#### (1) Basis of Presentation and Accounting Policies

## Basis of Presentation

Certain information and footnote disclosures normally included in the financial statements prepared in accordance with United States Generally Accepted Accounting Principles ("GAAP") have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission, although we believe that the disclosures are adequate to make the information presented not misleading. These Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements included in our **2022** **2023** Annual Report on Form 10-K.

The information furnished reflects all adjustments that, in the opinion of management, were necessary for a fair statement of the Consolidated Financial Statements for the periods presented. Such adjustments were of a normal recurring nature, unless otherwise disclosed.

### Allowance for **Doubtful Accounts** **Expected Credit Losses**

We have an allowance for **doubtful accounts** **expected credit losses** recorded as an estimate of the accounts receivable that may not be collected. This allowance is calculated on an entity-by-entity basis with consideration of historical write-off experience, age of receivables, market conditions, and a specific review for **potential bad debts**. **expected credit losses**. Items that affect this balance mainly include **bad debt expense** **provision for expected credit loss** and the write-off of accounts receivable balances.

A rollforward of our allowance for **doubtful accounts** **expected credit losses** is shown below:

## Leases

We determine whether a contract is or contains a lease at contract inception. Right-of-use ("ROU") assets and long-term lease liabilities are presented as separate line items on our Consolidated Balance Sheets. Current operating lease liabilities are included in accrued **expenses** **liabilities** on our Consolidated Balance Sheets.

ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Lease liabilities are recognized at commencement date based on the present value of remaining lease

payments over the lease term. As the rate implicit in the lease is not readily determinable in most of our leases, we use our incremental borrowing rate. We determine our incremental borrowing rate at the commencement date using our unsecured borrowing rate, adjusted for collateralization, lease term, economic environment, currency and other factors. ROU assets are recognized at commencement date at the value of the related lease liabilities, adjusted for any prepayments, lease incentives received, and initial direct costs incurred. Our lease terms include options to renew or not terminate the lease when it is reasonably certain that we will exercise that option.

Lease expenses for operating leases are recognized on a straight-line basis over the lease term and recorded in selling and administrative expenses on the Consolidated Statements of Operations.

#### *Goodwill Impairment*

In accordance with the accounting guidance on goodwill, we perform an annual impairment test of goodwill at our reporting unit level during the third quarter, or more frequently if events or circumstances change that would more likely than not reduce the fair value of our reporting units below their carrying value.

We evaluate the recoverability of goodwill utilizing an income approach that estimates the fair value of the future discounted cash flows to which the goodwill relates. This approach reflects management's internal outlook of the reporting units, which is believed to be the best determination of value due to management's insight and experience with the reporting units. Significant assumptions used in our goodwill impairment tests include: expected future revenue growth rates, operating unit profit margins, working capital levels, discount rates, and a terminal value multiple.

During the third quarter of 2023, we performed our annual impairment test of our goodwill and indefinite-lived intangible assets and determined that there was no impairment of our goodwill or indefinite-lived intangible assets.

The fair value of each reporting unit at the time of our annual impairment test was at least 20% in excess of the respective reporting unit's carrying value with the exception of the Netherlands reporting unit. The Netherlands reporting unit, which is part of the Northern Europe segment, had a fair value that approximated its carrying value. Key assumptions included in the Netherlands discounted cash flow valuation performed at our 2023 annual impairment test included a discount rate of 12.5%, revenue growth for the next 10 years ranging from -1.2% to 6.4%, a terminal value revenue growth rate of 2.0%, and a terminal value OUP margin of 3.2%.

Management closely monitors the results of all the reporting unit units and comparisons to the key assumptions used in our fair value estimate at the time of our annual impairment test, in addition to operational initiatives and macroeconomic conditions, which may impact the results of the reporting unit. The performance units. All of the Netherlands reporting unit and the potential for future developments in the global economic environment, including the prospect of higher interest rates, introduces a heightened risk for impairment in the Netherlands reporting unit. If management determines that the Netherlands reporting unit cannot improve from its current operating levels and meet its operating targets to achieve the growth and margin assumptions noted above, or if there is continued deterioration in the market due to macroeconomic conditions, some or all of the recorded goodwill for the Netherlands reporting unit, which was \$54.4 as of September 30, 2023, could be subject to impairment.

While our other reporting units' fair values exceeded their respective carrying values by 20% or more there besides the Netherlands reporting unit, for which we recognized a full impairment of the remaining goodwill balance as of December 31, 2023. There could be significant further decreases in the operating results of our reporting units for a sustained period, which may result in a recognition of goodwill impairment that could be material to the Consolidated Financial Statements.

## **(2) Recent Accounting Standards**

### *Accounting Standards Effective as of January 1, 2023*

In November 2021, the FASB issued new guidance on business combinations. The guidance added the contract assets and contract liabilities to the list of exceptions to the recognition and measurement principles that apply to business combinations and requires that an acquirer recognize and measure contract assets and contract liabilities acquired in a business combination in accordance with the revenue recognition standard.

The new guidance was effective for us as of January 1, 2023. The adoption of this guidance had no impact on our Consolidated Financial Statements. January 1, 2024

In March 2020, the FASB issued new guidance on accounting for contract modifications, including hedging relationships, due to the transition from LIBOR and other interbank offerings related to alternative reference interest rates. The guidance was effective upon issuance and can be applied to applicable contract modifications through December 31, 2024. The adoption of this guidance has not had any impact on our Consolidated Financial Statements, and we do not expect it to have a material impact going forward.

### *Recently Issued Accounting Standards*

In November 2023, the FASB issued new guidance on segment reporting. The guidance requires an annual and interim disclosure of significant segment expenses that are (1) regularly provided to the chief operating decision maker and (2) included in the reported measure of segment profit or loss. The guidance also allows companies to disclose multiple measures of segment profit or loss if those measures are used to assess performance and allocate resources. The new guidance is effective for our 2024 annual disclosures and subsequent quarters, and should be adopted retrospectively. We are currently assessing the impact of the adoption of this guidance on our financial statement disclosures.

In December 2023, the FASB issued a final standard on improvements to income tax disclosures. The guidance requires that public entities on an annual basis disclose disaggregated information about the rate reconciliation as well as income taxes paid. The new standard is effective for our 2025 annual disclosures and will be adopted prospectively. We are currently assessing the impact of the adoption of this guidance on our financial statement disclosures.

## **(3) Revenue Recognition**

For certain client contracts where we recognize revenues over time, we recognize the amount that we have the right to invoice, which corresponds directly to the value provided to the client of our performance to date.

We do not disclose the amount of unsatisfied performance obligations for client contracts with an original expected length of one year or less and those client contracts for which we recognize revenues at the amount to which we have the right to invoice for services performed. We have other contracts with revenues expected to be recognized subsequent to **September 30, 2023** **March 31, 2024**, related to remaining performance obligations, which are not material.

We record accounts receivable when our right to consideration becomes unconditional. Contract assets primarily relate to our rights to consideration for services provided that they are conditional on satisfaction of future performance obligations. We record contract liabilities (deferred revenue) when payments are made or due prior to the related performance obligations being satisfied. The current portion of our contract liabilities is included in accrued liabilities in our Consolidated Balance Sheets. We do not have any material contract assets or long-term contract liabilities.

10

Our deferred revenue was \$31.5 ~~33.1~~ as of ~~September 30, 2023~~ ~~March 31, 2024~~ and \$35.6 ~~31.9~~ as of ~~December 31, 2022~~ ~~December 31, 2023~~.

In the following table, revenue is disaggregated by service types for each of our reportable segments. See Note 2 to the Consolidated Financial Statements in our ~~2022~~ ~~2023~~ Annual Report on Form 10-K for descriptions of revenue service types.

#### **(4) Share-Based Compensation Plans**

During the three months ended **September 30, 2023** **March 31, 2024** and **2022, 2023**, we recognized share-based compensation expense of **\$8.0** **7.5** and **\$7.6** **5.1**, respectively, and **\$20.0** and **\$29.2** for the nine months ended **September 30, 2023** and **2022**, respectively. The expense relates to stock options, deferred stock units, restricted stock units and performance share units. Lower expense in the nine months ended **September 30, 2023** resulted primarily from lower estimated payouts related to performance share units. We recognize share-based compensation expense in selling and administrative expenses on a straight-line basis over the service period of each award. Consideration received from share-based awards was **\$1.8** **0.4** and **\$0.4** **1.7** for the **nine** **three** months ended **September 30, 2023** **March 31, 2024** and **2022, 2023**, respectively.

## **(5) Acquisitions and Dispositions**

From time to time, we acquire and invest in companies throughout the world, including franchises. No cash consideration was paid during the nine months ended September 30, 2023. For the nine months ended September 30, 2022 March 31, 2024, the total cash consideration paid for acquisitions, net of cash acquired, was \$18.1 1.1, which primarily represents a contingent consideration payment for related to a previous acquisition. No cash consideration was paid during the acquisition of Tingari, a talent solutions company in France, and contingent consideration payments associated with previous acquisitions. three months ended March 31, 2023.

Occasionally, we dispose of parts of our operations based on risk considerations and to optimize our global strategic and geographic footprint and overall efficiency. On September 29, 2023, we disposed of our Philippines business in our APME segment for total consideration of \$6.5. In connection with the disposition, we recognized a one-time net loss on disposition of \$1.3.

## **(6) Restructuring Costs**

During the nine months ended September 30, 2023 March 31, 2024, we recorded \$47.1 in severance restructuring costs and \$12.1 in other restructuring costs, primarily consisting of professional and other fees associated with restructuring activities. We did not record any restructuring costs during costs. During the nine months ended September 30, 2022 March 31, 2023, we recorded \$6.6 in restructuring costs. During the nine months ended September 30, 2023 March 31, 2024, we made payments of \$31.7 30.3 out of our restructuring reserve, which is used for severance, office closures and consolidations, and professional and other fees related to restructuring in multiple countries and territories. We expect a majority of the remaining \$40.7 59.7 reserve will be paid by the end of 2024.

Balance, March 31, 2024	\$ 2.4	\$ 2.7	\$ 54.3	\$ 0.3	\$ —	\$ 59.7

(a) Balances related to the United States were \$0.6 3.7 and \$2.7 1.5 as of December 31, 2022 December 31, 2023 and September 30, 2023 March 31, 2024, respectively.

(b) Balances related to France were \$0.9 2.5 and \$1.7 1.0 as of December 31, 2022 December 31, 2023 and September 30, 2023 March 31, 2024, respectively. Balances related to Italy were \$1.0 and \$0.7 as of December 31, 2023 and March 31, 2024, respectively.

In July 2023, we announced our decision to wind down our Proservia managed services business in Germany. We expect to record significant restructuring expense in the fourth quarter of 2023 related to this wind down. A significant portion of the restructuring costs represent payments to impacted employees. A component of these payments are severance related costs amounting to \$32.2 agreed with the applicable work councils in October 2023, which will be recorded in the fourth quarter of 2023. Communications are continuing with impacted parties, and we expect additional restructuring costs to be recorded through the end of the fourth quarter of 2023.

## (7) Income Taxes

We recorded income tax expense at an effective rate of 44.7 31.0% for the three months ended September 30, 2023 March 31, 2024, as compared to an effective rate of 29.0 29.5% for the three months ended September 30, 2022 March 31, 2023. The 2023 2024 rate was unfavorably impacted by a lower level the overall mix of pre-tax earnings with a less beneficial mix due in part to restructuring costs recorded in the third quarter of 2023 and favorably impacted partially offset by the scheduled reduction in the French business tax rate from 0.75 0.38% to 0.375 0.28% effective January 1, 2023 and the effective settlement of an income tax audit. In certain countries in which we recorded restructuring costs, we did not recognize a corresponding tax benefit due to the recognition of valuation allowances against anticipated tax losses. January 1, 2024. The 44.7 31.0% effective tax rate for the third quarter of 2023 three months ended March 31, 2024 was higher than the United States Federal statutory rate of 21% primarily due to the French business tax, tax losses in certain countries for which we did not recognize a corresponding tax benefit due to valuation allowances, the French business tax, and the overall mix of earnings.

We recorded income tax expense at an effective rate of 33.6% for the nine months ended September 30, 2023, as compared to an effective rate of 30.3% for the nine months ended September 30, 2022. The 2023 rate was unfavorably impacted by a lower level of pre-tax earnings with a less beneficial mix due in part to restructuring costs recorded in the second and third quarters of 2023 and favorably impacted by the scheduled reduction in the French business tax rate from 0.75% to 0.375% effective January 1, 2023 and the effective settlement of an income tax audit. The 33.6% effective tax rate for the nine months ended September 30, 2023 was higher than the United States Federal statutory rate of 21% primarily due to tax losses in certain countries for which we did not recognize a corresponding tax benefit due to valuation allowances, the French business tax, and the overall mix of earnings.

As of September 30, 2023, we had gross unrecognized tax benefits related to various tax jurisdictions, including interest and penalties, of \$33.8 32.8 as of both March 31, 2024 and December 31, 2023. If recognized, the entire amount would favorably affect the effective tax rate except for \$6.0. As of December 31, 2022, we had gross unrecognized tax benefits related to various tax jurisdictions, including interest and penalties, of \$81.6. In the third quarter of 2023, we effectively settled an income tax audit and reduced our unrecognized tax benefits by \$45.3, most of which did not impact tax expense. We do not expect our unrecognized tax benefits to change significantly over the next 12 months.

We conduct business globally in various countries and territories. We are routinely audited by the tax authorities of the various tax jurisdictions in which we operate. Generally, the tax years that could be subject to examination are 2016 2017 through 2023 2024 for our major operations in

France, Italy, the United Kingdom and the United States. As of **September 30, 2023** **March 31, 2024**, we were subject to tax audits in **Australia**, **Austria**, **Belgium**, **France**, **Germany**, **India**, **Ireland**, **Israel**, **Spain** and the **United States**. We believe that the resolution of these audits will not have a material impact on earnings.

