization of discounts and premiums as well as loan fees paid and received. Management Fee Income

The Company provides various services to certain of its unconsolidated joint ventures in exchange for fees and reimbursement. These services are considered related party transactions under ASC 850, Related Party Disclosures. Management fee income is recognized in interest income and other on the Consolidated Statements of Operations. Gain (Loss) on Sales of Real Estate, Net

The Company recognizes a gain (loss) on sale of real estate when the criteria for an asset to be derecognized are met, which include when: (i) a contract exists, (ii) the buyer obtains control of the asset, and (iii) it is probable that the Company will receive substantially all of the consideration to which it is entitled. These criteria are generally satisfied at the time of sale.

Table of Contents

Government Grant Income

On March 27, 2020, the federal government enacted the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) to provide financial aid to individuals, businesses, and state and local governments. During the years ended December 31, 2023 and 2022, the Company received government grants under the CARES Act primarily to cover increased expenses and lost revenues during the coronavirus pandemic. Grant income is recognized to the extent that qualifying expenses and lost revenues exceed grants received and the Company will comply with all conditions attached to the grant. As of December 31, 2024, the amount of qualifying expenditures and lost revenues exceeded grant income recognized and the Company believes it has complied and will continue to comply with all grant conditions. In the event of non-compliance, all such amounts received are subject to recapture. The following table summarizes information related to government grant income received and recognized by the Company (in thousands):

Year Ended December 31, 2024	2023	2022
Government grant income recorded in other income (expense), net	\$184.4	\$6,765.4
Government grant income recorded in equity income (loss) from unconsolidated joint ventures	\$229.4	\$78.4

Government grant income recorded in income (loss) from discontinued operations \$217.4 | Total government grants received | \$413.4 | \$7,860.4 || Credit Losses | The Company evaluates the liquidity and creditworthiness of its occupants, operators, and borrowers on a monthly and quarterly basis to determine whether any updates to the future expected losses recognized upon inception are necessary. The Company's evaluation considers payment history and current credit status, industry conditions, current economic conditions, forecasted economic conditions, individual and portfolio property performance, credit enhancements, liquidity, and other factors. Future economic conditions are based primarily on near-term economic forecasts from the Federal Reserve and reasonable assumptions for long-term economic trends. The determination of loan losses also considers concentration of credit risk associated with the senior housing and outpatient medical industries to which its loans receivable relate. The Company's occupants, operators, and borrowers furnish property, portfolio, and guarantor/operator-level financial statements, among other information, on a monthly or quarterly basis; the Company utilizes this financial information to calculate the lease or debt service coverages in its assessment of internal ratings that it uses as a primary credit quality indicator. Lease and debt service coverage information is evaluated together with other property, portfolio, and operator performance information, including revenue, expense, net operating income, occupancy, rental rate, reimbursement trends, capital expenditures, and EBITDA (defined as earnings before interest, tax, and depreciation and amortization), along with other liquidity measures. The Company evaluates, on a monthly basis or immediately upon a significant change in circumstance, its occupants', operators', and borrowers' ability to service their obligations with the Company. In connection with the Company's quarterly review process or upon the occurrence of a significant event, loans receivable and DFLs (collectively, "finance receivables"), are reviewed and assigned an internal rating of Performing, Watch List, or Workout. Finance receivables that are deemed Performing meet all present contractual obligations, and collection and timing, of all amounts owed is reasonably assured. Watch List finance receivables are defined as finance receivables that do not meet the definition of Performing or Workout. Workout finance receivables are defined as finance receivables in which the Company has determined, based on current information and events, that: (i) it is probable it will be unable to collect all amounts due according to the contractual terms of the agreement, (ii) the tenant, operator, or borrower is delinquent on making payments under the contractual terms of the agreement, and (iii) the Company has commenced action or anticipates pursuing action in the near term to seek recovery of its investment. |

Table of Contents

Finance receivables are placed on nonaccrual status when management determines that the collectibility of contractual amounts is not reasonably assured (the asset will have an internal rating of either Watch List or Workout). Further, the Company performs a credit analysis to support the tenant's, operator's, borrower's, and/or guarantor's repayment capacity and the underlying collateral values. The Company uses the cash basis method of accounting for finance receivables placed on nonaccrual status unless one of the following conditions exist whereby it utilizes the cost recovery method of accounting if: (i) the Company determines that it is probable that it will only recover the recorded investment in the finance receivable, net of associated allowances or charge-offs (if any), or (ii) the Company cannot reasonably estimate the amount of an impaired finance receivable. For cash basis method of accounting, the Company applies payments received, excluding principal paydowns, to interest income so long as that amount does not exceed the amount that would have been earned under the original contractual terms. For cost recovery method of accounting, any payment received is applied to reduce the recorded investment. Generally, the Company returns a finance receivable to accrual status when all delinquent payments become current under the terms of the loan or lease agreements and collectibility of the remaining contractual loan or lease payments is reasonably assured. At inception of a finance receivable, the Company recognizes an allowance for credit losses expected to be incurred over the life of the instrument. The model utilized by the Company to determine such losses emphasizes historical experience and future market expectations to determine a loss to be recognized at inception. However, the model is applied on an individual basis and relies on counter-party specific information to ensure the most accurate estimate is recognized. The Company also performs a quarterly review process (or upon the occurrence of a significant event) to evaluate its borrowers' creditworthiness and liquidity to determine the amount of credit losses to recognize during the period. If a finance receivable is deemed partially or wholly uncollectible, the uncollectible balance is deducted from the allowance in the period in which such determination is made. Credit loss expenses and recoveries are recorded in impairments and loan loss reserves (recoveries), net. Real Estate

The Company's real estate acquisitions are generally classified as asset acquisitions for which the Company records identifiable assets acquired, liabilities assumed, and any associated noncontrolling interests at cost on a relative fair value basis. In addition, for such asset acquisitions, no goodwill is recognized, third party transaction costs are capitalized and any associated contingent consideration is generally recorded when the amount of consideration is reasonably estimable and probable of being paid. The Company assesses fair value based on available market information, such as capitalization and discount rates, comparable sale transactions, and relevant per square foot or unit cost information. A real estate asset's fair value may be determined utilizing cash flow projections that incorporate such market information. Estimates of future cash flows are based on a number of factors including historical operating results, known and anticipated trends, as well as market and economic conditions. The fair value of tangible assets of an acquired property is based on the value of the property as if it is vacant. The Company recognizes acquired above and below market leases at their relative fair value (for asset acquisitions) using discount rates which reflect the risks associated with the leases acquired. The fair value is based on the present value of the difference between (i) the contractual amounts paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each in-place lease, measured over a period equal to the remaining term of the lease for above market leases and the initial term plus the extended term for any leases with renewal options that are reasonably certain to be exercised. Other intangible assets acquired include amounts for in-place lease values that are based on an evaluation of the specific characteristics of each property and the acquired tenant lease(s). Factors considered include estimates of carrying costs during hypothetical expected lease-up periods, market conditions, and costs to execute similar leases. In estimating carrying costs, the Company includes estimates of lost rents at market rates during the hypothetical expected lease-up periods, which are dependent on local market conditions and expected trends. In estimating costs to execute similar leases, the Company considers leasing commissions, legal, and other related costs. Certain of the Company's acquisitions involve the assumption of contract liabilities. The Company typically estimates the fair value of contract liabilities by applying a reasonable profit margin to the total discounted estimated future costs associated with servicing the contract. A variety of market and contract-specific conditions are considered when making assumptions that impact the estimated fair value of the contract liability.

Table of Contents

The Company capitalizes direct construction and development costs, including predevelopment costs, interest, property taxes, insurance, and other costs directly related and essential to the development or construction of a real estate asset. The Company capitalizes construction and development costs while substantive activities are ongoing to prepare an asset for its intended use. During the holding or development period, certain real estate assets generate incidental income that is not associated with the future profit or return from the intended use of the property. Such income is recognized as a reduction of the associated project costs. The Company considers a construction project as substantially complete and held available for occupancy upon the completion of Company-owned tenant improvements, but no later than one year from cessation of significant construction activity. Costs incurred after a project is substantially complete and ready for its intended use, or after development activities have ceased, are expensed as incurred. For redevelopment of existing operating properties, the Company capitalizes the cost for the construction and improvement incurred in connection with the redevelopment. Costs previously capitalized related to abandoned developments/redevelopments are charged to earnings. Expenditures for repairs and maintenance are expensed as incurred. The Company considers costs incurred in conjunction with re-leasing properties, including tenant improvements and lease commissions, to represent the acquisition of productive assets and such costs are reflected as investing activities in the Company's Consolidated Statements of Cash Flows. Initial direct costs incurred in connection with successful property leasing are capitalized as deferred leasing costs and classified as investing activities in the Consolidated Statements of Cash Flows. Initial direct costs include only those costs that are incremental to the arrangement and would not have been incurred if the lease had not been obtained. Initial direct costs consist of leasing commissions paid to employees and external third party brokers and lease incentives. Initial direct costs are included in other assets, net in the Consolidated Balance Sheets. At December 31, 2024 and 2023, the balance of net initial direct costs were \$204.4 million and \$172.4 million, respectively. Initial direct costs are amortized in depreciation and amortization in the Consolidated Statements of Operations using the straight-line method over the lease term. The Company computes depreciation on properties using the straight-line method over the asset's estimated useful lives. These useful lives are reassessed following changes in the remaining period that the asset is expected to be held and used, and depreciation is discontinued when a property meets the criteria to be classified as held for sale. Buildings and improvements are depreciated over useful lives ranging up to 50 years. Above and below market lease intangibles are amortized to revenue over the remaining noncancellable lease terms and renewal periods that are reasonably certain to be exercised, if any. In-place lease intangibles are amortized to expense over the remaining noncancellable lease term and renewal periods that are reasonably certain to be exercised, if any. Business Combinations

For the Company's real estate acquisitions that are accounted for as business combinations, such as the Merger, the Company allocates the acquisition consideration (excluding acquisition costs) to the assets acquired, liabilities assumed, and noncontrolling interests at fair value as of the acquisition date. Any excess of the consideration transferred relative to the fair value of the net assets acquired is accounted for as goodwill. Acquisition costs related to business combinations are expensed as incurred. The fair values are determined using standard valuation methodologies, such as the cost, market, and income approach. These methodologies require various assumptions, including those of a market participant. Other Assets, Net

Other assets, net consist primarily of straight-line rent receivable (as discussed above), initial direct costs (as discussed above), deferred income taxes (see Note 17), goodwill (see Note 10), corporate assets (see Note 7), derivative assets (see Note 22), other equity investments (as discussed below and see Note 19), and prepaid expenses. Other Equity Investments

The Company has certain investments recognized in accordance with ASC 321, Investments in Equity Securities, within other assets, net on the Consolidated Balance Sheets. These investments do not have readily determinable fair values and the practical expedient to estimate fair value using net asset value per share has not been elected. Accordingly, the investments are measured at cost, less any impairments, and are adjusted for any observable price changes, with such changes included in earnings. An observable price results from an orderly transaction for an identical or similar investment of the same issuer, which is observed by an investor without expending undue cost and effort. Observable price changes may result from equity transactions of the same issuer, including subsequent equity offerings. To determine whether transactions are indicative of an observable price change, the Company evaluates, among other factors, whether the transactions have similar rights and obligations, which include voting rights, distribution rights and preferences, and conversion features.

Table of Contents

Lessee Accounting

For leases greater than 12 months for which the Company is the lessee, such as ground leases and corporate office leases, the Company recognizes a right-of-use asset and related lease liability on the Consolidated Balance Sheets at inception of the lease. The lease liability is calculated as the sum of: (i) the present value of minimum lease payments at lease commencement (discounted using the Company's secured incremental borrowing rate) and (ii) the present value of amounts probable of being paid under any residual value guarantees. Certain of the Company's lease agreements have options to extend or terminate the contract terms upon meeting certain criteria. The lease term utilized in the calculation of the lease liability includes these options if they are considered reasonably certain of exercise. The right-of-use asset is calculated as the lease liability, adjusted for the following: (i) any lease payments made to the lessor at or before the commencement date, minus any lease incentives received and (ii) any initial direct costs incurred by the Company. Lease expense related to corporate assets is included in general and administrative expenses and lease expense related to ground leases is included within operating expenses in the Company's Consolidated Statements of Operations. For leases with a noncancellable lease term of 12 months or less for which the Company is the lessee, the Company recognizes expenses on a straight-line basis and does not recognize such leases on the Consolidated Balance Sheets. Impairment of Long-Lived Assets and Goodwill

The Company assesses the carrying value of real estate assets and related intangibles (other real assets) when events or changes in circumstances indicate that the carrying value may not be recoverable. The Company tests its real estate assets for impairment by comparing the sum of the expected future undiscounted cash flows to the carrying value of the real estate assets. The expected future undiscounted cash flows reflect external market factors and the expected use and eventual disposition of the asset, and based on the specific facts and circumstances, may be probability-weighted to reflect multiple possible cash-flow scenarios, including selling the assets at various points in the future. Further, the analysis considers the impact, if any, of master lease agreements on cash flows, which are calculated utilizing the lowest level of identifiable cash flows that are largely independent of the cash flows of other assets and liabilities. If the carrying value exceeds the expected future undiscounted cash flows, an impairment loss will be recognized to the extent that the carrying value of the real estate assets exceeds their fair value. Determining the fair value of real estate assets, including assets classified as held-for-sale, involves significant judgment and generally utilizes market capitalization rates, comparable market transactions, estimated per unit or per square foot prices, negotiations with prospective buyers, and forecasted cash flows (primarily lease revenue rates, expense rates, and growth rates). When testing goodwill for impairment, if the Company concludes that it is more likely than not that the fair value of a reporting unit is less than its carrying value, the Company recognizes an impairment loss for the amount by which the carrying value, including goodwill, exceeds the reporting unit's fair value. Assets Held for Sale and Discontinued Operations

The Company classifies a real estate property as held for sale when: (i) management has approved the disposal, (ii) the property is available for sale in its present condition, (iii) an active program to locate a buyer has been initiated, (iv) it is probable that the property will be disposed of within one year, (v) the property is being marketed at a reasonable price relative to its fair value, and (vi) it is unlikely that the disposal plan will significantly change or be withdrawn. If a real estate property is classified as held for sale, it is reported at the lower of its carrying value or fair value less costs to sell and no longer depreciated. The Company classifies a loan receivable as held for sale when management no longer has the intent and ability to hold the loan receivable for the foreseeable future or until maturity. If a loan receivable is classified as held for sale, it is reported at the lower of amortized cost or fair value. A discontinued operation represents: (i) a component of the Company or group of components that has been disposed of or is classified as held for sale in a single transaction and represents a strategic shift that has or will have a major effect on the Company's operations and financial results or (ii) an acquired business that is classified as held for sale on the date of acquisition. Examples of a strategic shift may include disposing of: (i) a separate major line of business, (ii) a separate major geographic area of operations, or (iii) other major parts of the Company. Senior Housing Triple-Net and Senior Housing Operating Portfolio Dispositions

In 2020, the Company concluded that the dispositions of its senior housing triple-net and SHOP portfolios represented a strategic shift that had a major effect on its operations and financial results. Therefore, the results of senior housing triple-net and SHOP assets are classified as discontinued operations in all periods presented herein. In September 2021, the Company successfully completed the disposition of the remaining senior housing triple-net and SHOP properties. See Note 5 for further information.

Table of Contents

Investments in Unconsolidated Joint Ventures

Investments in entities the Company does not consolidate, but over which the Company has the ability to exercise significant influence over operating and financial policies, are reported under the equity method of accounting. Under the equity method of accounting, the Company's share of the investee's earnings or losses is included in equity income (loss) from unconsolidated joint ventures within

the Company’s Consolidated Statements of Operations. The initial carrying value of investments in unconsolidated joint ventures is based on the amount paid to purchase the joint venture interest, the fair value of assets contributed to the joint venture, or the fair value of the assets prior to the sale of interests in the joint venture. To the extent that the Company’s cost basis is different from the basis reflected at the joint venture level, the basis difference is generally amortized over the lives of the related assets and liabilities, and such amortization is included in the Company’s share of equity in earnings of the joint venture. If an equity method investment shows indicators of impairment, the Company evaluates its equity method investments for impairment based on a comparison of the fair value of the equity method investment to its carrying value. When the Company determines a decline in fair value below carrying value of an investment in an unconsolidated joint venture is other-than-temporary, an impairment is recorded. The Company recognizes gains on the sale of interests in joint ventures to the extent the economic substance of the transaction is a sale. The Company’s fair values of its equity method investments are determined based on discounted cash flow models that include all estimated cash inflows and outflows over a specified holding period and, where applicable, any estimated debt premiums or discounts. Capitalization rates, discount rates, and credit spreads utilized in these valuation models are based on assumptions that the Company believes to be within a reasonable range of current market rates for the respective investments. Stock-Based Compensation Compensation expense for share-based awards granted to employees with graded vesting schedules is generally recognized on a straight-line basis over the vesting period. Forfeitures of share-based awards are recognized as they occur. Cash and Cash Equivalents and Restricted Cash Cash and cash equivalents consist of cash on hand and short-term investments with original maturities of three months or less when purchased. Restricted cash primarily consists of amounts held by mortgage lenders to provide for: (i) real estate tax expenditures, (ii) tenant improvements, and (iii) capital expenditures, as well as security deposits and net proceeds from property sales that were executed as tax-deferred dispositions. The Company maintains its cash and cash equivalents at financial institutions insured by the Federal Deposit Insurance Corporation (the FDIC) up to \$250,000 per institution. As the account balances at each institution periodically exceed the FDIC insurance coverage, there is a concentration of credit risk related to amounts in excess of such coverage. Derivatives and Hedging During its normal course of business, the Company uses certain types of derivative instruments for the purpose of managing interest rate risk. To qualify for hedge accounting, derivative instruments used for risk management purposes must effectively reduce the risk exposure that they are designed to hedge. In addition, at inception of a qualifying cash flow hedging relationship, the underlying transaction or transactions, must be, and are expected to remain, probable of occurring in accordance with the Company’s related assertions. The Company recognizes all derivative instruments, including embedded derivatives that are required to be bifurcated, as assets or liabilities to the Consolidated Balance Sheets at fair value. Changes in fair value of derivative instruments that are not designated in hedging relationships or that do not meet the criteria of hedge accounting are recognized in other income (expense), net. For derivative instruments designated in qualifying cash flow hedging relationships, changes in fair value related to the effective portion of the derivative instruments are recognized in accumulated other comprehensive income (loss), whereas changes in fair value related to the ineffective portion would be recognized in earnings. If it is determined that a derivative instrument ceases to be highly effective as a hedge, or that it is probable the underlying forecasted transaction will not occur, the Company discontinues its cash flow hedge accounting prospectively and records the appropriate adjustment to earnings based on the current fair value of the derivative instrument. 83Table of Contents Income Taxes Healthpeak Properties, Inc. has elected REIT status and believes it has always operated so as to continue to qualify as a REIT under Sections 856 to 860 of the Internal Revenue Code of 1986, as amended (the Code). Accordingly, Healthpeak Properties, Inc. will generally not be subject to U.S. federal income tax, provided that it continues to qualify as a REIT and makes distributions to stockholders equal to or in excess of its taxable income. In addition, the Company has formed several consolidated subsidiaries that have elected REIT status. Healthpeak Properties, Inc. and its consolidated REIT subsidiaries are each subject to the REIT qualification requirements under the Code. If any REIT fails to qualify as a REIT in any taxable year, it will be subject to federal income taxes at regular corporate rates and may be ineligible to qualify as a REIT for four subsequent tax years. Healthpeak Properties, Inc. and its consolidated REIT subsidiaries are subject to state and local income taxes in some jurisdictions. In certain circumstances each REIT may also be subject to federal excise taxes on undistributed income. In addition, certain activities that the Company undertakes may be conducted by entities that have elected to be treated as taxable REIT subsidiaries (TRSs). TRSs are subject to federal, state, and local income taxes. The Company recognizes tax penalties relating to unrecognized tax benefits as additional income tax expense. Interest relating to unrecognized tax benefits is recognized as interest expense. The Company is required to evaluate its deferred tax assets for realizability and recognize a valuation allowance, which is recorded against its deferred tax assets, if it is more likely than not that the deferred tax assets will not be realized. The Company considers all available evidence in its determination of whether a valuation allowance for deferred tax assets is required. Advertising Costs All advertising costs are expensed as incurred and reported within operating expenses on the Consolidated Statements of Operations. During the years ended December 31, 2024, 2023, and 2022, total advertising expense was \$9A million, \$8A million, and \$8A million, respectively. Capital Raising Issuance Costs Costs incurred in connection with the issuance of common shares are recorded as a reduction of additional paid-in capital. Debt issuance costs related to debt instruments, excluding line of credit arrangements and commercial paper, are deferred, recorded as a reduction of the related debt liability, and amortized to interest expense over the remaining term of the related debt liability utilizing the effective interest method. Debt issuance costs related to line of credit arrangements and commercial paper are deferred, included in other assets, and amortized to interest expense on a straight-line basis over the remaining term of the related line of credit arrangement. Commercial paper are unsecured short-term debt securities with varying maturities. A line of credit serves as a liquidity backdrop for repayment of commercial paper borrowings. Penalties incurred to extinguish debt and any remaining unamortized debt issuance costs, discounts, and premiums are recognized as income or expense in the Consolidated Statements of Operations at the time of extinguishment. Segment Reporting The Company’s reportable segments, based on how it evaluates its business and allocates resources, are as follows: (i) outpatient medical, (ii) lab, and (iii) CCRC. Noncontrolling Interests Arrangements with noncontrolling interest holders are assessed for appropriate balance sheet classification based on the redemption and other rights held by the noncontrolling interest holder. Net income (loss) attributable to a noncontrolling interest is included in net income (loss) on the Consolidated Statements of Operations and, upon a gain or loss of control, the interest purchased or sold, and any interest retained, is recorded at fair value with any gain or loss recognized in earnings. The Company accounts for purchases or sales of equity interests that do not result in a change in control as equity transactions. Redeemable Noncontrolling Interests Certain of the Company’s noncontrolling interest holders have the ability to put their equity interests to the Company upon specified events or after the passage of a predetermined period of time. Each put option is payable in cash and subject to increases in redemption value in the event that the underlying property generates specified returns and meets certain promote thresholds pursuant to the respective agreements. Accordingly, the Company records redeemable noncontrolling interests outside of permanent equity and presents the redeemable noncontrolling interests at the greater of their carrying amount or redemption value at the end of each reporting period. 84Table of Contents Healthpeak OP Immediately following the Reorganization, Healthpeak Properties, Inc. was the initial sole member and 100% owner of Healthpeak OP. Subsequent to the Reorganization, certain employees of the Company (the OP Unitholders) were issued noncontrolling, non-managing member units in Healthpeak OP (the OP Units). When certain conditions are met, the OP Unitholders have the right to require redemption of part or all of their OP Units for cash or shares of the Company’s common stock, at the Company’s option as managing member of Healthpeak OP. The per unit redemption amount is equal to either one share of the Company’s common stock or cash equal to the fair value of a share of common stock at the time of redemption. The Company classifies the OP Units in permanent equity because it may elect, in its sole discretion, to issue shares of its common stock to OP Unitholders who choose to redeem their OP Units rather than using cash. DownREITs The Company consolidates non-managing member limited liability companies (the DownREITs) because it exercises control, and the noncontrolling interests in these entities are carried at cost. The non-managing member limited liability company (the LLC) units (the DownREIT units) are exchangeable for an amount of cash approximating the then-current market value of shares of the Company’s common stock or, at the Company’s option, shares of the Company’s common stock (subject to certain adjustments, such as stock splits and reclassifications). Upon exchange of DownREIT units for the Company’s common stock, the carrying amount of the DownREIT units is reclassified to stockholders’ equity. Fair Value Measurement The Company measures and discloses the fair value of nonfinancial and financial assets and liabilities utilizing a hierarchy of valuation techniques based on whether the inputs to a fair value measurement are considered to be observable or unobservable in a marketplace. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company’s market assumptions. This hierarchy requires the use of observable market data when available. These inputs have created the following fair value hierarchy: Level 1 quoted prices for identical instruments in active markets; Level 2 quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which significant inputs and significant value drivers are observable in active markets; and Level 3 fair value measurements derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable. The Company measures fair value using a set of standardized procedures that are outlined herein for all assets and liabilities that are required to be measured at fair value. When available, the Company utilizes quoted market prices to determine fair value and classifies such items in Level 1. In instances where a market price is available, but the instrument is in an inactive or over-the-counter market, the Company consistently applies the dealer (market maker) pricing estimate and classifies the asset or liability in Level 2. If quoted market prices or inputs are not available, fair value measurements are based on valuation models that utilize current market or independently sourced market inputs, such as interest rates, option volatilities, credit spreads, and/or market capitalization rates. Items valued using such internally-generated valuation techniques are classified according to the lowest level input that is significant to the fair value measurement. As a result, the asset or liability could be classified in either Level 2 or Level 3 even though there may be some significant inputs that are readily observable. Internal fair value models and techniques used by the Company include discounted cash flow models. The Company also considers its counterparty’s and own credit risk for derivative instruments and other liabilities measured at fair value. The Company has elected the mid-market pricing expedient when determining fair value. Earnings per Share Basic earnings per common share is computed by dividing net income (loss) applicable to common shares by the weighted average number of shares of common stock outstanding during the period. The Company accounts for unvested share-based payment awards that contain non-forfeitable dividend rights or dividend equivalents (whether paid or unpaid) as participating securities, which are included in the computation of earnings per share pursuant to the two-class method. Diluted earnings per common share is calculated by including the effect of dilutive securities, such as the impact of forward equity sales agreements using the treasury stock method and common shares issuable from the assumed conversion of DownREIT units, stock options, certain performance restricted stock units, OP Units, and unvested restricted stock units. 85Table of Contents Recent Accounting Pronouncements Adopted Segment Reporting. In November 2023, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update (the ASU) No. 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures (the ASU 2023-07), to improve reportable segment disclosure requirements so that investors can better understand an entity’s overall performance and assess potential future cash flows. The amendments in ASU 2023-07 include, but are not limited to: (i) disclosure of, on an annual basis, significant segment expenses that are regularly provided to the chief operating decision maker (the CODM) and included within each reported measure of segment profit or loss; (ii) disclosure of, on an annual and interim basis, an amount for other segment items by reportable segment and a description of its composition (the other segment items category is the difference between segment revenue less the significant expenses disclosed and each reported measure of segment profit or loss); (iii) disclosure of, on an interim basis, all currently required annual disclosures about a reportable segment’s profit (loss) and assets; (iv) clarification that if the CODM uses more than one measure of a segment’s profit or loss in assessing segment performance and deciding how to allocate resources, an entity may report one or more of those additional measures of segment profit; and (v) disclosure of the title and position of the CODM and an explanation of how the CODM uses the reported measure(s) of segment profit or loss in assessing segment performance and deciding how to allocate resources. During the year ended December 31, 2024, the amendments in ASU 2023-07 were adopted retrospectively and did not have an impact on the Company’s consolidated financial position, results of operations, or cash flows. Not Yet Adopted Income Taxes. In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures (the ASU 2023-09), to provide disaggregated information about a reporting entity’s effective tax rate reconciliation as well as information on income taxes paid. One of the amendments in ASU 2023-09 includes disclosure of, on an annual basis, a tabular rate reconciliation (using both percentages and reporting currency amounts) of (i) the reported income tax expense (or benefit) from continuing operations, to (ii) the product of the income (or loss) from continuing operations before income taxes and the applicable statutory federal income tax rate of the jurisdiction of domicile using specific categories, including separate disclosure for any reconciling items within certain categories that are equal to or greater than a specified quantitative threshold of 5%. ASU 2023-09 also requires disclosure of, on an annual basis, the year-to-date amount of income taxes paid (net of refunds received) disaggregated by federal, state, and foreign jurisdictions, including additional disaggregated information on income taxes paid (net of refunds received) to an individual jurisdiction equal to or greater than 5% of total income taxes paid (net of refunds received). The amendments in ASU 2023-09 are effective for annual periods beginning after December 15, 2024. The Company is evaluating the impact ASU 2023-09 will have on its disclosures. Expense Disaggregation. In November 2024, the FASB issued ASU No. 2024-03, Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses (the ASU 2024-03), to address requests from investors for more detailed information about the types of expenses in commonly presented expense captions. ASU 2024-03 requires public companies to provide disaggregated disclosure in tabular format in the notes to financial statements of specific expenses, including but not limited to: (i) employee compensation, (ii) depreciation, and (iii) intangible asset amortization. In January 2025, the FASB issued ASU No. 2025-01, Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Clarifying the Effective Date, which clarifies that the amendments in ASU 2024-03 are effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. The Company is evaluating the impact these ASUs will have on its disclosures. 86Table of Contents NOTE 3. The Merger On March 1, 2024 (the Closing Date), pursuant to the Agreement and Plan of Merger dated October 29, 2023 (the Merger Agreement), by and among the Company, DOC DR Holdco, LLC, a wholly owned subsidiary of the Company (the DOC DR Holdco), DOC DR, LLC, a wholly owned subsidiary of Healthpeak OP (the DOC DR OP Sub), Physicians Realty Trust, and Physicians Realty L.P. (the Physicians Partnership): (i) Physicians Realty Trust merged with and into DOC DR Holdco (the Company Merger), with DOC DR Holdco surviving as a wholly owned subsidiary of the Company (the Company Surviving Entity); (ii) immediately following the effectiveness of the Company Merger, the Company contributed all of the outstanding equity interests in the Company Surviving Entity to Healthpeak OP (the Contribution); and (iii) immediately following the Contribution, Physicians Partnership merged with and into DOC DR OP Sub (the Partnership Merger) and, together with the Company Merger, the Merger, with DOC DR OP Sub surviving as a subsidiary of Healthpeak OP (the Partnership Surviving Entity). Subsequent to the Closing Date, the Combined Company means the Company and its subsidiaries. On the Closing Date and in connection with the Merger, (i) each outstanding common share of beneficial interest of Physicians Realty Trust (the Physicians Realty Trust common shares) (other than Physicians Realty Trust common shares that were canceled in accordance with the Merger Agreement) was automatically converted into the right to receive 0.674 (the Exchange Ratio) shares of the Company’s common stock, and (ii) each outstanding common unit of the Physicians Partnership was converted into common units in the Partnership Surviving Entity equal to the Exchange Ratio. As a result of the Merger, the Company acquired 299 outpatient medical buildings. The primary reason for the Merger was to expand the Company’s size, scale, and diversification, in order to further enhance the Company’s competitive advantages and accelerate investment activities. The Merger was accounted for using the acquisition method of accounting in accordance with ASC 805, Business Combinations, which requires, among other things, the assets acquired and the liabilities assumed to be recognized at their acquisition date fair value. For accounting purposes, the Company was treated as the accounting acquirer of Physicians Realty Trust. The Company was considered to be the accounting acquirer primarily because: (i) the Company is the entity that transferred consideration to consummate the Merger; (ii) the Company’s stockholders as a group retained the largest portion of the voting rights of the Combined Company and have the ability to elect, appoint, or remove a majority of the members of the Combined Company’s board of directors; and (iii) its senior management constitutes the majority of management of the Combined Company. 87Table of Contents The consideration transferred on the Closing Date is as follows (in thousands, except per share data): March 1, 2024 Physicians Realty Trust common shares and Physicians Realty Trust restricted shares, PSUs, and RSUs exchanged (1) 240,699 Exchange Ratio 0.674 Shares of Healthpeak common stock issued 162,231 Closing price of Healthpeak common stock on March 1, 2024 (2) \$17.10A fair value of Healthpeak common stock issued to the former holders of Physicians Realty Trust common shares, restricted shares, PSUs, and

RSUs\$2,774,147\$ Less: Fair value of share consideration attributable to the post-combination period(3)(16,223)Physicians Realty Trust revolving credit facility termination(4)\$175,411 Settlement of Physicians Realty Trust\$™'s transaction costs23,913\$ Payments made in connection with share settlement(5)11,315\$ Cash consideration\$210,639\$ Consideration transferred\$2,968,563\$ (1)Includes 241\$ million Physicians Realty Trust common shares and Physicians Realty Trust restricted shares; (ii) 1\$ million Physicians Realty Trust common shares issuable pursuant to outstanding Physicians Realty Trust performance-based restricted stock unit (â€œPSUsâ€) (reflected at the maximum level of performance); and (iii) 300\$ thousand Physicians Realty Trust common shares issuable pursuant to outstanding Physicians Realty Trust restricted stock units (â€œRSUsâ€).(2)The fair value of Healthpeak common stock issued to former holders of Physicians Realty Trust common shares and Physicians Realty Trust restricted shares, PSUs, and RSUs was based on the per share closing price of Healthpeak common stock on March 1, 2024.(3)Represents the fair value of unvested Physicians Realty Trust restricted shares, PSUs, and RSUs attributable to post-combination services that were converted into Healthpeak common stock on the Closing Date in accordance with the Merger Agreement. Although no future service after the Closing Date is required, the value attributable to post-combination services reflected the incremental fair value provided to the Physicians Realty Trust equity award holders and the accelerated vesting of such awards at the Closing Date in accordance with the Merger Agreement. This amount was recognized as transaction and merger-related costs on the Consolidated Statements of Operations.(4)Represents the Companyâ€™'s cash repayment of all outstanding balances under Physicians Realty Trustâ€™'s revolving credit facility on the Closing Date in connection with the related termination.(5)Includes cash settlement of: (i) tax liability related to holdback elections made under the pre-existing terms and conditions of Physicians Realty Trustâ€™'s equity programs and (ii) fractional share consideration.Purchase Price AllocationFor the Companyâ€™'s real estate acquisitions that are accounted for as business combinations, such as the Merger, the Company allocates the acquisition consideration (excluding acquisition costs) to the assets acquired, liabilities assumed, and noncontrolling interests at fair value as of the acquisition date. Any excess of the consideration transferred relative to the fair value of the net assets acquired is accounted for as goodwill. Acquisition costs related to business combinations are expensed as incurred. The estimated fair values of the assets acquired, liabilities assumed, and noncontrolling interests were based on information that was available at the Closing Date. The fair values were determined using standard valuation methodologies, such as the cost, market, and income approach. These methodologies require various assumptions, including those of a market participant.88Table of ContentsThe following table summarizes the estimated fair values of the assets acquired, liabilities assumed, and noncontrolling interests at the Closing Date (in thousands):Preliminary Amounts Recognized on the Closing DateMeasurement Period AdjustmentsAmounts Recognized on the Closing Date (As Adjusted)ASSETS\$ Real estate:\$ Buildings and improvements\$3,199,884\$ (\$6,889)\$3,192,995\$ Development costs and construction in progress68,171\$ â€”\$ 68,171\$ Land and improvements435,353\$ â€”\$ 435,353\$ Real estate\$3,703,408\$ (6,889)\$3,696,519\$ Loans receivable118,908\$ â€”\$ 118,908\$ Investments in and advances to unconsolidated joint ventures58,636\$ â€”\$ 58,636\$ Accounts receivable, net(1)9,536\$ (254)9,282\$ Cash and cash equivalents30,417\$ â€”\$ 30,417\$ Restricted cash1,007\$ â€”\$ 1,007\$ Intangible assets(2)890,827\$ â€”\$ 890,827\$ Right-of-use asset191,415\$ (113)191,302\$ Other assets44,691\$ (668)44,023\$ Total assets\$5,048,845\$ (9,724)\$5,040,921\$ LIABILITIES AND EQUITY\$ Term loans\$402,320\$ â€”\$ 402,320\$ Senior unsecured notes1,139,760\$ â€”\$ 1,139,760\$ Mortgage debt127,176\$ â€”\$ 127,176\$ Intangible liabilities(3)149,875\$ â€”\$ 149,875\$ Lease liability\$97,160\$ (113)97,047\$ Accounts payable, accrued liabilities, and other liabilities72,864\$ (2,976)69,888\$ Total liabilities\$1,989,155\$ (3,089)\$1,986,066\$ Redeemable noncontrolling interests1,536\$ 1,573\$ 3,109\$ Joint venture partners(4)20,109\$ (3,043)17,066\$ Non-managing member unitholders(5)116,618\$ â€”\$ 116,618\$ Total noncontrolling interests\$136,727\$ (3,043)\$133,684\$ Fair value of net assets acquired and liabilities assumed, net of noncontrolling interests\$2,921,427\$ (\$3,365)\$2,918,062\$ Goodwill147,136\$ 3,365\$ 50,501\$ Total purchase price\$2,968,563\$ â€”\$ 2,968,563\$ (1)Includes \$14\$ million of gross contractual accounts receivable.(2)The intangible assets acquired had a weighted average amortization period of 6 years (see Note 10).(3)The intangible liabilities acquired had a weighted average amortization period of 9 years (see Note 10).(4)Includes six consolidated joint ventures in which the Company held ownership interests ranging from 56.7% to 99.7% on the Closing Date.(5)In connection with the Merger, Physicians Partnership merged with and into DOC DR OP Sub with DOC DR OP Sub surviving as the Partnership Surviving Entity. The Company controls the Partnership Surviving Entity via its ownership of its managing member, and the Partnership Surviving Entity is consolidated by the Company.The measurement period adjustments recorded through December 31, 2024 are final and were primarily the result of additional information obtained during the measurement period by the Company related to certain assets acquired and liabilities assumed and updated valuations of noncontrolling interests, resulting in an increase to goodwill of \$3\$ million. 89Table of ContentsBased on the final purchase price allocation of fair value, approximately \$51\$ million has been allocated to goodwill. The recognized goodwill is attributable to expected synergies, cost savings, acquired workforce, and potential economies of scale benefits from outpatient medical property management and tenant and vendor relationships following the closing of the Merger. None of the goodwill recognized is expected to be deductible for tax purposes.Merger-Related CostsDuring the year ended December 31, 2024, the Company incurred approximately \$129\$ million of merger-related costs, which primarily related to advisory, legal, accounting, tax, post-combination severance and stock compensation expense, and other costs of combining operations with Physicians Realty Trust. Included in this amount is: (i) \$38\$ million of fees paid to investment banks and advisors to help the Company negotiate the terms of the transactions contemplated by the Merger Agreement and to advise the Company on other merger-related matters, inclusive of \$21\$ million of success-based fees incurred upon consummation of the Merger, (ii) \$26\$ million of severance expense due to certain Physicians Realty Trust dual-trigger severance arrangements that are required to be recognized as post-combination expense in accordance with ASC 805, (iii) \$16\$ million of post-combination stock compensation expense for the accelerated vesting of Physicians Realty Trust equity awards pursuant to the terms of the Merger Agreement, based on the fair value of Healthpeak common stock issued to holders of Physicians Realty Trust equity awards, (iv) \$35\$ million of legal, accounting, tax, and other costs, and (v) \$13\$ million of severance expense related to legacy Healthpeak employees. During the year ended December 31, 2023, the Company incurred approximately \$11\$ million of merger-related costs, which primarily related to advisory, legal, accounting, tax, and other costs. These merger-related costs are included in transaction and merger-related costs on the Consolidated Statements of Operations.Unaudited Pro Forma Financial InformationThe Consolidated Statements of Operations for the year ended December 31, 2024 include \$473\$ million of revenues and \$6\$ million of net loss applicable to common shares associated with the results of operations of legacy Physicians Realty Trust from the Closing Date to December 31, 2024.The following unaudited pro forma information presents a summary of the results of operations for the Combined Company, as if the Merger had been consummated on January 1, 2023 (in thousands). The following unaudited pro forma financial information is not necessarily indicative of the results of operations had the acquisition been effected on the assumed date, nor is it necessarily an indication of trends in future results for a number of reasons, including, but not limited to, differences between the assumptions used to prepare the unaudited pro forma financial information, cost savings from operating efficiencies, potential synergies, and the impact of incremental costs incurred in integrating the businesses.\$ Year EndedDecember 31, 20242023Total revenues\$2,765,670\$ 2,771,468\$ Net income (loss) applicable to common shares353,347\$ 24,630\$ The unaudited pro forma financial information above includes nonrecurring significant adjustments made to account for certain costs incurred as if the Merger had been completed on January 1, 2023. Transaction and merger-related costs of \$129\$ million that were incurred during the year ended December 31, 2024, were excluded from the unaudited pro forma financial information for the year ended December 31, 2024, but included for the year ended December 31, 2023. The year ended December 31, 2023 also includes \$11\$ million of transaction and merger-related costs that were recognized during the year then ended.NOTE 4. Real Estate Investments2024 Real Estate Investment AcquisitionsThe MergerAs a result of the Merger, the Company acquired 299 outpatient medical buildings (see Note 3).2023 Real Estate Investment Acquisitions60 Loomis Land ParcelIn January 2023, the Company acquired a lab land parcel in Cambridge, Massachusetts for \$9\$ million.90Table of ContentsWylie Outpatient Medical BuildingIn April 2023, the Company acquired the remaining 80% interest in one of the outpatient medical buildings in the Ventures IV unconsolidated joint venture for \$4\$ million (see Note 9). Concurrent with the acquisition, the Company began consolidating the building and recognized a gain upon change of control of \$0.2\$ million, which is recorded in other income (expense), net during the year ended December 31, 2023.2022 Real Estate Investment Acquisitions 67 Smith Placeln January 2022, the Company closed a lab acquisition in Cambridge, Massachusetts for \$72\$ million.Vista Sorrento Phase IIIn January 2022, the Company closed a lab acquisition in San Diego, California for \$24\$ million.Webster Outpatient Medical PortfolioIn March 2022, the Company acquired a portfolio of two outpatient medical buildings in Houston, Texas for \$43\$ million. Northwest Medical Plazaln May 2022, the Company acquired one outpatient medical building in Bentonville, Arkansas for \$26\$ million.Concord Avenue Land ParcelIn December 2022, the Company closed a lab acquisition in Cambridge, Massachusetts for \$18\$ million.Development ActivitiesConstruction, Tenant, and Other Capital ImprovementsThe following table summarizes the Companyâ€™'s expenditures for construction, tenant improvements, and other capital improvements for its consolidated property investments, excluding expenditures related to properties classified as discontinued operations (in thousands): \$ Year Ended December 31, Segment202420232022Outpatient medical\$356,273\$ 236,135\$ 237,761\$ Lab313,749\$ 428,961\$ 658,542\$ CCRC66,741\$ 109,465\$ 65,691\$ 736,763\$ 774,561\$ 961,994\$ NOTE 5. \$ \$ \$ Dispositions of Real Estate and Discontinued Operations2024 Dispositions of Real EstateDuring the year ended December 31, 2024, the Company sold: (i) a portfolio of 59 outpatient medical buildings for \$674\$ million and provided the buyer with a mortgage loan secured by the real estate sold for \$405\$ million (see Note 8), (ii) 14 outpatient medical buildings for \$220\$ million, (iii) a portfolio of seven lab buildings for \$180\$ million, (iv) a portfolio of two outpatient medical buildings for \$23\$ million and provided the buyer with a mortgage loan secured by the real estate sold for \$14\$ million (see Note 8), and (v) a portfolio comprised of a land parcel and various vacant buildings on certain of the Companyâ€™'s CCRC campuses for \$12\$ million, resulting in total net gain on sales of \$179\$ million.2023 Dispositions of Real EstateDuring the year ended December 31, 2023, the Company sold two lab buildings in Durham, North Carolina, for \$113\$ million and two outpatient medical buildings for \$32\$ million, resulting in total gain on sales of \$81\$ million.2022 Dispositions of Real EstateDuring the year ended December 31, 2022, the Company sold one lab building in Salt Lake City, Utah for \$14\$ million and five outpatient medical buildings and one outpatient medical land parcel for \$36\$ million, resulting in total gain on sales of \$15\$ million.91Table of ContentsHeld for Sale and Discontinued OperationsAs of December 31, 2024, one outpatient medical building was classified as held for sale, with a carrying value of \$8\$ million, primarily comprised of net real estate assets. As of December 31, 2024, liabilities related to the asset held for sale were zero. As of December 31, 2023, two lab buildings and one outpatient medical building were classified as held for sale, with a carrying value of \$118\$ million, primarily comprised of net real estate assets. As of December 31, 2023, liabilities related to the assets held for sale were \$1\$ million. During the three months ended March 31, 2024, the Company sold the outpatient medical building and a 65% interest in the two lab buildings (see Note 9) that were classified as held for sale as of December 31, 2023. In 2020, the Company concluded that the dispositions of its senior housing triple-net and SHOP portfolios represented a strategic shift that had a major effect on its operations and financial results. Therefore, the results of senior housing triple-net and SHOP assets are classified as discontinued operations in all periods presented herein. The Company has successfully completed the disposition of its senior housing triple-net and SHOP properties.At each of December 31, 2024 and 2023, the total assets and total liabilities classified as discontinued operations were zero. The results of discontinued operations during the years ended December 31, 2024, 2023, and 2022 are presented below (in thousands) and are included in the consolidated results of operations for the years ended December 31, 2024, 2023, and 2022.\$ Year Ended December 31, 202420232022Revenues:Resident fees and services\$â€”\$ 3\$ 4\$ 7,489\$ Total revenues\$â€”\$ 3\$ 4\$ 7,489\$ Costs and expenses:Operating\$â€”\$ 6\$ 4\$ 6,452\$ Total costs and expenses\$â€”\$ 6\$ 4\$ 6,452\$ Other income (expense):Gain (loss) on sales of real estate, net\$â€”\$ 1\$ 1,344\$ Other income (expense), net\$â€”\$ 1\$ 169\$ Total other income (expense), net\$â€”\$ 1\$ 1,513\$ Other income (loss) before income taxes and equity income (loss) from unconsolidated joint ventures\$â€”\$ 2\$ 2,550\$ Income tax benefit (expense)\$â€”\$ 2\$ 270\$ Equity income (loss) from unconsolidated joint ventures\$â€”\$ 6\$ 4\$ Income (loss) from discontinued operations\$â€”\$ 3\$ 2\$ 2,884\$ NOTE 6. \$ \$ \$ Impairments of Real EstateImpairment ChargesDuring the year ended December 31, 2024, the Company recognized an impairment charge of \$13\$ million, which is reported in impairments and loan loss reserves (recoveries), net, on the Consolidated Statements of Operations related to one outpatient medical building that met the held for sale criteria. Upon classifying the asset as held for sale, the Company recognized an impairment charge to write down the buildingâ€™'s carrying value of \$21\$ million to its fair value, less estimated costs to sell, of \$8\$ million. The fair value of the impaired asset was based on the forecasted sales price which is considered to be a Level 3 measurement within the fair value hierarchy. The Companyâ€™'s fair value estimates primarily relied on a market approach, which utilized comparable market transactions and negotiations with prospective buyers.During the years ended December 31, 2023 and 2022, the Company did not recognize any impairment charges.92Table of ContentsCasualty-Related ChargesDuring the years ended December 31, 2024, 2023, and 2022, the Company recognized \$30\$ million, \$(3)\$ million, and \$6\$ million, respectively, of net casualty-related charges (recoveries). During the year ended December 31, 2024, such charges were primarily related to damages as a result of Hurricane Milton, partially offset by recoveries from proceeds received for water damage at an outpatient medical building during the year then ended. During the year ended December 31, 2023, such recoveries were primarily attributable to proceeds received for water damage at an outpatient medical building. During the year ended December 31, 2022, such charges were primarily attributable to damages as a result of Hurricane Ian. Casualty-related charges are recognized in other income (expense), net and equity income (loss) from unconsolidated joint ventures in the Consolidated Statements of Operations. Also during the years ended December 31, 2024, 2023, and 2022, the Company collected business interruption proceeds of \$0.7\$ million, \$44\$ million, and \$3\$ million, respectively, which are recognized in rental and related revenues and resident fees and services on the Consolidated Statements of Operations.Other LossesDuring the year ended December 31, 2022, the Company recognized \$14\$ million of expenses within other income (expense), net on the Consolidated Statements of Operations for tenant relocation and other costs associated with the demolition of an outpatient medical building.See Note 8 for information related to the Companyâ€™'s reserve for loan losses.NOTE 7. \$ \$ \$ LeasesLease IncomeThe following table summarizes the Companyâ€™'s lease income (in thousands): \$ Year Ended December 31, 202420232022Fixed income from operating leases\$1,530,493\$ 1,236,502\$ 1,182,463\$ Variable income from operating leases\$556,703\$ 395,303\$ 359,312\$ Interest income from direct financing leases\$â€”\$ 1,168\$ 1,168\$ Direct Financing Leases 2022 Direct Financing Lease SaleDuring the first quarter of 2022, the Company sold its remaining hospital under a DFL for \$68\$ million and recognized a gain on sale of \$23\$ million, which is included in other income (expense), net on the Consolidated Statements of Operations. Therefore, at December 31, 2024 and 2023, the Company had no leases classified as a DFL.Operating LeasesFuture Minimum RentsThe following table summarizes future minimum lease payments to be received from tenants under non-cancelable operating leases as of December 31, 2024 (in thousands):YearAmount2025\$1,427,402\$ 20261,339,275\$ 20271,246,068\$ 20281,138,062\$ 20291,003,394\$ Thereafter3,681,731\$ 9,835,932\$ 93Table of ContentsTenant Purchase OptionsCertain leases contain purchase options whereby the tenant may elect to acquire the underlying real estate. were in the Ventures IV unconsolidated joint venture for \$4.4 million (see Note 4). These joint ventures have been aggregated herein due to similarity of the investments and operations. At December 31, 2024 and 2023, the aggregate unamortized basis difference of the Company's investments in unconsolidated joint ventures of \$424 million and \$494 million, respectively, is primarily attributable to the difference between the amount for which the Company purchased its interest in certain joint ventures and the historical carrying value of the net assets of the related joint ventures and capitalized interest related to the redevelopment activities at the South San Francisco JVs. The differences are amortized over the remaining useful lives of the related assets and are included in equity income (loss) from unconsolidated joint ventures. 100Table of ContentsSouth San Francisco JVs On August 1, 2022, the Company sold a 30% interest in seven lab buildings in South San Francisco, California to a sovereign wealth fund (the "SWF Partner") for cash of \$126.4 million. Following this transaction, the Company and the SWF Partner share in key decisions of the assets through their voting rights, resulting in the Company deconsolidating the assets, recognizing its retained 70% investment in the South San Francisco joint ventures (the "South San Francisco JVs") at fair value, and accounting for its investment using the equity method. The fair values of the Company's retained investment were based on a market approach, utilizing an agreed-upon contractual sales price, which is considered to be a Level 3 measurement within the fair value hierarchy. During the year ended December 31, 2022, the Company recognized a gain upon change of control of \$311.1 million, which is recorded in other income (expense), net. The Company is entitled to a preferred return, a promote, and certain fees in exchange for development and asset management services provided to the South San Francisco JVs when certain conditions are met. Callan Ridge JV In January 2024, the Company sold a 65% interest in two lab buildings in San Diego, California (the "Callan Ridge JV") to a third-party (the "JV Partner") for net proceeds of \$128.4 million. Following the transaction, the Company and the JV Partner share in key decisions of the assets through their voting rights, resulting in the Company deconsolidating the assets, recognizing its retained 35% investment in the Callan Ridge JV at fair value, and accounting for its investment using the equity method. The fair value of the Company's retained investment was based on a market approach, utilizing an agreed-upon contractual sales price, which is considered to be a Level 3 measurement within the fair value hierarchy. During the year ended December 31, 2024, the Company recognized a gain upon change of control of \$78.4 million, which is recorded in other income (expense), net. 10.0 A A A Intangibles Intangible assets primarily consist of lease-up intangibles and above market lease intangibles. The following table summarizes the Company's intangible lease assets (dollars in thousands):

	December 31, 2024	December 31, 2023
Gross intangible lease assets	\$1,468,985	\$739,228
Accumulated depreciation and amortization	(2,651,731)	(425,072)
Intangible assets, net	\$817,254	\$314,156