(c) The majority of the Corporate balance relates to goodwill attributable to our acquisitions of Right Management (\$62.1) and Jefferson Wells (\$55.5). Jefferson Wells is part of the United States reporting unit. Right Management is allocated to the reporting units of the countries in which Right Management operates. For purposes of monitoring our total assets by segment, we do not allocate the Corporate balances to the respective reportable segments as this is commensurate with how we operate our business. We do, however, include these balances within the appropriate reporting units for our goodwill impairment testing.

#### **(13) Derivative Financial Instruments and Fair Value Measurements**

## Derivative Financial Instruments

We are exposed to various market risks relating to our ongoing business operations. The primary market risks, which are managed using derivative instruments, are foreign currency exchange rate risk and interest rate risk. In certain circumstances, we enter into foreign currency forward exchange contracts and cross-currency swaps to reduce the effects of fluctuating foreign currency exchange rates on our cash flows denominated in foreign currencies. Our exposure to market risk for changes in interest rates relates primarily to our long-term debt obligations. We have historically managed interest rate risk through the use of a combination of fixed and variable rate borrowings.

### Net Investment Hedges

We use cross-currency swaps, forward contracts and a portion of our foreign currency denominated debt, a non-derivative financial instrument, to protect the value of our net investments in certain of our foreign subsidiaries. For derivative instruments that are designated and qualify as hedges of our net investments in foreign operations, the changes in fair values of the derivative instruments are recognized in foreign currency translation, a component of accumulated other comprehensive income ("AOCI"), to offset the changes in the values of the net investments being hedged. For non-derivative financial instruments that are designated and qualify as hedges of net investments in foreign operations, the change in the carrying value of the designated portion of the non-derivative financial instrument due to changes in foreign currency exchange rates is recorded in foreign currency translation adjustments.

Our The €400.0 (\$428.7) notes due June 2027 and the €500.0 (\$526.6 538.1) notes due June 2026 and €400.0 (\$419.4) notes due June 2027 were designated as a hedge of our net investment in our foreign subsidiaries with a Euro-functional currency as of September 30, 2023 March 31, 2024.

In September 2019, we entered into a cross-currency swap agreement that net converts fixed-rate Swiss franc ("CHF") payments to fixed-rate United States dollar payments which matured in September 2022. 14

---

In September 2022, we entered into a new cross-currency swap agreement that net converts fixed-rate Swiss franc ("CHF") payments to fixed-rate United States dollar payments. This swap was designated as a net investment hedge of our foreign subsidiary with CHF functional currency.

The effect of our net investment hedges on AOCI for the three and nine months ended September 30, 2023 March 31, 2024 and 2022 2023 was as follows:

Instrument	Gain (Loss) Recognized in Other Comprehensive Income							
	Three Months Ended September 30,				Nine Months Ended September 30,

### Cash Flow Hedges

We use cross-currency swaps to hedge the changes in cash flows of certain of our foreign currency denominated debt due to changes in foreign currency exchange rates. For our cross-currency swaps, we record the change in carrying value of the foreign currency denominated debt due to changes in exchange rates into earnings each period. The changes in fair value of the cross-currency swap derivatives are recorded in **AOCI** other comprehensive income ("OCI") with an immediate reclassification into earnings for the change in fair value attributable to fluctuations in foreign currency exchange rates.

17

In April 2019, we entered into a cross-currency swap agreement to convert our intercompany fixed-rate, CHF denominated note, including the annual interest payment and the payment of remaining principal at maturity, to a fixed-rate Euro denominated note. The economic effect of the swap agreement is to eliminate the uncertainty of cash flows in CHF associated with the note by fixing the principal at €202.3 with a fixed annual interest rate of 1.256%. This hedging arrangement has been designated as a cash flow hedge. The swap had an original maturity of April 2022, which aligned to the term of the intercompany note. On March 17, 2022, we settled the swap ahead of its maturity date, resulting in a net cash inflow of \$19.2. We simultaneously entered into new cross-currency swaps, which we account for as fair value hedges, with maturity dates of April 2024. In September 2019, we entered into a cross-currency swap agreement to convert an additional intercompany fixed-rate CHF note, including the annual interest payment and the payment of remaining principal at maturity, to a fixed-rate Euro denominated note. The economic effect of the swap is identical to the original April 2019 swap, and fixes the principal of €55.4 with a fixed interest rate of 1.143%. The swap matured in September 2022 and we simultaneously entered into new cross-currency swaps, which we account for as fair value hedges, with maturity dates of September 2024. Refer to the "Fair Value Hedge" section below for additional detail.

We use forward currency exchange contracts to hedge the changes in cash flows of certain operational expenses denominated in foreign currency due to changes in foreign currency exchange rates. The changes in fair value of the forward currency exchange contracts derivatives are recorded in AOCI and reclassified into earnings when the underlying operating expense is recognized in earnings.

On June 9, 2022, we entered into a forward starting interest rate swap agreement with a notional amount of €300.0 and a fixed rate of 1.936%, which was accounted for as a cash flow hedge, to hedge the interest rate exposure related to our anticipated issuance of €400.0 notes to repay our existing €400.0 notes maturing in September 2022. Upon the issuance of the notes on June 30, 2022, we settled this forward starting interest rate swap, resulting in a gain of \$2.0, which was recorded in accumulated other comprehensive income and will be amortized over the term of the notes as an offset to interest expense.

We assessed the hedging relationship at the inception of the hedges in order to determine whether the derivatives that are used in the transaction are highly effective in offsetting the cash flows of the hedged item, and will continue to assess the relationship on an ongoing basis. We use the hypothetical derivative method in conjunction with regression analysis using a third-party valuation to measure effectiveness of our cross-currency swap agreements and our forward currency exchange contracts.

We expect the net amount of pre-tax derivative gains included in AOCI at September 30, 2023 March 31, 2024 to be reclassified into earnings within the next 12 months will not be significant. The actual amount that will be reclassified to earnings over the next 12 months will vary due to future currency exchange rates.

#### Fair Value Hedges

We account for derivatives as fair value hedges when the hedged item is a recognized asset, liability, or firm commitment. We use fair value hedges to hedge the changes in cash flows of certain of our foreign currency intercompany denominated notes due to changes in foreign

currency exchange rates. We record the change in carrying value of the foreign currency denominated notes due to changes in exchange rates into earnings each period. Gains and losses on the fair value hedges are recorded in earnings, offsetting gains and losses on the hedged item.

In March 2022, we entered into a cross-currency swap agreement to hedge our intercompany fixed-rate, CHF denominated note. The economic effect of the swap agreement is to eliminate the uncertainty of cash flows in CHF associated with the note due to changes in foreign currency exchange rates against our Euro functional subsidiary entity. The cross-currency swap matures in April 2024, which aligns with the term of the intercompany note and has a fixed interest rate of 1.05973%.

In September 2022, we entered into a cross-currency swap agreement to hedge our intercompany fixed-rate, CHF denominated note. The economic effect of the swap agreement is to eliminate the uncertainty of cash flows in CHF associated with the note due to changes in foreign currency exchange rates against our Euro functional subsidiary entity. The cross-currency swap matures in September 2024, which aligns with the term of the intercompany note and has a fixed interest rate of 1.7975%.

The cross-currency swaps are accounted for as fair value hedges. Impact of foreign exchange rate changes on the value of the note is offset by gains and losses from the hedges.

*Non-designated instruments*

We also use certain derivatives, which are not designated as hedging instruments, as economic hedges of foreign currency and interest rate exposure. For our forward contracts that are not designated as hedges, any gain or loss resulting from the change in fair value is recognized in current period earnings. These gains or losses are offset by the exposure related to receivables and payables with our foreign subsidiaries and to interest due on our Euro-denominated notes, which is paid annually in June and September. The effect of our forward contracts that are not designated as hedging instruments on the consolidated statements of operations for the three and nine months ended **September 30, 2023**, **March 31, 2024** and **2022** was as follows:

## Fair Value Measurements

The carrying value of the long-term debt approximates fair value, except for the Euro-denominated notes, because the interest rates are variable and reflect current market rates. The fair value of the Euro-denominated notes, as observable at commonly quoted intervals (Level 2 inputs), was \$909.1 954.6 and \$921.7 977.6 as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively, compared to a carrying value of \$946.0 966.8 and \$956.6 988.2, respectively.

Our deferred compensation plan assets were \$133.5 155.6 and \$115.3 144.2 as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively. We determine the fair value of these assets, comprised of publicly traded securities, by using market quotes as of the last day of the period (Level 1 inputs).

We measure the fair value of the foreign currency forward contracts and cross-currency swaps at the value based on either directly or indirectly observable inputs from third parties (Level 2 inputs).

#### **(15) Segment Data**

Effective January 1, 2024, our segment reporting was realigned to include our Puerto Rico business within Other Americas. Accordingly, United States, is now adjusted to exclude Puerto Rico. All previously reported results have been restated to conform to the current year presentation.

We are organized and managed primarily on a geographic basis. Each country and business unit generally has its own distinct operations and management team, providing services under our global brands, and maintains its own financial reports. We have an executive sponsor for each global brand who is responsible for ensuring the integrity and consistency of delivery across the company. Each operation reports directly or indirectly through a regional manager, to a member of executive management. Given this reporting structure, we operate using the following reporting segments: Americas, which includes United States and Other Americas; Southern Europe, which includes France, Italy and Other Southern Europe; Northern Europe; and APME.

The segments derive a significant majority of their revenues from our staffing and interim services. The remaining revenues within these segments are derived from our outcome-based solutions and consulting services, permanent recruitment services, and other services. Segment revenues represent sales to external clients. We provide services to a wide variety of clients, none of which individually comprise a significant portion of revenues for us as a whole. Due to the nature of our business, we generally do not have export sales.

### Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act of 1934, as amended, (each a "forward-looking statement"). Statements made in this quarterly report that are not statements of historical fact are forward-looking statements. In addition, from time to time, we and our representatives may make statements that are forward-looking. Forward-looking statements are based on management's current assumptions and expectations and are subject to risks and uncertainties that are beyond our control and may cause actual results to differ materially from those contained in the forward-looking statements. Forward-looking statements can be identified by words such as "expect," "anticipate," "intend," "plan," "may," "believe," "seek," "estimate," and other similar expressions. Important factors that could cause our actual results to differ materially from those contained in the forward-looking statements include, among others, the risk factors discussed in Item 1A – Risk Factors in our annual report on Form 10-K for the year-ended December 31, 2022 December 31, 2023, which information is incorporated herein by reference. Such risks and uncertainties include, but are not limited to, volatile, negative or uncertain economic conditions, particularly in Europe, including inflation, **impacts of the Russia-Ukraine War and its related supply-chain impact; other geopolitical risk and uncertainty; changes in labor and tax legislation in places we do business; failure to implement strategic transformation initiatives and technology investments; and other factors that may be disclosed from time to time in our SEC filings or otherwise.** We caution that any forward-looking statement reflects only our belief at the time the statement is made. We undertake no obligation to update any forward-looking statements to reflect subsequent events or circumstances.

#### Business Overview

Our business is cyclical in nature and is sensitive to macroeconomic conditions generally. Client demand for workforce solutions and services is dependent on the overall strength of the labor market and secular trends toward greater workforce flexibility within each of the segments where we operate. Improving economic growth typically results in increasing demand for labor, resulting in greater demand for our staffing services while demand for our outplacement services typically declines. During periods of decreased demand, as we experienced in the **third** **first** quarter of 2023, 2024, our operating profit is generally impacted unfavorably as we experience a deleveraging of selling and administrative expenses, which may not decline at the same pace as revenues. By contrast, during periods of increased demand we are generally able to improve our profitability and operating leverage as our cost base can support some increase in business without a similar increase in selling and administrative expenses.

In the **third** **first** quarter of 2023, 2024, we continued to observe **softening** **decreased** demand for staffing services and permanent recruitment services due to increased economic uncertainty, and we expect this trend to continue. **We believe that downside risks to the global** **The economic outlook have continued to increase through the third quarter of 2023 and may worsen in future periods. These economic risks are uncertainty is** particularly high in Europe and the United States, driven by elevated inflation and higher interest rates. **As Europe represents a significant portion of our operations, we continue to monitor economic conditions in our Southern Europe and Northern Europe segments. The Americas** market is also experiencing a challenging operating environment, driven primarily by elevated inflation and the United States' sensitivity to rising interest rates, which could impact other countries given the importance of the United States economy. As a result of these factors, we expect the business environment will continue to be challenging for us in future periods, especially in North America and Europe, with many companies delaying hiring decisions or reducing their demand for contingent labor. **Compounding the challenging business environment, the attack in Israel on October 7, 2023 and the subsequent hostilities in Gaza will** **The current economic uncertainty is exacerbated by increasing geopolitical tensions, which could further** negatively impact our operations in Israel, which represent approximately 4.1% of our revenues in the Southern Europe region and 1.8% of our ManpowerGroup revenues. These evolving events are expected to put further pressure on our results for the segment and may increase geopolitical risk and business caution more globally. future periods.

During the **third** **first** quarter of 2023, 2024, the United States dollar was **weaker**, **generally stable**, on average, relative to the currencies in **many** **most** of our **key** markets, **which therefore** and overall had a **2.8%** **slight unfavorable** impact on our reported results. **The changes in the foreign currency exchange rates had a -1.8% unfavorable** impact on revenues from services and an approximately **\$0.01** **\$0.04** per share **favorable** **unfavorable** impact on net earnings per share – diluted in the quarter. Substantially all of our subsidiaries derive revenues from services and incur expenses within the same **local** currency and generally do not have cross-currency transactions, and therefore, changes in foreign currency

exchange rates primarily impact the translation of reported earnings and not our actual cash flow unless earnings are repatriated. To understand the performance of our underlying business, we utilize constant currency or organic constant currency variances for our consolidated and segment results.