Weighted average remaining amortization period in years: 5.5 (2024) and 5.2 (2023)

(1) As of December 31, 2024 and 2023, includes \$1.424 billion and \$725.4 million, respectively, of gross lease-up intangibles and \$45.4 million and \$14.4 million, respectively, of gross above market lease intangibles. (2) As of December 31, 2024 and 2023, includes \$640.4 million and \$418.4 million, respectively, of accumulated depreciation and amortization on lease-up intangibles and \$12.4 million and \$7.4 million, respectively, of accumulated depreciation and amortization on above market lease intangibles. Intangible liabilities consist of below market lease intangibles. The following table summarizes the Company's intangible lease liabilities (dollars in thousands):

	December 31, 2024	December 31, 2023
Gross intangible lease liabilities	\$351,602	\$228,105
Accumulated depreciation and amortization	(159,718)	(100,725)
Intangible liabilities, net	\$191,884	\$127,380

Weighted average remaining amortization period in years: 9.7 (2024) and 10.1 (2023)

Table of Contents The following table sets forth amortization related to intangible assets, net and intangible liabilities, net (in thousands):

	Year Ended December 31, 2024	Year Ended December 31, 2023
Depreciation and amortization expense related to amortization of lease-up intangibles	\$273,146	\$102,249
Rental and related revenues related to amortization of net below market lease liabilities	\$62,894	\$27,012
On the Closing Date of the Merger, the Company acquired intangible assets of \$891.1 million, inclusive of \$852.4 million of lease-up intangibles and \$39.4 million of above market lease intangibles. Also on the Closing Date of the Merger, the Company assumed intangible liabilities of \$150 million (see Note 3). The intangible assets and liabilities acquired had a weighted average amortization period at acquisition of 6 years and 9 years, respectively. During the year ended December 31, 2023, in conjunction with the Company's acquisition of real estate, the Company acquired \$0.5 million of intangible assets with a weighted average amortization period at acquisition of 5 years. The following table summarizes the estimated annual amortization for each of the five succeeding fiscal years and thereafter (in thousands):		
Rental and Related Revenues	\$256,925	\$262,629
Depreciation and	\$171,520	\$272,304
Amortization	\$253,618	\$256,925

On the Closing Date of the Merger, inclusive of measurement period adjustments, the Company recognized goodwill of \$51.1 million, which was allocated to the Company's outpatient medical segment (see Note 3). Goodwill is included in other assets, net on the Consolidated Balance Sheets. At December 31, 2024 and 2023, goodwill was allocated to the Company's segment assets as follows (in thousands):

	December 31, 2024	December 31, 2023
Outpatient medical	\$64,680	\$14,178
Other non-reportable	\$1,851.1	\$68,529

During the years ended December 31, 2024, 2023, and 2022, the fair value of the assets within each of the Company's reporting units was greater than the respective carrying value of the assets and related goodwill, and as a result, no impairment charges were recognized. 11.0 A A A Debt Healthpeak OP, the Company's consolidated operating subsidiary, is the borrower under, and the Company, DOC DR Holdco, and DOC DR OP Sub are the guarantors of, the Revolving Facility, 2027 Term Loans, 2029 Term Loan, Commercial Paper Program (each as defined below), and senior unsecured notes issued by the Company prior to the Merger. DOC DR OP Sub is the borrower under, and the Company, Healthpeak OP, and DOC DR Holdco are guarantors of, the 2028 Term Loan (as defined below) and senior unsecured notes issued by the Physicians Partnership prior to, and assumed by the Company as part of, the Merger. Guarantees of senior unsecured notes are full and unconditional and applicable to existing and future senior unsecured notes. 10.2 Table of Contents The Merger On March 1, 2024, upon the consummation of the Merger, the Company assumed senior unsecured term loans in an aggregate principal amount of \$400.1 million (the "2028 Term Loan") that mature in May 2028 (see Note 3) pursuant to an amendment to a term loan agreement originally executed by the Physicians Partnership, as borrower, and the other parties thereto. DOC DR OP Sub is the borrower under, and the Company, Healthpeak OP, and DOC DR Holdco are guarantors of, the 2028 Term Loan. In connection with the assumption of the 2028 Term Loan, the Company acquired three related interest rate swap instruments that were redesignated as cash flow hedges as of the Closing Date. The 2028 Term Loan associated with these interest rate swap instruments is reported as fixed rate debt due to the Company having effectively established a fixed interest rate for the underlying debt instruments. Based on DOC DR OP Sub's credit ratings as of December 31, 2024, the 2028 Term Loan had a blended fixed effective interest rate of 4.44%, inclusive of the impact of these interest rate swap instruments and amortization of the related premium. See also Note 22 for a discussion of the impact of the related interest rate swap instruments. Loans outstanding under the 2028 Term Loan bear interest at an annual rate equal to (i) the applicable margin, plus (ii) Daily SOFR (plus a 10 basis point adjustment related to SOFR transition). The applicable margin under the 2028 Term Loan ranges from 0.85% to 1.65% for Daily SOFR loans and is based on the credit ratings of DOC DR OP Sub. Based on the Company's credit ratings as of December 31, 2024, and inclusive of the adjustment related to SOFR transition, the margin on the 2028 Term Loan was 1.00%. Additionally, on March 1, 2024, concurrently with the consummation of the Merger, DOC DR OP Sub assumed, and the Company and Healthpeak OP guaranteed, Physicians Partnership's \$1.25 billion aggregate principal of senior unsecured notes (see Note 3), including: (i) \$400.1 million aggregate principal amount of 4.30% senior unsecured notes due 2027, (ii) \$350.1 million aggregate principal amount of 3.95% senior unsecured notes due 2028, and (iii) \$500.1 million aggregate principal amount of 2.63% senior unsecured notes due 2031. On the Closing Date, the Company capitalized \$1.1 million of costs paid to the bondholders, which are being amortized into interest expense on the Consolidated Statements of Operations over the terms of the related senior unsecured notes. The senior unsecured notes contain certain covenants that are consistent with Healthpeak OP's previously issued senior unsecured notes, as further described below. Lastly, on March 1, 2024, concurrently with the consummation of the Merger, the Company assumed \$128.4 million aggregate principal of mortgage debt (see Note 3), which was secured by five outpatient medical buildings, with an aggregate carrying value of \$259.4 million as of March 1, 2024. Of this \$128.4 million, \$59.4 million was fixed rate debt with a weighted average contractual interest rate of 3.77% and maturities ranging from November 2024 through December 2026 and \$69.4 million was variable rate debt with a weighted average contractual interest rate of 7.25% and maturities ranging from December 2026 through November 2028. The Company recognized a net discount of \$0.5 million on the \$128.4 million aggregate principal of mortgage debt assumed on the Closing Date, which is being amortized into interest expense on the Consolidated Statements of Operations using the effective interest rate method. The Company acquired one related interest rate swap instrument with a notional amount of \$36.4 million of variable rate mortgage debt that was redesignated as a cash flow hedge as of the Closing Date (see Note 22), which matured in October 2024. 10.3 Table of Contents Bank Line of Credit and Term Loans Revolving Facility On May 23, 2019, the Company executed a \$2.5 billion unsecured revolving line of credit facility, with a maturity date of May 23, 2023 and two six-month extension options, subject to certain customary conditions. In September 2021, the Company executed an amended and restated unsecured revolving line of credit (the "Revolving Facility") to increase total revolving commitments from \$2.5 billion to \$3.0 billion and extend the maturity date to January 20, 2026 with two six-month extension options, subject to certain customary conditions. On February 10, 2023, the Company executed an amendment to the Revolving Facility to convert the interest rate benchmark from LIBOR to SOFR. On March 1, 2024, concurrently with the consummation of the Merger, the Company executed an amendment to the Revolving Facility to, among other things, join DOC DR Holdco and DOC DR OP Sub as guarantors of Healthpeak OP's obligations under the Revolving Facility. In December 2024, the Company amended and restated its Revolving Facility to extend the maturity date to January 19, 2029. This maturity date may be further extended pursuant to two six-month extension options, subject to certain customary conditions. Borrowings under the Revolving Facility accrue interest at the applicable interest rate benchmark plus a margin that depends on the credit ratings of the Company's senior unsecured long-term debt. The Company also pays a facility fee on the entire revolving commitment that depends on its credit ratings. Based on the Company's credit ratings at December 31, 2024, and inclusive of a 10 basis point adjustment related to SOFR transition, the margin on the Revolving Facility was 0.88% and the facility fee was 0.15%. The Revolving Facility includes a feature that allows the Company to increase the borrowing capacity by an aggregate amount of up to \$750.1 million, subject to securing additional commitments. At each of December 31, 2024 and 2023, the Company had no balance outstanding under the Revolving Facility. Term Loan Agreement On August 22, 2022, the Company executed a term loan agreement (as amended or modified as described herein, the "Term Loan Agreement") that provided for two senior unsecured delayed draw term loans in an aggregate principal amount of up to \$500.1 million (the "2027 Term Loans"). The 2027 Term Loans were available to be drawn from time to time during a 180-day period after closing, subject to customary borrowing conditions, and the Company drew the entirety of the \$500.1 million under the 2027 Term Loans in October 2022. \$250.1 million of the 2027 Term Loans have an initial stated maturity of 4.5 years, which may be extended for a one-year period subject to certain customary conditions. The other \$250.1 million of the 2027 Term Loans has a stated maturity of five years with no option to extend. Loans outstanding under the 2027 Term Loans accrue interest at Term SOFR plus a margin that depends on the credit ratings of the Company's senior unsecured long-term debt. The 2027 Term Loans also include a sustainability-linked pricing component whereby the applicable margin under the 2027 Term Loans may be reduced by 0.01% based on the Company's achievement of specified sustainability-linked metrics. Based on the Company's credit ratings as of December 31, 2024, and inclusive of achievement of a sustainability-linked metric and an adjustment related to SOFR transition, the margin on the 2027 Term Loans was 0.94%. In August 2022, the Company entered into two forward-starting interest rate swap instruments that are designated as cash flow hedges

requires maintenance of the assets in good condition, includes conditions to obtain lender consent to enter into or terminate material leases, requires insurance on the assets, requires payment of real estate taxes, restricts transfer of the encumbered assets and repayment of the loan, and prohibits additional liens. Some of the mortgage debt may require tenants or operators to maintain compliance with the applicable leases or operating agreements of such real estate assets.105Table of ContentsDuring the years ended December 31, 2024, 2023, and 2022, the Company made aggregate principal repayments of mortgage debt of \$27.4 million, \$90 million, and \$5 million, respectively (excluding mortgage debt on assets held for sale and discontinued operations). Included in the \$27.4 million of aggregate principal payments of mortgage debt for the year ended December 31, 2024 was a \$23.4 million full principal repayment of mortgage debt secured by one outpatient medical building acquired as part of the Merger that matured in November 2024. Included in the \$90.4 million of aggregate principal repayments of mortgage debt for the year ended December 31, 2023 was an \$85.4 million full principal repayment of mortgage debt secured by one CCRC that matured in December 2023. The Company has \$142.4 million of mortgage debt secured by a portfolio of 13 outpatient medical buildings that matures in May 2026. In April 2022, the Company terminated its existing interest rate cap instruments associated with this variable rate mortgage debt and entered into two interest rate swap instruments that are designated as cash flow hedges and mature in May 2026. In February 2023, the agreements associated with this variable rate mortgage debt were amended to change the interest rate benchmarks from LIBOR to SOFR, effective March 2023. Concurrently, the Company modified the related interest rate swap instruments to reflect the change in the interest rate benchmarks from LIBOR to SOFR (see Note 22). The variable rate mortgage debt associated with these interest rate swap instruments is reported as fixed rate debt due to the Company having effectively established a fixed interest rate for the underlying debt instrument. Debt MaturitiesThe following table summarizes the Company's stated debt maturities and scheduled principal repayments at December 31, 2024 (dollars in thousands): Senior Unsecured Notes (3) Mortgage Debt (4) Year Bank Line of Credit (1) Commercial Paper (1) (2) Term Loans Amount Interest Rate (5) Amount Interest Rate (5) Total 2025 \$ 4.0 \$ 4.0 \$ 800,000 3.92% \$ 7,432.4 6.28% \$ 807,432.4 2026 \$ 4.0 \$ 4.0 \$ 650,000 3.40% \$ 344,999.4 5.13% \$ 994,999.4 2027 \$ 4.0 \$ 4.0 \$ 500,000 850,000 3.23 (discounts), and debt issuance costs, net \$ 13,395.7 (136,744) 702.4 (139,999) \$ 150,000 1,646,043.4 \$ 6,563,256.4 \$ 356,750.4 \$ 8,716,049.4 (1) As of December 31, 2024, total unamortized debt issuance costs for the Revolving Facility and Commercial Paper Program were \$18.4 million, which are recorded in other assets, net on the Consolidated Balance Sheets. (2) Commercial Paper Program borrowings are backstopped by the availability under the Revolving Facility. As such, the Company calculates the weighted average remaining term of its Commercial Paper Program borrowings using the maturity date of the Revolving Facility. (3) Effective interest rates on the senior unsecured notes range from 1.54% to 6.87% with a weighted average effective interest rate of 3.96% and a weighted average maturity of approximately 5 years. (4) Effective interest rates on the mortgage debt range from 3.44% to 8.50% with a weighted average effective interest rate of 5.16% and a weighted average maturity of approximately 2 years. These interest rates include the impact of designated interest rate swap instruments, which effectively fix the interest rate on certain variable rate debt. (5) Represents the weighted-average effective interest rate as of the end of the applicable period, including amortization of debt premiums (discounts) and debt issuance costs. NOTE 12.4.1 Commitments and Contingencies Legal Proceedings From time to time, the Company is a party to legal proceedings, lawsuits and other claims that arise in the ordinary course of the Company's business. The Company is not aware of any legal proceedings or claims that it believes may have, individually or taken together, a material adverse effect on the Company's financial condition, results of operations, or cash flows. The Company's policy is to expense legal costs as they are incurred. 106 Table of Contents DownREITs and Other Partnerships In connection with the formation of DownREITs, members may contribute appreciated real estate to a DownREIT in exchange for DownREIT units. These contributions are generally tax-deferred, so that the pre-contribution gain related to the property is not taxed to the member. However, if a contributed property is later sold by the DownREIT, the unamortized pre-contribution gain that exists at the date of sale is specifically allocated and taxed to the contributing members. In many of the DownREITs, the Company has entered into indemnification agreements with those members who contributed appreciated property into the DownREIT. Under these indemnification agreements, if any of the appreciated real estate contributed by the members is sold by the DownREIT in a taxable transaction within a specified number of years, the Company will reimburse the affected members for the federal and state income taxes associated with the pre-contribution gain that is specially allocated to the affected member under the Internal Revenue Code (the "make-whole payments"). These make-whole payments include a tax gross-up provision. As of December 31, 2024, the Company had indemnification agreements on a total of 41 properties within its DownREITs. In January 2025, indemnification agreements on 13 properties expired. Additionally, the Company owns a 49% interest in the Lab JV (see Note 9). If the property in the joint venture is sold in a taxable transaction, the Company is generally obligated to indemnify its joint venture partner for its federal and state income taxes associated with the gain that existed at the time of the contribution to the joint venture. Commitments The following table summarizes the Company's material commitments, excluding obligations as the lessee under operating leases (see Note 7), commitments to fund additional loans for outpatient medical capital expenditure projects (see Note 8), debt service obligations (see Note 11), and potential future obligations related to redeemable noncontrolling interests (see Note 13) at December 31, 2024 (in thousands): Amount Development and redevelopment commitments (1) \$ 199,139.4 Lease and other contractual commitments (2) 84,654.4 Letters of credit (3) 11,929.4 \$ 295,722.4 (1) Represents construction and other commitments as of December 31, 2024 for developments and redevelopments in progress and includes allowances for Company-owned tenant improvements that the Company has provided as a lessor. (2) Represents the Company's commitments, as lessor, under signed leases and contracts for operating properties as of December 31, 2024 and includes allowances for Company-owned tenant improvements and leasing commissions. Excludes allowances for Company-owned tenant improvements related to developments and redevelopments in progress for which the Company has executed an agreement with a general contractor to complete the tenant improvements (recognized in the "Development and redevelopment commitments" line). (3) Represents 15 outstanding letter of credit obligations expiring in 2025 and one outstanding letter of credit obligation expiring in 2026. Environmental Costs Various environmental laws govern certain aspects of the ongoing management and operation of our facilities, including those related to presence of asbestos-containing materials. The presence of, or the failure to manage and/or remediate, such materials may adversely affect the occupancy and performance of the Company's facilities. The Company monitors its properties for the presence of such hazardous or toxic substances and is not aware of any environmental liability with respect to the properties that would have a material adverse effect on the Company's business, financial condition, or results of operations. The Company carries environmental insurance and believes that the policy terms, conditions, limitations, and deductibles are adequate and appropriate under the circumstances, given the relative risk of loss, the cost of such coverage, and current industry practice. General Uninsured Losses The Company obtains various types of insurance to mitigate the impact of property, business interruption, liability, workers' compensation, flood, windstorm, earthquake, environmental, cyber, and terrorism related losses. The Company attempts to obtain appropriate policy terms, conditions, limits, and deductibles considering the relative risk of loss, the cost of such coverage, and current industry practice. There are, however, certain types of extraordinary losses, such as those due to acts of war or other events that may be either uninsurable or not economically insurable. In addition, the Company has a large number of properties that are exposed to earthquake, flood, and windstorm occurrences for which the related insurances carry high deductibles and have limits. 107 Table of Contents NOTE 13.4.1 Equity and Redeemable Noncontrolling Interests Dividends On February 3, 2025, the Company's Board of Directors declared a quarterly common stock cash dividend of \$0.305 per share, reflecting an increase from \$0.30 to \$0.305 per share. The common stock cash dividend will be paid on February 26, 2025 to stockholders of record as of the close of business on February 14, 2025. During each of the years ended December 31, 2024, 2023, and 2022, the Company declared and paid a common stock cash dividend of \$1.20. Issuance of Common Stock in Connection with the Merger Pursuant to the terms set forth in the Merger Agreement, on the Closing Date, each outstanding share of Physicians Realty Trust (other than Physicians Realty Trust common shares that were canceled in accordance with the Merger Agreement) automatically converted into the right to receive 0.674 shares of the Company's common stock. Based on the number of outstanding Physicians Realty Trust common shares as of the Closing Date, the Company issued 162.4 million shares of common stock. Refer to Note 3 for additional information regarding the Merger. At-The Market Equity Offering Program In February 2023, in connection with the Reorganization, the Company terminated the previous at-the-market equity offering program (as amended from time to time, the "2020 ATM Program") and established a new at-the-market equity offering program (the "2023 ATM Program" and, together with the 2020 ATM Program, the "ATM Programs"). The 2023 ATM Program was amended in March 2024 to contemplate the sale of the remaining shares of common stock pursuant to the Company's Registration Statement on Form S-3 filed with the SEC on February 8, 2024. The ATM Programs allow for the sale of shares of common stock having an aggregate gross sales price of up to \$1.5 billion (i) by the Company through a consortium of banks acting as sales agents or directly to the banks acting as principals or (ii) by a consortium of banks acting as forward sellers on behalf of any forward purchasers pursuant to a forward sale agreement (each, an "ATM forward contract"). The use of ATM forward contracts allows the Company to lock in a share price on the sale of shares at the time the ATM forward contract becomes effective, but defer receiving the proceeds from the sale of shares until a later date. ATM forward contracts generally have a one- to two-year term. At any time during the term, the Company may settle a forward sale by delivery of physical shares of common stock to the forward seller or, at the Company's election, in cash or net shares. The forward sale price the Company expects to receive upon settlement of outstanding ATM forward contracts will be the initial forward price established upon the effective date, subject to adjustments for: (i) accrued interest, (ii) the forward purchasers' stock borrowing costs, and (iii) certain fixed price reductions during the term of the ATM forward contract. At December 31, 2024, 1.5 billion of the Company's common stock remained available for sale under the 2023 ATM Program. ATM Forward Contracts During the year ended December 31, 2021, the Company utilized the forward provisions under the 2020 ATM Program to allow for the sale of an aggregate of 9.1 million shares of its common stock at an initial weighted average net price of \$35.25 per share, after commissions. In December 2022, the Company settled all 9.1 million shares previously outstanding under ATM forward contracts at a weighted average net price of \$34.01 per share, after commissions, resulting in net proceeds of \$308 million. During the years ended December 31, 2024, 2023, and 2022 the Company did not utilize the forward provisions under the ATM Programs. ATM Direct Issuances During each of the years ended December 31, 2024, 2023, and 2022, there were no direct issuances of shares of common stock under the ATM Programs. 108 Table of Contents Share Repurchase Programs On August 1, 2022, the Company's Board of Directors approved a share repurchase program under which the Company could acquire shares of its common stock in the open market up to an aggregate purchase price of \$500.4 million (the "2022 Share Repurchase Program"). Purchases of common stock under the 2022 Share Repurchase Program could be exercised at the Company's discretion with the timing and number of shares repurchased depending on a variety of factors, including price, corporate and regulatory requirements, and other corporate liquidity requirements and priorities. Under Maryland General Corporation Law, outstanding shares of common stock acquired by a corporation become authorized but unissued shares, which may be re-issued. During the year ended December 31, 2022, the Company repurchased 2.1 million shares of its common stock under the 2022 Share Repurchase Program at a weighted average price of \$27.16 per share for a total of \$56.4 million. During the year ended December 31, 2023, there were no repurchases under the 2022 Share Repurchase Program. During the year ended December 31, 2024, the Company repurchased 10.5 million shares of its common stock under the 2022 Share Repurchase Program at a weighted average price of \$17.98 per share for a total of \$188.4 million. On July 24, 2024, the Company's Board of Directors approved a new share repurchase program (the "2024 Share Repurchase Program") to supersede and replace the 2022 Share Repurchase Program. Upon adoption of the 2024 Share Repurchase Program, no further share repurchases may be made pursuant to the 2022 Share Repurchase Program. Under the 2024 Share Repurchase Program, the Company may acquire shares of its common stock in the open market or other similar purchase techniques (including in compliance with the safe harbor provisions of Rule 10b-18 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or pursuant to one or more plans adopted under Rule 10b5-1 promulgated under the Exchange Act), up to an aggregate purchase price of \$500.4 million. Purchases of common stock under the 2024 Share Repurchase Program may be exercised at the Company's discretion with the timing and number of shares repurchased depending on a variety of factors, including price, corporate and regulatory requirements, and other corporate liquidity requirements and priorities. The 2024 Share Repurchase Program expires in July 2026 and may be suspended or terminated at any time without prior notice. As of December 31, 2024, no shares have been repurchased under the 2024 Share Repurchase Program. Therefore, at December 31, 2024, \$500.4 million of the Company's common stock remained available for repurchase under the 2024 Share Repurchase Program. Other Common Stock Activities The following table summarizes the Company's other common stock activities (in thousands): Year Ended December 31, 2024 2023 2022 Dividend reinvestment and stock purchase plan \$ 57.4 \$ 70.4 \$ 59.4 Conversion of DownREIT units 256.4 72.4 27.4 Vesting of restricted stock units 377.4 613.4 820.4 Repurchase of common stock 10,592.4 241.4 2,418.4 Accumulated Other Comprehensive Income (Loss) The following table summarizes the Company's accumulated other comprehensive income (loss) (in thousands): A December 31, 2024 2023 Unrealized gains (losses) on derivatives, net \$ 30,707.4 \$ 21,245.4 Supplemental Executive Retirement Plan minimum liability (1,889) (1,874) Total accumulated other comprehensive income (loss) \$ 28,818.4 \$ 19,371.4 The Company has a defined benefit pension plan, known as the Supplemental Executive Retirement Plan, with one plan participant, a former Chief Executive Officer (the "CEO") of the Company who departed in 2003. Changes to the Supplemental Executive Retirement Plan minimum liability are reflected in other comprehensive income (loss). 109 Table of Contents Noncontrolling Interests Redeemable Noncontrolling Interests Arrangements with noncontrolling interest holders are assessed for appropriate balance sheet classification based on the redemption and other rights held by the noncontrolling interest holder. Certain of the Company's noncontrolling interest holders have the ability to put their equity interests to the Company upon specified events or after the passage of a predetermined period of time (the "Option Requirements"). Each put option is payable in cash and subject to changes in redemption value in the event that the underlying property generates specified returns for the Company and meets certain promote thresholds pursuant to the respective agreements. Accordingly, the Company records redeemable noncontrolling interests outside of permanent equity and presents the redeemable noncontrolling interests at the greater of their carrying amount or redemption value at the end of each reporting period. In addition to the rights of the redeemable noncontrolling interest holders, once the Option Requirements have been met, the Company has the ability to buy out the interests of the noncontrolling interest holders. The values of the redeemable noncontrolling interests are subject to change based on the assessment of redemption value at each redemption date. On March 1, 2024, concurrently with the consummation of the Merger, the Company assumed one redeemable noncontrolling interest, which had not yet met the conditions for redemption as of December 31, 2024. This interest will become redeemable in September 2025. In April 2024, the Company exercised its option to buy out four redeemable noncontrolling interests that met the criteria for redemption. Accordingly, during the year ended December 31, 2024, the Company made aggregate cash payments for the total redemption value of \$53.4 million to the related noncontrolling interest holders and acquired the redeemable noncontrolling interests associated with the entities. Healthpeak OP Immediately following the Reorganization, Healthpeak Properties, Inc. was the initial sole member and 100% owner of Healthpeak OP. Subsequent to the Reorganization, OP Unitholders were issued approximately 2.4 million OP Units during the year ended December 31, 2023, all of which were LTIP Units (as defined in Note 15). During the year ended December 31, 2024, OP Unitholders were issued approximately 2.4 million OP Units, all of which were LTIP Units. When certain conditions are met, the OP Unitholders have the right to require redemption of part or all of their OP Units for cash or shares of the Company's common stock, at the Company's option as managing member of Healthpeak OP. The per unit redemption amount is equal to either one share of the Company's common stock or cash equal to the fair value of a share of common stock at the time of redemption. The Company classifies the OP Units in permanent equity because it may elect, in its sole discretion, to issue shares of its common stock to OP Unitholders who choose to redeem their OP Units rather than using cash. As of December 31, 2024, there were approximately 3.4 million OP Units outstanding and 76.4 thousand had met the criteria for redemption. As of December 31, 2023, there were approximately 2.4 million OP Units outstanding, none of which had met the criteria for redemption. DownREITs The non-managing member units of the Company's DownREITs are exchangeable for an amount of cash approximating the then-current market value of shares of the Company's common stock or, at the Company's option, shares of the Company's common stock (subject to certain adjustments, such as stock splits and reclassifications). Upon exchange of DownREIT units for the Company's common stock, the carrying amount of the DownREIT units is reclassified to stockholders' equity. At December 31, 2024, there were approximately 11.4 million DownREIT units (1.4 million shares of Healthpeak common stock are issuable upon conversion) outstanding in eight DownREIT LLCs, for all of which the Company holds a controlling interest and/or acts as the managing member. At December 31, 2024, the carrying value of the 11.4 million DownREIT units was \$310.4 million. At December 31, 2023, there were approximately 5.4 million DownREIT units (7.4 million shares of Healthpeak common stock are issuable upon conversion) outstanding in seven DownREIT LLCs, for all of which the

Company acts as the managing member. At December 31, 2023, the carrying value of the 5Â million DownREIT units was \$199Â million.NOTE 14.Â Â Â Earnings Per Common ShareBasic income (loss) per common share (âââââ) is computed based on the weighted average number of common shares outstanding. Diluted income (loss) per common share is computed based on the weighted average number of common shares outstanding plus the impact of forward equity sales agreements using the treasury stock method, common shares issuable from the assumed conversion of DownREIT units, stock options, certain performance restricted stock units, OP Units, and unvested restricted stock units. Only those instruments having a dilutive impact on the Companyâs basic income (loss) per share are included in diluted income (loss) per share during the periods presented.Certain restricted stock units are considered participating securities, because dividend payments are not forfeited even if the underlying award does not vest, and require use of the two-class method when computing basic and diluted earnings per share.110Table of ContentsThe Company considers the potential dilution resulting from forward agreements under its ATM Programs to the calculation of earnings per share. At inception, the agreements do not have an effect on the computation of basic EPS as no shares are delivered until settlement. However, the Company uses the treasury stock method to calculate the dilution, if any, resulting from the forward sales agreements during the period of time prior to settlement. Refer to Note 13 for a discussion of the sale of shares under and settlement of forward sales agreements during the periods presented. The following table illustrates the computation of basic and diluted earnings per share (in thousands, except per share amounts):Year Ended December 31,202420232022Numerator - BasicIncome (loss) from continuing operations\$267,303Â \$334,757Â \$513,540Â Noncontrolling interestsâ share in continuing operations(24,161)(28,748) (15,975)Income (loss) from continuing operations attributable to Healthpeak Properties, Inc.243,142Â 306,009Â 497,565Â Less: Participating securitiesâ share in continuing operations(758) (1,725)(2,657)Income (loss) from continuing operations applicable to common shares242,384Â 304,284Â 494,908Â Income (loss) from discontinued operationsâÂ Â âÂ 2,884Â Net income (loss) applicable to common shares\$242,384Â \$304,284Â \$497,792Â Numerator - DilutiveNet income (loss) applicable to common shares\$242,384Â \$304,284Â \$497,792Â Add: distributions on dilutive convertible units and other107Â Â Â Â Â Dilutive net income (loss) available to common shares\$242,491Â \$304,284Â \$497,792Â DenominatorBasic weighted average shares outstanding675,680Â 547,006Â 538,809Â Dilutive potential common shares - equity awards(1)148Â 269Â 338Â Dilutive potential common shares - OP Units(2)405Â Â Â Â Diluted weighted average common shares676,233Â 547,275Â 539,147Â Basic earnings (loss) per common shareContinuing operations\$0.36Â \$0.56Â \$0.92Â Discontinued operationsâÂ Â Â 0.00Â Net income (loss) applicable to common shares\$0.36Â \$0.56Â \$0.92Â Diluted earnings (loss) per common shareContinuing operations\$0.36Â \$0.56Â \$0.92Â Discontinued operationsâÂ Â Â 0.00Â Net income (loss) applicable to common shares\$0.36Â \$0.56Â \$0.92Â (1)For all periods presented, represents the dilutive impact of 1Â million outstanding equity awards (restricted stock units and stock options).(2)For the year ended December 31, 2024, represents the dilutive impact of 3Â million outstanding OP Units. For the years ended December 31, 2024, 2023, and 2022, all 14Â million, 7Â million, and 7Â million shares issuable upon conversion of DownREIT units, respectively, were not included because they were anti-dilutive. For the years ended December 31, 2024 and 2023, forward equity sales agreements had no dilutive impact as no shares were outstanding under ATM forward contracts during the year. For the year ended December 31, 2022, all shares that were settled during the year then ended were anti-dilutive. 11Table of ContentsNOTE 15.Â Â Â Â Compensation PlansStock-Based CompensationOn May 11, 2006, the Companyâs stockholders approved the 2006 Performance Incentive Plan, which was amended and restated in 2009 (the â2006 Planâ). On May 1, 2014, the Companyâs stockholders approved the 2014 Performance Incentive Plan, which was amended and restated in 2019 and further amended in 2023 (the â2014 Planâ). Following the adoption of the 2014 Plan, no new awards were issued under the 2006 Plan. On April 27, 2023, the Companyâs stockholders approved the 2023 Performance Plan (the â2023 Planâ and collectively with the 2006 Plan and the 2014 Plan, the âPlansâ). Following the adoption of the 2023 Plan, no new awards may be issued under the 2014 Plan.Â The Plans provide for the granting of stock-based compensation to officers, employees, and directors, including stock options, restricted stock, restricted stock units, and with respect to the 2014 and 2023 Plans, profits interests in Healthpeak OP (âLTP Unitsâ). The maximum number of shares reserved for awards under the 2023 Plan is 31Â million shares, and, as of December 31, 2024, 28Â million of the reserved shares under the 2023 Plan are available for future awards, of which 19Â million shares may be issued as restricted stock, restricted stock units, or LTP Units.Restricted Stock UnitsUnder the Plans, time-based restricted stock units and market-based restricted stock units (collectively, âRestricted Stock Unitsâ) are granted subject to certain restrictions. Conditions of vesting are determined at the time of grant. Restrictions on certain awards generally lapse, as provided in the Plans or in the applicable award agreement, upon retirement, a change in control, or other specified events. The fair market value of Restricted Stock Units is expensed over the period of vesting. Time-based restricted stock units, which vest based solely upon passage of time, generally vest on a graded schedule over a period of one to five years. The fair value of time-based restricted stock units is determined based on the closing market price of the Companyâs shares on the grant date. Market-based restricted stock units, which vest dependent upon attainment of total shareholder return (âTSRâ) performance that equal or exceed threshold levels as measured against certain peer and industry benchmarks, generally vest in their entirety at the end of a three-year performance period. The number of shares that ultimately vest based on performance can vary from 0% to 200% of target depending on the level of achievement of the performance criteria. The fair value of market-based restricted stock units is determined based on the Monte Carlo valuation model primarily using the following assumptions for awards granted during the years ended December 31, 2024, 2023, and 2022, respectively: (i) expected term of 3 years, 3 years, and 3 years (equal to the remaining performance period at the grant date), (ii) historical volatility of 26.0%, 33.0%, and 38.9%, (iii) dividend yield of 5.2%, 4.4%, and 3.5%, (iv) risk-free rate of 4.5%, 4.4%, and 1.8%, and (v) post-vesting restrictions discount of 10.0%, 10.0%, and 5.8%. The total grant date fair value of time-based restricted stock units and market-based restricted stock units granted during the years ended December 31, 2024, 2023, and 2022 was \$11Â million, \$9Â million, and \$27Â million, respectively. The total fair value (at vesting) of time-based restricted stock units and market-based restricted stock units that vested during the years ended December 31, 2024, 2023, and 2022 was \$7Â million, \$16Â million, and \$27Â million, respectively. Upon vesting of Restricted Stock Units, the participant is required to pay the related tax withholding obligation, as applicable. The Company reduces the number of common stock shares delivered to pay the employee tax withholding obligation. The value of the shares withheld is dependent on the closing market price of the Companyâs common stock on the trading date prior to the relevant transaction occurring. During the years ended December 31, 2024, 2023, and 2022, the Company withheld 123,000, 241,000, and 356,000 shares, respectively, to offset tax withholding obligations with respect to the vesting of the Restricted Stock Units.LTIP UnitsDuring each of the years ended December 31, 2024 and 2023, approximately 2Â million LTIP Units were issued to officers of the Company. These awards are designed to qualify as âprofits interestsâ in Healthpeak OP for federal income tax purposes. Such interests are initially not economically equivalent in value to a share of common stock until reaching one-for-one parity with the Companyâs common stock, subject to any vesting conditions applicable to the award. When certain conditions are met, LTIP Units are converted to common units, which may then be redeemed for cash or shares of the Companyâs common stock, at the Companyâs option as managing member of Healthpeak OP (see also Note 13).112Table of ContentsUnder the Plans, time-based LTIP Units and market-based LTIP Units (collectively, âLTIP Unitsâ), are granted subject to certain restrictions. Time-based LTIP Units, which vest solely upon passage of time, generally vest over a period of three to six years. The fair value of the time-based LTIP Units is determined based on the closing market price of the Companyâs shares on the grant date less a discount for post-vesting restrictions, liquidity risk, and uncertainty of the time-based LTIP Units reaching parity. The market-based LTIP Units are granted at the maximum potential payout, inclusive of expected distributions during the performance period. Market-based LTIP Units, which vest dependent upon attainment of various levels of TSR performance that equal or exceed threshold levels as measured against certain peer and industry benchmarks, generally vest in their entirety at the end of a three-year performance period. The number of market-based LTIP Units that ultimately vest can vary from 0% to 200% of target depending on the level of achievement of the performance criteria, and any difference from the original grant are forfeited. The fair value of market-based LTIP Units granted during the years ended December 31, 2024 and 2023 is determined based on the Monte Carlo valuation model using the same assumptions as market-based restricted stock units described above less a discount for post-vesting restrictions, liquidity risk, and uncertainty of the market-based LTIP Units reaching parity with the value of the Companyâs common stock and the vesting terms of the awards. The total grant date fair value of LTIP Units granted during the years ended December 31, 2024 and 2023 was \$13Â million and \$29Â million. The total fair value (at vesting) of LTIP Units that vested during the years ended December 31, 2024 and 2023 was \$3Â million and \$2Â million. Dividends and DistributionsHolders of time-based restricted stock units and time-based LTIP Units are generally entitled to receive dividends and distributions, respectively, equal to the amount that would be paid on an equivalent number of shares of common stock. Market-based restricted stock units receive cumulative cash dividends upon vesting for the entirety of the performance period based on the level of achievement of the performance criteria. The market-based LTIP Units receive cash distributions equal to 10% of the quarterly dividends paid on the Companyâs common stock during the performance period. Based on the level of achievement of the performance criteria at the end of the performance period, the market-based LTIP Units receive distributions in the form of additional LTIP Units for amounts ultimately vested during the performance period, less cash distributions already paid.Stock OptionsThere have been no grants of stock options since 2014. Stock options outstanding and exercisable were zero at December 31, 2024 and 0.2Â million at December 31, 2023. There were no stock options exercised under the Plans for the years ended December 31, 2024, 2023, and 2022. No compensation cost related to stock options was incurred during the years ended December 31, 2024, 2023, and 2022.The following table summarizes Restricted Stock Unit and LTIP Unit activity for the year ended December 31, 2024 (units in thousands):Restricted Stock UnitsLTIP UnitsÂ Number of UnitsWeightedAverageGrantÂ DateFairÂ ValueNumber of UnitsWeightedAverageGrantÂ DateFairÂ ValueUnvested at January 1, 2024879Â \$29.91Â 1,894Â \$14.26Â Granted597Â 17,691,511Â 8,751,511Â Vested(377)27,888(199)17,434 Forfeited(224)27,200(304)12,700 Unvested at December 31, 2024875Â 29,910Â 2,902Â 10,880 Total stock-based compensation cost was \$20 million, \$19 million, and \$32 million for the years ended December 31, 2024, 2023, and 2022, respectively, which was recognized in general and administrative expenses. The year ended December 31, 2022 included \$10Â million of severance-related charges resulting from a decrease in the requisite service period of restricted stock units associated with the Company's former CEO, as further described below. Of the total stock-based compensation cost, \$4Â million was capitalized as part of real estate for each of the years ended December 31, 2024, 2023, and 2022. As of December 31, 2024, there was \$22 million of future expenses related to unvested stock-based compensation arrangements granted under the Companyâs incentive plans, which is expected to be recognized over a weighted average period of 1.6 years associated with future employee service. Compensation cost recognized for all Restricted Stock Units and LTIP Units is net of actual forfeitures.113Table of ContentsDeparture of ExecutivesOn October 6, 2022, the Company and Thomas M. Herzog mutually agreed that Mr. Herzog would step down from his position as CEO and from the board of directors of the Company, effective immediately. On November 1, 2022, the Company and Troy E. McHenry mutually agreed that Mr. McHenry would step down from his position as Chief Legal Officer and General Counsel, effective immediately. During the fourth quarter of 2022, the Company recognized total severance-related charges of \$33Â million in general and administrative expenses on the Consolidated Statements of Operations, \$10Â million of which related to a decrease in the requisite service period of Restricted Stock Units as discussed above. These Restricted Stock Units continue to vest in accordance with the original terms of the grants. As of December 31, 2024 and 2023, \$4Â million and \$8Â million of these severance-related charges have not yet been paid and were included in accounts payable, accrued liabilities, and other liabilities on the Consolidated Balance Sheets.NOTE 16.Â Â Â A Segment DisclosuresThe Companyâs operating segments, based on how its CODM, the President and Chief Executive Officer, evaluates the business and allocates resources, are as follows: (i) outpatient medical, (ii) lab, (iii) CCRC, (iv) an interest in an unconsolidated joint venture that owns 19 senior housing assets (the âSWF SH JVâ), and (v) loans receivable. The Companyâs reportable segments, as determined in accordance with ASC 280, Segment Reporting, are as follows: (i) outpatient medical, (ii) lab, and (iii) CCRC. The SWF SH JV and loans receivable are non-reportable segments that have been presented on a combined basis within the Notes to the Consolidated Financial Statements herein. The accounting policies of the segments are the same as those described in the Companyâs Summary of Significant Accounting Policies (see Note 2).The CODM evaluates performance based on property Adjusted NOI. Adjusted NOI is used to evaluate performance because it provides relevant and useful information by reflecting only income and operating expense items that are incurred at the property level and presenting it on an unlevered basis. Adjusted NOI represents real estate revenues (inclusive of rental and related revenues, resident fees and services, and government grant income and exclusive of interest income), less property level operating expenses; Adjusted NOI excludes all other financial statement amounts included in net income (loss). Adjusted NOI eliminates the effects of straight-line rents, amortization of market lease intangibles, termination fees, actuarial reserves for insurance claimsÂ that have been incurred but not reported, and the impact of deferred community fee income and expense. Adjusted NOI is calculated as Adjusted NOI from consolidated properties, plus the Companyâs share of Adjusted NOI from unconsolidated joint ventures (calculated by applying the Companyâs actual ownership percentage for the period), less noncontrolling interestsâ share of Adjusted NOI from consolidated joint ventures (calculated by applying the Companyâs actual ownership percentage for the period). Management utilizes its share of Adjusted NOI in assessing its performance as the Company has various joint ventures that contribute to its performance. Segment assets consist of real estate assets, intangible assets, and right-of-use assets. Non-segment assets consist of assets in the Companyâs other non-reportable segments and corporate non-segment assets. Corporate non-segment assets consist primarily of corporate assets, including cash and cash equivalents, restricted cash, accounts receivable, other assets, and real estate assets held for sale. Reportable segment asset information is not provided to the CODM as the CODM does not use segment asset information to evaluate the business and allocate resources.114Table of ContentsThe following tables summarize information for the reportable segments for the year ended December 31, 2024 (in thousands):Outpatient MedicalLabCCRCTotalTotal revenues\$1,205,744Â \$881,452Â \$568,475Â \$2,655,671Â Healthpeakâs share of unconsolidated joint venture total revenues\$24,041Â 19,733Â Â Â 43,774Â Noncontrolling interestsâ share of consolidated joint venture total revenues(37,643)(196)âÂ (37,839)Operating expenses(1)405,993(239,620)(429,248)(1,074,861)Healthpeakâs share of unconsolidated joint venture operating expenses(9,034)(6,366)âÂ (15,400)Noncontrolling interestsâ share of consolidated joint venture operating expenses10,582 52Â Â Â 10,634Â Adjustments to NOI(2)(38,967)(64,449)(3,123)(106,539)Adjusted NOI for reportable segments\$748,730Â \$590,606Â \$136,104Â \$1,475,440Â Plus: Adjustments to NOI(2)106,539Â Interest income and other44,778Â Interest expense(280,430)Depreciation and amortization(1,057,205)General and administrative(97,162)Transaction and merger-related costs(132,685)Impairments and loan loss reserves, net(22,978)Gain (loss) on sales of real estate, net178,695Â Other income (expense), net59,345Â Less: Healthpeakâs share of unconsolidated joint venture Adjusted NOI(28,374)Plus: Noncontrolling interestsâ share of consolidated joint venture Adjusted NOI27,205Â Income (loss) before income taxes and equity income (loss) from unconsolidated joint ventures\$773,168Â (1)See reconciliation of significant expense categories below.(2)Represents straight-line rents, amortization of market lease intangibles, net, actuarial reserves for insurance claimsÂ that have been incurred but not reported, deferral of community fees, and termination fees. At DecemberÂ 31, 2023, goodwill of \$18Â million was allocated to the Companyâ€™s segment assets as follows: (i) \$14Â million for outpatient medical, (ii) \$2Â million for CCRC, and (iii) \$2Â million for other non-reportable.NOTE 17. Â Â Â Â Â Income TaxesThe Company has elected to be taxed as a REIT under the applicable provisions of the Code beginning with the year ended December 31, 1985. The Company has also elected for certain of its subsidiaries to be treated as TRSs (the â€™TRS entitiesâ€™), which are subject to federal and state income taxes. All entities other than the TRS entities are collectively referred to as the â€™REITsâ€™ within this Note 17. Certain REIT entities are also subject to state and local income taxes.Distributions with respect to the Companyâ€™s common stock can be characterized for federal income tax purposes as ordinary dividends, capital gains, nondividend distributions, or a combination thereof.The following table shows the characterization of the Companyâ€™s annual common stock distributions per share:Year Ended December 31,202420232022Ordinary dividends(1)\$0.720440Â \$0.909692Â \$0.872948Â Capital gains(2)(3)0.295060Â 0.116992Â 0.183208Â Nondividend distributions0.184500Â 0.173316Â 0.143844Â \$1.200000Â \$1.200000Â \$1.200000Â (1)For the year ended December 31, 2024, the amount includes \$0.882312 of ordinary dividends qualified as business income for purposes of Code Section 199A and \$0.027380 of qualified dividend income for purposes of Code Section 1(h)(11). For the year ended December 31, 2022, all \$0.872948 of ordinary dividends qualified as business income for purposes of Code Section 199A. (2)For the years ended DecemberÂ 31, 2024, 2023, and 2022, the amount includes \$0.215960, \$0.036256, and \$0.017760, respectively, of unrecaptured Code Section 1250 gain. Pursuant to Treasury Regulation Section 1.1061-6(c), the Company is disclosing additional information related to the capital gain dividends for purposes of Section 1061 of the Code. Code Section 1061 is generally applicable to direct and indirect holders of â€™applicable partnership interests.â€™ For the years ended December 31, 2024 and 2023, the â€™One Year Amountsâ€™ and â€™Three Year Amountsâ€™ are each zero, since all capital gains relate to Code Section 1231 gains. For the year ended December 31, 2022, the â€™One Year Amountsâ€™ and â€™Three Year Amountsâ€™ are each 89.6708% of the total capital gain distributions and the remaining capital gain distributions are attributable to Code Section 1231 gains, which are not subject to Code Section 1061. (3)For the years ended DecemberÂ 31, 2024, 2023, and 2022, 100%, 100%, and 10.3292%, respectively, of the capital gain distributions represent gains from dispositions of U.S. real property interests pursuant to Code Section 897 for foreign shareholders.The Companyâ€™s pretax income (loss) from continuing operations for the years ended DecemberÂ 31, 2024, 2023, and 2022 was \$272Â million, \$325Â million, and \$509Â million, respectively, of which \$217Â million, \$318Â million, and \$527Â million was attributable to the REIT entities for the years then ended. The TRS entities subject to tax reported income (losses) before income taxes from continuing operations of \$55 million, \$7 million, and \$(18) million for the years ended DecemberÂ 31, 2024, 2023, and 2022, respectively.118Table of ContentsThe total income tax benefit (expense) from continuing operations consists of the following components (in thousands):Year Ended December 31,202420232022CurrentFederal\$(2,389)\$ (1,663)\$(632)State(3,654)(3,325)(689)Total currents\$(6,043)\$(4,988)\$(1,321)DeferredFederal\$(3,429)\$11,682Â \$3,157Â State5,122Â 2,923Â 2,589Â Total deferred\$1,693Â \$14,605Â \$5,746Â Total income tax benefit (expense) from continuing operations\$(4,350)\$9,617Â \$4,425Â The Companyâ€™s income tax benefit from discontinued operations was zero, zero, and \$0.3Â million for the years ended DecemberÂ 31, 2024, 2023, and 2022, respectively (see Note 5).The following table reconciles income tax benefit (expense) from continuing operations at statutory rates to actual income tax benefit (expense) recorded (in thousands):Year Ended December 31,202420232022Tax benefit (expense) at U.S. federal statutory income tax rate on income or loss subject to tax\$(11,601)\$(1,404)\$(3,698) State income tax benefit (expense), net of federal tax (1,389)(1,035)911Â Gross receipts and margin taxes(1,774)(1,647)(956)Return to provision adjustments(287)(901)260Â Change in valuation allowance for deferred tax assets(10,698)13,797Â 194Â Change in tax status of TRSÂ (4)(682)Total income tax benefit (expense) from continuing operations\$(4,350)\$9,617Â \$4,425Â 119Table of ContentsDeferred income taxes reflect the net effects of temporary differences between the carrying amounts of the assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The following table summarizes the significant components of the Companyâ€™s deferred tax assets and liabilities from continuing operations (in thousands):December 31,202420232022Deferred tax assets:Deferred revenues103,470Â \$103,530Â \$102,504Â Net operating loss carryforward50,041Â 54,136Â 62,280Â Expense accruals11,787Â 12,324Â 12,399Â Real estate195Â 850Â 150Â Other 49Â 58Â 689Â Total deferred tax assets165,542Â 170,898Â 178,022Â Valuation allowance(2,306)(13,004)(26,098)Deferred tax assets, net of valuation allowance\$163,236Â \$157,894Â \$151,924Â Deferred tax liabilities:Real estate\$47,268Â \$43,488Â \$52,266Â Other876Â 818Â 674Â Deferred tax liabilities\$48,144Â \$44,306Â \$52,940Â Net deferred tax assets\$115,092Â \$113,588Â \$98,984Â Net deferred tax assets are included in other assets, net on the Consolidated Balance Sheets.The Company records a valuation allowance against deferred tax assets in certain jurisdictions when it is not more likely than not that it can realize the related deferred tax assets. The deferred tax asset valuation allowance is adequate to reduce the total deferred tax assets to an amount that the Company estimates will â€™more-likely-than-notâ€™ be realized.As of December 31, 2022, the Company recorded a valuation allowance against certain SHOP deferred tax assets generated by net operating losses (â€™NOLsâ€™) of its TRS entities. During the years ended December 31, 2024 and 2023, the Company concluded that it was more likely than not that certain deferred tax assets (primarily NOL carryforwards) would be realized. During the year ended December 31, 2023, this conclusion was based on estimates of future taxable income for certain TRS entities in connection with the Callan Ridge JV transaction (see also Notes 5 and 9). Accordingly, the Company reversed a portion of the deferred tax asset valuation allowance and recognized an income tax benefit of \$14Â million during the year ended December 31, 2023. During the year ended DecemberÂ 31, 2024, the Company recognized an income tax expense of \$12Â million in conjunction with the closing of the Callan Ridge JV transaction. Additionally, during the year ended DecemberÂ 31, 2024, the Company completed a merger of certain TRS entities and as a result, reversed a portion of the deferred tax asset valuation allowance and recognized an income tax benefit of \$11Â million. As of DecemberÂ 31, 2024, 2023, and 2022, the Company had a deferred tax asset valuation allowance of \$2Â million, \$13Â million, and \$26Â million, respectively. At DecemberÂ 31, 2024, the Company had a NOL carryforward of \$193 million related to the TRS entities. If unused, \$2 million will begin to expire in 2035. The remainder, totaling \$191 million, may be carried forward indefinitely.The following table summarizes the Companyâ€™s unrecognized tax benefits (in thousands):December 31,202420232022Total unrecognized tax benefits at January 1\$â€™Â \$â€™Â \$469Â Gross amount of decreases for prior yearsâ€™ tax positionsâ€™Â \$Â 469)Total unrecognized tax benefits at December 31\$â€™Â \$â€™Â \$â€™Â For the years ended DecemberÂ 31, 2024, 2023, and 2022 the Company had no unrecognized tax benefits.The Company files numerous U.S. federal, state, and local income and franchise tax returns. With a few exceptions, the Company is no longer subject to U.S. federal, state, or local tax examinations by taxing authorities for years prior to 2021.120Table of Contents NOTE 18.Â Â Â Â Â Supplemental Cash Flow InformationThe following table provides supplemental cash flow information (in thousands):Year Ended December 31,202420232022Supplemental cash flow information:Interest paid, net of capitalized interests\$249,471Â \$188,213Â \$162,115Â Income taxes paid (refunded)7,862Â 1,923Â (1,903)Capitalized interest69,256Â 56,849Â 41,046Â Cash paid for amounts included in the measurement of lease liability for operating leases21,277Â 21,488Â 12,594Â Supplemental schedule of non-cash investing and financing activities:Increase in ROU asset in exchange for new lease liability related to operating leases15,457Â 9,454Â 9,454Â Accrued construction costs136,767Â 105,572Â 178,626Â Net noncash impact from the consolidation of property previously held in an unconsolidated joint ventureâ€™Â 993Â â€™Â Retained investment in connection with South San Francisco JVs transaction (see Note 9)â€™Â \$Â 293,265Â Retained investment in connection with Callan Ridge JV (see Note 9)69,255Â â€™Â Non-cash assets and liabilities assumed in connection with the Merger (see Note 3),926,141Â â€™Â \$Â Seller financing provided on disposition of real estate assets (see Note 8)418,389Â â€™Â \$Â Operating, investing, and financing cash flows in the Consolidated Statements of Cash Flows are reported inclusive of both cash flows from continuing operations and cash flows from discontinued operations. The Company holds a membership interest in Healthpeak OP, acts as the managing member of Healthpeak OP, and exercises full responsibility, discretion, and control over the day-to-day management of Healthpeak OP. Because the noncontrolling interests in Healthpeak OP do not have substantive liquidation rights, substantive kick-out rights without cause, or substantive participating rights, the Company has determined that Healthpeak OP is a VIE. The Company, as managing member, has the power to direct the core activities of Healthpeak OP that most significantly affect Healthpeak OPâ€™s performance, and through its interest in Healthpeak OP, has both the right to receive benefits from and the obligation to absorb losses of Healthpeak OP. Accordingly, the Company is the primary beneficiary of Healthpeak OP and consolidates Healthpeak OP. As the Company conducts its business and holds its assets and liabilities through Healthpeak OP, the total consolidated assets and liabilities, income (losses), and cash flows of Healthpeak OP represent substantially all of the total consolidated assets and liabilities, including the consolidated and unconsolidated entities discussed in this Note 19, income (losses), and cash flows of the Company.Unconsolidated Variable Interest EntitiesAt DecemberÂ 31, 2024, the Company had investments in (i) two unconsolidated VIE joint ventures and (ii) the PropTech Investment, an unconsolidated VIE investment in a limited partnership. At DecemberÂ 31, 2023, the Company had investments in two unconsolidated VIE joint ventures. The Company determined it is not the primary beneficiary of and therefore does not consolidate these VIEs because it does not have the ability to control the activities that most significantly impact their economic performance. Except for the Companyâ€™s equity interest in the unconsolidated joint ventures (the LLC Investment and Needham Land Parcel JV discussed below) and the PropTech Investment, it has no formal involvement in these VIEs beyond its investments.LLC Investment. The Company holds a limited partner ownership interest in an unconsolidated LLC (â€™LLC Investmentâ€™) that has been identified as a VIE. The Companyâ€™s involvement in the entity is limited to its equity investment as a limited partner and it does not have any substantive participating rights or kick-out rights over the general partner. The assets and liabilities of the entity primarily consist of three hospitals as well as senior housing real estate. Any assets generated by the entity may only be used to settle its contractual obligations (primarily capital expenditures and debt service payments).PropTech Investment. During the year ended DecemberÂ 31, 2024, the Company made an initial investment of \$1Â million in a property technology (â€™PropTechâ€™) fund that makes venture capital investments in early-stage real estate and construction-related companies (the â€™PropTech Investmentâ€™). The Company has an aggregate commitment of \$10Â million, or approximately 5% of total fund commitments, which is expected to be funded over the next five years. The PropTech Investment has been identified as a VIE. The Companyâ€™s involvement in the entity is limited to its equity investment as a limited partner and it does not have any substantive participating rights or kick-out rights over the general partner and given its rights and ownership percentage, the Company has virtually no influence or control. The assets and liabilities of the entity primarily consist of investments in certain PropTech real estate and construction companies. All future investments will be funded with capital contributions from the Company and other limited partners in accordance with their respective commitments. Needham Land Parcel JV. In December 2021, the Company acquired a 38% interest in a lab development joint venture in Needham, Massachusetts for \$13Â million. Current equity at risk is not sufficient to finance the joint ventureâ€™s activities. The assets and liabilities of the entity primarily consist of real estate and debt service obligations. Any assets