During the third first quarter of 2024 compared to the first quarter of 2023, compared to the third quarter of 2022, we experienced a -10.4% an -8.3% revenue decrease in the Americas, primarily driven by decreased demand for our Manpower and Experis staffing/interim services, decreased demand for our Recruitment Process Outsourcing (RPO) permanent recruitment services, a decrease in our TAPFIN - Managed Service Provider (MSP) business as we exited lower margin arrangements and the unfavorable impact of currency exchange rates. During the third first quarter of 2024 compared to the first quarter of 2023, compared to the third quarter of 2022, we experienced a 3.4% -4.2% revenue increase decrease in Southern Europe, primarily due to decreased demand for our Manpower staffing services, partially offset by the favorable impact of currency exchange rates and an increase in demand for our Talent Solutions outplacement services. rates. During the third first quarter of 2024 compared to the first quarter of 2023, compared to the third quarter of 2022, we experienced a -4.2% -10.1% revenue decrease in Northern Europe, primarily due to a decrease in decreased demand for our Manpower and Experis staffing/interim services. services, decreased demand in our permanent recruitment business and decreased demand for our Experis outcome-based solutions and consulting services, partially offset by the favorable impact of foreign currency exchange rates. We experienced a -3.8% an -11.7% revenue decrease in APME in the third first quarter of 2023 2024 compared to the third first quarter of 2022 2023 primarily due to the unfavorable impact of foreign currency exchange rates and decreased demand for our Experis interim services and activity in our RPO permanent recruitment business driven by the non-recurrence of a government contract from the prior year period, partially offset by increased demand for our Manpower and Experis staffing/interim services.

From a brand perspective, we experienced revenue decreases in Manpower, Experis and Talent Solutions in the third first quarter of 2023 2024 compared to the third first quarter of 2022. 2023. In our Manpower brand, the revenue decrease was primarily due to decreased demand for staffing services, especially within the manufacturing sector, and decreased demand for our permanent recruitment services and our Manpower Solutions services. The revenue decrease in our Experis brand was primarily due to decreased demand for interim services, from both enterprise and convenience customer segments, and decreased demand for our permanent recruitment services and our Experis Solutions services. On an overall basis, the revenue decrease in our Talent Solutions brand, which includes RPO, MSP and our Right Management offerings, was primarily due to decreased demand for our RPO offerings relative to the prior year period, as the permanent recruitment environment was exceptionally strong during the third quarter of 2022. The decrease was also due to our MSP business, which experienced revenue declines during the quarter, as we exited lower margin arrangements in the current year period and compared to significant activity levels in the prior year period, offerings. This revenue decrease in Talent Solutions was partially offset by an increase in demand for our Right Management outplacement services under Right Management. services.

Our In the first quarter of 2024 our gross profit margin decreased in 90 basis points compared to the third first quarter of 2023, compared to the third quarter of 2022, primarily due to an unfavorable change in business mix, particularly due to declines in our higher-margin permanent recruitment businesses, businesses and our Manpower and Experis staffing/interim services and the unfavorable impact of operational losses from our Proservia business in Germany that we are exiting. The decrease in gross profit margin in the third first quarter of 2023 2024 compared to the third first quarter of 2022 2023 was partially offset by growth in our higher-margin outplacement offerings within Right Management.

Our operating profit decreased **-56.8%** **-44.1%** in the **third** **first** quarter of **2023** **2024** while our operating profit margin decreased **190** **100** basis points compared to the **third** **first** quarter of **2022** **2023**. Excluding the loss of \$6.2 million in operating profit due to operational losses from our Proservia business in Germany in the first quarter of 2024 that we are exiting and restructuring costs of **\$38.1 million** **\$6.6 million** incurred in the **third** **first** quarter of 2023, and acquisition integration costs of \$5.6 million incurred in the third quarter of 2022, our operating profit decreased **-35.5%** **-42.1%** while operating profit margin decreased **120** **100** basis points compared to the **third** **first** quarter of **2022** **2023**. The operating profit margin decreased primarily because we did not reduce selling and administrative expenses for the quarter at the same rate due to a decrease in gross profit margin, as the decline in revenues and gross profit.

During the quarter we initiated significant restructuring actions on businesses heavily impacted by the continuing decline in activity. With these actions, we expect our overall cost structure to go down and will continue to monitor expenses closely to maintain the benefit of our efforts to optimize our organizational cost structures, while investing appropriately to support the ability of the business to grow in the future and enhance our productivity, technology and digital capabilities. We are focused on managing costs as efficiently as possible in the short term while continuing to progress transformational actions aligned with our strategic priorities, noted above.

The year-over-year decrease in revenues from services of -2.6% (-5.4% -7.3% (-5.5% in constant currency) was attributed to:

- a revenue decrease in the Americas of -10.4% (-7.0% -8.3% (-1.1% in constant currency) primarily due to the \$81.3 million unfavorable impact of foreign currency exchange rates, decreased demand of \$12.8 million for our Manpower and Experis staffing/interim services, decreased demand for activity of \$6.3 million in our RPO permanent recruitment services, business and a decrease of \$2.9 million in our MSP business as we exited lower margin arrangements, and the unfavorable impact of foreign currency exchange rates, partially offset by the increase in demand of \$5.8 million for our Talent Solutions outplacement services. The United States, our largest market in the Americas, experienced a revenue decrease of -15.1% -8.3% primarily driven by decreased demand of \$55.4 million for our Experis Manpower and Manpower Experis staffing/interim services, decreased demand for activity of \$7.1 million in our RPO permanent recruitment services business and a decrease of \$3.0 million in our MSP business as we exited lower margin arrangements, partially offset by an increase in demand for of \$5.3 million in our Talent Solutions outplacement services;
- a revenue decrease in Southern Europe of -4.2% (-4.9% in constant currency) which was primarily due to decreased demand of \$85.5 million for our Manpower staffing services, partially offset by the \$14.7 million favorable impact of changes in currency exchange rates. France, the largest market in Southern Europe, experienced a revenue decrease of -4.3% (-5.4% in constant currency), which was primarily due to decreased demand of \$60.0 million for our Manpower staffing services, partially offset by the \$12.9 million favorable impact of foreign currency exchange rates. Italy, our second-largest market in Southern Europe, experienced a revenue decrease of -4.2% (-5.4% in constant currency), which was primarily due to decreased demand of \$21.2 million for our Manpower and Experis staffing/interim services, partially offset by the \$4.7 million favorable impact of foreign currency exchange rates;

23

- a revenue decrease in Northern Europe of -4.2% (-9.5% -10.1% (-12.1% in constant currency), primarily due to decreased demand of \$89 million for our Manpower and Experis staffing/interim services, decreased demand of \$18.3 million for our Experis Solutions services and -15.7% decrease (-21.2% in constant currency) decreased demand of \$10.6 million in our permanent recruitment business, partially offset by the increased demand for our Talent Solutions outplacement services. \$20.1 million favorable impact of foreign currency exchange rates. Within the Northern Europe, region, we experienced revenue decreases in the United Kingdom and of \$35.1 million, the Nordics of -10.3% \$59.2 million, Germany of \$8.4 million and -16.9% the Netherlands of \$3.3 million, which represented revenue decreases of -10.4% -26.1%, -6.0% and -3.3%, respectively (-16.6% (-14.1%, -25.3%, -7.0% and -14.6% -4.4%, respectively, in constant currency). These decreases were partially offset by a revenue increase in the Netherlands, Germany and Belgium of 0.6% \$3.3 million, 11.1% and 12.3%, respectively (-6.9%, 2.8% and 4.0%, respectively, which represented a revenue increase of 4.7% (3.5% in constant currency); and
- a revenue decrease in APME of -3.8% (-1.6% -11.7% (-4.8% in constant currency and -3.6% in organic constant currency) primarily due to the \$41.6 million unfavorable impact of currency exchange rates, decreased demand for our Experis interim services and decreased demand for RPO permanent recruitment services, partially offset by increased demand for our Manpower staffing services, particularly in Japan, and our Talent Solutions outplacement services; partially offset by

- a revenue increase in Southern Europe of 3.4% (decrease of -3.4% in constant currency and -3.3% in organic constant currency) which was primarily due to the favorable impact of currency exchange rates and an increase in demand for our Talent Solutions outplacement services. France, the largest market in Southern Europe, experienced revenue increase of 4.4% (decrease of -3.4% in constant currency), which was primarily due to the favorable impact of currency exchange rates and an increase in demand for our Talent Solutions outplacement services. The increase in France was partially offset by decrease demand for our Manpower staffing services as clients reduced demand for our services in certain sectors, primarily construction and logistics. Italy, our second-largest market in Southern Europe, experienced a revenue increase of 4.7% (decrease of -3.1% in constant currency), which was primarily due to the favorable impact of foreign currency exchange rates and increased demand for decreased activity of \$25.6 million in our Experis consulting services, RPO permanent recruitment business driven by the non-recurrence of a government contract from the prior year period, partially offset by decreased increased demand of \$4.1 million for our Manpower staffing and Experis staffing/interim services.

The year-over-year 70 basis point decrease in gross profit margin was primarily attributed to:

- a 70 basis point unfavorable impact from decreases to permanent recruitment, including Talent Solutions RPO, as permanent hiring demand continued to soften and experienced reduced levels from the significant activity in the prior year period; levels;
- a 20 basis point unfavorable impact due to decreases in our Experis solutions margins; and
- a 10 basis point unfavorable impact from the decrease in staffing/interim margins due to mix shifts as and lower volumes while pricing remained strong; stable; and
- a 20 basis point unfavorable impact due to operational losses from our Proservia business in Germany that we are exiting; partially offset
- a 30 basis point favorable impact from increases in our higher-margin Right Management career transition within Talent Solutions outplacement business as outplacement activity we continued to experience increased significantly. activity; and
- a 10 basis point favorable impact from foreign currency exchange rates.

The 4.9% increase -6.4% decrease in selling and administrative expenses in the third first quarter of 2023 (2.0% 2024 (-5.1% in constant currency and 2.1% -5.0% in organic constant currency) was primarily attributed to:

- a 23.5% increase (20.1% \$28.4 million, or -6.7% decrease (-5.5% in constant currency and 20.3% in organic constant currency) in non-personnel costs primarily due to consulting and outside services and software maintenance costs related to various transformation initiatives and office leases, partially offset by decreases to other office and travel and entertainment a \$23.5 million decrease in salary costs as a result we saw the effects of lower activity;
- restructuring costs of \$38.1 million incurred in the third quarter of 2023, primarily related to headcount reductions and professional and other fees associated with restructuring activities; and actions taken throughout 2023;
- a 2.9% increase \$9.4 million, or -1.3% decrease due to the impact of changes in currency exchange rates; partially offset by
- a -2.5% decrease (-5.2% in constant currency and -5.1% in organic constant currency) in personnel costs, due to a decrease in bonuses and sales commissions costs and a decrease in salary-related costs due to a reduction in head count; and
- the nonrecurrence non-recurrence of \$5.6 million restructuring costs in acquisition integration costs the first quarter of 2024 compared to \$6.6 million incurred in the third first quarter of 2022.

Selling and administrative expenses as a percent of revenues increased 120 basis points in the third quarter of 2023 compared to the third quarter of 2022 due primarily to:

- a 50 basis point unfavorable impact as non-personnel costs increased, primarily due to consulting and outside services and software maintenance costs related various transformation initiatives; and
- an 80 basis point unfavorable impact as a result of the restructuring costs incurred in the third quarter of 2023; partially offset by

- a 10 basis point favorable impact due to the nonrecurrence of acquisition integration costs from 2022.

Interest and other expenses, net is comprised of interest, foreign exchange gains and losses and other miscellaneous non-operating income and expenses, including those associated with noncontrolling interests. Interest expense, net was \$13.0 million in the third quarter of 2023 compared to \$6.3 million in the third quarter of 2022 primarily due to the higher interest cost on pension obligations and increased revolver borrowings at a higher interest rate during the period. Foreign exchange loss, net was \$6.0 million in the third quarter of 2023 compared to \$3.8 million in the third quarter of 2022 primarily due to non-cash currency translation loss related to our Argentina business. Argentina is required to be treated as a hyperinflationary economy for accounting purposes and the non-cash currency translation losses reflected the devaluation of the Argentine peso during the quarter. This is a non-cash accounting charge as our Argentina business operates in their local currency. Miscellaneous income, net was \$3.9 million in the third quarter of 2023 compared to \$5.4 million in the third quarter of 2022 primarily due to a translation loss on the sale of our Philippines business.

We recorded income tax expense at an effective rate of 44.7% for the three months ended September 30, 2023, as compared to an effective rate of 29.0% for the three months ended September 30, 2022. The 2023 rate was unfavorably impacted by a lower level of pre-tax earnings with a less beneficial mix due in part to restructuring costs recorded in the third quarter of 2023 and favorably impacted by the scheduled reduction in the French business tax rate from 0.75% to 0.375% effective January 1, 2023 and the effective settlement of an income tax audit. In certain countries in which we recorded restructuring costs, we did not recognize a corresponding tax benefit due to the recognition of valuation allowances against anticipated tax losses. The 44.7% effective tax rate for the third quarter of 2023 was higher than the United States Federal statutory rate of 21% primarily due to tax losses in certain countries for which we did not recognize a corresponding tax benefit due to valuation allowances, the French business tax, and the overall mix of earnings.

Net earnings per share - diluted was \$0.60 in the third quarter of 2023 compared to \$2.13 in the third quarter of 2022. Restructuring costs recorded in the third quarter of 2023 unfavorably impacted net earnings per share - diluted by approximately \$0.68, net of tax, in the third quarter of 2023. Non-cash currency translation loss related to our Argentina business in the third quarter of 2023 unfavorably impacted net earnings per share - diluted by approximately \$0.07, net of tax, in the third quarter of 2023. Other Expense losses related to the deconsolidation of our Philippines business unfavorably impacted net earnings per share - diluted by approximately \$0.03, net of tax, in the third quarter of 2023. Foreign currency exchange rates favorably impacted net earnings per share - diluted by approximately \$0.01 per share in the third quarter of 2023.

Weighted average shares - diluted decreased to 50.1 million in the third quarter of 2023 from 52.3 million in the third quarter of 2022. This decrease was due to the impact of share repurchases completed since the third quarter of 2022, partially offset by grants of share-based awards.

The year-over-year decrease in revenues from services of -4.9% (-3.6% in constant currency and -3.7% in organic constant currency) was attributed to:

- a revenue decrease in the Americas of -11.0% (-7.5% in constant currency) primarily due to the decreased demand for our Manpower and Experis staffing/interim business, decreased demand for our RPO permanent recruitment services and a decrease in our MSP business; we exited lower margin arrangements, partially offset by the increase in demand for our Talent Solutions outplacement services. The United States, our largest market in the Americas, experienced a revenue decrease of -15.7% primarily driven by decreased demand for our Manpower and Experis staffing/interim services, decreased demand for our RPO permanent recruitment services and a decrease in our MSP business as we exited lower margin arrangements, partially offset by an increase in demand for our Talent Solutions outplacement services;
- a revenue decrease in Southern Europe of -0.5% (-1.9% in constant currency and -2.1% in organic constant currency) which was primarily due to decreased demand for our Manpower staffing services, partially offset by the favorable impact of changes in currency exchange rates and an increase in demand for our Talent Solutions outplacement services. France, the largest market in Southern Europe, experienced a revenue increase of 1.9% (zero in constant currency and decrease of -0.6% in organic constant currency), which was primarily due to the favorable impact of changes in currency exchange rates and an increase in demand for our Talent Solutions outplacement services, partially offset by decreased demand for our Manpower staffing services. Italy, our second-largest market in Southern Europe, experienced a revenue decrease of -0.1% (-1.8% in constant currency), which was primarily due to a decrease in demand for our Manpower and Experis staffing/interim services due to the impact of significant revenue growth in the prior year period. The decrease in Italy was partially offset by the favorable impact of foreign currency exchange rates, a 7.6% increase (6.2% in constant currency) in our permanent recruitment business and increased demand for our Experis consulting services;
- a revenue decrease in Northern Europe of -7.8% (-6.5% in constant currency and -6.3% in organic constant currency), which was primarily due to decreased demand for our Manpower and Experis staffing/interim services, a -11.2% decrease (-9.8% in constant currency) in our permanent recruitment business and the unfavorable impact of foreign currency exchange rates, partially offset by increased demand for our Talent Solutions outplacement services and our MSP business. Within Northern Europe, we experienced revenue decreases in the United Kingdom, Nordics, and the Netherlands of -14.0%, -14.0% and -4.9%, respectively (-12.8%, -6.6% and -6.4%, respectively, in constant currency). These decreases were partially offset by revenue increases in Germany and Belgium of 4.5% and 4.5%, respectively (2.7% and 2.3%, respectively, in constant currency); and
- a revenue \$2.6 million, or -2.9% decrease (-1.2% in APME of -2.1% (increase of 3.4% in constant currency) primarily due to the unfavorable impact of foreign currency exchange rates and decreased demand for our Experis interim services, partially offset by increased demand for our Manpower staffing services, particularly in Japan, and our Talent Solutions outplacement services.

The year-over-year 20 basis point decrease in gross profit margin was primarily attributed to:

- a 40 basis point unfavorable impact due to decreases in permanent recruitment, including Talent Solutions RPO, as permanent hiring demand continued to soften and experienced reduced levels from the significant activity in the prior year period; and
- a 20 basis point unfavorable impact due to decreases in our Experis solutions margins; partially offset by
- a 30 basis point favorable impact from a change in business mix as the higher-margin Right Management outplacement business represented a higher percentage of the revenue mix; and

- a 10 basis point favorable impact from the improvement in the staffing/interim margins.

29

The 1.6% increase in selling and administrative expenses in the nine months ended September 30, 2023 (2.5% in constant currency and 2.2% in organic constant currency) was primarily attributed to:

- an 11.0% increase (11.8% in constant currency and 11.1% in organic constant currency) in non-personnel costs, primarily due to an increase a \$3.1 million decrease in costs related to office leases, software and software maintenance related lease costs and \$2.5 million decrease in consulting and outside services costs associated with our technology and back-office transformation initiatives, partially offset by a decrease in costs related to other office related costs and bad debt; and
- restructuring costs of \$59.2 million incurred in the nine months ended September 30, 2023, primarily related to headcount reductions; partially offset by
- a -2.2% decrease (-1.3% in constant currency and -1.4% in organic constant currency) in personnel costs due to a decrease in bonuses and sales commissions costs, partially offset by an \$2.6 million increase in salary-related costs due to inflation; bad debt.

• 24

a -0.9% decrease due to the impact of changes in currency exchange rates;

- a loss on the disposition of our Russia business of \$9.7 million incurred in the nine months ended September 30, 2022; and
- the nonrecurrence of \$12.0 million in acquisition integration costs incurred in the nine months ended September 30, 2022.

Selling and administrative expenses as a percent of revenues increased 100 10 basis points in the nine months ended September 30, 2023 first quarter of 2024 compared to the nine months ended September 30, 2022 first quarter of 2023 due primarily to:

- a 40 20 basis point unfavorable impact as non-personnel costs increased due to investments in consulting and outside services related to various transformation projects and an increase in office lease costs;
- a 40 basis point unfavorable impact as a result percent of the restructuring costs incurred in the nine months ended September 30, 2023;
- a 30 basis point unfavorable impact as personnel costs increased, due to the investment in incremental recruiters and sales talent in certain markets where we see opportunities, without a similar rate of increase in revenues; and
- a 10 basis point unfavorable impact from changes in currency exchange rates; partially offset by
- a 20 basis point favorable impact due to the nonrecurrence as a result of acquisition integration restructuring costs and the disposition of Russia business incurred in the nine months ended September 30, 2022. first quarter of 2023.

Interest and other expenses, net is comprised of interest, foreign exchange gains and losses and other miscellaneous non-operating income and expenses, including those associated with noncontrolling interests. Interest expense, net was \$35.2 million \$20.4 million in the first nine months quarter of 2023 2024 compared to \$21.7 million \$18.7 million in the first nine months quarter of 2022 2023 primarily due to the higher interest cost on pension obligations increased revolver and increased revolver other short term borrowings at a higher interest rate during the period. Miscellaneous income, net was \$15.0 million in the first nine months of 2023 compared to \$16.5 million in the first nine months of 2022 primarily due to a translation loss on the sale of our Philippines business. Foreign exchange loss, net was \$14.2 million \$2.4 million in the first nine months quarter of 2023 2024 compared to \$8.9 million \$3.1 million in the first nine months quarter of 2022 2023 primarily due to non-cash

reduction in foreign currency translation loss related to our Argentina business. Argentina is required to be treated as a hyperinflationary economy for accounting purposes and the non-cash currency translation exchange losses reflected the devaluation of the Argentine peso during year over year. Miscellaneous income, net was \$8.1 million in both the first nine months quarter of 2024 and 2023. This is a non-cash accounting charge as our Argentina business operates in their local currency.

We recorded income tax expense at an effective rate of 33.6% 31.0% for the nine three months ended September 30, 2023 March 31, 2024, as compared to an effective rate of 30.3% 29.5% for the nine three months ended September 30, 2022 March 31, 2023. The 2023 2024 rate was unfavorably impacted by a lower level the overall mix of pre-tax earnings with a less beneficial mix due in part to restructuring costs recorded in the second and third quarters of 2023 and favorably impacted partially offset by the scheduled reduction in the French business tax rate from 0.75% 0.38% to 0.375% 0.28% effective January 1, 2023 and the effective settlement of an income tax audit January 1, 2024. The 33.6% 31.0% effective tax rate for the nine three months ended September 30, 2023 March 31, 2024 was higher than the United States Federal statutory rate of 21% primarily due to the French business tax, tax losses in certain countries for which we did not recognize a corresponding tax benefit due to valuation allowances, the French business tax, and the overall mix of earnings.

Net earnings per share - diluted was \$3.42 \$0.81 in the first nine months quarter of 2023 2024 compared to \$6.10 \$1.51 in the first nine months quarter of 2022. Restructuring costs recorded 2023. Losses related to our Prosvvia Germany wind down in the first nine months quarter of 2023 unfavorably impacted net earnings per share - diluted by approximately \$1.00, net of tax, in the first nine months of 2023. Foreign currency exchange rates unfavorably impacted net earnings per share - diluted by approximately \$0.15 per share in the first nine months of 2023. Non-cash currency translation losses related to our Argentina business in the first nine months of 2023 2024 unfavorably impacted net earnings per share - diluted by approximately \$0.13, net of tax, in the first nine months quarter of 2023. Other expense losses related to the deconsolidation of our Philippines business unfavorably impacted net earnings per share - diluted by approximately \$0.03, net of tax, in the first nine months of 2023 2024.

Weighted average shares - diluted decreased to 50.7 million 48.9 million in the first nine months quarter of 2023 2024 from 53.3 million 51.6 million in the first nine months quarter of 2022 2023. This decrease was due to the impact of share repurchases completed since the first nine months quarter of 2022, partially offset by grants of share-based awards 2023.

##### Americas

In the Americas, revenues from services decreased -10.4% (-7.0% -8.3% (-1.1% in constant currency) in the third first quarter of 2023 2024 compared to the third first quarter of 2022 2023. In the United States (which represents 68% 66% of the Americas' revenues), revenues from services decreased -15.1% -8.3% in the third first quarter of 2024 compared to the first quarter of 2023, compared to the third quarter of 2022, primarily driven by a decrease in decreased demand of \$55.4 million for our Experis Manpower and Manpower Experis staffing/interim services, decreased demand for activity of \$7.1 million in our RPO permanent recruitment services business and a decrease of \$3.0 million in our MSP business as we exited lower margin arrangements, partially offset by an increase in demand of \$5.3 million for our Talent Solutions outplacement services. In Other Americas, revenues from services increased 1.6% (13.3% in constant currency) in the third quarter decreased -8.4% (increase of 2023 compared to the third quarter of 2022 primarily due to increased demand for our Manpower staffing services, partially offset by the unfavorable impact of currency exchange rates and decreased demand for our Experis Interim services. The constant currency increase in Other Americas was primarily due to inflation in Argentina. The increase in Other Americas was driven by revenue increases in Mexico and Argentina of 20.7% and 9.7%, respectively (1.8% and 150.6%, respectively, in constant currency), partially offset by a decrease in revenues in Canada of -16.6% (-14.3% in constant currency).

In the Americas, revenues from services decreased -11.0% (-7.5% 12.5% in constant currency) in the first nine months quarter of 2023 2024 compared to the first nine months of 2022. In the United States, revenues from services decreased -15.7% in the first nine months quarter of

2023 compared primarily due to the first nine months of 2022, primarily driven by decreased demand for our Manpower and Experis staffing/interim services, decreased demand for our RPO permanent recruitment services and a decrease in our MSP business as we exited lower margin arrangements, partially offset by an increase in demand for our Talent Solutions outplacement services. In Other Americas, revenues from services increased 0.7% (13.0% in constant currency) in the first nine months of 2023 compared to the first nine months of 2022 primarily due increased demand for our Manpower staffing services, partially offset by the \$81.3 million unfavorable impact of foreign currency exchange rates, and decreased partially offset by increased demand of \$42.6 million for our Manpower and Experis staffing/interim services. The constant currency increase in Other Americas was primarily due to inflation in Argentina. The increase decrease in revenues from services in Other Americas was primarily driven by revenue increases decreases in Mexico Argentina and Argentina Canada of 13.8% \$18.8 million, or -40.7%, and 19.2% \$20.0 million, or -20.6%, respectively (decrease of -0.2% (+157.2% and increase of 140.2% -20.8%, respectively, in constant currency), partially offset by a revenue decrease increase in Canada Mexico of -14.3% (-10.1% \$11.2 million, or 20.5% (9.7% in constant currency).

Gross profit margin decreased 70 basis points in the third first quarter and first nine months of 2023 2024 compared to the third first quarter and first nine months of 2022 2023 primarily due to decreases decreased margins in our staffing and interim services, particularly within Experis, which contributed 110 basis points to the decrease, decreased activity in our permanent recruitment business which contributed 50 basis points to the decrease and decreased margins in our MSP business which contributed 20 basis points to the decrease. These contributions were partially offset by increased demand in our higher-margin permanent recruitment business, partially offset by a higher percentage of the revenue mix coming from our higher-margin Talent Solutions Right Management outplacement business, which had a 50 basis point offsetting impact and increased margins in our staffing/interim business. the favorable impact of currency exchange rates, which had a 60 basis point offsetting impact.

Selling and administrative expenses decreased -5.2% (-3.9% -3.1% (increase of 1.3% in constant currency) in the third first quarter of 2024 compared to the first quarter of 2023, compared to the third quarter of 2022, primarily due to the \$9.7 million favorable impact of currency exchange rates and a \$4.5 million decrease in salaries from a reduction in headcount, a decrease in bonuses and sales commissions as a result of decreased profitability in certain markets and zero acquisition integration costs in the third quarter of 2023 compared to acquisition transaction costs of \$5.6 million in the third quarter of 2022. headcount. The decreases were partially offset by \$6.0 million the \$2.4 million increase in restructuring lease and other office related costs, incurred in the third quarter of 2023 compared to zero in the third quarter of 2022. The restructuring charges in the third quarter of 2023 were primarily related to headcount reductions in the United States, Mexico and Canada.