A A A Changes in and Disagreements with Accountants on Accounting and Financial DisclosureNone.ITEM 9A. A A A Controls and ProceduresDisclosureControls and Procedures. A We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SECâ€™s rulesA and forms and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.As required by RulesA 13a-15(b) and 15d-15(b) of the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of DecemberA 31, 2024. Based upon that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of DecemberA 31, 2024.Managementâ€™s Annual Report on Internal Control over Financial Reporting. A Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act RulesA 13a-15(f) and 15d-15(f). Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Controlâ€™Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in Internal Controlâ€™Integrated Framework (2013), our management concluded that our internal control over financial reporting was effective as of DecemberA 31, 2024.The effectiveness of our internal control over financial reporting as of DecemberA 31, 2024 has been audited by Deloitte& ToucheA LLP, the independent registered public accounting firm that audited the financial statements included in this Annual Report on Form 10-K, as stated in their report, which is included herein.Changes in Internal Control Over Financial Reporting. A There were no changes in our internal control over financial reporting (as such term is defined in RulesA 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended DecemberA 31, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.142Table of ContentsREPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRMTTo the stockholders and the Board of Directors of Healthpeak Properties, Inc. Opinion on Internal Control over Financial Reporting We have audited the internal control over financial reporting of Healthpeak Properties, Inc. and subsidiaries (the â€œCompanyâ€) as of December 31, 2024, based on criteria established in Internal Control â€ Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (â€œCOSOâ€). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2024, based on criteria established in Internal Control â€ Integrated Framework (2013) issued by COSO. We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended December 31, 2024, of the Company and our report dated February 4, 2025, expressed an unqualified opinion on those financial statements.Basis for Opinion The Companyâ€™s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Managementâ€™s Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Companyâ€™s internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Definition and Limitations of Internal Control over Financial Reporting A companyâ€™s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A companyâ€™s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the companyâ€™s assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate./s/ DELOITTE & TOUCHEA LLPCosta Mesa, CaliforniaFebruaryA 4, 2025143Table of ContentsITEM 9B. Thompson/s/ RICHARD A. WEISSDirectorFebruary 4, 2025Richard A. Weiss152 EX-4.15 2 ex41512312024.htm EX-4.15 DocumentEXHIBIT 4.15DESCRIPTION OF CAPITAL STOCK OF HEALTHPEAK PROPERTIES, INC.References to aew, a acausa and acaoura in this section refer to Healthpeak Properties, Inc.The following description summarizes the material provisions of the common stock and preferred stock we may offer, as well as certain provisions of Maryland law and of our charter, as amended, which we refer to as our charter, and our amended and restated bylaws, as amended, which we refer to as our bylaws. These descriptions are not complete and are subject to, and qualified in their entirety by reference to, our charter and our bylaws and applicable provisions of the Maryland General Corporation Law. For a complete description, we refer you to the Maryland General Corporation Law, our charter and our bylaws. Copies of our charter and bylaws are included as exhibits to our Annual Report on Form 10-KA for the fiscal year ended December 31, 2024.Our authorized capital stock consists of 1,500,000,000 shares of common stock, par value \$1.00A per share, and 50,000,000 shares of preferred stock, par value \$1.00 per share.Common StockAs of December 31, 2024, there were 699,485,139 shares of common stock outstanding. All shares of common stock participate equally in dividends payable to holders of common stock, when, and as if authorized by our board and declared by us, and in net assets available for distribution to holders of common stock on liquidation, dissolution, or winding up. Each outstanding share of common stock entitles the holder to one vote on all matters submitted to a vote of our stockholders. Holders of common stock do not have cumulative voting rights in the election of directors.All issued and outstanding shares of common stock are validly issued, fully paid and nonassessable. Holders of common stock do not have preference, conversion, exchange or preemptive rights. The common stock is listed on the New York Stock Exchange (NYSE Symbol: DOC).Preferred StockAs of December 31, 2024, we had no shares of preferred stock outstanding. Under our charter, our board is authorized without further stockholder action to establish and issue, from time to time, up to 50,000,000 shares of our preferred stock, in one or more series. Our board may grant the holders of preferred stock of any series preferences, powers and rights a voting or otherwise a senior to those of holders of shares of our common stock. Our board can authorize the issuance of shares of preferred stock with terms and conditions that could have the effect of delaying or preventing a change of control transaction that might involve a premium price for holders of shares of our common stock or otherwise be in their best interest. All shares of preferred stock will, when issued in exchange for the consideration therefor, be fully paid and nonassessable and will have no preemptive rights. The Maryland General Corporation Law and our charter require our board to determine the terms and conditions of any series of preferred stock, including: a the number of shares constituting such series and the distinctive designation thereof; a the voting rights, if any, of such series; a the rate of dividends payable on such series, the time or times when dividends will be payable, the preference to, or any relation to, the payment of dividends to any other class or series of stock and whether the dividends will be cumulative or noncumulative; a whether there shall be a sinking or similar fund for the purchase of shares of such series and, if so, the terms and provisions that shall govern such fund;677897.4a the rights of the holders of shares of such series upon our liquidation, dissolution or winding up; a the rights, if any, of holders of shares of such series to convert such shares into, or to exchange such shares for, shares of any other class or series of our stock or any other securities, the price or prices or rate or rates of exchange, with such adjustments as shall be provided, at which such shares shall be convertible or exchangeable, whether such rights of conversion or exchange shall be exercisable at the option of the holder of the shares or upon the happening of a specified event and any other terms or conditions of such conversion or exchange; a if the shares are redeemable, the prices at which, and the terms and conditions on which, the shares of such series may be redeemed; and a any other preferences, powers and relative participating, optional or other special rights and qualifications, limitations or restrictions of shares of such series.Transfer and Ownership Restrictions Relating to Our Common StockOur charter contains restrictions on the ownership and transfer of our common stock that are intended to assist us in complying with the requirements to continue to qualify as a real estate investment trust, or REIT.Subject to limited exceptions, no person or entity may own, or be deemed to own by virtue of the applicable constructive ownership provisions of the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code, more than 9.8% (by number or value of shares, whichever is more restrictive) of the outstanding shares of our common stock. Our board may, but is in no event required to, waive the applicable ownership limit with respect to a particular stockholder if it determines that such ownership will not jeopardize our status as a REIT and our board otherwise decides such action would be in our best interests.These charter provisions further prohibit: a any person from actually or constructively owning shares of our stock that would result in our being a closely held a under Section 856(h) of the Internal Revenue Code or otherwise cause us to fail to qualify as a real estate investment trust (including but not limited to ownership that would result in us owning, actually or constructively, an interest in a tenant as described in Section 856(d)(2)(B) of the Internal Revenue Code) if the income derived by us, either directly or indirectly, from such tenant would cause us to fail to satisfy any of the gross income requirements of Section 856(c) of the Internal Revenue Code); and a any person from transferring shares of our capital stock if such transfer would result in shares of our stock being beneficially owned by fewer than 100 persons (determined without reference to any rules of attribution).Any person who acquires or attempts or intends to acquire actual or constructive ownership of shares of our stock that will or may violate any of these restrictions on ownership and transfer is required to give notice immediately to us and provide us with such other information as we may request in order to determine the effect of the transfer on our qualification as a REIT. Under our charter, if any purported transfer of our stock or any other event would otherwise result in any person violating the applicable ownership limit or such other limit as permitted by our board, then any such purported transfer is void and of no force or effect with respect to the purported transferee as to that number of shares of our stock in excess of the ownership limit or such other limit, and the transferee will acquire no right or interest in such excess shares. Any excess shares described above are transferred automatically, by operation of law, to a trust, the beneficiary of which is a qualified a charitable organization selected by us. Such automatic transfer will be deemed to be effective as of the close of business on the business day prior to the date of such violative transfer. Within 20A days of receiving notice from us of the transfer of shares to the trust, the trustee of the trust is required to sell the excess shares to a person or entity who could own the shares without violating the applicable ownership limit, or such other limit as permitted by our board, and distribute to the prohibited transferee an amount equal to the lesser of the price paid by the prohibited transferee for the excess shares or the sales proceeds received by the trust for the excess shares. Any proceeds in excess of the amount distributable to the prohibited transferee are distributed to the beneficiary of the trust. Prior to a sale of any such excess shares by the trust, the trustee is entitled to receive, in trust for the beneficiary, all dividends and other distributions paid by us with respect to such excess shares, and also is entitled to exercise all voting rights with respect to such excess shares.Subject to Maryland law, effective as of the date that such shares have been transferred to the trust, the trustee will have the authority, at the trustee's sole discretion: a to rescind as void any vote cast by a prohibited transferee prior to the discovery by us that the shares have been transferred to the trust; ora to recast such vote in accordance with the desires of the trustee acting for the benefit of the beneficiary of the trust.However, if we have already taken irreversible corporate action, then the trustee will not have the authority to rescind and recast such vote. Any dividend or other distribution paid to the prohibited transferee, prior to the discovery by us that such shares had been automatically transferred to a trust as described above, are required to be repaid to the trustee upon demand for distribution to the beneficiary of the trust. In the event that the transfer to the trust as described above is not automatically effective, for any reason, to prevent violation of the ownership limit or such other limit as permitted by our board, then our charter provides that the transfer of the excess shares is void ab initio.In addition, shares of common stock held in the trust shall be deemed to have been offered for sale to us, or our designee, at a price per share equal to the lesser of: a the price per share in the transaction that resulted in such transfer to the trust or, if the event that resulted in the transfer to the trust did not involve a purchase of such shares at market price, the market price on the day of such event; and a the market price on the date we, or our designee, accepted the offer.We will have the right to accept the offer until the trustee has sold the shares of stock held in the trust. Upon a sale to us, the interest of the beneficiary in the shares sold will terminate and the trustee will distribute the net proceeds of the sale to the prohibited transferee.If any purported transfer of shares of common stock would cause us to be beneficially owned by fewer than 100 persons, such transfer will be null and void ab initio in its entirety and the intended transferee will acquire no rights to the stock.All certificates representing shares of common stock bear a legend referring to the restrictions described above. The foregoing ownership limitations could delay, deter or prevent a transaction or a change in control of us that might involve a premium price for the common stock or otherwise be in the best interest of our stockholders.In addition, if our board shall, at any time and in good faith, be of the opinion that direct or indirect ownership of at least 9.9% of the voting shares of capital stock has or may become concentrated in the hands of one beneficial owner, it shall have the power: a by lot or other means deemed equitable by it to call for the purchase from any stockholder of a number of voting shares sufficient, in the opinion of our board, to maintain or bring the direct or indirect ownership of voting shares of capital stock of the beneficial owner to a level of no more than 9.9% of our outstanding voting shares; and a to refuse to transfer or issue voting shares of capital stock to any person whose acquisition of such voting shares would, in the opinion of the board, result in the direct or indirect ownership by that person of more than 9.9% of the outstanding voting shares of our capital stock.If our board fails to grant an exemption from this 9.9% ownership limitation, then the transfer of shares, options, warrants, or other securities convertible into voting shares that would create a beneficial owner of more than 9.9% of the outstanding voting shares shall be deemed void ab initio, and the intended transferee shall be deemed never to have had an interest in the transferred securities. The purchase price for any voting shares of capital stock so redeemed shall be equal to the fair market value of the shares reflected in the closing sales price for the

shares, if then listed on a national securities exchange, or the average of the closing sales prices for the shares if then listed on more than one national securities exchange, or if the shares are not then listed on a national securities exchange, the latest bid quotation for the shares if then traded over-the-counter, on the last business day immediately preceding the day on which we send notices of such acquisitions, or, if no such closing sales prices or quotations are available, then the purchase price shall be equal to the net asset value of such stock as determined by the board in accordance with the provisions of applicable law. From and after the date fixed for purchase by the board, the holder of any shares so called for purchase shall cease to be entitled to distributions, voting rights and other benefits with respect to such shares, except the right to payment of the purchase price for the shares. Business Combination Provisions Our charter requires that, except in some circumstances, any business combinations between us and a beneficial holder, together with its affiliates and associates, of 10% or more of our outstanding voting stock and any affiliate or associate of such holder, which we refer to as a Related Person, be approved by the affirmative vote of at least 90% of our outstanding voting shares. A business combination is defined in our charter as any merger or consolidation with or into a Related Person; any sale, lease, exchange, transfer or other disposition, including without limitation a mortgage or any other security device, of all or any Substantial Part (as defined below) of our assets, including any voting securities of a subsidiary, to a Related Person; any merger or consolidation of a Related Person with or into us; any sale, lease, exchange, transfer or other disposition of all or any Substantial Part of the assets of a Related Person to us; the issuance of any of our securities, other than by way of pro rata distribution to all stockholders, to a Related Person; and any agreement, contract or other arrangement providing for any of the transactions described above. The term Substantial Part means more than 10% of the book value of our total assets as of the end of our most recent fiscal year ending prior to the time the determination is being made. In addition to the restrictions on business combinations contained in our charter, Maryland law also contains restrictions on business combinations. See Certain Provisions of Maryland Law and Healthpeak Properties, Inc.'s Charter and Bylaws Business Combinations below. The foregoing provisions may have the effect of discouraging unilateral tender offers or other takeover proposals which stockholders might deem to be in their interests or in which they might receive a substantial premium. Our board's authority to issue and establish the terms of currently authorized preferred stock, without stockholder approval, may also have the effect of discouraging takeover attempts. See Preferred Stock above. The foregoing provisions could also have the effect of insulating current management against the possibility of removal and could, by possibly reducing temporary fluctuations in market price caused by accumulations of shares of our common stock, deprive stockholders of opportunities to sell at a temporarily higher market price. Our board believes, however, that inclusion of the business combination provisions in our charter may help assure fair treatment of our stockholders and preserve our assets. Transfer and Ownership Restrictions Relating to Our Preferred Stock Our charter may contain restrictions on the ownership and transfer of preferred stock that are intended to assist us in complying with the requirements to maintain our qualification as a REIT. Subject to limited exceptions, unless otherwise provided for in the terms of a particular series of preferred stock, no person or entity may own, or be deemed to own by virtue of the applicable constructive ownership provisions of the Internal Revenue Code, more than 9.8% (by number or value of shares, whichever is more restrictive) of the outstanding shares of such series of preferred stock. Our board may, but in no event will be required to, waive the applicable ownership limit with respect to a particular stockholder if it determines that such ownership will not jeopardize our qualification as a REIT and our board otherwise decides such action would be in our best interests. The mechanics for the ownership limits on our preferred stock will be similar to the mechanics related to our common stock, as described in Transfer and Ownership Restrictions Relating to Our Common Stock above, unless otherwise provided in the terms of a particular series of preferred stock. Certain Provisions of Maryland Law and of Healthpeak Properties, Inc.'s Charter and Bylaws Election of Directors Our bylaws provide that our board may establish, increase or decrease the number of directors, provided that the number thereof shall never be less than three nor more than thirteen. Our bylaws also provide for the election of directors, in uncontested elections, by a majority of the votes cast. In contested elections, the election of directors shall be by a plurality of the votes cast. Holders of common stock have no right to cumulative voting for the election of directors. Consequently, at each annual meeting of stockholders, the holders of a majority of the outstanding shares of our common stock can elect all of our directors. A vacancy resulting from an increase in the number of directors may be filled by a majority vote of the entire board or by the affirmative vote of the holders of a majority of our shares then entitled to vote at an election of directors. Other vacancies may be filled by the vote of a majority of the remaining directors. Removal of Directors Our charter provides that a director of ours may be removed by the affirmative vote of the holders of two-thirds of the outstanding shares of our voting stock or by a unanimous vote of all other directors. Our stockholders may elect a successor to fill any vacancy which results from the removal of a director. Business Combinations Under Maryland law, any business combinations between a Maryland corporation and an interested stockholder or an affiliate of an interested stockholder are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder. These business combinations include a merger, consolidation, share exchange, or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities. An interested stockholder is defined as: any person who beneficially owns ten percent or more of the voting power of the corporation's shares; or any affiliate of the corporation who, at any time within the two-year period prior to the date in question, was the beneficial owner of ten percent or more of the voting power of the then outstanding voting stock of the corporation. After the five-year prohibition, any business combination between the Maryland corporation and an interested stockholder generally must be recommended by the board of the corporation and approved by the affirmative vote of at least 80% of the votes entitled to be cast by holders of outstanding shares of voting stock of the corporation; and two-thirds of the votes entitled to be cast by holders of voting stock of the corporation other than shares held by the interested stockholder with whom or with whose affiliate the business combination is to be effected or which are held by an affiliate or associate of the interested stockholder. These super-majority vote requirements do not apply if the corporation's common stockholders receive a minimum price, as defined under Maryland law, for their shares in the form of cash or other consideration in the same form as previously paid by the interested stockholder for its shares. None of these provisions of Maryland law will apply, however, to business combinations that are approved or exempted by the board of the corporation prior to the time that the interested stockholder becomes an interested stockholder. In addition to the restrictions on business combinations provided under Maryland law, our charter also contains restrictions on business combinations. See Business Combination Provisions above. Control Share Acquisitions Maryland law provides that holders of any control shares of a Maryland corporation acquired in a control share acquisition have no voting rights with respect to the control shares except to the extent approved by a vote of two-thirds of the votes entitled to be cast on the matter. Shares of stock owned by the acquiror, by officers or by directors who are employees of the corporation are excluded from shares entitled to vote on the matter. Any control shares are voting shares of stock which, if aggregated with all other shares of stock owned by the acquiror or shares of stock for which the acquiror is able to exercise or direct the exercise of voting power except solely by virtue of a revocable proxy, would entitle the acquiror to exercise voting power in electing directors within one of the following ranges of voting power: one-tenth or more but less than one-third; one-third or more but less than a majority; or a majority or more of all voting power. Control shares do not include shares the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. Except as otherwise specified in the statute, a control share acquisition means the acquisition of control shares. Once a person who has made or proposes to make a control share acquisition has undertaken to pay expenses and satisfied other conditions, the person may compel the board to call a special meeting of stockholders to be held within 50 days of demand to consider the voting rights of the shares. If no request for a meeting is made, the corporation may itself present the question at any stockholders meeting. If voting rights are not approved at the meeting or if the acquiring person does not deliver an acquiring person statement as required by the statute, then the corporation may be able to redeem any or all of the control shares for fair value, except for control shares for which voting rights previously have been approved. The right of the corporation to redeem control shares is subject to certain conditions and limitations. Fair value is determined without regard to the absence of voting rights for control shares, as of the date of the last control share acquisition by the acquiror or of any meeting of stockholders at which the voting rights of control shares are considered and not approved. If voting rights for control shares are approved at a stockholders meeting and the acquiror becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the shares as determined for purposes of these appraisal rights may not be less than the highest price per share paid by the acquiror in the control share acquisition. Some of the limitations and restrictions otherwise applicable to the exercise of dissenters' rights do not apply in the context of a control share acquisition. The control share acquisition statute does not apply to shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction or to acquisitions approved or exempted by the charter or bylaws of the corporation. Our bylaws contain a provision exempting acquisitions of shares of our stock from the control share acquisition statute. However, our board may amend our bylaws in the future to repeal or modify this exemption, in which case any control shares of our company acquired in a control share acquisition will be subject to the control share acquisition statute. Unsolicited Takeovers Under Maryland law, a Maryland corporation with a class of equity securities registered under the Securities Exchange Act of 1934, or the Exchange Act, and at least three independent directors may elect to be subject to certain statutory provisions relating to unsolicited takeovers which, among other things, would automatically classify the board into three classes with staggered terms of three years each and vest in the board the exclusive right to determine the number of directors and the exclusive right, by the affirmative vote of a majority of the remaining directors, to fill vacancies on the board, even if the remaining directors do not constitute a quorum. These statutory provisions relating to unsolicited takeovers also provide that any director elected to fill a vacancy shall hold office for the remainder of the full term of the class of directors in which the vacancy occurred, rather than the next annual meeting of directors as would otherwise be the case, and until his successor is elected and qualified. Our board of directors has adopted a resolution prohibiting us from electing to be subject to the provisions of the unsolicited takeover statute relating to the classification of the board unless such election is first approved by our stockholders by the affirmative vote of a majority of all the votes entitled to be cast on the matter. An election to be subject to any or all of the other foregoing statutory provisions may be made in our charter or bylaws, or by resolution of our board without stockholder approval. Any such statutory provision to which we elect to be subject will apply even if other provisions of Maryland law or our charter or bylaws provide to the contrary. Neither our charter nor our bylaws provides that we are subject to any of the foregoing statutory provisions relating to unsolicited takeovers. However, our board could adopt a resolution, without stockholder approval, to elect to become subject to some or all of these statutory provisions except the statutory provisions relating to the classification of the board. If we made an election, upon stockholder approval of such election, to be subject to the statutory provisions relating to the classification of the board and our board were divided into three classes with staggered terms of office of three years each, the classification and staggered terms of office of our directors would make it more difficult for a third party to gain control of our board since at least two annual meetings of stockholders, instead of one, generally would be required to effect a change in the majority of our board. Amendments to the Charter Provisions of our charter on business combinations, the number of directors and certain ownership restrictions may be amended only if approved by our board and by our stockholders by the affirmative vote of two-thirds of all of the votes entitled to be cast by our stockholders on the matter. Other amendments to our charter require approval by our board and approval by our stockholders by the affirmative vote of a majority of all the votes entitled to be cast by our stockholders on the matter. Amendment to the Bylaws Provisions of our bylaws on the number of directors, in certain circumstances, and the vote required to amend the bylaws may be amended only by unanimous vote of the board or by the affirmative vote of not less than 90% of all of the votes entitled to be cast by our stockholders on the matter. Other amendments to our bylaws require the affirmative vote of a majority of the entire board or the affirmative vote of a majority of all of the votes entitled to be cast by our stockholders on the matter. Dissolution of Healthpeak Properties, Inc. Our dissolution must be approved by our board by a majority vote of the entire board and by our stockholders by the affirmative vote of a majority of all the votes entitled to be cast by our stockholders on the matter. Advance Notice of Director Nominations and New Business; Procedures of Special Meetings Requested by Stockholders Our bylaws provide that nominations of persons for election to the board and the proposal of business to be considered by stockholders at the annual or special meeting of stockholders may be made only: pursuant to our notice of the meeting; by or at the direction of the board; or by a stockholder who was a stockholder at the time the notice of meeting was given and is entitled to vote at the meeting and who has complied with the advance notice procedures, including the minimum time period, described in the bylaws. Our bylaws also provide that only the business specified in our notice of meeting may be brought before a special meeting of stockholders. Our bylaws provide that our stockholders have the right to call a special meeting only upon the written request of the stockholders holding in the aggregate not less than 50% of the outstanding shares entitled to vote on the business proposed to be transacted at such meeting. Proxy Access Our bylaws permit any stockholder or group of up to 25 stockholders (counting as one stockholder, for purposes of the aggregation limit, any two or more funds that are part of the same qualifying fund group, as such term is defined in our bylaws) who have maintained continuous qualifying ownership of 3% or more of our outstanding common stock for at least the previous three years to include up to a specified number of director nominees in our proxy materials for an annual meeting of stockholders. If a group of stockholders is aggregating its shareholdings in order to meet the 3% ownership requirement, the ownership of the group will be determined by aggregating the lowest number of shares continuously owned by each member during the three-year holding period. A nominating stockholder is considered to own only the shares for which the stockholder possesses the full voting and investment rights and the full economic interest (including the opportunity for profit and risk of loss). Under this provision, borrowed or hedged shares do not count as owned shares. Furthermore, to the extent not otherwise excluded pursuant to this definition of ownership, a nominating stockholder's short position as defined in Rule 14e-4 under the Exchange Act is deducted from the shares otherwise owned. Loaned shares are counted toward the ownership requirement, provided that certain recall requirements described in our bylaws are met. The maximum number of stockholder nominees permitted under the proxy access provisions of our bylaws shall not exceed the greater of (i) a two or (ii) a 20% of the directors in office as of the last day a notice of nomination may be timely received. If the 20% calculation does not result in a whole number, the maximum number of stockholder nominees is the closest whole number below 20%. If one or more vacancies occurs for any reason after the nomination deadline and our board decides to reduce the size of our board in connection therewith, the 20% calculation will be applied to the reduced size of the board, with the potential result that a stockholder nominee may be disqualified. Stockholder-nominated candidates whose nomination is withdrawn or whom the board determines to include in our proxy materials as board-nominated candidates will be counted against the 20% maximum. In addition, any director in office as of the nomination deadline who was included in our proxy materials as a stockholder nominee for either of the two preceding annual meetings and whom our board decides to renominate for election to the board also will be counted against the 20% maximum. Notice of a nomination pursuant to the proxy access provisions of our bylaws must be received no earlier than 150 days and no later than 120 days before the anniversary of the date that we distributed our proxy statement for the previous year's annual meeting of stockholders. The proxy access provisions of our bylaws require certain disclosure, representations and agreements to be provided or made by nominating stockholders and contain certain other procedural provisions. A stockholder nominee will not be eligible for inclusion in our proxy materials (i) if any stockholder has nominated a person pursuant to the advance notice provision of our bylaws; (ii) if the nominee would not be independent; (iii) if the nominee's election would cause us to violate our bylaws, our charter or any applicable listing standards, laws, rules or regulations; (iv) if the nominee is or has been an officer or director of a competitor, as defined in Section 8 of the Clayton Antitrust Act of 1914, within the past three years; or (v) if the nominee or the stockholder who nominated him or her has provided false and misleading information to us or otherwise breached any of its or their obligations, representations or agreements under the proxy access provisions of our bylaws. Stockholder nominees who are included in our proxy materials but subsequently withdraw from or become ineligible or unavailable for election at the meeting or do not receive at least 10% of the votes cast in the election will be ineligible for nomination under the proxy access provisions of our bylaws for the next two annual meetings. A nomination made under the proxy access provisions of our bylaws will be disregarded at the annual meeting under certain circumstances described in our bylaws. Anti-Takeover Effect of Provisions of Maryland Law and of Our Charter and Bylaws The provisions in our charter on removal of directors and business combinations, the business combinations and control share acquisition provisions of Maryland law, the unsolicited takeover provisions of Maryland law (if we elect to become subject to such provisions) and the provisions of our bylaws relating to advance notice, proxy access and stockholder-requested special meetings may delay, deter or prevent a change of control or other transaction in which holders of some, or a majority, of the common stock might receive a premium for their common stock over the then prevailing market price or which such holders might believe to be otherwise in their best interests. Limitation of Liability and Indemnification Maryland law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages. However, a Maryland corporation may not limit liability resulting from actual receipt of an improper benefit or profit in money, property or services. Also, liability resulting from active and deliberate dishonesty may not be eliminated if a final judgment establishes that the dishonesty is material to the cause of action. Our charter contains a provision which limits the liability of directors and officers for

money damages to the maximum extent permitted by Maryland law. This provision does not limit our right or that of our stockholders to obtain equitable relief, such as an injunction or rescission. Our bylaws obligate us, to the maximum extent permitted by Maryland law, to indemnify and, without requiring a preliminary determination as to the ultimate entitlement to indemnification, to pay or reimburse reasonable expenses before final disposition of a proceeding to: (a) any present or former director or officer who is made a party to the proceeding by reason of his service in that capacity; or (b) any individual who, while one of our directors or officers and at our request, serves or has served another corporation, partnership, joint venture, trust, employee benefit plan or any other enterprise as a director, officer, partner or trustee of such corporation, partnership, joint venture, trust, employee benefit plan, or other enterprise and who is made a party to the proceeding by reason of his service in that capacity. The bylaws authorize us, with the approval of our board, to provide indemnification and advancement of expenses to our agents and employees. Unless limited by a corporation's charter, Maryland law requires a corporation to indemnify a director or officer who has been successful, on the merits or otherwise, in the defense of any proceeding to which he is made a party by reason of his service in that capacity, or in the defense of any claim, issue or matter in the proceeding. Our charter does not alter this requirement. Maryland law permits a corporation to indemnify its present and former directors and officers, among others, against: (a) judgments; (b) penalties; (c) fines; (d) settlements; and (e) reasonable expenses actually incurred by them in connection with any proceeding to which they may be made a party by reason of their service in those or other capacities. Maryland law does not permit a corporation to indemnify its present and former directors and officers if it is established that (a) the act or omission of the director or officer was material to the matter giving rise to the proceeding and was committed in bad faith or was the result of active and deliberate dishonesty; (b) the director or officer actually received an improper personal benefit in money, property or services; or (c) in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful. Under Maryland law, a Maryland corporation generally may not indemnify for an adverse judgment in a suit by or in the right of the corporation. Also, a Maryland corporation generally may not indemnify for a judgment of liability on the basis that personal benefit was improperly received. In either of these cases, a Maryland corporation may indemnify for expenses only if a court so orders. Maryland law permits a corporation to advance reasonable expenses to a director or officer. First, however, the corporation must receive a written affirmation by the director or officer of his good faith belief that he has met the standard of conduct necessary for indemnification by the corporation. The corporation must also receive a written undertaking, either by the director or officer or on his behalf, to repay the amount paid or reimbursed by the corporation if it shall ultimately be determined that the standard of conduct was not met. The termination of any proceeding by conviction, or upon a plea of nolo contendere or its equivalent, or an entry of any order of probation prior to judgment, creates a rebuttable presumption that the director or officer did not meet the requisite standard of conduct required for indemnification to be permitted. It is the position of the Securities and Exchange Commission that indemnification of directors and officers for liabilities arising under the Securities Act of 1933, as amended, or the Securities Act, is against public policy and is unenforceable pursuant to Section 14 of the Securities Act. Transfer Agent The registrar and transfer agent for our common stock is Equiniti Trust Company, LLC. EX-10.12.7 3 ex1012712312024.htm EX-10.12.7 Document Exhibit 10.12.7 HEALTHPEAK PROPERTIES, INC. 2023 PERFORMANCE INCENTIVE PLANNON-NEO OP UNIT AWARD AGREEMENT THIS NON-NEO OP UNIT AWARD AGREEMENT (this "Agreement") is effective as of [] (the "Award Date"). WHEREAS, a Maryland corporation (the "Corporation"), Healthpeak OP, LLC (the "Partnership"), and [] (the "Participant"). WITNESSETH WHEREAS, the Corporation maintains the Healthpeak Properties, Inc. 2023 Performance Incentive Plan, as amended and/or restated from time to time (the "Plan"); WHEREAS, pursuant to that certain Non-NEO Restricted Stock Unit Award Agreement, dated as of [] (the "Original Award Date"), Old Healthpeak (as defined below) previously granted to the Participant an award of [] restricted stock units under the Plan (the "RSU Award"); WHEREAS, pursuant to that certain Agreement and Plan of Merger, dated as of February 7, 2023 (the "Merger Agreement"), by and among the entity known as Healthpeak Properties, Inc. prior to the Merger (the "Old Healthpeak"), New Healthpeak, Inc. and Healthpeak Merger Sub, Inc. (the "Merger Sub"), Merger Sub merged with and into Old Healthpeak, with Old Healthpeak being the surviving entity and becoming a subsidiary of New Healthpeak, Inc. (the "Merger"); WHEREAS, following the Merger, New Healthpeak, Inc. changed its name to Healthpeak Properties, Inc. and Old Healthpeak converted to a Maryland limited liability company named Healthpeak OP, LLC; WHEREAS, effective as of the effective time of the Merger, the RSU Award was automatically converted into a restricted stock unit award with respect to the same number of shares of common stock of the Corporation and subject to the same terms and conditions, including vesting terms, as the RSU Award immediately prior to the effective time of the Merger; WHEREAS, as of the date hereof, [] restricted stock units remained outstanding under the RSU Award; WHEREAS, the Participant elected to cancel and replace the RSU Award with an award of profits interest units (the "OP Units", which are "LTIP Units" as defined in the Plan); and WHEREAS, the Corporation, the Partnership and the Participant desire to enter into this Agreement to set forth the terms of the award of OP Units resulting from the cancellation and replacement of the RSU Award. NOW THEREFORE, in consideration of services rendered and to be rendered by the Participant to or for the benefit of the Partnership, and the mutual promises made herein and the mutual benefits to be derived therefrom, the parties agree as follows: 1. Defined Terms. Capitalized terms used herein and not otherwise defined herein shall have the meanings assigned to such terms in the Plan or the Partnership Agreement, as applicable. 2. Grant. (a) Subject to the terms of this Agreement, the Partnership hereby grants to the Participant an award (the "Award") of [] OP Units. The Partnership and the Participant acknowledge and agree that the OP Units are hereby issued to the Participant for the performance of services to or for the benefit of the Partnership in his or her capacity as a Member or in anticipation of the Participant becoming a Member. Upon receipt of the Award, the Participant shall, automatically and without further action on his or her part, be deemed to be a party to, signatory of and bound by the Partnership Agreement. At the request of the Partnership, the Participant shall execute the Partnership Agreement or a joinder or counterpart signature page thereto. The Participant acknowledges that the Partnership may from time to time issue or cancel (or otherwise modify) OP Units in accordance with the terms of the Partnership Agreement. The OP Units shall have the rights, voting powers, restrictions, limitations as to distributions, qualifications and terms and conditions of redemption and conversion set forth in this Agreement, the Plan and in the Partnership Agreement, and any rules adopted by the Administrator, as such rules are in effect from time to time. The parties acknowledge and agree that the OP Units are being granted subject to the cancellation of, and as a replacement for, the RSU Award, and the Participant acknowledges, agrees and consents to such cancellation and replacement as set forth herein. The Participant further agrees that, as of the Effective Date, the RSU Award and the restricted stock units subject thereto shall be cancelled and of no further force or effect, and the Participant shall have no further right, title or interest in the RSU Award, such restricted stock units or any shares of stock issuable thereunder. (b) As a condition to the grant of the Award and the Participant's right to receive and retain the OP Units, (i) concurrent with or prior to the execution of this Agreement, the Participant shall execute and deliver to the Company a Non-Referral Source Certification substantially in the form attached hereto as Exhibit AA (a "Certification") and (ii) the Participant's representations and warranties set forth therein shall be true and correct in all respects as of the date thereof. In the event that the Participant has previously delivered a true and correct Certification to the Company, the provisions of this Section 2(b) shall not apply and the Participant shall not be required to execute and deliver an additional Certification in connection with the grant of the Award. 3. Vesting. Subject to Section 8 below, the Award shall vest and become nonforfeitable with respect to 100% of the total number of the OP Units issued hereby on the third anniversary of the Original Award Date. 4. Continuation of Employment. Except as otherwise expressly provided in Section 8, the vesting schedule requires continued employment or service through each applicable vesting date, as provided in Section 3, as a condition to the vesting of the applicable installment of the Award and the rights and benefits under this Agreement. Employment or service for only a portion of the vesting period, even if a substantial portion, will not entitle the Participant to any proportionate vesting or avoid or mitigate a termination of rights and benefits upon or following a termination of employment or service as provided in Section 8 below or under the Plan. Nothing contained in this Agreement or the Plan constitutes an employment or service commitment by the Corporation or any of its Subsidiaries, affects the Participant's status as an employee at will who is subject to termination without cause, confers upon the Participant any right to remain employed by or in service to the Corporation or any of its Subsidiaries, interferes in any way with the right of the Corporation or any of its Subsidiaries at any time to terminate such employment or services, or affects the right of the Corporation or any of its Subsidiaries to increase or decrease the Participant's other compensation or benefits. Nothing in this paragraph, however, is intended to adversely affect any independent contractual right of the Participant without his or her consent thereto. 5. Restrictions on Transfer. (a) The Award and the OP Units are subject to the restrictions on transfer of Membership Units (including, without limitation, OP Units) set forth in Article 11 of the Partnership Agreement. Any permitted transferee of the Award or OP Units shall take such Award or OP Units subject to the terms of the Plan, this Agreement, and the Partnership Agreement. Any such permitted transferee must, upon the request of the Partnership, agree to be bound by the Plan, the Partnership Agreement, and this Agreement, and shall execute the same on request, and must agree to such other waivers, limitations, and restrictions as the Partnership or the Corporation may reasonably require. Any Transfer of the Award or OP Units which is not made in compliance with the Plan, the Partnership Agreement and this Agreement shall be null and void and of no effect. (b) Without the consent of the Administrator (which it may give or withhold in its sole discretion), the Participant shall not transfer any unvested OP Units or any portion of the Award attributable to such unvested OP Units (or any securities into which such unvested OP Units are converted or exchanged), other than by will or pursuant to the laws of descent and distribution (the "Transfer Restrictions"); provided, however, that the Transfer Restrictions shall not apply to any Transfer of unvested OP Units or of the Award to the Partnership or the Corporation. (c) As to any vested OP Units, the Participant agrees that the Participant will not transfer such OP Units (or any Common Units or shares of Common Stock in respect of which such OP Units have been exchanged) prior to the date that is one (1) year after the date such OP Units became vested in accordance with the terms of the Award (for example, if 100 Common Units or shares of Common Stock were acquired in respect of 100 OP Units that became vested on a particular date, such one-year period would commence as of such vesting date as to those 100 Common Units or shares); provided, however, that the restrictions set forth in this Section 5(c) shall (i) not apply to any Units or shares sold by the Participant to satisfy any tax liability arising in connection with the exchange or disposition of the OP Units, (ii) not apply to any transfer made without consideration (or for only nominal consideration) to a family member (as such term is defined in the SEC General Instructions to a Registration Statement on Form S-8) of the Participant solely for purposes of estate or tax planning, and provided the transfer restrictions on such Units or shares continue in effect after any such transfer, and (iii) lapse upon the Participant's death or Total Disability or as otherwise provided by the Corporation. The Corporation may provide for any Units or shares of Common Stock acquired with respect to the Award and issued in book-entry form to include notations regarding the restrictions on transfer imposed under this Section 5(c) (or, as to any such Common Units or shares issued in certificate form, provide for such certificates to bear appropriate legends regarding such transfer restrictions). 6. Execution and Return of Documents and Certificates. At the Corporation's or the Partnership's request, the Participant hereby agrees to promptly execute, deliver and return to the Partnership any and all documents or certificates that the Corporation or the Partnership deems necessary or desirable to effectuate the cancellation and forfeiture of the unvested OP Units and the portion of the Award attributable to the unvested OP Units, or to effectuate the transfer or surrender of such unvested OP Units and portion of the Award to the Partnership. 7. Covenants, Representations and Warranties. The Participant hereby represents, warrants, covenants, acknowledges and agrees on behalf of the Participant and his or her spouse, if applicable, that: (a) Investment. The Participant is holding the Award and the OP Units for the Participant's own account and not for the account of any other Person. The Participant is holding the Award and the OP Units for investment and not with a view to distribution or resale thereof except, in compliance with applicable laws regulating securities. (b) Relation to the Partnership. The Participant is presently an employee of, or consultant to, the Partnership, or is otherwise providing services to or for the benefit of the Partnership, and in such capacity has become personally familiar with the business of the Partnership. (c) Access to Information. The Participant has had the opportunity to ask questions of, and to receive answers from, the Partnership with respect to the terms and conditions of the transactions contemplated hereby and with respect to the business, affairs, financial conditions and results of operations of the Partnership. (d) Registration. The Participant understands that the OP Units have not been registered under the Securities Act of 1933, as amended (the "Securities Act"), and the OP Units cannot be transferred by the Participant unless such transfer is registered under the Securities Act or an exemption from such registration is available. The Partnership has made no agreements, covenants or undertakings whatsoever to register the transfer of the OP Units under the Securities Act. The Partnership has made no representations, warranties or covenants whatsoever as to whether any exemption from the Securities Act, including, without limitation, any exemption for limited sales in routine brokers' transactions pursuant to Rule 144 of the Securities Act, will be available. (e) Public Trading. None of the Partnership's securities are presently publicly traded, and the Partnership has made no representations, covenants or agreements as to whether there will be a public market for any of its securities. (f) Tax Advice. The Partnership has made no warranties or representations to the Participant with respect to the income tax consequences of the transactions contemplated by this Agreement (including, without limitation, with respect to the decision of whether to make an election under Section 83(b) of the Code and with respect to the grant of the OP Units), and the Participant is in no manner relying on the Partnership or its representatives for an assessment of such tax consequences. The Participant hereby recognizes that the Internal Revenue Service has proposed regulations under Sections 83 and 704 of the Code that may affect the proper treatment of the OP Units for federal income tax purposes. In the event that those proposed regulations are finalized, the Participant hereby agrees to cooperate with the Partnership in amending this Agreement and the Partnership Agreement, and to take such other action as may be required, to conform to such regulations. The Participant is advised to consult with his or her own tax advisor with respect to the tax consequences of owning and disposing of the OP Units with respect to the cancellation and replacement of the RSU Award. 8. Effect of Termination of Employment or Services. If the Participant ceases to be employed by or ceases to provide services to the Corporation or a Subsidiary (the date of such termination of employment or service is referred to as the Participant's "Severance Date"), the Participant's OP Units shall be cancelled and forfeited to the extent such units have not become vested pursuant to Section 3 hereof upon the Severance Date regardless of the reason for the termination of the Participant's employment or services; provided, however, that if the Participant's employment is terminated as a result of the Participant's death, Total Disability (as defined below) or Retirement (as defined below), the Participant's OP Units, to the extent such units are not then vested, shall become fully vested as of the Severance Date. If any unvested OP Units are forfeited hereunder, such OP Units shall automatically be cancelled as of the applicable Severance Date without payment of any consideration by the Corporation and without any other action by the Company, the Partnership, the Participant, or the Participant's beneficiary or personal representative, as the case may be. For purposes of the Award, "Total Disability" means a permanent and total disability (within the meaning of Section 22(e) (3) of the Code or as otherwise determined by the Administrator). For purposes of the Award, "Retirement" means, that, as of the date of termination of the Participant's employment or services, the Participant (1) has attained age 65 and completed at least five (5) full years of service as an employee of the Corporation and its Subsidiaries and/or a member of the Board, or (2) has attained age 60 and completed at least fifteen (15) full years of service as an employee of the Corporation and its Subsidiaries and/or a member of the Board. Notwithstanding the foregoing, the Participant shall be entitled to any accelerated vesting with respect to the OP Units in connection with the Participant's severance provided for in the circumstances in, and subject to, the express terms of any written employment agreement entered into between the Participant and Corporation or any of its Subsidiaries and that is in effect on the Severance Date. 9. Adjustments Upon Specified Events; Change in Control Event. (a) Adjustments. To the extent applicable, the Award shall be subject to adjustment by the Administrator in accordance with Section 7.1 of the Plan. (b) Change in Control Event. Upon the occurrence of an event contemplated by Section 7.2 or 7.3 of the Plan and notwithstanding any provision of Section 7.2 and 7.3 of the Plan or any employment agreement to the contrary, the Award (to the extent outstanding at the time of such event) shall continue in effect in accordance with its terms following such event (subject to adjustment in connection with such event pursuant to Section 7.1 of the Plan); provided, however, that the Administrator shall determine, in its sole discretion, whether the vesting of the OP Units will accelerate in connection with such event and the extent of any such accelerated vesting. 10. Taxes. The Partnership and the Participant intend that (i) the OP Units be treated as a profits interest as defined in Internal Revenue Service Revenue Procedure 93-27, as clarified by Revenue Procedure 2001-43, (ii) the issuance and vesting of the OP Units shall not be taxable events to the Partnership or the Participant as provided in such revenue procedure, and (iii) the Partnership Agreement, the Plan and this Agreement be interpreted consistently with such intent. In furtherance of such intent, effective immediately prior to the issuance of the OP Units, the Partnership may revalue all Partnership assets to their respective gross fair market values, and make the resulting adjustments to the Capital Accounts (as defined in the Partnership Agreement) of the Members, in each case as set forth in the Partnership Agreement. The Corporation, the Partnership or any Subsidiary may withhold from the Participant's wages, or require the Participant to pay to such entity, any applicable withholding or employment taxes resulting from the issuance of the Award hereunder, from the vesting or lapse of any restrictions imposed on the Award, or from the ownership or disposition of the OP Units. 11. Capital