Selling and administrative expenses decreased -4.6% (-3.1% in constant currency) in the first nine months of 2023 compared to the first nine months of 2022, primarily due to a decrease \$1.8 million increase in bonuses and sales commissions as and a result of decreased profitability in certain markets, a decrease in salaries from a reduction in headcount and zero acquisition integration costs in the first nine months of 2023 compared \$1.6 million increase to acquisition integration costs of \$12.0 million in the first nine months of 2022. The decreases were partially offset by \$7.6 million in restructuring costs incurred in the nine months ended September 30, 2023 compared to zero in the nine months ended September 30, 2022. The restructuring charges in the first nine months of 2023 were primarily software maintenance related to headcount reductions in the United States, Mexico and Canada. costs.

Operating Unit Profit ("OUP") decreased -46.4% (-43.0% in constant currency), which represents a 2.5% OUP margin, a decrease from 4.3% in the Americas first quarter of 2023. This decrease was primarily due to decreased to 3.4% profitability in the third quarter United States business of 2023 from 5.7% \$18.1 million, which includes the decreased demand for our Manpower and Experis staffing/interim services and decreased activity in the third quarter of 2022. our permanent recruitment business, as noted above. In the United States, OUP margin decreased to 3.4% 1.8% in the third first quarter of 2023 2024 from 6.2% 4.0% in the third first quarter of 2022 2023 primarily due to a decrease in our gross profit margin as we saw decreases decreased demand for our Manpower and Experis staffing/interim services and decreased activity in our higher-margin RPO permanent recruitment and Manpower staffing services and business. The decrease was also due to an increase in our selling and administrative expenses as a percent percentage of revenue. revenue as we reduced costs slower than the decline in gross profit. Other Americas OUP margin decreased to 3.5% 4.0% in the third first quarter of 2024 from 4.8% in the first quarter of 2023 from 4.6% in the third quarter of 2022 primarily due to an increase in our gross profit margin, specifically in our Manpower staffing services, partially offset by an increase in our selling and administrative expenses as a percent of revenue partially offset by an increase in our gross profit margin as we saw increases reduced costs slower than the decline in our higher-margin Experis interim services.

Operating Unit Profit ("OUP") margin in the Americas decreased to 3.9% in the first nine months of 2023 from 6.0% in the first nine months of 2022. In the United States, OUP margin decreased to 3.7% in the first nine months of 2023 from 6.6% in the first nine months of 2022 primarily due to an increase in our selling and administrative expenses as a percent of revenue and a decrease in our gross profit margin as we saw decreases in our higher-margin permanent recruitment and Manpower staffing services. Other Americas OUP margin decreased to 4.3% in the first nine months of 2023 from 4.4% in the first nine months of 2022 primarily due to an increase in our selling and administrative expenses as a percent of revenue, partially offset by an increase in our gross profit margin as we saw increases in our higher-margin Experis interim services.

#### *Southern Europe*

In Southern Europe, revenues from services increased 3.4% (decrease of -3.4% decreased -4.2% (-4.9% in constant currency and -3.3% in organic constant currency) in the third first quarter of 2023 2024 compared to the third first quarter of 2022 2023. In France (which represents 57% 56% of Southern Europe's revenues), revenues from services increased 4.4% (decrease of -3.4% decreased -4.3% (-5.4% in constant currency) in the third first quarter of 2023 2024 compared to the third first quarter of 2022 2023. The decrease in France is primarily due to decreased demand of \$60.0 million for our Manpower staffing services, partially offset by the \$12.9 million favorable impact of foreign currency exchange rates. In Italy (which represents 20% of Southern Europe's revenues), revenues from services increased 4.7% (decrease of -3.1% in constant currency) in the third quarter of 2023 compared to the third quarter of 2022. The increase in France is primarily due to the favorable impact of currency exchange rates and increased demand for our Talent Solutions outplacement services. The increase in France was partially offset by decreased demand for our Manpower staffing services as clients reduced demand for our services in certain sectors, primarily construction and logistics. The increase in Italy was primarily due to the favorable impact of foreign currency exchange rates and increased demand for our Experis consulting services, partially offset by decreased demand for our Manpower staffing services. In Other Southern Europe, revenues from services remained flat (decrease of -3.7% in constant currency) during the third quarter of 2023 compared to the third quarter of 2022, primarily due to decreased demand for our Manpower staffing services, partially offset by the favorable impact of currency exchange rates. The results in Other Southern Europe were driven by a revenue increase in Spain of 2.2% (decrease of -5.5% in constant currency), partially offset by a revenue decrease in Switzerland of -0.4% (-8.9% in constant currency).

In Southern Europe, revenues from services decreased -0.5% (-1.9% in constant currency and -2.1% in organic constant currency) in the first nine months of 2023 compared to the first nine months of 2022. In France, revenues from services increased 1.9% (0.0% in constant currency and -0.6% in organic constant currency) in the first nine months of 2023 compared to the first nine months of 2022. In Italy, revenues from services decreased -0.1% (-1.8% -4.2% (-5.4% in constant currency) in the first nine months quarter of 2023 2024 compared to the first nine months quarter of 2022. The increase in France is primarily due to the favorable impact of foreign currency exchange rates and an increase in

demand for our Talent Solutions outplacement services, partially offset by decreased demand for our Manpower staffing services. The decrease in Italy was primarily due to the decrease in demand of \$21.2 million for our Manpower and Experis staffing/interim services, due to the impact of significant revenue growth in the prior year period. The decrease in Italy was partially offset by the \$4.7 million favorable impact of foreign currency exchange rates, a 7.6% increase (6.2% in constant currency) in our permanent recruitment business and increased demand for our Experis consulting services. In Other Southern Europe, revenues from services decreased -6.3% (-6.4% -3.9% (-3.3% in constant currency) during the first nine months of 2023 in 2024 compared to the first nine months of 2022, 2023, primarily due to decreased demand of \$8.1 million for our Manpower staffing and Experis staffing/interim services and \$5.3 million for our Experis solutions services. The decrease in Other Southern Europe was driven by revenue decreases in Spain and Switzerland of -11.5% \$8.2 million, or -6.9%, and -2.8% \$8.8 million, or -7.6%, respectively (-13.1% (-8.0% and -7.9% -12.6%, respectively, in constant currency).

Gross profit margin was stable decreased 60 basis points in the third quarter of 2023 2024 compared to the third quarter of 2022, 2023. The stability decrease was primarily due to an increase decreased activity in our higher margin Manpower staffing services, which contributed 30 basis points to the decrease, decreased activity in our permanent recruitment services which contributed 20 basis points to the decrease and decreased activity in our Experis solutions services which contributed 20 basis points to the decrease. These contributions were partially offset by increased demand in our higher-margin Talent Solutions Right Management outplacement services business which balanced out the unfavorable impact of had a decrease in our Manpower and Experis staffing/interim services.

Gross profit margin increased in the first nine months of 2023 compared to the first nine months of 2022. The increase was primarily due to the impact of a higher percentage of the revenue mix coming from our higher-margin Talent Solutions Outplacement services and increased margins in our staffing/interim business, 10 basis point offsetting impact.

Selling and administrative expenses increased 12.7% (5.4% decreased -2.2% (-3.1% in constant currency and 5.7% in organic constant currency) during the third first quarter of 2024 compared to the first quarter of 2023 compared to the third quarter of 2022 primarily due to the increase a \$3.6 million decrease in salary-related costs, \$3.8 million in restructuring costs incurred in partially offset by the third quarter of 2023 compared to zero in the third quarter of 2022 and the \$1.9 million unfavorable impact of currency exchange rates. The restructuring charges in the third quarter of 2023 were primarily related to headcount reductions in the regional head office and in France.

---

Selling and administrative expenses increased 8.7% (7.3% in constant currency and 6.2% in organic constant currency) during the first nine months of 2023 compared to the first nine months of 2022 primarily due to the increase in salary-related costs, \$10.2 million in restructuring costs incurred in the first nine months of 2023 compared to zero in the first nine months of 2022 and the unfavorable impact of currency exchange rates, partially offset by a decrease in bonuses and sales commissions as a result of decreased profitability in certain markets. The restructuring charges in the first nine months of 2023 were primarily related to headcount reductions in Spain of \$6.2 million, as well as in the regional head office and in France.

OUP margin in Southern Europe decreased to 4.0% -22.2% (-22.7% in constant currency), which represents a 3.5% OUP margin, a decrease from 4.3% in the third first quarter of 2023 from 4.9% 2023. This OUP decrease was primarily due to decreased profitability in the third quarter France reporting unit of 2022, \$11.8 million. In France, the OUP margin decreased to 4.0% 3.0% for the third first quarter of 2023 2024.

compared to 4.9% 3.8% for the third first quarter of 2022 2023. The decrease in France was due to decreases in staffing margins and an increase in our selling and administrative expenses as a percent of revenue. In Italy, the OUP margin decreased to 6.5% 6.8% for the third first quarter of 2023 2024 from 7.3% for the third first quarter of 2022 2023 primarily due to an increase in our selling and administrative expenses as a percent of revenue, partially offset by an increase in gross profit margin. In Other Southern Europe, the OUP margin decreased to 2.0% 2.1% for the third first quarter of 2023 2024 from 3.0% for the third first quarter of 2022 2023 primarily due to an increase decreases in our selling and administrative expenses as a percent of revenue and a decrease to our gross profit margin.

OUP margin, in Southern Europe decreased to 4.2% in the first nine months of 2023 from 4.8% in the first nine months of 2022. In France, the OUP margin was 3.9% for the first nine months of 2023 compared to 4.7% for the first nine months of 2022. The decrease in France was primarily due to decreased operating leverage as we saw an increase in specifically within our selling and administrative expenses as a percent of revenue. In Italy, the OUP margin increased to 7.3% for the first nine months of 2023 from 7.2% for the first nine months of 2022 primarily due to an increase in the gross profit margin, partially offset by an increase in our selling and administrative expenses as a percent of revenue. In Other Southern Europe, the OUP margin decreased to 2.1% for the first nine months of 2023 from 2.9% for the first nine months of 2022 primarily due to an increase in our selling and administrative expenses as a percent of revenue, partially offset by an increase in gross profit margin staffing services.

#### Northern Europe

In Northern Europe, the largest country operations include the United Kingdom, the Nordics, Germany, the Netherlands and Belgium (comprising 35%, 20% 19%, 15%, 10% 11% and 9%, respectively, of Northern Europe's revenues). In the Northern Europe region, revenues from services decreased -4.2% (-9.5% -10.1% (-12.1% in constant currency) in the third first quarter of 2023 2024 compared to the third first quarter of 2022 2023. Within Northern Europe, we experienced revenue decreases in the United Kingdom and of \$35.1 million, the Nordics of -10.3% \$59.2 million, Germany of \$8.4 million and -16.9% the Netherlands of \$3.3 million, which represented revenue decreases of -10.4%, -26.1%, -6.0% and -3.3%, respectively (-16.6% (-14.1%, -25.3%, -7.0% and -14.6% -4.4%, respectively, in constant currency). These decreases were partially offset by a revenue increase in Germany, the Netherlands and Belgium of 11.1% \$3.3 million, 0.6% and 12.3%, respectively (2.8%, -6.9% and 4.0%, respectively, which represented a revenue increase of 4.7% (3.5% in constant currency). The revenue decrease in Northern Europe was primarily due to decreased demand of \$89.9 million for our Manpower and Experis staffing/interim services, decreased demand of \$18.3 million for our Experis Solutions services and the -15.7% decrease (-21.2% in constant currency) decreased demand of \$10.6 million in our permanent recruitment business, partially offset by the \$20.1 million favorable impact of foreign currency exchange rates and the increased demand for our Talent Solutions outplacement services.

In the Northern Europe region, revenues from services decreased -7.8% (-6.5% in constant currency and -6.3% in organic constant currency) in the first nine months of 2023 compared to the first nine months of 2022. We experienced revenue decreases in the United Kingdom, Nordics, and the Netherlands of -14.0%, -14.0% and -4.9%, respectively (-12.8%, -6.6% and -6.4%, respectively, in constant currency). These decreases were partially offset by revenue increases in Germany and Belgium of 4.5% and 4.5%, respectively (2.7% and 2.3%, respectively, in constant currency). The revenue decrease in Northern Europe was primarily due to decreased demand for our Manpower and Experis staffing/interim services, a -11.2% decrease (-9.8% in constant currency) in our permanent recruitment business and the unfavorable impact of foreign currency exchange rates, partially offset by the increased demand for our Talent Solutions outplacement services and increased demand within our MSP business.

Gross profit margin decreased by 80 basis points in the third quarter of 2023 2024 compared to the third quarter of 2022 2023 primarily due to business mix changes and a reduction decreased demand in our permanent recruitment activity.

Gross profit margin increased business, particularly in the first nine months of 2023 compared to Manpower and Experis, which contributed 60 basis points to the first nine months of 2022 primarily due to a decrease, decreased demand in our Experis Solutions services, which contributed 40 basis points to increases in the decrease, and decreases in our staffing/interim margins, and which contributed 40 basis points to the increased demand for decrease. These contributions were partially offset by a shift in business mix towards our higher-margin Talent Solutions outplacement services and MSP services, which had a 60 basis point offsetting impact.

Selling and administrative expenses increased 20.7% (14.1% decreased -11.5% (-13.3% in constant currency) in the third quarter of 2023 compared to the third quarter of 2022. The increase is primarily due to \$27.5 million the \$10.2 million decrease in restructuring salary costs incurred due to headcount reductions, the third quarter of 2023 compared to \$3.4 million decrease to zero in consulting and other outside services, the third quarter of 2022 and the unfavorable impact of currency exchange rates, partially offset by a \$3.3 million decrease in bonuses and sales commissions as a result of decreased profitability in certain markets. The markets and no restructuring charges costs incurred in 2024 compared to \$2.5 million in 2023. These decreases were partially offset by the \$3.0 million unfavorable impact of currency exchange rates.