Account. The Participant shall make no contribution of capital to the Partnership in connection with the Award and, as a result, the Participant's Capital Account balance in the Partnership immediately after his or her receipt of the OP Units shall be equal to zero, unless the Participant was a Member of the Partnership prior to such issuance, in which case the Participant's Capital Account balance shall not be increased as a result of his or her receipt of the OP Units.12.Redemption Rights. Notwithstanding anything to the contrary in the Partnership Agreement, Membership Units which are acquired upon the conversion of the OP Units shall not, without the consent of the Partnership (which may be given or withheld in its sole discretion), be redeemed pursuant to Section 15.1 of the Partnership Agreement within two (2) years following the date of the issuance of such OP Units.13.Section 83(b) Election. The Participant covenants that the Participant shall make a timely election under Section 83(b) of the Code (and any comparable election in the state of the Participant's residence) with respect to the OP Units covered by the Award, and the Partnership hereby consents to the making of such election(s). In connection with such election, the Participant and the Participant's spouse, if applicable, shall promptly provide a copy of such election to the Partnership. Instructions for completing an election under Section 83(b) of the Code and a form of election under Section 83(b) of the Code are attached hereto as Exhibit B. The Participant represents that the Participant has consulted any tax advisor(s) that the Participant deems advisable in connection with the filing of an election under Section 83(b) of the Code and similar state tax provisions. The Participant acknowledges that it is the Participant's sole responsibility and not the Corporation's to timely file an election under Section 83(b) of the Code (and any comparable state election), even if the Participant requests that the Corporation or any representative of the Corporation make such filing on the Participant's behalf. The Participant should consult his or her tax advisor to determine if there is a comparable election to file in the state of his or her residence. 14.Ownership Information. The Participant hereby covenants that so long as the Participant holds any OP Units, at the request of the Partnership, the Participant shall disclose to the Partnership in writing such information relating to the Participant's ownership of the OP Units as the Partnership reasonably believes to be necessary or desirable to ascertain in order to comply with the Code or the requirements of any other appropriate taxing authority.15.Remedies. The Participant shall be liable to the Partnership for all costs and damages, including incidental and consequential damages, resulting from a disposition of the Award or the OP Units which is in violation of the provisions of this Agreement. Without limiting the generality of the foregoing, the Participant agrees that the Partnership shall be entitled to obtain specific performance of the obligations of the Participant under this Agreement and immediate injunctive relief in the event any action or proceeding is brought in equity to enforce the same. The Participant will not urge as a defense that there is an adequate remedy at law.16.Restrictive Legends. Certificates evidencing the OP Units, to the extent such certificates are issued, may bear such restrictive legends as the Partnership and/or the Partnership's counsel may deem necessary or advisable under applicable law or pursuant to this Agreement, including, without limitation, the following legends or any legends similar thereto:17.The securities represented hereby have not been registered under the Securities Act of 1933, as amended (the "Securities Act"). Any transfer of such securities will be invalid unless a Registration Statement under the Securities Act is in effect as to such transfer or in the opinion of counsel for Healthpeak OP, LLC (the "Partnership") such registration is unnecessary in order for such transfer to comply with the Securities Act.18.The securities represented hereby are subject to forfeiture, transferability and other restrictions as set forth in (i) a written agreement with the Partnership, (ii) the Healthpeak Properties, Inc. 2023 Performance Incentive Plan, and (iii) the Operating Agreement of Healthpeak OP, LLC, in each case, as has been and as may in the future be amended (or amended and restated) from time to time, and such securities may not be sold or otherwise transferred except pursuant to the provisions of such documents.17.Notices. Any notice to be given under the terms of this Agreement shall be in writing and addressed to the Corporation at its principal office to the attention of the Secretary, and to the Participant at the Participant's last address reflected on the Corporation's payroll records. Any notice shall be delivered in person or shall be enclosed in a properly sealed envelope, addressed as aforesaid, registered or certified, and deposited (postage and registry or certification fee prepaid) in a post office or branch post office regularly maintained by the United States Government. Any such notice shall be given only when received, but if the Participant is no longer an Eligible Person, shall be deemed to have been duly given five (5) business days after the date mailed in accordance with the foregoing provisions of this Section 17.18.Plan and Partnership Agreement. The Award and all rights of the Participant under this Agreement are subject to the terms and conditions of the provisions of the Plan and the Partnership Agreement, each of which is incorporated herein by reference. The Participant agrees to be bound by the terms of the Plan, this Agreement and the Partnership Agreement. The Participant acknowledges having read and understanding the Plan, the Prospectus for the Plan, this Agreement and the Partnership Agreement. Unless otherwise expressly provided in other sections of this Agreement, provisions of the Plan that confer discretionary authority on the Board or the Administrator do not (and shall not be deemed to) create any rights in the Participant unless such rights are expressly set forth herein or are otherwise in the sole discretion of the Board or the Administrator so conferred by appropriate action of the Board or the Administrator under the Plan after the date hereof. 19.Entire Agreement. This Agreement, the Plan and the Partnership Agreement together constitute the entire agreement and supersede all prior understandings and agreements, written or oral, of the parties hereto with respect to the subject matter hereof. The Plan and this Agreement may be amended pursuant to Section 8.6 of the Plan and/or the applicable provisions of the Partnership Agreement. Any such amendment must be in writing and signed by the Corporation (and, if applicable, the Partnership). Except to the extent provided in the Partnership Agreement, any such amendment that materially and adversely affects the Participant's rights under this Agreement requires the consent of the Participant in order to be effective with respect to the Award. The Corporation or the Partnership may, however, unilaterally waive any provision hereof in writing to the extent such waiver does not adversely affect the interests of the Participant hereunder, but no such waiver shall operate as or be construed to be a subsequent waiver of the same provision or a waiver of any other provision hereof. The Participant acknowledges receipt of a copy of this Agreement, the Plan, the Prospectus for the Plan and the Partnership Agreement.20.Counterparts. This Agreement may be executed simultaneously in any number of counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument. 21.Section Headings. The section headings of this Agreement are for convenience of reference only and shall not be deemed to alter or affect any provision hereof.22.Governing Law. This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of Maryland without regard to conflict of law principles thereunder.23.Construction. It is intended that the terms of the Award will not result in the imposition of any tax liability pursuant to Section 409A of the Code. This Agreement shall be construed and interpreted consistent with that intent.24.Clawback Policy. The OP Units are subject to the terms of the Corporation's recoupment, clawback or similar policy as it may be in effect from time to time, as well as any similar provisions of applicable law, any of which could in certain circumstances require repayment or forfeiture of the OP Units or any Common Units or shares of Common Stock or other cash or property received with respect to the OP Units (including any value received from a disposition thereof).25.Survival of Representations and Warranties. The representations, warranties and covenants contained in Section 7 hereof shall survive the later of the date of execution and delivery of this Agreement or the issuance of the Award.26.Fractional Units. For purposes of this Agreement, any fractional OP Units that vest or become entitled to distributions pursuant to the Partnership Agreement will be rounded as determined by the Corporation or the Partnership; provided, however, that in no event shall such rounding cause the aggregate number of OP Units that vest or become entitled to such distributions to exceed the total number of OP Units set forth in Section 2 of this Agreement. THE PARTICIPANT'S ACCEPTANCE OF THE AWARD THROUGH THE ELECTRONIC STOCK PLAN AWARD RECORDKEEPING SYSTEM MAINTAINED BY THE CORPORATION OR ITS DESIGNEE CONSTITUTES THE PARTICIPANT'S AGREEMENT TO THE TERMS AND CONDITIONS HEREOF, AND THAT THE AWARD IS GRANTED UNDER AND GOVERNED BY THE TERMS AND CONDITIONS OF THE PLAN AND THIS AGREEMENT. *A A A *A A A *The remainder of this page is intentionally left blank. Mandatory Pre-Approval Procedures12Appendix A 6 " Rule 10b5-1 Trading PlansA-11.OVERVIEWA.A A A IntroductionFederal and state laws prohibit the purchase or sale of securities by persons who have material information about a company that is not generally known or available to the public. These laws also prohibit persons with such material non-public information from disclosing it to others who may trade on the basis of the information.To promote compliance with federal and state securities laws (collectively "insider trading laws") and to protect Healthpeak Properties, Inc., together with its subsidiaries (collectively, "Healthpeak" or the "Company") and you from serious liabilities and penalties that can result from violations of these laws, we have adopted this Insider Trading Policy (this "Policy") regarding trading in securities by our directors, officers and employees. The Company may also determine that other persons are subject to this Policy, such as consultants who have access to material non-public information.B.A A A ApplicabilityThis Policy applies to you and (1) anyone that lives in your household, (2) any family members who do not live in your household but whose transactions in Healthpeak securities and companies with which Healthpeak does business are subject to your influence or control, (3) any corporations, partnerships or other business entities controlled or managed by you, it being understood that references to individuals covered by this Policy herein also include such entities and (4) any trusts for which you are the trustee or have a beneficial pecuniary interest (each and collectively, "Restricted Affiliates"). You are responsible for making sure that each of your Restricted Affiliates complies with this Policy. This Policy only provides guidelines and you are still ultimately responsible for ensuring that you and your Restricted Affiliates do not violate insider trading laws or this Policy.C.A A A Exceptions and WaiversA.A A Any exceptions and waivers to this Policy may only be granted by our General Counsel or the Board of Directors, as appropriate. Additionally, your ownership of, and transactions in, Healthpeak securities are subject to all applicable Healthpeak policies, including, but not limited to, the Code of Business Conduct and Ethics (the "Code of Conduct"), Section 16 Policy, Policy Regarding the Recoupment of Certain Compensation Payments (the "Clawback Policy"), Stock Ownership Guidelines and the Employee Handbook.D.A A A QuestionsIf you have any questions about this Policy or its application to a particular transaction, you should contact the General Counsel before you engage in such transaction.II.INSIDER TRADING PENALTIESThe penalties for violating insider trading laws and this Policy are severe. For example, if you violate federal insider trading laws, you may have to: (a) pay civil fines of up to three times the profit gained or loss avoided by such violation; (b) pay criminal fines of up to \$5 million per violation; and (c) serve a jail sentence of up to 20 years per violation.A violation of insider trading laws or this Policy also poses significant risks to Healthpeak. As a result of your insider trading violations, Healthpeak could also be subject to: (a) paying three times the profit gained or loss avoided by such violation; (b) paying a substantial additional civil fine; and (c) facing potential criminal fines of up to \$25 million. Healthpeak could be forced to disclose material non-public information, which could damage our competitive position, jeopardize important or strategic plans and threaten or eliminate strategic business opportunities, such as mergers and acquisitions or capital market financings. The Securities and Exchange Commission ("SEC"), the New York Stock Exchange , the Financial Industry Regulatory Authority ("FINRA"), as well as other federal and state regulators, are very effective at detecting and prosecuting insider trading cases. The SEC and FINRA routinely examine pre-announcement trading activity in the stock of companies that announce a significant transaction. The SEC has successfully prosecuted cases against employees trading through foreign accounts, trading by family members and friends and trading involving only a small number of shares. The size of the transaction or the amount of profit received does not have to be large to result in civil or criminal prosecution. Therefore, it is important that you understand the breadth of activities that constitute illegal insider trading.You must carefully read this Policy and follow its directives at all times. Failure to adhere to insider trading laws or this Policy or provide certification of the matters contained herein may result in immediate disciplinary measures, including termination of your employment or service with Healthpeak.If you become aware of a possible insider trading violation, you should immediately report the potential violation to the General Counsel.III. POLICIES AND PROCEDURES A.Policy Prohibitions and Restrictions This Policy prohibits (1) trading (i.e., purchasing or selling securities as described in Section III(A)(2) below) when you are aware of material non-public information, (2) tipping (as defined in Section III(A)(3) below), and (3) engaging in speculative trading or short sales as described in Section III(A)(5) below. This Policy also includes additional restrictions on certain other transactions in Healthpeak's securities or the securities of any publicly-traded real estate investment trust ("REIT"), as further described below in this Section III(A). These restrictions apply to all of Healthpeak's directors, officers and employees, as well as any consultants or other persons subject to this Policy. Additionally, these restrictions apply to your Restricted Affiliates because the SEC and prosecutors may presume that trading by Restricted Affiliates is based on information you supplied and these authorities may treat any such trades as if you had executed the trades yourself. These restrictions will continue to apply to you and your Restricted Affiliates after the termination of your employment or service with Healthpeak for so long as you are aware of material non-public information about Healthpeak or any other company obtained during your employment or service with Healthpeak. There are no exceptions to this Policy, except as expressly provided herein. The insider trading laws do not recognize any mitigating circumstances. Accordingly, transactions that you believe may be necessary or justifiable for independent reasons (such as the need to raise money for an emergency expenditure) or small transactions are not exempted from this Policy. 1.Awareness of Material Non-Public InformationYou or any Restricted Affiliate may not, directly or indirectly through family members or other persons or entities, purchase or sell stock or other securities of Healthpeak when in possession of material non-public information relating to Healthpeak or its securities, except in the circumstances expressly permitted by this Policy. Additionally, if, in the course of working for Healthpeak, you learn of material non-public information about a company with which Healthpeak does business or proposes to do business, including any tenant, operator or supplier, or with whom Healthpeak proposes to engage in an acquisition or other transaction, neither you nor any of your Restricted Affiliates may, directly or indirectly through family members or other persons or entities, purchase or sell securities of that company until the information becomes public or is no longer material.2.Transactions Involving a Purchase or Sale a.Purchase and Sale a.Purchase and Sale are defined broadly for purposes of the insider trading laws. "Purchase" includes the actual purchase of a security and any contract to purchase or otherwise acquire a security for value, and "Sale" includes the actual sale of a security and any contract to sell or otherwise dispose of a security for value. These definitions extend to a broad range of transactions including, without limitation:a.conventional cash-for-stock transactions;b.broker-assisted cashless exercises of stock options;c.engaging in short sales and other hedging transactions;d.placing "stop-loss" or "limit" orders;e.sales of Healthpeak's securities obtained through exercises of employee stock options or vestings, or payments of other equity awards granted by Healthpeak;f.pledging or margining securities; andg.purchases and sales of derivative securities (e.g., options, warrants, convertible securities, stock appreciation rights or any similar security with a value derived from the value of an equity security), including exchange traded options and other convertible securities.3.Tipping You or any Restricted Affiliate may not disclose to anyone, including without limitation family members, friends, business associates, investors and co-workers (except as may be required by the co-worker's job position), any material non-public information about Healthpeak and its securities or any other company and its securities that you learned in the course of your employment or service with Healthpeak. This includes refraining from making purchase, sell or hold recommendations to anyone about Healthpeak or any other company while you are aware of material non-public information. This practice is commonly known as "tipping," and violates insider trading laws, and can result in the same civil and criminal penalties that apply if you or any of your Restricted Affiliates engaged in insider trading directly.4.Financial Investments in Certain Public REITsWhile not restricted to Trading Windows (as defined below) applicable to Healthpeak securities, you must obtain pre-approval from the General Counsel prior to trading, directly or indirectly through any Restricted Affiliate, in the securities of the publicly-traded REITs listed on Appendix B attached hereto (each, a "Covered REIT"): provided, however, that such pre-approval shall not be required to: a.participate in any ordinary course compensatory stock or equity plans of any Covered REIT or make purchases in the securities of such Covered REIT if you or any Restricted Affiliate is employed by, or a member of the board of directors of, such Covered REIT; b.invest in a mutual fund or exchange-traded fund that holds securities of a Covered REIT; orc.retain any existing investments in a Covered REIT as of July 27, 2017 (i.e., you will only be required to seek approval to add to or dispose of these holdings).In conducting investment activities, whether or not permitted under this Policy, you and any Restricted Affiliate must adhere to this Policy and to all applicable insider trading and other laws. 5.Speculative Trading and Short SalesYou are encouraged to consider a purchase of Healthpeak's securities as a long-term investment, and through ownership of our securities, to develop an alignment of interest with the performance and prospects of Healthpeak. Consistent with this philosophy, you and your Restricted Affiliates are subject to the following additional prohibitions relating to speculative trading transactions involving Healthpeak's securities:a.Publicly Traded Options. Given the relatively short term of publicly-traded options, any purchase or sale of such options of Healthpeak's securities by you or any

of your Restricted Affiliates may create the appearance of trading based on material non-public information and focus attention on short-term performance at the expense of Healthpeak’s™ long-term objectives. Accordingly, transactions in put options, call options or other derivative securities, on an exchange or in any other market, are strictly prohibited. b.Short Sales. Short sales of Healthpeak’s™ securities (generally, the sale of a security that the seller does not own) may evidence an expectation on the part of the seller that the securities will decline in value, and therefore signal to the market that the seller lacks confidence in Healthpeak’s™ prospects. Additionally, short sales may reduce a seller’s™ incentive to seek to improve Healthpeak’s™ performance. For these reasons, engaging in short sales of Healthpeak’s™ securities, which are illegal for Section 16 officers and directors, is strictly prohibited.6.Anti-Hedging Policy Certain forms of hedging or monetization transactions allow a person to lock in much of the value of his or her stock holdings, often in exchange for all or part of the potential for upside appreciation in the stock. These transactions may allow the person to continue to own the covered securities, but without the full risks and rewards of ownership. When this type of situation occurs, the person may no longer have the same objectives as Healthpeak’s™ other shareholders. For this reason, officers, directors, employees, any consultants or other persons subject to this Policy, and their respective Restricted Affiliates, are strictly prohibited from purchasing financial instruments (including prepaid variable forward contracts, equity swaps, collars and exchange funds), or otherwise engaging in transactions, that hedge or offset, or are designed to hedge or offset, any decrease in the market value of Healthpeak securities. 7.Anti-Pledging Policy and Margin Accounts Securities held in a margin account may be sold by the broker without the customer’s™ consent if the customer fails to meet a margin call. Similarly, securities pledged (or hypothecated) as collateral for a loan may be sold in foreclosure if the borrower defaults on the loan. Because a margin sale or foreclosure sale may occur at a time when the pledgor is aware of material non-public information or otherwise is not permitted to trade in Healthpeak securities, you and your Restricted Affiliates are strictly prohibited from margining Healthpeak securities in an account or pledging Healthpeak securities as collateral for a loan. 8.GiftsBona fide gifts (including transfers to a trust for no consideration or other payment) or charitable contributions of securities may in certain circumstances be considered a “sale” under insider trading laws and are therefore subject to limitations under this Policy.A For example, any gift or charitable contribution of Healthpeak’s™ securities by you or your Restricted Affiliates may only be made at a time when you (and your Restricted Affiliates, if applicable) are not aware of material non-public information, and all gift transactions must be pre-approved by the General Counsel in accordance with Section III(D)(3) below.Â Under certain limited circumstances, you and your Restricted Affiliates may be permitted to gift or make charitable contributions of Healthpeak’s™ securities when the Trading Window is closed, provided, (i) you provide confirmation to the General Counsel that you (and your Restricted Affiliates, if applicable) are not aware of material non-public information, (ii) you provide details of the proposed gift or charitable contribution (e.g., amount of shares, proposed transaction date and recipient information, etc.), (iii) such gift or charitable contribution is pre-approved by the General Counsel, or the General Counsel’s™ designee, before the proposed transaction occurs, and (iv) such pre-approval is not revoked by the General Counsel, or the General Counsel’s™ designee, (in writing) prior to the consummation of the transaction.9.General Policy Exceptionsa.Net Exercises, Vestings and DRIPThe trading restrictions in this Policy do not include (i)Â the exercise of Healthpeak stock options if no shares are to be sold or if there is a “net exercise” (as defined below), (ii)Â the vesting of Healthpeak stock options or restricted stock units and awards, (iii) the crediting of dividend equivalents by Healthpeak on outstanding restricted stock units in accordance with the terms of the applicable award agreement, (iv) the payment by Healthpeak of vested restricted stock units and awards, or (v)Â the reacquisition or withholding of Healthpeak’s™ securities by Healthpeak (as opposed to a sale on the open market) to satisfy a tax withholding obligation upon the vesting of restricted stock units and awards where the “reacquisition or withholding of the securities is provided for and is in accordance with the terms of the applicable award. A “net exercise” (which is not restricted by this Policy) is the use of the underlying shares to pay the exercise price and/or tax withholding obligations in connection with the exercise of an option (i.e., no shares are sold on the open market), whereas a broker-assisted cashless exercise involves the broker selling some or all of the shares underlying the option on the open market and must be structured to satisfy this Policy.This Policy also does not apply to “purchases” of Healthpeak’s™ securities under Healthpeak’s™ Dividend Reinvestment and Stock Purchase Plan (the “DRIP”) resulting from reinvestment of dividends paid on Healthpeak’s™ securities under a standing election. However, this Policy does apply in connection with (i) the initial election to participate in the DRIP or any election to modify the level of participation under the DRIP, (ii) voluntary purchases of Healthpeak’s™ securities resulting from additional contributions to the DRIP, and (iii) the sale of any Healthpeak stock purchased under the DRIP. b.Stock-for-Fees ProgramThe trading restrictions in this Policy do not apply to purchases of Company stock in the Non-Employee Director Stock-For-Fees Program (the “Stock-For-Fees Program”) resulting from an election by a non-employee director to receive Company stock in lieu of cash payment of any director fees. The trading restrictions do apply, however, to (i) the election to participate in the Stock-For-Fees Program for any enrollment period, (ii) changes in elections, and (iii) sales of Company stock purchased under the Stock-For-Fees Program.B.Unauthorized Disclosure1.Use or Disclosure of Material Non-Public Information is ProhibitedAll persons subject to this Policy must maintain the confidentiality of Healthpeak information for competitive, security and other business reasons, as well as to comply with securities laws. All information you obtain about Healthpeak or its business plans is potentially non-public information until we publicly disclose it. You should treat this information as confidential and proprietary to Healthpeak and not disclose it to anyone, such as Restricted Affiliates, other relatives, or business or social acquaintances.Security laws, as well as our Code of Conduct, govern the timing and nature of our disclosure of material information to the public. Violation of these laws could result in substantial liability for you, Healthpeak and our management. For this reason, we permit only specifically designated representatives of Healthpeak, or “Company Spokespersons,” as identified in our Code of Conduct, to discuss Healthpeak matters with the news media, securities analysts, investment advisors and investors.2.Third Party InquiriesIf you receive any inquiries about Healthpeak from third parties, such as securities or industry analysts or members of the financial or business media, you should direct them to Healthpeak’s™ Chief Executive Officer, General Counsel, Chief Financial Officer or Investor Relations Officer as set forth in our Code of Conduct.C.Material Non-Public Information1.Material InformationInformation is generally considered material if there is a likelihood that a reasonable person would consider it important in making an investment decision to purchase, sell or hold securities. Material information includes either positive or negative information that could reasonably affect the price of a security.Although the materiality of information may vary depending on the circumstances, please note that such information will be scrutinized by federal, state and other governmental investigators with the benefit of evaluating the situation with hindsight. Consequently, you should avoid any appearance of impropriety, and you should carefully review the particular facts of each situation. When in doubt, you should always assume the information is material and not engage in any transaction involving that company. The following types of information about a company are likely to be considered material: a.earnings, revenues, expenses, dividends, funds from operations, funds available for distribution, liquidity and other non-public financial information;b.financial projections, including affirmations of prior earnings guidance and whether a company will or will not meet earnings expectations;c.unexpected financial results and unexpected events affecting such results;d.mergers, acquisitions, tender offers, joint ventures, divestitures or other changes in assets or the business;e.bank borrowings or financing transactions, including proposed financings, refinancing or capital market transactions and actual or potential liquidity issues;f.events regarding a company’s™ securities (including, without limitation, defaults on debt securities, redemptions of securities, repurchase plans, changes in dividends or dividend policy, stock splits, changes in rights of security holders, and public or private sales of additional securities);g.changes in credit ratings and actual or potential defaults;h.major environmental incidents;i.changes in or curtailment of operations or of significant facilities;j.developments regarding joint venture partners, borrowers, tenants, operators, lenders or acquisition/investment targets (including the entry into, amendment or loss of an important contract or other arrangement with any of the foregoing);k.information concerning changes in senior management, key personnel or the composition of the Board of Directors, including information concerning the business and personal lives of the foregoing;l.changes in compensation policies;m.a change of the independent registered public accounting firm or a notification that a company may no longer rely on a report from its independent registered public accounting firm;n.threatened or pending material litigation, and developments in ongoing material litigation and other contingencies;o.regulatory proceedings and governmental investigations; p.bankruptcy, corporate restructuring or receivership; andq.significant cybersecurity incidents, data breaches or similar events.The aforementioned list of information likely to be considered material is not exhaustive and depending upon the circumstances, other information not included may be considered material. In short, if a reasonable person would consider the information relevant in making an investment decision, you should assume it is material and treat it as such. Therefore, even if you would not consider the information relevant in making an investment decision, but believe that a third party might consider it as such, you should assume it is material. It is important to remember that both positive and negative information may be considered material information. 2.Non-Public InformationNon-public information is information that is not generally known or available to the public. We consider information to be available to the public only when (a) it has been released to the public through appropriate channels (e.g., press release, filing with the SEC, communicated by the media for broad public access or a widely disseminated statement from a Company Spokesperson); and (b) enough time has elapsed to permit the market to absorb the information.Generally, information regarding relatively routine matters, such as earnings results will be considered adequately disseminated and absorbed by the market after one (1) full trading day has elapsed following its public release. When non-routine matters, such as a prospective major acquisition or disposition are announced, Healthpeak may determine that additional time is required for the information to be absorbed by the market.D.Trading Window and Procedures1.OverviewAll persons subject to this Policy must comply with the restrictions detailed below with respect to transactions in Healthpeak’s™ securities by them or their Restricted Affiliates. Specifically, you and your Restricted Affiliates may only purchase or sell Healthpeak’s™ securities if (1) you are not aware of material non-public information, (2) the purchase or sale has been approved under Healthpeak’s™ Mandatory Pre-Approval Procedures detailed below, andÂ (3) the purchase or sale occurs within the Trading Window. In addition, as a reminder, gifts of Healthpeak securities are subject to the requirements of Section III(A)(8) of this Policy.Notwithstanding the foregoing, short-term trading of Healthpeak securities may be distracting and may promote a disproportionate focus on Healthpeak’s™ short-term performance instead of long-term business objectives. Accordingly, if you or your Restricted Affiliates make any open-market trades during a Trading Window, the trading person is not permitted to make any “opposite way” trades in the open market for the remainder of that Trading Window and throughout the subsequent Trading Window. An “opposite way” trade is a sale if you previously purchased stock, or a purchase if you previously sold stock. This Policy applies to all of Healthpeak’s™ securities held by you or your Restricted Affiliates, including any Healthpeak securities held in an account on your behalf by Healthpeak’s™ designated broker who administers our performance incentive plans, or any other third party brokerage accounts.2.Trading WindowYou and your Restricted Affiliates may only purchase or sell Healthpeak’s™ securities during a designated period each quarter (the “Trading Window”). The Trading Window is generally a six (6) week period each quarter, although it is typically shorter during the first quarter of each year. The Trading Window begins one (1) full trading day after Healthpeak’s™ public announcement of its annual or quarterly earnings and generally ends on the earlier of (i)Â six (6) weeks after such date, or (ii)Â two (2) weeks before the beginning of the next quarter. Notwithstanding the foregoing, we will provide you with explicit instructions on when the Trading Window is scheduled to open and when it is scheduled to close.If the Trading Window is open and you are aware of material non-public information about Healthpeak, you and your Restricted Affiliates may not trade in Healthpeak’s™ securities. Further, please be advised that all pending purchase and sale orders regarding Healthpeak’s™ securities that could be executed while the Trading Window is open must be cancelled or executed before the Trading Window closes. This includes any outstanding “stop-loss” or “limit” orders requested during an open Trading Window that have not been fulfilled before the Trading Window closes, unless such orders were entered into pursuant to the procedures described in RuleÂ 10b5-1 Trading Plans, attached hereto as Appendix A. Appendix A discusses situations where, even if the Trading Window is closed, you may purchase or sell Healthpeak’s™ securities pursuant to an approved RuleÂ 10b5-1 Trading Plan. Healthpeak may occasionally close the Trading Window early or entirely due to material non-public information developments. In such event, the General Counsel may notify certain individuals or all persons subject to this Policy that they are prohibited from engaging in any purchase or sale of Healthpeak’s™ securities, and such individuals should not disclose to others the fact that the Trading Window has been closed. 3.Mandatory Pre-Approval Procedures Healthpeak requires each employee, officer and director who desires to engage (or have a Restricted Affiliate engage) in a transaction involving Healthpeak’s™ securities (including any option exercise, stock purchase, stock sale, gift, loan, pledge, hedge, contribution to a trust, or any other transfer or acquisition), to request approval of such transaction from the General Counsel, or his or her designee, in advance of the proposed transaction. If the General Counsel desires to engage (or have a Restricted Affiliate engage) in a transaction requiring pre-approval or approval under this Policy, the General Counsel must obtain approval of such transaction from the President or Chief Executive Officer, or that person’s™ designee, in advance of the proposed transaction. All references to approval by the General Counsel below in this section shall be deemed to also refer to any applicable approval by the General Counsel’s™ designee from time to time or by the President or Chief Executive Officer, or that person’s™ designee, in the case of any transaction by the General Counsel. Notwithstanding the foregoing, an employee, officer or director is not required to request approval in accordance with the foregoing paragraph prior to a transaction involving Healthpeak’s™ securities made pursuant to an existing Rule 10b5-1 Trading Plan, provided that the Rule 10b5-1 Trading Plan is approved by the General Counsel before it is adopted. (See Appendix A for additional information on obtaining approval to enter into a Rule 10b5-1 Trading Plan.) An approval request should include all relevant information concerning the proposed transaction (e.g., amount of shares or options, proposed transaction date, etc.) and how best to be contacted with questions. The General Counsel may decide to withhold approval for a proposed transaction for various reasons, including, without limitation, the following examples:a.the employee, officer, or director may possess material non-public information;b.the Trading Window is not open;c.the purchase or sale by an officer or director does not comply with RuleÂ 144 of the Securities Act of 1933, as amended, and other legal requirements;d.the proposed transaction could result in adverse publicity or have a material adverse impact on trading in Healthpeak’s™ securities or Healthpeak;e.the purchase or sale could result in liability to an officer or director under the short-swing trading rules of SectionÂ 16(b) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) or violate the short-term trading restriction in Section III(D)(1) of this Policy; orf.other relevant considerations cause the purchase or sale to be inappropriate.Please be aware that if the approval of a proposed purchase or sale is withheld by the General Counsel, the decision cannot be “overruled” by any member of management. In the event of a disagreement regarding a proposed purchase or sale, the General Counsel may be required to report the proposed purchase or sale to the Audit Committee of the Board of Directors. The General Counsel and the Audit Committee may obtain the advice of outside legal counsel with respect to a pre-approval request. An employee, officer, or director (or his or her Restricted Affiliate, if applicable) may not in any event engage in the proposed purchase or sale until a request has been pre-approved by the General Counsel or his or her designee in writing.Notwithstanding the General Counsel’s™ approval of a trade, each person subject to this Policy remains responsible for determining if he or she is aware of material non-public information and any action by Healthpeak, the General Counsel or any other employee or director pursuant to this Policy does not constitute legal advice or insulate him or her from liability under insider trading laws. Additionally, even if a trade has been approved by the General Counsel, such trade may not be executed if (a)Â the employee, officer or director (or Restricted Affiliates or others subject to this Policy) becomes aware of material non-public information concerning Healthpeak, (b)Â the General Counsel subsequently revokes the approval, or (c)Â the Trading Window is subsequently closed. If a purchase or sale is not completed within the Trading Window or other approved time period (or if the General Counsel revokes the approval), the purchase or sale must be resubmitted for approval to the General Counsel before it may be executed. If a proposed purchase or sale is not approved, the requesting person is prohibited from initiating any transaction in Healthpeak’s™ securities and should not inform anyone within or outside of Healthpeak of such prohibition.“A A A A A A A A A A”The remainder of this page is intentionally left blank.JAPPENDIX ARULE 10b5-1 TRADING PLANI.INTRODUCTIONRuleÂ 10b5-1 adopted by the SEC provides an affirmative defense to insider trading that is available to a person making a purchase or sale of securities who demonstrates that the purchase or sale was effected pursuant to a pre-arranged “trading plan” that meets certain conditions. Notwithstanding the other provisions of this Policy, you may purchase or sell Healthpeak’s™ securities regardless of whether you may be aware of material non-public information at the time of trading, provided that the purchase or sale is made pursuant to a plan (the “10b5-1 Trading Plan”) which is validly established in compliance with the provisions of Rule 10b5-1 and satisfies the following criteria:A.the 10b5-1 Trading Plan (including any modifications or terminations thereof) must be entered into only during an open Trading Window and at a time when you are not aware of material non-public information about Healthpeak or its securities;B.the 10b5-1 Trading Plan must be a written plan or binding contract (i.e., the plan may not consist of an oral arrangement or order to purchase or sell Healthpeak’s™ securities in the future) that does not allow you to exercise any subsequent influence over how, when or whether to effect the trade;C.the 10b5-1 Trading Plan must specify the amount, price and date of trades, or include a written formula, algorithm or computer program for trading determinations; D.the 10b5-1 Trading Plan must be entered into in good faith and not as part of a plan or scheme to evade the prohibitions of Rule 10b5-1 and you

must act in good faith with respect to the 10b5-1 Trading Plan; E.the 10b5-1 Trading Plan (including any modifications or terminations thereof) must comply with the other requirements in this Appendix A and be pre-approved in advance by the General Counsel or the General Counselâ€™s designee (provided that, for a 10b5-1 Trading Plan of the General Counsel, such pre-approval must be provided by the President or Chief Executive Officer, or that personâ€™s designee, and all references to approval by the General Counsel below in this Appendix A shall be deemed to also refer to any applicable approval by the General Counselâ€™s designee or A-1by the President or Chief Executive, or that personâ€™s designee, in the case of a 10b5-1 Trading Plan of the General Counsel); andF.you must not alter or deviate from the terms of the 10b5-1 Trading Plan or enter into or alter a corresponding or hedging transaction or position with respect to the securities to be purchased or sold pursuant to such plan.II.DESCRPTION OF A QUALIFIED RULE 10b5-1 TRADING PLAN 10b5-1 Trading Plan (including any modifications or terminations thereof) must comply with all other applicable disclosure and other requirements under federal and state securities laws. As a condition to obtaining pre-approval of a 10b5-1 Trading Plan, the Rule 10b5-1 Trading Plan (and any modifications or terminations thereof) shall comply with and include the following safeguards with such additional conditions that Healthpeak may require:A.the 10b5-1 Trading Plan shall include a written representation from you that you are not aware of any material non-public information about Healthpeak or its securities at the time the 10b5-1 Trading Plan is established and that you are adopting (or modifying) the 10b5-1 Trading Plan in good faith and not as part of a plan or scheme to evade the prohibitions of Rule 10b5-1. In the event the General Counsel determines that there is material non-public information that has not been publicly disclosed at the time you wish to enter into a 10b5-1 Trading Plan (or to modify a previously adopted 10b5-1 Trading Plan), the General Counsel may delay approval of the 10b5-1 Trading Plan until the information has been publicly disclosed;B.the 10b5-1 Trading Plan must provide that the first trade will not occur until the later of (i) ninety (90) days after the adoption (or modification) of the 10b5-1 Trading Plan or (ii) two (2) business days following the disclosure of Healthpeak's financial results in a Form 10-Q or Form 10-K for the completed fiscal quarter in which the 10b5-1 Trading Plan was adopted (or modified) but, in any event, a maximum of 120 days after adoption (or modification) of the 10b5-1 Trading Plan (such period in which trades may not occur, the â€œCooling-Off Periodâ€); C.the 10b5-1 Trading Plan must provide for a minimum term of six (6) months and a maximum term of one (1) year, unless a shorter or longer term is approved by the General Counsel;D.no more than one (1) 10b5-1 Trading Plan shall be in effect at any time with respect to open market purchases or sales of Healthpeakâ€™s securities beneficially owned by you, except that, during the term of a 10b5-1 Trading Plan, you mayA.21.enter into a new 10b5-1 Trading Plan if such later-commencing 10b5-1 Trading Plan complies with Rule 10b5-1 and the additional requirements in this Appendix A and trading under such 10b5-1 Trading Plan is not authorized to commence until after all trades under the earlier-commencing 10b5-1 Trading Plan are completed or expired without execution; provided, however, that if the earlier-commencing 10b5-1 Trading Plan is terminated before its originally scheduled completion date, then the Cooling-Off Period for the later-commencing plan shall run from the date of such termination (and not from the date the later-commencing plan was adopted); and 2.enter into another contract, instruction, or plan providing only for the sale of such securities as are necessary to satisfy tax withholding obligations arising exclusively from the vesting of a compensatory award, such as restricted stock or restricted stock units, and provided that you do not exercise control over the timing of such sales (a â€œSell-to-Cover Planâ€). E.other than Sell-to-Cover Plans, no more than one (1) 10b5-1 Trading Plan providing for the open-market purchase or sale of Healthpeak securities in a single transaction may be in adopted within any twelve (12) month period;F.the 10b5-1 Trading Plan must contain procedures to ensure prompt compliance with (1) any reporting requirements under Section 16 of the Exchange Act, (2) SEC Rule 144 relating to any sales under the 10b5-1 Trading Plan, and (3) any suspension of trading or other restrictions that are imposed on transactions under an approved Rule 10b5-1 Trading Plan, including pursuant to customary lock-up commitments associated with underwritten public offerings of Healthpeakâ€™s securities; provided, however, that any 10b5-1 Trading Plan may permit the sale of up to 50,000 shares of our common stock by an officer or director (or such other amount as agreed to by Healthpeak for all of its senior officers) during any lock-up period to which such officer or director may become subject in connection with an underwritten public offering by Healthpeak; G.because a 10b5-1 Trading Plan must be entered into and acted on in good faith and not as part of a plan or scheme to evade the prohibitions of Rule 10b-5 or 10b5-1, a 10b5-1 Trading Plan should be adopted with the intention that it will not be amended or modified frequently, since changes to a 10b5-1 Trading Plan may raise issues as to an individualâ€™s good faith. For this reason, although modifications to or early termination of a 10b5-1 Trading Plan are not prohibited, the General Counsel will A-3approve modifications or early terminations only in limited and exceptional circumstances and subject to the following additional requirements: 1.any modification of a 10b5-1 Trading Plan may not occur more than once in any twelve-month period;2.any modification of a 10b5-1 Trading Plan must satisfy all of the requirements of Rule 10b5-1 and this Appendix A that apply to the adoption of a new 10b5-1 Trading Plan; and3.a 10b5-1 Trading Plan cannot be adopted if you have terminated a previous 10b5-1 Trading Plan prior to the end of its original term within the prior three (3) months.For purposes of the foregoing, a modification of a 10b5-1 Trading Plan includes any change to the amount, price, or timing of the purchase or sale of securities under such plan, but shall not include the substitution of the broker executing trades thereunder as long as such modified plan does not change the price, amount of securities to be purchased or sold or dates on which such purchases or sales are to be executed.Trades effected pursuant to a 10b5-1 Trading Plan will not require further pre-approval at the time of the trade if the 10b5-1 Trading Plan complies with the requirements set forth above. Any employee, officer or director who effects a transaction pursuant to a 10b5-1 Trading Plan (or his or her broker) must, however, report specific transaction details to the General Counsel no later than the same day on which the transaction occurred (e.g., amount of securities, date and price of any purchase or sale). It is important to note that the review and approval of the terms of the 10b5-1 Trading Plan by the General Counsel will not constitute sufficient notice of the transaction by you. In pre-approving the implementation, modification or termination of a Rule 10b5-1 Trading Plan, the General Counsel shall not be responsible for determining whether such plan is in compliance with the provisions of RuleA 10b5-1. Compliance with Rule 10b5-1 is solely your responsibility and we recommend that you consult with your legal and financial advisors regarding compliance with securities laws.*A A A A A A A A *The M. Brinker, certify that:Â 1. I have reviewed this annual report on FormÂ 10-K of Healthpeak Properties,Â Inc.Â for the period endedÂ DecemberÂ 31, 2024;Â 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;Â 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;Â 4. The registrantâ€™s other certifying officer

and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have: (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared; (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles; (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions): (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting. 4 A Date: February 4, 2025/s/ SCOTT M. Healthpeak OP Healthpeak OP [Member] Healthpeak OP 2553 South San Francisco, CA 2553 South San Francisco, CA [Member] 400 Harrison, OH 400 Harrison, OH [Member] 2967 Nashville, TN 2967 Nashville, TN [Member] 2026 Debt Instrument, Redemption, Period Two [Member] Adjusted NOI for reportable segments Adjusted Net Operating Income from Continuing Operations Adjusted NOI is a non-GAAP supplemental financial measure used to evaluate the operating performance of real estate. Adjusted NOI is calculated as NOI after eliminating the effects of straight-line rents, DFL non-cash interest, amortization of market lease intangibles and lease termination fees (non cash adjustments?). Adjusted NOI is oftentimes referred to as ?cash NOI.? The Company uses adjusted NOI to make decisions about resource allocations, and to assess and compare property level performance. The Company believes that net income (loss) is the most directly comparable U.S. GAAP measure to adjusted NOI. Adjusted NOI should not be viewed as an alternative measure of operating performance to net income (loss) as defined by GAAP since it does not reflect various excluded items. Further, the Company's definition of Adjusted NOI may not be comparable to the definition used by other REITs or real estate companies, as they may use different methodologies for calculating Adjusted NOI. 1985 South San Francisco, CA

Business	12 Months Ended Dec. 31, 2024
Organization, Consolidation and Presentation of Financial Statements [Abstract]	
Business	
Business	
Overview	
Healthpeak Properties, Inc., a Standard & Poor's 500 company, is a Maryland corporation that is organized to qualify as a real estate investment trust ("REIT") and that, together with its consolidated entities (collectively, "Healthpeak" or the "Company"), owns, operates, and develops high-quality real estate focused on healthcare discovery and delivery in the United States ("U.S."). Healthpeak® has a diverse portfolio comprised of investments in the following reportable healthcare segments: (i) outpatient medical; (ii) lab; and (iii) continuing care retirement community ("CCRC").	
The Company's corporate headquarters are in Denver, Colorado, and it has additional corporate offices in California, Tennessee, Wisconsin, and Massachusetts, and property management offices in several locations throughout the U.S.	
On February 10, 2023, the Company completed its corporate reorganization (the "Reorganization") into an umbrella partnership REIT ("UPREIT"). Substantially all of the Company's business is conducted through Healthpeak OP, LLC ("Healthpeak OP"). The Company is the managing member of Healthpeak OP and does not have material assets or liabilities, other than through its investment in Healthpeak OP. For additional information on the UPREIT Reorganization, see the Company's Current Report on Form 8-K12B filed with the U.S. Securities and Exchange Commission ("SEC") on February 10, 2023.	
On March 1, 2024, the Company completed its planned merger with Physicians Realty Trust (see Note 3).

Summary of Significant Accounting Policies	12 Months Ended Dec. 31, 2024
Accounting Policies [Abstract]	
Summary of Significant Accounting Policies	
Summary of Significant Accounting Policies	
Use of Estimates	
Management is required to make estimates and assumptions in the preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP"). These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's estimates.	
Basis of Presentation	
The consolidated financial statements include the accounts of Healthpeak Properties, Inc., its wholly owned subsidiaries, joint ventures ("JVs"), and variable interest entities ("VIEs") that it controls through voting rights or other means. Intercompany transactions and balances have been eliminated upon consolidation.	
The Company is required to continually evaluate its VIE relationships and consolidate these entities when it is determined to be the primary beneficiary of their operations. A VIE is broadly defined as an entity where either: (i) the equity investment at risk is insufficient to finance that entity's activities without additional subordinated financial support, (ii) substantially all of an entity's activities either involve or are conducted on behalf of an investor that has disproportionately few voting rights, or (iii) the equity investors as a group lack any of the following: (a) the power through voting or similar rights to direct the activities of an entity that most significantly impact the entity's economic performance, (b) the obligation to absorb the expected losses of an entity, or (c) the right to receive the expected residual returns of an entity. Criterion (iii) above is generally applied to limited partnerships and similarly structured entities by assessing whether a simple majority of the limited partners hold substantive rights to participate in the significant decisions of the entity or have the ability to remove the decision maker or liquidate the entity without cause. If neither of those criteria are met, the entity is a VIE.	
The designation of an entity as a VIE is reassessed upon certain events, including, but not limited to: (i) a change to the contractual arrangements of the entity or in the ability of a party to exercise its participation or kick-out rights, (ii) a change to the capitalization structure of the entity, or (iii) acquisitions or sales of interests that constitute a change in control.	
A variable interest holder is considered to be the primary beneficiary of a VIE if it has the power to direct the activities of a VIE that most significantly impact the entity's economic performance and has the obligation to absorb losses of, or the right to receive benefits from, the entity that could potentially be significant to the VIE. The Company qualitatively assesses whether it is (or is not) the primary beneficiary of a VIE. Consideration of various factors include, but is not limited to, which activities most significantly impact the entity's economic performance and the ability to direct those activities, its form of ownership interest, its representation on the VIE's governing body, the size and seniority of its investment, its ability and the rights of other investors to participate in policy making decisions, its ability to manage its ownership interest relative to the other interest holders, and its ability to replace the VIE manager and/or liquidate the entity.	
For its investments in joint ventures that are not considered to be VIEs, the Company evaluates the type of ownership rights held by the limited partner(s) that may preclude consolidation by the majority interest holder. The assessment of limited partners' rights and their impact on the control of a joint venture should be made at inception of the joint venture and continually reassessed.	
Revenue Recognition	
Lease Classification	
The Company classifies a lease as an operating lease if none of the following criteria are met: (i) transfer of ownership to the lessee by the end of the lease term, (ii) lessee has a purchase option during or at the end of the lease term that it is reasonably certain to exercise, (iii) the lease term is for the major part of the remaining economic life of the underlying asset, (iv) the present value of future minimum lease payments is equal to substantially all of the fair value of the underlying asset, or (v) the underlying asset is of such a specialized nature that it is expected to have no alternative use to the Company at the end of the lease term.	
Rental and Related Revenues	
The Company recognizes rental revenue from its outpatient medical and lab buildings in accordance with Accounting Standards Codification ("ASC") 842, <i>Leases</i> ("ASC 842"). The Company commences recognition of rental revenue for operating lease arrangements when the tenant has taken possession or controls the physical use of a leased asset. The tenant is not considered to have taken physical possession or have control of the leased asset until the Company-owned tenant improvements are substantially complete. If a lease arrangement provides for tenant improvements, the Company determines whether the tenant improvements are owned by the tenant or the Company. When the Company is the owner of the tenant improvements, any tenant improvements funded by the tenant are treated as lease payments which are deferred and amortized into income over the lease term. When the tenant is the owner of the tenant improvements, any tenant improvement allowance that is funded by the Company is treated as a lease incentive and amortized as a reduction of revenue over the lease term.	
Ownership of tenant improvements is determined based on various factors including, but not limited to, the following criteria:	
• lease stipulations of how and on what a tenant improvement allowance may be spent; • which party to the arrangement retains legal title to the tenant improvements upon lease expiration; • whether the tenant improvements are unique to the tenant or general purpose in nature; • if the tenant improvements are expected to have significant residual value at the end of the lease term; • the responsible party for construction cost overruns; and • which party constructs or directs the construction of the improvements.	
Certain leases provide for additional rents that are contingent upon a percentage of the building's revenue in excess of specified base amounts or other thresholds. Such revenue is recognized when actual results reported by the tenant or estimates of tenant results, exceed the base amount or other thresholds, and only after any contingency has been removed (when the related thresholds are achieved). This may result in the recognition of rental revenue in periods subsequent to when such payments are received.	
Tenant recoveries subject to operating leases generally relate to the reimbursement of real estate taxes, insurance, and repair and maintenance expense, and are recognized as both revenue (in rental and related revenues) and expense (in operating expenses) in the period the expense is incurred as the Company is the party paying the service provider. Rental and related revenues from other variable payments are recognized when the associated contingencies are removed. In accordance with ASC 842, the Company accounts for lease and nonlease components as a single lease component for the purpose of revenue recognition and disclosure.	
For operating leases with minimum scheduled rent increases, the Company recognizes income on a straight-line basis over the lease term when collectibility of future minimum lease payments is probable. Recognizing rental income on a straight-line basis results in a difference in the timing of revenue amounts from what is contractually due from tenants. If the Company determines that collectibility of future minimum lease payments is not probable, the accounts receivable and straight-line rent receivable balance is written off and recognized as a decrease in revenue in that period and future revenue recognition is limited to amounts contractually owed and paid. The Company does not resume recognition of income on a straight-line basis unless it determines that collectibility of future payments related to these leases is probable. For the Company's portfolio of operating leases that are deemed probable of collection but exhibit a certain level of collectibility risk, the Company may also recognize an incremental allowance as a reduction to revenue. At December 31, 2024 and 2023, straight-line rent receivable, net of allowance, was \$338 million and \$310 million, respectively. Straight-line rent receivable is included in other assets, net in the Consolidated Balance Sheets.	
The Company's operating leases generally contain options to extend lease terms at prevailing market rates at the time of expiration. Certain operating leases contain early termination options that require advance notice and payment of a penalty, which in most cases is substantial enough to be deemed economically disadvantageous by a tenant to exercise.	
Resident Fees and Services	
The Company recognizes resident fee and service revenue from its Senior Housing Operating Property ("SHOP") portfolios and CCRC properties in accordance with ASC 606, <i>Revenue from Contracts with Customers</i> . Resident fee revenue is recorded when services are rendered and includes resident room and care charges, community fees, and other resident charges. Residency agreements for SHOP and CCRC facilities are generally for a term of 30 days to one year, with resident fees billed monthly, in advance. Revenue for certain care related services is recognized as services are provided and is billed monthly in arrears.	
The Company's CCRCs are operated as entrance fee communities, which typically require a resident to pay an upfront entrance fee that includes both a refundable portion and non-refundable portion. When the Company receives a non-refundable entrance fee, it is recorded in deferred revenue in the Consolidated Balance Sheets and amortized into revenue over the estimated stay of the resident. The Company utilizes third-party actuarial experts in its determination of the estimated stay of residents.	
Income from Direct Financing Leases	
The Company utilizes the direct finance method of accounting to record direct financing lease ("DFL") income. For a lease accounted for as a DFL, the net investment in the DFL represents receivables for the sum of future minimum lease payments and the estimated residual value of the leased property, less the unamortized unearned income. Unearned income is deferred and amortized to income over the lease term to provide a constant yield when collectibility of the lease payments is reasonably assured. During the first quarter of 2022, the Company sold its remaining hospital under a DFL.	
Interest Income	
Loans receivable are classified as held-for-investment based on management's intent and ability to hold the loans for the foreseeable future or to maturity. Loans held-for-investment are carried at amortized cost and reduced by a valuation allowance for estimated credit losses, as necessary. When collectibility of the future payments is reasonably assured, the Company utilizes the interest method on a loan-by-loan basis to recognize interest income on its loans, which includes the amortization of discounts and premiums as well as loan fees paid and received.	

Management Fee Income

The Company provides various services to certain of its unconsolidated joint ventures in exchange for fees and reimbursement. These services are considered related party transactions under ASC 850, *Related Party Disclosures*. Management fee income is recognized in interest income and other on the Consolidated Statements of Operations.

Gain (Loss) on Sales of Real Estate, Net

The Company recognizes a gain (loss) on sale of real estate when the criteria for an asset to be derecognized are met, which include when: (i) a contract exists, (ii) the buyer obtains control of the asset, and (iii) it is probable that the Company will receive substantially all of the consideration to which it is entitled. These criteria are generally satisfied at the time of sale.

Government Grant Income

On March 27, 2020, the federal government enacted the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”) to provide financial aid to individuals, businesses, and state and local governments. During the years ended December 31, 2023 and 2022, the Company received government grants under the CARES Act primarily to cover increased expenses and lost revenues during the coronavirus pandemic. Grant income is recognized to the extent that qualifying expenses and lost revenues exceed grants received and the Company will comply with all conditions attached to the grant. As of December 31, 2024, the amount of qualifying expenditures and lost revenues exceeded grant income recognized and the Company believes it has complied and will continue to comply with all grant conditions. In the event of non-compliance, all such amounts received are subject to recapture.

The following table summarizes information related to government grant income received and recognized by the Company (in thousands):

	Year Ended December 31,		
	2024	2023	2022
Government grant income recorded in other income (expense), net	\$ —	\$ 184	\$ 6,765
Government grant income recorded in equity income (loss) from unconsolidated joint ventures	—	229	878
Government grant income recorded in income (loss) from discontinued operations	—	—	217
Total government grants received	<u>\$ —</u>	<u>\$ 413</u>	<u>\$ 7,860</u>

Credit Losses

The Company evaluates the liquidity and creditworthiness of its occupants, operators, and borrowers on a monthly and quarterly basis to determine whether any updates to the future expected losses recognized upon inception are necessary. The Company's evaluation considers payment history and current credit status, industry conditions, current economic conditions, forecasted economic conditions, individual and portfolio property performance, credit enhancements, liquidity, and other factors. Future economic conditions are based primarily on near-term economic forecasts from the Federal Reserve and reasonable assumptions for long-term economic trends. The determination of loan losses also considers concentration of credit risk associated with the senior housing and outpatient medical industries to which its loans receivable relate. The Company's occupants, operators, and borrowers furnish property, portfolio, and guarantor/operator-level financial statements, among other information, on a monthly or quarterly basis; the Company utilizes this financial information to calculate the lease or debt service coverages in its assessment of internal ratings that it uses as a primary credit quality indicator. Lease and debt service coverage information is evaluated together with other property, portfolio, and operator performance information, including revenue, expense, net operating income, occupancy, rental rate, reimbursement trends, capital expenditures, and EBITDA (defined as earnings before interest, tax, and depreciation and amortization), along with other liquidity measures. The Company evaluates, on a monthly basis or immediately upon a significant change in circumstance, its occupants', operators', and borrowers' ability to service their obligations with the Company.

In connection with the Company's quarterly review process or upon the occurrence of a significant event, loans receivable and DFLs (collectively, “finance receivables”), are reviewed and assigned an internal rating of Performing, Watch List, or Workout. Finance receivables that are deemed Performing meet all present contractual obligations, and collection and timing, of all amounts owed is reasonably assured. Watch List finance receivables are defined as finance receivables that do not meet the definition of Performing or Workout. Workout finance receivables are defined as finance receivables in which the Company has determined, based on current information and events, that: (i) it is probable it will be unable to collect all amounts due according to the contractual terms of the agreement, (ii) the tenant, operator, or borrower is delinquent on making payments under the contractual terms of the agreement, and (iii) the Company has commenced action or anticipates pursuing action in the near term to seek recovery of its investment.