OUP in Northern Europe decreased -99.9% (-108.6% in constant currency), which represents a 0.0% OUP margin, a decrease from 0.5% in the third quarter of 2023. This OUP decrease was primarily related to headcount reductions and professional and other fees driven by a decrease in Germany profitability of \$14.6 million and headcount reductions our bench model countries in the Nordics, which experienced an aggregate decrease of \$6.9 million \$8.5 million, as well as partially offset by increased profitability in the United Kingdom, other bench model countries, notably Germany and the Netherlands, which experienced increases of \$4.8 million and Belgium.

Selling \$1.0 million, respectively. The OUP decrease was partially offset by decreased selling and administrative expenses increased 5.7% (6.5% as a percentage of revenue as we saw the effects of restructuring actions taken in the prior year period.

#### APME

Revenues from services decreased -11.7% (-4.8% in constant currency and 6.6% -3.6% in organic constant currency) in the first nine months of 2023 compared to the first nine months of 2022. The increase is primarily due to \$37.7 million in restructuring costs incurred in the first nine months of 2023 compared to zero in the first nine months of 2022 and the favorable impact of currency exchange rates, partially offset by the disposition of our Russia business of \$9.7 million incurred in the first nine months of 2022. The restructuring charges in the first nine months of 2023 were primarily related to headcount reductions and professional and other fees in Germany of \$19.1 million and headcount reductions in the Nordics of \$12.1 million, as well as the Netherlands, United Kingdom and Belgium.

OUP margin for Northern Europe decreased to -3.4% in the third quarter of 2023 from 1.3% in the third quarter of 2022 and decreased to -1.2% in the first nine months of 2023 from 0.9% in the first nine months of 2022. The decrease in both periods was primarily due to an increase in our selling and administrative expenses as a percent of revenue as we incurred significant restructuring costs compared to the prior year period.

#### APME

Revenues from services decreased -3.8% (-1.6% in constant currency) in the third quarter of 2023 compared to the third quarter of 2022. In Japan (which represents 49% of APME's revenues), revenues from services increased 5.8% (10.5% in constant currency) due to increased demand in our Manpower and Experis staffing/interim services, partially offset by the unfavorable impact of foreign currency exchange rates. In Australia (which represents 8% 51% of APME's revenues), revenues from services decreased -36.8% (-34.1% -5.3% (increase of 6.3% in

constant currency), primarily due to decreased demand for our RPO permanent recruitment services, decreased demand for our Experis interim services and the \$33.2 million unfavorable impact of foreign currency exchange rates, partially offset by increased demand of \$20.4 million for our Manpower staffing services and increased demand for our Talent Solutions outplacement Experis staffing/interim services.

Revenues In Australia, revenues from services decreased -2.1% (increase of 3.4% -52.9% (-51.0% in constant currency) in the first nine months of 2023 compared to the first nine months of 2022. In Japan, revenues from services increased 3.4% (11.7% in constant currency), primarily due to increased decreased activity of \$25.3 million in our RPO permanent recruitment business driven by the non-recurrence of a government contract from the prior year period, decreased demand of \$9.4 million for our Manpower and Experis staffing/interim services and increased demand for the \$1.3 million unfavorable impact of foreign currency exchange rates.

Gross profit margin decreased 160 basis points in 2024 compared to 2023 primarily due to decreased activity in our permanent recruitment business, particularly Talent Solutions outplacement services, partially offset by RPO, which contributed 260 basis points to the decrease and the unfavorable impact of foreign currency exchange rates. In Australia, revenues from services decreased -18.6% (-13.9% in constant currency), primarily due to rates, which contributed 10 basis points to decreased demand for our Experis interim services, decreased demand for our RPO permanent recruitment services and the unfavorable impact of currency exchange rates, decrease. These contributions were partially offset by increased demand for improvement in our Manpower staffing services staffing/interim margins, which had a 90 basis point offsetting impact, and increased demand for our Talent Solutions outplacement services.

35

---

Gross profit margin decreased improvements in the third quarter of 2023 compared to the third quarter of 2022 primarily due to business mix changes and a reduction in permanent recruitment activity.

Gross profit margin increased in the first nine months of 2023 compared to the first nine months of 2022 primarily due to an increased business mix of our higher-margin Talent Solutions Right Management outplacement services and increases in the margin for our staffing/interim business, margins, which had a 20 basis point offsetting impact.

Selling and administrative expenses decreased -14.2% (-12.1% -23.7% (-17.9% in constant currency and -16.9% in organic constant currency) in the third first quarter of 2023 2024 compared to the third first quarter of 2022, 2023. The decrease is primarily due to a \$6.3 million decrease in salary related costs from a reduction in headcount, the \$4.6 million favorable impact of currency exchange rates, a \$2.8 million decrease in office lease related costs and a reduction in costs related to consulting and outside services, partially offset by \$0.8 million in zero restructuring costs incurred in the third quarter of 2023 2024 compared to zero \$2.5 million in the third quarter of 2022. The restructuring charges in the third quarter of 2023 were primarily related to headcount reductions in Australia. 2023.

Selling and administrative expenses OUP in APME decreased -4.4% (increase -6.1% (increases of 1.0% 3.3% in constant currency and 4.7% in organic constant currency) which represents a 3.7% OUP margin, an increase from 3.5% in the first nine months quarter of 2023 compared to the first nine months 2023. This OUP decrease was primarily driven by decreased profitability in Japan reporting unit of 2022. The decrease is primarily due to a decrease in salary related costs from a reduction in headcount and a decrease in office lease related costs, \$0.8 million, partially offset by \$3.3 million in restructuring costs incurred in the first nine months of 2023 compared decreases to zero in the first nine months of 2022. The restructuring charges in the first nine months of 2023 were primarily related to headcount reductions in Australia.

OUP margin for APME increased to 4.3% in the third quarter of 2023 from 4.0% in the third quarter of 2022 due to a decrease in our selling and administrative expenses, as a percent of revenue, partially offset by decreased gross profit margins as we saw a reduction in our higher-margin permanent recruitment activity, noted above.

OUP margin for APME increased to 4.0% in the first nine months of 2023 from 3.6% in the first nine months of 2022 due to a decrease in our selling and administrative expenses as a percent of revenue and an increase to the gross profit margin as we saw increases in our higher-margin Talent Solutions outplacement services.

## Financial Measures

### *Constant Currency and Organic Constant Currency Reconciliation*

Changes in our financial results include the impact of changes in foreign currency exchange rates, acquisitions, and dispositions. We provide “constant currency” and “organic constant currency” calculations in this report to remove the impact of these items. We express year-over-year variances that are calculated in constant currency and organic constant currency as a percentage.

When we use the term “constant currency,” it means that we have translated financial data for a period into United States dollars using the same foreign currency exchange rates that we used to translate financial data for the previous period. We believe that this calculation is a useful measure, indicating the actual growth or decline of our operations. We use constant currency results in our analysis of subsidiary or segment performance, including Argentina which operates in a hyperinflationary economy. We also use constant currency when analyzing our performance against that of our competitors. Substantially all of our subsidiaries derive revenues and incur expenses within a single country and, consequently, do not generally incur currency risks in connection with the conduct of their normal business operations. Changes in foreign currency exchange rates primarily impact reported earnings and not our actual cash flow unless earnings are repatriated.

When we use the term “organic constant currency,” it means that we have further removed the impact of acquisitions in the current period and dispositions from the prior period from our constant currency calculation. We believe that this calculation is useful because it allows us to show the actual growth or decline of our ongoing business.

The constant currency and organic constant currency financial measures are used to supplement those measures that are in accordance with United States Generally Accepted Accounting Principles (“GAAP”). These Non-GAAP financial measures may not provide information that is directly comparable to that provided by other companies in our industry, as other companies may calculate such financial results differently. These Non-GAAP financial measures are not measurements of financial performance under GAAP, and should not be considered as alternatives to measures presented in accordance with GAAP.

Constant currency and organic constant currency percent variances, along with a reconciliation of these amounts to certain of our reported results, are provided below:

#### Liquidity and Capital Resources

Cash used to fund our operations is primarily generated through operating activities and provided by our existing credit facilities. We believe our available cash and existing credit facilities are sufficient to cover our cash needs for the foreseeable future. We assess and monitor our liquidity and capital resources globally. We use a global cash pooling arrangement, intercompany borrowing, and some local credit lines to meet funding needs and allocate our capital resources among our various entities. As of **September 30, 2023** **March 31, 2024**, we had **\$500.3 million** **\$429.3 million** of cash held by foreign subsidiaries. We have historically made and anticipate future cash repatriations to the United States from certain foreign subsidiaries to fund domestic operations.

Cash generated in operating activities was **\$234.5 million** **\$116.0 million** during the **nine** **three** months ended **September 30, 2023** **March 31, 2024**, as compared to **\$289.2 million** **\$124.6 million** generated during the **nine** **three** months ended **September 30, 2022** **March 31, 2023**. Changes in operating assets and liabilities utilized **\$42.1 million** generated **\$37.1 million** and **\$2.4 million** of cash during the **nine** **three** months ended **September 30, 2023** compared to **\$141.6 million** utilized during the **nine** months ended **September 30, 2022**, **March 31, 2024** and **2023**, respectively. These changes were primarily attributable to the timing of collections and payments. Accounts receivable decreased to **\$4,600.2 million** **\$4,458.5 million** as of **September 30, 2023** **March 31, 2024** from **\$5,137.4 million** **\$4,830.0 million** as of **December 31, 2022** **December 31, 2023** primarily due to the revenue decline and the impact of changes in currency exchange rates. Days Sales Outstanding ("DSO") approximated **59** increased by one day from **December 31, 2023**, to **55** days as of **September 30, 2023**, an increase of 3 days from **December 31, 2022** **March 31, 2024**.

The nature of our operations is such that our most significant current asset is accounts receivable and our most significant current liabilities are payroll-related costs, which are generally paid either weekly or monthly. As the demand for our services increases, we generally experience an increase in our working capital needs, as we continue to pay our associates on a weekly or monthly basis while the related accounts receivable are outstanding for much longer, which may result in a decline in operating cash flows.

Conversely, as the demand for our services declines, we generally experience a decrease in our working capital needs, as the existing accounts receivable are collected and not replaced at the same level, resulting in a decline of our accounts receivable balance, with less of an effect on current liabilities due to the shorter cycle time of the payroll related items. While this may result in an increase in our operating cash flows, longer payment terms and timing of payroll, tax and supplier related payments significantly impact our cash position and cash flows each period. Any increase in operating cash flows from an economic slowdown would not be sustained in the event that a downturn continues for an extended period.

Capital expenditures were \$55.1 million \$11.8 million for the nine three months ended September 30, 2023 March 31, 2024 compared to \$55.9 million \$13.2 million for the nine three months ended September 30, 2022 March 31, 2023. These expenditures were primarily comprised of purchases of computer equipment, office furniture and other costs related to office openings and refurbishments, as well as capitalized software costs.

From time to time, we acquire and invest in companies throughout the world, including franchises. No cash consideration was paid during For the nine three months ended September 30, 2023. For the nine months ended September 30, 2022 March 31, 2024, the total cash consideration paid for acquisitions, net of cash acquired, was \$18.1 million \$1.1 million, which primarily represents a contingent consideration payment for related to a previous acquisition. No cash consideration was paid during the acquisition of Tingari, a talent solutions company in France, and contingent consideration payments associated with previous acquisitions.

Occasionally, we dispose of parts of our operations based on risk considerations and to optimize our global strategic and geographic footprint and overall efficiency. On September 29, 2023, we disposed of our Philippines business in our APME segment for total consideration of \$6.5 million. In connection with the disposition, we recognized a one-time net loss on disposition of \$1.3 million three months ended March 31, 2023.

Net debt repayments borrowings were \$13.7 million and \$67.5 million \$3.5 million in the nine three months ended September 30, 2023 and September 30, 2022, respectively. The higher balance March 31, 2024 as compared to net repayments of \$10.7 million in 2022 resulted from the \$75.0 million repayment we made into our revolving credit facility to clear the outstanding borrowings related to our 2021 Experis acquisition. three months ended March 31, 2023.

Our €500.0 million notes and €400.0 million notes are due June 2026 and June 2027, respectively. When those notes mature, we plan to either repay the amounts with available cash or borrowings under our \$600.0 million revolving credit facility or a new borrowing. The credit terms, including interest rate and facility fees, of any replacement borrowings will be dependent upon the condition of the credit markets at that time. We currently do not anticipate any problems accessing the credit markets for replacement of those notes.

Our \$600.0 million revolving credit agreement requires that we comply with a leverage ratio (Net Debt-to-Net Earnings before interest and other expenses, provision for income taxes, intangible asset amortization expense, depreciation and amortization expense ("EBITDA")) of not greater than 3.5 to 1 and a fixed charge coverage ratio of not less than 1.5 to 1. As defined in the agreement, we had a Net Debt-to-EBITDA ratio of 1.41 2.03 to 1 and a fixed charge coverage ratio of 4.26 3.17 to 1 as of September 30, 2023 March 31, 2024. Based on our current forecast, we expect to be in compliance with our financial covenants for the next 12 months.

As of September 30, 2023 March 31, 2024, we had letters of credit of \$0.4 million issued under our \$600.0 million revolving credit facility. Additional borrowings of \$599.6 million were available to us under the facility as of September 30, 2023 March 31, 2024.