Finance receivables are placed on nonaccrual status when management determines that the collectibility of contractual amounts is not reasonably assured (the asset will have an internal rating of either Watch List or Workout). Further, the Company performs a credit analysis to support the tenant's, operator's, borrower's, and/or guarantor's repayment capacity and the underlying collateral values. The Company uses the cash basis method of accounting for finance receivables placed on nonaccrual status unless one of the following conditions exist whereby it uses the cost recovery method of accounting if: (i) the Company determines that it is probable that it will only recover the recorded investment in the finance receivable, net of associated allowances or charge-offs (if any), or (ii) the Company cannot reasonably estimate the amount of an impaired finance receivable. For cash basis method of accounting, the Company applies payments received, excluding principal paydowns, to interest income so long as that amount does not exceed the amount that would have been earned under the original contractual terms. For cost recovery method of accounting, any payment received is applied to reduce the recorded investment. Generally, the Company returns a finance receivable to accrual status when all delinquent payments become current under the terms of the loan or lease agreements and collectibility of the remaining contractual loan or lease payments is reasonably assured.

At inception of a finance receivable, the Company recognizes an allowance for credit losses expected to be incurred over the life of the instrument. The model utilized by the Company to determine such losses emphasizes historical experience and future market expectations to determine a loss to be recognized at inception. However, the model is applied on an individual basis and relies on counter-party specific information to ensure the most accurate estimate is recognized. The Company also performs a quarterly review process (or upon the occurrence of a significant event) to evaluate its borrowers' creditworthiness and liquidity to determine the amount of credit losses to recognize during the period. If a finance receivable is deemed partially or wholly uncollectible, the uncollectible balance is deducted from the allowance in the period in which such determination is made. Credit loss expenses and recoveries are recorded in impairments and loan loss reserves (recoveries), net.

Real Estate

The Company's real estate acquisitions are generally classified as asset acquisitions for which the Company records identifiable assets acquired, liabilities assumed, and any associated noncontrolling interests at cost on a relative fair value basis. In addition, for such asset acquisitions, no goodwill is recognized, third party transaction costs are capitalized and any associated contingent consideration is generally recorded when the amount of consideration is reasonably estimable and probable of being paid.

The Company assesses fair value based on available market information, such as capitalization and discount rates, comparable sale transactions, and relevant per square foot or unit cost information. A real estate asset's fair value may be determined utilizing cash flow projections that incorporate such market information. Estimates of future cash flows are based on a number of factors including historical operating results, known and anticipated trends, as well as market and economic conditions. The fair value of tangible assets of an acquired property is based on the value of the property as if it is vacant.

The Company recognizes acquired “above and below market” leases at their relative fair value (for asset acquisitions) using discount rates which reflect the risks associated with the leases acquired. The fair value is based on the present value of the difference between (i) the contractual amounts paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each in-place lease, measured over a period equal to the remaining term of the lease for above market leases and the initial term plus the extended term for any leases with renewal options that are reasonably certain to be exercised. Other intangible assets acquired include amounts for in-place lease values that are based on an evaluation of the specific characteristics of each property and the acquired tenant lease(s). Factors considered include estimates of carrying costs during hypothetical expected lease-up periods, market conditions, and costs to execute similar leases. In estimating carrying costs, the Company includes estimates of lost rents at market rates during the hypothetical expected lease-up periods, which are dependent on local market conditions and expected trends. In estimating costs to execute similar leases, the Company considers leasing commissions, legal, and other related costs.

Certain of the Company's acquisitions involve the assumption of contract liabilities. The Company typically estimates the fair value of contract liabilities by applying a reasonable profit margin to the total discounted estimated future costs associated with servicing the contract. A variety of market and contract-specific conditions are considered when making assumptions that impact the estimated fair value of the contract liability.

The Company capitalizes direct construction and development costs, including predevelopment costs, interest, property taxes, insurance, and other costs directly related and essential to the development or construction of a real estate asset. The Company capitalizes construction and development costs while substantive activities are ongoing to prepare an asset for its intended use. During the holding or development period, certain real estate assets generate incidental income that is not associated with the future profit or return from the intended use of the property. Such income is recognized as a reduction of the associated project costs. The Company considers a construction project as substantially complete and held available for occupancy upon the completion of Company-owned tenant improvements, but no later than one year from cessation of significant construction activity. Costs incurred after a project is substantially complete and ready for its intended use, or after development activities have ceased, are expensed as incurred. For redevelopment of existing operating properties, the Company capitalizes the cost for the construction and improvement incurred in connection with the redevelopment.

Costs previously capitalized related to abandoned developments/redevelopments are charged to earnings. Expenditures for repairs and maintenance are expensed as incurred. The Company considers costs incurred in conjunction with re-leasing properties, including tenant improvements and lease commissions, to represent the acquisition of productive assets and such costs are reflected as investing activities in the Company's Consolidated Statements of Cash Flows.

Initial direct costs incurred in connection with successful property leasing are capitalized as deferred leasing costs and classified as investing activities in the Consolidated Statements of Cash Flows. Initial direct costs include only those costs that are incremental to the arrangement and would not have been incurred if the lease had not been obtained. Initial direct costs consist of leasing commissions paid to employees and external third party brokers and lease incentives. Initial direct costs are included in other assets, net in the Consolidated Balance Sheets. At December 31, 2024 and 2023, the balance of net initial direct costs were \$204 million and \$172 million, respectively. Initial direct costs are amortized in depreciation and amortization in the Consolidated Statements of Operations using the straight-line method over the lease term.

The Company computes depreciation on properties using the straight-line method over the assets' estimated useful lives. These useful lives are reassessed following changes in the remaining period that the asset is expected to be held and used, and depreciation is discontinued when a property meets the criteria to be classified as held for sale. Buildings and improvements are depreciated over useful lives ranging up to 50 years. Above and below market lease intangibles are amortized to revenue over the remaining noncancellable lease terms and renewal periods that are reasonably certain to be exercised, if any. In-place lease intangibles are amortized to expense over the remaining noncancellable lease term and renewal periods that are reasonably certain to be exercised, if any.

Business Combinations

For the Company's real estate acquisitions that are accounted for as business combinations, such as the Merger, the Company allocates the acquisition consideration (excluding acquisition costs) to the assets acquired, liabilities assumed, and noncontrolling interests at fair value as of the acquisition date. Any excess of the consideration transferred relative to the fair value of the net assets acquired is accounted for as goodwill. Acquisition costs related to business combinations are expensed as incurred. The fair values are determined using standard valuation methodologies, such as the cost, market, and income approach. These methodologies require various assumptions, including those of a market participant.

Other Assets, Net

Other assets, net consist primarily of straight-line rent receivable (as discussed above), initial direct costs (as discussed above), deferred income taxes (see Note 17), goodwill (see Note 10), corporate assets (see Note 7), derivative assets (see Note 22), other equity investments (as discussed below and see Note 19), and prepaid expenses.

Other Equity Investments

The Company has certain investments recognized in accordance with ASC 321, *Investments-Equity Securities*, within other assets, net on the Consolidated Balance Sheets. These investments do not have readily determinable fair values and the practical expedient to estimate fair value using net asset value per share has not been elected. Accordingly, the investments are measured at cost, less any impairments, and are adjusted for any observable price changes, with such changes included in earnings.

An observable price results from an orderly transaction for an identical or similar investment of the same issuer, which is observed by an investor without expending undue cost and effort. Observable price changes may result from equity transactions of the same issuer, including subsequent equity offerings. To determine whether transactions are indicative of an observable price change, the Company evaluates, among other factors, whether the transactions have similar rights and obligations, which include voting rights, distribution rights and preferences, and conversion features.

Lessee Accounting

For leases greater than 12 months for which the Company is the lessee, such as ground leases and corporate office leases, the Company recognizes a right-of-use asset and related lease liability on the Consolidated Balance Sheets at inception of the lease. The lease liability is calculated as the sum of: (i) the present value of minimum lease payments at lease commencement (discounted using the Company's secured incremental borrowing rate) and (ii) the present value of amounts probable of being paid under any residual value guarantees. Certain of the Company's lease agreements have options to extend or terminate the contract terms upon meeting certain criteria. The lease term utilized in the calculation of the lease liability includes these options if they are considered reasonably certain of exercise. The right-of-use asset is calculated as the lease liability, adjusted for the following: (i) any lease payments made to the lessor at or before the commencement date, minus any lease incentives received and (ii) any initial direct costs incurred by the Company. Lease expense related to corporate assets is included in general and administrative expenses and lease expense related to ground leases is included within operating expenses in the Company's Consolidated Statements of Operations.

For leases with a noncancellable lease term of 12 months or less for which the Company is the lessee, the Company recognizes expenses on a straight-line basis and does not recognize such leases on the Consolidated Balance Sheets.

Impairment of Long-Lived Assets and Goodwill

The Company assesses the carrying value of real estate assets and related intangibles (“real estate assets”) when events or changes in circumstances indicate that the carrying value may not be recoverable. The Company tests its real estate assets for impairment by comparing the sum of the expected future undiscounted cash flows to the carrying value of the real estate assets. The expected future undiscounted cash flows reflect external market factors and the expected use and eventual disposition of the asset, and based on the specific facts and circumstances, may be probability-weighted to reflect multiple possible cash-flow scenarios, including selling the assets at various points in the future. Further, the analysis considers the impact, if any, of master lease agreements on cash flows, which are calculated utilizing the lowest level of identifiable cash flows that are largely independent of the cash flows of other assets and liabilities. If the carrying value exceeds the expected future undiscounted cash flows, an impairment loss will be recognized to the extent that the carrying value of the real estate assets exceeds their fair value.

Determining the fair value of real estate assets, including assets classified as held-for-sale, involves significant judgment and generally utilizes market capitalization rates, comparable market transactions, estimated per unit or per square foot prices, negotiations with prospective buyers, and forecasted cash flows (primarily lease revenue rates, expense rates, and growth rates).

When testing goodwill for impairment, if the Company concludes that it is more likely than not that the fair value of a reporting unit is less than its carrying value, the Company recognizes an impairment loss for the amount by which the carrying value, including goodwill, exceeds the reporting unit's fair value.

Assets Held for Sale and Discontinued Operations

The Company classifies a real estate property as held for sale when: (i) management has approved the disposal, (ii) the property is available for sale in its present condition, (iii) an active program to locate a buyer has been initiated, (iv) it is probable that the property will be disposed of within one year, (v) the property is being marketed at a reasonable price relative to its fair value, and (vi) it is unlikely that the

disposal plan will significantly change or be withdrawn. If a real estate property is classified as held for sale, it is reported at the lower of its carrying value or fair value less costs to sell and no longer depreciated.

The Company classifies a loan receivable as held for sale when management no longer has the intent and ability to hold the loan receivable for the foreseeable future or until maturity. If a loan receivable is classified as held for sale, it is reported at the lower of amortized cost or fair value.

A discontinued operation represents: (i) a component of the Company or group of components that has been disposed of or is classified as held for sale in a single transaction and represents a strategic shift that has or will have a major effect on the Company's operations and financial results or (ii) an acquired business that is classified as held for sale on the date of acquisition. Examples of a strategic shift may include disposing of: (i) a separate major line of business, (ii) a separate major geographic area of operations, or (iii) other major parts of the Company.

Senior Housing Triple-Net and Senior Housing Operating Portfolio Dispositions

In 2020, the Company concluded that the dispositions of its senior housing triple-net and SHOP portfolios represented a strategic shift that had a major effect on its operations and financial results. Therefore, the results of senior housing triple-net and SHOP assets are classified as discontinued operations in all periods presented herein. In September 2021, the Company successfully completed the disposition of the remaining senior housing triple-net and SHOP properties. See Note 5 for further information.

Investments in Unconsolidated Joint Ventures

Investments in entities the Company does not consolidate, but over which the Company has the ability to exercise significant influence over operating and financial policies, are reported under the equity method of accounting. Under the equity method of accounting, the Company's share of the investee's earnings or losses is included in equity income (loss) from unconsolidated joint ventures within the Company's Consolidated Statements of Operations.

The initial carrying value of investments in unconsolidated joint ventures is based on the amount paid to purchase the joint venture interest, the fair value of assets contributed to the joint venture, or the fair value of the assets prior to the sale of interests in the joint venture. To the extent that the Company's cost basis is different from the basis reflected at the joint venture level, the basis difference is generally amortized over the lives of the related assets and liabilities, and such amortization is included in the Company's share of equity in earnings of the joint venture. If an equity method investment shows indicators of impairment, the Company evaluates its equity method investments for impairment based on a comparison of the fair value of the equity method investment to its carrying value. When the Company determines a decline in fair value below carrying value of an investment in an unconsolidated joint venture is other-than-temporary, an impairment is recorded. The Company recognizes gains on the sale of interests in joint ventures to the extent the economic substance of the transaction is a sale.

The Company's fair values of its equity method investments are determined based on discounted cash flow models that include all estimated cash inflows and outflows over a specified holding period and, where applicable, any estimated debt premiums or discounts. Capitalization rates, discount rates, and credit spreads utilized in these valuation models are based on assumptions that the Company believes to be within a reasonable range of current market rates for the respective investments.

Stock-Based Compensation

Compensation expense for share-based awards granted to employees with graded vesting schedules is generally recognized on a straight-line basis over the vesting period. Forfeitures of share-based awards are recognized as they occur.

Cash and Cash Equivalents and Restricted Cash

Cash and cash equivalents consist of cash on hand and short-term investments with original maturities of three months or less when purchased. Restricted cash primarily consists of amounts held by mortgage lenders to provide for: (i) real estate tax expenditures, (ii) tenant improvements, and (iii) capital expenditures, as well as security deposits and net proceeds from property sales that were executed as tax-deferred dispositions.

The Company maintains its cash and cash equivalents at financial institutions insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000 per institution. As the account balances at each institution periodically exceed the FDIC insurance coverage, there is a concentration of credit risk related to amounts in excess of such coverage.

Derivatives and Hedging

During its normal course of business, the Company uses certain types of derivative instruments for the purpose of managing interest rate risk. To qualify for hedge accounting, derivative instruments used for risk management purposes must effectively reduce the risk exposure that they are designed to hedge. In addition, at inception of a qualifying cash flow hedging relationship, the underlying transaction or transactions, must be, and are expected to remain, probable of occurring in accordance with the Company's related assertions.

The Company recognizes all derivative instruments, including embedded derivatives that are required to be bifurcated, as assets or liabilities to the Consolidated Balance Sheets at fair value. Changes in fair value of derivative instruments that are not designated in hedging relationships or that do not meet the criteria of hedge accounting are recognized in other income (expense), net. For derivative instruments designated in qualifying cash flow hedging relationships, changes in fair value related to the effective portion of the derivative instruments are recognized in accumulated other comprehensive income (loss), whereas changes in fair value related to the ineffective portion would be recognized in earnings.

If it is determined that a derivative instrument ceases to be highly effective as a hedge, or that it is probable the underlying forecasted transaction will not occur, the Company discontinues its cash flow hedge accounting prospectively and records the appropriate adjustment to earnings based on the current fair value of the derivative instrument.

Income Taxes

Healthpeak Properties, Inc. has elected REIT status and believes it has always operated so as to continue to qualify as a REIT under Sections 856 to 860 of the Internal Revenue Code of 1986, as amended (the "Code"). Accordingly, Healthpeak Properties, Inc. will generally not be subject to U.S. federal income tax, provided that it continues to qualify as a REIT and makes distributions to stockholders equal to or in excess of its taxable income. In addition, the Company has formed several consolidated subsidiaries that have elected REIT status. Healthpeak Properties, Inc. and its consolidated REIT subsidiaries are each subject to the REIT qualification requirements under the Code. If any REIT fails to qualify as a REIT in any taxable year, it will be subject to federal income taxes at regular corporate rates and may be ineligible to qualify as a REIT for four subsequent tax years.

Healthpeak Properties, Inc. and its consolidated REIT subsidiaries are subject to state and local income taxes in some jurisdictions. In certain circumstances each REIT may also be subject to federal excise taxes on undistributed income. In addition, certain activities that the Company undertakes may be conducted by entities that have elected to be treated as taxable REIT subsidiaries ("TRSs"). TRSs are subject to federal, state, and local income taxes. The Company recognizes tax penalties relating to unrecognized tax benefits as additional income tax expense. Interest relating to unrecognized tax benefits is recognized as interest expense.

The Company is required to evaluate its deferred tax assets for realizability and recognize a valuation allowance, which is recorded against its deferred tax assets, if it is more likely than not that the deferred tax assets will not be realized. The Company considers all available evidence in its determination of whether a valuation allowance for deferred tax assets is required.

Advertising Costs

All advertising costs are expensed as incurred and reported within operating expenses on the Consolidated Statements of Operations. During the years ended December 31, 2024, 2023, and 2022, total advertising expense was \$9 million, \$8 million, and \$8 million, respectively.

Capital Raising Issuance Costs

Costs incurred in connection with the issuance of common shares are recorded as a reduction of additional paid-in capital. Debt issuance costs related to debt instruments, excluding line of credit arrangements and commercial paper, are deferred, recorded as a reduction of the related debt liability, and amortized to interest expense over the remaining term of the related debt liability utilizing the effective interest method. Debt issuance costs related to line of credit arrangements and commercial paper are deferred, included in other assets, and amortized to interest expense on a straight-line basis over the remaining term of the related line of credit arrangement. Commercial paper are unsecured short-term debt securities with varying maturities. A line of credit serves as a liquidity backstop for repayment of commercial paper borrowings.

Penalties incurred to extinguish debt and any remaining unamortized debt issuance costs, discounts, and premiums are recognized as income or expense in the Consolidated Statements of Operations at the time of extinguishment.

Segment Reporting

The Company's reportable segments, based on how it evaluates its business and allocates resources, are as follows: (i) outpatient medical, (ii) lab, and (iii) CCRC.

Noncontrolling Interests

Arrangements with noncontrolling interest holders are assessed for appropriate balance sheet classification based on the redemption and other rights held by the noncontrolling interest holder. Net income (loss) attributable to a noncontrolling interest is included in net income (loss) on the Consolidated Statements of Operations and, upon a gain or loss of control, the interest purchased or sold, and any interest retained, is recorded at fair value with any gain or loss recognized in earnings. The Company accounts for purchases or sales of equity interests that do not result in a change in control as equity transactions.

Redeemable Noncontrolling Interests

Certain of the Company's noncontrolling interest holders have the ability to put their equity interests to the Company upon specified events or after the passage of a predetermined period of time. Each put option is payable in cash and subject to increases in redemption value in the event that the underlying property generates specified returns and meets certain promote thresholds pursuant to the respective agreements. Accordingly, the Company records redeemable noncontrolling interests outside of permanent equity and presents the redeemable noncontrolling interests at the greater of their carrying amount or redemption value at the end of each reporting period.

Healthpeak OP

Immediately following the Reorganization, Healthpeak Properties, Inc. was the initial sole member and 100% owner of Healthpeak OP. Subsequent to the Reorganization, certain employees of the Company ("OP Unitholders") were issued noncontrolling, non-managing member units in Healthpeak OP ("OP Units"). When certain conditions are met, the OP Unitholders have the right to require redemption of part or all of their OP Units for cash or shares of the Company's common stock, at the Company's option as managing member of Healthpeak OP. The per unit redemption amount is equal to either one share of the Company's common stock or cash equal to the fair value of a share of common stock at the time of redemption. The Company classifies the OP Units in permanent equity because it may elect, in its sole discretion, to issue shares of its common stock to OP Unitholders who choose to redeem their OP Units rather than using cash.

DownREITs

The Company consolidates non-managing member limited liability companies ("DownREITs") because it exercises control, and the noncontrolling interests in these entities are carried at cost. The non-managing member limited liability company ("LLC") units ("DownREIT units") are exchangeable for an amount of cash approximating the then-current market value of shares of the Company's common stock or, at the Company's option, shares of the Company's common stock (subject to certain adjustments, such as stock splits and reclassifications). Upon exchange of DownREIT units for the Company's common stock, the carrying amount of the DownREIT units is reclassified to stockholders' equity.

Fair Value Measurement

The Company measures and discloses the fair value of nonfinancial and financial assets and liabilities utilizing a hierarchy of valuation techniques based on whether the inputs to a fair value measurement are considered to be observable or unobservable in a marketplace. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. This hierarchy requires the use of observable market data when available. These inputs have created the following fair value hierarchy:

- Level 1—quoted prices for identical instruments in active markets;
- Level 2—quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which significant inputs and significant value drivers are observable in active markets; and
- Level 3—fair value measurements derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The Company measures fair value using a set of standardized procedures that are outlined herein for all assets and liabilities that are required to be measured at fair value. When available, the Company utilizes quoted market prices to determine fair value and classifies such items in Level 1. In instances where a market price is available, but the instrument is in an inactive or over-the-counter market, the Company consistently applies the dealer (market maker) pricing estimate and classifies the asset or liability in Level 2.

If quoted market prices or inputs are not available, fair value measurements are based on valuation models that utilize current market or independently sourced market inputs, such as interest rates, option volatilities, credit spreads, and/or market capitalization rates. Items valued using such internally-generated valuation techniques are classified according to the lowest level input that is significant to the fair value measurement. As a result, the asset or liability could be classified in either Level 2 or Level 3 even though there may be some significant inputs that are readily observable. Internal fair value models and techniques used by the Company include discounted cash flow models. The Company also considers its counterparty's and own credit risk for derivative instruments and other liabilities measured at fair value.

The Company has elected the mid-market pricing expedient when determining fair value.

Earnings per Share

Basic earnings per common share is computed by dividing net income (loss) applicable to common shares by the weighted average number of shares of common stock outstanding during the period. The Company accounts for unvested share-based payment awards that contain non-forfeitable dividend rights or dividend equivalents (whether paid or unpaid) as participating securities, which are included in the computation of earnings per share pursuant to the two-class method. Diluted earnings per common share is calculated by including the effect of dilutive securities, such as the impact of forward equity sales agreements using the treasury stock method and common shares issuable from the assumed conversion of DownREIT units, stock options, certain performance restricted stock units, OP Units, and unvested restricted stock units.

Recent Accounting Pronouncements

Adopted

Segment Reporting. In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* ("ASU 2023-07"), to improve reportable segment disclosure requirements so that investors can better understand an entity's overall performance and assess potential future cash flows. The amendments in ASU 2023-07 include, but are not limited to: (i) disclosure of, on an annual basis, significant segment expenses that are regularly provided to the chief operating decision maker ("CODM") and included within each reported measure of segment profit or loss; (ii) disclosure of, on an annual and interim basis, an amount for other segment items by reportable segment and a description of its composition (the other segment items category is the difference between segment revenue less the significant expenses disclosed and each reported measure of segment profit or loss); (iii) disclosure of, on an interim basis, all currently required annual disclosures about a reportable segment's profit (loss) and assets; (iv) clarification that if the CODM uses more than one measure of a segment's profit or loss in

assessing segment performance and deciding how to allocate resources, an entity may report one or more of those additional measures of segment profit; and (v) disclosure of the title and position of the CODM and an explanation of how the CODM uses the reported measure(s) of segment profit or loss in assessing segment performance and deciding how to allocate resources. During the year ended December 31, 2024, the amendments in ASU 2023-07 were adopted retrospectively and did not have an impact on the Company’s consolidated financial position, results of operations, or cash flows.

Not Yet Adopted

Income Taxes. In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* (“ASU 2023-09”), to provide disaggregated information about a reporting entity’s effective tax rate reconciliation as well as information on income taxes paid. One of the amendments in ASU 2023-09 includes disclosure of, on an annual basis, a tabular rate reconciliation (using both percentages and reporting currency amounts) of (i) the reported income tax expense (or benefit) from continuing operations, to (ii) the product of the income (or loss) from continuing operations before income taxes and the applicable statutory federal income tax rate of the jurisdiction of domicile using specific categories, including separate disclosure for any reconciling items within certain categories that are equal to or greater than a specified quantitative threshold of 5%. ASU 2023-09 also requires disclosure of, on an annual basis, the year-to-date amount of income taxes paid (net of refunds received) disaggregated by federal, state, and foreign jurisdictions, including additional disaggregated information on income taxes paid (net of refunds received) to an individual jurisdiction equal to or greater than 5% of total income taxes paid (net of refunds received). The amendments in ASU 2023-09 are effective for annual periods beginning after December 15, 2024. The Company is evaluating the impact ASU 2023-09 will have on its disclosures.

Expense Disaggregation. In November 2024, the FASB issued ASU No. 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses* (“ASU 2024-03”), to address requests from investors for more detailed information about the types of expenses in commonly presented expense captions. ASU 2024-03 requires public companies to provide disaggregated disclosure in tabular format in the notes to financial statements of specific expenses, including but not limited to: (i) employee compensation, (ii) depreciation, and (iii) intangible asset amortization. In January 2025, the FASB issued ASU No. 2025-01, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Clarifying the Effective Date*, which clarifies that the amendments in ASU 2024-03 are effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. The Company is evaluating the impact these ASUs will have on its disclosures.

The Merger

[Business Combination, Asset Acquisition, and Joint Venture Formation \[Abstract\]](#)
[The Merger](#)

12 Months Ended Dec. 31, 2024

The Merger

On March 1, 2024 (the “Closing Date”), pursuant to the Agreement and Plan of Merger dated October 29, 2023 (the “Merger Agreement”), by and among the Company, DOC DR Holdco, LLC, a wholly owned subsidiary of the Company (“DOC DR Holdco”), DOC DR, LLC, a wholly owned subsidiary of Healthpeak OP (“DOC DR OP Sub”), Physicians Realty Trust, and Physicians Realty L.P. (the “Physicians Partnership”); (i) Physicians Realty Trust merged with and into DOC DR Holdco (the “Company Merger”), with DOC DR Holdco surviving as a wholly owned subsidiary of the Company (the “Company Surviving Entity”); (ii) immediately following the effectiveness of the Company Merger, the Company contributed all of the outstanding equity interests in the Company Surviving Entity to Healthpeak OP (the “Contribution”); and (iii) immediately following the Contribution, Physicians Partnership merged with and into DOC DR OP Sub (the “Partnership Merger” and, together with the Company Merger, the “Merger”), with DOC DR OP Sub surviving as a subsidiary of Healthpeak OP (the “Partnership Surviving Entity”). Subsequent to the Closing Date, the “Combined Company” means the Company and its subsidiaries.

On the Closing Date and in connection with the Merger, (i) each outstanding common share of beneficial interest of Physicians Realty Trust (“Physicians Realty Trust common shares”) (other than Physicians Realty Trust common shares that were canceled in accordance with the Merger Agreement) was automatically converted into the right to receive 0.674 (the “Exchange Ratio”) shares of the Company’s common stock, and (ii) each outstanding common unit of the Physicians Partnership was converted into common units in the Partnership Surviving Entity equal to the Exchange Ratio.

As a result of the Merger, the Company acquired 299 outpatient medical buildings. The primary reason for the Merger was to expand the Company’s size, scale, and diversification, in order to further enhance the Company’s competitive advantages and accelerate investment activities.

The Merger was accounted for using the acquisition method of accounting in accordance with ASC 805, *Business Combinations*, which requires, among other things, the assets acquired and the liabilities assumed to be recognized at their acquisition date fair value. For accounting purposes, the Company was treated as the accounting acquirer of Physicians Realty Trust. The Company was considered to be the accounting acquirer primarily because: (i) the Company is the entity that transferred consideration to consummate the Merger; (ii) the Company’s stockholders as a group retained the largest portion of the voting rights of the Combined Company and have the ability to elect, appoint, or remove a majority of the members of the Combined Company’s board of directors; and (iii) its senior management constitutes the majority of management of the Combined Company.

The consideration transferred on the Closing Date is as follows (in thousands, except per share data):

	March 1, 2024
Physicians Realty Trust common shares and Physicians Realty Trust restricted shares, PSUs, and RSUs exchanged ⁽¹⁾	240,699
Exchange Ratio	0.674
Shares of Healthpeak common stock issued	162,231
Closing price of Healthpeak common stock on March 1, 2024 ⁽²⁾	\$ 17.10
Fair value of Healthpeak common stock issued to the former holders of Physicians Realty Trust common shares, restricted shares, PSUs, and RSUs	\$ 2,774,147
Less: Fair value of share consideration attributable to the post-combination period ⁽³⁾	(16,223)
Physicians Realty Trust revolving credit facility termination ⁽⁴⁾	\$ 175,411
Settlement of Physicians Realty Trust’s transaction costs	23,913
Payments made in connection with share settlement ⁽⁵⁾	11,315
Cash consideration	\$ 210,639
Consideration transferred	<u>\$ 2,968,563</u>

- (1) Includes 241 million Physicians Realty Trust common shares and Physicians Realty Trust restricted shares outstanding as of March 1, 2024, inclusive of: (i) 200 thousand Physicians Realty Trust restricted shares; (ii) 1 million Physicians Realty Trust common shares issuable pursuant to outstanding Physicians Realty Trust performance-based restricted stock unit (“PSUs”) (reflected at the maximum level of performance); and (iii) 300 thousand Physicians Realty Trust common shares issuable pursuant to outstanding Physicians Realty Trust restricted stock units (“RSUs”).
- (2) The fair value of Healthpeak common stock issued to former holders of Physicians Realty Trust common shares and Physicians Realty Trust restricted shares, PSUs, and RSUs was based on the per share closing price of Healthpeak common stock on March 1, 2024.
- (3) Represents the fair value of unvested Physicians Realty Trust restricted shares, PSUs, and RSUs attributable to post-combination services that were converted into Healthpeak common stock on the Closing Date in accordance with the Merger Agreement. Although no future service after the Closing Date is required, the value attributable to post-combination services reflected the incremental fair value provided to the Physicians Realty Trust equity award holders and the accelerated vesting of such awards at the Closing Date in accordance with the Merger Agreement. This amount was recognized as transaction and merger-related costs on the Consolidated Statements of Operations.
- (4) Represents the Company’s cash repayment of all outstanding balances under Physicians Realty Trust’s revolving credit facility on the Closing Date in connection with the related termination.
- (5) Includes cash settlement of: (i) tax liability related to holdback elections made under the pre-existing terms and conditions of Physicians Realty Trust’s equity programs and (ii) fractional share consideration.

Purchase Price Allocation

For the Company’s real estate acquisitions that are accounted for as business combinations, such as the Merger, the Company allocates the acquisition consideration (excluding acquisition costs) to the assets acquired, liabilities assumed, and noncontrolling interests at fair value as of the acquisition date. Any excess of the consideration transferred relative to the fair value of the net assets acquired is accounted for as goodwill. Acquisition costs related to business combinations are expensed as incurred. The estimated fair values of the assets acquired, liabilities assumed, and noncontrolling interests were based on information that was available at the Closing Date. The fair values were determined using standard valuation methodologies, such as the cost, market, and income approach. These methodologies require various assumptions, including those of a market participant.

The following table summarizes the estimated fair values of the assets acquired, liabilities assumed, and noncontrolling interests at the Closing Date (in thousands):

	Preliminary Amounts Recognized on the Closing Date	Measurement Period Adjustments	Amounts Recognized on the Closing Date (As Adjusted)
ASSETS			
Real estate:			
Buildings and improvements	\$ 3,199,884	\$ (6,889)	\$ 3,192,995
Development costs and construction in progress	68,171	—	68,171
Land and improvements	435,353	—	435,353
Real estate	3,703,408	(6,889)	3,696,519
Loans receivable	118,908	—	118,908
Investments in and advances to unconsolidated joint ventures	58,636	—	58,636
Accounts receivable, net ⁽¹⁾	9,536	(254)	9,282
Cash and cash equivalents	30,417	—	30,417
Restricted cash	1,007	—	1,007
Intangible assets ⁽²⁾	890,827	—	890,827
Right-of-use asset	191,415	(113)	191,302
Other assets	44,691	(668)	44,023
Total assets	\$ 5,048,845	\$ (7,924)	\$ 5,040,921
LIABILITIES AND EQUITY			
Term loans	\$ 402,320	\$ —	\$ 402,320
Senior unsecured notes	1,139,760	—	1,139,760
Mortgage debt	127,176	—	127,176
Intangible liabilities ⁽³⁾	149,875	—	149,875
Lease liability	97,160	(113)	97,047
Accounts payable, accrued liabilities, and other liabilities	72,864	(2,976)	69,888
Total liabilities	\$ 1,989,155	\$ (3,089)	\$ 1,986,066
Redeemable noncontrolling interests	1,536	1,573	3,109
Joint venture partners ⁽⁴⁾	20,109	(3,043)	17,066
Non-managing member unitholders ⁽⁵⁾	116,618	—	116,618
Total noncontrolling interests	\$ 136,727	\$ (3,043)	\$ 133,684
Fair value of net assets acquired and liabilities assumed, net of noncontrolling interests	\$ 2,921,427	\$ (3,365)	\$ 2,918,062
Goodwill	47,136	3,365	50,501
Total purchase price	<u>\$ 2,968,563</u>	<u>\$ —</u>	<u>\$ 2,968,563</u>

- (1) Includes \$14 million of gross contractual accounts receivable.
- (2) The intangible assets acquired had a weighted average amortization period of 6 years (see Note 10).
- (3) The intangible liabilities acquired had a weighted average amortization period of 9 years (see Note 10).
- (4) Includes six consolidated joint ventures in which the Company held ownership interests ranging from 56.7% to 99.7% on the Closing Date.
- (5) In connection with the Merger, Physicians Partnership merged with and into DOC DR OP Sub with DOC DR OP Sub surviving as the Partnership Surviving Entity. The Company controls the Partnership Surviving Entity via its ownership of its managing member, and the Partnership Surviving Entity is consolidated by the Company.

The measurement period adjustments recorded through December 31, 2024 are final and were primarily the result of additional information obtained during the measurement period by the Company related to certain assets acquired and liabilities assumed and updated valuations of noncontrolling interests, resulting in an increase to goodwill of \$3 million.

Based on the final purchase price allocation of fair value, approximately \$51 million has been allocated to goodwill. The recognized goodwill is attributable to expected synergies, cost savings, acquired workforce, and potential economies of scale benefits from outpatient medical property management and tenant and vendor relationships following the closing of the Merger. None of the goodwill recognized is expected to be deductible for tax purposes.

Merger-Related Costs

During the year ended December 31, 2024, the Company incurred approximately \$129 million of merger-related costs, which primarily related to advisory, legal, accounting, tax, post-combination severance and stock compensation expense, and other costs of combining operations with Physicians Realty Trust. Included in this amount is: (i) \$38 million of fees paid to investment banks and advisors to help the

Company negotiate the terms of the transactions contemplated by the Merger Agreement and to advise the Company on other merger-related matters, inclusive of \$21 million of success-based fees incurred upon consummation of the Merger, (ii) \$26 million of severance expense due to certain Physicians Realty Trust dual-trigger severance arrangements that are required to be recognized as post-combination expense in accordance with ASC 805, (iii) \$16 million of post-combination stock compensation expense for the accelerated vesting of Physicians Realty Trust equity awards pursuant to the terms of the Merger Agreement, based on the fair value of Healthpeak common stock issued to holders of Physicians Realty Trust equity awards, (iv) \$35 million of legal, accounting, tax, and other costs, and (v) \$13 million of severance expense related to legacy Healthpeak employees. During the year ended December 31, 2023, the Company incurred approximately \$11 million of merger-related costs, which primarily related to advisory, legal, accounting, tax, and other costs. These merger-related costs are included in transaction and merger-related costs on the Consolidated Statements of Operations.

Unaudited Pro Forma Financial Information

The Consolidated Statements of Operations for the year ended December 31, 2024 include \$473 million of revenues and \$6 million of net loss applicable to common shares associated with the results of operations of legacy Physicians Realty Trust from the Closing Date to December 31, 2024.

The following unaudited pro forma information presents a summary of the results of operations for the Combined Company, as if the Merger had been consummated on January 1, 2023 (in thousands). The following unaudited pro forma financial information is not necessarily indicative of the results of operations had the acquisition been effected on the assumed date, nor is it necessarily an indication of trends in future results for a number of reasons, including, but not limited to, differences between the assumptions used to prepare the unaudited pro forma financial information, cost savings from operating efficiencies, potential synergies, and the impact of incremental costs incurred in integrating the businesses.

	Year Ended December 31,	
	2024	2023
Total revenues	\$ 2,765,670	\$ 2,771,468
Net income (loss) applicable to common shares	353,347	24,630

The unaudited pro forma financial information above includes nonrecurring significant adjustments made to account for certain costs incurred as if the Merger had been completed on January 1, 2023. Transaction and merger-related costs of \$129 million that were incurred during the year ended December 31, 2024, were excluded from the unaudited pro forma financial information for the year ended December 31, 2024, but included for the year ended December 31, 2023. The year ended December 31, 2023 also includes \$11 million of transaction and merger-related costs that were recognized during the year then ended.

2024 Real Estate Investment Acquisitions

The Merger

As a result of the Merger, the Company acquired 299 outpatient medical buildings (see Note 3).

2023 Real Estate Investment Acquisitions

60 Loomis Land Parcel

In January 2023, the Company acquired a lab land parcel in Cambridge, Massachusetts for \$9 million.

Wylie Outpatient Medical Building

In April 2023, the Company acquired the remaining 80% interest in one of the outpatient medical buildings in the Ventures IV unconsolidated joint venture for \$4 million (see Note 9). Concurrent with the acquisition, the Company began consolidating the building and recognized a gain upon change of control of \$0.2 million, which is recorded in other income (expense), net during the year ended December 31, 2023.

2022 Real Estate Investment Acquisitions

67 Smith Place

In January 2022, the Company closed a lab acquisition in Cambridge, Massachusetts for \$72 million.

Vista Sorrento Phase II

In January 2022, the Company closed a lab acquisition in San Diego, California for \$24 million.

Webster Outpatient Medical Portfolio

In March 2022, the Company acquired a portfolio of two outpatient medical buildings in Houston, Texas for \$43 million.

Northwest Medical Plaza

In May 2022, the Company acquired one outpatient medical building in Bentonville, Arkansas for \$26 million.

Concord Avenue Land Parcels

In December 2022, the Company closed a lab acquisition in Cambridge, Massachusetts for \$18 million.

Development Activities

Construction, Tenant, and Other Capital Improvements

The following table summarizes the Company's expenditures for construction, tenant improvements, and other capital improvements for its consolidated property investments, excluding expenditures related to properties classified as discontinued operations (in thousands):

Dispositions of Real Estate and Discontinued Operations

2024 Dispositions of Real Estate

During the year ended December 31, 2024, the Company sold: (i) a portfolio of 59 outpatient medical buildings for \$674 million and provided the buyer with a mortgage loan secured by the real estate sold for \$405 million (see Note 8), (ii) 14 outpatient medical buildings for \$220 million, (iii) a portfolio of seven lab buildings for \$180 million, (iv) a portfolio of two outpatient medical buildings for \$23 million and provided the buyer with a mortgage loan secured by the real estate sold for \$14 million (see Note 8), and (v) a portfolio comprised of a land parcel and various vacant buildings on certain of the Company's CCRC campuses for \$12 million, resulting in total net gain on sales of \$179 million.

2023 Dispositions of Real Estate

During the year ended December 31, 2023, the Company sold two lab buildings in Durham, North Carolina, for \$113 million and two outpatient medical buildings for \$32 million, resulting in total gain on sales of \$81 million.

2022 Dispositions of Real Estate

During the year ended December 31, 2022, the Company sold one lab building in Salt Lake City, Utah for \$14 million and five outpatient medical buildings and one outpatient medical land parcel for \$36 million, resulting in total gain on sales of \$15 million.

Held for Sale and Discontinued Operations

As of December 31, 2024, one outpatient medical building was classified as held for sale, with a carrying value of \$8 million, primarily comprised of net real estate assets. As of December 31, 2024, liabilities related to the asset held for sale were zero. As of December 31, 2023, two lab buildings and one outpatient medical building were classified as held for sale, with a carrying value of \$118 million, primarily comprised of net real estate assets. As of December 31, 2023, liabilities related to the assets held for sale were \$1 million. During the three months ended March 31, 2024, the Company sold the outpatient medical building and a 65% interest in the two lab buildings (see Note 9) that were classified as held for sale as of December 31, 2023.

In 2020, the Company concluded that the dispositions of its senior housing triple-net and SHOP portfolios represented a strategic shift that had a major effect on its operations and financial results. Therefore, the results of senior housing triple-net and SHOP assets are classified as discontinued operations in all periods presented herein. The Company has successfully completed the disposition of its senior housing triple-net and SHOP properties.

At each of December 31, 2024 and 2023, the total assets and total liabilities classified as discontinued operations were zero.

The results of discontinued operations during the years ended December 31, 2024, 2023, and 2022 are presented below (in thousands) and are included in the consolidated results of operations for the years ended December 31, 2024, 2023, and 2022:

Impairments of Real
Estate
[Asset Impairment](#)

12 Months Ended
Dec. 31, 2024

Impairments of Real Estate

Impairment Charges

During the year ended December 31, 2024, the Company recognized an impairment charge of \$13 million, which is reported in impairments and loan loss reserves (recoveries), net, on the Consolidated Statements of Operations related to one outpatient medical building that met the held for sale criteria. Upon classifying the asset as held for sale, the Company recognized an impairment charge to write down the building's carrying value of \$21 million to its fair value, less estimated costs to sell, of \$8 million.

The fair value of the impaired asset was based on the forecasted sales price which is considered to be a Level 3 measurement within the fair value hierarchy. The Company's fair value estimates primarily relied on a market approach, which utilized comparable market transactions and negotiations with prospective buyers.

During the years ended December 31, 2023 and 2022, the Company did not recognize any impairment charges.

Casualty-Related Charges

During the years ended December 31, 2024, 2023, and 2022, the Company recognized \$30 million, \$(3) million, and \$6 million, respectively, of net casualty-related charges (recoveries). During the year ended December 31, 2024, such charges were primarily related to damages as a result of Hurricane Milton, partially offset by recoveries from proceeds received for water damage at an outpatient medical building during the year then ended. During the year ended December 31, 2023, such recoveries were primarily attributable to proceeds received for water damage at an outpatient medical building. During the year ended December 31, 2022, such charges were primarily attributable to damages as a result of Hurricane Ian. Casualty-related charges are recognized in other income (expense), net and equity income (loss) from unconsolidated joint ventures in the Consolidated Statements of Operations. Also during the years ended December 31, 2024, 2023, and 2022, the Company collected business interruption proceeds of \$0.7 million, \$4 million, and \$3 million, respectively, which are recognized in rental and related revenues and resident fees and services on the Consolidated Statements of Operations.

Other Losses

During the year ended December 31, 2022, the Company recognized \$14 million of expenses within other income (expense), net on the Consolidated Statements of Operations for tenant relocation and other costs associated with the demolition of an outpatient medical building.

See Note 8 for information related to the Company's reserve for loan losses.

Leases

Leases

Lease Income

The following table summarizes the Company's lease income (in thousands):

	Year Ended December 31,		
	2024	2023	2022
Fixed income from operating leases	\$ 1,530,493	\$ 1,236,502	\$ 1,182,463
Variable income from operating leases	556,703	395,303	359,312
Interest income from direct financing leases	—	—	1,168

Direct Financing Leases

2022 Direct Financing Lease Sale

During the first quarter of 2022, the Company sold its remaining hospital under a DFL for \$68 million and recognized a gain on sale of \$23 million, which is included in other income (expense), net on the Consolidated Statements of Operations. Therefore, at December 31, 2024 and 2023, the Company had no leases classified as a DFL.

Operating Leases

Future Minimum Rents

The following table summarizes future minimum lease payments to be received from tenants under non-cancelable operating leases as of December 31, 2024 (in thousands):

Year	Amount
2025	\$ 1,427,402
2026	1,339,275
2027	1,246,068
2028	1,138,062
2029	1,003,394
Thereafter	3,681,731
	<u>\$ 9,835,932</u>

Tenant Purchase Options

Certain leases contain purchase options whereby the tenant may elect to acquire the underlying real estate. Annualized base rent from leases subject to purchase options, summarized by the year the purchase options are exercisable are as follows (dollars in thousands):

Year	Annualized Base Rent ⁽¹⁾	Number of Properties
2025	\$ 16,109	12
2026	19,071	8
2027	8,415	4
2028	16,209	5
2029	6,053	7
Thereafter	22,364	9
	<u>\$ 88,221</u>	<u>45</u>

(1) Represents the most recent month's base rent including additional rent floors annualized for 12 months. Base rent does not include tenant recoveries, additional rents in excess of floors, and non-cash revenue adjustments (i.e., straight-line rents, amortization of market lease intangibles, and deferred revenues).

Lease Costs

The following tables provide information regarding the Company's leases to which it is the lessee, such as corporate offices and ground leases, excluding lease costs related to discontinued operations (dollars in thousands):

Lease Expense Information:	Year Ended December 31,		
	2024	2023	2022
Total lease expense	\$ 22,768	\$ 17,010	\$ 16,689

Weighted Average Lease Term and Discount Rate:

Weighted average remaining lease term (years):
Operating leases⁽¹⁾

	December 31, 2024	December 31, 2023
	48	51

Weighted average discount rate:

Operating leases	4.79 %	4.23 %

(1) As of December 31, 2024 and 2023, the weighted average remaining lease term including the Company's options to extend its operating leases was 66 years and 67 years, respectively.

The following table summarizes future minimum lease payments under non-cancelable ground and other operating leases included in the Company's lease liability as of December 31, 2024 (in thousands):

Year	Amount
2025	\$ 21,514
2026	18,423
2027	18,434
2028	18,489
2029	18,687
Thereafter	738,666
Undiscounted minimum lease payments included in the lease liability	834,213
Less: imputed interest	(526,993)
Present value of lease liability	<u>\$ 307,220</u>

Depreciation Expense

While the Company leases the majority of its property, plant, and equipment to various tenants under operating leases, in certain situations, the Company owns and operates certain property, plant, and equipment for general corporate purposes. Corporate assets are recorded within other assets, net within the Company's Consolidated Balance Sheets and depreciation expense for those assets is recorded in general and administrative expenses in the Company's Consolidated Statements of Operations. As of December 31, 2024 and 2023, the Company had \$38 million and \$39 million of corporate assets, respectively. Also included within other assets, net as of December 31, 2024 and 2023 is \$8 million and \$10 million, respectively, of accumulated depreciation related to corporate assets. Included within general and administrative expenses for the years ended December 31, 2024, 2023, and 2022 is \$2 million, \$3 million, and \$3 million, respectively, of depreciation expense related to corporate assets.

Denver Corporate Headquarters

During the year ended December 31, 2022, the Company recognized \$7 million of charges in connection with the downsizing of the Company's corporate headquarters in Denver, Colorado which are included in general and administrative expenses on the Consolidated Statements of Operations.

Tenant Updates

During the first quarter of 2023, the Company wrote off \$9 million of straight-line rent receivable associated with four in-place operating leases with Sorrento Therapeutics, Inc. ("Sorrento"), which commenced voluntary reorganization proceedings (the "Filing") under Chapter 11 of the U.S. Bankruptcy Code during the period. This write-off was recognized as a reduction in rental and related revenues on the Consolidated Statements of Operations. Subsequent to the write-off, revenue related to this tenant is recognized on a cash basis. Sorrento also had a single development lease with the Company, but had not taken occupancy at the time of the Filing. The Company has filed proofs of claims for damages related to its rejected leases, which include the development lease and three of the four operating leases. The Company filed proofs of claim for related damages during the year ended December 31, 2023, \$4 million of which was received by the Company by drawing on Sorrento's letters of credit and security deposits. These cash proceeds were recognized as lease termination fee income, which is included in rental and related revenues on the Consolidated Statements of Operations. In April 2024, the U.S. Bankruptcy Court approved the assignment and assumption of the remaining operating lease by the buyer of Sorrento's assets. Given the nature of bankruptcy proceedings, the probability, timing, and amount of the additional proceeds, if any, that the Company may ultimately receive in connection with the claims are uncertain. Accordingly, the Company has not recorded any estimated recoveries associated with these claims as of December 31, 2024 or December 31, 2023.

On October 26, 2023, the Company amended its lease with Graphite Bio, Inc., which later merged with LENZ Therapeutics, Inc. in March 2024 ("Graphite Bio"), at one of its lab buildings in South San Francisco, California. Under the terms of the amended lease agreement, Graphite Bio's lease expiration date was accelerated from April 2033 to December 2024 in exchange for an upfront cash payment of \$37 million, comprised of a \$21 million termination fee and \$16 million prepayment of Graphite Bio's contractual rent through the amended term. The \$37 million was recognized as rental and related revenues on the Consolidated Statements of Operations on a straight-line basis through the amended term of the lease.

In July 2024, the Company executed an early lease renewal for approximately 2 million square feet leased by CommonSpirit Health ("CommonSpirit"). The renewal, which is subject to a master agreement, extended the weighted average lease term of existing leases from July 2027 to December 2035, amended the contractual rents to current market rates, and increased the annual contractual lease escalations from 2.5% to 3.0%. In connection with this extension, CommonSpirit was provided the right to reduce the amount of space leased by up to approximately 200,000 square feet at any time after the original lease maturity dates. These termination rights were evaluated for likelihood of exercise in accordance with ASC 842 in the determination of the lease term. During the year ended December 31, 2024,

Leases

CommonSpirit represented 6% of revenues for the outpatient medical segment and 3% of total revenues.

Leases

Lease Income

The following table summarizes the Company's lease income (in thousands):

	Year Ended December 31,		
	2024	2023	2022
Fixed income from operating leases	\$ 1,530,493	\$ 1,236,502	\$ 1,182,463
Variable income from operating leases	556,703	395,303	359,312
Interest income from direct financing leases	—	—	1,168

Direct Financing Leases

2022 Direct Financing Lease Sale

During the first quarter of 2022, the Company sold its remaining hospital under a DFL for \$68 million and recognized a gain on sale of \$23 million, which is included in other income (expense), net on the Consolidated Statements of Operations. Therefore, at December 31, 2024 and 2023, the Company had no leases classified as a DFL.

Operating Leases

Future Minimum Rents

The following table summarizes future minimum lease payments to be received from tenants under non-cancelable operating leases as of December 31, 2024 (in thousands):

Year	Amount
2025	\$ 1,427,402
2026	1,339,275

	<u>\$ 9,835,932</u>

Tenant Purchase Options

Certain leases contain purchase options whereby the tenant may elect to acquire the underlying real estate. Annualized base rent from leases subject to purchase options, summarized by the year the purchase options are exercisable are as follows (dollars in thousands):

Year	Annualized Base Rent ⁽¹⁾	Number of Properties
2025	\$ 16,109	12
2026	19,071	8
2027	8,415	4
2028	16,209	5
2029	6,053	7
Thereafter	22,364	9
	<u>\$ 88,221</u>	<u>45</u>

(1) Represents the most recent month's base rent including additional rent floors annualized for 12 months. Base rent does not include tenant recoveries, additional rents in excess of floors, and non-cash revenue adjustments (i.e., straight-line rents, amortization of market lease intangibles, and deferred revenues).

Lease Costs

The following tables provide information regarding the Company's leases to which it is the lessee, such as corporate offices and ground leases, excluding lease costs related to discontinued operations (dollars in thousands):

	Year Ended December 31,		
Lease Expense Information:	2024	2023	2022
Total lease expense	\$ 22,768	\$ 17,010	\$ 16,689

	December 31, 2024	December 31, 2023
Weighted Average Lease Term and Discount Rate:		
Weighted average remaining lease term (years):		
Operating leases ⁽¹⁾	48	51
Weighted average discount rate:		
Operating leases	4.79 %	4.23 %

(1) As of December 31, 2024 and 2023, the weighted average remaining lease term including the Company's options to extend its operating leases was 66 years and 67 years, respectively.