In addition to the previously mentioned facilities, we maintain separate bank credit lines with financial institutions to meet the working capital needs of our subsidiary operations. As of September 30, 2023 March 31, 2024, such uncommitted credit lines totaled \$299.7 million \$301.7 million, of which \$283.7 million \$284.0 million was unused. Under the revolving credit agreement, total subsidiary borrowings cannot exceed \$300.0 million in the first, second and fourth quarters, and \$600.0 million in the third quarter of each year. Due to these limitations, additional borrowings of \$282.3 million could have been made under these lines as of March 31, 2024.

We have assessed our liquidity position as of September 30, 2023 March 31, 2024 and for the near future. As of September 30, 2023 March 31, 2024, our cash and cash equivalents balance was \$571.1 million \$604.8 million. We also have access to the previously mentioned revolving

credit facility that could have immediately provided us with up to \$600.0 million of additional cash, less any outstanding borrowings and letters of credit, and we have an option to request an increase to the total availability under the revolving credit facility by an additional \$300.0 million and each lender may participate in the requested increase at their discretion. In addition, we have access to the previously mentioned credit lines to meet the working capital needs of our subsidiaries, of which \$283.7 million \$282.3 million was available to use as of September 30, 2023 March 31, 2024. Our €500.0 (\$526.6) 538.1 million notes mature in June 2026, and our €400.0 (\$419.4) 428.7 million notes mature in June 2027. Based on the above, we believe we have sufficient liquidity and capital resources to satisfy future requirements and meet our obligations currently and in the near future.

The Board of Directors declared a semi-annual dividend of \$1.47 \$1.54 and \$1.36 \$1.47 per share on May 5, 2023 May 3, 2024 and May 6, 2022 May 5, 2023, respectively. The 2024 dividends are payable on June 14, 2024 to shareholders of record as of June 3, 2024. The 2023 dividends were payable paid on June 15, 2023 to shareholders of record as of June 1, 2023. The 2022 dividends were paid on June 15, 2022 to shareholders of record as of June 1, 2022.

In August 2023 and August 2021, the Board of Directors authorized the repurchase of 5.0 million shares of our common stock, with terms consistent with the previous authorizations. The authorization was in addition to the August 2021 and 2019 Board authorizations to repurchase 4.0 million and 6.0 million shares of our common stock, respectively. Share We conduct share repurchases may be made from time to time through a variety of methods, including open market purchases, block transactions, privately negotiated transactions or similar facilities. During the first nine three months of 2023, ended March 31, 2024, we repurchased a total of 1.7 million 0.7 million shares under the 2023 authorization at a cost of \$50.0 million. During the three months ended March 31, 2023, we repurchased a total of 0.4 million shares under the 2021 authorization at a cost of \$129.8 million. During the first nine months of 2022, we repurchased a total of 2.8 million shares comprised of 1.2 million shares under the 2019 authorization and 1.6 million shares under the 2021 authorization, at a total cost of \$245.0 million \$30.0 million. As of September 30, 2023 March 31, 2024, there were 5.0 million and 0.3 million 3.9 million shares remaining authorized for repurchase under the 2023 authorization and 2021 authorization, respectively, and no shares remaining authorized for repurchase under the 2019 2021 authorization.

We had aggregate commitments of \$2,010.5 million \$2,220.3 million as of September 30, 2023 March 31, 2024 related to debt, operating leases, severance and office closure costs, transition tax resulting from the Tax Act and certain other commitments compared to \$2,020.3 million \$2,320.5 million as of December 31, 2022 December 31, 2023.

We also have entered into guarantee contracts and stand-by letters of credit totaling \$805.5 million \$739.9 million and \$840.2 million \$745.7 million as of September 30, 2023 March 31, 2024 and December 31, 2022 December 31, 2023, respectively (\$756.7 691.1 million and \$793.0 million \$696.9 million for guarantees as of March 31, 2024 and December 31, 2023, respectively, and \$48.8 million and \$47.2 million for stand-by letters of credit as of September 30, 2023 and December 31, 2022, respectively) both dates). The guarantees primarily relate to staffing license requirements, operating leases and indebtedness. The stand-by letters of credit mainly relate to workers' compensation in the United States. If certain conditions were met under these arrangements, we would be required to satisfy our obligations in cash. Due to the nature of these arrangements and our historical experience, we do not expect any significant payments under these arrangements. Therefore, they have been excluded from our aggregate commitments. The cost of these guarantees and letters of credit was \$1.3 million \$0.4 million and \$0.0 million for both the nine three months ended September 30, 2023 March 31, 2024 and 2022, 2023, respectively.

During the **nine** three months ended **September 30, 2023** **March 31, 2024**, we recorded \$47.1 million in severance restructuring costs and \$12.1 million in other restructuring costs, primarily consisting of professional and other fees associated with restructuring activities. We did not record any restructuring costs. We recorded \$6.6 million in restructuring costs during the **nine** three months ended **September 30, 2022** **March 31, 2023**. During the **nine** three months ended **September 30, 2023** **March 31, 2024**, we made payments of \$31.7 million \$30.3 million out of our restructuring reserve, which is used for severance, office closures and consolidations, and professional and other fees related to restructuring in multiple countries and territories. We expect a majority of the remaining \$40.7 million \$59.7 million reserve will be paid by the end of 2024.

#### Application of Critical Accounting Policies

In accordance with the accounting guidance for goodwill, we perform an annual impairment test of goodwill at our reporting unit level during the third quarter, or more frequently if events or circumstances change that would more likely than not reduce the fair value of our reporting units below carrying value.

Estimated cash flows and goodwill are grouped at the reporting unit level, which the company has determined to be a component of the operating segments for which discrete financial information is available and for which segment management regularly reviews the reporting results.

We evaluate the recoverability of goodwill utilizing an income approach that estimates the fair value of the future discounted cash flows to which the goodwill relates. This approach reflects management's internal outlook of the reporting units, which is believed to be the best determination of value due to management's insight and experience with the reporting units. Significant assumptions used in our goodwill impairment test during the third quarter of 2023 included: expected future revenue growth rates, operating unit profit margins, working capital levels, discount rates, and a terminal value multiple. The expected future revenue growth rates and operating unit profit margins were determined after taking into consideration our historical revenue growth rates and operating unit profit margins, our assessment of future market potential, and our expectations of future business performance.

40

---

We believe that the future discounted cash flow valuation model provides the most reasonable and meaningful fair value estimate based on the reporting units' projections of future operating results and cash flows and is consistent with our view of how market participants would value the company's reporting units in an orderly transaction.

In the event the fair value of a reporting unit is less than the carrying value, including goodwill, we would record an impairment charge based on the excess of a reporting units' carrying amount over its fair value.

We performed our annual impairment test of our goodwill during the third quarter of 2023 and there was no impairment of our goodwill as a result of our annual tests. Refer to Note 1 for results of our annual goodwill impairment testing.

#### **Item 3 – Quantitative and Qualitative Disclosures About Market Risk**

Our **2022** **2023** Annual Report on Form 10-K contains certain disclosures about market risks affecting us. There have been no material changes to the information provided which would require additional disclosures as of the date of this filing.

#### **Item 4 – Controls and Procedures**

We maintain a set of disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports filed by us under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and that such information is accumulated and communicated to management of the company, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding timely disclosure. We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and our Executive Vice President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures at a reasonable assurance level pursuant to Rule 13a-15 of the Exchange Act. Based on that evaluation, our Chief Executive Officer and our Executive Vice President and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective at the reasonable assurance level.

There have been no changes in our internal control over financial reporting identified in connection with the evaluation discussed above that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## Exhibit 10.1

### ManpowerGroup Inc.

#### EXECUTIVE OFFICER PERFORMANCE SHARE UNIT AGREEMENT

This Performance Share Unit Agreement (this "Agreement") is executed as of \_\_\_\_\_ by and between  
ManpowerGroup Inc., a Wisconsin corporation (the "Corporation"), and \_\_\_\_\_ (the "Employee").

WITNESSETH:

WHEREAS the Board of Directors of the Corporation has established the 2011 Equity Incentive Plan (the "Plan") with the approval of the shareholders of the Corporation; and

WHEREAS, the Employee has been granted Performance Share Units under the Plan subject to the terms provided in this Agreement and the Plan.

NOW, THEREFORE, the Corporation and the Employee hereby agree as follows:

**1. Provisions of Plan Control.** This Agreement shall be governed by the provisions of the Plan, the terms and conditions of which are incorporated herein by reference. The Plan empowers the Administrator to make interpretations, rules and regulations thereunder, and, in general, provides that determinations of the Administrator with respect to the Plan shall be binding upon the Employee. Unless otherwise provided herein, all capitalized terms in this Agreement shall have the meanings ascribed to them in the Plan. A copy of the Plan will be delivered to the Employee upon reasonable request.

**2. Terms of Award and Performance Goal.** The Employee has been granted a Target Grant of \_\_\_\_\_ Performance Share Units under the Plan. The actual number of Performance Share Units that may be earned by Employee will be determined as described below, based upon the actual results for the Performance Period compared to the Performance Goal. If the Conditions are not satisfied, then except as otherwise provided in this Agreement, or the Plan (to the extent not superseded by this Agreement), no Performance Share Units shall be vested. The Performance Goal and the number of Performance Share Units that may be earned based on actual results for the average EBITAMP for the Performance Period will be as follows:

**a. Initial Calculation of Performance Share Units Earned**

Average EBITAMP for the Performance Period  
Initial Performance Share Units  
Earned

Threshold EBITAMP (\_\_\_\_) 0% of Target Grant

Target EBITAMP (\_\_\_\_) 100% of Target Grant

Outstanding EBITAMP (\_\_\_\_) 200% of Target Grant

If actual EBITAMP for the Performance Period is at or below Threshold EBITAMP specified above, no Performance Share Units will be earned, and if actual EBITAMP for the Performance Period exceeds Outstanding EBITAMP specified above, the number of Performance Share Units earned will equal the number earned for Outstanding EBITAMP. Actual EBITAMP for the Performance Period between Threshold EBITAMP and Target EBITAMP, or between Target EBITAMP and Outstanding EBITAMP shall result in a number of Performance Share Units

---

**Exhibit 10.1**

earned determined on a linear basis between. Notwithstanding the foregoing, if the EBITA Dollar Gate of \$\_\_\_\_\_ is not achieved during the Performance Period, the maximum number of Performance Share Units that can be earned will not exceed the Target Grant.

## b. Adjustment of Performance Share Units Earned

If any Performance Share Units are earned pursuant to Section 2(a) above, the number of Performance Share Units earned shall be adjusted negatively or positively based on the Corporation's Actual TSR against the total shareholder return for the rTSR Peer Group for the Performance Period, as determined pursuant to the TSR Calculation Methodology, as follows:

- If the Actual TSR falls in the top quartile of total shareholder return for the rTSR Peer Group for the Performance Period, the number of Performance Share Units earned shall be increased by 25%.
- If the Actual TSR falls in the bottom quartile of total shareholder return for the rTSR Peer Group for the Performance Period, the number of Performance Share Units shall be decreased by 25%.
- If the Actual TSR falls in the second quartile (74th percentile through 51st percentile) of total shareholder return for the rTSR Peer Group for the Performance Period, an upward adjustment shall be made to the amount of PSUs earned using linear interpolation. The modifier in such case shall be calculated as follows:  $1 + ((\text{Percentile of the Actual TSR rank among the rTSR Peer Group for the Performance Period rounded to the nearest whole number} - 50) \div 100)$ , where the resulting modifier will be multiplied by the number of Performance Share Units otherwise earned to determine the adjusted number earned.
- If the Actual TSR falls in the third quartile (49th percentile through 26th percentile) of total shareholder return for the rTSR Peer Group for the Performance Period, a downward adjustment shall be made to the amount of PSUs earned using linear interpolation. The modifier in such case shall be calculated as follows:  $1 - ((50 - \text{Percentile of the Actual TSR rank among the rTSR Peer Group for the Performance Period rounded to the nearest whole number}) \div 100)$ , where the resulting modifier will be multiplied by the number of Performance Share Units otherwise earned to determine the adjusted number earned.
- *By way of illustration only, if the Actual TSR resulted in the Corporation being in the 40<sup>th</sup> percentile of the rTSR Peer Group for the Performance Period, the number of Performance Share Units earned would be multiplied by 0.9 (1- ((50-40) / 100)).*

The Committee shall use its reasonable discretion in determining the adjustment pursuant to this Section 2(b) and the Committee's determination of where the Actual TSR falls relative to the total shareholder return for the rTSR Peer Group and the application of the modifier described in this Section 2(b) shall be adjusted in the event of any material non-recurring or unique event or circumstance that the Committee deems is appropriate, in such manner it determines is appropriate. Notwithstanding the foregoing, no such adjustment shall (i) reduce the number of Performance Share Units earned below the number of Performance Share Units earned in Section 2(a) above for achieving Threshold EBITAMP, (ii) increase the number of Performance Share Units earned in excess of the number of Performance Share Units earned in Section 2(a) above for achieving Outstanding EBITAMP, or (iii) increase the number of Performance Share

## Exhibit 10.1

Units earned above the number of Performance Share Units earned for achieving Target EBITAMP if the EBITA Dollar Gate of \$ \_\_\_\_\_ is not achieved during the Performance Period. Notwithstanding anything herein to the contrary, the Committee retains the discretion to decrease the number of Performance Share Units earned under this Award by any amount.

3. Award Payment. The number of Performance Share Units earned shall be paid in Shares in February of the year after the Performance Period as soon as administratively practicable after the Committee has approved and certified the number of Performance Share Units that have been earned hereunder. Notwithstanding the foregoing, Awards of Performance Share Units that become earned and vested upon the Employee's death, Disability or a Triggering Event as provided in Sections 4 or 5(b) below shall be paid in Shares as soon as administratively practicable after such death, Disability or Triggering Event. Further, to the extent that Performance Share Units granted hereunder become earned and vested in connection with the Employee's Regular or Qualified Retirement, or upon an involuntary termination of employment (other than for Cause) or voluntary termination for Good Reason as provided in Section 5(a) below, such Award shall be paid to the Employee in Shares as soon as administratively practicable after the date the Committee has certified and approved the number of Performance Share Units that have been earned hereunder or, if required in order to avoid the imposition of a Section 409A penalty tax to the Employee, the payment of the Award shall be further delayed until the first business day after the date that is six (6) months after the date of the Employee's "separation of service" as such term is defined under Section 409A of the Code.

4. Termination of Employment. Except as otherwise provided in the Plan and except as otherwise provided in this Agreement, Employee must be an employee of the Corporation or any of its direct and indirect subsidiaries (the "ManpowerGroup") continuously from the date of this Award until the last day of the Performance Period in order for Employee to receive any Shares with respect to any Performance Share units he or she may earn hereunder. Notwithstanding the foregoing, Sections 10(d)(2) and (3) of the Plan, regarding the earning and accelerated vesting of Awards upon a death, Disability or Retirement, shall not apply to this Agreement. Instead, upon Employee's death or Disability during the Performance Period, Employee will immediately earn and become vested in the number of Performance Share Units the Employee would have otherwise earned if 100% of the Target Performance Goal had been achieved at the end of the Performance Period, with no adjustment under Section 2(b) above. In the event of Employee's Regular Retirement during the Performance Period, Employee shall earn and become vested in a prorated number of Performance Share Units. The number of Performance Share Units earned and vested in connection with a Regular Retirement shall be the number of Performance Share Units determined by multiplying the number of Performance Share Units that would have been earned, taking into account the achievement of the Annual EBITA Dollar Gate during the Performance Period, if Employee had remained an Employee until the last day of the Performance Period, determined in accordance with the actual EBITAMP achieved at the end of the Performance Period, taking into account any adjustment pursuant to Section 2(b), above, by the quotient of (x) the number of full months between the first day of the Performance Period and the last day of the month in which the Employee's Regular Retirement occurs divided by (y) 36 months. Upon Employee's Qualified Retirement, Employee shall earn and become vested in the same number of Performance Share Units as a Regular Retirement, except that no proration shall be applied.

5. Triggering Event. Section 10(e) of the Plan, regarding the earning and accelerated vesting of Awards after a Triggering Event or during a Protected Period, shall not apply to this Agreement. Instead,

---

#### Exhibit 10.1

- a. If a Triggering Event occurs during the Performance Period, upon the Employee's termination of employment with the ManpowerGroup other than for Cause or upon the Employee's voluntary termination of employment for Good Reason during the two-year period following the Triggering Event (but not later than the end of the Performance Period), Employee shall earn and/or become vested in the number of Performance Share Units that would have been earned if Employee had remained an Employee until the last day of the Performance Period (as determined

by the Committee, taking into account (i) treatment of Participants with similar grants whose employment has continued beyond the Performance Period, (ii) revised Performance Goals, if any, as agreed to between the relevant parties to the Triggering Event, and (iii) the Corporation's achievement toward the Performance Goals and the TSR of the Corporation compared to the total shareholder return of the rTSR Peer Group, if measured after the Triggering Event.

- b. If the Employee's employment is terminated by the ManpowerGroup other than for Cause or if the Employee voluntarily terminated his or her employment for Good Reason during a Protected Period, upon a Triggering Event, Employee shall earn and become vested in the same number of Performance Share Units that would have been earned if Employee had remained employed until the date of the Triggering Event and was terminated immediately thereafter (i.e., in the manner covered under Section 5(a) above).

**6. Dividend Equivalents and Voting Rights.** The Employee shall be credited with additional PSUs equivalent to the dividends or distributions the Employee would have received if the Employee had been the owner of a number of Shares equal to the number of Performance Share Units earned by the Employee during the period that the Employee holds Performance Share Units. The manner of calculating and crediting such additional Performance Share Units shall be determined in the same manner as dividend equivalents are credited on Restricted Share Units under Section 8(j) the Plan, with two differences: (1) at each annual or other crediting date, the number of additional Performance Share Units credited shall be based on the assumption that the Performance Share Unit award will be earned at 100% of the Target Grant, and (2) immediately prior to the Award Payment as set forth in Section 3 above, the number of additional Performance Share Units credited to the Employee on each crediting date shall be adjusted to reflect the actual number of Performance Share Units earned by the Employee under Section 2 above, instead of using the Target Grant assumption. Performance Share Units credited to Employee under this Section 6 shall vest and be distributed on the same terms as the Performance Share Units granted to Employee under Section 2. The Employee shall not have any voting or other ownership rights in the Corporation arising from the grant of Performance Share Units under this Agreement.

**7. Taxes.** The Corporation may require payment or reimbursement of or may withhold any tax that it believes is required as a result of the grant or vesting of such Performance Share Units or payments of Shares in connection with the Performance Share Units, and the Corporation may defer making delivery of any Shares in respect of Performance Share Units until arrangements satisfactory to the Corporation have been made with regard to any such payment, reimbursement, or withholding obligation.

**8. Definitions.**

4

---

**Exhibit 10.1**

- a. "Actual TSR" means the total shareholder return of the Corporation for the Performance Period, calculated pursuant to the "TSR Calculation Methodology."
- b. "Target Grant" means the number of Performance Share Units established for Employee to earn at Target EBITAMP.
- c. "EBITAMP" means annual operating profit plus amortization, divided by revenue from services, both determined in accordance with GAAP as reported on the Company's audited financial statements, with the following

adjustments to be made (a) to reverse the impact of a change in accounting method during the Performance Period (b) or for any of the following items: (i) extraordinary items, (ii) goodwill impairment, (iii) nonrecurring restructuring gains or charges, (iv) accounting adjustments related to acquisitions or dispositions where the Company previously held an ownership interest, (v) non-recurring adjustments exceeding \$10 million pertaining to prior periods outside of the period of measurement, (vi) tax or regulatory law changes, (vii) change in client contracts that result in a change in accounting or (c) to reflect the impact of material acquisitions made by the Company during the Performance Period.

- d. "Performance Goal" means the EBITAMP targets for the Performance Period as set by the Administrator.
- e. "Performance Period" means the 36-month period beginning on \_\_\_\_\_ and ending on \_\_\_\_\_.
- f. "Service" means the period beginning on the date the Employee's employment with the ManpowerGroup commences and ending on the date the Employee's employment with the ManpowerGroup terminates.
- g. "EBITA Dollar Gate" means the minimum average annual operating profit dollars plus amortization that can be achieved during the Performance Period. Operating profit is determined in accordance with GAAP as reported in the Corporation's audited financial statements, with adjustments to be made (a) to reverse the impact of a change in accounting method during the Performance Period (b) or for any of the following items: (i) extraordinary items, (ii) goodwill impairment, (iii) nonrecurring restructuring gains or charges, (iv) accounting adjustments related to acquisitions or dispositions where the Company previously held an ownership interest, (v) non-recurring adjustments exceeding \$10 million pertaining to prior periods outside of the period of measurement, (vi) tax or regulatory law changes, (vii) change in client contracts that result in a change in accounting or (c) to reflect the impact of material acquisitions made by the Company during the Performance Period.
- h. "Qualified Retirement" will mean termination of the Employee's employment on or after both of the following conditions have been met (or waived by the Committee):

---

### Exhibit 10.1

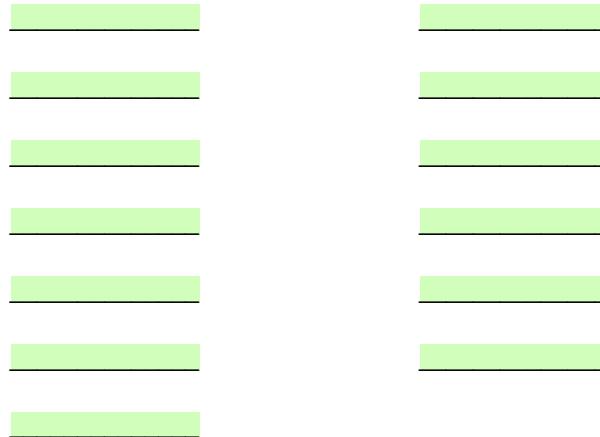

- i. Employee has attained age 55 and has completed 10 years of Service; and
- ii. The Committee has approved a succession plan, as recommended by the Corporation's CEO, for the Employee or with respect to his position.

i. "Regular Retirement" will mean termination of the Employee's employment on or after the Employee has attained age 55 and has completed 10 years of Service, but at a time when the conditions required for a Qualified Retirement have not been met nor waived.

j. "rTSR Peer Group" shall include the following companies:

\_\_\_\_\_

\_\_\_\_\_

k. The companies in the rTSR Peer Group shall be adjusted in the event of any merger, acquisition, divestiture, business combination or material non-recurring or unique event or circumstance impacting a selected company or any other circumstance that the Committee determines is appropriate, in such manner it determines is appropriate. "Termination for "Cause" will mean termination of the Employee's employment upon:

- i. Employee's repeated failure to perform his duties with the ManpowerGroup in a competent, diligent and satisfactory manner as determined by the Corporation's Chief Executive Officer in his reasonable judgment;
- ii. Employee's failure or refusal to follow the reasonable instructions or direction of the Corporation's Chief Executive Officer, which failure or refusal remains uncured, if subject to cure, to the reasonable satisfaction of the Corporation's Chief Executive Officer for five (5) business days after receiving notice thereof from the Corporation's Chief Executive Officer, or repeated failure;

6

or refusal to follow the reasonable instructions or directions of the Corporation's Chief Executive Officer;

- iii. any act by Employee of fraud, material dishonesty or material disloyalty involving the ManpowerGroup;
- iv. any violation by Employee of a ManpowerGroup policy of material import (including, but not limited to, the Code of Business Conduct and Ethics, the Insider Trading Policy, the Anti-Corruption Policy and policies included in the Employee Handbook);
- v. any act by Employee of moral turpitude which is likely to result in discredit to or loss of business, reputation or goodwill of the ManpowerGroup;
- vi. Employee's chronic absence from work other than by reason of a serious health condition;

- vii. Employee's commissions of a crime the circumstances of which substantially relate to Employee's employment duties with the ManpowerGroup; or
- viii. the willful engaging by Employee in conduct which is demonstrably and materially injurious to the ManpowerGroup.
- ix. For purposes of this Agreement, no act, or failure to act, on Employee's part will be deemed "willful" unless done, or omitted to be done, by Employee not in good faith.

I. "TSR Calculation Methodology" means that both Actual TSR and the total shareholder return for each company in the rTSR Peer Group shall be calculated using the 20-day trading price average of a share of the Corporation's common stock or an rTSR Peer Group company's common stock ending on the last day immediately prior to the commencement of the Performance Period and the 20-day trading price average ending on the last day of the Performance Period, adjusted to include dividends paid on a share during the Performance Period (i.e., using the dividend accumulation method and not the dividend reinvestment method for such adjustment).

m. "Good Reason" will mean, without the Employee's consent, the occurrence of any one or more of the following:

- i. any material breach of any material obligation of the ManpowerGroup for the payment or provision of compensation or other benefits to Employee;
- ii. a material diminution in Employee's base salary;
- iii. a material diminution in Employee's authority, duties or responsibilities, accompanied by a material reduction in

### Exhibit 10.1

Employee's target bonus opportunity for a given fiscal year (as compared to the prior fiscal year), except where all senior level executives have similar proportionate reductions in their target bonus percentages;

- iv. a material diminution in Employee's authority, duties or responsibilities which is not accompanied by a material reduction in Employee's target bonus opportunity but which diminution occurs within two years after the occurrence of a Triggering Event;
- v. a material reduction in Employee's target bonus opportunity for a given fiscal year (as compared to the prior fiscal year) which is not accompanied by a material diminution in Employee's authority, duties or responsibilities, but which reduction occurs within two years after the occurrence of a Triggering Event;
- vi. Employee's being required by the Corporation to materially change the location of his principal office, provided such new location is one in excess of fifty miles from the location of Employee's principal office before such change.

Notwithstanding the provisions above, Good Reason does not exist unless (i) Employee objects to any material diminution or breach described above by written notice to the Corporation within twenty (20) business days after such diminution or breach occurs, (ii) the Corporation fails to cure such diminution or breach within thirty (30) days after such notice is given and (iii) Employee's employment with the ManpowerGroup is terminated by Employee within ninety (90) days after such diminution or breach occurs.

9. Data Privacy. In order to facilitate the grant of RSUs hereunder, Employee acknowledges the collection, use and transfer of personal data as described in this Paragraph 9 and in the Corporation's Privacy Policy found at <https://manpowergroup.com/privacy-policy>. Employee understands that the Corporation and/or its Subsidiaries and/or agents working on its behalf, may hold certain personal information about the Employee such as the Employee's name, home address and telephone number, social security number, tax identification number or other employee identification number, country of residence, salary, shares of common stock or directorships held in the Corporation, details of all Corporation stock options or other entitlement to shares of common stock awarded, canceled, exercised, vested, unvested or outstanding, for the purpose of managing and administering the Plan ("Data"). Employee further understands that the Corporation and/or its Subsidiaries will transfer Data amongst themselves as necessary for the purposes of implementation, administration and management of participation in the Plan. The Corporation and/or any of its Subsidiaries may each further transfer Data to agents, such as to a broker or other third party, assisting the Corporation in the implementation, administration and management of the Plan including any requisite transfer of such Data as may be required for the subsequent holding of shares on the Employee's behalf. Employee understands that such Data recipients may be located in the Employee's country of residence or elsewhere, such as the United States. Employee authorizes all applicable parties specified herein to receive, possess, use, retain, transfer and retire Data in electronic or other form, for the purposes of implementing, administering and managing participation in the Plan. Employee understands that he or she may, at any time, view the Data, request changes or ask questions by contacting a global human resources representative of the Corporation.