The following table summarizes future minimum lease payments under non-cancelable ground and other operating leases included in the Company's lease liability as of December 31, 2024 (in thousands):

Year	Amount
2025	\$ 21,514
2026	18,423
2027	18,434
2028	18,489
2029	18,687
Thereafter	738,666
Undiscounted minimum lease payments included in the lease liability	834,213
Less: imputed interest	(526,993)
Present value of lease liability	<u>\$ 307,220</u>

Depreciation Expense

While the Company leases the majority of its property, plant, and equipment to various tenants under operating leases, in certain situations, the Company owns and operates certain property, plant, and equipment for general corporate purposes. Corporate assets are recorded within other assets, net within the Company's Consolidated Balance Sheets and depreciation expense for those assets is recorded in general and administrative expenses in the Company's Consolidated Statements of Operations. As of December 31, 2024 and 2023, the Company had \$38 million and \$39 million of corporate assets, respectively. Also included within other assets, net as of December 31, 2024 and 2023 is \$8 million and \$10 million, respectively, of accumulated depreciation related to corporate assets. Included within general and administrative expenses for the years ended December 31, 2024, 2023, and 2022 is \$2 million, \$3 million, and \$3 million, respectively, of depreciation expense related to corporate assets.

Denver Corporate Headquarters

During the year ended December 31, 2022, the Company recognized \$7 million of charges in connection with the downsizing of the Company's corporate headquarters in Denver, Colorado which are included in general and administrative expenses on the Consolidated Statements of Operations.

Tenant Updates

During the first quarter of 2023, the Company wrote off \$9 million of straight-line rent receivable associated with four in-place operating leases with Sorrento Therapeutics, Inc. ("Sorrento"), which commenced voluntary reorganization proceedings (the "Filing") under Chapter 11 of the U.S. Bankruptcy Code during the period. This write-off was recognized as a reduction in rental and related revenues on the Consolidated Statements of Operations. Subsequent to the write-off, revenue related to this tenant is recognized on a cash basis. Sorrento also had a single development lease with the Company, but had not taken occupancy at the time of the Filing. The Company has filed proofs of claims for damages related to its rejected leases, which include the development lease and three of the four operating leases. The Company filed proofs of claim for related damages during the year ended December 31, 2023, \$4 million of which was received by the Company by drawing on Sorrento's letters of credit and security deposits. These cash proceeds were recognized as lease termination fee income, which is included in rental and related revenues on the Consolidated Statements of Operations. In April 2024, the U.S. Bankruptcy Court approved the assignment and assumption of the remaining operating lease by the buyer of Sorrento's assets. Given the nature of bankruptcy proceedings, the probability, timing, and amount of the additional proceeds, if any, that the Company may ultimately receive in connection with the claims are uncertain. Accordingly, the Company has not recorded any estimated recoveries associated with these claims as of December 31, 2024 or December 31, 2023.

On October 26, 2023, the Company amended its lease with Graphite Bio, Inc., which later merged with LENZ Therapeutics, Inc. in March 2024 ("Graphite Bio"), at one of its lab buildings in South San Francisco, California. Under the terms of the amended lease agreement, Graphite Bio's lease expiration date was accelerated from April 2033 to December 2024 in exchange for an upfront cash payment of \$37 million, comprised of a \$21 million termination fee and \$16 million prepayment of Graphite Bio's contractual rent through the amended term. The \$37 million was recognized as rental and related revenues on the Consolidated Statements of Operations on a straight-line basis through the amended term of the lease.

In July 2024, the Company executed an early lease renewal for approximately 2 million square feet leased by CommonSpirit Health ("CommonSpirit"). The renewal, which is subject to a master agreement, extended the weighted average lease term of existing leases from July 2027 to December 2035, amended the contractual rents to current market rates, and increased the annual contractual lease escalations from 2.5% to 3.0%. In connection with this extension, CommonSpirit was provided the right to reduce the amount of space leased by up to approximately 200,000 square feet at any time after the original lease maturity dates. These termination rights were evaluated for likelihood of exercise in accordance with ASC 842 in the determination of the lease term. During the year ended December 31, 2024, CommonSpirit represented 6% of revenues for the outpatient medical segment and 3% of total revenues.

Lease Income

The following table summarizes the Company's lease income (in thousands):

	Year Ended December 31,		
	2024	2023	2022
Fixed income from operating leases	\$ 1,530,493	\$ 1,236,502	\$ 1,182,463
Variable income from operating leases	556,703	395,303	359,312
Interest income from direct financing leases	—	—	1,168

Direct Financing Leases

2022 Direct Financing Lease Sale

During the first quarter of 2022, the Company sold its remaining hospital under a DFL for \$68 million and recognized a gain on sale of \$23 million, which is included in other income (expense), net on the Consolidated Statements of Operations. Therefore, at December 31, 2024 and 2023, the Company had no leases classified as a DFL.

Operating Leases

Future Minimum Rents

The following table summarizes future minimum lease payments to be received from tenants under non-cancelable operating leases as of December 31, 2024 (in thousands):

Year	Amount
2025	\$ 1,427,402
2026	1,339,275
2027	1,246,068
2028	1,138,062
2029	1,003,394
Thereafter	3,681,731
	<u>\$ 9,835,932</u>

Tenant Purchase Options

Certain leases contain purchase options whereby the tenant may elect to acquire the underlying real estate. Annualized base rent from leases subject to purchase options, summarized by the year the purchase options are exercisable are as follows (dollars in thousands):

Year	Annualized Base Rent ⁽¹⁾	Number of Properties
2025	\$ 16,109	12
2026	19,071	8
2027	8,415	4
2028	16,209	5
2029	6,053	7
Thereafter	22,364	9
	<u>\$ 88,221</u>	<u>45</u>

(1) Represents the most recent month's base rent including additional rent floors annualized for 12 months. Base rent does not include tenant recoveries, additional rents in excess of floors, and non-cash revenue adjustments (i.e., straight-line rents, amortization of market lease intangibles, and deferred revenues).

Lease Costs

The following tables provide information regarding the Company's leases to which it is the lessee, such as corporate offices and ground leases, excluding lease costs related to discontinued operations (dollars in thousands):

Undiscounted minimum lease payments included in the lease liability	<u>834,213</u>
Less: imputed interest	(526,993)
Present value of lease liability	<u>\$ 307,220</u>

Depreciation Expense

While the Company leases the majority of its property, plant, and equipment to various tenants under operating leases, in certain situations, the Company owns and operates certain property, plant, and equipment for general corporate purposes. Corporate assets are recorded within other assets, net within the Company's Consolidated Balance Sheets and depreciation expense for those assets is recorded in general and administrative expenses in the Company's Consolidated Statements of Operations. As of December 31, 2024 and 2023, the Company had \$38 million and \$39 million of corporate assets, respectively. Also included within other assets, net as of December 31, 2024 and 2023 is \$8 million and \$10 million, respectively, of accumulated depreciation related to corporate assets. Included within general and administrative expenses for the years ended December 31, 2024, 2023, and 2022 is \$2 million, \$3 million, and \$3 million, respectively, of depreciation expense related to corporate assets.

Denver Corporate Headquarters

During the year ended December 31, 2022, the Company recognized \$7 million of charges in connection with the downsizing of the Company's corporate headquarters in Denver, Colorado which are included in general and administrative expenses on the Consolidated Statements of Operations.

Tenant Updates

During the first quarter of 2023, the Company wrote off \$9 million of straight-line rent receivable associated with four in-place operating leases with Sorrento Therapeutics, Inc. ("Sorrento"), which commenced voluntary reorganization proceedings (the "Filing") under Chapter 11 of the U.S. Bankruptcy Code during the period. This write-off was recognized as a reduction in rental and related revenues on the Consolidated Statements of Operations. Subsequent to the write-off, revenue related to this tenant is recognized on a cash basis. Sorrento also had a single development lease with the Company, but had not taken occupancy at the time of the Filing. The Company has filed proofs of claims for damages related to its rejected leases, which include the development lease and three of the four operating leases. The Company filed proofs of claim for related damages during the year ended December 31, 2023, \$4 million of which was received by the Company by drawing on Sorrento's letters of credit and security deposits. These cash proceeds were recognized as lease termination fee income, which is included in rental and related revenues on the Consolidated Statements of Operations. In April 2024, the U.S. Bankruptcy Court approved the assignment and assumption of the remaining operating lease by the buyer of Sorrento's assets. Given the nature of bankruptcy proceedings, the probability, timing, and amount of the additional proceeds, if any, that the Company may ultimately receive in connection with the claims are uncertain. Accordingly, the Company has not recorded any estimated recoveries associated with these claims as of December 31, 2024 or December 31, 2023.

On October 26, 2023, the Company amended its lease with Graphite Bio, Inc., which later merged with LENZ Therapeutics, Inc. in March 2024 ("Graphite Bio"), at one of its lab buildings in South San Francisco, California. Under the terms of the amended lease agreement, Graphite Bio's lease expiration date was accelerated from April 2033 to December 2024 in exchange for an upfront cash payment of \$37 million, comprised of a \$21 million termination fee and \$16 million prepayment of Graphite Bio's contractual rent through the amended term. The \$37 million was recognized as rental and related revenues on the Consolidated Statements of Operations on a straight-line basis through the amended term of the lease.

In July 2024, the Company executed an early lease renewal for approximately 2 million square feet leased by CommonSpirit Health ("CommonSpirit"). The renewal, which is subject to a master agreement, extended the weighted average lease term of existing leases from July 2027 to December 2035, amended the contractual rents to current market rates, and increased the annual contractual lease escalations from 2.5% to 3.0%. In connection with this extension, CommonSpirit was provided the right to reduce the amount of space leased by up to approximately 200,000 square feet at any time after the original lease maturity dates. These termination rights were evaluated for likelihood of exercise in accordance with ASC 842 in the determination of the lease term. During the year ended December 31, 2024, CommonSpirit represented 6% of revenues for the outpatient medical segment and 3% of total revenues.

Dec. 31, 2024

Loans Receivable

The following table summarizes the Company's loans receivable (in thousands):

	December 31,	
	2024	2023
Secured loans ⁽¹⁾⁽²⁾	\$ 638,482	\$ 178,678
CCRC resident loans	61,273	42,733
Mezzanine loans ⁽²⁾	50,314	—
Unamortized discounts and fees ⁽³⁾	(22,380)	(131)
Reserve for loan losses	(10,499)	(2,830)
Loans receivable, net	<u>\$ 717,190</u>	<u>\$ 218,450</u>

(1) At December 31, 2024, the Company had \$85 million of remaining commitments to fund additional loans for outpatient medical capital expenditure projects, of which \$49 million related to loans acquired as part of the Merger. At December 31, 2023, the Company had \$29 million of remaining commitments to fund additional loans for senior housing redevelopment and capital expenditure projects. This \$29 million commitment was reduced to zero in February 2024 in conjunction with the refinancing of the Sunrise Senior Housing Portfolio Seller Financing as discussed below.

(2) Includes secured loans and mezzanine loans acquired as part of the Merger (see Note 3).

(3) As of December 31, 2024, includes net unamortized discounts of \$3 million related to the loans receivable acquired as part of the Merger (see Note 3) and an \$18 million unamortized mark-to-market discount related to the Outpatient Medical Seller Financing as discussed below.

During the years ended December 31, 2024, 2023, and 2022, the Company recognized \$40 million, \$22 million, and \$22 million, respectively, of interest income related to loans receivable in interest income and other on the Consolidated Statements of Operations.

The Merger

On March 1, 2024, upon the consummation of the Merger, the Company acquired 9 secured loans with an aggregate outstanding principal balance of \$89 million and 10 mezzanine loans with an aggregate outstanding principal balance of \$36 million, for a total of \$124 million. Typically, each secured loan is secured by a mortgage on a related outpatient medical building, each construction loan (included in secured loans above) is secured by a mortgage on the land and improvements as constructed, generally with guarantees from the borrowers, and each mezzanine loan is collateralized by an ownership interest in the respective borrower. As of the Closing Date, the secured loans had maturities ranging from June 2024 to July 2027 and stated fixed interest rates ranging from 7.00% to 10.00%. The mezzanine loans had maturities ranging from June 2024 to June 2027 and stated fixed interest rates ranging from 8.00% to 10.00%.

As of December 31, 2024, unamortized net discounts on the secured loans and mezzanine loans acquired were \$1 million and \$2 million, respectively. These discounts are recognized in interest income and other on the Consolidated Statements of Operations using the effective interest rate method over the remaining term of the loans.

Sunrise Senior Housing Portfolio Seller Financing

In conjunction with the sale of 32 SHOP facilities for \$664 million in January 2021, the Company provided the buyer with initial financing of \$410 million. The remainder of the sales price was received in cash at the time of sale. Additionally, the Company agreed to provide up to \$92 million of additional financing for capital expenditures (up to 65% of the estimated cost of capital expenditures). The initial and additional financing is secured by the buyer's equity ownership in each property. In June 2023, the interest rate on this secured loan was converted from a variable rate based on the London Interbank Offered Rate ("LIBOR") to a variable rate based on Term Secured Overnight Financing Rate ("SOFR") (plus a 10 basis point adjustment related to SOFR transition).

The Company received partial principal repayments of \$246 million during the year ended December 31, 2021 and \$45 million during the year ended December 31, 2022 in conjunction with dispositions of the underlying collateral. In connection with these principal repayments, the additional financing available was reduced to \$40 million, of which \$11 million had been funded as of December 31, 2023.

In February 2024, this loan reached its maturity and was refinanced with the Company. In connection with the refinancing, the Company received a partial principal repayment of \$69 million and the maturity date was extended to August 2027. The interest rate on the loan remained as Term SOFR (plus a 10 basis point adjustment related to SOFR transition) plus 4.0% for the first two years of the extended term, but increases to 5.0% for the last 18 months of the extended term and is now subject to a fixed floor of 9%. In connection with the refinancing, the additional financing was reduced to \$1 million, all of which was funded in February 2024. Therefore, at December 31, 2024, the Company had no commitment to provide the borrower with additional financing for capital expenditures. In May 2024, the Company received a

partial principal repayment of \$5 million in conjunction with the disposition of the underlying collateral. At December 31, 2024 and 2023, this secured loan had an outstanding principal balance of \$58 million and \$131 million, respectively.

Other SHOP Seller Financing

In conjunction with the sale of 16 additional SHOP facilities for \$230 million in January 2021, the Company provided the buyer with financing of \$150 million. The remainder of the sales price was received in cash at the time of sale. The financing is secured by the buyer’s equity ownership in each property. Upon maturity in January 2023, the borrower did not make the required principal repayment. In February 2023, the borrower made a partial principal repayment of \$102 million, and the remaining balance owed was refinanced with the Company. In connection with the refinance, the maturity date of the loan was extended to January 2024 and the interest rate on the loan was increased to a variable rate based on Term SOFR (plus an 11 basis point adjustment related to SOFR transition) plus 6.0% for the first six months of the extended term, increasing to 7.0% for the last six months of the extended term. The Company also received a \$1 million extension fee in connection with the refinance, which was recognized in interest income through the maturity date of January 2024.

In January 2024, the loan was refinanced with the Company and the maturity date was extended to January 2025. The interest rate on the loan remained as Term SOFR (plus an 11 basis point adjustment related to SOFR transition) plus 7.0%, but is now subject to a fixed floor of 12%. The Company also received a \$1 million extension fee in connection with the refinance, which is recognized in interest income over the remaining term of the loan. At each of December 31, 2024 and 2023, this secured loan had an outstanding principal balance of \$48 million. In January 2025, the Company received full repayment of the outstanding balance of this seller financing.

Outpatient Medical Seller Financing

In conjunction with the sale of 59 outpatient medical buildings for \$674 million in July 2024 and the 2 outpatient medical buildings for \$23 million in November 2024 (see Note 5), the Company provided the buyer with a mortgage loan secured by the real estate sold for \$405 million and \$14 million, respectively. The remainder of the sales price was received in cash at the time of sales. The seller financing has an initial term that matures in July 2026 and includes two 12-month extension options. The interest rate on the seller financing is fixed at 6.0% for the initial term and increases to 6.5% during the optional extension periods. The Company also received a \$1 million loan origination fee in connection with the loan, which is being recognized in interest income over the remaining term of the loan. In connection with this seller financing, the Company reduced the gain on sales of real estate and recognized a mark-to-market discount of \$21 million during the year ended December 31, 2024. This discount is based on the difference between the stated interest rate and the corresponding prevailing market rate as of the transaction date. The discount is recognized as interest income over the term of the discounted loan using the effective interest rate method. During the year ended December 31, 2024, the Company recognized \$3 million of non-cash interest income related to the amortization of this mark-to-market discount.

2025 Other Loans Receivable Transactions

In January 2025, the Company entered into a secured loan to provide up to \$75 million to fund a portion of the acquisition and redevelopment of a lab building on a campus in San Diego, California. The initial term of this secured loan matures in January 2029 and includes one 12-month extension option. The stated fixed interest rate of this secured loan is 8%. Through January 2025, \$28 million has been funded under this agreement.

In January 2025, the Company received full repayment of the outstanding balance of one \$15 million secured loan with an original maturity of July 2027. As a result of this repayment, the \$85 million of remaining commitments as of December 31, 2024 to fund additional loans for outpatient medical capital expenditure projects was reduced to \$67 million.

2024 Other Loans Receivable Transactions

During the year ended December 31, 2024, the Company entered into and funded a \$15 million mezzanine loan with a fixed interest rate of 11.00% and extended the maturity dates of the following: (i) one secured loan with an outstanding balance of \$12 million from June 2024 to June 2025; (ii) one mezzanine loan with an outstanding balance of \$2 million from May 2026 to May 2027; (iii) one mezzanine loan with an outstanding balance of \$2 million from October 2024 to April 2026; and (iv) one mezzanine loan with an outstanding balance of \$1 million from June 2024 to June 2025.

Additionally, during the year ended December 31, 2024, the Company entered into a construction loan agreement to provide up to \$36 million to fund a portion of the construction of an outpatient medical building. This secured loan matures in December 2028 and has a stated fixed interest rate of 8.00%. As of December 31, 2024, there were no fundings under this agreement.

2023 Other Loans Receivable Transactions

In February 2023, the Company received full repayment of the outstanding balance of one \$35 million secured loan.

In April 2023, the Company received full repayment of the outstanding balance of one \$14 million secured loan.

In May 2023, the Company received full repayment of two outstanding secured loans with an aggregate balance of \$12 million.

Also in May 2023, the interest rate on one secured loan with an outstanding balance of \$21 million was converted from a variable rate based on LIBOR to a variable rate based on Term SOFR (plus a 10 basis point adjustment related to SOFR transition). In October 2023, the Company received full repayment of the outstanding balance of this \$21 million secured loan.

2022 Other Loans Receivable Transactions

In May 2022, the Company received full repayment of the outstanding balance of one \$2 million secured loan.

In November 2022, the Company received full repayment of the outstanding balance of one \$1 million mezzanine loan.

In December 2022, the Company extended the maturity dates of four secured loans with an aggregate outstanding balance of \$61 million, originally scheduled to mature in December 2022, by one year to December 2023. In connection with the extensions, the interest rates on the loans were increased to a variable rate based on Term SOFR (plus a 10 basis point adjustment related to SOFR transition) with a floor of 8.5% for the first six months of the extended term, increasing to a floor of 10.5% for the last six months of the extended term. All four of these secured loans were repaid during 2023 as discussed above.

CCRC Resident Loans

For certain residents that qualify, CCRCs may offer to lend residents the necessary funds to satisfy the entrance fee requirements so that they are able to move into a community while still continuing the process of selling their previous home. The loans are due upon sale of the resident’s previous home. At December 31, 2024 and 2023, the Company held \$61 million and \$43 million, respectively, of such notes receivable.

Loans Receivable Internal Ratings

Refer to Note 2 for a discussion of the Company’s quarterly review process over its loans receivable and the related internal ratings process. The following table summarizes, by year of origination, the Company’s internal ratings for loans receivable, net of unamortized discounts, fees, and reserves for loan losses, as of December 31, 2024 (in thousands):

Investment Type	Year of Origination ⁽¹⁾						Total

(1) Additional fundings under existing loans are included in the year of origination of the initial loan.

Reserve for Loan Losses

Refer to Note 2 for a discussion of the Company’s assessment of current expected credit losses for loans receivable and unfunded loan commitments. The following table summarizes the Company’s reserve for loan losses (in thousands):

	December 31, 2024			December 31, 2023		
	Secured Loans	Mezzanine Loans and Other ⁽¹⁾	Total	Secured Loans	Mezzanine Loans and Other ⁽¹⁾	Total
Reserve for loan losses, beginning of period	\$ 2,830	\$ —	\$ 2,830	\$ 8,280	\$ —	\$ 8,280
Provision for expected loan losses on funded loans receivable	2,744	4,925	7,669	2,088	—	2,088
Expected loan losses (recoveries) related to loans sold or repaid	—	—	—	(7,538)	—	(7,538)
Reserve for loan losses, end of period	\$ 5,574	\$ 4,925	\$ 10,499	\$ 2,830	\$ —	\$ 2,830

(1) Includes CCRC resident loans.

Additionally, at December 31, 2024 and 2023, a liability of \$2.9 million and \$0.7 million, respectively, related to expected credit losses for unfunded loan commitments was included in accounts payable, accrued liabilities, and other liabilities.

The change in the reserve for expected loan losses during the year ended December 31, 2024 is primarily due to reserves recognized on secured loans and mezzanine loans receivable acquired as part of the Merger.

Investments in and Advances to Unconsolidated Joint Ventures

The Company owns interests in the following entities that are accounted for under the equity method (dollars in thousands):

Entity ⁽¹⁾	Segment	Property Count ⁽²⁾	Ownership % ⁽²⁾	Carrying Amount		
				December 31,		
				2024	2023	
South San Francisco JVs ⁽³⁾	Lab	7	70	\$ 446,145	\$ 393,374	
SWF SH JV	Other	19	54	322,551	332,693	
Callan Ridge JV	Lab	2	35	69,709	—	
PMAC JV ⁽⁴⁾	Outpatient medical	59	12	32,511	—	
Lab JV	Lab	1	49	29,916	31,761	
Needham Land Parcel JV ⁽⁵⁾	Lab	—	38	21,348	17,084	
Davis JV ⁽⁴⁾	Outpatient medical	15	49	7,435	—	
Outpatient Medical JVs ⁽⁶⁾	Outpatient medical	2	20 - 67	7,199	7,941	
				\$ 936,814	\$ 782,853	

- (1) These entities are not consolidated because the Company does not control, through voting rights or other means, the joint ventures.
(2) Property counts and ownership percentages are as of December 31, 2024.
(3) Includes multiple unconsolidated lab joint ventures in South San Francisco, California in which the Company holds a 70% ownership percentage in each joint venture. These joint ventures have been aggregated herein due to similarity of the investments and operations.
(4) Includes unconsolidated joint ventures acquired as part of the Merger (see Note 3). The properties underlying the PMAC JV are excluded from the Company's total property count.
(5) Land held for development is excluded from the property count as of December 31, 2024.
(6) Includes two unconsolidated outpatient medical joint ventures in which the Company holds an ownership percentage as follows: (i) Ventures IV (20%) and (ii) Suburban Properties, LLC (67%). In April 2023, the Company acquired the remaining 80% interest in one of the two properties that were in the Ventures IV unconsolidated joint venture for \$4 million (see Note 4). These joint ventures have been aggregated herein due to similarity of the investments and operations.

At December 31, 2024 and 2023, the aggregate unamortized basis difference of the Company's investments in unconsolidated joint ventures of \$42 million and \$49 million, respectively, is primarily attributable to the difference between the amount for which the Company purchased its interest in certain joint ventures and the historical carrying value of the net assets of the related joint ventures and capitalized interest related to the redevelopment activities at the South San Francisco JVs. The differences are amortized over the remaining useful lives of the related assets and are included in equity income (loss) from unconsolidated joint ventures.

South San Francisco JVs

On August 1, 2022, the Company sold a 30% interest in seven lab buildings in South San Francisco, California to a sovereign wealth fund ("SWF Partner") for cash of \$126 million. Following this transaction, the Company and the SWF Partner share in key decisions of the assets through their voting rights, resulting in the Company deconsolidating the assets, recognizing its retained 70% investment in the South San Francisco joint ventures (the "South San Francisco JVs") at fair value, and accounting for its investment using the equity method. The fair values of the Company's retained investment were based on a market approach, utilizing an agreed-upon contractual sales price, which is considered to be a Level 3 measurement within the fair value hierarchy. During the year ended December 31, 2022, the Company recognized a gain upon change of control of \$311 million, which is recorded in other income (expense), net.

The Company is entitled to a preferred return, a promote, and certain fees in exchange for development and asset management services provided to the South San Francisco JVs when certain conditions are met.

Callan Ridge JV

In January 2024, the Company sold a 65% interest in two lab buildings in San Diego, California (the "Callan Ridge JV") to a third-party (the "JV Partner") for net proceeds of \$128 million. Following the transaction, the Company and the JV Partner share in key decisions of the assets through their voting rights, resulting in the Company deconsolidating the assets, recognizing its retained 35% investment in the Callan Ridge JV at fair value, and accounting for its investment using the equity method. The fair value of the Company's retained investment was based on a market approach, utilizing an agreed-upon contractual sales price, which is considered to be a Level 3 measurement within the fair value hierarchy. During the year ended December 31, 2024, the Company recognized a gain upon change of control of \$78 million, which is recorded in other income (expense), net.

Intangibles

Intangibles [Abstract]

Intangibles

Intangibles

Intangible assets primarily consist of lease-up intangibles and above market lease intangibles. The following table summarizes the Company's intangible lease assets (dollars in thousands):

Intangible lease assets	December 31,	
	2024	2023
Gross intangible lease assets ⁽¹⁾	\$ 1,468,985	\$ 739,228
Accumulated depreciation and amortization ⁽²⁾	(651,731)	(425,072)
Intangible assets, net	\$ 817,254	\$ 314,156

Weighted average remaining amortization period in years

	5	5

- (1) As of December 31, 2024 and 2023, includes \$1.42 billion and \$725 million, respectively, of gross lease-up intangibles and \$45 million and \$14 million, respectively, of gross above market lease intangibles.
(2) As of December 31, 2024 and 2023, includes \$640 million and \$418 million, respectively, of accumulated depreciation and amortization on lease-up intangibles and \$12 million and \$7 million, respectively, of accumulated depreciation and amortization on above market lease intangibles.

Intangible liabilities consist of below market lease intangibles. The following table summarizes the Company's intangible lease liabilities (dollars in thousands):

Intangible lease liabilities	December 31,	
	2024	2023
Gross intangible lease liabilities	\$ 351,602	\$ 228,105
Accumulated depreciation and amortization	(159,718)	(100,725)
Intangible liabilities, net	\$ 191,884	\$ 127,380

Weighted average remaining amortization period in years

	9	7

The following table sets forth amortization related to intangible assets, net and intangible liabilities, net (in thousands):

	Year Ended December 31,		
	2024	2023	2022
Depreciation and amortization expense related to amortization of lease-up intangibles	\$ 273,146	\$ 102,249	\$ 104,885
Rental and related revenues related to amortization of net below market lease liabilities	62,894	27,012	24,640

On the Closing Date of the Merger, the Company acquired intangible assets of \$891 million, inclusive of \$852 million of lease-up intangibles and \$39 million of above market lease intangibles. Also on the Closing Date of the Merger, the Company assumed intangible liabilities of \$150 million (see Note 3). The intangible assets and liabilities acquired had a weighted average amortization period at acquisition of 6 years and 9 years, respectively.

During the year ended December 31, 2023, in conjunction with the Company's acquisition of real estate, the Company acquired \$0.5 million of intangible assets with a weighted average amortization period at acquisition of 5 years.

The following table summarizes the estimated annual amortization for each of the five succeeding fiscal years and thereafter (in thousands):

	Rental and Related Revenues	Depreciation and Amortization
2025	\$ 32,618	\$ 256,925
2026	29,231	171,520
2027	23,304	107,925
2028	17,899	77,072
2029	13,168	53,829
Thereafter	42,816	117,135
	\$ 159,036	\$ 784,406

Goodwill

On the Closing Date of the Merger, inclusive of measurement period adjustments, the Company recognized goodwill of \$51 million, which was allocated to the Company's outpatient medical segment (see Note 3). Goodwill is included in other assets, net on the Consolidated Balance Sheets. At December 31, 2024 and 2023, goodwill was allocated to the Company's segment assets as follows (in thousands):

Segment	December 31, 2024	December 31, 2023
Outpatient medical	\$ 64,680	\$ 14,178
CCRC	1,998	1,998
Other non-reportable	1,851	1,851
	\$ 68,529	\$ 18,027

During the years ended December 31, 2024, 2023, and 2022, the fair value of the assets within each of the Company's reporting units was greater than the respective carrying value of the assets and related goodwill, and as a result, no impairment charges were recognized.

Debt

Debt Disclosure [Abstract]

Debt

Debt

Healthpeak OP, the Company's consolidated operating subsidiary, is the borrower under, and the Company, DOC DR Holdco, and DOC DR OP Sub are the guarantors of, the Revolving Facility, 2027 Term Loans, 2029 Term Loan, Commercial Paper Program (each as defined below), and senior unsecured notes issued by the Company prior to the Merger. DOC DR OP Sub is the borrower under, and the Company, Healthpeak OP, and DOC DR Holdco are guarantors of, the 2028 Term Loan (as defined below) and senior unsecured notes issued by the Physicians Partnership prior to, and assumed by the Company as part of, the Merger. Guarantees of senior unsecured notes are full and unconditional and applicable to existing and future senior unsecured notes.

The Merger

On March 1, 2024, upon the consummation of the Merger, the Company assumed senior unsecured term loans in an aggregate principal amount of \$400 million (the "2028 Term Loan") that mature in May 2028 (see Note 3) pursuant to an amendment to a term loan agreement originally executed by the Physicians Partnership, as borrower, and the other parties thereto. DOC DR OP Sub is the borrower under, and the Company, Healthpeak OP, and DOC DR Holdco are guarantors of, the 2028 Term Loan.

In connection with the assumption of the 2028 Term Loan, the Company acquired three related interest rate swap instruments that were redesignated as cash flow hedges as of the Closing Date. The 2028 Term Loan associated with these interest rate swap instruments is reported as fixed rate debt due to the Company having effectively established a fixed interest rate for the underlying debt instruments. Based on DOC DR OP Sub's credit ratings as of December 31, 2024, the 2028 Term Loan had a blended fixed effective interest rate of 4.44%, inclusive of the impact of these interest rate swap instruments and amortization of the related premium. See also Note 22 for a discussion of the impact of the related interest rate swap instruments.

Loans outstanding under the 2028 Term Loan bear interest at an annual rate equal to (i) the applicable margin, plus (ii) Daily SOFR (plus a 10 basis point adjustment related to SOFR transition). The applicable margin under the 2028 Term Loan ranges from 0.85% to 1.65% for Daily SOFR loans and is based on the credit ratings of DOC DR OP Sub. Based on the Company's credit ratings as of December 31, 2024, and inclusive of the adjustment related to SOFR transition, the margin on the 2028 Term Loan was 1.00%.

Additionally, on March 1, 2024, concurrently with the consummation of the Merger, DOC DR OP Sub assumed, and the Company and Healthpeak OP guaranteed, Physicians Partnership's \$1.25 billion aggregate principal of senior unsecured notes (see Note 3), including: (i) \$400 million aggregate principal amount of 4.30% senior unsecured notes due 2027, (ii) \$350 million aggregate principal amount of 3.95% senior unsecured notes due 2028, and (iii) \$500 million aggregate principal amount of 2.63% senior unsecured notes due 2031. On the Closing Date, the Company capitalized \$1 million of costs paid to the bondholders, which are being amortized into interest expense on the Consolidated Statements of Operations over the terms of the related senior unsecured notes. The senior unsecured notes contain certain

covenants that are consistent with Healthpeak OP's previously issued senior unsecured notes, as further described below.

Lastly, on March 1, 2024, concurrently with the consummation of the Merger, the Company assumed \$128 million aggregate principal of mortgage debt (see Note 3), which was secured by five outpatient medical buildings, with an aggregate carrying value of \$259 million as of March 1, 2024. Of this \$128 million, \$59 million was fixed rate debt with a weighted average contractual interest rate of 3.77% and maturities ranging from November 2024 through December 2026 and \$69 million was variable rate debt with a weighted average contractual interest rate of 7.25% and maturities ranging from December 2026 through November 2028. The Company recognized a net discount of \$0.5 million on the \$128 million aggregate principal of mortgage debt assumed on the Closing Date, which is being amortized into interest expense on the Consolidated Statements of Operations using the effective interest rate method. The Company acquired one related interest rate swap instrument with a notional amount of \$36 million of variable rate mortgage debt that was redesignated as a cash flow hedge as of the Closing Date (see Note 22), which matured in October 2024.

Bank Line of Credit and Term Loans

Revolving Facility

On May 23, 2019, the Company executed a \$2.5 billion unsecured revolving line of credit facility, with a maturity date of May 23, 2023 and two six-month extension options, subject to certain customary conditions. In September 2021, the Company executed an amended and restated unsecured revolving line of credit (the "Revolving Facility") to increase total revolving commitments from \$2.5 billion to \$3.0 billion and extend the maturity date to January 20, 2026 with two six-month extension options, subject to certain customary conditions. On February 10, 2023, the Company executed an amendment to the Revolving Facility to convert the interest rate benchmark from LIBOR to SOFR. On March 1, 2024, concurrently with the consummation of the Merger, the Company executed an amendment to the Revolving Facility to, among other things, join DOC DR Holdco and DOC DR OP Sub as guarantors of Healthpeak OP's obligations under the Revolving Facility. In December 2024, the Company amended and restated its Revolving Facility to extend the maturity date to January 19, 2029. This maturity date may be further extended pursuant to two six-month extension options, subject to certain customary conditions. Borrowings under the Revolving Facility accrue interest at the applicable interest rate benchmark plus a margin that depends on the credit ratings of the Company's senior unsecured long-term debt. The Company also pays a facility fee on the entire revolving commitment that depends on its credit ratings. Based on the Company's credit ratings at December 31, 2024, and inclusive of a 10 basis point adjustment related to SOFR transition, the margin on the Revolving Facility was 0.88% and the facility fee was 0.15%. The Revolving Facility includes a feature that allows the Company to increase the borrowing capacity by an aggregate amount of up to \$750 million, subject to securing additional commitments. At each of December 31, 2024 and 2023, the Company had no balance outstanding under the Revolving Facility.

Term Loan Agreement

On August 22, 2022, the Company executed a term loan agreement (as amended or modified as described herein, the "Term Loan Agreement") that provided for two senior unsecured delayed draw term loans in an aggregate principal amount of up to \$500 million (the "2027 Term Loans"). The 2027 Term Loans were available to be drawn from time to time during a 180-day period after closing, subject to customary borrowing conditions, and the Company drew the entirety of the \$500 million under the 2027 Term Loans in October 2022. \$250 million of the 2027 Term Loans have an initial stated maturity of 4.5 years, which may be extended for a one-year period subject to certain customary conditions. The other \$250 million of the 2027 Term Loans has a stated maturity of five years with no option to extend.

Loans outstanding under the 2027 Term Loans accrue interest at Term SOFR plus a margin that depends on the credit ratings of the Company's senior unsecured long-term debt. The 2027 Term Loans also include a sustainability-linked pricing component whereby the applicable margin under the 2027 Term Loans may be reduced by 0.01% based on the Company's achievement of specified sustainability-linked metrics. Based on the Company's credit ratings as of December 31, 2024, and inclusive of achievement of a sustainability-linked metric and an adjustment related to SOFR transition, the margin on the 2027 Term Loans was 0.94%.

In August 2022, the Company entered into two forward-starting interest rate swap instruments that are designated as cash flow hedges (see Note 22). The 2027 Term Loans associated with these interest rate swap instruments are reported as fixed rate debt due to the Company having effectively established a fixed interest rate for the underlying debt instruments. Based on the Company's credit ratings as of December 31, 2024, the 2027 Term Loans had a blended fixed effective interest rate of 3.76%, inclusive of the impact of these interest rate swap instruments and amortization of the related debt issuance costs.

On March 1, 2024, concurrently with the consummation of the Merger, the Company executed an amendment to the Term Loan Agreement pursuant to which (i) the maximum incremental borrowing capacity under the Term Loan Agreement was increased from \$1.0 billion to \$1.5 billion, subject to securing additional commitments, (ii) the Company borrowed senior unsecured term loans in an aggregate principal amount of \$750 million with a stated maturity of five years (the "2029 Term Loan"), and (iii) DOC DR Holdco and DOC DR OP Sub were joined as guarantors of Healthpeak OP's obligations under the Term Loan Agreement. As of December 31, 2024, the unused borrowing capacity under the Term Loan Agreement was \$250 million.

Loans outstanding under the 2029 Term Loan accrue interest at Daily SOFR plus a margin that depends on the credit ratings of the Company's senior unsecured long-term debt. Based on the Company's credit ratings as of December 31, 2024, and inclusive of an adjustment related to SOFR transition, the margin on the 2029 Term Loan was 0.95%.

In January 2024, the Company entered into forward-starting interest rate swap instruments that are designated as cash flow hedges (see Note 22). The 2029 Term Loan associated with these interest rate swaps is reported as fixed rate debt due to the Company having effectively established a fixed interest rate for the underlying debt instruments. Based on the Company's credit ratings as of December 31, 2024, the 2029 Term Loan had a blended fixed effective interest rate of 4.66%, inclusive of the impact of these interest rate swap instruments and amortization of the related debt issuance costs.

At December 31, 2024 and 2023, the Company had \$1.25 billion and \$500 million, respectively, of loans outstanding under the Term Loan Agreement.

The Revolving Facility, 2027 Term Loans, 2028 Term Loan, and 2029 Term Loan are subject to certain financial restrictions and other customary requirements, including financial covenants and cross-default provisions to other indebtedness. Among other things, these covenants, using terms defined in the applicable agreement: (i) limit the ratio of Enterprise Total Indebtedness to Enterprise Gross Asset Value to 60%; (ii) limit the ratio of Enterprise Secured Debt to Enterprise Gross Asset Value to 40%; (iii) limit the ratio of Enterprise Unsecured Debt to Enterprise Unencumbered Asset Value to 60%; (iv) require a minimum Fixed Charge Coverage ratio of 1.5 times; and (v) require a minimum Consolidated Tangible Net Worth of \$7.7 billion. The Company believes it was in compliance with each of these covenants at December 31, 2024.

Commercial Paper Program

In September 2019, the Company established an unsecured commercial paper program (the "Commercial Paper Program"). Under the terms of the Commercial Paper Program, the Company may issue, from time to time, short-term unsecured notes with varying maturities. Amounts available under the Commercial Paper Program may be borrowed, repaid, and re-borrowed from time to time. At each of December 31, 2024 and 2023, the maximum aggregate face or principal amount that could be outstanding at any one time was \$2.0 billion. Amounts borrowed under the Commercial Paper Program will be sold on terms that are customary for the U.S. commercial paper market and will be at least equal in right of payment with all of the Company's other unsecured and unsubordinated indebtedness. The Company uses its Revolving Facility as a liquidity backstop for the repayment of short-term unsecured notes issued under the Commercial Paper Program. During each of the years ended December 31, 2024, 2023, and 2022, the Company recognized \$9 million of interest expense related to fees and amortization of debt issuance costs related to its Commercial Paper Program and Revolving Facility. At December 31, 2024, the Company had \$150 million of notes outstanding under the Commercial Paper Program, with original maturities of approximately 25 days and a weighted average interest rate of 4.65%. At December 31, 2023, the Company had \$720 million of notes outstanding under the Commercial Paper Program, with original maturities of approximately 37 days and a weighted average interest rate of 5.70%.

Senior Unsecured Notes

At December 31, 2024 and 2023, the Company had senior unsecured notes outstanding with an aggregate principal balance of \$6.7 billion and \$5.5 billion, respectively. The senior unsecured notes contain certain covenants including limitations on debt, maintenance of unencumbered assets, cross-acceleration provisions, and other customary terms. The Company believes it was in compliance with these covenants at December 31, 2024.

During the year ended December 31, 2024, there were no issuances, repurchases, or redemptions of senior unsecured notes; however, as described above, concurrently with the consummation of the Merger, the Company assumed \$1.25 billion aggregate principal of senior unsecured notes.

The following table summarizes the Company's senior unsecured note issuances for the year ended December 31, 2023 (dollars in thousands):

Issue Date	Amount	Coupon Rate	Maturity Year
January 17, 2023	\$ 400,000	5.25 %	2032
May 10, 2023 ⁽¹⁾	350,000	5.25 %	2032

(1) In May 2023, the Company issued \$350 million of 5.25% senior unsecured notes due 2032, which constituted an additional issuance of, and are treated as a single series with, the \$400 million of senior unsecured notes due 2032 issued in January 2023.

During the year ended December 31, 2023, there were no repurchases or redemptions of senior unsecured notes. During the year ended December 31, 2022, there were no issuances, repurchases, or redemptions of senior unsecured notes.

In February 2025, the Company repaid \$348 million aggregate principal amount of 3.40% senior unsecured notes at maturity.

Mortgage Debt

At December 31, 2024 and 2023, the Company had \$356 million and \$255 million, respectively, in aggregate principal of mortgage debt outstanding. At December 31, 2024, this mortgage debt was secured by 19 outpatient medical buildings and 2 CCRCs, with an aggregate carrying value of \$770 million. At December 31, 2023, this mortgage debt was secured by 15 outpatient medical buildings and 2 CCRCs, with an aggregate carrying value of \$587 million.

Mortgage debt generally requires monthly principal and interest payments, is collateralized by real estate assets, and is non-recourse. Mortgage debt typically requires maintenance of the assets in good condition, includes conditions to obtain lender consent to enter into or terminate material leases, requires insurance on the assets, requires payment of real estate taxes, restricts transfer of the encumbered assets and repayment of the loan, and prohibits additional liens. Some of the mortgage debt may require tenants or operators to maintain compliance with the applicable leases or operating agreements of such real estate assets.

During the years ended December 31, 2024, 2023, and 2022, the Company made aggregate principal repayments of mortgage debt of \$27 million, \$90 million, and \$5 million, respectively (excluding mortgage debt on assets held for sale and discontinued operations). Included in the \$27 million of aggregate principal payments of mortgage debt for the year ended December 31, 2024 was a \$23 million full principal repayment of mortgage debt secured by one outpatient medical building acquired as part of the Merger that matured in November 2024. Included in the \$90 million of aggregate principal repayments of mortgage debt for the year ended December 31, 2023 was an \$85 million full principal repayment of mortgage debt secured by one CCRC that matured in December 2023.

The Company has \$142 million of mortgage debt secured by a portfolio of 13 outpatient medical buildings that matures in May 2026. In April 2022, the Company terminated its existing interest rate cap instruments associated with this variable rate mortgage debt and entered into two interest rate swap instruments that are designated as cash flow hedges and mature in May 2026. In February 2023, the agreements associated with this variable rate mortgage debt were amended to change the interest rate benchmarks from LIBOR to SOFR, effective March 2023. Concurrently, the Company modified the related interest rate swap instruments to reflect the change in the interest rate benchmarks from LIBOR to SOFR (see Note 22). The variable rate mortgage debt associated with these interest rate swap instruments is reported as fixed rate debt due to the Company having effectively established a fixed interest rate for the underlying debt instrument.

Debt Maturities

The following table summarizes the Company's stated debt maturities and scheduled principal repayments at December 31, 2024 (dollars in thousands):

Year	Bank Line of Credit ⁽¹⁾	Commercial Paper ⁽¹⁾⁽²⁾	Term Loans	Senior Unsecured Notes ⁽³⁾		Mortgage Debt ⁽⁴⁾		Total
				Amount	Interest Rate ⁽⁵⁾	Amount	Interest Rate ⁽⁵⁾	
2025	\$ —	\$ —	\$ —	\$ 800,000	3.92 %	\$ 7,432	6.28 %	\$ 807,432
2026	—	—	—	650,000	3.40 %	344,999	5.13 %	994,999
2027	—	—	500,000	850,000	3.23 %	842	5.59 %	1,350,842
2028	—	—	400,000	850,000	3.53 %	2,775	5.34 %	1,252,775
2029	—	150,000	750,000	650,000	3.65 %	—	—	1,550,000
Thereafter	—	—	—	2,900,000	4.51 %	—	—	2,900,000
	—	150,000	1,650,000	6,700,000		356,048		8,856,048
Premiums, (discounts), and debt issuance costs, net	—	—	(3,957)	(136,744)		702		(139,999)
	\$ —	\$ 150,000	\$ 1,646,043	\$ 6,563,256		\$ 356,750		\$ 8,716,049

(1) As of December 31, 2024, total unamortized debt issuance costs for the Revolving Facility and Commercial Paper Program were \$18 million, which are recorded in other assets, net on the Consolidated Balance Sheets.

(2) Commercial Paper Program borrowings are backstopped by the availability under the Revolving Facility. As such, the Company calculates the weighted average remaining term of its Commercial Paper Program borrowings using the maturity date of the Revolving Facility.

(3) Effective interest rates on the senior unsecured notes range from 1.54% to 6.87% with a weighted average effective interest rate of 3.96% and a weighted average maturity of approximately 5 years.

(4) Effective interest rates on the mortgage debt range from 3.44% to 8.50% with a weighted average effective interest rate of 5.16% and a weighted average maturity of approximately 2 years. These interest rates include the impact of designated interest rate swap instruments, which effectively fix the interest rate on certain variable rate debt.

(5) Represents the weighted-average effective interest rate as of the end of the applicable period, including amortization of debt premiums (discounts) and debt issuance costs.

Dec. 31, 2024**

costs as they are incurred.

DownREITs and Other Partnerships

In connection with the formation of DownREITs, members may contribute appreciated real estate to a DownREIT in exchange for DownREIT units. These contributions are generally tax-deferred, so that the pre-contribution gain related to the property is not taxed to the member. However, if a contributed property is later sold by the DownREIT, the unamortized pre-contribution gain that exists at the date of sale is specifically allocated and taxed to the contributing members. In many of the DownREITs, the Company has entered into indemnification agreements with those members who contributed appreciated property into the DownREIT. Under these indemnification agreements, if any of the appreciated real estate contributed by the members is sold by the DownREIT in a taxable transaction within a specified number of years, the Company will reimburse the affected members for the federal and state income taxes associated with the pre-contribution gain that is specially allocated to the affected member under the Internal Revenue Code ("make-whole payments"). These make-whole payments include a tax gross-up provision. As of December 31, 2024, the Company had indemnification agreements on a total of 41 properties within its DownREITs. In January 2025, indemnification agreements on 13 properties expired.

Additionally, the Company owns a 49% interest in the Lab JV (see Note 9). If the property in the joint venture is sold in a taxable transaction, the Company is generally obligated to indemnify its joint venture partner for its federal and state income taxes associated with the gain that existed at the time of the contribution to the joint venture.

Commitments

The following table summarizes the Company's material commitments, excluding obligations as the lessee under operating leases (see Note 7), commitments to fund additional loans for outpatient medical capital expenditure projects (see Note 8), debt service obligations (see Note 11), and potential future obligations related to redeemable noncontrolling interests (see Note 13) at December 31, 2024 (in thousands):

	Amount
Development and redevelopment commitments ⁽¹⁾	\$ 199,139
Lease and other contractual commitments ⁽²⁾	84,654
Letters of credit ⁽³⁾	11,929
	<u>\$ 295,722</u>

- (1) Represents construction and other commitments as of December 31, 2024 for developments and redevelopments in progress and includes allowances for Company-owned tenant improvements that the Company has provided as a lessor.
(2) Represents the Company's commitments, as lessor, under signed leases and contracts for operating properties as of December 31, 2024 and includes allowances for Company-owned tenant improvements and leasing commissions. Excludes allowances for Company-owned tenant improvements related to developments and redevelopments in progress for which the Company has executed an agreement with a general contractor to complete the tenant improvements (recognized in the "Development and redevelopment commitments" line).
(3) Represents 15 outstanding letter of credit obligations expiring in 2025 and one outstanding letter of credit obligation expiring in 2026.

Environmental Costs

Various environmental laws govern certain aspects of the ongoing management and operation of our facilities, including those related to presence of asbestos-containing materials. The presence of, or the failure to manage and/or remediate, such materials may adversely affect the occupancy and performance of the Company's facilities. The Company monitors its properties for the presence of such hazardous or toxic substances and is not aware of any environmental liability with respect to the properties that would have a material adverse effect on the Company's business, financial condition, or results of operations. The Company carries environmental insurance and believes that the policy terms, conditions, limitations, and deductibles are adequate and appropriate under the circumstances, given the relative risk of loss, the cost of such coverage, and current industry practice.

General Uninsured Losses

The Company obtains various types of insurance to mitigate the impact of property, business interruption, liability, workers' compensation, flood, windstorm, earthquake, environmental, cyber, and terrorism related losses. The Company attempts to obtain appropriate policy terms, conditions, limits, and deductibles considering the relative risk of loss, the cost of such coverage, and current industry practice. There are, however, certain types of extraordinary losses, such as those due to acts of war or other events that may be either uninsurable or not economically insurable. In addition, the Company has a large number of properties that are exposed to earthquake, flood, and windstorm occurrences for which the related insurances carry high deductibles and have limits.

Equity and Redeemable Noncontrolling Interests

Dividends

On February 3, 2025, the Company's Board of Directors declared a quarterly common stock cash dividend of \$0.305 per share, reflecting an increase from \$0.30 to \$0.305 per share. The common stock cash dividend will be paid on February 26, 2025 to stockholders of record as of the close of business on February 14, 2025.

During each of the years ended December 31, 2024, 2023, and 2022, the Company declared and paid common stock cash dividends of \$1.20.

Issuance of Common Stock in Connection with the Merger

Pursuant to the terms set forth in the Merger Agreement, on the Closing Date, each outstanding share of Physicians Realty Trust (other than Physicians Realty Trust common shares that were canceled in accordance with the Merger Agreement) automatically converted into the right to receive 0.674 shares of the Company's common stock. Based on the number of outstanding Physicians Realty Trust common shares as of the Closing Date, the Company issued 162 million shares of common stock. Refer to Note 3 for additional information regarding the Merger.

At-The-Market Equity Offering Program

In February 2023, in connection with the Reorganization, the Company terminated the previous at-the-market equity offering program (as amended from time to time, the "2020 ATM Program") and established a new at-the-market equity offering program (the "2023 ATM Program" and, together with the 2020 ATM Program, the "ATM Programs"). The 2023 ATM Program was amended in March 2024 to contemplate the sale of the remaining shares of common stock pursuant to the Company's Registration Statement on Form S-3 filed with the SEC on February 8, 2024. The ATM Programs allow for the sale of shares of common stock having an aggregate gross sales price of up to \$1.5 billion (i) by the Company through a consortium of banks acting as sales agents or directly to the banks acting as principals or (ii) by a consortium of banks acting as forward sellers on behalf of any forward purchasers pursuant to a forward sale agreement (each, an "ATM forward contract"). The use of ATM forward contracts allows the Company to lock in a share price on the sale of shares at the time the ATM forward contract becomes effective, but defer receiving the proceeds from the sale of shares until a later date.

ATM forward contracts generally have a one- to two-year term. At any time during the term, the Company may settle a forward sale by delivery of physical shares of common stock to the forward seller or, at the Company's election, in cash or net shares. The forward sale price the Company expects to receive upon settlement of outstanding ATM forward contracts will be the initial forward price established upon the effective date, subject to adjustments for: (i) accrued interest, (iii) the forward purchasers' stock borrowing costs, and (iii) certain fixed price reductions during the term of the ATM forward contract.

At December 31, 2024, \$1.5 billion of the Company's common stock remained available for sale under the 2023 ATM Program.

ATM Forward Contracts

During the year ended December 31, 2021, the Company utilized the forward provisions under the 2020 ATM Program to allow for the sale of an aggregate of 9.1 million shares of its common stock at an initial weighted average net price of \$35.25 per share, after commissions. In December 2022, the Company settled all 9.1 million shares previously outstanding under ATM forward contracts at a weighted average net price of \$34.01 per share, after commissions, resulting in net proceeds of \$308 million. During the years ended December 31, 2024, 2023, and 2022 the Company did not utilize the forward provisions under the ATM Programs.

ATM Direct Issuances

During each of the years ended December 31, 2024, 2023, and 2022, there were no direct issuances of shares of common stock under the ATM Programs.

Share Repurchase Programs

On August 1, 2022, the Company's Board of Directors approved a share repurchase program under which the Company could acquire shares of its common stock in the open market up to an aggregate purchase price of \$500 million (the "2022 Share Repurchase Program"). Purchases of common stock under the 2022 Share Repurchase Program could be exercised at the Company's discretion with the timing and number of shares repurchased depending on a variety of factors, including price, corporate and regulatory requirements, and other corporate liquidity requirements and priorities. Under Maryland General Corporation Law, outstanding shares of common stock acquired by a corporation become authorized but unissued shares, which may be re-issued. During the year ended December 31, 2022, the Company repurchased 2.1 million shares of its common stock under the 2022 Share Repurchase Program at a weighted average price of \$27.16 per share for a total of \$56 million. During the year ended December 31, 2023, there were no repurchases under the 2022 Share Repurchase Program. During the year ended December 31, 2024, the Company repurchased 10.5 million shares of its common stock under the 2022 Share Repurchase Program at a weighted average price of \$17.98 per share for a total of \$188 million.

On July 24, 2024, the Company's Board of Directors approved a new share repurchase program (the "2024 Share Repurchase Program") to supersede and replace the 2022 Share Repurchase Program. Upon adoption of the 2024 Share Repurchase Program, no further share repurchases may be made pursuant to the 2022 Share Repurchase Program. Under the 2024 Share Repurchase Program, the Company may acquire shares of its common stock in the open market or other similar purchase techniques (including in compliance with the safe harbor provisions of Rule 10b-18 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or pursuant to one or more plans adopted under Rule 10b5-1 promulgated under the Exchange Act), up to an aggregate purchase price of \$500 million. Purchases of common stock under the 2024 Share Repurchase Program may be exercised at the Company's discretion with the timing and number of shares repurchased depending on a variety of factors, including price, corporate and regulatory requirements, and other corporate liquidity requirements and priorities. The 2024 Share Repurchase Program expires in July 2026 and may be suspended or terminated at any time without prior notice. As of December 31, 2024, no shares have been repurchased under the 2024 Share Repurchase Program. Therefore, at December 31, 2024, \$500 million of the Company's common stock remained available for repurchase under the 2024 Share Repurchase Program.

Other Common Stock Activities

The following table summarizes the Company's other common stock activities (in thousands):

	Year Ended December 31,		
	2024	2023	2022
Dividend reinvestment and stock purchase plan	\$ 57	\$ 70	\$ 59
Conversion of DownREIT units	256	72	27
Vesting of restricted stock units	377	613	820
Repurchase of common stock	10,592	241	2,418

Accumulated Other Comprehensive Income (Loss)

The following table summarizes the Company's accumulated other comprehensive income (loss) (in thousands):

	December 31,	
	2024	2023
Unrealized gains (losses) on derivatives, net	\$ 30,707	\$ 21,245
Supplemental Executive Retirement Plan minimum liability	(1,889)	(1,874)
Total accumulated other comprehensive income (loss)	<u>\$ 28,818</u>	<u>\$ 19,371</u>

The Company has a defined benefit pension plan, known as the Supplemental Executive Retirement Plan, with one plan participant, a former Chief Executive Officer ("CEO") of the Company who departed in 2003. Changes to the Supplemental Executive Retirement Plan minimum liability are reflected in other comprehensive income (loss).

Noncontrolling Interests

Redeemable Noncontrolling Interests

Arrangements with noncontrolling interest holders are assessed for appropriate balance sheet classification based on the redemption and other rights held by the noncontrolling interest holder. Certain of the Company's noncontrolling interest holders have the ability to put their equity interests to the Company upon specified events or after the passage of a predetermined period of time (the "Option Requirements"). Each put option is payable in cash and subject to changes in redemption value in the event that the underlying property generates specified returns for the Company and meets certain promote thresholds pursuant to the respective agreements. Accordingly, the Company records redeemable noncontrolling interests outside of permanent equity and presents the redeemable noncontrolling interests at the greater of their carrying amount or redemption value at the end of each reporting period. In addition to the rights of the redeemable noncontrolling interest holders, once the Option Requirements have been met, the Company has the ability to buy out the interests of the noncontrolling interest holders. The values of the redeemable noncontrolling interests are subject to change based on the assessment of redemption value at each redemption date.

On March 1, 2024, concurrently with the consummation of the Merger, the Company assumed one redeemable noncontrolling interest, which had not yet met the conditions for redemption as of December 31, 2024. This interest will become redeemable in September 2025.

In April 2024, the Company exercised its option to buy out four redeemable noncontrolling interests that met the criteria for redemption. Accordingly, during the year ended December 31, 2024, the Company made aggregate cash payments for the total redemption value of \$53 million to the related noncontrolling interest holders and acquired the redeemable noncontrolling interests associated with the entities.

Healthpeak OP

Immediately following the Reorganization, Healthpeak Properties, Inc. was the initial sole member and 100% owner of Healthpeak OP. Subsequent to the Reorganization, OP Unitholders were issued approximately 2 million OP Units during the year ended December 31, 2023, all of which were LTIP Units (as defined in Note 15). During the year ended December 31, 2024, OP Unitholders were issued approximately 2 million OP Units, all of which were LTIP Units. When certain conditions are met, the OP Unitholders have the right to require redemption of part or all of their OP Units for cash or shares of the Company's common stock, at the Company's option as managing member of Healthpeak OP. The per unit redemption amount is equal to either one share of the Company's common stock or cash equal to the fair value of a share of common stock at the time of redemption. The Company classifies the OP Units in permanent equity because it may elect, in its sole discretion, to issue shares of its common stock to OP Unitholders who choose to redeem their OP Units rather than using cash. As of December 31, 2024, there were approximately 3 million OP Units outstanding and 76 thousand had met the criteria for redemption. As of December 31, 2023, there were approximately 2 million OP Units outstanding, none of which had met the criteria for redemption.

DownREITs

The non-managing member units of the Company's DownREITs are exchangeable for an amount of cash approximating the then-current market value of shares of the Company's common stock or, at the Company's option, shares of the Company's common stock (subject to certain adjustments, such as stock splits and reclassifications). Upon exchange of DownREIT units for the Company's common stock, the carrying amount of the DownREIT units is reclassified to stockholders' equity. At December 31, 2024, there were approximately 11 million DownREIT units (14 million shares of Healthpeak common stock are issuable upon conversion) outstanding in eight DownREIT LLCs, for all of which the Company holds a controlling interest and/or acts as the managing member. At December 31, 2024, the carrying value of the 11 million DownREIT units was \$310 million. At December 31, 2023, there were approximately 5 million DownREIT units (7 million shares of Healthpeak common stock are issuable upon conversion) outstanding in seven DownREIT LLCs, for all of which the Company acts as the managing member. At December 31, 2023, the carrying value of the 5 million DownREIT units was \$199 million.

Earnings Per Common Share

Basic income (loss) per common share ("EPS") is computed based on the weighted average number of common shares outstanding. Diluted income (loss) per common share is computed based on the weighted average number of common shares outstanding plus the impact of forward equity sales agreements using the treasury stock method, common shares issuable from the assumed conversion of DownREIT units, stock options, certain performance restricted stock units, OP Units, and unvested restricted stock units. Only those instruments having a dilutive impact on the Company's basic income (loss) per share are included in diluted income (loss) per share during the periods presented.

Certain restricted stock units are considered participating securities, because dividend payments are not forfeited even if the underlying award does not vest, and require use of the two-class method when computing basic and diluted earnings per share.

The Company considers the potential dilution resulting from forward agreements under its ATM Programs to the calculation of earnings per share. At inception, the agreements do not have an effect on the computation of basic EPS as no shares are delivered until settlement. However, the Company uses the treasury stock method to calculate the dilution, if any, resulting from the forward sales agreements during the period of time prior to settlement. Refer to Note 13 for a discussion of the sale of shares under and settlement of forward sales agreements during the periods presented.

The following table illustrates the computation of basic and diluted earnings per share (in thousands, except per share amounts):

	Year Ended December 31,		
	2024	2023	2022
Numerator - Basic			
Income (loss) from continuing operations	\$ 267,303	\$ 334,757	\$ 513,540
Noncontrolling interests' share in continuing operations	(24,161)	(28,748)	(15,975)
Income (loss) from continuing operations attributable to Healthpeak Properties, Inc.	243,142	306,009	497,565
Less: Participating securities' share in continuing operations	(758)	(1,725)	(2,657)
Income (loss) from continuing operations applicable to common shares	242,384	304,284	494,908
Income (loss) from discontinued operations	—	—	2,884
Net income (loss) applicable to common shares	\$ 242,384	\$ 304,284	\$ 497,792
Numerator - Dilutive			
Net income (loss) applicable to common shares	\$ 242,384	\$ 304,284	\$ 497,792
Add: distributions on dilutive convertible units and other	107	—	—
Dilutive net income (loss) available to common shares	\$ 242,491	\$ 304,284	\$ 497,792
Denominator			
Basic weighted average shares outstanding	675,680	547,006	538,809
Dilutive potential common shares - equity awards ⁽¹⁾	148	269	338
Dilutive potential common shares - OP Units ⁽²⁾	405	—	—
Diluted weighted average common shares	676,233	547,275	539,147
Basic earnings (loss) per common share			
Continuing operations	\$ 0.36	\$ 0.56	\$ 0.92
Discontinued operations	—	—	0.00
Net income (loss) applicable to common shares	\$ 0.36	\$ 0.56	\$ 0.92
Diluted earnings (loss) per common share			
Continuing operations	\$ 0.36	\$ 0.56	\$ 0.92
Discontinued operations	—	—	0.00
Net income (loss) applicable to common shares	\$ 0.36	\$ 0.56	\$ 0.92

(1) For all periods presented, represents the dilutive impact of 1 million outstanding equity awards (restricted stock units and stock options).
(2) For the year ended December 31, 2024, represents the dilutive impact of 3 million outstanding OP Units.

For the years ended December 31, 2024, 2023, and 2022, all 14 million, 7 million, and 7 million shares issuable upon conversion of DownREIT units, respectively, were not included because they were anti-dilutive. For the years ended December 31, 2024 and 2023, forward equity sales agreements had no dilutive impact as no shares were outstanding under ATM forward contracts during the year. For the year ended December 31, 2022, all shares that were settled during the year then ended were anti-dilutive.

[Abstract]

Compensation Plans

12 Months Ended
Dec. 31, 2024

Compensation Plans

Stock-Based Compensation

On May 11, 2006, the Company's stockholders approved the 2006 Performance Incentive Plan, which was amended and restated in 2009 (the "2006 Plan"). On May 1, 2014, the Company's stockholders approved the 2014 Performance Incentive Plan, which was amended and restated in 2019 and further amended in 2023 (the "2014 Plan"). Following the adoption of the 2014 Plan, no new awards were issued under the 2006 Plan. On April 27, 2023, the Company's stockholders approved the 2023 Performance Plan (the "2023 Plan" and collectively with the 2006 Plan and the 2014 Plan, the "Plans"). Following the adoption of the 2023 Plan, no new awards may be issued under the 2014 Plan. The Plans provide for the granting of stock-based compensation to officers, employees, and directors, including stock options, restricted stock, restricted stock units, and with respect to the 2014 and 2023 Plans, profits interests in Healthpeak OP ("LTIP Units"). The maximum number of shares reserved for awards under the 2023 Plan is 31 million shares, and, as of December 31, 2024, 28 million of the reserved shares under the 2023 Plan are available for future awards, of which 19 million shares may be issued as restricted stock, restricted stock units, or LTIP Units.

Restricted Stock Units

Under the Plans, time-based restricted stock units and market-based restricted stock units (collectively, "Restricted Stock Units") are granted subject to certain restrictions. Conditions of vesting are determined at the time of grant. Restrictions on certain awards generally lapse, as provided in the Plans or in the applicable award agreement, upon retirement, a change in control, or other specified events. The fair market value of Restricted Stock Units is expensed over the period of vesting. Time-based restricted stock units, which vest based solely upon passage of time, generally vest on a graded schedule over a period of one to five years. The fair value of time-based restricted stock units is determined based on the closing market price of the Company's shares on the grant date. Market-based restricted stock units, which vest dependent upon attainment of total shareholder return ("TSR") performance that equal or exceed threshold levels as measured against certain peer and industry benchmarks, generally vest in their entirety at the end of a three-year performance period. The number of shares that ultimately vest based on performance can vary from 0% to 200% of target depending on the level of achievement of the performance criteria. The fair value of market-based restricted stock units is determined based on the Monte Carlo valuation model primarily using the following assumptions for awards granted during the years ended December 31, 2024, 2023, and 2022, respectively: (i) expected term of 3 years, 3 years, and 3 years (equal to the remaining performance period at the grant date), (ii) historical volatility of 26.0%, 33.0%, and 38.9%, (iii) dividend yield of 5.2%, 4.4%, and 3.5%, (iv) risk-free rate of 4.5%, 4.4%, and 1.8%, and (v) post-vesting restrictions discount of 10.0%, 10.0%, and 5.8%. The total grant date fair value of time-based restricted stock units and market-based restricted stock units granted during the years ended December 31, 2024, 2023, and 2022 was \$11 million, \$9 million, and \$27 million, respectively. The total fair value (at vesting) of time-based restricted stock units and market-based restricted stock units that vested during the years ended December 31, 2024, 2023, and 2022 was \$7 million, \$16 million, and \$27 million, respectively.

Upon vesting of Restricted Stock Units, the participant is required to pay the related tax withholding obligation, as applicable. The Company reduces the number of common stock shares delivered to pay the employee tax withholding obligation. The value of the shares withheld is dependent on the closing market price of the Company's common stock on the trading date prior to the relevant transaction occurring. During the years ended December 31, 2024, 2023, and 2022, the Company withheld 123,000, 241,000, and 356,000 shares, respectively, to offset tax withholding obligations with respect to the vesting of the Restricted Stock Units.

LTIP Units

During each of the years ended December 31, 2024 and 2023, approximately 2 million LTIP Units were issued to officers of the Company. These awards are designed to qualify as "profits interests" in Healthpeak OP for federal income tax purposes. Such interests are initially not economically equivalent in value to a share of common stock until reaching one-for-one parity with the Company's common stock, subject to any vesting conditions applicable to the award. When certain conditions are met, LTIP Units are converted to common units, which may then be redeemed for cash or shares of the Company's common stock, at the Company's option as managing member of Healthpeak OP (see also Note 13).

Under the Plans, time-based LTIP Units and market-based LTIP Units (collectively, "LTIP Units"), are granted subject to certain restrictions. Time-based LTIP Units, which vest solely upon passage of time, generally vest over a period of three to six years. The fair value of the time-based LTIP Units is determined based on the closing market price of the Company's shares on the grant date less a discount for post-vesting restrictions, liquidity risk, and uncertainty of the time-based LTIP Units reaching parity. The market-based LTIP Units are granted at the maximum potential payout, inclusive of expected distributions during the performance period. Market-based LTIP Units, which vest dependent upon attainment of various levels of TSR performance that equal or exceed threshold levels as measured against certain peer and industry benchmarks, generally vest in their entirety at the end of a three-year performance period. The number of market-based LTIP Units that ultimately vest can vary from 0% to 200% of target depending on the level of achievement of the performance criteria, and any difference from the original grant are forfeited. The fair value of market-based LTIP Units granted during the years ended December 31, 2024 and 2023 is determined based on the Monte Carlo valuation model using the same assumptions as market-based restricted stock units described above less a discount for post-vesting restrictions, liquidity risk, and uncertainty of the market-based LTIP Units reaching parity with the value of the Company's common stock and the vesting terms of the awards. The total grant date fair value of LTIP Units granted during the years ended December 31, 2024 and 2023 was \$13 million and \$29 million. The total fair value (at vesting) of LTIP Units that vested during the years ended December 31, 2024 and 2023 was \$3 million and \$2 million.

Dividends and Distributions

Holders of time-based restricted stock units and time-based LTIP Units are generally entitled to receive dividends and distributions, respectively, equal to the amount that would be paid on an equivalent number of shares of common stock. Market-based restricted stock units receive cumulative cash dividends upon vesting for the entirety of the performance period based on the level of achievement of the performance criteria. The market-based LTIP Units receive cash distributions equal to 10% of the quarterly dividends paid on the Company's common stock during the performance period. Based on the level of achievement of the performance criteria at the end of the performance period, the market-based LTIP Units receive distributions in the form of additional LTIP Units for amounts ultimately vested during the performance period, less cash distributions already paid.

Stock Options

There have been no grants of stock options since 2014. Stock options outstanding and exercisable were zero at December 31, 2024 and 0.2 million at December 31, 2023. There were no stock options exercised under the Plans for the years ended December 31, 2024, 2023, and 2022. No compensation cost related to stock options was incurred during the years ended December 31, 2024, 2023, and 2022.

The following table summarizes Restricted Stock Unit and LTIP Unit activity for the year ended December 31, 2024 (units in thousands):

	Restricted Stock Units		LTIP Units	
	Number of Units	Weighted Average Grant Date Fair Value	Number of Units	Weighted Average Grant Date Fair Value
Unvested at January 1, 2024	879	\$ 29.91	1,894	\$ 14.26
Granted	597	17.69	1,511	8.75
Vested	(377)	28.88	(199)	17.43
Forfeited	(224)	27.20	(304)	12.70
Unvested at December 31, 2024	875	\$ 22.70	2,902	\$ 10.88

Total stock-based compensation cost was \$20 million, \$19 million, and \$32 million for the years ended December 31, 2024, 2023, and 2022, respectively, which was recognized in general and administrative expenses. The year ended December 31, 2022 included \$10 million of severance-related charges resulting from a decrease in the requisite service period of restricted stock units associated with the Company's former CEO, as further described below. Of the total stock-based compensation cost, \$4 million was capitalized as part of real estate for each of the years ended December 31, 2024, 2023, and 2022. As of December 31, 2024, there was \$22 million of future expenses related to unvested stock-based compensation arrangements granted under the Company's incentive plans, which is expected to be recognized over a weighted average period of 1.6 years associated with future employee service. Compensation cost recognized for all Restricted Stock Units and LTIP Units is net of actual forfeitures.

Departure of Executives

On October 6, 2022, the Company and Thomas M. Herzog mutually agreed that Mr. Herzog would step down from his position as CEO and from the board of directors of the Company, effective immediately. On November 1, 2022, the Company and Troy E. McHenry mutually agreed that Mr. McHenry would step down from his position as Chief Legal Officer and General Counsel, effective immediately. During the fourth quarter of 2022, the Company recognized total severance-related charges of \$33 million in general and administrative expenses on the Consolidated Statements of Operations, \$10 million of which related to a decrease in the requisite service period of Restricted Stock Units as discussed above. These Restricted Stock Units continue to vest in accordance with the original terms of the grants. As of December 31, 2024 and 2023, \$4 million and \$8 million of these severance-related charges have not yet been paid and were included in accounts payable, accrued liabilities, and other liabilities on the Consolidated Balance Sheets.

Segment Disclosures

Segment Reporting

[Abstract]

Segment Disclosures

Segment Disclosures

The Company's operating segments, based on how its CODM, the President and Chief Executive Officer, evaluates the business and allocates resources, are as follows: (i) outpatient medical, (ii) lab, (iii) CCRC, (iv) an interest in an unconsolidated joint venture that owns 19 senior housing assets (the "SWF SH JV"), and (v) loans receivable. The Company's reportable segments, as determined in accordance with ASC 280, *Segment Reporting*, are as follows: (i) outpatient medical, (ii) lab, and (iii) CCRC. The SWF SH JV and loans receivable are non-reportable segments that have been presented on a combined basis within the Notes to the Consolidated Financial Statements herein. The accounting policies of the segments are the same as those described in the Company's Summary of Significant Accounting Policies (see Note 2).

The CODM evaluates performance based on property Adjusted NOI. Adjusted NOI is used to evaluate performance because it provides relevant and useful information by reflecting only income and operating expense items that are incurred at the property level and presenting it on an unlevered basis. Adjusted NOI represents real estate revenues (inclusive of rental and related revenues, resident fees and services, and government grant income and exclusive of interest income), less property level operating expenses; Adjusted NOI excludes all other financial statement amounts included in net income (loss). Adjusted NOI eliminates the effects of straight-line rents, amortization of market lease intangibles, termination fees, actuarial reserves for insurance claims that have been incurred but not reported, and the impact of deferred community fee income and expense.

Adjusted NOI is calculated as Adjusted NOI from consolidated properties, plus the Company's share of Adjusted NOI from unconsolidated joint ventures (calculated by applying the Company's actual ownership percentage for the period), less noncontrolling interests' share of Adjusted NOI from consolidated joint ventures (calculated by applying the Company's actual ownership percentage for the period). Management utilizes its share of Adjusted NOI in assessing its performance as the Company has various joint ventures that contribute to its performance.

Segment assets consist of real estate assets, intangible assets, and right-of-use assets. Non-segment assets consist of assets in the Company's other non-reportable segments and corporate non-segment assets. Corporate non-segment assets consist primarily of corporate assets, including cash and cash equivalents, restricted cash, accounts receivable, other assets, and real estate assets held for sale. Reportable segment asset information is not provided to the CODM as the CODM does not use segment asset information to evaluate the business and allocate resources.

The following tables summarize information for the reportable segments for the year ended December 31, 2024 (in thousands):

	Outpatient Medical	Lab	CCRC	Total
Total revenues	\$ 1,205,744	\$ 881,452	\$ 568,475	\$ 2,655,671
Healthpeak's share of unconsolidated joint venture total revenues	24,041	19,733	—	43,774
Noncontrolling interests' share of consolidated joint venture total revenues	(37,643)	(196)	—	(37,839)
Operating expenses ⁽¹⁾	(405,993)	(239,620)	(429,248)	(1,074,861)
Healthpeak's share of unconsolidated joint venture operating expenses	(9,034)	(6,366)	—	(15,400)
Noncontrolling interests' share of consolidated joint venture operating expenses	10,582	52	—	10,634
Adjustments to NOI ⁽²⁾	(38,967)	(64,449)	(3,123)	(106,539)

Plus: Noncontrolling interests' share of consolidated joint venture Adjusted NOI	—	—	—	25,581
Income (loss) before income taxes and equity income (loss) from unconsolidated joint ventures	—	—	—	\$ 507,130

(1) Represents government grant income received under the CARES Act, which is recorded in other income (expense), net in the Consolidated Statements of Operations (see Note 2).

(2) See reconciliation of significant expense categories below.

(3) Represents straight-line rents, amortization of market lease intangibles, net, actuarial reserves for insurance claims that have been incurred but not reported, deferral of community fees, and termination fees. Includes the Company's share of income (loss) generated by unconsolidated joint ventures and excludes noncontrolling interests' share of income (loss) generated by consolidated joint ventures.

The following table summarizes the Company's significant expense categories by reportable segment for the year ended December 31, 2022 (in thousands):

	Outpatient Medical	Lab	CCRC
Compensation and property management	\$ 27,807	\$ 16,817	\$ 251,804
Food	—	—	23,641
Real estate taxes	59,992	75,459	14,090
Repairs and maintenance	36,439	26,884	16,522
Utilities	43,329	41,087	21,219
Other segment items ⁽¹⁾	85,742	48,896	73,263
Operating expenses	\$ 253,309	\$ 209,143	\$ 400,539

(1) Other segment items for each segment include:

- Outpatient medical and lab – (i) Cleaning expense, (ii) ground rent expense, (iii) insurance expense, (iv) roads and grounds expense, (v) security expense, and (vi) other administrative expense.
- CCRC – (i) Cleaning and supplies, (ii) insurance expense, (iii) marketing expense, and (iv) other administrative expense.

The following table summarizes the Company's revenues by reportable segment (in thousands):

Segment	2024	2023	2022
Outpatient medical	\$ 1,205,744	\$ 753,479	\$ 725,370
Lab	881,452	878,326	817,573
CCRC	568,475	527,417	494,935
Total revenues for reportable segments	2,655,671	2,159,222	2,037,878
Interest income and other	44,778	21,781	23,300
Total revenues	\$ 2,700,449	\$ 2,181,003	\$ 2,061,178

At December 31, 2024, goodwill of \$69 million was allocated to the Company's segment assets as follows: (i) \$65 million for outpatient medical, (ii) \$2 million for CCRC, and (iii) \$2 million for other non-reportable. At December 31, 2023, goodwill of \$18 million was allocated to the Company's segment assets as follows: (i) \$14 million for outpatient medical, (ii) \$2 million for CCRC, and (iii) \$2 million for other non-reportable.

[Income Tax Disclosure \[Abstract\]](#)
[Income Taxes](#)

Income Taxes

The Company has elected to be taxed as a REIT under the applicable provisions of the Code beginning with the year ended December 31, 1985. The Company has also elected for certain of its subsidiaries to be treated as TRSs (the "TRS entities"), which are subject to federal and state income taxes. All entities other than the TRS entities are collectively referred to as the "REIT" within this Note 17. Certain REIT entities are also subject to state and local income taxes.

Distributions with respect to the Company's common stock can be characterized for federal income tax purposes as ordinary dividends, capital gains, nondividend distributions, or a combination thereof.

The following table shows the characterization of the Company's annual common stock distributions per share:

	2024	2023	2022
Ordinary dividends ⁽¹⁾	\$ 0.720440	\$ 0.909692	\$ 0.872948
Capital gains ⁽²⁾⁽³⁾	0.295060	0.116992	0.183208
Nondividend distributions	0.184500	0.173316	0.143844
	\$ 1.200000	\$ 1.200000	\$ 1.200000

(1) For the year ended December 31, 2024, all \$0.720440 of ordinary dividends qualified as business income for purposes of Code Section 199A. For the year ended December 31, 2023, the amount includes \$0.882312 of ordinary dividends qualified as business income for purposes of Code Section 199A and \$0.027380 of qualified dividend income for purposes of Code Section 1(h)(11). For the year ended December 31, 2022, all \$0.872948 of ordinary dividends qualified as business income for purposes of Code Section 199A.

(2) For the years ended December 31, 2024, 2023, and 2022, the amount includes \$0.215960, \$0.036256, and \$0.017760, respectively, of unrecaptured Code Section 1250 gain. Pursuant to Treasury Regulation Section 1.1061-6(c), the Company is disclosing additional information related to the capital gain dividends for purposes of Section 1061 of the Code. Code Section 1061 is generally applicable to direct and indirect holders of "applicable partnership interests." For the years ended December 31, 2024 and 2023, the "One Year Amounts" and "Three Year Amounts" are each zero, since all capital gains relate to Code Section 1231 gains. For the year ended December 31, 2022, the "One Year Amounts" and "Three Year Amounts" are each 89.6708% of the total capital gain distributions and the remaining capital gain distributions are attributable to Code Section 1231 gains, which are not subject to Code Section 1061.

(3) For the years ended December 31, 2024, 2023, and 2022, 100%, 100%, and 10.3292%, respectively, of the capital gain distributions represent gains from dispositions of U.S. real property interests pursuant to Code Section 897 for foreign shareholders.

The Company's pretax income (loss) from continuing operations for the years ended December 31, 2024, 2023, and 2022 was \$272 million, \$325 million, and \$509 million, respectively, of which \$217 million, \$318 million, and \$527 million was attributable to the REIT entities for the years then ended. The TRS entities subject to tax reported income (losses) before income taxes from continuing operations of \$55 million, \$7 million, and \$(18) million for the years ended December 31, 2024, 2023, and 2022, respectively.

The total income tax benefit (expense) from continuing operations consists of the following components (in thousands):

	2024	2023	2022
Current			
Federal	\$ (2,389)	\$ (1,663)	\$ (632)
State	(3,654)	(3,325)	(689)
Total current	\$ (6,043)	\$ (4,988)	\$ (1,321)
Deferred			
Federal	\$ (3,429)	\$ 11,682	\$ 3,157
State	5,122	2,923	2,589
Total deferred	\$ 1,693	\$ 14,605	\$ 5,746
Total income tax benefit (expense) from continuing operations	\$ (4,350)	\$ 9,617	\$ 4,425

The Company's income tax benefit from discontinued operations was zero, zero, and \$0.3 million for the years ended December 31, 2024, 2023, and 2022, respectively (see Note 5).

The following table reconciles income tax benefit (expense) from continuing operations at statutory rates to actual income tax benefit (expense) recorded (in thousands):

	2024	2023	2022
Tax benefit (expense) at U.S. federal statutory income tax rate on income or loss subject to tax	\$ (11,601)	\$ (1,404)	\$ 3,698
State income tax benefit (expense), net of federal tax	(1,389)	(1,035)	911
Gross receipts and margin taxes	(1,774)	(1,647)	(956)
Return to provision adjustments	(287)	(90)	1,260
Change in valuation allowance for deferred tax assets	10,698	13,797	194
Change in tax status of TRS	3	(4)	(682)
Total income tax benefit (expense) from continuing operations	\$ (4,350)	\$ 9,617	\$ 4,425

Deferred income taxes reflect the net effects of temporary differences between the carrying amounts of the assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The following table summarizes the significant components of the Company's deferred tax assets and liabilities from continuing operations (in thousands):

	December 31,		
	2024	2023	2022
Deferred tax assets:			
Deferred revenue	\$ 103,470	\$ 103,530	\$ 102,504
Net operating loss carryforward	50,041	54,136	62,280
Expense accruals	11,787	12,324	12,399
Real estate	195	850	150
Other	49	58	689
Total deferred tax assets	165,542	170,898	178,022
Valuation allowance	(2,306)	(13,004)	(26,098)
Deferred tax assets, net of valuation allowance	\$ 163,236	\$ 157,894	\$ 151,924
Deferred tax liabilities:			
Real estate	\$ 47,268	\$ 43,488	\$ 52,266
Other	876	818	674
Deferred tax liabilities	\$ 48,144	\$ 44,306	\$ 52,940
Net deferred tax assets	\$ 115,092	\$ 113,588	\$ 98,984

Net deferred tax assets are included in other assets, net on the Consolidated Balance Sheets.

The Company records a valuation allowance against deferred tax assets in certain jurisdictions when it is not more likely than not that it can realize the related deferred tax assets. The deferred tax asset valuation allowance is adequate to reduce the total deferred tax assets to an amount that the Company estimates will "more-likely-than-not" be realized.

As of December 31, 2022, the Company recorded a valuation allowance against certain SHOP deferred tax assets generated by net operating losses ("NOLs") of its TRS entities. During the years ended December 31, 2024 and 2023, the Company concluded that it was more likely than not that certain deferred tax assets (primarily NOL carryforwards) would be realized. During the year ended December 31, 2023, this conclusion was based on estimates of future taxable income for certain TRS entities in connection with the Callan Ridge JV transaction (see also Notes 5 and 9). Accordingly, the Company reversed a portion of the deferred tax asset valuation allowance and recognized an income tax benefit of \$14 million during the year ended December 31, 2023. During the year ended December 31, 2024, the Company recognized an income tax expense of \$12 million in conjunction with the closing of the Callan Ridge JV transaction. Additionally, during the year ended December 31, 2024, the Company completed a merger of certain TRS entities and as a result, reversed a portion of the deferred tax asset valuation allowance and recognized an income tax benefit of \$11 million. As of December 31, 2024, 2023, and 2022, the Company had a deferred tax asset valuation allowance of \$2 million, \$13 million, and \$26 million, respectively.

At December 31, 2024, the Company had a NOL carryforward of \$193 million related to the TRS entities. If unused, \$2 million will begin to expire in 2035. The remainder, totaling \$191 million, may be carried forward indefinitely.

The following table summarizes the Company's unrecognized tax benefits (in thousands):

	December 31,		
	2024	2023	2022
Total unrecognized tax benefits at January 1	\$ —	\$ —	\$ 469
Gross amount of decreases for prior years' tax positions	—	—	(469)
Total unrecognized tax benefits at December 31	\$ —	\$ —	\$ —

For the years ended December 31, 2024, 2023, and 2022 the Company had no unrecognized tax benefits.

The Company files numerous U.S. federal, state, and local income and franchise tax returns. With a few exceptions, the Company is no longer subject to U.S. federal, state, or local tax examinations by taxing authorities for years prior to 2021.

Variable Interest Entities
Operating Subsidiary

Healthpeak OP is the Company's operating subsidiary and a limited liability company that has governing provisions that are the functional equivalent of a limited partnership. The Company holds a membership interest in Healthpeak OP, acts as the managing member of Healthpeak OP, and exercises full responsibility, discretion, and control over the day-to-day management of Healthpeak OP. Because the noncontrolling interests in Healthpeak OP do not have substantive liquidation rights, substantive kick-out rights without cause, or substantive participating rights, the Company has determined that Healthpeak OP is a VIE. The Company, as managing member, has the power to direct the core activities of Healthpeak OP that most significantly affect Healthpeak OP's performance, and through its interest in Healthpeak OP, has both the right to receive benefits from and the obligation to absorb losses of Healthpeak OP. Accordingly, the Company is the primary beneficiary of Healthpeak OP and consolidates Healthpeak OP. As the Company conducts its business and holds its assets and liabilities through Healthpeak OP, the total consolidated assets and liabilities, income (losses), and cash flows of Healthpeak OP represent substantially all of the total consolidated assets and liabilities, including the consolidated and unconsolidated entities discussed in this Note 19, income (losses), and cash flows of the Company.

Unconsolidated Variable Interest Entities

At December 31, 2024, the Company had investments in (i) two unconsolidated VIE joint ventures and (ii) the PropTech Investment, an unconsolidated VIE investment in a limited partnership. At December 31, 2023, the Company had investments in two unconsolidated VIE joint ventures. The Company determined it is not the primary beneficiary of and therefore does not consolidate these VIEs because it does not have the ability to control the activities that most significantly impact their economic performance. Except for the Company's equity interest in the unconsolidated joint ventures (the LLC Investment and Needham Land Parcel JV discussed below) and the PropTech Investment, it has no formal involvement in these VIEs beyond its investments.

LLC Investment. The Company holds a limited partner ownership interest in an unconsolidated LLC ("LLC Investment") that has been identified as a VIE. The Company's involvement in the entity is limited to its equity investment as a limited partner and it does not have any substantive participating rights or kick-out rights over the general partner. The assets and liabilities of the entity primarily consist of three hospitals as well as senior housing real estate. Any assets generated by the entity may only be used to settle its contractual obligations (primarily capital expenditures and debt service payments).

PropTech Investment. During the year ended December 31, 2024, the Company made an initial investment of \$1 million in a property technology ("PropTech") fund that makes venture capital investments in early-stage real estate and construction-related companies (the "PropTech investment"). The Company has an aggregate commitment of \$10 million, or approximately 5% of total fund commitments, which is expected to be funded over the next five years. The PropTech investment has been identified as a VIE. The Company's involvement in the entity is limited to its equity investment as a limited partner and it does not have any substantive participating rights or kick-out rights over the general partner and given its rights and ownership percentage, the Company has virtually no influence or control. The assets and liabilities of the entity primarily consist of investments in certain PropTech real estate and construction companies. All future investments will be funded with capital contributions from the Company and other limited partners in accordance with their respective commitments.

Needham Land Parcel JV. In December 2021, the Company acquired a 38% interest in a lab development joint venture in Needham, Massachusetts for \$13 million. Current equity at risk is not sufficient to finance the joint venture's activities. The assets and liabilities of the entity primarily consist of real estate and debt service obligations. Any assets generated by the entity may only be used to settle its contractual obligations (primarily development costs and debt service payments). See Note 9 for additional descriptions of the nature, purpose, and operating activities of this unconsolidated VIE and interests therein.

Debt Securities Investment. At December 31, 2022, the Company held \$22 million of commercial mortgage-backed securities ("CMBS") issued by Federal Home Loan Mortgage Corporation (commonly referred to as Freddie Mac) through a special purpose entity that had been identified as a VIE because it was "thinly capitalized." The CMBS issued by the VIE were backed by mortgage debt obligations on real estate assets. These securities were classified as held-to-maturity because the Company had the intent and ability to hold the securities until maturity. These securities matured on December 31, 2022, and the Company received the related proceeds in January 2023. At each of December 31, 2024 and 2023, there was no balance remaining for these securities.

The classification of the related assets and liabilities and the maximum loss exposure as a result of the Company's involvement with these VIEs at December 31, 2024 was as follows (in thousands):

speculative or trading purposes. At December 31, 2024, a one percentage point increase or decrease in the underlying interest rate curve would result in a corresponding increase or decrease in the fair value of the derivative instruments by up to \$53 million.

During the year ended December 31, 2022, the Company recognized a \$2 million increase in the fair value of its interest rate cap instruments within other income (expense), net. In April 2022, the Company terminated these interest rate cap instruments and entered into two interest rate swap instruments that are designated as cash flow hedges and mature in May 2026 on \$142 million of variable rate mortgage debt secured by a portfolio of outpatient medical buildings (see Note 11). In February 2023, the Company modified these two interest rate swap instruments to reflect the change in the related variable rate mortgage debt's interest rate benchmarks from LIBOR to SOFR (see Note 11).

In August 2022, the Company entered into two forward-starting interest rate swap instruments on the \$500 million aggregate principal amount of the 2027 Term Loans (see Note 11). The interest rate swap instruments are designated as cash flow hedges.

In January 2024, the Company entered into forward-starting interest rate swap instruments on the \$750 million aggregate principal amount of the 2029 Term Loan (see Note 11). The interest rate swap instruments are designated as cash flow hedges.

Additionally, on March 1, 2024, concurrently with the consummation of the Merger, the Company acquired: (i) three interest rate swap instruments on the \$400 million aggregate principal amount of the 2028 Term Loan that are designated as cash flow hedges and (ii) one interest rate swap instrument on \$36 million of variable rate mortgage debt that was designated as a cash flow hedge (see Note 11) prior to its maturity in October 2024.

The following table summarizes the Company's interest rate swap instruments (in thousands):

Date Entered ⁽¹⁾	Maturity Date	Hedge Designation	Notional Amount	Pay Rate	Receive Rate	Fair Value ⁽²⁾	
						December 31, 2024	December 31, 2023
April 2022	May 2026	Cash flow	\$ 51,100	4.99 %	USD-SOFR w/ -5 Day Lookback + 2.50%	\$ 1,050	\$ 1,602
April 2022	May 2026	Cash flow	91,000	4.54 %	USD-SOFR w/ -5 Day Lookback + 2.05%	1,870	2,851
August 2022	February 2027	Cash flow	250,000	2.60 %	1 mo. USD-SOFR CME Term	7,224	7,933
August 2022	August 2027	Cash flow	250,000	2.54 %	1 mo. USD-SOFR CME Term	9,122	8,973
May 2023 ⁽³⁾⁽⁴⁾	May 2028	Cash flow	400,000	3.59 %	USD-SOFR w/ -5 Day Lookback	4,887	—
January 2024 ⁽⁵⁾	February 2029	Cash flow	750,000	3.59 %	USD-SOFR w/ -5 Day Lookback	10,967	—
						\$ 35,120	\$ 21,359

- (1) Represents interest rate swap instruments that hedge fluctuations in interest payments on variable rate debt by converting the interest rates to fixed interest rates. The changes in fair value of designated derivatives that qualify as cash flow hedges are recorded in accumulated other comprehensive income (loss) on the Consolidated Balance Sheets.
- (2) Derivative assets are recorded at fair value in other assets, net on the Consolidated Balance Sheets.
- (3) Includes interest rate swap instruments acquired as part of the Merger (see Note 3). The interest rate swap instrument on \$36 million of mortgage debt that was acquired as part of the Merger matured in October 2024 and has been excluded herein. These interest rate swap instruments were redesignated as cash flow hedges on the Closing Date. As a result of the Merger, the aggregate fair value of these interest rate swap instruments was determined to be \$7 million on March 1, 2024, which was recognized within other assets, net on the Consolidated Balance Sheets on the Closing Date. The aggregate fair value as of the Closing Date is being amortized into interest expense on the Consolidated Statements of Operations over the terms of the related interest rate swap instruments. During the year ended December 31, 2024, the Company recognized \$2 million of related amortization into interest expense.
- (4) Includes two interest rate swap instruments each with notional amounts of \$110 million and one interest rate swap instrument with a notional amount of \$180 million.
- (5) Includes the following: (i) two interest rate swap instruments each with a pay rate of 3.56% and \$50 million notional amount; (ii) three interest rate swap instruments each with a pay rate of 3.57% and \$50 million notional amount; (iii) one interest rate swap instrument with a pay rate of 3.58% and \$100 million notional amount; (iv) five interest rate swap instruments each with a pay rate of 3.60% and \$50 million notional amount; and (v) three interest rate swap instruments each with a pay rate of 3.61% and \$50 million notional amount.

(2) In January 2025, the Company received full repayment of the outstanding balance of this secured loan (see Note 8 to the Consolidated Financial Statements for additional information).
(3) This loan includes an option to extend the maturity date to May 5, 2028.
(4) A portion of interest is due monthly with remaining interest added to the outstanding principal balance.
(5) Includes various construction loans each related to one property in Arizona and Texas. In January 2025, the Company received full repayment of the \$15 million outstanding balance of a construction loan in Texas (see Note 8 to the Consolidated Financial Statements for additional information).
(6) In January 2025, the maturity date of this loan was extended to July 12, 2025.
(7) Includes various first mortgages each related to one property in Arizona, Florida, Georgia, Texas, and Wisconsin.
(8) This loan includes an option to extend the maturity date to December 20, 2029.
(9) Includes both (i) loans that are interest only or (ii) loans in which a portion of interest is due monthly with remaining interest added to the outstanding principal balance.

Cybersecurity Risk Management, Strategy, and Governance [Line Items]

Cybersecurity Risk Management Processes for Assessing, Identifying, and Managing Threats [Text Block]

Cybersecurity Risk Management and Strategy
In our business operations, we use information technology, enterprise applications, communications tools, cloud network solutions, and related systems to manage our operations, including to manage our building systems, tenant and vendor relationships, accounting and recordkeeping, and communications, among other aspects of our business.

We have developed and implemented a cybersecurity risk management program intended to protect our properties, confidential and proprietary data, and information technology and systems, from cybersecurity threats, including unauthorized access or attack. We leverage the National Institute of Standards and Technology ("NIST") Cybersecurity Framework as a guide to help us identify, assess, and manage cybersecurity risks relevant to the business. This does not imply that we meet any particular technical standards, specifications, or requirements.

Our processes for assessing, identifying, and managing risks from cybersecurity threats, including operational risks, financial reporting risks, reputational risks, personal data theft, fraud, and other potential risks, are integrated into our overall enterprise risk management process, and share common methodologies, reporting channels, and governance processes that apply across the enterprise risk management process to other legal, compliance, strategic, operational, and financial risk areas.

Our cybersecurity risk management program includes the following:

- a multidisciplinary team comprised of personnel from information technology ("IT"), internal audit, accounting, and legal, as well as third-party cybersecurity experts principally responsible for directing (i) our cybersecurity risk assessment processes, (ii) our security processes, and (iii) our response to cybersecurity incidents;
- risk assessments designed to help identify material cybersecurity risks to our critical systems, information, services, and our broader enterprise IT environment;
- internal and third-party security tools to monitor our systems, identify cybersecurity risks, and test our IT environment;
- the use of third-party cybersecurity experts, where appropriate, to assess, test or otherwise assist with aspects of our security processes;
- a cybersecurity incident response plan, business continuity plan, and established policies governing cybersecurity risk management at the corporate and property levels;
- cybersecurity training for employees and key business partners with access to our systems;
- a third-party cybersecurity risk management process for service providers and vendors who access our systems;
- requiring employees, as well as third parties who have access to our systems, to treat confidential and private information and data with care, including performing controls relating to such data; and
- cybersecurity risk insurance.

We also seek to engage reputable service providers that maintain cybersecurity programs or controls.

We have not identified risks from known cybersecurity threats within the prior fiscal year, including as a result of any prior cybersecurity incident, that have materially affected or are reasonably likely to materially affect us, including our business strategy, results of operations, or financial condition. Please refer to "Item 1A, Risk Factors" in this report for additional information about certain ongoing risks related to our information technology that, if realized, are reasonably likely to materially affect us, including our operations, business strategy, results of operations, or financial condition.

Cybersecurity Risk Materiality Materially Affected or Reasonably Likely to Materially Affect Registrant [Flag] Cybersecurity Risk Board of Directors Oversight [Text Block]	false
	Cybersecurity is an important part of our overall risk management processes and an area of focus for our Board of Directors and management.
	The Board, in coordination with the Audit Committee, oversees the Company's enterprise risk management process, including the management of material risks arising from cybersecurity threats. The Audit Committee regularly receives updates from management and third-party cybersecurity experts about major cybersecurity risks, their potential impact on our business operations, and management's processes to identify, monitor, and mitigate such risks, including, as relevant, the results of assessments or audits of our processes. The Audit Committee periodically provides updates on these matters to the Board of Directors.

Summary of Significant Accounting Policies (Policies) Accounting Policies [Abstract] Use of Estimates	12 Months Ended Dec. 31, 2024
Use of Estimates	
Management is required to make estimates and assumptions in the preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP"). These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's estimates.	
Basis of Presentation	
The consolidated financial statements include the accounts of Healthpeak Properties, Inc., its wholly owned subsidiaries, joint ventures ("JVs"), and variable interest entities ("VIEs") that it controls through voting rights or other means. Intercompany transactions and balances have been eliminated upon consolidation.	
The Company is required to continually evaluate its VIE relationships and consolidate these entities when it is determined to be the primary beneficiary of their operations. A VIE is broadly defined as an entity where either: (i) the equity investment at risk is insufficient to finance that entity's activities without additional subordinated financial support, (ii) substantially all of an entity's activities either involve or are conducted on behalf of an investor that has disproportionately few voting rights, or (iii) the equity investors as a group lack any of the following: (a) the power through voting or similar rights to direct the activities of an entity that most significantly impact the entity's economic performance, (b) the obligation to absorb the expected losses of an entity, or (c) the right to receive the expected residual returns of an entity. Criterion (iii) above is generally applied to limited partnerships and similarly structured entities by assessing whether a simple majority of the limited partners hold substantive rights to participate in the significant decisions of the entity or have the ability to remove the decision maker or liquidate the entity without cause. If neither of those criteria are met, the entity is a VIE.	
The designation of an entity as a VIE is reassessed upon certain events, including, but not limited to: (i) a change to the contractual arrangements of the entity or in the ability of a party to exercise its participation or kick-out rights, (ii) a change to the capitalization structure of the entity, or (iii) acquisitions or sales of interests that constitute a change in control.	
A variable interest holder is considered to be the primary beneficiary of a VIE if it has the power to direct the activities of a VIE that most significantly impact the entity's economic performance and has the obligation to absorb losses of, or the right to receive benefits from, the entity that could potentially be significant to the VIE. The Company qualitatively assesses whether it is (or is not) the primary beneficiary of a VIE. Consideration of various factors include, but is not limited to, which activities most significantly impact the entity's economic performance and the ability to direct those activities, its form of ownership interest, its representation on the VIE's governing body, the size and seniority of its investment, its ability and the rights of other investors to participate in policy making decisions, its ability to manage its ownership interest relative to the other interest holders, and its ability to replace the VIE manager and/or liquidate the entity.	
For its investments in joint ventures that are not considered to be VIEs, the Company evaluates the type of ownership rights held by the limited partner(s) that may preclude consolidation by the majority interest holder. The assessment of limited partners' rights and their impact on the control of a joint venture should be made at inception of the joint venture and continually reassessed.	
Revenue Recognition	
<i>Lease Classification</i>	
The Company classifies a lease as an operating lease if none of the following criteria are met: (i) transfer of ownership to the lessee by the end of the lease term, (ii) lessee has a purchase option during or at the end of the lease term that it is reasonably certain to exercise, (iii) the lease term is for the major part of the remaining economic life of the underlying asset, (iv) the present value of future minimum lease payments is equal to substantially all of the fair value of the underlying asset, or (v) the underlying asset is of such a specialized nature that it is expected to have no alternative use to the Company at the end of the lease term.	
<i>Rental and Related Revenues</i>	
The Company recognizes rental revenue from its outpatient medical and lab buildings in accordance with Accounting Standards Codification ("ASC") 842, <i>Leases</i> ("ASC 842"). The Company commences recognition of rental revenue for operating lease arrangements when the tenant has taken possession or controls the physical use of a leased asset. The tenant is not considered to have taken physical possession or have control of the leased asset until the Company-owned tenant improvements are substantially complete. If a lease arrangement provides for tenant improvements, the Company determines whether the tenant improvements are owned by the tenant or the Company. When the Company is the owner of the tenant improvements, any tenant improvements funded by the tenant are treated as lease payments which are deferred and amortized into income over the lease term. When the tenant is the owner of the tenant improvements, any tenant improvement allowance that is funded by the Company is treated as a lease incentive and amortized as a reduction of revenue over the lease term.	
Ownership of tenant improvements is determined based on various factors including, but not limited to, the following criteria:	
• lease stipulations of how and on what a tenant improvement allowance may be spent; • which party to the arrangement retains legal title to the tenant improvements upon lease expiration; • whether the tenant improvements are unique to the tenant or general purpose in nature; • if the tenant improvements are expected to have significant residual value at the end of the lease term; • the responsible party for construction cost overruns; and • which party constructs or directs the construction of the improvements.	
Certain leases provide for additional rents that are contingent upon a percentage of the building's revenue in excess of specified base amounts or other thresholds. Such revenue is recognized when actual results reported by the tenant or estimates of tenant results, exceed the base amount or other thresholds, and only after any contingency has been removed (when the related thresholds are achieved). This may result in the recognition of rental revenue in periods subsequent to when such payments are received.	
Tenant recoveries subject to operating leases generally relate to the reimbursement of real estate taxes, insurance, and repair and maintenance expense, and are recognized as both revenue (in rental and	

related revenues) and expense (in operating expenses) in the period the expense is incurred as the Company is the party paying the service provider. Rental and related revenues from other variable payments are recognized when the associated contingencies are removed. In accordance with ASC 842, the Company accounts for lease and nonlease components as a single lease component for the purpose of revenue recognition and disclosure.

For operating leases with minimum scheduled rent increases, the Company recognizes income on a straight-line basis over the lease term when collectibility of future minimum lease payments is probable. Recognizing rental income on a straight-line basis results in a difference in the timing of revenue amounts from what is contractually due from tenants. If the Company determines that collectibility of future minimum lease payments is not probable, the accounts receivable and straight-line rent receivable balance is written off and recognized as a decrease in revenue in that period and future revenue recognition is limited to amounts contractually owed and paid. The Company does not resume recognition of income on a straight-line basis unless it determines that collectibility of future payments related to these leases is probable. For the Company's portfolio of operating leases that are deemed probable of collection but exhibit a certain level of collectibility risk, the Company may also recognize an incremental allowance as a reduction to revenue. At December 31, 2024 and 2023, straight-line rent receivable, net of allowance, was \$338 million and \$310 million, respectively. Straight-line rent receivable is included in other assets, net in the Consolidated Balance Sheets.

The Company's operating leases generally contain options to extend lease terms at prevailing market rates at the time of expiration. Certain operating leases contain early termination options that require advance notice and payment of a penalty, which in most cases is substantial enough to be deemed economically disadvantageous by a tenant to exercise.

Resident Fees and Services

The Company recognizes resident fee and service revenue from its Senior Housing Operating Property ("SHOP") portfolios and CCRC properties in accordance with ASC 606, *Revenue from Contracts with Customers*. Resident fee revenue is recorded when services are rendered and includes resident room and care charges, community fees, and other resident charges. Residency agreements for SHOP and CCRC facilities are generally for a term of 30 days to one year, with resident fees billed monthly, in advance. Revenue for certain care related services is recognized as services are provided and is billed monthly in arrears.

The Company's CCRCs are operated as entrance fee communities, which typically require a resident to pay an upfront entrance fee that includes both a refundable portion and non-refundable portion. When the Company receives a non-refundable entrance fee, it is recorded in deferred revenue in the Consolidated Balance Sheets and amortized into revenue over the estimated stay of the resident. The Company utilizes third-party actuarial experts in its determination of the estimated stay of residents.

Income from Direct Financing Leases

The Company utilizes the direct finance method of accounting to record direct financing lease ("DFL") income. For a lease accounted for as a DFL, the net investment in the DFL represents receivables for the sum of future minimum lease payments and the estimated residual value of the leased property, less the unamortized unearned income. Unearned income is deferred and amortized to income over the lease term to provide a constant yield when collectibility of the lease payments is reasonably assured. During the first quarter of 2022, the Company sold its remaining hospital under a DFL.

Interest Income

Loans receivable are classified as held-for-investment based on management's intent and ability to hold the loans for the foreseeable future or to maturity. Loans held-for-investment are carried at amortized cost and reduced by a valuation allowance for estimated credit losses, as necessary. When collectibility of the future payments is reasonably assured, the Company utilizes the interest method on a loan-by-loan basis to recognize interest income on its loans, which includes the amortization of discounts and premiums as well as loan fees paid and received.

Management Fee Income

The Company provides various services to certain of its unconsolidated joint ventures in exchange for fees and reimbursement. These services are considered related party transactions under ASC 850, *Related Party Disclosures*. Management fee income is recognized in interest income and other on the Consolidated Statements of Operations.

Gain (Loss) on Sales of Real Estate, Net

The Company recognizes a gain (loss) on sale of real estate when the criteria for an asset to be derecognized are met, which include when: (i) a contract exists, (ii) the buyer obtains control of the asset, and (iii) it is probable that the Company will receive substantially all of the consideration to which it is entitled. These criteria are generally satisfied at the time of sale.

[Government Grant Income](#)

Government Grant Income

On March 27, 2020, the federal government enacted the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") to provide financial aid to individuals, businesses, and state and local governments. During the years ended December 31, 2023 and 2022, the Company received government grants under the CARES Act primarily to cover increased expenses and lost revenues during the coronavirus pandemic. Grant income is recognized to the extent that qualifying expenses and lost revenues exceed grants received and the Company will comply with all conditions attached to the grant. As of December 31, 2024, the amount of qualifying expenditures and lost revenues exceeded grant income recognized and the Company believes it has complied and will continue to comply with all grant conditions. In the event of non-compliance, all such amounts received are subject to recapture.

Credit Losses

The Company evaluates the liquidity and creditworthiness of its occupants, operators, and borrowers on a monthly and quarterly basis to determine whether any updates to the future expected losses recognized upon inception are necessary. The Company's evaluation considers payment history and current credit status, industry conditions, current economic conditions, forecasted economic conditions, individual and portfolio property performance, credit enhancements, liquidity, and other factors. Future economic conditions are based primarily on near-term economic forecasts from the Federal Reserve and reasonable assumptions for long-term economic trends. The determination of loan losses also considers concentration of credit risk associated with the senior housing and outpatient medical industries to which its loans receivable relate. The Company's occupants, operators, and borrowers furnish property, portfolio, and guarantor/operator-level financial statements, among other information, on a monthly or quarterly basis; the Company utilizes this financial information to calculate the lease or debt service coverages in its assessment of internal ratings that it uses as a primary credit quality indicator. Lease and debt service coverage information is evaluated together with other property, portfolio, and operator performance information, including revenue, expense, net operating income, occupancy, rental rate, reimbursement trends, capital expenditures, and EBITDA (defined as earnings before interest, tax, and depreciation and amortization), along with other liquidity measures. The Company evaluates, on a monthly basis or immediately upon a significant change in circumstance, its occupants', operators', and borrowers' ability to service their obligations with the Company.

In connection with the Company's quarterly review process or upon the occurrence of a significant event, loans receivable and DFLs (collectively, "finance receivables"), are reviewed and assigned an internal rating of Performing, Watch List, or Workout. Finance receivables that are deemed Performing meet all present contractual obligations, and collection and timing, of all amounts owed is reasonably assured. Watch List finance receivables are defined as finance receivables that do not meet the definition of Performing or Workout. Workout finance receivables are defined as finance receivables in which the Company has determined, based on current information and events, that: (i) it is probable it will be unable to collect all amounts due according to the contractual terms of the agreement, (ii) the tenant, operator, or borrower is delinquent on making payments under the contractual terms of the agreement, and (iii) the Company has commenced action or anticipates pursuing action in the near term to seek recovery of its investment.

Finance receivables are placed on nonaccrual status when management determines that the collectibility of contractual amounts is not reasonably assured (the asset will have an internal rating of either Watch List or Workout). Further, the Company performs a credit analysis to support the tenant's, operator's, borrower's, and/or guarantor's repayment capacity and the underlying collateral values. The Company uses the cash basis method of accounting for finance receivables placed on nonaccrual status unless one of the following conditions exist whereby it utilizes the cost recovery method of accounting if: (i) the Company determines that it is probable that it will only recover the recorded investment in the finance receivable, net of associated allowances or charge-offs (if any), or (ii) the Company cannot reasonably estimate the amount of an impaired finance receivable. For cash basis method of accounting, the Company applies payments received, excluding principal paydowns, to interest income so long as that amount does not exceed the amount that would have been earned under the original contractual terms. For cost recovery method of accounting, any payment received is applied to reduce the recorded investment. Generally, the Company returns a finance receivable to accrual status when all delinquent payments become current under the terms of the loan or lease agreements and collectibility of the remaining contractual loan or lease payments is reasonably assured.

At inception of a finance receivable, the Company recognizes an allowance for credit losses expected to be incurred over the life of the instrument. The model utilized by the Company to determine such losses emphasizes historical experience and future market expectations to determine a loss to be recognized at inception. However, the model is applied on an individual basis and relies on counter-party specific information to ensure the most accurate estimate is recognized. The Company also performs a quarterly review process (or upon the occurrence of a significant event) to evaluate its borrowers' creditworthiness and liquidity to determine the amount of credit losses to recognize during the period. If a finance receivable is deemed partially or wholly uncollectible, the uncollectible balance is deducted from the allowance in the period in which such determination is made. Credit loss expenses and recoveries are recorded in impairments and loan loss reserves (recoveries), net.

[Real Estate](#)

Real Estate

The Company's real estate acquisitions are generally classified as asset acquisitions for which the Company records identifiable assets acquired, liabilities assumed, and any associated noncontrolling interests at cost on a relative fair value basis. In addition, for such asset acquisitions, no goodwill is recognized, third party transaction costs are capitalized and any associated contingent consideration is generally recorded when the amount of consideration is reasonably estimable and probable of being paid.

The Company assesses fair value based on available market information, such as capitalization and discount rates, comparable sale transactions, and relevant per square foot or unit cost information. A real estate asset's fair value may be determined utilizing cash flow projections that incorporate such market information. Estimates of future cash flows are based on a number of factors including historical operating results, known and anticipated trends, as well as market and economic conditions. The fair value of tangible assets of an acquired property is based on the value of the property as if it is vacant.

The Company recognizes acquired "above and below market" leases at their relative fair value (for asset acquisitions) using discount rates which reflect the risks associated with the leases acquired. The fair value is based on the present value of the difference between (i) the contractual amounts paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each in-place lease, measured over a period equal to the remaining term of the lease for above market leases and the initial term plus the extended term for any leases with renewal options that are reasonably certain to be exercised. Other intangible assets acquired include amounts for in-place lease values that are based on an evaluation of the specific characteristics of each property and the acquired tenant lease(s). Factors considered include estimates of carrying costs during hypothetical expected lease-up periods, market conditions, and costs to execute similar leases. In estimating carrying costs, the Company includes estimates of lost rents at market rates during the hypothetical expected lease-up periods, which are dependent on local market conditions and expected trends. In estimating costs to execute similar leases, the Company considers leasing commissions, legal, and other related costs.

Certain of the Company's acquisitions involve the assumption of contract liabilities. The Company typically estimates the fair value of contract liabilities by applying a reasonable profit margin to the total discounted estimated future costs associated with servicing the contract. A variety of market and contract-specific conditions are considered when making assumptions that impact the estimated fair value of the contract liability.

The Company capitalizes direct construction and development costs, including predevelopment costs, interest, property taxes, insurance, and other costs directly related and essential to the development or construction of a real estate asset. The Company capitalizes construction and development costs while substantive activities are ongoing to prepare an asset for its intended use. During the holding or development period, certain real estate assets generate incidental income that is not associated with the future profit or return from the intended use of the property. Such income is recognized as a reduction of the associated project costs. The Company considers a construction project as substantially complete and held available for occupancy upon the completion of Company-owned tenant improvements, but no later than one year from cessation of significant construction activity. Costs incurred after a project is substantially complete and ready for its intended use, or after development activities have ceased, are expensed as incurred. For redevelopment of existing operating properties, the Company capitalizes the cost for the construction and improvement incurred in connection with the redevelopment.

Costs previously capitalized related to abandoned developments/redevelopments are charged to earnings. Expenditures for repairs and maintenance are expensed as incurred. The Company considers costs incurred in conjunction with re-leasing properties, including tenant improvements and lease commissions, to represent the acquisition of productive assets and such costs are reflected as investing activities in the Company's Consolidated Statements of Cash Flows.

Initial direct costs incurred in connection with successful property leasing are capitalized as deferred leasing costs and classified as investing activities in the Consolidated Statements of Cash Flows. Initial direct costs include only those costs that are incremental to the arrangement and would not have been incurred if the lease had not been obtained. Initial direct costs consist of leasing commissions paid to employees and external third party brokers and lease incentives. Initial direct costs are included in other assets, net in the Consolidated Balance Sheets. At December 31, 2024 and 2023, the balance of net initial direct costs were \$204 million and \$172 million, respectively. Initial direct costs are amortized in depreciation and amortization in the Consolidated Statements of Operations using the straight-line method over the lease term.

The Company computes depreciation on properties using the straight-line method over the assets' estimated useful lives. These useful lives are reassessed following changes in the remaining period that the asset is expected to be held and used, and depreciation is discontinued when a property meets the criteria to be classified as held for sale. Buildings and improvements are depreciated over useful lives ranging up to 50 years. Above and below market lease intangibles are amortized to revenue over the remaining noncancellable lease terms and renewal periods that are reasonably certain to be exercised, if any. In-place lease intangibles are amortized to expense over the remaining noncancellable lease term and renewal periods that are reasonably certain to be exercised, if any.

[Business Combinations](#)

Business Combinations

For the Company's real estate acquisitions that are accounted for as business combinations, such as the Merger, the Company allocates the acquisition consideration (excluding acquisition costs) to the assets acquired, liabilities assumed, and noncontrolling interests at fair value as of the acquisition date. Any excess of the consideration transferred relative to the fair value of the net assets acquired is accounted for as goodwill. Acquisition costs related to business combinations are expensed as incurred. The fair values are determined using standard valuation methodologies, such as the cost, market, and income approach. These methodologies require various assumptions, including those of a market participant.

[Other Assets, Net](#)

Other Assets, Net

Other assets, net consist primarily of straight-line rent receivable (as discussed above), initial direct costs (as discussed above), deferred income taxes (see Note 17), goodwill (see Note 10), corporate assets (see Note 7), derivative assets (see Note 22), other equity investments (as discussed below and see Note 19), and prepaid expenses.

Other Equity Investments

The Company has certain investments recognized in accordance with ASC 321, *Investments-Equity Securities*, within other assets, net on the Consolidated Balance Sheets. These investments do not have readily determinable fair values and the practical expedient to estimate fair value using net asset value per share has not been elected. Accordingly, the investments are measured at cost, less any impairments, and are adjusted for any observable price changes, with such changes included in earnings.

An observable price results from an orderly transaction for an identical or similar investment of the same issuer, which is observed by an investor without expending undue cost and effort. Observable price changes may result from equity transactions of the same issuer, including subsequent equity offerings. To determine whether transactions are indicative of an observable price change, the Company evaluates, among other factors, whether the transactions have similar rights and obligations, which include voting rights, distribution rights and preferences, and conversion features.

[Lessee Accounting](#)

Lessee Accounting

For leases greater than 12 months for which the Company is the lessee, such as ground leases and corporate office leases, the Company recognizes a right-of-use asset and related lease liability on the Consolidated Balance Sheets at inception of the lease. The lease liability is calculated as the sum of: (i) the present value of minimum lease payments at lease commencement (discounted using the Company's secured incremental borrowing rate) and (ii) the present value of amounts probable of being paid under any residual value guarantees. Certain of the Company's lease agreements have options to extend or terminate the contract terms upon meeting certain criteria. The lease term utilized in the calculation of the lease liability includes these options if they are considered reasonably certain of exercise. The right-of-use asset is calculated as the lease liability, adjusted for the following: (i) any lease payments made to the lessor at or before the commencement date, minus any lease incentives received and (ii) any initial direct costs incurred by the Company. Lease expense related to corporate assets is included in general and administrative expenses and lease expense related to ground leases is included within operating expenses in the Company's Consolidated Statements of Operations.

For leases with a noncancellable lease term of 12 months or less for which the Company is the lessee, the Company recognizes expenses on a straight-line basis and does not recognize such leases on the Consolidated Balance Sheets.

[Impairment of Long-Lived Assets and Goodwill](#)

Impairment of Long-Lived Assets and Goodwill
The Company assesses the carrying value of real estate assets and related intangibles ("real estate assets") when events or changes in circumstances indicate that the carrying value may not be recoverable. The Company tests its real estate assets for impairment by comparing the sum of the expected future undiscounted cash flows to the carrying value of the real estate assets. The expected future undiscounted cash flows reflect external market factors and the expected use and eventual disposition of the asset, and based on the specific facts and circumstances, may be probability-weighted to reflect multiple possible cash-flow scenarios, including selling the assets at various points in the future. Further, the analysis considers the impact, if any, of master lease agreements on cash flows, which are calculated utilizing the lowest level of identifiable cash flows that are largely independent of the cash flows of other assets and liabilities. If the carrying value exceeds the expected future undiscounted cash flows, an impairment loss will be recognized to the extent that the carrying value of the real estate assets exceeds their fair value.

Determining the fair value of real estate assets, including assets classified as held-for-sale, involves significant judgment and generally utilizes market capitalization rates, comparable market transactions, estimated per unit or per square foot prices, negotiations with prospective buyers, and forecasted cash flows (primarily lease revenue rates, expense rates, and growth rates).

When testing goodwill for impairment, if the Company concludes that it is more likely than not that the fair value of a reporting unit is less than its carrying value, the Company recognizes an impairment loss for the amount by which the carrying value, including goodwill, exceeds the reporting unit's fair value.

[Assets Held for Sale and Discontinued Operations](#)

Assets Held for Sale and Discontinued Operations

The Company classifies a real estate property as held for sale when: (i) management has approved the disposal, (ii) the property is available for sale in its present condition, (iii) an active program to locate a buyer has been initiated, (iv) it is probable that the property will be disposed of within one year, (v) the property is being marketed at a reasonable price relative to its fair value, and (vi) it is unlikely that the disposal plan will significantly change or be withdrawn. If a real estate property is classified as held for sale, it is reported at the lower of its carrying value or fair value less costs to sell and no longer depreciated.

The Company classifies a loan receivable as held for sale when management no longer has the intent and ability to hold the loan receivable for the foreseeable future or until maturity. If a loan receivable is classified as held for sale, it is reported at the lower of amortized cost or fair value.

A discontinued operation represents: (i) a component of the Company or group of components that has been disposed of or is classified as held for sale in a single transaction and represents a strategic shift that has or will have a major effect on the Company's operations and financial results or (ii) an acquired business that is classified as held for sale on the date of acquisition. Examples of a strategic shift may include disposing of: (i) a separate major line of business, (ii) a separate major geographic area of operations, or (iii) other major parts of the Company.

Senior Housing Triple-Net and Senior Housing Operating Portfolio Dispositions

In 2020, the Company concluded that the dispositions of its senior housing triple-net and SHOP portfolios represented a strategic shift that had a major effect on its operations and financial results. Therefore, the results of senior housing triple-net and SHOP assets are classified as discontinued operations in all periods presented herein. In September 2021, the Company successfully completed the disposition of the remaining senior housing triple-net and SHOP properties. See Note 5 for further information.

[Investments in Unconsolidated Joint Ventures](#)

Investments in Unconsolidated Joint Ventures

Investments in entities the Company does not consolidate, but over which the Company has the ability to exercise significant influence over operating and financial policies, are reported under the equity method of accounting. Under the equity method of accounting, the Company's share of the investee's earnings or losses is included in equity income (loss) from unconsolidated joint ventures within the Company's Consolidated Statements of Operations.

The initial carrying value of investments in unconsolidated joint ventures is based on the amount paid to purchase the joint venture interest, the fair value of assets contributed to the joint venture, or the fair value of the assets prior to the sale of interests in the joint venture. To the extent that the Company's cost basis is different from the basis reflected at the joint venture level, the basis difference is generally amortized over the lives of the related assets and liabilities, and such amortization is included in the Company's share of equity in earnings of the joint venture. If an equity method investment shows indicators of impairment, the Company evaluates its equity method investments for impairment based on a comparison of the fair value of the equity method investment to its carrying value. When the Company determines a decline in fair value below carrying value of an investment in an unconsolidated joint venture is other-than-temporary, an impairment is recorded. The Company recognizes gains on the sale of interests in joint ventures to the extent the economic substance of the transaction is a sale.

The Company's fair values of its equity method investments are determined based on discounted cash flow models that include all estimated cash inflows and outflows over a specified holding period and, where applicable, any estimated debt premiums or discounts. Capitalization rates, discount rates, and credit spreads utilized in these valuation models are based on assumptions that the Company believes to be within a reasonable range of current market rates for the respective investments.

Stock-Based Compensation

Compensation expense for share-based awards granted to employees with graded vesting schedules is generally recognized on a straight-line basis over the vesting period. Forfeitures of share-based awards are recognized as they occur.

Cash and Cash Equivalents and Restricted Cash

Cash and cash equivalents consist of cash on hand and short-term investments with original maturities of three months or less when purchased. Restricted cash primarily consists of amounts held by mortgage lenders to provide for: (i) real estate tax expenditures, (ii) tenant improvements, and (iii) capital expenditures, as well as security deposits and net proceeds from property sales that were executed as tax-deferred dispositions.

The Company maintains its cash and cash equivalents at financial institutions insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000 per institution. As the account balances at each institution periodically exceed the FDIC insurance coverage, there is a concentration of credit risk related to amounts in excess of such coverage.

Derivatives and Hedging

During its normal course of business, the Company uses certain types of derivative instruments for the purpose of managing interest rate risk. To qualify for hedge accounting, derivative instruments used for risk management purposes must effectively reduce the risk exposure that they are designed to hedge. In addition, at inception of a qualifying cash flow hedging relationship, the underlying transaction or transactions, must be, and are expected to remain, probable of occurring in accordance with the Company's related assertions.

The Company recognizes all derivative instruments, including embedded derivatives that are required to be bifurcated, as assets or liabilities to the Consolidated Balance Sheets at fair value. Changes in fair value of derivative instruments that are not designated in hedging relationships or that do not meet the criteria of hedge accounting are recognized in other income (expense), net. For derivative instruments designated in qualifying cash flow hedging relationships, changes in fair value related to the effective portion of the derivative instruments are recognized in accumulated other comprehensive income (loss), whereas changes in fair value related to the ineffective portion would be recognized in earnings.

If it is determined that a derivative instrument ceases to be highly effective as a hedge, or that it is probable the underlying forecasted transaction will not occur, the Company discontinues its cash flow hedge accounting prospectively and records the appropriate adjustment to earnings based on the current fair value of the derivative instrument.

[Income Taxes](#)

Income Taxes

Healthpeak Properties, Inc. has elected REIT status and believes it has always operated so as to continue to qualify as a REIT under Sections 856 to 860 of the Internal Revenue Code of 1986, as amended (the "Code"). Accordingly, Healthpeak Properties, Inc. will generally not be subject to U.S. federal income tax, provided that it continues to qualify as a REIT and makes distributions to stockholders equal to or in excess of its taxable income. In addition, the Company has formed several consolidated subsidiaries that have elected REIT status. Healthpeak Properties, Inc. and its consolidated REIT subsidiaries are each subject to the REIT qualification requirements under the Code. If any REIT fails to qualify as a REIT in any taxable year, it will be subject to federal income taxes at regular corporate rates and may be ineligible to qualify as a REIT for four subsequent tax years.

Healthpeak Properties, Inc. and its consolidated REIT subsidiaries are subject to state and local income taxes in some jurisdictions. In certain circumstances each REIT may also be subject to federal excise taxes on undistributed income. In addition, certain activities that the Company undertakes may be conducted by entities that have elected to be treated as taxable REIT subsidiaries ("TRSs"). TRSs are subject to federal, state, and local income taxes. The Company recognizes tax penalties relating to unrecognized tax benefits as additional income tax expense. Interest relating to unrecognized tax benefits is recognized as interest expense.

The Company is required to evaluate its deferred tax assets for realizability and recognize a valuation allowance, which is recorded against its deferred tax assets, if it is more likely than not that the deferred tax assets will not be realized. The Company considers all available evidence in its determination of whether a valuation allowance for deferred tax assets is required.

[Advertising Cost](#)

Advertising Costs

All advertising costs are expensed as incurred and reported within operating expenses on the Consolidated Statements of Operations.

[Capital Raising Issuance Costs](#)

Capital Raising Issuance Costs

Costs incurred in connection with the issuance of common shares are recorded as a reduction of additional paid-in capital. Debt issuance costs related to debt instruments, excluding line of credit arrangements and commercial paper, are deferred, recorded as a reduction of the related debt liability, and amortized to interest expense over the remaining term of the related debt liability utilizing the effective interest method. Debt issuance costs related to line of credit arrangements and commercial paper are deferred, included in other assets, and amortized to interest expense on a straight-line basis over the remaining term of the related line of credit arrangement. Commercial paper are unsecured short-term debt securities with varying maturities. A line of credit serves as a liquidity backstop for repayment of commercial paper borrowings.

Penalties incurred to extinguish debt and any remaining unamortized debt issuance costs, discounts, and premiums are recognized as income or expense in the Consolidated Statements of Operations at the time of extinguishment.

[Segment Reporting](#)

Segment Reporting

The Company's reportable segments, based on how it evaluates its business and allocates resources, are as follows: (i) outpatient medical, (ii) lab, and (iii) CCRC.

[Noncontrolling Interests](#)

Noncontrolling Interests

Arrangements with noncontrolling interest holders are assessed for appropriate balance sheet classification based on the redemption and other rights held by the noncontrolling interest holder. Net income (loss) attributable to a noncontrolling interest is included in net income (loss) on the Consolidated Statements of Operations and, upon a gain or loss of control, the interest purchased or sold, and any interest retained, is recorded at fair value with any gain or loss recognized in earnings. The Company accounts for purchases or sales of equity interests that do not result in a change in control as equity transactions.

Redeemable Noncontrolling Interests

Certain of the Company's noncontrolling interest holders have the ability to put their equity interests to the Company upon specified events or after the passage of a predetermined period of time. Each put option is payable in cash and subject to increases in redemption value in the event that the underlying property generates specified returns and meets certain promote thresholds pursuant to the respective agreements. Accordingly, the Company records redeemable noncontrolling interests outside of permanent equity and presents the redeemable noncontrolling interests at the greater of their carrying amount or redemption value at the end of each reporting period.

Healthpeak OP

Immediately following the Reorganization, Healthpeak Properties, Inc. was the initial sole member and 100% owner of Healthpeak OP. Subsequent to the Reorganization, certain employees of the Company ("OP Unitholders") were issued noncontrolling, non-managing member units in Healthpeak OP ("OP Units"). When certain conditions are met, the OP Unitholders have the right to require redemption of part or all of their OP Units for cash or shares of the Company's common stock, at the Company's option as managing member of Healthpeak OP. The per unit redemption amount is equal to either one share of the Company's common stock or cash equal to the fair value of a share of common stock at the time of redemption. The Company classifies the OP Units in permanent equity because it may elect, in its sole discretion, to issue shares of its common stock to OP Unitholders who choose to redeem their OP Units rather than using cash.

DownREITs

The Company consolidates non-managing member limited liability companies ("DownREITs") because it exercises control, and the noncontrolling interests in these entities are carried at cost. The non-managing member limited liability company ("LLC") units ("DownREIT units") are exchangeable for an amount of cash approximating the then-current market value of shares of the Company's common stock or, at the Company's option, shares of the Company's common stock (subject to certain adjustments, such as stock splits and reclassifications). Upon exchange of DownREIT units for the Company's common stock, the carrying amount of the DownREIT units is reclassified to stockholders' equity.

[Fair Value Measurement](#)

Fair Value Measurement

The Company measures and discloses the fair value of nonfinancial and financial assets and liabilities utilizing a hierarchy of valuation techniques based on whether the inputs to a fair value measurement are considered to be observable or unobservable in a marketplace. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market

assumptions. This hierarchy requires the use of observable market data when available. These inputs have created the following fair value hierarchy:

- Level 1—quoted prices for identical instruments in active markets;
- Level 2—quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which significant inputs and significant value drivers are observable in active markets; and
- Level 3—fair value measurements derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The Company measures fair value using a set of standardized procedures that are outlined herein for all assets and liabilities that are required to be measured at fair value. When available, the Company utilizes quoted market prices to determine fair value and classifies such items in Level 1. In instances where a market price is available, but the instrument is in an inactive or over-the-counter market, the Company consistently applies the dealer (market maker) pricing estimate and classifies the asset or liability in Level 2.

If quoted market prices or inputs are not available, fair value measurements are based on valuation models that utilize current market or independently sourced market inputs, such as interest rates, option volatilities, credit spreads, and/or market capitalization rates. Items valued using such internally-generated valuation techniques are classified according to the lowest level input that is significant to the fair value measurement. As a result, the asset or liability could be classified in either Level 2 or Level 3 even though there may be some significant inputs that are readily observable. Internal fair value models and techniques used by the Company include discounted cash flow models. The Company also considers its counterparty's and own credit risk for derivative instruments and other liabilities measured at fair value. The Company has elected the mid-market pricing expedient when determining fair value.

Earnings per Share

Recent Accounting Pronouncements

Earnings per Share
Basic earnings per common share is computed by dividing net income (loss) applicable to common shares by the weighted average number of shares of common stock outstanding during the period. The Company accounts for unvested share-based payment awards that contain non-forfeitable dividend rights or dividend equivalents (whether paid or unpaid) as participating securities, which are included in the computation of earnings per share pursuant to the two-class method. Diluted earnings per common share is calculated by including the effect of dilutive securities, such as the impact of forward equity sales agreements using the treasury stock method and common shares issuable from the assumed conversion of DownREIT units, stock options, certain performance restricted stock units, OP Units, and unvested restricted stock units.

Recent Accounting Pronouncements

Adopted
Segment Reporting. In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* ("ASU 2023-07"), to improve reportable segment disclosure requirements so that investors can better understand an entity's overall performance and assess potential future cash flows. The amendments in ASU 2023-07 include, but are not limited to: (i) disclosure of, on an annual basis, significant segment expenses that are regularly provided to the chief operating decision maker ("CODM") and included within each reported measure of segment profit or loss; (ii) disclosure of, on an annual and interim basis, an amount for other segment items by reportable segment and a description of its composition (the other segment items category is the difference between segment revenue less the significant expenses disclosed and each reported measure of segment profit or loss); (iii) disclosure of, on an interim basis, all currently required annual disclosures about a reportable segment's profit (loss) and assets; (iv) clarification that if the CODM uses more than one measure of a segment's profit or loss in assessing segment performance and deciding how to allocate resources, an entity may report one or more of those additional measures of segment profit; and (v) disclosure of the title and position of the CODM and an explanation of how the CODM uses the reported measure(s) of segment profit or loss in assessing segment performance and deciding how to allocate resources. During the year ended December 31, 2024, the amendments in ASU 2023-07 were adopted retrospectively and did not have an impact on the Company's consolidated financial position, results of operations, or cash flows.

Not Yet Adopted
Income Taxes. In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* ("ASU 2023-09"), to provide disaggregated information about a reporting entity's effective tax rate reconciliation as well as information on income taxes paid. One of the amendments in ASU 2023-09 includes disclosure of, on an annual basis, a tabular rate reconciliation (using both percentages and reporting currency amounts) of (i) the reported income tax expense (or benefit) from continuing operations, to (ii) the product of the income (or loss) from continuing operations before income taxes and the applicable statutory federal income tax rate of the jurisdiction of domicile using specific categories, including separate disclosure for any reconciling items within certain categories that are equal to or greater than a specified quantitative threshold of 5%. ASU 2023-09 also requires disclosure of, on an annual basis, the year-to-date amount of income taxes paid (net of refunds received) disaggregated by federal, state, and foreign jurisdictions, including additional disaggregated information on income taxes paid (net of refunds received) to an individual jurisdiction equal to or greater than 5% of total income taxes paid (net of refunds received). The amendments in ASU 2023-09 are effective for annual periods beginning after December 15, 2024. The Company is evaluating the impact ASU 2023-09 will have on its disclosures.

Expense Disaggregation. In November 2024, the FASB issued ASU No. 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses* ("ASU 2024-03"), to address requests from investors for more detailed information about the types of expenses in commonly presented expense captions. ASU 2024-03 requires public companies to provide disaggregated disclosure in tabular format in the notes to financial statements of specific expenses, including but not limited to: (i) employee compensation, (ii) depreciation, and (iii) intangible asset amortization. In January 2025, the FASB issued ASU No. 2025-01, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Clarifying the Effective Date*, which clarifies that the amendments in ASU 2024-03 are effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027. The Company is evaluating the impact these ASUs will have on its disclosures.

The Merger (Tables)

Business Combination, Asset Acquisition, and Joint Venture Formation [Abstract] Schedule of Consideration Transferred

		12 Months Ended
		Dec. 31, 2024
The consideration transferred on the Closing Date is as follows (in thousands, except per share data):		
		March 1, 2024
Physicians Realty Trust common shares and Physicians Realty Trust restricted shares, PSUs, and RSUs exchanged ⁽¹⁾		240,699
Exchange Ratio		0.674
Shares of Healthpeak common stock issued		162,231
Closing price of Healthpeak common stock on March 1, 2024 ⁽²⁾	\$	17.10
Fair value of Healthpeak common stock issued to the former holders of Physicians Realty Trust common shares, restricted shares, PSUs, and RSUs	\$	2,774,147
Less: Fair value of share consideration attributable to the post-combination period ⁽³⁾		(16,223)
Physicians Realty Trust revolving credit facility termination ⁽⁴⁾	\$	175,411
Settlement of Physicians Realty Trust's transaction costs		23,913
Payments made in connection with share settlement ⁽⁵⁾		11,315
Cash consideration	\$	210,639
Consideration transferred	\$	2,968,563
⁽¹⁾ Includes 241 million Physicians Realty Trust common shares and Physicians Realty Trust restricted shares outstanding as of March 1, 2024, inclusive of: (i) 200 thousand Physicians Realty Trust restricted shares; (ii) 1 million Physicians Realty Trust common shares issuable pursuant to outstanding Physicians Realty Trust performance-based restricted stock unit ("PSUs") (reflected at the maximum level of performance); and (iii) 300 thousand Physicians Realty Trust common shares issuable pursuant to outstanding Physicians Realty Trust restricted stock units ("RSUs").		
⁽²⁾ The fair value of Healthpeak common stock issued to former holders of Physicians Realty Trust common shares and Physicians Realty Trust restricted shares, PSUs, and RSUs was based on the per share closing price of Healthpeak common stock on March 1, 2024.		
⁽³⁾ Represents the fair value of unvested Physicians Realty Trust restricted shares, PSUs, and RSUs attributable to post-combination services that were converted into Healthpeak common stock on the Closing Date in accordance with the Merger Agreement. Although no future service after the Closing Date is required, the value attributable to post-combination services reflected the incremental fair value provided to the Physicians Realty Trust equity award holders and the accelerated vesting of such awards at the Closing Date in accordance with the Merger Agreement. This amount was recognized as transaction and merger-related costs on the Consolidated Statements of Operations.		
⁽⁴⁾ Represents the Company's cash repayment of all outstanding balances under Physicians Realty Trust's revolving credit facility on the Closing Date in connection with the related termination.		
⁽⁵⁾ Includes cash settlement of: (i) tax liability related to holdback elections made under the pre-existing terms and conditions of Physicians Realty Trust's equity programs and (ii) fractional share consideration.		
The following table summarizes the estimated fair values of the assets acquired, liabilities assumed, and noncontrolling interests at the Closing Date (in thousands):

Leases (Tables)

[Leases \[Abstract\]](#)
[Schedule of Company's Lease Income, Excluding Discontinued Operation](#)

The following table summarizes the Company's lease income (in thousands):

	Year Ended December 31,		
	2024	2023	2022
Fixed income from operating leases	\$ 1,530,493	\$ 1,236,502	\$ 1,182,463
Variable income from operating leases	556,703	395,303	359,312
Interest income from direct financing leases	—	—	1,168

[Schedule of Future Minimum Lease Payments Due Under Operating Leases](#)

The following table summarizes future minimum lease payments to be received from tenants under non-cancelable operating leases as of December 31, 2024 (in thousands):

Year	Amount
2025	\$ 1,427,402
2026	1,339,275
2027	1,246,068
2028	1,138,062
2029	1,003,394
Thereafter	3,681,731
	<u>\$ 9,835,932</u>

[Schedule of Tenant Purchase Options](#)

Certain leases contain purchase options whereby the tenant may elect to acquire the underlying real estate. Annualized base rent from leases subject to purchase options, summarized by the year the purchase options are exercisable are as follows (dollars in thousands):

Year	Annualized Base Rent ⁽¹⁾	Number of Properties
2025	\$ 16,109	12
2026	19,071	8
2027	8,415	4
2028	16,209	5
2029	6,053	7
Thereafter	22,364	9
	<u>\$ 88,221</u>	<u>45</u>

(1) Represents the most recent month's base rent including additional rent floors annualized for 12 months. Base rent does not include tenant recoveries, additional rents in excess of floors, and non-cash revenue adjustments (i.e., straight-line rents, amortization of market lease intangibles, and deferred revenues).

[Schedule of Other Lease Information](#)

The following tables provide information regarding the Company's leases to which it is the lessee, such as corporate offices and ground leases, excluding lease costs related to discontinued operations (dollars in thousands):

Lease Expense Information:	Year Ended December 31,		
	2024	2023	2022
Total lease expense	\$ 22,768	\$ 17,010	\$ 16,689

Weighted Average Lease Term and Discount Rate:	December 31,	December 31,
	2024	2023
Weighted average remaining lease term (years):		
Operating leases ⁽¹⁾	48	51
Weighted average discount rate:		
Operating leases	4.79 %	4.23 %

(1) As of December 31, 2024 and 2023, the weighted average remaining lease term including the Company's options to extend its operating leases was 66 years and 67 years, respectively.

[Schedule of Future Minimum Lease Obligations, 842](#)

The following table summarizes future minimum lease payments under non-cancelable ground and other operating leases included in the Company's lease liability as of December 31, 2024 (in thousands):

Year	Amount

**Loans Receivable
(Tables)**

**12 Months Ended
Dec. 31, 2024**

[Receivables \[Abstract\]](#)

[Schedule of Loans Receivable](#)

The following table summarizes the Company's loans receivable (in thousands):

	December 31,	
	2024	2023
Secured loans ⁽¹⁾⁽²⁾	\$ 638,482	\$ 178,678
CCRC resident loans	61,273	42,733
Mezzanine loans ⁽²⁾	50,314	—
Unamortized discounts and fees ⁽³⁾	(22,380)	(131)
Reserve for loan losses	(10,499)	(2,830)
Loans receivable, net	\$ 717,190	\$ 218,450

(1) At December 31, 2024, the Company had \$85 million of remaining commitments to fund additional loans for outpatient medical capital expenditure projects, of which \$49 million related to loans acquired as part of the Merger. At December 31, 2023, the Company had \$29 million of remaining commitments to fund additional loans for senior housing redevelopment and capital expenditure projects. This \$29 million commitment was reduced to zero in February 2024 in conjunction with the refinance of the Sunrise Senior Housing Portfolio Seller Financing as discussed below.

(2) Includes secured loans and mezzanine loans acquired as part of the Merger (see Note 3).

(3) As of December 31, 2024, includes net unamortized discounts of \$3 million related to the loans receivable acquired as part of the Merger (see Note 3) and an \$18 million unamortized mark-to-market discount related to the Outpatient Medical Seller Financing as discussed below.

[Summary of the Company's Internal Ratings for Loans Receivable on Net of Reserves for Loan Losses](#)

The following table summarizes, by year of origination, the Company's internal ratings for loans receivable, net of unamortized discounts, fees, and reserves for loan losses, as of December 31, 2024 (in thousands):

Outpatient Medical JVs ⁽⁶⁾	Outpatient medical	2	20 - 67	7,199	7,941
				\$ 936,814	\$ 782,853

(1) These entities are not consolidated because the Company does not control, through voting rights or other means, the joint ventures.

- (2) Property counts and ownership percentages are as of December 31, 2024.
- (3) Includes multiple unconsolidated lab joint ventures in South San Francisco, California in which the Company holds a 70% ownership percentage in each joint venture. These joint ventures have been aggregated herein due to similarity of the investments and operations.
- (4) Includes unconsolidated joint ventures acquired as part of the Merger (see Note 3). The properties underlying the PMAK JV are excluded from the Company's total property count.
- (5) Land held for development is excluded from the property count as of December 31, 2024.
- (6) Includes two unconsolidated outpatient medical joint ventures in which the Company holds an ownership percentage as follows: (i) Ventures IV (20%) and (ii) Suburban Properties, LLC (67%). In April 2023, the Company acquired the remaining 80% interest in one of the two properties that were in the Ventures IV unconsolidated joint venture for \$4 million (see Note 4). These joint ventures have been aggregated herein due to similarity of the investments and operations.

Intangibles (Tables)

Intangibles [Abstract]
Schedule of Intangible Lease Assets

12 Months Ended
Dec. 31, 2024

The following table summarizes the Company's intangible lease assets (dollars in thousands):

Intangible lease assets	December 31,	
	2024	2023
Gross intangible lease assets ⁽¹⁾	\$ 1,468,985	\$ 739,228
Accumulated depreciation and amortization ⁽²⁾	(651,731)	(425,072)
Intangible assets, net	\$ 817,254	\$ 314,156

Weighted average remaining amortization period in years	5	5

- (1) As of December 31, 2024 and 2023, includes \$1.42 billion and \$725 million, respectively, of gross lease-up intangibles and \$45 million and \$14 million, respectively, of gross above market lease intangibles.
- (2) As of December 31, 2024 and 2023, includes \$640 million and \$418 million, respectively, of accumulated depreciation and amortization on lease-up intangibles and \$12 million and \$7 million, respectively, of accumulated depreciation and amortization on above market lease intangibles.

Intangible liabilities consist of below market lease intangibles. The following table summarizes the Company's intangible lease liabilities (dollars in thousands):

Intangible lease liabilities	December 31,	
	2024	2023
Gross intangible lease liabilities	\$ 351,602	\$ 228,105
Accumulated depreciation and amortization	(159,718)	(100,725)
Intangible liabilities, net	\$ 191,884	\$ 127,380

Weighted average remaining amortization period in years	9	7

Schedule of Amortization of Deferred Lease Costs and Acquisition Related Intangibles

The following table sets forth amortization related to intangible assets, net and intangible liabilities, net (in thousands):

	Year Ended December 31,		
	2024	2023	2022
Depreciation and amortization expense related to amortization of lease-up intangibles	\$ 273,146	\$ 102,249	\$ 104,885
Rental and related revenues related to amortization of net below market lease liabilities	62,894	27,012	24,640

Schedule of Estimated Aggregate Amortization of Intangible Assets and Liabilities for Each of the Five Succeeding Fiscal Years and Thereafter

The following table summarizes the estimated annual amortization for each of the five succeeding fiscal years and thereafter (in thousands):

	Rental and Related Revenues	Depreciation and Amortization
2025	\$ 32,618	\$ 256,925
2026	29,231	171,520
2027	23,304	107,925
2028	17,899	77,072
2029	13,168	53,829
Thereafter	42,816	117,135
	\$ 159,036	\$ 784,406

Schedule of Goodwill

At December 31, 2024 and 2023, goodwill was allocated to the Company's segment assets as follows (in thousands):

Segment	December 31, 2024	December 31, 2023
Outpatient medical	\$ 64,680	\$ 14,178
CCRC	1,998	1,998
Other non-reportable	1,851	1,851
	\$ 68,529	\$ 18,027

Debt (Tables)

Debt Disclosure [Abstract]
Schedule of Senior Unsecured Notes

12 Months Ended
Dec. 31, 2024

The following table summarizes the Company's senior unsecured note issuances for the year ended December 31, 2023 (dollars in thousands):

Issue Date	Amount	Coupon Rate	Maturity Year
January 17, 2023	\$ 400,000	5.25 %	2032
May 10, 2023 ⁽¹⁾	350,000	5.25 %	2032

- (1) In May 2023, the Company issued \$350 million of 5.25% senior unsecured notes due 2032, which constituted an additional issuance of, and are treated as a single series with, the \$400 million of senior unsecured notes due 2032 issued in January 2023.

The following table summarizes the Company's stated debt maturities and scheduled principal repayments at December 31, 2024 (dollars in thousands):

Year	Bank Line of Credit ⁽¹⁾	Commercial Paper ⁽¹⁾⁽²⁾	Term Loans	Senior Unsecured Notes ⁽³⁾		Mortgage Debt ⁽⁴⁾		Total
				Amount	Interest Rate ⁽⁵⁾	Amount	Interest Rate ⁽⁵⁾	
2025	\$ —	\$ —	\$ —	\$ 800,000	3.92 %	\$ 7,432	6.28 %	\$ 807,432
2026	—	—	—	650,000	3.40 %	344,999	5.13 %	994,999
2027	—	—	500,000	850,000	3.23 %	842	5.59 %	1,350,842
2028	—	—	400,000	850,000	3.53 %	2,775	5.34 %	1,252,775
2029	—	150,000	750,000	650,000	3.65 %	—	— %	1,550,000
Thereafter	—	—	—	2,900,000	4.51 %	—	— %	2,900,000
	—	150,000	1,650,000	6,700,000		356,048		8,856,048
Premiums, (discounts), and debt issuance costs, net	—	—	(3,957)	(136,744)		702		(139,999)
	\$ —	\$ 150,000	\$ 1,646,043	\$ 6,563,256		\$ 356,750		\$ 8,716,049

- (1) As of December 31, 2024, total unamortized debt issuance costs for the Revolving Facility and Commercial Paper Program were \$18 million, which are recorded in other assets, net on the Consolidated Balance Sheets.
- (2) Commercial Paper Program borrowings are backstopped by the availability under the Revolving Facility. As such, the Company calculates the weighted average remaining term of its Commercial Paper Program borrowings using the maturity date of the Revolving Facility.
- (3) Effective interest rates on the senior unsecured notes range from 1.54% to 6.87% with a weighted average effective interest rate of 3.96% and a weighted average maturity of approximately 5 years.
- (4) Effective interest rates on the mortgage debt range from 3.44% to 8.50% with a weighted average effective interest rate of 5.16% and a weighted average maturity of approximately 2 years. These interest rates include the impact of designated interest rate swap instruments, which effectively fix the interest rate on certain variable rate debt.
- (5) Represents the weighted-average effective interest rate as of the end of the applicable period, including amortization of debt premiums (discounts) and debt issuance costs.

Commitments and Contingencies (Tables)

Commitments and Contingencies [Abstract]
Disclosure [Abstract]
Summary of Material Commitments

12 Months Ended
Dec. 31, 2024

The following table summarizes the Company's material commitments, excluding obligations as the lessee under operating leases (see Note 7), commitments to fund additional loans for outpatient medical capital expenditure projects (see Note 8), debt service obligations (see Note 11), and potential future obligations related to redeemable noncontrolling interests (see Note 13) at December 31, 2024 (in thousands):

	Amount
Development and redevelopment commitments ⁽¹⁾	\$ 199,139
Lease and other contractual commitments ⁽²⁾	84,654
Letters of credit ⁽³⁾	11,929
	\$ 295,722

- (1) Represents construction and other commitments as of December 31, 2024 for developments and redevelopments in progress and includes allowances for Company-owned tenant improvements that the Company has provided as a lessor.
- (2) Represents the Company's commitments, as lessor, under signed leases and contracts for operating properties as of December 31, 2024 and includes allowances for Company-owned tenant improvements and leasing commissions. Excludes allowances for Company-owned tenant improvements related to developments and redevelopments in progress for which the Company has executed an agreement with a general contractor to complete the tenant improvements (recognized in the "Development and redevelopment commitments" line).
- (3) Represents 15 outstanding letter of credit obligations expiring in 2025 and one outstanding letter of credit obligation expiring in 2026.

Nondividend distributions	0.184500	0.173316	0.143844
	\$ 1.200000	\$ 1.200000	\$ 1.200000

(1) For the year ended December 31, 2024, all \$0.720440 of ordinary dividends qualified as business income for purposes of Code Section 199A. For the year ended December 31, 2023, the amount includes \$0.882312 of ordinary dividends qualified as business income for purposes of Code Section 199A and \$0.027380 of qualified dividend income for purposes of Code Section 1(h)(11). For the year ended December 31, 2022, all \$0.872948 of ordinary dividends qualified as business income for purposes of Code Section 199A.

(2) For the years ended December 31, 2024, 2023, and 2022, the amount includes \$0.215960, \$0.036256, and \$0.017760, respectively, of unrecaptured Code Section 1250 gain. Pursuant to Treasury Regulation Section 1.1061-6(c), the Company is disclosing additional information related to the capital gain dividends for purposes of Section 1061 of the Code. Code Section 1061 is generally applicable to direct and indirect holders of "applicable partnership interests." For the years ended December 31, 2024 and 2023, the "One Year Amounts" and "Three Year Amounts" are each zero, since all capital gains relate to Code Section 1231 gains. For the year ended December 31, 2022, the "One Year Amounts" and "Three Year Amounts" are each 89.6708% of the total capital gain distributions and the remaining capital gain distributions are attributable to Code Section 1231 gains, which are not subject to Code Section 1061.

(3) For the years ended December 31, 2024, 2023, and 2022, 100%, 100%, and 10.3292%, respectively, of the capital gain distributions represent gains from dispositions of U.S. real property interests pursuant to Code Section 897 for foreign shareholders.

Schedule of Income Tax Expense (Benefit) From Continuing Operations

The total income tax benefit (expense) from continuing operations consists of the following components (in thousands):

	2024	2023	2022
Current			
Federal	\$ (2,389)	\$ (1,663)	\$ (632)

Fair Value
Measurements
(Tables)

Fair Value Disclosures [Abstract]
Summary of the Carrying Values and
Fair Values of Financial Instruments

The table below summarizes the carrying amounts and fair values of the Company's financial instruments either recorded or disclosed on a recurring basis (in thousands):

	December 31,			
	2024 ⁽¹⁾		2023 ⁽¹⁾	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Loans receivable, net ⁽²⁾	\$ 717,190	\$ 729,637	\$ 218,450	\$ 218,450
Interest rate swap assets ⁽²⁾	35,120	35,120	21,359	21,359
Bank line of credit and commercial paper ⁽²⁾	150,000	150,000	720,000	720,000
Term loans ⁽²⁾	1,646,043	1,646,043	496,824	496,824
Senior unsecured notes ⁽¹⁾	6,563,256	6,373,528	5,403,378	5,144,667
Mortgage debt ⁽²⁾	356,750	350,292	256,097	244,135

- (1) Level 1: Fair value is calculated based on quoted prices in active markets.
(2) Level 2: For loans receivable, net, interest rate swap instruments, and mortgage debt, fair value is based on standardized pricing models in which significant inputs or value drivers are observable in active markets. For bank line of credit, commercial paper, and term loans, the carrying values are a reasonable estimate of fair value because the borrowings are primarily based on market interest rates and the Company's credit rating.
(3) During the years ended December 31, 2024 and 2023, there were no material transfers of financial assets or liabilities within the fair value hierarchy.

Instruments (Tables)

Derivative
Instruments and
Hedging Activities
Disclosure [Abstract]

Schedule of Derivative
Instruments

The following table summarizes the Company's interest rate swap instruments (in thousands):

Date Entered ⁽¹⁾	Maturity Date	Hedge Designation	Notional Amount	Pay Rate	Receive Rate	Fair Value ⁽²⁾	
						December 31, 2024	December 31, 2023
April 2022	May 2026	Cash flow	\$ 51,100	4.99 %	USD-SOFR w/ -5 Day Lookback + 2.50%	\$ 1,050	\$ 1,602
April 2022	May 2026	Cash flow	91,000	4.54 %	USD-SOFR w/ -5 Day Lookback + 2.05%	1,870	2,851
August 2022	February 2027	Cash flow	250,000	2.60 %	1 mo. USD-SOFR CME Term	7,224	7,933
August 2022	August 2027	Cash flow	250,000	2.54 %	1 mo. USD-SOFR CME Term	9,122	8,973
May 2023 ⁽³⁾⁽⁴⁾	May 2028	Cash flow	400,000	3.59 %	USD-SOFR w/ -5 Day Lookback	4,887	—
January 2024 ⁽⁵⁾	February 2029	Cash flow	750,000	3.59 %	USD-SOFR w/ -5 Day Lookback	10,967	—
						\$ 35,120	\$ 21,359

- (1) Represents interest rate swap instruments that hedge fluctuations in interest payments on variable rate debt by converting the interest rates to fixed interest rates. The changes in fair value of designated derivatives that qualify as cash flow hedges are recorded in accumulated other comprehensive income (loss) on the Consolidated Balance Sheets.
(2) Derivative assets are recorded at fair value in other assets, net on the Consolidated Balance Sheets.
(3) Includes interest rate swap instruments acquired as part of the Merger (see Note 3). The interest rate swap instrument on \$36 million of mortgage debt that was acquired as part of the Merger matured in October 2024 and has been excluded herein. These interest rate swap instruments were redesignated as cash flow hedges on the Closing Date. As a result of the Merger, the aggregate fair value of these interest rate swap instruments was determined to be \$7 million on March 1, 2024, which was recognized within other assets, net on the Consolidated Balance Sheets on the Closing Date. The aggregate fair value as of the Closing Date is being amortized into interest expense on the Consolidated Statements of Operations over the terms of the related interest rate swap instruments. During the year ended December 31, 2024, the Company recognized \$2 million of related amortization into interest expense.
(4) Includes two interest rate swap instruments each with notional amounts of \$110 million and one interest rate swap instrument with a notional amount of \$180 million.
(5) Includes the following: (i) two interest rate swap instruments each with a pay rate of 3.56% and \$50 million notional amount; (ii) three interest rate swap instruments each with a pay rate of 3.57% and \$50 million notional amount; (iii) one interest rate swap instrument with a pay rate of 3.58% and \$100 million notional amount; (iv) five interest rate swap instruments each with a pay rate of 3.60% and \$50 million notional amount; and (v) three interest rate swap instruments each with a pay rate of 3.61% and \$50 million notional amount.
